(A) the provision of information concerning the dangers of drug abuse; and
(B) the referral of participants who are suspected drug abusers to drug abuse clinics, treatment programs, counselors, or other drug abuse professionals.

(17) “Competitive bidding” means a procurement process under which the Secretary or a State agency selects a single source (a single infant formula manufacturer) offering the lowest price, as determined by the submission of sealed bids, for a product for which bids are sought for use in the program authorized by this section.

(18) “Rebate” means the amount of money refunded under cost containment procedures to any State agency from the manufacturer or other supplier of the particular food product as the result of the purchase of the supplemental food with a voucher or other purchase instrument by a participant in each such agency’s program established under this section.

(19) “Discount” means, with respect to a State agency that provides program foods to participants without the use of retail grocery stores (such as a State that provides for the home delivery or direct distribution of supplemental food), the amount of the price reduction or other price concession provided to any State agency by the manufacturer or other supplier of the particular food product as the result of the purchase of program food by each such State agency, or its representative, from the supplier.

(20) “Net price” means the difference between the manufacturer’s wholesale price for infant formula and the rebate level or the discount offered or provided by the manufacturer under a cost containment contract entered into with the pertinent State agency.

(21) REMOTE INDIAN OR NATIVE VILLAGE.—The term “remote Indian or Native village” means an Indian or Native village that—
(A) is located in a rural area;
(B) has a population of less than 5,000 inhabitants; and
(C) is not accessible year-around by means of a public road (as defined in section 101 of title 23).

(22) PRIMARY CONTRACT INFANT FORMULA.—The term “primary contract infant formula” means the specific infant formula for which manufacturers submit a bid to a State agency in response to a rebate solicitation under this section and for which a contract is awarded by the State agency as a result of that bid.

(c) Grants-in-aid; cash grants; ratable reduction of amount an agency may distribute; affirmative action; regulations relating to dual receipt of benefits under commodity supplemental food program

(1) The Secretary may carry out a special supplemental nutrition program to assist State agencies through grants-in-aid and other means to provide, through local agencies, at no cost, supplemental foods, nutrition education, and
breastfeeding support and promotion to low-income pregnant, postpartum, and breastfeeding women, infants, and children who satisfy the eligibility requirements specified in subsection (d) of this section. The program shall be supplementary to—

(A) the supplemental nutrition assistance program;

(B) any program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits; and

(C) receipt of food or meals from soup kitchens, or shelters, or other forms of emergency food assistance.

(2) Subject to amounts appropriated to carry out this section under subsection (g) of this section—

(A) the Secretary shall make cash grants to State agencies for the purpose of administering the program, and

(B) any State agency approved eligible local agency that applies to participate in or expand the program under this section shall immediately be provided with the necessary funds to carry out the program.

(3) Nothing in this subsection shall be construed to permit the Secretary to reduce ratably the amount of foods that an eligible local agency shall distribute under the program to participants. The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such program within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of benefits under the commodity supplemental food program and the program under this section.

(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.

(d) Eligible participants

(1) Participation in the program under this section shall be limited to pregnant, postpartum, and breastfeeding women, infants, and children from low-income families who are determined by a competent professional authority to be at nutritional risk.

(2)(A) The Secretary shall establish income eligibility standards to be used in conjunction with the nutritional risk criteria in determining eligibility of individuals for participation in the program. Any individual at nutritional risk shall be eligible for the program under this section only if such individual—

(i) is a member of a family with an income that is less than the maximum income limit prescribed under section 173(b) of this title for free and reduced price meals;

(ii) receives supplemental nutrition assistance program benefits under the Food and Nutrition Act of 2008 [7 U.S.C. 2011 et seq.]; or

(ii) is a member of a family that receives assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.] that the Secretary determines complies with standards established by the Secretary that ensure that the standards under the State program are comparable to or more restrictive than those in effect on June 1, 1995; or

(iii)(I) receives medical assistance under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.]; or

(II) is a member of a family in which a pregnant woman or an infant receives such assistance.

(B) For the purpose of determining income eligibility under this section, any State agency may choose to exclude from income—

(i) any basic allowance—

(I) for housing received by military service personnel residing off military installations;

or

(II) provided under section 403 of title 37 for housing that is acquired or constructed under subchapter IV of chapter 169 of title 10 or any related provision of law; and

(ii) any cost-of-living allowance provided under section 475 of title 37 to a member of a uniformed service who is on duty outside the contiguous States of the United States.

(C) COMBAT PAY.—For the purpose of determining income eligibility under this section, a State agency shall exclude from income any additional payment under chapter 5 of title 37, or otherwise designated by the Secretary to be appropriate for exclusion under this subparagraph, that is received by or from a member of the United States Armed Forces deployed to a designated combat zone, if the additional pay—

(i) is the result of deployment to or service in a combat zone; and

(ii) was not received immediately prior to serving in a combat zone.

(D) In the case of a pregnant woman who is otherwise ineligible for participation in the program because the family of the woman is of insufficient size to meet the income eligibility standards of the program, the pregnant woman shall be considered to have satisfied the income eligibility standards if, by increasing the number of individuals in the family of the woman by 1 individual, the income eligibility standards would be met.

(3) Certification—

(A) Procedures.—

(i) IN GENERAL.—Subject to clause (ii), a person shall be certified for participation in accordance with general procedures prescribed by the Secretary.

(ii) BREASTFEEDING WOMEN.—A State may elect to certify a breastfeeding woman for a period of 1 year postpartum or until a woman discontinues breastfeeding, whichever is earlier.

(iii) CHILDREN.—A State may elect to certify participant children for a period of up to 1 year, if the State electing the option provided under this clause ensures that participant children receive required health and nutrition assessments.
(B) A State may consider pregnant women who meet the income eligibility standards to be presumptively eligible to participate in the program and may certify the women for participation immediately, without delaying certification until an evaluation is made concerning nutritional risk. A nutritional risk evaluation of such a woman shall be completed not later than 60 days after the woman is certified for participation. If it is subsequently determined that the woman does not meet nutritional risk criteria, the certification of the woman shall terminate on the date of the determination.

(C) PHYSICAL PRESENCE.—

(i) IN GENERAL.—Except as provided in clause (ii) and subject to the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and section 794 of title 29, each individual seeking certification or recertification for participation in the program shall be physically present at each certification or recertification determination in order to determine eligibility under the program.

(ii) WAIVERS.—If the agency determines that the requirement of clause (i) would present an unreasonable barrier to participation, a local agency may waive the requirement of clause (i) with respect to—

(I) an infant or child who—

(aa) was present at the initial certification visit; and

(bb) is receiving ongoing health care;

(II) an infant or child who—

(aa) was present at the initial certification visit;

(bb) was present at a certification or recertification determination within the 1-year period ending on the date of the certification or recertification determination described in clause (i); and

(cc) has one or more parents who work; and

(III) an infant under 8 weeks of age—

(aa) who cannot be present at certification for a reason determined appropriate by the local agency; and

(bb) for whom all necessary certification information is provided.

(D) INCOME DOCUMENTATION.—

(i) IN GENERAL.—Except as provided in clause (ii), in order to participate in the program pursuant to clause (i) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of family income.

(ii) WAIVERS.—A State agency may waive the documentation requirement of clause (i), in accordance with criteria established by the Secretary, with respect to—

(I) an individual for whom the necessary documentation is not available; or

(II) an individual, such as a homeless woman or child, for whom the agency determines the requirement of clause (i) would present an unreasonable barrier to participation.

(E) ADJUNCT DOCUMENTATION.—In order to participate in the program pursuant to clause (ii) or (iii) of paragraph (2)(A), an individual seeking certification or recertification for participation in the program shall provide documentation of receipt of assistance described in that clause.

(F) PROOF OF RESIDENCY.—An individual residing in a remote Indian or Native village may, under standards established by the Secretary, establish proof of residency under this section by providing to the State agency the mailing address of the individual and the name of the remote Indian or Native village.

(e) Nutrition education and drug abuse education

(1) The State agency shall ensure that nutrition education and drug abuse education is provided to all pregnant, postpartum, and breastfeeding participants in the program and to parents or caretakers of infants and children participating in the program. The State agency may also provide nutrition education and drug abuse education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children enrolled at local agencies operating the program under this section who do not participate in the program. A local agency participating in the program shall provide education or educational materials relating to the effects of drug and alcohol use by a pregnant, postpartum, or breastfeeding woman on the developing child of the woman.

(2) The Secretary shall prescribe standards to ensure that adequate nutrition education services and breastfeeding promotion and support are provided. The State agency shall provide training to persons providing nutrition education, including breastfeeding support and education, under this section.

(3) NUTRITION EDUCATION MATERIALS.—

(A) IN GENERAL.—The Secretary shall, after submitting proposed nutrition education materials to the Secretary of Health and Human Services for comment, issue such materials for use in the program under this section.

(B) SHARING OF MATERIALS WITH OTHER PROGRAMS.—

(i) COMMODITY SUPPLEMENTAL FOOD PROGRAM.—The Secretary may provide, in bulk quantity, nutrition education materials (including materials promoting breastfeeding) developed with funds made available for the program authorized under this section to State agencies administering the commodity supplemental food program established under section 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note; Public Law 95-86) at no cost to that program.

(ii) CHILD AND ADULT CARE FOOD PROGRAM.—A State agency may allow the local agencies or clinics under the State agency to share nutrition educational materials with institutions participating in the child and adult care food program established under section 1766 of this title at no cost to that program, if a written materials sharing agreement exists between the relevant agencies.
§ 1786

(f) Plan of operation and administration by State treatment.

(1) Each State agency shall submit to the Secretary, by a date specified by the Secretary, an initial plan of operation and administration for a fiscal year. After submitting the initial plan, a State shall be required to submit to the Secretary for approval only a substantive change in the plan.

(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

(C) The plan shall include—

(i) a description of the food delivery system of the State agency and the method of enabling participants to receive supplemental foods under the program at any of the authorized retail stores under the program, to be administered in accordance with standards developed by the Secretary, including a description of the State agency's vendor peer group system, competitive price criteria, and allowable reimbursement levels that demonstrate that the State is in compliance with the cost-containment provisions in subsection (h)(11) of this section;

(ii) procedures for accepting and processing vendor applications outside of the established timeframes if the State agency determines there will be inadequate access to the program, including in a case in which a previously authorized vendor sells a store under circumstances that do not permit timely notification to the State agency of the change in ownership;

(iii) a description of the financial management system of the State agency;

(iv) a plan to coordinate operations under the program with other services or programs that may benefit participants in, and applicants for, the program;

(v) a plan to provide program benefits under this section to, and to meet the special nutritional education needs of, eligible migrants, homeless individuals, and Indians;

(vi) a plan to expend funds to carry out the program during the relevant fiscal year;

(vii) a plan to provide program benefits under this section to unserved and underserved areas in the State (including a plan to improve access to the program for participants and prospective applicants who are employed, or who reside in rural areas), if sufficient funds are available to carry out this clause;

(viii) a plan for reaching and enrolling eligible women in the early months of pregnancy, including provisions to reach and enroll eligible migrants;

(ix) a plan to provide nutrition education and promote breastfeeding; and

(x) such other information as the Secretary may reasonably require.

(D) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).

(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.

(3) The Secretary shall establish procedures under which eligible migrants may, to the maximum extent feasible, continue to participate in the program under this section when they are present in States other than the State in which they were originally certified for participation in the program and shall ensure that local programs provide priority consideration to serving migrant participants who are residing in the State for a limited period of time. Each State agency shall be responsible for administering the program for migrant populations within its jurisdiction.

(4) State agencies shall submit monthly financial reports and participation data to the Secretary.

(5) State and local agencies operating under the program shall keep such accounts and records, including medical records, as may be necessary to enable the Secretary to determine whether there has been compliance with this section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall be retained by the State agencies and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(A) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to par-
The Secretary shall establish a shorter notification period for categories of persons who, due to special nutritional risk conditions, must receive benefits more expeditiously.

(9) The Secretary may disapprove a State plan with respect to the issuance of vouchers by mail in its plan submitted under paragraph (1). The Secretary may disapprove a State plan with respect to the issuance of vouchers by mail in any specified jurisdiction or part of a jurisdiction within a State only if the Secretary finds that such issuance would pose a significant threat to the integrity of the program under this section in such jurisdiction or part of a jurisdiction.

(7)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significantly large numbers of potentially eligible individuals (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, organizations and agencies serving homeless individuals and shelters for victims of domestic violence, and religious and community organizations in low income areas).

(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible individuals who are most in need of the benefits, including pregnant women in the early months of pregnancy.

(D) Each local agency operating the program within a hospital and each local agency operating the program that has a cooperative arrangement with a hospital shall—

(i) advise potentially eligible individuals that receive inpatient or outpatient prenatal, maternity, or postpartum services, or accompany a child under the age of 5 who receives well-child services, of the availability of program benefits; and

(ii) to the extent feasible, provide an opportunity for individuals who may be eligible to be certified within the hospital for participation in such program.

(8)(A) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(B) Any State agency that must suspend or terminate benefits to any participant during the participant’s certification period due to a shortage of funds for the program shall first issue a notice to such participant.

(10) The Secretary shall establish standards for the proper, efficient, and effective administration of the program. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such amounts of the State agency’s funds for nutrition services and administration as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(11) **SUPPLEMENTAL FOODS.**—

(A) **IN GENERAL.**—The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section.

(B) **APPROPRIATE CONTENT.**—To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate.

(C) **REVIEW OF AVAILABLE SUPPLEMENTAL FOODS.**—As frequently as determined by the Secretary to be necessary to reflect the most recent scientific knowledge, but not less than every 10 years, the Secretary shall—

(i) conduct a scientific review of the supplemental foods available under the program; and

(ii) amend the supplemental foods available, as necessary, to reflect nutrition science, public health concerns, and cultural eating patterns.

(12) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns, and, in the case of homeless individuals, the special needs and problems of such individuals.

(13) The State agency may (A) provide nutrition education, breastfeeding promotion, and drug abuse education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(14) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.

(15) To be eligible to participate in the program authorized by this section, a manufacturer...
of infant formula that supplies formula for the program shall—
(A) register with the Secretary of Health and Human Services under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.); and
(B) before bidding for a State contract to supply infant formula for the program, certify with the State health department that the formula complies with such Act and regulations issued pursuant to such Act.

(16) The State agency may adopt methods of delivering benefits to accommodate the special needs and problems of homeless individuals.

(17) Notwithstanding subsection (d)(2)(A)(i) of this section, not later than July 1 of each year, a State agency may implement income eligibility guidelines under this section concurrently with the implementation of income eligibility guidelines under the medicaid program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(18) Each local agency participating in the program under this section may provide information about other potential sources of food assistance in the local area to individuals who apply in person to participate in the program under this section, but who cannot be served because the program is operating at capacity in the local area.

(19) The State agency shall adopt policies that—
(A) require each local agency to attempt to contact each pregnant woman who misses an appointment to apply for participation in the program under this section, in order to reschedule the appointment, unless the phone number and the address of the woman are unavailable to such local agency; and
(B) in the case of local agencies that do not routinely schedule appointments for individuals seeking to apply or be recertified for participation in the program under this section, require each such local agency to schedule appointments for each employed individual seeking to apply or be recertified for participation in such program so as to minimize the time each such individual is absent from the workplace due to such application or request for recertification.

(20) Each State agency shall conduct monitoring reviews of each local agency at least biennially.

(21) Use of Claims from Local Agencies, Vendors, and Participants.—A State agency may use funds recovered from local agencies, vendors, and participants, as a result of a claim arising under the program, to carry out the program during—
(A) the fiscal year in which the claim arises; and
(B) the fiscal year in which the funds are collected; and
(C) the fiscal year following the fiscal year in which the funds are collected.

(22) The Secretary and the Secretary of Health and Human Services shall carry out an initiative to ensure that, in a case in which a State medicaid program uses coordinated care providers under a contract entered into under section 1903(m), or a waiver granted under section 1915(b), of the Social Security Act (42 U.S.C. 1396(m) or 1396n(b)), coordination between the program authorized by this section and the medicaid program is continued, including—
(A) the referral of potentially eligible women, infants, and children between the 2 programs; and
(B) the timely provision of medical information related to the program authorized by this section to agencies carrying out the program.

(23) Individuals Participating at More Than One Site.—Each State agency shall implement a system designed by the State agency to identify individuals who are participating at more than one site under the program.

(24) High Risk Vendors.—Each State agency shall—
(A) identify vendors that have a high probability of program abuse; and
(B) conduct compliance investigations of the vendors.

(25) Infant Formula Benefits.—A State agency may round up to the next whole can of infant formula to allow all participants under the program to receive the full-authorized nutritional benefit specified by regulation.

(26) Notification of Violations.—If a State agency finds that a vendor has committed a violation that requires a pattern of occurrences in order to impose a penalty or sanction, the State agency shall notify the vendor of the initial violation in writing prior to documentation of another violation, unless the State agency determines that notifying the vendor would compromise an investigation.

(g) Authorization of Appropriations

(1) In General.—
(A) Authorization.—There are authorized to be appropriated to carry out this section such sums as are necessary for each of fiscal years 2010 through 2015.

(B) Advance Appropriations; Availability.—As authorized by section 1752 of this title, appropriations to carry out the provisions of this section may be made not more than 1 year in advance of the beginning of the fiscal year in which the funds will become available for disbursement to the States, and shall remain available for the purposes for which appropriated until expended.

(2) (A) Notwithstanding any other provision of law, unless enacted in express limitation of this subparagraph, the Secretary—
(i) in the case of legislation providing funds through the end of a fiscal year, shall issue—
(I) an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 15-day period beginning on the date of the enactment of such legislation; and
(II) subsequent allocations of funds provided by the enactment of such legislation not later than the beginning of each of the second, third, and fourth quarters of the fiscal year; and
(ii) in the case of legislation providing funds for a period that ends prior to the end of a fiscal year, shall issue an initial allocation of funds provided by the enactment of such legislation not later than the expiration of the 10-
day period beginning on the date of the enactment of such legislation.
(B) In any fiscal year—
(i) unused amounts from a prior fiscal year that are identified by the end of the first quarter of the fiscal year shall be recovered and reallocated not later than the beginning of the second quarter of the fiscal year; and
(ii) unused amounts from a prior fiscal year that are identified after the end of the first quarter of the fiscal year shall be recovered and reallocated on a timely basis.
(3) Notwithstanding any other provision of law, unless enacted in express limitation of this paragraph—
(A) the allocation of funds required by paragraph (2)(A)(i)(I) shall include not less than ½ of the amounts appropriated by the legislation described in such paragraph;
(B) the allocations of funds required by paragraph (2)(A)(i)(II) to be made not later than the beginning of the second and third quarters of the fiscal year shall each include not less than ½ of the amounts appropriated by the legislation described in such paragraph; and
(C) in the case of the enactment of legislation providing appropriations for a period of not more than 4 months, the allocation of funds required by paragraph (2)(A)(i) shall include all amounts appropriated by such legislation except amounts reserved by the Secretary for purposes of carrying out paragraph (5).
(4) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.
(5) Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed $15,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, preparing reports on program participant characteristics, providing technical assistance to improve State agency administrative systems, administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations, and carrying out technical assistance and research evaluation projects of the programs under this section.
(h) Funds for nutrition services and administration
(1)(A) Each fiscal year, the Secretary shall make available, from amounts appropriated for such fiscal year under subsection (g)(1) of this section and amounts remaining from amounts appropriated under such subsection for the preceding fiscal year, an amount sufficient to guarantee a national average per participant grant for nutrition services and administration incurred by State and local agencies for such year.
(B)(i) The amount of the national average per participant grant for nutrition services and administration for any fiscal year shall be an amount equal to the amount of the national average per participant grant for nutrition services and administration issued for the preceding fiscal year, as adjusted.
(ii) Such adjustment, for any fiscal year, shall be made by revising the national average per participant grant for nutrition services and administration for the preceding fiscal year to reflect the percentage change between—
(I) the value of the index for State and local government purchases, as published by the Bureau of Economic Analysis of the Department of Commerce, for the 12-month period ending June 30 of the second preceding fiscal year; and
(II) the best estimate that is available as of the start of the fiscal year of the value of such index for the 12-month period ending June 30 of the previous fiscal year.
(C) REMAINING AMOUNTS.—
(I) IN GENERAL.—Except as provided in clause (ii), in any fiscal year, amounts remaining from amounts appropriated for the preceding fiscal year under subsection (g)(1) of this section and from amounts appropriated under such section for the preceding fiscal year, after carrying out subparagraph (A), shall be made available for food benefits under this section, except to the extent that such amounts are needed to carry out the purposes of subsections (g)(4) and (g)(5) of this section.
(ii) BREAST PUMPS.—A State agency may use amounts made available under clause (i) for the purchase of breast pumps.
(2)(A) The Secretary shall allocate to each State agency from the amount described in paragraph (1)(A) an amount for costs of nutrition services and administration on the basis of a formula prescribed by the Secretary. Such formula—
(i) shall be designed to take into account—
(I) the varying needs of each State;
(II) the number of individuals participating in each State; and
(III) other factors which serve to promote the proper, efficient, and effective administration of the program under this section;
(ii) shall provide for each State agency—
(I) an estimate of the number of participants for the fiscal year involved; and
(II) a per participant grant for nutrition services and administration for such year; and
(iii) shall provide for a minimum grant amount for State agencies; and
(iv) may provide funds to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.
(B)(i) Except as provided in clause (ii) and subparagraph (C), in any fiscal year, the total amount allocated to a State agency for costs of nutrition services and administration under the formula prescribed by the Secretary under subparagraph (A) shall constitute the State agency's operational level for such costs for such year even if the number of participants in the program at such agency is lower than the estimate provided under subparagraph (A)(ii)(I).
§ 1786. If a State agency’s per participant expenditure for nutrition services and administration is more than 10 percent (except that the Secretary may establish a higher percentage for State agencies that are small) higher than its per participant grant for nutrition services and administration without good cause, the Secretary may reduce such State agency’s operational level for costs of nutrition services and administration.

(C) In any fiscal year, the Secretary may reallocate amounts provided to State agencies under subparagraph (A) for such fiscal year. When reallocating amounts under the preceding sentence, the Secretary may provide additional amounts to, or recover amounts from, any State agency.

(3)(A) Except as provided in subparagraphs (B) and (C), in each fiscal year, each State agency shall expend—

(i) for nutrition education activities and breastfeeding promotion and support activities, an aggregate amount that is not less than the sum of—

(I) 1⁄6 of the amounts expended by the State for costs of nutrition services and administration; and

(II) except as otherwise provided in subparagraphs (F) and (G), an amount equal to a proportionate share of the national minimum breastfeeding promotion expenditure, as described in subparagraph (E), with each State’s share determined on the basis of the number of pregnant women and breastfeeding women in the program in the State as a percentage of the number of pregnant women and breastfeeding women in the program in all States; and

(ii) for breastfeeding promotion and support activities an amount that is not less than the amount determined for such State under clause (I)(II).

(B) The Secretary may authorize a State agency to expend an amount less than the amount described in subparagraph (A)(ii) for purposes of breastfeeding promotion and support activities if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct nutrition education activities at a level commensurate with the level at which such activities would be conducted if the amount described in subparagraph (A)(ii) were expended for such activities.

(C) The Secretary may authorize a State agency to expend for purposes of nutrition education an amount that is less than the difference between the aggregate amount described in subparagraph (A) and the amount expended by the State for breastfeeding promotion and support programs if—

(i) the State agency so requests; and

(ii) the request is accompanied by documentation that other funds will be used to conduct such activities.

(D) The Secretary shall limit to a minimal level any documentation required under this paragraph.

(E) For each fiscal year, the national minimum breastfeeding promotion expenditure means an amount that is—

(i) equal to $21 multiplied by the number of pregnant women and breastfeeding women participating in the program nationwide, based on the average number of pregnant women and breastfeeding women so participating during the last 3 months for which the Secretary has final data; and

(ii) adjusted for inflation on October 1, 1996, and each October 1 thereafter, in accordance with paragraph (I)(B)(ii).

(4) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall—

(i) in consultation with the Secretary of Health and Human Services, develop a definition of breastfeeding for the purposes of the program under this section;

(ii) authorize the purchase of breastfeeding aids by State and local agencies as an allowable expense under nutrition services and administration;

(iii) require each State agency to designate an agency staff member to coordinate breastfeeding promotion efforts identified in the State plan of operation and administration;

(iv) require the State agency to provide training on the promotion and management of breastfeeding to staff members of local agencies who are responsible for counseling participants in the program under this section concerning breastfeeding;

(v) not later than 1 year after November 2, 1994, develop uniform requirements for the collection of data regarding the incidence and duration of breastfeeding among participants in the program;

(vi) partner with communities, State and local agencies, employers, health care professionals, and other entities in the private sector to build a supportive breastfeeding environment for women participating in the program under this section to support the breastfeeding goals of the Healthy People initiative; and

(vii) annually compile and publish breastfeeding performance measurements based on program participant data on the number of partially and fully breast-fed infants, including breastfeeding performance measurements for—

(I) each State agency; and

(II) each local agency;

(viii) in accordance with subparagraph (B), implement a program to recognize exemplary breastfeeding support practices at local agencies or clinics participating in the special supplemental nutrition program established under this section; and

(ix) in accordance with subparagraph (C), implement a program to provide performance bonuses to State agencies.

(B) EXEMPLARY BREASTFEEDING SUPPORT PRACTICES.—

(i) IN GENERAL.—In evaluating exemplary practices under subparagraph (A)(viii), the Secretary shall consider—

(I) performance measurements of breastfeeding;

(II) the effectiveness of a peer counselor program;
(III) the extent to which the agency or clinic has partnered with other entities to build a supportive breastfeeding environment for women participating in the program; and

(IV) such other criteria as the Secretary considers appropriate after consultation with State and local program agencies.

(ii) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the activities described in clause (viii) of subparagraph (A) such sums as are necessary.

(C) PERFORMANCE BONUSES.—

(i) IN GENERAL.—Following the publication of breastfeeding performance measurements under subparagraph (A)(vii), the Secretary shall provide performance bonus payments to not more than 15 State agencies that demonstrate, as compared to other State agencies participating in the program—

(I) the highest proportion of breast-fed infants; or

(II) the greatest improvement in proportion of breast-fed infants.

(ii) CONSIDERATION.—In providing performance bonus payments to State agencies under this subparagraph, the Secretary shall consider the proportion of fully breast-fed infants in the States.

(iii) USE OF FUNDS.—A State agency that receives a performance bonus under clause (i) shall treat the funds as program income; and

(II) may transfer the funds to local agencies for use in carrying out the program.

(iv) IMPLEMENTATION.—The Secretary shall provide the first performance bonuses not later than 1 year after December 13, 2010, and may subsequently revise the criteria for awarding performance bonuses; and 1

(5)(A) Subject to subparagraph (B), in any fiscal year that a State agency submits a plan to reduce average food costs per participant and to increase participation above the level estimated for the State agency, the State agency may, with the approval of the Secretary, convert amounts allocated for food benefits for such fiscal year for costs of nutrition services and administration to the extent that such conversion is necessary—

(I) to cover allowable expenditures in such fiscal year; and

(ii) to ensure that the State agency maintains the level established for the per participant grant for nutrition services and administration for such fiscal year.

(B) If a State agency increases its participation level through measures that are not in the nutritional interests of participants or not otherwise allowable (such as reducing the quantities of foods provided for reasons not related to nutritional need), the Secretary may refuse to allow the State agency to convert amounts allocated for food benefits to defray costs of nutrition services and administration.

1So in original. The ";" and "or" probably should be a period.

(C) For the purposes of this paragraph, the term "acceptable measures" includes use of cost containment measures, curtailment of vendor abuse, and breastfeeding promotion activities.

(D) REMOTE INDIAN OR NATIVE VILLAGES.—For noncontiguous States containing a significant number of remote Indian or Native villages, a State agency may convert amounts allocated for food benefits for a fiscal year to the costs of nutrition services and administration to the extent that the conversion is necessary to cover expenditures incurred in providing services (including the full cost of air transportation and other transportation) to remote Indian or Native villages and to provide breastfeeding support in remote Indian or Native villages.

(6) In each fiscal year, each State agency shall provide, from the amounts allocated to such agency for such year for costs of nutrition services and administration, an amount to each local agency for its costs of nutrition services and administration. The amount to be provided to each local agency under the preceding sentence shall be determined under allocation standards developed by the State agency in cooperation with the several local agencies, taking into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as—

(A) local agency staffing needs;

(B) density of population;

(C) number of individuals served; and

(D) availability of administrative support from other sources.

(7) The State agency may provide in advance to any local agency any amounts for nutrition services and administration deemed necessary for successful commencement or significant expansion of program operations during a reasonable period following approval of—

(A) a new local agency;

(B) a new cost containment measure; or

(C) a significant change in an existing cost containment measure.

(8)(A)(i) Except as provided in subparagraphs (B) and (C)(iii), any State that provides for the purchase of foods under the program at retail grocery stores shall, with respect to the procurement of infant formula, use—

(I) a competitive bidding system; or

(ii) any other cost containment measure that yields savings equal to or greater than savings generated by a competitive bidding system when such savings are determined by comparing the amounts of savings that would be provided over the full term of contracts offered in response to a single invitation to submit both competitive bids and bids for other cost containment systems for the sale of infant formula.

(ii) In determining whether a cost containment measure other than competitive bidding yields equal or greater savings, the State, in accordance with regulations issued by the Secretary, may take into account other cost factors (in addition to rebate levels and procedures for adjusting rebate levels when wholesale price levels change), such as—

(I) the number of infants who would not be expected to receive the primary contract in-
infant formula under a competitive bidding system;

(II) the number of cans of infant formula for which no rebate would be provided under another rebate system; and

(III) differences in administrative costs relating to the implementation of the various cost containment systems (such as costs of converting a computer system for the purpose of operating a cost containment system and costs of preparing participants for conversion to a new or alternate cost containment system).

(iii) COMPETITIVE BIDDING SYSTEM.—A State agency using a competitive bidding system for infant formula shall award contracts to bidders offering the lowest net price for a specific infant formula for which manufacturers submit a bid unless the State agency demonstrates to the satisfaction of the Secretary that the weighted average retail price for different brands of infant formula in the State does not vary by more than 5 percent.

(iv) SIZE OF STATE ALLIANCES.—

(I) IN GENERAL.—Except as provided in subclauses (II) through (IV), no State alliance may exist among States if the total number of infants served by States participating in the alliance as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, would exceed 100,000.

(II) ADDITION OF INFANT PARTICIPANTS.—In the case of a State alliance that exists on June 30, 2004, the alliance may continue and may expand to serve more than 100,000 infants but, except as provided in clause (III), may not expand to include any additional State agency.

(III) ADDITION OF SMALL STATE AGENCIES AND INDIAN STATE AGENCIES.—Except as provided in paragraph (9)(B)(III), any State alliance may expand to include any State agency that served less than 5,000 infant participants as of October 1, 2003, or such subsequent date determined by the Secretary for which data is available, or any Indian State agency, if the State agency or Indian State agency requests to join the State alliance.

(IV) SECRETARIAL WAIVER.—The Secretary may waive the requirements of this clause not earlier than 30 days after submitting to the Committee on Education and the Workforce of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a written report that describes the cost-containment and competitive benefits of the proposed waiver.

(v) FIRST CHOICE OF ISSUANCE.—The State agency shall use the primary contract infant formula as the first choice of issuance (by formula type), with all other infant formulas issued as an alternative to the primary contract infant formula.

(vi) REBATE INVOICES.—Effective beginning October 1, 2004, each State agency shall have a system to ensure that infant formula rebate invoices, under competitive bidding, provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section.

(vii) SEPARATE SOLICITATIONS.—In soliciting bids for infant formula under a competitive bidding system, any State agency, or State alliance, that served under the program a monthly average of more than 100,000 infants during the preceding 12-month period shall solicit bids from infant formula manufacturers under procedures that require that bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately.

(viii) CENT-FOR-CENT ADJUSTMENTS.—A bid solicitation for infant formula under the program shall require the manufacturer to adjust for price changes subsequent to the opening of the bidding process in a manner that requires—

(I) a cent-for-cent increase in the rebate amounts if there is an increase in the lowest national wholesale price for a full truckload of the particular infant formula; and

(II) a cent-for-cent decrease in the rebate amounts if there is a decrease in the lowest national wholesale price for a full truckload of the particular infant formula.

(ix) LIST OF INFANT FORMULA WHOLESALERS, DISTRIBUTORS, RETAILERS, AND MANUFACTURERS.—The State agency shall maintain a list of—

(I) infant formula wholesalers, distributors, and retailers licensed in the State in accordance with State law (including regulations); and

(II) infant formula manufacturers registered with the Food and Drug Administration that provide infant formula.

(x) PURCHASE REQUIREMENT.—A vendor authorized to participate in the program under this section shall only purchase infant formula from the list described in clause (ix).

(B)(i) The Secretary shall waive the requirement of subparagraph (A) in the case of any State that demonstrates to the Secretary that—

(I) compliance with subparagraph (A) would be inconsistent with efficient or effective operation of the program operated by such State under this section; or

(II) the amount by which the savings yielded by an alternative cost containment system would be less than the savings yielded by a competitive bidding system is sufficiently minimal that the difference is not significant.

(ii) The Secretary shall prescribe criteria under which a waiver may be granted pursuant to clause (i).

(iii) The Secretary shall provide information on a timely basis to the Committee on Education and Labor of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on waivers that have been granted under clause (i).

(C)(i) The Secretary shall provide technical assistance to small Indian State agencies carrying out this paragraph in order to assist such agencies to achieve the maximum cost containment savings feasible.

(ii) The Secretary shall also provide technical assistance, on request, to State agencies that desire to consider a cost containment system that covers more than 1 State agency.

(iii) The Secretary may waive the requirement of subparagraph (A) in the case of any Indian
State agency that has not more than 1,000 participants.

(D) No State may enter into a cost containment contract (in this subparagraph referred to as the “original contract”) that prescribes conditions that would void, reduce the savings under, or otherwise limit the original contract if the State solicited or secured bids for, or entered into, a subsequent cost containment contract to take effect after the expiration of the original contract.

(E) The Secretary shall offer to solicit bids on behalf of State agencies regarding cost-containment contracts to be entered into by infant formula manufacturers and State agencies. The Secretary shall make the offer to State agencies once every 12 months. Each such bid solicitation shall only take place if two or more State agencies request the Secretary to perform the solicitation. For such State agencies, the Secretary shall solicit bids and select the winning bidder for a cost containment contract to be entered into by State agencies and infant formula manufacturers or suppliers.

(F) In soliciting bids for contracts for infant formula for the program authorized by this section, the Secretary shall solicit bids from infant formula manufacturers under procedures in which bids for rebates or discounts are solicited for milk-based and soy-based infant formula separately, except where the Secretary determines that such solicitation procedures are not in the best interest of the program.

(G) To reduce the costs of any supplemental foods, the Secretary may make available additional funds to State agencies out of the funds otherwise available under paragraph (1)(A) for nutrition services and administration in an amount not exceeding one half of 1 percent of the amounts to help defray reasonable anticipated expenses associated with innovations in cost containment or associated with procedures that tend to enhance competition.

(H)(i) Any person, company, corporation, or other legal entity that submits a bid to supply infant formula to carry out the program authorized by this section and announces or otherwise discloses the amount of the bid, or the rebate or discount practices of such entities, in advance of the time the bids are opened by the Secretary or the State agency, or any person, company, corporation, or other legal entity that makes a statement (prior to the opening of bids) relating to levels of rebates or discounts, for the purpose of influencing a bid submitted by any other person, shall be ineligible to submit bids to supply infant formula to the program for the bidding in progress for up to 2 years from the date the bids are opened and shall be subject to a civil penalty of up to $100,000,000, as determined by the Secretary, to provide restitution to the program for harm done to the program. The Secretary shall issue regulations providing such person, company, corporation, or other legal entity appropriate notice, and an opportunity to be heard and to respond to charges.

(ii) The Secretary shall determine the length of the disqualification, and the amount of the civil penalty referred to in clause (i) based on such factors as the Secretary by regulation determines appropriate.

(iii) Any person, company, corporation, or other legal entity disqualified under clause (i) shall remain obligated to perform any requirements under any contract to supply infant formula existing at the time of the disqualification and until each such contract expires by its terms.

(I) Not later than the expiration of the 180-day period beginning on October 24, 1992, the Secretary shall prescribe regulations to carry out this paragraph.

(J) A State shall not incur any interest liability to the Federal Government on rebate funds for infant formula and other foods if all interest earned by the State on the funds is used for program purposes.

(K) REPORTING.—Effective beginning October 1, 2011, each State agency shall report rebate payments received from manufacturers in the month in which the payments are received, rather than in the month in which the payments were earned.

(9) COST CONTAINMENT MEASURE.—

(A) DEFINITION OF COST CONTAINMENT MEASURE.—In this subsection, the term “cost containment measure” means a competitive bidding, rebate, direct distribution, or home delivery system implemented by a State agency as described in the approved State plan of operation and administration of the State agency.

(B) SOLICITATION AND REBATE BILLING REQUIREMENTS.—Any State agency instituting a cost containment measure for any authorized food, including infant formula, shall—

(i) in the bid solicitation—

(I) identify the composition of State alliances for the purposes of a cost containment measure; and

(II) verify that no additional States shall be added to the State alliance between the date of the bid solicitation and the end of the contract;

(ii) have a system to ensure that rebate invoices under competitive bidding provide a reasonable estimate or an actual count of the number of units sold to participants in the program under this section;

(iii) open and read aloud all bids at a public proceeding on the day on which the bids are due; and

(iv) unless otherwise exempted by the Secretary, provide a minimum of 30 days between the publication of the solicitation and the date on which the bids are due.

(C) STATE ALLIANCES FOR AUTHORIZED FOODS OTHER THAN INFANT FORMULA.—Program requirements relating to the size of State alliances under paragraph (8)(A)(iv) shall apply to cost containment measures established for any authorized food under this section.

(10) FUNDS FOR INFRASTRUCTURE, MANAGEMENT INFORMATION SYSTEMS, AND SPECIAL NUTRITION EDUCATION.—

(A) IN GENERAL.—For each of fiscal years 2010 through 2015, the Secretary shall use for the purposes specified in subparagraph (B) $139,000,000 (as adjusted annually for inflation by the same factor used to determine the national average per participant grant for nutri-
tion services and administration for the fiscal year under paragraph (1)(B).

(B) PURPOSES.—Subject to subparagraph (C), of the amount made available under subparagraph (A) for a fiscal year—

(i) $14,000,000 shall be used for—

(I) infrastructure for the program under this section;

(II) special projects to promote breastfeeding, including projects to assess the effectiveness of particular breastfeeding promotion strategies; and

(III) special State projects of regional or national significance to improve the services of the program;

(ii) $35,000,000 shall be used to establish, improve, or administer management information systems for the program, including changes necessary to meet new legislative or regulatory requirements of the program, of which up to $5,000,000 may be used for Federal administrative costs; and

(iii) $90,000,000 shall be used for special nutrition education (such as breastfeeding peer counselors and other related activities), of which not more than $10,000,000 of any funding provided in excess of $50,000,000 shall be used to make performance bonus payments under paragraph (4)(C).

(C) ADJUSTMENT.—Each of the amounts referred to in clauses (i), (ii), and (iii) of subparagraph (B) shall be adjusted annually for inflation by the same factor used to determine the national average per participant grant for the fiscal year under paragraph (1)(B).

(D) PROPORTIONAL DISTRIBUTION.—The Secretary shall distribute funds made available under subparagraph (A) in accordance with the proportional distribution described in subparagraphs (B) and (C).

(I1) VENDOR COST CONTAINMENT.—

(A) IN GENERAL.—The State agency shall—

(I) establish a vendor peer group system;

(II) in accordance with subparagraphs (B) and (C), establish competitive price criteria and allowable reimbursement levels for each vendor peer group; and

(III) if the State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I)—

(aa) distinguish between vendors described in subparagraph (D)(ii)(I) and other vendors by establishing—

(AA) separate peer groups for vendors described in subparagraph (D)(ii)(I); or

(BB) distinct competitive price criteria and allowable reimbursement levels for vendors described in subparagraph (D)(ii)(I) within a peer group that contains both vendors described in subparagraph (D)(ii)(I) and other vendors; and

(bb) establish competitive price criteria and allowable reimbursement levels that comply with subparagraphs (B) and (C), respectively, and that do not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

Nothing in this paragraph shall be construed to compel a State agency to achieve lower food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(ii) EXEMPTIONS.—The Secretary may exempt from the requirements of clause (I)—

(I) a State agency that elects not to authorize any types of vendors described in subparagraph (D)(ii)(I) and that demonstrates to the Secretary that—

(aa) compliance with clause (I) would be inconsistent with efficient and effective operation of the program administered by the State under this section; or

(bb) an alternative cost-containment system would be as effective as a vendor peer group system; or

(II) a State agency—

(aa) in which the sale of supplemental foods that are obtained with food instruments from vendors described in subparagraph (D)(ii)(I) constituted less than 5 percent of total sales of supplemental foods that were obtained with food instruments in the State in the year preceding a year in which the exemption is effective; and

(bb) that demonstrates to the Secretary that an alternative cost-containment system would be as effective as the vendor peer group system and would not result in higher food costs if program participants redeem supplemental food vouchers at vendors described in subparagraph (D)(ii)(I) rather than at vendors other than vendors described in subparagraph (D)(ii)(I).

(B) COMPETITIVE PRICING.—

(I) IN GENERAL.—The State agency shall establish competitive price criteria for each peer group for the selection of vendors for participation in the program that—

(I) ensure that the retail prices charged by vendor applicants for the program are competitive with the prices charged by other vendors; and

(II) consider—

(aa) the shelf prices of the vendor for all buyers; or

(bb) the prices that the vendor bid for supplemental foods, which shall not exceed the shelf prices of the vendor for all buyers.

(ii) PARTICIPANT ACCESS.—In establishing competitive price criteria, the State agency shall consider participant access by geographic area.

(iii) SUBSEQUENT PRICE INCREASES.—The State agency shall establish procedures to ensure that a retail store selected for par-
ticipation in the program does not, subsequent to selection, increase prices to levels that would make the store ineligible for selection to participate in the program.

(C) ALLOWABLE REIMBURSEMENT LEVELS.—

(i) IN GENERAL.—The State agency shall establish allowable reimbursement levels for supplemental foods for each vendor peer group that ensure—

(I) that payments to vendors in the vendor peer group reflect competitive retail prices; and

(II) that the State agency does not reimburse a vendor for supplemental foods at a level that would make the vendor ineligible for authorization under the criteria established under subparagraph (B).

(ii) PRICE FLUCTUATIONS.—The allowable reimbursement levels may include a factor to reflect fluctuations in wholesale prices.

(iii) PARTICIPANT ACCESS.—In establishing allowable reimbursement levels, the State agency shall consider participant access in a geographic area.

(D) EXEMPTIONS.—The State agency may exempt from competitive price criteria and allowable reimbursement levels established under this paragraph—

(i) pharmacy vendors that supply only exempt infant formula or medical foods that are eligible under the program; and

(ii) vendors—

(I) (aa) for which more than 50 percent of the annual revenue of the vendor from the sale of food items consists of revenue from the sale of supplemental foods that are obtained with food instruments; or

(bb) who are new applicants likely to meet the criteria of item (aa) under criteria approved by the Secretary; and

(II) that are nonprofit.

(E) COST CONTAINMENT.—If a State agency elects to authorize any types of vendors described in subparagraph (D)(ii)(I), the State agency shall demonstrate to the Secretary, and the Secretary shall certify, that the competitive price criteria and allowable reimbursement levels established under this paragraph for vendors described in subparagraph (D)(ii)(I) do not result in average payments per voucher to comparable vendors other than vendors described in subparagraph (D)(ii)(I) that are higher than average payments per voucher to comparable vendors described in subparagraph (D)(ii)(I). 

(F) LIMITATION ON PRIVATE RIGHTS OF ACTION.—Nothing in this paragraph may be construed as creating a private right of action.

(G) IMPLEMENTATION.—A State agency shall comply with this paragraph not later than 18 months after June 30, 2004.

(12) ELECTRONIC BENEFIT TRANSFER.—

(A) DEFINITIONS.—In this paragraph:

(i) ELECTRONIC BENEFIT TRANSFER.—The term ‘‘electronic benefit transfer’’ means a food delivery system that provides benefits using a card or other access device approved by the Secretary that permits electronic access to program benefits.

(ii) PROGRAM.—The term ‘‘program’’ means the special supplemental nutrition program established by this section.

(B) REQUIREMENTS.—

(i) IN GENERAL.—Not later than October 1, 2020, each State agency shall be required to implement electronic benefit transfer systems throughout the State, unless the Secretary grants an exemption under subparagraph (C) for a State agency that is facing unusual barriers to implement an electronic benefit transfer system.

(ii) RESPONSIBILITY.—The State agency shall be responsible for the coordination and management of the electronic benefit transfer system of the agency.

(C) EXEMPTIONS.—

(i) IN GENERAL.—To be eligible for an exemption from the statewide implementation requirements of subparagraph (B)(i), a State agency shall demonstrate to the Secretary the following:

(I) There are unusual technological barriers to implementation.

(II) Operational costs are not affordable within the nutrition services and administration grant of the State agency.

(III) It is in the best interest of the program to grant the exemption.

(ii) SPECIFIC DATE.—A State agency requesting an exemption under clause (i) shall specify a date by which the State agency anticipates statewide implementation described in subparagraph (B)(i).

(D) REPORTING.—

(i) IN GENERAL.—Each State agency shall submit to the Secretary electronic benefit transfer project status reports to demonstrate the progress of the State toward statewide implementation.

(ii) CONSULTATION.—If a State agency plans to incorporate additional programs in the electronic benefit transfer system of the State, the State agency shall consult with the State agency officials responsible for administering the programs prior to submitting the planning documents to the Secretary for approval.

(iii) REQUIREMENTS.—At a minimum, a status report submitted under clause (i) shall contain—

(I) an annual outline of the electronic benefit transfer implementation goals and objectives of the State;

(II) appropriate updates in accordance with approval requirements for active electronic benefit transfer State agencies; and

(III) such other information as the Secretary may require.

(E) IMPOSITION OF COSTS ON VENDORS.—

(i) COST PROHIBITION.—Except as otherwise provided in this paragraph, the Secretary may not impose, or allow a State agency to impose, the costs of any equipment or systems required for electronic benefit transfers on any authorized vendor in order to transact electronic benefit transfers if the vendor equipment or system is used solely to support the program.
§ 1786

(ii) Cost-sharing.—The Secretary shall establish criteria for cost-sharing by State agencies and vendors of costs associated with any equipment or system that is not solely dedicated to transacting electronic benefit transfers for the program.

(iii) Fees.—

(I) In general.—A vendor that elects to accept electronic benefit transfers using multifunction equipment shall pay commercial transaction processing costs and fees imposed by a third-party processor that the vendor elects to use to connect to the electronic benefit transfer system of the State.

(II) Interstate fees.—No interchange fees shall apply to electronic benefit transfer transactions under this paragraph.

(iv) Statewide operations.—After completion of statewide expansion of a system for transacting of electronic benefit transfers—

(I) a State agency may not be required to incur ongoing maintenance costs for vendors using multifunction systems and equipment to support electronic benefit transfers; and

(II) any retail store in the State that applies for authorization to become a program vendor shall be required to demonstrate the capability to accept program benefits electronically prior to authorization, unless the State agency determines that the vendor is necessary for participant access.

(F) Minimum lane coverage.—

(i) In general.—The Secretary shall establish minimum lane coverage guidelines for vendor equipment and systems used to support electronic benefit transfers.

(ii) provision of equipment.—If a vendor does not elect to accept electronic benefit transfers using its own multifunction equipment, the State agency shall provide such equipment as is necessary to solely support the program to meet the established minimum lane coverage guidelines.

(G) Technical Standards.—The Secretary shall—

(i) establish technical standards and operating rules for electronic benefit transfer systems; and

(ii) require each State agency, contractor, and authorized vendor participating in the program to demonstrate compliance with the technical standards and operating rules.

(13) Universal Product Codes database.—

(A) In general.—Not later than 2 years after December 13, 2010, the Secretary shall establish a national universal product code database to be used by all State agencies in carrying out the requirements of paragraph (12).

(B) Funding.—

(i) In general.—On October 1, 2010, and on each October 1 thereafter, out of any funds in the Treasury not otherwise appropriated, the Secretary of the Treasury shall transfer to the Secretary to carry out this paragraph $1,000,000, to remain available until expended.

(ii) Receipt and acceptance.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this paragraph the funds transferred under clause (i), without further appropriation.

(iii) Use of funds.—The Secretary shall use the funds provided under clause (i) for development, hosting, hardware and software configuration, and support of the database required under subparagraph (A).

(14) Incentive items.—A State agency shall not authorize or make payments to a vendor described in paragraph (11)(D)(ii)(I) that provides incentive items or other free merchandise, except food or merchandise of nominal value (as determined by the Secretary), to program participants unless the vendor provides to the State agency proof that the vendor obtained the incentive items or merchandise at no cost.

(i) Division of funds formula; reallocation of unspent funds; use of State allocation to buy supplemental foods; use of amounts available for succeeding fiscal year

(1) By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the amounts made available for food benefits under subsection (h)(1)(c) of this section on the basis of a formula determined by the Secretary.

(2) Each State agency’s allocation, as so determined, shall constitute the State agency’s authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation.

(3)(A) Notwithstanding paragraph (2) and subject to subparagraph (B)—

(i)(I) not more than 1 percent (except as provided in subparagraph (C)) of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods during the preceding fiscal year; and

(ii)(I) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and

(ii)(II) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than 3 percent of the amount allocated to the State agency under this section for supplemental foods and nutrition services and administration during the subsequent fiscal year; and

(ii)(III) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than ½ of 1 percent of the amount allocated to the State agency under this section for supplemental foods for a fiscal year may be expended by the State agency, with the prior approval of the

(II) not more than 1 percent of the amount of funds allocated to a State agency under this section for nutrition services and administration for a fiscal year may be expended by the State agency for allowable expenses incurred under this section for supplemental foods and nutrition services and administration during the preceding fiscal year; and

(ii)(I) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than 3 percent of the amount allocated to the State agency under this section for supplemental foods and nutrition services and administration during the subsequent fiscal year; and

(ii)(II) for each fiscal year, of the amounts allocated to a State agency for nutrition services and administration, an amount equal to not more than ½ of 1 percent of the amount allocated to the State agency under this section for supplemental foods for a fiscal year may be expended by the State agency, with the prior approval of the
Secretary, for the development of a management information system, including an electronic benefit transfer system, during the subsequent fiscal year.

(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.

(C) The Secretary may authorize a State agency to expend not more than 3 percent of the amount of funds allocated to a State under this section for supplemental foods for a fiscal year for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that there has been a significant reduction in infant formula cost containment savings provided to the State agency that would affect the ability of the State agency to at least maintain the level of participation by eligible participants served by the State agency.

(4) For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries.

(5) If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians.

(6) Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency’s allocation to purchase supplemental foods for donation to the State agency under this section.

(7) In addition to any amounts expended under paragraph (5)(A)(i), any State agency using cost containment measures as defined in subsection (h)(9) of this section may temporarily use amounts made available to such agency for the first quarter of a fiscal year to defray costs for expenses incurred during the final quarter of the preceding fiscal year. In any fiscal year, any State agency that uses amounts made available for a succeeding fiscal year under the authority of the preceding sentence shall restore or reimburse such amounts when such agency receives payment as a result of its cost containment measures for such expenses.

(8) TEMPORARY SPENDING AUTHORITY.—During each of fiscal years 2012 and 2013, the Secretary may authorize a State agency to expend more than the amount otherwise authorized under paragraph (3)(C) for expenses incurred under this section for supplemental foods during the preceding fiscal year, if the Secretary determines that—

(A) there has been a significant reduction in reported infant formula cost containment savings for the preceding fiscal year due to the implementation of subsection (h)(8)(K); and

(B) the reduction would affect the ability of the State agency to serve all eligible participants.

(j) Initiative to provide program services at community and migrant health centers

(1) The Secretary and the Secretary of Health and Human Services (referred to in this subsection as the “Secretaries”) shall jointly establish and carry out an initiative for the purpose of providing both supplemental foods, nutrition education, and breastfeeding support and promotion under the special supplemental nutrition program and health care services to low-income pregnant, postpartum, and breastfeeding women, infants, and children at substantially more community health centers and migrant health centers.

(2) The initiative shall also include—

The Secretary may negotiate with an Indian State agency a lower percentage of matching funds than is required under the preceding sentence, but not lower than 10 percent of the administrative cost of the program, if the Indian State agency demonstrates to the Secretary financial hardship for the affected Indian tribe, band, group, or council.

(4) Subject to paragraph (6), the Secretary shall establish a formula for determining the amount of the grant to be awarded under this subsection to each State for which a State plan is approved under paragraph (6), according to the number of participants proposed to participate as specified in the State plan. In determining the amount to be awarded to new States, the Secretary shall rank order the State plans according to the criteria of operation set forth in this subsection, and award grants accordingly. The Secretary shall take into consideration the minimum amount needed to fund each approved State plan, and need not award grants to each State that submits a State plan.

(5) Each State that receives a grant under this subsection shall ensure that the program for which the grant is received complies with the following requirements:

(A) Individuals who are eligible to receive Federal benefits under the program shall only be individuals who are receiving assistance under subsection (c) of this section, or who are on the waiting list to receive the assistance.

(B) Construction or operation of a farmers’ market may not be carried out using funds—

(C) The value of the Federal share of the benefits received by any recipient under the program may not be—
(i) less than $10 per year; or
(ii) more than $30 per year.

(D) The coupon issuance process under the program shall be designed to ensure that coupons are targeted to areas with—
(i) the highest concentration of eligible individuals;

(i) redeemed only by producers authorized by the State to participate in the program; and
(ii) redeemed only to purchase fresh nutritious unprepared food for human consumption.

(F)(i) Except as provided in clauses (ii) and (iii), the State may use for administration of the program in any fiscal year not more than 17 percent of the total amount of program funds.

(iii) The provisions of clauses (i) and (ii) with respect to the use of program funds shall not apply to any funds that a State may contribute in excess of the funds used by the State to meet the requirements of paragraph (3).

(G) The State shall ensure that no State or local taxes are collected within the State on purchases of food with coupons distributed under the program.

§ 1786

(6)(A) The Secretary shall give the same preference for funding under this subsection to eligible States that participated in the program under this subsection in a prior fiscal year as to States that participated in the program in the most recent fiscal year. The Secretary shall inform each State of the award of funds as prescribed by subparagraph (G) by February 15 of each year.

(B)(i) Subject to the availability of appropriations, if a State provides the amount of matching funds required under paragraph (3), the State shall receive assistance under this subsection in an amount that is not less than the amount of such assistance that the State received in the most recent fiscal year in which it received such assistance.

(ii) If amounts appropriated for any fiscal year pursuant to the authorization contained in paragraph (10) for grants under this subsection are not sufficient to pay to each State for which a State plan is approved under paragraph (6) the amount that the Secretary determines each such State is entitled to under this subsection, each State’s grant shall be ratably reduced, except that if sufficient funds are available each State shall receive at least $75,000 or the amount that the State received for the prior fiscal year if that amount is less than $75,000.

(C) In providing funds to a State that received assistance under this subsection in the previous fiscal year, the Secretary shall consider—
(i) the availability of any such assistance not spent by the State during the program year for which the assistance was received;
(ii) documentation that demonstrates that—
(I) there is a need for an increase in funds; and
(II) the use of the increased funding will be consistent with serving nutritionally at-risk persons and expanding the awareness and use of farmers’ markets;
(iii) demonstrated ability to satisfactorily operate the existing program; and
(iv) whether, in the case of a State that intends to use any funding provided under subparagraph (G)(i)2 to increase the value of the Federal share of the benefits received by a recipient, the funding provided under subparagraph (G)(i)2 will increase the rate of coupon redemption.

(E) The Secretary shall establish objective criteria for the approval and ranking of State plans submitted under this paragraph.

(F)(i) An amount equal to 75 percent of the funds available after satisfying the requirements of subparagraph (B) shall be made available to States participating in the program whose State plan is approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans, the unallocated amount shall be applied toward satisfying
any unmet need of States that have not participated in the program in the prior fiscal year, and whose State plans have been approved.

(ii) An amount equal to 25 percent of the funds available after satisfying the requirements of subparagraph (B) shall be reallocated to States that have not participated in the program in the prior fiscal year, and whose State plans have been approved by the Secretary. If this amount is greater than that necessary to satisfy the approved State plans for new States, the unallocated amount shall be applied toward satisfying any unmet need of States whose State plans have been approved.

(iii) In any fiscal year, any funds that remain unallocated after satisfying the requirements of clauses (i) and (ii) shall be reallocated in the following fiscal year according to procedures established pursuant to paragraph (10)(B)(ii).

(7)(A) The value of the benefit received by any recipient under any program for which a grant is received under this subsection may not affect the eligibility or benefit levels for assistance under other Federal or State programs.

(B) Any programs for which a grant is received under this subsection shall be supplementary to the supplemental nutrition assistance program carried out under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.) and to any other Federal or State program under which foods are distributed to needy families in lieu of supplemental nutrition assistance program benefits.

(8) For each fiscal year, the Secretary shall collect from each State that receives a grant under this subsection information relating to—

(A) the number and type of recipients served by both Federal and non-Federal benefits under the program for which the grant is received;

(C) the average amount distributed in coupons to each recipient;

Plan No. 2 of 1962, see section 16 of Pub. L. 90-407, set out as Continuation of Existing Offices, Procedures, and Organization of the National Science Foundation note under section 1862 of this title.)

MESSAGE OF THE PRESIDENT
To the Congress of the United States:
I transmit herewith Reorganization Plan No. 2 of 1962, prepared in accordance with the provisions of the Reorganization Act of 1969, as amended, and providing for certain reorganizations in the field of science and technology.

Part I of the reorganization plan establishes the Office of Science and Technology as a new unit within the Executive Office of the President; places at the head thereof a Director appointed by the President and makes provision for a Deputy Director similarly appointed; and transfers to the Director certain functions of the National Science Foundation as provided by this chapter, part II of Reorg. Plan No. 2 of 1962, and Reorg. Plan No. 5 of 1965, but on and after July 18, 1968, part II of Reorg. Plan No. 2 of 1962, and Reorg. Plan No. 5 of 1965, as being of no force or effect, and nothing in Pub. L. 90-407 at alternative 1 or affecting any transfers of functions made by part I of Reorg. Plan No. 2 of 1962, see section 16 of Pub. L. 90-407, set out as Continuation of Existing Offices, Procedures, and Organization of the National Science Foundation note under section 1862 of this title.)

Thus, the further steps contained in part I of the reorganization plan are now needed in order to meet most effectively new and expanding requirements call for the further strengthening of the staff and consultant resources now available to the President in respect of scientific and technological policies, plans, and programs of the Federal Government, giving appropriate emphasis to the relationship of science and technology to national security and foreign policy, and measures for furthering science and technology in the Nation.

To this end it is contemplated that the Director will assist the President in discharging the responsibility of the President for the proper coordination of Federal science and technology functions. More particularly, it is expected that he will advise and assist the President as the President may request with respect to—

(1) Major policies, plans, and programs of science and technology of the various agencies of the Federal Government, giving appropriate emphasis to the relationship of science and technology to national security and foreign policy, and measures for furthering science and technology in the Nation.

(2) Reorganization of selected scientific and technical developments and programs in relation to their impact on national policies.

(3) Review, integration, and coordination of major Federal activities in science and technology, giving due consideration to the effects of such activities on non-Federal resources and institutions.

(4) Assuring that good close relations exist with the Nation's scientific and engineering communities so as to further in every appropriate way their participation in strengthening science and technology in the United States and the free world.

(5) Such other matters consonant with law as may be assigned by the President to the Office.

The ever-growing significance and complexity of Federal programs in science and technology have in recent years necessitated the taking of several steps for improving the organizational arrangements of the executive branch in relation to science and technology.

(1) The National Science Foundation was established in 1950. The Foundation was created to meet a widely recognized need for an organization to develop and encourage a national policy for the promotion of basic research and education in the sciences, to support basic research, to evaluate research programs undertaken by Federal agencies, and to perform related functions.

(2) The Office of the Special Assistant to the President for Science and Technology was established in 1957. The Special Assistant to the President serves as Chairman of both the President's Science Advisory Committee and the Federal Council for Science and Technology, mentioned below.

(3) At the same time, the Science Advisory Committee, composed of eminent non-Government scientists and engineers, and located within the Office of Defense Mobilization, was reconstituted in the White House Office as the President's Science Advisory Committee.

(4) The Federal Council for Science and Technology, composed of policy officials of the principal agencies engaged in scientific and technical activities, was established in 1959. The National Science Foundation has proved to be an effective instrument for administering sizable programs in support of basic research and education in the sciences and has set an example for other agencies through the administration of its own programs. However, the Foundation, being at the same organizational level as other agencies, cannot satisfactorily coordinate Federal science policies or evaluate programs of other agencies. Science policies, transcending agency lines, need to be coordinated and shaped at the level of the Executive Office of the President drawing upon many resources both within and outside of Government. Similarly, staff efforts at that higher level are required for the evaluation of Government programs in science and technology.

Thus, the further steps contained in part I of the reorganization plan are now needed in order to meet most effectively new and expanding requirements about by the rapid and far-reaching growth of the Government's research and development programs. These requirements call for the further strengthening of science organization at the Presidential level and for the adjustment of the Foundation's role to reflect changed conditions. The Foundation will continue to originate policy proposals and recommendations concerning the support of basic research and education in the sciences, and the new Office will look to the Foundation to provide studies and information on which sound national policies in science and technology can be based.

Part I of the reorganization plan will permit some strengthening of the staff and consultant resources now available to the President in respect of scientific and technological factors affecting executive branch policies and will also facilitate communication with the Congress.

Part II of the reorganization plan provides for certain reorganizations within the National Science Foundation which will strengthen the capability of the Director of the Foundation to exert leadership and otherwise
further the effectiveness of administration of the Founda-
tion. Specifically:

(1) There is established a new office of Director of the
National Science Foundation and that Director, ex officio, is made a member of the National Science
Board on a basis coordinate with that of other Board
members.

(2) There is substituted for the now-existing Execu-
tive Committee of the National Science Board a new
Executive Committee composed of the Director of the
National Science Foundation, ex officio, as a voting
member and Chairman of the Committee, and of four
other members elected by the National Science Board
from among its appointive members.

(3) Committees advisory to each of the divisions of
the Foundation will make their recommendations to
the Director only rather than to both the Director
and the National Science Board.

After investigation I have found and hereby declare
that each reorganization included in Reorganization
Plan No. 2 of 1962 is necessary to accomplish one or
more of the purposes set forth in section 2(a) of the Re-
organization Act of 1949, as amended.

I have found and hereby declare that it is necessary to
include in the reorganization plan, by reason of reor-
ganizations made thereby, provisions for the appoint-
ment and compensation of the Director and Deputy Di-
rector of the Office of Science and Technology and of
the Director of the National Science Foundation. The
rate of compensation fixed for each of these officers is
that which I have found to prevail in respect of com-
parable officers in the executive branch of the Govern-
ment.

The functions abolished by the provisions of section
2(b) of the reorganization plan are provided for in sec-
tions 4(a), 5(a), 6(a), 6(b), and 8(d) of the National
Science Foundation Act of 1950.

The taking effect of the reorganizations included in
the reorganization plan will provide sound organiza-
tional arrangements and will make possible more effec-
tive and efficient administration of Government pro-
grams in science and technology. It is, however, im-
practicable to itemize at this time the reductions in ex-
penditures which it is probable will be brought about
by such taking effect.

I recommend that the Congress allow the reorganiza-
plan to become effective.

JOHN F. KENNEDY.

suant to requests made by any other Federal de-
partment or agency, including the Office of
Technology Assessment, such activities shall be
financed whenever feasible from funds trans-
ferred to the Foundation by the requesting offi-

EXECUTIVE ORDER NO. 10807

ABOLITION OF FEDERAL COUNCIL FOR SCIENCE AND TECHNOLOGY

§ 1862a. Findings and purpose
(a) The Congress finds that—
(1) the fundamental research and related education program supported by the Federal Government and conducted by the Nation’s universities and colleges are essential to our national security, and to our health, economic welfare, and general well-being;
(2) many national research and related education programs conducted by universities and colleges are now hindered by obsolete research buildings and equipment, and many institutions lack sufficient resources to repair, renovate, or replace their laboratories;
(3) the Nation’s capacity to conduct high quality research and education programs and to maintain its competitive position at the forefront of modern science, engineering, and technology is threatened by this research capital deficit, which poses serious and adverse consequences to our future national security, health, welfare, and ability to compete in the international marketplace;
(4) a national effort to spur reinvestment in research facilities is needed, and national, State, and local policies and cooperative programs are required that will yield maximum return on the investment of scarce national resources and sustain a commitment to excellence in research and education; and
(5) the Foundation, as part of its responsibility for maintaining the vitality of the Nation’s academic research, and in partnership with the States, industry, and universities and colleges, must assist in enhancing the historic linkages between Federal investment in academic research and training and investment in the research capital base by reinvesting in the capital facilities which modern research and education programs require.

(b) It is the purpose of sections 1862a to 1862d of this title to assist in modernizing and revitalizing the Nation’s research facilities at institutions of higher education, independent non-profit research institutions and research museums, and consortia thereof, through capital investment.

§ 1862p–9. Experimental Program to Stimulate Competitive Research
(a) Findings
The Congress finds that—
(1) The National Science Foundation Act of 1950 [42 U.S.C. 1861 et seq.] stated, “it shall be an objective of the Foundation to strengthen research and education in the sciences and engineering, including independent research by individuals, throughout the United States, and to avoid undue concentration of such research and education.”;
(2) National Science Foundation funding remains highly concentrated, with 27 States and 2 jurisdictions, taken together, receiving only about 10 percent of all NSF research funding; each of these States received only a fraction of one percent of Foundation’s research dollars each year;
(3) the Nation requires the talent, expertise, and research capabilities of all States in order to prepare sufficient numbers of scientists and engineers, remain globally competitive and support economic development.

(b) Continuation of program
The Director shall continue to carry out EPSCoR, with the objective of helping the eligible States to develop the research infrastructure that will make them more competitive for Foundation and other Federal research funding. The program shall continue to increase as the National Science Foundation funding increases.

(c) Congressional reports
The Director shall report to the appropriate committees of Congress on an annual basis, using the most recent available data—
(1) the total amount made available, by State, under EPSCoR;
(2) the amount of co-funding made available to EPSCoR States;
(3) the total amount of National Science Foundation funding made available to all institutions and entities within EPSCoR States; and
(4) efforts and accomplishments to more fully integrate the 29 EPSCoR jurisdictions in major activities and initiatives of the Foundation.

(d) Coordination of EPSCoR and similar Federal programs
(1) Another finding
The Congress finds that a number of Federal agencies have programs, such as Experimental Programs to Stimulate Competitive Research and the National Institutes of Health Institutional Development Award program, designed to increase the capacity for and quality of science and technology research and training at academic institutions in States that historically have received relatively little Federal research and development funding.

(2) Coordination required
The EPSCoR Interagency Coordinating Committee, chaired by the National Science Foundation, shall—
(A) coordinate EPSCoR and Federal EPSCoR-like programs to maximize the impact of Federal support for building competitive research infrastructure, and in order to achieve an integrated Federal effort;
(B) coordinate agency objectives with State and institutional goals, to obtain continued non-Federal support of science and technology research and training;
(C) develop metrics to assess gains in academic research quality and competitiveness, and in science and technology human resource development;
(D) conduct a cross-agency evaluation of EPSCoR and other Federal EPSCoR-like programs and accomplishments, including management, investment, and metric-meas-
uring strategies implemented by the different agencies aimed to increase the number of new investigators receiving peer-reviewed funding, broaden participation, and empower knowledge generation, dissemination, application, and national research and development competitiveness;

(E) coordinate the development and implementation of new, novel workshops, outreach activities, and follow-up mentoring activities among EPSCoR or EPSCoR-like programs for colleges and universities in EPSCoR States and territories in order to increase the number of proposals submitted and successfully funded and to enhance statewide coordination of EPSCoR and Federal EPSCoR-like programs;

(F) coordinate the development of new, innovative solicitations and programs to facilitate collaborations, partnerships, and mentoring activities among faculty at all levels in non-EPSCoR and EPSCoR States and jurisdictions;

(G) conduct an evaluation of the roles, responsibilities and degree of autonomy that program officers or managers (or the equivalent position) have in executing EPSCoR programs at the different Federal agencies and the impacts these differences have on the number of EPSCoR State and jurisdiction faculty participating in the peer review process and the percentage of successful awards by individual EPSCoR State jurisdiction and individual researcher; and

(H) conduct a survey of colleges and university faculty at all levels regarding their knowledge and understanding of EPSCoR, and their level of interaction with and knowledge about their respective State or Jurisdictional EPSCoR Committee.

(3) Meetings and reports

The Committee shall meet at least twice each fiscal year and shall submit an annual report to the appropriate committees of Congress describing progress made in carrying out paragraph (2).

(e) Federal agency reports

Each Federal agency that administers an EPSCoR or Federal EPSCoR-like program shall submit to the OSTP as part of its Federal budget submission—

(1) a description of the program strategy and objectives;

(2) a description of the awards made in the previous year, including—

(A) the percentage of reviewers and number of new reviewers from EPSCoR States;

(B) the percentage of new investigators from EPSCoR States;

(C) the number of programs or large collaborator awards involving a partnership of organizations and institutions from EPSCoR and non-EPSCoR States; and

(3) an analysis of the gains in academic research quality and competitiveness, and in science and technology human resource development, achieved by the program in the last year.

(f) National Academy of Sciences study

(1) In general

The Director shall contract with the National Academy of Sciences to conduct a study on all Federal agencies that administer an Experimental Program to Stimulate Competitive Research or a program similar to the Experimental Program to Stimulate Competitive Research.

(2) Matters to be addressed

The study conducted under paragraph (1) shall include the following:

(A) A delineation of the policies of each Federal agency with respect to the awarding of grants to EPSCoR States.

(B) The effectiveness of each program.

(C) Recommendations for improvements for each agency to achieve EPSCoR goals.

(D) An assessment of the effectiveness of EPSCoR States in using awards to develop science and engineering research and education, and science and engineering infrastructure within their States.

(E) Such other issues that address the effectiveness of EPSCoR as the National Academy of Sciences considers appropriate.

COMMISSION ON THE ADVANCEMENT OF WOMEN AND MINORITIES IN SCIENCE, ENGINEERING, AND TECHNOLOGY DEVELOPMENT

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development Act’.

“SEC. 2. FINDINGS.

“The Congress finds the following:

...
(1) According to the National Science Foundation’s 1996 report, Women, Minorities, and Persons with Disabilities in Science and Engineering—women have historically been underrepresented in scientific and engineering occupations, and although progress has been made over the last several decades, there is still room for improvement;

(B) female and minority students take fewer high-level mathematics and science courses in high school;

(C) female students earn fewer bachelors, masters, and doctoral degrees in science and engineering;

(D) among recent bachelors of science and bachelors of engineering graduates, women are less likely to be in the labor force, to be employed full-time, and to be employed in their field than are men;

(E) among doctoral scientists and engineers, women are far more likely to be employed at 2-year institutions, are far less likely to be employed in research universities, and are much more likely to teach part-time;

(F) among university full-time faculty, women are less likely to chair departments or hold high-ranked positions;

(G) a substantial salary gap exists between men and women with doctorates in science and engineering;

(H) Blacks, Hispanics, and Native Americans continue to be seriously underrepresented in graduate science and engineering programs; and

(I) Blacks, Hispanics, and Native Americans as a group are 23 percent of the population of the United States, but only 6 percent are scientists or engineers.

(2) According to the National Research Council’s 1995 report, Women Scientists and Engineers Employed in Industry: Why So Few?

(A) limited access is the first hurdle faced by women seeking industrial jobs in science and engineering, and while progress has been made in recent years, common recruitment and hiring practices that make extensive use of traditional networks often overlook the available pool of women;

(B) once on the job, many women find paternalism, sexual harassment, allegations of reverse discrimination, different standards for judging the work of men and women, lower salary relative to their male peers, inequitable job assignments, and other aspects of a male-oriented culture that are hostile to women; and

(C) women to a greater extent than men find limited opportunities for advancement, particularly for moving into management positions, and the number of women who have achieved the top levels in corporations is much lower than would be expected, based on the pipeline model.

(3) The establishment of a commission to examine issues raised by the findings of these two reports would help—

(A) to focus attention on the importance of eliminating artificial barriers to the recruitment, retention, and advancement of women and minorities in the fields of science, engineering, and technology, and in all employment sectors of the United States;

(B) to promote work force diversity;

(C) to sensitize employers to the need to recruit and retain women and minority scientists, engineers, and computer specialists; and

(D) to encourage the replication of successful recruitment and retention programs by universities, corporations, and Federal agencies having difficulties in employing women or minorities in the fields of science, engineering, and technology.

SEC. 3. ESTABLISHMENT.

There is established a commission to be known as the ‘Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development’ (in this Act referred to as the ‘Commission’).

SEC. 4. DUTY OF THE COMMISSION.

The Commission shall review available research, and, if determined necessary by the Commission, conduct additional research to—

(1) identify the number of women, minorities, and individuals with disabilities in the United States in specific types of occupations in science, engineering, and technology development;

(2) examine the preparedness of women, minorities, and individuals with disabilities to—

(A) pursue careers in science, engineering, and technology development; and

(B) advance to positions of greater responsibility within academia, industry, and government;

(3) describe the practices and policies of employers and labor unions relating to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

(4) identify the opportunities for, and artificial barriers to, the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development in academia, industry, and government;

(5) compile a synthesis of available research on lawful practices, policies, and programs that have successfully led to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

(6) issue recommendations with respect to lawful policies that government (including Congress and appropriate Federal agencies), academia, and private industry can follow regarding the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

(7) identify the disincentives for women, minorities, and individuals with disabilities to continue graduate education in the fields of engineering, physics, and computer science;

(8) identify university undergraduate programs that are successful in retaining women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

(9) identify the disincentives that lead to a disproportionate number of women, minorities, and individuals with disabilities leaving the fields of science, engineering, and technology development before completing their undergraduate education;

(10) assess the extent to which the recommendations of the Task Force on Women, Minorities, and the Handicapped in Science and Technology established under section 8 of the National Science Foundation Authorization Act for Fiscal Year 1987 (Public Law 99–383; 42 U.S.C. 1885a note) have been implemented;

(11) compile a list of all federally funded reports on the subjects of encouraging women, minorities, and individuals with disabilities to enter the fields of science and engineering and retaining women, minorities, and individuals with disabilities in the science and engineering workforce that have been issued since the date that the Task Force described in paragraph (10) submitted its report to Congress;

(12) assess the extent to which the recommendations contained in the reports described in paragraph (11) have been implemented; and

(13) evaluate the benefits of family-friendly policies in order to assist recruiting, retaining, and advancing women in the fields of science, engineering, and technology such as the benefits or disadvantages of the Family and Medical Leave Act of 1993 (29 U.S.C. 2001 et seq. [see Short Title note set out under section 2601 of Title 29, Labor, and Tables]).

“SECRETARY” DEFINED

Secretary means the Secretary of the Army, see section 2201 of Title 33, Navigation and Navigable Waters.

SUBCHAPTER I—WATER RESOURCES COUNCIL

§ 1962a. Establishment; composition; other Federal agency participation; designation of Chairman

There is hereby established a Water Resources Council (hereinafter referred to as the “Council”) which shall be composed of the Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Secretary of Energy. The Chairman of the Council shall request the heads of other Federal agencies to participate with the Council when matters affecting their responsibilities are considered by the Council. The Chairman of the Council shall be designated by the President.

Amendments

TRANSFER OF FUNCTIONS

“Secretary of Energy” substituted for “Chairman of the Federal Power Commission” in text pursuant to section 7151(b), 7293, and 7297 of this title, and which terminated Federal Power Commission and transferred its functions and functions of Chairman thereof (with certain exceptions) to Secretary of Energy.

NATIONAL WATER COMMISSION

§ 1962a–1. Powers and duties

The Council shall—

(a) maintain a continuing study and prepare an assessment biennially, or at such less frequent intervals as the Council may determine, of the adequacy of supplies of water necessary to meet the water requirements in each water resource region in the United States and the national interest therein; and

(b) maintain a continuing study of the relation of regional or river basin plans and programs to the requirements of larger regions of the Nation and of the adequacy of administrative and statutory means for the coordination of the water and related land resources policies and programs of the several Federal agencies; it shall appraise the adequacy of existing and proposed policies and programs to meet such requirements; and it shall make recommendations to the President with respect to Federal policies and programs.

§ 1962a–2. Principles, standards, and procedures for Federal projects

(a) Establishment, consultation, revision

The Council shall establish, after such consultation with other interested entities, both Federal and non-Federal, as the Council may find appropriate, and with the approval of the President, principles, standards, and procedures for Federal participants in the preparation of comprehensive regional or river basin plans and for the formulation and evaluation of Federal water and related land resources projects. Such procedures may include provision for Council revision of plans for Federal projects intended to be proposed in any plan or revision thereof being prepared by a river basin planning commission.
(b) Economic evaluation; primary criterion

The Council shall develop standards and criteria for economic evaluation of water resource projects. For the purpose of those standards and criteria, the primary direct navigation benefits of a water resource project are defined as the product of the savings to shippers using the waterway and the estimated traffic that would use the waterway. “Savings to shippers” means the difference between (1) the freight rates or charges prevailing at the time of the study for the movement by the alternative means, and (2) those which would be charged on the proposed waterway. Estimated traffic that would use the waterway will be based on those freight rates, taking into account projections of the economic growth of the area.

EXECUTIVE ORDER No. 11345

EXECUTIVE ORDER No. 11359

EXECUTIVE ORDER No. 11371

EXECUTIVE ORDER No. 11578

The text is too long to be transcribed accurately. It appears to be a legal document discussing the termination of various river basin commissions and the establishment of new commissions. The document references various executive orders and statutes, and it involves the transfer of funds and functions between these commissions.

The title suggests it is related to the termination of specific river basin commissions and the establishment of new ones under the authority of the Federal Government. The document is likely part of a larger legislative or administrative process for managing water resources and river basin planning.
such member shall be made in accordance with the laws of the State which he represents. In the absence of governing provisions of State law, such State members shall be appointed and serve at the pleasure of the Governor;
(d) Every member appointed by any interstate agency created by an interstate compact to which the consent of Congress has been given, and whose jurisdiction extends to the waters of the area, river basin, or group of river basins for which the river basin commission is created;
(e) When deemed appropriate by the President, one member, who shall be appointed by the President, from the United States section of any international commission created by a treaty to which the consent of the Senate has been given, and whose jurisdiction extends to the waters of the area, river basin, or group of river basins for which the river basin commission is established.

(a) Commencement of functions; transfer of property, assets, and records upon termination of commission; availability of studies, data, and other materials to participants

Each river basin commission shall organize for the performance of its functions within ninety days after the President shall have declared the establishment of such commission, subject to the availability of funds for carrying on its work. A commission shall terminate upon decision of the Council or agreement of a majority of the States composing the commission. Upon such termination, all property, assets, and records of the commission shall thereafter be turned over to such agencies of the United States and the participating States as shall be appropriate in the circumstances: Provided, That studies, data, and other materials useful in water and related land resources planning to any of the participants shall be kept freely available to all such participants.

State members of each commission shall elect a vice chairman, who shall serve also as chairman and coordinating officer of the State members of the commission and who shall represent the State governments in Federal-State relations on the commission.

(d) Consensus of members on issues; opportunities for individual views; record of position of chairman and vice chairman; final authority on procedural questions

In the work of the commission every reasonable endeavor shall be made to arrive at a consensus of all members on all issues; but failing this, full opportunity shall be afforded each member for the presentation and report of individual views: Provided, That at any time the commission fails to act by reason of absence of consensus, the position of the chairman, acting in behalf of the Federal members, and the vice chairman, acting upon instructions of the State members, shall be set forth in the record: Provided further, That the chairman, in consultation with the vice chairman, shall have the final authority, in the absence of an applicable by-law adopted by the commission or in the absence of a consensus, to fix the time and place of meetings, to set deadlines for the submission of annual and other reports, to establish subcommittees, and to decide such other procedural questions as may be necessary for the commission to perform its functions.

After such transmission, copies of any such report shall be sent to the heads of such Federal, State, interstate, and international agencies as the President or the Governors of the participating States may direct;

Before the commission submits such a plan or major portion thereof or revision thereof to the Council, it shall transmit the proposed plan or revision to the head of each Federal department or agency, the Governor of each State, and each interstate agency, from which a member of the commission has been appointed, and to the head of the United States section of any international commission if the plan, portion or revision deals with a boundary water or a river crossing a boundary, or any tributary flowing into such boundary water or river, over which the international commission has jurisdiction or for which it has responsibility. (a) Combination of reimbursement of installation costs and reduction in contributions; single project limitation

The Secretary of the Army, acting through the Chief of Engineers, may, when he determines it to be in the public interest, enter into agreements providing for reimbursement to States or political subdivisions thereof for work to be performed by such non-Federal public bodies at water resources development projects authorized for construction under the Secretary of the Army and the supervision of the Chief of Engineers. Such agreements may provide for reimbursement of installation costs incurred by such entities or an equivalent reduction in the contributions they would otherwise be required to make, or in appropriate cases, for a combination thereof. The amount of Federal reimbursement, including reductions in contributions, for a single project shall not exceed $5,000,000 or 1 percent of the total project cost, whichever is greater; except that the amount of actual Federal reimbursement, including reductions in contributions, for such project may not exceed $7,000,000 in any fiscal year.

(b) Agreement provisions; termination of agreement for failure to commence work

Agreements entered into pursuant to this section shall (1) fully describe the work to be accomplished by the non-Federal public body, and be accompanied by an engineering plan if necessary therefor; (2) specify the manner in which such work shall be carried out; (3) provide for necessary review of design and plans, and inspection of the work by the Chief of Engineers or his designee; (4) state the basis on which the amount of reimbursement shall be determined; (5) state that such reimbursement shall be dependent upon the appropriation of funds applicable thereto or funds available therefor, and shall not take precedence over other pending projects of higher priority for improvements; and (6) specify that reimbursement or credit for non-Federal installation expenditures shall apply only to work undertaken on Federal projects after project authorization and execution of the agreement, and does not apply retroactively to past non-Federal work. Each such agreement shall expire three years after the date on which it is executed if the work to be undertaken by the non-Federal public body has not commenced before the expiration of that period. The time allowed for completion of the work will be determined by the Secretary of the Army, acting through the Chief of Engineers, and stated in the agreement.

(c) Certification of performance

No reimbursement shall be made, and no expenditure shall be credited, pursuant to this section, unless and until the Chief of Engineers or his designee, has certified that the work for which reimbursement or credit is requested has been performed in accordance with the agreement.

(a) Cooperation of non-Federal interest

(1) In general

After December 31, 1970, the construction of any water resources project, or an acceptable separable element thereof, by the Secretary of the Army, acting through the Chief of Engineers, or by a non-Federal interest where such interest will be reimbursed for such construction under any provision of law, shall not be commenced until each non-Federal interest has entered into a written partnership agreement with the Secretary (or, where appropriate, the district engineer for the district in which the project will be carried out) under which each party agrees to carry out its responsibilities and requirements for implementation or construction of the project or the appropriate element of the project, as the case may be; except that no such agreement shall be required if the Secretary determines that the administrative costs associated with negotiating, executing, or administering the agreement would exceed the amount of the contribution required from the non-Federal interest and are less than $25,000.

(ii) the value of materials or services provided before execution of the partnership agreement, including efforts on constructed elements incorporated into the project; and

(iii) the value of materials and services provided after execution of the partnership agreement.

(B) Condition

The Secretary may credit an in-kind contribution under subparagraph (A) only if the Secretary determines that the material or service provided as an in-kind contribution is integral to the project.

(C) Work performed before partnership agreement

In any case in which the non-Federal interest is to receive credit under subparagraph (A)(ii) for the cost of work carried out by the non-Federal interest and such work has not been carried out as of November 8, 2007, the Secretary and the non-Federal interest shall enter into an agreement under which the non-Federal interest shall carry out such work, and only work carried out following the execution of the agreement shall be eligible for credit.

(D) Limitations

Credit authorized under this paragraph for a project—

(i) shall not exceed the non-Federal share of the cost of the project;

(ii) shall not alter any other requirement that a non-Federal interest provide lands, easements, relocations, rights-of-way, or areas for disposal of dredged material for the project;

(iii) shall not alter any requirement that a non-Federal interest pay a portion of the costs of construction of the project under sections 2211 and 2213 of title 33; and

(i) In general

This paragraph shall apply to water resources projects authorized after November 16, 1986, including projects initiated after November 16, 1986, without specific authorization in law.

(ii) Limitation

In any case in which a specific provision of law provides for a non-Federal interest to receive credit toward the non-Federal share of the cost of a study for, or construction or operation and maintenance of, a water resources project, the specific provision of law shall apply instead of this paragraph.

(b) Definition of non-Federal interest

(3) the authority to approve any partnership agreement that complies with the policies and guidelines issued by the Secretary; and

(4) the authority to sign any partnership agreement for any water resources project unless, within 30 days of the date of authorization of the project, the Secretary notifies the district engineer in which the project will be carried out that the Secretary wishes to retain the prerogative to sign the partnership agreement for that project.

The Secretary of the Army, acting through the Chief of Engineers, is authorized to plan and establish wetland areas as part of an authorized water resources development project under his jurisdiction. Establishment of any wetland area in connection with the dredging required for such a water resources development project may be undertaken in any case where the Chief of Engineers in his judgment finds that—

(1) environmental, economic, and social benefits of the wetland area justifies the increased cost thereof above the cost required for alternative methods of disposing of dredged material for such project; and

(2) the increased cost of such wetland area will not exceed $400,000; and

(3) there is reasonable evidence that the wetland area to be established will not be substantially altered or destroyed by natural or man-made causes.

(b) Reports to Congress

Whenever the Secretary of the Army, acting through the Chief of Engineers, submits to Congress a report on a water resources development project after October 22, 1976, such report shall include, where appropriate, consideration of the establishment of wetland areas.

(c) Cost

In the computation of benefits and cost of any water resources development project the benefits of establishing of any wetland area shall be deemed to be at least equal to the cost of establishing such area. All costs of establishing a wetland area shall be borne by the United States.

§ 1962d–5f. Beach nourishment

The Secretary of the Army, acting through the Chief of Engineers, is authorized to provide periodic beach nourishment in the case of each water resources development project where such nourishment has been authorized for a limited period for such additional period as he determines necessary but in no event shall such additional period extend beyond the fiftieth year which begins after the date of initiation of construction of such project.

§ 1962d–5g. Hydroelectric power resources

(a) Study; plan

The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to conduct a study of the most efficient methods of utilizing the hydroelectric power resources at water resource development projects under the jurisdiction of the Secretary of the Army and to prepare a plan based upon the findings of such study. Such study shall include, but not be limited to, an analysis of—

(1) the physical potential for hydroelectric development, giving consideration to the economic, social, environmental and institutional factors which will affect the realization of physical potential;

(2) the magnitude and regional distribution of needs for hydroelectric power;

(3) the integration of hydroelectric power generation with generation from other types of generating facilities;

(4) measures necessary to assure that generation from hydroelectric projects will efficiently contribute to meeting the national electric energy demands;

(5) the timing of hydroelectric development to properly coincide with changes in the demand for electric energy;
§ 1962d-6

(6) conventional hydroelectric potential, both high head and low head projects utilizing run-of-rivers and possible advances in mechanical technology, and pumped storage hydroelectric potential at sites which evidence such potential;

(7) the feasibility of adding or reallocating storage and modifying operation rules to increase power production at corps projects with existing hydroelectric installations;

(8) measures deemed necessary or desirable to insure that the potential contribution of hydroelectric resources to the overall electric energy supply are realized to the maximum extent possible; and

(9) any other pertinent factors necessary to evaluate the development and operation of hydroelectric projects of the Corps of Engineers.

(b) Transmittal of plan to Congressional committees

Within three years after the date of the first appropriation of funds for the purpose of carrying out this section, the Secretary of the Army, acting through the Chief of Engineers, shall transmit the plan prepared pursuant to subsection (a) of this section with supporting studies and documentation, together with the recommendations of the Secretary and the Chief of Engineers on such plan, to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(c) Authorization of appropriation

There is authorized to be appropriated to carry out subsections (a) and (b) of this section not to exceed $7,000,000.

(d) Feasibility studies of specific hydroelectric power installations; authorization of appropriations

The Secretary of the Army, acting through the Chief of Engineers, is authorized with respect to previously authorized projects to undertake feasibility studies of specific hydroelectric power installations that are identified in the course of the study authorized by this section, as having high potential for contribution toward meeting regional power needs. There is authorized to be appropriated to carry out this subsection not to exceed $5,000,000 per fiscal year for each of the fiscal years 1978 and 1979.

Following the completion of the phase I design memorandum stage of advanced engineering and design under this subsection, the Secretary shall not transmit any favorable report to Congress prior to being repaid in full by the appropriate non-Federal public authorities for the costs incurred during such phase I. The Secretary is also authorized to make expenditures from non-Federal funds deposited in the fund as an advance against construction costs.

(f) Authorization to construct projects; expenditures

In connection with water resources development projects which meet the criteria established by subsection (a)(2) of this section and which are to be constructed by the Secretary, acting through the Chief of Engineers, in accordance with an authorization by Congress and a contract between the non-Federal public authorities and the Secretary, pursuant to subsection (g)(1) of this section occurring on or subsequent to October 22, 1976, the Secretary, acting through the Chief of Engineers, is authorized to construct such projects including activities for engineering and design land acquisition, site development, and off-site improvements necessary for the authorized construction, including expenditures from (1) the Fund established in subsection (b) of this section of funds deposited by non-Federal public authorities as payments for construction and (2) payments of non-Federal public authorities held by the Secretary as payment of construction costs for a project authorized by this section.

(1) Prior to initiating any construction work under the authorities of this section, the Secretary and the appropriate non-Federal public authorities shall agree in writing, and submit such agreement to the Committees on Environment and Public Works and on Appropriations of the Senate and the Committees on Public Works and Transportation and on Appropriations of the House of Representatives for review and reporting to the Congress for its consideration and approval that the appropriate non-Federal public authorities will pay the full anticipated costs of constructing the project at the time such costs are incurred, together with normal contingencies and related administrative expenses of the Secretary, and such payments shall be deposited in the fund or held by the Secretary for payment of obligations incurred by the Secretary on an authorized project under this section. The agreement shall provide for an initial determination of feasibility and compliance by the project with law. The total non-Federal obligation shall be paid on or prior to the date the Chief of Engineers has estimated by agreement, that the project concerned will be available for actual generation of all or a substantial portion of the authorized hydroelectric power of the project.

Study of depletion of natural resources of regions of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska utilizing Ogallala aquifer; plans; reports to Congress; authorization of appropriation

In order to assure an adequate supply of food to the Nation and to promote the economic vitality of the High Plains Region, the Secretary of Commerce (hereinafter referred to in this section as the “Secretary”), acting through the Economic Development Administration, in cooperation with the Secretary of the Army, acting through the Chief of Engineers, and appropriate Federal, State, and local agencies, and the private sector, is authorized and directed to study the depletion of the natural resources of those regions of the States of Colorado, Kansas, New Mexico, Oklahoma, Texas, and Nebraska presently utilizing the declining water resources of the Ogallala aquifer,\(^1\) and to develop plans to increase water supplies in the area and report thereon to Congress, together with any recommendations for further congressional action. In formulating these plans, the Secretary is directed to consider all past and ongoing studies, plans, and work on depleted water resources in the region, and to examine the feasibility of various alternatives to provide adequate water supplies in the area including, but not limited to, the transfer of water from adjacent areas, such as the Missouri River basin, and to recommend to the Chief of Engineers to assure the continued economic growth and vitality of the region. The Secretary shall report on the costs of reasonably available options, the benefits of various options, and the costs of inaction. § 1962d–20. Prohibition on Great Lakes diversions

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) the Great Lakes are a most important natural resource to the eight Great Lakes States and two Canadian provinces, providing water supply for domestic and industrial use, clean energy through hydropower production, an efficient transportation mode for moving products into and out of the Great Lakes re-

\(^{1}\)So in original. Probably should be “aquifer.”
tion, and recreational uses for millions of United States and Canadian citizens;

(2) the Great Lakes need to be carefully managed and protected to meet current and future needs within the Great Lakes basin and Canadian provinces;

(3) any new diversions of Great Lakes water for use outside of the Great Lakes basin will have significant economic and environmental impacts, adversely affecting the use of this resource by the Great Lakes States and Canadian provinces; and

(4) four of the Great Lakes are international waters and are defined as boundary waters in the Boundary Waters Treaty of 1909 between the United States and Canada, and as such any new diversion of Great Lakes water in the United States would affect the relations of the Government of the United States with the Government of Canada.

(b) Congressional declaration of purpose and policy

It is therefore declared to be the purpose and policy of the Congress in this section—

(1) to take immediate action to protect the limited quantity of water available from the Great Lakes system for use by the Great Lakes States and in accordance with the Boundary Waters Treaty of 1909;

(2) to encourage the Great Lakes States, in consultation with the Provinces of Ontario and Quebec, to develop and implement a mechanism that provides a common conservation standard embodying the principles of water conservation and resource improvement for making decisions concerning the withdrawal and use of water from the Great Lakes Basin;

(3) to prohibit any diversion of Great Lakes water by any State, Federal agency, or private entity for use outside the Great Lakes basin unless such diversion is approved by the Governor of each of the Great Lakes States; and

(4) to prohibit any Federal agency from undertaking any studies that would involve the transfer of Great Lakes water for any purpose for use outside the Great Lakes basin.

(c) "Great Lakes State" defined

As used in this section, the term "Great Lakes State" means each of the States of Illinois, Indiana, Michigan, Minnesota, Ohio, Pennsylvania, New York, and Wisconsin.

(d) Approval by Governors for diversion of water

No water shall be diverted or exported from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin unless such diversion or export is approved by the Governor of each of the Great Lakes States.

(e) Approval of Governors for diversion studies

No Federal agency may undertake any study, or expend any Federal funds to contract for any study, of the feasibility of diverting water from any portion of the Great Lakes within the United States, or from any tributary within the United States of any of the Great Lakes, for use outside the Great Lakes basin, unless such study or expenditure is approved by the Governor of each of the Great Lakes States. The prohibition of the preceding sentence shall not apply to any study or data collection effort performed by the Corps of Engineers or other Federal agencies under the direction of the International Joint Commission in accordance with the Boundary Waters Treaty of 1909.

(f) Previously authorized diversions

This section shall not apply to any diversion of water from any of the Great Lakes which is authorized on November 17, 1986.

§ 1971. Voting rights

(a) Race, color, or previous condition not to affect right to vote; uniform standards for voting qualifications; errors or omissions from papers; literacy tests; agreements between Attorney General and State or local authorities; definitions

(1) All citizens of the United States who are otherwise qualified by law to vote at any election by the people in any State, Territory, district, county, city, parish, township, school district, municipality, or other territorial subdivision, shall be entitled and allowed to vote at all such elections, without distinction of race, color, or previous condition of servitude; any constitution, law, custom, usage, or regulation of any State or Territory, or by or under its authority, to the contrary notwithstanding.

(2) No person acting under color of law shall—

(A) in determining whether any individual is qualified under State law or laws to vote in any election, apply any standard, practice, or procedure different from the standards, practices, or procedures applied under such law or laws to other individuals within the same county, parish, or similar political subdivision who have been found by State officials to be qualified to vote; or

(B) deny the right of any individual to vote in any election because of an error or omission on any record or paper relating to any application, registration, or other act requisite to voting, if such error or omission is not material in determining whether such individual is qualified under State law to vote in such election; or

(C) employ any literacy test as a qualification for voting in any election unless (i) such test is administered to each individual and is conducted wholly in writing, and (ii) a certified copy of the test and of the answers given by the individual is furnished to him within twenty-five days of the submission of his request made within the period of time during which records and papers are required to be retained and preserved pursuant to title III of the Civil Rights Act of 1960 (42 U.S.C. 1970 et seq.); Provided, however, That the Attorney General may enter into agreements with appropriate State or local authorities that preparation, conduct, and maintenance of such tests in accordance with the provisions of applicable State or local law, including such special provisions as are necessary in the preparation, conduct, and maintenance of such tests for persons who are blind or otherwise physically handicapped, meet the purposes of this subparagraph and constitute compliance therewith.

(3) For purposes of this subsection—
(A) the term “vote” shall have the same meaning as in subsection (e) of this section;

(B) the phrase “literacy test” includes any test of the ability to read, write, understand, or interpret any matter.

(b) Intimidation, threats, or coercion

No person, whether acting under color of law or otherwise, shall intimidate, threaten, coerce, or attempt to intimidate, threaten, or coerce any other person for the purpose of interfering with the right of such other person to vote or to vote as he may choose, or of causing such other person to vote for, or not to vote for, any candidate for the office of President, Vice President, presidential elector, Member of the Senate, or Member of the House of Representatives, Delegates or Commissioners from the Territories or possessions, at any general, special, or primary election held solely or in part for the purpose of selecting or electing any such candidate.

(c) Preventive relief; injunction; rebuttable literacy presumption; liability of United States for costs; State as party defendant

Whenever any person has engaged or there are reasonable grounds to believe that any person is about to engage in any act or practice which would deprive any other person of any right or privilege secured by subsection (a) or (b) of this section, the Attorney General may institute for the United States, or in the name of the United States, a civil action or other proper proceeding for preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order. If in any such proceeding literacy is a relevant fact there shall be a rebuttable presumption that any person who has completed the sixth grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico where instruction is carried on predominantly in the English language, possesses sufficient literacy, comprehension, and intelligence to vote in any election. In any proceeding hereunder the United States shall be liable for costs the same as a private person. Whenever, in a proceeding instituted under this subsection any official of a State or subdivision thereof is alleged to have committed any act or practice constituting a deprivation of any right or privilege secured by subsection (a) of this section, the act or practice shall also be deemed that of the State and the State may be joined as a party defendant and, if, prior to the institution of such proceeding, such official has resigned or has been relieved of his office and no successor has assumed such office, the proceeding may be instituted against the State.

(d) Jurisdiction; exhaustion of other remedies

The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this section and shall exercise the same without regard to whether the party aggrieved shall have exhausted any administrative or other remedies that may be provided by law.

(e) Order qualifying person to vote; application; hearing; voting referees; transmittal of report and order; certificate of qualification; definitions

In any proceeding instituted pursuant to subsection (c) of this section in the event the court finds that any person has been deprived on account of race or color of any right or privilege secured by subsection (a) of this section, the court shall upon request of the Attorney General and after each party has been given notice and the opportunity to be heard make a finding whether such deprivation was or is pursuant to a pattern or practice. If the court finds such pattern or practice, any person of such race or color resident within the affected area shall, for one year and thereafter until the court subsequently finds that such pattern or practice has ceased, be entitled, upon his application therefor, to an order declaring him qualified to vote, upon proof that at any election or elections (1) he is qualified under State law to vote, and (2) he has since such finding by the court been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. Such order shall be effective as to any election held within the longest period for which such applicant could have been registered or otherwise qualified under State law at which the applicant’s qualifications would under State law entitle him to vote.

Notwithstanding any inconsistent provision of State law or the action of any State officer or court, an applicant so declared qualified to vote shall be permitted to vote in any such election. The Attorney General shall cause to be transmitted certified copies of such order to the appropriate election officers. The refusal by any such officer with notice of such order to permit any person so declared qualified to vote to vote at an appropriate election shall constitute contempt of court.

An application for an order pursuant to this subsection shall be heard within ten days, and the execution of any order disposing of such application shall not be stayed if the effect of such stay would be to delay the effectiveness of the order beyond the date of any election at which the applicant would otherwise be enabled to vote.

The court may appoint one or more persons who are qualified voters in the judicial district, to be known as voting referees, who shall subscribe to the oath of office required by section 3331 of title 5, to serve for such period as the court shall determine, to receive such applications and to take evidence and report to the court findings as to whether or not at any election or elections (1) any such applicant is qualified under State law to vote, and (2) he has since the finding by the court heretofore specified been (a) deprived of or denied under color of law the opportunity to register to vote or otherwise to qualify to vote, or (b) found not qualified to vote by any person acting under color of law. In a proceeding before a voting referee, the applicant shall be heard ex parte at such times and places as the court shall direct. His statement under oath shall be prima facie evidence as to his age, residence, and his prior efforts to reg-
ister or otherwise qualify to vote. Where proof of literacy or an understanding of other subjects is required by valid provisions of State law, the answer of the applicant, if written, shall be included in such report to the court; if oral, it shall be taken down and recorded, and a transcription included in such report to the court.

Upon receipt of such report, the court shall cause the Attorney General to transmit a copy thereof to the State attorney general and to each party to such proceeding together with an order to show cause within ten days, or such shorter time as the court may fix, why an order of the court should not be entered in accordance with such report. Upon the expiration of such period, such order shall be entered unless prior to that time there has been filed with the court and served upon all parties a statement of exceptions to such report. Exceptions as to matters of fact shall be considered only if supported by a duly verified copy of a public record or by affidavit of persons having personal knowledge of such facts or by statements or matters contained in such report; those relating to matters of law shall be supported by an appropriate memorandum of law. The issues of fact and law raised by such exceptions shall be determined by the court or, if the due and speedy administration of justice requires, they may be referred to the voting referee to determine in accordance with procedures prescribed by the court. A hearing as to an issue of fact shall be held only in the event that the proof in support of the exception disclose the existence of a genuine issue of material fact. The applicant’s literacy and understanding of other subjects shall be determined solely on the basis of answers included in the report of the voting referee.

The court, or at its direction the voting referee, shall issue to each applicant so declared qualified a certificate identifying the holder thereof as a person so qualified.

Any voting referee appointed by the court pursuant to this subsection shall to the extent not inconsistent herewith have all the powers conferred upon a master by rule 53(c) of the Federal Rules of Civil Procedure. The compensation to be awarded upon a master by rule 53(c) of the Federal Rules of Civil Procedure. The compensation to be paid upon such appointment shall be fixed by the court pursuant to this subsection shall be payable by the United States.

Applications pursuant to this subsection shall be determined expeditiously. In the case of any application filed twenty or more days prior to an election which is undetermined by the time of such election, the court shall issue an order authorizing the applicant to vote provisionally: Provided, however, That such applicant shall be qualified to vote under State law. In the case of an application filed within twenty days prior to an election, the court, in its discretion, may make such an order. In either case the order shall make appropriate provision for the impounding of the applicant’s ballot pending determination of the application. The court may take any other action, and may authorize such referee or such other person as it may designate to take any other action, appropriate or necessary to carry out the provisions of this subsection and to enforce its decrees. This subsection shall in no way be construed as a limitation upon the existing powers of the court.

When used in the subsection, the word “vote” includes all action necessary to make a vote effective including, but not limited to, registration or other action required by State law prerequisite to voting, casting a ballot, and having such ballot counted and included in the appropriate totals of votes cast with respect to candidates for public office and propositions for which votes are received in an election; the words “affected area” shall mean any subdivision of the State in which the laws of the State relating to voting are or have been to any extent administered by a person found in the proceeding to have violated subsection (a) of this section; and the words “qualified under State law” shall mean qualified according to the laws, customs, or usages of the State, and shall not, in any event, imply qualifications more stringent than those used by the persons found in the proceeding to have violated subsection (a) in qualifying persons other than those of the race or color against which the pattern or practice of discrimination was found to exist.

(f) Contempt; assignment of counsel; witnesses

Any person cited for an alleged contempt under this Act shall be allowed to make his full defense by counsel learned in the law; and the court before which he is cited or tried, or some judge thereof, shall immediately, upon his request, assign to him such counsel, not exceeding two, as he may desire, who shall have free access to him at all reasonable hours. He shall be allowed, in his defense to make any proof that he can produce by lawful witnesses, and shall have the like process of the court to compel his witnesses to appear at his trial or hearing, as is usually granted to compel witnesses to appear on behalf of the prosecution. If such person shall be found by the court to be financially unable to provide such counsel, it shall be the duty of the court to provide such counsel.

(g) Three-judge district court; hearing, determination, expedition of action, review by Supreme Court; single-judge district court; hearing, determination, expedition of action

In any proceeding instituted by the United States in any district court of the United States under this section in which the Attorney General requests a finding of a pattern or practice of discrimination pursuant to subsection (e) of this section the Attorney General, at the time he files the complaint, or any defendant in the proceeding, within twenty days after service upon him of the complaint, may file with the clerk of such court a request that a court of three judges be convened to hear and determine the entire case. A copy of the request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of the copy of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to
hear and determine such case, and it shall be the
duty of the judges so designated to assign the
cause for hearing at the earliest practicable date,
to participate in the hearing and determination thereof,
and to cause the case to be in every way expedited.
An appeal from the final judgment of such court will lie to the Supreme Court.

In any proceeding brought under subsection (c) of this section to enforce subsection (b) of this section, or in the event neither the Attorney General nor any defendant files a request for a three-judge court in any proceeding authorized by this subsection, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or, in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case. It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

§ 1973. Denial or abridgment of right to vote on account of race or color through voting qualifications or prerequisites; establishment of violation

(a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, as provided in subsection (b) of this section.

(b) A violation of subsection (a) of this section is established if, based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) of this section in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which members of a protected class have been elected to office in the State or political subdivision is one circumstance which may be considered: Provided, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

TITLE 42—THE PUBLIC HEALTH AND WELFARE

below] shall take effect on the date of the enactment of this Act [June 29, 1982]."

SHORT TITLE

This subchapter and subchapters I-B and I-C of this chapter known as the "Voting Rights Act of 1965", see Short Title note set out under section 1971 of this title.

CONGRESSIONAL PURPOSE AND FINDINGS

"(a) PURPOSE.—The purpose of this Act [see Short Title of 2006 Amendment note set out under section 1971 of this title] is to ensure that the right of all citizens to vote, including the right to register to vote and cast meaningful votes, is preserved and protected as guaranteed by the Constitution.

"(b) FINDINGS.—The Congress finds the following:

"(1) Significant progress has been made in eliminating first generation barriers experienced by minority voters, including increased numbers of registered minority voters, minority voter turnout, and minority representation in Congress, State legislatures, and local elected offices. This progress is the direct result of the Voting Rights Act of 1965 [this subchapter and subchapters I-B and I-C of this chapter].

"(2) However, vestiges of discrimination in voting continue to exist as demonstrated by second generation barriers constructed to prevent minority voters from fully participating in the electoral process.

"(3) The continued evidence of racially polarized voting in each of the jurisdictions covered by the existing provisions of the Voting Rights Act of 1965 demonstrates that racial and language minorities remain politically vulnerable, warranting the continued protection of the Voting Rights Act of 1965.

"(4) Evidence of continued discrimination includes—

"(A) the hundreds of objections interposed, requests for more information submitted followed by voting changes withdrawn from consideration by jurisdictions covered by the Voting Rights Act of 1965, and section 5 [42 U.S.C. 1973c] enforcement actions undertaken by the Department of Justice in covered jurisdictions since 1982 that prevented election practices, such as annexation, at-large voting, and the use of multi-member districts, from being enacted to dilute minority voting strength;

"(B) the number of requests for declaratory judgments denied by the United States District Court for the District of Columbia;

"(C) the continued filing of section 2 [42 U.S.C. 1973] cases that originated in covered jurisdictions; and

"(D) the litigation pursued by the Department of Justice since 1982 to enforce sections 4(e), 4(f)(2), and 503 of such Act [42 U.S.C. 1973b(e), (f)(4), 1973aa–1a] to ensure that all language minority citizens have full access to the political process.

"(5) The evidence clearly shows the continued need for Federal oversight in jurisdictions covered by the Voting Rights Act of 1965 since 1982, as demonstrated in the counties certified by the Attorney General for Federal examiner and observer coverage and the tens of thousands of Federal observers that have been dispatched to monitor polls in jurisdictions covered by the Voting Rights Act of 1965.

"(6) The effect of the Voting Rights Act of 1965 has been significantly weakened by the United States Supreme Court decisions in Reno v. Bossier Parish II and Georgia v. Ashcroft, which have misconstructed Congress' original intent in enacting the Voting Rights Act of 1965 and narrowed the protections afforded by section 5 of such Act [42 U.S.C. 1973c].

"(7) Despite the progress made by minorities under the Voting Rights Act of 1965, the evidence before Congress reveals that 40 years has not been a sufficient amount of time to eliminate the vestiges of discrimination following nearly 100 years of disregard for the dictates of the 15th amendment and to ensure that the right of all citizens to vote is protected as guaranteed by the Constitution.

"(8) Present day discrimination experienced by racial and language minority voters is contained in evidence, including the objections interposed by the Department of Justice in covered jurisdictions; the section 2 litigation filed to prevent dilutive techniques from adversely affecting minority voters; the enforcement actions filed to protect language minorities; and the tens of thousands of Federal observers dispatched to monitor polls in jurisdictions covered by the Voting Rights Act of 1965.

"(9) The record compiled by Congress demonstrates that, without the continuation of the Voting Rights Act of 1965 protections, racial and language minority citizens will be deprived of the opportunity to exercise their right to vote, or will have their votes diluted, undermining the significant gains made by minorities in the last 40 years."

SEPARABILITY

Section 208 of Pub. L. 94–73 provided that: "If any amendments made by this Act [enacting sections 1973aa–1a and 1973aa–5 of this title, amending this subchapter and subchapters I-B and I-C of this chapter], 1973aa, 1973aa–2, 1973aa–3, 1973bb, 1973bb–1 of this title, and repealing sections 1973bb–2 to 1973bb–4 of this title] or the application of any provision thereof to any person or circumstance is judicially determined to be invalid, the remainder of the Voting Rights Act of 1965 (this subchapter and subchapters I–B and I–C of this chapter), or the application of such provision to other persons or circumstances shall not be affected by such determination."

$ 1973a. Proceeding to enforce the right to vote

(a) Authorization by court for appointment of Federal observers

Whenever the Attorney General or an aggrieved person institutes a proceeding under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court shall authorize the appointment of Federal observers by the Director of the Office of Personnel Management in accordance with section 1973d1 of this title to serve for such period of time and for such political subdivisions as the court shall determine is appropriate to enforce the voting guarantees of the fourteenth or fifteenth amendment (1) as part of any interlocutory order if the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred in such State or subdivision: Provided, That the court need not authorize the appointment of observers if any incidents of denial or abridgement of the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title (1) have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

1 See References in Text note below.
(b) Suspension of use of tests and devices which deny or abridge the right to vote

If in a proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that a test or device has been used for the purpose or with the effect of denying or abridging the right of any citizen of the United States to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title, it shall suspend the use of tests and devices in such State or political subdivisions as the court shall determine is appropriate and for such period as it deems necessary.

(c) Retention of jurisdiction to prevent commencement of new devices to deny or abridge the right to vote

If in any proceeding instituted by the Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that violations of the fourteenth or fifteenth amendment justifying equitable relief have occurred within the territory of such State or political subdivision, the court, in addition to such relief as it may grant, shall retain jurisdiction for such period as it may deem appropriate and during such period no voting qualification or prerequisite to voting or standard, practice, or procedure with respect to voting different from that in force or effect at the time the proceeding was commenced shall be enforced unless and until the court finds that such qualification, prerequisite, standard, practice, or procedure does not have the purpose and will not have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title: Provided, That such qualification, prerequisite, standard, practice, or procedure may be enforced if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, except that neither the court's finding nor the Attorney General's failure to object shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure.

1975—Subsec. (a). Pub. L. 94–73 inserted reference to fourteenth amendment in three places, and substituted “voting guarantees” for “guarantees” in three places, for “Attorney General”, and “on account of race or color or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title” for “on account of race or color”.

Subsec. (b). Pub. L. 94–73 substituted “Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment” for “Attorney General under any statute to enforce the guarantees of the fourteenth amendment”, and “on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title” for “on account of race or color”.

Subsec. (c). Pub. L. 94–73 substituted “Attorney General or an aggrieved person under any statute to enforce the voting guarantees of the fourteenth or fifteenth amendment in any State or political subdivision the court finds that violations of the fourteenth or fifteenth amendment” for “Attorney General under any statute to enforce the guarantees of the fourteenth amendment in any State or political subdivision the court finds that violations of the fourteenth amendment” and “on account of race or color, or in contravention of the voting guarantees set forth in section 1973b(f)(2) of this title” for “on account of race or color”.

TRANSFER OF FUNCTIONS

§ 1973b. Suspension of the use of tests or devices in determining eligibility to vote

(a) Action by State or political subdivision for declaratory judgment of no denial or abridgement; three-judge district court; appeal to Supreme Court; retention of jurisdiction by three-judge court

(1) To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision of such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of subsection (b) of this section or in any political subdivision of
such State (as such subdivision existed on the date such determinations were made with respect to such State), though such determinations were not made with respect to such subdivision as a separate unit, or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia issues a declaratory judgment under this section. A declaratory judgment under this section shall issue only if such court determines that during the ten years preceding the filing of the action, and during the pendency of such action—

(A) no such test or device has been used within such State or political subdivision for the purpose of denying or abridging the right to vote on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section;

(B) no final judgment of any court of the United States, other than the denial of declaratory judgment under this section, has determined that denials or abridgments of the right to vote on account of race or color have occurred anywhere in the territory of such State or political subdivision or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section have occurred anywhere in the territory of such State or subdivision and no consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds; and no declaratory judgment under this section shall be entered during the pendency of an action commenced before the filing of an action under this section and alleging such denials or abridgments of the right to vote;

(C) no Federal examiners or observers under subchapters I–A to I–C of this chapter have been assigned to such State or political subdivision;

(D) such State or political subdivision and all governmental units within its territory have complied with section 1973c of this title, including compliance with the requirement that no change covered by section 1973c of this title has been enforced without preclearance under section 1973c of this title, and have repealed all changes covered by section 1973c of this title to which the Attorney General has successfully objected or as to which the United States District Court for the District of Columbia has denied a declaratory judgment;

(E) the Attorney General has not interposed any objection (that has not been overturned by a final judgment of a court) and no declaratory judgment has been denied under section 1973c of this title, with respect to any submission by or on behalf of the plaintiff or any governmental unit within its territory under section 1973c of this title, and no such submissions or declaratory judgment actions are pending; and

(F) such State or political subdivision and all governmental units within its territory—

(i) have eliminated voting procedures and methods of election which inhibit or dilute equal access to the electoral process;

(ii) have engaged in constructive efforts to eliminate intimidation and harassment of persons exercising rights protected under subchapters I–A to I–C of this chapter; and

(iii) have engaged in other constructive efforts, such as expanded opportunity for convenient registration and voting for every person of voting age and the appointment of minority persons as election officials throughout the jurisdiction and at all stages of the election and registration process.

(2) To assist the court in determining whether to issue a declaratory judgment under this subsection, the plaintiff shall present evidence of minority participation, including evidence of the levels of minority group registration and voting, changes in such levels over time, and disparities between minority-group and non-minority-group participation.

(3) No declaratory judgment shall issue under this subsection with respect to such State or political subdivision if such plaintiff and governmental units within its territory have, during the period beginning ten years before the date the judgment is issued, engaged in violations of any provision of the Constitution or laws of the United States or any State or political subdivision with respect to discrimination in voting on account of race or color or (in the case of a State or subdivision seeking a declaratory judgment under the second sentence of this subsection) in contravention of the guarantees of subsection (f)(2) of this section unless the plaintiff establishes that any such violations were trivial, were promptly corrected, and were not repeated.

(4) The State or political subdivision bringing such action shall publicize the intended commencement and any proposed settlement of such action in the media serving such State or political subdivision and in appropriate United States post offices. Any aggrieved party may as of right intervene at any stage in such action.

(5) An action pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. The court shall retain jurisdiction of any action pursuant to this subsection for ten years after judgment and shall reopen the action upon motion of the Attorney General or any aggrieved person alleging that conduct has occurred which, had that conduct occurred during the ten-year periods referred to in this subsection, would have precluded the issuance of a declaratory judgment under this subsection. The court, upon such reopening, shall vacate the declaratory judgment issued under this section if, after the issuance of such declaratory judgment, a final judgment against the State or subdivision with respect to which such declaratory judgment was issued, or against any governmental unit within that State or subdivision, determines that denials or abridgements of the right to vote on account of race or color have occurred anywhere in the territory of such State.
or political subdivision or (in the case of a State or subdivision which sought a declaratory judgment under the second sentence of this subsection) that denials or abridgements of the right to vote in contravention of the guarantees of subsection (f)(2) of this section in the territory of such State or subdivision, or if, after the issuance of such declaratory judgment, a consent decree, settlement, or agreement has been entered into resulting in any abandonment of a voting practice challenged on such grounds.

(6) If, after two years from the date of the filing of a declaratory judgment under this subsection, no date has been set for a hearing in such action, and that delay has not been the result of an avoidable delay on the part of counsel for any party, the chief judge of the United States District Court for the District of Columbia may request the Judicial Council for the Circuit of the District of Columbia to provide the necessary judicial resources to expedite any action filed under this section. If such resources are unavailable within the circuit, the chief judge shall file a certificate of necessity in accordance with section 292(d) of title 28.

(7) The Congress shall reconsider the provisions of this section at the end of the fifteen-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(8) The provisions of this section shall expire at the end of the twenty-five-year period following the effective date of the amendments made by the Fannie Lou Hamer, Rosa Parks, Coretta Scott King, César E. Chávez, Barbara C. Jordan, William C. Velásquez, and Dr. Hector P. Garcia Voting Rights Act Reauthorization and Amendments Act of 2006.

(9) Nothing in this section shall prohibit the Attorney General from consenting to an entry of judgment if based upon a showing of objective and compelling evidence by the plaintiff, and upon investigation, he is satisfied that the State or political subdivision has complied with the requirements of subsection (a)(1) of this section. Any aggrieved party may as of right intervene at any stage in such action.

(b) Required factual determinations necessary to allow suspension of compliance with tests and devices; publication in Federal Register

The provisions of subsection (a) of this section shall apply in any State or in any political subdivision of a State which (1) the Attorney General determines maintained on November 1, 1964, any test or device, and with respect to which (2) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1964, or that less than 50 per centum of such persons voted in the presidential election of November 1, 1964. On and after August 6, 1970, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous sentence, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1968, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the persons of voting age residing therein were registered on November 1, 1968, or that less than 50 per centum of such persons voted in the presidential election of November 1968. On and after August 6, 1975, in addition to any State or political subdivision of a State determined to be subject to subsection (a) of this section pursuant to the previous two sentences, the provisions of subsection (a) of this section shall apply in any State or any political subdivision of a State which (i) the Attorney General determines maintained on November 1, 1972, any test or device, and with respect to which (ii) the Director of the Census determines that less than 50 per centum of the citizens of voting age were registered on November 1, 1972, or that less than 50 per centum of such persons voted in the Presidential election of November 1972.

A determination or certification of the Attorney General or of the Director of the Census under this section or under section 1973f or 1973k of this title shall not be reviewable in any court and shall be effective upon publication in the Federal Register.

(c) “Test or device” defined

The phrase “test or device” shall mean any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

(d) Required frequency, continuation and probable recurrence of incidents of denial or abridgement to constitute forbidden use of tests or devices

For purposes of this section no State or political subdivision shall be determined to have engaged in the use of tests or devices for the purpose of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f) of this section if (1) incidents of such use have been few in number and have been promptly and effectively corrected by State or local action, (2) the continuing effect of such incidents has been eliminated, and (3) there is no reasonable probability of their recurrence in the future.

(e) Completion of requisite grade level of education in American-flag schools in which the predominant classroom language was other than English

(1) Congress hereby declares that to secure the rights under the fourteenth amendment of persons educated in American-flag schools in which the predominant classroom language was other than English, it is necessary to prohibit the States from conditioning the right to vote of such persons on ability to read, write, under-
stand, or interpret any matter in the English language.

(2) No person who demonstrates that he has successfully completed the sixth primary grade in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English, shall be denied the right to vote in any Federal, State, or local election because of his inability to read, write, understand, or interpret any matter in the English language, except that in States in which State law provides that a different level of education is presumptive of literacy, he shall demonstrate that he has successfully completed an equivalent level of education in a public school in, or a private school accredited by, any State or territory, the District of Columbia, or the Commonwealth of Puerto Rico in which the predominant classroom language was other than English.

(f) Congressional findings of voting discrimination against language minorities; prohibition of English-only elections; other remedial measures

(1) The Congress finds that voting discrimination against citizens of language minorities is pervasive and national in scope. Such minority citizens are from environments in which the dominant language is other than English. In addition they have been denied equal educational opportunities by State and local governments, resulting in severe disabilities and continuing illiteracy in the English language. The Congress further finds that, where State and local officials conduct elections only in English, language minority citizens are excluded from participating in the electoral process. In many areas of the country, this exclusion is aggravated by acts of physical, economic, and political intimidation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting English-only elections, and by prescribing other remedial devices.

(2) No voting qualification or prerequisite to voting, or standard, practice, or procedure shall be imposed or applied by any State or political subdivision to deny or abridge the right of any citizen of the United States to vote because he is a member of a language minority group.

(3) In addition to the meaning given the term under subsection (c) of this section, the term "test or device" shall also mean any practice or requirement by which any State or political subdivision provided any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language, where the Director of the Census determines that more than five per centum of the citizens of voting age residing in such State or political subdivision are members of a single language minority.

(4) Whenever any State or political subdivision subject to the prohibitions of the second sentence of subsection (a) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable language minority group as well as in the English language: Provided, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan Natives and American Indians, if the predominate language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

AMENDMENTS

Prior to such revision, subsec. (a) consisted of 4 undesignated paragraphs reading as follows:

"To assure that the right of citizens of the United States to vote is not denied or abridged on account of race or color, no citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the first two sentences of subsection (b) of this section or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia in an action for a declaratory judgment brought by such State or subdivision against the United States has determined that no such test or device has been used during the seventeen years preceding the filing of the action for the purpose or with the effect of denying or abridging the right to vote on account of race or color: Provided, That no such declaratory judgment shall issue with respect to any plaintiff for a period of seventeen years after the entry of a final judgment of any court of the United States, other than the denial of a declaratory judgment under this section, whether entered prior to or after August 6, 1965, determining that denials or abridgments of the right to vote on account of race or color through the use of such tests or devices have occurred anywhere in the territory of such plaintiff. No citizen shall be denied the right to vote in any Federal, State, or local election because of his failure to comply with any test or device in any State with respect to which the determinations have been made under the third sentence of
subsection (b) of this section or in any political subdivision with respect to which such determinations have been made as a separate unit, unless the United States District Court for the District of Columbia in an action for a declaratory judgment brought by such State or subdivision against the United States has determined that no such test or device has been used during the ten years preceding the entry of final judgment of any court of the United States, other than the denial of a declaratory judgment under this section, whether entered prior to or after the enactment of this paragraph, determining that denials or abridgments of the right to vote on account of race or color, or in contravention of the guarantees set forth in subsection (f)(2) of this section through the use of tests or devices have occurred anywhere in the territory of such plaintiff, second par., substituted “on account of race or color” for “on account of race or color”.

If the Attorney General determines that he has no reason to believe that any such test or device has been used during the ten years preceding the filing of an action under the first sentence of this subsection for the purpose or with the effect of denying or abridging the right to vote on account of race or color, the time limit under the second sentence of this subsection for “five” years in first and third pars. inserted provision respecting the making of factual determinations concerning the maintenance of any test or device on Nov. 1, 1968, registration of less than 50 per centum of persons of voting age on Nov. 1, 1968, and voting by less than 50 per centum of such persons in the presidential election of November 1968.

Effective Date of 1982 Amendment
Amendment by section 2(a), (c) of Pub. L. 97–205 effective June 29, 1982, see section 6 of Pub. L. 97–205, set out as a note under section 1973 of this title.

Section 2(b) of Pub. L. 97–205 provided that the amendment made by that section is effective on and after Aug. 5, 1984.

§ 1973c. Alteration of voting qualifications; procedure and appeal; purpose or effect of diminishing the ability of citizens to elect their preferred candidates

(a) Whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the first sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1964, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under the second sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1968, or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973c(a) of this title based upon determinations made under the third sentence of section 1973b(b) of this title are in effect shall
enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972, such State or subdivision may institute an action in the United States District Court for the District of Columbia for a declaratory judgment that such qualification, prerequisite, standard, practice, or procedure, is to protect the ability of such citizens to elect their preferred candidates of choice.

(b) Any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting that has the purpose of or will have the effect of denying or abridging the right to vote on account of race or color, or in contravention of the guarantees set forth in section 1973b(f)(2) of this title, and unless and until the court enters such judgment no person shall be denied the right to vote for failure to comply with such qualification, prerequisite, standard, practice, or procedure: Provided, That such qualification, prerequisite, standard, practice, or procedure may be enforced without such proceeding if the qualification, prerequisite, standard, practice, or procedure has been submitted by the chief legal officer or other appropriate official of such State or subdivision to the Attorney General and the Attorney General has not interposed an objection within sixty days after such submission, or upon good cause shown, to facilitate an expedited approval within sixty days after such submission, the Attorney General has affirmatively indicated that such objection will not be made. No such objection will be made, nor the Attorney General’s failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure. In the event the Attorney General has affirmatively indicated that such objection will not be made, nor the Attorney General’s failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972, after 1968, substituted “or upon good cause shown, to facilitate an expedited approval within sixty days after such submission, the Attorney General has affirmatively indicated that such objection will not be made. Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General’s failure to object, nor a declaratory judgment entered under this section shall bar a subsequent action to enjoin enforcement of such qualification, prerequisite, standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972.” after 1968, substituted “or upon good cause shown, to facilitate an expedited approval within sixty days after such submission, the Attorney General has affirmatively indicated that such objection will not be made. Neither an affirmative indication by the Attorney General that no objection will be made, nor the Attorney General’s failure to object,” for “except that neither the Attorney General’s failure to object,” and “on account of race or color,” and inserted provisions that in the event the Attorney General affirmatively indicates that no objection will be made within the sixty-day period following receipt of a submission, the Attorney General may reserve the right to examine the submission if additional information comes to his attention during the remainder of the sixty-day period which would otherwise require objection in accordance with this section.

The term “purpose” in subsections (a) and (b) of this section shall include any discriminatory purpose.

The purpose of subsection (b) of this section is to protect the ability of such citizens to elect their preferred candidates of choice.

(2) the Attorney General certifies with respect to any political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under third sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972.” after 1968, substituted “or whenever a State or political subdivision with respect to which the prohibitions set forth in section 1973b(a) of this title based upon determinations made under third sentence of section 1973b(b) of this title are in effect shall enact or seek to administer any voting qualification or prerequisite to voting, or standard, practice, or procedure with respect to voting different from that in force or effect on November 1, 1972.” after “1964.”.

§ 1973f. Use of observers

(a) Assignment

Whenever—

(1) a court has authorized the appointment of observers under section 1973a(a) of this title for a political subdivision; or

(2) the Attorney General certifies with respect to any political subdivision named in, or included within the scope of, determinations made under section 1973b(a) of this title, unless a declaratory judgment has been rendered under section 1973b(a) of this title, that—

(A) the Attorney General has received written meritorious complaints from resi-
dents, elected officials, or civic participation organizations that efforts to deny or abridge the right to vote under the color of law on account of race or color, or in contravention of the guarantees set forth in section 1973b(c)(2) of this title are likely to occur; or

(B) in the Attorney General's judgment (considering, among other factors, whether the ratio of nonwhite persons to white persons registered to vote within such subdivision appears to the Attorney General to be reasonably attributable to violations of the 14th or 15th amendment or whether substantial evidence exists that bona fide efforts are being made within such subdivision to comply with the 14th or 15th amendment), the assignment of observers is otherwise necessary to enforce the guarantees of the 14th or 15th amendment;

the Director of the Office of Personnel Management shall assign as many observers for such subdivision as the Director may deem appropriate.

(b) Status

Except as provided in subsection (c), such observers shall be assigned, compensated, and separated without regard to the provisions of any statute administered by the Director of the Office of Personnel Management, and their service under subchapters I–A to I–C shall not be considered employment for the purposes of any statute administered by the Director of the Office of Personnel Management, except the provisions of section 7324 of title 5 prohibiting partisan political activity.

(c) Designation

The Director of the Office of Personnel Management is authorized to, after consulting the head of the appropriate department or agency, designate suitable persons in the official service of the United States, with their consent, to serve in these positions.

(d) Authority

Observers shall be authorized to—

(1) enter and attend at any place for holding an election in such subdivision for the purpose of observing whether persons who are entitled to vote are being permitted to vote; and

(2) enter and attend at any place for tabulating the votes cast at any election held in such subdivision for the purpose of observing whether votes cast by persons entitled to vote are being properly tabulated.

(e) Investigation and report

Observers shall investigate and report to the Attorney General, and if the appointment of observers has been authorized pursuant to section 1973a(a) of this title, to the court.

§1973h. Poll taxes

(a) Congressional finding and declaration of policy against enforced payment of poll taxes as a device to impair voting rights

The Congress finds that the requirement of the payment of a poll tax as a precondition to voting (i) precludes persons of limited means from voting or imposes unreasonable financial hardship upon such persons as a precondition to their exercise of the franchise, (ii) does not bear a reasonable relationship to any legitimate State interest in the conduct of elections, and (iii) in some areas has the purpose or effect of denying persons the right to vote because of race or color. Upon the basis of these findings, Congress declares that the constitutional right of citizens to vote is denied or abridged in some areas by the requirement of the payment of a poll tax as a precondition to voting.

(b) Authority of Attorney General to institute actions for relief against enforcement of poll tax requirement

In the exercise of the powers of Congress under section 5 of the fourteenth amendment, section 2 of the fifteenth amendment and section 2 of the twenty-fourth amendment, the Attorney General is authorized and directed to institute forthwith in the name of the United States such actions, including actions against States or political subdivisions, for declaratory judgment or injunctive relief against the enforcement of any requirement of the payment of a poll tax as a precondition to voting, or substitute therefore enacted after November 1, 1964, as will be necessary to implement the declaration of subsection (a) of this section and the purposes of this section.

(c) Jurisdiction of three-judge district courts; appeal to Supreme Court

The district courts of the United States shall have jurisdiction of such actions which shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28 and any appeal shall lie to the Supreme Court. It shall be the duty of the judges designated to hear the case to assign the case for hearing at the earliest practicable date, to
participate in the hearing and determination thereof, and to cause the case to be in every way expedited.

(d) Falsification or concealment of material facts or giving of false statements in matters within jurisdiction of examiners or hearing officers; penalties

Whoever, in any matter within the jurisdiction of an examiner or hearing officer knowingly and willfully falsifies or conceals a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both.

(e) Voting more than once

(1) Whoever votes more than once in an election referred to in paragraph (2) shall be fined not more than $10,000 or imprisoned not more than five years, or both.

(2) The prohibition of this subsection applies with respect to any general, special, or primary election held solely or in part for the purpose of selecting or electing any candidate for the office of President, Vice President, presidential elector, Member of the United States Senate, Member of the United States House of Representatives, Delegate from the District of Columbia, Guam, or the Virgin Islands, or Resident Commissioner of the Commonwealth of Puerto Rico.

(3) As used in this subsection, the term “votes more than once” does not include the casting of an additional ballot if all prior ballots of that voter were invalidated, nor does it include the voting in two jurisdictions under section 1973aa–1 of this title, to the extent two ballots are not cast for an election to the same candidacy or office.

SUBCHAPTER I–B—SUPPLEMENTAL PROVISIONS

§ 1973aa. Application of prohibition to other States; "test or device" defined

(a) No citizen shall be denied, because of his failure to comply with any test or device, the right to vote in any Federal, State, or local election conducted in any State or political subdivision of a State.

(b) As used in this section, the term "test or device" means any requirement that a person as a prerequisite for voting or registration for voting (1) demonstrate the ability to read, write, understand, or interpret any matter, (2) demonstrate any educational achievement or his knowledge of any particular subject, (3) possess good moral character, or (4) prove his qualifications by the voucher of registered voters or members of any other class.

AMENDMENTS

1975—Subsec. (a). Pub. L. 94–73 struck out "Prior to August 6, 1975," and "as to which the provisions of section 1973b(a) of this title are not in effect by reason of determinations made under section 1973b(b) of this title."

§ 1973aa–1. Residence requirements for voting

(a) Congressional findings

The Congress hereby finds that the imposition and application of the durational residency requirement as a precondition to voting for the offices of President and Vice President, and the lack of sufficient opportunities for absentee registration and absentee balloting in presidential elections—

(1) denies or abridges the inherent constitutional right of citizens to vote for their President and Vice President;

(2) denies or abridges the inherent constitutional right of citizens to enjoy their free movement across State lines;

(3) denies or abridges the privileges and immunities guaranteed to the citizens of each State under article IV, section 2, clause 1, of the Constitution;

(4) in some instances has the impermissible purpose or effect of denying citizens the right to vote for such officers because of the way they may vote;

(5) has the effect of denying citizens the equality of civil rights, and due process and equal protection of the laws that are guaranteed to them under the fourteenth amendment; and

(6) does not bear a reasonable relationship to any compelling State interest in the conduct of presidential elections.

(b) Congressional declaration: durational residency requirement, abolition; absentee registration and balloting standards, establishment

Upon the basis of these findings, Congress declares that in order to secure and protect the above-stated rights of citizens under the Constitution, to enable citizens to better obtain the enjoyment of such rights, and to enforce the guarantees of the fourteenth amendment, it is necessary (1) to completely abolish the durational residency requirement as a precondition to voting for President and Vice President, and (2) to establish nationwide, uniform standards relative to absentee registration and absentee balloting in presidential elections.

(c) Prohibition of denial of right to vote because of durational residency requirement or absentee balloting

No citizen of the United States who is otherwise qualified to vote in any election for President and Vice President shall be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to comply with any durational residency requirement of such State or political subdivision; nor shall any citizen of the United States be denied the right to vote for electors for President and Vice President, or for President and Vice President, in such election because of the failure of such citizen to be physically present in such State or political subdivision at the time of such election, if such citizen shall have complied with the requirements prescribed by the law of such State or political subdivision providing for the casting of absentee ballots in such election.

(d) Registration: time for application; absentee balloting: time of application and return of ballots

For the purposes of this section, each State shall provide by law for the registration or other means of qualification of all duly qualified residents of such State who apply, not later than thirty days immediately prior to any presidential election, for registration or qualification to vote for the choice of electors for President and Vice President or for President and Vice President in such election; and each State shall provide by law for the casting of absentee ballots for the choice of electors for President and Vice President, or for President and Vice President, by all duly qualified residents of such State who may be absent from their election
district or unit in such State on the day such election is held and who have applied therefor not later than seven days immediately prior to such election and have returned such ballots to the appropriate election official of such State not later than the time of closing of the polls in such State on the day of such election.

(e) Change of residence; voting in person or by absentee ballot in State of prior residence

If any citizen of the United States who is otherwise qualified to vote in any State or political subdivision in any election for President and Vice President has begun residence in such State or political subdivision after the thirtieth day next preceding such election and, for that reason, does not satisfy the registration requirements of such State or political subdivision he shall be allowed to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election, (1) in person in the State or political subdivision in which he resided immediately prior to his removal if he had satisfied, as of the date of his change of residence, the requirements to vote in that State or political subdivision, or (2) by absentee ballot in the State or political subdivision in which he resided immediately prior to his removal if he satisfies, for his non-resident status and the reason for his absence, the requirements for absentee voting in that State or political subdivision.

(f) Absentee registration requirement

No citizen of the United States who is otherwise qualified to vote by absentee ballot in any State or political subdivision in any election for President and Vice President shall be denied the right to vote for the choice of electors for President and Vice President, or for President and Vice President, in such election, in person in the State or political subdivision in which he resided immediately prior to his removal if he satisfies, for his non-resident status and the reason for his absence, the requirements for absentee voting in that State or political subdivision.

(g) State or local adoption of less restrictive voting practices

Nothing in this section shall prevent any State or political subdivision from adopting less restrictive voting practices than those that are prescribed herein.

(h) “State” defined

The term “State” as used in this section includes each of the several States and the District of Columbia.

(i) False registration, and other fraudulent acts and conspiracies: application of penalty for false information in registering or voting

The provisions of section 1973(c) of this title shall apply to false registration, and other fraudulent acts and conspiracies, committed under this section.

§ 1973aa–1a. Bilingual election requirements

(a) Congressional findings and declaration of policy

The Congress finds that, through the use of various practices and procedures, citizens of language minorities have been effectively excluded from participation in the electoral process. Among other factors, the denial of the right to vote of such minority group citizens is ordinarilily directly related to the unequal educational opportunities afforded them resulting in high illiteracy and low voting participation. The Congress declares that, in order to enforce the guarantees of the fourteenth and fifteenth amendments to the United States Constitution, it is necessary to eliminate such discrimination by prohibiting these practices, and by prescribing other remedial devices.

(b) Bilingual voting materials requirement

(1) Generally

Before August 6, 2032, no covered State or political subdivision shall provide voting materials only in the English language.

(2) Covered States and political subdivisions

(A) Generally

A State or political subdivision is a covered State or political subdivision for the purposes of this subsection if the Director of the Census determines, based on the 2010 American Community Survey census data and subsequent American Community Survey data in 5-year increments, or comparable census data, that—

(ii) more than 10,000 of the citizens of voting age of such political subdivision are members of a single language minority and are limited-English proficient; or

(iii) in the case of a political subdivision that contains all or any part of an Indian reservation, more than 5 percent of the American Indian or Alaska Native citizens of voting age within the Indian reservation are members of a single language minority and are limited-English proficient; and

(ii) the illiteracy rate of the citizens in the language minority as a group is higher than the national illiteracy rate.

(B) Exception

The prohibitions of this subsection do not apply in any political subdivision that has less than 5 percent voting age limited-English proficient citizens of each language minority which comprises over 5 percent of the statewide limited-English proficient population of voting age citizens, unless the political subdivision is a covered political subdivision independently from its State.

(3) Definitions

As used in this section—

(A) the term “voting materials” means registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots;

(B) the term “limited-English proficient” means unable to speak or understand English adequately enough to participate in the electoral process;

(C) the term “Indian reservation” means any area that is an American Indian or Alas-

(c) Requirement of voting notices, forms, instructions, assistance, or other materials and ballots in minority language

Whenever any State or political subdivision subject to the prohibition of subsection (b) of this section provides any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable minority group as well as in the English language: Provided, That where the language of the applicable minority group is oral or unwritten or in the case of Alaskan natives and American Indians, if the predominant language is historically unwritten, the State or political subdivision is only required to furnish oral instructions, assistance, or other information relating to registration and voting.

(d) Action for declaratory judgment permitting English-only materials

(e) Definitions

For purposes of this section, the term “language minorities” or “language minority group” means persons who are American Indian, Asian American, Alaskan Natives, or of Spanish heritage.

(A) In general

Not later than December 31, 2011, the Presidential designee shall adopt procedures to promote and expand the use of the Federal write-in absentee ballot as a back-up measure to vote in elections for Federal office.

(B) Use of technology

Under such procedures, the Presidential designee shall utilize technology to implement a system under which the absent uniformed services voter or overseas voter may—

(i) enter the address of the voter or other information relevant in the appropriate jurisdiction of the State, and the system will generate a list of all candidates in the election for Federal office in that jurisdiction; and

(ii) submit the marked Federal write-in absentee ballot by printing the ballot (including complete instructions for submitting the marked Federal write-in absentee ballot to the appropriate State election official and the mailing address of the single State office designated under section 1973ff–1(b) of this title).

(C) Authorization of appropriations

There are authorized to be appropriated to the Presidential designee such sums as may be necessary to carry out this paragraph.

(b) Submission and processing

Except as otherwise provided in this subchapter, a Federal write-in absentee ballot shall be submitted and processed in the manner provided by law for absentee ballots in the State involved. A Federal write-in absentee ballot of an absent uniformed services voter or overseas voter shall not be counted—

(1) in the case of a ballot submitted by an overseas voter who is not an absent uniformed services voter, if the ballot is submitted from any location in the United States;

(2) if the application of the absent uniformed services voter or overseas voter for a State absentee ballot is received by the appropriate State election official after the later of—

(d) Second ballot submission; instruction to absent uniformed services voter or overseas voter

An absent uniformed services voter or overseas voter who submits a Federal write-in absentee ballot and later receives a State absentee ballot, may submit the State absentee ballot. The Presidential designee shall assure that the instructions for each Federal write-in absentee ballot clearly state that an absent uniformed services voter or overseas voter who submits a Federal write-in absentee ballot and later receives and submits a State absentee ballot should make every reasonable effort to inform the appropriate State election official that the voter has submitted more than one ballot.

The Federal write-in absentee ballot shall not be valid for use in a general, special, primary, or runoff election for Federal office if the State involved provides a State absentee ballot that—

Short Title
Pub. L. 95–341, as amended, which enacted this section, section 1996a of this title, and a provision set out as a note under this section, is popularly known as the American Indian Religious Freedom Act.

Section 2 of Pub. L. 95–341 provided that the President direct the various Federal departments, agencies, and other instrumentalities responsible for administering relevant laws to evaluate their policies and procedures in consultation with native traditional religious leaders to determine changes necessary to preserve Native American religious cultural rights and practices and to report to the Congress 12 months after Aug. 11, 1978.

Ex. Ord. No. 13007. Indian Sacred Sites
Ex. Ord. No. 13007, May 24, 1996, 61 F.R. 26771, provided:

By the authority vested in me as President by the Constitution and the laws of the United States, in furtherance of Federal treaties, and in order to protect and preserve Indian religious practices, it is hereby ordered:

Section 1. Accommodation of Sacred Sites. (a) In managing Federal lands, each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, to the extent practicable, permitted by law, and not clearly inconsistent with essential agency functions, (1) accommodate access to and ceremonial use of Indian sacred sites by Indian religious practitioners and (2) avoid adversely affecting the physical integrity of such sacred sites. Where appropriate, agencies shall maintain the confidentiality of sacred sites.

(b) For purposes of this order:
(i) “Federal lands” means any land or interests in land owned by the United States, including leasehold interests held by the United States, except Indian trust lands;
(ii) “Indian tribe” means an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe pursuant to Public Law No. 103–441, 108 Stat. 4791 [see 25 U.S.C. 479a, 479a–1], and “Indian” refers to a member of such an Indian tribe; and
(iii) “Sacred site” means any specific, discrete, narrowly delineated location on Federal land that is identified by an Indian tribe, or Indian individual determined to be an appropriately authoritative representative of an Indian religion, as sacred by virtue of its established religious significance to, or ceremonial use by, an Indian religion; provided that the tribe or appropriately authoritative representative of an Indian religion has informed the agency of the existence of such a site.

Section 2. Procedures. (a) Each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall, as appropriate, promptly implement procedures for the purposes of carrying out the provisions of section 1 of this order, including, where practicable and appropriate, procedures to ensure reasonable notice is provided of proposed actions or land management policies that may restrict future access to or ceremonial use of, or adversely affect the physical integrity of, sacred sites. In all actions pursuant to this section, agencies shall comply with the Executive memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” [25 U.S.C. 450 note].

(b) Within 1 year of the effective date of this order, the head of each executive branch agency with statutory or administrative responsibility for the management of Federal lands shall report to the President, through the Assistant to the President for Domestic Policy, on the implementation of this order. Such reports shall address, among other things, (1) any changes necessary to accommodate access to and ceremonial use of Indian sacred sites; (2) any changes necessary to avoid adversely affecting the physical integrity of Indian sacred sites; and (iii) procedures implemented or proposed to facilitate consultation with appropriate Indian tribes and religious leaders and the expeditious resolution of disputes relating to agency action on Federal lands that may adversely affect access to, ceremonial use of, or the physical integrity of sacred sites.

Sic. 3. Nothing in this order shall be construed to require a taking of vested property interests. Nor shall this order be construed to impair enforceable rights to use of Federal lands that have been granted to third parties through final agency action. For purposes of this order, “agency action” has the same meaning as in the Administrative Procedure Act (5 U.S.C. 551(3)).

Sic. 4. This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law or equity by any party against the United States, its agencies, officers, or any person.

§ 1996a. Traditional Indian religious use of peyote

(a) Congressional findings and declarations

The Congress finds and declares that—

(1) for many Indian people, the traditional ceremonial use of the peyote cactus as a religious sacrament has for centuries been integral to a way of life, and significant in perpetuating Indian tribes and cultures;

(2) since 1963, this ceremonial use of peyote by Indians has been protected by Federal regulation;

(3) while at least 28 States have enacted laws which are similar to, or are in conformance with, the Federal regulation which protects the ceremonial use of peyote by Indian religious practitioners, 22 States have not done so, and this lack of uniformity has created hardship for Indian people who participate in such religious ceremonies;

(4) the Supreme Court of the United States, in the case of Employment Division v. Smith, 494 U.S. 872 (1990), held that the First Amendment does not protect Indian practitioners who use peyote in Indian religious ceremonies, and also raised uncertainty whether this religious practice would be protected under the compelling State interest standard; and

(5) the lack of adequate and clear legal protection for the religious use of peyote by Indians may serve to stigmatize and marginalize Indian tribes and cultures, and increase the risk that they will be exposed to discriminatory treatment.

(b) Use, possession, or transportation of peyote

(1) Notwithstanding any other provision of law, the use, possession, or transportation of peyote by an Indian for bona fide traditional ceremonial purposes in connection with the practice of a traditional Indian religion is lawful, and shall not be prohibited by the United States or any State. No Indian shall be penalized or dis-
cruinated against on the basis of such use, possession or transportation, including, but not limited to, denial of otherwise applicable benefits under public assistance programs.

(2) This section does not prohibit such reasonable regulation and registration by the Drug Enforcement Administration of those persons who cultivate, harvest, or distribute peyote as may be consistent with the purposes of this section and section 1996 of this title.

(3) This section does not prohibit application of the provisions of section 481.111(a) of Vernon’s Texas Health and Safety Code Annotated, in effect on October 6, 1994, so as those provisions pertain to the cultivation, harvest, and distribution of peyote.

(4) Nothing in this section shall prohibit any Federal department or agency, in carrying out its statutory responsibilities and functions, from promulgating regulations establishing reasonable limitations on the use or ingestion of peyote prior to or during the performance of duties by sworn law enforcement officers or personnel directly involved in public transportation or any other safety-sensitive positions where the performance of such duties may be adversely affected by such use or ingestion. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice. Any regulation promulgated pursuant to this section shall be subject to the balancing test set forth in section 3 of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1).

(5) This section shall not be construed as requiring prison authorities to permit, nor shall it be construed to prohibit prison authorities from permitting, access to peyote by Indians while incarcerated within Federal or State prison facilities.

(6) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1) this section shall not be construed to prohibit States from enacting or enforcing reasonable traffic safety laws or regulations.

(7) Subject to the provisions of the Religious Freedom Restoration Act (Public Law 103–141; 42 U.S.C. 2000bb–1), this section does not prohibit the Secretary of Defense from promulgating regulations establishing reasonable limitations on the use, possession, transportation, or distribution of peyote to promote military readiness, safety, or compliance with international law or laws of other countries. Such regulations shall be adopted only after consultation with representatives of traditional Indian religions for which the sacramental use of peyote is integral to their practice.

(c) Definitions

For purposes of this section—

(1) the term “Indian” means a member of an Indian tribe;

(2) the term “Indian tribe” means any tribe, band, nation, pueblo, or other organized group or community of Indians, including any Alaska Native village (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

(3) the term “Indian religion” means any religion—

(A) which is practiced by Indians, and

(B) the origin and interpretation of which is from within a traditional Indian culture or community; and

(4) the term “State” means any State of the United States, and any political subdivision thereof.

(d) Protection of rights of Indians and Indian tribes

Nothing in this section shall be construed as abrogating, diminishing, or otherwise affecting—

(1) the inherent rights of any Indian tribe;

(2) the rights, express or implicit, of any Indian tribe which exist under treaties, Executive orders, and laws of the United States;

(3) the inherent right of Indians to practice their religions; and

(4) the right of Indians to practice their religions under any Federal or State law.

AMENDMENTS

§1997g. Priorities for use of funds
It is the intent of Congress that deplorable conditions in institutions covered by this subchapter amounting to deprivations of rights protected by the Constitution or laws of the United States be corrected, not only by litigation as contemplated in this subchapter, but also by the voluntary good faith efforts of agencies of Federal, State, and local governments. It is the further intention of Congress that where Federal funds are available for use in improving such institutions, priority should be given to the correction or elimination of such unconstitutional or illegal conditions which may exist. It is not the intent of this provision to require the redirection of funds from one program to another or from one State to another.

§1997h. Notice to Federal departments
At the time of notification of the commencement of an investigation of an institution under section 1997a of this title or of the notification of an intention to file a motion to intervene under section 1997c of this title, and if the relevant institution receives Federal financial assistance from the Department of Health and Human Services or the Department of Edu-
cution, the Attorney General shall notify the appropriate Secretary of the action and the reasons for such action and shall consult with such officials. Following such consultation, the Attorney General may proceed with an action under this subchapter if the Attorney General is satisfied that such action is consistent with the policies and goals of the executive branch.

§ 1997i. Disclaimer respecting standards of care

Provisions of this subchapter shall not authorize promulgation of regulations defining standards of care.

§ 1997j. Disclaimer respecting private litigation

The provisions of this subchapter shall in no way expand or restrict the authority of parties other than the United States to enforce the legal rights which they may have pursuant to existing law with regard to institutionalized persons. In this regard, the fact that the Attorney General may be conducting an investigation or contemplating litigation pursuant to this subchapter shall not be grounds for delay of or prejudice to any litigation on behalf of parties other than the United States.

for preventive relief, including an application
for a permanent or temporary injunction, re-

authorize the commencement of the civil action
without the payment of fees, costs, or security.

(b) Attorney’s fees; liability of United States for
costs
In any action commenced pursuant to this
subchapter, the court, in its discretion, may
allow the prevailing party, other than the

(c) State or local enforcement proceedings; noti-

Federal proceedings
In the case of an alleged act or practice pro-
hibited by this subchapter which occurs in a

has a State or local law prohibiting such act or
practice and establishing or authorizing a State
or local authority to grant or seek relief from
such practice or to institute criminal proceed-
ings with respect thereto upon receiving notice
thereof, no civil action may be brought under
subsection (a) of this section before the expira-
tion of thirty days after written notice of such

stay proceedings in such civil action pending the
termination of State or local enforcement pro-
cedings.

reference; extension of period
In the case of an alleged act or practice pro-

there is a reasonable possibility of obtaining
voluntary compliance, but for not more than
sixty days: Provided further, That upon expira-

tion of such sixty-day period, the court may extend such period for an additional period, not to exceed a cumulative total of one hundred and twenty days, if it believes there then exists a reasonable possibility of securing voluntary compliance.

§ 2000a–4. Community Relations Services; investigations and hearings; executive session; release of testimony; duty to bring about voluntary settlements

The Service is authorized to make a full investigation of any complaint referred to it by the court under section 2000a–3(d) of this title and may hold such hearings with respect thereto as may be necessary. The Service shall conduct any hearings with respect to any such complaint in executive session, and shall not release any testimony given therein except by agreement of all parties involved in the complaint with the permission of the court, and the Service shall endeavor to bring about a voluntary settlement between the parties.

§ 2000a–5. Civil actions by the Attorney General

(a) Complaint

Whenever the Attorney General has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of resistance to the full enjoyment of any of the rights secured by this subchapter, and that the pattern or practice is of such a nature and is intended to deny the full exercise of the rights therein described, the Attorney General may bring a civil action in the appropriate district court of the United States by filing with it a complaint (1) signed by him (or in his absence, the Acting Attorney General), (2) setting forth facts pertaining to such pattern or practice, and (3) requesting such preventive relief, including an application for a permanent or temporary injunction, restraining order or other order against the person or persons responsible for such pattern or practice, as he deems necessary to insure the full enjoyment of the rights therein described.

(b) Three-judge district court for cases of general public importance; hearing, determination, expedition of action, review by Supreme Court; single judge district court; hearing, determination, expedition of action

In any such proceeding the Attorney General may file with the clerk of such court a request that a court of three judges be convened to hear and determine the case. Such request by the Attorney General shall be accompanied by a certificate that, in his opinion, the case is of general public importance. A copy of the certificate and request for a three-judge court shall be immediately furnished by such clerk to the chief judge of the circuit (or, in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of the copy of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In the event the Attorney General fails to file such a request in any such proceeding, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or, in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

§ 2000a–6. Jurisdiction; exhaustion of other remedies; exclusiveness of remedies; assertion of rights based on other Federal or State laws and pursuit of remedies for enforcement of such rights

(a) The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this subchapter and shall exercise the same without regard to whether the aggrieved party shall have exhausted any administrative or other remedies that may be provided by law.

(b) The remedies provided in this subchapter shall be the exclusive means of enforcing the rights based on this subchapter, but nothing in this subchapter shall preclude any individual or any State or local agency from asserting any right based on any other Federal or State law not inconsistent with this subchapter, including any statute or ordinance requiring nondiscrimination in public establishments or accommodations, or from pursuing any remedy, civil or criminal, which may be available for the vindication or enforcement of such right.

SUBCHAPTER III—PUBLIC FACILITIES

§ 2000b. Civil actions—public facilities

(a) Complaint; certification; institution of civil action; relief requested; jurisdiction; impleading additional parties as defendants

Whenever the Attorney General receives a complaint in writing signed by an individual to
the effect that he is being deprived of or threatened with the loss of his right to the equal protection of the laws, on account of his race, color, religion, or national origin, by being denied equal utilization of any public facility which is owned, operated, or managed by or on behalf of any State or subdivision thereof, other than a public school or public college as defined in section 2000c of this title, and the Attorney General believes the complaint is meritorious and certifies that the signer or signers of such complaint are unable, in his judgment, to initiate and maintain appropriate legal proceedings for relief and that the institution of an action will materially further the orderly progress of desegregation in public facilities, the Attorney General is authorized to institute for or in the name of the United States a civil action in any appropriate district court of the United States against such parties and for such relief as may be appropriate, and such court shall have and shall exercise jurisdiction of proceedings instituted pursuant to this section. The Attorney General may implead as defendants such additional parties as are or become necessary to the grant of effective relief hereunder.

COORDINATION OF IMPLEMENTATION AND ENFORCEMENT OF PROVISIONS

For provisions relating to the coordination of implementation and enforcement of the provisions of this subchapter by the Attorney General, see section 1–201 of Ex. Ord. No. 12250, Nov. 2, 1980, 45 F.R. 72995, set out as a note under section 2000d–1 of this title.

EX. ORD. NO. 13160. NONDISCRIMINATION ON THE BASIS OF RACE, SEX, NATIONAL ORIGIN, DISABILITY, RELIGION, AGE, SEXUAL ORIENTATION, AND STATUS AS A PARENT IN FEDERALLY CONDUCTED EDUCATION AND TRAINING PROGRAMS

Ex. Ord. No. 13160, June 23, 2000, 65 F.R. 39775, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including sections 921–932 of title 20, United States Code; section 2164 of title 10, United States Code; section 2001 et seq., of title 25, United States Code; section 7301 of title 5, United States Code; and section 301 of title 3, United States Code, and to achieve equal opportunity in Federally conducted education and training programs and activities, it is hereby ordered as follows:

SECTION 1. Statement of policy on education programs and activities conducted by executive departments and agencies.

1–101. The Federal Government must hold itself to at least the same principles of nondiscrimination in educational opportunities as it applies to the education programs and activities of State and local governments, and to private institutions receiving Federal financial assistance. Existing laws and regulations prohibit certain forms of discrimination in Federally conducted education and training programs and activities—including discrimination against people with disabilities, prohibited by the Rehabilitation Act of 1973, 29 U.S.C. 701 et seq., as amended, employment discrimination on the basis of race, color, national origin, sex, or religion, prohibited by Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e–7 (42 U.S.C. 2000e et seq.), as amended, discrimination on the basis of race, color, national origin, or religion in educational programs receiving Federal assistance under Title VI of the Civil Rights Acts of 1964, 42 U.S.C. 2000d et seq., and sex-based discrimination in education programs receiving Federal assistance under Title IX of the Education Amendments of 1972, 20 U.S.C. 1681 et seq. Through this Executive Order, discrimination on the basis of race, sex, color, national origin, disability, religion, age, sexual orientation, and status as a parent will be prohibited in Federally conducted education and training programs and activities.

1–102. No individual, on the basis of race, sex, national origin, disability, religion, age, sexual ori-
entation, or status as a parent, shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination in, a Federally conducted education or training program or activity.

Snc. 2. Definitions.

2–201. "Federally conducted education and training programs and activities" includes programs and activities conducted, operated, or undertaken by an executive department or agency.

2–202. "Education and training programs and activities" include, but are not limited to, formal schools, extracurricular activities, academic programs, occupational training, scholarships and fellowships, student internships, training for industry members, summer enrichment camps, and teacher training programs.

2–203. The Attorney General is authorized to make a final determination as to whether a program falls within the scope of education and training programs and activities covered by this order, under subsection 2–202, or is窣ative enforcement.

2–204. "Military education or training programs" are those education and training programs conducted by the Department of Defense or, where the Coast Guard is concerned, the Department of Transportation, for the primary purpose of educating or training members of the armed forces or meeting a statutory requirement to train or train Federal, state, or local civilian law enforcement officials pursuant to 10 U.S.C. Chapter 18.

2–205. "Armed Forces" means the Armed Forces of the United States.

2–206. "Status as a parent" refers to the status of an individual who, with respect to an individual who is under the age of 18 or who is 18 or older but is incapable of self-care because of a physical or mental disability, is:

(a) a biological parent;
(b) an adoptive parent;
(c) a foster parent;
(d) a stepparent;
(e) a custodian of a legal ward;
(f) in loco parentis over such an individual; or
(g) actively seeking legal custody or adoption of such an individual.

Snc. 3. Exemption from coverage.

3–301. This order does not apply to members of the armed forces, military education or training programs, or authorized intelligence activities. Members of the armed forces, including students at military academies, will continue to be covered by regulations that could bar specified forms of discrimination that are now enforced by the Department of Defense and the individual service branches. The Department of Defense shall develop procedures to protect the rights of and to enforce procedures with respect to complaints against employees.

3–302. This order does not apply to, affect, interfere with, or modify the operation of any otherwise lawful affirmative action plan or program.

3–303. An individual shall not be deemed subjected to discrimination by reason of his or her exclusion from the benefits of a program established consistent with federal law or limited by Federal law to individuals of a particular race, sex, color, disability, national origin, age, religion, sexual orientation, or status as a parent different from his or her own.

3–304. This order does not apply to (a) selections based on national origin of foreign nationals to participate in covered education or training programs, if such programs primarily concern national security or foreign policy matters; or (b) selections or other decisions regarding participation in covered education or training programs made by entities outside the executive branch. It shall be the policy of the executive branch that education or training programs or activities shall not be available to entities that select persons for participation in violation of Federal law.

3–305. The prohibition on discrimination on the basis of age provided in this order does not apply to age-based admissions of participants to education or training programs, if such programs have traditionally been age-specific or must be age-limited for reasons related to health or national security.

Snc. 4. Administrative enforcement.

4–401. Any person who believes himself or herself to be aggrieved by a violation of this order or its implementing regulations, rules, policies, or guidance may, personally or through a representative, file a writen complaint with the agency that such person believes is in violation of this order or its implementing regulations, rules, policies, or guidance. Pursuant to procedures to be established by the Attorney General, each executive department or agency shall conduct an investigation of any complaint by one of its employees alleging a violation of this Executive Order.

4–402. (a) If the office within an executive department or agency that is designated to investigate complaints for violations of this order or its implementing rules, regulations, policies, or guidance concludes that an employee has not complied with this order or any of its implementing rules, regulations, policies, or guidance, such office shall complete a report and refer a copy of the report and any relevant findings or supporting evidence to an appropriate agency official. The appropriate agency official shall review such material and determine what, if any, disciplinary action is appropriate.

(b) In addition, the designated investigating office may provide appropriate agency officials with a recommendation for any corrective and/or remedial action. The appropriate officials shall consider such recommendation and implement corrective and/or remedial action by the agency, when appropriate. Nothing in this order authorizes monetary relief to the complainant as a form of remedial or corrective action by an executive department or agency.

4–403. Any action to discipline an employee who violate this order or its implementing rules, regulations, policies, or guidance, including removal from employment, where appropriate, shall be treated consistent with otherwise applicable procedures, including the Civil Service Reform Act of 1978, Public Law No. 95–454, 92 Stat. 1111 [see Tables for classification].

Snc. 5. Implementation and Agency Responsibilities.

5–501. The Attorney General shall publish in the Federal Register such rules, regulations, policies, or guidance, as the Attorney General deems appropriate, to be followed by all executive departments and agencies. The Attorney General shall address:

a. which programs and activities fall within the scope of education and training programs and activities covered by this order, under subsection 2–202, or excluded from coverage, under section 3 of this order;

b. examples of discriminatory conduct;

c. applicable legal principles;

d. enforcement procedures with respect to complaints against employees;

e. remedies;

f. requirements for agency annual and tri-annual reports as set forth in section 6 of this order; and

g. such other matters as deemed appropriate.

5–502. Within 90 days of the publication of final rules, regulations, policies, or guidance by the Attorney General, each executive department and agency shall establish a procedure to receive and address complaints regarding its Federally conducted education and training programs and activities. Each executive department and agency shall take all necessary steps to effectuate any subsequent rules, regulations, policies, or
guidance issued by the Attorney General within 90 days of issuance.

5–503. The head of each executive department and agency shall be responsible for ensuring compliance within this order.

5–504. Each executive department and agency shall cooperate with the Attorney General and provide such information and assistance as the Attorney General may require in the performance of the Attorney General’s functions under this order.

5–505. Upon request and to the extent practicable, the Attorney General shall provide technical advice and assistance to executive departments and agencies to assist in full compliance with this order.

Sinc. 6. Reporting Requirements.

6–401. Consistent with the regulations, rules, policies, or guidance issued by the Attorney General, each executive department and agency shall submit to the Attorney General a report that summarizes the number and nature of complaints filed with the agency and the disposition of such complaints. For the first 3 years after the date of this order, such reports shall be submitted annually within 90 days of the end of the preceding year’s activities. Subsequent reports shall be submitted every 3 years and within 90 days of the end of each 3-year period.

7–701. Nothing in this order shall limit the authority of the Attorney General to provide for the coordinated enforcement of nondiscrimination requirements in Federal assistance programs under Executive Order 12250 (42 U.S.C. 2000d–1 note).

Sinc. 8. Judicial Review.

8–801. This order is not intended, and should not be construed, to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or its employees. This order is not intended, however, to preclude judicial review of final decisions in accordance with the Administrative Procedure Act, 5 U.S.C. 701, et seq.

WILLIAM J. CLINTON.

No such rule, regulation, or order shall become effective unless and until approved by the President. Compliance with any requirement adopted pursuant to this section may be effected (1) by the termination of or refusal to grant or to continue assistance under such program or activity to any recipient as to whom there has been an express finding on the record, after opportunity for hearing, of a failure to comply with such requirement, but such termination or refusal shall be limited to the particular political entity, or part thereof, or other recipient as to whom such a finding has been made and, shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been found, or (2) by any other means authorized by law: Provided, however, That no such action shall be taken until the department or agency concerned has advised the appropriate person or persons of the failure to comply with the requirement and has determined that compliance cannot be secured by voluntary means. In the case of any action terminating, or refusing to grant or continue, assistance because of failure to comply with a requirement imposed pursuant to this section, the head of the Federal department or agency shall file with the committees of the House and Senate having legislative jurisdiction over the program or activity involved a full written report of the circumstances and the grounds for such action. No such action shall become effective until thirty days have elapsed after the filing of such report.

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to improve access to federally conducted and federally assisted programs and activities for persons who, as a result of national origin, are limited in their English proficiency (LEP), it is hereby ordered as follows:

SECTION 1. Goals.

The Federal Government provides and funds an array of services that can be made accessible to otherwise eligible persons who are not proficient in the English language. The Federal Government is committed to improving the accessibility of these services to eligible LEP persons, a goal that reinforces its equally important commitment to promoting programs and activities designed to help individuals learn English. To this end, each Federal agency shall examine the services it provides and develop and implement a system by which LEP persons can meaningfully access those services consistent with, and without unduly burdening, the
fundamental mission of the agency. Each Federal agency shall also work to ensure that recipients of Federal financial assistance (recipients) provide meaningful access to their LEP applicants and beneficiaries. To assist the agencies with this endeavor, the Department of Justice has today issued a general guidance document (LEP Guidance), which sets forth the compliance standards that recipients must follow to ensure that the programs and activities they normally provide in English are accessible to LEP persons and thus do not discriminate on the basis of national origin in violation of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), as amended, and its implementing regulations. As described in the LEP Guidance, recipients must take reasonable steps to ensure meaningful access to their programs and activities by LEP persons.

§ 2000d–2. Federally Conducted Programs and Activities.

Each Federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities. Agencies shall develop and begin to implement these plans within 120 days of the date of this order, and shall send copies of these plans to the Department of Justice, which shall serve as the central repository of the agencies’ plans.

Each agency providing Federal financial assistance shall draft title VI guidance specifically tailored to its recipients that is consistent with the LEP Guidance issued by the Department of Justice. This agency-specific guidance shall detail how the general standards established in the LEP Guidance will be applied to the agency’s recipients. The agency-specific guidance shall take into account the types of services provided by the recipients, the individuals served by the recipients, and other factors set out in the LEP Guidance. Agencies that already have developed title VI guidance that the Department of Justice determines is consistent with the LEP Guidance shall examine their existing guidance, as well as their programs and activities, to determine if additional guidance is necessary to comply with this order. The Department of Justice shall consult with the agencies in creating their guidance and, within 120 days of the date of this order, each agency shall submit its specific guidance to the Department of Justice for review and approval. Following approval by the Department of Justice, each agency shall publish its guidance document in the Federal Register for public comment.

In carrying out this order, agencies shall ensure that stakeholders, such as LEP persons and their representative organizations, recipients, and other appropriate individuals or entities, have an adequate opportunity to provide input. Agencies will evaluate the particular needs of the LEP persons they and their recipients serve and the burdens of compliance on the agency and its recipients. This input from stakeholders will assist the agencies in developing an approach to ensuring meaningful access by LEP persons that is practical and effective, fiscally responsible, responsive to the particular circumstances of each agency, and can be readily implemented.

This order is intended only to improve the internal management of the executive branch and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers or employees, or any person.

WILLIAM J. CLINTON.

Any department or agency action taken pursuant to section 2000d–1 of this title shall be subject to such judicial review as may otherwise be provided by law for similar action taken by such department or agency on other grounds. In the case of action, not otherwise subject to judicial review, terminating or refusing to grant or to continue financial assistance upon a finding of failure to comply with any requirement imposed pursuant to section 2000d–1 of this title, any person aggrieved (including any State or political subdivision thereof and any agency of either) may obtain judicial review of such action in accordance with chapter 7 of title 5, and such action shall not be deemed committed to unreviewable agency discretion within the meaning of that chapter.

§ 2000d–3. Construction of provisions not to authorize administrative action with respect to employment practices except where primary objective of Federal financial assistance is to provide employment.

Nothing contained in this subchapter shall be construed to authorize action under this subchapter by any department or agency with respect to any employment practice of any employer, employment agency, or labor organization except where a primary objective of the Federal financial assistance is to provide employment.

§ 2000d–4. Federal authority and financial assistance to programs or activities by way of contract of insurance or guaranty.

Nothing in this subchapter shall add to or detract from any existing authority with respect to any program or activity under which Federal financial assistance is extended by way of a contract of insurance or guaranty.

§ 2000d–4a. “Program or activity” and “program” defined.

For the purposes of this subchapter, the term “program or activity” and the term “program” mean all of the operations of—

(1)(A) a department, agency, special purpose district, or other instrumentality of a State or of a local government; or

(B) the entity of such State or local government that distributes such assistance and each such department or agency (and each other State or local government entity) to which the assistance is extended, in the case of assistance to a State or local government;
(2)(A) a college, university, or other post-secondary institution, or a public system of higher education; or
(B) a local educational agency (as defined in section 7801 of title 20), system of vocational education, or other school system;

   (i) if assistance is extended to such corporation, partnership, private organization, or sole proprietorship as a whole; or
   (ii) which is principally engaged in the business of providing education, health care, housing, social services, or parks and recreation; or
(B) the entire plant or other comparable, geographically separate facility to which Federal financial assistance is extended, in the case of any other corporation, partnership, private organization, or sole proprietorship; or
(4) any other entity which is established by two or more of the entities described in paragraph (1), (2), or (3);
any part of which is extended Federal financial assistance.

“During the performance of this contract, the contractor agrees as follows:

“(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Compliance Reports shall be filed within such times and shall contain such information as to the practices, policies, programs, and employment policies, programs, and employment statistics of the contractor and each subcontractor, and shall be in such form, as the Secretary of Labor may prescribe.

(b) Bidders or prospective contractors or subcontractors may be required to state whether they have participated in any previous contract subject to the provisions of this Order, or any preceding similar Executive order, and in that event to submit, on behalf of themselves and their proposed subcontractors, Compliance Reports prior to or as an initial part of their bid or negotiation of a contract.

(c) Whenever the contractor or subcontractor has a current, pending, or existing agreement or understanding with a labor union or an agency referring workers or providing or supervising apprenticeship or training for such workers, the Compliance Report shall include such information as to such labor union’s or agency’s practices and policies affecting compliance as the Secretary of Labor may prescribe: Provided, That to the extent such information is within the exclusive possession of a labor union or any agency referring workers or providing or supervising apprenticeship or training and such labor union or agency shall refuse to furnish such information to the contractor, the contractor shall so certify to the Secretary of Labor as part of its Compliance Report and shall set forth what efforts he has made to obtain such information.

(d) The Secretary of Labor may direct that any bidder or prospective contractor shall submit, as part of his Compliance Report, a statement in writing, signed by an authorized officer or agent on behalf of any labor union or any agency referring workers or providing or supervising apprenticeship or other training, with which the bidder or prospective contractor deals, with supporting information, to the effect that the signers’ practices and policies do not discriminate on the ground of race, color, religion, sex, national origin, and that the signer either will affirmatively cooperate in the implementation of the policy and provisions of this order or that it consents and agrees that recruitment, employment, and the terms and conditions of employment under the proposed contract shall be in accordance with the purposes and provisions of the order. In the event that the union, or the agency shall refuse to execute such a statement, the Compliance Report shall so certify and set forth what efforts have been made to procure such a statement and such additional factual material as the Secretary of Labor may require.

Sic. 264. EX. ORD. NO. 13171. HISPANIC EMPLOYMENT IN THE FEDERAL GOVERNMENT

Ex. Ord. No. 13171, Oct. 12, 2000, 65 F.R. 61251, provides:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to improve the representation of Hispanics in Federal employment, within merit system principles and consistent with the application of appropriate veterans’ preference criteria, to achieve a Federal workforce drawn from all segments of society, it is hereby ordered as follows:

SECTION 1. Policy. It is the policy of the executive branch to recruit qualified individuals from appropriate sources in an effort to achieve a workforce drawn from all segments of society. Pursuant to this policy, this Administration notes that Hispanics remain underrepresented in the Federal workforce: they make up only 6.4 percent of the Federal civilian workforce, roughly half of their total representation in the civilian labor force. This Executive Order, therefore, affirms ongoing policies and recommends additional policies to eliminate the underrepresentation of Hispanics in the Federal workforce.

SIC. 2. Responsibilities of Executive Departments and Agencies. The head of each executive department and agency (agency) shall establish and maintain a program for the recruitment and career development of Hispanics in Federal employment. In its program, each agency shall:

(a) provide a plan for recruiting Hispanics that creates a fully diverse workforce for the agency in the 21st century;
(b) assess and eliminate any systemic barriers to the effective recruitment and consideration of Hispanics, including but not limited to:
(1) broadening the area of consideration to include appropriate Hispanic candidates;
(2) ensuring that selection factors are appropriate and achieve the broadest consideration of applicants and do not impose barriers to selection based on nonmerit factors;
(3) considering the appointment of Hispanic Federal executives to rating, selection, performance review, and executive resources panels and boards;
(c) improve outreach efforts to include organizations outside the Federal Government in order to increase the number of Hispanic candidates in the selection pool for the Senior Executive Service;
(d) promote participation of Hispanic employees in management, leadership, and career development programs;
(e) ensure that performance plans for senior executives, managers, and supervisors include specific language related to significant accomplishments on diversity recruitment and career development and that accountability is predicated on those plans;
(f) establish appropriate agency advisory councils that include Hispanic Employment Program Managers;
(g) implement the goals of the Government-wide Hispanic Employment Initiatives issued by the Office of Personnel Management (OPM) in September 1997 (Nine-Point Plan), and the Report to the President’s Management Council on Hispanic Employment in the Federal Government of March 1999;
(h) ensure that managers and supervisors receive periodic training in diversity management in order to carry out their responsibilities to maintain a diverse workforce; and
(i) reflect a continuing priority for eliminating Hispanic underrepresentation in the Federal workforce and incorporate actions under this order as strategies for achieving workforce diversity goals in the agency’s Government Performance and Results Act (GPRA) Annual Performance Plan.

SIC. 3. Cooperation. All efforts taken by heads of agencies under sections 1 and 2 of this order shall, as appropriate, further partnerships and cooperation among Federal, public, and private sector employers, and appropriate Hispanic organizations whenever such partnerships and cooperation are required to promote the Federal employment of qualified individuals. In developing the long-term comprehensive strategies required by section 2 of this order, agencies shall, as appropriate, consult with and seek information and advice from experts in the areas of special targeted recruitment and diversity in employment.

SIC. 4. Responsibilities of the Office of Personnel Management. The Office of Personnel Management is required by law and regulations to undertake a Government-wide minority recruitment effort. Pursuant to that on-going effort and in implementation of this order, the Director of OPM shall:

(a) provide Federal human resources management policy guidance to address Hispanic underrepresentation where it occurs;
(b) take the lead in promoting diversity to executive agencies for such actions as deemed appropriate to promote equal employment opportunity;
(c) within 180 days from the date of this order, prescribe such regulations as may be necessary to carry out the purposes of this order;
(d) within 60 days from the date of this order, establish an Interagency Task Force, chaired by the Director and composed of agency officials at the Deputy Secretary level, or the equivalent. This Task Force shall meet semi-annually to:
(1) review best practices in strategic human resources management planning, including alignment with agency GPRA plans;
(2) assess overall executive branch progress in complying with the requirements of this order;
(3) provide advice on ways to increase Hispanic community involvement; and
(4) recommend any further actions, as appropriate, in eliminating the underrepresentation of Hispanics in the Federal workforce where it occurs; and
(e) issue an annual report with findings and recommendations to the President on the progress made by agencies on matters related to this order. The first annual report shall be issued no later than 1 year from the date of this order.

SIC. 5. Judicial Review. This order is intended only to improve the internal management of the executive branch. It does not create any right or benefit, substantive or procedural, enforceable in law or equity except as may be identified in existing laws and regulations, by a party against the United States, its agencies, its officers or employees, or any other person.

EX. ORD. NO. 13506. ESTABLISHING A WHITE HOUSE COUNCIL ON WOMEN AND GIRLS

Ex. Ord. No. 13506, Mar. 11, 2009, 74 F.R. 12271, provides:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. Policy. Over the past generation, our society has made tremendous progress in eradicating barriers to women’s success. A record number of women are attending college and graduate school. Women make up a growing share of our workforce, and more women are corporate executives and business owners than ever before, helping boost the U.S. economy and foster U.S. competitiveness around the world. Today, women are serving at the highest levels of all branches of our Government.

Despite this progress, certain inequalities continue to persist. On average, American women continue to earn only about 78 cents for every dollar men make, and women are still significantly underrepresented in the science, engineering, and technology fields. Far too many women lack health insurance and may be unable to take time off to care for a new baby or an ailing family member. Violence against women and girls re-
programs and policies address and take into account lives of women and girls and to ensure that Federal policies that have a distinct impact on women in the Federal workforce; and for assisting in the development of legislative and policy proposals of special importance to women and girls. The functions of the Council are advisory only.

Sisc. 4. Outreach. Consistent with the objectives set out in this order, the Council, in accordance with applicable law, in addition to regular meetings, shall conduct outreach with representatives of nonprofit organizations, State and local government agencies, elected officials, and other interested persons that will assist with the Council’s development of a detailed set of recommendations.

Sisc. 5. Federal Interagency Plan. The Council shall, within 150 days of the date of this order, develop and submit to the President a Federal interagency plan with recommendations for interagency action consistent with the goals of this order. The Federal interagency plan shall include an assessment by each member executive department, agency, or office of the status and scope of its efforts to further the progress and advancement of women and girls. Such an assessment shall include a report on the status of any offices or programs that have been created to develop, implement, or monitor targeted initiatives concerning women or girls. The Federal interagency plan shall also include recommendations for issues, programs, or initiatives that should be further evaluated or studied by the Council. The Council shall review and update the Federal interagency plan periodically, as appropriate, and shall present to the President any updated recommendations or findings.

Sisc. 6. General Provisions. (a) The heads of executive departments and agencies shall assist and provide information to the Council, consistent with applicable law, as may be necessary to carry out the functions of the Council. Each executive department and agency shall bear its own expense for participating in the Council.

(b) Nothing in this order shall be construed to impair or otherwise affect:

(i) authority granted by law to an executive department, agency, or the head thereof; or

(ii) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(d) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Ex. Ord. No. 13583. Establishing a Coordinated Government-Wide Initiative to Promote Diversity and Inclusion in the Federal Workforce

Ex. Ord. No. 13583, Aug. 18, 2011, 76 F.R. 52647, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to promote the Federal work-
place as a model of equal opportunity, diversity, and inclusion, it is hereby ordered as follows:

**SECTION 1. Policy.** Our Nation derives strength from the diversity of its population and from its commitment to equal opportunity for all. We are at our best when we draw on the talents of all parts of our society, and our greatest accomplishments are achieved when diverse perspectives are brought to bear to overcome our greatest challenges.

A commitment to equal opportunity, diversity, and inclusion is critical for the Federal Government as an employer. By law, the Federal Government's recruitment policies should "endeavor to achieve a work force from all segments of society." (5 U.S.C. 2301(b)(1)). As the Nation's largest employer, the Federal Government has a special obligation to lead by example. Attaining a diverse, qualified workforce is one of the cornerstones of the merit-based civil service.

Prior Executive Orders, including but not limited to those listed below, have taken a number of steps to address the leadership role and obligations of the Federal Government as an employer. For example, Executive Order 13171 of October 12, 2000 (Hispanic Employment in the Federal Government), directed executive departments and agencies to implement programs for recruitment and career development of Hispanic employees and to establish a mechanism for identifying best practices in doing so. Executive Order 13518 of November 9, 2009 (Employment of Veterans in the Federal Government), required the establishment of a Veterans Employment Initiative. Executive Order 13548 of July 26, 2010 (Increasing Federal Employment of Individuals with Disabilities), and its related predecessors, Executive Order 13163 of July 26, 2000 (Increasing the Opportunity for Individuals With Disabilities to be Employed in the Federal Government), and Executive Order 13078 of March 13, 1998 (Increasing Employment of Adults With Disabilities), sought to tap the skills of the millions of Americans living with disabilities.

To realize more fully the goal of using the talents of all segments of society, the Federal Government must continue to challenge itself to enhance its ability to recruit, hire, promote, retain, and train a diverse workforce. Further, the Federal Government must create a culture that encourages collaboration, flexibility, and fairness to enable individuals to participate to their full potential.

Wherever possible, the Federal Government must also seek to consolidate compliance efforts established through related or overlapping statutory mandates, directives, rules, Executive Orders, and regulatory requirements. By this order, I am directing executive departments and agencies (agencies) to develop and implement more comprehensive, integrated, and strategic focus on diversity and inclusion as a key component of their human resources strategies. This approach should include a continuing effort to identify and adopt best practices, implemented in an integrated manner, to promote diversity and remove barriers to equal employment opportunity, consistent with merit system principles and applicable law.

**Sinc. 2. Government-Wide Diversity and Inclusion Initiative and Strategic Plan.** The Director of the Office of Personnel Management (OPM) and the Deputy Director for Management of the Office of Management and Budget (OMB), in coordination with the President's Management Council (PMC) and the Chair of the Equal Employment Opportunity Commission (EEOC), shall:

(a) establish a coordinated Government-wide initiative to promote diversity and inclusion in the Federal workforce;

(b) within 90 days of the date of this order:

(i) establish and issue a Government-wide Diversity and Inclusion Strategic Plan (Government-wide Plan), to be updated as appropriate and at a minimum every 4 years, focusing on workforce diversity, workplace inclusion, and agency accountability and leadership. By law, the government-wide plan shall include its comprehensive strategies for agencies to identify and remove barriers to equal employment opportunity that may exist in the Federal Government’s recruitment, hiring, promotion, retention, professional development, and training policies and practices;

(ii) review applicable directives to agencies related to the development or submission of agency human capital and other workforce plans and reports in connection with recruitment, hiring, promotion, retention, professional development, and training policies and practices, and develop a strategy for consolidating such agency plans and reports where appropriate and permitted by law; and

(iii) provide guidance to agencies concerning formulation of agency-specific Diversity and Inclusion Strategic Plans prepared pursuant to section 3(b) of this order;

(c) identify appropriate practices to improve the effectiveness of each agency's efforts to recruit, hire, promote, retain, develop, and train a diverse and inclusive workforce, consistent with merit system principles and applicable law; and

(d) establish a system for reporting regularly on agencies' progress in implementing their agency-specific Diversity and Inclusion Strategic Plans and in meeting the objectives of this order.

**Sinc. 3. Responsibilities of Executive Departments and Agencies.** All agencies shall implement the Government-wide Plan prepared pursuant to section 2 of this order, and such other related guidance as issued from time to time by the Director of OPM and Deputy Director for Management of OMB. In addition, the head of each executive department and agency referred to under subsections (a) and (b) of section 301(b) of title 31, United States Code, shall:

(a) designate the agency’s Chief Human Capital Officer to be responsible for enhancing employment and promotion opportunities within the agency, in collaboration with the agency’s Director of Equal Employment Opportunity and Director of Diversity and Inclusion, if any, and consistent with law and merit system principles, including development and implementation of the agency-specific Diversity and Inclusion Strategic Plan;

(b) within 120 days of the issuance of the Government-wide Plan or its update under section 2(b)(i) of this order, develop and submit for review to the Director of OPM and the Deputy Director for Management of OMB an agency-specific Diversity and Inclusion Strategic Plan for recruiting, hiring, training, developing, advancing, promoting, and retaining a diverse workforce consistent with applicable law, the Government-wide Plan, merit system principles, the agency’s overall strategic plan, its human capital plan prepared pursuant to Part 2 of title 5, section 301(a) of the Code of Federal Regulations, and other applicable workforce planning strategies and initiatives;

(c) implement the agency-specific Diversity and Inclusion Strategic Plan after incorporating it into the agency’s human capital plan; and

(d) provide information as specified in the reporting requirements developed under section 2(d).

**Sinc. 4. General Provisions.** (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) authority granted to a department or agency or the head thereof, including the authority granted to EEOC by other Executive Orders (including Executive Order 12067) or any agency's authority to establish an independent Diversity and Inclusion Office; or

(ii) functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Barack Obama.
Memorandum of President of the United States, Mar. 4, 2011, 76 F.R. 12823, provided:

I am proud to work with the White House Council on Women and Girls, the Office of Management and Budget, and the Department of Commerce on this week’s release of Women in America, a report detailing the status of American women in the areas of families and income, health, employment, education, and violence and crime. This report provides a snapshot of the status of American women today, serving as a valuable resource for Government officials, academics, members of nonprofit, nongovernmental, and news organizations, and others.

My Administration is committed to ensuring that Federal programs achieve policy goals in the most cost-effective manner. The Women in America report, together with the accompanying website collection of relevant data, will assist Government officials in crafting policies in light of available statistical evidence. It will also assist the nongovernmental sector, including journalists, public policy analysts, and academic researchers, by providing data that allow greater understanding of policies and programs.

Preparation of this report revealed the vast data resources of the Federal statistical agencies. It also revealed some gaps in data collection. Gathering and analyzing additional data to fill in the gaps could help policymakers gather a more accurate and comprehensive view of the status and needs of American women. Accordingly, I hereby request the heads of executive departments and agencies, where possible within existing collections of data and in light of budgetary constraints, to identify and to seek to fill in gaps in statistics and improve survey methodology relating to women wherever appropriate, including in the broad areas covered by the Women in America report: families and income, health, employment, education, and violence and crime.

Examples of some of the efforts that could be undertaken by departments and agencies with respect to the gathering of comprehensive data related to women include the following:

(a) Maternal Mortality. I encourage the National Center for Health Statistics (NCHS) to continue to work with States and other registration areas to complete the expedient adoption of the most current standards for the collection of information on vital events, as well as the transition to electronic reporting systems. Maternal mortality is an important indicator of a women’s health both internationally and nationally. In the United States, maternal mortality statistics are based upon the information recorded on death certificates and collected by State and local vital records offices. The NCHS compiles the data across the 50 States and other registration areas. Due to concerns about data quality in the ascertainment of maternal mortality statistics, the 2003 revision of the standard death certificate introduced improved standards for collecting data. Until all 50 States and registration areas adopt the new data standards, formulating a national-level maternal mortality ratio remains difficult.

(b) Women in Leadership in Corporate America. Women participate in every sector of the workforce. Their current role in corporate leadership is an important indicator of their progress. I encourage the Chair of the Securities and Exchange Commission to seek to supplement the information it already collects by seeking to collect, among other data, information on the presence of women in governance positions in corporations, in order to shed further light on the role of women in corporate America.

(c) Women in Leadership in Public Service. I encourage the Corporation for National and Community Service to conduct statistics about the role of women in diverse aspects of public service within its planned work on measuring civic engagement.

This memorandum shall be carried out to the extent permitted by law, consistent with the legal authorities of executive departments and agencies and subject to the availability of appropriations. Nothing in this memorandum shall be construed to impair or otherwise affect the authority granted by law to a department or agency, or the head thereof; or the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

The Director of the Office of Management and Budget is hereby authorized and directed to publish this memorandum in the Federal Register.

Barack Obama.

Notwithstanding any other provision of this subchapter, (1) it shall not be an unlawful employment practice for an employer to hire and employ employees, for an employment agency to classify, or refer for employment any individual, for a labor organization to classify its membership or to classify or refer for employment any individual, or for an employer, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining programs to admit or employ any individual in any such program, on the basis of his religion, sex, or national origin in those certain instances where religion, sex, or national origin is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise, and (2) it shall not be an unlawful employment practice for a school, college, university, or other educational institution or institution of learning to hire and employ employees of a particular religion if such school, college, university, or other educational institution or institution of learning is, in whole or in substantial part, owned, supported, controlled, or managed by a particular religion or by a particular religious corporation, association, or society, or if the curriculum of such school, college, university, or other educational institution or institution of learning is directed toward the propagation of a particular religion.

(f) Members of Communist Party or Communist-action or Communist-front organizations
As used in this subchapter, the phrase “unlawful employment practice” shall not be deemed to include any action or measure taken by an employer, labor organization, joint labor-management committee, or employment agency with respect to an individual who is a member of the Communist Party of the United States or of any other organization required to register as a Communist-action or Communist-front organization by final order of the Subversive Activities Control Board pursuant to the Subversive Activities Control Act of 1950 [50 U.S.C. 781 et seq.].

(g) National security
Notwithstanding any other provision of this subchapter, it shall not be an unlawful employment practice for an employer to fail or refuse
to hire and employ any individual for any position, for an employer to discharge any individual from any position, or for an employment agency to fail or refuse to refer any individual for employment in any position, if—

(1) the occupancy of such position, or access to the premises in or upon which any part of the duties of such position is performed or is to be performed, is subject to any requirement imposed in the interest of the national security of the United States under any security program in effect pursuant to or administered under any statute of the United States or any Executive order of the President; and

(2) such individual has not fulfilled or has ceased to fulfill that requirement.

(h) Seniority or merit system; quantity or quality of production; ability tests; compensation based on sex and authorized by minimum wage provisions

Notwithstanding any other provision of this subchapter, it shall not be an unlawful employment practice for an employer to apply different standards of compensation, or different terms, conditions, or privileges of employment pursuant to a bona fide seniority or merit system, or a system which measures earnings by quantity or quality of production or to employees who work in different locations, provided that such differences are not the result of an intention to discriminate because of race, color, religion, sex, or national origin, nor shall it be an unlawful employment practice for an employer to give and to act upon the results of any professionally developed ability test provided that such test, its administration or action upon the results is not designed, intended or used to discriminate because of race, color, religion, sex or national origin. It shall not be an unlawful employment practice under this subchapter for any employer to differentiate upon the basis of sex in determining the amount of the wages or compensation paid or to be paid to employees of such employer if such differentiation is authorized by the provisions of section 206(d) of title 29.

(i) Businesses or enterprises extending preferential treatment to Indians

Nothing contained in this subchapter shall apply to any business or enterprise on or near an Indian reservation with respect to any publicly announced employment practice of such business or enterprise under which a preferential treatment is given to any individual because he is an Indian living on or near a reservation.

(j) Preferential treatment not to be granted on account of existing number or percentage imbalance

Nothing contained in this subchapter shall be interpreted to require any employer, employment agency, labor organization, or joint labor-management committee subject to this subchapter to grant preferential treatment to any individual or to any group because of the race, color, religion, sex, or national origin of such individual or group on account of an imbalance which may exist with respect to the total number or percentage of persons of any race, color, religion, sex, or national origin employed by any employer, referred or classified for employment by any employment agency or labor organization, admitted to membership or classified by any labor organization, or admitted to, or employed in, any apprenticeship or other training program, in comparison with the total number or percentage of persons of such race, color, religion, sex, or national origin in any community, State, section, or other area, or in the available work force in any community, State, section, or other area.

(k) Burden of proof in disparate impact cases

(1)(A) An unlawful employment practice based on disparate impact is established under this subchapter only if—

(i) a complaining party demonstrates that a respondent uses a particular employment practice that causes a disparate impact on the basis of race, color, religion, sex, or national origin and the respondent fails to demonstrate that the challenged practice is job related for the position in question and consistent with business necessity; or

(ii) the complaining party makes the demonstration described in subparagraph (C) with respect to an alternative employment practice and the respondent refuses to adopt such alternative employment practice.

(B)(i) With respect to demonstrating that a particular employment practice causes a disparate impact as described in subparagraph (A)(i), the complaining party shall demonstrate that each particular challenged employment practice causes a disparate impact, except that if the complaining party can demonstrate to the court that the elements of a respondent’s decision-making process are not capable of separation for analysis, the decisionmaking process may be analyzed as one employment practice.

(ii) If the respondent demonstrates that a specific employment practice does not cause the disparate impact, the respondent shall not be required to demonstrate that such practice is required by business necessity.

(C) The demonstration referred to by subparagraph (A)(ii) shall be in accordance with the law as it existed on June 4, 1989, with respect to the concept of “alternative employment practice”.

(2) A demonstration that an employment practice is required by business necessity may not be used as a defense against a claim of intentional discrimination under this subchapter.

(3) Notwithstanding any other provision of this subchapter, a rule barring the employment of an individual who currently and knowingly uses or possesses a controlled substance, as defined in schedules I and II of section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)), other than the use or possession of a drug taken under the supervision of a licensed health care professional, or any other use or possession authorized by the Controlled Substances Act (21 U.S.C. 801 et seq.) or any other provision of Federal law, shall be considered an unlawful employment practice under this subchapter only if such rule is adopted or applied with an intent to discriminate because of race, color, religion, sex, or national origin.
(f) Prohibition of discriminatory use of test scores

It shall be an unlawful employment practice for a respondent, in connection with the selection or referral of applicants or candidates for employment or promotion, to adjust the scores of, use different cutoff scores for, or otherwise alter the results of, employment-related tests on the basis of race, color, religion, sex, or national origin.

(m) Impermissible consideration of race, color, religion, sex, or national origin in employment practices

Except as otherwise provided in this subchapter, an unlawful employment practice is established when the complaining party demonstrates that race, color, religion, sex, or national origin was a motivating factor for any employment practice, even though other factors also motivated the practice.

(n) Resolution of challenges to employment practices implementing litigated or consent judgments or orders

(1)(A) Notwithstanding any other provision of law, and except as provided in paragraph (2), an employment practice that implements and is within the scope of a litigated or consent judgment or order that resolves a claim of employment discrimination under the Constitution or Federal civil rights laws may not be challenged under the circumstances described in subparagraph (B).

(B) A practice described in subparagraph (A) may not be challenged in a claim under the Constitution or Federal civil rights laws—

(i) by a person who, prior to the entry of the judgment or order described in subparagraph (A), had—

(I) actual notice of the proposed judgment or order sufficient to apprise such person that such judgment or order might adversely affect the interests and legal rights of such person and that an opportunity was available to present objections to such judgment or order by a future date certain; and

(II) a reasonable opportunity to present objections to such judgment or order; or

(ii) by a person whose interests were adequately represented by another person who had previously challenged the judgment or order on the same legal grounds and with a similar factual situation, unless there has been an intervening change in law or fact.

(2) Nothing in this subsection shall be construed to—

(A) alter the standards for intervention under rule 24 of the Federal Rules of Civil Procedure or apply to the rights of parties who have successfully intervened pursuant to such rule in the proceeding in which the parties intervened;

(B) apply to the rights of parties to the action in which a litigated or consent judgment or order was entered, or of members of a class represented or sought to be represented in such action, or of members of a group on whose behalf relief was sought in such action by the Federal Government;

(C) prevent challenges to a litigated or consent judgment or order on the ground that such judgment or order was obtained through collusion or fraud, or is transparently invalid or was entered by a court lacking subject matter jurisdiction; or

(D) authorize or permit the denial to any person of the due process of law required by the Constitution.

(3) Any action not precluded under this subsection that challenges an employment consent judgment or order described in paragraph (1) shall be brought in the court, and if possible before the judge, that entered such judgment or order. Nothing in this subsection shall preclude a transfer of such action pursuant to section 1404 of title 28.

(b) The Equal Employment Opportunity Commission may delegate to the Civil Service Commission or its successor the function of making a preliminary determination on the issue of discrimination whenever, as a part of a complaint or appeal before the Civil Service Commission on other grounds, a Federal employee alleges a violation of Section 717 of the Civil Rights Act of 1964, as amended, (42 U.S.C. 2000e-16) provided that the Equal Employment Opportunity Commission retains the function of making the final determination concerning such issue of discrimination.

The Attorney General is authorized to delegate any function under Section 707 of said Title VII to any officer or employee of the Department of Justice.

SEC. 6. TRANSFER OF FUNCTIONS AND ABOLITION OF THE EQUAL EMPLOYMENT OPPORTUNITY COordinating Council

All functions of the Equal Employment Opportunity Coordinating Council, which was established pursuant to Section 715 of the Civil Rights Act of 1964, as amend-
courts and the Executive Branch—spurred by the courage and sacrifice of many people and organizations—have taken historic steps to extend equal employment opportunity protection throughout the private as well as public sector. But each new prohibition against discrimination unfortunately has brought with it a further dispersal of Federal equal employment opportunity responsibility. This proliferation of small agencies among a number of Federal agencies has meant confusion and ineffectiveness for employers, regulatory duplication and needless expense for employers. Fair employment is too vital for haphazard enforcement. My Administration will aggressively enforce our civil rights laws. Although discrimination in any area has severe consequences, limiting economic opportunity affects access to education, housing and health care. I, therefore, ask you to join with me in reorganizing administration of the civil rights laws and to begin the process by reorganizing the enforcement of those laws which ensure an equal opportunity to a job.

Eighteen government units now exercise important responsibilities under statutes, Executive Orders and regulations relating to equal employment opportunity:

- The Equal Employment Opportunity Commission (EEOC) enforces Title VII of the Civil Rights Act of 1964, section 2000e et seq. of Title 29.[15] which bans employment discrimination based on race, national origin, sex, or religion. The EEOC acts on individual complaints and also initiates private sector cases involving a "pattern or practice" of discrimination.
- The Department of Labor and 11 other agencies enforce Executive Order 11246 [set out as a note under section 2000e of this title]. This prohibits discrimination in employment on the basis of race, national origin, sex, or religion and requires affirmative action by government contractors. While the Department now coordinates enforcement of this "contract compliance" program, it is actually administered by eleven other departments and agencies. The Department also administers those statutes requiring contractors to take affirmative action to employ handicapped people, disabled veterans and Vietnam veterans.
- In addition, the Labor Department enforces the Equal Pay Act of 1963 [section 206(d) of Title 29, Labor], which prohibits employers from paying unequal wages based on sex, and the Age Discrimination in Employment Act of 1967 [section 621 of Title 29] which forbids age discrimination against persons between the ages of 40 and 65.

The Department of Justice litigates Title VII cases involving public sector employers—State and local government. The Department also represents the Federal government in lawsuits against Federal contractors and grant recipients who are in violation of Federal nondiscrimination prohibitions.

The Civil Service Commission (CSC) enforces Title VII and all other nondiscrimination and affirmative action requirements for Federal employment. The CSC rules on complaints filed by individuals and monitors affirmative action plans submitted annually by other Federal agencies.

The Equal Employment Opportunity Coordinating Council includes representatives from EEOC, Labor, Justice, CSC and the Civil Rights Commission. It is charged with coordinating the Federal equal employment opportunity enforcement effort and with eliminating overlap and inconsistent standards.

In addition to these major government units, other agencies enforce various equal employment opportunity requirements which apply to specific grant programs. The Department of the Treasury, for example, administers the anti-discrimination prohibitions as well as the civil rights laws;—confusion on the part of workers about how and where to seek redress;
—lack of accountability.

I am proposing today a series of steps to bring coherence to the equal employment enforcement effort. These steps, to be accomplished by the Reorganization Plan and Executive Orders, constitute an important step toward consolidation of equal employment opportunity enforcement. They will be implemented over the next two years, so that the agencies involved may continue their internal reform.

Its experience and broad scope make the EEOC suitable for the role of principal Federal agency in fair employment enforcement. Located in the Executive Branch and responsible to the President, the EEOC has developed considerable expertise in the field of employment discrimination since Congress created it by the Civil Rights Act of 1964 [section 2000e-4 of this title]. The Commission has played a pioneer role in defining both employment discrimination and its appropriate remedies.

While it has had management problems in past administrations, the EEOC's new leadership is making substantial progress in correcting them. In the last seven months the Commission has redesigned its internal structures and adopted proven management techniques. Early experience with these procedures indicates a high degree of success in reducing and expediting new cases. At my direction, the Office of Management and Budget is actively assisting the EEOC to ensure that these reforms continue.

The Reorganization Plan I am submitting will accomplish the following:

- On July 1, 1978, abolish the Equal Employment Opportunity Coordinating Council (42 U.S.C. 2000e–14) and transfer its duties to the EEOC (100 positions and $6.5 million shifted).
- On October 1, 1978, shift enforcement of equal employment opportunity for Federal employees from the CSC to the EEOC (100 positions and $6.5 million shifted).
- On July 1, 1979, shift responsibility for enforcing both the Equal Pay Act and the Age Discrimination in Employment Act from the Labor Department to the EEOC (198 positions and $5.3 million shifted for Equal Pay; 119 positions and $3.5 million for Age Discrimination).

The Attorney General's authority to initiate "pattern or practice" suits under Title VII in the public sector.

In addition, I will issue an Executive Order on October 1, 1978, to consolidate the contract compliance program—now the responsibility of Labor and eleven "compliance agencies"—into the Labor Department (1,517 positions and $33.1 million shifted).

These proposed transfers and consolidations reduce from fifteen to three the number of Federal agencies having important equal employment opportunity responsibilities under Title VII of the Civil Rights Act of 1964 and Federal contract compliance provisions.

Each element of my Plan is important to the success of the entire proposal.

By abolishing the Equal Employment Opportunity Coordinating Council and transferring its responsibilities to the EEOC, this plan places the Commission at the center of equal employment opportunity enforcement. With these new responsibilities, the EEOC can give coherence and direction to the government's efforts by developing strong uniform enforcement standards to apply throughout the government; standardized data collection procedures, joint training programs, programs to ensure the sharing of enforcement related data among agencies, and methods and priorities for complaint and compliance reviews. Such direction has been absent in the Equal Employment Opportunity Coordinating Council.

It should be stressed, however, that affected agencies will be consulted before EEOC takes any action. When the Plan has been approved, I intend to issue an Executive Order which will provide for consultations as well as a procedure for reviewing major disputed issues within the Executive Office of the President. The At-
torney General's responsibility to advise the Executive Branch on legal issues will also be preserved.

Transfer of the Civil Service Commission's equal employment opportunity responsibilities to EEOC is needed to ensure that: (1) Federal employees have the same rights and remedies as those in the private sector and in State and local government; (2) Federal agencies meet the same standards as are required of other employers; and (3) potential conflicts between an agency's equal employment opportunity and personnel management functions are minimized. The Federal government must not fall below the standard of performance it expects of private employers.

The Civil Service Commission has in the past been lethargic in enforcing fair employment requirements within the Federal government. While the Chairman and other Commissioners I have appointed have already demonstrated their personal commitment to expanding equal employment opportunity, responsibility for ensuring fair employment for Federal employees should rest ultimately with the EEOC.

We must ensure that the transfer in no way under-mines the important objectives of the comprehensive civil service reorganization which will be submitted to Congress in the near future. When the two plans take effect, I will direct the EEOC and the CSC to coordinate their procedures to prevent any duplication and overlap.

The Equal Pay Act now administered by the Labor Department, prohibits employers from paying unequal wages based on sex. Title VII of the Civil Rights Act, which is enforced by EEOC, contains a broader ban on sex discrimination. The transfer of Equal Pay responsibility from the Labor Department to the EEOC will minimize overlap and centralize enforcement of statutory prohibitions against sex discrimination in employment.

The transfer will strengthen efforts to combat sex discrimination. Such efforts would be enhanced still further by passage of the legislation pending before Congress in the near future. When the two plans take effect, I will direct the EEOC and the CSC to coordinate their procedures to prevent any duplication and overlap.

The Plan I am proposing will not affect the Attorney General's responsibility to enforce Title VII against State or local governments or to represent the Federal government in suits against Federal contractors and grant recipients. In 1972, the Congress determined that the Attorney General should be involved in suits against State and local governments. This proposal reinforces that judgment and clarifies the Attorney General's authority to initiate litigation against State or local governments engaged in a "pattern or practice" of discrimination. This in no way diminishes the EEOC's existing authority to investigate complaints filed against State or local governments and, where appropriate, to refer them to the Attorney General. The Justice Department and the EEOC will cooperate so that the Department sues on valid referrals, as well as on its own "pattern or practice" cases.

A critical element of my proposals will be accomplished by Executive Order rather than by the Reorganiza-tion Plan. This involves consolidation in the Labor Department of the responsibility to ensure that Federal contractors comply with Executive Order 11246. Consolidation will achieve the following: promote con-sistent standards, procedures, and reporting require-ments; remove contractors from the jurisdiction of multiple agencies; prevent an agency's equal employment practices from being treated as part of its procurement process; and produce more effective law enforcement through unification of plan-

ning, training and sanctions. By 1981, after I have had an opportunity to review the manner in which both the EEOC and the Labor Department are exercising their new responsibilities, I will determine whether further action is appropriate.

Finally, the responsibility for enforcing grant-related equal employment provisions will remain with the agencies that grant programs. By having the EEOC acting as coordinator of Federal equal employment programs, we will be able to bring overlap and duplication to a minimum. We will be able, for example, to see that a university's employment practices are not subject to duplicative investigations under both Title IX of the Education Amendments of 1972 (section 1681 et seq. of Title 20, Education) and the contract compliance program. Because of the similarities between the Executive Order program and those statutes requiring Federal contractors to take affirmative action to employ handicapped individuals and disabled and Vietnam veterans, I have determined that enforcement of these statutes should remain in the Labor Department.

Each of the changes set forth in the Reorganization Plan accompanying this message is necessary to accomplish one or more of the purposes set forth in Section 901(a) of Title 5 of the United States Code. I have taken care to determine that all functions abolished by the Plan are done only under the statutory authority provided by Section 901(b) of Title 5 of the United States Code.

I do not anticipate that the reorganizations contained in this Plan will result in any significant change in expenditures. They will result in a more efficient and manageable enforcement program.

The Plan I am submitting is moderate and measured. It gives the Equal Employment Opportunity Commission—an agency dedicated solely to this purpose—the primary Federal responsibility in the area of job discrimination, but it is designed to give this agency sufficient time to absorb its new responsibilities. This reorganization will produce consistent agency standards, as well as increased accountability. Combined with the intense commitment of those charged with these responsibilities, it will become possible for us to accelerate this nation's progress in ensuring equal job opportuni-ties for all our people.

§ 2000e–5. Enforcement provisions

(a) Power of Commission to prevent unlawful employment practices

The Commission is empowered, as hereinafter provided, to prevent any person from engaging in any unlawful employment practice as set forth in section 2000e–2 or 2000e–3 of this title.

(b) Charges by persons aggrieved or member of Commission of unlawful employment practices by employers, etc.; filing; allegations; notice to respondent; contents of notice; investigation by Commission; contents of charges; prohibition on disclosure of charges; determination of reasonable cause; conference, conciliation, and persuasion for elimination of unlawful practices; prohibition on disclosure of informal endeavors to end unlawful practices; use of evidence in subsequent proceedings; penalties for disclosure of information; time for determination of reasonable cause

Whenever a charge is filed by or on behalf of a person claiming to be aggrieved, or by a member of the Commission, alleging that an employer, employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs, has engaged in an unlawful employment practice, the Commission shall serve a notice of charge (including the date, place and circumstances of the alleged unlawful employment practice) on such employer, employment agency, labor organization, or joint labor-management committee (hereinafter referred to as the “respondent”) within ten days, and shall make an investigation thereof. Charges shall be in writing under oath or affirmation and shall contain such information and be in such form as the Commission requires. Charges shall not be made public by the Commission. If the Commission determines after such investigation that there is not reasonable cause to believe that the charge is true, it shall dismiss the charge and promptly notify the person claiming to be aggrieved and the respondent of its action. In determining whether reasonable cause exists, the Commission shall accord substantial weight to final findings and orders made by State or local authorities in proceedings commenced under State or local law pursuant to the requirements of subsections (c) and (d) of this section. If the Commission determines after such investigation
that there is reasonable cause to believe that the charge is true, the Commission shall endeavor to eliminate any such alleged unlawful employment practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during and as a part of such informal endeavors may be made public by the Commission, its officers or employees, or used as evidence in a subsequent proceeding without the written consent of the persons concerned. Any person who makes public information in violation of this subsection shall be fined not more than $1,000 or imprisoned for not more than one year, or both. The Commission shall make its determination on reasonable cause as promptly as possible and, so far as practicable, not later than one hundred and twenty days from the filing of the charge or, where applicable under subsection (c) or (d) of this section, from the date upon which the Commission is authorized to take action with respect to the charge.

(c) State or local enforcement proceedings; notification of State or local authority; time for filing charges with Commission; commencement of proceedings

In the case of an alleged unlawful employment practice occurring in a State, or political subdivision of a State, which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, no charge may be filed under subsection (c) or (d) of this section, from the date upon which the Commission is authorized to take action with respect to the charge.\(^1\)

(d) State or local enforcement proceedings; notification of State or local authority; time for action on charges by Commission

In the case of any charge filed by a member of the Commission alleging an unlawful employment practice occurring in a State or political subdivision of a State which has a State or local law prohibiting the unlawful employment practice alleged and establishing or authorizing a State or local authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice of the charge or, where applicable under subsection (c) or (d) of this section, from the date upon which the Commission is authorized to take action with respect to the charge, the Commission shall, before taking any action with respect to such charge, notify the appropriate State or local officials and, upon request, afford them a reasonable time, but not less than sixty days (provided that such sixty-day period shall be extended to one hundred and twenty days during the first year after the effective day of such State or local law), unless a shorter period is requested, to act under such State or local law to remedy the practice alleged.

(e) Time for filing charges; time for service of notice of charge on respondent; filing of charge by Commission with State or local agency; seniority system

1. A charge under this section shall be filed within one hundred and eighty days after the alleged unlawful employment practice occurred and notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) shall be served upon the person against whom such charge is made within ten days thereafter, except that in a case of an unlawful employment practice with respect to which the person aggrieved has initially instituted proceedings with a State or local agency with authority to grant or seek relief from such practice or to institute criminal proceedings with respect thereto upon receiving notice thereof, such charge shall be filed by or on behalf of the person aggrieved within three hundred days after the alleged unlawful employment practice occurred, or within thirty days after receiving notice that the State or local agency has terminated the proceedings under the State or local law, whichever is earlier, and a copy of such charge shall be filed by the Commission with the State or local agency.

2. For purposes of this section, an unlawful employment practice occurs, with respect to a seniority system that has been adopted for any intentionally discriminatory purpose in violation of this subchapter (whether or not that discriminatory purpose is apparent on the face of the seniority provision), when the seniority system is adopted, when an individual becomes subject to the seniority system, or when a person aggrieved is injured by the application of the seniority system or provision of the system.

3. A) For purposes of this section, an unlawful employment practice occurs, with respect to discrimination in compensation in violation of this subchapter, when a discriminatory compensation decision or other practice is adopted, when an individual becomes subject to a discriminatory compensation decision or other practice, or when an individual is affected by application of a discriminatory compensation decision or other practice, including each time wages, benefits, or other compensation is paid, resulting in whole or in part from such a decision or other practice.

B) In addition to any relief authorized by section 1981a of this title, liability may accrue and an aggrieved person may obtain relief as provided in subsection (g)(1), including recovery of back pay for up to two years preceding the filing of the charge, where the unlawful employment practices that have occurred during the charge filing period are similar or related to unlawful employment practices with regard to discrimination in compensation that occurred outside the time for filing a charge.

\(^1\) So in original. Probably should be subsection "(b)".
(f) Civil action by Commission, Attorney General, or person aggrieved; preconditions; procedures; appointment of attorney; payment of fees, costs, or security; intervention; stay of Federal proceedings; action for appropriate temporary or preliminary relief pending final disposition of charge; jurisdiction and venue of United States courts; designation of judge to hear and determine case; assignment of case for hearing; expedition of case; appointment of master

(1) If within thirty days after a charge is filed with the Commission or within thirty days after expiration of any period of reference under subsection (c) or (d) of this section, the Commission has been unable to secure from the respondent a conciliation agreement acceptable to the Commission, the Commission may bring a civil action against any respondent not a government, governmental agency, or political subdivision named in the charge. In the case of a respondent which is a government, governmental agency, or political subdivision, if the Commission has been unable to secure from the respondent a conciliation agreement acceptable to the Commission, the Commission shall take no further action and shall refer the case to the Attorney General who may bring a civil action against such respondent in the appropriate United States district court. The person or persons aggrieved shall have the right to intervene in a civil action brought by the Commission or the Attorney General in a case involving a government, governmental agency, or political subdivision. If a charge filed with the Commission pursuant to subsection (b) of this section, is dismissed by the Commission, or if within one hundred and eighty days from the filing of such charge or the expiration of any period of reference under subsection (c) or (d) of this section, whichever is later, the Commission has not filed a civil action under this section or the Attorney General has not filed a civil action under this section or the Attorney General has not filed a civil action in a case involving a government, governmental agency, or political subdivision, or the Commission has not entered into a conciliation agreement to which the person aggrieved is a party, the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, shall so notify the person aggrieved and within ninety days after the giving of such notice a civil action may be brought against the Commission or the Attorney General in a case involving a government, governmental agency, or political subdivision.

(2) Whenever a charge is filed with the Commission and the Commission concludes on the basis of a preliminary investigation that prompt judicial action is necessary to carry out the purposes of this Act, the Commission, or the Attorney General in a case involving a government, governmental agency, or political subdivision, may bring an action for appropriate temporary or preliminary relief pending final disposition of such charge. Any temporary restraining order or other order granting preliminary or temporary relief shall be issued in accordance with rule 65 of the Federal Rules of Civil Procedure. It shall be the duty of a court having jurisdiction over proceedings under this section to assign cases for hearing at the earliest practicable date and to cause such cases to be in every way expedited.

(3) Each United States district court and each United States court of a place subject to the jurisdiction of the United States shall have jurisdiction of actions brought under this subsection. Such an action may be brought in any judicial district in the State in which the unlawful employment practice is alleged to have been committed, in the judicial district in which the employment records relevant to such practice are maintained and administered, or in the judicial district in which the aggrieved person would have worked but for the alleged unlawful employment practice, but if the respondent is not found within any such district, such an action may be brought within the judicial district in which the respondent has his principal office. For purposes of sections 1404 and 1406 of title 28, the judicial district in which the respondent has his principal office shall in all cases be considered a district in which the action might have been brought.

(4) It shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

(5) It shall be the duty of the judge designated pursuant to this subsection to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited. If such judge has not scheduled the case for trial within one hundred and twenty days after issue has been joined, that judge may appoint a master pursuant to rule 53 of the Federal Rules of Civil Procedure.

(g) Injunctions; appropriate affirmative action; equitable relief; accrual of back pay; reduction of back pay; limitations on judicial orders

(1) If the court finds that the respondent has intentionally engaged in or is intentionally en-
gaging in an unlawful employment practice charged in the complaint, the court may enjoin the respondent from engaging in such unlawful employment practice, and order such affirmative action as may be appropriate, which may include, but is not limited to, reinstatement or hiring of employees, with or without back pay (payable by the employer, employment agency, or labor organization, as the case may be, responsible for the unlawful employment practice), or any other equitable relief as the court deems appropriate. Back pay liability shall not accrue from a date more than two years prior to the filing of a charge with the Commission. In the absence of willful conduct, no back pay shall otherwise be allowed.

(2A)(A) No order of the court shall require the admission or reinstatement of an individual as a member of a union, or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, or national origin or in violation of section 2000e–3(a) of this title.

(B) On a claim in which an individual proves a violation under section 2000e–2(m) of this title and a respondent demonstrates that the respondent would have taken the same action in the absence of the impermissible motivating factor, the court—

(i) may grant declaratory relief, injunctive relief (except as provided in clause (ii)), and attorney’s fees and costs demonstrated to be directly attributable only to the pursuit of a claim under section 2000e–2(m) of this title; and

(ii) shall not award damages or issue an order requiring any admission, reinstatement, hiring, promotion, or payment, described in subparagraph (A).

(h) Provisions of chapter 6 of title 29 not applicable to civil actions for prevention of unlawful practices

The provisions of chapter 6 of title 29 shall not apply with respect to civil actions brought under this section.

(i) Proceedings by Commission to compel compliance with judicial orders

In any case in which an employer, employment agency, or labor organization fails to comply with an order of a court issued in a civil action brought under this section and from two hundred and ten to three hundred days the time for filing charges with the Commission, the court, in its discretion, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney’s fee (including expert fees) as part of the costs, and the Commission and the United States shall be liable for costs the same as a private person.

(2A)(A) No order of the court shall require the admission or reinstatement of an individual as a member of a union, or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, or national origin or in violation of section 2000e–3(a) of this title.

(B) On a claim in which an individual proves a violation under section 2000e–2(m) of this title and a respondent demonstrates that the respondent would have taken the same action in the absence of the impermissible motivating factor, the court—

(i) may grant declaratory relief, injunctive relief (except as provided in clause (ii)), and attorney’s fees and costs demonstrated to be directly attributable only to the pursuit of a claim under section 2000e–2(m) of this title; and

(ii) shall not award damages or issue an order requiring any admission, reinstatement, hiring, promotion, or payment, described in subparagraph (A).

(h) Provisions of chapter 6 of title 29 not applicable to civil actions for prevention of unlawful practices

The provisions of chapter 6 of title 29 shall not apply with respect to civil actions brought under this section.

(i) Proceedings by Commission to compel compliance with judicial orders

In any case in which an employer, employment agency, or labor organization fails to comply with an order of a court issued in a civil action brought under this section and from two hundred and ten to three hundred days the time for filing charges with the Commission, the court, in its discretion, may allow the prevailing party, other than the Commission or the United States, a reasonable attorney’s fee (including expert fees) as part of the costs, and the Commission and the United States shall be liable for costs the same as a private person.

(2A)(A) No order of the court shall require the admission or reinstatement of an individual as a member of a union, or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him of any back pay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, or national origin or in violation of section 2000e–3(a) of this title.

(B) On a claim in which an individual proves a violation under section 2000e–2(m) of this title and a respondent demonstrates that the respondent would have taken the same action in the absence of the impermissible motivating factor, the court—

(i) may grant declaratory relief, injunctive relief (except as provided in clause (ii)), and attorney’s fees and costs demonstrated to be directly attributable only to the pursuit of a claim under section 2000e–2(m) of this title; and

ment, governmental agency, or political subdivision and the Commission could not secure a conciliation agreement, added par. (2), redesignated former subsec. (f) as par. (3), substituted "agrieved person" for "plaintiff", and added pars. (4) and (5).

Subsec. (g). Pub. L. 92–261, §4(a), inserted provisions which authorized the court to order affirmative action not solely to the enumerated affirmative acts and such other equitable relief as deemed appropriate, and provisions which set forth the accrual date for back pay.

Subsecs. (i), (j). Pub. L. 92–261, §4(b)(1), (2), substituted "this section" for "subsection (e) of this section".

**Effective Date of 2009 Amendment**

**Effective Date of 1991 Amendment**

**Effective Date of 1972 Amendment**

Section 14 of Pub. L. 92–261 provided that: "The amendments made by this Act to section 706 of the Civil Rights Act of 1964 [this section] shall be applicable with respect to charges pending with the Commission on the date of enactment of this Act [Mar. 24, 1972] and all charges filed thereafter."

**Findings**

Pub. L. 111–2, §2, Jan. 29, 2009, 123 Stat. 5, provided that: "Congress finds the following:"

1. The Supreme Court in Ledbetter v. Goodyear Tire & Rubber Co., 550 U.S. 618 (2007), significantly impairs statutory protections against discrimination in compensation that Congress established and that have been bedrock principles of American law for decades. The Ledbetter decision undermines those statutory protections by unduly restricting the time period in which victims of discrimination can challenge and recover for discriminatory compensation decision[s] or other practices, contrary to the intent of Congress.

2. The limitation imposed by the Court on the filing of discriminatory compensation claims ignores the reality of wage discrimination and is at odds with the robust application of the civil rights laws that Congress intended.

3. With regard to any charge of discrimination under any law, nothing in this Act [amending this section and section 2000e–16 of this title and sections 606, 633a, and 794a of Title 29, Labor, and enacting provisions set out as notes under this section and section 2000a of this title] is intended to preclude or limit an aggrieved person’s right to introduce evidence of an unlawful employment practice that has occurred outside the time for filing a charge of discrimination.

4. Nothing in this Act is intended to change current law treatment of when pension distributions are considered paid."

**Application to Other Laws**

Pub. L. 111–2, §5(a), (b), Jan. 29, 2009, 123 Stat. 6, provided that:

"(a) AMERICANS WITH DISABILITIES ACT OF 1990.—The amendments made by section 3 [amending this section] shall apply to claims of discrimination in compensation brought under title I and section 503 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12111 et seq., 12203), pursuant to section 107(a) of such Act (42 U.S.C. 12117(a)), which adopts the powers, remedies, and procedures set forth in section 706 of the Civil Rights Act of 1964 (42 U.S.C. 2000e–5).

"(b) REHABILITATION ACT OF 1973.—The amendments made by section 3 shall apply to claims of discrimination in compensation brought under sections 501 and 504 of the Rehabilitation Act of 1973 (29 U.S.C. 791, 794), pursuant to—"

1. sections 501(g) and 504(d) of such Act (29 U.S.C. 791(g), 794(d)), respectively, which adopt the standards applied under title I of the Americans with Disabilities Act of 1990 (42 U.S.C. 12111 et seq.) for determining whether a violation has occurred in a complaint alleging employment discrimination; and

2. paragraphs (1) and (2) of section 505(a) of such Act (29 U.S.C. 794a(a)) (as amended by subsection (c))."

§2000e–6. Civil actions by the Attorney General

(a) Complaint

Whenever the Attorney General has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of resistance to the full enjoyment of any of the rights secured by this subchapter, and that the pattern or practice is of such a nature and is intended to deny the full exercise of the rights herein described, the Attorney General may bring a civil action in the appropriate district court of the United States by filing with it a complaint (1) signed by him (or in his absence the Acting Attorney General), (2) setting forth facts pertaining to such pattern or practice, and (3) requesting such relief, including an application for a permanent or temporary injunction, restraining order or other order against the person or persons responsible for such pattern or practice, as he deems necessary to insure the full enjoyment of the rights herein described.

(b) Jurisdiction; three-judge district court for cases of general public importance: hearing, determination, expedition of action, review by Supreme Court; single judge district court: hearing, determination, expedition of action

The district courts of the United States shall have and shall exercise jurisdiction of proceedings instituted pursuant to this section, and in any such proceeding the Attorney General may file with the clerk of such court a request that a court of three judges be convened to hear and determine the case. Such request by the Attorney General shall be accompanied by a certificate that, in his opinion, the case is of general public importance. A copy of the certificate and request for a three-judge court shall immediately be furnished by such clerk to the chief judge of the circuit (or in his absence, the presiding circuit judge of the circuit) in which the case is pending. Upon receipt of such request it shall be the duty of the chief judge of the circuit or the presiding circuit judge, as the case may be, to designate immediately three judges in such circuit, of whom at least one shall be a circuit judge and another of whom shall be a district judge of the court in which the proceeding
was instituted, to hear and determine such case, and it shall be the duty of the judges so designated to assign the case for hearing at the earliest practicable date, to participate in the hearing and determination thereof, and to cause the case to be in every way expedited. An appeal from the final judgment of such court will lie to the Supreme Court.

In the event the Attorney General fails to file such a request in any such proceeding, it shall be the duty of the chief judge of the district (or in his absence, the acting chief judge) in which the case is pending immediately to designate a judge in such district to hear and determine the case. In the event that no judge in the district is available to hear and determine the case, the chief judge of the district, or the acting chief judge, as the case may be, shall certify this fact to the chief judge of the circuit (or in his absence, the acting chief judge) who shall then designate a district or circuit judge of the circuit to hear and determine the case.

It shall be the duty of the judge designated pursuant to this section to assign the case for hearing at the earliest practicable date and to cause the case to be in every way expedited.

(c) Transfer of functions, etc., to Commission; effective date; prerequisite to transfer; execution of functions by Commission

The Commission shall carry out such functions in accordance with subsections (d) and (e) of this section.

(d) Transfer of functions, etc., not to affect suits commenced pursuant to this section prior to date of transfer

Upon the transfer of functions provided for in subsection (c) of this section, in all suits commenced pursuant to this section prior to the date of such transfer, proceedings shall continue without abatement, all court orders and decrees shall remain in effect, and the Commission shall be substituted as a party for the United States of America, the Attorney General, or the Acting Attorney General, as appropriate.

(e) Investigation and action by Commission pursuant to filing of charge of discrimination; procedure

Subsequent to March 24, 1972, the Commission shall have authority to investigate and act on a charge of a pattern or practice of discrimination, whether filed by or on behalf of a person claiming to be aggrieved or by a member of the Commission. All such actions shall be conducted in accordance with the procedures set forth in section 2000e-5 of this title.

§ 2000e–7. Effect on State laws

Nothing in this subchapter shall be deemed to exempt or relieve any person from any liability, duty, penalty, or punishment provided by any present or future law of any State or political subdivision of a State, other than any such law which purports to require or permit the doing of any act which would be an unlawful employment practice under this subchapter.

§ 2000e–8. Investigations

(a) Examination and copying of evidence related to unlawful employment practices

In connection with any investigation of a charge filed under section 2000e–5 of this title, the Commission or its designated representative shall at all reasonable times have access to, for the purposes of examination, and the right to copy any evidence of any person being investigated or proceeded against that relates to unlawful employment practices covered by this subchapter and is relevant to the charge under investigation.

In furtherance of such cooperative efforts, the Commission may enter into written agreements with such State or local agencies and such agreements may include provisions under which the Commission shall refrain from processing a charge in any cases or class of cases specified in such agreements or under which the Commission shall relieve any person or class of persons in such State or locality from requirements imposed under this section. The Commission shall rescind any such agreement whenever it determines that the agreement no longer serves the interest of effective enforcement of this subchapter.

Every employer, employment agency, and labor organization subject to this subchapter shall (1) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (2) preserve such records for such periods as the Commission shall prescribe by regulation or order, after public hearing, as necessary, or appropriate for the enforcement of this subchapter or the regulations or orders thereunder. Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may apply to the Commission for an exemption from the application of such regulation or order, and, if such application for an exemption is denied, bring a civil action in the United States district court for the district where such records are kept. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate relief. If any person required to comply with the provisions of this subsection fails or refuses to do so, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, or the Attorney General in a case involving a government, governmental agency or political subdivision, have jurisdiction to issue to such person an order requiring him to comply.

(d) Consultation and coordination between Commission and interested State and Federal agencies in prescribing recordkeeping and reporting requirements; availability of information furnished pursuant to recordkeeping and reporting requirements; conditions on availability

In prescribing requirements pursuant to subsection (c) of this section, the Commission shall consult with other interested State and Federal agencies and shall endeavor to coordinate its requirements with those adopted by such agencies. The Commission shall furnish upon request and without cost to any State or local agency charged with the administration of a fair employment practice law information obtained pursuant to subsection (c) of this section from any employer, employment agency, labor organization, or joint labor-management committee subject to the jurisdiction of such agency. Such information shall be furnished on condition that it not be made public by the recipient agency prior to the institution of a proceeding under State or local law involving such information. If this condition is violated by a recipient agency, the Commission may decline to honor subsequent requests pursuant to this subsection.

(e) Prohibited disclosures; penalties

It shall be unlawful for any officer or employee of the Commission to make public in any manner whatever any information obtained by the Commission pursuant to its authority under this section prior to the institution of any proceeding under this subchapter involving such information. Any officer or employee of the Commission who shall make public in any manner whatever any information in violation of this subsection shall be guilty, of a misdemeanor and upon conviction thereof, shall be fined not more than $1,000, or imprisoned not more than one year.

Ex. Ord. No. 13145. To Prohibit Discrimination in Federal Employment Based on Genetic Information
Ex. Ord. No. 13145, Feb. 8, 2000, 65 F.R. 6877, provided:

SECTION 1. Nondiscrimination in Federal Employment on the Basis of Protected Genetic Information.

1–101. It is the policy of the Government of the United States to provide equal employment opportunity in Federal employment for all qualified persons and to prohibit discrimination against employees based on protected genetic information, or information about a request for or the receipt of genetic services. This policy of equal opportunity applies to every aspect of Federal employment.

1–102. The head of each Executive department and agency shall extend the policy set forth in section 1–101 to all its employees covered by section 717 of Title VII of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000e–16).

1–103. Executive departments and agencies shall carry out the provisions of this order to the extent permitted by law and consistent with their statutory and regulatory authorities, and their enforcement mechanisms. The Equal Employment Opportunity Commission shall be responsible for coordinating the policy of the Government of the United States to prohibit discrimination against employees in Federal employment based on protected genetic information, or information about a request for or the receipt of genetic services.

2. Definitions

(a) The term “employee” shall include an employee, applicant for employment, or former employee covered by section 717 of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000e–16).

(b) Genetic monitoring means the periodic examination of employees to evaluate acquired modifications to their genetic material, such as chromosomal damage or evidence of increased occurrence of mutations, that may have developed in the course of employment due to exposure to toxic substances in the workplace, in order to identify, evaluate, respond to the effects of, or control adverse environmental exposures in the workplace.

(c) Genetic services means health services, including genetic tests, provided to obtain, assess, or interpret genetic information for diagnostic or therapeutic purposes, or for genetic education or counseling.

(d) Genetic test means the analysis of human DNA, RNA, chromosomes, proteins, or certain metabolites in order to detect disease-related genotypes or mutations. Tests for metabolites fall within the definition of “genetic tests” when an excess or deficiency of the metabolites indicates the presence of a mutation or mutations. The conducting of metabolic tests by a department or agency that are not intended to reveal the presence of a mutation shall not be considered a violation of this order, regardless of the results of the tests. Test results revealing a mutation shall, however, be subject to the provisions of this order.

(e) Protected genetic information:

(1) In general, protected genetic information means:

(A) information about an individual’s genetic tests;

(B) information about the genetic tests of an individual’s family members; or

(C) information about the occurrence of a disease, or medical condition or disorder in family members of the individual.

2–102. In discharging their responsibilities under this order, departments and agencies shall implement the following nondiscrimination requirements.

(a) The employing department or agency shall not discharge, fail to rehire, or otherwise discriminate against any employee with respect to the compensation, terms, conditions, or privileges of employment of that employee, because of protected genetic information with respect to the employee, or because of information about a request for or the receipt of genetic services by such employee.

(b) The employing department or agency shall not limit, segregate, or classify employees in any way that would deprive or tend to deprive any employee of employment opportunities or otherwise adversely affect that employee’s status, because of protected genetic information with respect to the employee, or because of information about a request for or the receipt of genetic services by such employee.

(c) The employing department or agency shall not request, require, collect, or purchase protected genetic information with respect to an employee, or information about a request for or the receipt of genetic services by such employee.

(1) to the employee who is the subject of the information, at his or her request;

(2) to an occupational or other health researcher, if the research conducted complies with the regulations and protections provided for under part 46 of title 45, of the Code of Federal Regulations;

(3) if required by a Federal statute, congressional subpoena, or an order issued by a court of competent jurisdiction, except that if the subpoena or court order was secured without the knowledge of the individual to whom the information refers, the
employer shall provide the individual with adequate notice to challenge the subpoena or court order, unless the subpoena or court order also imposes confidentiality requirements; or

(4) to executive branch officials investigating compliance with this order, if the information is relevant to the investigation.

(d) The employing department or agency shall not maintain protected genetic information or information about a request for or the receipt of genetic services in general personnel files; such information shall be treated as confidential medical records and kept separate from personnel files.

(1) the request or requirement is consistent with the Rehabilitation Act [of 1973, 29 U.S.C. 701 et seq.] and other applicable law;

(2) the information obtained is to be used exclusively to assess whether further medical evaluation is needed to diagnose a current disease, or medical condition or disorder, or under the terms of section 1–301(b) of this order;

(3) such current disease, or medical condition or disorder could prevent the applicant or employee from performing the essential functions of the position held or desired; and

(4) the information defined in section 1–201(e)(1)(C) of this order will not be disclosed to persons other than medical personnel involved or responsible for assessing whether further medical evaluation is needed to diagnose a current disease, or medical condition or disorder, or under the terms of section 1–301(b) of this order.

(b) The employing department or agency may request, collect, or purchase protected genetic information with respect to an employee, or any information about a request for or receipt of genetic services by such employee if:

(1) the employee uses genetic or health care services provided by the employer (other than use pursuant to section 1–301(a) of this order);

(2) the employee who uses the genetic or health care services has provided prior knowing, voluntary, and written authorization to the employer to collect protected genetic information;

(3) the person who performs the genetic or health care services does not disclose protected genetic information to anyone except to the employee who uses the services for treatment of the individual; pursuant to section 1–202(d) of this order; for program evaluation or assessment; for compiling and analyzing information in anticipation of or for use in a civil or criminal legal proceeding; or, for payment or accounting purposes, to verify that the service was performed (but in such cases the genetic information itself cannot be disclosed);

(4) such information is not used in violation of sections 1–202(a) or 1–202(b) of this order.

(c) The employing department or agency may collect protected genetic information with respect to an employee if the requirements of part 46 of title 45 of the Code of Federal Regulations are met.

(d) Genetic monitoring of biological effects of toxic substances in the workplace shall be permitted if all of the following conditions are met:

(1) the employee has provided prior, knowing, voluntary, and written authorization;

(2) the employee is notified when the results of the monitoring are available and, at that time, the employer makes any protected genetic information that may have been acquired during the monitoring available to the employee and informs the employee how to obtain such information;

(3) the monitoring conforms to any genetic monitoring regulations that may be promulgated by the Secretary of Labor; and

(4) the employer, excluding any licensed health care professionals that are involved in the genetic monitoring program, receives results of the monitoring only in aggregate terms that do not disclose the identity of specific employees.

(e) This order does not limit the statutory authority of a Federal department or agency to:

(1) promulgate or enforce workplace safety and health laws and regulations;

(2) conduct or sponsor occupational or other health research that is conducted in compliance with regulations at part 46 of title 45, of the Code of Federal Regulations; or

(3) collect protected genetic information as a part of a lawful program, the primary purpose of which is to carry out identification purposes.

Sic. 4. Miscellaneous.

1–401. The head of each department and agency shall take appropriate action to disseminate this policy and, to this end, shall designate a high level official responsible for carrying out its responsibilities under this order.

1–402. Nothing in this order shall be construed to:

(a) limit the rights or protections of an individual under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.), the Privacy Act of 1974 (5 U.S.C. 552a), or other applicable law; or

(b) require specific benefits for an employee or dependent under the Federal Employees Health Benefits Program or similar program.

1–403. This order clarifies and makes uniform Administration policy and does not create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its officers or employees, or any other person.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for reorganization of community relations functions in the area of civil rights.

After a careful review of the activities of the Federal agencies involved in the field of civil rights, it became clear that the elimination of duplication and undesirable overlap required the consolidation of certain functions.

As a first step, I issued Executive Orders 11246 and 11247 on September 24, 1965. Executive Order 11246 simplified and clarified executive branch assignments of responsibility for enforcing civil rights policies and placed responsibility for the Government-wide coordination of the enforcement activities of executive agencies in the Secretary of Labor with respect to employment by Federal contractors and in the Civil Service Commission with respect to employment by Federal agencies.

Executive Order 11247 directed the Attorney General to assist Federal agencies in coordinating their enforcement activities with respect to title VI of the Civil Rights Act of 1964, which prohibits discrimination in federally assisted programs.

As a further step for strengthening the operation and coordination of our civil rights programs, I now recommend transfer of the functions of the Community Relations Service, established in the Department of Commerce under title X of the Civil Rights Act of 1964, to the Attorney General and transfer of the Service, including the Office of Director, to the Department of Justice.

The Community Relations Service was located in the Department of Commerce by the Congress on the assumption that a primary need would be the conciliation of disputes arising out of the public accommodations title of the act. That decision was appropriate on the basis of information available at that time. The need for conciliation in this area has not been as great as anticipated because of the voluntary progress that has been made by businessmen and business organizations.

To be effective, assistance to communities in the identification and conciliation of disputes should be closely and tightly coordinated. Thus, in any particular situation that arises within a community, representatives of Federal agencies whose programs are involved should coordinate their efforts through a single agency.

In recent years, the Civil Rights Division of the Justice Department has played such a coordinating role in many situations, and has done so with great effectiveness.

Placing the Community Relations Service within the Justice Department will enhance the ability of the Justice Department to mediate and conciliate and will insure that the Federal Government speaks with a unified voice in those tense situations where the good offices of the Federal Government are called upon to assist.

In this, as in other areas of Federal operations, we will move more surely and rapidly toward our objectives if we improve Federal organization and the arrangements for interagency coordination. The accompanying reorganization plan has that purpose.

The present distribution of Federal civil rights responsibilities clearly indicates that the activities of the Community Relations Service will fit most appropriately in the Department of Justice.

The Department of Justice has primary program responsibilities in civil rights matters and deep and broad experience in the conciliation of civil rights disputes. Congress has assigned it a major role in the implementation of the Civil Rights Act of 1957, 1960, and 1964, and the Voting Rights Act of 1965. The Department of Justice performs related functions under other acts of Congress. Most of these responsibilities require not only litigation, but also efforts at persuasion, negotiation, and explanation, especially with local governments and law enforcement authorities. In addition, under the Law Enforcement Assistance Act the Department will be supporting local programs in the area of police-community relations.

The test of the effectiveness of an enforcement agency is not how many legal actions are initiated and won, but whether there is compliance with the law. Thus, every such agency necessarily engages in extensive efforts to obtain compliance with the law and the avoidance of disputes. In fact, title VI of the Civil Rights Act of 1964 requires each agency concerned to attempt to obtain compliance by voluntary means before taking further action.
Among the heads of Cabinet departments the President looks principally to the Attorney General for advice and guidance on civil rights issues. The latter is expected to be familiar with civil rights problems in all parts of the Nation and to make recommendations for executive and legislative action.

The Attorney General already has responsibility with respect to a major portion of Federal conciliation efforts in the civil rights field. Under Executive Order 11247, he coordinates the Government-wide enforcement of title VI of the Civil Rights Act of 1964, which relies heavily on the achievement of compliance through persuasion and negotiation.

In the light of these facts, the accompanying reorganization plan would transfer the functions of the Community Relations Service and of its Director to the Attorney General. In so providing, the plan, of course, follows the established pattern of Federal organization by vesting all the transferred powers in the head of the department. The Attorney General will provide for the organization of the Community Relations Service as a separate unit within the Department of Justice.

The functions transferred by the reorganization plan would be carried out with full regard for the provisions of section 1003 of title X of the Civil Rights Act of 1964 relating to (1) cooperation with appropriate State or local, public, or private agencies; (2) the confidentiality of information acquired with the understanding that it would be so held; and (3) the limitation on the performance of investigative or prosecutive functions by personnel of the Service.

This transfer will benefit both the Department of Justice and the Community Relations Service in the fulfillment of their existing functions.

The Attorney General will benefit in his role as the President's adviser by obtaining an opportunity to anticipate and meet problems before the need for legal action arises.

The Community Relations Service, brought into closer relationship with the Attorney General and the Civil Rights Division of the Department of Justice, will gain by becoming a primary resource in a coordinated effort in civil rights under the leadership of the Attorney General. The Community Relations Service will have direct access to the extensive information, experience, staff, and facilities within the Department and in other Federal agencies.

Finally, the responsibility for coordinating major Government activities under the Civil Rights Act aimed at voluntary and peaceful resolution of discriminatory practices will be centered in one department. Thus, the reorganization will permit the most efficient and effective utilization of resources in this field. Together the Service and the Department will have a larger capacity for accomplishment than they do apart.

Although the reorganizations provided for in the reorganization plan will not of themselves result in immediate savings, the improvement achieved in administration will permit a fuller and more effective utilization of manpower and will in the future allow the performance of the affected functions at lower costs than would otherwise be possible.

After investigation I have found and hereby declare that each organization included in Reorganization Plan No. 1 of 1966 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

§ 2000g-1. Functions of Service

It shall be the function of the Service to provide assistance to communities and persons therein in resolving disputes, disagreements, or difficulties relating to discriminatory practices based on race, color, or national origin which impair the rights of persons in such communities under the Constitution or laws of the United States or which affect or may affect interstate commerce. The Service may offer its services in cases of such disputes, disagreements, or difficulties whenever, in its judgment, peaceful relations among the citizens of the community involved are threatened thereby, and it may offer its services either upon its own motion or upon the request of an appropriate State or local official or other interested person.

§ 2000g-2. Cooperation with other agencies; conciliation assistance in confidence and without publicity; information as confidential, restriction on performance of investigative or prosecuting functions; violations and penalties

(a) The Service shall, whenever possible, in performing its functions, seek and utilize the cooperation of appropriate State or local, public, or private agencies.

(b) The activities of all officers and employees of the Service in providing conciliation assistance shall be conducted in confidence and without publicity, and the Service shall hold confidential any information acquired in the regular performance of its duties upon the understanding that it would be so held. No officer or employee of the Service shall engage in the performance of investigative or prosecuting functions of any department or agency in any litigation arising out of a dispute in which he acted on behalf of the Service. Any officer or other employee of the Service, who shall make public in any manner whatever any information in violation of this subsection, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than $1,000 or imprisoned not more than one year.

§ 2000g-3. Reports to Congress

Subject to the provisions of sections 2000a-4 and 2000e-2(b) of this title, the Director shall, on or before January 31 of each year, submit to the Congress a report of the activities of the Service during the preceding fiscal year.

SUBCHAPTER IX—MISCELLANEOUS PROVISIONS

§ 2000h. Criminal contempt proceedings; trial by jury, criminal practice, penalties, exceptions, intent; civil contempt proceedings

In any proceeding for criminal contempt arising under title II, III, IV, V, VI, or VII of this Act, the accused, upon demand therefor, shall be entitled to a trial by jury, which shall conform as near as may be to the practice in criminal cases. Upon conviction, the accused shall not be fined more than $1,000 or imprisoned for more than six months.

This section shall not apply to contempt committed in the presence of the court, or so
near thereto as to obstruct the administration of justice, nor to the misbehavior, misconduct, or disobedience of any officer of the court in respect to writs, orders, or process of the court. No person shall be convicted of criminal contempt unless the act or omission constituting such contempt shall have been intentional, as required in other cases of criminal contempt.

Nor shall anything herein be construed to deprive courts of their power, by civil contempt proceedings, without a jury, to secure compliance with or to prevent obstruction of, as distinguished from punishment for violations of, any lawful writ, process, order, rule, decree, or command of the court in accordance with the prevailing usages of law and equity, including the power of detention.

(1) there is probable cause to believe that the person possessing such materials has committed or is committing the criminal offense to which the materials relate; Provided, however, That a government officer or employee may not search for or seize such materials under the provisions of this paragraph if the offense consists of the receipt, possession, communication, or withholding of such materials or the information contained therein (but such a search or seizure may be conducted under the provisions of this paragraph if the offense consists of the receipt, possession, or communication of information relating to the national defense, classified information, or restricted data under the provisions of section 793, 794, 797, or 798 of title 18, or section 2274, 2275, or 2277 of this title, or section 783 of title 50, or if the offense involves the production, possession, receipt, mailing, sale, distribution, shipment, or transportation of child pornography, the sexual exploitation of children, or the sale or purchase of children under section 2251, 2251A, 2252, or 2252A of title 18); or

(d) Exclusive nature of remedy

The remedy provided by subsection (a)(1) of this section against the United States, a State, or any other governmental unit is exclusive of any other civil action or proceeding for conduct constituting a violation of this chapter, against the officer or employee whose violation gave rise to the claim, or against the estate of such officer or employee.

SUBCHAPTER II—ATTORNEY GENERAL GUIDELINES

§ 2000aa–11. Guidelines for Federal officers and employees

(a) Procedures to obtain documentary evidence; protection of certain privacy interests

The Attorney General shall, within six months of October 13, 1980, issue guidelines for the procedures to be employed by any Federal officer or employee, in connection with the investigation or prosecution of an offense, to obtain documentary materials in the private possession of a person when the person is not reasonably believed to be a suspect in such offense or related by blood or marriage to such a suspect, and when the materials sought are not contraband or the fruits or instrumentalities of an offense. The Attorney General shall incorporate in such guidelines—

(1) a recognition of the personal privacy interests of the person in possession of such documentary materials;

(2) a requirement that the least intrusive method or means of obtaining such materials be used which do not substantially jeopardize the availability or usefulness of the materials sought to be obtained;

(3) a recognition of special concern for privacy interests in cases in which a search or seizure for such documents would intrude upon a known confidential relationship such as that which may exist between clergyman and parishioner; lawyer and client; or doctor and patient; and

(4) a requirement that an application for a warrant to conduct a search governed by this subchapter be approved by an attorney for the government, except that in an emergency situation the application may be approved by another appropriate supervisory official if within 24 hours of such emergency the appropriate United States Attorney is notified.

(b) Use of search warrants; reports to Congress

The Attorney General shall collect and compile information on, and report annually to the Committees on the Judiciary of the Senate and the House of Representatives on the use of search warrants by Federal officers and employees for documentary materials described in subsection (a)(3) of this section.

§ 2000aa–12. Binding nature of guidelines; disciplinary actions for violations; legal proceedings for non-compliance prohibited

Guidelines issued by the Attorney General under this subchapter shall have the full force and effect of Department of Justice regulations and any violation of these guidelines shall make the employee or officer involved subject to appropriate administrative disciplinary action. However, an issue relating to the compliance, or the failure to comply, with guidelines issued pursuant to this subchapter may not be litigated, and a court may not entertain such an issue as the basis for the suppression or exclusion of evidence.

CHAPTER 21B—RELIGIOUS FREEDOM RESTORATION

Sec. 2000bb. Congressional findings and declaration of purposes.

§ 2000bb. Congressional findings and declaration of purposes

(a) Findings

The Congress finds that—
(1) the framers of the Constitution, recognizing free exercise of religion as an unalienable right, secured its protection in the First Amendment to the Constitution;
(2) laws “neutral” toward religion may burden religious exercise as surely as laws intended to interfere with religious exercise;
(3) governments should not substantially burden religious exercise without compelling justification;
(4) in Employment Division v. Smith, 494 U.S. 872 (1990) the Supreme Court virtually eliminated the requirement that the government justify burdens on religious exercise imposed by laws neutral toward religion; and
(5) the compelling interest test as set forth in prior Federal court rulings is a workable test for striking sensible balances between religious liberty and competing prior governmental interests.

(b) Purposes

The purposes of this chapter are—
(1) to restore the compelling interest test as set forth in Sherbert v. Verner, 374 U.S. 398 (1963) and Wisconsin v. Yoder, 406 U.S. 205 (1972) and to guarantee its application in all cases where free exercise of religion is substantially burdened; and
(2) to provide a claim or defense to persons whose religious exercise is substantially burdened by government.

§ 2000cc. Protection of land use as religious exercise in land use and by institutionalized persons

Sec. 2000cc. Protection of land use as religious exercise.

2000cc-1. Protection of religious exercise of institutionalized persons.

§ 2000cc. Protection of land use as religious exercise

(a) Substantial burdens

(1) General rule

No government shall impose or implement a land use regulation in a manner that imposes a substantial burden on the religious exercise of a person, including a religious assembly or institution, unless the government demonstrates that imposition of the burden on that person, assembly, or institution—

(A) is in furtherance of a compelling governmental interest; and

(B) is the least restrictive means of furthering that compelling governmental interest.

(2) Scope of application

This subsection applies in any case in which—

(A) the substantial burden is imposed in a program or activity that receives Federal financial assistance, even if the burden results from a rule of general applicability; or

(B) the substantial burden affects, or removal of that substantial burden would affect, commerce with foreign nations, among the several States, or with Indian tribes.

Short Title

§ 2000cc–1. Protection of religious exercise of institutionalized persons

(a) General rule

No government shall impose a substantial burden on the religious exercise of a person residing in or confined to an institution, as defined in section 1997 of this title, even if the burden results from a rule of general applicability, unless the government demonstrates that imposition of the burden on that person—

(1) is in furtherance of a compelling governmental interest; and

(2) is the least restrictive means of furthering that compelling governmental interest.

(b) Scope of application

This section applies in any case in which—

(1) the substantial burden is imposed in a program or activity that receives Federal financial assistance; or

(2) the substantial burden affects, or removal of that substantial burden would affect, commerce with foreign nations, among the several States, or with Indian tribes.

§ 2000cc–2. Judicial relief

(a) Cause of action

A person may assert a violation of this chapter as a claim or defense in a judicial proceeding and obtain appropriate relief against a government. Standing to assert a claim or defense under this section shall be governed by the general rules of standing under article III of the Constitution.

(b) Burden of persuasion

If a plaintiff produces prima facie evidence to support a claim alleging a violation of the Free Exercise Clause or a violation of section 2000cc of this title, the government shall bear the burden of persuasion on any element of the claim, except that the plaintiff shall bear the burden of persuasion on whether the law (including a regulation) or government practice that is challenged by the claim substantially burdens the plaintiff’s exercise of religion.

(c) Full faith and credit

Adjudication of a claim of a violation of section 2000cc of this title in a non-Federal forum shall not be entitled to full faith and credit in a Federal court unless the claimant had a full and fair adjudication of that claim in the non-Federal forum.

(d) Omitted

(e) Prisoners

Nothing in this chapter shall be construed to amend or repeal the Prison Litigation Reform Act of 1995 (including provisions of law amended by that Act).

(f) Authority of United States to enforce this chapter

The United States may bring an action for injunctive or declaratory relief to enforce compliance with this chapter. Nothing in this subsection shall be construed to deny, impair, or otherwise affect any right or authority of the Attorney General, the United States, or any agency, officer, or employee of the United States, acting under any law other than this subsection, to institute or intervene in any proceeding.

(g) Limitation

If the only jurisdictional basis for applying a provision of this chapter is a claim that a substantial burden by a government on religious exercise affects, or that removal of that substantial burden would affect, commerce with foreign nations, among the several States, or with Indian tribes, the provision shall not apply if the government demonstrates that all substantial burdens on, or the removal of all substantial burdens from, similar religious exercise throughout the Nation would not lead in the aggregate to a substantial effect on commerce with foreign nations, among the several States, or with Indian tribes.

(a) Religious belief unaffected

Nothing in this chapter shall be construed to authorize any government to burden any religious belief.

(b) Religious exercise not regulated

Nothing in this chapter shall create any basis for restricting or burdening religious exercise or for claims against a religious organization including any religiously affiliated school or university, not acting under color of law.

(c) Claims to funding unaffected

Nothing in this chapter shall create or permit a right of any religious organization to receive funding or other assistance from a government, or of any person to receive government funding for a religious activity, but this chapter may require a government to incur expenses in its own operations to avoid imposing a substantial burden on religious exercise.

(d) Other authority to impose conditions on funding unaffected

Nothing in this chapter shall—

(1) authorize a government to regulate or affect, directly or indirectly, the activities or policies of a person other than a government as a condition of receiving funding or other assistance; or

(2) restrict any authority that may exist under other law to so regulate or affect, except as provided in this chapter.

(e) Governmental discretion in alleviating burdens on religious exercise

A government may avoid the preemptive force of any provision of this chapter by changing the policy or practice that results in a substantial burden on religious exercise, by retaining the policy or practice and exempting the substantially burdened religious exercise, by providing exemptions from the policy or practice for applications that substantially burden religious exercise, or by any other means that eliminates the substantial burden.

(f) Effect on other law

With respect to a claim brought under this chapter, proof that a substantial burden on a person’s religious exercise affects, or removal of that burden would affect, commerce with foreign nations, among the several States, or with Indian tribes, shall not establish any inference or presumption that Congress intends that any religious exercise is, or is not, subject to any law other than this chapter.
(g) Broad construction

This chapter shall be construed in favor of a broad protection of religious exercise, to the maximum extent permitted by the terms of this chapter and the Constitution.

(h) No preemption or repeal

Nothing in this chapter shall be construed to preempt State law, or repeal Federal law, that is equally as protective of religious exercise as, or more protective of religious exercise than, this chapter.

(i) Severability

If any provision of this chapter or of an amendment made by this chapter, or any application of such provision to any person or circumstance, is held to be unconstitutional, the remainder of this chapter, the amendments made by this chapter, and the application of the provision to any other person or circumstance shall not be affected.

SHORT TITLE

United States Policy Toward Detainees

“(a) FINDINGS.—Congress finds the following:

“(1) The National Commission on Terrorist Attacks Upon the United States (commonly referred to as the “9/11 Commission”) declared that the United States ‘should work with friends to develop mutually agreed-on principles for the detention and humane treatment of captured international terrorists who are not being held under a particular country’s criminal laws’ and recommended that the United States engage its allies ‘to develop a common coalition approach toward the detention and humane treatment of captured terrorists’.

“(2) A number of investigations remain ongoing by countries that are close United States allies in the war on terrorism regarding the conduct of officials, employees, and agents of the United States and of other countries related to conduct regarding detainees.

“(3) The Secretary of State has launched an initiative to try to address the differences between the United States and many of its allies regarding the treatment of detainees.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary, acting through the Legal Adviser of the Department of State, should continue to build on the Secretary’s efforts to engage United States allies to develop a common coalition approach, in compliance with Common Article 3 of the Geneva Conventions and other applicable legal principles, toward the detention and humane treatment of individuals detained during Operation Iraqi Freedom, Operation Enduring Freedom, or in connection with United States counterterrorist operations.

“(c) REPORTING TO CONGRESS.—

CHAPTER 21E—PRIVACY AND CIVIL LIBERTIES PROTECTION AND OVERSIGHT
Sec.
2000ee. Privacy and Civil Liberties Oversight Board.

2000ee–1. Privacy and civil liberties officers.

2000ee–2. Privacy and data protection policies and procedures.

§2000ee. Privacy and Civil Liberties Oversight Board
(a) In general
There is established as an independent agency within the executive branch a Privacy and Civil Liberties Oversight Board (referred to in this section as the “Board”).

(b) Findings
Consistent with the report of the National Commission on Terrorist Attacks Upon the United States, Congress makes the following findings:

(1) In conducting the war on terrorism, the Government may need additional powers and may need to enhance the use of its existing powers.

(2) This shift of power and authority to the Government calls for an enhanced system of checks and balances to protect the precious liberties that are vital to our way of life and to ensure that the Government uses its powers for the purposes for which the powers were given.

(3) The National Commission on Terrorist Attacks Upon the United States correctly concluded that “The choice between security and liberty is a false choice, as nothing is more likely to endanger America’s liberties than the success of a terrorist attack at home. Our history has shown us that insecurity threatens liberty. Yet, if our liberties are curtailed, we lose the values that we are struggling to defend.”.

(c) Purpose
The Board shall—

(1) analyze and review actions the executive branch takes to protect the Nation from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and

(2) ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the Nation against terrorism.

(d) Functions
(1) Advice and counsel on policy development and implementation
The Board shall—

(A) review proposed legislation, regulations, and policies related to efforts to protect the Nation from terrorism, including the development and adoption of information sharing guidelines under subsections (d) and (f) of section 485 of title 6;

(B) review the implementation of new and existing legislation, regulations, and policies related to efforts to protect the Nation from terrorism, including the implementation of information sharing guidelines under subsections (d) and (f) of section 485 of title 6;

(C) advise the President and the departments, agencies, and elements of the executive branch to ensure that privacy and civil liberties are appropriately considered in the development and implementation of such legislation, regulations, policies, and guidelines; and

(D) in providing advice on proposals to retain or enhance a particular governmental power, consider whether the department, agency, or element of the executive branch has established—

(i) that the need for the power is balanced with the need to protect privacy and civil liberties;

(ii) that there is adequate supervision of the use by the executive branch of the power to ensure protection of privacy and civil liberties; and

(iii) that there are adequate guidelines and oversight to properly confine its use.

(2) Oversight
The Board shall continually review—

(A) the regulations, policies, and procedures, and the implementation of the regula-

sections, policies, and procedures, of the departments, agencies, and elements of the executive branch relating to efforts to protect the Nation from terrorism to ensure that privacy and civil liberties are protected;

(B) the information sharing practices of the departments, agencies, and elements of the executive branch relating to efforts to protect the Nation from terrorism to determine whether they appropriately protect privacy and civil liberties and adhere to the information sharing guidelines issued or developed under subsections (d) and (f) of section 485 of title 6 and to other governing laws, regulations, and policies regarding privacy and civil liberties; and

(C) other actions by the executive branch relating to efforts to protect the Nation from terrorism to determine whether such actions—

Severability

Pub. L. 110–233, title III, § 301, May 21, 2008, 122 Stat. 920, provided that: “If any provision of this Act [see Short Title note above], an amendment made by this Act, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this Act, the amendments made by this Act, and the application of such provisions to any person or circumstance shall not be affected thereby.”

Findings

“(1) Deciphering the sequence of the human genome and other advances in genetics open major new opportunities for medical progress. New knowledge about the genetic basis of illness will allow for earlier detection of illnesses, often before symptoms have begun. Genetic testing can allow individuals to take steps to reduce the likelihood that they will develop a particular disorder. New knowledge about genetics may allow for the development of better therapies that are more effective against disease or have fewer side effects than current treatments. These advances give rise to the potential misuse of genetic information to discriminate in health insurance and employment.

“(2) The early science of genetics became the basis of State laws that provided for the sterilization of persons having presumed genetic ‘defects’ such as intellectual disabilities, mental disease, epilepsy, blindness, and hearing loss, among other conditions. The first sterilization law was enacted in the State of Indiana in 1907. By 1961, a majority of States adopted sterilization laws to ‘correct’ apparent genetic traits or tendencies. Many of these State laws have since been repealed, and many have been modified to include essential constitutional requirements of due process and equal protection. However, the current explosion in the science of genetics, and the history of sterilization laws by the States based on early genetic science, compels Congressional action in this area.

“(3) Although genes are facially neutral markers, many genetic conditions and disorders are associated with particular racial and ethnic groups and gender. Because some genetic traits are most prevalent in particular groups, members of a particular group may be stigmatized or discriminated against as a result of that genetic information. This form of discrimination was evident in the 1970s, which saw the advent of programs to screen and identify carriers of sickle cell anemia, a disease which afflicts African-Americans. Once again, State legislatures began to enact discriminatory laws in the area, and in the early 1970s began mandating genetic screening of all African Americans for sickle cell anemia, leading to discrimination and unnecessary fear. To alleviate some of this stigma, Congress in 1972 passed the National Sickle Cell Anemia Control Act [Pub. L. 92–294, see Tables for classification], which withholds Federal funding from States unless sickle cell testing is voluntary.

“(4) Congress has been informed of examples of genetic discrimination in the workplace. These include the use of pre-employment genetic screening at Lawrence Berkeley Laboratory, which led to a court decision in favor of the employees in that case [sic] Norman-Bloodsaw v. Lawrence Berkeley Laboratory (135 F.3d 1390, 1399 (9th Cir. 1998)). Congress clearly has a compelling public interest in relieving the fear of discrimination and in prohibiting its actual practice in employment and health insurance.”
"(5) Federal law addressing genetic discrimination in health insurance and employment is incomplete in both the scope and depth of its protections. Moreover, while many States have enacted some type of genetic non-discrimination law, these laws vary widely with respect to their approach, application, and level of protection. Congress has collected substantial evidence that the American public and the medical community find the existing patchwork of State and Federal laws to be confusing and inadequate to protect them from discrimination. Therefore Federal legislation establishing a national and uniform basic standard is necessary to fully protect the public from discrimination and allay their concerns about the potential for discrimination, thereby allowing individuals to take advantage of genetic testing, technologies, research, and new therapies."

(E) the employer, excluding any licensed health care professional or board certified genetic counselor that is involved in the genetic monitoring program, receives the results of the monitoring only in aggregate terms that do not disclose the identity of specific employees; or

(6) where the employer conducts DNA analysis for law enforcement purposes as a forensic laboratory or for purposes of human remains identification, and requests or requires genetic information of such employer’s employees, but only to the extent that such genetic information is used for analysis of DNA identification markers for quality control to detect sample contamination.

No hospital or health facility that has been constructed or maintained for a specific tribe of Indians, or for a specific group of tribes, shall be transferred by the Secretary of Health and Human Services to a non-Indian entity or organization unless such action has been approved by the governing body of the tribe, or by the governing bodies of a majority of the tribes, for which such hospital or health facility has been constructed or maintained: Provided, That if, following such transfer by the United States Public Health Service, the Secretary of Health and Human Services finds the hospital or health facility transferred under this section is not thereafter serving the need of the Indians, the Secretary of Health and Human Services shall notify those charged with management thereof, setting forth needed improvements, and in the event such improvements are not made within a time to be specified, shall immediately assume management and operation of such hospital or health facility.

2. to acquire lands, or rights or interests therein, including sites, rights-of-way, and

easements, and to acquire rights to the use of water, by purchase, lease, gift, exchange, or otherwise, when necessary for the purposes of this section, except that no lands or rights or interests therein may be acquired from an Indian tribe, band, group, community, or individual other than by gift or for nominal consideration, if the facility for which such lands or rights or interests therein are acquired is for the exclusive benefit of such tribe, band, group, community, or individual, respectively; (3) to make such arrangements and agreements with appropriate public authorities and nonprofit organizations or agencies and with the Indians to be served by such sanitation facilities (and any other person so served) regarding contributions toward the construction, improvement, extension and provision thereof, and responsibilities for maintenance thereof, as in his judgment are equitable and will best assure the future maintenance of facilities in an effective and operating condition; and (4) to transfer any facilities provided under this section, together with appurtenant interests in land, with or without a money consideration, and under such terms and conditions as in his judgment are appropriate, having regard to the contributions made and the maintenance responsibilities undertaken, and the special health needs of the Indians concerned, to any State or Territory or subdivision or public authority thereof, or to any Indian tribe, group, band, or community or, in the case of federal reservations, to any one or more of the occupants of the Indian home served thereby.

(b) Transfer and reversion of lands

The Secretary of the Interior is authorized to transfer to the Surgeon General for use in carrying out the purposes of this section such interest and rights in federally owned lands under the jurisdiction of the Department of the Interior, and in Indian-owned lands that either are held by the United States in trust for Indians or are subject to a restriction against alienation imposed by the United States, including appurtenances and improvements thereto, as may be requested by the Surgeon General, and to the Secretary for the purpose of assisting such Indian tribe, band, group, or community in carrying out the provisions of contracts with, or grants to, tribal organizations pursuant to sections 450f and 450h of title 25.

AMENDMENTS

1988—Pub. L. 100–472, which directed amendment of this section by substituting “sections 450f and 450h” for “sections 450f, 450g, and 450h” was executed by making the substitution for “section 450f, 450g, or 450h”, to reflect the probable intent of Congress.

§ 2005. Financial assistance by Surgeon General

Whenever the Surgeon General of the Public Health Service, in carrying out his functions under subchapter I of this chapter with respect to the provision of health services to Indians in any particular area, determines, after consultation with such Indians, that the provision of financial assistance to one or more public or other nonprofit agencies or organizations for the construction of a community hospital constitutes a method of making needed hospital facilities available for such Indians which is more desirable and effective than direct Federal construction, he may provide such financial assistance from funds available for the construction of Indian health facilities for such Indians.

**Transfer of Functions**

Atomic Energy Commission abolished and functions transferred by sections 5811 and 5841 of this title. See also Transfer of Functions notes set out under those sections.

**2012. Congressional findings**

The Congress of the United States makes the following findings concerning the development, use, and control of atomic energy:

(a) The development, utilization, and control of atomic energy for military and for all other purposes are vital to the common defense and security.

(c) The processing and utilization of source, byproduct, and special nuclear material affect interstate and foreign commerce and must be regulated in the national interest.

(d) The processing and utilization of source, byproduct, and special nuclear material must be regulated in the national interest and in order to provide for the common defense and security and to protect the health and safety of the public.

(e) Source and special nuclear material, production facilities, and utilization facilities are affected with the public interest, and regulation by the United States of the production and utilization of atomic energy and of the facilities used in connection therewith is necessary in the national interest to assure the common defense and security and to protect the health and safety of the public.

(f) The necessity for protection against possible interstate damage occurring from the operation of facilities for the production or utilization of source or special nuclear material places the operation of those facilities in interstate commerce for the purposes of this chapter.

(g) Funds of the United States may be provided for the development and use of atomic energy under conditions which will provide for the common defense and security and promote the general welfare.

(i) In order to protect the public and to encourage the development of the atomic energy industry, in the interest of the general welfare and of the common defense and security, the United States may make funds available for a portion of the damages suffered by the public from nuclear incidents, and may limit the liability of those persons liable for such losses.

**Prior Provisions**

Provisions similar to those comprising this section were contained in section 1 of act Aug. 1, 1946, ch. 724,
60 Stat. 755, which was classified to section 1801 of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

**AMENDMENTS**

1964—Subsec. (b). Pub. L. 88–489, § 1, struck out subsec. (b) which provided for the regulation of governmental guarantees and security safeguards, so as to encourage scientific and industrial progress; and for the control of special nuclear materials, atomic energy and special nuclear material, whether owned by the Government or others, so directed as to make the maximum contribution to the common defense and security and the national welfare, and to provide continued assurance of the Government’s ability to enter into and enforce agreements with nations or groups of nations for the control of special nuclear materials and atomic weapons.

Subsec. (h). Pub. L. 88–489, § 2, struck out subsec. (h) which found it essential to common defense and security that title to all special nuclear material be in United States while such special nuclear material is within United States.

**CONTROL AND REGULATION POWERS OF UNITED STATES AND OF ATOMIC ENERGY COMMISSION UNAFFECTED BY PRIVATE OWNERSHIP OF SPECIAL NUCLEAR MATERIALS**

Section 20 of Pub. L. 88–489 provided that: “Nothing in this Act (amending this section and sections 2013, 2073 to 2078, 2133, 2201, 2223 and 2224 of this title, repealing section 2072 of this title, and enacting provisions set out as notes under this section and section 2072 of this title) shall be deemed to diminish existing authority of the United States, or of the Atomic Energy Commission under the Atomic Energy Act of 1954, as amended [this chapter], to regulate source, byproduct, and special nuclear material and production and utilization facilities, or to control such materials and facilities exported from the United States by imposition of governmental guarantees and security safeguards with respect thereto, in order to assure the common defense and security and to protect the health and safety of the public, or to reduce the responsibility of the Atomic Energy Commission to achieve such objectives.”

§ 2013. Purpose of chapter

It is the purpose of this chapter to effectuate the policies set forth above by providing for—

(a) a program of conducting, assisting, and fostering research and development in order to encourage maximum scientific and industrial progress;

(b) a program for the dissemination of unclassified scientific and technical information and for the control, dissemination, and declassification of Restricted Data, subject to appropriate safeguards, so as to encourage scientific and industrial progress;

(c) a program for Government control of the possession, use, and production of atomic energy and special nuclear material, whether owned by the Government or others, so directed as to make the maximum contribution to the common defense and security and the national welfare, and to provide continued assurance of the Government’s ability to enter into and enforce agreements with nations or groups of nations for the control of special nuclear materials and atomic weapons;

(d) a program to encourage widespread participation in the development and utilization of atomic energy for peaceful purposes to the maximum extent consistent with the common defense and security and with the health and safety of the public;

(e) a program of international cooperation to promote the common defense and security and to make available to cooperating nations the benefits of peaceful applications of atomic energy as widely as expanding technology and considerations of the common defense and security will permit; and

(f) a program of administration which will be consistent with the foregoing policies and programs, with international arrangements, and with agreements for cooperation, which will enable the Congress to be currently informed as to take further legislative action as may be appropriate.

**PRIOR PROVISIONS**

Provisions similar to those comprising this section were contained in section 1 of act Aug. 1, 1946, ch. 724, 60 Stat. 755, which was classified to section 1801 of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

(2) Each proposed agreement shall include the proposed effective date of such proposed agreement or exemptions. The agreement and exemptions shall be published in the Federal Register within thirty days after signature by the Commission and the Governor.
(f) Exemptions

The Commission is authorized and directed, by regulation or order, to grant such exemptions from the licensing requirements contained in subchapters V, VI, and VII of this division, and from its regulations applicable to licensees as the Commission finds necessary or appropriate to carry out any agreement entered into pursuant to subsection (b) of this section.

(g) Compatible radiation standards

The Commission is authorized and directed to cooperate with the States in the formulation of standards for protection against hazards of radiation to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible.

(h) Consultative, advisory, and miscellaneous functions of Administrator of Environmental Protection Agency

The Administrator of the Environmental Protection Agency shall consult qualified scientists and experts in radiation matters, including the President of the National Academy of Sciences, the Chairman of the National Committee on Radiation Protection and Measurement, and qualified experts in the field of biology and medicine and in the field of health physics. The Special Assistant to the President for Science and Technology, or his designee, is authorized to attend meetings with, participate in the deliberations of, and to advise the Administrator. The Administrator shall advise the President with respect to radiation matters, directly or indirectly affecting health, including guidance for all Federal agencies in the formulation of radiation standards and in the establishment and execution of programs of cooperation with States. The Administrator shall also perform such other functions as the President may assign to him by Executive order.

(i) Inspections and other functions; training and other assistance

The Commission in carrying out its licensing and regulatory responsibilities under this chapter is authorized to enter into agreements with any State, or group of States, to perform inspections or other functions on a cooperative basis as the Commission deems appropriate. The Commission is also authorized to provide training, with or without charge, to employees of, and such other assistance to, any State or political subdivision thereof or group of States as the Commission deems appropriate. Any such provision or assistance by the Commission shall take into account the additional expenses that may be incurred by a State as a consequence of the State’s entering into an agreement with the Commission pursuant to subsection (b) of this section.

(j) Reserve power to terminate or suspend agreements; emergency situations; State nonaction on causes of danger; authority exercisable only during emergency and commensurate with danger

(1) The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State with which an agreement under subsection (b) of this section has become effective, or upon request of the Governor of such State, may terminate or suspend all or part of its agreement with the State and reassert the licensing and regulatory authority vested in it under this chapter, if the Commission finds that (1) such termination or suspension is required to protect the public health and safety, or (2) the State has not complied with one or more of the requirements of this section. The Commission shall periodically review such agreements and actions taken by the States under the agreements to ensure compliance with the provisions of this section.

(2) The Commission, upon its own motion or upon request of the Governor of any State, may, after notifying the Governor, temporarily suspend all or part of its agreement with the State without notice or hearing if, in the judgment of the Commission:

(A) an emergency situation exists with respect to any material covered by such an agreement creating danger which requires immediate action to protect the health or safety of persons either within or outside the State, and

(B) the State has failed to take steps necessary to contain or eliminate the cause of the danger within a reasonable time after the situation arose.

A temporary suspension under this paragraph shall remain in effect only for such time as the emergency situation exists and shall authorize the Commission to exercise its authority only to the extent necessary to contain or eliminate the danger.

(k) State regulation of activities for certain purposes

Nothing in this section shall be construed to affect the authority of any State or local agency to regulate activities for purposes other than protection against radiation hazards.

(l) Commission regulated activities; notice of filing; hearing

With respect to each application for Commission license authorizing an activity as to which the Commission’s authority is continued pursuant to subsection (c) of this section, the Commission shall give prompt notice to the State or States in which the activity will be conducted of the filing of the license application; and shall afford reasonable opportunity for State representatives to offer evidence, interrogate witnesses, and advise the Commission as to the application without requiring such representatives to take a position for or against the granting of the application.

(m) Limitation of agreements and exemptions

No agreement entered into under subsection (b) of this section, and no exemption granted pursuant to subsection (f) of this section, shall affect the authority of the Commission under section 2201(b) or (l) of this title to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material. For purposes of section 2201(i) of this title, activities covered by exemptions granted pursuant to subsection (f) of this section shall be deemed to constitute activities au-
authorized pursuant to this chapter; and special nuclear material acquired by any person pursuant to such an exemption shall be deemed to have been acquired pursuant to section 2073 of this title.

(n) “State” and “agreement” defined

As used in this section, the term “State” means any State, Territory, or possession of the United States, the Canal Zone, Puerto Rico, and the District of Columbia. As used in this section, the term “agreement” includes any amendment to any agreement.

(o) State compliance requirements: compliance with section 2113(b) of this title and health and environmental protection standards; procedures for licenses, rulemaking, and license impact analysis; amendment of agreements for transfer of State collected funds; proceedings duplication restriction; alternative requirements

In the licensing and regulation of byproduct material, as defined in section 2014(e)(2) of this title, of any activity which results in the production of byproduct material as so defined under an agreement entered into pursuant to subsection (b) of this section, a State shall require—

(1) compliance with the requirements of subsection (b) of section 2113 of this title (respecting ownership of byproduct material and land), and

(2) compliance with standards which shall be adopted by the State for the protection of the public health, safety, and the environment from hazards associated with such material which are equivalent, to the extent practicable, or more stringent than, standards adopted and enforced by the Commission for the same purpose, including requirements and standards promulgated by the Commission and the Administrator of the Environmental Protection Agency pursuant to sections 2113, 2114, and 2022 of this title, and

(3) procedures which—

(A) in the case of licenses, provide procedures under State law which include—

(i) an opportunity, after public notice, for written comments and a public hearing, with a transcript,

(ii) an opportunity for cross examination, and

(iii) a written determination which is based upon findings included in such determination and upon the evidence presented during the public comment period and which is subject to judicial review;

(B) in the case of rulemaking, provide an opportunity for public participation through written comments or a public hearing and provide for judicial review of the rule;

(C) require for each license which has a significant impact on the human environment a written analysis (which shall be available to the public before the commencement of any such proceedings) of the impact of such license, including any activities conducted pursuant thereto, on the environment, which analysis shall include—

(i) an assessment of the radiological and nonradiological impacts to the public health of the activities to be conducted pursuant to such license;

(ii) an assessment of any impact on any waterway and groundwater resulting from such activities;

(iii) consideration of alternatives, including alternative sites and engineering methods, to the activities to be conducted pursuant to such license; and

(iv) consideration of the long-term impacts, including decommissioning, decontamination, and reclamation impacts, associated with activities to be conducted pursuant to such license, including the management of any byproduct material, as defined by section 2014(e)(2) of this title;

and

(D) prohibit any major construction activity with respect to such material prior to complying with the provisions of subparagraph (C).

If any State under such agreement imposes upon any licensee any requirement for the payment of funds to such State for the reclamation or long-term maintenance and monitoring of such material, and if transfer to the United States of such material is required in accordance with section 2113(b) of this title, such agreement shall be amended by the Commission to provide that such State shall transfer to the United States upon termination of the license issued to such licensee the total amount collected by such State from such licensee for such purpose. If such payments are required, they must be sufficient to ensure compliance with the standards established by the Commission pursuant to section 2201(x) of this title. No State shall be required under paragraph (3) to conduct proceedings concerning any license or regulation which would duplicate proceedings conducted by the Commission. In adopting requirements pursuant to paragraph (2) of this subsection with respect to sites at which ores are processed primarily for their source material content or which are used for the disposal of byproduct material as defined in section 2014(e)(2) of this title, the State may adopt alternatives (including, where appropriate, site-specific alternatives) to the requirements adopted and enforced by the Commission for the same purpose if, after notice and opportunity for public hearing, the Commission determines that such alternatives will achieve a level of stabilization and containment of the sites concerned, and a level of protection for public health, safety, and the environment from radiological and nonradiological hazards associated with such sites, which is equivalent to, to the extent practicable, or more stringent than, the level which would be achieved by standards and requirements adopted and enforced by the Commission for the same purpose and any final standards promulgated by the Administrator of the Environmental Protection Agency in accordance with section 2022 of this title. Such alternative State requirements may take into account local or regional conditions, including geography, topography, hydrology and meteorology.

“(g) Nothing in any amendment made by this section [amending this section] shall preclude any State from exercising any other authority as permitted under the Atomic Energy Act of 1954 [this chapter] respecting any byproduct material, as defined in section 11 e. (2) of the Atomic Energy Act of 1954 [section 2014(e)(2) of this title].

“(h)(1) During the three-year period beginning on the date of the enactment of this Act [Nov. 8, 1978], notwithstanding any other provision of this title [except that such State authority shall be exercised in a manner which, to the extent practicable, is consistent with the requirements of section 274 o. of the Atomic Energy Act of 1954 (as added by section 204(e) of this Act)] [see Effective Date of 1978 Amendment note set out under section 2014 of this title], any State may exercise any authority under State law (including authority exercised pursuant to an agreement entered into pursuant to section 274 of the Atomic Energy Act of 1954 [this section]) respecting (A) byproduct material, as defined in section 11 e. (2) of the Atomic Energy Act of 1954 [section 2014(e)(2) of this title], or (B) any activity which results in the production of byproduct material as so defined, in the same manner and to the same extent as permitted before the date of the enactment of this Act, except that such State authority shall be exercised in a manner which, to the extent practicable, is consistent with the requirements of section 274 o. of the Atomic Energy Act of 1954 [as amended by section 204(e) of this Act] [subsec. If, at the end of such three-year period, a State has not entered into such an agreement with respect to byproduct material, as defined in section 11 e. (2) of the Atomic Energy Act of 1954, the Commission shall have authority over such
byproduct material: Provided, however, That, in the case of a State which has exercised any authority under State law pursuant to an agreement entered into under section 274 of the Atomic Energy Act of 1954 (this section), the State authority over such byproduct material may be terminated, and the Commission authority over such material may be exercised, only after compliance by the Commission with the same procedures as are applicable in the case of termination of agreements under section 274 of the Atomic Energy Act of 1954 [subsec. Prior Provisions

§ 2021d. Regional compacts for disposal of low-level radioactive waste

(a) In general

(1) Federal policy
It is the policy of the Federal Government that the responsibilities of the States under section 2021c of this title for the disposal of low-level radioactive waste can be most safely and effectively managed on a regional basis.

(2) Interstate compacts
To carry out the policy set forth in paragraph (1), the States may enter into such compacts as may be necessary to provide for the establishment and operation of regional disposal facilities for low-level radioactive waste.

(b) Applicability to Federal activities

(1) In general
(A) Activities of the Secretary
Except as provided in subparagraph (B), no compact or action taken under a compact shall be applicable to the transportation, management, or disposal of any low-level radioactive waste designated in section 2021c(1)(B)(i)–(iii) of this title.

(B) Federal low-level radioactive waste disposed of at non-Federal facilities
Low-level radioactive waste owned or generated by the Federal Government that is disposed of at a regional disposal facility or non-Federal disposal facility within a State that is not a member of a compact shall be subject to the same conditions, regulations, requirements, fees, taxes, and surcharges imposed by the compact commission, and by the State in which such facility is located, in the same manner and to the same extent as any low-level radioactive waste not generated by the Federal Government.

(2) Federal low-level radioactive waste disposal facilities
Any low-level radioactive waste disposal facility established or operated exclusively for the disposal of low-level radioactive waste owned or generated by the Federal Government shall not be subject to any compact or any action taken under a compact.

(3) Effect of compacts on Federal law
Nothing contained in sections 2021b to 2021j of this title or any compact may be construed to confer any new authority on any compact commission or State—

(A) to regulate the packaging, generation, treatment, storage, disposal, or transportation of low-level radioactive waste in a manner incompatible with the regulations of the Nuclear Regulatory Commission or inconsistent with the regulations of the Department of Transportation;

(B) to regulate health, safety, or environmental hazards from source material, by-product material, or special nuclear material;

(C) to inspect the facilities of licensees of the Nuclear Regulatory Commission;

(D) to inspect security areas or operations at the site of the generation of any low-level radioactive waste by the Federal Government, or to inspect classified information related to such areas or operations; or

(c) Restricted use of regional disposal facilities
Any authority in a compact to restrict the use of the regional disposal facilities under the compact to the disposal of low-level radioactive waste generated within the compact region shall not take effect before each of the following occurs:

(1) January 1, 1986; and

(2) the Congress by law consents to the compact.

§ 2021e. Limited availability of certain regional disposal facilities during transition and licensing periods

(a) Availability of disposal capacity

(1) Pressurized water and boiling water reactors

During the seven-year period beginning January 1, 1986 and ending December 31, 1992, subject to the provisions of subsections (b) through (g) of this section, each State in which there is located a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section shall make disposal capacity available for low-level radioactive waste generated by pressurized water and boiling water commercial nuclear power reactors in accordance with the allocations established in subsection (c) of this section.

(2) Other sources of low-level radioactive waste

During the seven-year period beginning January 1, 1986 and ending December 31, 1992, subject to the provisions of subsections (b) through (g) of this section, each State in which there is located a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section shall make disposal capacity available for low-level radioactive waste generated by any source not referred to in paragraph (1).
(C) Nothing in this paragraph shall require any disposal facility or State referred to in paragraphs (1) through (3) of subsection (b) of this section to accept for disposal low-level radioactive waste in excess of the total amounts designated in subsection (b) of this section.

(4) Cessation of operation of low-level radioactive waste disposal facility

No provision of this section shall be construed to obligate any State referred to in paragraphs (1) through (3) of subsection (b) of this section to accept low-level radioactive waste from any source in the event that the regional disposal facility located in such State ceases operations.

(b) Limitations

The availability of disposal capacity for low-level radioactive waste from any source shall be subject to the following limitations:

(1) Barnwell, South Carolina

The State of South Carolina, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Barnwell, South Carolina to a total of 9,400,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 1,200,000 cubic feet of low-level radioactive waste).

(2) Richland, Washington

The State of Washington, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Richland, Washington to a total of 9,800,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 1,400,000 cubic feet of low-level radioactive waste).

(3) Beatty, Nevada

The State of Nevada, in accordance with the provisions of its compact, may limit the volume of low-level radioactive waste accepted for disposal at the regional disposal facility located at Beatty, Nevada to a total of 1,400,000 cubic feet of low-level radioactive waste during the 7-year period beginning January 1, 1986, and ending December 31, 1992 (as based on an average annual volume of 200,000 cubic feet of low-level radioactive waste).

(c) Commercial nuclear power reactor allocations

(1) Amount

Subject to the provisions of subsections (a) through (g) of this section each commercial nuclear power reactor shall upon request receive an allocation of low-level radioactive waste disposal capacity (in cubic feet) at the facilities referred to in subsection (b) of this section during the 4-year transition period beginning January 1, 1986, and ending December 31, 1992, in an amount calculated by multiplying the appropriate number from the following table by the number of months remaining in the applicable period as determined under paragraph (2).

(2) Method of calculation

For purposes of calculating the aggregate amount of disposal capacity available to a commercial nuclear power reactor under this subsection, the number of months shall be computed beginning with the first month of the applicable period, or the sixteenth month after receipt of a full power operating license, whichever occurs later.

(3) Unused allocations

Any unused allocation under paragraph (1) received by a reactor during the transition period or the licensing period may be used at any time after such reactor receives its full power license or after the beginning of the pertinent period, whichever is later, but not in any event after December 31, 1992, or after commencement of operation of a regional disposal facility in the compact region or State in which such reactor is located, whichever occurs first.

(4) Transferability

Any commercial nuclear power reactor in a State or compact region that is in compliance with the requirements of subsection (e) of this section may assign any disposal capacity allocated to it under this subsection to any other person in each State or compact region. Such assignment may be for valuable consideration and shall be in writing, copies of which shall be filed at the affected compact commissions and States, along with the assignor’s unconditional written waiver of the disposal capacity being assigned.

(5) Unusual volumes

(A) The Secretary may, upon petition by the owner or operator of any commercial nuclear power reactor, allocate to such reactor disposal capacity in excess of the amount calculated under paragraph (1) if the Secretary finds and states in writing his reasons for so finding that making additional capacity available for such reactor through this paragraph is required to permit unusual or unexpected operating, maintenance, repair or safety activities.

(B) The Secretary may not make allocations pursuant to subparagraph (A) that would result in the acceptance for disposal of more than 800,000 cubic feet of low-level radioactive waste or would result in the total of the allocations made pursuant to this subsection exceeding 11,900,000 cubic feet over the entire seven-year interim access period.

(6) Limitation

During the seven-year interim access period referred to in subsection (a) of this section,
the disposal facilities referred to in subsection (b) of this section shall not be required to accept more than 11,900,000 cubic feet of low-level radioactive waste generated by commercial nuclear power reactors.

(d) Use of surcharge funds for milestone incentives; consequences of failure to meet disposal deadline

(1) Surcharges

The disposal of any low-level radioactive waste under this section (other than low-level radioactive waste generated in a sited compact region) may be charged a surcharge by the State in which the applicable regional disposal facility is located, in addition to the fees and surcharges generally applicable for disposal of low-level radioactive waste in the regional disposal facility involved. Except as provided in subsection (e)(2) of this section, such surcharges shall not exceed—

(A) $10 per cubic foot of low-level radioactive waste;

(B) $15 per cubic foot of low-level radioactive waste; and

(C) $40 per cubic foot of low-level radioactive waste.

(2) Milestone incentives

(A) Escrow account

Twenty-five per centum of all surcharge fees received by a State pursuant to paragraph (1) during the seven-year period referred to in subsection (a) of this section shall be transferred on a monthly basis to an escrow account held by the Secretary. The Secretary shall deposit all funds received in a special escrow account. The funds so deposited shall not be the property of the United States. The Secretary shall act as trustee for such funds and shall invest them in interest-bearing United States Government Securities with the highest available yield. Such funds shall be held by the Secretary until—

(i) paid or repaid in accordance with subparagraph (B) or (C); or

(ii) paid to the State collecting such fees in accordance with subparagraph (F).

(B) Payments

(i) JULY 1, 1986.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning on January 1, 1986, and ending June 30, 1986, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if the milestone described in subsection (e)(1)(A) of this section is met by the State in which such waste originated.

(ii) JANUARY 1, 1988.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning July 1, 1986 and ending December 31, 1987, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if the milestone described in subsection (e)(1)(B) of this section is met by the State in which such waste originated (or its compact region, where applicable).

(iii) JANUARY 1, 1990.—The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1988 and ending December 31, 1989, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if the milestone described in subsection (e)(1)(C) of this section is met by the State in which such waste originated (or its compact region, where applicable).

(iv) The twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1990 and ending December 31, 1992, and transferred to the Secretary under subparagraph (A), shall be paid by the Secretary in accordance with subparagraph (D) if, by January 1, 1993, the State in which such waste originated (or its compact region, where applicable) is able to provide for the disposal of all low-level radioactive waste generated within such State or compact region.

(C) Failure to meet January 1, 1993 deadline

If, by January 1, 1993, a State (or, where applicable, a compact region) in which low-level radioactive waste is generated is unable to provide for the disposal of all such waste generated within such State or compact region—

(i) each State in which such waste is generated, upon the request of the generator or owner of the waste, shall take title to the waste, shall be obligated to take possession of the waste, and shall be liable for all damages directly or indirectly incurred by such generator or owner as a consequence of the failure of the State to take possession of the waste as soon after January 1, 1993 as the generator or owner notifies the State that the waste is available for shipment; or

(ii) if such State elects not to take title, to take possession of, and assume liability for such waste, pursuant to clause (i), twenty-five per centum of any amount collected by a State under paragraph (1) for low-level radioactive waste disposed of under this section during the period beginning January 1, 1990 and ending December 31, 1992 shall be repaid, with interest, to each generator from whom such surcharge was collected. Repayments made pursuant to this clause shall be made on a monthly basis, with the first such repayment beginning on February 1, 1993, in an amount equal to one thirty-sixth of the total amount required to be repaid pursuant to

1 So in original. Probably should be "subparagraph".
this clause, and shall continue until the State (or, where applicable, compact region) in which such low-level radioactive waste is generated is able to provide for the disposal of all such waste generated within such State or compact region or until January 1, 1996, whichever is earlier. If a State in which low-level radioactive waste is generated elects to take title to, take possession of, and assume liability for such waste pursuant to clause (i), such State shall be paid such amounts as are designated in subparagraph (B)(iv). If a State (or, where applicable, a compact region) in which low-level radioactive waste is generated provides for the disposal of such waste at any time after January 1, 1993 and prior to January 1, 1996, such State (or, where applicable, compact region) shall be paid in accordance with subparagraph (D) a lump sum amount equal to twenty-five per centum of any amount collected by a State under paragraph (1):

Provided, however, That such payment shall be adjusted to reflect the remaining number of months between January 1, 1993 and January 1, 1996 for which such State (or, where applicable, compact region) provides for the disposal of such waste. If a State (or, where applicable, a compact region) in which low-level radioactive waste is generated is unable to provide for the disposal of all such waste generated within such State or compact region by January 1, 1996, each State in which such waste is generated, upon the request of the generator or owner of the waste, shall take title to the waste, be obligated to take possession of the waste, and shall be liable for all damages directly or indirectly incurred by such generator or owner as a consequence of the failure of the State to take possession of the waste as soon after January 1, 1996, as the generator or owner notifies the State that the waste is available for shipment.

(D) Recipients of payments

The payments described in subparagraphs (B) and (C) shall be paid within thirty days after the applicable date—

(i) if the State in which such waste originated is not a member of a compact region, to such State;

(ii) if the State in which such waste originated is a member of the compact region, to the compact commission serving such State.

(E) Uses of payments

(i) Limitations

Any amount paid under subparagraphs (B) or (C) may only be used to—

(I) establish low-level radioactive waste disposal facilities;

(II) mitigate the impact of low-level radioactive waste disposal facilities on the host State;

(III) regulate low-level radioactive waste disposal facilities; or

(IV) ensure the decommissioning, closure, and care during the period of institutional control of low-level radioactive waste disposal facilities.

(ii) Reports

(I) Recipient

Any State or compact commission receiving a payment under subparagraphs (B) or (C) shall, on December 31 of each year in which any such funds are expended, submit a report to the Department of Energy itemizing any such expenditures.

(II) Department of Energy

Not later than six months after receiving the reports under subclause (i), the Secretary shall submit to the Congress a summary of all such reports that shall include an assessment of the compliance of each such State or compact commission with the requirements of clause (i).

(F) Payment to States

Any amount collected by a State under paragraph (1) that is placed in escrow under subparagraph (A) and not paid to a State or compact commission under subparagraphs (B) and (C) or not repaid to a generator under subparagraph (C) shall be paid from such escrow account to such State collecting such payment under paragraph (1). Such payment shall be made not later than 30 days after a determination of ineligibility for a refund is made.

(G) Penalty surcharges

No rebate shall be made under this subsection of any surcharge or penalty surcharge paid during a period of noncompliance with subsection (e)(1) of this section.

(e) Requirements for access to regional disposal facilities

(1) Requirements for non-sited compact regions and non-member States

Each non-sited compact region, or State that is not a member of a compact region that does not have an operating disposal facility, shall comply with the following requirements:

(A) By July 1, 1986, each such non-member State shall ratify compact legislation or, by the enactment of legislation or the certification of the Governor, indicate its intent to develop a site for the location of a low-level radioactive waste disposal facility within such State.

(B) By January 1, 1988

(i) each non-sited compact region shall identify the State in which its low-level radioactive waste disposal facility is to be located, or shall have selected the developer for such facility and the site to be developed, and each compact region or the State in which its low-level radioactive waste disposal facility is to be located shall develop a siting plan for such facility providing detailed procedures and a schedule for establishing a facility location and preparing a facility license application and shall delegate authority to implement such plan;

(ii) each non-member State shall develop a siting plan providing detailed procedures and a schedule for establishing a facility
location and preparing a facility license application for a low-level radioactive waste disposal facility and shall delegate authority to implement such plan; and

(iii) The siting plan required pursuant to this paragraph shall include a description of the optimum way to attain operation of the low-level radioactive waste disposal facility involved, within the time period specified in sections 2021b to 2021j of this title. Such plan shall include a description of the objectives and a sequence of deadlines for all entities required to take action to implement such plan, including, to the extent practicable, an identification of the activities in which a delay in the start, or completion, of such activities will cause a delay in beginning facility operation. Such plan shall also identify, to the extent practicable, the process for (1) screening for broad siting areas; (2) identifying and evaluating specific candidate sites; and (3) characterizing the preferred site(s), completing all necessary environmental assessments, and preparing a license application for submission to the Nuclear Regulatory Commission or an Agreement State. (C) By January 1, 1990

(i) a complete application (as determined by the Nuclear Regulatory Commission or the appropriate agency of an agreement State) shall be filed for a license to operate a low-level radioactive waste disposal facility within each non-sited compact region or within each non-member State; or

(ii) the Governor (or, for any State without a Governor, the chief executive officer) of any State that is not a member of a compact region in compliance with clause (i), or has not complied with such clause by its own actions, shall provide a written certification to the Nuclear Regulatory Commission, that such State will be capable of providing for, and will provide for, the storage, disposal, or management of any low-level radioactive waste generated within such State and requiring disposal after December 31, 1992, and include a description of the actions that will be taken to ensure that such capacity exists.

(D) By January 1, 1992, a complete application (as determined by the Nuclear Regulatory Commission or the appropriate agency of an agreement State) shall be filed for a license to operate a low-level radioactive waste disposal facility within each non-sited compact region or within each non-member State. (E) The Nuclear Regulatory Commission shall transmit any certification received under subparagraph (C) to the Congress and publish any such certification in the Federal Register. (F) Any State may, subject to all applicable provisions, if any, of any applicable compact, enter into an agreement with the compact commission of a region in which a regional disposal facility is located to provide for the disposal of all low-level radioactive waste generated within such State, and, by virtue of such agreement, may, with the approval of the State in which the regional disposal facility is located, be deemed to be in compliance with subparagraphs (A), (B), (C), and (D).

(2) Penalties for failure to comply
(A) By July 1, 1986

If any State fails to comply with subparagraph (1)(A)—

(i) any generator of low-level radioactive waste within such region or non-member State shall—

(I) for the period beginning January 1, 1988, and ending June 30, 1988, be charged 2 times the surcharge otherwise applicable under subsection (d) of this section; and

(II) for the period beginning July 1, 1988, and ending December 31, 1988, be charged 4 times the surcharge otherwise applicable under subsection (d) of this section; and

(ii) on or after January 1, 1987, any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

(B) By January 1, 1988

If any non-sited compact region or non-member State fails to comply with paragraph (1)(B)—

(i) any generator of low-level radioactive waste within such region or non-member State shall—

(I) for the period beginning January 1, 1988, and ending December 31, 1988, be charged 2 times the surcharge otherwise applicable under subsection (d) of this section; and

(II) for the period beginning January 1, 1989, and ending December 31, 1989, be charged 4 times the surcharge otherwise applicable under subsection (d) of this section; and

(ii) on or after January 1, 1988, any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

(C) By January 1, 1990

If any non-sited compact region or non-member State fails to comply with paragraph (1)(C), any low-level radioactive waste generated within such region or non-member State may be denied access to the regional disposal facilities referred to in paragraphs (1) through (3) of subsection (b) of this section.

§ 2021f

§ 2021f

(3) Denial of access

No denial or suspension of access to a regional disposal facility under paragraph (2) may be based on the source, class, or type of low-level radioactive waste.

(4) Restoration of suspended access; penalties for failure to comply

Any access to a regional disposal facility that is suspended under paragraph (2) shall be restored after the non-sited compact region or non-member State involved complies with such requirements. Any payment of surcharge penalties pursuant to paragraph (2) for failure to comply with the requirements of this subsection shall be terminated after the non-sited compact region or non-member State involved complies with such requirements.

(f) Monitoring of compliance and denial of access to non-Federal facilities for noncompliance; information requirements of certain States; proprietary information

(1) Administration

Each State and compact commission in which a regional disposal facility referred to in paragraphs (1) through (3) of subsection (b) of this section is located shall have authority—

(A) to monitor compliance with the limitations, allocations, and requirements established in this section; and

(B) to deny access to any non-Federal low-level radioactive waste disposal facilities within its borders to any low-level radioactive waste that—

(i) is in excess of the limitations or allocations established in this section; or

(ii) is not required to be accepted due to the failure of a compact region or State to comply with the requirements of subsection (e)(1) of this section.

(2) Availability of information during interim access period

(A) The States of South Carolina, Washington, and Nevada may require information from disposal facility operators, generators, intermediate handlers, and the Department of Energy that is reasonably necessary to monitor the availability of disposal capacity, the use and assignment of allocations and the applicability of surcharges.

(B) The States of South Carolina, Washington, and Nevada may, after written notice followed by a period of at least 30 days, deny access to disposal capacity to any generator or intermediate handler who fails to provide information under subparagraph (A).

(C) PROPRIETARY INFORMATION—

(1) Trade secrets, proprietary and other confidential information shall be made available to a State under this subsection upon request only if such State—

(I) consents in writing to restrict the dissemination of the information to those who are directly involved in monitoring under subparagraph (A) and who have a need to know;

(II) accepts liability for wrongful disclosure; and

(III) demonstrates that such information is essential to such monitoring.

(ii) The United States shall not be liable for the wrongful disclosure by any individual or State of any information provided to such individual or State under this subsection.

(iii) Whenever any individual or State has obtained possession of information under this subsection, the individual shall be subject to the same provisions of law with respect to the disclosure of such information as would apply to an officer or employee of the United States or of any department or agency thereof and the State shall be subject to the same provisions of law with respect to the disclosure of such information as would apply to the United States or any department or agency thereof. No State or State officer or employee who receives trade secrets, proprietary information, or other confidential information under sections 2021b to 2021j of this title may be required to disclose such information under State law.

(g) Nondiscrimination

Except as provided in subsections (b) through (e) of this section, low-level radioactive waste disposed of under this section shall be subject without discrimination to all applicable legal requirements of the compact region and State in which the disposal facility is located as if such low-level radioactive waste were generated within such compact region.

CODIFICATION

Section was enacted as part of the Low-Level Radioactive Waste Policy Act, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

§ 2021f. Emergency access

(a) In general

The Nuclear Regulatory Commission may grant emergency access to any regional disposal facility or non-Federal disposal facility within a State that is not a member of a compact for specific low-level radioactive waste, if necessary to eliminate an immediate and serious threat to the public health and safety or the common defense and security. The procedure for granting emergency access shall be as provided in this section.

(b) Request for emergency access

Any generator of low-level radioactive waste, or any Governor (or, for any State without a Governor, the chief executive officer of the State) on behalf of any generator or generators located in his or her State, may request that the Nuclear Regulatory Commission grant emergency access to a regional disposal facility or a non-Federal disposal facility within a State that is not a member of a compact for specific low-level radioactive waste. Any such request shall contain any information and certifications the Nuclear Regulatory Commission may require.

(c) Determination of Nuclear Regulatory Commission

(1) Required determination

Not later than 45 days after receiving a request under subsection (b) of this section, the
Nuclear Regulatory Commission shall determine whether—

(A) emergency access is necessary because of an immediate and serious threat to the public health and safety or the common defense and security; and

(B) the threat cannot be mitigated by any alternative consistent with the public health and safety, including storage of low-level radioactive waste at the site of generation or in a storage facility obtaining access to a disposal facility by voluntary agreement, purchasing disposal capacity available for assignment pursuant to section 2021e(c) of this title or ceasing activities that generate low-level radioactive waste.

(2) Required notification

If the Nuclear Regulatory Commission makes the determinations required in paragraph (1) in the affirmative, it shall designate an appropriate non-Federal disposal facility or facilities, and notify the Governor (or chief executive officer) of the State in which such facility is located and the appropriate compact commission that emergency access is required. Such notification shall specifically describe the low-level radioactive waste as to source, physical and radiological characteristics, and the minimum volume and duration, not exceeding 180 days, necessary to alleviate the immediate threat to public health and safety or the common defense and security. The Nuclear Regulatory Commission shall also notify the Governor (or chief executive officer) of the State in which the low-level radioactive waste requiring emergency access was generated that emergency access has been granted and that, pursuant to subsection (e) of this section, no extension of emergency access may be granted absent diligent State action during the period of the initial grant.

(d) Temporary emergency access

Upon determining that emergency access is necessary because of an immediate and serious threat to the public health and safety or the common defense and security, the Nuclear Regulatory Commission may at its discretion grant temporary emergency access, pending its determination whether the threat could be mitigated by any alternative consistent with the public health and safety. In granting access under this subsection, the Nuclear Regulatory Commission shall provide the same notification and information required under subsection (c) of this section. Absent a determination that no alternative consistent with the public health and safety would mitigate the threat, access granted under this subsection shall expire 45 days after the granting of temporary emergency access under this subsection.

(e) Extension of emergency access

The Nuclear Regulatory Commission may grant one extension of emergency access beyond the period provided in subsection (c) of this section. If it determines that emergency access continues to be necessary because of an immediate and serious threat to the public health and safety or the common defense and security that cannot be mitigated by any alternative consistent with the public health and safety, and that the generator of low-level radioactive waste granted emergency access and the State in which such low-level radioactive waste was generated have diligently though unsuccessfully acted during the period of the initial grant to eliminate the need for emergency access. Any extension granted under this subsection shall be for the minimum volume and duration the Nuclear Regulatory Commission finds necessary to eliminate the immediate threat to public health and safety or the common defense and security, and shall not in any event exceed 180 days.

(f) Reciprocal access

Any compact region or State not a member of a compact that provides emergency access to non-Federal disposal facilities within its borders shall be entitled to reciprocal access to any subsequently operating non-Federal disposal facility that serves the State or compact region in which low-level radioactive waste granted emergency access was generated. The compact commission or State having authority to approve importation of low-level radioactive waste to the disposal facility to which emergency access was granted shall designate for reciprocal access an equal volume of low-level radioactive waste having similar characteristics to that provided emergency access.

(g) Approval by compact commission

Any grant of access under this section shall be submitted to the compact commission for the region in which the designated disposal facility is located for such approval as may be required under the terms of its compact. Any such compact commission shall act to approve emergency access not later than 15 days after receiving notification from the Nuclear Regulatory Commission, or reciprocal access not later than 15 days after receiving notification from the appropriate authority under subsection (f) of this section.

(h) Limitations

No State shall be required to provide emergency or reciprocal access to any regional disposal facility within its borders for low-level radioactive waste not meeting criteria established by the license or license agreement of such facility, or in excess of the approved capacity of such facility, or to delay the closing of any such facility pursuant to plans established before receiving a request for emergency or reciprocal access. No State shall, during any 12-month period, be required to provide emergency or reciprocal access to any regional disposal facility within its borders for more than 20 percent of the total volume of low-level radioactive waste accepted for disposal at such facility during the previous calendar year.

(i) Volume reduction and surcharges

Any low-level radioactive waste delivered for disposal under this section shall be reduced in volume to the maximum extent practicable and shall be subject to surcharges established in sections 2021b to 2021j of this title.

(j) Deduction from allocation

Any volume of low-level radioactive waste granted emergency or reciprocal access under this section, if generated by any commercial nu-
§ 2021g. Responsibilities of Department of Energy

(a) Financial and technical assistance

The Secretary shall, to the extent provided in appropriations Act, provide to those compact regions, host States, and nonmember States determined by the Secretary to require assistance for purposes of carrying out sections 2021b to 2021j of this title—

(1) continuing technical assistance to assist them in fulfilling their responsibilities under sections 2021b to 2021j of this title. Such technical assistance shall include, but not be limited to, technical guidelines for site selection, alternative technologies for low-level radioactive waste disposal, volume reduction options, management techniques to reduce low-level waste generation, transportation practices for shipment of low-level wastes, health and safety considerations in the storage, shipment and disposal of low-level radioactive wastes, and establishment of a computerized data-base to monitor the management of low-level radioactive wastes; and

(2) through the end of fiscal year 1993, financial assistance to assist them in fulfilling their responsibilities under sections 2021b to 2021j of this title.

(b) Omitted

§ 2021h. Alternative disposal methods

(a) Not later than 12 months after January 15, 1986, the Nuclear Regulatory Commission shall, in consultation with the States and other interested persons, develop methods for the disposal of low-level radioactive waste other than shallow land burial, and establish and publish technical guidance regarding licensing of facilities that use such methods.

(b) Not later than 24 months after January 15, 1986, the Commission shall, in consultation with the States and other interested persons, identify and publish all relevant technical information regarding the methods identified pursuant to subsection (a) of this section that a State or compact must provide to the Commission in order to pursue such methods, together with the technical requirements that such facilities must meet, in the judgment of the Commission, if pursued as an alternative to shallow land burial. Such technical information and requirements shall include, but need not be limited to, site suitability, site design, facility operation, disposal site closure, and environmental monitoring, as necessary to meet the performance objectives established by the Commission for a licensed low-level radioactive waste disposal facility. The Commission shall specify and publish such requirements in a manner and form deemed appropriate by the Commission.

§ 2021i. Licensing review and approval

In order to ensure the timely development of new low-level radioactive waste disposal facilities, the Nuclear Regulatory Commission or, as appropriate, agreement States, shall consider an application for a disposal facility license in accordance with the laws applicable to such application, except that the Commission and the agreement state shall—

(1) not later than 12 months after January 15, 1986, establish procedures and develop the technical capability for processing applications for such licenses;

(2) to the extent practicable, complete all activities associated with the review and processing of any application for such a license (except for public hearings) no later than 15 months after the date of receipt of such application; and

(3) to the extent practicable, consolidate all required technical and environmental reviews and public hearings.

§ 2021j. Radioactive waste below regulatory concern

(a) Not later than 6 months after January 15, 1986, the Commission shall establish standards and procedures, pursuant to existing authority, and develop the technical capability for considering and acting upon petitions to exempt specific radioactive waste streams from regulation by the Commission due to the presence of radio-

nuclides in such waste streams in sufficiently low concentrations or quantities as to be below regulatory concern.

(b) The standards and procedures established by the Commission pursuant to subsection (a) of this section shall set forth all information required to be submitted to the Commission by licensees in support of such petitions, including, but not limited to—

(1) a detailed description of the waste materials, including their origin, chemical composition, physical state, volume, and mass; and

(2) the concentration or contamination levels, half-lives, and identities of the radionuclides present.

Such standards and procedures shall provide that, upon receipt of a petition to exempt a specific radioactive waste stream from regulation by the Commission, the Commission shall determine in an expeditious manner whether the concentration or quantity of radionuclides present in such waste stream requires regulation by the Commission in order to protect the public health and safety. Where the Commission determines that regulation of a radioactive waste stream is not necessary to protect the public health and safety, the Commission shall take such steps as may be necessary, in an expeditious manner, to exempt the disposal of such radioactive waste from regulation by the Commission.

CODIFICATION

Section was enacted as part of the Low-Level Radioactive Waste Policy Act, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

§ 2022. Health and environmental standards for uranium mill tailings

(a) Promulgation and revision of rules for protection from hazards at inactive or depository sites

As soon as practicable, but not later than October 1, 1982, the Administrator of the Environmental Protection Agency (hereinafter referred to in this section as the “Administrator”) shall, by rule, promulgate standards of general application (including standards applicable to licenses under section 104(h) of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7914(h)]) for the protection of the public health, safety, and the environment from radiological and nonradiological hazards associated with residual radioactive materials (as defined in section 101 of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7911]) located at inactive uranium mill tailings sites and depository sites for such materials selected by the Secretary of Energy, pursuant to title I of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7911 et seq.]. Standards promulgated pursuant to this subsection shall, to the maximum extent practicable, be consistent with the requirements of the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.]. In establishing such standards, the Administrator shall consider the risk to the public health, safety, and the environment, the environmental and economic costs of applying such standards, and such other factors as the Administrator determines to be appropriate. The Administrator may periodically revise any standard promulgated pursuant to this subsection. After October 1, 1982, if the Administrator has not promulgated standards in final form under this subsection, any action of the Secretary of Energy under title I of the Uranium Mill Tailings Radiation Control Act of 1978 which is required to comply with, or be taken in accordance with, standards of the Administrator shall comply with, or be taken in accordance with, the standards proposed by the Administrator under this subsection until such time as the Administrator promulgates such standards in final form.

(b) Promulgation and revision of rules for protection from hazards at processing or disposal sites

(1) As soon as practicable, but not later than October 1, 1982, the Administrator shall, by rule, propose, and within 11 months thereafter promulgate in final form, standards of general application for the protection of the public health, safety, and the environment from radiological and nonradiological hazards associated with the processing and with the possession of, transfer, and disposal of byproduct material, as defined in section 2014(e)(2) of this title, at sites at which ores are processed primarily for their source material content or which are used for the disposal of such byproduct material. If the Administrator fails to promulgate standards in final form under this subsection by October 1, 1983, the authority of the Administrator to promulgate such standards shall terminate, and the Commission may take actions under this chapter without regard to any provision of this chapter requiring such actions to comply with, or be taken in accordance with, standards promulgated by the Administrator. In any such case, the Commission shall promulgate, and from time to time revise, any such standards of general application which the Commission deems necessary to carry out its responsibilities in the conduct of its licensing activities under this chapter. Requirements established by the Commission under this chapter with respect to byproduct material defined in section 2014(e)(2) of this title shall conform to such standards. Any requirements adopted by the Commission respecting such byproduct material before promulgation by the Commission of such standards shall be amended as the Commission deems necessary to conform to such standards in the same manner as provided in subsection (f)(3) of this section. Nothing in this subsection shall be construed to prohibit or suspend the implementation or enforcement by the Commission of any requirement of the Commission respecting byproduct material defined in section 2014(e)(2) of this title pending promulgation by the Commission of any such standard of general application. In establishing such standards, the Administrator shall consider the risk to the public health, safety, and the environment, the environmental and economic costs of applying such standards, and such other factors as the Administrator determines to be appropriate.
§ 2022

(2) Such generally applicable standards promulgated pursuant to this subsection for non-radiological hazards shall provide for the protection of human health and the environment consistent with the standards required under section 2014(e)(2) of this title or any revision thereof, which are applicable to such hazards: Provided, however, That no permit issued by the Administrator is required under this chapter or the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.], for the processing, possession, transfer, or disposal of byproduct material, as defined in section 2014(e)(2) of this title. The Administrator may periodically revise any standard promulgated pursuant to this subsection. Within three years after such revision of any such standard, the Commission and any State permitted to exercise authority under section 2021(b)(2) of this title shall implement such revised standard in the case of any license for byproduct material as defined in section 2014(e)(2) of this title or any revision thereof.

(c) Publication in Federal Register; notice and hearing; consultations; judicial review; time for petition; venue; copy to Administrator; record; administrative jurisdiction; review by Supreme Court; effective date of rule

(1) Prior to January 1, 1983, the Commission shall not implement or enforce the provisions of the uranium mill licensing requirements published as final rules at 45 Federal Register 65521 to 65538 on October 3, 1980 (hereinafter in this subsection referred to as the “October 3 regulations”). After December 31, 1982, the Commission is authorized to implement and enforce the provisions of such October 3 regulations and any subsequent modifications or additions to such regulations which may be adopted by the Commission, except as otherwise provided in paragraphs (2) and (3) of this subsection.

(2) Following the proposal by the Administrator of standards under subsection (b) of this section, the Commission shall review the October 3 regulations, and, not later than 90 days after the date of such proposal, suspend implementation and enforcement of any provision of such regulations which the Commission determines, after notice and opportunity for public comment to require a major action or major commitment by licensees which would be unnecessary if—

(A) the standards proposed by the Administrator are promulgated in final form without modification, and

(B) the Commission’s requirements are modified to conform to such standards.

Such suspension shall terminate on the earlier of April 1, 1984 or the date on which the Commission amends the October 3 regulations to conform to final standards promulgated by the Administrator under subsection (b) of this section. During the period of such suspension, the Commission shall continue to regulate byproduct material (as defined in section 2014(e)(2) of this title) under this chapter on a licensee-by-licensee basis as the Commission deems necessary to protect public health, safety, and the environment.

(3) Not later than 6 months after the date on which the Administrator promulgates final standards pursuant to subsection (b) of this section, the Commission shall, after notice and opportunity for public comment, amend the October 3 regulations, and adopt such modifications, as the Commission deems necessary to conform to such final standards of the Administrator.

(d) Federal and State implementation and enforcement

Implementation and enforcement of the standards promulgated pursuant to subsection (b) of this section shall be the responsibility of the Commission in the conduct of its licensing activities under this chapter. States exercising authority pursuant to section 2021(b)(2) of this title shall implement and enforce such standards in accordance with subsection (o) of such section.

(e) Other authorities of Administrator unaffected

Nothing in this chapter applicable to byproduct material, as defined in section 2014(e)(2) of this title, shall affect the authority of the Administrator under the Clean Air Act of 1970, as amended [42 U.S.C. 7401 et seq.], or the Federal Water Pollution Control Act, as amended [33 U.S.C. 1251 et seq.].

(f) Implementation or enforcement of Uranium Mill Licensing Requirements

(1) Prior to January 1, 1983, the Commission shall not implement or enforce the provisions of the Uranium Mill Licensing Requirements published as final rules at 45 Federal Register 65521 to 65538 on October 3, 1980 (hereinafter in this subsection referred to as the “October 3 regulations”). After December 31, 1982, the Commission is authorized to implement and enforce the provisions of such October 3 regulations and any subsequent modifications or additions to such regulations which may be adopted by the Commission, except as otherwise provided in paragraphs (2) and (3) of this subsection.

(2) Following the proposal by the Administrator of standards under subsection (b) of this section, the Commission shall review the October 3 regulations, and, not later than 90 days after the date of such proposal, suspend implementation and enforcement of any provision of such regulations which the Commission determines, after notice and opportunity for public comment to require a major action or major commitment by licensees which would be unnecessary if—

(A) the standards proposed by the Administrator are promulgated in final form without modification, and

(B) the Commission’s requirements are modified to conform to such standards.

Such suspension shall terminate on the earlier of April 1, 1984 or the date on which the Commission amends the October 3 regulations to conform to final standards promulgated by the Administrator under subsection (b) of this section. During the period of such suspension, the Commission shall continue to regulate byproduct material (as defined in section 2014(e)(2) of this title) under this chapter on a licensee-by-licensee basis as the Commission deems necessary to protect public health, safety, and the environment.

(3) Not later than 6 months after the date on which the Administrator promulgates final standards pursuant to subsection (b) of this section, the Commission shall, after notice and opportunity for public comment, amend the October 3 regulations, and adopt such modifications, as the Commission deems necessary to conform to such final standards of the Administrator.
(4) Nothing in this subsection may be construed as affecting the authority or responsibility of the Commission under section 2114 of this title to promulgate regulations to protect the public health and safety and the environment.

§ 2023. State authority to regulate radiation below level of regulatory concern of Nuclear Regulatory Commission

(a) In general

No provision of this chapter, or of the Low-Level Radioactive Waste Policy Act [42 U.S.C. 2021b et seq.], may be construed to prohibit or otherwise restrict the authority of any State to regulate, on the basis of radiological hazard, the disposal or on-site incineration of low-level radioactive waste, if the Nuclear Regulatory Commission, after October 24, 1992, exempts such waste from regulation.

(b) Relation to other State authority

This section may not be construed to imply preemption of existing State authority. Except as expressly provided in subsection (a) of this section, this section may not be construed to confer on any State any additional authority to regulate activities licensed by the Nuclear Regulatory Commission.

Provisions similar to those comprising this section were contained in section 7(d) of act Aug. 1, 1946, ch. 724, 60 Stat. 764, which was classified to section 1807(d) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

SUBCHAPTER V—SPECIAL NUCLEAR MATERIAL

§2071. Determination of other material as special nuclear material; Presidential assent; effective date

The Commission may determine from time to time that other material is special nuclear material in addition to that specified in the definition of special nuclear material. Before making any such determination, the Commission must find that such material is capable of releasing substantial quantities of atomic energy and must find that the determination that such material is special nuclear material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment for more than three days) before the determination of the Commission may become effective: Provided, however, That the Energy Committees, after having received such determination, may by resolution in writing, waive the conditions of or all or any portion of such thirty-day period.

Prior Provisions

Provisions similar to this section were contained in section 1805(a)(3) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

Provisions similar to those comprising this section were contained in section 1807(d) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.
or operates a utilization facility under a license issued pursuant to section 2133 or 2134(b) of this title for use in the course of activities under such license; nor shall the Commission permit any such person after June 30, 1973, to continue leasing for use in the course of such activities special nuclear material previously leased to such person by the Commission.

(2) The Commission shall establish reasonable sales prices for the special nuclear material licensed and distributed by sale under this section. Such sales prices shall be established on a non-discriminatory basis which, in the opinion of the Commission, will provide reasonable compensation to the Government for such special nuclear material.

(3) The Commission is authorized to enter into agreements with licensees for such period of time as the Commission may deem necessary or desirable to distribute to such licensees such quantities of special nuclear material as may be necessary for the conduct of the licensed activity. In such agreements, the Commission may agree to repurchase any special nuclear material licensed and distributed by sale which is not consumed in the course of the licensed activity, or any uranium remaining after irradiation of such special nuclear material, at a repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission.

(4) The Commission may make a reasonable charge, determined pursuant to this section, for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4) of this section and shall make a reasonable charge determined pursuant to this section for the use of special nuclear material licensed and distributed by lease under subsection (a)(3) of this section. The Commission shall establish criteria in writing for the determination of whether special nuclear material will be distributed by grant and for the determination of whether a charge will be made for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4) of this section, considering, among other things, whether the licensee is a nonprofit or eleemosynary institution and the purposes for which the special nuclear material will be used.

(e) License conditions

Each license issued pursuant to this section shall contain and be subject to the following conditions—

(2) no right to the special nuclear material shall be conferred by the license except as defined by the license;

(3) neither the license nor any right under the license shall be assigned or otherwise transferred in violation of the provisions of this chapter;

(4) all special nuclear material shall be subject to the right of recapture or control reserved by section 2133 of this title and to all other provisions of this chapter;

(5) no special nuclear material may be used in any utilization or production facility except in accordance with the provisions of this chapter;

(6) special nuclear material shall be distributed only on terms, as may be established by rule of the Commission, such that no user will be permitted to construct an atomic weapon;

(7) special nuclear material shall be distributed only pursuant to such safety standards as may be established by rule of the Commission to protect health and to minimize danger to life or property; and

(8) except to the extent that the indemnification and limitation of liability provisions of section 2210 of this title apply, the lessee will hold the United States and the Commission harmless from any damages resulting from the use or possession of special nuclear material by the licensee.

(f) Distribution for independent research and development activities

The Commission is directed to distribute within the United States sufficient special nuclear material to permit the conduct of widespread independent research and development activities to the maximum extent practicable. In the event that applications for special nuclear material exceed the amount available for distribution, preference shall be given to those activities which are most likely, in the opinion of the Commission, to contribute to basic research, to the development of peacetime uses of atomic energy, or to the economic and military strength of the Nation.

§ 2074. Foreign distribution of special nuclear material

(a) Compensation; distribution to International Atomic Energy Agency; procedure for distribution; repurchase of unconsumed materials; price; purchase of materials produced outside United States; price

The Commission is authorized to cooperate with any nation or group of nations by distributing special nuclear material and to distribute such special nuclear material, pursuant to the terms of an agreement for cooperation to which such nation or group of nations is a party and which is made in accordance with section 2153 of this title. Unless hereafter otherwise authorized by law the Commission shall be compensated for each special nuclear material so distributed at not less than the Commission's published charges applicable to the domestic distribution of such material, except that the Commission to assist and encourage research on peaceful uses or for medical therapy may so distribute without charge during any calendar year only a quantity of such material which at the time of transfer does not exceed in value $10,000 in the case of one nation or $50,000 in the case of any group of nations. The Commission may distribute to the International Atomic Energy Agency, or to any group of nations, only such amounts of special nuclear materials and for such period of time as are authorized by Congress: Provided, however, That, (i) notwithstanding this provision, the Commission is hereby authorized, subject to the provisions of section 2153 of this title, to distribute to the Agency five thousand kilograms contained uranium-235, five hundred grams of uranium-233, and three kilograms of plutonium, together with the amounts of special nuclear material which will match in amount the sum of all quantities of special nuclear materials made available by all other members of the Agency to June 1, 1960; and (ii) notwithstanding the foregoing provisions of this subsection, the Commission may distribute to the International Atomic Energy Agency, or to any group of nations, such other amounts of special nuclear materials and for such other periods of time as are established in writing by the Commission: Provided, however, That before they are established by the Commission pursuant to this subdivision (ii), such proposed amounts and periods shall be submitted to the Congress and referred to the Energy Committees and a period of sixty days shall elapse while Congress is in session (in computing such sixty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days): And provided further, That any such proposed amounts and periods shall not become effective if during such sixty-day period the Energy Committees shall submit to their respective houses reports of their views and recommendations respecting the proposed amounts and periods and an accompanying proposed concurrent resolution stating in substance that it does not favor the proposed action: And provided further, That prior to the lapse of the first thirty days of any such sixty-day period the Energy Committees shall submit to the Congress a certified copy of resolutions of the Energy Committees, together with the amounts of special nuclear materials contained in such resolutions and in the concurrent resolution if any, which shall not become effective if during such sixty-day period the Congress passes a concurrent resolution stating in substance that it does not favor the proposed action: And provided further, That prior to the lapse of the first thirty days of any such sixty-day period the Energy Committees shall submit to their respective houses reports of their views and recommendations respecting the proposed amounts and periods and an accompanying proposed concurrent resolution stating in substance that the Congress favors, or does not favor, as the case may be, the proposed amounts or periods. The Commission may agree to repurchase any special nuclear material distributed under a sale arrangement pursuant to this subsection which is not consumed in the course of the activities conducted in accordance with the agreement for cooperation, or any uranium remaining after irradiation of such special nuclear material, at repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission.
The Commission may also agree to purchase, consistent with and within the period of the agreement for cooperation, special nuclear material produced in a nuclear reactor located outside the United States through the use of special nuclear material which was leased or sold pursuant to this subsection. Under any such agreement the Commission shall purchase only such material as is delivered to the Commission during any period when there is in effect a guaranteed purchase price for the same material produced in a nuclear reactor by a person licensed under section 2134 of this title, established by the Commission pursuant to section 2076 of this title, and the price to be paid shall be the price so established by the Commission and in effect for the same material delivered to the Commission. 

(b) Distribution to persons outside United States of plutonium and other special nuclear material exempted under section 2077(d) of this title; compensation; reports 

Notwithstanding the provisions of sections 2153 and 2154 of this title and section 125 of the Atomic Energy Act of 1954, the Commission is authorized to distribute to any person outside the United States (1) plutonium containing 80 per centum or more by weight of plutonium-238, and (2) other special nuclear material when it has, in accordance with subsection 2077(d) of this title, exempted certain classes or quantities of such other special nuclear material or kinds of uses or users thereof from the requirements for a license set forth in this chapter. Unless hereafter otherwise authorized by law, the Commission shall not distribute any plutonium containing 80 per centum or more by weight of plutonium-238 to any person under this subsection if, in its opinion, such distribution would be inimical to the common defense and security. The Commission may require such reports regarding the use of material distributed pursuant to the provisions of this subsection as it deems necessary. 

(c) Licensing or granting permission to others to distribute special nuclear material; conditions 

The Commission is authorized to license or otherwise permit others to distribute special nuclear material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission. 

(d) Laboratory samples; medical devices; monitoring or other instruments; emergencies 

The authority to distribute special nuclear material under this section other than under an export license granted by the Nuclear Regulatory Commission shall extend only to the following small quantities of special nuclear material (in no event more than five hundred grams per year of the uranium isotope 233, the uranium isotope 235, or plutonium contained in special nuclear material to any recipient): 

(1) which are contained in laboratory samples, medical devices, or monitoring or other instruments; or 

(2) the distribution of which is needed to deal with an emergency situation in which time is of the essence. 

(e) Arrangements for storage or disposition of irradiated fuel elements 

The authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section 2160(a)(2)(E) of this title shall be subject to the requirements of section 2160 of this title.

§ 2075. Acquisition of special nuclear material; payments; just compensation

The Commission is authorized, to the extent it deems necessary to effectuate the provisions of this chapter, to purchase without regard to the limitations in section 2074 of this title or any guaranteed purchase prices established pursuant to section 2076 of this title, and to take, requisition, condemn, or otherwise acquire any special nuclear material or any interest therein. Any contract of purchase made under this section may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advance payments may be made under contracts for such purposes. Just compensation shall be made for any right, property, or interest in property taken, requisitioned, or condemned under this section: Provided, That the authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section 2160(a)(2)(E) of this title shall be subject to the requirements of section 2160 of this title.

CODIFICATION

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1905(a) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

AMENDMENTS

1964—Pub. L. 88–489 substituted provisions which directed the Commission to establish guaranteed purchase prices for plutonium produced by a person licensed under section 2134 of this title and delivered to the Commission prior to Jan. 1, 1971, and for uranium enriched in the isotope 233, for such periods of time as it deems necessary, but not exceeding ten years as to any such period, if produced by a person licensed by the Commission before January 1, 1971. The Commission shall establish guaranteed purchase prices for uranium enriched in the isotope 233 as fuel in nuclear reactors, and such prices shall be established on a nondiscriminatory basis: Provided, That the Commission is authorized to establish such guaranteed purchase prices only for such plutonium or uranium enriched in the isotope 233 as the Commission shall determine is produced through the use of special nuclear material which was leased or sold by the Commission pursuant to section 2073 of this title.

§ 2076. Guaranteed purchase prices

The Commission shall establish guaranteed purchase prices for plutonium produced in a nuclear reactor by a person licensed under section 2134 of this title and delivered to the Commission before January 1, 1971. The Commission shall also establish for such periods of time as it may deem necessary, but not to exceed ten years as to any such period, guaranteed purchase prices for uranium enriched in the isotope 233 produced in a nuclear reactor by a person licensed under section 2133 or section 2134 and delivered to the Commission within the period of the guarantee. Guaranteed purchase prices established under the authority of this section shall not exceed the Commission’s determination of the estimated value of plutonium or uranium enriched in the isotope 233 as fuel in nuclear reactors, and such prices shall be established on a nondiscriminatory basis: Provided, That the Commission is authorized to establish such guaranteed purchase prices only for such plutonium or uranium enriched in the isotope 233 as the Commission shall determine is produced through the use of special nuclear material which was leased or sold by the Commission pursuant to section 2073 of this title.

AMENDMENTS

1964—Pub. L. 88–489 substituted provisions which directed the Commission to establish guaranteed purchase prices for plutonium produced by a person licensed under section 2134 of this title and delivered to the Commission prior to Jan. 1, 1971, and for uranium enriched in the isotope 233, for such periods of time as it deems necessary, but not exceeding ten years as to any such period, if produced by a person licensed by the Commission before January 1, 1971. The Commission shall establish guaranteed purchase prices for uranium enriched in the isotope 233 as fuel in nuclear reactors, and such prices shall be established on a nondiscriminatory basis, and authorized such guaranteed prices only for such enriched plutonium or uranium as is produced through use of material leased or sold pursuant to section 2073 of this title, for provisions requiring the Commission to determine the fair price of special nuclear material by considering the value of the material for its intended use by the United States, and by giving such weight to the cost of production as it found to be equitable, providing that such price was to apply to all licensed producers of the same material, and permitting the Commission to establish guaranteed fair prices for all such material delivered to the Commission for such time as it deemed necessary, but not exceeding seven years.

§ 2077. Unauthorized dealings in special nuclear material

(a) Handling by persons

Unless authorized by a general or specific license issued by the Commission, which the Commission is authorized to issue pursuant to sec-
§ 2077  TITLE 42—THE PUBLIC HEALTH AND WELFARE

It shall be unlawful for any person to directly or indirectly engage or participate in the development or production of any special nuclear material outside of the United States except (1) as specifically authorized under an agreement for cooperation made pursuant to section 2153 of this title, including a specific authorization in a subsequent arrangement under section 2160 of this title, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States: Provided. That any such determination by the Secretary of Energy shall be made only with the concurrence of the Department of State and after consultation with the Nuclear Regulatory Commission, the Department of Commerce, and the Department of Defense. The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce, and the Nuclear Regulatory Commission for the consideration of requests for authorization under this subsection. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an interagency coordinating authority to monitor the processing of such requests, predetermined procedures for the expedient handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administration mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency’s needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decision required under this subsection. The processing of any request proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this subsection. Any trade secrets or proprietary information submitted by any person seeking an authorization under this subsection shall be afforded the maximum degree of protection allowable by law: Provided further, That the export of component parts as defined in section 2014(v)(2) or (cc)(2) of this title shall be governed by sections 2139 and 2155 of this title: Provided further. That notwithstanding section 7172(d) of this title, the Secretary of Energy and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section, section 2074(d), section 2094, or section 2141(b) of this title.

(c) Distribution by Commission

The Commission shall not—

(1) distribute any special nuclear material to any person for a use which is not under the jurisdiction of the United States except pursuant to the provisions of section 2074 of this title; or

(2) distribute any special nuclear material or issue a license pursuant to section 2073 of this title to any person within the United States if the Commission finds that the distribution of such special nuclear material or the issuance of such license would be inimical to the common defense and security or would constitute an unreasonable risk to the health and safety of the public.

(d) Establishment of classes of special nuclear material; exemption of materials, kinds of uses and users from requirement of license

The Commission is authorized to establish classes of special nuclear material and to exempt certain classes or quantities of special nuclear material or kinds of users or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of special nuclear material or such kinds of uses or users would not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public.

(e) Transfer, etc., of special nuclear material

Special nuclear material, as defined in section 2161 of this title, produced in facilities licensed under section 2133 or 2134 of this title may not be transferred, reprocessed, used, or otherwise made available by any instrumentality of the United States or any other person for nuclear explosive purposes.

Prior Provisions

Provisions similar to this section were contained in section 1805(a)(3) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

Amendments

2004—Subsec. (b). Pub. L. 108–458 substituted “or participate in the development or production of any special nuclear material” for “in the production of any special nuclear material”.

1978—Subsec. (b). Pub. L. 95–242 substituted “except (1) as specifically authorized under an agreement for cooperation made pursuant to section 2153 of this title, including a specific authorization in a subsequent arrangement under section 2160 of this title, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States” for “except (1) under an agreement for cooperation made pursuant to section 2153 of this title, or (2) upon authorization by the Commission after a determination that such activity will not be inimical to the interest of the United States” in existing provisions and inserted provisions relating to determinations by the Secretary of Energy, the procedures to be followed in processing authorization requests, the export of component parts, and the jurisdiction of the Secretary of Energy.

1964—Pub. L. 88–489 amended section generally, and among other changes, included all special nuclear materials within the section, struck out condition that such material be “the property of the United States”, included delivery, acquisition, ownership and receiving possession of or title to any special nuclear material within the acts prohibited to persons, prohibited the Commission from issuing a license pursuant to section 2073 of this title if the Commission finds that the issuance would be inimical to the common defense and security or would constitute an unreasonable risk to the health and safety of the public, and extended the power of the Commission to refuse to distribute any special nuclear material if it finds that the distribution would constitute an unreasonable risk to the health and safety of the public.

L. 95–242, set out as an Effective Date note under section 3201 of Title 22, Foreign Relations and Intercourse.

**Performance of Functions Pending Development of Procedures**

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12358, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

**§ 2078. Congressional review of guaranteed purchase price, guaranteed purchase price period, and criteria for waiver of charges**

Before the Commission establishes any guaranteed purchase price or guaranteed purchase price period in accordance with the provisions of section 2076 of this title, or establishes any criteria for the waiver of any charge for the use of special nuclear material licensed and distributed under section 2073 of this title, the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge shall be submitted to the Energy Committees and a period of forty-five days shall elapse while Congress is in session (in computing such forty-five days there shall be excluded the days in which either House is not in session because of adjournment for more than three days): Provided, however, That the Energy Committees, after having received the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge, may by resolution in writing waive the conditions of, or all or any portion of, such forty-five-day period.

**AMENDMENTS**

1994—Pub. L. 88–489 substituted “guaranteed purchase price” and “purchase” for “fair” wherever appearing, “licensed and distributed” for “licensed or distributed”, and provided that the Joint Committee resolution waiving the conditions of the forty-five-day period must be in writing.

**SUBCHAPTER VI—SOURCE MATERIAL**

**§ 2091. Determination of source material**

The Commission may determine from time to time that other material is source material in addition to those specified in the definition of source material. Before making such determination, the Commission must find that such material is essential to the production of special nuclear material and must find that the determination that such material is source material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days) before the determination of the Commission may become effective; Provided, however, That the Energy Committees, after having received such determination, may by resolution in writing waive the conditions of or all or any portion of such thirty-day period.

The Commission is authorized to issue such rules, regulations, or orders requiring reports of ownership, possession, extraction, refining, ship-
ment, or other handling of source material as it may deem necessary, except that such reports shall not be required with respect to (a) any source material prior to removal from its place of deposit in nature, or (b) quantities of source material which in the opinion of the Commission are unimportant or the reporting of which will discourage independent prospecting for new deposits.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1805(b)(4) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2096. Acquisition of source material; payments

The Commission is authorized and directed, to the extent it deems necessary to effectuate the provisions of this chapter—

(a) to purchase, take, requisition, condemn, or otherwise acquire supplies of source material;

(b) to purchase, condemn, or otherwise acquire any interest in real property containing deposits of source material; and

(c) to purchase, condemn, or otherwise acquire rights to enter upon any real property deemed by the Commission to have possibilities of containing deposits of source material in order to conduct prospecting and exploratory operations for such deposits.

Any purchase made under this section may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advanced payments may be made under contracts for such purposes. The Commission may establish guaranteed prices for all source material delivered to it within a specified time. Just compensation shall be made for his, or its, or their benefit.

CODIFICATION

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1805(b)(5) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2097. Operations on lands belonging to United States

The Commission is authorized, to the extent it deems necessary to effectuate the provisions of this chapter, to issue leases or permits for prospecting for, exploration for, mining of, or removal of deposits of source material in lands belonging to the United States: Provided, however, That notwithstanding any other provisions of law, such leases or permits may be issued for lands administered for national park, monument, and wildlife purposes only when the President by Executive Order declares that the requirements of the common defense and security make such action necessary.

§ 2098. Public and acquired lands

(a) Conditions on location, entry, and settlement

No individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic energy program, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association, by reason of having had such part in the development of the atomic energy program, acquired confidential official information as to the existence of deposits of such uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made, and subsequent to August 30, 1954, made such location, entry, or settlement or caused the same to be made for his, or its, or their benefit.

(b) Reservation of mineral rights; release

Any reservation of radioactive mineral substances, fissionable materials, or source material, together with the right to enter upon the land and prospect for, mine, and remove the same, inserted pursuant to Executive Order 9613 of September 13, 1945, Executive Order 9701 of March 4, 1946, the Atomic Energy Act of 1946 [42 U.S.C. 1801 et seq.], or Executive Order 9908 of December 5, 1947, in any patent, conveyance, lease, permit, or other authorization or instrument disposing of any interest in public or acquired lands of the United States, is released, remised, and quitclaimed to the person or persons entitled upon August 19, 1958 under the grant from the United States or successive grants to the ownership, occupancy, or use of the land under the applicable Federal or State laws: Provided, however, That in cases where any such reservation on acquired lands of the United States has been heretofore released, remised, or quitclaimed subsequent to August 12, 1954, in reliance upon authority deemed to have been contained in the Atomic Energy Act of 1946, as amended, or the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.], as heretofore amended, the same shall be valid and effective in all respects to the same extent as if public lands and not acquired lands had been involved. The foregoing release shall be subject to any rights which may have been granted by the United States pursuant to any such reservation, but the releases shall be subrogated to the rights of the United States.
(c) Prior locations  
Notwithstanding the provisions of the Atomic Energy Act of 1946, as amended (42 U.S.C. 1801 et seq.), and particularly section 5(b)(7) thereof (42 U.S.C. 1805(b)(7)), or the provisions of sections 501 to 505 of title 30, and particularly section 503 of such title, (b) and (c), is act Aug. 1, 1946, ch. 724, 60 Stat. 755, which was classified generally to chapter 14 of title 30, and is classified principally to this chapter (§ 2011 et seq.). For complete classification of the Atomic Energy Act, would have been locatable under such mining laws, shall, insofar as adversely affected by such possible contrary construction, be valid and effective, in all respects to the same extent as if said mineral deposit were a locatable mineral deposit other than a source material.

SUBCHAPTER VII—BYPRODUCT MATERIALS

§ 2111. Domestic distribution

(a) In general

No person may transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, own, possess, import, or export any by-product material, except to the extent authorized by this section, section 2112 or section 2114 of this title. The Commission is authorized to issue general or specific licenses to applicants seeking to use byproduct material for research or development purposes, for medical therapy, industrial uses, agricultural uses, or such other useful applications as may be developed. The Commission may distribute, sell, loan, or lease such byproduct material as it owns to qualified applicants with or without charge: Provided, however, That, for byproduct material to be distributed by the Commission for a charge, the Commission shall establish prices on such equitable basis as, in the opinion of the Commission, (a) will provide reasonable compensation to the Government for such material, (b) will not discourage the use of such material or the development of sources of supply of such material independent of the Commission, and (c) will encourage research and development. In distributing such material, the Commission shall give preference to applicants proposing to use such material either in the conduct of research and development or in medical therapy. The Commission shall not permit the distribution of any byproduct material to any licensee, and shall recall or order the recall of any distributed material from any licensee, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor or approved by the Commission. The Commission is authorized to establish classes of byproduct material and to exempt certain classes or quantities of material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of such material or such kinds of uses or users will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

PRIORITY PROVISIONS

Provisions similar to this section were contained in section 1805(d)(2) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

AMENDMENTS

1958—Subsec. (b). Pub. L. 85–681 provided a general release of reservations of fissionable materials or source materials under acquired lands of the United States as well as public lands.
(b) Requirements

(1) In general
Except as provided in paragraph (2), byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, may only be transferred to and disposed of in a disposal facility that—

(A) is adequate to protect public health and safety; and

(B)(i) is licensed by the Commission; or

(ii) is licensed by a State that has entered into an agreement with the Commission under section 2021(b) of this title, if the licensing requirements of the State are compatible with the licensing requirements of the Commission.

(2) Effect of subsection
Nothing in this subsection affects the authority of any entity to dispose of byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, at a disposal facility in accordance with any Federal or State solid or hazardous waste law, including the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

c) Treatment as low-level radioactive waste

Byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, disposed of under this section shall not be considered to be low-level radioactive waste for the purposes of—

(1) section 2 of the Low-Level Radioactive Waste Policy Act (42 U.S.C. 2021b); or

(2) carrying out a compact that is—

(A) entered into in accordance with that Act (42 U.S.C. 2021b et seq.); and

(B) approved by Congress.

§ 2112. Foreign distribution of byproduct material

(a) Cooperation with other Nations

The Commission is authorized to cooperate with any nation by distributing byproduct material, and to distribute byproduct material, pursuant to the terms of an agreement for cooperation to which such nation is party and which is made in accordance with section 2153 of this title.

(b) Distribution to individuals

The Commission is also authorized to distribute byproduct material to any person outside the United States upon application therefor by such person and demand such charge for such material as would be charged for the material if it were distributed within the United States: Provided, however, That the Commission shall not distribute any such material to any person under this section if, in its opinion, such distribution would be inimical to the common defense and security: And provided further, That the Commission may require such reports regarding the use of material distributed pursuant to the provisions of this section as it deems necessary.

c) Distributor's license

The Commission is authorized to license others to distribute byproduct material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

§ 2113. Ownership and custody of certain byproduct material and disposal sites

(a) Specific assurances in license for pretermination actions

Any license issued or renewed after the effective date of this section under section 2092 or section 2111 of this title for any activity which results in the production of any byproduct material, as defined in section 2014(e)(2) of this title, shall contain such terms and conditions as the Commission determines to be necessary to assure that, prior to termination of such license—

(1) the licensee will comply with decontamination, decommissioning, and reclamation standards prescribed by the Commission for sites (A) at which ores were processed primarily for their source material content and (B) at which such byproduct material is deposited, and

(2) ownership of any byproduct material, as defined in section 2014(e)(2) of this title, which
resulted from such licensed activity shall be transferred to (A) the United States or (B) in the State in which such activity occurred if such State exercises the option under subsection (b)(1) of this section to acquire land used for the disposal of byproduct material.

Any license which is in effect on the effective date of this section and which is subsequently terminated without renewal shall comply with paragraphs (1) and (2) upon termination.

(b) Transfer of title; health and environmental protection through maintenance of property and materials; use of surface or subsurface estates: first refusal rights of transferee; maintenance, monitoring, and emergency measures and other authorized action; license-transferor liability for fraud or negligence; administrative and legal costs limitation; government retransfers under section 7914(h) of this title

(1)(A) The Commission shall require by rule, regulation, or order that prior to the termination of any license which is issued after the effective date of this section, title to the land, including any interests therein (other than land owned by the United States or by a State) which is used for the disposal of any byproduct material, as defined by section 2014(e)(2) of this title, pursuant to such license shall be transferred to—

(i) the United States, or

(ii) the State in which such land is located, at the option of such State,

unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or environment. Such determination shall be made in accordance with section 2231 of this title. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 2111 of this title in such manner as will protect the public health, safety, and the environment.

(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, or environment, the Commission, pursuant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission's determination of compliance under subsection (c) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment.

(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection (d) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, safety, and the environment.

(4) In the case of any such license under section 2092 of this title, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interests therein (as described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

(5) The Commission may, pursuant to a license, or by rule or order, require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 2114 of this title. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after November 8, 1978.

(6) The transfer of title to land or byproduct materials, as defined in section 2014(e)(2) of this title, to a State or the United States pursuant to this subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Subject to the provisions of paragraph (1)(B) of this subsection, the United States or a State shall not transfer title to material or property acquired under this subsection to any person, unless such transfer is in the same manner as provided under section 7914(h) of this title.

(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the
United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 2014(e)(2) of this title, the licensees shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

(c) Compliance with applicable standards and license requirements; determination upon termination of license

Upon termination on any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.

§ 2121  TITLE 42—THE PUBLIC HEALTH AND WELFARE

(a) Research and development; weapons production; hazardous wastes; transfers of technologies

The Commission is authorized to—

(1) conduct experiments and do research and development work in the military application of atomic energy;

(2) engage in the production of atomic weapons, or atomic weapon parts, except that such activities shall be carried on only to the extent that the express consent and direction of the President of the United States has been obtained, which consent and direction shall be obtained at least once each year;

(3) provide for safe storage, processing, transportation, and disposal of hazardous waste (including radioactive waste) resulting from nuclear materials production, weapons production and surveillance programs, and naval nuclear propulsion programs;

(4) carry out research on and development of technologies needed for the effective negotiation and verification of international agreements on control of special nuclear materials and nuclear weapons; and

(5) under applicable law (other than this paragraph) and consistent with other missions of the Department of Energy, make transfers of federally owned or originated technology to State and local governments, private industry, and universities or other nonprofit organizations so that the prospects for commercialization of such technology are enhanced.

(b) Material for Department of Defense use

The President from time to time may direct the Commission to provide such quantities of special nuclear material or weapons material to the Department of Defense for such use as he deems necessary in the interest of national defense, or to authorize the Department of Defense to manufacture, produce, or acquire any atomic weapon or utilization facility for military purposes: Provided, however, That such authorization shall not extend to the production of special nuclear material other than that incidental to the operation of such utilization facilities.

Material for materials for military applications

The President may authorize the Commission or the Department of Defense, with the assistance of the other, to cooperate with another nation and, notwithstanding the provisions of section 2077, 2092, or 2111 of this title, to transfer by sale, lease, or loan to that nation, in accordance with terms and conditions of a program approved by the President—

(1) nonnuclear parts of atomic weapons provided that such nation has made substantial progress in the development of atomic weapons, and other nonnuclear parts of atomic weapons systems involving Restricted Data provided that such transfer will not contribute significantly to that nation’s atomic weapon design, development, or fabrication capability; for the purpose of improving that nation’s state of training and operational readiness;

(2) utilization facilities for military applications; and

(3) source, byproduct, or special nuclear material for research on, development of, production of, or use in utilization facilities for military applications; and

Codification

§ 2133. Commercial licenses

(a) Conditions

The Commission is authorized to issue licenses to persons applying therefor to transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, possess, use, import, or export under the terms of an agreement for cooperation arranged pursuant to section 2153 of this title, utilization or production facilities for industrial or commercial purposes. Such licenses shall be issued in accordance with the provisions of subchapter XV of this division and subject to such conditions as the Commission may by rule or regulation establish to effectuate the purposes and provisions of this chapter.

(b) Nonexclusive basis

The Commission shall issue such licenses on a nonexclusive basis to persons applying therefor (1) whose proposed activities will serve a useful purpose proportionate to the quantities of special nuclear material or source material to be utilized; (2) who are equipped to observe and who agree to observe such safety standards to protect health and to minimize danger to life or property as the Commission may by rule establish; and (3) who agree to make available to the Commission such technical information and data concerning activities under such licenses as the Commission may determine necessary to promote the common defense and security and to protect the health and safety of the public. All such information may be used by the Commission only for the purposes of the common defense and security and to protect the health and safety of the public.

(c) License period

Each such license shall be issued for a specified period, as determined by the Commission, depending on the type of activity to be licensed, but not exceeding forty years from the authorization to commence operations, and may be renewed upon the expiration of such period.

(d) Limitations

No license under this section may be given to any person for activities which are not under or within the jurisdiction of the United States, except for the export of production or utilization facilities under terms of an agreement for cooperation arranged pursuant to section 2153 of this title, or except under the provisions of section 4053 of this title, No license may be issued to an alien or any other entity if the Commission knows or has reason to believe it is owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government. In any event, no license may be issued to any person within the United States if, in the opinion of the Commission, the issuance of a license to such person would be inimical to the common defense and security or to the health and safety of the public.

(f) Accident notification condition; license revocation; license amendment to include condition

Each license issued for a utilization facility under this section or section 2134(b) of this title shall require as a condition thereof that in case of any accident which could result in an unplanned release of quantities of fission products in excess of allowable limits for normal operation established by the Commission, the licensee shall immediately notify the Commission. Violation of the condition prescribed by this subsection may, in the Commission's discretion, constitute grounds for license revocation. In accordance with section 2237 of this title, the Commission shall promptly amend each license for a utilization facility issued under this section or section 2134(b) of this title which is in effect on June 30, 1980, to include the provisions required under this subsection.

AMENDMENTS

2005—Subsec. (c). Pub. L. 109–58 inserted “from the authorization to commence operations” after “forty years”.

1970—Subsec. (a). Pub. L. 91–560 struck out requirement of a finding of practical value under section 2132 and substituted “utilization and production facilities for industrial or commercial purposes” for “such type of utilization or production facility”.

Subsec. (d). Act Aug. 6, 1956, §13, inserted “an alien or any” after “issued to”.

§ 2134. Medical, industrial, and commercial licenses

(a) Medical therapy

The Commission is authorized to issue licenses to persons applying therefor for utilization facilities for use in medical therapy. In issuing such licenses the Commission is directed to permit the widest amount of effective medical therapy possible with the amount of special nuclear material available for such purposes and to impose the minimum amount of regulation consistent with its obligations under this chapter to promote the common defense and security and to protect the health and safety of the public.

(b) Industrial and commercial purposes

As provided for in subsection (b) or (c) of section 2132 of this title, or where specifically authorized by law, the Commission is authorized to issue licenses under this subsection to persons applying therefor for utilization and production facilities for industrial and commercial purposes. In issuing licenses under this subsection, the Commission shall impose the minimum amount of regulation consistent with its obligations under this chapter to promote the common defense and security and to protect the public.

(c) Research and development activities

The Commission is authorized to issue licenses to persons applying therefor for utilization and production facilities useful in the conduct of research and development activities of the types
specified in section 2051 of this title and which are not facilities of the type specified in subsection (b) of this section. The Commission is directed to impose only such minimum amount of regulation of the licensee as the Commission finds will permit the Commission to fulfill its obligations under this chapter to promote the common defense and security and to protect the health and safety of the public and will permit the conduct of widespread and diverse research and development.

(d) Limitations

No license under this section may be given to any person for activities which are not under or within the jurisdiction of the United States, except for the export of production or utilization facilities under terms of an agreement for cooperation arranged pursuant to section 2153 of this title or except under the provisions of section 2139 of this title. No license may be issued to any corporation or other entity if the Commission knows or has reason to believe it is owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government. In any event, no license may be issued to any person within the United States if, in the opinion of the Commission, the issuance of a license to such person would be inimical to the common defense and security or to the health and safety of the public.

AMENDMENTS

1970—Subsec. (b). Pub. L. 91–560 substituted provisions authorizing the issue of licenses for utilization or production facilities for industrial or commercial purposes (i) where specifically authorized by law or (ii) where the facility was constructed or operated under an arrangement with the Commission entered into under the cooperative power reactor demonstration program, and the applicable statutory authorization does not require licensing under section 2133, or (iii) where the facility was theretofore licensed under section 2133 of this title:

Provided, however, That paragraph (1) shall not apply to an application for a license to operate a utilization or production facility for which a construction permit was issued under section 2133 of this title unless the Commission determines such review is advisable on the ground that significant changes in the licensee's activities or proposed activities have occurred subsequent to the previous review by the Attorney General and the Commission under this subsection in connection with the construction permit for the facility.

(2) Paragraph (1) of this subsection shall apply to an application for a license to construct or operate a utilization or production facility under section 2133 of this title: Provided, however, That paragraph (1) shall not apply to an application for a license to operate a utilization or production facility for which a construction permit was issued under section 2133 of this title unless the Commission determines such review is advisable on the ground that significant changes in the licensee's activities or proposed activities have occurred subsequent to the previous review by the Attorney General and the Commission under this subsection in connection with the construction permit for the facility.

(3) With respect to any Commission permit for the construction of a utilization or production facility issued pursuant to subsection (b) of section 2134 of this title prior to December 19, 1970, any person who intervened or who sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination shall have the right, upon a written request to the Commission, to obtain an antitrust review under this section of the application for an operating license. Such written request shall be made within 25 days after the date of initial Commission publication in the Federal Register.
§ 2135  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 4540

of notice of the filing of an application for an operating license for the facility or December 19, 1970, whichever is later.

(4) Upon the request of the Attorney General, the Commission shall furnish or cause to be furnished such information as the Attorney General determines to be appropriate for the advice called for in paragraph (1) of this subsection.

(5) Promptly upon receipt of the Attorney General’s advice, the Commission shall publish the advice in the Federal Register. Where the Attorney General advises that there may be adverse antitrust aspects and recommends that there be a hearing, the Attorney General or his designee may participate as a party in the proceedings thereafter held by the Commission on such licensing matter in connection with the subject matter of his advice. The Commission shall give due consideration to the advice received from the Attorney General and to such evidence as may be provided during the proceedings in connection with such subject matter, and shall make a finding as to whether the activities under the license would create or maintain a situation inconsistent with the antitrust laws as specified in subsection (a) of this section.

(6) In the event the Commission’s finding under paragraph (5) is in the affirmative, the Commission shall also consider, in determining whether the license should be issued or continued, such other factors, including the need for power in the affected area, as the Commission in its judgment deems necessary to protect the public interest. On the basis of its findings, the Commission shall have the authority to issue or continue a license as applied for, to refuse to issue a license, to rescind a license or amend it, and to issue a license with such conditions as it deems appropriate.

(7) The Commission, with the approval of the Attorney General, may except from any of the requirements of this subsection such classes of or types of licenses as the Commission may determine would not significantly affect the applicant’s activities under the antitrust laws as specified in subsection (a) of this section.

(8) With respect to any application for a construction permit on file at the time of enactment into law of this subsection, which permit would be for issuance under section 2133 of this title, and with respect to any application for an operating license in connection with which a written request for an antitrust review is made as provided for in paragraph (9), the Commission, after consultation with the Attorney General, may, upon determination that such action is necessary in the public interest to avoid unnecessary delay, establish by rule or order periods for Commission notification and receipt of advice differing from those set forth above and under the license would create or operating license in advance of consideration of and findings with respect to the matters covered in this subsection: Provided. That any construction permit or operating license so issued shall contain such conditions as the Commission deems appropriate to assure that any subsequent findings and orders of the Commission with respect to such matters will be given full force and effect.

(9) APPLICABILITY.—This subsection does not apply to an application for a license to construct or operate a utilization facility or production facility under section 2133 or 2134(b) of this title that is filed on or after August 8, 2005.

(1), (2), (4), and (5) and amended such provisions by extending the time for the Attorney General to give advice from 90 to 180 days and provided for review of licenses once granted under section 2133 of this title, and when the Attorney General recommends that there be a hearing, authorized the Commission to hold hearings and permit the Attorney General to appear as a party and to make a finding as to whether the activities under the license would be inconsistent with the antitrust laws, and in par. (3), provided for a review of the permit issued under section 2134(b) of this title, and added pars. (6) to (8).

1964—Subsec. (a). Pub. L. 88–489 struck out “, including the provisions which vest title to all special nuclear material in the United States,” before “shall relieve any person”.

The Commission may—
(a) group the facilities licensed either under section 2133 or 2134 of this title into classes which may include either production or utilization facilities or both, upon the basis of the similarity of operating and technical characteristics of the facilities;
(b) define the various activities to be carried on at each such class of facility; and
(c) designate the amounts of special nuclear material available for use by each such facility.

§ 2137. Operators' licenses

The Commission shall—
(a) prescribe uniform conditions for licensing individuals as operators of any of the various classes of production and utilization facilities licensed in this chapter;
(b) determine the qualifications of such individuals;
(c) issue licenses to such individuals in such form as the Commission may prescribe; and

TECHNICAL CAPABILITY OF LICENSEE PERSONNEL IMPROVEMENT PLAN; STUDY OF LICENSE REQUIREMENT FOR PLANT MANAGERS AND SENIOR LICENSEE OFFICERS; REPORT TO CONGRESS

“(a) The Commission is authorized and directed to prepare a plan for improving the technical capability of licensee personnel to safely operate utilization facilities licensed under section 103 or 104(b) of the Atomic Energy Act of 1954 [sections 2133 and 2134(b) of this title]. In proposing such plan, the Commission shall consider the feasibility of requiring standard mandatory training programs for nuclear facility operators, including classroom study, apprenticeships at the facility, and emergency simulator training. Such plan shall include specific criteria for more intensive training and retraining of operator personnel licensed under section 107 of the Atomic Energy Act of 1954 [this section], and for the licensing of such personnel, to assure—

“(1) conformity with all conditions and requirements of the operating license;

“(2) early identification of accidents, events, or event sequences which may significantly increase the likelihood of an accident; and

“(3) effective response to any such event or sequence.

Such plan shall include provision for Commission review and approval of the qualifications of personnel conducting any required training and retraining program. The plan shall also include requirements for the renewal of operator licenses including, to the extent practicable, requirements that the operator—

“(A) has been actively and extensively engaged in the duties listed in such license,

“(B) has discharged such duties safely to the satisfaction of the Commission,

“(C) is capable of continuing such duties, and

“(D) has participated in a requalification training program.

Such plan shall include criteria for suspending or revoking operator licenses. In addition, the Commission shall consider the feasibility of requiring such licensed operator to pass a requalification test every six months including—

“(i) written questions, and

“(ii) emergency simulator exams.

The Commission shall transmit to the Congress the plan required by this subsection within six months after the date of the enactment of this Act (June 30, 1980), and shall implement as expeditiously as practicable each element thereof not requiring legislative enactment.

“(b) The Nuclear Regulatory Commission is authorized and directed to undertake a study of the feasibility and value of licensing, under section 107 of the Atomic Energy Act of 1954 [this section], plant managers of utilization facilities and senior licensee officers responsible for operation of such facilities. The Commission shall report to the Congress within six months of the date of enactment of this Act (June 30, 1980) on the findings and recommendations of the study required by this subsection, and shall expeditiously implement each such recommendation not requiring legislative enactment.”

§ 2138. Suspension of licenses during war or national emergency

Whenever the Congress declares that a state of war or national emergency exists, the Commission is authorized to suspend any licenses granted under this chapter if in its judgment such action is necessary to the common defense and security. The Commission is authorized during such period, if the Commission finds it necessary to the common defense and security, to order the recapture of any special nuclear material or to order the operation of any facility licensed under section 2133 or 2134 of this title, and is authorized to order the entry into any plant or facility in order to recapture such material, or to operate such facility. Just compensation shall be paid for any damages caused by the recapture of any special nuclear material or by the operation of any such facility.

AMENDMENTS

1959—Pub. L. 86–373 struck out “distributed under the provisions of section 2073(a) of this title,” before “or to order”.

§ 2139. Component and other parts of facilities

(a) Licenses for domestic activities

With respect to those utilization and production facilities which are so determined by the Commission pursuant to section 2014(v)(2) or 2014(cc)(2) of this title the Commission may issue general licenses for domestic activities re-
required to be licensed under section 2131 of this title, if the Commission determines in writing that such general licensing will not constitute an unreasonable risk to the common defense and security.

(b) Export licenses

After consulting with the Secretaries of State, Energy, and Commerce, the Commission is authorized and directed to determine which component parts as defined in section 2014(v)(2) or 2014(cc)(2) of this title and which other items or substances are especially relevant from the standpoint of export control because of their significance for nuclear explosive purposes. Except as provided in section 2155(b)(2) of this title, no such component, substance, or item which is so determined by the Commission shall be exported unless the Commission issues a general or specific license for its export after finding, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the following criteria or their equivalent are met: (1) IAEA safeguards as required by Article III (2) of the Treaty will be applied with respect to such component, substance, or item; (2) no such component, substance, or item will be used for any nuclear explosive device or for research on or development of any nuclear explosive device; and (3) no such component, substance, or item will be retransferred to the jurisdiction of any other nation or group of nations unless the prior consent of the United States is obtained for such retransfer; and after determining in writing that the issuance of each such general or specific license or category of licenses will not be inimical to the common defense and security: Provided, That a specific license shall not be required for an export pursuant to this section if the component, item or substance is covered by a facility license issued pursuant to section 2155 of this title.

(c) Exports inimical to common defense and security of United States

The Commission shall not issue an export license under the authority of subsection (b) of this section if it is advised by the executive branch, in accordance with the procedures established under section 2155(a) of this title, that the export would be inimical to the common defense and security of the United States.

(a) and substituted “the Commission shall issue general licenses for domestic activities required to be licensed under section 2131 of this title, if the Commission determines in writing that such general licensing will not constitute an unreasonable risk to the common defense and security” for “the Commission may (a) issue general licenses for activities required to be licensed under section 2131 of this title, if the Commission determines in writing that such general licensing will not constitute an unreasonable risk to the common defense and security, and (b) issue licenses for the export of such facilities, if the Commission determines in writing that each export will not constitute an unreasonable risk to the common defense and security”.

Act Aug. 1, 1946, ch. 724, title I, § 125, as added by Apr. 12, 1957, Pub. L. 85–14, § 1, set out as an Effective Date note under section 3201 of Title 22, Foreign Relations and Intercourse.

EX. ORD. NO. 10841. INTERNATIONAL COOPERATION
SEC. 1. Whenever the President, pursuant to section 125 of the Act [this section], has approved and authorized the execution of a proposed agreement providing for cooperation pursuant to section 91c, 144a, 144b, or 144c of the Act [sections 2121(c), 2164(a), 2164(b), and 2164(c) of this title], such approval and authorization by the President shall constitute his authorization to cooperate to the extent provided for in the agreement and in the manner provided for in section 91c, 144a, 144b, or 144c [sections 2121(c), 2164(a), 2164(b), and 2164(c) of this title], as pertinent. In respect of sections 91c, 144a, 144b, and 144c [sections 2121(c), 2164(a), 2164(b), and 2164(c) of this title], authorizations by the President to cooperate shall be subject to the requirements of sections 125(e) of the Act [subsec. (d) of this section] and shall also be subject to appropriate determinations made pursuant to section 2 of this order.

SEC. 2. (a) The Secretary of Defense and the Secretary of Energy are hereby designated and empowered to exercise jointly, after consultation with executive agencies as may be appropriate, the following described authority without the approval, ratification, or other action of the President:
(1) The authority vested in the President by section 91c of the Act [section 2121(c) of this title] to determine that the proposed cooperation and each proposed transfer arrangement referred to in that section will promote and will not constitute an unreasonable risk to the common defense and security.
(2) The authority vested in the President by section 144b of the Act [section 2164(b) of this title] to determine that the proposed cooperation and the proposed...
communication of Restricted Data referred to in that section will promote and will not constitute an unreasonable risk to the common defense and security: Provided, That each determination made under this paragraph shall be referred to the President and, unless disapproved by him, shall become effective fifteen days after such referral or at such later time as may be specified in the determination.

(3) The authority vested in the President by section 144c of the Act [section 2164(c) of this title] to determine that the proposed cooperation and the communication of the proposed Restricted Data referred to in that section will promote and will not constitute an unreasonable risk to the common defense and security.

(b) Whenever the Secretary of Defense and the Secretary of Energy are unable to agree upon a joint determination under the provisions of subsection (a) of this section, the recommendations of each of them, together with the recommendations of other agencies concerned, shall be referred to the President, and the determination shall be made by the President.

Sec. 3. This order shall not be construed as delegating the function vested in the President by section 91c of the Act [section 2121(c) of this title] of approving programs proposed under that section.

Sec. 4. (a) The functions of negotiating and entering into international agreements under the Act [this chapter] shall be performed by or under the authority of the Secretary of State.

(b) International cooperation under the Act [this chapter] shall be subject to the responsibilities of the Secretary of State with respect to the foreign policy of the United States pertinent thereto.

§ 2153a. Approval for enrichment after export of source or special nuclear material; export of major critical components of enrichment facilities

(a) Except as specifically provided in any agreement for cooperation, no source or special nuclear material hereafter exported from the United States may be enriched after export without the prior approval of the United States for such enrichment: Provided, That the procedures governing such approvals shall be identical to those set forth for the approval of proposed subsequent arrangements under section 2160 of this title, and any commitments from the recipient which the Secretary of Energy and the Secretary of State deem necessary to ensure that such approval will be obtained prior to such enrichment shall be obtained prior to the submission of the executive branch judgment regarding the export in question and shall be set forth in such submission: And provided further, That no source or special nuclear material shall be exported for the purpose of enrichment or reactor fueling to any nation or group of nations which has, after March 10, 1978, entered into a new or amended agreement for cooperation with the United States, except pursuant to such agreement.

(b) In addition to other requirements of law, no major critical component of any uranium enrichment, nuclear fuel reprocessing, or heavy water production facility shall be exported under any agreement for cooperation (except an agreement for cooperation pursuant to section 2121(c), 2164(b), or 2164(c) of this title) unless such agreement for cooperation specifically designates such components as items to be exported pursuant to the agreement for cooperation. For purposes of this subsection, the term “major critical component” means any component part or group of component parts which the President determines to be essential to the operation of a complete uranium enrichment, nuclear fuel reprocessing, or heavy water production facility.

CODIFICATION

Section was enacted as part of the Nuclear Non-Proliferation Act of 1978, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

EFFECTIVE DATE

Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 603(c) of Pub. L. 95–242, set out as a note under section 3201 of Title 22, Foreign Relations and Intercourse.

DELEGATION OF FUNCTIONS

Delegation or assignment to Secretary of Energy of function vested in President under subsec. (b) of this section, see section 1(a) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

§ 2153b. Export policies relating to peaceful nuclear activities and international nuclear trade

The President shall take immediate and vigorous steps to seek agreement from all nations and groups of nations to commit themselves to adhere to the following export policies with respect to their peaceful nuclear activities and their participation in international nuclear trade:

(a) Undertakings by transferor nations receiving nuclear material and equipment or sensitive nuclear technology

No nuclear materials and equipment and no sensitive nuclear technology within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be transferred to the jurisdiction of any other nation or group of nations unless the nation or group of nations receiving such transfer commits itself to strict undertakings including, but not limited to, provisions sufficient to ensure that—

(1) no nuclear materials and equipment and no nuclear technology in, under the jurisdiction of, or under the control of any non-nuclear-weapon state, shall be used for nuclear explosive devices for any purpose or for research on or development of nuclear explosive devices for any purpose, except as permitted by Article V, the Treaty;

(2) IAEA safeguards will be applied to all peaceful nuclear activities in, under the jurisdiction of, or under the control of any non-nuclear-weapon state;
(3) adequate physical security measures will be established and maintained by any nation or group of nations on all of its nuclear activities;

(4) no nuclear materials and equipment and no nuclear technology intended for peaceful purposes in, under the jurisdiction of, or under the control of any nation or group of nations shall be transferred to the jurisdiction of any other nation or group of nations which does not agree to stringent undertakings meeting the objectives of this section; and

(5) no nation or group of nations will assist, encourage, or induce any non-nuclear-weapon state to manufacture or otherwise acquire any nuclear explosive device.

(b) Enrichment of source or special nuclear material only under effective international auspices and inspection

(1) No source or special nuclear material within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be enriched (as described in section 2014(aa)(2) of this title) or reprocessed, no irradiated fuel elements containing such material which are to be removed from a reactor will be altered in form or content, and no fabrication or stockpiling involving plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 shall be performed except in a facility under effective international auspices and inspection, and any such irradiated fuel elements shall be transferred to such a facility as soon as practicable after removal from a reactor consistent with safety requirements. Such facilities shall be limited in number to the greatest extent feasible and shall be carefully sited and managed so as to minimize the proliferation and environmental risks associated with such facilities. In addition, there shall be conditions to limit the access of non-nuclear-weapon states other than the host country to sensitive nuclear technology associated with such facilities.

(2) Any facilities within the territory of any nation or group of nations, under its jurisdiction or under its control anywhere for the necessary short-term storage of fuel elements containing plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 prior to placement in a reactor or of irradiated fuel elements prior to transfer as required in subparagraph (1) shall be placed under effective international auspices and inspection.

(c) Establishment of physical security measures

Adequate physical security measures will be established and maintained with respect to all nuclear activities within the territory of each nation and group of nations, under its jurisdiction, or under its control anywhere, and with respect to any international shipment of significant quantities of source or special nuclear material or irradiated source or special nuclear material, which shall also be conducted under international safeguards.

(d) United States military activities

Nothing in this section shall be interpreted to require international control or supervision of any United States military activities.

§ 2153c. Renegotiation of agreements for cooperation

(a) Application to existing agreements of undertakings required of new agreements after March 10, 1978

The President shall initiate a program immediately to renegotiate agreements for cooperation in effect on March 10, 1978, or otherwise to obtain the agreement of parties to such agreements for cooperation to the undertakings that would be required for new agreements under this chapter. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party contains provisions equivalent to any or all of the criteria set forth in section 2156 of this title with respect to materials and equipment transferred thereto or with respect to any special nuclear material used in or produced through the use of any such material or equipment, any renegotiated agreement with that cooperating party shall continue to contain an equivalent provision with respect to such transferred materials and equipment and such special nuclear material. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party does not contain provisions with respect to any nuclear materials and equipment which have previously been transferred under an agreement for cooperation with the United States and which are under the jurisdiction or control of the cooperating party and with respect to any special nuclear material which is used in or produced through the use thereof and which is under the jurisdiction or control of the cooperating party, which are equivalent to any or all of those required for new and amended agreements for cooperation under section 2153(a) of this title, the President shall vigorously seek to obtain the application of such provisions with respect to such
nuclear materials and equipment and such special nuclear material. Nothing in this Act or in this chapter shall be deemed to relinquish any rights which the United States may have under any agreement for cooperation in force on March 10, 1978.

(b) Presidential review of export agreement conditions and policy goals

The President shall annually review each of requirements (1) through (9) set forth for inclusion in agreements for cooperation under section 2153(a) of this title and the export policy goals set forth in section 2153b of this title to determine whether it is in the interest of United States non-proliferation objectives for any such requirements or export policies which are not already being applied as export criteria to be enacted as additional export criteria.

(c) Presidential proposals for additional export criteria

If the President proposes enactment of any such requirements or export policies as additional export criteria or to take any other action with respect to such requirements or export policy goals for the purpose of encouraging adherence by nations and groups of nations to such requirements and policies, he shall submit such a proposal together with an explanation thereof to the Congress.

(d) Congressional action

If the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs of the House of Representatives, after reviewing the President’s annual report or any proposed legislation, determines that it is in the interest of United States non-proliferation objectives to take any action with respect to such requirements or export policy goals, it shall report a joint resolution to implement such determinations.

1. Limits contained in agreements for cooperation

Any joint resolution so reported shall be considered in the Senate and the House of Representatives, respectively, under applicable procedures provided for the consideration of resolutions pursuant to section 2159(b) through (g) of this title.

AMENDMENTS

TRANSFER OF FUNCTIONS

Atomic Energy Commission abolished and functions transferred by sections 5814 and 5841 of this title. See also Transfer of Functions notes set out under those sections.

§ 2155. Export licensing procedures

(a) Executive branch judgment on export applications; criteria governing United States nuclear exports

No license may be issued by the Nuclear Regulatory Commission (the “Commission”) for the export of any production or utilization facility, or any source material or special nuclear material, including distributions of any material by the Department of Energy under section 2074, 2094, or 2112 of this title, for which a license is required or requested, and no exemption from any requirement for such an export license may be granted by the Commission, as the case may be, until—

(I) the Commission has been notified by the Secretary of State that it is the judgment of the executive branch that the proposed export or exemption will not be inimical to the common defense and security, or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes. The Secretary of State shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of Energy, Defense, and Commerce, and the Nuclear Regulatory Commission, for the preparation of the executive branch judgment on export applications under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such applications, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such applications, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending applications, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency’s needs at the beginning of the process. Potentially controversial applications should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decisions required under this section. The processing of any export application proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section. The executive branch judgment shall be completed in not more than sixty days from receipt of the application or request, unless the Secretary of State in his discretion specifically authorizes additional time for consideration of the application or request because it is in the national interest to allow such additional time. The Secretary shall notify the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives of any such authorization. In submitting any such judgment, the Secretary of State shall specifically address the extent to which the export criteria then in effect are met and the extent to which the cooperating party has adhered to the provisions of the applicable agreement for cooperation. In the event he considers it warranted, the Secretary may also address the following additional factors, among others:

(A) whether issuing the license or granting the exemption will materially advance the non-proliferation policy of the United States by encouraging the recipient nation to adhere to the Treaty, or to participate in the undertakings contemplated by section 2153b or 2153c(a) of this title;

(B) whether failure to issue the license or grant the exemption would otherwise be seriously prejudicial to the non-proliferation objectives of the United States; and

(C) whether the recipient nation or group of nations has agreed that conditions substantially identical to the export criteria set forth in section 2156 of this title will be applied by another nuclear supplier nation or group of nations to the proposed United States export, and whether in the Secretary’s judgment those conditions will be implemented in a manner acceptable to the United States.

The Secretary of State shall provide appropriate data and recommendations, subject to

1 So in original. Probably should be “can”.

requests for additional data and recommendations, as required by the Commission or the Secretary of Energy, as the case may be; and

(2) the Commission finds, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the criteria in section 2156 of this title or their equivalent, and any other applicable statutory requirements, are met: Provided, That continued cooperation under an agreement for cooperation as authorized in accordance with section 2154 of this title shall not be prevented by failure to meet the provisions of paragraph (4) or (5) of section 2156 of this title for a period of thirty days after March 10, 1978, and for a period of twenty-three months thereafter if the Secretary of State notifies the Commission that the nation or group of nations bound by the relevant agreement has agreed to negotiations as called for in section 2153c(a) of this title; however, nothing in this subsection shall be deemed to relinquish any rights which the United States may have under agreements for cooperation in force on March 10, 1978; Provided further, That if, upon the expiration of such twenty-four month period, the President determines that failure to continue cooperation with any group of nations which has been exempted pursuant to the above proviso from the provisions of paragraph (4) or (5) of section 2156 of this title, but which has not yet agreed to comply with those provisions would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, he may, after notifying the Congress of his determination, extend by Executive order the duration of the above proviso for a period of twelve months, and may further extend the duration of such proviso by one year increments annually thereafter if he again makes such determination and so notifies the Congress. In the event that the Committee on Foreign Affairs of the House of Representatives or the Committee on Foreign Relations of the Senate reports a joint resolution to take any action with respect to any application for a license under this section, any joint resolution shall be considered in the House or Senate, as the case may be, under procedures identical to those provided for the consideration of resolutions pursuant to section 2159 of this title: And additionally provided, That the Commission is authorized to (A) make a single finding under this subsection for more than a single application or request, where the applications or requests involve exports to the same country, in the same general time frame, of similar significance for nuclear explosive purposes and under reasonably similar circumstances and (B) make a finding under this subsection that there is no material changed circumstance associated with a new application or request from those existing at the time of the last application or request for an export to the same country, where the prior application or request was approved by the Commission using all applicable procedures of this section, and such finding of no material changed circumstance shall be deemed to satisfy the requirement of this paragraph for findings of the Commission. The decision not to make any such finding in lieu of the findings which would otherwise be required to be made under this paragraph shall not be subject to judicial review: And provided further, That nothing contained in this section is intended to require the Commission independently to conduct or prohibit the Commission's consideration from independently conducting country or site specific visitations in the Commission's consideration of the application of IAEA safeguards.

(b) Requests to be given timely consideration; Presidential review if Commission is unable to make required statutory determinations; Commission review

(1) Timely consideration shall be given by the Commission to requests for export licenses and exemptions and such requests shall be granted upon a determination that all applicable statutory requirements have been met.

(2) If, after receiving the executive branch judgment that the issuance of a proposed export license will not be inimical to the common defense and security, the Commission does not issue the proposed license on a timely basis because it is unable to make the statutory determinations required under this chapter, the Commission shall publicly issue its decision to that effect, and shall submit the license application to the President. The Commission’s decision shall include an explanation of the basis for the decision and any dissenting or separate views.

If, after receiving the proposed license application and reviewing the Commission’s decision, the President determines that withholding the proposed export would be seriously prejudicial to the achievement of United States non-proliferation objectives, or would otherwise jeopardize the common defense and security, the proposed export may be authorized by Executive order: Provided, That prior to any such export, the President shall submit the Executive order, together with his explanation of why, in light of the Commission’s decision, the export should nonetheless be made, to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and shall be referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such proposed export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the proposed export. Any such Executive order shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions: And provided further, That the procedures established pursuant to subsection (b) of section 2155a of this title shall provide that the Commission shall immediately initiate review of any application for a license under this section and to the maximum extent feasible shall expeditiously process the application concurrently with the executive branch review, while awaiting the final executive branch judgment. In initiating its review, the Commission may identify a set of concerns and requests for information associated with the projected issuance of
such license and shall transmit such concerns and requests to the executive branch which shall address such concerns and requests in its written communications with the Commission. Such procedures shall also provide that if the Commission has not completed action on the application within sixty days after the receipt of an executive branch judgment that the proposed export or exemption is not inimical to the common defense and security or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes, the Commission shall inform the applicant in writing of the reason for delay and provide follow-up reports as appropriate. If the Commission has not completed action by the end of an additional sixty days (a total of one hundred and twenty days from receipt of the executive branch judgment), the President may authorize the proposed export by Executive order, upon a finding that further delay would be excessive and upon making the findings required for such Presidential authorizations under this subsection, and subject to the Congressional review procedures set forth herein. However, if the Commission has commenced procedures for public participation regarding the proposed export under regulations promulgated pursuant to subsection (b) of section 2155a of this title, or—within sixty days after receipt of the executive branch judgment on the proposed export—the Commission has identified and transmitted to the executive branch a set of additional concerns or requests for information, the President may not authorize the proposed export until sixty days after public proceedings are completed or sixty days after a full executive branch response to the Commission's additional concerns or requests has been made consistent with subsection (a)(1) of this section: Provided further, That nothing in this section shall affect the right of the Commission to obtain data and recommendations from the Secretary of State at any time as provided in subsection (a)(1) of this section.

(c) Additional export criteria

In the event that the House of Representatives or the Senate passes a joint resolution which would amend or remove additional export criteria, or would modify any existing export criteria under this chapter, any such joint resolution shall be referred in the other House to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, as the case may be, and shall be considered by the other House under applicable procedures provided for the consideration of resolutions pursuant to section 2159 of this title.

(a) Omitted

(b) Within one hundred and twenty days of March 10, 1978, the Commission shall, after consultations with the Secretary of State, promulgate regulations establishing procedures (1) for the granting, suspending, revoking, or amending of any nuclear export license or exemption pursuant to its statutory authority; (2) for public participation in nuclear export licensing proceedings when the Commission finds that such participation will be in the public interest and will assist the Commission in making the statutory determinations required by this chapter, including such public hearings and access to information as the Commission deems appropriate: Provided, That judicial review as to any such finding shall be limited to the determination of whether such finding was arbitrary and capricious; (3) for a public written Commission opinion accompanied by the dissenting or separate views of any Commissioner, in those proceedings where one or more Commissioners have dissenting or separate views on the issuance of an export license; and (4) for public notice of Commission proceedings and decisions, and for recording of minutes and votes of the Commission: Provided further, That until the regulations required by this subsection have been promulgated, the Commission shall implement the provisions of this Act under temporary procedures established by the Commission.

(c) The procedures to be established pursuant to subsection (b) of this section shall constitute the exclusive basis for hearings in nuclear export licensing proceedings before the Commission and, notwithstanding section 2239(a) of this title, shall not require the Commission to grant any person an on-the-record hearing in such a proceeding.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

The performance of functions under the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days (after Mar. 10, 1978) are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2156. Criteria governing United States nuclear exports

The United States adopts the following criteria which, in addition to other requirements of law, will govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology:

(1) IAEA safeguards as required by Article III(2) of the Treaty will be applied with respect to any such material or facilities proposed to be exported, to any such material or facilities...
previously exported and subject to the applicable agreement for cooperation, and to any special nuclear material used in or produced through the use thereof.

(2) No such material, facilities, or sensitive nuclear technology proposed to be exported or previously exported and subject to the applicable agreement for cooperation, and no special nuclear material produced through the use of such materials, facilities, or sensitive nuclear technology, will be used for any nuclear explosive device or for research on or development of any nuclear explosive device.

(3) Adequate physical security measures will be maintained with respect to such material or facilities proposed to be exported and to any special nuclear material used in or produced through the use thereof. Following the effective date of any regulations promulgated by the Commission pursuant to section 2156 of this title, physical security measures shall be deemed adequate if such measures provide a level of protection equivalent to that required by the applicable regulations.

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and no special nuclear material produced through the use of such material, will be retransferred to the jurisdiction of any other nation or group of nations unless the prior approval of the United States is obtained for such retransfer. In addition to other requirements of law, the United States may approve such retransfer only if the nation or group of nations designated to receive such retransfer agrees that it shall be subject to the conditions required by this section.

(5) No such material proposed to be exported and no special nuclear material produced through the use of such material will be reprocessed, and no irradiated fuel elements containing such material removed from a reactor shall be altered in form or content, unless the prior approval of the United States is obtained for such reprocessing or alteration.

(6) No such sensitive nuclear technology shall be exported unless the foregoing conditions shall be applied to any nuclear material or equipment which is produced or constructed under the jurisdiction of the recipient nation or group of nations by or through the use of any such exported sensitive nuclear technology.

Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 603(c) of Pub. L. 95–242, set out as a note under section 3201 of Title 22, Foreign Relations and Intercourse.

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2156a. Regulations establishing levels of physical security to protect facilities and material

Within sixty days of March 10, 1978, the Commission shall, in consultation with the Secretary of State, the Secretary of Energy, and the Secretary of Defense, promulgate (and may from time to time amend) regulations establishing the levels of physical security which in its judgement are no less strict than those established by any international guidelines to which the United States subscribes and which in its judgment will provide adequate protection for facilities and material referred to in paragraph (3) of section 2156 of this title taking into consideration variations in risks to security as appropriate.

Performance of Functions Pending Development of Procedures

§ 2157. Additional export criterion and procedures

(a)(1) As a condition of continued United States export of source material, special nuclear material, production or utilization facilities,
and any sensitive nuclear technology to non-nuclear-weapon states, no such export shall be made unless IAEA safeguards are maintained with respect to all peaceful nuclear activities in, under the jurisdiction of, or carried out under the control of such state at the time of the export.

(2) The President shall seek to achieve adherence to the foregoing criterion by recipient non-nuclear-weapon states.

(b) The criterion set forth in subsection (a) of this section shall be applied as an export criterion with respect to any application for the export of materials, facilities, or technology specified in subsection (a) of this section which is filed after eighteen months from March 10, 1978, or for any such application under which the first export would occur at least twenty-four months after March 10, 1978, except as provided in the following paragraphs:

(1) If the Commission or the Department of Energy, as the case may be, is notified that the President has determined that failure to approve an export to which this subsection applies because such criterion has not yet been met would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, the license or authorization may be issued subject to other applicable requirements of the law: Provided, That no such export of any production or utilization facility or of any source or special nuclear material (intended for use as fuel in any production or utilization facility) which has been licensed or authorized pursuant to this subsection shall be made to any non-nuclear-weapon state which has failed to meet such criterion until the first such license or authorization with respect to such state is submitted to the Congress (together with a detailed assessment of the reasons underlying the President's determination, the judgment of the executive branch required under section 2155 of this title, and any Commission opinion and views) for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but such export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it disagrees with the President's determination.

(2) If the Congress adopts a resolution of disapproval pursuant to paragraph (1), does not adopt a concurrent resolution stating in substance that it disagrees with the President's determination.

(3) If the Congress does not adopt a resolution of disapproval with respect to a license or authorization submitted pursuant to paragraph (1), the criterion set forth in subsection (a) of this section shall not be applied as an export criterion with respect to exports of materials, facilities, and technology specified in subsection (a) of this section to that state: Provided, That the first license or authorization with respect to that state which is issued pursuant to this paragraph after twelve months from the elapse of the sixty-day period specified in paragraph (1), and the first such license or authorization which is issued after each twelve-month period thereafter, shall be submitted to the Congress for review pursuant to the procedures specified in paragraph (1): Provided further, That if the Congress adopts a resolution of disapproval during any review period provided for by this paragraph, the provisions of paragraph (2) shall apply with respect to further exports to such state.

L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. $2158. Conduct resulting in termination of nuclear exports

(a) No nuclear materials and equipment or sensitive nuclear technology shall be exported to—

(1) any non-nuclear-weapon state that is found by the President to have, at any time after March 10, 1978,
(A) detonated a nuclear explosive device; or

(B) terminated or abrogated IAEA safeguards; or

(C) materially violated an IAEA safeguards agreement; or

(D) engaged in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such activities; or

(2) any nation or group of nations that is found by the President to have, at any time after March 10, 1978,

(A) materially violated an agreement for cooperation with the United States, or, with respect to material or equipment not supplied under an agreement for cooperation, materially violated the terms under which such material or equipment was supplied or the terms of any commitments obtained with respect thereto pursuant to section 2153a(a) of this title; or

(B) assisted, encouraged, or induced any non-nuclear-weapon state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such assistance, encouragement, or inducement; or

(C) entered into an agreement after March 10, 1978, for the transfer of reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapon state except in connection with an international fuel cycle evaluation in which the United States is a participant or pursuant to a subsequent international agreement or understanding to which the United States subscribes;

unless the President determines that cessation of such exports would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security: Provided, That prior to the effective date of any such determination, the President's determination, together with a report containing the reasons for his determination, shall be submitted to the Congress and referred to the Committee on Foreign Affairs of the Senate for a period of sixty days of continuous session (as defined in section 2159(g) of this title), but any such determination shall not become effective if during such sixty-day period the Congress adopts, and there is enacted, a joint resolution stating in substance that it does not favor the determination. Any such determination shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

(b)(1) Notwithstanding any other provision of law, including specifically section 2151 of this title, and except as provided in paragraphs (2) and (3), no nuclear materials and equipment or sensitive nuclear technology, including items and assistance authorized by section 2077(b) of this title and regulated under part 810 of title 10, Code of Federal Regulations, and nuclear-controlled items on the Commerce Control List maintained under part 774 of title 15 of the Code of Federal Regulations, shall be exported or reexported, or transferred or retransferred whether directly or indirectly, and no Federal agency shall issue any license, approval, or authorization for the export or reexport, or transfer, whether directly or indirectly, of these items or assistance (as defined in this paragraph) to any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which has been determined by the Secretary of State under section 2371(a) of title 22, section 2405(j)(1) of title 50, Appendix, or section 2780(d) of title 22 to have repeatedly provided support for acts of international terrorism).

(2) This subsection shall not apply to exports, reexports, transfers, or retransfers of radiation monitoring technologies, surveillance equipment, seals, cameras, tamper-indication devices, nuclear detectors, monitoring systems, or equipment necessary to safely store, transport, or remove hazardous materials, whether such items, services, or information are regulated by the Department of Energy, the Department of Commerce, or the Commission, except to the extent that such technologies, equipment, seals, cameras, devices, detectors, or systems are available for use in the design or construction of nuclear reactors or nuclear weapons.

(3) The President may waive the application of paragraph (1) to a country if the President determines and certifies to Congress that the waiver will not result in any increased risk that the country receiving the waiver will acquire nuclear weapons, nuclear reactors, or any materials or components of nuclear weapons and—

(A) the government of such country has not within the preceding 12-month period willfully aided or abetted the international proliferation of nuclear explosive devices to individual or groups or willfully aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

§ 2159. Congressional review procedures

(a) Committee consideration of Presidential submissions; reports

Not later than forty-five days of continuous session of Congress after the date of transmittal to the Congress of any submission of the President required by section 2155(a)(2), 2155(b)(2), 2157(b), 2158, 2160(a)(3), or 2160(f)(1)(A) of this title, the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives shall each submit a report to its respective House on its views and recommendations respecting such Presidential submission together with a resolution, as defined in subsection (f) of this section, stating in substance that the Congress approves or disapproves such submission, as the case may be: Provided, That if any such committee has not reported such a resolution at the end of such forty-five day period, such committee shall be deemed to be discharged from further consideration of such submission. If no such resolution has been reported at the end of such period, the first resolution as defined in subsection (f) of this section, which is introduced within five days thereafter within such House shall be placed on the appropriate calendar of such House.

(b) Consideration of resolution by respective Houses of Congress

When the relevant committee or committees have reported such a resolution (or have been discharged from further consideration of such a resolution pursuant to subsection (a) of this section) or when a resolution has been introduced and placed on the appropriate calendar pursuant to subsection (a) of this section, as the case may be, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution. The motion is privileged and is not debatable. The motion shall not be subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(c) Debate

Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than ten hours, which shall be divided equally between individuals favoring and individuals opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to a motion to postpone, or a motion to recommit the resolution, or a motion to proceed to the consideration of other business is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to shall not be in order. No amendment to any concurrent resolution pursuant to the procedures of this section is in order except as provided in subsection (d) of this section.

(d) Vote on final approval

Immediately following (1) the conclusion of the debate on such concurrent resolution, (2) a single quorum call at the conclusion of debate if requested in accordance with the rules of the appropriate House, and (3) the consideration of an amendment introduced by the Majority Leader or his designee to insert the phrase, “does not” in lieu of the word “does” if the resolution under consideration is a concurrent resolution of approval, the vote on final approval of the resolution shall occur.

(e) Appeals from decisions of Chair

Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to such a resolution shall be decided without debate.

(f) Resolution

For the purposes of subsections (a) through (e) of this section, the term “resolution” means a concurrent resolution of the Congress, the matter after the resolving clause of which is as follows: “That the Congress (does or does not) favor the ___ transmitted to the Congress by the President on ___.”

Supersedure or change in rules

This section is enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by subsection (f) of this section; and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

with the date of the transmission of the proposed agreement for cooperation inserted in the blank, and the affirmative or negative phrase within the parenthetical appropriately selected.

(2) On the day on which a proposed agreement for cooperation is submitted to the House of Representatives and the Senate under section 2153(d) of this title, a joint resolution with respect to such agreement for cooperation shall be introduced (by request) in the House by the chairman of the Committee on Foreign Affairs, for himself and the ranking minority member of the Committee, or by Members of the House designated by the chairman and ranking minority member; and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(3) All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee or committees, and all joint resolutions introduced in the Senate shall be referred to the Committee on Foreign Relations and in addition, in the case of a proposed agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, the Committee on Armed Services.

(4) If the committee of either House to which a joint resolution has been referred has not reported it at the end of 45 days after its introduction (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15 days after its introduction), the committee shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter; except that, in the case of a joint resolution which has been referred to more than one committee, if before the end of the 45-day period (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15-day period) one such committee has reported the joint resolution, any other committee to which the joint resolution was referred shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter.

(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976. For the purpose of expediting the consideration and passage of joint resolutions reported or discharged pursuant to the provisions of this subsection, it shall be in order for the Committee on Rules of the House of Representatives to present for consideration a resolution of the House of Representatives providing procedures for the immediate consider-
ation of a joint resolution under this subsection which may be similar, if applicable, to the procedures set forth in section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

In the case of a joint resolution described in paragraph (1), if prior to the passage by one House of a joint resolution of that House, that House receives a joint resolution with respect to the same matter from the other House, then—

(A) the procedure in that House shall be the same as if no joint resolution had been received from the other House; but

(B) the vote on final passage shall be on the joint resolution of the other House.

(2) If the vote required under paragraph (1) is not taken prior to the adjournment of the House on any legislative day, the vote shall not be required if exactly 21 days have elapsed since the introduction of the joint resolution, after which the joint resolution shall be reconsidered and passed or defeated, as the case may be, without a roll call. The Speaker shall record any such vote as required under paragraph (1). Any vote taken under this subparagraph shall be subject to clause (1)(B) of section 2121 of this title.

(c) Submission of the President

(1) The President shall submit to both Houses of Congress, not later than 30 days after the date of enactment of an agreement provided for in section 2121(e) of this title, a Nuclear Proliferation Assessment Statement with regard to such agreement, together with the written determination of the Secretary of Energy that such agreement might significantly contribute to proliferation, the Secretary of Defense, and the Secretary of State:

(A) certified that the proposed agreement will not be inimical to the common defense and security, and such proposed agreement shall take effect before fifteen days after publication. Whenever the Secretary of State is required to prepare a Nuclear Proliferation Assessment Statement pursuant to paragraph (2) of this subsection, notice of the proposed subsequent arrangement which is the subject of the requirement to prepare a Nuclear Proliferation Assessment Statement shall not be published until after the receipt by the Secretary of Energy of such statement or the expiration of the time authorized by subsection (c) of this section for the preparation of such statement, whichever occurs first.

(2) If in the view of the Secretary of Energy, Secretary of Defense, or the Commission a proposed subsequent arrangement might significantly contribute to proliferation, the Secretary of State, in consultation with such Secretary or the Commission, shall prepare an unclassified Nuclear Proliferation Assessment Statement with regard to such proposed subsequent arrangement regarding the adequacy of the safeguards and other control mechanisms and the application of the peaceful
(b) Reports to Congressional committees; in pursuance of paragraph (1). be satisfied before the arrangement takes effect. Arrangements entered into by any agency or department of the United States Government with respect to cooperation with any nation or group of nations (but not purely private or domestic arrangements) involving—

(A) contracts for the furnishing of nuclear materials and equipment;

(B) approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of any source or special nuclear material, production or utilization facility, or nuclear technology;

(C) authorization for the distribution of nuclear materials and equipment pursuant to this chapter which is not subject to the procedures set forth in section 2141(b), section 2155, or section 2159(b) of this title;

(D) arrangements for physical security;

(E) arrangements for the storage or disposition of irradiated fuel elements;

(F) arrangements for the application of safeguards with respect to nuclear materials and equipment; or

(G) any other arrangement which the President finds to be important from the standpoint of preventing proliferation.

(3) The United States will give timely consideration to all requests for prior approval, when required by this chapter, for the reprocessing of material proposed to be exported, previously exported and subject to the applicable agreement for cooperation, or special nuclear material produced through the use of such material or a production or utilization facility transferred pursuant to such agreement for cooperation, or to the altering of irradiated fuel elements containing such material, and additionally, to the maximum extent feasible, will attempt to expedite such consideration when the terms and conditions for such actions are set forth in such agreement for cooperation or in some other international agreement executed by the United States and subject to congressional review procedures comparable to those set forth in section 2153 of this title.

(4) All other statutory requirements under other sections of this chapter for the approval or conduct of any arrangement subject to this subsection shall continue to apply and any other such requirements for prior approval or conditions for entering such arrangements shall also be satisfied before the arrangement takes effect pursuant to paragraph (1).

(b) Reports to Congressional committees; increase in risk of proliferation

With regard to any special nuclear material exported by the United States or produced through the use of any nuclear materials and equipment or sensitive nuclear technology exported by the United States—

(1) the Secretary of Energy may not enter into any subsequent arrangement for the retransfer of any such material to a third country for reprocessing, for the reprocessing of any such material, or for the subsequent retransfer of any plutonium in quantities greater than 500 grams resulting from the reprocessing of any such material, until he has provided the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate with a report containing his reasons for entering into such arrangement and a period of 15 days of continuous session (as defined in section 2159(g) of this title) has elapsed: Provided, however, That if in the view of the President an emergency exists due to unforeseen circumstances requiring immediate entry into a subsequent arrangement, such period shall consist of fifteen calendar days;

(2) the Secretary of Energy may not enter into any subsequent arrangement for the reprocessing of any such material in a facility which has not processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to March 10, 1978, or for subsequent retransfer to a non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, unless in his judgment, and that of the Secretary of State, such reprocessing or retransfer will not result in a significant increase of the risk of proliferation beyond that which exists at the time that approval is requested. Among all the factors in making this judgment, foremost consideration will be given to whether or not the reprocessing or retransfer will take place under conditions that will ensure timely warning to the United States of any diversion well in advance of the time at which the non-nuclear-weapon state could transform the diverted material into a nuclear explosive device; and

(3) the Secretary of Energy shall attempt to ensure, in entering into any subsequent arrangement for the reprocessing of any such material in any facility that has processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to March 10, 1978, or for the subsequent retransfer to any non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, that such reprocessing or retransfer shall take place under conditions comparable to those which in his view, and that of the Secretary of State, satisfy the standards set forth in paragraph (2).

(c) Procedures for consideration of requests for subsequent arrangements

The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and interagency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce and the Nuclear Regulatory Commission for the consideration of requests for subsequent arrangements under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for
meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such requests, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities. Frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency’s needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurance or evidentiary showings, for the decisions required under this section. Further, such procedures shall specify that if he intends to prepare a Nuclear Proliferation Assessment Statement, the Secretary of State shall so declare in his response to the Department of Energy. If the Secretary of State declares that he intends to prepare such a Statement, he shall do so within sixty days of his receipt of a copy of the proposed subsequent arrangement (during which time the Secretary of Energy may not enter into the subsequent arrangement), unless pursuant to the Secretary of State’s request, the President waives the sixty-day requirement and notifies the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of such waiver and the justification therefor. The processing of any subsequent arrangement proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section.

(d) Activities not prohibited, precluded, or limited

Nothing in this section is intended to prohibit, permanently or unconditionally, the reprocessing of spent fuel owned by a foreign nation which fuel has been supplied by the United States, to preclude the United States from full participation in the International Nuclear Fuel Cycle Evaluation provided for in section 3224 of title 22; to in any way limit the presentation or consideration in that evaluation of any nuclear fuel cycle by the United States or any other participation; nor to prejudice open and objective consideration of the results of the evaluation.

(e) Jurisdiction of Secretary of Energy

Notwithstanding section 7172(d) of this title, the Secretary of Energy, and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section.

(f) Subsequent arrangements involving direct or indirect commitment of United States for storage or other disposition of foreign spent nuclear fuel in United States

(1) With regard to any subsequent arrangement under subsection (a)(2)(E) of this section (for the storage or disposition of irradiated fuel elements), where such arrangement involves a direct or indirect commitment of the United States for the storage or other disposition, interim or permanent, of any foreign spent nuclear fuel in the United States, the Secretary of Energy may not enter into any such subsequent arrangement, unless:

(A)(i) Such commitment of the United States has been submitted to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such commitment shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the commitment, any such commitment to be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions; or (ii) if the President has submitted a detailed generic plan for such disposition or storage in the United States to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title), which plan has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate and has not been disapproved during such sixty-day period by the adoption of a concurrent resolution stating in substance that Congress does not favor the plan; and the commitment is subject to the terms of an effective plan. Any such plan shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions;

(B) The Secretary of Energy has complied with subsection (a) of this section; and

(C) The Secretary of Energy has complied, or in the arrangement will comply with all other statutory requirements of this chapter, under sections 2074 and 2075 of this title and any other applicable sections, and any other requirements of law.

(2) Paragraph (1) shall not apply to the storage or other disposition in the United States of limited quantities of foreign spent nuclear fuel if the President determines that (A) a commitment under section 2074 or 2075 of this title of the United States for storage or other disposition of such limited quantities in the United States is required by an emergency situation, (B) it is in the national interest to take such immediate action, and (C) he notifies the Committees on Foreign Affairs and Science, Space, and Technology of the House of Representatives and the Committees on Foreign Relations and Energy and Natural Resources of the Senate of the determination and action, with a detailed explanation and justification thereof, as soon as possible.

(3) Any plan submitted by the President under paragraph (1) shall include a detailed discussion, with detailed information, and any supporting documentation thereof, relating to policy objectives, technical description, geographic information, cost data and justifications, legal and reg-
(4) For the purposes of this subsection, the term "foreign spent nuclear fuel" shall include any nuclear fuel irradiated in any nuclear power reactor located outside of the United States and operated by any foreign legal entity, government or nongovernment, regardless of the legal ownership or other control of the fuel or reactor and regardless of the origin or licensing of the fuel or reactor, but not including fuel irradiated in a research reactor.

**LIMITATIONS ON RECEIPT AND STORAGE OF SPENT NUCLEAR FUEL FROM FOREIGN RESEARCH REACTORS**

"(a) PURPOSE.—It is the purpose of this section to regulate the receipt and storage of spent nuclear fuel at the Department of Energy defense nuclear facility located at the Savannah River Site, South Carolina (in this section referred to as the 'Savannah River Site').

"(b) RECIPT IN EMERGENCY CIRCUMSTANCES.—When the Secretary of Energy determines that emergency circumstances make it necessary to receive spent nuclear fuel, the Secretary shall submit a notification of that determination to the Congress. The Secretary may not receive spent nuclear fuel at the Savannah River Site until the expiration of the 30-day period beginning on the date on which the Congress receives the notification.

"(c) LIMITATION ON STORAGE IN NON-EMERGENCY CIRCUMSTANCES.—The Secretary of Energy may not, under other than emergency circumstances, receive and store at the Savannah River Site any spent nuclear fuel in excess of that amount that as of the date of the enactment of this Act [Nov. 30, 1993] the Savannah River Site is capable of receiving and storing, until, with respect to the receipt and storage of any such spent nuclear fuel—

"(1) the completion of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4322(2)(C));

"(3) the signing by the Secretary of a record of decision following such completion.

"(d) LIMITATIONS ON RECEIPT.—The Secretary of Energy may not, under emergency or non-emergency circumstances, receive spent nuclear fuel if the spent nuclear fuel—

"(1) cannot be transferred in an expeditious manner from its port of entry in the United States to a storage facility that is located at a Department of Energy facility and is capable of receiving and storing the spent nuclear fuel; or

"(2) will remain on a vessel in the port of entry for a period that exceeds the period necessary to unload the fuel from the vessel pursuant to routine unloading procedures.

"(e) CRITERIA FOR PORT OF ENTRY.—The Secretary of Energy shall, if economically feasible and to the maximum extent practicable, provide for the receipt of spent nuclear fuel under this section at a port of entry in the United States which, as determined by the Secretary and compared to each other port of entry in the United States that is capable of receiving the spent nuclear fuel—

"(1) has the lowest human population in the area surrounding the port of entry;

"(2) is closest in proximity to the facility which will store the spent nuclear fuel; and

"(3) has the most appropriate facilities for, and experience in, receiving spent nuclear fuel.

"(f) DEFINITION.—In this section, the term 'spent nuclear fuel' means spent nuclear fuel that—

"(1) was originally exported to a foreign country from the United States in the form of highly enriched uranium; and

"(2) was used in a research reactor by the Government of a foreign country or by a foreign-owned or foreign-controlled entity.''

"(g) DEPARTMENT OF ENERGY RESPONSIBILITY FOR RECIPIENT.—The Secretary of Energy shall be responsible for establishing the criteria for the selection of the port of entry to receive spent nuclear fuel under this section.
§ 2160a. Review of Nuclear Proliferation Assessment Statements

No court or regulatory body shall have any jurisdiction under any law to compel the performance of or to review the adequacy of the performance of any Nuclear Proliferation Assessment Statement, or any annexes thereto, called for in this Act or in this chapter.

§ 2160b. Authority to suspend nuclear cooperation with nations which have not ratified the Convention on the Physical Security of Nuclear Material

The President may suspend nuclear cooperation under this chapter with any nation or group of nations which has not ratified the Convention on the Physical Security of Nuclear Material.

§ 2160c. Consultation with Department of Defense concerning certain exports and subsequent arrangements

(a) In addition to other applicable requirements—

(1) a license may be issued by the Nuclear Regulatory Commission under this chapter for the export of special nuclear material described in subsection (b) of this section; and

(2) approval may be granted by the Secretary of Energy under section 2160 of this title for the transfer of special nuclear material described in subsection (b) of this section; only after the Secretary of Defense has been consulted on whether the physical protection of that material during the export or transfer will be adequate to deter theft, sabotage, and other acts of international terrorism which would result in the diversion of that material. If, in the view of the Secretary of Defense based on all available intelligence information, the export or transfer might be subject to a genuine terrorist threat, the Secretary shall provide to the Nuclear Regulatory Commission or the Secretary of Energy, as appropriate, his written assessment of the risk and a description of the actions the Secretary of Defense considers necessary to upgrade physical protection measures.

(b) Subsection (a) of this section applies to the export or transfer of more than 2 kilograms of plutonium or more than 5 kilograms of uranium enriched to more than 20 percent in the isotopes 233 or 235.

Amendments

Effective Date of 1994 Amendment

Amendment by Pub. L. 103–236 effective 60 days after Apr. 30, 1994, see section 831 of Pub. L. 103–236, set out as an Effective Date note under section 6301 of Title 22, Foreign Relations and Intercourse.

§ 2160d. Further restrictions on exports

(a) In general

Except as provided in subsection (b) of this section, the Commission may issue a license for the export of highly enriched uranium to be used as a fuel or target in a nuclear research or test reactor only if, in addition to any other requirement of this chapter, the Commission determines that—

(1) there is no alternative nuclear reactor fuel or target enriched in the isotope 235 to a lesser percent than the proposed export, that can be used in that reactor;

(2) the proposed recipient of that uranium has provided assurances that, whenever an alternative nuclear reactor fuel or target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

(3) the United States Government is actively developing an alternative nuclear reactor fuel or target that can be used in that reactor.
(b) Medical isotope production

(1) Definitions

In this subsection:

(A) Highly enriched uranium

The term ‘‘highly enriched uranium’’ means uranium enriched to include concentration of U–235 above 20 percent.

(B) Medical isotope

The term ‘‘medical isotope’’ includes Molybdenum 99, Iodine 131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

(C) Radiopharmaceutical

The term ‘‘radiopharmaceutical’’ means a radioactive isotope that—

(i) contains byproduct material combined with chemical or biological material; and

(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

(D) Recipient country

The term ‘‘recipient country’’ means Canada, Belgium, France, Germany, and the Netherlands.

(2) Licenses

The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched uranium for medical isotope production if, in addition to any other requirements of this chapter (except subsection (a) of this section), the Commission determines that—

(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

(i) uses an alternative nuclear reactor fuel; or

(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.

(3) Review of physical protection requirements

(A) In general

The Commission shall review the adequacy of physical protection requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

(B) Imposition of additional requirements

If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

(4) First report to Congress

(A) NAS study

The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;

(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

(B) Feasibility

For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;

(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

(C) Report by the Secretary

Not later than 5 years after August 8, 2005, the Secretary shall submit to Congress a report that—

(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not...
latter than the date that is 4 years after the date of submission of the report.

(5) Second report to Congress

If the study of the National Academy of Sciences determines under paragraph (4)(A)(1) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after August 8, 2005, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

(6) Certification

At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

(7) Sunset provision

After the Secretary submits a certification under paragraph (6), the Commission shall, by rule, terminate its review of export license applications under this subsection.

(c) Definitions

As used in this section—

(1) the term “alternative nuclear reactor fuel or target” means a nuclear reactor fuel or target which is enriched to less than 20 percent in the isotope U–235;

(2) the term “highly enriched uranium” means uranium enriched to 20 percent or more in the isotope U–235; and

(3) a fuel or target “can be used” in a nuclear research or test reactor if—

(A) the fuel or target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy, and

(B) use of the fuel or target will permit the large majority of ongoing and planned experiments and isotope production to be conducted in the reactor without a large percentage increase in the total cost of operating the reactor.

AMENDMENTS

2005—Subsec. (a). Pub. L. 109–58, § 630(1), inserted heading and substituted “Except as provided in section (b) of this section, the Commission” for “The Commission” in introductory provisions. Subsecs. (b), (c). Pub. L. 109–58, § 630(2), (3), added subsec. (b) and redesignated former subsec. (b) as (c).

SUBCHAPTER XI—CONTROL OF INFORMATION

§ 2161. Policy of Commission

It shall be the policy of the Commission to control the dissemination and declassification of Restricted Data in such a manner as to assure the common defense and security. Consistent with such policy, the Commission shall be guided by the following principles:

(a) Until effective and enforceable international safeguards against the use of atomic energy for destructive purposes have been established by an international arrangement, there shall be no exchange of Restricted Data with other nations except as authorized by section 2164 of this title; and

(b) The dissemination of scientific and technical information relating to atomic energy should be permitted and encouraged so as to provide that free interchange of ideas and criticism which is essential to scientific and industrial progress and public understanding and to enlarge the fund of technical information.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1810(a) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2162. Classification and declassification of Restricted Data

(a) Periodic determination

The Commission shall from time to time determine the data, within the definition of Restricted Data, which can be published without undue risk to the common defense and security and shall thereupon cause such data to be declassified and removed from the category of Restricted Data.

(b) Continuous review

The Commission shall maintain a continuous review of Restricted Data and of any Classification Guides issued for the guidance of those in the atomic energy program with respect to the areas of Restricted Data which have been declassified in order to determine which information may be declassified and removed from the category of Restricted Data without undue risk to the common defense and security.

(c) Joint determination on atomic weapons; Presidential determination on disagreement

In the case of Restricted Data which the Commission and the Department of Defense jointly determine to relate primarily to the military utilization of atomic weapons, the determination that such data may be published without constituting an unreasonable risk to the common defense and security shall be made by the Commission and the Department of Defense jointly, and if the Commission and the Department of Defense do not agree, the determination shall be made by the President.
