Subchapter IV—National Activities to Improve Education of Children with Disabilities

§1450. Findings

Congress finds the following:

(1) The Federal Government has an ongoing obligation to support activities that contribute to positive results for children with disabilities, enabling those children to lead productive and independent adult lives.

(2) Systemic change benefiting all students, including children with disabilities, requires the involvement of States, local educational agencies, parents, individuals with disabilities and their families, teachers and other service providers, and other interested individuals and organizations to develop and implement comprehensive strategies that improve educational results for children with disabilities.

(3) State educational agencies, in partnership with local educational agencies, parents of children with disabilities, and other individuals and organizations, are in the best position to improve education for children with disabilities and to address their special needs.

(4) An effective educational system serving students with disabilities should—

(A) maintain high academic achievement standards and clear performance goals for children with disabilities, consistent with the standards and expectations for all students in the educational system, and provide for appropriate and effective strategies and methods to ensure that all children with disabilities have the opportunity to achieve those standards and goals;

(B) clearly define, in objective, measurable terms, the school and post-school results that children with disabilities are expected to achieve; and

(C) promote transition services and coordinate State and local education, social, health, mental health, and other services, in addressing the full range of student needs,

particularly the needs of children with disabilities who need significant levels of support to participate and learn in school and the community.

(5) The availability of an adequate number of qualified personnel is critical—
(A) to serve effectively children with disabilities;
(B) to assume leadership positions in administration and direct services;
(C) to provide teacher training; and
(D) to conduct high quality research to improve special education.

(6) High quality, comprehensive professional development programs are essential to ensure that the persons responsible for the education or transition of children with disabilities possess the skills and knowledge necessary to address the educational and related needs of those children.

(7) Models of professional development should be scientifically based and reflect successful practices, including strategies for recruiting, preparing, and retaining personnel.

(8) Continued support is essential for the development and maintenance of a coordinated and high quality program of research to inform successful teaching practices and model curricula for educating children with disabilities.

Each Federal department and agency which is empowered to extend Federal financial assistance to any education program or activity, by way of grant, loan, or contract other than a contract of insurance or guaranty, is authorized and directed to effectuate the provisions of section 1681 of this title with respect to such program or activity by issuing rules, regulations, or orders of general applicability which shall be consistent with achievement of the objectives of the statute authorizing the financial assistance in connection with which the action is taken. No such rule, regulation, or order shall become effective unless and until approved by the President. Compliance with any requirement adopted pursuant to this section may be effected (1) by the termination of or refusal to grant or to continue assistance under such program or activity to any recipient as to whom there has been an express finding on the record, after opportunity for hearing, of a failure to comply with such requirement, but such termination or refusal shall be limited to the particular political entity, or part thereof, or other recipient as to whom such a finding has been made, and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found, or (2) by any other means authorized by law: Provided, however, That no such action shall be taken until the department or agency concerned has advised the appropriate person or persons of the failure to comply with the requirement and has determined that compliance cannot be secured by voluntary means. In the case of any action terminating, or refusing to grant or continue, assistance because of failure to comply with a requirement imposed pursuant to this section, the head of the Federal department or agency shall file with the committees of the House and Senate having legislative jurisdiction over the program or activity involved a full written report of the circumstances and the grounds for such action. No such action shall become effective until thirty days have elapsed after the filing of such report.

§ 1683. Judicial review

Any department or agency action taken pursuant to section 1682 of this title shall be subject to such judicial review as may otherwise be provided by law for similar action taken by such department or agency on other grounds. In the case of action, not otherwise subject to judicial review, terminating or refusing to grant or to continue financial assistance upon a finding of failure to comply with any requirement imposed pursuant to section 1682 of this title, any person aggrieved (including any State or political sub-

division thereof and any agency of either) may obtain judicial review of such action in accordance with chapter 7 of title 5, and such action shall not be deemed committed to unreviewable agency discretion within the meaning of section 701 of that title.

§ 1684. Blindness or visual impairment; prohibition against discrimination

No person in the United States shall, on the ground of blindness or severely impaired vision, be denied admission in any course of study by a recipient of Federal financial assistance for any education program or activity, but nothing herein shall be construed to require any such institution to provide any special services to such person because of his blindness or visual impairment.

SUBCHAPTER I—EQUAL EDUCATIONAL OPPORTUNITIES

PART 1—POLICY AND PURPOSE

§ 1701. Congressional declaration of policy

(a) Entitlement to equal educational opportunity; neighborhood as appropriate basis

The Congress declares it to be the policy of the United States that—

(1) all children enrolled in public schools are entitled to equal educational opportunity without regard to race, color, sex, or national origin; and

(2) the neighborhood is the appropriate basis for determining public school assignments.

(b) Purpose

In order to carry out this policy, it is the purpose of this subchapter to specify appropriate remedies for the orderly removal of the vestiges of the dual school system.

EFFECTIVE DATE

Chapter effective on and after sixtieth day after Aug. 21, 1974, see section 2(c) of Pub. L. 93–380, set out as a note under section 1221–1 of this title.

SHORT TITLE

Pub. L. 93–380, title II, § 201, Aug. 21, 1974, 88 Stat. 514, provided that: "This title [enacting this chapter and amending section 1228 of this title and amending section 1608 of this title] may be cited as the ‘Equal Educational Opportunities Act of 1974.’"

§ 1702. Congressional findings

(a) Dual school systems as denial of equal protection; depletion of financial resources of local educational agencies; transportation of students; inadequacy of guidelines

The Congress finds that—

(1) the maintenance of dual school systems in which students are assigned to schools solely on the basis of race, color, sex, or national origin denies to those students the equal protection of the laws guaranteed by the fourteenth amendment;

(2) for the purpose of abolishing dual school systems and eliminating the vestiges thereof, many local educational agencies have been required to reorganize their school systems, to realign students, and to engage in the extensive transportation of students;

(3) the implementation of desegregation plans that require extensive student transpor-
§ 1703. Denial of equal educational opportunity prohibited

No State shall deny equal educational opportunity to an individual on account of his or her race, color, sex, or national origin, by—

(a) the deliberate segregation by an educational agency of students on the basis of race, color, or national origin among or within schools;

(b) the failure of an educational agency which has formerly practiced such deliberate segregation to take affirmative steps, consistent with part 4 of this subchapter, to remove the vestiges of a dual school system;

(c) the assignment by an educational agency of a student to a school, other than the one closest to his or her place of residence within the school district in which he or she resides, if the assignment results in a greater degree of segregation of students on the basis of race, color, sex, or national origin among the schools of such agency than would result if such student were assigned to the school closest to his or her place of residence within the school district of such agency providing the appropriate grade level and type of education for such student;

(d) discrimination by an educational agency on the basis of race, color, or national origin in the employment, employment conditions, or assignment to schools of its faculty or staff, except to fulfill the purposes of subsection (f) below;

(e) the transfer by an educational agency, whether voluntary or otherwise, of a student from one school to another if the purpose and effect of such transfer is to increase segregation of students on the basis of race, color, or national origin among the schools of such agency; or

(f) the failure by an educational agency to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs.

§ 1704. Balance not required

The failure of an educational agency to attain a balance, on the basis of race, color, sex, or national origin, of students among its schools shall not constitute a denial of equal educational opportunity, or equal protection of the laws.

§ 1705. Assignment on neighborhood basis not a denial of equal educational opportunity

Subject to the other provisions of this subchapter, the assignment by an educational agency of a student to the school nearest his place of residence which provides the appropriate grade level and type of education for such student is not a denial of equal educational opportunity or of equal protection of the laws unless such assignment is for the purpose of segregating students on the basis of race, color, sex, or national origin, or the school to which such student is assigned was located on its site for the purpose of segregating students on such basis.

PART 2—UNLAWFUL PRACTICES

§ 1706. Civil actions by individuals denied equal educational opportunities or by Attorney General

An individual denied an equal educational opportunity, as defined by this subchapter may institute a civil action in an appropriate district court of the United States against such parties, and for such relief, as may be appropriate. The Attorney General of the United States (hereinafter in this chapter referred to as the “Attorney General”), for or in the name of the United States, may also institute such a civil action on behalf of such an individual.

§ 1707. Population changes without effect, per se, on school population changes

When a court of competent jurisdiction determines that a school system is desegregated, or
that it meets the constitutional requirements, or that it is a unitary system, or that it has no
vestiges of a dual system, and thereafter residential shifts in population occur which result
in school population changes in any school within such a desegregated school system, such
school population changes so occurring shall not, per se, constitute a cause for civil action
for a new plan of desegregation or for modification of the court approved plan.

§ 1708. Jurisdiction of district courts

The appropriate district court of the United States shall have and exercise jurisdiction of
proceedings instituted under section 1706 of this title.

§ 1709. Intervention by Attorney General

Whenever a civil action is instituted under section 1706 of this title by an individual, the
Attorney General may intervene in such action upon timely application.

§ 1710. Civil actions by Attorney General; notice
of violations; certification respecting undertak-ing appropriate remedial action

The Attorney General shall not institute a civil action under section 1706 of this title before
he—

(a) gives to the appropriate educational agency notice of the condition or conditions
which, in his judgment, constitute a violation of part 2 of this subchapter; and
(b) certifies to the appropriate district court of the United States that he is satisfied that
such educational agency has not, within a reasonable time after such notice, undertaken ap-
propriate remedial action.

PART 4—REMEDIES

§ 1712. Formulating remedies; applicability

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal
protection of the laws, a court, department, or agency of the United States shall seek or impose
only such remedies as are essential to correct particular denials of equal educational oppor-
tunity or equal protection of the laws.

§ 1713. Priority of remedies

In formulating a remedy for a denial of equal educational opportunity or a denial of the equal
protection of the laws, which may involve di-
rectly or indirectly the transportation of stu-
dents, a court, department, or agency of the
United States shall consider and make specific
findings on the efficacy in correcting such de-

§ 1714. Transportation of students

(a) Limitation to school closest or next closest to place of residence

No court, department, or agency of the United States shall, pursuant to section 1713 of this
title, order the implementation of a plan that
would require the transportation of any student
to a school other than the school closest or next
closest to his place of residence which provides
the appropriate grade level and type of edu-
cation for such student.

(b) Health risks; impingement on educational process

No court, department, or agency of the United
States shall require directly or indirectly the
transportation of any student if such transpor-
tation poses a risk to the health of such student
or constitutes a significant impingement on the educational process with respect to such stu-
dent.

(c) School population changes resulting from population changes

When a court of competent jurisdiction deter-
mines that a school system is desegregated, or
that it meets the constitutional requirements, or
that it is a unitary system, or that it has no
vestiges of a dual system, and thereafter resi-
dential shifts in population occur which result
in school population changes in any school within
such a desegregated school system, no edu-
cational agency because of such shifts shall be
required by any court, department, or agency of
the United States to formulate, or implement
any new desegregation plan, or modify or implement any modification of the court approved desegregation plan, which would require transportation of students to compensate wholly or in part for such shifts in school population as occurring.

§ 1715. District lines

In the formulation of remedies under section 1712 or 1713 of this title the lines drawn by a State, subdividing its territory into separate school districts, shall not be ignored or altered except where it is established that the lines were drawn for the purpose, and had the effect, of segregating children among public schools on the basis of race, color, sex, or national origin.

§ 1716. Voluntary adoption of remedies

Nothing in this subchapter prohibits an educational agency from proposing, adopting, requiring, or implementing any plan of desegregation, otherwise lawful, that is at variance with the standards set out in this subchapter nor shall any court, department, or agency of the United States be prohibited from approving implementation of a plan which goes beyond what can be required under this subchapter, if such plan is voluntarily proposed by the appropriate educational agency.

§ 1717. Reopening proceedings

A parent or guardian of a child, or parents or guardians of children similarly situated, transported to a public school in accordance with a court order, or an educational agency subject to a court order or a desegregation plan under title VI of the Civil Rights Act of 1964 [42 U.S.C. §2000d et seq.] in effect on August 21, 1974, and intended to end segregation of students on the basis of race, color, or national origin, may seek to reopen or intervene in the further implementation of such court order, currently in effect, if the time or distance of travel is so great as to risk the health of the student or significantly impinge on his or her educational process.

§ 1718. Limitation on court orders; termination of orders conditioned upon compliance with fifth and fourteenth amendments; statement of basis for termination orders; stay of termination orders

Any court order requiring, directly or indirectly, the transportation of students for the purpose of remedying a denial of the equal protection of the laws may, to the extent of such transportation, be terminated if the court finds the defendant educational agency has satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable, and will continue to be in compliance with the requirements thereof. The court of initial jurisdiction shall state in its order the basis for any decision to terminate an order pursuant to this section, and the termination of any order pursuant to this section shall be stayed pending a final appeal or, in the event no appeal is taken, until the time for any such appeal has expired. No additional order requiring such educational agency to transport students for such purpose shall be entered unless such agency is found not to have satisfied the requirements of the fifth or fourteenth amendments to the Constitution, whichever is applicable.

§ 2141. Findings; purpose

(a) Findings

Congress finds as follows:

(1) Military service during a time of war is the highest sacrifice a citizen may make for his or her country.

(2) 4,700,000 Americans served in World War I, 16,500,000 Americans served in World War II, 6,800,000 Americans served in the Korean Conflict, 9,200,000 Americans served in the Vietnam Conflict, 3,800,000 Americans served in the Persian Gulf War, and countless other Americans served in military engagements overseas throughout the 20th century.

(3) The Department of Veterans Affairs reports that there are almost 19,000,000 war veterans living in this Nation today.

(4) Today there are only approximately 3,400 living veterans of World War I, and of the some 6,000,000 veterans of World War II alive today, almost 1,500 die each day.

(5) Oral histories are of immeasurable value to historians, researchers, authors, journalists, film makers, scholars, students, and citizens of all walks of life.

(6) War veterans possess an invaluable resource in their memories of the conflicts in which they served, and can provide a rich history of our Nation and its people through the retelling of those memories, yet frequently those who served during times of conflict are reticent to family and friends about their experiences.

(7) It is in the Nation’s best interest to collect and catalog oral histories of American war veterans so that future generations will have original sources of information regarding the lives and times of those who served in war and the conditions under which they endured, so that Americans will always remember those who served in war and may learn first-hand of the heroics, tediousness, horrors, and triumphs of war.

(8) The Library of Congress, as the Nation’s oldest Federal cultural institution and largest and most inclusive library in human history (with nearly 119,000,000 items in its multimedia collection) is an appropriate repository to collect, preserve, and make available to the public an archive of these oral histories. The Library’s American Folklife Center has exper-
tise in the management of documentation projects and experience in the development of cultural and educational programs for the public.

(b) Purpose

It is the purpose of this subchapter to create a new federally sponsored, authorized, and funded program that will coordinate at a national level the collection of video and audio recordings of personal histories and testimonial of American war veterans, and to assist and encourage local efforts to preserve the memories of this Nation’s war veterans so that Americans of all current and future generations may have direct from veterans and better appreciate the realities of war and the sacrifices made by those who served in uniform during wartime.

(2) to create a collection of the recordings obtained (including a catalog and index) which will be available for public use through the National Digital Library of the Library of Congress and such other methods as the Director considers appropriate, consistent with and complimentary to the efforts described in paragraphs (1) and (2).

(b) Use of and consultation with other entities

The Director may carry out the activities described in paragraphs (1) and (3) of subsection (a) through agreements and partnerships entered into with other government and private entities, and may otherwise consult with interested persons (within the limits of available resources) and develop appropriate guidelines and arrangements for soliciting, acquiring, and making available recordings under the program under this subchapter.

^So in original. Probably should be complimentary.

Amounts necessary for increasing such
payments to States to comply with the preceding sentence shall be obtained by ratably reducing the amounts to be paid to other States.

(B) Special rule

In the case of a qualifying State, the minimum allotment under subparagraph (A) for a fiscal year for the qualifying State shall be the lesser of—

(ii) ½ of 1 percent of the amount appropriated under section 2307 of this title and not reserved under paragraph (1) for the fiscal year for which the determination is made.

(D) Definitions

In this paragraph:

(bb) the amount reserved under paragraph (1)(C) for fiscal year 2006 (as such paragraph (1)(C) was so in effect); and

(cc) $827,671.

(ii) Qualifying State

The term “qualifying State” means a State (except the United States Virgin Islands) that, for the fiscal year for which a determination under this paragraph is made, would receive, under the allotment formula under paragraph (2) (without the application of this paragraph and paragraphs (3) and (5)), an amount that would be less than the amount the State would receive under subparagraph (A) for such fiscal year.

(5) Hold harmless

(A) In general

No State shall receive an allotment under this section for a fiscal year that is less than the allotment the State received under part A of title I of the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2311 et seq.) (as such part was in effect on the day before October 31, 1998) for fiscal year 1998.

If for any fiscal year the amount appropriated for allotments under this section is insufficient to satisfy the provisions of subparagraph (A), the payments to all States under such subparagraph shall be ratably reduced.

(b) Reallotment

If the Secretary determines that any amount of any State’s allotment under subsection (a) for any fiscal year will not be required for such fiscal year for carrying out the activities for which such amount has been allotted, the Secretary shall make such amount available for reallocation. Any such reallocation among other States shall occur on such dates during the same year as the Secretary shall fix, and shall be made on the basis of criteria established by regulation. No funds may be reallocated for any use other than the use for which the funds were appropriated. Any amount reallocated to a State under this subsection for any fiscal year shall remain available for obligation during the succeeding fiscal year and shall be deemed to be part of the State’s allotment for the year in which the amount is obligated.

(c) Allotment ratio

(1) In general

The allotment ratio for any State shall be 1.00 less the product of—

(A) 0.50; and

(B) the quotient obtained by dividing the per capita income for the State by the per capita income for all the States (exclusive of the Commonwealth of Puerto Rico and the United States Virgin Islands), except that—

(i) the allotment ratio in no case shall be more than 0.60 or less than 0.40; and

(ii) the allotment ratio for the Commonwealth of Puerto Rico and the United States Virgin Islands shall be 0.60.

(2) Promulgation

The allotment ratios shall be promulgated by the Secretary for each fiscal year between October 1 and December 31 of the fiscal year preceding the fiscal year for which the determination is made. Allotment ratios shall be computed on the basis of the average of the appropriate per capita incomes for the 3 most recent consecutive fiscal years for which satisfactory data are available.
(3) Definition of per capita income

For the purpose of this section, the term “per capita income” means, with respect to a fiscal year, the total personal income in the calendar year ending in such year, divided by the population of the area concerned in such year.

(4) Population determination

For the purposes of this section, population shall be determined by the Secretary on the basis of the latest estimates available to the Department of Education.

(b) Maintenance of effort
(1) Determination
(A) In general
Except as provided in subparagraphs (B) and (C), no payments shall be made under this chapter for any fiscal year to a State for career and technical education programs or tech prep programs unless the Secretary determines that the fiscal effort per student or the aggregate expenditures of such State for career and technical education programs for the fiscal year preceding the fiscal year for which the determination is made, equaled or exceeded such effort or expenditures for career and technical education programs for the second fiscal year preceding the fiscal year for which the determination is made.

(B) Computation
In computing the fiscal effort or aggregate expenditures pursuant to subparagraph (A), the Secretary shall exclude capital expenditures, special 1-time project costs, and the cost of pilot programs.

(C) Decrease in Federal support
If the amount made available for career and technical education programs under this chapter for a fiscal year is less than the amount made available for career and technical education programs under this chapter for the preceding fiscal year, then the fiscal effort per student or the aggregate expenditures of a State required by subparagraph (A) for the preceding fiscal year shall be decreased by the same percentage as the percentage decrease in the amount so made available.

(2) Waiver
The Secretary may waive the requirements of this section, with respect to not more than 5 percent of expenditures by any eligible agency for 1 fiscal year only, on making a determination that such waiver would be equitable due to exceptional or uncontrollable circumstances affecting the ability of the eligible agency to meet such requirements, such as a natural disaster or an unforeseen and precipitous decline in financial resources. No level of funding permitted under such a waiver may be used as the basis for computing the fiscal effort or aggregate expenditures required under this section for years subsequent to the year covered by such waiver. CODIFICATION

Sections were omitted in the general amendment of the Elementary and Secondary Education Act of 1965,
Congress finds that—

1. Education is fundamental to the development of individual citizens and the progress of the Nation;
2. There is a continuing need to ensure equal access for all Americans to educational opportunities of a high quality, and such educational opportunities should not be denied because of race, creed, color, national origin, or sex;
3. Parents have the primary responsibility for the education of their children, and States, localities, and private institutions have the primary responsibility for supporting that parental role;
4. In our Federal system, the primary public responsibility for education is reserved respectively to the States and the local school systems and other instrumentalities of the States;
5. The American people benefit from a diversity of educational settings, including public and private schools, libraries, museums and other institutions, the workplace, the community, and the home;
6. The importance of education is increasing as new technologies and alternative approaches to traditional education are considered, as society becomes more complex, and as equal opportunities in education and employment are promoted;
7. There is a need for improvement in the management and coordination of Federal education programs to support more effectively State, local, and private institutions, students, and parents in carrying out their educational responsibilities;
8. The dispersion of education programs across a large number of Federal agencies has led to fragmented, duplicative, and often inconsistent Federal policies relating to education;
9. Presidential and public consideration of issues relating to Federal education programs is hindered by the present organizational position of education programs in the executive branch of the Government; and
10. There is no single, full-time, Federal education official directly accountable to the President, the Congress, and the people.

5. to improve the coordination of Federal education programs;

6. to improve the management and efficiency of Federal education activities, especially with respect to the process, procedures, and administrative structures for the dispersal of Federal funds, as well as the reduction of unnecessary and duplicative burdens and constraints, including unnecessary paperwork, on the recipients of Federal funds; and

EXTENSION OF TERM OF PRESIDENT’S ADVISORY COMMISSION ON EDUCATIONAL EXCELLENCE FOR HISPANIC AMERICANS

Term of President’s Advisory Commission on Educational Excellence for Hispanic Americans extended until Sept. 30, 2003, by Ex. Ord. No. 13225, Sept. 28, 2001, 66 F.R. 53591, formerly set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees. Previous extensions of term of President’s Advisory Commission on Educational Excellence for Hispanic Americans were contained in the following prior Executive Orders:

(d) Ex. Ord. No. 13555, WHITE HOUSE INITIATIVE ON EDUCATIONAL EXCELLENCE FOR HISPANICS
Ex. Ord. No. 13555, Oct. 19, 2010, 75 F.R. 56547, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, to restore the country to its role as the global leader in education, to strengthen the Nation by expanding educational opportunities and improving educational outcomes for Hispanics of all ages, and to help ensure that all Hispanics receive a complete and competitive education that prepares them for college, a career, and productive and satisfying lives, it is hereby ordered as follows:

1. Policy. At more than 52 million strong, including 4 million in Puerto Rico, Hispanics constitute the country’s largest and fastest growing minority group. They have had a profound and positive impact on our country through, among other things, their community’s strong commitment to family, faith, hard work, and service. Many Hispanics contribute to this Nation bilingually in the English and Spanish languages—a true asset for our country in an increasingly global, interdependent world.

Hispanic students are the largest minority group in our Nation’s schools, numbering more than 11 million in our public elementary and secondary school system, and constituting more than 22 percent of all pre-K-12 students. Hispanic students face educational challenges of crisis proportions. Fewer than half of all Hispanic children participate in early childhood education programs, and far too few Hispanic students graduate from high school; of those who do complete high school, many are not adequately prepared for college. Only 12 percent of adult Hispanics have a bachelor’s degree, and just 3 percent have completed graduate or professional degree programs. At the same time, large numbers of Hispanic adults lack the education or literacy skills they need to advance their careers; they also are less likely than members of other groups to have taken job- or career-related courses, with the exception of basic education classes, such as English as a second language.

Our country was built on and continues to thrive on its diversity, and there is no doubt that the future of the United States is inextricably linked to the future of the Hispanic community. To reach the ambitious education goals we have set for our Nation, as well as to ensure equality of opportunity for all, we must provide the opportunities that will enable Hispanic students to raise their educational attainment at every level of the American education system. America’s future competitiveness in our global economy will be substantially enhanced by improving educational outcomes for Hispanics.

The President an Annual Federal Plan to Promote Hispanic American Educational Excellence and the Director of the Initiative, to assist the Department in meeting the objectives of this order, to expand educational opportunities, improve education outcomes, and deliver a complete and competitive education for all Hispanics, the Initiative shall, consistent with law, promote, encourage, and undertake efforts designed to meet the following objectives:

(i) increasing general understanding of the causes of the educational challenges faced by Hispanic students;
(ii) increasing the percentage of Hispanic children who enter kindergarten ready for success by improving access by Hispanics of high-quality preschool programs and services that encourage the early learning and development of children from birth through age 5;
(iii) implementing successful and innovative education reform strategies and practices in America’s public schools to ensure that Hispanic students, like their peers, receive a rigorous and well-rounded education, and have access to student support services that will prepare them for college, a career, and civic participation;
(iv) ensuring that all Hispanic students have access to excellent teachers and school leaders, in part by supporting efforts to improve the recruitment, preparation, development, and retention of successful Hispanic teachers and school leaders and other effective teachers and school leaders responsible for the education of Hispanic students;
(v) reducing the dropout rate of Hispanic students and helping Hispanic students graduate from high school prepared for college and a career. In part by promoting a positive school climate and supporting successful dropout prevention and recovery strategies that better engage Hispanic youths in their learning, help them catch up academically, and provide those who have left the educational system with pathways to recovery;
(vi) increasing college access and success for Hispanic students and providing support to help ensure that a greater percentage of Hispanics complete college and contribute to the goal of having America again lead the world in the proportion of college graduates by 2020, in part through strategies to strengthen the capacity of Hispanic-Serving Institutions, community colleges, and other institutions of higher education serving large numbers of Hispanic students; and

EXTENSION OF TERM OF PRESIDENT’S ADVISORY COMMISSION ON EDUCATIONAL EXCELLENCE FOR HISPANICS

Previous extension of term of President’s Advisory Commission on Educational Excellence for Hispanics was contained in the following prior Executive Order:

EX. NO. 13621. WHITE HOUSE INITIATIVE ON EDUCATIONAL EXCELLENCE FOR AFRICAN AMERICANS

Ex. No. 13621, July 26, 2012, 77 F.R. 45471, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, to restore the country to its role as the global leader in education, to strengthen the Nation by improving educational outcomes for African Americans of all ages, and to help ensure that all African American students receive an education that properly prepares them for college, productive careers, and satisfying lives, it is hereby ordered as follows:

1. Policy. Over the course of America’s history, African American men and women have strengthened our Nation, including by leading reforms, overcoming obstacles, and breaking down barriers. In the less than 60 years since the Brown v. Board of Education decision put America on a path toward equal educational opportunity, America’s educational system has undergone a remarkable transformation, and many African American children who attended the substandard segregated schools of the 1950s have grown up to see their children attend integrated elementary and secondary schools, colleges, and universities.

However, substantial obstacles to equal educational opportunity still remain in America’s educational system. African Americans lack equal access to highly effective teachers and principals, safe schools, and challenging college-preparatory classes, and they disproportionately experience school discipline and referrals to special education. African American student achievement not only lags behind that of their domestic peers by an average of two grade levels, but also behind students in almost every other developed nation. Over a third of African American students do not graduate from high school on time with a regular high school diploma, and only four percent of African American high school graduates interested in college are college-ready across a range of subjects. An even higher number of African American males do not graduate with a regular high school diploma, and African American males also experience disparate rates of incarceration.

Significantly improving the educational outcomes of African Americans will provide substantial benefits for our country by, among other things, increasing college completion rates, productivity, employment rates, and the number of African American teachers. Enhanced educational outcomes lead to more productive careers, improved economic opportunity, and greater social well-being for all Americans. Complementing the role of Historically Black Colleges and Universities (HBCUs) in preparing generations of African American students for successful careers, and the work of my Administration’s separate White House Initiative on Historically Black Colleges and Universities, this new Initiative’s focus on improving all the sequential levels of education will produce a more effective educational continuum for all African American students.

To reach the ambitious education goals we have set for our Nation, as well as to ensure equality of access and opportunity for all, we must provide the support that will enable African American students to improve their level of educational achievement through rigorous and well-rounded academic and support services that will prepare them for college, a career, and a lifetime of learning.

2. White House Initiative on Educational Excellence for African Americans. (a) Establishment. There is hereby established the White House Initiative on Educational Excellence for African Americans (Initiative), to be housed in the Department of Education (Department). There shall be an Executive Director of the Initiative, to be appointed by the Secretary of Education (Secretary). The Initiative shall be supported by the Interagency Working Group established under subsection (c) of this section and advised by the Commission established under section 3 of this order.

(b) Mission and Functions.

(1) The Initiative will help to restore the United States to its role as the global leader in education; strengthen the Nation by improving educational outcomes for African Americans of all ages; and help ensure that African Americans receive a complete and competitive education that prepares them for college, a satisfying career, and productive citizenship.

(2) The Initiative will complement and reinforce the Historically Black Colleges and Universities Initiative established by Executive Order 13522 of February 26, 2010, and together, they both will support enhanced educational outcomes for African Americans at every level of the American education system, including early childhood education; elementary, secondary, and postsecondary education; career and technical education; and adult education.

(3) To help expand educational opportunities, improve educational outcomes, and deliver a complete and competitive education for all African Americans, the Initiative shall, consistent with applicable law, promote, encourage, and undertake efforts designed to meet the following objectives:

(i) increasing general understanding of the causes of the educational challenges faced by African American students, whether they are in urban, suburban, or rural learning environments;

(ii) increasing the percentage of African American children who enter kindergarten ready for success by improving their access to high-quality programs and services that enable early learning and development of children from birth through age 5;

(iii) decreasing the disproportionate number of referrals of African American children from general education to special education levels, but also by addressing the root causes of the referrals and eradicating discriminatory referrals;
§ 3411

The Initiative shall, consistent with applicable law:

(iv) implementing successful and innovative education reform strategies and practices in America's public schools to ensure that African American students receive a rigorous and well-rounded education in safe and healthy environments, and have access to high-level, rigorous course work and support services that will prepare them for college, a career, and civic participation;

(v) ensuring that all African American students have comparable access to the resources necessary to obtain a high-quality education, including effective teachers and school leaders, in part by supporting efforts to improve the recruitment, preparation, development, and retention of successful African American teachers and school leaders and other effective teachers and school leaders responsible for the education of African American students;

(vi) reducing the dropout rate of African American students, and helping African American students graduate from high school prepared for college and a career, in part by promoting a positive school climate that does not rely on methods that result in disparate use of disciplinary tools, and by supporting successful and innovative dropout prevention and recovery strategies that better engage African American youths in their learning, help them catch up academically, and provide those who have left the educational system with pathways to reentry;

(vii) increasing college access and success for African American students and providing support to help ensure that a greater percentage of African Americans complete college and contribute to the goal of having America again lead the world in the proportion of adults who are college graduates by 2020, in part through strategies to strengthen the capacity of institutions of higher education that serve large numbers of African American students, including community colleges, Historically Black Colleges and Universities (HBCUs), Predominantly Black Institutions (PBIs), and other institutions; and

(viii) enhancing the educational and life opportunities of African Americans by fostering positive family and community engagement in education; reducing racial isolation and segregation of elementary and secondary schools to promote understanding and tolerance among all Americans; improving the quality of, and expanding access to, adult education, literacy, and career and technical education; and increasing opportunities for education and career advancement in the fields of science, technology, engineering, and mathematics.

(d) In working to fulfill its mission and objectives, the Initiative shall, consistent with applicable law:

(i) develop evidence-based best practices that can provide African American students a rigorous and well-rounded education in safe and healthy environments, as well as access to support services, which will prepare them for college, a career, and civic participation;

(ii) develop a national network of individuals, organizations, and communities to share and implement best practices related to the education of African Americans, including those identified as most at risk;

(iii) help ensure that Federal programs and initiatives administered by the Department and other agencies are serving and meeting the educational needs of African Americans, including by encouraging agencies to incorporate best practices into appropriate discretionary programs where permitted by law;

(iv) work closely with the Executive Office of the President and key Administration priorities related to the education of African Americans;

(v) increase the participation of the African American community, including institutions that serve the community, in the Department's programs and in education-related programs at other agencies;

(vi) advise the officers of the Department and other agencies on issues related to the educational attainment of African Americans;

(vii) advise the Secretary on the development, implementation, and coordination of educational programs and initiatives at the Department and other agencies that are designed to improve educational opportunities and outcomes for African Americans of all ages; and

(viii) encourage and develop partnerships with public, private, philanthropic, and nonprofit stakeholders to improve African Americans' readiness for school, college, and career, as well as their college persistence and completion.

(5) The Initiative shall periodically publish reports on its activities. The Secretary and the Executive Director of the Initiative, in consultation with the Working Group and the Chair of the Commission established under subsection (c) of this section and section 3 of this order, respectively, may develop and submit to the President recommendations designed to advance and promote educational opportunities and attainment for African Americans.

(c) Interagency Working Group.

(1) There is established the Federal Interagency Working Group on Educational Excellence for African Americans (Working Group), which shall be convened and chaired by the Initiative's Executive Director and that shall support the efforts of the Initiative described in subsection (b) of this section.

(2) The Working Group shall consist of senior officials from the Department, the White House Domestic Policy Council, the Department of Justice, the Department of Labor, the Department of Health and Human Services, the National Science Foundation, the Department of Defense, and such additional agencies and offices as the President may subsequently designate. Senior officials shall be designated by the heads of their respective agencies and offices.

(3) The Initiative's Executive Director may establish subgroups of the Working Group to focus on different aspects of the educational system (such as early childhood education, K–12 education, higher education (including HBCUs and PBIs), career and technical education, adult education, or correctional education and reengagement) or educational challenges facing particular populations of African Americans (such as young men, disconnected or out-of-school youth, individuals with disabilities, children identified as gifted and talented, single-parent households, or adults already in the workforce).

(d) Administration. The Department shall provide funding and administrative support for the Initiative and the Working Group, to the extent permitted by law and within existing appropriations. To the extent permitted by law, other agencies and offices represented on the Working Group may detail personnel to the Initiative to assist the Department in meeting the objectives of this order.

(e) Collaboration Among White House Initiatives. The Initiative may collaborate with the White House Initiatives on American Indian and Alaska Native Education, Educational Excellence for Hispanic Americans, Educational Excellence for Asian Americans and Pacific Islanders, and (consistent with section 3(c) of this order) Historically Black Colleges and Universities, whenever appropriate in light of their shared objectives.

Creating and Expanding Ladders of Opportunity for
Boys and Young Men of Color

Memorandum of President of the United States, Feb.
27, 2014, 79 F.R. 12923, provided:

Memorandum for the Heads of Executive Depart-
ments and Agencies

Over the course of my Administration, we have made
consistent progress on important goals such as reduc-
ing high school dropout rates and lowering unemploy-
ment and crime. Yet as the Congress, State and local
governments, research institutions, and leading pri-
ivate-sector organizations have all recognized, persist-
ent gaps in employment, educational outcomes, and ca-

reer skills remain for many boys and young men of
color throughout their lives.

Many boys and young men of color will arrive at
kindergarten less prepared than their peers in early lan-
guage and literacy skills, leaving them less likely to
finish school. Labor-force participation rates for young
men of color have dropped, and far too many lack the
skills they need to succeed. The disproportionate num-
ber of African American and Hispanic young men who
are unemployed or involved in the criminal justice sys-
tem undermines family and community stability and is
a drag on State and Federal budgets. And, young men of
color are far more likely to be victims of murder than
their white peers, accounting for almost half of the
country’s murder victims each year. These outcomes
are troubling, and they represent only a portion of the
social and economic cost to our Nation when the
full potential of so many boys and young men is left
unrealized.

By focusing on the critical challenges, risk factors,
and opportunities for boys and young men of color at
key life stages, we can improve their long-term out-
comes and ability to contribute to the Nation’s
competitiveness, economic mobility and growth, and

civil society. Unlocking their full potential will benefit
not only them, but all Americans.

Therefore, I am establishing the My Brother’s Keeper
initiative, an interagency effort to improve measurably
the expected educational and life outcomes for and
address the persistent opportunity gaps faced by boys
and young men of color. The initiative will help us deter-
mine the public and private efforts that are working
and how to expand upon them, how the Federal Govern-
ment’s own policies and programs can better support
these efforts, and how to better involve State and local
officials, the private sector, and the philanthropic
community.

By the authority vested in me as President by the
Constitution and the laws of the United States of
America, I hereby direct the following:

Title 20—Education

§ 3411
SECTION 1. My Brother's Keeper Task Force. (a) There is established a My Brother's Keeper Task Force (Task Force) to develop a coordinated Federal effort to improve significantly the expected and life outcomes for boys and young men of color (including African Americans, Hispanic Americans, and Native Americans) and their contributions to U.S. prosperity. (b) The Task Force shall focus on evidence-based intervention points and issues facing boys and young men of color up to the age of 25, with a particular focus on issues important to young men under the age of 15.

Specifically, the Task Force shall focus on the following issues, among others: access to early childhood supports; grade school literacy; pathways to college and a career, including issues arising from school disciplinary action; access to mentoring services and support networks; and interactions with the criminal justice system and violent crime.

(c) Within 30 days of the date of this memorandum, each member of the Task Force shall provide recommended indicators of life outcomes for the public Web site described in subsection (a)(ii) of this section, and a plan for providing data on such indicators.

(d) Within 45 days of the date of this memorandum, each member of the Task Force shall identify any relevant programs and data-driven assessments within the member's department or agency for consideration in the portal described in subsection (a)(iii) of this section.

(e) Within 90 days of the date of this memorandum, the Task Force shall provide the President with a report on its progress and recommendations with respect to the functions set forth in subsection (a) of this section. Additionally, the Task Force shall provide, within 1 year of the date of this memorandum, a status report to the President regarding the implementation of this memorandum.

Sect. 3. General Provisions. (a) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law or Executive Order to an agency, or the head thereof; or
(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) The Secretary of Education is hereby authorized and directed to publish this memorandum in the Federal Register.

§ 3483. Working capital fund

(a) Establishment; administrative services included

The Secretary, with the approval of the Director of the Office of Management and Budget, is authorized to establish for the Department a working capital fund, to be available without fiscal year limitation, for expenses necessary for the maintenance and operation of such common administrative services as the Secretary shall find to be desirable in the interests of economy and efficiency, including such services as—

The fund shall also be credited with receipts from sale or exchange of property and receipts in payment for loss or damage to property owned by the fund. There shall be covered into the Treasury as miscellaneous receipts any surplus of the fund (all assets, liabilities, and prior losses considered) above the amounts transferred or appropriated to establish and maintain such fund. There shall be transferred to the fund the stocks of supplies, equipment, other assets, liabilities, and unpaid obligations relating to the services which the Secretary determines, with the approval of the Director of the Office of Management and Budget, will be performed.

§ 3484. Funds transfer

The Secretary may, when authorized in an appropriation Act in any fiscal year, transfer funds from one appropriation to another within the Department, except that no appropriation for any fiscal year shall be either increased or decreased pursuant to this section by more than 5 percent and no such transfer shall result in increasing any such appropriation above the amount authorized to be appropriated therefor.

Effective Date of 2003 Amendment

§ 3509. Coordination of programs for handicapped

The Secretary of Health and Human Services shall identify, assess, coordinate, and eliminate
§ 3601. Congressional statement of findings and purposes

(a) The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers which is considered to be safe to individuals exposed to the fibers;

(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air; and (B) asbestos concentrations far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for identifying hazardous conditions in schools or for remedying those conditions;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without an improved program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this chapter to identify and mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) It is the purpose of this chapter to—

(1) direct the Secretary of Education to establish a task force to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) require States receiving administrative funds for any applicable program (as defined under section 1221(c)(1)(A) of this title) to prepare a plan describing the manner in which information relating to programs established under this chapter shall be distributed to local educational agencies;

(3) provide scientific, technical, and financial assistance to State educational agencies and local educational agencies to enable them to conduct an asbestos detection program to identify asbestos hazards in schools;

(4) provide loans to local educational agencies for the mitigation of asbestos hazards which constitute an imminent hazard to the health and safety of school children and employees; and

(5) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

REFERENCES IN TEXT

Section 1221 of this title, referred to in subsec. (b)(2), was amended generally by Pub. L. 103–382, title II, § 211, Oct. 20, 1994, 108 Stat. 3912, and, as so amended, no longer contains a subsec. (c)(1)(A). However, the term “applicable program” is defined in subsec. (c)(1) of that section.

(a) Establishment; composition; membership; chairman; appointment; vacancies

(1) There is established a task force to be known as the Asbestos Hazards School Safety Task Force (hereinafter in this chapter referred to as “Task Force”). The Task Force shall be composed of ten members, who shall be appointed by the Secretary within 30 days after June 14, 1980, as follows:

(G) Four representatives from among organizations concerned with education and health.

Members of the Task Force shall be individuals who have knowledge of the medical problems associated with exposure to asbestos, or individuals who are familiar with procedures for the following activities: the containment or removal of asbestos from buildings; the replacement of asbestos materials removed from school buildings with other appropriate building materials; and the restoration of such buildings to conditions comparable to those existing before such containment or removal was carried out.

(2) The Secretary shall designate a chairman of the Task Force from among its members.

(3) Members shall be appointed for the life of the Task Force. Any vacancy in the Task Force shall be filled in the same manner in which the original appointment was made.

(b) Meetings; quorum; hearings

(1) The Task Force shall meet, no later than 30 days after the appointment of its members, at the call of the chairman of the Task Force.

(2) Five members of the Task Force shall constitute a quorum for purposes of conducting the business of the Task Force, but a lesser number may hold hearings.

(c) Compensation; travel expenses

(1) Members of the Task Force who are not full-time officers or employees of the Federal Government shall receive compensation at a rate determined by the Secretary, but not to exceed the daily equivalent of the maximum annual rate of pay in effect for grade GS–16 of the General Schedule, for each day (including traveltime) during which they are engaged in the performance of the duties of the Task Force.

(2) While away from their homes or regular places of business in the performance of the duties of the Task Force, all members of the Task Force shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5.

(d) Availability of Department of Education personnel; use of mails

(1) Upon request of the Task Force, the Secretary shall make available to the Task Force personnel of the Department of Education to assist the Task Force in carrying out its duties.

(e) Duties

The duties of the Task Force shall include—

(1) the compilation of medical, scientific, and technical information explaining—

(A) the health and safety hazards associated with asbestos materials; and

(B) the means of identifying, sampling, and testing materials suspected of emitting asbestos fibers;

(2) the distribution of the information described in paragraph (1) (in any appropriate form such as pamphlets, reports, or instructions) to State educational agencies and to local educational agencies for the purpose of assisting such agencies in carrying out activities described in this chapter;

(3) the review of applications for grants and loans under sections 3604 and 3605 of this title, and the submission to the Secretary of recommendations respecting the approval or disapproval of such applications;

(4) the review of any guidelines established by the Environmental Protection Agency for identifying those schools in which exposure to asbestos fibers constitutes a health problem and for taking appropriate corrective actions at such schools, in order to determine whether any modifications of such guidelines should be recommended to the Secretary under paragraph (5); and

(5) providing the Secretary with assistance in formulating standards and procedures under section 3606 of this title by—

(A) submitting to the Secretary relevant information concerning the results of the review made under paragraph (4) of this subsection; and

(B) recommending such modifications to the guidelines referred to in such paragraph as the Task Force considers appropriate.

In carrying out its duties under this subsection, the Task Force shall avoid, to the maximum extent practicable, duplicating similar activities undertaken by the Environmental Protection Agency.

(f) Termination

The Task Force shall cease to exist at the end of the 180-day period beginning on the date that the authority of the Secretary to make loans under section 3605 of this title has expired.
§ 3603

(a) Grant to local and State educational agencies for Federal share of costs of asbestos detection program

Subject to the second sentence of this paragraph, the Federal share of the costs referred to in paragraph (1) shall be 50 percent. Upon a determination by the Secretary that an applicant has limited fiscal resources and would be unable to participate in the program under this section without receiving from the Federal Government, as its Federal share of such costs, an amount greater than the amount permitted under the first sentence of this paragraph, the Secretary may increase the Federal share which may be paid to such applicant by such amount as the Secretary considers appropriate to permit the applicant to participate in the program.

(b) Application for grants; procedures applicable for approval; programs completed before January 1, 1976; determinations respecting amount of grant

(1) No grant may be made under this section unless an application has been submitted to and

dated in paragraph (1) shall be 50 percent. No grant may be awarded under this section for any asbestos hazards detection program completed before January 1, 1976.

(4) After reviewing the application submitted under this section, together with any recommendations made by the Task Force, the Secretary shall determine the amount of any grant to be awarded under this section. Funds may be awarded by the Secretary for the administrative costs incurred in the preparation and supervision of the asbestos detection program and for the following activities:

(A) Visual inspections of school buildings.

(c) Reporting requirements for recipients

Local and State educational agencies receiving grants under this section shall file a report with the Secretary, not later than 120 days after the award of such grant, describing the detection activities which were undertaken, the results of the asbestos detection program, and plans for mitigating any imminent hazards which were detected by the testing. The report shall include a detailed accounting of the funds used to carry out the detection program.

(d) Availability of appropriated funds for education and technical assistance programs

During the period in which grants may be made under this section, not more than 20 percent of the funds appropriated to carry out this section may be made available by the Secretary to the Task Force to conduct education and technical assistance programs related to the detection of asbestos hazards in school buildings and the implementation of appropriate actions to mitigate such hazards.

§ 3605. Asbestos Hazards Control Loan Program

(a) Establishment; administration; loans to local educational agencies for share of project costs; project criteria; increase in amount of loans

(1) There is established within the Department of Education an Asbestos Hazards Control Loan Program (hereinafter in this chapter referred to as the “Loan Program”), which shall be administered by the Secretary in accordance with this section.

(2) The Secretary may make loans under this section to local educational agencies in an amount equal to 50 percent of the costs of carrying out projects for—

(A) the containment or removal of any materials containing asbestos in school buildings in which such materials pose an imminent hazard to the health and safety of children or employees;

(B) the replacement of the asbestos materials removed from school buildings with other appropriate building materials; and

(C) making repairs which the Secretary determines to be necessary to restore school buildings to conditions comparable to those existing before containment or removal activities were undertaken under subparagraph (A).

Loans may be made under this section only for projects affecting more than 2,500 square feet of surface and in which the asbestos material to be contained or removed consists of a minimum asbestos level, as determined by the Secretary under section 3606(a)(2) of this title.

(3) If the Secretary determines that an applicant has limited fiscal resources and would be unable to carry out the projects described in paragraph (2) without receiving a loan under this section for an amount greater than the amount permitted under such paragraph, the Secretary may increase the amount of the loan payable to such applicant to an amount the Secretary considers appropriate to enable the applicant to carry out such projects.

(b) Loan agreements; required terms; additional terms and conditions

Loans under this section shall be made pursuant to loan agreements which shall provide for the following terms:
(1) The loan shall not bear any interest except as otherwise provided under paragraph (5).

(3) Repayment of the loan shall be made to the Secretary of the Treasury for deposit in the general fund of the Treasury.

Such loans shall be subject to such other terms and conditions as the Secretary may establish for the protection of the financial interest of the United States and in furtherance of the purposes of this chapter.

(c) Application for loans; procedures applicable for approval; projects completed before January 1, 1976

(1) No loan may be made under this section unless an application has been submitted to and approved by the Secretary, after consultation with the Task Force, within the two-year period beginning on June 14, 1980. The Secretary may not approve an application unless—

(A) the application contains such information as the Secretary may require, including information describing—

(i) the nature of the asbestos problem for which the loan is sought;

(ii) the asbestos content of the material to be contained or removed by the local educational agency, as determined under preliminary testing which was conducted in accordance with the standards established by the Secretary under section 3606(a)(1) of this title, or, in the case of testing conducted before June 14, 1980, was conducted in a manner which substantially conforms to such standards; and

(iii) the methods which will be used to contain or remove the asbestos materials, in accordance with section 3606(b) of this title, and any other pertinent details relating to the project or projects to be conducted by the applicant (as described in subsection (a)(2)); and

(B) the application contains assurances that—

(i) any employee engaged in any activity to carry out programs under this section shall be notified in writing by the local educational agency conducting the program of the hazards of working with asbestos, and shall be required to utilize all appropriate safety procedures to minimize health risks;

(ii) no child or school employee shall be permitted in the vicinity of any asbestos containment or removal activity; and

(iii) the local educational agency shall pay employees engaged in containment, removal, or replacement activities to carry out programs under this section at reasonable rates of pay, as established by the Secretary on the basis of prevailing wage rates in the location of such work.

(2) The Secretary shall provide the Task Force with a copy of any application submitted to the Secretary under paragraph (1).

(3) No loans may be made by the Secretary under this section for projects described in subsection (a)(2) which commenced before the availability of loans under the Loan Program unless the local educational agency submits to the Secretary an application which—

(A) meets the requirements of paragraph (1); and

(B) contains assurances that any work already completed by the applicant has been carried out in substantial conformity with section 3606(b) of this title.

No loan may be awarded under this section for any project described in subsection (a)(2) which was completed before January 1, 1976.

(d) Reporting requirements for Secretary

During each of the three calendar years after 1980, the Secretary shall submit before February 1 of such year a report to the appropriate committees of the House of Representatives and the Senate, which shall—

(1) describe the number of loans made in the preceding calendar year and specify each applicant for and recipient of a loan;

(2) describe the nature of the asbestos problem of each applicant;

(3) describe the types of programs for which loans were made;

(4) specify the estimated total costs of such programs to the recipients of loans and specify the amount of loans made under the Loan Program; and

(A) procedures for testing the level of asbestos fibers in schools, including safety measures to be followed in conducting such tests;

(B) standards for evaluating (on the basis of such tests) the likelihood of the leakage of asbestos fibers into the school environment; and

(C) standards for determining which contractors are qualified to carry out the testing and evaluation described in this paragraph.

(2) After consulting with the Task Force, the Secretary shall establish criteria to be used for determining eligibility for loans under section 3605 of this title. The criteria shall be based on the assessment of the extent of the health hazards posed by the presence of asbestos fibers in schools, as determined in accordance with standards under paragraph (1)(B) of this subsection.

(b) Establishment of regulations

After reviewing recommendations submitted to the Secretary by the Task Force under sec-
tion 3602(e)(5) of this title, the Secretary, with the concurrence of the Task Force, shall by regulation establish—

(2) The proceeds from any judgment recovered in any suit brought by the United States under paragraph (1) (or, if the recipient files a similar suit on its own behalf, the proceeds from any judgment recovered by the recipient in such suit) shall be used to repay to the United States, to the extent that the proceeds are sufficient to provide for such repayment, an amount equal to the sum of—

(A) the amount of any grant made to the recipient under section 3604 of this title;

(B) the amount outstanding on any loan made to the recipient under section 3605 of this title; and

(C) an amount equal to the interest which would have been charged on such loan were the loan made by a commercial lender at prevailing interest rates (as determined by the Secretary).

(b) Investigation and report by Attorney General respecting feasibility of recovery of costs from any person determined by Attorney General to be liable

The Attorney General shall conduct an investigation to determine whether, by using all available means, the United States should or could recover, from any person determined by the Attorney General to be liable for such costs, the amounts expended by the United States to carry out this chapter. Within one year after June 14, 1980, the Attorney General shall submit to the Congress a report containing the results of the study, together with any appropriate recommendations.

(c) Expeditious proceedings by Attorney General

If the Attorney General determines in the report under subsection (b) that the United States should seek to recover the amounts expended by the United States to carry out this chapter, the Attorney General shall proceed in an expeditious manner to recover such amounts from the persons referred to in subsection (b).

§ 3608. Employee protection

No State or local educational agency receiving assistance under this chapter may discharge any employee with respect to the employee's compensation, terms, conditions, or privileges of employment because the employee has brought to the attention of the public information concerning any asbestos problem in the school buildings within the jurisdiction of such agency.

EFFECTIVE DATE OF REPEAL

SUBCHAPTER V—ASBESTOS SCHOOL HAZARD ABATEMENT

§ 4011. Findings and purpose

(a) Findings

The Congress finds that—

(1) exposure to asbestos fibers has been identified over a long period of time and by reputable medical and scientific evidence as significantly increasing the incidence of cancer and other severe or fatal diseases, such as asbestosis;

(2) medical evidence has suggested that children may be particularly vulnerable to environmentally induced cancers;

(3) medical science has not established any minimum level of exposure to asbestos fibers which is considered to be safe to individuals exposed to the fibers;

(4) substantial amounts of asbestos, particularly in sprayed form, have been used in school buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air, and (B) asbestos concentration far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for remediating hazardous conditions in schools;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without a program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this subchapter to mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) Purpose

It is the purpose of this subchapter to—

(1) direct the Administrator of the Environmental Protection Agency to establish a program to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos hazards in schools;

(3) provide financial assistance for the abatement of asbestos threats to the health and safety of school children or employees; and

(4) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

Pub. L. 101–637, § 2, Nov. 28, 1990, 104 Stat. 4589, provided that:
“(a) FINDINGS.—Congress finds the following:

“(1) The Environmental Protection Agency has estimated that more than forty-four thousand school buildings contain friable asbestos, exposing more than fifteen million school children and one million five hundred thousand school employees to unwarranted health hazards.

“(2) All elementary and secondary schools are required by the Asbestos Hazard Emergency Response Act [of 1986, see Short Title of 1986 Amendment note set out under section 2601 of Title 15, Commerce and Trade] to inspect for asbestos, develop an asbestos management plan, and implement such plan.

“(3) The Environmental Protection Agency has estimated it will cost local education agencies more than $3,000,000,000 to comply with the Asbestos Hazard Emergency Response Act.

“(4) Without a continuing program of information assistance, technical and scientific assistance, training, and financial support, many local educational agencies will be unable to carry out sufficient response actions to prevent the release of asbestos fibers into the air.

“(5) Without the provisions of sufficient financial support, the cost to local educational agencies of implementing asbestos response actions may have an adverse impact in their educational mission.

“(6) The effective regulation of interstate commerce for the protection of human health and the environment requires the continuation of programs to mitigate hazards of asbestos fibers and materials emitting such fibers.

“(b) PURPOSES.—The purposes of this Act [see Short Title of 1990 Amendment note above] are the following:

“(1) To direct the Environmental Protection Agency to maintain a program to assist local schools in carrying out their responsibilities under the Asbestos Hazard Emergency Response Act.

“(2) To provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos health hazards.

“(3) To provide financial assistance to State and local agencies for training of persons involved with inspections and abatement of asbestos, for conducting necessary reinspections of school buildings, and for the actual abatement of asbestos threats to the health and safety of school children or employees.

“(4) To assure that no employee of a local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.”

(5) it is appropriate and necessary for the Federal Government to support research and scholarship in Indian art and culture and Native Hawaiian art and culture and to complement programs for the advancement of such art and culture by tribal, private, and public agencies and organizations;

(1)(A) From the total amount appropriated for this subsection pursuant to section 4451(a) of this title, funds may be deposited into a trust fund maintained by the Institute at a federally insured banking or savings institution.

(B) The President of the Institute shall provide—

(i) for the deposit into the trust fund referred to in subparagraph (A)—

(I) of a capital contribution by the Institute in an amount equal to the amount of each Federal contribution; and

(II) any earnings on the funds deposited under this paragraph; or

(C) If at any time the Institute withdraws any capital contribution (as described in subparagraph (B)(i)) made by the Institute to the trust fund referred to in subparagraph (A) or puts any property (as described in subparagraph (B)(ii)) to a use which is not for the sole benefit of the Institute, an amount equal to the value of the Federal contribution shall be withdrawn from such trust fund and returned to the Treasury as miscellaneous receipts.

(2) Interest deposited into the trust fund pursuant to paragraph (1)(B)(i) may be periodically withdrawn and used, at the direction of the Board or its designee, to defray any expense associated with the operation of the Institute, including the expense of operations and maintenance, administration, academic and support personnel, community and student services programs, and technical assistance.

(3) For the purpose of complying with the contribution requirement of paragraph (1)(B), the Institute may use funds or in-kind contributions of real or personal property fairly valued which are made available from any private or tribal source, including interest earned by the funds invested under this subsection. (4) Amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount of funds or the value of the in-kind contributions which the Institute demonstrates have been placed within the control of, or irrevocably committed to the use of, the Institute as a capital contribution of the Institute in accordance with this subsection.

(b) Capital improvement endowment

(1) In addition to the trust fund established under subsection (a), funds may be deposited into a trust fund maintained by the Institute at a federally insured banking or savings institution from the amount reserved for this subsection pursuant to section 4451(a) of this title for the purpose of establishing a separate special endowment for capital improvement (hereafter in this subsection referred to as the “capital endowment fund”) to pay expenses associated with site selection and preparation, preliminary planning and architectural design and planning, new construction, materials and equipment procurement, renovation, alteration, repair, and other building and expansion costs of the Institute.

(2) The President of the Institute shall provide for the deposit into the capital endowment fund of a capital contribution by the Institute in an amount equal to the amount of each Federal contribution and any earnings on amounts in the capital endowment fund.

At the end of the two-year period, the entire principal and interest of the funds deposited for this period, including the Federal matching portion, shall accrue, without reservation, to the Institute and may be withdrawn, in whole or in part, to defray expenses associated with capital acquisition and improvement of the Institute referred to in paragraph (1).

(4) For the purpose of complying with the contribution requirement of paragraph (2), the Institute may use funds which are available from any private, non-Federal governmental, or tribal source.

(5) Subject to paragraph (3), amounts appropriated under section 4451(a) of this title for use under this subsection shall be paid by the Secretary of the Treasury to the Institute as a Federal capital contribution equal to the amount which the Institute demonstrates has been placed within the control of, or irrevocably committed to the use of, the Institute and is available for deposit as a capital contribution of the Institute in accordance with this subsection.

(6) For the purpose of complying with the contribution requirement in this subsection, the Institute may use funds or in-kind contributions of real or personal property. For the purposes of this paragraph, all contributions, in-kind and real estate, which are held by the Institute beginning on November 29, 1990, and which were received after June 2, 1988, but which have not been included in their entirety in computations under this section shall be eligible for matching Federal funds appropriated in any year.

SUBCHAPTER I—NATIONAL EDUCATION GOALS

§ 5811. Purpose

The purpose of this subchapter is to establish National Education Goals.

§ 5812. National Education Goals

The Congress declares that the National Education Goals are the following:

(1) School readiness

(A) By the year 2000, all children in America will start school ready to learn.

(B) The objectives for this goal are that—

(i) all children will have access to high-quality and developmentally appropriate preschool programs that help prepare children for school;

(ii) every parent in the United States will be a child’s first teacher and devote time each day to helping such parent’s preschool child learn, and parents will have access to the training and support parents need; and

(iii) children will receive the nutrition, physical activity experiences, and health care needed to arrive at school with healthy minds and bodies, and to maintain the mental alertness necessary to be prepared to learn, and the number of low-birthweight babies will be significantly reduced through enhanced prenatal health systems.

(2) School completion

(A) By the year 2000, the high school graduation rate will increase to at least 90 percent.

(B) The objectives for this goal are that—

(i) the Nation must dramatically reduce its school dropout rate, and 75 percent of the students who do drop out will successfully complete a high school degree or its equivalent; and

(ii) the gap in high school graduation rates between American students from minority backgrounds and their non-minority counterparts will be eliminated.

(3) Student achievement and citizenship

(A) By the year 2000, all students will leave grades 4, 8, and 12 having demonstrated competency over challenging subject matter including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, and every school in America will ensure that all students learn to use their minds well, so they may be prepared for responsible citizenship, further learning, and productive employment in our Nation’s modern economy.

(B) The objectives for this goal are that—

(i) the academic performance of all students at the elementary and secondary level will increase significantly in every quartile, and the distribution of minority students in each quartile will more closely reflect the student population as a whole;

(ii) the percentage of all students who demonstrate the ability to reason, solve problems, apply knowledge, and write and
communicate effectively will increase substantially;
(iii) all students will be involved in activities that promote and demonstrate good citizenship, good health, community service, and personal responsibility;
(iv) all students will have access to physical education and health education to ensure they are healthy and fit;
(v) the percentage of all students who are competent in more than one language will substantially increase; and
(vi) all students will be knowledgeable about the diverse cultural heritage of this Nation and about the world community.

(4) Teacher education and professional development
(A) By the year 2000, the Nation’s teaching force will have access to programs for the continued improvement of their professional skills and the opportunity to acquire the knowledge and skills needed to instruct and prepare all American students for the next century.
(B) The objectives for this goal are that—
   (i) all teachers will have access to preservice teacher education and continuing professional development activities that will provide such teachers with the knowledge and skills needed to teach to an increasingly diverse student population with a variety of educational, social, and health needs;
   (ii) all teachers will have continuing opportunities to acquire additional knowledge and skills needed to teach challenging subject matter and to use emerging new methods, forms of assessment, and technologies;
   (iii) States and school districts will create integrated strategies to attract, recruit, prepare, retrain, and support the continued professional development of teachers, administrators, and other educators, so that there is a highly talented work force of professional educators to teach challenging subject matter; and
   (iv) partnerships will be established, whenever possible, among local educational agencies, institutions of higher education, parents, and local labor, business, and professional associations to provide and support programs for the professional development of educators.

(5) Mathematics and science
(A) By the year 2000, United States students will be first in the world in mathematics and science achievement.
(B) The objectives for this goal are that—

§ 6062. Funding for Individuals with Disabilities Education Act

(a) Findings

The Congress finds that—

(1) the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] was established with the commitment of forty percent Federal funding but currently receives only eight percent Federal funding;

(3) it would cost the Federal Government approximately $10,000,000,000 each year to fully fund the Individuals with Disabilities Education Act.

(b) Sense of Congress

It is the sense of the Congress that the Federal Government should provide States and communities with adequate resources under the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.] as soon as reasonably possible, through the reallocation of noneducation funds within the current budget monetary constraints.

(3) an examination of what incentives or assistance might be provided to States to develop improvement plans that adequately address the needs of children with disabilities;

(4) the relation of the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] to other Federal laws governing or affecting the education of children with disabilities; and

(c) Study panel membership

Any panel constituted in furtherance of the study to be conducted under subsection (a) shall include consumer representatives.

(d) Findings and recommendations

(2) Termination of waiver
A special waiver granted under this subsection shall terminate on the earlier of—
(A) the first expiration date (after March 31, 1994) of the collective bargaining agreement containing the provisions relating to smoking privileges; or
(B) the date that is 1 year after March 31, 1994.
(f) Civil penalties
(1) In general
Any failure to comply with a prohibition in this section shall be a violation of this section and any person subject to such prohibition who commits such violation may be liable to the United States for a civil penalty in an amount not to exceed $1,000 for each violation, or may be subject to an administrative compliance order, or both, as determined by the Secretary. Each day a violation continues shall constitute a separate violation. In the case of any civil penalty under this section, the total amount shall not exceed the amount of Federal funds received by such person for the fiscal year in which the continuing violations occurred. For the purpose of the prohibition in subsection (c), the term “person” shall mean the head of the applicable Federal agency or the contractor of such agency providing the services to children.
(2) Administrative proceeding
A civil penalty may be assessed in a written notice, or an administrative compliance order may be issued, by the Secretary only after an opportunity for a hearing in accordance with section 554 of title 5. Before making such assessment or issuing such order, or both, the Secretary shall give written notice thereof to such person by certified mail with return receipt and provide therein an opportunity to request in writing not later than 30 days after the date of receipt of such notice such hearing. The notice shall reasonably describe the violation and be accompanied with the procedures for such hearing and a simple form to request such hearing if such person desires to use such form. If a hearing is requested, the Secretary shall establish by such certified notice the time and place for such hearing which should be located, to the greatest extent possible, at a location convenient to such person. The Secretary (or the Secretary’s designee) and such person may consult to arrange a suitable date and location where appropriate.
(3) Circumstances affecting penalty or order
In determining the amount of the civil penalty or the nature of the administrative compliance order, the Secretary shall take into account, as appropriate—
(A) the nature, circumstances, extent, and gravity of the violation;
(B) with respect to the violator, any good faith efforts to comply, the importance of achieving early and permanent compliance, the ability to pay or comply, the effect of the penalty or order on the ability to continue operation, any prior history of the same kind of violation, the degree of culpability, and any demonstration of willingness to comply with the prohibitions of this section in a timely manner; and
(C) such other matters as justice may require.
(4) Modification
The Secretary may, as appropriate, compromise, modify, or remit, with or without conditions, any civil penalty or administrative compliance order. In the case of a civil penalty, the amount, as finally determined by the Secretary or agreed upon in compromise, may be deducted from any sums that the United States or its agencies or instrumentalities owes to the person against whom the penalty is assessed.
(5) Petition for review
Any person aggrieved by a penalty assessed or an order issued, or both, by the Secretary under this section may file a petition for judicial review thereof with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which the person resides or transacts business. Such person shall provide a copy thereof to the Secretary or the Secretary’s designee. The petition shall be filed within 30 days after the Secretary’s assessment or order, or both, are final and have been provided to such person by certified mail. The Secretary shall promptly provide to the court a certified copy of the tran-
script of any hearing held under this section and a copy of the notice or order.

(6) Failure to comply

If a person fails to pay an assessment of a civil penalty or comply with an order, after either or both are final under this section, or after a court under paragraph (5) has entered a final judgment in favor of the Secretary, the Attorney General, at the request of the Secretary, shall recover the amount of the civil penalty (plus interest at then currently prevailing rates from the day either or both are final) or enforce the order in an action brought in the appropriate district court of the United States. In such action, the validity and appropriateness of the penalty or order or the amount of the penalty shall not be subject to review.

**Ex. Ord. No. 13153. Actions To Improve Low-Performing Schools**

Ex. Ord. No. 13153, May 3, 2009, 65 F.R. 26475, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 6301 et seq.), the Department of Education Appropriations Act, 2000 (as contained in Public Law 106–113) [Pub. L. 106–113, div. B, §1000(a)(4) (title III), Nov. 29, 1999, 113 Stat. 1535, 1501A–222, see Tables for classification], and in order to take actions to improve low-performing schools, it is hereby ordered as follows:

**Section 1. Policy.** Since 1993, this Administration has sought to raise standards for students and to increase
accountability in public education while investing more resources in elementary and secondary schools. While much has been accomplished—there has been progress in math and reading achievement, particularly for low-achieving students and in our highest poverty schools—much more can be done, especially for low-performing schools.

Sinc. 2. Technical Assistance and Capacity Building. (a) The Secretary of Education ("Secretary") shall work with State and local educational agencies ("LEAs") to develop and implement a comprehensive strategy for providing technical assistance and other assistance to States and LEAs to strengthen their capacity to improve the performance of schools identified as low performing. This comprehensive strategy shall include a number of steps, such as:

(1) providing States, school districts, and schools receiving funds from the school improvement fund established by Public Law 106–113, as well as other districts and schools identified for school improvement or corrective action under Title I of the ESEA [20 U.S.C. 6301 et seq.], with access to the latest research and information on best practices, including research on instruction and educator professional development, and with the opportunity to learn from exemplary schools and exemplary State and local intervention strategies and from each other, in order to improve achievement for all students in the low-performing schools;

(2) determining effective ways of providing low-performing schools with access to resources from other Department of Education programs, such as funds from the Comprehensive School Reform Demonstration Program, the Reading Excellence Act (Pub. L. 105–277, div. A, §1301) [title VIII], Oct. 21, 1998, 112 Stat. 2681–2687, 2681–2689, 2681–2691, see Tables for classification], the Eisenhower Professional Development Program, the Class Size Reduction Program, and the 21st Century Community Learning Centers Program, and to make effective use of these funds and Title I funds;

(3) providing States and LEAs with information on effective strategies to improve the quality of the teaching force, including strategies for recruiting and retaining highly qualified teachers in high-poverty schools, and implementing research-based professional development programs aligned with challenging standards;

(4) helping States and school districts build partnerships with technical assistance providers, including, but not limited to, federally funded laboratories and centers, foundations, businesses, community-based organizations, institutions of higher education, reform model providers, and other organizations that can help local schools improve;

(5) identifying previously low-performing schools that have made significant achievement gains, and States and school districts that have been effective in improving the achievement of all students in low-performing schools, which can serve as models and resources;

(6) providing assistance and information on how to effectively involve parents in the school-improvement process, including effectively involving and informing parents at the beginning of the school year about improvement goals for their school as well as the goals for their own children, and reporting on progress made in achieving these goals;

(7) providing States and LEAs with information on effective approaches to school accountability, including the effectiveness of such strategies as school reconstitution, peer review teams, and financial rewards and incentives;

(8) providing LEAs with information and assistance on the design and implementation of approaches to choice among public schools that create incentives for improvement throughout the local educational agency, especially in the lowest-performing schools, and that maximize the opportunity or students in low-performing schools to attend a higher-performing public school;

(9) exploring the use of well-trained tutors to raise student achievement through initiatives such as "America Reads," "America Counts," and other work-study opportunities to help low-performing schools;

(10) using a full range of strategies for disseminating information about effective practices, including interactive electronic communications;

(11) working with the Department of Interior, Bureau of Indian Affairs (BLA), to provide technical assistance to BLA-funded low-performing schools; and

(12) taking other steps that can help improve the quality of teaching and instruction in low-performing schools.

(b) The Secretary shall, to the extent permitted by law, take whatever steps the Secretary finds necessary and appropriate to redirect the resources and technical assistance capability of the Department of Education ("Department") to assist States and localities in improving low-performing schools, and to ensure that the dissemination of research to help turn around low-performing schools is a priority of the Department.

Sinc. 3. School Improvement Report. To monitor the progress of LEAs and schools in turning around failing schools, including those receiving grants from the School Improvement Fund, the Secretary shall prepare an annual School Improvement Report, to be submitted in September of each year, beginning in 2000. The report shall:

(a) describe trends in the numbers of LEAs and schools identified as needing improvement and subsequent changes in the academic performance of their students;

(b) identify best practices and significant research findings that can be used to help turn around low-performing LEAs and schools; and

(c) document ongoing efforts as a result of this order and other Federal efforts to assist States and local school districts in intervening in low-performing schools, including improving teacher quality. This report shall be publicly accessible.

Sinc. 4. Compliance Monitoring System. Consistent with the implementation of the School Improvement Fund, the Secretary shall strengthen the Department's monitoring of ESEA requirements for identifying and turning around low-performing schools, as well as any new requirements established for the School Improvement Fund by Public Law 106–113. The Secretary shall give priority to provisions that have the greatest bearing on identifying and turning around low-performing schools, including sections 1116 and 1117 of the ESEA [former 20 U.S.C. 6316, 6317], and to developing an ongoing, focused, and systematic process for monitoring these provisions. This improved compliance monitoring shall be designed to:

(a) ensure that States and LEAs comply with ESEA requirements;

(b) assist States and LEAs in implementing effective procedures and strategies that reflect the best research available, as well as the experience of successful schools, school districts, and States as they address similar objectives and challenges; and

(c) assist States, LEAs, and schools in making the most effective use of available Federal resources.

Sinc. 5. Consultation. The Secretary shall, where appropriate, consult with executive agencies, State and local education officials, educators, community-based groups, and others in carrying out this Executive order.

Sinc. 6. Judicial Review. This order is intended only to improve the internal management of the executive branch and is not intended to, and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

WILLIAM J. CLINTON.

   Nothing in this chapter shall be construed to authorize public institutions of higher education to determine the specific challenging State academic standards required under this paragraph.

(E) Alternate academic achievement standards for students with the most significant cognitive disabilities
   (i) In general
   The State may, through a documented and validated standards-setting process, adopt alternate academic achievement standards for students with the most significant cognitive disabilities, provided those standards—

   (IV) are designated in the individualized education program developed under section 614(d)(3) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(3)) for each such student as the academic achievement standards that will be used for the student; and
   (V) are aligned to ensure that a student who meets the alternate academic achievement standards is on track to pursue postsecondary education or employment, consistent with the purposes of Public Law 93–112 [29 U.S.C. 701 et seq.], as in effect on July 22, 2014.

(ii) Prohibition on any other alternate or modified academic achievement standards

(2) Academic assessments
   (A) In general
   Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality student academic assessments in mathematics, reading or language arts, and science. The State retains the right to implement such assessments in any other subject chosen by the State.

   (B) Requirements
   The assessments under subparagraph (A) shall—
   (i) except as provided in subparagraph (D), be—
   (I) the same academic assessments used to measure the achievement of all public elementary school and secondary school students in the State; and
   (II) administered to all public elementary school and secondary school students in the State;
   (ii) be aligned with the challenging State academic standards, and provide coherent and timely information about student attainment of such standards and whether the student is performing at the student’s grade level;
   (iii) be used for purposes for which such assessments are valid and reliable, consistent with relevant, nationally recognized professional and technical testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information;
   (iv) be of adequate technical quality for each purpose required under this chapter and consistent with the requirements of this section, the evidence of which shall be made public, including on the website of the State educational agency;

(cc) grades 10 through 12; and
(III) in the case of any other subject cho-
sen by the State, be administered at the
discretion of the State;
(vi) involve multiple up-to-date meas-
ures of student academic achievement, in-
cluding measures that assess higher-order
thinking skills and understanding, which
may include measures of student academic
growth and may be partially delivered in
the form of portfolios, projects, or ex-
tended performance tasks;
(vii) provide for—
(I) the participation in such assess-
ments of all students;
(II) the appropriate accommodations,
such as interoperability with, and ability
to use, assistive technology, for children
with disabilities (as defined in section
602(3) of the Individuals with Disabilities
Education Act (20 U.S.C. 1401(3))), includ-
ing students with the most significant
cognitive disabilities, and students with a
disability who are provided accom-
modations under an Act other than the
Individuals with Disabilities Education
Act (20 U.S.C. 1400 et seq.); necessary to
measure the academic achievement of
such children relative to the challenging
State academic standards or alternate
academic achievement standards de-
scribed in paragraph (I)(E); and
(III) the inclusion of English learners,
who shall be assessed in a valid and reli-
able manner and provided appropriate
accommodations on assessments admin-
istered to such students under this para-
graph, including, to the extent practi-
ciable, assessments in the language and
form most likely to yield accurate data on
what such students know and can do in
academic content areas, until such
students have achieved English language
proficiency sufficient to yield valid and re-
liable information on what such student
knows and can do on tests (written in
English) of reading or language arts;
(x) produce individual student inter-
pretive, descriptive, and diagnostic reports,
consistent with clause (iii), regarding
achievement on such assessments that
allow parents, teachers, principals, and
other school leaders to understand and ad-
dress the specific academic needs of stu-
dents, and that are provided to parents,
teachers, and school leaders, as soon as is
practicable after the assessment is given,
in an understandable and uniform format,
and to the extent practicable, in a lan-
guage that parents can understand;
(xi) enable results to be disaggregated
within each State, local educational agen-
cy, and school by—
(I) each major racial and ethnic group;
(II) economically disadvantaged stu-
dents as compared to students who are
not economically disadvantaged;
(III) children with disabilities as com-
pared to children without disabilities;
(IV) English proficiency status;
(V) gender; and
(VI) migrant status,
except that such disaggregation shall not
be required in the case of a State, local
educational agency, or a school in which
the number of students in a subgroup is ins-
sufficient to yield statistically reliable in-
formation or the results would reveal per-
personally identifiable information about an
individual student;
(xii) enable itemized score analyses to be
produced and reported, consistent with
clause (iii), to local educational agencies
and schools, so that parents, teachers,
principals, other school leaders, and ad-
ministrators can interpret and address the
specific academic needs of students as in-
dicated by the students’ achievement on
assessment items; and
(xiii) be developed, to the extent practi-
ciable, using the principles of universal
design for learning.

(C) Exception for advanced mathematics in
middle school
A State may exempt any 8th grade student
from the assessment in mathematics de-
scribed in subparagraph (B)(v)(I)(aa) if—
(i) such student takes the end-of-course
assessment the State typically admin-
isters to meet the requirements of sub-
paragraph (B)(v)(I)(bb) in mathematics;
(ii) such student’s achievement on such end-of-course assessment is used for purposes of subsection (c)(4)(B)(i), in lieu of such student’s achievement on the mathematics assessment required under subparagraph (B)(v)(I)(aa), and such student is counted as participating in the assessment for purposes of subsection (c)(4)(B)(vi); and

(iii) in high school, such student takes a mathematics assessment pursuant to subparagraph (B)(v)(I)(bb) that—

(I) is any end-of-course assessment or other assessment that is more advanced than the assessment taken by such student under clause (i) of this subparagraph; and

(II) shall be used to measure such student’s academic achievement for purposes of subsection (c)(4)(B)(i).

(D) Alternate assessments for students with the most significant cognitive disabilities

(i) Alternate assessments aligned with alternate academic achievement standards

A State may provide for alternate assessments aligned with the challenging State academic standards and alternate academic achievement standards described in paragraph (1)(E) for students with the most significant cognitive disabilities, if the State—

(I) consistent with clause (ii), ensures that, for each subject, the total number of students assessed in such subject using the alternate assessments does not exceed 1 percent of the total number of all students in the State who are assessed in such subject;

(II) ensures that the parents of such students are clearly informed, as part of the process for developing the individualized education program (as defined in section 614(d)(1)(A) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A)))—

(aa) that their child’s academic achievement will be measured based on such alternate standards; and

(bb) how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma;

(III) promotes, consistent with the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A))—

(aa) know how to administer the alternate assessments; and

(bb) make appropriate use of accommodations on all assessments required under this paragraph;

(VI) develops, disseminates information on, and promotes the use of appropriate accommodations to increase the number of students with significant cognitive disabilities—

(aa) participating in academic instruction and assessments for the grade level in which the student is enrolled; and

(bb) who are tested based on challenging State academic standards for the grade level in which the student is enrolled; and

(VII) does not preclude a student with the most significant cognitive disabilities who takes an alternate assessment based on alternate academic achievement standards from attempting to complete the requirements for a regular high school diploma.

(ii) Special rules

(I) Responsibility under IDEA

Subject to the authority and requirements for the individualized education program team for a child with a disability under section 614(d)(1)(A)(I)(VI)(bb) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A)(I)(VI)(bb)), such team, consistent with the guidelines established by the State and required under section 612(a)(16)(C) of such Act (20 U.S.C. 1412(a)(16)(C)) and clause (I)(II) of this subparagraph, shall determine when a child with a significant cognitive disability shall participate in an alternate assessment aligned with the alternate academic achievement standards.

(II) Prohibition on local cap

Nothing in this subparagraph shall be construed to permit the Secretary or a State educational agency to impose on any local educational agency a cap on the percentage of students administered an alternate assessment under this subparagraph, except that a local educational agency exceeding the cap applied to the State under clause (I)(I) shall submit information to the State educational agency justifying the need to exceed such cap.

(III) State support

A State shall provide appropriate oversight, as determined by the State, of any local educational agency that is required to submit information to the State under subclause (II).

(IV) Waiver authority

This subparagraph shall be subject to the waiver authority under section 7861 of this title.

4So in original. No subsec. (c)(4)(B)(vi) has been enacted.

5So in original. Probably should be "(20 U.S.C. 1412(a)(16)(C))".
(E) State authority

If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt challenging State academic standards, and academic assessments aligned with such standards, which will be applicable to all students enrolled in the State’s public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by—

(i) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

(ii) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt academic content and student academic achievement standards, and academic assessments aligned with such standards, which—

(I) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

(II) are applicable to all students served by each such local educational agency.

(F) Language assessments

(i) In general

Each State plan shall identify the languages other than English that are present to a significant extent in the participating student population of the State and indicate the languages for which annual student academic assessments are not available and are needed.

(ii) Secretarial assistance

The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

(G) Assessments of English language proficiency

(i) In general

Each State plan shall demonstrate that local educational agencies in the State will provide for an annual assessment of English proficiency of all English learners in the schools served by the State educational agency.

(ii) Alignment

The assessments described in clause (i) shall be aligned with the State’s English language proficiency standards described in paragraph (1)(F).

(H) Locally-selected assessment

(i) In general

Nothing in this paragraph shall be construed to prohibit a local educational agency from administering a locally-selected assessment in lieu of the State-designed academic assessment under subsection (B)(ii) and subclause (II)(cc) of subparagraph (B)(v), if the local educational agency selects a nationally-recognized high school academic assessment that has been approved for use by the State as described in clause (iii) or (iv) of this subparagraph.

(ii) State technical criteria

To allow for State approval of nationally-recognized high school academic assessments that are available for local selection under clause (i), a State educational agency shall establish technical criteria to determine if any such assessment meets the requirements of clause (v).

(iii) State approval

If a State educational agency chooses to make a nationally-recognized high school assessment available for selection by a local educational agency under clause (i), which has not already been approved under this clause, such State educational agency shall—

(I) conduct a review of the assessment to determine if such assessment meets or exceeds the technical criteria established by the State educational agency under clause (ii);

(II) submit evidence in accordance with subsection (a)(4) that demonstrates such assessment meets the requirements of clause (v); and

(III) after fulfilling the requirements of subclauses (I) and (II), approve such assessment for selection and use by any local educational agency that requests to use such assessment under clause (i).

(iv) Local educational agency option

(I) Local educational agency

If a local educational agency chooses to submit a nationally-recognized high school academic assessment to the State educational agency, subject to the approval process described in subclause (I) and subclause (II) of clause (iii) to determine if such assessment fulfills the requirements of clause (v), the State educational agency may approve the use of such assessment consistent with clause (i).

(II) State educational agency

Upon such approval, the State educational agency shall approve the use of such assessment in any other local educational agency in the State that subsequently requests to use such assessment without repeating the process described in subclauses (I) and (II) of clause (iii).

(v) Requirements

To receive approval from the State educational agency under clause (iii), a locally-selected assessment shall—
(I) be aligned to the State’s academic content standards under paragraph (I), address the depth and breadth of such standards, and be equivalent in its content coverage, difficulty, and quality to the State-designed assessments under this paragraph (and may be more rigorous in its content coverage and difficulty than such State-designed assessments); 

(II) provide comparable, valid, and reliable data on academic achievement, as compared to the State-designed assessments, for all students and for each subgroup of students defined in subsection (c)(2), with results expressed in terms consistent with the State’s academic achievement standards under paragraph (I), among all local educational agencies within the State; 

(III) meet the requirements for the assessments under subparagraph (B) of this paragraph, including technical criteria, except the requirement under clause (I) of such subparagraph; and 

(IV) provide unbiased, rational, and consistent differentiation between schools within the State to meet the requirements of subsection (c). 

(vi) Parental notification 

A local educational agency shall notify the parents of high school students served by the local educational agency— 

(I) of its request to the State educational agency for approval to administer a locally-selected assessment; and 

(II) upon approval, and at the beginning of each subsequent school year during which the locally selected assessment will be administered, that the local educational agency will be administering a different assessment than the State-designed assessments under subclause (I)(bb) and subclause (II)(cc) of subparagraph (B)(v). 

(I) Deferral 

A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, for 1 year for each year for which the amount appropriated for grants under part B is less than $369,100,000. 

(J) Adaptive assessments 

(i) In general 

Subject to clause (ii), a State retains the right to develop and administer computer adaptive assessments as the assessments described in this paragraph, provided the computer adaptive assessments meet the requirements of this paragraph, except that— 

(I) subparagraph (B)(i) shall not be interpreted to require that all students taking the computer adaptive assessment be administered the same assessment items; and 

(II) such assessment— 

(aa) shall measure, at a minimum, each student’s academic proficiency based on the challenging State academic standards for the student’s grade level and growth toward such standards; and 

(bb) may measure the student’s level of academic proficiency and growth using items above or below the student’s grade level, including for use as part of a State’s accountability system under subsection (c). 

(ii) Students with the most significant cognitive disabilities and English learners 

In developing and administering computer adaptive assessments— 

(I) as the assessments allowed under subparagraph (D), a State shall ensure that such computer adaptive assessments— 

(aa) meet the requirements of this paragraph, including subparagraph (D), except such assessments shall not be required to meet the requirements of clause (i)(II); and 

(bb) assess the student’s academic achievement to measure, in the subject being assessed, whether the student is performing at the student’s grade level; and 

(II) as the assessments required under subparagraph (G), a State shall ensure that such computer adaptive assessments— 

(aa) meet the requirements of this paragraph, including subparagraph (G), except such assessments shall not be required to meet the requirements of clause (i)(II); and 

(bb) assess the student’s language proficiency, which may include growth towards such proficiency, in order to measure the student’s acquisition of English. 

(K) Rule of construction on parent rights 

Nothing in this paragraph shall be construed as preemption of a State or local law regarding the decision of a parent to not have the parent’s child participate in the academic assessments under this paragraph. 

(L) Limitation on assessment time 

Subject to Federal or State requirements related to assessments, evaluations, and accommodations, each State may, at the sole discretion of such State, set a target limit on the aggregate amount of time devoted to the administration of assessments for each grade, expressed as a percentage of annual instructional hours. 

(3) Exception for recently arrived English learners 

(A) Assessments 

With respect to recently arrived English learners who have been enrolled in a school in one of the 50 States in the United States or the District of Columbia for less than 12 months, a State may choose to— 

(i) exclude— 

(I) such an English learner from one administration of the reading or language arts assessment required under paragraph (2); and
(II) such an English learner’s results on any of the assessments required under paragraph (2)(B)(v)(I) or (2)(G) for the first year of the English learner’s enrollment in such a school for the purposes of the State-determined accountability system under subsection (c); or

(II) for the purposes of the State-determined accountability system—

(aa) for the first year of the student’s enrollment in such a school, exclude the results on the assessments described in subclause (I);

(bb) include a measure of student growth on the assessments described in subclause (I) in the second year of the student’s enrollment in such a school; and

(cc) include proficiency on the assessments described in subclause (I) in the third year of the student’s enrollment in such a school, and each succeeding year of such enrollment.

(B) English learner subgroup

With respect to a student previously identified as an English learner and for not more than 4 years after the student ceases to be identified as an English learner, a State may include the results of the student’s assessments under paragraph (2)(B)(v)(I) within the English learner subgroup of the subgroups of students (as defined in subsection (c)(2)(D)) for the purposes of the State-determined accountability system.

(c) Statewide accountability system

(1) In general

Each State plan shall describe a statewide accountability system that complies with the requirements of this subsection and subsection (d).

(2) Subgroup of students

In this subsection and subsection (d), the term “subgroup of students” means—

(A) economically disadvantaged students;

(B) students from major racial and ethnic groups;

(C) children with disabilities; and

(D) English learners.

(3) Minimum number of students

Each State shall describe—

(A) with respect to any provisions under this part that require disaggregation of information by each subgroup of students—

(i) the minimum number of students that the State determines are necessary to be included to carry out such requirements and how that number is statistically sound, which shall be the same State-determined number for all students and for each subgroup of students in the State;

(ii) how such minimum number of students was determined by the State, includ-

ing how the State collaborated with teachers, principals, other school leaders, parents, and other stakeholders when determining such minimum number; and

(iii) how the State ensures that such minimum number is sufficient to not reveal any personally identifiable information.

(4) Description of system

The statewide accountability system described in paragraph (1) shall be based on the challenging State academic standards for reading or language arts and mathematics described in subsection (b)(1) to improve student academic achievement and school success. In designing such system to meet the requirements of this part, the State shall carry out the following:

(A) Establishment of long-term goals

Establish ambitious State-designed long-term goals, which shall include measurements of interim progress toward meeting such goals—

(i) for all students and separately for each subgroup of students in the State—

(I) for, at a minimum, improved—

(aa) academic achievement, as measured by proficiency on the annual assessments required under subsection (b)(2)(B)(v)(I); and

(bb) high school graduation rates, including—

(AAAA) the four-year adjusted cohort graduation rate; and

(BBBB) at the State’s discretion, the extended-year adjusted cohort graduation rate, except that the State shall set a more rigorous long-term goal for such graduation rate, as compared to the long-term goal set for the four-year adjusted cohort graduation rate;

(ii) for English learners, for increases in the percentage of such students making progress in closing statewide proficiency and graduation rate gaps; and

(B) Indicators

Except for the indicator described in clause (iv), annually measure, for all students and separately for each subgroup of students, the following indicators:

(i) For all public schools in the State, based on the long-term goals established
under subparagraph (A), academic achievement—

(I) as measured by proficiency on the annual assessments required under subsection (b)(2)(B)(v)(I); and

(II) at the State’s discretion, for each public high school in the State, student growth, as measured by such annual assessments.

(ii) For public elementary schools and secondary schools that are not high schools in the State—

(I) a measure of student growth, if determined appropriate by the State; or

(II) another valid and reliable statewide academic indicator that allows for meaningful differentiation in school performance.

(iii) For public high schools in the State, and based on State-designed long term goals established under subparagraph (A)—

(I) the four-year adjusted cohort graduation rate; and

(II) at the State’s discretion, the extended-year adjusted cohort graduation rate.

(iv) For public schools in the State, progress in achieving English language proficiency, as defined by the State and measured by the assessments described in subsection (b)(2)(G), within a State-determined timeline for all English learners—

(I) in each of the grades 3 through 8; and

(II) in the grade for which such English learners are otherwise assessed under subsection (b)(2)(B)(v)(I) during the grade 9 through grade 12 period, with such progress being measured against the results of the assessments described in subsection (b)(2)(G) taken in the previous grade.

(v) For all public schools in the State, not less than one indicator of school quality or student success that—

(aa) allows for meaningful differentiation in school performance;

(bb) is valid, reliable, comparable, and statewide (with the same indicator or indicators used for each grade span, as such term is determined by the State); and

(cc) may include one or more of the measures described in subclause (II).

(II) For purposes of subclause (I), the State may include measures of—

(III) student engagement;

(IV) educator engagement;

(V) student access to and completion of advanced coursework;

(VI) postsecondary readiness;

(VII) school climate and safety; and

(VIII) any other indicator the State chooses that meets the requirements of this clause.

(C) Annual meaningful differentiation

Establish a system of meaningfully differentiating, on an annual basis, all public schools in the State, which shall—

(i) be based on all indicators in the State’s accountability system under subparagraph (B), for all students and for each of subgroup of students, consistent with the requirements of such subparagraph;

(ii) with respect to the indicators described in clauses (i) through (iv) of subparagraph (B) afford—

(I) substantial weight to each such indicator; and

(II) in the aggregate, much greater weight than is afforded to the indicator or indicators utilized by the State and described in subparagraph (B)(v), in the aggregate; and

(iii) include differentiation of any such school in which any subgroup of students is consistently underperforming, as determined by the State, based on all indicators under subparagraph (B) and the system established under this subparagraph.

(D) Identification of schools

Based on the system of meaningful differentiation described in subparagraph (C), establish a State-determined methodology to identify—

(i) beginning with school year 2017–2018, and at least once every three school years thereafter, one statewide category of schools for comprehensive support and improvement, as described in subsection (d)(1), which shall include—

(I) not less than the lowest-performing 5 percent of all schools receiving funds under this part in the State;

(II) all public high schools in the State failing to graduate one third or more of their students; and

(III) public schools in the State described under subsection (d)(3)(A)(i)(II); and

(ii) at the discretion of the State, additional statewide categories of schools.

(E) Annual measurement of achievement

(i) Annually measure the achievement of not less than 95 percent of all students, and 95 percent of all students in each subgroup of students, who are enrolled in public schools on the assessments described under subsection (b)(2)(v)(I).

(ii) For the purpose of measuring, calculating, and reporting on the indicator described in subparagraph (B)(i), include in the denominator the greater of—

(I) 95 percent of all such students, or 95 percent of all such students in the subgroup, as the case may be; or

(II) the number of students participating in the assessments.

(iii) Provide a clear and understandable explanation of how the State will factor the requirement of clause (i) of this subpara-
§ 6311

(F) Partial attendance

(i) In the case of a student who has not attended the same school within a local educational agency for at least half of a school year, the performance of such student on the indicators described in clauses (i), (ii), (iv), and (v) of subparagraph (B)—

(I) may not be used in the system of meaningful differentiation of all public schools as described in subparagraph (C) for such school year; and

(II) shall be used for the purpose of reporting on the State and local educational agency report cards under subsection (h) for such school year.

(ii) In the case of a high school student who has not attended the same school within a local educational agency for at least half of a school year and has exited high school without a regular high school diploma and without transferring to another high school that grants a regular high school diploma during such school year, the local educational agency shall, in order to calculate the graduation rate pursuant to subparagraph (B)(iii), assign such student to the high school—

(I) at which such student was enrolled for the greatest proportion of school days while enrolled in grades 9 through 12; or

(II) in which the student was most recently enrolled.

(5) Accountability for charter schools

The accountability provisions under this chapter shall be overseen for charter schools in accordance with State charter school law.

(d) School support and improvement activities

(1) Comprehensive support and improvement

(A) In general

Each State educational agency receiving funds under this part shall notify each local educational agency in the State of any school served by the local educational agency that is identified for comprehensive support and improvement under subsection (c)(4)(D)(i).

(B) Local educational agency action

Upon receiving such information from the State, the local educational agency shall, for each school identified by the State and in partnership with stakeholders (including principals and other school leaders, teachers, and parents), locally develop and implement a comprehensive support and improvement plan for the school to improve student outcomes, that—

(i) is informed by all indicators described in subsection (c)(4)(B), including student performance against State-determined long-term goals;

(ii) includes evidence-based interventions;

(iii) is based on a school-level needs assessment;

(iv) identifies resource inequities, which may include a review of local educational

agency and school-level budgeting, to be addressed through implementation of such comprehensive support and improvement plan;

(v) is approved by the school, local educational agency, and State educational agency; and

(vi) upon approval and implementation, is monitored and periodically reviewed by the State educational agency.

(C) State educational agency discretion

With respect to any high school in the State identified under subsection (c)(4)(D)(i)(II), the State educational agency may—

(i) permit differentiated improvement activities that utilize evidence-based interventions in the case of such a school that predominantly serves students—

(I) returning to education after having exited secondary school without a regular high school diploma; or

(II) who, based on their grade or age, are significantly off track to accumulate sufficient academic credits to meet high school graduation requirements, as established by the State; and

(ii) in the case of such a school that has a total enrollment of less than 100 students, permit the local educational agency to forego implementation of improvement activities required under this paragraph.

(D) Public school choice

(i) In general

A local educational agency may provide all students enrolled in a school identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i) with the option to transfer to another public school served by the local educational agency, unless such an option is prohibited by State law.

(ii) Priority

In providing students the option to transfer to another public school, the local educational agency shall give priority to the lowest-achieving children from low-income families, as determined by the local educational agency for the purposes of allocating funds to schools under section 6313(a)(3) of this title.

(iii) Treatment

A student who uses the option to transfer to another public school shall be enrolled in classes and other activities in the public school to which the student transfers in the same manner as all other students at the public school.

(iv) Special rule

A local educational agency shall permit a student who transfers to another public school under this paragraph to remain in that school until the student has completed the highest grade in that school.

(v) Funding for transportation

A local educational agency may spend an amount equal to not more than 5 percent
of its allocation under subpart 2 of this part to pay for the provision of transportation for students who transfer under this paragraph to the public schools to which the students transfer.

(2) Targeted support and improvement

(A) In general

Each State educational agency receiving funds under this part shall, using the meaningful differentiation of schools described in subsection (c)(4)(C)—

(i) notify each local educational agency in the State of any school served by the local educational agency in which any subgroup of students is consistently underperforming, as described in subsection (c)(4)(C)(iii); and

(ii) ensure such local educational agency provides notification to such school with respect to which subgroup or subgroups of students in such school are consistently underperforming as described in subsection (c)(4)(C)(iii).

(B) Targeted support and improvement plan

Each school receiving a notification described in this paragraph, in partnership with stakeholders (including principals and other school leaders, teachers and parents), shall develop and implement a school-level targeted support and improvement plan to improve student outcomes based on the indicators in the statewide accountability system established under subsection (c)(4), for each subgroup of students that was the subject of notification that—

(i) is informed by all indicators described in subsection (c)(4)(B), including student performance against long-term goals;

(ii) includes evidence-based interventions;

(iii) is approved by the local educational agency prior to implementation of such plan;

(iv) is monitored, upon submission and implementation, by the local educational agency; and

(v) results in additional action following unsuccessful implementation of such plan after a number of years determined by the local educational agency.

(C) Additional targeted support

A plan described in subparagraph (B) that is developed and implemented in any school receiving a notification under this paragraph from the local educational agency in which any subgroup of students, on its own, would lead to identification under subsection (c)(4)(D)(i)(I) using the State’s methodology under subsection (c)(4)(D), after which notification of such schools under this paragraph shall result from differentiation of schools pursuant to subsection (c)(4)(C)(iii).

(3) Continued support for school and local educational agency improvement

To ensure continued progress to improve student academic achievement and school success in the State, the State educational agency—

(A) shall—

(i) establish statewide exit criteria for—

(I) schools identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i), which, if not satisfied within a State-determined number of years (not to exceed four years), shall result in more rigorous State-determined action, such as the implementation of interventions (which may include addressing school-level operations); and

(II) schools described in paragraph (2)(C), which, if not satisfied within a State-determined number of years, shall, in the case of such schools receiving assistance under this part, result in identification of the school by the State for comprehensive support and improvement under subsection (c)(4)(D)(i)(III);

(ii) periodically review resource allocation to support school improvement in each local educational agency in the State serving—

(I) a significant number of schools identified for comprehensive support and improvement under subsection (c)(4)(D)(i); and

(II) a significant number of schools implementing targeted support and improvement plans under paragraph (2); and

(iii) provide technical assistance to each local educational agency in the State serving a significant number of—

(I) schools implementing comprehensive support and improvement plans under paragraph (1); or

(II) schools implementing targeted support and improvement plans under paragraph (2); and

(B) may—

(i) take action to initiate additional improvement in any local educational agency with—

(I) a significant number of schools that are consistently identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i) and not meeting exit criteria established by the State under subparagraph (A)(i)(I); or

(II) a significant number of schools implementing targeted support and im-
§ 6311

provement plans under paragraph (2); and

(ii) consistent with State law, establish alternative evidence-based State determined strategies that can be used by local educational agencies to assist a school identified for comprehensive support and improvement under subsection (c)(4)(D)(i).

(4) Rule of construction for collective bargaining

Nothing in this subsection shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded to school or local educational agency employees under Federal, State, or local laws (including applicable regulations or court orders) or under the terms of collective bargaining agreements, memoranda of understanding, or other agreements between such employers and their employees.

(e) Prohibition

(1) In general

Nothing in this chapter shall be construed to authorize or permit the Secretary—

(C) to issue new non-regulatory guidance that—

(i) in seeking to provide explanation of requirements under this section for State or local educational agencies, either in response to requests for information or in anticipation of such requests, provides a strictly limited or exhaustive list to illustrate successful implementation of provisions under this section; or

(ii) purports to be legally binding; or

(D) to require data collection under this part beyond data derived from existing Federal, State, and local reporting requirements.

(2) Defining terms

In carrying out this part, the Secretary shall not, through regulation or as a condition of approval of the State plan or revisions or amendments to the State plan, promulgate a definition of any term used in this part, or otherwise prescribe any specification for any such term, that is inconsistent with or outside the scope of this part or is in violation of paragraph (1).

(1) In general

A local educational agency shall use funds received under this part only in eligible school attendance areas.

(2) Eligible school attendance areas

For the purposes of this part—

(A) the term “school attendance area” means, in relation to a particular school, the geographical area in which the children who are normally served by that school reside; and

Except as provided in subparagraph (B), if funds allocated in accordance with subsection (c) are insufficient to serve all eligible school attendance areas, a local educational agency shall—

(B) Exception

A local educational agency may lower the threshold in subparagraph (A)(i) to 50 percent for high schools served by such agency.

(i) the measure described under subparagraph (A); or

(ii) subject to meeting the conditions of subparagraph (C), an accurate estimate of the number of students in low-income families in a secondary school that is calculated by applying the average percentage of students in low-income families of the elementary school attendance areas as calculated under subparagraph (A) that feed into the secondary school to the number of students enrolled in such school.

(C) Measure of poverty

The local educational agency shall have the option to use the measure of poverty described in subparagraph (B)(ii) after—

(A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the school’s total enrollment; and

(2) Special rule

Notwithstanding paragraph (1)(D), the number of children attending private elementary schools and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside is assisted under subparagraph (A).

(c) Allocations

(1) In general

A local educational agency shall allocate funds received under this part to eligible school attendance areas or eligible schools, identified under subsections (a) and (b), in rank order, on the basis of the total number of children from low-income families in each area or school.

(C) Homeless children and youths

Funds reserved under subparagraph (A)(i) may be—

(i) determined based on a needs assessment of homeless children and youths in the local educational agency, taking into consideration the number and needs of homeless children and youths in the local educational agency, and which needs assessment may be the same needs assessment as conducted under section 11433(b)(1) of title 42; and

§ 6333. Basic grants to local educational agencies

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

Except as provided in paragraph (4) and in section 6338 of this title, the grant that a local educational agency is eligible to receive under this section for a fiscal year is the amount determined by multiplying—

(A) the number of children counted under subsection (c); and

(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this subparagraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

(2) Calculation of grants

(A) Allocations to local educational agencies

The Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) for local educational agencies, unless the Secretary and the Secretary of Commerce determine that some or all of those data are unreliable or that their use would be otherwise inappropriate, in which case—

(i) the two Secretaries shall publicly disclose the reasons for their determination in detail; and

(ii) paragraph (3) shall apply.

(B) Allocations to large and small local educational agencies

(i) For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section for each local educational agency.

(ii) The amount of a grant under this section for each large local educational agency shall be the amount determined under clause (i).

(iii) For small local educational agencies, the State educational agency may either—

(I) distribute grants under this section in amounts determined by the Secretary under clause (i); or

(II) use an alternative method approved by the Secretary to distribute the portion of the State’s total grants under this section that is based on those small agencies.

(iv) An alternative method under clause (iii)(II) shall be based on population data that the State educational agency determines best reflect the current distribution of children in poor families among the State’s small local educational agencies that meet the eligibility criteria of subsection (b).

(v) If a small local educational agency is dissatisfied with the determination of its grant by the State educational agency under clause (iii)(II), it may appeal that determination to the Secretary, who shall respond not later than 45 days after receipt of such appeal.

(vi) As used in this subparagraph—

(I) the term “large local educational agency” means a local educational agency serving an area with a total population of 20,000 or more; and

(II) the term “small local educational agency” means a local educational agency serving an area with a total population of less than 20,000.

(3) Allocations to counties

(A) Calculation

For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.

(B) Direct allocations

In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations under this subpart for a particular fiscal year directly to local educational agencies without regard to counties.

(C) Allocations to local educational agencies

If the Secretary approves the State educational agency’s application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made—

(i) using precisely the same factors for determining a grant as are used under this subpart; or

(ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

(D) Appeal

The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.

(4) Puerto Rico

(A) In general

For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) for the Commonwealth of Puerto Rico by the product of—

(i) subject to subparagraph (B), the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

(ii) 32 percent of the average per-pupil expenditure in the United States.

(B) Minimum percentage

The percentage in subparagraph (A)(i) shall not be less than—

(i) for fiscal year 2002, 77.5 percent;
Title 20—Education

§ 6333

(b) Minimum number of children to qualify

A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) for that agency is both—

(1) 10 or more; and

(2) more than 2 percent of the total school-age population in the agency's jurisdiction.

c) Children to be counted

(1) Categories of children

The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2); and

(B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency from families below the poverty level as determined for the calendar year which were determined for the calendar year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

(b) Inappropriate or unreliable data

If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

(C) Criteria of poverty

In determining the families that are below the poverty level, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(4) Other children to be counted

(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.]; and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of four in such form as those criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(B) The Secretary shall determine the number of such children and the number of children aged 5 through 17 living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year).

(B) the amount in section 6333(a)(1)(B) of this title for each State except the Commonwealth of Puerto Rico, and the amount in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(j) Transition

(1) In general

(A) Operation of innovative assessment system

If, after a State’s approved demonstration authority period or 2-year extension, the State educational agency has met all the requirements of this section, including having scaled the innovative assessment system up to statewide use, and demonstrated that such system is of high quality, as described in subparagraph (B), the State shall be permitted to operate the innovative assessment system approved under the program of demonstration authority under this section for the purposes of subsections (b)(2) and (c) of section 6311 of this title.

(B) High quality

Such system shall be considered of high quality if the Secretary, through the peer-review process described in section 6311(a)(4) of this title, determines that—

(ii) the State has examined the effects of the system on other measures of student success, including indicators in the accountability system under section 6311(c)(4)(B) of this title;

(iii) the innovative assessment system provides coherent and timely information about student achievement based on the challenging State academic standards, including objective measurement of academic achievement, knowledge, and skills that are valid, reliable, and consistent with relevant, nationally-recognized professional and technical standards;

(iv) the State has solicited feedback from teachers, principals, other school leaders, and parents about their satisfaction with the innovative assessment system; and

1 So in original. Probably should refer to subsection (e).
(v) the State has demonstrated that the same innovative assessment system was used to measure—
(I) the achievement of all students that participated in such innovative assessment system; and
(II) not less than the percentage of such students overall and in each of the subgroups of students, as defined in section 6311(c)(2) of this title, as measured under section 6311(c)(4)(E) of this title, as were assessed under the assessment required by section 6311(b)(2) of this title.

(2) Baseline
For the purposes of the evaluation described in paragraph (1), the baseline year shall be considered the first year that each local educational agency in the State used the innovative assessment system.

(3) Waiver authority
A State may request, and the Secretary shall review such request and may grant, a delay of the withdrawal of authority under subsection (i) for the purpose of providing the State with the time necessary to implement the innovative assessment system statewide.

(f) Consortium
A consortium of States may apply to participate in the program of demonstration authority under this section, and the Secretary may provide each State member of such consortium with such authority if each such State member meets all of the requirements of this section.

(m) Dissemination of best practices
(1) In general
Following the publication of the progress report described in subsection (c), the Director of the Institute of Education Sciences, in consultation with the Secretary, shall collect and disseminate the best practices on the development and implementation of innovative assessment systems that meet the requirements of this section, including best practices regarding the development of—

(C) effective engagement and support of teachers in developing and scoring assessments and the use of high-quality professional development;
(D) effective supports for all students, particularly each of the subgroups of students, as defined in section 6311(c)(2) of this title, participating in the innovative assessment system; and
(E) standardized and calibrated scoring rubrics, and other strategies, to ensure interrater reliability and comparability of determinations of mastery or proficiency across local educational agencies and the State.

(2) Publication
The Secretary shall make the information described in paragraph (1) available on the website of the Department and shall publish an update to the information not less often than once every 3 years.

The purposes of this part are as follows:

(1) To assist States in supporting high-quality and comprehensive educational programs and services during the school year and, as applicable, during summer or intersession periods, that address the unique educational needs of migratory children.

(2) To ensure that migratory children who move among the States are not penalized in any manner by disparities among the States in curriculum, graduation requirements, and challenges State academic standards.

(3) To ensure that migratory children receive full and appropriate opportunities to meet the same challenging State academic standards that all children are expected to meet.

(4) To help migratory children overcome educational disruption, cultural and language barriers, social isolation, various health-related problems, and other factors that inhibit the ability of such children to succeed in school.

(5) To help migratory children benefit from State and local systemic reforms.
§ 6392. Program authorized

In order to carry out the purpose of this part, the Secretary shall make grants to State educational agencies, or combinations of such agencies, to establish or improve, directly or through local operating agencies, programs of education for migratory children in accordance with this part.

PRIOR PROVISIONS

§ 6393. State allocations

(a) State allocations

Except as provided in subsection (c), each State (other than the Commonwealth of Puerto Rico) is entitled to receive under this part an amount equal to the product of—

(1) the sum of—

(A) the average number of identified eligible migratory children aged 3 through 21 residing in the State, based on data for the preceding 3 years; and

(B) the number of identified eligible migratory children, aged 3 through 21, who received services under this part in summer or intersession programs provided by the State during the previous year; multiplied by

(2) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, nor more than 48 percent, of the average per-pupil expenditure in the United States.

(b) Hold harmless

Notwithstanding subsection (a), for each of fiscal years 2017 through 2019, no State shall receive less than 90 percent of the State's allocation under this section for the preceding fiscal year.

(c) Allocation to Puerto Rico

(1) In general

For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this part shall be the amount determined by multiplying the number of children who would be counted under subsection (a)(1) if such subsection applied to the Commonwealth of Puerto Rico by the product of—

(A) the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States, subject to paragraphs (2) and (3); and

(B) 32 percent of the average per-pupil expenditure in the United States.

(2) Minimum percentage

The percentage described in paragraph (1)(A) shall not be less than 85 percent.

(3) Limitation

If the application of paragraph (2) for any fiscal year would result in any of the 50 States or the District of Columbia receiving less under this part than it received under this part for the preceding fiscal year, then the percentage described in paragraph (1)(A) that is used for the Commonwealth of Puerto Rico for the fiscal year for which the determination is made shall be the greater of the percentage in paragraph (1)(A) for such fiscal year or the percentage used for the preceding fiscal year.

(d) Ratable reductions; reallocations

(1) In general

(A) Ratable reductions

If, after the Secretary reserves funds under section 6398(c) of this title, the amount appropriated to carry out this part for any fiscal year is insufficient to pay in full the amounts for which all States are eligible, the Secretary shall ratably reduce each such amount.

(B) Reallocation

If additional funds become available for making such payments for any fiscal year, the Secretary shall allocate such funds to States in amounts that the Secretary determines will best carry out the purposes of this part.

(2) Special rule

(A) Further reductions

The Secretary shall further reduce the amount of any grant to a State under this part for any fiscal year if the Secretary determines, based on available information on the numbers and needs of migratory children in the State and the program proposed by
the State to address such needs, that such amount exceeds the amount required under section 6394 of this title.

(B) Reallocation

The Secretary shall reallocate such excess funds to other States whose grants under this part would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.

(e) Consortium arrangements

(1) In general

In the case of a State that receives a grant of $1,000,000 or less under this section, the Secretary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.

(2) Proposals

Any State, regardless of the amount of such State’s allocation, may submit a consortium arrangement to the Secretary for approval.

(3) Approval

The Secretary shall approve a consortium arrangement under paragraph (1) or (2) if the proposal demonstrates that the arrangement will—

(A) reduce administrative costs or program function costs for State programs; and

(B) make more funds available for direct services to add substantially to the academic achievement of children to be served under this part.

(f) Determining numbers of eligible children

In order to determine the identified number of migratory children residing in each State for purposes of this section, the Secretary shall—

(1) use the most recent information that most accurately reflects the actual number of migratory children;

(2) develop and implement a procedure for monitoring the accuracy of such information;

(3) develop and implement a procedure for more accurately reflecting cost factors for different types of summer and intersession program designs;

(4) adjust the number of migratory children who reside in each State to take into account—

(A) the unique needs of those children participating in effective special programs provided under this part that operate during the summer and intersession periods; and

(B) the additional costs of operating such programs; and

(5) conduct an analysis of the options for adjusting the formula so as to better direct services to migratory children, including the most at-risk migratory children.

(g) Nonparticipating States

In the case of a State desiring to receive an allocation under this part for a fiscal year that did not receive an allocation for the previous fiscal year or that has been participating for less than 3 consecutive years, the Secretary shall calculate the State’s number of identified migratory children aged 3 through 21 for purposes of subsection (a)(1)(A) by using the most recent data available that identifies the migratory children residing in the State. Until data is available to calculate the 3-year average number of such children in accordance with such subsection.

(d) Required terms of local flexibility demonstration agreement

(1) Application

Each local educational agency that desires to participate in the program under this section shall submit, at such time and in such form as the Secretary may prescribe, an application to enter into a local flexibility demonstration agreement with the Secretary in order to develop and implement a school funding system based on weighted per-pupil allocations that meets the requirements of this section. (E) the per-pupil amount of eligible Federal funds each school served by the agency received in the preceding fiscal year, disaggregated by the programs supported by the eligible Federal funds;
(F) a description of how such system will ensure that any eligible Federal funds allocated through the system will meet the purposes of each Federal program supported by such funds, including serving students from low-income families, English learners, migratory children, and children who are neglected, delinquent, or at risk, as applicable;
(G) an assurance that the local educational agency developed and will implement the local flexibility demonstration agreement in consultation with teachers, principals, other school leaders (including charter school leaders in a local educational agency that has charter schools), administrators of Federal programs impacted by the agreement, parents, community leaders, and other relevant stakeholders;
(H) an assurance that the local educational agency will use fiscal control and sound accounting procedures that ensure proper disbursement of, and accounting for, eligible Federal funds consolidated and used under such system;

(2) Requirements of the system

(A) In general

A local educational agency’s school funding system based on weighted per-pupil allocations shall—

(i) except as allowed under clause (iv), allocate a significant portion of funds, including State and local education funds and eligible Federal funds, to the school level based on the number of students in a school and a formula developed by the agency under this section that determines per-pupil weighted amounts;
(ii) use weights or allocation amounts that allocate substantially more funding to English learners, students from low-income families, and students with any other characteristics associated with educational disadvantage chosen by the local educational agency, than to other students;
(iii) ensure that each high-poverty school receives, in the first year of the demonstration agreement—

(I) more per-pupil funding, including from Federal, State, and local sources, for low-income students than such funding received for low-income students in the year prior to entering into a demonstration agreement under this section; and

(B) Percentage

In establishing the percentage described in subparagraph (A)(iv) for the system, the local educational agency shall demonstrate that the percentage—

(i) under such subparagraph is sufficient to carry out the purposes of the demonstration agreement under this section and to meet each of the requirements of this subsection; and

(ii) of State and local education funds and eligible Federal funds that are not allocated through the local educational agency’s school funding system based on weighted per-pupil allocations, does not undermine or conflict with the requirements of the demonstration agreement under this section.

(C) Expenditures

After allocating funds through the system, the local educational agency shall charge schools for the per-pupil expenditures of State and local education funds and eligible Federal funds, including actual personnel expenditures (including staff salary differentials for years of employment) for instructional staff and actual nonpersonnel expenditures.

(e) Continued demonstration

Each local educational agency with an approved application under subsection (d) shall annually—

(B) less per-pupil funding, including from Federal, State, and local sources, for English learners;

(2) make public and report to the Secretary the per-pupil expenditures (including actual personnel expenditures that include staff salary differentials for years of employment, and actual non-personnel expenditures) of State and local education funds and eligible Federal funds for each school served by the agency, disaggregated by each quartile of students attending the school based on student level of poverty and by each major racial or ethnic group in the school, for the preceding fiscal year;

(3) make public the total number of students enrolled in each school served by the agency and the number of students enrolled in each such school disaggregated by each of the subgroups of students, as defined in section 6311(c)(2) of this title; and

(4) notwithstanding paragraph (1), (2), or (3), ensure that any information to be reported or made public under this subsection is only reported or made public if such information does not reveal personally identifiable information.

(f) Limitations on administrative expenditures

Each local educational agency that has entered into a local flexibility demonstration agreement with the Secretary under this section may use, for administrative purposes, an amount of eligible Federal funds that is not more than the percentage of funds allowed for such purposes under any of the following:

The Secretary may, after providing notice and an opportunity for a hearing (including the opportunity to provide supporting evidence as provided for in subsection (i)), terminate a local flexibility demonstration agreement under this section if there is evidence that the local educational agency has failed to comply with the terms of the agreement and the requirements under subsections (d) and (e).

(i) Evidence

If a local educational agency believes that the Secretary’s determination under subsection (h) is in error for statistical or other substantive reasons, the local educational agency may provide supporting evidence to the Secretary, and the Secretary shall consider that evidence before making a final determination.

(j) Program evaluation

From the amount reserved for evaluation activities under section 7981 of this title, the Secretary, acting through the Director of the Institute of Education Sciences, shall, in consultation with the relevant program office at the Department, evaluate—

Codification

§ 7231. Findings and purpose

(a) Findings

Congress makes the following findings:

(1) magnet schools are a significant part of the Nation’s effort to achieve voluntary desegregation in our Nation’s schools.

(2) the use of magnet schools has increased dramatically since the inception of the magnet schools assistance program under this chapter, with approximately 2,500,000 students nationwide attending such schools, of whom more than 69 percent are non-white.

(3) Magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts.

(4) It is in the best interests of the United States—

(A) to continue the Federal Government’s support of local educational agencies that are implementing court-ordered desegregation plans and local educational agencies that are voluntarily seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students’ education;

(B) to ensure that all students have equitable access to a high quality education that will prepare all students to function well in a technologically oriented and a highly competitive economy comprised of people from many different racial and ethnic backgrounds; and

(C) to continue to desegregate and diversify schools by supporting magnet schools, recognizing that segregation exists between minority and nonminority students as well as among students of different minority groups.

(5) Desegregation efforts through magnet school programs are a significant part of our Nation’s effort to achieve voluntary desegregation in schools and help to ensure equal educational opportunities for all students.

(b) Purpose

The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

(1) the elimination, reduction, or prevention of minority group isolation in elementary schools and secondary schools with substantial proportions of minority students, which shall include assisting in the efforts of the United States to achieve voluntary desegregation in public schools;

(2) the development, implementation, and expansion of magnet school programs that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State academic standards;

(3) the development, design, and expansion of innovative educational methods and practices that promote diversity and increase choices in public elementary schools and public secondary schools and public educational programs;

(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the attainment of tangible and marketable career, technological, and professional skills of students attending such schools;

(5) improving the capacity of local educational agencies, including through professional development, to continue operating magnet schools at a high performance level after Federal funding for the magnet schools is terminated; and
§ 7231b. Program authorized

(6) ensuring that all students enrolled in the magnet school programs have equitable access to high quality education that will enable the students to succeed academically and continue with postsecondary education or employment.

(2) Allotment

From amounts described in paragraph (1) for a fiscal year, the Secretary shall allot to each State educational agency for that fiscal year an amount that bears the same ratio to those amounts as the number of students in average daily attendance served by eligible local educational agencies in the State for that fiscal year bears to the number of all such students served by eligible local educational agencies in all States for that fiscal year.

(3) Specially qualified agencies

(A) Eligibility and application

If a State educational agency elects not to participate in the program under this subpart or does not have an application submitted under section 7351b of this title approved, a specially qualified agency in such State desiring a grant under this subpart shall submit an application under such section directly to the Secretary to receive an award under this subpart.

(B) Direct awards

(2) Certification

The Secretary shall determine whether to waive the criteria described in paragraph (1)(A)(ii) based on a demonstration by the local educational agency, and concurrence by the State educational agency, that the local educational agency is located in an area defined as rural by a governmental agency of the State.

(3) Award basis

A State educational agency shall award grants to eligible local educational agencies—

(A) on a competitive basis;

(B) according to a formula based on the number of students in average daily attendance served by the eligible local educational agencies or schools in the State;

(C) according to an alternative formula, if, prior to awarding the grants, the State educational agency demonstrates, to the satisfaction of the Secretary, that the alternative formula enables the State educational agency to allot the grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentrations that would be served if the State educational agency used the formula described in subparagraph (B).

(c) Reservations

From amounts appropriated under section 7355c of this title for this subpart for a fiscal year, the Secretary shall reserve—

SAVINGS PROVISIONS

EXECUTIVE ORDER NO. 13096

EXECUTIVE ORDER NO. 13336

Ex. Ord. No. 13592, Dec. 2, 2011, 76 F.R. 76603, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. Policy. The United States has a unique political and legal relationship with the federally recognized American Indian and Alaska Native (AI/AN) tribes across the country, as set forth in the Constitution of the United States, treaties, Executive Orders, and court decisions. For centuries, the Federal Government's relationship with these tribes has been guided by a trust responsibility—a long-standing commitment on the part of our Government to protect the unique rights and ensure the well-being of our Nation's tribes, while respecting their tribal sovereignty. In recognition of that special commitment—and in fulfillment of the solemn obligations it entails—Federal agencies must help improve educational opportunities provided to all AI/AN students, including students attending public schools in cities and in rural areas, students attending schools operated and funded by the Department of the Interior's Bureau of Indian Education (BIE), and students attending postsecondary institutions, including Tribal Colleges and Universities (TCUs). This is an urgent need. Recent studies show that AI/AN students are dropping out of school at an alarming rate, that our Nation has made little or no progress in closing the achievement gap between AI/AN students and their non-AI/AN student counterparts, and that many Native languages are on the verge of extinction.

It is the policy of my Administration to support activities that will strengthen the Nation by expanding educational opportunities and improving educational
outcomes for all AI/AN students in order to fulfill our commitment to furthering tribal self-determination and to help ensure that AI/AN students have an opportunity to learn their Native languages and histories and receive complete and competitive educations that prepare them for college, careers, and productive and satisfying lives.

My Administration is also committed to improving educational opportunities for students attending TCUs. TCUs maintain, preserve, and restore Native languages and cultural traditions; offer a high-quality college education; provide career and technical education, job training, and other career-building programs; and often serve as anchors in some of the country’s poorest and most remote areas.

SEC. 2. Definition. (a) “Agency” means any executive department or agency designated by the Secretary of Education and the Secretary of the Interior to participate in this order.

(b) “Indian tribe” means an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian tribe pursuant to the Federally Recognized Indian Tribe List Act of 1994, 25 U.S.C. 479a [et seq., now 25 U.S.C. 5130 et seq.].

(c) “American Indian and Alaska Native” means a member of an Indian tribe, as membership is defined by the tribe.

(d) “Public school” means a Head Start center or a pre-kindergarten, elementary, or secondary school that is predominantly funded by public means through the Federal Government, a State, a local educational agency, or an Indian tribal government, including a school operated directly by or through contract or grant with the BIE, an Indian tribe, or a State, county, or local government.

(e) “Tribal Colleges and Universities” are those institutions that are chartered by their respective Indian tribes through the sovereign authority of the tribes or by the Federal Government, and defined in section 316 of the Higher Education Act of 1965 (20 U.S.C. 1092).

Sect. 3. White House Initiative on American Indian and Alaska Native Education. (a) Establishment. There is hereby established the White House Initiative on American Indian and Alaska Native Education (Initiative), The Secretary of Education and the Secretary of the Interior will co-chair the Initiative. The Secretary of Education shall appoint an Executive Director who shall be responsible for overseeing implementation of the Initiative. This individual shall be a senior-level, Department of Education official who shall serve as the Secretary of Education’s senior policy advisor on Federal policies affecting AI/AN education.

The Executive Director shall work closely with the BIE Director and shall provide periodic reports to the Secretaries of Education and the Interior regarding progress achieved under the Initiative. The Executive Director shall coordinate frequent consultations with tribal officials and shall provide staff support for the National Advisory Council on Indian Education (NACIE), authorized by section 714 of the Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 7411).

(b) Mission and Functions. (1) The Initiative shall help expand educational opportunities and improve educational outcomes for all AI/AN students, including opportunities to learn their Native languages, cultures, and histories and receive complete and competitive educations that prepare them for college, careers, and productive and satisfying lives, by:

(i) working closely with the Executive Office of the President to help ensure AI/AN participation in the development and implementation of key Administration priorities;

(ii) strengthening the relationship between the Department of Education, which has substantial expertise and resources to help improve Native education, and the Department of the Interior and its BIE, which directly operates or provides grants to tribes to operate an extensive primary, secondary, and college level school system for AI/AN children and young adults;

(iii) coordinating, in consultation with the Department of Education’s Director of Indian Education, programs administered by the Department of Education and other executive branch agencies regarding AI/AN education;

(iv) serving as a liaison with other executive branch agencies on AI/AN issues and advising those agencies on how they might help to promote AI/AN educational opportunities;

(v) reporting on the development, implementation, and coordination of education policy and programs that affect AI/AN students;

(vi) furthering tribal sovereignty by supporting efforts, consistent with applicable law, to build the capacity of tribal educational agencies and TCUs to provide high-quality education services to AI/AN children;

(vii) developing in partnership with tribal educational agencies a more routine and streamlined process for entering into agreements for educational studies conducted on tribal lands;

(viii) developing sufficient data resources to inform progress on Federal performance indicators, in close collaboration with the Department of Education’s National Center for Educational Statistics.

(ix) encouraging and coordinating Federal partnerships with public, private, philanthropic, and nonprofit entities to help increase the readiness of AI/AN students for school, college, and careers, and to help increase the number and percentage of AI/AN students completing college; and

(x) developing a national network of individuals, organizations, and communities to share best practices in AI/AN education and encouraging them to implement these practices.

(2) In order to help expand educational opportunities and improve education outcomes for AI/AN students, the Initiative shall promote, encourage, and undertake efforts, consistent with applicable law, to meet the following objectives:

(i) increasing the number and percentage of AI/AN children who enter kindergarten ready for success through improved access to high-quality early learning programs and services, including Native language immersion programs, that encourage the learning and development of AI/AN children from birth through age five;

(ii) supporting the expanded implementation of education reform strategies that have shown evidence of success in enabling AI/AN students to acquire a rigorous and well-rounded education and increasing their access to the support services that prepare them for college, careers, and civic involvement;

(iii) increasing the number and percentage of AI/AN students who have access to excellent teachers and school leaders, including effective science, technology, engineering, and mathematics (STEM), language, and special education teachers, in part by supporting efforts to improve the recruitment, development, and retention of effective AI/AN teachers and other effective teachers and school leaders, particularly through TCUs;

(iv) reducing the AI/AN student dropout rate and helping a greater number and percentage of those students who stay in high school to be ready for college and careers by the time of their graduation and college completed, in part by promoting a positive school climate and supporting successful and innovative dropout-prevention and recovery strategies that better engage AI/AN youths in their learning and help them catch up academically;

(v) providing pathways that enable those who have dropped out to reenter educational or training programs and acquire degrees, certificates, or industry-recognized credentials and obtain quality jobs, and expanding access to high-quality education programs and resources to help improve Native education, especially in in fields, by supporting adult, career, and technical education;
§ 7402. Purpose

§ 7426. Integration of services authorized
(a) Plan
An entity receiving funds under this subpart may submit a plan to the Secretary for the integration of education and related services provided to Indian students.

(b) Consolidation of programs
Upon the receipt of an acceptable plan under subsection (a), the Secretary, in cooperation with each Federal agency providing grants for the provision of education and related services to the entity, shall authorize the entity to consolidate, in accordance with such plan, the federally funded education and related services programs of the entity and the Federal programs, or portions of the programs, serving Indian students in a manner that integrates the program services involved into a single, coordinated, comprehensive program and reduces administrative costs by consolidating administrative functions.

(c) Programs affected
The funds that may be consolidated in a demonstration project under any such plan referred to in subsection (a) shall include funds for any Federal program exclusively serving Indian children, or the funds reserved under any Federal program to exclusively serve Indian children, under which the entity is eligible for receipt of funds under a statutory or administrative formula for the purposes of providing education and related services that would be used to serve Indian students.

Upon receipt of the plan from an eligible entity, the Secretary shall consult with the Secretary of each Federal department providing funds to be used to implement the plan, and with the entity submitting the plan. The parties so consulting shall identify any waivers of statutory requirements or of Federal departmental regulations, policies, or procedures necessary to enable the entity to implement the plan. Notwithstanding any other provision of law, the Secretary of the affected department shall have
the authority to waive any regulation, policy, or procedure promulgated by that department that has been so identified by the entity or department, unless the Secretary of the affected department determines that such a waiver is inconsistent with the objectives of this subpart or those provisions of the statute from which the program involved derives authority that are specifically applicable to Indian students.

(2) Separate records not required

Nothing in this section shall be construed as requiring the eligible entity to maintain separate records tracing any services or activities conducted under the approved plan to the individual programs under which funds were authorized for the services or activities, nor shall the eligible entity be required to allocate expenditures among such individual programs.

(m) Overage

The eligible entity may commingle all administrative funds from the consolidated programs and shall be entitled to the full amount of such funds (under each program’s or agency’s regulations). The overage (defined as the difference between the amount of the commingled funds and the actual administrative cost of the programs) shall be considered to be properly spent for Federal audit purposes, if the overage is used for the purposes provided for under this section.

(n) Fiscal accountability

Nothing in this part shall be construed so as to interfere with the ability of the Secretary or the lead agency to fulfill the responsibilities for the safeguarding of Federal funds pursuant to chapter 75 of title 31.

For purposes of determining whether a child is eligible to be counted for the purpose of computing the amount of a grant award under section 7423 of this title, the membership of the child, or any parent or grandparent of the child, in a tribe or band of Indians (as so defined) may be established by proof other than
an enrollment number, notwithstanding the availability of an enrollment number for a member of such tribe or band. Nothing in subsection (b) shall be construed to require the furnishing of an enrollment number.

(2) No new or duplicative determinations

Once a child is determined to be an Indian eligible to be counted for such grant award, the local educational agency shall maintain a record of such determination and shall not require a new or duplicate determination to be made for such child for a subsequent application for a grant under this subpart.

(3) Previously filed forms

An Indian student eligibility form that was on file as required by this section on the day before December 10, 2015, and that met the requirements of this section, shall remain valid for such Indian student.

(e) Monitoring and evaluation review

(1) In general

(A) Review

For each fiscal year, in order to provide such information as is necessary to carry out the requirements of this subpart, the Secretary shall conduct a monitoring and evaluation review of a sampling of the recipients of grants under this subpart. The sampling conducted under this subparagraph shall take into account the size of and the geographic location of each local educational agency.

(B) Exception

A local educational agency may not be held liable to the United States or be subject to any penalty, by reason of the findings of an audit that relates to the date of completion, or the date of submission, of any forms used to establish, before April 28, 1988, the eligibility of a child for an entitlement under the Indian Elementary and Secondary School Assistance Act.

(2) A count of the number of students for whom the school has eligibility forms that comply with this section.

(g) Timing of child counts

The Indian Education Act of 1988, as in effect the day preceding October 20, 1994, referred to in par. (3)(E), is
§ 7512. Findings

Congress finds the following:

(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as a nation by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

(2) At the time of the arrival of the first non-indigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

(3) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawaii, which was established in 1810 under Kamehameha I, the first King of Hawaii. The Kingdom of Hawaii, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and the people of the United States.

(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawaii, the Kingdom of Hawaii, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative.

In 1898, the joint resolution entitled “Joint Resolution to provide for annexing the Hawaiian Islands to the United States”, approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawaii, including the government and crown lands of the former Kingdom of Hawaii, to the United States, but mandated that revenue generated from the lands be used “solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes”.

By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,500, and in recognition of this severe decline, Congress enacted the Hawaiian Homes Commission Act, 1920 (42 Stat. 108), which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

Through the enactment of the Hawaiian Homes Commission Act, 1920, Congress affirmed the special relationship between the United States and the Native Hawaiians, which was described by then Secretary of the Interior Franklin K. Lane, who said: “One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.”.

In 1938, Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781, chapter 530; 16 U.S.C. 391b, 391b–1, 392b, 392c, 396, 396a), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area “only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.”.

Under the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

The United States has recognized and reaffirmed that—

(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;

(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii;

(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

(E) the aboriginal, indigenous people of the United States have—

(i) a continuing right to autonomy in their internal affairs; and

(ii) an ongoing right of self-determination and self-governance that has never been extinguished.

The political relationship between the United States and the Native Hawaiian people has been recognized and reaffirmed by the United States, as evidenced by the inclusion of Native Hawaiians in—

(A) the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.);

(B) the American Indian Religious Freedom Act (42 U.S.C. 1996), 1996(a);

(C) the National Museum of the American Indian Act (20 U.S.C. 80q et seq.);

(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

(E) division A of subtitle III of title 54;

(F) the Native American Languages Act (25 U.S.C. 2901 et seq.);

(G) the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4401 et seq.);

(H) the Workforce Innovation and Opportunity Act; and

(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

Amendments

1935—Pars. (14) to (21). Pub. L. 74–95, §6003(a), struck out pars. (14) to (21) which read as follows:

"(14) In 1961, Congress instructed the Office of Education to submit to Congress a comprehensive report on Native Hawaiian education. The report, entitled the ‘Native Hawaiian Educational Assessment Project’, was released in 1963 and documented that Native Hawaiians scored below parity with regard to national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics indicative of special educational needs, and had educational needs that were related to their unique cultural situation, such as different learning styles and low self-image.

"(15) In recognition of the educational needs of Native Hawaiians, in 1986, Congress enacted title IV of the Augustus F. Hawkins–Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (102 Stat. 130) to authorize and develop supplemental educational programs to address the unique conditions of Native Hawaiians.

"(16) In 1993, the Kamehameha Schools Bishop Estate released a 10-year update of findings of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins–Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still existed for Native Hawaiians. Subsequent reports by the Kamehameha Schools Bishop Estate and other organizations have generally confirmed these findings. For example:

"(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including:

"(i) late or no prenatal care;

"(ii) high rates of births by Native Hawaiian women who are unmarried; and

"(iii) high rates of births to teenage parents;

"(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

"(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

"(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

"(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild intellectual disabilities, emotional impairment, and other such disabilities;

"(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

"(G) Native Hawaiians continue to be disproportionately represented in many negative social and...
physical statistics indicative of special educational needs, as demonstrated by the fact that—

“(1) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

“(2) Native Hawaiian students have the highest rates of drug and alcohol use in the State of Hawaii; and

“(3) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

“(B) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education, and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

“(17) In the 1998 National Assessment of Educational Progress, Hawaiian fourth-graders ranked 39th among groups of students from 39 States in reading. Given that Hawaiian students rank among the lowest groups of students nationally in reading, and that Native Hawaiian students rank the lowest among Hawaiian students in reading, it is imperative that greater focus be placed on beginning reading and early education and literacy in Hawaii. (18) The findings described in paragraphs (16) and (17) are inconsistent with the high rates of literacy and integration of traditional culture and Western education historically achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

“(19) Following the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period of Hawaii, and until 1986, use of the Hawaiian language as an instructional medium in education in public schools was declared unlawful. The declaration caused incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: ‘I ka ‘ōlelo nō ke ola; I ka ‘ōlelo nō ka make. In the language rests life; In the language rests death.’

“(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

“(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii:

“(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, language;

“(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system; and

“(C) promotes the study of the Hawaiian culture, language, and history by providing a Hawaiian education program and using community expertise as a suitable and essential means to further the program.”

The purposes of this part are to—

PART C—ALASKA NATIVE EDUCATION

§ 7541. Short title

This part may be cited as the "Alaska Native Educational Equity, Support, and Assistance Act".

Amendments
2015—Pub. L. 114–95, §6003(d), added par. (1) and redesignated former pars. (1) to (6) as (2) to (7), respectively.

Effective Date of 2015 Amendment
Amendment by Pub. L. 114–95 effective Dec. 10, 2015, except with respect to certain noncompetitive programs and competitive programs, see section 5 of Pub. L. 114–95, set out as a note under section 6301 of this title.

Prior Provisions
Provisions naming former part C (§7391 et seq.) of subchapter IX of this chapter as the "Alaska Native Educational Equity, Support and Assistance Act" were contained in section 7391 of this title, prior to the general amendment of former subchapter IX of this chapter by Pub. L. 107–110.

A prior section 6301 of Pub. L. 89–10 was classified to section 7371 of this title prior to the general amendment of former subchapter V of this chapter by Pub. L. 107–110.

§ 7542. Findings

Congress finds and declares the following:

(1) It is the policy of the Federal Government to maximize the leadership of and participation by Alaska Natives in the planning and the management of Alaska Native education programs and to support efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

(2) Many Alaska Native children enter and exit school with serious educational disadvantages.

(3) Overcoming the magnitude of the geographic challenges, historical inequities, and other barriers to successfully improving educational outcomes for Alaska Native students in rural, village, and urban settings is challenging. Significant disparities between academic achievement of Alaska Native students and non-Native students continue, including lower graduation rates, increased school dropout rates, and lower achievement scores on standardized tests.

(4) The preservation of Alaska Native cultures and languages and the integration of Alaska Native cultures and languages into education, positive identity development for Alaska Native students, and local, place-based, and culture-based programming are critical to the attainment of educational success and the long-term well-being of Alaska Native students.

(5) Improving educational outcomes for Alaska Native students increases access to employment opportunities.

(6) The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for Alaska Native students. In 1983, pursuant to Public Law 98–63, Alaska ceased to receive educational funding from the Bureau of Indian Affairs. The Bureau of Indian Education does not operate any schools in Alaska, nor operate or fund Alaska Native education programs. The program under this part supports the Federal trust responsibility of the United States to Alaska Natives.

§ 7702. Payments relating to Federal acquisition of real property

(a) In general

Where the Secretary, after consultation with any local educational agency and with the appropriate State educational agency, determines—

(1) that the United States owns Federal property in the local educational agency, and that such property—

(A) has been acquired by the United States since 1938;

(B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and

(C) had an assessed value according to original records (including facsimiles or other reproductions of those records) documenting the assessed value of such property (determined as of the time or times when so acquired) prepared by the local officials referred to in subsection (b)(3) or, when such original records are not available due to unintentional destruction (such as natural disaster, fire, flooding, pest infestation, or deterioration due to age), other records, including Federal agency records, local historical records, or other records that the Secretary determines to be appropriate and reliable, aggregating 10 percent or more of the assessed value of—

(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

(ii) all real property in the local educational agency as assessed in the first year preceding or succeeding acquisition, whichever is greater, only if—

(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

(II) State law requires an assessment be made of property so acquired; and

(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the conduct of Federal activities with respect to such Federal property,

then such agency shall be eligible to receive the amount described in subsection (b) or (h).

(b) Amount

(1) In general

(A)(i)(I) Subject to subclauses (II) and (III), the amount that a local educational agency shall be paid under subsection (a) for a fiscal year shall be calculated in accordance with paragraph (2).

(II) Except as provided in subclause (III), the Secretary may not reduce the amount of a payment under this section to a local educational agency for a fiscal year by (aa) the amount equal to the amount of revenue, if any, the agency received during the previous fiscal year from activities conducted on Federal property eligible under this section and located in a school district served by the agency, including amounts received from any Federal department or agency (other than the Department of Education) from such activities, by reason of receipt of such revenue, or (bb) any other amount by reason of receipt of such revenue.

(III) If the amount equal to the sum of (aa) the proposed payment under this section to a local educational agency for a fiscal year and (bb) the amount of revenue described in subclause (II)(aa) received by the agency during the previous fiscal year, exceeds the maximum amount the agency is eligible to receive under this section for the fiscal year involved, then the Secretary shall reduce the amount of the proposed payment under this section by an amount equal to such excess amount.

(ii) For purposes of clause (i), the amount of revenue that a local educational agency receives during the previous fiscal year from activities conducted on Federal property shall not include payments received by the agency from the Secretary of Defense to support—

(I) the operation of a domestic dependent elementary or secondary school; or

(II) the provision of a free public education to dependents of members of the Armed Forces residing on or near a military installation.

(B) If funds appropriated under section 7714(a) of this title are insufficient to pay the amount determined under subparagraph (A), the Secretary shall calculate the payment for each eligible local educational agency in accordance with subsection (h).

(C) Notwithstanding any other provision of this subsection, a local educational agency
may not be paid an amount under this section that, when added to the amount such agency receives under section 7703(b) of this title, exceeds the maximum amount that such agency is eligible to receive for such fiscal year under section 7703(b)(1)(C) of this title, or the maximum amount that such agency is eligible to receive for such fiscal year under this section, whichever is greater.

(2) Application of current levied real property tax rate

In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined estimated taxable value of such acquired Federal property.

(3) Determination of taxable value for eligible Federal property

(A) In general

In determining the estimated taxable value of such acquired Federal property for fiscal year 2010 and each succeeding fiscal year, the Secretary shall—

(i) first determine the total taxable value for the purpose of levying property tax for school purposes for current expenditures of real property located within the boundaries of such local educational agency;

(ii) then determine the per acre value of the eligible Federal property by dividing the total taxable value as determined in clause (i) by the difference between the total acres located within the boundaries of the local educational agency and the number of Federal acres eligible under this section; and

(iii) then determine the total taxable value of the eligible Federal property by multiplying the per acre value as calculated under clause (ii) by the number of Federal acres eligible under this section.

(B) Special rule

In the case of Federal property eligible under this section that is within the boundaries of 2 or more local educational agencies that are eligible under this section, any of such agencies may ask the Secretary to calculate (and the Secretary shall calculate) the taxable value of the eligible Federal property that is within its boundaries by—

(i) first calculating the per-acre value of the eligible Federal property separately for each eligible local educational agency that shared the Federal property, as provided in subparagraph (A)(ii);

(ii) then averaging the resulting per-acre values of the eligible Federal property from each eligible local educational agency that shares the Federal property; and

(iii) then applying the average per-acre value to determine the total taxable value of the eligible Federal property under subparagraph (A)(iii) for the requesting local educational agency.

(c) Applicability to Tennessee Valley Authority Act

For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831l) shall not be regarded as Federal property.

(d) Ownership by United States

The United States shall be deemed to own Federal property for the purposes of this chapter, where—

(1) prior to the transfer of Federal property, the United States owned Federal property meeting the requirements of subparagraphs (A), (B), and (C) of subsection (a)(1); and

(2) the United States transfers a portion of the property referred to in paragraph (1) to another non-taxable entity, and the United States—

(A) restricts some or any construction on such property;

(B) requires that the property be used in perpetuity for the public purposes for which the property was conveyed;

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(D) except with the approval of the Federal Government (or its agent), prohibits the sale, lease, assignment, or other disposal of the property unless such sale, lease, assignment, or other disposal is to another eligible government agency; and

(E) reserves to the Federal Government a right of reversion at any time the Federal Government (or its agent) deems it necessary for the national defense.

(e) Local educational agency containing Forest Service land and serving certain counties

Beginning with fiscal year 1995, a local educational agency shall be deemed to meet the requirements of subsection (a)(1) if such local educational agency meets the following requirements:

(1) Acreage and acquisition by the Forest Service

The local educational agency serves a school district that contains between 20,000 and 60,000 acres of land that has been acquired by the Forest Service of the Department of Agriculture between 1915 and 1990, as demonstrated by written evidence from the Forest Service satisfactory to the Secretary.

(2) County charter

The local educational agency serves a county chartered under State law in 1873 or 1890. For each fiscal year beginning on or after December 10, 2015, the Secretary shall treat local educational agencies chartered in 1871 having more than 70 percent of the county in Federal ownership as meeting the eligibility requirements of subparagraphs (A) and (C) of subsection (a)(1).

(f) Special rule

For each fiscal year beginning on or after December 10, 2015, a local educational agency shall
be deemed to meet the requirements of subsection (a)(1)(C) if the agency was eligible under paragraph (1) or (3) of section 7702(f) of this title as such section was in effect on the day before December 10, 2015.

(g) Former districts
(1) Consolidations
For fiscal year 2006 and each succeeding fiscal year, if a local educational agency described in paragraph (2) is formed at any time after fiscal year 1938 by the consolidation of 2 or more former school districts, the local educational agency may elect to have the Secretary determine its eligibility for assistance under this section for any fiscal year on the basis of 1 or more of those former districts, as designated by the local educational agency.

(2) Eligible local educational agencies
A local educational agency referred to in paragraph (1) is—
(A) any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied, and was determined to be eligible under, section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as that section was in effect for that fiscal year; or
(B) a local educational agency—
(i) that was formed by the consolidation of 2 or more districts, at least 1 of which was eligible for assistance under this section for the fiscal year preceding the year of the consolidation; and
(ii) which includes the designation referred to in paragraph (i) in its application under section 7705 of this title for a fiscal year beginning on or after December 10, 2013, or any timely amendment to such application.

(3) Amount
A local educational agency eligible under paragraph (1) shall receive a foundation payment as provided for under subparagraphs (A) and (B) of subsection (b)(1), except that the foundation payment shall be calculated based on the most recent payment received by the local educational agency based on its status prior to consolidation.

(h) Payments with respect to fiscal years in which insufficient funds are appropriated
For any fiscal year for which the amount appropriated under section 7714(a) of this title is insufficient to pay to each eligible local educational agency the full amount determined eligible for such payment made to the agency for fiscal year 2006 and 2009, inclusive, the lowest such payment made to the agency for fiscal year 2006, 2007, 2008, or 2009, shall be treated as the payment that the agency received under subsection (b) for each fiscal year for which the agency did not receive such a payment.

(C) Insufficient appropriations
If the amount appropriated under section 7714(a) of this title is insufficient to pay the full amount determined under this paragraph for all eligible local educational agencies for the fiscal year, then the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(2) Foundation payments for new applicants
(A) First year
From any amounts remaining after making payments under paragraph (1) and subsection (i)(1) for the fiscal year involved, the Secretary shall make a payment, in an amount determined in accordance with subparagraph (C), to each local educational agency that the Secretary determines eligible for a payment under this section for a fiscal year for which such agency was determined eligible for such payment.

(B) Second and succeeding years
For any succeeding fiscal year after the first fiscal year that a local educational agency receives a foundation payment under subparagraph (A), the amount of the local educational agency’s foundation payment under this paragraph for such succeeding fiscal year shall be equal to the local educational agency’s foundation payment under this paragraph for the first fiscal year.

(C) Amounts
The amount of a payment under subparagraph (A) for a local educational agency shall be determined as follows:
(i) Calculate the local educational agency’s maximum payment under subsection (b).
(ii) Calculate the percentage that the amount appropriated under section 7714(a) of this title for the most recent fiscal year for which the Secretary has completed making payments under this section is of the total maximum payments for such fiscal year for all local educational agencies eligible for a payment under subsection (b) and multiply the agency’s maximum payment by such percentage.

(iii) Multiply the amount determined under clause (ii) by 90 percent.

(D) Insufficient funds

If the amount appropriated under section 7714(a) of this title is insufficient to pay the full amount determined under this paragraph for all eligible local educational agencies for the fiscal year, then the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(3) Remaining funds

From any funds remaining after making payments under paragraphs (1) and (2) for the fiscal year involved, the Secretary shall make a payment to each local educational agency that received a foundation payment under paragraph (1) or (2) or subsection (i)(1), for the fiscal year involved in an amount that bears the same relation to the remainder as a percentage share determined for the local educational agency (by dividing the maximum amount that the agency is eligible to receive under subsection (b) by the total of the maximum amounts for all such agencies) bears to the percentage share determined (in the same manner) for all local educational agencies eligible for a payment under this section for the fiscal year involved, except that, for the purpose of calculating a local educational agency’s maximum amount under subsection (b), data from the most current fiscal year shall be used.

(4) Data

For each local educational agency that received a payment under this section for fiscal year 2010 or any succeeding fiscal year, the Secretary shall make a payment under paragraph (3) to a local educational agency that fails to submit, within 60 days of the date the Secretary notifies the agency that the information is needed, the data necessary to calculate the maximum amount of a payment under subsection (b) for that local educational agency.

(i) Special payments

(1) In general

For any fiscal year beginning with fiscal year 2000 for which the amount appropriated to carry out this section exceeds the amount so appropriated for fiscal year 1996 and for which subsection (b)(1)(B) applies, the Secretary shall use the remainder described in subsection (b)(3) for the fiscal year involved (not to exceed the amount equal to the difference between (A) the amount appropriated to carry out this section for fiscal year 1996 to increase the payment that would otherwise be made under this section to not more than 50 percent of the maximum amount determined under subsection (b) for any local educational agency described in paragraph (2).

(2) Local educational agency described

A local educational agency described in this paragraph is a local educational agency that—

(A) received a payment under this section for fiscal year 1996;

(B) serves a school district that contains all or a portion of a United States military academy;

(C) serves a school district in which the local tax assessor has certified that at least 60 percent of the real property is federally owned; and

(D) demonstrates to the satisfaction of the Secretary that such agency’s per-pupil revenue derived from local sources for current expenditures is not less than that revenue for the preceding fiscal year.

(j) Prior year data

Notwithstanding any other provision of this section, in determining the eligibility of a local educational agency for a payment under subsection (b) or (h)(2) of this section for a fiscal year, and in calculating the amount of such payment, the Secretary—

(1) shall use data from the prior fiscal year with respect to the Federal property involved, including data with respect to the assessed value of the property and the real property tax rate for current expenditures levied against or imputed to the property; and

(2) shall use data from the second prior fiscal year with respect to determining the amount of revenue referred to in subsection (b)(1)(A)(i).

(k) Loss of eligibility

(1) In general

Notwithstanding any other provision of this section, the Secretary shall make a minimum payment to a local educational agency described in paragraph (2) for the first fiscal year that the agency loses eligibility for assistance under this section as a result of property located within the school district served by the agency failing to meet the definition of Federal property under section 7713(5)(C)(iii) of this title, in an amount equal to 90 percent of the amount received by the agency under this section for the preceding year.

(2) Local educational agency described

A local educational agency described in this paragraph is an agency that—

(A) was eligible for, and received, a payment under this section for fiscal year 2002; and

(B) beginning in fiscal year 2003 or a subsequent fiscal year, is no longer eligible for payments under this section as provided for in subsection (a)(1)(C) as a result of the transfer of the Federal property involved to a non-Federal entity.

§ 7703. Payments for eligible federally connected children

(a) Computation of payment

(1) In general

For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b) or (d) for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

(A) if (i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

(ii) resided on Federal property with a parent who is an official of, and accredited by, a foreign government and is a foreign military officer;

(B) if resided on Federal property and had a parent on active duty in the uniformed services (as defined in section 101 of title 37);

(C) if resided on Indian lands;

(D) if had a parent on active duty in the uniformed services (as defined by section 101 of title 37) but did not reside on Federal property; or

(ii) had a parent who is an official of, and has been accredited by, a foreign government and is a foreign military officer but did not reside on Federal property;

(E) if resided in low-rent housing;

(F) if resided on Federal property and is not described in subparagraph (A) or (B); or

(G) if resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such county if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) Determination of weighted student units

For the purpose of computing the basic support payment under subsection (b), the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 5,000; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraph (D) of paragraph (1) by a factor of .20.

(E) Multiply the number of children described in subparagraph (E) of paragraph (1) by a factor of .10.

(F) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) Special rule

The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) Military installation and Indian housing undergoing renovation or rebuilding

(A) Military installation housing

Beginning in fiscal year 2014, in determining the amount of a payment for a local educational agency for children described in paragraph (1)(D)(1), the Secretary shall consider those children as if they were children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that those children would have resided in housing on Federal property if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(B) shall not exceed the lessor of—

(i) the total number of children eligible under paragraph (1)(B) for the year prior to the initiation of the housing project on Federal property undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(B) Indian lands

Beginning in fiscal year 2014, in determining the amount of a payment for a local edu-
cational agency that received a payment for children that resided on Indian lands in accordance with paragraph (1)(C) for the fiscal year prior to the fiscal year for which the local educational agency is making an application, the Secretary shall consider those children to be children described in paragraph (1)(C) if the Secretary determines on the basis of a certification provided to the Secretary by a designated representative of the Secretary of the Interior or the Secretary of Housing and Urban Development that those children would have resided in housing on Indian lands if the housing was not undergoing renovation or rebuilding. The total number of children treated as children described in paragraph (1)(C) shall not exceed the lesser of—

(i) the total number of children eligible under paragraph (1)(C) for the year prior to the initiation of the housing project on Indian lands undergoing renovation or rebuilding; or

(ii) the total number of Federally connected children enrolled at the local educational agency as stated in the application filed for the payment for the year for which the determination is made.

(C) Eligible housing

Renovation or rebuilding shall be defined as projects considered as capitalization, modernization, or restoration, as defined by the Secretary of Defense or the Secretary of the Interior (as the case may be) and are projects that last more than 30 days, but do not include ‘sustainment projects’ such as painting, carpeting, or minor repairs.

(5) Military “Build to Lease” program housing

(A) In general

For purposes of computing the amount of payment for a local educational agency for children identified under paragraph (1), the Secretary shall consider children residing in housing initially acquired or constructed under the former section 2828(g) of title 10 (commonly known as the “Build to Lease” program), as added by section 801 of the Military Construction Authorization Act, 1984, or under lease of off-base property under subchapter IV of chapter 160 of title 10, to be children described under paragraph (1)(B), if the property described is—

(i) within the fenced security perimeter of the military facility; or

(ii) attached to, and under any type of force protection agreement with, the military installation upon which such housing is situated.

(B) Additional requirements

If the property described in subparagraph (A) is not owned by the Federal Government, is subject to taxation by a State or political subdivision of a State, and thereby generates revenues for a local educational agency that is applying to receive a payment under this section, then the Secretary—

(i) shall require the local educational agency to provide certification from an appropriate official of the Department ofDefense that the property is being used to provide military housing; and

(ii) shall reduce the amount of the payment under this section by an amount equal to the amount of revenue from such taxation received by such local educational agency, unless the amount of such revenue was taken into account by the State for such second preceding fiscal year and already resulted in a reduction in the amount of State aid paid to such local educational agency.

(b) Basic support payments; insufficient appropriations; State with only one local educational agency

(1) Basic support payments

(A) In general

From the amount appropriated under section 714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a).

(B) Eligibility

A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) only if the number of children so determined with respect to such agency amounts to the lesser of—

(i) at least 400 such children; or

(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) Maximum amount

The maximum amount that a local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2), multiplied by the greater of—

(i) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

(ii) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 84, 81st Congress), as such regulations were in effect on January 1, 1994; or

(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(D) Data

If satisfactory data from the third preceding fiscal year are not available for any of
the expenditures described in clause (i) or (ii) of subparagraph (C), the Secretary shall use data from the most recent fiscal year for which data that are satisfactory to the Secretary are available.

(E) Increase in local contribution rate due to unusual geographic factors

If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subparagraph (C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency under subparagraph (C)(iii) by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographical factors.

(F) Beginning with fiscal year 2002, for the purpose of calculating a payment under this paragraph for a local educational agency whose local contribution rate was computed under subparagraph (C)(iii) for the previous year, the Secretary shall use a local contribution rate that is not less than 95 percent of the rate that the LEA received for the preceding year.

(2) Basic support payments for heavily impacted local educational agencies

(A) In general

(i) From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible heavily impacted local educational agencies with children described in subsection (a).

(ii) A local educational agency that receives a basic support payment under this paragraph for a fiscal year shall not be eligible to receive a basic support payment under paragraph (1) for that fiscal year.

(B) Eligibility for heavily impacted local educational agencies

(i) In general

A heavily impacted local educational agency is eligible to receive a basic support payment under subparagraph (A) with respect to a number of children determined under subsection (a)(1) if the agency—

(I) is a local educational agency—

(aa) whose boundaries are the same as a Federal military installation; or

(bb) whose boundaries are the same as an island property designated by the Secretary of the Interior to be property that is held in trust by the Federal Government; and

(II) is a local educational agency that—

(aa) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 30 percent; or

(bb) has a per-pupil expenditure that is less than—

(AA) for an agency that has a total student enrollment of 500 or more students, 125 percent of the average per-pupil expenditure of the State in which the agency is located; or

(BB) for any agency that has a total student enrollment of less than 500 students, 150 percent of the average per-pupil expenditure of the State in which the agency is located or the average per-pupil expenditure of 3 or more comparable local educational agencies in the State in which the agency is located; and

(cc) is an agency that has a tax rate for general fund purposes which is not less than 95 percent of the average tax rate for general fund purposes that is not less than—

(1) 15 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State;

(II) is a local educational agency that—

(aa) has a tax rate for general fund purposes which is not less than 125 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State; and

(bb) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 30 percent; or

(BB) has an enrollment of children described in subsection (a)(1) that constitutes a percentage of the total student enrollment of the agency that is not less than 20 percent, and for the 3 fiscal years preceding the fiscal year for which the determination is made, the average enrollment of children who are not described in subsection (a)(1) and who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act [42 U.S.C. 1751 et seq.] constitutes a percentage of the total student enrollment of the agency that is not less than 65 percent;

(IV) is a local educational agency that received a payment for fiscal year 2015 under section 7703(b)(2)(E)1 of this title (as such section was in effect for such fiscal year) and has a total student en-

(ii) Loss of eligibility

of which—

(aa) not less than 35 percent are children described in subsection (a)(1); and

(bb)(AA) not less than 3,500 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1); or

(BB) not less than 7,000 of such children are children described in subparagraph (D) of subsection (a)(1);

(V) is a local educational agency that—

(aa) has an enrollment of children described in subsection (a)(1) including, for purposes of determining eligibility, those children described in subparagraphs (F) and (G) of such subsection, that is not less than 35 percent of the total student enrollment of the agency;

(bb) has a per-pupil expenditure described in subclause (II)(bb) (except that a local educational agency with a total student enrollment of less than 350 students shall be deemed to have satisfied such per-pupil expenditure requirement) and has a tax rate for general fund purposes which is not less than 95 percent of the average tax rate for general fund purposes for comparable local educational agencies in the State; and

(cc) was eligible to receive assistance under subparagraph (A) for fiscal year 2001.

(ii) Loss of eligibility

(I) In general

Subject to subclause (II), a heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for any fiscal year for which eligibility determination is made.

(ii) Loss of eligibility due to falling below 95 percent of the average tax rate for general fund purposes

In the case of a heavily impacted local educational agency described in subclause (II) or (V) of clause (i) that is eligible to receive a basic support payment under subparagraph (A), but that has been taken over by a State board of education in any 2 previous years, such agency shall be deemed to maintain heavily impacted status for 2 fiscal years following December 10, 2015.

(iii) Resumption of eligibility

A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

(C) Maximum amount for heavily impacted local educational agencies

(i) In general

Except as provided in subparagraph (D), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) and subject to clause (ii), multiplied by the greater of—

(I) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

(ii) Calculation of weighted student units

(I) In general

(aa) Percentage enrollment

For a local educational agency in which 35 percent or more of the total student enrollment of the schools of the agency are children described in subparagraph (D) or (E) (or a combination thereof) of subsection (a)(1), and that has an enrollment of children described in subparagraph (A), (B), or (C) of such subsection equal to at least 10 percent of the agency’s total enrollment, the Secretary shall calculate the weighted student units of those children described in subparagraph (D) or...
§ 7703

TITLE 20—EDUCATION

Page 1472

(E) of such subsection by multiplying the number of such children by a factor of 0.55.

(bb) Exception

Notwithstanding item (aa), a local educational agency that received a payment under this paragraph for fiscal year 2013 shall not be required to have an enrollment of children described in subparagraph (A), (B), or (C) of subsection (a)(1) equal to at least 10 percent of the agency’s total enrollment and shall be eligible for the student weight as provided for in item (aa).

(ii) Factor

For purposes of calculating the maximum amount described in clause (i), the factor used in determining the weighted student units under subsection (a)(2) with respect to children described in subparagraphs (A) and (B) of subsection (a)(1) shall be—

(I) for fiscal year 2016, 1.35;

(II) for each of fiscal years 2017 and 2018, 1.38;

(III) for fiscal year 2019, 1.40;

(IV) for fiscal year 2020, 1.42; and

(V) for fiscal year 2021 and each fiscal year thereafter, 1.45.

(iii) Factor for children who live off base

For purposes of calculating the maximum amount described in clause (i), the factor used in determining the weighted student units under subsection (a)(2) with respect to children described in subsection (a)(1)(D) shall be—

(I) for fiscal year 2016, .20;

(II) for each of fiscal years 2017 and 2018, .22;

(III) for each of fiscal years 2019 and 2020, .25; and

(IV) for fiscal year 2021 and each fiscal year thereafter—

(aa) .30 with respect to each of the first 7,000 children; and

(bb) .25 with respect to the number of children that exceeds 7,000.

(iv) Special rule

Notwithstanding clauses (ii) and (iii), for fiscal year 2020 or any succeeding fiscal year, if the number of students who are children described in subparagraphs (A) and (B) of subsection (a)(1) for a local educational agency subject to this subparagraph exceeds 7,000 for such year or the number of students who are children described in subsection (a)(1)(D) for such local educational agency exceeds 12,750 for such year, then—

(I) the factor used, for the fiscal year for which the determination is being made, to determine the weighted student units under subsection (a)(2) with respect to children described in subparagraphs (A) and (B) of subsection (a)(1) shall be 1.40; and

(II) the factor used, for such fiscal year, to determine the weighted student units under subsection (a)(2) with respect to children described in subsection (a)(1)(D) shall be .20.

(E) Data

For purposes of providing assistance under this paragraph, the Secretary shall use student, revenue, expenditure, and tax data from the third fiscal year preceding the fiscal year for which the local educational agency is applying for assistance under this paragraph.

(F) Determination of average tax rates for general fund purposes

(i) In general

Except as provided in clause (ii), for the purpose of determining the average tax
rates for general fund purposes for local educational agencies in a State under this paragraph, the Secretary shall use either—

(I) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

(II) the average tax rate of all the local educational agencies in the State.

(ii) Fiscal years 2010–2015

(I) In general

For fiscal years 2010 through 2015, any local educational agency that was found ineligible to receive a payment under subparagraph (A) because the Secretary determined that it failed to meet the average tax rate requirement for general fund purposes in subparagraph (B)(1)(II)(cc), shall be considered to have met that requirement, if its State determined, through an alternate calculation of average tax rates for general fund purposes, that such local educational agency met that requirement.

(II) Subsequent fiscal years after 2015

For any succeeding fiscal year after 2015, any local educational agency identified in subclause (I) may continue to have its State use that alternate methodology to calculate whether the average tax rate requirement for general fund purposes under subparagraph (B)(1)(II)(cc) is met.

(III) Availability of funds

Notwithstanding any other provision of law limiting the period during which the Secretary may obligate funds appropriated for any fiscal year after 2012, the Secretary shall reserve a total of $14,000,000 from funds that remain unobligated under this section from fiscal years 2015 or 2016 in order to make payments under this clause for fiscal years 2011 through 2014.

(G) Eligibility for heavily impacted local educational agencies affected by privatization of military housing

(i) Eligibility

For any fiscal year, a heavily impacted local educational agency that received a basic support payment under this paragraph for the prior fiscal year, but is ineligible for such payment for the current fiscal year under subparagraph (B) due to the conversion of military housing units to private housing described in clause (i), or as the direct result of base realignment and closure or modularization as determined by the Secretary of Defense and force structure change or force relocation, shall be deemed to meet the eligibility requirements under subparagraph (B) for the period during which the housing units are undergoing such conversion or during such time as activities associated with base closure and realignment, modularization, force structure change, or force relocation are ongoing.

(ii) Amount of payment

The amount of a payment to a heavily impacted local educational agency for a fiscal year by reason of the application of clause (i), and calculated in accordance with subparagraph (C) or (D), as the case may be, shall be based on the number of children in average daily attendance in the schools of such agency for the fiscal year and under the same provisions of subparagraph (C) or (D) under which the agency was paid during the prior fiscal year.

(iii) Conversion of military housing units to private housing described

For purposes of clause (i), “conversion of military housing units to private housing” means the conversion of military housing units to private housing units pursuant to subchapter IV of chapter 169 of title 10 or pursuant to any other related provision of law.

(3) Payments with respect to fiscal years in which insufficient funds are appropriated

(A) In general

For any fiscal year in which the sums appropriated under section 7714(b) of this title are insufficient to pay to each local educational agency the full amount computed under paragraphs (1) and (2), the Secretary shall make payments in accordance with this paragraph.

(B) Learning opportunity threshold payments in lieu of payments under paragraph (1)

(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this subchapter referred to as the “threshold payment”) in lieu of basic support payments under paragraph (1) by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph, and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) In the case of a local educational agency providing a free public education to
students enrolled in kindergarten through grade 12, that enrolls students described in subparagraphs (A), (B), and (D) of subsection (a)(1) only in grades 9 through 12, and that received a final payment for fiscal year 2009 calculated under section 7703(b)(3) of this title (as such section was in effect on the day before December 10, 2015) for students in grades 9 through 12, the Secretary shall, in calculating the agency’s payment, consider only that portion of such agency’s total enrollment of students in grades 9 through 12 when calculating the percentage under clause (i)(I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under clause (i)(II).

(iv) In the case of a local educational agency that has a total student enrollment of fewer than 1,000 students and that has a per-pupil expenditure that is less than the average per-pupil expenditure of the State in which the agency is located or less than the average per-pupil expenditure of all the States, the total percentage used to calculate threshold payments under clause (i) shall not be less than 40 percent.

(C) Learning opportunity threshold payments in lieu of payments under paragraph (2)

For fiscal years described in subparagraph (A), the learning opportunity threshold payment in lieu of basic support payments under paragraph (2) shall be equal to the amount obtained under subparagraph (C) or (D) of paragraph (2), as the case may be.

(D) Ratable distribution

For fiscal years described in subparagraph (A), for which the sums available exceed the amount required to pay each local educational agency 100 percent of its threshold payment, the Secretary shall distribute the excess sums to each eligible local educational agency that has not received its full payment, the Secretary shall distribute the amount computed under paragraphs (1) or (2) (as the case may be) by multiplying—

(i) a percentage, the denominator of which is the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for all local educational agencies and the amount of the threshold payment (as calculated under subparagraphs (B) and (C)) of all local educational agencies, and the numerator of which is the aggregate of the excess sums, by

(ii) the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for the agency and the amount of the threshold payment (as calculated under subparagraphs (B) or (C)) of the agency, except that no local educational agency shall receive more than 100 percent of the maximum payment calculated under subparagraph (C) or (D) of paragraph (2).

(E) Insufficient payments

For each fiscal year described in subparagraph (A) for which the sums appropriated are insufficient to pay each local educational agency all of the local educational agency’s threshold payment described in subparagraph (B), the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

(F) Increases

(i) Increases based on insufficient funds

If additional funds become available under section 7714(b) of this title for making payments under paragraphs (1) and (2) and those funds are not sufficient to increase each local educational agency’s threshold payment above 100 percent of its threshold payment described in subparagraph (B), payments that were reduced under subparagraph (E) shall be increased by the Secretary on the same basis as such payments were reduced.

(ii) Increases based on sufficient funds

If additional funds become available under section 7714(b) of this title for making payments under paragraphs (1) and (2) and those funds are sufficient to increase each local educational agency’s threshold payment above 100 percent of its threshold payment described in subparagraph (B), the payment for each local educational agency shall be 100 percent of its threshold payment. The Secretary shall then distribute the excess sums to each eligible local educational agency in accordance with subparagraph (D).

(G) Provision of tax rate and resulting percentage

As soon as practicable following the payment of funds under paragraph (2) to an eligible local educational agency, the Secretary shall provide the local educational agency with a description of—

(i) the tax rate of the local educational agency; and

(ii) the percentage such tax rate represents of the average tax rate for general fund purposes of comparable local educational agencies in the State as determined under subclauses (II)(cc), III(aa), or (V)(bb) of paragraph (2)(B)(i) (as the case may be).

(4) States with only one local educational agency

(A) In general

In any of the 50 States of the United States in which there is only one local educational agency, the Secretary shall, for purposes of subparagraphs (B) and (C) of paragraph (1) or subparagraphs (B) and (C) of paragraph (2), as the case may be, paragraph (3) of this subsection, and subsection (e), consider each administrative school district in the State to be a separate local educational agency.

(B) Computation of maximum amount of basic support payment and threshold payment

In computing the maximum payment amount under paragraph (1)(C) or subpara-
(5) Local educational agencies affected by removal of Federal property

(A) In general

In computing the amount of a basic support payment under this subsection for a fiscal year for a local educational agency described in subparagraph (B), the Secretary shall meet the additional requirements described in subparagraph (C).

(B) Local educational agency described

A local educational agency described in this subparagraph is a local educational agency with respect to which Federal property—

(i) located within the boundaries of the agency, and

(ii) on which one or more children reside who are receiving a free public education at a school of the agency, is transferred by the Federal Government to another entity in any fiscal year beginning on or after October 30, 2000, so that the property is subject to taxation by the State or a political subdivision of the State.

(C) Additional requirements

The additional requirements described in this subparagraph are the following:

(i) For each fiscal year beginning after the date on which the Federal property is transferred, a child described in subparagraph (B) who continues to reside on such property and who continues to receive a free public education at a school of the agency shall be deemed to be a child who resides on Federal property for purposes of computing under the applicable subparagraph of subsection (a)(1) the amount that the agency is eligible to receive under this subsection.

(ii) For the third fiscal year beginning after the date on which the Federal property is transferred, and for each fiscal year thereafter, the Secretary shall, after computing the amount that the agency is otherwise eligible to receive under this subsection for the fiscal year involved, deduct from such amount an amount equal to the revenue received by the agency for the immediately preceding fiscal year as a result of the taxable status of the former Federal property.

(II) For purposes of determining the amount of revenue to be deducted in accordance with subclause (I), the local educational agency—

(aa) shall provide for a review and certification of such amount by an appropriate local tax authority; and

(bb) shall submit to the Secretary a report containing the amount certified under item (aa).

(e) Prior year data

(1) In general

Except as provided in subsections (b)(1)(D), (b)(2), and paragraph (2), all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

(2) Exception

Calculation of payments for a local educational agency shall be based on data from the fiscal year for which the agency is making an application for payment if such agency—

(A) is newly established by a State, for the first year of operation of such agency only;

(B) was eligible to receive a payment under this section for the previous fiscal year and has had an overall increase in enrollment (as determined by the Secretary in consultation with the Secretary of Defense, the Secretary of the Interior, or the heads of other Federal agencies)—

(i) of not less than 10 percent of children described in—

(aa) subparagraph (A), (B), (C), or (D) of subsection (a)(1); or

(bb) subparagraphs (F) and (G) of subsection (a)(1), but only to the extent that such children are civilian dependents of employees of the Department of Defense or the Department of the Interior; or

(ii) that is the direct result of closure or realignment of military installations under the base closure process or the relocation of members of the Armed Forces and civilian employees of the Department of Defense as part of the force structure changes or movements of units or personnel between military installations or because of actions initiated by the Secretary of the Interior or the head of another Federal agency; or

(C) was eligible to receive a payment under this section for the previous fiscal year and has had an increase in enrollment (as determined by the Secretary)—

(i) of not less than 10 percent of children described in subsection (a)(1) or not less than 100 of such children; and

(ii) that is the direct result of closure or realignment of military installations under the base closure process or the relocation of members of the Armed Forces and civilian employees of the Department of Defense as part of the force structure changes or movements of units or personnel between military installations or because of actions initiated by the Secretary of the Interior or the head of another Federal agency; or

(d) Children with disabilities

(1) In general

From the amount appropriated under section 7714(c) of this title for a fiscal year, the
Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

(A) multiplying the number of children described in subparagraphs (A)(i), (B) and (C) of subsection (a) who are eligible to receive services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

(B) multiplying the number of children described in subparagraph (D) of subsection (a) who are eligible to receive services under such Act by a factor of 0.5.

(2) Use of funds

A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education to children described in paragraph (1) in accordance with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

(e) Hold harmless

(1) In general

In the case of any local educational agency eligible to receive a payment under subsection (b) whose calculated payment amount for a fiscal year is reduced by 20 percent, as compared to the amount received for the previous fiscal year, the Secretary shall pay the local educational agency, for the year of the reduction and the following 2 years, the amount determined under paragraph (2).

(2) Amount of reduction

Subject to paragraph (3), a local educational agency described in paragraph (1) shall receive—

(A) for the first year for which the reduced payment is determined, an amount that is not less than 90 percent of the total amount that the local educational agency received under subsection (b) for the previous fiscal year;

(B) for the second year following such reduction, an amount that is not less than 85 percent of the total amount that the local educational agency received under subparagraph (A); and

(C) for the third year following such reduction, an amount that is not less than 80 percent of the total amount that the local educational agency received under subparagraph (A).

(3) Special rule

For any fiscal year for which a local educational agency would receive a payment under subsection (b) in excess of the amount determined under paragraph (2), the payment received by the local educational agency for such fiscal year shall be calculated under paragraph (1) or (2) of subsection (b).

(4) Ratable reductions

(A) In general

If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraph (1) for such year, then the Secretary shall ratably reduce the payments to all such agencies for such year.

(B) Additional funds

If additional funds become available for making payments under paragraph (1) for such fiscal year, payments that were reduced under subparagraph (A) shall be increased on the same basis as such payments were reduced.

(f) Other funds

Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 386 of the National Defense Authorization Act for Fiscal Year 1993 or such section's successor authority.

(e) Complaints
(1) In general
(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without regard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

§ 7709. State consideration of payments in providing State aid

(a) General prohibition

Except as provided in subsection (b), a State may not—

(1) consider payments under this subchapter in determining for any fiscal year—

(A) the eligibility of a local educational agency for State aid for free public education; or

(B) the amount of such aid; or

(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

(b) State equalization plans

(1) In general

A State may reduce State aid to a local educational agency that receives a payment under section 7702 or 7703(b) of this title (except the amount calculated in excess of 1.0 under section 7703(a)(2)(B) of this title and, with respect to a local educational agency that receives a payment under section 7703(b)(2) of this title, the amount in excess of the amount that the agency would receive if the agency prior to repeal were deemed to be an agency eligible to receive a payment under section 7703(b)(1) of this title and not section 7703(b)(2) of this title) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A), that the State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in the State.

(2) Computation

(A) In general

For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than 25 percent.

(B) Other factors

In making a determination under this subsection, the Secretary shall—

(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile of such expenditures or revenues in the State; and

(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

(3) Exception

Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

(A) the Secretary determines, on the basis of projected data, that the State’s program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State’s program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

(c) Procedures for review of State equalization plans

(1) Written notice

(A) In general

Any State that wishes to consider payments described in subsection (b)(1) in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State’s fiscal year, a written notice of such State’s intention to do so.
(d) Treatment of State aid

Before making a determination under subsection (b), the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

(3) Qualification procedures

If the Secretary determines that a program of State aid qualifies under subsection (b), the Secretary shall—

(A) certify the program and so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7111(a) of this title, to any local educational agency adversely affected by such certification.

(4) Nonqualification procedures

If the Secretary determines that a program of State aid does not qualify under subsection (b), the Secretary shall—

(A) so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7111(a) of this title, to the State, and to any local educational agency adversely affected by such determination.

(d) Treatment of State aid

(1) In general

If a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this subchapter for any fiscal year may be taken into consideration by such State in determining the relative—

(A) financial resources available to local educational agencies in that State; and

(B) financial need of such agencies for the provision of free public education for children served by such agency, except that a State may consider as local resources funds received under this subchapter only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

(2) Prohibition

A State may not take into consideration payments under this subchapter before such State's program of State aid has been certified by the Secretary under subsection (c)(3).

(e) Remedies for State violations

(1) In general

The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) or for failure to carry out an assurance under subsection (b)(3)(B), and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

(2) Immunity

A State shall not be immune under the 11th amendment to the Constitution of the United States from an action described in paragraph (1).

(3) Relief

The court shall grant such relief as the court determines is appropriate.

Chapter 74—Troops-to-Teachers Program

Section 9301, Pub. L. 106–554, § 1(a)(1) [title VIII, § 801], Dec. 21, 2000, 114 Stat. 2763, 2763A–80, provided that:

(a) Short Title.—This title [enacting this chapter] may be cited as the ‘‘Early Learning Opportunities Act’’.

(b) Findings.—Congress finds that—

(1) medical research demonstrates that adequate stimulation of a young child’s brain between birth and age 5 is critical to the physical development of the young child’s brain;

(2) parents are the most significant and effective teachers of their children, and they alone are responsible for choosing the best early learning opportunities for their child;
“(3) parent education and parent involvement are critical to the success of any early learning program or activity;
“(4) the more intensively parents are involved in their child’s early learning, the greater the cognitive and noncognitive benefits to their children;
“(5) many parents have difficulty finding the information and support the parents seek to help their children grow to their full potential;
“(6) each day approximately 13,000,000 young children, including 6,000,000 infants or toddlers, spend some or all of their day being cared for by someone other than their parents;
“(7) quality early learning programs, including those designed to promote effective parenting, can increase the literacy rate, the secondary school graduation rate, the employment rate, and the college enrollment rate for children who have participated in voluntary early learning programs and activities;
“(8) early childhood interventions can yield substantial advantages to participants in terms of emotional and cognitive development, education, economic well-being, and health, with the latter two advantages applying to the children’s families as well;
“(9) participation in quality early learning programs, including those designed to promote effective parenting, can decrease the future incidence of teenage pregnancy, welfare dependency, at-risk behaviors, and juvenile delinquency for children;
“(10) several cost-benefit analysis studies indicate that for each $1 invested in quality early learning programs, the Federal Government can save over $5 by reducing the number of children and families who participate in Federal Government programs like special education and welfare;
“(11) for children placed in the care of others during the workday, the low salaries paid to the child care staff, the lack of career progression for the staff, and the lack of child development specialists involved in early learning and child care programs, make it difficult to attract and retain the quality of staff necessary for a positive early learning experience;
“(A) serve far fewer than half of all eligible children;
“(B) are not primarily designed to provide support for parents who care for their young children in the home; and
“(C) lack a means of coordinating early learning opportunities in each community; and
“(13) by helping communities increase, expand, and better coordinate early learning opportunities for children and their families, the productivity and creativity of future generations will be improved, and the Nation will be prepared for continued leadership in the 21st century.’’

EX. ORD. NO. 13646. ESTABLISHING THE PRESIDENT'S ADVISORY COUNCIL ON FINANCIAL CAPABILITY FOR YOUNG AMERICANS

Ex. Ord. No. 13646, June 25, 2013, 78 F.R. 39159, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Policy. To contribute to the Nation's future financial stability and increase upward economic mobility, it is the policy of the Federal Government to promote financial capability among young Americans and encourage building the financial capability of young people at an early stage in schools, families, communities, and the workplace. By starting early, young people can begin to learn the difference between wants and needs, the importance and power of saving, and the positive and productive role money can play in their lives. Having a basic understanding of money management from an early age will make our young people better equipped to tackle more complex financial decisions in their transition to adulthood, when critical decisions about financing higher education and saving for retirement can have lasting consequences for financial security. Strengthening the financial capability of our young people is an investment in our Nation's economic prosperity.

Financial capability is the capacity, based on knowledge, skills, and access, to manage financial resources prudently and effectively. Efforts to improve financial capability, which should be based on evidence of effectiveness, empower individuals to make informed choices, plan, and set goals, avoid pitfalls, know where to seek help, and take other actions to better their present and long-term financial well-being.

Sec. 2. Establishment of the Council. There is established within the Department of the Treasury the President's Advisory Council on Financial Capability for Young Americans (Council).

Membership and Operation of the Council. (a) The Council shall consist of:

(ii) not more than 22 members appointed by the President from among individuals not employed by the Federal Government.

(b) Members of the Council shall include individuals with demonstrated experience or clear commitment to improving the financial capability of young people, such as individuals working with youth-serving organizations; educators and education policy experts; business leaders and employers of young workers; State, tribal, and local government policy makers; financial services providers; and innovators in financial capability. The composition of the Council shall reflect the views of diverse stakeholders.

(c) The Secretary shall invite the Director of the Bureau of Consumer Financial Protection to participate as a member of the Council, to the extent consistent with the Bureau's statutory authorities and legal obligations.

(d) The President shall designate a Chair and a Vice Chair from among the members of the Council appointed pursuant to subsection (a)(i) of this section.

(e) Subject to the direction of the Secretary, the Chair shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to deal with particular subjects, establish and direct the work of subgroups of the Council that shall consist exclusively of members of the Council.

(f) The Vice Chair shall perform:

(i) the duties of the Chair when the position of Chair is vacant; and

(ii) such other functions as the Chair may from time to time assign.

(b) advise the President and the Secretary on means to effectively implement the policy set forth in section 1 of this order, including means to:

(i) build strong public-private partnerships between and among members of the Financial Literacy and Education Commission; other agencies; State, tribal, and local governments; and private entities to coordinate the use of high quality financial capability resources and practices in schools, families, communities, and elsewhere in order to build the financial capability of young Americans;

(iii) effectively assess the financial capability, including both financial knowledge and financial behaviors, of young Americans;

(iv) identify and develop strategies to pilot financial capability approaches in schools and among young people that are likely to have significant effects on young Americans' financial capability, and determine ways to test and implement such innovations in a large-scale and sustainable manner;

(v) identify, develop, and measure the effectiveness of technology-driven approaches to promote financial capability among young people;

(vi) identify and test promising and tested approaches for increasing planning, saving, and investing for retirement by young people; and

(vii) promote the importance of starting to plan and act early for financial success broadly among Americans through public awareness campaigns or other means;

(c) periodically report to the President, through the Secretary, on:

(i) progress made in implementing the policy set forth in section 1 of this order; and

(ii) recommended means to further implement the policy set forth in section 1 of this order, including with respect to the matters set forth in subsection (b) of this section; and
