EX. ORD. No. 13231, CRITICAL INFRASTRUCTURE PROTECTION IN THE INFORMATION AG E

§ 121 TITLE 6—DOMESTIC SECURITY

Ex. Ord. No. 13231, Oct. 16, 2001, 66 F. R. 53963, as amended by Ex. Ord. No. 13286, Feb. 29, 2004, 68 F. R. 10690; Ex. Ord. No. 13385, § 5, Sept. 29, 2005, 70 F. R. 57996; Ex. Ord. No. 13652, § 6, Sept. 30, 2013, 78 F. R. 61818; provided that: By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to ensure protection of information systems for critical infrastructures, including emergency preparedness communications and the physical assets that support such systems, in the information age, it is hereby ordered as follows:

SECTION 1. Policy. The information technology revolution has changed the way business is transacted, government operates, and national defense is conducted. These three functions now depend on an interdependent network of critical information infrastructures. It is the policy of the United States to protect against disruption of the operation of information systems for critical infrastructures and thereby help to protect the people, economy, essential human and government services, national security and the laws of the United States, and to ensure that any disruptions that occur are infrequent, of minimal duration, and manageable, and cause the least damage possible. The implementation of this policy shall include a voluntary public-private partnership, involving corporate and nongovernmental organizations.

Sect. 2. Continuing Authorities. This order does not alter the existing authorities or roles of United States Government departments and agencies. Authorities set forth in 44 U.S.C. chapter 35, and other applicable law, provide senior officials with responsibility for the security of Federal Government information systems.

(a) Executive Branch Information Systems Security. The Director of the Office of Management and Budget (OMB) has the responsibility to develop and oversee the implementation of government-wide policies, principles, standards, and guidelines for the security of information systems that support the executive branch departments and agencies, except those noted in section 2(b) of this order. The Director of OMB shall advise the President and the appropriate department or agency head when there is a critical deficiency in the security practices within the purview of this section in an executive branch department or agency.

(b) National Security Information Systems. The Secretary of Defense and the Director of Central Intelligence (DCI) shall have responsibility to oversee, develop, and ensure implementation of policies, principles, standards, and guidelines for the security of information systems that support the operations under their respective control. In consultation with the Assistant to the President for National Security Affairs and the affected departments and agencies, the Secretary of Defense and the DCI shall develop policies, principles, standards, and guidelines for the security of national security information systems that support the operations of other executive branch departments and agencies with national security information.

(i) Policies, principles, standards, and guidelines developed under this subsection may require more stringent protection than those developed in accordance with section 2(a) of this order.

(ii) The Assistant to the President for National Security Affairs shall advise the President and the appropriate department or agency when there is a critical deficiency in the security practices of a department or agency within the purview of this section.

(iii) National Security Systems. The National Security Telecommunications and Information Systems Security Committee, as established by and consistent with NSD–42 and chaired by the Secretary of Homeland Security, and the laws and the regulations of the Department of Homeland Security, shall be designated as the "Committee on National Security Systems."

(c) Additional Responsibilities. The heads of executive branch departments and agencies are responsible and accountable for providing and maintaining adequate levels of security for information systems, including emergency preparedness communications systems, for programs under their control. Heads of such departments and agencies shall ensure the development and, within available appropriations, funding of programs that adequately address these mission systems, especially those critical systems that support the national security and other essential government programs. Additionally, security should enable, and not unnecessarily impede, department and agency business operations.

Sect. 3. The National Infrastructure Advisory Council. The National Infrastructure Advisory Council (NIAC), established on October 16, 2001, shall provide the President, through the Secretary of Homeland Security, with advice on the security and resilience of the critical infrastructure sectors and their functional systems, physical assets, and cyber networks.

(a) Membership. The NIAC shall be composed of not more than 30 members appointed by the President, taking appropriate account of the benefits of having members:

(i) from the private sector, including individuals with experience in banking and finance, transportation, energy, water, communications, health care services, food and agriculture, government facilities, emergency services organizations, institutions of higher education, environmental and climate resilience, and State, local, and tribal governments;

(ii) with senior executive leadership responsibilities for the availability and reliability, including security and resilience, of critical infrastructure sectors;

(iii) with expertise relevant to the functions of the NIAC; and

(iv) with experience equivalent to that of a chief executive of an organization.

Unless otherwise determined by the President, no full-time officer or employee of the executive branch shall be appointed to serve as a member of the NIAC.

The President shall designate from among the members of the NIAC a Chair and a Vice Chair, who shall perform the functions of the Chair if the Chair is absent or disabled, or in the instance of a vacancy in the Chair.

(b) Functions of the NIAC. The NIAC shall meet periodically to:

(i) enhance the partnership of the public and private sectors in securing and enhancing the security and resilience of critical infrastructure and their supporting functional systems, physical assets, and cyber networks, and provide reports on this issue to the President, through the Secretary of Homeland Security, as appropriate;

(ii) propose and develop ways to encourage private industry to perform periodic risk assessments and implement risk-reduction programs;

(iii) monitor the development and operations of critical infrastructure sector coordinating councils and their information-sharing mechanisms and provide recommendations to the President, through the Secretary of Homeland Security, on how these organizations can best foster improved cooperation among the sectors, the Department of Homeland Security, and other Federal Government entities;

(iv) report to the President through the Secretary of Homeland Security, who shall ensure appropriate coordination with the Assistant to the President for Homeland Security and Counterterrorism, the Assistant to the President for Economic Policy, and the Assistant to the President for National Security Affairs under the terms of this order; and

(v) advise sector-specific agencies with critical infrastructure responsibilities to include issues pertaining to sector and government coordinating councils and their information sharing in the Department of Homeland Security.

In implementing this order, the NIAC shall not advise or otherwise act on matters pertaining to National Se-
security and Emergency Preparedness (NS/EP) Communications and, with respect to any matters to which the NIAC is authorized by this order to provide advice or otherwise act on that may depend on or affect NS/EP Communications, shall coordinate with the National Security and Telecommunications Advisory Committee established by Executive Order 12382 of September 13, 1982, as amended.

(c) Administration of the NIAC.

(i) The NIAC may hold hearings, conduct inquiries, and establish subcommittees, as appropriate.

(ii) Upon request of the Chair, and to the extent permitted by law, the heads of the executive departments and agencies shall provide the NIAC with information and advice relating to its functions.

(iii) Senior Federal Government officials may participate in the meetings of the NIAC, as appropriate.

(iv) Members shall serve without compensation for their work on the NIAC. However, members may be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in Federal Government service (5 U.S.C. 5701–5707).

(v) To the extent permitted by law and subject to the availability of appropriations, the Department of Homeland Security shall provide the NIAC with administrative services, staff, and other support services, and such funds as may be necessary for the performance of the NIAC’s functions.

Sisc. 4. Judicial Review. This order does not create any right or benefit, substantive or procedural, enforceable at law or in equity, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person.

EX. ORD. No. 13636. IMPROVING CRITICAL INFRASTRUCTURE CYBERSECURITY

Feb. 12, 2013. 78 F.R. 11779, provided.

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Policy. Repeated cyber intrusions into critical infrastructure demonstrate the need for improved cybersecurity. The cyber threat to critical infrastructure continues to grow and represents one of the most serious national security challenges we must confront. The national and economic security of the United States depends on the reliable functioning of the Nation's critical infrastructure in the face of such threats. It is the policy of the United States to enhance the security and resiliency of the Nation's critical infrastructure and to maintain a cyber environment that encourages efficiency, innovation, and economic prosperity while promoting safety, security, business confidentiality, privacy, and civil liberties. We can achieve these goals through a partnership with the owners and operators of critical infrastructure to improve cybersecurity information sharing and collaboratively develop and implement risk-based standards.

SEC. 2. Critical Infrastructure. As used in this order, the term critical infrastructure means systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.

SEC. 3. Policy Coordination. Policy coordination, guidance, dispute resolution, and periodic in-progress reviews for the functions and programs described and assigned herein shall be provided through the interagency policy established by the Secretary of Homeland Security by the order of February 13, 2009 (Organization of the National Security Council System), or any successor.

SEC. 4. Cybersecurity Information Sharing. (a) It is the policy of the United States Government to increase the volume, timeliness, and quality of cyber threat information shared with U.S. private sector entities so that these entities may better protect and defend themselves against cyber threats. Within 120 days of the date of this order, the Attorney General, the Secretary of Homeland Security (the "Secretary"), the Chief of Staff of the Office of the Director of National Intelligence shall each issue instructions consistent with their authorities and with the requirements of section 12(c) of this order to ensure the timely production of unclassified reports of threats to the U.S. homeland that identify a specific targeted entity. The instructions shall address the need to protect intelligence and law enforcement sources, methods, operations, and investigations.

(b) The Secretary and the Attorney General, in coordination with the Director of National Intelligence, shall establish a process that rapidly disseminates the reports produced pursuant to section 4(a) of this order to the targeted entity. Such process shall also, consistent with the need to protect national security information, include the dissemination of classified reports to critical infrastructure entities authorized to receive them. The Secretary and the Attorney General, in coordination with the Director of National Intelligence, shall establish a system for tracking the production, dissemination, and disposition of these reports.

(c) To assist the owners and operators of critical infrastructure in protecting their systems from unauthorized access, exploitation, or harm, the Secretary, consistent with 6 U.S.C. 143 and in collaboration with the Secretary of Defense, shall, within 120 days of the date of this order, establish procedures to expand the Enhanced Cybersecurity Services program to all critical infrastructure sectors. This voluntary information sharing program will provide classified cyber threat and technical information from the Government to eligible critical infrastructure companies or commercial service providers that offer security services to critical infrastructure.

(d) The Secretary, as the Executive Agent for the Classified National Security Information Program created under Executive Order 13549 of August 18, 2010 (Classified National Security Information Program for State, Local, Tribal, and Private Sector Entities), shall expedite the processing of security clearances to appropriate personnel employed by critical infrastructure owners and operators, prioritizing the critical infrastructure identified in section 9 of this order,

(e) In order to maximize the utility of cyber threat information sharing with the private sector, the Secretary shall expand the use of programs that bring private sector subject-matter experts into FedSec on a temporary basis. These subject matter experts should provide advice regarding the content, structure, and types of information most useful to critical infrastructure owners and operators in reducing and mitigating cyber risks.

SEC. 5. Privacy and Civil Liberties Protections. (a) Agencies shall coordinate their activities under this order with their senior agency officials for privacy and civil liberties and ensure that privacy and civil liberties protections are incorporated into such activities. Such protections shall be based upon the Fair Information Practice Principles and other privacy and civil liberties policies, principles, and frameworks as they apply to each agency's activities.

(b) The Chief Privacy Officer and the Officer for Civil Rights and Civil Liberties of the Department of Homeland Security (DHS) shall assess the privacy and civil liberties risks of the functions and programs undertaken by DHS as called for in this order and shall recommend to the Secretary, as appropriate, where to minimize or mitigate such risks, in a publicly available report, to be released within 1 year of the date of this order. Senior agency privacy and civil liberties officials for other agencies engaged in activities under this order shall conduct assessments of their agency activities and provide those assessments to DHS for consideration and inclusion in
the report. The report shall be reviewed on an annual basis and revised as necessary. The report may contain a classified annex if necessary. Assessments shall include evaluation of activities against the Fair Information Practice Principles and other applicable privacy and civil liberties policies, principles, and frameworks. Agencies shall consider the assessments and recommendations of the report in implementing privacy and civil liberties protections for agency activities.

(c) In producing the report required under subsection (b) of this section, the Chief Privacy Officer and the Office of Civil Rights for Civil Rights and Civil Liberties shall consult with the Privacy and Civil Liberties Oversight Board and coordinate with the Office of Management and Budget (OMB).

(d) Information submitted voluntarily in accordance with 6 U.S.C. 133 by private entities under this order shall be protected from disclosure to the fullest extent permitted by law.

Sic. 6. Consultative Process. The Secretary shall establish a consultative process to coordinate improvements to the cybersecurity of critical infrastructure. As part of the consultative process, the Secretary shall engage and consider the advice, on matters set forth in this order, of the Critical Infrastructure Partnership Advisory Council; Sector Coordinating Councils; critical infrastructure owners and operators; Sector-Specific Agencies; other relevant agencies; independent regulatory agencies; State, local, territorial, and tribal governments; universities; and outside experts.

Baseline Framework to Reduce Cyber Risk to Critical Infrastructure. (a) The Secretary of Commerce shall direct the Director of the National Institute of Standards and Technology (the “Director”) to lead the development of a framework to reduce cyber risks to critical infrastructure (the “Cybersecurity Framework”). The Cybersecurity Framework shall include a set of standards, methodologies, procedures, and processes that align policy, business, and technological approaches to address cyber risks. The Cybersecurity Framework shall incorporate voluntary consensus standards and industry best practices to the fullest extent possible. The Cybersecurity Framework shall be consistent with voluntary international standards when such international standards will advance the objectives of this order, and shall meet the requirements of the National Institute of Standards and Technology Act, as amended (15 U.S.C. 271 et seq.), the National Technology Transfer and Advancement Act of 1995 (Public Law 104-113), and OMB Circular A-119, as revised.

(b) The Cybersecurity Framework shall provide a prioritized, flexible, repeatable, performance-based, and collaborative approach, including information security measures and controls, to help owners and operators of critical infrastructure identify, assess, and manage cyber risk. The Cybersecurity Framework shall focus on identifying cross-sector security standards and guidelines applicable to critical infrastructure. The Cybersecurity Framework will also identify areas for improvement that should be addressed through future collaboration with particular sectors and standards-developing organizations. To enable technical innovation and account for organizational differences, the Cybersecurity Framework will provide guidance that is technology neutral and that enables critical infrastructure sectors to benefit from a competitive market for products and services that meet the standards, methodologies, procedures, and processes developed to address cyber risks. The Cybersecurity Framework shall include guidance for measuring the performance of an entity in implementing the Cybersecurity Framework.

(c) The Cybersecurity Framework shall include methodologies to identify and mitigate impacts of the Cybersecurity Framework and associated information security measures or controls on business confidentiality, and to protect individual privacy and civil liberties.

(d) In developing the Cybersecurity Framework, the Director shall engage in an open public review and comment process. The Director shall also consult with the Secretary, the National Security Agency, Sector-Specific Agencies and other interested agencies including OMB, owners and operators of critical infrastructure, and other stakeholders through the consultative process established in section 6 of this order. The Secretary, the Director of National Intelligence, and the sector headquarters of other relevant agencies shall provide information and technical expertise to inform the development of the Cybersecurity Framework. The Secretary shall provide performance goals for the Cybersecurity Framework informed by work under section 9 of this order.

(e) Within 240 days of the date of this order, the Director shall publish a preliminary version of the Cybersecurity Framework (the “Preliminary Framework”). Within 1 year of the date of this order, and after coordination with the Secretary to ensure suitibility under section 6 of this order, the Director shall publish a final version of the Cybersecurity Framework (the “Final Framework”).

(f) Consistent with statutory responsibilities, the Director will ensure the Cybersecurity Framework and related guidance is reviewed and updated as necessary, taking into consideration technological changes, changes in cyber risks, operational feedback from owners and operators of critical infrastructure, Sector-Specific Agencies, and any other relevant factors.

Sic. 8. Voluntary Critical Infrastructure Cybersecurity Program. (a) The Secretary, in coordination with Sector-Specific Agencies, shall establish a voluntary program to support the adoption of the Cybersecurity Framework by owners and operators of critical infrastructure and any other interested entities (the “Program”).

(b) Sector-Specific Agencies, in consultation with the Secretary and other interested agencies, shall coordinate with the Sector Coordinating Councils to review the Cybersecurity Framework and, if necessary, develop implementation guidance or supplemental materials to address sector-specific risks and operating environments.

(c) Sector-Specific Agencies shall report annually to the President, through the Secretary, on the extent to which owners and operators notified under section 9 of this order are participating in the Program.

(d) The Secretary shall coordinate establishment of a set of incentives designed to promote participation in the Program. Within 120 days of the date of this order, the Secretary and the Secretaries of the Treasury and Commerce each shall make recommendations separately to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs, that shall include analysis of the benefits and relative effectiveness of such incentives, and whether the implementation or continuation can be achieved under existing law and authorities to participants in the Program.

(e) Within 120 days of the date of this order, the Secretary of Commerce, and the Administrator of General Services, in consultation with the Secretary and the Federal Acquisition Regulatory Council, shall make recommendations to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs, on the feasibility, security benefits, and relative merits of incorporating security standards into acquisition planning and contract administration. The report shall address what steps can be taken to harmonize and make consistent existing procurement requirements related to cybersecurity.

Sic. 9. Identification of Critical Infrastructure of Greatest Risk. (a) Within 150 days of the date of this order, the Secretary shall use a risk-based approach to identify critical infrastructure where a cybersecurity incident could reasonably result in catastrophic risk to national effects on public health or safety, economic security, or national security. In identifying critical
infrastructure for this purpose, the Secretary shall use the consultative process established in section 6 of this order and draw upon the expertise of Sector-Specific Agencies. The Secretary shall apply consistent, objective criteria in identifying such critical infrastructure. The Secretary shall not identify any commercial information technology products or consumer information technology services under this section. The Secretary shall review and update the list of identified critical infrastructure under this section on an annual basis, and provide such list to the President, through the Assistant to the President for Homeland Security and Counterterrorism and the Assistant to the President for Economic Affairs.

(b) Heads of Sector-Specific Agencies and other relevant agencies shall provide the Secretary with information necessary to carry out the responsibilities under this section. The Secretary shall develop a process for other relevant stakeholders to submit information to assist in making the identifications required in subsection (a) of this section.

(c) The Secretary, in coordination with Sector-Specific Agencies, shall confidentially identify owners and operators of critical infrastructure identified under subsection (a) of this section that they have been so identified, and ensure identified owners and operators are provided the basis for the determination. The Secretary shall establish a process through which owners and operators of critical infrastructure may submit relevant information and request reconsideration of identifications under subsection (a) of this section.

S. 10. Adoption of Framework. (a) Agencies with responsibility for regulating the security of critical infrastructure shall engage in a consultative process with DHS, OMB, and the National Security Staff to review the preliminary Cybersecurity Framework and determine if current cybersecurity regulatory requirements are sufficient given current and projected risks. In making such determination, these agencies shall consider the identification of critical infrastructure required by section 6 of this order. Within 90 days of the publication of the preliminary Framework, these agencies shall submit a report to the President, through the Assistant to the President for Homeland Security and Counterterrorism, the Director of OMB, and the Assistant to the President for Economic Affairs, that states whether or not the agency has clear authority to establish requirements based upon the Cybersecurity Framework to sufficiently address current and projected cyber risks to critical infrastructure, the existing authorities identified, and any additional authority required.

(b) If current regulatory requirements are deemed to be insufficient, within 90 days of publication of the final Framework, agencies identified in subsection (a) of this section shall propose prioritized, risk-based, efficient, and coordinated actions, consistent with Executive Order 12866 of September 30, 1993 (Regulatory Planning and Review), Executive Order 13563 of January 18, 2011 (Improving Regulation and Regulatory Review), and Executive Order 13609 of May 1, 2012 (Promoting International Regulatory Cooperation), to mitigate cyber risk.

(c) Within 2 years after publication of the final Framework, consistent with Executive Order 13563 and Executive Order 13610 of May 10, 2012 (Identifying and Reducing Regulatory Burdens), agencies identified in subsection (a) of this section shall, in consultation with owners and operators of critical infrastructure, report to OMB on any critical infrastructure subject to inflection, ·conflicting, or excessively burdensome cybersecurity requirements. This report shall describe efforts made by agencies, and make recommendations for further actions, to minimize or eliminate such requirements.

(d) The Secretary shall coordinate the provision of technical assistance to agencies identified in subsection (a) of this section on the development of their cybersecurity workforce and programs.

(e) Independent regulatory agencies with responsibility for regulating the security of critical infrastructure are encouraged to engage in a consultative process with the Secretary, relevant Sector-Specific Agencies, and other affected parties to consider prioritized actions to mitigate cyber risks for critical infrastructure consistent with their authorities.

S. 11. Definitions. (a) “Agency” means any authority of the United States that is an “agency” under 44 U.S.C. 3502(1), other than those considered to be independent regulatory agencies, as defined in 44 U.S.C. 3502(5).

S. 12. General Provisions. (a) This order shall be implemented consistent with applicable law and subject to the availability of appropriations. Nothing in this order shall be construed to provide an agency with authority for regulating the security of critical infrastructure in addition to or to a greater extent than the authority the agency has under existing law. Nothing in this order shall be construed to alter or limit any authority or responsibility of an agency under existing law.

(b) Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

Ex. Ord. No. 13650, Aug. 1, 2013, 78 F.R. 48029, was transferred to a note set out under section 621 of this title.

Ex. Ord. No. 13691, Promoting Private Sector Cybersecurity Information Sharing
Ex. Ord. No. 13691, Feb. 13, 2015, 80 F.R. 9349, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Policy. In order to address cyber threats to public health and safety, national security, and economic security of the United States, private compa-
nies, nonprofit organizations, executive departments and agencies (agencies), and other entities must be able to share information related to cybersecurity risks and incidents and collaborate to respond in as close to real time as possible.

Organizations engaged in the sharing of information related to cybersecurity risks and incidents play an invaluable role in the collective cybersecurity of the United States. The purpose of this order is to encourage the voluntary formation of such organizations, to establish mechanisms to continually improve the capabilities and functions of these organizations, and to better allow these organizations to partner with the Federal Government on a voluntary basis.

Such information sharing must be conducted in a manner that protects the privacy and civil liberties of individuals, that safeguards business confidentiality, that safeguards the information being shared, and that protects the ability of the Government to detect, investigate, prevent, and respond to cyber threats to the public health and safety, national security, and economic security of the United States.

This order builds upon the foundation established by Executive Order 13636 of February 12, 2013 (Improving Critical Infrastructure Cybersecurity), and Presidential Policy Directive–21 (PPD–21) of February 12, 2013 (Critical Infrastructure Security and Resilience). Policy coordination, guidance, dispute resolution, and periodic in-progress reviews for the functions and programs described and assigned herein shall be provided through the interagency process established in Presidential Policy Directive–1 [sic] (PPD–1 [PPD–1]) of February 13, 2009 (Organization of the National Security Council System), or any successor.

Sec. 2. Information Sharing and Analysis Organizations. (a) The Secretary of Homeland Security (Secretary) shall strongly encourage the development and formation of Information Sharing and Analysis Organizations (ISAOs).

(b) ISAOs may be organized on the basis of sector, sub-sector, region, or any other affinity, including in response to particular emerging threats or vulnerabilities. ISAO membership may be drawn from the public or private sectors, or consist of a combination of public and private sector organizations. ISAOs may be formed as-for-profit or nonprofit entities.

(c) The National Cybersecurity and Communications Integration Center (NCCIC), established under section 226(b) of the Homeland Security Act of 2002 (the "Act"), shall engage in continuous, collaborative, and inclusive coordination with ISAOs on the sharing of information related to cybersecurity risks and incidents, addressing such risks and incidents, and strengthening information security systems consistent with sections 222 and 226 of the Act.

(d) In promoting the formation of ISAOs, the Secretary shall consult with other Federal entities responsible for conducting cybersecurity activities, including Sector-Specific Agencies, independent regulatory agencies, and other interested entities.

Sec. 3. ISAO Standards Organization. (a) The Secretary, in consultation with other Federal entities responsible for conducting cybersecurity and related activities, shall, through an open and competitive process, enter into an agreement with a nongovernmental organization to serve as the ISAO Standards Organization (SO), which shall identify a common set of voluntary standards or guidelines for the creation and functioning of ISAOs under this order. The standards shall further the goal of creating robust information sharing related to cybersecurity risks and incidents with ISAOs and among ISAOs to create deeper and broader networks of information sharing nationally, and to foster the development and adoption of automated mechanisms for the sharing of information. The standards will address the baseline capabilities that ISAOs under this order should be able to demonstrate. These standards shall address, but not be limited to, contractual agreements, business processes, operating procedures, technical means, and privacy protections, such as minimization, for ISAO operation and ISAO member participation.

(b) To be selected, the SO must demonstrate the ability to engage and work across the broad community of organizations engaged in sharing information related to cybersecurity risks and incidents, including ISAOs, and associations and private companies engaged in information sharing in support of their customers.

(c) The agreement referenced in section 3(a) shall require that the SO engage in an open public notice and public comment process for the development of the standards referenced above, soliciting the viewpoints of existing entities engaged in sharing information related to cybersecurity risks and incidents, owners and operators of critical infrastructure, relevant agencies, and other public and private sector stakeholders.

(d) The Secretary shall support the development of these standards and, in carrying out the requirements set forth in this section, shall consult with the Office of Management and Budget, the National Institute of Standards and Technology in the Department of Commerce, Department of Justice, the Information Security Oversight Office in the National Archives and Records Administration, the Office of the Director of National Intelligence, Sector-Specific Agencies, independent regulatory agencies, and other interested Federal entities. All standards shall be consistent with voluntary international standards when such international standards will advance the objectives of this order, and shall meet the requirements of the National Technology Transfer and Advancement Act of 1995 (Public Law 104–113), and OMB Circular A–119, as revised.

Sec. 4. Critical Infrastructure Protection Program. (a) Pursuant to sections 213 and 214(h) of the Critical Infrastructure Protection Act of 2002, I hereby designate the NCCIC as a critical infrastructure protection program and delegate to it authority to enter into voluntary agreements with ISAOs in order to promote critical infrastructure security with respect to cybersecurity.

(b) Other Federal entities responsible for conducting cybersecurity and related activities to address threats to the public health and safety, national security, and economic security, consistent with the objectives of this order, may participate in activities under these agreements.

(c) The Secretary will determine the eligibility of ISAOs and their members for any necessary facility or personnel security clearances associated with voluntary agreements in accordance with Executive Order 12829 of August 18, 2002 (Classified National Information Systems and Information Sharing Programs for State, Local, Tribal, and Private Sector Entities), and Executive Order 12829 of January 6, 1993 (National Industrial Security Program), as amended, including as amended by this order.

Sec. 5. Privacy and Civil Liberties Protections. (a) Agencies shall coordinate their activities under this order with their senior agency officials for privacy and civil liberties and ensure that appropriate protections for privacy and civil liberties are incorporated into such activities. Such protections shall be based upon the Fair Information Practice Principles and other privacy and civil liberties policies, principles, and frameworks as they apply to each agency’s activities.

(b) Senior privacy and civil liberties officials for agencies engaged in activities under this order shall conduct assessments of their agency’s activities and provide those assessments to the Department of Homeland Security (DHS) Chief Privacy Officer and the DHS Office for Civil Rights and Civil Liberties for assessment and inclusion in the Privacy and Civil Liberties Assessment report required under Executive Order 13636.

Sec. 6. National Industrial Security Program. [Amended, as amended by this order.]

1. Interoperable communications

The term “interoperable communications” means the ability of emergency response pro-
viders and relevant Federal, State, and local government agencies to communicate with each other as necessary, through a dedicated public safety network utilizing information technology systems and radio communications systems, and to exchange voice, data, and video with one another on demand, in real time, as necessary.

(2) Emergency response providers

The term "emergency response providers" has the meaning that term has under section 101 of this title.

(h) Omitted

(i) Sense of Congress regarding interoperable communications

(1) Finding

The Congress finds that—

(A) many first responders working in the same jurisdiction or in different jurisdictions cannot effectively and efficiently communicate with one another; and

(B) their inability to do so threatens the public's safety and may result in unnecessary loss of lives and property.

(2) Sense of Congress

It is the sense of Congress that interoperable emergency communications systems and radios should continue to be deployed as soon as practicable for use by the first responder community, and that upgraded and new digital communications systems and new digital radios must meet prevailing national, voluntary consensus standards for interoperability.

e) Effect of subsequent employment with the Government

An individual who receives a voluntary separation incentive payment under this section and who, within 5 years after the date of the separation on which the payment is based, accepts any compensated employment with the Government or works for any agency of the Government through a personal services contract, shall be required to pay, prior to the individual’s first day of employment, the entire amount of the incentive payment. Such payment shall be made to the covered entity from which the individual separated or, if made on or after the transfer date, to the Deputy Secretary or the Under Secretary for Border and Transportation Security (for transfer to the appropriate component of the Department of Homeland Security, if necessary).

Select Committee on Homeland Security, which was established by House Resolution 49, One Hundred Seventh Congress, June 19, 2002, and reestablished by section 4 of House Resolution 5, One Hundred Eighth Congress, Jan. 4, 2005, was not reestablished in the One Hundred Ninth Congress. Rule X(1)(i) of the Rules of the House of Representatives, One Hundred Ninth Congress, as amended by section 2 of House Resolution 5, One Hundred Ninth Congress, Jan. 4, 2005, established a Committee on Homeland Security. For jurisdiction of the Select Committee on Homeland Security and of the Committee on Homeland Security, see section 4 of House Resolution 5, One Hundred Eighth Congress, and Rule X(1)(i) of the Rules of the House, One Hundred Ninth Congress. Committee on Government Reform of House of Representatives changed to Committee on Oversight and Government Reform of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

Committee on Governmental Affairs of Senate was reestablished in the One Hundred Ninth Congress, Jan. 4, 2005, by Senate Resolution No. 445, One Hundred Eighth Congress, Oct. 9, 2004.

FINDINGS

“(1) Influential financial management leadership is of vital importance to the mission success of the Department of Homeland Security. For this reason, the Chief Financial Officer of the Department must be a key figure in the Department’s management.

“(2) To provide a sound financial leadership structure, the provisions of law enacted by the Chief Financial Officers Act of 1990 (Public Law 101–576) [see Short Title of 1990 Amendment note set out under Title 31, Money and Finance] provide that the Chief Financial Officer of each of the Federal executive departments is to be a Presidential appointee who reports directly to the Secretary of that department on financial management matters. Because the Department of Homeland Security was only recently created, the provisions enacted by that Act must be amended to include the Department within those provisions.

“(3) The Department of Homeland Security was created by consolidation of 22 separate Federal agencies, each with its own accounting and financial management system. None of these systems was developed with a view to executing the mission of the Department of Homeland Security to prevent terrorist attacks within the United States, reduce the Nation’s vulnerability to terrorism, and minimize the damage and assist in the recovery from terrorist attacks. For these reasons, a strong Chief Financial Officer is needed within the Department both to consolidate financial management operations, and to insure that management control systems are comprehensively designed to achieve the mission and execute the strategy of the Department.

“(4) The provisions of law enacted by the Chief Financial Officers Act of 1990 require agency Chief Financial Officers to improve the financial information available to agency managers and the Congress. Those provisions also specify that agency financial management systems must provide for the systematic measurement of performance. In the case of the Department of Homeland Security, therefore, it is vitally important that management control systems be designed with a clear view of a homeland security strategy, including the priorities of the Department in addressing those risks of terrorism deemed most significant based upon a comprehensive assessment of potential threats, vulnerabilities, criticality, and consequences. For this reason, Federal law should be amended to clearly state the responsibilities of the Chief Financial Officer of the Department of Homeland Security to provide management control information, for the benefit of managers within the Department and to help inform the Congress, that permits an assessment of the Department’s performance in executing a homeland security strategy.”

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to advance the Federal Government's use of local partnerships to address homeland security challenges, it is hereby ordered as follows:

SECTION 1. Policy. The purpose of this order is to maximize the Federal Government's ability to develop local partnerships in the United States to support homeland security priorities. Partnerships are collaborative working relationships in which the goals, structure, and roles and responsibilities of the relationships are mutually determined. Collaboration enables the Federal Government and its partners to use resources more efficiently, build on one another's expertise, drive innovation, engage in collective action, broaden investments to achieve shared goals, and improve performance. Partnerships enhance our ability to address homeland security priorities, from responding to natural disasters to preventing terrorism, by utilizing diverse perspectives, skills, tools, and resources.

The National Security Strategy emphasizes the importance of partnerships, underscoring that to keep our Nation safe "we must tap the ingenuity outside government through strategic partnerships with the private sector, nongovernmental organizations, foundations, and community-based organizations. Such partnerships are critical to U.S. success at home and abroad, and we will support them through enhanced opportunities for engagement, coordination, transparency, and information sharing." Part G—Support Anti-Terrorism by Fostering Effective Technologies

§ 441. Administration

(a) In general

The Secretary shall be responsible for the administration of this part.

(b) Designation of qualified anti-terrorism technologies

The Secretary may designate anti-terrorism technologies that qualify for protection under
the system of risk management set forth in this part in accordance with criteria that shall include, but not be limited to, the following:

(1) Prior United States Government use or demonstrated substantial utility and effectiveness.

(2) Availability of the technology for immediate deployment in public and private settings.

(3) Existence of extraordinarily large or extraordinarily unquantifiable potential third party liability risk exposure to the Seller or other provider of such anti-terrorism technology.

(4) Substantial likelihood that such anti-terrorism technology will not be deployed unless protections under the system of risk management provided under this part are extended.

(5) Exposure to the public if such anti-terrorism technology is not deployed.

(6) Evaluation of all scientific studies that can be feasibly conducted in order to assess the capability of the technology to substantially reduce risks of harm.

(7) Anti-terrorism technology that would be effective in facilitating the defense against acts of terrorism, including technologies that prevent, defeat or respond to such acts.

(c) Regulations

The Secretary may issue such regulations, after notice and comment in accordance with section 553 of title 5, as may be necessary to carry out this part.

SHORT TITLE

For short title of this part as the “Support Anti-terrorism by Fostering Effective Technologies Act of 2002” or the “SAFETY Act”, see section 861 of Pub. L. 107–296, set out as a Short Title note under section 101 of this title.

§ 442. Litigation management

(a) Federal cause of action

(1) In general

There shall exist a Federal cause of action for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. The substantive law for decision in any such action shall be derived from the law, including choice of law principles, of the State in which such acts of terrorism occurred, unless such law is inconsistent with or preempted by Federal law. Such Federal cause of action shall be brought only for claims for injuries that are proximately caused by sellers that provide qualified anti-terrorism technology to Federal and non-Federal government customers.

(2) Jurisdiction

Such appropriate district court of the United States shall have original and exclusive jurisdiction over all actions for any claim for loss of property, personal injury, or death arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller.

(b) Special rules

In an action brought under this section for damages the following provisions apply:

(1) Punitive damages

No punitive damages intended to punish or deter, exemplary damages, or other damages not intended to compensate a plaintiff for actual losses may be awarded, nor shall any party be liable for interest prior to the judgment.

(2) Noneconomic damages

(A) In general

Noneconomic damages may be awarded against a defendant only in an amount directly proportional to the percentage of responsibility of such defendant for the harm to the plaintiff, and no plaintiff may recover noneconomic damages unless the plaintiff suffered physical harm.

(B) Definition

For purposes of subparagraph (A), the term “noneconomic damages” means damages for losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium, hedonic damages, injury to reputation, and any other nonpecuniary losses.

(c) Collateral sources

Any recovery by a plaintiff in an action under this section shall be reduced by the amount of collateral source compensation, if any, that the plaintiff has received or is entitled to receive as a result of such acts of terrorism that result or may result in loss to the Seller.

(d) Government contractor defense

(1) In general

Should a product liability or other lawsuit be filed for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in paragraphs (2) and (3) of this subsection, have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, there shall be a rebuttable presumption that the government contractor defense applies in such lawsuit. This presumption shall only be overcome by evidence showing that the Seller acted fraudulently or with willful misconduct in submitting information to the Secretary during the course of the Secretary’s consideration of such technology under this subsection. This presumption of the government contractor defense shall apply regardless of whether the claim against the Seller arises from a sale of the product to Federal Government or non-Federal Government customers.
(2) Exclusive responsibility

The Secretary will be exclusively responsible for the review and approval of anti-terrorism technology for purposes of establishing a government contractor defense in any product liability lawsuit for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in this paragraph and paragraph (3), have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. Upon the Seller’s submission to the Secretary for approval of anti-terrorism technology, the Secretary will conduct a comprehensive review of the design of such technology and determine whether it will perform as intended, conforms to the Seller’s specifications, and is safe for use as intended. The Seller will conduct safety and hazard analyses on such technology and will supply the Secretary with all such information.

(3) Certificate

For anti-terrorism technology reviewed and approved by the Secretary, the Secretary will issue a certificate of conformance to the Seller and place the anti-terrorism technology on an Approved Product List for Homeland Security.

(e) Exclusion

Nothing in this section shall in any way limit the ability of any person to seek any form of recovery from any person, government, or other entity that—

(1) attempts to commit, knowingly participates in, aids and abets, or commits any act of terrorism, or any criminal act related to or resulting from such act of terrorism; or

(2) participates in a conspiracy to commit any such act of terrorism or any such criminal act.

§ 443. Risk management

(a) In general

(1) Liability insurance required

Any person or entity that sells or otherwise provides a qualified anti-terrorism technology to Federal and non-Federal Government customers (“Seller”) shall obtain liability insurance of such types and in such amounts as shall be required in accordance with this section and certified by the Secretary to satisfy otherwise compensable third-party claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(2) Maximum amount

For the total claims related to 1 such act of terrorism, the Seller is not required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not reasonably distort the sales price of Seller’s anti-terrorism technologies.

(3) Scope of coverage

Liability insurance obtained pursuant to this subsection shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against or response or recovery from an act of terrorism:

(A) Contractors, subcontractors, suppliers, vendors and customers of the Seller.

(B) Contractors, subcontractors, suppliers, and vendors of the customer.

(4) Third party claims

Such liability insurance under this section shall provide coverage against third party claims arising out of, relating to, or resulting from the sale or use of anti-terrorism technologies.

(b) Reciprocal waiver of claims

The Seller shall enter into a reciprocal waiver of claims with its contractors, subcontractors, suppliers, vendors and customers, and contractors and subcontractors of the customers, involved in the manufacture, sale, use or operation of qualified anti-terrorism technologies, under which each party to the waiver agrees to be responsible for losses, including business interruption losses, that it sustains, or for losses sustained by its own employees resulting from an activity resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(c) Extent of liability

Notwithstanding any other provision of law, liability for all claims against a Seller arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, whether for compensatory or punitive damages or for contribution or indemnity, shall not be in an amount greater than the limits of liability insurance coverage required to be maintained by the Seller under this section.

§ 444. Definitions

For purposes of this part, the following definitions apply:

(1) Qualified anti-terrorism technology

For purposes of this part, the term “qualified anti-terrorism technology” means any product, equipment, service (including support services), device, or technology (including information technology) designed, developed, modified, or procured for the specific purpose of preventing, detecting, identifying, or deterring acts of terrorism or limiting the harm such acts might otherwise cause, that is designated as such by the Secretary.

(iii) bodily injury (including) to persons other than the insured or its employees; or
(iv) loss resulting from debt or default of another.

FINDINGS

Pub. L. 114–22, title III, § 302(a), May 29, 2015, 129 Stat. 251, provided that: “Congress finds the following:

“(1) The illegal market for the production and distribution of child abuse imagery is a growing threat to children in the United States. International demand for this material creates a powerful incentive for the rape, abuse, and torture of children within the United States.

“(2) The targeting of United States children by international criminal networks is a threat to the homeland security of the United States. This threat must be fought with trained personnel and highly specialized counter-child-exploitation strategies and technologies.

“(4) The Cyber Crimes Center of the United States Immigration and Customs Enforcement is a vital national resource in the effort to combat international child exploitation, providing advanced expertise and assistance in investigations, computer forensics, and victim identification.

“(5) The returning military heroes of the United States possess unique and valuable skills that can assist law enforcement in combating global sexual and child exploitation, and the Department of Homeland Security should use this national resource to the maximum extent possible.

“(6) Through the Human Exploitation Rescue Operative (HERO) Child Rescue Corps program, the returning military heroes of the United States are trained and hired to investigate crimes of child exploitation in order to target predators and rescue children from sexual abuse and slavery.”

PART I—INFORMATION SHARING

§ 481. Short title; findings; and sense of Congress

(a) Short title

This part may be cited as the “Homeland Security Information Sharing Act”.

(b) Findings

Congress finds the following:

(1) The Federal Government is required by the Constitution to provide for the common defense, which includes terrorist attack.

(2) The Federal Government relies on State and local personnel to protect against terrorist attack.

(3) The Federal Government collects, creates, manages, and protects classified and sensitive but unclassified information to enhance homeland security.

(4) Some homeland security information is needed by the State and local personnel to prevent and prepare for terrorist attack.

(5) The needs of State and local personnel to have access to relevant homeland security information to combat terrorism must be reconciled with the need to preserve the protected status of such information and to protect the sources and methods used to acquire such information.

(6) Granting security clearances to certain State and local personnel is one way to facilitate the sharing of information regarding specific terrorist threats among Federal, State, and local levels of government.

(7) Methods exist to declassify, redact, or otherwise adapt classified information so it may be shared with State and local personnel without the need for granting additional security clearances.

(8) State and local personnel have capabilities and opportunities to gather information on suspicious activities and terrorist threats not possessed by Federal agencies.

(9) The Federal Government and State and local governments and agencies in other jurisdictions may benefit from such information.

(10) Federal, State, and local governments and intelligence, law enforcement, and other emergency preparation and response agencies must act in partnership to maximize the benefits of information gathering and analysis to prevent and respond to terrorist attacks.

(11) Information systems, including the National Law Enforcement Telecommunications System and the Terrorist Threat Warning System, have been established for rapid sharing of classified and sensitive but unclassified information among Federal, State, and local entities.

(12) Increased efforts to share homeland security information should avoid duplicating existing information systems.

(c) Sense of Congress

It is the sense of Congress that Federal, State, and local entities should share homeland security information to the maximum extent practicable, with special emphasis on hard-to-reach urban and rural communities.

(3) Specification of the funds available to each agency that will be transferred to the Department as a result of transfers under the plan.

- The attached tables [not set out in the Code] provide estimates of the funds available to the agencies and entities that will be transferred to the Department by operation of the Act. The two tables include total funding (mandatory and discretionary including fees) and discretionary funding net of fees. The tables provide the enacted levels for 2002 and 2003 supplementals, and the President’s requested levels for 2003.

Because of the current state of the 2003 budget process, information concerning the funds that will be available to each transferring agency on the date of the proposed transfers is not currently available and will not likely be available during the time period in which the President is to submit this Reorganization Plan. As additional information becomes available, it will be provided in accordance with the procedures under the Act for modification of this Plan or other applicable law.

(4) Specification of the proposed allocations within the Department of unexpended funds transferred in connection with transfers under the plan.

- The attached tables [not set out in the Code] provide estimates of the unobligated balances in the accounts of which only a portion will be transferred to the new Department. These latter estimates, however, are of the unobligated balances for the full accounts, only a portion of which are associated with the activities that will be transferred to the Department. In addition, these unobligated balances are based on the Department of Treasury’s estimates as of September 30, 2002, which are the latest available figures. Since October 1, 2002, Departments and agencies (except the Department of Defense) have been operating under continuing resolutions, and, as such, have been spending these balances to maintain current operations.

(5) Specification of any proposed disposition of property, facilities, contracts, records, and other assets and obligations of agencies transferred under the plan.

- There is no intention to dispose of property, facilities, contracts, records, and other assets and obligations of agencies transferred under the plan. All of such assets and obligations will transfer with each agency pursuant to Section 1511(d)(1) of the Act [6 U.S.C. 551(d)(1)].
- Prior to and during the transition period (as defined by Section 1501(a)(2) of the Act [6 U.S.C. 541(a)(2)], the Department may identify property, facilities, contracts, records, and other assets and obligations of agencies transferred that would be candidates for disposition due to duplication, non-use, obsolescence, and the like. If and when any such proposed dispositions are identified, we will follow provisions of the Act relating to modification of this plan or further notification of Congress.

(6) Specification of the proposed allocations within the Department of the functions of the agencies and subdivisions that are not related directly to securing the homeland.

- As agencies and subdivisions are transferred into the Department, any functions of those entities that are not directly related to securing the homeland will continue to be allocated to the agencies and subdivisions in which they are currently incorporated. REORGANIZATION PLAN MODIFICATION FOR THE DEPARTMENT OF HOMELAND SECURITY

January 30, 2003

H. Doc. No. 108-32, 108th Congress, 1st Session, provided:

INTRODUCTION

PURPOSE OF MODIFICATION

This modification of the Plan is to establish and specify organizational units within the Border and Transportation Security Directorate. This modification presents a structural change, but does not consolidate, discontinue, or diminish transferred agencies’ current operations in the field.

PLAN MODIFICATIONS

(a) Rename the “Bureau of Border Security” the “Bureau of Immigration and Customs Enforcement.” As required by the Act, this Bureau will be headed by an Assistant Secretary who will report directly to the Undersecretary for Border and Transportation Security.

This Bureau will comprise Immigration Naturalization Service (INS) interior enforcement functions, including the detention and removal program, the intelligence program, and the investigations program. At the same time, pursuant to this modification, the interior enforcement resources and missions of the Customs Service and the Federal Protective Service will be added to this Bureau. The mission of the Bureau is: 1. To enforce the full range of immigration and customs laws within the interior of the United States; and 2. To protect specified federal buildings.

The Assistant Secretary will:

1. Establish and oversee the administration of the policies for performing the detention and removal program, the intelligence program, and the investigations program as are—

(a) transferred to the Under Secretary for Border and Transportation Security by Section 441 of the Act [6 U.S.C. 251] and delegated to the Commissioner by the Under Secretary for Border and Transportation Security; or

(b) otherwise vested in the Assistant Secretary (probably should be “Commissioner”) by law.

2. Advise the Under Secretary for Border and Transportation Security with respect to any policy or operation of the Bureau that may affect the Bureau of Citizenship and Immigration Services established under subtitle E of the Act [probably means subtitle E of title IV of the Act, 6 U.S.C. 271 et seq.], including potentially conflicting policies and operations.

(b) Transfers under the plan.

This modification of the Plan is to establish and assign to the Bureau that may affect the Bureau of Citizenship and Immigration Services established under subtitle E of the Act [probably means subtitle E of title IV of the Act, 6 U.S.C. 271 et seq.], including potentially conflicting policies and operations.

(b) Transfers under the plan.

IMPLEMENTATION DATE

March 1, 2003

ELEMENTS REQUIRED BY THE ACT TO BE SUBMITTED WITH MODIFIED PLAN

1. Identification of any functions of agencies transferred to the Department pursuant to this Act that will not be transferred to the Department under the plan. None.

2. Specification of the steps to be taken by the Secretary to organize the Department, including the delegation or assignment of functions transferred to the Department among officers of the Department in order to permit the Department to carry out the functions transferred under the plan. See plan modifications above.

3. Specification of the funds available to each agency that will be transferred to the Department as a result of transfers under the plan.

The table attached at Tab A [not set out in the Code] provides estimates of the funds available to the agencies affected by this modification that will be transferred to the Department by operation of the Act. The table includes total funding (mandatory and discretionary including fees) and discretionary funding net of fees. The table provides the President’s requested levels for 2003.

Because of the current state of the 2003 budget process, information concerning the funds that will be available to each transferring agency on the date of the proposed transfers is not currently available. As additional information becomes available, it will be provided as may be required in accordance with the procedures under the Act for modification of this Plan or other applicable law.

4. Specification of the proposed allocations within the Department of unexpended funds transferred in connection with transfers under the plan.

The table attached at Tab B [not set out in the Code] provides updated estimates of the unobligated balances as of September 30, 2002, for the agencies affected by this modification that will be transferred to the Department. Since October 1, 2002, these agencies have been operating under continuing resolutions, and, as such, have been spending these balances to maintain ...
current operations. As additional information becomes available, it will be provided as may be required in accordance with the procedures under the Act for modification of this Plan or other applicable law.

5) Specification of any proposed disposition of property, facilities, contracts, records, and other assets and obligations of agencies transferred under the plan.

There is no intention to dispose of property, facilities, contracts, records, and other assets and obligations of agencies transferred under this modification. All such assets and obligations will transfer with each agency pursuant to Section 1511(d)(1) of the Act (6 U.S.C. 551(d)(1)).

6) Specification of the proposed allocations within the Department of the functions and subdivisions that are not related directly to securing the homeland.

The functions of the agencies affected by this modification that are not directly related to securing the homeland will continue to be performed by the bureaus formed by this planned reorganization.

Amendments
2010—Subsec. (a)(10) to (14). Pub. L. 111–140, §4(a)(1), added pars. (10) to (13) and redesignated former par. (10) as (14).

Findings
Pub. L. 111–140, §2, Feb. 16, 2010, 124 Stat. 31, provided that: “Congress finds the following:

“(1) The threat of a nuclear terrorist attack on American interests, both domestic and abroad, is one of the most serious threats to the national security of the United States. In the wake of an attack, attribution of responsibility would be of utmost importance. Because of the destructive power of a nuclear weapon, there could be little forensic evidence except the radioactive material in the weapon itself.

“(2) Through advanced nuclear forensics, using both existing techniques and those under development, it may be possible to identify the source and pathway of a weapon or material after it is interdicted or detonated. Though identifying intercepted smuggled material is now possible in some cases, pre-detonation forensics is a relatively undeveloped field. The post-detonation nuclear forensics field is also immature, and the challenges are compounded by the pressures and time constraints of performing forensics after a nuclear or radiological attack.

“(3) A robust and well-known capability to identify the source of nuclear or radiological material intended for or used in an act of terror could also deter prospective proliferators. Furthermore, the threat of effective attribution could compel improved security at material storage facilities, preventing the unwitting transfer of nuclear or radiological materials.

“(4)(A) In order to identify special nuclear material and other radioactive materials confidently, it is necessary to have a robust capability to acquire samples in a timely manner, analyze and characterize samples, and compare samples against known signatures of nuclear and radiological material.

“(B) Many of the radioisotopes produced in the detonation of a nuclear device have short half-lives, so the timely acquisition of samples is of utmost importance. Over the past several decades, the ability of the United States to gather atmospheric samples—often the preferred method of sample acquisition—has diminished. This ability must be restored and modern techniques that could complement or replace existing techniques should be pursued.

“(C) The discipline of pre-detonation forensics is a relatively undeveloped field. The radiation associated with a nuclear or radiological device may affect traditional forensics techniques in unknown ways. In a post-detonation scenario, radiochemistry may provide the most useful tools for analysis and characterization of samples. The number of radiochemistry programs and radiochemists in United States National Laboratories and universities has dramatically declined over the past several decades. The narrowing pipeline of qualified people into this critical field is a serious impediment to maintaining a robust and credible nuclear forensics program.

“(5) Once samples have been acquired and characterized, it is necessary to compare the results against samples of known material from reactors, weapons, and enrichment facilities, and from medical, academic, commercial, and other facilities containing such materials, throughout the world. Some of these samples are available to the International Atomic Energy Agency through safeguards agreements, and some countries maintain internal sample databases. Access to samples in many countries is limited by national security concerns.

“(6) In order to create a sufficient deterrent, it is necessary to have the capability to positively identify the source of nuclear or radiological material, and potential traffickers in nuclear or radiological material must be aware of that capability. International cooperation may be essential to catalogue all existing sources of nuclear or radiological material.”

EX. ORD. No. 13650, IMPROVING CHEMICAL FACILITY SAFETY AND SECURITY

Ex. Ord. No. 13650, Aug. 1, 2013, 78 F.R. 48029, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Purpose. Chemicals, and the facilities where they are manufactured, stored, distributed, and used, are essential to today’s economy. Past and recent tragedies have reminded us, however, that the handling and storage of chemicals are not without risk. The Federal Government has developed and implemented numerous programs aimed at reducing the safety risks and security risks associated with hazardous chemicals. However, additional measures can be taken by executive departments and agencies (agencies) with regulatory authority to further improve chemical facility safety and security in coordination with owners and operators.

(a) There is established a Chemical Facility Safety and Security Working Group (Working Group) co-chaired by the Secretary of Homeland Security, the Administrator of the Environmental Protection Agency (EPA), and the Secretary of Labor or their designated representatives at the Assistant Secretary level or higher. In addition, the Working Group shall consist of the head of each of the following agencies or their designated representatives at the Assistant Secretary level or higher:

(i) the Department of Justice;
(ii) the Department of Agriculture; and
(iii) the Department of Transportation.

(b) In carrying out its responsibilities under this order, the Working Group shall consult with representatives from:

(i) the Council on Environmental Quality;
(ii) the National Security Staff;
(iii) the Domestic Policy Council;
(iv) the Office of Science and Technology Policy;
(v) the Office of Management and Budget (OMB);
(vi) the White House Office of Cabinet Affairs; and
(vii) such other agencies and offices as the President may designate.

(c) The Working Group shall meet no less than quarterly to discuss the status of efforts to implement this order. The Working Group is encouraged to invite other affected agencies, such as the Nuclear Regulatory Commission, to attend these meetings as appropriate. Additionally, the Working Group shall provide, within 270 days of the date of this order, a status report to the National Security Staff. The Working Group shall provide, within 90 days of the date of this order, the National Security Staff with the results of its meetings and, as appropriate, joint inspection efforts.

(d) The Working Group is encouraged to invite other affected agencies, such as the Nuclear Regulatory Commission, to attend these meetings as appropriate. Additionally, the Working Group shall provide, within 270 days of the date of this order, a status report to the National Security Staff.

(e) The Working Group shall create comprehensive and integrated standard operating procedures pursuant to subsection (b) of this section.

(f) The Working Group shall deploy a pilot program, involving the EPA, Department of Labor, Department of Homeland Security, and any other appropriate agency, to validate best practices and to test innovative methods for Federal interagency collaboration regarding chemical facility safety and security. The pilot program shall operate in at least one region and shall integrate regional Federal, State, local, and tribal assets, where appropriate.

(g) The Working Group shall conduct a pilot program in developing integrated standard operating procedures pursuant to subsection (b) of this section.

(h) The Working Group shall establish the Chemical Facility Anti-Terrorism Standards (CFATS) data with SERCs, TEPCs, and LEPCs on a categorical basis.

SISC. 4. Enhanced Federal Coordination. In order to enhance Federal coordination regarding chemical facility safety and security:

(a) Within 45 days of the date of this order, the Working Group shall deploy a pilot program, involving the EPA, Department of Labor, Department of Homeland Security, and any other appropriate agency, to validate best practices and to test innovative methods for Federal interagency collaboration regarding chemical facility safety and security. The pilot program shall operate in at least one region and shall integrate regional Federal, State, local, and tribal assets, where appropriate.

(b) The pilot program shall include innovative and effective methods of collecting, storing, and using facility information, stakeholder outreach, inspection planning, and, as appropriate, joint inspection efforts. (c) Within 90 days of the date of this order, the Working Group shall consult with the Federal Emergency Management Agency on post-accident response activities.
iration and CSB for timely and full disclosure of information. To the extent appropriate, the Working Group may develop a single model MOU with CSB in lieu of existing agreements.

SIC. 5. Enhanced Information Collection and Sharing. In order to enhance information collection by and sharing across agencies to support more informed decision-making, streamline reporting requirements, and reduce duplicative efforts:

(a) Within 90 days of the date of this order, the Working Group shall develop an analysis, including recommendations, on the potential to improve information collection by and sharing between agencies to help identify chemical facilities which may not have provided all required information or may be non-compliant with Federal requirements to ensure chemical facility safety. This analysis should consider ongoing data-sharing efforts, other federally collected information, and chemical facility reporting among agencies (including information shared with State, local, and tribal governments).

(b) Within 180 days of the date of this order, the Working Group shall produce a proposal for a coordinated, flexible data-sharing process which can be utilized to track data submitted to agencies for federally regulated chemical facilities, including locations, chemicals, regulated entities, previous infractions, and other relevant information. The proposal shall allow for the sharing of information with and by State, local, and tribal entities where possible, consistent with section 3 of this order, and shall address computer-based and non-computer-based means for improving the process in the short-term, if they exist.

(c) Within 180 days of the date of this order, the Working Group shall identify and recommend possible changes to streamline and otherwise improve data collection to meet the needs of the public and Federal, State, local, and tribal agencies (including those charged with protecting workers and the public), consistent with the Paperwork Reduction Act and other relevant authorities, including opportunities to lessen the reporting burden on regulated industries. To the extent feasible, efforts shall minimize the duplicative collection of information while ensuring that pertinent information is shared with all key entities.

SIC. 6. Policy, Regulation, and Standards Modernization. (a) In order to enhance safety and security in chemical facilities by modernizing key policies, regulations, and standards, the Working Group shall:

(i) within 90 days of the date of this order, develop options for improved chemical facility safety and security that identifies improvements to existing risk management practices through agency programs, private sector initiatives, Government guidance, outreach, standards, and regulations;

(iii) within 90 days of completing the outreach and consultation effort described in subsection (a)(i) of this section, develop a plan for implementing practical and effective improvements to chemical risk management identified pursuant to subsections (a)(i) and (ii) of this section.

(b) Within 90 days of the date of this order, the Secretary of Homeland Security, the Secretary of Labor, and the Secretary of Agriculture shall develop a list of chemicals, including poisons and reactive substances, that should be considered for addition to the CFATS Chemicals of Interest list.

(c) Within 90 days of the date of this order, the Secretary of Labor shall:

(i) identify any changes that need to be made in the retail and commercial grade exemptions in the PSM Standard; and

(ii) issue a Request for Information designed to identify issues related to modernization of the PSM Standard and related standards necessary to meet the goal of preventing major chemical accidents.

SIC. 7. Identification of Best Practices. The Working Group shall convene stakeholders, including chemical producers, chemical storage companies, agricultural supply companies, State and local regulators, chemical critical infrastructure owners and operators, first responders, labor organizations representing affected workers, environmental and community groups, and consensus standards organizations, in order to identify and share successes to date and best practices to reduce safety risks and security risks in the production and storage of potentially harmful chemicals, including through the use of safer alternatives, adoption of best practices, and potential public-private partnerships.

SIC. 8. General Provisions. (a) This order shall be implemented consistent with applicable law, including international trade obligations, and subject to the availability of appropriations.

(b) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to a department, agency, or the head thereof; or

(ii) the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

For purposes of this subchapter, the Secretary shall develop a security risk assessment approach and corresponding tiering methodology for covered chemical facilities that incorporates the relevant elements of risk, including threat, vulnerability, and consequence.

(B) Criteria for determining security risk

The criteria for determining the security risk of terrorism associated with a covered chemical facility shall take into account—

(i) relevant threat information;

(ii) potential severe economic consequences and the potential loss of human life in the event of the facility being subject to attack, compromise, infiltration, or exploitation by terrorists; and

(iii) vulnerability of the facility to attack, compromise, infiltration, or exploitation by terrorists.

(3) Changes in tiering

(A) Maintenance of records

The Secretary shall document the basis for each instance in which—

(i) tiering for a covered chemical facility is changed; or

(ii) a covered chemical facility is determined to no longer be subject to the requirements under this subchapter.

(B) Required information

The records maintained under subparagraph (A) shall include information on whether and how the Secretary confirmed the information that was the basis for the change or determination described in subparagraph (A).

(4) Semiannual performance reporting

(B) information—

(i) describing—

(I) the number of instances in which the Secretary—

(aa) placed a covered chemical facility in a lower risk tier; or

(bb) determined that a facility that had previously met the criteria for a covered chemical facility under section 621(3) of this title no longer met the criteria; and

(II) the basis, in summary form, for each action or determination under subclause (I); and

(ii) that is provided in a sufficiently anonymized form to ensure that the information does not identify any specific facility or company as the source of the information when viewed alone or in combination with other public information;

(C) the average number of days spent reviewing site security or an alternative security program for a covered chemical facility prior to approval;

(D) the number of covered chemical facilities inspected;

(E) the average number of covered chemical facilities inspected per inspector; and

(F) any other information that the Secretary determines will be helpful to Congress in evaluating the performance of the Chemical Facility Anti-Terrorism Standards Program.

§ 623. Protection and sharing of information

(1) Requirement

The Secretary shall provide to State, local, and regional fusion centers (as that term is defined in section 124h(j)(1) of this title) and State and local government officials, as the
Secretary determines appropriate, such information as is necessary to help ensure that first responders are properly prepared and provided with the situational awareness needed to respond to security incidents at covered chemical facilities.

(2) Dissemination
The Secretary shall disseminate information under paragraph (1) through a medium or system determined by the Secretary to be appropriate to ensure the secure and expeditious dissemination of such information to necessary selected individuals.

(c) Emergency orders
(1) In general
Notwithstanding subsection (a) or any site security plan or alternative security program approved under this subchapter, if the Secretary determines that there is an imminent threat of death, serious illness, or severe personal injury, due to a violation of this subchapter or the risk of a terrorist incident that may affect a chemical facility of interest, the Secretary—
(A) shall consult with the facility, if practicable, on steps to mitigate the risk; and
(B) may order the facility, without notice or opportunity for a hearing, effective immediately or as soon as practicable, to—
(i) implement appropriate emergency security measures; or
(ii) cease or reduce some or all operations, in accordance with safe shutdown procedures, if the Secretary determines that such a cessation or reduction of operations is the most appropriate means to address the risk.

Nothing in this subchapter confers upon any person except the Secretary or his or her designee a right of action against an owner or operator of a covered chemical facility to enforce any provision of this subchapter.

(2) Establishment of a reporting procedure

Not later than 180 days after December 18, 2014, the Secretary shall establish, and provide information to the public regarding, a procedure under which any employee or contractor of a chemical facility of interest may submit a report to the Secretary regarding a violation of a requirement under this subchapter.

(D) Expiration of effectiveness of order

If a petition for review of an action is filed under subparagraph (C) and the review under that subparagraph is not completed by the end of the 30-day period beginning on the date the petition is filed, the action shall cease to be effective at the end of such period unless the Secretary determines, in writing, that the violation providing a basis for the action continues to exist.

(6) Retaliation prohibited

(A) In general

An owner or operator of a chemical facility of interest or agent thereof may not discharge an employee or otherwise discriminate against an employee with respect to the compensation provided to, or terms, conditions, or privileges of the employment of, the employee because the employee (or an individual acting pursuant to a request of the employee) submitted a report under paragraph (1).
