§ 261. Policy as to settlement of disputes and disarmament

It is declared to be the policy of the United States to adjust and settle its international disputes through mediation or arbitration, to the end that war may be honorably avoided. It looks with apprehension and disfavor upon a general increase of armament throughout the world, but it realizes that no single nation can disarm, and that without a common agreement upon the subject every considerable power must maintain a relative standing in military strength.

§ 262c. Commitments for United States contributions to international financial institutions fostering economic development in less developed countries; continuation of participation

(a) Congressional findings

It is the sense of the Congress that—

(1) for humanitarian, economic, and political reasons, it is in the national interest of the United States to assist in fostering economic development in the less developed countries of this world;

(2) the development-oriented international financial institutions have proved themselves capable of playing a significant role in assisting economic development by providing to less developed countries access to capital and technical assistance and soliciting from them maximum self-help and mutual cooperation;

(3) this has been achieved with minimal risk of financial loss to contributing countries;

(4) such institutions have proved to be an effective mechanism for sharing the burden among developed countries of stimulating economic development in the less developed world; and

(5) although continued United States participation in the international financial institutions is an important part of efforts by the United States to assist less developed countries, more of this burden should be shared by other developed countries. As a step in that direction, in future negotiations, the United States should work toward aggregate contributions to future replenishments to international financial institutions covered by this Act not to exceed 25 per centum.

(b) Funding commitments to international financial institutions; availability of funds subject to appropriations

The Congress recognizes that economic development is a long-term process needing funding commitments to international financial institutions. It also notes that the availability of funds for the United States contribution to international financial institutions is subject to the appropriations process.

§ 262j. Use of renewable resources for energy production

(a) Promotion, etc., by United States in connection with international financial institutions

The United States Government, in connection with its voice and vote in the Inter-American Development Bank, the African Development Fund, and the Asian Development Bank, shall encourage such institutions—

(1) to promote the decentralized production of renewable energy;

(2) to identify renewable resources to produce energy in rural development projects and determine the feasibility of substituting them for systems using fossil fuel;

(3) to train personnel in developing technologies for getting energy from renewable resources;

(4) to support research into the use of renewable resources, including hydropower, biomass, solar photovoltaic, and solar thermal;

(5) to support an information network to make available to policymakers the full range of energy choices;

(6) to broaden their energy planning, analyses, and assessments to include consideration of the supply of, demand for, and possible uses of renewable resources; and

(7) to coordinate with the Agency for International Development and other aid organizations in supporting effective rural energy programs.

(b) “Renewable resource” defined

For purposes of this section, the term “renewable resource” means any energy resource which—

(1) meets the needs of rural communities;

(2) saves capital without wasting labor;

(3) is modest in scale and simple to install and maintain and which can be managed by local individuals;

(4) is acceptable and affordable; and

(5) does not damage the environment.

AMENDMENTS

1982—Subsec. (c). Pub. L. 97-375 struck out subsec. (c) which directed the Secretary of the Treasury, in consultation with the Director of the United States International Development Cooperation Agency, to report to Congress not later than six months after June 3, 1980, and annually thereafter on the progress toward achieving the goals set forth in this title.

CONGRESSIONAL STATEMENT OF FINDINGS RESPECTING USE OF RENEWABLE RESOURCES FOR ENERGY PRODUCTION IN POOR AND DEVELOPING COUNTRIES AND ROLE OF INTERNATIONAL FINANCIAL INSTITUTIONS

Pub. L. 96-259, title VI, § 601, June 3, 1980, 94 Stat. 432, provided that: “The Congress finds that—

“(1) without an adequate supply of energy at affordable prices the world’s poor will continue to be deprived of jobs, food, water, shelter, and clothing, and poor countries will continue to be economically and politically unstable;

“(2) dependence on increasingly expensive fossil fuel resources consumes too much of the capital available to poor countries with the result that funds are not available to meet the basic needs of poor people;

“(3) in many developing countries the cost of large central generators and long distance electrical distribution makes it unlikely that rural energy by means of a national grid will contribute to meeting the needs of poor people;

“(4) only one of eight rural inhabitants lives in an area which has access to electricity and even fewer rural inhabitants actually have or can afford electricity;

“(5) wood, animal and agricultural waste, and other ‘noncommercial’ fuels still supply about half the total energy in developing countries and all but a seventh in rural sectors;

“(6) growing dependence of the world’s poor on wood for heating and cooking has forced the overcutting of forests and as a consequence erosion and loss of available agricultural land; and

“(7) recent initiatives by the international financial institutions to develop and utilize decentralized solar, hydro, biomass, geothermal, and wind energy should be significantly expanded to make renewable energy resources increasingly available to the world’s poor on a wide scale.”

§ 262k. Financial assistance to international financial institutions; considerations and criteria

(a) Congressional declaration of intent

United States active participation in international financial institution activity is based on our national objective of furthering the economic and social development of the nations of the world, in particular the developing nations. The attainment of this national objective is most effectively realized through a world economic and financial system which is both free and stable. Therefore, it is the intent of the United States Congress that United States financial assistance to the international financial institutions should be primarily directed to those projects that would not generate excess commodity supplies in world markets, displace private investment initiatives or foster departures from a market-oriented economy.

(b) Effect of country adjustment programs; minimization of projected adverse impacts; avoidance of government subsidization

The Secretary of the Treasury shall instruct the representatives of the United States to the international financial institutions described in subsection (d) of this section to take into account in their review of loans, credits, or other utilization of the resources of their respective institutions, the effect that country adjustment programs would have upon individual industry sectors and international commodity markets in order to—

- (1) minimize any projected adverse impacts on such sector or markets of making such loans, credits, or utilization of resources; and
- (2) avoid whenever possible government subsidization of production and exports of international commodities without regard to eco-

nomical conditions in the markets for such commodities.

(c) Project proposals relating to mining, smelting, refining, and fabricating of minerals and metal products

More specifically, the following criteria should be considered as a basis for a vote by the respective United States Executive Director to each of the international financial institutions described in subsection (d) of this section against a project proposal involving the creation of new capacity or the expansion, improvement, or modification of mining, smelting, refining, and fabricating of minerals and metal products:

(1) Analysis shows that the risks, returns, and incentives of a project are such that it could be financed at reasonable terms by commercial lending services.

(2) Analysis by the United States Bureau of Mines indicates that surplus capacity in the industry for the primary product of the defined project would exist over half the period of the economic life of the project because of projected world demand and capacity conditions.

(3) United States imports of the commodity constitute less than 50 percent of the domestic production of the primary product in those cases where the United States is the substantial producer of such commodities.

(d) International financial institutions

The international financial institutions referred to in subsections (a) and (b) of this section are the International Monetary Fund, the International Bank for Reconstruction and Development, the International Development Association, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank.

CHANGE OF NAME

“United States Bureau of Mines” substituted for “Bureau of Mines” in subsec. (c)(2) pursuant to section 10(b) of Pub. L. 102–285, set out as a note under section 1 of Title 30, Mineral Lands and Mining. COPPER MINING, SMELTING, AND REFINING

Pub. L. 99–88, title I, § 501, Aug. 15, 1985, 99 Stat. 329, provided that: “The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the African Development Bank, and the African Development Fund to use the voice and vote of the United States to oppose any assistance by these institutions, using funds appropriated or made available pursuant to this Act or any other Act, for the production of any copper commodity for export or for the financing of the expansion, improvement, or modernization of copper mining, smelting, and refining capacity.”

§ 262k-1. Transparency of budgets**(a) Limitation**

Beginning three years after September 30, 1996, the Secretary of the Treasury shall instruct the United States Executive Director of each international financial institution to use the voice and vote of the United States to oppose any loan or other utilization of the funds of their respective institution, other than to address basic human needs, for the government of any country which the Secretary of the Treasury determines—

(1) does not have in place a functioning system for reporting to civilian authorities audits of receipts and expenditures that fund activities of the armed forces and security forces;

(2) has not provided to the institution information about the audit process requested by the institution.

(b) “International financial institution” defined

For purposes of this section, the term “international financial institution” shall include the institutions identified in section 532(b) of this Act.

§ 262L. Environmental reform measures and remedial measures; Committee on Health and the Environment**(a) Environmental reform measures; instructions to Executive Directors of Multilateral Development Banks**

The Secretary of the Treasury shall instruct the United States Executive Directors of the Multilateral Development Banks to—

(1) vigorously promote a commitment of these institutions to—

(A) add professionally trained staff with experience in ecology and related areas to undertake environmental review of projects, and strengthen existing staff exercising environmental responsibilities;

(B) develop and implement management plans to ensure systematic and thorough environmental review of all projects and activities affecting the ecology and natural resources of borrowing countries, including—

(i) creation of a line unit to carry out such reviews as part of the normal project cycle,

(ii) appointment of an environmental advisor to the Presidents of the Multilateral Development Banks,

(iii) institution of a regular program of monitoring all ongoing projects to ensure that contract conditions and general bank policies to protect the environment and indigenous peoples are fully complied with;

(C) create career and other institutional incentives for all professionally trained bank staff to incorporate environmental and natural resources concerns into project planning and country programming activities;

(2) vigorously promote changes in these institutions in their preparation of projects and country programs that will prompt staff and encourage borrower countries to—

(A) actively and regularly involve environmental and health ministers, or comparable representatives, at the national, regional and local level, in the preparation of environmentally sensitive projects and in bank-supported country program planning and strategy sessions;

(B) actively and regularly seek the participation of non-governmental indigenous peoples and conservation organizations in the host countries at all stages of project planning and strategy sessions;

(C) fully inform local communities and appropriate non-governmental organizations with interests in local development projects of all project planning sufficiently in advance of project appraisal to allow informed

participation of local communities and non-governmental organizations that may be adversely affected by them;

(3) establish a regular integrated multidisciplinary planning process to conduct land use capability analyses in reviewing potential loans. Such plans shall include, but not be limited to, a review of ongoing or other potential resource utilization efforts in and adjacent to the project area;

(4) vigorously promote a commitment of these institutions to develop and implement plans for the rehabilitation and management of the ecological resources of borrower nations on a sustained basis. Special attention shall be paid to soil conservation, wildlife, wetlands, estuaries, croplands, grasslands, forests, and fisheries, including—

(A) long-term programs of research designed to manage ecosystems properly;

(B) provision of adequate extension workers, park rangers, social forestry experts, and other appropriate personnel; and

(C) improved programs of training in environmental science and land-use planning;

(5) vigorously promote a commitment of these institutions to increase the proportion of their programs supporting environmentally beneficial projects and project components, such as technical assistance for environmental ministries and institutions, resource rehabilitation projects and project components, protection of indigenous peoples, and appropriate light capital technology projects. Other examples of such projects include small scale mixed farming and multiple cropping, agroforestry, programs to promote kitchen gardens, watershed management and rehabilitation, high yield wood lots, integrated pest management systems, dune stabilization programs, programs to improve energy efficiency, energy efficient technologies such as small scale hydro projects, rural solar energy systems, and rural and mobile telecommunications systems, and improved efficiency and management of irrigation systems.¹

(6) place an increased emphasis on upgrading the efficient use of energy and other resources by borrower nations. Such efforts shall include, but not be limited to—

(A) significantly increasing the proportion of energy project lending for energy efficiency improvements, and decentralized small scale facilities such as solar, wind, or biomass generating facilities; and

(B) conducting an analysis of the comparative costs of any new energy generating facilities with the cost of increasing the energy efficiency in the project service area;

(7) seek a commitment of these institutions to fund projects to protect and preserve crucial wetland systems and to avoid expenditures for projects designed to convert major wetland systems. Development proposals which may affect these areas should be the subject of detailed impact assessments so as to avoid detrimental impacts to fisheries, wildlife and other important resources;

(8) vigorously promote the establishment within the Economic Development Institute of the World Bank of a component which provides training in environmental and natural resource planning and program development;

(9) regularly raise, at meetings of the Boards of Directors of these institutions, the issue of their progress in improving their environmental performance, with specific focus on the measures set forth above; and

(10) require at least a four week project review period between the time when staff recommendations are presented to the board and board action on any projects.

(b) Joint evaluation of potential environmental problems and remedial measures

The Secretaries of Treasury and State, and the Administrator of the Agency for International Development, shall ensure and coordinate a thorough evaluation within the United States Government of the potential environmental problems, and the adequacy of measures to address these problems, associated with all proposed loans for projects involving large impoundments of rivers in tropical countries; penetration roads into relatively undeveloped areas; and agricultural and rural development programs. The potential environmental problems to be addressed in such evaluations shall include those relating to deterioration of water quality; siltation; spread of waterborne diseases; forced resettlement; deforestation; threats to the land, health and culture of indigenous peoples; wetlands disruption; topsoil management, water logging and salinization in irrigation projects; and pesticide misuse and resistance.

(c) Additional initiatives

The Secretary of the Treasury and the Secretary of State shall regularly undertake and continue diplomatic and other initiatives, in addition to those mentioned in subsection (a)(5), to discuss measures to improve the environmental performance of the Multilateral Development Banks with the representatives to these institutions, and with ministries from which they receive their instructions, of borrower and donor nations. In particular, joint efforts shall be undertaken with borrowers and donors to ensure cooperative implementation of the reforms described above.

(d) Special meetings of Boards of Governors

The Secretary of the Treasury and the Secretary of State shall propose formally that the Boards of Governors of each Multilateral Development Bank hold a special meeting within the next twelve months, focused specifically on environmental performance and better implementation of multilateral development policies designed to protect the environment and indigenous peoples.

(e) Reporting requirements generally

The Secretary of the Treasury shall prepare and submit to the Committees on Appropriations by January 15, 1987, and annually thereafter, a report documenting the progress the Multilateral Development Banks have made in implementing the environmental reform measures described in paragraphs one through eight of subsection (a).

¹ So in original. The period probably should be a semicolon.

(f) Reporting requirements respecting environmental staffing

In the report of the Secretary of the Treasury required by subsection (e), regarding the implementation of staffing measures suggested in subsection (a)(1)(A), the Secretary of the Treasury shall specifically discuss the progress of the International Bank for Reconstruction and Development in upgrading and adding environmentally trained professionals to each of its six regional offices to review projects for their prospective ecological impacts.

(g) Duties of Administrator of Agency for International Development

The Administrator of the Agency for International Development in conjunction with the Secretaries of Treasury and State shall—

(1) instruct overseas missions of the Agency for International Development and embassies of the United States to analyze the impacts of Multilateral Development Bank projects proposed to be undertaken in the host country well in advance of a project's approval by the relevant institution. Such reviews shall address the economic viability of the project; adverse impacts on the environment, natural resources, and indigenous peoples; and recommendations as to measures, including alternatives, that could eliminate or mitigate adverse impacts. If not classified under the national security system of classification, such information shall be made available to the public;

(2) in preparation of reviews required by subsection (g)(1), compile a list of categories of projects likely to have adverse impacts on the environment, natural resources, or indigenous peoples. The list shall be developed in consultation with interested members of the public and made available to the Committee on Appropriations by December 31, 1986 and semi-annually thereafter; and

(3) study the feasibility of creating a cooperative "early warning system" for projects of concern with other interested donors.

(h) Adverse impacts to environment, natural resources, or indigenous peoples; instructions to Executive Director of Multilateral Development Bank

If a review required by subsection (g)(1) identifies adverse impacts to the environment, natural resources, or indigenous peoples, the Secretary of the Treasury shall instruct the United States Executive Director of the Multilateral Development Bank to seek changes to the project necessary to eliminate or mitigate those impacts.

(i) Committee on Health and the Environment

The Administrator of the Agency for International Development shall appoint a Committee on Health and the Environment to examine opportunities for assisting countries in the proper use of agricultural and industrial chemicals and processes and alternatives such as integrated pest management. The committee shall be broadly representative of industry, agriculture, labor, health and environmental interests and shall report its preliminary findings to Congress before hearings on the fiscal year 1988 budget.

ECONOMIC GROWTH TO BE PREDICATED ON SUSTAINABLE MANAGEMENT OF NATURAL RESOURCES; GLOBAL CLIMATE CHANGE

Pub. L. 101-167, title V, §533, Nov. 21, 1989, 103 Stat. 1225, provided that:

"(a) It is the policy of the United States that sustainable economic growth must be predicated on the sustainable management of natural resources. The Secretary of the Treasury shall instruct the United States Executive Directors of each multilateral development bank (MDB) to promote vigorously within each MDB the expansion of programs in areas which address the problems of global climate change through requirements to—

"(1) augment and expand the professional staff of each MDB with expertise in end-use energy efficiency and conservation and renewable energy;

"(2) develop methodologies which allow borrowing countries to include investments in end-use energy efficiency and renewable energy as explicit alternatives in the 'least cost' energy sector investments plans they prepare with MDB assistance. Such plans shall give priority to projects and programs which support energy conservation, end-use efficiency and renewable energy sources in major economic sectors, and shall compare the economic and environmental costs of those actions with the economic and environmental costs of investments in conventional energy supplies;

"(3) provide analysis for each proposed loan to support additional power generating capacity, comparing the economic and environmental costs of investments in demand reduction, including energy conservation and end-use energy efficiency, with the economic and environmental costs of the proposal;

"(4) assure that systematic, detailed environmental impact assessments (EIA) of proposed energy

projects, or projects with potential significant environmental impacts, are conducted early in the project cycle. Assessments should include but not be limited to—

“(A) consideration of a wide range of alternatives to the proposed project including, where feasible, alternative investments in end-use energy efficiency and non-conventional renewable energy; and

“(B) encouragement and adoption of policies which allow for public participation in the EIA process;

“(5) include environmental costs in the economic assessment of the proposed projects with significant potential environmental impacts, or power projects, and if possible for all projects which involve expansion of generating capacity of more than 10 MW, develop a standard increase in project cost as a surrogate for the environmental costs;

“(6) encourage and promote end-use energy efficiency and renewable energy in negotiations of policy-based energy sector lending, and MDBs should consider not proceeding with policy-based sector loans which do not contain commitments from the borrowing country to devote a significant portion of its sector investments toward energy efficiency and renewable energy;

“(7) provide technical assistance as a component of all energy sector lending to help borrowing countries identify and pursue end-use energy efficiency investments. This technical assistance shall include support for detailed audits of energy use and the development of institutional capacity to promote end-use energy efficiency and conservation;

“(8) work with borrowing countries, with input from the public in both borrowing and donor countries, to develop loans for end-use energy efficiency and renewable energy, where possible ‘bundling’ small projects into larger, more easily financed projects; and

“(9) seek the convening of a special seminar for board members and senior staff of each MDB concerning alternate energy investment opportunities and end-use energy efficiency and conservation.

“(b) The Secretary of the Treasury as a part of the annual report to the Congress shall describe in detail, progress made by each of the MDBs in adopting and implementing programs meeting the standards set out in subsection (a), including in particular—

“(1) efforts by the Department of Treasury to assure implementation by each of the MDBs of programs substantially equivalent to those set out in this section, and results of such efforts;

“(2) progress made by each MDB in drafting and implementing least cost energy plans for each recipient country which meets requirements outlined in subsection (a)(2);

“(3) the absolute dollar amounts, and proportion of total lending in the energy sector, of loans and portions of loans, approved by each MDB in the previous year for projects or programs of end-use energy efficiency and conservation and renewable energy.

“(c) Not later than April 1, 1990, the Secretary of the Treasury shall request each MDB to prepare an analysis of the impact its current forestry sector loans will have on borrowing country emissions of CO₂ and the status of proposals for specific forestry sector activities to reduce CO₂ emissions.

“(d)(1) The Administrator of the Agency for International Development shall issue guidance to all Agency missions and bureaus detailing the elements of a ‘Global Warming Initiative’ which will emphasize the need to reduce emissions of greenhouse gases, especially CO₂, through strategies consistent with their continued economic development. This initiative shall emphasize the need to accelerate sustainable development strategies in areas such as reforestation, biodiversity, end-use energy efficiency, least-cost energy planning, and renewable energy, and shall encourage mission directors to incorporate the elements of this initiative in developing their country programs.

“(2) The Agency for International Development shall—

“(A) increase the number and expertise of personnel devoted to end-use energy efficiency, renewable energy, and environmental activities in all bureaus and missions;

“(B) devote increased resources to technical training of mission directors, in energy planning, energy conservation, end-use energy efficiency, renewable energy, reforestation, and biodiversity;

§ 2621-1. Sustainable economic growth and management of natural resources; environmental impact of loans; pest management; addition of trained professionals; “early warning system”

(a) Implementation of programs to promote sustainable economic growth and management of natural resources; instructions to Executive Directors of Multilateral Development Banks

It is the policy of the United States that participation in international financial institutions is predicated on the implementation of programs to promote environmentally sustainable economic growth and sustainable management of natural resources. The Secretary of the Treasury shall instruct the United States Executive Directors of the Multilateral Development Banks (MDB’s) to continue to vigorously promote a commitment of these institutions to—

(1) add appropriately trained professional staff with expertise, and rigorously strengthen existing staffs’ training in ecology and related areas;

(2) develop and implement management plans to ensure systematic environmental review of all projects;

(3) fully inform and involve host country environmental and health officials (Federal and local) and nongovernmental environmental and indigenous peoples organizations at all stages of the project cycle in environmentally sensitive projects as well as in policy based lending to ensure the active participation of local communities and non-governmental organizations in the planning of projects that may adversely affect them;

(4) substantially increase the proportion of lending supporting environmentally beneficial projects and project components, including but not limited to technical assistance for environmental ministries and institutions, resource rehabilitation projects and project components, protection of indigenous peoples, and appropriate light capital technology projects. Other examples of such projects include small scale mixed farming and multiple cropping, agroforestry, programs to promote kitchen gardens, watershed management and rehabilitation, high yield wood lots, integrated pest management systems, dune stabilization programs, programs to improve energy efficiency, energy efficient technologies such as small scale hydro projects, solar, wind

and biomass energy systems, rural and mobile telecommunications systems, and improved efficiency and management of irrigation systems; and

(5) conduct analyses of the comparative costs of new generating facilities with the cost of increasing energy efficiency in the project service area.

(b) Environmental impact of loans; instructions to Executive Directors

The Secretary of the Treasury shall instruct the United States Executive Directors of the MDB’s and, where appropriate, the International Monetary Fund (IMF) to—

(1) promote the requirement that all country lending strategies, policy based loans and adjustment programs contain analyses of the impact of such activities on the natural resources, potential for sustainable development, and legal protections for the land rights of indigenous peoples;

(2) promote the establishment of programs of policy-based lending in order to improve natural resource management, environmental quality, and protection of biological diversity;

(3) seek a commitment of these institutions to promote the conservation of wetlands, tropical forests, and other unique biological and highly productive ecosystems.

(c) Repealed. Pub. L. 101-240, title V, § 541(d)(8), Dec. 19, 1989, 103 Stat. 2518

(d) Pest management

In order to promote sustainable and non-chemical dependent agriculture, the Secretary of the Treasury shall instruct the United States Executive Directors of the MDB’s to initiate discussions with other directors of the MDB’s to propose that policies be established that integrated pest management and biological control of pests be a preferential and priority approach to pest management on all bank sponsored agricultural projects.

(e) Instructions to Executive Director to IMF

The Secretary of the Treasury shall instruct the United States Executive Director to the International Monetary Fund to promote the requirement that the IMF conduct an in-depth analysis of the impact of its adjustment policies and conditionality of its lending facilities on the environment, public health, natural resources and indigenous people.

(f) Support of donor nations for additional trained professionals

No later than March 30, 1988, the Secretary of State and the Administrator of the Agency for International Development shall initiate discussions with other donor nations, to explore ways in which said donor nations can support the addition of professionals trained in environmental and socio-cultural impact analysis to the Inter-American Development Bank, Asian Development Bank and African Development Bank. On the basis of such discussions the Secretary of State and the Administrator of the Agency for International Development shall provide resources, including professional staff on loan, and/or financial support, to ensure with other donor nations the addition of sufficient staff

trained in environmental and socio-cultural impact analysis to each of the above named regional development banks.

(g) Bilateral and multilateral discussions to strengthen environmental performance of Multilateral Development Banks

The Secretary of the Treasury and the Secretary of State, in cooperation with the Administrator of the Agency for International Development, shall conduct bilateral and multilateral discussions with other members of the MDB's to further strengthen the environmental performance of each bank. These discussions shall include, but not be limited to organizational, administrative and procedural arrangements to remove impediments to the efficient and effective management of assistance programs necessary to protect and ensure the sustainable use of natural resources and to carry out such assistance programs in consultation with affected local communities.

(h) Operation of "early warning system"

The Administrator of the Agency for International Development, in consultation with the Secretaries of Treasury and State, shall continue, and work to enhance, the operation of the "early warning system", by—

(1) instructing overseas missions of the Agency for International Development and embassies of the United States to analyze the impacts of Multilateral Development Bank loans well in advance of a loan's approval. Such reviews shall address the economic viability of the project; adverse impacts on the environment, natural resources, public health, and indigenous peoples; and recommendations as to measures, including alternatives, that could eliminate or mitigate adverse impacts. If not classified under the national security system of classification, such information shall be made available to the public;

(2) compiling a list of proposed Multilateral Development Bank loans likely to have adverse impacts on the environment, natural resources, public health, or indigenous peoples. The list shall contain the information identified in paragraph (1), shall be updated in consultation with interested members of the public, and shall be made available to the Committees on Appropriations by April 1, 1988 and semiannually thereafter; and

(3) creating a cooperative mechanism for sharing information collected through the "early warning system" with interested donor and borrowing nations and encouraging the Multilateral Development Banks to institute a similar system.

(i) Adverse impacts to environment, natural resources, or indigenous peoples; instructions to Executive Director of appropriate Multilateral Development Bank

If a review required by subsection (h) identifies adverse impacts to the environment, natural resources, or indigenous peoples, the Secretary of the Treasury shall instruct the United States Executive Director of the appropriate MDB to seek changes to the project necessary to eliminate or mitigate those impacts.

(j) Report by February 1, 1988

The Committee on Health and Environment of the Agency for International Development, called for in section 262I(i) of this title, shall report its findings to the Committees on Appropriations by February 1, 1988.

(k) Report by August 1, 1988

The Secretary of State, in consultation with the Secretary of the Treasury, the Administrator of the Agency for International Development, other appropriate Federal agencies, and interested members of the public, shall prepare and submit to the Committees on Appropriations and the appropriate authorizing committees by August 1, 1988, a report on a comprehensive strategy for maximizing the use of foreign assistance provided by the United States through multilateral and bilateral development agencies to address natural resources problems, such as desertification, tropical deforestation, the loss of wetlands, soil conservation, preservation of wildlife and biological diversity, estuaries and fisheries, croplands and grasslands. The report shall include, but not be limited to—

(1) an identification of the multilateral and bilateral agencies funded in part or in whole by the United States Government, whose activities have, or could have, a significant impact on sustainable natural resource use, and the rights and welfare of indigenous people, in the developing countries;

(2) a description of the internal policies and procedures by which each of these agencies addresses these issues, as well as a description of their own organizational structures for doing so;

(3) an assessment of how the funds contributed by the United States to these agencies can best be used in the future to address these issues.

§ 262I-2. Sustainable use of natural resources; use of agricultural and industrial chemicals

(a) Instructions to Executive Directors of Multilateral Development Banks

It is the policy of the United States that sustainable economic growth must be predicated on sustainable use of natural resources. The Secretary of the Treasury shall instruct the United States Executive Directors of the Multilateral Development Banks (MDB's) to—

(1) promote the adoption of internal guidelines requiring the use of least-cost planning techniques in evaluating proposed energy loans, and consider refusal to support power generation, utilization or energy sector loans

unless cost-effective conservation measures have been fully evaluated and considered;

(2) encourage each MDB to offer technical assistance to borrower nations in preparing national energy plans. Special emphasis shall be given to least-cost analysis in making decisions on energy use and development, and such analyses shall take into account all demand-side as well as supply-side options;

(3) promote expansion of MDB expertise in the areas of energy conservation and renewable energy sources;

(4) promote the adoption of lending strategies which place increased emphasis on energy conservation and efficiency as opposed to merely increasing generating capacity;

(5) promote adoption of policies which minimize emissions of greenhouse gases;

(6) promote the adoption of lending strategies that place increased emphasis on energy efficient transportation programs. Such strategies shall consider alternatives to conventional mechanized transport such as non-motorized vehicles, public transport and increased energy and cost efficiency of transportation systems; and

(7) promote the use of existing and the development of new mechanisms to promote conservation of biological diversity. Existing resources to be consulted shall include but not be limited to Conservation Data Centers.

(b) Bilateral and multilateral discussions to strengthen environmental performance of Multilateral Development Banks

The Secretary of the Treasury and the Secretary of State, in cooperation with the Administrator of the Agency for International Development, shall conduct bilateral and multilateral discussions with other members of the MDB's to further strengthen the environmental performance of each bank. These discussions shall include, but not be limited to organizational, administrative and procedural arrangements to remove impediments to the efficient and effective management of assistance programs necessary to protect and ensure the sustainable use of natural resources and to carry out such assistance programs in consultation with affected local communities.

(c) Duties of Administrator of Agency for International Development

The Administrator of the Agency for International Development shall—

(1) in the submission of future “early warning system” reports, as required by the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, make use of resources that promote the conservation of biological diversity, such as Conservation Data Centers;

(2) submit a report to the Committees on Appropriations, by January 15, 1989, on the Agency's activities and practices which encourage or discourage the use of renewable energy technologies overseas, and on ways to correct or refocus those efforts. This report shall include but is not limited to Agency activities which could be directed to develop a stronger interface with the private sector through the establishment of a United States Renewable Energy Industry Advisory Council;

(3) issue guidance to all Agency missions stating that renewable energy resources and conservation are to be the centerpiece of its energy efforts, and meeting energy needs through these means shall be discussed in every Country Development Strategy Statement; and

(4) take steps to implement recommendations set forth by a report of the Committee on Health and Environment on opportunities for the Agency to assist developing countries in the proper use of agricultural and industrial chemicals.

§ 2621-3. Environmental and energy initiatives; benchmarks; Global Warming Initiative; appropriations

(a) Instructions to Executive Directors of Multilateral Development Banks

It is the policy of the United States that sustainable economic growth must be predicated on the sustainable management of natural resources. The Secretary of the Treasury shall instruct the United States Executive Director of each multilateral development bank (MDB) to continue to promote vigorously the environmental and energy initiatives established in section 533(a) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1991 (Public Law 101-513). The Secretary of the Treasury, in cooperation with the Secretary of State, shall also undertake direct, bilateral discussions with appropriate officials of the governments of the member nations of the Organization for Economic Cooperation and Development with a goal of building greater international support for the environmental goals established in subsection (d) of this section. The Secretary of the Treasury shall submit a report to the Committees on Appropriations by March 1, 1993, which describes the progress of these bilateral discussions.

(b) Report to Congress

The Secretary of the Treasury shall, not later than March 1, 1993, submit a report to the Congress containing the same information as requested in section 533(b) of Public Law 101-513.

(c) Improved environmental performance; benchmarks

(1) In furtherance of the policies contained in section 533(a) of Public Law 101-513 and section

1308¹ of the International Development and Finance Act of 1989 (Public Law 101-240), and as a basis for measuring more effectively progress by the MDBs toward improved environmental performance, the Secretary of the Treasury shall instruct the United States Executive Directors of the MDBs to encourage each MDB, at a minimum, to meet the benchmarks established in paragraph (2) in the areas of sustainable energy development, forest conservation, forced displacement of populations, and environmental impact assessment. On March 1, 1993 and March 1, 1994, the Secretary of the Treasury shall submit a report to the Congress describing in detail the progress being made by the MDBs in meeting these benchmarks.

(2) For the purposes of paragraph (1), benchmarks are as follows:

(A) In the area of sustainable energy development—

(i) all loans in the energy sector should be based on, or support development of, “least-cost” integrated resource plans. Such plans shall include analyses of possible end-use energy efficiency measures and nonconventional renewable energy options, and such plans shall reflect the quantifiable environmental costs of proposed energy developments;

(ii) a substantial portion of loans and grants in the energy, industry, and transportation sectors shall be devoted to end-use energy efficiency improvements and nonconventional renewable energy development; and

(iii) all organizational units within the MDBs should create staff positions in a management role in end-use efficiency and renewable energy, which positions shall be staffed by individuals with professional experience in program design and management and educational degrees in relevant technical disciplines.

(B) In the area of forest conservation—

(i) forestry loans should not support commercial logging in relatively undisturbed primary forests, nor should loans result in any significant loss of tropical forests;

(ii) forestry loans should not be disbursed until legal, economic, land tenure, and other policy conditions needed to ensure sustainability are in place;

(iii) loans should not support mineral, petroleum, or other industrial development in, or construction or upgrading of roads through, relatively undisturbed primary forests unless adequate safeguards and monitoring systems, developed in consultation with local populations, are already in place to prevent degradation of the surrounding forests;

(iv) loans should be consistent with and support the needs and rights of indigenous peoples and other long-term forest inhabitants and should not be made to countries which have shown an unwillingness to resolve fairly the territorial claims of such people; and

(v) support for protection of biological diversity, in close consultation with local communities, should be increased to account for a larger proportion of MDB lending.

(C) In the area of forced displacement of populations—

(i) the World Bank, Inter-American Development Bank, and Asian Development Bank should maintain a listing, available to the Secretary of the Treasury, of all ongoing projects involving forced displacement of populations, including the number of people displaced and a report on the status of the implementation of their resettlement policy guidelines for each such project, and obtain agreements with borrowers to ensure that all ongoing projects involving forced displacement will be in full compliance with their resettlement policy guidelines by mid-1993; and

(ii) the African Development Bank should adopt and implement policy guidelines on forced displacement similar to such guidelines of the other MDBs.

(D) In the area of procedures for environmental impact assessment (EIA)—

(i) each MDB should require that draft and final EIA reports be made available to the public in borrowing and donor countries and that the public be offered timely opportunities for comment on the EIA process, including initial scoping sessions, review of EIA categories assigned to individual projects, and opportunities to comment on draft and final EIA reports;

(ii) each MDB should apply EIA requirements to all sector loans and develop and apply the methodology for environmental assessment of structural adjustment loans;

(iii) each MDB should require that the EIA process include analyses of the potential impacts of proposed projects on the global environment; and

(iv) each MDB should require the head of the appropriate environmental unit, rather than project officers, determine the appropriate type of environmental analysis required under the bank’s EIA procedures.

(d) Global Warming Initiative

The Administrator of the Agency for International Development shall instruct all Agency missions and bureaus to continue to implement all elements of the “Global Warming Initiative” as defined in, and which may continue under, the authorities of sections² 533(c)(1) through (4) of Public Law 101-513. The Initiative shall continue to emphasize the need to reduce emissions of greenhouse gases through strategies consistent with continued economic development, such as forest conservation, end-use energy efficiency, least-cost energy planning, and renewable energy development. The Administrator shall direct Agency mission directors to incorporate these strategies in their country programs.

§ 262m. Congressional findings and policies for multilateral development banks respecting environment, public health, natural resources, and indigenous peoples

The Congress finds that—

(1) United States assistance to the multilateral development banks should promote sustainable use of natural resources and the protection of the environment, public health, and the status of indigenous peoples in developing countries;

(2) multilateral development bank projects, policies, and loans have failed in some cases to provide adequate safeguards for the environment, public health, natural resources, and indigenous peoples;

(3) many development efforts of the multilateral development banks are more enduring and less costly if based on consultations with directly affected population groups and communities;

(4) developing country governments sometimes do not ensure that appropriate policies and procedures are in place to use natural resources sustainably or consult with affected population groups and communities, where costs could be reduced or benefits made more enduring; and

(5) in general, the multilateral development banks do not yet provide systematic and adequate assistance to their borrowers to encourage sustainable resource use and consultation with affected communities, where costs could be reduced or benefits made more enduring.

(2) Vigorously promote policies to increase the effectiveness of the International Monetary Fund in promoting market-oriented reform, trade liberalization, economic growth, democratic governance, and social stability through—

(A) establishing an independent monetary authority, with full power to conduct monetary policy, that provides for a non-inflationary domestic currency that is fully convertible in foreign exchange markets;

(B) opening domestic markets to fair and open internal competition among domestic enterprises by eliminating inappropriate favoritism for small or large businesses, eliminating elite monopolies, creating and effectively implementing anti-trust and anti-monopoly laws to protect free competition, and establishing fair and accessible legal procedures for dispute settlement among domestic enterprises;

(C) privatizing industry in a fair and equitable manner that provides economic opportunities to a broad spectrum of the population, eliminating government and elite monopolies, closing loss-making enterprises, and reducing government control over the factors of production;

(D) economic deregulation by eliminating inefficient and overly burdensome regulations and strengthening the legal framework supporting private contract and intellectual property rights;

(E) establishing or strengthening key elements of a social safety net to cushion the effects on workers of unemployment and dislocation; and

(F) encouraging the opening of markets for agricultural commodities and products by requiring recipient countries to make efforts to reduce trade barriers.

(3) Vigorously promote policies to increase the effectiveness of the International Monetary Fund, in concert with appropriate international authorities and other international financial institutions (as defined in section 262r(c)(2) of this title), in strengthening financial systems in developing countries, and encouraging the adoption of sound banking principles and practices, including the development of laws and regulations that will help to ensure that domestic financial institutions meet strong standards regarding capital reserves, regulatory oversight, and transparency.

(4) Vigorously promote policies to increase the effectiveness of the International Monetary Fund, in concert with appropriate international authorities and other international financial institutions (as defined in section 262r(c)(2) of this title), in facilitating the development and implementation of internationally acceptable domestic bankruptcy laws and

regulations in developing countries, including the provision of technical assistance as appropriate.

(5) Vigorously promote policies that aim at appropriate burden-sharing by the private sector so that investors and creditors bear more fully the consequences of their decisions, and accordingly advocate policies which include—

(A) strengthening crisis prevention and early warning signals through improved and more effective surveillance of the national economic policies and financial market development of countries (including monitoring of the structure and volume of capital flows to identify problematic imbalances in the inflow of short and medium term investment capital, potentially destabilizing inflows of offshore lending and foreign investment, or problems with the maturity profiles of capital to provide warnings of imminent economic instability), and fuller disclosure of such information to market participants;

(B) accelerating work on strengthening financial systems in emerging market economies so as to reduce the risk of financial crises;

(C) consideration of provisions in debt contracts that would foster dialogue and consultation between a sovereign debtor and its private creditors, and among those creditors;

(D) consideration of extending the scope of the International Monetary Fund's policy on lending to members in arrears and of other policies so as to foster the dialogue and consultation referred to in subparagraph (C);

(E) intensified consideration of mechanisms to facilitate orderly workout mechanisms for countries experiencing debt or liquidity crises;

(F) consideration of establishing ad hoc or formal linkages between the provision of official financing to countries experiencing a financial crisis and the willingness of market participants to meaningfully participate in any stabilization effort led by the International Monetary Fund;

(G) using the International Monetary Fund to facilitate discussions between debtors and private creditors to help ensure that financial difficulties are resolved without inappropriate resort to public resources; and

(H) the International Monetary Fund accompanying the provision of funding to countries experiencing a financial crisis resulting from imprudent borrowing with efforts to achieve a significant contribution by the private creditors, investors, and banks which had extended such credits.

(6) Vigorously promote policies that would make the International Monetary Fund a more effective mechanism, in concert with appropriate international authorities and other international financial institutions (as defined in section 262r(c)(2) of this title), for promoting good governance principles within recipient countries by fostering structural reforms, including procurement reform, that reduce opportunities for corruption and bribery, and drug-related money laundering.

(7) Vigorously promote the design of International Monetary Fund programs and assistance so that governments that draw on the International Monetary Fund channel public funds away from unproductive purposes, including large "show case" projects and excessive military spending, and toward investment in human and physical capital as well as social programs to protect the neediest and promote social equity.

(8) Work with the International Monetary Fund to foster economic prescriptions that are appropriate to the individual economic circumstances of each recipient country, recognizing that inappropriate stabilization programs may only serve to further destabilize the economy and create unnecessary economic, social, and political dislocation.

(9) Structure International Monetary Fund programs and assistance so that the maintenance and improvement of core labor standards are routinely incorporated as an integral goal in the policy dialogue with recipient countries, so that—

(A) recipient governments commit to affording workers the right to exercise internationally recognized core worker rights, including the right of free association and collective bargaining through unions of their own choosing;

(B) measures designed to facilitate labor market flexibility are consistent with such core worker rights; and

(C) the staff of the International Monetary Fund surveys the labor market policies and practices of recipient countries and recommends policy initiatives that will help to ensure the maintenance or improvement of core labor standards.

(10) Vigorously promote International Monetary Fund programs and assistance that are structured to the maximum extent feasible to discourage practices which may promote ethnic or social strife in a recipient country.

(11) Vigorously promote recognition by the International Monetary Fund that macroeconomic developments and policies can affect and be affected by environmental conditions and policies, and urge the International Monetary Fund to encourage member countries to pursue macroeconomic stability while promoting environmental protection.

(12) Facilitate greater International Monetary Fund transparency, including by enhancing accessibility of the International Monetary Fund and its staff, fostering a more open release policy toward working papers, past evaluations, and other International Monetary Fund documents, seeking to publish all Letters of Intent to the International Monetary Fund and Policy Framework Papers, and establishing a more open release policy regarding Article IV consultations.

(13) Facilitate greater International Monetary Fund accountability and enhance International Monetary Fund self-evaluation by vigorously promoting review of the effectiveness of the Office of Internal Audit and Inspection and the Executive Board's external evaluation pilot program and, if necessary, the establishment of an operations evaluation de-

partment modeled on the experience of the International Bank for Reconstruction and Development, guided by such key principles as usefulness, credibility, transparency, and independence.

(14) Vigorously promote coordination with the International Bank for Reconstruction and Development and other international financial institutions (as defined in section 262r(c)(2) of this title) in promoting structural reforms which facilitate the provision of credit to small businesses, including microenterprise lending, especially in the world's poorest, heavily indebted countries.

(15) Work with the International Monetary Fund to—

(A) foster strong global anti-money laundering (AML) and combat the financing of terrorism (CFT) regimes;

(B) ensure that country performance under the Financial Action Task Force anti-money laundering and counterterrorist financing standards is effectively and comprehensively monitored;

§ 262p-4a. Loan programs to reduce economic dependence on illicit narcotics

(a) Findings

The Congress finds that—

(1) the illicit narcotics epidemic currently afflicting the United States represents a direct threat to the well-being of every United States citizen;

(2) every effective means must be pursued to reduce the foreign production and subsequent importation into the United States of illicit narcotics;

(3) the multilateral development banks can play an integral role in efforts to control the production of illicit narcotics;

(4) producer country narcotics eradication programs will not be effective unless such programs provide an economic alternative to the production of narcotics;

(5) efforts to address the illicit narcotics epidemic through production control are doomed to failure unless greater effort is applied to curb use of and demand for illicit narcotics; and

(6) the appropriate role for the multilateral development banks in the “War Against Drugs” is through coordinating and financing alternative economic opportunities in producer and trafficking countries.

(b) Loan programs to reduce economic dependence on illicit narcotics

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development and the United States Executive Director of the Inter-American Development Bank to initiate discussions with other executive directors of such institutions and to advocate and support the creation, within such institutions, of specific country lending programs and policies (including crop substitution, creation of roads conducive to the expansion of markets for licit goods, other infrastructure development measures such as development projects generating employment, agricultural extension assistance, and region-specific development plans) which are particularly oriented to reducing or eliminating the economic dependence of regions of borrowing countries known to be areas in which illicit narcotics are produced or trafficked, on such production and trafficking.

(c) Coordination among assistance programs designed to reduce economic dependency on illicit narcotics

In addition, the Secretary of the Treasury should instruct the United States Executive Director of the International Bank for Reconstruction and Development and the United States Executive Director of the Inter-American Development Bank to encourage such institutions to provide coordination among other multilateral and bilateral assistance programs designed to reduce the economic dependence of regions of borrowing countries known to be areas in which illicit narcotics are produced or trafficked, on such production and trafficking.

§ 262p-4b. Directives regarding government-owned enterprises in countries receiving World Bank loans

(a) Finding

The Congress finds that a principal focus of United States Government policy in the multilateral development banks has been and should be to foster greater development of the private sector in member borrowing countries of such banks.

(b) Technical assistance to transform government-owned enterprises into privately owned enterprises

In order to assist and strengthen the advancement of ongoing efforts to have the International Bank for Reconstruction and Development play a key role in building a viable private sector in member borrowing countries of such bank, and to further assist such bank in its determination to facilitate the transfer of government-owned enterprises in such countries to private ownership, the Secretary of the Treasury shall instruct the United States Executive Director of such bank to vigorously encourage the provision of technical assistance to such countries (relying, where appropriate, on the expertise of the International Finance Corporation or the Multilateral Investment Guarantee Agency) to transform enterprises owned, in whole or part, by the governments of such countries into privately owned, self-sufficient enterprises. Such technical assistance may involve the valuation of the assets of such government-owned enterprises, the assessment of tender offers, and the creation or strengthening of market-based mechanisms to facilitate such a transfer of ownership.

(c) Reports

(1) In general

The United States Executive Director of the International Bank for Reconstruction and Development shall submit 3 reports to the Congress on—

(A) the progress made in transforming government-owned enterprises into privately owned enterprises as described in subsection (b) of this section;

(B) the performance of the privately owned enterprises resulting from such transformation; and

(C) the contributions of development finance companies toward strengthening the

private sector in member borrowing countries.

(2) Timing

§ 262p-4c. Initiation of discussions to facilitate debt-for-development swaps for human welfare and environmental conservation

(a) Findings

The Congress finds that—

(1) voluntary debt-for-development swaps in heavily indebted developing nations can simultaneously facilitate reduction of the burden of external indebtedness and increase the resources available within the country for charitable, educational, and scientific purposes, including environmental conservation, education, human welfare, health, agricultural research and development, microenterprise credit, and development of indigenous non-profit organizations; and

(2) heavily indebted developing countries may desire to facilitate such swaps to the maximum extent consistent with sound domestic economic management and minimization of inflationary impact.

(b) Initiation of discussions to facilitate debt-for-development swaps for human welfare and environmental conservation

(1) In general

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to initiate discussions with the directors of such bank, the International Development Association, and the International Finance Corporation and propose that such institutions provide advice and assistance, as appropriate, to borrowing country governments desiring to facilitate debt-for-development swaps, on mechanisms (including trust funds) to accomplish this purpose, particularly in the context of debt rescheduling, which mechanisms result in sound management of the macroeconomic impact of such swaps on such countries, and preserve the value of the capital obtained through such swaps.

As used in this section:

(A) Debt-for-development swap

The term “debt-for-development swap” means the purchase of qualified debt by, or

the donation of such debt to, an organization described in section 501(c)(3) of title 26 which is exempt from taxation under section 501(a) of title 26, and the subsequent transfer of such debt to an organization located in such foreign country in exchange for an undertaking by such tax-exempt organization, such foreign government, or such foreign organization to engage in a charitable, educational, or scientific activity.

§ 262p-4d. Initiation of discussions to facilitate financing of human welfare and natural resource programs in sub-Saharan Africa in connection with debt reduction and conversion

(a) Findings

The Congress finds that—

(1) the heavy burden of debt borne by sub-Saharan governments undermines efforts by such governments to finance projects and programs designed to promote charitable, educational, and scientific purposes, including education, human welfare, health, agricultural research and development, and conservation, restoration and enhancement of the natural resource base; and

(2) the financing of programs to promote such charitable, educational, and scientific purposes should be facilitated in the context of reducing and converting sovereign debt of sub-Saharan governments, as encouraged in the final communique of the June 1988 economic summit conference in Toronto, Canada, through such means as—

(A) concessional interest rates;

(B) extended repayment periods; or

(C) partial or complete write-offs of debt service obligations.

(b) Initiation of discussions to facilitate financing of human welfare and natural resource programs in sub-Saharan Africa in connection with debt reduction and conversion

The Secretary of the Treasury shall instruct the United States Executive Director of the Af-

rican Development Bank and the African Development Fund to initiate discussions with the directors of such institutions and propose that such institutions, jointly with the International Bank for Reconstruction and Development, the International Development Association, and the International Finance Corporation, as appropriate, provide advice and assistance to government creditors holding sovereign debt of any sub-Saharan government, and to sub-Saharan governments which desire to finance programs with local currencies obtained through debt reduction and conversion to promote charitable, educational, and scientific (including conservation and restoration of natural resources) purposes, as a condition of reducing or converting such sovereign debt.

(a) In general

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to initiate discussions with the directors of such bank and propose that such bank consider, as an important factor in making loans to borrowing country governments, the history of compliance by such governments with, and the extent to which such governments have honored, agreements entered into by such governments as part of any debt-for-development swap which requires such governments to set aside or otherwise limit the use of real property to conservation purposes.

(b) Definitions

As used in this section:

§ 262p-4f. Assistance to countries to develop statistical assessment of well-being of poor

(a) Findings

The Congress finds that—

(1) improvement in the capacity of developing countries to measure and monitor regularly the nutritional and physical well-being of the poorest 40 percent of the population of each of such countries is essential to the development of policies to reduce absolute poverty;

(2) internationally accepted statistical indicators that measure reliably the extent of absolute poverty and identify the location and characteristics of the poor are being developed and refined to guide policy formulation and target assistance to the poor;

(3) such guidance by indicators is, however, not able to be used in some developing countries, especially the poorest countries, due to the woeful unavailability of statistical data;

(4) the International Bank for Reconstruction and Development and the International Development Association have the technical and financial capability to assist borrowing country governments to develop such statistical measurement capabilities for social indicators necessary for the design and monitoring of poverty-reduction policies for such governments;

(5) availability of social indicator data is also essential to the work of such institutions, particularly in monitoring the impact of structural adjustment lending on the poor; and

(6) availability of such indicators will also facilitate the measurement of progress in the alleviation of poverty by other donor agencies, public and private.

(b) Assistance to countries to develop statistical assessment of well-being of poor

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development and the International Development Association to advocate and support, as an immediate priority, assistance by such institutions to borrowing country governments to develop appropriate statistical measures for assessing the physical well-being of the poor, by sex and

age, by using such indicators as mortality, health, education, and nutrition, as well as wealth and income, and maintain and publish such indicators on an ongoing basis.

§ 262p-4h. Discussions to increase productive economic participation of poor; reports

(a) In general

The Secretary of the Treasury shall instruct the United States Executive Director for each multilateral development bank to vigorously and continually advocate, in all replenishment

negotiations and in discussion with other directors of such bank and with such bank, the following:

(1) A major objective of such bank's operations and financing in each borrowing country, as a long term priority, should be to increase the productive role of the poor in the economy of such country.

(2) Such bank should encourage and assist each borrowing country to develop sustainable national plans and strategies to eliminate the causes and alleviate the manifestations of poverty which keep the poor from leading economically and socially productive lives. Such plans and strategies should give attention to—

(A) the enhancement of human resources, including programs for basic nutrition, primary health services, basic education, and safe water and basic sanitation;

(B) access to income-generating activities, employment, and productive assets such as land and credit; and

(C) consultation with public sector social agencies and local non-governmental organizations.

(3) As an integral element of ongoing policy dialogue with each borrowing country to design structural adjustment plans and project lending programs, such bank should provide assistance consistent with achieving the objectives of the country's national plan for increasing the productive economic participation of the poor. Such dialogue should be conducted with government agencies working in social and economic sectors and with non-governmental groups in the borrowing country, especially those that have grassroots involvement with poor people.

(4) In an annual review document, such bank should describe the extent to which the goal of increasing the productive economic participation of the poor is being advanced or retarded and the steps that are being taken to overcome obstacles to its fulfillment. Such review should be based on information contained in the bank's country implementation review documents and in the country strategy documents for each borrowing country. Such country strategy documents should describe the national strategy for productive economic participation of the poor and the steps the bank plans to take to assist the borrowing country during the period covered by the country strategy document.

(5) Such bank should assist countries in assessing and monitoring progress in achieving poverty alleviation goals and targets through measurement by appropriate social indicators.

(6) Such bank should adopt procedures and budgetary allocations for administrative purposes, and establish appropriate staffing levels, to ensure that adequate resources are available to implement the bank's program for enhancing the productive economic participation of the poor, in consultation with non-governmental groups.

(7) Such bank should adopt, as a separate and major criterion in the allocation of concessional financing resources, a preferential allocation to each country which undertakes significant efforts to enhance the productive economic participation of the poor.

(8) Such bank should require each country which receives structural adjustment assistance to have in place, after a reasonable phase-in period, a strategy to enhance the productive economic participation of the poor.

(b) Progress report

Before the end of the 1-year period beginning on December 19, 1989, the Secretary of the Treasury shall submit to the Committee on Banking, Finance and Urban Affairs and the Committee on Appropriations of the House of Representatives, and the Committee on Foreign Relations and the Committee on Appropriations of the Senate, a report on the following:

(1) The status of advocacy and progress being made to implement the objectives of subsection (a) of this section, describing the success to date, the obstacles encountered, and future expectations of progress.

(2) A description of the progress to date in achieving the purposes of section 262p-4f of this title, including the institutional capacity and effort devoted to assisting in the development of statistical measures to assess the well-being of the poor.

(3) A description and evaluation of the progress to date in developing effective mechanisms for involving non-governmental organizations, directly or indirectly, in the design, implementation, and monitoring of development projects, programs, and policies of the multilateral development banks.

§ 262p-4i. Multilateral development banks and debt-for-nature exchanges

(a) Directions to United States Executive Directors

The Secretary of the Treasury shall direct the United States Executive Directors of the multilateral development banks to—

(1) negotiate for the creation in each respective multilateral development bank, except where the Secretary of the Treasury determines that the provisions of this subsection have previously been met, of a department that will—

(A) be responsible for environmental protection and resource conservation, including support for restoration, protection, and sustainable use policies;

(B) develop and monitor strict environmental guidelines and policies to govern lending activities; and

(C) actively promote, coordinate and facilitate debt-for-nature exchanges and the restoration, protection, and sustainable use of tropical forests, renewable natural resources, endangered ecosystems and species in debtor countries;

(2) support and encourage the approval of multilateral development bank loans which include provisions that foster and facilitate the implementation of a sound and effective environmental policy in the borrowing country;

(3) encourage the banks to assist such countries in reducing and restructuring private debt through the use of a portion of a project or policy based environmental loan in ways which will enable such countries to buy back private debt at a rate of discount available for such debt, at auction in the secondary market or through negotiations with creditors holding such debt;

(4) seek to ensure that staff of each bank facilitate debtor countries' collaboration with local and international non-governmental or private organizations in implementing debt-for-nature exchanges; and

(A) the inclusion of sustainable use policies in loan agreements negotiated with borrower members;

(B) the adoption of economic programs to foster sound environmental policies; and

(C) the provision of debtor countries' policy changes or significant increases in financial resources for use in at least 1 of the following—

(ix) promotion of regenerative approaches in farming, forestry, and watershed management.

(b) Negotiation of guidelines for restoration, protection, or sustainable use policies

The United States Executive Directors of the multilateral development banks shall seek to negotiate with the other executive directors to provide guidelines for restoration, protection, or sustainable use policies. Pending the outcome of such negotiations, the United States Executive Directors shall consider restoration, protection, or sustainable use policies to be those which—

(1) support development that maintains and restores the renewable natural resource base so that present and future needs of debtor countries' populations can be met, while not impairing critical ecosystems and not exacerbating global environmental problems;

(2) are environmentally sustainable in that resources are conserved and managed in an effort to remove pressure on the natural resource base and to make judicious use of the land so as to sustain growth and the availability of all natural resources;

(3) support development that does not exceed the limits imposed by local hydrological cycles, soil, climate, vegetation, and human cultural practices;

(4) promote the maintenance and restoration of soils, vegetation, hydrological cycles, wildlife, critical ecosystems (tropical forests, wetlands, and coastal marine resources), biological diversity and other natural resources essential to economic growth and human well-being and shall, when using natural resources, be implemented to minimize the depletion of such natural resources; and

(5) take steps, wherever feasible, to prevent pollution that threatens human health and important biotic systems and to achieve patterns of energy consumption that meet human needs and rely on renewable resources.

(c) Inclusion of certain items in guidelines

The United States Executive Directors shall endeavor to include the provisions of paragraphs (1) through (5) of subsection (b) of this section in the guidelines developed through the negotiations specified in this section.

(A) to enable, facilitate, or encourage the implementation of policy changes and institutional reforms under economic reform programs, in a manner that ensures that such policy changes and institutional reforms are designed and adopted through transparent and participatory processes;

(B) to adopt an integrated development strategy to support poverty reduction through economic growth, that includes monitorable poverty reduction goals;

(C) to take steps so that the financial benefits of debt relief are applied to programs to combat poverty (in particular through concrete measures to improve economic infrastructure, basic services in education, nutrition, and health, particularly treatment and prevention of the leading causes of mortality) and to redress environmental degradation;

(D) to take steps to strengthen and expand the private sector, encourage increased trade and investment, support the development of free markets, and promote broad-scale economic growth;

(F) to broaden public participation and popular understanding of the principles and

goals of poverty reduction, particularly through economic growth, and good governance; and

(b) Heavily Indebted Poor Countries review

The Secretary of the Treasury, after consulting with the Committees on Banking and Financial Services and International Relations of the House of Representatives, and the Committees on Foreign Relations and Banking, Housing, and Urban Affairs of the Senate, shall make every effort (including instructing the United States Directors at the IMF and World Bank) to ensure that an external assessment of the modified Heavily Indebted Poor Countries Initiative, including the reformed Enhanced Structural Adjustment Facility program as it relates to that Initiative, takes place by December 31, 2001, incorporating the views of debtor governments and civil society, and that such assessment be made public.

§ 277d-19. Compensation of owners and tenants to prevent economic injury; regulations

The United States Commissioner, under regulations approved by the Secretary of State, and upon application of the owners and tenants of lands to be acquired by the United States to fulfill and accomplish the purposes of said convention, and to the extent administratively determined by the Commissioner to be fair and reasonable, is authorized to—

a. Reimburse the owners and tenants for expenses and other losses and damages incurred by them in the process and as a direct result of such moving of themselves, their families, and their possessions as is occasioned by said acquisition: *Provided*, That the total of such reimbursement to the owners and tenants of any parcel of land shall in no event exceed 25 per centum of its fair value, as determined by the Commissioner. No payment under this subsection shall be made unless application therefor is supported by an itemized and certified statement of the expenses, losses, and damages incurred.

b. Compensate the said owners and tenants for identifiable, reasonable, and satisfactorily proved costs and losses to owners and tenants over and above those reimbursed under the foregoing subsection in the categories hereinafter provided, and for which purpose there shall be established by the Commissioner a board of examiners, consisting of such personnel employed and compensation fixed as he deems advisable, without regard to the provisions of the civil service laws and chapter 51 and subchapter III of chapter 53 of title 5. Said board may hold hearings and shall examine submitted evidence and make determinations, subject to the Commissioner’s approval, regarding all claims in said categories as follows:

(1) For properties—

(a) For nonconforming abodes and minimum forms of shelter for which there are no comparable properties on the market in the city of El Paso and concerning which fair market value would be inadequate to find minimum housing of equal utility, compensation to the owner up to an amount which when added to the market value allowed for his property, including land values, would enable purchase of minimum habitable housing of similar utility in another residential section of said city.

(b) For commercial properties for which there are no comparable properties on the market in or near El Paso, Texas, compensation to the owner up to an amount which, when added to the total fair market value, including the land value, would compensate the owner for the “value in use” of the real estate to him. Such “value in use” is to be determined on the basis of replacement cost less deterioration and obsolescence in existing real estate and taking into consideration factors bearing upon income attributable to the real estate.

(2) For loss in business:

(a) Loss of profits directly resulting from relocation, limited to the period between termination of business in the old location and commencement of business in the new, such period not to exceed thirty days.

(b) Loss to owner resulting from inability to rent to others housing or commercial space that can be reasonably related to uncertainties arising out of the pending acquisition of the owner’s property by the United States, such losses limited to those incurred after July 18, 1963, and prior to the making by the United States of a firm offer to purchase.

(3) For penalty costs to property owners for prepayment of mortgages incident to acquisition of the properties by the United States.

(Pub. L. 88-300, § 3, Apr. 29, 1964, 78 Stat. 184.)

CODIFICATION

§ 277d-20. Limitation on application for reimbursement or compensation

Any attorney who charges, demands, receives, or collects for services rendered in connection with such claim any amount in excess of that allowed by the terms of this section, if award be made, shall be fined not more than \$2,000 or imprisoned not more than one year, or both.

(Pub. L. 88-300, § 5, Apr. 29, 1964, 78 Stat. 185.)

§ 277d-22. Prohibition against duplicate payments; eligibility for payments unaffected by means employed for acquisition of property; rights and powers unaffected

Payments to be made as herein provided shall be in addition to, but not in duplication of, any payments that may otherwise be authorized by law. The means employed to acquire the property, whether by condemnation or otherwise, shall not affect eligibility for reimbursement or compensation under sections 277d-17 to 277d-25 of this title. Nothing contained in such sections shall be construed as creating any legal right or cause of action against the United States or as precluding the exercise by the Government of the right of eminent domain or any other right or power that it may have under such sections or any other law; nor shall such sections be construed as precluding an owner or tenant from asserting any rights he may have under other laws or the Constitution of the United States.

However, amounts received under subsection b. (1) shall be included in gross income to the extent that such amounts are not used within one year of the receipt thereof to purchase replacement housing or facilities.

PURPOSES

Act July 15, 1946, ch. 577, 60 Stat. 535, provided that: “Whereas in the Bretton Woods Agreements Act [this subchapter] the Congress has declared it to be the policy of the United States ‘to seek to bring about further agreement and cooperation among nations and international bodies, as soon as possible, on ways and means which will best reduce obstacles to and restrictions upon international trade, eliminate unfair trade practices, promote mutually advantageous commercial relations, and otherwise facilitate the expansion and balanced growth of international trade and promote the stability of international economic relations’; and

“Whereas in further implementation of the purposes of the Bretton Woods Agreements, the Governments of the United States and the United Kingdom have negotiated an agreement dated December 6, 1945, designed to expedite the achievement of stable and orderly exchange arrangements, the prompt elimination of exchange restrictions and discriminations, and other objectives of the above-mentioned policy declared by the Congress.”

FINANCIAL AGREEMENT BETWEEN THE GOVERNMENTS OF THE UNITED STATES AND THE UNITED KINGDOM

It is hereby agreed between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland as follows:

1. Effective date of the agreement: The effective date of this Agreement shall be the date on which the Government of the United States notifies the Government of the United Kingdom that the Congress of the United States has made available the funds necessary to extend to the Government of the United Kingdom the line of credit in accordance with the provisions of this Agreement.

2. Line of credit: The Government of the United States will extend to the Government of the United Kingdom a line of credit of \$3,750,000,000 which may be drawn upon at any time between the effective date of this Agreement and December 31, 1951, inclusive.

3. Purpose of the line of credit: The purpose of the line of credit is to facilitate purchases by the United Kingdom of goods and services in the United States, to assist the United Kingdom to meet transitional post-war deficits in its current balance of payments, to help the United Kingdom to maintain adequate reserves of gold and dollars, and to assist the Government of the United Kingdom to assume the obligations of multilateral trade, as defined in this and other agreements.

4. Amortization and interest:

(i) The amount of the line of credit drawn by December 31, 1951, shall be repaid in 50 annual installments beginning on December 31, 1951, with interest at the rate of 2 percent per annum. Interest for the year 1951 shall be computed on the amount outstanding on December 31, 1951, and for each year thereafter, interest shall be computed on the amount outstanding on January 1 of each such year.

Forty-nine annual installments of principal repayments and interest shall be equal, calculated at the rate of \$31,823,000 for each \$1,000,000,000 of the line of credit drawn by December 31, 1951, and the fiftieth installment shall be at the rate of \$31,840,736.65 for each such \$1,000,000,000. Each installment shall consist of the full amount of the interest due and the remainder of the installment shall be the principal to be repaid in that year. Payments required by this section are subject to the provisions of section 5.

(ii) The Government of the United Kingdom may accelerate repayment of the amount drawn under this line of credit.

5. Deferment of annual installments.

(i) In any calendar year after December 31, 1956, in which the Government of the United Kingdom advises the Government of the United States that it finds that a deferment is necessary in view of the present and prospective conditions of international exchange and the level of its gold and foreign exchange reserves, the Government of the United Kingdom may defer the payment of the annual installment for that year of principal repayment and interest specified under Section 4. Not more than seven (7) annual installments may be so deferred. The first of any such deferred installments shall be paid on December 31, 2001, and the others shall be paid annually thereafter, in order.

(ii) In addition, the installment of interest in respect of the year 1956 is hereby deferred, in lieu of any right of waiver hitherto existing. This installment shall be paid on December 31 of the year following that in which the last of all other installments, including installments deferred under the preceding paragraph, is due.

(iii) Deferred installments shall bear interest at the rate of 2 percent per annum, payable annually on December 31 of each year following that in which deferment occurs.

(iv) Payment of deferred installments may be accelerated, in whole or in part, at the option of the Government of the United Kingdom. [Amended Mar. 6, 1957, eff. Apr. 25, 1957.]

6. Relation of this line of credit to other obligations. The Government of the United Kingdom undertakes not to defer an installment under Section 5 of this Agreement in any year, unless it also defers the installment due in that year under the Financial Agreement between the Government of Canada and the Government of the United Kingdom, dated March 6, 1946. [Amended Mar. 6, 1957, eff. Apr. 25, 1957.]

7. Sterling area exchange arrangements: The Government of the United Kingdom will complete arrangements as early as practicable and in any case not later than one year after the effective date of this Agreement, unless in exceptional cases a later date is agreed upon after consultation, under which immediately after the completion of such arrangements the sterling receipts from current transactions of all sterling area countries (apart from any receipts arising out of military expenditure by the Government of the United Kingdom prior to December 31, 1948, to the extent to which they are treated by agreement with the countries concerned on the same basis as the balances accumulated during the war) will be freely available for current transactions in any currency area without discrimination; with the result that any discrimination arising from the so-called sterling area dollar pool will be entirely removed and that each member of the sterling area will have its current sterling and dollar receipts at its free disposition for current transactions anywhere.

8. Other exchange arrangements:

(i) Government of the United Kingdom agrees that after the effective date of this Agreement it will not apply exchange controls in such a manner as to restrict (a) payments or transfers in respect of products of the United States permitted to be imported into the United Kingdom or other current transactions between the two countries or (b) the use of sterling balances to the credit of residents of the United States arising out of current transactions. Nothing in this paragraph (i) shall affect the provisions of Article VII of the Articles of Agreement of the International Monetary Fund when those Articles have come into force.

(ii) The Governments of the United States and the United Kingdom agree that not later than one year after the effective date of this Agreement, unless in exceptional cases a later date is agreed upon after consultation, they will impose no restrictions on payments and transfers for current transactions. The obligations of this paragraph (ii) shall not apply:

(a) to balances of third countries and their nationals accumulated before this paragraph (ii) becomes effective; or

(b) to restrictions imposed in conformity with the Articles of Agreement of the International Monetary Fund, provided that the Governments of the United Kingdom and the United States will not continue to invoke the provisions of Article XIV, Section 2 of those Articles after this paragraph (ii) becomes effective, unless in exceptional cases after consultation they agree otherwise; or

(c) to restrictions imposed in connection with measures designed to uncover and dispose of assets of Germany and Japan.

(iii) This section and section 9, which are in anticipation of more comprehensive arrangements by multilateral agreement, shall operate until December 31, 1951.

9. Import arrangements: If either the Government of the United States or the Government of the United Kingdom imposes or maintains quantitative import restrictions, such restrictions shall be administered on a basis which does not discriminate against imports from the other country in respect of any product; provided that this undertaking shall not apply in cases in which (a) its application would have the effect of preventing the country imposing such restrictions from utilizing, for the purchase of needed imports, inconvertible currencies accumulated up to December 31, 1946, or (b) there may be special necessity for the country imposing such restrictions to assist, by measures not involving a substantial departure from the general rule of non-discrimination, a country whose economy has been disrupted by war, or (c) either government imposes quantitative restrictions having equivalent effect to any exchange restrictions which that government is authorized to impose in conformity with Article VII of the Articles of Agreement of the International Monetary Fund. The provisions of this section shall become

effective as soon as practicable but not later than December 31, 1946.

10. Accumulated sterling balances:

(i) The Government of the United Kingdom intends to make agreements with the countries concerned, varying according to the circumstances of each case, for an early settlement covering the sterling balances accumulated by sterling area and other countries prior to such settlement (together with any future receipts arising out of military expenditure by the Government of the United Kingdom to the extent to which they are treated on the same basis by agreement with the countries concerned). The settlements with the sterling area countries will be on the basis of dividing these accumulated balances into three categories (a) balances to be released at once and convertible into any currency for current transactions, (b) balances to be similarly released by installments over a period of years beginning in 1951, and (c) balances to be adjusted as a contribution to the settlement of war and postwar indebtedness and in recognition of the benefits which the countries concerned might be expected to gain from such a settlement. The Government of the United Kingdom will make every endeavor to secure the early completion of these arrangements.

(ii) In consideration of the fact that an important purpose of the present line of credit is to promote the development of multilateral trade and facilitate its early resumption on a non-discriminatory basis, the Government of the United Kingdom agrees that any sterling balances released or otherwise available for current payments will, not later than one year after the effective date of this Agreement unless in special cases a later date is agreed upon after consultation, be freely available for current transactions in any currency area without discrimination.

11. Definitions:

For the purposes of this Agreement:

(i) The term "current transactions" shall have the meaning prescribed in Article XIX (i) of the Articles of Agreement of the International Monetary Fund.

(ii) The term "sterling area" means the United Kingdom and the other territories declared by the Defence (Finance) Definition of the Sterling Area (No. 2) Order, 1944, to be included in the sterling area, namely "the following territories excluding Canada and Newfoundland, that is to say—

- (a) any Dominion,
- (b) any other part of His Majesty's dominions,
- (c) any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Majesty and is being exercised by His Majesty's Government in the United Kingdom or in any Dominion,
- (d) any British protectorate or protected State,
- (e) Egypt, the Anglo-Egyptian Sudan and Iraq,
- (f) Iceland and the Faroe Islands."

12. Consultation on Agreement: Either government shall be entitled to approach the other for a reconsideration of any of the provisions of this Agreement, if in its opinion the prevailing conditions of international exchange justify such reconsideration, with a view to agreeing upon modifications for presentation to their respective legislatures.

Signed in duplicate at Washington, District of Columbia this 6th day of December, 1945.

For the Government of the United States of America:

FRED M. VINSON,
Secretary of the Treasury
of the United States of America.

For the Government of the United Kingdom of Great Britain and Northern Ireland:

§ 286s. Consideration of basic human needs in economic adjustment programs supported by Fund

(a) Formulation and design of programs

The President shall instruct the Secretary of the Treasury, the Secretary of State, and other appropriate Federal officials to use all appropriate means to encourage countries, in formulating economic adjustment programs to deal with their balance of payments difficulties, to design those programs so as to safeguard, to the maximum feasible extent, jobs, investment, real per capita income, policies to reduce the gap in wealth between rich and poor, and social programs such as health, housing, and education.

(b) Changes in Fund guidelines, policies, and decisions; review prior to approval of standby arrangements; coordination among institutions; coordination between Fund and Bank; periodic analyses

To ensure the effectiveness of economic adjustment programs supported by Fund resources and the reinforcement of those programs by longer term efforts to promote sustained growth and improved living conditions—

(1) United States representatives to the Fund shall recommend and shall work for changes in Fund guidelines, policies, and decisions that would—

(A) permit stand-by arrangements to be extended beyond three years, as necessary to

enable Fund members to implement their economic adjustment programs successfully;

(B) provide that in approving any economic adjustment program the Fund shall take into account the effect such program will have on jobs, investment, real per capita income, the gap in wealth between the rich and poor, and social programs such as health, housing, and education, in order to seek to minimize the adverse impact of those adjustment programs on basic human needs; and

(C) provide that letters of intent submitted to the Fund in support of an economic adjustment program reflect that the member country has taken into account the effect such program will have on the factors listed in subparagraph (B);

(2)(A) before voting on the approval of any standby arrangement with respect to any economic adjustment program, the United States Executive Director shall review—

(i) any analysis of factors prepared by the Fund or the member country in accordance with subparagraphs (B) and (C) of paragraph (1), or

(ii) if no such analysis is prepared and available for such review, an analysis which shall be prepared by the United States Governor of the Fund which examines the effect of the program on the factors listed in subparagraph (B) of paragraph (1); and

(B) the United States Executive Director of the Fund shall take into account the analysis reviewed pursuant to subparagraph (A) of this paragraph in voting on approval of that standby arrangement;

(3) United States representatives to the Fund, to the Bank, and to other appropriate institutions shall work toward improving coordination among these institutions and, in particular, shall work toward formulation of programs in association with economic adjustment programs supported by Fund resources which (A) will, among other things, promote employment, investment, real income per capita, improvements in income distribution, and the objectives of social programs such as health, housing, and education, and (B) will, to the maximum extent feasible and consistent with the borrowing country's need to improve its balance of payments position within a reasonable period, ameliorate any adverse effects of economic adjustment programs on the poor;

(4) United States representatives to the Fund and the Bank shall seek amendments to decisions on policies on the use of Fund and Bank resources to provide that, where countries are seeking Extended Fund Facility or upper credit tranche drawings from the Fund and are eligible to receive financing from the Bank, the Fund and Bank will coordinate their financing activities in order—

(A) to take into account the effects of economic adjustment programs on the areas listed in clause (A) of paragraph (3),

(B) to provide, to the extent feasible, Bank project loans designed to safeguard and further basic human needs in countries adopting economic adjustment programs supported by Fund resources, and

(C) to provide, as appropriate, Bank financing for programs of structural adjustment that will facilitate development of a productive economic base and greater attainment of basic human needs objectives over the longer term; and

(5) United States representatives to the Fund and the Bank shall request the Fund and the Bank to provide periodic analyses of the effects of economic adjustment programs supported by Fund or Bank financing on jobs, investment, real income per capita, income distribution, and social programs such as health, housing, and education.

L. 96-389, §4(b), 94 Stat. 1553, directed the Secretary of the Treasury, in cooperation with the United States Director of the Fund, to study and report to Congress prior to May 15, 1981, with respect to adequacy of Fund resources and method of increasing Fund liquidity, promotion of more direct recycling of oil surpluses, and methods of providing adequate resources for balance-of-payments financing.

RECYCLING BALANCE-OF-PAYMENTS SURPLUSES BY OIL EXPORTING COUNTRIES

Pub. L. 96-389, §4(a), Oct. 7, 1980, 94 Stat. 1553, provided that: "It is the sense of the Congress that (1) the interests of the United States and those of other member countries require an effective International Monetary Fund equipped with resources adequate to facilitate orderly balance-of-payments adjustments; (2) persistent balance-of-payments surpluses in oil exporting countries have placed, and will continue to place, severe strains on the resources of oil importing countries and on the liquidity of the Fund; (3) these strains can only be relieved if the oil exporting countries assume a greater burden for financing balance-of-payments deficits through direct methods of recycling their surpluses and through proportionally greater contributions to the Fund and to the international lending institutions; and (4) the Fund must explore innovative proposals to encourage more direct recycling of oil surpluses and to increase its own liquidity."

§ 286u. Dollar-Special Drawing Rights substitution account

It is the sense of the Congress that the Secretary of the Treasury and the United States

Executive Director of the Fund shall encourage member countries of the Fund to negotiate a dollar-Special Drawing Rights substitution account in which equitable burden sharing would exist among participants in the account.

(July 31, 1945, ch. 339, §36, as added Pub. L. 96-389, §6, Oct. 7, 1980, 94 Stat. 1554.)

§ 286w. Denial of membership or other status in Fund for Palestine Liberation Organization; United States participation in Fund if membership or other status granted; report by President to Congress

It is the policy of the United States that the Palestine Liberation Organization should not be given membership in the Fund or be given observer status or any other official status at any meeting sponsored by or associated with the Fund. The United States Executive Director of the Fund shall promptly notify the Fund of such policy.

In the event that the Fund provides either membership, observer status, or any other official status to the Palestine Liberation Organization, such action would result in a serious diminution of United States support. Upon review of such action, the President would be required to report his recommendations to the Congress with regard to any further United States participation in the Fund.

§ 286x. Assistance to private sector of El Salvador, Nicaragua, and other nations

It is the sense of the Congress that in providing assistance through loans or other means to

any nation, in particular El Salvador and Nicaragua, the Fund and the Bank should encourage programs which assist the private sector to create an environment which will stabilize the economy of the nation; and that the United States representatives to the Fund and the Bank shall promote the use of assistance by the Fund and the Bank to encourage such programs.

§ 286y. Promoting conditions for exchange rate stability

(a) In order to help assure that the resources provided under section 286e-1i of this title are used to support pro-growth policies which will help establish the economic conditions necessary for more appropriate financial and exchange rate alignment and stability, it is the sense of Congress that the Secretary of the Treasury shall—

(1) in consultation with the Secretary of State and the United States Trade Representative, initiate discussions with other countries regarding the economic dislocations which result from structural exchange rate imbalances; and

(2) instruct the United States Executive Director of the Fund to work for adoption of policies in the Fund, both within the framework of article IV (of the Articles of Agreement of the Fund) consultations and with respect to the conditions associated with Fund-supported balance of payments adjustments programs, which promote conditions contributing to the stability of exchange rates and avoid the manipulation of exchange rates between major currencies. Among other initiatives, the Secretary of the Treasury shall propose strengthening the article IV consultation procedures of the Fund to attempt to ensure that countries which are artificially maintaining undervalued or overvalued rates of exchange agree to adopt market determined exchange rates.

(b) In determining his vote on extensions of assistance to any Fund borrower, the United States Executive Director of the Fund shall take into account whether such borrower's policies are consistent with the requirements of article IV of the Articles of Agreement of the Fund.

(July 31, 1945, ch. 339, §40, as added Pub. L. 98-181, title I [title VIII, §801], Nov. 30, 1983, 97 Stat. 1267.)

§ 286z. Collection and exchange of information on monetary and financial problems

(a) Sense of Congress

It is the sense of the Congress that—

(1) the lack of sufficient information currently available to allow members of the Fund to make sound and prudent decisions concerning their public and private sector international borrowing, and to allow lenders to

make sound and prudent decisions concerning their international lending, threatens the stability of the international monetary system; and

(2) in recognition of the Fund's duties, as provided particularly by article VIII of the Articles of Agreement of the Fund, to act as a center for the collection and exchange of information on monetary and financial problems, the Fund should adopt necessary and appropriate measures to ensure that more complete and timely financial information will be available.

(b) Initiation by United States Executive Director of discussions with other Directors; adoption of procedures

To this end, the Secretary of the Treasury shall instruct the United States Executive Director of the Fund to initiate discussions with other directors of the Fund and with Fund management, and to propose and vote for, the adoption of procedures, within the Fund—

(1) to collect and disseminate information, on a quarterly basis, from and to Fund members, and to such other persons as the Fund deems appropriate, concerning—

(A) the extension of credit by banks or nonbanks to private and public entities, including all government entities, instrumentalities, and central banks of member countries; and

(B) the receipt of such credit by those private and public entities of member countries, where such banks or nonbanks are not principally established within the borders of the member country to which the credits are extended; and

(2) to disseminate publicly information which is developed in the course of the Fund's collection, and to review and comment on efforts which the Fund determines would serve to enhance the informational base upon which international borrowing and lending decisions are taken.

(c) "Credit" defined

For purposes of this section, the term "credit" includes—

(1) outstanding loans to private and public entities, including government entities, instrumentalities, and central banks of any member, and

(2) unused lines of credit which have been made available to those private and public entities of any member,

where such loans or lines of credit are repayable in freely convertible currency.

(d) Providing necessary information

The President is authorized to use the authority provided under section 286f of this title to require any person (as defined in such section) subject to the jurisdiction of the United States to provide such information as the Fund determines to be necessary in order to carry out the provisions of this section.

(July 31, 1945, ch. 339, §42, as added Pub. L. 98-181, title I [title VIII, §802(a)(4)], Nov. 30, 1983, 97 Stat. 1269.)

§ 286aa. Instructions to United States Executive Director; Communist dictatorships

The Congress hereby finds that Communist dictatorships result in severe constraints on labor and capital mobility and other highly inefficient labor and capital supply rigidities which contribute to balance of payments deficits in direct contradiction of the goals of the International Monetary Fund. Therefore, the Secretary of the Treasury shall instruct the United States Executive Director of the Fund to actively oppose any facility involving use of Fund credit by any Communist dictatorship, unless the Secretary of the Treasury certifies and documents in writing upon request and so notifies and appears, if requested, before the Foreign Relations and Banking, Housing, and Urban Affairs Committees of the Senate and the Banking, Finance and Urban Affairs Committee of the House of Representatives, at least twenty-one days in advance of any vote on such drawing that such drawing—

(1) provides the basis for correcting the balance of payments difficulties and restoring a sustainable balance of payments position;

(2) would reduce the severe constraints on labor and capital mobility or other highly inefficient labor and capital supply rigidities and advances market-oriented forces in that country; and

(3) is in the best economic interest of the majority of the people in that country.

Should the Secretary not meet a request to appear before the aforementioned committees at least twenty-one days in advance of any vote on any facility involving use of Fund credit by any communist dictatorship and certify and document in writing that these three conditions have been met, the United States Executive Director shall vote against such program.

(July 31, 1945, ch. 339, §43, as added Pub. L. 98-181, title I [title VIII, §804], Nov. 30, 1983, 97 Stat. 1270; amended Pub. L. 103-149, §4(b)(6), Nov. 23, 1993, 107 Stat. 1505.)

AMENDMENTS

1993—Pub. L. 103-149 struck out “(a)” before “The Congress” and struck out subsec. (b) which related to use of International Monetary Fund credit by any country which practices apartheid.

§ 286bb. Elimination of predatory agricultural export subsidies

The Secretary of the Treasury shall instruct the United States Executive Director of the Fund to propose and work for the adoption of a

policy encouraging Fund members to eliminate all predatory agricultural export subsidies which might result in the reduction of other member countries' exports.

(July 31, 1945, ch. 339, §44, as added Pub. L. 98-181, title I [title VIII, §805], Nov. 30, 1983, 97 Stat. 1271.)

§ 286cc. Sustaining economic growth

(a) Economic adjustment programs

(1) The President shall instruct the Secretary of the Treasury, the Secretary of State, and other appropriate Federal officials, and shall request the Chairman of the Board of Governors of the Federal Reserve System, to use all appropriate means to encourage countries to formulate economic adjustment programs to deal with their balance of payment difficulties and external debt owed to private banks.

(2) Such economic adjustment programs should be designed to safeguard, to the maximum extent feasible, international economic growth, world trade, employment, and the long-term solvency of banks, and to minimize the likelihood of civil disturbances in countries needing economic adjustment programs.

(b) Changes in Fund guidelines; limitations on debt service exceptions

To ensure the effectiveness of economic adjustment programs supported by Fund resources—

(1) the United States Executive Director of the Fund shall recommend and shall work for changes in Fund guidelines, policies, and decisions which would—

(A) convert short-term bank debt which was made at high interest rates into long-term debt at lower rates of interest;

(B) assure that the annual external debt service, which shall include principal, interest, points, fees, and other charges required of the country involved, is a manageable and prudent percentage of the projected annual export earnings of such country; and

(C) provide that in approving any economic adjustment program the Fund shall take into account the number of countries applying to the Fund for economic adjustment programs and the aggregate effects that such programs will have on international economic growth, world trade, exports and employment of other member countries, and the long-term solvency of banks; and

(2) except as provided in subsection (c) of this section, the United States Executive Director of the Fund shall oppose and vote against providing assistance from the Fund for any economic adjustment program for a country in which the annual external debt service exceeds 85 per centum of the annual export earnings of such country, unless the Secretary of the Treasury first determines and provides written documentation to the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives that—

(A) the economic adjustment program converts high interest rate, short-term bank debt into long-term debt at significantly narrower interest rate spreads than the average interest rate spreads prevailing on bank debt reschedulings negotiated between August 1982 and August 1983 for countries receiving assistance from the Fund for economic adjustment programs in order to minimize the burdens of adjustment on the debtor nation, provided that such interest rate spreads are consistent with that nation's need to obtain adequate external private financing;

(B) the annual external debt service required of the country involved is a manageable and prudent percentage of the projected annual export earnings of such country; and

(C) the economic adjustment program will not have an adverse impact on international economic growth, world trade, exports, and employment of other member countries, and the long-term solvency of banks.

(c) Emergencies and extraordinary circumstances

The provisions of subsection (b)(2) of this section shall not apply in any case in which the Secretary of the Treasury first determines and provides written documentation to the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives that—

(1) an emergency exists in a nation that has applied to the Fund for assistance that requires an immediate short-term loan to avoid disrupting orderly financial markets;

(2) a sudden decrease in export earnings in the country applying to the Fund for assistance has increased the ratio of annual external debt service to annual export earnings, to greater than 85 per centum for a period projected to be no more than one year; or

(3) other extraordinary circumstances exist which warrant waiving the provisions of subsection (b)(2) of this section.

(July 31, 1945, ch. 339, §45, as added Pub. L. 98-181, title I [title VIII, §806], Nov. 30, 1983, 97 Stat. 1272.)

§ 286dd. Fund bailouts of banks; rescheduling of debt

The Secretary of the Treasury shall instruct the United States Executive Director of the Fund—

(1) to oppose and vote against any Fund drawing by a member country where, in his judgment, the Fund resources would be drawn principally for the purpose of repaying loans which have been imprudently made by banking institutions to the member country; and

(2) to work to insure that the Fund encourages borrowing countries and banking institutions to negotiate, where appropriate, a rescheduling of debt which is consistent with safe and sound banking practices and the country's ability to pay.

The Secretary of the Treasury shall instruct the United States Executive Director of the Fund to propose that the Fund adopt the following policies with respect to international lending:

(1) In its consultations with a member government on its economic policies pursuant to article IV of the Articles of Agreement of the Fund, the Fund should—

(A) intensify its examination of the trend and volume of external indebtedness of private and public borrowers in the member country and comment, as appropriate, in its report to the Executive Board from the viewpoint of the contribution of such borrowings to the economic stability of the borrower; and

(B) consider to what extent and in what form these comments might be made available to the international banking community and the public.

(2) As part of any Fund-approved stabilization program, the Fund should give consideration to placing limits on public sector external short- and long-term borrowing.

(3) As a part of its annual report, and at such times as it may consider desirable, the Fund should publish its evaluation of the trend and volume of international lending as it affects the economic situation of lenders, borrowers, and the smooth functioning of the international monetary system.

§ 286hh. Policy based lending for debt reduction

(a) Criteria

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to initiate discussions with other directors of such bank and to advocate and support the facilitation of voluntary market-based programs for the reduction of sovereign debt and the promotion of sustainable economic development, which, if implemented, would—

(1) not require any organization or government to participate in such a program;

(2) result in debt reduction for each participating country tailored to the particular situation of each country;

(3) provide assistance to participating countries conditioned on the implementation of economic reforms, and the preservation of economic reforms previously implemented, by the country that are consistent with the principles of sustainable development;

(4) encourage participating countries to make economic adjustments steadily and over a period of time in order to achieve policy reform;

(5) use debt reduction techniques that would not compensate commercial banks for the reduction in the value of such debt, but would serve as a catalyst for new lending;

(6) involve such bank in lending for purposes of debt reduction and conversion only where such involvement would not lower the credit-worthiness of such bank;

(7) not require public sector funding beyond that provided through any capital increase for such bank, and any replenishment for the International Development Association, which is agreed to by the member countries of such institutions; and

(8) accomplish debt reduction, not as an end, but as a means to greater growth and investment in, and the restoration of voluntary private lending to, participating countries for environmentally and economically sustainable development.

(b) Policy based lending for debt reduction and sustainable growth

The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to initiate discussions with other directors of such bank and to propose that policy based loans be made by such bank for, among other reasons, facilitating a reduction in the debt service burden of any country which is participating in a voluntary market-based program for debt reduction described in subsection (c) of this section.

(c) Voluntary market-based program for debt reduction and sustainable growth

In connection with the discussions initiated pursuant to subsection (b) of this section, the Secretary shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to propose that a country be considered to be participating in a voluntary market-based program of debt reduction for purposes of subsection (b) of this section if the creditors of such country agree to significantly reduce the debt service of such country through forgiveness of a percentage of the interest owed by such country on any sovereign debt or through any other means.

(d) Reports

Not later than March 1, 1989, March 1, 1991, and March 1, 1993, respectively, the Secretary of the Treasury shall submit to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate 3 reports each of which—

(1) describes the long term strategy and lending programs of the International Bank for Reconstruction and Development for reducing and managing the debt burden of the countries designated as “Highly Indebted Countries” in the 1987–1988 World Debt Tables published by such bank, and summarize the long term strategy and lending programs of such bank for other seriously indebted countries;

(2) contains an explanation of the measures taken by such bank to facilitate the reduction of the debt burden of the countries designated

as “Highly Indebted Countries” in the 1987–1988 World Debt tables¹ published by such bank;

(3) describes the extent (if any) to which such bank has implemented the measures described in subsections (b) and (c) of this section; and

(4) describes the success each of such countries has had in managing and reducing their debt burdens and achieving sustainable and equitable economic growth as measured by criteria including the ratio of debt service to exports, the ratio of debt to gross national product, net resource flows, and per capita income.

(e) Review by House Banking Committee

On receipt of each report required to be submitted pursuant to subsection (d) of this section, and after consultation with the Secretary of the Treasury, the Committee on Banking, Finance and Urban Affairs of the House of Representatives shall forward such report to the Committee on Appropriations of the House of Representatives with an assessment by the Committee on Banking, Finance and Urban Affairs describing the effect on the international debt situation of funding the subscription of the United States to the shares of capital stock of the International Bank for Reconstruction and Development due for payment by the United States in the then next fiscal year.

§ 286ll. Fund policy changes

(a) Policy changes within IMF

The Secretary of the Treasury shall instruct the United States Executive Director of the Fund to promote regularly and vigorously in program discussions and quota increase negotiations the following proposals:

(1) Poverty alleviation, reduction of barriers to economic and social progress, and progress toward environmentally sound policies and programs

(A)(i) Considerations of poverty alleviation and the reduction of barriers to economic and social progress should be incorporated into all Fund programs and all consultations under article IV of the Articles of Agreement of the Fund.

(ii) Preparation of Policy Framework Papers should be extended to all nations which have Fund programs and active Bank or International Development Association lending programs, and existence of a Policy Framework Paper should be a precondition for new lending to such nations by the Fund.

(iii) All Policy Framework Papers should articulate the principal poverty, economic, and social measures that the borrowing nation needs to address, and this portion of the Policy Framework Paper (or a summary thereof that includes specific measures and timing) should be made available when the Policy Framework Paper is submitted to the Executive Directors of the Bank and of the Fund for consideration.

(iv) In considering whether to allocate resources of the Fund to a borrower, the Fund should take into consideration the nature of the program and commitment of the borrower to address the issues referred to in clause (iii).

(v) The Fund should establish procedures to enable the Fund to cooperate with the Bank in evaluating the effectiveness of the measures referred to in clause (iii), at the levels of policy, project design, monitoring, and reporting,

in the international financial institutions and in the borrowing nations.

(B)(i) The Fund should be encouraged to make further progress toward environmentally sound policies and programs.

(ii) The Fund should incorporate environmental considerations into all Fund programs, including consultations under article IV of the Articles of Agreement of the Fund.

(iii) The Fund should be encouraged to support the efforts of nations to implement systems of natural resource accounting in their national income accounts.

(iv) The Fund should be encouraged to assist and cooperate fully with the statistical research being undertaken by the Organization for Economic Cooperation and Development and by the United Nations in order to facilitate development and adoption of a generally applicable system for taking account of the depletion or degradation of natural resources in national income accounts.

(v) The Fund should be encouraged to consider and implement, as appropriate, revisions in its national income reporting systems consistent with such new systems as are of general applicability.

(2) Policy audits

(A) The Fund should conduct periodic audits to review systematically the policy prescriptions recommended and required by the Fund in the areas of poverty and the environment.

(B) The purposes of such audits would be—

(i) to determine whether the Fund's objectives were met; and

(ii) to evaluate the social and environmental impacts of the implementation of the policy prescriptions.

(C) Such audits would have access to all ongoing programs and activities of the Fund and the ability to review the effects of Fund-supported programs, on a country-by-country basis, with respect to poverty, economic development, and environment.

(D) Such audits should be made public as appropriate with due respect to confidentiality.

(3) Ensuring policy options that increase the productive participation of the poor

The Fund should establish procedures that ensure the focus of future economic reform programs approved by the Fund on policy options that increase the productive participation of the poor in the economy.

(4) Public access to information

(A) The Fund should establish procedures for public access to information.

(B) Such procedures shall seek to ensure access of the public to information while paying due regard to appropriate confidentiality.

(C) Policy Framework Papers and the supporting documents prepared by the Fund's mission to a country are examples of documents that should be made public at an appropriate time and in appropriate ways.

(b) Progress report

Each annual report of the National Advisory Council on International Monetary and Financial Policies shall describe the following:

For the purpose of mobilizing the resources of the Fund in order to help reduce poverty and improve the lives of residents of poor countries and, in particular, to allow those poor countries with unsustainable debt burdens to receive deeper, broader, and faster debt relief, without allowing gold to reach the open market or otherwise adversely affecting the market price of gold, the Secretary of the Treasury is authorized to instruct the United States Executive Director of the Fund to vote—

§ 286oo. Principles for International Monetary Fund lending

It is the policy of the United States to work to implement reforms in the International Monetary Fund (IMF) to achieve the following goals:

(1) Short-term balance of payments financing

Lending from the general resources of the Fund should concentrate chiefly on short-term balance of payments financing.

(2) Limitations on medium-term financing

Use of medium-term lending from the general resources of the Fund should be limited to a set of well-defined circumstances, such as—

(A) when a member’s balance of payments problems will be protracted;

(B) such member has a strong structural reform program in place; and

(C) the member has little or no access to private sources of capital.

(3) Premium pricing

Premium pricing should be introduced for lending from the general resources of the Fund, for greater than 200 percent of a member’s quota in the Fund, to discourage excessive use of Fund lending and to encourage members to rely on private financing to the maximum extent possible.

(4) Redressing misreporting of information

The Fund should have in place and apply systematically a strong framework of safeguards and measures to respond to, correct, and discourage cases of misreporting of information in the context of a Fund program, including—

(A) suspending Fund disbursements and ensuring that Fund lending is not resumed

to members that engage in serious misreporting of material information until such time as remedial actions and sanctions, as appropriate, have been applied;

(B) ensuring that members make early repayments, where appropriate, of Fund resources disbursed on the basis of misreported information;

(C) making public cases of serious misreporting of material information;

(D) requiring all members receiving new disbursements from the Fund to undertake annually independent audits of central bank financial statements and publish the resulting audits; and

(E) requiring all members seeking new loans from the Fund to provide to the Fund detailed information regarding their internal control procedures, financial reporting and audit mechanisms and, in cases where there are questions about the adequacy of these systems, undertaking an on-site review and identifying needed remedies.

Pending the receipt of the opinion of the Court, an interim decision of the arbitral tribunal shall be observed on both parties. Thereafter, the arbitral tribunal shall render a final decision, having regard to the opinion of the Court.

PROBABLE EXEMPTIONS TO UNITED NATIONS EMPLOYEE
HIRING FREEZE

Pub. L. 100-204, title VII, §701, Dec. 22, 1987, 101 Stat. 1383, as amended by Pub. L. 102-138, title I, §163, Oct. 28, 1991, 105 Stat. 676, provided that:

“(a) FINDINGS.—The Congress makes the following findings:

“(1) In April 1986, the Secretary-General of the United Nations adopted a freeze on the hiring of personnel within the United Nations Secretariat.

“(2) The conditions of the freeze were such that, as the terms of office for the personnel expired, replacements would not be recruited or hired to fill the vacant positions, with minor exceptions.

“(3) The freeze was designed to reduce United Nations personnel by 15 percent over three years, as recommended by the Group of High-Level Intergovernmental Experts to Review the Efficiency of the Administrative and Financial Functioning of the United Nations (commonly referred to as the ‘Group of 18 Experts’).

“(4) On May 5, 1987, the Secretary-General reported to the Department of State that he was considering granting 156 exceptions to the hiring freeze.

“(5) Of these 156 probable exceptions, 104 would be Soviet and Soviet-bloc nationals currently employed in the United Nations Secretariat—of 298 Soviet and Soviet-bloc nationals currently employed in the United Nations Secretariat—who would be replaced over the next 18 months.

“(6) According to a report from the Select Committee on Intelligence of the Senate on ‘Soviet Presence in the United Nations Secretariat’ (Senate Print 99-52, May 1985), approximately one-fourth of the Soviets in the United Nations Secretariat are intelligence officers, many more are co-opted by the Soviet intelligence agencies, and all Soviets in the United Nations Secretariat must respond to KGB requests for assistance.

“(7) Other United States intelligence authorities estimate that as many as one-half of the Soviet and Soviet-bloc nationals in the United Nations Secretariat are officers of the KGB or the GRU.

“(8) If the Secretary-General’s probable exemptions are adopted, the Soviet Union will be allowed to replace retiring Soviet and Soviet-bloc personnel with new, highly skilled and well-trained intelligence officers of the KGB or the GRU.

“(9) The Secretary-General’s proposed exceptions would thus provide the Soviet Union with the capability to rebuild its intelligence apparatus within the United States, which was devastated in recent years when the United States ordered severe reductions in the size of the Soviet mission to the United Nations, the Soviet Embassy in Washington, District of Columbia, and the Soviet Consulate in San Francisco, California.

“(10) Article 100 of the United Nations Charter calls for the establishment of an international civil service whose members are neutral and loyal only to the United Nations.

“(11) Section 3 of Article 101 of the United Nations Charter calls for the appointment of individuals who are professionally qualified for the positions they are to fill and maintains that due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible.

“(12) As of September 1985, 442 of 446 Soviet nationals employed throughout the United Nations system are ‘seconded’, that is, serve on short, fixed-term contracts.

“(13) Through the abuse of short, fixed-term contracts, the Soviet Union has maintained undue influence and control over major offices of the United Nations Secretariat, thereby effectively using the United Nations Secretariat in the conduct of its foreign relations, in clear violation of Articles 100 and 101 of the United Nations Charter.

“(14) The Secretary-General’s proposed exceptions to the hiring freeze (as described in paragraphs (1)

through (5)) would continue the gross violations of Articles 100 and 101 of the United Nations Charter described in paragraph (13).

“(15) The Secretary-General’s proposed exceptions to such hiring freeze would be clearly inconsistent with the terms of the United Nation’s self-imposed reform program.

“(16) The United Nations has not yet achieved its reform goals and there is no indication that the United Nations can afford to make such large exceptions to such hiring freeze.

“(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

“(1) the President should take all such actions necessary to ensure compliance with the hiring freeze rule, including withholding all assessed United States contributions to the United Nations, and denying United States entry visas to Soviet and Soviet-bloc applicants coming to the United States to replace Soviet and Soviet-bloc nationals currently serving in the United Nations Secretariat;

“(2) the President, through the Department of State and the United States mission to the United Nations, should express to the Secretary-General of the United Nations the insistence of the American people that the hiring freeze continue indefinitely, or until the United Nations has complied with the Group of 18 recommendations and can thus afford to make exceptions to the freeze;

“(3) the Secretary-General should revoke all exceptions to the hiring freeze rule, excepting those member-nations which have 15 or fewer nationals serving in the United Nations Secretariat, or those positions not subject to geographical representation, such as those of the general service category;

“(4) the long-term, flagrant violations of Articles 100 and 101 of the United Nations Charter and the abuse of secondment by the Soviet Union and Soviet-bloc member-nations are reprehensible;

“(5) the United Nations should adopt the recommendations of the Group of 18 (as referred to in subsection (a)(3)) that no member-nation be allowed to have more than 50 percent of its nationals employed under fixed-term contracts;

“(6) the Soviet Union is hereby condemned for—

“(A) its refusal to adhere to the principles of the United Nations Charter calling for an international civil service,

“(B) its abuse of secondment, and

“(C) its absolute disregard of the solemn purpose of the United Nations to be an international civil service; and

“(7) if the Soviet Union and the Soviet-bloc intend to remain member-nations of the United Nations, they should adhere to Articles 100, 101, and all other principles of the United Nations Charter to which every other member-nation must adhere.

“(c) DEFINITION.—For the purposes of this section, the term ‘Soviet-bloc’ means the countries of Bulgaria, Cuba, Czechoslovakia, East Germany, Hungary, Nicaragua, North Korea, Poland, and Romania.”

“(b) NOTICE TO CONGRESS.—The President shall notify the Congress when a decision is made to withhold any share of the United States assessed contribution to the United Nations or its specialized agencies pursuant to subsection (a) and shall notify the Congress when the decision is made to pay any previously withheld assessed contribution. A notification under this subsection shall include appropriate consultation between the President (or the President’s representative) and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

“(c) CONTRIBUTIONS FOR PRIOR YEARS.—Subject to the availability of appropriations, payment of assessed contributions for prior years may be made to the United Nations or any of its specialized agencies notwithstanding subsection (a) if such payment would further United States interests in that organization.

SUBCHAPTER XVII—UNITED NATIONS EDUCATIONAL, SCIENTIFIC, AND CULTURAL ORGANIZATION

§ 287m. Acceptance of membership by the United States

The President is hereby authorized to accept membership for the United States in the United Nations Educational, Scientific, and Cultural Organization (hereinafter referred to as the “Organization”), the constitution of which was approved in London on November 16, 1945, by the United Nations Conference for the establishment of an Educational, Scientific, and Cultural Organization, and deposited in the Archives of the Government of the United Kingdom.

(July 30, 1946, ch. 700, § 1, 60 Stat. 712.)

CONSTITUTION OF THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC, AND CULTURAL ORGANIZATION

THE GOVERNMENTS OF THE STATES PARTIES TO THIS CONSTITUTION ON BEHALF OF THEIR PEOPLES DECLARE

that since wars begin in the minds of men, it is in the minds of men that the defences of peace must be constructed;

that ignorance of each other’s ways and lives has been a common cause, throughout the history of mankind, of that suspicion and mistrust between the peoples of the world through which their differences have all too often broken into war;

that the great and terrible war which has now ended was a war made possible by the denial of the democratic principles of the dignity, equality and mutual respect of men, and by the propagation, in their place, through ignorance and prejudice, of the doctrine of the inequality of men and races;

that the wide diffusion of culture, and the education of humanity for justice and liberty and peace are indis-

pensable to the dignity of man and constitute a sacred duty which all the nations must fulfill in a spirit of mutual assistance and concern;

that a peace based exclusively upon the political and economic arrangements of governments would not be a peace which could secure the unanimous, lasting and sincere support of the peoples of the world, and that the peace must therefore be founded, if it is not to fail, upon the intellectual and moral solidarity of mankind.

FOR THESE REASONS,

the States parties to this Constitution, believing in full and equal opportunities for education for all, in the unrestricted pursuit of objective truth, and in the free exchange of ideas and knowledge, are agreed and determined to develop and to increase the means of communication between their peoples and to employ these means for the purposes of mutual understanding and a truer and more perfect knowledge of each other’s lives;

IN CONSEQUENCE WHEREOF

they do hereby create the United Nations Educational, Scientific and Cultural Organisation for the purpose of advancing, through the educational and scientific and cultural relations of the peoples of the world, the objectives of international peace and of the common welfare of mankind for which the United Nations Organisation was established and which its Charter proclaims.

ARTICLE I.

Purposes and Functions

1. The purpose of the Organisation is to contribute to peace and security by promoting collaboration among the nations through education, science, and culture in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world, without distinction of race, sex, language or religion, by the Charter of the United Nations.

2. To realise this purpose the Organisation will:

(a) collaborate in the work of advancing the mutual knowledge and understanding of peoples, through all means of mass communication and to that end recommend such international agreements as may be necessary to promote the free flow of ideas by word and image;

(b) give fresh impulse to popular education and to the spread of culture;

by collaborating with Members, at their request, in the development of educational activities; by instituting collaboration among the nations to advance the ideal of equality of educational opportunity without regard to race, sex or any distinctions, economic or social;

by suggesting educational methods best suited to prepare the children of the world for the responsibilities of freedom;

(c) maintain, increase and diffuse knowledge;

by assuring the conservation and protection of the world’s inheritance of books, works of art and monuments of history and science, and recommending to the nations concerned the necessary international conventions;

by encouraging cooperation among the nations in all branches of intellectual activity, including the international exchange of persons active in the fields of education, science and culture and the exchange of publications, objects of artistic and scientific interest and other materials of information;

by initiating methods of international cooperation calculated to give the people of all countries access to the printed and published materials produced by any of them.

3. With a view to preserving the independence, integrity and fruitful diversity of the cultures and educational systems of the States Members of this Organ-

isation, the Organisation is prohibited from intervening in matters which are essentially within their domestic jurisdiction.

ARTICLE II.

Membership

1. Membership of the United Nations Organisation shall carry with it the right to membership of the United Nations Educational, Scientific and Cultural Organisation.

2. Subject to the conditions of the agreement between this Organisation and the United Nations Organisation, approved pursuant to Article X of this Constitution, States not members of the United Nations Organisation may be admitted to membership of the Organisation, upon recommendation of the Executive Board, by a two-thirds majority vote of the General Conference.

3. Members of the Organisation which are suspended from the exercise of the rights and privileges of membership of the United Nations Organisation shall, upon the request of the latter, be suspended from the rights and privileges of this Organisation.

5. The responsibilities of the Director-General and of the staff shall be exclusively international in character. In the discharge of their duties they shall not seek or receive instructions from any government or from any authority external to the Organisation. They shall refrain from any action which might prejudice their position as international officials. Each State Member of the Organisation undertakes to respect the international character of the responsibilities of the Director-General and the staff, and not to seek to influence them in the discharge of their duties.

6. Nothing in this Article shall preclude the Organisation from entering into special arrangements within the United Nations Organisation for common services and staff and for the interchange of personnel.

ARTICLE VII.

National Co-operating Bodies

1. Each Member State shall make such arrangements as suit its particular conditions for the purpose of associating its principal bodies interested in educational, scientific and cultural matters with the work of the Organisation, preferably by the formation of a National Commission broadly representative of the Government and such bodies.

2. National Commissions or national co-operating bodies, where they exist, shall act in an advisory capacity to their respective delegations to the General Conference and to their Governments in matters relating to the Organisation and shall function as agencies of liaison in all matters of interest to it.

ARTICLE VIII.

Reports by Member States

Each Member State shall report periodically to the Organisation, in a manner to be determined by the General Conference, on its laws, regulations and statistics relating to educational, scientific and cultural life

and institutions, and on the action taken upon the recommendations and conventions referred to in Article IV, paragraph 4.

ARTICLE IX.

Budget

1. The budget shall be administered by the Organisation.

2. The General Conference shall approve and give final effect to the budget and to the apportionment of financial responsibility among the States Members of the Organisation subject to such arrangement with the United Nations as may be provided in the agreement to be entered into pursuant to Article X.

3. The Director-General, with the approval of the Executive Board, may receive gifts, bequests, and subscriptions directly from governments, public and private institutions, associations and private persons.

ARTICLE X.

Relations with the United Nations Organisation

This Organisation shall be brought into relation with the United Nations Organisation, as soon as practicable, as one of the specialised agencies referred to in Article 57 of the Charter of the United Nations. This relationship shall be effected through an agreement with the United Nations Organisation under Article 63 of the Charter, which agreement shall be subject to the approval of the General Conference of this Organisation. The agreement shall provide for effective co-operation between the two Organisations in the pursuit of their common purposes, and at the same time shall recognise the autonomy of this Organisation, within the fields of its competence as defined in this Constitution. Such agreement may, among other matters, provide for the approval and financing of the budget of the Organisation by the General Assembly of the United Nations.

ARTICLE XI.

Relations with Other Specialized International Organisations and Agencies

1. This Organisation may co-operate with other specialised inter-governmental organisations and agencies whose interests and activities are related to its purposes. To this end the Director-General, acting under the general authority of the Executive Board, may establish effective working relationships with such organisations and agencies and establish such joint committees as may be necessary to assure effective co-operation. Any formal arrangements entered into with such organisations or agencies shall be subject to the approval of the Executive Board.

2. Whenever the General Conference of this Organisation and the competent authorities of any other specialised inter-governmental organisations or agencies whose purposes and functions lie within the competence of this Organisation, deem it desirable to effect a transfer of their resources and activities to this Organisation, the Director-General, subject to the approval of the Conference, may enter into mutually acceptable arrangements for its purpose.

3. This Organisation may make appropriate arrangements with other inter-governmental organisations for reciprocal representation at meetings.

4. The United Nations Educational, Scientific and Cultural Organisation may make suitable arrangements for consultation and co-operation with non-governmental international organisations concerned with matters within its competence and may invite them to undertake specific tasks. Such co-operation may also include appropriate participation by representatives of such organisations on advisory committees set up by the General Conference.

The draft texts of proposed amendments shall be communicated by the Director-General to the Member States at least six months in advance of their consideration by the General Conference.

SUBCHAPTER XXIII—AFRICAN DEVELOPMENT FOUNDATION

§ 290h. Congressional findings

The Congress finds that—

(1) social and economic development ultimately depends on the active participation of individuals within a society and on the enhancement of opportunities for those individuals;

(2) the development of individuals and institutions in African countries can benefit by the provision of support for community-based self-help activities;

(3) by enacting title IX of chapter 2 of part I of the Foreign Assistance Act of 1961 [22 U.S.C. 2218], and recent amendments to that Act, the Congress has sought to enable the poor to participate in the process of development;

(4) the Inter-American Foundation, established by Congress in the Foreign Assistance Act of 1969 [22 U.S.C. 290f], to support the efforts of the people of Latin America and the Caribbean to solve their development problems, has demonstrated a successful approach to development; and

(5) an African Development Foundation similar in structure to the Inter-American Foundation, but adapted to the specific needs of Africa, can complement current United States development programs in Africa.
