#### § 1031. Congressional statement of findings

Eggs and egg products are an important source of the Nation's total supply of food, and are used in food in various forms. They are consumed throughout the Nation and the major portion thereof moves in interstate or foreign commerce. It is essential, in the public interest, that the health and welfare of consumers be protected by the adoption of measures prescribed herein for assuring that eggs and egg products distributed to them and used in products consumed by them are wholesome, otherwise not adulterated, and properly labeled and packaged. Lack of effective regulation for the handling or disposition of unwholesome, otherwise adulterated, or improperly labeled or packaged egg products and certain qualities of eggs is injuri-

ous to the public welfare and destroys markets for wholesome, not adulterated, and properly labeled and packaged eggs and egg products and results in sundry losses to producers and processors, as well as injury to consumers. Unwholesome, otherwise adulterated, or improperly labeled or packaged products can be sold at lower prices and compete unfairly with the wholesome, not adulterated, and properly labeled and packaged products, to the detriment of consumers and the public generally. It is hereby found that all egg products and the qualities of eggs which are regulated under this chapter are either in interstate or foreign commerce, or substantially affect such commerce, and that regulation by the Secretary of Agriculture and the Secretary of Health and Human Services, and cooperation by the States and other jurisdictions, as contemplated by this chapter, are appropriate to prevent and eliminate burdens upon such commerce, to effectively regulate such commerce, and to protect the health and welfare of consumers.

#### AMENDMENTS

1992—Subsec. (a)(2)(D). Pub. L. 102-571 substituted “379e” for “376”.

**§ 1034. Inspection of egg products****(a) Processing operations and establishments subject to coverage; rules and regulations**

For the purpose of preventing the entry into or flow or movement in commerce of, or the burdening of commerce by, any egg product which is capable of use as human food and is misbranded or adulterated, the Secretary shall, whenever processing operations are being conducted, cause continuous inspection to be made, in accordance with the regulations promulgated under this chapter, of the processing of egg products, in each plant processing egg products for commerce, unless exempted under section 1044 of this title. Without restricting the application of the preceding sentence to other kinds of establishments within its provisions, any food manufacturing establishment, institution, or restaurant which uses any eggs that do not meet the requirements of section 1044(a)(1) of this title in the preparation of any articles for human food shall be deemed to be a plant processing egg products, with respect to such operations.

**(b) Authority of Secretary to retain, segregate, and reinspect eggs and egg products**

The Secretary, at any time, shall cause such retention, segregation, and reinspection as he deems necessary of eggs and egg products capable of use as human food in each official plant.

**(c) Condemnation of adulterated products; destruction or reprocessing; procedure upon appeal from determination of adulteration**

Eggs and egg products found to be adulterated at official plants shall be condemned and, if no appeal be taken from such determination of condemnation, such articles shall be destroyed for human food purposes under the supervision of an inspector: *Provided*, That articles which may be reprocessing be made not adulterated need not be condemned and destroyed if so reprocessed under the supervision of an inspector and thereafter found to be not adulterated. If an appeal be taken from such determination, the eggs or egg products shall be appropriately marked and segregated pending completion of an appeal inspection, which appeal shall be at the cost of the appellant if the Secretary determines that the appeal is frivolous. If the determination of condemnation is sustained, the eggs or egg products shall be destroyed for human food purposes under the supervision of an inspector.

**(d) Inspection of business premises, facilities, inventory, operations, and records of egg handlers; inspection of records and inventory of others required to keep records; authority of Secretary of Health and Human Services to inspect food manufacturing establishments, institutions, and restaurants; access to places of business**

The Secretary shall cause such other inspections to be made of the business premises, facilities, inventory, operations, and records of egg handlers, and the records and inventory of other persons required to keep records under section 1040 of this title, as he deems appropriate (and in the case of shell egg packers, packing eggs for the ultimate consumer, at least once each cal-

endar quarter) to assure that only eggs fit for human food are used for such purpose, and otherwise to assure compliance by egg handlers and other persons with the requirements of section 1037 of this title, except that the Secretary of Health and Human Services shall cause such inspections to be made as he deems appropriate to assure compliance with such requirements at food manufacturing establishments, institutions, and restaurants, other than plants processing egg products. Representatives of said Secretaries shall be afforded access to all such places of business for purposes of making the inspections provided for in this chapter.

**(e) Refrigeration and labeling requirements**

(1) Subject to paragraphs (2), (3), and (4), the Secretary shall make such inspections as the Secretary considers appropriate of a facility of an egg handler (including a transport vehicle) to determine if shell eggs destined for the ultimate consumer—

(A) are being held under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit after packing; and

(B) contain labeling that indicates that refrigeration is required.

(2) In the case of a shell egg packer packing eggs for the ultimate consumer, the Secretary shall make an inspection in accordance with paragraph (1) at least once each calendar quarter.

(3) The Secretary of Health and Human Services shall cause such inspections to be made as the Secretary considers appropriate to ensure compliance with the requirements of paragraph (1) at food manufacturing establishments, institutions, and restaurants, other than plants packing eggs.

(4) The Secretary shall not make an inspection as provided in paragraph (1) on any egg handler with a flock of not more than 3,000 layers.

**SUBCHAPTER I—GENERAL PROVISIONS**

**§ 1101. Congressional findings**

The Congress makes the following findings:

(1) Drug abuse is rapidly increasing in the United States and now afflicts urban, suburban, and rural areas of the Nation.

(2) Drug abuse seriously impairs individual, as well as societal, health and well-being.

(3) Drug abuse, especially heroin addiction, substantially contributes to crime.

(4) The adverse impact of drug abuse inflicts increasing pain and hardship on individuals, families, and communities and undermines our institutions.

(5) Too little is known about drug abuse, especially the causes, and ways to treat and prevent drug abuse.

(6) The success of Federal drug abuse programs and activities requires a recognition that education, treatment, rehabilitation, research, training, and law enforcement efforts are interrelated.

(7) The effectiveness of efforts by State and local governments and by the Federal Government to control and treat drug abuse in the United States has been hampered by a lack of coordination among the States, between States and localities, among the Federal Government, States and localities, and throughout the Federal establishment.

(8) Control of drug abuse requires the development of a comprehensive, coordinated long-term Federal strategy that encompasses both effective law enforcement against illegal drug traffic and effective health programs to rehabilitate victims of drug abuse.

(9) The increasing rate of drug abuse constitutes a serious and continuing threat to national health and welfare, requiring an immediate and effective response on the part of the Federal Government.

(10) Although the Congress observed a significant apparent reduction in the rate of increase of drug abuse during the three-year period subsequent to March 21, 1972, and in certain areas of the country apparent temporary reductions in its incidence, the increase and spread of heroin consumption since 1974, and the continuing abuse of other dangerous drugs, clearly indicate the need for effective, ongoing, and highly visible Federal leadership in the formation and execution of a comprehensive, coordinated drug abuse policy.

(11) Shifts in the usage of various drugs and in the Nation's demographic composition require a Federal strategy to adjust the focus of drug abuse programs to meet new needs and priorities on a cost-effective basis.

(12) The growing extent of drug abuse indicates an urgent need for prevention and intervention programs designed to reach the general population and members of high risk populations such as youth, women, and the elderly.

(13) Effective control of drug abuse requires high-level coordination of Federal international and domestic activities relating to both supply of, and demand for, commonly abused drugs.

(14) Local governments with high concentrations of drug abuse should be actively involved in the planning and coordination of efforts to combat drug abuse.
