"(b) It is the sense of the Congress that the President should make every effort to negotiate a cooperative agreement with the Government of Canada aimed at preserving the mutual airshed of the United States and Canada so as to protect and enhance air resources and assure the attainment and maintenance of air quality protective of public health and welfare."

"(c) It is further the sense of the Congress that the President, through the Secretary of State working in concert with interested Federal agencies and the affected States, should take whatever diplomatic actions appear necessary to reduce or eliminate any undesirable impact upon the United States and Canada resulting from air pollution from any source."
§ 7417. Advisory committees

(a) Establishment; membership

In order to obtain assistance in the development and implementation of the purposes of this chapter including air quality criteria, recommended control techniques, standards, research and development, and to encourage the continued efforts on the part of industry to improve air quality and to develop economically feasible methods for the control and abatement of air pollution, the Administrator shall from time to time establish advisory committees. Committee members shall include, but not be limited to, persons who are knowledgeable concerning air quality from the standpoint of health, welfare, economics or technology.

(b) Compensation

The members of any other advisory committees appointed pursuant to this chapter who are not officers or employees of the United States while attending conferences or meetings or while otherwise serving at the request of the Administrator, shall be entitled to receive compensation at a rate to be fixed by the Administrator, but not exceeding $100 per diem, including traveltime, and while away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for persons in the Government service employed intermittently.

(e) Consultations by Administrator

Prior to—

(1) issuing criteria for an air pollutant under section 7408(a)(2) of this title,

(2) publishing any list under section 7411(b)(1)(A) or section 7412(b)(1)(A) of this title,

(3) publishing any standard under section 7411 or section 7412 of this title, or

(4) publishing any regulation under section 7521(a) of this title,

the Administrator shall, to the maximum extent practicable within the time provided, consult with appropriate advisory committees, independence experts, and Federal departments and agencies.

REFERENCES IN TEXT

CODIFICATION

Subsec. (c) was originally enacted as subsec. (f) but has been redesignated (c) for purposes of codification in view of the failure of Pub. L. 95–95 to redesignate subsec. (f) as (c) after repealing former subsecs. (a) and (b) and redesignating former subsecs. (d) and (e) as (a) and (b).

Section was formerly classified to section 1837e of this title.

AMENDMENTS

1977—Subsec. (a). Pub. L. 95–95, §115(1), (2), redesignated subsec. (d) as (a). Former subsec. (a), establishing an Air Quality Advisory Board in the Environmental Protection Agency, was struck out.

Subsec. (b). Pub. L. 95–95, §115(1)–(3), redesignated subsec. (e) as (b) and substituted “The members of any other advisory committees” for “The members of the Board and other advisory committees” and “conferences or meetings or while otherwise serving” for “conferences or meetings of the Board or while otherwise serving”. Former subsec. (b), setting out the duties of the Air Quality Advisory Board, was struck out.

Subsecs. (c) to (e). Pub. L. 95–95, §115(1), (2), struck out subsec. (c) which related to clerical and technical assistance for the Air Quality Advisory Board, and redesignated subsecs. (d) and (e) as (a) and (b), respectively.

Subsecs. (d), (e). Pub. L. 91–604, §15(c)(2), substituted “Administrator” for “Secretary” wherever appearing.

1967—Subsec. (a). Pub. L. 90–148 substituted provisions establishing in the Department of Health, Education, and Welfare an Air Quality Advisory Board and providing for the appointment and term of its members for provisions directing the Secretary to maintain liaison with manufacturers looking toward development of devices and fuels to reduce pollutants in automotive exhaust and to appoint a technical committee and call it together from time to time to evaluate progress and develop and recommend research programs.

Subsec. (b). Pub. L. 90–148 substituted provision setting out the duties of the Air Quality Advisory Board for provisions requiring the Secretary to make semiannual reports to Congress on measures being taken toward the resolution of vehicle exhaust pollution problems.

Subsecs. (c) to (e). Pub. L. 90–148 added subsecs. (c) to (e).

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

MODIFICATION OR RECISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELIVERIES, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

1 See Codification note below.
2 See References in Text note below.
§7418. Control of pollution from Federal facilities

(a) General compliance

Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any property or facility, or (2) engaged in any activity resulting, or which may result, in the discharge of air pollutants, and each officer, agent, or employee thereof, shall be subject to, and comply with, all Federal, State, interstate, and local requirements, administrative authority, and process and sanctions respecting the control and abatement of air pollution in the same manner, and to the same extent, as any nongovernmental entity. The preceding sentence shall apply (A) to any requirement whether substantive or procedural (including any recordkeeping or reporting requirement, any requirement respecting permits and any other requirement whatsoever), (B) to any requirement to pay a fee or charge imposed by any State or local agency to defray the costs of its air pollution regulatory program, (C) to the exercise of any Federal, State, or local administrative authority, and (D) to any process and sanction, whether enforced in Federal, State, or local courts, or in any other manner. This subsection shall apply notwithstanding any immunity or exemption granted during the preceding calendar year, together with his reason for granting each such exemption.

(b) Exemption

The President may exempt any emission source of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so, except that no exemption may be granted from section 7411 of this title, and an exemption from section 7412 of this title may be granted only in accordance with section 7412(c)(4) of this title. No such exemption shall be granted due to lack of appropriation by the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods of not to exceed one year upon the President's making a new determination. In addition to any such exemption of a particular emission source, the President may determine it to be in the paramount interest of the United States to do so, issue regulations exempting from compliance with the requirements of this section any weaponry, equipment, aircraft, vehicles, or other classes or categories of property which are owned or operated by the Armed Forces of the United States (including the Coast Guard) or by the National Guard of any State and which are uniquely military in nature. The President shall reconsider the need for such regulations at three-year intervals. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

(c) Government vehicles

Each department, agency, and instrumentality of executive, legislative, and judicial branches of the Federal Government shall comply with all applicable provisions of a valid inspection and maintenance program established under the provisions of subpart 2 of part D of this subchapter except for such vehicles that are considered military tactical vehicles.

(d) Vehicles operated on Federal installations

Each department, agency, and instrumentality of executive, legislative, and judicial branches of the Federal Government having jurisdiction over any property or facility shall require all employees which operate motor vehicles on the property or facility to furnish proof of compliance with the applicable requirements of any vehicle inspection and maintenance program established under the provisions of subpart 2 of part D of this subchapter except for such vehicle with which an enforcement mechanism is not through the denial of vehicle registration; the installation shall use one of the following methods to establish proof of compliance:

1. presentation by the vehicle owner of a valid certificate of compliance from the vehicle inspection and maintenance program;
2. presentation by the vehicle owner of proof of vehicle registration within the geographic area covered by the vehicle inspection and maintenance program (except for any program whose enforcement mechanism is not through the denial of vehicle registration);
3. another method approved by the vehicle inspection and maintenance program administrator.

Termination of Advisory Committees

Advisory committees in existence on Jan. 5, 1973, to terminate not later than the expiration of the 2-year period following Jan. 5, 1973, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided by law. Advisory committees established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided by law. See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 5, Government Organization and Employees.
§7419

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

PENDING ACTIONS AND PROCEEDINGS

Suit, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under title 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

MODIFICATION OR RECISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to action not be personally liable for civil penalties for which they are not otherwise liable.

Section was formerly classified to section 1857f of Title 42, Money and Finance.
determines that such order has not been issued in accordance with such requirements, he shall conduct a hearing respecting the reasonably available control technology for primary nonferrous smelters.

(2)(A) An order issued under this section to a primary nonferrous smelter shall be referred to as a “primary nonferrous smelter order”. No primary nonferrous smelter may receive both an enforcement order under section 7413(d) of this title and a primary nonferrous smelter order under this section.

(B) Before any hearing conducted under this section, in the case of an application made by the owner or operator of a primary nonferrous smelter for a second order under this section, the applicant shall furnish the Administrator (or the State as the case may be) with a statement of the grounds on which such application is based (including all supporting documents and information). The statement of the grounds for the proposed order shall be provided by the Administrator or the State in any case in which such State or Administrator is acting on its own initiative. Such statement (including such documents and information) shall be made available to the public for a thirty-day period before such hearing and shall be considered as part of such hearing. No primary nonferrous smelter order may be granted unless the applicant establishes that he meets the conditions required for the issuance of such order (or the Administrator or State establishes the meeting of such conditions when acting on their own initiative).

(C) Any decision with respect to the issuance of a primary nonferrous smelter order shall be accompanied by a concise statement of the findings and of the basis of such findings.

(3) For the purposes of sections 7410, 7604, and 7607 of this title, any order issued by the State and in effect pursuant to this subsection shall become part of the applicable implementation plan.

(b) Prerequisites to issuance of orders

A primary nonferrous smelter order under this section may be issued to a primary nonferrous smelter if—

(1) such smelter is in existence on August 7, 1977;
(2) the requirement of the applicable implementation plan with respect to which the order is issued is an emission limitation or standard for sulfur oxides which is necessary and intended to be itself sufficient to enable attainment and maintenance of national primary and secondary ambient air quality standards for sulfur oxides; and
(3) such smelter is unable to comply with such requirement by the applicable date for compliance because no means of emission limitation applicable to such smelter which will enable it to achieve compliance with such requirement has been adequately demonstrated to be reasonably available (as determined by the Administrator, taking into account the cost of compliance, non-air quality health and environmental impact, and energy consideration).

(c) Second orders

(1) A second order issued to a smelter under this section shall set forth compliance schedules containing increments of progress which require compliance with the requirement postponed as expeditiously as practicable. The increments of progress shall be limited to requiring compliance with subsection (d) of this section and, in the case of a second order, to procuring, installing, and operating the necessary means of emission limitation as expeditiously as practicable after the Administrator determines such means have been adequately demonstrated to be reasonably available within the meaning of subsection (b)(3) of this section.

(2) Not in excess of two primary nonferrous smelter orders may be issued under this section to any primary nonferrous smelter. The first such order issued to a smelter shall not result in the postponement of the requirement with respect to which such order is issued beyond January 1, 1983. The second such order shall not result in the postponement of such requirement beyond January 1, 1988.

(d) Interim measures; continuous emission reduction technology

(1)(A) Each primary nonferrous smelter to which an order is issued under this section shall be required to use such interim measures as are necessary, and such measures as the Administrator determines may be necessary, and

(ii) such measures as the Administrator determines are necessary to avoid an imminent and substantial endangerment to health of persons.

(C) Such interim measures shall also, except as provided in paragraph (2), include continuous emission reduction technology. The Administrator shall condition the use of any such interim measures upon the agreement of the owner or operator of the smelter—

(i) to comply with such conditions as the Administrator determines are necessary to maximize the reliability and enforceability of such interim measures, as applied to the smelter, in attaining and maintaining the national ambient air quality standards to which the order relates, and

(ii) to commit reasonable resources to research and development of appropriate emission control technology.

(2) The requirement of paragraph (1) for the use of continuous emission reduction technology may be waived with respect to a particular smelter by the State or the Administrator, after
notice and a hearing on the record, and upon a showing by the owner or operator of the smelter that such requirement would be so costly as to necessitate permanent or prolonged temporary cessation of operations of the smelter. Upon application for such waiver, the Administrator shall be notified and shall, within ninety days, hold a hearing on the record in accordance with section 554 of title 5. At such hearing the Administrator shall require the smelter involved to present information relating to any alleged cessation of operations and the detailed reasons or justifications therefor. On the basis of such hearing the Administrator shall make findings of fact as to the effect of such requirement and on the alleged cessation of operations and shall make such recommendations as he deems appropriate. Such report, findings, and recommendations shall be available to the public, and shall be taken into account by the State or the Administrator in making the decision whether or not to grant such waiver.

(3) In order to obtain information for purposes of a waiver under paragraph (2), the Administrator may, on his own motion, conduct an investigation and use the authority of section 7621 of this title.

(4) In the case of any smelter which on August 7, 1977, uses continuous emission reduction technology and supplemental controls and which receives an initial primary nonferrous smelter order under this section, no additional continuous emission reduction technology shall be required as a condition of such order unless the Administrator determines, at any time, after continuous emission reduction technology is adequately demonstrated to be reasonably available for the primary nonferrous smelter industry.

(e) Termination of orders
At any time during which an order under this section applies, the Administrator may enter upon a public hearing respecting the availability of technology. Any order under this section shall be terminated if the Administrator determines on the record, after notice and public hearing, that the conditions upon which the order was based no longer exist. If the owner or operator of the smelter to which the order is issued demonstrates that prompt termination of such order would result in undue hardship, the termination shall become effective at the earliest practicable date on which such undue hardship would not result, but in no event later than the date required under subsection (c) of this section.

(f) Violation of requirements
If the Administrator determines that a smelter to which an order is issued under this section is in violation of any requirement of subsection (c) or (d) of this section, he shall—

(1) enforce such requirement under section 7413 of this title,
(2) after notice and opportunity for public hearing revoke such order and enforce compliance with the requirement with respect to which such order was granted,
(3) give notice of noncompliance and commence action under section 7420 of this title, or
(4) take any appropriate combination of such actions.

(july 14, 1955, ch. 360, title i, §119, as added pub. l. 95–95, title i, §117(b), aug. 7, 1977, 91 stat. 712; amended pub. l. 95–190, §14(a)(25)–(27), nov. 16, 1977, 91 stat. 1401.)

references in text
section 7413(d) of this title, referred to in subsec. (a)(2)(a), was amended generally by pub. l. 101–549, title vii, §701, nov. 15, 1990, 104 stat. 2672, and, as so amended, no longer relates to final compliance orders.

prior provisions
a prior section 119 of act july 14, 1955, ch. 360, title i, as added june 22, 1974, pub. l. 93–219, §3, 88 stat. 248, was classified to section 1857–10 of this title and provided for the authority to deal with energy shortages, prior to repeal by pub. l. 95–95, title i, §112(b)(1), aug. 7, 1977, 91 stat. 706, which provided that all references to such section 119 in any subsequent enactment which supersedes pub. l. 93–319 shall be construed to refer to section 113(d) of the clean air act and to paragraph (3) thereof in particular which is classified to section 7413(d)(5) of this title.

amendments
subsec. (d)(3). pub. l. 95–190, §14(a)(26), substituted “7621” for “7619”.
subsec. (e). pub. l. 95–190, §14(a)(27), substituted “an order under this section” for “such order”.

effective date
section effective aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of pub. l. 95–95, set out as an effective date of 1977 amendment note under section 7401 of this title.

modification or rescission of rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, and other actions
all rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act july 14, 1955, the clean air act, as in effect immediately prior to the date of enactment of pub. l. 95–95 [aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act july 14, 1955, as amended by pub. l. 95–95 [this chapter], see section 406(b) of pub. l. 95–95, set out as an effective date of 1977 amendment note under section 7401 of this title.

§7420. noncompliance penalty
(a) assessment and collection
(1)(a) not later than 6 months after aug. 7, 1977, and after notice and opportunity for a public hearing, the administrator shall promulgate regulations requiring the assessment and collection of a noncompliance penalty against persons referred to in paragraph (2)(a).
(b)(i) each state may develop and submit to the administrator a plan for carrying out the section in such state. if the administrator finds that the state plan meets the requirements of this section, he may delegate to such state any authority he has to carry out this section.
(ii) notwithstanding a delegation to a state under clause (1), the administrator may carry out this section in such state under the circumstances described in subsection (b)(2)(b) of this section.

§7420. noncompliance penalty
(a) assessment and collection
(1)(a) Not later than 6 months after August 7, 1977, and after notice and opportunity for a public hearing, the Administrator shall promulgate regulations requiring the assessment and collection of a noncompliance penalty against persons referred to in paragraph (2)(A).
(B)(i) Each State may develop and submit to the Administrator a plan for carrying out this section in such State. If the Administrator finds that the State plan meets the requirements of this section, he may delegate to such State any authority he has to carry out this section.
(ii) Notwithstanding a delegation to a State under clause (1), the Administrator may carry out this section in such State under the circumstances described in subsection (b)(2)(B) of this section.
(2)(A) Except as provided in subparagraph (B) or (C) of this paragraph, the State or the Administrator shall assess and collect a noncompliance penalty against every person who owns or operates—

(i) a major stationary source (other than a primary nonferrous smelter which has received a primary nonferrous smelter order under section 7419 of this title), which is not in compliance with any emission limitation, emission standard, standard of performance, or other requirement established under section 7411, 7477, 7003, or 7412 of this title, or

(ii) a stationary source which is not in compliance with an emission limitation, emission standard, standard of performance, or other requirement referred to in clause (i) and (ii) of this subparagraph, or

(iii) a stationary source which is not in compliance with any requirement of subchapter IV, V, or VI of this chapter, or

(iv) any source referred to in clause (i), (ii), or (iii) (for which an extension, order, or suspension referred to in subparagraph (B), or Federal or State consent decree is in effect), or a primary nonferrous smelter which has received a primary nonferrous smelter order under section 7419 of this title which is not in compliance with any interim emission control requirement or schedule of compliance under such extension, order, suspension, or consent decree.

For purposes of subsection (d)(2) of this section, in the case of a penalty assessed with respect to a source referred to in clause (i) of such subparagraph, the costs referred to in such subsection (d)(2) shall be the economic value of noncompliance with the interim emission control requirement or the remaining steps in the schedule of compliance referred to in such clause.

(B) Notwithstanding the requirements of subparagraph (A)(i) and (ii), the owner or operator of any source shall be exempted from the duty to pay a noncompliance penalty under such requirements with respect to that source if, in accordance with the procedures in subsection (b)(5) of this section, the owner or operator demonstrates that the failure of such source to comply with any such requirement is due solely to—

(i) a conversion by such source from the burning of petroleum products or natural gas, or both, as the permanent primary energy source to the burning of coal pursuant to an order under section 7413(d)(5) of this title or section 1857c–101 of this title (as in effect before August 7, 1977);

(ii) in the case of a coal-burning source granted an extension under the second sentence of section 1857c–10c(1) of this title (as in effect before August 7, 1977), a prohibition from using petroleum products or natural gas or both, by reason of an order under the provisions of section 792(a) and (b) of title 15 or under any legislation which amends or supersedes such provisions;

(iii) the use of innovative technology sanctioned by an enforcement order under section 7413(d)(4) of this title; or

(iv) an inability to comply with any such requirement, for which inability the source has received an order under section 7413(d) of this title (or an order under section 7413 of this title issued before August 7, 1977) which has the effect of permitting a delay or violation of any requirement of this chapter (including a requirement of an applicable implementation plan) which inability results from reasons entirely beyond the control of the owner or operator of such source or of any entity controlling, controlled by, or under common control with the owner or operator of such source; or

(v) the conditions by reason of which a temporary emergency suspension is authorized under section 7410(f) or (g) of this title.

An exemption under this subparagraph shall cease to be effective if the source fails to comply with the interim emission control requirements or schedules of compliance (including increments of progress) under any such extension, order, or suspension.

(C) The Administrator may, after notice and opportunity for public hearing, exempt any source from the requirements of this section with respect to a particular instance of noncompliance if he finds that such instance of noncompliance is de minimis in nature and in duration.

(b) Regulations

Regulations under subsection (a) of this section shall—

(1) permit the assessment and collection of such penalty by the State if the State has a delegation of authority in effect under subsection (a)(1)(B)(i) of this section;

(2) provide for the assessment and collection of such penalty by the Administrator, if—

(A) the State does not have a delegation of authority in effect under subsection (a)(1)(B)(i) of this section, or

(B) the State has such a delegation in effect but fails with respect to any particular person or source to assess or collect the penalty in accordance with the requirements of this section;

(3) require the States, or in the event the States fail to do so, the Administrator, to give a brief but reasonably specific notice of noncompliance under this section to each person referred to in subsection (a)(2)(A) of this section with respect to each source owned or operated by such person which is not in compliance as provided in such subsection, not later than July 1, 1979, or thirty days after the discovery of such noncompliance, whichever is later;

(4) require each person to whom notice is given under paragraph (3) to—

(A) calculate the amount of the penalty owed (determined in accordance with subsection (d)(2) of this section) and the schedule of payments (determined in accordance with subsection (d)(3) of this section) for each such source and, within forty-five days after the issuance of such notice or after the denial of a petition under subparagraph (B), to submit that calculation and proposed schedule, together with the information nec-
section (b)(3) of this section—

(1) does not submit a timely petition under subsection (b)(4)(B) of this section, or

(2) submits a petition under subsection (b)(4)(B) of this section which is denied, and

fails to submit a calculation of the penalty assessment, a schedule for payment, and the information necessary for independent verification thereof, the State (or the Administrator, as the case may be) may enter into a contract with any person who has no financial interest in the owner or operator of the source (or in any person controlling, controlled by or under common control with such source) to assist in determining the amount of the penalty assessment or payment schedule with respect to such source. The cost of carrying out such contract may be added to the penalty to be assessed against the owner or operator of such source.

(d) Payment

(1) All penalties assessed by the Administrator under this section shall be paid to the United States Treasury. All penalties assessed by the State under this section shall be paid to such State.

(2) The amount of the penalty which shall be assessed and collected with respect to any source under this section shall be equal to—

(A) the amount determined in accordance with regulations promulgated by the Administrator under subsection (a) of this section, which is no less than the economic value which a delay in compliance beyond July 1, 1979, may have for the owner of such source, including the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period, not to exceed ten years, operation and maintenance costs foregone as a result of noncompliance, and any additional economic value which such a delay may have for the owner or operator of such source, minus

(B) the amount of any expenditure made by the owner or operator of that source during any such quarter for the purpose of bringing that source into, and maintaining compliance with, such requirement, to the extent that such expenditures have not been taken into account in the calculation of the penalty under subparagraph (A).

To the extent that any expenditure under subparagraph (B) made during any quarter is not subtracted for such quarter from the costs under subparagraph (A), such expenditure may be subtracted for any subsequent quarter from such costs. In no event shall the amount paid be less than the quarterly payment minus the amount attributed to actual cost of construction.

(3)(A) The assessed penalty required under this section shall be paid in quarterly installments for the period of covered noncompliance. All quarterly payments (determined without regard to any adjustment or any subtraction under paragraph (2)(B)) after the first payment shall be equal.

(B) The first payment shall be due on the date six months after the date of issuance of the notice of noncompliance under subsection (b)(3) of this section with respect to any source or on January 1, 1980, whichever is later. Such first

(c) Contract to assist in determining amount of penalty assessment or payment schedule

If the owner or operator of any stationary source to whom a notice is issued under subsection (b)(3) of this section—

(1) does not submit a timely petition under subsection (b)(4)(B) of this section, or

(2) submits a petition under subsection (b)(4)(B) of this section which is denied, and

fails to submit a calculation of the penalty assessment, a schedule for payment, and the information necessary for independent verification thereof, the State (or the Administrator, as the case may be) may enter into a contract with any person who has no financial interest in the owner or operator of the source (or in any person controlling, controlled by or under common control with such source) to assist in determining the amount of the penalty assessment or payment schedule with respect to such source. The cost of carrying out such contract may be added to the penalty to be assessed against the owner or operator of such source.

(d) Payment

(1) All penalties assessed by the Administrator under this section shall be paid to the United States Treasury. All penalties assessed by the State under this section shall be paid to such State.

(2) The amount of the penalty which shall be assessed and collected with respect to any source under this section shall be equal to—

(A) the amount determined in accordance with regulations promulgated by the Administrator under subsection (a) of this section, which is no less than the economic value which a delay in compliance beyond July 1, 1979, may have for the owner of such source, including the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period, not to exceed ten years, operation and maintenance costs foregone as a result of noncompliance, and any additional economic value which such a delay may have for the owner or operator of such source, minus

(B) the amount of any expenditure made by the owner or operator of that source during any such quarter for the purpose of bringing that source into, and maintaining compliance with, such requirement, to the extent that such expenditures have not been taken into account in the calculation of the penalty under subparagraph (A).

To the extent that any expenditure under subparagraph (B) made during any quarter is not subtracted for such quarter from the costs under subparagraph (A), such expenditure may be subtracted for any subsequent quarter from such costs. In no event shall the amount paid be less than the quarterly payment minus the amount attributed to actual cost of construction.

(3)(A) The assessed penalty required under this section shall be paid in quarterly installments for the period of covered noncompliance. All quarterly payments (determined without regard to any adjustment or any subtraction under paragraph (2)(B)) after the first payment shall be equal.

(B) The first payment shall be due on the date six months after the date of issuance of the notice of noncompliance under subsection (b)(3) of this section with respect to any source or on January 1, 1980, whichever is later. Such first

(c) Contract to assist in determining amount of penalty assessment or payment schedule

If the owner or operator of any stationary source to whom a notice is issued under subsection (b)(3) of this section—

(1) does not submit a timely petition under subsection (b)(4)(B) of this section, or

(2) submits a petition under subsection (b)(4)(B) of this section which is denied, and

fails to submit a calculation of the penalty assessment, a schedule for payment, and the information necessary for independent verification thereof, the State (or the Administrator, as the case may be) may enter into a contract with any person who has no financial interest in the owner or operator of the source (or in any person controlling, controlled by or under common control with such source) to assist in determining the amount of the penalty assessment or payment schedule with respect to such source. The cost of carrying out such contract may be added to the penalty to be assessed against the owner or operator of such source.

(d) Payment

(1) All penalties assessed by the Administrator under this section shall be paid to the United States Treasury. All penalties assessed by the State under this section shall be paid to such State.

(2) The amount of the penalty which shall be assessed and collected with respect to any source under this section shall be equal to—

(A) the amount determined in accordance with regulations promulgated by the Administrator under subsection (a) of this section, which is no less than the economic value which a delay in compliance beyond July 1, 1979, may have for the owner of such source, including the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period, not to exceed ten years, operation and maintenance costs foregone as a result of noncompliance, and any additional economic value which such a delay may have for the owner or operator of such source, minus

(B) the amount of any expenditure made by the owner or operator of that source during any such quarter for the purpose of bringing that source into, and maintaining compliance with, such requirement, to the extent that such expenditures have not been taken into account in the calculation of the penalty under subparagraph (A).

To the extent that any expenditure under subparagraph (B) made during any quarter is not subtracted for such quarter from the costs under subparagraph (A), such expenditure may be subtracted for any subsequent quarter from such costs. In no event shall the amount paid be less than the quarterly payment minus the amount attributed to actual cost of construction.

(3)(A) The assessed penalty required under this section shall be paid in quarterly installments for the period of covered noncompliance. All quarterly payments (determined without regard to any adjustment or any subtraction under paragraph (2)(B)) after the first payment shall be equal.

(B) The first payment shall be due on the date six months after the date of issuance of the notice of noncompliance under subsection (b)(3) of this section with respect to any source or on January 1, 1980, whichever is later. Such first

(c) Contract to assist in determining amount of penalty assessment or payment schedule

If the owner or operator of any stationary source to whom a notice is issued under subsection (b)(3) of this section—
payable shall be in the amount of the quarterly installment for the upcoming quarter, plus the amount owed for any preceding period within the period of covered noncompliance for such source.

(C) For the purpose of this section, the term "period of covered noncompliance" means the period which begins—

(i) two years after August 7, 1977, in the case of a source for which notice of noncompliance under subsection (b)(3) of this section is issued on or before the date two years after August 7, 1977, or

(ii) on the date of issuance of the notice of noncompliance under subsection (b)(3) of this section, in the case of a source for which such notice is issued after July 1, 1979,

and ending on the date on which such source comes into (or for the purpose of establishing the schedule of payments, is estimated to come into) compliance with such requirement.

(4) Upon making a determination that a source with respect to which a penalty has been paid under this section is in compliance and is maintaining compliance with the applicable requirement, the State (or the Administrator as the case may be) shall review the actual expenditures made by the owner or operator of such source for the purpose of attaining and maintaining compliance, and shall within 180 days after such source comes into compliance—

(A) provide reimbursement with interest (to be paid by the State or Secretary of the Treasury, as the case may be) at appropriate prevailing rates (as determined by the Secretary of the Treasury) for any overpayment by such person,

(B) assess and collect an additional payment with interest at appropriate prevailing rates (as determined by the Secretary of the Treasury) for any underpayment by such person.

(5) Any person who fails to pay the amount of any penalty with respect to any source under this section on a timely basis shall be required to pay in addition a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be in an amount equal to 20 percent of the aggregate amount of such person’s penalties and nonpayment penalties with respect to such source which are unpaid as of the beginning of such quarter.

(e) Judicial review

Any action pursuant to this section, including any objection of the Administrator under the last sentence of subsection (b) of this section, shall be considered a final action for purposes of judicial review of any penalty under section 7607 of this title.

(f) Other orders, payments, sanctions, or requirements

Any orders, payments, sanctions, or other requirements under this section shall be in addition to any other permits, orders, payments, sanctions, or other requirements established under this chapter, and shall in no way affect any civil or criminal enforcement proceedings brought under any provision of this chapter or State or local law.

(g) More stringent emission limitations or other requirements

In the case of any emission limitation or other requirement approved or promulgated by the Administrator under this chapter after August 7, 1977, which is more stringent than the emission limitation or requirement for the source in effect prior to such approval or promulgation, if any, or where there was no emission limitation or requirement approved or promulgated before August 7, 1977, the date for imposition of the non-compliance penalty under this section, shall be either July 1, 1979, or the date on which the source is required to be in full compliance with such emission limitation or requirement, whichever is later, but in no event later than three years after the approval or promulgation of such emission limitation or requirement.

(See August 7, 1977, where appearing.)

Section 7413(d) of this title, referred to in subsec. (a)(2)(B), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders.

Section 1857c–10 of this title (as in effect before August 7, 1977), referred to in subsec. (a)(2)(B), was in the original "section 119 (as in effect before the date of the enactment of the Clean Air Act Amendments of 1977)"—meaning section 119 of act July 14, 1965, ch. 360, title I, as added June 22, 1974, Pub. L. 93–319, §3, 88 Stat. 248, (which was classified to section 1857c–10 of this title) as in effect prior to the enactment of Pub. L. 95–95, Aug. 7, 1977, 91 Stat. 681, effective Aug. 7, 1977. Section 119(b)(1) of Pub. L. 95–95 repealed section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 95–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to subsec. (d)(5) of section 7413 of this title. Section 7413(d) of this title was subsequently amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 95–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to subsec. (d)(5) of section 7413 of this title. Section 7413(d) of this title, referred to in subsec. (a)(2)(B), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 95–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to subsec. (d)(5) of section 7413 of this title. Section 7413(d) of this title, referred to in subsec. (a)(2)(B), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 95–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to subsec. (d)(5) of section 7413 of this title. Section 7413(d) of this title, referred to in subsec. (a)(2)(B), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in any subsequent enactment which supersedes Pub. L. 95–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to subsec. (d)(5) of section 7413 of this title.

...
§ 7421. Consultation

In carrying out the requirements of this chapter requiring applicable implementation plans to contain—

(1) any transportation controls, air quality maintenance plan requirements or preconstruction review of direct sources of air pollution, or

(2) any measure referred to—

(A) in part D of this subchapter (pertaining to nonattainment requirements), or

(B) in part C of this subchapter (pertaining to prevention of significant deterioration),

and in carrying out the requirements of section 7413(d) of this title (relating to certain enforcement orders), the State shall provide a satisfactory process of consultation with general purpose local governments, designated organizations of elected officials of local governments and any Federal land manager having authority over Federal land to which the State plan applies, effective with respect to any such requirement which is adopted more than one year after August 7, 1977, as part of such plan. Such process shall be in accordance with regulations promulgated by the Administrator to assure adequate consultation. The Administrator shall update as necessary the original regulations required and promulgated under this section (as in effect immediately before November 15, 1990) to ensure adequate consultation. Only a general purpose unit of local government, regional agency, or council of governments adversely affected by action of the Administrator approving any portion of a plan referred to in this subsection may petition for judicial review of such action on the basis of a violation of the requirements of this section.

(4) such a delay in compliance beyond July 1, 1979, as part of such plan. Such process shall be in accordance with regulations promulgated by the Administrator to assure adequate consultation. The Administrator shall update as necessary the original regulations required and promulgated under this section (as in effect immediately before November 15, 1990) to ensure adequate consultation. Only a general purpose unit of local government, regional agency, or council of governments adversely affected by action of the Administrator approving any portion of a plan referred to in this subsection may petition for judicial review of such action on the basis of a violation of the requirements of this section.

Amendments

1990—Pub. L. 101–549 amended penultimate sentence generally. Prior to amendment, penultimate sentence read as follows: “Such regulations shall be promulgated after notice and opportunity for public hearing and not later than 6 months after August 7, 1977.”

Effective Date

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7422. Listing of certain unregulated pollutants

(a) Radioactive pollutants, cadmium, arsenic, and polycyclic organic matter

Not later than one year after August 7, 1977 (two years for radioactive pollutants) and after notice and opportunity for public hearing, the Administrator shall review all available relevant information and determine whether or not emissions of radioactive pollutants (including source material, special nuclear material, and byproduct material), cadmium, arsenic and polycyclic organic matter into the ambient air may reasonably be anticipated to endanger public health. If the Administrator makes an affirmative determination with respect to any such substance, he shall simultaneously with such determination include such substance in the list published under section 7408(a)(1) or 7412(b)(1)(A) of this title (in the case of a substance which, in the judgment of the Administrator, causes, or contributes to, air pollution which may reasonably be anticipated to result in an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness), or shall include each category of stationary sources emitting such substance in significant amounts in the list published under section 7411(b)(1)(A) of this title, or take any combination of such actions.

(b) Revision authority

Nothing in subsection (a) of this section shall be construed to affect the authority of the Administrator to revise any list referred to in subsection (a) of this section with respect to any substance (whether or not enumerated in subsection (a) of this section).

(c) Consultation with Nuclear Regulatory Commission; interagency agreement; notice and hearing

(1) Before listing any source material, special nuclear, or byproduct material (or component or derivative thereof) as provided in subsection (a) of this section, the Administrator shall consult with the Nuclear Regulatory Commission.

(2) Not later than six months after listing any such material (or component or derivative thereof) the Administrator and the Nuclear Regulatory Commission shall enter into an interagency agreement with respect to those sources or facilities which are under the jurisdiction of the Commission. This agreement shall, to the maximum extent practicable consistent with this chapter, minimize duplication of effort and conserve administrative resources in the establishment, implementation, and enforcement of

1 See References in Text note below.
2 So in original. The word ‘‘material’’ probably should precede the comma.
emission limitations, standards of performance, and other requirements and authorities (substantive and procedural) under this chapter respecting the emission of such material (or component or derivative thereof) from such sources or facilities.

(3) In case of any standard or emission limitation promulgated by the Administrator, under this chapter or by any State (or the Administrator) under any applicable implementation plan under this chapter, if the Nuclear Regulatory Commission determines, after notice and opportunity for public hearing that the application of such standard or limitation to a source or facility within the jurisdiction of the Commission would endanger public health or safety, such standard or limitation shall not apply to such facilities or sources unless the President determines otherwise within ninety days from the date of such finding.

REFERENCES IN TEXT

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

TRANSFER OF FUNCTIONS

For transfer of certain functions from Nuclear Regulatory Commission to Chairman thereof, see Reorg. Plan No. 1 of 1980, 45 F.R. 40561, 94 Stat. 3585, set out as a note under section 5841 of this title.

STUDY BY ADMINISTRATOR OF ENVIRONMENTAL PROTECTION AGENCY

Section 120(b) of Pub. L. 95–95 directed Administrator of Environmental Protection Agency to conduct a study, in conjunction with other appropriate agencies, concerning effect on public health and welfare of sulfates, radioactive pollutants, cadmium, arsenic, and polycyclic organic matter which are present or may reasonably be anticipated to occur in the ambient air, such study to include a thorough investigation of how sulfates are formed and how to protect public health and welfare from the injurious effects, if any, of sulfates, cadmium, arsenic, and polycyclic organic matter.

§ 7423. Stack heights

(a) Heights in excess of good engineering practice; other dispersion techniques

The degree of emission limitation required for control of any air pollutant under an applicable implementation plan under this subchapter shall not be affected in any manner by—

(1) so much of the stack height of any source as exceeds good engineering practice (as determined under regulations promulgated by the Administrator), or

(2) any other dispersion technique.

The preceding sentence shall not apply with respect to stack heights in existence before December 31, 1970, or dispersion techniques implemented before such date. In establishing an emission limitation for coal-fired steam electric generating units which are subject to the provisions of section 7418 of this title and which commenced operation before July 1, 1957, the effect of the entire stack height of stacks for which a construction contract was awarded before February 8, 1974, may be taken into account.

(b) Dispersion technique

For the purpose of this section, the term “dispersion technique” includes any intermittent or supplemental control of air pollutants varying with atmospheric conditions.

(c) Regulations; good engineering practice

Not later than six months after August 7, 1977, the Administrator, shall after notice and opportunity for public hearing, promulgate regulations to carry out this section. For purposes of this section, good engineering practice means, with respect to stack heights, the height necessary to insure that emissions from the stack do not result in excessive concentrations of any air pollutant in the immediate vicinity of the source as a result of atmospheric downwash, eddies and wakes which may be created by the source itself, nearby structures or nearby terrain obstacles (as determined by the Administrator). For purposes of this section such height shall not exceed two and a half times the height of such source unless the owner or operator of the source demonstrates, after notice and opportunity for public hearing, to the satisfaction of the Administrator, that a greater height is necessary as provided under the preceding sentence. In no event may the Administrator prohibit any increase in any stack height or restrict in any manner the stack height of any source.

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7424. Assurance of adequacy of State plans

(a) State review of implementation plans which relate to major fuel burning sources

As expeditiously as practicable but not later than one year after August 7, 1977, each State shall review the provisions of its implementation plan which relate to major fuel burning sources and shall determine—

(1) the extent to which compliance with requirements of such plan is dependent upon the use by major fuel burning stationary sources of petroleum products or natural gas,

(2) the extent to which such plan may reasonably be anticipated to be inadequate to meet the requirements of this chapter in such State on a reliable and long-term basis by reason of its dependence upon the use of such fuels, and

(3) the extent to which compliance with the requirements of such plan is dependent upon use of coal or coal derivatives which is not locally or regionally available.

Each State shall submit the results of its review and its determination under this paragraph to the Administrator promptly upon completion thereof.
(b) Plan revision

(1) Not later than eighteen months after August 7, 1977, the Administrator shall review the submissions of the States under subsection (a) of this section and shall require each State to revise its plan if, in the judgment of the Administrator, such plan revision is necessary to assure that such plan will be adequate to assure compliance with the requirements of this chapter in such State on a reliable and long-term basis, taking into account the actual or potential prohibitions on use of petroleum products or natural gas, or both, under any other authority of law.

(2) Before requiring a plan revision under this subsection, with respect to any State the Administrator shall take into account the report of the review conducted by such State under paragraph (1) and shall consult with the Governor of the State respecting such required revision.

(2) and shall consult with the Governor of the State respecting such required revision.

Effective Date
Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7425. Measures to prevent economic disruption or unemployment

(a) Determination that action is necessary

After notice and opportunity for a public hearing—

(1) the Governor of any State in which a major fuel burning stationary source referred to in this subsection (or class or category thereof) is located,

(2) the Administrator, or

(3) the President (or his designee),

may determine that action under subsection (b) of this section is necessary to prevent or minimize significant local or regional economic disruption or unemployment which would otherwise result from use by such source (or class or category) of—

(A) coal or coal derivatives other than locally or regionally available coal,

(B) petroleum products,

(C) natural gas,

(D) any combination of fuels referred to in subparagraphs (A) through (C),

to comply with the requirements of a State implementation plan.

(b) Use of locally or regionally available coal or coal derivatives to comply with implementation plan requirements

Upon a determination under subsection (a) of this section—

(1) such Governor, with the written consent of the President or his designee,

(2) the President’s designee with the written consent of such Governor, or

(3) the President

may by rule or order prohibit any such major fuel burning stationary source (or class or category thereof) from using fuels other than locally or regionally available coal or coal derivatives to comply with implementation plan requirements. In taking any action under this subsection, the Governor, the President, or the President’s designee as the case may be, shall take into account, the final cost to the consumer of such an action.

(c) Contracts; schedules

The Governor, in the case of action under subsection (b)(1) of this section, or the Administrator, in the case of an action under subsection (b)(2) or (3) of this section shall, by rule or order, require each source to which such action applies to—

(1) enter into long-term contracts of at least ten years in duration (except as the President or his designee may otherwise permit or require by rule or order for good cause) for supplies of regionally available coal or coal derivatives,

(2) enter into contracts to acquire any additional means of emission limitation which the Administrator or the State determines may be necessary to comply with the requirements of this chapter while using such coal or coal derivatives as fuel, and

(3) comply with such schedules (including increments of progress), timetables and other requirements as may be necessary to assure compliance with the requirements of this chapter.

Requirements under this subsection shall be established simultaneously with, and as a condition of, any action under subsection (b) of this section.

(d) Existing or new major fuel burning stationary sources

This section applies only to existing or new major fuel burning stationary sources—

(1) which have the design capacity to produce 250,000,000 Btu’s per hour (or its equivalent), as determined by the Administrator, and

(2) which are not in compliance with the requirements or parts of plans under other provisions

(1) which have the design capacity to produce 250,000,000 Btu’s per hour (or its equivalent), as determined by the Administrator, and

(2) which are not in compliance with the requirements or parts of plans under other provisions

may by rule or order prohibit any such major fuel burning stationary source (or class or category thereof) from using fuels other than locally or regionally available coal or coal derivatives to comply with implementation plan requirements. In taking any action under this subsection, the Governor, the President, or the President’s designee as the case may be, shall take into account, the final cost to the consumer of such an action.

(e) Actions not to be deemed modifications of major fuel burning stationary sources

Except as may otherwise be provided by rule by the State or the Administrator for good cause, any action required to be taken by a major fuel burning stationary source under this section shall not be deemed to constitute a modification for purposes of section 7411(a)(2) and (4) of this title.

(f) Treatment of prohibitions, rules, or orders as requirements or parts of plans under other provisions

For purposes of sections 7413 and 7420 of this title a prohibition under subsection (b) of this section, and a corresponding rule or order under subsection (c) of this section, shall be treated as a requirement of section 7413 of this title. For purposes of any plan (or portion thereof) promulgated under section 7410(c) of this title, any rule or order under subsection (c) of this section
corresponding to a prohibition under subsection (b) of this section, shall be treated as a part of such plan. For purposes of section 7413 of this title, a prohibition under subsection (b) of this section, applicable to any source, and a corresponding rule or order under subsection (c) of this section, shall be treated as part of the applicable implementation plan for the State in which subject source is located.

(g) Delegation of Presidential authority

The President may delegate his authority under this section to an officer or employee of the United States designated by him on a case-by-case basis or in any other manner he deems suitable.

(h) “Locally or regionally available coal or coal derivatives” defined

For the purpose of this section the term “locally or regionally available coal or coal derivatives” means coal or coal derivatives which is, or can in the judgment of the State or the Administrator feasibly be, mined or produced in the local or regional area (as determined by the Administrator) in which the major fuel burning stationary source is located.

§ 7426. Interstate pollution abatement

(a) Written notice to all nearby States

Each applicable implementation plan shall—

(1) require each major proposed new (or modified) source—

(A) subject to part C of this subchapter (relating to significant deterioration of air quality) or

(B) which may significantly contribute to levels of air pollution in excess of the national ambient air quality standards in any air quality control region outside the State in which such source intends to locate (or make such modification),

to provide written notice to all nearby States the air pollution levels of which may be affected by such source at least sixty days prior to the date on which commencement of construction is to be permitted by the State providing notice, and

(2) identify all major existing stationary sources which may have the impact described in paragraph (1) with respect to new or modified sources and provide notice to all nearby States of the identity of such sources not later than three months after August 7, 1977.

(b) Petition for finding that major sources emit as would emit prohibited air pollutants

Any State or political subdivision may petition the Administrator for a finding that any major source or group of stationary sources emits or would emit any air pollutant in violation of the prohibition of section 7410(a)(2)(D)(ii) of this title or this section. Within 60 days after receipt of any petition under this subsection and after public hearing, the Administrator shall make such a finding or deny the petition.

(c) Violations; allowable continued operation

Notwithstanding any permit which may have been granted by the State in which the source is located (or intends to locate), it shall be a violation of this section and the applicable implementation plan in such State—

(1) for any major proposed new (or modified) source with respect to which a finding has been made under subsection (b) of this section to be constructed or to operate in violation of the prohibition of section 7410(a)(2)(D)(ii) of this title or this section;

(2) for any major existing source to operate more than three months after such finding has been made with respect to it.

The Administrator may permit the continued operation of a source referred to in paragraph (2) beyond the expiration of such three-month period if such source complies with such emission limitations and compliance schedules (containing increments of progress) as may be provided by the Administrator to bring about compliance with the requirements contained in section 7410(a)(2)(D)(ii) of this title or this section as expeditiously as practicable, but in no case later than three years after the date of such finding. Nothing in the preceding sentence shall be construed to preclude any such source from being eligible for an enforcement order under section 7433(d) of this title after the expiration of such period during which the Administrator has permitted continuous operation.

REFERENCES IN TEXT

Section 7413(d) of this title, referred to in subsec. (c), was amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders.

AMENDMENTS

1990—Subsec. (b). Pub. L. 101–549, § 109(a)(1), inserted “or group of stationary sources’’ after ‘‘any major source’’ and substituted “section 7410(a)(2)(D)(ii) of this title or this section’’ for “section 7410(a)(2)(E)(i) of this title’’.

Subsec. (c). Pub. L. 101–549, § 108(a)(2)(A), which directed the insertion of “this section and’’ after “violation of’, was executed by making the insertion after first reference to “violation of’’ to reflect the probable intent of Congress.

Pub. L. 101–549, § 109(a)(2)(B), substituted “section 7410(a)(2)(D)(ii) of this title or this section’’ for “section 7410(a)(2)(E)(i) of this title’’ in par. (1) and penultimate sentence.

1977—Subsec. (a)(1). Pub. L. 95–190 substituted “relating to significant deterioration of air quality’’ for “relating to significant deterioration of air quality’’.

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

See References in Text note below.
§ 7427. Public notification

(a) Warning signs; television, radio, or press notices or information

Each State plan shall contain measures which will be effective to notify the public during any calendar\(^1\) on a regular basis of instances or areas in which any national primary ambient air quality standard is exceeded or was exceeded during any portion of the preceding calendar year to advise the public of the health hazards associated with such pollution, and to enhance public awareness of the measures which can be taken to prevent such standards from being exceeded and the ways in which the public can participate in regulatory and other efforts to improve air quality. Such measures may include the posting of warning signs on interstate highway access points to metropolitan areas or television, radio, or press notices or information.

(b) Grants

The Administrator is authorized to make grants to States to assist in carrying out the requirements of subsection (a) of this section. (July 14, 1955, ch. 360, title I, § 127, as added Pub. L. 95–95, title I, § 124, Aug. 7, 1977, 91 Stat. 725.)

Effective Date

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7428. State boards

(a)\(^1\) Not later than the date one year after August 7, 1977, each applicable implementation plan shall contain requirements that—

(1) any board or body which approves permits or enforcement orders under this chapter shall have at least a majority of members who represent the public interest and do not derive any significant portion of their income from persons subject to permits or enforcement orders under this chapter, and

(2) any potential conflicts of interest by members of such board or body or the head of an executive agency with similar powers be adequately disclosed.

A State may adopt any requirements respecting conflicts of interest for such boards or bodies or heads of executive agencies, or any other entities which are more stringent than the requirements of paragraph (1) and (2), and the Administrator shall approve any such more stringent requirements submitted as part of an implementation plan. (July 14, 1955, ch. 360, title I, § 128, as added Pub. L. 95–95, title I, § 125, Aug. 7, 1977, 91 Stat. 725.)

Effective Date

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7429. Solid waste combustion

(a) New source performance standards

(1) In general

(A) The Administrator shall establish performance standards and other requirements pursuant to section 7411 of this title and this section for each category of solid waste incineration units. Such standards shall include emissions limitations and other requirements applicable to new units and guidelines (under section 7411(d) of this title and this section) and other requirements applicable to existing units.

(B) Standards under section 7411 of this title and this section applicable to solid waste incineration units with capacity greater than 250 tons per day combusting municipal waste shall be promulgated not later than 12 months after November 15, 1990. Nothing in this subparagraph shall alter any schedule for the promulgation of standards applicable to such units under section 7411 of this title pursuant to any settlement and consent decree entered by the Administrator before November 15, 1990: Provided, That, such standards are subsequently modified pursuant to the schedule established in this subparagraph to include each of the requirements of this section.

(C) Standards under section 7411 of this title and this section applicable to solid waste incineration units with capacity equal to or less than 250 tons per day combusting municipal waste and units combusting hospital waste, medical waste and infectious waste shall be promulgated not later than 24 months after November 15, 1990.

(D) Standards under section 7411 of this title and this section applicable to solid waste incineration units combusting commercial or industrial waste shall be proposed not later than 36 months after November 15, 1990, and promulgated not later than 48 months after November 15, 1990.

(E) Not later than 18 months after November 15, 1990, the Administrator shall publish a schedule for the promulgation of standards under section 7411 of this title and this section applicable to other categories of solid waste incineration units.

(2) Emissions standard

Standards applicable to solid waste incineration units promulgated under section 7411 of this title and this section shall reflect the maximum degree of reduction in emissions of air pollutants listed under section\(^1\) (a)(4) that the Administrator, taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impacts and energy requirements, determines is achievable for new or existing units in each category. The Administrator may distinguish among classes, types (including mass-burn, refuse-derived fuel, modular and other types of units), and sizes of units within a category in establishing such standards. The degree of reduction in emissions that is deemed achievable for new units in a

---

1. So in original. Probably should be “calendar year”.
2. So in original. Section enacted without a subsec. (b).
category shall not be less stringent than the emissions control that is achieved in practice by the best controlled similar unit, as determined by the Administrator. Emissions standards for existing units in a category may be less stringent than standards for new units in the same category but shall not be less stringent than the average emissions limitation achieved by the best performing 12 percent of units in the category (excluding units which first met lowest achievable emissions rates 18 months before the date such standards are proposed or 30 months before the date such standards are promulgated, whichever is later).

(3) Control methods and technologies

Standards under section 7411 of this title and this section applicable to solid waste incineration units shall be based on methods and technologies for removal or destruction of pollutants before, during, or after combustion, and shall incorporate for new units siting requirements that minimize, on a site specific basis, to the maximum extent practicable, potential risks to public health or the environment.

(4) Numerical emissions limitations

The performance standards promulgated under section 7411 of this title and this section applicable to solid waste incineration units shall specify numerical emission limitations for the following substances or mixtures: particulate matter (total and fine), opacity (as appropriate), sulfur dioxide, hydrogen chloride, oxides of nitrogen, carbon monoxide, lead, cadmium, mercury, and dioxins and dibenzofurans. The Administrator may promulgate numerical emissions limitations or provide for the monitoring of postcombustion concentrations of surrogate substances, parameters or periods of residence time in excess of stated temperatures with respect to pollutants other than those listed in this paragraph.

(5) Review and revision

Not later than 5 years following the initial promulgation of any performance standards and other requirements under this section and section 7411 of this title applicable to a category of solid waste incineration units, and at 5 year intervals thereafter, the Administrator shall review, and in accordance with this section and section 7411 of this title, revise such standards and requirements.

(b) Existing units

(1) Guidelines

Performance standards under this section and section 7411 of this title for solid waste incineration units shall include guidelines promulgated pursuant to section 7411(d) of this title and this section applicable to existing units. Such guidelines shall include, as provided in this section, each of the elements required by subsection (a) of this section (emissions limitations, notwithstanding any restriction in section 7411(d) of this title regarding issuance of such limitations), subsection (c) of this section (monitoring), subsection (d) of this section (operator training), subsection (e) of this section (permits), and subsection (h)(4) of this section (residual risk).

(2) State plans

Not later than 1 year after the Administrator promulgates guidelines for a category of solid waste incineration units, each State in which units in the category are operating shall submit to the Administrator a plan to implement and enforce the guidelines with respect to such units. The State plan shall be at least as protective as the guidelines promulgated by the Administrator and shall provide that each unit subject to the guidelines shall be in compliance with all requirements of this section not later than 3 years after the State plan is approved by the Administrator but not later than 5 years after the guidelines were promulgated. The Administrator shall approve or disapprove any State plan within 180 days of the submission, and if a plan is disapproved, the Administrator shall state the reasons for disapproval in writing. Any State may modify or resubmit a plan which has been disapproved by the Administrator.

(3) Federal plan

The Administrator shall develop, implement and enforce a plan for existing solid waste incineration units within any category located in any State which has not submitted an approved plan under this subsection with respect to units in such category within 2 years after the date on which the Administrator promulgated the relevant guidelines. Such plan shall assure that each unit subject to the plan is in compliance with all provisions of the guidelines not later than 5 years after the date the relevant guidelines are promulgated.

(c) Monitoring

The Administrator shall, as part of each performance standard promulgated pursuant to subsection (a) of this section and section 7411 of this title, promulgate regulations requiring the owner or operator of each solid waste incineration unit—

(1) to monitor emissions from the unit at the point at which such emissions are emitted into the ambient air (or within the stack, combustion chamber or pollution control equipment, as appropriate) and at such other points as necessary to protect public health and the environment;

(2) to monitor such other parameters relating to the operation of the unit and its pollution control technology as the Administrator determines are appropriate; and

(3) to report the results of such monitoring.

Such regulations shall contain provisions regarding the frequency of monitoring, test methods and procedures validated on solid waste incineration units, and the form and frequency of reports containing the results of monitoring and shall require that any monitoring reports or test results indicating an exceedance of any standard under this section shall be reported separately and in a manner that facilitates review for purposes of enforcement actions. Such regulations

\(^{2}\) So in original. Probably should be subsection "(h)(3)".
shall require that copies of the results of such monitoring be maintained on file at the facility concerned and that copies shall be made available for inspection and copying by interested members of the public during business hours.

(d) Operator training

Not later than 24 months after November 15, 1990, the Administrator shall develop and promote a model State program for the training and certification of solid waste incineration unit operators and high-capacity fossil fuel fired plant operators. The Administrator may authorize any State to implement a model program for the training of solid waste incineration unit operators and high-capacity fossil fuel fired plant operators, if the State has adopted a program which is at least as effective as the model program developed by the Administrator. Beginning on the date 36 months after the date on which performance standards and guidelines are promulgated under subsection (a) of this section and section 7411 of this title for any category of solid waste incineration units it shall be unlawful to operate any unit in the category unless each person with control over processes affecting emissions from such unit has satisfactorily completed a training program meeting the requirements established by the Administrator under this subsection.

(e) Permits

Beginning (1) 36 months after the promulgation of a performance standard under subsection (a) of this section and section 7411 of this title applicable to a category of solid waste incineration units, or (2) the effective date of a permit program under subchapter V of this chapter in the State in which the unit is located, whichever is later, each unit in the category shall operate pursuant to a permit issued under this subsection and subchapter V of this chapter. Permits required by this subsection may be renewed according to the provisions of subchapter V of this chapter. Notwithstanding any other provision of this chapter, each permit for a solid waste incineration unit combusting municipal waste issued under this chapter shall be issued for a period of up to 12 years and shall be reviewed every 5 years after date of issuance or reissuance. Each permit shall continue in effect after the date of issuance until the date of termination, unless the Administrator or State determines that the unit is not in compliance with all standards and conditions contained in the permit. Such determination shall be made at regular intervals during the term of the permit, such intervals not to exceed 5 years, and only after public comment and public hearing. No permit for a solid waste incineration unit may be issued under this chapter by an agency, instrumentality or person that is also responsible, in whole or part, for the design and construction or operation of the unit. Notwithstanding any other provision of this subsection, the Administrator or the State shall require the owner or operator of any unit to comply with emissions limitations or implement any other measures, if the Administrator or the State determines that emissions in the absence of such limitations or measures may reasonably be anticipated to endanger public health or the environment. The Administrator’s determination under the preceding sentence is a discretionary decision.

(f) Effective date and enforcement

(1) New units

Performance standards and other requirements promulgated pursuant to this section and section 7411 of this title and applicable to new solid waste incineration units shall be effective as of the date 6 months after the date of promulgation.

(2) Existing units

Performance standards and other requirements promulgated pursuant to this section and section 7411 of this title and applicable to existing solid waste incineration units shall be effective as expeditiously as practicable after approval of a State plan under subsection (b)(2) of this section (or promulgation of a plan by the Administrator under subsection (b)(3) of this section) but in no event later than 3 years after the State plan is approved or 5 years after the date such standards or requirements are promulgated, whichever is earlier.

(3) Prohibition

After the effective date of any performance standard, emission limitation or other requirement promulgated pursuant to this section and section 7411 of this title, it shall be unlawful for any owner or operator of any solid waste incineration unit to which such standard, limitation or requirement applies to operate such unit in violation of such limitation, standard or requirement or for any other person to violate an applicable requirement of this section.

(4) Coordination with other authorities

For purposes of sections 7411(e), 7413, 7414, 7416, 7420, 7603, 7604, 7607 of this title and other provisions for the enforcement of this chapter, each performance standard, emission limitation or other requirement established pursuant to this section by the Administrator or a State or local government, shall be treated in the same manner as a standard of performance under section 7411 of this title which is an emission limitation.

(g) Definitions

For purposes of section 306 of the Clean Air Act Amendments of 1990 and this section only—

(1) Solid waste incineration unit

The term “solid waste incineration unit” means a distinct operating unit of any facility which combats any solid waste material from commercial or industrial establishments or the general public (including single and multiple residences, hotels, and motels). Such term does not include incinerators or other units required to have a permit under section 3005 of the Solid Waste Disposal Act [42 U.S.C. 6925]. The term “solid waste incineration unit” does not include (A) materials recovery facilities (including primary or secondary smelters) which combust waste for the primary purpose of recovering metals, (B) qualifying small power production facilities, as defined in section 796(17)(C) of title 16, or qualifying cogeneration facilities, as defined in sec-
tion 796(18)(B) of title 16, which burn homogeneous waste (such as units which burn tires or used oil, but not including refuse-derived fuel) for the production of electric energy or in the case of qualifying cogeneration facilities which burn homogeneous waste for the production of electric energy and steam or forms of useful energy (such as heat) which are used for industrial, commercial, heating or cooling purposes, or (C) air curtain incinerators provided that such incinerators only burn wood wastes, yard wastes and clean lumber and that such air curtain incinerators comply with opacity limitations to be established by the Administrator by rule.

(2) New solid waste incineration unit

The term “new solid waste incineration unit” means a solid waste incineration unit the construction of which is commenced after the Administrator proposes requirements under this section establishing emissions standards or other requirements which would be applicable to such unit or a modified solid waste incineration unit.

(3) Modified solid waste incineration unit

The term “modified solid waste incineration unit” means a solid waste incineration unit at which modifications have been made after the effective date of a standard under subsection (a) of this section if (A) the cumulative cost of the modifications, over the life of the unit, exceed 50 per centum of the original cost of construction and installation of the unit (not including the cost of any land purchased in connection with such construction or installation) updated to current costs, or (B) the modification is a physical change in or change in the method of operation of the unit which increases the amount of any air pollutant emitted by the unit for which standards have been established under this section or section 7411 of this title.

(4) Existing solid waste incineration unit

The term “existing solid waste incineration unit” means a solid waste unit which is not a new or modified solid waste incineration unit.

(5) Municipal waste

The term “municipal waste” means refuse (and refuse-derived fuel) collected from the general public and from residential, commercial, institutional, and industrial sources consisting of paper, wood, yard wastes, food wastes, plastics, leather, rubber, and other combustible materials and non-combustible materials such as metal, glass and rock, provided that: (A) the term does not include industrial process wastes or medical wastes that are segregated from such other wastes; and (B) an incineration unit shall not be considered to be combusting municipal waste for purposes of section 7411 of this title or this section if it combusts a fuel feed stream, 30 percent or less of the weight of which is comprised, in aggregate, of municipal waste.

(6) Other terms

The terms “solid waste” and “medical waste” shall have the meanings established by the Administrator pursuant to the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.].

(h) Other authority

(1) State authority

Nothing in this section shall preclude or deny the right of any State or political subdivision thereof to adopt or enforce any regulation, requirement, limitation or standard relating to solid waste incineration units that is more stringent than a regulation, requirement, limitation or standard in effect under this section or under any other provision of this chapter.

(2) Other authority under this chapter

Nothing in this section shall diminish the authority of the Administrator or a State to establish any other requirements applicable to solid waste incineration units under any other authority of law, including the authority to establish for any air pollutant a national ambient air quality standard, except that no solid waste incineration unit subject to performance standards under this section and section 7411 of this title shall be subject to standards under section 7412(d) of this title.

(3) Residual risk

The Administrator shall promulgate standards under section 7412(f) of this title for a category of solid waste incineration units, if promulgation of such standards is required under section 7412(f) of this title. For purposes of this preceding sentence only—

(A) the performance standards under subsection (a) of this section and section 7411 of this title applicable to a category of solid waste incineration units shall be deemed standards under section 7412(d)(2) of this title, and

(B) the Administrator shall consider and regulate, if required, the pollutants listed under subsection (a)(4) of this section and no others.

(4) Acid rain

A solid waste incineration unit shall not be a utility unit as defined in subchapter IV–A of this chapter: Provided. That, more than 80 per centum of its annual average fuel consumption measured on a Btu basis, during a period or periods to be determined by the Administrator, is from a fuel (including any waste burned as a fuel) other than a fossil fuel.

(5) Requirements of parts C and D

No requirement of an applicable implementation plan under section 7475 of this title (relating to construction of facilities in regions identified pursuant to section 7407(d)(1)(A)(ii) or (iii) of this title) or under section 7502(c)(5) of this title (relating to permits for construction and operation in nonattainment areas) may be used to weaken the standards in effect under this section.

(1990-10 Stat. 2577.)

References in Text

Section 306 of the Clean Air Act Amendments of 1990, referred to in subsec. (g), probably means section 306 of
§ 7450 TITLe 42—THE PUBLIC HEALTH AND WELFARE

Pub. L. 101–549, which is set out as a note under section 6921 of this title.

Review of Acid Gas Scrubbing Requirements

Section 305(c) of Pub. L. 101–549 provided that: "Prior to the promulgation of any performance standard for solid waste incineration units combusting municipal waste under section 111 or section 129 of the Clean Air Act (42 U.S.C. 7411, 7429), the Administrator shall review the availability of acid gas scrubbers as a pollution control technology for small new units and for existing units (as defined in 54 Federal Register 52190 (December 20, 1989)), taking into account the provisions of subsection (a)(2) of section 129 of the Clean Air Act."

§ 7450. Emission factors

Within 6 months after November 15, 1990, and at least every 3 years thereafter, the Administrator shall review and, if necessary, revise the methods ("emission factors") used for purposes of this chapter to estimate the quantity of emissions of carbon monoxide, volatile organic compounds, and oxides of nitrogen from sources of such air pollutants (including area sources and mobile sources). In addition, the Administrator shall establish emission factors for sources for which no such methods have previously been established by the Administrator. The Administrator shall permit any person to demonstrate improved emissions estimating techniques, and following approval of such techniques, the Administrator shall authorize the use of such techniques. Any such technique may be approved only after appropriate public participation. Until the Administrator has completed the revision required by this section, nothing in this section shall be construed to affect the validity of emission factors established by the Administrator before November 15, 1990.

§ 7451. Land use authority

Nothing in this chapter constitutes an infringement on the existing authority of counties and cities to plan or control land use, and nothing in this chapter provides or transfers authority over such land use.

Part B—ozone Protection

Similar Provisions

For provisions relating to stratospheric ozone protection, see section 7671 et seq. of this title.

Part C—Prevention of Significant Deterioration of Air Quality

Subpart I—Clean Air

§ 7470. Congressional declaration of purpose

The purposes of this part are as follows:

1. To protect public health and welfare from any actual or potential adverse effect which in the Administrator's judgment may reasonably be anticipated to occur from air pollution or from exposures to pollutants in other media, which pollutants originate as emissions to the ambient air, notwithstanding attainment and maintenance of all national ambient air quality standards;

2. To preserve, protect, and enhance the air quality in national parks, national wilderness areas, national monuments, national seashores, and other areas of special national or regional natural, recreational, scenic, or historic value;

3. To ensure that economic growth will occur in a manner consistent with the preservation of existing clean air resources;

4. To assure that emissions from any source in any State will not interfere with any portion of the applicable implementation plan to prevent significant deterioration of air quality for any other State; and

5. To assure that any decision to permit increased air pollution in any area to which this section applies is made only after careful evaluation of all the consequences of such a decision and after adequate procedural opportunities for informed public participation in the decisionmaking process.

1 So in original. Probably should be "anticipated." 80 Stat. 726. Related to authority of States to protect the stratosphere.

2 So in original. Probably should be "anticipated."

**Effective Date**
Subpart effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95-95, set out as an Effective Date of 1977 Amendment note under section 7461 of this title.

**Guidance Document**
Section 127(c) of Pub. L. 95-95 required Administrator, not later than 1 year after Aug. 7, 1977, to publish a guidance document to assist States in carrying out their functions under part C of title I of the Clean Air Act (this part) with respect to pollutants for which national ambient air quality standards are promulgated.

**Study and Report on Progress Made in Program Relating to Significant Deterioration of Air Quality**
Section 127(d) of Pub. L. 95-95 directed Administrator, not later than 2 years after Aug. 7, 1977, to complete a study and report to Congress on progress made in carrying out part C of title I of the Clean Air Act (this part) and the problems associated in carrying out such section.

§ 7471. Plan requirements
In accordance with the policy of section 7401(b)(1) of this title, each applicable implementation plan shall contain emission limitations and such other measures as may be necessary, as determined under regulations promulgated under this part, to prevent significant deterioration of air quality in each region (or portion thereof) designated pursuant to section 7407 of this title as attainment or unclassifiable.

**Amendments**
1990—Subsec. (a). Pub. L. 101-549, §108(m), inserted at end "The extent of the areas designated as Class I under this section shall conform to any changes in the boundaries of such areas which have occurred subsequent to August 7, 1977, or which may occur subsequent to November 15, 1990."

Subsec. (b). Pub. L. 101-549, §110(2), substituted "designated pursuant to section 7407(d) of this title as attainment or unclassifiable" for "identified pursuant to section 7407(d)(1)(D) or (E) of this title".

§ 7473. Increments and ceilings

(a) Sulfur oxide and particulate matter; requirement that maximum allowable increases and maximum allowable concentrations not be exceeded
In the case of sulfur oxide and particulate matter, each applicable implementation plan shall contain measures assuring that maximum allowable increases over baseline concentrations of, and maximum allowable concentrations of, such pollutant shall not be exceeded. In the case of any maximum allowable increase (except an allowable increase specified under section 7475(d)(2)(C)(iv) of this title) for a pollutant based on concentrations permitted under national ambient air quality standards for any period other than an annual period, such regulations shall permit such maximum allowable increase to be exceeded during one such period per year.

(b) Maximum allowable increases in concentrations over baseline concentrations
(1) For any class I area, the maximum allowable increase in concentrations of sulfur dioxide and particulate matter over the baseline concentration of such pollutants shall not exceed the following amounts:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>Maximum allowable increase (in micrograms per cubic meter)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate matter</td>
<td>Annual geometric mean ........................................ 5</td>
</tr>
<tr>
<td></td>
<td>Twenty-four-hour maximum .................................... 10</td>
</tr>
<tr>
<td>Sulfur dioxide</td>
<td>Annual arithmetic mean ...................................... 2</td>
</tr>
<tr>
<td></td>
<td>Twenty-four-hour maximum .................................... 5</td>
</tr>
<tr>
<td></td>
<td>Three-hour maximum .......................................... 25</td>
</tr>
</tbody>
</table>

(2) For any class II area, the maximum allowable increase in concentrations of sulfur dioxide and particulate matter over the baseline concentration of such pollutants shall not exceed the following amounts:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>Maximum allowable increase (in micrograms per cubic meter)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate matter</td>
<td>Annual geometric mean ........................................ 19</td>
</tr>
<tr>
<td></td>
<td>Twenty-four-hour maximum .................................... 37</td>
</tr>
<tr>
<td>Sulfur dioxide</td>
<td>Annual arithmetic mean ...................................... 20</td>
</tr>
</tbody>
</table>
(3) For any class III area, the maximum allowable increase in concentrations of sulfur dioxide and particulate matter over the baseline concentration of such pollutants shall not exceed the following amounts:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>Maximum allowable increase (in micrograms per cubic meter)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate matter</td>
<td></td>
</tr>
<tr>
<td>Annual geometric mean</td>
<td>37</td>
</tr>
<tr>
<td>Twenty-four-hour maximum</td>
<td>75</td>
</tr>
<tr>
<td>Sulfur dioxide</td>
<td></td>
</tr>
<tr>
<td>Annual arithmetic mean</td>
<td>40</td>
</tr>
<tr>
<td>Twenty-four-hour maximum</td>
<td>182</td>
</tr>
</tbody>
</table>

(4) The maximum allowable concentration of any air pollutant in any area to which this part applies shall not exceed a concentration for such pollutant for each period of exposure equal to—

(A) the concentration permitted under the national secondary ambient air quality standard, or

(B) the concentration permitted under the national primary ambient air quality standard,

whichever concentration is lowest for such pollutant for such period of exposure.

(c) Orders or rules for determining compliance with maximum allowable increases in ambient concentrations of air pollutants

(1) In the case of any State which has a plan approved by the Administrator for purposes of carrying out this part, the Governor of such State may, after notice and opportunity for public hearing, issue orders or promulgate rules providing that for purposes of determining compliance with the maximum allowable increases in ambient concentrations of an air pollutant, the following concentrations of such pollutant shall not be taken into account:

(A) concentrations of such pollutant attributable to the increase in emissions from stationary sources which have converted from the use of petroleum products, or natural gas, or both, by reason of an order which is in effect under the provisions of sections 792(a) and (b) of title 15 (or any subsequent legislation which supersedes such provisions) over the emissions from such sources before the effective date of such order;

(B) the concentrations of such pollutant attributable to the increase in emissions from stationary sources which have converted from using natural gas by reason of a natural gas curtailment pursuant to a natural gas curtailment plan in effect pursuant to the Federal Power Act [16 U.S.C. 791a et seq.] over the emissions from such sources before the effective date of such plan;

(C) concentrations of particulate matter attributable to the increase in emissions from construction or other temporary emission-related activities, and

(D) the increase in concentrations attributable to new sources outside the United States over the concentrations attributable to existing sources which are included in the baseline concentration determined in accordance with section 7479(4) of this title.

(2) No action taken with respect to a source under paragraph (1)(A) or (1)(B) shall apply more than five years after the effective date of the order referred to in paragraph (1)(A) or the plan referred to in paragraph (1)(B), whichever is applicable. If both such order and plan are applicable, no such action shall apply more than five years after the later of such effective dates.

(3) No action under this subsection shall take effect unless the Governor submits the order or rule providing for such exclusion to the Administrator and the Administrator determines that such order or rule is in compliance with the provisions of this subsection.

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (c)(1)(B), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

AMENDMENTS

§ 7474. Area redesignation

(a) Authority of States to redesignate areas

Except as otherwise provided under subsection (c) of this section, a State may redesignate such areas as it deems appropriate as class I areas. The following areas may be redesignated only as class I or II:

(1) an area which exceeds ten thousand acres in size and is a national monument, a national primitive area, a national preserve, a national recreation area, a national wild and scenic river, a national wildlife refuge, a national lakeshore or seashore, and

(2) a national park or national wilderness area established after August 7, 1977, which exceeds ten thousand acres in size.

The extent of the areas referred to in paragraph (1) and (2) shall conform to any changes in the boundaries of such areas which have occurred subsequent to August 7, 1977, or which may occur subsequent to November 15, 1990. Any area (other than an area referred to in paragraph (1) or (2)) or an area established as class I under the first sentence of section 7472(a) of this title may be redesignated by the State as class III if—

(A) such redesignation has been specifically approved by the Governor of the State, after consultation with the appropriate Committees of the legislature if it is in session or with the leadership of the legislature if it is not in session (unless State law provides that such redesignation must be specifically approved by State legislation) and if general purpose units of local government representing a majority of the population in the area submit a petition to the Governor requesting such redesignation;
the residents of the area so redesignated enact legislation (including for such units of local government resolutions where appropriate) concurring in the State’s redesignation; (B) such redesignation will not cause, or contribute to, concentrations of any air pollutant which exceed any maximum allowable increase or maximum allowable concentration permitted under the classification of any other area; and (C) such redesignation otherwise meets the requirements of this part.

Subparagraph (A) of this paragraph shall not apply to area redesignations by Indian tribes. (b) Notice and hearing; notice to Federal land manager; written comments and recommendations; regulations; disapproval of redesignation (1)(A) Prior to redesignation of any area under this part, notice shall be afforded and public hearings shall be conducted in areas proposed to be redesignated and in areas which may be affected by the proposed redesignation. Prior to any public hearing a satisfactory description and analysis of the health, environmental, economic, social, and energy effects of the proposed redesignation shall be prepared and made available for public inspection and prior to any such redesignation, the description and analysis of such effects shall be reviewed and examined by the redesignating authorities. (B) Prior to the issuance of notice under subparagraph (A) respecting the redesignation of any area under this subsection, if such area includes any Federal lands, the State shall provide written notice to the appropriate Federal land manager and afford adequate opportunity (but not in excess of 60 days) to confer with the State respecting the intended notice of redesignation and to submit written comments and recommendations with respect to such intended notice of redesignation. In redesignating any area under this section with respect to which any Federal land manager has submitted written comments and recommendations, the State shall publish a list of any inconsistency between such redesignation and such recommendations and an explanation of such inconsistency (together with the reasons for making such redesignation against the recommendation of the Federal land manager). (C) The Administrator shall promulgate regulations not later than six months after August 7, 1977, to assure, insofar as practicable, that prior to any public hearing on redesignation of any area, there shall be available for public inspection any specific plans for any new or modified major emitting facility which may be permitted to be constructed and operated only if the area in question is designated or redesignated as class III.

(2) The Administrator may disapprove the redesignation of any area only if he finds, after notice and opportunity for public hearing, that such redesignation does not meet the procedural requirements of this section or is inconsistent with the requirements of section 7472(a) of this title or of subsection (a) of this section. If any such disapproval occurs, the classification of the area shall be that which was in effect prior to the redesignation which was disapproved.

(c) Indian reservations (1) Lands within the exterior boundaries of reservations of federally recognized Indian tribes may be redesignated only by the appropriate Indian governing body. Such Indian governing body shall be subject in all respect to the provisions of subsection (e) of this section.

(d) Review of national monuments, primitive areas, and national preserves The Federal Land Manager shall review all national monuments, primitive areas, and national preserves, and shall recommend any appropriate areas for redesignation as class I where air quality related values are important attributes of the area. The Federal Land Manager shall report such recommendations, within supporting analysis, to the Congress and the affected States within one year after August 7, 1977. The Federal Land Manager shall consult with the appropriate States before making such recommendations.

(e) Resolution of disputes between State and Indian tribes If any State affected by the redesignation of an area by an Indian tribe or any Indian tribe affected by the redesignation of an area by a State disagrees with such redesignation of any area, or if a permit is proposed to be issued for any new major emitting facility proposed for construction in any State which the Governor of an affected State or governing body of an affected Indian tribe determines will cause or contribute to a cumulative change in air quality in excess of that allowed in this part within the affected State or tribal reservation, the Governor or Indian tribal council may request the Administrator to enter into negotiations with the parties involved to resolve such dispute. If requested by any State or Indian tribe involved, the Administrator shall make a recommendation to resolve the dispute and protect the air quality related values of the lands involved. If the parties involved do not reach agreement, the Administrator shall resolve the dispute and his determination, or the results of agreements reached through other means, shall become part of the applicable plan and shall be enforceable as part of such plan. In resolving such disputes relating to area redesignation, the Administrator shall consider the extent to which the lands involved are of sufficient size to allow effective air quality management or have air quality related values of such an area.

(7) MENDMENTS

AMENDMENTS

1990—Subsec. (a). Pub. L. 101–549, which directed the insertion of “The extent of the areas referred to in paragraph (1) and (2) shall conform to any changes in the boundaries of such areas which have occurred subsequent to August 7, 1977, or which may occur subsequent to November 15, 1990,” before “Any area (other than an area referred to in paragraph (1) or (2))”, was executed by making the insertion before “‘Any area area

*So in original. Probably should be “with”.

§ 7474
§ 7475. Preconstruction requirements

(a) Major emitting facilities on which construction is commenced

No major emitting facility on which construction is commenced after August 7, 1977, may be constructed in any area to which this part applies unless:

1. a permit has been issued for such proposed facility in accordance with this part setting forth emission limitations for such facility which conform to the requirements of this part;

2. the proposed permit has been subject to a review in accordance with this section, the required analysis has been conducted in accordance with regulations promulgated by the Administrator, and a public hearing has been held with opportunity for interested persons including representatives of the Administrator to appear and submit written or oral presentations on the air quality impact of such source, alternatives thereto, control technology requirements, and other appropriate considerations;

3. the owner or operator of such facility demonstrates, as required pursuant to section 7410(j) of this title, that emissions from construction or operation of such facility will not cause, or contribute to, air pollution in excess of any (A) maximum allowable increase or maximum allowable concentration for any pollutant in any area to which this part applies more than one time per year, (B) national ambient air quality standard in any air quality control region, or (C) any other applicable emission standard or standard of performance under this chapter;

4. the proposed facility is subject to the best available control technology for each pollutant subject to regulation under this chapter emitted from, or which results from, such facility;

5. the provisions of subsection (d) of this section with respect to protection of class I areas have been complied with for such facility;

6. there has been an analysis of any air quality impacts projected for the area as a result of growth associated with such facility;

7. the person who owns or operates, or proposes to own or operate, a major emitting facility for which a permit is required under this part agrees to conduct such monitoring as is necessary to determine the effect which emissions from any such facility may have, or is having, on air quality in any area which may be affected by emissions from such source;

8. in the case of a source which proposes to construct in a class III area, emissions from which would cause or contribute to exceeding the maximum allowable increments applicable in a class II area and where no standard under section 7411 of this title has been promulgated subsequent to August 7, 1977, for such source category, the Administrator has approved the determination of best available technology as set forth in the permit.

(b) Exception

The demonstration pertaining to maximum allowable increases required under subsection (a)(3) of this section shall not apply to maximum allowable increases for class II areas in the case of an expansion or modification of a major emitting facility which is in existence on August 7, 1977, whose allowable emissions of air pollutants, after compliance with subsection (a)(4) of this section, will be less than fifty tons per year and for which the owner or operator of such facility demonstrates that emissions of particulate matter and sulfur oxides will not cause or contribute to ambient air quality levels in excess of the national secondary ambient air quality standard for either of such pollutants.

(c) Permit applications

Any completed permit application under section 7410 of this title for a major emitting facility in any area to which this part applies shall be granted or denied not later than one year after the date of filing of such completed application.

(d) Action taken on permit applications; notice; adverse impact on air quality related values; variance; emission limitations

1. Each State shall transmit to the Administrator a copy of each permit application relating to a major emitting facility received by such State and provide notice to the Administrator of every action related to the consideration of such permit.

2. (A) The Administrator shall provide notice of the permit application to the Federal Land Manager and the Federal official charged with direct responsibility for management of any lands within a class I area which may be affected by emissions from the proposed facility.

(B) The Federal Land Manager and the Federal official charged with direct responsibility for management of such lands shall have an affirmative responsibility to protect the air quality related values (including visibility) of any such lands within a class I area and to consider, in consultation with the Administrator, whether a proposed major emitting facility will have an adverse impact on such values.

(C)(i) In any case where the Federal official charged with direct responsibility for management of any lands within a class I area or the Federal Land Manager of such lands, or the Administrator, or the Governor of an adjacent State containing such a class I area files a notice alleging that emissions from a proposed major emitting facility may cause or contribute to a change in the air quality in such area and identifying the potential adverse impact of such change, a permit shall not be issued unless the owner or operator of such facility demonstrates that emissions of particulate matter and sulfur dioxide will not cause or contribute to concentrations which exceed the maximum allowable increases for a class I area.
(ii) In any case where the Federal Land Manager demonstrates to the satisfaction of the State that the emissions from such facility will have an adverse impact on the air quality related values (including visibility) of such lands, notwithstanding the fact that the change in air quality resulting from emissions from such facility will not cause or contribute to concentrations which exceed the maximum allowable increases for a class I area, a permit shall not be issued.

(iii) In any case where the owner or operator of such facility demonstrates to the satisfaction of the Federal Land Manager and the Federal Land Manager so certifies, that the emissions from such facility will have no adverse impact on the air quality related values of such lands (including visibility), notwithstanding the fact that the change in air quality resulting from emissions from such facility will cause or contribute to concentrations which exceed the maximum allowable increases for class I areas, the State may issue a permit.

(iv) In the case of a permit issued pursuant to clause (iii), such facility shall comply with such emission limitations under such permit as may be necessary to assure that emissions of sulfur oxides and particulates from such facility will not cause or contribute to concentrations of such pollutant which exceed the following maximum allowable increases over the baseline concentration for such pollutants:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>Maximum allowable increase (in micrograms per cubic meter)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate matter</td>
<td></td>
</tr>
<tr>
<td>Annual geometric mean</td>
<td>19</td>
</tr>
<tr>
<td>Twenty-four-hour maximum</td>
<td>37</td>
</tr>
<tr>
<td>Sulfur dioxide</td>
<td></td>
</tr>
<tr>
<td>Annual arithmetic mean</td>
<td>20</td>
</tr>
<tr>
<td>Twenty-four-hour maximum</td>
<td>91</td>
</tr>
<tr>
<td>Three-hour maximum</td>
<td>325</td>
</tr>
</tbody>
</table>

(D)(i) In any case where the owner or operator of a proposed major emitting facility who has been denied a certificate under subparagraph (C)(iii) demonstrates to the satisfaction of the Governor, after notice and public hearing, and the Governor finds that the facility cannot be constructed by reason of any maximum allowable increase for sulfur dioxide for periods of twenty-four hours or less applicable to any class I area and, in the case of Federal mandatory class I areas, that a variance under this clause (iii) is in the national interest. No Presidential finding shall be reviewable in any court. The variance shall take effect if the President approves the Governor’s recommendations. The President shall approve or disapprove such recommendation within ninety days after his receipt of the recommendations of the Governor and the Federal Land Manager.

(ii) In any case where the owner or operator of such facility demonstrates to the satisfaction of the Federal Land Manager and the Federal Land Manager so certifies, that the emissions from such facility will have no adverse impact on the air quality related values (including visibility) of such lands, notwithstanding the fact that the change in air quality resulting from emissions from such facility will not cause or contribute to concentrations which exceed the maximum allowable increases for such areas over the baseline concentration for such pollutant and to assure that such emissions will not cause or contribute to concentrations which exceed the following maximum allowable increases for periods of exposure of 24 hours or less on more than 18 days during any annual period:

<table>
<thead>
<tr>
<th>Period of exposure</th>
<th>Low terrain areas</th>
<th>High terrain areas</th>
</tr>
</thead>
<tbody>
<tr>
<td>24-hr maximum</td>
<td>36</td>
<td>62</td>
</tr>
<tr>
<td>3-hr maximum</td>
<td>130</td>
<td>222</td>
</tr>
</tbody>
</table>

(iv) For purposes of clause (iii), the term “high terrain area” means with respect to any facility, any area having an elevation of 900 feet or more above the base of the stack of such facility, and the term “low terrain area” means any area other than a high terrain area.

(e) Analysis; continuous air quality monitoring data; regulations; model adjustments

(1) The review provided for in subsection (a) of this section shall be preceded by an analysis in accordance with regulations of the Administrator, promulgated under this subsection, which may be conducted by the State (or any general purpose unit of local government) or by the major emitting facility applying for such permit, of the ambient air quality at the proposed site and in areas which may be affected by emissions from such facility for each pollutant subject to regulation under this chapter which will be emitted from such facility.

(2) Effective one year after August 7, 1977, the analysis required by this subsection shall include continuous air quality monitoring data gathered for purposes of determining whether emissions from such facility will exceed the maximum allowable increases or the maximum allowable concentration permitted under this part. Such data shall be gathered over a period of one calendar year preceding the date of application for a permit under this part unless the Governor finds that such variance is in the national interest. No Presidential finding shall be reviewable in any court. The variance shall take effect if the
(A) shall not require the use of any automatic or uniform buffer zone or zones,

(B) shall require an analysis of the ambient air quality, climate and meteorology, terrain, soils and vegetation, and visibility at the site of the proposed major emitting facility and in the area potentially affected by the emissions from such facility for each pollutant regulated under this chapter which will be emitted from, or which results from the construction or operation of, such facility, the size and nature of the proposed facility, the degree of continuous emission reduction which could be achieved by such facility, and such other factors as may be relevant in determining the effect of emissions from a proposed facility on any air quality control region,

(C) shall require the results of such analysis shall be available at the time of the public hearing on the application for such permit, and

(D) shall specify with reasonable particularity each air quality model or models to be used under specified sets of conditions for purposes of this part.

Any model or models designated under such regulations may be adjusted upon a determination, after notice and opportunity for public hearing, by the Administrator that such adjustment is necessary to take into account unique terrain or meteorological characteristics of an area potentially affected by emissions from a source applying for a permit required under this part.

AMENDMENTS
Subsec. (b). Pub. L. 95–190, §14(a)(46), inserted “cause or” before “contribute” and struck out “actual” before “allowable emissions”.
Subsec. (d)(2)(C). Pub. L. 95–190, §14(a)(47)–(49), in cl. (i) substituted “contribute” for “contribute”, in cl. (ii) substituted “quality-related” for “quality related” and “concentrations which” for “concentrations, which”, and in cl. (iv) substituted “such facility” for “such sources” and “will not cause or contribute to concentrations of such pollutant which exceed” for “together with all other sources, will not exceed”.
Subsec. (d)(2)(D). Pub. L. 95–190, §14(a)(50), (51), in cl. (ii) substituted provisions relating to determinations of amounts of emissions of sulfur oxides from facilities, for provisions relating to determinations of amounts of emissions of sulfur oxides from sources operating under permits issued pursuant to this subpart, together with all other sources, and added cl. (iv).

§7476. Other pollutants
(a) Hydrocarbons, carbon monoxide, petrochemical oxidants, and nitrogen oxides
In the case of the pollutants hydrocarbons, carbon monoxide, photochemical oxidants, and nitrogen oxides, the Administrator shall conduct a study and not later than two years after August 7, 1977, promulgate regulations to prevent the significant deterioration of air quality which would result from the emissions of such pollutants. In the case of pollutants for which national ambient air quality standards are promulgated after August 7, 1977, he shall promulgate such regulations not more than 2 years after the date of promulgation of such standards.

(b) Effective date of regulations
Regulations referred to in subsection (a) of this section shall become effective one year after the date of promulgation. Within 21 months after such date of promulgation such plan revision shall be submitted to the Administrator who shall approve or disapprove the plan within 25 months after such date of promulgation in the same manner as required under section 7410 of this title.

(c) Contents of regulations
Such regulations shall provide specific numerical measures against which permit applications may be evaluated, a framework for stimulating improved control technology, protection of air quality values, and fulfill the goals and purposes set forth in section 7401 and section 7470 of this title.

(d) Specific measures to fulfill goals and purposes
The regulations of the Administrator under subsection (a) of this section shall provide specific measures at least as effective as the increments established in section 7473 of this title to fulfill such goals and purposes, and may contain air quality increments, emission density requirements, or other measures.

(e) Area classification plan not required
With respect to any air pollutant for which a national ambient air quality standard is established other than sulfur oxides or particulate matter, an area classification plan shall not be required under this section if the implementation plan adopted by the State and submitted for the Administrator’s approval or promulgated by the Administrator under section 7410(c) of this title contains other provisions which when considered as a whole, the Administrator finds will carry out the purposes in section 7470 of this title at least as effectively as an area classification plan for such pollutant. Such other provisions referred to in the preceding sentence need not require the establishment of maximum allowable increases with respect to such pollutant for any area to which this section applies.

(f) PM–10 increments
The Administrator is authorized to substitute, for the maximum allowable increases in particulate matter specified in section 7473(b) of this title and section 7475(d)(2)(C)(iv) of this title, maximum allowable increases in particulate matter with an aerodynamic diameter smaller than or equal to 10 micrometers. Such substituted maximum allowable increases shall be of equal stringency in effect as those specified in the provisions for which they are substituted. Until the Administrator promulgates regulations under the authority of this subsection, the current maximum allowable increases in con-
centrations of particulate matter shall remain in effect.

AMENDMENTS

§ 7477. Enforcement

The Administrator shall, and a State may, take such measures, including issuance of an order, or seeking injunctive relief, as necessary to prevent the construction or modification of a major emitting facility which does not conform to the requirements of this part, or which is proposed to be constructed in any area designated pursuant to section 7407(d) of this title as attainment or unclassifiable and which is not subject to an implementation plan which meets the requirements of this part.

AMENDMENTS
1990—Pub. L. 101–549, §708, substituted “construction or modification of a major emitting facility” for “construction of a major emitting facility”. Pub. L. 101–549, §110(3), substituted “designated pursuant to section 7407(d) as attainment or unclassifiable” for “included in the list promulgated pursuant to paragraph (1)(D) or (E) of subsection (d) of section 7407 of this title”.

§ 7478. Period before plan approval

(a) Existing regulations to remain in effect

Until such time as an applicable implementation plan is in effect for any area, which plan meets the requirements of this part to prevent significant deterioration of air quality with respect to any air pollutant, applicable regulations under this chapter prior to August 7, 1977, shall remain in effect to prevent significant deterioration of air quality in any such area for any such pollutant except as otherwise provided in subsection (b) of this section.

(b) Regulations deemed amended; construction commenced after June 1, 1975

If any regulation in effect prior to August 7, 1977, to prevent significant deterioration of air quality would be inconsistent with the requirements of section 7472(a), section 7473(b) or section 7474(a) of this title, then such regulations shall be deemed amended so as to conform with such requirements. In the case of a facility on which construction was commenced (in accordance with the definition of “commenced” in section 7479(2) of this title) after June 1, 1975, and prior to August 7, 1977, the review and permitting of such facility shall be in accordance with the regulations for the prevention of significant deterioration in effect prior to August 7, 1977.

pollutant subject to regulation under this chapter emitted from or which results from any major emitting facility, which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such facility through application of production processes and available methods, systems, and techniques, including fuel cleaning, clean fuels, or treatment or innovative fuel combustion techniques for control of each such pollutant. In no event shall application of "best available control technology" result in emissions of any pollutants which will exceed the emissions allowed by any applicable standard established pursuant to section 7411 or 7412 of this title. Emissions from any source utilizing clean fuels, or any other means, to comply with this paragraph shall not be allowed to increase above levels that would have been required under this paragraph as it existed prior to November 15, 1990.

(4) The term "baseline concentration" means, with respect to a pollutant, the ambient concentration levels which exist at the time of the first application for a permit in an area subject to this part, based on air quality data available in the Environmental Protection Agency or a State air pollution control agency and on such monitoring data as the permit applicant is required to submit. Such ambient concentration levels shall take into account all projected emissions in, or which may affect, such area from any major emitting facility on which construction commenced prior to January 6, 1975, but which has not begun operation by the date of the baseline air quality concentration determination. Emissions of sulfur oxides and particulate matter from any major emitting facility on which construction commenced after January 6, 1975, shall not be included in the baseline and shall be counted against the maximum allowable increases in pollutant concentrations established under this part.

AMENDMENTS
1990—Par. (1). Pub. L. 101–549, § 305(b), struck out "two hundred and" after "municipal incinerators capable of charging more than".
Par. (3). Pub. L. 101–549, § 403(d), directed the insertion of "clean fuels," after "including fuel cleaning,", which was executed by making the insertion after "including fuel cleaning" to reflect the probable intent of Congress, and inserted at end "Emissions from any source utilizing clean fuels, or any other means, to comply with this paragraph shall not be allowed to increase above levels that would have been required under this paragraph as it existed prior to November 15, 1990."

STUDY OF MAJOR EMITTING FACILITIES WITH POTENTIAL OF EMITTING 250 TONS PER YEAR

Section 127(b) of Pub. L. 95–95 directed Administrator, within 1 year after Aug. 7, 1977, to report to Congress on consequences of that portion of definition of "major emitting facility" under this subpart which applies to facilities with potential to emit 250 tons per year or more.

SUBPART II—VISIBILITY PROTECTION

As originally enacted, subpart II of part C of subchapter I of this chapter was added following section 7478 of this title. Pub. L. 95–190, § 14(a)(60), Nov. 16, 1977, 91 Stat. 1402, struck out subpart II and inserted such subpart following section 7479 of this title.

§ 7491. Visibility protection for Federal class I areas

(a) Impairment of visibility; list of areas; study and report

(1) Congress hereby declares as a national goal the prevention of any future, and the remedying of any existing, impairment of visibility in mandatory class I Federal areas which impairment results from manmade air pollution.

(2) Not later than six months after August 7, 1977, the Secretary of the Interior may revise such identifications.

(3) Not later than eighteen months after August 7, 1977, the Administrator shall, after consultation with the Secretary of the Interior, promulgate a list of mandatory class I Federal areas in which he determines visibility is an important value.

Such report shall also identify the classes or categories of sources and the types of air pollutants which, alone or in conjunction with other sources or pollutants, may reasonably be anticipated to cause or contribute to such impairment, and (C) methods for preventing and remedying such manmade air pollution and resulting visibility impairment.

Such report shall also identify the classes or categories of sources and the types of air pollutants which, alone or in conjunction with other sources or pollutants, may reasonably be anticipated to cause or contribute significantly to impairment of visibility.

(4) Not later than twenty-four months after August 7, 1977, and after notice and public hearing, the Administrator shall promulgate regulations to assure (A) reasonable progress toward meeting the national goal specified in paragraph (1), and (B) compliance with the requirements of this section.

(b) Regulations

Regulations under subsection (a)(4) of this section shall—

(1) provide guidelines to the States, taking into account the recommendations under sub-
section (a)(3) of this section on appropriate techniques and methods for implementing this section (as provided in subparagraphs (A) through (C) of such subsection (a)(3)), and

2. require each applicable implementation plan for a State in which any area listed by the Administrator under subsection (a)(2) of this section is located (or for a State the emissions from which may reasonably be anticipated to cause or contribute to any impairment of visibility in any such area) to contain such emission limits, schedules of compliance and other measures as may be necessary to make reasonable progress toward meeting the national goal specified in subsection (a) of this section, including—

(A) except as otherwise provided pursuant to subsection (c) of this section, a requirement that each major stationary source which is in existence on August 7, 1977, but which has not been in operation for more than fifteen years as of such date, and which, as determined by the State (or the Administrator in the case of a plan promulgated under section 7410(c) of this title) emits any air pollutant which may reasonably be anticipated to cause or contribute to any impairment of visibility in any such area, shall procure, install, and operate, as expeditiously as practicable (and maintain thereafter) the best available retrofit technology, as determined by the State (or the Administrator in the case of a plan promulgated under section 7410(c) of this title) for controlling emissions from such source for the purpose of eliminating or reducing any such impairment, and

(B) a long-term (ten to fifteen years) strategy for making reasonable progress toward meeting the national goal specified in subsection (a) of this section.

In the case of a fossil-fuel fired generating powerplant having a total generating capacity in excess of 750 megawatts, the emission limitations required under this paragraph shall be determined pursuant to guidelines, promulgated by the Administrator under paragraph (1).

(b) Exemptions

(1) The Administrator may, by rule, after notice and opportunity for public hearing, except any major stationary source from the requirement of subsection (b)(2)(A) of this section, upon his determination that such source does not or will not, by itself or in combination with other sources, emit any air pollutant which may reasonably be anticipated to cause or contribute to a significant impairment of visibility in any mandatory class I Federal area.

(2) Paragraph (1) of this subsection shall not be applicable to any fossil-fuel fired powerplant with total design capacity of 750 megawatts or more, unless the owner or operator of any such plant demonstrates to the satisfaction of the Administrator that such powerplant is located at such distance from all areas listed by the Administrator under subsection (a)(2) of this section that such powerplant is not or will not, by itself or in combination with other sources, emit any air pollutant which may reasonably be anticipated to cause or contribute to significant impairment of visibility in any such area.

(3) An exemption under this subsection shall be effective only upon conformance by the appropriate Federal land manager or managers with the Administrator’s determination under this subsection.

(d) Consultations with appropriate Federal land managers

Before holding the public hearing on the proposed revision of an applicable implementation plan to meet the requirements of this section, the State (or the Administrator, in the case of a plan promulgated under section 7410(c) of this title) shall consult in person with the appropriate Federal land manager or managers and shall include a summary of the conclusions and recommendations of the Federal land managers in the notice to the public.

(e) Buffer zones

In promulgating regulations under this section, the Administrator shall not require the use of any automatic or uniform buffer zone or zones.

(f) Nondiscretionary duty

For purposes of section 7604(a)(2) of this title, the meeting of the national goal specified in subsection (a)(1) of this section by any specific date or dates shall not be considered a “nondiscretionary duty” of the Administrator.

(g) Definitions

For the purpose of this section—

1. in determining reasonable progress there shall be taken into consideration the costs of compliance, the time necessary for compliance, the energy and nonair quality environmental impacts of compliance, and the remaining useful life of any existing source subject to such requirements;

2. in determining best available retrofit technology the State (or the Administrator in determining emission limitations which reflect such technology) shall take into consideration the costs of compliance, the energy and nonair quality environmental impacts of compliance, any existing pollution control technology in use at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology;

3. the term “manmade air pollution” means air pollution which results directly or indirectly from human activities;

4. the term “as expeditiously as practicable” means as expeditiously as practicable but in no event later than five years after the date of approval of a plan revision under this section (or the date of promulgation of such a plan revision in the case of action by the Administrator under section 7410(c) of this title for purposes of this section);

5. the term “mandatory class I Federal areas” means Federal areas which may not be designated as other than class I under this part;

6. the terms “visibility impairment” and “impairment of visibility” shall include reduction in visual range and atmospheric discoloration; and
(7) the term “major stationary source” means the following types of stationary sources with the potential to emit 250 tons or more of any pollutant: fossil-fuel fired steam electric plants of more than 250 million British thermal units per hour heat input, coal cleaning plants (thermal dryers), kraft pulp mills, Portland Cement plants, primary zinc smelters, iron and steel mill plants, primary aluminum ore reduction plants, primary copper smelters, municipal incinerators capable of charging more than 250 tons of refuse per day, hydrofluoric, sulfuric, and nitric acid plants, petroleum refineries, lime plants, phosphate rock processing plants, coke oven batteries, sulfur recovery plants, carbon black plants (furnace process), primary lead smelters, fuel conversion plants, sintering plants, secondary metal production facilities, chemical process plants, fossil-fuel boilers of more than 250 million British thermal units per hour heat input, petroleum storage and transfer facilities with a capacity exceeding 300,000 barrels, taconite ore processing facilities, glass fiber processing plants, charcoal production facilities.

Effective Date

Subpart effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7492. Visibility

(a) Studies

(1) The Administrator, in conjunction with the National Park Service and other appropriate Federal agencies, shall conduct research to identify and evaluate sources and source regions of both visibility impairment and regions that provide predominantly clean air in class I areas. A total of $8,000,000 per year for 5 years is authorized to be appropriated for the Environmental Protection Agency and the other Federal agencies to conduct this research. The research shall include—

(A) expansion of current visibility related monitoring in class I areas;
(B) assessment of current sources of visibility impairing pollution and clean air corridors;
(C) adaptation of regional air quality models for the assessment of visibility;
(D) studies of atmospheric chemistry and physics of visibility.

(2) Based on the findings available from the research required in subsection (a)(1) of this section as well as other available scientific and technical data, studies, and other available information pertaining to visibility source-receptor relationships, the Administrator shall conduct an assessment and evaluation that identifies, to the extent possible, sources and source regions of visibility impairment including natural sources as well as source regions of clear air for class I areas. The Administrator shall produce interim findings from this study within 3 years after November 15, 1990.

(b) Impacts of other provisions

Within 24 months after November 15, 1990, the Administrator shall conduct an assessment of the progress and improvements in visibility in class I areas that are likely to result from the implementation of the provisions of the Clean Air Act Amendments of 1990 other than the provisions of this section. Every 5 years thereafter the Administrator shall conduct an assessment of actual progress and improvement in visibility in class I areas. The Administrator shall prepare a written report on each assessment and transmit copies of these reports to the appropriate committees of Congress.

(c) Establishment of visibility transport regions and commissions

(1) Authority to establish visibility transport regions

Whenever, upon the Administrator’s motion or by petition from the Governors of at least two affected States, the Administrator has reason to believe that the current or projected interstate transport of air pollutants from one or more States contributes significantly to visibility impairment in class I areas located in the affected States, the Administrator may establish a transport region for such pollutants that includes such States. The Administrator shall establish a transport region when the Administrator determines that the interstate transport of air pollutants from such State significantly contributes to visibility impairment in a class I area located within the transport region, or

(A) add any State or portion of a State to a visibility transport region when the Administrator determines that the interstate transport of air pollutants from such State significantly contributes to visibility impairment in a class I area located within the transport region, or

(B) remove any State or portion of a State from the region whenever the Administrator has reason to believe that the control of emissions in that State or portion of the State pursuant to this section will not significantly contribute to the protection or enhancement of visibility in any class I area in the region.

(2) Visibility transport commissions

Whenever the Administrator establishes a transport region under subsection (c)(1) of this section, the Administrator shall establish a transport commission comprised of (as a minimum) each of the following members:

(A) the Governor of each State in the Visibility Transport Region, or the Governor’s designee;
(B) The Administrator or the Administrator’s designee; and
(C) A representative of each Federal agency charged with the direct management of each class I area or areas within the Visibility Transport Region.

(3) Ex officio members

All representatives of the Federal Government shall be ex officio members.

1 So in original. Words “subsection (b) of this section” probably should be “paragraph (2)’’.
2 So in original. Probably should not be capitalized.
(4) Federal Advisory Committee Act

The visibility transport commissions shall be exempt from the requirements of the Federal Advisory Committee Act [5 U.S.C. App.].

(d) Duties of visibility transport commissions

A Visibility Transport Commission—

(1) shall assess the scientific and technical data, studies, and other currently available information, including studies conducted pursuant to subsection (a)(1) of this section, pertaining to adverse impacts on visibility from potential or projected growth in emissions from sources located in the Visibility Transport Region; and

(2) shall, within 4 years of establishment, issue a report to the Administrator recommending what measures, if any, should be taken under this chapter to remedy such adverse impacts. The report required by this subsection shall address at least the following measures:

(A) the establishment of clean air corridors, in which additional restrictions on increases in emissions may be appropriate to protect visibility in affected class I areas;

(B) the imposition of the requirements of part D of this subchapter affecting the construction of new major stationary sources or major modifications to existing sources in such clean air corridors specifically including the alternative siting analysis provisions of section 7503(a)(5) of this title; and

(C) the promulgation of regulations under section 7491 of this title to address long range strategies for addressing regional haze which impairs visibility in affected class I areas.

(e) Duties of Administrator

(1) The Administrator shall, taking into account the studies pursuant to subsection (a)(1) of this section and the reports pursuant to subsection (d)(2) of this section and any other relevant information, within eighteen months of receipt of the report referred to in subsection (d)(2) of this section, carry out the Administrator's regulatory responsibilities under section 7491 of this title, including criteria for measuring “reasonable progress” toward the national goal.

(2) Any regulations promulgated under section 7491 of this title pursuant to this subsection shall require affected States to revise within 12 months their implementation plans under section 7410 of this title to contain such emission limits, schedules of compliance, and other measures as may be necessary to carry out regulations promulgated pursuant to this subsection.

(f) Grand Canyon visibility transport commission

The Administrator pursuant to subsection (c)(1) of this section shall, within 12 months, establish a visibility transport commission for the region affecting the visibility of the Grand Canyon National Park.

PART D—PLAN REQUIREMENTS FOR NONATTAINMENT AREAS

SUBPART 1—NONATTAINMENT AREAS IN GENERAL

§ 7501. Definitions

For the purpose of this part—

(1) REASONABLE FURTHER PROGRESS.—The term “reasonable further progress” means such annual incremental reductions in emissions of the relevant air pollutant as are required by this part or may reasonably be required by the Administrator for the purpose of ensuring attainment of the applicable national ambient air quality standard by the applicable date.

(2) NONATTAINMENT AREA.—The term “nonattainment area” means, for any air pollutant, an area which is designated “nonattainment” with respect to that pollutant within the meaning of section 7407(d) of this title.

(3) The term “lowest achievable emission rate” means for any source, that rate of emissions which reflects—

(A) the most stringent emission limitation which is contained in the implementation plan of any State for such class or category of source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable, or

(B) the most stringent emission limitation which is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source standards of performance.

(4) The terms “modifications” and “modified” mean the same as the term “modification” as used in section 7411(a)(4) of this title.

AMENDMENTS

Pars. (1), (2). Pub. L. 101–549, § 102(a)(2)(B), (C), amended pars. (1) and (2) generally. Prior to amendment, pars. (1) and (2) read as follows:

“(1) The term ‘reasonable further progress’ means annual incremental reductions in emissions of the applicable air pollutant (including substantial reductions in the early years following approval or promulgation of plan provisions under this part and section 7410(a)(2)(I) of this title and regular reductions thereafter) which are sufficient in the judgment of the Administrator, to provide for attainment of the applicable national ambient air quality standard by the date required in section 702(a) of this title.

“(2) The term ‘nonattainment area’ means, for any air pollutant an area which is shown by monitored data
§ 7502. Nonattainment plan provisions in general

(a) Classifications and attainment dates

(1) Classifications

(A) On or after the date the Administrator promulgates the designation of an area as a nonattainment area pursuant to section 7407(d) of this title with respect to any national ambient air quality standard (or any revised standard, including a revision of any standard in effect on November 15, 1990), the Administrator may classify the area for the purpose of applying an attainment date pursuant to paragraph (2), and for other purposes. In determining the appropriate classification, if any, for a nonattainment area, the Administrator may consider such factors as the severity of nonattainment in such area and the availability and feasibility of the pollution control measures that the Administrator believes may be necessary to provide for attainment of such standard in such area.

(B) The Administrator shall publish a notice in the Federal Register announcing each classification under subparagraph (A), except the Administrator shall provide an opportunity for at least 30 days for written comment. Such classification shall not be subject to the provisions of sections 553 through 557 of title 5 concerning notice and comment and shall not be subject to judicial review until the Administrator takes final action on plan submissions or section 7509 of this title (concerning sanctions) with respect to any plan submissions required by virtue of such classification.

(C) This paragraph shall not apply with respect to nonattainment areas for which classifications are specifically provided under other provisions of this part.

(2) Attainment dates for nonattainment areas

(A) The attainment date for an area designated no attainment with respect to a national primary ambient air quality standard shall be the date by which attainment can be achieved as expeditiously as practicable, but no later than 5 years from the date such area was designated non attainment under section 7407(d) of this title, except that the Administrator may extend the attainment date to the extent the Administrator determines appropriate, for a period no greater than 10 years from the date of designation as a nonattainment area, considering the severity of nonattainment and the availability and feasibility of pollution control measures.

(B) The attainment date for an area designated non attainment with respect to a secondary national ambient air quality standard shall be the date by which attainment can be achieved as expeditiously as practicable after the date such area was designated non attainment under section 7407(d) of this title.

(C) Upon application by any State, the Administrator may extend for 1 additional year (hereinafter referred to as the “Extension Year”) the attainment date determined by the Administrator under subparagraph (A) or (B) if—

(i) the State has complied with all requirements and commitments pertaining to the area in the applicable implementation plan, and

(ii) in accordance with guidance published by the Administrator, no more than a minimal number of exceedances of the relevant national ambient air quality standard has occurred in the area in the year preceding the Extension Year.

No more than 2 one-year extensions may be issued under this subparagraph for a single non attainment area.

(D) This paragraph shall not apply with respect to nonattainment areas for which attainment dates are specifically provided under other provisions of this part.

(b) Schedule for plan submissions

At the time the Administrator promulgates the designation of an area as non attainment with respect to a national ambient air quality standard under section 7407(d) of this title, the Administrator shall establish a schedule according to which the State containing such area shall submit a plan or plan revision (including the plan items) meeting the applicable requirements of subsection (c) of this section and section 7410(a)(2) of this title. Such schedule shall at a minimum, include a date or dates, extending no later than 3 years from the date of the non attainment designation, for the submission of a plan or plan revision (including the plan items) meeting the applicable requirements of subsection (c) of this section and section 7410(a)(2) of this title.

(c) Nonattainment plan provisions

The plan provisions (including plan items) required to be submitted under this part shall comply with each of the following:

(1) In general

Such plan provisions shall provide for the implementation of all reasonably available control measures as expeditiously as practicable (including such reductions in emissions from existing sources in the area as may be obtained through the adoption, at a minimum, of reasonably available control technology) and shall provide for attainment of the national primary ambient air quality standards.

(2) RFP

Such plan provisions shall require reasonable further progress.

(3) Inventory

Such plan provisions shall include a comprehensive, accurate, current inventory of actual emissions from all sources of the relevant pol-
lutant or pollutants in such area, including such periodic revisions as the Administrator may determine necessary to assure that the requirements of this part are met.

(4) Identification and quantification

Such plan provisions shall expressly identify and quantify the emissions, if any, of any such pollutant or pollutants which will be allowed, in accordance with section 7500(a)(1)(B) of this title, from the construction and operation of major new or modified stationary sources in each such area. The plan shall demonstrate to the satisfaction of the Administrator that the emissions quantified for this purpose will be consistent with the achievement of reasonable further progress and will not interfere with attainment of the applicable national ambient air quality standard by the applicable attainment date.

(5) Permits for new and modified major stationary sources

Such plan provisions shall require permits for the construction and operation of new or modified major stationary sources anywhere in the nonattainment area, in accordance with section 7503 of this title.

(6) Other measures

Such plan provisions shall include enforceable emission limitations, and such other control measures, means or techniques (including economic incentives such as fees, marketable permits, and auctions of emission rights), as well as schedules and timetables for compliance, as may be necessary or appropriate to provide for attainment of such standard in such area by the applicable attainment date specified in this part.

(7) Compliance with section 7410(a)(2)

Such plan provisions shall also meet the applicable provisions of section 7410(a)(2) of this title.

(8) Equivalent techniques

Upon application by any State, the Administrator may allow the use of equivalent modeling, emission inventory, and planning procedures, unless the Administrator determines that the proposed techniques are, in the aggregate, less effective than the methods specified by the Administrator.

(9) Contingency measures

Such plan shall provide for the implementation of specific measures to be undertaken if the area fails to make reasonable further progress, or to attain the national primary ambient air quality standard by the attainment date applicable under this part. Such measures shall be included in the plan revision as contingency measures to take effect in any such case without further action by the State or the Administrator.

(d) Plan revisions required in response to finding of plan inadequacy

Any plan revision for a nonattainment area which is required to be submitted in response to a finding by the Administrator pursuant to section 7410(k)(5) of this title (relating to calls for plan revisions) must correct the plan deficiency (or deficiencies) specified by the Administrator and meet all other applicable plan requirements of section 7411 of this title and this part. The Administrator may reasonably adjust the dates otherwise applicable under such requirements to such revision (except for attainment dates that have not yet elapsed), to the extent necessary to achieve a consistent application of such requirements. In order to facilitate submittal by the States of adequate and approvable plans consistent with the applicable requirements of this chapter, the Administrator shall, as appropriate and from time to time, issue written guidelines, interpretations, and information to the States which shall be available to the public, taking into consideration any such guidelines, interpretations, or information provided before November 15, 1990.

(e) Future modification of standard

If the Administrator relaxes a national primary ambient air quality standard after November 15, 1990, the Administrator shall, within 12 months after the relaxation, promulgate requirements applicable to all areas which have not attained that standard as of the date of such relaxation. Such requirements shall provide for controls which are not less stringent than the controls applicable to areas designated nonattainment before such relaxation.

(1) Before July 1, 1979, the interpretative regulation of the Administrator of the Environmental Protection Agency published in 41 Federal Register 362, December 21, 1979, as may be modified by rule of the Administrator, shall apply except that the baseline to be used for determination of appropriate emission offsets under such regulation shall be the applicable implementation plan of the State in effect at the time of application for a permit by a proposed major stationary source (within the meaning of section 932 of the Clean Air Act [section 7602 of this title]).

(2) Before July 1, 1979, the requirements of the regulation referred to in paragraph (1) shall be waived by the Administrator with respect to any pollutant if he determines that the State has—

(A) an inventory of emissions of the applicable pollutant for each nonattainment area (as defined in section 171 of the Clean Air Act [section 7501 of this title]) that identifies the type, quantity, and source of such pollutant so as to provide information sufficient to demonstrate that the requirements of subparagraph (C) are being met;
"(B) an enforceable permit program which—

"(1) requires new or modified major stationary sources to meet emission limitations at least as stringent as required under the permit requirements referred to in paragraphs (2) and (3) of section 173 of the Clean Air Act (section 7503 of this title) (relating to lowest achievable emission rate and compliance by other sources) and which assures compliance with the annual reduction requirements of subparagraph (C); and

"(ii) requires existing sources to achieve such reduction in emissions in the area as may be obtained through the adoption, at a minimum of reasonably available control technology, and

"(C) a program which requires reductions in total allowable emissions in the area prior to July 1, 1979, so as to provide for the same level of emission reduction as would result from the application of the regulation referred to in paragraph (1).

The Administrator shall terminate such waiver if in his judgment the reduction in emissions actually being attained is less than the reduction on which the waiver was conditioned pursuant to subparagraph (C), or if the Administrator determines that such State is no longer in compliance with any requirement of this paragraph.

Upon application by the State, the Administrator may reinstate a waiver terminated under the preceding sentence if satisfied that such State is in compliance with all requirements of this subsection.

"(3) Operating permits may be issued to those applicants who were properly granted construction permits, in accordance with the law and applicable regulations in effect at the time granted, for construction of a new or modified source in areas exceeding national primary air quality standards on or before the date of the enactment of this Act (Aug. 7, 1977) if such construction permits were granted prior to the date of the enactment of this Act and the person issued any such permit is able to demonstrate that the emissions from the source will be within the limitations set forth in such construction permit."

STATE IMPLEMENTATION PLAN REVISION

Section 129(c) of Pub. L. 95–95, as amended by Pub. L. 95–190, §14(b)(4), Nov. 16, 1977, 91 Stat. 1405, provided that: "Notwithstanding the requirements of section 406(d)(2) [set out as an Effective Date of 1977 Amendment note under section 7401 of this title] relating to date required for submission of certain implementation plan revisions, for purposes of section 110(a)(2) of the Clean Air Act [section 7402 of this title], each State in which there is any nonattainment area (as defined in part D of title I of the Clean Air Act [this part]) shall adopt and submit an implementation plan revision which meets the requirements of section 110(a)(2) of the Clean Air Act [section 7402 of this title], each State in which there is any nonattainment area (as defined in part D of title I of the Clean Air Act [this part]) shall adopt and submit an implementation plan revision which meets the requirements of section 110(a)(2) of the Clean Air Act [section 7402 of this title], each State in which there is any nonattainment area (as defined in part D of title I of the Clean Air Act [this part]) shall adopt and submit an implementation plan revision which meets the requirements of section 110(a)(2) of the Clean Air Act [section 7402 of this title], each State in which there is any nonattainment area (as defined in part D of title I of the Clean Air Act [this part]) shall adopt and submit an implementation plan revision which meets the requirements of section 110(a)(2) of the Clean Air Act (section 7402 of this title) and part D of title I of the Clean Air Act (this part) not later than January 1, 1979. In the case of any State for which a plan revision adopted and submitted before such date has made the demonstration required under section 172(a)(2) of the Clean Air Act [subsecs. (a)(2) of this section] (respecting impossibility of attainment before 1983), such State shall adopt and submit to the Administrator a plan revision before July 1, 1982, which meets the requirements of section 172(b) and (c) of such Act [subsecs. (b) and (c) of this section]."

§ 7503. Permit requirements

(a) In general

The permit program required by section 7502(b)(6) of this title shall provide that permits to construct and operate may be issued if—

1 (1) in accordance with regulations issued by the Administrator for the determination of baseline emissions in a manner consistent with the assumptions underlying the applicable implementation plan approved under section 7410 of this title and this part, the permitting agency determines that—

2 (A) by the time the source is to commence operation, sufficient offsetting emissions reductions have been obtained, such that total allowable emissions from existing sources in the region, from new or modified sources which are not major emitting facilities, and from the proposed source will be sufficiently less than total emissions from existing sources (as determined in accordance with the regulations under this paragraph) prior to the application for such permit to construct or modify so as to represent (when considered together with the plan provisions required under section 7502 of this title) reasonable further progress (as defined in section 7501 of this title); or

2 (B) in the case of a new or modified major stationary source which is located in a zone (within the nonattainment area) identified by the Administrator, in consultation with the Secretary of Housing and Urban Development, as a zone to which economic development should be targeted, that emissions of such pollutant resulting from the proposed new or modified major stationary source will not cause or contribute to emissions levels which exceed the allowable emissions from such area.

Any emission reductions required as a precondition of the issuance of a permit under paragraph (1) shall be federally enforceable before such permit may be issued.

(b) Prohibition on use of old growth allowances

Any growth allowance included in an applicable implementation plan to meet the requirements of section 7502(b)(5) of this title (as in ef-
flect immediately before November 15, 1990 shall not be valid for use in any area that received or receives a notice under section 7410(a)(2)(H)(ii) of this title (as in effect immediately before November 15, 1990) or under section 7410(k)(1) of this title that its applicable implementation plan containing such allowance is substantially inadequate.

(c) Offsets

(1) The owner or operator of a new or modified major stationary source may comply with any offset requirement in effect under this part for increased emissions of any air pollutant only by (A) obtaining emission reductions in another non-attainment area from the same source or other sources in the same nonattainment area, except that the State may allow the owner or operator of a source to obtain such emission reductions in another non-attainment area if (A) the other area has an equal or higher nonattainment classification than the area in which the source is located and (B) emissions from such other area contribute to a violation of the national ambient air quality standard in the nonattainment area in which the source is located. Such emission reductions shall be, by the time a new or modified source commences operation, in effect and enforceable and shall assure that the total tonnage of increased emissions of the air pollutant from the new or modified source shall be offset by an equal or greater reduction, as applicable, in the actual emissions of such air pollutant from the same or other sources in the area.

(2) Emission reductions otherwise required by this chapter shall not be creditable as emissions reductions for purposes of any such offset requirement. Incidental emission reductions which are not otherwise required by this chapter shall be creditable as emission reductions for such purposes if such emission reductions meet the requirements of paragraph (1).

(d) Control technology information

The State shall provide that control technology information from permits issued under this section will be promptly submitted to the Administrator for purposes of making such information available through the RACT/BACT/LAER clearinghouse to other States and to the general public.

(e) Rocket engines or motors

The permitting authority of a State shall allow a source to offset by alternative or innovative means emission increases from rocket engines or motors firing, and cleaning related to such firing, at an existing or modified major source that tests rocket engines or motors under the following conditions:

(1) Any modification proposed is solely for the purpose of expanding the testing of rocket engines or motors at an existing source that is permitted to test such engines on November 15, 1990.

(2) The source demonstrates to the satisfaction of the permitting authority of the State that it has used all reasonable means to obtain and utilize offsets, as determined on an annual basis, for the emissions increases beyond allowable levels, that all available offsets are being used, and that sufficient offsets are not available to the source.

(3) The source has obtained a written finding from the Department of Defense, Department of Transportation, National Aeronautics and Space Administration or other appropriate Federal agency, that the testing of rocket motors or engines at the facility is required for a program essential to the national security.

(4) The source will comply with an alternative measure, imposed by the permitting authority, designed to offset any emission increases beyond permitted levels not directly offset by the source. In lieu of imposing any alternative offset measures, the permitting authority may impose an emissions fee to be paid to such authority of a State which shall be an amount no greater than 1.5 times the average cost of stationary source control measures adopted in that area during the previous 3 years. The permitting authority shall utilize the fees in a manner that maximizes the emissions reductions in that area.

References in Text

Section 7502(b) of this title, referred to in subsec. (a), was amended generally by Pub. L. 101–549, title I, § 102(b), Nov. 15, 1990, 104 Stat. 2412, and, as so amended, does not contain a par. (6). See section 7502(c)(5) of this title.

Amendments

Pub. L. 101–549, § 102(c)(2), (8), designated existing provisions as subsec. (a), inserted heading, and substituted “(1) shall be federally enforceable” for “(1)(A) shall be legally binding” in last sentence.

Pub. L. 101–549, § 102(c)(3), inserted at beginning “in accordance with regulations issued by the Administrator for the determination of baseline emissions in a manner consistent with the assumptions underlying the applicable implementation plan approved under section 7410 of this title and this part.”.

Subsec. (a)(1)(A). Pub. L. 101–549, § 102(c)(4), inserted “sufficient offsetting emissions reductions have been obtained, such that” after “to commence operation,” and substituted “(as determined in accordance with the regulations under this paragraph)” for “allowed under the applicable implementation plan.”

Subsec. (a)(1)(B). Pub. L. 101–549, § 102(c)(5), inserted at beginning “in the case of a new or modified major stationary source which is located in a zone (within the nonattainment area) identified by the Administrator, in consultation with the Secretary of Housing and Urban Development, as a zone to which economic development should be targeted,” and substituted “7502(c)” for “7502(b)”.

Subsec. (a)(4). Pub. L. 101–549, § 102(c)(6), inserted at beginning “the Administrator has not determined that”, substituted “not being adequately implemented” for “being carried out”, and substituted “and” for period at end.

Subsecs. (c) to (e). Pub. L. 101–549, § 102(c)(10), added subsecs. (c) to (e).

1977—Par. (1)(A). Pub. L. 95–190, § 14(a)(57), inserted “or modified” after “from new” and “applicable” before “implementation plan”, and substituted “source” for “facility” wherever appearing.
§ 7504. Planning procedures

(a) In general

For any ozone, carbon monoxide, or PM-10 nonattainment area, the State containing such area and elected officials of affected local governments shall, before the date required for submittal of the inventory described under sections 7511(a)(1) and 7512(a)(1) of this title, jointly review and update as necessary the planning procedures adopted pursuant to this subsection as in effect immediately before November 15, 1990, or develop new planning procedures pursuant to this subsection, as appropriate. In preparing such procedures the State and local elected officials shall determine which elements of a revised implementation plan will be developed, adopted, and implemented (through means including enforcement) by the State and which by local governments or regional agencies, or any combination of local governments, regional agencies, or the State. The implementation plan required by this part shall be prepared by an organization certified by the State in consultation with elected officials of local governments and in accordance with the determination under the second sentence of this subsection. Such organization shall include elected officials of local governments in the affected area, and representatives of the State air quality planning agency, the State transportation planning agency, the metropolitan planning organization designated to conduct the continuing, cooperative and comprehensive transportation planning process for the area under section 134 of title 23, the organization responsible for the air quality maintenance planning process under regulations implementing this chapter, and any other organization with responsibilities for developing, submitting, or implementing the plan required by this part. Such organization may be one that carried out these functions before November 15, 1990.

(b) Coordination

The preparation of implementation plan provisions and subsequent plan revisions under the continuing transportation-air quality planning process described in section 7408(e) of this title shall be coordinated with the continuing, cooperative and comprehensive transportation planning process required under section 134 of title 23, and such planning processes shall take into account the requirements of this part.

(c) Joint planning

In the case of a nonattainment area that is included within more than one State, the affected States may jointly, through interstate compact or otherwise, undertake and implement all or part of the planning procedures described in this section.

AMENDMENTS

§ 7505. Environmental Protection Agency grants

(a) Plan revision development costs

The Administrator shall make grants to any organization of local elected officials with transportation or air quality maintenance planning responsibilities recognized by the State under section 7504(a) of this title for payment of the reasonable costs of developing a plan revision under this part.

(b) Uses of grant funds

The amount granted to any organization under subsection (a) of this section shall be 100 percent of any additional costs of developing a plan revision under this part for the first two fiscal years following receipt of the grant under this paragraph, and shall supplement any funds available under Federal law to such organization for transportation or air quality maintenance planning. Grants under this section shall not be used for construction.

Amendments

§ 7505a. Maintenance plans

(a) Plan revision

Each State which submits a request under section 7407(d) of this title for redesignation of a nonattainment area for any air pollutant as an area which has attained the national primary ambient air quality standard for that air pollutant shall also submit a revision of the applicable State implementation plan to provide for the maintenance of the national primary ambient air quality standard for such air pollutant in the area concerned for at least 10 years after the redesignation. The plan shall contain such additional measures, if any, as may be necessary to ensure such maintenance.

(b) Subsequent plan revisions

8 years after redesignation of any area as an attainment area under section 7407(d) of this title, the State shall submit to the Administrator an additional revision of the applicable State implementation plan for maintaining the national primary ambient air quality standard for 10 years after the expiration of the 10-year period referred to in subsection (a) of this section.

(c) Nonattainment requirements applicable pending plan approval

Until such plan revision is approved and an area is redesignated as attainment for any area designated as a nonattainment area, the requirements of this part shall continue in force and effect with respect to such area.

(d) Contingency provisions

Each plan revision submitted under this section shall contain such contingency provisions as the Administrator deems necessary to assure that the State will promptly correct any violation of the standard which occurs after the redesignation of the area as an attainment area. Such provisions shall include a requirement that the State will implement all measures with respect to the control of the air pollutant concerned which were contained in the State implementation plan for the area before redesignation of the area as an attainment area. The failure of any area redesignated as an attainment area to maintain the national ambient air quality standard concerned shall not result in a requirement that the State revise its State implementation plan unless the Administrator, in the Administrator’s discretion, requires the State to submit a revised State implementation plan.

§ 7506. Limitations on certain Federal assistance

(c) Activities not conforming to approved or promulgated plans

(1) No department, agency, or instrumentality of the Federal Government shall engage in, support in any way or provide financial assistance for, license or permit, or approve, any activity which does not conform to an implementation plan after it has been approved or promulgated under section 7410 of this title. No metropolitan planning organization designated under section 134 of title 23, shall give its approval to any project, program, or plan which does not conform to an implementation plan approved or promulgated under section 7410 of this title. The assurance of conformity to such an implementation plan shall be an affirmative responsibility of the head of such department, agency, or instrumentality. Conformity to an implementation plan means—

(A) conformity to an implementation plan’s purpose of eliminating or reducing the severity and number of violations of the national ambient air quality standards and achieving expeditious attainment of such standards; and

(B) that such activities will not—

(i) cause or contribute to any new violation of any standard in any area;

(ii) increase the frequency or severity of any existing violation of any standard in any area; or

(iii) delay timely attainment of any standard or any required interim emission reductions or other milestones in any area.

The determination of conformity shall be based on the most recent estimates of emissions, and such estimates shall be determined from the most recent population, employment, travel and congestion estimates as determined by the metropolitan planning organization or other agency authorized to make such estimates.

(2) Any transportation plan or program developed pursuant to title 23 or chapter 53 of title 49 shall implement the transportation provisions of any applicable implementation plan approved under this chapter applicable to all or part of the area covered by such transportation plan or program. No Federal agency may approve, accept or fund any transportation plan, program or project unless such plan, program or project has been found to conform to any applicable implementation plan in effect under this chapter. In particular—

(A) no transportation plan or transportation improvement program may be adopted by a metropolitan planning organization designated under title 23 or chapter 53 of title 49, or be found to be in conformity by a metropolitan planning organization until a final determination has been made that emissions expected from implementation of such plans and programs are consistent with estimates of emissions from motor vehicles and necessary emissions reductions contained in the applicable implementation plan, and that the plan or program will conform to the requirements of paragraph (1)(B);

(B) no metropolitan planning organization or other recipient of funds under title 23 or chapter 53 of title 49 shall adopt or approve a transportation improvement program of projects until it determines that such program provides for timely implementation of transportation control measures consistent with schedules included in the applicable implementation plan;

(C) a transportation project may be adopted or approved by a metropolitan planning organization or any recipient of funds designated...
under title 23 or chapter 53 of title 49, or found in conformity by a metropolitan planning organization or approved, accepted, or funded by the Department of Transportation only if it meets either the requirements of subparagraph (D) or the following requirements—

(i) such a project comes from a conforming plan and program;

(ii) the design concept and scope of such project have not changed significantly since the conformity finding regarding the plan and programs from which the project derived; and

(iii) the design concept and scope of such project at the time of the conformity determination for the program was adequate to determine emissions.

(D) Any project not referred to in subparagraph (C) shall be treated as conforming to the applicable implementation plan only if it is demonstrated that the projected emissions from such project, when considered together with emissions projected for the conforming transportation plans and programs within the nonattainment area, do not cause such plans and programs to exceed the emission reduction projections and schedules assigned to such plans and programs in the applicable implementation plan.

(E) The appropriate metropolitan planning organization shall redetermine conformity of existing transportation plans and programs not later than 2 years after the date on which the Administrator—

(i) finds a motor vehicle emissions budget to be adequate in accordance with section 93.118(e)(4) of title 40, Code of Federal Regulations (as in effect on October 1, 2004);

(ii) approves an implementation plan that establishes a motor vehicle emissions budget if that budget has not yet been determined to be adequate in accordance with clause (i); or

(iii) promulgates an implementation plan that establishes or revises a motor vehicle emissions budget.

(3) Until such time as the implementation plan revision referred to in paragraph (4)(C) is approved, conformity of such plans, programs, and projects will be demonstrated if—

(A) the transportation plans and programs—

(i) are consistent with the most recent estimates of mobile source emissions;

(ii) provide for the expeditious implementation of transportation control measures in the applicable implementation plan; and

(iii) with respect to ozone and carbon monoxide nonattainment areas, contribute to annual emissions reductions consistent with sections 7511a(b)(1) and 7512a(a)(7) of this title; and

(B) the transportation projects—

(i) come from a conforming transportation plan and program as defined in subparagraph (A) or for 12 months after November 15, 1990, from a transportation program found to conform within 3 years prior to November 15, 1990; and

(ii) in carbon monoxide nonattainment areas, eliminate or reduce the severity and number of violations of the carbon monoxide standards in the area substantially affected by the project.

With regard to subparagraph (B)(ii), such determination may be made as part of either the conformity determination for the transportation program or for the individual project taken as a whole during the environmental review phase of project development.

(4) CRITERIA AND PROCEDURES FOR DETERMINING CONFORMITY.—

(A) IN GENERAL.—The Administrator shall promulgate, and periodically update, criteria and procedures for determining conformity (except in the case of transportation plans, programs, and projects) of, and for keeping the Administrator informed about, the activities referred to in paragraph (1).

(B) TRANSPORTATION PLANS, PROGRAMS, AND PROJECTS.—The Administrator, with the concurrence of the Secretary of Transportation, shall promulgate, and periodically update, criteria and procedures for demonstrating and assuring conformity in the case of transportation plans, programs, and projects.

(C) CIVIL ACTION TO COMPULSORY PROMULGATION.—A civil action may be brought against the Administrator and the Secretary of Transportation under section 7604 of this title to compel promulgation of such criteria and procedures and the Federal district court shall have jurisdiction to order such promulgation.

(D) The procedures and criteria shall, at a minimum—

(i) address the consultation procedures to be undertaken by metropolitan planning organizations and the Secretary of Transportation with State and local air quality agencies and State departments of transportation before such organizations and the Secretary make conformity determinations;

(ii) address the appropriate frequency for making conformity determinations, but the frequency for making conformity determinations on updated transportation plans and programs shall be every 4 years, except in a case in which—

(I) the metropolitan planning organization elects to update a transportation plan or program more frequently; or

(II) the metropolitan planning organization is required to determine conformity in accordance with paragraph (2)(B); and

(iii) address how conformity determinations will be made with respect to maintenance plans.

(E) INCLUSION OF CRITERIA AND PROCEDURES IN SIP.—Not later than 2 years after August 10, 2005, the procedures under subparagraph (A) shall include a requirement that each State include in the State implementation plan criteria and procedures for consultation required by subparagraph (D)(i), and enforcement and enforceability (pursuant to sections 93.125(c) and 93.122(a)(4)(ii) of title 40, Code of Federal Regulations) in accordance with the Administrator’s criteria and procedures for consultation, enforcement and enforceability.

1 See References in Text note below.
(F) Compliance with the rules of the Administrator for determining the conformity of transportation plans, programs, and projects funded or approved under title 23 or chapter 53 of title 49 to State or Federal implementation plans shall not be required for traffic signal synchronization projects prior to the funding, approval or implementation of such projects. The supporting regional emissions analysis for any conformity determination made with respect to a transportation plan, program, or project shall consider the effect on emissions of any such project funded, approved, or implemented prior to the conformity determination.

(5) APPLICABILITY.—This subsection shall apply only with respect to—

(A) a nonattainment area and each pollutant for which the area is designated as a nonattainment area; and

(B) an area that was designated as a nonattainment area but that was later redesignated by the Administrator as an attainment area and that is required to develop a maintenance plan under section 7505a of this title with respect to the specific pollutant for which the area was designated nonattainment and does not affect the area’s requirements with respect to all other national ambient air quality standards for which the area is designated nonattainment or has been redesignated from nonattainment to attainment with a maintenance plan pursuant to section 7505a of this title (including any pre-existing national ambient air quality standard for a pollutant for which a new or revised standard has been issued).

(6) Notwithstanding paragraph 5,2 this subsection shall not apply with respect to an area designated nonattainment under section 7407(d)(1) of this title until 1 year after that area is first designated nonattainment for a specific national ambient air quality standard. This paragraph only applies with respect to the national ambient air quality standard for which the area is newly designated nonattainment and does not affect the area’s requirements with respect to all other national ambient air quality standards for which the area is designated nonattainment or has been redesignated from nonattainment to attainment with a maintenance plan pursuant to section 7505a of this title (including any pre-existing national ambient air quality standard for a pollutant for which a new or revised standard has been issued).

(7) CONFORMITY HORIZON FOR TRANSPORTATION PLANS.—

(A) IN GENERAL.—Each conformity determination required under this section for a transportation plan under section 134(i) of title 23 or section 5303(i) of title 49 shall require a demonstration of conformity for the period ending on either the final year of the transportation plan, or at the election of the metropolitan planning organization, after consultation with the air pollution control agency and solicitation of public comments and consideration of such comments, shall be required to extend only through the last year of the implementation plan required under section 7505a(b) of this title.

(B) REGIONAL EMISSIONS ANALYSIS.—The conformity determination shall be accompanied by a regional emissions analysis for the last year of the transportation plan and for any year shown to exceed emission budgets by a prior analysis, if such year extends beyond the applicable period as determined under subparagraph (A).

(C) EXCEPTION.—In any case in which an area has a revision to an implementation plan under section 7505a(b) of this title and the Administrator has found the motor vehicles emissions budgets from that revision to be adequate in accordance with section 93.118(e)(4) of title 40, Code of Federal Regulations (as in effect on October 1, 2004), or has approved the revision, the demonstration of conformity at the election of the metropolitan planning organization, after consultation with the air pollution control agency and solicitation of public comments and consideration of such comments, shall be required to extend only through the last year of the implementation plan required under section 7505a(b) of this title.

(D) EFFECT OF ELECTION.—Any election by a metropolitan planning organization under this paragraph shall continue in effect until the metropolitan planning organization elects otherwise.

(E) AIR POLLUTION CONTROL AGENCY DEFINED.—In this paragraph, the term “air pollution control agency” means an air pollution control agency (as defined in section 7602(b) of this title) that is responsible for developing plans or controlling air pollution within the area covered by a transportation plan.

(8) SUBSTITUTION OF TRANSPORTATION CONTROL MEASURES.—

(A) IN GENERAL.—Transportation control measures that are specified in an implementation plan may be replaced or added to the implementation plan with alternate or additional transportation control measures—

(i) if the substitute measures achieve equivalent or greater emissions reductions than the control measure to be replaced, as demonstrated with an emissions impact analysis that is consistent with the current methodology used for evaluating the replaced control measure in the implementation plan;

(ii) if the substitute control measures are implemented—

(I) in accordance with a schedule that is consistent with the schedule provided for control measures in the implementation plan; or

(II) if the implementation plan date for implementation of the control measure to be replaced has passed, as soon as practicable after the implementation plan date but not later than the date on which emission reductions are necessary to achieve the purpose of the implementation plan;

(iii) if the substitute and additional control measures are accompanied with evidence of adequate personnel and funding and

---

2So in original. Probably should be “paragraph (5),”.

---
authority under State or local law to implement, monitor, and enforce the control measures;

(iv) if the substitute and additional control measures were developed through a collaborative process that included—

(I) participation by representatives of all affected jurisdictions (including local air pollution control agencies, the State air pollution control agency, and State and local transportation agencies);

(II) consultation with the Administrator; and

(III) reasonable public notice and opportunity for comment; and

(v) if the metropolitan planning organization, State air pollution control agency, and the Administrator concur with the equivalency of the substitute or additional control measures.

(B) ADOPTION.—(i) Concurrency by the metropolitan planning organization, State air pollution control agency and the Administrator as required by subparagraph (A)(v) shall constitute adoption of the substitute or additional control measures so long as the requirements of subparagraphs (A)(i), (A)(ii), (A)(iii) and (A)(iv) are met.

(ii) Once adopted, the substitute or additional control measures become, by operation of law, part of the State implementation plan and become federally enforceable.

(iii) Within 90 days of its concurrence under subparagraph (A)(v), the State air pollution control agency shall submit the substitute or additional control measure to the Administrator for incorporation in the codification of the applicable implementation plan. Notwithstanding any other provision of this chapter, no additional State process shall be necessary to support such revision to the applicable plan.

(C) NO REQUIREMENT FOR EXPRESS PERMISSION.—The substitution or addition of a transportation control measure in accordance with this paragraph and the funding or approval of such a control measure shall not be contingent on the existence of any provision in the applicable implementation plan that expressly permits such a substitution or addition.

(D) NO REQUIREMENT FOR NEW CONFORMITY DETERMINATION.—The substitution or addition of a transportation control measure in accordance with this paragraph shall not require—

(i) a new conformity determination for the transportation plan; or

(ii) a revision of the implementation plan.

(E) CONTINUATION OF CONTROL MEASURE BEING REPLACED.—A control measure that is being replaced by a substitute control measure under this paragraph shall remain in effect until the substitute control measure is adopted by the State pursuant to subparagraph (B).

(F) EFFECT OF ADOPTION.—Adoption of a substitute control measure shall constitute rescission of the previously applicable control measure.

(G) LAPSE OF CONFORMITY.—If a conformity determination required under this subsection for a transportation plan under section 134(i) of title 23 or section 5303(i) of title 49 or a transportation improvement program under section 134(j) of such title 23 or under section 5303(j) of such title 49 is not made by the applicable deadline and such failure is not corrected by additional measures to either reduce motor vehicle emissions sufficient to demonstrate compliance with the requirements of this subsection within 12 months after such deadline or other measures sufficient to correct such failures, the transportation plan shall lapse.

(10) LAPSE.—In this subsection, the term "lapse" means that the conformity determination for a transportation plan or transportation improvement program has expired, and thus there is no currently conforming transportation plan or transportation improvement program.

(d) Priority of achieving and maintaining national primary ambient air quality standards

Each department, agency, or instrumentality of the Federal Government having authority to conduct or support any program with air-quality related transportation consequences shall give priority in the exercise of such authority, consistent with statutory requirements for allocation among States or other jurisdictions, to the implementation of those portions of plans prepared under this section to achieve and maintain the national primary ambient air-quality standard. This paragraph extends to, but is not limited to, authority exercised under chapter 53 of title 49, title 23, and the Housing and Urban Development Act.

REFERENCES IN TEXT

Paragraph (4) of subsec. (c), referred to in subsec. (c)(3), was amended by Pub. L. 109–99, title VI, § 6011(f), Aug. 10, 2005, 119 Stat. 1881, to redesignate subpar. (C) as (E), strike it out, and add new subpars. (C) and (E). See 2005 Amendment notes below.

Section 7506a of this title, referred to in subsec. (c)(6), was in the original "section 175A" and was translated as reading "section 175A", meaning section 175A of act July 14, 1955, which is classified to section 7506a of this title, to reflect the probable intent of Congress. The Housing and Urban Development Act, referred to in subsec. (d), may be the name for a series of acts sharing the same name but enacted in different years by Pub. L. 89–117, Aug. 10, 1965, 79 Stat. 451; Pub. L. 90–448, Aug. 1, 1968, 82 Stat. 476; Pub. L. 91–192, Dec. 24, 1969, 83 Stat. 379; and Pub. L. 91–689, Dec. 31, 1970, 84 Stat. 1770, respectively. For complete classification of these Acts to the Code, see Short Title notes set out under section 1701 of Title 12, Banks and Banking, and Tables.

CODIFICATION

So in original. Probably should be "Notwithstanding".

AMENDMENTS

Subsec. (c)(4). Pub. L. 109-59, §6011(f)(1)-(3), inserted par. (4) and subpar. (A) headings, in first sentence substituted “The Administrator shall promulgate, and periodically update,” for “No later than one year after November 15, 1990, the Administrator shall promulgate”, designated second sentence as subpar. (B), inserted heading, substituted “The Administrator, with the concurrence of the Secretary of Transportation, shall promulgate”, designated third sentence as subpar. (C), inserted heading, substituted “A civil action” for “A suit”, and redesignated former subpar. (B) to (D) as (D) to (F), respectively.

Subsec. (c)(4)(B)(ii). Pub. L. 109-59, §6011(b), amended cl. (ii) generally. Prior to amendment, cl. (ii) read as follows: “address the appropriate frequency for making conformity determinations, but in no case shall such determinations for transportation plans and programs be less frequent than every three years; and”.

Subsec. (c)(4)(E). Pub. L. 109-59, §6011(f)(4), added subpar. (E) and struck out former subpar. (E) which read as follows: “Such procedures shall also include a requirement that each State shall submit to the Administrator and the Secretary of Transportation within 24 months of November 15, 1990, a revision to its implementation plan that includes criteria and procedures for assessing the conformity of any plan, program, or project subject to the conformity requirements of this subsection.”

Subsec. (c)(7) to (10). Pub. L. 109-59, §6011(c)-(e), added pars. (7) to (10).

1990—Subsecs. (a), (b). Pub. L. 101-549, §110(4), struck out subsec. (a) which related to approval of projects or award of grants, and subsec. (b) which related to implementation of approved or promulgated plans.

Subsec. (c). Pub. L. 101-549, §110(7), designated existing provisions as par. (1), struck out “(1)”,”(2)”, “(3)”, and “(4)” before “engage in”, “support in”, “license or”, and “approve”, respectively, substituted “conform to an implementation plan after it” for “conform to a plan after it”, “conform to an implementation plan approved” for “conform to a plan approved”, and “conformity to such an implementation plan shall” for “conformity to such a plan shall”, inserted “Conformity to an implementation plan means—” followed immediately by subpars. (A) and (B) and closing provisions relating to determination of conformity being based on recent estimates of emissions and the determination of such estimates, and added pars. (2) to (4).

£ 7506a. Interstate transport commissions

(a) Authority to establish interstate transport regions

Whenever, on the Administrator's own motion or by petition from the Governor of any State, the Administrator has reason to believe that the interstate transport of air pollutants from one or more States contributes significantly to a violation of a national ambient air quality standard in one or more other States, the Administrator may establish, by rule, a transport region for such pollutant that includes such States. The Administrator, on the Administrator's own motion or upon petition from the Governor of any State, or upon the recommendation of a transport commission established under subsection (b) of this section, may—

(1) add any State or portion of a State to any region established under this subsection whenever the Administrator has reason to believe that the interstate transport of air pollutants from such State significantly contributes to a violation of the standard in the transport region, or

(2) remove any State or portion of a State from the region whenever the Administrator has reason to believe that the control of emissions in that State or portion of the State pursuant to this section will not significantly contribute to the attainment of the standard in any area in the region.

The Administrator shall approve or disapprove any such petition or recommendation within 18 months of its receipt. The Administrator shall establish appropriate proceedings for public participation regarding such petitions and motions, including notice and comment.

(b) Transport commissions

(1) Establishment

Whenever the Administrator establishes a transport region under subsection (a) of this section, the Administrator shall establish a transport commission comprised of (at a minimum) each of the following members:

(A) The Governor of each State in the region or the designee of each such Governor.

(B) The Administrator or the Administrator's designee.

(C) The Regional Administrator (or the Administrator's designee) for each Regional Office for each Environmental Protection Agency Region affected by the transport region concerned.

(D) An air pollution control official representing each State in the region, appointed by the Governor.

Decisions of, and recommendations and requests to, the Administrator by each transport commission may be made only by a majority vote of all members other than the Administrator and the Regional Administrators (or designees thereof).

(2) Recommendations

The transport commission shall assess the degree of interstate transport of the pollutant or precursors to the pollutant throughout the transport region, assess strategies for mitigating the interstate pollution, and recommend
to the Administrator such measures as the Commission determines to be necessary to ensure that the plans for the relevant States meet the requirements of section 7410(a)(2)(D) of this title. Such commission shall not be subject to the provisions of the Federal Advisory Committee Act (5 U.S.C. App.).

(c) Commission requests
A transport commission established under subsection (b) of this section may request the Administrator to issue a finding under section 7410(k)(5) of this title that the implementation plan for one or more of the States in the transport region is substantially inadequate to meet the requirements of section 7410(a)(2)(D) of this title. The Administrator shall approve, disapprove, or partially approve and partially disapprove such a request within 18 months of its receipt and, to the extent the Administrator approves such request, issue the finding under section 7410(k)(5) of this title at the time of such approval. In acting on such request, the Administrator shall provide an opportunity for public participation and shall address each specific recommendation made by the commission. Approval or disapproval of such a request shall constitute final agency action within the meaning of section 7007(b) of this title.

(July 14, 1955, ch. 360, title I, § 176A, as added Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.)

REFERENCES IN TEXT

§ 7507. New motor vehicle emission standards in nonattainment areas

Notwithstanding section 7543(a) of this title, any State which has plan provisions approved under this part may adopt and enforce for any model year standards relating to control of emissions from new motor vehicles or new motor vehicle engines and take such other actions as are referred to in section 7543(a) of this title respecting such vehicles if—

(1) such standards are identical to the California standards for which a waiver has been granted for such model year, and

(2) California and such State adopt such standards at least two years before commencement of such model year (as determined by regulations of the Administrator).

Nothing in this section or in subchapter II of this chapter shall be construed as authorizing any such State to prohibit or limit, directly or indirectly, the manufacture or sale of a new motor vehicle or motor vehicle engine that is certified in California as meeting California standards, or to take any action of any kind to create, or have the effect of creating, a motor vehicle or motor vehicle engine different from a motor vehicle or engine certified in California under California standards (a "third vehicle") or otherwise create such a "third vehicle".

AMENDMENTS
1990—Pub. L. 101–549 added sentence at end prohibiting States from limiting or prohibiting sale or manufacture of new vehicles or engines certified in California as having met California standards and from taking any actions where effect of those actions would be to create a "third vehicle".

§ 7508. Guidance documents

The Administrator shall issue guidance documents under section 7408 of this title for purposes of assisting States in implementing requirements of this part respecting the lowest achievable emission rate. Such a document shall be published not later than nine months after August 7, 1977, and shall be revised at least every two years thereafter.

§ 7509. Sanctions and consequences of failure to attain

(a) State failure

For any implementation plan or plan revision required under this part (or required in response to a finding of substantial inadequacy as described in section 7410(k)(5) of this title), if the Administrator—

(1) finds that a State has failed, for an area designated nonattainment under section 7407(d) of this title, to submit a plan, or to submit 1 or more of the elements (as determined by the Administrator) required by the provisions of this chapter applicable to such an area, or has failed to make a submission for such an area that satisfies the minimum criteria established in relation to any such element under section 7410(k) of this title,

(2) disapproves a submission under section 7410(k) of this title, for an area designated nonattainment under section 7407 of this title, based on the submission's failure to meet one or more of the elements required by the provisions of this chapter applicable to such an area,

(3)(A) determines that a State has failed to make any submission as may be required under this chapter, other than one described under paragraph (1) or (2), including an adequate maintenance plan, or has failed to make any submission, as may be required under this chapter, other than one described under paragraph (1) or (2), that satisfies the minimum criteria established in relation to such submission under section 7410(k)(1)(A) of this title, or

(B) disapproves in whole or in part a submission described under subparagraph (A), or

(4) finds that any requirement of an approved plan (or approved part of a plan) is not being implemented,

unless such deficiency has been corrected within 18 months after the finding, disapproval, or determination referred to in paragraphs (1), (2), (3), and (4), one of the sanctions referred to in subsection (b) of this section shall apply, as selected by the Administrator, until the Administrator determines that the State has come into
compliance, except that if the Administrator finds a lack of good faith, sanctions under both paragraph (1) and paragraph (2) of this section shall apply until the Administrator determines that the State has come into compliance. If the Administrator has selected one of such sanctions and the deficiency has not been corrected within 6 months thereafter, sanctions under both paragraph (1) and paragraph (2) of subsection (b) of this section shall apply until the Administrator determines that the State has come into compliance. In addition to any other sanction applicable as provided in this section, the Administrator may withhold all or part of the grants for support of air pollution planning and control programs that the Administrator may award under section 7405 of this title.

(b) Sanctions

The sanctions available to the Administrator as provided in subsection (a) of this section are as follows:

(1) Highway sanctions

(A) The Administrator may impose a prohibition, applicable to a nonattainment area, on the approval by the Secretary of Transportation of any projects or the awarding by the Secretary of any grants, under title 23 other than projects or grants for safety where the Secretary determines, based on accident or other appropriate data submitted by the State, that the principal purpose of the project is an improvement in safety to resolve a demonstrated safety problem and likely will result in a significant reduction in, or avoidance of, accidents. Such prohibition shall become effective upon the selection by the Administrator of this sanction.

(B) In addition to safety, projects or grants that may be approved by the Secretary, notwithstanding the prohibition in subparagraph (A), are the following—

(i) capital programs for public transit;

(ii) construction or restriction of certain roads or lanes solely for the use of passenger buses or high occupancy vehicles;

(iii) planning for requirements for employers to reduce employee work-trip-related vehicle emissions;

(iv) highway ramp metering, traffic signalization, and related programs that improve traffic flow and achieve a net emission reduction;

(v) fringe and transportation corridor parking facilities serving multiple occupancy vehicle programs or transit operations;

(vi) programs to limit or restrict vehicle use in downtown areas or other areas of emission concentration particularly during periods of peak use, through road use charges, tolls, parking surcharges, or other pricing mechanisms, vehicle restricted zones or periods, or vehicle registration programs;

(vii) programs for breakdown and accident scene management, nonrecurring congestion, and vehicle information systems, to reduce congestion and emissions; and

(viii) such other transportation-related programs as the Administrator, in consulta-

tion with the Secretary of Transportation, finds would improve air quality and would not encourage single occupancy vehicle capacity.

In considering such measures, the State should seek to ensure adequate access to downtown, other commercial, and residential areas, and avoid increasing or relocating emissions and congestion rather than reducing them.

(2) Offsets

In applying the emissions offset requirements of section 7503 of this title to new or modified sources or emissions units for which a permit is required under this part, the ratio of emission reductions to increased emissions shall be at least 2 to 1.

(c) Notice of failure to attain

(1) As expeditiously as practicable after the applicable attainment date for any nonattainment area, but not later than 6 months after such date, the Administrator shall determine, based on the area’s air quality as of the attainment date, whether the area attained the standard by that date.

(2) Upon making the determination under paragraph (1), the Administrator shall publish a notice in the Federal Register containing such determination and identifying each area that the Administrator has determined to have failed to attain. The Administrator may revise or supplement such determination at any time based on more complete information or analysis concerning the area’s air quality as of the attainment date.

(d) Consequences for failure to attain

(1) Within 1 year after the Administrator publishes the notice under subsection (c)(2) of this section (relating to notice of failure to attain), each State containing a nonattainment area shall submit a revision to the applicable implementation plan meeting the requirements of paragraph (2) of this subsection.

(2) The revision required under paragraph (1) shall meet the requirements of section 7410 of this title and section 7502 of this title. In addition, the revision shall include such additional measures as the Administrator may reasonably prescribe, including all measures that can be feasibly implemented in the area in light of technological achievability, costs, and any nonair quality and other air quality-related health and environmental impacts.

(3) The attainment date applicable to the revision required under paragraph (1) shall be the same as provided in the provisions of section 7502(a)(2) of this title, except that in applying such provisions the phrase “from the date of the notice under section 7508(c)(2) of this title” shall be substituted for the phrase “from the date the area was designated nonattainment under section 7407(d) of this title” and for the phrase “from the date of designation as nonattainment”.

(July 14, 1965, ch. 360, title I, §179, as added Pub. L. 101–549, title I, §102(g), Nov. 15, 1990, 104 Stat. 2420.)
§ 7509a. International border areas

(a) Implementation plans and revisions

Notwithstanding any other provision of law, an implementation plan or plan revision required under this chapter shall be approved by the Administrator if—

(1) such plan or revision meets all the requirements applicable to it under the chapter other than a requirement that such plan or revision demonstrate attainment and maintenance of the relevant national ambient air quality standards by the attainment date specified under the applicable provision of this chapter, or in a regulation promulgated under such provision, and

(2) the submitting State establishes to the satisfaction of the Administrator that the implementation plan of such State would be adequate to attain and maintain the relevant national ambient air quality standards by the attainment date specified under the applicable provision of this chapter, or in a regulation promulgated under such provision, and

(b) Attainment of ozone levels

Notwithstanding any other provision of law, any State that establishes to the satisfaction of the Administrator that, with respect to an ozone nonattainment area in such State, such State would have attained the national ambient air quality standard for ozone by the applicable attainment date, but for emissions emanating from outside the United States, shall not be subject to the provisions of section 7511(a)(2) or (5) of this title or section 7511d of this title.

(c) Attainment of carbon monoxide levels

Notwithstanding any other provision of law, any State that establishes to the satisfaction of the Administrator that, with respect to a carbon monoxide nonattainment area in such State, such State would have attained the national ambient air quality standard for carbon monoxide by the applicable attainment date, but for emissions emanating from outside the United States, shall not be subject to the provisions of section 7512(b)(2) or (9) of this title or section 7511d of this title.

(d) Attainment of PM–10 levels

Notwithstanding any other provision of law, any State that establishes to the satisfaction of the Administrator that, with respect to a PM–10 nonattainment area in such State, such State would have attained the national ambient air quality standard for carbon monoxide by the applicable attainment date, but for emissions emanating from outside the United States, shall not be subject to the provisions of section 7512(b)(2) or (9) of this title or section 7511d of this title.

Establishment of program to monitor and improve air quality in regions along border between United States and Mexico

Section 815 of Pub. L. 101–549 provided that:

(1) review and agree to plans for monitoring and remediation;

(2) inspect premises, equipment and records to ensure compliance with the agreements established under the purposes set forth in this section; and

(3) develop grant agreements with affected States to carry out the provisions of this section.

* * * So in original. Probably should be “this”.

* * * So in original. Section 7512(b) of this title does not contain a par. (9).
§ 7511. Classifications and attainment dates

(a) Classification and attainment dates for 1989 nonattainment areas

(1) Each area designated nonattainment for ozone pursuant to section 7407(d) of this title shall be classified at the time of such designation, under table 1, by operation of law, as a Marginal Area, a Moderate Area, a Serious Area, a Severe Area, or an Extreme Area based on the design value for the area. The design value shall be calculated according to the interpretation methodology issued by the Administrator most recently before November 15, 1990. For each area classified under this subsection, the primary standard attainment date for ozone shall be as expeditiously as practicable but not later than the date provided in table 1.

<table>
<thead>
<tr>
<th>Area class</th>
<th>Design value*</th>
<th>Primary standard attainment date**</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marginal</td>
<td>0.121 up to 0.138</td>
<td>3 years after November 15, 1990</td>
</tr>
<tr>
<td>Moderate</td>
<td>0.138 up to 0.160</td>
<td>6 years after November 15, 1990</td>
</tr>
<tr>
<td>Serious</td>
<td>0.160 up to 0.180</td>
<td>9 years after November 15, 1990</td>
</tr>
<tr>
<td>Severe</td>
<td>0.180 up to 0.280</td>
<td>20 years after November 15, 1990</td>
</tr>
<tr>
<td>Extreme</td>
<td>0.280 and above</td>
<td>No more than 2 one-year extensions may be issued under this paragraph for a single nonattainment area.</td>
</tr>
</tbody>
</table>

*The design value is measured in parts per million (ppm). **The primary standard attainment date is measured from November 15, 1990.

(2) Notwithstanding table 1, in the case of a severe area with a 1988 ozone design value between 0.190 and 0.280 ppm, the attainment date shall be 17 years (in lieu of 15 years) after November 15, 1990.

(3) At the time of publication of the notice under section 7407(d)(4) of this title (relating to area designations) for each ozone nonattainment area, the Administrator shall publish a notice announcing the classification of such ozone nonattainment area. The provisions of section 7502(a)(1)(B) of this title (relating to lack of notice and comment and judicial review) shall apply to such classification.

(4) If an area classified under paragraph (1) (Table 1) would have been classified in another category if the design value in the area were 5 percent greater or 5 percent less than the level on which such classification was based, the Administrator may, in the Administrator’s discretion, within 90 days after the initial classification, by the procedure required under paragraph (3), adjust the classification to place the area in such other category. In making such adjustment, the Administrator may consider the number of exceedances of the national primary ambient air quality standard for ozone in the area, the level of pollution transport between the area and other affected areas, including both intrastate and interstate transport, and the mix of sources and air pollutants in the area.

(5) Upon application by any State, the Administrator may extend for 1 additional year (hereinafter referred to as the “Extension Year”) the date specified in table 1 of paragraph (1) of this subsection if—

(A) the State has complied with all requirements and commitments pertaining to the area in the applicable implementation plan, and

(B) no more than 1 exceedance of the national ambient air quality standard level for ozone has occurred in the area in the year preceding the Extension Year.

No more than 2 one-year extensions may be issued under this paragraph for a single nonattainment area.

(b) New designations and reclassifications

(1) New designations to nonattainment

Any area that is designated attainment or unclassifiable for ozone under section 7407(d)(4) of this title, and that is subsequently redesignated to nonattainment for ozone under section 7407(d)(3) of this title, shall, at the time of the redesignation, be classified by operation of law in accordance with table 1 under subsection (a) of this section. Upon its classification, the area shall be subject to the same requirements under section 7410 of this title, subparagraph (A) of this section, and this subparagraph that would have applied had the area been so classified at the time of the notice under subsection (a)(3) of this section, except that any absolute, fixed date applicable in connection with any such requirement is extended by operation of law by a period equal to the length of time between November 15, 1990, and the date the area is classified under this paragraph.

(2) Reclassification upon failure to attain

(A) Within 6 months following the applicable attainment date (including any extension thereof) for an ozone nonattainment area, the Administrator shall determine, based on the area’s design value (as of the attainment date), whether the area attained the standard by that date. Except for any Severe or Extreme area, any area that the Administrator finds has not attained the standard by that date shall be redesignated by operation of law in accordance with table 1 of section 7407(d) of this title, subparagraph (A) of this section, and this subparagraph (B).

(B) The Administrator shall publish a notice in the Federal Register, no later than 6 months following the attainment date, identifying each area that the Administrator has determined under subparagraph (A) as having failed to attain and identifying the reclassification, if any, described under subparagraph (A).

(3) Voluntary reclassification

The Administrator shall grant the request of any State to reclassify a nonattainment area...
in that State in accordance with table 1 of subsection (a) of this section to a higher classification. The Administrator shall publish a notice in the Federal Register of any such request and of action by the Administrator granting the request.

(4) Failure of Severe Areas to attain standard

(A) If any Severe Area fails to achieve the national primary ambient air quality standard for ozone by the applicable attainment date (including any extension thereof), the fee provisions under section 7511d of this title shall apply within the area, the percent reduction requirements of section 7511a(c)(2)(B) and (C) of this title (relating to reasonable further progress demonstration and NOx control) shall continue to apply to the area, and the State shall demonstrate that such percent reduction has been achieved in each 3-year interval after such failure until the standard is attained. Any failure to make such a demonstration shall be subject to the sanctions provided under this part.

(B) In addition to the requirements of subparagraph (A), if the ozone design value for a Severe Area referred to in subparagraph (A) is above 0.140 ppm for the year of the applicable attainment date, or if the area has failed to achieve its most recent milestone under section 7511a(g) of this title, the new source review requirements applicable under this subpart in Extreme Areas shall apply in the area and the term 1 “major source” and “major stationary source” shall have the same meaning as in Extreme Areas.

(C) In addition to the requirements of subparagraph (A) for those areas referred to in subparagraph (A) and not covered by subparagraph (B), the provisions referred to in subparagraph (B) shall apply after 3 years from the applicable attainment date unless the area has attained the standard by the end of such 3-year period.

(D) If, after November 15, 1990, the Administrator modifies the method of determining compliance with the national primary ambient air quality standard, a design value or other indicator comparable to 0.140 in terms of its relationship to the standard shall be used in lieu of 0.140 for purposes of applying the provisions of subparagraphs (B) and (C).

(c) References to terms

(1) Any reference in this subpart to a “Marginal Area”, a “Moderate Area”, a “Serious Area”, or an “Extreme Area” shall be considered a reference to a Marginal Area, a Moderate Area, a Serious Area, a Severe Area, or an Extreme Area as respectively classified under this section.

(2) Any reference in this subpart to “next higher classification” or comparable terms shall be considered a reference to the classification related to the next higher set of design values in table 1.

1 So in original. Probably should be “terms”.

§7511a. Plan submissions and requirements

(a) Marginal Areas

Each State in which all or part of a Marginal Area is located shall, with respect to the Marginal Area (or portion thereof, to the extent specified in this subsection), submit to the Administrator the State implementation plan revisions (including the plan items) described under this subsection except to the extent the State has made such submissions as of November 15, 1990.

(1) Inventory

Within 2 years after November 15, 1990, the State shall submit a comprehensive, accurate, current inventory of actual emissions from all sources, as described in section 7502(c)(3) of this title, in accordance with guidance provided by the Administrator.

(2) Corrections to the State implementation plan

Within the periods prescribed in this paragraph, the State shall submit a revision to the State implementation plan that meets the following requirements—

(A) Reasonably available control technology corrections

For any Marginal Area (or, within the Administrator’s discretion, portion thereof) the State shall submit, within 6 months of the date of classification under section 7511a of this title, a revision that includes such provisions to correct requirements in (or add requirements to) the plan concerning reasonably available control technology as were required under section 7502(b) of this title (as in effect immediately before November 15, 1990), as interpreted in guidance issued by the Administrator under section 7408 of this title before November 15, 1990.
(B) Savings clause for vehicle inspection and maintenance

(i) For any Marginal Area (or, within the Administrator’s discretion, portion thereof), the plan for which already includes, or was required by section 7522(b)(11)(B) of this title (as in effect immediately before November 15, 1990) to have included, a specific schedule for implementation of a vehicle emission control inspection and maintenance program, the State shall submit, immediately after November 15, 1990, a revision that includes any provisions necessary to provide for a vehicle inspection and maintenance program of no less stringency than that of either the program defined in House Report Numbered 95–294, 95th Congress, 1st Session, 281–291 (1977) as interpreted in guidance of the Administrator issued pursuant to section 7502(b)(11)(B) of this title (as in effect immediately before November 15, 1990) or the program already included in the plan, whichever is more stringent.

(ii) Within 12 months after November 15, 1990, the Administrator shall review, revise, update, and republish in the Federal Register the guidance for the States for motor vehicle inspection and maintenance programs required by this chapter, taking into consideration the Administrator’s investigations and audits of such program. The guidance shall, at a minimum, cover the frequency of inspections, the types of vehicles to be inspected (which shall include leased vehicles that are registered in the non-attainment area), vehicle maintenance by owners and operators, audits by the State, the test method and measures, including whether centralized or decentralized, inspection methods and procedures, quality of inspection, components covered, assurance that a vehicle subject to a recall notice from a manufacturer has complied with that notice, and effective implementation and enforcement, including ensuring that any re-testing of a vehicle after a failure shall include proof of corrective action and providing for denial of vehicle registration in the case of tampering or misfueling. The guidance which shall be incorporated in the applicable State implementation plans by the States shall provide the States with continued reasonable flexibility to fashion effective, reasonable, and fair programs for the affected consumer. No later than 2 years after the Administrator promulgates regulations under section 7521(m)(3) of this title (relating to emission control diagnostics), the State shall submit a revision to such program to meet any requirements that the Administrator may prescribe under that section.

(C) Permit programs

Within 2 years after November 15, 1990, the State shall submit a revision that includes each of the following:

(i) Provisions to require permits, in accordance with sections 7502(c)(5) and 7503 of this title, for the construction and operation of each new or modified major stationary source (with respect to ozone) to be located in the area.

(ii) Provisions to correct requirements in (or add requirements to) the plan concerning permit programs as were required under section 7522(b)(6) of this title (as in effect immediately before November 15, 1990), as interpreted in regulations of the Administrator promulgated as of November 15, 1990.

(3) Periodic inventory

(A) General requirement

No later than the end of each 3-year period after submission of the inventory under paragraph (1) until the area is redesignated to attainment, the State shall submit a revised inventory meeting the requirements of subsection (a)(1) of this section.

(B) Emissions statements

(i) Within 2 years after November 15, 1990, the State shall submit a revision to the State implementation plan to require that the owner or operator of each stationary source of oxides of nitrogen or volatile organic compounds provide the State with a statement, in such form as the Administrator may prescribe (or accept an equivalent alternative developed by the State), for classes or categories of sources, showing the actual emissions of oxides of nitrogen and volatile organic compounds from that source. The first such statement shall be submitted within 3 years after November 15, 1990. Subsequent statements shall be submitted at least every year thereafter. The statement shall contain a certification that the information contained in the statement is accurate to the best knowledge of the individual certifying the statement.

(ii) The State may waive the application of clause (i) to any class or category of stationary sources which emit less than 25 tons per year of volatile organic compounds or oxides of nitrogen if the State, in its submissions under subparagraphs (1) or (3)(A), provides an inventory of emissions from such class or category of sources, based on the use of the emission factors established by the Administrator or other methods acceptable to the Administrator.

(4) General offset requirement

For purposes of satisfying the emission offset requirements of this part, the ratio of total emission reductions of volatile organic compounds to total increased emissions of such air pollutant shall be at least 1.1 to 1.

The Administrator may, in the Administrator’s discretion, require States to submit a schedule for submitting any of the revisions or other items required under this subsection. The requirements of this subsection shall apply in lieu of any requirement that the State submit a demonstration that the applicable implementation plan provides for attainment of the ozone standard by the applicable attainment date in any Marginal Area. Section 7502(c)(9) of this §7511a

1 So in original. Probably should be “subparagraph.”
§ 7511a  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6328

title (relating to contingency measures) shall not apply to Marginal Areas.

(b) Moderate Areas

Each State in which all or part of a Moderate Area is located shall, with respect to the Moderate Area, make the submissions described under subsection (a) of this section (relating to Marginal Areas), and shall also submit the revisions to the applicable implementation plan described under this subsection.

(1) Plan provisions for reasonable further progress

(A) General rule

(i) By no later than 3 years after November 15, 1990, the State shall submit a revision to the applicable implementation plan to provide for volatile organic compound emission reductions, within 6 years after November 15, 1990, of at least 15 percent from baseline emissions, accounting for any growth in emissions after 1990. Such plan shall provide for such specific annual reductions in emissions of volatile organic compounds and oxides of nitrogen as necessary to attain the national primary ambient air quality standard for ozone by the attainment date applicable under this chapter. This subparagraph shall not apply in the case of oxides of nitrogen for those areas for which the Administrator determines (when the Administrator approves the plan or plan revision) that additional reductions of oxides of nitrogen would not contribute to attainment.

(ii) A percentage less than 15 percent may be used for purposes of clause (i) in the case of any State which demonstrates to the satisfaction of the Administrator that—

(I) new source review provisions are applicable in the nonattainment area in the same manner and to the same extent as required under subsection (e) of this section in the case of Extreme Areas (with the exception that, in applying such provisions, the terms ‘major source’ and ‘major stationary source’ shall include (in addition to the sources described in section 7602 of this title) any stationary source or group of sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 5 tons per year of volatile organic compounds);

(II) reasonably available control technology is required for all existing major sources (as defined in subclause (I)); and

(III) the plan reflecting a lesser percentage than 15 percent includes all measures that can feasibly be implemented in the area, in light of technological achievability.

To qualify for a lesser percentage under this clause, a State must demonstrate to the satisfaction of the Administrator that the plan for the area includes the measures that are achieved in practice by sources in the same source category in nonattainment areas of the next higher category.

(B) Baseline emissions

For purposes of subparagraph (A), the term “baseline emissions” means the total amount of actual VOC or NOx emissions from all anthropogenic sources in the area during the calendar year 1990, excluding emissions that would be eliminated under the regulations described in clauses (i) and (ii) of subparagraph (D).

(C) General rule for creditability of reductions

Except as provided under subparagraph (D), emissions reductions are creditable toward the 15 percent required under subparagraph (A) to the extent they have actually occurred, as of 6 years after November 15, 1990, from the implementation of measures required under the applicable implementation plan, rules promulgated by the Administrator, or a permit under subchapter V of this chapter.

(D) Limits on creditability of reductions

Emission reductions from the following measures are not creditable toward the 15 percent reductions required under subparagraph (A):

(i) Any measure relating to motor vehicle exhaust or evaporative emissions promulgated by the Administrator by January 1, 1990.

(ii) Regulations concerning Reid Vapor Pressure promulgated by the Administrator by November 15, 1990, or required to be promulgated under section 7545(h) of this title.

(iii) Measures required under subsection (a)(2)(B) of this section to be submitted immediately after November 15, 1990 (concerning corrections to motor vehicle inspection and maintenance programs).

(2) Reasonably available control technology

The State shall submit a revision to the applicable implementation plan to include provisions to require the implementation of reasonably available control technology under section 7502(c)(1) of this title with respect to each of the following:

(A) Each category of VOC sources in the area covered by a CTG document issued by the Administrator between November 15, 1990, and the date of attainment.

(B) All VOC sources in the area covered by any CTG issued before November 15, 1990.

(C) All other major stationary sources of VOCs that are located in the area.

Each revision described in subparagraph (A) shall be submitted within the period set forth by the Administrator in issuing the relevant CTG document. The revisions with respect to sources described in subparagraphs (B) and (C) shall be submitted by 2 years after November 15, 1990, and shall provide for the implementation of the required measures as expeditiously as practicable but no later than May 31, 1995.

(3) Gasoline vapor recovery

(A) General rule

Not later than 2 years after November 15, 1990, the State shall submit a revision to the
applicable implementation plan to require all owners or operators of gasoline dispensing systems to install and operate, by the date prescribed under subparagraph (B), a system for gasoline vapor recovery of emissions from the fueling of motor vehicles. The Administrator shall issue guidance as appropriate as to the effectiveness of such system. This subparagraph shall apply only to facilities which sell more than 10,000 gallons of gasoline per month (50,000 gallons per month in the case of an independent small business marketer of gasoline as defined in section 7625-1\(^2\) of this title).

(B) Effective date

The date required under subparagraph (A) shall be—

(i) 6 months after the adoption date, in the case of gasoline dispensing facilities for which construction commenced after November 15, 1990;

(ii) one year after the adoption date, in the case of gasoline dispensing facilities which dispense at least 100,000 gallons of gasoline per month, based on average monthly sales for the 2-year period before the adoption date; or

(iii) 2 years after the adoption date, in the case of all other gasoline dispensing facilities.

Any gasoline dispensing facility described under both clause (i) and clause (ii) shall meet the requirements of clause (i).

(C) Reference to terms

For purposes of this paragraph, any reference to the term “adoption date” shall be considered a reference to the date of adoption by the State of requirements for the installation and operation of a system for gasoline vapor recovery of emissions from the fueling of motor vehicles.

(4) Motor vehicle inspection and maintenance

For all Moderate Areas, the State shall submit, immediately after November 15, 1990, a revision to the applicable implementation plan that includes provisions necessary to provide for a vehicle inspection and maintenance program as described in section 7511a(2)(B) of this title (as in effect immediately before November 15, 1990) to have included a specific schedule for implementation of such a program.

(5) General offset requirement

For purposes of satisfying the emission offset requirements of this part, the ratio of total emission reductions of volatile organic compounds to total increase\(^3\) emissions of such air pollutant shall be at least 1.15 to 1.

(c) Serious Areas

Except as otherwise specified in paragraph (4), each State in which all or part of a Serious Area is located shall, with respect to the Serious Area (or portion thereof, to the extent specified in this subsection), make the submissions described under subsection (b) of this section (relating to Moderate Areas), and shall also submit the revisions to the applicable implementation plan (including the plan items) described under this subsection. For any Serious Area, the terms “major source” and “major stationary source” include (in addition to the sources described in section 7602 of this title) any stationary source or group of sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 50 tons per year of volatile organic compounds.

(1) Enhanced monitoring

In order to obtain more comprehensive and representative data on ozone air pollution, not later than 18 months after November 15, 1990, the Administrator shall promulgate rules, after notice and public comment, for enhanced monitoring of ozone, oxides of nitrogen, and volatile organic compounds. The rules shall, among other things, cover the location and maintenance of monitors. Immediately following the promulgation of rules by the Administrator relating to enhanced monitoring, the State shall commence such actions as may be necessary to adopt and implement a program based on such rules, to improve monitoring for ambient concentrations of ozone, oxides of nitrogen and volatile organic compounds and to improve monitoring of emissions of oxides of nitrogen and volatile organic compounds. Each State implementation plan for the area shall contain measures to improve the ambient monitoring of such air pollutants.

(2) Attainment and reasonable further progress demonstrations

Within 4 years after November 15, 1990, the State shall submit a revision to the applicable implementation plan that includes each of the following:

(A) Attainment demonstration

A demonstration that the plan, as revised, will provide for attainment of the ozone national ambient air quality standard by the applicable attainment date. This attainment demonstration must be based on photochemical grid modeling or any other analytical method determined by the Administrator, in the Administrator’s discretion, to be at least as effective.

(B) Reasonable further progress demonstration

A demonstration that the plan, as revised, will result in VOC emissions reductions from the baseline emissions described in subsection (b)(1)(B) of this title equal to the following amount averaged over each consecutive 3-year period beginning 6 years after November 15, 1990, until the attainment date:

(i) at least 3 percent of baseline emissions each year; or

(ii) an amount less than 3 percent of such baseline emissions each year, if the State demonstrates to the satisfaction of the Administrator that the plan reflecting such

\(^2\)So in original. Probably should be section “7625”. \(^3\)So in original. Probably should be “increased”. 
To lessen the 3 percent requirement under clause (ii), a State must demonstrate to the satisfaction of the Administrator that the plan for the area includes the measures that are achieved in practice by sources in the same source category in nonattainment areas of the next higher classification. Any determination to lessen the 3 percent requirement shall be reviewed at each milestone under subsection (g) of this section and revised to reflect such new measures (if any) achieved in practice by sources in the same category in any State, allowing a reasonable time to implement such measures. The emission reductions described in this subparagraph shall be calculated in accordance with subsections (b)(1)(C) and (D) of this section (concerning creditability of reductions). The reductions creditable for the period beginning 6 years after November 15, 1990, shall include reductions that occurred before such period, computed in accordance with subsection (b)(1) of this section, that exceed the 15-percent amount of reductions required under subsection (b)(1)(A) of this section.

(C) NOx control

The revision may contain, in lieu of the demonstration required under subparagraph (B), a demonstration to the satisfaction of the Administrator that the applicable implementation plan, as revised, provides for reductions of emissions of VOC's and oxides of nitrogen (calculated according to the creditability provisions of subsection (b)(1)(C) and (D) of this section), that would result in a reduction in ozone concentrations at least equivalent to that which would result from the amount of VOC emission reductions required under subparagraph (B). Within 1 year after November 15, 1990, the Administrator shall issue guidance concerning the conditions under which NOx control may be substituted for VOC control or may be combined with VOC control in order to maximize the reduction in ozone air pollution. In accord with such guidance, a lesser percentage of VOCs may be accepted as an adequate demonstration for purposes of this subsection.

(3) Enhanced vehicle inspection and maintenance program

(A) Requirement for submission

Within 2 years after November 15, 1990, the State shall submit a revision to the applicable implementation plan to provide for an enhanced program to reduce hydrocarbon emissions and NOx emissions from in-use motor vehicles registered in each urbanized area (in the nonattainment area), as defined by the Bureau of the Census, with a 1980 population of 200,000 or more.

(B) Effective date of State programs; guidance

The State program required under subparagraph (A) shall take effect no later than 2 years from November 15, 1990, and shall comply in all respects with guidance published in the Federal Register (and from time to time revised) by the Administrator for enhanced vehicle inspection and maintenance programs. Such guidance shall include—

(i) a performance standard achievable by a program combining emission testing, including on-road emission testing, with inspection to detect tampering with emission control devices and misfueling for all light-duty vehicles and all light-duty trucks subject to standards under section 7521 of this title; and

(ii) program administration features necessary to reasonably assure that adequate management resources, tools, and practices are in place to attain and maintain the performance standard.

Compliance with the performance standard under clause (i) shall be determined using a method to be established by the Administrator.

(C) State program

The State program required under subparagraph (A) shall include, at a minimum, each of the following elements—

(i) Computerized emission analyzers, including on-road testing devices.

(ii) No waivers for vehicles and parts covered by the emission control performance warranty as provided for in section 7541(b) of this title unless a warranty remedy has been denied in writing, or for tampering-related repairs.

(iii) In view of the air quality purpose of the program, if, for any vehicle, waivers are permitted for emissions-related repairs not covered by warranty, an expenditure to qualify for the waiver of an amount of $450 or more for such repairs (adjusted annually as determined by the Administrator on the basis of the Consumer Price Index in the same manner as provided in subchapter V of this chapter).

(iv) Enforcement through denial of vehicle registration (except for any program in operation before November 15, 1990, whose enforcement mechanism is demonstrated to the Administrator to be more effective than the applicable vehicle registration program in assuring that noncomplying vehicles are not operated on public roads).

(v) Annual emission testing and necessary adjustment, repair, and maintenance, unless the State demonstrates to the satisfaction of the Administrator that a biennial inspection, in combination with other features of the program which exceed the requirements of this chapter, will result in emission reductions which equal or exceed the reductions which can be obtained through such annual inspections.

(vi) Operation of the program on a centralized basis, unless the State demonstrates to the satisfaction of the Administrator that a decentralized program will be equally effective. An electronically connected testing system, a licensing system,
or other measures (or any combination thereof) may be considered, in accordance with criteria established by the Administrator, as equally effective for such purposes.

(7) Inspection of emission control diagnostic systems and the maintenance or repair of malfunctions or system deterioration identified by or affecting such diagnostic systems.

Each State shall biennially prepare a report to the Administrator which assesses the emission reductions achieved by the program required under this paragraph based on data collected during inspection and repair of vehicles. The methods used to assess the emission reductions shall be those established by the Administrator.

(4) Clean-fuel vehicle programs

(A) Except to the extent that substitute provisions have been approved by the Administrator under subparagraph (B), the State shall submit to the Administrator, within 42 months of November 15, 1990, a revision to the applicable implementation plan for each area described under part C of subchapter II of this chapter to include such measures as may be necessary to ensure the effectiveness of the applicable provisions of the clean-fuel vehicle program prescribed under part C of subchapter II of this chapter, including all measures necessary to make the use of clean alternative fuels in clean-fuel vehicles (as defined in part C of subchapter II of this chapter) economic from the standpoint of vehicle owners. Such a revision shall also be submitted for each area that opts into the clean-fuel-vehicle program as provided in part C of subchapter II of this chapter.

(B) The Administrator shall approve, as a substitute for all or a portion of the clean-fuel vehicle program prescribed under part C of subchapter II of this chapter, any revision to the relevant applicable implementation plan that in the Administrator’s judgment will achieve long-term reductions in ozone-producing and toxic air emissions equal to those achieved under part C of subchapter II of this chapter, or the percentage thereof attributable to the portion of the clean-fuel vehicle program for which the revision is to substitute. The Administrator may approve such revision only if it consists exclusively of provisions other than those required under this chapter for the area. Any State seeking approval of such revision must submit the revision to the Administrator within 24 months of November 15, 1990. The Administrator shall approve or disapprove any such revision within 30 months of November 15, 1990. The Administrator shall publish the revision submitted by a State in the Federal Register upon receipt. Such notice shall constitute a notice of proposed rulemaking on whether or not to approve such revision and shall be deemed to comply with the requirements concerning notices of proposed rulemaking contained in sections 553 through 557 of title 5 (related to notice and comment). Where the Administrator approves such revision for any area, the State need not submit the revision required by subparagraph (A) for the area with respect to the portions of the Federal clean-fuel vehicle program for which the Administrator has approved the revision as a substitute.

(C) If the Administrator determines, under section 7509 of this title, that the State has failed to submit any portion of the program required under subparagraph (A), then, in addition to any sanctions available under section 7509 of this title, the State may not receive credit, in any demonstration of attainment or reasonable further progress for the area, for any emission reductions from implementation of the corresponding aspects of the Federal clean-fuel vehicle requirements established in part C of subchapter II of this chapter.

(5) Transportation control

(A) Beginning 6 years after November 15, 1990, and each third year thereafter, the State shall submit a demonstration as to whether current aggregate vehicle mileage, aggregate vehicle emissions, congestion levels, and other relevant parameters are consistent with those used for the area’s demonstration of attainment. Where such parameters and emissions levels exceed the levels projected for purposes of the area’s attainment demonstration, the State shall within 18 months develop and submit a revision of the applicable implementation plan that includes a transportation control measures program consisting of measures from, but not limited to, section 7408(f) of this title that will reduce emissions to levels that are consistent with emission levels projected in such demonstration. In considering such measures, the State should ensure adequate access to downtown, other commercial, and residential areas and should avoid measures that increase or relocate emissions and congestion rather than reduce them. Such revision shall be developed in accordance with guidance issued by the Administrator pursuant to section 7408(e) of this title and with the requirements of section 7504(b) of this title and shall include implementation and funding schedules that achieve expeditious emissions reductions in accordance with implementation plan projections.

(6) De minimis rule

The new source review provisions under this part shall ensure that increased emissions of volatile organic compounds resulting from any physical change in, or change in the method of operation of, a stationary source located in the area shall not be considered de minimis for purposes of determining the applicability of the permit requirements established by this chapter unless the increase in net emissions of such air pollutant from such source does not exceed 25 tons when aggregated with all other net increases in emissions from the source over any period of 5 consecutive calendar years which includes the calendar year in which such increase occurred.

*So in original. No subpar. (B) has been enacted.*
(7) Special rule for modifications of sources emitting less than 100 tons

In the case of any major stationary source of volatile organic compounds located in the area (other than a source which emits or has the potential to emit 100 tons or more of volatile organic compounds per year), whenever any change (as described in section 7411(a)(4) of this title) at that source results in an increase (other than a de minimis increase) in emissions of volatile organic compounds from any discrete operation, unit, or other pollutant emitting activity at the source, such increase shall be considered a modification for purposes of section 7502(c)(5) of this title and section 7503(a) of this title, except that such increase shall not be considered a modification for such purposes if the owner or operator of the source elects to offset the increase by a greater reduction in emissions of volatile organic compounds concerned from other operations, units, or activities within the source at an internal offset ratio of at least 1.3 to 1. If the owner or operator does not make such election, such change shall be considered a modification for such purposes, but in applying section 7502(a)(2) of this title in the case of any such modification, the best available control technology (BACT), as defined in section 7479 of this title, shall be substituted for the lowest achievable emission rate (LAER). The Administrator shall establish and publish policies and procedures for implementing the provisions of this paragraph.

(8) Special rule for modifications emitting 100 tons or more

In the case of any major stationary source of volatile organic compounds located in the area which emits or has the potential to emit 100 tons or more of volatile organic compounds per year, whenever any change (as described in section 7411(a)(4) of this title) at that source results in an increase (other than a de minimis increase) in emissions of volatile organic compounds from any discrete operation, unit, or other pollutant emitting activity at the source, such increase shall be considered a modification for purposes of section 7502(c)(5) of this title and section 7503(a) of this title, except that if the owner or operator of the source elects to offset the increase by a greater reduction in emissions of volatile organic compounds from other operations, units, or activities within the source at an internal offset ratio of at least 1.3 to 1, the requirements of section 7503(a)(2) of this title (concerning the lowest achievable emission rate (LAER)) shall not apply.

(9) Contingency provisions

In addition to the contingency provisions required under section 7502(c)(9) of this title, the plan revision shall provide for the implementation of specific measures to be undertaken if the area fails to meet any applicable milestone. Such measures shall be included in the plan revision as contingency measures to take effect without further action by the State or the Administrator upon a failure by the State to meet the applicable milestone.

(10) General offset requirement

For purposes of satisfying the emission offset requirements of this part, the ratio of total emission reductions of volatile organic compounds to total increase emissions of such air pollutant shall be at least 1.2 to 1.

Any reference to “attainment date” in subsection (b) of this section, which is incorporated by reference into this subsection, shall refer to the attainment date for serious areas.

(d) Severe Areas

Each State in which all or part of a Severe Area is located shall, with respect to the Severe Area, make the submissions described under subsection (c) of this section (relating to Serious Areas), and shall also submit the revisions to the applicable implementation plan (including the plan items) described under this subsection. For any Severe Area, the terms “major source” and “major stationary source” include (in addition to the sources described in section 7602 of this title) any stationary source or group of sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 25 tons per year of volatile organic compounds.

(1) Vehicle miles traveled

(A) Within 2 years after November 15, 1990, the State shall submit a revision that identifies and adopts specific enforceable transportation control strategies and transportation control measures to offset any growth in emissions from growth in vehicle miles traveled or numbers of vehicle trips in such area and to attain reduction in motor vehicle emissions as necessary, in combination with other emission reduction requirements of this subpart, to comply with the requirements of subsections (b)(2)(B) and (c)(2)(B) of this section (pertaining to periodic emissions reduction requirements). The State shall consider measures specified in section 7408(f) of this title, and choose from among and implement such measures as necessary to demonstrate attainment with the national ambient air quality standards; in considering such measures, the State should ensure adequate access to downtown, other commercial, and residential areas and should avoid measures that increase or relocate emissions and congestion rather than reduce them.

(B) The State may also, in its discretion, submit a revision at any time requiring employers in such area to implement programs to reduce work-related vehicle trips and miles travelled by employees. Such revision shall be developed in accordance with guidance issued by the Administrator pursuant to section 7408(f) of this title and may require that employers in such area increase average passenger occupancy per vehicle in commuting trips between home and the workplace during peak travel periods. The guidance of the Administrator may specify average vehicle occupancy rates which vary for locations within a nonattainment area (suburban, center city, business district) or among nonattainment...
areas reflecting existing occupancy rates and the availability of high occupancy modes. Any State required to submit a revision under this subparagraph (as in effect before December 23, 1995) containing provisions requiring employers to reduce work-related vehicle trips and miles travelled by employees may, in accordance with State law, remove such provisions from the implementation plan, or withdraw its submission, if the State notifies the Administrator, in writing, that the State has undertaken, or will undertake, one or more alternative methods that will achieve emission reductions equivalent to those to be achieved by the removed or withdrawn provisions.

(2) Offset requirement

For purposes of satisfying the offset requirements pursuant to this part, the ratio of total emission reductions of VOCs to total increased emissions of such air pollutant shall be at least 1.3 to 1, except that if the State plan requires all existing major sources in the non-attainment area to use best available control technology (as defined in section 7479(3) of this title) for the control of volatile organic compounds, the ratio shall be at least 1.2 to 1.

(3) Enforcement under section 7511d

By December 31, 2000, the State shall submit a plan revision which includes the provisions required under section 7511d of this title.

Any reference to the term “attainment date” in subsection (b) or (c) of this section, which is incorporated by reference into this subsection (d), shall refer to the attainment date for Severe Areas.

(e) Extreme Areas

Each State in which all or part of an Extreme Area is located shall, with respect to the Extreme Area, make the submissions described under subsection (d) of this section (relating to Severe Areas), and shall also submit the revisions to the applicable implementation plan (including the plan items) described under this subsection. The provisions of clause (ii) of subsection (c)(2)(B) of this section (relating to reductions of less than 3 percent), the provisions of paragraphs 6, 7, and 8 of subsection (c) of this section (relating to de minimis rule and modification of sources), and the provisions of clause (ii) of subsection (b)(1)(A) of this section (relating to reductions of less than 15 percent) shall not apply in the case of an Extreme Area.

For any Extreme Area, the terms “major source” and “major stationary source” includes (in addition to the sources described in section 7602 of this title) any stationary source or group of sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 10 tons per year of volatile organic compounds.

(1) Offset requirement

For purposes of satisfying the offset requirements pursuant to this part, the ratio of total emission reductions of VOCs to total increased emissions of such air pollutant shall be at least 1.5 to 1, except that if the State plan requires all existing major sources in the non-attainment area to use best available control technology (as defined in section 7479(3) of this title) for the control of volatile organic compounds, the ratio shall be at least 1.2 to 1.

(2) Modifications

Any change (as described in section 7411(a)(4) of this title) at a major stationary source which results in any increase in emissions from any discrete operation, unit, or other pollutant emitting activity at the source shall be considered a modification for purposes of section 7502(c)(5) of this title and section 7503(a) of this title, except that for purposes of complying with the offset requirement pursuant to section 7503(a)(1) of this title, any such increase shall not be considered a modification if the owner or operator of the source elects to offset the increase by a greater reduction in emissions of the air pollutant concerned from other discrete operations, units, or activities within the source at an internal offset ratio of at least 1.3 to 1. The offset requirements of this part shall not be applicable in Extreme Areas to a modification of an existing source if such modification consists of installation of equipment required to comply with the applicable implementation plan, permit, or this chapter.

(3) Use of clean fuels or advanced control technology

For Extreme Areas, a plan revision shall be submitted within 3 years after November 15, 1990, to require, effective 8 years after November 15, 1990, that each new, modified, and existing major source emitting electric utility and industrial and commercial boiler which emits more than 25 tons per year of oxides of nitrogen—

(A) burn as its primary fuel natural gas, methanol, or ethanol (or a comparably low polluting fuel), or

(B) use advanced control technology (such as catalytic control technology or other comparable effective control methods) for reduction of emissions of oxides of nitrogen.

For purposes of this subsection, the term “primary fuel” means the fuel which is used 90 percent or more of the operating time. This paragraph shall not apply during any natural gas supply emergency (as defined in title III of the Natural Gas Policy Act of 1978 [15 U.S.C. 3361 et seq.]).

(4) Traffic control measures during heavy traffic hours

For Extreme Areas, each implementation plan revision under this subsection may contain provisions establishing traffic control measures applicable during heavy traffic hours to reduce the use of high polluting vehicles or heavy-duty vehicles, notwithstanding any other provision of law.

(5) New technologies

The Administrator may, in accordance with section 7410 of this title, approve provisions of an implementation plan for an Extreme Area which anticipate development of new control
techniques or improvement of existing control technologies, and an attainment demonstration based on such provisions, if the State demonstrates to the satisfaction of the Administrator that—

(A) such provisions are not necessary to achieve the incremental emission reductions required during the first 10 years after November 15, 1990; and

(B) the State has submitted enforceable commitments to develop and adopt contingency measures to be implemented as set forth herein if the anticipated technologies do not achieve planned reductions.

Such contingency measures shall be submitted to the Administrator no later than 3 years before proposed implementation of the plan provisions and approved or disapproved by the Administrator in accordance with section 7410 of this title. The contingency measures shall be adequate to produce emission reductions sufficient, in conjunction with other approved plan provisions, to achieve the periodic emission reductions required by subsection (b)(1) or (c)(2) of this section and applicable dates. If the Administrator determines that an Extreme Area has failed to achieve an emission reduction requirement set forth in subsection (b)(1) or (c)(2) of this section, and that such failure is due in whole or part to an inability to fully implement provisions approved pursuant to this subsection, the Administrator shall require the State to implement the contingency measures to the extent necessary to assure compliance with subsections (b)(1) and (c)(2) of this section.

Any reference to the term “attainment date” in subsection (b), (c), or (d) of this section which is incorporated by reference into this subsection, shall refer to the attainment date for Extreme Areas.

(f) NO\textsubscript{x} requirements

(1) The plan provisions required under this subpart for major stationary sources of volatile organic compounds shall also apply to major stationary sources (as defined in section 7602 of this title and subsections (c), (d), and (e) of this section) of oxides of nitrogen. This subsection shall not apply in the case of oxides of nitrogen for those sources for which the Administrator determines (when the Administrator approves a plan or plan revision) that net air quality benefits are greater in the absence of reductions of oxides of nitrogen from the sources concerned. This subsection shall also not apply in the case of oxides of nitrogen for—

(A) nonattainment areas not within an ozone transport region under section 7511c of this title, if the Administrator determines (when the Administrator approves a plan or plan revision) that additional reductions of oxides of nitrogen would not contribute to attainment of the national ambient air quality standard for ozone in the area, or

(B) nonattainment areas within an ozone transport region if the Administrator determines that net air quality benefits are greater in the absence of such reductions. Alternatively, for purposes of this paragraph, excess reductions in emissions of NO\textsubscript{x} are, for—

(i) nonattainment areas not within an ozone transport region under section 7511c of this title, emission reductions that the Administrator determines would not contribute to attainment of the national ambient air quality standard for ozone in the area, or

(ii) nonattainment areas within such ozone transport region, emission reductions that the Administrator determines would not produce net ozone air quality benefits in such region.

(3) At any time after the final report under section 7511f of this title is submitted to Congress, a person may petition the Administrator for a determination under paragraph (1) or (2) with respect to any nonattainment area or any ozone transport region under section 7511c of this title. The Administrator shall grant or deny such petition within 6 months after its filing with the Administrator.

(g) Milestones

(1) Reductions in emissions

6 years after November 15, 1990, and at intervals of every 3 years thereafter, the State shall determine whether each nonattainment area (other than an area classified as Marginal or Moderate) has achieved a reduction in emissions during the preceding intervals equivalent to the total emission reductions required to be achieved by the end of such interval pursuant to subsection (b)(1) of this section and the corresponding requirements of subsections (c)(2)(B) and (C), (d), and (e) of this section. Such reduction shall be referred to in this section as an applicable milestone.

(2) Compliance demonstration

For each nonattainment area referred to in paragraph (1), not later than 90 days after the date on which an applicable milestone occurs (not including an attainment date on which a milestone occurs in cases where the standard has been attained), each State in which all or part of such area is located shall submit to the Administrator a demonstration that the milestone has been met. A demonstration under this paragraph shall be submitted in such form and manner, and shall contain such information and analysis, as the Administrator shall require, by rule. The Administrator shall determine whether or not a State’s demonstration is adequate within 90 days after the Administrator’s receipt of a demonstration which contains the information and analysis required by the Administrator.
(3) Serious and Severe Areas; State election

If a State fails to submit a demonstration under paragraph (2) for any Serious or Severe Area within the required period or if the Administrator determines that the area has not met any applicable milestone, the State shall elect, within 90 days after such failure or determination—

(A) to have the area reclassified to the next higher classification,

(B) to implement specific additional measures adequate, as determined by the Administrator, to meet the next milestone as provided in the applicable contingency plan, or

(C) to adopt an economic incentive program as described in paragraph (4).

If the State makes an election under subparagraph (B), the Administrator shall, within 90 days after the election, review such plan and shall, if the Administrator finds the contingency plan inadequate, require further measures necessary to meet such milestone. Once the State makes an election, it shall be deemed accepted by the Administrator as meeting the election requirement. If the State fails to make an election required under this paragraph within the required 90-day period or within 6 months thereafter, the area shall be reclassified to the next higher classification by operation of law at the expiration of such 6-month period. Within 12 months after the date required for the State to make an election, the State shall submit a revision of the applicable implementation plan for the area that meets the requirements of this paragraph. The Administrator shall review such plan revision and approve or disapprove the revision within 9 months after the date of its submission.

(4) Economic incentive program

(A) An economic incentive program under this paragraph shall be consistent with rules published by the Administrator and sufficient, in combination with other elements of the State plan, to achieve the next milestone. The State program may include a nondiscriminatory system, consistent with applicable law regarding interstate commerce, of State established emissions fees or a system of marketable permits, or a system of State fees on sale or manufacture of products the use of which contributes to ozone formation, or any combination of the foregoing or other similar measures. The program may also include incentives and requirements to reduce vehicle emissions and vehicle miles traveled in the area, including any of the transportation control measures identified in section 7408(f) of this title.

(B) Within 2 years after November 15, 1990, the Administrator shall publish rules for the plan provision to be adopted pursuant to subparagraph (A). Such rules shall include model plan provisions which may be adopted for reducing emissions from permitted stationary sources, area sources, and mobile sources. The guidelines shall require that any revenues generated by the plan provisions adopted pursuant to subparagraph (A) shall be used by the State for any of the following:

(i) Providing incentives for achieving emission reductions.

(ii) Providing assistance for the development of innovative technologies for the control of ozone air pollution and for the development of lower-polluting solvents and surface coatings. Such assistance shall not provide for the payment of more than 75 percent of either the costs of any project to develop such a technology or the costs of development of a lower-polluting solvent or surface coating.

(iii) Funding the administrative costs of State programs under this chapter. Not more than 50 percent of such revenues may be used for purposes of this clause.

(5) Extreme Areas

If a State fails to submit a demonstration under paragraph (2) for any Extreme Area within the required period, or if the Administrator determines that the area has not met any applicable milestone, the State shall, within 9 months after such failure or determination, submit a plan revision to implement an economic incentive program which meets the requirements of paragraph (4). The Administrator shall review such plan revision and approve or disapprove the revision within 9 months after the date of its submission.

(h) Rural transport areas

(1) Notwithstanding any other provision of section 7511 of this title or this section, a State containing an ozone nonattainment area that does not include, and is not adjacent to, any part of a Metropolitan Statistical Area or, where one exists, a Consolidated Metropolitan Statistical Area (as defined by the United States Bureau of the Census), which area is treated by the Administrator, in the Administrator’s discretion, as a rural transport area within the meaning of paragraph (2), shall be treated by operation of law as satisfying the requirements of this section if it makes the submissions required under subsection (a) of this section (relating to marginal areas).

(2) The Administrator may treat an ozone nonattainment area as a rural transport area if the Administrator finds that sources of VOC (and, where the Administrator determines relevant, NOx) emissions within the area do not make a significant contribution to the ozone concentrations measured in the area or in other areas.

(i) Reclassified areas

Each State containing an ozone nonattainment area reclassified under section 7511(b)(2) of this title shall meet such requirements of subsections (b) through (d) of this section as may be applicable to the area as reclassified, according to the schedules prescribed in connection with such requirements, except that the Administrator may adjust any applicable deadlines (other than attainment dates) to the extent such adjustment is necessary or appropriate to assure consistency among the required submissions.

(j) Multi-State ozone nonattainment areas

(1) Coordination among States

Each State in which there is located a portion of a single ozone nonattainment area which covers more than one State (hereinafter in this section referred to as a “multi-State ozone nonattainment area”) shall—
(A) take all reasonable steps to coordinate, substantively and procedurally, the revisions and implementation of State implementation plans applicable to the nonattainment area concerned; and

(b) use photochemical grid modeling or any other analytical method determined by the Administrator, in his discretion, to be at least as effective.

The Administrator may not approve any revision of a State implementation plan submitted under this part for a State in which part of a multi-State ozone nonattainment area is located if the plan revision for that State fails to comply with the requirements of this subsection.

(2) Failure to demonstrate attainment

If any State in which there is located a portion of a multi-State ozone nonattainment area fails to provide a demonstration of attainment of the national ambient air quality standard for ozone in that portion within the required period, the State may petition the Administrator to make a finding that the State would have been able to make such demonstration but for the failure of one or more other States in which other portions of the area are located to commit to the implementation of all measures required under this section (relating to plan submissions and requirements for ozone nonattainment areas). If the Administrator makes such finding, the provisions of section 7509 of this title (relating to sanctions) shall not apply, by reason of the failure to make such demonstration, in the portion of the multi-State ozone nonattainment area within the State submitting such petition.

REFERENCES IN TEXT

AMENDMENTS

1995—Subsec. (d)(1)(B). Pub. L. 104–70 amended subpar. (B) generally. Prior to amendment, subpar. (B) read as follows: “Within 2 years after November 15, 1990, the State shall submit a revision requiring employers in such area to implement programs to reduce work-related vehicle trips and miles traveled by employees. Such revision shall be developed in accordance with guidance issued by the Administrator pursuant to section 7408(f) of this title and shall, at a minimum, require that each employer of 100 or more persons in such area increase average passenger occupancy per vehicle in commuting trips between home and the workplace during peak travel periods by not less than 25 percent above the average vehicle occupancy for all such trips in the area at the time the revision is submitted. The guidance of the Administrator may specify average vehicle occupancy rates which vary for locations within a nonattainment area (suburban, center city, business district) or among nonattainment areas reflecting existing occupancy rates and the availability of high occupancy modes. The revision shall provide that each employer subject to a vehicle occupancy requirement shall submit a compliance plan within 2 years after the date the revision is submitted which shall convincingly demonstrate compliance with the requirements of this paragraph not later than 4 years after such date.”

Moratorium on certain emissions testing requirements

“(a) IN GENERAL.—The Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the ‘Administrator’) shall not require adoption or implementation by a State of a test-only U/M240 enhanced vehicle inspection and maintenance program as a means of compliance with section 182 or 187 of the Clean Air Act (42 U.S.C. 7511a; 7512a), but the Administrator may approve such a program if a State chooses to adopt the program as a means of compliance with such section.

“(b) LIMITATION ON PLAN DISAPPROVAL.—The Administrator shall not disapprove or apply an automatic discount to a State implementation plan revision under section 182 or 187 of the Clean Air Act (42 U.S.C. 7511a; 7512a) on the basis of a policy, regulation, or guidance providing for a discount of emissions credits because the inspection and maintenance program in such plan revision is decentralized or a test-and-repair program.

“(c) EMISSIONS REDUCTION CREDITS.—

“(1) STATE PLAN REVISION; APPROVAL.—Within 120 days of the date of the enactment of this subsection [Nov. 28, 1995], a State may submit an implementation plan revision proposing an interim inspection and maintenance program under section 182 or 187 of the Clean Air Act (42 U.S.C. 7511a; 7512a) on the basis of a policy, regulation, or guidance providing for a discount of emissions credits because the inspection and maintenance program in such plan revision is centralized or a test-and-repair program.

“(2) EXPIRATION OF INTERIM APPROVAL.—The interim approval shall expire on the earlier of (A) the last day of the 18-month period beginning on the date of the interim approval, or (B) the date of final approval. The interim approval may not be extended.

“(3) FINAL APPROVAL.—The Administrator shall grant final approval of the revision based on the credit its proposed by the State during or after the period of interim approval, if data collected on the operation of the State program demonstrates that the credits are appropriate and the revision is otherwise in compliance with such Act. If, within such 120-day period, the State submits to the Administrator proposed revisions to the implementation plan, has all of the statutory authority necessary to implement the revisions, and has proposed a regulation to make the revisions, the Administrator may approve the revisions without regard to whether or not such regulation has been issued as a final regulation by the State.

“(4) BASIS OF APPROVAL; NO AUTOMATIC DISCOUNT.—Any determination with respect to interim or final approval shall be based on the elements of the program and shall not apply any automatic discount because the program is decentralized or a test-and-repair program.”

§7511b Federal ozone measures

(a) Control techniques guidelines for VOC sources

Within 3 years after November 15, 1990, the Administrator shall issue control techniques guidelines, in accordance with section 7408 of this title, for 11 categories of stationary sources of VOC emissions for which such guidelines have not been issued as of November 15, 1990, not in-
cluding the categories referred to in paragraphs (3) and (4) of subsection (b) of this section. The Administrator may issue such additional control techniques guidelines as the Administrator deems necessary.

(b) Existing and new CTGS

(1) Within 36 months after November 15, 1990, and periodically thereafter, the Administrator shall review and, if necessary, update control technique guidance issued under section 7408 of this title before November 15, 1990.

(2) In issuing the guidelines the Administrator shall give priority to those categories which the Administrator considers to make the most significant contribution to the formation of ozone air pollution in ozone nonattainment areas, including hazardous waste treatment, storage, and disposal facilities which are permitted under subtitle C of the Solid Waste Disposal Act [42 U.S.C. 6921 et seq.]. Thereafter the Administrator shall periodically review and, if necessary, revise such guidelines.

(3) Within 3 years after November 15, 1990, the Administrator shall issue control techniques guidelines in accordance with section 7408 of this title to reduce the aggregate emissions of volatile organic compounds into the ambient air from aerospace coatings and solvents. Such control techniques guidelines shall, at a minimum, be adequate to reduce aggregate emissions of volatile organic compounds into the ambient air from the application of such coatings and solvents to such level as the Administrator determines may be achieved through the adoption of best available control measures. Such control technology guidance shall provide for such reductions in such increments and on such schedules as the Administrator determines to be reasonable, but in no event later than 10 years after the final issuance of such control technology guidance. In developing control technology guidance under this subsection, the Administrator shall consult with the Secretary of Defense, the Secretary of Transportation, and the Administrator of the National Aeronautics and Space Administration with regard to the establishment of specifications for such coatings. In evaluating VOC reduction strategies, the guidance shall take into account the applicable requirements of section 7412 of this title and the need to protect stratospheric ozone.

(4) Within 3 years after November 15, 1990, the Administrator shall issue control techniques guidelines in accordance with section 7406 of this title to reduce the aggregate emissions of volatile organic compounds and PM–10 into the ambient air from paints, coatings, and solvents used in shipbuilding operations and ship repair. Such control techniques guidelines shall, at a minimum, be adequate to reduce aggregate emissions of volatile organic compounds and PM–10 into the ambient air from the removal or application of such paints, coatings, and solvents to such level as the Administrator determines may be achieved through the adoption of the best available control measures. Such control techniques guidelines shall provide for such reductions in such increments and on such schedules as the Administrator determines to be reasonable, but in no event later than 10 years after the final issuance of such control technology guidance. In developing control techniques guidelines under this subsection, the Administrator shall consult with the appropriate Federal agencies.

(c) Alternative control techniques

Within 3 years after November 15, 1990, the Administrator shall issue technical documents which identify alternative controls for all categories of stationary sources of volatile organic compounds and oxides of nitrogen which emit, or have the potential to emit 25 tons per year or more of such air pollutant. The Administrator shall revise and update such documents as the Administrator determines necessary.

(d) Guidance for evaluating cost-effectiveness

Within 1 year after November 15, 1990, the Administrator shall provide guidance to the States to be used in evaluating the relative cost-effectiveness of various options for the control of emissions from existing stationary sources of air pollutants which contribute to nonattainment of the national ambient air quality standards for ozone.

(e) Control of emissions from certain sources

(1) Definitions

For purposes of this subsection—

(A) Best available controls

The term “best available controls” means the degree of emissions reduction that the Administrator determines, on the basis of technological and economic feasibility, health, environmental, and energy impacts, is achievable through the application of the most effective equipment, measures, processes, methods, systems or techniques, including chemical reformulation, product or feedstock substitution, repackaging, and directions for use, consumption, storage, or disposal.

(B) Consumer or commercial product

The term “consumer or commercial product” means any substance, product (including paints, coatings, and solvents), or article (including any container or packaging) held by any person, the use, consumption, storage, disposal, destruction, or decomposition of which may result in the release of volatile organic compounds. The term does not include fuels or fuel additives regulated under section 7545 of this title, or motor vehicles, non-road vehicles, and non-road engines as defined under section 7550 of this title.

(C) Regulated entities

The term “regulated entities” means—

(i) manufacturers, processors, wholesale distributors, or importers of consumer or commercial products for sale or distribution in interstate commerce in the United States; or

(ii) manufacturers, processors, wholesale distributors, or importers that supply the entities listed under clause (i) with such products for sale or distribution in interstate commerce in the United States.
§ 7511b  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6338

(2) Study and report

(A) Study

The Administrator shall conduct a study of the emissions of volatile organic compounds into the ambient air from consumer and commercial products (or any combination thereof) in order to—

(i) determine their potential to contribute to ozone levels which violate the national ambient air quality standard for ozone; and

(ii) establish criteria for regulating consumer and commercial products or classes or categories thereof which shall be subject to control under this subsection.

The study shall be completed and a report submitted to Congress not later than 3 years after November 15, 1990.

(B) Consideration of certain factors

In establishing the criteria under subparagraph (A)(ii), the Administrator shall take into consideration each of the following:

(i) The uses, benefits, and commercial demand of consumer and commercial products.

(ii) The health or safety functions (if any) served by such consumer and commercial products.

(iii) Those consumer and commercial products which emit highly reactive volatile organic compounds into the ambient air.

(iv) Those consumer and commercial products which are subject to the most cost-effective controls.

(v) The availability of alternatives (if any) to such consumer and commercial products which are of comparable costs, considering health, safety, and environmental impacts.

(3) Regulations to require emission reductions

(A) In general

Upon submission of the final report under paragraph (2), the Administrator shall list those categories of consumer and commercial products that the Administrator determines, based on the study, account for at least 80 percent of the VOC emissions, on a reactivity-adjusted basis, from consumer or commercial products. Those consumer and commercial products which are subject to the most cost-effective controls. Those consumer and commercial products which are of comparable costs, considering health, safety, and environmental impacts.

B) Regulated entities

Regulations under this subsection may be imposed only with respect to regulated entities.

(C) Use of CTGS

For any consumer or commercial product the Administrator may issue control techniques guidelines under this chapter in lieu of regulations required under subparagraph (A) if the Administrator determines that such guidance will be substantive as regulations in reducing emissions of volatile organic compounds which contribute to ozone levels in areas which violate the national ambient air quality standard for ozone.

(4) Systems of regulation

The regulations under this subsection may include any system or systems of regulation as the Administrator may deem appropriate, including requirements for registration and labeling, self-monitoring and reporting, prohibitions, limitations, or economic incentives (including marketable permits and auctions of emissions rights) concerning the manufacture, processing, distribution, use, consumption, or disposal of the product.

(5) Special fund

Any amounts collected by the Administrator under such regulations shall be deposited in a special fund in the United States Treasury for licensing and other services, which thereafter shall be available until expended, subject to annual appropriation Acts, solely to carry out the activities of the Administrator for which such fees, charges, or collections are established or made.

(6) Enforcement

Any regulation established under this subsection shall be treated, for purposes of enforcement of this chapter, as a standard under section 7411 of this title and any violation of such regulation shall be treated as a violation of a requirement of section 7411(e) of this title.

(7) State administration

Each State may develop and submit to the Administrator a procedure under State law for implementing and enforcing regulations promulgated under this subsection. If the Administrator finds the State procedure is adequate, the Administrator shall approve such procedure. Nothing in this paragraph shall prohibit the Administrator from enforcing any applicable regulations under this subsection.

(8) Size, etc.

No regulations regarding the size, shape, or labeling of a product may be promulgated, unless the Administrator determines such regulations to be useful in meeting any national ambient air quality standard.

(9) State consultation

Any State which proposes regulations other than those adopted under this subsection shall...
consult with the Administrator regarding whether any other State or local subdivision has promulgated or is promulgating regulations on any products covered under this part. The Administrator shall establish a clearinghouse of information, studies, and regulations proposed and promulgated regarding products covered under this subsection and disseminate such information collected as requested by State or local subdivisions.

(f) Tank vessel standards

(1) Schedule for standards

(A) Within 2 years after November 15, 1990, the Administrator, in consultation with the Secretary of the Department in which the Coast Guard is operating, shall promulgate standards applicable to the emission of VOCs and any other air pollutant from loading and unloading of tank vessels (as that term is defined in section 2101 of title 46) which the Administrator finds causes, or contributes to, air pollution that may reasonably be anticipated to endanger public health or welfare. Such standards shall require the application of reasonably available control technology, considering costs, any nonair-quality benefits, environmental impacts, energy requirements and safety factors associated with alternative control techniques. To the extent practicable such standards shall apply to loading and unloading facilities and not to tank vessels.

(B) Any regulation prescribed under this subsection (and any revision thereof) shall take effect after such period as the Administrator finds (after consultation with the Secretary of the department 1 in which the Coast Guard is operating) necessary to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within such period, except that the effective date shall not be more than 2 years after promulgation of such regulations.

(2) Regulations on equipment safety

Within 6 months after November 15, 1990, the Secretary of the Department in which the Coast Guard is operating shall issue regulations to ensure the safety of the equipment and operations which are to control emissions from the loading and unloading of tank vessels, under section 3703 of title 46 and section 1225 of title 33. The standards promulgated by the Administrator under paragraph (1) and the regulations issued by a State or political subdivision thereof, and others. The study shall be completed and a report submitted to Congress not later than 3 years after November 15, 1990. The results of the study shall be subject to peer and public review before submitting it to Congress.

(3) Agency authority

(A) The Administrator shall ensure compliance with the tank vessel emission standards prescribed under paragraph (1)(A). The Secretary of the Department in which the Coast Guard is operating shall also ensure compliance with the tank vessel standards prescribed under paragraph (1)(A).

(B) The Secretary of the Department in which the Coast Guard is operating shall ensure compliance with the regulations issued under paragraph (2).

(4) State or local standards

After the Administrator promulgates standards under this section, no State or political subdivision thereof may adopt or attempt to enforce any standard respecting emissions from tank vessels subject to regulation under paragraph (1) unless such standard is no less stringent than the standards promulgated under paragraph (1).

(5) Enforcement

Any standard established under paragraph (1)(A) shall be treated, for purposes of enforcement of this chapter, as a standard under section 7411 of this title and any violation of such standard shall be treated as a violation of a requirement of section 7411(e) of this title.

(g) Ozone design value study

The Administrator shall conduct a study of whether the methodology in use by the Environmental Protection Agency as of November 15, 1990, for establishing a design value for ozone provides a reasonable indicator of the ozone air quality of ozone nonattainment areas. The Administrator shall obtain input from States, local subdivisions thereof, and others. The study shall be completed and a report submitted to Congress not later than 3 years after November 15, 1990. The results of the study shall be subject to peer and public review before submitting it to Congress.

(h) Vehicles entering ozone nonattainment areas

(1) Authority regarding ozone inspection and maintenance testing

(A) In general

No noncommercial motor vehicle registered in a foreign country and operated by a United States citizen or by an alien who is a permanent resident of the United States, or who holds a visa for the purposes of employment or educational study in the United States, may enter a covered ozone nonattainment area from a foreign country bordering the United States and contiguous to the nonattainment area more than twice in a single calendar-month period, if State law has requirements for the inspection and maintenance of such vehicles under the applicable implementation plan in the nonattainment area.

(B) Applicability

Subparagraph (A) shall not apply if the operator presents documentation at the United States border entry point establishing that the vehicle has complied with such inspection and maintenance requirements as are in effect and are applicable to motor vehicles of the same type and model year.

(2) Sanctions for violations

The President may impose and collect from the operator of any motor vehicle who violates, or attempts to violate, paragraph (1) a civil penalty of not more than $200 for the sec-

---

1 So in original. Probably should be capitalized.
ond violation or attempted violation and $400 for the third and each subsequent violation or attempted violation.

(3) State election

The prohibition set forth in paragraph (1) shall not apply in any State that elects to be exempt from the prohibition. Such an election shall take effect upon the President’s receipt of written notice from the Governor of the State notifying the President of such election.

(4) Alternative approach

The prohibition set forth in paragraph (1) shall not apply in a State, and the President may implement an alternative approach, if—

(A) the Governor of the State submits to the President a written description of an alternative approach to facilitate the compliance, by some or all foreign-registered motor vehicles, with the motor vehicle inspection and maintenance requirements that are—

(i) related to emissions of air pollutants;

(ii) in effect under the applicable implementation plan in the covered ozone non-attainment area; and

(iii) applicable to motor vehicles of the same types and model years as the foreign-registered motor vehicles; and

(B) the President approves the alternative approach as facilitating compliance with the motor vehicle inspection and maintenance requirements referred to in subparagraph (A).

(5) Definition of covered ozone nonattainment area

In this section, the term “covered ozone nonattainment area” means a Serious Area, as classified under section 7511 of this title as of October 27, 1998.

REFERENCES IN TEXT

AMENDMENTS

EFFECTIVE DATE OF 1998 AMENDMENT; PUBLICATION OF PROHIBITION

“(a) IN GENERAL.—The amendment made by section 2 [amending this section] takes effect 180 days after the date of the enactment of this Act [Oct. 27, 1998]. Nothing in that amendment shall require action that is inconsistent with the obligations of the United States under any international agreement.

“(b) INFORMATION.—As soon as practicable after the date of the enactment of this Act, the appropriate agency of the United States shall distribute information to publicize the prohibition set forth in the amendment made by section 2.”

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 7511c. Control of interstate ozone air pollution

(a) Ozone transport regions

A single transport region for ozone (within the meaning of section 7506a(a) of this title), comprised of the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the Consolidated Metropolitan Statistical Area that includes the District of Columbia, is hereby established by operation of law. The provisions of section 7506a(a)(1) and (2) of this title shall apply with respect to the transport region established under this section and any other transport region established for ozone, except to the extent inconsistent with the provisions of this section. The Administrator shall convene the commission required (under section 7506a(b) of this title) as a result of the establishment of such region within 6 months of November 15, 1990.

(b) Plan provisions for States in ozone transport regions

(1) In accordance with section 7410 of this title, not later than 2 years after November 15, 1990 (or 9 months after the subsequent inclusion of a State in a transport region established for ozone), each State included within a transport region established for ozone shall submit a State implementation plan or revision thereof to the Administrator which requires the following—

(A) that each area in such State that is in an ozone transport region, and that is a metropolitan statistical area or part thereof with a population of 100,000 or more comply with the provisions of section 7511a(c)(2)(A) of this title (pertaining to enhanced vehicle inspection and maintenance programs); and

(B) implementation of reasonably available control technology with respect to all sources of volatile organic compounds in the State covered by a control techniques guideline issued before or after November 15, 1990.

(2) Within 3 years after November 15, 1990, the Administrator shall complete a study identifying control measures capable of achieving emission reductions comparable to those achievable through vehicle refueling controls contained in section 7511a(b)(3) of this title, and such measures or such vehicle refueling controls shall be implemented in accordance with the provisions of this section. Notwithstanding other deadlines in this section, the applicable implementation plan shall be revised to reflect such measures within 1 year of completion of the study. For purposes of this section any stationary source that emits or has the potential to emit at least
50 tons per year of volatile organic compounds shall be considered a major stationary source and subject to the requirements which would be applicable to major stationary sources if the area were classified as a Moderate nonattainment area.

(c) Additional control measures

(1) Recommendations

Upon petition of any State within a transport region established for ozone, and based on a majority vote of the Governors of the Commission (or their designees), the Commission may, after notice and opportunity for public comment, develop recommendations for additional control measures to be applied within all or a part of such transport region if the commission determines such measures are necessary to bring any area in such region into attainment by the dates provided by this subpart. The commission shall transmit such recommendations to the Administrator.

(2) Notice and review

Whenever the Administrator receives recommendations prepared by a commission pursuant to paragraph (1) (the date of receipt of which shall hereinafter in this section be referred to as the “receipt date”), the Administrator shall—

(A) immediately publish in the Federal Register a notice stating that the recommendations are available and provide an opportunity for public hearing within 90 days beginning on the receipt date; and

(B) commence a review of the recommendations to determine whether the control measures in the recommendations are necessary to bring any area in such region into attainment by the dates provided by this subpart and are otherwise consistent with this chapter.

(3) Consultation

In undertaking the review required under paragraph (2)(B), the Administrator shall consult with members of the commission of the affected States and shall take into account the data, views, and comments received pursuant to paragraph (2)(A).

(4) Approval and disapproval

Within 9 months after the receipt date, the Administrator shall (A) determine whether to approve, disapprove, or partially disapprove and partially approve the recommendations; (B) notify the commission in writing of such approval, disapproval, or partial disapproval; and (C) publish such determination in the Federal Register. If the Administrator disapproves or partially disapproves the recommendations, the Administrator shall specify—

(i) why any disapproved additional control measures are not necessary to bring any area in such region into attainment by the dates provided by this subpart or are otherwise inconsistent with §7511a(d) of this title; and

(ii) any recommendations concerning equal or more effective actions that could be taken by the commission to conform the disapproved portion of the recommendations to the requirements of this section.

(5) Finding

Upon approval or partial approval of recommendations submitted by a commission, the Administrator shall issue to each State which is included in the transport region and to which a requirement of the approved plan applies, a finding under section 7410(l)(5) of this title that the implementation plan for such State is inadequate to meet the requirements of section 7410(a)(2)(D) of this title. Such finding shall require each such State to revise its implementation plan to include the approved additional control measures within one year after the finding is issued.

(d) Best available air quality monitoring and modeling

For purposes of this section, not later than 6 months after November 15, 1990, the Administrator shall promulgate criteria for purposes of determining the contribution of sources in one area to concentrations of ozone in another area. Such criteria shall require that the best available air quality monitoring and modeling techniques be used for purposes of making such determinations.

(74 U.S.C. § 7511d) Enforcement for Severe and Extreme ozone nonattainment areas for failure to attain

(a) General rule

Each implementation plan revision required under section 7511a(d) and (e) of this title (relating to the attainment plan for Severe and Extreme ozone nonattainment areas) shall provide that, if the area to which such plan revision applies has failed to attain the national primary ambient air quality standard for ozone by the applicable attainment date, each major stationary source of VOCs located in the area shall, except as otherwise provided under subsection (c) of this section, pay a fee to the State as a penalty for such failure, computed in accordance with subsection (b) of this section, for each calendar year beginning after the attainment date, until the area is redesignated as an attainment area for ozone. Each such plan revision shall include procedures for assessment and collection of such fees.

(b) Computation of fee

(1) Fee amount

The fee shall equal $5,000, adjusted in accordance with paragraph (3), per ton of VOC emitted by the source during the calendar year in excess of 80 percent of the baseline amount, computed under paragraph (2).

(2) Baseline amount

For purposes of this section, the baseline amount shall be computed, in accordance with such guidance as the Administrator may provide, as the lower of the amount of actual VOC

---

1 So in original. Probably should not be capitalized.
2 So in original. Probably should be “this”. 
emissions ("actuals") or VOC emissions allowed under the permit applicable to the source (or, if no such permit has been issued for the attainment year, the amount of VOC emissions allowed under the applicable implementation plan ("allowables") during the attainment year. Notwithstanding the preceding sentence, the Administrator may issue guidance authorizing the baseline amount to be determined in accordance with the lower of average actuals or average allowables, determined over a period of more than one calendar year. Such guidance may provide that such average calculation for a specific source may be used if that source’s emissions are irregular, cyclical, or otherwise vary significantly from year to year.

(3) Annual adjustment

The fee amount under paragraph (1) shall be adjusted annually, beginning in the year beginning after 1990, in accordance with section 7661a(b)(3)(B)(v) of this title (relating to inflation adjustment).

(c) Exception

Notwithstanding any provision of this section, no source shall be required to pay any fee under subsection (a) of this section with respect to emissions during any year that is treated as an Extension Year under section 7511(a)(5) of this title.

(d) Fee collection by Administrator

If the Administrator has found that the fee provisions of the implementation plan do not meet the requirements of this section, or if the Administrator makes a finding that the State is not administering and enforcing the fee required under this section, the Administrator shall, in addition to any other action authorized under subsection (a) of this chapter, collect, in accordance with procedures promulgated by the Administrator, the unpaid fees required under subsection (a) of this section. If the Administrator makes such a finding under section 7509(a)(4) of this title, the Administrator may collect fees for periods before the determination, plus interest computed in accordance with section 6621(a)(2) of title 26 (relating to procedures promulgated by the Administrator, the unpaid fees required under subsection (a) of this section. If the Administrator makes such a finding under section 7509(a)(4) of this title, the Administrator may collect fees for periods before the determination, plus interest computed in accordance with section 6621(a)(2) of title 26 (relating to computation of interest on underpayment of Federal taxes), to the extent the Administrator finds such fees have not been paid to the State. The provisions of clauses (ii) through (iiii) of section 7661a(b)(3)(C) of this title (relating to penalties and use of the funds, respectively) shall apply with respect to fees collected under this subsection.

(e) Exemptions for certain small areas

For areas with a total population under 200,000 which fail to attain the standard by the applicable attainment date, no sanction under this section or under any other provision of this chapter shall apply if the area can demonstrate, consistent with guidance issued by the Administrator, that attainment in the area is prevented because of ozone or ozone precursors transported from other areas. The prohibition applies only in cases in which the area has met all requirements and implemented all measures applicable to the area under this chapter.

(1) Each area designated nonattainment for carbon monoxide pursuant to section 7407(d) of this title shall be classified at the time of such designation under table 1, by operation of law, as a Moderate Area or a Serious Area based on the design value for the area. The design value shall be calculated according to the interpretat-
tion methodology issued by the Administrator most recently before November 15, 1990. For each area classified under this subsection, the primary standard attainment date for carbon monoxide shall be as expeditiously as practicable but not later than the date provided in table 1:

<table>
<thead>
<tr>
<th>Area classification</th>
<th>Design value</th>
<th>Primary standard attainment date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Moderate</td>
<td>9.1–16.4 ppm</td>
<td>December 31, 1995</td>
</tr>
<tr>
<td>Serious</td>
<td>16.5 and above</td>
<td>December 31, 2000</td>
</tr>
</tbody>
</table>

(2) At the time of publication of the notice required under section 7407 of this title (designating carbon monoxide nonattainment areas), the Administrator shall publish a notice announcing the classification of each such carbon monoxide nonattainment area. The provisions of section 7502(a)(1)(B) of this title (relating to lack of nonattainment area. The provisions of section 7502(a)(1)(B) of this title (relating to lack of notice-and-comment and judicial review) shall apply with respect to such classification.

(3) If an area classified under paragraph (1), table 1, would have been classified in another category if the design value in the area were 5 percent greater or 5 percent less than the level on which such classification was based, the Administrator may, in the Administrator's discretion, within 90 days after November 15, 1990, by the procedure required under paragraph (2), adjust the classification of the area. In making such adjustment, the Administrator may consider the number of exceedances of the national primary ambient air quality standard for carbon monoxide in the area, the level of pollution transport between the area and the other affected areas, and the mix of sources and air pollutants in the area. The Administrator may make the same adjustment for purposes of paragraphs (2), (3), (6), and (7) of section 7512a(a) of this title.

(4) Upon application by any State, the Administrator may extend for 1 additional year (hereinafter in this subpart referred to as the "Extension Year") the date specified in table 1 of subsection (a) of this section if—

(A) the State has complied with all requirements and commitments pertaining to the area in the applicable implementation plan, and

(B) no more than one exceedance of the national ambient air quality standard level for carbon monoxide has occurred in the area in the year preceding the Extension Year.

No more than 2 one-year extensions may be issued under this paragraph for a single nonattainment area.

(b) New designations and reclassifications

(1) New designations to nonattainment

Any area that is designated attainment or unclassifiable for carbon monoxide under section 7407(d)(4) of this title, and that is subsequently redesignated to nonattainment for carbon monoxide under section 7407(d)(3) of this title, shall, at the time of the redesignation, be classified by operation of law in accordance with table 1 under subsections (a)(1) and (a)(4) of this section. Upon its classification, the area shall be subject to the same requirements under section 7410 of this title, subpart 1 of this part, and this subpart that would have applied had the area been so classified at the time of the notice under subsection (a)(2) of this section, except that any absolute, fixed date applicable in connection with any such requirement is extended by operation of law by a period equal to the length of time between November 15, 1990, and the date the area is classified.

(2) Reclassification of Moderate Areas upon failure to attain

(A) General rule

Within 6 months following the applicable attainment date for a carbon monoxide nonattainment area, the Administrator shall determine, based on the area's design value as of the attainment date, whether the area has attained the standard by that date. Any Moderate Area that the Administrator finds has not attained the standard by that date shall be reclassified by operation of law in accordance with table 1 of subsection (a)(1) of this section as a Serious Area.

(B) Publication of notice

The Administrator shall publish a notice in the Federal Register, no later than 6 months following the attainment date, identifying each area that the Administrator has determined, under subparagraph (A), as having failed to attain and identifying the reclassification, if any, described under subparagraph (A).

(c) References to terms

Any reference in this subpart to a "Moderate Area" or a "Serious Area" shall be considered a reference to a Moderate Area or a Serious Area, respectively, as classified under this section.

(7512c. Plan submissions and requirements

(a) Moderate Areas

Each State in which all or part of a Moderate Area is located shall, with respect to the Moderate Area (or portion thereof, to the extent specified in guidance of the Administrator issued before November 15, 1990), submit to the Administrator the State implementation plan revisions (including the plan items) described under this subsection, within such periods as are prescribed under this subsection, except to the extent the State has made such submissions as of November 15, 1990:

(1) Inventory

No later than 2 years from November 15, 1990, the State shall submit a comprehensive, accurate, current inventory of actual emissions from all sources, as described in section 7502(c)(3) of this title, in accordance with guidance provided by the Administrator.

(2)(A) Vehicle miles traveled

No later than 2 years after November 15, 1990, for areas with a design value above 12.7

1 So in original. Probably should be "TABLE 1".
§ 7512a  TITLE 42—THE PUBLIC HEALTH AND WELFARE

ppm at the time of classification, the plan revision shall contain a forecast of vehicle miles traveled in the nonattainment area concerned for each year before the year in which the plan projects the national ambient air quality standard for carbon monoxide to be attained in the area. The forecast shall be based on guidance which shall be published by the Administrator, in consultation with the Secretary of Transportation, within 6 months after November 15, 1990. The plan revision shall provide for annual updates of the forecasts to be submitted to the Administrator together with annual reports regarding the extent to which such forecasts proved to be accurate. Such annual reports shall contain estimates of actual vehicle miles traveled in each year for which a forecast was required.

(B) Special rule for Denver

Within 2 years after November 15, 1990, in the case of Denver, the State shall submit a revision that includes the transportation control measures as required in section 7511a(d)(1)(A) of this title except that such revision shall be for the purpose of reducing CO emissions rather than volatile organic compound emissions. If the State fails to include any such measure, the implementation plan shall contain an explanation of why such measure was not adopted and what emissions reduction measure was adopted to provide a comparable reduction in emissions, or reasons why such reduction is not necessary to attain the national primary ambient air quality standard for carbon monoxide.

(3) Contingency provisions

No later than 2 years after November 15, 1990, for areas with a design value above 12.7 ppm at the time of classification, the plan revision shall provide for the implementation of specific measures to be undertaken if any estimate of vehicle miles traveled in the area which is submitted in an annual report under paragraph (2) exceeds the number predicted in the most recent prior forecast or if the area fails to attain the national primary ambient air quality standard for carbon monoxide by the primary standard attainment date. Such measures shall be included in the plan revision as contingency measures to take effect without further action by the State or the Administrator if the prior forecast has been exceeded by an updated forecast or if the national standard is not attained by such deadline.

(4) Savings clause for vehicle inspection and maintenance provisions of the State implementation plan

Immediately after November 15, 1990, for any Moderate Area (or, within the Administrator's discretion, portion thereof), the plan for which is of the type described in section 7511a(a)(2)(B) of this title any provisions necessary to ensure that the applicable implementation plan includes the vehicle inspection and maintenance program described in section 7511a(a)(2)(B) of this title.

(5) Periodic inventory

No later than September 30, 1995, and no later than the end of each 3 year period thereafter, until the area is redesignated to attainment, a revised inventory meeting the requirements of subsection (a)(1) of this section.

(6) Enhanced vehicle inspection and maintenance

No later than 2 years after November 15, 1990, in the case of Moderate Areas with a design value greater than 12.7 ppm at the time of classification, a revision that includes provisions for an enhanced vehicle inspection and maintenance program as required in section 7511a(c)(3) of this title (concerning serious ozone nonattainment areas), except that such program shall be for the purpose of reducing carbon monoxide rather than hydrocarbon emissions.

(7) Attainment demonstration and specific annual emission reductions

In the case of Moderate Areas with a design value greater than 12.7 ppm at the time of classification, no later than 2 years after November 15, 1990, a revision to provide, and a demonstration that the plan as revised will provide, for attainment of the carbon monoxide NAAQS by the applicable attainment date and provisions for such specific annual emission reductions as are necessary to attain the standard by that date.

The Administrator may, in the Administrator's discretion, require States to submit a schedule for submitting any of the revisions or other items required under this subsection. In the case of Moderate Areas with a design value of 12.7 ppm or lower at the time of classification, the requirements of this subsection shall apply in lieu of any requirement that the State submit a demonstration that the applicable implementation plan provides for attainment of the carbon monoxide standard by the applicable attainment date.

(b) Serious Areas

(1) In general

Each State in which all or part of a Serious Area is located shall, with respect to the Serious Area, make the submissions (other than those required under subsection (a)(1)(B)

1 So in original. Subsec. (a)(1) of this section does not contain a subpar. (B).
include any such measure, the implementation plan shall contain an explanation of why such measure was not adopted and what emissions reduction measure was adopted to provide a comparable reduction in emissions, or reasons why such reduction is not necessary to attain the national primary ambient air quality standard for carbon monoxide.

(3) Oxygenated gasoline

(A) Within 2 years after November 15, 1990, the State shall submit a revision to require that gasoline sold, supplied, offered for sale or supply, dispensed, transported or introduced into commerce in the larger of—

(i) the Consolidated Metropolitan Statistical Area (as defined by the United States Office of Management and Budget) (CMSA) in which the area is located, or

(ii) if the area is not located in a CMSA, the Metropolitan Statistical Area (as defined by the United States Office of Management and Budget) in which the area is located.

be blended, during the portion of the year in which the area is prone to high ambient concentrations of carbon monoxide (as determined by the Administrator), with fuels containing such level of oxygen as is necessary, in combination with other measures, to provide for attainment of the carbon monoxide national ambient air quality standard by the applicable attainment date and maintenance of the national ambient air quality standard thereafter in the area. The revision shall provide that such requirement shall take effect no later than October 1, 1993, and shall include a program for implementation and enforcement of the requirement consistent with guidance to be issued by the Administrator.

(B) Notwithstanding subparagraph (A), the revision described in this paragraph shall not be required for an area if the State demonstrates to the satisfaction of the Administrator that the revision is not necessary to provide for attainment of the carbon monoxide national ambient air quality standard by the applicable attainment date and maintenance of the national ambient air quality standard thereafter in the area.

(4) Areas with significant stationary source emissions of CO

(1) Serious Areas

In the case of Serious Areas in which stationary sources contribute significantly to carbon monoxide levels (as determined under rules issued by the Administrator), the State shall submit a plan revision within 2 years after November 15, 1990, which provides that the term “major stationary source” includes (in addition to the sources described in section 7602 of this title) any stationary source which emits, or has the potential to emit, 50 tons per year or more of carbon monoxide.

(2) Waivers for certain areas

The Administrator may, on a case-by-case basis, waive any requirements that pertain to transportation controls, inspection and maintenance, or oxygenated fuels where the Administrator determines by rule that mobile sources of carbon monoxide do not contribute significantly to carbon monoxide levels in the area.

(3) Guidelines

Within 6 months after November 15, 1990, the Administrator shall issue guidelines for and rules determining whether stationary sources contribute significantly to carbon monoxide levels in an area.

(d) CO milestone

(1) Milestone demonstration

By March 31, 1996, each State in which all or part of a Serious Area is located shall submit to the Administrator a demonstration that the area has achieved a reduction in emissions of CO equivalent to the total of the specific annual emission reductions required by December 31, 1995. Such reductions shall be referred to in this subsection as the milestone.

(2) Adequacy of demonstration

A demonstration under this paragraph shall be submitted in such form and manner, and shall contain such information and analysis, as the Administrator shall require. The Administrator shall determine whether or not a State’s demonstration is adequate within 90 days after the Administrator’s receipt of a demonstration which contains the information and analysis required by the Administrator.

(3) Failure to meet emission reduction milestone

If a State fails to submit a demonstration under paragraph (1) within the required period, or if the Administrator notifies the State that the State has not met the milestone, the State shall, within 9 months after such a failure or notification, submit a plan revision to implement an economic incentive and transportation control program as described in section 7511a(g)(4) of this title. Such revision shall be sufficient to achieve the specific annual reductions in carbon monoxide emissions set forth in the plan by the attainment date.

(e) Multi-State CO nonattainment areas

(1) Coordination among States

Each State in which there is located a portion of a single nonattainment area for carbon monoxide which covers more than one State (“multi-State nonattainment area”) shall take all reasonable steps to coordinate, substantively and procedurally, the revisions and implementation of State implementation plans applicable to the multi-State nonattainment area concerned. The Administrator may not approve any revision of a State implementation plan submitted under this part for a State in which part of a multi-State nonattainment area is located if the plan revision for that State fails to comply with the requirements of this subsection.

(2) Failure to demonstrate attainment

If any State in which there is located a portion of a multi-State nonattainment area fails to provide a demonstration of attainment of the national ambient air quality standard for
carbon monoxide in that portion within the period required under this part the State may petition the Administrator to make a finding that the State would have been able to make such demonstration but for the failure of one or more other States in which other portions of the area are located to commit to the implementation of all measures required under this section (relating to plan submissions for carbon monoxide nonattainment areas). If the Administrator makes such finding, in the portion of the nonattainment area within the State submitting such petition, no sanction shall be imposed under section 7509 of this title or under any other provision of this chapter, by reason of the failure to make such demonstration.

(f) Reclassified areas

Each State containing a carbon monoxide nonattainment area reclassified under section 7512(b)(2) of this title shall meet the requirements of subsection (b) of this section, as may be applicable to the area as reclassified, according to the schedules prescribed in connection with such requirements, except that the Administrator may adjust any applicable deadlines (other than the attainment date) where such deadlines are shown to be infeasible.

(g) Failure of Serious Area to attain standard

If the Administrator determines under section 7512(b)(2) of this title that the national primary ambient air quality standard for carbon monoxide has not been attained in a Serious Area by the applicable attainment date, the State shall submit a plan revision for the area within 9 months after the date of such determination. The plan revision shall provide that a program of incentives and requirements as described in section 7511a(g)(4) of this title shall be applicable to the area as reclassified, according to the schedules prescribed in connection with such requirements, except that the Administrator may adjust any applicable deadlines (other than the attainment date) where such deadlines are shown to be infeasible.

(b) Reclassification as Serious

(1) Reclassification before attainment date

The Administrator may reclassify a Serious PM–10 nonattainment area (identified in this subpart also as a “Serious Area”) any area that the Administrator determines cannot practically attain the national ambient air quality standard for PM–10 by the attainment date (as prescribed in subsection (c) of this section) for Moderate Areas. The Administrator shall reclassify appropriate areas as Serious by the following dates:

(A) For areas designated nonattainment for PM–10 under section 7407(d)(4) of this title, the Administrator shall propose to reclassify appropriate areas by June 30, 1991, and take final action by December 31, 1991.

(B) For areas subsequently designated nonattainment, the Administrator shall reclassify appropriate areas within 18 months after the required date for the State’s submission of a SIP for the Moderate Area.

(2) Reclassification upon failure to attain

Within 6 months following the applicable attainment date for a PM–10 nonattainment area, the Administrator shall determine whether the area attained the standard by that date. If the Administrator finds that any Moderate Area is not in attainment after the applicable attainment date—

(A) the area shall be reclassified by operation of law as a Serious Area; and

(B) the Administrator shall publish a notice in the Federal Register no later than 6 months following the attainment date, identifying the area as having failed to attain and identifying the reclassification described under subparagraph (A).

(c) Attainment dates

Except as provided under subsection (d) of this section, the attainment dates for PM–10 nonattainment areas shall be as follows:

(1) Moderate Areas

For a Moderate Area, the attainment date shall be as expeditiously as practicable but no later than the end of the sixth calendar year after the area’s designation as nonattainment, except that, for areas designated nonattainment for PM–10 under section 7407(d)(4) of this title, the attainment date shall not extend beyond December 31, 1994.

(2) Serious Areas

For a Serious Area, the attainment date shall be as expeditiously as practicable but no later than the end of the tenth calendar year.
beginning after the area's designation as nonattainment, except that, for areas designated nonattainment for PM–10 under section 7407(d)(4) of this title, the date shall not extend beyond December 31, 2001.

(d) Extension of attainment date for Moderate Areas

Upon application by any State, the Administrator may extend for 1 additional year (hereinafter referred to as the "Extension Year") the date specified in paragraph (c)(1) if—

(1) the State has complied with all requirements and commitments pertaining to the area in the applicable implementation plan; and

(2) no more than one exceedance of the 24-hour national ambient air quality standard level for PM–10 has occurred in the area in the year preceding the Extension Year, and the annual mean concentration of PM–10 in the area for such year is less than or equal to the standard level.

No more than 2 one-year extensions may be issued under the subsection for a single nonattainment area.

(e) Extension of attainment date for Serious Areas

Upon application by any State, the Administrator may extend the attainment date for a Serious Area beyond the date specified under subsection (c) of this section, if attainment by the date established under subsection (c) of this section would be impracticable, the State has complied with all requirements and commitments pertaining to that area in the implementation plan, and the State demonstrates to the satisfaction of the Administrator that the plan for that area includes the most stringent measures that are included in the implementation plan of any State or are achieved in practice in any State, and can feasibly be implemented in the area. At the time of such application, the State must submit a revision to the implementation plan that includes a demonstration of attainment by the most expeditious alternative date practicable. In determining whether to grant an extension, and the appropriate length of time for any such extension, the Administrator may consider the nature and extent of nonattainment, the types and numbers of sources or other emitting activities in the area (including the influence of uncontrollable natural sources and transboundary emissions from foreign countries), the population exposed to concentrations in excess of the standard, the presence and concentration of potentially toxic substances in the mix of particulate emissions in the area, and the technological and economic feasibility of various control measures. The Administrator may not approve an extension until the State submits an attainment demonstration for the area. The Administrator may grant at most one such extension for an area, of no more than 5 years.

(f) Waivers for certain areas

The Administrator may, on a case-by-case basis, waive any requirement applicable to any Serious Area under this subpart where the Administrator determines that anthropogenic sources of PM–10 do not contribute significantly to the violation of the PM–10 standard in the area. The Administrator may also waive a specific date for attainment of the standard where the Administrator determines that nonanthropogenic sources of PM–10 contribute significantly to the violation of the PM–10 standard in the area.

§7513a. Plan provisions and schedules for plan submissions

(a) Moderate Areas

(1) Plan provisions

Each State in which all or part of a Moderate Area is located shall submit, according to the applicable schedule under paragraph (2), an implementation plan that includes each of the following:

(A) For the purpose of meeting the requirements of section 7503(c)(5) of this title, a permit program providing that permits meeting the requirements of section 7503 of this title are required for the construction and operation of new and modified major stationary sources of PM–10.

(B) Either (i) a demonstration (including air quality modeling) that the plan will provide for attainment by the applicable attainment date; or (ii) a demonstration that attainment by such date is impracticable.

(C) Provisions to assure that reasonably available control measures for the control of PM–10 shall be implemented no later than December 10, 1993, or 4 years after designation in the case of an area classified as moderate after November 15, 1990.

(2) Schedule for plan submissions

A State shall submit the plan required under subparagraph (1) no later than the following:

(A) Within 1 year of November 15, 1990, for areas designated nonattainment under section 7407(d)(4) of this title, except that the provision required under subparagraph (1)(A) shall be submitted no later than June 30, 1992.

(B) 18 months after the designation as nonattainment, for those areas designated nonattainment after the designations prescribed under section 7407(d)(4) of this title.

(b) Serious Areas

(1) Plan provisions

In addition to the provisions submitted to meet the requirements of paragraph (a)(1) (relating to Moderate Areas), each State in which all or part of a Serious Area is located shall submit an implementation plan for such area that includes each of the following:

(A) A demonstration (including air quality modeling)—

(i) that the plan provides for attainment of the PM–10 national ambient air quality

So in original. Probably should be "subsection".
standard by the applicable attainment date, or
(ii) for any area for which the State is seeking, pursuant to section 7513(c) of this title, an extension of the attainment date beyond the date set forth in section 7513(c) of this title, that attainment by that date would be impracticable, and that the plan provides for attainment by the most expeditious alternative date practicable.

(B) Provisions to assure that the best available control measures for the control of PM–10 shall be implemented no later than 4 years after the applicable attainment date, or reclassified as a Serious Area.

(2) Schedule for plan submissions

A State shall submit the demonstration required for an area under paragraph (1)(A) no later than 4 years after reclassification of the area to Serious, except that for areas reclassified under section 7513(b)(2) of this title, the State shall submit the attainment demonstration within 18 months after reclassification to Serious. A State shall submit the provisions described under paragraph (1)(B) no later than 18 months after reclassification of the area as a Serious Area.

(3) Major sources

For any Serious Area, the terms “major source” and “major stationary source” include any stationary source or group of stationary sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 70 tons per year of PM–10.

(c) Milestones

(1) Plan revisions demonstrating attainment submitted to the Administrator for approval under this subpart shall contain quantitative milestones which are to be achieved every 3 years until the area is redesignated attainment and which demonstrate reasonable further progress, as defined in section 7501(1) of this title, toward attainment by the applicable date.

(2) Not later than 90 days after the date on which a milestone applicable to the area occurs, each State in which all or part of such area is located shall submit to the Administrator a demonstration that all measures in the plan approved under this section have been implemented and that the milestone has been met. A demonstration under this subsection shall be submitted in such form and manner, and shall contain such information and analysis, as the Administrator shall require. The Administrator shall determine whether or not a State’s demonstration under this subsection is adequate within 90 days after the Administrator’s receipt of a demonstration which contains the information and analysis required by the Administrator.

(3) If a State fails to submit a demonstration under paragraph (2) with respect to a milestone within the required period or if the Administrator determines that the area has not met any applicable milestone, the Administrator shall require the State, within 9 months after such failure or determination to submit a plan revision that assures that the State will achieve the next milestone (or attain the national ambient air quality standard for PM–10, if there is no next milestone) by the applicable date.

(d) Failure to attain

In the case of a Serious PM–10 nonattainment area in which the PM–10 standard is not attained by the applicable attainment date, the State in which such area is located shall, after notice and opportunity for public comment, submit within 12 months after the applicable attainment date, plan revisions which provide for attainment of the PM–10 air quality standard and, from the date of such submission until attainment, for an annual reduction in PM–10 or PM–10 precursor emissions within the area of not less than 5 percent of the amount of such emissions as reported in the most recent inventory prepared for such area.

(e) PM–10 precursors

The control requirements applicable under plans in effect under this part for major stationary sources of PM–10 shall also apply to major stationary sources of PM–10 precursors, except where the Administrator determines that such sources do not contribute significantly to PM–10 levels which exceed the standard in the area. The Administrator shall issue guidelines regarding the application of the preceding sentence.

(7) Major sources

For any Serious Area, the terms “major source” and “major stationary source” include any stationary source or group of stationary sources located within a contiguous area and under common control that emits, or has the potential to emit, at least 70 tons per year of PM–10.

(c) Milestones

(1) Plan revisions demonstrating attainment submitted to the Administrator for approval under this subpart shall contain quantitative milestones which are to be achieved every 3 years until the area is redesignated attainment and which demonstrate reasonable further progress, as defined in section 7501(1) of this title, toward attainment by the applicable date.

(2) Not later than 90 days after the date on which a milestone applicable to the area occurs, each State in which all or part of such area is located shall submit to the Administrator a demonstration that all measures in the plan approved under this section have been implemented and that the milestone has been met. A demonstration under this subsection shall be submitted in such form and manner, and shall contain such information and analysis, as the Administrator shall require. The Administrator shall determine whether or not a State’s demonstration under this subsection is adequate within 90 days after the Administrator’s receipt of a demonstration which contains the information and analysis required by the Administrator.

(3) If a State fails to submit a demonstration under paragraph (2) with respect to a milestone within the required period or if the Administrator determines that the area has not met any applicable milestone, the Administrator shall require the State, within 9 months after such failure or determination to submit a plan revision that assures that the State will achieve the next milestone (or attain the national ambient air quality standard for PM–10, if there is no next milestone) by the applicable date.

(4) Failure to attain

In the case of a Serious PM–10 nonattainment area in which the PM–10 standard is not attained by the applicable attainment date, the State in which such area is located shall, after notice and opportunity for public comment, submit within 12 months after the applicable attainment date, plan revisions which provide for attainment of the PM–10 air quality standard and, from the date of such submission until attainment, for an annual reduction in PM–10 or PM–10 precursor emissions within the area of not less than 5 percent of the amount of such emissions as reported in the most recent inventory prepared for such area.
nonattainment with respect to the national primary ambient air quality standards for sulfur oxides, nitrogen dioxide, or lead subsequent to November 15, 1990, shall submit to the Administrator, within 18 months of the designation, an applicable implementation plan meeting the requirements of this part.

(b) States lacking fully approved State implementation plans

Any State containing an area designated nonattainment with respect to national primary ambient air quality standards for sulfur oxides or nitrogen dioxide under section 7407(d)(1)(C)(i) of this title, but lacking a fully approved implementation plan complying with the requirements of this chapter (including this part) as in effect immediately before November 15, 1990, shall submit to the Administrator, within 18 months of November 15, 1990, an implementation plan meeting the requirements of subpart 1 (except as otherwise prescribed by section 7514a of this title).

§ 7514a. Attainment dates

(a) Plans under section 7514(a)

Implementation plans required under section 7514(a) of this title shall provide for attainment of the relevant primary standard as expeditiously as practicable but no later than 5 years from the date of the nonattainment designation.

(b) Plans under section 7514(b)

Implementation plans required under section 7514(b) of this title shall provide for attainment of the relevant primary national ambient air quality standard within 5 years after November 15, 1990.

(c) Inadequate plans

Implementation plans for nonattainment areas for sulfur oxides or nitrogen dioxide with plans that were approved by the Administrator before November 15, 1990, but, subsequent to such approval, were found by the Administrator to be substantially inadequate, shall provide for attainment of the relevant primary standard within 5 years from the date of such finding.

SUBPART 6—SAVINGS PROVISIONS

§ 7515. General savings clause

Each regulation, standard, rule, notice, order and guidance promulgated or issued by the Administrator under this chapter, as in effect before November 15, 1990, shall remain in effect according to its terms, except to the extent otherwise provided under this chapter, inconsistent with any provision of this chapter, or revised by the Administrator. No control requirement in effect, or required to be adopted by an order, settlement agreement, or plan in effect before November 15, 1990, in any area which is a nonattainment area for any air pollutant may be modified after November 15, 1990, in any manner unless the modification insures equivalent or greater emission reductions of such air pollutant.

SUBCHAPTER II—EMISSION STANDARDS FOR MOVING SOURCES

PART A—MOTOR VEHICLE EMISSION AND FUEL STANDARDS

§ 7521. Emission standards for new motor vehicles or new motor vehicle engines

(a) Authority of Administrator to prescribe by regulation

Except as otherwise provided in subsection (b) of this section—

(1) The Administrator shall by regulation prescribe (and from time to time revise) in accordance with the provisions of this section, standards applicable to the emission of any air pollutant from any class or classes of new motor vehicles or new motor vehicle engines, which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare. Such standards shall be applicable to such vehicles and engines for their useful life (as determined under subsection (d) of this section, relating to useful life of vehicles for purposes of certification), whether such vehicles and engines are designed as complete systems or incorporate devices to prevent or control such pollution.

(2) Any regulation prescribed under paragraph (1) of this subsection (and any revision thereof) shall take effect after such period as the Administrator finds necessary to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within such period.

(3)(A) IN GENERAL.—(i) Unless the standard is changed as provided in subparagraph (B), regulations under paragraph (1) of this subsection applicable to emissions of hydrocarbons, carbon monoxide, oxides of nitrogen, and particulate matter from classes or categories of heavy-duty vehicles or engines manufactured during or after model year 1983 shall contain standards which reflect the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the model year to which such standards apply, giving appropriate consideration to cost, energy, and safety factors associated with the application of such technology.

(ii) In establishing classes or categories of vehicles or engines for purposes of regulations under this paragraph, the Administrator may base such classes or categories on gross vehicle weight, horsepower, type of fuel used, or other appropriate factors.

(B) REVISED STANDARDS FOR HEAVY DUTY TRUCKS.—(i) On the basis of information available to the Administrator concerning the effects of air pollutants emitted from heavy-duty vehicles or engines and from other sources of mobile source related pollutants on the public health

ART V--MOTOR VEHICLE EMISSION AND FUEL STANDARDS

FUEL STANDARDS

VEHICLE TANDARDS

FOR MOVING SOURCES
and welfare, and taking costs into account, the Administrator may promulgate regulations under paragraph (1) of this subsection revising any standard promulgated under, or before the date of, the enactment of the Clean Air Act Amendments of 1990 (or previously revised under this subparagraph) and applicable to classes or categories of heavy-duty vehicles or engines.

(ii) Effective for the model year 1998 and thereafter, the regulations under paragraph (1) of this subsection applicable to emissions of oxides of nitrogen (NOx) from gasoline and diesel-fueled heavy duty trucks shall contain standards which provide that such emissions may not exceed 4.0 grams per brake horsepower hour (g/bhp-hr).

(C) LEAD TIME AND STABILITY.—Any standard promulgated or revised under this paragraph and applicable to classes or categories of heavy-duty vehicles or engines shall apply for a period of no less than 3 model years beginning no earlier than the model year commencing 4 years after such revised standard is promulgated.

(D) REBUILDING PRACTICES.—The Administrator shall study the practice of rebuilding heavy-duty engines and the impact rebuilding has on engine emissions. On the basis of that study and other information available to the Administrator, the Administrator may prescribe regulations to control rebuilding practices, including standards applicable to emissions from any rebuilt heavy-duty engines (whether or not the engine is past its statutory useful life), which in the Administrator’s judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare taking costs into account. Any regulation shall take effect after a period the Administrator finds necessary to permit the development and application of the requisite control measures, giving appropriate consideration to the cost of compliance within the period and energy and safety factors.

(E) MOTORCYCLES.—For purposes of this paragraph, motorcycles and motorcycle engines shall be treated in the same manner as heavy-duty vehicles and engines (except as otherwise permitted under section 7525(f)(1) of this title) unless the Administrator promulgates a rule reclassifying motorcycles as light-duty vehicles within the meaning of this section or unless the Administrator promulgates regulations under subsection (a) of this section applying standards applicable to the emission of air pollutants from motorcycles as a separate class or category. In any case in which such standards are promulgated for such emissions from motorcycles as a separate class or category, the Administrator, in promulgating such standards, shall consider the need to achieve equivalency of emission reductions between motorcycles and other motor vehicles to the maximum extent practicable.

(4)(A) Effective with respect to vehicles and engines manufactured after model year 1978, no emission control device, system, or element of design shall be used in a new motor vehicle or new motor vehicle engine for purposes of complying with requirements prescribed under this subchapter if such device, system, or element of design will cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation or function.

(B) In determining whether an unreasonable risk exists under subparagraph (A), the Administrator shall consider, among other factors, (i) whether and to what extent the use of any device, system, or element of design causes, increases, reduces, or eliminates emissions of any unregulated pollutants; (ii) available methods for reducing or eliminating any risk to public health, welfare, or safety which may be associated with the use of such device, system, or element of design, and (iii) the availability of other devices, systems, or elements of design which may be used to conform to requirements prescribed under this subchapter without causing or contributing to such unreasonable risk. The Administrator shall include in the consideration required by this paragraph all relevant information developed pursuant to section 7548 of this title.

(5)(A) If the Administrator promulgates final regulations which define the degree of control required and the test procedures by which compliance could be determined for gasoline vapor recovery of uncontrolled emissions from the refueling of motor vehicles, the Administrator shall, after consultation with the Secretary of Transportation regarding the safety of vehicle-based onboard systems for the control of vehicle refueling emissions, promulgate standards under subsection (a) of this section applying standards within the meaning of this section or unless the Administrator promulgates regulations which define the degree of control required and the test procedures by which compliance could be determined for gasoline vapor recovery of uncontrolled emissions from the refueling of motor vehicles, the Administrator shall, after consultation with the Secretary of Transportation with respect to motor vehicle safety, prescribe, by regulation, fill pipe standards for new motor vehicles in order to insure effective connection between such fill pipe and any vapor recovery system which the Administrator determines may be required to comply with such vapor recovery regulations. In promulgating such standards the Administrator shall take into consideration limits on fill pipe diameter, minimum design criteria for nozzle retaining lips, limits on the location of the unleaded fuel restrictors, a minimum access zone surrounding a fill pipe, a minimum pipe or nozzle insertion angle, and such other factors as he deems pertinent.

(B) Regulations prescribing standards under subparagraph (A) shall not become effective until the introduction of the model year for which it would be feasible to implement such standards, taking into consideration the restraints of an adequate leadtime for design and production.

(C) Nothing in subparagraph (A) shall (i) prevent the Administrator from specifying different nozzle and fill neck sizes for gasoline with additives and gasoline without additives or (ii) permit the Administrator to require a specific location, configuration, modeling, or styling of the motor vehicle body with respect to the fuel tank fill neck or fill nozzle clearance envelope.

(D) For the purpose of this paragraph, the term “fill pipe” shall include the fuel tank fill pipe, fill neck, fill inlet, and closure.

(6) ONBOARD VAPOR RECOVERY.—Within 1 year after November 15, 1990, the Administrator shall, after consultation with the Secretary of Transportation regarding the safety of vehicle-based (“onboard”) systems for the control of vehicle refueling emissions, promulgate standards under this section requiring that new light-duty vehicles manufactured beginning in the fourth model year after the model year in which the standards are promulgated and thereafter shall

1See References in Text note below.
be equipped with such systems. The standards required under this paragraph shall apply to a percentage of each manufacturer’s fleet of new light-duty vehicles beginning with the fourth model year after the model year in which the standards are promulgated. The percentage shall be as specified in the following table:

**IMPLEMENTATION SCHEDULE FOR ONBOARD VAPOR RECOVERY REQUIREMENTS**

<table>
<thead>
<tr>
<th>Model year commencing after standards promulgated</th>
<th>Percentage*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fourth</td>
<td>40</td>
</tr>
<tr>
<td>Fifth</td>
<td>80</td>
</tr>
<tr>
<td>After Fifth</td>
<td>100</td>
</tr>
</tbody>
</table>

*Percentages in the table refer to a percentage of the manufacturer’s sales volume.

The standards shall require that such systems provide a minimum evaporative emission capture efficiency of 95 percent. The requirements of section 7511a(b)(3) of this title (relating to stage II gasoline vapor recovery) for areas classified under section 7511 of this title as moderate for ozone shall not apply after promulgation of such standards and the Administrator may, by rule, revise or waive the application of the requirements of such section 7511a(b)(3) of this title for areas classified under section 7511 of this title as Serious, Severe, or Extreme for ozone, as appropriate, after such time as the Administrator determines that onboard emissions control systems required under this paragraph are in widespread use throughout the motor vehicle fleet.

(b) Emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen; annual report to Congress; waiver of emission standards; research objectives

(1)(A) The regulations under subsection (a) of this section applicable to emissions of carbon monoxide and hydrocarbons from light-duty vehicles and engines manufactured during model years 1977 through 1979 shall contain standards which provide that such emissions from such vehicles and engines may not exceed 7.0 grams per vehicle mile of carbon monoxide. The regulations under subsection (a) of this section applicable to emissions of carbon monoxide from light-duty vehicles and engines manufactured during the model year 1980 shall contain standards which provide that such emissions may not exceed 1.5 grams per vehicle mile of hydrocarbons and 15.0 grams per vehicle mile of carbon monoxide. The regulations under subsection (a) of this section applicable to emissions of hydrocarbons from light-duty vehicles and engines manufactured during the model year 1980 shall contain standards which provide that such emissions may not exceed 1.0 gram per vehicle mile.

(1)(B) The regulations under subsection (a) of this section applicable to emissions of oxides of nitrogen from light-duty vehicles and engines manufactured during model years 1977 through 1980 shall contain standards which provide that such emissions from such vehicles and engines may not exceed 2.0 grams per vehicle mile. The Administrator shall promulgate standards in lieu of those required by the preceding sentence, which provide that emissions of oxides of nitrogen may not exceed 0.6 grams per vehicle mile for any light-duty vehicle manufactured during model years 1981 and 1982 by any manufacturer whose production, by corporate identity, for calendar year 1976 was less than three hundred thousand light-duty motor vehicles worldwide if the Administrator determines that—

(i) the ability of such manufacturer to meet emission standards in the 1975 and subsequent model years was, and is, primarily dependent upon technology developed by other manufacturers and purchased from such manufacturers; and

(ii) such manufacturer lacks the financial resources and technological ability to develop such technology.

(C) The Administrator may promulgate regulations under subsection (a)(1) of this section revising any standard prescribed or previously revised under this subsection, as needed to protect public health or welfare, taking costs, energy, and safety into account. Any revised standard shall require a reduction of emissions from the standard that was previously applicable. Any such revision under this subchapter may provide for a phase-in of the standard. It is the intent of Congress that the numerical emission standards specified in subsections (a)(3)(B)(i)(I), (g), (h), and (i) of this section shall not be modified by the Administrator after November 15, 1990, for any model year before the model year 2004.

(2) Emission standards under paragraph (1), and measurement techniques on which such standards are based (if not promulgated prior to November 15, 1990), shall be promulgated by regulation within 180 days after November 15, 1990.

(3) For purposes of this part—

(A)(i) The term “model year” with reference to any specific calendar year means the manufacturer’s annual production period (as determined by the Administrator) which includes January 1 of such calendar year. If the manufacturer has no annual production period, the term “model year” shall mean the calendar year.

(ii) For the purpose of assuring that vehicles and engines manufactured before the beginning of a model year were not manufactured for purposes of circumventing the effective date of a standard required to be prescribed by subsection (b) of this section, the Adminis-
§ 7521  TITLE 42—THE PUBLIC HEALTH AND WELFARE

The Administrator may prescribe regulations defining “model year” otherwise than as provided in clause (1).

(c) The term “heavy duty vehicle” means a truck, bus, or other vehicle manufactured primarily for use on the public streets, roads, and highways (not including any vehicle operated exclusively on a rail or rails) which has a gross vehicle weight (as determined under regulations promulgated by the Administrator) in excess of six thousand pounds. Such term includes any such vehicle which has special features enabling off-street or off-highway operation and use.

(3) Upon the petition of any manufacturer, the Administrator, after notice and opportunity for public hearing, may waive the standard required under subparagraph (B) of paragraph (1) to not exceed 1.5 grams of oxides of nitrogen per vehicle mile for any class or category of light-duty vehicles or engines manufactured by such manufacturer during any period of up to four model years beginning after the model year 1980 if the manufacturer demonstrates that such waiver is necessary to permit the use of an innovative power train technology, or innovative emission control device or system, in such class or category of vehicles or engines and that such technology or system was not utilized by more than 1 percent of the light-duty vehicles sold in the United States in the 1975 model year. Such waiver may be granted only if the Administrator determines—

(A) that such waiver would not endanger public health,

(B) that there is a substantial likelihood that the vehicles or engines will be able to comply with the applicable standard under this section at the expiration of the waiver, and

(C) that the technology or system has a potential for long-term air quality benefit and has the potential to meet or exceed the average fuel economy standard applicable under the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.] upon the expiration of the waiver.

No waiver under this subparagraph granted to any manufacturer shall apply to more than 5 percent of such manufacturer’s production or more than fifty thousand vehicles or engines, whichever is greater.

(c) Feasibility study and investigation by National Academy of Sciences; reports to Administrator and Congress; availability of information

(1) The Administrator shall undertake to enter into appropriate arrangements with the National Academy of Sciences to conduct a comprehensive study and investigation of the technological feasibility of meeting the emissions standards required to be prescribed by the Administrator by subsection (b) of this section.

(2) Of the funds authorized to be appropriated to the Administrator by this chapter, such amounts as are required shall be available to carry out the study and investigation authorized by paragraph (1) of this subsection.

(3) In entering into any arrangement with the National Academy of Sciences for conducting the study and investigation authorized by paragraph (1) of this subsection, the Administrator shall request the National Academy of Sciences to submit semiannual reports on the progress of its study and investigation to the Administrator and the Congress, beginning not later than July 1, 1971, and continuing until such study and investigation is completed.

(4) The Administrator shall furnish to such Academy at its request any information which the Academy deems necessary for the purpose of conducting the investigation and study authorized by paragraph (1) of this subsection. For the purpose of furnishing such information, the Administrator may use any authority he has under this chapter (A) to obtain information from any person, and (B) to require such person to conduct such tests, keep such records, and make such reports respecting research or other activities conducted by such person as may be reasonably necessary to carry out this subsection.

(d) Useful life of vehicles

The Administrator shall prescribe regulations under which the useful life of vehicles and engines shall be determined for purposes of subsection (a)(1) of this section and section 7541 of this title. Such regulations shall provide that except where a different useful life period is specified in this subchapter useful life shall—

(1) in the case of light duty vehicles and light duty vehicle engines and light-duty trucks up to 3,750 lbs. GVWR and up to 6,000 lbs. GVWR, be a period of use the Administrator determines that a period of use of greater duration or mileage is appropriate; or

(2) in the case of any other motor vehicle or motor vehicle engine (other than motorcycles or motorcycle engines), be a period of use set forth in paragraph (1) unless the Administrator determines that a period of use of greater duration or mileage is appropriate; and

(3) in the case of any motorcycle or motorcycle engine, be a period of use the Administrator shall determine.

(c) New power sources or propulsion systems

In the event of a new power source or propulsion system for new motor vehicles or new motor vehicle engines is submitted for certification pursuant to section 7525(a) of this title, the Administrator may postpone certification until he has prescribed standards for any air pollutants emitted by such vehicle or engine which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to

2 So in original. Probably should be “(4)”.  
3 So in original. Probably should be “paragraph”.

---

2 The term “heavy duty vehicle” means a truck, bus, or other vehicle manufactured primarily for use on the public streets, roads, and highways (not including any vehicle operated exclusively on a rail or rails) which has a gross vehicle weight in excess of six thousand pounds. Such term includes any such vehicle which has special features enabling off-street or off-highway operation and use.

3 The term “heavy duty vehicle” means a truck, bus, or other vehicle manufactured primarily for use on the public streets, roads, and highways (not including any vehicle operated exclusively on a rail or rails) which has a gross vehicle weight in excess of six thousand pounds. Such term includes any such vehicle which has special features enabling off-street or off-highway operation and use.
endanger the public health or welfare but for which standards have not been prescribed under subsection (a) of this section.

(f) **High altitude regulations**

(1) The high altitude regulation in effect with respect to model year 1977 motor vehicles shall not apply to the manufacture, distribution, or sale of 1978 and later model year motor vehicles. Any future regulation affecting the sale or distribution of motor vehicles or engines manufactured before the model year 1984 in high altitude areas of the country shall take effect no earlier than model year 1981.

(2) Any such future regulation applicable to high altitude vehicles or engines shall not require a percentage of reduction in the emissions of such vehicles which is greater than the required percentage of reduction in emissions from motor vehicles as set forth in subsection (b) of this section. This percentage reduction shall be determined by comparing any proposed high altitude emission standards to high altitude emissions from vehicles manufactured during model year 1970. In no event shall regulations applicable to high altitude vehicles manufactured before the model year 1984 establish a numerical standard which is more stringent than that applicable to vehicles certified under non-high altitude conditions.

(3) Section 7807(d) of this title shall apply to any high altitude regulation referred to in paragraph (2) and before promulgating any such regulation, the Administrator shall consider and make a finding with respect to—

- the economic impact upon consumers, individual high altitude dealers, and the automobile industry of any such regulation, including the economic impact which was experienced as a result of the regulation imposed during model year 1977 with respect to high altitude certification requirements;
- the present and future availability of emission control technology capable of meeting the applicable vehicle and engine emission requirements without reducing model availability; and
- the likelihood that the adoption of such a high altitude regulation will result in any significant improvement in air quality in any area to which it shall apply.

(g) **Light-duty trucks up to 6,000 lbs. GVWR and light-duty vehicles; standards for model years after 1993**

(1) **NMHC, CO, and NOx.**

Effective with respect to the model year 1994 and thereafter, the regulations under subsection (a) of this section applicable to emissions of nonmethane hydrocarbons (NMHC), carbon monoxide (CO), and oxides of nitrogen (NOx) from light-duty trucks (LDTs) of up to 6,000 lbs. gross vehicle weight rating (GVWR) and light-duty vehicles (LDVs) shall contain standards which provide that emissions from a percentage of each manufacturer’s sales volume of such vehicles and trucks shall comply with the levels specified in table G. The percentage shall be as specified in the implementation schedule below:

### Table G—Emission Standards for NMHC, CO, and NOx from Light-Duty Trucks of Up to 6,000 LBS. GVWR and Light-Duty Vehicles

<table>
<thead>
<tr>
<th>Vehicle type</th>
<th>Column A (5 yrs/50,000 mi)</th>
<th>Column B (10 yrs/100,000 mi)</th>
</tr>
</thead>
<tbody>
<tr>
<td>NMHC CO NOx</td>
<td></td>
<td></td>
</tr>
<tr>
<td>LDTs (0–3,750 lbs. LVW) and light-duty vehicles</td>
<td>0.25 3.4 0.4*</td>
<td>0.31 4.2 0.6*</td>
</tr>
<tr>
<td>LDTs (3,751–5,750 lbs. LVW)</td>
<td>0.32 4.4 0.7**</td>
<td>0.40 5.5 0.97</td>
</tr>
</tbody>
</table>

*Standards are expressed in grams per mile (gpm).

For standards under column A, for purposes of certification under section 7525 of this title, the applicable useful life shall be 5 years or 50,000 miles (or the equivalent), whichever first occurs.

For standards under column B, for purposes of certification under section 7525 of this title, the applicable useful life shall be 10 years or 100,000 miles (or the equivalent), whichever first occurs.

*In the case of diesel-fueled LDTs (0–3,750 lbs. LVW) and light-duty vehicles, before the model year 2004, in lieu of the 0.4 and 0.6 standards for NOx, the applicable standards for NOx shall be 1.0 gpm for a useful life of 5 years or 50,000 miles (or the equivalent), whichever first occurs, and 1.25 gpm for a useful life of 10 years or 100,000 miles (or the equivalent) whichever first occurs.

**This standard does not apply to diesel-fueled LDTs (3,751–5,750 lbs. LVW).

### Implementation Schedule for Table G Standards

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>1994</td>
<td>40</td>
</tr>
<tr>
<td>1995</td>
<td>80</td>
</tr>
<tr>
<td>after 1995</td>
<td>100</td>
</tr>
</tbody>
</table>

*Percentages in the table refer to a percentage of each manufacturer's sales volume.

(2) **PM Standard**

Effective with respect to model year 1994 and thereafter in the case of light-duty vehicles, and effective with respect to the model year 1995 and thereafter in the case of light-duty trucks (LDTs) of up to 6,000 lbs. gross vehicle weight rating (GVWR), the regulations under subsection (a) of this section applicable to emissions of particulate matter (PM) from such vehicles and trucks shall contain standards which provide that such emissions from a percentage of each manufacturer's sales volume of such vehicles and trucks shall not exceed the levels specified in the table below. The percentage shall be as specified in the Implementation Schedule below.

*Another subsec. (f) is set out after subsec. (m).
The applicable useful life, for purposes of certification under section 7525 of this title and for purposes of in-use compliance under section 7541 of this title, shall be 5 years or 50,000 miles (or the equivalent), whichever first occurs, in the case of the 5/50,000 standard.
The applicable useful life, for purposes of certification under section 7525 of this title and for purposes of in-use compliance under section 7541 of this title, shall be 10 years or 100,000 miles (or the equivalent), whichever first occurs in the case of the 10/100,000 standard.

**IMPLEMENTATION SCHEDULE FOR PM STANDARDS—CONTINUED**

<table>
<thead>
<tr>
<th>Model year</th>

<tr>
<td>1995</td>
<td>80%* 40%*</td>
</tr>
<tr>
<td>1996</td>
<td>100%* 80%*</td>
</tr>
</tbody>
</table>

*Emissions are expressed in grams per mile (GPM).

For standards under column A, for purposes of certification under section 7525 of this title, the applicable useful life shall be 5 years or 50,000 miles (or the equivalent) whichever first occurs.

For standards under column B, for purposes of certification under section 7525 of this title, the applicable useful life shall be 10 years or 100,000 miles (or the equivalent), whichever first occurs.

*Not applicable to diesel-fueled LDTs.

(i) **Phase II study for certain light-duty vehicles and light-duty trucks**

(1) The Administrator, with the participation of the Office of Technology Assessment, shall study whether or not further reductions in emissions from light-duty vehicles and light-duty trucks should be required pursuant to this subchapter. The study shall consider whether to establish with respect to model years commencing after January 1, 2003, the standards and useful life period for gasoline and diesel-fueled light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less specified in the following table:

<table>
<thead>
<tr>
<th>LDT Test weight</th>
<th>(5 yrs/50,000 mi)</th>
<th>(11 yrs/120,000 mi)</th>
</tr>
</thead>
<tbody>
<tr>
<td>3,751-5,750 lbs. TW</td>
<td>0.32 4.4 0.7*</td>
<td>0.46 6.4 0.98 0.10</td>
</tr>
<tr>
<td>Over 5,750 lbs. TW</td>
<td>0.39 5.0 1.1*</td>
<td>0.56 7.3 1.53 0.12</td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (GPM).

For standards under column A, the applicable useful life shall be 5 years or 50,000 miles (or the equivalent) whichever first occurs.

For standards under column B, the applicable useful life shall be 11 years or 120,000 miles (or the equivalent) whichever first occurs.

Such study shall also consider other standards and useful life periods which are more stringent or less stringent than those set forth in table 3 (but more stringent than those referred to in subsections (g) and (h) of this section).

(2) (A) As part of the study under paragraph (1), the Administrator shall examine the need for further reductions in emissions in order to achieve or maintain the national ambient air quality standards, taking into consideration the waiver provisions of section 7548(b) of this title. As part of such study, the Administrator shall also examine—

(i) the availability of technology (including the costs thereof), in the case of light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less, for meeting more stringent emission standards than those provided in subsections (g) and (h) of this section;

(ii) the need for, and cost effectiveness of, obtaining further reductions in emissions from such light-duty vehicles and light-duty trucks, taking into consideration alternative means of attaining or maintaining the national primary emission standards, taking into consideration the time and safety and energy impacts of meeting more stringent emission standards; and

*Emissions are expressed in grams per mile (GPM). For vehicles and engines subject to this subsection for purposes of subsection (d) of this section and any reference thereto, the useful life of such vehicles and engines shall be a period of 10 years or 100,000 miles (or the equivalent), whichever first occurs.
ambient air quality standards pursuant to State implementation plans and other requirements of this chapter, including their feasibility and cost effectiveness.

(B) The Administrator shall submit a report to Congress no later than June 1, 1997, containing the results of the study under this subsection, including the results of the examination conducted under subparagraph (A). Before submission of such report the Administrator shall provide a reasonable opportunity for public comment and shall include a summary of such comments in the report to Congress.

(3)(A) Based on the study under paragraph (1) the Administrator shall determine, by rule, within 3 calendar years after the report is submitted to Congress, but not later than December 31, 1999, whether—

(i) there is a need for further reductions in emissions as provided in paragraph (2)(A); or

(ii) the technology for meeting more stringent emission standards will be available, as provided in paragraph (2)(A)(i), in the case of light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less, for model years commencing not earlier than January 1, 2003, and not later than model year 2006, considering the factors listed in paragraph (2)(A)(i); and

(iii) obtaining further reductions in emissions from such vehicles will be needed and cost effective, taking into consideration alternatives as provided in paragraph (2)(A)(i).

The rulemaking under this paragraph shall commence within 3 months after submission of the report to Congress under paragraph (2)(B).

(B) If the Administrator determines under subparagraph (A) that—

(i) there is no need for further reductions in emissions as provided in paragraph (2)(A); or

(ii) the technology for meeting more stringent emission standards will not be available as provided in paragraph (2)(A)(i), in the case of light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less, for model years commencing not earlier than January 1, 2003, and not later than model year 2006, considering the factors listed in paragraph (2)(A)(i); or

(iii) obtaining further reductions in emissions from such vehicles will not be needed and cost effective, taking into consideration alternatives as provided in paragraph (2)(A)(i),

the Administrator shall promulgate more stringent standards than those in effect pursuant to subsections (g) and (h) of this section. Nothing in this paragraph shall prohibit the Administrator from exercising the Administrator’s authority under subsection (a) of this section to promulgate more stringent standards for light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less at any other time thereafter in accordance with subsection (a) of this section.

(C) If the Administrator determines under subparagraph (A) that—

(i) there is a need for further reductions in emissions as provided in paragraph (2)(A); or

(ii) the technology for meeting more stringent emission standards will be available, as provided in paragraph (2)(A)(i), in the case of light-duty vehicles and light-duty trucks with a loaded vehicle weight (LVW) of 3,750 lbs. or less, for model years commencing not earlier than January 1, 2003, and not later than model year 2006, considering the factors listed in paragraph (2)(A)(i); and

(iii) obtaining further reductions in emissions from such vehicles will be needed and cost effective, taking into consideration alternatives as provided in paragraph (2)(A)(i),

the Administrator shall promulgate the standards (and useful life periods) set forth in Table 3 in paragraph (1) or promulgate alternative standards (and useful life periods) which are more stringent than those referred to in subsections (g) and (h) of this section. Any such standards (or useful life periods) promulgated by the Administrator shall take effect with respect to any such vehicles or engines no earlier than the model year 2003 but not later than model year 2006, as determined by the Administrator in the rule.

(D) Nothing in this paragraph shall be construed by the Administrator or by a court as a presumption that any standards (or useful life period) set forth in Table 3 shall be promulgated in the rulemaking required under this paragraph. The action required of the Administrator in accordance with this paragraph shall be treated as a nondiscretionary duty for purposes of section 7504(a)(2) of this title (relating to citizen suits).

(E) Unless the Administrator determines not to promulgate more stringent standards as provided in subparagraph (B) or to postpone the effective date of standards referred to in Table 3 in paragraph (1) or to establish alternative standards as provided in subparagraph (C), effective with respect to model years commencing after January 1, 2003, the regulations under subsection (a) of this section applicable to emissions of nonmethane hydrocarbons (NMHC), oxides of nitrogen (NOx), and carbon monoxide (CO) from motor vehicles and motor vehicle engines in the classes specified in Table 3 in paragraph (1) above shall contain standards which provide that emissions may not exceed the pending emission levels specified in Table 3 in paragraph (1).

(j) Cold CO standard

(1) Phase I

Not later than 12 months after November 15, 1990, the Administrator shall promulgate regulations under subsection (a) of this section applicable to emissions of carbon monoxide from 1994 and later model year light-duty vehicles and light-duty trucks when operated at 20 degrees Fahrenheit. The regulations shall contain standards which provide that emissions of carbon monoxide from a manufacturer’s vehicles when operated at 20 degrees Fahrenheit may not exceed, in the case of light-duty vehicles, 10.0 grams per mile, and in the case of light-duty trucks, a level comparable in stringency to the standard applicable to light-duty vehicles. The standards shall take effect after model year 1993 according to a phase-in schedule which requires a percentage of each manufacturer’s sales volume of light-duty vehicles...
and light-duty trucks to comply with applicable standards after model year 1993. The percentage shall be as specified in the following table:

<table>
<thead>
<tr>
<th>Model Year</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1994</td>
<td>40</td>
</tr>
<tr>
<td>1995</td>
<td>80</td>
</tr>
<tr>
<td>1996 and after</td>
<td>100</td>
</tr>
</tbody>
</table>

(2) Phase II  
(A) Not later than June 1, 1997, the Administrator shall complete a study assessing the need for further reductions in emissions of carbon monoxide and the maximum reductions in such emissions achievable from model year 2001 and later model year light-duty vehicles and light-duty trucks when operated at 20 degrees Fahrenheit.

(B)(i) If as of June 1, 1997, 6 or more nonattainment areas have a carbon monoxide design value of 9.5 ppm or greater, the regulations under subsection (a)(1) of this section applicable to emissions of carbon monoxide from model year 2002 and later model year light-duty vehicles and light-duty trucks shall contain standards which provide that emissions of carbon monoxide from such vehicles and trucks when operated at 20 degrees Fahrenheit may not exceed 3.4 grams per mile (gpm) in the case of light-duty vehicles and 4.4 grams per mile (gpm) in the case of light-duty trucks up to 6,000 GVWR and a level comparable in stringency in the case of light-duty trucks 6,000 GVWR and above.

(ii) In determining for purposes of this subparagraph whether 6 or more nonattainment areas have a carbon monoxide design value of 9.5 ppm or greater, the Administrator shall exclude the areas of Steubenville, Ohio, and Oshkosh, Wisconsin.

(3) Useful-life for phase I and phase II standards  
In the case of the standards referred to in paragraphs (1) and (2), for purposes of certification under section 7525 of this title and in-use compliance under section 7541 of this title, the applicable useful life period shall be 5 years or 50,000 miles, whichever first occurs, except that the Administrator may extend such useful life period (for purposes of section 7525 of this title, or section 7541 of this title, or both) if he determines that it is feasible for vehicles and engines subject to such standards to meet such standards for a longer useful life. If the Administrator extends such useful life period, the Administrator may make an appropriate adjustment of applicable standards for such extended useful life. No such extended useful life shall extend beyond the useful life period provided in regulations under subsection (d) of this section.

(4) Heavy-duty vehicles and engines  
The Administrator may also promulgate regulations under subsection (a)(1) of this section applicable to emissions of carbon monoxide from heavy-duty vehicles and engines when operated at cold temperatures.

(k) Control of evaporative emissions  
The Administrator shall promulgate (and from time to time revise) regulations applicable to evaporative emissions of hydrocarbons from all gasoline-fueled motor vehicles—

(1) during operation; and

(2) over 2 or more days of nonuse;

under ozone-prone summertime conditions (as determined by regulations of the Administrator). The regulations shall take effect as expeditiously as possible and shall require the greatest degree of emission reduction achievable by means reasonably expected to be available for production during any model year to which the regulations apply, giving consideration to fuel volatility, and to cost, energy, and safety factors associated with the application of the appropriate technology. The Administrator shall commence a rulemaking under this subsection within 12 months after November 15, 1990. If final regulations are not promulgated under this subsection within 18 months after November 15, 1990, the Administrator shall submit a statement to the Congress containing an explanation of the reasons for the delay and a date certain for promulgation of such final regulations in accordance with this chapter. Such date certain shall not be later than 15 months after the expiration of such 18 month deadline.

(i) Mobile source-related air toxics  
(1) Study  
Not later than 18 months after November 15, 1990, the Administrator shall complete a study of the need for, and feasibility of, controlling emissions of toxic air pollutants which are unregulated under this chapter, and with motor vehicles and motor vehicle fuels, and the need for, and feasibility of, controlling such emissions and the means and measures for such controls. The study shall focus on those categories of emissions that pose the greatest risk to human health or about which significant uncertainties remain, including emissions of benzene, formaldehyde, and 1,3 butadiene. The proposed report shall be available for public review and comment and shall include a summary of all comments.

(2) Standards  
Within 54 months after November 15, 1990, the Administrator shall, based on the study under paragraph (1), promulgate (and from time to time revise) regulations under section 7545(c)(1) of this title containing reasonable requirements to control hazardous air pollutants from motor vehicles and motor vehicle fuels. The regulations shall contain standards for such fuels or vehicles, or both, which the Administrator determines reflect the greatest degree of emission reduction achievable through the application of technology which will be available, taking into consideration the standards established under subsection (a) of this section, the availability and costs of the technology, and noise, energy, and safety factors, and lead time. Such regulations shall not be inconsistent with standards under subsection (a) of this section. The regulations shall, at a
minimum, apply to emissions of benzene and formaldehyde.

(m) Emissions control diagnostics

(1) Regulations

Within 18 months after November 15, 1990, the Administrator shall promulgate regulations under subsection (a) of this section requiring manufacturers to install on all new light-duty vehicles and light-duty trucks diagnostic systems capable of—

(A) accurately identifying for the vehicle’s useful life as established under this section, emission-related systems deterioration or malfunction, including, at a minimum, the catalytic converter and oxygen sensor, which could cause or result in failure of the vehicles to comply with emission standards established under this section,

(B) alerting the vehicle’s owner or operator to the likely need for emission-related components or systems maintenance or repair,

(C) storing and retrieving fault codes specified by the Administrator, and

(D) providing access to stored information in a manner specified by the Administrator.

The Administrator may, in the Administrator’s discretion, promulgate regulations requiring manufacturers to install such onboard diagnostic systems on heavy-duty vehicles and engines.

(2) Effective date

The regulations required under paragraph (1) of this subsection shall take effect in model year 1994, except that the Administrator may waive the application of such regulations for model year 1994 or 1995 (or both) with respect to any class or category of motor vehicles if the Administrator determines that it would be infeasible to apply the regulations to that class or category in such model year or years, consistent with corresponding regulations or policies adopted by the California Air Resources Board for such systems.

(3) State inspection

The Administrator shall by regulation require States that have implementation plans containing motor vehicle inspection and maintenance programs to amend their plans within 2 years after promulgation of such regulations to provide for inspection of onboard diagnostic systems (as prescribed by regulations under paragraph (1) of this subsection) and for the maintenance or repair of malfunctions or system deterioration identified by or affecting such diagnostic systems. Such regulations shall not be inconsistent with the provisions for warranties promulgated under section 7541(a) and (b) of this title.

(4) Specific requirements

In promulgating regulations under this subsection, the Administrator shall require—

(A) that any connectors through which the emission control diagnostics system is accessed for inspection, diagnosis, service, or repair shall be standard and uniform on all motor vehicles and motor vehicle engines;

(B) that access to the emission control diagnostics system through such connectors shall be unrestricted and shall not require any access code or any device which is only available from a vehicle manufacturer; and

(C) that the output of the data from the emission control diagnostics system through such connectors shall be usable without the need for any unique decoding information or device.

(5) Information availability

The Administrator, by regulation, shall require (subject to the provisions of section 7542(c) of this title regarding the protection of methods or processes entitled to protection as trade secrets) manufacturers to provide promptly to any person engaged in the repairing or servicing of motor vehicles or motor vehicle engines, and the Administrator for use by any such persons, with any and all information needed to make use of the emission control diagnostics system prescribed under this subsection and such other information including instructions for making emission related diagnosis and repairs. No such information may be withheld under section 7542(c) of this title if that information is provided (directly or indirectly) by the manufacturer to franchised dealers or other persons engaged in the repair, diagnosing, or servicing of motor vehicles or motor vehicle engines. Such information shall also be available to the Administrator, subject to section 7542(c) of this title, in carrying out the Administrator’s responsibilities under this section.

(f) Model years after 1990

For model years prior to model year 1994, the regulations under subsection (a) of this section shall apply to buses other than those subject to standards under section 7554 of this title shall contain a standard which provides that emissions of particulate matter (PM) from such buses may not exceed the standards set forth in the following table:

<table>
<thead>
<tr>
<th>PM STANDARD FOR BUSES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Model year</td>
</tr>
<tr>
<td>1991</td>
</tr>
<tr>
<td>1992</td>
</tr>
<tr>
<td>1993 and thereafter</td>
</tr>
</tbody>
</table>

*Standards are expressed in grams per brake horsepower hour (g/bhp-hr).

REFERENCES IN TEXT

The enactment of the Clean Air Act Amendments of 1990, referred to in subsec. (a)(5), probably means the
enactment of Pub. L. 101–549, Nov. 15, 1990, 104 Stat. 2399, which was approved Nov. 15, 1990. For complete classification of this Act to the Code, see Short Title note set out under section 7521(a) of this title and Tables.

**CODIFICATION**

Section was formerly classified to section 1857f–1 of this title.

**AMENDMENTS**

1990—Subsec. (a)(3)(A). Pub. L. 101–549, §201(1), added subpar. (A) and struck out former subpar. (A) which related to promulgation of regulations applicable to reduction of emissions from heavy-duty vehicles or engines manufactured during and after model year 1979 in the case of carbon monoxide, hydrocarbons, and oxides of nitrogen, and from vehicles manufactured during and after model year 1981 in the case of particulate matter.

Subsec. (a)(3)(B). Pub. L. 101–549, §201(1), added subpar. (B) and struck out former subpar. (B) which read as follows: “During the period of June 1 through December 31, 1978, in the case of hydrocarbons and carbon monoxide, or during the period of June 1 through December 31, 1980, in the case of oxides of nitrogen, and during each period of June 1 through December 31 of each model year thereafter, the Administrator may, after notice and opportunity for a public hearing promulgate regulations revising any standard prescribed as provided in subparagraph (A)(i) for any class or category of heavy-duty vehicles or engines. Such standard shall apply only for the period of three model years beginning four model years after the model year in which such revised standard is promulgated. In revising any standard under this subparagraph for any such three model year period, the Administrator shall determine the maximum degree of emission reduction which can be achieved by means reasonably expected to be available for production of such model year and shall prescribe such revised emission standard in accordance with such determination. Such revised standard shall require a reduction of emissions from any standard which applies in the previous model year.”

Subsec. (a)(3)(C). Pub. L. 101–549, §201(1), added subpar. (C) and struck out former subpar. (C) which read as follows: “Action revising any standard for any period may be taken by the Administrator under subparagraph (B) only if he finds—

“(i) that compliance with the emission standards otherwise applicable for such model year cannot be achieved by technology, processes, operating methods, or other alternatives reasonably expected to be available for production for such model year without increasing cost or decreasing fuel economy to an extent or in a manner that is unreasonable degree; and

“(ii) the National Academy of Sciences has not, pursuant to its study and investigation under subsection (c) of this section, issued a report substantially contrary to the findings of the Administrator under clause (i).”

Subsec. (a)(3)(D). Pub. L. 101–549, §201(1), added subpar. (D) and struck out former subpar. (D) which read as follows: “A report shall be made to the Congress with respect to any standard revised under subparagraph (B) which shall contain—

“(i) a summary of the health effects found, or believed to be associated with, the pollutant covered by such standard,

“(ii) an analysis of the cost-effectiveness of other strategies for attaining and maintaining national ambient air quality standards and carrying out regulations under part C of subchapter I (relating to significant deterioration) in relation to the cost-effectiveness for such purposes of standards which, but for such revision, would apply,

“(iii) a summary of the research and development efforts and progress being made by each manufacturer for purposes of meeting the standards promulgated as provided in subparagraph (A)(ii) or, if applicable, subparagraph (E), and

“(iv) specific findings as to the relative costs of compliance, and relative fuel economy, which may be expected to result from the application for any model year of such revised standard and the application for such model year of the standard, which, but for such revision, would apply.”

Subsec. (a)(3)(E), (F). Pub. L. 101–549, §201, redesignated subpar. (F) as (E), inserted heading, and struck out former subpar. (E) which read as follows:

“(i) The Administrator shall conduct a continuing pollutant-specific study concerning the effects of each pollutant emitted from heavy-duty vehicles and engines and from other sources of mobile source related pollutants on the public health and welfare. The results of such study shall be published in the Federal Register and reported to the Congress not later than June 1, 1978, in the case of hydrocarbons and carbon monoxide, and June 1, 1980, in the case of oxides of nitrogen, and before June 1 of each third year thereafter.

“(ii) On the basis of such study or such other information as is available to him (including the studies under section 7548 of this title), the Administrator may, after notice and opportunity for a public hearing, promulgate regulations under paragraph (i) of this subsection changing any standard prescribed in subparagraph (A)(ii) or (revised under subparagraph (B) or previously changed under this subparagraph). No such changed standard shall apply for any model year before the model year four years after the model year during which regulations containing such changed standard are promulgated.”

Subsec. (a)(4)(A), (B). Pub. L. 101–549, §227(b), substituted “requirements prescribed under this subchapter” for “standards prescribed under this subchapter”.

Subsec. (a)(6). Pub. L. 101–549, §202, amended par. (6) generally. Prior to amendment, par. (6) read as follows:

“The Administrator shall determine the feasibility and desirability of requiring new motor vehicles to utilize onboard hydrocarbon control technology which avoids the necessity of gasoline vapor recovery of uncontrolled emissions emanating from the fueling of motor vehicles. The Administrator shall compare the costs and effectiveness of such technology to that of implementing and maintaining vapor recovery systems (taking into consideration such factors as fuel economy, economic costs of such technology, administrative burdens, and equitable distribution of costs). If the Administrator finds that it is feasible and desirable to employ such technology, he shall, after consultation with the Secretary of Transportation with respect to motor vehicle safety, prescribe, by regulation, standards requiring the use of onboard hydrocarbon technology which shall not become effective until the introduction to the model year for which it would be feasible to implement such standards, taking into consideration compliance costs and the restraints of an adequate lead time for design and production.”

Subsec. (b)(1)(C). Pub. L. 101–549, §203(c), amended subpar. (C) generally. Prior to amendment, subpar. (C) read as follows: “Effective with respect to vehicles and engines manufactured after model year 1978 (or in the case of heavy-duty vehicles or engines, after the earliest feasible model year the Administrator determines is the earliest feasible model year), the test procedure promul-
Subsec. (b)(1)(B). Pub. L. 95–95, § 14(a)(61), (65), substituted “calendar year 1976” for “model year 1976” and in cl. (i) substituted “other” for “United States”.

Subsec. (b)(5). Pub. L. 95–95, § 201(b), substituted provisions setting the standards for emissions from light-duty vehicles and engines manufactured during the model years 1977 through 1982 for provisions which had set the standards for emissions from light-duty vehicles and engines manufactured during the model years 1975 through 1977, substituted provisions that the standards for model years 1981 and after allow emissions of no more than 1 gram per vehicle mile for provisions that the standards for model year 1978 and after require a reduction of at least 90 per cent from the average of emissions actually measured from light-duty vehicles manufactured during model year 1971 which were not subject to any Federal or State emission standards for oxides of nitrogen, and inserted provisions directing the Administrator to prescribe separate standards for model years 1981 and 1982 for manufacturers whose production, by corporate identity, for model year 1976 was less than three hundred thousand light-duty motor vehicles worldwide if the manufacturer’s capability to meet emission standards depends upon United States technology and if the manufacturer cannot develop one.

Subsec. (b)(5). Pub. L. 95–95, § 201(c), substituted provisions setting up a procedure under which a manufacturer may apply for a waiver for model years 1981 and 1982 for manufacturers whose production, by corporate identity, for model year 1976 was less than three hundred thousand light-duty motor vehicles worldwide if the manufacturer’s capability to meet emission standards depends upon United States technology and if the manufacturer cannot develop one.

Subsec. (d)(3). Pub. L. 95–95, § 224(g), added par. (3).

Subsec. (e). Pub. L. 95–95, § 401(d)(2), substituted “which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger” for “which cause or contribute to, or are likely to cause or contribute to, air pollution which endangers”. Subsec. (f). Pub. L. 95–95, § 224(b), added subsec. (f) 1974—Subsec. (b)(1)(A). Pub. L. 93–319, § 5(a), substituted “model year 1977” for “model year 1975” in provisions requiring a reduction of at least 90 percent from the average of emissions actually measured from vehicles manufactured during model year 1971 and inserted provisions covering regulations for model years 1975, 1976, and 1977.

Subsec. (b)(5). Pub. L. 93–319, § 5(c), (d), substituted in subpar. (A), “At any time after January 1, 1972,” with respect to such manufacturer for light-duty vehicles and engines manufactured in model year 1977 for “with respect to such manufacturer”, “sixty days” for “90 days”, “paragraph (1)(A) of this subsection” for “paragraph (1)(A)”, and “vehicles and engines manufactured during model year 1977” for “vehicles and engines manufactured during model year 1975”, redesignated subpars. (C) to (E) as (D) to (G), respectively, and struck out former subpar. (B) which had allowed manufacturers, at any time after Jan. 1, 1973, to file with the Administrator an application requesting a 1-year suspension of the effective date of any emission standard required by subsec. (b)(1)(B) with respect to such manufacturer.

1970—Subsec. (a). Pub. L. 91–604 redesignated existing provisions as par. (1), substituted Administrator for Secretary as the issuing authority for standards, inserted references to the regulated life of engines in substiuted the emission of any air pollutant for the emission of any kind of substance as the subject to be regulated, and added par. (2).

Subsecs. (c) to (e). Pub. L. 91–604 added subsecs. (c) to (e).

Effective Date of 1977 Amendment Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

Modification or Rescission of Rules, Regulations, Orders, Determinations, Contracts, Certifications, Authorizations, Delegations, and Other Actions All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter]. Section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

Study on Oxides of Nitrogen from Light-Duty Vehicles Section 202(a) of Pub. L. 95–95 provided that the Administrator of the Environmental Protection Agency conduct a study of the public health implications of attaining an emission standard on oxides of nitrogen from light-duty vehicles of 0.4 gram per vehicle mile, the cost and technological capability of attaining such standard, and the need for such a standard to protect public health or welfare and that the Administrator submit a report of such study to the Congress, together with recommendations not later than July 1, 1980.

Study of Carbon Monoxide Intrusion Into Sustained-Use Vehicles Section 228 of Pub. L. 95–95 provided that the Administrator, in conjunction with the Secretary of Transportation, study the problem of carbon monoxide intrusion into the passenger area of sustained-use motor vehicles and that within one year the Administrator report to the Congress respecting the results of such study.

Continuing Comprehensive Studies and Investigations by National Academy of Sciences Section 403(f) of Pub. L. 95–95 provided that: “The Administrator of the Environmental Protection Agency shall undertake to enter into appropriate arrangements with the National Academy of Sciences to conduct continuing comprehensive studies and investigations of the effects on public health and welfare of emissions subject to section 202(a) of the Clean Air Act [subsec. (a) of this section] (including sulfur compounds) and the technological feasibility of meeting emission standards required to be prescribed by the Administrator by section 202(b) of such Act [subsec. (b) of this section]. The Administrator shall report to the Congress within six months of the date of enactment of this section [Aug. 7, 1977] and each year thereafter regarding the status of the contractual arrangements and conditions necessary to implement the effective paragraphs of this section. [For termination, effective May 15, 2000, of provisions relating to annual report to Congress in section 403(f)

STUDY ON EMISSION OF SULFUR-BEARING COMPOUNDS FROM MOTOR VEHICLES AND MOTOR VEHICLE AND AIRCRAFT ENGINES

Section 403(g) of Pub. L. 95–95 provided that the Administrator of the Environmental Protection Agency conduct a study and report to the Congress by the date one year after Aug. 7, 1977, on the emission of sulfur-bearing compounds from motor vehicles and motor vehicle engines and aircraft engines.

EX. ORD. NO. 13432. COOPERATION AMONG AGENCIES IN PROTECTING THE ENVIRONMENT WITH RESPECT TO GREENHOUSE GAS EMISSIONS FROM MOTOR VEHICLES, NONROAD VEHICLES, AND NONROAD ENGINES

Ex. Ord. No. 13432, May 14, 2007, 72 F.R. 27717, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

1. Policy. It is the policy of the United States to ensure the coordinated and effective exercise of the authorities of the President and the heads of the Department of Transportation, the Department of Energy, and the Environmental Protection Agency to protect the environment with respect to greenhouse gas emissions from motor vehicles, nonroad vehicles, and nonroad engines, in a manner consistent with sound science, analysis of benefits and costs, public safety, and economic growth.

2. Definitions. As used in this order:

(a) "agencies" refers to the Department of Transportation, the Department of Energy, and the Environmental Protection Agency, and all units thereof, and "agency" refers to any of them;

(b) "alternative fuels" has the meaning specified for that term in section 301(2) of the Energy Policy Act of 1992 (42 U.S.C. 13211(2));

(c) "authorities" include the Clean Air Act (42 U.S.C. 7401–7671q), the Energy Policy Act of 1992 (Public Law 102–486), the Energy Policy Act of 2005 (Public Law 109–58), the Energy Policy and Conservation Act (Public Law 94–163), and any other current or future laws or regulations that may authorize or require any of the agencies to take regulatory action that directly or indirectly affects emissions of greenhouse gases from motor vehicles;

(d) "greenhouse gases" has the meaning specified for that term in Executive Order 13423 of January 24, 2007;

(e) "motor vehicle" has the meaning specified for that term in section 216(2) of the Clean Air Act (42 U.S.C. 7550(2));

(f) "nonroad engine" has the meaning specified for that term in section 216(10) of the Clean Air Act (42 U.S.C. 7550(10));

(g) "nonroad vehicle" has the meaning specified for that term in section 216(11) of the Clean Air Act (42 U.S.C. 7550(11));

(h) "regulation" has the meaning specified for that term in section 3(k) of Executive Order 12866 of September 30, 1993, as amended (Executive Order 12866); and

(i) "regulatory action" has the meaning specified for that term in section 3(e) of Executive Order 12866.

3. Coordination Among the Agencies. In carrying out the policy set forth in section 1 of this order, the head of an agency undertaking a regulatory action that can reasonably be expected to directly regulate emissions, or to substantially and predictably affect emissions, of greenhouse gases from motor vehicles, nonroad vehicles, nonroad engines, or the use of motor vehicle fuels, including alternative fuels, shall:

(a) undertake such a regulatory action, to the maximum extent permitted by law and determined by the head of the agency to be practicable, jointly with the other agencies;

(b) in undertaking such a regulatory action, consider, in accordance with applicable law, information and recommendations provided by the other agencies;

(c) in undertaking such a regulatory action, exercise authority vested by law in the head of such agency effectively, in a manner consistent with the effective exercise by the heads of the other agencies of the authority vested in them by law; and

(d) obtain, to the extent permitted by law, concurrence or other views from the heads of the other agencies during the development and preparation of the regulatory action and prior to any key decision points during that development and preparation process, and in no event later than 30 days prior to publication of such action.

4. Duties of the Heads of Agencies. (a) To implement this order, the head of each agency shall:

(1) designate appropriate personnel within the agency to (i) direct the agency's implementation of this order, (ii) ensure that the agency keeps the other agencies and the Office of Management and Budget informed of the agency regulatory actions to which section 3 refers, and (iii) coordinate such actions with the agencies;

(2) in coordination as appropriate with the Committee on Climate Change Science and Technology, continue to conduct and share research designed to advance technologies to further the policy set forth in section 1 of this order;

(3) facilitate the sharing of personnel and the sharing of information among the agencies to further the policy set forth in section 1 of this order;

(4) coordinate with the other agencies to avoid duplication of requests to the public for information from the public in the course of undertaking such regulatory action, consistent with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.); and

(5) consult with the Secretary of Agriculture whenever a regulatory action will have a significant effect on agriculture related to the production or use of ethanol, biodiesel, or other renewable fuels, including actions undertaken in whole or in part based on authority or requirements in title XV of the Energy Policy Act of 2005, or the amendments made by such title, or when otherwise appropriate or required by law.

(b) To implement this order, the heads of the agencies acting jointly may allocate as appropriate among the agencies administrative responsibilities relating to regulatory actions to which section 3 refers, such as publication of notices in the Federal Register and receipt of comments in response to notices.

5. Duties of the Director of the Office of Management and Budget and the Chairman of the Council on Environmental Quality. (a) The Director of the Office of Management and Budget, with such assistance as the Chairman of the Council on Environmental Quality as the Director may require, shall monitor the implementation of this order by the heads of the agencies and shall report thereon to the President from time to time, and not less often than semiannually, with any recommendations of the Director for strengthening the implementation of this order.

(b) To implement this order and further the policy set forth in section 1, the Director of the Office of Management and Budget may require the heads of the agencies to submit reports to, and coordinate with, such Office on matters related to this order.

6. General Provisions. (a) This order shall be implemented in accordance with applicable law and subject to the availability of appropriations.

(b) This order shall not be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, and legislative proposals.

(c) This order is not intended to, and does not, create any right, benefit or privilege, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, instrumentalities, or entities, its officers or employees, or any other person.
§ 7522. Prohibited acts

(a) Enumerated prohibitions

The following acts and the causing thereof are prohibited—

(1) in the case of a manufacturer of new motor vehicles or new motor vehicle engines for distribution in commerce, the sale, or the offering for sale, or the introduction, or delivery for introduction, into commerce, or (in the case of any person, except as provided by regulation of the Administrator), the importation into the United States, of any new motor vehicle or new motor vehicle engine, manufactured after the effective date of regulations under this part which are applicable to such vehicle or engine unless such vehicle or engine is covered by a certificate of conformity issued (and in effect) under regulations prescribed under this part or part C in the case of clean-fuel vehicles (except as provided in subsection (b) of this section);

(2)(A) for any person to fail or refuse to permit access to or copying of records or to fail to make reports or provide information required under section 7542 of this title;

(B) for any person to fail or refuse to permit entry, testing or inspection authorized under section 7525(c) of this title or section 7542 of this title;

(C) for any person to fail or refuse to perform tests, or have tests performed as required under section 7542 of this title;

(D) for any manufacturer to fail to make information available as provided by regulation under section 7521(m)(5) of this title;

(3)(A) for any person to remove or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this subchapter prior to its sale and delivery to the ultimate purchaser, or for any person knowingly to remove or render inoperative any such device or element of design after such sale and delivery to the ultimate purchaser; or

(B) for any person to manufacture or sell, or offer to sell, or install, any part or component intended for use with, or as part of, any motor vehicle or motor vehicle engine, where a principal effect of the part or component is to bypass, defeat, or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this subchapter, and where the person knows or should know that such part or component is being offered for sale or installed for such use or put to such use; or

(4) for any manufacturer of a new motor vehicle or new motor vehicle engine subject to standards prescribed under section 7521 of this title or part C of this subchapter—

(A) to sell or lease any such vehicle or engine unless such manufacturer has complied with (i) the requirements of section 7541(a) and (b) of this title with respect to such vehicle or engine, and unless a label or tag is affixed to such vehicle or engine in accordance with section 7541(c)(3) of this title, or (ii) the corresponding requirements of part C of this subchapter in the case of clean fuel vehicles unless the manufacturer has complied with the corresponding requirements of part C of this subchapter;

(B) to fail or refuse to comply with the requirements of section 7541(c) or (e) of this title, or the corresponding requirements of part C of this subchapter in the case of clean fuel vehicles;

(C) except as provided in subsection (c)(3) of section 7541 of this title and the corresponding requirements of part C of this subchapter in the case of clean fuel vehicles, to provide directly or indirectly in any communication to the ultimate purchaser or any subsequent purchaser that the coverage of any warranty under this chapter is conditioned upon use of any part, component, or system manufactured by such manufacturer or any person acting for such manufacturer or under his control, or conditioned upon service performed by any such person, or

(D) to fail or refuse to comply with the terms and conditions of the warranty under section 7541(a) or (b) of this title or the corresponding requirements of part C of this subchapter in the case of clean fuel vehicles with respect to any vehicle; or

(5) for any person to violate section 7553 of this title, 7554 of this title, or part C of this subchapter or any regulations under section 7553 of this title, 7554 of this title, or part C of this subchapter.

No action with respect to any element of design referred to in paragraph (3) (including any adjustment or alteration of such element) shall be treated as a prohibited act under such paragraph if (i) the action is for the purpose of a conversion of a motor vehicle for use of a clean alternative fuel (as defined in this subchapter) and if such vehicle complies with the applicable standard under section 7521 when operating on such fuel, and if in the case of a clean alternative fuel vehicle (as defined by rule by the Administrator), the device or element is replaced upon completion of

1 So in original. Probably should be followed by a comma.
the conversion procedure and such action results in proper functioning of the device or element when the motor vehicle operates on conventional fuel.

(b) Exemptions; refusal to admit vehicle or engine into United States; vehicles or engines intended for export

(1) The Administrator may exempt any new motor vehicle or new motor vehicle engine, from subsection (a) of this section, upon such terms and conditions as he may find necessary for the purpose of research, investigations, studies, demonstrations, or training, or for reasons of national security.

(2) A new motor vehicle or new motor vehicle engine offered for importation or imported by any person in violation of subsection (a) of this section shall be refused admission into the United States, but the Secretary of the Treasury and the Administrator may, by joint regulation, provide for deferring final determination as to admission and authorizing the delivery of such a motor vehicle or engine offered for import to the owner or consignee thereof upon such terms and conditions (including the furnishing of a bond) as may appear to them appropriate to insure that any such motor vehicle or engine will be brought into conformity with the standards, requirements, and limitations applicable to it under this part. The Secretary of the Treasury shall, if a motor vehicle or engine is finally refused admission under this paragraph, cause disposition thereof in accordance with the customs laws unless it is exported, under regulations prescribed by such Secretary, within ninety days of the date of notice of such refusal or such additional time as may be permitted pursuant to such regulations, except that disposition in accordance with the customs laws may not be made in such manner as may result, directly or indirectly, in the sale, to the ultimate consumer, of a new motor vehicle or new motor vehicle engine that fails to comply with applicable standards of the Administrator under this part.

(3) A new motor vehicle or new motor vehicle engine intended solely for export, and so labeled by the manufacturer or dealer knowingly to remove or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this subchapter prior to its sale and delivery to the ultimate purchaser, or for any manufacturer or dealer knowingly to remove or render inoperative any such device or element of design after such sale and delivery to the ultimate purchaser; or

(4) Generally. Prior to amendment, par. (4) read as follows: "for any person to fail or refuse to permit access, or the corresponding requirements of part C of this subchapter in the case of clean fuel vehicles" after "section 7521 of this title".

Subsec. (a). Pub. L. 101–549, § 228(c), struck out subsec. (c) which related to exemptions to permit modifications of emission control devices or systems.

Subsec. (b). Pub. L. 95–190, §§ 206, 210(a), 219(a), (b), inserted "or for any person to fail or refuse to permit entry, testing, or inspection authorized under section 7525(c) of this title".

Subsec. (c). Pub. L. 95–190, § 230(6), struck out subsec. (c) which related to exemptions to permit modifications of emission control devices or systems.
§ 7523. Actions to restrain violations

(a) Jurisdiction

The district courts of the United States shall have jurisdiction to restrain violations of section 7522(a) of this title.

(b) Actions brought by or in name of United States; subpoenas

Actions to restrain such violations shall be brought by and in the name of the United States. In any such action, subpoenas for witnesses who are required to attend a district court in any district may run into any other district.

CODIFICATION

Section was formerly classified to section 1857f-3 of this title.

AMENDMENTS

1977—Subsec. (a). Pub. L. 95-95 struck out “paragraph (1), (2), (3), or (4)” after “restrain violations of”.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95-95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95-95, set out as a note under section 7401 of this title.

PENDING ACTIONS AND PROCEEDINGS

Suits, actions, and other proceedings lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95-95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95-95, see section 406(a) of Pub. L. 95-95, set out as an Effective Date of 1977 amendment note under section 7401 of this title.

§ 7524. Civil penalties

(a) Violations

Any person who violates sections 7522(a)(1), 7522(a)(4), or 7522(a)(5) of this title or any manufacturer or dealer who violates section 7522(a)(3)(A) of this title shall be subject to a civil penalty of not more than $25,000. Any person other than a manufacturer or dealer who violates section 7522(a)(3)(A) of this title or any person who violates section 7522(a)(3)(B) of this title shall be subject to a civil penalty of not more than $2,500. Any such violation with respect to paragraph (1), (3)(A), or (4) of section 7522(a) of this title shall constitute a separate offense with respect to each part or component. Any person who violates section 7522(a)(2) of this title shall be subject to a civil penalty of not more than $25,000 per day of violation.

(b) Civil actions

The Administrator may commence a civil action to assess and recover any civil penalty under subsection (a) of this section, section 7545(d) of this title, or section 7547(d) of this title. Any action under this subsection may be brought in the district court of the United

1 So in original. Probably should be “section”.

States for the district in which the violation is alleged to have occurred or in which the defendant resides or has the Administrator’s principal place of business, and the court shall have jurisdiction to assess a civil penalty. In determining the amount of any civil penalty to be assessed under this subsection, the court shall take into account the gravity of the violation, the economic benefit or savings (if any) resulting from the violation, the size of the violator’s business, the violator’s history of compliance with this subchapter, action taken to remedy the violation, the effect of the penalty on the violator’s ability to continue in business, and such other matters as justice may require. In any such action, subpoenas for witnesses who are required to attend a district court in any district may run into any other district.

(c) Administrative assessment of certain penalties
(1) Administrative penalty authority

In lieu of commencing a civil action under subsection (b) of this section, the Administrator may assess any civil penalty prescribed in subsection (a) of this section, section 7545(d) of this title, or section 7547(d) of this title, except that the maximum amount of penalty sought against each violator in a penalty assessment proceeding shall not exceed $200,000, unless the Administrator and the Attorney General jointly determine that a matter involving a larger penalty amount is appropriate for administrative penalty assessment. Any such determination by the Administrator and the Attorney General shall not be subject to judicial review. Assessment of a civil penalty under this subsection shall be by an order made on the record after opportunity for a hearing in accordance with sections 554 and 556 of title 5. The Administrator shall issue reasonable rules for discovery and other procedures for hearings under this paragraph. Before issuing such an order, the Administrator shall give written notice to the person to be assessed an administrative penalty of the Administrator’s proposal to issue such order and provide such person an opportunity to request such a hearing on the order, within 30 days of the date the notice is received by such person. The Administrator may compromise, or remit, with or without conditions, any administrative penalty which may be imposed under this section.

(2) Determining amount

In determining the amount of any civil penalty assessed under this subsection, the Administrator shall take into account the gravity of the violation, the economic benefit or savings (if any) resulting from the violation, the size of the violator’s business, the violator’s history of compliance with this subchapter, action taken to remedy the violation, the effect of the penalty on the violator’s ability to continue in business, and such other matters as justice may require.

(3) Effect of Administrator’s action

(A) Action by the Administrator under this subsection shall not affect or limit the Administrator’s authority to enforce any provision of this chapter; except that any violation, (i) with respect to which the Administrator has commenced and is diligently prosecuting an action under this subsection, or

(ii) for which the Administrator has issued a final order not subject to further judicial review and the violator has paid a penalty assessment under this subsection,

shall not be the subject of civil penalty action under subsection (b) of this section.

(B) No action by the Administrator under this subsection shall affect any person’s obligation to comply with any section of this chapter.

(4) Finality of order

An order issued under this subsection shall become final 30 days after its issuance unless a petition for judicial review is filed under paragraph (5).

(5) Judicial review

Any person against whom a civil penalty is assessed in accordance with this subsection may seek review of the assessment in the United States District Court for the District of Columbia, or for the district in which the violation is alleged to have occurred, in which such person resides, or where such person’s principal place of business is located, within the 30-day period beginning on the date a civil penalty order is issued. Such person shall simultaneously send a copy of the filing by certified mail to the Administrator and the Attorney General. The Administrator shall file in the court a certified copy, or certified index, as appropriate, of the record on which the order was issued within 30 days. The court shall not set aside or remand any order issued in accordance with the requirements of this subsection unless there is not substantial evidence in the record, taken as a whole, to support the finding of a violation or unless the Administrator’s assessment of the penalty constitutes an abuse of discretion, and the court shall not impose additional civil penalties unless the Administrator’s assessment of the penalty constitutes an abuse of discretion. In any proceedings, the United States may seek to recover civil penalties assessed under this section.

(6) Collection

If any person fails to pay an assessment of a civil penalty imposed by the Administrator as provided in this subsection—

(A) after the order making the assessment has become final, or

(B) after a court in an action brought under paragraph (5) has entered a final judgment in favor of the Administrator,

the Administrator shall request the Attorney General to bring a civil action in an appropriate district court to recover the amount assessed (plus interest at rates established pursuant to section 6621(a)(2) of title 26 from the date of the final order or the date of the final judgment, as the case may be). In such an action, the validity, amount, and appropriateness of the penalty shall not be subject to review. Any person who fails to pay on a timely basis the amount of an assessment of a civil
penalty as described in the first sentence of this paragraph shall be required to pay, in addition to that amount and interest, the United States' enforcement expenses, including attorneys fees and costs for collection proceedings, and a quarterly nonpayment penalty for each quarter during which such failure to pay persists. The nonpayment penalty shall be in an amount equal to 10 percent of the aggregate amount of that person's penalties and nonpayment penalties which are unpaid as of the beginning of such quarter.

CODIFICATION
Section was formerly classified to section 1857f–4 of this title.

AMENDMENTS
1990—Pub. L. 101–549 amended section generally. Prior to amendment, section read as follows: “Any person who violates paragraph (1), (2), or (4) of section 7522(a) of this title or any manufacturer, dealer, or other person who violates paragraph (3)(A) of section 7522(a) of this title shall be subject to a civil penalty of not more than $10,000. Any person who violates paragraph (3)(B) of such section 7522(a) shall be subject to a civil penalty of not more than $2,500. Any such violation with respect to paragraph (1), (3), or (4) of section 7522(a) of this title shall constitute a separate offense with respect to each motor vehicle or motor vehicle engine.

1977—Pub. L. 95–95 substituted “Any person who violates paragraph (1), (2), or (4) of section 7522(a) of this title, or any manufacturer, dealer, or other person who violates paragraph (3)(A) of section 7522(a) of this title” for “Any person who violates paragraph (1), (2), or (3), or (4) of section 7522(a) of this title” in provisions covering the civil penalty of $10,000, and inserted provisions for a civil penalty of not more than $2,500 for violations of par. (3)(B) of section 7522(a) of this title.

1970—Pub. L. 91–604 increased the upper limit of the allowable fine from “$1,000” to “$10,000”.

EFFECTIVE DATE OF 1977 AMENDMENT
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

§7525. Motor vehicle and motor vehicle engine compliance testing and certification
(a) Testing and issuance of certificate of conformity
(1) The Administrator shall test, or require to be tested in such manner as he deems appropriate, any new motor vehicle or new motor vehicle engine submitted by a manufacturer to determine whether such vehicle or engine conforms with the regulations prescribed under section 7521 of this title. If such vehicle or engine conforms to such regulations, the Administrator shall issue a certificate of conformity upon such terms, and for such period (not in excess of one year), as he may prescribe. In the case of any original equipment manufacturer (as defined by the Administrator in regulations promulgated before November 15, 1990) of vehicles or vehicle engines whose projected sales in the United States for any model year (as determined by the Administrator) will not exceed 300, the Administrator shall not require, for purposes of determining compliance with regulations under section 7521 of this title for the useful life of the vehicle or engine, operation of any vehicle or engine manufactured during such model year for more than 5,000 miles or 160 hours, respectively, unless the Administrator, by regulation, prescribes otherwise. The Administrator shall apply any adjustment factors that the Administrator deems appropriate to assure that each vehicle or engine will comply during its useful life (as determined under section 7521(d) of this title) with the regulations prescribed under section 7521 of this title.

(2) The Administrator shall test any emission control system incorporated in a motor vehicle or motor vehicle engine submitted to him by any person, in order to determine whether such system enables such vehicle or engine to conform to the standards required to be prescribed under section 7521(b) of this title. If the Administrator finds on the basis of such tests that such vehicle or engine conforms to such standards, the Administrator shall issue a verification of compliance with emission standards for such system when incorporated in vehicles of a class of which the tested vehicle is representative. He shall inform manufacturers and the National Academy of Sciences, and make available to the public, the results of such tests. Tests under this paragraph shall be conducted under such terms and conditions (including requirements for preliminary testing by qualified independent laboratories) as the Administrator may prescribe by regulations.

(3)(A) A certificate of conformity may be issued under this section only if the Administrator determines that the manufacturer (or in the case of a vehicle or engine for import, any person) has established to the satisfaction of the Administrator that any emission control device, system, or element of design installed on, or incorporated in, such vehicle or engine conforms to applicable requirements of section 7521(a)(4) of this title.

(B) The Administrator may conduct such tests and may require the manufacturer (or any such person) to conduct such tests and provide such information as is necessary to carry out subparagraph (A) of this paragraph. Such requirements shall include a requirement for prompt reporting of the emission of any unregulated pollutant from a system, device, or element of design if such pollutant was not emitted, or was emitted in significantly lesser amounts, from the vehicle or engine without use of the system, device, or element of design.

(4)(A) Not later than 12 months after November 15, 1990, the Administrator shall revise the regulations promulgated under this subsection to add test procedures capable of determining whether model year 1994 and later model year light-duty vehicles and light-duty trucks, when properly maintained and used, will pass the inspection methods and procedures established under section 7541(b) of this title for that model
year, under conditions reasonably likely to be encountered in the conduct of inspection and maintenance programs, but which those programs cannot reasonably influence or control. The conditions shall include fuel characteristics, ambient temperature, and short (30 minutes or less) waiting periods before tests are conducted. The Administrator shall not grant a certificate of conformity under this subsection for any 1994 or later model year vehicle or engine that the Administrator concludes cannot pass the test procedures established under this paragraph.

(B) From time to time, the Administrator may revise the regulations promulgated under subparagraph (A), as the Administrator deems appropriate.

(b) Testing procedures; hearing; judicial review; additional evidence

(1) In order to determine whether new motor vehicles or new motor vehicle engines being manufactured by a manufacturer do in fact conform with the regulations with respect to which the certificate of conformity was issued, the Administrator is authorized to test such vehicles or engines. Such tests may be conducted by the Administrator directly or, in accordance with conditions specified by the Administrator, by the manufacturer.

(2)(A)(i) If, based on tests conducted under paragraph (1) on a sample of new vehicles or engines covered by a certificate of conformity, the Administrator determines that all or part of the vehicles or engines so covered do not conform with the regulations with respect to which the certificate of conformity was issued and with the requirements of section 7521(a)(4) of this title, he may suspend or revoke such certificate in whole or in part, and shall so notify the manufacturer. Such suspension or revocation shall apply in the case of any new motor vehicles or new motor vehicle engines manufactured after the date of such notification (or manufactured before such date if still in the hands of the manufacturer), and shall apply until such time as the Administrator finds that vehicles and engines manufactured by the manufacturer do conform to such regulations and requirements. If, during any period of suspension or revocation, the Administrator finds that a vehicle or engine actually conforms to such regulations and requirements, he shall issue a certificate of conformity applicable to such vehicle or engine.

(ii) If, based on tests conducted under paragraph (1) on any new vehicle or engine, the Administrator determines that such vehicle or engine does not conform with such regulations and requirements, he may suspend or revoke such certificate insofar as it applies to such vehicle or engine until such time as he finds such vehicle or engine actually so conforms with such regulations and requirements, and he shall so notify the manufacturer.

(B)(i) At the request of any manufacturer the Administrator shall grant such manufacturer a hearing as to whether the tests have been properly conducted or any sampling methods have been properly applied, and make a determination on the record with respect to any suspension or revocation under subparagraph (A); but suspension or revocation under subparagraph (A) shall not be stayed by reason of such hearing.

(ii) In any case of actual controversy as to the validity of any determination under clause (i), the manufacturer may at any time prior to the 60th day after such determination is made file a petition with the United States court of appeals for the circuit wherein such manufacturer resides or has his principal place of business for a judicial review of such determination. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Administrator or other officer designated by him for that purpose. The Administrator thereupon shall file in the court the record of the proceedings on which the Administrator based his determination, as provided in section 2112 of title 28.

(iii) If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Administrator, the court may order such additional evidence (and evidence in rebuttal thereof) to be taken before the Administrator, in such manner and upon such terms and conditions as the court may deem proper. The Administrator may modify his findings as to the facts, or make new findings, by reason of the additional evidence so taken and he shall file such modified or new findings, and his recommendation, if any, for the modification or setting aside of his original determination, with the return of such additional evidence.

(iv) Upon the filing of the petition referred to in clause (ii), the court shall have jurisdiction to review the order in accordance with chapter 7 of title 5 and to grant appropriate relief as provided in such chapter.

(c) Inspection

For purposes of enforcement of this section, officers or employees duly designated by the Administrator, upon presenting appropriate credentials to the manufacturer or person in charge, are authorized (1) to enter, at reasonable times, any plant or other establishment of such manufacturer, for the purpose of conducting tests of vehicles or engines in the hands of the manufacturer, or (2) to inspect, at reasonable times, records, files, papers, processes, controls, and facilities used by such manufacturer in conducting tests under regulations of the Administrator. Each such inspection shall be commenced and completed with reasonable promptness.

(d) Rules and regulations

The Administrator shall by regulation establish methods and procedures for making tests under this section.

(e) Publication of test results

The Administrator shall make available to the public the results of his tests of any motor vehicle or motor vehicle engine submitted by a manufacturer under subsection (a) of this section as promptly as possible after December 31, 1970, and at the beginning of each model year which begins thereafter. Such results shall be described in such nontechnical manner as will rea-
reasonably disclose to prospective ultimate purchasers of new motor vehicles and new motor vehicle engines the comparative performance of the vehicles and engines tested in meeting the standards prescribed under section 7521 of this title.

(f) High altitude regulations

All light duty vehicles and engines manufactured during or after model year 1984 and all light-duty trucks manufactured during or after model year 1995 shall comply with the requirements of section 7521 of this title regardless of the altitude at which they are sold.

(g) Nonconformance penalty

(1) In the case of any class or category of heavy-duty vehicles or engines to which a standard promulgated under section 7521(a) of this title applies, except as provided in paragraph (2), a certificate of conformity shall be issued under subsection (a) of this section and shall not be suspended or revoked under subsection (b) of this section for such vehicles or engines manufactured by a manufacturer notwithstanding the failure of such vehicles or engines to meet such standard if such manufacturer pays a non-conformance penalty as provided under regulations promulgated by the Administrator to be practicable. Such regulations shall require such penalties in amounts determined under a formula established by the Administrator.

(2) No certificate of conformity may be issued under paragraph (1) with respect to any class or category of vehicle or engine if the degree by which the manufacturer fails to meet any standard promulgated under section 7521(a) of this title with respect to such class or category exceeds the percentage determined under regulations promulgated by the Administrator to be practicable. Such regulations shall require such testing of vehicles or engines being produced as may be necessary to determine the percentage of the classes or categories of vehicles or engines which are not in compliance with the regulations with respect to which a certificate of conformity was issued and shall be promulgated not later than one year after August 7, 1977.

(3) The regulations promulgated under paragraph (1) shall, not later than one year after August 7, 1977, provide for nonconformance penalties in amounts determined under a formula established by the Administrator. Such penalties under such formula—

(A) may vary from pollutant-to-pollutant;

(B) may vary by class or category of vehicle or engine;

(C) shall take into account the extent to which actual emissions of any air pollutant exceed allowable emissions under the standards promulgated under section 7521 of this title;

(D) shall be increased periodically in order to create incentives for the development of production vehicles or engines which achieve the required degree of emission reduction; and

(E) shall remove any competitive disadvantage to manufacturers whose engines or vehicles achieve the required degree of emission reduction (including any such disadvantage arising from the application of paragraph (4)).

(4) In any case in which a certificate of conformity has been issued under this subsection, any warranty required under section 7541(b)(2) of this title and any action under section 7541(c) of this title shall be required to be effective only for the emission levels which the Administrator determines that such certificate was issued and not for the emission levels required under the applicable standard.

(5) The authorities of section 7542(a) of this title shall apply, subject to the conditions of section 7542(b) of this title, for purposes of this subsection.

(h) Review and revision of regulations

Within 18 months after November 15, 1990, the Administrator shall review and revise as necessary the regulations under subsection (a) and (b) of this section regarding the testing of motor vehicles and motor vehicle engines to insure that vehicles are tested under circumstances which reflect the actual current driving conditions under which motor vehicles are used, including conditions relating to fuel, temperature, acceleration, and altitude.

References in Text

Section 7542 of this title, referred to in subsec. (g)(5), was amended generally by Pub. L. 101–549, title II, §211, Nov. 15, 1990, 104 Stat. 2487, and provisions formerly contained in section 7542(b) of this title are contained in section 7542(c).

Conformity

Section was formerly classified to section 1857f–5 of this title.

Prior Provisions

A prior section 206 of act July 14, 1955, related to testing of motor vehicles and motor vehicle engines and was classified to section 1857f–5 of this title, prior to repeal by Pub. L. 91–604.

Amendments

1990—Subsec. (a)(1). Pub. L. 101–549, §1208(b), inserted new third sentence and struck out former third sentence which read as follows: “In the case of any manufacturer of vehicles or vehicle engines whose project sales in the United States for any model year (as determined by the Administrator) will not exceed three hundred, the regulations prescribed by the Administrator concerning testing by the manufacturer for purposes of determining compliance with regulations under section 7521 of this title for the useful life of the vehicle or engine shall not require operation of any vehicle or engine manufactured during such model year for more than five thousand miles or one hundred and sixty hours, respectively, but the Administrator shall apply such adjustment factors as he deems appropriate to assure that each such vehicle or engine will comply dur-
ing its useful life (as determined under section 7521(d) of this title) with the regulations prescribed under section 7521 of this title.\(^1\)

Subsec. (e). Pub. L. 101–549, § 220(c), struck out "certain in the Federal Register and" after "The Administrator shall\.

Subsec. (f). Pub. L. 101–549, § 220(b), struck out par. (1) designation before "All light duty vehicles", inserted reference to all light-duty trucks manufactured during or after model year 1985, and struck out par. (2) which required the Administrator to report to Congress by Oct. 1, 1978, on the economic impact and technological feasibility of the requirements of former par. (1).

Subsec. (i). Pub. L. 95–95, § 229, inserted provisions covering testing by small manufacturers.

Subsec. (a)(3). Pub. L. 95–95, § 214(b), added par. (3).

Subsec. (b)(2)(A)(i). Pub. L. 95–95, § 214(c)(1), (2), substituted "certificate of conformity was issued and with the requirements of section 7521(a)(4) of this title, he may suspend" for "certificate of conformity was issued, he may suspend" and "such regulations and requirements" for "such regulations".

Subsec. (b)(2)(A)(ii). Pub. L. 95–95, § 214(c)(2), substituted "such regulations and requirements" for "such regulations".

Subsec. (g). Pub. L. 95–95, § 224(e), added subsec. (g).

Subsec. (g)(3)(D). Pub. L. 95–190 inserted "shall before", before "be".

**Effective Date of 1977 Amendment**

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

**Effective Date**

Section 8(b) of Pub. L. 91–604 provided that: "The amendments made by the section (enacting this section and section 7541 of this title) shall not apply to vehicles or engines imported into the United States before the sixtieth day after the date of enactment of this Act [Dec. 31, 1970]."

**Modification or rescission of rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, and other actions**

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 11, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 11, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

**§ 7541. Compliance by vehicles and engines in actual use**

(a) Warranty; certification; payment of replacement costs of parts, devices, or components designed for emission control

(1) Effective with respect to vehicles and engines manufactured in model years beginning more than 60 days after December 31, 1970, the manufacturer of each new motor vehicle and new motor vehicle engine shall warrant to the ultimate purchaser and each subsequent purchaser that such vehicle or engine is (A) designed, built, and equipped so as to conform at the time of sale with applicable regulations under section 7521 of this title, and (B) free from defects in materials and workmanship which cause such vehicle or engine to fail to conform with applicable regulations for its useful life (as determined under section 7521(d) of this title). In the case of vehicles and engines manufactured in the model year 1995 and thereafter such warranty shall require that the vehicle or engine is free from any such defects for the warranty period provided under subsection (i) of this section.

(2) In the case of a motor vehicle part or motor vehicle engine part, the manufacturer or rebuilder of such part may certify that use of such part will not result in a failure of the vehicle or engine to comply with emission standards promulgated under section 7521 of this title. Such certification shall be made only under such regulations as may be promulgated by the Administrator to carry out the purposes of subsection (b) of this section. The Administrator shall promulgate such regulations no later than two years following August 7, 1977.

(3) The cost of any part, device, or component of any light-duty vehicle that is designed for emission control and which in the instructions issued pursuant to subsection (c)(3) of this section is scheduled for replacement during the useful life of the vehicle in order to maintain compliance with regulations under section 7521 of this title, the failure of which shall not interfere with the normal performance of the vehicle, and the expected retail price of which, including installation costs, is greater than 2 percent of the suggested retail price of such vehicle, shall be borne or reimbursed at the time of replacement by the vehicle manufacturer and such replacement shall be provided without cost to the ultimate purchaser, subsequent purchaser, or dealer. The term "designed for emission control" as used in the preceding sentence means a catalytic converter, thermal reactor, or other component installed on or in a vehicle for the sole or primary purpose of reducing vehicle emissions (not including those vehicle components which were in general use prior to model year 1968 and the primary function of which is not related to emission control).

(b) Testing methods and procedures

If the Administrator determines that (i) there are available testing methods and procedures to ascertain whether, when in actual use throughout its\(^1\) the warranty period (as determined under subsection (i) of this section), each vehicle and engine to which regulations under section 7521 of this title apply complies with the emission standards of such regulations, (ii) such methods and procedures are in accordance with good engineering practices, and (iii) such methods and procedures are reasonably capable of being correlated with tests conducted under section 7521 of this title, then—

(1) he shall establish such methods and procedures by regulation, and

(2) at such time as he determines that inspection facilities or equipment are available for purposes of carrying out testing methods and procedures established under paragraph

\(^1\)So in original. The word "its" probably should not appear.
§ 7541  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6370

(1), he shall prescribe regulations which shall require manufacturers to warrant the emission control device or system of each new motor vehicle or new motor vehicle engine to which a regulation under section 7521 of this title applies and which is manufactured in a model year beginning after the Administrator first prescribes warranty regulations under this paragraph (2). The warranty under such regulations shall run to the ultimate purchaser and each subsequent purchaser and shall provide that—

(A) the vehicle or engine is maintained and operated in accordance with instructions under subsection (c)(3) of this section,

(B) it fails to conform at any time during its 

the warranty period (as determined under subsection (i) of this section) to the regulations prescribed under section 7521 of this title, and

(C) such nonconformity results in the ultimate purchaser (or any subsequent purchaser) of such vehicle or engine having to bear any penalty or other sanction (including the denial of the right to use such vehicle or engine) under State or Federal laws, then such manufacturer shall remedy such nonconformity under such warranty with the cost thereof to be borne by the manufacturer. No such warranty shall be invalid on the basis of any part used in the maintenance or repair of a vehicle or engine if such part was certified as provided under subsection (a)(2) of this section.

(c) Nonconforming vehicles; plan for remedying nonconformity; instructions for maintenance and use; label or tag

Effective with respect to vehicles and engines manufactured during model years beginning more than 60 days after December 31, 1970—

(1) If the Administrator determines that a substantial number of any class or category of vehicles or engines, although properly maintained and used, do not conform to the regulations prescribed under section 7521 of this title, when in actual use throughout their useful life (as determined under section 7521(d) of this title), he shall immediately notify the manufacturer thereof of such nonconformity, and he shall require the manufacturer to submit a plan for remedying the nonconformity of the vehicles or engines with respect to which such notification is given. The plan shall provide that the nonconformity of any such vehicles or engines which are properly used and maintained will be remedied at the expense of the manufacturer. If the manufacturer disagrees with such determination of nonconformity and so advises the Administrator, the Administrator shall afford the manufacturer and other interested persons an opportunity to present their views and evidence in support thereof at a public hearing. Unless, as a result of such hearing the Administrator withdraws such determination of nonconformity, he shall, within 60 days after the completion of such hearing, order the manufacturer to provide prompt notification of such nonconformity in accordance with paragraph (2).

(2) Any notification required by paragraph (1) with respect to any class or category of vehicles or engines shall be given to dealers, ultimate purchasers, and subsequent purchasers (if known) in such manner and containing such information as the Administrator may by regulations require.

(5)(A) The manufacturer shall furnish with each new motor vehicle or motor vehicle engine written instructions for the proper maintenance and use of the vehicle or engine by the ultimate purchaser and such instructions shall correspond to regulations which the Administrator shall promulgate. The manufacturer shall provide in boldface type on the first page of the written maintenance instructions notice that maintenance, replacement, or repair of the emission control devices and systems may be performed by any automotive repair establishment or individual using any automotive part which has been certified as provided in subsection (a)(2) of this section.

(B) The instruction under subparagraph (A) of this paragraph shall not include any condition on the ultimate purchaser's using, in connection with such vehicle or engine, any component or service (other than a component or service provided without charge under the terms of the purchase agreement) which is identified by brand, trade, or corporate name; or directly or indirectly distinguishing between service performed by the franchised dealers of such manufacturer or any other service establishments with which such manufacturer has a commercial relationship, and service performed by independent automotive repair facilities with which such manufacturer has no commercial relationship; except that the prohibition of this subsection may be waived by the Administrator if—

(i) the manufacturer satisfies the Administrator that the vehicle or engine will function properly if the component or service so identified is used in connection with such vehicle or engine, and

(ii) the Administrator finds that such a waiver is in the public interest.

(C) In addition, the manufacturer shall indicate by means of a label or tag permanently affixed to such vehicle or engine that such vehicle or engine is covered by a certificate of conformity issued for the purpose of assuring achievement of emissions standards prescribed under section 7521 of this title. Such label or tag shall contain such other information relating to control of motor vehicle emissions as the Administrator shall prescribe by regulation.

(4) Intermediate in-use standards.—

(A) Model years 1994 and 1995.—For light-duty trucks of up to 6,000 lbs. gross vehicle weight rating (GVWR) and light-duty vehicles which are subject to standards under table G of section 7521(g)(1) of this title in model years 1994 and 1995 (40 percent of the manufacturer's sales volume in model year 1994 and 80 percent in model year 1995), the standards applicable to NMHC, CO, and NOx, for purposes of this subsection shall be those set forth in table A below in lieu of the standards for such air pollutants otherwise applicable under this subchapter.
of standards applicable for purposes of certification at 100,000 miles, except that no testing shall be done beyond 7 years or 75,000 miles, or the equivalent whichever first occurs.

(B) After the model year 1997, for purposes of applying this subsection, in the case of the percentage specified in the implementation schedule below of each manufacturer’s sales volume of light-duty trucks of more than 6,000 lbs. gross vehicle weight rating (GVWR), the standards for NMHC, CO, and NOx shall be as provided in Table H in section 7521(h) of this title, except that in applying the standards set forth in Table H for purposes of determining compliance with this subsection, the applicable useful life shall be (i) 5 years or 50,000 miles (or the equivalent) whichever first occurs in the case of standards applicable for purposes of certification at 50,000 miles; and (ii) 11 years or 120,000 miles (or the equivalent), whichever first occurs in the case of standards applicable for purposes of certification at 120,000 miles, except that no testing shall be done beyond 7 years or 90,000 miles (or the equivalent) whichever first occurs.

(6) Diesel vehicles; in-use useful life and testing.—(A) In the case of diesel-fueled light-duty trucks of 6,000 lbs. GVWR and light-duty vehicles, the useful life for purposes of determining in-use compliance with the standards under section 7521(g) of this title for NOx shall be a period of 10 years or 100,000 miles (or the equivalent), whichever first occurs, in the case of standards applicable for purposes of certification at 100,000 miles, except that testing shall not be done for a period beyond 7 years or 75,000 miles (or the equivalent) whichever first occurs.

(d) Dealer costs borne by manufacturer
Any cost obligation of any dealer incurred as a result of any requirement imposed by sub-

So in original. Probably should be “light-duty”.
(i) Warranty period

(1) In general

For purposes of subsection (a)(1) of this section and subsection (b) of this section, the warranty period, effective with respect to new light-duty trucks and new light-duty vehicles and engines, manufactured in the model year 1995 and thereafter, shall be the first 2 years or 24,000 miles of use (whichever first occurs), except as provided in paragraph (2). For purposes of subsection (a)(1) of this section and subsection (b) of this section, for other vehicles and engines the warranty period shall be the period established by the Administrator by regulation (promulgated prior to November 15, 1995) for such purposes unless the Administrator subsequently modifies such regulation.

(2) Specified major emission control components

In the case of a specified major emission control component, the warranty period for new light-duty trucks and new light-duty vehicles and engines manufactured in the model year 1995 and thereafter for purposes of subsection (a)(1) of this section and subsection (b) of this section shall be 8 years or 80,000 miles of use (whichever first occurs). As used in this paragraph, the term "specified major emission control component" means only a catalytic converter, an electronic emissions control unit, and an onboard emissions diagnostic device, except that the Administrator may designate any other pollution control device or component as a specified major emission control component if—

(A) the device or component was not in general use on vehicles and engines manufactured prior to the model year 1990; and

(B) the Administrator determines that the retail cost (exclusive of installation costs) of such device or component exceeds $200 (in 1989 dollars), adjusted for inflation or deflation as calculated by the Administrator at the time of such determination.

For purposes of this paragraph, the term "on-board emissions diagnostic device" means any device installed for the purpose of storing or processing emissions related diagnostic information, but not including any parts or other systems which it monitors except specified major emissions control components. Nothing in this chapter shall be construed to provide that any part (other than a part referred to in the preceding sentence) shall be required to be warranted under this chapter for the period of 8 years or 80,000 miles referred to in this paragraph.

(3) Instructions

Subparagraph (A) of subsection (b)(2) of this section shall apply only where the Administrator has made a determination that the instructions concerned conform to the requirements of subsection (c)(3) of this section.

---

3 So in original. The second closing parenthesis probably should not appear.

Codification
Section was formerly classified to section 187f-5a of this title.

Prior Provisions
A prior section 207 of act July 14, 1955, was renumbered section 208 by Pub. L. 91–604 and is classified to section 7542 of this title.

Amendments
1990—Subsec. (a)(1). Pub. L. 101–549, §209(4), inserted at end “in the case of vehicles and engines manufactured in the model year 1995 and thereafter such warranty shall require that the vehicle or engine is free from any such defects for the warranty period provided under subsection (i) of this section.”

Subsec. (b). Pub. L. 101–549, §209(1), (2), substituted “the warranty period (as determined under subsection (i) of this section)” for “useful life (as determined under section 7521(d) of this title)” in introductory provisions and par. (2)(b), and struck out closing provisions which read as follows: “For purposes of the warranty under this subsection, for the period after twenty-four months or twenty-four thousand miles (whichever first occurs) the term ‘emission control device or system’ means a catalytic converter, thermal reactor, or other component installed on or in a vehicle for the sole or primary purpose of reducing vehicle emissions. Such term shall not include those vehicle components which were in general use prior to model year 1968.”

Subsec. (c)(4) to (6). Pub. L. 101–549, §210, added pars. (4) to (6).

Subsec. (g). Pub. L. 101–549, §230(9), substituted “the last three sentences of subsection (a)(3) of this section” for “the last three sentences of subsection (a)(1) of this section”.

vulge methods or processes entitled to protection as trade secrets of that person, the Administrator shall consider the record, report, or information or particular portion thereof confidential in accordance with the purposes of section 1905 of title 18. Any authorized representative of the Administrator shall be considered an employee of the United States for purposes of section 1905 of title 18. Nothing in this section shall prohibit the Administrator or authorized representative of the Administrator from disclosing records, reports or information to other officers, employees or authorized representatives of the United States concerned with carrying out this chapter or when relevant in any proceeding under this chapter. Nothing in this section shall authorize the withholding of information by the Administrator or any officer or employee under the Administrator's control from the duly authorized committees of the Congress.

CODIFICATION
Section was formerly classified to section 1837f–6 of this title.

PRIOR PROVISIONS

AMENDMENTS
1990—Pub. L. 101–549 amended section generally, substituting present provisions for provisions which related to: in subsec. (a), manufacturer's responsibility; and in subsec. (b), availability to public except for trade secrets.

Subsec. (b). Pub. L. 91–604, §§10(a), 15(c)(2), substituted provisions authorizing the Administrator to make available to the public any records, reports, or information obtained under subsec. (a) of this section, except those shown to the Administrator to be entitled to protection as trade secrets, for provisions that all information reported or otherwise obtained by the Secretary or his representative pursuant to subsec. (a) of this section, which information contains or relates to a trade secret or other matter referred to in section 1905 of title 18, be considered confidential for the purpose of such section 1905, and substituted "Administrator" for "Secretary".

§ 7543. State standards
(a) Prohibition
No State or any political subdivision thereof shall adopt or attempt to enforce any standard relating to the control of emissions from new motor vehicles or new motor vehicle engines subject to this part. No State shall require certification, inspection, or any other approval relating to the control of emissions from any new motor vehicle or new motor vehicle engine as condition precedent to the initial retail sale, titling (if any), or registration of such motor vehicle, motor vehicle engine, or equipment.

(b) Waiver
(1) The Administrator shall, after notice and opportunity for public hearing, waive application of this section to any State which has adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines prior to March 30, 1966, if the State determines that the State standards will be, in the aggregate, at least as protective of public health and welfare as applicable Federal standards. No such waiver shall be granted if the Administrator finds that—
(A) the determination of the State is arbitrary and capricious,
(B) such State does not need such State standards to meet compelling and extraordinary conditions, or
(C) such State standards and accompanying enforcement procedures are not consistent with section 7521(a) of this title.

(2) If each State standard is at least as stringent as the comparable applicable Federal standard, such State standard shall be deemed to be at least as protective of health and welfare as such Federal standards for purposes of paragraph (1).

(3) In the case of any new motor vehicle or new motor vehicle engine to which State standards apply pursuant to a waiver granted under paragraph (1), compliance with such State standards shall be treated as compliance with applicable Federal standards for purposes of this subchapter.

(c) Certification of vehicle parts or engine parts
Whenever a regulation with respect to any motor vehicle part or motor vehicle engine part is in effect under section 7541(a)(2) of this title, no State or political subdivision thereof shall adopt or attempt to enforce any standard or any requirement of certification, inspection, or approval which relates to motor vehicle emissions and is applicable to the same aspect of such part. The preceding sentence shall not apply in the case of a State with respect to which a waiver is in effect under subsection (b) of this section.

(d) Control, regulation, or restrictions on registered or licensed motor vehicles
Nothing in this part shall preclude or deny to any State or political subdivision thereof the right otherwise to control, regulate, or restrict the use, operation, or movement of registered or licensed motor vehicles.

(e) Nonroad engines or vehicles
(1) Prohibition on certain State standards
No State or any political subdivision thereof shall adopt or attempt to enforce any standard or other requirement relating to the control of
emissions from either of the following new nonroad engines or nonroad vehicles subject to regulation under this chapter—

(A) New engines which are used in construction equipment or vehicles or used in farm equipment or vehicles and which are smaller than 175 horsepower;

(B) New locomotives or new engines used in locomotives.

Subsection (b) of this section shall not apply for purposes of this paragraph.

(2) Other nonroad engines or vehicles

(A) In the case of any nonroad vehicles or engines other than those referred to in subparagraph (A) or (B) of paragraph (1), the Administrator shall, after notice and opportunity for public hearing, authorize California to adopt and enforce standards and other requirements relating to the control of emissions from such vehicles or engines if California determines that California standards will be, in the aggregate, at least as protective of public health and welfare as applicable Federal standards. No such authorization shall be granted if the Administrator finds that—

(i) the determination of California is arbitrary and capricious;

(ii) California does not need such California standards to meet compelling and extraordinary conditions, or

(iii) California standards and accompanying enforcement procedures are not consistent with this section.

(B) Any State other than California which has plan provisions approved under part D of this title may adopt enforce standards, after notice to the Administrator, for any period, standards relating to control of emissions from nonroad vehicles or engines (other than those referred to in subparagraph (A) or (B) of paragraph (1)) and take such other actions as are referred to in subparagraph (A) of this paragraph respecting such vehicles or engines if—

(i) such standards and implementation and enforcement are identical, for the period concerned, to the California standards authorized by the Administrator under subparagraph (A), and

(ii) California and such State adopt such standards at least 2 years before commencement of the period for which the standards take effect.

The Administrator shall issue regulations to implement this subsection.

(1970—Subsec. (a). Pub. L. 91–604, § 8(a), 11(a)(2), substituted ‘‘March 30, 1966, if the State determines that the State standards will be, in the aggregate, at least as protective of public health and welfare as applicable Federal standards’’ for ‘‘March 30, 1966, unless he finds that such State does not require standards more stringent than applicable Federal standards to meet compelling and extraordinary conditions or that such State standards and accompanying enforcement procedures are not consistent with section 7521(a) of this title’’, added subpars. (A), (B), and (C), and added pars. (2) and (3).

Subsecs. (c), (d), Pub. L. 95–95, § 221, added subsec. (c) and redesignated former subsec. (c) as (d).

Subsec. (b), Pub. L. 91–604, § 15(c)(2), substituted ‘‘Administrator’’ for ‘‘Secretary’’.

Subsec. (c), Pub. L. 91–604, § 11(a)(2), substituted ‘‘part’’ for ‘‘subchapter’’.

Effective Date of 1977 Amendment

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

Modification or Rescission of Rules, Regulations, Orders, Determinations, Contracts, Certifications, Authorizations, Delegations, and Other Actions

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7544. State grants

The Administrator is authorized to make grants to appropriate State agencies in an amount up to two-thirds of the cost of developing and maintaining effective vehicle emission devices and systems inspection and emission testing and control programs, except that—

(1) no such grant shall be made for any part of any State vehicle inspection program which does not directly relate to the cost of the air pollution control aspects of such a program;

(2) no such grant shall be made unless the Secretary of Transportation has certified to the Administrator that such program is consistent with any highway safety program developed pursuant to section 402 of title 23; and

(3) no such grant shall be made unless the program includes provisions designed to ensure that emission control devices and systems on vehicles in actual use have not been discontinued or rendered inoperative.

Grants may be made under this section by way of reimbursement in any case in which amounts
have been expended by the State before the date on which any such grant was made.

CODIFICATION
Section was formerly classified to section 1857f–6b of this title.

PRIOR PROVISIONS
A prior section 210 of act July 14, 1955, was renumbered section 211 by Pub. L. 91–604 and is classified to section 7545 of this title.

AMENDMENTS
1977—Pub. L. 95–95 inserted provision allowing grants to be made by way of reimbursement in any case in which amounts have been expended by States before the date on which the grants were made.

1970—Pub. L. 91–604, §10(b), substituted provisions authorizing the Administrator to make grants to appropriate State agencies for the development and maintenance of effective vehicle emission devices and systems inspection and emission testing and control programs, for provisions authorizing the Secretary to make grants to appropriate State air pollution control agencies for the development of meaningful uniform motor vehicle emission device inspection and emission testing programs.

EFFECTIVE DATE OF 1977 AMENDMENT
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

§ 7545. Regulation of fuels
(a) Authority of Administrator to regulate
The Administrator may by regulation designate any fuel or fuel additive (including any fuel or fuel additive used exclusively in nonroad engines or nonroad vehicles) and, after such date or dates as may be prescribed by him, no manufacturer or processor of any such fuel or additive may sell, offer for sale, or introduce into commerce such fuel or additive unless the Administrator has registered such fuel or additive in accordance with subsection (b) of this section.

(b) Regulation requirement
(1) For the purpose of registration of fuels and fuel additives, the Administrator shall require—
(A) the manufacturer of any fuel to notify him as to the commercial identifying name and manufacturer of any additive contained in such fuel; the range of concentration of any additive in the fuel; and the purpose-in-use of any such additive; and
(B) the manufacturer of any additive to notify him as to the chemical composition of such additive.

(2) For the purpose of registration of fuels and fuel additives, the Administrator shall, on a regular basis, require the manufacturer of any fuel or fuel additive—
(A) to conduct tests to determine potential public health and environmental effects of the fuel or additive (including carcinogenic, teratogenic, or mutagenic effects); and

(B) to furnish the description of any analytical technique that can be used to detect and measure any additive in such fuel, the recommended range of concentration of such additive, and the recommended purpose-in-use of such additive, and such other information as is reasonable and necessary to determine the emissions resulting from the use of the fuel or additive contained in such fuel, the effect of such fuel or additive on the emission control performance of any vehicle, vehicle engine, nonroad engine or nonroad vehicle, or the extent to which such emissions affect the public health or welfare.

Tests under subparagraph (A) shall be conducted in conformity with test procedures and protocols established by the Administrator. The result of such tests shall not be considered confidential.

(3) Upon compliance with the provision of this subsection, including assurances that the Administrator will receive changes in the information required, the Administrator shall register such fuel or fuel additive.

(4) STUDY ON CERTAIN FUEL ADDITIVES AND BLENDSTOCKS.—
(A) IN GENERAL.—Not later than 2 years after August 8, 2005, the Administrator shall—
(i) conduct a study on the effects on public health (including the effects on children, pregnant women, minority or low-income communities, and other sensitive populations), air quality, and water resources of increased use of, and the feasibility of using as substitutes for methyl tertiary butyl ether in gasoline—
(1) ethyl tertiary butyl ether;
(II) tertiary amyl methyl ether;
(III) di-isopropyl ether;
(IV) tertiary butyl alcohol;
(V) other ethers and heavy alcohols, as determined by then the Administrator;
(VI) ethanol;
(VII) iso-octane; and
(VIII) alkylates; and
(ii) conduct a study on the effects on public health (including the effects on children, pregnant women, minority or low-income communities, and other sensitive populations), air quality, and water resources of the adjustment for ethanol-blended reformulated gasoline to the volatile organic compounds performance requirements that are applicable under paragraphs (1) and (3) of subsection (k) of this section; and
(iii) submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the results of the studies under clauses (i) and (ii).

(B) CONTRACTS FOR STUDY.—In carrying out this paragraph, the Administrator may enter into one or more contracts with nongovernmental entities such as—
(i) the national energy laboratories; and
(ii) institutions of higher education (as defined in section 1001 of title 20).

1 So in original. Probably should be ‘‘the’’. 
(c) Offending fuels and fuel additives; control; prohibition

(1) The Administrator may, from time to time on the basis of information obtained under subsection (b) of this section or other information available to him, by regulation, control or prohibit, manufacture, introduction into commerce, offering for sale, sale of any fuel or fuel additive for use in a motor vehicle, motor vehicle engine, or nonroad engine or nonroad vehicle if, in the judgment of the Administrator, any fuel or fuel additive or any emission product of such fuel or additive causes, or contributes, to air pollution or water pollution (including any degradation in the quality of groundwater) that may reasonably be anticipated to endanger the public health or welfare, or (B) if emission products of such fuel or fuel additive will impair to a significant degree the performance of any emission control device or system which is in general use, or which the Administrator finds has been developed to a point where in a reasonable time it would be in general use were such regulation to be promulgated.

(2)(A) No fuel, class of fuels, or fuel additive may be controlled or prohibited by the Administrator pursuant to clause (A) of paragraph (1) except after consideration of all relevant medical and scientific evidence available to him, including consideration of other technologically or economically feasible means of achieving emission standards under section 7521 of this title.

(B) No fuel or fuel additive may be controlled or prohibited by the Administrator pursuant to clause (B) of paragraph (1) except after consideration of all relevant medical and scientific evidence available to him, including a cost benefit analysis comparing emission control devices or systems which are or will be in general use and require the proposed control or prohibition with emission control devices or systems which are or will be in general use and do not require the proposed control or prohibition. On request of a manufacturer of motor vehicles, motor vehicle engines, fuels, or fuel additives submitted within 10 days of notice of proposed rulemaking, the Administrator shall hold a public hearing and publish his findings with respect to any matter he is required to consider under this subparagraph. Such findings shall be published at the time of promulgation of final regulations.

(C) No fuel or fuel additive may be prohibited by the Administrator under paragraph (1) unless he finds, and publishes such finding, that in his judgment such prohibition will not cause the use of any other fuel or fuel additive which will produce emissions which will endanger the public health or welfare to the same or greater degree than the use of the fuel or fuel additive proposed to be prohibited.

(3)(A) For the purpose of obtaining evidence and data to carry out paragraph (2), the Administrator may require the manufacturer of any motor vehicle or motor vehicle engine to furnish any information which has been developed concerning the emissions from motor vehicles resulting from the use of any fuel or fuel additive, or the effect of such use on the performance of any emission control device or system.

(B) In obtaining information under subparagraph (A), section 7607(a) of this title (relating to subpoenas) shall be applicable.

(4)(A) Except as otherwise provided in subparagraph (B) or (C), no State (or political subdivision thereof) may prescribe an attempt to enforce, for purposes of motor vehicle emission control, any control or prohibition respecting any characteristic or component of a fuel or fuel additive in a motor vehicle or motor vehicle engine—

(i) if the Administrator has found that no control or prohibition of the characteristic or component of a fuel or fuel additive under paragraph (1) is necessary and has published his finding in the Federal Register, or

(ii) if the Administrator has prescribed under paragraph (1) a control or prohibition applicable to such characteristic or component of a fuel or fuel additive, unless State prohibition or control is identical to the prohibition or control prescribed by the Administrator.

(B) Any State for which application of section 7543(a) of this title has at any time been waived under section 7543(b) of this title may at any time prescribe and enforce, for the purpose of motor vehicle emission control, a control or prohibition respecting any fuel or fuel additive.

(C)(i) A State may prescribe and enforce, for purposes of motor vehicle emission control, a control or prohibition respecting the use of a fuel or fuel additive in a motor vehicle or motor vehicle engine if an applicable implementation plan for such State under section 7410 of this title so provides. The Administrator may approve such provision in an implementation plan, or promulgate an implementation plan containing such a provision, only if he finds that the State control or prohibition is necessary to achieve the national primary or secondary ambient air quality standard which the plan implements. The Administrator may find that a State control or prohibition is necessary to achieve that standard if no other measures that would bring about timely attainment exist, or if other measures exist and are technically possible to implement, but are unreasonable or impracticable.

(ii) The Administrator may temporarily waive a control or prohibition respecting the use of a fuel or fuel additive required or regulated by the Administrator pursuant to subsection (c), (h), (i), (k), or (m) of this section or prescribed in an applicable implementation plan under section 7410 of this title approved by the Administrator under clause (i) of this subparagraph if, after consultation with, and concurrence by, the Secretary of Energy, the Administrator determines that—

(I) extreme and unusual fuel or fuel additive supply circumstances exist in a State or region of the Nation which prevent the distribution of an adequate supply of the fuel or fuel additive to consumers;

(II) such extreme and unusual fuel and fuel additive supply circumstances are the result of a natural disaster, an Act of God, a pipeline
or refinery equipment failure, or another event that could not reasonably have been foreseen or prevented and not the lack of prudent planning on the part of the suppliers of the fuel or fuel additive to such State or region.

(ii) The Administrator makes the determinations required under clause (i), such a temporary extreme and unusual fuel and fuel additive supply circumstances waiver shall be permitted only if—

(I) the waiver applies to the smallest geographic area necessary to address the extreme and unusual fuel and fuel additive supply circumstances;

(II) the waiver is effective for a period of 20 calendar days or, if the Administrator determines that a shorter waiver period is adequate, for the shortest practicable time period necessary to permit the correction of the extreme and unusual fuel and fuel additive supply circumstances and to mitigate impact on air quality;

(III) the waiver permits a transitional period, the exact duration of which shall be determined by the Administrator (but which shall be for the shortest practicable period), after the termination of the temporary waiver to permit wholesalers and retailers to blend down their wholesale and retail inventory;

(IV) the waiver applies to all persons in the motor fuel distribution system, and local and State regulators, in the State or region to be covered by the waiver.

The term ‘motor fuel distribution system’ as used in this clause shall be defined by the Administrator through rulemaking.

(iv) Within 180 days of August 8, 2005, the Administrator shall promulgate regulations to implement clauses (II) and (III).

(v) Nothing in this subparagraph shall—

(A) limit or otherwise affect the application of any other waiver authority of the Administrator pursuant to this section or pursuant to a regulation promulgated pursuant to this section; and

(B) subject any State or person to an enforcement action, penalties, or liability solely arising from actions taken pursuant to the issuance of a waiver under this subparagraph.

(v)(I) The Administrator shall have no authority, when considering a State implementation plan or a State implementation plan revision, to approve under this paragraph any fuel included in such plan or revision if the effect of such approval increases the total number of fuels approved under this paragraph as of September 1, 2004, in all State implementation plans.

(II) The Administrator, in consultation with the Secretary of Energy, shall determine the total number of fuels approved under this paragraph as of September 1, 2004, in all State implementation plans and shall publish a list of such fuels, including the States and Petroleum Administration for Defense District in which they are used, in the Federal Register for public review and comment no later than 90 days after August 8, 2005.

(III) The Administrator shall remove a fuel from the list published under subclause (II) if a fuel ceases to be included in a State implementation plan or if a fuel in a State implementation plan is identical to a Federal fuel formulation implemented by the Administrator, but the Administrator shall not reduce the total number of fuels authorized under the list published under subclause (II).

(IV) Subclause (I) shall not limit the Administrator’s authority to approve a control or prohibition respecting any new fuel under this paragraph in a State implementation plan or revision to a State implementation plan if such new fuel—

(aa) completely replaces a fuel on the list published under subclause (II); or

(bb) does not increase the total number of fuels on the list published under subclause (II) as of September 1, 2004.

In the event that the total number of fuels on the list published under subclause (II) at the time of the Administrator’s consideration of a control or prohibition respecting a new fuel is lower than the total number of fuels on such list as of September 1, 2004, the Administrator may approve a control or prohibition respecting a new fuel under this subclause if the Administrator, after consultation with the Secretary of Energy, publishes in the Federal Register after notice and comment a finding that, in the Administrator’s judgment, such control or prohibition respecting a new fuel will not cause fuel supply or distribution interruptions or have a significant adverse impact on fuel producibility in the affected area or contiguous areas.

(V) The Administrator shall have no authority under this paragraph, when considering any particular State’s implementation plan or a revision to that State’s implementation plan, to approve any fuel unless that fuel was, as of the date of such consideration, approved in at least one State implementation plan in the applicable Petroleum Administration for Defense District. However, the Administrator may approve as part of a State implementation plan or State implementation plan revision a fuel with a summertime Reid Vapor Pressure of 7.0 psi. In no event shall such approval by the Administrator cause an increase in the total number of fuels on the list published under subclause (II).

(VI) Nothing in this clause shall be construed to have any effect regarding any available authority of States to require the use of any fuel additive registered in accordance with subsection (b) of this section, including any fuel additive registered in accordance with subsection (b) of this section after August 8, 2005.
(d) Penalties and injunctions

(1) Civil penalties

Any person who violates subsection (a), (f), (g), (k), (l), (m), (n), or (o) of this section or the regulations prescribed under subsection (c), (h), (l), (k), (l), (m), (n), or (o) of this section or who fails to furnish any information or conduct any tests required by the Administrator under subsection (b) of this section shall be liable to the United States for a civil penalty of not more than the sum of $25,000 for every day of such violation and the amount of economic benefit or savings resulting from the violation. Any violation with respect to a regulation prescribed under subsection (c), (k), (l), (m), or (o) of this section which establishes a regulatory standard based upon a multiday averaging period shall constitute a separate day of violation for each and every day in the averaging period. Civil penalties shall be assessed in accordance with subsections (b) and (c) of section 7524 of this title.

(2) Injunctive authority

The district courts of the United States shall have jurisdiction to restrain violations of subsections (a), (f), (g), (k), (l), (m), (n), and (o) of this section and of the regulations prescribed under subsections (c), (h), (l), (k), (l), (m), (n), and (o) of this section, to award other appropriate relief, and to compel the furnishing of information and the conduct of tests required by the Administrator under subsection (b) of this section. Actions to restrain such violations and compel such actions shall be brought by and in the name of the United States. In any such action, subpoenas for witnesses who are required to attend a district court in any district may run into any other district.

(e) Testing of fuels and fuel additives

(1) Not later than one year after August 7, 1977, and opportunity for a public hearing, the Administrator shall promulgate regulations which implement the authority under subsection (b) of this section with respect to each fuel or fuel additive which is not registered on the date of promulgation of such regulations; or

(A) prior to registration, in the case of any fuel or fuel additive which is registered on the date of promulgation of such regulations; or

(B) not later than three years after the date of promulgation of such regulations, in the case of any fuel or fuel additive which is registered on such date.

(2) In promulgating such regulations, the Administrator may—

(A) exempt any small business (as defined in such regulations) from or defer or modify the requirements of, such regulations with respect to any such small business; or

(B) provide for cost-sharing with respect to the testing of any fuel or fuel additive which is manufactured or processed by two or more persons or otherwise provide for shared responsibility to meet the requirements of this section without duplication; or

(C) exempt any person from such regulations with respect to a particular fuel or fuel additive upon a finding that any additional testing of such fuel or fuel additive would be duplicative of adequate existing testing.

(f) New fuels and fuel additives

(1)(A) Effective upon March 31, 1977, it shall be unlawful for any manufacturer of any fuel or fuel additive to first introduce into commerce, or to increase the concentration in use of, any fuel or fuel additive for use by any person in motor vehicles manufactured after model year 1974 which is not substantially similar to any fuel or fuel additive utilized in the certification of any model year 1975, or subsequent model year, vehicle or engine under section 7525 of this title.

(B) Effective upon November 15, 1990, it shall be unlawful for any manufacturer of any fuel or fuel additive to first introduce into commerce, or to increase the concentration in use of, any fuel or fuel additive for use by any person in motor vehicles manufactured after model year 1974 which is not substantially similar to any fuel or fuel additive utilized in the certification of any model year 1975, or subsequent model year, vehicle or engine under section 7525 of this title.

(2) Effective November 30, 1977, it shall be unlawful for any manufacturer of any fuel to introduce into commerce any gasoline which contains a concentration of manganese in excess of .0625 grams per gallon of fuel, except as otherwise provided pursuant to a waiver under paragraph (4).

(3) Any manufacturer of any fuel or fuel additive which prior to March 31, 1977, and after January 1, 1974, first introduced into commerce or increased the concentration in use of a fuel or fuel additive that would otherwise have been prohibited under paragraph (1)(A) if introduced on or after March 31, 1977 shall, not later than September 15, 1978, cease to distribute such fuel or fuel additive in commerce. During the period beginning 180 days after August 7, 1977, and before September 15, 1978, the Administrator shall prohibit, or restrict the concentration of any fuel additive which he determines will cause or contribute to the failure of an emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified under section 7525 of this title.

(4) The Administrator, upon application of any manufacturer of any fuel or fuel additive, may waive the prohibitions established under paragraph (1) or (3) of this subsection or the limitation specified in paragraph (2) of this subsection, if he determines that the applicant has established that such fuel or fuel additive or a specified concentration thereof, and the emission products of such fuel or fuel additive or specified concentration thereof, will not cause or contribute to a failure of any emission control device or system (over the useful life of the motor vehicle,
motor vehicle engine, nonroad engine or nonroad vehicle in which such device or system is used) to achieve compliance by the vehicle or engine with the emission standards with respect to which it has been certified pursuant to sections 7525 and 7547(a) of this title. The Administrator shall take final action to grant or deny an application submitted under this paragraph, after public notice and comment, within 270 days of the receipt of such an application.

(5) No action of the Administrator under this section may be stayed by any court pending judicial review of such action.

(g) Misfueling

(1) No person shall introduce, or cause or allow the introduction of, leaded gasoline into any motor vehicle which is labeled “unleaded gasoline only,” which is equipped with a gasoline tank filler inlet designed for the introduction of unleaded gasoline, which is a 1990 or later model year motor vehicle, or which such person knows or should know is a vehicle designed solely for the use of unleaded gasoline.

(2) Beginning October 1, 1993, no person shall introduce or cause or allow the introduction into any motor vehicle of diesel fuel which such person knows or should know contains a concentration of sulfur in excess of 0.05 percent (by weight) or which fails to meet a cetane index minimum of 40 or such equivalent alternative aromatic level as prescribed by the Administrator under subsection (i)(2) of this section.

(h) Reid Vapor Pressure requirements

(1) Prohibition

Not later than 6 months after November 15, 1990, the Administrator shall promulgate regulations making it unlawful for any person during the high ozone season (as defined by the Administrator) to sell, offer for sale, dispense, supply, offer for supply, transport, or introduce into commerce gasoline with a Reid Vapor Pressure in excess of 9.0 pounds per square inch (psi). Such regulations shall also establish more stringent Reid Vapor Pressure standards in a nonattainment area as the Administrator finds necessary to generally achieve comparable evaporative emissions (on a per-vehicle basis) in nonattainment areas, taking into consideration the enforceability of such standards, the need of an area for emission control, and economic factors.

(2) Attainment areas

The regulations under this subsection shall not make it unlawful for any person to sell, offer for supply, transport, or introduce into commerce gasoline with a Reid Vapor Pressure of 9.0 pounds per square inch (psi) or lower in any area designated under section 7407 of this title as an attainment area.

(3) Effective date; enforcement

The regulations under this subsection shall provide that the requirements of this sub-
(ii) Extension of effective date based on determination of insufficient supply

(I) In general

If, after receipt of a notification with respect to an area from a Governor of a State under subparagraph (A), the Administrator determines, on the Administrator's own motion or on petition of any person and after consultation with the Secretary of Energy, that the promulgation of regulations described in subparagraph (A) would result in an insufficient supply of gasoline in the State, the Administrator, by regulation—

(aa) shall extend the effective date of the regulations under clause (i) with respect to the area for not more than 1 year; and

(bb) may renew the extension under Item (aa) for two additional periods, each of which shall not exceed 1 year.

(II) Deadline for action on petitions

The Administrator shall act on any petition submitted under subclause (I) not later than 180 days after the date of receipt of the petition.

(6) Areas covered

The provisions of this subsection shall apply only to the 48 contiguous States and the District of Columbia.

(i) Sulfur content requirements for diesel fuel

(1) Effective October 1, 1993, no person shall manufacture, sell, supply, offer for sale or supply, dispense, transport, or introduce into commerce motor vehicle diesel fuel which contains a concentration of sulfur in excess of 0.05 percent (by weight) or which fails to meet a cetane index minimum of 40.

(2) Not later than 12 months after November 15, 1990, the Administrator shall promulgate regulations to implement and enforce the requirements of paragraph (1). The Administrator may require manufacturers and importers of diesel fuel not intended for use in motor vehicles to dye such fuel in a particular manner in order to segregate it from motor vehicle diesel fuel. The Administrator may establish an equivalent aromatic level to the cetane index specification in paragraph (1).

(3) The sulfur content of fuel required to be used in the certification of 1991 through 1993 model year heavy-duty diesel vehicles and engines shall be 0.10 percent (by weight). The sulfur content and cetane index minimum of fuel required to be used in the certification of 1994 and later model year heavy-duty diesel vehicles and engines shall comply with the regulations promulgated under paragraph (2).

(4) The States of Alaska and Hawaii may be exempted from the requirements of this subsection in the same manner as provided in section 7625 4 of this title. The Administrator shall take final action on any petition filed under section 7625 4 of this title or this paragraph for an exemption from the requirements of this subsection, within 12 months from the date of the petition.

(j) Lead substitute gasoline additives

(1) After November 15, 1990, any person proposing to register any gasoline additive under subsection (a) of this section or to use any previously registered additive as a lead substitute may also elect to register the additive as a lead substitute gasoline additive for reducing valve seat wear by providing the Administrator with such relevant information regarding product identity and composition as the Administrator deems necessary for carrying out the responsibilities of paragraph (2) of this subsection (in addition to other information which may be required under subsection (b) of this section).

(2) In addition to the other testing which may be required under subsection (b) of this section, in the case of the lead substitute gasoline additives referred to in paragraph (1), the Administrator shall develop and publish a test procedure to determine the additives' effectiveness in reducing valve seat wear and the additives' tendencies to produce engine deposits and other adverse side effects. The test procedures shall be developed in cooperation with the Secretary of Agriculture and with the input of additive manufacturers, engine and engine components manufacturers, and other interested persons. The Administrator shall enter into arrangements with an independent laboratory to conduct tests of each additive using the test procedures developed and published pursuant to this paragraph. The Administrator shall publish the results of the tests by company and additive name in the Federal Register along with, for comparison purposes, the results of applying the same test procedures to gasoline containing 0.1 gram of lead per gallon in lieu of the lead substitute gasoline additive. The Administrator shall not rank or otherwise rate the lead substitute additives. Test procedures shall be established within 1 year after November 15, 1990. Additives shall be tested within 18 months of November 15, 1990, or 6 months after the lead substitute additives are identified to the Administrator, whichever is later.

(3) The Administrator may impose a user fee to recover the costs of testing of any fuel additive referred to in this subsection. The fee shall be paid by the person proposing to register the fuel additive concerned. Such fee shall not exceed $20,000 for a single fuel additive.

(4) There are authorized to be appropriated to the Administrator not more than $1,000,000 for the second full fiscal year after November 15, 1990, to establish test procedures and conduct engine tests as provided in this subsection. Not more than $500,000 per year is authorized to be appropriated for each of the 5 subsequent fiscal years.

(5) Any fees collected under this subsection shall be deposited in a special fund in the United States Treasury for licensing and other services, which thereafter shall be available for appropriation, to remain available until expended, to carry out the Agency's activities for which the fees were collected.

§ 7545

4So in original. Probably should be section "7625-1".
§ 7545 Reformulated gasoline for conventional vehicles

(1) EPA regulations

(A) In general

Not later than November 15, 1991, the Administrator shall promulgate regulations under this section establishing requirements for reformulated gasoline to be used in gasoline-fueled vehicles in specified nonattainment areas. Such regulations shall require the greatest reduction in emissions of ozone forming volatile organic compounds (during the high ozone season) and emissions of toxic air pollutants (during the entire year) achievable through the reformulation of conventional gasoline, taking into consideration the cost of achieving such emission reductions, any nonair-quality related health and environmental impacts and energy requirements.

(B) Maintenance of toxic air pollutant emissions reductions from reformulated gasoline

(i) Definition of PADD

In this subparagraph the term ‘PADD’ means a Petroleum Administration for Defense District.

(ii) Regulations concerning emissions of toxic air pollutants

Not later than 270 days after August 8, 2005, the Administrator shall establish by regulation, for each refinery or importer (other than a refiner or importer in a State that has received a waiver under section 7548(b) of this title with respect to gasoline produced for use in that State), standards for toxic air pollutants from use of the reformulated gasoline produced or distributed by the refiner or importer that maintain the reduction of the average annual aggregate emissions of toxic air pollutants for reformulated gasoline produced or distributed by the refiner or importer during calendar years 2001 and 2002 (as determined on the basis of data collected by the Administrator with respect to the refiner or importer).

(iii) Standards applicable to specific refineries or importers

(I) Applicability of standards

For any calendar year, the standards applicable to a refiner or importer under clause (ii) shall apply to the quantity of gasoline produced or distributed by the refiner or importer in the calendar year only to the extent that the quantity is less than or equal to the average annual quantity of reformulated gasoline produced or distributed by the refiner or importer during calendar years 2001 and 2002.

(II) Applicability of other standards

For any calendar year, the quantity of gasoline produced or distributed by a refiner or importer that is in excess of the quantity subject to subclause (I) shall be subject to standards for emissions of toxic air pollutants promulgated under subparagraph (A) and paragraph (3)(B).

(iv) Credit program

The Administrator shall provide for the granting and use of credits for emissions of toxic air pollutants in the same manner as provided in paragraph (7).

(v) Regional protection of toxics reduction baselines

(I) In general

Not later than 60 days after August 8, 2005, and not later than April 1 of each calendar year that begins after August 8, 2005, the Administrator shall publish in the Federal Register a report that specifies, with respect to the previous calendar year—

(aa) the quantity of reformulated gasoline produced that is in excess of the average annual quantity of reformulated gasoline produced in 2001 and 2002; and

(bb) the reduction of the average annual aggregate emissions of toxic air pollutants in each PADD, based on retail survey data or data from other appropriate sources.

(II) Effect of failure to maintain aggregate toxics reductions

If, in any calendar year, the reduction of the average annual aggregate emissions of toxic air pollutants in a PADD fails to meet or exceed the reduction of the average annual aggregate emissions of toxic air pollutants in the PADD in calendar years 2001 and 2002, the Administrator, not later than 90 days after the date of publication of the report for the calendar year under subclause (I), shall—

(aa) identify, to the maximum extent practicable, the reasons for the failure, including the sources, volumes, and characteristics of reformulated gasoline that contributed to the failure; and

(bb) promulgate revisions to the regulations promulgated under clause (ii), to take effect not earlier than 180 days but not later than 270 days after the date of promulgation, to provide that, notwithstanding clause (iii)(II), all reformulated gasoline produced or distributed at each refiner or importer shall meet the standards applicable under clause (iii)(II) beginning not later than April 1 of the calendar year following publication of the report under subclause (I) and in each calendar year thereafter.

(vi) Not later than July 1, 2007, the Administrator shall promulgate final regulations to control hazardous air pollutants from motor vehicles and motor vehicle fuels, as provided for in section 89.1045 of title 40, Code of Federal Regulations (as in effect on August 8, 2005), and as authorized under section 7521(l) of this title. If the

5So in original. See References in Text note below.
Administrator promulgates by such date, final regulations to control hazardous air pollutants from motor vehicles and motor vehicle fuels that achieve and maintain greater overall reductions in emissions of air toxics from reformulated gasoline than the reductions that would be achieved under subsection (k)(1)(B) of this section as amended by this clause, then subsections (k)(1)(B)(i) through (k)(1)(B)(v) of this section shall be null and void and regulations promulgated thereunder shall be rescinded and have no further effect.

(2) General requirements
The regulations referred to in paragraph (1) shall require that reformulated gasoline comply with paragraph (3) and with each of the following requirements (subject to paragraph (7)):

(A) NO\textsubscript{x} emissions
The emissions of oxides of nitrogen (NO\textsubscript{x}) from baseline vehicles when using the reformulated gasoline shall be no greater than the level of such emissions from such vehicles when using baseline gasoline. If the Administrator determines that compliance with the limitation on emissions of oxides of nitrogen under the preceding sentence is technically infeasible, considering the other requirements applicable under this subsection to such gasoline, the Administrator may, as appropriate to ensure compliance with this subparagraph, adjust (or waive entirely), any other requirements or requirements for any requirements applicable under paragraph (3)(A).

(B) Benzene content
The benzene content of the gasoline shall not exceed 1.0 percent by volume.

(C) Heavy metals
The gasoline shall have no heavy metals, including lead or manganese. The Administrator may waive the prohibition contained in this subparagraph for a heavy metal (other than lead) if the Administrator determines that addition of the heavy metal to the gasoline will not increase, on an aggregate mass or cancer-risk basis, toxic air pollutant emissions from motor vehicles.

(3) More stringent of formula or performance standard
The regulations referred to in paragraph (1) shall require compliance with the more stringent of either the requirements set forth in subparagraph (A) or the requirements of subparagraph (B) of this paragraph. For purposes of determining the more stringent provision, clause (i) and clause (ii) of subparagraph (B) shall be considered independently.

(A) Formula
(i) Benzene
The benzene content of the reformulated gasoline shall not exceed 1.0 percent by volume.

(ii) Aromatics
The aromatic hydrocarbon content of the reformulated gasoline shall not exceed 25 percent by volume.

(iii) Lead
The reformulated gasoline shall have no lead content.

(iv) Detergents
The reformulated gasoline shall contain additives to prevent the accumulation of deposits in engines or vehicle fuel supply systems.

(B) Performance standard
(i) VOC emissions
During the high ozone season (as defined by the Administrator), the aggregate emissions of ozone forming volatile organic compounds from baseline vehicles when using the reformulated gasoline shall be 15 percent below the aggregate emissions of ozone forming volatile organic compounds from such vehicles when using baseline gasoline. Effective in calendar year 2000 and thereafter, 25 percent shall be substituted for 15 percent in applying this clause, except that the Administrator may adjust such 25 percent requirement to provide for a lesser or greater reduction based on technological feasibility, considering the cost of achieving such reductions in VOC emissions. No such adjustment shall provide for less than a 20 percent reduction below the aggregate emissions of such air pollutants from such vehicles when using baseline gasoline. The reductions required under this clause shall be on a mass basis.

(ii) Toxics
During the entire year, the aggregate emissions of toxic air pollutants from baseline vehicles when using the reformulated gasoline shall be 15 percent below the aggregate emissions of toxic air pollutants from such vehicles when using baseline gasoline. Effective in calendar year 2000 and thereafter, 25 percent shall be substituted for 15 percent in applying this clause, except that the Administrator may adjust such 25 percent requirement to provide for a lesser or greater reduction based on technological feasibility, considering the cost of achieving such reductions in toxic air pollutants. No such adjustment shall provide for less than a 20 percent reduction below the aggregate emissions of such air pollutants from such vehicles when using baseline gasoline. The reductions required under this clause shall be on a mass basis.

Any reduction greater than a specific percentage reduction required under this subparagraph shall be treated as satisfying such percentage reduction requirement.

(4) Certification procedures
(A) Regulations
The regulations under this subsection shall include procedures under which the Administrator shall certify reformulated gasoline as complying with the requirements established pursuant to this subsection. Under such regulations, the Administrator shall establish procedures for any person to petition
§ 7545  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6384

the Administrator to certify a fuel formulation, or slate of fuel formulations. Such procedures shall further require that the Administrator shall approve or deny such petition within 180 days of receipt. If the Administrator fails to act within such 180-day period, the fuel shall be deemed certified until the Administrator completes action on the petition.

(B) Certification; equivalency

The Administrator shall certify a fuel formulation or slate of fuel formulations as complying with this subsection if such fuel or fuels—

(i) comply with the requirements of paragraph (2), and

(ii) achieve equivalent or greater reductions in emissions of ozone forming volatile organic compounds and emissions of toxic air pollutants than are achieved by a reformulated gasoline meeting the applicable requirements of paragraph (3).

(C) EPA determination of emissions level

Within 1 year after November 15, 1990, the Administrator shall determine the level of emissions of ozone forming volatile organic compounds and emissions of toxic air pollutants emitted by baseline vehicles when operating on baseline gasoline. For purposes of this subsection, within 1 year after November 15, 1990, the Administrator shall, by rule, determine appropriate measures of, and methodology for, ascertaining the emissions of air pollutants (including calculations, equipment, and testing tolerances).

(5) Prohibition

Effective beginning January 1, 1995, each of the following shall be a violation of this subsection if such fuel or fuels—

(A) Classified areas

(i) In general

Upon the application of the Governor of a State, the Administrator shall apply the prohibition set forth in paragraph (5) in any area in the State classified under subpart 2 of part D of subchapter I of this chapter as a Marginal, Moderate, Serious, or Severe Area (without regard to whether or not the 1980 population of the area exceeds 250,000). In any such case, the Administrator shall establish an effective date for such prohibition as he deems appropriate, not later than January 1, 1995, or 1 year after such application is received, whichever is later. The Administrator shall publish such application in the Federal Register upon receipt.

(ii) Effect of insufficient domestic capacity to produce reformulated gasoline

If the Administrator determines, on the Administrator's own motion or on petition of any person, after consultation with the Secretary of Energy, that there is insufficient domestic capacity to produce gasoline certified under this subsection, the Administrator shall, by rule, extend the effective date of such prohibition in Marginal, Moderate, Serious, or Severe Areas referred to in clause (i) for one additional year, and may, by rule, renew such extension for 2 additional one-year periods. The Administrator shall act on any petition submitted under this subparagraph within 6 months after receipt of the petition. The Administrator shall issue such extensions for areas with a lower ozone classification before issuing any such extension for areas with a higher classification.

(B) Ozone transport region

(i) Application of prohibition

(I) In general

On application of the Governor of a State in the ozone transport region established under section 7511c(a) of this title, the Administrator, not later than 180 days after the date of receipt of the application, shall apply the prohibition specified in paragraph (5) to any area in the State (other than an area classified as a marginal, moderate, serious, or severe ozone nonattainment area under subpart 2 of part D of subchapter I of this chapter) unless the Administrator determines under clause (ii) that there is insufficient capacity to supply reformulated gasoline.

(II) Publication of application

As soon as practicable after the date of receipt of an application under subclause (I), the Administrator shall publish the application in the Federal Register.

(ii) Period of applicability

Under clause (i), the prohibition specified in paragraph (5) shall apply in a State—

(I) commencing as soon as practicable but not later than 2 years after the date of approval by the Administrator of the application of the Governor of the State; and

(II) ending not earlier than 4 years after the commencement date determined under subclause (I).

---

*So in original. Probably should be “properly”.*
(iii) Extension of commencement date based on insufficient capacity

(1) In general

If, after receipt of an application from a Governor of a State under clause (i), the Administrator determines, on the Administrator’s own motion or on petition of any person, after consultation with the Secretary of Energy, that there is insufficient capacity to supply reformulated gasoline, the Administrator, by regulation—

(aa) shall extend the commencement date with respect to the State under clause (ii)(I) for not more than 1 year; and

(bb) may renew the extension under item (aa) for 2 additional periods, each of which shall not exceed 1 year.

(II) Deadline for action on petitions

The Administrator shall act on any petition submitted under subclause (I) not later than 180 days after the date of receipt of the petition.

(7) Credits

(A) The regulations promulgated under this subsection shall provide for the granting of an appropriate amount of credits to a person who refines, blends, or imports and certifies a gasoline or slate of gasoline that—

(i) has an aromatic hydrocarbon content (by volume) that is less than the maximum aromatic hydrocarbon content required to comply with paragraph (3); or

(ii) has a benzene content (by volume) that is less than the maximum benzene content specified in paragraph (2).

(B) The regulations described in subparagraph (A) shall also provide that a person who is granted credits may use such credits, or transfer all or a portion of such credits to another person for use within the same nonattainment area, for the purpose of complying with this subsection.

(C) The regulations promulgated under subparagraphs (A) and (B) shall ensure the enforcement of the requirements for the issuance, application, and transfer of the credits. Such regulations shall prohibit the granting or transfer of such credits for use with respect to any gasoline in a nonattainment area, to the extent the use of such credits would result in any of the following:

(i) An average gasoline aromatic hydrocarbon content (by volume) for the nonattainment (taking into account all gasoline sold for use in conventional gasoline-fueled vehicles in the nonattainment area) higher than the average fuel aromatic hydrocarbon content (by volume) that would occur in the absence of using any such credits.

(ii) An average benzene content (by volume) for the nonattainment area (taking into account all gasoline sold for use in conventional gasoline-fueled vehicles in the nonattainment area) higher than the average benzene content (by volume) that would occur in the absence of using any such credits.

(8) Anti-dumping rules

(A) In general

Within 1 year after November 15, 1990, the Administrator shall promulgate regulations applicable to each refiner, blender, or importer of gasoline ensuring that gasoline sold or introduced into commerce by such refiner, blender, or importer (other than re-formulated gasoline subject to the requirements of paragraph (1)) does not result in average per gallon emissions (measured on a mass basis) of (i) volatile organic compounds, (ii) oxides of nitrogen, (iii) carbon monoxide, and (iv) toxic air pollutants in excess of such emissions of such pollutants attributable to gasoline sold or introduced into commerce in calendar year 1990 by that refiner, blender, or importer. Such regulations shall take effect beginning January 1, 1995.

(B) Adjustments

In evaluating compliance with the requirements of subparagraph (A), the Administrator shall make appropriate adjustments to insure that no credit is provided for improvement in motor vehicle emissions control in motor vehicles sold after the calendar year 1990.

(C) Compliance determined for each pollutant independently

In determining whether there is an increase in emissions in violation of the prohibition contained in subparagraph (A), the Administrator shall consider an increase in each air pollutant referred to in clauses (i) through (iv) as a separate violation of such prohibition, except that the Administrator shall promulgate regulations to provide that any increase in emissions of oxides of nitrogen resulting from adding oxygenates to gasoline may be offset by an equivalent or greater reduction (on a mass basis) in emissions of volatile organic compounds, carbon monoxide, or toxic air pollutants, or any combination of the foregoing.

(D) Compliance period

The Administrator shall promulgate an appropriate compliance period or appropriate compliance periods to be used for assessing compliance with the prohibition contained in subparagraph (A).

(E) Baseline for determining compliance

If the Administrator determines that no adequate and reliable data exists regarding the composition of gasoline sold or introduced into commerce by a refiner, blender, or importer in calendar year 1990, for such refiner, blender, or importer, baseline gasoline shall be substituted for such 1990 gasoline in determining compliance with subparagraph (A).

(9) Emissions from entire vehicle

In applying the requirements of this subsection, the Administrator shall take into account emissions from the entire motor vehicle, including evaporative, running, refueling, and exhaust emissions.
(10) Definitions

For purposes of this subsection—

(A) Baseline vehicles

The term “baseline vehicles” mean representative model year 1990 vehicles.

(B) Baseline gasoline

(i) Summertime

The term “baseline gasoline” means in the case of gasoline sold during the high ozone period (as defined by the Administrator) a gasoline which meets the following specifications:

<table>
<thead>
<tr>
<th>PROPERTY</th>
<th>VALUE</th>
</tr>
</thead>
<tbody>
<tr>
<td>API Gravity</td>
<td>57.4</td>
</tr>
<tr>
<td>Sulfur, ppm</td>
<td>339</td>
</tr>
<tr>
<td>Benzene, %</td>
<td>1.53</td>
</tr>
<tr>
<td>RVP, psi</td>
<td>8.7</td>
</tr>
<tr>
<td>Octane, R+M/2</td>
<td>87.3</td>
</tr>
<tr>
<td>IBP, F</td>
<td>91</td>
</tr>
<tr>
<td>10%, F</td>
<td>128</td>
</tr>
<tr>

<td>32.0</td>
</tr>
<tr>
<td>Olefins, %</td>
<td>9.2</td>
</tr>
<tr>
<td>Saturates, %</td>
<td>58.8</td>
</tr>
</tbody>
</table>

(ii) Wintertime

The Administrator shall establish the specifications of “baseline gasoline” for gasoline sold at times other than the high ozone period (as defined by the Administrator). Such specifications shall be the specifications of 1990 industry average gasoline sold during such period.

(C) Toxic air pollutants

The term “toxic air pollutants” means the aggregate emissions of the following:

- Benzene
- 1,3-Butadiene
- Polycyclic organic matter (POM)
- Acetaldehyde
- Formaldehyde

(D) Covered area

The 9 ozone nonattainment areas having a 1980 population in excess of 250,000 and having the highest ozone design value during the period 1987 through 1989 shall be “covered areas” for purposes of this subsection. Effective one year after the reclassification of any ozone nonattainment area as a Severe ozone nonattainment area under section 7511(b) of this title, such Severe area shall also be a “covered area” for purposes of this subsection.

(E) Reformulated gasoline

The term “reformulated gasoline” means any gasoline which is certified by the Administrator under this section as complying with this subsection.

(F) Conventional gasoline

The term “conventional gasoline” means any gasoline which does not meet specifications set by a certification under this subsection.

(j) Detergents

Effective beginning January 1, 1995, no person may sell or dispense to an ultimate consumer in the United States, and no refiner or marketer may directly or indirectly sell or dispense to persons who sell or dispense to ultimate consumers in the United States any gasoline which does not contain additives to prevent the accumulation of deposits in engines or fuel supply systems. Not later than 2 years after November 15, 1990, the Administrator shall promulgate a rule establishing specifications for such additives.
areas with a carbon monoxide design value of 9.5 ppm or more of November 15, 1990, the revision shall provide that such requirement shall take effect no later than November 1, 1992 (or at such other date during 1992 as the Administrator establishes under the preceding provisions of this paragraph). For other areas, the revision shall provide that such requirement shall take effect no later than November 1 of the third year after the last year of the applicable 2-year period referred to in paragraph (1) (or at such other date during such third year as the Administrator establishes under the preceding provisions of this paragraph) and shall include a program for implementation and enforcement of the requirement consistent with guidance to be issued by the Administrator.

(3) Waivers

(A) The Administrator shall waive, in whole or in part, the requirements of paragraph (2) upon a demonstration by the State to the satisfaction of the Administrator that the use of oxygenated gasoline would prevent or interfere with the attainment by the area of a national primary ambient air quality standard (or a State or local ambient air quality standard) for any air pollutant other than carbon monoxide.

(B) The Administrator shall, upon demonstration by the State satisfactory to the Administrator, waive the requirement of paragraph (2) where the Administrator determines that mobile sources of carbon monoxide do not contribute significantly to carbon monoxide levels in an area.

(C)(i) Any person may petition the Administrator to make a finding that there is, or is likely to be, for any area, an inadequate domestic supply of, or distribution capacity for, oxygenated gasoline meeting the requirements of paragraph (2) or fuel additives (oxygenates) necessary to meet such requirements. The Administrator shall act on such petition within 6 months after receipt of the petition.

(ii) If the Administrator determines, in response to a petition under clause (i), that there is an inadequate supply or capacity described in clause (i), the Administrator shall delay the effective date of paragraph (2) for 1 year. Upon petition, the Administrator may extend such effective date for one additional year. No partial delay or lesser waiver may be granted under this clause.

(iii) In granting waivers under this subparagraph the Administrator shall consider distribution capacity separately from the adequacy of domestic supply and shall grant such waivers in such manner as will assure that, if supplies of oxygenated gasoline are limited, areas having the highest design value for carbon monoxide will have a priority in obtaining oxygenated gasoline which meets the requirements of paragraph (2).

(iv) As used in this subparagraph, the term distribution capacity includes capacity for transportation, storage, and blending.

(4) Fuel dispensing systems

Any person selling oxygenated gasoline at retail pursuant to this subsection shall be required under regulations promulgated by the Administrator to label the fuel dispensing system with a notice that the gasoline is oxygenated and will reduce the carbon monoxide emissions from the motor vehicle.

(5) Guidelines for credit

The Administrator shall promulgate guidelines, within 9 months after November 15, 1990, allowing the use of marketable oxygen credits from gasolines during that portion of the year specified in paragraph (2) with higher oxygen content than required to offset the sale or use of gasoline with a lower oxygen content than required. No credits may be transferred between nonattainment areas.

(6) Attainment areas

Nothing in this subsection shall be interpreted as requiring an oxygenated gasoline program in an area which is in attainment for carbon monoxide, except that in a carbon monoxide nonattainment area which is redesignated as attainment for carbon monoxide, the requirements of this subsection shall remain in effect to the extent such program is necessary to maintain such standard thereafter in the area.

(7) Failure to attain CO standard

If the Administrator determines under section 7512(b)(2) of this title that the national primary ambient air quality standard for carbon monoxide has not been attained in a Serious Area by the applicable attainment date, the State shall submit a plan revision for the area within 9 months after the date of such determination. The plan revision shall provide that the minimum oxygen content of gasoline referred to in paragraph (2) shall be 3.1 percent by weight unless such requirement is waived in accordance with the provisions of this subsection.

(n) Prohibition on leaded gasoline for highway use

After December 31, 1995, it shall be unlawful for any person to sell, offer for sale, supply, offer for supply, dispense, transport, or introduce into commerce, for use as fuel in any motor vehicle (as defined in section 7544) of this title) any gasoline which contains lead or lead additives.

(o) Renewable fuel program

(1) Definitions

In this section:

(A) Additional renewable fuel

The term “additional renewable fuel” means fuel that is produced from renewable biomass and that is used to replace or reduce the quantity of fossil fuel present in home heating oil or jet fuel.

(B) Advanced biofuel

(i) In general

The term “advanced biofuel” means renewable fuel, other than ethanol derived

\footnote{So in original. Probably should be “as of”.

\footnote{So in original. Probably should be section “7550(2)”.

§ 7545
from corn starch, that has lifecycle greenhouse gas emissions, as determined by the Administrator, after notice and opportunity for comment, that are at least 50 percent less than baseline lifecycle greenhouse gas emissions.

(ii) Inclusions

The types of fuels eligible for consideration as “advanced biofuel” may include any of the following:

(I) Ethanol derived from cellulose, hemicellulose, or lignin.

(II) Ethanol derived from sugar or starch (other than corn starch).

(III) Ethanol derived from waste material, including crop residue, other vegetative waste material, animal waste, and food waste and yard waste.

(IV) Biomass-based diesel.

(V) Biogas (including landfill gas and sewage waste treatment gas) produced through the conversion of organic matter from renewable biomass.

(VI) Butanol or other alcohols produced through the conversion of organic matter from renewable biomass.

(VII) Other fuel derived from cellulose biomass.

(C) Baseline lifecycle greenhouse gas emissions

The term “baseline lifecycle greenhouse gas emissions” means the average lifecycle greenhouse gas emissions, as determined by the Administrator, after notice and opportunity for comment, for gasoline or diesel (whichever is being replaced by the renewable fuel). The Administrator may include any other anthropogenically-emitted gas that is determined by the Administrator, after notice and comment, to contribute to global warming.

(H) Lifecycle greenhouse gas emissions

The term “lifecycle greenhouse gas emissions” means the aggregate quantity of greenhouse gas emissions (including direct emissions and significant indirect emissions such as significant emissions from land use changes), as determined by the Administrator, related to the full fuel lifecycle, including all stages of fuel and feedstock production and distribution, from feedstock generation or extraction through the distribution and delivery of the finished fuel to the ultimate consumer, where the mass values for all greenhouse gases are adjusted to account for their relative global warming potential.

(I) Renewable biomass

The term “renewable biomass” means each of the following:

(i) Planted crops and crop residue harvested from agricultural land cleared or cultivated at any time prior to December 19, 2007, that is either actively managed or fallow, and nonforested.

(ii) Planted trees and tree residue from actively managed tree plantations on non-federal land cleared at any time prior to December 19, 2007, including land belonging to an Indian tribe or an Indian individual, that is held in trust by the United States or subject to a restriction against alienation imposed by the United States.

(iii) Animal waste material and animal byproducts.

(iv) Slash and pre-commercial thinnings that are from non-federal forestlands, including forestlands belonging to an Indian tribe or an Indian individual, that are held in trust by the United States or subject to a restriction against alienation imposed by the United States, but not forests or forestlands that are ecological communities with a global or State ranking of critically imperiled, imperiled, or rare pursuant to a State Natural Heritage Program, old growth forest, or late successional forest.

(v) Biomass obtained from the immediate vicinity of buildings and other areas regularly occupied by people, or of public infrastructure, at risk from wildfire.

(vi) Algae.

(vii)Separated yard waste or food waste, including recycled cooking and trap grease.

(J) Renewable fuel

The term “renewable fuel” means fuel that is produced from renewable biomass and that is used to replace or reduce the quantity of fossil fuel present in a transportation fuel.
(K) Small refinery
The term "small refinery" means a refinery for which the average aggregate daily crude oil throughput for a calendar year (as determined by dividing the aggregate throughput for the calendar year by the number of days in the calendar year) does not exceed 75,000 barrels.

(L) Transportation fuel
The term "transportation fuel" means fuel for use in motor vehicles, motor vehicle engines, nonroad vehicles, or nonroad engines (except for ocean-going vessels).

(2) Renewable fuel program

(A) Regulations

(i) In general
Not later than 1 year after August 8, 2005, the Administrator shall promulgate regulations to ensure that gasoline sold or introduced into commerce in the United States (except in noncontiguous States or territories), on an annual average basis, contains the applicable volume of renewable fuel determined in accordance with subparagraph (B). Not later than 1 year after December 19, 2007, the Administrator shall revise the regulations under this paragraph to ensure that the requirements of this subparagraph are met; but

(ii) Noncontiguous State opt-in

(I) In general
On the petition of a noncontiguous State or territory, the Administrator may allow the renewable fuel program established under this subsection to apply in the noncontiguous State or territory at the same time or any time after the Administrator promulgates regulations under this subparagraph.

(II) Other actions
In carrying out this clause, the Administrator may—

(aa) issue or revise regulations under this paragraph;

(bb) establish applicable percentages under paragraph (3);

(cc) provide for the generation of credits under paragraph (5); and

-dd) take such other actions as are necessary to allow for the application of the renewable fuels program in a noncontiguous State or territory.

(iii) Provisions of regulations
Regardless of the date of promulgation, the regulations promulgated under clause (i)—

(I) shall contain compliance provisions applicable to refineries, blenders, distributors, and importers, as appropriate, to ensure that the requirements of this paragraph are met; but

(II) shall not—

(aa) restrict geographic areas in which renewable fuel may be used; or

(bb) impose any per-gallon obligation for the use of renewable fuel.

(iv) Requirement in case of failure to promulgate regulations
If the Administrator does not promulgate regulations under clause (i), the percentage of renewable fuel in gasoline sold or dispensed to consumers in the United States, on a volume basis, shall be 2.78 percent for calendar year 2006.

(B) Applicable volumes

(i) Calendar years after 2005

(1) Renewable fuel
For the purpose of subparagraph (A), the applicable volume of renewable fuel for the calendar years 2006 through 2022 shall be determined in accordance with the following table:

<table>
<thead>
<tr>
<th>Calendar year</th>
<th>(in billions of gallons)</th>

(III) Cellulosic biofuel

For the purpose of subparagraph (A), of the volume of advanced biofuel required under subclause (II), the applicable volume of cellulosic biofuel for the calendar years 2010 through 2022 shall be determined in accordance with the following table:

<table>
<thead>
<tr>
<th>Calendar year</th>
<th>Applicable volume of cellulosic biofuel (in billions of gallons)</th>

</tbody>
</table>

(ii) Other calendar years

For the purpose of subparagraph (A), the applicable volumes of each fuel specified in the tables in clause (i) for calendar years after the calendar years specified in the tables shall be determined by the Administrator, in coordination with the Secretary of Energy and the Secretary of Agriculture, based on a review of the implementation of the program during calendar years specified in the tables, and an analysis of—

(I) the impact of the production and use of renewable fuels on the environment, including on air quality, climate change, conversion of wetlands, ecosystems, wildlife habitat, water quality, and water supply;

(II) the impact of renewable fuels on the energy security of the United States;

(III) the expected annual rate of future commercial production of renewable fuels, including advanced biofuels in each category (cellulosic biofuel and biomass-based diesel);

(IV) the impact of renewable fuels on the infrastructure of the United States, including deliverability of materials, goods, and products other than renewable fuel, and the sufficiency of infrastructure to deliver and use renewable fuel;

(V) the impact of the use of renewable fuels on the cost to consumers of transportation fuel and on the cost to transport goods; and

(VI) the impact of the use of renewable fuels on other factors, including job creation, the price and supply of agricultural commodities, rural economic development, and food prices.

The Administrator shall promulgate rules establishing the applicable volumes under this clause no later than 14 months before the first year for which such applicable volume will apply.

(iii) Applicable volume of advanced biofuel

For the purpose of making the determinations in clause (ii), for each calendar year, the applicable volume of advanced biofuel shall be at least the same percentage of the applicable volume of renewable fuel as in calendar year 2022.

(iv) Applicable volume of cellulosic biofuel

For the purpose of making the determinations in clause (ii), for each calendar year, the applicable volume of cellulosic biofuel established by the Administrator shall be based on the assumption that the Administrator will not need to issue a waiver for such years under paragraph (7)(D).

(v) Minimum applicable volume of biomass-based diesel

For the purpose of making the determinations in clause (ii), the applicable volume of biomass-based diesel shall not be less than the applicable volume listed in clause (i)(IV) for calendar year 2012.

(3) Applicable percentages

(A) Provision of estimate of volumes of gasoline sales

Not later than October 31 of each of calendar years 2005 through 2021, the Administrator of the Energy Information Administration shall provide to the Administrator of the Environmental Protection Agency an es-
timate, with respect to the following calendar year, of the volumes of transportation fuel, biomass-based diesel, and cellulosic biofuel projected to be sold or introduced into commerce in the United States.

(B) Determination of applicable percentages

(i) In general

Not later than November 30 of each of calendar years 2005 through 2021, based on the estimate provided under subparagraph (A), the Administrator of the Environmental Protection Agency shall determine and publish in the Federal Register, with respect to the following calendar year, the renewable fuel obligation that ensures that the requirements of paragraph (2) are met.

(ii) Required elements

The renewable fuel obligation determined for a calendar year under clause (i) shall—

(I) be applicable to refineries, blenders, and importers, as appropriate;

(II) be expressed in terms of a volume percentage of transportation fuel sold or introduced into commerce in the United States; and

(III) subject to subparagraph (C)(i), consist of a single applicable percentage that applies to all categories of persons specified in subclause (I).

(C) Adjustments

In determining the applicable percentage for a calendar year, the Administrator shall make adjustments—

(i) to prevent the imposition of redundant obligations on any person specified in subparagraph (B)(ii)(I); and

(ii) to account for the use of renewable fuel during the previous calendar year by small refineries that are exempt under paragraph (9).

(4) Modification of greenhouse gas reduction percentages

(A) In general

The Administrator may, in the regulations under the last sentence of paragraph (2)(A)(i), adjust the 20 percent, 50 percent, and 60 percent reductions in lifecycle greenhouse gas emissions specified in paragraphs (2)(A)(i) (relating to renewable fuel), (1)(D) (relating to biomass-based diesel), (1)(B)(i) (relating to advanced biofuel), and (1)(E) (relating to cellulosic biofuel) to a lower percentage. For the 50 and 60 percent reductions, the Administrator may make such an adjustment only if he determines that generally such reduction is not commercially feasible for fuels made using a variety of feedstocks, technologies, and processes to meet the applicable reduction.

(B) Amount of adjustment

In promulgating regulations under this paragraph, the specified 50 percent reduction in greenhouse gas emissions from advanced biofuel and in biomass-based diesel may not be reduced below 40 percent. The specified 20 percent reduction in greenhouse gas emissions from renewable fuel may not be reduced below 10 percent, and the specified 60 percent reduction in greenhouse gas emissions from cellulosic biofuel may not be reduced below 50 percent.

(C) Adjusted reduction levels

An adjustment under this paragraph to a percent less than the specified 20 percent greenhouse gas reduction for renewable fuel shall be the minimum possible adjustment, and the adjusted greenhouse gas reduction shall be established by the Administrator at the maximum achievable level, taking cost in consideration, for natural gas fired corn-based ethanol plants, allowing for the use of a variety of technologies and processes. An adjustment in the 50 or 60 percent greenhouse gas levels shall be the minimum possible adjustment for the fuel or fuels concerned, and the adjusted greenhouse gas reduction shall be established at the maximum achievable level, taking cost in consideration, allowing for the use of a variety of feedstocks, technologies, and processes.

(D) 5-year review

Whenever the Administrator makes any adjustment under this paragraph, not later than 5 years thereafter he shall review and revise (based upon the same criteria and standards as required for the initial adjustment) the regulations establishing the adjusted level.

(E) Subsequent adjustments

After the Administrator has promulgated a final rule under the last sentence of paragraph (2)(A)(i) with respect to the method of determining lifecycle greenhouse gas emissions, except as provided in subparagraph (D), the Administrator may not adjust the percent greenhouse gas reduction levels unless he determines that there has been a significant change in the analytical methodology used for determining the lifecycle greenhouse gas emissions. If he makes such determination, he may adjust the 20, 50, or 60 percent reduction levels through rulemaking using the criteria and standards set forth in this paragraph.

(F) Limit on upward adjustments

If, under subparagraph (D) or (E), the Administrator revises a percent level adjusted as provided in subparagraphs (A), (B), and (C) to a higher percent, such higher percent may not exceed the applicable percent specified in paragraph (2)(A)(i), (1)(D), (1)(B)(i), or (1)(E).

(G) Applicability of adjustments

If the Administrator adjusts, or revises, a percent level referred to in this paragraph or makes a change in the analytical methodology used for determining the lifecycle greenhouse gas emissions, such adjustment, revision, or change (or any combination thereof) shall only apply to renewable fuel from new facilities that commence construction after the effective date of such adjustment, revision, or change.
§ 7545  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6392

(5) Credit program  
(A) In general  
The regulations promulgated under paragraph (2)(A) shall provide—  
(i) for the generation of an appropriate amount of credits by any person that refines, blends, or imports gasoline that contains a quantity of renewable fuel that is greater than the quantity required under paragraph (2);  
(ii) for the generation of an appropriate amount of credits for biodiesel; and  
(iii) for the generation of credits by small refineries in accordance with paragraph (9)(C).  
(B) Use of credits  
A person that generates credits under subparagraph (A) may use the credits, or transfer all or a portion of the credits to another person, for the purpose of complying with paragraph (2).  
(C) Duration of credits  
A credit generated under this paragraph shall be valid to show compliance for the 12 months as of the date of generation.  
(D) Inability to generate or purchase sufficient credits  
The regulations promulgated under paragraph (2)(A) shall include provisions allowing any person that is unable to generate or purchase sufficient credits to meet the requirements of paragraph (2) to carry forward a renewable fuel deficit on condition that the person, in the calendar year following the year in which the renewable fuel deficit is created—  
(i) achieves compliance with the renewable fuel requirement under paragraph (2); and  
(ii) generates or purchases additional renewable fuel credits to offset the renewable fuel deficit of the previous year.  
(E) Credits for additional renewable fuel  
The Administrator may issue regulations providing: (i) for the generation of an appropriate amount of credits by any person that refines, blends, or imports additional renewable fuels specified by the Administrator; and (ii) for the use of such credits by the generator, or the transfer of all or a portion of the credits to another person, for the purpose of complying with paragraph (2).  
(6) Seasonal variations in renewable fuel use  
(A) Study  
For each of calendar years 2006 through 2012, the Administrator of the Energy Information Administration shall conduct a study of renewable fuel blending to determine whether there are excessive seasonal variations in the use of renewable fuel.  
(B) Regulation of excessive seasonal variations  
If, for any calendar year, the Administrator of the Energy Information Administration, based on the study under subparagraph (A), makes the determinations specified in subparagraph (C), the Administrator of the Environmental Protection Agency shall promulgate regulations to ensure that 25 percent or more of the quantity of renewable fuel necessary to meet the requirements of paragraph (2) is used during each of the 2 periods specified in subparagraph (D) of each subsequent calendar year.  
(C) Determinations  
The determinations referred to in subparagraph (B) are that—  
(i) less than 25 percent of the quantity of renewable fuel necessary to meet the requirements of paragraph (2) has been used during 1 of the 2 periods specified in subparagraph (D) of the calendar year;  
(ii) a pattern of excessive seasonal variation described in clause (i) will continue in subsequent calendar years; and  
(iii) promulgating regulations or other requirements to impose a 25 percent or more seasonal use of renewable fuels will not prevent or interfere with the attainment of national ambient air quality standards or significantly increase the price of motor fuels to the consumer.  
(D) Periods  
The 2 periods referred to in this paragraph are—  
(i) April through September; and  
(ii) January through March and October through December.  
(E) Exclusion  
Renewable fuel blended or consumed in calendar year 2006 in a State that has received a waiver under section 7543(b) of this title shall not be included in the study under subparagraph (A).  
(F) State exemption from seasonality requirements  
Notwithstanding any other provision of law, the seasonality requirement relating to renewable fuel use established by this paragraph shall not apply to any State that has received a waiver under section 7543(b) of this title or any State dependent on refineries in such State for gasoline supplies.  
(7) Waivers  
(A) In general  
The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, may waive the requirements of paragraph (2) in whole or in part on petition by one or more States, by any person subject to the requirements of this subsection, or by the Administrator on his own motion by reducing the national quantity of renewable fuel required under paragraph (2)—  
(i) based on a determination by the Administrator, after public notice and opportunity for comment, that implementation of the requirement would severely harm the economy or environment of a State, a region, or the United States; or  
(ii) based on a determination by the Administrator, after public notice and oppor-
(B) Petitions for waivers

The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall approve or disapprove a petition for a waiver of the requirements of paragraph (2) within 90 days after the date on which the petition is received by the Administrator.

(C) Termination of waivers

A waiver granted under subparagraph (A) shall terminate after 1 year, but may be renewed by the Administrator after consultation with the Secretary of Agriculture and the Secretary of Energy.

(D) Cellulosic biofuel

(i) For any calendar year for which the projected volume of cellulosic biofuel production is less than the minimum applicable volume established under paragraph (2)(B), as determined by the Administrator based on the estimate provided under paragraph (3)(A), the Administrator shall reduce the applicable volume of cellulosic biofuel required under paragraph (2)(B) to the projected volume available during that calendar year. For any calendar year in which the Administrator makes such a reduction, the Administrator may also reduce the applicable volume of renewable fuel and advanced biofuels requirement established under paragraph (2)(B) by the same or a lesser volume.

(ii) Whenever the Administrator reduces the minimum cellulosic biofuel volume under this subparagraph, the Administrator shall make available for sale cellulosic biofuel credits at the higher of $0.25 per gallon or the amount by which $3.00 per gallon exceeds the average wholesale price of a gallon of gasoline in the United States. Such amounts shall be adjusted for inflation by the Administrator for years after 2008.

(iii) Eighteen months after December 19, 2007, the Administrator shall promulgate regulations to govern the issuance of credits under this subparagraph. The regulations shall set forth the method for determining the exact price of credits in the event of a waiver. The price of such credits shall not be changed more frequently than once each quarter. These regulations shall include such provisions, including limiting the credits’ uses and useful life, as the Administrator deems appropriate to assist market liquidity and transparency, to provide appropriate certainty for regulated entities and renewable fuel producers, and to limit any potential misuse of cellulosic biofuel credits to reduce the use of other renewable fuels, and for such other purposes as the Administrator determines will help achieve the goals of this subsection. The regulations shall limit the number of cellulosic biofuel credits for any calendar year to the minimum applicable volume (as reduced under this subparagraph) of cellulosic biofuel for that year.

(E) Biomass-based diesel

(i) Market evaluation

The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall periodically evaluate the impact of the biomass-based diesel requirements established under this paragraph on the price of diesel fuel.

(ii) Waiver

If the Administrator determines that there is a significant renewable feedstock disruption or other market circumstances that would make the price of biomass-based diesel fuel increase significantly, the Administrator, in consultation with the Secretary of Agriculture, shall issue an order to reduce, for up to a 60-day period, the quantity of biomass-based diesel required under subparagraph (A) by an appropriate quantity that does not exceed 15 percent of the applicable annual requirement for biomass-based diesel. For any calendar year in which the Administrator makes a reduction under this subparagraph, the Administrator may also reduce the applicable volume of renewable fuel and advanced biofuels requirement established under paragraph (2)(B) by the same or a lesser volume.

(iii) Extensions

If the Administrator determines that the feedstock disruption or circumstances described in clause (ii) is continuing beyond the 60-day period described in clause (ii) of this clause, the Administrator, in consultation with the Secretary of Energy and the Secretary of Agriculture, may issue an order to reduce, for up to an additional 60-day period, the quantity of biomass-based diesel required under subparagraph (A) by an appropriate quantity that does not exceed an additional 15 percent of the applicable annual requirement for biomass-based diesel.

(F) Modification of applicable volumes

For any of the tables in paragraph (2)(B), if the Administrator waives—

(i) at least 20 percent of the applicable volume requirement set forth in any such table for 2 consecutive years; or

(ii) at least 50 percent of such volume requirement for a single year,

the Administrator shall promulgate a rule (within 1 year after issuing such waiver) that modifies the applicable volumes set forth in the table concerned for all years following the final year to which the waiver applies, except that no such modification in applicable volumes shall be made for any year before 2016. In promulgating such a rule, the Administrator shall comply with the processes, criteria, and standards set forth in paragraph (2)(B)(i).
for the Administrator a study assessing whether the renewable fuel requirement under paragraph (2) will likely result in significant adverse impacts on consumers in 2006, on a national, regional, or State basis.

(B) Required evaluations
The study shall evaluate renewable fuel—
(i) supplies and prices;
(ii) blendstock supplies; and
(iii) supply and distribution system capabilities.

(C) Recommendations by the Secretary
Based on the results of the study, the Secretary of Energy shall make specific recommendations to the Administrator concerning waiver of the requirements of paragraph (2), in whole or in part, to prevent any adverse impacts described in subparagraph (A).

(D) Waiver
(i) In general
Not later than 270 days after August 8, 2005, the Administrator shall, if and to the extent recommended by the Secretary of Energy under subparagraph (C), waive, in whole or in part, the renewable fuel requirement under paragraph (2) by reducing the national quantity of renewable fuel required under paragraph (2) in calendar year 2006.

(ii) No effect on waiver authority
Clause (i) does not limit the authority of the Administrator to waive the requirements of paragraph (2) in whole, or in part, under paragraph (7).

(9) Small refineries
(A) Temporary exemption
(i) In general
The requirements of paragraph (2) shall not apply to small refineries until calendar year 2011.

(ii) Extension of exemption
(1) Study by Secretary of Energy
Not later than December 31, 2008, the Secretary of Energy shall conduct for the Administrator a study to determine whether compliance with the requirements of paragraph (2) would impose a disproportionate economic hardship on small refineries.

(2) Extension of exemption
In the case of a small refinery that the Secretary of Energy determines under subclause (i) would be subject to a disproportionate economic hardship if required to comply with paragraph (2), the Administrator shall extend the exemption under clause (i) for the small refinery for a period of not less than 2 additional years.

(B) Petitions based on disproportionate economic hardship
(i) Extension of exemption
A small refinery may at any time petition the Administrator for an extension of the exemption under subparagraph (A) for the reason of disproportionate economic hardship.

(ii) Evaluation of petitions
In evaluating a petition under clause (i), the Administrator, in consultation with the Secretary of Energy, shall consider the findings of the study under subparagraph (A)(ii) and other economic factors.

(iii) Deadline for action on petitions
The Administrator shall act on any petition submitted by a small refinery for a hardship exemption not later than 90 days after the date of receipt of the petition.

(C) Credit program
If a small refinery notifies the Administrator that the small refinery waives the exemption under subparagraph (A), the regulations promulgated under paragraph (2)(A) shall provide for the generation of credits by the small refinery under paragraph (5) beginning in the calendar year following the date of notification.

(D) Opt-in for small refineries
A small refinery shall be subject to the requirements of paragraph (2) if the small refinery notifies the Administrator that the small refinery waives the exemption under subparagraph (A).

(10) Ethanol market concentration analysis
(A) Analysis
(i) In general
Not later than 180 days after August 8, 2005, and annually thereafter, the Federal Trade Commission shall perform a market concentration analysis of the ethanol production industry using the Herfindahl-Hirschman Index to determine whether there is sufficient competition among industry participants to avoid price-setting and other anticompetitive behavior.

(ii) Scoring
For the purpose of scoring under clause (i) using the Herfindahl-Hirschman Index, all marketing arrangements among industry participants shall be considered.

(B) Report
Not later than December 1, 2005, and annually thereafter, the Federal Trade Commission shall submit to Congress and the Administrator a report on the results of the market concentration analysis performed under subparagraph (A)(i).

(11) Periodic reviews
To allow for the appropriate adjustment of the requirements described in subparagraph (B) of paragraph (2), the Administrator shall conduct periodic reviews of—
(A) existing technologies;
(B) the feasibility of achieving compliance with the requirements; and
(C) the impacts of the requirements described in subsection (a)(2) on each individual and entity described in paragraph (2).
(12) Effect on other provisions
Nothing in this subsection, or regulations issued pursuant to this subsection, shall affect or be construed to affect the regulatory status of carbon dioxide or any other greenhouse gas, or to expand or limit regulatory authority regarding carbon dioxide or any other greenhouse gas, for purposes of other provisions (including section 7475) of this chapter. The previous sentence shall not affect implementation and enforcement of this subsection.

(q) Analyses of motor vehicle fuel changes and emissions model

(1) Anti-backsliding analysis
(A) Draft analysis
Not later than 4 years after August 8, 2005, the Administrator shall publish for public comment a draft analysis of the changes in emissions of air pollutants and air quality due to the use of motor vehicle fuel and fuel additives resulting from implementation of the amendments made by the Energy Policy Act of 2005.

(B) Final analysis
After providing a reasonable opportunity for comment but not later than 5 years after August 8, 2005, the Administrator shall publish the analysis in final form.

(2) Emissions model
For the purposes of this section, not later than 4 years after August 8, 2005, the Administrator shall develop and finalize an emissions model that reflects, to the maximum extent practicable, the effects of gasoline characteristics or components on emissions from vehicles in the motor vehicle fleet during calendar year 2007.

(3) Permeation effects study
(A) In general
Not later than 1 year after August 8, 2005, the Administrator shall conduct a study, and report to Congress the results of the study, on the effects of ethanol content in gasoline on permeation, the process by which fuel molecules migrate through the elastomeric materials (rubber and plastic parts) that make up the fuel and fuel vapor systems of a motor vehicle.

(B) Evaporative emissions
The study shall include estimates of the increase in total evaporative emissions likely to result from the use of gasoline with ethanol content in a motor vehicle, and the fleet of motor vehicles, due to permeation.

(r) Fuel and fuel additive importers and importation
For the purposes of this section, the term “manufacturer” includes an importer and the term “manufacture” includes importation.

(s) Conversion assistance for cellulosic biomass, waste-derived ethanol, approved renewable fuels

(1) In general
The Secretary of Energy may provide grants to merchant producers of cellulosic biomass ethanol, waste-derived ethanol, and approved renewable fuels in the United States to assist the producers in building eligible production facilities described in paragraph (2) for the production of ethanol or approved renewable fuels.

(2) Eligible production facilities
A production facility shall be eligible to receive a grant under this subsection if the production facility—
(A) is located in the United States; and
(B) uses cellulosic or renewable biomass or waste-derived feedstocks derived from agricultural residues, wood residues, municipal solid waste, or agricultural byproducts.

(3) Authorization of appropriations
There are authorized to be appropriated the following amounts to carry out this subsection:
(A) $100,000,000 for fiscal year 2006.
(B) $250,000,000 for fiscal year 2007.
(C) $400,000,000 for fiscal year 2008.

(4) Definitions
For the purposes of this subsection:
(A) The term “approved renewable fuels” are fuels and components of fuels that have been approved by the Department of Energy, as defined in section 13211 of this title, which have been made from renewable biomass.
(B) The term “renewable biomass” is, as defined in Presidential Executive Order 13134, published in the Federal Register on August 16, 1999, any organic matter that is available on a renewable or recurring basis (excluding old-growth timber), including dedicated energy crops and trees, agricultural food and feed crop residues, aquatic plants, animal wastes, wood and wood residues, paper and paper residues, and other vegetative waste materials. Old-growth timber means timber of a forest from the late successional stage of forest development.

(t) Blending of compliant reformulated gasolines

(1) In general
Notwithstanding subsections (h) and (k) of this section and subject to the limitations in paragraph (2) of this subsection, it shall not be a violation of this part for a gasoline retailer, during any month of the year, to blend at a retail location batches of ethanol-blended and non-ethanol-blended reformulated gasoline, provided that—
(A) each batch of gasoline to be blended has been individually certified as in compliance with subsections (h) and (k) of this section prior to being blended;
(B) the retailer notifies the Administrator prior to such blending, and identifies the exact location of the retail station and the specific tank in which such blending will take place;
(C) the retailer retains and, as requested by the Administrator or the Administrator’s designee, makes available for inspection such certifications accounting for all gasoline at the retail outlet; and

---

12See References in Text note below.
§ 7545

TITLE 42—THE PUBLIC HEALTH AND WELFARE

Page 6396

(D) the retailer does not, between June 1 and September 15 of each year, blend a batch of VOC-controlled, or “summer”, gasoline with a batch of non-VOC-controlled, or “winter”, gasoline (as these terms are defined under subsections (b) and (k) of this section).

(2) Limitations

(A) Frequency limitation

A retailer shall only be permitted to blend batches of compliant reformulated gasoline under this subsection a maximum of two blending periods between May 1 and September 15 of each calendar year.

(B) Duration of blending period

Each blending period authorized under subparagraph (A) shall extend for a period of no more than 10 consecutive calendar days.

(3) Surveys

A sample of gasoline taken from a retail location that has blended gasoline within the past 30 days and is in compliance with subparagraphs (A), (B), (C), and (D) of paragraph (1) shall not be used in a VOC survey mandated by 40 CFR Part 80.

(4) State implementation plans

A State shall be held harmless and shall not be required to revise its State implementation plan under section 7410 of this title to account for the emissions from blended gasoline authorized under paragraph (1).

(5) Preservation of State law

Nothing in this subsection shall—

(A) preempt existing State laws or regulations regulating the blending of compliant gasolines; or

(B) prohibit a State from adopting such restrictions in the future.

(6) Regulations

The Administrator shall promulgate, after notice and comment, regulations implementing this subsection within 1 year after August 8, 2005.

(7) Effective date

This subsection shall become effective 15 months after August 8, 2005, and shall apply to blended batches of reformulated gasoline on or after that date, regardless of whether the implementing regulations required by paragraph (6) have been promulgated by the Administrator by that date.

(8) Liability

No person other than the person responsible for blending under this subsection shall be subject to an enforcement action or penalties under subsection (d) of this section solely arising from the blending of compliant reformulated gasolines by the retailers.

(9) Formulation of gasoline

This subsection does not grant authority to the Administrator or any State (or any subdivision thereof) to require reformulation of gasoline at the refinery to adjust for potential or actual emissions increases due to the blending authorized by this subsection.

(u) Standard specifications for biodiesel

(1) Unless the American Society for Testing and Materials has adopted a standard for diesel fuel containing 20 percent biodiesel (commonly known as “B20”) within 1 year after December 19, 2007, the Administrator shall initiate a rulemaking to establish a uniform per gallon fuel standard for such fuel and designate an identification number so that vehicle manufacturers are able to design engines to use fuel meeting such standard.

(2) Unless the American Society for Testing and Materials has adopted a standard for diesel fuel containing 5 percent biodiesel (commonly known as “B5”) within 1 year after December 19, 2007, the Administrator shall initiate a rulemaking to establish a uniform per gallon fuel standard for such fuel and designate an identification so that vehicle manufacturers are able to design engines to use fuel meeting such standard.

(3) Whenever the Administrator is required to initiate a rulemaking under paragraph (1) or (2), the Administrator shall promulgate a final rule within 18 months after December 19, 2007.

(4) Not later than 180 days after December 19, 2007, the Administrator shall establish an annual inspection and enforcement program to ensure that diesel fuel containing biodiesel sold or distributed in interstate commerce meets the standards established under regulations under this section, including testing and certification for compliance with applicable standards of the American Society for Testing and Materials. There are authorized to be appropriated to carry out the inspection and enforcement program under this paragraph $3,000,000 for each of fiscal years 2008 through 2010.

(5) For purposes of this subsection, the term “biodiesel” has the meaning provided by section 13220(f) of this title.

(v) Prevention of air quality deterioration

(1) Study

(A) In general

Not later than 18 months after December 19, 2007, the Administrator shall complete a study to determine whether the renewable fuel volumes required by this section will adversely impact air quality as a result of changes in vehicle and engine emissions of air pollutants regulated under this chapter.

(B) Considerations

The study shall include consideration of—

(i) different blend levels, types of renewable fuels, and available vehicle technologies; and

(ii) appropriate national, regional, and local air quality control measures.

(2) Regulations

Not later than 3 years after December 19, 2007, the Administrator shall—

(A) promulgate fuel regulations to implement appropriate measures to mitigate, to the greatest extent achievable, considering the results of the study under paragraph (1), any adverse impacts on air quality, as the result of the renewable volumes required by this section; or
(B) make a determination that no such measures are necessary.

REFERENCES IN TEXT

August 8, 2005, referred to in subsec. (o)(4)(C)(vii), was in the original “enactment”, which was translated as meaning the date of enactment of Pub. L. 109–58, which enacted subsec. (o)(4)(C)(v), to reflect the probable intent of Congress.

Section 7525(l) of this title, referred to in subsec. (k)(1)(B)(v), was in the original “section 202(l) of the Clean Air Act”, which was translated as meaning section 202(l) of the Clean Air Act, to reflect the probable intent of Congress.

Executive Order 13134, referred to in subsec. (o)(4)(B), which was set out as a note under section 8601 of Title 7, Agriculture, was revoked by Ex. Ord. No. 13423, §11(a)(III), Jan. 24, 2007, 72 F.R. 3923.

The part referred to in subsec. (o)(3), was in the original “this subtitle” which was translated as “this part”, meaning part A of title II of act July 14, 1955, as the probable intent of Congress, because title II of act July 14, 1955, does not contain subtitles.

CODIFICATION

Section was formerly classified to section 1857f–6c of this title.

PRIOR PROVISIONS

A prior section 211 of act July 14, 1955, as added Nov. 21, 1967, Pub. L. 90–148, §2, 81 Stat. 503, provided for a national emissions standards study and was classified to section 1857f–6d of this title, prior to repeal by section 8(a) of Pub. L. 91–604.

AMENDMENTS

2007—Subsec. (c)(1). Pub. L. 110–140, §208, substituted “nonroad vehicle if, in the judgment of the Administrator, any fuel or fuel additive or, for “nonroad vehicle (A) if in the judgment of the Administrator” and “air pollution or water pollution (including any degradation in the quality of groundwater) that” for “air pollution which”.

Subsec. (o)(4). Pub. L. 110–140, §251, amended par. (4) generally. Prior to amendment, par. (4) read as follows: “The Administrator, upon application of any manufacturer of any fuel or fuel additive, may waive the prohibitions established under paragraph (1) or (3) of this subsection or the limitation specified in paragraph (2) of this subsection, if he determines that the applicant has established that such fuel or fuel additive or a specified concentration thereof, and the emission products of such additive or specified concentration thereof, will not cause or contribute to a failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified pursuant to section 7525 of this title. If the Administrator has not acted to grant or deny an application under this paragraph within one hundred and eighty days of receipt of such application, the waiver authorized by this paragraph shall be treated as granted.”

Subsec. (o)(1). Pub. L. 110–140, §201, amended par. (1) generally. Prior to amendment, par. (1) defined “cellulosic biomass ethanol”, “deleterious effects”, “mutagenic effects”, and “plant-based diesel and renewable diesel, as (s) and (t), respectively.

Subsec. (o)(2)(A)(i). Pub. L. 110–140, §202(a)(1), inserted at end “Not later than 1 year after December 19, 2007, the Administrator shall revise the regulations under this paragraph to ensure that transportation fuel sold or introduced into commerce in the United States (except in noncontiguous States or territories), on an annual average basis, contains at least the applicable volume of renewable fuel, advanced biofuel, cellulosic biofuel, and biomass-based diesel, determined in accordance with subparagraph (B) and, in the case of any such renewable fuel produced from new facilities that commence construction after December 19, 2007, achieves at least a 20 percent reduction in lifecycle greenhouse gas emissions compared to baseline lifecycle greenhouse gas emissions.”

Subsec. (o)(2)(B). Pub. L. 110–140, §202(a)(2), amended subpar. (B) generally. Prior to amendment, subpar. (B) set forth table of applicable volumes for renewable fuel and related to determination of applicable volumes after the years addressed by the table, including the minimum quantity of renewable fuel to be derived from cellulosic biomass and the method of calculating the minimum applicable volume.

Subsec. (o)(4). Pub. L. 110–140, §202(c), amended par. (4) generally. Prior to amendment, text read as follows: “For the purpose of paragraph (2), 1 gallon of cellulosic biomass ethanol or waste derived ethanol shall be considered to be the equivalent of 2.5 gallons of renewable fuel.”

Subsec. (o)(7)(A). Pub. L. 110–140, §202(e)(1), inserted “...by any person subject to the requirements of this subsection, or by the Administrator on his own motion...” after “one or more States” in introductory proviuns.

Subsec. (o)(7)(D) to (F). Pub. L. 110–140, §202(e)(2), (3), added subpars. (D) to (F).

Subsecs. (r), (s). Pub. L. 110–140, §247, redesignated subsecs. (r), relating to conversion assistance for cellulosic biomass, waste-derived ethanol, approved renewable fuels, and (s) as (r) and (t), respectively.

Subsec. (u). Pub. L. 110–140, §247, which directed amendment of this section by adding subsec. (u) at the end, was executed by adding subsec. (u) after subsec. (t) to reflect the probable intent of Congress.

Subsec. (b)(2)(A). Pub. L. 109–98, §1505(1)(B), added subpar. (A) and struck out former subpar. (A) which read as follows: “...to conduct tests to determine potential public health effects of such fuel or additive (including, but not limited to, carcinogenic, teratogenic, and mutagenic effects),”
§ 7545

Subsec. (c)(4)(C). Pub. L. 109–58, § 1541(a), designated existing provisions as cl. (1) and added cl. (2), respectively, and struck out cl. (3), relating to waiver authority.

Subsec. (h)(5), (6). Pub. L. 109–58, § 1501(c), added par. (5) and redesignated former par. (5) as (6).

Subsec. (k)(1). Pub. L. 109–58, § 1504(b), designated existing provisions as subpar. (A), inserted heading, subpart (A), and inserted subpar. (B), struck out heading and text of former subpar. (A), inserted heading, substituted “Not later than November 15, 1991,” for “Within 1 year after November 15, 1990,” and added subpar. (B).

Subsec. (k)(2)(A). Pub. L. 109–58, § 1540(a)(1)(A)(i), struck out “(including the oxygen content requirement contained in subparagraph (B))” after “requirements of this paragraph”.

Subsec. (k)(2)(B) to (D). Pub. L. 109–58, § 1504(a)(1)(A)(ii), (iii), redesignated subpars. (C) and (D) as (B) and (C), respectively, and struck out heading and text of former subpar. (B). Text read as follows: “The oxygen content of the reformulated gasoline shall equal or exceed 2.0 percent by weight (subject to a testing tolerance established by the Administrator) except as otherwise required by this chapter. The Administrator may waive, in whole or in part, the application of this subparagraph for any ozone nonattainment area upon a determination by the Administrator that compliance with such requirement would prevent or interfere with the attainment by the area of a national primary ambient air quality standard.”

Subsec. (k)(3)(A)(v). Pub. L. 109–58, § 1504(a)(1)(B), struck out heading and text of cl. (v), struck out “(including the oxygen content requirement contained in subparagraph (B))” after “requirements of this paragraph”.

Subsec. (k)(3)(B). Pub. L. 109–58, § 1507, redesignated subpars. (A) and (B) as cl. (i) and (ii), respectively, of subpar. (A), inserted subpar. and cl. headings, in cl. (ii) substituted “clause (i)” for “subparagraph (A)” and “this subparagraph” for “this paragraph”, and added subpar. (B).

Subsec. (k)(7). Pub. L. 109–58, § 1504(a)(1)(C)(ii), redesignated cl. (ii) and (iii) as (i) and (ii), respectively, and struck out former cl. (i) which read as follows: “has an oxygen content (by weight) that exceeds the minimum oxygen content specified in paragraph (2);”.

Subsec. (k)(7)(C)(iii). Pub. L. 109–58, § 1507, redesignated cl. (ii) as (i) and struck out former cl. (i) which read as follows: “An average gasoline oxygen content (by weight) for the nonattainment area (taking into account all gasoline sold for use in conventional gasoline-fueled vehicles in the nonattainment area) lower than the average gasoline oxygen content (by weight) that would occur in the absence of using any such credits;”.

Subsec. (q). Pub. L. 109–58, § 1506, which directed amendment of this section by adding subsec. (q) after subsec. (p), was executed by making the addition after subsec. (o) to reflect the probable intent of Congress.

Subsec. (s). Pub. L. 109–58, § 1513, added subsec. (s).

1990—Subsec. (a). Pub. L. 101–549, § 212(b), (c), inserted reference to nonroad engine or nonroad vehicle.

Subsec. (c)(4)(A). Pub. L. 101–549, § 212(a), substituted “any characteristic or component of a” for “use of a”, inserted “of the characteristic or component of a fuel or fuel additive after “control or prohibition” in cl. (i), and inserted “characteristic or component of a” after “such” in cl. (ii).

Subsec. (c)(4)(C). Pub. L. 101–549, § 213(b), inserted last two sentences, authorizing Administrator to make a finding that State control or prohibition is necessary to achieve the standard.

Subsec. (d). Pub. L. 101–549, § 218(d), amended subsec. (d) generally. Prior to amendment, subsec. (d) read as follows: “Any person who violates subsection (a) or (f) of this section or the regulations prescribed under subsection (c) of this section or who fails to furnish any information required by the Administrator under subsection (b) of this section shall forfeit and pay to the United States a civil penalty of $10,000 for each and every day of the continuance of such violation, which shall accrue to the United States and be recovered in a civil suit in the name of the United States, brought in the district where such person has his principal office or in any district in which he does business. The Administrator may, upon application therefor, remit or mitigate any forfeiture provided for in this subsection and he shall have authority to determine the facts upon all such applications.”

Subsec. (f)(1). Pub. L. 101–549, § 214(a), designated existing provisions as subpar. (A) and added subpar. (B).

Subsec. (f)(3). Pub. L. 101–549, § 214(b), substituted reference to paragraph (1)(A) for reference to paragraph (1).

Subsec. (g). Pub. L. 101–549, § 215, amended subsec. (g) generally, substituting present provisions for provisions which defined “gasoline”, “refinery”, and “small refinery” and which limited Administrator’s authority to require small refineries to reduce average lead content per gallon of gasoline.

Subsecs. (k) to (m). Pub. L. 101–549, § 219, added subsecs. (k) to (m).

1997—Subsec. (c)(1)(A). Pub. L. 96–95, § 401(e), substituted “if the judgment of the Administrator any emission product of such fuel or fuel additive represents a contribution to air pollution which may reasonably be anticipated to endanger” for “if any emission products of such fuel or fuel additive will endanger”.

Subsec. (d). Pub. L. 95–95, § 222(b), inserted “or (f)” after “Any person who violates subsection (a)”.

Subsec. (e). (f). Pub. L. 95–95, § 222(a), added subsecs. (e) and (f).

Subsec. (f)(2). Pub. L. 95–190, § 14(a)(73), inserted provision relating to waiver under par. (4) of this subsec., and struck out “first” before “introduce”.

Subsec. (f)(4). Pub. L. 95–190, § 14(a)(74), inserted provision relating to applicability of limitation specified under par. (2) of this subsec.

Subsec. (g). Pub. L. 95–95, § 223, added subsec. (g).

Subsec. (d). Pub. L. 92–157, § 302(e), substituted “subsection (b)” for “subsection (o)” where appearing the second time.

1970—Subsec. (a). Pub. L. 91–604, § 9(a), substituted “Administrator” for “Secretary” as the registering authority, inserted references to fuel additives, and substituted the selling, offering for sale, and introduction into commerce of fuel or fuel additives, for the delivery for introduction into interstate commerce or delivery to another person who can reasonably be expected to deliver any fuel into interstate commerce.

Subsec. (b). Pub. L. 91–604, § 9(a), designated existing provisions as pars. (1) and (3), added par. (2), and sub-
stituted “Administrator” for “Secretary” wherever appearing.

Subsec. (c). Pub. L. 91–604, §9(a), substituted provisions covering the control or prohibition of offending fuels and fuel additives, for provisions covering trade secrets and substituted “Administrator” for “Secretary” wherever appearing.

Subsec. (d). Pub. L. 91–604, §9(a), inserted references to failure to obey regulations prescribed under subsec. (c) and failure to furnish information required by the Administrator under subsec. (c), increased the daily civil penalty from $1,000 to $10,000 and substituted “Administrator” for “Secretary”.

Subsec. (e). Pub. L. 91–604, §9(a), struck out subsec. (e) which directed the various United States Attorneys to prosecute for the recovery of forfeitures.

EFFECTIVE DATE OF 2007 AMENDMENT
Pub. L. 110–140, title II, §210(c), Dec. 19, 2007, 121 Stat. 1532, provided that: “The amendments made by this title to section 211(o) of the Clean Air Act [42 U.S.C. 7545(o)] shall take effect January 1, 2008, except that the Administrator of the Environmental Protection Agency shall promulgate regulations to carry out such amendments not later than 1 year after the enactment of this Act [Dec. 19, 2007].”

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 162A of Pub. L. 110–140, set out as an Effective Date note under section 162A of Title 2, The Congress.

EFFECTIVE DATE OF 2005 AMENDMENT

(1) in the case of a State that has received a waiver under section 209(b) of the Clean Air Act (42 U.S.C. 7543(b)), beginning on the date of enactment of this Act [Aug. 8, 2005]; and

(2) in the case of any other State, beginning 270 days after the date of enactment of this Act [Aug. 8, 2005].

EFFECTIVE DATE OF 1977 AMENDMENT
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

SAVINGS
Pub. L. 109–58, title XV, §1504(d), Aug. 8, 2005, 119 Stat. 1079, provided that: “(a) In General.—Not later than 3 years after the enactment of this section [Aug. 7, 1977] and every 3 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall assess and report to Congress on the impacts to date and likely future impacts of the requirements of section 211(o) of the Clean Air Act [42 U.S.C. 7545(o)] on the—

(1) Environmental issues, including air quality, effects on hypoxia, pesticides, sediment, nutrient and pathogen levels in waters, acreage and function of waters, and soil environmental quality.

(2) Resource conservation issues, including soil conservation, water availability, and ecosystem health and biodiversity, including impacts on forests, grasslands, and wetlands.

(3) The growth and use of cultivated invasive or noxious plants and their impacts on the environment and agriculture.

In advance of preparing the report required by this subsection, the Administrator may seek the views of the National Academy of Sciences or another appropriate independent research institute. The report shall include the annual volume of imported renewable fuels and feedstocks for renewable fuels, and the environmental impacts outside the United States of producing such fuels and feedstocks. The report required by this subsection shall include recommendations for actions to address any adverse impacts found.

(b) Effect on Air Quality and Other Environmental Requirements.— Except as provided in section 211(o)(12) of the Clean Air Act [42 U.S.C. 7545(o)(12)], nothing in the amendments made by this title to section 211(o) of the Clean Air Act shall be construed as superseding, or limiting, any more environmentally protective requirement under the Clean Air Act [42 U.S.C. 7401 et seq.], or under any other provision of State or Federal law or regulation, including any environmental law or regulation.”

TRANSITION RULES
Pub. L. 110–140, title II, §210(a), Dec. 19, 2007, 121 Stat. 1532, provided that: “(1) For calendar year 2008, transportation fuel sold or introduced into commerce in the United States (except in noncontiguous States or territories), that is produced from facilities that commence construction after the date of enactment of this Act [Dec. 19, 2007] shall be treated as renewable fuel within the meaning of section 211(o) of the Clean Air Act [42 U.S.C. 7545(o)] only if it achieves at least a 20 percent reduction in lifecycle greenhouse gas emissions compared to baseline lifecycle greenhouse gas emissions computed to baseline. The term ‘baseline’ is defined in the regulations adopted pursuant to section 211(o)(1) of the Clean Air Act. The terms used in this subsection shall have the same
meaning as provided in the amendment made by this Act to section 211(o) of the Clean Air Act.

"(2) Until January 1, 2009, the Administrator of the Environmental Protection Agency shall implement section 211(o) of the Clean Air Act and the rules promulgated under that section in accordance with the provisions of that section as in effect before the enactment of this Act and in accordance with the rules promulgated before the enactment of this Act, except that for calendar year 2008, the number '9.0' shall be substituted for the number '5.4' in the table in section 211(o)(2)(B) and in the corresponding rules promulgated to carry out those provisions. The Administrator is authorized to take such other actions as may be necessary to carry out this paragraph notwithstanding any other provision of law.

SURVEY OF RENEWABLE FUEL MARKET
Pub. L. 109–58, title XV, §1501(d), Aug. 8, 2005, 119 Stat. 1075, provided that:

'(1) SURVEY AND REPORT.—Not later than December 1, 2006, and annually thereafter, the Administrator of the Environmental Protection Agency (in consultation with the Secretary of Energy acting through the Administrator of the Energy Information Administration) shall—

'(A) conduct, with respect to each conventional gasoline use area and each reformulated gasoline use area in each State, a survey to determine the market shares of—

'(i) conventional gasoline containing ethanol;

'(ii) reformulated gasoline containing ethanol;

'(iii) conventional gasoline containing renewable fuel; and

'(iv) reformulated gasoline containing renewable fuel; and

'(B) submit to Congress, and make publicly available, a report on the results of the survey under subparagraph (A).

'(2) RECORDKEEPING AND REPORTING REQUIREMENTS.—The Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the 'Administrator') may require any refiner, blender, or importer to keep such records and make such reports as are necessary to ensure that the survey conducted under paragraph (1) is accurate. The Administrator, to avoid duplicative requirements, shall rely, to the extent practicable, on existing reporting and recordkeeping requirements and other information available to the Administrator including gasoline distribution patterns that include multistate use areas.

'(3) APPLICABLE LAW.—Activities carried out under this subsection shall be conducted in a manner designed to protect confidentiality of individual responses.

FINDINGS

'(1) since 1979, methyl tertiary butyl ether (hereinafter in this section referred to as ‘MTBE’) has been used nationwide at low levels in gasoline to replace lead as an octane booster or anti-knocking agent;

'(2) Public Law 101–549 (commonly known as the ‘Clean Air Act Amendments of 1990’) (42 U.S.C. 7401 et seq.) (see Tables for classification) established a fuel oxygenate standard under which reformulated gasoline must contain at least 2 percent oxygen by weight; and

'(3) the fuel industry responded to the fuel oxygenate standard established by Public Law 101–549 by making substantial investments in—

'(A) MTBE production capacity; and

'(B) systems to deliver MTBE-containing gasoline to the marketplace.'

CLAIMS FILED AFTER JULY 1, 2005
Pub. L. 109–58, title XV, §1503, Aug. 8, 2005, 119 Stat. 1076, provided that: ‘Claims and legal actions filed after the date of enactment of this Act (Aug. 8, 2005) related to allegations involving actual or threatened contamination of methyl tertiary butyl ether (MTBE) may not be removed to the appropriate United States district court.’

FINDINGS AND SENSE OF CONGRESS ON ETHANOL USAGE

'(a) FINDINGS.—Congress finds that—

'(1) the United States is dependent for a large and growing share of its energy needs on the Middle East at a time when world petroleum reserves are declining;

'(2) the burning of gasoline causes pollution;

'(3) ethanol can be blended with gasoline to produce a cleaner source of fuel;

'(4) ethanol can be produced from grain, a renewable resource that is in considerable surplus in the United States;

'(5) the conversion of grain into ethanol would reduce farm program costs and surpluses; and

'(6) increasing the quantity of motor fuels that contain at least 10 percent ethanol from current levels to 50 percent by 1992 would create thousands of new jobs in ethanol production facilities.

'(b) SENSE OF CONGRESS.—It is the sense of Congress that the Administrator of the Environmental Protection Agency should use authority provided under the Clean Air Act (42 U.S.C. 7541 et seq.) to require greater use of ethanol as motor fuel.'

AGRICULTURAL MACHINERY: STUDY OF UNLEADED FUEL
Pub. L. 99–198, title XVII, §1765, Dec. 23, 1985, 99 Stat. 1633, directed Administrator of EPA and Secretary of Agriculture jointly to conduct a study of use of fuel containing lead additives, and alternative lubricating additives, in gasoline engines that are used in agricultural machinery, and designed to combust fuel containing such additives, study to analyze potential for mechanical problems (including but not limited to valve recession) that may be associated with use of other fuels in such engines, and not later than Jan. 1, 1987, Administrator and Secretary to publish results of the study, with Administrator to publish in Federal Register notice of publication of such study and a summary thereof; directed Administrator, after notice and opportunity for hearing, but not later than 6 months after publication of the study, to make findings and recommendations on need for lead additives in gasoline to be used on a farm for farming purposes, including a determination of whether a modification of regulations limiting lead content of gasoline would be appropriate in the case of gasoline used on a farm for farming purposes, and submit to President and Congress a report containing the study, a summary of comments received during public hearing (including comments of Secretary), and findings and recommendations of Administrator made in accordance with clause (1), such report to be transmitted named congressional committees; directed Administrator between Jan. 1, 1986, and Dec. 31, 1987, to monitor actual lead content of leaded gasoline sold in the United States, with Administrator to determine average lead content of such gasoline for each 3-month period between Jan. 1, 1986, and Dec. 31, 1987, and if actual lead content falls below an average of 0.2 of a gram of lead per gallon in any such 3-month period, to report to Congress, and publish a notice thereof in Federal Register; provided that until Jan. 1, 1986, no regulation of Administrator issued under this section 211 could require an average lead content per gallon that is less than 0.1 of a gram per gallon; and authorized an appropriation.

MODIFICATION OR RECESS OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS
All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or
other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7546. Renewable fuel

(a) Definitions

In this section:

(1) Municipal solid waste

The term "municipal solid waste" has the meaning given the term "solid waste" in section 6003 of this title.

(2) RFG State

The term "RFG State" means a State in which is located one or more covered areas (as defined in section 7545(k)(10)(D) of this title).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Cellulosic biomass ethanol and municipal solid waste loan guarantee program

(1) In general

Funds may be provided for the cost (as defined in the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.)) of loan guarantees issued under title XIV of the Energy Policy Act 1 to carry out commercial demonstration projects for cellulosic 2 biomass and sucrose-derived ethanol.

(2) Demonstration projects

(A) In general

The Secretary shall issue loan guarantees under this section to carry out not more than 4 projects to commercially demonstrate the feasibility and viability of producing cellulosic biomass ethanol or sucrose-derived ethanol, including at least 1 project that uses cereal straw as a feedstock and 1 project that uses municipal solid waste as a feedstock.

(B) Design capacity

Each project shall have a design capacity to produce at least 30,000,000 gallons of cellulosic biomass ethanol each year.

(3) Applicant assurances

An applicant for a loan guarantee under this section shall provide assurances, satisfactory to the Secretary, that—

(A) the project design has been validated through the operation of a continuous process facility with a cumulative output of at least 50,000 gallons of ethanol;

(B) the project has been subject to a full technical review;

(C) the project is covered by adequate project performance guarantees;

(D) the project, with the loan guarantee, is economically viable; and

(E) there is a reasonable assurance of repayment of the guaranteed loan.

(4) Limitations

(A) Maximum guarantee

Except as provided in subparagraph (B), a loan guarantee under this section may be issued for up to 80 percent of the estimated cost of a project, but may not exceed $225,000,000 for a project.

(B) Additional guarantees

(i) In general

The Secretary may issue additional loan guarantees for a project to cover up to 80 percent of the excess of actual project cost over estimated project cost but not to exceed 15 percent of the amount of the original guarantee.

(ii) Principal and interest

Subject to subparagraph (A), the Secretary shall guarantee 100 percent of the principal and interest of a loan made under subparagraph (A).

(5) Equity contributions

To be eligible for a loan guarantee under this section, an applicant for the loan guarantee shall have binding commitments from equity investors to provide an initial equity contribution of at least 20 percent of the total project cost.

(6) Insufficient amounts

If the amount made available to carry out this section is insufficient to allow the Secretary to make loan guarantees for 3 projects described in subsection (b) of this section, the Secretary shall issue loan guarantees for one or more qualifying projects under this section in the order in which the applications for the projects are received by the Secretary.

(7) Approval

An application for a loan guarantee under this section shall be approved or disapproved by the Secretary not later than 90 days after the application is received by the Secretary.

(c) Authorization of appropriations for resource center

There is authorized to be appropriated, for a resource center to further develop bioconversion technology using low-cost biomass for the production of ethanol at the Center for Biomass-Based Energy at the Mississippi State University and the Oklahoma State University, $4,000,000 for each of fiscal years 2005 through 2007.

(d) Renewable fuel production research and development grants

(1) In general

The Administrator shall provide grants for the research into, and development and implementation of, renewable fuel production technologies in RFG States with low rates of ethanol production, including low rates of production of cellulosic biomass ethanol.

(2) Eligibility

(A) In general

The entities eligible to receive a grant under this subsection are academic institu-
tions in RFG States, and consortia made up of combinations of academic institutions, industry, State government agencies, or local government agencies in RFG States, that have proven experience and capabilities with relevant technologies.

(B) Application

To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Administrator an application in such manner and form, and accompanied by such information, as the Administrator may specify.

(3) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $25,000,000 for each of fiscal years 2006 through 2010.

(e) Cellulosic biomass ethanol conversion assistance

(1) In general

The Secretary may provide grants to merchant producers of cellulosic biomass ethanol in the United States to assist the producers in building eligible production facilities described in paragraph (2) for the production of cellulosic biomass ethanol.

(2) Eligible production facilities

A production facility shall be eligible to receive a grant under this subsection if the production facility—

(A) is located in the United States; and

(B) uses cellulosic biomass feedstocks derived from agricultural residues or municipal solid waste.

(3) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection—

(A) $250,000,000 for fiscal year 2006; and

(B) $400,000,000 for fiscal year 2007.

(3) Authorization of appropriations

REFERENCES IN TEXT

A prior section 212 of act July 14, 1955, was renumbered section 218 by Pub. L. 91–604, renumbered section 214 by Pub. L. 93–319, and renumbered section 218 by Pub. L. 95–95, and is classified to section 7550 of this title.

§7547. Nonroad engines and vehicles

(a) Emissions standards

(1) The Administrator shall conduct a study of emissions from nonroad engines and nonroad vehicles (other than locomotives or engines used in locomotives) to determine if such emissions cause, or significantly contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare. Such study shall be completed within 12 months of November 15, 1990.

(2) After notice and opportunity for public hearing, the Administrator shall determine within 12 months after completion of the study under paragraph (1), based upon the results of such study, whether emissions of carbon monoxide, oxides of nitrogen, and volatile organic compounds from new and existing nonroad engines or nonroad vehicles (other than locomotives or engines used in locomotives) are significant contributors to ozone or carbon monoxide concentrations in more than 1 area which has failed to attain the national ambient air quality standards for ozone or carbon monoxide. Such determination shall be included in the regulations under paragraph (3).

(3) If the Administrator makes an affirmative determination under paragraph (2) the Administrator shall, within 12 months after completion of the study under paragraph (1), promulgate (and from time to time revise) regulations containing standards applicable to emissions from those classes or categories of new nonroad engines and new nonroad vehicles (other than locomotives or engines used in locomotives) which in the Administrator's judgment cause, or contribute to, such air pollution. Such standards shall achieve the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the engines or vehicles to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology. In determining what degree of reduction will be available, the Administrator shall first consider standards equivalent in stringency to standards for comparable motor vehicles or engines (if any) regulated under section 7521 of this title, taking into account the technological feasibility, costs, safety, noise, and energy factors associated with achieving, as appropriate, standards of such stringency and lead time. The regulations shall apply to the useful life of the engines or vehicles (as determined by the Administrator).

(4) If the Administrator determines that any emissions not referred to in paragraph (2) from
new nonroad engines or vehicles significantly contribute to air pollution which may reasonably be anticipated to endanger public health or welfare, the Administrator may promulgate (and from time to time revise) such regulations as he deems appropriate containing standards applicable to emissions from those classes or categories of new nonroad engines and new nonroad vehicles (other than locomotives or engines used in locomotives) which in his judgment cause, or contribute to, such air pollution, taking into account costs, noise, safety, and energy factors associated with the application of technology which the Administrator determines will be available for the engines and vehicles to which such standards apply. The regulations shall apply to the useful life of the engines or vehicles (as determined by the Administrator).

(5) Within 5 years after November 15, 1990, the Administrator shall promulgate regulations containing standards applicable to emissions from new locomotives and new engines used in locomotives. Such standards shall achieve the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the locomotives or engines to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology.

(b) Effective date

Standards under this section shall take effect at the earliest possible date considering the lead time necessary to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within such period and energy and safety.

(c) Safe controls

Effective with respect to new engines or vehicles to which standards under this section apply, no control device, system, or element of design shall be used in such a new nonroad engine or new nonroad vehicle for purposes of complying with such standards if such device, system, or element of design will cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation or function. In determining whether an unreasonable risk exists, the Administrator shall consider factors including those described in section 7521(a)(4)(B) of this title.

(d) Enforcement

The standards under this section shall be subject to sections 7525, 7541, 7542, and 7543 of this title, with such modifications of the applicable regulations implementing such sections as the Administrator deems appropriate, and shall be enforced in the same manner as standards prescribed under section 7521 of this title. The Administrator shall revise or promulgate regulations as may be necessary to determine compliance with, and enforce, standards in effect under this section.

Section was formerly classified to section 1857f–6f of this title.

PRIOR PROVISIONS

A prior section 213 of act July 14, 1955, was renumbered section 214 by Pub. L. 93–319 and renumbered section 216 by Pub. L. 95–95, and is classified to section 7550 of this title.

AMENDMENTS

1990—Pub. L. 101–549 amended section generally, substituting present provisions for provisions requiring Administrator and Secretary of Transportation to conduct study on fuel economy improvement for new motor vehicles manufactured during and after model year 1980.

REGULATIONS RELATING TO STANDARDS TO REDUCE EMISSIONS

(July 14, 1955, ch. 360, title II, §214, as added Pub. L. 95–95, 91 Stat. 767.)

§ 7548. Study of particulate emissions from motor vehicles

(a) Study and analysis

(1) The Administrator shall conduct a study concerning the effects on health and welfare of particulate emissions from motor vehicles or motor vehicle engines to which section 7521 of this title applies. Such study shall characterize and quantify such emissions and analyze the relationship of such emissions to various fuels and fuel additives.

(2) The study shall also include an analysis of particulate emissions from mobile sources which are not related to engine emissions (including, but not limited to tire debris, and asbestos from brake lining).

(b) Report to Congress

The Administrator shall report to the Congress the findings and results of the study conducted under subsection (a) of this section not later than two years after August 7, 1977. Such report shall also include recommendations for standards or methods to regulate particulate emissions described in paragraph (2) of subsection (a) of this section.

PRIOR PROVISIONS

A prior section 214 of act July 14, 1955, was renumbered section 216 by Pub. L. 95–95 and is classified to section 7550 of this title.

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7001 of this title.

STUDY ON SUSPENDED PARTICULATE MATTER

Section 403(a) of Pub. L. 95–95 directed Administrator of EPA, not later than 18 months after Aug. 7, 1977, in
cooperation with National Academy of Sciences, to study and report to Congress on relationship between size, weight, and chemical composition of suspended particulate matter and nature and degree of endangerment to public health or welfare presented by such particulate matter and availability of technology for controlling such particulate matter.

§ 7549. High altitude performance adjustments

(a) Instruction of the manufacturer

(1) Any action taken with respect to any element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this subchapter (including any alteration or adjustment of such element), shall be treated as not in violation of section 7522(a) of this title if such action is performed in accordance with high altitude adjustment instructions provided by the manufacturer under subsection (b) of this section and approved by the Administrator.

(2) If the Administrator finds that adjustments or modifications made pursuant to instructions of the manufacturer under paragraph (1) will insure emission control performance with respect to each standard under section 7521 of this title at least equivalent to that which would result if no such adjustments or modifications were made, he shall disapprove such instructions. Such finding shall be based upon minimum engineering evaluations consistent with good engineering practice.

(b) Regulations

(1) Instructions respecting each class or category of vehicles or engines to which this subchapter applies providing for such vehicle and engine adjustments and modifications as may be necessary to insure emission control performance at different altitudes shall be submitted by the manufacturer to the Administrator pursuant to regulations promulgated by the Administrator.

(2) Any knowing violation by a manufacturer of requirements of the Administrator under paragraph (1) shall be treated as a violation by such manufacturer of section 7522(a)(3) of this title for purposes of the penalties contained in section 7524 of this title.

(3) Such instructions shall provide, in addition to other adjustments, for adjustments for vehicles moving from high altitude areas to low altitude areas after the initial registration of such vehicles.

(c) Manufacturer parts

No instructions under this section respecting adjustments or modifications may require the use of any manufacturer parts (as defined in section 7522(a) of this title) unless the manufacturer demonstrates to the satisfaction of the Administrator that the use of such manufacturer parts is necessary to insure emission control performance.

(d) State inspection and maintenance programs

Before January 1, 1981, the authority provided by this section shall be available in any high altitude State (as determined under regulations of the Administrator under regulations promulgated before August 7, 1977) but after December 31, 1980, such authority shall be available only in any such State in which an inspection and maintenance program for the testing of motor vehicle emissions has been instituted for the portions of the State where any national ambient air quality standard for auto-related pollutants has not been attained.

(e) High altitude testing

(1) The Administrator shall promptly establish at least one testing center (in addition to the testing centers existing on November 15, 1990) located at a site that represents high altitude conditions, to ascertain in a reasonable manner whether, when in actual use throughout their useful life (as determined under section 7521(d) of this title), each class or category of vehicle and engines to which regulations under section 7521 of this title apply conforms to the emissions standards established by such regulations. For purposes of this subsection, the term “high altitude conditions” refers to high altitude as defined in regulations of the Administrator in effect as of November 15, 1990.

(2) The Administrator, in cooperation with the Secretary of Energy and the Administrator of the Federal Transit Administration, and such other agencies as the Administrator deems appropriate, shall establish a research and technology assessment center to provide for the development and evaluation of less-polluting heavy-duty engines and fuels for use in buses, heavy-duty trucks, and non-road engines and vehicles, which shall be located at a high-altitude site that represents high-altitude conditions.

(3) The Administrator shall designate at least one center at high-altitude conditions to provide research on after-market emission components, dual-fueled vehicles and conversion kits, the effects of tampering on emissions equipment, testing of alternate fuels and conversion kits, and the development of curricula, training courses, and materials to maximize the effectiveness of inspection and maintenance programs as they relate to promoting effective control of vehicle emissions at high-altitude elevations. Preference shall be given to existing vehicle emissions testing and research centers that have established reputations for vehicle emissions research and development and training, and that possess in-house Federal Test Procedure capacity.

CODIFICATION

In subsec. (d), “August 7, 1977” substituted for “the date of enactment of this Act” to reflect the probable intent of Congress that such date of enactment meant the date of enactment of Pub. L. 95–95.

AMENDMENTS

“Federal Transit Administration” substituted for “Urban Mass Transportation Administration” in subsec. (e)(2) pursuant to section 3004(b) of Pub. L. 102–240, set out as a note under section 107 of Title 49, Transportation.

**Effective Date**

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

**§ 7550. Definitions**

As used in this part—

(1) The term “manufacturer” as used in sections 7521, 7522, 7525, 7541, and 7542 of this title means any person engaged in the manufacturing or assembling of new motor vehicles, new motor vehicle engines, new nonroad vehicles or new nonroad engines, or importing such vehicles or engines for resale, or who acts for and is under the control of any such person in connection with the distribution of new motor vehicles, new motor vehicle engines, new nonroad vehicles or new nonroad engines, but shall not include any dealer with respect to new motor vehicles, new motor vehicle engines, new nonroad vehicles or new nonroad engines received by him in commerce.

(2) The term “motor vehicle” means any self-propelled vehicle designed for transporting persons or property on a street or highway.

(3) Except with respect to vehicles or engines imported or offered for importation, the term “new motor vehicle” means a motor vehicle the equitable or legal title to which has never been transferred to an ultimate purchaser; and the term “new motor vehicle engine” means an engine in a new motor vehicle or a motor vehicle engine the equitable or legal title to which has never been transferred to the ultimate purchaser; and with respect to imported vehicles or engines, such terms mean a motor vehicle and engine, respectively, manufactured after the effective date of a regulation issued under section 7521 of this title which is applicable to such vehicle or engine (or which would be applicable to such vehicle or engine had it been manufactured for importation into the United States).

(4) The term “dealer” means any person who is engaged in the sale or the distribution of new motor vehicles or new motor vehicle engines to the ultimate purchaser.

(5) The term “ultimate purchaser” means, with respect to any new motor vehicle or new motor vehicle engine, the first person who in good faith purchases such new motor vehicle or new engine for purposes other than resale.

(6) The term “commerce” means (A) commerce between any place in any State and any place outside thereof; and (B) commerce wholly within the District of Columbia.

(7) **Vehicle curb weight, gross vehicle weight rating, light-duty truck, light-duty vehicle, and loaded vehicle weight.**—The terms “vehicle curb weight”, “gross vehicle weight rating” (GVWR), “light-duty truck” (LDT), light-duty vehicle, and “loaded vehicle weight” have the meaning provided in regulations promulgated by the Administrator and in effect as of November 15, 1990. The abbreviations in parentheses corresponding to any term referred to in this paragraph shall have the same meaning as the corresponding term.

(8) **Test weight.**—The term “test weight” and the abbreviation “tw” mean the vehicle curb weight added to the gross vehicle weight rating (GVWR) and divided by 2.

(9) **Motor vehicle or engine part manufacturer.**—The term “motor vehicle or engine part manufacturer” as used in sections 7541 and 7542 of this title means any person engaged in the manufacturing, assembling or rebuilding of any device, system, part, component or element of design which is installed in or on motor vehicles or motor vehicle engines.

(10) **Nonroad engine.**—The term “nonroad engine” means an internal combustion engine (including the fuel system) that is not used in a motor vehicle or a vehicle used solely for competition, or that is not subject to standards promulgated under section 7411 of this title or section 7521 of this title.

(11) **Nonroad vehicle.**—The term “nonroad vehicle” means a vehicle that is powered by a nonroad engine and that is not a motor vehicle or a vehicle used solely for competition.

**Conspicuation**

Section was formerly classified to section 1857f–7 of this title.

**Amendments**

1990—Par. (1). Pub. L. 101–549, §223(b), inserted references to new nonroad vehicles or new nonroad engines.

Pars. (7) to (11). Pub. L. 101–549, §223(a), added paras. (7) to (11).

Par. (3). Pub. L. 91–604, §10(d)(2), inserted provisions which defined such terms with respect to imported vehicles or engines.

1967—Pub. L. 90–148 inserted “as used in sections 7522, 7525, 7541, and 7542 of this title” after “manufacturer” in par. (1).

**§ 7551. Omitted**

§ 7552. Motor vehicle compliance program fees

(a) Fee collection

Consistent with section 9701 of title 31, the Administrator may promulgate (and from time to time revise) regulations establishing fees to recover all reasonable costs to the Administrator associated with—

(1) new vehicle or engine certification under section 7525(a) of this title or part C of this subchapter,

(2) new vehicle or engine compliance monitoring and testing under section 7525(b) of this title or part C of this subchapter, and

(3) in-use vehicle or engine compliance monitoring and testing under section 7541(c) of this title or part C of this subchapter.

The Administrator may establish for all foreign and domestic manufacturers a fee schedule based on such factors as the Administrator finds appropriate and equitable and nondiscriminatory, including the number of vehicles or engines produced under a certificate of conformity. In the case of heavy-duty engine and vehicle manufacturers, such fees shall not exceed a reasonable amount to recover an appropriate portion of such reasonable costs.

(b) Special Treasury fund

Any fees collected under this section shall be deposited in a special fund in the United States Treasury for licensing and other services which thereafter shall be available for appropriation, to remain available until expended, to carry out the Agency’s activities for which the fees were collected.

(c) Limitation on fund use

Moneys in the special fund referred to in subsection (b) of this section shall not be used until after the first fiscal year commencing after the first July 1 when fees are paid into the fund.

(d) Administrator's testing authority

Nothing in this subsection shall be construed to limit the Administrator's authority to require manufacturer or confirmatory testing as provided in this part.

§ 7553. Prohibition on production of engines requiring leaded gasoline

The Administrator shall promulgate regulations applicable to motor vehicle engines and nonroad engines manufactured after model year 1992 that prohibit the manufacture, sale, or introduction into commerce of any engine that requires leaded gasoline.

§ 7554. Urban bus standards

(a) Standards for model years after 1993

Not later than January 1, 1992, the Administrator shall promulgate regulations under section 7521(a) of this title applicable to urban buses for the model year 1994 and thereafter. Such standards shall be based on the best technology that can reasonably be anticipated to be available at the time such measures are to be implemented, taking costs, safety, energy, lead time, and other relevant factors into account. Such regulations shall require that such urban buses comply with the provisions of subsection (b) of this section (and subsection (c) of this subsection, if applicable) in addition to compliance with the standards applicable under section 7521(a) of this title for heavy-duty vehicles of the same type and model year.

(b) PM standard

(1) 50 percent reduction

The standards under section 7521(a) of this title applicable to urban buses shall require that, effective for the model year 1994 and thereafter, emissions of particulate matter (PM) from urban buses shall not exceed 50 percent of the emissions of particulate matter (PM) allowed under the emission standard applicable under section 7521(a) of this title as of November 15, 1990, for particulate matter (PM) in the case of heavy-duty diesel vehicles and engines manufactured in the model year 1994.

(2) Revised reduction

The Administrator may increase the level of emissions of particulate matter allowed under the standard referred to in paragraph (1) if the Administrator determines that the 50 percent reduction referred to in paragraph (1) is not technologically achievable, taking into account durability, costs, lead time, safety, and other relevant factors. The Administrator may not increase such level of emissions above 70 percent of the emissions of particulate matter (PM) allowed under the emission standard applicable under section 7521(a) of this title as of November 15, 1990, for particulate matter (PM) in the case of heavy-duty diesel vehicles and engines manufactured in the model year 1994.

(3) Determination as part of rule

As part of the rulemaking under subsection (a) of this section, the Administrator shall make a determination as to whether the 50 percent reduction referred to in paragraph (1) is technologically achievable, taking into account durability, costs, lead time, safety, and other relevant factors.

(c) Low-polluting fuel requirement

(1) Annual testing

Beginning with model year 1994 buses, the Administrator shall conduct annual tests of a representative sample of operating urban buses subject to the particulate matter (PM) standard applicable pursuant to subsection (b) of this section to determine whether such buses comply with such standard in use over their full useful life.

1 So in original. Probably should be "section."
(2) Promulgation of additional low-polluting fuel requirement
(A) If the Administrator determines, based on the testing under paragraph (1), that urban buses subject to the particulate matter (PM) standard applicable pursuant to subsection (b) of this section do not comply with such standard in use over their full useful life, he shall revise the standards applicable to such buses to require (in addition to compliance with the PM standard applicable pursuant to subsection (b) of this section) that all new urban buses purchased or placed into service by owners or operators of urban buses in all metropolitan statistical areas or consolidated metropolitan statistical areas with a 1980 population of 750,000 or more shall be capable of operating, and shall be exclusively operated, on low-polluting fuels. The Administrator shall establish the pass-fail rate for purposes of testing under this subparagraph.
(B) The Administrator shall promulgate a schedule phasing in any low-polluting fuel requirement established pursuant to this paragraph to an increasing percentage of new urban buses purchased or placed into service in each of the first 5 model years commencing 3 years after the determination under subparagraph (A). Under such schedule 100 percent of new urban buses placed into service in the fifth model year commencing 3 years after the determination under subparagraph (A) shall comply with the low-polluting fuel requirement established pursuant to this paragraph.
(C) The Administrator may extend the requirements of this paragraph to metropolitan statistical areas or consolidated metropolitan statistical areas with a 1980 population of less than 750,000 if the Administrator determines that a significant benefit to public health could be expected to result from such extension.
(d) Retrofit requirements
Not later than 12 months after November 15, 1990, the Administrator shall promulgate regulations under section 7521(a) of this title requiring that urban buses which—
(1) are operating in areas referred to in subparagraph (A) of subsection (c)(2) of this section (or subparagraph (C) of subsection (c)(2) of this section if the Administrator has taken action under that subparagraph);
(2) were not subject to standards in effect under the regulations under subsection (a) of this section; and
(3) have their engines replaced or rebuilt after January 1, 1995,
shall comply with an emissions standard or emissions control technology requirement established by the Administrator in such regulations. Such emissions standard or emissions control technology requirement shall reflect the best retrofit technology and maintenance practices reasonably achievable.
(e) Procedures for administration and enforcement
The Administrator shall establish, within 18 months after November 15, 1990, and in accordance with section 7225(h) of this title, procedures for the administration and enforcement of standards for buses subject to standards under this section, testing procedures, sampling protocols, in-use compliance requirements, and criteria governing evaluation of buses. Procedures for testing (including, but not limited to, certification testing) shall reflect actual operating conditions.
(f) Definitions
For purposes of this section—
(1) Urban bus
The term “urban bus” has the meaning provided under regulations of the Administrator promulgated under section 7521(a) of this title.
(2) Low-polluting fuel
The term “low-polluting fuel” means methanol, ethanol, propane, or natural gas, or any comparably low-polluting fuel. In determining whether a fuel is comparably low-polluting, the Administrator shall consider both the level of emissions of air pollutants from vehicles using the fuel and the contribution of such emissions to ambient levels of air pollutants. For purposes of this paragraph, the term “methanol” includes any fuel which contains at least 85 percent methanol unless the Administrator increases such percentage as he deems appropriate to protect public health and welfare.

PART B—AIRCRAFT EMISSION STANDARDS
§ 7571. Establishment of standards

(a) Study; proposed standards; hearings; issuance of regulations
(1) Within 90 days after December 31, 1970, the Administrator shall commence a study and investigation of emissions of air pollutants from aircraft in order to determine
(A) the extent to which such emissions affect air quality in air quality control regions throughout the United States, and
(B) the technological feasibility of controlling such emissions.
(2)(A) The Administrator shall, from time to time, issue proposed emission standards applicable to the emission of any air pollutant from any class or classes of aircraft engines which in his judgment causes, or contributes to, air pollution which may reasonably be anticipated to endanger public health or welfare.
(B)(i) The Administrator shall consult with the Administrator of the Federal Aviation Administration on aircraft engine emission standards.
(ii) The Administrator shall not change the aircraft engine emission standards if such change would significantly increase noise and adversely affect safety.
(3) The Administrator shall hold public hearings with respect to such proposed standards. Such hearings shall, to the extent practicable, be held in air quality control regions which are most seriously affected by aircraft emissions. Within 90 days after the issuance of such pro-
posed regulations, he shall issue such regulations with such modifications as he deems appropriate. Such regulations may be revised from time to time.

(b) Effective date of regulations
Any regulation prescribed under this section (and any revision thereof) shall take effect after such period as the Administrator finds necessary (after consultation with the Secretary of Transportation) to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within such period.

(c) Regulations which create hazards to aircraft safety
Any regulations in effect under this section on August 7, 1977, or proposed or promulgated thereafter, or amendments thereto, with respect to aircraft shall not apply if disapproved by the President, after notice and opportunity for public hearing, on the basis of a finding by the Secretary of Transportation that any such regulation would create a hazard to aircraft safety. Any such finding shall include a reasonably specific statement of the basis upon which the finding was made.

CODIFICATION
Section was formerly classified to section 1857f–9 of this title.

AMENDMENTS
1996—Subsec. (a)(2). Pub. L. 104–264 designated existing provision as subpar. (A) and added subpar. (B).
1977—Subsec. (a)(2). Pub. L. 95–95, § 401(f), substituted “The Administrator shall, from time to time, issue proposed emission standards applicable to the emission of any air pollutant from any class or classes of aircraft engines which in his judgment causes, or contributes to, air pollution which may reasonably be anticipated to endanger public health or welfare” for “Within 180 days after commencing such study and investigation, the Administrator shall publish a report of such study and investigation and shall issue proposed emission standards applicable to emissions of any air pollutant from any class or classes of aircraft engines which in his judgment cause or contribute to or are likely to cause or contribute to air pollution which endangers the public health or welfare”.
Subsec. (c). Pub. L. 95–95, §225, substituted “Any regulations in effect under this section on August 7, 1977, or proposed or promulgated thereafter, or amendments thereto, with respect to aircraft shall not apply if disapproved by the President, after notice and opportunity for public hearing, on the basis of a finding by the Secretary of Transportation that any such regulation would create a hazard to aircraft safety” for “Any regulations under this section, or amendments thereto, with respect to aircraft, shall not apply if disapproved by the President, after notice and opportunity for public hearing, on the basis of a finding by the Secretary of Transportation that any such regulation would create a hazard to aircraft safety” and inserted provision that findings include a reasonably specific statement of the basis upon which the finding was made.

EFFECTIVE DATE OF 1996 AMENDMENT
Except as otherwise specifically provided, amendment by Pub. L. 104–264 applicable only to fiscal years beginning after Sept. 30, 1996, and not to be construed as affecting funds made available for a fiscal year ending before Oct. 1, 1996, see section 3 of Pub. L. 104–264, set out as a note under section 106 of Title 49, Transportation.

EFFECTIVE DATE OF 1977 AMENDMENT
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

STUDY AND INVESTIGATION OF UNINSTALLED AIRCRAFT ENGINES
Pub. L. 101–549, title II, § 233, Nov. 15, 1990, 104 Stat. 2529, provided that:
“(a) Study.—The Administrator of the Environmental Protection Agency and the Secretary of Transportation, in consultation with the Secretary of Defense, shall commence a study and investigation of the testing of uninstalled aircraft engines in enclosed test cells that shall address at a minimum the following issues and such other issues as they shall deem appropriate—

“(1) whether technologies exist to control some or all emissions of oxides of nitrogen from test cells;
“(2) the effectiveness of such technologies;
“(3) the cost of implementing such technologies;
“(4) whether such technologies affect the safety, design, structure, operation, or performance of aircraft engines;
“(5) whether such technologies impair the effectiveness and accuracy of aircraft engine safety design, and performance tests conducted in test cells; and
“(6) the impact of not controlling such oxides of nitrogen in the applicable nonattainment areas and on other sources, stationary and mobile, on oxides of nitrogen in such areas.

“(b) Report, Authority To Regulate.—Not later than 24 months after enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], the Administrator of the Environmental Protection Agency and the Secretary of Transportation shall submit to Congress a report of the study conducted under this section. Following the completion of such study, any of the States may adopt or enforce any standard for emissions of oxides of nitrogen from test cells only after issuing a public notice stating whether such standards are in accordance with the findings of the study.”

§ 7572. Enforcement of standards
(a) Regulations to insure compliance with standards
The Secretary of Transportation, after consultation with the Administrator, shall prescribe regulations to insure compliance with all standards prescribed under section 7571 of this title by the Administrator. The regulations of the Secretary of Transportation shall include provisions making such standards applicable in the issuance, amendment, modification, suspen-
sion, or revocation of any certificate authorized by part A of subtitle VII of title 49 or the Department of Transportation Act. Such Secretary shall insure that all necessary inspections are accomplished, and, may execute any power or duty vested in him by any other provision of law in the execution of all powers and duties vested in him under this section.

(b) Notice and appeal rights

In any action to amend, modify, suspend, or revoke a certificate in which violation of an emission standard prescribed under section 7571 of this title or of a regulation prescribed under subsection (a) of this section is at issue, the certificate holder shall have the same notice and appeal rights as are prescribed for such holders in part A of subtitle VII of title 49 or the Department of Transportation Act, except that in any appeal to the National Transportation Safety Board, the Board may amend, modify, or revoke the order of the Secretary of Transportation only if it finds no violation of such standard or regulation and that such amendment, modification, or revocation is consistent with safety in air transportation.

REFERENCES IN TEXT

The Department of Transportation Act, referred to in subsecs. (a) and (b), is Pub. L. 89–670, Oct. 15, 1966, 80 Stat. 931, as amended, which was classified principally to sections 1651 to 1660 of former Title 49, Transportation. The Act was repealed and the provisions thereof reenacted in Title 49, Transportation, by Pub. L. 97–449, Dec. 21, 1982, 96 Stat. 2413, and Pub. L. 103–272, July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

Section was formerly classified to section 1857f–12 of this title.

PART C—CLEAN FUEL VEHICLES

§7581. Definitions

For purposes of this part—

(1) Terms defined in part A

The definitions applicable to part A under section 7550 of this title shall also apply for purposes of this part.

(2) Clean alternative fuel

The term “clean alternative fuel” means any fuel (including methanol, ethanol, or other alcohols (including any mixture thereof containing 85 percent or more by volume of such alcohol with gasoline or other fuels), reformulated gasoline, diesel, natural gas, liquefied petroleum gas, and hydrogen) or power source (including electricity) used in a clean-fuel vehicle that complies with the standards and requirements applicable to such vehicle under this subchapter when using such fuel or power source. In the case of any flexible fuel vehicle or dual fuel vehicle, the term “clean alternative fuel” means only a fuel with respect to which such vehicle was certified as a clean-fuel vehicle meeting the standards applicable to clean-fuel vehicles under section 7583(d)(2) of this title when operating on clean alternative fuel (or any CARB standards which replaces such standards pursuant to section 7583(e) of this title).

(3) NMOG

The term “nonmethane organic gas” (“NMOG”) means the sum of nonoxygenated and oxygenated hydrocarbons contained in a gas sample, including, at a minimum, all oxygenated organic gases containing 5 or fewer carbon atoms (i.e., aldehydes, ketones, alcohols, ethers, etc.), and all known alkanes, alkenes, alkydes, and aromatics containing 12 or fewer carbon atoms. To demonstrate compliance with a NMOG standard, NMOG emissions shall be measured in accordance with the “California Non-Methane Organic Gas Test Procedures”. In the case of vehicles using fuels other than base gasoline, the level of NMOG emissions shall be adjusted based on the reactivity of the emissions relative to vehicles using base gasoline.

§7573. State standards and controls

No State or political subdivision thereof may adopt or attempt to enforce any standard respecting emissions of any air pollutant from any aircraft or engine thereof unless such standard is identical to a standard applicable to such aircraft under this part.

CODIFICATION

Section was formerly classified to section 1857f–10 of this title.

§7574. Definitions

Terms used in this part (other than Administrator) shall have the same meaning as such terms have under section 40102(a) of title 49.

1 See in original. The comma probably should not appear.
§ 7582. Requirements applicable to clean-fuel vehicles

(a) Promulgation of standards
Not later than 24 months after November 15, 1990, the Administrator shall promulgate regulations under this part containing clean-fuel vehicle standards for the clean-fuel vehicles specified in this part.

(b) Other requirements
Clean-fuel vehicles of up to 8,500 gwvr subject to standards set forth in this part shall comply with all motor vehicle requirements of this subchapter (such as requirements relating to onboard diagnostics, evaporative emissions, etc.) which are applicable to conventional gasoline-fueled vehicles of the same category and model year, except as provided in section 7584 of this title with respect to administration and enforcement, and except to the extent that any such requirement is in conflict with the provisions of this part. Clean-fuel vehicles of 8,500 gwvr or greater subject to standards set forth in this part shall comply with all requirements of this subchapter which are applicable in the case of conventional gasoline-fueled or diesel fueled vehicles of the same category and model year, except as provided in section 7584 of this title with respect to administration and enforcement, and except to the extent that any such requirement is in conflict with the provisions of this part.

(c) In-use useful life and testing

(1) In the case of light-duty vehicles and light-duty trucks up to 6,000 lbs gwvr, the useful life for purposes of determining in-use compliance with the standards under section 7583 of this title shall be—
   (A) a period of 5 years or 50,000 miles (or the equivalent) whichever first occurs, in the case of standards applicable for purposes of certification at 50,000 miles; and
   (B) a period of 10 years or 100,000 miles (or the equivalent) whichever first occurs, in the case of standards applicable for purposes of certification at 100,000 miles, except that in-use testing shall not be done for a period beyond 7 years or 75,000 miles (or the equivalent) whichever first occurs.

(2) In the case of light-duty trucks of more than 6,000 lbs gwvr, the useful life for purposes of determining in-use compliance with the standards under section 7583 of this title shall be—
   (A) a period of 5 years or 50,000 miles (or the equivalent) whichever first occurs in the case of standards applicable for purposes of certification at 50,000 miles; and
   (B) a period of 11 years or 120,000 miles (or the equivalent) whichever first occurs in the case of standards applicable for purposes of certification at 120,000 miles, except that in-use testing shall not be done for a period beyond 7 years or 90,000 miles (or the equivalent) whichever first occurs.

§ 7582. Requirements applicable to clean-fuel vehicles

(a) Promulgation of standards
Not later than 24 months after November 15, 1990, the Administrator shall promulgate regulations under this part containing clean-fuel vehicle standards for the clean-fuel vehicles specified in this part.

(b) Other requirements
Clean-fuel vehicles of up to 8,500 gwvr subject to standards set forth in this part shall comply with all motor vehicle requirements of this subchapter (such as requirements relating to onboard diagnostics, evaporative emissions, etc.) which are applicable to conventional gasoline-fueled vehicles of the same category and model year, except as provided in section 7584 of this title with respect to administration and enforcement, and except to the extent that any such requirement is in conflict with the provisions of this part. Clean-fuel vehicles of 8,500 gwvr or greater subject to standards set forth in this part shall comply with all requirements of this subchapter which are applicable in the case of conventional gasoline-fueled or diesel fueled vehicles of the same category and model year, except as provided in section 7584 of this title with respect to administration and enforcement, and except to the extent that any such requirement is in conflict with the provisions of this part.

(c) In-use useful life and testing

(1) In the case of light-duty vehicles and light-duty trucks up to 6,000 lbs gwvr, the useful life for purposes of determining in-use compliance with the standards under section 7583 of this title shall be—
   (A) a period of 5 years or 50,000 miles (or the equivalent) whichever first occurs, in the case of standards applicable for purposes of certification at 50,000 miles; and
   (B) a period of 10 years or 100,000 miles (or the equivalent) whichever first occurs, in the case of standards applicable for purposes of certification at 100,000 miles, except that in-use testing shall not be done for a period beyond 7 years or 75,000 miles (or the equivalent) whichever first occurs.

(2) In the case of light-duty trucks of more than 6,000 lbs gwvr, the useful life for purposes of determining in-use compliance with the standards under section 7583 of this title shall be—
   (A) a period of 5 years or 50,000 miles (or the equivalent) whichever first occurs in the case of standards applicable for purposes of certification at 50,000 miles; and
   (B) a period of 11 years or 120,000 miles (or the equivalent) whichever first occurs in the case of standards applicable for purposes of certification at 120,000 miles, except that in-use testing shall not be done for a period beyond 7 years or 90,000 miles (or the equivalent) whichever first occurs.

§ 7583. Standards for light-duty clean-fuel vehicles

(a) Exhaust standards for light-duty vehicles and certain light-duty trucks

The standards set forth in this subsection shall apply in the case of clean-fuel vehicles which are light-duty trucks of up to 6,000 lbs. gross vehicle weight rating (gvwr) (but not including light-duty trucks of more than 3,750 lbs. loaded vehicle weight (lvw)) or light-duty vehicles:

(1) Phase I

Beginning with model year 1996, for the air pollutants specified in the following table, the clean-fuel vehicle standards under this section shall provide that vehicle exhaust emissions shall not exceed the levels specified in the following table:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>NMNO</th>
<th>CO</th>
<th>NOx</th>
<th>PM</th>
<th>HCHO (formaldehyde)</th>
</tr>
</thead>
<tbody>
<tr>
<td>50,000 mile standard</td>
<td>0.125</td>
<td>3.4</td>
<td>0.4</td>
<td>.......</td>
<td>0.015</td>
</tr>
<tr>
<td>100,000 mile standard</td>
<td>0.156</td>
<td>4.2</td>
<td>0.6</td>
<td>0.08*</td>
<td>0.018</td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (gpm).

*Standards for particulates (PM) shall apply only to diesel-fueled vehicles.

In the case of the 50,000 mile standards and the 100,000 mile standards, for purposes of certification, the applicable useful life shall be 50,000 miles or 100,000 miles, respectively.

(2) Phase II

Beginning with model year 2001, for air pollutants specified in the following table, the clean-fuel vehicle standards under this section shall provide that vehicle exhaust emissions shall not exceed the levels specified in the following table:

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>NMNO</th>
<th>CO</th>
<th>NOx</th>
<th>PM*</th>
<th>HCHO (formaldehyde)</th>
</tr>
</thead>
<tbody>
<tr>
<td>50,000 mile standard</td>
<td>0.160</td>
<td>4.4</td>
<td>0.7</td>
<td>.......</td>
<td>0.018</td>
</tr>
<tr>
<td>100,000 mile standard</td>
<td>0.200</td>
<td>5.5</td>
<td>0.9</td>
<td>0.08</td>
<td>0.023</td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (gpm).

*Standards for particulates (PM) shall apply only to diesel-fueled vehicles.

Beginning with model year 1996, for the air pollutants specified in the following table, the clean-fuel vehicle standards under this section shall provide that vehicle exhaust emissions shall not exceed the levels specified in the following table.

PHASE I CLEAN FUEL VEHICLE EMISSION STANDARDS FOR LIGHT-DUTY TRUCKS OF UP TO 3,750 LBS. LVW AND UP TO 6,000 LBS. GVWR AND LIGHT-DUTY VEHICLES

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>NMNO</th>
<th>CO</th>
<th>NOx</th>
<th>PM*</th>
<th>HCHO (formaldehyde)</th>
</tr>
</thead>
<tbody>
<tr>
<td>50,000 mile standard</td>
<td>0.130</td>
<td>4.4</td>
<td>0.5</td>
<td>.......</td>
<td>0.018</td>
</tr>
<tr>
<td>100,000 mile standard</td>
<td>0.160</td>
<td>4.4</td>
<td>0.7</td>
<td>.......</td>
<td></td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (gpm).

*Standards for particulates (PM) shall apply only to diesel-fueled vehicles.

In the case of the 50,000 mile standards and the 100,000 mile standards, for purposes of certification, the applicable useful life shall be 50,000 miles or 100,000 miles, respectively.

PHASE II CLEAN FUEL VEHICLE EMISSION STANDARDS FOR LIGHT-DUTY TRUCKS OF MORE THAN 3,750 LBS. AND UP TO 6,000 LBS. GVWR

<table>
<thead>
<tr>
<th>Pollutant</th>
<th>NMNO</th>
<th>CO</th>
<th>NOx</th>
<th>PM*</th>
<th>HCHO (formaldehyde)</th>
</tr>
</thead>
<tbody>
<tr>
<td>50,000 mile standard</td>
<td>0.100</td>
<td>4.4</td>
<td>0.4</td>
<td>.......</td>
<td>0.018</td>
</tr>
<tr>
<td>100,000 mile standard</td>
<td>0.130</td>
<td>5.5</td>
<td>0.5</td>
<td>0.08</td>
<td>0.023</td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (gpm).

*Standards for particulates (PM) shall apply only to diesel-fueled vehicles.

In the case of the 50,000 mile standards and the 100,000 mile standards, for purposes of certification, the applicable useful life shall be 50,000 miles or 100,000 miles, respectively.

(c) Exhaust standards for light-duty trucks greater than 6,000 lbs. GVWR

The standards set forth in this subsection shall apply in the case of clean-fuel vehicles which are light-duty trucks of more than 6,000 lbs. gross weight rating (GVWR) and less than or

*So in original. Probably should be “subsection”.

1
equal to 8,500 lbs. GVWR, beginning with model year 1998. For the air pollutants specified in the following table, the clean-fuel vehicle standards under this section shall provide that vehicle exhaust emissions of vehicles within the test weight categories specified in the following table shall not exceed the levels specified in such table.

**CLEAN FUEL VEHICLE EMISSION STANDARDS FOR LIGHT DUTY TRUCKS GREATER THAN 6,000 LBS. GVWR**

Test Weight Category: Up to 3,750 lbs. tw

<td>1.5</td>
<td>0.12</td>
<td>0.032</td>
</tr>
</tbody>
</table>

Standards are expressed in grams per mile (gpm).

*Standards for particulates (PM) shall apply only to diesel-fueled vehicles.

**Standard not applicable to diesel-fueled vehicles.

(d) Flexible and dual-fuel vehicles

(1) In general

The Administrator shall establish standards and requirements under this section for the model year 1996 and thereafter for vehicles weighing not more than 8,500 lbs. GVWR which are capable of operating on more than one fuel. Such standards shall require that such vehicles meet the exhaust standards applicable under subsection (a), (b), and (c) of this section for CO, NOx, and HCHO, and if appropriate, PM for single-fuel vehicles of the same vehicle category and model year.

(2) Exhaust NMOG standard for operation on clean alternative fuel

In addition to standards for the pollutants referred to in paragraph (1), the standards established under paragraph (1) shall require that vehicle exhaust emissions of NMOG not exceed the levels (expressed in grams per mile) specified in the tables below when the vehicle is operated on the clean alternative fuel for which such vehicle is certified:

**NMOG STANDARDS FOR FLEXIBLE- AND DUAL-FUELED VEHICLES WHEN OPERATING ON CLEAN ALTERNATIVE FUEL**

Light-duty Trucks up to 6,000 lbs. GVWR and Light-duty vehicles

<table>

For standards under column A, for purposes of certification under section 7525 of this title, the applicable useful life shall be 50,000 miles.

For standards under column B, for purposes of certification under section 7525 of this title, the applicable useful life shall be 120,000 miles.

(e) Replacement by CARB standards

(1) Single set of CARB standards

If the State of California promulgates regulations establishing and implementing a single set of standards applicable in California pursuant to a waiver approved under section 7543 of this title to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section and such set of standards is, in the aggregate, at least as protective of public health and welfare as the otherwise applicable standards set forth in section 7582 of this title and subsection (a), (b), (c), or (d) of this section, such set of California standards shall apply to clean-fuel vehicles in such category in lieu of the standards otherwise applicable under section 7582 of this title and subsection (a), (b), (c), or (d) of this section, as the case may be.

(2) Multiple sets of CARB standards

If the State of California promulgates regulations establishing and implementing several different sets of standards applicable in California pursuant to a waiver approved under section 7543 of this title to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section and each of such sets of California standards is, in the aggregate, at least as protective of public health and welfare as the otherwise applicable standards set forth in section 7582 of this title and subsection (a), (b), (c), or (d) of this section, such standards shall be treated as “qualifying California standards” for purposes of this paragraph. Where more than one set of qualifying standards are established and administered by the State of California, the least stringent set of qualifying California standards shall apply to the clean-fuel vehicles concerned in lieu of the standards otherwise applicable to such vehicles under section 7582 of this title and this section.

(f) Less stringent CARB standards

If the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board applicable to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section are modified after November 15, 1990, to provide an emissions standard which is less stringent than the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section, or if any effective date contained in such regulations is delayed, such modified standards or such delay (or both, as the case may be) shall apply, for an interim period, in lieu of the standard or effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section to any vehicles covered by such modified standard or delayed effective date. The interim period shall be a period of not more than 2 model years from the effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section. After such interim period, the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section shall take effect with respect to such vehicles (unless subsequently replaced under subsection (e) of this section).

(g) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(1) Single set of CARB standards

If the State of California promulgates regulations establishing and implementing a single set of standards applicable in California pursuant to a waiver approved under section 7543 of this title to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section and such set of standards is, in the aggregate, at least as protective of public health and welfare as the otherwise applicable standards set forth in section 7582 of this title and subsection (a), (b), (c), or (d) of this section, such standards shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(2) Multiple sets of CARB standards

If the State of California promulgates regulations establishing and implementing several different sets of standards applicable to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR and the least stringent set of such standards is, in the aggregate, at least as protective of public health and welfare as the otherwise applicable standards set forth in section 7582 of this title and subsection (a), (b), (c), or (d) of this section, such standards shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(3) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(4) Less stringent CARB standards

If the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board applicable to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section are modified after November 15, 1990, to provide an emissions standard which is less stringent than the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section, or if any effective date contained in such regulations is delayed, such modified standards or such delay (or both, as the case may be) shall apply, for an interim period, in lieu of the standard or effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section. After such interim period, the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section shall take effect with respect to such vehicles (unless subsequently replaced under subsection (e) of this section).

(5) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(6) Less stringent CARB standards

If the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board applicable to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section are modified after November 15, 1990, to provide an emissions standard which is less stringent than the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section, or if any effective date contained in such regulations is delayed, such modified standards or such delay (or both, as the case may be) shall apply, for an interim period, in lieu of the standard or effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section. After such interim period, the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section shall take effect with respect to such vehicles (unless subsequently replaced under subsection (e) of this section).

(7) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(8) Less stringent CARB standards

If the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board applicable to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section are modified after November 15, 1990, to provide an emissions standard which is less stringent than the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section, or if any effective date contained in such regulations is delayed, such modified standards or such delay (or both, as the case may be) shall apply, for an interim period, in lieu of the standard or effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section. After such interim period, the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section shall take effect with respect to such vehicles (unless subsequently replaced under subsection (e) of this section).

(9) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.

(10) Less stringent CARB standards

If the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board applicable to any category of vehicles referred to in subsection (a), (b), (c), or (d) of this section are modified after November 15, 1990, to provide an emissions standard which is less stringent than the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section, or if any effective date contained in such regulations is delayed, such modified standards or such delay (or both, as the case may be) shall apply, for an interim period, in lieu of the standard or effective date otherwise applicable under subsection (a), (b), (c), or (d) of this section. After such interim period, the otherwise applicable standard set forth in subsection (a), (b), (c), or (d) of this section shall take effect with respect to such vehicles (unless subsequently replaced under subsection (e) of this section).

(11) Not applicable to heavy-duty vehicles

Notwithstanding any provision of the Low-Emission Vehicle and Clean Fuels Regulations of the California Air Resources Board nothing in this section shall apply to heavy-duty engines in vehicles of more than 8,500 lbs. GVWR.
icle program under this section) that any such administration and enforcement would not meet the criteria for a waiver under section 7543 of this title. Nothing in this section shall apply in the case of standards under section 7585 of this title for heavy-duty vehicles.

(July 14, 1955, ch. 360, title II, § 244, as added Pub. L. 101–549, title II, § 229(a), Nov. 15, 1990, 104 Stat. 2519.)

§ 7585. Standards for heavy-duty clean-fuel vehicles (GVWR above 8,500 up to 26,000 lbs.)

(a) Model years after 1997; combined NO\textsubscript{x} and NMHC standard

For classes or categories of heavy-duty vehicles or engines manufactured for the model year 1998 or thereafter and having a GVWR greater than 8,500 lbs. and up to 26,000 lbs. GVWR, the standards under this part for clean-fuel vehicles shall require that combined emissions of oxides of nitrogen (NO\textsubscript{x}) and nonmethane hydrocarbons (NMHC) shall not exceed 3.15 grams per brake horsepower hour (equivalent to 50 percent of the combined emission standards applicable under section 7521 of this title for such air pollutants in the case of a conventional model year 1994 heavy-duty diesel-fueled vehicle or engine). No standard shall be promulgated as provided in this section for any heavy-duty vehicle of more than 26,000 lbs. GVWR.

(b) Revised standards that are less stringent

(1) The Administrator may promulgate a revised less stringent standard for the vehicles or engines referred to in subsection (a) of this section if the Administrator determines that the 50 percent reduction required under subsection (a) of this section is not technologically feasible for clean diesel-fueled vehicles and engines, taking into account durability, costs, lead time, safety, and other relevant factors. To provide adequate lead time the Administrator shall make a determination with regard to the technological feasibility of such 50 percent reduction before December 31, 1993.

(2) Any person may at any time petition the Administrator to make a determination under paragraph (1). The Administrator shall act on such a petition within 6 months after the petition is filed.

(3) Any revised less stringent standards promulgated as provided in this subsection shall require at least a 30 percent reduction in lieu of the 50 percent reduction referred to in paragraph (1).

§ 7586. Centrally fueled fleets

(a) Fleet program required for certain nonattainment areas

(1) SIP revision

Each State in which there is located all or part of a covered area (as defined in paragraph (2)) shall submit, within 42 months after November 15, 1990, a State implementation plan revision under section 7410 of this title and part D of subchapter I of this chapter to establish a clean-fuel vehicle program for fleets under this section.

(2) Covered areas

For purposes of this subsection, each of the following shall be a “covered area”:

(A) Ozone nonattainment areas

Any ozone nonattainment area with a 1980 population of 250,000 or more classified under part D of subchapter I of this chapter as Serious, Severe, or Extreme based on data for the calendar years 1987, 1988, and 1989. In determining the ozone nonattainment areas to be treated as covered areas pursuant to this subparagraph, the Administrator shall use the most recent interpretation methodology issued by the Administrator prior to November 15, 1990.

(B) Carbon monoxide nonattainment areas

Any carbon monoxide nonattainment area with a 1980 population of 250,000 or more and a carbon monoxide design value at or above 16.0 parts per million based on data for calendar years 1988 and 1989 (as calculated according to the most recent interpretation methodology issued prior to November 15, 1990, by the United States Environmental Protection Agency), excluding those carbon monoxide nonattainment areas in which mobile sources do not contribute significantly to carbon monoxide exceedances.

(3) Plan revisions for reclassified areas

In the case of ozone nonattainment areas reclassified as Serious, Severe, or Extreme under part D of subchapter I of this chapter with a 1980 population of 250,000 or more, the State shall submit a plan revision meeting the requirements of this subsection within 1 year after reclassification. Such plan revision shall implement the requirements applicable under this subsection at the time of reclassification and thereafter, except that the Administrator may adjust for a limited period the deadlines for compliance where compliance with such deadlines would be infeasible.

(4) Consultation; consideration of factors

Each State required to submit an implementation plan revision under this subsection shall develop such revision in consultation with fleet operators, vehicle manufacturers, fuel producers and distributors, motor vehicle fuel, and other interested parties, taking into consideration operational range, specialty uses, vehicle and fuel availability, costs, safety, resale values of vehicles and equipment and other relevant factors.

(b) Phase-in of requirements

The plan revision required under this section shall contain provisions requiring that at least a specified percentage of all new covered fleet vehicles in model year 1998 and thereafter purchased by each covered fleet operator in each covered area shall be clean-fuel vehicles and shall use clean alternative fuels when operating in the covered area. For the applicable model years (MY) specified in the following table and thereafter, the specified percentage shall be as provided in the table for the vehicle types set forth in the table:
CLEAN FUEL VEHICLE PHASE-IN REQUIREMENTS FOR FLEETS

<table>
<thead>
<tr>
<th>Vehicle Type</th>
<th>MY1998</th>
<th>MY1999</th>
<th>MY2000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light-duty trucks up to 6,000 lbs. GVWR and light-duty vehicles</td>
<td>30%</td>
<td>50%</td>
<td>70%</td>
</tr>
<tr>
<td>Heavy-duty trucks above 8,500 lbs. GVWR</td>
<td>50%</td>
<td>50%</td>
<td>50%</td>
</tr>
</tbody>
</table>

The term MY refers to model year.

(c) Accelerated standard for light-duty trucks up to 6,000 lbs. GVWR and light-duty vehicles

Notwithstanding the model years for which clean-fuel vehicle standards are applicable as provided in section 7583 of this title, for purposes of this section, light-duty 1 trucks of up to 6,000 lbs. GVWR and light-duty vehicles manufactured in model years 1998 through model year 2000 shall be treated as clean-fuel vehicles only if such vehicles comply with the standards applicable under section 7583 of this title for vehicles in the same class for the model year 2001. The requirements of subsection (b) of this section shall take effect on the earlier of the following:

(1) The first model year after model year 1997 in which new light-duty trucks up to 6,000 lbs. GVWR and light-duty vehicles which comply with the model year 2001 standards under section 7583 of this title are offered for sale in California.

Whenever the effective date of subsection (b) of this section is delayed pursuant to paragraph (1) of this subsection, the phase-in schedule under subsection (b) of this section shall be modified to commence with the model year referred to in paragraph (1) in lieu of model year 1998.

(d) Choice of vehicles and fuel

The plan revision under this subsection shall provide that the choice of clean-fuel vehicles and clean alternative fuels shall be made by the covered fleet operator subject to the requirements of this subsection.

(e) Availability of clean alternative fuel

The plan revision shall require fuel providers to make clean alternative fuel available to covered fleet operators at locations at which covered fleet vehicles are centrally fueled.

(f) Credits

(1) Issuance of credits

The State plan revision required under this section shall provide for the issuance by the State of appropriate credits to a fleet operator for any of the following (or any combination thereof):

(A) The purchase of more clean-fuel vehicles than required under this section.

(B) The purchase of clean fuel 2 vehicles which meet more stringent standards established by the Administrator pursuant to paragraph (4).

(C) The purchase of vehicles in categories which are not covered by this section but which meet standards established for such vehicles under paragraph (4).

(2) Use of credits; limitations based on weight classes

(A) Use of credits

Credits under this subsection may be used by the person holding such credits to demonstrate compliance with this section or may be traded or sold for use by any other person to demonstrate compliance with other requirements applicable under this section in the same nonattainment area. Credits obtained at any time may be held or banked for use at any later time, and when so used, such credits shall maintain the same value as if used at an earlier date.

(B) Limitations based on weight classes

Credits issued with respect to the purchase of vehicles of up to 8,500 lbs. GVWR may not be used to demonstrate compliance by any person with the requirements applicable under this subsection to vehicles of more than 8,500 lbs. GVWR. Credits issued with respect to the purchase of vehicles of more than 8,500 lbs. GVWR may not be used to demonstrate compliance by any person with the requirements applicable under this subsection to vehicles weighing up to 8,500 lbs. GVWR.

(C) Weighting

Credits issued for purchase of a clean fuel 2 vehicle under this subsection shall be adjusted with appropriate weighting to reflect the level of emission reduction achieved by the vehicle.

(3) Regulations and administration

Within 12 months after November 15, 1990, the Administrator shall promulgate regulations for such credit program. The State shall administer the credit program established under this subsection.

(4) Standards for issuing credits for cleaner vehicles

Solely for purposes of issuing credits under paragraph (1)(B), the Administrator shall establish under this paragraph standards for Ultra-Low Emission Vehicles ("ULEV"s) and Zero Emissions Vehicles ("ZEV"s) which shall be more stringent than those otherwise applicable to clean-fuel vehicles under this part. The Administrator shall certify clean fuel 2 vehicles as complying with such more stringent standards, and administer and enforce such more stringent standards, in the same manner as in the case of the otherwise applicable clean-fuel vehicle standards established under this section. The standards established by the Administrator under this paragraph for vehicles under 8,500 lbs. GVWR or greater shall conform as closely as possible to standards which are established by the State of California for ULEV and ZEV vehicles in the same class. For vehicles of 8,500 lbs. GVWR or more, the Administrator shall promulgate comparable standards for purposes of this subsection.

(5) Early fleet credits

The State plan revision shall provide credits under this subsection to fleet operators that

---

1 So in original. Probably should be “light-duty”.

2 So in original. Probably should be “clean-fuel”.
purchase vehicles certified to meet clean-fuel vehicle standards under this part during any period after approval of the plan revision and prior to the effective date of the fleet program under this section.

(g) Availability to public

At any facility owned or operated by a department, agency, or instrumentality of the United States where vehicles subject to this subsection are supplied with clean alternative fuel, such fuel shall be offered for sale to the public for use in other vehicles during reasonable business times and subject to national security concerns, unless such fuel is commercially available for vehicles in the vicinity of such Federal facilities.

(h) Transportation control measures

The Administrator shall by rule, within 1 year after November 15, 1990, ensure that certain transportation control measures including time-of-day or day-of-week restrictions, and other similar measures that restrict vehicle usage, do not apply to any clean-fuel vehicle that meets the requirements of this section. This subsection shall apply notwithstanding subchapter I of this chapter.

§ 7587. Vehicle conversions

(a) Conversion of existing and new conventional vehicles to clean-fuel vehicles

The requirements of section 7586 of this title may be met through the conversion of existing or new gasoline or diesel-powered vehicles to clean-fuel vehicles which comply with the applicable requirements of that section. For purposes of such provisions the conversion of a vehicle to clean fuel¹ vehicle shall be treated as the purchase of a clean fuel¹ vehicle. Nothing in this part shall be construed to provide that any covered fleet operator subject to fleet vehicle purchase requirements under section 7586 of this title shall be required to convert existing or new gasoline or diesel-powered vehicles to clean-fuel vehicles or to purchase converted vehicles.

(b) Regulations

The Administrator shall, within 24 months after November 15, 1990, consistent with the requirements of this subchapter applicable to new vehicles, promulgate regulations governing conversions of conventional vehicles to clean-fuel vehicles. Such regulations shall establish criteria for such conversions which will ensure that a converted vehicle will comply with the standards applicable under this part to clean-fuel vehicles. Such regulations shall provide for the application to such conversions of the same provisions of this subchapter (including provisions relating to administration enforcement) as are applicable to standards under section² 7582, 7583, 7584, and 7585 of this title, except that in the case of conversions the Administrator may modify the applicable regulations implementing such provisions as the Administrator deems necessary to implement this part.

(c) Enforcement

Any person who converts conventional vehicles to clean fuel¹ vehicles pursuant to subsection (b) of this section, shall be considered a manufacturer for purposes of sections 7525 and 7541 of this title and related enforcement provisions. Nothing in the preceding sentence shall require a person who performs such conversions to warrant any part or operation of a vehicle other than as required under this part. Nothing in this paragraph shall limit the applicability of any other warranty to unrelated parts or operations.

(d) Tampering

The conversion from a vehicle capable of operating on gasoline or diesel fuel only to a clean-fuel vehicle shall not be considered a violation of section 7522(a)(3) of this title if such conversion complies with the regulations promulgated under subsection (b) of this section.

(e) Safety

The Secretary of Transportation shall, if necessary, promulgate rules under applicable motor vehicle laws regarding the safety of vehicles converted from existing and new vehicles to clean-fuel vehicles.

§ 7588. Federal agency fleets

(a) Additional provisions applicable

The provisions of this section shall apply, in addition to the other provisions of this part, in the case of covered fleet vehicles owned or operated by an agency, department, or instrumentality of the United States, except as otherwise provided in subsection (e) of this section.

(b) Cost of vehicles to Federal agency

Notwithstanding the provisions of sections 601–611 of title 40, the Administrator of General Services shall not include the incremental costs of clean-fuel vehicles in the amount to be reimbursed by Federal agencies if the Administrator of General Services determines that appropriations provided pursuant to this paragraph are sufficient to provide for the incremental cost of such vehicles over the cost of comparable conventional vehicles.

(c) Limitations on appropriations

Funds appropriated pursuant to the authorization under this paragraph shall be applicable only—

(1) to the portion of the cost of acquisition, maintenance and operation of vehicles acquired under this subparagraph which exceeds the cost of acquisition, maintenance and operation of comparable conventional vehicles;

(2) to the portion of the costs of fuel storage and dispensing equipment attributable to such vehicles which exceeds the costs for such purposes required for conventional vehicles; and

(3) to the portion of the costs of acquisition of clean-fuel vehicles which represents a reduction in revenue from the disposal of such

¹So in original. Probably should be “clean-fuel”.

²So in original. Probably should be “sections”.

§7587 TITLE 42—THE PUBLIC HEALTH AND WELFARE Page 6416
vehicles as compared to revenue resulting from the disposal of comparable conventional vehicles.

d) Vehicle costs

The incremental cost of vehicles acquired under this part over the cost of comparable conventional vehicles shall not be applied to any calculation with respect to a limitation under law on the maximum cost of individual vehicles which may be required by the United States.

(e) Exemptions

The requirements of this part shall not apply to vehicles with respect to which the Secretary of Defense has certified to the Administrator that an exemption is needed based on national security consideration.

(f) Acquisition requirement

Federal agencies, to the extent practicable, shall obtain clean-fuel vehicles from original equipment manufacturers.

(g) Authorization of appropriations

There are authorized to be appropriated such sums as may be required to carry out the provisions of this section: Provided, That such sums as are appropriated for the Administrator of General Services pursuant to the authorization under this section shall be added to the General Supply Fund established in section 321 of title 40.

Codification

Abolition of General Supply Fund

The General Supply Fund, referred to in subsec. (g), was abolished and its capital assets and balances transferred to the Acquisition Services Fund by section 3(a)–(c) of Pub. L. 109–313, set out as an Acquisition Services Fund note under section 321 of Title 40, Public Buildings, Property, and Works.

§ 7589. California pilot test program

(a) Establishment

The Administrator shall establish a pilot program in the State of California to demonstrate the effectiveness of clean-fuel vehicles in controlling air pollution in ozone nonattainment areas.

(b) Applicability

The provisions of this section shall only apply to light-duty trucks and light-duty vehicles, and such provisions shall apply only in the State of California, except as provided in subsection (f) of this section.

(c) Program requirements

Not later than 24 months after November 15, 1990, the Administrator shall promulgate regulations establishing requirements under this section applicable in the State of California. The regulations shall provide the following:

(1) Clean-fuel vehicles

Clean-fuel vehicles shall be produced, sold, and distributed (in accordance with normal business practices and applicable franchise agreements) to ultimate purchasers in California (including owners of covered fleets referred to in section 7586 of this title) in numbers that meet or exceed the following schedule:

<table>
<thead>
<tr>
<th>Model Years</th>
<th>Number of Clean-fuel Vehicles</th>
</tr>
</thead>
<tbody>
<tr>
<td>1999 and thereafter</td>
<td>300,000 vehicles</td>
</tr>
</tbody>
</table>

(2) Clean alternative fuels

(A) Within 2 years after November 15, 1990, the State of California shall submit a revision of the applicable implementation plan under part D of chapter 1 for this chapter and section 7410 of this title containing a clean fuel plan that requires that clean alternative fuels on which the clean-fuel vehicles required under this paragraph can operate shall be produced and distributed by fuel suppliers and made available in California. At a minimum, sufficient clean alternative fuels shall be produced, distributed and made available to assure that all clean-fuel vehicles required under this section can operate, to the maximum extent practicable, exclusively on such fuels in California. The State shall require that clean alternative fuels be made available and offered for sale at an adequate number of locations with sufficient geographic distribution to ensure convenient refueling with clean alternative fuels, considering the number of, and type of, such vehicles sold and the geographic distribution of such vehicles within the State. The State shall determine the clean alternative fuels to be produced, distributed, and made available based on motor vehicle manufacturers’ projections of future sales of such vehicles and consultations with the affected local governments and fuel suppliers.

(B) The State may by regulation grant persons subject to the requirements prescribed under this paragraph an appropriate amount of credits for exceeding such requirements, and any person granted credits may transfer some or all of the credits for use by one or more persons in demonstrating compliance with such requirements. The State may make the credits available for use after consideration of enforceability, environmental, and economic factors and upon such terms and conditions as the State finds appropriate.

(C) The State may also by regulation establish specifications for any clean alternative fuel produced and made available under this paragraph as the State finds necessary to reduce or eliminate an unreasonable risk to public health, welfare, or safety associated with its use or to ensure acceptable vehicle maintenance and performance characteristics.

(D) If a retail gasoline dispensing facility would have to remove or replace one or more
motor vehicle fuel underground storage tanks and accompanying piping in order to comply with the provisions of this section, and it had removed and replaced such tank or tanks and accompanying piping in order to comply with such Title I of the Solid Waste Disposal Act [42 U.S.C. 6991 et seq.] prior to November 15, 1990, it shall not be required to comply with this subsection until a period of 7 years has passed from the date of the removal and replacement of such tank or tanks.

(E) Nothing in this section authorizes any State other than California to adopt provisions regarding clean alternative fuels.

(F) If the State of California fails to adopt a clean fuel program that meets the requirements of this paragraph, the Administrator shall, within 4 years after November 15, 1990, establish a clean fuel program for the State of California under this paragraph and section 7410(c) of this title that meets the requirements of this paragraph.

(d) Credits for motor vehicle manufacturers

(1) The Administrator may (by regulation) grant a motor vehicle manufacturer an appropriate amount of credits toward fulfillment of such manufacturer’s share of the requirements of subsection (c)(1) of this section for any of the following (or any combination thereof):

(A) The sale of more clean-fuel vehicles than required under subsection (c)(1) of this section.

(B) The sale of clean fuel vehicles which meet standards established by the Administrator as provided in paragraph (3) which are more stringent than the clean-fuel vehicle standards otherwise applicable to such clean-fuel vehicle. A manufacturer granted credits under this paragraph may transfer some or all of the credits for use by one or more other manufacturers in demonstrating compliance with the requirements prescribed under this paragraph. The Administrator may make the credits available for use after consideration of enforceability, environmental, and economic factors and upon such terms and conditions as he finds appropriate. The Administrator shall grant credits in accordance with this paragraph, notwithstanding any requirements of State law or any credits granted with respect to the same vehicles under any State law, rule, or regulation.

(2) REGULATIONS AND ADMINISTRATION.—The Administrator shall administer the credit program established under this subsection. Within 12 months after November 15, 1990, the Administrator shall promulgate regulations for such credit program.

(3) STANDARDS FOR ISSUING CREDITS FOR CLEANER VEHICLES.—The more stringent standards and other requirements (including requirements relating to the weighting of credits) established by the Administrator for purposes of the credit program under section 7585(e) of this title (relating to credits for clean fuel vehicles in the fleets program) shall also apply for purposes of the credit program under this paragraph.

(e) Program evaluation

(1) Not later than June 30, 1994 and again in connection with the report under paragraph (2), the Administrator shall provide a report to the Congress on the status of the California Air Resources Board Low-Emissions Vehicles and Clean Fuels Program. Such report shall examine the capability, from a technological standpoint, of motor vehicle manufacturers and motor vehicle fuel suppliers to comply with the requirements of such program and with the requirements of the California Pilot Program under this section.

(2) Not later than June 30, 1998, the Administrator shall complete and submit a report to Congress on the effectiveness of the California pilot program under this section. The report shall evaluate the level of emission reductions achieved under the program, the costs of the program, the advantages and disadvantages of extending the program to other nonattainment areas, and desirability of continuing or expanding the program in California.

(3) The program under this section cannot be extended or terminated by the Administrator except by Act of Congress enacted after November 15, 1990. Section 7507 of this title does not apply to the program under this section.

(f) Voluntary opt-in for other States

(1) EPA regulations

Not later than 2 years after November 15, 1990, the Administrator shall promulgate regulations establishing a voluntary opt-in program under this subsection pursuant to which—

(A) clean-fuel vehicles which are required to be produced, sold, and distributed in the State of California under this section, and

(B) clean alternative fuels required to be produced and distributed under this section by fuel suppliers and made available in California.

may also be sold and used in other States which submit plan revisions under paragraph (2).

(2) Plan revisions

Any State in which there is located all or part of an ozone nonattainment area classified under subpart J of subchapter I of this chapter as Serious, Severe, or Extreme may submit a revision of the applicable implementation plan under part D of subchapter I of this chapter and section 7410 of this title to provide incentives for the sale or use in such an area or State of clean-fuel vehicles which are required to be produced, sold, and distributed in the State of California, and for the use in such an area or State of clean alternative fuels required to be produced and distributed by fuel suppliers and made available in California. Such plan provisions shall not take effect until 1 year after the State has provided notice of such provisions to motor vehicle manufacturers and to fuel suppliers.

(3) Incentives

The incentives referred to in paragraph (2) may include any or all of the following:

1 So in original. Probably should be “clean-fuel”.

2 So in original. Probably should be “section 7586(f)”.

3 So in original. Probably should be followed by a comma.

4 So in original. Probably should be “part.”
(A) A State registration fee on new motor vehicles registered in the State which are not clean-fuel vehicles in the amount of at least 1 percent of the cost of the vehicle. The proceeds of such fee shall be used to provide financial incentives to purchasers of clean-fuel vehicles and to vehicle dealers who sell high volumes or high percentages of clean-fuel vehicles and to defray the administrative costs of the incentive program.

(B) Provisions to exempt clean-fuel vehicles from high occupancy vehicle or trip reduction requirements.

(C) Provisions to provide preference in the use of existing parking spaces for clean-fuel vehicles.

The incentives under this paragraph shall not apply in the case of covered fleet vehicles.

(4) No sales or production mandate

The regulations and plan revisions under paragraphs (1) and (2) shall not include any production or sales mandate for clean-fuel vehicles or clean alternative fuels. Such regulations and plan revisions shall also provide that vehicle manufacturers and fuel suppliers may not be subject to penalties or sanctions for failing to produce or sell clean-fuel vehicles or clean alternative fuels.

SUBCHAPTER III—GENERAL PROVISIONS

§ 7601. Administration

(a) Regulations; delegation of powers and duties; regional officers and employees

(1) The Administrator is authorized to prescribe such regulations as are necessary to carry out his functions under this chapter. The Administrator may delegate to any officer or employee of the Environmental Protection Agency such of his powers and duties under this chapter, except the making of regulations subject to section 7607(d) of this title, as he may deem necessary or expedient.

(2) Not later than one year after August 7, 1977, the Administrator shall promulgate regulations establishing general applicable procedures and policies for regional officers and employees (including the Regional Administrator) to follow in carrying out a delegation under paragraph (1), if any. Such regulations shall be designed—

(A) to assure fairness and uniformity in the criteria, procedures, and policies applied by the various regions in implementing and enforcing the chapter;

(B) to assure at least an adequate quality audit of each State's performance and adherence to the requirements of this chapter in implementing and enforcing the chapter, particularly in the review of new sources and in enforcement of the chapter; and

(C) to provide a mechanism for identifying and standardizing inconsistent or varying criteria, procedures, and policies being employed by such officers and employees in implementing and enforcing the chapter.

1So in original. Probably should be “part D of subchapter I of this chapter.”
§ 7601 TITeL 42—THE PUBLIC HEALTH AND WELFARE  Page 6420

(b) Detail of Environmental Protection Agency personnel to air pollution control agencies

Upon the request of an air pollution control agency, personnel of the Environmental Protection Agency may be detailed to such agency for the purpose of carrying out the provisions of this chapter.

(c) Payments under grants; installments; advances or reimbursements

Payments under grants made under this chapter may be made in installments, and in advance or by way of reimbursement, as may be determined by the Administrator.

d) Tribal authority

(1) Subject to the provisions of paragraph (2), the Administrator—

(A) is authorized to treat Indian tribes as States under this chapter, except for purposes of the requirement that makes available for application by each State no less than one-half of 1 percent of annual appropriations under section 7405 of this title; and

(B) may provide any such Indian tribe grant and contract assistance to carry out functions provided by this chapter.

(2) The Administrator shall promulgate regulations within 18 months after November 15, 1990, specifying those provisions of this chapter for which it is appropriate to treat Indian tribes as States. Such treatment shall be authorized only if—

(A) the Indian tribe has a governing body carrying out substantial governmental duties and powers;

(B) the functions to be exercised by the Indian tribe pertain to the management and protection of air resources within the exterior boundaries of the reservation or other areas within the tribe’s jurisdiction; and

(C) the Indian tribe is reasonably expected to be capable, in the judgment of the Administrator, of carrying out the functions to be exercised in a manner consistent with the terms and purposes of this chapter and all applicable regulations.

(3) The Administrator may promulgate regulations which establish the elements of tribal implementation plans and procedures for approval or disapproval of tribal implementation plans and portions thereof.

(4) In any case in which the Administrator determines that the treatment of Indian tribes as States is inappropriate or administratively infeasible, the Administrator may provide, by regulation, other means by which the Administrator will directly administer such provisions so as to achieve the appropriate purpose.

(5) Until such time as the Administrator promulgates regulations pursuant to this subsection, the Administrator may continue to provide financial assistance to eligible Indian tribes under section 7405 of this title.

CODIFICATION

Section was formerly classified to section 1857g of this title.

AMENDMENTS

1990—Subsec. (a)(1). Pub. L. 101–549, §108(i), inserted “subject to section 7607(d) of this title” after “regulations”.

1977—Subsec. (a). Pub. L. 95–95 designated existing provisions as par. (1) and added par. (2).

Subsec. (b). Pub. L. 91–604, §3(b)(2), substituted “Environmental Protection Agency” for “Public Health Service” and struck out provisions covering the payment of salaries and allowances.

Subsec. (c). Pub. L. 91–604, §15(c)(2), substituted “Administrator” for “Secretary”.

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7401 of this title.

MODIFICATION OR RESCission OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

DISADVANTAGED BUSINESS CONCERNS; USE OF QUOTAS PROHIBITED

Title X of Pub. L. 101–549 provided that:

“SEC. 1001. DISADVANTAGED BUSINESS CONCERNS.

“(a) IN GENERAL.—In providing for any research relating to the requirements of the amendments made by the Clean Air Act Amendments of 1990 [Pub. L. 101–549, see Tables for classification] which uses funds of the Environmental Protection Agency, the Administrator of the Environmental Protection Agency shall, to the extent practicable, require that not less than 10 percent of total Federal funding for such research will be made available to disadvantaged business concerns.

“(b) DEFINITION.—

“(1)(A) For purposes of subsection (a), the term ‘disadvantaged business concern’ means a concern—

“(I) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals, and

“(II) the management and daily business operations of which are controlled by such individuals;

“(B)(i) A for-profit business concern is presumed to be a disadvantaged business concern for purposes of subsection (a) if it is at least 51 percent owned by, or in the case of a concern which is a publicly traded
company at least 51 percent of the stock of the company is owned by, one or more individuals who are members of the following groups:

(1) Black Americans.
(II) Hispanic Americans.
(III) Native Americans.
(IV) Asian Americans.
(V) Women.
(VI) Disabled Americans.

(ii) The presumption established by clause (i) may be rebutted with respect to a particular business concern if it is reasonably established that the individual or individuals referred to in that clause with respect to that business concern are not experiencing impediments to establishing or developing such concern as a result of the individual's or individuals identification as a member of a group specified in that clause.

(C) The following institutions are presumed to be disadvantaged business concerns for purposes of subsection (a):

(i) Historically black colleges and universities, and colleges and universities having a student body in which 40 percent of the students are Hispanic.

(ii) Minority institutions (as that term is defined by the Secretary of Education pursuant to the General Education Provision Act (20 U.S.C. 1221 et seq.).

(iii) Private and voluntary organizations controlled by individuals who are socially and economically disadvantaged.

(D) A joint venture may be considered to be a disadvantaged business concern under subsection (a), notwithstanding the size of such joint venture, if—

(i) a party to the joint venture is a disadvantaged business concern; and

(ii) that party owns at least 51 percent of the joint venture.

A person who is not an economically disadvantaged individual or a disadvantaged business concern, as a party to a joint venture, may not be a party to more than 2 awarded contracts in a fiscal year solely by reason of this subparagraph.

(E) Nothing in this paragraph shall prohibit any member of a racial or ethnic group that is not listed under this subparagraph from being awarded, in any given fiscal year, contracts in an amount equal to or greater than the amount awarded to members of that racial or ethnic group in any previous fiscal year.

SEC. 1002. USE OF QUOTAS PROHIBITED.—Nothing in this title shall permit or require the use of quotas or a requirement that has the effect of a quota in determining eligibility under section 1001.

§ 7602. Definitions

When used in this chapter—

(a) The term “Administrator” means the Administrator of the Environmental Protection Agency.

(b) The term “air pollution control agency” means any of the following:

(1) A single State agency designated by the Governor of that State as the official State air pollution control agency for purposes of this chapter.

(2) An agency established by two or more States and having substantial powers or duties pertaining to the prevention and control of air pollution.

(3) A city, county, or other local government health authority, or, in the case of any city, county, or other local government in which there is an agency other than the health authority charged with responsibility for enforcing ordinances or laws relating to the prevention and control of air pollution, such other agency.

(4) An agency of two or more municipalities located in the same State or in different States and having substantial powers or duties pertaining to the prevention and control of air pollution.

(5) An agency of an Indian tribe.

(c) The term “interstate air pollution control agency” means—

(1) an air pollution control agency established by two or more States, or

(2) an air pollution control agency of two or more municipalities located in different States.

(d) The term “State” means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa and includes the Commonwealth of the Northern Mariana Islands.

(e) The term “person” includes an individual, corporation, partnership, association, State, municipality, political subdivision of a State, and any agency, department, or instrumentality of the United States and any officer, agent, or employee thereof.

(f) The term “municipality” means a city, town, borough, county, parish, district, or other public body created by or pursuant to State law.

(g) The term “air pollutant” means any air pollution agent or combination of such agents, including any physical, chemical, biological, radioactive (including source material, special nuclear material, and byproduct material) substance or matter which is emitted into or otherwise enters the ambient air. Such term includes any precursors to the formation of any air pollutant, to the extent the Administrator has identified such precursor or precursors for the particular purpose for which the term “air pollutant” is used.

(h) All language referring to effects on welfare includes, but is not limited to, effects on soils, water, crops, vegetation, manmade materials, animals, wildlife, weather, visibility, and climate, damage to and deterioration of property, and hazards to transportation, as well as effects on economic values and on personal comfort and well-being, whether caused by transformation, conversion, or combination with other air pollutants.

(i) The term “Federal land manager” means, with respect to any lands in the United States, the Secretary of the department with authority over such lands.

(j) Except as otherwise expressly provided, the terms “major stationary source” and “major emitting facility” mean any stationary facility or source of air pollutants which directly emits, or has the potential to emit, one hundred tons per year or more of any air pollutant (including any major emitting facility or source of fugitive emissions of any such pollutant, as determined by rule by the Administrator).

(k) The terms “emission limitation” and “emission standard” mean a requirement established by the State or the Administrator which limits the quantity, rate, or concentration of emissions of air pollutants on a continuous basis, including any requirement relating to the operation or maintenance of a source to assure continuous emission reduction, and any design,
§ 7602

TITLE 42—THE PUBLIC HEALTH AND WELFARE Page 6422

equipment, work practice or operational standard promulgated under this chapter.\(^1\)

(l) The term “standard of performance” means a requirement of continuous emission reduction, including any requirement relating to the operation or maintenance of a source to assure continuous emission reduction.

(m) The term “means of emission limitation” means a system of continuous emission reduction (including the use of specific technology or fuels with specified pollution characteristics).

(n) The term “primary standard attainment date” means the date specified in the applicable implementation plan for the attainment of a national primary ambient air quality standard for any air pollutant.

(o) The term “delayed compliance order” means an order issued by the State or by the Administrator to an existing stationary source, postponing the date required under an applicable implementation plan for compliance by such source with any requirement of such plan.

(p) The term “schedule and timetable of compliance” means a schedule of required measures including an enforceable sequence of actions or operations leading to compliance with an emission limitation, other limitation, prohibition, or standard.

(q) For purposes of this chapter, the term “applicable implementation plan” means the portion (or portions) of the implementation plan, or most recent revision thereof, which has been approved under section 7410 of this title, or promulgated under section 7410(c) of this title, or promulgated or approved pursuant to regulations promulgated under section 7601(d) of this title and which implements the relevant requirements of this chapter.

(r) INDIAN TRIBE.—The term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village, which is Federally recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(s) VOC.—The term “VOC” means volatile organic compound, as defined by the Administrator.

(t) PM–10.—The term “PM–10” means particulate matter with an aerodynamic diameter less than or equal to a nominal ten micrometers, as measured by such method as the Administrator may determine.

(u) NAAQS AND CTG.—The term “NAAQS” means national ambient air quality standard. The term “CTG” means a Control Technique Guideline published by the Administrator under section 7408 of this title.

(v) NO\(_2\).—The term “NO\(_2\)” means oxides of nitrogen.

(w) CO.—The term “CO” means carbon monoxide.

(x) SMALL SOURCE.—The term “small source” means a source that emits less than 100 tons of regulated pollutants per year, or any class of persons that the Administrator determines, through regulation, generally lack technical ability or knowledge regarding control of air pollution.

(y) FEDERAL IMPLEMENTATION PLAN.—The term “Federal implementation plan” means a plan (or portion thereof) promulgated by the Administrator to fill all or a portion of a gap or otherwise correct all or a portion of an inadequacy in a State implementation plan, which includes enforceable emission limitations or other control measures, means or techniques (including economic incentives, such as marketable permits or auctions of emissions allowances), and provides for attainment of the relevant national ambient air quality standard.

(2) STATIONARY SOURCE.—The term “stationary source” means generally any source of an air pollutant except those emissions resulting directly from an internal combustion engine for transportation purposes or from a nonroad engine or nonroad vehicle as defined in section 7530 of this title.

\(^1\) So in original.

(Prior Provisions)

(Codification)

Section was formerly classified to section 1857h of this title.

AMENDMENTS

1990—Subsec. (b)(1) to (3). Pub. L. 101–549, § 107(a)(1), (2), struck out “or” at end of par. (3) and substituted periods for semicolons at end of pars. (1) to (3).

Subsec. (g). Pub. L. 101–549, § 108(j)(2), inserted at end “Such term includes any precursors to the formation of any air pollutant, to the extent the Administrator has identified such precursor or precursors for the particular purpose for which the term ‘air pollutant’ is used.”

Subsec. (h). Pub. L. 101–549, § 109(b), inserted before period at end “, whether caused by transformation, conversion, or combination with other air pollutants”.

Subsec. (k). Pub. L. 101–549, § 303(e), inserted before period at end “, and any design, equipment, work practice or operational standard promulgated under this chapter.”

1977—Subsec. (d). Pub. L. 95–95, § 218(c), inserted “and includes the Commonwealth of the Northern Mariana Islands” after “American Samoa”.

Subsec. (e). Pub. L. 95–190 substituted “individual, corporation” for “‘individual corporation’”.

Subsec. (r). Pub. L. 95–86, § 301(b), inserted definition of “person” to include agencies, departments, and instrumentalities of the United States and officers, agents, and employees thereof.
Subsec. (g), Pub. L. 95–95, §301(c), expanded definition of “air pollutant” so as, expressly, to include physical, chemical, biological, and radioactive substances or matter emitted into or otherwise entering the ambient air.

Subsecs. (i) to (p), Pub. L. 95–95, §301(a), added subsecs. (i) to (p).

1970—Subsec. (a), Pub. L. 91–604, §15(a)(1), substituted definition of “Administrator” as meaning Adminis-
trator of the Environmental Protection Agency for def-

ition of “Secretary” as meaning Secretary of Health, Education, and Welfare.

Subsecs. (g), (h), Pub. L. 91–604, §15(a)(1), added sub-
sec. (g) defining “air pollutant”, redesignated former subsec. (g) as (h) and substituted references to effects on soil, water, crops, vegetation, manmade materials, animals, wildlife, weather, visibility, and climate for references to injury to agricultural crops and livestock, and inserted references to effects on economic values and on personal comfort and well being.

Effective Date of 1977 Amendment
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, ex-
cept as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7601 of this title.

§ 7603. Emergency powers

Notwithstanding any other provision of this chapter, the Administrator, upon receipt of evi-
dence that a pollution source or combination of sources (including moving sources) is presenting an imminent and substantial endangerment to public health or welfare, or the environment, may bring suit on behalf of the United States in the appropriate United States district court to immediately restrain any person causing or contrib-
ting to the alleged pollution to stop the emission of air pollutants causing or contribut-
ning to such pollution or to take such other ac-
tion as may be necessary. If it is not practicable to assure prompt protection of public health or welfare or the environment by commencement of such a civil action, the Administrator may issue such orders as may be necessary to protect public health or welfare or the environment. Prior to taking any action under this section, the Administrator shall consult with the State and local authorities and attempt to confirm the accuracy of the information on which the action proposed to be taken is based and to ascertain the action which such authorities are, or will be, taking. Such order shall be effective for a period of not more than twenty-four hours unless the Administrator brings an action under the first sentence of this subsection before the expiration of such period. Whenever the Administrator brings such an action within such period, such order shall be effective for a period of forty-eight hours or such longer period as may be authorized by the court pending litigation or thereafter.

Pub. L. 101–549, §704(1), which directed that “public health or welfare, or the environment” be substituted for “the health of persons and that appropriate State or local authorities have not acted to abate such sources”, was executed by making the substitution for “the health of persons, and that appropriate State or local authorities have not acted to abate such sources” to reflect the probable intent of Congress.

1977—Pub. L. 95–95 designated existing provisions as subsec. (a), inserted provisions that, if it is not practicable to assure prompt protection of the health of persons solely by commencement of a civil action, the Administrator may issue such orders as may be neces-
sary to protect the health of persons who are, or may be, affected by such pollution source (or sources), that, prior to taking any action under this section, the Administrator consult with appropriate State or local authorities in order to confirm the correctness of the informa-
tion on which the action proposed to be taken is based and to ascertain the action which such authorities are, or will be, taking, that the order be effective for a pe-
riod of not more than twenty-four hours unless the Ad-

ministrator brings an action under the first sentence of this subsection before the expiration of such period, and that, whenever the Administrator brings such an action within such period, such order be effective for a period of forty-eight hours or such longer period as may be authorized by the court pending litigation or thereafter, and added subsec. (b).

Effective Date of 1977 Amendment
Amendment by Pub. L. 95–95 effective Aug. 7, 1977, ex-
cept as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as a note under section 7601 of this title.

Pending Actions and Proceedings
Suits, actions, and other proceedings lawfully com-
enced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under act July 14, 1955, the Clean Air Act, as in effect immediately prior to the enactment of Pub. L. 95–95 [Aug. 7, 1977], not to abate by reason of the taking effect of Pub. L. 95–95, see section 406(a) of Pub. L.
95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

Modification or rescission of rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, and other actions

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1965, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7604. Citizen suits

(a) Authority to bring civil action; jurisdiction

Except as provided in subsection (b) of this section, any person may commence a civil action on his own behalf—

(1) against any person (including (i) the United States, and (ii) any other governmental instrumentality or agency to the extent permitted by the Eleventh Amendment to the Constitution) who is alleged to have violated (if there is evidence that the alleged violation has been repeated) or to be in violation of (A) an emission standard or limitation under this chapter or (B) an order issued by the Administrator or a State with respect to such a standard or limitation,

(2) against the Administrator where there is a failure of the Administrator to perform any act or duty under this chapter which is not discretionary with the Administrator, or

(3) against any person who proposes to construct or constructs any new or modified major emitting facility without a permit required under part C of subchapter I of this chapter (relating to significant deterioration of air quality) or part D of subchapter I of this chapter (relating to nonattainment) or who is alleged to have violated (if there is evidence that the alleged violation has been repeated) or to be in violation of any condition of such permit.

The district courts shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such an emission standard or limitation, or such an order, or to order the Administrator to perform such act or duty, as the case may be, and to apply any appropriate civil penalties (except for actions under paragraph (2)). The district courts of the United States shall have jurisdiction to compel (consistent with paragraph (2) of this subsection) agency action unreasonably delayed, except that an action to compel agency action referred to in section 7607(b) of this title which is unreasonably delayed may only be filed in a United States District Court within the circuit in which such action would be reviewable under section 7607(b) of this title. In any such action for unreasonable delay, notice to the entities referred to in subsection (b)(1)(A) of this section shall be provided 180 days before commencing such action.

(b) Notice

No action may be commenced—

(1) under subsection (a)(1) of this section—

(A) prior to 60 days after the plaintiff has given notice of the violation (i) to the Administrator, (ii) to the State in which the violation occurs, and (iii) to any alleged violator of the standard, limitation, or order, or

(B) if the Administrator or State has commenced and is diligently prosecuting a civil action in a court of the United States or a State to require compliance with the standard, limitation, or order, but in any such action in a court of the United States any person may intervene as a matter of right.1

(2) under subsection (a)(2) of this section prior to 60 days after the plaintiff has given notice of such action to the Administrator, except that such action may be brought immediately after such notification in the case of an action under this section respecting a violation of section 7412(i)(3)(A) or (f)(4) of this title or an order issued by the Administrator pursuant to section 7413(a) of this title. Notice under this subsection shall be given in such manner as the Administrator shall prescribe by regulation.

(c) Venue; intervention by Administrator; service of complaint; consent judgment

(1) Any action respecting a violation by a stationary source of an emission standard or limitation or an order respecting such standard or limitation may be brought only in the judicial district in which such source is located.

(2) In any action under this section, the Administrator, if not a party, may intervene as a matter of right at any time in the proceeding. A judgment in an action under this section to which the United States is not a party shall not, however, have any binding effect upon the United States.

(3) Whenever any action is brought under this section the plaintiff shall serve a copy of the complaint on the Attorney General of the United States and on the Administrator. No consent judgment shall be entered in an action brought under this section in which the United States is not a party prior to 45 days following the receipt of a copy of the proposed consent judgment by the Attorney General and the Administrator during which time the Government may submit its comments on the proposed consent judgment to the court and parties or may intervene as a matter of right.

(d) Award of costs; security

The court, in issuing any final order in any action brought pursuant to subsection (a) of this section, may award costs of litigation (including reasonable attorney and expert witness fees) to any party, whenever the court determines such award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the Federal Rules of Civil Procedure.

(e) Nonrestriction of other rights

Nothing in this section shall restrict any right which any person (or class of persons) may have

---

1 So in original. The period probably should be “,” or “.”
under any statute or common law to seek enforcement of any emission standard or limitation or to seek any other relief (including relief against the Administrator or a State agency). Nothing in this section or in any other law of the United States shall be construed to prohibit, exclude, or restrict any State, local, or interstate authority from—

(1) bringing any enforcement action or obtaining any judicial remedy or sanction in any State or local court, or

(2) bringing any administrative enforcement action or obtaining any administrative remedy or sanction in any State or local administrative agency, department or instrumentality,

against the United States, any department, agency, or instrumentality thereof, or any officer, agent, or employee thereof under State or local law respecting control and abatement of air pollution. For provisions requiring compliance by the United States, departments, agencies, instrumentalities, officers, agents, and employees in the same manner as nongovernmental entities, see section 7418 of this title.

(f) "Emission standard or limitation under this chapter" defined

For purposes of this section, the term "emission standard or limitation under this chapter" means—

(1) a schedule or timetable of compliance, emission limitation, standard of performance or emission standard,

(2) a control or prohibition respecting a motor vehicle fuel or fuel additive, or

(3) any condition or requirement of a permit under part C of subchapter I of this chapter (relating to significant deterioration of air quality) or part D of subchapter I of this chapter (relating to nonattainment),

section 7419 of this title (relating to primary nonferrous smelter orders), any condition or requirement under an applicable implementation plan relating to transportation control measures, air quality maintenance plans, vehicle inspection and maintenance programs or vapor recovery requirements, section 7545(e) and (f) of this title (relating to fuels and fuel additives), section 7491 of this title (relating to visibility), any condition or requirement under an applicable implementation plan relating to ozone protection, or any requirement under section 7411 or 7412 of this title (without regard to whether such requirement is expressed as an emission standard or otherwise); or

(4) any other standard, limitation, or schedule established under any permit issued pursuant to subchapter V of this chapter or under any applicable State implementation plan approved by the Administrator, any permit term or condition, and any requirement to obtain a permit as a condition of operations,

which is in effect under this chapter (including a requirement applicable by reason of section 7418 of this title) or under an applicable implementation plan.

(g) Penalty fund

(1) Penalties received under subsection (a) of this section shall be deposited in a special fund in the United States Treasury for financing and other services. Amounts in such fund are authorized to be appropriated and shall remain available until expended, for use by the Administrator to finance air compliance and enforcement activities. The Administrator shall annually report to the Congress about the sums deposited into the fund, the sources thereof, and the actual and proposed uses thereof.

(2) Notwithstanding paragraph (1) the court in any action under this subsection to apply civil penalties shall have discretion to order that such civil penalties, in lieu of being deposited in the fund referred to in paragraph (1), be used in beneficial mitigation projects which are consistent with this chapter and enhance the public health or the environment. The court shall obtain the view of the Administrator in exercising such discretion and selecting any such projects. The amount of any such payment in any such action shall not exceed $100,000.

REFERENCES IN TEXT

The Federal Rules of Civil Procedure, referred to in subsec. (d), are set out in the Appendix to Title 28, Judiciay and Judicial Procedure.

CODIFICATION

Section was formerly classified to section 1857h–2 of this title.

PRIOR PROVISIONS

A prior section 304 of act July 14, 1955, was renumbered section 311 by Pub. L. 91–604 and is classified to section 7611 of this title.

AMENDMENTS

1999—Subsec. (a)(1), (3). Pub. L. 101–549, §707(g), inserted "to have violated (if there is evidence that the alleged violation has been repeated) or before "to be in violation".

Subsec. (b), Pub. L. 101–549, §302(f), substituted "section 7412(c)(3)(A) or (f)(4)" for "section 7412(c)(1)(B)" in closing provisions, inserted before period at end "and to apply any appropriate civil penalties (except for actions under paragraph (2))" and inserted sentences at end giving courts jurisdiction to compel agency action unreasonably delayed and requiring 180 days notice prior to commencement of action.

Subsec. (a)(1), (3). Pub. L. 101–549, §707(g), inserted "to have violated (if there is evidence that the alleged violation has been repeated) or before "to be in violation".

Subsec. (b), Pub. L. 101–549, §302(f), substituted "section 7412(c)(3)(A) or (f)(4)" for "section 7412(c)(1)(B)" in closing provisions.

Subsec. (c)(2). Pub. L. 101–549, §707(f), amended par. (2) generally. Prior to amendment, par. (2) read as follows: "In such action under this section, the Administrator, if not a party, may intervene as a matter of right.

Subsec. (f)(3). Pub. L. 101–549, §707(e), struck out "any condition or requirement of section 7413(d) of this title
(relating to certain enforcement orders)" before "section 7419 of this title", substituted "subchapter VI of this chapter" for "part B of subchapter I of this chapter", and substituted "", or" for period at end of subsec. (f). Pub. L. 101-549, §707(e), which directed that par. (4) be added at end of subsec. (f), was executed by adding par. (4) after par. (3), to reflect the probable intent of Congress.

Subsec. (g). Pub. L. 101-549, §707(b), added subsec. (g).

1977—Subsec. (a)(3). Pub. L. 95-190, §14(a)(77), inserted "or modified" after "new".

Pub. L. 95-95, §303(a), added subsec. (a)(3).

Subsec. (e). Pub. L. 95-95, §303(c), inserted provisions which prohibited any construction of this section or any other law of the United States which would prohibit, exclude, or restrict any State, local, or interstate authority from bringing any enforcement action or obtaining any judicial remedy or sanction in any State or local court against the United States or bringing any administrative enforcement action or obtaining any administrative remedy or sanction against the United States in any State or local administrative agency, department, or instrumentality under State or local law, or section 7491 of this title, or any other law of the United States which would prohibit, exclude, or restrict any State, local, or interstate authority from bringing any enforcement action or obtaining any judicial remedy or sanction in any State or local court against the United States or bringing any administrative enforcement action or obtaining any administrative remedy or sanction against the United States in any State or local administrative agency, department, or instrumentality under State or local law.

Subsec. (f)(4). Pub. L. 101-549, §707(e), which directed "relating to ozone protection", substituted "or" before ''section 7491''.

Subsec. (h). Pub. L. 95-95, §303(a), amended section 7491 of this title, substituted ''section 7491'' for ''section 7419 of this title'', and substituted ''subchapter III'' for ''chapter'', and substituted ''; or'' for period at end.

Subsec. (i). Pub. L. 101-549, §707(f), inserted section 7491 of this title immediately prior to the date of enactment of Pub. L. 95-95, set out as a note under section 7401 of this title.

§ 7605. Representation in litigation

(a) Attorney General; attorneys appointed by Administrator

The Administrator shall request the Attorney General to appear and represent him in any civil action instituted under this chapter to which the Administrator is a party. Unless the Attorney General notifies the Administrator that he will appear in such action, within a reasonable time, attorneys appointed by the Administrator shall appear and represent him.

(b) Memorandum of understanding regarding legal representation

In the event the Attorney General agrees to appear and represent the Administrator in any such action, such representation shall be conducted in accordance with, and shall include participation by, attorneys appointed by the Administrator to the extent authorized by, the memorandum of understanding between the Department of Justice and the Environmental Protection Agency, dated June 13, 1977, respecting representation of the agency by the department in civil litigation.

other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 90–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, as amended by Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7606. Federal procurement

(a) Contracts with violators prohibited

No Federal agency may enter into any contract with any person who is convicted of any offense under section 7413(c) of this title for the procurement of goods, materials, and services to perform such contract at any facility at which the violation which gave rise to such conviction occurred if such facility is owned, leased, or supervised by such person. The prohibition in the preceding sentence shall continue until the Administrator certifies that the condition giving rise to such a conviction has been corrected. For convictions arising under section 7413(c)(2) of this title, the condition giving rise to the conviction also shall be considered to include any substantive violation of this chapter associated with the violation of 7413(c)(2) of this title. The Administrator may extend this prohibition to other facilities owned or operated by the convicted person.

(b) Notification procedures

The Administrator shall establish procedures to provide all Federal agencies with the notification necessary for the purposes of subsection (a) of this section.

(c) Federal agency contracts

In order to implement the purposes and policy of this chapter to protect and enhance the quality of the Nation’s air, the President shall, not more than 180 days after December 31, 1970, cause to be issued an order (1) requiring each Federal agency authorized to enter into contracts and each Federal agency which is empowered to extend Federal assistance by way of direct grant, loan, or contract to effectuate the purpose and policy of this chapter in such contracting or assistance activities, and (2) setting forth procedures, sanctions, penalties, and such other provisions, as the President determines necessary to carry out such requirement.

(d) Exemptions; notification to Congress

The President may exempt any contract, loan, or grant from all or part of the provisions of this section where he determines such exemption is necessary in the paramount interest of the United States and he shall notify the Congress of such exemption.

Codification

Subsec. (e) of this section, which required the President to annually report to Congress on measures taken toward implementing the purpose and intent of this section, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 101–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 14th item on page 20 of House Document No. 105–7.

Section was formerly classified to section 1857b–4 of this title.

Prior Provisions

Amendments

1990—Subsec. (a). Pub. L. 101–549 substituted ‘‘section 7413(c)’’ for ‘‘section 7413(c)(1)’’ and inserted sentences at end relating to convictions arising under section 7413(c)(2) of this title and extension of prohibition to other facilities owned by convicted persons.

Federal Acquisition Regulation: Contractor Certification or Contract Clause for Acquisition of Commercial Items

Pub. L. 103–355, title VIII, §8301(g), Oct. 13, 1994, 108 Stat. 3397, provided that: ‘‘The Federal Acquisition Regulation may not contain a requirement for a certification by a contractor under a contract for the acquisition of commercial items, or a requirement that such a contract include a contract clause, in order to implement a prohibition or requirement of section 306 of the Clean Air Act (42 U.S.C. 7606) or a prohibition or requirement issued in the implementation of that section, since there is nothing in such section 306 that requires such a certification or contract clause.’’

Executive Order No. 11602

Ex. Ord. No. 11602, June 29, 1971, 36 F.R. 12475, which related to the administration of the Clean Air Act with respect to Federal contracts, grants, or loans, was superseded by Ex. Ord. No. 11738, Sept. 10, 1973, 38 F.R. 25161, set out below.

Ex. Ord. No. 11738. ADMINISTRATION OF THE CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT WITH RESPECT TO FEDERAL CONTRACTS, GRANTS, OR LOANS

Ex. Ord. No. 11738, Sept. 10, 1973, 38 F.R. 25161, provided:

By virtue of the authority vested in me by the provisions of the Clean Air Act, as amended (42 U.S.C. 1857 et seq.) [42 U.S.C. 7401 et seq.], particularly section 306 of that Act as added by the Clean Air Amendments of 1970 (Public Law 91–604) (this section), and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), particularly section 508 of that Act as added by the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92–500) [33 U.S.C. 1368], it is hereby ordered as follows:

Section 1. Policy. It is the policy of the Federal Government to improve and enhance environmental quality. In furtherance of that policy, the program prescribed in this Order is instituted to assure that each Federal agency empowered to enter into contracts for the procurement of goods, materials, or services and each Federal agency empowered to extend Federal assistance by way of grant, loan, or contract shall undertake to provide all Federal agencies with the certification necessary for the purposes of subsection (a) of this section, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 101–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 14th item on page 20 of House Document No. 105–7.

Prior Provisions

A prior section 306 of act July 14, 1955, ch. 360, title III, was renumbered section 313 by Pub. L. 91–604 and is classified to section 7613 of this title.

Amendments

1990—Subsec. (a). Pub. L. 101–549 substituted “section 7413(c)” for “section 7413(c)(1)” and inserted sentences at end relating to convictions arising under section 7413(c)(2) of this title and extension of prohibition to other facilities owned by convicted persons.
§ 7607  Administrative proceedings and judicial review

(a) Administrative subpoenas; confidentiality; witnesses

In connection with any determination under section 7410(f) of this title, or for purposes of obtaining information under section 7521(b)(4) or 7545(c)(3) of this title, any investigation, monitoring, reporting requirement, entry, compliance inspection, or administrative enforcement proceeding under the 2 chapter (including but not limited to section 7413, section 7414, section 7420, section 7429, section 7477, section 7524, section 7525, section 7542, section 7603, or section 7606 of this title), 2 the Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and he may administer oaths. Except for emission data, upon a showing satisfactory to the Administrator by such owner or operator that such papers, books, documents, or information or particular part thereof, if made public, would divulge trade secrets or secret processes of such owner or operator, the Administrator shall consider such record, report, or information or particular portion thereof confidential in accordance with the purposes of section 1905 of title 18, except that such paper, book, document, or information may be dis-

---

2 So in original. Probably should be ‘‘this’’.
3 So in original.
closed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter, to persons carrying out the National Academy of Sciences' study and investigation provided for in section 7722(c) of this title, or when relevant to any proceeding under this chapter. Witnesses summoned shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. In case of contumacy or refusal to obey a subpoena served upon any person under this subparagraph, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Administrator to appear and produce papers, books, and documents before the Administrator, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(b) Judicial review

(1) A petition for review of action of the Administrator in promulgating any national primary or secondary ambient air quality standard, any emission standard or requirement under section 7412 of this title, any standard of performance or requirement under section 7411 of this title, any standard under section 7521 of this title (other than a standard required to be promulgated under section 7521(b)(1) of this title), any determination under section 7521(b)(5) of this title, any control or prohibition under section 7545 of this title, any standard under section 7571 of this title, any rule issued under section 7413, 7419, or under section 7420 of this title, or any other nationally applicable regulations promulgated, or final action taken, by the Administrator under this chapter may be filed only in the United States Court of Appeals for the District of Columbia. A petition for review of the Administrator's action in approving or promulgating any implementation plan under section 7510 of this title or section 7411(d) of this title, any order under section 7411(j) of this title, under section 7412 of this title, under section 7419 of this title, or under section 7420 of this title, or his action under section 1857c–10(c)(2)(A), (B), or (C) of this title (as in effect before August 7, 1977) or under regulations promulgated, or final action taken, by the Administrator under this chapter may be filed only in the United States Court of Appeals for the District of Columbia. A petition for review of any action referred to in this subparagraph, the district court of the United States for the district in which such action is based solely on grounds arising after such sixtieth day, then any petition for review under this subsection shall be filed within sixty days after such grounds arise. The filing of a petition for reconsideration by the Administrator of any otherwise final rule or action shall not affect the finality of such rule or action for purposes of judicial review nor extend the time within which a petition for judicial review of such rule or action under this section may be filed, and shall not postpone the effectiveness of such rule or action.

(2) Action of the Administrator with respect to which review could have been obtained under paragraph (1) shall not be subject to judicial review in civil or criminal proceedings for enforcement. Where a final decision by the Administrator defers performance of any nondiscretionary statutory action to a later time, any person may challenge the deferral pursuant to paragraph (1).

(c) Additional evidence

In any judicial proceeding in which review is sought of a determination under this chapter required to be made on the record after notice and opportunity for hearing, if any party applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Administrator, the court may order such additional evidence (and evidence in rebuttal thereof) to be taken before the Administrator, in such manner and upon such terms and conditions as the court deems proper. The Administrator may modify his findings as to the facts, or make new findings, by reason of the additional evidence so taken and he shall file such modified or new findings, and his recommendation, if any, for the modification or setting aside of his original determination, with the return of such additional evidence.

(d) Rulemaking

(1) This subsection applies to—

(A) the promulgation or revision of any national ambient air quality standard under section 7409 of this title,

(B) the promulgation or revision of an implementation plan by the Administrator under section 7410(c) of this title,

(C) the promulgation or revision of any standard of performance under section 7411 of this title, or emission standard or limitation under section 7412(d) of this title, any standard under section 7412(f) of this title, or any regulation under section 7412(g)(1)(D) and (F) of this title, or any regulation under section 7412(m) or (n) of this title,

(D) the promulgation of any requirement for solid waste combustion under section 7429 of this title,

§ 7607

4 So in original. Probably should be "subsection, ".

5 So in original. The word "to" probably should not appear.
(E) the promulgation or revision of any regulation pertaining to any fuel or fuel additive under section 7545 of this title,

(F) the promulgation or revision of any aircraft emission standard under section 7571 of this title,

(G) the promulgation or revision of any regulation under subchapter IV–A of this chapter (relating to control of acid deposition),

(H) promulgation or revision of regulations pertaining to primary nonferrous smelter ord

days under section 7439 of this title (but not including the granting or denying of any such order),

(I) promulgation or revision of regulations under subchapter VI of this chapter (relating to stratosphere and ozone protection),

(J) promulgation or revision of regulations under part C of subchapter I of this chapter (relating to prevention of significant deterioration of air quality and protection of visibility),

(K) promulgation or revision of regulations under section 7521 of this title and test procedures for new motor vehicles or engines under section 7525 of this title, and the revision of a standard under section 7521a(3) of this title,

(L) promulgation or revision of regulations for noncompliance penalties under section 7429 of this title,

(M) promulgation or revision of any regulations promulgated under section 7541 of this title (relating to warranties and compliance by vehicles in actual use),

(N) action of the Administrator under section 7426 of this title (relating to interstate pollution abatement),

(O) the promulgation or revision of any regulation pertaining to consumer and commercial products under section 7511b(e) of this title,

(P) the promulgation or revision of any regulation pertaining to field citations under section 7413(d)(3) of this title,

(Q) the promulgation or revision of any regulation pertaining to urban buses or the clean fuel vehicle, clean-fuel fleet, and clean fuel programs under part C of subchapter II of this chapter,

(R) the promulgation or revision of any regulation pertaining to nonroad engines or nonroad vehicles under section 7547 of this title,

(S) the promulgation or revision of any regulation relating to motor vehicle compliance program fees under section 7552 of this title,

(T) the promulgation or revision of any regulation under subchapter IV–A of this chapter (relating to acid deposition),

(U) the promulgation or revision of any regulation under section 7511b(f) of this title pertaining to marine vessels, and

(V) such other actions as the Administrator may determine.

The provisions of section 553 through 557 and section 796 of title 5 shall not, except as expressly provided in this subsection, apply to actions to which this subsection applies. This subsection shall not apply in the case of any rule or circumstance referred to in subparagraphs (A) or (B) of subsection 553(b) of title 5.
and Budget for any interagency review process prior to proposal of any such rule, all documents accompanying such drafts, and all written comments thereon by other agencies and all written responses to such written comments by the Administrator shall be placed in the docket no later than the date of proposal of the rule. The drafts of the final rule submitted for such review process prior to promulgation and all such written comments thereon, all documents accompanying such drafts, and written responses thereto shall be placed in the docket no later than the date of promulgation.

(5) In promulgating a rule to which this subsection applies (i) the Administrator shall allow any person to submit written comments, data, or documentary information; (ii) the Administrator shall give interested persons an opportunity for the oral presentation of data, views, or arguments, in addition to an opportunity to make written submissions; (iii) a transcript shall be kept of any oral presentation; and (iv) the Administrator shall keep the record of such proceeding open for thirty days after completion of the proceeding to provide an opportunity for submission of rebuttal and supplementary information.

(6)(A) The promulgated rule shall be accompanied by (i) a statement of basis and purpose like that referred to in paragraph (3) with respect to a proposed rule and (ii) an explanation of the reasons for any major changes in the promulgated rule from the proposed rule.

(B) The promulgated rule shall also be accompanied by a response to each of the significant comments, criticisms, and new data submitted in written or oral presentations during the comment period.

(C) The promulgated rule may not be based (in part or whole) on any information or data which has not been placed in the docket as of the date of such promulgation.

(7)(A) The record for judicial review shall consist exclusively of the material referred to in paragraph (3) with respect to a proposed rule and (ii) an explanation of the reasons for any major changes in the promulgated rule from the proposed rule.

(B) Only an objection to a rule or procedure which was raised with reasonable specificity during the period for public comment (including any public hearing) may be raised during judicial review. If the person raising an objection can demonstrate to the Administrator that it was impracticable to raise such objection within such time or if the grounds for such objection arose after the period for public comment but within the time specified for judicial review) and if such objection is of central relevance to the outcome of the rule, the Administrator shall convene a proceeding for reconsideration of the rule and provide the same procedural rights as would have been afforded had the information been available at the time the rule was proposed. If the Administrator refuses to convene such a proceeding, such person may seek review of such refusal in the United States court of appeals for the appropriate circuit (as provided in subsection (b) of this section) at the time of the substantive review of the rule. No interlocutory appeals shall be permitted with respect to such procedural determinations. In reviewing alleged procedural errors, the court may invalidate the rule only if the errors were so serious and related to matters of such central relevance to the rule that there is a substantial likelihood that the rule would have been significantly changed if such errors had not been made.

(9) In the case of review of any action of the Administrator to which this subsection applies, the court may reverse any such action found to be—

(A) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;

(B) contrary to constitutional right, power, privilege, or immunity;

(C) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right;

(D) without observance of procedure required by law, if (i) such failure to observe such procedure is arbitrary or capricious, (ii) the requirement of paragraph (7)(B) has been met, and (iii) the condition of the last sentence of paragraph (8) is met.

(10) Each statutory deadline for promulgation of rules to which this subsection applies which requires promulgation less than six months after date of proposal may be extended to not more than six months after date of proposal by the Administrator upon a determination that such extension is necessary to afford the public, and the agency, adequate opportunity to carry out the purposes of this subsection.

(11) The requirements of this subsection shall take effect with respect to any rule the proposal of which occurs after ninety days after August 7, 1977.

(e) Other methods of judicial review not authorized

Nothing in this chapter shall be construed to authorize judicial review of regulations or orders of the Administrator under this chapter, except as provided in this section.

(f) Costs

In any judicial proceeding under this section, the court may award costs of litigation (including reasonable attorney and expert witness fees) whenever it determines that such award is appropriate.

(g) Stay, injunction, or similar relief in proceedings relating to noncompliance penalties

In any action respecting the promulgation of regulations under section 7420 of this title or the administration or enforcement of section 7420 of this title no court shall grant any stay, injunctive, or similar relief before final judgment by such court in such action.

(h) Public participation

It is the intent of Congress that, consistent with the policy of subchapter II of chapter 5 of
title 5, the Administrator in promulgating any regulation under this chapter, including a regulation subject to a deadline, shall ensure a reasonable period for public participation of at least 30 days, except as otherwise expressly provided in section 7407(d), 7502(a), 7511(a) and (b), and 7512(a) and (b) of this title.

REFERENCES IN TEXT

Section 7521(b)(4) of this title, referred to in subsec. (a), was repealed by Pub. L. 101–549, title II, §230(2), Nov. 15, 1990, 104 Stat. 2529.

Section 1857c–10(c)(2)(A), (B), or (C) of this title (as in effect before August 7, 1977), referred to in subsec. (b)(1), was in the original “section 119(c)(2)(A), (B), or (C) (as in effect before the date of enactment of the Clean Air Act Amendments of 1977)”, meaning section 119 of act July 14, 1955, ch. 360, title I, as added June 22, 1974, Pub. L. 93–319, §3, 88 Stat. 248, (which was classified to section 1857c–10 of this title) as effect prior to the enactment of Pub. L. 95–95, Aug. 7, 1977, 91 Stat. 691, effective Aug. 7, 1977. Section 112(b)(1) of Pub. L. 95–95 repealed section 119 of act July 14, 1955, ch. 360, title I, as added by Pub. L. 93–319, and provided that all references to such section 119 in enactments which superseded Pub. L. 93–319 shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular which is classified to section 7413(d) of this title, was subsequently amended generally by Pub. L. 101–549, title VII, §701, Nov. 15, 1990, 104 Stat. 2672, and, as so amended, no longer relates to final compliance orders. Section 117(b) of Pub. L. 95–95 added a new section 119 of act July 14, 1955, which is classified to section 7419 of this title.

Part C of subchapter I of this chapter, referred to in subsec. (d)(1)(J), was in the original “subtitle C of title I”, and was translated as reading “part C of title I” to reflect the probable intent of Congress, because title I does not contain subtitles.

CODIFICATION

In subsec. (h), “subchapter II of chapter 5 of title 5” was substituted for “the Administrative Procedures Act” on authority of Pub. L. 89–554, §7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees. Section was formerly classified to section 1857h–5 of this title.

PRIOR PROVISIONS

A prior section 307 of act July 14, 1955, was renumbered section 314 by Pub. L. 91–604 and is classified to section 7614 of this title.

Another prior section 307 of act July 14, 1955, ch. 360, title III, formerly §14, as added Dec. 17, 1963, Pub. L. 88–206, §1, 77 Stat. 401, was renumbered section 307 by Pub. L. 89–272, renumbered section 310 by Pub. L. 90–148, added in section 7407(d), 7502(a), 7511(a) and (b), and is set out as a Short Title note under section 7401 of this title.

So in original. Probably should be “sections”.

AMENDMENTS

1990—Subsec. (a). Pub. L. 101–549, §703, struck out par. (1) designation at beginning, inserted provisions authorizing issuance of subpoenas and administration of oaths for purposes of investigations, monitoring, reporting requirements, entries, compliance inspections, or administrative enforcement proceedings under this chapter, and struck out “or section 7521(b)(5)” after “under section 7419(f)”.

Subsec. (b)(1). Pub. L. 101–549, §706(2), which directed amendment of second sentence by striking “under section 7413(d)” of this title immediately before “under section 7419 of this title”, was executed by striking “under section 7413(d) of this title,” before “under section 7419 of this title”, to reflect the probable intent of Congress.

Pub. L. 101–549, §706(1), inserted at end: “The filing of a petition for reconsideration by the Administrator of any other final rule or action shall not affect the finality of such rule or action for purposes of judicial review nor extend the time within which a petition for judicial review of such rule or action under this section may be filed, and shall not postpone the effectiveness of such rule or action.”

Pub. L. 101–549, §702(c), inserted “or revising regulations for enhanced monitoring and compliance certification programs under section 7414(a)(3) of this title,” before “or any other final action of the Administrator”.

Pub. L. 101–549, §302(g), substituted “section 7412” for “section 7412c”.

Subsec. (d)(1)(C). Pub. L. 101–549, §110(5)(A), amended subpar. (C) generally. Prior to amendment, subpar. (C) read as follows: “the promulgation or revision of any standard of performance under section 7411 of this title or emission standard under section 7412 of this title.”

Subsec. (d)(1)(D), (E). Pub. L. 101–549, §302(h), added subpar. (D) and redesignated former subpar. (D) as (E). Former subpar. (E) redesignated (F).

Subsec. (d)(1)(F). Pub. L. 101–549, §302(h), redesignated subpar. (E) as (F), Former subpar. (F) redesignated (G).

Pub. L. 101–549, §110(5)(B), amended subpar. (F) generally. Prior to amendment, subpar. (F) read as follows: “promulgation or revision of regulations pertaining to orders for coal conversion under section 7413(d)(5) of this title (but not including orders granting or denying any such orders).”.

Subsec. (d)(1)(G), (H). Pub. L. 101–549, §302(h), redesignated subpars. (F) and (G) as (G) and (H), respectively. Former subpar. (H) redesignated (I).

Subsec. (d)(1)(I). Pub. L. 101–549, §710(b), which directed that subpar. (H) be amended by substituting “subchapter VI of this chapter” for “part B of subchapter I of this chapter”, was executed by making the substitution in subpar. (I), to reflect the probable intent of Congress and the intervening redesignation of subpar. (H) as (I), Former subpar. (I) redesignated (J).

Subsec. (d)(1)(J) to (M), Pub. L. 101–549, §302(h), redesignated subpars. (I) to (L) as (J) to (M), respectively. Former subpar. (M) redesignated (N).

Pub. L. 101–549, §110(5)(C), added subpar. (N) and redesignated former subpar. (N) as (U).

Subsec. (d)(1)(O) to (T), Pub. L. 101–549, §302(h), redesignated subpars. (N) to (S) as (O) to (T), respectively. Former subpar. (T) redesignated (U).

Pub. L. 101–549, §110(5)(C), added subpars. (O) to (T).

Subsec. (d)(1)(U), Pub. L. 101–549, §302(h), redesignated subpar. (T) as (U). Former subpar. (U) redesignated (V).

Pub. L. 101–549, §110(5)(C), redesignated former subpar. (N) as (U).

Sections 7608—7615

Title 42 - Public Health and Welfare

Chapter 11 - Clean Air Act Amendments

§ 7608. Mandatory licensing

Whenever the Attorney General determines, upon application of the Administrator—

(1) that—

(A) in the implementation of the requirements of section 7411, 7412, or 7521 of this title, a right under any United States letters patent, which is being used or intended for public or commercial use and not otherwise reasonably available, is necessary to enable any person to comply with such requirements; or

(B) there are no reasonable alternative methods to accomplish such purpose, and

(2) that the unavailability of such right may result in a substantial lessening of competition or tendency to create a monopoly in any line of commerce in any section of the country,

the Attorney General may so certify to a district court of the United States, which may issue an order requiring the person who owns such patent, which is being used or intended for public or commercial use and not otherwise reasonably available, to enter into a royalty-bearing license on reasonable terms and conditions as to the court, after hearing, may determine. Such certification may be made to the district court for the district in which the person owning the patent resides, does business, or is found.

Codification

Section was formerly classified to section 1857h–6 of this title.

Prior Provisions

A prior section 308 of act July 14, 1955, was renumbered section 315 by Pub. L. 91–604 and is classified to section 7615 of this title.

Modification or Recission of Rules, Regulations, Orders, Determinations, Contracts, Certifications, Authorizations, Delegations, and Other Actions

All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.
§ 7609. Policy review

(a) Environmental impact

The Administrator shall review and comment in writing on the environmental impact of any matter relating to duties and responsibilities granted pursuant to this chapter or other provisions of the authority of the Administrator, contained in any legislation proposed by any Federal department or agency, (2) newly authorized Federal projects for construction and any major Federal agency action (other than a project for construction) to which section 4332(2)(C) of this title applies, and (3) proposed regulations published by any department or agency of the Federal Government. Such written comment shall be made public at the conclusion of any such review.

(b) Unsatisfactory legislation, action, or regulation

In the event the Administrator determines that any such legislation, action, or regulation is unsatisfactory from the standpoint of public health or welfare or environmental quality, he shall publish his determination and the matter shall be referred to the Council on Environmental Quality.

CODIFICATION

Section was formerly classified to section 1857h–7 of this title.

PRIOR PROVISIONS

A prior section 309 of act July 14, 1955, was renumbered section 317 by Pub. L. 91–604 and is set out as a Short Title note under section 7401 of this title.

Provisions similar to those in subsec. (a) of this section were contained in section 1857f of this title, act July 14, 1955, ch. 360, §7, 69 Stat. 323, prior to the general amendment of this chapter by Pub. L. 88–206.

AMENDMENTS

§ 7611. Records and audit

(a) Recipients of assistance to keep prescribed records

Each recipient of assistance under this chapter shall keep such records as the Administrator shall prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, and the amount of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(b) Audits

The Administrator and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for
the purpose of audit and examinations to any books, documents, papers, and records of the recipients that are pertinent to the grants received under this chapter.

CODIFICATION
Section was formerly classified to section 1857j of this title.

AMENDMENTS
1979—Pub. L. 91–604, §15(c)(2), substituted “Administrator” for “Secretary” and “Secretary of Health, Education, and Welfare”.

MODIFICATION OR RESCISSION OF RULES, REGULATIONS, ORDERS, DETERMINATIONS, CONTRACTS, CERTIFICATIONS, AUTHORIZATIONS, DELEGATIONS, AND OTHER ACTIONS
All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [Aug. 7, 1977] to continue in full force and effect until modified or rescinded in accordance with act July 14, 1955, the Clean Air Act, as in effect immediately prior to the date of enactment of Pub. L. 95–95 [this chapter], see section 406(b) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7612. Economic impact analyses

(a) Cost-benefit analysis
The Administrator, in consultation with the Secretary of Commerce, the Secretary of Labor, and the Council on Clean Air Compliance Analysis (as established under subsection (f) of this section), shall conduct a comprehensive analysis of the impact of this chapter on the public health, economy, and environment of the United States. In performing such analysis, the Administrator should consider the costs, benefits and other effects associated with compliance with each standard issued for—

(1) a criteria air pollutant subject to a standard issued under section 7409 of this title;

(2) a hazardous air pollutant listed under section 7412 of this title, including any technology-based standard and any risk-based standard for such pollutant;

(3) emissions from mobile sources regulated under subchapter II of this chapter;

(4) a limitation under this chapter for emissions of sulfur dioxide or nitrogen oxides;

(5) a limitation under subchapter VI of this chapter on the production of any ozone-depleting substance; and

(6) any other section of this chapter.

(b) Benefits
In describing the benefits of a standard described in subsection (a) of this section, the Administrator shall consider all of the economic, public health, and environmental benefits of efforts to comply with such standard. In any case where numerical values are assigned to such benefits, a default assumption of zero value shall not be assigned to such benefits unless supported by specific data. The Administrator shall assess how benefits are measured in order to assure that damage to human health and the environment is more accurately measured and taken into account.

(c) Costs
In describing the costs of a standard described in subsection (a) of this section, the Administrator shall consider the effects of such standard on employment, productivity, cost of living, economic growth, and the overall economy of the United States.

(d) Initial report
Not later than 12 months after November 15, 1990, the Administrator, in consultation with the Secretary of Commerce, the Secretary of Labor, and the Council on Clean Air Compliance Analysis, shall submit a report to the Congress that summarizes the results of the analysis described in subsection (a) of this section, which reports—

(1) all costs incurred previous to November 15, 1990, in the effort to comply with such standards; and

(2) all benefits that have accrued to the United States as a result of such costs.

(e) Omitted

(f) Appointment of Advisory Council on Clean Air Compliance Analysis
Not later than 6 months after November 15, 1990, the Administrator, in consultation with the Secretary of Commerce and the Secretary of Labor, shall appoint an Advisory Council on Clean Air Compliance Analysis of not less than nine members (hereafter in this section referred to as the “Council”). In appointing such members, the Administrator shall appoint recognized experts in the fields of the health and environmental effects of air pollution, economic analysis, environmental sciences, and such other fields that the Administrator determines to be appropriate.

(g) Duties of Advisory Council
The Council shall—

(1) review the data to be used for any analysis required under this section and make recommendations to the Administrator on the use of such data;

(2) review the methodology used to analyze such data and make recommendations to the Administrator on the use of such methodology; and

(3) prior to the issuance of a report required under subsection (d) or (e) of this section, review the findings of such report, and make recommendations to the Administrator concerning the validity and utility of such findings.

Subsec. (e) of this section, which required the Administrator, in consultation with the Secretary of Commerce, the Secretary of Labor, and the Council on Economic Studies, to submit a report to Congress that updates the report issued pursuant to subsec. (d) of this section, and which, in addition, makes projections into the future regarding expected costs, benefits, and other effects of compliance with standards pursuant to this chapter as listed in subsec. (a) of this section, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See also, the 4th Item on page 163 of House Document No. 103–7.

Section was formerly classified to section 1857j–1 of Title 42, The Public Health and Welfare.

## Concodification

**Amendments**

1990—Pub. L. 101–549 amended section generally, substituting present provisions for provisions which related in subsec. (a), detailed cost estimate, comprehensive cost-benefit study; in subsec. (b), personnel study and report to President and Congress; and in subsec. (c), cost-effectiveness analyses.

### Effective Date of 1977 Amendment

Amendment by Pub. L. 95–95 effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–85, set out as a note under section 7401 of this title.

### Termination of Advisory Councils

Advisory councils established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a council established by the President or an officer of the Federal Government, such council is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a council established by Congress, its duration is otherwise provided by law. See sections 3(2) and 14 of Pub. L. 92–463, set out as notes under section 709 and section 776, set out in the Appendix to Title 5, Government Organization and Employees.

### Equivalent Air Quality Controls Among Trading Nations

Section 811 of Pub. L. 101–549 provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) all nations have the responsibility to adopt and enforce effective air quality standards and requirements and the United States, in enacting this Act [see Tables for classification], is carrying out its responsibility in this regard;

“(2) as a result of complying with this Act, businesses in the United States will make significant capital investments and incur incremental costs in implementing control technology standards;

“(3) such compliance may impair the competitiveness of certain United States jobs, production, processes, and products if foreign goods are produced under less costly environmental standards and requirements than are United States goods; and

“(4) mechanisms should be sought through which the United States and its trading partners can agree to eliminate or reduce competitive disadvantages.

“(b) ACTION BY THE PRESIDENT.—

“(1) IN GENERAL.—Within 18 months after the date of the enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], the President shall submit to the Congress a report—

“(A) identifying and evaluating the economic effects of—

“(i) the significant air quality standards and controls required under this Act, and

“(ii) the differences between the significant standards and controls required under this Act and similar standards and controls adopted and enforced by the major trading partners of the United States, on the international competitiveness of United States manufacturers; and

“(B) containing a strategy for addressing such economic effects through trade consultations and negotiations.

“(2) ADDITIONAL REPORTING REQUIREMENTS.—(A) The evaluation required under paragraph (1)(A) shall examine the extent to which the significant air quality standards and controls required under this Act are comparable to existing internationally-agreed norms.

“(B) The strategy required to be developed under paragraph (1)(B) shall include recommended options (such as the harmonization of standards and trade adjustment measures) for reducing or eliminating competitive disadvantages caused by differences in standards and controls between the United States and each of its major trading partners.

“(3) PUBLIC COMMENT.—Interested parties shall be given an opportunity to submit comments regarding the evaluations and strategy required in the report under paragraph (1). The President shall take any such comment into account in preparing the report.

“(4) INTERIM REPORT.—Within 9 months after the date of issuance of such report, the President shall submit to the Congress an interim report on the progress being made in complying with paragraph (1).”

### GAO Reports on Costs and Benefits

Section 812(b) of Pub. L. 101–549, which directed Comptroller General, commencing on second year after Nov. 15, 1990, and annually thereafter, in consultation with other agencies, to report to Congress on pollution control strategies and technologies required by Clean Air Amendments of 1990, was repealed by Pub. L. 104–316, title I, §122(c), Oct. 19, 1996, 110 Stat. 3638.

### Repealed

### Labor Standards

The Administrator shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors on projects assisted under this chapter shall be paid wages at rates not less than those prevailing for the same type of work on similar construction in the locality as determined by the Secretary of Labor, in accordance with sections 3141–3144, 3146, and 3147 of title 40. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267) and section 3145 of title 40.

### Labor Standards

The Administrator shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors on projects assisted under this chapter shall be paid wages at rates not less than those prevailing for the same type of work on similar construction in the locality as determined by the Secretary of Labor, in accordance with sections 3141–3144, 3146, and 3147 of title 40. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267) and section 3145 of title 40.

1 So in original. Probably should be “section.”
or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

(b) Withholding, conditioning, or restriction of sewage treatment works

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,

2. the State does not have in effect, or is not carrying out, a State implementation plan approved by the Administrator which expressly quantifies and provides for the increase in emissions of each air pollutant (from stationary and mobile sources in any area to which either part C or part D of subchapter I of this chapter applies for such pollutant) which may reasonably be anticipated to result directly or indirectly from the new sewage treatment capacity which would be created by such construction.1

3. the construction of such treatment works would create new sewage treatment capacity which—

(A) may reasonably be anticipated to cause or contribute to, directly or indirectly, an increase in emissions of any air pollutant in excess of the increase provided for under the provisions referred to in paragraph (2) for any such area, or

(B) would otherwise not be in conformity with the applicable implementation plan, or

4. such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of subchapter I of this chapter applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

(c) National Environmental Policy Act

Nothing in this section shall be construed to amend or alter any provision of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] or to affect any determination as to whether or not the requirements of such Act have been met in the case of the construction of any sewage treatment works.

References to other provisions of this chapter are to other provisions of this chapter, unless the context requires otherwise.

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,

2. the State does not have in effect, or is not carrying out, a State implementation plan approved by the Administrator which expressly quantifies and provides for the increase in emissions of each air pollutant (from stationary and mobile sources in any area to which either part C or part D of subchapter I of this chapter applies for such pollutant) which may reasonably be anticipated to result directly or indirectly from the new sewage treatment capacity which would be created by such construction.1

3. the construction of such treatment works would create new sewage treatment capacity which—

(A) may reasonably be anticipated to cause or contribute to, directly or indirectly, an increase in emissions of any air pollutant in excess of the increase provided for under the provisions referred to in paragraph (2) for any such area, or

(B) would otherwise not be in conformity with the applicable implementation plan, or

4. such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of subchapter I of this chapter applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

(c) National Environmental Policy Act

Nothing in this section shall be construed to amend or alter any provision of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] or to affect any determination as to whether or not the requirements of such Act have been met in the case of the construction of any sewage treatment works.

References to other provisions of this chapter are to other provisions of this chapter, unless the context requires otherwise.

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,

2. the State does not have in effect, or is not carrying out, a State implementation plan approved by the Administrator which expressly quantifies and provides for the increase in emissions of each air pollutant (from stationary and mobile sources in any area to which either part C or part D of subchapter I of this chapter applies for such pollutant) which may reasonably be anticipated to result directly or indirectly from the new sewage treatment capacity which would be created by such construction.1

3. the construction of such treatment works would create new sewage treatment capacity which—

(A) may reasonably be anticipated to cause or contribute to, directly or indirectly, an increase in emissions of any air pollutant in excess of the increase provided for under the provisions referred to in paragraph (2) for any such area, or

(B) would otherwise not be in conformity with the applicable implementation plan, or

4. such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of subchapter I of this chapter applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

(c) National Environmental Policy Act

Nothing in this section shall be construed to amend or alter any provision of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] or to affect any determination as to whether or not the requirements of such Act have been met in the case of the construction of any sewage treatment works.

References to other provisions of this chapter are to other provisions of this chapter, unless the context requires otherwise.

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,

2. the State does not have in effect, or is not carrying out, a State implementation plan approved by the Administrator which expressly quantifies and provides for the increase in emissions of each air pollutant (from stationary and mobile sources in any area to which either part C or part D of subchapter I of this chapter applies for such pollutant) which may reasonably be anticipated to result directly or indirectly from the new sewage treatment capacity which would be created by such construction.1

3. the construction of such treatment works would create new sewage treatment capacity which—

(A) may reasonably be anticipated to cause or contribute to, directly or indirectly, an increase in emissions of any air pollutant in excess of the increase provided for under the provisions referred to in paragraph (2) for any such area, or

(B) would otherwise not be in conformity with the applicable implementation plan, or

4. such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of subchapter I of this chapter applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

(c) National Environmental Policy Act

Nothing in this section shall be construed to amend or alter any provision of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] or to affect any determination as to whether or not the requirements of such Act have been met in the case of the construction of any sewage treatment works.

References to other provisions of this chapter are to other provisions of this chapter, unless the context requires otherwise.

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,

2. the State does not have in effect, or is not carrying out, a State implementation plan approved by the Administrator which expressly quantifies and provides for the increase in emissions of each air pollutant (from stationary and mobile sources in any area to which either part C or part D of subchapter I of this chapter applies for such pollutant) which may reasonably be anticipated to result directly or indirectly from the new sewage treatment capacity which would be created by such construction.1

3. the construction of such treatment works would create new sewage treatment capacity which—

(A) may reasonably be anticipated to cause or contribute to, directly or indirectly, an increase in emissions of any air pollutant in excess of the increase provided for under the provisions referred to in paragraph (2) for any such area, or

(B) would otherwise not be in conformity with the applicable implementation plan, or

4. such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of subchapter I of this chapter applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

(c) National Environmental Policy Act

Nothing in this section shall be construed to amend or alter any provision of the National Environmental Policy Act [42 U.S.C. 4321 et seq.] or to affect any determination as to whether or not the requirements of such Act have been met in the case of the construction of any sewage treatment works.

References to other provisions of this chapter are to other provisions of this chapter, unless the context requires otherwise.

The Administrator may withhold, condition, or restrict the making of any grant for construction referred to in subsection (a) of this section only if he determines that—

1. such treatment works will not comply with applicable standards under section 7411 or 7412 of this title,
§ 7617. Economic impact assessment

(a) Notice of proposed rulemaking; substantial revisions

This section applies to action of the Administrator in promulgating or revising—

(1) any new source standard of performance under section 7411 of this title,
(2) any regulation under section 7411(d) of this title,
(3) any regulation under part B of subchapter I of this chapter (relating to ozone and stratosphere protection),
(4) any regulation under part C of subchapter I of this chapter (relating to prevention of significant deterioration of air quality),
(5) any regulation establishing emission standards under section 7521 of this title and any other regulation promulgated under that section,
(6) any regulation controlling or prohibiting any fuel or fuel additive under section 7545(c) of this title, and
(7) any aircraft emission standard under section 7571 of this title.

Nothing in this section shall apply to any standard or regulation described in paragraphs (1) through (7) of this subsection unless the notice of proposed rulemaking in connection with such standard or regulation is published in the Federal Register after the date ninety days after August 7, 1977. In the case of revisions of such standards or regulations, this section shall apply only to revisions which the Administrator determines to be substantial revisions.

(b) Preparation of assessment by Administrator

Before publication of notice of proposed rulemaking with respect to any standard or regulation to which this section applies, the Administrator shall prepare an economic impact assessment respecting such standard or regulation. Such assessment shall be included in the docket required under section 7607(d)(2) of this title and shall be available to the public as provided in section 7607(d)(4) of this title. Notice of proposed rulemaking shall include notice of such availability together with an explanation of the extent and manner in which the Administrator has considered the analysis contained in such economic impact assessment in proposing the action. The Administrator shall also provide such an explanation in his notice of promulgation of any regulation or standard referred to in subsection (a) of this section. Each such explanation shall be part of the statements of basis and purpose required under sections 7607(d)(3) and 7607(d)(6) of this title.

(c) Analysis

Subject to subsection (d) of this section, the assessment required under this section with respect to any standard or regulation shall contain an analysis of—

(1) the costs of compliance with any such standard or regulation, including extent to which the costs of compliance will vary depending on (A) the effective date of the standard or regulation, and (B) the development of less expensive, more efficient means or methods of compliance with the standard or regulation;
(2) the potential inflationary or recessionary effects of the standard or regulation;
(3) the effects on competition of the standard or regulation with respect to small business;
(4) the effects of the standard or regulation on consumer costs; and
(5) the effects of the standard or regulation on energy use.

Nothing in this section shall be construed to provide that the analysis of the factors specified in this subsection affects or alters the factors which the Administrator is required to consider in taking any action referred to in subsection (a) of this section.

(d) Extensiveness of assessment

The assessment required under this section shall be as extensive as practicable, in the judgment of the Administrator taking into account the time and resources available to the Environmental Protection Agency and other duties and authorities which the Administrator is required to carry out under this chapter.

(e) Limitations on construction of section

Nothing in this section shall be construed—

(1) to alter the basis on which a standard or regulation is promulgated under this chapter;
(2) to preclude the Administrator from carrying out his responsibility under this chapter to protect public health and welfare; or
(3) to authorize or require any judicial review of any such standard or regulation, or any stay or injunction of the proposal, promulgation, or effectiveness of such standard or regulation on the basis of failure to comply with this section.

(f) Citizen suits

The requirements imposed on the Administrator under this section shall be treated as non-discretionary duties for purposes of section 7604(a)(2) of this title, relating to citizen suits. The sole method for enforcement of the Administrator’s duty under this section shall be by bringing a citizen suit under such section 7604(a)(2) for a court order to compel the Administrator to perform such duty. Violation of any such order shall subject the Administrator to penalties for contempt of court.

(g) Costs

In the case of any provision of this chapter in which costs are expressly required to be taken into account, the adequacy or inadequacy of any assessment required under this section may be taken into consideration, but shall not be treated for purposes of judicial review of any such provision as conclusive with respect to compliance or noncompliance with the requirement of such provision to take cost into account.

(92 Stat. 3458.)
§ 601, Nov. 15, 1990, 104 Stat. 2648. See subchapter VI
§ 7619. Air quality monitoring
(a) In general
After notice and opportunity for public hearing, the Administrator shall promulgate regulations establishing an air quality monitoring system throughout the United States which—
(1) utilizes uniform air quality monitoring criteria and methodology and measures such air quality according to a uniform air quality index,
(2) provides for air quality monitoring stations in major urban areas and other appropriate areas throughout the United States to provide monitoring such as will supplement (but not duplicate) air quality monitoring carried out by the States required under any applicable implementation plan,
(3) provides for daily analysis and reporting of air quality based upon such uniform air quality index, and
(4) provides for recordkeeping with respect to such monitoring data and for periodic analysis and reporting to the general public by the Administrator with respect to air quality based upon such data.

The operation of such air quality monitoring system may be carried out by the Administrator or by such other departments, agencies, or entities of the Federal Government (including the National Weather Service) as the President may deem appropriate. Any air quality monitoring system required under any applicable implementation plan under section 7410 of this title shall, as soon as practicable following promulgation of regulations under this section, utilize the standard criteria and methodology, and measure air quality according to the standard index, established under such regulations.

(b) Air quality monitoring data influenced by exceptional events
(1) Definition of exceptional event
In this section:
(A) In general
The term “exceptional event” means an event that—
1. affects air quality;
2. is not reasonably controllable or preventable;
3. is an event caused by human activity that is unlikely to recur at a particular location or a natural event; and
4. is determined by the Administrator through the process established in the regulations promulgated under paragraph (2) to be an exceptional event.

(B) Exclusions
In this subsection, the term “exceptional event” does not include—
(i) stagnation of air masses or meteorological inversions;
(ii) a meteorological event involving high temperatures or lack of precipitation;
or
(iii) air pollution relating to source non-compliance.

(2) Regulations
(A) Proposed regulations
Not later than March 1, 2006, after consultation with Federal land managers and State air pollution control agencies, the Administrator shall publish in the Federal Register proposed regulations governing the review and handling of air quality monitoring data influenced by exceptional events.

(B) Final regulations
Not later than 1 year after the date on which the Administrator publishes proposed regulations under subparagraph (A), and after providing an opportunity for interested persons to make oral presentations of views, data, and arguments regarding the proposed regulations, the Administrator shall promulgate final regulations governing the review and handling of air quality monitoring data influenced by an exceptional event that are consistent with paragraph (3).

(3) Principles and requirements
(A) Principles
In promulgating regulations under this section, the Administrator shall follow—
(i) the principle that protection of public health is the highest priority;
(ii) the principle that timely information should be provided to the public in any case in which the air quality is unhealthy;
(iii) the principle that all ambient air quality data should be included in a timely manner, and an appropriate Federal air quality database that is accessible to the public;
(iv) the principle that each State must take necessary measures to safeguard public health regardless of the source of the air pollution; and
(v) the principle that air quality data should be carefully screened to ensure that events not likely to recur are represented accurately in all monitoring data and analyses.

(B) Requirements
Regulations promulgated under this section shall, at a minimum, provide that—

---

1. So in original. Probably should be “of”.
2. So in original. Probably should be followed by “in”. 
(i) the occurrence of an exceptional event must be demonstrated by reliable, accurate data that is promptly produced and provided by Federal, State, or local government agencies;

(ii) a clear causal relationship must exist between the measured exceedances of a national ambient air quality standard and the exceptional event to demonstrate that the exceptional event caused a specific air pollution concentration at a particular air quality monitoring location;

(iii) there is a public process for determining whether an event is exceptional; and

(iv) there are criteria and procedures for the Governor of a State to petition the Administrator to exclude air quality monitoring data that is directly due to exceptional events from use in determinations by the Administrator with respect to exceedances or violations of the national ambient air quality standards.

(4) Interim provision

Until the effective date of a regulation promulgated under paragraph (2), the following guidance issued by the Administrator shall continue to apply:

(A) Guidance on the identification and use of air quality data affected by exceptional events (July 1986).

(B) Areas affected by PM–10 natural events, May 30, 1996.

(C) Appendices I, K, and N to part 50 of title 40, Code of Federal Regulations.

AMENDMENTS

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7620. Standardized air quality modeling

(a) Conferences

Not later than six months after August 7, 1977, and at least every three years thereafter, the Administrator shall conduct a conference on air quality modeling. In conducting such conference, special attention shall be given to appropriate modeling necessary for carrying out part C of subchapter I of this chapter (relating to prevention of significant deterioration of air quality).

(b) Conferences

The conference conducted under this section shall provide for participation by the National Academy of Sciences, representatives of State and local air pollution control agencies, and appropriate Federal agencies, including the National Science Foundation;¹ the National Oceanic and Atmospheric Administration, and the National Institute of Standards and Technology.

(c) Comments; transcripts

Interested persons shall be permitted to submit written comments and a verbatim transcript of the conference proceedings shall be maintained.

(d) Promulgation and revision of regulations relating to air quality modeling

The comments submitted and the transcript maintained pursuant to subsection (c) of this section shall be included in the docket required to be established for purposes of promulgating or revising any regulation relating to air quality modeling under part C of subchapter I of this chapter.

¹So in original. The semicolon probably should be a comma.
quire the parties, including the employer involved, to present information relating to the actual or potential effect of such requirements on employment and the detailed reasons or justification therefor. If the Administrator determines that there are no reasonable grounds for conducting a public hearing he shall notify (in writing) the party requesting such hearing of such a determination and the reasons therefor. If the Administrator does convene such a hearing, the hearing shall be on the record. Upon receiving the report of such investigation, the Administrator shall make findings of fact as to the effect of such requirements on employment and on the alleged actual or potential discharge, layoff, or other adverse effect on employment, and shall make such recommendations as he deems appropriate. Such report, findings, and recommendations shall be available to the public.

(c) Subpoenas; confidential information; witnesses; penalty

In connection with any investigation or public hearing conducted under subsection (b) of this section or as authorized in section 7419 of this title (relating to primary nonferrous smelter orders), the Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books and documents, and he may administer oaths. Except for emission data, upon a showing satisfactory to the Administrator by such owner or operator that such papers, books, documents, or information or particular part thereof, if made public, would divulge trade secrets or secret processes of such owner, or operator, the Administrator shall consider such record, report, or information or particular portion thereof confidential in accordance with the purposes of section 1905 of title 18, except that such paper, book, document, or information may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter, or when relevant in any proceeding under this chapter. Witnesses summoned shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. In cases of contumacy or refusal to obey a subpoena served upon any person under this subparagraph, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Administrator, to appear and produce papers, books, and documents before the Administrator, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(d) Limitations on construction of section

Nothing in this section shall be construed to require or authorize the Administrator, the States, or political subdivisions thereof, to modify or withdraw any requirement imposed or proposed to be imposed under this chapter.

§ 7622

Employee protection

(a) Discharge or discrimination prohibited

No employer may discharge any employee or otherwise discriminate against any employee with respect to his compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(1) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this chapter or a proceeding for the administration or enforcement of any requirement imposed under this chapter or under any applicable implementation plan, (2) testified or is about to testify in any such proceeding, or (3) assisted or participated or is about to assist or participate in any manner in such a proceeding or in any other action to carry out the purposes of this chapter.

(b) Complaint charging unlawful discharge or discrimination; investigation; order

(1) Any employee who believes that he has been discharged or otherwise discriminated against by any person in violation of subsection (a) of this section may, within thirty days after such violation occurs, file (or have any person file on his behalf) a complaint with the Secretary of Labor (hereinafter in this subsection referred to as the “Secretary”) alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of the filing of the complaint.

(2)(A) Upon receipt of a complaint filed under paragraph (1), the Secretary shall conduct an investigation of the violation alleged in the complaint. Within thirty days of the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any person acting in his behalf) and the person alleged to have committed such violation of the results of the investigation conducted pursuant to this subparagraph. Within ninety days of the receipt of such complaint the Secretary shall, unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation, issue an order either providing the relief prescribed by subparagraph (B) or de-

So in original. Probably should be “subsection.”
nny the complaint. An order of the Secretary shall be made on the record after notice and opportunity for public hearing. The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant.

(B) If, in response to a complaint filed under paragraph (1), the Secretary determines that a violation of subsection (a) of this section has occurred, the Secretary shall order the person who committed such violation to (i) take affirmative action to abate the violation, and (ii) reinstate the complainant to his former position together with the compensation (including back pay), terms, conditions, and privileges of his employment, and the Secretary may order such person to provide compensatory damages to the complainant. If an order is issued under this paragraph, the Secretary, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys’ and expert witness fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

(c) Review

(1) Any person adversely affected or aggrieved by an order issued under subsection (b) of this section may obtain review of the order in the United States court of appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred. The petition for review must be filed within sixty days from the issuance of the Secretary’s order. Review shall conform to chapter 7 of title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the Secretary’s order.

(2) An order of the Secretary with respect to which review could have been obtained under paragraph (1) shall not be subject to judicial review in any criminal or other civil proceeding.

(d) Enforcement of order by Secretary

Whenever a person has failed to comply with an order issued under subsection (b) of this section, the Secretary may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this subsection, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief, compensatory, and exemplary damages.

(e) Enforcement of order by person on whose behalf order was issued

(1) Any person on whose behalf an order was issued under paragraph (2) of subsection (b) of this section may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(2) The court, in issuing any final order under this subsection, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(f) Mandamus

Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(g) Deliberate violation by employee

Subsection (a) of this section shall not apply with respect to any employee who, acting without direction from his employer (or the employer’s agent), deliberately causes a violation of any requirement of this chapter.

(745) EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

Section, except as otherwise provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7624. Cost of vapor recovery equipment

(a) Costs to be borne by owner of retail outlet

The regulations under this chapter applicable to vapor recovery with respect to mobile source fuels at retail outlets of such fuels shall provide that the cost of procurement and installation of such vapor recovery shall be borne by the owner of such outlet (as determined under such regulations). Except as provided in subsection (b) of
this section, such regulations shall provide that no lease of a retail outlet by the owner thereof which is entered into or renewed after August 7, 1977, may provide for a payment by the lessee of the cost of procurement and installation of vapor recovery equipment. Such regulations shall also provide that the cost of procurement and installation of vapor recovery equipment may be recovered by the owner of such outlet by means of price increases in the cost of any product sold by such owner, notwithstanding any provision of law.

(b) Payment by lessee

The regulations of the Administrator referred to in subsection (a) of this section shall permit a lease of a retail outlet to provide for payment by the lessee of the cost of procurement and installation of vapor recovery equipment over a reasonable period (as determined in accordance with such regulations), if the owner of such outlet does not sell, trade in, or otherwise dispense any product at wholesale or retail at such outlet.

PRIOR PROVISIONS

A prior section 323 of act July 14, 1955, was classified to section 7623 of this title prior to repeal by Pub. L. 96–300, §1(c), July 2, 1980, 94 Stat. 831.

AMENDMENTS

1980—Pub. L. 96–300, §1(b), which directed that last sentence of this section be struck out was probably in intended to strike sentence purportedly added by Pub. L. 95–190. See 1980 Amendment note below and section 7623 of this title.

1977—Pub. L. 95–190 which purported to amend subsec. (j) of this section by inserting “The Commission may appoint and fix the pay of such staff as it deems necessary,” after “(j)” was not executed to this section because it did not contain a subsec. (j). See 1980 Amendment note above.

EFFECTIVE DATE

Section effective Aug. 7, 1977, except as otherwise expressly provided, see section 406(d) of Pub. L. 95–95, set out as an Effective Date of 1977 Amendment note under section 7401 of this title.

§ 7625. Vapor recovery for small business marketers of petroleum products

(a) Marketers of gasoline

The regulations under this chapter applicable to vapor recovery from fueling of motor vehicles at retail outlets of gasoline shall not apply to any outlet owned by an independent small business marketer of gasoline having monthly sales of less than 50,000 gallons. In the case of any other outlet owned by an independent small business marketer, such regulations shall provide, with respect to independent small business marketers of gasoline, for a three-year phase-in period for the installation of such vapor recovery equipment at such outlets under which such marketers shall have—

(1) 33 percent of such outlets in compliance at the end of the first year during which such regulations apply to such marketers,

(2) 66 percent at the end of such second year, and

(3) 100 percent at the end of the third year.

(b) State requirements

Nothing in subsection (a) of this section shall be construed to prohibit any State from adopting or enforcing, with respect to independent small business marketers of gasoline having monthly sales of less than 50,000 gallons, any vapor recovery requirements for mobile source fuels at retail outlets. Any vapor recovery requirement which is adopted by a State and submitted to the Administrator as part of its implementation plan may be approved and enforced by the Administrator as part of the applicable implementation plan for that State.

(c) Refiners

For purposes of this section, an independent small business marketer of gasoline is a person engaged in the marketing of gasoline who would be required to pay for procurement and installation of vapor recovery equipment under section 7624 of this title or under regulations of the Administrator, unless such person—

(1)(A) is a refiner, or

(B) controls, is controlled by, or is under common control with, a refiner,

(C) is otherwise directly or indirectly affiliated (as determined under the regulations of the Administrator) with a refiner or with a person who controls, is controlled by, or is under a common control with a refiner (unless the sole affiliation referred to herein is by means of a supply contract or an agreement or contract to use a trademark, trade name, service mark, or other identifying symbol or name owned by such refiner or any such person), or

(2) receives less than 50 percent of his annual income from refining or marketing of gasoline.

For the purpose of this section, the term “refiner” shall not include any refiner whose total refinery capacity (including the refinery capacity of any person who controls, is controlled by, or is under common control with, such refiner) does not exceed 65,000 barrels per day. For purposes of this section, “control” of a corporation means ownership of more than 50 percent of its stock.

REFERENCES IN TEXT

Section 7624 of this title, referred to in subsec. (c), was in the original “section 324 of this Act”, meaning section 324 of the Act July 14, 1955. Sections 324 and 325 of that Act, were renumbered sections 323 and 324, respectively, by Pub. L. 96–300, §1(b), July 2, 1980, 94 Stat. 831, and are classified to sections 7624 and 7625, respectively, of this title.

PRIOR PROVISIONS

A prior section 324 of act July 14, 1955, was renumbered section 323 by Pub. L. 96–300 and is classified to section 7624 of this title.

1 See References in Text note below.

2 So in original. The word “or” probably should appear at the end of subpar. (B).
§ 7625–1. Exemptions for certain territories

(a)(1) Upon petition by the governor of Guam, American Samoa, the Virgin Islands, or the Commonwealth of the Northern Mariana Islands, the Administrator is authorized to exempt any person or source or class of persons or sources in such territory from any requirement under this chapter other than section 7412 of this title or any requirement under section 7410 of this title or part D of subchapter I of this chapter necessary to attain or maintain a national primary ambient air quality standard. Such exemption may be granted if the Administrator finds that compliance with such requirement is not feasible or is unreasonable due to unique geographical, meteorological, or economic factors of such territory, or such other local factors as the Administrator deems significant. Any such petition shall be considered in accordance with section 7607(d) of this title and any exemption under this subsection shall be considered final action by the Administrator for the purposes of section 7607(b) of this title.

(2) The Administrator shall promptly notify the Committees on Energy and Commerce and on Natural Resources of the House of Representatives and the Committees on Environment and Public Works and on Energy and Natural Resources of the Senate upon receipt of any petition under this subsection and of the approval or rejection of such petition and the basis for such action.

(b) Notwithstanding any other provision of this chapter, any fossil fuel fired steam electric power plant operating within Guam as of December 8, 1983, is hereby exempted from:

(1) any requirement of the new source performance standards relating to sulfur dioxide promulgated under section 7411 of this title as of December 8, 1983; and

(2) any regulation relating to sulfur dioxide standards or limitations contained in a State implementation plan approved under section 7410 of this title as of December 8, 1983: Provided, That such exemption shall expire eighteen months after December 8, 1983, unless the Administrator determines that such plant is making all emissions reductions practicable to prevent exceedances of the national ambient air quality standards for sulfur dioxide.

PRIOR PROVISIONS

A prior section 325 of act July 14, 1955, was renumbered section 326 by Pub. L. 96–300 and is classified to section 7625 of this title.

§ 7625a. Statutory construction

The parenthetical cross references in any provision of this chapter to other provisions of the chapter, or other provisions of law, where the words “relating to” or “pertaining to” are used, are made only for convenience, and shall be given no legal effect.

PRIOR PROVISIONS

A prior section 326 of act July 14, 1955, was renumbered section 327 by Pub. L. 98–213 and is classified to section 7626 of this title.

§ 7626. Authorization of appropriations

(a) In general

There are authorized to be appropriated to carry out this chapter such sums as may be necessary for the 7 fiscal years commencing after November 15, 1990.

(b) Grants for planning

There are authorized to be appropriated (1) not more than $50,000,000 to carry out section 7505 of this title beginning in fiscal year 1991, to be available until expended, to develop plan revisions required by subpart 2, 3, or 4 of part D of subchapter I of this chapter, and (2) not more than $15,000,000 for each of the 7 fiscal years commencing after November 15, 1990, to make grants to the States to prepare implementation plans as required by subpart 2, 3, or 4 of part D of subchapter I of this chapter.

§ 7627. Air pollution from Outer Continental Shelf activities

(a) Applicable requirements for certain areas

(1) In general

Not later than 12 months after November 15, 1990, following consultation with the Secretary of the Interior and the Commandant of the United States Coast Guard, the Administrator, by rule, shall establish requirements to control air pollution from Outer Continental Shelf sources located offshore of the States along the Pacific, Arctic and Atlantic Coasts (other than Outer Continental Shelf sources located offshore of the North Slope Borough of the State of Alaska), and along the United States Gulf Coast off the State of Florida eastward of longitude 87 degrees and 30 minutes and 30 minutes past the meridian of 87 degrees and 30 minutes eastward of the 30th meridian east of the western boundary of the United States, to attain and maintain Federal and State ambient air quality standards and to comply with the provisions of part C of subchapter I of this chapter. For such sources located within 25 miles of the seaward boundary of any OCS source in the corresponding onshore area, and shall include, but not be limited to, State and local requirements for emission controls, offsets, permitting, monitoring, testing, and reporting. New OCS sources shall comply with such requirements on the date of promulgation and existing OCS sources shall comply on the date 24 months thereafter. The Administrator shall update such requirements as necessary to maintain consistency with onshore regulations and this chapter. The authority of this subsection shall supersede section 5(a)(8) of the Outer Continental Shelf Lands Act [(43 U.S.C. 1334(a)(8))] but shall not repeal or modify any other Federal, State, or local authorities with respect to air quality. Each requirement established under this section shall be treated, for purposes of sections 7413, 7414, 7416, 7420, and 7604 of this title, as a standard under section 7411 of this title and a violation of any such requirement shall be considered a violation of section 7411(e) of this title.

(2) Exemptions

The Administrator may exempt an OCS source from a specific requirement in effect under regulations under this chapter to implement and enforce such requirements. Nothing in this subsection shall prohibit the Administrator from enforcing any other authority the Administrator has under this title.

(b) Appropriate Actions

(1) Exemptions

The Administrator may exempt an OCS source from the requirements of this section to the extent that the Administrator finds that compliance with a pollution control technology requirement is technically infeasible or will cause an unreasonable threat to health and safety. The Administrator shall make written findings explaining the basis of any exemption issued pursuant to this subsection and shall impose another requirement equal to or as close in stringency to the original requirement as possible. The Administrator shall ensure that any increase in emissions due to the granting of an exemption is offset by reductions in actual emissions, not otherwise required by this chapter, from the same source or other sources in the area or in the corresponding onshore area. The Administrator shall establish procedures to provide for public notice and comment on exemptions proposed pursuant to this subsection.

(3) State procedures

Each State adjacent to an OCS source included under this subsection may promulgate and submit to the Administrator regulations for implementing and enforcing the requirements of this subsection. If the Administrator finds that the State regulations are adequate, the Administrator shall delegate to that State any authority the Administrator has under this chapter to implement and enforce such requirements. Nothing in this subsection shall prohibit the Administrator from enforcing any requirement of this section.

(4) Definitions

For purposes of subsections (a) and (b) of this section—

(A) Outer Continental Shelf

The term “Outer Continental Shelf” has the meaning provided by section 2 of the Outer Continental Shelf Lands Act [(43 U.S.C. 1331)].

(B) Corresponding onshore area

The term “corresponding onshore area” means, with respect to any OCS source, the onshore attainment or nonattainment area that is closest to the source, unless the Administrator determines that another area with more stringent requirements with respect to the control and abatement of air pollution may reasonably be expected to be affected by such emissions. Such determination shall be based on the potential for air pollutants from the OCS source to reach the other onshore area and the potential of such air pollutants to affect the efforts of the other onshore area to attain or maintain any Federal or State ambient air quality standard or to comply with the provisions of part C of subchapter I of this chapter.
(C) **Outer Continental Shelf source**

The terms “Outer Continental Shelf source” and “OCS source” include any equipment, activity, or facility which—

(i) emits or has the potential to emit any air pollutant,

(ii) is regulated or authorized under the Outer Continental Shelf Lands Act [43 U.S.C. 1331 et seq.], and

(iii) is located on the Outer Continental Shelf or in or on waters above the Outer Continental Shelf.

Such activities include, but are not limited to, platform and drill ship exploration, construction, development, production, processing, and transportation. For purposes of this subsection, emissions from any vessel servicing or associated with an OCS source, including emissions while at the OCS source or en route to or from the OCS source within 25 miles of the OCS source, shall be considered direct emissions from the OCS source.

(D) **New and existing OCS sources**

The term “new OCS source” means an OCS source which is a new source within the meaning of section 7411(a) of this title. The term “existing OCS source” means any OCS source other than a new OCS source.

(b) **Requirements for other offshore areas**

For portions of the United States Outer Continental Shelf that are adjacent to the States not covered by subsection (a) of this section which are Texas, Louisiana, Mississippi, and Alabama or are adjacent to the North Slope Borough of the State of Alaska, the Secretary shall consult with the Administrator to assure coordination of air pollution control regulation for Outer Continental Shelf emissions and emissions in adjacent onshore areas. Concurrently with this obligation, the Secretary shall complete within 3 years of November 15, 1990, a research study examining the impacts of emissions from Outer Continental Shelf activities in such areas that fail to meet the national ambient air quality standards for either ozone or nitrogen dioxide. Based on the results of this study, the Secretary shall consult with the Administrator and determine if any additional actions are necessary. There are authorized to be appropriated such sums as may be necessary to provide funding for the study required under this section.

(c) **Coastal waters**

(1) The study report of section 7412(n)\(^1\) of this title shall apply to the coastal waters of the United States to the same extent and in the same manner as such requirements apply to the Great Lakes, the Chesapeake Bay, and their tributary waters.

(2) The regulatory requirements of section 7412(n)\(^1\) of this title shall apply to the coastal waters of the States which are subject to subsection (a) of this section, to the same extent and in the same manner as such requirements apply to the Great Lakes, the Chesapeake Bay, and their tributary waters.

---

\(^1\) So in original. Probably should be section “7412(m)”. 

---

References in Text

The Outer Continental Shelf Lands Act, referred to in subsec. (a)(4)(C)(ii), is act Aug. 7, 1953, ch. 345, 67 Stat. 462, as amended, which is classified generally to subchapter III (§1331 et seq.) of chapter 29 of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1331 of Title 43 and Tables.

Amendments

2011—Subsec. (a)(1). Pub. L. 112–74, § 432(b), inserted “‘other than Outer Continental Shelf sources located offshore of the North Slope Borough of the State of Alaska’ after ‘Outer Continental Shelf sources located offshore of the States along the Pacific, Arctic and Atlantic Coasts’ and ‘and this chapter’ after ‘regulations’.

Subsec. (b). Pub. L. 112–74, § 432(c), struck out “Gulf Coast” after “United States” and inserted “or are adjacent to the North Slope Borough of the State of Alaska” after “Alabama”.

Transfer of Functions

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

Congressional Statement of Purpose

Pub. L. 112–74, div. E, title IV, § 432(a), Dec. 23, 2011, 125 Stat. 1048, provided that: “It is the purpose of this section [amending this section and enacting provisions set out as a note under this section] to ensure that the energy policy of the United States focuses on the expeditious and orderly development of domestic energy resources in a manner that protects human health and the environment.”

Effect of Transfer of Air Quality Permitting Authority

Pub. L. 112–74, div. E, title IV, § 432(d), Dec. 23, 2011, 125 Stat. 1048, provided that: “The transfer of air quality permitting authority pursuant to this section [amending this section and enacting provisions set out as a note under this section] shall not invalidate or stay—

(1) any air quality permit pending or existing as of the date of the enactment of this Act [Dec. 23, 2011]; or

(2) any proceeding related thereto.”

§ 7628. Demonstration grant program for local governments

(a) **Grant program**

(1) **In general**

The Administrator shall establish a demonstration program under which the Administrator shall provide competitive grants to assist local governments (such as municipalities and counties), with respect to local government buildings—

(A) to deploy cost-effective technologies and practices; and

(B) to achieve operational cost savings, through the application of cost-effective
(2) Cost sharing

(A) In general

The Federal share of the cost of an activity carried out using a grant provided under this section shall be 40 percent.

(B) Waiver of non-Federal share

The Administrator may waive up to 100 percent of the local share of the cost of any grant under this section should the Administrator determine that the community is economically distressed, pursuant to objective economic criteria established by the Administrator in published guidelines.

(3) Maximum amount

The amount of a grant provided under this subsection shall not exceed $1,000,000.

(b) Guidelines

(1) In general

Not later than 1 year after December 19, 2007, the Administrator shall issue guidelines to implement the grant program established under subsection (a).

(2) Requirements

The guidelines under paragraph (1) shall establish—

(A) standards for monitoring and verification of operational cost savings through the application of cost-effective technologies and practices reported by grantees under this section;

(B) standards for grantees to implement training programs, and to provide technical assistance and education, relating to the retrofit of buildings using cost-effective technologies and practices; and

(C) a requirement that each local government that receives a grant under this section shall achieve facility-wide cost savings, through renovation of existing local government buildings using cost-effective technologies and practices, of at least 40 percent as compared to the baseline operational costs of the buildings before the renovation (as calculated assuming a 3-year, weather-normalized average).

(c) Compliance with State and local law

Nothing in this section or any program carried out using a grant provided under this section supersedes or otherwise affects any State or local law, to the extent that the State or local law contains a requirement that is more stringent than the relevant requirement of this section.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2007 through 2012.

(e) Reports

(1) In general

The Administrator shall provide annual reports to Congress on cost savings achieved and actions taken and recommendations made under this section, and any recommendations for further action.

(2) Final report

The Administrator shall issue a final report at the conclusion of the program, including findings, a summary of total cost savings achieved, and recommendations for further action.

(f) Termination

The program under this section shall terminate on September 30, 2012.

(g) Definitions

In this section, the terms “cost-effective technologies and practices” and “operating cost savings” shall have the meanings defined in section 17061 of this title.

§ 7641. Noise abatement

(a) Office of Noise Abatement and Control

The Administrator shall establish within the Environmental Protection Agency an Office of Noise Abatement and Control, and shall carry out through such Office a full and complete investigation and study of noise and its effect on the public health and welfare in order to (1) identify and classify causes and sources of noise, and (2) determine—

(A) effects at various levels;

(B) projected growth of noise levels in urban areas through the year 2000;

(C) the psychological and physiological effect on humans;

(D) effects of sporadic extreme noise (such as jet noise near airports) as compared with constant noise;

(E) effect on wildlife and property (including values);

(F) effect of sonic booms on property (including values); and

(G) such other matters as may be of interest in the public welfare.

(b) Investigation techniques; report and recommendations

In conducting such investigation, the Administrator shall hold public hearings, conduct research, experiments, demonstrations, and studies. The Administrator shall report the results of such investigation and study, together with his recommendations for legislation or other action, to the President and the Congress not later than one year after December 31, 1970.

(c) Abatement of noise from Federal activities

In any case where any Federal department or agency is carrying out or sponsoring any activ-
ity resulting in noise which the Administrator determines amounts to a public nuisance or is otherwise objectionable, such department or agency shall consult with the Administrator to determine possible means of abating such noise.

CODIFICATION

Section was formerly classified to section 1858a of this title.

§ 7642. Authorization of appropriations

There is authorized to be appropriated such amount, not to exceed $30,000,000, as may be necessary for the purposes of this subchapter.

CODIFICATION

Section was formerly classified to section 1858b of this title.

SUBCHAPTER IV–A—ACID DEPOSITION CONTROL

CODIFICATION

§ 7651. Findings and purposes

(a) Findings

The Congress finds that—

(1) the presence of acidic compounds and their precursors in the atmosphere and in deposits from the atmosphere represents a threat to natural resources, ecosystems, materials, visibility, and public health;

(2) the principal sources of the acidic compounds and their precursors in the atmosphere are emissions of sulfur and nitrogen oxides from the combustion of fossil fuels;

(3) the problem of acid deposition is of national and international significance;

(4) strategies and technologies for the control of precursors to acid deposition exist now that are economically feasible, and improved methods are expected to become increasingly available over the next decade;

(5) current and future generations of Americans will be adversely affected by delaying measures to remedy the problem;

(6) reduction of total atmospheric loading of sulfur dioxide and nitrogen oxides will enhance protection of the public health and welfare and the environment; and

(7) control measures to reduce precursor emissions from steam-electric generating units should be initiated without delay.

(b) Purposes

The purpose of this subchapter is to reduce the adverse effects of acid deposition through reductions in annual emissions of sulfur dioxide of ten million tons from 1980 emission levels, and, in combination with other provisions of this chapter, of nitrogen oxides emissions of approximately two million tons from 1980 emission levels, in the forty-eight contiguous States and the District of Columbia. It is the intent of this subchapter to effectuate such reductions by requiring compliance by affected sources with prescribed emission limitations by specified deadlines, which limitations may be met through alternative methods of compliance provided by an emission allocation and transfer system. It is also the purpose of this subchapter to encourage energy conservation, use of renewable and clean alternative technologies, and pollution prevention as a long-range strategy, consistent with the provisions of this subchapter, for reducing air pollution and other adverse impacts of energy production and use.

CODIFICATION

ACID DEPOSITION STANDARDS

Section 404 of Pub. L. 101–549 directed Administrator of Environmental Protection Agency, not later than 36 months after Nov. 15, 1990, to transmit to Congress a report on the feasibility and effectiveness of an acid deposition standard or standards to protect sensitive and critically sensitive aquatic and terrestrial resources.

INDUSTRIAL SO2 EMISSIONS

Section 406 of Pub. L. 101–549 provided that:

“(a) Report.—Not later than January 1, 1995 and every 5 years thereafter, the Administrator of the Environmental Protection Agency shall transmit to the Congress a report containing an inventory of national annual sulfur dioxide emissions from industrial sources (as defined in title IV of the Act [42 U.S.C. 7651 et seq.]), including units subject to section 405(g)(6) of the Clean Air Act (42 U.S.C. 7651d(g)(6)), for all years for which data are available, as well as the likely trend in such emissions over the following twenty-year period. The reports shall also contain estimates of the actual reduction in each year resulting from promulgation of the diesel fuel desulfurization regulations under section 214 (42 U.S.C. 7548).

“(b) 5.60 MILLION TON CAP.—Whenever the inventory required by this section indicates that sulfur dioxide emissions from industrial sources, including units subject to section 405(g)(5) of the Clean Air Act (42 U.S.C. 7651d(g)(5)), may reasonably be expected to reach levels greater than 5.60 million tons per year, the Administrator of the Environmental Protection Agency shall take such actions under the Clean Air Act (42 U.S.C. 7401 et seq.) as may be appropriate to ensure that such emissions do not exceed 5.60 million tons per year. Such actions may include the promulgation of new and revised standards of performance for new sources, including units subject to section 405(g)(5) of the Clean Air Act, under section 111(b) of the Clean Air Act (42 U.S.C. 7411(b)), as well as promulgation of standards of performance for existing sources, including units subject to section 405(g)(5) of the Clean Air Act, under authority of this section. For an existing source regulated under this section, ‘standard of performance’ means a standard which the Administrator determines is applicable to that source and which reflects the degree of emission reduction achievable through the application of the best system of continuous emission reduction
which (taking into consideration the cost of achieving such emission reduction, and any nonair quality health and environmental impact and energy requirements) the Administrator determines has been adequately demonstrated for that category of sources."

"(c) ELECTION.—Regulations promulgated under section 408(b) of the Clean Air Act [42 U.S.C. 7651(d)(b)] shall not prohibit a source from electing to become an affected unit under section 410 of the Clean Air Act [42 U.S.C. 7651]."

"[For termination, effective May 15, 2000, of reporting provisions in section 496(a) of Pub. L. 101–549, see set out above, see section 5303 of Pub. L. 104–166, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 10th item on page 162 of House Document No. 103–7.]"

SENSE OF CONGRESS ON EMISSION REDUCTIONS COSTS

Section 407 of Pub. L. 101–549 provided that: "It is the sense of the Congress that the Clean Air Act Amendments of 1990 [Pub. L. 101–549, see Tables for classification], through the allowance program, allocates the costs of achieving the required reductions in emissions of sulfur dioxide and oxides of nitrogen among sources in the United States. Broad based taxes and emissions fees that would provide for payment of the costs of achieving required emissions reductions by any party or parties other than the sources required to achieve the reductions are undesirable."

MONITORING OF ACID RAIN PROGRAM IN CANADA

Section 408 of Pub. L. 101–549 provided that:

"(a) REPORTS TO CONGRESS.—The Administrator of the Environmental Protection Agency, in consultation with the Secretary of State, the Secretary of Energy, and other persons the Administrator deems appropriate, shall prepare and submit to Congress on January 1, 1994, January 1, 1999, and January 1, 2005.

"(b) CONTENTS.—The report to Congress shall analyze the current emission levels of sulfur dioxide and nitrogen oxides in each of the provinces participating in Canada’s acid rain control program, the amount of emission reductions of sulfur dioxide and oxides of nitrogen achieved by each province, the methods utilized by each province in making those reductions, the costs to each province and the employment impacts in each province of making and maintaining those reductions.

"(c) COMPLIANCE.—Beginning on January 1, 1999, the reports shall also assess the degree to which each province is complying with its stated emissions cap."

§ 7651a. Definitions

As used in this subchapter:

(1) The term "affected source" means a source that includes one or more affected units.

(2) The term "affected unit" means a unit that is subject to emission reduction requirements or limitations under this subchapter.

(3) The term "allowance" means an authorization, allocated to an affected unit by the Administrator under this subchapter, to emit, during or after a specified calendar year, one ton of sulfur dioxide.

(4) The term "baseline" means the annual quantity of fossil fuel consumed by an affected unit, measured in millions of British Thermal Units ("mmBtu’s"), calculated as follows:

(A) For each utility unit that was in commercial operation prior to January 1, 1985, the baseline shall be the annual average quantity of mmBtu’s consumed in fuel during calendar years 1985, 1986, and 1987, as recorded by the Department of Energy pursuant to Form 767. For any utility unit for which such form was not filed, the baseline shall be the level specified for such unit in the 1985 National Acid Precipitation Assessment Program (NAPAP) Emissions Inventory, Version 2, National Utility Reference File (NURF) or in a corrected data base as established by the Administrator pursuant to paragraph (3). For nonutility units, the baseline is the NAPAP Emissions Inventory, Version 2. The Administrator, in the Administrator’s sole discretion, may exclude periods during which a unit is shutdown for a continuous period of four calendar months or longer, and make appropriate adjustments under this paragraph. Upon petition of the owner or operator of any unit, the Administrator may make appropriate baseline adjustments for accidents that caused prolonged outages.

(B) For any other nonutility unit that is not included in the NAPAP Emissions Inventory, Version 2, or a corrected data base as established by the Administrator pursuant to paragraph (3), the baseline shall be the annual average quantity, in mmBtu consumed in fuel by that unit, as calculated pursuant to a method which the Administrator shall prescribe by regulation to be promulgated not later than eighteen months after November 15, 1990.

(C) The Administrator shall, upon application or on his own motion, by December 31, 1991, supplement data needed in support of this subchapter and correct any factual errors in data from which affected Phase II units’ baselines or actual 1985 emission rates have been calculated. Corrected data shall be used for purposes of issuing allowances under the subchapter. Such corrections shall not be subject to judicial review, nor shall the failure of the Administrator to correct an alleged factual error in such reports be subject to judicial review.

(5) The term "capacity factor" means the ratio between the actual electric output from a unit and the potential electric output from that unit.

(6) The term "compliance plan" means, for purposes of the requirements of this subchapter, either—

(A) a statement that the source will comply with all applicable requirements under this subchapter, or

(B) where applicable, a schedule and description of the method or methods for compliance and certification by the owner or operator that the source is in compliance with the requirements of this subchapter.

(7) The term "continuous emission monitoring system" (CEMS) means the equipment as required by section 7651k of this title, used to sample, analyze, measure, and provide on a continuous basis a permanent record of emissions and flow (expressed in pounds per million British thermal units (lbs/mmBtu), pounds per hour (lbs/hr) or such other form as the Administrator may prescribe by regulations under section 7651k of this title).
§ 7651a

(8) The term “existing unit” means a unit (including units subject to section 7411 of this title) that commenced commercial operation before November 15, 1990. Any unit that commenced commercial operation before November 15, 1990, which is modified, reconstructed, or repowered after November 15, 1990, shall continue to be an existing unit for the purposes of this subchapter. For the purposes of this subchapter, existing units shall not include simple combustion turbines, or units which serve a generator with a nameplate capacity of 25MWe or less.

(9) The term “generator” means a device that produces electricity and which is reported as a generating unit pursuant to Department of Energy Form 860.

(10) The term “new unit” means a unit that commences commercial operation on or after November 15, 1990.

(11) The term “permitting authority” means the Administrator, or the State or local air pollution control agency, with an approved permitting program under part B of title III of the Act.

(12) The term “repowering” means replacement of an existing coal-fired boiler with one of the following clean coal technologies: atmospheric or pressurized fluidized bed combustion, integrated gasification combined cycle, magnetohydrodynamics, direct and indirect coal-fired turbines, integrated gasification fuel cells, or as determined by the Administrator, in consultation with the Secretary of Energy, a derivative of one or more of these technologies, and any other technology capable of controlling multiple combustion emissions simultaneously with improved boiler or generator efficiency and with significantly greater waste reduction relative to the performance of technology in widespread commercial use as of November 15, 1990. Notwithstanding the provisions of section 7651a(a) of this title, for the purpose of this subchapter, the term “repowering” shall also include any oil and/or gas-fired unit which has been awarded clean coal technology demonstration funding as of January 1, 1991, by the Department of Energy.

(13) The term “reserve” means any bank of allowances established by the Administrator under this subchapter.

(14) The term “State” means one of the 48 contiguous States and the District of Columbia.

(15) The term “unit” means a fossil fuel-fired combustion device.

(16) The term “actual 1985 emission rate”, for electric utility units means the annual sulfur dioxide or nitrogen oxides emission rate in pounds per million Btu as reported in the NAPAP Emissions Inventory, Version 2, National Utility Reference File. For nonutility units, the term “actual 1985 emission rate” means the annual sulfur dioxide or nitrogen oxides emission rate in pounds per million Btu as reported in the NAPAP Emission Inventory, Version 2.

(17)(A) The term “utility unit” means—

(i) a unit that serves a generator in any State that produces electricity for sale, or

(ii) a unit that, during 1985, served a generator in any State that produced electricity for sale.

(B) Notwithstanding subparagraph (A), a unit described in subparagraph (A) that—

(i) was in commercial operation during 1985, but

(ii) did not, during 1985, serve a generator in any State that produced electricity for sale shall not be a utility unit for purposes of this subchapter.

(C) A unit that cogenerates steam and electricity is not a “utility unit” for purposes of this subchapter unless the unit is constructed for the purpose of supplying, or commences construction after November 15, 1990, and supplies, more than one-third of its potential electric output capacity and more than 25 megawatts electrical output to any utility power distribution system for sale.

(18) The term “allowable 1985 emissions rate” means a federally enforceable emissions limitation for sulfur dioxide or oxides of nitrogen, applicable to the unit in 1985 or the limitation applicable in such other subsequent year as determined by the Administrator if such a limitation for 1985 does not exist. Where the emissions limitation for a unit is not expressed in pounds of emissions per million Btu, or the averaging period of that emissions limitation is not expressed on an annual basis, the Administrator shall calculate the annual equivalent of that emissions limitation in pounds per million Btu to establish the allowable 1985 emissions rate.

(19) The term “qualifying phase I technology” means a technological system of continuous emission reduction which achieves a 90 percent reduction in emissions of sulfur dioxide from the emissions that would have resulted from the use of fuels which were not subject to treatment prior to combustion.

(20) The term “alternative method of compliance” means a method of compliance in accordance with one or more of the following authorities:

(A) a substitution plan submitted and approved in accordance with subsections 4 7651c(b) and (c) of this title;

(B) a Phase I extension plan approved by the Administrator under section 7651c(d) of this title, using qualifying Phase I technology as determined by the Administrator in accordance with that section; or

(C) repowering with a qualifying clean coal technology under section 7651b of this title.

(21) The term “commenced” as applied to construction of any new electric utility unit means that an owner or operator has undertaken a continuous program of construction or that an owner or operator has entered into a contractual obligation to undertake and complete, within a reasonable time, a continuous program of construction.

(22) The term “commenced commercial operation” means to have begun to generate electricity for sale.

[See References in Text note below.]

[8] So in original. Probably should be “section”.

[4] So in original. Probably should be “section”.

8See References in Text note below.
(23) The term "construction" means fabrication, erection, or installation of an affected unit.

(24) The term "industrial source" means a unit that does not serve a generator that produces electricity, any "nonutility unit" as defined in this section, or a process source as defined in section 7651l(e) of this title.

(25) The term "nonutility unit" means a unit other than a utility unit.

(26) The term "designated representative" means a responsible person or official authorized by the owner or operator of a unit to represent the owner or operator in matters pertaining to the holding, transfer, or disposition of allowances allocated to a unit, and the submission of and compliance with permits, permit applications, and compliance plans for the unit.

(27) The term "life-of-the-unit, firm power contractual arrangement" means a unit participation power sales agreement under which a utility or industrial customer reserves, or is entitled to receive, a specified amount or percentage of capacity and associated energy generated by a specified generating unit (or units) and pays its proportional amount of such unit’s total costs, pursuant to a contract either—

(A) for the life of the unit;

(B) for a cumulative term of no less than 30 years, including contracts that permit an election for early termination; or

(C) for a period equal to or greater than 25 years or 70 percent of the economic useful life of the unit determined as of the time the unit was built, with option rights to purchase or re-lease some portion of the capacity and associated energy generated by the unit (or units) at the end of the period.

(28) The term "basic Phase II allowance allocations" means:

(A) For calendar years 2000 through 2009 inclusive, allocations of allowances made by the Administrator pursuant to section 7651b of this title and subsections (b)(1), (3), and (4); (c)(1), (2), (3), and (5); (d)(1), (2), (4), and (5); (e); (f); (g)(1), (2), (3), (4), and (5); (h)(1); (i) and (j) of section 7651d of this title.

(B) For each calendar year beginning in 2010, allocations of allowances made by the Administrator pursuant to section 7651b of this title and subsections (b)(1), (3), and (4); (c)(1), (2), (3), and (5); (d)(1), (2), (4), and (5); (e); (f); (g)(1), (2), (3), (4), and (5); (h)(1) and (i) and (j) of section 7651d of this title.

(29) The term "Phase II bonus allowance allocations" means, for calendar year 2000 through 2009, inclusive, and only for such years, allocations made by the Administrator pursuant to section 7651b of this title, subsections (a)(2), (b)(2), (c)(4), (d)(3) (except as otherwise provided therein), and (h)(2) of section 7651d of this title, and section 7651e of this title.

\(^1\) So in original. Probably should be section "7651d(d)."

\(^2\) So in original. No pars. (2) and (3) have been enacted.

REFERENCES IN TEXT

Part B of title III of the Act, referred to in par. (11), means title III of the Clean Air Act, act July 14, 1955, ch. 360, as added, which is classified to subchapter III of this chapter, but title III does not contain parts. For provisions of the Clean Air Act relating to permits, see subchapter V (§7661 et seq.) of this chapter.

CODIFICATION

§ 7651b. Sulfur dioxide allowance program for existing and new units

(a) Allocations of annual allowances for existing and new units

(1) For the emission limitation programs under this subchapter, the Administrator shall allocate annual allowances for the unit, to be held or distributed by the designated representative of the owner or operator of each affected unit at an affected source in accordance with this subchapter, in an amount equal to the annual tonnage emission limitation calculated under section 7651c, 7651d, 7651e, 7651h, or 7651i of this title except as otherwise specifically provided elsewhere in this subchapter. Except as provided in sections 7651a(a)(2), 7651d(a)(3), 7651h and 7651i of this title, beginning January 1, 2000, the Administrator shall not allocate annual allowances to emit sulfur dioxide pursuant to section 7651d of this title in such an amount as would result in total annual emissions of sulfur dioxide from utility units in excess of 8.90 million tons except that the Administrator shall not take into account unused allowances carried forward by owners and operators of affected units or by other persons holding such allowances, following the year for which they were allocated. If necessary to meeting the restrictions imposed in the preceding sentence, the Administrator shall reduce, pro rata, the basic Phase II allowance allocations for each unit subject to the requirements of section 7651d of this title. Subject to the provisions of section 7651o of this title, the Administrator shall allocate allowances for each affected unit at an affected source annually, as provided in paragraphs (2) and (3) and section 7651g of this title. Except as provided in sections 7651h and 7651i of this title, the removal of an existing affected unit or source from commercial operation at any time after November 15, 1990 (whether before or after January 1, 1995, or January 1, 2000) shall not terminate or otherwise affect the allocation of allowances pursuant to section 7651c or 7651d of this title to which the unit is entitled. Allowances shall be allocated by the Administrator without cost to the recipient, except for allowances sold by the Administrator pursuant to section 7651o of this title. Not later than December 31, 1991, the Administrator shall publish a proposed list of the basic Phase II allowance allocations, the Phase II bonus allowance allocations and, if applicable, allocations pursuant to section 7651d(a)(3) of this title for each unit subject to the emissions limitation requirements of section 7651d of this title for the year 2000 and the
year 2010. After notice and opportunity for public comment, but not later than December 31, 1992, the Administrator shall publish a final list of such allocations, subject to the provisions of section 7651(a)(2) of this title. Any owner or operator of an existing unit subject to the requirements of section 7651(b) or (c) of this title who is considering applying for an extension of the emission limitation requirement compliance deadline for that unit from January 1, 2000, until not later than December 31, 2000, pursuant to section 7651h of this title, shall notify the Administrator no later than March 31, 1991. Such notification shall be used as the basis for estimating the basic Phase II allowances under this subsection. Prior to June 1, 1998, the Administrator shall publish a revised final statement of allowance allocations, subject to the provisions of section 7651(e)(2) of this title and taking into account the effect of any compliance date extensions granted pursuant to section 7651h of this title on such allocations. Any person who may make an election concerning the amount of allowances to be allocated to a unit or units shall make such election and so inform the Administrator not later than March 31, 1991, in the case of an election under section 7651d of this title (or June 30, 1991, in the case of an election under section 7651e of this title). If such person fails to make such election, the Administrator shall set forth for each unit owned or operated by such person, the amount of allowances reflecting the election that would, in the judgment of the Administrator, provide the greatest benefit for the owner or operator of the unit. If such person is a Governor who may make an election under section 7651e of this title and the Governor fails to make an election, the Administrator shall set forth for each unit in the State the amount of allowances reflecting the election that would, in the judgment of the Administrator, provide the greatest benefit for units in the State.

(b) Allowance transfer system

Allowances allocated under this subchapter may be transferred among designated representatives of the owners or operators of affected sources under this subchapter and any other person who holds such allowances, as provided by the allowance system regulations to be promulgated by the Administrator not later than eighteen months after November 15, 1990. Such regulations shall establish the allowance system prescribed under this section, including, but not limited to, requirements for the allocation, transfer, and use of allowances under this subchapter. Such regulations shall prohibit the use of any allowance prior to the calendar year for which the allowance was allocated, and shall provide, consistent with the purposes of this subchapter, for the identification of unused allowances, and for such unused allowances to be carried forward and added to allowances allocated in subsequent years, including allowances allocated to units subject to Phase I requirements (as described in section 7651c of this title) which are applied to emissions limitations requirements in Phase II (as described in section 7651d of this title). Transfers of allowances shall not be effective until written certification of the transfer, signed by a responsible official of each party to the transfer, is received and recorded by the Administrator. Such regulations shall permit the transfer of allowances prior to the issuance of such allowances. Recorded pre-allocation transfers shall be deducted by the Administrator from the number of allowances which would otherwise be allocated to the transferee, and added to those allowances allocated to the transferor. Pre-allocation transfers shall not affect the prohibition contained in this subsection against the use of allowances prior to the year for which they are allocated.

(c) Interpollutant trading

Not later than January 1, 1994, the Administrator shall furnish to the Congress a study evaluating the competitive functioning of the allowance system, for the identification of unused allowances, and for such unused allowances to be transferred, signed by a responsible official of each party to the transfer, is received and recorded by the Administrator. Such regulations shall permit the transfer of allowances prior to the issuance of such allowances. Recorded pre-allocation transfers shall be deducted by the Administrator from the number of allowances which would otherwise be allocated to the transferee, and added to those allowances allocated to the transferor. Pre-allocation transfers shall not affect the prohibition contained in this subsection against the use of allowances prior to the year for which they are allocated.

(d) Allowance tracking system

(1) The Administrator shall promulgate, not later than 18 months after November 15, 1990, a system for issuing, recording, and tracking allowances, which shall specify all necessary procedures and requirements for an orderly and competitive functioning of the allowance system. All allowance allocations and transfers shall, upon recordation by the Administrator, be deemed a part of each unit’s permit requirements pursuant to section 7651g of this title, without any further permit review and revision. (2) In order to insure electric reliability, such regulations shall not prohibit or affect temporary increases and decreases in emissions within utility systems, power pools, or utilities entering into allowance pool agreements, that result from their operations, including emergencies and central dispatch, and such temporary emissions increases and decreases shall not require transfer of allowances among units nor shall it require recordation. The owners or operators of such units shall act through a designated representative. Notwithstanding the preceding sentence, the total tonnage of emissions in any calendar year (calculated at the end thereof) from all units in such a utility system, power pool, or allowance pool agreements shall not exceed the total allowances for such units for the calendar year concerned.

(e) New utility units

After January 1, 2000, it shall be unlawful for a new utility unit to emit an annual tonnage of sulfur dioxide in excess of the number of allowances to emit held for the unit by the unit’s owner or operator. Such new utility units shall not be eligible for an allocation of sulfur dioxide allowances under subsection (a)(1) of this section, unless the unit is subject to the provisions of subsection (g)(2) or (3) of section 7651d of this title. New utility units may obtain allowances from any person, in accordance with this subchapter. The owner or operator of any new utility unit in violation of this subsection shall be liable for fulfilling the obligations specified in section 7651j of this title.

(f) Nature of allowances

An allowance allocated under this subchapter is a limited authorization to emit sulfur dioxide
in accordance with the provisions of this subchapter. Such allowance does not constitute a property right. Nothing in this subchapter or in any other provision of law shall be construed to limit the authority of the United States to terminate or limit such authorization. Nothing in this section relating to allowances shall be construed as affecting the application of, or compliance with, any other provision of this chapter to an affected unit or source, including the provisions related to applicable National Ambient Air Quality Standards and State implementation plans. Nothing in this section shall be construed as requiring a change of any kind in any State law regulating electric utility rates and charges or affecting any State law regarding such State regulation or as limiting State regulation (including any prudence review) under such a State law. Nothing in this section shall be construed as modifying the Federal Power Act [16 U.S.C. 791a et seq.] or as affecting the authority of the Federal Energy Regulatory Commission under that Act. Nothing in this subchapter shall be construed to interfere with or impair any program for competitive bidding for power supply in a State in which such program is established. Allowances, once allocated to a person by the Administrator, may be received, held, and temporarily or permanently transferred in accordance with this subchapter and the regulations of the Administrator without regard to whether or not a permit is in effect under subchapter V of this chapter or section 7651g of this title with respect to the unit for which such allowance was originally allocated and recorded. Each permit under this subchapter and each permit issued under subchapter V of this chapter for any affected unit shall provide that the affected unit may not emit an annual tonnage of sulfur dioxide in excess of the allowances held for that unit.

(g) Prohibition

It shall be unlawful for any person to hold, use, or transfer any allowance allocated under this subchapter, except in accordance with regulations promulgated by the Administrator. It shall be unlawful for any affected unit to emit sulfur dioxide in excess of the number of allowances held for that unit for that year by the owner or operator of the unit. Upon the allocation of allowances under this subchapter, the prohibition contained in the preceding sentence shall supersede any other emission limitation applicable under this subchapter to the units for which such allowances are allocated. Allowances may not be used prior to the calendar year for which they are allocated. Nothing in this section or in the allowance system regulations shall relieve the Administrator of the Administrator’s permitting, monitoring and enforcement obligations under this chapter, nor relieve affected sources of their requirements and liabilities under this chapter.

(h) Competitive bidding for power supply

Nothing in this subchapter shall be construed to interfere with or impair any program for competitive bidding for power supply in a State in which such program is established.

(i) Applicability of antitrust laws

(1) Nothing in this section affects—

(A) the applicability of the antitrust laws to the transfer, use, or sale of allowances, or

(B) the authority of the Federal Energy Regulatory Commission under any provision of law respecting unfair methods of competition or anticompetitive acts or practices.

(2) As used in this section, "antitrust laws" means those Acts set forth in section 12 of title 15.

(j) Public Utility Holding Company Act

The acquisition or disposition of allowances pursuant to this subchapter including the issuance of securities or the undertaking of any other financing transaction in connection with such allowances shall not be subject to the provisions of the Public Utility Holding Company Act of 1935.2

References in Text

The Federal Power Act, referred to in subsec. (f), is act June 10, 1920, ch. 265, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

Codification

Fossil Fuel Use

Section 402 of title IV of Pub. L. 101–549 provided that:

"(a) CONTRACTS FOR HYDROELECTRIC ENERGY.—Any person who, after the date of the enactment of the Clean Air Act Amendments of 1990 [Nov. 15, 1990], enters into a contract under which such person receives hydroelectric energy in return for the provision of electric energy by such person shall use allowances held by such person as necessary to satisfy such person’s obligations under such contract.

"(b) FEDERAL POWER MARKETING ADMINISTRATION.—A Federal Power Marketing Administration shall not be subject to the provisions and requirements of this title [enacting this subchapter, amending sections 7410, 7411, and 7479 of this title, and enacting provisions set out as notes under sections 7403, 7411, and 7651 of this title] with respect to electric energy generated by hydroelectric facilities and marketed by such Power Marketing Administration. Any person who sells or provides electric energy to a Federal Power Marketing Administration shall comply with the provisions and requirements of this title."

§7651c. Phase I sulfur dioxide requirements

(a) Emission limitations

(1) After January 1, 1995, each source that includes one or more affected units listed in table A is an affected source under this section. After January 1, 1995, it shall be unlawful for any af-
fected unit (other than an eligible phase I unit under subsection (d)(2) of this section) to emit sulfur dioxide in excess of the tonnage limitation stated as a total number of allowances in table A for phase I, unless (A) the emissions reductions requirements applicable to such unit would have been achieved pursuant to subsection (b) or (d) of this section, or (B) the owner or operator of such unit holds allowances to emit not less than the unit’s total annual emissions, except that, after January 1, 2000, the emissions limitations established in this section shall be superseded by those established in section 7651d of this title. The owner or operator of any unit in violation of this section shall be fully liable for such violation including, but not limited to, liability for fulfilling the obligations specified in section 7651j of this title.

(2) Not later than December 31, 1991, the Administrator shall determine the total tonnage of reductions in the emissions of sulfur dioxide from all utility units in calendar year 1995 that will occur as a result of compliance with the emissions limitation requirements of this section, and shall establish a reserve of allowances equal in amount to the number of tons determined thereby not to exceed a total of 3.50 million tons. In making such a determination, the Administrator shall compute for each unit subject to the emissions limitation requirements of this section the difference between:

(A) the product of its baseline multiplied by the lesser of each unit’s allowable 1985 emissions rate and its actual 1985 emissions rate, divided by 2,000, and

(B) the product of each unit’s baseline multiplied by 2.50 lb/mmBtu divided by 2,000,

and sum the computations. The Administrator shall adjust the foregoing calculation to reflect projected calendar year 1995 utilization of the units subject to the emissions limitations of this subchapter that the Administrator finds would have occurred in the absence of the imposition of such requirements. Pursuant to subsection (d) of this section, the Administrator shall allocate allowances from the reserve established hereunder until the earlier of such time as all such allowances in the reserve are allocated or December 31, 1999.

(3) In addition to allowances allocated pursuant to paragraph (1), in each calendar year beginning in 1995 and ending in 1999, inclusive, the Administrator shall allocate for each unit on Table A that is located in the States of Illinois, Indiana, or Ohio (other than units at Kyger Creek, Clifty Creek and Joppa Steam), allowances in an amount equal to 200,000 multiplied by the unit’s pro rata share of the total number of allowances allocated for all units on Table A in the 3 States (other than units at Kyger Creek, Clifty Creek, and Joppa Steam) pursuant to paragraph (1). Such allowances shall be excluded from the calculation of the reserve under paragraph (2).

(b) Substitutions

The owner or operator of an affected unit under subsection (a) of this section may include in its section 7651g of this title permit application and proposed compliance plan a proposal to reassign, in whole or in part, the affected unit’s sulfur dioxide reduction requirements to any other unit(s) under the control of such owner or operator. Such proposal shall specify—

(1) the designation of the substitute unit or units to which any part of the reduction obligations of subsection (a) of this section shall be required, in addition to, or in lieu of, any original affected units designated under such subsection;

(2) the original affected unit’s baseline, the actual and allowable 1985 emissions rate for sulfur dioxide, and the authorized annual allowance allocation stated in table A;

(3) calculation of the annual average tonnage for calendar years 1985, 1986, and 1987, emitted by the substitute unit or units, based on the baseline for each unit, as defined in section 7651a(d) of this title, multiplied by the lesser of the unit’s actual or allowable 1985 emissions rate;

(4) the emissions rates and tonnage limitations that would be applicable to the original and substitute affected units under the substitution proposal;

(5) documentation, to the satisfaction of the Administrator, that the reassigned tonnage limits will, in total, achieve the same or greater emissions reduction than would have been achieved by the original affected unit and the substitute unit or units without such substitution; and

(6) such other information as the Administrator may require.

(c) Administrator’s action on substitution proposals

(1) The Administrator shall take final action on such substitution proposal in accordance with section 7651g(c) of this title if the substitution proposal fulfills the requirements of this subchapter. The Administrator may approve a substitution proposal in whole or in part with such modifications or conditions as may be necessary to ensure the orderly functioning of the allowance system and which will ensure the emissions reductions contemplated by this subchapter. If a proposal does not meet the requirements of subsection (b) of this section, the Administrator shall disapprove it. The owner or operator of a unit listed in table A shall not substitute another unit or units without the prior approval of the Administrator.

(2) Upon approval of a substitution proposal, each substitute unit, and each source with such unit, shall be deemed affected under this subchapter, and the Administrator shall issue a permit to the original and substitute affected source and unit in accordance with the approved substitution plan and section 7651g of this title. The Administrator shall allocate allowances for the original and substitute affected units in accordance with the approved substitution proposal pursuant to section 7651b of this title. It shall be unlawful for any source or unit that is allocated allowances pursuant to this section to emit sulfur dioxide in excess of the emissions limitation provided for in the approved substitution permit and plan unless the owner or operator of each unit governed by the permit and ap-
proved substitution plan holds allowances to emit not less than the unit’s total annual emissions. The owner or operator of any original or substitute affected unit operated in violation of this subsection shall be fully liable for such violation, including liability for fulfilling the obligations specified in section 7651j of this title. If a substitution proposal is disapproved, the Administrator shall allocate allowances to the original affected unit or units in accordance with subsection (a) of this section.

(d) Eligible phase I extension units

(1) The owner or operator of any affected unit subject to an emissions limitation requirement under this section may petition the Administrator in its permit application under section 7651g of this title for an extension of 2 years of the deadline for meeting such requirement, provided that the owner or operator of any such unit holds allowances to emit not less than the unit’s total annual emissions for each of the 2 years of the period of extension. To qualify for such an extension, the affected unit must either employ a qualifying phase I technology, or transfer its phase I emissions reduction obligation to a unit employing a qualifying phase I technology. Such transfer shall be accomplished in accordance with a compliance plan, submitted and approved under section 7651g of this title, that shall govern operations at all units included in the transfer, and that specifies the emissions reduction requirements imposed pursuant to this subchapter.

(2) Such extension proposal shall—

(A) specify the unit or units proposed for designation as an eligible phase I extension unit;

(B) provide a copy of an executed contract, which may be contingent upon the Administrator approving the proposal, for the design engineering, and construction of the qualifying phase I technology for the extension unit, or for the unit or units to which the extension unit’s emission reduction obligation is to be transferred;

(C) specify the unit’s or units’ baseline, actual 1985 emissions rate, allowable 1985 emissions rate, and projected utilization for calendar years 1985 through 1999;

(D) specify the emission limitation and number of allowances expected to be necessary for annual operation after the qualifying phase I technology has been installed.

(3) The Administrator shall review and take final action on each extension proposal in order of receipt, consistent with section 7651g of this title, and for an approved proposal shall designate the unit or units as an eligible phase I extension unit. The Administrator may approve an extension proposal in whole or in part, and with such modifications or conditions as may be necessary, consistent with the orderly functioning of the allowance system, and to ensure the emissions reductions contemplated by the subchapter.

(4) In order to determine the number of proposals eligible for allocations from the reserve under subsection (a)(2) of this section and the number of allowances remaining available after each proposal is acted upon, the Administrator shall reduce the total number of allowances remaining available in the reserve by the number of allowances calculated according to subparagraphs (A), (B) and (C) until either no allowances remain available in the reserve for further allocation or all approved proposals have been acted upon. If no allowances remain available in the reserve for further allocation before all proposals have been acted upon by the Administrator, any pending proposals shall be disapproved. The Administrator shall calculate allowances equal to—

(A) the difference between the lesser of the average annual emissions in calendar years 1988 and 1989 or the projected emissions tonnage for calendar year 1995 of each eligible phase I extension unit, as designated under paragraph (3), and the product of the unit’s baseline multiplied by an emission rate of 2.50 lbs/mmBtu, divided by 2,000;

(B) the difference between the lesser of the average annual emissions in calendar years 1988 and 1989 or the projected emissions tonnage for calendar year 1996 of each eligible phase I extension unit, as designated under paragraph (3), and the product of the unit’s baseline multiplied by an emission rate of 2.50 lbs/mmBtu, divided by 2,000; and

(C) the amount by which (i) the product of each unit’s baseline multiplied by an emission rate of 1.20 lbs/mmBtu, divided by 2,000, exceeds (ii) the tonnage level specified under subparagraph (E) of paragraph (2) of this subsection multiplied by a factor of 3.

(5) Each eligible Phase I extension unit shall receive allowances determined under subsection (a)(1) or (c) of this section. In addition, for calendar year 1995, the Administrator shall allocate to each eligible Phase I extension unit, from the allowance reserve created pursuant to subsection (a)(2) of this section, allowances equal to the difference between the lesser of the average annual emissions in calendar years 1988 and 1989 or its projected emissions tonnage for calendar year 1995 and the product of the unit’s baseline multiplied by an emission rate of 2.50 lbs/mmBtu, divided by 2,000. In calendar year 1996, the Administrator shall allocate for each eligible unit, from the allowance reserve created pursuant to subsection (a)(2) of this section, allowances equal to the difference between the lesser of the average annual emissions in calendar years 1988 and 1989 or its projected emissions tonnage for calendar year 1996 and the product of the unit’s baseline multiplied by an emission rate of 2.50 lbs/mmBtu, divided by 2,000. It shall be unlawful for any source or unit subject to an approved extension plan under this subsection to emit sulfur dioxide in excess of the emissions limitations provided for in the permit and approved extension plan, unless the owner or oper-

---

1So in original. Probably should be “unit’s”.

2So in original. Probably should be “this”. 
tor of each unit governed by the permit and approved plan holds allowances to emit not less than the unit’s total annual emissions.

(6) In addition to allowances specified in paragraph (5), the Administrator shall allocate for each eligible Phase I extension unit employing qualifying Phase I technology, for calendar years 1997, 1998, and 1999, additional allowances, from any remaining allowances in the reserve created pursuant to subsection (a) of this section, following the reduction in the reserve provided for in paragraph (4), not to exceed the amount by which (A) the product of each eligible unit’s baseline times an emission rate of 1.20 lbs/mmBtu, divided by 2,000, exceeds (B) the tonnage level specified under subparagraph (E) of paragraph (2) of this subsection.

(7) After January 1, 1997, in addition to any liability under this chapter, including under section 7651j of this title, if an eligible Phase I extension unit employing qualifying Phase I technology or any transfer unit under this subsection emits sulfur dioxide in excess of the annual tonnage limitation specified in the extension plan, as approved in paragraph (3) of this subsection, the Administrator shall, in the calendar year following such excess, deduct allowances equal to the amount of such excess from such unit’s annual allowance allocation.

(e) Allocation of allowances

(1) In the case of a unit that receives authorization from the Governor of the State in which such unit is located to make reductions in the emissions of sulfur dioxide prior to calendar year 1995 and that is part of a utility system that meets the following requirements: (A) the total coal-fired generation within the utility system as a percentage of total system generation decreased by more than 20 percent between January 1, 1980, and December 31, 1985; and (B) the weighted capacity factor of all coal-fired units within the utility system averaged over the period from January 1, 1985, through December 31, 1987, was below 50 percent, the Administrator shall allocate allowances under this paragraph for the unit pursuant to this subsection. The Administrator shall allocate allowances for a unit that is an affected unit pursuant to section 7651d of this title (but is not also an affected unit under this section) and part of a utility system that includes 1 or more affected units under section 7651d of this title for reductions in the emissions of sulfur dioxide made during the period 1995–1999 if the unit meets the requirements of this subsection and the requirements of the preceding sentence, except that for the purposes of applying this subsection to any such unit, the prior year concerned as specified below, shall be any year after January 1, 1995 but prior to January 1, 2000.

(2) In the case of an affected unit under this section described in subparagraph (A), the allowances allocated under this subsection for early reductions in any prior year may not exceed the amount which \((A)\) the product of the unit’s baseline multiplied by the unit’s 1985 actual sulfur dioxide emission rate (in lbs. per mmBtu), divided by 2,000, exceeds \((B)\) the unit’s actual tonnage of sulfur dioxide emission for the prior year concerned. Allowances allocated under this subsection for units referred to in subparagraph (A) may be allocated only for emission reductions achieved as a result of physical changes or changes in the method of operation made after November 15, 1990, including changes in the type or quality of fossil fuel consumed.

(3) In no event shall the provisions of this paragraph be interpreted as an event of force majeure or a commercial impracticability, or in any other way as a basis for excused nonperformance by a utility system under a coal sales contract in effect before November 15, 1990.

(f) Energy conservation and renewable energy

(1) Definitions

As used in this subsection:

(A) Qualified energy conservation measure

The term "qualified energy conservation measure" means a cost-effective measure, as identified by the Administrator in consultation with the Secretary of Energy, that increases the efficiency of the use of electricity provided by an electric utility to its customers.

(B) Qualified renewable energy

The term "qualified renewable energy" means energy derived from biomass, solar, geothermal, or wind as identified by the Administrator in consultation with the Secretary of Energy.

(C) Electric utility

The term "electric utility" means any person, State agency, or Federal agency, which sells electric energy.

(2) Allowances for emissions avoided through energy conservation and renewable energy

(A) In general

The regulations under paragraph (4) of this subsection shall provide that for each ton of sulfur dioxide emissions avoided by an electric utility, during the applicable period, through the use of qualified energy conservation measures or qualified renewable energy, the Administrator shall allocate a single allowance to such electric utility, on a first-come-first-served basis from the Conservation and Renewable Energy Reserve established under subsection (g) of this section, up to a total of 300,000 allowances for allocation from such Reserve.

(B) Requirements for issuance

The Administrator shall allocate allowances to an electric utility under this subsection only if all of the following requirements are met:

(i) Such electric utility is paying for the qualified energy conservation measures or qualified renewable energy directly or through purchase from another person.

(ii) The emissions of sulfur dioxide avoided through the use of qualified energy conservation measures or qualified renewable energy are quantified in accordance with regulations promulgated by the Administrator under this subsection.
(iii)(I) Such electric utility has adopted and is implementing a least cost energy conservation and electric power plan which evaluates a range of resources, including new power supplies, energy conservation, and renewable energy resources, in order to meet expected future demand at the lowest system cost. 

(II) The qualified energy conservation measures or qualified renewable energy, or both, are consistent with that plan.

(III) Electric utilities subject to the jurisdiction of a State regulatory authority must have such plan approved by such authority. For electric utilities not subject to the jurisdiction of a State regulatory authority such plan shall be approved by the entity with rate-making authority for such utility.

(iv) In the case of qualified energy conservation measures undertaken by a State regulated electric utility, the Secretary of Energy certifies that the State regulatory authority with jurisdiction over the electric rates of such electric utility has established rates and charges which ensure that the net income of such electric utility after implementation of specific cost effective energy conservation measures is at least as high as such net income would have been if the energy conservation measures had not been implemented. Upon the date of any such certification by the Secretary of Energy, all allowances which, but for this paragraph, would have been allocated under subparagraph (A) before such date, shall be allocated to the electric utility. This clause is not a requirement for qualified renewable energy.

(v) Such utility or any subsidiary of the utility’s holding company owns or operates at least one affected unit.

(C) Period of applicability

Allowances under this subsection shall be allocated only with respect to kilowatt hours of electric energy saved by qualified energy conservation measures or generated by qualified renewable energy after January 1, 1992 and before the earlier of (i) December 31, 2000, or (ii) the date on which any electric utility steam generating unit owned or operated by the electric utility to which the allocations are allocated becomes subject to the jurisdiction of a State regulatory authority.

(D) Determination of avoided emissions

(i) Application

In order to receive allowances under this subsection, an electric utility shall make an application which—

(I) designates the qualified energy conservation measures implemented and the qualified renewable energy sources used for purposes of avoiding emissions,

(ii) calculates, in accordance with subparagraphs (F) and (G), the number of tons of emissions avoided by reason of the implementation of such measures or the use of such renewable energy sources; and

(III) demonstrates that the requirements of subparagraph (B) have been met.

Such application for allowances by a State-regulated electric utility shall require approval by the State regulatory authority with jurisdiction over such electric utility. The authority shall review the application for accuracy and compliance with this subsection and the rules under this subsection. Electric utilities whose retail rates are not subject to the jurisdiction of a State regulatory authority shall apply directly to the Administrator for such approval.

(E) Avoided emissions from qualified energy conservation measures

For the purposes of this subsection, the emission tonnage deemed avoided by reason of the implementation of qualified energy conservation measures for any calendar year shall be a tonnage equal to the product of multiplying—

(i) the kilowatt hours that would otherwise have been supplied by the utility during such year in the absence of such qualified energy conservation measures, by

(II) 0.004, and dividing by 2,000.

(F) Avoided emissions from the use of qualified renewable energy

The emissions tonnage deemed avoided by reason of the use of qualified renewable energy by an electric utility for any calendar year shall be a tonnage equal to the product of multiplying—

(i) the actual kilowatt hours generated by, or purchased from, qualified renewable energy, by

(ii) 0.004, and dividing by 2,000.

(G) Prohibitions

(i) No allowances shall be allocated under this subsection for the implementation of programs that are exclusively informational or educational in nature.

(ii) No allowances shall be allocated for energy conservation measures or renewable energy that were operational before January 1, 1992.

(3) Savings provision

Nothing in this subsection precludes a State or State regulatory authority from providing additional incentives to utilities to encourage investment in demand-side resources.

(4) Regulations

Not later than 18 months after November 15, 1990, and in conjunction with the regulations required to be promulgated under subsections (b) and (c) of this section, the Administrator shall, in consultation with the Secretary of Energy, promulgate regulations under this

---

*So in original. The comma probably should be a semicolon.
subsection. Such regulations shall list energy conservation measures and renewable energy sources which may be treated as qualified energy conservation measures and qualified renewable energy for purposes of this subsection. Allowances shall only be allocated if all requirements of this subsection and the rules promulgated to implement this subsection are complied with. The Administrator shall review the determinations of each State regulatory authority under this subsection to encourage consistency from electric utility to electric utility and from State to State in accordance with the Administrator’s rules. The Administrator shall publish the findings of this review no less than annually.

(g) Conservation and Renewable Energy Reserve

The Administrator shall establish a Conservation and Renewable Energy Reserve under this subsection. Beginning on January 1, 1995, the Administrator may allocate from the Conservation and Renewable Energy Reserve an amount equal to a total of 300,000 allowances for emissions of sulfur dioxide pursuant to section 7651b of this title. In order to provide 300,000 allowances for such reserve, in each year beginning in calendar year 2000 and until calendar year 2009, inclusive, the Administrator shall reduce each unit’s basic Phase II allowance allocation on the basis of its pro rata share of 30,000 allowances. If allowances remain in the reserve after January 2, 2010, the Administrator shall allocate such allowances for affected units under section 7651d of this title on a pro rata basis. For purposes of this subsection, for any unit subject to the emissions limitation requirements of section 7651d of this title, the term “pro rata basis” refers to the ratio which the reductions made in such unit’s allowances in order to establish the reserve under this subsection bears to the total of such reductions for all such units.

(h) Alternative allowance allocation for units in certain utility systems with optional baseline

(1) Optional baseline for units in certain systems

In the case of a unit subject to the emissions limitation requirements of this section which (as of November 15, 1980)—

(A) has an emission rate below 1.0 lbs/mmBtu,

(B) has decreased its sulfur dioxide emissions rate by 60 percent or greater since 1980, and

(C) is part of a utility system which has a weighted average sulfur dioxide emissions rate for all fossil fueled-fired units below 1.0 lbs/mmBtu,

at the election of the owner or operator of such unit, the unit’s baseline may be calculated (i) as provided under section 7651a(d) of this title, or (ii) by utilizing the unit’s average annual fuel consumption at a 60 percent capacity factor. Such election shall be made no later than March 1, 1991.

(2) Allowance allocation

Whenever a unit referred to in paragraph (1) elects to calculate its baseline as provided in clause (ii) of paragraph (1), the Administrator shall allocate allowances for the unit pursuant to section 7651b(a)(1) of this title, this section, and section 7651d of this title (as basic Phase II allowance allocations) in an amount equal to the baseline selected multiplied by the lower of the average annual emission rate for such unit in 1989, or 1.0 lbs/mmBtu. Such allowance allocation shall be in lieu of any allocation of allowances under this section and section 7651d of this title.

§ 7651d. Phase II sulfur dioxide requirements

(a) Applicability

(1) After January 1, 2000, each existing utility unit as provided below is subject to the limitations or requirements of this section. Each utility unit subject to an annual sulfur dioxide emission limitation under this section is an affected unit under this subchapter. Each source that includes one or more affected units is an affected source. In the case of an existing unit that was not in operation during calendar year 1985, the emission rate for a calendar year after 1985, as determined by the Administrator, shall be used in lieu of the 1985 rate. The owner or operator of any unit operated in violation of this section shall be fully liable under this chapter for fulfilling the obligations specified in section 7651j of this title.

(2) In addition to basic Phase II allowance allocations, in each year beginning in calendar year 2000 and ending in calendar year 2009, inclusive, the Administrator shall allocate up to 530,000 Phase II bonus allowances pursuant to subsections (b)(2), (c)(1), (d)(3)(A) and (B), and (h)(2) of this section and section 7651e of this title. Not later than June 1, 1998, the Administrator shall calculate, for each unit granted an extension pursuant to section 7651b of this title the difference between (A) the number of allowances allocated for the unit in calendar year 2000, and (B) the product of the unit’s baseline multiplied by 1.20 lbs/mmBtu, divided by 2000, and sum the computations. In each year, beginning in calendar year 2000 and ending in calendar year 2009, inclusive, the Administrator shall deduct from each unit’s basic Phase II allowance allocation its pro rata share of 10 percent of the sum calculated pursuant to the preceding sentence.

(3) In addition to basic Phase II allowance allocations and Phase II bonus allowance allocations, beginning January 1, 2000, the Administrator shall allocate for each unit listed on Table A in section 7651c of this title (other than units at Kyger Creek, Clifty Creek, and Joppa Steam) and located in the States of Illinois, Indiana, Ohio, Georgia, Alabama, Missouri, Pennsylvania, West Virginia, Kentucky, or Tennessee allowances in an amount equal to 50,000 multiplied by the unit’s pro rata share of the total number of basic allowances allocated for all units listed on Table A (other than units at Kyger Creek, Clifty Creek, and Joppa Steam). Allowances allocated pursuant to this paragraph shall not be subject to the 8,900,000 ton limitation in section 7651b(a) of this title.
(b) Units equal to, or above, 75 MWe and 1.20 lbs/mmBtu

(1) Except as otherwise provided in paragraph (3), after January 1, 2000, it shall be unlawful for any existing utility unit that serves a generator with nameplate capacity equal to, or greater, than 75 MWe and an actual 1985 emission rate equal to or greater than 1.20 lbs/mmBtu to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit's baseline multiplied by an emission rate equal to 1.20 lbs/mmBtu, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(2) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of this title as basic Phase II allowance allocations, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1) with an actual 1985 emissions rate greater than 1.20 lbs/mmBtu and less than 2.50 lbs/mmBtu and a baseline capacity factor of less than 60 percent, allowances from the reserve created pursuant to subsection (a)(2) of this section in an amount equal to 1.20 lbs/mmBtu multiplied by 50 percent of the difference, on a Btu basis, between the unit's baseline and the unit's fuel consumption at a 60 percent capacity factor.

(3) After January 1, 2000, it shall be unlawful for any existing utility unit with an actual 1985 emissions rate equal to or greater than 1.20 lbs/mmBtu whose annual average fuel consumption during 1985, 1986, and 1987 on a Btu basis exceeded 90 percent in the form of lignite coal which is located in a State in which, as of July 1, 1989, no county or portion of a county was designated nonattainment under section 7407 of this title for any pollutant subject to the requirements of section 7409 of this title to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit's baseline multiplied by the lesser of the unit's actual 1985 emissions rate or its allowable 1985 emissions rate, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(4) After January 1, 2000, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1), which is located in a State with an installed electrical generating capacity of more than 30,000,000 kw in 1988 and for which was issued a prohibition order or a proposed prohibition order (from burning oil), which unit subsequently converted to coal between January 1, 1980 and December 31, 1985, allowances equal to the difference between (A) the product of the unit's annual fuel consumption, on a Btu basis, at a 65 percent capacity factor multiplied by the lesser of its actual or allowable emissions rate during the first full calendar year after conversion, divided by 2,000, and (B) the number of allowances allocated for the unit pursuant to paragraph (1): Provided, That the number of allowances allocated pursuant to this paragraph shall not exceed an annual total of five thousand. If necessary to meet the restriction imposed in the preceding sentence the Administrator shall reduce, pro rata, the annual allowances allocated for each unit under this paragraph.

(c) Coal or oil-fired units below 75 MWe and above 1.20 lbs/mmBtu

(1) Except as otherwise provided in paragraph (3), after January 1, 2000, it shall be unlawful for a coal or oil-fired existing utility unit that serves a generator with nameplate capacity of less than 75 MWe and an actual 1985 emission rate equal to, or greater than, 1.20 lbs/mmBtu and which is a unit owned by a utility operating company whose aggregate nameplate fossil fuel steam-electric capacity, as of December 31, 1989, equal to, or greater than, 250 MWe to exceed an annual sulfur dioxide emissions limitation equal to the product of the unit's baseline multiplied by an emission rate equal to 1.20 lbs/mmBtu, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(2) After January 1, 2000, it shall be unlawful for a coal or oil-fired existing utility unit that serves a generator with nameplate capacity of less than 75 MWe and an actual 1985 emission rate equal to, or greater than, 1.20 lbs/mmBtu (excluding units subject to section 7411 of this title or to a federally enforceable emissions limitation for sulfur dioxide equivalent to an annual rate of less than 1.20 lbs/mmBtu) and which is a unit owned by a utility operating company whose aggregate nameplate fossil fuel steam-electric capacity is, as of December 31, 1989, less than 250 MWe, to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit's baseline multiplied by an emission rate equal to, or greater than, 1.20 lbs/mmBtu, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(3) After January 1, 2000, it shall be unlawful for any existing utility unit with a nameplate capacity below 75 MWe and an actual 1985 emissions rate equal to, or greater than, 1.20 lbs/mmBtu which became operational on or before December 31, 1985, and which is a unit owned by a utility operating company, as of December 31, 1989, a total fossil fuel steam-electric generating capacity greater than 250 MWe, and less than 450 MWe which serves fewer than 78,000 electrical customers as of November 15, 1990, to exceed an annual sulfur dioxide emissions tonnage limitation equal to the product of its baseline multiplied by the lesser of its actual or allowable 1985 emission rate, divided by 2,000, unless the owner or operator holds allowances to emit not less than the unit's total annual emissions.

(4) After January 1, 2010, it shall be unlawful for each unit subject to the emissions limitation requirements of this paragraph to exceed an annual emissions tonnage limitation equal to the product of its baseline multiplied by an emissions rate of 1.20 lbs/mmBtu, divided by 2,000, unless the owner or operator holds allowances to emit not less than the unit's total annual emissions. After January 1, 2010, it shall be unlawful for each unit subject to the emissions limitation requirements of this paragraph to exceed an annual emissions tonnage limitation equal to the product of its baseline multiplied by an emissions rate of 1.20 lbs/mmBtu, divided by 2,000, unless the owner or operator holds allowances to emit not less than the unit's total annual emissions.

(5) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of...
§7651d TITLE 42—THE PUBLIC HEALTH AND WELFARE Page 6462

this title as basic Phase II allowance allocations, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, inclusive. the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of this subsection which commenced commercial operation on or after January 1, 1981 and before December 31, 1985, which was subject to, and in compliance with, section 7411 of this title as basic Phase II allowance allocations. 

(3)(A) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of this title as basic Phase II allowance allocations, at the election of the designated representative of the operating company, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1) allowances from the reserve created pursuant to subsection (a)(2) of this section in an amount equal to the product of the lesser of 0.60 lbs/mmBtu or the unit’s allowable 1985 emissions rate multiplied by the unit’s baseline adjusted to reflect operation at a 60 percent capacity factor, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit’s total annual emissions. 

(3)(B) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of this title as basic Phase II allowance allocations, at the election of the designated representative of the operating company, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1) allowances from the reserve created pursuant to subsection (a)(2) of this section in an amount equal to the product of the lesser of 0.60 lbs/mmBtu or the unit’s allowable 1985 emissions rate multiplied by the unit’s baseline adjusted to reflect operation at a 60 percent capacity factor, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit’s total annual emissions. 

(4) Notwithstanding any other provision of this section, at the election of the owner or operator, after January 1, 2000, the Administrator shall allocate in lieu of allowances pursuant to paragraph (1), (2), (3), (5), or (6), allowances for a subject unit to the emissions limitation requirements of this subsection which commenced commercial operation on or after January 1, 1981 and before December 31, 1985, which was subject to, and in compliance with, section 7411 of this title in an amount equal to the unit’s annual fuel consumption, on a Btu basis, at a 65 percent...
capacity factor multiplied by the unit's allowable 1985 emissions rate, divided by 2,000.

(5) For the purposes of this section, in the case of an oil- and gas-fired unit which has been awarded a clean coal technology demonstration grant of January 1, 1985 and December 31, 1987, for which the United States Department of Energy, beginning January 1, 2000, the Administrator shall allocate for the unit allowances in an amount equal to the unit's baseline multiplied by 1.20 lbs/mmBtu, divided by 2,000.

(e) Oil and gas-fired units equal to or greater than 0.60 lbs/mmBtu and less than 1.20 lbs/mmBtu

After January 1, 2000, it shall be unlawful for any existing oil and gas-fired utility unit the lesser of whose actual or allowable 1985 sulfur dioxide emission rate is equal to, or greater than, 0.60 lbs/mmBtu, but less than 1.20 lbs/mmBtu to exceed an annual sulfur dioxide tonnage limitation equal to the product of the unit's baseline multiplied by (A) the lesser of the unit's allowable 1985 emissions rate or its actual 1985 emissions rate and (B) a numerical factor of 120 percent divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(f) Oil and gas-fired units less than 0.60 lbs/mmBtu

(1) After January 1, 2000, it shall be unlawful for any oil and gas-fired existing utility unit the lesser of whose actual or allowable 1985 emission rate is less than 0.60 lbs/mmBtu and whose average annual fuel consumption during the period 1980 through 1989 on a Btu basis was 90 percent or less in the form of natural gas to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit's baseline multiplied by (A) the lesser of 0.60 lbs/mmBtu or the unit's allowable 1985 emissions, and (B) a numerical factor of 120 percent, divided by 2,000, unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(2) In addition to allowances allocated pursuant to paragraph (1) as basic Phase II allowance allocations and section 7651b(a)(1) of this title, beginning January 1, 2000, the Administrator shall allocate to the owner or operator of any utility unit that has commenced commercial operation on or after October 1, 1990, an annual tonnage emission limitation equal to the product of the unit's annual fuel consumption, on a Btu basis, at a 65 percent capacity factor multiplied by the lesser of 0.30 lbs/mmBtu or the unit's allowable sulfur dioxide emission rate (converted, if necessary, to pounds per mmBtu), divided by 2,000.

(g) Units that commence operation between 1986 and December 31, 1995

(1) After January 1, 2000, it shall be unlawful for any existing utility unit that has commenced commercial operation on or after January 1, 1986, but not later than September 30, 1990 to exceed an annual tonnage emission limitation equal to the product of the unit's annual fuel consumption, on a Btu basis, at a 65 percent capacity factor multiplied by the unit's allowable 1985 sulfur dioxide emission rate (converted, if necessary, to pounds per mmBtu, divided by 2,000) unless the owner or operator of such unit holds allowances to emit not less than the unit's total annual emissions.

(2) After January 1, 2000, the Administrator shall allocate allowances pursuant to section 7651b of this title to each unit which is listed in table B of this paragraph in an annual amount equal to the amount specified in table B.

Notwithstanding any other paragraph of this subsection, for units subject to this paragraph, the Administrator shall not allocate allowances pursuant to any other paragraph of this subsection. Provided that the owner or operator of a unit listed on Table B may elect an allocation of allowances under another paragraph of this subsection in lieu of an allocation under this paragraph.

(3) Beginning January 1, 2000, the Administrator shall allocate to the owner or operator of any utility unit that commences commercial operation, or has commenced commercial operation, on or after October 1, 1990, but not later than December 31, 1992 allowances in an amount equal to the product of the unit's annual fuel consumption, on a Btu basis, at a 65 percent capacity factor multiplied by the lesser of 0.30 lbs/mmBtu or the unit's allowable sulfur dioxide emission rate (converted, if necessary, to pounds per mmBtu), divided by 2,000.

(4) Beginning January 1, 2000, the Administrator shall allocate to the owner or operator of any utility unit that has commenced construction before December 31, 1990 and that commences commercial operation between January 1, 1993 and December 31, 1995, allowances in an amount equal to the product of the unit's annual fuel consumption, on a Btu basis, at an 85 percent capacity factor multiplied by the lesser of 0.30 lbs/mmBtu or the unit's allowable sulfur dioxide emission rate (converted, if necessary, to pounds per mmBtu), divided by 2,000.

(5) After January 1, 2000, it shall be unlawful for any existing utility unit that has completed conversion from predominantly gas fired existing operation to coal fired operation between January 1, 1985 and December 31, 1987, for which there has been allocated a proposed or final prohibition order pursuant to section 301(b) of the Powerplant and Industrial Fuel Use Act of 1978

(42 U.S.C. 8301 et seq., repealed 1987) to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit’s annual fuel consumption, on a Btu basis, at a 65 percent capacity factor multiplied by the lesser of 1.2 lbs/mmBtu or the unit's allowable 1987 sulfur dioxide emissions rate, divided by 2,000, unless the owner or operator of such unit has obtained allowances equal to its actual emissions.

(6)(A) Unless the Administrator has approved a designation of such facility under section 7651i of this title, the provisions of this subchapter shall not apply to a “qualifying small power production facility” or “qualifying cogeneration facility” (within the meaning of section 796(17)(C) or 796(18)(B) of title 16) or to a “new independent power production facility” as defined in section 7651e of this title except that clause (iii) of such definition in section 7651o of this title shall not apply for purposes of this paragraph if, as of November 15, 1990,

(i) an applicable power sales agreement has been executed;
(ii) the facility is the subject of a State regulatory authority order requiring an electric utility to enter into a power sales agreement with, purchase capacity from, or (for purposes of establishing terms and conditions of the electric utility’s purchase of power) enter into arbitration concerning, the facility;
(iii) an electric utility has issued a letter of intent or similar instrument committing to purchase power from the facility at a previously offered or lower price and a power sales agreement is executed within a reasonable period of time; or
(iv) the facility has been selected as a winning bidder in a utility competitive bid solicitation.

(h) Oil and gas-fired units less than 10 percent oil consumed

(1) After January 1, 2000, it shall be unlawful for any oil- and gas-fired utility unit whose average annual fuel consumption during the period 1980 through 1989 on a Btu basis exceeded 90 percent in the form of natural gas to exceed an annual sulfur dioxide tonnage emissions limitation equal to the product of the unit’s baseline multiplied by the unit’s actual 1985 emissions rate divided by 2,000 less the owner or operator of such unit holds allowances to emit not less than the unit’s total annual emissions.

(2) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of this title as basic Phase II allowance allocations, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1) allowances from the reserve created pursuant to subsection (a)(2) of this section in an amount equal to the unit’s baseline multiplied by 0.050 lbs/mmBtu, divided by 2,000.

(3) In addition to allowances allocated pursuant to paragraph (1) and section 7651b(a)(1) of this title, beginning January 1, 2010, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of paragraph (1) allowances in an amount equal to the unit’s baseline multiplied by 0.050 lbs/mmBtu, divided by 2,000, unless the owner or operator of such unit has obtained allowances equal to its actual emissions.

(i) Units in high growth States

(1) In addition to allowances allocated pursuant to this section and section 7651b(a)(1) of this title as basic Phase II allowance allocations, beginning January 1, 2000, the Administrator shall allocate annually for each unit, subject to an emissions limitation requirement under this section, and located in a State that—

(A) has experienced a growth in population in excess of 25 percent between 1980 and 1989 according to State Population and Household Estimates, With Age, Sex, and Components of Change: 1981–1988 allocated by the United States Department of Commerce, and
(B) had an installed electrical generating capacity of more than 30,000,000 kw in 1988, in an amount equal to the difference between (A) the number of allowances that would be allocated for the unit pursuant to the emissions limitation requirements of this section applicable to the unit adjusted to reflect the unit’s annual average fuel consumption on a Btu basis of any three consecutive calendar years between 1980 and 1989 (inclusive) as elected by the owner or operator and (B) the number of allowances allocated for the unit pursuant to the emissions limitation requirements of this section: Provided, That the number of allowances allocated pursuant to this subsection shall not exceed an annual total of 40,000. If necessary to meeting the 40,000 allowance restriction imposed under this subsection the Administrator shall reduce, pro rata, the additional annual allowances allocated to each unit under this subsection.

(2) Beginning January 1, 2000, in addition to allowances allocated pursuant to this section and section 7651b(a)(1) of this title as basic Phase II allowance allocations, the Administrator shall allocate annually for each unit subject to the emissions limitation requirements of subsection (b)(1) of this section, (A) the lesser of whose actual or allowable 1980 emissions rate has declined by 50 percent or more as of November 15, 1990, (B) whose actual emissions rate is less than 1.2 lbs/mmBtu as of January 1, 2000, (C) which commenced operation after January 1, 1970, (D) which is owned by a utility company whose combined commercial and industrial kilowatt-hour sales have increased by more than 20 percent between calendar year 1980 and November 15, 1990, and (E) whose company-wide fossil-fuel sulfur dioxide emissions rate has declined 40 percent or more from 1980 to 1986, allowances in an amount equal to the difference between (A) the number of allowances that would be allocated for the unit pursuant to the emissions limitation requirements of subsection (b)(1) of this section adjusted to reflect the unit’s annual average fuel consumption on a Btu basis for any three consecutive years between 1980 and 1989 (inclusive) as elected by the owner or operator and (ii) the number of allowances allocated for the unit pursuant to the emissions limitation requirements of subsection (b)(1) of this section:
Provided. That the number of allowances allocated pursuant to this paragraph shall not exceed an annual total of 5,000. If necessary to meeting the 5,000-allowance restriction imposed in the last clause of the preceding sentence the Administrator shall reduce, pro rata, the additional allowances allocated to each unit pursuant to this paragraph.

(j) Certain municipally owned power plants

Beginning January 1, 2000, in addition to allowances allocated pursuant to this section and section 7651(b)(1) of this title as basic Phase II allowance allocations, the Administrator shall allocate annually for each existing municipally owned oil and gas-fired utility unit with name-plate capacity equal to, or less than, 40 MWe, the lesser of whose actual or allowable 1985 sulfur dioxide emission rate is less than 1.20 lbs/mmBtu, allowances in an amount equal to the product of the unit’s annual fuel consumption on a Btu basis at a 60 percent capacity factor multiplied by the lesser of its allowable 1985 emission rate or its actual 1985 emission rate, divided by 2,000.

REFERENCES IN TEXT
Section 301(b) of the Powerplant and Industrial Fuel Use Act of 1978, referred to in subsec. (g)(5), is section 301(b) of Pub. L. 95–620, which is classified to section 8341(b) of this title. A prior section 301(b) of Pub. L. 95–620, title III, Nov. 9, 1978, 92 Stat. 3305, which was formerly classified to section 8341(b) of this title, was repealed by Pub. L. 97–35, title X, §1021(a), Aug. 13, 1981, 95 Stat. 614.

§7651f. Nitrogen oxides emission reduction program

(a) Applicability

On the date that a coal-fired utility unit becomes an affected unit pursuant to sections 7651c, 7651d, 7651h of this title, or on the date a unit subject to the provisions of section 7651c(d) or 7651h(b) of this title, must meet the SOx reduction requirements, each such unit shall become an affected unit for purposes of this section and shall be subject to the emission limitations for nitrogen oxides set forth herein.

(b) Emission limitations

(1) Not later than eighteen months after November 15, 1990, the Administrator shall by regulation establish annual allowable emission limitations for nitrogen oxides for the types of utility boilers listed below, which limitations shall not exceed the rates listed below: Provided. That the Administrator may set a rate higher than that listed for any type of utility boiler if the Administrator finds that the maximum listed rate for that boiler type cannot be achieved using low NOx burner technology. The maximum allowable emission rates are as follows:

(A) for tangentially fired boilers, 0.45 lb/mmBtu;
(B) for dry bottom wall-fired boilers (other than units applying cell burner technology), 0.50 lb/mmBtu.

After January 1, 1995, it shall be unlawful for any unit that is an affected unit on that date and is of the type listed in this paragraph to emit nitrogen oxides in excess of the emission rates set by the Administrator pursuant to this paragraph.

(2) Not later than January 1, 1997, the Administrator shall, by regulation, establish allowable emission limitations on a lb/mmBtu, annual average basis, for nitrogen oxides for the following types of utility boilers:

(A) wet bottom wall-fired boilers;
(B) cyclones;
(C) units applying cell burner technology;
(D) all other types of utility boilers.

The Administrator shall base such rates on the degree of reduction achievable through the retrofit application of the best system of continuous emission reduction, taking into account available technology, costs and energy and environmental impacts; and which is comparable to the costs of nitrogen oxides controls set pursuant to subsection (b)(1) of this section. Not later than January 1, 1997, the Administrator may revise the applicable emission limitations for tangentially fired and dry bottom, wall-fired boilers (other than cell burners) to be more stringent if the Administrator determines that more effective low NOx burner technology is available: Provided, That, no unit that is an affected unit pur-

1 So in original. Probably should be followed by “or”.

§7651e. Allowances for States with emissions rates at or below 0.80 lbs/mmBtu

(a) Election of Governor

In addition to basic Phase II allowance allocations, upon the election of the Governor of any State, with a 1985 state-wide annual sulfur dioxide emissions rate equal to or less than, 0.80 lbs/mmBtu, averaged over all fossil fuel-fired utility steam generating units, beginning January 1, 2000, and for each calendar year thereafter until and including 2009, the Administrator shall allocate, in lieu of other Phase II bonus allowance allocations from the reserve created pursuant to section 7651d(a)(2) of this title to all such units in the State in an amount equal to 125,000 multiplied by the unit’s pro rata share of electricity generated in calendar year 1985 at fossil fuel-fired utility steam units in all States eligible for the election.

(b) Notification of Administrator

Pursuant to section 7651b(a)(1) of this title, each Governor of a State eligible to make an election under paragraph (a) shall notify the Administrator of such election. In the event that the Governor of any such State fails to notify the Administrator of the Governor’s election, the Administrator shall allocate allowances pursuant to section 7651d of this title.

(c) Allowances after January 1, 2010

After January 1, 2010, the Administrator shall allocate allowances to units subject to the provisions of this section pursuant to section 7651d of this title.
an owner or operator from installing and operating an alternative NOx control technology capable of achieving the applicable emission limitation. If the owner or operator of a unit subject to the emissions limitation requirements of subsection (b)(1) of this section demonstrates to the satisfaction of the Administrator that the technology necessary to meet such requirements is not in adequate supply to enable its installation and operation at the unit, consistent with system reliability, by January 1, 1995, then the Administrator shall extend the dead periods for the unit by a period of 15 months. Any owner or operator may petition the Administrator to make a determination under the previous sentence. The Administrator shall grant or deny such petition within 3 months of submittal.

(e) Emissions averaging
In lieu of complying with the applicable emission limitations under subsection (b)(1), (2), or (4) of this section, the owner or operator of two or more units subject to one or more of the applicable emission limitations set pursuant to these sections, may petition the permitting authority for alternative contemporaneous annual emission limitations for such units that ensure that (1) the actual annual emission rate in pounds of nitrogen oxides per million Btu averaged over the units in question is a rate that is less than or equal to (2) the Btu-weighted average annual emission rate for the same units if they had been operated, during the same period of time, in compliance with the applicable emission rates set pursuant to subsections (b)(1) and (2) of this section.

If the permitting authority determines, in accordance with regulations issued by the Administrator not later than eighteen months after November 15, 1990;5 that the conditions in the paragraph above can be met, the permitting authority shall issue operating permits for such units, in accordance with section 7651g of this title and part B3 of title III, that allow alternative contemporaneous annual emission limitations. Such emission limitations shall only remain in effect while both units continue operation under the conditions specified in their respective operating permits.

Part B of title III, referred to in subsecs. (d) and (e), means title III of the Clean Air Act, act July 14, 1955, ch. 360, as added, which is classified to subchapter III of this chapter, but title III does not contain parts. For provisions of the Clean Air Act relating to permits, see subchapter V (§7661 et seq.) of this chapter.

§7651g. Permits and compliance plans
(a) Permit program
The provisions of this subchapter shall be implemented, subject to section 7651b of this title, by permits issued to units subject to this sub-

---

2 So in original. No par. (2) has been enacted.
3 See References in Text note below.
4 So in original. Probably should be “subsections.”.
5 So in original. The semicolon probably should be a comma.
chapter (and enforced) in accordance with the provisions of subchapter V of this chapter, as modified by this subchapter. Any such permit issued by the Administrator, or by a State with an approved permit program, shall prohibit—

(1) annual emissions of sulfur dioxide in excess of the number of allowances to emit sulfur dioxide the owner or operator, or the designated representative of the owners or operators, of the unit hold for the unit,

(2) exceedances of applicable emissions rates,

(3) the use of any allowance prior to the year for which it was allocated, and

(4) contravention of any other provision of the permit.

Permits issued to implement this subchapter shall be issued for a period of 5 years, notwithstanding subchapter V of this chapter. No permit shall be issued that is inconsistent with the requirements of this subchapter, and subchapter V of this chapter as applicable.

(b) Compliance plan

Each initial permit application shall be accompanied by a compliance plan for the source to comply with its requirements under this subchapter. Where an affected source consists of more than one affected unit, such plan shall cover all such units, and for purposes of section 7661a(c) of this title, such source shall be considered a “facility”. Nothing in this section regarding compliance plans or in subchapter V of this chapter shall be construed as affecting allowances. Except as provided under subsection (c)(1)(B) of this section, submission of a statement by the owner or operator, or the designated representative of the owners and operators, of a unit subject to the emissions limitation requirements of sections 7651c, 7651d, and 7651f of this title, that the unit will meet the applicable emissions limitation requirements of such sections in a timely manner or that, in the case of the emissions limitation requirements of sections 7651c and 7651d of this title, the owners and operators will hold allowances to emit not less than the total annual emissions of the unit, shall be deemed to meet the proposed and approved compliance planning requirements of this section and subchapter V of this chapter, except that, for any unit that will meet the requirements of this subchapter by means of an alternative method of compliance authorized under section 7651c(b), (c), (d), or (f) of this title, section 7651d of this title, section 7651f(d) or (e) of this title, section 7651h of this title and section 7651i of this title, the proposed and approved compliance plan, permit application and permit shall include, pursuant to regulations promulgated by the Administrator, for each alternative method of compliance a comprehensive description of the schedule and means by which the unit will rely on one or more alternative methods of compliance in the manner and time authorized under this subchapter. Recordation by the Administrator of transfers of allowances shall amend automatically all applicable proposed or approved permit applications, compliance plans and permits. The Administrator may also require—

(1) for a source, a demonstration of attainment of national ambient air quality standards, and

(2) from the owner or operator of two or more affected sources, an integrated compliance plan providing an overall plan for achieving compliance at the affected sources.

(c) First phase permits

The Administrator shall issue permits to affected sources under sections 7651c and 7651f of this title.

(1) Permit application and compliance plan

(A) Not later than 27 months after November 15, 1990, the designated representative of the owners or operators, or the owner and operator, of each affected source under sections 7651c and 7651f of this title shall submit a permit application and compliance plan for that source in accordance with regulations issued by the Administrator under paragraph (3). The permit application and the compliance plan shall be binding on the owner or operator or the designated representative of owners and operators for purposes of this subchapter and section 7651a(a) of this title, and shall be enforceable in lieu of a permit until a permit is issued by the Administrator for the source.

(B) In the case of a compliance plan for an affected source under sections 7651c and 7651f of this title for which the owner or operator proposes to meet the requirements of that section by reducing utilization of the unit as compared with its baseline or by shutting down the unit, the owner or operator shall include in the proposed compliance plan a specification of the unit or units that will provide electrical generation to compensate for the reduced output at the affected source, or a demonstration that such reduced utilization will be accomplished through energy conservation or improved unit efficiency. The unit to be used for such compensating generation, which is not otherwise an affected unit under sections 7651c and 7651f of this title, shall be deemed an affected unit under section 7651c of this title, subject to all of the requirements for such units under this subchapter, except that allowances shall be allocated to such compensating unit in the amount of an annual limitation equal to the product of the unit’s baseline multiplied by the lesser of the unit’s actual 1985 emissions rate or its allowable 1985 emissions rate, divided by 2,000.

(2) EPA action on compliance plans

The Administrator shall review each proposed compliance plan to determine whether it satisfies the requirements of this subchapter, and shall approve or disapprove such plan within 6 months after receipt of a complete submission. If a plan is disapproved, it may be resubmitted for approval with such changes as the Administrator shall require consistent with the requirements of this subchapter and within such period as the Administrator prescribes as part of such disapproval.

1 So in original. Probably should be followed by a comma.

2 So in original. Section 7651a of this title does not contain subsections.
(3) Regulations; issuance of permits

Not later than 18 months after November 15, 1990, the Administrator shall promulgate regulations, in accordance with subchapter V of this chapter, to implement a Federal permit program to issue permits for affected sources under this subchapter. Following promulgation, the Administrator shall issue a permit to implement the requirements of section 7651c of this title and the allowances provided under section 7651b of this title to the owner or operator of each affected source under section 7651c of this title. Such a permit shall supersede any permit application and compliance plan submitted under paragraph (1).

(4) Fees

During the years 1995 through 1999 inclusive, no fee shall be required to be paid under section 7661a(b)(3) of this title or under section 7410(a)(2)(L) of this title with respect to emissions from any unit which is an affected unit under section 7651c of this title.

(d) Second phase permits

(1) To provide for permits for (A) new electric utility steam generating units required under section 7651(b)(e) of this title to have allowances, (B) affected units or sources under section 7651d of this title, and (C) existing units subject to nitrogen oxide emission reductions under section 7651f of this title, each State in which one or more such units or sources are located shall submit in accordance with subchapter V of this chapter, a permit program for approval as provided by that subchapter. Upon approval of such program, for the units or sources subject to such approved program the Administrator shall suspend the issuance of permits as provided in subchapter V of this chapter.

(2) The owner or operator or the designated representative of each affected source under section 7651d of this title shall submit a permit application and compliance plan for that source to the permitting authority, not later than January 1, 1998.

(3) Not later than December 31, 1997, each State with an approved permit program shall issue permits to the owner or operator, or the designated representative of the owners and operators, of affected sources under section 7651d of this title that satisfy the requirements of subchapter V of this chapter and this subchapter and that submitted to such State a permit application and compliance plan pursuant to paragraph (2). In the case of a State without an approved permit program by July 1, 1996, the Administrator shall, not later than January 1, 1998, issue a permit to the owner or operator or the designated representative of each such affected source. In the case of affected sources for which applications and plans are timely received under paragraph (2), the permit application and the compliance plan, including amendments thereeto, shall be binding on the owner or operator or the designated representative of the owners or operators and shall be enforceable as a permit for purposes of this subchapter and subchapter V of this chapter until a permit is issued by the permitting authority for the affected source. The provisions of section 558(c) of title 5 (relating to renewals) shall apply to permits issued by a permitting authority under this subchapter and subchapter V of this chapter.

(4) The permit issued in accordance with this subsection for an affected source shall provide that the affected units at the affected source may not emit an annual tonnage of sulfur dioxide in excess of the number of allowances to emit sulfur dioxide the owner or operator or designated representative hold for the unit.

(e) New units

The owner or operator of each source that includes a new electric utility steam generating unit shall submit a permit application and compliance plan to the permitting authority not later than 24 months before the later of (1) January 1, 2000, or (2) the date on which the unit commences operation. The permitting authority shall issue a permit to the owner or operator, or the designated representative thereof, of the unit that satisfies the requirements of subchapter V of this chapter and this subchapter.

(f) Units subject to certain other limits

The owner or operator, or designated representative thereof, of any unit subject to an emission rate requirement under section 7651f of this title shall submit a permit application and compliance plan for such unit to the permitting authority not later than January 1, 1998. The permitting authority shall issue a permit to the owner or operator that satisfies the requirements of subchapter V of this chapter and this subchapter, including any appropriate monitoring and reporting requirements.

(g) Amendment of application and compliance plan

At any time after the submission of an application and compliance plan under this section, the applicant may submit a revised application and compliance plan, in accordance with the requirements of this section. In considering any permit application and compliance plan under this subchapter, the permitting authority shall ensure coordination with the applicable electric ratemaking authority, in the case of regulated utilities, and with unregulated public utilities.

(h) Prohibition

(1) It shall be unlawful for an owner or operator, or designated representative, required to submit a permit application or compliance plan under this subchapter to fail to submit such application or plan in accordance with the deadlines specified in this section or to otherwise fail to comply with regulations implementing this section.

(2) It shall be unlawful for any person to operate any source subject to this subchapter except in compliance with the terms and requirements of a permit application and compliance plan (including amendments thereto) or permit issued by the Administrator or a State with an approved permit program. For purposes of this subsection, compliance, as provided in section 7651c(f) of this title, with a permit issued under subchapter V of this chapter which provides with this subchapter for sources subject to this subchapter shall be deemed compliance with this subsection as well as section 7661a(a) of this title.
(3) In order to ensure reliability of electric power, nothing in this subchapter or subchapter V of this chapter shall be construed as requiring termination of operations of an electric utility steam generating unit for failure to have an approved permit or compliance plan, except that any such unit may be subject to the applicable enforcement provisions of section 7413 of this title.

(i) Multiple owners

No permit shall be issued under this section to an affected unit until the designated representative of the owners or operators has filed a certificate of representation with regard to matters under this subchapter, including the holding and distribution of allowances and the proceeds of transactions involving allowances. Where there are multiple holders of a legal or equitable title to, or a leasehold interest in, such a unit, or where a utility or industrial customer purchases power from an affected unit (or units) under life-of-the-unit, firm power contractual arrangements, the certificate shall state (1) that allowances and the proceeds of transactions involving allowances will be deemed to be held or distributed in proportion to each holder’s legal, equitable, leasehold, or contractual interest in the purpose of holding or distributing allowances as provided in this subsection, during either the term of such leasehold or thereafter, unless expressly provided for in the leasehold agreement. Except as otherwise provided in this subsection, where all legal or equitable title to or interest in an affected unit is held by a single person, the certification shall state that all allowances received by the unit are deemed to be held for that person.

§7651h. Repowered sources

(a) Availability

Not later than December 31, 1997, the owner or operator of an existing unit subject to the emissions limitation requirements of section 7651d(b) and (c) of this title may demonstrate to the permitting authority that one or more units will be repowered with a qualifying clean coal technology to comply with the requirements under section 7651d of this title. The owner or operator shall, as part of any such demonstration, provide, not later than January 1, 2000, satisfactory documentation of a preliminary design and engineering effort for such repowering and an executed and binding contract for the majority of the equipment to repower such unit and such other information as the Administrator may require by regulation. The replacement of an existing utility unit with a new utility unit using a repowering technology referred to in section 7651a(2)(1) of this title which is located at a different site, shall be treated as repowering of the existing unit for purposes of this subchapter, if—

(1) the replacement unit is designated by the owner or operator to replace such existing unit, and

(2) the existing unit is retired from service on or before the date on which the designated replacement unit enters commercial operation.

(b) Extension

(1) An owner or operator satisfying the requirements of subsection (a) of this section shall be granted an extension of the emission limitation requirement compliance date for that unit from January 1, 2000, to December 31, 2003. The extension shall be specified in the permit issued to the source under section 7661g of this title, together with any compliance schedule and other requirements necessary to meet second phase requirements by the extended date. Any unit that is granted an extension under this section shall not be eligible for a waiver under section 7411(j) of this title, and shall continue to be subject to requirements under this subchapter as if it were a unit subject to section 7651d of this title.

(2) If (A) the owner or operator of an existing unit has been granted an extension under paragraph (1) in order to repower such unit with a clean coal unit, and (B) such owner or operator demonstrates to the satisfaction of the Administrator that the repowering technology to be utilized by such unit has been properly constructed and tested on such unit, but nevertheless has been unable to achieve the emission reduction limitations and is economically or technologically infeasible, such existing unit may be retrofitted or repowered with equipment or facilities utilizing another clean coal technology or other available control technology.

(c) Allowances

(1) For the period of the extension under this section, the Administrator shall allocate to the owner or operator of the affected unit, annual allowances for sulfur dioxide equal to the affected unit’s baseline multiplied by the lesser of the unit’s federally approved State Implementation Plan emissions limitation or its actual emission rate for 1995 in lieu of any other allocation. Such allowances may not be transferred or used by any other source to meet emission requirements under this subchapter. The source owner or operator shall notify the Administrator sixty days in advance of the date on which the affected unit for which the extension has been granted is to be removed from operation to install the repowering technology.

(2) Effective on that date, the unit shall be subject to the requirements of section 7651d of this title. Allowances for the year in which the unit is removed from operation to install the repowering technology shall be calculated as the product of the unit’s baseline multiplied by 1.20

1 So in original. Probably should be section “7651a(12)”. 
lbs/mmBtu, divided by 2,000, and prorated accordingly, and are transferable.

(3) Allowances for such existing utility units for calendar years after the year the repowering is complete shall be calculated as the product of the existing unit’s baseline multiplied by 1.20 lbs/mmBtu, divided by 2,000.

(4) Notwithstanding the provisions of section 7651b(a) and (e) of this title, allowances shall be allocated under this section for a designated replacement unit which replaces an existing unit (as provided in the last sentence of subsection (a) of this section) in lieu of any further allocations of allowances for the existing unit.

(5) For the purpose of meeting the aggregate emissions limitation requirement set forth in section 7651b(a)(1) of this title, the units with an extension under this subsection shall be treated in each calendar year during the extension period as holding allowances allocated under paragraph (3).

(d) Control requirements

Any unit qualifying for an extension under this section that does not increase actual hourly emissions for any pollutant regulated under the2 chapter shall not be subject to any standard of performance under section 7411 of this title. Notwithstanding the provisions of this subsection, no new unit (1) designated as a replacement for an existing unit, (2) qualifying for the extension under subsection (b) of this section, and (3) located at a different site than the existing unit shall receive an exemption from the requirements imposed under section 7411 of this title.

(e) Expedited permitting

State permitting authorities and, where applicable, the Administrator, are encouraged to give expedited consideration to permit applications under parts C and D of subchapter I of this chapter for any source qualifying for an extension under this section.

(f) Prohibition

It shall be unlawful for the owner or operator of a repowered source to fail to comply with the requirement of this section, or any regulations of permit requirements to implement this section, including the prohibition against emitting sulfur dioxide in excess of allowances held.

§ 7651i. Election for additional sources

(a) Applicability

The owner or operator of any unit that is not, nor will become, an affected unit under section 7651b(e), 7651c, or 7651d of this title, or that is a process source under subsection (d) of this section, that emits sulfur dioxide, may elect to designate that unit or source to become an affected unit and to receive allowances under this subchapter. An election shall be submitted to the Administrator for approval, along with a permit application and proposed compliance plan in accordance with section 7651g of this title. The Administrator shall approve a designation that meets the requirements of this section, and such designated unit, or source, shall be allocated allowances, and be an affected unit for purposes of this subchapter.

(b) Establishment of baseline

The baseline for a unit designated under this section shall be established by the Administrator by regulation, based on fuel consumption and operating data for the unit for calendar years 1985, 1986, and 1987, or if such data is not available, the Administrator may prescribe a baseline based on alternative representative data.

(c) Emission limitations

Annual emissions limitations for sulfur dioxide shall be equal to the product of the baseline multiplied by the lesser of the unit’s 1985 actual or allowable emission rate in lbs/mmBtu, or, if the unit did not operate in 1985, by the lesser of the unit’s actual or allowable emission rate for a calendar year after 1985 (as determined by the Administrator), divided by 2,000.

(d) Process sources

Not later than 18 months after November 15, 1990, the Administrator shall establish a program under which the owner or operator of a process source that emits sulfur dioxide may elect to designate that source as an affected unit for the purpose of receiving allowances under this subchapter. The Administrator shall, by regulation, define the sources that may be designated; specify the emissions limitation; specify the operating, emission baseline, and other data requirements; prescribe CEMS or other monitoring requirements; and promulgate permit, reporting, and any other requirements necessary to implement such a program.

(e) Allowances and permits

The Administrator shall issue allowances to an affected unit under this section in an amount equal to the emissions limitation calculated under subsection (c) or (d) of this section, in accordance with section 7651b of this title. Such allowance may be used in accordance with, and shall be subject to, the provisions of section 7651b of this title. Affected sources under this section shall be subject to the requirements of sections 7651h, 7651i, 7651j, 7651k, 7651l, and 7651m of this title.

(f) Limitation

Any unit designated under this section shall not transfer or bank allowances produced as a result of reduced utilization or shutdown, except that, such allowances may be transferred or carried forward for use in subsequent years to the extent that the reduced utilization or shutdown results from the replacement of thermal energy from the unit designated under this section, with thermal energy generated by any other unit or units subject to the requirements of this subchapter, and the designated unit’s allowances are transferred or carried forward for use at such other replacement unit or units. In no case may the Administrator allocate to a source designated under this section allowances in an amount greater than the emissions resulting from operation of the source in full compliance...
with the requirements of this chapter. No such allowances shall authorize operation of a unit in violation of any other requirements of this chapter.

(g) Implementation
The Administrator shall issue regulations to implement this section not later than eighteen months after November 15, 1990.

(h) Small diesel refineries
The Administrator shall issue allowances to owners or operators of small diesel refineries who produce diesel fuel after October 1, 1993, meeting the requirements of subsection \( \text{7545(i)} \) of this title.

(1) Allowance period
 Allowances may be allocated under this subsection only for the period from October 1, 1993, through December 31, 1999.

(2) Allowance determination
The number of allowances allocated pursuant to this paragraph shall equal the annual number of pounds of sulfur dioxide reduction attributable to desulfurization by a small refinery divided by 2,000. For the purposes of this calculation, the concentration of sulfur removed from diesel fuel shall be the difference between 0.274 percent (by weight) and 0.050 percent (by weight).

(3) Refinery eligibility
As used in this subsection, the term “small refinery” shall mean a refinery or portion of a refinery—
(A) which, as of November 15, 1990, has bona fide crude oil throughput of less than 18,250,000 barrels per year, as reported to the Department of Energy, and
(B) which, as of November 15, 1990, is owned or controlled by a refiner with a total combined bona fide crude oil throughput of less than 50,187,500 barrels per year, as reported to the Department of Energy.

(4) Limitation per refinery
The maximum number of allowances that can be annually allocated to a small refinery pursuant to this subsection is one thousand and five hundred.

(5) Limitation on total
In any given year, the total number of allowances allocated pursuant to this subsection shall not exceed thirty-five thousand.

(6) Required certification
The Administrator shall not allocate any allowances pursuant to this subsection unless the owner or operator of a small diesel refinery shall have certified, at a time and in a manner prescribed by the Administrator, that all motor diesel fuel produced by the refinery for which allowances are claimed, including motor diesel fuel for off-highway use, shall have met the requirements of subsection \( \text{7545(i)} \) of this title.

§ 7651j. Excess emissions penalty
(a) Excess emissions penalty
The owner or operator of any unit or process source subject to the requirements of sections \( \text{7651b, 7651c, 7651d, 7651f or 7651h} \) of this title, or designated under section 7651l of this title, that emits sulfur dioxide or nitrogen oxides for any calendar year in excess of the unit’s emissions limitation requirement or, in the case of sulfur dioxide, of the allowances the owner or operator holds for use for the unit for that calendar year shall be liable for the payment of an excess emissions penalty, except where such emissions were authorized pursuant to section 7410(f) of this title. That penalty shall be calculated on the basis of the number of tons emitted in excess of the unit’s emissions limitation requirement or, in the case of sulfur dioxide, of the allowances the operator holds for use for the unit for that year, multiplied by $2,000. Any such penalty shall be due and payable without demand to the Administrator as provided in regulations to be issued by the Administrator by no later than eighteen months after November 15, 1990. Any such payment shall be deposited in the United States Treasury pursuant to the Miscellaneous Receipts Act. Any penalty due and payable under this section shall not diminish the liability of the unit’s owner or operator for any fine, penalty or assessment against the unit for the same violation under any other section of this chapter.

(b) Excess emissions offset
The owner or operator of any affected source that emits sulfur dioxide during any calendar year in excess of the unit’s emissions limitation requirement or of the allowances held for the unit for the calendar year, shall be liable to offset the excess emissions by an equal tonnage amount in the following calendar year, or such longer period as the Administrator may prescribe. The owner or operator of the source shall, within sixty days after the end of the year in which the excess emissions occurred, submit to the Administrator, and to the State in which the source is located, a proposed plan to achieve the required offsets. Upon approval of the proposed plan by the Administrator, as submitted, modified or conditioned, the plan shall be deemed at a condition of the operating permit for the unit without further review or revision of the permit. The Administrator shall also deduct allowances equal to the excess tonnage from those allocated for the source for the calendar year, or succeeding years during which offsets are required, following the year in which the excess emissions occurred.

(c) Penalty adjustment
The Administrator shall, by regulation, adjust the penalty specified in subsection (a) of this section for inflation, based on the Consumer Price Index, on November 15, 1990, and annually thereafter.

\( ^1 \) So in original. Probably should be “section”.
\( ^2 \) See References in Text note below.
\( ^3 \) So in original. Probably should be “occurred.”
\( ^4 \) So in original.
(d) Prohibition
It shall be unlawful for the owner or operator of any source liable for a penalty and offset under this section to fail (1) to pay the penalty under subsection (a) of this section, (2) to provide, and thereafter comply with, a compliance plan as required by subsection (b) of this section, or (3) to offset excess emissions as required by subsection (b) of this section.

(e) Savings provision
Nothing in this subchapter shall limit or otherwise affect the application of section 7413, 7414, 7420, or 7604 of this title except as otherwise explicitly provided in this subchapter.

REFERENCES IN TEXT
The Miscellaneous Receipts Act, referred to in subsec. (a), is not a recognized popular name for an act. For provisions relating to deposit of monies, see section 3302 of Title 31, Money and Finance.

§7651k. Monitoring, reporting, and recordkeeping requirements

(a) Applicability
The owner and operator of any source subject to this subchapter shall be required to install and operate CEMS on each affected unit at the source, and to quality assure the data for sulfur dioxide, nitrogen oxides, opacity and volumetric flow at each such unit. The Administrator shall, by regulations issued not later than eighteen months after November 15, 1990, specify the requirements for CEMS, for any alternative monitoring system that is demonstrated as providing information with the same precision, reliability, accessibility, and timeliness as that provided by CEMS, and for recordkeeping and reporting of information from such systems. Such regulations may include limitations or the use of alternative compliance methods by units equipped with an alternative monitoring system as may be necessary to preserve the orderly functioning of the allowance system, and which will ensure the emissions reductions contemplated by this subchapter. Where 2 or more units utilize a single stack, a separate CEMS shall not be required for each unit, and for such units the regulations shall require that the owner or operator collect sufficient information to permit reliable compliance determinations for each such unit.

(b) First phase requirements
Not later than thirty-six months after November 15, 1990, the owner or operator of each affected unit under section 7651c of this title, including, but not limited to, units that become affected units pursuant to subsections (b) and (c) and eligible units under subsection (d), shall install and operate CEMS, quality assure the data, and keep records and reports in accordance with the regulations issued under subsection (a).

(c) Second phase requirements
Not later than January 1, 1995, the owner or operator of each affected unit that has not previously met the requirements of subsections (a) and (b) shall install and operate CEMS, quality assure the data, and keep records and reports in accordance with the regulations issued under subsection (a). Upon commencement of commercial operation of each new utility unit, the unit shall comply with the requirements of subsection (a).

(d) Unavailability of emissions data
If CEMS data or data from an alternative monitoring system approved by the Administrator under subsection (a) is not available for any affected unit during any period of a calendar year in which such data is required under this subchapter, and the owner or operator cannot provide information, satisfactory to the Administrator, on emissions during that period, the Administrator shall deem the unit to be operating in an uncontrolled manner during the entire period for which the data was not available and shall, by regulation which shall be issued not later than eighteen months after November 15, 1990, prescribe means to calculate emissions for that period. The owner or operator shall be liable for excess emissions fees and offsets under section 7651j of this title in accordance with such regulations. Any fee due and payable under this subchapter shall not diminish the liability of the unit’s owner or operator for any fine, penalty, fee or assessment against the unit for the same violation under any other section of this chapter.

(e) Prohibition
It shall be unlawful for the owner or operator of any source subject to this subchapter to operate a source without complying with the requirements of this section, and any regulations implementing this section.

INFORMATION GATHERING ON GREENHOUSE GASES CONTRIBUTING TO GLOBAL CLIMATE CHANGE

Section 821 of Pub. L. 101–549 provided that: “(a) MONITORING.—The Administrator of the Environmental Protection Agency shall promulgate regulations within 18 months after the enactment of the Clean Air Act Amendments of 1990 (Nov. 15, 1990) to require that all affected sources subject to title V of the Clean Air Act (probably means title IV of the Clean Air Act as added by Pub. L. 101–549, which is classified to section 7651 et seq. of this title) shall also monitor carbon dioxide emissions according to the same timetable as in section 511(b) and (c) (probably means section 412(b) and (c) of the Clean Air Act, which is classified to section 7651k(b) and (c) of this title). The regulations shall require that such data be reported to the Administrator. The provisions of section 821(e) of title V of the Clean Air Act (probably means section 412(e) of title IV of the Clean Air Act, which is classified to section 7651k(e) of this title) shall apply for purposes of this section in the same manner and to the same extent as such provision applies to the monitoring and data referred to in section 511 (probably means section 412 of the Clean Air Act, which is classified to section 7651k of this title).

“(b) PUBLIC AVAILABILITY OF CARBON DIOXIDE INFORMATION.—For each unit required to monitor and provide carbon dioxide data under subsection (a), the Administrator shall compute the unit’s aggregate annual total carbon dioxide emissions, incorporate such data into a computer data base, and make such aggregate annual data available to the public.”
§7651n. General compliance with other provisions

Except as expressly provided, compliance with the requirements of this subchapter shall not exempt or exclude the owner or operator of any source subject to this subchapter from compliance with any other applicable requirements of this chapter.

(July 14, 1955, ch. 360, title IV, §413, as added Pub. L. 101-549, title IV, §401, Nov. 15, 1990, 104 Stat. 2625.)

§7651m. Enforcement

It shall be unlawful for any person subject to this subchapter to violate any prohibition of, requirement of, or regulation promulgated pursuant to this subchapter shall be a violation of this chapter. In addition to the other requirements and prohibitions provided for in this subchapter, the operation of any affected unit to emit sulfur dioxide in excess of allowances held for such unit shall be deemed a violation, with each ton emitted in excess of allowances held constituting a separate violation.

§7651n. Clean coal technology regulatory incentives

(a) “Clean coal technology” defined

For purposes of this section, “clean coal technology” means any technology, including technologies applied at the precombustion, combustion, or post combustion stage, at a new or existing facility which will achieve significant reductions in air emissions of sulfur dioxide or oxides of nitrogen associated with the utilization of coal in the generation of electricity, process steam, or industrial products, which is not in widespread use as of November 15, 1990.

(b) Revised regulations for clean coal technology demonstrations

(1) Applicability

This subsection applies to physical or operational changes to existing facilities for the sole purpose of installation, operation, cessation, or removal of a temporary or permanent clean coal technology demonstration project. For the purposes of this section, a clean coal technology demonstration project shall mean a project using funds appropriated under the heading “Department of Energy—Clean Coal Technology”, up to a total amount of $2,500,000,000 for commercial demonstration of clean coal technology, or similar projects funded through appropriations for the Environmental Protection Agency. The Federal contribution for a qualifying project shall be at least 20 percent of the total cost of the demonstration project.

(2) Temporary projects

Installation, operation, cessation, or removal of a temporary clean coal technology demonstration project that is operated for a period of five years or less, and which complies with the State implementation plans for the State in which the project is located and other requirements necessary to attain and maintain the national ambient air quality standards during and after the project is terminated, shall not subject such facility to the requirements of section 7411 of this title or part C or D of subchapter I of this chapter.

(3) Permanent projects

For permanent clean coal technology demonstration projects that constitute repowering as defined in section 7651a(11) of this title, any qualifying project shall not be subject to standards of performance under section 7411 of this title or to the review and permitting requirements of part C2 for any pollutant the potential emissions of which will not increase as a result of the demonstration project.

(4) EPA regulations

Not later than 12 months after November 15, 1990, the Administrator shall promulgate regulations or interpretive rulings to revise requirements under section 7411 of this title and parts C and D, as appropriate, to facilitate projects consistent in this subsection. With respect to parts C and D, such regulations or rulings shall apply to all areas in which EPA is the permitting authority. In those instances in which the State is the permitting authority under part C or D, any State may adopt and submit to the Administrator for approval revisions to its implementation plan to apply the regulations or rulings promulgated under this subsection.

(c) Exemption for reactivation of very clean units

Physical changes or changes in the method of operation associated with the commencement of commercial operations by a coal-fired utility unit after a period of discontinued operation shall not subject the unit to the requirements of section 7411 of this title or part C of the Act where the unit (1) has not been in operation for the two-year period prior to the enactment of the Clean Air Act Amendments of 1990 [November 15, 1990], and the emissions from such unit continue to be carried in the permitting authority’s emissions inventory at the time of enactment, (2) was equipped prior to shut-down with a continuous system of emissions control that achieves a removal efficiency for sulfur dioxide of no less than 85 percent and a removal efficiency for particulates of no less than 90 percent, (3) is equipped with low-NO burners prior to the time of commencement, and (4) is otherwise in compliance with the requirements of this chapter.

§ 76510. Contingency guarantee, auctions, reserve

(a) Definitions

For purposes of this section—

(1) The term "independent power producer" means any person who owns or operates, in whole or in part, one or more new independent power production facilities.

(2) The term "new independent power production facility" means a facility that—

(A) is used for the generation of electric energy, 80 percent or more of which is sold at wholesale;

(B) is nonrecourse project-financed (as such term is defined by the Secretary of Energy within 3 months of November 15, 1990);

(C) does not generate electric energy sold to any affiliate (as defined in section 79(b)(11) of title 15) of the facility's owner or operator unless the owner or operator of the facility demonstrates that it cannot obtain allowances from the affiliate; and

(D) is a new unit required to hold allowances under this subchapter.

(3) The term "required allowances" means the allowances required to operate such unit for so much of the unit's useful life as occurs after January 1, 2000.

(b) Special reserve of allowances

Within 36 months after November 15, 1990, the Administrator shall promulgate regulations establishing a Special Allowance Reserve containing allowances to be sold under this section. For purposes of establishing the Special Allowance Reserve, the Administrator shall withhold—

(1) 2.8 percent of the allocation of allowances for each year from 1995 through 1999 inclusive; and

(2) 2.8 percent of the basic Phase II allowance allocation of allowances for each year beginning in the year 2000

which would (but for this subsection) be issued for each affected unit at an affected source. The Administrator shall record such withholding for purposes of transferring the proceeds of the allowances under this subsection. The allowances so withheld shall be deposited in the Reserve under this section.

(c) Direct sale at $1,500 per ton

(1) Subaccount for direct sales

In accordance with regulations under this section, the Administrator shall establish a Direct Sale Subaccount in the Special Allowance Reserve established under this section. The Direct Sale Subaccount shall contain allowances in the amount of 50,000 tons per year for each year beginning in the year 2000.

(2) Sales

Allowances in the subaccount shall be offered for direct sale to any person at the times and in the amounts specified in table 1 at a price of $1,500 per allowance, adjusted by the Consumer Price Index in the same manner as provided in paragraph (3). Requests to purchase allowances from the Direct Sale Subaccount established under paragraph (1) shall be approved in the order of receipt until no allowances remain in such subaccount, except that an opportunity to purchase such allowances shall be provided to the independent power producers referred to in this subsection before such allowances are offered to any other person. Each applicant shall be required to pay 50 percent of the total purchase price of the allowances within 6 months after the approval of the request to purchase. The remainder shall be paid on or before the transfer of the allowances.

<table>

<tr>
<td>2000 and after</td>
<td>.....................</td>
<td>25,000</td>
</tr>
</tbody>
</table>

Allowances sold in the spot sale in any year are allowances which may only be used in that year (unless banked for use in a later year). Allowances sold in the advance sale in any year are allowances which may only be used in the 7th year after the year in which they are first offered for sale (unless banked for use in a later year).

(3) Entitlement to written guarantee

Any independent power producer that submits an application to the Administrator establishing that such independent power producer—

(A) proposes to construct a new independent power production facility for which allowances are required under this subchapter;

(B) will apply for financing to construct such facility after January 1, 1990, and before the date of the first auction under this section;

(C) has submitted to each owner or operator of an affected unit listed in table A (in section 7651c of this title) a written offer to purchase the required allowances for $750 per ton; and

(D) has not received (within 180 days after submitting offers to purchase under subparagraph (C)) an acceptance of the offer to purchase the required allowances,

shall, within 30 days after submission of such application, be entitled to receive the Administrator’s written guarantee (subject to the eligibility requirements set forth in paragraph (4)) that such required allowances will be made available for purchase from the Direct Sale Subaccount established under this subsection at a guaranteed price. The guaranteed price at which such allowances shall be made available for purchase shall be $1,500 per ton, adjusted by the percentage, if any, by which the Consumer Price Index (as determined under section 7661a(b)(3)(B)(v) of this title) for the year in which the allowance is purchased exceeds the Consumer Price Index for the calendar year 1990.

(4) Eligibility requirements

The guarantee issued by the Administrator under paragraph (3) shall be subject to a demonstration by the independent power producer, satisfactory to the Administrator, that—

---

1 See References in Text note below.
(A) the independent power producer has—
   (i) made good faith efforts to purchase the required allowances from the owners or operators of affected units to which allowances will be allocated, including efforts to purchase at annual auctions under this section, and from industrial sources that have elected to become affected units pursuant to section 7651i of this title; and
   (ii) such bids and efforts were unsuccessful in obtaining the required allowances; and

(B) the independent power producer will continue to make good faith efforts to purchase the required allowances from the owners or operators of affected units and from industrial sources.

(5) Issuance of guaranteed allowances from Direct Sale Subaccount under this section

From the allowances available in the Direct Sale Subaccount established under this subsection, upon payment of the guaranteed price, the Administrator shall issue to any person exercising the right to purchase allowances pursuant to a guarantee under this subsection the allowances covered by such guarantee. Persons to which guarantees under this subsection have been issued shall have the opportunity to purchase allowances pursuant to such guarantee from such subaccount before the allowances in such reserve are offered for sale to any other person.

(6) Proceeds

Notwithstanding section 3302 of title 31 or any other provision of law, the Administrator shall require that the proceeds of any sale under this subsection be transferred, within 90 days after the sale, without charge, on a pro rata basis to the owners or operators of the affected units from whom the allowances were withheld under subsection (b) of this section and that any unsold allowances be transferred to the Subaccount for Auction Sales established under subsection (d) of this section. No proceeds of any sale under this subsection shall be held by any officer or employee of the United States or treated for any purpose as revenue to the United States or to the Administrator.

(7) Termination of subaccount

If the Administrator determines that, during any period of 2 consecutive calendar years, less than 20 percent of the allowances available in the subaccount for direct sales established under this subsection have been purchased under this paragraph, the Administrator shall terminate the subaccount and transfer such allowances to the Auction Subaccount under subsection (d) of this section.

(d) Auction sales

(1) Subaccount for auctions

The Administrator shall establish an Auction Subaccount in the Special Reserve established under this section. The Auction Subaccount shall contain allowances to be sold at auction under this section in the amount of 150,000 tons per year for each year beginning in the calendar year 2000.

(2) Annual auctions

Commencing in 1993 and in each year thereafter, the Administrator shall conduct auctions at which the allowances referred to in paragraph (1) shall be offered for sale in accordance with regulations promulgated by the Administrator, in consultation with the Secretary of the Treasury, within 12 months of November 15, 1990. The allowances referred to in paragraph (1) shall be offered for sale at auction in the amounts specified in table 2. The auction shall be open to any person. A person wishing to bid for such allowances shall submit (by a date set by the Administrator) to the Administrator (on a sealed bid schedule provided by the Administrator) offers to purchase specified numbers of allowances at specified prices. Such regulations shall specify that the auctioned allowances shall be allocated and sold on the basis of bid price, starting with the highest-priced bid and continuing until all allowances for sale at such auction have been allocated. The regulations shall not permit that a minimum price be set for the purchase of withheld allowances. Allowances purchased at the auction may be used for any purpose and at any time after the auction, subject to the provisions of this subchapter.

Allowances sold in the spot sale in any year are allowances which may only be used in that year (unless banked for use in a later year), except as otherwise noted. Allowances sold in the advance auction in any year are allowances which may only be used in the 7th year after the year in which they are first offered for sale (unless banked for use in a later year).

*Available for use only in 1995 (unless banked for use in a later year).

(3) Proceeds

(A) Notwithstanding section 3302 of title 31 or any other provision of law, within 90 days of receipt, the Administrator shall transfer the proceeds from the auction under this section, on a pro rata basis, to the owners or operators of the affected units at an affected source from whom allowances were withheld under subsection (b) of this section. No funds transferred from a purchaser to a seller of allowances under this paragraph shall be held by any officer or employee of the United States or treated for any purpose as revenue to the United States or the Administrator.

(B) At the end of each year, any allowances offered for sale but not sold at the auction shall be returned without charge, on a pro rata
basis, to the owner or operator of the affected units from whose allocation the allowances were withheld.

(4) Additional auction participants

Any person holding allowances or to whom allowances are allocated by the Administrator may submit those allowances to the Administrator to be offered for sale at auction under this subsection. The proceeds of any such sale shall be transferred to the purchaser to the person submitting such allowances for sale. The holder of allowances offered for sale under this paragraph may specify a minimum sale price. Any person may purchase allowances offered for auction under this paragraph. Such allowances shall be allocated and sold to purchasers on the basis of bids after the auction under paragraph (2) is complete. No funds transferred from a purchaser to a seller of allowances under this paragraph shall be held by any officer or employee of the United States or treated for any purpose as revenue to the United States or the Administrator.

(5) Recording by EPA

The Administrator shall record and publicly report the nature, prices and results of each auction under this subsection, including the prices of successful bids, and shall record the transfers of allowances as a result of each auction in accordance with the requirements of this section. The transfer of allowances at such auction shall be recorded in accordance with the regulations promulgated by the Administrator under this subchapter.

(e) Changes in sales, auctions, and withholding

Pursuant to rulemaking after public notice and comment the Administrator may at any time after the year 1998 (in the case of advance sales or advance auctions) and 2005 (in the case of spot sales or spot auctions) decrease the number of allowances withheld and sold under this section.

(f) Termination of auctions

The Administrator may terminate the withholding of allowances and the auction sales under this section if the Administrator determines that, during any period of 3 consecutive calendar years after 2002, less than 20 percent of the allowances available in the auction subaccount have been purchased. Pursuant to regulations under this section, the Administrator may by delegation or contract provide for the conduct of sales or auctions under the Administrator’s supervision by other departments or agencies of the United States Government or by nongovernmental agencies, organizations, or entities.

(7661) Definitions

As used in this subchapter—

(1) Affected source

The term “affected source” shall have the meaning given such term in subchapter IV–A of this chapter.

(2) Major source

The term “major source” means any stationary source (or any group of stationary sources located within a contiguous area and under common control) that is either of the following:

(A) A major source as defined in section 7412 of this title.

(B) A major stationary source as defined in section 7602 of this title or part D of subchapter I of this chapter.

(3) Schedule of compliance

The term “schedule of compliance” means a schedule of remedial measures, including an enforceable sequence of actions or operations, leading to compliance with an applicable implementation plan, emission standard, emission limitation, or emission prohibition.

(4) Permitting authority

The term “permitting authority” means the Administrator or the air pollution control agency authorized by the Administrator to carry out a permit program under this subchapter.

(7661a) Permit programs

(a) Violations

After the effective date of any permit program approved or promulgated under this subchapter, it shall be unlawful for any person to violate any requirement of a permit issued under this subchapter, or to operate an affected source (as provided in subchapter IV–A of this chapter), a major source, any other source (including an area source) subject to standards or regulations under section 7411 or 7412 of this title, any other source required to have a permit under parts 1, 2, or 3 of subchapter I of this chapter, or any other stationary source in a category designated (in whole or in part) by regulations promulgated by the Administrator under this subchapter.

Section 7661a of title 42, referred to in subsec. (a)(2)(C), was repealed by Pub. L. 109–58, title XII, § 1263, Aug. 8, 2005, 119 Stat. 971. See section 16451(1) of this title.
finds that compliance with such requirements is impracticable, infeasible, or unnecessarily burdensome on such categories, except that the Administrator may not exempt any major source from such requirements.

(b) Regulations

The Administrator shall promulgate within 12 months after November 15, 1990, regulations establishing the minimum elements of a permit program to be administered by any air pollution control agency. These elements shall include each of the following:

(1) Requirements for permit applications, including a standard application form and criteria for determining in a timely fashion the completeness of applications.

(2) Monitoring and reporting requirements.

(3)(A) A requirement under State or local law or interstate compact that the owner or operator of all sources subject to the requirement to obtain a permit under this subchapter pay an annual fee, or the equivalent over some other period, sufficient to cover all reasonable (direct and indirect) costs required to develop and administer the permit program requirements of this subchapter, including section 7661f of this title, including the reasonable costs of—

(i) reviewing and acting upon any application for such a permit,

(ii) if the owner or operator receives a permit for such source, whether before or after November 15, 1990, implementing and enforcing the terms and conditions of any such permit (not including any court costs or other costs associated with any enforcement action),

(iii) emissions and ambient monitoring,

(iv) preparing generally applicable regulations, or guidance,

(v) modeling, analyses, and demonstrations, and

(vi) preparing inventories and tracking emissions.

(B) The total amount of fees collected by the permitting authority shall conform to the following requirements:

(i) The Administrator shall not approve a program as meeting the requirements of this paragraph unless the State demonstrates that, except as otherwise provided in subparagraphs (ii) through (v) of this subparagraph, the program will result in the collection, in the aggregate, from all sources subject to subparagraph (A), of an amount not less than $25 per ton of each regulated pollutant, or such other amount as the Administrator may determine adequately reflects the reasonable costs of the permit program.

(ii) As used in this subparagraph, the term “regulated pollutant” shall mean (I) a volatile organic compound; (II) each pollutant regulated under section 7411 or 7412 of this title; and (III) each pollutant for which a national primary ambient air quality standard has been promulgated (except that carbon monoxide shall be excluded from this reference).

(4) Requirements for adequate personnel and funding to administer the program.

(iii) In determining the amount under clause (i), the permitting authority is not required to include any amount of regulated pollutant emitted by any source in excess of 4,000 tons per year of that regulated pollutant.

(iv) The requirements of clause (i) shall not apply if the permitting authority demonstrates that collecting an amount less than the amount specified under clause (i) will meet the requirements of subparagraph (A).

(v) The fee calculated under clause (i) shall be increased (consistent with the need to cover the reasonable costs authorized by subparagraph (A)) in each year beginning after 1990, by the percentage, if any, by which the Consumer Price Index for the most recent calendar year ending before the beginning of such year exceeds the Consumer Price Index for the calendar year 1989. For purposes of this clause—

(I) the Consumer Price Index for any calendar year is the average of the Consumer Price Index for all urban consumers published by the Department of Labor, as of the close of the 12-month period ending on August 31 of each calendar year, and

(II) the revision of the Consumer Price Index which is most consistent with the Consumer Price Index for calendar year 1989 shall be used.

(C)(i) If the Administrator determines, under subsection (d) of this section, that the fee provisions of the operating permit program do not meet the requirements of this paragraph, or if the Administrator makes a determination, under subsection (i) of this section, that the permitting authority is not adequately administering or enforcing an approved fee program, the Administrator may, in addition to taking any other action authorized under this subchapter, collect reasonable fees from the sources identified under subparagraph (A).

Such fees shall be designed solely to cover the Administrator’s costs of administering the provisions of the permit program promulgated by the Administrator.

(ii) Any source that fails to pay fees lawfully imposed by the Administrator under this subparagraph shall pay a penalty of 50 percent of the fee amount, plus interest on the fee amount computed in accordance with section 6621(a)(2) of title 26 (relating to computation of interest on underpayment of Federal taxes).

(iii) Any fees, penalties, and interest collected under this subparagraph shall be deposited in a special fund in the United States Treasury for licensing and other services, which thereafter shall be available for appropriation, to remain available until expended, subject to appropriation, to carry out the Agency’s activities for which the fees were collected. Any fee required to be collected by a State, local, or interstate agency under this subsection shall be utilized solely to cover all reasonable (direct and indirect) costs required to support the permit program as set forth in subparagraph (A).

(4) Requirements for adequate personnel and funding to administer the program.
§ 7661a

A requirement that the permitting authority have adequate authority to:
(A) issue permits and assure compliance by all sources required to have a permit under this subchapter with each applicable standard, regulation or requirement under this chapter;
(B) issue permits for a fixed term, not to exceed 5 years;
(C) assure that upon issuance or renewal permits incorporate emission limitations and other requirements in an applicable implementation plan;
(D) terminate, modify, or revoke and reissue permits for cause;
(E) enforce permits, permit fee requirements, and the requirement to obtain a permit, including authority to recover civil penalties in a maximum amount of not less than $10,000 per day for each violation, and provide appropriate criminal penalties; and
(F) assure that no permit will be issued if the Administrator objects to its issuance in a timely manner under this subchapter.

(6) Adequate, streamlined, and reasonable procedures for expeditiously determining when applications are complete, for processing such applications, for public notice, including offering an opportunity for public comment and a hearing, and for expeditious review of permit actions, including applications, renewals, or revisions, and including an opportunity for judicial review in State court of the final permit action by the applicant, any person who participated in the public comment process, and any other person who could obtain judicial review of that action under applicable law.

(7) To ensure against unreasonable delay by the permitting authority, adequate authority and procedures to provide that a failure of such permitting authority to act on a permit application or permit renewal application (in accordance with the time periods specified in section 7661b of this title or, as appropriate, subchapter IV–A of this chapter) shall be treated as a final permit action solely for purposes of obtaining judicial review in State court of an action brought by any person who participated in the public comment process, and any other person who could obtain judicial review of that action under applicable law.

(8) Authority, and reasonable procedures consistent with the need for expeditious action by the permitting authority on permit applications and related matters, to make available to the public any permit application, compliance plan, permit, and monitoring or compliance report under section 7661b(e) of this title, subject to the provisions of section 7414(c) of this title.

(9) A requirement that the permitting authority, in the case of permits with a term of 3 or more years for major sources, shall require revisions to the permit to incorporate applicable standards and regulations promulgated under this chapter after the issuance of such permit. Such revisions shall occur as expeditiously as practicable and consistent with the procedures established under paragraph (6) but not later than 18 months after the promulgation of such standards and regulations. No such revision shall be required if the effective date of the standards or regulations is a date after the expiration of the permit term. Such permit revision shall be treated as a permit renewal if it complies with the requirements of this subchapter regarding renewals.

(10) Provisions to allow changes within a permitted facility (or one operating pursuant to section 7661b(d) of this title) without requiring a permit revision, if the changes are not modifications under any provision of subchapter I of this chapter and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions): Provided, That the facility provides the Administrator and the permitting authority with written notification in advance of the proposed changes which shall be a minimum of 7 days, unless the permitting authority provides in its regulations a different timeframe for emergencies.

(c) Single permit

A single permit may be issued for a facility with multiple sources.

(d) Submission and approval

(1) Not later than 3 years after November 15, 1990, the Governor of each State shall develop and submit to the Administrator a permit program under State or local law or under an interstate compact meeting the requirements of this subchapter. In addition, the Governor shall submit a legal opinion from the attorney general (or the attorney for those State air pollution control agencies that have independent legal counsel), or from the chief legal officer of an interstate agency, that the laws of the State, locality, or the interstate compact provide adequate authority to carry out the program. Not later than 1 year after receiving a program, and after notice and opportunity for public comment, the Administrator shall approve or disapprove such program, in whole or in part. The Administrator may approve a program to the extent that the program meets the requirements of this chapter, including the regulations issued under subsection (b) of this section. If the program is disapproved, in whole or in part, the Administrator shall notify the Governor of any revisions or modifications necessary to obtain approval. The Governor shall revise and resubmit the program for review under this section within 180 days after receiving notification.

(2)(A) If the Governor does not submit a program as required under paragraph (1) or if the Administrator disapproves a program submitted by the Governor under paragraph (1), in whole or in part, the Administrator may, prior to the expiration of the 18-month period referred to in subparagraph (B), in the Administrator’s discretion, apply any of the sanctions specified in section 7509(b) of this title.

(B) If the Governor does not submit a program as required under paragraph (1), or if the Administrator disapproves any such program submitted by the Governor under paragraph (1), in whole or in part, 18 months after the date re-
required for such submittal or the date of such disapproval, as the case may be, the Administrator shall apply sanctions under section 7509(b) of this title in the same manner and subject to the same deadlines and other conditions applicable in the case of a determination of disapproval, or finding under section 7509(a) of this title.

(C) The sanctions under section 7509(b)(2) of this title shall not apply pursuant to this paragraph in any area unless the failure to submit or the disapproval referred to in subparagraph (A) or (B) relates to an air pollutant for which such area has been designated a nonattainment area (as defined in part D of subchapter I of this chapter).

(3) If a program meeting the requirements of this subchapter has not been approved in whole for any State, the Administrator shall, 2 years after the date required for submission of such a program under paragraph (1), promulgate, administer, and enforce a program under this subchapter for that State.

(e) Suspension

The Administrator shall suspend the issuance of permits promptly upon notification of approval of a permit program under this subchapter, but may, in such notice, retain jurisdiction over permits that have been federally issued, but for which the administrative or judicial review process is not complete. The Administrator shall continue to administer and enforce federally issued permits under this subchapter until they are replaced by a permit issued by a permitting program. Nothing in this subsection shall be construed to limit the Administrator’s ability to enforce permits issued by a State.

(f) Prohibition

No partial permit program shall be approved unless, at a minimum, it applies, and ensures compliance with, this subchapter and each of the following:

(1) All requirements established under subchapter IV–A of this chapter applicable to “affected sources”.

(2) All requirements established under section 7412 of this title applicable to “major sources”, “area sources”, and “new sources”.

(3) All requirements of subchapter I of this chapter (other than section 7412 of this title) applicable to sources required to have a permit under this subchapter.

Approval of a partial program shall not relieve the State of its obligation to submit a complete program, nor from the application of any sanctions under this chapter for failure to submit an approvable permit program.

(g) Interim approval

If a program (including a partial permit program) submitted under this subchapter substantially meets the requirements of this subchapter, but is not fully approvable, the Administrator may by rule grant the program interim approval. In the notice of final rulemaking, the Administrator shall specify the changes that must be made before the program can receive full approval. An interim approval under this subsection shall expire on a date set by the Administrator not later than 2 years after such approval, and may not be renewed. For the period of any such interim approval, the provisions of subsection (d)(2) of this section, and the obligation of the Administrator to promulgate a program under this subchapter for the State pursuant to subsection (d)(3), shall be suspended. Such provisions and such obligation of the Administrator shall apply after the expiration of such interim approval.

(h) Effective date

The effective date of a permit program, or partial or interim program, approved under this subchapter, shall be the effective date of approval by the Administrator. The effective date of a permit program, or partial permit program, promulgated by the Administrator shall be the date of promulgation.

(i) Administration and enforcement

(1) Whenever the Administrator makes a determination that a permitting authority is not adequately administering and enforcing a program, or portion thereof, in accordance with the requirements of this subchapter, the Administrator shall provide notice to the State and may, prior to the expiration of the 18-month period referred to in paragraph (2), in the Administrator’s discretion, apply any of the sanctions specified in section 7509(b) of this section.

(2) Whenever the Administrator makes a determination that a permitting authority is not adequately administering and enforcing a program, or portion thereof, in accordance with the requirements of this subchapter, 18 months after the date of the notice under paragraph (1), the Administrator shall apply the sanctions under section 7509(b) of this title in the same manner and subject to the same deadlines and other conditions as are applicable in the case of a determination, disapproval, or finding under section 7509(a) of this title.

(3) The sanctions under section 7509(b)(2) of this title shall not apply pursuant to this subsection in any area unless the failure to adequately enforce and administer the program relates to an air pollutant for which such area has been designated a nonattainment area.

(4) Whenever the Administrator has made a finding under paragraph (1) with respect to any State, unless the State has corrected such deficiency within 18 months after the date of such finding, the Administrator shall, 2 years after the date of such finding, promulgate, administer, and enforce a program under this subchapter for that State. Nothing in this paragraph shall be construed to affect the validity of a program which has been approved under this subchapter or the authority of any permitting authority acting under such program until such time as such program is promulgated by the Administrator under this paragraph.

§7661b. Permit applications

(a) Applicable date

Any source specified in section 7661a(a) of this title shall become subject to a permit program, and required to have a permit, on the later of the following dates—
§ 7661c. Permit requirements and conditions

(a) Conditions

Each permit issued under this subchapter shall include enforceable emission limitations and standards, a schedule of compliance, a requirement that the permittee submit to the permitting authority no less frequently than every 6 months, the results of any required monitoring, and shall issue or deny the permit, within 18 months after the date of receipt thereof, except that the permitting authority shall establish a phased schedule for acting on permit applications submitted within the first full year after the effective date of a permit program (or a partial or interim program). Any such schedule shall assure that at least one-third of such permits will be acted on by such authority annually over a period of not to exceed 3 years after such effective date. Such authority shall establish reasonable procedures to prioritize such approval or disapproval actions in the case of applications for construction or modification under the applicable requirements of this chapter.

(b) Monitoring and analysis

The Administrator may by rule prescribe procedures and methods for determining compliance and for monitoring and analysis of pollutants regulated under this chapter, but continuous emissions monitoring need not be required if alternative methods are available that provide sufficiently reliable and timely information for determining compliance. Nothing in this subsection shall be construed to affect any continuous emissions monitoring requirement of subchapter IV–A of this chapter, or where required elsewhere in this chapter.

(c) Inspection, entry, monitoring, certification, and reporting

Each permit issued under this subchapter shall set forth inspection, entry, monitoring, compliance certification, and reporting requirements to assure compliance with the permit terms and conditions. Such monitoring and reporting requirements shall conform to any applicable regulation under subsection (b) of this section. Any report required to be submitted by a permit issued to a corporation under this subchapter shall be signed by a responsible corporate official, who shall certify its accuracy.

(d) General permits

The permitting authority may, after notice and opportunity for public hearing, issue a general permit covering numerous similar sources. Any general permit shall comply with all requirements applicable to permits under this subchapter. No source covered by a general permit shall thereby be relieved from the obligation to file an application under section 7661b of this title.

(1) the effective date of a permit program or partial or interim permit program applicable to the source; or

(2) the date such source becomes subject to section 7661a(a) of this title.

(b) Compliance plan

(1) The regulations required by section 7661a(b) of this title shall include a requirement that the applicant submit with the permit application a compliance plan describing how the source will comply with all applicable requirements under this chapter. The compliance plan shall include a schedule of compliance, and a schedule under which the permittee will submit progress reports to the permitting authority no less frequently than every 6 months.

(2) The regulations shall further require the permittee to periodically (but no less frequently than annually) certify that the facility is in compliance with any applicable requirements of the permit, and to promptly report any deviations from permit requirements to the permitting authority.

(c) Deadline

Any person required to have a permit shall, not later than 12 months after the date on which the source becomes subject to a permit program approved or promulgated under this subchapter, or such earlier date as the permitting authority may establish, submit to the permitting authority a compliance plan and an application for a permit signed by a responsible official, who shall certify the accuracy of the information submitted. The permitting authority shall approve or disapprove a completed application (consistent with the procedures established under this subchapter for consideration of such applications), and shall issue or deny the permit, within 18 months after the date of receipt thereof, except that the permitting authority shall establish a phased schedule for acting on permit applications submitted within the first full year after the effective date of a permit program (or a partial or interim program). Any such schedule shall assure that at least one-third of such permits will be acted on by such authority annually over a period of not to exceed 3 years after such effective date. Such authority shall establish reasonable procedures to prioritize such approval or disapproval actions in the case of applications for construction or modification under the applicable requirements of this chapter.

(d) Timely and complete applications

Except for sources required to have a permit before construction or modification under the applicable requirements of this chapter, if an applicant has submitted a timely and complete application for a permit required by this subchapter (including renewals), but final action has not been taken on such application, the source’s failure to have a permit shall not be a violation of this chapter, unless the delay in final action was due to the failure of the applicant timely to submit information required or requested to process the application. No source required to have a permit under this subchapter shall be in violation of section 7661a(a) of this title before the date on which the source is required to submit an application under subsection (c) of this section.

(e) Copies; availability

A copy of each permit application, compliance plan (including the schedule of compliance), emissions or compliance monitoring report, certification, and each permit issued under this subchapter, shall be available to the public. If an applicant or permittee is required to submit information entitled to protection from disclosure under section 7414(c) of this title, the applicant or permittee may submit such information separately. The requirements of section 7414(c) of this title shall apply to such information. The contents of a permit shall not be entitled to protection under section 7414(c) of this title.

(e) Temporary sources

The permitting authority may issue a single permit authorizing emissions from similar operations at multiple temporary locations. No such permit shall be issued unless it includes conditions that will assure compliance with all the requirements of this chapter at all authorized locations, including but not limited to, ambient standards and compliance with any applicable increment or visibility requirements under part C of subchapter I of this chapter. Any such permit shall in addition require the owner or operator to notify the permitting authority in advance of each change in location. The permitting authority may require a separate permit fee for operations at each location.

(f) Permit shield

Compliance with a permit issued in accordance with this subchapter shall be deemed compliance with section 7661a of this title. Except as otherwise provided by the Administrator by rule, the permit may also provide that compliance with the permit shall be deemed compliance with other applicable provisions of this chapter that relate to the permittee if—

(1) the permit includes the applicable requirements of such provisions, or

(2) the permitting authority in acting on the permit application makes a determination relating to the permittee that such other provisions (which shall be referred to in such determination) are not applicable and the permit includes the determination or a concise summary thereof.

Nothing in the preceding sentence shall alter or affect the provisions of section 7603 of this title, including the authority of the Administrator under that section.

§ 7661d. Notification to Administrator and contiguous States

(a) Transmission and notice

(1) Each permitting authority—

(A) shall transmit to the Administrator a copy of each permit application (and any application for a permit modification or renewal) or such portion thereof, including any compliance plan, as the Administrator may require to effectively review the application and otherwise to carry out the Administrator’s responsibilities under this chapter, and

(B) shall provide to the Administrator a copy of each permit proposed to be issued and issued as a final permit.

(2) The permitting authority shall notify all States—

(A) whose air quality may be affected and that are contiguous to the State in which the emission originates, or

(B) that are within 50 miles of the source,

of each permit application or proposed permit forwarded to the Administrator under this section, and shall provide an opportunity for such States to submit written recommendations respecting the issuance of the permit and its terms and conditions. If any part of those recommendations are not accepted by the permitting authority, such authority shall notify the State submitting the recommendations and the Administrator in writing of its failure to accept those recommendations and the reasons therefor.

(b) Objection by EPA

(1) If any permit contains provisions that are determined by the Administrator as not in compliance with the applicable requirements of this chapter, including the requirements of an applicable implementation plan, the Administrator shall, in accordance with this subsection, object to its issuance. The permitting authority shall respond in writing if the Administrator (A) within 45 days after receiving a copy of the proposed permit under subsection (a)(1) of this section, or (B) within 45 days after receiving notification under subsection (a)(2) of this section, objects in writing to its issuance as not in compliance with such requirements. With the objection, the Administrator shall provide a statement of the reasons for the objection. A copy of the objection and statement shall be provided to the applicant.

(2) If the Administrator does not object in writing to the issuance of a permit pursuant to paragraph (1), any person may petition the Administrator within 60 days after the expiration of the 45-day review period specified in paragraph (1) to take such action. A copy of such petition shall be provided to the permitting authority and the applicant by the petitioner. The petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the permitting agency (unless the petitioner demonstrates in the petition to the Administrator that it was impracticable to raise such objections within such period or unless the grounds for such objection arose after such period). The petition shall identify all such objections. If the permit has been issued by the permitting agency, such petition shall not postpone the effectiveness of the permit. The Administrator shall grant or deny such petition within 60 days after the petition is filed. The Administrator shall issue an objection within such period if the petitioner demonstrates to the Administrator that the permit is not in compliance with the requirements of this chapter, including the requirements of the applicable implementation plan. Any denial of such petition shall be subject to judicial review under section 7607 of this title. The Administrator shall include in regulations under this subchapter provisions to implement this paragraph. The Administrator may not delegate the requirements of this paragraph.

(3) Upon receipt of an objection by the Administrator under this subsection, the permitting authority may not issue the permit unless it is revised and issued in accordance with subsection (c) of this section. If the permitting authority has issued a permit prior to receipt of an objection by the Administrator under paragraph (2) of this subsection, the Administrator shall modify, terminate, or revoke such permit and the permitting authority may thereafter only issue a
revised permit in accordance with subsection (c) of this section.

(c) Issuance or denial

If the permitting authority fails, within 90 days after the date of an objection under subsection (b) of this section, to submit a permit revised to meet the objection, the Administrator shall issue or deny the permit in accordance with the requirements of this subchapter. No objection shall be subject to judicial review until the Administrator takes final action to issue or deny a permit under this subsection.

(d) Waiver of notification requirements

(1) The Administrator may waive the requirements of subsections (a) and (b) of this section at the time of approval of a permit program under this subchapter for any category (including any class, type, or size within such category) of sources covered by the program other than major sources.

(2) The Administrator may, by regulation, establish categories of sources (including any class, type, or size within such category) to which the requirements of subsections (a) and (b) of this section shall not apply. The preceding sentence shall not apply to major sources.

(3) The Administrator may exclude from any waiver under this subsection notification under subsection (a)(2) of this section. Any waiver granted under this subsection may be revoked or modified by the Administrator by rule.

(e) Refusal of permitting authority to terminate, modify, or revoke and reissue

If the Administrator finds that cause exists to terminate, modify, or revoke and reissue a permit under this subchapter, the Administrator shall notify the permitting authority and the source of the Administrator’s finding. The permitting authority shall, within 90 days after receipt of such notification, forward to the Administrator under this section a proposed determination of termination, modification, or revocation and reissuance, as appropriate. The Administrator may extend such 90 day period for an additional 90 days if the Administrator finds that a new or revised permit application is necessary, or that the permitting authority must require the permittee to submit additional information. The Administrator may review such proposed determination under the provisions of subsections (a) and (b) of this section. If the permitting authority fails to submit the required proposed determination, or if the Administrator objects and the permitting authority fails to resolve the objection within 90 days, the Administrator may, after notice and in accordance with fair and reasonable procedures, terminate, modify, or revoke and reissue the permit.

§ 7661e. Other authorities

(a) In general

Nothing in this subchapter shall prevent a State, or interstate permitting authority, from establishing additional permitting requirements not inconsistent with this chapter.

(b) Permits implementing acid rain provisions

The provisions of this subchapter, including provisions regarding schedules for submission and approval or disapproval of permit applications, shall apply to permits implementing the requirements of subchapter IV-A of this chapter as modified by that subchapter.

(5) Adequate mechanisms for informing small business stationary sources of their obligations under this chapter, including mechanisms for requesting such sources to qualified auditors or, at the option of the State, for providing audits of the operations of such sources to determine compliance with this chapter.

(7) Procedures for consideration of requests from a small business stationary source for modification of—
(A) any work practice or technological method of compliance, or
(B) the schedule of milestones for implementing such work practice or method of compliance preceding any applicable compliance date,

based on the technological and financial capability of any such small business stationary source. No such modification may be granted unless it is in compliance with the applicable requirements of this chapter, including the requirements of the applicable implementation plan. Where such applicable requirements are set forth in Federal regulations, only modifications authorized in such regulations may be allowed.

(b) Program

The Administrator shall establish within 9 months after November 15, 1990, a small business stationary source technical and environmental compliance assistance program. Such program shall—

(1) assist the States in the development of the program required under subsection (a) of this section (relating to assistance for small business stationary sources);
(2) issue guidance for the use of the States in the implementation of these programs that includes alternative control technologies and pollution prevention methods applicable to small business stationary sources; and
(3) provide for implementation of the program provisions required under subsection (a)(4) of this section in any State that fails to submit such a program under that subsection.

(c) Eligibility

(1) Except as provided in paragraphs (2) and (3), for purposes of this section, the term “small business stationary source” means a stationary source that—

(A) is owned or operated by a person that employs 100 or fewer individuals,
(B) is a small business concern as defined in the Small Business Act [15 U.S.C. 631 et seq.];
(C) is not a major stationary source;
(D) does not emit 50 tons or more per year of any regulated pollutant; and
(E) emits less than 75 tons per year of all regulated pollutants.

(2) Upon petition by a source, the State may, after notice and opportunity for public comment, include as a small business stationary source for purposes of this section any stationary source which does not meet the criteria of subparagraphs (C), (D), or (E) of paragraph (1) but which does not emit more than 100 tons per year of all regulated pollutants.

(3)(A) The Administrator, in consultation with the Administrator of the Small Business Administration and after providing notice and opportunity for public comment, may exclude from the small business stationary source definition under this section any category or subcategory of sources that the Administrator determines to have sufficient technical and financial capabilities to meet the requirements of this chapter without the application of this subsection.

(B) The State, in consultation with the Administrator and the Administrator of the Small Business Administration and after providing notice and opportunity for public hearing, may exclude from the small business stationary source definition under this section any category or subcategory of sources that the State determines to have sufficient technical and financial capabilities to meet the requirements of this chapter without the application of this subsection.

(d) Monitoring

The Administrator shall direct the Agency’s Office of Small and Disadvantaged Business Utilization through the Small Business Ombudsman (hereinafter in this section referred to as the “Ombudsman”) to monitor the small business stationary source technical and environmental compliance assistance program under this section. In carrying out such monitoring activities, the Ombudsman shall—

(1) render advisory opinions on the overall effectiveness of the Small Business Stationary Source Technical and Environmental Compliance Assistance Program, difficulties encountered, and degree and severity of enforcement;
(2) make periodic reports to the Congress on the compliance of the Small Business Stationary Source Technical and Environmental Compliance Assistance Program with the requirements of the Paperwork Reduction Act,2 the Regulatory Flexibility Act [5 U.S.C. 601 et seq.], and the Equal Access to Justice Act;
(3) review information to be issued by the Small Business Stationary Source Technical and Environmental Compliance Assistance Program for small business stationary sources to ensure that the information is understandable by the layperson; and
(4) have the Small Business Stationary Source Technical and Environmental Compliance Assistance Program serve as the secretariat for the development and dissemination of such reports and advisory opinions.

(e) Compliance Advisory Panel

(1) There shall be created a Compliance Advisory Panel (hereinafter referred to as the “Panel”) on the State level of not less than 7 individuals. This Panel shall—

(A) render advisory opinions concerning the effectiveness of the small business stationary source technical and environmental compliance assistance program, difficulties encountered, and degree and severity of enforcement;
(B) make periodic reports to the Administrator concerning the compliance of the State Small Business Stationary Source Technical and Environmental Compliance Assistance Program with the requirements of the Paperwork Reduction Act,2 the Regulatory Flexibility Act [5 U.S.C. 601 et seq.], and the Equal Access to Justice Act;
(C) review information for small business stationary sources to assure such information is understandable by the layperson; and
(D) have the Small Business Stationary Source Technical and Environmental Compliance Assistance Program serve as the sec-

---

1 See References in Text note below.

2 See References in Text note below.
retariat for the development and dissemination of such reports and advisory opinions.

(2) The Panel shall consist of—
(A) 2 members, who are not owners, or representatives of owners, of small business stationary sources, selected by the Governor to represent the general public;
(B) 2 members selected by the State legislature who are owners, or who represent owners, of small business stationary sources (1 member each by the majority and minority leadership of the lower house, or in the case of a unicameral State legislature, 2 members each shall be selected by the majority leadership and the minority leadership, respectively, of such legislature, and subparagraph (C) shall not apply);
(C) 2 members selected by the State legislature who are owners, or who represent owners, of small business stationary sources (1 member each by the majority and minority leadership of the upper house, or the equivalent State entity); and
(D) 1 member selected by the head of the department or agency of the State responsible for air pollution permit programs to represent that agency.

(f) Fees
The State (or the Administrator) may reduce any fee required under this chapter to take into account the financial resources of small business stationary sources.

(g) Continuous emission monitors
In developing regulations and CTGs under this chapter that contain continuous emission monitoring requirements, the Administrator, consistent with the requirements of this chapter, before applying such requirements to small business stationary sources, shall consider the necessity and appropriateness of such requirements for such sources. Nothing in this subsection shall affect the applicability of subchapter IV–A of this chapter provisions relating to continuous emissions monitoring.

(h) Control technique guidelines
The Administrator shall consider, consistent with the requirements of this chapter, the size, type, and technical capabilities of small business stationary sources (and sources which are eligible under subsection (c)(2) of this section to be treated as small business stationary sources) in developing CTGs applicable to such sources under this chapter.

The Regulatory Flexibility Act, referred to in subsecs. (d)(2) and (e)(1)(B), is Pub. L. 96–354, Sept. 21, 1980, 94 Stat. 2325. For complete classification of this Act to the Code, see Short Title note set out under section 501 of Title 5 and Tables.

SUBCHAPTER VI—STRATOSPHERIC OZONE PROTECTION

§7671. Definitions
As used in this subchapter—
(1) Appliance
The term “appliance” means any device which contains and uses a class I or class II substance as a refrigerant and which is used for household or commercial purposes, including any air conditioner, refrigerator, chiller, or freezer.

(2) Baseline year
The term “baseline year” means—
(A) the calendar year 1986, in the case of any class I substance listed in Group I or II under section 7671a(a) of this title,
(B) the calendar year 1989, in the case of any class I substance listed in Group III, IV, or V under section 7671a(a) of this title, and
(C) a representative calendar year selected by the Administrator, in the case of—
(i) any substance added to the list of class I substances after the publication of the initial list under section 7671a(a) of this title, and
(ii) any class II substance.

(3) Class I substance
The term “class I substance” means each of the substances listed as provided in section 7671a(a) of this title.

(4) Class II substance
The term “class II substance” means each of the substances listed as provided in section 7671a(b) of this title.

(5) Commissioner
The term “Commissioner” means the Commissioner of the Food and Drug Administration.

(6) Consumption
The term “consumption” means, with respect to any substance, the amount of that substance produced in the United States, plus the amount imported, minus the amount exported to Parties to the Montreal Protocol. Such term shall be construed in a manner consistent with the Montreal Protocol.

(7) Import
The term “import” means to land on, bring into, or introduce into, or attempt to land on,
bring into, or introduce into, any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the meaning of the customs laws of the United States.

(8) Medical device

The term "medical device" means any device (as defined in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321)), diagnostic product, drug (as defined in the Federal Food, Drug, and Cosmetic Act), and drug delivery system—

(A) if such device, product, drug, or drug delivery system utilizes a class I or class II substance for which no safe and effective alternative has been developed, and where necessary, approved by the Commissioner; and

(B) if such device, product, drug, or drug delivery system, has, after notice and opportunity for public comment, been approved and determined to be essential by the Commissioner in consultation with the Administrator.

(9) Montreal Protocol

The terms “Montreal Protocol” and “the Protocol” mean the Montreal Protocol on Substances that Deplete the Ozone Layer, a protocol to the Vienna Convention for the Protection of the Ozone Layer, including adjustments adopted by Parties thereto and amendments that have entered into force.

(10) Ozone-depletion potential

The term “ozone-depletion potential” means a factor established by the Administrator to reflect the ozone-depletion potential of a substance, on a mass per kilogram basis, as compared to chlorofluorocarbon-11 (CFC-11). Such factor shall be based upon the substance’s atmospheric lifetime, the molecular weight of bromine and chlorine, and the substance’s ability to be photolytically disassociated, and upon other factors determined to be an accurate measure of relative ozone-depletion potential.

(11) Produce, produced, and production

The terms “produce”, “produced”, and “production”, refer to the manufacture of a substance from any raw material or feedstock chemical, but such terms do not include—

(A) the manufacture of a substance that is used and entirely consumed (except for trace quantities) in the manufacture of other chemicals, or

(B) the reuse or recycling of a substance.

\$7671a. Listing of class I and class II substances

(a) List of class I substances

Within 60 days after November 15, 1990, the Administrator shall publish an initial list of class I substances, which list shall contain the following substances:

Group I
- chlorofluorocarbon-11 (CFC–11)
- chlorofluorocarbon-12 (CFC–12)
- chlorofluorocarbon-113 (CFC–113)
- chlorofluorocarbon-114 (CFC–114)
- chlorofluorocarbon-115 (CFC–115)

Group II
- halon-1211
- halon-1301
- halon-2402

Group III
- chlorofluorocarbon-13 (CFC–13)
- chlorofluorocarbon-111 (CFC–111)
- chlorofluorocarbon-112 (CFC–112)
- chlorofluorocarbon-211 (CFC–211)
- chlorofluorocarbon-212 (CFC–212)
- chlorofluorocarbon-213 (CFC–213)
- chlorofluorocarbon-214 (CFC–214)
- chlorofluorocarbon-215 (CFC–215)
- chlorofluorocarbon-216 (CFC–216)
- chlorofluorocarbon-217 (CFC–217)

Group IV
- carbon tetrachloride

Group V
- methyl chloroform

The initial list under this subsection shall also include the isomers of the substances listed above, other than 1,1,2-trichloroethane (an isomer of methyl chloroform). Pursuant to subsection (c) of this section, the Administrator shall add to the list of class I substances any other substance that the Administrator finds causes or contributes significantly to harmful effects on the stratospheric ozone layer. The Administrator shall, pursuant to subsection (c) of this section, add to such list all substances that the Administrator determines have an ozone depletion potential of 0.2 or greater.

(b) List of class II substances

Simultaneously with publication of the initial list of class I substances, the Administrator shall publish an initial list of class II substances, which shall contain the following substances:

- hydrochlorofluorocarbon-21 (HCFC–21)
- hydrochlorofluorocarbon-22 (HCFC–22)
- hydrochlorofluorocarbon-31 (HCFC–31)
- hydrochlorofluorocarbon-121 (HCFC–121)
- hydrochlorofluorocarbon-122 (HCFC–122)
- hydrochlorofluorocarbon-123 (HCFC–123)
- hydrochlorofluorocarbon-124 (HCFC–124)
- hydrochlorofluorocarbon-125 (HCFC–125)
- hydrochlorofluorocarbon-131 (HCFC–131)
- hydrochlorofluorocarbon-132 (HCFC–132)
- hydrochlorofluorocarbon-133 (HCFC–133)
- hydrochlorofluorocarbon-141 (HCFC–141)
- hydrochlorofluorocarbon-142 (HCFC–142)
- hydrochlorofluorocarbon-221 (HCFC–221)
- hydrochlorofluorocarbon-222 (HCFC–222)
- hydrochlorofluorocarbon-223 (HCFC–223)
- hydrochlorofluorocarbon-224 (HCFC–224)
- hydrochlorofluorocarbon-225 (HCFC–225)
- hydrochlorofluorocarbon-226 (HCFC–226)
- hydrochlorofluorocarbon-227 (HCFC–227)
- hydrochlorofluorocarbon-228 (HCFC–228)

REFERENCES IN TEXT

The customs laws of the United States, referred to in par. (7), are classified generally to Title 19, Customs Duties.

The Federal Food, Drug, and Cosmetic Act, referred to in par. (8), is act June 25, 1938, ch. 675, 52 Stat. 1040, as amended, which is classified generally to chapter 9 (§301 et seq.) of Title 21, Food and Drugs. For complete classification of this Act to the Code, see section 301 of Title 21 and Tables.
(d) New listed substances

In the case of any substance added to the list of class I or class II substances after publication of the initial list of such substances under this section, the Administrator may extend any schedule or compliance deadline contained in section 7671c or 7671d of this title to a later date than specified in such sections if such schedule or deadline is unattainable, considering when such substance is added to the list. No extension under this subsection may extend the date for termination of production of any class I substance to a date more than 7 years after January 1 of the year after the year in which the substance is added to the list of class I substances. No extension under this subsection may extend the date for termination of production of any class II substance to a date more than 10 years after January 1 of the year after the year in which the substance is added to the list of class II substances.

(e) Ozone-depletion and global warming potential

Simultaneously with publication of the lists under this section and simultaneously with any addition to either of such lists, the Administrator shall assign to each listed substance a numerical value representing the substance’s ozone-depletion potential. In addition, the Administrator shall publish the chlorine and bromine loading potential and the atmospheric lifetime of each listed substance. One year after November 15, 1990 (one year after the addition of a substance to either of such lists in the case of a substance added after the publication of the initial lists of such substances) and after notice and opportunity for public comment, the Administrator shall publish the global warming potential of each listed substance. The preceding sentence shall not be construed to be the basis of any additional regulation under this chapter. In the case of the substances referred to in table 1, the ozone-depletion potential shall be as specified in table 1, unless the Administrator adjusts the substance’s ozone-depletion potential based on criteria referred to in section 7671(10) of this title.

1 So in original. Probably should be section "7671f".
(a) Regulations  
Within 270 days after November 15, 1990, the Administrator shall amend the regulations of the Administrator in effect on such date regarding monitoring and reporting of class I and class II substances. Such amendments shall conform to the requirements of this section. The amended regulations shall include requirements with respect to the time and manner of monitoring and reporting as required under this section.

(b) Production, import, and export level reports  
On a quarterly basis, or such other basis (not less than annually) as determined by the Administrator, each person who produced, imported, or exported a class I or class II substance shall file a report with the Administrator setting forth the amount of the substance that such person produced, imported, and exported during the preceding reporting period. Each such report shall be signed and attested by a responsible officer. No such report shall be required from a person after April 1 of the calendar year after such person permanently ceases production, importation, and exportation of the substance and so notifies the Administrator in writing.

(c) Baseline reports for class I substances  
Unless such information has previously been reported to the Administrator, on the date on which the first report under subsection (b) of this section is required to be filed, each person who produced, imported, or exported a class I substance (other than a substance added to the list of class I substances after the publication of the initial list of such substances under this section) shall file a report with the Administrator setting forth the amount of such substance that such person produced, imported, and exported during the baseline year. In the case of a substance added to the list of class I substances after publication of the initial list of such substances under this section, the regulations shall require that each person who produced, imported, or exported such substance shall file a report with the Administrator within 180 days after the date on which such substance is added to the list, setting forth the amount of the substance that such person produced, imported, and exported in the baseline year.

(d) Monitoring and reports to Congress  
(1) The Administrator shall monitor and, not less often than every 3 years following November 15, 1990, submit a report to Congress on the production, use and consumption of class I and class II substances. Such report shall include data on domestic production, use and consumption, and an estimate of worldwide production, use and consumption of such substances. Not less frequently than every 6 years the Administrator shall report to Congress on the environmental and economic effects of any stratospheric ozone depletion.

(2) The Administrators of the National Aeronautics and Space Administration and the National Oceanic and Atmospheric Administration shall monitor, and not less often than every 3 years following November 15, 1990, submit a report to Congress on the current average atmospheric concentration of chlorine and bromine and on the level of stratospheric ozone depletion. Such reports shall include updated projections of—
(A) peak chlorine loading;
(B) the rate at which the atmospheric abundance of chlorine is projected to decrease after the year 2000; and
(C) the date by which the atmospheric abundance of chlorine is projected to return to a level of two parts per billion.

Such updated projections shall be made on the basis of current international and domestic controls on substances covered by this subchapter as well as on the basis of such controls supplemented by a year 2000 global phase out of all halocarbon emissions (the base case). It is the purpose of the Congress through the provisions of this section to monitor closely the production and consumption of class II substances to assure that the production and consumption of such substances will not:
(i) increase significantly the peak chlorine loading that is projected to occur under the base case established for purposes of this section;
(ii) reduce significantly the rate at which the atmospheric abundance of chlorine is projected to decrease under the base case; or
(iii) delay the date by which the average atmospheric concentration of chlorine is projected under the base case to return to a level of two parts per billion.

(e) Technology status report in 2015  
The Administrator shall review, on a periodic basis, the progress being made in the development of alternative systems or products necessary to manufacture and operate appliances without class II substances. If the Administrator finds, after notice and opportunity for public comment, that as a result of technological development problems, the development of such alternative systems or products will not occur within the time necessary to provide for the manufacture of such equipment without such substances prior to the applicable deadlines under section 7671d of this title, the Adminis-
If, in consultation with the Administrators of the National Aeronautics and Space Administration and the National Oceanic and Atmospheric Administration, and after notice and opportunity for public comment, the Administrator determines that the global production, consumption, and use of class II substances are projected to contribute to an atmospheric chlorine loading in excess of the base case projections by more than 5 parts per billion, the Administrator shall so inform the Congress immediately. The determination referred to in the preceding sentence shall be based on the monitoring under subsection (d) of this section and updated not less often than every 3 years.

(July 14, 1955, ch. 390, title VI, §603, as added Pub. L. 101–549, title VI, §602(a), Nov. 15, 1990, 104 Stat. 2653.)

**TERMINATION OF REPORTING REQUIREMENTS**

For termination, effective May 15, 2000, of provisions in subsec. (d)(1) of this section relating to submittal of triennial report to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 12th item on page 162 of House Document No. 103–7.

**METHANE STUDIES**

Section 603 of Pub. L. 101–549 provided that:

"(a) ECONOMICALLY JUSTIFIED ACTIONS.—Not later than 2 years after enactment of this Act [Nov. 15, 1990], the Administrator shall prepare and submit to the Congress a report that identifies activities, substances, processes, or combinations thereof that could reduce methane emissions and that are economically and technologically justified with and without consideration of environmental benefit.

"(b) DOMESTIC METHANE SOURCE INVENTORY AND CONTROL.—Not later than 2 years after the enactment of this Act [Nov. 15, 1990], the Administrator, in consultation and coordination with the Secretary of Energy and the Secretary of Agriculture, shall prepare and submit to the Congress reports on each of the following:

1. Methane emissions associated with natural gas extraction, transportation, distribution, storage, and use. Such report shall include an inventory of methane emissions associated with such activities within the United States. Such emissions include, but are not limited to, accidental and intentional releases from such activities and greenhouse gas, pipeline, processing facilities, and gas burners. The report shall also include an inventory of methane generation with such activities.

2. Methane emissions associated with coal extraction, transportation, distribution, storage, and use. Such report shall include an inventory of methane emissions associated with such activities within the United States. Such emissions include, but are not limited to, accidental and intentional releases from mining shafts, degasification wells, gas recovery wells and equipment, and from the processing and use of coal. The report shall also include an inventory of methane generation with such activities.

3. Methane emissions associated with management of solid waste. Such report shall include an inventory of methane emissions associated with such activities within the United States, including storage, treatment, and disposal.

4. Methane emissions associated with agriculture. Such report shall include an inventory of methane emissions associated with rice and livestock production in the United States.

5. Methane emissions associated with biomass burning. Such report shall include an inventory of methane emissions associated with the intentional burning of agricultural wastes, wood, grasslands, and forests.

6. Other methane emissions associated with human activities. Such report shall identify and inventory other domestic sources of methane that are deemed by the Administrator and other such agencies to be significant.

(c) INTERNATIONAL STUDIES.—Not later than 2 years after the enactment of this Act [Nov. 15, 1990], the Administrator shall prepare and submit to the Congress a report on methane emissions from countries other than the United States. Such report shall include inventories of methane emissions associated with the activities listed in subsection (b).

(d) PREVENTING INCREASES IN METHANE CONCENTRATIONS.—Not later than 2 years after the enactment of this Act [Nov. 15, 1990], the Administrator shall prepare and submit to the Congress a report that analyzes the potential for preventing an increase in atmospheric concentrations of methane from activities and sources in other countries. Such report shall identify and evaluate the technical options for reducing methane emission from such activities and sources that are deemed by the Administrator in consultation with other relevant Federal agencies and departments to be significant and shall include an evaluation of costs. The report shall identify the emissions reductions that would need to be achieved to prevent increasing atmospheric concentrations of methane. The report shall also identify technology transfer programs that could promote methane emissions reductions in lesser developed countries.

(e) STUDY OF MEASURES TO LIMIT GROWTH IN METHANE CONCENTRATIONS.—Not later than 2 years after the completion of the studies in subsections (b), (c), and (d), the Administrator shall prepare and submit to the Congress a report that presents options outlining measures that could be implemented to stop or reduce the growth in atmospheric concentrations of methane from sources within the United States referred to in paragraphs (1) through (6) of subsection (b). The report shall identify and evaluate the technical options for reducing methane emissions from each of the activities listed in subsection (b), as well as other activities or sources deemed by such agencies to be significant, and shall include an evaluation of costs, technology, safety, energy, and other factors. The study shall be based on the other studies under this section. The study shall also identify programs of the United States and international lending agencies that could be used to induce lesser developed countries to undertake measures that will reduce methane emissions and the resource needs of such programs.

(f) INFORMATION GATHERING.—In carrying out the studies under this section, the provisions and requirements of section 114 of the Clean Air Act (42 U.S.C. 7414) shall be available for purposes of obtaining information to carry out such studies.

(g) CONSULTATION AND COORDINATION.—In preparing the studies under this section the Administrator shall consult and coordinate with the Secretary of Energy, the Administrators of the National Aeronautics and Space Administration and the National Oceanic and Atmospheric
§ 7671c. Phase-out of production and consumption of class I substances

(a) Production phase-out

Effective on January 1 of each year specified in Table 2, it shall be unlawful for any person to produce any class I substance in an annual quantity greater than the relevant percentage specified in Table 2. The percentages in Table 2 refer to a maximum allowable production as a percentage of the quantity of the substance produced by the person concerned in the baseline year.

(b) Termination of production of class I substances

Effective January 1, 2000 (January 1, 2002 in the case of methyl chloroform), it shall be unlawful for any person to produce any amount of a class I substance.

(c) Regulations regarding production and consumption of class I substances

The Administrator shall promulgate regulations within 10 months after November 15, 1990, phasing out the production of class I substances in accordance with this section and other applicable provisions of this subchapter. The Administrator shall also promulgate regulations to ensure that the consumption of class I substances in the United States is phased out and terminated in accordance with the same schedule (subject to the same exceptions and other provisions) as is applicable to the phase-out and termination of production of class I substances under this subchapter.

(d) Exceptions for essential uses of methyl chloroform, medical devices, and aviation safety

(1) Essential uses of methyl chloroform

Notwithstanding the termination of production required by subsection (b) of this section, the Administrator, after notice and opportunity for public comment, may, to the extent such action is consistent with the Montreal Protocol, authorize the production of limited quantities of methyl chloroform solely for use in essential applications (such as nondestructive testing for metal fatigue and corrosion of existing airplane engines and airplane parts susceptible to metal fatigue) for which no safe and effective substitute is available. Notwithstanding this paragraph, the authority to produce methyl chloroform for use in medical devices shall be provided in accordance with paragraph (2).

(2) Medical devices

Notwithstanding the termination of production required by subsection (b) of this section, the Administrator, after notice and opportunity for public comment, shall, to the extent such action is consistent with the Montreal Protocol, authorize the production of limited quantities of class I substances solely for use in medical devices if such authorization is determined by the Commissioner, in consultation with the Administrator, to be necessary for use in medical devices.

(3) Aviation safety

(A) Notwithstanding the termination of production required by subsection (b) of this section, the Administrator, after notice and opportunity for public comment, may, to the extent such action is consistent with the Montreal Protocol, authorize the production of limited quantities of halon-1211 (bromochlorodifluoromethane), halon-1301 (bromotrifluoromethane), and halon-2402 (dichlorotrifluoroethane) solely for purposes of aviation safety if the Administrator of the Federal Aviation Administration, in consultation with the Administrator, determines that no safe and effective substitute has been developed and that such authorization is necessary for aviation safety purposes.

(B) The Administrator of the Federal Aviation Administration shall, in consultation with the Administrator, examine whether safe and effective substitutes for methyl chloroform or alternative techniques will be available for nondestructive testing for metal fatigue and corrosion of existing airplane engines and airplane parts susceptible to metal fatigue and whether an exception for such uses of methyl chloroform under this paragraph will be necessary for purposes of airplane safety after January 1, 2005 and provide a report to Congress in 1998.

(4) Cap on certain exceptions

Under no circumstances may the authority set forth in paragraphs (1), (2), and (3) of subsection (d) of this section be applied to authorize any person to produce a class I substance in annual quantities greater than 10 percent of that produced by such person during the baseline year.

(5) Sanitation and food protection

To the extent consistent with the Montreal Protocol’s quarantine and preshipment provisions, the Administrator shall exempt the production, importation, and consumption of methyl bromide to fumigate commodities entering or leaving the United States or any State (or political subdivision thereof) for purposes of compliance with Animal and Plant Health Inspection Service requirements or with any international, Federal, State, or local sanitation or food protection standard.
§ 7671c

(6) Critical uses

To the extent consistent with the Montreal Protocol, the Administrator, after notice and the opportunity for public comment, and after consultation with other departments or instrumentalities of the Federal Government having regulatory authority related to methyl bromide, including the Secretary of Agriculture, may exempt the production, importation, and consumption of methyl bromide for critical uses.

(e) Developing countries

(1) Exception

Notwithstanding the phase-out and termination of production required under subsection (a) and (b) of this section, the Administrator, after notice and opportunity for public comment, may, consistent with the Montreal Protocol, authorize the production of limited quantities of a class I substance in excess of the amounts otherwise allowable under subsection (a) or (b) of this section, or both, solely for export to, and use in, developing countries that are Parties to the Montreal Protocol and are operating under article 5 of such Protocol. Any production authorized under this paragraph shall be solely for purposes of satisfying the basic domestic needs of such countries.

(2) Cap on exception

(A) Under no circumstances may the authority set forth in paragraph (1) be applied to authorize any person to produce a class I substance in any year for which a production percentage is specified in Table 2 of subsection (a) of this section in an annual quantity greater than the specified percentage, plus an amount equal to 10 percent of the amount produced by such person in the baseline year.

(B) Under no circumstances may the authority set forth in paragraph (1) be applied to authorize any person to produce a class I substance in the applicable termination year referred to in subsection (b) of this section, or in any year thereafter, in an annual quantity greater than 15 percent of the baseline quantity of such substance produced by such person.

(C) An exception authorized under this subsection shall terminate no later than January 1, 2010 (2012 in the case of methyl chloroform).

(3) Methyl bromide

Notwithstanding the phaseout and termination of production of methyl bromide pursuant to subsection (h) of this section, the Administrator may, consistent with the Montreal Protocol, authorize the production of limited quantities of methyl bromide, solely for use in developing countries that are Parties to the Copenhagen Amendments to the Montreal Protocol.

(f) National security

The President may, to the extent such action is consistent with the Montreal Protocol, issue such orders regarding production and use of CFC-114 (chlorofluorocarbon-114), halon-1211, halon-1301, and halon-2402, at any specified site or facility or on any vessel as may be necessary to protect the national security interests of the United States if the President finds that adequate substitutes are not available and that the production and use of such substance is necessary to protect national security interests. Such orders may include, where necessary to protect such interests, an exemption from any prohibition or requirement contained in this subchapter. The President shall notify the Congress within 30 days of the issuance of an order under this paragraph providing for any such exemption. Such notification shall include a statement of the reasons for the granting of the exemption. An exemption under this paragraph shall be for a specified period which may not exceed one year. Additional exemptions may be granted, each upon the President’s issuance of a new order under this paragraph. Each such additional exemption shall be for a specified period which may not exceed one year. No exemption shall be granted under this paragraph due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation.

(g) Fire suppression and explosion prevention

(1) Notwithstanding the production phase-out set forth in subsection (a) of this section, the Administrator, after notice and opportunity for public comment, may, to the extent such action is consistent with the Montreal Protocol, authorize the production of limited quantities of halon-1211, halon-1301, and halon-2402 in excess of the amount otherwise permitted pursuant to the schedule under subsection (a) of this section for purposes of fire suppression or explosion prevention if the Administrator, in consultation with the Administrator of the United States Fire Administration, determines that no safe and effective substitute has been developed and that such authorization is necessary for fire suppression or explosion prevention purposes. The Administrator shall not authorize production under this paragraph for purposes of fire safety or explosion prevention training or testing of fire suppression or explosion protection equipment. In no event shall the Administrator grant an exception under this paragraph that permits production after December 31, 1999.

(2) The Administrator shall periodically monitor and assess the status of efforts to obtain substitutes for the substances referred to in paragraph (1) for purposes of fire suppression or explosion prevention and the probability of such substitutes being available by December 31, 1999. The Administrator, as part of such assessment, shall consider any relevant assessments under the Montreal Protocol and the actions of the Parties pursuant to Article 2B of the Montreal Protocol in identifying essential uses and in permitting a level of production or consumption that is necessary to satisfy such uses for which no adequate alternatives are available. The Administrator shall report to Congress the results of such assessment in 1994 and again in 1998.

(3) Notwithstanding the termination of production set forth in subsection (b) of this section, the Administrator, after notice and oppor-
tunity for public comment, may, to the extent consistent with the Montreal Protocol, authorize the production of limited quantities of halon-1211, halon-1301, and halon-2402 in the period after December 31, 1999, and before December 31, 2004, solely for purposes of fire suppression or explosion prevention in association with domestic production of crude oil and natural gas energy supplies on the North Slope of Alaska, if the Administrator, in consultation with the Administrator of the United States Fire Administration, determines that no safe and effective substitute has been developed and that such authorization is necessary for fire suppression and explosion prevention purposes. The Administrator shall not authorize production under the paragraph for purposes of fire safety or explosion prevention training or testing of fire suppression or explosion prevention equipment. In no event shall the Administrator authorize under this paragraph any person to produce any such halon in an amount greater than 3 percent of that produced by such person during the baseline year.

(h) Methyl bromide

Notwithstanding subsections (b) and (d) of this section, the Administrator shall not terminate production of methyl bromide prior to January 1, 2008. The Administrator shall promulgate rules for reductions in, and terminate the production, importation, and consumption of, methyl bromide under a schedule that is in accordance with, but not more stringent than, the phaseout schedule of the Montreal Protocol Treaty as in effect on October 21, 1998.

AMENDMENTS

§ 7671d. Phase-out of production and consumption of class II substances

(a) Restriction of use of class II substances

Effective January 1, 2015, it shall be unlawful for any person to introduce into interstate commerce or use any class II substance unless such substance—
(1) has been used, recovered, and recycled;
(2) is used and entirely consumed (except for trace quantities) in the production of other chemicals;
(3) is used as a refrigerant in appliances manufactured prior to January 1, 2020; or
(4) is listed as acceptable for use as a fire suppression agent for nonresidential applications in accordance with section 7671k(c) of this title.

As used in this subsection, the term “refrigerant” means any class II substance used for heat transfer in a refrigerating system.

(b) Production phase-out

(1) Effective January 1, 2015, it shall be unlawful for any person to produce any class II substance in an annual quantity greater than the quantity of such substance produced by such person during the baseline year.

(2) Effective January 1, 2030, it shall be unlawful for any person to produce any class II substance.

(c) Regulations regarding production and consumption of class II substances

By December 31, 1999, the Administrator shall promulgate regulations phasing out the production, and restricting the use, of class II substances in accordance with this section, subject to any acceleration of the phase-out of production under section 7671e of this title. The Administrator shall also promulgate regulations to ensure that the consumption of class II substances in the United States is phased out and terminated in accordance with the same schedule (subject to the same exceptions and other provisions) as is applicable to the phase-out and termination of production of class II substances under this subchapter.

(d) Exceptions

(1) Medical devices

(A) In general

Notwithstanding the termination of production required under subsection (b)(2) of this section and the restriction on use referred to in subsection (a) of this section, the Administrator, after notice and opportunity for public comment, shall, to the extent such action is consistent with the Montreal Protocol, authorize the production and use of limited quantities of class II substances solely for purposes of use in medical devices if such authorization is determined by the Commissioner, in consultation with the Administrator, to be necessary for use in medical devices.

(B) Cap on exception

Under no circumstances may the authority set forth in subparagraph (A) be applied to authorize any person to produce a class II substance in annual quantities greater than 10 percent of that produced by such person during the baseline year.

(2) Developing countries

(A) In general

Notwithstanding the provisions of subsection (a) or (b) of this section, the Administrator, after notice and opportunity for public comment, may authorize the production of limited quantities of a class II substance in excess of the quantities otherwise permitted under such provisions solely for export to and use in developing countries that are Parties to the Montreal Protocol, as determined by the Administrator. Any production authorized under this subsection shall be solely for purposes of satisfying the basic domestic needs of such countries.

(B) Cap on exception

(i) Under no circumstances may the authority set forth in subparagraph (A) be ap-
§ 7671e. Accelerated schedule

(a) In general

The Administrator shall promulgate regulations, after notice and opportunity for public comment, which establish a schedule for phasing out the production and consumption of class I and class II substances (or use of class II substances) that is more stringent than set forth in section 7671f or 7671d of this title, or both, if—

(1) based on an assessment of credible current scientific information (including any assessment under the Montreal Protocol) regarding harmful effects on the stratospheric ozone layer associated with a class I or class II substance, the Administrator determines that such more stringent schedule may be necessary to protect human health and the environment against such effects,

(2) based on the availability of substitutes for listed substances, the Administrator determines that such more stringent schedule is practicable, taking into account technological achievability, safety, and other relevant factors, or

(3) the Montreal Protocol is modified to include a schedule to control or reduce production, consumption, or use of any substance more rapidly than the applicable schedule under this subchapter.

In making any determination under paragraphs (1) and (2), the Administrator shall consider the status of the period remaining under the applicable schedule under this subchapter.

(b) Petition

Any person may petition the Administrator to promulgate regulations under this section. The Administrator shall grant or deny the petition within 180 days after receipt of any such petition. If the Administrator denies the petition, the Administrator shall publish an explanation of why the petition was denied. If the Administrator grants such petition, such final regulations shall be promulgated within 1 year. Any petition under this subsection shall include a showing by the petitioner that there are data adequate to support the petition. If the Administrator determines that information is not sufficient to make a determination under this subsection, the Administrator shall use any authority available to the Administrator, under any law administered by the Administrator, to acquire such information.

AMENDMENTS

§ 7671f. Exchange authority

(a) Transfers

The Administrator shall, within 10 months after November 15, 1990, promulgate rules under this subchapter providing for the issuance of allowances for the production of class I and II substances in accordance with the requirements of this subchapter and governing the transfer of such allowances. Such rules shall insure that the transactions under the authority of this section will result in greater total reductions in the production in each year of class I and class II substances than would occur in that year in the absence of such transactions.

(b) Interpollutant transfers

(1) The rules under this section shall permit a production allowance for a substance for any year to be transferred for a production allowance for another substance for the same year on an ozone depletion weighted basis.

(2) Allowances for substances in each group of class I substances (as listed pursuant to section 7671a of this title) may only be transferred for allowances for other substances in the same Group.

(c) Trades with other persons

The rules under this section shall permit 2 or more persons to transfer production allowances (including interpollutant transfers which meet the requirements of subsections (a) and (b) of this section) if the transferor of such allowances will be subject, under such rules, to an enforceable and quantifiable reduction in annual production which—

(1) exceeds the reduction otherwise applicable to the transferor under this subchapter,

(2) exceeds the production allowances transferred to the transferee, and

(3) would not have occurred in the absence of such transaction.

(d) Consumption

The rules under this section shall also provide for the issuance of consumption allowances in accordance with the requirements of this subchapter and for the trading of such allowances in the same manner as is applicable under this section to the trading of production allowances under this section.
§7671g. National recycling and emission reduction program

(a) In general

(1) The Administrator shall, by not later than January 1, 1992, promulgate regulations establishing standards and requirements regarding the use and disposal of class I substances during the service, repair, or disposal of appliances and industrial process refrigeration. Such standards and requirements shall become effective not later than 12 months after promulgation of the regulations.

(2) The Administrator shall, within 4 years after November 15, 1990, promulgate regulations establishing standards and requirements regarding use and disposal of class I and II substances not covered by paragraph (1), including the use and disposal of class II substances during service, repair, or disposal of appliances and industrial process refrigeration. Such standards and requirements shall become effective not later than 12 months after promulgation of the regulations.

(3) The regulations under this subsection shall include requirements that—

(A) reduce the use and emission of such substances to the lowest achievable level, and

(B) maximize the recapture and recycling of such substances.

Such regulations may include requirements to use alternative substances (including substances which are not class I or class II substances) or to minimize use of class I or class II substances, or to promote the use of safe alternatives pursuant to section 7671k of this title or any combination of the foregoing.

(b) Safe disposal

The regulations under subsection (a) of this section shall establish standards and requirements for the safe disposal of class I and II substances. Such regulations shall include each of the following—

(1) Requirements that class I or class II substances contained in bulk in appliances, machines or other goods shall be removed from each such appliance, machine or other good prior to the disposal of such items or their delivery for recycling.

(2) Requirements that any appliance, machine or other good containing a class I or class II substance in bulk shall not be manufactured, sold, or distributed in interstate commerce or offered for sale or distribution in interstate commerce unless it is equipped with a servicing aperture or an equally effective design feature which will facilitate the recapture of such substance during service and repair or disposal of such item.

(3) Requirements that any product in which a class I or class II substance is incorporated so as to constitute an inherent element of such product shall be disposed of in a manner that reduces, to the maximum extent practicable, the release of such substance into the environment. If the Administrator determines that the application of this paragraph to any product would result in producing only insignificant environmental benefits, the Administrator shall include in such regulations an exception for such product.

(c) Prohibitions

(1) Effective July 1, 1992, it shall be unlawful for any person, in the course of maintaining, servicing, repairing, or disposing of an appliance or industrial process refrigeration, to knowingly vent or otherwise knowingly release or dispose of any class I or class II substance used as a refrigerant in such appliance (or industrial process refrigeration) in a manner which permits such substance to enter the environment. De minimis releases associated with good faith attempts to recapture and recycle or safely dispose of any such substance shall not be subject to the prohibition set forth in the preceding sentence.

(2) Effective 5 years after November 15, 1990, paragraph (l) shall also apply to the venting, release, or disposal of any substance for a class I or class II substance by any person maintaining, servicing, repairing, or disposing of an appliance or industrial process refrigeration which contains and uses as a refrigerant any such substance, unless the Administrator determines that venting, releasing, or disposing of such substance does not pose a threat to the environment. For purposes of this paragraph, the term “appliance” includes any device which contains and uses as a refrigerant a substitute substance and which is used for household or commercial purposes, including any air conditioner, refrigerator, chiller, or freezer.

§7671h. Servicing of motor vehicle air conditioners

(a) Regulations

Within 1 year after November 15, 1990, the Administrator shall promulgate regulations in accordance with this section establishing standards and requirements regarding the servicing of motor vehicle air conditioners.

(b) Definitions

As used in this section—

(1) The term “refrigerant” means any class I or class II substance used in a motor vehicle air conditioner. Effective 5 years after November 15, 1990, the term “refrigerant” shall also include any substitute substance.

(2)(A) The term “approved refrigerant recycling equipment” means equipment certified by the Administrator (or an independent standards testing organization approved by the Administrator) to meet the standards established by the Administrator and applicable to equipment for the extraction and reclaimation of refrigerant from motor vehicle air conditioners. Such standards shall, at a minimum, be at least as stringent as the standards of the Society of Automotive Engineers in effect as of November 15, 1990, and applicable to such equipment (SAE standard J-1990).

(B) Equipment purchased before the proposal of regulations under this section shall be considered certified if it is substantially identical.
to equipment certified as provided in subpara-
graph (A).

(3) The term “properly using” means, with
respect to approved refrigerant recycling
equipment, using such equipment in con-
formity with standards established by the Adminis-
trator and applicable to the use of such equip-
ment. Such standards shall, at a minimum, be
at least as stringent as the standards of the
Society of Automotive Engineers in effect as
of November 15, 1990, and applicable to the use
of such equipment (SAE standard J–1989).

(4) The term “properly trained and cer-
tified” means training and certification in the
proper use of approved refrigerant recycling
equipment for motor vehicle air conditioners
in conformity with standards established by
the Administrator and applicable to the per-
formance of service on motor vehicle air condi-
tioners. Such standards shall, at a mini-
mum, be at least as stringent as specified, as
of November 15, 1990, in SAE standard J–1989
under the certification program of the Na-
tional Institute for Automotive Service Excel-
lence (ASE) or under a similar program such
as the training and certification program of
the Mobile Air Conditioning Society (MACS).

(c) Servicing motor vehicle air conditioners

Effective January 1, 1992, no person repairing
or servicing motor vehicles for consideration
may perform any service on a motor vehicle air
conditioner involving the refrigerant for such
air conditioner without properly using approved
refrigerant recycling equipment and no such
person may perform such service unless such
person has been properly trained and certified.
The requirements of the previous sentence shall
not apply until January 1, 1993 in the case of a
person repairing or servicing motor vehicles for
consideration at an entity which performed
service on fewer than 100 motor vehicle air con-
ditioners during calendar year 1990 and if such
person so certifies, pursuant to subsection (d)(2)
of this section, to the Administrator by Janu-
ary 1, 1992.

(d) Certification

(1) Effective 2 years after November 15, 1990,
each person performing service on motor vehicle
air conditioners for consideration shall certify
to the Administrator either—
(A) that such person has acquired, and is
properly using, approved refrigerant recycling
equipment in service on motor vehicle air condi-
tioners involving refrigerant and that each
individual authorized by such person to per-
form such service is properly trained and cer-
tified; or
(B) that such person is performing such serv-
ice at an entity which serviced fewer than 100
motor vehicle air conditioners in 1991.

(2) Effective January 1, 1993, each person who
certified under paragraph (1)(B) shall submit a
certification under paragraph (1)(A).

(3) Each certification under this subsection
shall contain the name and address of the person
certifying under this subsection and the serial
number of each unit of approved recycling
equipment acquired by such person and shall be
signed and attested by the owner or another re-
sponsible officer. Certifications under paragraph
(1)(A) may be made by submitting the required
information to the Administrator on a standard
form provided by the manufacturer of certified
refrigerant recycling equipment.

(e) Small containers of class I or class II sub-
stances

Effective 2 years after November 15, 1990, it
shall be unlawful for any person to sell or dis-
tribute, or offer for sale or distribution, in inter-
state commerce any person (other than a per-
son performing service for consideration on
motor vehicle air-conditioning systems in com-
pliance with this section) any class I or class II
substance that is suitable for use as a refrig-
erator in a motor vehicle air-conditioning system
and that is in a container which contains less
than 20 pounds of such refrigerant.

(July 14, 1955, ch. 360, title VI, § 609, as added
Pub. L. 101–549, title VI, §602(a), Nov. 15, 1990, 104
Stat. 2662.)

§7671i. Nonessential products containing chloro-
fluorocarbons

(a) Regulations

The Administrator shall promulgate regula-
tions to carry out the requirements of this sec-
tion within 1 year after November 15, 1990.

(b) Nonessential products

The regulations under this section shall iden-
tify nonessential products that release class I
substances into the environment (including any
release occurring during manufacture, use, stor-
age, or disposal) and prohibit any person from
selling or distributing any such product, or of-
fering any such product for sale or distribution,
in interstate commerce. At a minimum, such
prohibition shall apply to—

(1) chlorofluorocarbon-propelled plastic
party streamers and noise horns,

(2) chlorofluorocarbon-containing cleaning
fluids for noncommercial electronic and pho-
tographic equipment, and

(3) other consumer products that are deter-
mined by the Administrator—
(A) to release class I substances into the
environment (including any release occur-
rning during manufacture, use, storage, or
disposal), and
(B) to be nonessential.

In determining whether a product is non-
essential, the Administrator shall consider the
purpose or intended use of the product, the tech-
nological availability of substitutes for such
product and for such class I substance, safety,
health, and other relevant factors.

(c) Effective date

Effective 24 months after November 15, 1990, it
shall be unlawful for any person to sell or dis-
tribute, or offer for sale or distribution, in inter-
state commerce any nonessential product to
which regulations under subsection (a) of this
section implementing subsection (b) of this sec-
tion are applicable.

(d) Other products

(1) Effective January 1, 1994, it shall be unlaw-
ful for any person to sell or distribute, or offer
for sale or distribution, in interstate commerce—
(A) any aerosol product or other pressurized
dispenser which contains a class II substance; or
(B) any plastic foam product which contains,
or is manufactured with, a class II substance.
(2) The Administrator is authorized to grant
exceptions from the prohibition under subpara-
graph (A) of paragraph (1) where—
(A) the use of the aerosol product or pressur-
ized dispenser is determined by the Adminis-
trator to be essential as a result of flammabil-
ity or worker safety concerns, and
(B) the only available alternative to use of a
class II substance is use of a class I substance
which legally could be substituted for such
class II substance.
(3) Subparagraph (B) of paragraph (1) shall not
apply to—
(A) a foam insulation product, or
(B) an integral skin, rigid, or semi-rigid
foam utilized to provide for motor vehicle
safety in accordance with Federal Motor Vehi-
cle Safety Standards where no adequate sub-
stitute substance (other than a class I or class
II substance) is practicable for effectively
meeting such Standards.
(e) Medical devices
Nothing in this section shall apply to any
medical device as defined in section 7671j(8) of
this title.
(July 14, 1955, ch. 360, title VI, §610, as added
Pub. L. 101-549, title VI, §602(a), Nov. 15, 1990, 104
Stat. 2664.)
§7671j. Labeling
(a) Regulations
The Administrator shall promulgate regula-
tions to implement the labeling requirements of
this section within 18 months after November 15,
1990, after notice and opportunity for public
comment.
(b) Containers containing class I or class II sub-
stances and products containing class I sub-
stances
Effective 30 months after November 15, 1990, no
container in which a class I or class II substance
is stored or transported, and no product contain-
ing a class I substance, shall be introduced into
interstate commerce unless it bears a clearly
legible and conspicuous label stating:
"Warning: Contains [insert name of sub-
stance], a substance which harms public
health and environment by destroying ozone
in the upper atmosphere".
(c) Products containing class II substances
(1) After 30 months after November 15, 1990,
and before January 1, 2015, no product contain-
ing a class II substance shall be introduced into
interstate commerce unless it bears the label re-
ferred to in subsection (b) of this section if the
Administrator determines, after notice and op-
portunity for public comment, that there are
substitute products or manufacturing processes
(A) that do not rely on the use of such class II
substance, (B) that reduce the overall risk to
human health and the environment, and (C) that
are currently or potentially available.
(2) Effective January 1, 2015, the requirements
of subsection (b) of this section shall apply to all
products containing a class II substance.
(d) Products manufactured with class I and class
II substances
(1) In the case of a class II substance, after 30
months after November 15, 1990, and before Jan-
uary 1, 2015, if the Administrator, after notice
and opportunity for public comment, makes the
determination referred to in subsection (c) of
this section with respect to a product manufac-
tured with a process that uses such class II sub-
stance, no such product shall be introduced into
interstate commerce unless it bears a clearly
legible and conspicuous label stating:
"Warning: Manufactured with [insert name
of substance], a substance which harms public
health and environment by destroying ozone
in the upper atmosphere".
(2) In the case of a class I substance, effective
30 months after November 15, 1990, and before
January 1, 2015, the labeling requirements of
this subsection shall apply to all products manu-
factured with a process that uses such class I
substance unless the Administrator determines
that there are no substitute products or manu-
factoring processes that (A) do not rely on the
use of such class I substance, (B) reduce the
overall risk to human health and the environ-
ment, and (C) are currently or potentially avail-
able.
(e) Petitions
(1) Any person may, at any time after 18
months after November 15, 1990, petition the Ad-
ministrator to apply the requirements of this
section to a product containing a class II sub-
stance or a product manufactured with a class I
or II substance which is not otherwise subject to
such requirements. Within 180 days after receiv-
ing such petition, the Administrator shall, pur-
suant to the criteria set forth in subsection (c)
of this section, either propose to apply the re-
quirements of this section to such product or
publish an explanation of the petition denial. If
the Administrator proposes to apply such re-
quirements to such product, the Administrator
shall, by rule, render a final determination pur-
suant to such criteria within 1 year after receiv-
ing such petition.
(2) Any petition under this paragraph shall in-
clude a showing by the petitioner that there are
data on the product adequate to support the pe-
tition.
(3) If the Administrator determines that infor-
mation on the product is not sufficient to make
the required determination the Administrator
shall use any authority available to the Adminis-
trator under any law administered by the Ad-
ministrator to acquire such information.
(4) In the case of a product determined by the
Administrator, upon petition or on the Adminis-
trator's own motion, to be subject to the re-
quirements of this section, the Administrator
shall establish an effective date for such require-
§ 7671k. Safe alternatives policy

(a) Policy

To the maximum extent practicable, class I and class II substances shall be replaced by chemicals, product substitutes, or alternative manufacturing processes that reduce overall risks to human health and the environment.

(b) Reviews and reports

The Administrator shall—

(1) in consultation and coordination with interested members of the public and the heads of relevant Federal agencies and departments, recommend Federal research programs and other activities to assist in identifying alternatives to the use of class I and class II substances as refrigerants, solvents, fire retardants, foam blowing agents, and other commercial applications and in achieving a transition to such alternatives, and, where appropriate, seek to maximize the use of Federal research facilities and resources to assist users of class I and class II substances in identifying and developing alternatives to the use of such substances as refrigerants, solvents, fire retardants, foam blowing agents, and other commercial applications;

(2) examine in consultation and coordination with the Secretary of Defense and the heads of other relevant Federal agencies and departments, including the General Services Administration, Federal procurement practices with respect to class I and class II substances and recommend measures to promote the transition by the Federal Government, as expeditiously as possible, to the use of safe substitutes;

(3) specify initiatives, including appropriate intergovernmental, international, and commercial information and technology transfers, to promote the development and use of safe substitutes for class I and class II substances, including alternative chemicals, product substitutes, and alternative manufacturing processes; and

(4) maintain a public clearinghouse of alternative chemicals, product substitutes, and alternative manufacturing processes that are available for products and manufacturing processes which use class I and class II substances.

§ 7671l. Alternatives for class I or II substances

Within 2 years after November 15, 1990, the Administrator shall promulgate rules under this section providing that it shall be unlawful to replace any class I or class II substance with any substitute substance which the Administrator determines may present adverse effects to human health or the environment, where the Administrator has identified an alternative to such replacement that—

(1) reduces the overall risk to human health and the environment; and

(2) is currently or potentially available.

The Administrator shall publish a list of (A) the substitutes prohibited under this subsection for specific uses and (B) the safe alternatives identified under this subsection for specific uses.

§ 7671m. Right to petition

Any person may petition the Administrator to add a substitute to the lists under subsection (c) of this section or to remove a substance from either of such lists. The Administrator shall grant or deny the petition within 90 days after receipt of any such petition. If the Administrator denies the petition, the Administrator shall publish an explanation of why the petition was denied. If the Administrator grants such petition the Administrator shall publish such revised list within 6 months thereafter. Any petition under this subsection shall include a showing by the petitioner that there are data on the substance adequate to support the petition. If the Administrator determines that information on the substance is not sufficient to make a determination under this subsection, the Administrator shall use any authority available to the Administrator, under any law administered by the Administrator, to acquire such information.

§ 7671n. Federal procurement

Not later than 18 months after November 15, 1990, the Administrator, in consultation with the Administrator of the General Services Administration and the Secretary of Defense, shall promulgate regulations requiring each depart-
Executive Order No. 12843
Ex. Ord. No. 12843, Apr. 21, 1993, 58 F.R. 21881, which provided for Federal agencies to implement policies and programs to minimize procurement of ozone-depleting substances, was revoked by Ex. Ord. No. 13148, Apr. 21, 2000, 65 F.R. 24604, formerly set out as a note under section 4221 of this title.

§ 7671m. Relationship to other laws

(a) State laws

Notwithstanding section 7416 of this title, during the 2-year period beginning on November 15, 1990, no State or local government may enforce any requirement concerning the design of any new or recalled appliance for the purpose of protecting the stratospheric ozone layer.

(b) Montreal Protocol

This subchapter as added by the Clean Air Act Amendments of 1990 shall be construed, interpreted, and applied as a supplement to the terms and conditions of the Montreal Protocol, as provided in Article 2, paragraph 11 thereof, and shall not be construed, interpreted, or applied to abrogate the responsibilities or obligations of the United States to implement fully the provisions of the Montreal Protocol. In the case of conflict between any provision of this subchapter and any provision of the Montreal Protocol, the more stringent provision shall govern. Nothing in this subchapter shall be construed, interpreted, or applied to affect the authority or responsibility of the Administrator to implement Article 4 of the Montreal Protocol with other appropriate agencies.

(c) Technology export and overseas investment

Upon November 15, 1990, the President shall—

(1) prohibit the export of technologies used to produce a class I substance;

(2) prohibit direct or indirect investments by any person in facilities designed to produce a class I or class II substance in nations that are not parties to the Montreal Protocol; and

(3) direct that no agency of the government provide bilateral or multilateral subsidies, aids, credits, guarantees, or insurance programs, for the purpose of producing any class I substance.

(July 14, 1955, ch. 360, title VI, § 614, as added Pub. L. 101–549, title VI, § 602(a), Nov. 15, 1990, 104 Stat. 2688.)

References in Text

§ 7671n. Authority of Administrator

If, in the Administrator’s judgment, any substance, practice, process, or activity may reasonably be anticipated to affect the stratosphere, especially ozone in the stratosphere, and such effect may reasonably be anticipated to endanger public health or welfare, the Administrator shall promptly promulgate regulations respecting the control of such substance, practice, process, or activity, and shall submit notice of the proposal and promulgation of such regulation to the Congress.

(July 14, 1955, ch. 360, title VI, § 615, as added Pub. L. 101–549, title VI, § 602(a), Nov. 15, 1990, 104 Stat. 2689.)

§ 7671o. Transfers among Parties to Montreal Protocol

(a) In general

Consistent with the Montreal Protocol, the United States may engage in transfers with other Parties to the Protocol under the following conditions:

(1) The United States may transfer production allowances to another Party if, at the time of such transfer, the Administrator establishes revised production limits for the United States such that the aggregate national United States production permitted under the revised production limits equals the lesser of (A) the maximum production level permitted for the substance or substances concerned in the transfer year under the Protocol minus the production allowances transferred, (B) the maximum production level permitted for the substance or substances concerned in the transfer year under applicable domestic law minus the production allowances transferred, or (C) the average of the actual national production level of the substance or substances concerned for the 3 years prior to the transfer minus the production allowances transferred.

(2) The United States may acquire production allowances from another Party if, at the time of such transfer, the Administrator finds that the other Party has revised its domestic production limits in the same manner as provided with respect to transfers by the United States in this subsection.

(b) Effect of transfers on production limits

The Administrator is authorized to reduce the production limits established under this chapter as required as a prerequisite to transfers under paragraph (1) of subsection (a) of this section or to increase production limits established under this chapter to reflect production allowances acquired under a transfer under paragraph (2) of subsection (a) of this section.

(c) Regulations

The Administrator shall promulgate, within 2 years after November 15, 1990, regulations to implement this section.

(d) “Applicable domestic law” defined

In the case of the United States, the term “applicable domestic law” means this chapter.
(July 14, 1955, ch. 360, title VI, § 616, as added Pub. L. 101–549, title VI, § 602(a), Nov. 15, 1990, 104 Stat. 2669.)

§ 7671p. International cooperation

(a) In general

The President shall undertake to enter into international agreements to foster cooperative research which complements studies and research authorized by this subchapter, and to develop standards and regulations which protect the stratosphere consistent with regulations applicable within the United States. For these purposes the President through the Secretary of State and the Assistant Secretary of State for Oceans and International Environmental and Scientific Affairs, shall negotiate multilateral treaties, conventions, resolutions, or other agreements, and formulate, present, or support proposals at the United Nations and other appropriate international forums and shall report to the Congress periodically on efforts to arrive at such agreements.

(b) Assistance to developing countries

The Administrator, in consultation with the Secretary of State, shall support global participation in the Montreal Protocol by providing technical and financial assistance to developing countries that are Parties to the Montreal Protocol and operating under article 5 of the Protocol. There are authorized to be appropriated not more than $30,000,000 to carry out this section in fiscal years 1991, 1992 and 1993 and such sums as may be necessary in fiscal years 1994 and 1995. If China and India become Parties to the Montreal Protocol, there are authorized to be appropriated not more than an additional $30,000,000 to carry out this section in fiscal years 1991, 1992, and 1993.

(July 14, 1955, ch. 360, title VI, § 617, as added Pub. L. 101–549, title VI, § 602(a), Nov. 15, 1990, 104 Stat. 2669.)

AUTHORITY OF SECRETARY OF STATE

Except as otherwise provided, Secretary of State to have and exercise any authority vested by law in any official or office of Department of State and references to such officials or offices deemed to refer to Secretary of State or Department of State, as appropriate, see section 2651a of Title 22, Foreign Relations and Intercourse, and section 161(d) of Pub. L. 101–298, set out as a note under section 2651a of Title 22.

§ 7671q. Miscellaneous provisions

For purposes of section 7416 of this title, requirements concerning the areas addressed by this subchapter for the protection of the stratosphere against ozone layer depletion shall be treated as requirements for the control and abatement of air pollution. For purposes of section 7418 of this title, the requirements of this subchapter and corresponding State, interstate, and local requirements, administrative authority, and process, and sanctions respecting the protection of the stratospheric ozone layer shall be treated as requirements for the control and abatement of air pollution within the meaning of section 7418 of this title.

(July 14, 1955, ch. 360, title VI, § 618, as added Pub. L. 101–549, title VI, § 602(a), Nov. 15, 1990, 104 Stat. 2670.)

CHAPTER 86—EARTHQUAKE HAZARDS REDUCTION

Sec.
7701. Congressional findings.
7702. Congressional statement of purpose.
7703. Definitions.
7704. National Earthquake Hazards Reduction Program.
7705. 7705. Repealed.
7705b. Seismic standards.
7705c. Acceptance of gifts.
7705d. Repealed.

7706. Authorization of appropriations.
7707. Advanced National Seismic Research and Monitoring System.
7708. Network for Earthquake Engineering Simulation.
7709. Scientific Earthquake Studies Advisory Committee.

§ 7701. Congressional findings

The Congress finds and declares the following:

(1) All 50 States are vulnerable to the hazards of earthquakes, and at least 39 of them are subject to major or moderate seismic risk, including Alaska, California, Hawaii, Illinois, Massachusetts, Missouri, Montana, Nevada, New York, New York, South Carolina, Utah, and Washington. A large portion of the population of the United States lives in areas vulnerable to earthquake hazards.

(2) Earthquakes have caused, and can cause in the future, enormous loss of life, injury, destruction of property, and economic and social disruption. With respect to future earthquakes, such loss, destruction, and disruption can be substantially reduced through the development and implementation of earthquake hazards reduction measures, including (A) improved design and construction methods and practices, (B) land-use controls and redevelopment, (C) prediction techniques and early-warning systems, (D) coordinated emergency preparedness plans, and (E) public education and involvement programs.

(3) An expertly staffed and adequately financed earthquake hazards reduction program, based on Federal, State, local, and private research, planning, decisionmaking, and contributions would reduce the risk of such loss, destruction, and disruption in seismic areas by an amount far greater than the cost of such program.

(4) A well-funded seismological research program in earthquake prediction could provide data adequate for the design, of an operational system that could predict accurately the time, place, magnitude, and physical effects of earthquakes in selected areas of the United States.

(5) The geological study of active faults and features can reveal how recently and how frequently major earthquakes have occurred on those faults and how much risk they pose. Such long-term seismic risk assessments are needed in virtually every aspect of earthquake hazards management, whether emergency planning, public regulation, detailed building design, insurance rating, or investment decision.
(6) The vulnerability of buildings, lifelines, public works, and industrial and emergency facilities can be reduced through proper earthquake resistant design and construction practices. The economy and efficacy of such procedures can be substantially increased through research and development.

(7) Programs and practices of departments and agencies of the United States are important to the communities they serve; some functions, such as emergency communications and national defense, and lifelines, such as dams, bridges, and public works, must remain in service during and after an earthquake. Federally owned, operated, and influenced structures and lifelines should serve as models for how to reduce and minimize hazards to the community.

(8) The implementation of earthquake hazards reduction measures would, as an added benefit, also reduce the risk of loss, destruction, and disruption from other natural hazards and manmade hazards, including hurricanes, tornadoes, accidents, explosions, landslides, building and structural cave-ins, and fires.

(9) Reduction of loss, destruction, and disruption from earthquakes will depend on the actions of individuals, and organizations in the private sector and governmental units at Federal, State, and local levels. The current capability to transfer knowledge and information to these sectors is insufficient. Improved mechanisms are needed to translate existing information and research findings into reasonable and usable specifications, criteria, and practices so that individuals, organizations, and governmental units may make informed decisions and take appropriate actions.

(10) Severe earthquakes are a worldwide problem. Since damaging earthquakes occur infrequently in any one nation, international cooperation is desirable for mutual learning from limited experiences.

(11) An effective Federal program in earthquake hazards reduction will require input from and review by persons outside the Federal Government expert in the sciences of earthquake hazards reduction and in the practical application of earthquake hazards reduction measures.

AMENDMENTS
1990—Pars. (5) to (11). Pub. L. 101–614 added pars. (5) to (7), struck out former pars. (5) and (6), and redesignated former pars. (7) to (10) as (8) to (11), respectively. Prior to amendment, pars. (5) and (6) read as follows:

"(5) An operational earthquake prediction system can produce significant social, economic, legal, and political consequences.

"(6) There is a scientific basis for hypothesizing that major earthquakes may be moderated, in at least some seismic areas, by application of the findings of earthquake control and seismological research."

SHORT TITLE OF 2004 AMENDMENT

SHORT TITLE OF 1990 AMENDMENT
Section 1 of Pub. L. 101–614 provided that: "This Act [enacting sections 7706a to 7706e, amending this section and sections 7702 to 7705, and 7706 of this title, and enacting provisions set out as notes under sections 7704, 7705b, and 7706e of this title] may be cited as the ‘National Earthquake Hazards Reduction Program Reauthorization Act’."

SHORT TITLE
Section 1 of Pub. L. 95–124 provided: "That this Act [enacting this chapter] may be cited as the ‘Earthquake Hazards Reduction Act of 1977’."

DELEGATION OF FUNCTIONS
Functions of President under Earthquake Hazards Reduction Act of 1977 delegated, transferred, or reassigned to Secretary of Homeland Security pursuant to section 1–104 and 4–204 of Ex. Ord. No. 12148, July 20, 1979, 44 F.R. 43239, as amended, set out as a note under section 5185 of this title.

REPORT ON AT-RISK POPULATIONS

§ 7702. Congressional statement of purpose

It is the purpose of the Congress in this chapter to reduce the risks of life and property from future earthquakes in the United States through the establishment and maintenance of an effective earthquake hazards reduction program. The objectives of such program shall include—

(1) the education of the public, including State and local officials, as to earthquake phenomena, the identification of locations and structures which are especially susceptible to earthquake damage, ways to reduce the adverse consequences of an earthquake, and related matters;

(2) the development of technologically and economically feasible design and construction methods and procedures to make new and existing structures, in areas of seismic risk, earthquake resistant, giving priority to the development of such methods and procedures for power generating plants, dams, hospitals, schools, public utilities and other lifelines, public safety structures, high occupancy buildings, and other structures which are especially needed in time of disaster;

(3) the implementation to the greatest extent practicable, in all areas of high or moderate seismic risk, of a system (including personnel, technology, and procedures) for predicting damaging earthquakes and for identifying, evaluating, and accurately characterizing seismic hazards;

(4) the development, publication, and promotion, in conjunction with State and local...
§ 7703. Definitions

As used in this chapter, unless the context otherwise requires:

(1) The term “includes” and variants thereof should be read as if the phrase “but is not limited to” were also set forth.

(2) The term “Program” means the National Earthquake Hazards Reduction Program established under section 7704 of this title.

(3) The term “seismic” and variants thereof mean having to do with, or caused by earthquakes.

(4) The term “State” means each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Mariana Islands, and any other territory or possession of the United States.

(5) The term “United States” means, when used in a geographical sense, all of the States as defined in paragraph (4) of this section.

(6) The term “lifelines” means public works and utilities, including transportation facilities and infrastructure, oil and gas pipelines, electrical power and communication facilities and infrastructure, and water supply and sewage treatment facilities.

(7) The term “Program agencies” means the Federal Emergency Management Agency, the United States Geological Survey, the National Science Foundation, and the National Institute of Standards and Technology.

(8) The term “Interagency Coordinating Committee” means the Interagency Coordinating Committee on Earthquake Hazards Reduction established under section 7704(a) of this title.

(9) The term “Advisory Committee” means the Advisory Committee established under section 7704(a)(5) of this title.

AMENDMENTS

2004—Pars. (8), (9). Pub. L. 108–360 added pars. (8) and (9).

1990—Par. (2). Pub. L. 101–614, § 4(1), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “The term ‘program’ means the earthquake hazards reduction program established under section 7704 of this title.”

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Agency, see section 315(a)(1) of Title 6, Domestic Security.

For transfer of functions, personnel, assets, and liabilities of the Federal Emergency Management Agency, including the functions of the Director of the Federal Emergency Management Agency relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see former section 313(1) and sections 55(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 7704. National Earthquake Hazards Reduction Program

(a) Establishment

(1) In general

There is established the National Earthquake Hazards Reduction Program.

(2) Program activities

The activities of the Program shall be designed to—

(A) develop effective measures for earthquake hazards reduction;

(B) promote the adoption of earthquake hazards reduction measures by Federal, State, and local governments, national standards and model code organizations, architects and engineers, building owners, and others with a role in planning and constructing buildings, structures, and lifelines through—

(i) grants, contracts, cooperative agreements, and technical assistance;

(ii) development of standards, guidelines, and voluntary consensus codes for earthquake hazards reduction for buildings, structures, and lifelines;

(iii) development and maintenance of a repository of information, including technical data, on seismic risk and hazards reduction; and

(C) improve the understanding of earthquakes and their effects on communities, buildings, structures, and lifelines, through interdisciplinary research that involves engineering, natural sciences, and social, economic, and decisions sciences; and

(D) develop, operate, and maintain an Advanced National Seismic Research and Mon-
Itoring System established under section 7707 of this title, the George E. Brown, Jr. Network for Earthquake Engineering Simulation established under section 7708 of this title, and the Global Seismographic Network.

(3) Interagency Coordinating Committee on Earthquake Hazards Reduction

(A) In general

There is established an Interagency Coordinating Committee on Earthquake Hazards Reduction chaired by the Director of the National Institute of Standards and Technology (referred to in this subsection as the “Director”).

(B) Membership

The committee shall be composed of the directors of—

(i) the Federal Emergency Management Agency;
(ii) the United States Geological Survey;
(iii) the National Science Foundation;
(iv) the Office of Science and Technology Policy; and
(v) the Office of Management and Budget.

(C) Meetings

The Committee shall meet not less than 3 times a year at the call of the Director.

(D) Purpose and duties

The Interagency Coordinating Committee shall oversee the planning, management, and coordination of the Program. The Interagency Coordinating Committee shall—

(I) a strategic plan that establishes goals and priorities for the Program activities described under subsection (a)(2) of this section; and

(ii) a detailed management plan to implement such strategic plan; and

(ii) develop a coordinated interagency budget for the Program that will ensure appropriate balance among the Program activities described under subsection (a)(2) of this section, and, in accordance with the plans developed under clause (i), submit such budget to the Director of the Office of Management and Budget at the time designated by that office for agencies to submit annual budgets.

(4) Annual report

The Interagency Coordinating Committee shall transmit, at the time of the President’s budget request to Congress, an annual report to the Committee on Science and the Committee on Commerce, Science, and Transportation of the Senate. Such report shall include—

(A) the Program budget for the current fiscal year for each agency that participates in the Program, and for each major goal established for the Program activities under subparagraph (3)(A);

(B) the proposed Program budget for the next fiscal year for each agency that participates in the Program, and for each major goal established for the Program activities under subparagraph (3)(A);

(C) a description of the activities and results of the Program during the previous year, including an assessment of the effectiveness of the Program in furthering the goals established in the strategic plan under (3)(A);

(D) a description of the extent to which the Program has incorporated the recommendations of the Advisory Committee;

(E) a description of activities, including budgets for the current fiscal year and proposed budgets for the next fiscal year, that are carried out by Program agencies and contribute to the Program, but are not included in the Program; and

(F) a description of the activities, including budgets for the current fiscal year and proposed budgets for the following fiscal year, related to the grant program carried out under subsection (b)(2)(A)(i) of this section.

(5) Advisory Committee

(A) In general

The Director shall establish an Advisory Committee on Earthquake Hazards Reduction of at least 11 members, none of whom may be an employee (as defined in subparagraphs (A) through (F) of section 7342(a)(1) of title 5) including representatives of research and academic institutions, industry standards development organizations, State and local government, and financial communities who are qualified to provide advice on earthquake hazards reduction and represent all related scientific, architectural, and engineering disciplines. The recommendations of the Advisory Committee shall be considered by Federal agencies in implementing the Program.

(B) Assessment

The Advisory Committee shall assess—

(i) trends and developments in the science and engineering of earthquake hazards reduction;

(ii) effectiveness of the Program in carrying out the activities under (a)(2) of this section;

(iii) the need to revise the Program; and

(iv) the management, coordination, implementation, and activities of the Program.

(C) Report

Not later than 1 year after October 25, 2004, and at least once every 2 years thereafter, the Advisory Committee shall report to the Director on its findings of the assessment carried out under subparagraph (B) and its recommendations for ways to improve the Program. In developing recommendations, the Committee shall consider the recom-
mentations of the United States Geological Survey Scientific Earthquake Studies Advisory Committee.

(D) Federal Advisory Committee Act application

Section 14 of the Federal Advisory Committee Act (5 App. U.S.C. 14) shall not apply to the Advisory Committee.

(b) Responsibilities of Program agencies

(1) Lead agency

The National Institute of Standards and Technology shall have the primary responsibility for planning and coordinating the Program. In carrying out this paragraph, the Director of the Institute shall—

(A) ensure that the Program includes the necessary steps to promote the implementation of earthquake hazard reduction measures by Federal, State, and local governments, national standards and model building code organizations, architects and engineers, and others with a role in planning and constructing buildings and lifelines;

(B) support the development of performance-based seismic engineering tools, and work with appropriate groups to promote the commercial application of such tools, through earthquake-related building codes, standards, and construction practices;

(C) request the assistance of Federal agencies other than the Program agencies, as necessary to assist in carrying out this chapter; and

(D) work with the Federal Emergency Management Agency, the National Science Foundation, and the United States Geological Survey, to develop a comprehensive plan for earthquake engineering research to effectively use existing testing facilities and laboratories (existing at the time of the development of the plan), upgrade facilities and equipment as needed, and integrate new, innovative testing approaches to the research infrastructure in a systematic manner.

(2) Department of Homeland Security; Federal Emergency Management Agency

(A) Program responsibilities

The Under Secretary of Homeland Security for Emergency Preparedness and Response (the Administrator of the Federal Emergency Management Agency)—

(i) shall work closely with national standards and model building code organizations, in conjunction with the National Institute of Standards and Technology, to promote the implementation of research results;

(ii) shall promote better building practices within the building design and construction industry including architects, engineers, contractors, builders, and inspectors;

(iii) shall operate a program of grants and assistance to enable States to develop mitigation, preparedness, and response plans, prepare inventories and conduct seismic safety inspections of critical structures and lifelines, update building and zoning codes and ordinances to enhance seismic safety, increase earthquake awareness and education, and encourage the development of multi-State groups for such purposes;

(iv) shall support the implementation of a comprehensive earthquake education and public awareness program, including development of materials and their wide dissemination to all appropriate audiences and support public access to locality-specific information that may assist the public in preparing for, mitigating against, responding to and recovering from earthquakes and related disasters;

(v) shall assist the National Institute of Standards and Technology, other Federal agencies, and private sector groups, in the preparation, maintenance, and wide dissemination of seismic resistant design guidance and related information on building codes, standards, and practices for new and existing buildings, structures, and lifelines, and aid in the development of performance-based design guidelines and methodologies supporting model codes for buildings, structures, and lifelines that are cost effective and affordable;

(vi) shall develop, coordinate, and execute the National Response Plan when required following an earthquake, and support the development of specific State and local plans for each high risk area to ensure the availability of adequate emergency medical resources, search and rescue personnel and equipment, and emergency broadcast capability;

(vii) shall develop approaches to combine measures for earthquake hazards reduction with measures for reduction of other natural and technological hazards including performance-based design approaches;

(viii) shall provide preparedness, response, and mitigation recommendations to communities after an earthquake prediction has been made under paragraph (3)(D); and

(ix) may enter into cooperative agreements or contracts with States and local jurisdictions and other Federal agencies to establish demonstration projects on earthquake hazard mitigation, to link earthquake research and mitigation efforts with emergency management programs, or to prepare educational materials for national distribution.

(B) State assistance program criteria

In order to qualify for assistance under subparagraph (A)(i), a State must—

(i) demonstrate that the assistance will result in enhanced seismic safety in the State;

(ii) provide a share of the costs of the activities for which assistance is being given, in accordance with subparagraph (C); and

(iii) meet such other requirements as the Administrator of the Agency shall prescribe.

(C) Non-Federal cost sharing

(i) In the case of any State which has received, before October 1, 1990, a grant from
the Agency for activities under this chapter which included a requirement for cost sharing by matching such grant, any grant obtained from the Agency for activities under subparagraph (A)(i) after such date shall not include a requirement for cost sharing in an amount greater than 50 percent of the cost of the project for which the grant is made.

(ii) In the case of any State which has not received, before October 1, 1990, a grant from the Agency for activities under this chapter which included a requirement for cost sharing by matching such grant, any grant obtained from the Agency for activities under subparagraph (A)(i) after such date—

(I) shall not include a requirement for cost sharing for the first fiscal year of such a grant;

(II) shall not include a requirement for cost sharing in an amount greater than 25 percent of the cost of the project for which the grant is made for the second fiscal year of such grant, and any cost sharing requirement may be satisfied through in-kind contributions;

(III) shall not include a requirement for cost sharing in an amount greater than 35 percent of the cost of the project for which the grant is made for the third fiscal year of such grant, and any cost sharing requirement may be satisfied through in-kind contributions; and

(IV) shall not include a requirement for cost sharing in an amount greater than 50 percent of the cost of the project for which the grant is made for the fourth and subsequent fiscal years of such grant.

(3) United States Geological Survey

The United States Geological Survey shall conduct research and other activities necessary to characterize and identify earthquake hazards, assess earthquake risks, monitor seismic activity, and improve earthquake predictions. In carrying out this paragraph, the Director of the United States Geological Survey shall:

(A) conduct a systematic assessment of the seismic risks in each region of the Nation prone to earthquakes, including, where appropriate, the establishment and operation of intensive monitoring projects on hazardous faults, seismic microzonation studies in urban and other developed areas where earthquake risk is determined to be significant, and engineering seismology studies;

(B) work with officials of State and local governments to ensure that they are knowledgeable about the specific seismic risks in their areas;

(C) develop standard procedures, in consultation with the Administrator of the Federal Emergency Management Agency and the Director of the National Institute of Standards and Technology, for issuing earthquake predictions, including aftershock advisories;

(D) issue when necessary, and notify the Administrator of the Federal Emergency Management Agency and the Director of the National Institute of Standards and Technology of, an earthquake prediction or other earthquake advisory, which may be evaluated by the National Earthquake Prediction Evaluation Council, which shall be exempt from the requirements of section 10(a)(2) of the Federal Advisory Committee Act when meeting for such purposes;

(E) operate, using the National Earthquake Information Center, a forum for the international exchange of earthquake information which shall—

(I) promote the exchange of information on earthquake research and earthquake preparedness between the United States and other nations;

(ii) maintain a library containing selected reports, research papers, and data produced through the Program;

(iii) answer requests from other nations for information on United States earthquake research and earthquake preparedness programs; and

(iv) direct foreign requests to the agency involved in the Program which is best able to respond to the request;

(F) operate a National Seismic System;

(G) support regional seismic networks, which shall complement the National Seismic Network; and

(H) work with the National Science Foundation, the Federal Emergency Management Agency, and the National Institute of Standards and Technology to develop a comprehensive plan for earthquake engineering research to effectively use existing testing facilities and laboratories (in existence at the time of the development of the plan), upgrade facilities and equipment as needed, and integrate new, innovative testing approaches to the research infrastructure in a systematic manner; 5

(I) work with other Program agencies to coordinate Program activities with similar earthquake hazards reduction efforts in other countries, to ensure that the Program benefits from relevant information and advances in those countries; and

(J) maintain suitable seismic hazard maps in support of building codes for structures and lifelines, including additional maps needed for performance-based design approaches.

(4) National Science Foundation

The National Science Foundation shall be responsible for funding research on earth sciences to improve the understanding of the causes and behavior of earthquakes, on earthquake engineering, and on human response to earthquakes. In carrying out this paragraph, the Director of the National Science Foundation shall—

(A) encourage prompt dissemination of significant findings, sharing of data, samples, physical collections, and other supporting materials, and development of intellectual property so research results can be used by

---

5 So in original. The word “and” probably should not appear.

6 So in original. The period probably should be a semicolon.
appropriate organizations to mitigate earthquake damage;
(B) in addition to supporting individual investigators, support university research consortia and centers for research in geosciences and in earthquake engineering;
(C) work closely with the United States Geological Survey to identify geographic regions of national concern that should be the focus of targeted solicitations for earthquake-related research proposals;
(D) support research that improves the safety and performance of buildings, structures, and lifeline systems using large-scale experimental and computational facilities of the George E. Brown Jr. Network for Earthquake Engineering Simulation and other institutions engaged in research and the implementation of the National Earthquake Hazards Reduction Program;
(E) emphasize, in earthquake engineering research, development of economically feasible methods to retrofit existing buildings and to protect lifelines to mitigate earthquake damage;
(F) support research that studies the political, economic, and social factors that influence the implementation of hazard reduction measures;
(G) include to the maximum extent practicable diverse institutions, including Historically Black Colleges and Universities and those serving large proportions of Hispanics, Native Americans, Asian-Pacific Americans, and other underrepresented populations; and
(H) develop, in conjunction with the Federal Emergency Management Agency, the National Institute of Standards and Technology, and the United States Geological Survey, a comprehensive plan for earthquake engineering research to effectively use existing testing facilities and laboratories (in existence at the time of the development of the plan), upgrade facilities and equipment as needed, and integrate new, innovative testing approaches to the research infrastructure in a systematic manner.

(5) National Institute of Standards and Technology

In addition to the lead agency responsibilities described under paragraph (1), the National Institute of Standards and Technology shall be responsible for carrying out research and development to improve building codes and standards and practices for structures and lifelines. In carrying out this paragraph, the Director of the National Institute of Standards and Technology shall—
(A) work closely with national standards organizations to develop seismic safety standards and practices for new and existing lifelines;
(B) promote better building practices among architects and engineers;
(C) work closely with national standards organizations to develop seismic safety standards and practices for new and existing lifelines;
(D) support the development and commercial application of cost effective and affordable performance-based seismic engineering by providing technical support for seismic engineering practices and related building code, standards, and practices development; and
(E) work with the National Science Foundation, the Federal Emergency Management Agency, and the United States Geological Survey to develop a comprehensive plan for earthquake engineering research to effectively use existing testing facilities and laboratories (in existence at the time of the development of the plan), upgrade facilities and equipment as needed, and integrate new, innovative testing approaches to the research infrastructure in a systematic manner.

(c) Budget coordination

(1) Guidance

The Interagency Coordinating Committee shall each year provide guidance to the other Program agencies concerning the preparation of requests for appropriations for activities related to the Program, and shall prepare, in conjunction with the other Program agencies, an annual Program budget to be submitted to the Office of Management and Budget.

(2) Reports

Each Program agency shall include with its annual request for appropriations submitted to the Office of Management and Budget a report that—
(A) identifies each element of the proposed Program activities of the agency;
(B) specifies how each of these activities contributes to the Program; and
(C) states the portion of its request for appropriations allocated to each element of the Program.

REFERENCES IN TEXT

Sections 14 and 10(a)(2) of the Federal Advisory Committee Act, referred to in subssec. (a)(5)(D) and (b)(3)(D), are sections 14 and 10(a)(2) of Pub. L. 92–463, which are set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

2009—Subsec. (a). Pub. L. 110–360, §103(1), amended heading and text of subsec. (a) generally. Prior to amendment, text read as follows: “There is established a National Earthquake Hazards Reduction Program.”

the Institute' for ‘Federal Emergency Management Agency (hereafter in this chapter referred to as the ‘Agency’ shall have the primary responsibility for planning and coordinating the Program. In carrying out this paragraph, the Director of the Agency’ and struck out concluding provisions which read as follows: ‘The principal official carrying out the responsibilities described in this paragraph shall be at a level no lower than that of Associate Director.’

Subsec. (b)(1)(B). Pub. L. 108–360, § 103(2)(A)(ii), (iii), added subpar. (B) and struck out former subpar. (b) which read as follows: ‘prepare, in conjunction with the other Program agencies, a written plan for the Program, which shall include specific tasks and milestones for each Program agency, and which shall be submitted to the Congress and updated at such times as may be required by significant Program events, but in no event less frequently than every 3 years’.

Subsec. (b)(1)(C). Pub. L. 108–360, § 103(2)(A)(i), redesignated subpar. (D) as (C) and struck out former subpar. (C) which read as follows: ‘prepare, in conjunction with the other Program agencies, a biennial report, to be submitted to the Congress within 90 days after the end of each even-numbered fiscal year, which shall describe the activities and achievements of the Program during the preceding two fiscal years’.

Subsec. (b)(1)(D). In subpar. (E), Pub. L. 109–295, § 102(2)(A)(i), (v), redesignated subpar. (E) as (D) and substituted ‘Federal Emergency Management Agency, the National Science Foundation, the National Institute of Standards and Technology’ for ‘National Science Foundation, the National Institute of Standards and Technology’. Former subpar. (D) redesignated (C).

Subsec. (b)(4)(D) to (H). Pub. L. 108–360, § 103(2)(D), added subpars. (D) and (G) and redesignated former subpar. (D), (E), and (F) as (E), (F), and (H), respectively.

Subsec. (b)(5). Pub. L. 108–360, § 103(2)(E), in introductory provisions, substituted ‘in addition to the lead agency responsibilities described under paragraph (1), the National’ for ‘the National’.

Subsec. (b)(5)(D), (E). Pub. L. 108–360, § 103(2)(F), added subpars. (D) and redesignated former subpar. (D) as (E).

2000—Subsec. (b)(1). Pub. L. 106–568, § 206(1), redesignated subpars. (b) to (F) as (A) to (E), respectively, and struck out former subpar. (A) which read as follows: ‘prepare, in conjunction with the other Program agencies, an annual budget for the Program to be submitted to the Office of Management and Budget’.

Subsec. (b)(2)(A)(ii). Pub. L. 106–505, § 208, inserted before semicolon at end ‘, and development of means of increasing public access to available locality-specific information that may assist the public in preparing for or responding to earthquakes’.

1990—Pub. L. 101–614 amended section generally, substituting present provisions consisting of subsecs. (a) and (b) for former provisions which provided for: in subsec. (a), establishment of program; in subsec. (b), duties of President and Director of Federal Emergency Management Agency; in subsec. (c), objectives of program; in subsec. (d), Federal participation; in subsec. (e), research elements; in subsec. (f), mitigation elements; in subsec. (g), State assistance; in subsec. (h), non-Federal participation; in subsec. (i), study and recommendations on disaster relief; and in subsec. (j), cost sharing.

Subsecs. (g), (i). Pub. L. 100–195 added subsec. (g) and substituted ‘as submitted to the Congress and updated at such times as may be required by significant program events, but in no event less frequently than every three years’ for ‘which plan will recommend base and incremental budget options for the agencies to carry out the elements and programs specified through at least 1985, and which plan shall be completed by September 30, 1981, and transmitted to the Congress and shall be updated annually; and’.

Subsec. (b)(2)(F). Pub. L. 99–105 added subpar. (E) generally, substituting ‘to be submitted to the Congress and at such times as may be required by significant program events, but in no event less frequently than every three years’ for ‘which plan will recommend base and incremental budget options for the agencies to carry out the elements and programs specified through at least 1985, and which plan shall be completed by September 30, 1981, and transmitted to the Congress and shall be updated annually; and’.

Subsec. (b)(2)(E). Pub. L. 99–105 added subpar. (D) and redesignated former subpar. (D) as (E).

1980—Subsec. (a). Pub. L. 96–472, § 101(a), inserted provisions relating to non-Federal participation in par. (2), and substituted provisions respecting the elements described in subsec. (f) of this section, for provisions respecting the implementation plan described in subsec. (f) of this section in par. (3).

Subsec. (b). Pub. L. 96–472, § 101(b), substituted provisions setting forth the duties of the President and the Director of the Federal Emergency Management Agency with respect to the Program for provisions setting forth the duties of the President with respect to the program and plan.

Subsec. (d). Pub. L. 96–472, § 101(c), substituted ‘(1)(A)’ for ‘(3)(B)’ and added par. (F) for ‘federal’ for ‘political’.

Subsec. (f). Pub. L. 96–472, § 101(e), substituted in provision preceding par. (1), provision directing that the mitigation elements of the program are to be as specified in pars. (1) to (8) for provision authorizing the establishment of a implementation plan, year-by-year targets, and Federal and non-Federal roles, in par. (1), substituted provision including as one of the mitigating elements, issuance of earthquake predictions for provision including in the implementation plan development of measures in preparing for earthquakes, actual predictions, warnings, and insuring a comprehensive response to an earthquake, added paras. (7) and (8), and struck out provision following par. (8), that when the implementation plan developed by the President contemplates specific action to be taken by a Federal agency, department, or entity and at the end of the day period beginning on the date the President submits such plan to the appropriate authorizing committees of
Congress and such action has not been initiated, the President submit to such committees a report why such action has not been taken.

CHANGE OF NAME

Committee on Science of House of Representatives changed to Committee on Science and Technology of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007. Committee on Science and Technology of House of Representatives changed to Committee on Science, Space, and Technology of House of Representatives by House Resolution No. 5, One Hundred Twelfth Congress, Jan. 5, 2011.

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

“Administrator of the Federal Emergency Management Agency” and “Administrator of the Agency” subsumed for “Director of the Federal Emergency Management Agency” and “Director of the Agency”, respectively, in subsec. (b)(2)(A), (B)(ii), (iii), (C), (D) on authority of section 612(c) of Pub. L. 109–295, set out as a note under section 313 of Title 6, Domestic Security.

Any reference to the Administrator of the Federal Emergency Management Agency, including the functions of the Director of the Federal Emergency Management Agency, see section 315(a)(1) of Title 6.

Any reference to the Administrator of the Domestic Security, and the Department of Homeland Security Reorganization of related references, see former section 313(1) and sections 551(d), 552(d), and 557 of Title 6, Domestic Security, including the functions of the Director of the Federal Emergency Management Agency relating thereto, see section 315(a)(1) of Title 6, Domestic Security.

“(a) A public applications or contracts as may be necessary to carry out the program.

“(b) A public responsibility for seismological monitoring.”

“(2) A public responsibility for seismological monitoring.”

“(3) A public availability of raw seismological data.

“(4) A public to high-risk activities.

“(5) A public access to high-risk activities.

“(6) A public to high-risk activities.

“(7) A public to high-risk activities.

Authorization of Appropriations.

In addition to the amounts made available to the Director under section 12(b) of the Earthquake Hazards Reduction Act of 1977 (32 U.S.C. 7006(b)), there are authorized to be appropriated to the Department of the Interior, to be used by the Director to carry out paragraph (2), $3,000,000 for each of fiscal years 1998 and 1999; $2,600,000 for fiscal year 2001; $2,710,000 for fiscal year 2002; and $2,825,000 for fiscal year 2003.

“(b) Seismic Monitoring Networks Assessment.

“(1) In General. The Director shall provide for an assessment of regional seismic monitoring networks in the United States. The assessment shall address—

“(A) the need to update the infrastructure used for collecting seismological data for research and monitoring of seismic events in the United States; and

“(B) the need for expanding the capability to record strong ground motions, especially for urban monitoring of seismic events and high-speed rail transportation.

“(2) Additional Reports. The Director shall provide to Congress a report that summarizes the progress of the Director in implementing the plan referred to in subparagraph (A).

“(7) Authorization of Appropriations. In addition to the amounts made available to the Director under section 12(b) of the Earthquake Hazards Reduction Act of 1977 (32 U.S.C. 7006(b)), there are authorized to be appropriated to the Department of the Interior, to be used by the Director to carry out paragraph (2), $3,000,000 for each of fiscal years 1998 and 1999; $2,600,000 for fiscal year 2001; $2,710,000 for fiscal year 2002; and $2,825,000 for fiscal year 2003.
(C) the need to measure accurately large magnitude seismic events (as determined by the Director);

(D) the need to acquire additional parametric data; and

(E) projected costs for meeting the needs described in subparagraph (A) through (D).

(2) RESULTS.—The Director shall transmit the results of the assessment conducted under this subsection to Congress not later than 1 year after the date of enactment of this Act [Oct. 1, 1997].

(c) EARTH SCIENCE TEACHING MATERIALS.—

(1) DEFINITIONS.—In this subsection:

(A) LOCAL EDUCATIONAL AGENCY.—The term ‘local educational agency’ has the meaning given that term in section 901 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(B) SCHOOL.—The term ‘school’ means a non-profit institutional day or residential school that provides education for any of the grades kindergarten through grade 12.

(2) TEACHING MATERIALS.—In a manner consistent with the requirement under section 5(b)(4) of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7704(b)(4)) and subject to a merit based competitive process, the Director of the National Science Foundation may use funds made available to him or her under section 12(c) of such Act (42 U.S.C. 7710(c)) to develop, and make available to schools and local educational agencies for use by schools, at a minimal cost, earth science teaching materials that are designed to meet the needs of elementary and secondary school teachers and students.

(d) IMPROVED SEISMIC HAZARD ASSESSMENT.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act [Oct. 1, 1997], the Director shall conduct a project to improve the seismic hazard assessment of seismic zones.

(2) REPORTS.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and annually during the period of the project, the Director shall prepare, and submit to Congress, a report on the findings of the project.

(B) FINAL REPORT.—Not later than 60 days after the date of termination of the project conducted under this subsection, the Director shall prepare and submit to Congress a report concerning the findings of the project.

(e) STUDY OF NATIONAL EARTHQUAKE EMERGENCY TRAINING CAPABILITIES.—

(1) IN GENERAL.—The Director of the Federal Emergency Management Agency shall conduct an assessment of the need for additional Federal disaster response training capabilities that are applicable to earthquake response.

(2) CONTENTS OF ASSESSMENT.—The assessment conducted under this subsection shall include—

(A) a review of the disaster training programs offered by the Federal Emergency Management Agency at the time of the assessment;

(B) an estimate of the number and types of emergency response personnel that have, during the period beginning on January 1, 1990 and ending on July 1, 1997, sought the training referred to in subparagraph (A), but have been unable to receive that training as a result of the oversubscription of the training capabilities of the Federal Emergency Management Agency; and

(C) a recommendation on the need to provide additional Federal disaster-response training centers.

(3) REPORT.—Not later than 180 days after the date of enactment of this Act [Oct. 1, 1997], the Director shall prepare and submit to Congress a report that addresses the results of the assessment conducted under this subsection.

STUDIES ON ECONOMIC IMPACT OF CATASTROPHIC EARTHQUAKES AND IMPROVING EARTHQUAKE MITIGATION:

Section 14 of Pub. L. 101–614 directed Director of Federal Emergency Management Agency to submit two reports to Congress within 12 months after Nov. 16, 1990, one report outlining results of a study on impact and repercussions of a catastrophic earthquake on local, regional, and national economies, and the other report outlining results of a study on adequacy of preparation and response capabilities for reducing and recovering from losses caused by a catastrophic earthquake.

EARTHQUAKE ENGINEERING RESEARCH

Pub. L. 100–570, title I, §115, Oct. 31, 1988, 102 Stat. 2871, directed National Academy of Sciences to conduct a study of earthquake engineering activities being carried out by the Foundation and other Federal agencies under the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), such study to include (1) an assessment of adequacy of each agency’s current Federal earthquake engineering efforts, including those designed to increase the implementation of new techniques; the need for specialized research facilities, including large-scale facilities; and capabilities among the various Federal agencies; and recommended levels of funding that the Foundation and other agencies should provide, in the form of grants to individuals, groups, and centers, to non-Federal researchers principally engaged in earthquake engineering research; and (2) recommendations, if any, of the National Academy of Sciences for improvements in the current Federal efforts in the area of earthquake engineering research, with results of the study to be reported to Congress on or before expiration of 12-month period following Oct. 31, 1988.

EX. ORD. NO. 12699. SEISMIC SAFETY OF FEDERAL AND FEDERALLY ASSISTED OR REGULATED NEW BUILDING CONSTRUCTION

By the authority vested in me as President by the Constitution and laws of the United States of America, and in furtherance of the Earthquake Hazards Reduction Act of 1977, as amended (42 U.S.C. 7701 et seq.), which requires that Federal preparedness and mitigation activities are to include “development and promulgation of specifications, building standards, design criteria, and construction practices to achieve appropriate earthquake resistance for new . . . structures,” and “an examination of alternative provisions and requirements for reducing earthquake hazards through Federal and federally financed construction, loans, loan guarantees, and licenses. . . .” (42 U.S.C. 7704(f)(3), 4), it is hereby ordered as follows:

SECTION 1. REQUIREMENTS FOR EARTHQUAKE SAFETY OF NEW FEDERAL BUILDINGS.

The purposes of these requirements are to reduce risks to the lives of occupants of buildings owned by the Federal Government and to persons who would be affected by the failures of Federal buildings in earthquakes, to improve the capability of essential Federal buildings to function during or after an earthquake, and to reduce earthquake losses of public buildings, all in a cost-effective manner. A building means any structure, fully or partially enclosed, used or intended for sheltering persons or property.

Each Federal agency responsible for the design and construction of each new Federal building shall ensure that the building is designed and constructed in accord with appropriate seismic design and construction standards. This requirement pertains to all building projects for which development of detailed plans and specifications is initiated subsequent to the issuance of the order. Seismic design and construction standards shall be adopted for agency use in accord with sections 3(a) and 4(a) of this order.

SEC. 2. FEDERALEY LEASED, ASSISTED, OR REGULATED BUILDINGS.

The purposes of these requirements are to reduce risks to the lives of occupants of buildings leased for Federal uses or purchased or constructed with Federal
§ 7704a. Report on seismic safety property standards

(a) Authority

The Secretary of Housing and Urban Development (in this section referred to as the “Secretary”) shall assess the risk of earthquake-related damage to properties assisted under programs administered by the Secretary and shall develop seismic safety standards for such properties. This section may not be construed to prohibit the Secretary from deferring to local building codes that meet the requirements of the seismic safety standards developed under this section.

(b) Standards

The standards shall be designed to reduce the risk of loss of life to building occupants and to the maximum extent feasible and to reduce the risk of shake-related property damage to the maximum extent practicable.

(c) Consultation

In carrying out this section, the Secretary shall consult with the Administrator of the Federal Emergency Management Agency and may utilize the resources under the National Earthquake Hazards Reduction Program (established under the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.)) and any other resources as may be required to carry out the activities under this section.

References in Text

§ 7705b. Seismic standards

(a) Buildings

(1) Adoption of standards

The President shall adopt, not later than December 1, 1994, standards for assessing and enhancing the seismic safety of existing buildings constructed for or leased by the Federal Government which were designed and constructed without adequate seismic design and construction standards. Such standards shall be developed by the Interagency Committee on Seismic Safety in Construction, whose chairman is the Director of the National Institute of Standards and Technology or his designee, and which shall work in consultation with appropriate private sector organizations.

(2) Report to Congress

The President shall report to the Congress, not later than December 1, 1994, on how the standards adopted under paragraph (1) could be applied with respect to buildings—

(A) for which Federal financial assistance has been obtained through grants, loans, financing guarantees, or loan or mortgage insurance programs; or

(B) the structural safety of which is regulated by a Federal agency.

(3) Regulations

The President shall issue the regulations required by this section and the activities conducted under this section and the activities under Executive Order numbered 12699 to the Administrator of the Federal Emergency Management Agency, whose chairmanship is the Director of the National Institute of Standards and Technology, shall submit to the Congress, not later than June 30, 1992, a plan, including precise timetables and budget estimates, for developing and adopting, in consultation with appropriate private sector organizations, design and construction standards for lifelines. The plan shall include recommendations of ways Federal regulatory authority could be used to expedite the implementation of such standards.

(b) Lifelines

The Administrator of the Agency, in consultation with the Director of the National Institute of Standards and Technology, shall submit to the Congress, not later than February 1, 1993, by all Federal agencies of the final regulations required by section 4(b) of Executive Order numbered 12699, referred to in subsec. (a)(3), is set out as a note under section 7704 of this title.

CHANGE OF NAME

TRANSFER OF FUNCTIONS

§ 7705c  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6510

Emergency Management Agency relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see former section 313(1) and section 559(d), 582(d), and 537 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

REPORT ON VULNERABILITY OF BUILDINGS OWNED AND LEASED BY GOVERNMENT

Section 8(b) of Pub. L. 101–614 directed Comptroller General, not later than 18 months after Nov. 16, 1990, to report to Congress on vulnerability of buildings owned and leased by the Federal Government and on efforts of Federal agencies to improve the seismic resistance of buildings they own or lease, and for each such agency, the Comptroller General to enumerate the number of buildings owned or leased by the agency, the seriousness of the seismic risk to such buildings, and the value of the buildings at risk, as well as tabulate the expenditures each such agency had devoted to reducing earthquake damage and estimate the total expenditure necessary to address the problem adequately.

EX. ORD. No. 12941. SEISMIC SAFETY OF EXISTING FEDERALLY OWNED OR LEASED BUILDINGS

Ex. Ord. No. 12941, Dec. 1, 1994, 59 F.R. 62545, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and in furtherance of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), as amended by Public Law 101–614, which requires the President to adopt “standards for assessing and enhancing the seismic safety of existing buildings constructed or leased by the Federal Government which were designed and constructed without adequate seismic design and construction standards” (42 U.S.C. 7708(a)), it is hereby ordered as follows:

SECTION 1. Adoption of Minimum Standards. The Standards of Seismic Safety for Existing Federally Owned or Leased Buildings (Standards), developed, issued, and maintained by the Interagency Committee on Seismic Safety in Construction (ICSSC), are hereby adopted as the minimum level acceptable for use by Federal departments and agencies in assessing the seismic safety of their owned and leased buildings and in mitigating unacceptable seismic risks in those buildings. The Standards shall be applied, at a minimum, to those buildings identified in the Standards as requiring evaluation and, if necessary, mitigation. Evaluations and mitigations that were completed prior to the date of this order under agency programs that were based on standards deemed adequate and appropriate by the individual agency need not be reconsidered unless otherwise stipulated by the Standards.

For the purposes of this order, buildings are defined as any structure, fully or partially enclosed, located within the United States as defined in the Earthquake Hazards Reduction Act of 1977, as amended, (42 U.S.C. 7703(b)), used or intended for sheltering persons or property, except for the exclusions specified in the Standards.

SEC. 2. Estimating Costs of Mitigation. Each agency that owns or leases buildings for Federal use shall, within 3 years of the issuance of this order, develop an inventory of their owned and leased buildings and shall estimate the costs of mitigating unacceptable seismic risks in those buildings. The cost estimate shall be based on the exemptions and evaluation and mitigation requirements in the Standards. Guidance for the development of the inventory and cost estimates will be issued by the ICSSC no later than 1 year after the signing of this order. Cost estimates with supporting documentation shall be submitted to the Director [now Administrator] of the Federal Emergency Management Agency (FEMA) no later than 4 years after the signing of this order.

SEC. 3. Implementation Responsibilities. (a) The Federal Emergency Management Agency is responsible for (1) notifying all Federal departments and agencies of the existence and content of this order; (2) preparing for the Congress, in consultation with the ICSSC, no later than 6 years after the issuance of this order, a comprehensive report on how to achieve an adequate level of seismic safety in federally owned and leased buildings in an economically feasible manner; and (3) preparing for the Congress on a biennial basis, a report on the execution of this order. (b) The National Institute of Standards and Technology is responsible for providing technical assistance to the Federal departments and agencies in the implementation of this order. (c) Federal departments and agencies may request an exemption from this order from the Director of the Office of Management and Budget.

SIC. 4. Updating Programs. The ICSSC shall update the Standards at least every 5 years. It shall also update the Standards within 2 years of the publication of the first edition of FEMA’s Guidelines for Seismic Rehabilitation of Buildings and Commentary.

SIC. 5. Judicial Review. Nothing in this order is intended to create any right to administrative or judicial review, or any other right, benefit, or trust responsibility, substantive or procedural, enforceable at law by any party against the United States, its agencies or instrumentalities, its officers or employees, or any person.

WILLIAM J. CLINTON.

§ 7705c. Acceptance of gifts

(a) Authority

In furtherance of the purposes of this chapter, the Administrator of the Agency may accept gifts, bequests, or donations of services, money, or property, notwithstanding section 1342 of title 31.

(b) Criteria

The Administrator of the Agency shall establish by regulation criteria for determining whether to accept bequests, gifts, or donations of services, money, or property. Such criteria shall take into consideration whether the acceptance of the bequest, gift, or donation would reflect unfavorably on the Administrator’s ability to carry out his responsibilities in a fair and objective manner, or would compromise the integrity of, or the appearance of the integrity of, the Program or any official involved in administering the Program.

CODIFICATION

CHANGE OF NAME

“Administrator of the Agency” and “Administrator’s” substituted for “Director of the Agency” and “Director’s”, respectively, in subsecs. (a) and (b) on authority of section 612(c) of Pub. L. 109–295, set out as a note under section 313 of Title 6, Domestic Security.

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Agency, see section 315(a)(1) of Title 6, Domestic Security.

For transfer of functions, personnel, assets, and liabilities of the Federal Emergency Management Agency, including the functions of the Director of the Federal Emergency Management Agency relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see former section 313(1) and sections 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 522 of Title 6.

§ 7705e. Post-earthquake investigations program

There is established within the United States Geological Survey a post-earthquake investigations program, the purpose of which is to investigate major earthquakes, so as to learn lessons which can be applied to reduce the loss of lives and property in future earthquakes. The United States Geological Survey, in consultation with each Program agency, shall organize investigations to study the implications of the earthquake in the areas of responsibility of each Program agency. The investigations shall begin as rapidly as possible and may be conducted by grantees and contractors. The Program agencies shall ensure that the results of investigations are disseminated widely. The Director of the Survey is authorized to utilize earthquake expertise from the Agency, the National Science Foundation, the National Institute of Standards and Technology, other Federal agencies, and private contractors, on a reimbursable basis, in the conduct of such earthquake investigations. At a minimum, investigations under this section shall include—

(1) analysis by the National Science Foundation and the United States Geological Survey of the causes of the earthquake and the nature of the resulting ground motion;
(2) analysis by the National Science Foundation and the National Institute of Standards and Technology of the behavior of structures and lifelines, both those that were damaged and those that were undamaged; and
(3) analysis by each of the Program agencies of the effectiveness of the earthquake hazards mitigation programs and actions relating to its area of responsibility under the Program, and how those programs and actions could be strengthened.

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emer-
ber 30, 1982, $2,000,000 to carry out the provisions of sections 7704 and 7705 of this title.

(4) There are authorized to be appropriated to the Director, to carry out the provisions of sections 7704 and 7705 of this title, $1,281,000 for the fiscal year ending September 30, 1983; $3,524,000 for the fiscal year ending September 30, 1984; $37,300,000 for the fiscal year ending September 30, 1985; $35,524,000 for the fiscal year ending September 30, 1986; $37,179,000 for the fiscal year ending September 30, 1987; $38,540,000 for the fiscal year ending September 30, 1988; $41,819,000 for the fiscal year ending September 30, 1989; $35,283,000 for the fiscal year ending September 30, 1990, of which $8,000,000 shall be for earthquake investigations under section 7705e of this title; $50,000,000 for the fiscal year ending September 30, 1991; $54,500,000 for the fiscal year ending September 30, 1992; $62,500,000 for the fiscal year ending September 30, 1993; $49,200,000 for the fiscal year ending September 30, 1995; $50,000,000 for the fiscal year ending September 30, 1996; $52,565,000 for the fiscal year ending September 30, 1997; and

(5) There are authorized to be appropriated to the Director, to carry out the provisions of sections 7704 and 7705 of this title, for the fiscal year ending September 30, 1984, $3,705,000, and for the fiscal year ending September 30, 1985, $6,096,000.

(6) There are authorized to be appropriated to the Director, to carry out the provisions of sections 7704 and 7705 of this title, for the fiscal year ending September 30, 1986, $5,596,000, and for the fiscal year ending September 30, 1987, $5,848,000.

(7) There are authorized to be appropriated to the Administrator of the Agency, to carry out this chapter, $5,778,000 for the fiscal year ending September 30, 1988, $5,788,000 for the fiscal year ending September 30, 1989, $8,798,000 for the fiscal year ending September 30, 1990, $14,750,000 for the fiscal year ending September 30, 1991, $19,000,000 for the fiscal year ending September 30, 1992, $22,000,000 for the fiscal year ending September 30, 1993, $25,000,000 for the fiscal year ending September 30, 1995, $25,750,000 for the fiscal year ending September 30, 1996, $30,500,000 for the fiscal year ending September 30, 1997, $21,500,000 for the fiscal year ending September 30, 1999; $19,861,000 for the fiscal year ending September 30, 2001, of which $450,000 is for National Earthquake Hazard Reduction Program-eligible efforts of an established multi-state consortium to reduce the unacceptable threat of earthquake damages in the New Madrid seismic region through efforts to enhance preparedness, response, recovery, and mitigation; $20,705,000 for the fiscal year ending September 30, 2002; and $21,585,000 for the fiscal year ending September 30, 2003.

(8) There are authorized to be appropriated to the Federal Emergency Management Agency for carrying out this chapter—

(A) $21,000,000 for fiscal year 2005,

(B) $21,630,000 for fiscal year 2006,

(C) $22,950,000 for fiscal year 2008,

(D) $21,000,000 for fiscal year 2005,

(E) $22,280,000 for fiscal year 2007,

of which not less than 10 percent of available program funds actually appropriated shall be made available each such fiscal year for supporting the development of performance-based, cost-effective, and affordable design guidelines and methodologies in codes for buildings, structures, and lifelines.

(b) United States Geological Survey

(1) There are authorized to be appropriated to the Secretary of the Interior for purposes for carrying out, through the Director of the United States Geological Survey, the responsibilities that may be assigned to the Director under this chapter $49,360,000 for fiscal year 2001, of which $3,500,000 is for the Global Seismic Network and $100,000 is for the Scientific Earthquake Studies Advisory Committee established under section 7709 of this title; $50,415,000 for fiscal year 2002, of which $3,600,000 is for the Global Seismic Network and $100,000 is for the Scientific Earthquake Studies Advisory Committee; and $52,558,000 for fiscal year 2003, of which $3,700,000 is for the Global Seismic Network and $100,000 is for the Scientific Earthquake Studies Advisory Committee. Of the amounts authorized to be appropriated under this paragraph, at least—

(A) $8,000,000 of the amount authorized to be appropriated for the fiscal year ending September 30, 1998;

(B) $8,250,000 of the amount authorized for the fiscal year ending September 30, 1999;

(C) $9,000,000 of the amount authorized to be appropriated for fiscal year 2001;

(D) $9,250,000 of the amount authorized to be appropriated for fiscal year 2002; and

(E) $9,500,000 of the amount authorized to be appropriated for fiscal year 2003, shall be used for carrying out a competitive, peer-reviewed program under which the Director, in close coordination with and as a complement to related activities of the United States Geological Survey, awards grants to, or enters into cooperative agreements with, State and local governments and persons or entities from the academic community and the private sector.

(2) There are authorized to be appropriated to the United States Geological Survey for carrying out this chapter—

(A) $77,000,000 for fiscal year 2005, of which not less than $30,000,000 shall be made avail-
able for completion of the Advanced National Seismic Research and Monitoring System established under section 7707 of this title;

(B) $84,410,000 for fiscal year 2006, of which not less than $36,000,000 shall be made available for completion of the Advanced National Seismic Research and Monitoring System established under section 7707 of this title;

(C) $85,860,000 for fiscal year 2007, of which not less than $36,000,000 shall be made available for completion of the Advanced National Seismic Research and Monitoring System established under section 7707 of this title;

(D) $87,360,000 for fiscal year 2008, of which not less than $36,000,000 shall be made available for completion of the Advanced National Seismic Research and Monitoring System established under section 7707 of this title; and

(E) $88,900,000 for fiscal year 2009, of which not less than $36,000,000 shall be made available for completion of the Advanced National Seismic Research and Monitoring System established under section 7707 of this title.

(c) National Science Foundation

(1) To enable the Foundation to carry out responsibilities that may be assigned to it under this chapter, there are authorized to be appropriated to the Foundation not to exceed $27,500,000 for the fiscal year ending September 30, 1978; not to exceed $35,000,000 for the fiscal year ending September 30, 1979; not to exceed $40,000,000 for the fiscal year ending September 30, 1980; $26,600,000 for the fiscal year ending September 30, 1981; $27,150,000 for the fiscal year ending September 30, 1982; $25,000,000 for the fiscal year ending September 30, 1983; $25,800,000 for the fiscal year ending September 30, 1984; $28,665,000 for the fiscal year ending September 30, 1985; $27,769,000 for the fiscal year ending September 30, 1986; $29,000,000 for the fiscal year ending September 30, 1987; $28,235,000 for the fiscal year ending September 30, 1988; $31,634,000 for the fiscal year ending September 30, 1989; $38,454,000 for the fiscal year ending September 30, 1990. Of the amounts authorized for Engineering Research and $12,900,000 for geosciences research for fiscal year 2001; $19,808,000 for engineering research and $12,280,000 for geosciences research for the fiscal year ending September 30, 1999. There are authorized to be appropriated to the National Science Foundation: (1) $16,200,000 for engineering research and $10,900,000 for geosciences research for the fiscal year ending September 30, 1995, (2) $16,686,000 for engineering research and $11,227,000 for geosciences research for the fiscal year ending September 30, 1996, (3) $18,450,000 for engineering research and $11,320,000 for geosciences research for the fiscal year ending September 30, 1998, (4) $19,000,000 for engineering research and $12,280,000 for geosciences research for the fiscal year ending September 30, 1999. There are authorized to be appropriated to the National Science Foundation $19,000,000 for engineering research and $11,320,000 for geosciences research for the fiscal year ending September 30, 1998; and $20,650,000 for engineering research and $12,335,000 for geosciences research for fiscal year 2003.

(2) There are authorized to be appropriated to the National Science Foundation for carrying out this chapter—

(A) $38,000,000 for fiscal year 2005;

(B) $39,140,000 for fiscal year 2006;

(C) $40,310,000 for fiscal year 2007;

(D) $41,520,000 for fiscal year 2008; and

(E) $42,770,000 for fiscal year 2009.

(d) National Institute of Standards and Technology

(1) To enable the National Institute of Standards and Technology to carry out responsibilities that may be assigned to it under this chapter, there are authorized to be appropriated $25,000 for the fiscal year ending September 30, 1981; $25,000 for the fiscal year ending September 30, 1982; $475,000 for the fiscal year ending September 30, 1983; $475,000 for the fiscal year ending September 30, 1984; $498,750 for the fiscal year ending September 30, 1985; $499,000 for the fiscal year ending September 30, 1986; $521,000 for the fiscal year ending September 30, 1987; $525,000 for the fiscal year ending September 30, 1988; $525,000 for the fiscal year ending September 30, 1989; $2,332,000 for the fiscal year ending September 30, 1990; $2,534,300 for fiscal year 2003.

(2) There are authorized to be appropriated to the National Institute of Standards and Technology for carrying out this chapter—

(A) $10,000,000 for fiscal year 2005,

(B) $11,000,000 for fiscal year 2006,

(C) $12,100,000 for fiscal year 2007,

(D) $13,310,000 for fiscal year 2008, and

(E) $14,464,000 for fiscal year 2009,

of which $2,000,000 shall be made available each such fiscal year for supporting the development

—So in original. Probably should not be capitalized.
of performance-based, cost-effective, and affordable codes for buildings, structures, and lifelines.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a)(8), (b)(2), (c)(2), and (d)(2), was in the original "this title", and was translated as reading "this Act", meaning Pub. L. 95–124, known as the Earthquake Hazards Reduction Act of 1977, to reflect the probable intent of Congress, because Pub. L. 95–124, which enacted this chapter, does not contain titles.

Section 101(d)(1)(B), (D), (e)(1), and (f)(1) of the National Science Foundation Authorization Act of 1988, referred to in subsec. (c)(1), is section 101(d)(1)(B), (D), (e)(1), and (f)(1) of Pub. L. 100–570, Oct. 1, 1988, 102 Stat. 2865, 2866, which is not classified to the Code.

AMENDMENTS

Subsec. (b). Pub. L. 108–360, §104(a)(2)–(5), designated existing provisions as par. (1) and substituted "paragraph" for "subsection" in last sentence, redesignated former pars. (1) to (5) as subpars. (A) to (E), respectively, and added par. (2).

Subsec. (c). Pub. L. 108–360, §104(a)(6), (7), designated existing provisions as par. (1) and added par. (2).

Subsec. (d). Pub. L. 108–360, §104(a)(8), redesignated existing provisions as par. (1) and added par. (2).

Subsec. (c). Pub. L. 106–503, §202(d), struck out "and" after "1998," and inserted at end "There are authorized to be appropriated for the fiscal year ending September 30, 1999; for the fiscal year ending September 30, 2000; 1999; for the fiscal year ending September 30, 2001; and" for "1999; and 2000;".

$3,700,000 is for the Global Seismic Network and $100,000 is for the Scientific Earthquake Studies Advisory Committee.

Subsec. (b)(3) to (5). Pub. L. 106–503, §202(b)(2)–(4), added paras. (3) to (5).

Subsec. (c). Pub. L. 106–503, §202(d), struck out "and" after "1998," and inserted at end "There are authorized to be appropriated for the National Science Foundation: $19,000,000 for engineering research and $11,900,000 for geosciences research for fiscal year 2001; $19,808,000 for geosciences research for fiscal year 2002; $20,850,000 for geosciences research and $12,908,000 for geosciences research for fiscal year 2003; $20,900,000 for the fiscal year ending September 30, 2001; $2,431,000 for fiscal year 2002, and $2,534,300 for fiscal year 2003;" for "1998, and substituted "1999; for fiscal year 2001, $2,332,000 for fiscal year 2002, and $2,534,300 for fiscal year 2003;" for "1999;".

Subsecs. (d), (e), (f). Pub. L. 106–503, §203, struck out subsecs. (e) and (f), which related, respectively, to funds for certain required adjustments and availability of funds.

1997—Subsec. (a)(7). Pub. L. 105–47, §1(1), struck out "and" after "1995," and inserted before period at end "There are authorized to be appropriated for the fiscal year ending September 30, 1998; and 21,500,000 for the fiscal year ending September 30, 1999;".

Subsec. (b). Pub. L. 105–47, §1(2), substituted "$50,676,000 for the fiscal year ending September 30, 1996; $52,565,000 for the fiscal year ending September 30, 1998; of which $5,800,000 shall be used for the Global Seismic Network operated by the Agency: and $54,052,000 for the fiscal year ending September 30, 1999, of which $3,800,000 shall be used for the Global Seismic Network operated by the Agency. Of the amounts authorized to be appropriated under this subsection, at least—

(1) $8,000,000 of the amount authorized to be appropriated for the fiscal year ending September 30, 1998; and

(2) $8,250,000 of the amount authorized for the fiscal year ending September 30, 1999; shall be used for carrying out a competitive, peer-reviewed program under which the Director, in close coordination with and as a complement to related activities of the United States Geological Survey, awards grants to, or enters into cooperative agreements with, State and local governments and persons or entities from the academic community and the private sector, for —

"There are authorized to be appropriated for the fiscal year ending September 30, 1998, and 2000; for fiscal year 2001; and" for "1998, and 1999; and 2000;".

Subsec. (c). Pub. L. 105–47, §1(3), struck out "and" after "September 30, 1995;" and inserted before period at end "There are authorized to be appropriated for the fiscal year ending September 30, 1998; $2,000,000 for the fiscal year ending September 30, 1999; and $2,060,000 for the fiscal year ending September 30, 1999;".

Subsec. (d). Pub. L. 105–47, §1(4), struck out "and" after "September 30, 1995;" and inserted before period at end "$25,000,000 for the fiscal year ending September 30, 1995, and 25,750,000 for the fiscal year ending September 30, 1996 after September 30, 1995;".

Subsec. (e). Pub. L. 105–47, §§1(2), inserted at end "There are authorized to be appropriated, out of funds otherwise authorized to be appropriated to the National Science Foundation: (1) $18,500,000 for engineering research and $10,900,000 for geosciences research for the fiscal year ending September 30, 1995; and (2)
$16,686,000 for engineering research and $11,227,000 for geosciences research for the fiscal year ending September 30, 1996.

Subsec. (d). Pub. L. 103–374, §1(4), inserted at end "There are authorized to be appropriated, out of funds otherwise authorized to be appropriated to the National Institute of Standards and Technology, $1,900,000 for the fiscal year ending September 30, 1994; $1,957,000 for the fiscal year ending September 30, 1996."

1990—Subsec. (a)(7). Pub. L. 101–614, §12(1), substituted "carry out this chapter" for "carry out the provisions of sections 7704 and 7705 of this title", substituted "$5,798,000" for "and $5,798,000", and inserted before period at end ", $14,750,000 for the fiscal year ending September 30, 1991.

Subsec. (c). Pub. L. 101–614, §12(3), substituted "$55,283,000" for "and $43,283,000" and inserted before period at end ", $8,000,000 shall be for earth-".

"$50,000,000 for the fiscal year ending September 30, 1991; $3,000,000 for the fiscal year ending September 30, 1990—Subsec. (a)(7). Pub. L. 100–252, §1(b), struck out "and" after "1986;" and inserted "": $33,540,000 for the fiscal year ending September 30, 1989; and $43,283,000 for the fiscal year ending September 30, 1990.".

Subsec. (c). Pub. L. 100–252, §1(c), struck out "and" after "1986;" and inserted "": $31,634,000 for the fiscal year ending September 30, 1989; and $43,283,000 for the fiscal year ending September 30, 1990.

"$525,000 for the fiscal year ending September 30, 1983; and $525,000 for the fiscal year ending September 30, 1984.".

Subsec. (d). Pub. L. 100–252, §1(d), struck out "and" after "1986;" and inserted "": $35,578,000 for the fiscal year ending September 30, 1986; and $57,179,000 for the fiscal year ending September 30, 1987.

Subsec. (c). Pub. L. 99–105, §3, struck out "and" after "1984;" and inserted "": $49,900,000 for the fiscal year ending September 30, 1986; and $20,009,000 for the fiscal year ending September 30, 1987.".

Subsec. (d). Pub. L. 99–105, §4, struck out "and" after "1984;" and inserted "": $27,760,000 for the fiscal year ending September 30, 1986; and $20,009,000 for the fiscal year ending September 30, 1987.".

Subsec. (b). Pub. L. 98–241, §101(b), struck out "and" after "1982;" and inserted ": $35,524,000 for the fiscal year ending September 30, 1984, and $37,300,000 for the fiscal year ending September 30, 1985.".

Subsec. (d). Pub. L. 98–241, §101(d), struck out "and" after "1982;" and inserted ": $475,000 for the fiscal year ending September 30, 1984; and $490,750 for the fiscal year ending September 30, 1985.".

Subsec. (e). Pub. L. 97–464, §101(e), substituted "of the fiscal years ending September 30, 1982 and September 30, 1983" for "the fiscal year ending September 30, 1982.".

1980—Subsec. (a). Pub. L. 96–472, §103(a), designated existing provisions as par. (1) and added par. (2).

Subsecs. (b), (c). Pub. L. 96–472, §103(b), (c), inserted authorization for fiscal year ending Sept. 30, 1981.

§ 7707. Advanced National Seismic Research and Monitoring System

(a) Establishment

The Director of the United States Geological Survey shall establish and operate an Advanced National Seismic Research and Monitoring System. The purpose of such system shall be to organize, modernize, standardize, and stabilize the national, regional, and urban seismic monitoring systems in the United States, including sensors, recorders, and data analysis centers, into a coordinated system that will measure and record the full range of frequencies and amplitudes exhibited by seismic waves, in order to enhance earthquake research and warning capabilities.

(b) Management plan

Not later than 90 days after November 13, 2000, the Director of the United States Geological Survey shall transmit to the Congress a 5-year management plan for establishing and operating the Advanced National Seismic Research and Monitoring System. The plan shall include annual cost estimates for both modernization and operation, milestones, standards, and performance goals, as well as plans for securing the participation of all existing networks in the Advanced National Seismic Research and Monitoring System and for establishing new, or enhancing existing, partnerships to leverage resources.

AMENDMENTS

§ 7708. Network for Earthquake Engineering Simulation

(a) Establishment

The Director of the National Science Foundation shall establish the George E. Brown, Jr. Network for Earthquake Engineering Simulation that will upgrade, link, and integrate a system of geographically distributed experimental facilities for earthquake engineering testing of full-sized structures and their components and partial-scale physical models. The system shall be integrated through networking software so that integrated models and databases can be used to create model-based simulation, and the components of the system shall be interconnected with a computer network and allow for remote access, information sharing, and collaborative research.

(b) Authorization of appropriations

In addition to amounts appropriated under section 7706(c) of this title, there are authorized to be appropriated to the National Science Foundation for the George E. Brown, Jr. Network for Earthquake Engineering Simulation—

(1) $28,200,000 for fiscal year 2001;
(2) $24,400,000 for fiscal year 2002;
(3) $4,500,000 for fiscal year 2003;
(4) $17,000,000 for fiscal year 2004;
(5) $20,000,000 for fiscal year 2005, all of which shall be available for operations and maintenance;
(6) $20,400,000 for fiscal year 2006, all of which shall be available for operations and maintenance;
(7) $20,870,000 for fiscal year 2007, all of which shall be available for operations and maintenance;
(8) $21,390,000 for fiscal year 2008, all of which shall be available for operations and maintenance; and
(9) $21,550,000 for fiscal year 2009, all of which shall be available for operations and maintenance.

AMENDMENTS

2004—Subsec. (b)(5) to (9). Pub. L. 108–360 added pars. (5) to (9).

§ 7709. Scientific Earthquake Studies Advisory Committee

(a) Establishment

The Director of the United States Geological Survey shall establish a Scientific Earthquake Studies Advisory Committee.

(b) Organization

The Director shall establish procedures for selection of individuals not employed by the Federal Government who are qualified in the seismic sciences and other appropriate fields and may, pursuant to such procedures, select up to 10 individuals, one of whom shall be designated Chairman, to serve on the Advisory Committee. Selection of individuals for the Advisory Committee shall be based solely on established records of distinguished service, and the Director shall ensure that a reasonable cross-section of views and expertise is represented. In selecting individuals to serve on the Advisory Committee, the Director shall seek and give due consideration to recommendations from the National Academy of Sciences, professional societies, and other appropriate organizations.

(c) Meetings

The Advisory Committee shall meet at such times and places as may be designated by the Chairman in consultation with the Director.

(d) Duties

The Advisory Committee shall advise the Director on matters relating to the United States Geological Survey’s participation in the National Earthquake Hazards Reduction Program, including the United States Geological Survey’s roles, goals, and objectives within that Program, its capabilities and research needs, guidance on achieving major objectives, and establishing and measuring performance goals. The Advisory Committee shall issue an annual report to the Director for submission to Congress on or before September 30 of each year. The report shall describe the Advisory Committee’s activities and address policy issues or matters that affect the United States Geological Survey’s participation in the National Earthquake Hazards Reduction Program.

Codicification

Section was enacted as part of the Earthquake Hazards Reduction Authorization Act of 2000, and not as part of the Earthquake Hazards Reduction Act of 1977 which comprises this chapter.

Termination of Advisory Committees

Advisory committees established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a committee established by the Congress, its duration is otherwise provided for by law. See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 9, Government Organization and Employees.

CHAPTER 87—WATER RESEARCH AND DEVELOPMENT

For similar provisions, see section 10301 et seq. of this title.

Savings Provision

Section 110(b) of Pub. L. 98–242 provided that: “Rules and regulations issued prior to the date of enactment of this Act [Mar. 22, 1984] under the authority of Public Law 95–467 (this chapter) shall remain in full force and effect under this Act [repealing this chapter and enacting chapter 109 (§ 10301 et seq.) of this title] until superseded by new rules and regulations promulgated under this Act.”

Short Title

Section 1 of Pub. L. 95–467, which provided that Pub. L. 95–467 was to be cited as the “Water Research and Development Act of 1978”, was repealed by section 110(a) of Pub. L. 98–242.

SUBCHAPTER I—WATER RESOURCES RESEARCH AND DEVELOPMENT

Section 7819, Pub. L. 95–467, title I, § 109, Oct. 17, 1978, 92 Stat. 1309, provided for study and design of water resources programs and activities and for reports to Congress.

For similar provisions, see section 10301 et seq. of this title.

SUBCHAPTER II—WATER RESEARCH AND DEVELOPMENT FOR SALINE AND OTHER IMPAIRED WATERS

Section 7834, Pub. L. 95–467, title II, § 203, Oct. 17, 1978, 92 Stat. 1311, authorized the Secretary to issue rules and regulations to carry out this subchapter.

For similar provisions, see section 10301 et seq. of this title.

§ 7836. Transferred

Codicification

Additional Authorization of Appropriations

Section 305(c) of Pub. L. 95–467, which authorized an appropriation of $10,000,000 to remain available until expended for the fiscal year ending Sept. 30, 1980, and thereafter in addition to sums previously authorized to be appropriated to carry out the purpose of this section, was repealed by Pub. L. 96–457, § 4, Oct. 15, 1980, 94 Stat. 2034, and Pub. L. 98–242, title I, § 110(a), Mar. 22, 1984, 98 Stat. 101.

SUBCHAPTER III—TECHNOLOGY TRANSFER AND INFORMATION DISSEMINATION

Section 7852, Pub. L. 95–467, title III, § 301, Oct. 17, 1978, 92 Stat. 1312, authorized the Secretary to maintain a national center for acquisition, processing, and dis-
of the Interior in carrying out this chapter.
For similar provisions, see section 10301 et seq. of this title.

SUBCHAPTER IV—GENERAL PROVISIONS

Section 7872, Pub. L. 95–467, title IV, § 1401, Oct. 17, 1978, 92 Stat. 1313; Pub. L. 96–457, §§ 1, 2(a), Oct. 15, 1980, 94 Stat. 2032, authorized appropriation of funds for programs under sections 7811(a) and (c), 7815(a) and (b), and 7819 of this title.
Section 7875, Pub. L. 95–467, title IV, § 404, Oct. 17, 1978, 92 Stat. 1314, related to grant applications, approval of applications by the Secretary, and the basis of approvals.
Section 7878, Pub. L. 95–467, title IV, § 407, Oct. 17, 1978, 92 Stat. 1316, authorized conveyance of property acquired by the Secretary to a cooperating institute, educational institution, or cooperating nonprofit organization, and empowered the Secretary to dispose of water and byproducts resulting from operations under this chapter.
Section 7880, Pub. L. 95–467, title IV, § 409, Oct. 17, 1978, 92 Stat. 1316, provided for annual reports to the Secretary by various water research institutes.
Section 7881, Pub. L. 95–467, title IV, § 410, Oct. 17, 1978, 92 Stat. 1316, provided that the chapter was not intended to repeal, supersede, or diminish existing authorities of agencies concerning water resources, or to be construed to alter existing law with respect to ownership and control of water.
Section 7883, Pub. L. 95–467, title IV, § 412, Oct. 17, 1978, 92 Stat. 1317, provided that authority to enter into contracts or cooperative agreements and to make payments under this chapter was effective only to the extent or in such amounts as were provided in advance in appropriations acts.
For prior provisions, see section 10301 of this title.

LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1982 TO 1984
Pub. L. 97–35, title XVIII, § 1807(b), Aug. 13, 1981, 95 Stat. 765, provided that no funds were authorized to be appropriated to the Secretary of the Interior for the purposes of water resources research and development, saline water research, development, and demonstration, and associated activities in excess of $23,650,000 per fiscal year for each of the fiscal years ending September 30, 1982, September 30, 1983, and September 30, 1984.

CHAPTER 88—URANIUM MILL TAILINGS RADIATION CONTROL

Sec. 7901. Congressional findings and purposes.

SUBCHAPTER I—REMEDIAL ACTION PROGRAM

7911. Definitions.
7912. Processing site designations.
7913. State cooperative agreements.
7914. Acquisition and disposition of lands and materials.
7915. Indian tribe cooperative agreements.
7916. Acquisition of land by Secretary; transfer of public lands by Secretary to Indian tribe; consultation with Governor; consent of Governor; transfer from Federal agency to Secretary.
7917. Financial assistance.
7918. Remedial action and mineral recovery activities.
7919. Rules.
7920. Enforcement.
7921. Public participation; public hearings.
7922. Termination of authority of Secretary.
7923. Limitation of contractual authority.
7924. Reports to Congress.
7925. Active operations; liability for remedial action.

SUBCHAPTER II—STUDY AND DESIGNATION OF TWO MILL TAILING SITES IN NEW MEXICO

7941. Study of authority for regulation and control of residual radioactive materials at New Mexico sites for protection of public health, safety, and the environment; report to Congress and Secretary; basis for determination of adequacy of authority; interim regulation pending completion of study.
7942. Designation by Secretary as processing sites for subchapter I purposes.

§ 7901. Congressional findings and purposes
(a) The Congress finds that uranium mill tailings located at active and inactive mill operations may pose a potential and significant radiation health hazard to the public, and that the protection of the public health, safety, and welfare and the regulation of interstate commerce require that every reasonable effort be made to provide for the stabilization, disposal, and control in a safe and environmentally sound manner of such tailings in order to prevent or minimize radon diffusion into the environment and to prevent or minimize other environmental hazards from such tailings.

(b) The purposes of this chapter are to provide—

(1) in cooperation with the interested States, Indian tribes, and the persons who own or control inactive mill tailings sites, a program of assessment and remedial action at such sites, including, where appropriate, the reprocessing of tailings to extract residual uranium and other mineral values where practicable, in order to stabilize and control such tailings in a safe and environmentally sound manner and to minimize or eliminate radiation health hazards to the public, and
(2) a program to regulate mill tailings during uranium or thorium ore processing at ac-
tive mill operations and after termination of such operations in order to stabilize and control such tailings in a safe and environmentally sound manner and to minimize or eliminate radiation health hazards to the public.

REFERENCES IN TEXT
This chapter, referred to in subsec. (b), was in the original “this Act”, meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3021, as amended, known as the Uranium Mill Tailings Radiation Control Act of 1978. For complete classification of this Act to the Code, see Short Title note below and Tables.

SHORT TITLE OF 1988 AMENDMENT

SHORT TITLE

SUBCHAPTER I—REMEDIAL ACTION PROGRAM

§ 7911. Definitions
For purposes of this subchapter—

(1) The term “Secretary” means the Secretary of Energy.

(2) The term “Commission” means the Nuclear Regulatory Commission.

(3) The term “Administrator” means the Administrator of the Environmental Protection Agency.

(4) The term “Indian tribe” means any tribe, band, clan, group, pueblo, or community of Indians recognized as eligible for services provided by the Secretary of the Interior to Indians.

(5) The term “person” means any individual, association, partnership, corporation, firm, joint venture, trust, government entity, and any other entity, except that such term does not include any Indian or Indian tribe.

(6) The term “processing site” means—

(A) any site, including the mill, containing residual radioactive materials at which all or substantially all of the uranium was produced for sale to any Federal agency prior to January 1, 1971 under a contract with any Federal agency, except in the case of a site at or near Slick Rock, Colorado, unless—

(i) such site was owned or controlled as of January 1, 1978, or is thereafter owned or controlled, by any Federal agency, or

(ii) a license (issued by the Commission or its predecessor agency under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] or by a State as permitted under section 274 of such Act [42 U.S.C. 2021]) for the production at such site of any uranium or thorium product derived from ores is in effect on January 1, 1978, or is issued or renewed after such date; and

(B) any other real property or improvement thereon which—

(i) is in the vicinity of such site, and

(ii) is determined by the Secretary, in consultation with the Commission, to be contaminated with residual radioactive materials derived from such site.

Any ownership or control of an area by a Federal agency which is acquired pursuant to a cooperative agreement under this subchapter shall not be treated as ownership or control by such agency for purposes of subparagraph (A)(i). A license for the production of any uranium product from residual radioactive materials shall not be treated as a license for production from ores within the meaning of subparagraph (A)(ii) if such production is in accordance with section 7918(b) of this title.

(7) The term “residual radioactive material” means—

(A) waste (which the Secretary determines to be radioactive) in the form of tailings resulting from the processing of ores for the extraction of uranium and other valuable constituents of the ores; and

(B) other waste (which the Secretary determines to be radioactive) at a processing site which relate to such processing, including any residual stock of unprocessed ores or low-grade materials.

(8) The term “tailings” means the remaining portion of a metal-bearing ore after some or all of such metal, such as uranium, has been extracted.

(9) The term “Federal agency” includes any executive agency as defined in section 105 of title 5.

(10) The term “United States” means the 48 contiguous States and Alaska, Hawaii, Puerto Rico, the District of Columbia, and the territories and possessions of the United States.

REFERENCES IN TEXT

§ 7912. Processing site designations
(a) Specific and other site locations; remedial action; consultations; boundaries; Grand Junction, Colorado, site restriction

(1) As soon as practicable, but no later than one year after November 8, 1978, the Secretary shall designate processing sites at or near the following locations:

Salt Lake City, Utah
Green River, Utah
Mexican Hat, Utah
Durango, Colorado
Grand Junction, Colorado
Rifle, Colorado (two sites)
Gunnison, Colorado
Naturita, Colorado
Maybell, Colorado
Slick Rock, Colorado (two sites)
Shiprock, New Mexico
Ambrosia Lake, New Mexico
Riverton, Wyoming
Converse County, Wyoming
Lakeview, Oregon
Falls City, Texas
Tuba City, Arizona
Monument Valley, Arizona
Lowman, Idaho
Cannonsburg, Pennsylvania

Subject to the provisions of this subchapter, the Secretary shall complete remedial action at the above listed sites before his authority terminates under this subchapter. The Secretary shall within one year of November 8, 1978, also designate all other processing sites within the United States which he determines requires remedial action to carry out the purposes of this subchapter. In making such designation, the Secretary shall consult with the Administrator, the Commission, and the affected States, and in the case of Indian lands, the appropriate Indian tribe and the Secretary of the Interior.

(2) Notwithstanding the one year limitation prescribed in section 7911(6)(B) of this title as part of a processing site designated under this section if he determines such inclusion to be appropriate to carry out the purposes of this subchapter.

(3) The Secretary shall designate as a processing site within the meaning of section 7911(6) of this title any real property, or improvements thereon, in Edgemont, South Dakota, that—
(A) is in the vicinity of the Tennessee Valley Authority uranium mill site at Edgemont (but not including such site), and
(B) is determined by the Secretary to be contaminated with residual radioactive materials.

In making the designation under this paragraph, the Secretary shall consult with the Administrator, the Commission and the State of South Dakota. The provisions of this subchapter shall apply to the site so designated in the same manner and to the same extent as to the sites designated under subsection (a) of this section except that, in applying such provisions to such site, any reference in this subchapter to November 8, 1978, shall be treated as a reference to January 4, 1983, and in determining the State share under section 7917 of this title, the costs of remedial action, there shall be credited to the State, expenditures made by the State prior to January 4, 1983, which the Secretary determines would have been made by the State or the United States in carrying out the requirements of this subchapter.

(f) Designation of Moab Site as processing site

(1) Designation

Notwithstanding any other provision of law, the Moab uranium milling site (referred to in this subsection as the "Moab site") located approximately three miles northwest of Moab, Utah, and identified in the Final Environmental Impact Statement issued by the Nuclear Regulatory Commission in March 1986 in conjunction with Source Materials License No. SUA–917, is designated as a processing site.

(2) Applicability

This subchapter applies to the Moab site in the same manner and to the same extent as to other processing sites designated under subsection (a) of this section, except that—
(A) sections 7913, 7914(b), 7917(a), 7922(a), 7925(a) of this title shall not apply; and
(B) a reference in this subchapter to November 8, 1978, shall be treated as a reference to October 30, 2000.

(3) Remediation

Subject to the availability of appropriations for this purpose, the Secretary shall conduct remediation at the Moab site in a safe and environmentally sound manner that takes into consideration the remedial action plan prepared pursuant to section 366(d) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (10 U.S.C. 7420 note; Public Law 105–261), including—
(A) ground water restoration; and
(B) the removal, to a site in the State of Utah, for permanent disposal, and any necessary stabilization, of residual radioactive material and other contaminated material from the Moab site and the floodplain of the Colorado River.
(a) Authority of Secretary; prompt commencement of preparations

After notifying a State of the designation referred to in section 7912 of this title, the Secretary subject to section 7923 of this title, is authorized to enter into cooperative agreements with such State to perform remedial actions at each designated processing site in such State (other than a site located on Indian lands referred to in section 7915 of this title). The Secretary shall, to the greatest extent practicable, enter into such agreements and carry out such remedial actions in accordance with the priorities established by him under section 7912 of this title. The Secretary shall commence preparations for cooperative agreements with respect to each designated processing site as promptly as practicable following the designation of each site.

(b) Terms and conditions; limitation of Federal assistance

Each cooperative agreement under this section shall contain such terms and conditions as the Secretary deems appropriate and consistent with the purposes of this chapter, including, but not limited to, a limitation on the use of Federal assistance to those costs which are directly required to complete the remedial action selected pursuant to section 7918 of this title.

(c) Written consent of record interest holder; waiver

(1) Except where the State is required to acquire the processing site as provided in subsection (a) of section 7914 of this title, each cooperative agreement with a State under this section shall provide that the State shall obtain, in a form prescribed by the Secretary, written consent from any person holding any record interest in the designated processing site for the Secretary or any person designated by him to perform remedial action at such site.

(2) Such written consent shall include a waiver by each such person on behalf of himself, his heirs, successors, and assigns—

(A) releasing the United States of any liability or claim thereof by such person, his heirs, successors, and assigns concerning such remedial action, and

(B) holding the United States harmless against any claim by such person on behalf of himself, his heirs, successors, or assigns arising out of the performance of any such remedial action.

(d) Inspection entries; termination of right of entry

Each cooperative agreement under this section shall require the State to assure that the Secretary, the Commission, and the Administrator and their authorized representatives have a permanent right of entry at any time to inspect the processing site and the site provided pursuant to section 7914(b)(1) of this title in furtherance of the provisions of this subchapter and to carry out such agreement and enforce this chapter and any rules prescribed under this chapter. Such right of entry under this section or section 7916 of this title into an area described in section 7911(f)(B) of this title shall terminate on completion of the remedial action, as determined by the Secretary.

(e) Effective date

Each agreement under this section shall take effect only upon the concurrence of the Commission with the terms and conditions thereof.

(f) Reimbursement

The Secretary may, in any cooperative agreement entered into under this section or section 7915 of this title, provide for reimbursement of the actual costs, as determined by the Secretary, of any remedial action performed with respect to so much of a designated processing site as is described in section 7911(f)(B) of this title. Such reimbursement shall be made only to a property owner of record at the time such remedial action was undertaken and only with respect to costs incurred by such property owner. No such reimbursement may be made unless—

(1) such remedial action was completed prior to November 8, 1978, and unless the application for such reimbursement was filed by such owner within one year after an agreement under this section or section 7915 of this title is approved by the Secretary and the Commission, and

(2) the Secretary is satisfied that such action adequately achieves the purposes of this chapter with respect to the site concerned and is consistent with the standards established by the Administrator pursuant to section 2022(a) of this title.

References in Text

This chapter, referred to in subsections (b), (d), and (f)(2), was in the original “this Act”, meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3021, known as the Uranium Mill Tailings Radiation Control Act of 1978. For complete classification of this Act to the Code, see Short Title note under section 7901 of this title and Tables.
sideration shall be given to the prevention of windfall profits.

(b) Disposition and stabilization site for residual radioactive materials; Federal site available

(1) If the Secretary with the concurrence of the Commission determines that removal of residual radioactive material from a processing site is appropriate, the cooperative agreement shall provide that the State shall acquire land (including, where appropriate, any interest therein) to be used as a site for the permanent disposition and stabilization of such residual radioactive materials in a safe and environmentally sound manner.

(2) Acquisition by the State shall not be required under this subsection if a site located on land controlled by the Secretary or made available by the Secretary of the Interior pursuant to section 7916(2) of this title is designated by the Secretary, with the concurrence of the Commission, for such disposition and stabilization.

(c) Boundary limitations

No State shall be required under subsection (a) or (b) of this section to acquire any real property or improvement outside the boundaries of:

(1) that portion of the processing site which is described in section 7911(6)(A) of this title, and

(2) the site used for disposition of the residual radioactive materials.

(d) Purchasers of sites; notification; rules and regulations

In the case of each processing site designated under this subchapter other than a site designated on Indian land, the State shall take such action as may be necessary, and pursuant to regulations of the Secretary under this subsection, to assure that any person who purchases such a processing site after the removal of radioactive materials from such site shall be notified in an appropriate manner prior to such purchase, of the nature and extent of residual radioactive materials removed from the site, including notice of the date when such action took place, and the condition of such site after such action.

If the State is the owner of such site, the State shall notify any prospective purchaser before entering into a contract, option, or other arrangement to sell or otherwise dispose of such site. The Secretary shall issue appropriate rules and regulations to require notice in the local land records of the residual radioactive materials which were located at any processing site and notice of the nature and extent of residual radioactive materials removed from the site, including notice of the date when such action took place.

For purposes of this subsection, the term “site” does not include any property described in section 7911(6)(B) of this title which is in a State which the Secretary has certified has a program which would achieve the purposes of this subsection.

(e) State disposition; terms and conditions; fair market value; offer of sale to prior owner

(1) The terms and conditions of any cooperative agreement with a State under section 7913 of this title shall provide that in the case of any lands or interests therein acquired by the State pursuant to subsection (a) of this section, the State, with the concurrence of the Secretary and the Commission, may—

(A) sell such lands and interests,

(B) permanently retain such land and interests in lands (or donate such lands and interests therein to another governmental entity within such State) for permanent use by such State or entity solely for park, recreational, or other public purposes, or

(C) transfer such lands and interests to the United States as provided in subsection (f) of this section.

No lands may be sold under subparagraph (A) without the consent of the Secretary and the Commission. No site may be sold under subparagraph (A) or retained under subparagraph (B) if such site is used for the disposition of residual radioactive materials.

(2) Before offering for sale any lands and interests therein which comprise a processing site, the State shall offer to sell such lands and interests at their fair market value to the person from whom the State acquired them.

(f) Transfer of title to Secretary; payment from funds for administrative and legal costs; custody of property; compliance with health and environmental standards for uranium mill tailings; transfer of title restriction

(1) Each agreement under section 7913 of this title shall provide that title to—

(A) the residual radioactive materials subject to the agreement, and

(B) any lands and interests therein which have been acquired by the State, under subsection (a) or (b) of this section, for the disposition of such materials,

shall be transferred by the State to the Secretary when the Secretary (with the concurrence of the Commission) determines that remedial action is completed in accordance with the requirements imposed pursuant to this subchapter. No payment shall be made in connection with the transfer of such property from funds appropriated for purposes of this chapter other than payments for any administrative and legal costs incurred in carrying out such transfer.

(2) Custody of any property transferred to the United States under this subsection shall be assumed by the Secretary or such Federal agency as the President may designate. Notwithstanding any other provision of law, upon completion of the remedial action program authorized by this subchapter, such property and minerals shall be maintained pursuant to a license issued by the Commission in such manner as will protect the public health, safety, and the environment. The Commission may, pursuant to such license or by rule or order, require the Secretary or other Federal agency having custody of such property and minerals to undertake such monitoring, maintenance, and emergency measures necessary to protect public health and safety and other actions as the Commission deems necessary to comply with the standards of section 2002(a) of this title. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring and emergency measures...
under this subsection, but shall take no other action pursuant to such license, rule or order with respect to such property and minerals unless expressly authorized by Congress after November 8, 1978. The United States shall not transfer title to property or interest therein acquired under this subsection to any person or State, except as provided in subsection (h) of this section.

(g) Reimbursement; fair market value; deposits in Treasury

Each agreement under section 7913 of this title which permits any sale described in subsection (b)(1) or (A) of this section shall provide for the prompt reimbursement to the Secretary from the proceeds of such sale. Such reimbursement shall be in an amount equal to the lesser of—

(1) that portion of the fair market value of the lands or interests therein which bears the same ratio to such fair market value as the Federal share of the costs of acquisition by the State to such lands or interest therein bears to the total cost of such acquisition, or

(2) the total amount paid by the Secretary with respect to such acquisition.

The fair market value of such lands or interest shall be determined by the Secretary as of the date of the sale by the State. Any amounts received by the Secretary under this subchapter shall be deposited in the Treasury of the United States as miscellaneous receipts.

(b) Subsurface mineral rights; sale, lease, or other disposition; restoration costs for disturbance of residual radioactive materials

No provision of any agreement under section 7913 of this title shall prohibit the Secretary of the Interior, with the concurrence of the Secretary of Energy and the Commission, from disposing of any subsurface mineral rights by sale or lease (in accordance with laws of the United States applicable to the sale, lease, or other disposal of such rights) which are associated with land on which residual radioactive materials are disposed and which are transferred to the United States as required under this section if the Secretary of the Interior takes such action as the Commission deems necessary pursuant to a license issued by the Commission to assure that the residual radioactive materials will not be disturbed by reason of any activity carried on following such disposition. If any such materials are disturbed by any such activity, the Secretary of the Interior shall take such action as the Secretary deems necessary pursuant to a license issued by the Commission to assure that the residual radioactive materials will not be disturbed by reason of any activity carried on following such disposition. If any such materials are disturbed by any such activity, the Secretary of the Interior shall take such action as the Commission deems necessary pursuant to a license issued by the Commission to assure that the residual radioactive materials will not be disturbed by reason of any activity carried on following such disposition.

REFERENCES IN TEXT

This chapter, referred to in subsec. (f)(1), was in the original “this Act”, meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3021, known as the Uranium Mill Tailings Radiation Control Act of 1978. For complete classifica-
with other applicable provisions of law, a site or sites for the permanent disposition and stabilization in a safe and environmentally sound manner of such residual radioactive materials. Such materials shall be transferred to the Secretary (without payment therefore by the Secretary) and permanently retained and maintained by the Secretary under the conditions established in a license issued by the Commission, subject to section 7914(f)(2) and (h) of this title.

§ 7916. Acquisition of land by Secretary; transfer of public lands by Secretary of the Interior to Secretary; consultations with Governor; consent of Governor; transfer from Federal agency to Secretary

Where necessary or appropriate in order to consolidate in a safe and environmentally sound manner the location of residual radioactive materials which are removed from processing sites under cooperative agreements under this subchapter, or where otherwise necessary for the permanent disposition and stabilization of such materials in such manner—

(1) the Secretary may acquire land and interests in land for such purposes by purchase, donation, or under any other authority of law or

(2) the Secretary of the Interior may transfer permanently to the Secretary to carry out the purposes of this chapter, public lands under the jurisdiction of the Bureau of Land Management in the vicinity of processing sites in the following counties:

(A) Apache County in the State of Arizona;
(B) Mesa, Gunnison, Moffat, Montrose, Garfield, and San Miguel Counties in the State of Colorado;
(C) Boise County in the State of Idaho;
(D) Billings and Bowman Counties in the State of North Dakota;
(E) Grand and San Juan Counties in the State of Utah;
(F) Converse and Fremont Counties in the State of Wyoming; and

(G) Any other county in the vicinity of a processing site, if no site in the county in which a processing site is located is suitable.

Any permanent transfer of lands under the jurisdiction of the Bureau of Land Management by the Secretary of the Interior to the Secretary shall not take place until the Secretary complies with the requirements of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) with respect to the selection of a site for the permanent disposition and stabilization of residual radioactive materials. Section 1714 of title 43 shall not apply to this transfer of jurisdiction.

Prior to acquisition of land under paragraph (1) or (2) of this subsection 1 in any State, the Secretary shall consult with the Governor of such State. No lands may be acquired under such paragraph (1) or (2) in any State in which there is no (1) processing site designated under this subchapter or (2) active uranium mill operation, unless the Secretary has obtained the consent of the Governor of such State. No lands controlled by any Federal agency may be transferred to the Secretary to carry out the purposes of this chapter without the concurrence of the chief administrative officer of such agency.

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3021, as amended, known as the Uranium Mill Tailings Radiation Control Act of 1978. For complete classification of this Act to the Code, see Short Title note set out under section 7901 of this title and Tables.

AMENDMENTS

1988—Par. (2). Pub. L. 100–616 added par. (2) and concluding provisions and struck out former par. (2) and concluding provisions which read as follows:

"(2) the Secretary of the Interior may make available public lands administered by him for such purposes in accordance with other applicable provisions of law.

Prior to acquisition of land under paragraph (1) or (2) of this subsection in any State, the Secretary shall consult with the Governor of such State. No lands may be acquired under such paragraph (1) or (2) in any State in which there is no (1) processing site designated under this subchapter or (2) active uranium mill operation, unless the Secretary has obtained the consent of the Governor of such State. No lands controlled by any Federal agency may be transferred to the Secretary to carry out the purposes of this chapter without the concurrence of the chief administrative officer of such agency."

§ 7917. Financial assistance

(a) Federal and non-Federal funds; administrative costs

In the case of any designated processing site for which an agreement is executed with any State for remedial action at such site, the Secretary shall pay 90 per centum of the actual cost of such remedial action, including the actual costs of acquiring such site (and any interest therein) or any disposition site (and any interest therein) pursuant to section 7913 of this title, and the State shall pay the remainder of such costs from non-Federal funds. The Secretary shall not pay the administrative costs incurred by any State to develop, prepare, and carry out any cooperative agreement executed with such State under this subchapter, except the proportionate share of the administrative costs associated with the acquisition of lands and interests therein acquired by the State pursuant to this subchapter.

1 So in original. Probably should be "section".
§ 7918. Remedial action and mineral recovery activities

(a) General standards for remedial action; Federal performance and State participation; use of technology; promulgation of standards

(1) The Secretary or such person as he may designate shall select and perform remedial actions at designated processing sites and disposal sites in accordance with the general standards prescribed by the Administrator pursuant to section 275 a. of the Atomic Energy Act of 1954 [42 U.S.C. 2022(a)]. The State shall participate fully in the selection and performance of a remedial action for which it pays part of the cost. Such remedial action shall be selected and performed with the concurrence of the Commission and, as appropriate, with the Indian tribe and the Secretary of the Interior. Residual radioactive material from a processing site designated under this subchapter may be disposed of at a facility licensed under title II under the administrative and technical requirements of such title. Disposal of such material at such a site in accordance with such requirements shall be considered to have been done in accordance with the administrative and technical requirements of this subchapter.

(2) The Secretary shall use technology in performing such remedial action as will insure compliance with the general standards promulgated by the Administrator under section 275 a. of the Atomic Energy Act of 1954 [42 U.S.C. 2022(a)] and will assure the safe and environmentally sound stabilization of residual radioactive materials, consistent with existing law.

(3) Notwithstanding paragraphs (1) and (2) of this subsection, after October 31, 1982, if the Administrator has not promulgated standards under section 275 a. of the Atomic Energy Act of 1954 [42 U.S.C. 2022(a)] in final form by such date, remedial action taken by the Secretary under this subchapter shall comply with the standards proposed by the Administrator under such section 275 a. until such time as the Administrator promulgates the standards in final form.

(b) Mineral concentration evaluation; terms and conditions for mineral recovery; payment of Federal and State share of net profits; recovery costs; licenses

Prior to undertaking any remedial action at a designated site pursuant to this subchapter, the Secretary shall request expressions of interest from private parties regarding the remilling of the residual radioactive materials and the site and, upon receipt of any expression of interest, the Secretary shall evaluate among other things the mineral concentration of the residual radioactive materials at each designated processing site to determine whether, as a part of any remedial action program, recovery of such minerals is practicable. The Secretary, with the concurrence of the Commission, may permit the recovery of such minerals, under such terms and conditions as he may prescribe to carry out the purposes of this subchapter. No such recovery shall be permitted unless such recovery is consistent with remedial action. Any person permitted by the Secretary to recover such mineral shall pay to the Secretary a share of the net profits derived from such recovery, as determined by the Secretary. Such share shall not exceed the total amount paid by the Secretary for carrying out remedial action at such designated site. After payment of such share to the United States under this subsection, such person shall pay to the State in which the residual radioactive materials are located a share of the net profits derived from such recovery, as determined by the Secretary. The person recovering such minerals shall bear all costs of such recovery. Any person carrying out mineral recovery activities under this paragraph shall be required to obtain any necessary license under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] or under State law as permitted under section 274 of such Act [42 U.S.C. 2021].

§ 7919. Rules

The Secretary may prescribe such rules consistent with the purposes of this chapter as he deems appropriate pursuant to title V of the Department of Energy Organization Act [42 U.S.C. 7191 et seq.].

Amendments

1983—Subsec. (a)(2). Pub. L. 97–415, § 18(b)(2), struck out provision that no such remedial action could be undertaken under this section before the promulgation by the Administrator of general standards pursuant to section 275 a. of the Atomic Energy Act of 1954.

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3030.
§ 7920. Enforcement

(a) Civil penalty; appellate review; action to recover civil penalty; sovereign immunity; equitable remedies

(1) Any person who violates any provision of this subchapter or any cooperative agreement entered into pursuant to this subchapter or any rule prescribed under this chapter concerning any designated processing site, disposition site, or remedial action shall be subject to an assessment by the Secretary of a civil penalty of not more than $1,000 per day per violation. Such assessment shall be made by order after notice and an opportunity for a public hearing, pursuant to section 554 of title 5. The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

(2) Any person against whom a penalty is assessed under this section may, within sixty calendar days after the date of the order of the Secretary assessing such penalty, institute an action in the United States court of appeals for the appropriate judicial circuit for judicial review of such order in accordance with chapter 7 of title 5. The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

(3) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, the Secretary shall institute an action to recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review. Section 7172(d) of this title shall not apply with respect to the functions of the Secretary under this section.

(4) No civil penalty may be assessed against the United States or any State or political subdivision of a State or any official or employee of the foregoing.

(5) Nothing in this section shall prevent the Secretary from enforcing any provision of this subchapter or any cooperative agreement or any such rule by injunction or other equitable remedy.

(b) Atomic energy licensing requirements

Subsection (a) of this section shall not apply to any licensing requirement under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.]. Such licensing requirements shall be enforced by the Commission as provided in such Act.

REFERENCES IN TEXT

This chapter, referred to in subsec. (a)(1), was in the original “this Act”, meaning Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3031, known as the Uranium Mill Tailings Radiation Control Act of 1978. For complete classification of this Act to the Code, see Short Title note under section 7901 of this title and Tables.

§ 7921. Public participation; public hearings

In carrying out the provisions of this subchapter, including the designation of processing sites, establishing priorities for such sites, the selection of remedial actions, and the execution of cooperative agreements, the Secretary, the Administrator, and the Commission shall encourage public participation and, where appropriate, the Secretary shall hold public hearings relative to such matters in the States where processing sites and disposal sites are located.

§ 7922. Termination of authority of Secretary

(a) Exceptions; “byproduct material” defined

(1) The authority of the Secretary to perform remedial action under this subchapter shall terminate on September 30, 1998, except that—

(A) the authority of the Secretary to perform groundwater restoration activities under this subchapter is without limitation, and

(B) the Secretary may continue operation of the disposal site in Mesa County, Colorado (known as the Cheney disposal cell) for receiving and disposing of residual radioactive material from processing sites and of byproduct material from property in the vicinity of the uranium milling site located in Monticello, Utah, until the Cheney disposal cell has been filled to the capacity for which it was designed, or September 30, 2023, whichever comes first.

(2) For purposes of this subsection, the term “byproduct material” has the meaning given that term in section 2014(e)(2) of this title.

(b) Authorization of appropriations

The amounts authorized to be appropriated to carry out the purposes of this subchapter by the Secretary, the Administrator, the Commission, and the Secretary of the Interior shall not exceed such amounts as are established in annual authorization Acts for fiscal year 1979 and each fiscal year thereafter applicable to the Department of Energy. Any sums appropriated for the purposes of this subchapter shall be available until expended.

AMENDMENTS

1996–Subsec. (a). Pub. L. 104–259 amended subsec. (a) generally. Prior to amendment, subsec. (a) read as follows: “The authority of the Secretary to perform remedial action under this subchapter shall terminate on
§ 7923. Limitation of contractual authority

The authority under this subchapter to enter into contracts or other obligations requiring the United States to make outlays may be exercised only to the extent provided in advance in annual authorization and appropriation Acts.

§ 7924. Reports to Congress

(a) Information; consultations; separate official views; partial report concerning uranium mill tailings provisions

Beginning on January 1, 1980, and each year thereafter until January 1, 1986, the Secretary shall submit a report to the Congress with respect to the status of the actions required to be taken by the Secretary, the Commission, the Secretary of the Interior, the Administrator, and the States and Indian tribes under this chapter and any amendments to other laws made by this Act. Each report shall—

(1) include data on the actual and estimated costs of the program authorized by this subchapter;

(2) describe the extent of participation by the States and Indian tribes in this program;

(3) evaluate the effectiveness of remedial actions, and describe any problems associated with the performance of such actions; and

(4) contain such other information as may be appropriate.

Such report shall be prepared in consultation with the Commission, the Secretary of the Interior, and the Administrator and shall contain their separate views, comments, and recommendations, if any. The Commission shall submit to the Secretary and Congress such portion of the report under this subsection as relates to the authorities of the Commission under title II of this Act.

(b) Identification of sites; Federal agency jurisdiction; contents; duplication prohibition; use and cooperation respecting other Federal agency information

Not later than July 1, 1979, the Secretary shall provide a report to the Congress which identifies all sites located on public or acquired lands of the United States containing residual radioactive materials and other radioactive waste (other than waste resulting from the production of electric energy) and specifies which Federal agency has jurisdiction over such sites. The report shall include the identity of property and other structures in the vicinity of such site that are contaminated or may be contaminated by such materials and the actions planned or taken to remove such materials. The report shall describe in what manner such sites are adequately stabilized and otherwise controlled to prevent radon diffusion from such sites into the environment and other environmental harm. If any site is not so stabilized or controlled, the report shall describe the remedial actions planned for such site and the time frame for performing such actions. In preparing the reports under this section, the Secretary shall avoid duplication of previous or ongoing studies and shall utilize all information available from other departments and agencies of the United States respecting the subject matter of such report. Such agencies shall cooperate with the Secretary in the preparation of such report and furnish such information as available to them and necessary for such report.

(c) Uranium mine wastes hazards elimination program

Not later than January 1, 1980, the Administrator, in consultation with the Commission, shall provide a report to the Congress which identifies the location and potential health, safety, and environmental hazards of uranium mine wastes together with recommendations, if any, for a program to eliminate these hazards.

(d) Reports to Congressional committees

Copies of the reports required by this section to be submitted to the Congress shall be separately submitted to the Committees on Interior and Insular Affairs and on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(e) Documentation of information; public availability; trade secrets and other disclosure exempt information

The Commission, in cooperation with the Secretary, shall ensure that any relevant information, other than trade secrets and other proprietary information otherwise exempt from mandatory disclosure under any other provision of law, obtained from the conduct of each of the remedial actions authorized by this subchapter and the subsequent perpetual care of those residual radioactive materials is documented systematically, and made publicly available conveniently for use.

Title II of this Act, referred to in subsec. (a), is title II (§§201–209) of Pub. L. 95–604, Nov. 8, 1978, 92 Stat. 3033, as amended, which enacted sections 2022, 2113, and 2114 of this title, amended sections 2024, 2025, 2111, and 2201 of this title, and enacted provisions set out as notes under sections 2024, 2025, and 2113 of this title. For complete classification of title II to the Code, see Tables.
§ 7925. Active operations; liability for remedial action

(a) No amount may be expended under this subchapter with respect to any site licensed by the Commission under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] or by a State as permitted under section 274 of such Act [42 U.S.C. 2021] at which production of any uranium product from ores (other than from residual radioactive materials) takes place. This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal.

(b) In the case of each processing site designated under this subchapter, the Attorney General shall conduct a study to determine the identity and legal responsibility which any person (other than the United States, a State, or Indian tribe) who owned or operated or controlled (as determined by the Attorney General) such site before November 8, 1978, may have under any law or rule of law for reclamation or other remedial action with respect to such site. The Attorney General shall publish the results of such study, and provide copies thereof to the Congress, as promptly as practicable following November 8, 1978. The Attorney General, based on such study, shall, to the extent he deems it appropriate and in the public interest, take such action under any provision of law in effect when uranium was produced at such site to require payment by such person of all or any part of the costs incurred by the United States for such remedial action for which he determines such person is liable.

AMENDMENTS

1996—Subsec. (a). Pub. L. 104–259 inserted at end "This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal."

SUBCHAPTER II—STUDY AND DESIGNATION OF TWO MILL TAILING SITES IN NEW MEXICO

§ 7941. Study of authority for regulation and control of residual radioactive materials at New Mexico sites for protection of public health, safety, and the environment; report to Congress and Secretary; basis for determination of inadequacy of authority; interim regulation pending completion of study

The Commission, in consultation with the Attorney General and the Attorney General of the State of New Mexico, shall conduct a study to determine the extent and adequacy of the authority of the Commission and the State of New Mexico to require, under the Atomic Energy Act of 1954 (as amended by title II of this Act) [42 U.S.C. 2011 et seq.] or under State authority as permitted under section 274 of such Act [42 U.S.C. 2021] or under other provision of law, the owners of the following active uranium mill sites to undertake appropriate action to regulate and control all residual radioactive materials at such sites to protect public health, safety, and the environment: the former Homestake-New Mexico Partners site near Milan, New Mexico, and the Anaconda carbonate process tailings site near Bluewater, New Mexico. Such study shall be completed and a report thereof submitted to the Congress and to the Secretary within one year after November 8, 1978, together with such recommendations as may be appropriate. If the Commission determines that such authority is not adequate to regulate and control such materials at such sites in the manner provided in the first sentence of this section, the Commission shall include in the report a statement of the basis for such determination. Nothing in this chapter shall be construed to prevent or delay action by a State as permitted under section 274 of the Atomic Energy Act of 1954 [42 U.S.C. 2021] or under other provision of law or by the Commission to regulate such residual radioactive materials at such sites prior to completion of such study.

§7942. Designation by Secretary as processing sites for subchapter I purposes

(a) New Mexico cooperative agreement respecting certain residual radioactive materials; submission to Congressional committees

Within ninety days from the date of his receipt of the report and recommendations submitted by the Commission under section 7941 of this title, notwithstanding the limitations contained in section 7911(c)(A) and in section 7925(a) of this title, if the Commission determines, based on such study, that such sites cannot be regulated and controlled by the State or the Commission in the manner described in section 7941 of this title, the Secretary may designate either or both of the sites referred to in section 7941 of this title as a processing site for purposes of subchapter I of this chapter. Following such designation, the Secretary may enter into cooperative agreements with New Mexico to perform remedial action pursuant to such subchapter I concerning only the residual radioactive materials at such site resulting from uranium produced for sale to a Federal agency prior to January 1, 1971, under contract with such agency. Any such designation shall be submitted by the Secretary, together with his estimate of the cost of carrying out such remedial action at the designated site, to the Committee on Interior and Insular Affairs and the Committee on Energy and Commerce of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate.

(b) Effective date

(1) No designation under subsection (a) of this section shall take effect before the expiration of one hundred and twenty calendar days (not including any day in which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain or an adjournment sine die) after receipt by such Committees of such designation.

(c) Subchapter I provisions applicable

Except as otherwise specifically provided in subsection (a) of this section, any remedial action under subchapter I of this chapter with respect to any sites designated under this subchapter shall be subject to the provisions of subchapter I of this chapter (including the authorization of appropriations referred to in section 7922(b) of this title).

§8001. Congressional findings

The Congress finds that—

(1) congregate housing, coordinated with the delivery of supportive services, offers an innovative, proven, and cost-effective means of enabling temporarily disabled or handicapped individuals to maintain their dignity and independence and to avoid costly and unnecessary institutionalization;

(2) a large and growing number of elderly and handicapped residents of public housing projects and of nonprofit projects for the elderly and handicapped face premature and unnecessary institutionalization because of the absence of or deficiencies in the availability, adequacy, coordination, or delivery of the supportive services required for the successful development of adequate numbers of congregate housing projects; and

(3) supplemental supportive services, available on a secure and continuing basis, are essential to a successful congregate housing program.

Short Title

Public Law 111–374, §1(a), Jan. 4, 2011, 124 Stat. 4089, provided that: “This Act [amending section 8013 of this title and enacting provisions set out as a note under section 8013 of this title] may be cited as the ‘Frank Melville Supportive Housing Investment Act of 2010’.”
§ 8002. Definitions

For the purpose of this chapter—

(1) the term “congregate housing” means (A) low-rent housing which, as of January 1, 1979, was built or under construction, with which there is connected a central dining facility where wholesome and economical meals can be served to such occupants; or (B) low-rent housing constructed after, but not under construction prior to, January 1, 1979, connected with which there is a central dining facility to provide wholesome and economical meals for such occupants;

(2) the term “congregate services programs” means programs to be undertaken by a public housing agency or a nonprofit corporation to provide assistance, including personal assistance and nutritional meals, to eligible project residents who, with such assistance, can remain independent and avoid unnecessary institutionalization;

(3) the term “elderly” means sixty-two years of age or over;

(4) the term “eligible project resident” means elderly handicapped individuals, non-elderly handicapped individuals, or temporarily disabled individuals, who are residents of congregate housing projects administered by a public housing agency or by a nonprofit corporation;

(5) the term “handicapped” means having an impairment which (A) is expected to be of long-continued and indefinite duration, and (B) substantially impedes an individual’s ability to live independently unless the individual receives supportive congregate services; such impairment may include a functional disability or frailty which is a normal consequence of the human aging process;

(6) the term “personal assistance” means service provided under this chapter which may include, but is not limited to, aid given to eligible project residents in grooming, dressing, and other activities which maintain personal appearance and hygiene;

(7) the term “professional assessment committee” means a group of at least three persons appointed by a local public housing agency or a nonprofit corporation and shall include qualified medical professionals and other persons professionally competent to appraise the functional abilities of elderly or permanently disabled adult persons, or both, in relation to the performance of the normal tasks of daily living;

(8) the term “temporarily disabled” means an impairment which (A) is expected to be of no more than six months’ duration, and (B) substantially impedes an individual’s ability to live independently unless the individual receives supportive congregate services; and

(9) the term “nonprofit corporation” means any corporation responsible for a housing project assisted under section 1701q of title 12.

(d) Submission of proposed application to Area Agency on Aging or other appropriate State agency

Prior to the submission of a final application for either new or renewed funding under this chapter for the provision of congregate services to elderly residents, a public housing agency and a nonprofit corporation shall present a copy of a proposed application to the Area Agency on Aging (or, where no Area Agency on Aging exists to the appropriate State agency under the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.),) for review and comment. Such agency and nonprofit corporation shall consider such review and comment in the development of any final application for either new or renewed funding under this chapter.

(e) Nonelderly handicapped individuals as eligible project residents

(1) A public housing agency or nonprofit corporation applying for assistance to provide congregate services to nonelderly handicapped residents shall consult with the appropriate agency, if any, designated by applicable State law as having responsibility for the development, provision, or identification of social services to permanently disabled adults, for the purpose of determining the means of providing services under this chapter and of identifying alternative available sources of funding for such services.

(2) Such public housing agency and nonprofit corporation shall also, prior to the submission of a final application for either new or renewed funding under this chapter, present a copy of the proposed application to such appropriate agency for review and comment. The public housing agency and nonprofit corporation shall consider such review and comment in the development of any final application for either new or renewed funding under this chapter.

(f) Manner of providing congregate services

Any nonprofit corporation or public housing agency receiving assistance under this chapter may provide congregate services directly to eligible project residents or may, by contract or lease, provide such services through other appropriate agencies or providers.

(g) Amount of annual contributions of receiving agency

Nonprofit corporations and public housing agencies receiving assistance for congregate services programs under this chapter shall be required to maintain the same dollar amount of annual contribution which they were making, if any, in support of the provision of services eligible for assistance under this chapter before the date of the submission of the application for such assistance unless the Secretary determines that the waiver of this requirement is necessary for the maintenance of adequate levels of services to eligible project residents. If any contract or lease entered into by a public housing agency or nonprofit corporation pursuant to subsection (f) of this section provides for adjustments in payments for services to reflect changes in the cost of living, then the amount of annual contribution required to be maintained by such public agency or nonprofit corporation under the preceding sentence shall be readjusted in the same manner.

(h) Fees for meal and other services

Each nonprofit corporation and public housing agency shall establish fees for meal service and other appropriate services provided to eligible project residents. These fees shall be reasonable, may not exceed the cost of providing the service, and shall be calculated on a sliding scale related to income which permits the provision of services to such residents who cannot afford meal and service fees. When meal services are provided to other project residents, fees shall be reasonable and may not exceed the cost of providing the meal service.

(i) Standards for provision of services

The Secretary shall establish standards for the provision of services under this chapter, and, in developing such service standards, the Secretary shall consult with the Secretary of Health and Human Services and with appropriate organizations representing the elderly and handicapped, as determined by the Secretary.

REFERENCES IN TEXT

The Older Americans Act of 1965, referred to in subsec. (c) and (d), is Pub. L. 89–89–73, July 14, 1965, 79 Stat. 218, as amended, which is classified generally to chapter 35 (§3001 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3001 of this title and Tables.

AMENDMENTS

1980—Subsecs. (c), (d). Pub. L. 96–399, §208(a), (b), inserted reference to congregate services to elderly residents.

Subsec. (e). Pub. L. 96–399, §208(c), in par. (1) substituted “A public housing agency or nonprofit corporation applying for assistance to provide congregate services to nonelderly handicapped residents shall consult with the appropriate agency” for “When nonelderly handicapped individuals are included among the eligible project residents, the public housing agency and nonprofit corporation shall consult with the appropriate local agency”, and in par. (2) substituted “appropriate agency” for “appropriate local agency”.

§8005. Eligibility for services

(a) Professional assessment committee for determination of eligibility

The identification of project residents eligible to participate in a congregate services program assisted under this chapter, and the designation of the services appropriate to their individual functional abilities and needs, shall be made by a professional assessment committee. Such committee shall utilize procedures which insure that the process of determining eligibility of individuals for services under this title shall accord such individuals fair treatment and due process and a right of appeal of such determination of eligibility, and shall also assure the confidentiality of personal and medical records.

(b) Participation of other residents in meal services program

Other residents may participate in a congregate meal service program assisted under
this chapter if the local public housing agency or nonprofit corporation determines that the participation of these individuals will not adversely affect the cost-effectiveness or operation of the program.

(c) Notification of change in membership of professional assessment committee

Any public housing agency or nonprofit corporation receiving assistance under this chapter shall notify the Secretary of any change in the membership of the professional assessment committee within thirty days of such change. Such notification shall list the names and professional qualifications of new members of the committee.

(d) Procedure for changes in membership of professional assessment committee

Procedures shall be established to insure that changes in the membership of the professional assessment committee are consistent with the requirements of section 8002(7) of this title.

§ 8006. Application procedure for assistance

(a) Matters included in application

An application for assistance under this chapter shall include—

1. a plan specifying the types and priorities of the basic services the public housing agency or nonprofit corporation proposes to provide during the term of the contract; such plan must be related to the needs and characteristics of the eligible project residents and, to the maximum extent practicable, provide for the changing needs and characteristics of all project residents; such plan shall be determined after consultation with eligible project residents and with the professional assessment committee;

2. a list of names and professional qualifications of the members of the professional assessment committee;

3. the fee schedule established pursuant to section 8004(h) of this title;

4. any comment received in connection with any review of a proposed application pursuant to section 8004(d) or 8004(e)(2) of this title; and

5. a statement affirming (A) that the nonprofit corporation or public housing agency has followed the consultation procedures required in subsections (c), (d), and (e) of section 8004 of this title, and (B) that such application complies with subsection (b) of such section.

(b) Deadlines for submission of application

The Secretary shall establish appropriate deadlines for each fiscal year for the submission of applications for funding under this chapter and shall notify any public housing agency and nonprofit corporation applying for assistance under this chapter of acceptance or rejection of its application within ninety days of such submission.

(c) Review of performance of services program prior to submission of application for renewed funding

Within twelve months prior to the submission of an application for renewed funding under this chapter, each nonprofit corporation and public housing agency shall review the performance, appropriateness, and fee schedules of their congregate services program with eligible project residents and with the professional assessment committee. The results of such review shall be included in any application for renewal and shall be considered in the development of the application for renewal by the nonprofit corporation or public housing agency and in its evaluation by the Secretary.

§ 8007. Evaluation of applications and programs

(a) Application evaluations

In evaluating applications for assistance under this chapter, the Secretary shall consider—

1. the types and priorities of the basic services proposed to be provided, and the relationship of such proposal to the needs and characteristics of the eligible residents of the projects where the services are to be provided;

2. how quickly services will be established following approval of the application;

3. the degree to which the social services are adequate for the purpose of assisting eligible project residents to maintain independent living and avoid unnecessary institutionalization;

4. the professional qualifications of the members of the professional assessment committee; and

5. the reasonableness of fee schedules established for each congregate service.

(b) Program evaluations

In evaluating programs receiving assistance under this chapter, the Secretary shall—

1. establish procedures for the review and evaluation of the performance of nonprofit corporations and public housing agencies receiving assistance under this chapter, including provisions for the submission of an annual report, by each such nonprofit corporation and public housing agency, which evaluates the impact and effectiveness of its congregate services program; and

2. publish annually and submit to the Congress a report on and evaluation of the impact and effectiveness of congregate services programs assisted under this chapter. Such report and evaluation shall be based, in part, on the evaluations required to be submitted pursuant to paragraph (1).

(c) Report to Congress

1. The Secretary shall contract with a university or qualified research institution to produce a report—

   A. documenting the number of elderly living in federally assisted housing at risk of institutionalization;

   B. studying and comparing alternative delivery systems in the States, including the congregate housing services program, to provide services to older persons in assisted congregate housing;

   C. assessing existing and potential financial resources at the Federal, State, and local lev-
els for the support of congregate housing services; and
(D) making legislative recommendations as to the feasibility of permitting State housing agencies and other appropriate State agencies to participate and operate the program on a matching grant basis.

(2) The Secretary shall submit the report to the Congress not later than September 30, 1988. 

AMENDMENTS
1988—Subsec. (c). Pub. L. 100–242 added subsec. (c) and struck out former subsec. (c) which required Secretary to prepare and submit a report to Congress evaluating the congregate housing services program, not later than March 15, 1984.

TERMINATION OF REPORTING REQUIREMENTS
For termination, effective May 15, 2000, of provisions in subsec. (b)(2) of this section relating to submitting the annually published report to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 8th item on page 106 of House Document No. 103–7.

§ 8008. Funding procedures
(a) The Secretary shall establish procedures—
(1) to assure timely payments to nonprofit corporations and public housing agencies for approved assisted congregate services programs with provision made for advance funding sufficient to meet necessary startup costs;
(2) to permit reallocation of funds approved for the establishment of congregate services in existing public housing projects and projects assisted under section 1701q of title 12 if the services are not established within six months of the notification date of funding approval;
(3) to assure that where such funding has been approved for the establishment of congregate services for public housing projects and projects assisted under section 1701q of title 12 under construction or approved for construction, these services shall be in place at the start of the project’s occupancy by tenants requiring such services for maintaining independent living;
(4) to establish accounting and other standards in order to prevent any fraudulent or inappropriate use of funds under this chapter; and
(5) to assure that no more than 1 per centum of the funds appropriated under this chapter for any fiscal year may be used by public housing agencies and nonprofit corporations for evaluative purposes as required by section 8007(b)(1) of this title.

(b) The Secretary shall establish a reserve fund, not to exceed 10 per centum of the funds appropriated in each fiscal year for the provision of services under this chapter, in order to supplement grants awarded to public housing agencies and nonprofit corporations under this chapter when, in the determination of the Secretary, such supplemental adjustments are required to maintain adequate levels of services to eligible project residents.

§ 8009. Miscellaneous provisions
(a) Utilization of elderly and permanently disabled adult persons
Each public housing agency and nonprofit corporation shall, to the maximum extent practicable, utilize elderly and permanently disabled adult persons who are residents of public housing projects or projects assisted under section 1701q of title 12, but who are not eligible project residents, to participate in providing the services assisted under this chapter. Such persons shall be paid wages which shall not be lower than whichever is the highest of—

(1) the minimum wage which would be applicable to the employee under the Fair Labor Standards Act of 1938 (29 U.S.C. 201 et seq.), if section 6(a)(1) of such Act (29 U.S.C. 206(a)(1)) applied to the resident and if he or she were not exempt under section 13 (29 U.S.C. 213) thereof;
(2) the State or local minimum wage for the most nearly comparable covered employment; or
(3) the prevailing rates of pay for persons employed in similar public occupations by the same employer.

(b) Tax treatment of services received
No service provided to a public housing resident or to a resident of a housing project assisted under section 1701q of title 12 under this chapter, except for wages paid under subsection (a) of this section, may be treated as income for the purpose of any other program or provision of State or Federal law.

(c) Individuals receiving aid considered residents of own household
Individuals receiving services assisted under this chapter shall be deemed to be residents of their own households, and not to be residents of a public institution, for the purpose of any other program or provision of State or Federal law.

(d) Regulations
The Secretary may issue regulations to carry out the provisions of this chapter.

REFERENCES IN TEXT
The Fair Labor Standards Act of 1938, referred to in subsec. (a)(1), is act June 25, 1938, ch. 676, 52 Stat. 1090, as amended, which is classified generally to chapter 8 (§201 et seq.) of Title 29, Labor. For complete classification of this Act to the Code, see section 201 of Title 29 and Tables.

§ 8010. Authorization of appropriations
(a) There are authorized to be appropriated to carry out this chapter $10,000,000 for each of the fiscal years 1988 and 1989.

(b) Sums appropriated pursuant to this section shall remain available until expended.

§ 8011 Revised congregate housing services program

(a) Findings and purposes

(1) Findings

The Congress finds that—

(A) the effective provision of congregate services may require the redesign of units and buildings to meet the special physical needs of the frail elderly persons and the creation of congregate space to accommodate services that enhance independent living;

(B) congregate housing, coordinated with the delivery of supportive services, offers an innovative, proven, and cost-effective means of enabling frail older persons and persons with disabilities to maintain their dignity and independence;

(C) independent living with assistance is a preferable housing alternative to institutionalization for many frail older persons and persons with disabilities;

(D) 365,000 persons in federally assisted housing experience some form of frailty, and the number is expected to increase as the general population ages;

(E) an estimated 20 to 30 percent of older adults living in federally assisted housing experience some form of frailty;

(F) a large and growing number of frail elderly residents face premature or unnecessary institutionalization because of the absence of or deficiencies in the availability, adequacy, coordination, or delivery of supportive services;

(G) the support service needs of frail residents of assisted housing are beyond the resources and experience that housing managers have for meeting such needs;

(H) supportive services would promote the invaluable option of independent living for nonelderly persons with disabilities in federally assisted housing;

(I) approximately 25 percent of congregate housing services program sites provide congregate services to young individuals with disabilities;

(J) to the extent that institutionalized older adults do not need the full costly support provided by such care, public moneys could be more effectively spent providing the necessary services in a noninstitutional setting; and

(K) the Congregate Housing Services Program, established by Congress in 1978, and similar programs providing in-home services have been effective in preventing unnecessary institutionalization and encouraging deinstitutionalization.

(2) Purposes

The purposes of this section are—

(A) to provide assistance to retrofit individual dwelling units and renovate public and common areas in eligible housing to meet the special physical needs of eligible residents;

(B) to create and rehabilitate congregate space in or adjacent to such housing to accommodate supportive services that enhance independent living;

(C) to improve the capacity of management to assess the service needs of eligible residents, coordinate the provision of supportive services that meet the needs of eligible residents and ensure the long-term provision of such services;

(D) to provide services in federally assisted housing to prevent premature and inappropriate institutionalization in a manner that respects the dignity of the elderly and persons with disabilities;

(E) to provide readily available and efficient supportive services that provide a choice in supported living arrangements by utilizing the services of an on-site coordinator, with emphasis on maintaining a continuum of care for the vulnerable elderly;

(F) to improve the quality of life of older Americans living in federally assisted housing;

(G) to preserve the viability of existing affordable housing projects for lower-income older residents who are aging in place by assisting managers of such housing with the difficulties and challenges created by serving older residents;

(H) to develop partnerships between the Federal Government and State governments in providing services to the frail elderly and persons with disabilities; and

(I) to utilize Federal and State funds in a more cost-effective and humane way in serving the needs of older adults.

(b) Contracts for congregate services programs

(1) In general

The Secretary of Housing and Urban Development and the Secretary of Agriculture (through Administrator of the Farmers Home Administration) shall enter into contracts with States, Indian tribes, units of general local government and local nonprofit housing sponsors, utilizing any amounts appropriated under subsection (n) of this section—

(A) to provide congregate services programs for eligible project residents to promote and encourage maximum independence within a home environment for such residents capable of self-care with appropriate supportive services; or

(B) to adapt housing to better accommodate the physical requirements and service needs of eligible residents.

(2) Term of contracts

Each contract between the Secretary concerned and a State, Indian tribe, or unit of general local government, or local nonprofit housing sponsor, shall be for a term of 5 years and shall be renewable at the expiration of the...
term, except as otherwise provided in this section.

(c) Reservation of amounts

For each State, Indian tribe, unit of general local government, and nonprofit housing sponsor, receiving a contract under this subsection, the Secretary concerned shall reserve a sum equal to the total approved contract amount from the amount authorized and appropriated for the fiscal year in which the notification date of funding approval occurs.

(d) Eligible activities

(1) In general

A congregate services program under this section shall provide meal and other services for eligible project residents (and other residents and nonresidents, as provided in subsection (e) of this section), as provided in this section, that are coordinated on site.

(2) Meal services

Congregate services programs assisted under this section shall include meal service adequate to meet at least one-third of the daily nutritional needs of eligible project residents, as follows:

(A) Supplemental nutrition assistance program benefits and agricultural commodities

In providing meal services under this paragraph, each congregate services program—

(i) shall—

(I) apply for approval as a retail food store under section 2018 of title 7; and

(II) if approved under such section, accept benefits as payment from individuals to whom such meal services are provided; and

(ii) shall request, and use to provide such meal services, agricultural commodities made available without charge by the Secretary of Agriculture.

(B) Preference for nutrition providers

In contracting for or otherwise providing for meal services under this paragraph, each congregate services program shall give preference to any provider of meal services who—

(i) receives assistance under title III of the Older Americans Act of 1965 [42 U.S.C. 3021 et seq.]; or

(ii) has experience, according to standards as the Secretary shall require, in providing meal services in a housing project under the Congregate Housing Services Act of 1978 [42 U.S.C. 8001 et seq.] or any other program for congregate services.

(3) Retrofit and renovation

Assistance under this section may be provided with respect to eligible housing for the elderly for—

(A) retrofitting of individual dwelling units to meet the special physical needs of current or future residents who are or are expected to be eligible residents, which retrofitting may include—

(i) widening of doors to allow passage by persons with disabilities in wheelchairs into and within units in the project;

(ii) placement of light switches, electrical outlets, thermostats and other environmental controls in accessible locations;

(iii) installation of grab bars in bathrooms or the placement of reinforcements in bathroom walls to allow later installation of grab bars;

(iv) redesign of usable kitchens and bathrooms to permit a person in a wheelchair to maneuver about the space; and

(v) such other features of adaptive design that the Secretary finds are appropriate to meet the special needs of such residents;

(B) such renovation as is necessary to ensure that public and common areas are readily accessible to and usable by eligible residents;

(C) renovation, conversion, or combination of vacant dwelling units to create congregate space to accommodate the provision of supportive services to eligible residents;

(D) renovation of existing congregate space to accommodate the provision of supportive services to eligible residents; and

(E) construction or renovation of facilities to create conveniently located congregate space to accommodate the provision of supportive services to eligible residents.

For purposes of this paragraph, the term “congregate space” shall include space for cafeterias or dining halls, community rooms or buildings, workshops, adult day health facilities, or other outpatient health facilities, or other essential service facilities.

(4) Service coordinator

Assistance under this section may be provided with respect to the employment of one or more individuals (hereinafter referred to as “service coordinator”) who may be responsible for—

(A) working with the professional assessment committee established under subsection (f) of this section on an ongoing basis to assess the service needs of eligible residents;

(B) working with service providers and the professional assessment committee to tailor the provision of services to the needs and characteristics of eligible residents;

(C) mobilizing public and private resources to ensure that the qualifying supportive services identified pursuant to subsection (d) of this section can be funded over the time period identified under such subsection;

(D) monitoring and evaluating the impact and effectiveness of any supportive service program receiving capital or operating assistance under this section; and

(E) performing such other duties and functions that the Secretary deems appropriate to enable frail elderly persons residing in federally assisted housing to live with dignity and independence.

The Secretary shall establish such minimum qualifications and standards for the position

1So in original. Probably should be “section.”.

2So in original. Probably should be subsection “(e)”.
of service coordinator that the Secretary deems necessary to ensure sound management. Such qualifications and standards shall include requiring each service coordinator to be trained in the aging process, elder services, disability services, employment of service coordinators by using procedures of Federal and applicable State entitlement programs, legal liability issues relating to providing service coordination, drug and alcohol use and abuse by the elderly, and mental health issues. The Secretary may fund the employment of service coordinators by using amounts appropriated under this section and by permitting owners to use existing sources of funds, including excess project reserves.

(5) Other services

Congregate services programs assisted under this section may include services for transportation to eligible project residents, which shall be sufficient to provide 10 percent of the costs of the services provided. The Secretary concerned shall provide for the waiver of fees under this paragraph for individuals whose incomes are insufficient to provide for any payment. The fees for meals shall be in the following amounts:

(i) Full meal services

The fees for residents receiving more than 1 meal per day, 7 days per week, shall be reasonable and shall equal between 10 and 20 percent of the adjusted income of the project resident (as such income is determined under section 3(b) of the United States Housing Act of 1937 [42 U.S.C. 1437a(b)]), or the cost of providing the services, whichever is less.

(ii) Less than full meal services

The fees for residents receiving meal services less frequently than as described in the preceding sentence shall be in an amount equal to 10 percent of such adjusted income of the project resident or the cost of providing the services, whichever is less.

(B) Other residents and nonresidents

Fees shall be established under this paragraph for residents of eligible housing projects (other than eligible project residents) and for nonresidents that receive services from a congregate services program pursuant to subsection (e) of this section. Such fees shall be in an amount equal to the cost of providing the services.

(8) Direct and indirect provision of services

Any State, Indian tribe, unit of general local government, or nonprofit housing sponsor that receives assistance under this section may provide congregate services directly to eligible project residents or may, by contract or lease, provide such services through other appropriate agencies or providers.

(e) Eligibility for services

(1) Eligible project residents

Any eligible resident who is a resident of an eligible housing project (or who with deinstitutionalization and appropriate supportive services under this section could become a resident of eligible federally assisted housing) shall be eligible for services under a congregate services program assisted under this section.

(2) Economic need

In providing services under a congregate services program, the program shall give consideration to serving eligible project residents with the greatest economic need.

(3) Identification

(A) In general

A professional assessment committee under subparagraph (B) shall identify eligible project residents under paragraph (1) and shall designate services appropriate to the functional abilities and needs of each eligible project resident. The committee shall utilize procedures that ensure that the process of determining eligibility of individuals for congregate services shall accord such individuals fair treatment and due process and a right of appeal of the determination of eligibility, and shall also ensure the confidentiality of personal and medical records.

(B) Professional assessment committee

A professional assessment committee under this section shall consist of not less than 3 individuals, who shall be appointed to the committee by the officials of the eligible housing project responsible for the congregate services program, and shall include qualified medical and other health and social services professionals competent to appraise the functional abilities of the frail elderly and persons with disabilities in relation to the performance of tasks of daily living.

(4) Eligibility of other residents

The elderly and persons with disabilities who reside in an eligible housing project other than eligible project residents under paragraph (1) may receive services from a congregate services program under this section if the housing managers, congregate service coordinators, and the professional assessment committee jointly determine that the parti-
pation of such individuals will not negatively affect the provision of services to eligible project residents. Residents eligible for services under this paragraph shall pay fees as provided under subsection (d) of this section.

(5) Eligibility of nonresidents

The Secretary may permit the provision of services to elderly persons and persons with disabilities who are not residents if the participation of such persons will not adversely affect the cost-effectiveness or operation of the program or add significantly to the need for assistance under this section.

(f) Eligible contract recipients and distribution of assistance

The Secretary concerned may provide assistance under this section and enter into contracts under subsection (b) of this section with—

(1) owners of eligible housing;

(2) States that submit applications in behalf of owners of eligible housing; and

(3) Indian tribes and units of general local government that submit applications on behalf of owners of eligible housing.

(g) Applications

The funds made available under this section shall be allocated by the Secretary among approvable applications submitted by or on behalf of owners. Applications for assistance under this section shall be submitted in such form and in accordance with such procedures as the Secretary shall establish. Applications for assistance shall contain—

(1) a description of the type of assistance the applicant is applying for;

(2) in the case of an application involving rehabilitation or retrofit, a description of the activities to be carried out, the number of elderly persons to be served, the costs of such activities, and evidence of a commitment for the services to be associated with the project;

(3) a description of qualifying supportive services that can reasonably be expected to be made available to eligible residents over a 5-year period;

(4) a firm commitment from one or more sources of assistance ensuring that some or all of the qualifying supportive services identified under paragraph (3) will be provided for not less than 1 year following the completion of activities assisted under subsection (d) of this section;

(5) a description of public or private sources of assistance that are likely to fund or provide qualifying supportive services, including evidence of any intention to provide assistance expressed by State and local governments, private foundations, and other organizations (including for-profit and nonprofit organizations);

(6) a certifications2 from the appropriate State or local agency (as determined by the Secretary) that—

(A) the provision of the qualifying supportive services identified under paragraph (3) will enable eligible residents to live independently and avoid unnecessary institutionalization;

(B) there is a reasonable likelihood that such services will be funded or provided for the entire period specified under paragraph (3), and

(C) the agency and the applicant will, during the term of the contract, actively seek assistance for such services from other sources;

(7) a description of any fees that would be established pursuant to subsection (d) of this section; and

(8) such other information or certifications that the Secretary determines to be necessary or appropriate to achieve the purposes of this section.

The Secretary shall act on each application within 60 days of its submission.

(h) Selection and evaluation of applications and programs

(1) In general

Each Secretary concerned shall establish criteria for selecting States, Indian tribes, units of general local government, and local nonprofit housing sponsors to receive assistance under this section, and shall select such entities to receive assistance. The criteria for selection shall include consideration of—

(A) the extent to which the activities described in subsection (d)(3) of this section will foster independent living and the provision of such services;

(B) the types and priorities of the basic services proposed to be provided, the appropriateness of the targeting of services, the methods of providing for deinstitutionalized older individuals and individuals with disabilities, and the relationship of the proposal to the needs and characteristics of the eligible residents of the projects where the services are to be provided;

(C) the schedule for establishment of services following approval of the application;

(D) the degree to which local social services are adequate for the purpose of assisting eligible project residents to maintain independent living and avoid unnecessary institutionalization;

(E) the professional qualifications of the members of the professional assessment committee;

(F) the reasonableness and application of fees schedules established for congregate services;

(G) the adequacy and accuracy of the proposed budgets; and

(H) the extent to which the owner will provide funds from other services in excess of that required by this section.

(2) Evaluation of provision of congregate services programs

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall, by regulation under subsection (n) of this section, establish procedures for States, Indian tribes, and units of general local gov-
In providing contracts under subsection (b) of this section, each Secretary concerned shall provide for the cost of providing the congregate services program assisted under this section to be distributed as follows:

(i) Each State, Indian tribe, unit of general government, or nonprofit housing sponsor that receives amounts under a contract under subsection (b) of this section shall supplement any such amount with amounts sufficient to provide 50 percent of the cost of providing the congregate services program. Any monetary or in-kind contributions received by a congregate services program under the Congregate Housing Services Act of 1978 [42 U.S.C. 8001 et seq.] may be considered for purposes of fulfilling the requirement under this clause. The Secretary concerned shall encourage owners to use excess residual receipts to the extent available to supplement funds for retrofit and supportive services under this section.

(ii) The Secretary concerned shall provide 40 percent of the cost, with amounts under contracts under subsection (b) of this section.

(iii) Fees under subsection (d)(7) of this section shall provide 10 percent of the cost.

(B) Exceptions

(i) For any congregate services program that was receiving assistance under a contract under the Congregate Housing Services Act of 1978 [42 U.S.C. 8001 et seq.] on November 28, 1990, the unit of general local government or nonprofit housing sponsor, in coordination with a local government with respect to such program shall not be subject to the requirement to provide supplemental contributions under subparagraph (A)(i) for the 6-year period beginning on the expiration of the contract for such assistance. The Secretary concerned shall require each such program to maintain, for such 6-year period, the same dollar amount of annual contributions in support of the services eligible for assistance under this section as were contributed to such program during the year preceding November 28, 1990.

(ii) To the extent that the limitations under subsection (d)(7) of this section regarding the percentage of income eligible residents may pay for services will result in collected fees for any congregate services program of less than 10 percent of the cost of providing the program, 50 percent of such remaining costs shall be provided by the recipient of amounts under the contract and 50 percent of such remaining costs shall be provided by the Secretary concerned under such contract.

(C) Eligible supplemental contributions

If provided by the State, Indian tribe, unit of general local government, or local nonprofit housing sponsor, any salary paid to staff from governmental sources to carry out the program of the recipient and salary paid to residents employed by the program (other than from amounts under a contract under subsection (b) of this section), and any other in-kind contributions from governmental sources shall be considered as supplemental contributions for purposes of meeting the supplemental contribution requirement under subparagraph (A)(i), except that the amount of in-kind contributions considered for purposes of fulfilling such contribution requirement may not exceed 10 percent of the total amount to be provided by the State, Indian tribe, local government, or local nonprofit housing sponsor.

(D) Prohibition of substitution of funds

The Secretary concerned shall require each State, Indian tribe, unit of general local government, and local nonprofit housing sponsor, that receives assistance under this section to maintain the same dollar amount of annual contribution that such State, Indian tribe, local government, or sponsor was making, if any, in support of services eligible for assistance under this section before the date of the submission of the application for such assistance.

(E) Limitation

For purposes of complying with the requirement under subparagraph (A)(i), the appropriate Secretary concerned may not consider any amounts contributed or provided by any local government to any State receiving assistance under this section that exceed 10 percent of the amount required of the State under subparagraph (A)(i).

(2) Consultation

The Secretary shall consult with the Secretary of Health and Human Services regarding the availability of assistance from other Federal programs to support services under this section and shall make information available to applicants for assistance under this section.

(j) Miscellaneous provisions

(1) Use of residents in providing services

Each housing project that receives assistance under this section shall, to the maximum extent practicable, utilize the elderly and persons with disabilities who are residents of the housing project, but who are not eligible project residents, to participate in providing...
the services provided under congregate services programs under this section. Such individuals shall be paid wages that shall not be lower than the higher of—

(A) the minimum wage that would be applicable to the employee under the Fair Labor Standards Act of 1938 [29 U.S.C. 201 et seq.], if section 6(a)(1) of such Act [29 U.S.C. 206(a)(1)] applied to the resident and if the resident were not exempt under section 13 of such Act [29 U.S.C. 213];

(B) the State of local minimum wage for the most nearly comparable covered employment; or

(C) the prevailing rates of pay for persons employed in similar public occupations by the same employer.

(2) Effect of services

Except for wages paid under paragraph (1) of this subsection, services provided to a resident of an eligible housing project under a congregate services program under this section may not be considered as income for the purpose of determining eligibility for or the amount of assistance or aid furnished under any Federal, federally assisted, or State program based on need.

(3) Eligibility and priority for 1978 Act recipients

Notwithstanding any other provision of this section, any public housing agency, housing assisted under section 1701q of title 12, or nonprofit corporation that was receiving assistance under a contract under the Congregate Housing Services Act of 1978 [42 U.S.C. 8001 et seq.] on November 5, 1990, shall [subject to approval and allocation of sufficient amounts under the Congregate Housing Services Act of 1978 and appropriations Acts under such Act] receive assistance under the Congregate Housing Services Act of 1978 for the remainder of the term of the contract for assistance for such agency or corporation under such Act, and shall receive priority for assistance under this section after the expiration of such period.

(4) Administrative cost limitation

A recipient of assistance under this section may not use more than 10 percent of the sum of such assistance and the contribution amounts required under subsection (i)(1)(A)(1) of this section for administrative costs and shall ensure that any entity to which the recipient distributes amounts from such sum may not expend more than a reasonable amount from such distributed amounts for administrative costs. Administrative costs may not include any capital expenses.

(k) Definitions

For purposes of this section:

(1) The term “activity of daily living” means an activity regularly necessary for personal care and includes bathing, dressing, eating, getting in and out of bed and chairs, walking, going outdoors, and using the toilet.

(2) The term “case management” means assessment of the needs of a resident, ensuring access to and coordination of services for the resident, monitoring delivery of services to the resident, and periodic reassessment to ensure that services provided are appropriate to the needs and wants of the resident.

(3) The term “congregate housing” means low-rent housing that is connected to a central dining facility where wholesome and economical meals can be served to the residents.

(4) The term “congregate services” means services described in subsection (d) of this section.

(5) The term “congregate services program” means a program assisted under this section undertaken by an eligible housing project to provide congregate services to eligible residents.

(6) The term “eligible housing project” means—

(A) public housing (as such term is defined in section 3(b) of the United States Housing Act of 1937 [42 U.S.C. 1437a(b)]) and lower income housing developed or operated pursuant to a contract between the Secretary of Housing and Urban Development and an Indian housing authority under title II of the United States Housing Act of 1937;

(B) housing assisted under section 8 of the United States Housing Act of 1937 [42 U.S.C. 1437f] with a contract that is attached to the structure under subsection (d)(2) of such section or with a contract entered into in connection with the new construction or moderate rehabilitation of the structure under section 6(b)(2) of the United States Housing Act, as such section existed before October 1, 1983;

(C) housing assisted under section 1701q of title 12;

(D) housing assisted under section 1715(d) or 1715e–1 of title 12, with respect to which the owner has made a binding commitment to the Secretary of Housing and Urban Development not to prepay the mortgage or terminate the insurance contract under section 1715t of title 12 (unless the binding commitments have been made to extend the low-income use restrictions relating to such housing for the remaining useful life of the housing);

(E) housing assisted under section 1484 or 1485 of this title, with respect to which the owner has made a binding commitment to the Secretary of Agriculture not to prepay or refinance the mortgage (unless the binding commitments have been made to extend the low-income use restrictions relating to such housing for not less than the 20-year period under section 1472(c)(4) of this title); and

(F) housing assisted under section 1486 of this title.

(7) The term “eligible resident” means a person residing in eligible housing for the elderly who qualifies under the definition of frail elderly, person with disabilities (regardless of

1 See in original. Probably should be “or”.

2 See Codification note below.
§ 8011

(8) The term “frail elderly” means an elderly person who is unable to perform at least 3 activities of daily living adopted by the Secretary for purposes of this program. Owners may establish additional eligibility requirements (acceptable to the Secretary) based on the standards in local supportive services programs.

(9) The term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(10) The term “instrumental activity of daily living” means a regularly necessary home management activity and includes preparing meals, shopping for personal items, managing money, using the telephone, and performing light or heavy housework.

(11) The term “local nonprofit housing sponsor” includes public housing agencies (as such term is defined in section 3(b)(6) of the United States Housing Act of 1937 [42 U.S.C. 1437a(b)(6)].

(12) The term “nonprofit”, as applied to an organization, means no part of the net earnings of the organization inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(13) The term “elderly person” means a person who is at least 62 years of age.

(14) The term “person with disabilities” has the meaning given the term by section 8013 of this title.

(15) The term “professional assessment committee” means a committee established under subsection (e)(3)(B) of this section.

(16) The term “qualifying supportive services” means new or significantly expanded services that the Secretary deems essential to enable eligible residents to live independently and avoid unnecessary institutionalization. Such services may include but not be limited to (A) meal service adequate to meet nutritional need; (B) housekeeping aid; (C) personal assistance (which may include, but is not limited to, aid given to eligible residents in grooming, dressing, and other activities which maintain personal appearance and hygiene); (D) transportation services; (E) health-related services; and (F) personal emergency response systems; the owner may provide the qualifying services directly to eligible residents or may, by contract or lease, provide such services through other appropriate agencies or providers.

(17) The term “Secretary concerned” means—

(A) the Secretary of Housing and Urban Development, with respect to eligible federally assisted housing administered by such Secretary; and

(B) the Secretary of Agriculture, with respect to eligible federally assisted housing administered by the Administrator of the Farmers Home Administration.

(18) The term “State” means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

(19) The term “temporarily disabled” means having an impairment that—

(A) is expected to be of no more than 6 months duration; and

(B) impedes the ability of the individual to live independently unless the individual receives congregate services.

(20) The term “unit of general local government”—

(A) means any city, town, township, county, parish, village, or other general purpose political subdivision of a State; and

(B) includes a unit of general government acting as an applicant for assistance under this section in cooperation with a nonprofit housing sponsor and a nonprofit housing sponsor acting as an applicant for assistance under this section in cooperation with a unit of general local government, as provided under subsection (g)(1)(B) of this section.

(l) Reports to Congress

(1) In general

Each Secretary concerned shall submit to the Congress, for each fiscal year for which assistance is provided for congregate services programs under this section, an annual report—

(A) describing the activities being carried out with assistance under this section and the population being served by such activities;

(B) evaluating the effectiveness of the program of providing assistance for congregate services under this section, and a comparison of the effectiveness of the program under this section with the HOPE for Elderly Independence Program under section 8012 of this title; and

(C) containing any other information that the Secretary concerned considers helpful to the Congress in evaluating the effectiveness of this section.

(2) Submission of data to Secretary concerned

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall provide, by regulation under subsection (m) of this section, for the submission of data by recipients of assistance under this section to be used in the repeat required by paragraph (1).

(m) Regulations

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall, not later than the expiration of the 180-day period

10So in original. Probably should be preceded by a closing parenthesis.

11So in original. Probably should be subsection “(h)(1)(B)’’.

Page 6540

TITLE 42—THE PUBLIC HEALTH AND WELFARE
beginning on November 28, 1990, jointly issue any regulations necessary to carry out this section.

(n) Authorization of appropriations

(1) Authorization and use

There are authorized to be appropriated to carry out this section $21,000,000 for fiscal year 1993, and $21,882,000 for fiscal year 1994, of which not more than—

(A) the amount of such sums appropriated that, with respect to the total amount appropriated, represents the ratio of the total number of units of eligible federally assisted housing for elderly individuals assisted by programs administered by the Secretary of Housing and Urban Development to the total number of units assisted by programs administered by such Secretary and the Secretary of Agriculture, shall be used for assistance for congregate services programs in eligible federally assisted housing administered by the Secretary of Housing and Urban Development; and

(B) the amount of such sums appropriated that, with respect to the total amount appropriated, represents the ratio of the total number of units of eligible federally assisted housing for elderly individuals assisted by programs administered by the Secretary of Agriculture to the total number of units assisted by programs administered by such Secretary and the Secretary of Housing and Urban Development, shall be used for assistance for congregate services programs in eligible federally assisted housing administered by the Secretary of Agriculture (through the Administrator of the Farmers Home Administration).

(2) Availability

Any amounts appropriated under this subsection shall remain available until expended.

(o) Reserve fund

The Secretary may reserve not more than 5 percent of the amounts made available in each fiscal year to supplement grants awarded to owners under this section when, in the determination of the Secretary, such supplemental adjustments are required to maintain adequate levels of services to eligible residents.

The United States Housing Act of 1937, referred to in subsection (k)(9), is Pub. L. 92–203, Dec. 18, 1971, 85 Stat. 688, as amended, which is classified generally to chapter 33 (§ 1601 et seq.) of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1601 of Title 43 and Tables.

CODIFICATION

Section was enacted as part of the Cranston-Gonzalez National Affordable Housing Act, and not as part of the Congregate Housing Services Act of 1978 which comprises this chapter.

November 28, 1990, referred to in subsec. (j)(1)(B)(i), was in the original “the date of the enactment of this Act and November 5, 1990, referred to in subsec. (j)(3), was in the original “the date of the enactment of this section”, see Effective Date note below.

AMENDMENTS

Subsec. (d)(2)(A)(ii), Pub. L. 110–246, § 4115(c)(2)(I), struck out “(as defined in section 201(e) of title 7)” after “benefits”.

1992—Subsec. (d)(4), Pub. L. 102–550, § 672, inserted after first sentence of concluding provisions “Such qualifications and standards shall include requiring each service coordinator to be trained in the aging process, elderly, disability services, eligibility for and procedures of Federal and applicable State entitlement programs, legal liability issues relating to providing service coordination, drug and alcohol use and abuse by the elderly, and mental health issues.”

Subsec. (i)(1)(B)(i), Pub. L. 102–550, § 604(b), substituted “6-year” for “3-year” in two places.

Effective Date of 2008 Amendment

Effective Date of 1992 Amendment
Amendment by subtitiles B through F of title VI (§§621–685) of Pub. L. 102–550 applicable upon expiration of 6-month period beginning Oct. 28, 1992, except as otherwise provided, see section 13642 of this title.

Effective Date
This section was enacted as part of Pub. L. 101–625, which was approved Nov. 28, 1990. However, this section was deemed enacted as of Nov. 5, 1990, by Pub. L. 101–507, title II, Nov. 5, 1990, 104 Stat. 1358, set out as an Effective Date note under section 1701q of Title 12, Banks and Banking.

Regulations
Section 604(c) of Pub. L. 102–550 provided that:

“(1) INTERIM REGULATIONS.—Not later than the expiration of the 30-day period beginning on the date of the enactment of this Act [Oct. 29, 1992], the Secretary of Housing and Urban Development and the Secretary of Agriculture shall submit to the Congress a copy of proposed interim regulations implementing section 802 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8011) with respect to eligible federally assisted housing (as such term is defined in section 802(k) of such Act) administered by each such Secretary. Not later than the expiration of the 45-day period beginning on the date of the enactment of this Act, but not before the expiration of the 15-day period beginning upon the submission of the proposed interim regulations to the Congress, each such Secretary shall publish interim regulations implementing such section 802, which shall take effect upon publication.

“(2) FINAL REGULATIONS.—Not later than the expiration of the 90-day period beginning upon the publication of interim regulations under paragraph (1), each such Secretary shall issue final regulations implementing section 802 of the Cranston-Gonzalez National Affordable Housing Act after notice and opportunity for public comment regarding the interim regulations, pursuant to the provisions of section 553 of title 5, United States Code (notwithstanding subsections (a)(2), (b)(B), and (d)(3) of such section). The duration of the period for public comment under such section 553 shall be not less than 60 days, and the final regulations shall take effect upon issuance.

“(3) FAILURE UNDER 1990 ACT.—This subparagraph may not be construed to authorize any failure to comply with the requirements of section 802(m) of the Cranston-Gonzalez National Affordable Housing Act.”

Termination of Trust Territory of the Pacific Islands
For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§ 8012. Hope for elderly independence
(a) Purpose
The purpose of this section is to establish a demonstration program to test the effectiveness of combining housing certificates and vouchers with supportive services to assist frail elderly persons to continue to live independently. The demonstration program under this section shall terminate upon the expiration of the 5-year period determined by the Secretary.

(b) Housing assistance
In connection with this demonstration, the Secretary of Housing and Urban Development may enter into contracts with public housing agencies to provide not more than 1,500 incremental vouchers and certificates under sections 1437f(b) and 1437f(o) of this title. A public housing agency may not require that a frail elderly person live in a particular structure or unit, but the agency may restrict the program under this section to a geographic area, where necessary to ensure that the provision of supportive services is feasible. At the end of the demonstration period, the public housing agency shall give each frail elderly person the option to continue to receive assistance under the housing certificate or voucher program of the agency. In the demonstration, the Secretary may also provide for supportive services in connection with existing contracts for housing assistance under sections 1437f(b) and 1437f(o) of this title.

(c) Supportive services requirements and matching funding

(1) Federal, PHA and, individual contributions.

The amount estimated by the public housing agency and approved by the Secretary as necessary to provide the supportive services for the demonstration period shall be funded as follows:

(A) The Secretary shall provide 40 percent, using amounts appropriated under this section.

(B) The public housing agency shall ensure the provision of at least 50 percent from sources other than under this section.

(C) Notwithstanding any other provision of law, each frail elderly person shall pay 10 percent of the costs of the supportive services that the person receives, except that a frail elderly person may not be required to pay an amount that exceeds 20 percent of the adjusted income (as the term is defined in section 1437a(b)(5) of this title) of such person and the Secretary shall provide for the waiver of the requirement to pay costs under this subparagraph for persons whose income is determined to be insufficient to provide for any payment.

(D) To the extent that the limitation under subparagraph (C) regarding the percentage of income frail elderly persons may pay for services will result in collected amounts for any public housing agency of less than 10 percent of the cost of providing the services, 50 percent of such remaining costs shall be provided by the public housing agency and 50 percent of such remaining costs shall be provided by the Secretary from amounts appropriated under this section.

1So in original. The comma probably should precede “and”.

Footnote:

(2) Provision of services for entire demonstration

Each public housing agency shall ensure that supportive services appropriate to the needs of the frail elderly persons to be served under this demonstration are provided throughout the demonstration period. Expenditures for supportive services need not be made in equal amounts for each year, but may vary depending on the needs of the frail elderly persons assisted under this section. A public housing agency may use up to 20 percent of the Federal assistance provided for supportive services in each year of this demonstration and any amounts from any prior year in which the public housing agency did not use 20 percent of the available Federal assistance.

(3) Calculation of match

In determining compliance with paragraph (1)(B), an agency may include the value of such items as the Secretary determines to be appropriate, which may include the salary paid to staff to provide supportive services, if such items have a readily discernible market value.

(d) Applications

An application under this section shall be submitted by a public housing agency in such form and in accordance with such procedures as the Secretary shall establish. The Secretary shall require that an application contain at a minimum—

(1) an application for housing assistance under section 1437f of this title, if necessary, and a description of any such assistance already made available that will be used in the demonstration;
(2) a description of the size and characteristics of the population of frail elderly persons and of their housing and supportive services needs;
(3) a description of the proposed method of determining whether a person qualifies as a frail elderly person (specifying any additional eligibility requirements proposed by the agency), and of selecting frail elderly persons to participate;
(4) a statement that the public housing agency will create a professional assessment committee or will work with another entity which will assist the public housing agency in identifying and providing only services that each frail elderly person needs to remain living independently;
(5) a description of the mechanisms for developing housing and supportive services plans for each person and for monitoring the person’s progress in meeting that plan;
(6) the identity of the proposed service providers and a statement of qualifications;
(7) a description of the supportive services the public housing agency proposes to make available for the frail elderly persons to be served, the estimated costs of such services, a description of the resources that are expected to be made available to cover the portion of the costs required by subsection (c)(1) of this section;
(8) assurances satisfactory to the Secretary that the supportive services will be provided for the demonstration period;

(9) the plan for coordinating the provision of housing assistance and supportive services;
(10) a description of how the public housing agency will ensure that the service providers are providing supportive services, at a reasonable cost, adequate to meet the needs of the persons to be served;
(11) a plan for continuing supportive services to frail elderly persons that continue to receive housing assistance under section 1437f of this title after the end of the demonstration period; and

(12) a statement that the application has been developed in consultation with the area agency on aging under title III of the Older Americans Act of 1965 [42 U.S.C. 3021 et seq.] and that the public housing agency will periodically consult with the area agency during the demonstration.

(e) Selection

(1) Criteria

The Secretary shall establish selection criteria for a national competition for assistance under this section, which shall include—

(A) the ability of the public housing agency to develop and operate the proposed housing assistance and supportive services program;
(B) the need for a program providing both housing assistance and supportive services for frail elderly persons in the area to be served;
(C) the quality of the proposed program for providing supportive services;
(D) the extent to which the proposed funding for the supportive services is or will be available;
(E) the extent to which the program would meet the needs of the frail elderly persons proposed to be served by the program; and
(F) such other factors as the Secretary specifies to be appropriate for purposes of carrying out the demonstration program established by this section in an effective and efficient manner.

(2) Consultation with HHS

In reviewing the applications, the Secretary shall consult with the Secretary of Health and Human Services with respect to the supportive services aspects.

(3) Funding limitations

No more than 10 percent of the assistance made available under this section may be used for programs located within any one unit of general local government.

(f) Required agreements

The Secretary may not approve any assistance for any program under this section unless the public housing agency agrees—

(1) to operate the proposed program in accordance with the program requirements established by the Secretary;
(2) to conduct an ongoing assessment of the housing assistance and supportive services required by each frail elderly person participating in the program;
(3) to ensure the adequate provision of supportive services, at a reasonable cost, to each
frail elderly person participating in the program; and
(4) to comply with such other terms and conditions as the Secretary may establish for purposes of carrying out the program in an effective and efficient manner.

(g) Definitions
For purposes of this section:
(1) The term "demonstration period" means the 5-year period referred to in subsection (a) of this section.
(2) The term "elderly person" means a person who is at least 62 years of age.
(3) The term "frail elderly person" means an elderly person who is unable to perform at least 3 activities of daily living adopted by the Secretary in the provision of services and facilities provided by the project.
(4) The term "professional assessment committee" means a group of at least 3 persons professionally competent to appraise the functional abilities of the frail elderly in relation to the performance of activities of daily living.
(5) The term "public housing agency" has the meaning given such term in section 1437a(b)(6) of this title. The term includes an Indian Housing Authority, as defined in section 1437a(b)(6) of this title.
(6) The term "Secretary" means the Secretary of Housing and Urban Development.
(7) The term "supportive services"—
(A) means assistance, that the Secretary determines—
(i) addresses the special needs of frail elderly persons; and
(ii) provides appropriate supportive services or assists such persons in obtaining appropriate services, including personal care, case management services, transportation, meal services, counseling, supervision, and other services essential for achieving and maintaining independent living; and
(B) does not include medical services, as determined by the Secretary.

(h) Multifamily project demonstration
(1) In general
In addition to the demonstration program authorized by the preceding provisions of this section, the Secretary shall conduct a demonstration in one Federal region, subject to the terms and conditions of this subsection, to determine the feasibility of using housing assistance under section 1437f of this title to assist elderly persons who may become frail to live independently in housing specifically designed for occupancy by such persons in sufficient proportion to achieve economies of scale in the provision of services and facilities.
(2) Section 1437f allocation
From amounts provided pursuant to subsection (j) of this section and subject to availability in appropriation Acts, the Secretary shall enter into a contract with a public housing agency to provide housing assistance under section 1437f(b) of this title to assist elderly persons in at least 75 percent of the units in a single housing project with more than 100 units.

(3) Section 1437f terms
The assistance payment contract under section 1437f of this title shall be subject to the terms and conditions specified in this section.

(4) Supportive services
The Secretary shall allocate, for the project assisted pursuant to this subsection, a reasonable portion of the amounts appropriated pursuant to the authorization for funds for supportive services in subsection (k) of this section, based on the estimated number of project residents who will be frail elderly individuals during the 5-year period beginning on the date of initial occupancy of the project. Grants for supportive services may be used to assist any occupant in the demonstration project who is a frail elderly individual. Grants for supportive services under this subsection shall be subject to the other terms and conditions specified in this section.

(5) Applications
An application for assistance under this subsection may be submitted by any unit of general local government with a population under 50,000 and shall contain such information as the Secretary deems appropriate.

(6) Selection
The Secretary shall select one application for funding under this subsection based on the following criteria:
(A) The number of elderly persons residing in the applicant’s jurisdiction.
(B) The extent of existing housing constructed prior to 1940 in the applicant’s jurisdiction.
(C) The number of elderly persons living in adjacent projects to whom the services and facilities provided by the project would be available.
(D) The level of State and local contributions toward the cost of developing the project and of providing supportive services.
(E) The project’s contribution to neighborhood improvement.

(i) Report
The Secretary shall submit to Congress an annual report evaluating the effectiveness of the demonstrations under this section. The report shall include a statement of the number of persons served, the types of services provided, the cost of providing such services, and any other

See References in Text note below.
information the Secretary considers appropriate in evaluating the demonstration.

(j) Section 1437f funding

The budget authority available under section 1437c(c) of this title for assistance under sections 1437f(b) and 1437f(o) of this title is authorized to be increased by $38,288,000 on or after October 1, 1992, and by $39,896,096 on or after October 21, 1998, and a new section, $10,000,000 to become available in fiscal year 1991, and $10,420,000 to become available in fiscal year 1994. Any such amounts appropriated under this subsection shall remain available until expended.

(l) Implementation

The purpose of this section is to enable persons with disabilities to live with dignity and independence within their communities by expanding the supply of supportive housing that—

(1) is designed to accommodate the special needs of such persons;
(2) makes available supportive services that address the individual health, mental health, and other needs of such persons; and
(3) promotes and facilitates community integration for people with significant and long-term disabilities.

(b) Authority to provide assistance

The Secretary is authorized to take the following actions:

(1) Tenant-based assistance

To provide tenant-based rental assistance to eligible persons with disabilities, in accordance with subsection (d)(4) of this section.

(2) Capital advances

To provide assistance to private, nonprofit organizations to expand the supply of supportive housing for persons with disabilities, which shall be provided as—

(A) capital advances in accordance with subsection (d)(1) of this section, and (B) contracts for project rental assistance in accordance with subsection (d)(2) of this section;

assistance under this paragraph may be used to finance the acquisition, acquisition and moderate rehabilitation, construction, reconstruction, or moderate or substantial rehabilitation of housing, including the acquisition from the Resolution Trust Corporation, to be used as supportive housing for persons with disabilities and may include real property acquisition, site improvement, conversion, demolition, relocation, and other expenses that the Secretary determines are necessary to expand the supply of supportive housing for persons with disabilities.

(3) Project rental assistance

(A) In general

To offer additional methods of financing supportive housing for non-elderly adults with disabilities, the Secretary shall make funds available for project rental assistance pursuant to subparagraph (B) for eligible projects under subparagraph (C). The Secretary shall provide for State housing finance agencies and other appropriate entities to apply to the Secretary for such project rental assistance funds, which shall be made available by such agencies and entities for dwelling units in eligible projects.
based upon criteria established by the Secretary. The Secretary may not require any State housing finance agency or other entity applying for such project rental assistance funds to identify in such application the eligible projects for which such funds will be used, and shall allow such agencies and applicants to subsequently identify such eligible projects pursuant to the making of commitments described in subparagraph (C)(i).

(B) Contract terms

(i) Contract terms

Project rental assistance under this paragraph shall be provided—

(I) in accordance with subsection (d)(2); and

(II) under a contract having an initial term of not less than 180 months that provides funding for a term 60 months, which funding shall be renewed upon expiration, subject to the availability of sufficient amounts in appropriation Acts.

(ii) Limitation on units assisted

Of the total number of dwelling units in any multifamily housing project containing any unit for which project rental assistance under this paragraph is provided, the aggregate number that are provided such project rental assistance, that are used for supportive housing for persons with disabilities, or to which any occupancy preference for persons with disabilities applies, may not exceed 25 percent of such total.

(iii) Prohibition of capital advances

The Secretary may not provide a capital advance under subsection (d)(1) for any project for which assistance is provided under this paragraph.

(iv) Eligible population

Project rental assistance under this paragraph may be provided only for dwelling units for extremely low-income persons with disabilities and extremely low-income households that include at least one person with a disability.

(C) Eligible projects

An eligible project under this subparagraph is a new or existing multifamily housing project for which—

(i) the development costs are paid with resources from other public or private sources; and

(ii) a commitment has been made—

(I) by the applicable State agency responsible for allocation of low-income housing tax credits under section 42 of title 26, for an allocation of such credits; and

(II) by the applicable participating jurisdiction that receives assistance under the HOME Investment Partnership Act [42 U.S.C. 12721 et seq.], for assistance from such jurisdiction; or

(III) by any Federal agency or any State or local government, for funding for the project from funds from any other sources.

(D) State agency involvement

Assistance under this paragraph may be provided only for projects for which the applicable State agency responsible for health and human services programs, and the applicable State agency designated to administer or supervise the administration of the State plan for medical assistance under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], have entered into such agreements as the Secretary considers appropriate—

(i) to identify the target populations to be served by the project;

(ii) to set forth methods for outreach and referral; and

(iii) to make available appropriate services for tenants of the project.

(E) Use requirements

In the case of any project for which project rental assistance is provided under this paragraph, the dwelling units assisted pursuant to subparagraph (B) shall be operated for not less than 30 years as supportive housing for persons with disabilities, in accordance with the application for the project approved by the Secretary, and such dwelling units shall, during such period, be made available for occupancy only by persons and households described in subparagraph (B)(iv).

(F) Report

Not later than 3 years after January 4, 2011, and again 2 years thereafter, the Secretary shall submit to Congress a report—

(i) describing the assistance provided under this paragraph; and

(ii) analyzing the effectiveness of such assistance, including the effectiveness of such assistance compared to the assistance program for capital advances set forth under subsection (d)(1) (as in effect pursuant to the amendments made by such Act); and

(iii) making recommendations regarding future models for assistance under this section.

(c) General requirements

The Secretary shall take such actions as may be necessary to ensure that—

(1) assistance made available under this section will be used to meet the housing and community-based services needs of persons with disabilities by providing a variety of housing options, ranging from group homes and independent living facilities to dwelling units in multifamily housing developments, condominium housing, and cooperative housing; and

(2) supportive housing for persons with disabilities assisted under this section shall—

(A) make available voluntary supportive services that address the individual needs of persons with disabilities occupying such housing;

(B) provide such persons with opportunities for optimal independent living and participation in normal daily activities; and

1See in original. Probably should be “Partnerships”.

2See References in Text note below.
(C) facilitate access by such persons to the community at large and to suitable employment opportunities within such community.

(d) Forms of assistance

(1) Capital advances

A capital advance provided pursuant to subsection (b)(1) shall bear no interest and its repayment shall not be required so long as the housing remains available for very-low-income persons with disabilities in accordance with this section. Such advance shall be in an amount calculated in accordance with the development cost limitation established in subsection (h) of this section.

(2) Project rental assistance

(A) Initial project rental assistance contract

Contracts for project rental assistance shall comply with subsection (e)(2) and shall obligate the Secretary to make monthly payments to cover any part of the costs attributed to units occupied (or, as approved by the Secretary, held for occupancy) by very low-income persons with disabilities that is not met from project income. The amount provided under the contract for each year covered by the contract for any project shall not exceed the sum of the initial annual project rentals for all units and any initial utility allowances for such units, as approved by the Secretary. Any contract amounts not used by a project in any year shall remain available to the project until the expiration of the contract. The Secretary may adjust the amount provided under the contract for each year covered by the contract if the sum of the project income and the amount of assistance payments available under this paragraph are inadequate to provide for reasonable project costs. In the case of an intermediate care facility which is the residence of persons assisted under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the Secretary shall adjust the annual contract amount to provide for reasonable project costs, including adequate reserves and service coordinators as appropriate, except that any contract amounts not used by a project during a contract term shall not be available for such adjustments upon renewal.

(B) Renewal of and increases in contract amounts

(i) Expiration of contract term

Upon the expiration of each contract term, subject to the availability of amounts made available in appropriation Acts, the Secretary shall adjust the annual contract amount to provide for reasonable project costs, including adequate reserves and service coordinators as appropriate, except that any contract amounts not used by a project during a contract term shall not be available for such adjustments upon renewal.

(ii) Emergency situations

In the event of emergency situations that are outside the control of the owner, the Secretary shall increase the annual contract amount, subject to reasonable review and limitations as the Secretary shall provide.

(3) Rent contribution

A very low-income person shall pay as rent for a dwelling unit assisted under subsection (b)(2) of this section the higher of the following amounts, rounded to the nearest dollar: (A) 30 percent of the person’s adjusted monthly income, (B) 10 percent of the person’s monthly income, or (C) if the person is receiving payments for welfare assistance from a public agency and a part of such payments, adjusted in accordance with the person’s actual housing costs, is specifically designated by such agency to meet the person’s housing costs, the portion of such payments which is so designated; except that the gross income of a person occupying an intermediate care facility assisted under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] shall be the same amount as if the person were being assisted under title XVI of the Social Security Act [42 U.S.C. 1381 et seq.].

(4) Tenant-based rental assistance

(A) In general

Tenant-based rental assistance provided under subsection (b)(1) shall be provided under section 1437f(o) of this title.

(B) Conversion of existing assistance

There is authorized to be appropriated for tenant-based rental assistance under section 1437f(o) of this title for persons with disabilities an amount not less than the amount necessary to convert the number of authorized vouchers and funding under an annual contributions contract in effect on January 4, 2011. Such converted vouchers shall be administered by the entity administering the vouchers prior to conversion. For purposes of administering such converted vouchers, such entities shall be considered a “public housing agency” authorized to engage in the operation of tenant-based assistance under section 1437f of this title.

(C) Requirements upon turnover

The Secretary shall develop and issue, to public housing agencies that receive voucher assistance made available under this subsection and to public housing agencies that received voucher assistance under section 1437f(o) of this title for non-elderly disabled families pursuant to appropriation Acts for fiscal years 1997 through 2002 or any other subsequent appropriations for incremental vouchers for non-elderly disabled families, guidance to ensure that, to the maximum extent possible, such vouchers continue to be provided upon turnover to qualified persons with disabilities or to qualified non-elderly disabled families, respectively.

(e) Program requirements

(1) Use restrictions

(A) Term

Any project for which a capital advance is provided under subsection (d)(1) shall be operated for not less than 40 years as supportive housing for persons with disabilities, in accordance with the application for the project approved by the Secretary and shall,
during such period, be made available for occupancy only by very low-income persons with disabilities.

(B) Conversion

If the owner of a project requests the use of the project for the direct benefit of very low-income persons with disabilities and, pursuant to such request the Secretary determines that a project is no longer needed for use as supportive housing for persons with disabilities, the Secretary may approve the request and authorize the owner to convert the project to such use.

(2) Contract terms

The initial term of a contract entered into under subsection (d)(2) of this section shall be 240 months, except that, in the case of the sponsor of a project assisted with any low-income housing tax credit pursuant to section 42 of title 26 or with any tax-exempt housing bonds, the contract shall have an initial term of not less than 360 months and shall provide funding for a term of 60 months. The Secretary shall, to the extent approved in appropriation Acts, upon expiration of a contract (or any renewed contract), renew such contract for a term of not less than 60 months. In order to facilitate the orderly extension of expiring contracts, the Secretary is authorized to make commitments to extend expiring contracts during the year prior to the date of expiration.

(3) Limitation on use of funds

No assistance received under this section (or any State or local government funds used to supplement such assistance) may be used to replace other State or local funds previously used, or designated for use, to assist persons with disabilities.

(4) Multifamily projects

(A) Limitation

Except as provided in subparagraph (B), of the total number of dwelling units in any multifamily housing project (including any condominium or cooperative housing project) containing any unit for which assistance is provided from a capital grant under subsection (d)(1) made after January 4, 2011, the aggregate number that are used for persons with disabilities, including supportive housing for persons with disabilities, or to which any occupancy preference for persons with disabilities applies, may not exceed 25 percent of such total.

(B) Exception

Subparagraph (A) shall not apply in the case of any project that is a group home or independent living facility.

(f) Applications

Funds made available under subsection (b)(2) of this section shall be allocated by the Secretary among approvable applications submitted by private nonprofit organizations. Applications for assistance under subsection (b)(2) of this section shall be submitted in such form and in accordance with such procedures as the Secretary shall establish. Such applications shall contain—

(1) a description of the proposed housing;
(2) a description of the assistance the applicant seeks under this section;
(3) a supportive service plan that contains—
(A) a description of the needs of persons with disabilities that the housing is expected to serve;
(B) assurances that persons with disabilities occupying such housing will be offered supportive services based on their individual needs;
(C) evidence of the applicant’s experience in—
(i) providing such supportive services; or
(ii) creating and managing structured partnerships with service providers for the delivery of appropriate community-based services;
(D) a description of the manner in which such services will be provided to tenants; and
(E) identification of the extent of other Federal, and State and local funds available to assist in the provision of such services;
(4) a certification from the appropriate State or local agency (as determined by the Secretary) that the provision of the services identified in paragraph (3) are well designed to serve the housing and community-based services needs of persons with disabilities;
(5) reasonable assurances that the applicant will own or have control of an acceptable site for the proposed housing not later than 6 months after notification of an award for assistance;
(6) a certification from the public official responsible for submitting a housing strategy for the jurisdiction to be served in accordance with section 12705 of this title that the proposed housing is consistent with the approved housing strategy; and
(7) such other information or certifications that the Secretary determines to be necessary or appropriate to achieve the purposes of this section.

(g) Selection criteria and processing

(1) Selection criteria

The Secretary shall establish selection criteria for assistance under subsection (b)(2) of this section, which shall include—

(A) the ability of the applicant to develop and operate the proposed housing;
(B) the need for housing for persons with disabilities in the area to be served;
(C) the extent to which the proposed design of the housing will meet the special needs of persons with disabilities;
(D) the extent to which the applicant has demonstrated that appropriate supportive services will be made available on a consistent, long-term basis;
(E) the extent to which the location and design of the proposed project will facilitate the provision of community-based supportive services and address other basic needs of persons with disabilities, including access to appropriate and accessible transportation, access to community services agencies, public facilities, and shopping;
(F) the extent to which the per-unit cost of units to be assisted under this section will be supplemented with resources from other public and private sources;

(G) the extent to which the applicant has control of the site of the proposed housing; and

(H) such other factors as the Secretary determines to be appropriate to ensure that funds made available under subsection (b)(2) of this section are used effectively.

(2) Delegated processing

(A) In issuing a capital advance under subsection (d)(1) for any multifamily project (but not including any project that is a group home or independent living facility) for which financing for the purposes described in the last sentence of subsection (b) is provided by a combination of the capital advance and sources other than this section, within 30 days of award of the capital advance, the Secretary shall delegate review and processing of such projects to a State or local housing agency that—

(i) is in geographic proximity to the property;

(ii) has demonstrated experience in and capacity for underwriting multifamily housing loans that provide housing and supportive services;

(iii) may or may not be providing low-income housing tax credits in combination with the capital advance under this section; and

(iv) agrees to issue a firm commitment within 12 months of delegation.

(B) The Secretary shall retain the authority to process capital advances in cases in which no State or local housing agency is sufficiently qualified to provide delegated processing pursuant to this paragraph or no such agency has entered into an agreement with the Secretary to serve as a delegated processing agency.

(C) The Secretary shall—

(i) develop criteria and a timeline to periodically assess the performance of State and local housing agencies in carrying out the duties delegated to such agencies pursuant to subparagraph (A); and

(ii) retain the authority to review and process projects financed by a capital advance in the event that, after a review and assessment, a State or local housing agency is determined to have failed to satisfy the criteria established pursuant to clause (i).

(D) An agency to which review and processing is delegated pursuant to subparagraph (A) may assess a reasonable fee which shall be included in the capital advance amounts and may recommend project rental assistance amounts in excess of those initially awarded by the Secretary. The Secretary shall develop a schedule for reasonable fees under this subparagraph to be paid to delegated processing agencies, which shall take into consideration any other fees to be paid to the agency for other funding provided to the project by the agency, including bonds, tax credits, and other gap funding.

(E) Under such delegated system, the Secretary shall retain the authority to approve rents and development costs and to execute a capital advance within 60 days of receipt of the commitment from the State or local agency. The Secretary shall provide to such agency and the project sponsor, in writing, the reasons for any reduction in capital advance amounts or project rental assistance and such reductions shall be subject to appeal.

(h) Development cost limitations

(1) Group homes

The Secretary shall periodically establish development capital limitations by market area for group homes of supportive housing for persons with disabilities by publishing a notice of the cost limitations in the Federal Register. The cost limitations shall reflect—

(A) the cost of acquisition, construction, reconstruction, or rehabilitation of supportive housing for persons with disabilities that—

(i) meets applicable State and local housing and building codes; and (ii) conforms with the design characteristics of the neighborhood in which it is to be located;

(B) the cost of moveables necessary to the basic operation of the housing, as determined by the Secretary;

(C) the cost of special design features necessary to make the housing accessible to persons with disabilities;

(D) the cost of special design features necessary to make individual dwelling units meet the special needs of persons with disabilities;

(E) if the housing is newly constructed, the cost of meeting the energy efficiency standards promulgated by the Secretary in accordance with section 12709 of this title; and

(F) the cost of land, including necessary site improvement.

In establishing development cost limitations for a given market area, the Secretary shall use data that reflect currently prevailing costs of acquisition, construction, reconstruction, or rehabilitation, and land acquisition in the area. Neither this section nor any other provision of law may be construed as prohibiting or preventing the location and operation, in a project assisted under this section, of commercial facilities for the benefit of residents of the project and the community in which the project is located, except that assistance made available under this section may not be used to subsidize any such commercial facility.

(2) RTC properties

In the case of existing housing and related facilities from the Resolution Trust Corporation under section 1441a(c) of title 12, the cost limitations shall include—

(A) the cost of acquiring such housing,

(B) the cost of rehabilitation, alteration, conversion, or improvement, including the moderate rehabilitation thereof, and

(C) the cost of the land on which the housing and related facilities are located.

(3) Annual adjustments

The Secretary shall adjust the cost limitation established pursuant to paragraph (1) not
§ 8013

TITLE 42—THE PUBLIC HEALTH AND WELFARE

Page 6550

less than once annually to reflect changes in the general level of acquisition, construction, reconstruction, or rehabilitation costs.

(4) Incentives for savings

(A) Special project account

The Secretary shall use the development cost limitations established under paragraph (1) to calculate the amount of financing to be made available to individual owners. Owners which incur actual development costs that are less than the amount of financing shall be entitled to retain 50 percent of the savings in a special project account. Such percentage shall be increased to 75 percent for owners which add energy efficiency features which (i) exceed the energy efficiency standards promulgated by the Secretary in accordance with section 12709 of this title; (ii) substantially reduce the life-cycle cost of the housing; (iii) reduce gross rent requirements; and (iv) enhance tenant comfort and convenience.

(B) Uses

The special project account established under subparagraph (A) may be used (i) to supplement services provided to residents of the housing or funds set-aside for replacement reserves, or (ii) for such other purposes as determined by the Secretary.

(5) Funds from other sources

An owner shall be permitted voluntarily to provide funds from sources other than this section for amenities and other features of appropriate design and construction suitable for supportive housing for persons with disabilities if the cost of such amenities is (A) not financed with the advance, and (B) is not taken into account in determining the amount of Federal assistance or of the rent contribution of tenants. Notwithstanding any other provision of law, assistance amounts provided under this section may be treated as amounts not derived from a Federal grant.

(6) Applicability of home program cost limitations

(A) In general

The provisions of section 212(e) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12742(e)) and the cost limits established by the Secretary pursuant to such section with respect to the amount of funds under subtitle A of title II of such Act (42 U.S.C. 12741 et seq.) that may be invested on a per unit basis, shall apply to supportive housing assisted with a capital advance under subsection (d)(1) and the amount of funds under such subsection that may be invested on a per unit basis.

(B) Waivers

The Secretary may provide for waiver of the cost limits applicable pursuant to subparagraph (A)—(i) in the cases in which the cost limits established pursuant to section 212(e) of the Cranston-Gonzalez National Affordable Housing Act may be waived; and (ii) to provide for—

(I) the cost of special design features to make the housing accessible to persons with disabilities;

(II) the cost of special design features necessary to make individual dwelling units meet the special needs of persons with disabilities; and

(III) the cost of providing the housing in a location that is accessible to public transportation and community organizations that provide supportive services to persons with disabilities.

(i) Admission and occupancy

(1) Tenant selection

(A) Procedures

An owner shall adopt written tenant selection procedures that are satisfactory to the Secretary as (i) consistent with the purpose of improving housing opportunities for very low-income persons with disabilities; and (ii) reasonably related to program eligibility and an applicant’s ability to perform the obligations of the lease. Owners shall promptly notify in writing any rejected applicant of the grounds for any rejection.

(B) Requirement for occupancy

Occupancy in dwelling units provided assistance under this section shall be available only to persons with disabilities and households that include at least one person with a disability.

(C) Availability

Except only as provided in subparagraph (D), occupancy in dwelling units in housing provided with assistance under this section shall be available to all persons with disabilities eligible for such occupancy without regard to the particular disability involved.

(D) Limitation on occupancy

Notwithstanding any other provision of law, the owner of housing developed under this section may, with the approval of the Secretary, limit occupancy within the housing to persons with disabilities who can benefit from the supportive services offered in connection with the housing.

(2) Tenant protections

(A) Lease

The lease between a tenant and an owner of housing assisted under this section shall be for not less than one year, and shall contain such terms and conditions as the Secretary shall determine to be appropriate.

(B) Termination of tenancy

An owner may not terminate the tenancy or refuse to renew the lease of a tenant of a rental dwelling unit assisted under this section except—

(i) for serious or repeated violation of the terms and conditions of the lease, for violation of applicable Federal, State, or local law, or for other good cause; and

(ii) by providing the tenant, not less than 30 days before such termination or refusal to renew, with written notice specifying the grounds for such action.

(i) Admission and occupancy

(1) Tenant selection

(A) Procedures

An owner shall adopt written tenant selection procedures that are satisfactory to the Secretary as (i) consistent with the purpose of improving housing opportunities for very low-income persons with disabilities; and (ii) reasonably related to program eligibility and an applicant’s ability to perform the obligations of the lease. Owners shall promptly notify in writing any rejected applicant of the grounds for any rejection.

(B) Requirement for occupancy

Occupancy in dwelling units provided assistance under this section shall be available only to persons with disabilities and households that include at least one person with a disability.

(C) Availability

Except only as provided in subparagraph (D), occupancy in dwelling units in housing provided with assistance under this section shall be available to all persons with disabilities eligible for such occupancy without regard to the particular disability involved.

(D) Limitation on occupancy

Notwithstanding any other provision of law, the owner of housing developed under this section may, with the approval of the Secretary, limit occupancy within the housing to persons with disabilities who can benefit from the supportive services offered in connection with the housing.

(2) Tenant protections

(A) Lease

The lease between a tenant and an owner of housing assisted under this section shall be for not less than one year, and shall contain such terms and conditions as the Secretary shall determine to be appropriate.

(B) Termination of tenancy

An owner may not terminate the tenancy or refuse to renew the lease of a tenant of a rental dwelling unit assisted under this section except—

(i) for serious or repeated violation of the terms and conditions of the lease, for violation of applicable Federal, State, or local law, or for other good cause; and

(ii) by providing the tenant, not less than 30 days before such termination or refusal to renew, with written notice specifying the grounds for such action.
(C) Voluntary participation in services

A supportive service plan for housing assisted under this section shall permit each resident to take responsibility for choosing and acquiring their own services, to receive any supportive services made available directly or indirectly by the owner of such housing, or to not receive any supportive services.

(j) Miscellaneous provisions

(1) Technical assistance

The Secretary shall make available appropriate technical assistance to assure that applicants having limited resources, particularly minority applicants, are able to participate more fully in the program carried out under this section.

(2) Civil rights compliance

Each owner shall certify, to the satisfaction of the Secretary, that assistance made available under this section will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.], the Fair Housing Act [42 U.S.C. 3601 et seq.] and other Federal, State, and local laws prohibiting discrimination and promoting equal opportunity; and

(3) Site control

An applicant may obtain ownership or control of a suitable site different from the site specified in the initial application. If an applicant fails to obtain ownership or control of the site within 1 year after notification of an award for assistance, the assistance shall be recaptured and reallocated.

(4) Notice of appeal

The Secretary shall notify an owner not less than 30 days prior to canceling any reservation of assistance provided under this section. During the 30-day period following receipt of a notice under the preceding sentence, an owner may appeal the proposed cancellation. Such appeal, including review by the Secretary, shall be completed not later than 45 days after the appeal is filed.

(5) Labor standards

(A) In general

The Secretary shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors and subcontractors in the construction of housing with 12 or more units assisted under this section shall be paid wages at rates not less than those prevailing in the locality involved for the corresponding classes of laborers and mechanics employed on construction of a similar character, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40.

(B) Exemption

Subparagraph (A) shall not apply to any individual who—

(ii)(I) does not receive compensation for such services; or

(ii)(II) is paid expenses, reasonable benefits, or a nominal fee for such services; and

(iii) is not otherwise employed at any time in the construction work.

(6) Use of project reserves

Amounts for project reserves for a project assisted under this section may be used for costs, subject to reasonable limitations as the Secretary determines appropriate, for reducing the number of dwelling units in the project. Such use shall be subject to the approval of the Secretary to ensure that the use is designed to retrofit units that are currently obsolete or unmarketable.

(k) Definitions

As used in this section—

(1) The term “group home” means a single family residential structure designed or adapted for occupancy by not more than 8 persons with disabilities, which provides a separate bedroom for each tenant of the residence. The Secretary may waive the project size limitation contained in the previous sentence if the applicant demonstrates that local market conditions dictate the development of a larger project. Not later than the date of the exercise of any waiver permitted under the preceding sentence, the Secretary shall notify the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives of the waiver or the intention to exercise the waiver, together with a detailed explanation of the reason for the waiver. Not more than 1 home may be located on any one site and no such home may be located on a site contiguous to another site containing such a home.

(2) The term “person with disabilities” means a household composed of one or more persons who is 18 years of age or older and less than 62 years of age, and who has a disability. A person shall be considered to have a disability if such person determined, pursuant to regulations issued by the Secretary to have a physical, mental, or emotional impairment which (A) is expected to be of long-continued and indefinite duration, (B) substantially impedes his or her ability to live independently, and (C) is of such a nature that such ability could be improved by more suitable housing conditions. A person shall also be considered to have a disability if such person has a developmental disability as defined in section 15002 of this title. The Secretary shall prescribe such regulations as may be necessary to prevent abuses in determining, under the definitions contained in this paragraph, the eligibility of families and persons for admission to and occupancy of housing assisted under this section. Notwithstanding the preceding provisions of this paragraph, the term “person with disabilities” includes two or more persons with disabilities living together, one or more such persons living with another person who is determined (under regulations prescribed by the Secretary) to be important to their care or well-being, and the surviving member or mem-

8So in original. The word “opportunity” probably should be followed by a period.
bers of any household described in the first sentence of this paragraph who were living, in a unit assisted under this section, with the deceased member of the household at the time of his or her death.

(3) The term "supportive housing for persons with disabilities" means dwelling units that—
(A) are designed to meet the permanent housing needs of very low-income persons with disabilities; and
(B) are located in housing that make available supportive services that address the individual health, mental health, or other needs of such persons.

(4) The term "independent living facility" means a project designed for occupancy by not more than 24 persons with disabilities (or such higher number of persons as permitted under criteria that the Secretary shall prescribe) in separate dwelling units where each dwelling unit includes a kitchen and a bath. Not later than the date that the Secretary prescribes a limit exceeding the 24 person limit in the previous sentence, the Secretary shall notify the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives of the limit or the intention to prescribe a limit in excess of 24 persons, together with a detailed explanation of the reason for the new limit.

(5) The term "owner" means a private nonprofit organization that receives assistance under this section to develop and operate supportive housing for persons with disabilities.

(6) The term "private nonprofit organization" means any institution or foundation—
(A) that has received, or has temporary clearance to receive, tax-exempt status under section 501(c)(3) of title 26;
(B) no part of the net earnings of which inures to the benefit of any member, founder, contributor, or individual;
(C) which has a governing board (i) the membership of which is selected in a manner to assure that there is significant representation of the views of persons with disabilities, and (ii) which is responsible for the operation of the housing assisted under this section; and
(D) which is approved by the Secretary as to financial responsibility.

Such term includes a for-profit limited partnership the sole general partner of which is an organization meeting the requirements under subparagraphs (A), (B), (C), and (D) or a corporation controlled by an organization meeting the requirements under subparagraphs (A), (B), (C), and (D).

(7) The term "State" includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States.

(8) The term "Secretary" means the Secretary of Housing and Urban Development.

(9) The term "very low-income" has the same meaning as given the term "very low-income families" under section 1437a(b)(2) of this title.

(l) Allocation of funds

(1) Minimum allocation for multifamily projects

The Secretary shall establish a minimum percentage of the amount made available for each fiscal year for capital advances under subsection (d)(1) that shall be used for multifamily projects subject to subsection (e)(4).

(2) Capital advances

Of any amounts made available for assistance under subsection (b) of this section, such sums as may be necessary shall be available for funding capital advances in accordance with subsection (d)(1) of this section. Such amounts, the repayments from such advances, and the proceeds from notes or obligations issued under this section prior to November 28, 1990, shall constitute a revolving fund to be used by the Secretary in carrying out this section.

(3) Project rental assistance

Of any amounts made available for assistance under subsection (b) of this section, such sums as may be necessary shall be available for funding project rental assistance in accordance with subsection (d)(2) of this section.

(m) Authorization of appropriations

There are authorized to be appropriated for providing assistance pursuant to this section $300,000,000 for each of fiscal years 2011 through 2015.

(n) Effective date and applicability

(1) In general

The amendments made by this section shall take effect on October 1, 1991, with respect to projects approved on or after such date. The Secretary shall issue regulations for such purpose after notice and public comment.

(2) Earlier applicability

The Secretary shall, upon the request of an owner, apply the provisions of this section to any housing for which a loan reservation was made under section 1701q of title 12 before November 28, 1990, but for which no loan has been executed and recorded. In the absence of such a request, any housing identified under the preceding sentence shall continue to be subject to the provisions of section 1701q of title 12 as they were in effect when such assistance was made or reserved.

(3) Coordination

When responding to an owner's request under paragraph (1), the Secretary shall, notwithstanding any other provision of law, apply such portion of amounts obligated at the time of loan reservation, including amounts reserved with respect to such housing under section 1437f of this title, as are required for the owner's housing under the provisions of this section and shall make any remaining portion available for other housing under this section.

*See Codification note below.

REFERENCES IN TEXT

The HOME Investment Partnerships Act, referred to in subsec. (b)(3)(C)(ii)(II), is title II of Pub. L. 101–625, Nov. 28, 1990, 104 Stat. 4099, which is classified principally to subchapter II (§12721 et seq.) of chapter 130 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

The Social Security Act, referred to in subsec. (b)(3)(D) and (d)(2), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XVI and XIX of the Act are classified generally to subchapter II of chapter 130 of this title and Tables. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

the housing will accommodate the provision of such services:"

Subsec. (h)(1). Pub. L. 111–374, §3(f)(1), substituted "Group homes" for "in general" in heading and "group homes" for "various types and sizes" in introductory provisions, redesignated subpars. (F) and (G) as (E) and (F), respectively, and struck out former subpar. (E) which read as follows: "the cost of congregate space necessary to accommodate the provision of supportive services to persons with disabilities:"

Subsec. (h)(3). Pub. L. 111–374, §3(f)(2), inserted "established pursuant to paragraph (1)" after "cost limitation:"

Subsec. (i). Pub. L. 111–374, §3(e), added subsec. (i) and struck out former subsec. (i) which related to tenant selection.

Subsec. (j)(4) to (7). Pub. L. 111–374, §5(6), redesignated pars. (5) to (7) as (4) to (6), respectively, and struck out former par. (4). Prior to amendment, text of par. (4) read as follows: "The Secretary may require an owner to deposit an amount not to exceed $10,000 in a special escrow account to assure the owner's commitment to the housing:"

Subsec. (k)(1). Pub. L. 111–374, §5(7)(A), inserted "(A) is designed to meet the special needs of persons with disabilities, and "(B) provides supportive services that address the individual health, mental health or other special needs of such persons." Subsec. (k)(4). Pub. L. 111–374, §3(g)(2), substituted "(prescribe)" for "(prescribe, subject to the limitation under subsection (h)(6) of this section)" and inserted at end "Not later than the date that the Secretary prescribes a limit exceeding the 24 person limit in the previous sentence, the Secretary shall notify the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives of the waiver or the intention to exercise the waiver, together with a detailed explanation of the reason for the waiver:"

Subsec. (k)(2). Pub. L. 111–374, §5(7)(B), substituted "The term 'person with disabilities' means a household composed of one or more persons who is 18 years of age or older and less than 62 years of age, and who has a disability." for "The term 'person with disabilities' means a household composed of one or more persons at least one of whom is an adult who has a disability."

Subsec. (k)(3). Pub. L. 111–374, §5(7)(C), added par. (3) and struck out former par. (3) which read as follows: "The term 'supportive housing for persons with disabilities' means housing that— "(A) is designed to meet the special needs of persons with disabilities, and "(B) provides supportive services that address the individual health, mental health or other special needs of such persons." Subsec. (k)(5). Pub. L. 111–374, §5(7)(D), struck out "a project for" before "supportive housing:"

Subsec. (k)(6). Pub. L. 111–374, §5(7)(E), which directed striking out "wholly owned and " in the matter inserted by the amendment made by subparagraph (A) of this paragraph, was executed by striking out "wholly owned and " after "corporation" in concluding provisions inserted by section 1437e(f) of this title, to reflect the probable intent of Congress. See below. Pub. L. 111–374, §5(7)(E)(1), inserted as concluding provisions the matter directed to be inserted as concluding provisions to section 1437e(f) of the Housing Act of 1959 by section 841 of Pub. L. 106–569. See 2000 Amendment note below.

Subsec. (l)(1). Pub. L. 111–374, §3(h), amended par. (1) generally. Prior to amendment, text read as follows: "Of any amount made available for assistance under this section in any fiscal year, an amount shall be used for assistance under subsection (b)(2) of this section that is not less than the amount made available in appropriation Acts for such assistance in the preceding year:"

Subsec. (l)(2). Pub. L. 111–374, §5(b)(A), substituted "subsection (d)(1)" for "subsection (c)(1)"

Subsec. (l)(4). Pub. L. 111–374, §5(b)(2), struck out par. (4). Text read as follows: "Of any amounts made available for any fiscal year and used for capital advances or project rental assistance under paragraphs (1) and (2) of subsection (d) of this section, not more than 25 percent may be used for supportive housing which contains more than 24 separate dwelling units:"

2000—Pub. L. 106–569, §843(1), added par. (4) and struck out heading and text of former par. (4). Text read as follows: "Tenant-based rental assistance provided under subsection (h)(5) of this section is provided only through a public housing agency that has submitted, and had approved, an allocation plan under section 1437f(e) of this title, and a public housing agency shall be eligible to apply under this section only for the purposes of providing such assistance. Such assistance shall be made available to eligible persons with disabilities and administered under the same rules that govern rental assistance made available under section 1437f of this title. In determining the amount of assistance provided under subsection (b)(1) of this section for a public housing agency, the Secretary shall consider the needs of the agency as described in the allocation plan:"

Subsec. (h)(1). Pub. L. 110–569, §845, inserted at end of concluding provisions "Neither this section nor any other provision of law may be construed as prohibiting or preventing the location and operation, in a project assisted under this section, of commercial facilities for the benefit of residents of the project and the community in which the project is located, except that assistance available under this section may not be used to subdivide any such commercial facility:"

Subsec. (h)(5). Pub. L. 106–569, §842, substituted "sources other than this section" for "non-Federal sources" and inserted at end "Notwithstanding any other provision of law, assistance amounts provided under this section may be treated as amounts not derived from a Federal grant:"

Subsec. (k)(2). Pub. L. 106–402 substituted "as defined in section 15002 of this title, for "as defined in section 6001(7) of this title:"

Subsec. (j)(1). Pub. L. 106–569, §843(2), substituted "subsection (b)(2) of this section" for "subsection (b) of this section and struck out before period at end " and the remainder shall be available for tenant-based assistance under subsection (n):"

Subsec. (m). Pub. L. 106–569, §822, added subsec. (m) and struck out heading and text of former subsec. (m). Text read as follows: "There is authorized to be appropriated for providing assistance under this section $201,000,000 for fiscal year 2000.

1999—Subsec. (k)(4). Pub. L. 106–74, §524(a)(1), inserted "subject to the limitation under subsection (h)(6) of this section" after "prescribe:"

Subsec. (m). Pub. L. 106–74, §512, added subsec. (m) and redesignated former subsec. (m) as (n).

Subsec. (b). Pub. L. 102–550, §623(a)(2), added heading, introductory provisions, and pars. (1) and (2) and struck out former heading “General authority”, introductory provisions, and pars. (1) and (2) which authorized assistance to private, nonprofit organizations to expand the supply of supportive housing for persons with disabilities, which assistance would be provided as capital advances and contracts for project rental assistance, and, in concluding provisions, realigned margin and substituted “assistance under this paragraph” for “Such assistance”.

Subsec. (d)(1). Pub. L. 102–550, §623(a)(3)(A), which directed the substitution of “subsection (b)(2) of this section” for “this section”, was executed by making the substitution the first place appearing in first sentence, to reflect the probable intent of Congress.

Subsec. (d)(3). Pub. L. 102–550, §623(a)(3)(A), substituted “subsection (b)(2) of this section” for “this section”.

Subsec. (e)(1). Pub. L. 102–550, §623(a)(4), substituted “subsection (b)(2) of this section” for “this section”.

Subsec. (g). Pub. L. 102–550, §623(a)(6), which directed the substitution of “subsection (b)(2) of this section” for “this section”, was executed by making the substitution in the introductory provisions and in par. (7), to reflect the probable intent of Congress.

Subsec. (j)(6). Pub. L. 102–550, §913(b), designated existing provisions as subpar. (A), inserted subpar. heading, substituted “with 12 or more units assisted under this section” for “assisted under this section and designed for dwelling use by 12 or more persons with disabilities”, inserted “commonly known as” before “the Davis-Bacon Act”, struck out before period at end “; but the Secretary may waive the application of this paragraph in cases or classes of cases where laborers or mechanics, not otherwise employed at any time in the construction of such housing, voluntarily donate their services without full compensation for the purposes of lowering the costs of construction and the Secretary determines that any amounts saved thereby are fully credited to the corporation, cooperative, or public body or agency undertaking the construction”, and added subpar. (B).

Subsec. (k)(6). Pub. L. 102–550, §603, struck out “incorporated private” before “institution” in introductory provisions, added subpar. (A), and redesignated former subpars. (A) to (C) as (B) to (D), respectively.

Pub. L. 102–550, §601(d)(2), inserted first sentence, struck out former first sentence which authorized an appropriation of $271,000,000 for fiscal year 1992 for the construction of such housing, voluntarily donate their services without full compensation for the purposes of lowering the costs of construction and the Secretary determines that any amounts saved thereby are fully credited to the corporation, cooperative, or public body or agency undertaking the construction”, and added subpar. (B).

Subsec. (k)(6). Pub. L. 102–550, §603, struck out “incorporated private” before “institution” in introductory provisions, added subpar. (A), and redesignated former subpars. (A) to (C) as (B) to (D), respectively.

Pub. L. 102–550, §601(d)(2), inserted first sentence, struck out former first sentence which authorized an appropriation of $271,000,000 for fiscal year 1992 for the purpose of funding capital advances in accordance with subsection (d)(1) of this section, and in second sentence, substituted “Such amounts” for “Amounts so appropriated”.

Pub. L. 102–550, §601(d)(3), added par. (2) and struck out former par. (2) which read as follows: “For the purpose of funding contracts for project rental assistance in accordance with subsection (d)(2) of this section, the Secretary may, to the extent approved in an appropriations Act, reserve authority to enter into obligations aggregating $240,000,000 for fiscal year 1992.”

1991—Subsec. (k)(4). Pub. L. 102–27 substituted “24 persons with disabilities (or such higher number of persons as permitted under criteria that the Secretary shall prescribe)” for “20 persons with disabilities”.

Effective Date of 2000 Amendment

Amendment by title VIII of Pub. L. 106–569 effective Dec. 27, 2000, unless effectiveness or applicability upon another date certain is specifically provided for, with provisions relating to effect of regulatory authority, see section 803 of Pub. L. 106–569, set out as a note under section 170q of Title 12, Banks and Banking.

Effective Date of 1992 Amendment

Amendment by subtitles B through F of title VI (§§621–685) of Pub. L. 102–550 applicable upon expiration of 6-month period beginning Oct. 31, 1992, except as otherwise provided, see section 1362 of this title.

Enactment of Section

This section was enacted as part of Pub. L. 101–625, which was approved Nov. 28, 1990. However, this section was deemed enacted as of Nov. 5, 1990, by Pub. L. 101–507, title II, Nov. 5, 1990, 104 Stat. 1358, set out as an Effective Date of 1990 Amendment note under section 170q of Title 12, Banks and Banking.

Inapplicability of Certain 1992 Amendments to Indian Public Housing

Amendment by section 623(a) of Pub. L. 102–550 not applicable with respect to lower income housing developed or operated pursuant to contract between Secretary of Housing and Urban Development and Indian housing authority, see section 628 of Pub. L. 102–550, set out as a note under section 147fa of this title.

Provision of Technical Assistance

Pub. L. 111–374, §2(b), Jan. 4, 2011, 124 Stat. 4090, provided that: “The Secretary of Housing and Urban Development and other administering entities to facilitate using vouchers to provide permanent supportive housing for persons with disabilities, help States reduce reliance on segregated restrictive settings for people with disabilities to meet community care requirements, end chronic homelessness, as ‘chronically homeless’ is defined in section 401 of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11361), and for other related purposes.”

Rental Assistance Contract Obligations

CHAPTER 90—NEIGHBORHOOD AND CITY REINVESTMENT, SELF-HELP AND REVITALIZATION

SUBCHAPTER I—NEIGHBORHOOD REINVESTMENT CORPORATION

Sec. 8101. Congressional findings and declaration of purpose.

8103. Board of Directors.

8104. Officers and employees.

8105. Powers and duties of corporation.

8106. Reports and audits.

8107. Appropriations.

8108. Warnings to homeowners of foreclosure rescue scams.

SUBCHAPTER II—NEIGHBORHOOD SELF-HELP DEVELOPMENT

8121 to 8124. Repealed.
§ 8101. Congressional findings and declaration of purpose

(a) The Congress finds that—

(1) the neighborhood housing services demonstration of the Urban Reinvestment Task Force has proven its worth as a successful program to revitalize older urban neighborhoods by mobilizing public, private, and community resources at the neighborhood level; and

(2) the demand for neighborhood housing services programs in cities throughout the United States warrants the creation of a public corporation to institutionalize and expand the neighborhood housing services program and other programs of the present Urban Reinvestment Task Force.

(b) The purpose of this subchapter is to establish a public corporation which will continue the joint efforts of the Federal financial supervisory agencies and the Department of Housing and Urban Development to promote reinvestment in older neighborhoods by local financial institutions working cooperatively with community people and local government, and which will continue the nonbureaucratic approach of the Urban Reinvestment Task Force, relying largely on local initiative for the specific design of local programs.

Short Title

Section 601 of title VI of Pub. L. 95–557 provided that: ‘‘This title [enacting this subchapter] may be cited as the ‘Neighborhood Reinvestment Corporation Act.’’

Section 701 of title VII of Pub. L. 95–557, which provided that such title, which was classified to subchapter II of this chapter, was to be cited as the ‘‘Neighborhood Self-Help Development Act of 1978’’, was repealed by Pub. L. 97–35, title III, § 313(a), Aug. 13, 1980, 94 Stat. 1645.

§ 8102. Neighborhood Reinvestment Corporation

(a) Establishment

There is established a Neighborhood Reinvestment Corporation (hereinafter referred to as the ‘‘corporation’’) which shall be a body corporate and shall possess the powers, and shall be subject to the direction and limitations specified herein.

(b) Implementation and expansion of demonstration activities

The corporation shall implement and expand the demonstration activities carried out by the Urban Reinvestment Task Force.

(c) Principal office

The corporation shall maintain its principal office in the District of Columbia or at such other place the corporation may from time to time prescribe.

(d) Exemption from taxation

The corporation, including its franchise, activities, assets, and income, shall be exempt from all taxation now or hereafter imposed by the United States, by any territory, dependency, or possession thereof, or by any State, county, municipality, or local taxing authority, except that any real property of the corporation shall be subject to State, territorial, county, municipal, or local taxation to the same extent according to its value as other real property is taxed.

Amendments

§ 8103. Board of Directors

(a) Membership

The corporation shall be under the direction of a board of directors made up of the following members:

(1) the Chairman of the Federal Home Loan Bank Board or a member of the Federal Home Loan Bank Board to be designated by the Chairman;

(2) the Secretary of Housing and Urban Development;

(3) the Chairman of the Board of Governors of the Federal Reserve System, or a member of the Board of Governors of the Federal Reserve System to be designated by the Chairman;

(4) the Chairman of the Federal Deposit Insurance Corporation or the appointive member of the Board of Directors of the Federal Deposit Insurance Corporation if so designated by the Chairman;

(5) the Comptroller of the Currency; and

(6) the Chairman of the National Credit Union Administration or a member of the Board of the National Credit Union Administration to be designated by the Chairman.

(b) Election of chairman

The Board shall elect from among its members a chairman who shall serve for a term of two years, except that the Chairman of the Federal Home Loan Bank Board shall serve as Chairman of the Board of Directors for the first such two-year term.

(c) Terms of office

Each director of the corporation shall serve ex officio during the period he holds the office to which he is appointed by the President.

(d) Compensation and expenses

The directors of the corporation, as full-time officers of the United States, shall serve without additional compensation but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of their duties as directors of the corporation.
(e) Bylaws, policies and administrative provisions

The directors of the corporation shall adopt such bylaws, policies, and administrative provisions as are necessary to the functioning of the corporation and consistent with the provisions of this subchapter.

(f) Director absences; designated representatives

A director who is necessarily absent from a meeting of the board, or of a committee of the board, may participate in such meeting through a duly designated representative who is serving, pursuant to appointment by the President of the United States, by and with the advice and consent of the Senate, in the same department, agency, corporation, or instrumentality as the absent director, or in the case of the Comptroller of the Currency, through a duly designated Deputy Comptroller.

(g) Quorum

The presence of a majority of the board members, or their representatives as provided in subsection (f) of this section, shall constitute a quorum.

(h) Application of other laws

The corporation shall be subject to the provisions of section 552 of title 5.

(i) Meetings of board

All meetings of the board of directors will be conducted in accordance with the provisions of section 552b of title 5.

Amendments
1988—Subsec. (a)(1). Pub. L. 100–242, §520(a)(1), inserted “or a member of the Federal Home Loan Bank Board to be designated by the Chairman” before semicolon.

Subsec. (a)(3). Pub. L. 100–242, §520(a)(2), added par. (3) and struck out former par. (3) which read as follows: “a member of the Board of Governors of the Federal Reserve System, to be designated by the Chairman of the Board of Governors of the Federal Reserve System;”.

Subsec. (a)(4). Pub. L. 100–242, §520(a)(3), inserted “or the appointive member of the Board of Directors of the Federal Deposit Insurance Corporation if so designated by the Chairman” before semicolon.

Subsec. (a)(6). Pub. L. 100–628 struck out second of the two periods as end.

Pub. L. 100–242, §520(a)(4), substituted “Chairman” for “Administrator” and inserted “or a member of the Board of the National Credit Union Administration to be designated by the Chairman” before period.

1982—Subsecs. (f) to (i). Pub. L. 97–320 added subsec. (f), redesignated former subsec. (f) to (h) as (g) to (i), respectively, and in subsec. (g) inserted “or their representatives as provided in subsection (f) of this section.”.

TRANSFER OF FUNCTIONS

Federal Home Loan Bank Board abolished and functions transferred, see sections 401 to 406 of Pub. L. 101–73, set out as a note under section 1457 of Title 12, Banks and Banking.

§8104. Officers and employees

(a) Employment, compensation and benefits

The board shall have power to select, employ, and fix the salary and benefits of such officers, employees, attorneys, and agents as shall be necessary for the performance of its duties under this subchapter, without regard to the provisions of title 5 governing appointments in the competitive service, classification, and General Schedule pay rates, except that no officer, employee, attorney, or agent of the corporation may be paid salary at a rate in excess of the rate for level IV of the Executive Schedule, except that the board-appointed officers may be paid salary at a rate not to exceed level II of the Executive Schedule. The Corporation shall also apply the provisions of section 5307(a)(1), (b)(1) and (b)(2) of title 5 governing limitations on certain pay as if its employees were Federal employees receiving payments under title 5.

(b) Appointment of executive director

The directors of the corporation shall appoint an executive director who shall serve as chief executive officer of the corporation.

(c) Appointment and removal of employees by executive director

The executive director of the corporation, subject to approval by the board, may appoint and remove such employees of the corporation as he determines necessary to carry out the purposes of the corporation.

(d) Prohibition of political tests and qualifications in selection, etc., of personnel

No political test or political qualification shall be used in selecting, appointing, promoting, or taking any other personnel action with respect to any officer, agent, or employee of the corporation or of any recipient, or in selecting or monitoring any grantee, contractor, or person or entity receiving financial assistance under this subchapter.

(e) Employee status; applicability of administrative and cost standards of Office of Management and Budget

Officers and employees of the corporation shall not be considered officers or employees of the United States, and the corporation shall not be considered a department, agency, or instrumentality of the Federal Government. The corporation shall be subject to administrative and cost standards issued by the Office of Management and Budget similar to standards applicable to non-profit grantees and educational institutions.

Amendments
2009—Subsec. (a). Pub. L. 111–117 inserted “except that the board-appointed officers may be paid salary at a rate not to exceed level II of the Executive Schedule” before period at end of first sentence.

Pub. L. 108–199, title II, [11], which directed the substitution of “salary” for “compensation”, was executed.

References in Text
Levels II and IV of the Executive Schedule, referred to in subsec. (a), are set out in sections 3313 and 3315, respectively, of Title 5, Government Organization and Employees.

Amendments
2009—Subsec. (a). Pub. L. 111–117 inserted “except that the board-appointed officers may be paid salary at a rate not to exceed level II of the Executive Schedule” before period at end of first sentence.

Pub. L. 108–199, title II, [11], which directed the substitution of “salary” for “compensation”, was executed.
by making the substitution both places that “compensation” appeared to reflect the probable intent of Congress. Pub. L. 108–199, title III, [11], which directed substitution of “rate for level IV of the Executive Schedule” for “highest rate provided for GS–18 of the General Schedule under section 5332 of title 5 United States Code”, was executed by making the substitution for “highest rate provided for GS–18 of the General Schedule under section 5332 of title 5, United States Code” to reflect the probable intent of Congress.

§ 8105. Powers and duties of corporation

(a) Continuance of work of Urban Reinvestment Task Force regarding neighborhood housing services programs and preservation projects

(1) The corporation shall continue the work of the Urban Reinvestment Task Force in establishing neighborhood housing services programs in neighborhoods throughout the United States, monitoring their progress, and providing them with grants and technical assistance. For the purpose of this paragraph, a neighborhood housing services program may involve a partnership of neighborhood residents and representatives of local governmental and financial institutions, organized as a State-chartered non-profit corporation, working to bring about reinvestment in one or more neighborhoods through a program of systematic housing inspections, increased public investment, increased private lending, increased resident investment, and a revolving loan fund to make loans available at flexible rates and terms to homeowners not meeting private lending criteria.

(2) The corporation shall continue the work of the Urban Reinvestment Task Force in identifying, monitoring, evaluating, and providing grants and technical assistance to selected neighborhood preservation projects which show promise as mechanisms for reversing neighborhood decline and improving the quality of neighborhood life.

(3) The corporation shall experimentally replicate neighborhood preservation projects which have demonstrated success, and after creating reliable developmental processes, bring the new programs to neighborhoods throughout the United States which in the judgment of the corporation can benefit therefrom, by providing assistance in organizing programs, providing grants in partial support of program costs, and providing technical assistance to ongoing programs.

(4) The corporation shall continue the work of the Urban Reinvestment Task Force in supporting Neighborhood Housing Services of America, a nonprofit corporation established to provide services to local neighborhood housing services programs, with support which may include technical assistance and grants to expand its national loan purchase pool and may contract with it for services which it can perform more efficiently or effectively than the corporation.

(5) The corporation shall, in making and providing the foregoing grants and technical and other assistance, determine the reporting and management restrictions or requirements with which the recipients of such grants or other assistance must comply. In making such determinations, the corporation shall assure that recipients of grants and other assistance make available to the corporation such information as may be necessary to determine compliance with applicable Federal laws.

(b) General administrative powers

To carry out the foregoing purposes and engage in the foregoing activities, the corporation is authorized—

(1) to adopt, alter, and use a corporate seal;

(2) to have succession until dissolved by Act of Congress;

(3) to make and perform contracts, agreements, and commitments;

(4) to sue and be sued, complain and defend, in any State, Federal, or other court;

(5) to determine its necessary expenditures and the manner in which the same shall be incurred, allowed, and paid, and appoint, employ, and fix and provide for the compensation of consultants, without regard to any other law, except as provided in section 8107(d) of this title;

(6) to settle, adjust, and compromise, and with or without compensation or benefit to the corporation to release or waive in whole or in part, in advance or otherwise, any claim, demand, or right of, by, or against the corporation;

(7) to invest such funds of the corporation in such investments as the board of directors may prescribe;

(8) to acquire, take, hold, and own, and to deal with and dispose of any property; and

(9) to exercise all other powers that are necessary and proper to carry out the purposes of this subchapter.

(c) Contracting powers

(1) The corporation may contract with the Office of Neighborhood Reinvestment of the Federal home loan banks for all staff, services, facilities, and equipment now or in the future furnished by the Office of Neighborhood Reinvestment to the Urban Reinvestment Task Force, including receiving the services of the Director of the Office of Neighborhood Reinvestment as the corporation’s executive director.

(2) The corporation shall have the power to award contracts and grants to—

(A) neighborhood housing services corporations and other nonprofit corporations engaged in neighborhood preservation activities; and

(B) local governmental bodies.

(3) The Secretary of Housing and Urban Development, the Federal Housing Finance Agency and the Federal home loan banks, the Board of Governors of the Federal Reserve System and the Federal Reserve banks, the Federal Deposit Insurance Corporation, and the Comptroller of the Currency, the National Credit Union Administration or any other department, agency, or other instrumentality of the Federal Government are authorized to provide funds, services and facilities, with or without reimbursement, necessary to achieve the objectives and to carry out the purposes of this subchapter.

(d) Non-profit nature of corporation

(1) The corporation shall have no power to issue any shares of stocks, or to declare or pay any dividends.
§ 8106. Reports and audits

(a) Annual report to President and Congress

The corporation shall publish an annual report which shall be transmitted by the corporation to the President and the Congress.

(b) Annual audit of accounts

The accounts of the corporation shall be audited annually. Such audits shall be conducted in accordance with generally accepted auditing standards by independent certified public accountants who are certified by a regulatory authority of the jurisdiction in which the audit is undertaken.

(c) Additional audits by Government Accountability Office

In addition to the annual audit, the financial transactions of the corporation for any fiscal year during which Federal funds are available to finance any portion of its operations may be audited by the Government Accountability Office in accordance with such rules and regulations as may be prescribed by the Comptroller General of the United States.

(d) Audit of grantees and contractors of corporation

For any fiscal year during which Federal funds are available to finance any portion of the corporation’s grants or contracts, the Government Accountability Office, in accordance with such rules and regulations as may be prescribed by the Comptroller General of the United States, may audit the grantees or contractors of the corporation.

(e) Annual financial audit

The corporation shall conduct or require each grantee or contractor to provide for an annual financial audit. The report of each such audit shall be maintained for a period of at least five years at the principal office of the corporation.

§ 8107. Appropriations

(a) Authorization

(1) There are authorized to be appropriated to the corporation to carry out this subchapter $29,476,000 for fiscal year 1993 and $30,713,992 for fiscal year 1994. Not more than 15 percent of any amount appropriated under this paragraph for any fiscal year may be used for administrative expenses.

(2) Of the amount appropriated pursuant to this subsection for any fiscal year, amounts appropriated in excess of the amount necessary to continue existing services of the Neighborhood Reinvestment Corporation in revitalizing declining neighborhoods shall be available—

(A) to expand the national neighborhood housing services network and to assist network capacity development, including expansion of rental housing resources;

(B) to expand the loan purchase capacity of the national neighborhood housing services secondary market operated by Neighborhood Housing Services of America;

(C) to make grants to provide incentives to extend low-income housing use in connection with properties subject to prepayment pursuant to the Low-Income Housing Preservation and Resident Ownership Act of 1990 [12 U.S.C. 4101 et seq.];

(D) to increase the resources available to the national neighborhood housing services network programs for the purchase of multifamily and single-family properties owned by the Secretary of Housing and Urban Development for rehabilitation (if necessary) and sale to low- and moderate-income families; and

(E) to provide matching capital grants, operating subsidies, and technical services to mutual housing associations for the development, acquisition, and rehabilitation of multifamily and single-family properties (including properties owned by the Secretary of Housing and Urban Development) to ensure affordability by low- and moderate-income families.

(b) Availability of funds until expended

Funds appropriated pursuant to this section shall remain available until expended.
(c) Accounting and reporting of non-Federal funds

Non-Federal funds received by the corporation, and funds received by any recipient from a source other than the corporation, shall be accounted for and reported as receipts and disbursements separate and distinct from Federal funds.

(d) Preparation of business-type budget

The corporation shall prepare annually a business-type budget which shall be submitted to the Office of Management and Budget, under such rules and regulations as the President may establish as to the date of submission, the form and content, the classifications of data, and the manner in which such budget program shall be prepared and presented. The budget of the corporation as modified, amended, or revised by the President shall be transmitted to the Congress as a part of the annual budget required by chapter 11 of title 31. Amendments to the annual budget program may be submitted from time to time.

AMENDMENTS

1990—Subsec. (a). Pub. L. 101–625 amended subsec. (a) generally. Prior to amendment, subsec. (a) read as follows: “There are authorized to be appropriated to the corporation to carry out this subchapter $19,000,000 for fiscal year 1988, and $19,000,000 for fiscal year 1989.”

1983—Subsec. (a), Pub. L. 98–181 substituted appropriations authorization not in excess of $16,512,000 for fiscal year 1984, and such sums as may be necessary for fiscal year 1985 for prior authorization not to exceed $12,500,000, $12,000,000, $13,426,000, and $14,950,000 for fiscal years 1979, 1980, 1981, and 1982, respectively.

1979—Subsec. (a), Pub. L. 96–153 authorized appropriation of $12,000,000 for fiscal year 1980.

EFFECTIVE DATE OF 1981 AMENDMENT

EXPANSION OF NATIONAL NEIGHBORHOOD HUNTING SERVICES NETWORK

Section 917(a), (b) of Pub. L. 101–625 provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) protecting the existing stock of unsubsidized privately held lower income housing through the re- habilitation and revitalization of declining neighborhoods is essential to a national housing policy that seeks to increase the availability of affordable housing for low- and moderate-income families;

“(2) the Neighborhood Reinvestment Corporation, the anchor of the national neighborhood housing services network, was chartered by Congress more than 10 years ago to revitalize neighborhoods for the benefit of current residents by mobilizing public, private, and community resources at the neighborhood level;

“(3) the national neighborhood housing services network has proven its worth as a successful cost-effective program relying largely on local initiative for the specific design of local programs;

“(4) the national neighborhood housing services network has had more than 10 years of experience in revitalizing declining neighborhoods, creating housing for low- and moderate-income families, and equipping residents with skills and resources required to maintain safe and healthy communities; and

“(5) expanding upon the existing capabilities, resources, and potential of the neighborhood housing services network is a cost-effective response to the affordable housing and neighborhood revitalization needs confronting the Nation, and is a strong preventive measure in addressing the national tragedy of homelessness.

“(b) PURPOSE.—It is the purpose of this section [amending this section] to authorize appropriations for the Neighborhood Reinvestment Corporation for fiscal years 1991 and 1992 to permit the Corporation—

“(1) to carefully expand the capacities of the national neighborhood housing services network;

“(2) to begin to meet the urgent need for neighborhood housing services and mutual housing associations in neighborhoods across the Nation as the effort to preserve affordable housing for low- and moderate-income American families increases;

“(3) to increase and provide ongoing technical and capacity development assistance to neighborhood housing services and related public-private partnership-based nonprofit institutions involved in the revitalization of neighborhoods for the benefit of current residents, rehabilitation, preservation of existing housing stock, and production of additional housing opportunities for low- and moderate-income families;

“(4) to expand the loan purchase capacity of the national neighborhood housing services secondary market, operated by Neighborhood Housing Services of America, for loans made by neighborhood housing services to renters who are unable to meet conventional lending standards, and other loans for community development purposes;

“(5) to provide increased capacity development and matching grants to preserve existing privately held unsubsidized rental housing affordable to low- and moderate-income households and to create flexible...
strategies effective in the diverse economic and geographic environments of the Nation;

"(6) to make grants to provide incentives to extend low-income housing use in connection with properties subject to prepayment pursuant to the Low-Income Housing Preservation and Resident Ownership [Homeownership] Act of 1990 (12 U.S.C. 4101 et seq.);

"(7) to increase the resources available to neighborhood housing services network programs for the purchase of multifamily and single-family properties owned by the Secretary of Housing and Urban Development for rehabilitation (if necessary) and sale to low- and moderate-income families;

"(8) to expand the national mutual housing association demonstration by providing technical assistance and to assist low- and moderate-income families to participate in such associations;

"(9) to increase resources available to neighborhood housing services network programs for foreclosure intervention and prevention; and

"(10) to create additional neighborhood housing services partnership organizations to serve rural communities, Native Americans, Native Hawaiians, and other communities in need."

§ 8108. Warnings to homeowners of foreclosure rescue scams

(a) Assistance to NRC

Notwithstanding any other provision of law, of any amounts made available for any fiscal year pursuant to section 1701x(a)(4)(F) of title 12 (as added by section 1444) 10 percent shall be used only for assistance to the Neighborhood Reinvestment Corporation for activities, in consultation with servicers of residential mortgage loans, to provide notice to borrowers under such loans who are delinquent with respect to payments due under such loans that makes such borrowers aware of the different activities associated with foreclosure.

(b) Notice

The Neighborhood Reinvestment Corporation, in consultation with servicers of residential mortgage loans, shall use the amounts provided pursuant to subsection (a) to carry out activities to inform borrowers under residential mortgage loans—

(1) that the foreclosure process is complex and can be confusing;

(2) that the borrower may be approached during the foreclosure process by persons regarding saving their home and they should use caution in any such dealings;

(3) that there are Federal Government and nonprofit agencies that may provide information about the foreclosure process, including the Department of Housing and Urban Development;

(4) that they should contact their lender immediately, contact the Department of Housing and Urban Development to find a housing counseling agency certified by the Department to assist in avoiding foreclosure, or visit the Department’s website regarding tips for avoiding foreclosure; and

(5) of the telephone number of the loan servicer or successor, the telephone number of the Department of Housing and Urban Development housing counseling line, and the Uniform Resource Locators (URLs) for the Department of Housing and Urban Development Web sites for housing counseling and for tips for avoiding foreclosure.

CODIFICATION

Section was enacted as part of the Expand and Preserve Home Ownership Through Counseling Act and also as part of the Mortgage Reform and Anti-Predatory Lending Act and as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and not as part of the Neighborhood Reinvestment Corporation Act which comprises this subchapter.

EFFECTIVE DATE

Section effective on the date on which final regulations implementing such section take effect, or on the date that is 18 months after the designated transfer date if such regulations have not been issued by that date, see section 1400(c) of Pub. L. 111–203, set out as an Effective Date of 2010 Amendment note under section 1601 of Title 15, Commerce and Trade.

SUBCHAPTER II—NEIGHBORHOOD SELF-HELP DEVELOPMENT

EFFECTIVE DATE OF REPEAL

Sections 8121 to 8124 repealed effective Oct. 1, 1981, see section 371 of Pub. L. 97–35, set out as an Effective Date note under section 3701 of Title 12, Banks and Banking.

SUBCHAPTER III—LIVABLE CITIES

§ 8141. Congressional findings

The Congress finds and declares—

(1) that artistic, cultural, and historic resources, including urban design, constitute an integral part of a suitable living environment for the residents of the Nation’s urban areas, and should he available to all residents of such areas, regardless of income;

(2) that the development or preservation of such resources is a significant and necessary factor in restoring and maintaining the vitality of the urban environment, and can serve as a catalyst for improving decaying or deteriorated urban communities and expanding economic opportunities, and for creating a sense of community identity, spirit, and pride; and

(3) that the encouragement and support of local initiatives to develop or preserve such

---

1 See References in Text note below.
resources, particularly in connection with federally assisted housing or community development activities or in communities with a high proportion of low-income residents, is an appropriate function of the Federal Government. (Pub. L. 95–557, title VIII, §802, Oct. 31, 1978, 92 Stat. 2122.)

§ 8142. Statement of purpose

The primary purpose of this subchapter is to assist the efforts of States, local governments, neighborhood and other organizations to provide a more suitable living environment, expand cultural opportunities, and to the extent practicable, stimulate economic opportunities, primarily for the low and moderate income residents of communities and neighborhoods in need of conservation and revitalization, through the utilization, design or development of artistic, cultural, or historic resources. (Pub. L. 95–557, title VIII, §803, Oct. 31, 1978, 92 Stat. 2122.)

§ 8143. Definitions

For the purpose of this subchapter—
(1) the terms “art” and “arts” include, but are not limited to, architecture (including preservation, restoration, or adaptive use of existing structures), landscape architecture, urban design, interior design, graphic arts, fine arts (including painting and sculpture), performing arts (including music, drama, and dance), literature, crafts, photography, communications media and film, as well as other similar activities which reflect the cultural heritage of the Nation’s communities and their citizens;
(2) the term “nonprofit organization” means an organization in which no part of its net earnings inures to the benefit of any private stockholder or stockholders, individual or individuals and, if a private entity, which is not disqualified for tax exemption under section 501(c)(3) of title 26 by reason of attempting to influence legislation and does not participate in or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office; such organizations may include States and units of local government (including public agencies or special authorities thereof), regional organizations of local governments and nonprofit societies, neighborhood groups, institutions, organizations, associations or museums;
(3) the term “project” means a program or activity intended to carry out the purposes of this subchapter, including programs for neighborhood and community-based arts programs, urban design, user needs design, and the encouragement of the preservation of historic or other structures which have neighborhood or community significance;
(4) the term “Secretary” means the Secretary of Housing and Urban Development;
(5) the term “Chairman” means the Chairman of the National Endowment for the Arts;
(6) the term “Department” means the Department of Housing and Urban Development; and
(7) the term “Endowment” means the National Endowment for the Arts.

Amendments

§ 8144. Grants to or contracts with organizations

(a) Authorization; purposes

The Secretary is authorized to make grants to, or enter into contracts with, nonprofit organizations for the purpose of enabling such organizations to undertake or support in cities, urban communities, or neighborhoods, projects which the Secretary, in consultation with the Chairman, determines will carry out the purposes of this subchapter and which—
(1) have substantial artistic, cultural, historical, or design merit,
(2) represent community or neighborhood initiatives which have a significant potential for conserving or revitalizing communities or neighborhoods, and for enhancing community or neighborhood identity and pride, and
(3) meet the criteria established jointly by the Secretary and the Chairman pursuant to this section.

(b) Establishment of criteria and procedures for evaluation and selection of projects; scope of criteria

The Secretary and the Chairman shall establish jointly criteria and procedures for evaluating and selecting projects to be assisted under this subchapter. Such criteria shall address, but need not be limited to—
(1) artistic, cultural, historical, or design quality;
(2) the degree of broadly based, active involvement of neighborhood residents, community groups, local officials, and persons with expertise in the arts with the proposed project;
(3) the degree of or the potential for utilization or stimulation of assistance or cooperation from other Federal, State, and local public and private sources, including arts organizations;
(4) the feasibility of project implementation, including the capability of the sponsor organization;
(5) the potential contribution to neighborhood revitalization and the creation of a sense of community identity and pride;
(6) the potential for stimulating neighborhood economic and community development, particularly for the benefit of persons of low and moderate income; and
(7) the potential of utilization of the project by neighborhood residents, particularly residents of low and moderate income, senior citizens, and handicapped persons.
(c) Application requirements

No assistance shall be made under this subchapter except upon application therefor submitted to the Secretary in accordance with regulations and procedures established jointly by the Secretary and the Chairman.

(d) Consultation requirements

Prior to the approval of any application for assistance under this subchapter, the Secretary shall consult with the Chairman and, in accordance with regulations and procedures established jointly by the Secretary and the Chairman, seek the recommendations of State and local officials and private citizens who have broad knowledge of, or experience or expertise in, community and economic development and revitalization, and of such officials and citizens who have broad knowledge of, or expertise in, the arts.

(e) Regulations respecting matching requirements; waiver, etc.

The Secretary, in cooperation with the Chairman, shall prescribe regulations which require that specific portions of the cost of any projects assisted under this subchapter shall be provided from sources other than funds made available under this subchapter. Such matching requirements may vary depending on the type of applicant, and the Secretary may reduce or waive such requirements solely in order to take account of the financial capacity of the applicant.

(f) Certification of application

Grants and other assistance may be made available under this subchapter only if the application contains a certification by the unit of general local government in which the project will be located that the project is consistent with and supportive of the objectives of that government for the area in which the project is located.

(g) Available funds not to supplant other public or private funds

Funds made available under this subchapter shall not be used to supplant other public or private funds.

(h) Availability of funds for administrative expenses

No more than 10 per centum of the funds appropriated for any fiscal year under section 8146 of this title shall be available for administrative expenses.

(§ 8145. Coordination and development of program with other Federal and non-Federal programs)

The Secretary shall coordinate the administration of the provisions of this subchapter in cooperation with other Federal agencies and assure that projects assisted under this subchapter are coordinated with efforts undertaken by State and local public and private entities, including arts organizations.

§ 8146. Authorization of appropriations

There are authorized to be appropriated for carrying out the purposes of this subchapter not to exceed $5,000,000 for fiscal year 1979, and not to exceed $5,000,000 for fiscal year 1980. Any amounts appropriated under this section shall remain available until expended.

Amendments

1979—Pub. L. 96–153 reduced authorization of appropriation for fiscal year 1980 from "$10,000,000" to "$5,000,000".
§ 8201. Findings and statement of purposes

(a) Findings

The Congress finds that—

(1) the United States has survived a period of energy shortage and has made significant progress toward improving energy efficiency in all sectors of the economy;

(2) effective measures must continue to be taken by the Federal Government and other users and suppliers of energy to control the rate of growth of demand for energy and the efficiency of its use;

(3) the continuation of this effort will permit the United States to become increasingly independent of the world oil market, less vulnerable to interruption of foreign oil supplies, and more able to provide energy to meet future needs; and

(4) all sectors of the economy of the United States should continue to reduce significantly the demand for nonrenewable energy resources such as oil and natural gas by implementing and maintaining effective conservation measures for the efficient use of these and other energy sources.

(b) Statement of purposes

The purposes of this chapter are to provide for the regulation of interstate commerce, to reduce the growth in demand for energy in the United States, and to conserve nonrenewable energy resources produced in this Nation and elsewhere, without inhibiting beneficial economic growth.

References in Text

Amendments

“(1) the United States faces an energy shortage arising from increasing demand for energy, particularly for oil and natural gas, and insufficient domestic supplies of oil and natural gas to satisfy that demand;

“(2) unless effective measures are promptly taken by the Federal Government and other users of energy to reduce the rate of growth of demand for energy, the United States will become increasingly dependent on the world oil market, increasingly vulnerable to interruptions of foreign oil supplies, and unable to provide the energy to meet future needs; and

“(3) all sectors of our Nation’s economy must begin immediately to significantly reduce the demand for nonrenewable energy resources such as oil and natu-
ral gas by implementing and maintaining effective conservation measures for the efficient use of these and other energy sources."

**Short Title of 1988 Amendment**

Pub. L. 100–615, §1, Nov. 5, 1988, 102 Stat. 3185, provided that: "This Act [enacting section 5001 of Title 15, Commerce and Trade, amending sections 6361 and 6351 to 8259 of this title, omitting sections 8260 and 8261 of this title, and enacting provisions set out as a note under section 8253 of this title] may be cited as the 'Federal Energy Management Improvement Act of 1988'..."

**Short Title of 1986 Amendment**

Section 1 of Pub. L. 99–619 provided that: "This Act [enacting sections 8227 to 8229 of this title, amending sections 8201, 8211, 8213 to 8220, and 8226 of this title, repealing sections 8261 to 8261h, 8262 to 8262d, 8263a, and 8266 of this title, and enacting provisions set out as notes under sections 8211, 8216, 8217, 8231, and 8262 of this title] may be cited as the 'Conservation Service Reform Act of 1986'..."  

**Title II—Residential Energy Conservation**

**Part A—Utility Program**

§§ 8211 to 8229. Omitted

**Computation**

Sections were omitted pursuant to section 8229 of this title, which terminated authority under this part June 30, 1989.

Section 8212, Pub. L. 95–619, title II, §211, Nov. 9, 1978, 92 Stat. 3211, related to coverage of this part.

Section 8229, Pub. L. 95–619, title II, §228, as added Pub. L. 99–412, title I, §105(a), Aug. 28, 1986, 100 Stat. 941, provided that all authority, including authority to enforce any prohibitions, under this part would terminate June 30, 1989, except that such expiration would not affect any action or proceeding based upon an act committed prior to midnight June 30, 1989, and not finally determined by such date.

**Part B—Miscellaneous**

§§ 8231. Grants for energy conserving improvements; establishment of standards; authorization of appropriations

(1) The Secretary of Housing and Urban Development is authorized to make grants to finance energy conserving improvements (as defined in subparagraph (2) of the last paragraph of section 1703(a) of title 12) to projects which are financed with loans under section 1701q of title 12, or which are subject to mortgages insured under section 1715(d)(3) or section 1715e–1 of title 12. The Secretary shall make assistance available under this section on a priority basis to those projects which are in financial difficulty as a result of high energy costs. In carrying out the program authorized by this section, the Secretary shall issue regulations requiring that any grant made under this section shall be made only on the condition that the recipient of such...
§ 8232. Residential energy efficiency standards study

(a) General authority

The Secretary of Housing and Urban Development (hereinafter in this section referred to as the "Secretary") shall, in coordination with the Secretary of Agriculture, the Secretary of the Treasury, the Secretary of Veterans Affairs, the Secretary of Energy, and such other representatives of Federal, State, and local governments as the Secretary shall designate, conduct a study, utilizing the services of the National Institute of Building Sciences pursuant to appropriate contractual arrangements, for the purpose of determining the need for, the feasibility of, and the problems of requiring, by mandatory Federal action, that all residential dwelling units meet applicable energy efficient standards. The subjects to be examined shall include, but not be limited to, mandatory notification to purchasers, and policies to prohibit exchange or sale, of properties which do not conform to such standards.

(b) Specific factors

In conducting such study, the Secretary shall consider at least the following factors—

(1) the extent to which such requirement would protect a prospective purchaser from the uncertainty of not knowing the energy efficiency of the property he proposes to purchase;

(2) the extent to which such requirement would contribute to the Nation’s energy conservation goals;

(3) the extent to which such a requirement would affect the real estate, home building, and mortgage banking industries;

(4) the sanctions which might be necessary to make such a requirement effective and the administrative impediments there might be to enforcement of such sanctions;

(5) the possible impact on sellers and purchasers as a result of the implementation of mandatory Federal actions, taking into account the experience of the Federal Government in imposing mandatory requirements concerning the purchase and sale of real property as occurred under the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2601 et seq.) and the Federal Disaster Protection Act of 1973;

(6) an analysis of the effect of such a requirement on the economy as a whole and on the Nation’s security as compared to the impact on the credit and housing markets caused by such a requirement;

(7) the effect of such a requirement on availability of credit in the housing industry;

(8) the extent to which the imposition of mandatory Federal requirements would temporarily reduce the number of residential dwellings available for sale and the resulting effect of such mandatory actions on the price of those remaining dwelling units eligible for sale; and

(9) the possible uncertainty, during the period of developing the standards, as to what standards might be imposed and any resulting effect on major housing rehabilitation efforts and voluntary efforts for energy conservation.

(c) Comments and findings by Secretary of Energy

The Secretary shall incorporate into such study comments by the Secretary of Energy on the effects on the economy as a whole and on the Nation’s security which may result from the requirement described in subsection (a) of this section as compared to the impact on the credit and housing markets likely to be caused by such a requirement. In addition, the Secretary shall incorporate into such study the following findings by the Secretary of Energy:

(1) the savings in energy costs resulting from the requirement described in subsection (a) of this section throughout the estimated remaining useful life of the existing residential buildings to which such requirement would apply; and

(2) the total cost per barrel of oil equivalent, in obtaining the energy savings likely to result from such requirement, computed for each class of existing residential buildings to which such requirement would apply.

(d) Report date

The Secretary shall report, no later than one year after November 9, 1978, to both Houses of the Congress with regard to the findings made as a result of such study along with any recommendations for legislative proposals which the Secretary determines should be enacted with respect to the subject of such study.

AMENDMENTS

1996—Par. (1). Pub. L. 105–388 inserted closing parenthesis after "section 1703(a) of title 12" and substituted "accrue" for "accure".

References in Text

The Real Estate Settlement Procedures Act of 1974, referred to in subsec. (b)(5), is Pub. L. 93–533, Dec. 22, 1974, 88 Stat. 1724, as amended, which is classified principally to chapter 27 (§2601 et seq.) of Title 12, Banks and Banking. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 12 and Tables.

§ 8233. Weatherization study

The President shall conduct a study which shall monitor the weatherization activities authorized by this Act and amendments made thereby and those weatherization activities undertaken, independently of this Act and such amendments. The President shall report to the Congress within one year from November 9, 1978, and annually thereafter, concerning—

(1) the extent of progress being made through weatherization activities toward the achievement of national energy conservation goals;
(2) adequacy and costs of materials necessary for weatherization activities; and
(3) the need for and desirability of modifying weatherization activities authorized by this Act, and amendments made thereby and of extending such activities to a broader range of income groups than are being assisted under this Act and such amendments.

§ 8235a. Approval of plans for prototype residential energy efficiency programs and provision of financial assistance for such programs

(a) Plan approval

The Secretary may approve any plan developed by a State or local government, for the establishment of a prototype residential energy efficiency program, which is designed to demonstrate the feasibility, economics, and energy conserving potential of such program, if an application for such plan is submitted pursuant to section 8235b of this title, the application is approved pursuant to section 8235c of this title, and the plan provides for—

(1) the entering into a contract by a public utility with one or more persons not under the control of, and not affliates or subsidiaries of, such utility for the implementation of a program to encourage energy conservation, including the supply and installation of the energy conservation measures as specified in such contract in residential buildings located in the portion of the utility’s service area designated by the contract, which contract includes the provisions described in subsection (b) of this section;
(2) the selection by the public utility in a fair, open, and nondiscriminatory manner of the person or persons to contract with pursuant to paragraph (1);
(3) the payment by the public utility to the person or persons contracted with under paragraph (1) of a specified price for each unit of energy saved by such utility as a result of the program during the period the contract is in effect, which price is based on the value to the utility of the energy saved;
(4) the determination, by a procedure established by the State or local government developing the plan, of the amount of energy saved by public utility as a result of the program carried out under the plan, which procedure is described in the contract;
(5) in the case of a regulated public utility, the approval in writing by the State regulatory authority exercising ratemaking authority over such utility of the contract described in paragraph (1), the manner of selection described in paragraph (2), the payment described in paragraph (3), and the procedure described in paragraph (4); and

1 See References in Text note below.
§ 8235b. Applications for approval of plans for prototype residential energy efficiency programs

Each application for the approval of a plan under section 8235a(a) of this title for the establishment of a prototype residential energy efficiency program shall be submitted by a State or local government and shall include, at least—

§ 8235b. Applications for approval of plans for prototype residential energy efficiency programs

1. a description of the plan, including the provisions of the plan specified in section 8235a(a) of this title and a description of the portion of the service area of the public utility proposing to enter into a contract under section 8235a(a)(1) of this title which is designated under the contract;

2. a description of the manner in which the provisions of the plan specified in section 8235a(a) of this title and the manner in which the requirements of the contract contained in section 8235a(b) of this title are to be met;

3. the record of the public hearing conducted pursuant to section 8235c(a)(2) of this title; and

4. any other information determined by the Secretary to be necessary to carry out this part.

§ 8235c. Approval of applications for plans for prototype residential energy efficiency programs

(a) Approval requirements

The Secretary may approve an application submitted under section 8235b of this title for a plan establishing a prototype residential energy efficiency program only if—

1. the application is approved in writing—

   a) by the public utility which is to enter into the contract under the plan;

   b) by the State regulatory authority having ratemaking authority over such public utility, in the case of a regulated utility; and

   c) by the Governor (or any State agency specifically authorized under State law to approve such plans) of the State whose government is submitting the application (if the application is submitted by a State government) or of the State in which the local government is located (if the application is submitted by a local government); and

2. the application has been published, a public hearing on the application has been conducted, after notice to the public, at which representatives of the public utility which is to enter into the contract under the plan, persons engaged in the supply or installation of residential energy conservation measures, and members of the public (including ratepayers of such public utility and other interested individuals) had an opportunity to provide comment on the application, and any amendments to the application, which may be made to take into account the proceedings of the hearing, are made.

(b) Factors in approving applications

The Secretary shall take into consideration in approving an application under subsection (a) of this section for a plan establishing a prototype residential energy efficiency program—

(6) the enforcement of the provisions of the contract, entered into pursuant to paragraph (1), which are required to be included pursuant to subsection (b) of this section.

(b) Contract requirements

Any contract entered into by a public utility under subsection (a)(1) of this section shall require any person or persons entering into such contract with a public utility to offer to the owner or occupant of each residential building in the portion of the utility's service area designated in the contract, without charge—

1. an inspection of such building to determine and inform such owner or occupant of—

   a) the energy conservation measures which will be supplied and installed in such residential building pursuant to paragraph (2);

   b) the savings in energy costs that are likely to result from the installation of such energy conservation measures;

   c) suggestions (including suggestions developed by the Secretary) of energy conservation techniques, including adjustments in energy use patterns and modifications in household activities, which can be used by the owner or occupant of the building to save energy and which do not require the installation of energy conservation measures; and

   d) the savings in energy costs that are likely to result from the adoption of such suggested energy conservation techniques;

2. the supply and installation, with the approval of the owner of the residential building, in such building in a timely manner of the energy conservation measures which are as specified in the contract and which the owner or occupant was informed (pursuant to the inspection under paragraph (1)) would be supplied and installed in such building; and

3. a written warranty that at a minimum any defect in materials, manufacture, design, or installation of any energy conservation measures supplied and installed pursuant to paragraph (2), found not later than one year after the date of installation, will be remedied without charge and within a reasonable period of time.

(c) Provision of financial assistance

The Secretary may provide financial assistance to any State or local government to carry out any plan for the establishment of a prototype residential energy efficiency program if the plan is approved under subsection (a) of this section.

(d) Limitation

The Secretary may approve under subsection (a) of this section not more than 4 plans for the establishment of prototype residential energy efficiency programs.
(1) the potential for energy savings from the demonstration of the program;
(2) the likelihood that the value of the energy saved by public utilities under the program will be sufficient to cover the estimated cost of the energy conservation measures to be supplied and installed under the program;
(3) the anticipated effects of the program on competition in the portion of the service area of the public utility designated in the contract entered into under the plan; and
(4) such other factors as the Secretary determines are appropriate.

§ 8235d. Rules and regulations

(a) Proposed rules and regulations
The Secretary shall issue proposed rules and regulations to carry out this part not later than 120 days after June 30, 1980.

(b) Final rules and regulations
The Secretary shall issue final rules and regulations to carry out this part not later than 90 days after the issuance of proposed rules and regulations under subsection (a) of this section.

§ 8235e. Authority of Federal Energy Regulatory Commission to exempt application of certain laws

The Federal Energy Regulatory Commission may exempt from any provisions in sections 4, 5, and 7 of the Natural Gas Act (15 U.S.C. 717c, 717d, and 717e) and titles II and IV of the Natural Gas Policy Act of 1978 (15 U.S.C. 3341 through 3339) the sale or transportation, by any public utility, local distribution company, interstate or intrastate pipeline, or any other person, of any natural gas which is determined (in the case of a regulated utility, company, pipeline, or person) by the State regulatory authority having rate-making authority over such utility, company, pipeline, or person, or (in the case of a nonregulated utility, company, pipeline, or person) by such utility, company, pipeline, or person, to have been conserved or (in the case of a nonregulated utility, company, pipeline, or person) by such utility, company, pipeline, or person, to have been conserved and supplied and installed under the program; and

Any public utility entering into a contract under a plan for the establishment of a prototype residential energy efficiency program approved under section 8235a(a) of this title shall not be required to carry out, with respect to any residential building located in the portion of the utility's service area designated in the contract, the actions required to be contained in such utility's program by subsections (a) and (b) of section 8216 of this title, if the contract requires such actions (or equivalent actions as determined by the Secretary) to be taken.

(c) "Antitrust laws" defined
For purposes of this section, the term "antitrust laws" means—
(1) the Sherman Act (15 U.S.C. 1 et seq.);
(2) the Clayton Act (15 U.S.C. 12 et seq.);
(3) the Federal Trade Commission Act (15 U.S.C. 41 et seq.);
(4) sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9); and
(5) sections 2, 3, and 4 of the Act entitled "An Act to amend section 2 of the Act entitled 'An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes', approved October 15, 1914, as amended (U.S.C., title 15, sec. 13), and for other purposes'" approved June 19, 1936 (15 U.S.C. 21a, 13a, and 13b, commonly known as the Robinson-Patman Antidiscrimination Act).

REFERENCES IN TEXT

AMENDMENTS

§ 8235f. Application of other laws

(a) Lack of immunity
No provision contained in this part—
(1) shall restrict any agency of the United States or any State from exercising its powers under any law to prevent unfair methods of competition and unfair or deceptive acts or practices;
(2) shall provide to any person any immunity from civil or criminal liability;
(3) shall create any defenses to actions brought under the antitrust laws; or
(4) shall modify or abridge any private right of action under the antitrust laws.

(b) Utility programs under part A
Any public utility entering into a contract under a plan for the establishment of a prototype residential energy efficiency program approved under section 8235a(a) of this title shall not be required to carry out, with respect to any residential building located in the portion of the utility's service area designated in the contract, the actions required to be contained in such utility's program by subsections (a) and (b) of section 8216 of this title, if the contract requires such actions (or equivalent actions as determined by the Secretary) to be taken.

REFERENCES IN TEXT
Section 8216 of this title, referred to in subsec. (b), was omitted from the Code pursuant to section 8229 of this title, which terminated authority under that section June 30, 1989.

The Sherman Act (15 U.S.C. 1 et seq.), referred to in subsec. (c)(1), is act July 2, 1890, ch. 647, 26 Stat. 209, as amended, which is classified to sections 1 to 7 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 1 of Title 15 and Tables.

See References in Text note below.
§ 8235g. Records and reports

(a) Records

Each State and local government submitting any application for a plan which is approved under section 8235a(a) of this title, and each public utility and person or persons entering into a contract under such a plan, shall keep such records and make such reports as the Secretary may require. The Secretary and the Comptroller General of the United States shall have access, at reasonable times and under reasonable conditions, to any books, documents, papers, records, and reports of each such State and local government, utility, and person or persons which the Secretary determines, in consultation with the Comptroller General of the United States, are pertinent to this part.

(b) Reports

The Secretary shall make an annual report to the President on the activities carried out under this part which shall be submitted to the Congress with the annual report on the activities of the Department of Energy required by section 7267 of this title and which shall contain—

1. an estimate of the total amount of energy saved as a result of the activities carried out under this part;
2. an estimate of the annual savings in energy anticipated as a result of each prototype residential energy efficiency program established under a plan approved under section 8235a(a) of this title;
3. an analysis, developed in consultation with the Federal Trade Commission and the Department of Justice, of the impact on competition of each prototype residential energy efficiency program established under a plan approved under section 8235a(a) of this title; and
4. if the Secretary determines that it is appropriate, an analysis of the impact of expanding the approval of plans under section 8235a(a) of this title to establish prototype residential energy efficiency programs, and the provision of financial assistance to such programs, on a national basis and an assessment of the alternative methods by which such an expansion could be accomplished.

§ 8235i. Authorization of appropriations

(a) Authorization of appropriations

There is authorized to be appropriated to carry out this part—

1. the sum of $10,000,000 for the fiscal year ending on September 30, 1981; and
2. the sum equal to $10,000,000 minus the amount appropriated for the fiscal year ending on September 30, 1981, under the authorization contained in this section, for the fiscal year ending on September 30, 1982.

(b) Availability

Any funds appropriated under the authorization contained in this section shall remain available until expended.

PART D—RESIDENTIAL ENERGY EFFICIENCY RATING GUIDELINES

§ 8236. Voluntary rating guidelines

(a) In general

Not later than 18 months after October 24, 1992, the Secretary, in consultation with the Secretary of Housing and Urban Development, the Secretary of Veterans Affairs, representatives of existing home energy rating programs, and other appropriate persons, shall, by rule, issue voluntary guidelines that may be used by State and local governments, utilities, builders, real estate agents, lenders, agencies in mortgage markets, and others, to enable and encourage the assignment of energy efficiency ratings to residential buildings.

(b) Contents of guidelines

The voluntary guidelines issued under subsection (a) of this section shall—

1. encourage uniformity with regard to systems for rating the annual energy efficiency of residential buildings;
2. establish protocols and procedures for—
   A. certification of the technical accuracy of building energy analysis tools used to determine energy efficiency ratings;
(B) training of personnel conducting energy efficiency ratings;
(C) data collection and reporting;
(D) quality control; and
(E) monitoring and evaluation;

(3) encourage consistency with, and support for, the uniform plan for Federal energy efficient mortgages, including that developed under section 946 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12712 note) and pursuant to sections 105 and 106 of the Energy Policy Act of 1992;

(4) provide that rating systems take into account local climate conditions and construction practices, solar energy collected on-site, and the benefits of peak load shifting construction practices, and not discriminate among fuel types; and

(5) establish procedures to ensure that residential buildings can receive an energy efficiency rating at the time of sale and that such rating is communicated to potential buyers.

REFERENCES IN TEXT

Section 946 of the Cranston-Gonzalez National Affordable Housing Act, referred to in subsec. (b)(3), is section 946 of Pub. L. 102–486, which is set out as a note under section 12712 of this title.

§ 8236a. Technical assistance

Not later than 2 years after October 24, 1992, the Secretary shall establish a program to provide technical assistance to State and local organizations to encourage the adoption of and use of residential energy efficiency rating systems consistent with the voluntary guidelines issued under section 8236 of this title.

§ 8236b. Report

Not later than 3 years after October 24, 1992, the Secretary shall transmit to the President and the Congress a final report containing—

(1) a description of actions taken by the Secretary and other Federal agencies to implement this part;

(2) a description of the action taken by States, local governments, and other organizations to implement the voluntary guidelines issued under section 8236 of this title and any problems encountered in implementing such guidelines; and

(3) recommendations on the feasibility of requiring, as a prerequisite to receiving federally assisted, guaranteed, or insured mortgages, the achievement of a minimum energy efficiency rating.

SUBCHAPTER III—FEDERAL ENERGY INITIATIVE

PART A—DEMONSTRATION OF SOLAR HEATING AND COOLING IN FEDERAL BUILDINGS

§ 8241. Definitions

As used in the part—

(1) The term “Federal agency” means—

(A) an Executive agency as defined in section 105 of title 5; and

(B) each entity specified in subparagraphs (B) through (I) of subsection (1) of section 5721 of title 5.

(2) The term “Federal building” means any building or other structure owned in whole or part by the United States or any Federal agency, including any such structure occupied by a Federal agency under a lease-acquisition agreement under which the United States or a Federal agency will receive fee simple title under the terms of such agreement without further negotiation.

(3) The term “solar heating” means, with respect to any Federal building, the use of solar energy to meet all or part of the heating needs of such building (including hot water), or all or part of the needs of such building for hot water.

(4) The term “solar heating and cooling” means the use of solar energy to provide all or part of the heating needs of a Federal building (including hot water) and all or part of the cooling needs of such building, or all or part of the needs of such building for hot water.

(5) The term “Federal energy equipment” means equipment for solar heating and solar heating and cooling.

(6) The term “Secretary” means the Secretary of Energy.

AMENDMENTS

2007—Par. (1)(B). Pub. L. 110–161 substituted “paragraphs (B) through (I)” for “paragraphs (B) through (H)”.

§ 8242. Federal solar program

The Secretary, in consultation with the Administrator of the General Services Administration, shall develop and carry out a program to demonstrate the application to buildings of solar heating and solar heating and cooling technology in Federal buildings.

§ 8243. Duties of Secretary

(a) Duties

In exercising the authority provided by section 8242 of this title, the Secretary, in consultation with the Administrator of the General Services Administration, shall—

(1) promulgate, by rule—

(A) requirements under which Federal agencies shall submit proposals for the installation of solar energy equipment in Fed-
eral buildings which are under their control and which are selected in accordance with procedures set forth in such rule, and
  (B) criteria by which proposals under subparagraph (A) will be evaluated, which criteria shall provide for the inclusion in each proposal of a complete analysis of the present value, as determined by the Secretary, of the costs and benefits of the proposal to the Federal agency, and for the demonstration, to the maximum extent practicable, of innovative and diverse applications to a variety of types of Federal buildings of solar heating and solar heating and cooling technology, and for location of demonstration projects in areas where a private sector market for solar energy equipment is likely to develop;

(2) evaluate in writing each such proposal pursuant to the criteria promulgated pursuant to paragraph (1)(B), and make such evaluation available to the agency and, upon request, to any person;

(3) provide technical and financial assistance by interagency agreement for implementing a proposal evaluated under paragraph (2) and approved by the Secretary; except that such assistance shall be limited to the design, acquisition, construction, and installation of solar energy equipment;

(4) provide, by rule, that Federal agencies report to the Secretary periodically such information as they acquire respecting maintenance and operation of solar energy equipment for which assistance is provided under paragraph (3);

(5) require that a life cycle cost analysis in accordance with part B be done for any Federal building for which a proposal is submitted under this section and the results of such analysis be included in such proposal; and

(6) if solar energy equipment for which assistance is to be provided under paragraph (3) is not the minimum life-cycle cost alternative, require the Federal agency involved to submit a report to the Secretary stating the amount by which the life-cycle cost of such equipment exceeds the minimum life-cycle cost.

(b) Contents of proposals

Proposals under paragraph (1)(A) of subsection (a) of this section shall include a list of the specific Federal buildings proposed to be provided with solar energy equipment, the funds necessary for the acquisition and installation of such equipment, the proposed implementation schedule, maintenance costs, the estimated savings in fossil fuels and electricity, the estimated payback time, and such other information as may be required by the Secretary.

(c) Initial submission of proposals

Under the requirements established under subsection (a)(1)(A) of this section, initial proposals for the installation of solar energy equipment in Federal buildings selected under subsection (a)(1)(A) of this section shall be submitted not later than 180 days after the date of promulgation of the rule under subsection (a)(1) of this section.

(d) Program to disseminate information to Federal procurement and loan officers

In order to more widely disseminate information about the program under this part and under part B and the benefits of renewable energy and energy efficiency technology, the Secretary shall establish a program which includes site visits and technical briefings, to disseminate such information to Federal procurement officers and Federal loan officers. The Secretary shall utilize available funds for the program under this subsection.

AMENDMENTS

§8244. Authorization of appropriations

There are authorized to be appropriated to the Secretary through fiscal year ending September 30, 1980, to carry out the purposes of this part not to exceed $100,000,000. Funds so appropriated may be transferred by the Secretary to any Federal agency to the extent necessary to carry out the purposes of section 8243(a)(3) of this title.

PART B—FEDERAL ENERGY MANAGEMENT

§8251. Findings

The Congress finds that—

(1) the Federal Government is the largest single energy consumer in the Nation;

(2) the cost of meeting the Federal Government’s energy requirement is substantial;

(3) there are significant opportunities in the Federal Government to conserve and make more efficient use of energy through improved operations and maintenance, the use of new energy efficient technologies, and the application and achievement of energy efficient design and construction;

(4) Federal energy conservation measures can be financed at little or no cost to the Federal Government by using private investment capital made available through contracts authorized by subchapter VII of this chapter; and

(5) an increase in energy efficiency by the Federal Government would benefit the Nation by reducing the cost of government, reducing national dependence on foreign energy resources, and demonstrating the benefits of greater energy efficiency to the Nation.

AMENDMENTS

EXECUTIVE ORDER NO. 13123

Ex. Ord. No. 13123, June 3, 1999, 64 F.R. 30651, which directed the Federal Government to reduce greenhouse gas emissions, energy consumption, and water usage and required agencies to develop an annual implementation plan, to request funding necessary to achieve the
goals of this order, and to make annual progress re-
ports to the President, was revoked by Ex. Ord. No. 
13423, §11(a)(ii), Jan. 24, 2007, 72 F.R. 3923, set out in a 
ote under section 8251 of this title.

EX. ORD. NO. 13221. ENERGY EFFICIENT STANDBY POWER 
DEVICES
Ex. Ord. No. 13221, July 31, 2001, 66 F.R. 40571, pro-
vided:

By the authority vested in me as President by the 
Constitution and the laws of the United States of 
America, including the National Energy Conservation 
8252 et seq.), as amended by the Energy Policy Act of 
1992 (EPACT) (Public Law 102-486. 106 Stat. 2776), and 
section 301 of title 3, United States Code, and in order 
to further encourage energy conservation by the Fed-
al Government, it is hereby ordered as follows:

Each agency, when it purchases commercially avail-
able, off-the-shelf products that use external standby 
power devices, or that contain an internal standby 
power function, shall purchase products that use no 
more than one watt in their standby power consuming 
mode. If such products are not available, agencies shall 
purchase products with the lowest standby power watt-
age while in their standby power consuming mode. 
Agencies shall adhere to these requirements, when life-
cycle cost-effective and practicable and where the rel-
levant product’s utility and performance are not com-
promised as a result. By December 31, 2001, and on an 
annual basis thereafter, the Department of Energy, in 
consultation with the Department of Defense and the 
General Services Administration, shall compile a pre-
liminary list of products to be subject to these require-
ments. The Department of Energy shall finalize the list 
and may remove products deemed inappropriate for 
listing.

SISC. 2. Independent Agencies. Independent agencies are 
encouraged to comply with the provisions of this order. 

SISC. 3. Definition. “Agency” means an executive agen-
cy as defined in 5 U.S.C. 105. For the purpose of this 
order, military departments, as defined in 5 U.S.C. 102, 
are covered by the Department of Defense.

GEORGE W. BUSH.

§ 8252. Purpose
It is the purpose of this part to promote the 
conservation and the efficient use of energy and 
water, and the use of renewable energy sources, 
by the Federal Government.

3277; Pub. L. 100–615, §2(a), Nov. 5, 1988, 102 Stat. 
3185; Pub. L. 102–486, title I, §152(a), Oct. 24, 1992, 
106 Stat. 2841.)

AMENDMENTS

1992—Pub. L. 102–486 inserted “and water, and the use of 
renewable energy sources,” after “use of energy”.

1988—Pub. L. 100–615 amended section generally, sub-
stituting statement of purpose for policy statement de-
claring it to be United States policy for Federal Gov-
ernment to have the opportunity and responsibility, 
with participation of industry, to further develop, demo-
strate, and promote use of energy conservation, solar 
heating and cooling, and other renewable energy 
sources in Federal buildings.

§ 8253. Energy management requirements

(a) Energy performance requirement for Federal 
buildings

(1) Subject to paragraph (2), each agency shall 
apply energy conservation measures to, and 
shall improve the design for the construction of, 
the Federal buildings of the agency (including 
each industrial or laboratory facility) so that 
the energy consumption per gross square foot of 
the Federal buildings of the agency in fiscal 
years 2006 through 2015 is reduced, as compared 
with the energy consumption per gross square 
foot of the Federal buildings of the agency in 
fiscal year 2003, by the percentage specified in 
the following table:

<table>
<thead>
<tr>
<th>Fiscal Year</th>
<th>Percentage Reduction</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

(2) An agency may exclude from the require-
ments of paragraph (1) any building, and the as-
associated energy consumption and gross square 
footage, in which energy intensive activities are 
covered. Each agency shall identify and list 
each report made under section 8258(a) of this 
title the buildings designated by it for such exclusion.

(3) Not later than December 31, 2014, the Sec-
retary shall review the results of the implemen-
tation of the energy performance requirement 
established under paragraph (1) and submit to 
Congress recommendations concerning energy 
performance requirements for fiscal years 2016 
through 2025.

(b) Energy management requirement for Federal 
agencies

(1) Not later than January 1, 2005, each agency 
shall, to the maximum extent practicable, in-
install in Federal buildings owned by the United 
States all energy and water conservation meas-
ures with payback periods of less than 10 years, 
as determined by using the methods and proce-
dures developed pursuant to section 8254 of this 
title.

(2) The Secretary may waive the require-
ments of this subsection for any agency for such per-
iods as the Secretary may determine if the Sec-
retary finds that the agency is taking all prac-
ticable steps to meet the requirements and that 
the requirements of this subsection will pose an 
unacceptable burden upon the agency. If the 
Secretary waives the requirements of this sub-
section, the Secretary shall, as part of the re-
port required under section 8258(b) of this title, 
notify the Congress in writing with an expla-
nation and a justification of the reasons for such 
waiver.

(3) This subsection shall not apply to an agen-
cy’s facilities that generate or transmit electric 
energy or to the uranium enrichment facilities 
operated by the Department of Energy.

(4) An agency may participate in the Environ-
mental Protection Agency’s “Green Lights” 
program for purposes of receiving technical as-
assistance in complying with the requirements of 
this section.

(c) Exclusions

(1)(A) An agency may exclude, from the energy 
performance requirement for a fiscal year estab-
lished under subsection (a) of this section and the energy management requirement established under subsection (b) of this section, any Federal building or collection of Federal buildings, if the head of the agency finds that—

(1) compliance with those requirements would be impracticable;

(ii) the agency has completed and submitted all federally required energy management reports;

(iii) the agency has achieved compliance with the energy efficiency requirements of this chapter, the Energy Policy Act of 1992, Executive orders, and other Federal law; and

(iv) the agency has implemented all practicable, life cycle cost-effective projects with Federal building or collection of Federal buildings to be excluded.

(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.

(2) Each agency shall identify and list, in each report made under section 8258(a) of this title, the Federal buildings designated by it for such exclusion. The Secretary shall review such findings for consistency with the standards for exclusion set forth in paragraph (1), and may within 90 days after receipt of the findings, reverse the exclusion. In the case of any such reversal, the agency shall comply with the requirements of subsections (a) and (b)(1) of this section for the building concerned.

(3) Not later than 180 days after August 8, 2005, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1). (d) Implementation steps

The Secretary shall consult with the Secretary of Defense and the Administrator of General Services in developing guidelines for the implementation of this part. To meet the requirements of this section, each agency shall—

(1) prepare and submit to the Secretary, not later than December 31, 1993, a plan describing how the agency intends to meet such requirements, including how it will—

(A) designate personnel primarily responsible for achieving such requirements;

(B) identify high priority projects through calculation of payback periods;

(C) take maximum advantage of contracts authorized under subchapter VII of this chapter, of financial incentives and other services provided by utilities for efficiency investment, and of other forms of financing to reduce the direct costs to the Government; and

(D) otherwise implement this part;

(2) perform energy surveys of its Federal buildings to the extent necessary and update such surveys as needed, incorporating any relevant information obtained from the survey conducted pursuant to section 8258b of this title;

(3) using such surveys, determine the cost and payback period of energy and water conservation measures likely to achieve the requirements of this section;

(4) install energy and water conservation measures that will achieve the requirements of this section through the methods and procedures established pursuant to section 8254 of this title; and

(5) ensure that the operation and maintenance procedures applied under this section are continued.

(e) Metering of energy use

(1) Deadline

By October 1, 2012, in accordance with guidelines established by the Secretary under paragraph (2), all Federal buildings shall, for the purposes of efficient use of energy and reduction in the cost of electricity used in such buildings, be metered. Each agency shall use, to the maximum extent practicable, advanced meters or advanced metering devices that provide data at least daily and that measure at least hourly consumption of electricity in the Federal buildings of the agency. Not later than October 1, 2016, each agency shall provide for equivalent metering of natural gas and steam, in accordance with guidelines established by the Secretary under paragraph (2).

Such data shall be incorporated into existing Federal energy tracking systems and made available to Federal facility managers.

(2) Guidelines

(A) In general

Not later than 180 days after August 8, 2005, the Secretary, in consultation with the Department of Defense, the General Services Administration, representatives from the metering industry, utility industry, energy services industry, energy efficiency industry, energy efficiency advocacy organizations, national laboratories, universities, and Federal facility managers, shall establish guidelines for agencies to carry out paragraph (1).

(B) Requirements for guidelines

The guidelines shall—

(i) take into consideration—

(I) the cost of metering and the reduced cost of operation and maintenance expected to result from metering;

(II) the extent to which metering is expected to result in increased potential for energy management, increased potential for energy savings and energy efficiency improvement, and cost and energy savings due to utility contract aggregation; and

(III) the measurement and verification protocols of the Department of Energy;

(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

(iii) establish priorities for types and locations of buildings to be metered based on cost-effectiveness and a schedule of one or more dates, not later than 1 year after the date of issuance of the guidelines, on
which the requirements specified in paragraph (1) shall take effect; and
(iv) establish exclusions from the requirements specified in paragraph (1) based on the de minimis quantity of energy use of a Federal building, industrial process, or structure.

(3) Plan
Not later than 6 months after the date guidelines are established under paragraph (2), in a report submitted by the agency under section 8258(a) of this title, each agency shall submit to the Secretary a plan describing how the agency will implement the requirements of paragraph (1), including (A) how the agency will designate personnel primarily responsible for achieving the requirements and (B) demonstration by the agency, complete with documentation, of any finding that advanced meters or advanced metering devices, as defined in paragraph (1), are not practicable.

(f) Use of energy and water efficiency measures in Federal buildings
(1) Definitions
In this subsection:
(A) Commissioning
The term ‘‘commissioning’’, with respect to a facility, means a systematic process—
(i) of ensuring, using appropriate verification and documentation, during the period beginning on the initial day of the design phase of the facility and ending not earlier than 1 year after the date of completion of construction of the facility, that all facility systems perform interactively in accordance with—
(I) the design documentation and intent of the facility; and
(II) the operational needs of the owner of the facility, including preparation of operation personnel; and
(ii) the primary goal of which is to ensure fully functional systems that can be properly operated and maintained during the useful life of the facility.
(B) Energy manager
(i) In general
The term ‘‘energy manager’’, with respect to a facility, means the individual who is responsible for—
(I) ensuring compliance with this subsection by the facility; and
(II) reducing energy use at the facility.
(ii) Inclusions
The term ‘‘energy manager’’ may include—
(I) a contractor of a facility;
(II) a part-time employee of a facility; and
(III) an individual who is responsible for multiple facilities.
(C) Facility
(i) In general
The term ‘‘facility’’ means any building, installation, structure, or other property (including any applicable fixtures) owned or operated by, or constructed or manufactured and leased to, the Federal Government.

(ii) Inclusions
The term ‘‘facility’’ includes—
(I) a group of facilities at a single location or multiple locations managed as an integrated operation; and
(II) contractor-operated facilities owned by the Federal Government.

(iii) Exclusions
The term ‘‘facility’’ does not include any land or site for which the cost of utilities is not paid by the Federal Government.

(D) Life cycle cost-effective
The term ‘‘life cycle cost-effective’’, with respect to a measure, means a measure, the estimated savings of which exceed the estimated costs over the lifespan of the measure, as determined in accordance with section 8254 of this title.

(E) Payback period
(i) In general
Subject to clause (ii), the term ‘‘payback period’’, with respect to a measure, means a value equal to the quotient obtained by dividing—
(I) the estimated initial implementation cost of the measure (other than financing costs); by
(II) the annual cost savings resulting from the measure, including—
(aa) net savings in estimated energy and water costs; and
(bb) operations, maintenance, repair, replacement, and other direct costs.

(ii) Modifications and exceptions
The Secretary, in guidelines issued pursuant to paragraph (6), may make such modifications and provide such exceptions to the calculation of the payback period of a measure as the Secretary determines to be appropriate to achieve the purposes of this chapter.

(F) Recommissioning
The term ‘‘recommissioning’’ means a process—
(i) of recommissioning a facility or system beyond the project development and warranty phases of the facility or system; and
(ii) the primary goal of which is to ensure optimum performance of a facility, in accordance with design or current operating needs, over the useful life of the facility, while meeting building occupancy requirements.

(G) Retrocommissioning
The term ‘‘retrocommissioning’’ means a process of recommissioning a facility or system that was not commissioned at the time of construction of the facility or system.

(2) Facility energy managers
(A) In general
Each Federal agency shall designate an energy manager responsible for implementing

1So in original. Two subsecs. (f) have been enacted.
this subsection and reducing energy use at each facility that meets criteria under sub-
paragraph (B).

(B) Covered facilities
The Secretary shall develop criteria, after consultation with affected agencies, energy
efficiency advocates, and energy and utility service providers, that cover, at a minimum,
Federal facilities, including central utility plants and distribution systems and other
energy intensive operations, that constitute at least 75 percent of facility energy use at
each agency.

(3) Energy and water evaluations
(A) Evaluations
Effective beginning on the date that is 180
days after December 19, 2007, and annually
thereafter, energy managers shall complete,
for each calendar year, a comprehensive en-
ergy and water evaluation for approximately
25 percent of the facilities of each agency
that meet the criteria under paragraph
(2)(B) in a manner that ensures that an eval-
uation of each such facility is completed at
least once every 4 years.

(B) Recommissioning and retrocommissioning
As part of the evaluation under subpara-
grah (A), the energy manager shall identify
and assess recommissioning measures (or, if
the facility has never been commissioned,
recommissioning measures) for each such
facility.

(4) Implementation of identified energy and
water efficiency measures
Not later than 2 years after the completion
of each evaluation under paragraph (3), each
energy manager may—
(A) implement any energy- or water-saving
measure that the Federal agency identified
in the evaluation conducted under paragraph
(3) that is life cycle cost-effective; and
(B) bundle individual measures of varying
paybacks together into combined projects.

(5) Follow-up on implemented measures
For each measure implemented under para-
grah (4), each energy manager shall ensure that—
(A) equipment, including building and
equipment controls, is fully commissioned
at acceptance to be operating at design spec-
ifications;
(B) a plan for appropriate operations,
maintenance, and repair of the equipment is
in place at acceptance and is followed;
(C) equipment and system performance is
measured during its entire life to ensure
proper operations, maintenance, and repair;
and
(D) energy and water savings are measured
and verified.

(6) Guidelines
(A) In general
The Secretary shall issue guidelines and
necessary criteria that each Federal agency
shall follow for implementation of—

(i) paragraphs (2) and (3) not later than
180 days after December 19, 2007; and
(ii) paragraphs (4) and (5) not later than
1 year after December 19, 2007.

(B) Relationship to funding source
The guidelines issued by the Secretary
under subparagraph (A) shall be appropriate
and uniform for measures funded with each
type of funding made available under para-
grah (10), but may distinguish between dif-
ferent types of measures\(^2\) project size, and
other criteria the Secretary determines are
relevant.

(7) Web-based certification
(A) In general
For each facility that meets the criteria
established by the Secretary under para-
grah (2)(B), the energy manager shall use
the web-based tracking system under sub-
paragraph (B) to certify compliance with the
requirements for—
(i) energy and water evaluations under
paragraph (3);
(ii) implementation of identified energy
and water measures under paragraph (4); and
(iii) follow-up on implemented measures
under paragraph (5).

(B) Deployment
(i) In general
Not later than 1 year after December 19,
2007, the Secretary shall develop and de-
ploy a web-based tracking system required
under this paragraph in a manner that
tracks, at a minimum—
(I) the covered facilities;
(II) the status of meeting the require-
ments specified in subparagraph (A);
(III) the estimated cost and savings for
measures required to be implemented in
the facility;
(IV) the measured savings and persist-
ence of savings for implemented meas-
dures; and
(V) the benchmarking information dis-
closed under paragraph (B)(C).

(ii) Ease of compliance
The Secretary shall ensure that energy
manager compliance with the require-
ments in this paragraph, to the maximum
extent practicable—
(I) can be accomplished with the use of
streamlined procedures and templates
that minimize the time demands on Fed-
eral employees; and
(II) is coordinated with other applica-
ble energy reporting requirements.

(C) Availability
(i) In general
Subject to clause (ii), the Secretary shall
make the web-based tracking system re-
quired under this paragraph available to
Congress, other Federal agencies, and the
public through the Internet.

(ii) Exemptions
At the request of a Federal agency, the
Secretary may exempt specific data for

\(^2\) So in original. A comma probably should appear.
specific facilities from disclosure under clause (i) for national security purposes.

(8) Benchmarking of Federal facilities

(A) In general
The energy manager shall enter energy use data for each metered building that is (or is a part of) a facility that meets the criteria established by the Secretary under paragraph (2)(B) into a building energy use benchmarking system, such as the Energy Star Portfolio Manager.

(B) System and guidance
Not later than 1 year after December 19, 2007, the Secretary shall—
(i) select or develop the building energy use benchmarking system required under this paragraph for each type of building; and
(ii) issue guidance for use of the system.

(C) Public disclosure
Each energy manager shall post the information entered into, or generated by, a benchmarking system under this subsection, on the web-based tracking system under paragraph (7)(B). The energy manager shall update such information each year, and shall include in such reporting previous years’ information to allow changes in building performance to be tracked over time.

(9) Federal agency scorecards

(A) In general
The Director of the Office of Management and Budget shall issue semiannual scorecards for energy management activities carried out by each Federal agency that includes—
(i) summaries of the status of implementing the various requirements of the agency and its energy managers under this subsection; and
(ii) any other means of measuring performance that the Director considers appropriate.

(B) Availability
The Director shall make the scorecards required under this paragraph available to Congress, other Federal agencies, and the public through the Internet.

(10) Funding and implementation

(A) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this subsection.

(B) Funding options
(i) In general
To carry out this subsection, a Federal agency may use any combination of—
(I) appropriated funds made available under subparagraph (A); and
(II) private financing otherwise authorized under Federal law, including financing available through energy savings performance contracts or utility energy service contracts.

(ii) Combined funding for same measure
A Federal agency may use any combination of appropriated funds and private fi-
nancing described in clause (i) to carry out the same measure under this subsection.

(C) Implementation
Each Federal agency may implement the requirements under this subsection itself or may contract out performance of some or all of the requirements.

(11) Rule of construction
This subsection shall not be construed to require or to obviate any contractor savings guarantees.

(f) 1 Large capital energy investments

(1) In general
Each Federal agency shall ensure that any large capital energy investment in an existing building that is not a major renovation but involves replacement of installed equipment (such as heating and cooling systems), or involves renovation, rehabilitation, expansion, or remodeling of existing space, employs the most energy efficient designs, systems, equipment, and controls that are life-cycle cost effective.

(2) Process for review of investment decisions
Not later than 180 days after December 19, 2007, each Federal agency shall—
(A) develop a process for reviewing each decision made on a large capital energy investment described in paragraph (1) to ensure that the requirements of this subsection are met; and
(B) report to the Director of the Office of Management and Budget on the process established.

(3) Compliance report
Not later than 1 year after December 19, 2007, the Director of the Office of Management and Budget shall evaluate and report to Congress on the compliance of each agency with this subsection.

1 See section 432 of Pub. L. 110–140 for specific facilities from disclosure under clause (i) for national security purposes.

References in Text

Amendments
2007—Subsec. (a)(1). Pub. L. 110–140, §431, added table and struck out former table which listed percentage reductions for fiscal years as follows: 2 percent for fiscal year 2006, 4 percent for fiscal year 2007, 6 percent for fiscal year 2008, 8 percent for fiscal year 2009, 10 percent...
for fiscal year 2010, 12 percent for fiscal year 2011, 14 percent for fiscal year 2012, 16 percent for fiscal year 2013, 18 percent for fiscal year 2014, and 20 percent for fiscal year 2015.

Subsec. (e)(1). Pub. L. 110–140, § 434(b), inserted after second sentence "Not later than October 1, 2016, each agency shall provide for equivalent metering of natural gas, and steam, in accordance with guidelines established by the Secretary under paragraph (2).".

Subsec. (a)(1). Pub. L. 109–58, § 102(a)(1), substituted provisions relating to reduction of energy consumption in fiscal years 2006 to 2015 as compared to consumption in fiscal year 2003 and table of percentages specifying amount of reduction in each fiscal year for provisions relating to energy consumption during fiscal year 1995 at least 10 percent less than consumption during fiscal year 1985 and energy consumption during fiscal year 2000 at least 20 percent less than consumption during fiscal year 1985.

Subsec. (c)(1). Pub. L. 109–58, § 101(c), added par. (1) and struck out former par. (1) which read as follows: "An agency may exclude, from the energy consumption requirements for the year 2000 established under subsection (a) of this section and the requirements of sub- section (b)(1) of this section, any Federal building or collection of Federal buildings, and the associated energy consumption and gross square footage, if the head of such agency finds that compliance with such requirements would be impractical. A finding of impracticability shall be based on the energy intensiveness of activi- ties carried out in such Federal buildings or collection of Federal buildings, the type and amount of energy consumed, the technical feasibility of making the de- sired changes, and, in the cases of the Departments of Defense and Energy, the unique character of certain facili- ties operated by such Departments.".

Subsec. (c)(2). Pub. L. 109–58, § 102(d), substituted "standards for exclusion" for "impracticability standards", "the exclusion" for "a finding of impracticabil- ity", and "requirements of subsections (a) and (b)(1) of this section" for "energy consumption requirements".

Subsec. (c)(3). Pub. L. 109–58, § 102(e), added par. (3).

Subsec. (d). Pub. L. 109–58, § 103, added subsec. (e), 1995—Subsec. (b)(2). Pub. L. 104–66, § 434(b), inserted "as of the report required under section 8258(b) of this title," after "the Secretary shall," and struck out "promptly" after "Congress".

Subsec. (a). Pub. L. 102–486, § 152(b)(2), (3), in heading substituted "requirement for "goal" and in par. (1) inserted before period at end "and so that the energy con- sumption per gross square foot of its Federal buildings in use during the fiscal year 2000 is at least 20 percent less than the energy consumption per gross square foot of its Federal buildings in use during fiscal year 1985.".

Subsecs. (b), (c), (d), Pub. L. 102–486, § 152(b)(4), added subsecs. (b) and (c). Former subsec. (b) redesignated (d).

Subsec. (d). Pub. L. 102–486, § 152(b)(4), (c)(1), redesignated subsec. (b) as (d) and in introductory provisions substituted "The Secretary shall consult with the Secre- tary of Defense and the Administrator of General Services in developing guidelines for the implementa- tion of this part. To meet the requirements of this section, for "To achieve the goal established in sub- section (a) of this section.".

Subsec. (d)(1). Pub. L. 102–486, § 152(c)(2), added par. (1) and struck out former par. (1) which read as follows: "(1) establish practical and effective present value methods for estimating and comparing life cycle costs for Federal buildings, using the sum of all capital and operating expenses associated with the energy system of the building involved over the expected life of such system or during a period of 40 years, whichever is shorter, and using average fuel costs and a discount rate determined by the Secretary; and"

(b) Use of life cycle cost methods and procedures

(1) The design of new Federal buildings, and the application of energy conservation measures to existing Federal buildings, shall be made using life cycle cost methods and procedures es- tablished under subsection (a) of this section.
(2) In leasing buildings for its own use or that of another agency, each agency shall, after January 1, 1994, fully consider the efficiency of all potential building space at the time of renewing or entering into a new lease.

(c) Use in non-Federal structures

The Secretary shall make available information to the public on the use of life cycle cost methods in the construction of buildings, structures, and facilities in all segments of the economy.

AMENDMENTS

Subsec. (b)(2). Pub. L. 102–486, § 152(d)(2), substituted “agency shall, after January 1, 1994, fully consider the efficiency of all potential building space at the time of renewing or entering into a new lease.” for “agency shall give appropriate preference to buildings which minimize life cycle costs.”

1988—Pub. L. 100–615 amended section generally, substituting provisions relating to establishment and use of life cycle cost methods and procedures for provisions defining terms (1) Secretary, (2) life cycle cost, (3) preliminary energy audit, (4) energy survey, (5) Federal building, (6) construction, and (7) energy performance target.

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1621 of Title 2, The Congress.

§ 8255. Budget treatment for energy conservation measures

The President shall transmit to the Congress, along with each budget that is submitted to the Congress under section 1105 of title 31, a statement of the amount of appropriations requested in such budget, if any, on an individual agency basis, for—

(1) electric and other energy costs to be incurred in operating and maintaining agency facilities; and

(2) compliance with the provisions of this part, the Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.), and all applicable Executive orders, including Executive Order 12003 (42 U.S.C. 6201 note) and Executive Order 12759 (56 Fed. Reg. 16257).

References in Text

The Energy Policy and Conservation Act, referred to in this section, is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended, which is classified principally to chapter 77 (§ 6201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Table.

AMENDMENTS

1992—Pub. L. 102–486 amended section generally. Prior to amendment, section read as follows: “Each agency, in support of the President’s annual budget request to the Congress, shall specifically set forth and identify funds requested for energy conservation measures.”

(b) Federal Energy Efficiency Fund

(1) The Secretary shall establish a Federal Energy Efficiency Fund to provide grants to agencies to assist them in meeting the requirements of section 8253 of this title.

(2) Not later than June 30, 1993, the Secretary shall issue guidelines to be followed by agencies submitting proposals for such grants. All agencies shall be eligible to submit proposals for grants under the Fund.

(3) The Secretary shall award grants from the Fund after a competitive assessment of the technical and economic effectiveness of each agency proposal. The Secretary shall consider the following factors in determining whether to provide funding under this subsection:

(A) The cost-effectiveness of the project.

(B) The amount of energy and cost savings anticipated to the Federal Government.

(C) The amount of funding committed to the project by the agency requesting financial assistance.

(D) The extent that a proposal leverages financing from other non-Federal sources.

(E) Any other factor which the Secretary determines will result in the greatest amount of...
energy and cost savings to the Federal Government.

(4) There are authorized to be appropriated, to remain available to be expended, to carry out this subsection not more than $10,000,000 for fiscal years 1994, $50,000,000 for fiscal year 1995, and such sums as may be necessary for fiscal years thereafter.

(c) Utility incentive programs

(1) Agencies are authorized and encouraged to participate in programs to increase energy efficiency and for water conservation or the management of electricity demand conducted by gas, water, or electric utilities and generally available to customers of such utilities.

(2) Each agency may accept any financial incentive, goods, or services generally available from any such utility, to increase energy efficiency or to conserve water or manage electricity demand.

(3) Each agency is encouraged to enter into negotiations with electric, water, and gas utilities to design cost-effective demand management and conservation incentive programs to address the unique needs of facilities utilized by such agency.

(4) If an agency satisfies the criteria which generally apply to other customers of a utility incentive program, such agency may not be denied collection of rebates or other incentives.

(d) Financial incentive program for facility energy managers

(1) The Secretary shall, in consultation with the Task Force established pursuant to section 8257 of this title, establish a financial bonus program to reward, with funds made available for such purpose, outstanding Federal facility energy managers in agencies and the United States Postal Service.

(2) Not later than June 1, 1993, the Secretary shall issue procedures for implementing and conducting the award program, including the criteria to be used in selecting outstanding energy managers and contributors who have—

(A) improved energy performance through increased energy efficiency;

(B) implemented proven energy efficiency and energy conservation techniques, devices, equipment, or procedures;

(C) developed and implemented training programs for facility energy managers, operators, and maintenance personnel;

(D) developed and implemented employee awareness programs;

(E) succeeded in generating utility incentives, shared energy savings contracts, and other federally approved performance based energy savings contracts;

(F) made successful efforts to fulfill compliance with energy reduction mandates, including the provisions of section 8258 of this title; and

(G) succeeded in the implementation of the guidelines established under section 8262e of this title.

(3) There is authorized to be appropriated to carry out this subsection not more than $250,000 for each of the fiscal years 1993, 1994, and 1995.

(e) Retention of energy and water savings

An agency may retain any funds appropriated to that agency for energy expenditures, water expenditures, or wastewater treatment expenditures, at buildings subject to the requirements of section 8258(a) and (b) of this title, that are not made because of energy savings or water savings. Except as otherwise provided by law, such funds may be used only for energy efficiency, water conservation, or unconventional and renewable energy resources projects. Such projects shall be subject to the requirements of section 3307 of title 40.

References in Text

Section 8262e of this title, referred to in subsec. (d)(2)(G), was in the original “section 159” and was translated as meaning section 159 of Pub. L. 102–486, title I, Oct. 24, 1992, 106 Stat. 2837, which enacted section 8262e of this title, to reflect the probable intent of Congress.

Amendments

2007—Subsec. (c)(5). Pub. L. 110–140 struck out par. (5) which read as follows:

"(5) (A) An amount equal to fifty percent of the energy and water cost savings realized by an agency (other than the Department of Defense) with respect to funds appropriated for any fiscal year beginning after fiscal year 1992 (including financial benefits resulting from energy savings performance contracts under subchapter VII of this chapter and utility energy efficiency rebates) shall, subject to appropriation, remain available for expenditure by such agency for additional energy efficiency measures which may include related employee incentive programs, particularly at those facilities at which energy savings were achieved.

"(B) Agencies shall establish a fund and maintain strict financial accounting and controls for savings realized and expenditures made under this subsection. Records maintained pursuant to this subparagraph shall be made available for public inspection upon request."

1992—Subsec. (a). Pub. L. 102–486, § 152(f)(1), (2), substituted “Contracts” for “In general” in heading, designated existing provisions as par. (1), and redesignated former subsec. (b) as subsec. (a)(2) and amended it generally. Prior to amendment, par. (2) read as follows: "The head of each agency shall, no later than 120 days after November 5, 1988, implement procedures for entering into such contracts and for identifying, verifying, and utilizing, on a fiscal year basis, the cost savings resulting from such contracts."

Subsec. (c), (d), Pub. L. 102–486, § 152(f)(3), (4), added subsec. (c) and (d) and struck out former subsec. (c) which read as follows: “The portion of the funds appropriated to an agency for energy expenses for a fiscal year that is equal to the amount of cost savings realized by such agency for such year from contracts entered into under subchapter VII of this chapter shall remain available for obligation, without further appropriation, to undertake additional energy conservation measures.”

§ 8257. Interagency Energy Management Task Force

(a) In general

To assist the interagency committee organized under section 7266 of this title to coordinate the activities of the Federal Government in promoting energy conservation and the efficient use of energy and in informing non-Federal entities of the Federal experience in energy conservation, the Secretary shall establish an Interagency Energy Management Task Force (hereafter in this section referred to as the "Task Force").

(b) Members

The Task Force shall be composed of the chief energy managers of agencies represented on the interagency committee organized under section 7266 of this title.

(c) Duties

The Task Force shall meet when the Secretary requests, but not less often than twice a year, to—

(1) assess the progress of the various agencies in achieving energy savings;

(2) collect and disseminate information to agencies, States, local governments, and the public on effective survey techniques, innovative approaches to the efficient use of energy, incentive programs developed under section 8256 of this title, innovative contracting methods developed under subchapter VII of this chapter, the use of cogeneration facilities and renewable resources, and other technologies that promote the conservation and efficient use of energy;

(3) coordinate energy surveys conducted by the agencies;

(4) develop options for use in conserving energy;

(5) report to the committee organized under section 7266 of this title; and

(6) review, from time to time as may be necessary, the regulations relating to building temperature settings to determine whether changes in such regulations would be appropriate to assist in meeting the goals specified in section 8253 of this title.

§ 8258. Reports

(a) Reports to Secretary

Each agency shall transmit a report to the Secretary, at times specified by the Secretary but at least annually, with complete information on its activities under this part, including—

(1) the agency's progress in achieving the goals established by section 8253 of this title; and

(2) the procedures being used by the agency pursuant to section 8256(a)(2) of this title, the number of contracts entered into by such agency under subchapter VII of this chapter, the energy and cost savings that have resulted from such contracts and any termination penalty exposure, the use of such cost savings under section 8256(e) of this title, and any problem encountered in entering into such contracts and otherwise implementing section 8256 of this title.

(b) Reports to the President and Congress

The Secretary shall report, not later than April 2 of each year, with respect to each fiscal year beginning after November 5, 1988, to the President and Congress—

(1) on all activities carried out under this part and on the progress made toward achievement of the objectives of this part, including—

(A) a copy of the list of the exclusions made under sections 8253(a)(2) and 8253(c)(3) of this title;

(B) the information required under section 8253(b)(2) of this title; and

(C) a statement detailing the amount of funds awarded to each agency under section 8256(b) of this title, the energy and water conservation measures installed with such funds, the projected energy and water savings to be realized from installed measures, and, for each installed measure for which the projected energy and water savings reported in the previous year were not realized, the percentage of such projected sav-
ings that was not realized, the reasons such savings were not realized, and proposals for, and projected costs of, achieving such projected savings in the future;

(2) the number of contracts entered into by all agencies under subchapter VII of this chapter, the difficulties (if any) encountered in attempting to enter into such contracts, and proposed solutions to those difficulties;

(3) the extent and nature of interagency exchange of information concerning the conservation and efficient utilization of energy; and

(4) the information required under section §8262a(d) of this title.

(c) Other report

The Secretary, in consultation with the Administrator of General Services, shall—

(1) conduct a study and evaluate legal, institutional, and other constraints to connecting buildings owned or leased by the Federal Government to district heating and district cooling systems; and

(2) not later than 18 months after October 24, 1992, transmit to the Congress a report containing the findings and conclusions of such study, including recommendations for the development of streamlined processes for the consideration of connecting buildings owned or leased by the Federal Government to district heating and cooling systems.

AMENDMENTS

2007—Subsec. (a)(2). Pub. L. 110–140 inserted “and any termination penalty exposure” after “from such contracts”.

2005—Subsec. (b), Pub. L. 109–58 inserted “the President” and before “Congress” in heading and “President and” before “Congress” in introductory provisions.

1995—Subsec. (b)(1). Pub. L. 104–66, §§ 1052(d)(1), added subpar. (B) and redesignated former subpar. (B) as (C).

Subsec. (b)(1). Pub. L. 102–486, § 152(g)(1), substituted “including—” and subpars. (A) and (B) for “including a copy of the list of the exclusions made under section §8256(a)(2) of this title:”.

1988—Pub. L. 100–615 amended section generally, substituting provisions relating to reports to Secretary and Congress for former requirement that in leasing Federal buildings for its own use or that of another Federal agency, each Federal agency should give appropriate preference to buildings which used solar heating and cooling equipment or other renewable energy sources or which otherwise minimized life cycle costs.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which the 16th item on page 89 identifies a reporting provision which, as subsequently amended, is contained in subsec. (b) of this section), see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

§ 8258a. Demonstration of new technology

(a) Demonstration program

Not later than January 1, 1994, the Secretary, in cooperation with the Administrator of General Services, shall establish a demonstration program to install, in federally owned facilities or federally assisted housing, energy conservation measures for which the Secretary has determined that such installation would accelerate commercial viability. In those cases where technologies are determined to be equivalent, priority shall be given to those technologies that have received or are receiving Federal financial assistance.

(b) Selection criteria

In addition to the determination under subsection (a) of this section, the Secretary shall select, in cooperation with the Administrator of General Services, proposals to be funded under this section on the basis of—

(1) cost-effectiveness;

(2) technical feasibility and system reliability in a working environment;

(3) lack of market penetration in the Federal sector;

(4) the potential needs of the proposing Federal agency for the technology, projected over 5 to 10 years;

(5) the potential Federal sector market, projected over 5 to 10 years;

(6) energy efficiency; and

(7) other environmental benefits, including the projected reduction of greenhouse gas emissions and indoor air pollution.

(c) Proposals

Federal agencies may submit to the Secretary, for each fiscal year, proposals for projects to be funded by the Secretary under this section. Each such proposal shall include—

(1) a description of the proposed project emphasizing the innovative use of technology in the Federal sector;

(2) a description of the technical reliability and cost-effectiveness data expected to be acquired;

(3) an identification of the potential needs of the Federal agency for the technology;

(4) a commitment to adopt the technology, if the project establishes its technical reliability and life cycle cost-effectiveness, to supply at least 10 percent of the Federal agency’s potential needs identified under paragraph (3);

(5) schedules and milestones for installing additional units; and

(6) a technology transfer plan to publicize the results of the project.
(d) Participation by GSA

The Secretary may only select a project for funding under this section which is proposed to be carried out in a building under the jurisdiction of the General Services Administration if the project will be carried out by the Administrator of General Services. If such project involves a total expenditure in excess of $1,600,000, no appropriation shall be made for such project unless such project has been approved by a resolution adopted by the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(e) Study

The Secretary shall conduct a study to evaluate the potential use of the purchasing power of the Federal Government to promote the development and commercialization of energy efficient products. The study shall identify products for which there is a high potential for Federal purchasing power to substantially promote their development and commercialization, and shall include a plan to develop such potential. The study shall be conducted in consultation with utilities, manufacturers, and appropriate nonprofit organizations concerned with energy efficiency. The Secretary shall report to the Congress on the results of the study not later than two years after October 24, 1992.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $5,000,000 for each of the fiscal years 1993, 1994, and 1995.

§ 8258b. Survey of energy saving potential

(a) In general

The Secretary shall, in consultation with the Interagency Energy Management Task Force established under section 8257 of this title, carry out an energy survey for the purposes of—

(1) determining the maximum potential cost effective energy savings that may be achieved in a representative sample of buildings owned or leased by the Federal Government in different areas of the country;

(2) making recommendations for cost effective energy efficiency and renewable energy improvements in those buildings and in other similar Federal buildings; and

(3) identifying barriers which may prevent an agency’s ability to comply with section 8233 of this title and other energy management goals.

(b) Implementation

(1) The Secretary shall transmit to the Committee on Energy and Natural Resources and the Committee on Governmental Affairs of the Senate and the Committee on Energy and Commerce, the Committee on Government Operations, and the Committee on Public Works and Transportation of the House of Representatives, within 180 days after October 24, 1992, a plan for implementing this section.

(2) The Secretary shall designate buildings to be surveyed in the project so as to obtain a sample of the buildings of the types and in the climates that is representative of buildings owned or leased by Federal agencies in the United States that consume the major portion of the energy consumed in Federal buildings. Such sample shall include, where appropriate, the following types of Federal facility space:

(A) Housing.

(B) Storage.

(C) Office.

(D) Services.

(E) Schools.

(F) Research and Development.

(G) Industrial.

(H) Prisons.

(I) Hospitals.

(3) For purposes of this section, an improvement shall be considered cost effective if the cost of the energy saved or displaced by the improvement exceeds the cost of the improvement over the remaining life of a Federal building or the remaining term of a lease of a building leased by the Federal Government as determined by the life cycle costing methodology developed under section 8254 of this title.

(c) Personnel

(1) In carrying out this section, the Secretary shall utilize personnel who are—

(A) employees of the Department of Energy; or

(B) selected by the agencies utilizing the buildings which are being surveyed under this section.

(2) Such personnel shall be detailed for the purpose of carrying out this section without any reduction of salary or benefits.

(d) Report

As soon as practicable after the completion of the project carried out under this section, the Secretary shall transmit a report of the findings and conclusions of the project to the Committee on Energy and Natural Resources and the Committee on Governmental Affairs of the Senate, the Committee on Energy and Commerce, the Committee on Government Operations, and the Committee on Public Works and Transportation of the House of Representatives, and the agencies who own the buildings involved in such project. Such report shall include an analysis of the probability of each agency achieving each of the energy reduction goals established under section 8233(a) of this title.

§ 8259 Definitions

For the purposes of this part—

(1) the term “agency” has the meaning given it in section 551(1) of title 5;

(2) the term “construction” means new construction or substantial rehabilitation of existing structures;

(3) the term “cogeneration facilities” has the same meaning given such term in section 796(18)(A) of title 16;

(4) the term “energy conservation measures” means measures that are applied to a Federal building that improve energy efficiency and are life cycle cost effective and that involve energy conservation, cogeneration facilities, renewable energy sources, improvements in operations and maintenance efficiencies, or retrofit activities;

(5) the term “energy survey” means a procedure used to determine energy and cost savings likely to result from the use of appropriate energy related maintenance and operating procedures and modifications, including the purchase and installation of particular energy-related equipment and the use of renewable energy sources;

(6) the term “Federal building” means any building, structure, or facility, or part thereof, including the associated energy consuming support systems, which is constructed, renovated, leased, or purchased in whole or in part for use by the Federal Government and which consumes energy; such term also means a collection of such buildings, structures, or facilities and the energy consuming support systems for such collection;

(7) the term “life cycle cost” means the total costs of owning, operating, and maintaining a building over its useful life (including such costs as fuel, energy, labor, and replacement components) determined on the basis of a systematic evaluation and comparison of alternative building systems, except that in the case of leased buildings, the life cycle costs shall be calculated over the effective remaining term of the lease;

(8) the term “Secretary” means the Secretary of Energy.

§ 8259a. Energy and water savings measures in congressional buildings

(a) In general
The Architect of the Capitol—

(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the “plan”) for all facilities administered by Congress (referred to in this section as “congressional buildings”) to meet the energy performance requirements for Federal buildings established under section 8253(a)(1) of this title; and

(2) shall submit the plan to Congress, not later than 180 days after August 8, 2005.

(b) Plan requirements
The plan shall include—

(1) a description of the life cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every 5 years to determine the cost and payback period of energy and water conservation measures;
§ 8259b. Federal procurement of energy efficient products

(a) Definitions

In this section:

(1) Agency

The term “agency” has the meaning given that term in section 7902(a) of title 5.

(2) Energy Star product

The term “Energy Star product” means a product that is rated for energy efficiency under an Energy Star program.

(3) Energy Star program

The term “Energy Star program” means the program established by section 6294a of this title.

(4) FEMP designated product

The term “FEMP designated product” means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

(5) Product

The term “product” does not include any energy consuming product or system designed or procured for combat or combat-related missions.

(b) Procurement of energy efficient products

(1) Requirement

To meet the requirements of an agency for an energy consuming product in a product category covered by the Energy Star program or the Federal Energy Management Program for designated products, the head of the agency shall, except as provided in paragraph (2), procure—

(A) an Energy Star product; or

(B) a FEMP designated product.

(2) Exceptions

The head of an agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if the head of the agency finds in writing that—

(A) an Energy Star product or FEMP designated product is not cost-effective over the life of the product taking energy cost savings into account; or

(B) no Energy Star product or FEMP designated product is reasonably available that meets the functional requirements of the agency.

(c) Procurement planning

The head of an agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, including guide specifications, project specifications, and construction, renovation, and services contracts that include provision of energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

(d) Specific products

(1) In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard not later than 120 days after August 8, 2005, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.

(2) All Federal agencies are encouraged to take actions to maximize the efficiency of air conditioning and refrigeration equipment, including appropriate cleaning and maintenance, including the use of any system treatment or additive that will reduce the electricity consumed by air conditioning and refrigeration equipment. Any such treatment or additive must be—

(A) determined by the Secretary to be effective in increasing the efficiency of air conditioning and refrigeration equipment without having an adverse impact on air conditioning performance (including cooling capacity) or equipment useful life;
(B) determined by the Administrator of the Environmental Protection Agency to be environmentally safe; and
(C) shown to increase seasonal energy efficiency ratio (SEER) or energy efficiency ratio (EER) when tested by the National Institute of Standards and Technology according to Department of Energy test procedures without causing any adverse impact on the system, system components, the refrigerant or lubricant, or other materials in the system.

Results of testing described in subparagraph (C) shall be published in the Federal Register for public review and comment. For purposes of this section, a hardware device or primary refrigerant shall not be considered an additive.

(e) Federally-procured appliances with standby power
(1) Definition of eligible product
In this subsection, the term “eligible product” means a commercially available, off-the-shelf product that—
(A)(i) uses external standby power devices; or
(ii) contains an internal standby power function; and
(B) is included on the list compiled under paragraph (4).

(2) Federal purchasing requirement
Subject to paragraph (3), if an agency purchases an eligible product, the agency shall purchase—
(A) an eligible product that uses not more than 1 watt in the standby power consuming mode of the eligible product; or
(B) if an eligible product described in subparagraph (A) is not available, the eligible product with the lowest available standby power wattage in the standby power consuming mode of the eligible product.

(3) Limitation
The requirements of paragraph (2) shall apply to a purchase by an agency only if—
(A) the lower-wattage eligible product is—
(i) lifecycle cost-effective; and
(ii) practicable; and
(B) the utility and performance of the eligible product is not compromised by the lower wattage requirement.

(4) Eligible products
The Secretary, in consultation with the Secretary of Defense, the Administrator of the Environmental Protection Agency, and the Administrator of General Services, shall compile a publicly accessible list of cost-effective eligible products that shall be subject to the purchasing requirements of paragraph (2).

(f) Regulations
Not later than 180 days after August 8, 2005, the Secretary shall issue guidelines to carry out this section.

§§ 8260, 8261. Omitted

§ 8262. Definitions
For purposes of this subtitle—
(1) the term “agency” means 2 has the meaning given such term in section 551(1) of title 5, except that such term does not include the United States Postal Service;
(2) the term “facility energy supervisor” means the employee with responsibility for the daily operations of a Federal facility, including the management, installation, operation, and maintenance of energy systems in Federal facilities which may include more than one building;
(3) the term “trained energy manager” means a person who has demonstrated proficiency, or who has completed a course of study in the areas of fundamentals of building energy systems, building energy codes and applicable professional standards, energy accounting and analysis, life-cycle cost methodology, fuel supply and pricing, and instrumentation for energy surveys and audits;
(4) the term “Task Force” means the Interagency Energy Management Task Force established under section 8257 of this title; and
(5) the term “energy conservation measures” has the meaning given such term in section 8259(4) of this title.

1 See References in Text note below.
2 So in original. The word “means” probably should not appear.
§ 8262a. Report by General Services Administration

Not later than one year after October 24, 1992, and annually thereafter, the Administrator of General Services shall report to the Committee on Governmental Affairs and the Committee on Energy and Commerce of the Senate and the Committee on Government Operations, and the Committee on Public Works and Transportation of the House of Representatives on the activities of the General Services Administration conducted pursuant to this subtitle.

REFERENCES IN TEXT

This subtitle, referred to in text, is subtitle F (§§ 151–168) of title I of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2843, which enacted this section and sections 8258a, 8258b, 8262a to 8262k of this title, amended sections 8252 to 8256, 8258, 8259, 8287, and 8267 of this title and section 490 of former Title 40, Public Buildings, Property, and Works, enacted provisions set out as notes under section 8262h of this title and former section 1815 of Title 2, the Congress, and repealed provisions set out as a note under section 8253 of this title.

For complete classification of subtitle F to the Code, see Tables.

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§ 8262b. Intergovernmental energy management planning and coordination

(a) Conference workshops

The Administrator of General Services, in consultation with the Secretary and the Task Force, shall hold regular, biennial conference workshops in each of the 10 standard Federal regions on energy management, conservation, efficiency, and planning strategy. The Administrator shall work and consult with the Department of Energy and other Federal agencies to plan for particular regional conferences. The Administrator shall invite Department of Energy, State, local, tribal, and county public officials who have responsibilities for energy management or may have an interest in such conferences and shall seek the input of, and be responsive to, the views of such officials in the planning and organization of such workshops.

(b) Focus of workshops

Such workshops and conferences shall focus on the following (but may include other topics):

(1) Developing strategies among Federal, State, tribal, and local governments to coordinate energy management policies and to maximize available intergovernmental energy management resources within the region regarding the use of governmental facilities and buildings.

(2) The design, construction, maintenance, and retrofitting of governmental facilities to incorporate energy efficient techniques.

(3) Procurement and use of energy efficient products.

(4) Dissemination of energy information on innovative programs, technologies, and methods which have proven successful in government.

(5) Technical assistance to design and incorporate effective energy management strategies.

(c) Establishment of workshop timetable

As a part of the first report to be submitted pursuant to section 8262a of this title, the Administrator shall set forth the schedule for the regional energy management workshops to be conducted under this section. Not less than five such workshops shall be held by September 30, 1993, and at least one such workshop shall be...

See References in Text note below.
held in each of the 10 Federal regions every two years beginning on September 30, 1993.

CODIFICATION
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§8262c. Federal agency energy management training

(a) Energy management training

(1) Each executive department described under section 101 of title 5, the Environmental Protection Agency, the National Aeronautics and Space Administration, the General Services Administration, and the United States Postal Service shall establish and maintain a program to ensure that facility energy managers are trained energy managers. Such programs shall be managed—

(A) by the department or agency representative on the Task Force; or

(B) if a department or agency is not represented on the Task Force, by the designee of the head of such department or agency.

(2) Departments and agencies described in paragraph (1) shall encourage appropriate employees to participate in energy manager training courses. Employees may enroll in courses of study in the areas described in section 8262(3) of this title including, but not limited to, courses offered by—

(A) private or public educational institutions;

(B) Federal agencies; or

(C) professional associations.

(b) Report to Task Force

(1) Each department and agency described in subsection (a)(1) of this section shall, not later than one year after October 24, 1992, report to the Task Force the following information:

(A) Those individuals employed by such department or agency on October 24, 1992, who qualify as trained energy managers;

(B) The General Schedule (GS) or grade level at which each of the individuals described in subparagraph (A) is employed.

(C) The facility or facilities for which such individuals are responsible or otherwise stationed.

(2) The Secretary shall provide a summary of the reports described in paragraph (1) to the Congress as part of the first report submitted under section 8258 of this title after October 24, 1992.

(c) Requirements at Federal facilities

(1) Not later than one year after October 24, 1992, the departments and agencies described under subsection (a)(1) of this section shall upgrade their energy management capabilities by—

(A) designating facility energy supervisors;

(B) encouraging facility energy supervisors to become trained energy managers; and

(C) increasing the overall number of trained energy managers within such department or agency to a sufficient level to ensure effective implementation of this Act.

(2) Departments and agencies described in subsection (a)(1) of this section may hire trained energy managers to be facility energy supervisors. Trained energy managers, including those who are facility supervisors as well as other trained personnel, shall focus their efforts on improving energy efficiency in the following facilities—

(A) department or agency facilities identified as most costly to operate or most energy inefficient; or

(B) other facilities identified by the department or agency head as having significant energy savings potential.

(d) Annual report to Secretary and Congress

Each department and agency listed in subsection (a)(1) of this section shall report to the Secretary on the status and implementation of the requirements of this section. The Secretary shall include a summary of each such report in the annual report to Congress as required under section 8258(b) of this title.

REFERENCES IN TEXT
The General Schedule, referred to in subsec. (b)(1)(B), is set out under section 5332 of Title 5, Government Organization and Employees.

CODIFICATION
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§8262d. Energy audit teams

(a) Establishment

The Secretary shall assemble from existing personnel with appropriate expertise, and with particular utilization of the national laboratories, and make available to all Federal agencies, one or more energy audit teams which shall be equipped with instruments and other advanced equipment needed to perform energy audits of Federal facilities.

(b) Monitoring programs

The Secretary shall also assist in establishing, at each site that has utilized an energy audit team, a program for monitoring the implementation of energy efficiency improvements based upon energy audit team recommendations, and for recording the operating history of such improvements.

CODIFICATION
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.
§ 8262f. Federal energy cost accounting and management

(a) Guidelines

Not later than 120 days after October 24, 1992, the Director of the Office of Management and Budget, in cooperation with the Secretary, the Administrator of General Services, and the Secretary of Defense, shall establish guidelines to be employed by each Federal agency to assess accurate energy consumption for all buildings or facilities which the agency owns, operates, manages or leases, where the Government pays utilities separate from the lease and the Government operates the leased space. Such guidelines are to be used in reports required under section 8262 of this title. Each agency shall implement such guidelines no later than 120 days after their establishment. Each facility energy manager shall maintain energy consumption and energy cost records for review by the Inspector General, the Congress, and the general public.

(b) Contents of guidelines

Such guidelines shall include the establishment of a monitoring system to determine—

(1) which facilities are the most costly to operate when measured on an energy consumption per square foot basis or other relevant analytical basis;

(2) unusual or abnormal changes in energy consumption; and

(3) the accuracy of utility charges for electric and gas consumption.

(c) Federally leased space energy reporting requirement

The Administrator of General Services shall include, in each report submitted under section 8262a of this title, the estimated energy cost of leased buildings or space in which the Federal Government does not directly pay the utility bills.

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§ 8262f. Inspector General review and agency accountability

(a) Audit survey

Not later than 120 days after October 24, 1992, each Inspector General created to conduct and supervise audits and investigations relating to the programs and operations of the establishments listed in section 11(2) of the Inspector General Act of 1978 (5 U.S.C. App.), and the Chief Postal Inspector of the United States Postal Service, in accordance with section 8E(a)(1) as established by section 8E(a)(2) of the Inspector General Act Amendments of 1988 (Public Law 100–504) shall—

(1) identify agency compliance activities to meet the requirements of section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) and any other matters relevant to implementing the goals of such Act; and

(2) determine if the agency has the internal accounting mechanisms necessary to assess the accuracy and reliability of energy consumption and energy cost figures required under such section.

(b) President's Council on Integrity and Efficiency report to Congress

Not later than 150 days after October 24, 1992, the President's Council on Integrity and Efficiency shall submit a report to the Committee on Energy and Natural Resources and the Committee on Governmental Affairs of the Senate, the Committee on Energy and Commerce, the Committee on Government Operations, and the Committee on Public Works and Transportation of the House of Representatives, on the review conducted by the Inspector General of each agency under this section.

(c) Inspector General review

REFERENCES IN TEXT

Sections 2 and 11(2) of the Inspector General Act of 1978, referred to in subsecs. (a) and (c), are sections 2 and 11(2) of Pub. L. 95–452, which are set out in the Appendix to Title 5, Government Organization and Employees.

This subtitle, referred to in subsec. (c), is subtitle F (§§ 1511–1518) of title I of Pub. L. 95–619, Oct. 24, 1978, 92 Stat. 2483, which enacted this section and sections 8258a, 8258b, 8258c, 8258d, 8258e, and 8258f of this title, amended sections 8252 to 8256, 8258, 8259, 8260, and 8261 of this title and section 490 of former Title 40, Public Buildings, Property, and Works, enacted provisions set out as notes under section 8262 of this title and former section 1815 of Title 2, The Congress, and repealed provisions set out as a note under section 8223 of this title. For complete classification of this title and former section 1815 of Title 2, see Tables.

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

1 See References in Text note below.
§ 8262g. Procurement and identification of energy efficient products

(a) Procurement
The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, each shall undertake a program to include energy efficient products in carrying out their procurement and supply functions.

(b) Identification program
The Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, in consultation with the Secretary of Energy, shall issue guidelines to identify and designate those energy efficient products that offer significant potential savings, using, to the extent practicable, the life cycle cost methods and procedures developed under section 8254 of this title. The Secretary of Energy shall, to the extent necessary to carry out this section and after consultation with the aforementioned agency heads, provide estimates of the degree of relative energy efficiency of products.

(c) Guidelines
The Administrator of General Services, the Secretary of Energy, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall issue guidelines to encourage the acquisition and use by all Federal agencies of products identified pursuant to this section. The Secretary of Defense and the Director of the Defense Logistics Agency shall consider, and place emphasis on, the acquisition of such products as part of the Agency's ongoing review of military specifications.

(d) Report to Congress
Not later than December 31 of 1993 and thereafter as part of the report required under section 8258(b) of this title, the Secretary of Energy, in consultation with the Administrator for Federal Procurement Policy, the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency, shall report on the progress, status, activities, and results of the programs under subsections (a), (b), and (c) of this section. The report shall include—

(1) the types and functions of each product identified under subsection (b) of this section, and efforts undertaken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to encourage the acquisition and use of such products;

(2) the actions taken by the Administrator of General Services, the Secretary of Defense, and the Director of the Defense Logistics Agency to identify products under subsection (b) of this section, the barriers which inhibit implementation of identification of such products, and recommendations for legislative action, if necessary;

(3) progress on the development and issuance of guidelines under subsection (c) of this section;

(4) an indication of whether energy cost savings technologies identified by the Advanced Building Technology Council, under section 1701j–2(h) of title 12, have been used in the identification of products under subsection (b) of this section;

(5) an estimate of the potential cost savings to the Federal Government from acquiring products identified under subsection (b) of this section with respect to which energy is a significant component of life cycle cost, based on the quantities of such products that could be utilized throughout the Government; and

(6) the actual quantities acquired of products described in paragraph (5).

Codification
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

Amendments
1995—Subsec. (d). Pub. L. 104–66 substituted “thereafter as part of the report required under section 8258(b) of this title,” for “of each year thereafter,” in introductory provisions.

Termination of Reporting Requirements
For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which the 12th item on page 45 identifies a reporting provision which, as subsequently amended, is contained in subsec. (d) of this section), see section 3003 of Pub. L. 104–66, as amended, set
out as a note under section 1113 of Title 31, Money and Finance.

EXEMPLARY ORDER NO. 12845
Ex. Ord. No. 12845, Apr. 21, 1993, 58 F.R. 21887, which required Federal agencies to procure computer equipment that met EPA Energy Star requirements for energy efficiency, was revoked by Ex. Ord. No. 13123, § 604, June 3, 1999, 64 F.R. 30859, formerly set out as a note under section 8251 of this title.

§ 8262h. United States Postal Service energy regulations

(a) In general
The Postmaster General shall issue regulations to ensure the reliable and accurate accounting of energy consumption costs for all buildings or facilities which it owns, leases, operates, or manages. Such regulations shall—

(1) establish a monitoring system to determine which facilities are the most costly to operate on an energy consumption per square foot basis or other relevant analytical basis;
(2) identify unusual or abnormal changes in energy consumption; and
(3) check the accuracy of utility charges for electricity and gas consumption.

(b) Identification of energy efficiency products
The Postmaster General shall actively undertake a program to identify and procure energy efficiency products for use in its facilities. In carrying out this subsection, the Postmaster General shall, to the maximum extent practicable, incorporate energy efficient information available on Federal Supply Schedules maintained by the General Services Administration and the Defense Logistics Agency.

CODIFICATION
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

CHANGE OF NAME
Committee on Governmental Affairs of Senate changed to Committee on Homeland Security and Governmental Affairs of Senate, effective Jan. 4, 2005, by Senate Resolution No. 445, One Hundred Eighth Congress, Oct. 9, 2004.

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2. The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

ABOLITION OF HOUSE COMMITTEE ON POST OFFICE AND CIVIL SERVICE
Committee on Post Office and Civil Service of House of Representatives abolished by House Resolution No. 6, One Hundred Fourth Congress, Jan. 4, 1965. References to Committee on Post Office and Civil Service treated as referring to Committee on Government Reform and Oversight of House of Representatives, see section 1(b) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2. The Congress. Committee on Government Reform and Oversight of House of Representatives changed to Committee on Government Reform of House of Representatives by House Resolution No. 5, One Hundred Sixth Congress, Jan. 6, 1999. Committee on Government Reform of House of Representatives changed to Committee on Oversight and Government Reform of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

§ 8262i. United States Postal Service energy management report

Not later than one year after October 24, 1992, and not later than January 1 of each year thereafter, the Postmaster General shall submit a report to the Committee on Governmental Affairs and the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and the Committee on Post Office and Civil Service of the House of Representatives on the United States Postal Service’s building management program as it relates to energy efficiency. The report shall include, but not be limited to—

(1) a description of actions taken to reduce energy consumption;
(2) future plans to reduce energy consumption;
(3) an assessment of the success of the energy conservation program;
(4) a statement of energy costs incurred in operating and maintaining all United States Postal Service facilities; and
(5) the status of the energy efficient procurement program established under section 8262h of this title.

CODIFICATION
Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

(a) Energy management requirements for United States Postal Service
(1) Energy management requirements for postal facilities
(1) The Postmaster General shall, to the maximum extent practicable, ensure that each United States Postal Service facility meets the energy management requirements for Federal
buildings and agencies specified in section 8253 of this title.

(2) The Postmaster General may exclude from the requirements of such section any facility or collection of facilities, and the associated energy consumption and gross square footage if the Postmaster General finds that compliance with the requirements of such section would be impracticable. A finding of impracticability shall be based on the energy intensiveness of activities carried out in such facility or collection of facilities, the type and amount of energy consumed, or the technical feasibility of making the desired changes. The Postmaster General shall identify and list in the report required under section 8262i of this title the facilities designated by it for such exclusion.

(b) Implementation steps

In carrying subsection (a) of this section, the Postmaster General shall—

(1) not later than 1 year after October 24, 1992, prepare or update, as appropriate, a plan (which may be submitted as part of the first report submitted under section 8262i of this title)—

(A) describing how this section will be implemented;

(B) designating personnel primarily responsible for achieving the requirements of this section; and

(C) identifying high priority projects;

(2) perform energy surveys of United States Postal Service facilities as necessary to achieve the requirements of this section;

(3) install those energy conservation measures that will attain the requirements of this section in a cost-effective manner as defined in section 8254 of this title; and

(4) ensure that the operation and maintenance procedures applied under this section are continued.

§ 8262k. Government contract incentives

(a) Establishment of criteria

Each agency, in consultation with the Federal Acquisition Regulatory Council, shall establish criteria for the improvement of energy efficiency in Federal facilities operated by Federal Government contractors or subcontractors.

(b) Purpose of criteria

The criteria established under subsection (a) of this section shall be used to encourage Federal contractors, and their subcontractors, which manage and operate federally-owned facilities, to adopt and utilize energy conservation measures designed to reduce energy costs in Government-owned and contractor-operated facilities and which are ultimately borne by the Federal Government.

Codification

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

PART C—FEDERAL PHOTOVOLTAIC UTILIZATION

§ 8271. "Federal facility" and "Secretary" defined

For purposes of this part—

(1) The term "Federal facility" means any building, structure, or fixture or part thereof which is owned by the United States or any Federal agency or which is held by the United States or any Federal agency under a lease-acquisition agreement under which the United States or a Federal agency will receive fee simple title under the terms of such agreement without further negotiation. Such term also applies to facilities related to programs administered by Federal agencies.

Amendments

Short Title

For short title of this part as the "Federal Photovoltaic Utilization Act", see section 561 of Pub. L. 95–619, set out as a note under section 8201 of this title.

§ 8272. Photovoltaic energy program

There is hereby established a photovoltaic energy commercialization program for the accelerated procurement and installation of photovoltaic solar electric systems for electric production in Federal facilities.

§ 8273. Purpose of program

The purpose of the program established by section 8272 of this title is to—

(1) accelerate the growth of a commercially viable and competitive industry to make photovoltaic solar electric systems available to the general public as an option in order to reduce national consumption of fossil fuel;

(2) reduce fossil fuel costs to the Federal Government;

(3) stimulate the general use within the Federal Government of methods for the minimization of life cycle costs; and

(4) develop performance data on the program established by section 8272 of this title.

§ 8274. Acquisition of systems

The program established by section 8272 of this title shall provide for the acquisition of photovoltaic solar electric systems and associated storage capability by the Secretary for their use by Federal agencies, and for the acquisition of
such systems and associated capability by Federal agencies for their own use in cases where the authority to make such acquisition has been delegated to the agency involved by the Secretary. The acquisition of photovoltaic solar electric systems shall be at an annual level substantial enough to allow use of low-cost production techniques by suppliers of such systems. The Secretary (or other Federal agency acting under delegation from the Secretary) is authorized to make such acquisitions through the use of multiyear contracts. Authority under this part to enter into acquisition contracts shall be only to the extent as may be provided in advance in appropriation Acts.

AMENDMENTS
1980—Pub. L. 96–294 inserted provisions relating to acquisition of systems and associated capability by Federal agencies and inserted “(or other Federal agency acting under delegation from the Secretary)”.

§ 8275. Administration
The Secretary shall administer the program established under section 8272 of this title and shall—

(1) consult with the Secretary of Defense to insure that the installation and purchase of photovoltaic solar electric systems pursuant to this part shall not interfere with defense-related activities;

(2) prescribe such requirements as may be appropriate to monitor and assess the performance and operation of photovoltaic electric systems installed pursuant to this part; and

(3) report annually to the Congress on the status of the program.

Notwithstanding any other provision of law, the Secretary shall not be subject to the requirements of section 553 of title 5, in the performance of his functions under this part.

AMENDMENTS
1980—Pub. L. 96–294 inserted provisions relating to inapplicability of section 553 of title 5 and substituted “requirements” for “rules and regulations” in par. (2).

TERMINATION OF REPORTING REQUIREMENTS
For termination, effective May 15, 2000, of the reporting provision in par. (3) of this section, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 3rd item on page 87 of House Document No. 103–7.

§ 8276. System evaluation and purchase program
(a) Program
The Secretary shall establish, within 60 days after November 9, 1978, a photovoltaic systems evaluation and purchase program to provide such systems as are required by the Federal agencies to carry out this part. In acquiring photovoltaic solar electric systems under this part, the Secretary (or other Federal agency acting under delegation from the Secretary) shall insure that such systems reflect to the maximum extent practicable the most advanced and reliable technologies and shall schedule purchases in a manner which will stimulate the early development of a permanent low-cost private photovoltaic production capability in the United States, and to stimulate the private sector market for photovoltaic power systems. The Secretary and other Federal agencies acting under delegation from the Secretary shall, subject to the availability of appropriated funds, procure not more than 30 megawatts of photovoltaic solar electric systems during fiscal years ending September 30, 1979, September 30, 1980, and September 30, 1981.

(b) Other procurement
Nothing in this part shall preclude any Federal agency from directly procuring a photovoltaic solar electric system (in lieu of obtaining one under the program under subsection (a) of this section), except that any such Federal agency shall consult with the Secretary before procuring such a system.

AMENDMENTS

§ 8277. Advisory committee
(a) Establishment
There is hereby established an advisory committee to assist the Secretary in the establishment and conduct of the programs established under this part.

(b) Membership
Such committee shall be composed of the Secretary of Defense, the Secretary of Housing and Urban Development, the Administrator of the National Aeronautics and Space Administration, the Administrator of the General Services Administration, the Secretary of Transportation, the Administrator of the Small Business Administration, the chairman of the Federal Trade Commission, the Postmaster General, and such other persons as the Secretary deems necessary. The Secretary shall appoint such other nongovernmental persons to the extent necessary to assure that the membership of the committee will be fairly balanced in terms of the point of view represented and the functions to be performed by the committee.

(c) Termination
The advisory committee shall terminate October 1, 1981.

§ 8278. Authorization of appropriations
For the purposes of this part, there is authorized to be appropriated to the Secretary not to exceed $98,000,000 for the period beginning October 1, 1978, and ending September 30, 1981.
§ 8279. National Action Plan for Demand Response

(a) National Assessment and report

The Federal Energy Regulatory Commission ("Commission") shall conduct a National Assessment of Demand Response. The Commission shall, within 18 months of December 19, 2007, submit a report to Congress that includes each of the following:

1. Estimation of nationwide demand response potential in 5 and 10 year horizons, including data on a State-by-State basis, and a methodology for updates of such estimates on an annual basis.
2. Estimation of how much of this potential can be achieved within 5 and 10 years after December 19, 2007, accompanied by specific policy recommendations that if implemented can achieve the estimated potential. Such recommendations shall include options for funding and/or incentives for the development of demand response resources.
3. The Commission shall further note any barriers to demand response programs offering flexible, non-discriminatory, and fairly compensatory terms for the services and benefits made available, and shall provide recommendations for overcoming such barriers.
4. The Commission shall seek to take advantage of preexisting research and ongoing work, and shall insure that there is no duplication of effort.

(b) National Action Plan on Demand Response

The Commission shall further develop a National Action Plan on Demand Response, soliciting and accepting input and participation from a broad range of industry stakeholders, State regulatory utility commissioners, and non-governmental groups. The Commission shall seek consensus where possible, and decide on optimum solutions to issues that defy consensus. Such Plan shall be completed within 1 year after the completion of the National Assessment of Demand Response, and shall meet each of the following objectives:

1. Identification of requirements for technical assistance to States to allow them to maximize the amount of demand response resources that can be developed and deployed.
2. Design and identification of requirements for implementation of a national communications program that includes broad-based customer education and support.
3. Development or identification of analytical tools, information, model regulatory provisions, model contracts, and other support materials for use by customers, States, utilities and demand response providers.

(c) Implementation of Plan

Upon completion, the National Action Plan on Demand Response shall be published, together with any favorable and dissenting comments submitted by participants in its preparation. Six months after publication, the Commission, together with the Secretary of Energy, shall submit to Congress a proposal to implement the Action Plan, including specific proposed assignments of responsibility, proposed budget amounts, and any agreements secured for participation from State and other participants.

(d) Authorization

There are authorized to be appropriated to the Commission to carry out this section not more than $10,000,000 for each of the fiscal years 2008, 2009, and 2010.

(1) Estimation of nationwide demand response potential in 5 and 10 year horizons, including data on a State-by-State basis, and a methodology for updates of such estimates on an annual basis.
(2) Estimation of how much of this potential can be achieved within 5 and 10 years after December 19, 2007, accompanied by specific policy recommendations that if implemented can achieve the estimated potential. Such recommendations shall include options for funding and/or incentives for the development of demand response resources.
(3) The Commission shall further note any barriers to demand response programs offering flexible, non-discriminatory, and fairly compensatory terms for the services and benefits made available, and shall provide recommendations for overcoming such barriers.
(4) The Commission shall seek to take advantage of preexisting research and ongoing work, and shall insure that there is no duplication of effort.

(b) National Action Plan on Demand Response

The Commission shall further develop a National Action Plan on Demand Response, soliciting and accepting input and participation from a broad range of industry stakeholders, State regulatory utility commissioners, and non-governmental groups. The Commission shall seek consensus where possible, and decide on optimum solutions to issues that defy consensus. Such Plan shall be completed within 1 year after the completion of the National Assessment of Demand Response, and shall meet each of the following objectives:

1. Identification of requirements for technical assistance to States to allow them to maximize the amount of demand response resources that can be developed and deployed.
2. Design and identification of requirements for implementation of a national communications program that includes broad-based customer education and support.
3. Development or identification of analytical tools, information, model regulatory provisions, model contracts, and other support materials for use by customers, States, utilities and demand response providers.

(c) Implementation of Plan

Upon completion, the National Action Plan on Demand Response shall be published, together with any favorable and dissenting comments submitted by participants in its preparation. Six months after publication, the Commission, together with the Secretary of Energy, shall submit to Congress a proposal to implement the Action Plan, including specific proposed assignments of responsibility, proposed budget amounts, and any agreements secured for participation from State and other participants.

(d) Authorization

There are authorized to be appropriated to the Commission to carry out this section not more than $10,000,000 for each of the fiscal years 2008, 2009, and 2010.

(1) Estimation of nationwide demand response potential in 5 and 10 year horizons, including data on a State-by-State basis, and a methodology for updates of such estimates on an annual basis.
(2) Estimation of how much of this potential can be achieved within 5 and 10 years after December 19, 2007, accompanied by specific policy recommendations that if implemented can achieve the estimated potential. Such recommendations shall include options for funding and/or incentives for the development of demand response resources.
(3) The Commission shall further note any barriers to demand response programs offering flexible, non-discriminatory, and fairly compensatory terms for the services and benefits made available, and shall provide recommendations for overcoming such barriers.
(4) The Commission shall seek to take advantage of preexisting research and ongoing work, and shall insure that there is no duplication of effort.

PART C—UTILITY PROGRAMS

PART D—FEDERAL IMPLEMENTATION

SUBCHAPTER V—ENERGY AUDITOR TRAINING AND CERTIFICATION

CODIFICATION

This subchapter was enacted as part of the Energy Security Act, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

§8285. Purpose

It is the purpose of this subchapter to encourage the training and certification of individuals to conduct energy audits for residential and commercial buildings in order to serve the various private and public needs of the Nation for energy audits.

§8285a. Definitions

For the purposes of this subchapter—

(1) the term “Governor” means the chief executive officer of each State, including the Mayor of the District of Columbia;

(2) the term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands;

(3) the term “energy audit” means an inspection as described in section 8216(b)(1)(A) of this title, or an energy audit as defined in section 8281(b)(7) of this title, which in addition may provide information on the utilization of renewable resources and may make energy-related improvements in the building; and

(4) the term “Secretary” means the Secretary of Energy.

§8286. Consensus on factors and data for energy conservation standards

The Secretary of Energy shall assure that within 6 months after June 30, 1980, the Secretary of Energy, the Secretary of Housing and Urban Development, the Secretary of Agriculture, the Secretary of Health and Human Services, the Secretary of Defense, the Administrator of the General Services Administration, and the head of any other agency responsible for
developing energy conservation standards for new or existing residential, commercial, or agricultural buildings shall reach a consensus regarding factors and data used to develop such standards. This consensus shall apply to, but not be limited to—

1. fuel price projections;
2. discount rates;
3. inflation rates;
4. climatic conditions and zones; and
5. the cost and energy saving characteristics of construction materials.

§ 8286a. Use of factors and data

Factors and data consented to pursuant to section 8286 of this title may be revised and agreed to by a consensus of the heads of the various Federal agencies involved. Such factors and data shall be used by all Federal agencies in establishing and revising various energy conservation standards used by such agencies, except that other factors and data may be used with respect to the standards applicable to any program if—

1. the other factors and data are approved by the Secretary of Energy solely on the basis that such other factors and data are critical to meet the unique needs of the program concerned;
2. using the consented to factors and data would cause a violation of an express provision of law; or
3. statutory requirements or responsibilities require a modification of the consented to factors and data.

§ 8286b. Omitted

CODIFICATION

Section, Pub. L. 96–294, title V, § 597, June 30, 1980, 94 Stat. 762, which required the President (who delegated the duty to the Secretary of Energy by Memorandum of June 23, 1983, 38 F.R. 94819) to report annually to Congress on activities carried out under this subchapter and on other efforts to coordinate Federal energy conservation programs, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 15th item on page 19 of House Document No. 103–7.

SUBCHAPTER VII—ENERGY SAVINGS PERFORMANCE CONTRACTS

§ 8287. Authority to enter into contracts

(a) In general

1. The head of a Federal agency may enter into contracts under this subchapter solely for the purpose of achieving energy savings and benefits ancillary to that purpose. Each such contract may, notwithstanding any other provision of law, be for a period not to exceed 25 years. Such contract shall provide that the contractor shall incur costs of implementing energy savings measures, including at least the costs (if any) incurred in making energy audits, acquiring and installing equipment, and training personnel, in exchange for a share of any energy savings directly resulting from implementation of such measures during the term of the contract.

2. (A) Contracts under this subchapter shall be energy savings performance contracts and shall require an annual energy audit and specify the terms and conditions of any Government payments and performance guarantees. Any such performance guarantee shall provide that the contractor is responsible for maintenance and repair services for any energy related equipment, including computer software systems.

(B) Aggregate annual payments by an agency to both utilities and energy savings performance contractors, under an energy savings performance contract, may not exceed the amount that the agency would have paid for utilities without an energy savings performance contract (as estimated through the procedures developed pursuant to this section) during contract years.

(C) Federal agencies may incur obligations pursuant to such contracts to finance energy conservation measures provided guaranteed savings exceed the debt service requirements.

(D) A Federal agency may enter into a multi-year contract under this subchapter for a period not to exceed 25 years beginning on the date of delivery order, without funding of cancellation charges before cancellation, if—

(i) such contract was awarded in a competitive manner pursuant to subsection (b)(2) of this section, using procedures and methods established under this subchapter;

(ii) funds are available and adequate for payment of the costs of such contract for the first fiscal year; and

(iii) such contract is governed by part 17.1 of the Federal Acquisition Regulation promulgated under section 1303 of title 41 or the applicable rules promulgated under this subchapter.

(E) FUNDING OPTIONS.—In carrying out a contract under this subchapter, a Federal agency may use any combination of—

(i) appropriated funds; and

(ii) private financing under an energy savings performance contract.

(F) PROMOTION OF CONTRACTS.—In carrying out this section, a Federal agency shall not—

(i) establish a Federal agency policy that limits the maximum contract term under subparagraph (D) to a period shorter than 25 years; or

(ii) limit the total amount of obligations under energy savings performance contracts or other private financing of energy savings measures.

(G) MEASUREMENT AND VERIFICATION REQUIREMENTS FOR PRIVATE FINANCING.—

(i) IN GENERAL.—In the case of energy savings performance contracts, the evaluations and savings measurement and verification required under paragraphs (2) and (4) of section 8253(f) of this title shall be used by a Federal agency to meet the requirements for the need for energy audits, calculation of energy sav-
ings, and any other evaluation of costs and savings needed to implement the guarantee of savings under this section.

(b) Implementation

(1)(A) The Secretary, with the concurrence of the Federal Acquisition Regulatory Council established under section 1302(a) of title 41, not later than 180 days after October 24, 1992, shall, by rule, establish appropriate procedures and methods for use by Federal agencies to select, monitor, and terminate contracts with energy service contractors in accordance with laws governing Federal procurement that will achieve the intent of this section in a cost-effective manner. In developing such procedures and methods, the Secretary, with the concurrence of the Federal Acquisition Regulatory Council, shall determine which existing regulations are inconsistent with the intent of this section and shall formulate substitute regulations consistent with laws governing Federal procurement.

(B) The procedures and methods established pursuant to subparagraph (A) shall be the procedures and contracting methods for selection, by an agency, of a contractor to provide energy savings performance services. Such procedures and methods shall provide for the calculation of energy savings based on sound engineering and financial practices.

(2) The procedures and methods established pursuant to paragraph (1)(A) shall—

(A) allow the Secretary to—

(i) request statements of qualifications, which shall, at a minimum, include prior experience and capabilities of contractors to perform the proposed types of energy savings services and financial and performance information, from firms engaged in providing energy savings services; and

(ii) from the statements received, designate and prepare a list, with an update at least annually, of those firms that are qualified to provide energy savings services;

(B) require each agency to use the list prepared by the Secretary pursuant to subparagraph (A) unless the agency elects to develop an agency list of firms qualified to provide energy savings performance services using the same selection procedures and methods as are required of the Secretary in preparing such lists; and

(C) allow the head of each agency to—

(i) select from such firms the most qualified firm to provide energy savings services based on technical and price proposals and any other relevant information;

(ii) select from such firms the most qualified firm to provide energy savings services based on technical and price proposals and any other relevant information;

(iii) permit receipt of unsolicited proposals for energy savings performance contracting services from a firm that such agency has determined is qualified to provide such services under the procedures established pursuant to paragraph (1)(A), and require agency facility managers to place a notice in the Commerce Business Daily announcing they have received such a proposal and invite other similarly qualified firms to submit competing proposals; and

(iv) enter into an energy savings performance contract with a firm qualified under clause (iii), consistent with the procedures and methods established pursuant to paragraph (1)(A).

(3) A firm not designated as qualified to provide energy savings services under paragraph (2)(A)(i) or paragraph (2)(B) may request a review of such decision to be conducted in accordance with procedures to be developed by the board of contract appeals of the General Services Administration.

(c) Task or delivery orders

(1) The head of a Federal agency may issue a task or delivery order under an energy savings performance contract by—

(A) notifying all contractors that have received an award under such contract that the agency proposes to discuss energy savings performance services for some or all of its facilities and, following a reasonable period of time to provide a proposal in response to the notice, soliciting from such contractors the submission of expressions of interest in, and contractor qualifications for, performing site surveys or investigations and feasibility designs and studies, and including in the notice summary information concerning energy use for any facilities that the agency has specific interest in including in such task or delivery order;

(B) reviewing all expressions of interest and qualifications submitted pursuant to the notice under subparagraph (A);

(C) selecting two or more contractors (from among those reviewed under subparagraph (B)) to conduct discussions concerning the contractors’ respective qualifications to implement potential energy conservation measures, including—

(i) requesting references and specific detailed examples with respect to similar efforts and the resulting energy savings of similar efforts; and

(ii) requesting an explanation of how such similar efforts relate to the scope and content of the task or delivery order concerned;

(D) selecting and authorizing—

(i) more than one contractor (from among those selected under subparagraph (C)) to conduct site surveys, investigations, feasibility designs and studies, or similar assessments for the energy savings performance contract services (or for discrete portions of such services), for the purpose of al-
lowing each such contractor to submit a firm, fixed-price proposal to implement specific energy conservation measures; or
(ii) one contractor (from among those selected under subparagraph (C) to conduct a site survey, investigation, feasibility design and study, or similar assessment for the purpose of allowing the contractor to submit a firm, fixed-price proposal to implement specific energy conservation measures;

(E) providing a debriefing to any contractor not selected under subparagraph (D);

(F) negotiating a task or delivery order for energy savings performance contracting services with the contractor or contractors selected under subparagraph (D) based on the energy conservation measures identified; and

(G) issuing a task or delivery order for energy savings performance contracting services to such contractor or contractors.

(2) The issuance of a task or delivery order for energy savings performance contracting services pursuant to paragraph (1) is deemed to satisfy the task and delivery order competition requirements in section 2304c(d) of title 10 and section 4106(d) of title 41.

(3) The Secretary may issue guidance as necessary to agencies issuing task or delivery orders pursuant to paragraph (1).

REFERENCES IN TEXT

IFICATION

The following substitutions were made on authority of Pub. L. 113–50, §6(c), Jan. 4, 2014, 124 Stat. 3854, which Act enacted Title 41, Public Contracts:

AMENDMENTS

1998—Subsec. (c). Pub. L. 105–388 substituted “on October 1, 2003” for “five years after the date procedures and methods are established under subsection (b) of this section”.

1996—Subsec. (b)(3). Pub. L. 104–106 struck out at end “Procedures developed by the board of contract appeals under this paragraph shall be substantially equivalent to procedures established under section 759(f) of title 40.”

Subsec. (c). Pub. L. 104–316 struck out par. (1) designation before “The authority to” and struck out par. (2) which required Comptroller General of the United States to report annually for five years on implementation of this section, including an assessment of various energy issues.

1992—Pub. L. 102–486 inserted subsec. (a) designation and heading, designated existing provisions as par. (1), and added par. (2) and subsecs. (b) and (c).

EFFECTIVE DATE OF 2011 AMENDMENT

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 2913 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

EFFECTIVE DATE OF 1996 AMENDMENT

ARCHITECT OF THE CAPITOL AS AGENCY ELIGIBLE TO DEVELOP LIST OF FIRMS QUALIFIED TO PROVIDE ENERGY SAVING SERVICES AND AS AGENCY HEAD SELECTING FROM LIST

REVIEW

after the date of the enactment of this Act [Oct. 28, 2004], the Secretary of Energy shall complete a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility and effectiveness, including audits and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, including the identification of additional qualified contractors, and energy efficiency services covered. The Secretary shall report these findings to Congress and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority.”

**EXTENSION OF AUTHORITY**

**ENERGY EFFICIENCY INCENTIVE**

Pub. L. 100–456, div. A, title III, §331, Nov. 29, 1989, 103 Stat. 1417, provided that: “(a) ENERGY CONSERVATION INCENTIVE.—In order to provide additional incentive for the Secretary of a military department to enter into contracts under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), the Secretary may use the energy cost savings realized by the United States during the first five years under any such contract in the manner provided in subsection (b). The amount of savings available for use under subsection (b) shall be determined as provided in subsection (c) and shall remain available for obligation until expended.

(b) AUTHORIZED USES OF SAVINGS.—The energy cost savings realized by the United States in each of the first five years under a contract may be used as follows:

(1) The energy savings resulting from the acquisition of energy conserving measures for military installations, and such measures may be in addition to any such energy conserving measures acquired for military installations under contracts entered into under title VIII of the National Energy Conservation Policy Act.

(2) One-half of the amount of such savings may be used for improvement of facilities; or

(c) DETERMINATION OF AMOUNT OF SAVINGS.—Not more than 90 days after the end of each of the first five years during which energy savings measures have been in operation under a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act, the Secretary of the military department concerned shall determine the amount of energy cost savings realized by the United States under the terms of the contract during that year by reason of the energy savings measures acquired and installed at that installation pursuant to that contract.”

**§ 8287a. Payment of costs**

Any amount paid by a Federal agency pursuant to any contract entered into under this subchapter may be paid only from funds appropriated or otherwise made available to the agency for fiscal year 1986 or any fiscal year thereafter for the payment of energy, water, or wastewater treatment expenses (and related operation and maintenance expenses).

**AMENDMENTS**

2004—Pub. L. 108–375 inserted ‘‘water, or wastewater treatment’’ after ‘‘energy of power’’.

**§ 8287b. Reports**

Each Federal agency shall periodically furnish the Secretary of Energy with full and complete information on its activities under this subchapter, and the Secretary shall include in the report submitted to Congress under section 8260 of this title a description of the progress made by each Federal agency in—

(1) including the authority provided by this subchapter in its contracting practices; and

(2) achieving energy savings under contracts entered into under this subchapter.

**REFERENCES IN TEXT**

Section 8260 of this title, referred to in text, was omitted in the general revision of part B (§8251 et seq.) of subchapter III of this chapter by Pub. L. 100–456, §2(a), Nov. 5, 1988, 102 Stat. 3185.

**§ 8287c. Definitions**

For purposes of this subchapter, the following definitions apply:

(1) The term ‘‘Federal agency’’ means each authority of the Government of the United States, whether or not it is within or subject to review by another agency.

(2) The term ‘‘energy savings’’ means—

(A) a reduction in the cost of energy, water, or wastewater treatment, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—

(i) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

(ii) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

(iii) the increased efficient use of existing water sources in either interior or exterior applications;

(b) any energy savings performance contract entered into by a Federal agency that is—

(1) a reduced cost, or incremental cost, contract entered into under the Energy Savings Performance Contract Program established by the Department of Energy; or

(2) a contract entered into by a Federal agency under the Army’s Base Energy Savings Performance Contract Program established by the Department of the Army; or

(3) a contract entered into by a Federal agency under the Energy Savings Performance Contract Program established by the Department of Defense.

[c] [See References in Text note below.]
(B) the increased efficient use of an existing energy source by cogeneration or heat recovery;

(C) if otherwise authorized by Federal or State law (including regulations), the sale or transfer of electrical or thermal energy generated on-site from renewable energy sources or cogeneration, but in excess of Federal needs, to utilities or non-Federal energy users; and

(D) the increased efficient use of existing water sources in interior or exterior applications.

(3) The terms ‘‘energy savings contract’’ and ‘‘energy savings performance contract’’ mean a contract that provides for the performance of services for the design, acquisition, installation, testing, and, where appropriate, operation, maintenance, and repair, of an identified energy or water conservation measure or series of measures at 1 or more locations. Such contracts shall, with respect to an agency facility that is a public building (as such term is defined in section 3301 of title 40), be in compliance with the prospectus requirements and procedures of section 3307 of title 40.

(4) The term ‘‘energy or water conservation measure’’ means—

(A) an energy conservation measure, as defined in section 8259 of this title; or

(B) a water conservation measure that improves the efficiency of water use, is lifecycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.

Amendments

2007—Par. (2). Pub. L. 110–140 substituted ‘‘means—’’ for ‘‘means’’ in introductory provisions, inserted subpar. (A) designation before ‘‘a reduction’’, redesignated former subpars. (A) to (C) as cls. (1) to (iii) of subpar. (A), respectively, and added subpars. (B) to (D).

2004—Par. (2). Pub. L. 108–375, §1090(c), amended par. (2) generally. Prior to amendment, par. (2) read as follows: ‘‘The term ‘Federal agency’ means an agency defined in section 551(1) of title 5.’’

1992—Pub. L. 102–486, §155(b)(1), substituted ‘‘subchapter, the following definitions apply:’’ for ‘‘subchapter—’’ in introductory provisions.

Par. (1). Pub. L. 102–486, §155(b)(2), substituted ‘‘The’’ for ‘‘the’’ and a period for ‘‘, and’’ at end.

Par. (2). Pub. L. 102–486, §155(b)(3), substituted ‘‘The term’’ for ‘‘the term’’.

Par. (3). Pub. L. 102–486, §155(b)(4), added pars. (3) and (4).

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§8287d. Assistance to Federal agencies in achieving energy efficiency in Federal facilities and operations

The Secretary in fiscal year 1999 and thereafter, shall continue the process begun in fiscal year 1998 of accepting funds from other Federal agencies in return for assisting agencies in achieving energy efficiency in Federal facilities and operations by the use of privately financed, energy savings performance contracts and other private financing mechanisms. The funds may be provided after agencies begin to realize energy cost savings; may be retained by the Secretary until expended; and may be used only for the purpose of assisting Federal agencies in achieving greater energy efficiency, water conservation and use of renewable energy by means of privately financed mechanisms, including energy savings performance contracts and utility incentive programs. These recovered funds will continue to be used to administer even greater energy efficiency, water conservation and use of renewable energy by means of privately financed mechanisms such as utility efficiency service contracts and energy savings performance contracts. The recoverable funds will be used for all necessary program expenses, including contractor support and resources needed, to achieve overall Federal energy management program objectives for greater energy savings. Any such privately financed contracts shall meet the provisions of the Energy Policy Act of 1992, Public Law 102–486 regarding energy savings performance contracts and utility incentive programs.

CODIFICATION

Section was enacted as part of Department of the Interior and Related Agencies Appropriations Act, 1999, and also as part of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999, and not as part of the National Energy Conservation Policy Act which comprises this chapter.

SIMILAR PROVISIONS

Similar provisions were contained in the following prior appropriation act:

CHAPTER 92—POWERPLANT AND INDUSTRIAL FUEL USE

SUBCHAPTER I—GENERAL PROVISIONS

Sec. 8301. Findings; statement of purposes.
8302. Definitions.
8303. Territorial application.

SUBCHAPTER II—NEW FACILITIES

PART A—PROHIBITIONS

8311. Coal capability of new electric powerplants; certification of compliance.
8312. Repealed.

PART B—EXEMPTIONS

8321. Temporary exemptions.
8322. Permanent exemptions.
8323. General requirements for exemptions.
8324. Terms and conditions; compliance plans.

SUBCHAPTER III—EXISTING FACILITIES

PART A—PROHIBITIONS

8341. Existing electric powerplants.
8342. Repealed.
8343. Rules relating to case-by-case and category prohibitions.

PART B—EXEMPTIONS

8351. Temporary exemptions.
8352. Permanent exemptions.
8353. General requirements for exemptions.
8354. Terms and conditions; compliance plans.

SUBCHAPTER IV—ADDITIONAL PROHIBITIONS; EMERGENCY AUTHORITIES

8371. Repealed
8372. Repealed
8373. Conservation in Federal facilities, contracts, and financial assistance programs.
8374. Emergency authorities.
8375. Repealed.

SUBCHAPTER V—SYSTEM COMPLIANCE OPTION

8391. Repealed.

SUBCHAPTER VI—FINANCIAL ASSISTANCE

8401. Assistance to areas impacted by increased coal or uranium production.
8401a. “Local government” defined.
8402. Loans to assist powerplant acquisitions of air pollution control equipment.

SUBCHAPTER VII—ADMINISTRATION AND ENFORCEMENT

PART A—PROCEDURES

8411. Administrative procedures.

§ 8301

(a) Findings

The Congress finds that—
(1) the protection of public health and welfare, the preservation of national security, and the regulation of interstate commerce require the establishment of a program for the expended use, consistent with applicable environmental requirements, of coal and other alternate fuels as primary energy sources for existing and new electric powerplants; and
(2) the purposes of this chapter are furthered in cases in which coal or other alternate fuels are used by electric powerplants, consistent with environmental requirements, as primary energy sources in lieu of natural gas or petroleum.

(b) Statement of purposes

The purpose of this chapter, which shall be carried out in a manner consistent with applicable environmental requirements, are—
(1) to reduce the importation of petroleum and increase the Nation’s capability to use indigenous energy resources of the United

1 So in original. Probably should be “expanded”.
2 So in original. Probably should be “purposes”.

8412. Judicial review.
8421. Information.
8422. Compliance report.

PART C—ENFORCEMENT

8431. Notice of violation; other general provisions.
8432. Criminal penalties.
8433. Civil penalties.
8434. Injunctions and other equitable relief.
8435. Citizens suits.

PART D—PRESERVATION OF CONTRACTUAL RIGHTS

8441. Preservation of contractual interest.

PART E—STUDIES

8451. National coal policy study.
8452. Repealed.
8453. Impact on employees.
8454. Study of compliance problem of small electric utility systems.
8455. Repealed.
8456. Socioeconomic impacts of increased coal production and other energy development.
8457. Use of petroleum and natural gas in combustors.

PART F—APPROPRIATIONS AUTHORIZATION

8461. Authorization of appropriations.

PART G—COORDINATION WITH OTHER PROVISIONS OF LAW

8471. Effect on environmental requirements.
8472. Effect of orders under section 792 of title 15.
8473. Environmental impact statements under section 4332 of this title.

SUBCHAPTER VIII—MISCELLANEOUS PROVISIONS

8481. Repealed.
8483. Submission of reports.
8484. Electric utility conservation plan.
States to the extent such reduction and use further the goal of national energy self-sufficiency and otherwise are in the best interests of the United States;

(2) to encourage and foster the greater use of coal and other alternate fuels, in lieu of natural gas and petroleum, as a primary energy source;

(3) to the extent permitted by this chapter, to encourage the use of synthetic gas derived from coal or other alternate fuels;

(4) to encourage the rehabilitation and upgrading of railroad service and equipment necessary to transport coal to regions or States which can use coal in greater quantities;

(5) to encourage the modernization or replacement of existing and new electric powerplants which utilize natural gas or petroleum as a primary energy source and which cannot utilize coal or other alternate fuels where to do so furthers the conservation of natural gas and petroleum;

(6) to require that existing and new electric powerplants which utilize natural gas, petroleum, or coal or other alternate fuels pursuant to this chapter comply with applicable environmental requirements;

(7) to insure that all Federal agencies utilize their authorities fully in furtherance of the purposes of this chapter by carrying out programs designed to prohibit or discourage the use of natural gas and petroleum as a primary energy source and by taking such actions as lie within their authorities to maximize the efficient use of energy and conserve natural gas and petroleum in programs funded or carried out by such agencies;

(8) to insure that adequate supplies of natural gas are available for essential agricultural uses (including crop drying, seed drying, irrigation, fertilizer production, and production of essential fertilizer ingredients for such uses);

(9) to reduce the vulnerability of the United States to energy supply interruptions; and

(10) to regulate interstate commerce.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

AMENDMENTS

1987—Subsec. (a)(1), (2). Pub. L. 100–42, §1(c)(1)(A), struck out "and major fuel-burning installations" after "electric powerplants".

Subsec. (b)(2). Pub. L. 100–42, §1(c)(1)(B), redesignated former par. (3) as (2) and struck out former par. (2) relating to conservation of natural gas and petroleum for uses for which there are no alternatives.

Subsec. (b)(3), (4). Pub. L. 100–42, §1(c)(1)(B), redesignated pars. (4) and (5) as (3) and (4), respectively. Former par. (3) redesignated (2).

Subsec. (b)(5). Pub. L. 100–42, §1(c)(1), redesignated par. (7) as (5) and struck out "and major fuel-burning installations" after "electric powerplants".

Former par. (5) redesignated (4).

Subsec. (b)(6). Pub. L. 100–42, §1(c)(1), redesignated par. (8) as (6) and struck out "and major fuel-burning installations" after "electric powerplants".

EFFECTIVE DATE

Section 901 of Pub. L. 95–620 provided that: "Unless otherwise provided in this Act [see Short Title note set out below] the provisions of this Act shall take effect 180 days after the date of the enactment of this Act [Nov. 9, 1978], except that the Secretary may issue rules pursuant to such provisions at any time after such date of enactment, which rules may take effect no earlier than 180 days after such date of enactment."

SHORT TITLE

Section 101(a) of Pub. L. 95–620 provided that: "This Act [enacting this chapter, amending sections 6211 and 7183 of this title, section 796 of Title 15, Commerce and Trade, section 1202 of Title 19, Customs Duties, sections 821, 822 and 825 of Title 45, Railroads, and section 26b of former Title 49, Transportation, and enacting provisions set out as notes under this section and section 822 of Title 45] may be cited as the 'Powerplant and Industrial Fuel Use Act of 1978'."

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AND TEMPORARY EXEMPTION ISSUED UNDER SECTION 8321(d) AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

Section 902 of Pub. L. 95–620 provided that:

"(a) EXEMPTIONS IN THE CASE OF CERTAIN POWERPLANTS.—In the case of—

"(1) any electric powerplant which, as of April 20, 1977, has received a final decision from the appropriate State agency authorizing the construction of such powerplant, and

"(2) any electric powerplant (A) consisting of one or more combined cycle units owned or operated by an electric utility which serves at least 2,000,000 customers and (B) for which an application has been filed for at least one year before the date of the enactment of this Act [Nov. 9, 1978] with the appropriate State agency for authorization to construct such powerplant,

the Secretary may receive, consider, and grant (or deny) any petition for an exemption under title II or III [subchapters II and III of this chapter] notwithstanding section 901 [section 901 of Pub. L. 95–620, set out as a note above] or the fact that all rules related to such petition have not been prescribed at the time.

"(b) EXEMPTIONS UNDER SECTION 211(d).—The Secretary may receive, consider, and grant (or deny) any petition for any exemption under section 211(d) [section 8321(d) of this title] notwithstanding section 901 [section 901 of Pub. L. 95–620, set out as a note above], or the fact that all rules related to such petition have not been prescribed at the time."

§ 8302. Definitions

(a) Generally

Unless otherwise expressly provided, for the purposes of this chapter—

(1) The term "Secretary" means the Secretary of Energy.

(2) The term "person" means any (A) individual, corporation, company, partnership, association, firm, institution, society, trust, joint venture, or joint stock company, (B) any State, the District of Columbia, Puerto Rico, or any territory or possession of the United States, or (C) any agency or instrumentality (including any municipality) thereof.
(3)(A) Except as provided in subparagraph (B), the term “natural gas” means any fuel consisting in whole or in part of—

(i) natural gas;
(ii) liquid petroleum gas;
(iii) synthetic gas derived from petroleum or natural gas liquids; or
(iv) any mixture of natural gas and synthetic gas.

(B) The term “natural gas” does not include—

(i) natural gas which is commercially unmarketable (either by reason of quality or quantity), as determined under rules prescribed by the Secretary;
(ii) natural gas produced by the user from a well the maximum efficient production rate of which is less than 250 million Btu’s per day;
(iii) natural gas to the extent the exclusion of such gas is provided for in subsection (b) of this section; or
(iv) synthetic gas, derived from coal or other alternate fuel, the heat content of which is less than 600 Btu’s per cubic foot at 14.73 pounds per square inch (absolute) and 60 degrees Fahrenheit.

(4) The term “petroleum” means crude oil and products derived from crude oil, other than—

(A) synthetic gas derived from crude oil;
(B) liquid petroleum gas;
(C) liquid, solid, or gaseous waste byproducts of refinery operations which are commercially unmarketable, either by reason of quality or quantity, as determined under rules prescribed by the Secretary; or
(D) petroleum coke or waste gases from industrial operations.

(5) The term “coal” means anthracite and bituminous coal, lignite, and any fuel derivative thereof.

(6) The term “alternate fuel” means electricity or any fuel, other than natural gas or petroleum, and includes—

(A) petroleum coke, shale oil, uranium, biomass, and municipal, industrial, or agricultural wastes, wood, and renewable and geothermal energy sources;
(B) liquid, solid, or gaseous waste byproducts of refinery or industrial operations which are commercially unmarketable, either by reason of quality or quantity, as determined under rules prescribed by the Secretary; and
(C) waste gases from industrial operations.

(7)(A) The terms “electric powerplant” and “powerplant” mean any stationary electric generating unit, consisting of a boiler, a gas turbine, or a combined cycle unit, which produces electric power for purposes of sale or exchange and—

(i) has the design capability of consuming any fuel (or mixture thereof) at a fuel heat input rate of 100 million Btu’s per hour or greater; or
(ii) is in a combination of two or more electric generating units which are located at the same site and which in the aggregate have a design capability of consuming any fuel (or mixture thereof) at a fuel heat input rate of 250 million Btu’s per hour or greater.

(B) The terms “major fuel-burning installation” and “installation” do not include—

(i) any electric powerplant; or
(ii) any pump or compressor used solely in connection with the production, gathering,
transmission, storage, or distribution of gases or liquids, but only if there is certification to the Secretary of such use (in accordance with rules prescribed by the Secretary).

(C) For purposes of clause (ii) of subparagraph (A), there shall be excluded any unit which has a design capability to consume any fuel (including any mixture thereof) that does not equal or exceed 100 million Btu's per hour and the exclusion of which for purposes of such clause is determined by the Secretary, by rule to be appropriate.

(11) The term “new major fuel-burning installation” means—
(A) any major fuel-burning installation on which construction or acquisition began on a date on or after November 9, 1978; and
(B) any major fuel-burning installation on which construction or acquisition began on a date after April 20, 1977, and before November 9, 1978, unless the Secretary finds the construction or acquisition of such installation could not be canceled, rescheduled, or modified to comply with applicable requirements of this chapter without—
(i) incurring significant operational detriment of the unit (as determined by the Secretary); or
(ii) imposing substantial financial penalty (as determined under rules prescribed by the Secretary).

(12)(A) The term “existing major fuel-burning installation” means any installation which is not a new major fuel-burning installation.
(B) Such term does not include a major fuel-burning installation for the extraction of mineral resources located—
(i) on or above the Continental Shelf of the United States, or
(ii) on wetlands areas adjacent to the Continental Shelf of the United States, where coal storage is not practicable or would produce adverse effects on environmental quality.

(C) Any installation treated as an existing major fuel-burning installation shall not be treated thereafter as a new major fuel-burning installation merely by reason of a transfer of ownership.

(13) The term “construction or acquisition began” means, when used with reference to a certain date, that—
(A) construction in accordance with final drawings or equivalent design documents (as defined by the Secretary, by rule) began on or after that date; or
(B)(i) construction or acquisition had been contracted for on or after that date, or (ii) if the construction or acquisition had been contracted for before such date, such construction or acquisition could be canceled, rescheduled, or modified to comply with the applicable requirements of this chapter—
(I) without imposing substantial financial penalty, as determined under rules prescribed by the Secretary; and
(II) in the case of a powerplant, without adversely affecting electric system reliability (as determined by the Secretary after consultation with the Federal Energy Regulatory Commission and the appropriate State authority).

(14) The term “construction” means substantial onsite construction or reconstruction, as defined by rule by the Secretary.

(15) The term “primary energy source” means the fuel or fuels used by any existing or new electric powerplant, except it does not include, as determined under rules prescribed by the Secretary—
(A) the minimum amounts of fuel required for unit ignition, startup, testing, flame stabilization, and control uses, and
(B) the minimum amounts of fuel required to alleviate or prevent (i) unanticipated equipment outages and (ii) emergencies directly affecting the public health, safety, or welfare which would result from electric power outages.

(16) The term “site limitation” means, when used with respect to any powerplant, any specific physical limitation associated with a particular site which relates to the use of coal or other alternate fuels as a primary energy source for such powerplant, such as—
(A) inaccessibility to coal or other alternate fuels;
(B) lack of transportation facilities for coal or other alternate fuels;
(C) lack of adequate land or facilities for the handling, use, and storage of coal or other alternate fuels;
(D) lack of adequate land or facilities for the control or disposal of wastes from such powerplant, including lack of pollution control equipment or devices necessary to assure compliance with applicable environmental requirements; and
(E) lack of an adequate and reliable supply of water, including water for use in compliance with applicable environmental requirements.

(17) The term “applicable environmental requirements” includes—
(A) any standard, limitation, or other requirement established by or pursuant to Federal or State law (including any final order of any Federal or State court) applicable to emissions of environmental pollutants (including air and water pollutants) or disposal of solid waste residues resulting from the use of coal or other alternate fuels or natural gas or petroleum as a primary energy source or from the operation of pollution control equipment in connection with such use, taking into account any variance of law granted or issued in accordance with Federal law or in accordance with State law to the extent consistent with Federal law; and
(B) any other standard, limitation, or other requirement established by, or pursuant to, the Clean Air Act [42 U.S.C. 7401 et seq.], the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.], the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.], or the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.].
(18) (A) The term "peakload powerplant" means a powerplant the electrical generation of which in kilowatt hours does not exceed, for any 12-calendar-month period, such powerplant’s design capacity multiplied by 1,500 hours.

(B) The term "intermediate load powerplant" means a powerplant (other than a peakload powerplant), the electrical generation of which in kilowatt hours does not exceed, for any 12-calendar-month period, such powerplant’s design capacity multiplied by 3,500 hours.

(C) The term "base load powerplant" means a powerplant the electrical generation of which in kilowatt hours exceeds, for any 12-calendar-month period, such powerplant’s design capacity multiplied by 3,500 hours.

(19) The term "cogeneration facility" means an electric powerplant which produces—

(A) electric power; and

(B) any other form of useful energy (such as steam, gas, or heat) which is, or will be, used for industrial, commercial, or space heating purposes.

(20) The term "cost", unless the context indicates otherwise, means total costs (both operating and capital) incurred over the estimated remaining useful life of an electric powerplant, discounted to present value, as determined by the Secretary (in the case of powerplants, in consultation with the State regulatory authorities). In the case of an electric powerplant, such costs shall take into account any change required in the use of existing electric powerplants in the relevant dispatching system and other economic factors which are included in planning for the production, transmission, and distribution of electric power within such system.

(21) The term "State regulatory authority" means any State agency which has rate-making authority with respect to the sale of electricity by any State regulated electric utility.

(22) The term "air pollution control agency" has the same meaning as given such term by section 302(b) of the Clean Air Act (42 U.S.C. 7602(b)).

(23) The term "electric utility" means any person, including any affiliate, or Federal agency which sells electric power.

(24) The term "affiliate", when used in relation to a person, means another person which controls, is controlled by, or is under common control with, such person.

(25) The term "Federal agency" means each authority of the Government of the United States, whether or not it is within or subject to review by another agency, but does not include—

(A) the Congress;

(B) the courts of the United States;

(C) the governments of the territories or possessions of the United States; and

(D) the government of the District of Columbia.

(26) The term "Btu" means British thermal unit.

(27) The term "Mcf" means, when used in relation to natural gas, 1,000 cubic feet of natural gas.

(28) The term "mixture", when used in relation to fuels used in a unit, means a mixture of such fuels or a combination of such fuels used simultaneously or alternately in such unit.

(29) The term "fluidized bed combustion" means combustion of fuel in connection with a bed of inert material, such as limestone or dolomite, which is held in a fluid-like state by the means of air or other gases being passed through such materials.

(b) Special rules relating to definitions of natural gas and alternate fuel

(1) Subject to paragraph (2), natural gas which is to be used by a powerplant shall for purposes of this chapter (other than this subsection), be excluded from the definition of "natural gas" under subsection (a)(3)(B)(iii) of this section and shall be included within the definition of "alternate fuel" under subsection (a)(6) of this section if the person proposing to use such natural gas certifies to the Secretary (together with such supporting documents as the Secretary may require) that—

(A) such person owns, or is entitled to receive, at the point of manufacture, synthetic gas derived from coal or another alternate fuel;

(B) the Btu content of such synthetic gas is equal to, or greater than, the Btu content of the natural gas to be covered by this subsection by reason of such certification, plus the approximate Btu content of any natural gas consumed or lost in transportation;

(C) such person delivers, or arranges for the delivery of, such synthetic gas to a pipeline or pipelines which by transport or displacement are capable of delivering such synthetic gas, mixed with natural gas, to such person; and

(D) all necessary permits, licenses, or approvals from appropriate Federal, State, and local agencies (including Indian tribes) have been obtained for construction and operation of the facilities for the manufacture of the synthetic gas involved.

(2) The application of paragraph (1) with respect to the use of natural gas by any powerplant shall be conditioned on the person using such natural gas submitting to the Secretary a report not later than one year after certification is made under paragraph (1), and annually thereafter, containing the following information:

(A) the source, amount, quality, and point of delivery to the pipeline of the synthetic gas to which paragraph (1) applied during the annual period ending with the calendar month preceding the date of such report; and

(B) the amount, quality, and point of delivery by the pipeline to such person of the natural gas covered by paragraph (1) which is used by the person during such annual period.
§ 8303. Territorial application

The provisions of this chapter shall only apply within the contiguous 48 States and the District of Columbia.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified generally to chapter 5 (§7401 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The Federal Water Pollution Control Act, referred to in subsec. (a)(17)(B), is act June 30, 1948, ch. 758, 62 Stat. 1321, which is classified generally to chapter 26 (§1321 et seq.) of Title 33, Navigation and Navigable Waters. For complete classification of this Act to the Code, see Short Title note set out under section 1321 of Title 33 and Tables.

AMENDMENTS

1987—Subsec. (a)(13)(B)(ii). Pub. L. 100–42, §1(c)(2)(A), inserted "and" at end of subcl. (I), substituted period for "; or" at end of subcl. (II), and struck out subcl. (III) which read as follows: "in the case of a major fuel-burnng installation, without incurring significant operational detriment of the unit (as determined by the Secretary)."

Subsec. (a)(15). Pub. L. 100–42, §1(c)(2)(B), struck out "or major fuel-burning installation" after "electric powerplant";

Subsec. (a)(16). Pub. L. 100–42, §1(c)(2)(C), struck out "or installation" after "any powerplant in introductory provisions and after "such powerplant in introductory provisions and subparagraph (D)."

Subsec. (a)(19). Pub. L. 100–42, §1(c)(2)(D), struck out "or a major fuel-burning installation" after "electric powerplant";

Subsec. (a)(20). Pub. L. 100–42, §1(c)(2)(E), struck out "or major fuel-burning installation" after "life of an electric powerplant";

Subsec. (b)(11). Pub. L. 100–42, §1(c)(2)(F), struck out "or major fuel-burning installation" after "used by a powerplant in introductory provisions."

Subsec. (b)(12). Pub. L. 100–42, §1(c)(2)(G), substituted a period for ". except that for purposes of the prohibition under section 8311(2) of this title against powerplants being constructed without the capability of using coal or another alternate fuel, only permits, licenses, and approvals for the construction of such synthetic gas facilities shall be required under this subparagraph to be certified and documented.

Subsec. (b)(12). Pub. L. 100–42, §1(c)(2)(H), struck out "or major fuel-burning installation" after "any powerplant in introductory provisions."

§ 8311. Coal capability of new electric powerplants; certification of compliance

(a) General prohibition

Except to such extent as may be authorized under part B, no new electric powerplant may be constructed or operated as a base load powerplant without the capability to use coal or another alternate fuel as a primary energy source.

(b) Capability to use coal or alternate fuel

An electric powerplant has the capability to use coal or another alternate fuel for purposes of this section if such electric powerplant—

(1) has sufficient inherent design characteristics to permit the addition of equipment (including all necessary pollution devices) necessary to render such electric powerplant capable of using coal or another alternate fuel as its primary energy source; and

(2) is not physically, structurally, or technologically precluded from using coal or another alternate fuel as its primary energy source.

Capability to use coal or another alternate fuel shall not be interpreted to require any such
powerplant to be immediately able to use coal or another alternate fuel as its primary energy source on its initial day of operation.

(c) Applicability to base load powerplants

(1) This section shall apply only to base load powerplants, and shall not apply to peakload powerplants or intermediate load powerplants.

(2) For the purposes of this section, hours of electrical generation pursuant to emergency situations, as defined by the Secretary and reported to the Secretary, shall not be included in a determination of whether a powerplant is being operated as a base load powerplant.

(d) Self-certification

(1) In order to meet the requirement of subsection (a) of this section, the owner or operator of any new electric powerplant to be operated as a base load powerplant proposing to use natural gas or petroleum as its primary energy source shall certify to the Secretary prior to construction, or prior to operation as a base load powerplant in the case of a new electric powerplant operated as a peakload powerplant or intermediate load powerplant, that such powerplant has capability to use coal or another alternate fuel, within the meaning of subsection (b) of this section. Such certification shall be effective to establish compliance with the requirement of subsection (a) of this section as of the date it is filed with the Secretary. Within 15 days after receipt of a certification submitted pursuant to this paragraph, the Secretary shall publish in the Federal Register a notice reciting that the certification has been filed.

(2) The Secretary, within 60 days after the filing of a certification under paragraph (1), may require the owner or operator of such powerplant to provide such supporting documents as may be necessary to verify the certification.

§ 8321. Temporary exemptions

(a) General exemption due to lack of alternate fuel supply, site limitations, or environmental requirements

After consideration of a petition (and comments thereon) for an exemption for a powerplant from the prohibitions of part A, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that for the period of the proposed exemption, despite diligent good faith efforts—

(1) it is likely that an adequate and reliable supply of coal or other alternate fuel of the quality necessary to conform with design and operational requirements for use as a primary energy source will not be available to such powerplant at a cost (taking into account associated facilities for the transportation and use of such fuel) which, based upon the best practicable estimates, does not substantially exceed the cost, as determined by rule by the Secretary, of the fuel that would be used as a primary energy source;

(2) one or more site limitations exist which would not permit the location or operation of such a powerplant using coal or any other alternate fuel as a primary energy source; or

(3) the prohibitions of section 8311 of this title could not be satisfied without violating applicable environmental requirements.

(b) Temporary exemption based upon future use of synthetic fuels

After consideration of a petition (and comments thereon) for an exemption for a powerplant from the prohibitions of part A, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that—

(1) the petitioner will comply with the prohibitions of part A by the end of the proposed exemption by the use of a synthetic fuel derived from coal or another alternate fuel; and

(2) the petitioner is not able to comply with such prohibitions by the use of such synthetic fuel until the end of the proposed exemption.

The effectiveness of an exemption under this subsection is conditioned on the petitioner filing and maintaining a compliance plan meeting the requirements of section 8324(b) of this title.

(e) Duration of temporary exemptions

(1) Except as provided in paragraph (2), exemptions under this section for any powerplant may not exceed, taking into account any extension or renewal, 5 years.

(2)(A) An exemption under subsection (a)(1) of this section may be granted for a period of more than 5 years, but may not exceed, taking into account any extension or renewal, 10 years.

(B) An exemption under subsection (b) of this section may be extended beyond the 5-year limit...
under paragraph (1), but such exemption, so extended, may not exceed 10 years.

(3) If an exemption is granted for any powerplant before the powerplant is placed in service, the period before it is placed in service shall not be taken into account in computing the 5-year and the 10-year limitations of paragraphs (1) and (2).

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–42, §1(c)(5)(A)–(D), substituted “from” for “or installation from one or more of” in introductory provisions, substituted “the fuel that would be used” for “using imported petroleum” and struck out “or installation” after “powerplant” in par. (1), struck out “or installation” after “powerplant” in par. (2), and struck out “or 8312” after “8311” in par. (3).

Subsec. (b). Pub. L. 100–42, §1(c)(5)(A), substituted “from” for “or installation from one or more of”.

Subsec. (c). Pub. L. 100–42, §1(c)(5)(E), struck out subsec. (c) which read as follows: “After consideration of a petition (and comments thereon) for an exemption for a powerplant or installation from one or more of the prohibitions of part A, the Secretary may, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the Secretary has demonstrated that for the period of the proposed exemption the issuance of such exemption would be in the public interest and would be consistent with the purposes of this chapter.”

Subsec. (d). Pub. L. 100–42, §1(c)(5)(E), struck out subsec. (d) which read as follows: “After consideration of a petition (and comments thereon) for an exemption from the prohibition of the use of petroleum under section 8312 of this title for an installation with a design capacity of consuming any fuel (or any mixture thereof) at a fuel heat input rate which does not exceed 300 million Btu’s per hour, the Secretary may, by order, grant an exemption under this subsection for the use of petroleum if he finds that the petitioner has demonstrated, by the existence of binding contracts or other evidence, including appropriate State construction permits, that he will use coal or another alternate fuel for at least 75 percent of the annual fuel heat input rate upon the expiration of such exemption. For provisions relating to authority to consider and granting (or denying) certain petitions [sic] for an exemption under this subsection, see section 902(b).”

Subsec. (e)(1), (3). Pub. L. 100–42, §1(c)(5)(B), struck out “or installation” after “powerplant” wherever appearing.

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AND TEMPORARY EXEMPTION ISSUED UNDER SUBSECTION (d) AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

For effectiveness of exemption for certain electric powerplants and the temporary exemption issued under subsec. (d) of this section as prior to 180 days after Nov. 9, 1978, see section 902 of Pub. L. 95–620, set out as a note under section 8301 of this title.

§ 8322. Permanent exemptions

(a) Permanent exemption due to lack of alternate fuel supply, site limitations, environmental requirements, or adequate capital

(1) After consideration of a petition (and comments thereon) for an exemption for a powerplant from the prohibitions of part A, the Secretary shall, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum, if he finds that the petitioner has demonstrated that despite diligent good faith efforts—

(A) it is likely that an adequate and reliable supply of coal or other alternate fuel of the quality necessary for use in the powerplant is available at a cost (taking into account associated facilities for the transportation and use of such fuel) which, based upon the best practicable estimates, does not substantially exceed the cost, as determined by rule by the Secretary, of the fuel that would be used as a primary energy source during the useful life of the powerplant involved;

(B) one or more site limitations exist which would not permit the location or operation of such powerplant using coal or any other alternate fuel as a primary energy source;

(C) the prohibitions of part A could not be satisfied without violating applicable environmental requirements; or

(D) the required use of coal or any other alternate fuel would not allow the petitioner to obtain adequate capital for the financing of such powerplant.

(2) The demonstration required to be made by a petitioner under paragraph (1) shall be made with respect to the site of such powerplant and reasonable alternative sites.

(b) Permanent exemption due to certain State or local requirements

After consideration of a petition (and comments thereon) for an exemption for a powerplant from the prohibitions of part A, the Secretary, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum, if he finds that the petitioner has demonstrated that—

(1) with respect to the proposed site of the powerplant, the construction or operation of such a facility using coal or any other alternate fuel is infeasible because of a State or local requirement (other than a building code or a nuisance or zoning law);

(2) there is no reasonable alternative site for such powerplant which meets the criteria set forth in subsection (a)(1)(A) through (D) of this section; and

(3) the granting of the exemption would be in the public interest and would be consistent with the purposes of this chapter.

(c) Permanent exemption for cogeneration

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a cogeneration facility, if the Secretary may, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum, if he—

(1) finds that the petitioner has demonstrated that economic and other benefits of cogeneration are unobtainable unless petroleum or natural gas, or both, are used in such facility, and

(2) includes in the final order a statement of the basis for such finding.
(d) Permanent exemption for certain mixtures containing natural gas or petroleum

After consideration of a petition (and comments thereon) for an exemption for a powerplant from the prohibitions of part A, the Secretary shall, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum, if he finds that the petitioner has demonstrated that—

(1) the powerplant uses, or proposes to use, a mixture of petroleum or natural gas and coal or another alternate fuel as a primary energy source; and

(2) the amount of the petroleum or natural gas used in such mixture will not exceed the minimum percentage of the total Btu heat input of the primary energy sources of such powerplant needed to maintain reliability of operation of such powerplant consistent with maintaining a reasonable level of fuel efficiency, as determined in accordance with rules prescribed by the Secretary.

(e) Permanent exemption for emergency purposes

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum, if he finds that the petitioner has demonstrated that such powerplant will be maintained and operated only for emergency purposes (as defined by rule by the Secretary).

(f) Permanent exemption for powerplants necessary to maintain reliability of service

After consideration of a petition (and comments thereon) for an exemption for a powerplant from one or more of the prohibitions of part A, the Secretary may, by order, grant a permanent exemption under this subsection with respect to natural gas or petroleum if he finds that the petitioner has demonstrated that—

(1) such exemption is necessary to prevent impairment of reliability of service, and

(2) the petitioner, despite diligent good faith efforts, is not able to make the demonstration necessary to obtain an exemption under subsection (a) or (b) of this section in the time required to prevent such impairment of service.

References in Text

This chapter, referred to in subsec. (b)(3), was in the original ‘‘this Act’’, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3269, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

Amendments

1987—Subsec. (a)(1). Pub. L. 100–42, §1(c)(6)(A)–(C), substituted ‘‘from’’ for ‘‘or installation from one or more of’’ in introductory provisions, substituted ‘‘the fuel that would be used’’ for ‘‘using imported petroleum’’ and struck out ‘‘or installation’’ after ‘‘powerplant’’ in subpars. (B) and (D).

Subsec. (a)(2). Pub. L. 100–42, §1(c)(1)(D), struck out ‘‘—

‘‘(A) in the case of a new major fuel-burning installation, if the use of a method of fluidized bed combustion is technically and economically feasible; and

(B) in the case of a new electric powerplant,‘‘ after ‘‘paragraph (1) shall’’.

Subsec. (a)(3). Pub. L. 100–42, §1(c)(6)(E), struck out par. (3) which read as follows: ‘‘Notwithstanding the preceding provisions of this subsection, a powerplant which has been granted an exemption under subsection (b) of this section may not be granted an exemption under this subsection.’’

Subsec. (b). Pub. L. 100–42, §1(c)(6)(A), (B), (F), in introductory provisions substituted ‘‘from’’ for ‘‘or installation from one or more of’’, in par. (1) struck out ‘‘or installation’’ after ‘‘powerplant’’, and in par. (2) struck out ‘‘in the case of a powerplant’’, after ‘‘(2)’’.

Subsec. (d). Pub. L. 100–42, §1(c)(6)(A), (B), (G), struck out ‘‘(1)’’ before ‘‘After consideration of’’, substituted ‘‘from’’ for ‘‘installation from one or more of’’ in introductory provisions, redesignated subsars. (A) and (B) of former par. (1) as pars. (1) and (2), respectively, struck out ‘‘or installation’’ after ‘‘powerplant’’ wherever appearing in such pars., and struck out former par. (2) which read as follows: ‘‘In the case of a new major fuel-burning installation, the percentage determined by the Secretary under subparagraph (B) of paragraph (1) shall not be less than 25 percent.’’

Subsec. (e). Pub. L. 100–42, §1(c)(6)(B), struck out ‘‘or installation’’ after ‘‘powerplant’’ wherever appearing.

Subsec. (g). Pub. L. 100–42, §1(c)(6)(H), struck out subsec. (g) which related to issuance, by order of Secretary of Energy, of permanent exemptions for use of natural gas or petroleum for peak load powerplants.

Subsec. (h). Pub. L. 100–42, §1(c)(6)(H), struck out subsec. (h) which related to issuance, by order of Secretary of Energy, of permanent exemptions for use of petroleum for intermediate load powerplants.

Subsec. (i). Pub. L. 100–42, §1(c)(6)(H), struck out subsec. (i) which related to issuance, by order of Secretary of Energy, of permanent exemptions for use of natural gas or petroleum for installations based upon product or process requirements.

Subsec. (j). Pub. L. 100–42, §1(c)(6)(H), struck out subsec. (j) which related to issuance, by order of Secretary of Energy, of permanent exemptions for use of natural gas or petroleum for installations necessary to meet scheduled equipment outages.

Exemption for Certain Electric Powerplants As Effective Prior to 180 Days After November 9, 1978

§8323. General requirements for exemptions

(a) Use of mixtures or fluidized bed combustion not feasible

Except in the case of an exemption under section 8322(d) of this title, the Secretary may grant a permanent exemption for a powerplant under this part only—

(1) if the applicant has demonstrated that the use of a mixture of natural gas or petroleum and coal or another alternate fuel, for which an exemption under section 8322(d) of this title would be available, is not economically or technically feasible; and

(2) if the Secretary has not made a finding that the use of a method of fluidized bed combustion of coal or another alternate fuel is economically and technically feasible.
(b) State approval required for powerplant

If the appropriate State regulatory authority has not approved a powerplant for which a petition has been filed, such exemption, to the extent it applies to the prohibition under section 8311 of this title against construction without the capability of using coal or another alternate fuel, shall not take effect until all approvals required by such State regulatory authority which relate to construction have been obtained.

(c) No alternative power supply in the case of a powerplant

(1) Except in the case of an exemption under section 8322(c) of this title, the Secretary may not grant an exemption for a new powerplant unless he finds that the petitioner has demonstrated that there is no alternative supply of electric power which is available within a reasonable distance at a reasonable cost without impairing short-run or long-run reliability of service and which can be obtained by the petitioner, despite reasonable good faith efforts.

(2) The Secretary shall forward a copy of any such petition to the Federal Energy Regulatory Commission promptly after it is filed with the Secretary and shall consult with such Commission before making any finding on such petition under paragraph (1).

(1) contains (A) a schedule indicating how compliance with applicable prohibitions of this chapter will occur and (B) evidence of binding contracts for fuel, or facilities for the production of fuel, which would allow or 1 such compliance; and

(2) is revised at such times and to such extent as the Secretary may require to reflect changes in circumstances.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b)(1)(A), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title.

AMENDMENTS

1987—Subsec. (a), Pub. L. 100–42 struck out “or installation” after “powerplant”.

SUBCHAPTER III—EXISTING FACILITIES

PART A—PROHIBITIONS

§ 8341. Existing electric powerplants

(a) Certification by powerplants of coal capability

At any time, the owner or operator of an existing electric powerplant may certify to the Secretary, for purposes of subsection (b) of this section—

(1) whether or not such powerplant has or previously had the technical capability to use coal or another alternate fuel as a primary energy source;

(2) whether or not such powerplant could have the technical capability to use coal or another alternate fuel as a primary energy source without having:

(A) substantial physical modification of the powerplant, or

(B) substantial reduction in the rated capacity of the powerplant; and

1 So in original. Probably should be “for”.

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–42 struck out “or installation” after “powerplant”.

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

For effectiveness of exemption for certain electric powerplants as prior to 180 days after Nov. 9, 1978, see section 905(a) of Pub. L. 95–620, set out as a note under section 8301 of this title.

§ 8324. Terms and conditions; compliance plans

(a) Terms and conditions generally

Any exemption from any prohibition under this part shall be on such terms and conditions as the Secretary determines appropriate, including terms and conditions requiring the use of effective fuel conservation measures which are practicable and consistent with the purposes of this chapter. In the case of any temporary exemption, the terms and conditions (which may include a compliance plan meeting the requirements of subsection (b) of this section) shall be designed to insure that upon the expiration of such exemption, the persons and powerplant covered by such exemption will comply with the applicable prohibitions.

(b) Compliance plans

A compliance plan meets the requirements of this subsection if it is approved by the Secretary and—

(1) contains (A) a schedule indicating how compliance with applicable prohibitions of this chapter will occur and (B) evidence of binding contracts for fuel, or facilities for the production of fuel, which would allow or 1 such compliance; and

(2) is revised at such times and to such extent as the Secretary may require to reflect changes in circumstances.

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

For effectiveness of exemption for certain electric powerplants as prior to 180 days after Nov. 9, 1978, see section 905(a) of Pub. L. 95–620, set out as a note under section 8301 of this title.

SUBCHAPTER III—EXISTING FACILITIES

PART A—PROHIBITIONS

§ 8341. Existing electric powerplants

(a) Certification by powerplants of coal capability

At any time, the owner or operator of an existing electric powerplant may certify to the Secretary, for purposes of subsection (b) of this section—

(1) whether or not such powerplant has or previously had the technical capability to use coal or another alternate fuel as a primary energy source;

(2) whether or not such powerplant could have the technical capability to use coal or another alternate fuel as a primary energy source without having:

(A) substantial physical modification of the powerplant, or

(B) substantial reduction in the rated capacity of the powerplant; and

1 So in original. Probably should be “for”.

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–42 struck out “or installation” after “powerplant”.

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

For effectiveness of exemption for certain electric powerplants as prior to 180 days after Nov. 9, 1978, see section 905(a) of Pub. L. 95–620, set out as a note under section 8301 of this title.
(3) whether or not it is financially feasible to use coal or another alternate fuel as a primary energy source in such a powerplant.

(b) Authority of Secretary to prohibit where coal or alternate fuel capability exists

The Secretary may prohibit, in accordance with section 8343(a) or (b) of this title, the use of petroleum or natural gas, or both, as a primary energy source in any existing electric powerplant, if an affirmative certification under subsection (a)(1), (2), and (3) of this section is in effect with respect to such powerplant and if, after examining the basis for the certification, the Secretary concurs with the certification.

(c) Authority of Secretary to prohibit excessive use in mixtures

At any time, the owner or operator of an existing electric powerplant may certify to the Secretary for purposes of this subsection whether or not it is technically and financially feasible to use a mixture of petroleum or natural gas and coal or another alternate fuel as a primary energy source in that powerplant. If an affirmative certification under this subsection is in effect with respect to such powerplant and if, after examining the basis for the certification, the Secretary concurs with the certification, the Secretary may prohibit, in accordance with section 8343(a) of this title, the use of petroleum or natural gas, or both, in such powerplant in amounts in excess of the minimum amount necessary to maintain reliability of operation of the unit consistent with maintaining reasonable fuel efficiency of such mixture.

(d) Amendment of subsection (a) and (c) certifications

The owner or operator of any such powerplant may at any time amend any certification under subsection (a) or (c) of this section in order to take into account changes in relevant facts and circumstances; except that no such amendment to such a certification may be made after the date of any final prohibition under subsection (b) or (c) of this section based on that certification.

PRIOR PROVISIONS

EFFECTIVE DATE

VALIDITY OF ORDERS UNDER FORMER PROVISIONS OF THIS SECTION
Section 1022 of Pub. L. 97–35 provided that:

“(a) The amendments made by section 1021 to section 301(b) and (c) of the Powerplant and Industrial Fuel Use Act of 1978 [subsecs. (b) and (c) of this section] shall not apply to any electric powerplant for which a final order was issued pursuant to section 301(b) or (c) of such Act before the date of the enactment of this Act [Aug. 13, 1981].

“(b) Any electric powerplant issued a proposed order under section 301(b) or (c) of such Act which is pending on the date of the enactment of this Act may elect not to have the amendments made by section 1021 to such section 301(b) or (c) apply with respect to that powerplant. Such an election shall be irrevocable and shall be made in such form and manner as the Secretary of Energy shall, within 45 days after the date of the enactment of this Act, prescribe. Such an election shall be made not later than 60 days after the date on which the Secretary of Energy prescribes the form and manner of making such election.

“(c) The amendments made by section 1021 shall not affect the validity of any final order issued under section 301(b) or (c) of the Powerplant and Industrial Fuel Use Act of 1978 before the date of the enactment of this Act.

“(2) The validity of any proposed order issued under such section 301(b) or (c) shall not be affected in the case of powerplants covered by elections made under subsection (b).

“(3) The authority of the Secretary of Energy to amend, repeal, rescind, modify, or enforce any order referred to in paragraph (1) or (2), or rules applicable thereto, shall remain in effect notwithstanding any such amendments.’”

Section. Pub. L. 95–620, title III, §302, Nov. 9, 1978, 92 Stat. 3306, authorized Secretary to prohibit use of petroleum or natural gas as primary energy source in existing major fuel-burning installations having coal or alternate fuel capability and, in installations in which mixtures of petroleum or natural gas and coal or other alternate fuels are found feasible, to prohibit excessive use of petroleum or natural gas in such mixtures.

§ 8343. Rules relating to case-by-case and category prohibitions

(a) Case-by-case prohibitions

(1) Except to the extent authorized by subsection (b) of this section, the Secretary shall prohibit any powerplant from using natural gas or petroleum under the authority granted him under section 8341(b) or (c) of this title only by means of a final order issued by him which shall be limited to the particular powerplant involved.

(2) The Secretary may issue such a final order only with respect to a powerplant which is not, at the time the proposed order is issued, covered by a final rule issued under subsection (b) of this section.

(b) Prohibitions applicable to categories of facilities

(1) The Secretary may prohibit, by rule, the use of natural gas or petroleum under section 8341(b) of this title in existing electric powerplants.

(2) Each powerplant to be covered by any final rule issued under this subsection shall be specifically identified in the proposed rule published under section 8411(b) of this title.

(3) In prescribing any final rule under this subsection, the Secretary shall take into account any special circumstances or characteristics of each category of powerplants (such as the intermittent use, size, age, or geographic location of such powerplants). Any such rules shall not apply in the case of any existing electric powerplant with respect to which a comparable prohibition was issued by order.

§ 8351

TITLE 42—THE PUBLIC HEALTH AND WELFARE

Page 6612

AMENDMENTS

1987—Subsec. (a)(1). Pub. L. 100–42, § 1(c)(9)(A), (B), struck out “or installation” after “powerplant” in two places and “or §8342” after “section §8341(b) or (c)”.

Subsec. (a)(2). Pub. L. 100–42, § 1(c)(9)(A), struck out “or installation” after “powerplant”.

Subsec. (a)(3). Pub. L. 100–42, § 1(c)(9)(C), struck out part (3) which read as follows:

“(A) Subject to subparagraph (B), the Secretary shall not issue a final order under this subsection to any powerplant if it is demonstrated that such powerplant would have been granted an exemption if such prohibition had been established by a final rule pursuant to subsection (b) of this section rather than by order pursuant to this subsection, except that if a temporary exemption would have been granted, such a final order may be issued but may not take effect until such time as the temporary exemption would have terminated.

“(B) In any case in which an order is not issued by reason of subparagraph (A) or in which the effective date of such order is delayed under subparagraph (A), the Secretary shall take such steps as may be necessary to assure the installation involved complies with the same requirements (including provisions of section 8354(a) of this title) which would have been applicable if an exemption had been granted based upon the grounds for which the order is not issued or the effective date of which is delayed.”

Subsec. (b)(1). Pub. L. 100–42, § 1(c)(9)(D), amended par. (1) generally. Prior to amendment, par. (1) read as follows: “The Secretary may, by rule, prohibit the use of natural gas or petroleum pursuant to section §8341(b) or §822(a) of this title—

“(A) in the case of any category of existing electric powerplants identified in such rule; and

“(B) in the case of any category of existing major fuel-burning installations which have design capabilities of consuming fuel (or any mixture thereof) at a fuel heat input rate of 300 million Btu’s per hour or greater which are identified in such rule.”

Subsec. (b)(2). Pub. L. 100–42, § 1(c)(9)(A), struck out “or installation” after “powerplant”.

Subsec. (b)(3). Pub. L. 100–42, § 1(c)(9)(A), (E), struck out “or installations” after “powerplants” in two places in introductory provisions, and amended last sentence generally. Prior to amendment, last sentence read as follows: “Any such rules shall not apply in the case of any existing electric powerplant with respect to which a comparable prohibition was issued by order.”

PART B—EXCEPTIONS

§ 8351

Temporary exemptions

(a) Temporary exemption due to lack of alternate fuel supply, site limitations, or environmental requirements

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant such an exemption for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that for the period of the proposed exemption, despite diligent good faith efforts—

(1) it is likely that an adequate and reliable supply of coal or other alternate fuel of the quality necessary to conform with design and operational requirements for use as a primary energy source, will not be available to such powerplant at a cost (taking into account associated facilities for the transportation and use of such fuel) which, based upon the best practicable estimates, does not substantially exceed the costs, as determined by rule by the Secretary, of using imported petroleum as a primary energy source;

(2) one or more site limitations exist which would not permit the operation of such a powerplant using coal or any other alternate fuel as a primary energy source; or

(3) the prohibitions of section §8341 of this title could not be satisfied by the installation of applicable environmental requirements.

(b) Temporary exemption based upon future use of synthetic fuels

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary, by order, shall grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that—

(1) the petitioner will comply with the prohibitions of part A by the end of the proposed exemption by the use of a synthetic fuel derived from coal or another alternate fuel; and

(2) the petitioner is not able to comply with such prohibitions by the use of such synthetic fuel until the end of the proposed exemption.

The effectiveness of an exemption under this subsection is conditioned on the petitioner filing and maintaining a compliance plan meeting the requirements of section §834(b) of this title.

(c) Temporary exemption based upon use of innovative technologies

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that such powerplant will comply with such prohibitions at the expiration of such exemption by the adoption of a technology for the use of coal or another alternate fuel which at the time of the granting of the exemption is determined by the Secretary to be an innovative technology. The effectiveness of an exemption under this subsection is conditioned on the petitioner filing and maintaining a compliance plan meeting the requirements of section §835(b) of this title.

(d) Temporary exemption for units to be retired

(1) After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that such powerplant is to permanently cease operation at or before the expiration of the exemption period. An exemption under this subsection is conditioned on the petitioner filing and maintaining a compliance plan meeting the requirements of section §835(b) of this title.

(e) Temporary public interest exemption

After consideration of a petition (and comments thereon) for an exemption for a power-
plant from one or more of the prohibitions of part A for a powerplant, the Secretary may, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that such powerplant is to be operated solely as a peakload powerplant.

(g) Temporary exemption for powerplants where necessary to maintain reliability of service

(1) After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant an exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that such exemption is necessary to prevent impairment of reliability of service.

(2) Notwithstanding any other provision of this chapter, an exemption under this part (other than a permanent exemption under section 8352(f) of this title for the use of petroleum) may not be granted for any powerplant for which an exemption under this subsection has been granted.

(h) Duration of temporary exemptions

(1) Except as provided in paragraphs (2) and (3), exemptions under this section for any powerplant may not exceed, taking into account any extension or renewal, 5 years.

(2)(A) An exemption under subsection (a)(1) of this section may be granted for a period of more than 5 years, but may not exceed, taking into account any extension or renewal, 10 years.

(B) Subject to paragraph (3), an exemption under subsections (b), (c), and (g) of this section may be extended beyond the 5-year limit under paragraph (1), but such exemption, so extended, may not exceed 10 years.

(3) An exemption under subsections (d), (f), and (g) of this section for the use of natural gas by a powerplant may not extend beyond December 31, 1994.

(4) In computing the 5-year and 10-year limitations of paragraphs (1) and (2) in the case of any exemption under this section, the period before the exemption begins shall be excluded and the period under the use of natural gas and petroleum with respect to which the exemption was granted shall be disregarded.

§ 8352. Permanent exemptions

(a) Permanent exemption due to lack of alternate fuel supply, site limitations, or environmental requirements

(1) After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection for the use of natural gas or petroleum, if he finds that the petitioner has demonstrated that despite diligent good faith efforts—

(A) it is likely that an adequate and reliable supply of coal or other alternate fuels of the quality necessary to conform with design and operational requirements for use as a primary energy source will not be available to such powerplant at a cost (taking into account associated facilities for the transportation and use of such fuel) which, based upon the best practicable estimates, does not substantially exceed the cost, as determined by rule by the Secretary, of using imported petroleum as a primary energy source during the remaining useful life of the powerplant;

(B) one or more site limitations exist which would not permit the operation of such a powerplant using coal or any other alternate fuel as a primary energy source; or

(C) the prohibitions of part A could not be satisfied without violating applicable environmental requirements.

(2) Notwithstanding the preceding provisions of this subsection, a powerplant which has been granted an exemption under subsection (g) of this section may not be granted an exemption under this subsection.

(b) Permanent exemption due to certain State or local requirements

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary may, by order, grant a permanent exemption under this subsection, if he finds that the petitioner has demonstrated that—

(1) with respect to the site of the powerplant, the operation of such a facility using coal or any other alternate fuel is infeasible because of a State or local requirement;
(2) if such State or local requirement is under a building code or nuisance or zoning law, no other exemption under this part could be granted for such facility; and

(3) the granting of the exemption would be in the public interest and would be consistent with the purposes of this chapter.

c) Permanent exemption for cogeneration

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a cogeneration facility, the Secretary may, by order, grant a permanent exemption under this subsection, if he—

(1) finds that the petitioner has demonstrated that economic and other benefits of cogeneration are unobtainable unless petroleum or natural gas, or both, are used in such facility, and

(2) includes in the final order a statement of the basis for such finding.

d) Permanent exemption for certain fuel mixtures containing natural gas or petroleum

(1) After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection, if he finds that the petitioner has demonstrated that—

(A) the powerplant uses, or proposes to use, a mixture of petroleum or natural gas and coal or another alternate fuel as a primary energy source; and

(B) the amount of the petroleum or natural gas used in such mixture will not exceed the minimum percentage of the total Btu heat input of the primary energy sources of such powerplant needed to maintain reliability of operation of the unit consistent with maintaining a reasonable level of fuel efficiency, as determined in accordance with rules prescribed by the Secretary.

(3) The Secretary may authorize a higher percentage than that referred to in paragraph (1)(B) if he finds that the higher percentage of natural gas allowed would be mixed with synthetic fuels derived from municipal wastes or agricultural wastes and would encourage the use of alternate or new technologies which use renewable sources of energy.

e) Permanent exemption for emergency purposes

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection, if he finds that the petitioner has demonstrated that such powerplant will be maintained and operated only for emergency purposes (as defined by rule by the Secretary).

(f) Permanent exemption for peaking powerplants

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection, if he finds that—

(1) the powerplant is operated solely as a peaking powerplant;

(2) a denial of such petition is likely to result in an impairment of reliability of service; and

(3)(A) modification of the powerplant to permit compliance with such prohibitions is technically infeasible; or

(B) such modification would result in an unreasonable expense.

g) Permanent exemption for intermediate load powerplants

(1) After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A on the use of petroleum by a powerplant, the Secretary may, by order, grant a permanent exemption under this subsection, if he finds that the petitioner has demonstrated that—

(A) the Administrator of the Environmental Protection Agency (or the appropriate State air pollution control agency) certifies to the Secretary that the use by such powerplant of coal or any available alternate fuel as a primary energy source will cause or contribute to a concentration, in an air quality control region or any area within such region, of a pollutant for which any national ambient air quality standard is or would be exceeded for such area;

(B) such powerplant is to be operated only to replace no more than the equivalent capacity of existing electric powerplants—

(i) which use natural gas or petroleum as a primary energy source,

(ii) which are owned by the same person who is to operate such powerplant, and

(iii) which, if they used coal as a primary energy source, would cause or contribute to such a concentration in such region;

(C) such powerplant is and shall continue to be operated solely as an intermediate load powerplant;

(D) the net fuel heat input rate for such powerplant will be maintained at or less than 9,500 Btu's per kilowatt hour throughout the remaining useful life of the powerplant; and

(E) the powerplant has the capability to use synthetic fuels derived from coal or other alternate fuel.

(2) The Secretary shall, from time to time, review each exemption granted to a powerplant under this subsection, and shall terminate such exemption if he finds that there is available a supply of synthetic fuel derived from coal or other alternate fuel suitable for use as a primary energy source by such powerplant.

(h) Permanent exemption for use of natural gas by certain powerplants with capacities of less than 250 million Btu's per hour

(1) Subject to paragraph (2), after consideration of a petition (and comments thereon) for an exemption from any prohibition of part A for the use of natural gas by a powerplant, the Secretary shall, by order, grant a permanent ex-
emption under this subsection for such use, if he finds that the petitioner has demonstrated that—

(A) such powerplant has a design capability of consuming fuel (or any mixture thereof) at a fuel heat input rate of less than 250 million Btu's per hour;

(B) such powerplant was a baseload powerplant on April 20, 1977; and

(C) such powerplant is not capable of consuming coal without—

(i) substantial physical modification of the unit; or

(ii) substantial reduction in the rated capacity of the unit (as determined by the Secretary).

(2) An exemption under this subsection may only apply to the prohibitions under section 8341 of this title and prohibitions established by final rules or orders issued before January 1, 1990.

(i) Permanent exemption for use of LNG by certain powerplants

After consideration of a petition (and comments thereon) for an exemption from one or more of the prohibitions of part A for a powerplant, the Secretary shall, by order, grant a permanent exemption under this subsection for the use of liquefied natural gas if the Administrator of the Environmental Protection Agency (or the appropriate State air pollution control agency) has certified to the Secretary that the use of coal by such powerplant as a primary energy source will cause or contribute to a concentration, in an air quality control region or any area within such region, of a pollutant for which any national ambient air quality standard is or would be exceeded for such region or area and the use of coal would not comply with applicable environmental requirements.

§ 8355. General requirements for exemptions

(a) Use of mixtures or fluidized bed combustion not feasible

Except in the case of an exemption under section 8352(b), (f), or (i) of this title, the Secretary may grant a permanent exemption for a powerplant under this part only—

(1) if the applicant has demonstrated that the use of a mixture of natural gas or petroleum and coal (or other alternate fuels), for which an exemption under section 8352(b) of this title would be available, is not economically or technically feasible; and

(2) if the Secretary has not made a finding that the use of a method of fluidized bed combustion of coal or an alternate fuel is economically and technically feasible.

(b) No alternative power supply in case of a powerplant

(1) In the case of an exemption under section 8352(b) or (g) of this title, the Secretary may not grant an exemption for an existing powerplant unless he finds that the petitioner has demonstrated that there is no alternative supply of electric power which is available within a reasonable distance at a reasonable cost without impairing short-run or long-run reliability of service and which can be obtained by the petitioner, despite reasonable good faith efforts.

(2) The Secretary shall forward a copy of any such petition to the Federal Energy Regulatory Commission promptly after it is filed with the Secretary and shall consult with the Commission before making any finding on such petition under paragraph (l).

§ 8355. Effective prior to 180 days after November 9, 1978

For effectiveness of exemption for certain electric powerplants as effective prior to 180 days after November 9, 1978, see section 902(a) of Pub. L. 95–620, set out as a note under section 8301 of this title.
§ 8354. Terms and conditions; compliance plans

(a) Terms and conditions generally

Any exemption from any prohibition under this part shall be on such terms and conditions as the Secretary determines appropriate, including terms and conditions requiring the use of effective fuel conservation measures which are practicable and consistent with the purposes of this chapter. In the case of any temporary exemption, the terms and conditions (which may include a compliance plan meeting the requirements of subsection (b) of this section) shall be designed to insure that upon the expiration of such exemption, the persons and powerplant covered by such exemption will comply with the applicable prohibitions.

(b) Compliance plans

A compliance plan meets the requirements of this subsection if it is approved by the Secretary and—

(1) contains (A) a schedule indicating how compliance with applicable prohibition of this chapter will occur and (B) evidence of binding contracts for fuel, or facilities for the production of fuel, which would allow for such compliance; and

(2) is revised at such times and to such extent as the Secretary may require to reflect changes in circumstances.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b)(1)(A), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–42 struck out “or installation” after “powerplant”.

EXEMPTION FOR CERTAIN ELECTRIC POWERPLANTS AS EFFECTIVE PRIOR TO 180 DAYS AFTER NOVEMBER 9, 1978

For effectiveness of exemption for certain electric powerplants as prior to 180 days after Nov. 9, 1978, see section 902(a) of Pub. L. 95–620, set out as a note under section 902(a) of this title.

SUBCHAPTER IV—ADDITIONAL PROHIBITIONS; EMERGENCY AUTHORITIES

Section 8371, Pub. L. 95–620, title IV, § 401, Nov. 9, 1978, 92 Stat. 3314, authorized Secretary to prohibit by order the use of natural gas as primary energy source in existing boilers used for space heating purposes which consume 300 Mcf or more of natural gas per day and have capability to use petroleum as primary energy source, and in new boilers to be used for space heating purposes which would be capable of consuming 300 Mcf or more of natural gas per day.

§ 8373. Conservation in Federal facilities, contracts, and financial assistance programs

(a) Federal facilities

(1) Each Federal agency owning or operating any electric powerplant shall comply with any prohibition, term, condition, or other substantial or procedural requirement under this chapter, to the same extent as would be the case if such powerplant were owned or operated by a nongovernmental person.

(2) The President may, by order, exempt from the application of paragraph (1) any powerplant owned or operated by any Federal agency, if the President determines that—

(A) such use is in the paramount interest of the United States and that the powerplant involved is a component of or is used solely in connection with any weaponry, equipment, aircraft, vessels, vehicles or other classes or categories of property which—

(i) are owned or operated by the Armed Forces of the United States (including the Coast Guard) or by the National Guard of any State; and

(ii) are uniquely military in nature; or

(B) there is a lack of appropriation for such use but only if the President specifically requested such appropriations as a part of the budgetary process and the Congress failed to make available such requested appropriation.

Such order shall not take effect until 60 days after a copy of such order has been transmitted to each House of the Congress. The President shall review each such determination every 2 years and submit a report to the Congress on the results of such review.

(b) Federal contracts and financial assistance

(1) In order to implement the purposes of this chapter, the President shall, not later than 30 days after the effective date of this chapter, issue an order—

(A) requiring each Federal agency which is authorized to extend Federal assistance by way of grant, loan, contract, or other form of financial assistance, to promptly effectuate the purposes of this chapter relating to the conservation of petroleum and natural gas, by rule, in each such contracting or assistance activities within 180 days after issuance of such order, and

(B) setting forth procedures, sanctions, penalties, and such other provisions as the President determines necessary to carry out such requirement effectively, including a requirement that each agency annually transmit to the President, and make available to the public, a report on the actions taken and to be taken to implement such order.

(2) The President may exempt by order any specific grant, loan, contract, or other form of financial assistance from all or part of the provisions of this subsection if he determines such exemption is in the national interest. The Presi-
dent shall notify the Congress in writing of such exemption at least 60 days before it is effective.

(3) The President or any Federal agency may not use the authority granted under paragraph (1) to require compliance, including the use of coal, by any person or facility with any prohibition under other sections of this chapter if such person or facility has been specifically determined by the Secretary as subject to such prohibition or has been exempted from the application of such prohibition.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a)(1) and (b)(1), (3), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Table.

The effective date of this chapter, referred to in subsec. (b)(1), is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

AMENDMENTS

1992—Subsec. (c). Pub. L. 102–486 struck out subsec. (c), which read as follows: “The President shall annually submit a detailed report to each House of the Congress on the actions taken by the President and each Federal agency to implement this section, including the progress and problems associated with implementation of this section.”

1987—Subsec. (a)(1). Pub. L. 100–42, § 1(c)(14)(A), struck out “, major fuel-burning installation, or other unit” after “electric powerplant” and “, installation, or unit” after “such powerplant”.

Subsec. (a)(2). Pub. L. 100–42, § 1(c)(14)(B), struck out “, installation, or other unit” after “powerplant”, in introductory provisions, “, installation, or unit” after “powerplant” in subpar. (A), and last sentence which read as follows: “Any powerplant, installation, or other unit permitted to use natural gas or petroleum under an exemption under this paragraph shall establish and carry out effective fuel conservation measures, as determined by the Secretary.”

Subsec. (a)(3). Pub. L. 100–42, § 1(c)(14)(D), struck out paragraph which read as follows: “Any powerplant, installation, or unit operated by any such Federal agency shall be entitled to any exemption by the Secretary to the same extent, in the same manner, and under the same terms and conditions as would apply if it were owned or operated by a nongovernmental person.”

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions of law requiring submittal to Congress of any annual, semiannual, or other regular periodic report listed in House Document No. 103–7 (in which the report under the last sentence of subsec. (a)(2) of this section is listed as the 16th item on page 19), see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance.

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 531(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

EX. ORD. NO. 12185, EFFECTUATION OF CONSERVATION OF PETROLEUM AND NATURAL GAS BY RECIPIENTS OF FEDERAL FINANCIAL ASSISTANCE

Ex. Ord. No. 12185, Dec. 17, 1979, 44 F.R. 75093, provided:

By the authority vested in me as President of the United States of America by Section 403(b) of the Powerplant and Industrial Fuel Use Act of 1978 (92 Stat. 3318; Public Law 95–620) (42 U.S.C. 8373(b)) and Section 301 of Title 3 of the United States Code, in order to encourage additional conservation of petroleum and natural gas by recipients of Federal financial assistance, it is hereby ordered as follows:

1–101. Each Federal agency, as that term is defined in Section 103(a)(25) of the Powerplant and Industrial Fuel Use Act of 1978 (92 Stat. 3289) [42 U.S.C. 8302(a)(25)], shall effectuate through its financial assistance programs the purposes of that Act relating to the conservation of petroleum and natural gas.

1–103. Within two months, and annually thereafter, each agency shall publish for comment a list of those programs which it has identified as likely to offer significant opportunity for significant conservation of petroleum and natural gas.

1–110. In order to assess the effectiveness of this program, each agency shall annually prepare a report on its activities in accord with Section 403(b)(1)(B) of the Act (42 U.S.C. 8373(b)). These reports shall be submitted to the President through the Secretary of Energy.
8374 \title{The Public Health and Welfare} \page{6618}

gress the report required by Section 403(c) of the Act [42 U.S.C. 8373(c)].

1-112. The Director of the Office of Management and Budget may issue any rules, regulations, or orders which he deems necessary to ensure the implementation of this Order. The Director may exercise any of the authority vested in him by Section 403(b) of the Act [42 U.S.C. 8373(b)], and may redelegate such of that authority as he deems appropriate to the head of any other agency.

JIMMY CARTER.

EXECUTIVE ORDER NO. 12217
Ex. Ord. No. 12217, June 18, 1980, 45 F.R. 41623, which established the responsibilities and duties of Executive agencies for compliance with this chapter, was revoked by Ex. Ord. No. 12423, Aug. 11, 1983, 48 F.R. 35801.

§ 8374. Emergency authorities

(a) Coal allocation authority

(1) If the President—

(A) declares a severe energy supply interruption, as defined in section 6202(8) of this title, or

(B) finds, and publishes such finding, that a national or regional fuel supply shortage exists or may exist which the President determines—

(i) is, or is likely to be, of significant scope and duration, and of an emergency nature;

(ii) causes, or may cause, major adverse impact on public health, safety, or welfare or on the economy; and

(iii) results, or is likely to result, from an interruption in the supply of coal or from sabotage, or an act of God;

the President may, by order, allocate coal (and require the transportation thereof) for the use of any electric powerplant or major fuel-burning installation, in accordance with such terms and conditions as he may prescribe, to insure reliability of electric service or prevent unemployment, or protect public health, safety, or welfare.

(2) For purposes of this subsection, the term "coal" means anthracite and bituminous coal and lignite (but does not mean any fuel derivative thereof).

(b) Emergency prohibition on use of natural gas or petroleum

If the President declares a severe energy supply interruption, as defined in section 6202(8) of this title, the President may, by order, prohibit any electric powerplant or major fuel-burning installation from using natural gas or petroleum, or both, as a primary energy source for the duration of such interruption. Notwithstanding any other provision of this section, any suspension of emission limitations or other requirements of applicable implementation plans, as defined in section 7410(d) of this title, required by such prohibition shall be issued only in accordance with section 7410(f) of this title.

(c) Emergency stays

The President may, by order, stay the application of any provision of this chapter, or any rule or order thereunder, applicable to any new or existing electric powerplant, if the President finds, and publishes such finding, that an emergency exists, due to national, regional, or systemwide shortages of coal or other alternate fuels, or disruption of transportation facilities, which emergency is likely to affect reliability of service of any such electric powerplant.

(d) Duration of emergency orders

(1) Except as provided in paragraph (3), any order issued by the President under this section shall not be effective for longer than the duration of the interruption or emergency, or 90 days, whichever is less.

(2) Any such order may be extended by a subsequent order which the President shall transmit to the Congress in accordance with section 6221 of this title. Such order shall be subject to congressional review pursuant to such section.

(3) Notwithstanding paragraph (1), the effectiveness of any order issued under this section shall not terminate under this subsection during the 15-calendar-day period during which any such subsequent order described in paragraph (2) is subject to congressional review under section 6221 of this title.

(4) For purposes of this subsection, the provisions of this subsection supersede the provisions of subchapter II of chapter 34 of title 50.

(e) Delegation of authority prohibited

The authority of the President to issue any order under this section may not be delegated. This subsection shall not be construed to prevent the President from directing any Federal agency to issue rules or regulations or take such other action, consistent with this section, in the implementation of such order.

(f) Publication and reports to Congress of orders

Any order issued under this section shall be published in the Federal Register. To the greatest extent practicable, the President shall, before issuing any order under this section, but in no event later than 5 days after issuing such order, report to the Congress of his intention to issue such order and state his reasons therefor.

REFERENCES IN TEXT

This chapter, referred to in subsec. (c), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3389, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

Subchapter H (§1021 et seq.) of chapter 34 of title 50, referred to in subsec. (d)(4), was in the original “title II of the Act of September 14, 1976 (Public Law 94–412)”, which is known as the National Emergencies Act.

AMENDMENTS

1987—Subsec. (g). Pub. L. 100–42 struck out subsec. (g) which permitted use of natural gas or petroleum as primary energy source in peaktload powerplant or major fuel-burning installation during temporary emergency condition (other than emergency conditions provided for under section 8302(a)(15) of this title).

Section, Pub. L. 95–620, title IV, § 405, Nov. 9, 1978, 92 Stat. 3320, prohibited increased use of petroleum as primary energy source, unless permit authorizing such increased use had been issued by Secretary.

SUBCHAPTER V—SYSTEM COMPLIANCE OPTION

Section, Pub. L. 95–620, title V, § 501, Nov. 9, 1978, 92 Stat. 3321, mandated that existing electric powerplants owned or operated by an electric utility be considered in compliance with prohibitions under subchapter III of this chapter relating to use of natural gas if there is in effect an approved plan of system compliance for such utility, and set forth requirements for approval of such plan.

SUBCHAPTER VI—FINANCIAL ASSISTANCE

§ 8401. Assistance to areas impacted by increased coal or uranium production

(a) Designation of impacted areas

(1) In accordance with such criteria and guidelines as the Secretary of Agriculture shall, by rule, prescribe, the Governor of any State may designate any area within such State for the purposes of this section, if he finds that—

(A) the Governor of the State making the designation provides the Secretary in writing with the data and information on which such designation was made, together with such additional information as the Secretary may require to carry out the purposes of this section; and

(B) the Secretary determines that the requirements of subparagraphs (A), (B), and (C) of paragraph (1) have been met.

(b) Planning grants

(1) The Secretary of Agriculture may make a grant to any State in which there is an area designated and approved under subsection (a) of this section for the purposes of developing a plan for such area which shall include determinations of—

(A) the anticipated level of coal or uranium production activities in such area;

(B) the socio-economic impacts which have occurred or which are reasonably projected to occur as a result of the increase in coal or uranium production activities;

(C) the availability and location of resources within such area to meet the increased needs resulting from socio-economic impacts determined under subparagraph (B) (such as any increased need for housing, or public facilities and services); and

(D) the nature and expense of measures necessary to meet within a reasonable time the increased needs resulting from such impact for which there are no resources reasonably available other than under this section.

(2)(A) Any grant for developing a plan under this subsection shall be for an amount equal to 100 percent of the costs of such plan, as determined by the Secretary of Agriculture.

(B) The aggregate amount granted under this subsection in any fiscal year may not exceed 10 percent of the total amount appropriated for purposes of this section for such year.

(3) The Governor of a State receiving a grant under this subsection for developing a plan shall submit a copy of such plan to the Secretary of Agriculture as soon as practicable after it has been prepared.

(c) Land acquisition and development grants

(1) In the case of any real property—

(A) within an area for which a plan meeting the requirements of subsection (b)(1) of this section has been approved;

(B) which is for housing or public facilities determined in such plan as necessary due to an increase in employment due to coal or uranium development activities;

(C) with respect to which the Secretary of Agriculture has determined that the State and the local governments serving such area do not have the financial resources to acquire or to the legal authority to acquire by condemnation; and

(D) with respect to which there has been an approval in writing by the Governor of such State that the Secretary of Agriculture exercise his authority under this paragraph;

the Secretary of Agriculture may acquire such real property or interest therein, by purchase, donation, lease, or exchange. Property so ac-
required shall be transferred to the State under such terms and conditions as the Secretary of Agriculture deems appropriate. Such terms and conditions shall provide for the reimbursement to the Secretary of Agriculture for the fair market value of the property, as determined by the Secretary of Agriculture. The value of any improvement of such property made after such acquisition shall not be taken into account in determining the fair market value of such property under this subsection. Amounts so received by the Secretary of Agriculture shall be deposited in the Treasury of the United States as miscellaneous receipts.

(2) Any approval by a Governor of a State under paragraph (1)(D) shall constitute a binding commitment of such State to accept the property to be acquired and to provide reimbursement for the amount of the fair market value of such property, as determined under paragraph (1).

(3) The Secretary of Agriculture may acquire property under paragraph (1) by condemnation only if he finds that—

(A) such property is not available by means other than condemnation at a price which does not substantially exceed the fair market value of such property;

(B) other real property is not similarly available which is within the same designated area and which is suitable for the purposes to which the property involved is to be applied; and

(C) the State and the local governments serving such area lack the legal authority to acquire such property by condemnation.

(4)(A) In the case of any real property which meets the requirements of subparagraphs (A), (B), and (C) of paragraph (1), the Secretary of Agriculture may make a grant to the State in which such property is located for the purposes of acquiring such property, and for any site development or both under this paragraph which is consistent with the plan developed under subsection (b) of this section.

(B) In the case of property acquired by the Secretary of Agriculture under paragraph (1) and transferred to the State, the Secretary of Agriculture may make a grant to such unit of government for the purposes of site development which is consistent with such plan.

(C) Grants for real property acquisition or site development or both under this paragraph may not exceed 75 percent of the costs thereof, as determined by the Secretary of Agriculture.

(5) In the selection of real property for acquisition and in such acquisition under this subsection, preference shall be given to real property which the Secretary of Agriculture determines at such time to be unoccupied or previously mined and abandoned.

(6)(A) Property held by the United States in trust for Indians or any Indian tribe may not be acquired by condemnation under this section.

(B) No property within the National Forest System (as defined in section 16091 of title 16) may be exchanged by the Secretary in any acquisition under paragraph (1).

(d) General requirements regarding assistance

(1) Assistance under this section shall be provided only upon application, which application shall contain such information as the Secretary of Agriculture shall prescribe.

(2) The Secretary of Agriculture may make any grant under this section in whole or in part to the local government or governments serving an area designated and approved under subsection (a) of this section, or to a council of local governments which includes one or more local governments serving such area (in lieu of making such grant solely to the State), if he has determined, after consultation with the Governor of the State, that to do so would be appropriate.

(3) The Secretary of Agriculture shall prescribe, by rule, criteria for the allocation of assistance under this section. Such criteria shall give due weight to the magnitude of the employment increase involved, the financial resources of the designated area, and the ratio of the financial burden on the area to the resources available to such area.

(4) Assistance under this section shall be provided only if the Secretary of Agriculture is satisfied that—

(A) the amounts expended by the State and the local governments involved for the same purposes for which such assistance is provided will not be reduced; and

(B) the amount of such assistance does not reflect any amount for which other Federal financial assistance is provided or on proper application would be provided.

(e) “Coal or uranium development activities” and “site development” defined

For the purposes of this section—

(1) The term “coal or uranium development activities” means the production, processing, or transportation of coal or uranium.

(2) The term “site development” means necessary on-site, off-site, or both, and such construction, rehabilitation, conversion, or restoration, but does not include any portion of the construction of housing or public facilities.

(f) Reports

Any person regularly engaged in any coal or uranium development activity within an area designated and approved under subsection (a) of this section may report to the Secretary of Energy within 90 days after a written request to such person by the Governor of the State in which such area is located. Such report shall include—

(1) projected employment levels for such activity by such person within such area during each of the following 3 calendar years;

(2) the projected increase in employees in such area to engage in such activity during each of such calendar years;

(3) the projected quantity of coal (or uranium) to be produced, processed, or transported by such person during each of such calendar years; and

(4) actions such companies plan to take or are taking to provide needed housing and

---

1 See References in Text note below.
other facilities for their employees directly or by providing funds to the States or local communities for this purpose.

Copies of the report shall be provided to the Secretary of Energy and the Secretary shall, subject to the provisions of section 796(d) of title 15, provide the report to the Secretary of Agriculture, the Governor, and the appropriate county or local officials and make it available for public review.

(g) Administration

The Secretary of Agriculture shall carry out his responsibilities under this section through the Farmers Home Administration and such other agencies within the Department of Agriculture as he may determine appropriate.

(h) Appropriations authorization

(1) There is hereby authorized to be appropriated to the Secretary of Energy for purposes of this section, $60,000,000 for fiscal year 1979 and $120,000,000 for fiscal year 1980. The Secretary of Energy and the Secretary of Agriculture shall enter into an agreement for the allocation of funds appropriated pursuant to this section for carrying out their respective responsibilities under this section, including the amounts for personnel and administrative costs, and upon such agreement, the Secretary of Energy shall transfer to the Secretary of Agriculture amounts determined under that agreement.

(i) Protection from certain hazardous actions

Federal agencies having responsibilities concerning the health and safety of any person working in any coal, uranium, metal, or non-metallic mine regulated by any Federal agency shall interpret and utilize their authorities fully and promptly, including the promulgation of standards and regulations, to protect existing and future housing, property, persons, and public facilities located adjacent to or near active and abandoned coal, uranium, metal, and non-metallic mines from actions occurring at such activities that pose a hazard to such property or persons.

(j) Reorganization

The authority of the Secretary of Agriculture and the authority of the Secretary of Energy under this section may not be transferred to any other Secretary or to any other Federal agency under chapter 9 of title 5 or under any other provision of law, other than under specific provisions of a law enacted after November 9, 1978. The preceding provisions of this subsection shall not preclude either Secretary from delegating any such authority to any officer, employee, or entity within such Secretary’s department.

§ 8401a. “Local government” defined

For the purposes of section 8401 of this title, the term “local government” shall include—

(1) any county, parish, city, town, township, village or other general purpose political subdivision of a State with the power to levy taxes and expend Federal, State, and local funds and exercise governmental powers; and

(2) which (in whole or in part) is located in, or has authority over the energy impacted area: Provided further, That such term shall include a public or private nonprofit corporation, or a school, water, sewer, highway, or other public special purpose district, authority, or body, with the concurrence of the Governor: Provided further, That such term shall be applicable to all applications for assistance received since the effective date of section 8401 of this title.

References in Text

For effective date of section 8401 of this title, referred to in par. (2), see section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

Codification

Section was enacted as part of the Department of the Interior and Related Agencies Appropriations Act, 1981, and not as part of the Powerplant and Industrial Fuel Use Act of 1978 which comprises this chapter.

§ 8402. Loans to assist powerplant acquisitions of air pollution control equipment

(a) Authority to make loans

The Secretary may, in accordance with the provisions of this section and such rules and regulations as he shall prescribe, make a loan (and may make a commitment to loan) to any person who owns or operates any existing electric powerplant converting to coal or other alternate fuel as its primary energy source after the effective date of this chapter for the purpose of financing the purchase and installation of one or more certified air pollution control devices for such electric powerplant.

(b) Limitations and conditions

A loan made under this section shall—

(1) not exceed two-thirds of the cost of purchasing and installing the certified air pollution control devices;

(2) have a maturity date not extending beyond 10 years after the date such loan is made;

(3) bear interest at a rate not less than (A) a rate determined by the Secretary of the Treasury, taking into consideration the average market yield of outstanding Treasury obligations of comparable maturity, plus (B) 1 percent;

(4) be made on the condition of payment to the Secretary of a loan fee in an amount equal

References in Text

The effective date of this chapter, referred to in subsec. (a)(1), is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

Section 1609 of title 16, referred to in subsec. (c)(6)(B), was in the original “section 10 of the Forest and Range-
to (A) such insurance fee as the Secretary determines is necessary to avoid a Federal revenue loss under this section, plus (B) 1 percent of the loan amount; and

(5) be made only if the Secretary finds that—

(A) the financial assistance applied for is not otherwise available from other Federal agencies;

(B) the applicant is unable to obtain sufficient funds on reasonable terms and conditions from any other source;

(C) there is continued reasonable assurance of full repayment of the principal, interest, and fees; and

(D) competition among private entities for the provision of air pollution control devices for electric powerplants using coal as their primary energy source to be assisted under this section will be in no way limited or precluded.

c) **Allocation and priorities**

In making loans or commitments to loan pursuant to this section, the Secretary shall—

(1) allocate a minimum of 25 percent of available financial assistance to existing small municipal and rural powerplants; and

(2) give priority consideration to requests for financial assistance by existing electric powerplants subject to any prohibition under subchapter III of this chapter (or under section 792 of title 15).

d) **Definitions**

For purposes of this section—

(1) The term “certified pollution control device” means a new identifiable device which—

(A) is used, in connection with a powerplant, to abate or control atmospheric pollution by removing, altering, disposing, storing, or preventing the emission of pollutants;

(B) the appropriate State air pollution control agency has certified to the Administrator of the Environmental Protection Agency that such device is needed to meet, and is in conformity with, State requirements for abatement or control of atmospheric pollution or contamination;

(C) the Administrator of the Environmental Protection Agency has certified to the appropriate State air pollution control agency that such device is needed to meet, and is in conformity with, State requirements for abatement or control of atmospheric pollution or contamination; and

(D) does not constitute or include a building, or a structural component of a building, other than a building used exclusively for other than a building used exclusively for

(E) the construction of which began after the effective date of this chapter.

(2) The term “small municipal or rural cooperative electric powerplant” means an electric generating unit, which—

(A) by design is not capable of consuming fuel at a fuel heat input rate in excess of a rate determined appropriate by the Secretary by rule; and

(B) is owned or operated by a municipality or a rural electric cooperative.

e) **Records**

(1) The Secretary shall require all persons receiving financial assistance under this section to keep such records as the Secretary shall prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance was given or used, the amount of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall, until the later of—

(A) the expiration of 3 years after completion of the project or undertaking referred to in subsection (a) of this section, or

(B) full repayment of interest and principal on a loan made under this section, occurs,

have access for the purposes of audit, examination to any books, documents, papers, and records of such receipts which in the opinion of the Secretary or the Comptroller General may be related or pertinent to such loan.

(f) **Default**

(1) If there is a default in any payment by the obligor of interest or principal due under a loan entered into by the Secretary under this section and such default has continued for 90 days, the Secretary has the right to demand payment of such unpaid amount, unless the Secretary finds that such default has been remedied, or a satisfactory plan to remedy such default by the obligor has been accepted by the Secretary.

(2) In demanding payment of unpaid interest or principal by the obligor, the Secretary has all rights specified in the loan-related agreements with respect to any security which he held with respect to the loan, including the authority to complete, maintain, operate, lease, sell, or otherwise dispose of any property acquired pursuant to such loan or related agreements.

(3) If there is a default under any loan, the Secretary shall notify the Attorney General who shall take such action against the obligor or other parties liable thereunder as is, in his discretion, necessary to protect the interests of the United States. The holder of such loan shall make available to the United States all records and evidence necessary to prosecute any such suit.

g) **Deposit of receipts**

Amounts received by the Secretary as principal, interest, fees, proceeds from security acquired following default, or other amounts received by the Secretary in connection with loans made under this section shall be paid into the Treasury of the United States as miscellaneous receipts.

h) **Authorization of appropriation**

There are hereby authorized to be appropriated to the Secretary such sums as may be necessary to carry out the purposes of this sec-
tion, but not to exceed $400,000,000 for fiscal year 1979 and $400,000,000 for fiscal year 1980. Authority granted to the Secretary under subsection (a) of this section may be exercised only to the extent as may be provided in advance in appropriation Acts.

REFERENCES IN TEXT
The effective date of this chapter, referred to in subsecs. (a) and (d)(1)(E), is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

The Clean Air Act, referred to in subsec. (d)(1)(C), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

SUBCHAPTER VII—ADMINISTRATION AND ENFORCEMENT

PART A—PROCEDURES

§ 8411. Administrative procedures

(a) General rulemaking
Except to the extent otherwise provided in this section or other provisions of this chapter, rules prescribed under this chapter shall be made in accordance with the procedures set forth in section 553 of title 5.

(b) Notices of rules and orders imposing prohibitions
Before the Secretary prescribes any rule or issues any order imposing a prohibition under this chapter, he shall publish such proposed rule or order in the Federal Register, together with a statement of the reasons for such rule or order and, in the case of a rule, a detailed statement of any special circumstances or characteristics required to be taken into account in prescribing such rule. A copy shall be transmitted to the person who operates any such powerplant required to be specifically identified in such rule or order.

(c) Petitions for exemptions
(1) Any petition for an exemption from any prohibition under this chapter shall be filed at such time and shall be in such form as the Secretary shall by rule prescribe. The Secretary, upon receipt of such petition, shall publish a notice thereof in the Federal Register together with a statement of the reasons set forth in such a petition for requesting such exemption, and provide a period of public comment of at least 45 days for written comments thereon. Rules required under this paragraph shall be prescribed not later than 120 days after November 9, 1978.

(2) The Secretary, upon receipt of such petition, shall notify the appropriate State agencies having primary authority to permit or regulate the construction or operation of the electric powerplant which is the subject of such petition, and, to the maximum extent practicable, consult with such agencies.

(3) The Secretary, within 6 months after the period for public comment and hearing applicable to any petition for an exemption, shall issue a final order granting or denying the petition for such exemption, except that the Secretary may extend such period to a specified date if he publishes notice thereof in the Federal Register and includes with such notice a statement of the reasons for such extension.

(d) Public comment on prohibitions and exemptions
(1) In the case of any proposed rule or order by the Secretary imposing a prohibition or any petition for any order granting an exemption under this chapter, any interested person shall be afforded an opportunity to present oral data, views, and arguments at a public hearing. At such hearing any interested person shall have an opportunity to question—

(A) other interested persons who make oral presentations,

(B) employees and contractors of the United States who have made written or oral presentations or who have participated in the development of the proposed rule or order or in the consideration of such petition, and

(C) experts and consultants who have provided information to any person who makes an oral presentation and which is contained in or referred to in such presentation, with respect to disputed issues of material fact, except that the Secretary may restrict questioning if he determines that such questioning is duplicative or is not likely to result in a timely and effective resolution of such issues. Any oral or documentary evidence may be received, but the Secretary as a matter of policy shall provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence.

(2) A rule or order subject to this section may not be issued except on consideration of the whole record or those parts thereof cited by a party and supported by and in accordance with the reliable, probative, and substantial evidence.

(e) Transcript
A transcript shall be kept of any public hearing made in accordance with this section.

(f) Environmental Protection Agency comment
A copy of any proposed rule or order to be prescribed or issued by the Secretary which imposes a prohibition under this chapter (other than under section 8374 of this title), or a petition for an exemption (or permit) under this chapter (other than under section 8374 of this title), shall be transmitted by the Secretary to the Administrator of the Environmental Protection Agency and the Secretary shall request such agency to comment thereon within the period provided to the public unless a longer period is provided under the Clean Air Act [42 U.S.C. 7401 et seq.]. In any such case, the Administrator of the Environmental Protection Agency shall be afforded the same opportunity to comment and question as is provided other interested persons under subsection (d) of this section.

(h) Coordination with other provisions of law
(1) Except as provided in sections 8412(c)(4), 8433(d)(5), and 8434 of this title, title V of the De-
department of Energy Organization Act (42 U.S.C. 7191, et seq.) shall not apply with respect to this chapter.

(2) The preceding provisions of this section shall not apply with respect to any exercise of authority under section 8374 of this title.

(3) The procedures applicable under this chapter shall not—

(A) be considered to be modified or affected by any other provision of law unless such other provision specifically amends this chapter (or provisions of law cited herein), or

(B) be considered to be superseded by any other provision of law unless such other provision does so in specific terms, referring to this chapter, and declaring that such provision supersedes, in whole or in part, the procedures of this chapter.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) to (c)(1), (d)(1), (f), and (h)(1), (d), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 7191 of this title and Table.

The Clean Air Act, referred to in subsec. (f), is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7191 of this title and Table.

AMENDMENTS

1987—Subsec. (b). Pub. L. 100–42, §1(c)(16)(A), struck out “(other than under section 8372 of this title)” after “this chapter” and “or installation” after “powerplant.”

Subsec. (c)(1). Pub. L. 100–42, §1(c)(16)(B)(i), struck out “or for any permit under section 8375 of this title” after “this chapter” and “or permit” after “such exemption”.

Subsec. (c)(2). Pub. L. 100–42, §1(c)(16)(B)(ii), struck out “or, where appropriate, major fuel-burning installation” after “powerplant”.

Subsec. (c)(3). Pub. L. 100–42, §1(c)(16)(B)(iii), struck out “or permit” after “exemption” in two places.

Subsec. (c)(4). Pub. L. 100–42, §1(c)(16)(B)(iv), struck out par. (4) which read as follows: “Any order for the approval of a system compliance plan under section 8391 of this title, and any petition for such an order, shall be treated for purposes of this subchapter the same as an order (or petition) for an exemption.”

Subsec. (d)(1). Pub. L. 100–42, §1(c)(16)(C), struck out “(or permit)” after “an exemption” and “(other than under section 8372 of this title)” after “under this chapter”.

Subsec. (f). Pub. L. 100–42, §1(c)(16)(D), struck out “8372 or” after “other than under section 8372 of this title” in two places.

Subsec. (g). Pub. L. 100–42, §1(c)(16)(E), struck out subsec. (g) which read as follows: “A copy of any proposed rule or order to be prescribed or issued by the Secretary which imposes a prohibition under this chapter—

(other than under section 8372 or 8374 of this title) with respect to a major fuel-burning installation or a boiler subject to section 8371 of this title or a petition by such installation or boiler for an exemption (or permit) under this chapter (other than under section 8372 or 8374 of this title), shall be transmitted by the Secretary to the Federal Trade Commission and the Secretary shall request such Commission to comment thereon within the period provided to the public. In any such case, the Federal Trade Commission shall be afforded the same opportunity to comment and question as is provided other interested persons under subsection (d) of this section.”

§8412. Judicial review

(a) Publication and delay of prohibition or exemption to allow for review

Any final rule or order prescribed by the Secretary imposing a prohibition or granting an exemption (or permit) under this chapter shall be published in the Federal Register, and shall not take effect earlier than the 60th calendar day after such rule or order is published.

(b) Publication of denial of exemption or permit

Any final order issued by the Secretary denying any petition for an exemption or a permit under this chapter shall be published in the Federal Register, together with the reasons for such action.

(c) Judicial review

(1) Any person aggrieved by any final rule or order referred to in subsection (a) of this section or in section 8374 of this title, or by the denial of a petition for an order granting an exemption (or permit) referred to in subsection (b) of this section, may at any time before the 60th day after the date such rule, order, or denial is published under subsection (a) or (b) of this section, file a petition with the United States court of appeals for the circuit wherein such person resides, or has his principal place of business, for judicial review thereof. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the written submissions to, and transcript of, the written or oral proceedings on which the rule or order was based as provided in section 2112 of title 28.

(2) Upon the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to review the rule, order, or denial in accordance with chapter 7 of title 5, and to grant appropriate relief as provided in such chapter.

(3) No rule or order (or denial thereof) may be affirmed unless supported by substantial evidence.

(4) The judgment of the court affirming or setting aside, in whole or in part, any such rule, order, or denial shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(4) Subject to the direction and control of the Attorney General, as provided in section 519 of title 28, attorneys appointed by the Secretary may appear for and represent the Secretary in any proceeding instituted under this section in accordance with section 7192(c) of this title.

REFERENCES IN TEXT
This chapter, referred to in subsecs. (a) and (b), was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

PART B—INFORMATION AND REPORTING
§ 8421. Information
(a) Authority of Secretary
For purposes of carrying out his responsibilities under this chapter, the Secretary may require, under the authority of this chapter or any other authority administered by him, any person owning, operating or controlling any electric powerplant, or any other person otherwise subject to this chapter to submit such information and reports of any kind or nature directly to the Secretary necessary to implement the provisions of this chapter, and to the Secretary findings made necessary by such reports.

(b) Authority of President and Federal Energy Regulatory Commission
In the case of responsibilities expressly given by this chapter to the President or the Federal Energy Regulatory Commission, subsection (a) of this section shall be applied as if the references to the Secretary were references to the President or the Federal Energy Regulatory Commission, as the case may be.

(c) Natural gas usage by electric utilities
(1) For purposes of section 8374(b) of this title and other emergency authorities, the Secretary shall obtain data necessary to determine—
(A) the total quantities of natural gas used as a primary energy source by each electric utility during calendar year 1978, and
(B) on a semiannual basis, the total quantities of natural gas used as a primary energy source during the previous 6-month period by each electric utility.

(b) Report on implementation of section 8484 plan
Any electric utility required to submit a conservation plan under section 8484 of this title shall annually submit to the Secretary a report identifying the steps taken during the preceding year to implement such plan.

REFERENCES IN TEXT
This chapter, referred to in subsec. (a), was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

AMENDMENTS
1987—Subsec. (a). Pub. L. 100–42 struck out "or major fuel-burning installation" after "powerplant".

§ 8422. Compliance report
(a) Generally
Any person owning, operating, or proposing to operate one or more existing electric powerplants required to come into compliance with the prohibitions of this chapter shall on or before January 1, 1980, and annually thereafter, submit to the Secretary a report identifying all such existing electric powerplants owned or operated by such person. Such report shall—
(1) set forth the anticipated schedule for compliance with the applicable requirements and prohibitions by each such electric powerplant;
(2) indicate proposed or existing contracts or other commitments or good faith negotiations for such contracts or commitments for coal or another alternate fuel, equipment, or combinations thereof, which would enable such powerplant to comply with such prohibitions; and
(3) identify those electric powerplants, if any, for which application for temporary or permanent exemption from the prohibitions of this chapter may be filed.

(b) Report on implementation of section 8484 plan
Any electric utility required to submit a conservation plan under section 8484 of this title shall annually submit to the Secretary a report identifying the steps taken during the preceding year to implement such plan.

This chapter, referred to in subsec. (a), was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

AMENDMENTS
1981—Pub. L. 97–35 designated existing provisions as subsec. (a) and added subsec. (b).

PART C—ENFORCEMENT
§ 8431. Notice of violation; other general provisions
(a) Notice of violation
(1) Whenever, on the basis of any information available, the Secretary finds that any person is
§ 8432. Criminal penalties

Any person who willfully violates any provision of this chapter, or any rule or order thereunder, shall be subject to a fine of not more than $50,000, or to imprisonment for not more than one year, or both, for each violation.

References in Text

This chapter, referred to in subsec. (a), was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter.

For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

Amendments

1987—Pub. L. 100–42 struck out "(other than section 8372 of this title)" after "this chapter".

§ 8433. Civil penalties

(a) General civil penalty

Any person who violates any provision of this chapter, or rule or order thereunder, shall be subject to a civil penalty which shall be as -

(b) Civil penalty for operation in excess of exemption

In the case of any electric powerplant granted an exemption, any person who operates such powerplant during any 12-calendar-month period in excess of that authorized in such exemption, shall be liable for a civil penalty which shall be assessed by the Secretary. The amount of such civil penalty may not exceed $10 per barrel of petroleum or $3 per Mcf of natural gas used in operation of such powerplant in excess of that authorized in such exemption.

(d) Assessment

(1) Before issuing an order assessing a civil penalty against any person under this chapter, the Secretary shall provide to such person notice of the proposed penalty. Such notice shall inform such person of his opportunity to elect in writing within 30 days after the date of receipt of such notice to have the procedures of paragraph (3) apply with respect to such assessment.

(2)(A) Unless an election is made within 30 calendar days after receipt of notice under paragraph (1) to have paragraph (3) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5 before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the amount of such penalty—

"(1) were unavailable for service—

"(A) due to unit or system outages; or

"(B) because operation of such other powerplants would result in their exceeding the hours of operation allowed under an exemption; and

"(2) have not been operated other than to meet peakload demand."

§ 8432. Criminal penalties

Any person who willfully violates any provision of this chapter, or any rule or order thereunder, shall be subject to a fine of not more than $50,000, or to imprisonment for not more than one year, or both, for each violation.

(3)(A) In the case of any civil penalty with respect to which the procedures of this paragraph have been elected, the Secretary shall promptly assess such penalty, by order, after the date of the receipt of the notice under paragraph (1) of the proposed penalty.

(B) If the civil penalty has not been paid within 60 calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and the facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

(C) Any election to have this paragraph apply may not be revoked except with the consent of the Secretary.

(4) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order under paragraph (2), or after the appropriate district court has entered final judgment in favor of the Secretary under paragraph (3), the Secretary shall institute an action to recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review.

(5)(A) Notwithstanding the provisions of title 28, or of section 7192(c) of this title, the Secretary shall be represented by the general counsel of the Department of Energy (or any attorney or attorneys within the Department of Energy designated by the Secretary) who shall supervise, conduct, and argue any civil litigation to which paragraph (3) of this subsection applies (including any related collection action under paragraph (4) in a court of the United States or in any other court, except the Supreme Court. However, the Secretary or the general counsel shall consult with the Attorney General concerning such litigation, and the Attorney General shall provide, on request, such assistance in the conduct of such litigation as may be appropriate.

(B) Subject to the provisions of section 7192(c) of this title, the Secretary shall be represented by the Attorney General, or the Solicitor General, as appropriate, in actions under this subsection, except to the extent provided in subparagraph (A) of this paragraph.

(C) Section 7172(d) of this title shall not apply with respect to the functions of the Secretary under this subsection.

(1987—Subsec. (a). Pub. L. 100–42, §1(c)(20)(A), struck out “(other than section 8372 of this title)” after “this chapter”.

Subsec. (b). Pub. L. 100–42, §1(c)(20)(B), (C), struck out “(1)” before “In the case of” and struck out par. (2) which read as follows: “Any person operating a major fuel-burning installation granted an exemption which, for any 12-calendar-month period, uses petroleum or natural gas, or both, in excess of that use allowed by such exemption shall be liable for a civil penalty, which shall be assessed by the Secretary. The amount of such civil penalty may not exceed $10 per barrel of petroleum or $3 per Mcf of natural gas which was used in excess of that use allowed by such exemption.”

Subsec. (c). Pub. L. 100–42, §1(c)(20)(C), struck out subsec. (c) which set forth civil penalties for violation of section 8372 of this title.

§ 8434. Injunctions and other equitable relief

Whenever it appears to the Secretary that any person has engaged, is engaged, or is about to engage in acts or practices constituting a violation of this chapter, or any rule or order thereunder, a civil action, may be brought, in accordance with section 7192(c) of this title, in the appropriate district court of the United States to enjoin such acts or practices, and, upon a proper showing, the court shall grant, without bond, mandatory or prohibitive injunctive relief, including interim equitable relief.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

§ 8435. Citizens suits

(a) General rule

Except as otherwise provided in subsection (b) of this section, any aggrieved person may commence a civil action for mandatory or prohibitive injunctive relief, including interim equitable relief, against the Secretary or the head of any Federal agency which has a responsibility under this chapter if there is an alleged failure of the Secretary or such agency head to perform any act or duty under this chapter which is not discretionary. The United States district courts shall have jurisdiction over actions brought under this section, without regard to the amount in controversy or the citizenship of the parties.

(b) Notice to Secretary or agency head

No action may be commenced under subsection (a) of this section before the 60th calendar day after the date on which the plaintiff has given notice of such action to the Secretary or the agency head involved. Notice under this subsection shall be given in such manner as the Secretary shall prescribe by rule.

(c) Authority of Secretary to intervene

In any action brought under subsection (a) of this section, the Secretary, if not a party, may intervene as a matter of right.

1 So in original. The comma probably should not appear.
(d) Costs of litigation

The court, in issuing any final order in any action brought under subsection (a) of this section, may award costs of litigation (including reasonably compensable attorney and expert witness fees) to any party, whenever the court determines such award is appropriate.

(e) Other remedies to remain available

Nothing in this section shall restrict any right which any aggrieved person (or class of aggrieved persons) may have under any statute or common law to seek enforcement of this chapter or any rule thereunder, or to seek any other relief (including relief against the Secretary or the agency head involved).

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (e), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

PART D—PRESERVATION OF CONTRACTUAL RIGHTS

§ 8441. Preservation of contractual interest

(a) Right to transfer contractual interests

(1) If any person receives natural gas, the use of which is prohibited by the provisions of subchapter III of this chapter or any rule or order thereunder, and if such natural gas is received pursuant to a contract in effect on April 20, 1977, between such person and any other person, such receiving person may transfer all or any portion of such person’s contractual interests under such contract and receive consideration from the person to whom such interests are transferred. The consideration authorized by this subsection shall not exceed the maximum consideration established as just compensation under this section.

(2) Any person who would have transported or distributed the natural gas subject to a contract with respect to which contractual interests are transferred pursuant to paragraph (1) shall be entitled to receive just compensation (as determined by the Commission) from the person to whom such contractual interests are transferred.

(b) Determination of consideration

(1) The Commission shall, by rule, establish guidelines for the application on a regional or national basis (as may be appropriate) of the criteria specified in subsection (a)(1) of this section to determine the maximum consideration permitted as just compensation under this section.

(2) The person transferring contractual interests pursuant to subsection (a)(1) of this section and the person to whom such interests are transferred may agree on the amount of, or method of determining, the consideration to be paid for such transfer and certify such consideration to the Commission. Except as provided in paragraph (4), such agreed-upon consideration shall not exceed the consideration determined by application of the guidelines prescribed by the Commission under paragraph (1).

(3) In the event the person transferring contractual interests pursuant to subsection (a)(1) of this section and the person to whom such interests are to be transferred fail to agree, under paragraph (2), on the amount of, or method of determining, the consideration to be paid for such transfer, the Commission may, at the request of both such persons, prescribe the amount of, or method of determining, such consideration. Upon the request of either such person, the Commission shall make such determination on the record, after an opportunity for agency hearing. In any such latter case, the determination of the Commission shall be binding upon the party requesting that such determination be made on the record of the agency hearing. The consideration prescribed by the Commission shall not exceed the maximum consideration permitted as just compensation under this section.

(4) In the event that the consideration agreed upon under paragraph (2) exceeds the consideration determined by application of the guidelines prescribed by the Commission under paragraph (1), the Commission may approve such agreed-upon consideration if the Commission determines such agreed-upon consideration does not exceed the maximum consideration permitted as just compensation under this section.

(5) If consideration is agreed upon under paragraph (2) and such consideration exceeds the consideration determined by application of the guidelines prescribed under paragraph (1), but does not exceed the maximum consideration permitted as just compensation under this section, the Commission may not require a refund of any portion of the agreed-upon consideration paid with respect to deliveries of natural gas occurring prior to the Commission’s action under paragraph (4) approving or disapproving such consideration unless the Commission determines—

(A) such agreed-upon consideration was fraudulently established;

(B) the processing of the request for approval of such agreed-upon consideration under paragraph (4) was willfully delayed by a party to the transfer; or

(C) such agreed-upon consideration exceeds the maximum consideration permitted as just compensation under this section.

(c) Restrictions on transfers unenforceable

(1) Any provision of any contract, which prohibits any transfer authorized by subsection (a)(1) of this section or terminates such contract on the basis of such transfer, shall be unenforceable in any court of the United States and in any court of any State.

(2) No State may enforce any prohibition on any transfer authorized by subsection (a)(1) of this section.
(d) **Contractual obligations unaffected**

The person acquiring contractual interests transferred pursuant to subsection (a)(1) of this section shall assume the contractual obligations which the person transferring such contractual interests has under such contract. This subsection shall not relieve the person transferring such contractual interests from any contractual obligation of such person under such contract if such obligation is not performed by the person acquiring such contractual interests.

(e) **Definitions**

For purposes of this section—

(1) The term “just compensation”, when used with respect to any transfer of contractual interests authorized by subsection (a)(1) of this section, means the maximum amount of, or method of determining, consideration which does not exceed the amount by which—

(A) the reasonable costs (excluding capital costs) incurred, during the remainder of the period of the contract with respect to which contractual interests are transferred under subsection (a)(1) of this section, in direct association with the use of a fuel, other than natural gas, as a primary energy source by the applicable existing electric powerplant, exceed

(B) the price of natural gas under such contract during such period.

For purposes of subparagraph (A), the reasonable costs associated with the use of a fuel, other than natural gas, as a primary energy source shall include an allowance for the amortization, over the remaining useful life, of the undepreciated value of depreciable assets located on the premises containing such electric powerplant, which assets were directly associated with the use of natural gas and are not usable in connection with the use of such other fuel.

(2) The term “just compensation”, when used with respect to subsection (a)(2) of this section, means an amount equal to any loss of revenue, during the remaining period of the contract with respect to which contractual interests are transferred pursuant to subsection (a)(1) of this section, to the extent such loss (A) is directly incurred by reason of the discontinuation of the transportation or distribution of natural gas resulting from the transfer of contractual interests pursuant to subsection (a)(1) of this section, and (B) is not offset by revenues derived from other transportation or distribution which would not have occurred if such contractual interests had not been transferred.

(3) The term “contractual interests”, with respect to a contract described in subsection (a)(1) of this section, includes the right to receive natural gas as affected by any applicable curtailment plan filed with the Commission or the appropriate State regulatory authority.

(4) The term “State” means each of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, and any political subdivision of any of the foregoing.

(5) The term “interstate pipeline” means any person engaged in the transportation of natural gas in interstate commerce subject to the jurisdiction of the Commission under the Natural Gas Act [15 U.S.C. 717 et seq.].

(7) The term “contract”, when used with respect to a contract for receipt of natural gas, which contract was in existence on April 20, 1977, does not include any renewal or extension occurring after such date unless such renewal or extension occurs pursuant to the exercise of an option by the person receiving natural gas under such contract.

(f) **Coordination with Natural Gas Act**

(1) Consideration paid by any interstate pipeline pursuant to this section shall be deemed just and reasonable for purposes of sections 4, 5, and 7 of the Natural Gas Act [15 U.S.C. 717d, 717f]. The Commission shall not deny a certificate for the transportation in interstate commerce for resale of natural gas, or any sale in interstate commerce for resale of natural gas, or any person engaged in such transportation or such sale to the extent such transportation, sale or person is subject to the jurisdiction of the Commission under the Natural Gas Act [15 U.S.C. 717 et seq.] or to regulation as a common carrier under any provision of Federal or State law solely by reason of making any sale, or engaging in any transportation, of natural gas with respect to which the transfer of contractual interests is authorized under subsection (a)(1) of this section.

(2) Nothing in this section shall exempt from the jurisdiction of the Commission under the Natural Gas Act [15 U.S.C. 717 et seq.] any transportation in interstate commerce of natural gas, any sale in interstate commerce for resale of natural gas, or any person engaged in such transportation or such sale to the extent such transportation, sale or person is subject to the jurisdiction of the Commission under such Act without regard to the transfer of contractual interests under subsection (a)(1) of this section.

(4) Nothing in this section shall exempt any person from any obligation to obtain a certificate of public convenience and necessity for the transportation by an interstate pipeline of natural gas with respect to which the transfer of contractual interests is authorized under subsection (a)(1) of this section. The Commission shall not deny such a certificate for the transportation in interstate commerce of natural gas based on the amount of consideration paid pursuant to this section.

(g) **Volume limitation**

No supplier of natural gas under any contract, with respect to which contractual interests have been transferred under subsection (a)(1) of this section, shall be required to supply natural gas during any relevant period in volume amounts which exceed the lesser of—

(1) the volume determined by reference to the maximum delivery obligations specified in such contract;

(2) the volume which such supplier would have been required to supply, under the curtailment plan in effect for such supplier, to the person, who transferred contractual interests under subsection (a)(1) of this section, if no such transfer had occurred;

(3) the volume which would have been delivered, or for which payment would have been

---

1 So in original. Probably should be “jurisdiction”.

Page 6629

TITLE 42—THE PUBLIC HEALTH AND WELFARE

§ 8441
made, pursuant to such contract but for the prohibition on the use of such natural gas under subchapter III of this chapter or any rule or order thereunder; and
(4) the volume actually delivered or for which payment would have been made pursuant to such contract during the 12-calendar-month period ending immediately before such transfer of contractual interests pursuant to this section.

(h) Judicial review

Any action by the Commission under this section is subject to judicial review in accordance with chapter 7 of title 5.

References in Text

The Natural Gas Act, referred to in subsecs. (e)(5) and (f)(2), is act June 21, 1938, ch. 556, 52 Stat. 821, as amended, which is classified generally to chapter 15B (§717 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 717w of Title 15 and Tables.

Amendments

Part E—Studies

§ 8451. National coal policy study

(a) Study

The President, acting through the Secretary and the Administrator of the Environmental Protection Agency, shall make a full and complete investigation and study of the alternative national uses of coal available in the United States to meet the Nation’s energy requirements consistent with national policies for the protection and enhancement of the quality of the environment and for economic recovery and full employment. In particular the study should identify and evaluate—

(1) current and prospective coal requirements of the United States;

(2) current and prospective voluntary and mandatory energy conservation measures and their potential for reduction of the United States coal requirements;

(3) current and prospective coal resource production, transportation, conversion, and utilization requirements;

(4) the extent and adequacy of coal research, development, and demonstration programs being carried out by Federal, State, local, and nongovernmental entities (including financial resources, manpower, and statutory authority);

(5) programs for the development of coal mining technologies which increase coal production and utilization while protecting the health and safety of coal miners;

(6) alternative strategies for meeting anticipated United States coal requirements, consistent with achieving other national goals, including national security and environmental protection;

(7) existing and prospective governmental policies and laws affecting the coal industry with the view of determining what, if any, changes in and implementation of such policies and laws may be advisable in order to consolidate, coordinate, and provide an effective and equitable national energy policy consistent with other national policies; and

(8) the most efficient use of the Nation’s coal resources considering economic (including capital and consumer costs, and balance of payments), social (including employment), environmental, technological, national defense, and other aspects.

(b) Report

Within 18 months after the effective date of this chapter, the President shall submit to the Congress a report with respect to the studies and investigations, together with findings and recommendations in order that the Congress may have such information in a timely fashion. Such report shall include the President’s determinations and recommendations with respect to—

(1) the Nation’s projected coal needs nationally and regionally, for the next 2 decades with particular reference to electric power;

(2) the coal resources available or which must be developed to meet those needs, including, as applicable, the programs for research, development, and demonstration necessary to provide technological advances which may greatly enhance the Nation’s ability to efficiently and economically utilize its fuel resources, consistent with applicable environmental requirements;

(3) the air, water, and other pollution created by coal requirements, including any programs to overcome promptly and efficiently any technological or economic barriers to the elimination of such pollution;

(4) the existing policies and programs of the Federal Government and of State and local governments, which have any significant impact on the availability, production or efficient and economic utilization of coal resources and on the ability to meet the Nation’s energy needs and environmental requirements; and

(5) the adequacy of various transportation systems, including roads, railroads, and waterways to meet projected increases in coal production and utilization.

Before submitting a report to the Congress under subsection (b) of this section, the President shall publish in the Federal Register a notice and summary of the proposed report, make copies of such report available, and accord interested persons an opportunity (of not less than 90 days’ duration) to present written comments; and shall make such modifications of such report as he may consider appropriate on the basis of such comments.

(c) Authorization of appropriations

There is hereby authorized to be appropriated to the Secretary for allocation between the De-
department of Energy and the Environmental Protection Agency for fiscal years 1979 and 1980, not to exceed $18,000,000, for use in carrying out the purposes of this section.

REFERENCES IN TEXT

The effective date of this chapter, referred to in subsec. (b), is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

Section, Pub. L. 95–620, title VII, §742, Nov. 9, 1978, 92 Stat. 3341, related to an investigation by the Secretary of the performance and competition of the coal industry, to be reported to Congress in interim reports with a final report to be submitted not later than eighteen months after Nov. 9, 1978.

§8453. Impact on employees

(a) Evaluation

The Secretary shall conduct continuing evaluations of potential loss or shifts of employment which may result from any prohibition under this chapter, including, if appropriate, investigating threatened plant closures or reductions in employment allegedly resulting from such prohibition. The results of such evaluations and each investigation shall promptly be made available to the public.

(b) Investigation and hearings

On a written request filed with the Secretary by or on behalf of any employee who is discharged or laid off, threatened with discharge or layoff, or otherwise discriminated against, by any person because of the alleged effects of any such prohibition, the Secretary shall investigate the matter and, at the request of any party, shall hold public hearings, after not less than 30 days notice, at which the Secretary shall require the parties, including any employer involved, to present information on the actual or potential effect of such prohibition on employment and on any alleged employee discharge, layoff, or other discrimination relating to prohibitions and the detailed reasons or justification therefor. At the completion of such investigation, the Secretary shall make findings of fact as to the effect of such prohibition on employment and on the alleged employee discharge, layoff, or discrimination and shall make such recommendations as he deems appropriate. Such report, findings, and recommendations shall be available to the public. The Secretary of Labor shall participate in each such investigation.

(c) Rule of construction

Nothing in this section shall be construed to require or authorize the Secretary to modify or withdraw any prohibition under this chapter.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (c), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

§8454. Study of compliance problem of small electric utility systems

(a) Study

The Secretary shall conduct a study of the problems of compliance with this chapter experienced by those electric utility systems which have a total system generating capacity of less than 2,000 megawatts. The Secretary shall report his findings and his recommendations to the Congress not later than 2 years after the effective date of this chapter.

(b) Authorization of appropriations

There is authorized to be appropriated to the Secretary for the fiscal year 1979 not to exceed $500,000 to carry out the provisions of this section.

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original “this Act”, meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

The effective date of this chapter, referred to in subsec. (a), is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

§8456. Socioeconomic impacts of increased coal production and other energy development

(a) Committee

There is hereby established an interagency committee composed of the heads of the Departments of Energy, Commerce, Interior, Transportation, Housing and Urban Development, and Health and Human Services, the Environmental Protection Agency, the Appalachian Regional Commission, the Farmers’ Home Administration, the Office of Management and Budget, and such other Federal agencies as the Secretary shall designate. In carrying out its functions the committee shall consult with the National Governors’ Conference and interested persons, organizations, and entities. The chairman of the committee shall be designated by the President. The committee shall terminate 90 days after the submission of its report under subsection (c) of this section.

(b) Functions of committee

It is the function of the committee to conduct a study of the socioeconomic impacts of expanded coal production and rapid energy development in general, on States, including local communities, and on the public, including the
adequacy of housing and public, recreational, and cultural facilities for coal miners and their families and the effect of any Federal or State laws or regulations on providing such housing and facilities. The committee shall gather data and information on—

(1) the level of assistance provided under this chapter and any other programs related to impact assistance,

(2) the timeliness of assistance in meeting impacts caused by Federal decisions on energy policy as well as private sector decisions, and

(3) the obstacles to effective assistance contained in regulations of existing programs related to impact assistance.

(c) Report

Within 1 year after the effective date of this chapter, the committee shall submit a detailed report on the results of such study to the Congress, together with any recommendations for additional legislation it may consider appropriate.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter.

§8457. Use of petroleum and natural gas in combustors

The Secretary shall conduct a detailed study of the uses of petroleum and natural gas as a primary energy source for combustors and installations not subject to the prohibitions of this chapter. In conducting such study, the Secretary shall—

(1) identify those categories of major fuel-burning installations in which the substitution of coal or other alternate fuels for petroleum and natural gas is economically and technically feasible, and

(2) determine the estimated savings of natural gas and petroleum expected from such substitution.

Within 1 year after the effective date of this chapter, the Secretary shall submit a detailed report on the results of such study to the Congress, together with any recommendations for legislation he may consider appropriate.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter.

§8461. Authorization of appropriations

There is authorized to be appropriated to the Secretary for fiscal year 1979 $11,900,000, to carry out the provisions of this chapter (other than provisions for which an appropriations authorization is otherwise expressly provided in this chapter) and section 792 of title 15.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter.

§8471. Effect on environmental requirements

(a) Compliance with applicable environmental requirements

Except as provided in section 8374 of this title, nothing in this chapter shall be construed as permitting any existing or new electric powerplant to delay or avoid compliance with applicable environmental requirements.

(b) Local environmental requirements

In the case of any new or existing facility—

(1) which is subject to any prohibition under this chapter, and

(2) which is also subject to any requirement of any local environmental requirement which may be stricter than any Federal or State environmental requirement, the existence of such local requirement shall not be construed to affect the validity or applicability of such prohibition to such facility, except to the extent provided under section 8322(b) or section 8352(b) of this title; and the existence of such prohibition shall not be construed to preempt such local requirement with respect to that facility.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b)(1), was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter.

AMENDMENTS

1987—Subsec. (a). Pub. L. 100–42 struck out "or major fuel-burning installation" after "powerplant".
§ 8472. Effect of orders under section 792 of title 15

(a) Effect of construction orders

Any electric powerplant or major fuel-burning installation issued an order pursuant to section 792(c) of title 15 that is pending on the effective date of this chapter shall, notwithstanding the provisions of such section 792(c) or any other provision of this chapter, be subject to the provisions of this chapter as if it were a new electric powerplant or new major fuel-burning installation, as the case may be, except that if such order became final before such date, the provisions of subchapter II of this chapter shall not affect such powerplant or installation.

(b) Effect of prohibition orders

The provisions of subchapters II and III of this chapter shall not apply to any powerplant or installation for which an order issued pursuant to section 792(a) of title 15 before the effective date of this chapter is pending or final or which, on review, was held unlawful and set aside on the merits; except that any installation issued such an order under such section 792(a) which is pending on the effective date of this chapter may elect to be covered by subchapter II or III of this chapter (as the case may be) rather than such section 792. Such an election shall be irrevocable and shall be made in such form and manner as the Secretary shall, within 90 days after November 9, 1978, prescribe. Such an election shall be made not later than 60 days after the date on which the Secretary prescribes the form and manner of making such election.

(c) Validity of orders

The preceding provisions of this chapter shall not affect the validity of any order issued under subsection (a), or any final order under subsection (c), of section 792 of title 15, and the authority of the Secretary to amend, repeal, rescind, modify, or enforce any such order, or rules applicable thereto, shall remain in effect notwithstanding any limitation of time otherwise applicable to such authority. Except as provided in this section, the authority of the Secretary under section 792 of title 15 shall terminate on the effective date of this chapter.

(Pub. L. 95–620, title VII, § 762(a)–(c), Nov. 9, 1978, 92 Stat. 3345.)

References in Text

The effective date of this chapter, referred to in text, is the effective date of Pub. L. 95–620. See section 901 of Pub. L. 95–620, set out as an Effective Date note under section 8301 of this title.

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

AMENDMENTS

1987—Par. (1). Pub. L. 100–42, § 1(c)(24)(A), struck out "or major fuel-burning installation" after "powerplant".

Par. (2). Pub. L. 100–42, § 1(c)(24), struck out "or major fuel-burning installation" after "powerplant" and struck out subpar. (B) which read as follows: "under section 8352(l) of this title, relating to scheduled equipment outages;".

Par. (3). Pub. L. 100–42, § 1(c)(24)(A), struck out "or major fuel-burning installation" after "powerplant".

SUBCHAPTER VIII—MISCELLANEOUS PROVISIONS

Section. Pub. L. 95–620, title VIII, § 801, Nov. 9, 1978, 92 Stat. 3346, required annual disclosure of extent, characteristics, and productive capacity of coal reserves, and of interests held therein, with discretionary exception for small reserves, and publication of such information by Secretary.

Section. Pub. L. 95–620, title VIII, § 806, Nov. 9, 1978, 92 Stat. 3346, directed Secretary of Energy to submit annual report to Congress on actions already taken and actions to be taken under this chapter and under section 792 of title 15.
§ 8483. Submission of reports
Copies of any report required by this chapter to be submitted to the Congress shall be separately submitted to the Committee on Interstate and Foreign Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

REFERENCES IN TEXT
This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 95–620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

CHANGE OF NAME

§ 8484. Electric utility conservation plan
(a) Applicability
An electric utility is subject to this subsection if—
(1) the utility owns or operates any existing electric power plant in which natural gas was used as a primary energy source at any time during the 1-year period ending on August 13, 1981, and
(2) the utility plans to use natural gas as a primary energy source in any electric power plant.

(b) Submission and approval of plan
The Secretary shall require each electric utility subject to this section to—
(1) submit, within 1 year after August 13, 1981, and have approved by the Secretary, a conservation plan which meets the requirements of subsection (c) of this section; and
(2) implement such plan during the 5-year period beginning on the date of the initial approval of such plan.

(c) Contents of plan
(1) Any conservation plan under this section shall set forth means determined by the utility to achieve conservation of electric energy not later than the 5th year after its initial approval at a level, measured on an annual basis, at least equal to 12 percent of the electric energy output of that utility during the most recent 4 calendar quarters ending prior to August 13, 1981, which is attributable to natural gas.

(2) The conservation plan shall include—
(A) all activities required for such utility by part 1 of title II of the National Energy Conservation Policy Act [42 U.S.C. 8211 et seq.];
(B) an effective public information program for conservation; and
(C) such other measures as the utility may consider appropriate.

(3) Any such plan may set forth a program for the use of renewable energy sources (other than hydroelectric power).

(4) Any such plan shall contain procedures to permit the amounts expended by such utility in developing and implementing the plan to be recovered in a manner specified by the appropriate State regulatory authority (or by the utility in the case of a nonregulated utility).

(d) Plan approval
(1) The Secretary shall, by order, approve or disapprove any conservation plan proposed under this subsection by an electric utility within 120 days after its submission. The Secretary shall approve any such proposed plan unless the Secretary finds that such plan does not meet the requirements of subsection (c) of this section and states in writing the reasons therefore:
(2) In the event the Secretary disapproves under paragraph (1) the plan originally submitted, the Secretary shall provide a reasonable period of time for resubmission.
(3) An electric utility may amend any approved plan, except that the plan as amended shall be subject to approval in accordance with paragraph (1).

REFERENCES IN TEXT
The National Energy Conservation Policy Act, referred to in subsec. (c)(2)(A), is Pub. L. 95–619, Nov. 9, 1978, 92 Stat. 3208, as amended. Part 1 of title II of the National Energy Conservation Policy Act was classified generally to part A (§ 8211 et seq.) of subchapter II of chapter 91 of this title, and was omitted from the Code pursuant to section 8229 of this title which terminated authority under that part June 30, 1989. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

EFFECTIVE DATE

CHAPTER 93—EMERGENCY ENERGY CONSERVATION

Sec. 8501. Congressional findings and purposes.
8502. Definitions.

SUBCHAPTER I—EMERGENCY ENERGY CONSERVATION PROGRAM
8511. National and State emergency conservation targets.
8512. State emergency conservation plan.
8513. Standby Federal conservation plan.
8514. Judicial review.
8515. Reports.

SUBCHAPTER II—OTHER AUTOMOBILE FUEL PURCHASE MEASURES
8521. Minimum automobile fuel purchase measures.
§ 8501. Congressional findings and purposes

(a) Findings

The Congress finds that—

(1) serious disruptions have recently occurred in the gasoline and diesel fuel markets of the United States;

(2) it is likely that such disruptions will recur;

(3) interstate commerce is significantly affected by those market disruptions;

(4) an urgent need exists to provide for emergency conservation and other measures with respect to gasoline, diesel fuel, home heating oil, and other energy sources in potentially short supply in order to cope with market disruptions and protect interstate commerce; and

(5) up-to-date and reliable information concerning the supply and demand of gasoline, diesel fuel, and other related data is not available to the President, the Congress, or the public.

(b) Purposes

The purposes of this chapter are to—

(1) provide a means for the Federal Government, States, and units of local government to establish emergency conservation measures with respect to gasoline, diesel fuel, home heating oil, and other energy sources which may be in short supply;

(2) establish other emergency measures to alleviate disruptions in gasoline and diesel fuel markets;

(3) obtain data concerning such fuels; and

(4) protect interstate commerce.

(Pub. L. 96–102, title II, §201, Nov. 5, 1979, 93 Stat. 757.)

Effective Date

Section 302 of Pub. L. 96–102 provided that: “The amendments made by this Act [enacting this chapter, amending sections 6262, 6263, and 6268 of this title, and enacting provisions set out as notes under this section and section 6261 of this title] shall take effect on the date of the enactment of this Act [Nov. 5, 1979].”

Short Title

Section 1(a) of Pub. L. 96–102 provided that: “This Act [enacting this chapter, amending sections 6262, 6263, and 6268 of this title, and enacting provisions set out as notes under this section and section 6261 of this title] may be cited as the ‘Emergency Energy Conservation Act of 1979.’”

Congressional Findings

Section 101 of Pub. L. 96–102 provided that: “The Congress finds that—

“(1) a standby rationing plan for gasoline and diesel fuel should provide, to the maximum extent practicable, that the burden of reduced supplies of gasoline and diesel fuel be shared by all persons in a fair and equitable manner and that the economic and social impacts of such plan be minimized; and

“(2) such a plan should be sufficiently flexible to respond to changed conditions and sufficiently simple to be effectively administered and enforced.”

Funding for Fiscal Years 1979 and 1980

Section 301 of Pub. L. 96–102 provided that: “For purposes of any law relating to appropriations or authorizations for appropriations as such law relates to the fiscal year ending September 30, 1979, or the fiscal year ending September 30, 1980, the provisions of this Act (including amendments made by this Act) [see Short Title note above] shall be treated as if it were a contingency plan under section 202 or 203 of the Energy Policy and Conservation Act [former sections 6262 and 6263 of this title] which was approved in accordance with the procedures under that Act [see Short Title note set out under section 6201 of this title] or as otherwise provided by law, and funds made available pursuant to such appropriations shall be available to carry out the provisions of this Act and the amendments made by this Act.”

§ 8502. Definitions

For purposes of this chapter—

(1) The term “severe energy supply interruption”, when used with respect to motor fuel or any other energy source, means a national energy supply shortage of such energy source which the President determines,—

(A) is, or is likely to be, of significant scope and duration;

(B) may cause major adverse impact on national security or the national economy; and

(C) results, or is likely to result, from an interruption in the energy supplies of the United States, including supplies of imported petroleum products, or from sabotage or an act of God.

(2) The term “international energy program” has the meaning given that term in section 6202(7) of this title.

(3) The term “motor fuel” means gasoline and diesel fuel.

(4) The term “person” includes (A) any individual, (B) any corporation, company, association, firm, partnership, society, trust, joint venture, or joint stock company, and (C) the government or any agency of the United States or any State or political subdivision thereof.

(5) The term “vehicle” means any vehicle propelled by motor fuel and manufactured primarily for use on public streets, roads, and highways.

(6) The term “Secretary” means the Secretary of Energy.

(7) The term “Governor” means the chief executive officer of a State.

(8) The term “State” means a State, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.

Subchapter I—Emergency Energy Conservation Program

§ 8511. National and State emergency conservation targets

(a) Determination and publication of targets

(1) Whenever the President finds, with respect to any energy source for which the President de-
(c) Establishment of targets for Federal agencies

In connection with the establishment of any national target under subsection (a) of this section the President shall make effective an emergency energy conservation plan for the Federal Government, which plan shall be designed to achieve an equal or greater reduction in use of the energy source for which a target is established than the national percentage referred to in subsection (a)(3)(D) of this section. Such plan shall contain measures which the President will implement, in accordance with other applicable provisions of law, to reduce on an emergency basis the use of energy by the Federal Government. In developing such plan the President shall consider the potential for emergency reductions in energy use—

(1) by buildings, facilities, and equipment owned, leased, or under contract by the Federal Government; and

(2) by Federal employees and officials through increased use of car and van pooling, preferential parking for multipassenger vehicles, and greater use of mass transit.

(d) Review of targets

(1) From time to time, the President shall review and, consistent with subsection (a) of this section, modify to the extent the President considers appropriate the national and State energy conservation targets established under this subsection.

(2) Any modification under this paragraph shall be accompanied by such information and analysis as is necessary to provide the basis therefor and shall be available to the Congress and the public.

(3)(A) Before the end of the 12th month following the establishment of any conservation target under this section, and annually thereafter while such target is in effect, the President shall determine, for the energy source for which that target was established, whether a severe energy supply interruption exists or is imminent or such actions are not required, the conservation targets established under this section with respect to such energy source shall cease to be effective.

§ 8511

(c) Establishment of targets for Federal agencies

In connection with the establishment of any national target under subsection (a) of this section the President shall make effective an emergency energy conservation plan for the Federal Government, which plan shall be designed to achieve an equal or greater reduction in use of the energy source for which a target is established than the national percentage referred to in subsection (a)(3)(D) of this section. Such plan shall contain measures which the President will implement, in accordance with other applicable provisions of law, to reduce on an emergency basis the use of energy by the Federal Government. In developing such plan the President shall consider the potential for emergency reductions in energy use—

(1) by buildings, facilities, and equipment owned, leased, or under contract by the Federal Government; and

(2) by Federal employees and officials through increased use of car and van pooling, preferential parking for multipassenger vehicles, and greater use of mass transit.

(d) Review of targets

(1) From time to time, the President shall review and, consistent with subsection (a) of this section, modify to the extent the President considers appropriate the national and State energy conservation targets established under this subsection.

(2) Any modification under this paragraph shall be accompanied by such information and analysis as is necessary to provide the basis therefor and shall be available to the Congress and the public.

(3)(A) Before the end of the 12th month following the establishment of any conservation target under this section, and annually thereafter while such target is in effect, the President shall determine, for the energy source for which that target was established, whether a severe energy supply interruption exists or is imminent or such actions are not required, the conservation targets established under this section with respect to such energy source shall cease to be effective.

(b) Notification and publication of targets

The President shall notify the Governor of each State of each target established under subsection (a) of this section for that State, and shall publish in the Federal Register, the targets, the base period consumption for each State and other data on which the targets are based, and the factors considered under subsection (a)(3) of this section.

1 See References in Text note below.
(f) Presidential authority not to be delegated

Notwithstanding any other provision of law, the authority vested in the President under this section may not be delegated.

(Pub. L. 96–102, title II, §211, Nov. 5, 1979, 93 Stat. 758.)

REFERENCES IN TEXT

Section 763 of title 15, referred to in subsec. (a)(3)(C)(i), was omitted from the Code pursuant to section 769g of title 15, Commerce and Trade, which provided for the expiration of the President’s authority under that section on Sept. 30, 1981.

§ 8512. State emergency conservation plan

(a) State emergency conservation plans

(1)(A) Not later than 45 days after the date of the publication of an energy conservation target for a State under section 8511(b) of this title, the Governor of that State shall submit to the Secretary a State emergency conservation plan designed to meet or exceed the emergency conservation target in effect for that State under section 8511(a) of this title. Such plan shall contain such information as the Secretary may reasonably require. At any time, the Governor may, with the approval of the Secretary, amend a plan established under this section.

(B) The Secretary may, for good cause shown, extend to a specific date the period for the submission of any State’s plan under subparagraph (A) if the Secretary publishes in the Federal Register notice of that extension together with the reasons therefore.

(2) Each State is encouraged to submit to the Secretary a State emergency conservation plan as soon as possible after November 5, 1979, and in advance of such publication of any such target. The Secretary may tentatively approve such a plan in accordance with the provisions of this section. For the purposes of this subchapter such tentative approval shall not be construed to result in a delegation of Federal authority to administer or enforce any measure contained in a State plan.

(b) Conservation measures under State plans

(1) Each State emergency conservation plan under this section shall provide for emergency reduction in the public and private use of each energy source for which an emergency conservation target is in effect under section 8511 of this title. Such State plan shall contain adequate assurances that measures contained therein will be effectively implemented in that State. Such plan may provide for reduced use of that energy source through voluntary programs or through the application of one or more of the following measures described in such plan:

(A) measures which are authorized under the laws of that State and which will be adminis-
tered and enforced by officers and employees of the State (or political subdivisions of the State) pursuant to the laws of such State (or political subdivisions); and

(B) measures—

(i) which the Governor requests, and agrees to assume, the responsibility for administration and enforcement in accordance with subsection (d) of this section;

(ii) which the attorney general of that State has found that (I) absent a delegation of authority under Federal law, the Governor lacks the authority under the laws of the State to invoke, (II) under applicable State law, the Governor and other appropriate State officers and employees are not prevented from administering and enforcing under a delegation of authority pursuant to Federal law; and (III) if implemented, would not be contrary to State law; and

(iii) which either the Secretary determines are contained in the standby Federal conservation plan established under section 8513 of this title or are approved by the Secretary, in his discretion.

(2) In the preparation of such plan (and any amendment to the plan) the Governor shall, to the maximum extent practicable, provide for consultation with representatives of affected businesses and local governments and provide an opportunity for public comment.

(3) Any State plan submitted to the Secretary under this section may permit persons affected by any measure in such plan to use alternative means of conserving at least as much energy as would be conserved by such measure. Such plan shall provide an effective procedure, as determined by the Secretary, for the approval and enforcement of such alternative means by such State or by any political subdivision of such State.

(c) Approval of State plans

(1) As soon as practicable after the date of the receipt of any State plan, but in no event later than 30 days after such date, the Secretary shall review such plan and shall approve it unless the Secretary finds—

(A) that, taken as a whole, the plan is not likely to achieve the emergency conservation target established for that State under section 8511(a) of this title for each energy source involved,

(B) that, taken as a whole, the plan is likely to impose an unreasonably disproportionate share of the burden of restrictions of energy use on any specific class of industry, business, or commercial enterprise, or any individual segment thereof,

(C) that the requirements of this subchapter regarding the plan have not been met, or

(D) that a measure described in subsection (b)(1) of this section is—

(i) inconsistent with any otherwise applicable Federal law (including any rule or regulation under such law),

(ii) an undue burden on interstate commerce, or

(iii) a tax, tariff, or user fee not authorized by State law.

(2) Any measure contained in a State plan shall become effective in that State on the date
§ 8513. Standby Federal conservation plan

(a) Establishment of standby conservation plan

(1) Within 90 days after November 5, 1979, the Secretary, in accordance with section 7191 of this title, shall establish a standby Federal emergency conservation plan. The Secretary may amend such plan at any time, and shall make such amendments public upon their adoption.

(2) The plan under this section shall be consistent with the attainment of the objectives of section 753(b)(1) of title 15, and shall provide for the emergency conservation reduction in the public and private use of each energy source for which such conservation target is in effect or may be in effect under section 8511 of this title.

(b) Implementation of standby conservation plan

(1) If the President finds—

(A) after a reasonable period of operation, but not less than 90 days, that a State emergency conservation plan approved and implemented under section 8512 of this title is not substantially meeting a conservation target established under section 8511(a) of this title for such State and it is likely that such target will continue to be unmet; and

(B) a shortage exists or is likely to exist in such State for the 60-day period beginning after such finding that is equal to or greater than 6 percent of the projected normal demand, as determined by the President, for an energy source for which such conservation target has been established under section 8511(a) of this title;

then the President shall, after consultation with the Governor of such State, make effective in such State or any part of the standby Federal conservation plan established under subsection (a) of this section for such period or periods as the President determines appropriate to achieve the target in that State.

(2) If the President finds after a reasonable period of time, that the conservation target established under section 8511(a) of this title is not being substantially met and it is likely that such target will continue to be unmet—

(A) has no emergency conservation plan approved under section 8512 of this title; or

(B) the President finds has substantially failed to carry out the assurances regarding implementation set forth in the plan approved under section 8512 of this title,

then the President shall, after consultation with the Governor of such State, make effective in such State or any part of the standby Federal conservation plan established under subsection (a) of this section for such period or periods as the President determines appropriate to achieve the target in that State.

(c) Basis for findings

Any finding under subsection (b) of this section shall be accompanied by such information and analysis as is necessary to provide a basis therefor and shall be available to the Congress and the public.

See References in Text note below.
(d) Submission of State emergency conservation plans

(1) The Governor of a State in which all or any portion of the standby Federal conservation plan is or will be in effect may submit at any time a State emergency conservation plan, and if it is approved under section 8512(c) of this title, all or such portion of the standby Federal conservation plan shall cease to be effective in that State. Nothing in this paragraph shall affect any action or pending proceedings, administrative or civil, not finally determined on such date, nor any administrative or civil action or proceeding, whether or not pending, based upon any act committed or liability incurred prior to such cessation of effectiveness.

(e) State substitute emergency conservation measures

(1) After the President makes all or any part of the standby Federal conservation plan effective in any State or political subdivision under subsection (b) of this section, the Secretary shall provide procedures whereby such State or any political subdivision thereof may submit to the Secretary for approval one or more measures under authority of State or local law to be implemented by such State or political subdivision and to be substituted for any Federal measure in the Federal plan. The measures may include provisions whereby persons affected by such Federal measure are permitted to use alternative means of conserving at least as much energy as would be conserved by such Federal measure. Such measures shall provide effective procedures, as determined by the Secretary, for the approval and enforcement of such alternative means by such State or by any political subdivision thereof.

(2) The Secretary may approve the measures under paragraph (1) if he finds—

(A) that such measures when in effect will conserve at least as much energy as would be conserved by such Federal measure which would have otherwise been in effect in such State or political subdivision;

(B) such measures otherwise meet the requirements of this paragraph; and

(C) such measures would be approved under section 8512(c)(1)(B), (C), and (D) of this title.

(3) If the Secretary approves measures under this subsection such Federal measure shall cease to be effective in that State or political subdivision. Nothing in this paragraph shall affect any action or pending proceedings, administrative or civil, not finally determined on the date the Federal measure ceases to be effective in that State or political subdivision, nor any administrative or civil action or proceeding, whether or not pending, based upon any act committed or liability incurred prior to such cessation of effectiveness.

(4) If the Secretary finds after a reasonable period of time that the requirements of this subsection are not being met under the measures in effect under this subsection he may reissue the Federal measure referred to in paragraph (1).

(f) State authority to administer plan

At the request of the Governor of any State, the President may provide that the administration and enforcement of all or a portion of the standby Federal conservation plan made effective in that State under subsection (b) of this section be in accordance with section 8512(d)(1), (2), and (4) of this title.

(g) Presidential authority not to be delegated

Notwithstanding any other provision of law (other than subsection (f) of this section), the authority vested in the President under this section may not be delegated.

(h) Requirements of plan

The plan established under subsection (a) of this section shall—

(1) taken as a whole, be designed so that the plan, if implemented, would be likely to achieve the emergency conservation target under section 8511 of this title for which it would be implemented;

(2) taken as a whole, be designed so as not to impose an unreasonably disproportionate share of the burden of restrictions on energy use on any specific class of industry, business, or commercial enterprise, or any individual segment thereof, and

(3) not contain any measure which the Secretary finds—

(A) is inconsistent with any otherwise applicable Federal law (including any rule or regulation under such law),

(B) is an undue burden on interstate commerce,

(C) is a tax, tariff, or user fee, or

(D) is a program for the assignment of rights for end-user purchases of gasoline or diesel fuel, as described in section 6269(a)(1)(A) and (B) of this title.

(i) Plan may not authorize weekend closings of retail gasoline stations

(1) Except as provided in paragraph (2), the plan established under subsection (a) of this section may not provide for the restriction of hours of sale of motor fuel at retail at any time between Friday noon and Sunday midnight.

(2) Paragraph (1) shall not preclude the restriction on such hours of sale if that restriction occurs in connection with a program for restricting hours of sale of motor fuel each day of the week on a rotating basis.

(j) Civil penalties

(1) A person who violates the requirements of such a plan implemented under subsection (b) of this section shall be subject to a civil penalty not to exceed $1,000 for each violation.

(2) Any penalty under paragraph (1) may be assessed by the court in any action brought in any appropriate United States district court or any other court of competent jurisdiction. Except to the extent provided under paragraph (3), any such penalty collected shall be deposited into the general fund of the United States Treasury as miscellaneous receipts.

(3) The Secretary may enter into an agreement with the Governor of any State under
which amounts collected pursuant to this subsection may be collected and retained by the State to the extent necessary to cover costs incurred by that State in connection with the administration and enforcement of that portion of the standby Federal conservation plan for which authority is delegated to that State under subsection (f) of this section.

REFERENCES IN TEXT

Section 753 of title 15, referred to in subsec. (a)(2), was omitted from the Code pursuant to section 760g of Title 15, Commerce and Trade, which provided for the expiration of the President’s authority under that section on Sept. 30, 1981.

§8514. Judicial review

(a) State actions

(1) Any State may institute an action in the appropriate district court of the United States, including actions for declaratory judgment, for judicial review of—

(A) any target established by the President under section 8511(a) of this title;

(B) any finding by the President under section 8513(b)(1)(A) of this title, relating to the achievement of the emergency energy conservation target of such State, or 8513(b)(2) of this title, relating to the achievement of the emergency energy conservation target of such State or the failure to carry out the assurances regarding implementation contained in an approved plan of such State; or

(C) any determination by the Secretary disapproving a State plan under section 8512(c) of this title, including any determination by the Secretary under section 8512(a)(1)(B) of this title that the plan is likely to impose an unreasonably disproportionate share of the burden of restrictions of energy use on any specific class of industry, business, or commercial enterprise, or any individual segment thereof.

Such action shall be barred unless it is instituted within 30 calendar days after the date of publication of the establishment of a target referred to in subparagraph (A), the finding referred to in subparagraph (B), or the determination referred to in subparagraph (C), as the case may be.

(2) The district court shall determine the questions of law and upon such determination certify such questions immediately to the United States court of appeals for the circuit involved, which shall hear the matter sitting en banc.

Subsec. (b) of this section, which required the President to report annually to Congress on any activities undertaken pursuant to this subchapter, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 20th item on page 19 of House Document No. 103–7.

SUBCHAPTER II—OTHER AUTOMOBILE FUEL PURCHASE MEASURES

§8521. Minimum automobile fuel purchase measures

(a) General rule

If the provisions of this subsection are made applicable under subsection (c) of this section, no person shall purchase motor fuel from a motor fuel retailer in any transaction for use in any automobile or other vehicle unless—

(1) the price for the quantity purchased and placed into the fuel tank of that vehicle equals or exceeds $5.00; or

(2) in any case in which the amount paid for the quantity of motor fuel necessary to fill the fuel tank of that vehicle to capacity is less than $5.00, such person pays to the retailer an additional amount so that the total amount paid in that transaction equals $5.00.

Any person selling motor fuel in transactions to which the provisions of this subsection apply shall display at the point of sale notice of such provisions in accordance with regulations prescribed by the Secretary.

(b) $7.00 to be applicable in case of 8-cylinder vehicles

In applying subsection (a) of this section in the case of any vehicle with an engine having 8...
cylinders (or more), "$7.00" shall be substituted for "$5.00".

(c) Applicability

(1) Unless applicable pursuant to paragraph (2), the requirements of subsection (a) of this section shall apply in any State and shall be administered and enforced as provided in subsection (g) of this section only if—

(A) the Governor of that State submits a request to the Secretary to have such requirements applicable in that State; and

(B) the attorney general of that State has found that (i) absent a delegation of authority under a Federal law, the Governor lacks the authority under the laws of the State to invoke comparable requirements, (ii) under applicable State law, the Governor and other appropriate State officers and employees are not prevented from administering and enforcing such requirements under a delegation of authority pursuant to Federal law, and (iii) if implemented such requirements would not be contrary to State law.

Subject to paragraph (2), such provisions shall cease to apply in any State if the Governor of the State withdraws any request under subparagraph (A).

(2) The requirements of subsection (a) of this section shall apply in every State if there is in effect a finding by the President that nationwide implementation of such requirements would be appropriate and consistent with the purposes of this chapter.

(3) Such requirements shall take effect in any State beginning on the 5th day after the Secretary or the President (as the case may be) publishes notice in the Federal Register of the applicability of the requirements to the State pursuant to paragraph (1) or (2).

(4) Notwithstanding any other provision of law, the authority vested in the President under paragraph (2) may not be delegated.

(d) Exemptions

The requirements of subsection (a) of this section shall not apply to any motorcycle or motorpowered bicycle, or to any comparable vehicle as may be determined by the Secretary by regulation.

(e) Adjustment of minimum levels

The Secretary may increase the $5.00 and $7.00 amounts specified in subsections (a) and (b) of this section if the Secretary considers it appropriate. Adjustments under this subsection shall be only in even dollar amounts.

(f) Civil penalties

(1) Whoever violates the requirements of subsection (a) of this section shall be subject to a civil penalty of not to exceed $100 for each violation.

(2) Any penalty under paragraph (1) may be assessed by the court in any action under this section brought in any appropriate United States district court or any other court of competent jurisdiction. Except to the extent provided in paragraph (3), any such penalty collected shall be deposited into the general fund of the United States Treasury as miscellaneous receipts.

(3) The Secretary may enter into an agreement with the Governor of any State under which amounts collected pursuant to this subsection may be collected and retained by the State to the extent necessary to cover costs incurred by that State in connection with the administration and enforcement of the requirements of subsection (a) of this section for which is delegated under subsection (g) of this section.

(g) Administration and enforcement delegated to States

(1) There is hereby delegated to the Governor of any State, and other State and local officers and employees designated by the Governor, the authority to administer and enforce, within that State, any provision of this subchapter which is to be administered and enforced in accordance with this section. Such authority includes the authority to institute actions on behalf of the United States for the imposition and collection of civil penalties under subsection (f) of this section.

(2)(A) All delegation of authority under paragraph (1) with respect to any State shall be considered revoked effective (i) upon the receipt of a written waiver of authority signed by the Governor of such State or (ii) upon a determination by the President that such delegation should be revoked, but only to the extent of that determination.

(B) If at any time the conditions of subsection (c)(1)(B) of this section are no longer satisfied in any State to which a delegation has been made under paragraph (1), the attorney general of that State shall transmit a written statement to that effect to the Governor of that State and to the President. Such delegation shall be considered revoked effective upon receipt by the President of such written statement and a determination by the President that such conditions are no longer satisfied, but only to the extent of that determination and consistent with such attorney general's statement.

(C) Any revocation under subparagraph (A) or (B) shall not affect any action or pending proceedings, administrative or civil, not finally determined on the date of such revocation, nor any administrative or civil action or proceeding, whether or not pending, based on any act committed or liability incurred prior to such revocation.

(D) The Secretary shall administer and enforce any provision of this subchapter which has been made effective under subsection (c)(2) of this section and for which a delegation of authority is considered revoked under subparagraph (A).

(h) Coordination with other law

The charging and collecting of amounts referred to in subsection (a)(2) of this section under the requirements of subsection (a) of this section, or similar amounts collected under comparable requirements under any State law, shall not be considered a violation of—

(2) any Federal or State law requiring the labeling or disclosure of the maximum price per gallon of any fuel.

See References in Text note below.
§ 8522. Out-of-State vehicles to be exempted from odd-even motor fuel purchase restrictions

(a) General rule

Notwithstanding any provision of any Federal, State, or local law, any odd-even fuel purchase plan in effect in any State may not prohibit the sale of motor fuel to any person for use in a vehicle bearing a license plate issued by any authority other than that State or a State contiguous to that State.

(b) “Odd-even fuel purchase plan” defined

For purposes of this section the term “odd-even fuel purchase plan” means any motor fuel sales restriction under which a person may purchase motor fuel for use in any vehicle only on days (or other periods of time) determined on the basis of a number or letter appearing on the license plate of that vehicle (or on any similar basis).

§ 8531. Study and report

(a) Study of commercial and industrial storage of fuel

Not later than 180 days after November 5, 1979, the Secretary shall conduct a study and report to the Congress regarding the commercial and industrial storage of gasoline and middle distillates (other than storage in facilities which have capacities of less than 500 gallons or storage used exclusively and directly for agricultural, residential, petroleum refining, or pipeline transportation purposes).

(b) Contents of report

Such report shall—

(1) indicate to what extent storage activities have increased since November 1, 1978, and what business establishments (including utilities) have been involved;

(2) the estimated amount of gasoline and middle distillates (in the aggregate and by type and region) which are in storage within the United States at the time of the study, the amounts which were in storage at the same time during the calendar year preceding the study, and the purposes for which such storage is maintained; and

(3) contain such findings and recommendations for legislation and administrative action as the Secretary considers appropriate, including recommendations for improving the availability and quality of data concerning such storage.

§ 8532. Middle distillate monitoring program

(a) Monitoring program

(1) Not later than 60 days after November 5, 1979, the Secretary shall establish and maintain a data collection program for monitoring, at the refining, wholesale, and retail levels, the supply and demand levels of middle distillates on a periodic basis in each State.

(2) The program to be established under paragraph (1) shall provide for—

(A) the prompt collection of relevant demand and supply data under the authority available to the Secretary under other law; and

(B) the submission to Congress of periodic reports each containing a concise narrative analysis of the most recent data which the Secretary determines are accurate, and a discussion on a State-by-State basis of trends in such data which the Secretary determines are significant.

(3) All data and information collected under this program shall be available to the Congress and committees of the Congress, and, in accordance with otherwise applicable law, to appropriate State and Federal agencies and the public.

(4) Nothing in this subsection authorizes the direct or indirect regulation of the price of any middle distillate.

(5) For purposes of this section, the term “middle distillate” has the same meaning as given that term in section 211.51 of title 10, Code of Federal Regulations, as in effect on November 5, 1979.

(b) Report

Before December 31, 1979, the President shall submit a report to Congress in which the President shall examine the middle distillate situation, summarizing the data, information, and analyses described in subsection (a) of this section and discussing in detail matters required to be addressed in findings made pursuant to section 760a(d)(1) of title 15.

§ 8541. Administration

(a) Information

(1) The Secretary shall use the authority provided under section 796 of title 15 for the collection of such information as may be necessary for the enforcement of the provisions of subchapters I and II of this chapter.

1See References in Text note below.

Section 8612. Pub. L. 96–223, title III, §313(a)–(c)(1), (d)–(g), Apr. 2, 1980, 94 Stat. 299, related to administration and implementation of energy assistance programs.

Effective Date of Repeal

Section 2611 of Pub. L. 97–35 provided that the repeal made by that section is effective Oct. 1, 1981.

Short Title

Subchapter II—Low-Income Home Energy Assistance

§ 8621. Home energy grants

(a) Authorization

The Secretary is authorized to make grants, in accordance with the provisions of this subchapter, to States to assist low-income households, particularly those with the lowest incomes, that pay a high proportion of household income for home energy, primarily in meeting their immediate home energy needs.

(b) Authorization of appropriations

There are authorized to be appropriated to carry out the provisions of this subchapter (other than section 8626a of this title), $2,000,000,000 for each of fiscal years 1995 through 1999, such sums as may be necessary for each of fiscal years 2000 and 2001, and $5,100,000,000 for each of fiscal years 2005 through 2007. The authorizations of appropriations contained in this subsection are subject to the program year provisions of subsection (c) of this section.

(c) Availability of appropriations

Amounts appropriated under this section for any fiscal year for programs and activities...
under this subchapter shall be made available for obligation in the succeeding fiscal year.

(d) Authorization of appropriations for leveraged resources

(1) There is authorized to be appropriated to carry out section 8626a of this title, $30,000,000 for each of fiscal years 1999 through 2004, except as provided in paragraph (2).

(2) For any of fiscal years 1999 through 2004 for which the amount appropriated under subsection (b) of this section is not less than $1,400,000,000, there is authorized to be appropriated $50,000,000 to carry out section 8626a of this title.

(e) Emergency funds

There is authorized to be appropriated in each fiscal year for payments under this subchapter, in addition to amounts appropriated for distribution to all the States in accordance with section 8623 of this title (other than subsection (e) of such section), $600,000,000 to meet the additional home energy assistance needs of one or more States arising from a natural disaster or other emergency. Funds appropriated pursuant to this subsection are hereby designated to be emergency requirements pursuant to section 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985 [2 U.S.C. 901(b)(2)(D)], except that such funds shall be made available only after the submission to Congress of a formal budget request by the President (for all or a part of the appropriation pursuant to this subsection) that includes a designation of the amount requested as an emergency requirement as defined in such Act [2 U.S.C. 900 et seq.].

REFERENCES IN TEXT

AMENDMENTS

2005—Subsec. (b). Pub. L. 109–58 substituted "and $5,100,000,000 for each of fiscal years 2005 through 2007" for "and $2,000,000,000 for each of fiscal years 2002 through 2004".

1998—Subsec. (b). Pub. L. 105–285, § 302(a), inserted "such sums as may be necessary for each of fiscal years 2000 and 2001, and $2,000,000,000 for each of fiscal years 2002 through 2004" after "1995 through 1999".

Subsec. (c). Pub. L. 105–285, § 302(b), amended subsec. (c) generally. Prior to amendment, subsec. (c) read as follows:

"(c)(1) In fiscal year 1993 and each fiscal year thereafter, amounts appropriated under this section for any fiscal year for programs and activities under this subchapter shall be made available for obligation only on the basis of a program year. The program year shall begin on October 1 of the fiscal year following the year in which the appropriation is made.

"(2) Amounts appropriated for fiscal year 1993 shall be available both to fund activities for the period between October 1, 1992, and July 1, 1993, and for the program year beginning July 1, 1993.

"(3) There are authorized to be appropriated such additional sums as may be necessary for the transition to carry out this subsection."

Subsec. (d). Pub. L. 105–285, § 302(c), designated existing provisions as par. (1), substituted "There is authorized" for "There are authorized" and "$30,000,000 for each of fiscal years 1999 through 2004, except as provided in paragraph (2)" for "$50,000,000 for each of the fiscal years 1996 and 1997, and such sums as may be necessary for each of the fiscal years 1998 and 1999", and added par. (2).

Subsec. (e). Pub. L. 105–285, § 302(d), substituted "There is authorized" for "There are authorized" and "(other than subsection (e) of such section)" for "(other than subsection (g))".

1994—Subsec. (a). Pub. L. 103–252, § 302, amended subsec. (a) generally. Prior to amendment, subsec. (a) read as follows: "The Secretary of Health and Human Services is authorized to make grants, in accordance with the provisions of this subchapter, to States to assist eligible households to meet the costs of home energy.

Subsec. (b). Pub. L. 103–252, §§ 303(a)(1), 311(c)(1)(A), substituted "this subchapter (other than section 8626a of this title)", $2,000,000,000 for each of fiscal years 1995 through 1999" for "this subchapter (other than section 8626a of this title) $2,307,000,000 for fiscal year 1990, $2,150,000,000 for fiscal year 1991, $2,250,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993, 1994, and 1995" and struck out second period at end.

Subsec. (c)(1). Pub. L. 103–252, § 311(c)(1)(B), made technical amendment to reference to this subchapter to correct reference to corresponding provision of original act.

Pub. L. 103–252, § 303(a)(2), which directed the substitution of "October 1" for "July 1" and "following the year in which" for "for which" in last sentence of subsec. (e), was executed by making the substitutions in last sentence of subsec. (c)(1) to reflect the probable intent of Congress.

Subsec. (d). Pub. L. 103–252, § 303(b), amended subsec. (d) generally. Prior to amendment, subsec. (d) read as follows: "There are authorized to be appropriated to carry out section 8626a of this title, $25,000,000 in fiscal year 1992, and $50,000,000 for each of the fiscal years 1993, 1994, and 1995."

1990—Subsec. (b). Pub. L. 101–501, § 707(b)(1), which directed the amendment of this section by inserting "(other than section 8626a of this title)" after "subchapter", was executed to subsec. (b) to reflect the probable intent of Congress.

Pub. L. 101–501, § 702, struck out "$2,050,000,000 for fiscal year 1989, and" before
“$2,307,000,000’’ and inserted ‘‘$,2,150,000,000 for fiscal year 1991, $2,230,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 and 1994. The authorizations of appropriations contained in this subsection are subject to the program year provisions of subsection (c) of this section.’’ after ‘‘1990.’’

1986—Subsec. (b). Pub. L. 99–425 amended subsec. (b) generally. Prior to amendment, subsec. (b) read as follows: ‘‘There is authorized to be appropriated to carry out the provisions of this subchapter $2,140,000,000 for the fiscal year 1985, and $2,275,000,000 for the fiscal year 1986.’’

1984—Subsec. (b). Pub. L. 98–558 substituted ‘‘$2,140,000,000 for fiscal year 1985, and $2,275,000,000 for fiscal year 1986’’ for ‘‘$1,675,000,000 for each of fiscal years 1986, 1988, and 1984’’.

**Effective Date of 1994 Amendment**

Section 314 of title III of Pub. L. 103–252 provided that: ‘‘The amendments and repeals made by this title [see Short Title of 1994 Amendment note below] shall become effective on October 1, 1994.’’

**Effective Date of 1990 Amendment**

Section 1001 of Pub. L. 101–501 provided that:

(a) General Effective Date.—Except as provided in subsection (b), this Act and the amendments made by this Act [see Tables for classification] shall take effect on October 1, 1990.

(b) Special Effective Dates.—(1) The amendment made by section 207(b) [repealing a provision set out as a note preceding section 9861 of this title] shall take effect immediately before October 1, 1990.

(2) Section 664(b) of the Head Start Act [section 9841(b) of this title], as added by section 115, shall take effect on April 1, 1990.

**Effective Date of 1986 Amendment**

Section 1001 of Pub. L. 99–425 provided that:

(a) General Effective Date.—Except as provided in subsections (b) and (c), this Act and the amendments made by this Act [enacting sections 8628a, 9812a, 9910b, and 10961 to 10965 of this title, amending this section, sections 8623, 8624, 8629, 9803, 9834, 9835, 9837, 9840, 9862, 9867, 9971, 9974, 9977, 9991 to 9994, 9996a, 9998 to 9910, and 9919a of this title and section 4033 of Title 20, Education, enacting provisions set out as notes under this section and sections 8623, 9813, and 10961 of this title, and amending provisions set out as notes under section 9861 of this title and section 1922 of Title 7, Agriculture] shall take effect on October 1, 1986, or the date of the enactment of this Act [Sept. 30, 1986], whichever occurs later.

(b) Effective Date for Energy Crisis Intervention Amendments.—The amendments made by section 502(a) [amending section 8623 of this title and enacting provisions set out as a note under section 8623 of this title] shall take effect on December 1, 1986, or 60 days after the date of the enactment of this Act [Sept. 30, 1986], whichever occurs later.

(c) Application of Certain Other Amendments Relating to Energy Assistance.—The amendments made by subsections (a), (b), (c), and (d) of section 504 [amending section 8624 of this title] shall not apply with respect to any fiscal year beginning in or before the 60-day period ending on the effective date of this Act [Oct. 1, 1986].’’

**Effective Date of 1984 Amendment**

Section 409 of Pub. L. 98–558 provided that:

(a) Except as provided in subsections (b), (c), and (d), the amendments made by this title [amending this section and sections 8623 to 8624, 8626, 8627, and 8629 of this title] shall take effect on the date of enactment of this Act [Oct. 30, 1984].

(b) The amendments made by section 605 [amending section 8624 of this title] shall take effect on the first day of the first fiscal year beginning after the date of the enactment of this Act [Oct. 30, 1984].

(c) The amendments made by section 606 [amending section 8626 of this title] shall apply to amounts held available for fiscal years beginning after September 30, 1985.

(d) The amendment made by section 607 [amending section 8629 of this title] shall apply to data collected and compiled after the date of the enactment of this Act [Oct. 30, 1984]. Section 2610 of the Act [section 8629 of this title] as in effect before the date of the enactment of this Act shall apply with respect to the report submitted under such section 2610 for fiscal year 1984.’’

**Short Title of 1998 Amendment**

Pub. L. 105–206, title III, § 301, Oct. 27, 1998, 112 Stat. 2756, provided that: ‘‘This title [amending this section and sections 8622 to 8624, 8626, 8626b, and 8628a of this title and enacting provisions set out as a note under section 8626b of this title] may be cited as the ‘Low-Income Home Energy Assistance Amendments of 1998.’’’

**Short Title of 1994 Amendment**

Section 301(a) of title III of Pub. L. 103–252 provided that: ‘‘This title (enacting this subchapter and repealing subchapter I of this chapter) may be cited as the ‘Low-Income Home Energy Assistance Amendments of 1994.’’’

**Short Title**

Section 2601 of title XXVI of Pub. L. 97–35 provided that: ‘‘This title (enacting this subchapter and repealing subchapter I of this chapter) may be cited as the ‘Low-Income Home Energy Assistance Act of 1981.’’’

§ 8622. Definitions

As used in this subchapter:

1. The term ‘‘emergency’’ means—

(A) a natural disaster;

(B) a significant home energy supply shortage or disruption;

(C) a significant increase in the cost of home energy, as determined by the Secretary;

(D) a significant increase in home energy disconnections reported by a utility, a State regulatory agency, or another agency with necessary data;

(E) a significant increase in participation in a public benefit program such as the supplemental nutrition assistance program carried out under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.), the national program to provide supplemental security income carried out under title XVI of the Social Security Act (42 U.S.C. 1381 et seq.), or the State temporary assistance for needy families program carried out under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), as determined by the head of the appropriate Federal agency;

(F) a significant increase in unemployment, layoffs, or the number of households with an individual applying for unemployment benefits, as determined by the Secretary of Labor; or

(G) an event meeting such criteria as the Secretary, in the discretion of the Secretary, may determine to be appropriate.

2. (The term ‘‘energy burden’’ means the expenditures of the household for home energy divided by the income of the household.)
(3) The term "energy crisis" means weather-related and supply shortage emergencies and other household energy-related emergencies.

(4) The term "highest home energy needs" means the home energy requirements of a household determined by taking into account both the energy burden of such household and the unique situation of such household that results from having members of vulnerable populations, including very young children, individuals with disabilities, and frail older individuals.

(5) The term "household" means any individual or group of individuals who are living together as one economic unit for whom residential energy is customarily purchased in common or who make undesignated payments for energy in the form of rent.

(6) The term "home energy" means a source of heating or cooling in residential dwellings.

(7) The term "natural disaster" means a weather event (relating to cold or hot weather, flood, earthquake, tornado, hurricane, or ice storm, or an event meeting such other criteria as the Secretary, in the discretion of the Secretary, may determine to be appropriate.

(8) The term "poverty level" means, with respect to a household in any State, the income poverty line as prescribed and revised at least annually pursuant to section 9002(2) of this title, as applicable to such State.

(9) The term "Secretary" means the Secretary of Health and Human Services.

(10) The term "State" means each of the several States and the District of Columbia.

(11) The term "State median income" means the State median income promulgated by the Secretary in accordance with procedures established under section 1397a(a)(6) of this title (as such procedures were in effect on August 12, 1981) and adjusted, in accordance with regulations prescribed by the Secretary, to take into account the number of individuals in the household.

REFERENCES IN TEXT

The Food and Nutrition Act of 2008, referred to in par. (1)(E), is Pub. L. 98–558, Aug. 31, 1984, 98 Stat. 2899; Pub. L. 110–234, title IV, §4002(b)(1)(A), (B), (2)(EE) (as such procedures were in effect on August 12, 1981), and struck out "intervention" after "energy crisis" and inserted "and other household energy-related emergencies" at the end.

(Pub. L. 98–558, title VI, §602(a), struck out "the income poverty guidelines for the nonfarm population of the United States as prescribed by the Office of Management and Budget (and as adjusted annually pursuant to section 9002(2) of this title)" for "the income poverty guidelines for the nonfarm population of the United States as prescribed by the Office of Management and Budget (and as adjusted annually pursuant to section 9002(2) of this title)".

1981—Pub. L. 97–115 designated par. (2)(A) as par. (2), substituted provisions including individuals and groups of individuals who are living together as one economic unit for whom residential energy is customarily purchased in the form of rent in the definition of household for provisions including individuals who occupy a housing unit in such definition, and struck out par. (2)(B), which provided that for purposes of subpar. (A), one or more rooms shall be treated as a housing unit when occupied as a separate living quarters.

EFFECTIVE DATE OF 2008 AMENDMENT

EFFECTIVE DATE OF 1994 AMENDMENT

§ 8623. State allotments

(a) Amount; distribution, computation, etc.

(1)(A) Except as provided in subparagraph (B), the Secretary shall, from that percentage of the amount appropriated under section 8621(b) of this title for each fiscal year which is remaining after reserving any amount permitted to be reserved under section 8628a of this title and after the amount of allotments for such fiscal year under subsection (b)(1) of this section is determined by the Secretary, allot to each State an amount equal to such remaining percentage multiplied by the State’s allotment percentage.

(B) From the sums appropriated therefor after reserving any amount permitted to be reserved under section 8628a of this title, if for any period a State has a plan which is described in section 8624(c)(1) of this title, the Secretary shall pay to such State an amount equal to 100 percent of the expenditures of such State made during such period in carrying out such plan, including administrative costs (subject to the provisions of section 8624(b)(9)(B) of this title), with respect to households described in section 8624(b)(2) of this title.

(2) For purposes of paragraph (1), for fiscal year 1985 and thereafter, a State’s allotment percentage is the percentage which expenditures for home energy by low-income households in that State bears to such expenditures in all States, except that States which thereby receive less than the amount of funds the State would have received under subsection (b)(1) of this section is determined by the Secretary, allot to each State an amount equal to such remaining percentage multiplied by the State’s allotment percentage.

(b) Allotments to insular areas

(1) The Secretary shall apportion not less than one-tenth of 1 percent, and not more than one-half of 1 percent, of the amounts appropriated for each fiscal year to carry out this subchapter on the basis of need among the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, and the Commonwealth of the Northern Mariana Islands. The Secretary shall determine the total amount to be apportioned under this paragraph for any fiscal year (which shall not exceed one-half of 1 percent) after evaluating the extent to which each jurisdiction specified in the preceding sentence requires assistance under this paragraph for the fiscal year involved.

(2) Each jurisdiction to which paragraph (1) applies may receive grants under this subchapter upon an application submitted to the Secretary containing provisions which describe the programs for which assistance is sought under this subchapter, and which are consistent with the requirements of section 8624 of this title.

(c) Energy crisis intervention

Of the funds available to each State under section (a) of this section, a reasonable amount based on data from prior years shall be reserved until March 15 of each program year by each State for energy crisis intervention. The program for which funds are reserved by this subsection shall be administered by public or nonprofit entities which have experience in administering energy crisis programs under the Low-Income Energy Assistance Act of 1980, or under this subchapter. Experience in assisting low-income individuals in the area to be served, the capacity to undertake a timely and effective energy crisis intervention program, and the ability to carry out the program in local communities. The program for which funds are reserved under this subsection shall—

(1) not later than 48 hours after a household applies for energy crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits;

(2) not later than 18 hours after a household applies for crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits and is in a life-threatening situation; and

(3) require each entity that administers such program—

(A) to accept applications for energy crisis benefits at sites that are geographically accessible to all households in the area to be served by such entity; and

(B) to provide to low-income individuals who are physically infirm the means—

(i) to submit applications for energy crisis benefits without leaving their residences; or

(ii) to travel to the sites at which such applications are accepted by such entity.

The preceding sentence shall not apply to a program in a geographical area affected by a natu-
ral disaster in the United States designated by the Secretary, or by a major disaster or emergency designated by the President under the Disaster Relief Act of 1974 [42 U.S.C. 5121 et seq.], for so long as such designation remains in effect, if the Secretary determines that such disaster or such emergency makes compliance with such sentence impracticable.

(d) Allotments to Indian tribes

(1) If, with respect to any State, the Secretary—

(A) receives a request from the governing organization of an Indian tribe within the State that assistance under this subchapter be made directly to such organization; and

(B) determines that the members of such tribe would be better served by means of grants made directly to provide benefits under this subchapter;

the Secretary shall reserve from amounts which would otherwise be payable to such State from amounts allotted to it under this subchapter for the fiscal year involved the amount determined under paragraph (2).

(2) The amount determined under this paragraph for a fiscal year is the amount which bears the same ratio to the amount which would (but for this subsection) be allotted to such State under this subchapter for such fiscal year (other than by reason of section 8626(b)(2) of this title) as the number of Indian households described in subparagraphs (A) and (B) of section 8624(b)(2) of this title and residing within the State on the reservation of the tribes or on trust lands adjacent to such reservation bears to the number of all households described in subparagraphs (A) and (B) of section 8624(b)(2) of this title in such State, or such greater amount as the Secretary determines has the capacity to provide assistance pursuant to this subchapter.

(3) The sums reserved by the Secretary on the basis of a determination under this subsection shall be granted to—

(A) the tribal organization serving the individuals for whom such a determination has been made; or

(B) in any case where there is no tribal organization serving an individual for whom such a determination has been made, such other entity as the Secretary determines has the capacity to provide assistance pursuant to this subchapter.

(4) In order for a tribal organization or other entity to be eligible for an amount under this subsection for a fiscal year, it shall submit to the Secretary a plan (in lieu of being under the State’s plan) for such fiscal year which meets such criteria as the Secretary may by regulations prescribe.

(e) Allotment of emergency funds

Notwithstanding subsections (a) through (d) of this section, the Secretary may allot amounts appropriated pursuant to section 8621(e) of this title to one or more than one State. In determining whether to make such an allotment to a State, the Secretary shall take into account the extent to which the State was affected by the natural disaster or other emergency involved, the availability to the State of other resources under the program carried out under this subchapter or any other program, and such other factors as the Secretary may find to be relevant. Not later than 30 days after making the determination, but prior to releasing an allotted amount to a State, the Secretary shall notify Congress of the allotments made pursuant to this subsection.
sections (a) through (f) of this section" and "in determining whether to make such an allotment to a State, the Secretary shall take into account the extent to which the State was affected by the natural disaster or other emergency involved, the availability to the State of other resources under the program carried out under this subchapter or any other program, and such other factors as the Secretary may find to be relevant. Not later than 30 days after making the determination, but prior to releasing an allotted amount to a State, the Secretary shall notify Congress of the allotments made pursuant to this subsection," for "in determining to which State or States additional funds may be allotted, the Secretary shall take into account the extent to which a State was affected by the emergency or disaster, the availability to an affected State of other resources under this or any other program, and such other factors as the Secretary determines relevant. The Secretary shall notify Congress of the allotment pursuant to this subsection prior to releasing the allotted funds."  

Subsec. (g). Pub. L. 103–252, § 306(c), added subsec. (g).

1990—Subsec. (f). Pub. L. 101–501 (designated existing provisions as par. (1), redesignated former pars. (1) to (3) as subpars. (A) to (C), respectively, substituted "in accordance with paragraph (2) a percentage" for "up to 10 percent", "or a combination for "or any combination", and "subparagraphs (A), (B), and (C)" for "paragraphs (1), (2), and (3)", and added par. (2).

1986—Subsec. (a)(1)(A). Pub. L. 99–425, § 505(b)(1), inserted "after reserving any amount permitted to be reserved under section 8628a of this title" and "after remaining".

Subsec. (a)(1)(B). Pub. L. 99–425, § 505(b)(2), inserted "after reserving any amount permitted to be reserved under section 8628a of this title" after "therefor".

Subsec. (c). Pub. L. 99–425, § 505(a)(2), substituted "the capacity" for "and the capacity", deleted "and the ability to carry out the program in local communities", and inserted provisions relating to hourly time periods in which the program must respond, application for benefits, and nonapplicability of the program to areas affected by a natural disaster or major disaster.

Subsec. (d)(2). Pub. L. 99–425, § 503, substituted "and residing within the State on the reservation of the tribes or on trust lands adjacent to such reservation" for "in such State with respect to which a determination under this subsection is made", inserted "or such greater amount as the Indian tribe and the State may agree upon", and inserted "in cases where a tribe has no reservation, the Secretary, in consultation with the tribe and the State, shall define the number of Indian households for the determination under this paragraph."

Subsec. (c). Pub. L. 98–558, § 603(a), inserted "until March 15 of each program year" after "reserved" and inserted "The program for which funds are reserved by this subsection shall be administered by public or nonprofit entities which have experience in administering energy crisis programs under the Low-Income Energy Assistance Act of 1986, or under this subchapter, experience in assisting low-income individuals in the area to be served, and the capacity to undertake a timely and effective energy crisis intervention program."

Subsec. (d)(1). Pub. L. 98–558, § 603(b), substituted "otherwise be payable" for "otherwise be paid" in provisions following subpar. (B).

Subsec. (e). Pub. L. 98–558, § 603(c), struck out subsec. (e) which related to direct payments to households and State options.

Subsec. (f). Pub. L. 98–558, § 603(d), substituted "the funds payable to it for "its allotment".

### Effective Date of 1994 Amendment

### Effective Date of 1990 Amendment

### Effective Date of 1986 Amendment

### Effective Date of 1984 Amendment

### Rules for Energy Crisis Intervention

Section 502(b) of Pub. L. 99–425 provided that: "Not later than 60 days after the date of the enactment of this Act [Sept. 30, 1986], the Secretary of Health and Human Services shall issue rules to carry out the amendments made by subsection (a) [amending this section]."

### § 8624. Applications and requirements

(a) **Form; assurances; public hearings**

(1) Each State desiring to receive an allotment for any fiscal year under this subchapter shall submit an application to the Secretary. Each such application shall be in such form as the Secretary shall require. Each such application shall contain assurances by the chief executive officer of the State that the State will meet the conditions enumerated in subsection (b) of this section.

(2) After the expiration of the first fiscal year for which a State receives funds under this subchapter, such State shall submit an application to the Secretary.

(b) **Certifications required for covered activities**

As part of the annual application required by subsection (a) of this section, the chief executive officer of each State shall certify that the State agrees to—

(1) use the funds available under this subchapter to—

(A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this subchapter including leveraging programs,

and the State agrees not to use such funds for any purposes other than those specified in this subchapter;
(2) make payments under this subchapter only with respect to—
(A) households in which 1 or more individuals are receiving—
(i) assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.];
(ii) supplemental security income payments under title XVI of the Social Security Act [42 U.S.C. 1381 et seq.];
(iii) supplemental nutrition assistance program benefits under the Food and Nutrition Act of 2008 [7 U.S.C. 2011 et seq.]; or
(iv) payments under section 1315, 1521, 1541, or 1542 of title 38, or under section 306 of the Veterans’ and Survivors’ Pension Improvement Act of 1978; or
(B) households with incomes which do not exceed the greater of—
(i) an amount equal to 150 percent of the poverty level for such State; or
(ii) an amount equal to 60 percent of the State median income;
except that a State may not exclude a household from eligibility in a fiscal year solely on the basis of such income if such income is less than 110 percent of the poverty level for such State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income;
(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this subchapter, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) [42 U.S.C. 9001 et seq.] or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] before August 13, 1981;
(4) coordinate its activities under this subchapter with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program) [42 U.S.C. 9001 et seq.], under the supplemental security income program, under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.], under title XX of the Social Security Act [42 U.S.C. 1397 et seq.], under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act [42 U.S.C. 6651 et seq.], or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] before August 13, 1981;
(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clause (2)(A) and (2)(B) of this subsection;
(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this subchapter, give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] or any other provision of law on August 12, 1981, except that—
(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and
(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;
(7) if the State chooses to pay home energy suppliers directly, establish procedures to—
(A) notify each participating household of the amount of assistance paid on its behalf;
(B) assure that the home energy supplier will charge the eligible household in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this subchapter;
(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this paragraph will contain provisions to assure that no household receiving assistance under this subchapter will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and
(D) ensure that the provision of vendored payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this subchapter that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;
(8) provide assurances that (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and (B) the State will treat owners and renters equitably under the program assisted under this subchapter;
(9) provide that—

1 See References in Text note below.
issue regulations to prevent waste, fraud, and abuse in the programs assisted by this subchapter; and

(8) the State will not pay from non-Federal sources the remaining costs of planning and administering the program assisted under this subchapter and will not use Federal funds for such remaining costs (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this subchapter, including procedures for monitoring the assistance provided under this subchapter, and provide that the State will comply with the provisions of chapter 75 of title 31 (commonly known as the “Single Audit Act”);

(11) permit and cooperate with Federal investigations undertaken in accordance with section 8627 of this title; and provide for timely and meaningful public participation in the development of the plan described in subsection (c) of this section;

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) of this section are denied or are not acted upon with reasonable promptness;

(14) cooperate with the Secretary with respect to data collecting and reporting under section 8629 of this title;

(15) beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging, and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer intake functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs; and

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

The Secretary may not prescribe the manner in which the States will comply with the provisions of this subsection. The Secretary shall issue regulations to prevent waste, fraud, and abuse in the programs assisted by this subchapter.

Not later than 18 months after May 18, 1994, the Secretary shall develop model performance goals and measurements in consultation with State, territorial, tribal, and local grantees, that the States may use to assess the success of the States in achieving the purposes of this subchapter. The model performance goals and measurements shall be made available to States to be incorporated, at the option of the States, into the plans for fiscal year 1997. The Secretary may request data relevant to the development of model performance goals and measurements.

(c) State plan; revision; public inspection

(1) As part of the annual application required in subsection (a) of this section, the chief executive officer of each State shall prepare and furnish to the Secretary, in such format as the Secretary may require, a plan which—

(A) describes the eligibility requirements to be used by the State for each type of assistance to be provided under this subchapter, including criteria for designating an emergency under section 8623(c) of this title;

(B) describes the benefit levels to be used by the State for each type of assistance including assistance to be provided for emergency crisis intervention and for weatherization and other energy-related home repair;

(C) contains estimates of the amount of funds the State will use for each of the programs under such plan and describes the alternative use of funds reserved under section 8623(c) of this title in the event any portion of the amount so reserved is not expended for emergencies;

(D) describes weatherization and other energy-related home repair the State will provide under subsection (k) of this section, as well as the use of funds provided under this subchapter for such weatherization and energy-related home repairs and improvements;

(E) describes any steps that will be taken (in addition to those necessary to carry out the assurance contained in paragraph (5) of subsection (b) of this section) to target assistance to households with high home energy burdens; and

(F) describes how the State will carry out assurances in clauses (3), (4), (5), (6), (7), (8), (10), (12), (13), and (15) of subsection (b) of this section; and

(G) states, with respect to the 12-month period specified by the Secretary, the number and income levels of households which apply and the number which are assisted with funds provided under this subchapter, and the number of households so assisted with—

(i) one or more members who had attained 60 years of age;

(ii) one or more members who were disabled; and
(iii) one or more young children; and

(H) contains any other information determined by the Secretary to be appropriate for purposes of this subchapter.

The chief executive officer may revise any plan prepared under this paragraph and shall furnish the revised plan to the Secretary.

(2) Each plan prepared under paragraph (1) and each substantial revision thereof shall be made available for public inspection within the State involved in such a manner as will facilitate timely and meaningful review of, and comment upon, such plan or substantial revision.

(3) Not later than April 1 of each fiscal year the Secretary shall make available to the States a model State plan format that may be used, at the option of each State, to prepare the plan required under paragraph (1) for the next fiscal year.

(d) Expending of funds

The State shall expend funds in accordance with the State plan under this subchapter or in accordance with revisions applicable to such plan.

(e) Conduct of audits

Each State shall, in carrying out the requirements of subsection (b)(10) of this section, obtain financial and compliance audits of any funds which the State receives under this subchapter. Such audits shall be made public within the State on a timely basis. The audits shall be conducted in accordance with chapter 75 of title 31.

(f) Payments or assistance not to be deemed income or resources for any purpose under Federal or State law; determination of excess shelter expense deduction

(1) Notwithstanding any other provision of law unless enacted in express limitation of this paragraph, the amount of any home energy assistance payments or allowances provided directly to, or indirectly for the benefit of, an eligible household under this subchapter shall not be considered income or resources of such household (or any member thereof) for any purpose under any Federal or State law, including any law relating to taxation, supplemental nutrition assistance program benefits, public assistance, or welfare programs.

(2) For purposes of paragraph (1) of this subsection and for purposes of determining any excess shelter expense deduction under section 5(e) of the Food and Nutrition Act of 2008 (7 U.S.C. 2014(e))—

(A) the full amount of such payments or allowances shall be deemed to be expended by such household for heating or cooling expenses, without regard to whether such payments or allowances are provided directly to, or indirectly for the benefit of, such household; and

(B) no distinction may be made among households on the basis of whether such payments or allowances are provided directly to, or indirectly for the benefit of, any of such households.

(g) Repayment of funds expended improperly; offset

The State shall repay to the United States amounts found not to have been expended in accordance with this subchapter or the Secretary may offset such amounts against any other amount to which the State is or may become entitled under this subchapter.

(h) Periodic evaluation of expenditures by Comptroller General

The Comptroller General of the United States shall, from time to time² evaluate the expenditures by States of grants under this subchapter in order to assure that expenditures are consistent with the provisions of this subchapter and to determine the effectiveness of the State in accomplishing the purposes of this subchapter.

(i) Certain recipients of supplemental security income ineligible for payments or assistance

A household which is described in subsection (b)(2)(A) of this section solely by reason of clause (ii) thereof shall not be treated as a household described in subsection (b)(2) of this section if the eligibility of the household is dependent upon—

(1) an individual whose annual supplemental security income benefit rate is reduced pursuant to section 1611(e)(1) of the Social Security Act [42 U.S.C. 1382a(e)(1)] by reason of being in an institution receiving payments under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] with respect to such individual;

(2) an individual to whom the reduction specified in section 1612(a)(2)(A)(i) of the Social Security Act [42 U.S.C. 1382a(a)(2)(A)(i)] applies; or

(3) a child described in section 1614(f)(2) of the Social Security Act [42 U.S.C. 1382c(f)(2)] who is living together with a parent, or the spouse of a parent, of the child.

(j) State verification of income eligibility; policies and procedures applicable

In verifying income eligibility for purposes of subsection (b)(2)(B) of this section, the State may apply procedures and policies consistent with procedures and policies used by the State agency administering programs under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.], under title XX of the Social Security Act [42 U.S.C. 1397 et seq.], under subtitle B of title VI of this Act (relating to community services block grant program) [42 U.S.C. 9001 et seq.], under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] before August 13, 1981, or under other income assistance or service programs (as determined by the State).

(k) Limitation on use of funds; waiver

(1) Except as provided in paragraph (2), not more than 15 percent of the greater of—

(A) the funds allotted to a State under this subchapter for any fiscal year; or

(B) the funds available to such State under this subchapter for such fiscal year;

may be used by the State for low-cost residential weatherization or other energy-related

²So in original. Probably should be followed by a comma.
home repair for low-income households, particularly those low-income households with the lowest incomes that pay a high proportion of household income for home energy.

(2)(A) If a State receives a waiver granted under paragraph (B) for a fiscal year, the State may use not more than the greater of 25 percent of—

(i) the funds allotted to a State under this subchapter for such fiscal year; or

(ii) the funds available to such State under this subchapter for such fiscal year;

for residential weatherization or other energy-related home repair for low-income households, particularly those low-income households with the lowest incomes that pay a high proportion of household income for home energy.

(B) For purposes of subparagraph (A), the Secretary may grant a waiver to a State for a fiscal year if the State submits a written request to the Secretary after March 31 of such fiscal year and if the Secretary determines, after reviewing such request and any public comments, that—

(i) the number of households in the State that will receive benefits, other than weatherization and energy-related home repair, under this subchapter in such fiscal year will not be fewer than the number of households in the State that received benefits, other than weatherization and energy-related home repair, under this subchapter in the preceding fiscal year;

(ii) the aggregate amounts of benefits that will be received under this subchapter by all households in the State in such fiscal year will not be less than the aggregate amount of such benefits that were received under this subchapter by all households in the State in the preceding fiscal year; and

(iii) such weatherization activities have been demonstrated to produce measurable savings in energy expenditures by low-income households; or

(ii) in accordance with rules issued by the Secretary, the State demonstrates good cause for failing to satisfy the requirements specified in clause (i).

(1) State tax credits to energy suppliers who supply home energy at reduced rates to low-income households

(1) Any State may use amounts provided under this subchapter for the purpose of providing credits against State tax to energy suppliers who supply home energy at reduced rates to low-income households.

(2) Any such credit provided by a State shall not exceed the amount of the loss of revenue to such supplier on account of such reduced rate.

(3) Any certification for such tax credits shall be made by the State, but such State may use Federal data available to such State with respect to recipients of supplemental security income benefits if timely delivery of benefits to households described in subsection (b) of this section and suppliers will not be impeded by the use of such data.

REFERENCES IN TEXT

The Social Security Act, referred to in subsecs. (b)(2)(A)(ii), (ii), (4), (i), (1), and (j), is act Aug. 14, 1935, ch. 531, 49 Stat. 620, as amended. Part A of title IV of the Social Security Act is classified generally to part A (§601 et seq.) of subchapter IV of chapter 7 of this title. Titles XVI, XIX, and XX of the Social Security Act are classified generally to subchapters XVI (§1381 et seq.), XIX (§1396 et seq.), and XX (§1397 et seq.) of chapter 7 of this title, respectively. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

Subtitle B of title VI, referred to in subsecs. (b)(3), (4), and (j), is subtitle B of title VI of Pub. L. 97–35, §671 et seq., Aug. 13, 1981, 95 Stat. 511, as amended, known as the Community Services Block Grant Act, which is classified generally to chapter 106 (§9901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 9901 of this title and Tables.

For complete classification of this Act to the Code, see Short Title note set out under section 8601 of this title and Tables.

This subchapter, referred to in subsec. (b)(7)(D), was in the original “this Act” and was translated as reading “this title”, meaning title XXVI of Pub. L. 97–35, known as the Low-Income Home Energy Assistance Act of 1981, to reflect the probable intent of Congress.

CROSS REFERENCE

In subsec. (b)(6), “August 12, 1981” substituted for “the day before the date of the enactment of this Act”, which date of enactment is Aug. 13, 1981.

holds with high home energy burdens, are made aware” for “‘are made aware’.

Subsec. (b)(4). Pub. L. 103–252, §306(c), inserted “or needs” after “highest energy costs”.

Subsec. (b)(7)(D). Pub. L. 103–252, §311(a)(1), amended subpar. (D) generally. Prior to amendment, subpar. (D) read as follows: “assure that any home energy supplier receiving direct payments agrees not to discriminate either in the cost of the goods supplied or the services provided, against the eligible household on whose behalf payments are made”.

Subsec. (b)(9)(B). Pub. L. 103–252, §305(b)(1), inserted before semicolon at end “(except for the costs of the activities described in paragraph (16)).”

Subsec. (b)(10). Pub. L. 103–252, §307(1), substituted “and provide that the State will comply with the provisions of chapter 75 of title 31 (commonly known as the ‘Single Audit Act’)” for “and provide that at least every two years the State shall prepare an audit of its expenditures of amounts received under this subchapter and amounts transferred to carry out the purposes of this subchapter”.

Subsec. (c)(1)(D). Pub. L. 103–252, §308, inserted before semicolon at end “…, including any steps the State will take to address the weatherization and energy-related home repair needs of households that have high home energy burdens, and describes any rules promulgated by the Department of Energy for administration of its Low Income Weatherization Assistance Program which the State, to the extent permitted by the Secretary to increase consistency between federally assisted programs, will follow regarding the use of funds provided under this subchapter by the State for such weatherization and energy-related home repairs and improvements.”

Subsec. (c)(1)(F). Pub. L. 103–252, §§306(d)(1), 306(e), redesignated subpar. (E) as (F). Former subpar. (F) redesignated (G).

Subsec. (e). Pub. L. 103–252, §307(2), substituted “in accordance with chapter 75 of title 31” for “at least every two years by an organization or person independent of any agency administering activities under this subchapter. The audits shall be conducted in accordance with the Comptroller General’s standards for audit of governmental organizations, programs, activities, and functions. Within 30 days after completion of each audit, the chief executive officer of the State shall submit a copy of the audit to the legislature of the State and to the Secretary”.

Subsec. (k). Pub. L. 101–501, §705, designated existing provisions as par. (1), redesignated former pars. (1) and (2) as subs. (A) and (B), respectively, substituted “Except as provided in paragraph (2), not” for “Not”, and added par. (2).

1986—Subsec. (b)(5). Pub. L. 99–425, §504(a), substituted “in a timely manner” for “in a manner consistent with the efficient and timely payment of benefits”.

Subsec. (b)(14) to (17). Pub. L. 99–425, §504(b), redesignated cl. (17) as (14), and struck out former cls. (14) to (16) which read as follows: “(14) describe the procedures by which households in the State are identified as eligible to participate under
this subchapter and the manner in which the State determines benefit levels;

“(15) describe the amount that the State will reserve in accordance with section 8626(c) of this title in each fiscal year for energy crisis intervention activities together with the administrative procedures (A) for designating an emergency, (B) for determining the assistance to be provided in any such emergency, and (C) the use of funds reserved under such section for the purposes under this subchapter in the event any portion of the amount so reserved is not expended for emergencies;

“(16) describe energy usage and the average cost of home energy in the State, identified by type of fuel and by region of the State.”;

Subsec. (c)(1). Pub. L. 99–425, § 504(c), revised provisions relating to requirements for State plans, restating as subpars. (A) to (F), provisions of former subpars. (A) to (E).

Subsec. (f). Pub. L. 99–425, § 504(e), designated existing provisions as par. (1), substituted “provided directly to, or indirectly for the benefit of” for “provided to”, and added subpar. (2).

1984—Subsec. (b). Pub. L. 98–558, § 805(a)(8), inserted at end “The Secretary shall issue regulations to prevent waste, fraud, and abuse in the programs assisted by this subchapter.”.

Subsec. (b)(2)(B). Pub. L. 98–558, § 805(a)(2), inserted “except that no household may be excluded from eligibility under this subclause for payments under this subchapter for fiscal year 1986 and thereafter if the household has an income which is less than 110 percent of the poverty level for such State for such fiscal year”.

Subsec. (b)(3). Pub. L. 98–558, § 805(a)(3), inserted “except that the State may not differentiate in implementing this section between the households described in clause (2)(A) and (2)(B) of this subsection”.

Subsec. (b)(8). Pub. L. 98–558, § 805(a)(5), designated existing provisions as subpar. (B) and added subpar. (A).

Subsec. (b)(9)(A). Pub. L. 98–558, § 805(a)(6), in amending subpar. (A) generally, struck out “in each fiscal year before the State may and substituted “for a fiscal year and not transferred pursuant to section 8629(f) of this title for use under another block grant” for “for such fiscal year”.

Subsec. (b)(10). Pub. L. 98–558, § 805(a)(7), substituted “every two years” for “every year”.

Subsec. (b)(14) to (17). Pub. L. 98–558, § 805(a)(8), which directed amendment of subsec. (b) by adding pars. (14) to (17) at the end thereof, was executed by adding those pars. after par. (13) to reflect the probable intent of Congress.

Subsec. (c)(1). Pub. L. 98–558, § 805(b)(1), in amending par. (1) generally, designated existing provisions as subpar. (A) and added subpars. (B) to (E).

Subsec. (c)(2). Pub. L. 98–558, § 805(b)(2), inserted “and each substantial revision thereof” and “or substantial revision” at the end.

Subsec. (d). Pub. L. 98–558, § 805(c), in amending subsec. (d) generally, substituted provisions that the State shall expend funds in accordance with the State plan or revisions thereto for former provisions which related to waiver of requirements.

Subsec. (e). Pub. L. 98–558, § 805(d), in amending subsec. (e) generally, inserted provisions requiring that the assistance be made public and that they shall be conducted in accordance with the Comptroller General’s standards.

Subsec. (f). Pub. L. 98–558, § 805(e), inserted “unless enacted in express limitation of this paragraph.”.

Subsec. (h). Pub. L. 98–558, § 805(f), inserted “but not less frequently than every three years”.

Effective Date of 2008 Amendment

Effective Date of 1996 Amendment

Amendment by Pub. L. 104–193 effective July 1, 1997, with transition rules relating to State options to accelerate such date, rules relating to claims, actions, and proceedings commenced before such date, rules relating to closing out of accounts for terminated or substantially modified programs and continuance in office of Assistant Secretary for Family Support, and provisions relating to termination of entitlement under AFDC program, see section 116 of Pub. L. 104–193, as amended, set out as an Effective Date note under section 601 of this title.

Effective Date of 1994 Amendment

Effective Date of 1990 Amendment

Effective Date of 1986 Amendment

Amendment by section 504(a)–(d) of Pub. L. 99–425 not applicable with respect to any fiscal year beginning in or before the 60-day period ending on Oct. 1, 1986, and amendment by section 504(e) effective Oct. 1, 1986, see section 1001 of Pub. L. 99–425, set out as a note under section 8621 of this title.

Effective Date of 1984 Amendment

Amendment by Pub. L. 98–558 effective on first day of first fiscal year beginning after Oct. 30, 1984, see section 609(b) of Pub. L. 98–558, set out as a note under section 8621 of this title.

Clarification on Utility Allowances

“(a) ELIGIBILITY.—Tenants who—

“(1) are responsible for making out-of-pocket payments for utility bills; and

“(2) receive energy assistance through utility allowances that include energy costs under programs identified in subsection (c); shall not have their eligibility or benefits under other programs designed to assist low-income people with increases in energy costs since 1978 reduced or eliminated, except as provided in subsection (d).

“(b) EQUAL TREATMENT IN BENEFIT PROGRAMS.—Tenants described in subsection (a) shall be treated identically with other households eligible for or receiving energy assistance, including in the determination of the home energy costs for which they are individually responsible and in the determination of their incomes for any program in which eligibility or benefits are based on need, except as provided in subsection (d).

“(d) SPECIAL RULE FOR LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM.—For purposes of the Low-Income Home Energy Assistance Program, tenants described in
§ 8625 TITLE 42—THE PUBLIC HEALTH AND WELFARE Page 6656

subsection (a)(2) who are responsible for paying some or all heating or cooling costs shall not have their eligibility automatically denied. A State may consider the amount of the heating or cooling component of utility allowances received by tenants described in subsection (a)(2) when setting benefit levels under the Low-Income Home Energy Assistance Program. The size of any reduction in Low-Income Home Energy Assistance Program benefits must be reasonably related to the amount of the heating or cooling component of the utility allowance received and must ensure that the highest level of assistance will be furnished to those households with the lowest incomes and the highest energy costs in relation to income, taking into account family size, in compliance with section 2605(b)(5) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8624(b)(5))."

§ 8625. Nondiscrimination provisions

(a) Prohibitions

No person shall on the ground of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity funded in whole or in part with funds made available under this subchapter. Any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.) or with respect to an otherwise qualified handicapped individual as provided in section 794 of title 29 also shall apply to any such program or activity.

(b) Procedures applicable to secure compliance

Whenever the Secretary determines that a State has received a payment under this subchapter has failed to comply with subsection (a) of this section or an applicable regulation, he shall notify the chief executive officer of the State and shall request him to secure compliance. If within a reasonable period of time, not to exceed 60 days, the chief executive officer fails or refuses to secure compliance, the Secretary is authorized to (1) refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted; (2) exercise the powers and functions provided by title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.], the Age Discrimination Act of 1975 [42 U.S.C. 6101 et seq.], or section 794 of title 29, as may be applicable; or (3) take such other action as may be provided by law.

(c) Maintenance of civil actions

When a matter is referred to the Attorney General pursuant to subsection (b) of this section, or whenever he has reason to believe that the State is engaged in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in any appropriate United States district court for such relief as may be appropriate, including injunctive relief.

REFERENCES IN TEXT

The Age Discrimination Act of 1975, referred to in subsections (a) and (b), is title III of Pub. L. 94–135, Nov. 28, 1975, 87 Stat. 648, as amended, which is classified generally to chapter 76 (§6101 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2000a of this title and Tables.

§ 8626. Payments to States; fiscal year requirements respecting availability, etc.

(a)(1) From its allotment under section 8623 of this title, the Secretary shall make payments to each State in accordance with section 6503(a) of title 31, for use under this subchapter.

(2) Each State shall notify the Secretary, not later than 2 months prior to the close of a fiscal year, of the amount (if any) of its allotment for such year that will not be obligated in such year, and, if such State elects to submit a request described in subsection (b)(2) of this section, such State shall submit such request at the same time. The Secretary shall make no payment under paragraph (1) to a State for a fiscal year unless the State has complied with this paragraph with respect to the prior fiscal year.

(b)(1) If—

(A) the Secretary determines that, as of September 1 of any fiscal year, an amount allotted to a State under section 8623 of this title for any fiscal year will not be used by such State during such fiscal year;

(B) the Secretary—

(i) notifies the chief executive officer of such State; and

(ii) publishes a timely notice in the Federal Register;

that, after the 30-day period beginning on the date of the notice to such chief executive officer, such amount may be reallocated; and

(C) the State does not request, under paragraph (2), that such amount be held available for such State for the following fiscal year;

then such amount shall be treated by the Secretary for purposes of this subchapter as an amount appropriated for the following fiscal year to be allotted under section 8623 of this title for such following fiscal year.

(2)(A) Any State may request that an amount allotted to such State for a fiscal year be held available for such State for the following fiscal year. Such request shall include a statement of the reasons that the amount allotted to such State for a fiscal year will not be used by such State during such fiscal year and a description of the types of assistance to be provided with the amount held available for the following fiscal year. Any amount so held available for the following fiscal year shall not be taken into account in computing the allotment of or the amount payable to such State for such fiscal year under this subchapter.

(B) No amount may be held available under this paragraph for a State from a prior fiscal year to the extent such amount exceeds 10 percent of the amount payable to such State for such prior fiscal year. For purposes of the preceding sentence, the amount payable to a State for a fiscal year shall be determined without regard to any amount held available under this paragraph for such State for such fiscal year from the prior fiscal year.
(C) The Secretary shall reallocate amounts made available under this paragraph for the fiscal year following the fiscal year of the original allotment in accordance with paragraph (1) of this subsection.

(3) During the 30-day period described in paragraph (1)(B), comments may be submitted to the Secretary. After considering such comments, the Secretary shall notify the chief executive officer of the State of any decision to reallocate funds; and shall publish such decision in the Federal Register.

CODIFICATION

AMENDMENTS

1984—Subsec. (b)(2)(B). Pub. L. 98–558 struck out “and not transferred by the State” after “the amount payable to” after “the amount payable to a State” in second sentence.

1994—Subsec. (a). Pub. L. 103–252 redesignated existing provisions as par. (1) and added par. (2).

1984—Subsec. (b)(2)(A). Pub. L. 98–558, §606(a), inserted “Such request shall include a statement of the reasons that the amount allotted to such State for a fiscal year will not be used by such State during such fiscal year and a description of the types of assistance to be provided with the amount held available for the following fiscal year;” and “or the amount payable to” after “computing the allotment of”.

“payable to such State for such prior fiscal year and not transferred pursuant to section 8623(f) of this title” for “allotted to such State for such prior fiscal year”;

“payable to a State but not transferred by the State” for “allotted to a State” in second sentence.

EFFECTIVE DATE OF 1994 AMENDMENT

EFFECTIVE DATE OF 1990 AMENDMENT

EFFECTIVE DATE OF 1984 AMENDMENT

Amendment by Pub. L. 98–558 applicable to amounts held available for fiscal years beginning after Sept. 30, 1985, see section 609(c) of Pub. L. 98–558, set out as a note under section 8621 of this title.

§8626a. Incentive program for leveraging non-Federal resources

(a) Allotment of funds

Beginning in fiscal year 1992, the Secretary may allocate amounts appropriated under section 8621(d) of this title to provide supplemental funds to States that have acquired non-Federal leveraged resources for the program established under this subchapter.

(b) “Leveraged resources” defined

For purposes of this section, the term “leveraged resources” means the benefits made available to the low-income home energy assistance program of the State, or to federally qualified low-income households, that—

(1) represent a net addition to the total energy resources available to State and federally qualified households in excess of the amount of such resources that could have been acquired by such households through the purchase of energy at commonly available household rates; and

(2)(A) result from the acquisition or development by the State program of quantifiable benefits that are obtained from energy vendors through negotiation, regulation or competitive bid; or

(B) are appropriated or mandated by the State for distribution—

(i) through the State program; or

(ii) under the plan referred to in section 8624(c)(1)(A) of this title to federally qualified low-income households and such benefits are determined by the Secretary to be integrated with the State program.

(c) Formula for distribution of amounts

(1) Distribution of amounts made available under this section shall be based on a formula developed by the Secretary that is designed to take into account the success in leveraging existing appropriations in the preceding fiscal year as measured under subsection (d) of this section. Such formula shall take into account the size of the allocation of the State under this subchapter and the ratio of leveraged resources to such allocation.

(2) A State may expend funds allocated under this subchapter as are necessary, not to exceed 0.08 percent of such allocation or $35,000 each fiscal year, whichever is greater, to identify, develop, and demonstrate leveraging programs. Funds allocated under this section shall only be used for increasing or maintaining benefits to households.

(d) Dollar value of leveraged resources

Each State shall quantify the dollar value of leveraged resources received or acquired by such State under this section by using the best available data to calculate such leveraged resources less the sum of any costs incurred by the State to leverage such resources and any cost imposed on the federally eligible low-income households in such State.

(e) Report to Secretary

Not later than 2 months after the close of the fiscal year during which the State provided leveraged resources to eligible households, as described in subsection (b) of this section, each State shall prepare and submit, to the Secretary, a report that quantifies the leveraged resources of such State in order to qualify for assistance under this section for the following fiscal year.
§ 8626b  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 6658

(f) Determination of State share; regulations; documentation

The Secretary shall determine the share of each State of the amounts made available under this section based on the formula described in subsection (c) of this section and the State reports. The Secretary shall promulgate regulations for the calculation of the leveraged resources of the State and for the submission of supporting documentation. The Secretary may request any documentation that the Secretary determines necessary for the verification of the application of the State for assistance under this section.

AMENDMENTS

1994—Subsec. (c)(2). Pub. L. 103–252, § 311(a)(2), substituted “0.08 percent” for “.0008 percent”.
Subsec. (e). Pub. L. 103–252, § 311(a)(2), substituted “2 months after the close of the fiscal year during which the State provided leveraged resources to eligible households, as described in subsection (b) of this section” for “July 31, of each year”.

EFFECTIVE DATE OF 1994 AMENDMENT

EFFECTIVE DATE

Section effective Oct. 1, 1990, see section 1001(a) of Pub. L. 101–501, set out as an Effective Date of 1990 Amendment note under section 8621 of this title.

§ 8626b. Residential Energy Assistance Challenge option (R.E.A.Ch.)

(a) Purpose

The purpose of the Residential Energy Assistance Challenge (in this section referred to as “R.E.A.Ch.”) program is to—

(1) minimize health and safety risks that result from high energy burdens on low-income Americans;
(2) prevent homelessness as a result of inability to pay energy bills;
(3) increase the efficiency of energy usage by low-income families; and
(4) target energy assistance to individuals who are most in need.

(b) Funding

(1) Allocation

For each fiscal year, the Secretary may allocate not more than 25 percent of the amount made available pursuant to section 8621(d) of this title for such fiscal year to a R.E.A.Ch. fund for the purpose of making incentive grants to States that submit qualifying plans that are approved by the Secretary as R.E.A.Ch. initiatives. States may use such grants for the costs of planning, implementing, and evaluating the initiative.

(2) Reservation

The Secretary shall reserve from any funds allocated under this subsection, funds to make additional payments to State R.E.A.Ch. programs that—

(A) have energy efficiency education services plans that meet quality standards established by the Secretary in consultation with the Secretary of Energy; and
(B) have the potential for being replicable model designs for other programs.

States shall use such supplemental funds for the implementation and evaluation of the energy efficiency education services.

(c) Criteria

(1) In general

Not later than May 31, 1995, the Secretary shall establish criteria for approving State plans required by subsection (a) of this section, for energy efficiency education quality standards described in subsection (b)(2)(A) of this section, and for the distribution of funds to States with approved plans.

(2) Documentation

Notwithstanding the limitations of section 8624(b) of this title regarding the authority of the Secretary with respect to plans, the Secretary may require a State to provide appropriate documentation that its R.E.A.Ch. activities conform to the State plan as approved by the Secretary.

(d) Focus

The State may designate all or part of the State, or all or part of the client population, as a focus of its R.E.A.Ch. initiative.

(e) State plans

(1) In general

Each State plan shall include each of the elements described in paragraph (2), to be met by State and local agencies.

(2) Elements of State plans

Each State plan shall include—

(A) an assurance that such State will deliver services through community-based nonprofit entities in such State, by—

(i) awarding grants to, or entering into contracts with, such entities for the purpose of providing such services and payments directly to individuals eligible for benefits; or
(ii) if a State makes payments directly to eligible individuals or energy suppliers, making contracts with such entities to administer such programs, including—

(I) determining eligibility;
(II) providing outreach services; and
(III) providing benefits other than payments;

(B) an assurance that, in awarding grants or entering into contracts to carry out its R.E.A.Ch. initiative, the State will give priority to organizations that—

(i) are described in section 9902(1) of this title, except where significant geographic portions of the State are not served by such entities;
(ii) the Secretary has determined have a record of successfully providing services under the Low-Income Home Energy Assistance Program; and
(iii) receive weatherization assistance program funds under part A of title IV of
the Energy Conservation and Production Act [42 U.S.C. 6861 et seq.];
except that a State may not require any such entity to operate a R.E.A.Ch. program;
(C) an assurance that, subject to subparagraph (D), each entity that receives a grant or enters into a contract under subparagraph (A) will provide a variety of services and benefits, including—
(i) payments to, or on behalf of, individuals eligible for residential energy assistance services and benefits under section 8624(b) of this title for home energy costs;
(ii) energy efficiency education;
(iii) residential energy demand management services, including any other energy related residential repair and energy efficiency improvements in coordination with, or delivered by, Department of Energy weatherization assistance programs at the discretion of the State;
(iv) family services, such as counseling and needs assessment, related to energy budget management, payment plans, and related services; and
(v) negotiation with home energy suppliers on behalf of households eligible for R.E.A.Ch. services and benefits;
(D) a description of the methodology the State and local agencies will use to determine—
(i) which households will receive one or more forms of benefits under the State R.E.A.Ch. initiative;
(ii) the cases in which nonmonetary benefits are likely to provide more cost-effective long-term outcomes than payment benefits alone; and
(iii) the amount of such benefit required to meet the goals of the program;
(E) a method for targeting nonmonetary benefits;
(F) a description of the crisis and emergency assistance activities the State will undertake that are designed to—
(i) discourage family energy crises;
(ii) encourage responsible vendor and consumer behavior; and
(iii) provide only financial incentives that encourage household payment;
(G) a description of the activities the State will undertake to—
(i) provide incentives for recipients of assistance to pay home energy costs; and
(ii) provide incentives for vendors to help reduce the energy burdens of recipients of assistance;
(H) an assurance that the State will require each entity that receives a grant or enters into a contract under this section to solicit and be responsive to the views of individuals who are financially eligible for benefits and services under this section in establishing its local program;
(I) a description of performance goals for the State R.E.A.Ch. initiative including—
(i) a reduction in the energy costs of participating households over one or more fiscal years;
(ii) an increase in the regularity of home energy bill payments by eligible households; and
(iii) an increase in energy vendor contributions towards reducing energy burdens of eligible households;
(J) a description of the indicators that will be used by the State to measure whether the performance goals have been achieved;
(K) a demonstration that the plan is consistent with section 8622 of this title, paragraphs (2), (3), (4), (5), (7), (9), (10), (11), (12), (13), and (14) of section 8624(b) of this title, subsections (d), (e), (f), (g), (h), (i), and (j) of section 8624 of this title, and section 8625 of this title;
(L) an assurance that benefits and services will be provided in addition to other benefit payments and services provided under this subchapter and in coordination with such benefit payments and services; and
(M) an assurance that no regulated utility covered by the plan will be required to act in a manner that is inconsistent with applicable regulatory requirements.

(f) Cost or function
None of the costs of providing services or benefits under this section shall be considered to be an administrative cost or function for purposes of any limitation on administrative costs or functions contained in this subchapter.

REFERENCES IN TEXT

AMENDMENTS
1998—Subsec. (b)(1). Pub. L. 105–285, § 308(c), substituted “For each fiscal year” for “For each of the fiscal years 1996 through 1999”.
Subsec. (e)(2)(E) to (H). Pub. L. 105–285, § 308(d)(1)(A), redesignated subpars. (F) to (I) as (E) to (H), respectively.
Subsec. (e)(2)(J) to (N). Pub. L. 105–285, § 308(d)(1)(A), redesignated subpars. (K) to (N) as (J) to (M), respectively.

EFFECTIVE DATE
Section effective Oct. 1, 1994, see section 314 of Pub. L. 103–252, set out as an Effective Date of 1994 Amendment note under section 8621 of this title.

EVALUATION AND REPORT ON RESIDENTIAL ENERGY ASSISTANCE CHALLENGE OPTION
§ 8627. Withholding of funds

(a) Improper utilization of funds; response to complaints respecting improprieties

(1) The Secretary shall, after adequate notice and an opportunity for a hearing conducted within the affected State, withhold funds from any State which does not utilize its allotment substantially in accordance with the provisions of this subchapter and the assurances such State provided under section 8624 of this title.

(2) The Secretary shall respond in writing in no more than 60 days to matters raised in complaints of a substantial or serious nature that a State has failed to use funds in accordance with the provisions of this subchapter or the assurances provided by the State under section 8624 of this title. For purposes of this paragraph, a violation of any one of the assurances contained in section 8624(b) of this title that constitutes a disregard of such assurance shall be considered a serious complaint.

(b) Investigations; conduct, etc.

(1) The Secretary shall conduct in several States in each fiscal year investigations of the use of funds received by the States under this subchapter in order to evaluate compliance with the provisions of this subchapter.

(2) Whenever the Secretary determines that there is a pattern of complaints from any State in any fiscal year, the Secretary shall conduct an investigation of the use of funds received under this subchapter by such State in order to ensure compliance with the provisions of this subchapter.

(3) The Comptroller General of the United States may conduct an investigation of the use of funds received under this subchapter by a State in order to ensure compliance with the provisions of this subchapter.

(c) Inspection of books, documents, etc.

Pursuant to an investigation conducted under subsection (b) of this section, a State shall make available to the Secretary or the Comptroller General of the United States, or any of their duly authorized representatives, for examination, copying, or mechanical reproduction on or off the premises of the appropriate entity any books, documents, papers, and records available to the Secretary or the Comptroller General of the United States, or any of their duly authorized representatives, for examination, copying, or mechanical reproduction on or off the premises of the appropriate entity.

(d) Request for information not readily available

In conducting any investigation under subsection (b) of this section, the Secretary may not request any information not readily available to such State or require that any information be compiled, collected, or transmitted in any new form not already available.

§ 8628. Limitation on use of grants for construction

Grants made under this subchapter may not be used by the State, or by any other person with which the State makes arrangements to carry out the purposes of this subchapter, for the purchase or improvement of land, or the purchase, construction, or permanent improvement (other than low-cost residential weatherization or other energy-related home repairs) of any building or other facility.

REQUIREMENTS

This subchapter, the first and second time appearing in subsection (a)(1), was in the original "'this subtitle'" which was translated as "'this title'", meaning title XXVI of Pub. L. 97-35, as the probable intent of Congress.

AMENDMENTS

1994—Pub. L. 103–252, § 311(c)(7)(A), struck out semicolon after "used" and inserted semicolon after "subchapter".

Subsec. (a)(5). Pub. L. 103–252, § 311(c)(7)(B), substituted "disabled or include young children" for "handicapped".

1986—Subsec. (b). Pub. L. 99–425 inserted provisions relating to report describing for prior fiscal year the manner of carrying out requirements of clauses of section 8624 of this title and impact of State programs on recipient and eligible households.

1984—Subsec. (a). Pub. L. 98–558, § 607(c), inserted at end "Nothing in this subsection may be construed to require the Secretary to collect data which has been collected and made available to the Secretary by any other agency of the Federal Government.".

Subsec. (a)(2). Pub. L. 98–558, § 607(a), inserted "amount," before "cost" and inserted at end "for households eligible for assistance under this subchapter".

Subsec. (a)(5), (6). Pub. L. 98–558, § 607(b), added par. (5) and redesignated former par. (5) as (6).

Subsec. (b). Pub. L. 98–558, § 607(d), in amending subsec. (b) generally, inserted "no later than June 30 of each fiscal year," and substituted "a detailed compilation of the data under subsection (a) of this section with respect to the prior fiscal year" for "a summary of data collected under subsection (a) of this section".

AMENDMENTS

1994—Subsec. (a)(2). Pub. L. 103–252, § 311(c)(7)(A), struck out semicolon after "used" and inserted semicolon after "subchapter".

Subsec. (a)(5). Pub. L. 103–252, § 311(c)(7)(B), substituted "disabled or include young children" for "handicapped".

1986—Subsec. (b). Pub. L. 99–425 inserted provisions relating to report describing for prior fiscal year the manner of carrying out requirements of clauses of section 8624 of this title and impact of State programs on recipient and eligible households.

1984—Subsec. (a). Pub. L. 98–558, § 607(c), inserted at end "Nothing in this subsection may be construed to require the Secretary to collect data which has been collected and made available to the Secretary by any other agency of the Federal Government.".

CHAPTER 95—UNITED STATES SYNTHETIC FUELS CORPORATION

§ 8701. Omitted

CODIFICATION
Section, Pub. L. 96–294, title I, §100, June 30, 1980, 94 Stat. 616, which related to Congressional findings, declarations, and purposes, was omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER I—INTRODUCTORY PROVISIONS

§ 8702. Omitted

CODIFICATION
Section, Pub. L. 96–294, title I, §112, June 30, 1980, 94 Stat. 633, which defined terms for this chapter, was omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER II—ESTABLISHMENT OF CORPORATION

§§ 8711 to 8719. Omitted

CODIFICATION
Sections 8711 to 8719 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

Section 8711, Pub. L. 96–294, title I, §115, June 30, 1980, 94 Stat. 636, created the Corporation, provided for its offices and residence status, and referred to its general powers.

Section 8719, Pub. L. 96–294, title I, §123, June 30, 1980, 94 Stat. 644, established an Advisory Committee to the Board of Directors. For continuation of Advisory Committee, see section 7404(c) of Pub. L. 99–272, set out as a note under section 8791 of this title.

SUBCHAPTER III—PRODUCTION GOAL OF THE CORPORATION

§§ 8721 to 8725. Omitted

CODIFICATION
Sections 8721 to 8725 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER IV—FINANCIAL ASSISTANCE

§§ 8731 to 8740. Omitted

CODIFICATION
Sections 8731 to 8740 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER V—CORPORATION CONSTRUCTION PROJECTS

§§ 8741 to 8745. Omitted

CODIFICATION
Sections 8741 to 8745 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER VI—CAPITALIZATION AND FINANCE

§§ 8751 to 8755. Omitted

CODIFICATION
Sections 8751 to 8755 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.
Corporation. See note set out under section 8791 of this title.

SUBCHAPTER VII—UNLAWFUL ACTS, PENALTIES, AND SUITS AGAINST THE CORPORATION

§§ 8761 to 8768. Omitted

CODIFICATION

Sections 8761 to 8768 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.
Section 8766, Pub. L. 96–294, title I, § 166, June 30, 1980, 94 Stat. 672, authorized an action for damages by Corporation in addition to penalties prescribed for violations.

SUBCHAPTER VIII—GENERAL PROVISIONS

§§ 8771 to 8780. Omitted

CODIFICATION

Sections 8771 to 8780 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

SUBCHAPTER IX—DISPOSAL OF ASSETS

§§ 8781, 8782. Omitted

CODIFICATION

Sections 8781 and 8782 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.
Section 8782, Pub. L. 96–294, title I, § 182, June 30, 1980, 94 Stat. 681, related to disposal of assets other than as provided for in section 8781.

SUBCHAPTER X—TERMINATION OF CORPORATION

§§ 8791 to 8793. Omitted

CODIFICATION

Sections 8791 to 8793 were omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

TERMINATION OF UNITED STATES SYNTHETIC FUELS CORPORATION

“SEC. 7401. SHORT TITLE.
"This subtitle may be cited as the ‘Synthetic Fuels Corporation Act of 1985’.
"SEC. 7402. CESSION OF FINANCIAL ASSISTANCE AUTHORITY."
"Effective on the date of enactment of this Act [Apr. 7, 1986], the United States Synthetic Fuels Corporation (hereafter in this subtitle referred to as the ‘Corporation’) may not make any legally binding awards or commitments for financial assistance (including any changes in an existing award or commitment) pursuant to the Energy Security Act [Pub. L. 96–294; see Short Title note set out under section 8801 of this title] for synthetic fuel project proposals, except that nothing in this Act [see Tables for classification] shall impair or alter the powers, duties, rights, obligations, privileges, or liabilities of the Corporation, its Board or Chairman, or project sponsors in the performance and completion of the terms and undertakings of a legally binding award or commitment entered into prior to the date of enactment of this Act."
"SEC. 7403. TERMINATION OF THE CORPORATION."
"(a) Within 60 days of the date of enactment of this Act [Apr. 7, 1986], the Directors of the Corporation shall terminate their duties under the Energy Security Act [Pub. L. 96–294; see Short Title note set out under section 8801 of this title] and be discharged."
"(b) Within 120 days of the date of enactment of this Act [Apr. 7, 1986], the Corporation shall terminate, except as otherwise provided in this subtitle, in accordance with subtitle J of part B of title I of the Energy Security Act [42 U.S.C. 8791 to 8793]."
"SEC. 7404. DUTIES OF SECRETARY OF THE TREASURY."
"(a) Within 60 days of the date of enactment of this Act [Apr. 7, 1986] (or earlier, in the event of absence of
a Chairman of the Board of Directors of the Corporation), the Secretary of the Treasury shall assume the duties of the Chairman of the Board of Directors of the Corporation. The Secretary of the Treasury shall have the authority to negotiate and execute agreements modifying an existing contract relating to the production of synthetic crude oil from oil shale, entered into under the Defense Production Act Amendments of 1980 (Pub. L. 96–294, title I, part A, see Short Title of 1980 Amendment note set out under section 2061 of Title 50, Appendix, War and National Defense) and subsequently transferred to the Secretary of the Treasury for administration, provided the terms and conditions of any modification(s) are revenue neutral or result in a fiscal savings to the United States Government, and in no event would increase the financial exposure of the United States Government under the contract: Provided, however, That the Secretary of the Treasury shall have no authority to increase the total amount of funds originally authorized for the existing contract: And provided further, That the Secretary shall have no authority to negotiate and execute any agreement modifying the existing contract if such modification(s) would increase or accelerate the financial support per unit for the synthetic fuel to be produced under the contract.

“(b) Notwithstanding any other provision of law, the duties and responsibilities of the Secretary of the Treasury under subtitle J of part B of title I of the Energy Security Act [42 U.S.C. 8791 to 8793] or this Act [see Tables for classification] may not be transferred to any other Federal department or agency.

“(c) Notwithstanding such termination of the Corporation, the Advisory Committee established under section 123 of the Energy Security Act [42 U.S.C. 8719] shall remain in effect to advise the Secretary of the Treasury regarding the administration of any contract or obligation of the Corporation pursuant to subtitle D of part B of title I of such Act [42 U.S.C. 8721 to 8740].

“(d) To the extent that the Secretary of the Treasury may be required to take an action under section 131(q) of the Energy Security Act [42 U.S.C. 8731(q)] in connection with an award or commitment of financial assistance under such Act [Pub. L. 96–294; see Short Title note set out under section 8801 of this title], the Secretary shall complete such action within 30 days of the date of enactment of this Act [Apr. 7, 1986].

“SEC. 7405. SALARIES AND COMPENSATION RIGHTS.

“(a) The Director of the Office of Personnel Management shall, before February 1, 1986, determine the amount of compensation or benefits which each Director, officer, or employee of the Corporation shall be legally entitled to under any contract as of the date of enactment of this Act [Apr. 7, 1986].

“(b) Effective on the date of enactment of this Act [Apr. 7, 1986], no change in any Director, officer, or employee compensation or benefits shall be allowed or permitted, unless the Director of the Office of Personnel Management agrees that such change is reasonable.

“(c) Effective on the date of enactment of this Act [Apr. 7, 1986]—

“(1) no officer or employee of the Corporation shall receive a salary in excess of the rate of basic pay payable for level IV of the Executive Schedule under title 5 of the United States Code; and

“(2) the Corporation shall not waive any requirements in its By-Laws which are necessary for a Director, officer, or employee to qualify for pension or termination benefits under the By-Laws and written personnel policies and procedures in effect on the date of enactment of this Act [Apr. 7, 1986].

“SEC. 7406. REPORT TO THE CONGRESS.

“The Corporation shall, within 60 days of the date of enactment of this Act [Apr. 7, 1986], transmit to the Committee on Energy and Natural Resources of the Senate and to the Committee on Energy and Commerce and Committee on Banking, Housing and Urban Affairs of the House of Representatives a report—

“(1) containing a review of implementation of its Phase I Business Plan dated February 19, 1985; and

“(2) fulfilling the requirements of section 126(b)(3) of the Energy Security Act [42 U.S.C. 8722(b)(3)].”

SUBCHAPTER XI—DEPARTMENT OF THE TREASURY

§ 8795. Omitted

CODIFICATION

Section, Pub. L. 96–294, title I, §195, June 30, 1980, 94 Stat. 682, which authorized appropriations to purchase corporate obligations and authorized public debt status for purchases and redemptions of corporate obligations, was omitted from the Code in view of termination of United States Synthetic Fuels Corporation. See note set out under section 8791 of this title.

CHAPTER 96—BIOMASS ENERGY AND ALCOHOL FUELS

§ 8801. Congressional findings.

§ 8802. Definitions.

§ 8803. Funding.

§ 8804. Coordination with other authorities and programs.

SUBCHAPTER I—GENERAL BIOMASS ENERGY DEVELOPMENT

§ 8811. Biomas energy development plans.

§ 8812. Program responsibility and administration and effect on other programs.

§ 8813. Insured loans.

§ 8814. Loan guarantees.

§ 8815. Price guarantees.

§ 8816. Purchase agreements.

§ 8817. General requirements regarding financial assistance.

§ 8818. Reports.

§ 8819. Review; reorganization.

§ 8820. Office of Alcohol Fuels.

§ 8821. Termination of authorities; modification of terms and conditions of conditional commitments for loan guarantees.

SUBCHAPTER II—MUNICIPAL WASTE BIOMASS ENERGY

§ 8831. Municipal waste energy development plan.

§ 8832. Construction loans.

§ 8833. Guaranteed construction loans.

§ 8834. Price support loans and price guarantees.

§ 8835. General requirements regarding financial assistance.

§ 8836. Financial assistance program administration.

§ 8837. Commercialization demonstration program pursuant to Federal nonnuclear energy research and development.

§ 8838. Jurisdiction of Department of Energy and Environmental Protection Agency.

§ 8840. Termination of authorities.

SUBCHAPTER III—RURAL, AGRICULTURAL, AND FORESTRY BIOMASS ENERGY

§ 8851. Model demonstration biomass energy facilities: establishment, public inspection, etc.; authorization of appropriations.

§ 8852. Coordination of research and extension activities; consultative requirements.

§ 8853. Lending for energy production and conservation projects by production credit associations, Federal land banks, and banks for cooperatives.

§ 8854. Utilization of National Forest System in wood energy development projects.

§ 8855. Forest Service leases and permits.
§ 8801. Congressional findings

The Congress finds that—

(1) the dependence of the United States on imported petroleum and natural gas must be reduced by all economically and environmentally feasible means, including the use of biomass energy resources; and

(2) a national program for increased production and use of biomass energy that does not impair the Nation’s ability to produce food and fiber on a sustainable basis for domestic and export use must be formulated and implemented within a multiple-use framework.

§ 8802. Definitions

As used in this chapter—

(1) The term “alcohol” means alcohol (including methanol and ethanol) which is produced from biomass and which is suitable for use by itself or in combination with other substances as a fuel or as a substitute for petroleum or petrochemical feedstocks.

(2) The term “biomass” means any organic matter which is available on a renewable basis, including agricultural crops and agricultural wastes and residues, wood and wood wastes and residues, animal wastes, municipal wastes, and aquatic plants.

(B) For purposes of subchapter I of this chapter, such term does not include municipal wastes; and for purposes of subchapter II of this chapter, such term does not include aquatic plants and municipal wastes.

(3) The term “biomass fuel” means any gaseous, liquid, or solid fuel produced by conversion of biomass.

(4) The term “biomass energy” means—

(A) biomass fuel; or

(B) energy or steam derived from the direct combustion of biomass for the generation of electricity, mechanical power, or industrial process heat.

(5) The term “biomass energy project” means any facility (or portion of a facility) located in the United States which is primarily for—

(A) the production of biomass fuel (and by-products); or

(B) the combustion of biomass for the purpose of generating industrial process heat, mechanical power, or electricity (including cogeneration).

(6) The term “Btu” means British thermal unit.

(7) The term “cogeneration” means the combined generation by any facility of—

(A) electrical or mechanical power, and

(B) steam or forms of useful energy (such as heat) which are used for industrial, commercial, heating, or cooling purposes.

(8) The term “cooperative” means any agricultural association, as that term is defined in section 1141(a) of title 12.

(9) The term “construction” means—

(i) the construction or acquisition of any biomass energy project;

(ii) the conversion of any facility to a biomass energy project; or

(iii) the expansion or improvement of any biomass energy project which increases the capacity or efficiency of that facility to produce biomass energy.

(B) Such term includes—

(i) the acquisition of equipment and machinery for use in or at the site of a biomass energy project; and

(ii) the acquisition of land and improvements thereto for the construction, expansion, or improvement of such a project, or the conversion of a facility to such a project.

(C) Such term does not include the acquisition of any facility which was operated as a biomass energy project before the acquisition.

(10) The term “Federal agency” means any Executive agency, as defined in section 105 of title 5.

(11) The term “financial assistance” means any of the following forms of financial assistance provided under this chapter, or any combination of such forms:

(i) loans,

(ii) loan guarantees,

(iii) price guarantees, and

(iv) purchase agreements.

(B) Such term includes any commitment to provide such assistance.

(12) The term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to

(13) The term “industrial process heat” means the generation of useful energy (such as heat) for use in the production of industrial products.

(14) The term “municipal village” means any village or group of Native people in the United States which is established pursuant to

(15) The term “project” means—

(i) the construction or acquisition of any biomass energy project; or

(ii) the conversion of any facility to such a project.

(16) The term “R&D” means—

(i) the research, development, and demonstration of biomass energy; or

(ii) the research, development, and demonstration of biomass energy systems.

(B) Such term includes—

(i) the research, development, and demonstration of biomass energy; and

(ii) the research, development, and demonstration of biomass energy systems.

(18) The term “subchapter” means—

(i) subchapter I of this chapter; or

(ii) subchapter II of this chapter.

(19) The term “state agency” means any agency of any state.

(20) The term “utility” means any electric utility, public power authority, or other public or private electric utility engaged in the generation, transmission, or distribution of electric energy for sale, and includes any cooperative or association of electric utilities.

(21) The term “utility of the United States” means any electric utility, public power authority, or other public or private electric utility engaged in the generation, transmission, or distribution of electric energy for sale, and includes any cooperative or association of electric utilities.

(22) The term “utility project” means any facility (or portion of a facility) which is primarily for—

(A) the production of electricity; or

(B) the production of useful energy (such as heat) which is used for industrial purposes.

(B) Such term includes—

(i) the acquisition of equipment and machinery for use in or at the site of a utility project; and

(ii) the acquisition of land and improvements thereto for the construction, expansion, or improvement of such a project.
the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.] which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(13) The term "motor fuel" means gasoline, kerosene, and middle distillates (including diesel fuel).

(14)(A) The term "municipal waste" means any organic matter, including sewage, sewage sludge, and industrial or commercial waste, and mixtures of such matter and inorganic refuse—

(i) from any publicly or privately operated municipal waste collection or similar disposal system, or

(ii) from similar waste flows (other than such flows which constitute agricultural wastes or residues, or wood wastes or residues from wood harvesting activities or production of forest products).

(B) Such term does not include any hazardous waste, as determined by the Secretary of Energy for purposes of this chapter.

(15)(A) The term "municipal waste energy project" means any facility (or portion of a facility) located in the United States primarily for—

(i) the production of biomass fuel (and by-products) from municipal waste; or

(ii) the combustion of municipal waste for the purpose of generating steam or forms of useful energy, including industrial process heat, mechanical power, or electricity (including cogeneration).

(B) Such term includes any necessary transportation, preparation, and disposal equipment and machinery for use in or at the site of the facility involved.

(16) The term "Office of Alcohol Fuels" means the Office of Alcohol Fuels established under section 8230 of this title.

(17) The term "person" means any individual, company, cooperative, partnership, corporation, association, consortium, unincorporated organization, trust, estate, or any entity organized for a common business purpose, any State or local government (including any special purpose district or similar governmental unit) or any agency or instrumentality thereof, or any Indian tribe or tribal organization.

(18) The term "State" means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(19) The term "small scale biomass energy project" means a biomass energy project with an anticipated annual production capacity of not more than 1,000,000 gallons of ethanol per year, or its energy equivalent of other forms of biomass energy.

TEMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1601 of Title 48, Territories and Insular Possessions.

§ 8803. Funding

(a) Authorization of appropriations

To the extent provided in advance in appropriation Acts, for the two year period beginning October 1, 1980, there is authorized to be appropriated and transferred $1,170,000,000 from the Energy Security Reserve established in the Treasury of the United States under title II of the Act entitled "An Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1980, and for other purposes" (Public Law 96–126; 93 Stat. 970) and made available for obligation by such Act only to the extent provided in advance in appropriation Acts, as follows:

(1) $460,000,000 to the Secretary of Agriculture for carrying out activities under subchapter I of this chapter, except of the amount of the financial assistance provided by the Secretary of Agriculture under subchapter I of this chapter, up to one-third shall be for small-scale biomass energy projects;

(2) $460,000,000 to the Secretary of Energy for carrying out biomass energy activities under subchapter I of this chapter, of which at least $500,000,000 1 shall be available to the Office of Alcohol Fuels for carrying out its activities, and any amount not made available to the Office of Alcohol Fuels shall be available to the Secretary to carry out the purposes of subchapter I of this chapter under available authorities of the Secretary, including authorities under subchapter I of this chapter; and

(3) $250,000,000 shall be available to the Secretary of Energy for carrying out activities under subchapter II of this chapter.

(b) Availability of funds until expended

Funds made available under subsection (a) of this section shall remain available until expended.

1 Sec. 86 in original. Pub. L. 97–35 decreased appropriation to $460,000,000 from $600,000,000 without amending sum of $500,000,000.
(c) Determinations respecting amount of appropriations remaining available

(1) For purposes of determining the amount of such appropriations which remain available for purposes of this chapter—
   (A) loans shall be counted at the initial face value of the loan;
   (B) loan guarantees shall be counted at the initial face value of such loan guarantee;
   (C) price guarantees and purchase agreements shall be counted at the value determined by the Secretary concerned as of the date of each such contract based upon the Secretary's determination of the maximum potential liability of the United States under the contract; and
   (D) any increase in the liability of the United States pursuant to any amendment or other modification to a contract for a loan, loan guarantee, price guarantee, or purchase agreement, shall be counted to the extent of such increase.

(2) Determinations under paragraph (1) shall be made in accordance with generally accepted accounting principles, consistently applied.

(3) If more than one form of financial assistance is to be provided to any one project, the obligations and commitments thereunder shall be counted at the maximum potential exposure of the United States on such project at any time during the life of such project.

(4) Any commitment to provide financial assistance shall be treated the same as such assistance for purposes of this subsection; except that any such commitment which is nullified or voided for any reason shall not be considered for purposes of this subsection.

(d) Financial assistance provided only to extent advanced in appropriation Acts

Financial assistance may be provided under this chapter only to the extent provided in advance in appropriation Acts.

REFERENCES IN TEXT

The Energy Security Reserve established in the Treasury of the United States under title II of the Act entitled “An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1980, and for other purposes” (Public Law 96–126; 93 Stat. 970), referred to in subsec. (a), was established by Pub. L. 96–126, title II, §201, Nov. 27, 1979, 93 Stat. 970, which is set out as a note under section 5915 of this title.

This chapter, referred to in text, was in the original “this title”, meaning title II of Pub. L. 96–294, June 30, 1980, 94 Stat. 681, known as the Biomass Energy and Alcohol Fuels Act of 1980, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 8801 of this title and Tables.

SUBCHAPTER I—GENERAL BIOMASS ENERGY DEVELOPMENT

§8811. Biomass energy development plans

(a) Plan respecting maximized production and use by December 31, 1982; preparation, transmission, etc.

Not later than 180 days after June 30, 1980, the Secretary of Agriculture and the Secretary of Energy shall jointly prepare, and transmit to the President and the Congress, a plan for maximizing in accordance with this subchapter biomass energy production and use. Such plan shall be designed to achieve a total level of alcohol production and use within the United States of at least 60,000 barrels per day of alcohol by December 31, 1982.

(b) Comprehensive plan respecting maximized production and use from January 1, 1983, to December 31, 1990, preparation, transmission, etc.

(1) Not later than January 1, 1982, the Secretary of Agriculture and the Secretary of Energy shall jointly prepare, and transmit to the President and the Congress, a comprehensive plan for maximizing in accordance with this subchapter biomass energy production and use, for the period beginning January 1, 1983, and ending December 31, 1990. Such plan shall be designed to achieve a level of alcohol production within the United States equal to at least 10 percent of the level of gasoline consumption within the United States as estimated by the Secretary of Energy for the calendar year 1990.

(2) The plan prepared under this subsection shall evaluate the feasibility of reaching the goals set forth in such subsection.

(c) Required guidelines

The plans prepared under subsections (a) and (b) of this section shall each include guidelines for use in awarding financial assistance under this subchapter which are designed to increase, during the period covered by the plan, the amount of motor fuel displaced by biomass energy.
§ 8812. Program responsibility and administration and effect on other programs

(a) Duties and functions of Secretary of Agriculture and Secretary of Energy over projects

(1) Except as provided in paragraph (2), in the case of any financial assistance under this subchapter for a biomass energy project, the Secretary concerned shall be—

(A) the Secretary of Agriculture, in the case of any biomass energy project which will have an anticipated annual production capacity of less than 15,000,000 gallons of ethanol (or the energy equivalent of other forms of biomass energy) and which will use feedstocks other than aquatic plants; and

(B) the Secretary of Energy, in the case of any biomass energy project which will use aquatic plants as feedstocks or which will have an anticipated annual production capacity of 15,000,000 gallons or more of ethanol (or the energy equivalent of other forms of biomass energy).

(2)(A) Either the Secretary of Agriculture or the Secretary of Energy may be the Secretary concerned in the case of any biomass energy project which will have an anticipated annual production capacity of 15,000,000 gallons or more of ethanol (or the energy equivalent of other forms of biomass energy) and—

(i) which will use wood or wood wastes or residue, or

(ii) which is owned and operated by a cooperative and will use feedstocks other than aquatic plants.

(B) Financial assistance may not be provided by either Secretary under subparagraph (A) without the written concurrence of the other Secretary. Such concurrence shall be granted or denied by such Secretary in accordance with subparagraph (C) and on the same standards as that Secretary applies in making his own awards of financial assistance under this paragraph.

(C)(i) In the case of a project described in subparagraph (A), the Secretary concerned shall provide the other Secretary a copy of the application and such supporting information as may be material, and shall provide the other Secretary at least 15 days to review the project. If during such 15-day period the reviewing Secretary provides written notification to the Secretary concerned specifying reasons why such project should not proceed, the Secretary concerned shall defer the final decision on the application for an additional 30 days. During such 30-day period, both Secretaries shall attempt to reach agreement regarding all issues raised in the written notice. Before the end of the 30-day period, the reviewing Secretary shall notify the Secretary concerned of his decision regarding concurrence. If the reviewing Secretary fails to provide such notice before the end of such period, concurrence shall be deemed to have been given.

(ii) The project applicant may reapply for financial assistance for such project, after making such modifications to the project as may be necessary to address issues raised by the reviewing Secretary in the original notice of objection. The subsequent review of such project by the reviewing Secretary shall be limited to the issues originally raised by the reviewing Secretary and any issues raised by changed circumstances.

(D) Both Secretaries may jointly act as the Secretary concerned in accordance with such procedures as the Secretaries may jointly prescribe, in which case—

(i) subparagraphs (B) and (C) and subsection (c) of this section shall not apply, and

(ii) the proportion of financial assistance provided by each Secretary shall be determined in accordance with the procedures jointly prescribed.

(b) Procedural requirements applicable

(1) Each Secretary shall take such action as may be necessary to assure that—

(A) guidelines for soliciting and receiving applications for financial assistance are established within 90 days after June 30, 1980;

(B) applications for financial assistance for biomass energy projects are initially solicited within 30 days after such guidelines are established;

(C) additional applications for financial assistance are solicited within 1 year after the date of the initial solicitation;

(D) any application is evaluated and a decision made on such application within 120 days after the receipt of the application, including review under subsections (a)(2)(C), (a)(2)(D), or (c) of this section; and

(E) all interested persons are provided the easiest possible access to the application process, including procedures which assure that—

(i) information concerning financial assistance from either Secretary is available through all appropriate offices of the Department of Agriculture and the Department of Energy, and other regional and local offices of the Federal Government, as may be appropriate;

(ii) all such locations where such information is available will be able to accept and file applications, and will forward them to the Secretary concerned; and

(iii) the procedures established for accepting, evaluating, and awarding financial assistance will provide for categories of biomass energy projects, according to size and provide to the maximum extent practicable the simplest procedures for small producers.

(2) The procedural requirements of subparagraphs (A) through (D) of paragraph (1) shall not apply to either Secretary to the extent that the Secretary finds that other procedures are adopted for the solicitation, evaluation, and awarding of financial assistance which will result in applications being processed more expeditiously.

(c) Notice to and reviewing functions of other Secretary concerning application for financial assistance

(1) After evaluating any application and before awarding any financial assistance on the basis of that application, the Secretary concerned shall provide the other Secretary with—
(A) a copy of the application and such supporting material as may be appropriate, and
(B) an opportunity of not less than 15 days to review the application.

This subsection shall not apply in the case of a project subject to review under subsection (a)(2)(C) of this section.

(2) If the reviewing Secretary provides written notice specifying any issues regarding matters subject to the Secretary’s review to the Secretary concerned before the end of the 15-day review period, the Secretary concerned shall defer a final decision on the application for an additional 30 days to provide an opportunity for both Secretaries to answer and resolve such issues. At the expiration of the 30-day period, the Secretary concerned may make a final decision with respect to the application, using the best judgment of the Secretary concerned to resolve any remaining issues.

(3) Reviews of projects under the provisions of subsection (a)(2)(C) of this section or paragraph (1)(B) by the Secretary of Agriculture shall be for the purpose of considering the national, regional, and local agricultural policy impacts of such project on agricultural supply, production, and use, and reviews by the Secretary of Energy under such provisions shall be for the purpose of considering national energy policy impacts and the technical feasibility of the project.

(4) The Secretary of Agriculture and the Secretary of Energy may jointly establish categories of projects to which paragraphs (1) and (2) shall not apply. Within 90 days after June 30, 1980, the Secretaries shall identify potential categories and make an initial determination of exempted categories.

(d) Notification of applicant upon disapproval of application for financial assistance

If any application for financial assistance under this subchapter is disapproved, the applicant shall be provided written notice of the reason for the disapproval.

(e) Implementation of functions assigned to Secretary of Agriculture by administrative entities within Department of Agriculture; issuance of regulations; coordination of functions by designated entities

(1) The functions assigned under this subchapter to the Secretary of Agriculture may be carried out by any of the administrative entities in the Department of Agriculture which the Secretary of Agriculture may designate. Within 30 days after June 30, 1980, the Secretary of Agriculture shall make such designations and notify the Congress of the administrative entity or entities so designated and the officials in such administrative entity or entities who are to be responsible for such functions.

(2) The Secretary of Agriculture may issue such regulations as are necessary to carry out functions assigned to the Secretary of Agriculture under this subchapter.

(3) The entities or entity designated under paragraph (1) shall coordinate the administration of functions assigned to it under this subchapter with any other biomass energy programs within the Department of Agriculture established under other provisions of law.

(f) Implementation of functions assigned to Secretary of Energy by Office of Alcohol Fuels

The functions under this subchapter which are assigned to the Secretary of Energy and which relate to alcohol production shall be carried out by the Office of Alcohol Fuels.

(g) Energy equivalency determinations respecting biomass energy and ethanol

For purposes of this subchapter, the quantity of any biomass energy which is the energy equivalent to 15,000,000 gallons of ethanol shall be prescribed jointly by the Secretary of Agriculture and the Secretary of Energy within 30 days after June 30, 1980.

§ 8813. Insured loans

(a) Authority of Secretary of Agriculture; maximum amount per project

Subject to sections 8812 and 8817 of this title, the Secretary of Agriculture may commit to make, and make, insured loans in amounts not to exceed $1,000,000 per project for the construction of small-scale biomass energy projects.

(b) Estimated project construction costs as determinative of initial and revised amount of loan; interest rate

(1) Any insured loan under this section—

(A) may not exceed 90 per centum of the total estimated cost of construction of the biomass energy project involved, and

(B) shall bear interest at rates determined by the Secretary of Agriculture, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, plus not to exceed one per centum, as determined by the Secretary of Agriculture, and adjusted to the nearest one-eighth of one per centum.

(2) In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Agriculture, the Secretary may in addition, upon application therefor, make an insured loan for so much of the additional estimated total costs as does not exceed 10 per centum of the total costs initially estimated.

(c) Funding requirements; “insured loan” defined

(1) The Secretary of Agriculture shall make insured loans under this section using, to the extent provided in advance in appropriations Acts, the Agricultural Credit Insurance Fund in section 309 of the Consolidated Farm and Rural Development Act [7 U.S.C. 1929] or the Rural Development Insurance Fund in section 309A of such Act [7 U.S.C. 1929a] (hereinafter in this section referred to as the “Funds”). The Secretary of Agriculture may not use an aggregate amount of funds to make or commit to make insured loans under this section in excess of the aggregate amount for insured loans and administrative costs appropriated and transferred under section 8803 of this title. The terms, conditions, and requirements applicable to such insured
loans shall be in accordance with this sub-
chapter.

(2) There shall be reimbursed to the Funds,
from appropriations made under section 8803 of
this title, amounts equal to the operating and
administrative costs incurred by the Secretary
of Agriculture in insuring loans under this sec-
tion.

(3) Notwithstanding any provision of the Con-
solidated Farm and Rural Development Act [7
U.S.C. 1921 et seq.], no funds made available to
the Secretary of Agriculture under this section
for insured loans shall be used for any other pur-
pose.

(4) For purposes of this section, the term “in-
sured loan” means a loan which is made, sold,
and insured.

(d) Preconditions

An insured loan may not be made under this
section unless the applicant for such loan has
established to the satisfaction of the Secretary
that the applicant is unable without such a loan
to obtain sufficient credit elsewhere at reason-
able rates and terms, taking into consideration
prevailing private and cooperative rates and
terms for loans for similar purposes and periods
of time, to finance the construction of the bio-
mass energy project for which such loan is
sought.

Stat. 690.)

REFERENCES IN TEXT

The Consolidated Farm and Rural Development Act,
referred to in subsec. (c)(3), is title III of Pub. L. 87–128,
Aug. 8, 1961, 75 Stat. 307, as amended, which is classified
principally to chapter 50 (§1921 et seq.) of Title 7, Agri-
culture. For complete classification of this Act to the
Code, see Short Title note set out under section 1921 of
Title 7 and Tables.

§ 8814. Loan guarantees

(a) Authority of Secretary concerned

Subject to sections 8812 and 8817 of this title,
the Secretary concerned may commit to guaran-
tee, and guarantee, against loss of principal and
interest, loans which are made to provide funds
for the construction of biomass energy projects.

(b) Estimated project construction costs as deter-
minative of initial and revised amount of

(1) Any guarantee of a loan under this section
may not exceed 90 per centum of the cost of the
construction of the biomass energy project in-
volved, as estimated by the Secretary on the
date of the guarantee or commitment to guaran-
tee.

(2) In the event the construction costs of the
project are thereafter estimated by the Sec-

etary concerned to exceed the construction
costs initially estimated by the Secretary, the
Secretary may in addition, upon application
therefor, guarantee, against loss of principal and
interest, a loan for up to 60 per centum of the
difference between the construction costs then
estimated and the construction costs initially
estimated.

(c) Debt obligation; ineligibility for purchase,

etc., by Federal Financing Bank or any Fed-
eral agency

Notwithstanding the provisions of the Federal
seq.) or any other provision of law (except as
may be specifically provided by reference to this
subsection in any Act enacted after June 30,
1980), no debt obligation which is guaranteed or
committed to be guaranteed by the Secretary of
Agriculture or the Secretary of Energy under
this section shall be eligible for purchase by, or
commitment to purchase by, or sale or issuance
to, the Federal Financing Bank or any Federal
agency.

(d) Terms and conditions

The terms and conditions of loan guarantees
under this section shall provide that, if the Sec-

etary concerned makes a payment of principal
or interest upon the default by a borrower, the
Secretary shall be subrogated to the rights of
the recipient of such payment (and such sub-
rogation shall be expressly set forth in the loan
guarantee or related agreements).

(e) Termination, cancellation, or revocation, and

conclusive nature of guarantee

Any loan guarantee under this section shall not
be terminated, canceled, or otherwise re-
voked, except in accordance with the terms
thereof and shall be conclusive evidence that
such guarantee complies fully with the provi-
sions of this chapter and of the approval and le-
gality of the principal amount, interest rate,
and all other terms of the securities, obliga-
tions, or loans and of the guarantee.

(f) Payment to lender

If the Secretary concerned determines that—
(1) the borrower is unable to meet payments
and is not in default,
(2) it is in the public interest to permit the

borrower to continue with such project, and
(3) the probable net benefit to the United
States in paying the principal and interest due
under the loan will be greater than that which
would result in the event of a default,
then the Secretary may pay to the lender under
a loan guarantee agreement an amount not
greater than the principal and interest which
the borrower is obligated to pay to such lender,
if the borrower agrees to reimburse the Sec-

etary for such payment on terms and condi-
tions, including interest, which the Secretary
determines are sufficient to protect the finan-
cial interests of the United States.

(g) Preconditions

(1) A loan may not be guaranteed under this
section unless the applicant for such loan has
established to the satisfaction of the Secretary
concerned that the lender is not willing without
such a guarantee to extend credit to the appli-
cant at reasonable rates and terms, taking into
consideration prevailing rates and terms for
loans for similar purposes and periods of time,
to finance the construction of the biomass en-

ergy project for which such loan is sought.

(2) The Secretary concerned shall ensure that
the lender bears a reasonable degree of risk in
the financing of such project.
§ 8816. Purchase agreements

(a) Authority of Secretary concerned; consultative requirements

Subject to sections 8812 and 8817 of this title, the Secretary concerned may commit to make, and make, purchase agreements for all or part of the biomass energy production of any biomass energy project, if the Secretary determines—

(1) that such biomass energy is of a type, quantity, and quality that can be used by Federal agencies; and

(2) that the quantity of such biomass energy, if delivery is accepted, would not exceed the likely needs of Federal agencies.

Each Secretary concerned shall consult with the other Secretary before making any determination under paragraph (2).

(b) Maximum sales price

The sales price specified in a purchase agreement under this section may not exceed the estimated prevailing market price as of the date of delivery, as determined by the Secretary of Energy, unless the Secretary concerned determines that such sales price must exceed the estimated prevailing market price in order to ensure the production of biomass energy to achieve the purposes of this chapter.

(c) Assurances required

The Secretary concerned in entering into, or committing to enter into, a purchase agreement under this section shall require—

(1) assurances that the quality of the biomass energy purchased will meet standards for the use for which such energy is purchased;

(2) assurances that the ordered quantities of such energy will be delivered on a timely basis; and

(3) assurances that the reliability, capacity, and feasibility of the project will be maintained or increased.
enter into a purchase agreement, which is made under this section shall specify the maximum dollar amount of liability of the United States under that agreement.

(d) Arrangements for delivery pursuant to agreement; charge to Federal agency receiving delivery

The Secretary concerned may take delivery of biomass energy pursuant to a purchase agreement under this section if appropriate arrangements have been made for its distribution to and use by one or more Federal agencies. Any Federal agency receiving such energy shall be charged (in accordance with otherwise applicable law), from sums appropriated to such Federal agency, for the prevailing market price as of the date of delivery, as determined by the Secretary of Energy, for the product which the biomass energy is replacing.

(e) Consultative requirements

The Secretary concerned shall consult with the Secretary of Defense and the Administrator of the General Services Administration in carrying out this section.

(f) Terms and conditions

Each purchase agreement, and commitment to enter into a purchase agreement, under this section shall provide that the Secretary concerned retains the right to refuse delivery of the biomass energy involved upon such terms and conditions as shall be specified in the purchase agreement.

(g) Maximum dollar amount of liability of United States

Each purchase agreement, or commitment to enter into a purchase agreement, which is made under this section shall specify the maximum dollar amount of liability of the United States under that agreement.

(h) Renegotiation of sales price and maximum liability

If the Secretary concerned determines, in the discretion of the Secretary, that—

(1) a biomass energy project would not otherwise be satisfactorily completed or continued, and

(2) completion or continuation of such project would be necessary to achieve the purposes of this chapter,

the sales price set forth in the purchase agreement, and maximum liability under such agreement, may be renegotiated.

References in Text

This chapter, referred to in subsecs. (b) and (h)(2), was in the original “this title”, meaning title II of Pub. L. 96–294, June 30, 1980, 94 Stat. 683, known as the Biomass Energy and Alcohol Fuels Act of 1980, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 8801 of this title and Tables.

§ 8817. General requirements regarding financial assistance

(a) Priorities, terms, availability, etc.

(1) Priority for financial assistance under this subchapter, and the most favorable financial terms available, shall be provided to a person for any biomass energy project that—

(A) uses a primary fuel other than petroleum or natural gas in the production of biomass fuel, such as geothermal energy resources, solar energy resources, or waste heat; or

(B) applies new technologies which expand the possible feedstocks, produces new forms of biomass energy, or produces biomass fuel using improved or new technologies.

Nothing in this paragraph shall be construed to exclude financial assistance for any project which does not use such a fuel or apply such a technology.

(2)(A) Financial assistance under this subchapter shall be available for a biomass energy project only if the Secretary concerned finds that the Btu content of the motor fuels to be used in the facility involved to produce the biomass fuel will not exceed the Btu content of the biomass fuel produced in the facility.

(B) In making the determination under subparagraph (A), the Secretary concerned shall take into account any displacement of motor fuel or other petroleum products which the applicant has demonstrated to the satisfaction of the Secretary would result from the use of the biomass fuel produced in the facility involved.

(3) No financial assistance may be provided under this subchapter to any person for any biomass energy project if the Secretary concerned finds that the process to be used by the project will not extract the protein content of the feedstock for utilization as food or feed for readily available markets in any case in which to do so would be technically and economically practicable.

(4) Financial assistance may not be provided under this subchapter to any person unless the Secretary concerned—

(A) finds that necessary feedstocks are available and it is reasonable to expect they will continue to be available in the future, and, for biomass energy projects using wood or wood wastes or residues from the National Forest System, there shall be taken into account current levels of use by then existing facilities;

(B) has obtained assurance that the person receiving such financial assistance will bear a reasonable degree of risk in the construction and operation of the project; and

(C) has determined that the amount of financial assistance provided for the project is not greater than is necessary to achieve the purposes of this chapter.

(5) In providing financial assistance under this subchapter, the Secretary concerned shall give due consideration to promoting competition.

(6) In determining the amount of financial assistance for any biomass energy project which will yield byproducts in addition to biomass energy, the Secretary shall consider the potential value of such byproducts and the costs attributable to their production.

(b) Terms, conditions, maturity, etc., for insured loans, and loan guarantees

An insured loan may not be made, and a loan guarantee may not be issued, under this subchapter unless the Secretary concerned deter-
mine that the terms, conditions, maturity, security, and schedule and amounts of repayments with respect to such loan are reasonable and meet such standards as the Secretary determines are sufficient to protect the financial interests of the United States.

(c) Application requirements

(1) No financial assistance may be provided to any person under this subchapter unless an application therefor—

(A) has been submitted to the Secretary concerned by that person in such form and under such procedures as the Secretary shall prescribe, consistent with the requirements of this subchapter; and

(B) has been approved by the Secretary in accordance with such procedures.

(2) Each such application shall include information regarding the construction costs of the biomass energy project involved, and estimates of operating costs and income relating to that project (including the sale of any byproducts from that project). In addition, each applicant shall provide—

(A) access at reasonable times to such other information, and

(B) such assurances,
as the Secretary concerned may require.

(d) Reports and recordkeeping

(1) Every recipient of financial assistance under this subchapter shall, as a condition precedent thereto, consent to such examinations and reports regarding the biomass energy project involved as the Secretary concerned may require.

(2) With respect to each biomass energy project for which financial assistance is provided under this subchapter, the Secretary shall—

(A) require from the recipient of financial assistance such reports and records relating to that project as the Secretary deems necessary;

(B) prescribe the manner in which such recipient shall keep such records; and

(C) have access to such records at reasonable times for the purpose of ensuring compliance with the terms and conditions upon which financial assistance is provided.

(e) Contracts and instruments of Secretary concerned backed by full faith and credit of United States

All contracts and instruments of the Secretary concerned to provide, or providing, for financial assistance shall be general obligations of the United States backed by its full faith and credit.

(f) Contestability of contracts

Subject to the conditions of any contract for financial assistance, such contract shall be incontestable in the hands of the holder, except as to fraud or material misrepresentation on the part of the holder.

(g) Fees for loan guarantees, etc.

(1) A fee or fees may be charged and collected by the Secretary concerned for any loan guarantee, price guarantee, or purchase agreement provided under this subchapter.

(2) The amount of such fee shall be based on the estimated administrative costs and risk of loss, except that such fee may not exceed 1 per cent of the amount of the financial assistance provided.

(h) Deposit of amounts received by Secretary concerned

All amounts received by the Secretary of Agriculture or the Secretary of Energy as fees, interest, repayment of principal, and any other moneys received by either Secretary from activities under this subchapter shall be deposited in the Treasury of the United States as miscellaneous receipts. The preceding sentence shall not apply to insured loans made under section 8813 of this title.

References in Text

This chapter, referred to in subsec. (a)(4)(C), was in the original “‘this title’, meaning title II of Pub. L. 96–294, June 30, 1980, 94 Stat. 683, known as the Biomass Energy and Alcohol Fuels Act of 1980, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 8801 of this title and Tables.

§ 8818. Reports

(b) Comprehensive list of loans, grants, etc.

Within 120 days after June 30, 1980, the Secretary of Energy and the Secretary of Agriculture shall submit to the Congress a comprehensive list of all the types of loans, grants, incentives, rebates, or any other such private, State, or Federal economic or financial benefits now in effect or proposed which can be or have been used for production of alcohol to be used as a motor fuel or petroleum substitute.

(c) Annual reports; report evaluating overall impact and plan for termination of Office of Alcohol Fuels

(1)(A) The Office of Alcohol Fuels shall submit to the Congress and the President annual reports containing a general description of the Office’s operations during the year and a description and evaluation of each biomass energy project for which financial assistance by the Office is then in effect.

(B) Each annual report shall describe progress made toward meeting the goals of this subchapter and contain specific recommendations on what actions the Congress could take in order to facilitate the work of the Office in achieving such goals.

(C) Each annual report under this subsection shall contain financial statements prepared by the Office.

(2) On or before September 30, 1990, the Office shall submit to the Congress and the President a report evaluating the overall impact made by the Office and describing the status of each biomass energy project which has received financial assistance under this subchapter from the Office. Such report shall contain a plan for the termination of the work of the Office.
§ 8819. Review; reorganization

(a) The President shall review periodically the progress of the Secretary of Agriculture and the Secretary of Energy in carrying out the purposes of this subchapter.

(b) If the President determines it necessary in order to achieve such purposes the President may, in accordance with the provisions of chapter 9 of title 5, provide for a reorganization, including any required realignment of the respective programs of the Secretaries under this subchapter.

§ 8820. Office of Alcohol Fuels

(a) Establishment in Department of Energy; appointment and compensation of Director

There is hereby established within the Department of Energy an Office of Alcohol Fuels (hereinafter in this section referred to as the "Office") to be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level IV of the Executive Schedule under section 5313 of title 5.

(b) Responsibilities of Director

(1) The Director shall be responsible for carrying out the functions of the Secretary of Energy under this subchapter which relate to alcohol, including the terms and conditions of financial assistance and the selection of recipients for that assistance, subject to the general supervision of the Secretary of Energy.

(2) The Director shall be responsible directly to the Secretary of Energy.

(c) Annual authorization and appropriation requests for support of Office

In each annual authorization and appropriation request, the Secretary shall identify the portion thereof intended for the support of the Office and include a statement by the Office (1) showing the amount requested by the Office in its budgetary presentation to the Secretary and the Office of Management and Budget and (2) an assessment of the budgetary needs of the Office. Whenever the Office submits to the Secretary, the President, or the Office of Management and Budget, any formal legislative recommendation or testimony, or comments on legislation, prepared for submission to Congress, the Office shall concurrently transmit a copy thereof to the appropriate committees of Congress.

(d) Consultations respecting coordination of programs

The Secretary of Energy, after consultation with the Director, shall consult with the Secretary of the Treasury, the Secretary of Agriculture, the Secretary of Transportation, the Secretary of Commerce, the Administrator of the Community Services Administration, the Administrator of the Environmental Protection Agency, or their appointed representatives, in order to coordinate the programs under the Director’s responsibility with other programs within the Department of Energy and in such Federal agencies, which are related to the production of alcohol.

COMMUNITY SERVICES ADMINISTRATION

§ 8821. Termination of authorities; modification of terms and conditions of conditional commitments for loan guarantees

No insured loan, loan guarantee, price guarantee, or purchase agreement may be committed to or made under this subchapter after September 30, 1984, except that all conditional commitments for loan guarantees under this subchapter which were in existence on September 30, 1984, are hereby extended through June 30, 1987. This section shall not be construed to affect the authority of the Secretary concerned to spend funds after such date pursuant to any contract for financial assistance made on or before that date under this subchapter. Notwithstanding any other provision of this subchapter, the Secretary of Energy may modify the terms and conditions of any conditional commitment for a loan guarantee under this subchapter made before October 1, 1984, including the amount of the loan guarantee. Nothing in this section shall be interpreted as indicating Congressional approval with respect to any pending conditional commitments under this Act.

REFERENCES IN TEXT

CODIFICATION

AMENDMENTS
1987—For amendment by Pub. L. 100–202, see 1985 Amendment note below.
1985—Pub. L. 99–190, §101(a), as enacted by Pub. L. 100–202, substituted “through June 30, 1986” for “through September 30, 1985” and inserted provisions authorizing the Secretary of Energy to modify the terms and conditions of any conditional commitment for a loan guarantee under this subchapter made before Oct. 1, 1984, including the amount of the guarantee, and further providing that nothing in this section shall be interpreted as indicating Congressional approval with respect to any pending conditional commitments. See Codification note above.
Pub. L. 99–24 inserted “, except that all conditional commitments for loan guarantees under this subchapter which were in existence on September 30, 1984, are hereby extended through September 30, 1985”.

EFFECTIVE DATE OF 1985 AMENDMENT
Section 106 of Pub. L. 100–202 provided that the amendment made by that section is effective on date of enactment (Dec. 19, 1985) of the “pertinent joint resolution” making continuing appropriations for fiscal year 1986 (Pub. L. 99–190).

PENDING CONDITIONAL COMMITMENTS
Section 1(b) of Pub. L. 99–24 provided that: “Enactment of this Act [amending this section] shall not be interpreted as indicating congressional approval with respect to any pending conditional commitments under this Act.”

SUBCHAPTER II—MUNICIPAL WASTE
BIOMASS ENERGY

§ 8831. Municipal waste energy development plan
(a) Preparation by Secretary of Energy; consultative requirements
The Secretary of Energy shall prepare a comprehensive plan for carrying out this subchapter. In the preparation of such plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency, the Secretary of Commerce, and the head of such other Federal agencies as the Secretary deems appropriate.

(b) Transmittal to President and Congress
Not later than 90 days after June 30, 1980, the Secretary shall transmit the comprehensive plan to the President and the Congress.

(c) Required statements
The comprehensive plan under this section shall include a statement setting forth—
(1) the anticipated research, development, demonstration, and commercialization objectives to be achieved;
(2) the management structure and approach to be adopted to carry out such plan;
(3) the program strategies, including detailed milestone goals to be achieved;
(4) the specific funding requirements for individual program elements and activities, including the total estimated construction costs of proposed projects; and
(5) the estimated relative financial contributions of the Federal Government and non-Federal participants in the program.

(d) Report to President and Congress; contents
Not later than January 1, 1982, the Secretary shall prepare and submit to the President and the Congress a report containing a complete description of any financial, institutional, environmental, and social barriers to the development and application of technologies for the recovery of energy from municipal wastes.

§ 8832. Construction loans
(a) Authority of Secretary of Energy
Subject to sections 8835 and 8836 of this title, the Secretary of Energy may commit to make, and make, loans for the construction of municipal waste energy projects.

(b) Estimated project construction costs as determinative of initial and revised amount of loan; interest rate
(1) Any loan under this section—
(A) may not exceed 80 per centum of the total estimated cost of the construction of the municipal waste energy project involved, and
(B) shall bear interest at a rate determined by the Secretary of Energy (taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans) plus not to exceed one per centum, as determined by the Secretary of Energy, and adjusted to the nearest one-eighth of one per centum.
(2) In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Energy, the Secretary may in addition, upon application therefor, make a loan for so much of the additional estimated costs as does not exceed 10 per centum of the initial total estimated costs of construction.

(c) Preconditions
A loan may not be made under this section unless the person applying for such loan has estab-
lished to the satisfaction of the Secretary of Energy that the applicant is unable without such a loan to obtain sufficient credit elsewhere at reasonable rates and terms, taking into consideration prevailing market rates and terms for loans for similar periods of time, to finance the construction of the project for which such loan is sought.

§ 8833. Guaranteed construction loans

(a) Authority of Secretary of Energy

Subject to sections 8835 and 8836 of this title, the Secretary of Energy may commit to guarantee, and guarantee, against loss on up to 90 per centum of the principal and interest, any loan which is made solely to provide funds for the construction of a municipal waste energy project and which does not exceed 90 per centum of the total estimated costs. Such payments shall be expressly set forth in the loan guarantee or related agreements.

(b) Estimated project construction costs as determinative of revised amount of guarantee

In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Energy, the Secretary may in addition, upon application therefor, guarantee, against loss on up to 90 per centum of the principal and interest, a loan for so much of the additional estimated total costs as does not exceed 10 per centum of the total estimated costs.

(c) Terms and conditions

The terms and conditions of loan guarantees under this section shall provide that, if the Secretary of Energy makes a payment of principal or interest upon the default by a borrower, the Secretary shall be subrogated to the rights of the recipient of such payment (and such subrogation shall be expressly set forth in the loan guarantee or related agreements).

(d) Termination, cancellation, or revocation, and conclusive nature of guarantee

Any loan guarantee under this section shall not be terminated, canceled, or otherwise revoked, except in accordance with the terms thereof and shall be conclusive evidence that such guarantee complies fully with the provisions of this chapter and of the approval and legality of the principal amount, interest rate, and all other terms of the securities, obligations, or loans and of the guarantee.

(e) Payment to lender

If the Secretary of Energy determines that—

(1) the borrower is unable to meet payments and is not in default,

(2) it is in the public interest to permit the borrower to continue to pursue the purposes of such project, and

(3) the probable net benefit to the United States in paying the principal and interest due under a loan guarantee agreement will be greater than that which would result in the event of a default,

then the Secretary may pay to the lender under a loan guarantee agreement an amount not greater than the principal and interest which the borrower is obligated to pay to such lender, if the borrower agrees to reimburse the Secretary for such payment on terms and conditions, including interest, which the Secretary determines are sufficient to protect the financial interests of the United States.

(f) Preconditions

A loan may not be guaranteed under this section unless the applicant for such loan has established to the satisfaction of the Secretary of Energy that the lender is not willing without such a guarantee to extend credit to the applicant at reasonable rates and terms, taking into consideration prevailing market rates and terms for loans for similar periods of time, to finance the construction of the project for which such loan is sought.

(g) Payment of interest; tax consequences

(1) With respect to any loan or debt obligation which is—

(A) issued after June 30, 1980, by, or on behalf of, any State or any political subdivision or governmental entity thereof,

(B) guaranteed by the Secretary of Energy under this section, and

(C) not supported by the full faith and credit of the issuer as a general obligation of the issuer,

the interest paid on such obligation and received by the purchaser thereof (or the purchaser’s successors in interest) shall be included in gross income for the purposes of chapter 1 of title 26.

(2) With respect to the amount of obligations described in paragraph (1) that the issuer would have been able to issue as tax exempt obligations (other than obligations secured by the full faith and credit of the issuer as a general obligation of the issuer), the Secretary of Energy is authorized to pay only to the issuer any portion of the interest on such obligations, as determined by the Secretary of the Treasury after taking into account the interest rate which would have been paid on the obligations had they been issued as tax exempt obligations without being so guaranteed by the Secretary of Energy and the interest rate actually paid on the obligations when issued as taxable obligations. Such payments shall be made in amounts determined by the Secretary of Energy, and in accordance with such terms and conditions as the Secretary of the Treasury shall require.

(h) Fees

(1) A fee or fees may be charged and collected by the Secretary of Energy for any loan guarantee under this section.

(2) The amount of such fee shall be based on the estimated administrative costs and risk of loss, except that such fee may not exceed 1 per centum of the maximum of the guarantee.

References in Text

This chapter, referred to in subsec. (d), was in the original “this title”, meaning title II of Pub. L. 96–294,

June 30, 1980, 94 Stat. 683, as amended, known as the Biomass Energy and Alcohol Fuels Act of 1980, which enacted this chapter, sections 1435 and 3129 of Title 7, Agriculture, and section 3381a of Title 15, Commerce and Trade, and amended sections 314, 342, 427, and 3154 of Title 7, section 753 of Title 15, and sections 590h and 1642 of Title 16, Conservation. For complete classification of title II to the Code, see Short Title note set out under section 8801 of this title and Tables.

AMENDMENTS

§ 8834. Price support loans and price guarantees

(a) Authority of Secretary of Energy with respect to loans for existing projects; disbursements, etc.

(1) In the case of any existing municipal waste energy project which produces and sells biomass energy, the Secretary of Energy may commit to make, and make, a price support loan in amounts determined in accordance with the provisions of subsection (a) of this section, except as provided in paragraph (2).

(2) In the case of any loan under this subsection for a new municipal waste energy project—

(A) disbursements under such loan may not be made for more than 7 consecutive 12-month periods (with reductions as provided in subsection (a)(2)(A)(i)) of this section;

(B) such loan shall bear interest at a rate not in excess of the rate prescribed under subsection (a) of this section; and

(C) the principal of or interest on such loan shall, in accordance with the support loan agreement, be repayable, commencing at the end of the last 12-month period covered by the support loan, over a period not in excess of the period equal to the then remaining useful life of the project (as determined by the Secretary) or 15 years, whichever is shorter.

(c) Authority of Secretary of Energy with respect to guarantees for new projects; pricing determinations, etc.

(1) In the case of any new municipal waste energy project which produces and sells biomass energy, the Secretary of Energy may commit to make, and make, a price guarantee for the operation of such project which guarantees that the price the owner or operator will receive for all or part of the production from that project shall not be less than a specified sales price determined as of the date of execution of the guarantee agreement.

(2)(A) No price guarantee under this section may be based upon a cost-plus arrangement, or variant thereof, which guarantees a profit to the owner or operator involved.

(B) The use of a cost-of-service pricing mechanism by a person pursuant to law, or by a regulatory body establishing rates for a regulated person, shall not be deemed to be a cost-plus arrangement, or variant thereof, for purposes of subparagraph (A).

(3) In the case of any price guarantee under this subsection for a new municipal waste energy project—

(A) disbursements under such guarantee may not be made for more than 7 consecutive 12-month periods; and

(B) amounts paid under this subsection may be required to be repaid to the Secretary of Energy under such terms and conditions as the Secretary may prescribe, including interest at a rate not in excess of the rate prescribed under subsection (a) of this section.

(d) Definitions; sale price of retained fuel; rules relating to fuel displacement

For purposes of this section—
§ 8835. General requirements regarding financial assistance

(a) Priorities, terms, availability, etc.

(1) Priority for financial assistance under the provisions of sections 8832, 8833, and 8834 of this title and the most favorable financial terms available, shall be provided for any municipal waste energy project which—

(A) is initially placed in service after June 30, 1980; or

(B) if initially placed in service before June 30, 1980, has an increased capacity by reason of additional construction, and as such is placed in service after such date.

(2) The term “existing municipal waste energy project” means any municipal waste energy project which is not a new municipal waste project.

(3) The term “placed in service” means operated at more than 50 percent of the estimated operational capacity.

(4)(A) Except as provided in subparagraphs (B) and (C), the term “standard support price” means the average price (per million Btu’s) for No. 6 fuel oil imported into the United States on June 30, 1980, as determined, by rule, by the Secretary of Energy not later than 90 days after June 30, 1980.

(B) In any case in which the fuel displaced is No. 6 fuel oil or any higher grade of petroleum (as determined by the Secretary of Energy), the term “standard support price” means 125 per centum of the price determined by rule under subparagraph (A).

(C) In any case in which biomass energy produced and sold by a project is steam or electricity, the term “standard support price” means the price determined by rule under subparagraph (A), subject to such adjustments as the Secretary of Energy may authorize by rule.

(5) The term “cost of the fuel displaced” means the cost of the fuel (per million Btu’s) which the purchaser of biomass energy would have purchased if the biomass energy had not been available for sale to that purchaser.

(6) Any biomass energy produced by a municipal waste energy project which may be retained for use by the owner or operator of such project shall be considered to be sold at such price as the Secretary of Energy determines.

(7) Not later than 90 days after June 30, 1980, the Secretary of Energy shall prescribe, by rule, the manner of determining the fuel displaced by the sale of any biomass energy, and the price of the fuel displaced.

(b) Terms, conditions, maturity, etc.

Financial assistance may not be provided under section 8832, 8833, or 8834 of this title unless the Secretary of Energy finds that necessary municipal waste feedstocks are available and it is reasonable to expect they will continue to be available for the expected economic life of the project.

(4) In providing financial assistance under section 8832, 8833, or 8834 of this title, the Secretary of Energy shall give due consideration to promoting competition.

Application requirements

(1) No financial assistance may be provided to any person under section 8832, 8833, or 8834 of this title unless an application therefor—

(A) has been submitted to the Secretary of Energy by such person in such form and under such procedures as the Secretary shall prescribe, consistent with the requirements of this subchapter, and

(B) has been approved by the Secretary in accordance with such procedures.

(2) Each such application shall include information regarding the construction costs of the municipal waste energy project involved (if appropriate), and estimates of operating costs and income relating to that project (including the sale of any byproducts from that project). In addition, each applicant shall provide—

(A) access at reasonable times to such other information, and

(B) such assurances,
as the Secretary of Energy may require.

d) Reports and recordkeeping

(1) Every person receiving financial assistance under section 8832, 8833, or 8834 of this title shall, as a condition precedent thereto, consent to such examinations and reports thereon regarding the municipal waste energy project involved as the Secretary of Energy may require.

(2) With respect to each municipal waste energy project for which financial assistance is provided under section 8832, 8833, or 8834 of this title, the Secretary shall—

(A) require from the recipient of financial assistance such reports and records relating to that project as the Secretary deems necessary;

(B) prescribe the manner in which such recipient shall keep such records; and

(C) have access to such records at reasonable times for the purpose of ensuring compliance with the terms and conditions upon which financial assistance is provided.

e) Deposit of amounts received

All amounts received by the Secretary of Energy as fees, interest, repayment of principal, and any other moneys received by the Secretary from operations under section 8832, 8833, or 8834 of this title shall be deposited in the general fund of the United States as miscellaneous receipts.

f) Contracts and instruments backed by full faith and credit of United States

All contracts and instruments of the Secretary of Energy to provide, or providing, for financial assistance shall be general obligations of the United States backed by its full faith and credit.

g) Contestability of contracts

Subject to the conditions of any contract for financial assistance, such contract shall be incontestable in the hands of the holder, except as to fraud or material misrepresentation on the part of the holder.

(h) Eligibility of debt obligations for purchase, sale, or issuance to Federal Financing Bank or any Federal agency

Notwithstanding the provisions of the Federal Financing Bank Act of 1973 (12 U.S.C. 2281 et seq.) or any other provision of law (except as may be specifically provided by reference to this subsection in any Act enacted after June 30, 1980), no debt obligation which is made or committed to be made, or which is guaranteed or committed to be guaranteed by the Secretary of Energy under section 8832, 8833, or 8834 of this title shall be eligible for purchase by, or commitment to purchase by, or sale or issuance to, the Federal Financing Bank or any Federal agency.

§8836. Financial assistance program administration

The Secretary of Energy shall establish procedures and take such other actions as may be necessary regarding the solicitation, review, and evaluation of applications, and awarding of financial assistance under section 8832, 8833, or 8834 of this title as may be necessary to carry out the plan established under section 8831 of this title.

§8837. Commercialization demonstration program pursuant to Federal nonnuclear energy research and development

(a) Establishment and conduct pursuant to other Federal statutory authorities; required undertakings subsequent to consultations

(1) The Secretary of Energy shall establish and conduct, pursuant to the authorities contained in the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.), an accelerated research, development, and demonstration program for promoting the commercial viability of processes for the recovery of energy from municipal wastes.

(2) The provisions of subsections (d), (m), and (x)(2) of section 19 of such Act shall not apply with respect to the program established under this section.

(3) As part of the program established under this section, the Secretary, after consulting with the Administrator of the Environmental Protection Agency and the Administrator of the Federal Financing Bank, shall provide for the commercialization demonstration program.
Protection Agency and the Secretary of Commerce, shall undertake—
(A) the research, development, and demonstration of technologies to recover energy from municipal wastes;
(B) the development and application of new municipal waste-to-energy recovery technologies;
(C) the assessment, evaluation, demonstration, and improvement of the performance of existing municipal waste-to-energy recovery technologies with respect to capital costs, operating and maintenance costs, total project financing, recovery efficiency, and the quality of recovered energy and energy intensive materials;
(D) the evaluation of municipal waste energy projects for the purpose of developing a base of engineering data that can be used in the design of future municipal waste energy projects to recover energy from municipal wastes; and
(E) research studies on the size and other significant characteristics of potential markets for municipal waste-to-energy recovery technologies, and recovered energy, and energy intensive materials.

(b) Financial assistance

Under such program, the Secretary of Energy may provide financial assistance consisting of price supports, loans, and loan guarantees, for the cost of planning, designing, constructing, operating, and maintaining demonstration facilities, and, in the case of existing facilities, modifications of such facilities solely for demonstration purposes, for the conversion of municipal wastes into energy or the recovery of materials.

(c) Priority for funding

Priority for funding of activities under subsection (a) of this section and financial assistance under subsection (b) of this section shall be provided for any activity or project for the demonstration of technologies for the production of liquid fuels or biomass energy which substitute for petroleum or natural gas.

(d) Obligation and expenditure of funds

The Secretary of Energy may not obligate or expend any funds authorized under this chapter in carrying out subsection (b) of this section until the plan required under section 8831(a) of this title has been prepared and submitted to the Congress.

(e) Deposit of moneys received

All amounts received by the Secretary of Energy as fees, interest, repayment of principal, and any other moneys received by the Secretary from operators under this section shall be deposited in the general fund of the Treasury of the United States as miscellaneous receipts.

This chapter, referred to in subsec. (d), was in the original “‘this title’”, meaning title II of Pub. L. 96-294, June 30, 1980, 94 Stat. 683, known as the Biomass Energy and Alcohol Fuels Act of 1980, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 5901 of this title and Tables.

§ 8838. Jurisdiction of Department of Energy and Environmental Protection Agency

(a) Establishment in Department of Energy; appointment of Director

There is hereby established within the Department of Energy an Office of Energy from Municipal Waste (hereinafter in this section referred to as the “Office”) to be headed by a Director, who shall be appointed by the Secretary of Energy.

(b) Functions

It shall be the function of the Office to perform—
(1) the research, development, demonstration, and commercialization activities authorized under this subchapter (including those authorized under section 8837 of this title), and
(2) such other duties relating to the production of energy from municipal waste as the Secretary of Energy may assign to the Office.

References in Text

§ 8839. Office of Energy from Municipal Waste

(a) Establishment in Department of Energy; appointment of Director

There is hereby established within the Department of Energy an Office of Energy from Municipal Waste (hereinafter in this section referred to as the “Office”) to be headed by a Director, who shall be appointed by the Secretary of Energy.

(b) Functions

It shall be the function of the Office to perform—
(1) the research, development, demonstration, and commercialization activities authorized under this subchapter (including those authorized under section 8837 of this title), and
(2) such other duties relating to the production of energy from municipal waste as the Secretary of Energy may assign to the Office.

(c) Consultations respecting implementation of functions

In carrying out functions transferred 1 or assigned to the Office, the Secretary of Energy shall consult with the Administrator of the Environmental Protection Agency, the Secretary of Commerce, and the heads of such other Federal agencies, as appropriate.

(d) Transfer of related functions and personnel from Department of Energy

The Secretary shall provide for the transfer to the Office of the functions relating to, and personnel of the Department who are responsible for the administration of, programs in existence on June 30, 1980, which relate to the research, development, demonstration, and commercialization of technologies for the recovery of energy from municipal waste.

1 See References in Text note below.
1 So in original. Probably should be “transferred”.

References in Text

For complete classification of this Act to the Code, see Short Title note set out under section 5901 of this title and Tables.
§ 8840. Termination of authorities

No financial assistance may be committed to or made under this subchapter after September 30, 1984. This section shall not be construed to affect the authority of the Secretary of Energy to spend funds after such date pursuant to any award of financial assistance made on or before that date.

§ 8851. Model demonstration biomass energy facilities; establishment, public inspection, etc.; authorization of appropriations

(a) The Secretary of Agriculture shall establish not more than ten model demonstration biomass energy facilities for purposes of exhibiting the most advanced technology available for producing biomass energy. Such facilities and information regarding the operation of such facilities shall be available for public inspection, and, to the extent practicable, such facilities shall be established in various regions in the United States. Such facilities may be established in cooperation with appropriate departments or agencies of the States, or appropriate in various regions in the United States. Such facilities may be established in cooperation with appropriate departments or agencies of the States, or appropriate departments, agencies, or other instrumentalities of the United States.

(b) For purposes of carrying out subsection (a) of this section, there is authorized to be appropriated $5,000,000 for each of the fiscal years 1981, 1982, 1983, and 1984.

§ 8852. Coordination of research and extension activities; consultative requirements

(b) In carrying out this subchapter and the amendments made by this subchapter, the Secretary of Agriculture shall consult on a continuing basis with—

(1) the Subcommittee on Food, Agricultural, and Forestry Research of the Federal Coordinating Council for Science, Engineering, and Technology;

(2) the Joint Council on Food and Agricultural Sciences; and

(3) the National Agricultural Research and Extension Users Advisory Board;

for the purpose of coordinating research and extension activities.

AMENDMENTS

References in Text

This subchapter, referred to in text, was in the original “this subtitle”, meaning subtitle C (§§251–262) of title II of Pub. L. 96–294, June 30, 1980, 94 Stat. 705, which enacted this subchapter and sections 1435 and 3129 of Title 7, Agriculture, and amended sections 341, 342, 427, and 3154 of Title 7 and sections 590h and 1642 of Title 16, Conservation. For complete classification of subtitle C to the Code, see Tables.

ADDENDUM

Effective Date of 1981 Amendment

§ 8853. Lending for energy production and conservation projects by production credit associations, Federal land banks, and banks for cooperatives

The Farm Credit Administration shall encourage production credit associations, Federal land banks, and banks for cooperatives to use existing authorities to make loans to eligible persons for commercially feasible biomass energy projects.

§ 8854. Utilization of National Forest System in wood energy development projects

The Secretary of Agriculture may make available the timber resources of the National Forest System, in accordance with appropriate timber appraisal and sale procedures, for use by biomass energy projects.

§ 8855. Forest Service leases and permits

It is the intent of the Congress that the Secretary of Agriculture shall process applications for leases of National Forest System lands and for permits to explore, drill, and develop resources on land leased from the Forest Service, notwithstanding the current status of any plan being prepared under section 1604 of title 16.

§ 8871. Use of gasohol in Federal motor vehicles

(a) Exercise of President's authority pursuant to executive order respecting use

The President shall, by executive order, require that motor vehicles which are owned or leased by Federal agencies and are capable of operating on gasohol shall use gasohol wherever available at reasonable prices and in reasonable quantities.

(b) Exceptions

The President may provide for exceptions to the requirements of subsection (a) of this section where necessary, including to protect the national security.

(c) Gasohol requirements

Such executive order shall specify the alcohol-gasoline mixture or mixtures which shall constitute “gasohol” for purposes of such order, as well as specifications for its use.

REPORT ON EXEMPTIONS AND SENSE OF CONGRESS REGARDING PURCHASE OF DOMESTIC GASOHOL

“(c) Report on Exemptions.—The Secretary of Defense shall review all exemptions granted for the Department of Defense, and the Administrator of the General Services Administration shall review all exemptions granted for Federal agencies and departments, to the requirements of section 2398 of title 10, United States Code, and section 271 of the Energy Security Act (Public Law 96–294; 42 U.S.C. 8871) and shall terminate any exemption that the Secretary or the Administrator determines is no longer appropriate. Not later than 90 days after the date of the enactment of this Act [Dec. 5, 1991], the Secretary and the Administrator shall submit jointly to Congress a report on the results of the review, with a justification for the exemptions that remain in effect under those provisions of law.

“(d) Sense of Congress.—It is the sense of Congress that whenever any motor vehicle capable of operating on gasoline or alcohol-gasoline blends that is owned or operated by the Department of Defense or any other department or agency of the Federal Government is refueled, it shall be refueled with an alcohol-gasoline blend containing at least 10 percent domestically produced alcohol if available along the normal travel route of the vehicle at the same or lower price than unleaded gasoline.”

EX. ORD. NO. 12261, IMPLEMENTATION OF USE OF GASOHOL IN FEDERAL MOTOR VEHICLES

Ex. Ord. No. 12261, Jan. 5, 1981, 46 F.R. 2023, provided:

By the authority vested in me as President of the United States of America by Section 271 of the Energy Security Act (94 Stat. 710; Public Law 96–294; 42 U.S.C. 8871), in order to require Federal agencies which own or lease motor vehicles to use gasohol in those vehicles which are capable of operating on gasohol where it is available at reasonable prices and in reasonable quantities, it is hereby ordered as follows:

1–101. In procurement actions for unleaded gasoline, agencies shall include in their considerations such factors as the availability of storage facilities for bulk purchases and the number of vehicles capable of operating on gasohol.

1–104. Agencies shall designate those vehicles which are capable of using gasohol, consistent with overall agency needs and sound vehicle management practices.

1–105. The use of gasohol by the Department of Defense pursuant to this Order shall be in accordance with Section 815 of the Department of Defense Authorization Act, 1980 (93 Stat. 817; Public Law 96–107; 10 U.S.C. 2388 note) which provides for the use of gasohol to the maximum extent feasible and consistent with overall defense needs and sound vehicle management practices, as determined by the Secretary of Defense.

1–106. Vehicles used in experimental programs to test fuels other than gasohol are excepted from this Order.

1–107. The authority vested in the President by Section 271(b) of the Energy Security Act (42 U.S.C. 8871(b)) is delegated to the Secretary of Defense with respect to gasohol use by the Department of Defense, and delegated to the Administrator of General Services with respect to gasohol use by other agencies.

1–108. Federal agencies shall make available to the Department of Energy, upon request, relevant data or information they possess concerning agency gasohol usage.

1–109. For purposes of this Order “Gasohol” means a motor fuel which has an octane rating of not less than 87 (R+M)/2 and which consists of approximately 90 percent unleaded gasoline and approximately 10 percent anhydrous (199 proof or above) ethyl alcohol derived from biomass, as defined in section 2092(b)(A) of the Energy Security Act (94 Stat. 683; Public Law 96–294; 42 U.S.C. 8802(b)(A)).

1–110. (a) The Secretary of Defense with respect to gasohol use by the Department of Defense, and the Administrator of General Services with respect to gasohol use by other agencies, shall issue such guidelines for the implementation of this Order as they deem appropriate.

(b) Such guidelines shall provide for a determination of reasonable prices and reasonable quantities based on the local prevailing price of unleaded gasolines, the octane requirements for vehicles in the Federal fleet, local market availability of gasohol or its components, and other such factors, as may be appropriate.
(1) could contribute to the increasing pollution of natural and man-made water systems;
(2) could adversely affect agricultural and forest crops;
(3) could adversely affect fish and wildlife and natural ecosystems generally;
(4) could contribute to corrosion of metals, wood, paint, and masonry used in construction and ornamentation of buildings and public monuments;
(5) could adversely affect public health and welfare; and
(6) could affect areas distant from sources and thus involve issues of national and international policy.

(b) Congressional declaration of purpose

The Congress declares that it is the purpose of this subchapter—
(1) to identify the causes and sources of acid precipitation;
(2) to evaluate the environmental, social, and economic effects of acid precipitation; and
(3) based on the results of the research program established by this subchapter and to the extent consistent with existing law, to take action to the extent necessary and practicable (A) to limit or eliminate the identified emissions which are sources of acid precipitation, and (B) to remedy or otherwise ameliorate the harmful effects which may result from acid precipitation.

(c) “Acid precipitation” defined

For purposes of this subchapter the term “acid precipitation” means the wet or dry deposition from the atmosphere of acid chemical compounds.

§ 8902. Comprehensive ten-year program

(a) Implementation by Acid Precipitation Task Force; membership, etc., of Task Force

There is hereby established a comprehensive ten-year program to carry out the provisions of this subchapter; and to implement this program there shall be formed an Acid Precipitation Task Force (hereafter in this subchapter referred to as the “Task Force”), of which the Secretary of Agriculture, the Administrator of the Environmental Protection Agency, and the Administrator of the National Oceanic and Atmospheric Administration shall be joint chairmen. The remaining membership of the Task Force shall consist of—
(1) one representative each from the Department of the Interior, the Department of Health and Human Services, the Department of Commerce, the Department of Energy, the Department of State, the National Aeronautics and Space Administration, the Council on Environmental Quality, the National Science Foundation, and the Tennessee Valley Authority;
(2) the director of the Argonne National Laboratory, the director of the Brookhaven National Laboratory, the director of the Oak Ridge National Laboratory, and the director of the Pacific Northwest National Laboratory; and
(3) four additional members to be appointed by the President.

(b) Research management consortium; membership, responsibilities, etc.

The four National Laboratories (referred to in subsection (a)(2) of this section) shall constitute a research management consortium having the responsibilities described in section 8903(b)(13) of this title as well as the general responsibilities required by their representation on the Task Force. In carrying out these responsibilities the consortium shall report to, and act pursuant to direction from, the joint chairmen of the Task Force.

(c) Director of research program

The Administrator of the National Oceanic and Atmospheric Administration shall serve as the director of the research program established by this subchapter.

§ 8903. Comprehensive research plan

(a) Preparation by Task Force for ten-year program; purposes

The Task Force shall prepare a comprehensive research plan for the ten-year program (hereafter in this subchapter referred to as the “comprehensive plan”), setting forth a coordinated program (1) to identify the causes and effects of acid precipitation and (2) to identify actions to limit or ameliorate the harmful effects of acid precipitation.

(b) Scope

The comprehensive plan shall include programs for—
(1) identifying the sources of atmospheric emissions contributing to acid precipitation;
(2) establishing and operating a nationwide long-term monitoring network to detect and measure levels of acid precipitation;
(3) research in atmospheric physics and chemistry to facilitate understanding of the processes by which atmospheric emissions are transformed into acid precipitation;
(4) development and application of atmospheric transport models to enable prediction of long-range transport of substances causing acid precipitation;
(5) defining geographic areas of impact through deposition monitoring, identification of sensitive areas, and identification of areas at risk;
(6) broadening of impact data bases through collection of existing data on water and soil chemistry and through temporal trend analysis;
(7) development of dose-response functions with respect to soils, soil organisms, aquatic and amphibious organisms, crop plants, and forest plants;
(8) establishing and carrying out system studies with respect to plant physiology, aquatic ecosystems, soil chemistry systems, soil microbial systems, and forest ecosystems;
(9) economic assessments of (A) the environmental impacts caused by acid precipitation on crops, forests, fisheries, and recreational and aesthetic resources and structures, and (B) alternative technologies to remedy or otherwise ameliorate the harmful effects which may result from acid precipitation;
(10) documenting all current Federal activities related to research on acid precipitation and ensuring that such activities are coordinated in ways that prevent needless duplication and waste of financial and technical resources;
(11) effecting cooperation in acid precipitation research and development programs, ongoing and planned, with the affected and contributing States and with other sovereign nations having a commonality of interest;
(12) subject to subsection (f)(1) of this section, management by the Task Force of financial resources committed to Federal acid precipitation research and development;
(13) subject to subsection (f)(2) of this section, management of the technical aspects of Federal acid precipitation research and development programs, including but not limited to (A) the planning and management of research and development programs and projects, (B) the selection of contractors and grantees to carry out such programs and projects, and (C) the establishment of peer review procedures to assure the quality of research and development programs and their products; and
(14) analyzing the information available regarding acid precipitation in order to formulate and present periodic recommendations to the Congress and the appropriate agencies about actions to be taken by these bodies to alleviate acid precipitation and its effects.

(c) Procedures applicable

The comprehensive plan—
(1) shall be submitted in draft form to the Congress, and for public review, within six months after June 30, 1980;
(2) shall be available for public comment for a period of sixty days after its submission in draft form under paragraph (1);
(3) shall be submitted in final form, incorporating such needed revisions as arise from comments received during the review period, to the President and the Congress within forty-five days after the close of the period allowed for comments on the draft comprehensive plan under paragraph (2); and
(4) shall constitute the basis on which requests for authorizations and appropriations are to be made for the nine fiscal years following the fiscal year in which the comprehensive plan is submitted in final form under paragraph (3).

(d) Convening of Task Force

The Task Force shall convene as necessary, but no less than twice during each fiscal year of the ten-year period covered by the comprehensive plan.

(e) Submission of annual report to President and Congress by Task Force

The Task Force shall submit to the President and the Congress by January 15 of each year an annual report which shall detail the progress of the research program under this subchapter and which shall contain such recommendations as are developed under subsection (b)(14) of this section.

(f) Applicability of other statutory provisions to Task Force or plan

(1) Subsection (b)(12) of this section shall not be construed as modifying, or as authorizing the Task Force or the comprehensive plan to modify, any provision of an appropriation Act (or any other provision of law relating to the use of appropriated funds) which specifies (A) the department or agency to which funds are appropriated, or (B) the obligations of such department or agency with respect to the use of such funds.

(2) Subsection (b)(13) of this section shall not be construed as modifying, or as authorizing the Task Force or the comprehensive plan to modify, any provision of law (relating to or involving a department or agency) which specifies (A) procurement practices for the selection, award, or management of contracts or grants by such department or agency, or (B) program activities, limitations, obligations, or responsibilities of such department or agency.

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (e) of this section relating to the requirement that the Task Force submit an annual report to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 1st item on page 183 of House Document No. 103–7.

§ 8904. Implementation of comprehensive plan; new or existing regulatory authorities, etc., not granted or modified
