(A) With regard to a hazardous chemical, an extremely hazardous substance, or a toxic chemical, any person required under section 11033(d)(2), 11033(d)(3), 11021, 11022, or 11023 of this title to submit information to any other person may withhold from such submittal the specific chemical identity (including the chemical name and other specific identification), as defined in regulations prescribed by the Administrator under section (c) of this section, if the person complies with paragraph (2).

(B) Any person withholding the specific chemical identity shall, in the place on the submittal where the chemical identity would normally be included, include the generic class or category of the hazardous chemical, extremely hazardous substance, or toxic chemical (as the case may be).

(2) Requirements

(A) A person is entitled to withhold information under paragraph (1) if such person—

(i) claims that such information is a trade secret, on the basis of the factors enumerated in subsection (b) of this section,

(ii) includes in the submittal referred to in paragraph (1) an explanation of the reasons why such information is claimed to be a trade secret, based on the factors enumerated in subsection (b) of this section, including a specific description of why such factors apply, and

(iii) submits to the Administrator a copy of such submittal, and the information withheld from such submittal.

(B) In submitting to the Administrator the information required by subparagraph (A)(iii), a person withholding information under this subsection may—

(i) designate, in writing and in such manner as the Administrator may prescribe by regulation, the information which such person believes is entitled to be withheld under paragraph (1), and

(ii) submit such designated information separately from other information submitted under this subsection.

(3) Limitation

The authority under this subsection to withhold information shall not apply to information which the Administrator has determined, in accordance with subsection (c) of this section, is not a trade secret.

(b) Trade secret factors

No person required to provide information under this chapter may claim that the information is entitled to protection as a trade secret under subsection (a) of this section unless such person shows each of the following:

(1) Such person has not disclosed the information to any other person, other than a member of a local emergency planning committee, an officer or employee of the United States or a State or local government, an employee of such person, or a person who is bound by a confidentiality agreement, and such person has taken reasonable measures to protect the confidentiality of such information and intends to continue to take such measures.

(2) The information is not required to be disclosed, or otherwise made available, to the public under any other Federal or State law.

(3) Disclosure of the information is likely to cause substantial harm to the competitive position of such person.

(4) The chemical identity is not readily discoverable through reverse engineering.

Thorne G. Auchter.

(d) Petition for review

(1) In general

Any person may petition the Administrator for the disclosure of the specific chemical
identity of a hazardous chemical, an extremely hazardous substance, or a toxic chemical which is claimed as a trade secret under this section. The Administrator may, in the absence of a petition under this paragraph, initiate a determination, to be carried out in accordance with this subsection, as to whether information withheld constitutes a trade secret.

(2) Initial review

Within 30 days after the date of receipt of a petition under paragraph (1) (or upon the Administrator’s initiative), the Administrator shall review the explanation filed by a trade secret claimant under subsection (a)(2) of this section and determine whether the explanation presents assertions which, if true, are sufficient to support a finding that the specific chemical identity is a trade secret.

(3) Finding of sufficient assertions

(A) If the Administrator determines pursuant to paragraph (2) that the explanation presents sufficient assertions to support a finding that the specific chemical identity is a trade secret, the Administrator shall notify the trade secret claimant that he has 30 days to supplement the explanation with detailed information to support the assertions.

(B) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are true and that the specific chemical identity is a trade secret, the Administrator shall so notify the petitioner and the petitioner may seek judicial review of the determination.

(C) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are not true and that the specific chemical identity is not a trade secret, the Administrator shall notify the trade secret claimant that he intends to release the specific chemical identity. The trade secret claimant has 30 days in which he may appeal the Administrator’s determination under this subparagraph to the Administrator. If the Administrator does not reverse his determination under this subparagraph in such an appeal by the trade secret claimant, the trade secret claimant may seek judicial review of the determination.

(4) Finding of insufficient assertions

(A) If the Administrator determines pursuant to paragraph (2) that the explanation presents insufficient assertions to support a finding that the specific chemical identity is a trade secret, the Administrator shall notify the trade secret claimant that he has 30 days to appeal the determination to the Administrator, or, upon a showing of good cause, amend the original explanation by providing supplementary assertions to support the trade secret claim.

(B) If the Administrator does not reverse his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the Administrator shall so notify the trade secret claimant and the trade secret claimant may seek judicial review of the determination.

(C) If the Administrator reverses his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the procedures under paragraph (3) of this subsection apply.

(f) Providing information to Administrator; availability to public

Any information submitted to the Administrator under subsection (a)(2) of this section or subsection (d)(3) of this section (except a specific chemical identity) shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that the information (or a particular part thereof) to which the Administrator has access under this section if made public would divulge information entitled to protection under section 1905 of title 18, such information or part shall be considered confidential in accordance with the purposes of that section, except that such information or part may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter.

(2) In any case in which the identity of a toxic chemical is claimed as a trade secret, the Administrator shall identify the adverse health and environmental effects associated with the toxic chemical and shall assure that such information is included in the computer database required by section 11023(j) of this title and is provided to any person requesting information about such toxic chemical.

(B) that the trade secret claim is frivolous,

If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the United States, the Administrator may request the Attorney General of the United States to institute a civil action in an appropriate district court of the United States to collect the penalty, and such court shall have jurisdiction to hear and decide any such action. In hearing such action, the court shall have authority to review the violation and the assessment of the civil penalty on the record.

CHAPTER 117—ENCOURAGING GOOD FAITH PROFESSIONAL REVIEW ACTIVITIES

Sec. 11101. Findings.

SUBCHAPTER I—PROMOTION OF PROFESSIONAL REVIEW ACTIVITIES

11111. Professional review.

11112. Standards for professional review actions.

11113. Payment of reasonable attorneys’ fees and costs in defense of suit.

11114. Guidelines of Secretary.

11115. Construction.

SUBCHAPTER II—REPORTING OF INFORMATION

11131. Requiring reports on medical malpractice payments.
§ 11101. Findings

The Congress finds the following:

(1) The increasing occurrence of medical malpractice and the need to improve the quality of medical care have become nationwide problems that warrant greater efforts than those that can be undertaken by any individual State.

(2) There is a national need to restrict the ability of incompetent physicians to move from State to State without disclosure or discovery of the physician’s previous damaging or incompetent performance.

(3) This nationwide problem can be remedied through effective professional peer review.

(4) The threat of private money damage liability under Federal laws, including treble damage liability under Federal antitrust law, unreasonably discourages physicians from participating in effective professional peer review.

(5) There is an overriding national need to provide incentive and protection for physicians engaging in effective professional peer review.

SUBCHAPTER I—PROMOTION OF PROFESSIONAL REVIEW ACTIVITIES

§ 11111. Professional review

(a) In general

(1) Limitation on damages for professional review actions

If a professional review action (as defined in section 11151(9) of this title) of a professional review body meets all the standards specified in section 11112(a) of this title, except as provided in subsection (b) of this section—

(D) any person who participates with or assists the body with respect to the action,

shall not be liable in damages under any law of the United States or of any State (or political subdivision thereof) with respect to the action. The preceding sentence shall not apply to damages under any law of the United States or any State relating to the civil rights of any person or persons, including the Civil Rights Act of 1964, 42 U.S.C. 2000e, et seq. and the Civil Rights Acts, 42 U.S.C. 1981, et seq., Nothing in this paragraph shall prevent the United States or any Attorney General of a State from bringing an action, including an action under section 15c of title 15, where such an action is otherwise authorized.

(2) Protection for those providing information to professional review bodies

Notwithstanding any other provision of law, no person (whether as a witness or otherwise) providing information to a professional review body regarding the competence or professional conduct of a physician shall be held, by reason of having provided such information, to be liable in damages under any law of the United States or of any State (or political subdivision thereof) unless such information is false and the person providing it knew that such information was false.

(b) Exception

If the Secretary has reason to believe that a health care entity has failed to report information in accordance with section 11153(a) of this title, the Secretary shall conduct an investigation. If, after providing notice of noncompliance, an opportunity to correct the noncompliance, and an opportunity for a hearing, the Secretary determines that a health care entity has failed substantially to report information in accordance with section 11153(a) of this title, the Secretary shall publish the name of the entity in the Federal Register. The protections of subsection (a)(1) of this section shall not apply to an entity the name of which is published in the Federal Register under the previous sentence with respect to professional review actions of the entity commenced during the 3-year period beginning 30 days after the date of publication of the name.

(c) Treatment under State laws

(1) Professional review actions taken on or after October 14, 1989

Except as provided in paragraph (2), subsection (a) of this section shall apply to State laws in a State only for professional review actions commenced on or after October 14, 1989.

(2) Exceptions

(A) State early opt-in

Subsection (a) of this section shall apply to State laws in a State for actions commenced before October 14, 1989, if the State by legislation elects such treatment.

(B) Effective date of election

An election under State law is not effective, for purposes of, for actions commenced before the effective date of the State law, which may not be earlier than the date of the enactment of that law.

§ 11112 Standards for professional review actions

(a) In general

For purposes of the protection set forth in section 11111(a) of this title, a professional review action must be taken—

(1) in the reasonable belief that the action was in the furtherance of quality health care,

(2) after a reasonable effort to obtain the facts of the matter,

(3) after adequate notice and hearing procedures are afforded to the physician involved or after such other procedures as are fair to the physician under the circumstances, and

(4) in the reasonable belief that the action was warranted by the facts known after such reasonable effort to obtain facts and after meeting the requirement of paragraph (3).

A professional review action shall be presumed to have met the preceding standards necessary for the protection set out in section 11111(a) of this title unless the presumption is rebutted by a preponderance of the evidence.

(b) Adequate notice and hearing

A health care entity is deemed to have met the adequate notice and hearing requirement of subsection (a)(3) of this section with respect to a physician if the following conditions are met (or are waived voluntarily by the physician):

(1) Notice of proposed action

The physician has been given notice stating—

(A)(i) that a professional review action has been proposed to be taken against the physician,

(ii) reasons for the proposed action,

(B)(i) that the physician has the right to request a hearing on the proposed action,

(ii) any time limit (of not less than 30 days) within which to request such a hearing, and

(C) a summary of the rights in the hearing under paragraph (3).

(2) Notice of hearing

If a hearing is requested on a timely basis under paragraph (1)(B), the physician involved must be given notice stating—

(A) the place, time, and date, of the hearing, which date shall not be less than 30 days after the date of the notice, and

(B) a list of the witnesses (if any) expected to testify at the hearing on behalf of the professional review body.

(3) Conduct of hearing and notice

If a hearing is requested on a timely basis under paragraph (1)(B),

(A) subject to subparagraph (B), the hearing shall be held (as determined by the health care entity)—

(i) before an arbitrator mutually acceptable to the physician and the health care entity,

(ii) before a hearing officer who is appointed by the entity and who is not in direct economic competition with the physician involved, or

(iii) before a panel of individuals who are appointed by the entity and are not in direct economic competition with the physician involved;

(B) the right to the hearing may be forfeited if the physician fails, without good cause, to appear;

(C) in the hearing the physician involved has the right—

(i) to representation by an attorney or other person of the physician’s choice,

(ii) to have a record made of the proceedings, copies of which may be obtained by the physician upon payment of any reasonable charges associated with the preparation thereof,

(iii) to call, examine, and cross-examine witnesses,

(iv) to present evidence determined to be relevant by the hearing officer, regardless of its admissibility in a court of law, and

(v) to submit a written statement at the close of the hearing; and

(D) upon completion of the hearing, the physician involved has the right—

(i) to receive the written recommendation of the arbitrator, officer, or panel, including a statement of the basis for the recommendations, and

(ii) to receive a written decision of the health care entity, including a statement of the basis for the decision.

A professional review body’s failure to meet the conditions described in this subsection shall not,
in itself, constitute failure to meet the standards of subsection (a)(3) of this section.

(c) Adequate procedures in investigations or health emergencies

For purposes of section 11111(a) of this title, nothing in this section shall be construed as—

(1) requiring the procedures referred to in subsection (a)(5) of this section—

(A) where there is no adverse professional review action taken, or

(B) in the case of a suspension or restriction of clinical privileges, for a period of not longer than 14 days, during which an investigation is being conducted to determine the need for a professional review action; or

(2) precluding an immediate suspension or restriction of clinical privileges, subject to subsequent notice and hearing or other adequate procedures, where the failure to take such an action may result in an imminent danger to the health of any individual.

§ 11113. Payment of reasonable attorneys’ fees and costs in defense of suit

In any suit brought against a defendant, to the extent that a defendant has met the standards set forth under section 11112(a) of this title and the defendant substantially prevails, the court shall, at the conclusion of the action, award to a substantially prevailing party defending against any such claim the cost of the suit attributable to such claim, including a reasonable attorney’s fee, if the claim, or the claimant’s conduct during the litigation of the claim, was frivolous, unreasonable, without foundation, or in bad faith. For purposes of this section, a defendant shall not be considered to have substantially prevailed when the plaintiff obtains an award for damages or permanent injunctive or declaratory relief.

§ 11114. Guidelines of Secretary

The Secretary may establish, after notice and opportunity for comment, such voluntary guidelines as may assist the professional review bodies in meeting the standards described in section 11112(a) of this title.

§ 11115. Construction

(a) In general

Except as specifically provided in this subchapter, nothing in this subchapter shall be construed as altering the liabilities or immunities under law or as preempts or overriding any State law which provides incentives, immunities, or protection for those engaged in a professional review action that is in addition to or greater than that provided by this subchapter.

(b) Scope of clinical privileges

Nothing in this subchapter shall be construed as requiring health care entities to provide clinical privileges to any or all classes or types of physicians or other licensed health care practitioners.

(c) Treatment of nurses and other practitioners

Nothing in this subchapter shall be construed as affecting, or modifying any provision of Federal or State law, with respect to activities of professional review bodies regarding nurses, other licensed health care practitioners, or other health professionals who are not physicians.

(d) Treatment of patient malpractice claims

Nothing in this chapter shall be construed as affecting in any manner the rights and remedies afforded patients under any provision of Federal or State law to seek redress for any harm or injury suffered as a result of negligent treatment or care by any physician, health care practitioner, or health care entity, or as limiting any defenses or immunities available to any physician, health care practitioner, or health care entity.

(d) Report on treatment of small payments

The Secretary shall study and report to Congress, not later than two years after November 14, 1986, on whether information respecting small payments should continue to be required to be reported under subsection (a) of this section and whether information respecting all claims made concerning a medical malpractice action should be required to be reported under such subsection.

§ 11132. Reporting of sanctions taken by Boards of Medical Examiners

(a) In general

(1) Actions subject to reporting

Each Board of Medical Examiners—

(A) which revokes or suspends (or otherwise restricts) a physician’s license or censures, reprimands, or places on probation a physician, for reasons relating to the physician’s professional competence or professional conduct, or

Such information shall first be required to be reported on a date (not later than one year after November 14, 1986) specified by the Secretary.

(b) To whom reported

The information required to be reported under sections 11131, 11133(a), and 11133(b) of this title shall be reported to the Secretary, or, in the Secretary’s discretion, to an appropriate private or public agency which has made suitable arrangements with the Secretary with respect to receipt, storage, protection of confidentiality, and dissemination of the information under this subchapter.

(b) Confidentiality of information

(1) In general

Information reported under this subchapter is considered confidential and shall not be disclosed (other than to the physician or practitioner involved) except with respect to professional review activity, as necessary to carry out subsections (b) and (c) of section 11135 of
this title (as specified in regulations by the Secretary), or in accordance with regulations of the Secretary promulgated pursuant to subsection (a) of this section. Nothing in this subsection shall prevent the disclosure of such information by a party which is otherwise authorized, under applicable State law, to make such disclosure. Information reported under this subchapter that is in a form that does not permit the identification of any particular health care entity, physician, other health care practitioner, or patient shall not be considered confidential. § 11201. Findings

The Congress finds that—

(1) best estimates indicate that between 2,000,000 and 3,000,000 Americans presently have Alzheimer’s disease or related dementias; 

(2) estimates of the number of individuals afflicted with Alzheimer’s disease and related dementias are unreliable because current diagnostic procedures lack accuracy and sensitivity and because there is a need for epidemiological data on incidence and prevalence of such disease and dementias;

(3) studies estimate that between one-half and two-thirds of patients in nursing homes meet the clinical and mental status criteria for dementia;

(4) the cost of caring for individuals with Alzheimer’s disease and related dementias is great, and conservative estimates range between $38,000,000,000 and $42,000,000,000 per year solely for direct costs;

(5) progress in the neurosciences and behavioral sciences has demonstrated the interdependence and mutual reinforcement of basic science, clinical research, and services research for Alzheimer’s disease and related dementias;

(6) programs initiated as part of the Decade of the Brain are likely to provide significant progress in understanding the fundamental mechanisms underlying the causes of, and treatments for, Alzheimer’s disease and related dementias;

(7) although substantial progress has been made in recent years in identifying possible leads to the causes of Alzheimer’s disease and related dementias, and more progress can be expected in the near future, there is little likelihood of a breakthrough in the immediate future that would eliminate or substantially reduce—

(A) the number of individuals with the disease and dementias; or

(B) the difficulties of caring for the individuals;

(8) the responsibility for care of individuals with Alzheimer’s disease and related dementias falls primarily on their families, and the care is financially and emotionally devastating;

(9) attempts to reduce the emotional and financial burden of caring for dementia patients is impeded by a lack of knowledge about such patients, how to care for such patients, the costs associated with such care, the effectiveness of various modes of care, the quality and type of care necessary at various stages of the disease, and other appropriate services that are needed to provide quality care;

(10) the results of the little research that has been undertaken concerning dementia has been inadequate or the results have not been widely disseminated;

(11) more knowledge is needed concerning—

(A) the epidemiology of, and the identification of risk factors for, Alzheimer’s disease and related dementias;

(B) the development of methods for early diagnosis, functional assessment, and psychological evaluation of individuals with Alzheimer’s disease for the purpose of monitoring the course of the disease and developing strategies for improving the quality of life for such individuals;

(C) the understanding of the optimal range and cost-effectiveness of community and institutional services for individuals with Alzheimer’s disease and related dementias and their families, particularly with respect to the design, delivery, staffing, and mix of such services and the coordination of such services with other services, and with respect to the relationship of formal to informal support services;

(D) the understanding of optimal methods to combine formal support services provided by health care professionals with informal
support services provided by family, friends, and neighbors of individuals with Alzheimer’s disease, and the identification of ways family caregivers can be sustained through interventions to reduce psychological and social problems and physical problems induced by stress;

(E) existing data that are relevant to Alzheimer’s disease and related dementias; and

(F) the costs incurred in caring for individuals with Alzheimer’s disease and related dementias;

(12) it is imperative to provide appropriate coordination of the efforts of the Federal Government in the provision of services for individuals with Alzheimer’s disease and related dementias;

(13) it is important to increase the understanding of Alzheimer’s disease and related dementias by the diverse range of personnel involved in the care of individuals with such disease and dementias; and

(14) it is imperative that the Social Security Administration be provided information pertaining to Alzheimer’s disease and related dementias, particularly for personnel in such Administration involved in the establishment and updating of criteria for determining whether an individual is under a disability for purposes of titles II and XVI of the Social Security Act [42 U.S.C. 401 et seq., 1381 et seq.].

AMENDMENTS

1992—Pars. (4) to (14). Pub. L. 102–507 added pars. (4) to (8), redesignated former pars. (7) to (12) as (9) to (14), respectively, and struck out former pars. (4) to (6) which read as follows:

“(4) the care for individuals with Alzheimer’s disease and related dementias falls primarily on their families, and such care is very often financially and emotionally devastating;

“(5) the cost of caring for individuals with Alzheimer’s disease and related dementias is great, and conservative estimates range between $38,000,000,000 and $42,000,000,000 per year solely for direct costs;

“(6) although substantial progress has been made in recent years in identifying possible leads to the causes of Alzheimer’s disease and related dementias and more progress can be expected in the near future, there is little likelihood of a breakthrough in the foreseeable future which would eliminate or substantially reduce the number of individuals with such disease and dementias or the difficulties of caring for such individuals.”;

SUBCHAPTER IV—HOUSING ASSISTANCE

PART A—GENERAL PROVISIONS

PART B—EMERGENCY SOLUTIONS GRANTS PROGRAM

PART C—CONTINUUM OF CARE PROGRAM

§ 11302. General definition of homeless individual
Sec. 11301. Findings and purpose.
11302. General definition of homeless individual.
11303. Funding availability and limitations.
The Congress finds that—
(1) the Nation faces an immediate and unprecedented crisis due to the lack of shelter for a growing number of individuals and families, including elderly persons, handicapped persons, families with children, Native Americans, and veterans;
(2) the problem of homelessness has become more severe and, in the absence of more effective efforts, is expected to become dramatically worse, endangering the lives and safety of the homeless;
(3) the causes of homelessness are many and complex, and homeless individuals have diverse needs;
(4) there is no single, simple solution to the problem of homelessness because of the different subpopulations of the homeless, the different causes of and reasons for homelessness, and the different needs of homeless individuals;
(5) due to the record increase in homelessness, States, units of local government, and private voluntary organizations have been unable to meet the basic human needs of all the homeless and, in the absence of greater Federal assistance, will be unable to protect the lives and safety of all the homeless in need of assistance; and
(6) the Federal Government has a clear responsibility and an existing capacity to fulfill a more effective and responsible role to meet the basic human needs and to engender respect for the human dignity of the homeless.

(b) Purpose
It is the purpose of this chapter—
(1) to establish the United States Interagency Council on Homelessness;
(2) to use public resources and programs in a more coordinated manner to meet the critically urgent needs of the homeless of the Nation; and
(3) to provide funds for programs to assist the homeless, with special emphasis on elderly persons, handicapped persons, families with children, Native Americans, and veterans.

To be eligible to receive a grant under subsection (a), a project sponsor or unified funding agency in a geographic area shall submit an application to the Secretary at such time and in such manner as the Secretary may require, and containing such information as the Secretary determines necessary—

(B) Acquisition, rehabilitation, or construction

Not later than 12 months after the announcement referred to in subsection (c)(2),
each recipient or project sponsor seeking the obligation of funds for acquisition of housing, rehabilitation of housing, or construction of new housing for a grant announced under subsection (c)(2) shall meet all requirements for the obligation of those funds, including site control, matching funds, and environmental review requirements.

(C) Extensions

At the discretion of the Secretary, and in compelling circumstances, the Secretary may extend the date by which a recipient or project sponsor shall meet the requirements described in subparagraphs (A) and (B) if the Secretary determines that compliance with the requirements was delayed due to factors beyond the reasonable control of the recipient or project sponsor. Such factors may include difficulties in obtaining site control for a proposed project, completing the process of obtaining secure financing for the project, obtaining approvals from State or local governments, or completing the technical submission requirements for the project.

(2) Obligation

The Secretary may renew funding for a specific project previously funded under this part that the Secretary determines meets the purposes of this part, and was included as part of a total application that met the criteria of subsection (c), even if the application was not selected to receive grant assistance. The Secretary may renew the funding for a period of not more than 1 year, and under such conditions as the Secretary determines to be appropriate.

(f) Considerations in determining renewal funding

When providing renewal funding for leasing, operating costs, or rental assistance for permanent housing, the Secretary shall make adjustments proportional to increases in the fair market rents in the geographic area.

The Secretary shall ensure that the procedure permits appeals submitted by entities carrying out homeless housing and services projects (including emergency shelters and homelessness prevention programs), and all other applicants under this part.

(i) Solo applicants

A solo applicant may submit an application to the Secretary for a grant under subsection (a) and be awarded such grant on the same basis as such grants are awarded to other applicants based on the criteria described in section 11386a(b)(1)(B) of this title, but only if the Secretary determines that the solo applicant has attempted to participate in the continuum of care process but was not permitted to participate in a reasonable manner. (2) Limitations

The 10 percent limitation under paragraph (1) shall not apply to collaborative applicants

(d) Repayment of assistance and prevention of undue benefits

(1) Repayment

If a recipient or project sponsor receives assistance under section 11382 of this title to carry out a project that consists of activities described in paragraph (1) or (2) of subsection (a) and the project ceases to provide transitional or permanent housing—

(3) Exception

A recipient or project sponsor shall not be required to make the repayments, and comply with the terms and conditions, required under paragraph (1) or (2) if—

(A) the sale or disposition of the property used for the project results in the use of the property for the direct benefit of very low-income persons;

(B) all of the proceeds of the sale or disposition are used to provide transitional or permanent housing meeting the requirements of this part;

(C) project-based rental assistance or operating cost assistance from any Federal program or an equivalent State or local program is no longer made available and the project is meeting applicable performance standards, provided that the portion of the project that had benefitted from such assistance continues to meet the tenant income and rent restrictions for low-income units under section 42(g) of title 26; or

(D) there are no individuals and families in the geographic area who are homeless, in which case the project may serve individuals and families at risk of homelessness.

(e) Staff training

§ 11386b. Allocation of amounts and incentives for specific eligible activities

(a) Minimum allocation for permanent housing for homeless individuals and families with disabilities

(1) In general

From the amounts made available to carry out this part for a fiscal year, a portion equal to not less than 30 percent of the sums made available to carry out part B and this part, shall be used for permanent housing for homeless individuals with disabilities and homeless families that include such an individual who is an adult or a minor head of household if no adult is present in the household.

(2) Calculation

In calculating the portion of the amount described in paragraph (1) that is used for activities that are described in paragraph (1), the Secretary shall not count funds made available to renew contracts for existing projects under section 11386c of this title.

(3) Adjustment

The 30 percent figure in paragraph (1) shall be reduced proportionately based on need under section 11386a(b)(2) of this title in geographic areas for which subsection (e) applies in regard to subsection (d)(2)(A).

(4) Suspension

The requirement established in paragraph (1) shall be suspended for any year in which funding available for grants under this part after making the allocation established in paragraph (1) would not be sufficient to renew for 1 year all existing grants that would otherwise be fully funded under this part.

(5) Termination

The requirement established in paragraph (1) shall terminate upon a finding by the Secretary that since the beginning of 2001 at least 150,000 new units of permanent housing for homeless individuals and families with disabilities have been funded under this part.

(b) Set-aside for permanent housing for homeless families with children

From the amounts made available to carry out this part for a fiscal year, a portion equal to not less than 10 percent of the sums made available to carry out part B and this part, shall be used for permanent housing for homeless families with children.

(d) Incentives for proven strategies

(1) In general

The Secretary shall provide bonuses or other incentives to geographic areas for using funding under this part for activities that have...
been proven to be effective at reducing homelessness generally, reducing homelessness for a specific subpopulation, or achieving homelessness prevention and independent living goals as set forth in section 11386a(b)(1)(F) of this title.

(2) Rule of construction

For purposes of this subsection, activities that have been proven to be effective at reducing homelessness generally or reducing homelessness for a specific subpopulation includes—

(B) for homeless families, rapid rehousing services, short-term flexible subsidies to overcome barriers to rehousing, support services concentrating on improving incomes to pay rent, coupled with performance measures emphasizing rapid and permanent rehousing and with leveraging funding from mainstream family service systems such as Temporary Assistance for Needy Families and Child Welfare services; and

(C) any other activity determined by the Secretary, based on research and after notice and comment to the public, to have been proven effective at reducing homelessness generally, reducing homelessness for a specific subpopulation, or achieving homelessness prevention and independent living goals as set forth in section 11386a(b)(1)(F) of this title.

(3) Balance of incentives for proven strategies

To the extent practicable, in providing bonuses or incentives for proven strategies, the Secretary shall seek to maintain a balance among strategies targeting homeless individuals, families, and other subpopulations. The Secretary shall not implement bonuses or incentives that specifically discourage collaborative applicants from exercising their flexibility to serve families with children and youth defined as homeless under other Federal statutes.

(e) Incentives for successful implementation of proven strategies

If any geographic area demonstrates that it has fully implemented any of the activities described in subsection (d) for all homeless individuals and families or for all members of subpopulations for whom such activities are targeted, that geographic area shall receive the bonus or incentive provided under subsection (d), but may use such bonus or incentive for any eligible activity under either section 11383 of this title or paragraphs (4) and (5) of section 11374(a) of this title.

(B) Each publication of properties shall include a description and the location of each property (including the address and zip code) and the current classification of each property as unutilized, underutilized, excess property, or surplus property.

(C) The Secretary shall make available to the public upon request all information in the possession of the Department of Housing and Urban Development (other than valuation information), regardless of format, about all properties reviewed and not identified as being suitable for use to assist the homeless, including the reasons such properties were not so identified.

(D) The Secretary shall publish separately, on an annual basis, all properties identified as being suitable for use to assist the homeless, but reported to be unavailable, and the reasons such properties were unavailable.

(ii) the Administrator receives a bona fide offer to purchase the property or advertises for the sale of the property by public auction.

(d) Holding period

(1) Properties published under subsection (c)(1)(A)(ii) of this section as available for application for use to assist the homeless shall not be available for any other purpose for a period of 60 days beginning on the date of such publication.

(4)(A) Written notice of intent to apply for a property published under subsection (c)(1)(A)(ii) of this section may be filed at any time after the 60-day holding period described in paragraph (1) has expired. In such case, an application submitted pursuant to the notice may be approved for disposal for use to assist the homeless only if the property remains available for application for use to assist the homeless. (3)(A) In disposing of surplus property by deed or lease under sections 541–555 of title 40, the Administrator and the Secretary of Health and Human Services shall give priority of consideration to uses to assist the homeless, unless the Administrator or the Secretary of Health and Human Services determines that a competing request for the property under section 550 of title 40 is so meritorious and compelling as to outweigh the needs of the homeless.

(B) Whenever the Administrator or the Secretary of Health and Human Services makes a determination under subparagraph (A), the Administrator or the Secretary of Health and Human Services shall transmit to the appropriate committees of the Congress an explanatory statement detailing the need satisfied by conveyance of the surplus property and the reasons for determining that such need was so meritorious and compelling as to outweigh the needs of the homeless.

§ 11504. Waiver or modification of housing and community development rules in enterprise zones

(a) In general

Upon the written request of the governments that designated and approved an area that has been designated as an enterprise zone under section 11501 of this title, the Secretary of Housing and Urban Development (or, with respect to any rule issued under title V of the Housing Act of 1949 [42 U.S.C. 1471 et seq.], the Secretary of Agriculture) may, in order to further the job creation, community development, or economic revitalization objectives of the zone, waive or modify all or part of any rule that the Secretary has authority to promulgate, as such rule pertains to the carrying out of projects, activities, or undertakings within the zone.

(b) Limitation

No provision of this section may be construed to authorize the Secretary to waive or modify any rule adopted to carry out a statute or Executive order that prohibits, or the purpose of which is to protect persons against, discrimination on the basis of race, color, religion, sex, marital status, national origin, age, or handicap.

(c) Submission of requests

A request under subsection (a) of this section shall specify the rule or rules to be waived or modified and the change proposed, and shall briefly describe why the change would promote the achievement of the job creation, community development, or economic revitalization objectives of the enterprise zone. If a request is made to the Secretary of Agriculture, the requesting governments shall send a copy of the request to the Secretary of Housing and Urban Development at the time the request is made.

(d) Consideration of requests

In considering a request, the Secretary shall weigh the extent to which the proposed change is likely to further job creation, community development, or economic revitalization within the enterprise zone against the effect the change is likely to have on the underlying purposes of applicable statutes in the geographic area that would be affected by the change. The Secretary shall approve the request whenever the Secretary finds, in the discretion of the Secretary, that the public interest that the proposed change would serve in furthering such job creation, community development or economic revitalization outweighs the public interest that continuation of the rule unchanged would serve in furthering such underlying purposes. The Secretary shall not approve any request to waive or modify a rule if that waiver or modification would—

(1) directly violate a statutory requirement; or

(2) be likely to present a significant risk to the public health, including environmental health or safety.

(e) Notice of disapproval

If a request is disapproved, the Secretary shall inform the requesting governments in writing of the reasons therefor and shall, to the maximum extent possible, work with such governments to develop an alternative, consistent with the standards contained in subsection (d) of this section.

(f) Period for determination

The Secretary shall discharge the responsibilities of the Secretary under this section in an expeditious manner, and shall make a determination on requests not later than 90 days after their receipt.

(g) Applicable procedures

A waiver or modification of a rule under subsection (a) of this section shall not be considered to be a rule, rulemaking, or regulation under chapter 5 of title 5. To facilitate reaching a decision on any requested waiver or modification, the Secretary may seek the views of interested parties and, if the views are to be sought, determine how they should be obtained and to what extent, if any, they should be taken into account in considering the request. The Secretary shall publish a notice in the Federal Register stating any waiver or modification of a rule under this section.

(h) Effect of subsequent amendment of rules

In the event that the Secretary proposes to amend a rule for which a waiver or modification under this section is in effect, the Secretary shall not change the waiver or modification to impose additional requirements unless the Secretary determines, consistent with standards contained in subsection (d) of this section, that such action is necessary.

(i) Expiration of waivers and modifications

No waiver or modification of a rule under this section shall remain in effect for a longer period than the period for which the enterprise zone designation remains in effect for the area in which the waiver or modification applies.

§ 11601. Findings and declarations

(a) Findings

The Congress makes the following findings:

(1) The international abduction or wrongful retention of children is harmful to their wellbeing.

(2) Persons should not be permitted to obtain custody of children by virtue of their wrongful removal or retention.

(3) International abductions and retentions of children are increasing, and only concerted cooperation pursuant to an international agreement can effectively combat this problem.

(4) The Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 25, 1980, establishes legal rights and procedures for the prompt return of children who have been wrongfully removed or retained, as well as for securing the exercise of visitation rights. Children who are wrongfully removed or retained within the meaning of the Convention are to be promptly returned unless one of the narrow exceptions set forth in the Convention applies. The Convention provides a sound treaty framework to help resolve the problem of international abduction and retention of children and will deter such wrongful removals and retentions.

(b) Declarations

The Congress makes the following declarations:

(1) It is the purpose of this chapter to establish procedures for the implementation of the Convention in the United States.

(2) The provisions of this chapter are in addition to and not in lieu of the provisions of the Convention.

(3) In enacting this chapter the Congress recognizes—

(A) the international character of the Convention; and

(B) the need for uniform international interpretation of the Convention.

(4) The Convention and this chapter empower courts in the United States to determine only rights under the Convention and not the merits of any underlying child custody claims.

EX. ORD. No. 12648. IMPLEMENTATION OF CONVENTION ON CIVIL ASPECTS OF INTERNATIONAL CHILD ABDUCTION

Ex. Ord. No. 12648, Aug. 11, 1988, 53 F.R. 30637, provided:

The United States of America deposited its instrument of ratification of the Hague Convention on the Civil Aspects of International Child Abduction (“Convention”) on April 29, 1988. The Convention entered into force for the United States on July 1, 1988. Article 6 of the Convention imposes upon Contracting States an obligation to designate a “Central Authority” for the purpose of discharging certain specified functions. In order that the Government of the United States of America may give full and complete effect to the Convention, and pursuant to section 7 of the International Child Abduction Remedies Act, Public Law No. 100–300 (1988) [42 U.S.C. 11606], it is expedient and necessary that I designate a Central Authority within the Executive branch of said Government:

NOW, THEREFORE, by virtue of the authority vested in me as President by the Constitution and the laws of the United States, including section 301 of Title 3 of the United States Code and section 7 of the International Child Abduction Remedies Act, it is ordered as follows:

Section 1. Designation of Central Authority. The Department of State is hereby designated as the Central Authority of the United States for purposes of the Hague Convention on the Civil Aspects of International Child Abduction. The Secretary of State is hereby authorized and empowered, in accordance with such regulations as he may prescribe, to perform all lawful acts that may be necessary and proper in order to execute the functions of the Central Authority in a timely and efficient manner.

RONALD REAGAN.

§ 11607. Costs and fees

(a) Administrative costs

No department, agency, or instrumentality of the Federal Government or of any State or local
government may impose on an applicant any fee in relation to the administrative processing of applications submitted under the Convention.

(b) Costs incurred in civil actions

(1) Petitioners may be required to bear the costs of legal counsel or advisors, court costs incurred in connection with their petitions, and travel costs for the return of the child involved and any accompanying persons, except as provided in paragraphs (2) and (3).

(2) Subject to paragraph (3), legal fees or court costs incurred in connection with an action brought under section 11603 of this title shall be borne by the petitioner unless they are covered by payments from Federal, State, or local legal assistance or other programs.

(3) Any court ordering the return of a child pursuant to an action brought under section 11603 of this title shall order the respondent to pay necessary expenses incurred by or on behalf of the petitioner, including court costs, legal fees, foster home or other care during the course of proceedings in the action, and transportation costs related to the return of the child, unless the respondent establishes that such order would be clearly inappropriate.

§ 11608. Collection, maintenance, and dissemination of information

(a) In general

In performing its functions under the Convention, the United States Central Authority may, under such conditions as the Central Authority prescribes by regulation, subject to subsection (c) of this section, receive from or transmit to any department, agency, or instrumentality of the Federal Government or of any State or foreign government, and receive from or transmit to any applicant, petitioner, or respondent, information necessary to locate a child or for the purpose of otherwise implementing the Convention with respect to a child, except that the United States Central Authority—

(1) may receive such information from a Federal or State department, agency, or instrumentality only pursuant to applicable Federal and State statutes; and

(2) may transmit any information received under this subsection notwithstanding any provision of law other than this chapter.

(b) Requests for information

Requests for information under this section shall be submitted in such manner and form as the United States Central Authority may prescribe by regulation and shall be accompanied or supported by such documents as the United States Central Authority may require.

(c) Responsibility of government entities

Whenever any department, agency, or instrumentality of the United States or of any State receives a request from the United States Central Authority for information authorized to be provided to such Central Authority under subsection (a) of this section, the head of such department, agency, or instrumentality shall promptly cause a search to be made of the files and records maintained by such department, agency, or instrumentality in order to determine whether the information requested is contained in any such files or records. If such search discloses the information requested, the head of such department, agency, or instrumentality shall immediately transmit such information to the United States Central Authority, except that any such information the disclosure of which—

(1) would adversely affect the national security interests of the United States or the law enforcement interests of the United States or of any State; or

(2) would be prohibited by section 9 of title 13;

shall not be transmitted to the Central Authority. The head of such department, agency, or instrumentality shall, immediately upon completion of the requested search, notify the Central Authority of the results of the search, and whether an exception set forth in paragraph (1) or (2) applies. In the event that the United States Central Authority receives information and the appropriate Federal or State department, agency, or instrumentality thereafter notifies the Central Authority that an exception set forth in paragraph (1) or (2) applies to that information, the Central Authority may not disclose that information under subsection (a) of this section.

(d) Information available from Parent Locator Service

To the extent that information which the United States Central Authority is authorized to obtain under the provisions of subsection (c) of this section can be obtained through the Parent Locator Service, the United States Central Authority shall first seek to obtain such information from the Parent Locator Service, before requesting such information directly under the provisions of subsection (c) of this section.

(e) Recordkeeping

The United States Central Authority shall maintain appropriate records concerning its activities and the disposition of cases brought to its attention.

§ 11608a. Office of Children’s Issues

(a) Director requirements

The Secretary of State shall fill the position of Director of the Office of Children’s Issues of the Department of State (in this section referred to as the “Office”) with an individual of senior rank who can ensure long-term continuity in the management and policy matters of the Office and has a strong background in consular affairs.

(b) Case officer staffing

Effective April 1, 2000, there shall be assigned to the Office of Children’s Issues of the Depart-

The Director of the Office shall regularly inform the designated employee of children of United States citizens abducted by parents to that country.

(d) Reports to parents
(1) In general
Except as provided in paragraph (2), beginning 6 months after November 29, 1999, and at least once every 6 months thereafter, the Secretary of State shall report to each parent who has requested assistance regarding an abducted child overseas. Each such report shall include information on the current status of the abducted child's case and the efforts by the Department of State to resolve the case.

(2) Exception
The requirement in paragraph (1) shall not apply in a case of an abducted child if—
(A) the case has been closed and the Secretary of State has reported the reason the case was closed to the parent who requested assistance; or
(B) the parent seeking assistance requests that such reports not be provided.

§ 11609. Interagency coordinating group
The Secretary of State, the Secretary of Health and Human Services, and the Attorney General shall designate Federal employees and may, from time to time, designate private citizens to serve on an interagency coordinating group to monitor the operation of the Convention and to provide advice on its implementation to the United States Central Authority and other Federal agencies. This group shall meet from time to time at the request of the United States Central Authority. § 11610. Authorization of appropriations

governmental organizations within their countries that assist parents seeking the return of children under the Convention.

(b) Definition

In this section, the term “Central Authority for the United States” has the meaning given the term in Article 6 of the Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 29, 1980.

(1) Native Hawaiians comprise a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago whose society was organized as a Nation prior to the arrival of the first nonindigenous people in 1778.

(2) The Native Hawaiian people are determined to preserve, develop and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(3) The constitution and statutes of the State of Hawaii:

(A) acknowledge the distinct land rights of Native Hawaiian people as beneficiaries of the public lands trust; and

(B) reaffirm and protect the unique right of the Native Hawaiian people to practice and perpetuate their cultural and religious customs, beliefs, practices, and language.

(4) At the time of the arrival of the first non-indigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient, subsistence social system based on communal land tenure with a sophisticated language, culture, and religion.

(5) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

(6) Throughout the 19th century and until 1893, the United States: (A) recognized the independence of the Hawaiian Nation; (B) extended full and complete diplomatic recognition to the Hawaiian Government; and (C) entered into treaties and conventions with the Hawaiian monarchs to govern commerce and navigation in 1826, 1842, 1849, 1875 and 1887.

(7) In the year 1893, the United States Minister assigned to the sovereign and independent Kingdom of Hawaii, John L. Stevens, conspired with a small group of non-Hawaiian residents of the Kingdom, including citizens of the United States, to overthrow the indigenous and lawful Government of Hawaii.

(8) In pursuance of that conspiracy, the United States Minister and the naval representative of the United States caused armed naval forces of the United States to invade the sovereign Hawaiian Nation in support of the overthrow of the indigenous and lawful Government of Hawaii.

§ 11701. Findings

The Congress finds that:

(1) Native Hawaiians comprise a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago whose society was organized as a Nation prior to the arrival of the first nonindigenous people in 1778.

(2) The Native Hawaiian people are determined to preserve, develop and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(3) The constitution and statutes of the State of Hawaii:

(A) acknowledge the distinct land rights of Native Hawaiian people as beneficiaries of the public lands trust; and

(B) reaffirm and protect the unique right of the Native Hawaiian people to practice and perpetuate their cultural and religious customs, beliefs, practices, and language.

(4) At the time of the arrival of the first non-indigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient, subsistence social system based on communal land tenure with a sophisticated language, culture, and religion.

(5) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

(6) Throughout the 19th century and until 1893, the United States: (A) recognized the independence of the Hawaiian Nation; (B) extended full and complete diplomatic recognition to the Hawaiian Government; and (C) entered into treaties and conventions with the Hawaiian monarchs to govern commerce and navigation in 1826, 1842, 1849, 1875 and 1887.

(7) In the year 1893, the United States Minister assigned to the sovereign and independent Kingdom of Hawaii, John L. Stevens, conspired with a small group of non-Hawaiian residents of the Kingdom, including citizens of the United States, to overthrow the indigenous and lawful Government of Hawaii.

(8) In pursuance of that conspiracy, the United States Minister and the naval representative of the United States caused armed naval forces of the United States to invade the sovereign Hawaiian Nation in support of the overthrow of the indigenous and lawful Government of Hawaii.
(10) Queen Lili‘uokalani, the lawful monarch of Hawaii, and the Hawaiian Patriotic League, representing the aboriginal citizens of Hawaii, promptly petitioned the United States for redress of these wrongs and for restoration of the indigenous government of the Hawaiian nation, but this petition was not acted upon.

(11) In 1898, the United States annexed Hawaii through the Newlands Resolution without the consent of or compensation to the indigenous people of Hawaii or their sovereign government who were thereby denied the mechanism for expression of their inherent sovereignty through self-government and self-determination, their lands and ocean resources.

(12) Through the Newlands Resolution and the 1900 Organic Act, the United States Congress received 1.75 million acres of lands formerly owned by the Crown and Government of the Hawaiian Kingdom and exempted the lands from then existing public land laws of the United States by mandating that the revenue and proceeds from these lands be “used solely for the benefit of the inhabitants of the Hawaiian Islands for education and other public purposes”, thereby establishing a special trust relationship between the United States and the inhabitants of Hawaii.

(13) In 1921, Congress enacted the Hawaiian Homestead Act, 1920 which designated 200,000 acres of the ceded public lands for exclusive homesteading by Native Hawaiians, thereby affirming the trust relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane who was cited in the Committee Report of the United States House of Representatives Committee on Territories as stating, “One thing that impressed me . . . was the fact that the natives of the islands who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.”

(14) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the extension to Native Hawaiians and to permit fishing in the area “only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance”.

(15) Under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility of the State for the benefit of the inhabitants of the Hawaiian ceded public lands trust not retained by the United States to the State of Hawaii but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility of the State for the benefit of the inhabitants of the conditions of Native Hawaiians under section 5(f) of the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4, 6).

(17) The authority of the Congress under the United States Constitution to legislate in matters affecting the aboriginal or indigenous peoples of the United States includes the authority to legislate in matters affecting the native peoples of Alaska and Hawaii.

(18) In furtherance of the trust relationship for the betterment of the conditions of Native Hawaiians, the United States has established a program for the provision of comprehensive health promotion and disease prevention services to maintain and improve the health status of the Hawaiian people.

(19) This historical and unique legal relationship has been consistently recognized and affirmed by the Congress through the enactment of Federal laws which extend to the Hawaiian people the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities, including the Native American Programs Act of 1974 [42 U.S.C. 2991 et seq.]; the American Indian Religious Freedom Act [42 U.S.C. 1966, 1996a]; the National Museum of the American Indian Act [20 U.S.C. 80q et seq.]; and the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.].

(20) The United States has also recognized and reaffirmed the trust relationship to the Hawaiian people through legislation which authorizes the provision of services to Native Hawaiians, specifically, the Older Americans Act of 1965 [42 U.S.C. 3001 et seq.], the Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1987, the Veterans' Benefits and Services Act of 1988, the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.], the Native Hawaiian Health Care Act of 1988, the Health Professions Reauthorization Act of 1988, the Nursing Shortage Reduction and Education Extension Act of 1988, the Handicapped Programs Technical Amendments Act of 1988, the Indian Health Care Amendments of 1988, and the Disadvantaged Minority Health Improvement Act of 1990.

(21) The United States has also affirmed the historical and unique legal relationship to the Hawaiian people by authorizing the provision of services to Native Hawaiians to address problems of alcohol and drug abuse under the Anti-Drug Abuse Act of 1986.

(22) Despite such services, the unmet health needs of the Native Hawaiian people are severe and the health status of Native Hawaiians continues to be far below that of the general population of the United States.

§ 12101. Findings and purpose

(a) Findings

The Congress finds that—

(1) physical or mental disabilities in no way diminish a person’s right to fully participate in all aspects of society, yet many people with physical or mental disabilities have been precluded from doing so because of discrimination; others who have a record of a disability or are regarded as having a disability also have been subjected to discrimination;

(2) historically, society has tended to isolate and segregate individuals with disabilities, and, despite some improvements, such forms of discrimination against individuals with disabilities continue to be a serious and pervasive social problem;

(3) discrimination against individuals with disabilities persists in such critical areas as employment, housing, public accommodations, education, transportation, communication, recreation, institutionalization, health services, voting, and access to public services;

(4) unlike individuals who have experienced discrimination on the basis of race, color, sex, national origin, religion, or age, individuals who have experienced discrimination on the basis of disability have often had no legal recourse to redress such discrimination;

(5) individuals with disabilities continually encounter various forms of discrimination, including outright intentional exclusion, the discriminatory effects of architectural, transportation, and communication barriers, overprotective rules and policies, failure to make modifications to existing facilities and practices, exclusionary qualification standards and criteria, segregation, and relegation to lesser services, programs, activities, benefits, jobs, or other opportunities;

(6) census data, national polls, and other studies have documented that people with disabilities, as a group, occupy an inferior status in our society, and are severely disadvantaged socially, vocationally, economically, and educationally;

(7) the Nation’s proper goals regarding individuals with disabilities are to assure equality of opportunity, full participation, independent living, and economic self-sufficiency for such individuals; and

(8) the continuing existence of unfair and unnecessary discrimination and prejudice denies people with disabilities the opportunity to compete on an equal basis and to pursue those opportunities for which our free society is justifiably famous, and costs the United States billions of dollars in unnecessary expenses resulting from dependency and nonproductivity.

(b) Purpose

It is the purpose of this chapter—

(1) to provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities;

(2) to provide clear, strong, consistent, enforceable standards addressing discrimination against individuals with disabilities;

(3) to ensure that the Federal Government plays a central role in enforcing the standards established in this chapter on behalf of individuals with disabilities; and

(4) to invoke the sweep of congressional authority, including the power to enforce the fourteenth amendment and to regulate commerce, in order to address the major areas of
discrimination faced day-to-day by people with disabilities.

L. 101–336 provided that: ‘‘This Act [enacting this chapter and section 225 of Title 47, Telegraphs, Telephones, and Radiotelegraphs, amending section 706 of Title 29, Labor, and sections 192, 221, and 611 of Title 47, and enacting provisions set out as notes under sections 12111, 12131, 12141, 12161, and 12181 of this title] may be cited as the ‘Americans with Disabilities Act of 1990.’’

FINNINGS AND PURPOSES OF PUB. L. 110–325
Pub. L. 110–325, § 2, Sept. 25, 2008, 122 Stat. 3553, provided that:

(a) FINDINGS.—Congress finds that—

(1) in enacting the Americans with Disabilities Act of 1990 (ADA) (42 U.S.C. 12101 et seq.), Congress intended that the Act ‘‘provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities’’ and provide broad coverage;

(2) in enacting the ADA, Congress recognized that physical and mental disabilities in no way diminish a person’s right to fully participate in all aspects of society, but that people with physical or mental disabilities are frequently precluded from doing so because of prejudice, antiquated attitudes, or the failure to remove societal and institutional barriers;

(3) while Congress expected that the definition of disability under the ADA would be interpreted consistently with how courts had applied the definition of a handicapped individual under the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.], that expectation has not been fulfilled;

(4) the holdings of the Supreme Court in Sutton v. United Air Lines, Inc., 527 U.S. 471 (1999) and its companion cases have narrowed the broad scope of protection intended to be afforded by the ADA, thus eliminating protection for many individuals whom Congress intended to protect;

(5) the holding of the Supreme Court in Toyota Motor Manufacturing, Kentucky, Inc. v. Williams, 534 U.S. 184 (2002) further narrowed the broad scope of protection intended to be afforded by the ADA;

(6) as a result of these Supreme Court cases, lower courts have incorrectly found in individual cases that people with a range of substantially limiting impairments are not people with disabilities;

(7) in particular, Supreme Court in the case of Toyota Motor Manufacturing, Kentucky, Inc. v. Williams, 534 U.S. 184 (2002), interpreted the term ‘substantially limits’ to require a greater degree of limitation than was intended by Congress; and

(8) Congress finds that the current Equal Employment Opportunity Commission ADA regulations defining the term ‘substantially limits’ as ‘significantly restricted’ are inconsistent with congressional intent, by expressing too high a standard.

(b) PURPOSES.—The purposes of this Act (see Short Title of 2008 Amendment note above) are—

(1) to carry out the ADA’s objectives of providing ‘‘a clear and comprehensive national mandate for the elimination of discrimination’’ and ‘‘clear, strong, consistent, enforceable standards addressing discrimination’’ by reinstating a broad scope of protection to be available under the ADA;

(2) to reject the requirement enunciated by the Supreme Court in Sutton v. United Air Lines, Inc., 527 U.S. 471 (1999) and its companion cases that whether an impairment substantially limits a major life activity is to be determined with reference to the ameliorative effects of mitigating measures;

(3) to reject the Supreme Court’s reasoning in Sutton v. United Air Lines, Inc., 527 U.S. 471 (1999) with regard to coverage under the third prong of the definition of disability and to reinstate the reasoning of the Supreme Court in School Board of Nassau County v. Arline, 491 U.S. 338 (1989) which set forth a broad view of the third prong of the definition of handicap under the Rehabilitation Act of 1973;

(4) to reject the standards created by the Supreme Court in the case of Toyota Motor Manufacturing, Kentucky, Inc. v. Williams, 534 U.S. 184 (2002), that the term ‘substantially’ and ‘major’ in the definition of disability under the ADA ‘‘need to be interpreted strictly to create a demanding standard for qualifying as disabled’’, and that to be substantially limited in performing a major life activity under the ADA ‘‘an individual must have an impairment that prevents or severely restricts the individual from doing activities that are of central importance to most people’s daily lives’’;

(5) to convey congressional intent that the standard created by the Supreme Court in the case of Toyota Motor Manufacturing, Kentucky, Inc. v. Williams, 534 U.S. 184 (2002) for ‘substantially limits’ and applied by lower courts in numerous decisions, has created an inappropriately high level of limitation necessary to obtain coverage under the ADA, to convey that it is the intent of Congress that the primary object of attention in cases brought under the ADA should be whether entities covered under the ADA have complied with their obligations, and to convey that the question of whether an individual’s impairment is a disability under the ADA should not demand extensive analysis; and

(6) to express Congress’ expectation that the Equal Employment Opportunity Commission will revise that portion of its current regulations that defines the term ‘substantially limited’ as ‘significantly restricted’ to be consistent with this Act, including the amendments made by this Act.’’

§ 12101
STUDY BY GENERAL ACCOUNTING OFFICE OF EXISTING DISABILITY-RELATED EMPLOYMENT INCENTIVES

Pub. L. 106–170, title III, §303(a), Dec. 17, 1999, 113 Stat. 1063, provided that, as soon as practicable after Dec. 17, 1999, the Comptroller General was to undertake a study to assess existing tax credits and other disability-related employment incentives under the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and other Federal laws, specifically addressing the extent to which such credits and other incentives would encourage employers to hire and retain individuals with disabilities; and that, not later than 3 years after Dec. 17, 1999, the Comptroller General was to transmit to the appropriate congressional committees a written report presenting the results of the study and any appropriate recommendations for legislative or administrative changes.

§ 12102. Definition of disability

As used in this chapter:

(1) Disability
The term “disability” means, with respect to an individual—

(A) a physical or mental impairment that substantially limits one or more major life activities of such individual;

(B) a record of such an impairment; or

(C) being regarded as having such an impairment (as described in paragraph (3)).

(2) Major life activities

(A) In general
For purposes of paragraph (1), major life activities include, but are not limited to, caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

(B) Major bodily functions
For purposes of paragraph (1), a major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

(3) Regarded as having such an impairment
For purposes of paragraph (1)(C):

(A) An individual meets the requirement of “being regarded as having such an impairment” if the individual establishes that he or she has been subjected to an action prohibited under this chapter because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.

(B) Paragraph (1)(C) shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment with an actual or expected duration of 6 months or less.

(4) Rules of construction regarding the definition of disability
The definition of “disability” in paragraph (1) shall be construed in accordance with the following:

(A) The definition of disability in this chapter shall be construed in favor of broad coverage of individuals under this chapter, to the maximum extent permitted by the terms of this chapter.

(B) The term “substantially limits” shall be interpreted consistently with the findings and purposes of the ADA Amendments Act of 2008.

(C) An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability.

(D) An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

(E)(i) The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures such as—

(I) medication, medical supplies, equipment, or appliances, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy equipment and supplies;

(II) use of assistive technology;

(III) reasonable accommodations or auxiliary aids or services; or

(IV) learned behavioral or adaptive neurological modifications.

(ii) The ameliorative effects of the mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity.

(iii) As used in this subparagraph—

(I) the term “ordinary eyeglasses or contact lenses” means lenses that are intended to fully correct visual acuity or eliminate refractive error; and

(II) the term “low-vision devices” means devices that magnify, enhance, or otherwise augment a visual image.

(b) EXCEPTION.—Section 204 [section 12134 of this title] shall become effective on the date of enactment of this Act.

EX. ORD. No. 13217, COMMUNITY-BASED ALTERNATIVES FOR INDIVIDUALS WITH DISABILITIES

Ex. Ord. No. 13217, June 18, 2001, 66 F.R. 33155, provided:

1 See References in Text note below.
By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to place qualified individuals with disabilities in community settings whenever appropriate, it is hereby ordered as follows:

SECTION 1. Policy. This order is issued consistent with the following findings and principles:

(a) The United States is committed to community-based alternatives for individuals with disabilities and recognizes that such services advance the best interests of Americans.

(b) The United States seeks to ensure that America's community-based programs effectively foster independence and participation in the community for Americans with disabilities.

(c) Unjustified isolation or segregation of qualified individuals with disabilities through institutionalization is a form of disability-based discrimination prohibited by Title II of the Americans With Disabilities Act of 1990 (ADA), 42 U.S.C. 12131 (12131 et seq.). States must avoid disability-based discrimination unless doing so would fundamentally alter the nature of the service, program, or activity provided by the State.

(d) In Olmstead v. L.C., 527 U.S. 581 (1999) (the "Olmstead decision"), the Supreme Court construed Title II of the ADA (42 U.S.C. 12131 et seq.) to require States to place qualified individuals with mental disabilities in community settings, rather than in institutions, whenever treatment professionals determine that such placement is appropriate, the affected persons do not oppose such placement, and the State can reasonably accommodate the placement, taking into account the resources available to the State and the needs of others with disabilities.

(e) The Federal Government must assist States and localities to implement swiftly the Olmstead decision, so as to help ensure that all Americans have the opportunity to live close to their families and friends, to live more independently, to engage in productive employment, and to participate in community life.

Sic. 2. Swift Implementation of the Olmstead Decision: Agency Responsibilities. (a) The Attorney General, the Secretaries of Health and Human Services, Education, Labor, and Housing and Urban Development, and the Commissioner of the Social Security Administration shall work cooperatively to ensure that the Olmstead decision is implemented in a timely manner. Specifically, the designated agencies should work with States to help them assess their compliance with the Olmstead decision and the ADA (42 U.S.C. 12101 et seq.) in providing services to qualified individuals with disabilities in community-based settings, as long as such services are appropriate to the needs of those individuals. These agencies should provide technical guidance and work cooperatively with States to achieve the goals of Title II of the ADA (42 U.S.C. 12131 et seq.), particularly where States have chosen to develop comprehensive, effective working plans to provide services to qualified individuals with disabilities in the most integrated settings. These agencies should also ensure that existing Federal resources are used in the most effective manner to support the goals of the ADA. The Secretary of Health and Human Services shall take the lead in coordinating these efforts.

(b) The Attorney General, the Secretaries of Health and Human Services, Education, Labor, and Housing and Urban Development, and the Commissioner of the Social Security Administration shall evaluate the policies, programs, statutes, and regulations of their respective agencies to determine whether any should be revised or modified to improve the availability of community-based services for qualified individuals with disabilities. The review shall focus on identifying affected populations, improving the flow of information about supports in the community, and removing barriers that impede opportunities for community placement. The review should ensure the involvement of consumers, advocacy organizations, providers, and relevant agency representatives. Each agency head should report to the President, through the Secretary of Health and Human Services, with the results of their evaluation within 120 days.

(c) The Attorney General and the Secretary of Health and Human Services shall fully enforce Title II of the ADA, including investigating and resolving complaints filed on behalf of individuals who allege that they have been the victims of unjustified institutionalization. Whenever possible, the Department of Justice and the Department of Health and Human Services should work cooperatively with States to resolve these complaints, and should use alternative dispute resolution to bring these complaints to a quick and constructive resolution.

(d) The agency actions directed by this order shall be done consistent with this Administration's budget.

Sic. 3. Judicial Review. Nothing in this order shall affect any otherwise available judicial review of agency action. This order is intended only to improve the internal management of the Federal Government and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

GEORGE W. BUSH.

§ 12132. Discrimination

Subject to the provisions of this subchapter, no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity.

§ 12133. Enforcement

The remedies, procedures, and rights set forth in section 794a of title 29 shall be the remedies, procedures, and rights this subchapter provides to any person alleging discrimination on the basis of disability in violation of section 12132 of this title.

§ 12134. Regulations

(a) In general

Not later than 1 year after July 26, 1990, the Attorney General shall promulgate regulations in an accessible format that implement this part. Such regulations shall not include any matter within the scope of the authority of the Secretary of Transportation under section 12143, 12149, or 12164 of this title.

(b) Relationship to other regulations

Except for "program accessibility, existing facilities", and "communications", regulations under subsection (a) of this section shall be consistent with this chapter and with the coordination regulations under part 41 of title 28, Code of Federal Regulations (as promulgated by the Department of Health, Education, and Welfare on January 13, 1978), applicable to recipients of Federal financial assistance under section 794 of title 28. With respect to "program accessibility, existing facilities", and "communications", such regulations shall be consistent with regulations and analysis as in part 39 of title 28 of the Code of Federal Regulations, applicable to federally conducted activities under section 794 of title 29.
§ 12141. Definitions

As used in this subpart:

(1) Demand responsive system

The term “demand responsive system” means any system of providing designated public transportation which is not a fixed route system.

(2) Designated public transportation

The term “designated public transportation” means transportation (other than public school transportation) by bus, rail, or any other conveyance (other than transportation by aircraft or intercity or commuter rail transportation (as defined in section 12161 of this title)) that provides the general public with general or special service (including charter service) on a regular and continuing basis.

(3) Fixed route system

The term “fixed route system” means a system of providing designated public transportation on which a vehicle is operated along a prescribed route according to a fixed schedule.

(4) Operates

The term “operates”, as used with respect to a fixed route system or demand responsive system, includes operation of such system by a person under a contractual or other arrangement or relationship with a public entity.

(5) Public school transportation

The term “public school transportation” means transportation by schoolbus vehicles of schoolchildren, personnel, and equipment to and from a public elementary or secondary school and school-related activities.

§ 12142. Public entities operating fixed route systems

(a) Purchase and lease of new vehicles

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system to purchase or lease a new bus, a new rapid rail vehicle, a new light rail vehicle, or any other new vehicle to be used on such system, if the solicitation for such purchase or lease is made after the 30th day following July 26, 1990, and if such bus, rail vehicle, or other vehicle is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) Purchase and lease of used vehicles

Subject to subsection (c)(1) of this section, it shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system to purchase or lease, after the 30th day following July 26, 1990, a used vehicle for use on such system unless such entity makes demonstrated good faith efforts to purchase or lease a used vehicle for use on such system that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Remanufactured vehicles

(1) General rule

Except as provided in paragraph (2), it shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system—

(A) to remanufacture a vehicle for use on such system so as to extend its usable life for 5 years or more, which remanufacture begins (or for which the solicitation is made) after the 30th day following July 26, 1990; or

(B) to purchase or lease for use on such system a remanufactured vehicle which has been remanufactured so as to extend its usable life for 5 years or more, which purchase or lease occurs after such 30th day and during the period in which the usable life is extended;

unless, after remanufacture, the vehicle is, to the maximum extent feasible, readily accessible to and usable by individuals with disabili-
erly, including individuals who use wheelchairs.

(2) Exception for historic vehicles

(A) General rule

If a public entity operates a fixed route system any segment of which is included on the National Register of Historic Places and if making a vehicle of historic character to be used solely on such segment readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of paragraph (1) and which do not significantly alter the historic character of such vehicle.

(B) Vehicles of historic character defined by regulations

For purposes of this paragraph and section 12148(b) of this title, a vehicle of historic character shall be defined by the regulations issued by the Secretary to carry out this subsection.

Effective Date

Section effective July 26, 1990, see section 231(b) of Pub. L. 101–336, set out as a note under section 12141 of this title.

§ 12143. Paratransit as a complement to fixed route service

(a) General rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system (other than a system which provides solely commuter bus service) to fail to provide with respect to the operations of its fixed route system, in accordance with this section, paratransit and other special transportation services to individuals with disabilities, including individuals who use wheelchairs, that are sufficient to provide to such individuals a level of service (1) which is comparable to the level of designated public transportation services provided to individuals without disabilities using such system; or (2) in the case of response time, which is comparable, to the extent practicable, to the level of designated public transportation services provided to individuals without disabilities using such system.

(b) Issuance of regulations

Not later than 1 year after July 26, 1990, the Secretary shall issue final regulations to carry out this section.

(c) Required contents of regulations

(1) Eligible recipients of service

The regulations issued under this section shall require each public entity which operates a fixed route system to provide the paratransit and other special transportation services required under this section—

(A)(i) to any individual with a disability who is unable, as a result of a physical or mental impairment (including a vision impairment) and without the assistance of another individual (except an operator of a wheelchair lift or other boarding assistance device), to board, ride, or disembark from any vehicle on the system which is readily accessible to and usable by individuals with disabilities;

(ii) to any individual with a disability who needs the assistance of a wheelchair lift or other boarding assistance device (and is able with such assistance) to board, ride, and disembark from any vehicle which is readily accessible to and usable by individuals with disabilities if the individual wants to travel on a route on the system during the hours of operation of the system at a time (or within a reasonable period of such time) when such a vehicle is not being used to provide designated public transportation on the route; and

(iii) to any individual with a disability who has a specific impairment-related condition which prevents such individual from traveling to a boarding location or from a disembarking location on such system;

(B) to one other individual accompanying the individual with the disability;

(C) to other individuals, in addition to the one individual described in subparagraph (B), accompanying the individual with a disability provided that space for these additional individuals is available on the paratransit vehicle carrying the individual with a disability and that the transportation of such additional individuals will not result in a denial of service to individuals with disabilities.

For purposes of clauses (i) and (ii) of subparagraph (A), boarding or disembarking from a vehicle does not include travel to the boarding location or from the disembarking location.

(2) Service area

The regulations issued under this section shall require the provision of paratransit and special transportation services required under this section in the service area of each public entity which operates a fixed route system, other than any portion of the service area in which the public entity solely provides commuter bus service.

(3) Service criteria

Subject to paragraphs (1) and (2), the regulations issued under this section shall establish minimum service criteria for determining the level of services to be required under this section.

(4) Undue financial burden limitation

The regulations issued under this section shall provide that, if the public entity is able to demonstrate to the satisfaction of the Secretary that the provision of paratransit and other special transportation services otherwise required under this section would impose an undue financial burden on the public entity, the public entity, notwithstanding any other provision of this section (other than paragraph (5)), shall only be required to provide such services to the extent that providing such services would not impose such a burden.
§ 12144. Public entity operating a demand responsive system

If a public entity operates a demand responsive system, it shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, for such entity to purchase or lease a new vehicle for use on such system, for which a solicitation is made after the 30th day following July 26, 1990, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless such system, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service such system provides to individuals without disabilities.

§ 12145. Temporary relief where lifts are unavailable

(a) Granting

With respect to the purchase of new buses, a public entity may apply for, and the Secretary may temporarily relieve such public entity from the obligation under section 12142(a) or 12144 of this title to purchase new buses that are readily accessible to and usable by individuals with disabilities if such public entity demonstrates to the satisfaction of the Secretary—

(1) that the initial solicitation for new buses made by the public entity specified that all new buses were to be lift-equipped and were to be otherwise accessible to and usable by individuals with disabilities;

(2) the unavailability from any qualified manufacturer of hydraulic, electromechanical, or other lifts for such new buses;

(3) that the public entity seeking temporary relief has made good faith efforts to locate a qualified manufacturer to supply the lifts to the manufacturer of such buses in sufficient time to comply with such solicitation; and

(4) that any further delay in purchasing new buses necessary to obtain such lifts would significantly impair transportation services in the community served by the public entity.

(b) Duration and notice to Congress

Any relief granted under subsection (a) of this section shall be limited in duration by a specified date, and the appropriate committees of Congress shall be notified of any such relief granted.

(c) Fraudulent application

If, at any time, the Secretary has reasonable cause to believe that any relief granted under subsection (a) of this section was fraudulently applied for, the Secretary shall—

(1) cancel such relief if such relief is still in effect; and

(2) take such other action as the Secretary considers appropriate.

§ 12146. New facilities

For purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity to construct a new facility to be used in the provision of designated public transportation services unless such facility is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

§ 12147. Alterations of existing facilities

(a) General rule

With respect to alterations of an existing facility or part thereof used in the provision of designated public transportation services that affect or could affect the usability of the facility or part thereof, it shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, for a public entity to fail to make such alterations (or to ensure that the alterations are made) in such a manner that, to the maximum extent feasible, the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon the completion of such alterations. Where the public entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(b) Special rule for stations

(1) General rule

For purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity that provides designated public transportation to fail, in accordance with the provisions of this subsection, to make key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(2) Rapid rail and light rail key stations

(A) Accessibility

Except as otherwise provided in this paragraph, all key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 3-year period beginning on July 26, 1990.

(B) Extension for extraordinarily expensive structural changes

The Secretary may extend the 3-year period under subparagraph (A) up to a 30-year period for key stations in a rapid rail or
light rail system which stations need extraordinarily expensive structural changes to, or replacement of, existing facilities; except that by the last day of the 20th year following July 26, 1990, at least % of such key stations must be readily accessible to and usable by individuals with disabilities.

(3) Plans and milestones

The Secretary shall require the appropriate public entity to develop and submit to the Secretary a plan for compliance with this subsection—

(A) that reflects consultation with individuals with disabilities affected by such plan and the results of a public hearing and public comments on such plan, and

(B) that establishes milestones for achievement of the requirements of this subsection.

**Effective Date**

Subsec. (a) of this section effective 18 months after July 26, 1990, and subsec. (b) of this section effective July 26, 1990, see section 231 of Pub. L. 101–336, set out as a note under section 12141 of this title.

§ 12148. Public transportation programs and activities in existing facilities and one car per train rule

(a) Public transportation programs and activities in existing facilities

(1) In general

With respect to existing facilities used in the provision of designated public transportation services, it shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, for a public entity to fail to operate a designated public transportation program or activity conducted in such facilities so that, when viewed in the entirety, the program or activity is readily accessible to and usable by individuals with disabilities.

(2) Exception

Paragraph (1) shall not require a public entity to make structural changes to existing facilities in order to make such facilities accessible to individuals who use wheelchairs, unless and to the extent required by section 12147(a) of this title (relating to alterations) or section 12147(b) of this title (relating to key stations).

(3) Utilization

Paragraph (1) shall not require a public entity to which paragraph (2) applies, to provide to individuals who use wheelchairs services made available to the general public at such facilities when such individuals could not utilize or benefit from such services provided at such facilities.

(b) One car per train rule

(1) General rule

Subject to paragraph (2), with respect to 2 or more vehicles operated as a train by a light or rapid rail system, for purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity to fail to have at least 1 vehicle per train that is accessible to individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 5-year period beginning on the effective date of this section.

(2) Historic trains

In order to comply with paragraph (1) with respect to the remanufacture of a vehicle of historic character which is to be used on a segment of a light or rapid rail system which is included on the National Register of Historic Places, if making such vehicle readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity which operates such system only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of section 12142(c)(1) of this title and which do not significantly alter the historic character of such vehicle.

If final regulations have not been issued pursuant to section 12149 of this title, for new con-
struction or alterations for which a valid and appropriate State or local building permit is obtained prior to the issuance of final regulations under such section, and for which the construction or alteration authorized by such permit begins within one year of the receipt of such permit and is completed under the terms of such permit, compliance with the Uniform Federal Accessibility Standards in effect at the time the building permit is issued shall suffice to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities as required under sections 12146 and 12147 of this title, except that, if such final regulations have not been issued one year after the Architectural and Transportation Barriers Compliance Board has issued the supplemental minimum guidelines required under section 12204(a) of this title, compliance with such supplemental minimum guidelines shall be necessary to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities prior to issuance of the final regulations.

(D) Other accessibility features

Single-level rail passenger coaches and food service cars on which the spaces required by subparagraph (A) are located shall have a restroom usable by an individual who uses a wheelchair and shall be able to be entered from the station platform by an individual who uses a wheelchair.

(3) Accessibility of single-level coaches

(A) General rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person who provides intercity rail transportation to fail to have
(III) space to park and secure a wheelchair is available in the dining car at the time such passenger wishes to eat (if such passenger wishes to remain in a wheelchair), or space to store and fold a wheelchair is available in the dining car at the time such passenger wishes to eat (if such passenger wishes to transfer to a dining car seat); and

(ii) appropriate auxiliary aids and services, including a hard surface on which to eat, shall be provided to ensure that other equivalent food service is available to individuals with disabilities, including individuals who use wheelchairs, and to passengers traveling with such individuals.

Unless not practicable, a person providing intercity rail transportation shall place an accessible car adjacent to the end of a dining car described in clause (i) through which an individual who uses a wheelchair may enter.

(B) Bi-level dining cars

On any train in which a bi-level dining car is used to provide food service—

(i) if such train includes a bi-level lounge car purchased after July 26, 1990, table service in such lounge car shall be provided to individuals who use wheelchairs and to other passengers; and

(ii) appropriate auxiliary aids and services, including a hard surface on which to eat, shall be provided to ensure that other equivalent food service is available to individuals with disabilities, including individuals who use wheelchairs, and to passengers traveling with such individuals.

(b) Commuter rail transportation

(1) One car per train rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to purchase or lease a used rail passenger car for use in intercity or commuter rail transportation unless such car was remanufactured in accordance with regulations issued under section 12164 of this title.

(2) Purchase or lease

(a) Remanufacturing

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to remanufacture a rail passenger car for use in intercity or commuter rail transportation so as to extend its usable life for 10 years or more, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation, in regulations issued under section 12164 of this title.

(b) Bi-level dining cars

(1) One car per train rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to purchase or lease any new rail passenger cars for use in commuter rail transportation, and for which a solicitation is made later than 30 days after July 26, 1990, unless all such rail cars are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(2) Accessibility

For purposes of section 12132 of this title and section 794 of title 29, a requirement that a rail passenger car used in commuter rail transportation be accessible to or readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, shall not be construed to require—

(i) a restroom usable by an individual who uses a wheelchair if no restroom is provided in such car for any passenger;

(ii) space to fold and store a wheelchair; or

(iii) a seat to which a passenger who uses a wheelchair can transfer.

(c) Used rail cars

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to purchase or lease a used rail passenger car for use in intercity or commuter rail transportation, unless such person makes demonstrated good faith efforts to purchase or lease a used rail car that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(d) Remanufactured rail cars

(1) Remanufacturing

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to remanufacture a rail passenger car for use in intercity or commuter rail transportation so as to extend its usable life for 10 years or more, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(2) Purchase or lease

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to purchase or lease a remanufactured rail passenger car for use in intercity or commuter rail transportation unless such car was remanufactured in accordance with paragraph (1).

(e) Stations

(1) New stations

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to build a new station for use in intercity or commuter rail transportation that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(2) Existing stations

(A) Failure to make readily accessible

(i) General rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a responsible per-
concluded to fail to make existing stations in the intercity rail transportation system, and existing key stations in commuter rail transportation systems, readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable, but in no event later than 20 years after July 26, 1990.

(ii) Period for compliance

(I) Intercity rail

All stations in the intercity rail transportation system shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable, but in no event later than 3 years after July 26, 1990, except that the time limit may be extended by the Secretary of Transportation up to 20 years after July 26, 1990, in a case where the raising of the entire passenger platform is the only means available of attaining accessibility or where other extraordinarily expensive structural changes are necessary to attain accessibility.

(ii) Commuter rail

Key stations in commuter rail transportation systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than 3 years after July 26, 1990, except that the time limit may be extended by the Secretary of Transportation up to 20 years after July 26, 1990, in a case where the raising of the entire passenger platform is the only means available of attaining accessibility or where other extraordinarily expensive structural changes are necessary to attain accessibility.

(iii) Designation of key stations

Each commuter authority shall designate the key stations in its commuter rail transportation system, in consultation with individuals with disabilities and organizations representing such individuals, taking into consideration such factors as high ridership and whether such station serves as a transfer or feeder station. Before the final designation of key stations under this clause, a commuter authority shall hold a public hearing.

(iv) Plans and milestones

The Secretary of Transportation shall require the appropriate person to develop a plan for carrying out this subparagraph that reflects consultation with individuals with disabilities affected by such plan and that establishes milestones for achievement of the requirements of this subparagraph.

(B) Requirement when making alterations

(i) General rule

It shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, with respect to alterations of an existing station or part thereof in the intercity or commuter rail transportation systems that affect or could affect the usability of the station or part thereof, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the altered portions of the station are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations.

(ii) Alterations to a primary function area

It shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, with respect to alterations that affect or could affect the usability of or access to an area of the station containing a primary function, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area, and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(C) Required cooperation

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for an owner, or person in control, of a station governed by subparagraph (A) or (B) to fail to provide reasonable cooperation to a responsible person with respect to such station in that responsible person's efforts to comply with such subparagraph. An owner, or person in control, of a station shall be liable to a responsible person for any failure to provide reasonable cooperation as required by this subparagraph. Failure to receive reasonable cooperation required by this subparagraph shall not be a defense to a claim of discrimination under this chapter.

(b) Construction

(1) General prohibition

(A) Activities

(i) Denial of participation

It shall be discriminatory to subject an individual or class of individuals on the...
basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements, to a denial of the opportunity of the individual or class to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodations of an entity.

(ii) Participation in unequal benefit

It shall be discriminatory to afford an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with the opportunity to participate in or benefit from a good, service, facility, privilege, advantage, or accommodation that is not equal to that afforded to other individuals.

(iii) Separate benefit

It shall be discriminatory to provide an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with a good, service, facility, privilege, advantage, or accommodation that is different or separate from that provided to other individuals, unless such action is necessary to provide the individual or class of individuals with a good, service, facility, privilege, advantage, or accommodation, or other opportunity that is as effective as that provided to others.

(iv) Individual or class of individuals

For purposes of clauses (i) through (iii) of this subparagraph, the term “individual or class of individuals” refers to the clients or customers of the covered public accommodation that enters into the contractual, licensing or other arrangement.

(B) Integrated settings

Goods, services, facilities, privileges, advantages, and accommodations shall be afforded to an individual with a disability in the most integrated setting appropriate to the needs of the individual.

(C) Opportunity to participate

Notwithstanding the existence of separate or different programs or activities provided in accordance with this section, an individual with a disability shall not be denied the opportunity to participate in such programs or activities that are not separate or different.

(D) Administrative methods

An individual or entity shall not, directly or through contractual or other arrangements, utilize standards or criteria or methods of administration—

(i) that have the effect of discriminating on the basis of disability; or

(ii) that perpetuate the discrimination of others who are subject to common administrative control.

(E) Association

It shall be discriminatory to exclude or otherwise deny equal goods, services, facilities, privileges, advantages, accommodations, or other opportunities to an individual or entity because of the known disability of an individual with whom the individual or entity is known to have a relationship or association.

(2) Specific prohibitions

(A) Discrimination

For purposes of subsection (a) of this section, discrimination includes—

(i) the imposition or application of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully and equally enjoying any goods, services, facilities, privileges, advantages, or accommodations, unless such criteria can be shown to be necessary for the provision of the goods, services, facilities, privileges, advantages, or accommodations being offered;

(ii) a failure to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford such goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such goods, services, facilities, privileges, advantages, or accommodations;

(iii) a failure to take such steps as may be necessary to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently than other individuals because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the good, service, facility, privilege, advantage, or accommodation being offered or would result in an undue burden;

(iv) a failure to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities, and transportation barriers in existing vehicles and rail passenger cars used by an establishment for transporting individuals (not including barriers that can only be removed through the retrofitting of vehicles or rail passenger cars by the installation of a hydraulic or other lift), where such removal is readily achievable; and

(v) where an entity can demonstrate that the removal of a barrier under clause (iv) is not readily achievable, a failure to make such goods, services, facilities, privileges, advantages, or accommodations available through alternative methods if such methods are readily achievable.

(B) Fixed route system

(i) Accessibility

It shall be considered discrimination for a private entity which operates a fixed route system and which is not subject to section 12184 of this title to purchase or
lease a vehicle with a seating capacity in excess of 16 passengers (including the driver) for use on such system, for which a solicitation is made after the 30th day following the effective date of this subparagraph that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(ii) Equivalent service

If a private entity which operates a fixed route system and which is not subject to section 12184 of this title purchases or leases a vehicle with a seating capacity of 16 passengers or less (including the driver) for use on such system after the effective date of this subparagraph that is not readily accessible to or usable by individuals with disabilities, it shall be considered discrimination for such entity to fail to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities.

(C) Demand responsive system

For purposes of subsection (a) of this section, discrimination includes—

(i) a failure of a private entity which operates a demand responsive system and which is not subject to section 12184 of this title to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities; and

(ii) the purchase or lease by such entity for use on such system of a vehicle with a seating capacity in excess of 16 passengers (including the driver), for which solicitations are made after the 30th day following the effective date of this subparagraph, that is not readily accessible to and usable by individuals with disabilities (including individuals who use wheelchairs) unless such entity can demonstrate that such system, when viewed in its entirety, provides a level of service to individuals with disabilities equivalent to that provided to individuals without disabilities.

(D) Over-the-road buses

(i) Limitation on applicability

Subparagraphs (B) and (C) do not apply to over-the-road buses.

(ii) Accessibility requirements

For purposes of subsection (a) of this section, discrimination includes (I) the purchase or lease of an over-the-road bus which does not comply with the regulations issued under section 12186(a)(2) of this title by a private entity which provides transportation of individuals and which is not primarily engaged in the business of transporting people, and (II) any other failure of such entity to comply with such regulations.

(3) Specific construction

Nothing in this subchapter shall require an entity to permit an individual to participate in or benefit from the goods, services, facilities, privileges, advantages and accommodations of such entity where such individual poses a direct threat to the health or safety of others. The term “direct threat” means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures or by the provision of auxiliary aids or services.

§ 12184. Prohibition of discrimination in specified public transportation services provided by private entities

(a) General rule

No individual shall be discriminated against on the basis of disability in the full and equal enjoyment of specified public transportation services provided by a private entity that is primarily engaged in the business of transporting people and whose operations affect commerce.

(b) Construction

For purposes of subsection (a) of this section, discrimination includes—

(1) the imposition or application by a private entity described in subsection (a) of this section of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully enjoying the specified public transportation services provided by the entity, unless such criteria can be shown to be necessary for the provision of the services being offered;

(2) the failure of such entity to—

(7) the remanufacture by such entity of a rail passenger car that is to be used to provide specified public transportation so as to extend its usable life for 10 years or more, or the purchase or lease by such entity of such a rail car, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Historical or antiquated cars

(1) Exception

To the extent that compliance with subsection (b)(2)(C) or (b)(7) of this section would significantly alter the historic or antiquated character of a historical or antiquated rail passenger car, or a rail station served exclusively by such cars, or would result in violation of any rule, regulation, standard, or order issued by the Secretary of Transportation under the Federal Railroad Safety Act of 1970, such compliance shall not be required.

(2) Definition

As used in this subsection, the term “historical or antiquated rail passenger car” means a rail passenger car—

(A) which is not less than 30 years old at the time of its use for transporting individuals;

(B) the manufacturer of which is no longer in the business of manufacturing rail passenger cars; and

The Federal Railroad Safety Act of 1970, referred to in subsec. (c)(1), is title II of Pub. L. 91–438, Oct. 16, 1970, 84 Stat. 971, as amended, which was classified generally to subchapter II (§431 et seq.) of chapter 13 of Title 45, Railroads, and was repealed and reenacted in section 5109(c) of Title 5, Government Organization and Employees, section 54a of Title 45, Railroads, chapter 201 and sections 21301, 21302, 21304, 21311, 24902, and 24905 of Title 49, Transportation, and provisions set out as a note under section 20103 of Title 49 by Pub. § 12185. Study

(a) Purposes

The Office of Technology Assessment shall undertake a study to determine—

(1) the access needs of individuals with disabilities to over-the-road buses and over-the-road bus service; and

(2) the most cost-effective methods for providing access to over-the-road buses and over-the-road bus service to individuals with disabilities, particularly individuals who use wheelchairs, through all forms of boarding options.

(b) Contents

The study shall include, at a minimum, an analysis of the following:

(1) The anticipated demand by individuals with disabilities for accessible over-the-road buses and over-the-road bus service;

(2) The degree to which such buses and service, including any service required under sections 12184(b)(4) and 12186(a)(2) of this title, are readily accessible to and usable by individuals with disabilities.

(3) The effectiveness of various methods of providing accessibility to such buses and service to individuals with disabilities.

(4) The cost of providing accessible over-the-road buses and bus service to individuals with disabilities, including consideration of recent technological and cost saving developments in equipment and devices.

(5) Possible design changes in over-the-road buses that could enhance accessibility, including the installation of accessible restrooms which do not result in a loss of seating capacity.

(6) The impact of accessibility requirements on the continuation of over-the-road bus service, with particular consideration of the impact of such requirements on such service to rural communities.

(c) Advisory committee

In conducting the study required by subsection (a) of this section, the Office of Technology Assessment shall establish an advisory committee, which shall consist of—

(1) members selected from among private operators and manufacturers of over-the-road buses;

(2) members selected from among individuals with disabilities, particularly individuals who use wheelchairs, who are potential riders of such buses; and

(3) members selected for their technical expertise on issues included in the study, including manufacturers of boarding assistance equipment and devices.

The number of members selected under each of paragraphs (1) and (2) shall be equal, and the total number of members selected under paragraphs (1) and (2) shall exceed the number of members selected under paragraph (3).

(d) Deadline

The study required by subsection (a) of this section, along with recommendations by the Office of Technology Assessment, including any policy options for legislative action, shall be submitted to the President and Congress within 36 months after July 26, 1990. If the President determines that compliance with the regulations issued pursuant to section 12186(a)(2)(B) of this title on or before the applicable deadlines specified in section 12186(a)(2)(B) of this title will result in a significant reduction in intercity over-the-road bus service, the President shall extend each such deadline by 1 year.

(e) Review

In developing the study required by subsection (a) of this section, the Office of Technology Assessment shall provide a preliminary draft of such study to the Architectural and Transportation Barriers Compliance Board established under section 792 of title 29. The Board shall have an opportunity to comment on such draft study, and any such comments by the Board made in writing within 120 days after the Board’s receipt of the draft study shall be incorporated as part of the final study required to be submitted under subsection (d) of this section.

See section 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

(2) Special rules for providing access to over-the-road buses

(A) Interim requirements

(ii) Effective period

The regulations issued pursuant to this subparagraph shall be effective until the effective date of the regulations issued under subparagraph (B).

(B) Final requirement

(i) Review of study and interim requirements

The Secretary shall review the study submitted under section 12185 of this title and the regulations issued pursuant to subparagraph (A).

(ii) Issuance

Not later than 1 year after the date of the submission of the study under section 12185 of this title, the Secretary shall issue in an accessible format new regulations to carry out sections 12182(b)(4) and 12182(b)(2)(D)(ii) of this title that require, taking into account the purposes of the study under section 12185 of this title and any recommendations resulting from such study, each private entity which uses an over-the-road bus to provide transportation to individuals to provide accessibility to such bus to individuals with disabilities, including individuals who use wheelchairs.

(iii) Effective period

Subject to section 12185(d) of this title, the regulations issued pursuant to this subparagraph shall take effect—

(I) with respect to small providers of transportation (as defined by the Secretary), 3 years after the date of issuance of final regulations under clause (ii); and

(II) with respect to other providers of transportation, 2 years after the date of issuance of such final regulations.

(C) Limitation on requiring installation of accessible restrooms

(3) Standards

The regulations issued pursuant to this subsection shall include standards applicable to facilities and vehicles covered by sections 12182(b)(2) and 12184 of this title.

(b) Other provisions

Not later than 1 year after July 26, 1990, the Attorney General shall issue regulations in an accessible format to carry out the provisions of this subchapter not referred to in subsection (a) of this section that include standards applicable to facilities and vehicles covered under section 12182 of this title.

(d) Interim accessibility standards

(1) Facilities

If final regulations have not been issued pursuant to this section, for new construction or alterations for which a valid and appropriate State or local building permit is obtained prior to the issuance of final regulations under this section, and for which the construction or alteration authorized by such permit begins within one year of the receipt of such permit and is completed under the terms of such permit, compliance with the Uniform Federal Accessibility Standards in effect at the time the building permit is issued shall suffice to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities as required under section 12183 of this title, except that, if such final regulations have not been issued one year after the Architectural and Transportation Barriers Compliance Board has issued the supplemental minimum guidelines required under section 12204(a) of this title, compliance with such supplemental minimum guidelines shall be necessary to satisfy the requirement that facilities be readily accessible to and usable by persons.

with disabilities prior to issuance of the final regulations.

(2) Vehicles and rail passenger cars

If final regulations have not been issued pursuant to this section, a private entity shall be considered to have complied with the requirements of this subchapter, if any, that a vehicle or rail passenger car can be readily accessible to and usable by individuals with disabilities, if the design for such vehicle or car complies with the laws and regulations (including the Minimum Guidelines and Requirements for Accessible Design and such supplemental minimum guidelines as are issued under section 12204(a) of this title) governing accessibility of such vehicles or cars, to the extent that such laws and regulations are not inconsistent with this subchapter and are in effect at the time such design is substantially completed.

§ 12188. Enforcement

(a) In general

(1) Availability of remedies and procedures

The remedies and procedures set forth in section 2000a–3(a) of this title are the remedies and procedures this subchapter provides to any person who is being subjected to discrimination on the basis of disability in violation of this subchapter or who has reasonable grounds for believing that such person is about to be subjected to discrimination in violation of section 12183 of this title. Nothing in this section shall require a person with a disability to engage in a futile gesture if such person has actual notice that a person or organization covered by this subchapter does not intend to comply with its provisions.

(2) Injunctive relief

In the case of violations of sections 12182(b)(2)(A)(iv) and section 12183(a) of this title, injunctive relief shall include an order to alter facilities to make such facilities readily accessible to and usable by individuals with disabilities to the extent required by this subchapter. Where appropriate, injunctive relief shall also include requiring the provision of an auxiliary aid or service, modification of a policy, or provision of alternative methods, to the extent required by this subchapter.

(b) Enforcement by Attorney General

(1) Denial of rights

(A) Duty to investigate

(i) In general

The Attorney General shall investigate alleged violations of this subchapter, and shall undertake periodic reviews of compliance of covered entities under this subchapter.

(ii) Attorney General certification

On the application of a State or local government, the Attorney General may, in consultation with the Architectural and Transportation Barriers Compliance Board, and after prior notice and a public hearing at which persons, including individuals with disabilities, are provided an opportunity to testify against such certification, certify that a State law or local building code or similar ordinance that establishes accessibility requirements meets or exceeds the minimum requirements of this chapter for the accessibility and usability of covered facilities under this subchapter. At any enforcement proceeding under this section, such certification by the Attorney General shall be rebuttable evidence that such State law or local ordinance does meet or exceed the minimum requirements of this chapter.

(B) Potential violation

If the Attorney General has reasonable cause to believe that—

(i) any person or group of persons is engaged in a pattern or practice of discrimination under this subchapter; or

(ii) any person or group of persons has been discriminated against under this subchapter and such discrimination raises an issue of general public importance, the Attorney General may commence a civil action in any appropriate United States district court.

1 So in original. The word ‘‘section’’ probably should not appear.
(2) Authority of court

In a civil action under paragraph (1)(B), the court—

(A) may grant any equitable relief that such court considers to be appropriate, including, to the extent required by this subchapter—
- (i) granting temporary, preliminary, or permanent relief;
- (ii) providing an auxiliary aid or service, modification of policy, practice, or procedure, or alternative method; and
- (iii) making facilities readily accessible to and usable by individuals with disabilities;

(B) may award such other relief as the court considers to be appropriate, including monetary damages to persons aggrieved when requested by the Attorney General; and

(C) may, to vindicate the public interest, assess a civil penalty against the entity in an amount—
- (i) not exceeding $50,000 for a first violation; and
- (ii) not exceeding $100,000 for any subsequent violation.

(3) Single violation

For purposes of paragraph (2)(C), in determining whether a first or subsequent violation has occurred, a determination in a single action, by judgment or settlement, that the covered entity has engaged in more than one discriminatory act shall be counted as a single violation.

(4) Punitive damages

For purposes of subsection (b)(2)(B) of this section, the term “monetary damages” and “such other relief” does not include punitive damages.

(5) Judicial consideration

In a civil action under paragraph (1)(B), the court, when considering what amount of civil penalty, if any, is appropriate, shall give consideration to any good faith effort or attempt to comply with this chapter by the entity. In evaluating good faith, the court shall consider, among other factors it deems relevant, whether the entity could have reasonably anticipated the need for an appropriate type of auxiliary aid needed to accommodate the unique needs of a particular individual with a disability.

h) Reasonable accommodations and modifications

A covered entity under subchapter I, a public entity under subchapter II, and any person who owns, leases (or leases to), or operates a place of public accommodation under subchapter III, need not provide a reasonable accommodation or a reasonable modification to policies, practices, or procedures to an individual who meets the definition of disability in section 12102(1) of this title solely under subparagraph (C) of such section.

§ 12501. Findings and purpose

(a) Findings

The Congress finds the following:

(1) Throughout the United States, there are pressing unmet human, educational, environmental, and public safety needs.

(2) Americans desire to affirm common responsibilities and shared values, and join together in positive experiences that transcend race, religion, gender, age, disability, region, income, and education.

(3) The rising costs of postsecondary education are putting higher education out of reach for an increasing number of citizens.

(4) Americans of all ages can improve their communities and become better citizens through service to the United States.

(5) Nonprofit organizations, local governments, States, and the Federal Government are already supporting a wide variety of national service programs that deliver needed services in a cost-effective manner.

(6) Residents of low-income communities, especially youth and young adults, can be empowered through their service, and can help provide future community leadership.

(b) Purpose

It is the purpose of this chapter to—

(1) meet the unmet human, educational, environmental, and public safety needs of the United States, without displacing existing workers;

(2) renew the ethic of civic responsibility and the spirit of community and service throughout the varied and diverse communities of the United States;

(3) expand educational opportunity by rewarding individuals who participate in national service with an increased ability to pursue higher education or job training;

(4) encourage citizens of the United States, regardless of age, income, geographic location, or disability, to engage in full-time or part-time national service;

(5) reinvent government to eliminate duplication, support locally established initiatives, require measurable goals for performance, and offer flexibility in meeting those goals;

(6) expand and strengthen existing national service programs with demonstrated experience in providing structured service opportunities with visible benefits to the participants and community;

(7) build on the existing organizational infrastructure of Federal, State, and local programs, agencies, and communities to expand full-time and part-time service opportunities for all citizens;

(8) provide tangible benefits to the communities in which national service is performed;

(9) expand and strengthen service-learning programs through year-round opportunities, including opportunities during the summer months, to improve the education of children and youth and to maximize the benefits of national and community service, in order to renew the ethic of civic responsibility and the spirit of community for children and youth throughout the United States;

(10) assist in coordinating and strengthening Federal and other service opportunities, including opportunities for participation in emergency and disaster preparedness, relief, and recovery;
(11) Increase service opportunities for the Nation’s retiring professionals, including such opportunities for those retiring from the science, technical, engineering, and mathematics professions, to improve the education of the Nation’s youth and keep America competitive in the global knowledge economy, and to further utilize the experience, knowledge, and skills of older individuals;

(12) encourage the continued service of the alumni of the national service programs, including service in times of national need;

(13) encourage individuals age 55 or older to partake of service opportunities;

(14) focus national service on the areas of national need such service has the capacity to address, such as improving education, increasing energy conservation, improving the health status of economically disadvantaged individuals, and improving economic opportunity for economically disadvantaged individuals;

(15) recognize and increase the impact of social entrepreneurs and other nonprofit community organizations in addressing national and local challenges;

(16) increase public and private investment in nonprofit community organizations that are effectively addressing national and local challenges and encourage such organizations to replicate and expand successful initiatives;

(17) leverage Federal investments to increase State, local, business, and philanthropic resources to address national and local challenges;

(18) support institutions of higher education that engage students in community service activities and provide high-quality service-learning opportunities; and

(19) recognize the expertise veterans can offer to national service programs, expand the participation of the veterans in the national service programs, and assist the families of veterans and members of the Armed Forces on active duty.

(1) In general

(A) Authority

From amounts appropriated for a fiscal year to provide financial assistance under the national service laws, the Corporation may provide assistance in the form of fixed-amount grants in an amount determined by the Corporation under paragraph (2) rather than on the basis of actual costs incurred by a program.

(B) Limitation

Other than fixed-amount grants to support programs described in section 12581a of this title, for the 1-year period beginning on the effective date of the Serve America Act, the Corporation may provide assistance in the form of fixed-amount grants to programs that only offer full-time positions.

(2) Determination of amount of fixed-amount grants

A fixed-amount grant authorized by this subsection shall be in an amount determined by the Corporation that is—

(A) significantly less than the reasonable and necessary costs of administering the program supported by the grant; and

(B) based on an amount per individual enrolled in the program receiving the grant, taking into account—

(i) the capacity of the entity carrying out the program to manage funds and achieve programmatic results;

(ii) the number of approved national service positions, approved silver scholar positions, or approved summer of service positions for the program, if applicable;

(iii) the proposed design of the program;

(iv) whether the program provides service to, or involves the participation of, disadvantaged youth or otherwise would reasonably incur a relatively higher level of costs; and

(v) such other factors as the Corporation may consider under section 12586 of this title in considering applications for assistance.

(3) Requirements for grant recipients

In awarding a fixed-amount grant under this subsection, the Corporation—

(A) shall require the grant recipient—

(i) to return a pro rata amount of the grant funds based upon the difference between the number of hours served by a participant and the minimum number of hours for completion of a term of service established by the Corporation;

(ii) to report on the program’s performance on standardized measures and performance levels established by the Corporation;

(iii) to cooperate with any evaluation activities undertaken by the Corporation; and

(iv) to provide assurances that additional funds will be raised in support of the program, in addition to those received under the national service laws; and

(B) may adopt other terms and conditions that the Corporation considers necessary or appropriate based on the relative risks (as determined by the Corporation) associated with any application for a fixed-amount grant.

(4) Other requirements not applicable

Limitations on administrative costs and matching fund documentation requirements shall not apply to fixed-amount grants provided in accordance with this subsection.

(5) Rule of construction

PROC. NO. 6662. TRANSFER OF FUNCTIONS OF ACTION AGENCY TO CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

PROC. NO. 6662, Apr. 4, 1994, 59 F.R. 16507, provided:

On September 21, 1993, I had the honor of signing into law the National and Community Service Trust Act of 1993 [Pub. L. 103-32, see Tables for classification], which created the Corporation for National and Community Service. The Corporation was designed to involve Americans of all ages and backgrounds in community projects to address many of our Nation's most important needs—from educating our children to ensuring public safety to protecting our environment. It was chartered to foster civic responsibility, strengthening the ties that bind us together as a people, while providing educational opportunity for those who make the commitment to serve.

In the few short months since the Corporation's establishment, enormous progress has been made toward the achievement of these invaluable goals. Final regulations have been published governing the Corporation's new grant programs, grant application packages have been developed, and a national recruitment effort has begun. As a result of intensive outreach efforts, most states have already established State Commissions on National and Community Service, and many local programs, national nonprofit organizations, institutions of higher education, and Federal agencies are eager to participate. Grant competitions have begun for a summer program that will focus on our Nation's public safety concerns, and all community service programs will be completed by this summer.

Finally, the Corporation has established the National Civilian Community Corps, which will take advantage of closed and down-sized military bases to launch environmental clean-up and preservation efforts.

The ACTION Agency, provided for by the Domestic Volunteer Service Act of 1973 [42 U.S.C. 4950 et seq.], has worked closely with the Corporation, sharing its many years of experience in engaging Americans in service to their communities. Because the Corporation's initiatives and those programs operated by the ACTION Agency involve similar goals, the National and Community Service Trust Act of 1993 [Pub. L. 103-32, see Tables for classification] calls for the merger of ACTION with the Corporation no later than March 22, 1995. To build upon the tremendous accomplishments already achieved by the Corporation, and to facilitate the further development of community service programs across the country, I am pleased to order that the functions of the Director of the ACTION AGENCY be transferred to the Corporation for National and Community Service.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including but not limited to sections 2233(c)(2) and (d)(1)(B) of the National and Community Service Trust Act of 1993 (see out above), proclaim that all functions of the Director of the ACTION Agency are hereby transferred to the Corporation for National and Community Service, effective April 4, 1994.

IN WITNESS WHEREOF, I have hereunto set my hand this fourth day of April, in the year of our Lord nineteen hundred and ninety-four, and of the Independence of the United States of America the two hundred and eighteenth.

WILLIAM J. CLINTON.

Review of a housing strategy by any Federal, State, or other court shall be limited to determining whether the process of development and the content of the strategy are in substantial compliance with the requirements of this Act. During the pendency of any action challenging the adequacy of a housing strategy or the action of the Secretary in approving a strategy, the court shall not have the authority to enjoin activities taken by the jurisdiction to implement an approved housing strategy. Any housing assisted during the pendency of such action shall not be subject to any order of the court resulting from such action.

§ 12709. Energy efficiency standards

(a) Establishment

(1) In general

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall, not later than September 30, 2006, jointly establish, by rule, energy efficiency standards for—

(A) new construction of public and assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1701 et seq.); and

(B) new construction of single family housing (other than manufactured homes) subject to mortgages insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1701 et seq.); and

(C) rehabilitation and new construction of public and assisted housing funded by HOPE VI revitalization grants under section 1437v of this title.

(2) Contents

Such standards shall meet or exceed the requirements of the 2006 International Energy Conservation Code (hereafter in this section referred to as “the 2006 IECC”), or, in the case of multifamily high rises, the requirements of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers Standard 90.1–2004 (hereafter in this section referred to as “ASHRAE Standard 90.1–2004”), and shall be cost-effective with respect to construction and operating costs on a life-cycle cost basis. In developing such standards, the Secretaries shall consult with an advisory task force composed of homebuilders, national, State, and local housing agencies (including public housing agencies), energy agencies, building code organizations and agencies, energy efficiency organizations, utility organizations, low-income housing organizations, and other parties designated by the Secretaries.

(b) International Energy Conservation Code

If the Secretaries have not, by September 30, 2006, established energy efficiency standards under subsection (a) of this section, all new construction and rehabilitation of housing pursuant to this subsection shall meet the requirements of the 2006 IECC, or, in the case of multifamily high rises, the requirements of ASHRAE Standard 90.1–2004.

(c) Revisions of the International Energy Conservation Code

If the requirements of the 2006 IECC, or, in the case of multifamily high rises, ASHRAE Standard 90.1–2004, are revised at any time, the Secretaries shall, not later than 1 year after such revision, amend the standards established under subsection (a) of this section to meet or exceed the requirements of such revised code or standard unless the Secretaries determine that compliance with such revised code or standard would not result in a significant increase in energy efficiency or would not be technologically feasible or economically justified.

(d) Failure to amend the standards

If the Secretary of Housing and Urban Development and the Secretary of Agriculture have not, within 1 year after the requirements of the 2006 IECC or the ASHRAE Standard 90.1–2004 are revised, amended the standards or made a deter-
mination under subsection (c), all new construction and rehabilitation of housing specified in subsection (a) shall meet the requirements of the revised code or standard if—

(1) the Secretary of Housing and Urban Development, or the Secretary of Agriculture make a determination that the revised codes do not negatively affect the availability or affordability of new construction of assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured under the National Housing Act (12 U.S.C. 1701 et seq.) or insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.), respectively; and

(2) the Secretary of Energy has made a determination under section 6833 of this title that the revised code or standard would improve energy efficiency.

SUBCHAPTER II—INVESTMENT IN AFFORDABLE HOUSING

§ 12721. Findings

The Congress finds that—

(1) the Nation has not made adequate progress toward the goal of national housing policy, as set out in the Housing Act of 1949 [42 U.S.C. 1441 et seq.] and reaffirmed in the Housing and Urban Development Act of 1968, which would provide decent, safe, sanitary, and affordable living environments for all Americans;

(2) the supply of affordable rental housing is diminishing;

(3) the Tax Reform Act of 1986 removed major tax incentives for the production of affordable rental housing;

(4) the living environments of an increasing number of Americans have deteriorated over the past several years as a result of reductions in Federal assistance to low-income and moderate-income families;

(5) many Americans face the possibility of homelessness unless Federal, State, and local governments work together with the private sector to develop and rehabilitate the housing stock of the Nation to provide decent, safe, sanitary, and affordable housing for very low-income and low-income families;

(6) reliable Federal leadership is needed to achieve an adequate supply of affordable housing for all Americans;

(7) to achieve the goal of national housing policy, there is a need to strengthen nationwide a cost-effective community-based housing partnership designed to—
(A) expand the supply of rental housing that is affordable to very low-income and low-income families;
(B) improve homeownership opportunities for low-income families;
(C) carry out comprehensive housing strategies tailored to local housing market conditions, and
(D) protect the Federal, State, and local investment in low-income housing to ensure affordability of the housing for the remaining useful life of the property;

(8) direct assistance to expand the supply of affordable rental housing should be provided in a way that is more cost-effective and targeted than tax incentives;

(9) much of the Nation’s housing system works very well and provides a strong base on which national housing policy should build;

(10) an increasing number of States and local governments have been successful in producing cost-effective low-income and moderate-income housing by working in partnership with the private sector, including nonprofit community development corporations, community action agencies, neighborhood housing services corporations, trade unions, groups sponsored by religious organizations, limited equity cooperatives, and other tenant organizations;

(11) during the 1980’s, nonprofit community housing development organizations, despite severe obstacles caused by inadequate funding, have played an increasingly important role in the production and rehabilitation of affordable housing in communities across the Nation;

(12) additional financial resources and technical skills must be made available in local communities if the Nation is to mobilize the capacity of the private sector, including nonprofit community housing development organizations, to provide a more adequate supply of decent, safe, and sanitary housing that is affordable to very low-income, low-income, and moderate-income families and meets the need for large family units and other additional units that are available to very low-income families receiving rental assistance payments from Federal, State, and local governments; and

(13) the long-term success of efforts to provide more affordable housing depends upon tenants and homeowners being fiscally responsible and able managers.

(6) to expand the capacity of nonprofit community housing development organizations to develop and manage decent, safe, sanitary, and affordable housing;

(7) to ensure that Federal investment produces housing stock that is available and affordable to low-income families for the property’s remaining useful life, is appropriate to the neighborhood surroundings, and, wherever appropriate, is mixed income housing;

(8) to increase the investment of private capital and the use of private sector resources in the provision of decent, safe, sanitary, and affordable housing;

(9) to allocate Federal funds for investment in affordable housing among participating jurisdictions by formula allocation;

(10) to leverage those funds insofar as practicable with State and local matching contributions and private investment;

§ 12742. Eligible uses of investment

(A) such rehabilitation is not the most cost effective way to meet the jurisdiction’s need to expand the supply of affordable housing; and

(B) the jurisdiction’s housing needs cannot be met through rehabilitation of the available stock.

The Secretary shall not restrict a participating jurisdiction’s choice of rehabilitation, substantial rehabilitation, new construction, reconstruction, acquisition, or other eligible housing use unless such restriction is explicitly authorized under section 12753(2) of this title.

(3) Tenant-based rental assistance

(ii) the tenant-based rental assistance is provided in accordance with written tenant selection policies and criteria that are consistent with the purposes of providing housing to very low- and low-income families and are reasonably related to preference rules established under section 1437d(c)(4)(A) of this title.

(B) Fair share not affected

A jurisdiction’s section 8 [42 U.S.C. 1437f] fair share allocation shall be unaffected by the use of assistance under this subchapter.

(C) 24-month contracts

Rental assistance contracts made available with assistance under this subchapter shall be for not more than 24 months, except that assistance to a family may be renewed.

(D) Use of section 1437f assistance

In any case where assistance under section 1437f of this title becomes available to a participating jurisdiction, recipients of rental assistance under this subchapter shall qualify for tenant selection preferences to the same extent as when they received the rental assistance under this subchapter. A rental assistance program under this subchapter shall meet minimum criteria prescribed by the Secretary, such as housing quality standards and standards regarding the reasonableness of the rent.

(E) Security deposit assistance

A jurisdiction using funds provided under this part for tenant-based rental assistance may use such funds to provide loans or grants to very low- and low-income families for security deposits for rental of dwelling units. Assistance under this subparagraph does not preclude assistance under any other provision of this paragraph.

(4) Redesignated

(5) Lead-based paint hazards

A participating jurisdiction may use funds provided under this part for the evaluation and reduction of lead-based paint hazards, as defined in section 4851b of this title.

(b) Investments

Participating jurisdictions shall have discretion to invest funds made available under this part as equity investments, interest-bearing loans or advances, noninterest-bearing loans or advances, interest subsidies or other forms of assistance that the Secretary has determined to be consistent with the purposes of this subchapter. Each participating jurisdiction shall have the right to establish the terms of assistance.

(1) Administrative costs

In each fiscal year, each participating jurisdiction may use not more than 10 percent of the funds made available under this part to the jurisdiction for such year for any administrative and planning costs of the jurisdiction in carrying out this part, including the costs of the salaries of persons engaged in administering and managing activities assisted with funds made available under this part.

(d) Prohibited uses

Funds made available under this part may not be used to—

(1) defray any administrative cost of a participating jurisdiction that exceed the amount specified under subsection (c) of this section,

(2) provide tenant-based rental assistance for the special purposes of the existing section 8 [42 U.S.C. 1437f] program, including replacing public housing that is demolished or disposed of, preserving federally assisted housing, assisting in the disposition of housing owned or held by the Secretary, preventing displacement from rental rehabilitation projects, or extending or renewing tenant-based assistance under section 1437f of this title,

(3) provide non-Federal matching contributions required under any other Federal program,

(4) provide assistance authorized under section 1437g of this title,

(e) Cost limits

(1) In general

The Secretary shall establish limits on the amount of funds under this part that may be invested on a per unit basis. For multifamily housing, such limits shall not be less than the per unit dollar amount limitations set forth in section 1715f(d)(3)(i) of title 12, as such limitations may be adjusted in accordance therewith, except that for purposes of this subsection the Secretary shall, by regulation, increase the per unit dollar amount limitations in any geographical area by an amount, not to exceed 140 percent, that equals the amount by which the costs of multifamily housing construction in the area exceed the national average of such costs. The limits shall be established on a market-by-market basis, with adjustments made for number of bedrooms, and shall reflect the actual cost of new construction, reconstruction, or rehabilitation of housing that meets applicable State and local housing and building codes and the cost of land, including necessary site improvements. Adjustments shall be made annually to reflect inflation. Separate limits may be set for different eligible activities.

(2) Criteria

In calculating per unit limits, the Secretary shall take into account that assistance under this subchapter is intended to—

1 See References in Text note below.
(A) provide nonluxury housing with suitable amenities;
(B) operate effectively in all jurisdictions;
(C) facilitate mixed-income housing; and
(D) reflect the costs associated with meeting the special needs of tenants or homeowners that the housing is designed to serve.

(3) Consultation
In calculating cost limits, the Secretary shall consult with organizations that have expertise in the development of affordable housing, including national nonprofit organizations and national organizations representing private development firms and State and local governments.

(f) Certification of compliance
The requirements of section 3545(d) of this title shall be satisfied by a certification by a participating jurisdiction to the Secretary that the combination of Federal assistance provided to any housing project shall not be any more than is necessary to provide affordable housing.

(g) Limitation on operating assistance
A participating jurisdiction may not use more than 5 percent of its allocation under this part for the payment of operating expenses for community housing development organizations.

(B) the remainder of (i) the families receiving such rental assistance are households that qualify as low-income families (other than families described in subparagraph (A)) at the time of occupancy or at the time funds are invested, whichever is later, or (ii) the dwelling units assisted with such funds are occupied by such households;

(2) with respect to homeownership assistance, 100 percent of such funds are invested with respect to dwelling units that are occupied by households that qualify as low-income families; and

(1) Qualification

Housing that is for rental shall qualify as affordable housing under this subchapter only if the housing—

(A) bears rents not greater than the lesser of (i) the existing fair market rent for comparable units in the area, or (ii) a rent that does not exceed 30 percent of the adjusted income of a family whose income equals 65 percent of the median income for the area, as determined by the Secretary, with adjustment for number of bedrooms in the unit, except that the Secretary may establish income ceilings higher or lower than 65 percent of the median for the area on the basis of the Secretary’s find-
ings that such variations are necessary because of prevailing levels of construction costs or fair market rents, or unusually high or low family incomes;

(B) has not less than 20 percent of the units (i) occupied by very low-income families who pay as a contribution toward rent (excluding any Federal or State rental subsidy provided on behalf of the family) not more than 30 percent of the family’s monthly adjusted income as determined by the Secretary, or (ii) occupied by very low-income families and bearing rents not greater than the gross rent for rent-restricted residential units as determined under section 42(g)(2) of title 26;

(C) is occupied only by households that qualify as low-income families;

(E) will remain affordable, according to binding commitments satisfactory to the Secretary, for the remaining useful life of the property, as determined by the Secretary, without regard to the term of the mortgage or to transfer of ownership, or for such other period that the Secretary determines is the longest feasible period of time consistent with sound economics and the purposes of this Act, except upon a foreclosure by a lender (or upon other transfer in lieu of foreclosure) if such action (i) recognizes any contractual or legal rights of public agencies, nonprofit sponsors, or others to take actions that would avoid termination of low-income affordability in the case of foreclosure or transfer in lieu of foreclosure, and (ii) is not for the purpose of avoiding low income affordability restrictions, as determined by the Secretary; and

(F) if newly constructed, meets the energy efficiency standards promulgated by the Secretary in accordance with section 12709 of this title.

(3) Increases in tenant income

Housing shall qualify as affordable housing despite a temporary noncompliance with subparagraph (B) or (C) of paragraph (1) if such noncompliance is caused by increases in the incomes of existing tenants and if actions satisfactory to the Secretary are being taken to ensure that all vacancies are filled in accordance with paragraph (1) until such noncompliance is corrected. Tenants who no longer qualify as low-income families shall pay as rent the lesser of the amount payable by the tenant under State or local law or 30 percent of the family’s adjusted monthly income, as recerti-

Housing that accounts for less than 100 percent of the dwelling units in a project shall qualify as affordable housing if such housing meets the criteria of this section.

(5) Mixed-use project

Housing in a project that is designed in part for uses other than residential use shall qualify as affordable housing if such housing meets the criteria of this section.

(i) the unit is occupied by such a family, on whose behalf tenant-based assistance is provided under section 1437f of this title;

(ii) the rent for the unit is not greater than the existing fair market rent for comparable units in the area, as established by the Secretary under section 1437f of this title; and

(iii) the Secretary determines that the waiver, together with waivers under this paragraph for other dwelling units in the project, will result in the use of amounts described in clause (ii) in an effective manner that will improve the provision of affordable housing for such families.

(B) Eligible families

A family described in this subparagraph is a family that consists of at least one elderly person (who is the head of household) and one or more of such person’s grand children, great grandchildren, great nieces, great nephews, or great great grandchildren (as defined by the Secretary), but does not include any parent of such grandchildren, great grandchildren, great nieces, great nephews, or great great grandchildren. Such term includes any such grandchildren, great grandchildren, great nieces, great nephews, or great great grandchildren who have been legally adopted by such elderly person.

(i) provide the owner with a fair return on investment, including any improvements, and

(ii) ensure that the housing will remain affordable to a reasonable range of low-income homebuyers; or

(B) recapture the investment provided under this subchapter in order to assist other persons in accordance with the requirements of this subchapter, except where there are no net proceeds or where the net proceeds are insufficient to repay the full amount of the assistance; and

(ii) reallocate the remainder by formula in accordance with section 12747(b) of this title.

(B) Local

If a unit of general local government has failed to meet the requirements and is located in a State that is a participating jurisdiction, the Secretary shall reallocate to the State any funds reserved for the locality, with preference going to the provision of affordable housing within the locality.

Once a State or unit of general local government is designated a participating jurisdiction, it shall remain a participating jurisdiction for subsequent fiscal years, except as provided in paragraph (9). The provisions of paragraphs (3) through (6) shall not apply to participating jurisdictions.

(9) Revocation
The Secretary may revoke a jurisdiction’s designation as a participating jurisdiction if—
(A) the Secretary finds, after reasonable notice and opportunity for hearing, that the jurisdiction is unwilling or unable to carry out the provisions of this subchapter, or
(B) the jurisdiction’s allocation falls below $750,000 for 3 consecutive years, below $625,000 for 2 consecutive years, or the jurisdiction does not receive a formula allocation of $500,000 or more in any 1 year, except as provided in paragraph (10).

If a jurisdiction’s designation as a participating jurisdiction is revoked, any remaining line of credit in the jurisdiction’s HOME Investment Trust Fund established under section 12748 of this title shall be reallocated in accordance with paragraph (6) of this section.

(b) Formula allocation

(1) In general

(A) Basic formula

The Secretary shall establish in regulation an allocation formula that reflects each jurisdiction’s share of total need among eligible jurisdictions for an increased supply of affordable housing for very low-income and low-income families of different size, as identified by objective measures of inadequate housing supply, substandard housing, the number of low-income families in housing likely to be in need of rehabilitation, the costs of producing housing, poverty, and the relative fiscal incapacity of the jurisdiction to carry out housing activities eligible under section 12742 of this title without Federal assistance. Allocation among units of general local government shall take into account the housing needs of metropolitan cities, urban counties, and approved consortia of units of general local government.

(B) Source of data

The data to be used for formula allocation of funds within a fiscal year shall be data obtained from a standard source that are available to the Secretary 90 days prior to the beginning of that fiscal year.

(C) Use of basic formula

The basic formula established under subparagraph (A) shall be used for all formula

§ 12747

(2) Minimum State allocation

When allocation is made among States, the Secretary shall apply the formula in subparagraph (A) giving 20 percent weight to measures of need for the whole State and 80 percent weight to measures of need among units of general local government that are not receiving an allocation under section 12746(1) of this title.

(E) Adjustments

In developing the basic formula in subparagraph (A), the Secretary shall (i) avoid the allocation of an excessively large share of amounts made available under this part to any one State or unit of general local government, and (ii) take into account the need for a geographic distribution of amounts made available under this part that appropriately reflects the housing need in each region of the Nation.

(F) Consultation

The Secretary shall develop the formula in subparagraph (A) in ongoing consultation with (i) the Subcommittee on Housing and Urban Affairs of the Committee on Banking, Housing, and Urban Affairs of the Senate, (ii) the Subcommittee on Housing and Community Development of the Committee on Banking, Finance and Urban Affairs of the House of Representatives, and (iii) organizations representing States and units of general local government. Not less than 60 days prior to publishing a formula for comment, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives a copy of the formula the Secretary intends to propose.

(2) Minimum State allocation

(A) In general

If the formula, when applied to funds approved under this section in appropriations Acts for a fiscal year, would allocate less than $3,000,000 to any State, the allocation for such State shall be $3,000,000, and the increase shall be deducted pro rata from the allocations of other States.

(B) Increased minimum allocation

If no unit of general local government within a State receives an allocation under paragraph (3), the State’s allocation shall be increased by $500,000. Priority for use of such increased allocation shall go to the provision of affordable housing within the territories of metropolitan cities, urban counties, and approved consortia within the State, based on the need for such funds. The increased allocation to a State under the preceding sentence shall be derived by a pro rata deduction from the allocations to units of general local government in all States, except that such pro rata deduction shall not reduce the allocation of any unit of general local government below $500,000.

(3) Minimum local allocation

The Secretary shall allocate funds available for formula allocation to units of general local government that, as of the end of the previous fiscal year, qualified as metropolitan cities, urban counties, and consortia approved by the Secretary in accordance with section 12746(2) of this title so that, when the amounts made available under this Act for a fiscal year, would allocate less than $500,000 to any State, the allocation to such State shall be $3,000,000, and the increased allocation shall go to the provision of affordable housing within the boundaries of metropolitan cities, urban counties, and consortia approved by the Secretary in accordance with section 12746(2) of this title, with extra consideration given for activities that expand the supply of affordable housing for very low-in-

(D) Weights

If the amount appropriated pursuant to section 12724 of this title for any fiscal year is less than $1,500,000,000, then this section shall be applied during that year by substituting “$335,000” for “$500,000” where it appears in paragraph (3).

(c) Criteria for direct reallocation

The Secretary shall establish objective criteria for making direct reallocations to any participating jurisdiction and other eligible entities. A jurisdiction shall be eligible for a direct reallocation under this subsection only if the jurisdiction, in a form acceptable to the Secretary, demonstrates to the satisfaction of the Secretary that the jurisdiction is engaged, or has made good faith efforts to engage, in cooperative efforts between the State and appropriate participating jurisdictions within the State to develop, coordinate, and implement housing strategies under this subchapter. The Secretary shall by regulation establish objective selection criteria for such direct reallocations, which criteria shall take into account—

(1) the applicant’s demonstrated commitment to expand the supply of affordable rental housing, including units developed by public housing agencies, as indicated by the additional number of units of affordable housing made available through production or rehabilitation within the previous 2 years, making adjustment for regional variations in construction and rehabilitation costs and giving special consideration to the number of additional units made available under this subchapter through production or rehabilitation, including units developed by public housing agencies, in relation to the amounts made available under this program; and

(2) the applicant’s actions—

(A) direct funds made available under this Act to benefit very low-income families, with a range of incomes, in amounts that exceed the income targeting requirements of section 12744 of this title, with extra consideration for activities that expand the supply of affordable housing for very low-in-

(4) Threshold reduction

If the amount appropriated pursuant to section 12724 of this title for any fiscal year is less than $1,500,000,000, then this section shall be applied during that year by substituting “$335,000” for “$500,000” where it appears in paragraph (3).
come families whose incomes do not exceed 30 percent of the median family income for the area, as determined by the Secretary;

(B) apply the tenant selection preference categories applicable under section 1437f of this title to the selection of Indian tribes for housing assisted under this part;

(C) provide matching resources in excess of funds required under section 12750 of this title; and

(D) stimulate a high degree of investment and participation in development by the private sector, including nonprofit organizations; and

(3) the degree to which the applicant is pursuing policies that—

(A) make existing housing more affordable;

(B) remove or ameliorate any negative effects that public policies identified by the applicant pursuant to section 12705(b)(4) of this title may have on the cost of housing or the incentives to develop, maintain, or improve affordable housing in the jurisdiction;

(C) preserve the affordability of privately-owned housing that is vulnerable to conversion, demolition, disinvestment, or abandonment;

(D) increase the supply of housing that is affordable to very low-income and low-income persons, particularly in areas that are accessible to expanding job opportunities; and

(E) remedy the effects of discrimination and improve housing opportunities for disadvantaged minorities.

(d) Reallocations

(1) In general

The Secretary shall make any reallocations periodically throughout each fiscal year so as to ensure that all funds to be reallocated are made available to eligible jurisdictions as soon as possible, consistent with orderly program administration. Jurisdictions eligible for such reallocations shall include participating jurisdictions and jurisdictions meeting the requirements of paragraphs (3), (4), and (5) of section 12746 of this title.

(2) Commitments

The Secretary shall establish procedures according to which participating jurisdictions may make commitments to invest funds made available under this section. Such procedures shall provide for appropriate stages of commitment of funds to a project from initial reservation through binding commitment. Notwithstanding any other provision of this subchapter, funds that the Secretary determines are needed to fulfill binding commitments shall not be available for reallocation.

(3) Limitation

Unless otherwise specified in this part, any reallocation of funds from a State shall be made to the selection of States, and any reallocation of funds from units of general local government shall be made only among all participating units of general local government.

Acquisition or rehabilitation of a property under a homeownership program under this part may not consist of acquisition or rehabilitation of less than all of the units in the property. The provisions of this subsection may be waived upon a finding by the Secretary that the sale of less than all the buildings in a project is feasible and will not result in a hardship to any tenants of the project who are not included in the homeownership program.

(e) Financing
(1) In general
The application shall identify and describe the proposed financing for (A) any rehabilitation, and (B) acquisition (i) of the project, where applicable, by an entity for transfer to eligible families, and (ii) by eligible families of ownership interests in, or shares representing, units in the project. 2. neither the Federal Government nor the public housing agency will be exposed to undue risks related to action that may have to be taken pursuant to paragraph (3);
3. any debt obligation can be serviced from project income, including operating assistance; and

(3) Opportunity to cure
Any lender that provides financing in connection with a homeownership program under this part shall give the public housing agency, resident management corporation, individual owner, or other appropriate entity a reasonable opportunity to cure a financial default before foreclosing on the property, or taking other action as a result of the default.

(f) Housing quality standards
The application shall include a plan ensuring that the unit—
1 will be free from any defects that pose a danger to health or safety before transfer of an ownership interest in, or shares representing, a unit to an eligible family; and
2 will, not later than 2 years after the transfer to an eligible family, meet minimum housing standards established by the Secretary for the purpose of this title.

(g) Protection of nonpurchasing families
(1) In general
No tenant residing in a dwelling unit in a property on the date the Secretary approves an application for an implementation grant may be evicted by reason of a homeownership program approved under this part.

(2) Rental assistance
If a tenant decides not to purchase a unit, or is not qualified to do so, the Secretary shall, subject to the availability of appropriations, ensure that rental assistance under section 1437f of this title is available for use by each otherwise qualified tenant in that or another property.

(3) Relocation assistance
The recipient shall also inform each such tenant that if the tenant chooses to move, the recipient will pay relocation assistance in accordance with the approved homeownership program.

A homeowner under a homeownership program may transfer the homeowner's ownership interest in, or shares representing, the unit, except that a homeownership program may establish restrictions on the resale of units under the program.

(2) Right to purchase
Where a resident management corporation, resident council, or cooperative has jurisdiction over the unit, the corporation, council, or cooperative shall have the right to purchase the ownership interest in, or shares representing, the unit from the homeowner for the amount specified in a firm contract between the homeowner and a prospective buyer. If such an entity does not have jurisdiction over the unit or elects not to purchase and if the prospective buyer is not a low-income family, the public housing agency or the implementation grant recipient shall have the right to purchase the ownership interest in, or shares representing, the unit for the same amount.

(C) Promissory note required
The homeowner shall execute a promissory note equal to the difference between the market value and the purchase price, payable to the public housing agency or other entity designated in the homeownership plan, together with a mortgage securing the obligation of the note.

Such an entity may, at the time of initial sale, enter into an agreement with the family to set a maximum amount which this appreciation may not exceed.

(3) 6–20 years

In the case of a transfer during the period beginning 6 years after the acquisition and ending 20 years after the acquisition, the homeownership program shall provide for the recapture by the Secretary or the program of an amount equal to the amount of the declining balance on the note described in paragraph (1)(C).

During the interim period when the property continues to be operated and managed as rental housing, the recipient shall utilize written tenant selection policies and criteria that are approved by the Secretary as consistent with the purpose of improving housing opportunities for low-income families. The recipient shall promptly notify in writing any rejected applicant of the grounds for any rejection.

Subchapter I—Improving Investigation and Prosecution of Child Abuse Cases

§ 13001. Findings

The Congress finds that—

(1) over 2,000,000 reports of suspected child abuse and neglect are made each year, and drug abuse is associated with a significant portion of these;

(2) the investigation and prosecution of child abuse cases is extremely complex, involving numerous agencies and dozens of personnel;

(3) traditionally, community agencies and professionals have different roles in the prevention, investigation, and intervention process;

(4) in such cases, too often the system does not pay sufficient attention to the needs and welfare of the child victim, aggravating the trauma that the child victim has already experienced;

(5) there is a national need to enhance coordination among community agencies and professionals involved in the intervention system;

(6) multidisciplinary child abuse investigation and prosecution programs have been developed that increase the reporting of child abuse cases, reduce the trauma to the child victim, and increase the successful prosecution of child abuse offenders; and

(7) such programs have proven effective, and with targeted Federal assistance, could be duplicated in many jurisdictions throughout the country.

SUBCHAPTER III—CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS

§ 13021. Findings and purpose

(a) Findings

The Congress finds that—

(1) a large number of juvenile and family courts are inundated with increasing numbers of cases due to increased reports of abuse and neglect, increasing drug-related maltreatment, and insufficient court resources;

(2) the amendments made to the Social Security Act [42 U.S.C. 301 et seq.] by the Adoption Assistance and Child Welfare Act of 1980 make substantial demands on the courts handling abuse and neglect cases, but provide no assistance to the courts to meet those demands;

(3) the Adoption and Child Welfare Act of 1980 requires courts to—

(A) determine whether the agency made reasonable efforts to prevent foster care placement;

(B) approve voluntary nonjudicial placement; and

(C) provide procedural safeguards for parents when their parent-child relationship is affected;

(4) social welfare agencies press the courts to meet such requirements, yet scarce resources often dictate that courts comply pro forma without undertaking the meaningful judicial inquiry contemplated by Congress in the Adoption and Child Welfare Act of 1980;

(5) compliance with the Adoption and Child Welfare Act of 1980 and overall improvements in the judicial response to abuse and neglect cases can best come about through action by top level court administrators and judges with administrative functions who understand the unique aspects of decisions required in child abuse and neglect cases; and

(6) the Adoption and Child Welfare Act of 1980 provides financial incentives to train welfare agency staff to meet the requirements, but provides no resources to train judges.

(b) Purpose

The purpose of this subchapter is to provide expanded technical assistance and training to judicial personnel and attorneys, particularly personnel and practitioners in juvenile and family courts, to improve the judicial system’s handling of child abuse and neglect cases with specific emphasis on the role of the courts in addressing reasonable efforts that can safely avoid unnecessary and unnecessarily prolonged foster care placement.

SUBCHAPTER VI—TREATMENT FOR JUVENILE OFFENDERS WHO ARE VICTIMS OF CHILD ABUSE OR NEGLECT

13101. Findings and policy.
13102. Definitions.
13103. EPA activities.
13104. Grants to States for State technical assistance programs.
13105. Source Reduction Clearinghouse.
13106. Source reduction and recycling data collection.
13107. EPA report.
§ 13101. Findings and policy

(a) Findings

The Congress finds that:

(1) The United States of America annually produces millions of tons of pollution and spends tens of billions of dollars per year controlling this pollution.

(2) There are significant opportunities for industry to reduce or prevent pollution at the source through cost-effective changes in production, operation, and raw materials use. Such changes offer industry substantial savings in reduced raw material, pollution control, and liability costs as well as help protect the environment and reduce risks to worker health and safety.

(3) The opportunities for source reduction are often not realized because existing regulations, and the industrial resources they require for compliance, focus upon treatment and disposal, rather than source reduction; existing regulations do not emphasize multi-media management of pollution; and businesses need information and technical assistance to overcome institutional barriers to the adoption of source reduction practices.

(4) Source reduction is fundamentally different and more desirable than waste management and pollution control. The Environmental Protection Agency needs to address the historical lack of attention to source reduction.

(5) As a first step in preventing pollution through source reduction, the Environmental Protection Agency must establish a source reduction program which collects and disseminates information, provides financial assistance to States, and implements the other activities provided for in this chapter.

(b) Policy

The Congress hereby declares it to be the national policy of the United States that pollution should be prevented or reduced at the source whenever feasible; pollution that cannot be prevented should be recycled in an environmentally safe manner, whenever feasible; pollution that cannot be prevented or recycled should be treated in an environmentally safe manner whenever feasible; and disposal or other release into the environment should be employed only as a last resort and should be conducted in an environmentally safe manner.

§ 13105. Source Reduction Clearinghouse

(a) Authority

The Administrator shall establish a Source Reduction Clearinghouse to compile information including a computer data base which contains information on management, technical, and operational approaches to source reduction. The Administrator shall use the clearinghouse to—

(1) serve as a center for source reduction technology transfer;

(2) mount active outreach and education programs by the States to further the adoption of source reduction technologies; and

(3) collect and compile information reported by States receiving grants under section 13104 of this title on the operation and success of State source reduction programs.

(b) Public availability

The Administrator shall make available to the public such information on source reduction as is gathered pursuant to this chapter and such other pertinent information and analysis regarding source reduction as may be available to

§ 13104. Grants to States for State technical assistance programs

(a) General authority

The Administrator shall make matching grants to States for programs to promote the use of source reduction techniques by businesses.

(b) Criteria

When evaluating the requests for grants under this section, the Administrator shall consider, among other things, whether the proposed State program would accomplish the following:

(1) Make specific technical assistance available to businesses seeking information about source reduction opportunities, including funding for experts to provide onsite technical advice to business seeking assistance and to assist in the development of source reduction plans.

(2) Target assistance to businesses for whom lack of information is an impediment to source reduction.

(3) Provide training in source reduction techniques. Such training may be provided through local engineering schools or any other appropriate means.

§ 13106. Source reduction and recycling data collection

(a) Reporting requirements

Each owner or operator of a facility required to file an annual toxic chemical release form under section 11023 of this title for any toxic chemical shall include with each such annual filing a toxic chemical source reduction and recycling report for the preceding calendar year. The toxic chemical source reduction and recycling report shall cover each toxic chemical required to be reported in the annual toxic chemical release form filed by the owner or operator under section 11023(c) of this title. This section shall take effect with the annual report filed under section 11023 of this title for the first full calendar year beginning after November 5, 1990.

(b) Items included in report

The toxic chemical source reduction and recycling report required under subsection (a) of this section shall set forth each of the following on a facility-by-facility basis for each toxic chemical:

(1) The quantity of the chemical entering any waste stream (or otherwise released into the environment) prior to recycling, treatment, or disposal during the calendar year for which the report is filed and the percentage change from the previous year. The quantity reported shall not include any amount reported under paragraph (7). When actual measurements of the quantity of a toxic chemical entering the waste streams are not readily available, reasonable estimates should be made based on best engineering judgment.

(2) The amount of the chemical from the facility which is recycled (at the facility or elsewhere) during such calendar year, the percentage change from the previous year, and the process of recycling used.

(3) The source reduction practices used with respect to that chemical during such year at the facility. Such practices shall be reported in accordance with the following categories unless the Administrator finds other categories to be more appropriate.

(A) Equipment, technology, process, or procedure modifications.

(B) Reformulation or redesign of products.

(C) Substitution of raw materials.

(D) Improvement in management, training, inventory control, materials handling, or other general operational phases of industrial facilities.

(4) The amount expected to be reported under paragraph (1) and (2) for the two calendar years immediately following the calendar year for which the report is filed. Such amount shall be expressed as a percentage change from the amount reported in paragraphs (1) and (2).

(5) A ratio of production in the reporting year to production in the previous year. The ratio should be calculated to most closely reflect all activities involving the toxic chemical. In specific industrial classifications subject to this section, where a feedstock or some variable other than production is the primary influence on waste characteristics or volumes, the report may provide an index based on that primary variable for each toxic chemical. The Administrator is encouraged to develop production indexes to accommodate individual industries for use on a voluntary basis.

(6) The techniques which were used to identify source reduction opportunities. Techniques listed should include, but are not limited to, employee recommendations, external and internal audits, participative team management, and material balance audits. Each type of source reduction listed under paragraph (3) should be associated with the techniques or multiples of techniques used to identify the source reduction technique.

(7) The amount of any toxic chemical released into the environment which resulted from a catastrophic event, remedial action, or other one-time event, and is not associated with production processes during the reporting year.

(8) The amount of the chemical from the facility which is treated (at the facility or elsewhere) during such calendar year and the percentage change from the previous year. For the first year of reporting under this subsection, comparison with the previous year is required only to the extent such information is available.

(c) SARA provisions

The provisions of sections 11042, 11045(c), and 11046 of this title shall apply to the reporting requirements of this section in the same manner as to the reports required under section 11023 of this title. The Administrator may modify the form required for purposes of reporting information under section 11023 of this title to the extent he deems necessary to include the additional information required under this section.

(d) Additional optional information

Any person filing a report under this section for any year may include with the report additional information regarding source reduction, recycling, and other pollution control techniques in earlier years.

(e) Availability of data

Subject to section 11042 of this title, the Administrator shall make data collected under this section publicly available in the same manner as the data collected under section 11023 of this title.

§ 13107. EPA report

(a) Biennial reports

The Administrator shall provide Congress with a report within eighteen months after November 5, 1990, and biennially thereafter, containing a detailed description of the actions taken to implement the strategy to promote source reduction developed under section 13103(b) of this title and of the results of such actions. The report shall include an assessment of the effectiveness of the clearinghouse and grant program established under this chapter in promoting the goals of the strategy, and shall evaluate data gaps and data duplication with respect to data collected under Federal environmental statutes.

(b) Subsequent reports

Each biennial report submitted under subsection (a) of this section after the first report shall contain each of the following:

(1) An analysis of the data collected under section 13106 of this title on an industry-by-industry basis for not less than five SIC codes or other categories as the Administrator deems appropriate. The analysis shall begin with those SIC codes or other categories of facilities which generate the largest quantities of toxic chemical waste. The analysis shall include an evaluation of trends in source reduction by industry, firm size, production, or other useful means. Each subsequent report shall cover five SIC codes or other categories which were not covered in a prior report until all SIC codes or other categories have been covered.

(2) An analysis of the usefulness and validity of the data collected under section 13106 of this title for measuring trends in source reduction and the adoption of source reduction by business.

(3) Identification of regulatory and non-regulatory barriers to source reduction, and opportunities for using existing regulatory programs, and incentives and disincentives to promote and assist source reduction.

(4) Identification of industries and pollutants that require priority assistance in multimedia source reduction.

(5) Recommendations as to incentives needed to encourage investment and research and development in source reduction.

(6) Identification of opportunities and development of priorities for research and development in source reduction methods and techniques.

(7) An evaluation of the cost and technical feasibility, by industry and processes, of source reduction opportunities and current activities and an identification of any industries for which there are significant barriers to source reduction with an analysis of the basis of this identification.

(8) An evaluation of methods of coordinating, streamlining, and improving public access to data collected under Federal environmental statutes.

(9) An evaluation of data gaps and data duplication with respect to data collected under Federal environmental statutes.

In the report following the first biennial report provided for under this subsection, paragraphs (3) through (9) may be included at the discretion of the Administrator.

Except as provided in subparagraph (B), no Federal agency shall acquire a light duty motor vehicle or medium duty passenger vehicle that is not a low greenhouse gas emitting vehicle.

(B) Exception

The prohibition in subparagraph (A) shall not apply to acquisition of a vehicle if the head of the agency certifies in writing, in a separate certification for each individual vehicle purchased, either—

(i) that no low greenhouse gas emitting vehicle is available to meet the functional needs of the agency and details in writing the functional needs that could not be met with a low greenhouse gas emitting vehicle; or

(ii) that the agency has taken specific alternative more cost-effective measures to reduce petroleum consumption that—

(I) have reduced a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved through acquisition of a low greenhouse gas emitting vehicle over the lifetime of the vehicle; or

(B) Consideration

In identifying vehicles under subparagraph (A), the Administrator shall take into account the most stringent standards for vehicle greenhouse gas emissions applicable to and enforceable against motor vehicle manufacturers for vehicles sold anywhere in the United States.

(C) Requirement

The Administrator shall not identify any vehicle as a low greenhouse gas emitting vehicle if the vehicle emits greenhouse gases at a higher rate than such standards allow for the manufacturer's fleet average grams per mile of carbon dioxide-equivalent emissions for that class of vehicle, taking into account any emissions allowances and adjustment factors such standards provide.

Termination of Reporting Requirements

§ 13237. Certification of training programs

The Secretary shall ensure that the Federal Government establishes and carries out a program for the certification of training programs for technicians who are responsible for motor vehicle installation of equipment that converts gasoline or diesel-fueled motor vehicles into dedicated vehicles or dual fueled vehicles, and for the maintenance of such converted motor vehicles. A training program shall not be certified under the program established under this section unless it provides technicians with instruction on the proper and safe installation procedures and techniques, adherence to specifications (including original equipment manufacturer specifications), motor vehicle operating procedures, emissions testing, and other appropriate mechanical concerns applicable to these motor vehicle conversions. The Secretary shall ensure that, in the development of the program required under this section, original equipment manufacturers, fuel suppliers, companies that convert conventional vehicles to use alternative fuels, and other affected persons are consulted.

§ 13238. Alternative fuel use in nonroad vehicles and engines

(a) Nonroad vehicles and engines

(1) The Secretary shall conduct a study to determine whether the use of alternative fuels in nonroad vehicles and engines would contribute substantially to reduced reliance on imported energy sources. Such study shall be completed, and the results thereof reported to Congress, within 2 years after October 24, 1992.

(2) The study shall assess the potential of nonroad vehicles and engines to run on alternative fuels. Taking into account the nonroad vehicles and engines for which running on alternative fuels is feasible, the study shall assess the potential reduction in reliance on foreign energy sources that could be achieved if such vehicles were to run on alternative fuels.

(3) The report required under paragraph (1) may include the Secretary’s recommendations for encouraging or requiring nonroad vehicles and engines which can feasibly be run on alternative fuels, to utilize such alternative fuels.

(b) Definition of nonroad vehicles and engines

Nonroad vehicles and engines, for purposes of this section, shall include nonroad vehicles and engines used for surface transportation or principally for industrial or commercial purposes, vehicles used for rail transportation, vehicles used at airports, vehicles or engines used for marine purposes, and other vehicles or engines at the discretion of the Secretary.

§ 13239. Low interest loan program

(a) Establishment

Within 1 year after October 24, 1992, the Secretary shall establish a program for making low interest loans, giving preference to small businesses that own or operate fleets, for—

(1) the conversion of motor vehicles to operation on alternative fuels;

(2) covering the incremental costs of the purchase of motor vehicles which operate on alternative fuels, when compared with purchase costs of comparable conventionally fueled motor vehicles; or

(3) covering the incremental costs of purchase of non-road vehicles and engines designated by the Secretary pursuant to section 13238(c) of this title.

(b) Loan terms

The Secretary, to the extent practicable, shall establish reasonable terms for loans made under this subsection, with preference given to repayment schedules that enable such loans to be repaid by the borrower from the cost differential between gasoline and the alternative fuel on which the motor vehicle operates.

(c) Criteria

In deciding to whom loans shall be made under this subsection, the Secretary shall consider—

(1) the financial need of the applicant;

(2) the goal of assisting the greatest number of applicants; and

(3) the ability of an applicant to repay the loan, taking into account the fuel cost savings likely to accrue to the applicant.

(d) Priorities

Priority shall be given under this section to fleets where the use of alternative fuels would have a significant beneficial effect on energy security and the environment.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, $25,000,000 for each of the fiscal years 1993, 1994, and 1995.

(c) Option for electric utilities

The Secretary shall, within 1 year after October 24, 1992, issue regulations requiring that, in the case of a covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the requirements of subsection (a)(1) of this section shall not apply until after December 31, 1997, with respect to electric motor vehicles. Any covered person described in this subsection which plans to acquire electric motor vehicles to comply with the requirements of this section shall so notify the Secretary before January 1, 1996.

The Secretary shall establish a program to promote the development and use in light duty motor vehicles of domestic replacement fuels. Such program shall promote the replacement of petroleum motor fuels with replacement fuels to the maximum extent practicable. Such program shall, to the extent practicable, ensure the availability of those replacement fuels that will have the greatest impact in reducing oil imports, improving the health of our Nation’s economy and reducing greenhouse gas emissions.

(b) Development plan and production goals

Under the program established under subsection (a) of this section, the Secretary, before October 1, 1993, in consultation with the Administrator, the Secretary of Transportation, the Secretary of Agriculture, the Secretary of Commerce, and the heads of other appropriate agencies, shall review appropriate information and—

(1) estimate the domestic and nondomestic production capacity for replacement fuels and alternative fueled vehicles needed to implement this section;

(2) determine the technical and economic feasibility of achieving the goals of producing sufficient replacement fuels to replace, on an energy equivalent basis—

(A) at least 10 percent by the year 2000; and

(B) at least 30 percent by the year 2010,

of the projected consumption of motor fuel in the United States for each such year, with at least one half of such replacement fuels being domestic fuels;

(3) determine the most suitable means and methods of developing and encouraging the production, distribution, and use of replacement fuels and alternative fueled vehicles in a manner that would meet the program goals described in subsection (a) of this section;

(4) identify ways to encourage the development of reliable replacement fuels and alternative fueled vehicle industries in the United States.
§ 13253. Replacement fuel demand estimates and supply information

(a) Estimates
Not later than October 1, 1993, and annually thereafter, the Secretary, in consultation with the Administrator, the Secretary of Transportation, and other appropriate State and Federal officials, shall estimate for the following calendar year—

(1) the number of each type of alternative fueled vehicle likely to be in use in the United States;
(2) the probable geographic distribution of such vehicles;
(3) the amount and distribution of each type of replacement fuel; and
(4) the greenhouse gas emissions likely to result from replacement fuel use.

(b) Information
Beginning on October 1, 1994, the Secretary shall annually require—

(1) fuel suppliers to report to the Secretary on the amount of each type of replacement fuel that such supplier—
   (A) has supplied in the previous calendar year; and
   (B) plans to supply for the following calendar year;
(2) suppliers of alternative fueled vehicles to report to the Secretary on the number of each type of alternative fueled vehicle that such supplier—
   (A) has made available in the previous calendar year; and
   (B) plans to make available for the following calendar year; and
(3) such fuel suppliers to provide the Secretary information necessary to determine the greenhouse gas emissions from the replacement fuels used, taking into account the entire fuel cycle.

(c) Protection of information
Information provided to the Secretary under subsection (b) of this section shall be subject to applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18.

§ 13254. Modification of goals; additional rulemaking authority

The Secretary shall publish in the Federal Register the results of each examination under this subsection and provide an opportunity for public comment.

(b) Modification of goals
If, after analysis of information obtained in connection with carrying out subsection (a) of this section or section 13252 of this title, or other information, and taking into account the determination of technical and economic feasibility made under section 13252(b)(2) of this title, the Secretary determines that goals described in section 13252(b)(2) of this title, including the percentage requirements or dates, are not achievable, the Secretary, in consultation with appropriate Federal agencies, shall, by rule, establish goals that are achievable, for purposes of this subchapter. The modification of goals under this section may include changing the target dates specified in section 13252(b)(2) of this title.

(c) Additional rulemaking authority
If the Secretary determines that the achievement of goals described in section 13252(b)(2) of this title would result in a significant and correctable failure to meet the program goals described in section 13252(a) of this title, the Secretary shall issue such additional regulations as are necessary to remedy such failure. The Secretary shall have no authority under this Act to mandate the production of alternative fueled vehicles or to specify, as applicable, the models, lines, or types of, or marketing or pricing practices, policies, or strategies for, vehicles subject to this Act. Nothing in this Act shall be construed to give the Secretary authority to mandate marketing or pricing practices, policies, or strategies for alternative fuels or to mandate the production or delivery of such fuels.

No rule under this subsection may be promulgated after December 15, 1996, and be enforceable. A fleet requirement program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—
(A) the goal of replacement fuel use described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under section 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title; 

(B) such goal is practicable and actually achievable within periods specified in section 13252(b)(2) of this title, as modified under section 13254 of this title, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals; and

(C) by 1998 (when model year 1999 begins) or the date specified by the Secretary in such rule for initiating a fleet requirement program—

(i) there exists sufficient evidence to ensure that the fuel and the needed infrastructure, including the supply and deliverability systems, will be installed and located at convenient places in the fleet areas subject to the rule and will be fully operational when the rule is effective to offer a reliable and timely supply of the applicable alternative fuel at reasonable costs (as compared to conventional fuels) to meet the fleet requirement program, as demonstrated through use of the provisions of section 13255(i) of this title regarding voluntary commitments or other adequate, reliable, and convincing forms of agreements, arrangements, or representations that such fuels and infrastructure are in existence or will exist when the rule is effective and will be expanded as the percentages increase annually; 

(ii) there will be a sufficient number of new alternative fueled vehicles from original equipment manufacturers that comply with all applicable requirements of the Clean Air Act (42 U.S.C. 7401 et seq.) and chapter 301 of title 49;

(iii) such new vehicles will meet the applicable non-Federal and non-State fleet performance requirements of such fleets (including range, passenger or cargo-carrying capacity, reliability, refueling capability, vehicle mix, and economical operation and maintenance); and

(iv) establishment of a fleet requirement program by rule under this subsection will not result in unfair competitive advantages or disadvantages, or result in undue economic hardship, to the affected fleets. 

(2) The Secretary shall not promulgate a rule under this subsection if he is unable to make affirmative findings in the case of each of the subparagraphs under paragraph (1), and each of the clauses under subparagraph (C) of paragraph (1).

(3) If the Secretary does not determine that such program is necessary under this subsection, the provisions of subsection (e) of this section shall apply to the consideration in the future of any fleet requirement program. The record of this rulemaking, including the Secretary's findings, shall be incorporated into a rulemaking under that subsection. If the Secretary determines under this subsection that such program is necessary, the Secretary shall not initiate the later rulemaking under subsection (e) of this section.

(c) Advance notice of proposed rulemaking

Not later than April 1, 1998, the Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(1) evaluating the progress toward achieving the goals of replacement fuel use described in section 13252(b)(2) of this title, as modified under section 13254 of this title;

(2) identifying the problems associated with achieving those goals;

(3) assessing the adequacy and practicability of those goals; and

(4) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(d) Proposed rule

Before May 1, 1999, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (g) of this section, and shall provide for a public comment period, with hearings, of not less than 90 days.

(e) Determination

(1) Not later than January 1, 2000, the Secretary shall, through the rule required under subsection (g) of this section, determine whether a fleet requirement program is necessary under this section. Such a program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under section 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title; and

(B) such goal is practicable and actually achievable within periods specified in section 13252(b)(2) of this title, as modified under section 13254 of this title; 

(2) The rule under subsection (b) or (g) of this section shall also modify the goal described in section 13252(b)(2)(B) of this title and establish a revised goal pursuant to section 13254 of this
title if the Secretary determines, based on the proceeding required under subsection (a) or (c) of this section, that the goal in effect at the time of that proceeding is inadequate or impracticable, and not expected to be achievable. Such goal as modified and established shall be applicable in making the findings described in paragraph (1). If the Secretary modifies the goal under this paragraph, he may also modify the percentages stated in subsection (a)(1) or (g)(1) of this section and the minimum percentage stated in subsection (a)(2) or (g)(2) of this section shall be not less than 10 percent.

(f) Explanation of determination that fleet requirement program is not necessary

If the Secretary determines, based on findings under subsection (b) or (e) of this section, that a fleet requirement program under this section is not necessary, the Secretary shall—

(1) by December 15, 1996, with respect to a rulemaking under subsection (b) of this section; and
(2) by January 1, 2000, with respect to a rulemaking under subsection (e) of this section, publish such determination in the Federal Register as a final agency action, including an explanation of the findings on which such determination is made and the basis for the determination.

(g) Fleet requirement program

(1) If the Secretary determines under subsection (e) of this section that a fleet requirement program under this section is not necessary, the Secretary shall, by January 1, 2000, by rule require that, except as provided in paragraph (2), of the total number of new light duty motor vehicles acquired for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person under section 13251 of this title—

(A) 20 percent of the motor vehicles acquired in model year 2002;
(B) 40 percent of the motor vehicles acquired in model year 2003;
(C) 60 percent of the motor vehicles acquired in model year 2004; and
(D) 70 percent of the motor vehicles acquired in model year 2005 and thereafter,

shall be alternative fueled vehicles.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (g) of this section, establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 2002 (when model year 2003 begins) for initiating the fleet requirements under paragraph (1).

(3) Nothing in this subchapter shall be construed as requiring any fleet to acquire alternative fueled vehicles or alternative fuels that do not meet the normal business requirements and practices of the principal business of the fleet owner.

(4) A vehicle operating only on gasoline that complies with applicable requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] shall not be considered an alternative fueled vehicle under subsection (b) of this section or this subsection, except that the Secretary, as part of the rule under subsection (b) of this section or this subsection, may determine that such vehicle should be treated as an alternative fueled vehicle for purposes of this section, for fleets subject to part C of title II of the Clean Air Act [42 U.S.C. 7581 et seq.], taking into consideration the impact on energy security and the goals stated in section 13252(a) of this title.

(h) Extension of deadlines

The Secretary may, by notice published in the Federal Register, extend the deadlines established under subsections (e), (f)(2), and (g) of this section for an additional 90 days if the Secretary is unable to meet such deadlines. Such extension shall not be reviewable.

(i) Exemptions

(1) A rule issued under subsection (b), (g), or (o) of this section shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, of any fleet from the requirements of subsection (b), (g), or (o) of this section, in whole or in part, if it is demonstrated to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of the fleet owner are not reasonably available for acquisition;
(B) alternative fuels that meet the normal requirements and practices of the principal business of the fleet owner are not available in the area in which the vehicles are to be operated; or
(C) in the case of State and local government entities, the application of such requirements would pose an unreasonable financial hardship.

(2) In the case of private fleets, if the motor vehicles, when under normal operations, are garaged at personal residences at night, such motor vehicles shall be exempt from the requirements of subsections (b) and (g).

(j) Conversions

Nothing in this subchapter or the amendments made by this subchapter shall require a fleet owner to acquire conversion vehicles.

(k) Inclusion of law enforcement vehicles and urban buses

(1) If the Secretary determines, by rule, that the inclusion of fleets of law enforcement motor vehicles in the fleet requirement program established under subsection (g) of this section would contribute to achieving the goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, and the Secretary finds that such inclusion would not hinder the use of the motor vehicles for law enforcement purposes, the Secretary may include such fleets in such program. The Secretary may only initiate one rulemaking under this paragraph.

(2) If the Secretary determines, by rule, that the inclusion of new urban buses, as defined by the Administrator under title II of the Clean Air Act [42 U.S.C. 7521 et seq.], in a fleet requirement program established under subsection (g) of this section would contribute to achieving the goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title.
title, the Secretary may include such urban buses in such program, if the Secretary finds that such application will be consistent with energy security goals and the needs and objectives of encouraging and facilitating the greater use of such urban buses by the public, taking into consideration the impact of such application on public transit entities. The Secretary may only initiate one rulemaking under this paragraph.

(3) Rulemakings under paragraph (1) or (2) shall be separate from a rulemaking under subsection (g) of this section, but may not occur unless a rulemaking is carried out under subsection (g) of this section.

(l) Consideration of factors

In carrying out this section, the Secretary shall take into consideration energy security, costs, safety, lead time requirements, vehicle miles traveled annually, effect on greenhouse gases, technological feasibility, energy requirements, economic impacts, including impacts on workers and the impact on consumers (including users of the alternative fuel for purposes such as for residences, agriculture, process use, and non-fuel purposes) and fleets, the availability of alternative fuels and alternative fueled vehicles, and other relevant factors.

(m) Consultation and participation of other Federal agencies

In carrying out this section and section 13256 of this title, the Secretary shall consult with the Secretary of Transportation, the Administrator, and other appropriate Federal agencies. The Secretary shall provide for the participation of the Secretary of Transportation and the Administrator in the development and issuance of the rule under this section, including the public process concerning such rule.

(n) Petitions

As part of the rule promulgated either pursuant to subsection (b) or (g) of this section, the Secretary shall establish procedures for any fleet owner or operator or motor vehicle manufacturer to request that the Secretary modify or suspend a fleet requirement program established under either subsection nationally, by region, or in an applicable fleet area because, as demonstrated by the petitioner, the infrastructure or fuel supply or distribution system for an applicable alternative fuel is inadequate to meet the needs of a fleet. In the event that the Secretary determines that a modification or suspension of the fleet requirement program on a regional basis would detract from the national-wide character of any fleet requirement program established by rule or would sufficiently diminish the economies of scale for the production of alternative fueled vehicles or alternative fuels and thereafter the practicability and effectiveness of such program, the Secretary may only modify or suspend the program nationally. The procedures shall include provisions for notice and public hearings. The Secretary shall deny or grant the petition within 180 days after filing.

(o) Mandatory State fleet programs

(1) Pursuant to a rule promulgated by the Secretary, beginning in calendar year 1995 (when model year 1996 begins), the following percentages of new light duty motor vehicles acquired annually for State government fleets, including agencies thereof, but not municipal fleets, shall be alternative fueled vehicles:

(A) 10 percent of the motor vehicles acquired in model year 1996;
(B) 15 percent of the motor vehicles acquired in model year 1997;
(C) 25 percent of the motor vehicles acquired in model year 1998;
(D) 50 percent of the motor vehicles acquired in model year 1999;
(E) 75 percent of the motor vehicles acquired in model year 2000 and thereafter.

(2)(A) The Secretary shall within 18 months after October 24, 1992, promulgate a rule providing that a State may submit a plan within 12 months after such promulgation containing a light duty alternative fueled vehicle plan for State fleets to meet the annual percentages established under paragraph (1) for the acquisition of light duty motor vehicles. The plan shall provide for the voluntary conversion or acquisition or combination thereof, beyond any acquisition required by this subchapter, of such motor vehicles by State, local, or private fleets, in numbers greater than or equal to the number of State alternative fueled vehicles required pursuant to paragraph (1).

(B) The plan, if approved by the Secretary, would be in lieu of the State meeting such annual percentages solely through purchases of new State-owned vehicles. All conversions or acquisitions or combinations thereof of any alternative fueled vehicles under the plan must be voluntary and must conform with the requirements of section 247 of the Clean Air Act [42 U.S.C. 7587] and must comply with applicable safety requirements. The Secretary of Transportation shall within 3 years after enactment promulgate rules setting forth safety standards in accordance with chapter 301 of title 49 applicable to all conversions.

(C) is a light-, medium-, or heavy duty motor vehicle or nonroad vehicle (as those terms are defined in section 7550 of this title).

(b) In general

(1) Allocation

The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this subchapter, if that fleet or person acquires an alternative fueled vehicle in excess of the number that fleet or person is required to acquire under this subchapter or that is acquired before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter.

(2) Electric vehicles

Not later than January 31, 2009, the Secretary shall—

(A) allocate credit in an amount to be determined by the Secretary for—

(i) acquisition of—

(I) a hybrid electric vehicle;

(II) a plug-in electric drive vehicle;

(III) a fuel cell electric vehicle;

(IV) a neighborhood electric vehicle; or

(V) a medium- or heavy-duty electric vehicle; and

(ii) investment in qualified alternative fuel infrastructure or nonroad equipment, as determined by the Secretary; and

(B) allocate more than 1, but not to exceed 5, credits for investment in an emerging technology relating to any vehicle described in subparagraph (A) to encourage—

(i) a reduction in petroleum demand;

(ii) technological advancement; and

(iii) a reduction in vehicle emissions.

(c) Allocation

In allocating credits under subsection (b) of this section, the Secretary shall allocate one credit for each alternative fueled vehicle the fleet or covered person acquires that exceeds the number of alternative fueled vehicles that fleet or person is required to acquire under this subchapter or that is acquired before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter.

In the event that a vehicle is acquired before the date otherwise required, the Secretary shall allocate one credit per vehicle for each year the vehicle is acquired before the required date. The credit shall be allocated for the same type vehicle as the excess vehicle or earlier acquired vehicle.

(d) Use of credits

At the request of a fleet or covered person allocated a credit under this section, the Secretary shall treat the credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by that fleet or person when determining whether that fleet or person has complied with this subchapter in the year designated. A credit may be counted toward compliance for only one year.

(e) Transferability

A fleet or covered person allocated a credit under this section or to whom a credit is transferred under this section, may transfer freely the credit to another fleet or person who is required to comply with this subchapter. At the request of the fleet or person to whom a credit is transferred, the Secretary shall treat the transferred credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by the fleet or person to whom the credit is transferred when determining whether that fleet or person has complied with this subchapter in the year designated. A transferred credit may be counted toward compliance for only one year.

In the case of the alternative fuel provider program under section 13251 of this title, a transferred credit may be counted toward compliance only if the requirement of section 13251(a)(4) of this title is met.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2008 through 2013.

CODIFICATION

§ 13263a. Alternative compliance

(a) Application for waiver

Any covered person subject to section 13251 of this title and any State subject to section 13257(o) of this title may petition the Secretary for a waiver of the applicable requirements of section 13251 or 13257(o) of this title.

(b) Grant of waiver

The Secretary shall grant a waiver of the requirements of section 13251 or 13257(o) of this title on a showing that the fleet owned, operated, leased, or otherwise controlled by the State or covered person—

(1) will achieve a reduction in the annual consumption of petroleum fuels by the fleet equal to—

(A) the reduction in consumption of petroleum that would result from 100 percent cumulative compliance with the fuel use requirements of section 13251 of this title; or

(B) in the case of an entity covered under section 13257(o) of this title, a reduction equal to the annual consumption by the State entity of alternative fuels if all of the cumulative alternative fuel vehicles of the State entity given credit under section 13258 of this title were to use alternative fuel 100 percent of the time; and

(2) is in compliance with all applicable vehicle emission standards established by the Administrator of the Environmental Protection Agency under the Clean Air Act (42 U.S.C. 7401 et seq.).

(c) Reporting requirement

Not later than December 31 of a model year, any State or covered person granted a waiver under this section for the preceding model year shall submit to the Secretary an annual report that—

(1) certifies the quantity of the petroleum motor fuel reduction of the State or covered person during the preceding model year; and

(2) projects the baseline quantity of the petroleum motor fuel reduction of the State or covered person during the following model year.

(d) Revocation of waiver

If a State or covered person that receives a waiver under this section fails to comply with this section, the Secretary—

(1) shall revoke the waiver; and

(2) may impose on the State or covered person a penalty under section 13262 of this title.

For the purposes of this subchapter—

(1) the term “antitrust laws” means the Acts [set forth in section 12 of title 15; the terms “innovative systems” includes support and maintenance serv-
ices and facilities, electricity delivery mechanisms and methods, regulatory treatment of investment in electric motor vehicles and associated equipment, consumer education programs, safety and health procedures, and battery availability, replacement, recycling, and disposal, that may be required to enable electric utilities, manufacturers, and others to support the operation and maintenance of electric motor vehicles and associated equipment;

(B) in the case of a leased electric motor vehicle, the difference between the monthly lease payment of such electric motor vehicle over the life of the lease and the monthly lease payment of a comparable conventionally fueled motor vehicle over the life of the lease; and

(12) the term “user” means a person or entity that purchases or leases an electric motor vehicle.

PART A—ELECTRIC MOTOR VEHICLE COMMERCIAL DEMONSTRATION PROGRAM

§ 13281. Program and solicitation

(a) Program

The Secretary shall conduct a program to demonstrate electric motor vehicles and the associated equipment of such vehicles, in consultation with the Electric and Hybrid Vehicle Program Site Operators, manufacturers, the electric utility industry, and such other persons as the Secretary considers appropriate. Such program shall be—

(1) designed to accelerate the development and use of electric motor vehicles; and

beginning of the demonstration project;
(2) the proposer shall provide to the Secretary such information regarding the operation,
maintenance, performance, and use of the electric motor vehicles as the Secretary may request during the period of the demonstration project;
(3) in the case of a demonstration project including automobiles or light duty trucks, the
number of electric motor vehicles to be included in the demonstration project shall be
no less than 50, except that the Secretary may select a demonstration project with fewer
than 50 electric motor vehicles if the Secretary determines that selection of such a proposal
will ensure that there is geographic or climatic diversity among the proposals selected
and that an adequate demonstration to accelerate the development and use of electric
motor vehicles can be undertaken with fewer than 50 electric motor vehicles; and
(4) the procurement practices of the manufacturer do not discriminate against United
States producers of vehicle parts.

§ 13283. Discount payments

(a) Certification
The Secretary shall provide a discount payment to a proposer of a proposal selected under
this part for purposes of reimbursing the proposer for a discount provided to the users if the
proposer certifies to the Secretary that—

(2) The purchase price of the electric motor vehicle, less the discount payment and less any additional reduction in the purchase price of the electric motor vehicle that may result from contributions provided by other parties, may not be less than the manufacturer's suggested retail price of a comparable conventionally fueled motor vehicle.
(3) The maximum discount payment shall be no greater than $10,000 per electric motor vehicle.

§ 13284. Cost-sharing

(a) Requirement
The Secretary shall require at least 50 percent of the costs directly and specifically related to
any project under this part to be from non-Federal sources. Such share may be in the form of
cash, personnel, services, equipment, and other resources.

(b) Reduction
The Secretary may reduce the amount of costs required to be provided by non-Federal sources

If the Secretary determines that the utilization of a clean coal technology is not practicable for a proposed project and that a United States conventional coal technology would constitute a substantial improvement in efficiency, costs, and environmental performance relative to the technology being used in a developing country or country making the transition from nonmarket to market economies, with significant indigenous coal resources, such technology shall, for purposes of sections 13361 and 13362, of this title, be considered a clean coal technology. In the case of combustion technologies, only the retrofit, repowering, or replacement of a conventional technology shall constitute a substantial improvement for purposes of this section. In carrying out this section, the Secretary shall give highest priority to promoting the most environmentally sound and energy efficient technologies.

§13364. Study of utilization of coal combustion byproducts

(a) “Coal combustion byproducts” defined

As used in this section, the term “coal combustion byproducts” means the residues from the combustion of coal including ash, slag, and flue gas desulfurization materials.

(b) Study and report to Congress

(1) The Secretary shall conduct a detailed and comprehensive study on the institutional, legal, and regulatory barriers to increased utilization of coal combustion byproducts by potential governmental and commercial users. Such study shall identify and investigate barriers found to exist at the Federal, State, or local level, which may have limited or may have the foreseeable effect of limiting the quantities of coal combustion byproducts that are utilized. In conducting this study, the Secretary shall consult with other departments and agencies of the Federal Government, appropriate State and local governments, and the private sector.

(2) Not later than one year after October 24, 1992, the Secretary shall submit a report to the Congress containing the results of the study required by paragraph (1) and the Secretary’s recommendations for action to be taken to increase the utilization of coal combustion byproducts. At a minimum, such report shall identify actions that would increase the utilization of coal combustion byproducts in—

(B) stabilizing wastes;
(C) procurement by departments and agencies of the Federal Government and State and local governments; and
(D) federally funded or federally subsidized procurement by the private sector.

§13365. Coal fuel mixtures

Within one year following October 24, 1992, the Secretary shall submit a report to the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on the status of technologies for combining coal with other materials, such as oil or water fuel mixtures. The report shall include—

(1) a technical and economic feasibility assessment of such technologies;
(2) projected developments in such technologies;
(3) an assessment of the market potential of such technologies, including the potential to displace imported crude oil and refined petroleum products;

(C) maintaining a library of technology publications and treaties relating to technology information and data collected pursuant to this section;

(D) organizing and conducting seminars for government officials, utilities, coal companies, and other entities or institutions relating to technology using coal and coal-derived fuels that will improve environmental quality and increase energy independence;

(E) gathering information on research grants made for the purpose of improving or enhancing technology relating to the use of coal, and coal-derived fuels, which will improve environmental quality and increase energy independence;

(F) translating into English foreign research papers, articles, seminar proceedings, test results that affect, or could affect, clean coal use technology, and other documents;

(G) encouraging, during the testing of technologies, the use of coal from a variety of domestic sources, and collecting or developing, or both, complete listings of test results using coals from all sources;

(H) establishing and maintaining an index or compilation of research projects relating to clean coal technology carried out throughout the world; and

(3) conducting economic modeling for feasibility of projects.

(b) Authority to establish clearinghouse

Based upon the assessment under subsection (a) of this section, the Secretary may establish a clearinghouse.

§ 13367. Coal exports

(a) Plan

Within 180 days after October 24, 1992, the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall submit to the appropriate committees of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a plan for expanding exports of coal mined in the United States.

(b) Plan contents

The plan submitted under subsection (a) of this section shall include—

(1) a description of the location, size, and projected growth in potential export markets for coal mined in the United States;

(2) the identification by country of the foreign trade barriers to the export of coal mined in the United States, including foreign coal production and utilization subsidies, tax treatment, labor practices, tariffs, quotas, and other nontariff barriers;

(3) recommendations and a plan for addressing any such trade barriers;

(4) an evaluation of existing infrastructure in the United States and any new infrastructure requirements in the United States to support an expansion of exports of coal mined in the United States, including ports, vessels, rail lines, and any other supporting infrastructure; and

(5) an assessment of environmental implications of coal exports and the identification of export opportunities for blending coal mined in the United States with coal indigenous to other countries to enhance energy efficiency and environmental performance.

§ 13368. Ownership of coalbed methane

(a) Federal lands and mineral rights

In the case of any deposit of coalbed methane where the United States is the owner of the surface estate or where the United States has transferred the surface estate but reserved the subsurface mineral estate, the Secretary of the Interior shall administer this section. This section and the definitions contained herein shall be applicable only on lands within Affected States.

(b) Affected States

Not later than 180 days after October 24, 1992, the Secretary of the Interior, with the participation of the Secretary of Energy, shall publish in the Federal Register a list of Affected States which shall be comprised of States—

(1) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that disputes, uncertainty, or litigation exist, regarding the ownership of coalbed methane gas;

(2) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that development of significant deposits of coalbed methane gas is being impeded by such existing disputes, uncertainty, or litigation regarding ownership of such coalbed methane;

(3) which do not have in effect a statutory or regulatory procedure or existing case law permitting and encouraging the development of coalbed methane gas within that State; and

(4) which do not have extensive development of coalbed methane gas.

The Secretary of the Interior, with the participation of the Secretary of Energy, shall revise such list of Affected States from time to time. Any Affected State shall be deleted from the list of Affected States upon the receipt by the Secretary of the Interior of a Governor's petition requesting such deletion, a State law requesting such deletion, or a resolution requesting such deletion enacted by the legislative body of the State. A Governor intending to petition the Secretary of the Interior to delete a State from the list of Affected States shall provide the State's legislative body with 6 months notice of such petition during a legislative session. At the end of such 6-month period, the Governor may petition the Secretary of the Interior to delete a State...
from the list of Affected States, unless during such 6-month period, the State’s legislative body has enacted a law or resolution disapproving the Governor’s petition. Until the Secretary of the Interior, with the participation of the Secretary of Energy, publishes a different list, the States of West Virginia, Pennsylvania, Kentucky, Ohio, Tennessee, Indiana, and Illinois shall be the Affected States, effective on October 24, 1992. The States of Colorado, Montana, New Mexico, Wyoming, Utah, Virginia, Washington, Mississippi, Louisiana, and Alabama shall not be included on the Secretary of the Interior’s list of Affected States or any extension or revision thereof.

(c) Failure to adopt statutory or regulatory procedure

If an Affected State has not placed in effect, by statute or by regulation, a substantial program promoting the permitting, drilling and production of coalbed methane wells (including pooling arrangements) within that State within 3 years after becoming an Affected State, the Secretary of the Interior, with the participation of the Governor’s petition. Until the Secretary of Energy, shall administer this section and shall promulgate such regulations as are necessary to carry out this section in that State.

(d) Implementation by Secretary of the Interior

In implementing this section, the Secretary of the Interior, with the participation of the Secretary of Energy, shall—

(A) consider existing and future coal mining plans,

(B) preserve the mineability of coal seams, and

(C) provide for the prevention of waste and maximization of recovery of coal and coalbed methane gas in a manner which will protect the rights of all entities owning an interest in such coalbed methane resource.

(e) Spacing

Except where State law in an Affected State contains existing spacing requirements regarding the minimum distance between coalbed methane wells and the minimum distance of a coalbed methane well from a property line, the Secretary of the Interior shall establish such requirements within 90 days after the assertion of jurisdiction pursuant to subsection (c) of this section.

(f) Spacing units

Applications to establish spacing units for the drilling and operation of coalbed methane gas wells may be filed by any entity claiming a coalbed methane ownership interest within a proposed spacing unit. Upon receipt and approval of an application, the Secretary of the Interior shall issue an order establishing the boundaries of the coalbed methane spacing unit. Spacing units shall generally be uniform in size.

(g) Development under pooling arrangement

Following issuance of an order establishing a spacing unit under subsection (f) of this section, and pursuant to an application for pooling filed by the entity claiming a coalbed methane ownership interest and proposing to drill a coalbed methane gas well, the Secretary of the Interior shall hold a hearing to consider the application for pooling and shall, if the criteria of this section are met, issue an order allowing the proposed pooling of acreage within the designated spacing unit for purposes of drilling and production of coalbed methane from the spacing unit. The pooling order shall not be issued before notice or a reasonable and diligent effort to provide notice has been made to each entity which may claim an ownership interest in the coalbed methane gas within such spacing unit and each such entity has been offered an opportunity to appear before the Secretary of the Interior at the hearing. Upon issuance of a pooling order, each owner or claimant of an ownership interest shall be allowed to make one of the following elections:

(1) An election to sell or lease its coalbed methane ownership interest to the unit operator at a rate determined by the Secretary of the Interior as set forth in the pooling order.

(2) An election to become a participating working interest owner by bearing a share of the risks and costs of drilling, completing, equipping, gathering, operating (including all disposal costs), plugging and abandoning the well, and receiving a share of production from the well.

(3) An election to share in the operation of the well as a nonparticipating working interest owner by relinquishing its working interest to participating working interest owners until the proceeds allocable to its share equal 300 percent of the share of such costs allocable to its interest. Thereafter, the nonparticipating working interest owner shall become a participating working interest owner.
