PROVISIONAL REGISTRATION

For provisional registration of persons engaged in manufacturing, distributing, or dispensing of controlled substances on the day before the effective date of section 822 of this title who are registered on such date under section 360 of this title or section 4722 of Title 26, Internal Revenue Code, see section 703 of Pub. L. 91-513, set out as a note under section 822 of this title.

§ 824. Denial, revocation, or suspension of registration**(a) Grounds**

A registration pursuant to section 823 of this title to manufacture, distribute, or dispense a controlled substance or a list I chemical may be suspended or revoked by the Attorney General upon a finding that the registrant—

(1) has materially falsified any application filed pursuant to or required by this subchapter or subchapter II;

(2) has been convicted of a felony under this subchapter or subchapter II or any other law of the United States, or of any State, relating to any substance defined in this subchapter as a controlled substance or a list I chemical;

(3) has had his State license or registration suspended, revoked, or denied by competent State authority and is no longer authorized by State law to engage in the manufacturing, distribution, or dispensing of controlled substances or list I chemicals or has had the suspension, revocation, or denial of his registration recommended by competent State authority;

(4) has committed such acts as would render his registration under section 823 of this title inconsistent with the public interest as determined under such section; or

(5) has been excluded (or directed to be excluded) from participation in a program pursuant to section 1320a-7(a) of title 42.

A registration pursuant to section 823(g)(1) of this title to dispense a narcotic drug for maintenance treatment or detoxification treatment may be suspended or revoked by the Attorney General upon a finding that the registrant has failed to comply with any standard referred to in section 823(g)(1) of this title.

(b) Limits of revocation or suspension

The Attorney General may limit revocation or suspension of a registration to the particular controlled substance or list I chemical with respect to which grounds for revocation or suspension exist.

(c) Service of show cause order; proceedings

(1) Before taking action pursuant to this section, or pursuant to a denial of registration under section 823 of this title, the Attorney General shall serve upon the applicant or registrant an order to show cause why registration should not be denied, revoked, or suspended.

(2) An order to show cause under paragraph (1) shall—

(A) contain a statement of the basis for the denial, revocation, or suspension, including specific citations to any laws or regulations alleged to be violated by the applicant or registrant;

(B) direct the applicant or registrant to appear before the Attorney General at a time and place stated in the order, but not less than 30 days after the date of receipt of the order; and

(C) notify the applicant or registrant of the opportunity to submit a corrective action plan on or before the date of appearance.

(3) Upon review of any corrective action plan submitted by an applicant or registrant pursuant to paragraph (2), the Attorney General shall

determine whether denial, revocation, or suspension proceedings should be discontinued, or deferred for the purposes of modification, amendment, or clarification to such plan.

(4) Proceedings to deny, revoke, or suspend shall be conducted pursuant to this section in accordance with subchapter II of chapter 5 of title 5. Such proceedings shall be independent of, and not in lieu of, criminal prosecutions or other proceedings under this subchapter or any other law of the United States.

(5) The requirements of this subsection shall not apply to the issuance of an immediate suspension order under subsection (d).

(d) Suspension of registration in cases of imminent danger

(1) The Attorney General may, in his discretion, suspend any registration simultaneously with the institution of proceedings under this section, in cases where he finds that there is an imminent danger to the public health or safety. A failure to comply with a standard referred to in section 823(g)(1) of this title may be treated under this subsection as grounds for immediate suspension of a registration granted under such section. A suspension under this subsection shall continue in effect until the conclusion of such proceedings, including judicial review thereof, unless sooner withdrawn by the Attorney General or dissolved by a court of competent jurisdiction.

(2) In this subsection, the phrase “imminent danger to the public health or safety” means that, due to the failure of the registrant to maintain effective controls against diversion or otherwise comply with the obligations of a registrant under this subchapter or subchapter II, there is a substantial likelihood of an immediate threat that death, serious bodily harm, or abuse of a controlled substance will occur in the absence of an immediate suspension of the registration.

(e) Suspension and revocation of quotas

The suspension or revocation of a registration under this section shall operate to suspend or revoke any quota applicable under section 826 of this title.

(f) Disposition of controlled substances or list I chemicals

In the event the Attorney General suspends or revokes a registration granted under section 823 of this title, all controlled substances or list I chemicals owned or possessed by the registrant pursuant to such registration at the time of suspension or the effective date of the revocation order, as the case may be, may, in the discretion of the Attorney General, be placed under seal. No disposition may be made of any controlled substances or list I chemicals under seal until the time for taking an appeal has elapsed or until all appeals have been concluded except that a court, upon application therefor, may at any time order the sale of perishable controlled substances or list I chemicals. Any such order shall require the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final, all such controlled substances or list I chemicals (or proceeds of sale deposited in

court) shall be forfeited to the United States; and the Attorney General shall dispose of such controlled substances or list I chemicals in accordance with section 881(e) of this title. All right, title, and interest in such controlled substances or list I chemicals shall vest in the United States upon a revocation order becoming final.

(g) Seizure or placement under seal of controlled substances or list I chemicals

The Attorney General may, in his discretion, seize or place under seal any controlled substances or list I chemicals owned or possessed by a registrant whose registration has expired or who has ceased to practice or do business in the manner contemplated by his registration. Such controlled substances or list I chemicals shall be held for the benefit of the registrant, or his successor in interest. The Attorney General shall notify a registrant, or his successor in interest, who has any controlled substance or list I chemical seized or placed under seal of the procedures to be followed to secure the return of the controlled substance or list I chemical and the conditions under which it will be returned. The Attorney General may not dispose of any controlled substance or list I chemical seized or placed under seal under this subsection until the expiration of one hundred and eighty days from the date such substance or chemical was seized or placed under seal.

§ 825. Labeling and packaging

(a) Symbol

It shall be unlawful to distribute a controlled substance in a commercial container unless such container, when and as required by regulations of the Attorney General, bears a label (as defined in section 321(k) of this title) containing an identifying symbol for such substance in accordance with such regulations. A different symbol shall be required for each schedule of controlled substances.

(b) Unlawful distribution without identifying symbol

It shall be unlawful for the manufacturer of any controlled substance to distribute such sub-

stance unless the labeling (as defined in section 321(m) of this title) of such substance contains, when and as required by regulations of the Attorney General, the identifying symbol required under subsection (a).

(c) Warning on label

The Secretary shall prescribe regulations under section 353(b) of this title which shall provide that the label of a drug listed in schedule II, III, or IV shall, when dispensed to or for a patient, contain a clear, concise warning that it is a crime to transfer the drug to any person other than the patient.

(d) Containers to be securely sealed

It shall be unlawful to distribute controlled substances in schedule I or II, and narcotic drugs in schedule III or IV, unless the bottle or other container, stopper, covering, or wrapper thereof is securely sealed as required by regulations of the Attorney General.

AMENDMENTS

2014—Subsec. (e). Pub. L. 113-260 added subsec. (e).

EFFECTIVE DATE

Section effective on first day of seventh calendar month that begins after Oct. 26, 1970, but with Attorney General authorized to postpone such effective date for such period as he might determine to be necessary for the efficient administration of this subchapter, see section 704(c) of Pub. L. 91-513, set out as a note under section 801 of this title.

IDENTIFICATION AND PUBLICATION OF LIST OF PRODUCTS CONTAINING ANABOLIC STEROIDS

Pub. L. 113-260, §4, Dec. 18, 2014, 128 Stat. 2932, provided that:

“(a) IN GENERAL.—The Attorney General may, in the Attorney General’s discretion, collect data and analyze products to determine whether they contain anabolic steroids and are properly labeled in accordance with this Act [see section 1 of Pub. L. 113-260, set out as a Short Title of 2014 Amendment note under section 801 of this title] and the amendments made by this Act. The Attorney General may publish in the Federal Register or on the website of the Drug Enforcement Administration a list of products which the Attorney General has determined, based on substantial evidence, contain an anabolic steroid and are not labeled in accordance with this Act and the amendments made by this Act.

“(b) ABSENCE FROM LIST.—The absence of a product from the list referred to in subsection (a) shall not constitute evidence that the product does not contain an anabolic steroid.”

§ 826. Production quotas for controlled substances

(a) Establishment of total annual needs

The Attorney General shall determine the total quantity and establish production quotas for each basic class of controlled substance in schedules I and II and for ephedrine, pseudoephedrine, and phenylpropanolamine to be manufactured each calendar year to provide for the estimated medical, scientific, research, and industrial needs of the United States, for lawful export requirements, and for the establishment and maintenance of reserve stocks. Production quotas shall be established in terms of quantities of each basic class of controlled substance and not in terms of individual pharmaceutical dosage forms prepared from or containing such a controlled substance.

(b) Individual production quotas; revised quotas

The Attorney General shall limit or reduce individual production quotas to the extent necessary to prevent the aggregate of individual quotas from exceeding the amount determined necessary each year by the Attorney General under subsection (a). The quota of each registered manufacturer for each basic class of controlled substance in schedule I or II or for ephedrine, pseudoephedrine, or phenylpropanolamine shall be revised in the same proportion as the limitation or reduction of the aggregate of the quotas. However, if any registrant, before the issuance of a limitation or reduction in quota, has manufactured in excess of his revised quota, the amount of the excess shall be subtracted from his quota for the following year.

(c) Manufacturing quotas for registered manufacturers

On or before October 1 of each year, upon application therefor by a registered manufacturer, the Attorney General shall fix a manufacturing

quota for the basic classes of controlled substances in schedules I and II and for ephedrine, pseudoephedrine, and phenylpropanolamine that the manufacturer seeks to produce. The quota shall be subject to the provisions of subsections (a) and (b) of this section. In fixing such quotas, the Attorney General shall determine the manufacturer's estimated disposal, inventory, and other requirements for the calendar year; and, in making his determination, the Attorney General shall consider the manufacturer's current rate of disposal, the trend of the national disposal rate during the preceding calendar year, the manufacturer's production cycle and inventory position, the economic availability of raw materials, yield and stability problems, emergencies such as strikes and fires, and other factors.

(d) Quotas for registrants who have not manufactured controlled substance during one or more preceding years

The Attorney General shall, upon application and subject to the provisions of subsections (a) and (b) of this section, fix a quota for a basic class of controlled substance in schedule I or II for any registrant who has not manufactured that basic class of controlled substance or ephedrine, pseudoephedrine, or phenylpropanolamine during one or more preceding calendar years. In fixing such quota, the Attorney General shall take into account the registrant's reasonably anticipated requirements for the current year; and, in making his determination of such requirements, he shall consider such factors specified in subsection (c) of this section as may be relevant.

(e) Quota increases

At any time during the year any registrant who has applied for or received a manufacturing quota for a basic class of controlled substance in schedule I or II or for ephedrine, pseudoephedrine, or phenylpropanolamine may apply for an increase in that quota to meet his estimated disposal, inventory, and other requirements during the remainder of that year. In passing upon the application the Attorney General shall take into consideration any occurrences since the filing of the registrant's initial quota application that may require an increased manufacturing rate by the registrant during the balance of the year. In passing upon the application the Attorney General may also take into account the amount, if any, by which the determination of the Attorney General under subsection (a) of this section exceeds the aggregate of the quotas of all registrants under this section.

(f) Incidental production exception

Notwithstanding any other provisions of this subchapter, no registration or quota may be required for the manufacture of such quantities of controlled substances in schedules I and II or ephedrine, pseudoephedrine, or phenylpropanolamine as incidentally and necessarily result from the manufacturing process used for the manufacture of a controlled substance or of ephedrine, pseudoephedrine, or phenylpropanolamine with respect to which its manufacturer is duly registered under this subchapter. The Attorney

General may, by regulation, prescribe restrictions on the retention and disposal of such incidentally produced substances or chemicals.

(g) Reference to ephedrine, pseudoephedrine, or phenylpropanolamine

Each reference in this section to ephedrine, pseudoephedrine, or phenylpropanolamine includes each of the salts, optical isomers, and salts of optical isomers of such chemical.

(h) Quotas applicable to drugs in shortage

(1) Not later than 30 days after the receipt of a request described in paragraph (2), the Attorney General shall—

(A) complete review of such request; and

(B)(i) as necessary to address a shortage of a controlled substance, increase the aggregate and individual production quotas under this section applicable to such controlled substance and any ingredient therein to the level requested; or

(ii) if the Attorney General determines that the level requested is not necessary to address a shortage of a controlled substance, the Attorney General shall provide a written response detailing the basis for the Attorney General's determination.

The Secretary shall make the written response provided under subparagraph (B)(ii) available to the public on the Internet Web site of the Food and Drug Administration.

(2) A request is described in this paragraph if—

(A) the request pertains to a controlled substance on the list of drugs in shortage maintained under section 356e of this title;

(B) the request is submitted by the manufacturer of the controlled substance; and

(C) the controlled substance is in schedule II.

Except as provided in subsection (c)—

(1) every registrant under this subchapter shall, on May 1, 1971, or as soon thereafter as such registrant first engages in the manufacture, distribution, or dispensing of controlled substances, and every second year thereafter, make a complete and accurate record of all stocks thereof on hand, except that the regulations prescribed under this section shall permit each such biennial inventory (following the initial inventory required by this paragraph) to be prepared on such registrant’s regular general physical inventory date (if any) which is nearest to and does not vary by more than six months from the biennial date that would otherwise apply;

(2) on the effective date of each regulation of the Attorney General controlling a substance that immediately prior to such date was not a controlled substance, each registrant under this subchapter manufacturing, distributing, or dispensing such substance shall make a complete and accurate record of all stocks thereof on hand; and

(b) Availability of records

Every inventory or other record required under this section (1) shall be in accordance with, and contain such relevant information as may be required by, regulations of the Attorney General, (2) shall (A) be maintained separately from all other records of the registrant, or (B) alternatively, in the case of nonnarcotic controlled substances, be in such form that information required by the Attorney General is readily retrievable from the ordinary business records of the registrant, and (3) shall be kept and be available, for at least two years, for inspection and copying by officers or employees of the United States authorized by the Attorney General.

such substances, in research conducted in conformity with an exemption granted under section 355(i) or 360b(j) of this title;

(B) to the use of controlled substances, at establishments registered under this subchapter which keep records with respect to such substances, in preclinical research or in teaching; or

(3) to the extent of any exemption granted to any person, with respect to all or part of such provisions, by the Attorney General by or pursuant to regulation on the basis of a finding that the application of such provisions (or part thereof) to such person is not necessary for carrying out the purposes of this subchapter.

Nothing in the Convention on Psychotropic Substances shall be construed as superseding or otherwise affecting the provisions of paragraph (1)(B), (2), or (3) of this subsection.

(d) Periodic reports to Attorney General

(1) Every manufacturer registered under section 823 of this title shall, at such time or times and in such form as the Attorney General may require, make periodic reports to the Attorney General of every sale, delivery or other disposal by him of any controlled substance, and each distributor shall make such reports with respect to narcotic controlled substances, identifying by the registration number assigned under this subchapter the person or establishment (unless exempt from registration under section 822(d) of this title) to whom such sale, delivery, or other disposal was made.

(2) Each pharmacy with a modified registration under section 823(f) of this title that authorizes the dispensing of controlled substances by means of the Internet shall report to the Attorney General the controlled substances it dispenses, in the amount specified, and in such time and manner as the Attorney General by regulation shall require, except that the Attorney General, under this paragraph, may not require any pharmacy to report any information other than the total quantity of each controlled substance that the pharmacy has dispensed each month. For purposes of this paragraph, no reporting shall be required unless the pharmacy has met 1 of the following thresholds in the month for which the reporting is required:

(A) 100 or more prescriptions dispensed.

(B) 5,000 or more dosage units of all controlled substances combined.

(e) Reporting and recordkeeping requirements of drug conventions

In addition to the reporting and recordkeeping requirements under any other provision of this subchapter, each manufacturer registered under section 823 of this title shall, with respect to narcotic and nonnarcotic controlled substances manufactured by it, make such reports to the Attorney General, and maintain such records, as the Attorney General may require to enable the United States to meet its obligations under articles 19 and 20 of the Single Convention on Narcotic Drugs and article 16 of the Convention on Psychotropic Substances. The Attorney General shall administer the requirements of this subsection in such a manner as to avoid the unnecessary imposition of duplicative requirements

under this subchapter on manufacturers subject to the requirements of this subsection.

(f) Investigational uses of drugs; procedures

Regulations under sections 355(i) and 360(j) of this title, relating to investigational use of drugs, shall include such procedures as the Secretary, after consultation with the Attorney General, determines are necessary to insure the security and accountability of controlled substances used in research to which such regulations apply.

(g) Change of address

Every registrant under this subchapter shall be required to report any change of professional or business address in such manner as the Attorney General shall by regulation require.

(h) Reporting requirements for GHB

In the case of a drug product containing gamma hydroxybutyric acid for which an application has been approved under section 355 of this title, the Attorney General may, in addition to any other requirements that apply under this section with respect to such a drug product, establish any of the following as reporting requirements:

(1) That every person who is registered as a manufacturer of bulk or dosage form, as a packager, repackager, labeler, relabeler, or distributor shall report acquisition and distribution transactions quarterly, not later than the 15th day of the month succeeding the quarter for which the report is submitted, and annually report end-of-year inventories.

(2) That all annual inventory reports shall be filed no later than January 15 of the year following that for which the report is submitted and include data on the stocks of the drug product, drug substance, bulk drug, and dosage forms on hand as of the close of business December 31, indicating whether materials reported are in storage or in process of manufacturing.

(3) That every person who is registered as a manufacturer of bulk or dosage form shall report all manufacturing transactions both inventory increases, including purchases, transfers, and returns, and reductions from inventory, including sales, transfers, theft, destruction, and seizure, and shall provide data on material manufactured, manufactured from other material, use in manufacturing other material, and use in manufacturing dosage forms.

(4) That all reports under this section must include the registered person's registration number as well as the registration numbers, names, and other identifying information of vendors, suppliers, and customers, sufficient to allow the Attorney General to track the receipt and distribution of the drug.

(5) That each dispensing practitioner shall maintain for each prescription the name of the prescribing practitioner, the prescribing practitioner's Federal and State registration numbers, with the expiration dates of these registrations, verification that the prescribing practitioner possesses the appropriate registration to prescribe this controlled substance, the patient's name and address, the

name of the patient's insurance provider and documentation by a medical practitioner licensed and registered to prescribe the drug of the patient's medical need for the drug. Such information shall be available for inspection and copying by the Attorney General.

(6) That section 830(b)(3) of this title (relating to mail order reporting) applies with respect to gamma hydroxybutyric acid to the same extent and in the same manner as such section applies with respect to the chemicals and drug products specified in subparagraph (A)(i) of such section.

(d) Non-prescription drugs with abuse potential

Whenever it appears to the Attorney General that a drug not considered to be a prescription drug under the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 301 et seq.] should be so considered because of its abuse potential, he shall so advise the Secretary and furnish to him all available data relevant thereto.

§ 830. Regulation of listed chemicals and certain machines

(a) Record of regulated transactions

(1) Each regulated person who engages in a regulated transaction involving a listed chemical, a tableting machine, or an encapsulating machine shall keep a record of the transaction for two years after the date of the transaction.

(2) A record under this subsection shall be retrievable and shall include the date of the regulated transaction, the identity of each party to the regulated transaction, a statement of the quantity and form of the listed chemical, a description of the tableting machine or encapsulating machine, and a description of the method of transfer. Such record shall be available for inspection and copying by the Attorney General.

(3) It is the duty of each regulated person who engages in a regulated transaction to identify each other party to the transaction. It is the duty of such other party to present proof of identity to the regulated person. The Attorney General shall specify by regulation the types of documents and other evidence that constitute proof of identity for purposes of this paragraph.

(b) Reports to Attorney General

(1) Each regulated person shall report to the Attorney General, in such form and manner as the Attorney General shall prescribe by regulation—

(A) any regulated transaction involving an extraordinary quantity of a listed chemical, an uncommon method of payment or delivery, or any other circumstance that the regulated person believes may indicate that the listed chemical will be used in violation of this subchapter;

(B) any proposed regulated transaction with a person whose description or other identifying characteristic the Attorney General furnishes in advance to the regulated person;

(C) any unusual or excessive loss or disappearance of a listed chemical under the control of the regulated person; and

(D) any regulated transaction in a tableting machine or an encapsulating machine.

Each report under subparagraph (A) shall be made at the earliest practicable opportunity after the regulated person becomes aware of the circumstance involved. A regulated person may not complete a transaction with a person whose description or identifying characteristic is furnished to the regulated person under subparagraph (B) unless the transaction is approved by the Attorney General. The Attorney General shall make available to regulated persons guidance documents describing transactions and circumstances for which reports are required under subparagraph (A) and subparagraph (C).

(2) A regulated person that manufactures a listed chemical shall report annually to the Attorney General, in such form and manner and containing such specific data as the Attorney General shall prescribe by regulation, information concerning listed chemicals manufactured by the person. (3) MAIL ORDER REPORTING.—(A) As used in this paragraph:

(i) The term “drug product” means an active ingredient in dosage form that has been approved or otherwise may be lawfully marketed under the Food, Drug, and Cosmetic Act¹ [21 U.S.C. 301 et seq.] for distribution in the United States.

(i) involves ephedrine, pseudoephedrine, or phenylpropanolamine (including drug products containing these chemicals); and

(ii) uses or attempts to use the Postal Service or any private or commercial carrier;

shall, on a monthly basis, submit a report of each such transaction conducted during the previous month to the Attorney General in such form, containing such data, and at such times as the Attorney General shall establish by regulation.

(C) The data required for such reports shall include—

(D) Except as provided in subparagraph (E), the following distributions to a nonregulated person, and the following export transactions, shall not be subject to the reporting requirement in subparagraph (B):

(i) Distributions of sample packages of drug products when such packages contain not more than two solid dosage units or the equivalent of two dosage units in liquid form, not to exceed 10 milliliters of liquid per package, and not more than one package is distributed to an individual or residential address in any 30-day period.

(ii) Distributions of drug products by retail distributors that may not include face-to-face transactions to the extent that such distributions are consistent with the activities authorized for a retail distributor as specified in section 802(49) of this title, except that this clause does not apply to sales of scheduled listed chemical products at retail.

(iii) Distributions of drug products to a resident of a long term care facility (as that term is defined in regulations prescribed by the Attorney General) or distributions of drug products to a long term care facility for dispensing to or for use by a resident of that facility.

(E) The Attorney General may revoke any or all of the exemptions listed in subparagraph (D) for an individual regulated person if he finds that drug products distributed by the regulated person are being used in violation of this subchapter or subchapter II. The regulated person shall be notified of the revocation, which will be effective upon receipt by the person of such notice, as provided in section 971(c)(1) of this title, and shall have the right to an expedited hearing as provided in section 971(c)(2) of this title.

(c) Confidentiality of information obtained by Attorney General; non-disclosure; exceptions

(1) Except as provided in paragraph (2), any information obtained by the Attorney General under this section which is exempt from disclosure under section 552(a) of title 5, by reason of section 552(b)(4) of such title, is confidential and may not be disclosed to any person.

(2) Information referred to in paragraph (1) may be disclosed only—

(3) The Attorney General shall—

(A) take such action as may be necessary to prevent unauthorized disclosure of information by any person to whom such information is disclosed under paragraph (2); and

(B) issue guidelines that limit, to the maximum extent feasible, the disclosure of proprietary business information, including the names or identities of United States exporters of listed chemicals, to any person to whom such information is disclosed under paragraph (2).

(4) Any person who is aggrieved by a disclosure of information in violation of this section may bring a civil action against the violator for appropriate relief.

(5) Notwithstanding paragraph (4), a civil action may not be brought under such paragraph against investigative or law enforcement personnel of the Drug Enforcement Administration.

¹ See References in Text note below.

(d) Scheduled listed chemicals; restrictions on sales quantity; requirements regarding non-liquid forms

With respect to ephedrine base, pseudoephedrine base, or phenylpropanolamine base in a scheduled listed chemical product—

(1) the quantity of such base sold at retail in such a product by a regulated seller, or a distributor required to submit reports by subsection (b)(3) may not, for any purchaser, exceed a daily amount of 3.6 grams, without regard to the number of transactions; and

(2) such a seller or distributor may not sell such a product in nonliquid form (including gel caps) at retail unless the product is packaged in blister packs, each blister containing not more than 2 dosage units, or where the use of blister packs is technically infeasible, the product is packaged in unit dose packets or pouches.

(e) Scheduled listed chemicals; behind-the-counter access; logbook requirement; training of sales personnel; privacy protections

(1) Requirements regarding retail transactions

(A) In general

Each regulated seller shall ensure that, subject to subparagraph (F), sales by such seller of a scheduled listed chemical product at retail are made in accordance with the following:

(i) In offering the product for sale, the seller places the product such that customers do not have direct access to the product before the sale is made (in this paragraph referred to as “behind-the-counter” placement). For purposes of this paragraph, a behind-the-counter placement of a product includes circumstances in which the product is stored in a locked cabinet that is located in an area of the facility involved to which customers do have direct access.

(ii) The seller delivers the product directly into the custody of the purchaser.

(iii) The seller maintains, in accordance with criteria issued by the Attorney General, a written or electronic list of such sales that identifies the products by name, the quantity sold, the names and addresses of purchasers, and the dates and times of the sales (which list is referred to in this subsection as the “logbook”), except that such requirement does not apply to any purchase by an individual of a single sales package if that package contains not more than 60 milligrams of pseudoephedrine.

(iv) In the case of a sale to which the requirement of clause (iii) applies, the seller does not sell such a product unless the sale is made in accordance with the following:

(I) The prospective purchaser—

(aa) presents an identification card that provides a photograph and is issued by a State or the Federal Government, or a document that, with respect to identification, is considered acceptable for purposes of sections 274a.2(b)(1)(v)(A) and 274a.2(b)(1)(v)(B) of title 8, Code of Federal Regulations

(as in effect on or after March 9, 2006); and

(bb) signs the written logbook and enters in the logbook his or her name, address, and the date and time of the sale, or for transactions involving an electronic logbook, the purchaser provides a signature using one of the following means:

(AA) Signing a device presented by the seller that captures signatures in an electronic format. Such device shall display the notice described in clause (v). Any device used shall preserve each signature in a manner that clearly links that signature to the other electronically-captured logbook information relating to the prospective purchaser providing that signature.

(BB) Signing a bound paper book. Such bound paper book shall include, for such purchaser, either (aaa) a printed sticker affixed to the bound paper book at the time of sale which either displays the name of each product sold, the quantity sold, the name and address of the purchaser, and the date and time of the sale, or a unique identifier which can be linked to that electronic information, or (bbb) a unique identifier which can be linked to that information and which is written into the book by the seller at the time of sale. The purchaser shall sign adjacent to the printed sticker or written unique identifier related to that sale. Such bound paper book shall display the notice described in clause (v).

(CC) Signing a printed document that includes, for such purchaser, the name of each product sold, the quantity sold, the name and address of the purchaser, and the date and time of the sale. Such document shall be printed by the seller at the time of the sale. Such document shall contain a clearly identified signature line for a purchaser to sign. Such printed document shall display the notice described in clause (v). Each signed document shall be inserted into a binder or other secure means of document storage immediately after the purchaser signs the document.

(II) The seller enters in the logbook the name of the product and the quantity sold. Such information may be captured through electronic means, including through electronic data capture through bar code reader or similar technology.

(III) The logbook maintained by the seller includes the prospective purchaser's name, address, and the date and time of the sale, as follows:

(aa) If the purchaser enters the information, the seller must determine that the name entered in the logbook cor-

responds to the name provided on such identification and that the date and time entered are correct.

(bb) If the seller enters the information, the prospective purchaser must verify that the information is correct.

(cc) Such information may be captured through electronic means, including through electronic data capture through bar code reader or similar technology.

(v) The written or electronic logbook includes, in accordance with criteria of the Attorney General, a notice to purchasers that entering false statements or misrepresentations in the logbook, or supplying false information or identification that results in the entry of false statements or misrepresentations, may subject the purchasers to criminal penalties under section 1001 of title 18, which notice specifies the maximum fine and term of imprisonment under such section.

(vi) Regardless of whether the logbook entry is written or electronic, the seller maintains each entry in the logbook for not fewer than 2 years after the date on which the entry is made.

(vii) In the case of individuals who are responsible for delivering such products into the custody of purchasers or who deal directly with purchasers by obtaining payments for the products, the seller has submitted to the Attorney General a self-certification that all such individuals have, in accordance with criteria under subparagraph (B)(ii), undergone training provided by the seller to ensure that the individuals understand the requirements that apply under this subsection and subsection (d).

(viii) The seller maintains a copy of such certification and records demonstrating that individuals referred to in clause (vii) have undergone the training.

(ix) If the seller is a mobile retail vendor:

(I) The seller complies with clause (i) by placing the product in a locked cabinet.

(B) Additional provisions regarding certifications and training

(i) In general

A regulated seller may not sell any scheduled listed chemical product at retail unless the seller has submitted to the Attorney General the self-certification referred to in subparagraph (A)(vii). The certification is not effective for purposes of the preceding sentence unless, in addition to provisions regarding the training of individuals referred to in such subparagraph, the certification includes a statement that the seller understands each of the requirements that apply under this paragraph and under subsection (d) and agrees to comply with the requirements.

(ii) Issuance of criteria; self-certification

The Attorney General shall by regulation establish criteria for certifications under this paragraph. The criteria shall—

(I) provide that the certifications are self-certifications provided through the program under clause (iii);

(II) provide that a separate certification is required for each place of business at which a regulated seller sells scheduled listed chemical products at retail; and

(III) include criteria for training under subparagraph (A)(vii).

(iii) Program for regulated sellers

The Attorney General shall establish a program regarding such certifications and training in accordance with the following:

(I) The program shall be carried out through an Internet site of the Department of Justice and such other means as the Attorney General determines to be appropriate.

(II) The program shall inform regulated sellers that section 1001 of title 18 applies to such certifications.

(III) The program shall make available to such sellers an explanation of the criteria under clause (ii).

(IV) The program shall be designed to permit the submission of the certifications through such Internet site.

(V) The program shall be designed to automatically provide the explanation referred to in subclause (III), and an acknowledgement that the Department has received a certification, without requiring direct interactions of regulated sellers with staff of the Department (other than the provision of technical assistance, as appropriate).

(iv) Availability of certification to State and local officials

Promptly after receiving a certification under subparagraph (A)(vii), the Attorney General shall make available a copy of the certification to the appropriate State and local officials.

(v) Publication of list of self-certified persons

The Attorney General shall develop and make available a list of all persons who are currently self-certified in accordance with this section. This list shall be made publicly available on the website of the Drug Enforcement Administration in an electronically downloadable format.

(C) Privacy protections

In order to protect the privacy of individuals who purchase scheduled listed chemical products, the Attorney General shall by regulation establish restrictions on disclosure of information in logbooks under subparagraph (A)(iii). Such regulations shall—

(i) provide for the disclosure of the information as appropriate to the Attorney General and to State and local law enforcement agencies; and

(ii) prohibit accessing, using, or sharing information in the logbooks for any purpose other than to ensure compliance with this subchapter or to facilitate a product recall to protect public health and safety.

(D) False statements or misrepresentations by purchasers

For purposes of section 1001 of title 18, entering information in the logbook under subparagraph (A)(iii) shall be considered a matter within the jurisdiction of the executive, legislative, or judicial branch of the Government of the United States.

(E) Good faith protection

A regulated seller who in good faith releases information in a logbook under subparagraph (A)(iii) to Federal, State, or local law enforcement authorities is immune from civil liability for such release unless the release constitutes gross negligence or intentional, wanton, or willful misconduct.

(F) Inapplicability of requirements to certain sales

Subparagraph (A) does not apply to the sale at retail of a scheduled listed chemical product if a report on the sales transaction is required to be submitted to the Attorney General under subsection (b)(3).

(G) Certain measures regarding theft and diversion

A regulated seller may take reasonable measures to guard against employing individuals who may present a risk with respect to the theft and diversion of scheduled listed chemical products, which may include, notwithstanding State law, asking applicants for employment whether they have been convicted of any crime involving or related to such products or controlled substances.

(2) Mail-order reporting; verification of identity of purchaser; 30-day restriction on quantities for individual purchasers

Each regulated person who makes a sale at retail of a scheduled listed chemical product and is required under subsection (b)(3) to submit a report of the sales transaction to the Attorney General is subject to the following:

(A) The person shall, prior to shipping the product, confirm the identity of the purchaser in accordance with procedures established by the Attorney General. The Attorney General shall by regulation establish such procedures.

(B) The person may not sell more than 7.5 grams of ephedrine base, pseudoephedrine base, or phenylpropanolamine base in such products per customer during a 30-day period.

(C) Each regulated person who makes a sale at retail of a scheduled listed chemical product and is required under subsection (b)(3) to submit a report of the sales transaction to the Attorney General may not sell any scheduled listed chemical product at retail unless such regulated person has submitted to the Attorney General a self-certification including a statement that the seller understands each of the requirements

that apply under this paragraph and under subsection (d) and agrees to comply with the requirements. The Attorney General shall by regulation establish criteria for certifications of mail-order distributors that are consistent with the criteria established for the certifications of regulated sellers under paragraph (1)(B).

(3) Exemptions for certain products

Upon the application of a manufacturer of a scheduled listed chemical product, the Attorney General may by regulation provide that the product is exempt from the provisions of subsection (d) and paragraphs (1) and (2) of this subsection if the Attorney General determines that the product cannot be used in the illicit manufacture of methamphetamine.

§ 844a. Civil penalty for possession of small amounts of certain controlled substances

(a) In general

Any individual who knowingly possesses a controlled substance that is listed in section 841(b)(1)(A) of this title in violation of section 844 of this title in an amount that, as specified by regulation of the Attorney General, is a personal use amount shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each such violation.

(b) Income and net assets

The income and net assets of an individual shall not be relevant to the determination whether to assess a civil penalty under this section or to prosecute the individual criminally. However, in determining the amount of a penalty under this section, the income and net assets of an individual shall be considered.

(c) Prior conviction

A civil penalty may not be assessed under this section if the individual previously was convicted of a Federal or State offense relating to a controlled substance.

(d) Limitation on number of assessments

A civil penalty may not be assessed on an individual under this section on more than two separate occasions.

(e) Assessment

A civil penalty under this section may be assessed by the Attorney General only by an order made on the record after opportunity for a hearing in accordance with section 554 of title 5. The Attorney General shall provide written notice to the individual who is the subject of the proposed order informing the individual of the opportunity to receive such a hearing with respect to the proposed order. The hearing may be held only if the individual makes a request for the hearing before the expiration of the 30-day period beginning on the date such notice is issued.

(f) Compromise

The Attorney General may compromise, modify, or remit, with or without conditions, any civil penalty imposed under this section.

In such action, the law and the facts of the violation and the assessment of the civil penalty shall be determined de novo, and shall include the right of a trial by jury, the right to counsel, and the right to confront witnesses. The facts of the violation shall be proved beyond a reasonable doubt.

(h) Civil action

If an individual does not request a hearing pursuant to subsection (e) and the Attorney General issues an order pursuant to such subsection, or if an individual does not under subsection (g) seek judicial review of such an order, the Attorney General may commence a civil action in any appropriate district court of the United States for the purpose of recovering the amount assessed and an amount representing interest at a rate computed in accordance with section 1961 of title 28. Such interest shall accrue from the expiration of the 30-day period described in subsection (g). In such an action, the decision of the Attorney General to issue the order, and the amount of the penalty assessed by the Attorney General, shall not be subject to review.

(i) Limitation

The Attorney General may not under this subsection¹ commence proceeding against an individual after the expiration of the 5-year period beginning on the date on which the individual allegedly violated subsection (a).

(j) Expungement procedures

The Attorney General shall dismiss the proceedings under this section against an individual upon application of such individual at any time after the expiration of 3 years if—

- (3) the individual has complied with any conditions imposed by the Attorney General;
- (4) the individual has not been convicted of a Federal or State offense relating to a controlled substance; and
- (5) the individual agrees to submit to a drug test, and such test shows the individual to be drug free.

A nonpublic record of a disposition under this subsection shall be retained by the Department of Justice solely for the purpose of determining in any subsequent proceeding whether the person qualified for a civil penalty or expungement under this section. If a record is expunged under this subsection, an individual concerning whom such an expungement has been made shall not be held thereafter under any provision of law to be guilty of perjury, false swearing, or making a false statement by reason of his failure to recite

§ 851. Proceedings to establish prior convictions

(a) Information filed by United States Attorney

(1) No person who stands convicted of an offense under this part shall be sentenced to increased punishment by reason of one or more prior convictions, unless before trial, or before entry of a plea of guilty, the United States attorney files an information with the court (and serves a copy of such information on the person or counsel for the person) stating in writing the previous convictions to be relied upon. Upon a showing by the United States attorney that facts regarding prior convictions could not with due diligence be obtained prior to trial or before entry of a plea of guilty, the court may postpone the trial or the taking of the plea of guilty for

¹ So in original. Probably should refer to subsection (c).

² So in original. Probably should refer to subsection (b).

³ See References in Text note below.

a reasonable period for the purpose of obtaining such facts. Clerical mistakes in the information may be amended at any time prior to the pronouncement of sentence.

(2) An information may not be filed under this section if the increased punishment which may be imposed is imprisonment for a term in excess of three years unless the person either waived or was afforded prosecution by indictment for the offense for which such increased punishment may be imposed.

(b) Affirmation or denial of previous conviction

If the United States attorney files an information under this section, the court shall after conviction but before pronouncement of sentence inquire of the person with respect to whom the information was filed whether he affirms or denies that he has been previously convicted as alleged in the information, and shall inform him that any challenge to a prior conviction which is not made before sentence is imposed may not thereafter be raised to attack the sentence.

(c) Denial; written response; hearing

(1) If the person denies any allegation of the information of prior conviction, or claims that any conviction alleged is invalid, he shall file a written response to the information. A copy of the response shall be served upon the United States attorney. The court shall hold a hearing to determine any issues raised by the response which would except the person from increased punishment. The failure of the United States attorney to include in the information the complete criminal record of the person or any facts in addition to the convictions to be relied upon shall not constitute grounds for invalidating the notice given in the information required by subsection (a)(1). The hearing shall be before the court without a jury and either party may introduce evidence. Except as otherwise provided in paragraph (2) of this subsection, the United States attorney shall have the burden of proof beyond a reasonable doubt on any issue of fact. At the request of either party, the court shall enter findings of fact and conclusions of law.

(2) A person claiming that a conviction alleged in the information was obtained in violation of the Constitution of the United States shall set forth his claim, and the factual basis therefor, with particularity in his response to the information. The person shall have the burden of proof by a preponderance of the evidence on any issue of fact raised by the response. Any challenge to a prior conviction, not raised by response to the information before an increased sentence is imposed in reliance thereon, shall be waived unless good cause be shown for failure to make a timely challenge.

(d) Imposition of sentence

(1) If the person files no response to the information, or if the court determines, after hearing, that the person is subject to increased punishment by reason of prior convictions, the court shall proceed to impose sentence upon him as provided by this part.

(2) If the court determines that the person has not been convicted as alleged in the information, that a conviction alleged in the informa-

tion is invalid, or that the person is otherwise not subject to an increased sentence as a matter of law, the court shall, at the request of the United States attorney, postpone sentence to allow an appeal from that determination. If no such request is made, the court shall impose sentence as provided by this part. The person may appeal from an order postponing sentence as if sentence had been pronounced and a final judgment of conviction entered.

(e) Statute of limitations

No person who stands convicted of an offense under this part may challenge the validity of any prior conviction alleged under this section which occurred more than five years before the date of the information alleging such prior conviction.

(Pub. L. 91-513, title II, §411, Oct. 27, 1970, 84 Stat. 1269.)

§ 852. Application of treaties and other international agreements

Nothing in the Single Convention on Narcotic Drugs, the Convention on Psychotropic Substances, or other treaties or international agreements shall be construed to limit the provision of treatment, education, or rehabilitation as alternatives to conviction or criminal penalty for offenses involving any drug or other substance subject to control under any such treaty or agreement.

(Pub. L. 91-513, title II, §412, as added Pub. L. 95-633, title I, §107(a), Nov. 10, 1978, 92 Stat. 3773.)

EFFECTIVE DATE

Section effective on date the Convention on Psychotropic Substances enters into force in the United States [July 15, 1980], see section 112 of Pub. L. 95-633, set out as a note under section 801a of this title.

§ 853. Criminal forfeitures

(a) Property subject to criminal forfeiture

Any person convicted of a violation of this subchapter or subchapter II punishable by imprisonment for more than one year shall forfeit to the United States, irrespective of any provision of State law—

(1) any property constituting, or derived from, any proceeds the person obtained, directly or indirectly, as the result of such violation;

(2) any of the person's property used, or intended to be used, in any manner or part, to commit, or to facilitate the commission of, such violation; and

(3) in the case of a person convicted of engaging in a continuing criminal enterprise in violation of section 848 of this title, the person shall forfeit, in addition to any property described in paragraph (1) or (2), any of his interest in, claims against, and property or contractual rights affording a source of control over, the continuing criminal enterprise.

The court, in imposing sentence on such person, shall order, in addition to any other sentence imposed pursuant to this subchapter or subchapter II, that the person forfeit to the United States all property described in this subsection.

In lieu of a fine otherwise authorized by this part, a defendant who derives profits or other proceeds from an offense may be fined not more than twice the gross profits or other proceeds.

(b) Meaning of term “property”

Property subject to criminal forfeiture under this section includes—

- (1) real property, including things growing on, affixed to, and found in land; and
- (2) tangible and intangible personal property, including rights, privileges, interests, claims, and securities.

(c) Third party transfers

All right, title, and interest in property described in subsection (a) vests in the United States upon the commission of the act giving rise to forfeiture under this section. Any such property that is subsequently transferred to a person other than the defendant may be the subject of a special verdict of forfeiture and thereafter shall be ordered forfeited to the United States, unless the transferee establishes in a hearing pursuant to subsection (n) that he is a bona fide purchaser for value of such property who at the time of purchase was reasonably without cause to believe that the property was subject to forfeiture under this section.

(d) Rebuttable presumption

There is a rebuttable presumption at trial that any property of a person convicted of a felony under this subchapter or subchapter II is subject to forfeiture under this section if the United States establishes by a preponderance of the evidence that—

- (1) such property was acquired by such person during the period of the violation of this subchapter or subchapter II or within a reasonable time after such period; and
- (2) there was no likely source for such property other than the violation of this subchapter or subchapter II.

(e) Protective orders

(1) Upon application of the United States, the court may enter a restraining order or injunction, require the execution of a satisfactory performance bond, or take any other action to preserve the availability of property described in subsection (a) for forfeiture under this section—

(A) upon the filing of an indictment or information charging a violation of this subchapter or subchapter II for which criminal forfeiture may be ordered under this section and alleging that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section; or

(B) prior to the filing of such an indictment or information, if, after notice to persons appearing to have an interest in the property and opportunity for a hearing, the court determines that—

- (i) there is a substantial probability that the United States will prevail on the issue of forfeiture and that failure to enter the order will result in the property being destroyed, removed from the jurisdiction of the court, or otherwise made unavailable for forfeiture; and

- (ii) the need to preserve the availability of the property through the entry of the requested order outweighs the hardship on any party against whom the order is to be entered:

Provided, however, That an order entered pursuant to subparagraph (B) shall be effective for not more than ninety days, unless extended by the court for good cause shown or unless an indictment or information described in subparagraph (A) has been filed.

(2) A temporary restraining order under this subsection may be entered upon application of the United States without notice or opportunity for a hearing when an information or indictment has not yet been filed with respect to the property, if the United States demonstrates that there is probable cause to believe that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section and that provision of notice will jeopardize the availability of the property for forfeiture. Such a temporary order shall expire not more than fourteen days after the date on which it is entered, unless extended for good cause shown or unless the party against whom it is entered consents to an extension for a longer period. A hearing requested concerning an order entered under this paragraph shall be held at the earliest possible time and prior to the expiration of the temporary order.

(3) The court may receive and consider, at a hearing held pursuant to this subsection, evidence and information that would be inadmissible under the Federal Rules of Evidence.

(4) ORDER TO REPATRIATE AND DEPOSIT.—

(A) IN GENERAL.—Pursuant to its authority to enter a pretrial restraining order under this section, the court may order a defendant to repatriate any property that may be seized and forfeited, and to deposit that property pending trial in the registry of the court, or with the United States Marshals Service or the Secretary of the Treasury, in an interest-bearing account, if appropriate.

(B) FAILURE TO COMPLY.—Failure to comply with an order under this subsection, or an order to repatriate property under subsection (p), shall be punishable as a civil or criminal contempt of court, and may also result in an enhancement of the sentence of the defendant under the obstruction of justice provision of the Federal Sentencing Guidelines.

(f) Warrant of seizure

The Government may request the issuance of a warrant authorizing the seizure of property subject to forfeiture under this section in the same manner as provided for a search warrant. If the court determines that there is probable cause to believe that the property to be seized would, in the event of conviction, be subject to forfeiture and that an order under subsection (e) may not be sufficient to assure the availability of the property for forfeiture, the court shall issue a warrant authorizing the seizure of such property.

(g) Execution

Upon entry of an order of forfeiture under this section, the court shall authorize the Attorney

General to seize all property ordered forfeited upon such terms and conditions as the court shall deem proper. Following entry of an order declaring the property forfeited, the court may, upon application of the United States, enter such appropriate restraining orders or injunctions, require the execution of satisfactory performance bonds, appoint receivers, conservators, appraisers, accountants, or trustees, or take any other action to protect the interest of the United States in the property ordered forfeited. Any income accruing to or derived from property ordered forfeited under this section may be used to offset ordinary and necessary expenses to the property which are required by law, or which are necessary to protect the interests of the United States or third parties.

(h) Disposition of property

Following the seizure of property ordered forfeited under this section, the Attorney General shall direct the disposition of the property by sale or any other commercially feasible means, making due provision for the rights of any innocent persons. Any property right or interest not exercisable by, or transferable for value to, the United States shall expire and shall not revert to the defendant, nor shall the defendant or any person acting in concert with him or on his behalf be eligible to purchase forfeited property at any sale held by the United States. Upon application of a person, other than the defendant or a person acting in concert with him or on his behalf, the court may restrain or stay the sale or disposition of the property pending the conclusion of any appeal of the criminal case giving rise to the forfeiture, if the applicant demonstrates that proceeding with the sale or disposition of the property will result in irreparable injury, harm, or loss to him.

(i) Authority of the Attorney General

With respect to property ordered forfeited under this section, the Attorney General is authorized to—

(1) grant petitions for mitigation or remission of forfeiture, restore forfeited property to victims of a violation of this subchapter, or take any other action to protect the rights of innocent persons which is in the interest of justice and which is not inconsistent with the provisions of this section;

(2) compromise claims arising under this section;

(3) award compensation to persons providing information resulting in a forfeiture under this section;

(4) direct the disposition by the United States, in accordance with the provisions of section 881(e) of this title, of all property ordered forfeited under this section by public sale or any other commercially feasible means, making due provision for the rights of innocent persons; and

(5) take appropriate measures necessary to safeguard and maintain property ordered forfeited under this section pending its disposition.

(j) Applicability of civil forfeiture provisions

Except to the extent that they are inconsistent with the provisions of this section, the pro-

visions of section 881(d) of this title shall apply to a criminal forfeiture under this section.

(k) Bar on intervention

Except as provided in subsection (n), no party claiming an interest in property subject to forfeiture under this section may—

(1) intervene in a trial or appeal of a criminal case involving the forfeiture of such property under this section; or

(2) commence an action at law or equity against the United States concerning the validity of his alleged interest in the property subsequent to the filing of an indictment or information alleging that the property is subject to forfeiture under this section.

(l) Jurisdiction to enter orders

The district courts of the United States shall have jurisdiction to enter orders as provided in this section without regard to the location of any property which may be subject to forfeiture under this section or which has been ordered forfeited under this section.

(m) Depositions

In order to facilitate the identification and location of property declared forfeited and to facilitate the disposition of petitions for remission or mitigation of forfeiture, after the entry of an order declaring property forfeited to the United States, the court may, upon application of the United States, order that the testimony of any witness relating to the property forfeited be taken by deposition and that any designated book, paper, document, record, recording, or other material not privileged be produced at the same time and place, in the same manner as provided for the taking of depositions under Rule 15 of the Federal Rules of Criminal Procedure.

(n) Third party interests

(1) Following the entry of an order of forfeiture under this section, the United States shall publish notice of the order and of its intent to dispose of the property in such manner as the Attorney General may direct. The Government may also, to the extent practicable, provide direct written notice to any person known to have alleged an interest in the property that is the subject of the order of forfeiture as a substitute for published notice as to those persons so notified.

(2) Any person, other than the defendant, asserting a legal interest in property which has been ordered forfeited to the United States pursuant to this section may, within thirty days of the final publication of notice or his receipt of notice under paragraph (1), whichever is earlier, petition the court for a hearing to adjudicate the validity of his alleged interest in the property. The hearing shall be held before the court alone, without a jury.

(3) The petition shall be signed by the petitioner under penalty of perjury and shall set forth the nature and extent of the petitioner's right, title, or interest in the property, the time and circumstances of the petitioner's acquisition of the right, title, or interest in the property, any additional facts supporting the petitioner's claim, and the relief sought.

(4) The hearing on the petition shall, to the extent practicable and consistent with the inter-

ests of justice, be held within thirty days of the filing of the petition. The court may consolidate the hearing on the petition with a hearing on any other petition filed by a person other than the defendant under this subsection.

(5) At the hearing, the petitioner may testify and present evidence and witnesses on his own behalf, and cross-examine witnesses who appear at the hearing. The United States may present evidence and witnesses in rebuttal and in defense of its claim to the property and cross-examine witnesses who appear at the hearing. In addition to testimony and evidence presented at the hearing, the court shall consider the relevant portions of the record of the criminal case which resulted in the order of forfeiture.

(6) If, after the hearing, the court determines that the petitioner has established by a preponderance of the evidence that—

(A) the petitioner has a legal right, title, or interest in the property, and such right, title, or interest renders the order of forfeiture invalid in whole or in part because the right, title, or interest was vested in the petitioner rather than the defendant or was superior to any right, title, or interest of the defendant at the time of the commission of the acts which gave rise to the forfeiture of the property under this section; or

(B) the petitioner is a bona fide purchaser for value of the right, title, or interest in the property and was at the time of purchase reasonably without cause to believe that the property was subject to forfeiture under this section;

the court shall amend the order of forfeiture in accordance with its determination.

(7) Following the court's disposition of all petitions filed under this subsection, or if no such petitions are filed following the expiration of the period provided in paragraph (2) for the filing of such petitions, the United States shall have clear title to property that is the subject of the order of forfeiture and may warrant good title to any subsequent purchaser or transferee.

(o) Construction

The provisions of this section shall be liberally construed to effectuate its remedial purposes.

(p) Forfeiture of substitute property

(1) In general

Paragraph (2) of this subsection shall apply, if any property described in subsection (a), as a result of any act or omission of the defendant—

(A) cannot be located upon the exercise of due diligence;

(B) has been transferred or sold to, or deposited with, a third party;

(C) has been placed beyond the jurisdiction of the court;

(D) has been substantially diminished in value; or

(E) has been commingled with other property which cannot be divided without difficulty.

(2) Substitute property

In any case described in any of subparagraphs (A) through (E) of paragraph (1), the

court shall order the forfeiture of any other property of the defendant, up to the value of any property described in subparagraphs (A) through (E) of paragraph (1), as applicable.

(3) Return of property to jurisdiction

In the case of property described in paragraph (1)(C), the court may, in addition to any other action authorized by this subsection, order the defendant to return the property to the jurisdiction of the court so that the property may be seized and forfeited.

(q) Restitution for cleanup of clandestine laboratory sites

The court, when sentencing a defendant convicted of an offense under this subchapter or subchapter II involving the manufacture, the possession, or the possession with intent to distribute, of amphetamine or methamphetamine, shall—

(1) order restitution as provided in sections 3612 and 3664 of title 18;

(2) order the defendant to reimburse the United States, the State or local government concerned, or both the United States and the State or local government concerned for the costs incurred by the United States or the State or local government concerned, as the case may be, for the cleanup associated with the manufacture of amphetamine or methamphetamine by the defendant, or on premises or in property that the defendant owns, resides, or does business in; and

(3) order restitution to any person injured as a result of the offense as provided in section 3663A of title 18.

§ 880. Administrative inspections and warrants

(a) “Controlled premises” defined

As used in this section, the term “controlled premises” means—

- (1) places where original or other records or documents required under this subchapter are kept or required to be kept, and
- (2) places, including factories, warehouses, and other establishments, and conveyances, where persons registered under section 823 of this title (or exempt from registration under section 822(d) of this title or by regulation of the Attorney General) or regulated persons may lawfully hold, manufacture, distribute, dispense, administer, or otherwise dispose of controlled substances or listed chemicals or where records relating to those activities are maintained.

(b) Grant of authority; scope of inspections

(1) For the purpose of inspecting, copying, and verifying the correctness of records, reports, or other documents required to be kept or made under this subchapter and otherwise facilitating the carrying out of his functions under this subchapter, the Attorney General is authorized, in accordance with this section, to enter controlled premises and to conduct administrative inspections thereof, and of the things specified in this section, relevant to those functions.

(2) Such entries and inspections shall be carried out through officers or employees (hereinafter referred to as “inspectors”) designated by the Attorney General. Any such inspector, upon stating his purpose and presenting to the owner, operator, or agent in charge of such premises (A) appropriate credentials and (B) a written notice of his inspection authority (which notice in the case of an inspection requiring, or in fact supported by, an administrative inspection warrant shall consist of such warrant), shall have the right to enter such premises and conduct such inspection at reasonable times.

(3) Except as may otherwise be indicated in an applicable inspection warrant, the inspector shall have the right—

- (A) to inspect and copy records, reports, and other documents required to be kept or made under this subchapter;
- (B) to inspect, within reasonable limits and in a reasonable manner, controlled premises and all pertinent equipment, finished and unfinished drugs, listed chemicals, and other substances or materials, containers, and label-

ing found therein, and, except as provided in paragraph (4) of this subsection, all other things therein (including records, files, papers, processes, controls, and facilities) appropriate for verification of the records, reports, and documents referred to in clause (A) or otherwise bearing on the provisions of this subchapter; and

(C) to inventory any stock of any controlled substance or listed chemical therein and obtain samples of any such substance or chemical.

(4) Except when the owner, operator, or agent in charge of the controlled premises so consents in writing, no inspection authorized by this section shall extend to—

(A) financial data;

(B) sales data other than shipment data; or

(C) pricing data.

(c) Situations not requiring warrants

A warrant under this section shall not be required for the inspection of books and records pursuant to an administrative subpoena issued in accordance with section 876 of this title, nor for entries and administrative inspections (including seizures of property)—

(1) with the consent of the owner, operator, or agent in charge of the controlled premises;

(2) in situations presenting imminent danger to health or safety;

(3) in situations involving inspection of conveyances where there is reasonable cause to believe that the mobility of the conveyance makes it impracticable to obtain a warrant;

(4) in any other exceptional or emergency circumstance where time or opportunity to apply for a warrant is lacking; or

(5) in any other situations where a warrant is not constitutionally required.

(d) Administrative inspection warrants; issuance; execution; probable cause

Issuance and execution of administrative inspection warrants shall be as follows:

(1) Any judge of the United States or of a State court of record, or any United States magistrate judge, may, within his territorial jurisdiction, and upon proper oath or affirmation showing probable cause, issue warrants for the purpose of conducting administrative inspections authorized by this subchapter or regulations thereunder, and seizures of property appropriate to such inspections. For the purposes of this section, the term “probable cause” means a valid public interest in the effective enforcement of this subchapter or regulations thereunder sufficient to justify administrative inspections of the area, premises, building, or conveyance, or contents thereof, in the circumstances specified in the application for the warrant.

(2) A warrant shall issue only upon an affidavit of an officer or employee having knowledge of the facts alleged, sworn to before the judge or magistrate judge and establishing the grounds for issuing the warrant. If the judge or magistrate judge is satisfied that grounds for the application exist or that there is probable cause to believe they exist, he shall issue a warrant identifying the area, premises,

building, or conveyance to be inspected, the purpose of such inspection, and, where appropriate, the type of property to be inspected, if any. The warrant shall identify the items or types of property to be seized, if any. The warrant shall be directed to a person authorized under subsection (b)(2) to execute it. The warrant shall state the grounds for its issuance and the name of the person or persons whose affidavit has been taken in support thereof. It shall command the person to whom it is directed to inspect the area, premises, building, or conveyance identified for the purpose specified, and, where appropriate, shall direct the seizure of the property specified. The warrant shall direct that it be served during normal business hours. It shall designate the judge or magistrate judge to whom it shall be returned.

(3) A warrant issued pursuant to this section must be executed and returned within ten days of its date unless, upon a showing by the United States of a need therefor, the judge or magistrate judge allows additional time in the warrant. If property is seized pursuant to a warrant, the person executing the warrant shall give to the person from whom or from whose premises the property was taken a copy of the warrant and a receipt for the property taken or shall leave the copy and receipt at the place from which the property was taken. The return of the warrant shall be made promptly and shall be accompanied by a written inventory of any property taken. The inventory shall be made in the presence of the person executing the warrant and of the person from whose possession or premises the property was taken, if they are present, or in the presence of at least one credible person other than the person making such inventory, and shall be verified by the person executing the warrant. The judge or magistrate judge, upon request, shall deliver a copy of the inventory to the person from whom or from whose premises the property was taken and the applicant for the warrant.

(4) The judge or magistrate judge who has issued a warrant under this section shall attach to the warrant a copy of the return and all papers filed in connection therewith and shall file them with the clerk of the district court of the United States for the judicial district in which the inspection was made.

§ 958. Registration requirements

(a) Applicants to import or export controlled substances in schedule I or II

The Attorney General shall register an applicant to import or export a controlled substance in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on May 1, 1971. In determining the public interest, the factors enumerated in paragraph (1) through (6) of section 823(a) of this title shall be considered.

(b) Activity limited to specified substances

Registration granted under this section shall not entitle a registrant to import or export controlled substances other than specified in the registration.

(c) Applicants to import controlled substances in schedule III, IV, or V or to export controlled substances in schedule III or IV; applicants to import or export list I chemicals

(1) The Attorney General shall register an applicant to import a controlled substance in schedule III, IV, or V or to export a controlled substance in schedule III or IV, unless he determines that the issuance of such registration is inconsistent with the public interest. In determining the public interest, the factors enumerated in paragraphs (1) through (6) of section 823(d) of this title shall be considered.

(2)(A) The Attorney General shall register an applicant to import or export a list I chemical unless the Attorney General determines that registration of the applicant is inconsistent with the public interest. Registration under this subsection shall not be required for the import or export of a drug product that is exempted under section 802(39)(A)(iv) of this title.

(B) In determining the public interest for the purposes of subparagraph (A), the Attorney General shall consider the factors specified in section 823(h) of this title.

(d) Denial of application

(1) The Attorney General may deny an application for registration under subsection (a) if he is unable to determine that such registration is consistent with the public interest (as defined in subsection (a)) and with the United States obligations under international treaties, conventions, or protocols in effect on May 1, 1971.

(2) The Attorney General may deny an application for registration under subsection (c), or revoke or suspend a registration under subsection (a) or (c), if he determines that such registration is inconsistent with the public interest (as defined in subsection (a) or (c)) or with the United States obligations under international treaties, conventions, or protocols in effect on May 1, 1971.

(3) The Attorney General may limit the revocation or suspension of a registration to the particular controlled substance, or substances, or list I chemical or chemicals, with respect to which grounds for revocation or suspension exist.

(4) Before taking action pursuant to this subsection, the Attorney General shall serve upon the applicant or registrant an order to show cause as to why the registration should not be denied, revoked, or suspended. The order to show cause shall contain a statement of the basis thereof and shall call upon the applicant or registrant to appear before the Attorney General, or his designee, at a time and place stated in the order, but in no event less than thirty days after the date of receipt of the order. Proceedings to deny, revoke, or suspend shall be conducted pursuant to this subsection in accordance with subchapter II of chapter 5 of title 5. Such proceedings shall be independent of, and not in lieu of, criminal prosecutions or other proceedings under this subchapter or any other law of the United States.

(5) The Attorney General may, in his discretion, suspend any registration simultaneously with the institution of proceedings under this subsection, in cases where he finds that there is an imminent danger to the public health and safety. Such suspension shall continue in effect until the conclusion of such proceedings, including judicial review thereof, unless sooner withdrawn by the Attorney General or dissolved by a court of competent jurisdiction.

(6) In the event that the Attorney General suspends or revokes a registration granted under this section, all controlled substances or list I chemicals owned or possessed by the registrant pursuant to such registration at the time of suspension or the effective date of the revocation order, as the case may be, may, in the discretion of the Attorney General, be seized or placed under seal. No disposition may be made of any controlled substances or list I chemicals under seal until the time for taking an appeal has elapsed or until all appeals have been concluded, except that a court, upon application therefor, may at any time order the sale of perishable controlled substances or list I chemicals. Any such order shall require the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final, all such controlled substances or list I chemicals (or proceeds of the sale thereof which have been deposited with the court) shall be forfeited to the United States; and the Attorney General shall dispose of such controlled substances or list I chemicals in accordance with section 881(e) of this title.

(h) Separate registrations for each principal place of business

A separate registration shall be required at each principal place of business where the applicant imports or exports controlled substances or list I chemicals.

(i) Emergency situations

Except in emergency situations as described in section 952(a)(2)(A) of this title, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedule I or II, and prior to issuing a regulation under section 952(a) of this title authorizing the importation of such a substance, the Attorney General shall give manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

§ 971. Notification, suspension of shipment, and penalties with respect to importation and exportation of listed chemicals

(a) Notification prior to transaction

Each regulated person who imports or exports a listed chemical shall notify the Attorney General of the importation or exportation not later than 15 days before the transaction is to take place.

(b) Regular customers or importers

(1) The Attorney General shall provide by regulation for circumstances in which the requirement of subsection (a) does not apply to a transaction between a regulated person and a regular customer or to a transaction that is an importation by a regular importer. At the time of any importation or exportation constituting a transaction referred to in the preceding sentence, the regulated person shall notify the Attorney General of the transaction.

(2) The regulations under this subsection shall provide that the initial notification under subsection (a) with respect to a customer of a regulated person or to an importer shall, upon the expiration of the 15-day period, qualify the customer as a regular customer or the importer as a regular importer, unless the Attorney General otherwise notifies the regulated person in writing.

(c) Suspension of importation or exportation; disqualification of regular customers or importers; hearing

(1) The Attorney General may order the suspension of any importation or exportation of a listed chemical (other than a regulated transaction to which the requirement of subsection (a) does not apply by reason of subsection (b)) or may disqualify any regular customer or regular importer on the ground that the chemical may be diverted to the clandestine manufacture of a controlled substance (without regard to the form of the chemical that may be diverted, including the diversion of a finished drug product to be manufactured from bulk chemicals to be transferred). From and after the time when the Attorney General provides written notice of the order (including a statement of the legal and factual basis for the order) to the regulated person, the regulated person may not carry out the transaction.

(2) Upon written request to the Attorney General, a regulated person to whom an order applies under paragraph (1) is entitled to an agency hearing on the record in accordance with subchapter II of chapter 5 of title 5. The hearing shall be held on an expedited basis and not later than 45 days after the request is made, except that the hearing may be held at a later time, if so requested by the regulated person.

(d) Information required in notice; updated notice for change in circumstances

(1)(A) Information provided in a notice under subsection (a) or (b) shall include the name of the person to whom the importer or exporter involved intends to transfer the listed chemical involved, and the quantity of such chemical to be transferred.

(B) In the case of a notice under subsection (b) submitted by a regular importer, if the trans-

feree identified in the notice is not a regular customer, such importer may not transfer the listed chemical until after the expiration of the 15-day period beginning on the date on which the notice is submitted to the Attorney General.

(C) After a notice under subsection (a) or (b) is submitted to the Attorney General, if circumstances change and the importer or exporter will not be transferring the listed chemical to the transferee identified in the notice, or will be transferring a greater quantity of the chemical than specified in the notice, the importer or exporter shall update the notice to identify the most recent prospective transferee or the most recent quantity or both (as the case may be) and may not transfer the listed chemical until after the expiration of the 15-day period beginning on the date on which the update is submitted to the Attorney General, except that such 15-day restriction does not apply if the prospective transferee identified in the update is a regular customer. The preceding sentence applies with respect to changing circumstances regarding a transferee or quantity identified in an update to the same extent and in the same manner as such sentence applies with respect to changing circumstances regarding a transferee or quantity identified in the original notice under subsection (a) or (b).

(D) In the case of a transfer of a listed chemical that is subject to a 15-day restriction under subparagraph (B) or (C), the transferee involved shall, upon the expiration of the 15-day period, be considered to qualify as a regular customer, unless the Attorney General otherwise notifies the importer or exporter involved in writing.

(2) With respect to a transfer of a listed chemical with which a notice or update referred to in paragraph (1) is concerned:

(A) The Attorney General, in accordance with the same procedures as apply under subsection (c)(2)—

(i) may order the suspension of the transfer of the listed chemical by the importer or exporter involved, except for a transfer to a regular customer, on the ground that the chemical may be diverted to the clandestine manufacture of a controlled substance (without regard to the form of the chemical that may be diverted, including the diversion of a finished drug product to be manufactured from bulk chemicals to be transferred), subject to the Attorney General ordering such suspension before the expiration of the 15-day period referred to in paragraph (1) with respect to the importation or exportation (in any case in which such a period applies); and

(ii) may, for purposes of clause (i) and paragraph (1), disqualify a regular customer on such ground.

(B) From and after the time when the Attorney General provides written notice of the order under subparagraph (A) (including a statement of the legal and factual basis for the order) to the importer or exporter, the importer or exporter may not carry out the transfer.

(3) For purposes of this subsection:

(A) The terms “importer” and “exporter” mean a regulated person who imports or exports a listed chemical, respectively.

(B) The term “transfer”, with respect to a listed chemical, includes the sale of the chemical.

(C) The term “transferee” means a person to whom an importer or exporter transfers a listed chemical.

(e) Broker or trader for international transaction in listed chemical

A person located in the United States who is a broker or trader for an international transaction in a listed chemical that is a regulated transaction solely because of that person's involvement as a broker or trader shall, with respect to that transaction, be subject to all of the notification, reporting, recordkeeping, and other requirements placed upon exporters of listed chemicals by this subchapter and subchapter I.

(f) Application of notification requirement to exports of listed chemical; waiver

(1) The Attorney General may by regulation require that the 15-day notification requirement of subsection (a) apply to all exports of a listed chemical to a specified country, regardless of the status of certain customers in such country as regular customers, if the Attorney General finds that such notification is necessary to support effective chemical diversion control programs or is required by treaty or other international agreement to which the United States is a party.

(2) The Attorney General may by regulation waive the 15-day notification requirement for exports of a listed chemical to a specified country if the Attorney General determines that such notification is not required for effective chemical diversion control. If the notification requirement is waived, exporters of the listed chemical shall be required to submit to the Attorney General reports of individual exportations or periodic reports of such exportation of the listed chemical, at such time or times and containing such information as the Attorney General shall establish by regulation.

(3) The Attorney General may by regulation waive the 15-day notification requirement for the importation of a listed chemical if the Attorney General determines that such notification is not necessary for effective chemical diversion control. If the notification requirement is waived, importers of the listed chemical shall be required to submit to the Attorney General reports of individual importations or periodic reports of the importation of the listed chemical, at such time or times and containing such information as the Attorney General shall establish by regulation.

(g) Return declaration

Within 30 days after a transaction covered by this section is completed, the importer or exporter shall send the Attorney General a return declaration containing particulars of the transaction, including the date, quantity, chemical, container, name of transferees, and such other information as the Attorney General may specify in regulations. For importers, a single return declaration may include the particulars of both the importation and distribution. If the importer has not distributed all chemicals imported by the end of the initial 30-day period,

the importer shall file supplemental return declarations no later than 30 days from the date of any further distribution, until the distribution or other disposition of all chemicals imported pursuant to the import notification or any update are accounted for.

(h) Importation and distribution of ephedrine, pseudoephedrine, or phenylpropanolamine

(1) With respect to a regulated person importing ephedrine, pseudoephedrine, or phenylpropanolamine (referred to in this section as an “importer”), a notice of importation under subsection (a) or (b) shall include all information known to the importer on the chain of distribution of such chemical from the manufacturer to the importer.

(2) For the purpose of preventing or responding to the diversion of ephedrine, pseudoephedrine, or phenylpropanolamine for use in the illicit production of methamphetamine, the Attorney General may, in the case of any person who is a manufacturer or distributor of such chemical in the chain of distribution referred to in paragraph (1) (which person is referred to in this subsection as a “foreign-chain distributor”), request that such distributor provide to the Attorney General information known to the distributor on the distribution of the chemical, including sales.

(3) If the Attorney General determines that a foreign-chain distributor is refusing to cooperate with the Attorney General in obtaining the information referred to in paragraph (2), the Attorney General may, in accordance with procedures that apply under subsection (c), issue an order prohibiting the importation of ephedrine, pseudoephedrine, or phenylpropanolamine in any case in which such distributor is part of the chain of distribution for such chemical. Not later than 60 days prior to issuing the order, the Attorney General shall publish in the Federal Register a notice of intent to issue the order. During such 60-day period, imports of the chemical with respect to such distributor may not be restricted under this paragraph.

Eggs and egg products are an important source of the Nation's total supply of food, and are used in food in various forms. They are consumed throughout the Nation and the major portion thereof moves in interstate or foreign commerce. It is essential, in the public interest, that the health and welfare of consumers be protected by the adoption of measures prescribed herein for assuring that eggs and egg products distributed to them and used in products consumed by them are wholesome, otherwise not adulterated, and properly labeled and packaged. Lack of effective regulation for the handling or disposition of unwholesome, otherwise adulterated, or improperly labeled or packaged egg products and certain qualities of eggs is injurious to the public welfare and destroys markets for wholesome, not adulterated, and properly labeled and packaged eggs and egg products and results in sundry losses to producers and processors, as well as injury to consumers. Unwholesome, otherwise adulterated, or improperly labeled or packaged products can be sold at lower prices and compete unfairly with the wholesome, not adulterated, and properly labeled and packaged products, to the detriment of consumers and the public generally. It is hereby found that all egg products and the qualities of eggs which are regulated under this chapter are either in interstate or foreign commerce, or substantially affect such commerce, and that regulation by the Secretary of Agriculture and the Secretary of Health and Human Services, and cooperation by the States and other jurisdictions, as contemplated by this chapter, are appropriate to prevent and eliminate burdens upon such commerce, to effectively regulate such commerce, and to protect the health and welfare of consumers.

AMENDMENTS

1992—Subsec. (a)(2)(D). Pub. L. 102-571 substituted “379e” for “376”.

§ 1034. Inspection of egg products

(a) Processing operations and establishments subject to coverage; rules and regulations

For the purpose of preventing the entry into or flow or movement in commerce of, or the burdening of commerce by, any egg product which is capable of use as human food and is misbranded or adulterated, the Secretary shall, whenever processing operations are being conducted, cause continuous inspection to be made, in accordance with the regulations promulgated under this chapter, of the processing of egg products, in each plant processing egg products for commerce, unless exempted under section 1044 of this title. Without restricting the application of the preceding sentence to other kinds of establishments within its provisions, any food manufacturing establishment, institution, or restaurant which uses any eggs that do not meet the requirements of section 1044(a)(1) of this title in the preparation of any articles for human food shall be deemed to be a plant processing egg products, with respect to such operations.

(b) Authority of Secretary to retain, segregate, and reinspect eggs and egg products

The Secretary, at any time, shall cause such retention, segregation, and reinspection as he

deems necessary of eggs and egg products capable of use as human food in each official plant.

(c) Condemnation of adulterated products; destruction or reprocessing; procedure upon appeal from determination of adulteration

Eggs and egg products found to be adulterated at official plants shall be condemned and, if no appeal be taken from such determination of condemnation, such articles shall be destroyed for human food purposes under the supervision of an inspector: *Provided*, That articles which may by reprocessing be made not adulterated need not be condemned and destroyed if so reprocessed under the supervision of an inspector and thereafter found to be not adulterated. If an appeal be taken from such determination, the eggs or egg products shall be appropriately marked and segregated pending completion of an appeal inspection, which appeal shall be at the cost of the appellant if the Secretary determines that the appeal is frivolous. If the determination of condemnation is sustained, the eggs or egg products shall be destroyed for human food purposes under the supervision of an inspector.

(d) Inspection of business premises, facilities, inventory, operations, and records of egg handlers; inspection of records and inventory of others required to keep records; authority of Secretary of Health and Human Services to inspect food manufacturing establishments, institutions, and restaurants; access to places of business

The Secretary shall cause such other inspections to be made of the business premises, facilities, inventory, operations, and records of egg handlers, and the records and inventory of other persons required to keep records under section 1040 of this title, as he deems appropriate (and in the case of shell egg packers, packing eggs for the ultimate consumer, at least once each calendar quarter) to assure that only eggs fit for human food are used for such purpose, and otherwise to assure compliance by egg handlers and other persons with the requirements of section 1037 of this title, except that the Secretary of Health and Human Services shall cause such inspections to be made as he deems appropriate to assure compliance with such requirements at food manufacturing establishments, institutions, and restaurants, other than plants processing egg products. Representatives of said Secretaries shall be afforded access to all such places of business for purposes of making the inspections provided for in this chapter.

(e) Refrigeration and labeling requirements

(1) Subject to paragraphs (2), (3), and (4), the Secretary shall make such inspections as the Secretary considers appropriate of a facility of an egg handler (including a transport vehicle) to determine if shell eggs destined for the ultimate consumer—

(A) are being held under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit after packing; and

(B) contain labeling that indicates that refrigeration is required.

(2) In the case of a shell egg packer packing eggs for the ultimate consumer, the Secretary shall make an inspection in accordance with

paragraph (1) at least once each calendar quarter.

(3) The Secretary of Health and Human Services shall cause such inspections to be made as the Secretary considers appropriate to ensure compliance with the requirements of paragraph (1) at food manufacturing establishments, institutions, and restaurants, other than plants packing eggs.

(4) The Secretary shall not make an inspection as provided in paragraph (1) on any egg handler with a flock of not more than 3,000 layers.

(5) A representative of the Secretary and the Secretary of Health and Human Services shall be afforded access to a place of business referred to in this subsection, including a transport vehicle, for purposes of making an inspection required under this subsection.

(1)(A) Except as otherwise provided in this subsection, any person who violates any provision of this chapter or any regulation issued under this chapter, other than a violation for which a criminal penalty has been imposed under this chapter, may be assessed a civil penalty by the Secretary of not more than \$5,000 for each such violation. Each violation to which this subparagraph applies shall be considered a separate offense.

(B) No penalty shall be assessed against any person under this subsection unless the person is given notice and opportunity for a hearing on the record before the Secretary in accordance with sections 554 and 556 of title 5.

(B) Judicial review of any such order shall be based on the record on which the determination and order are based.

The Attorney General shall institute a civil action to recover the amount assessed in an appropriate district court of the United States. SUBCHAPTER I—GENERAL PROVISIONS

§ 1101. Congressional findings

The Congress makes the following findings:

(1) Drug abuse is rapidly increasing in the United States and now afflicts urban, suburban, and rural areas of the Nation.

(2) Drug abuse seriously impairs individual, as well as societal, health and well-being.

(3) Drug abuse, especially heroin addiction, substantially contributes to crime.

(4) The adverse impact of drug abuse inflicts increasing pain and hardship on individuals, families, and communities and undermines our institutions.

(5) Too little is known about drug abuse, especially the causes, and ways to treat and prevent drug abuse.

(6) The success of Federal drug abuse programs and activities requires a recognition that education, treatment, rehabilitation, research, training, and law enforcement efforts are interrelated.

(7) The effectiveness of efforts by State and local governments and by the Federal Government to control and treat drug abuse in the United States has been hampered by a lack of coordination among the States, between States and localities, among the Federal Government, States and localities, and throughout the Federal establishment.

(8) Control of drug abuse requires the development of a comprehensive, coordinated long-term Federal strategy that encompasses both effective law enforcement against illegal drug traffic and effective health programs to rehabilitate victims of drug abuse.

(9) The increasing rate of drug abuse constitutes a serious and continuing threat to national health and welfare, requiring an immediate and effective response on the part of the Federal Government.

diating and effective response on the part of the Federal Government.

(10) Although the Congress observed a significant apparent reduction in the rate of increase of drug abuse during the three-year period subsequent to March 21, 1972, and in certain areas of the country apparent temporary reductions in its incidence, the increase and spread of heroin consumption since 1974, and the continuing abuse of other dangerous drugs, clearly indicate the need for effective, ongoing, and highly visible Federal leadership in the formation and execution of a comprehensive, coordinated drug abuse policy.

(11) Shifts in the usage of various drugs and in the Nation's demographic composition require a Federal strategy to adjust the focus of drug abuse programs to meet new needs and priorities on a cost-effective basis.

(12) The growing extent of drug abuse indicates an urgent need for prevention and intervention programs designed to reach the general population and members of high risk populations such as youth, women, and the elderly.

(13) Effective control of drug abuse requires high-level coordination of Federal international and domestic activities relating to both supply of, and demand for, commonly abused drugs.

(14) Local governments with high concentrations of drug abuse should be actively involved in the planning and coordination of efforts to combat drug abuse.

The Congress declares that it is the policy of the United States and the purpose of this chapter to focus the comprehensive resources of the Federal Government and bring them to bear on drug abuse with the objective of significantly reducing the incidence, as well as the social and personal costs, of drug abuse in the United States, and to develop and assure the implementation of a comprehensive, coordinated long-term Federal strategy to combat drug abuse. To reach these goals, the Congress further declares that it is the policy of the United States and the purpose of this chapter to meet the problems of drug abuse through—

placed into effect under subsection (a)(1) to summarize the volume of each type of food product subject to the requirements of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 301 et seq.] which is imported into the United States and which has an entry value which exceeds an amount established by the Secretary of Health and Human Services. The summary shall be made by country of origin and district of entry. Information with respect to volumes of food products to be included in the summary shall, to the extent feasible, be obtained from data bases of other Federal agencies.

(d) Compilation

Not later than 90 days after the expiration of 1 year after the data management systems are placed into effect under subsection (a) and annually thereafter, the Secretary of Health and Human Services shall compile a summary of the information described in subsection (b) with respect to the previous year. When the Food and Drug Administration is able to make summaries under subsection (c), the Secretary shall include in the compilation under the preceding sentence a compilation of the information described in subsection (c). Compilations under this subsection shall be made available to Federal and State agencies and other interested persons.

SUBCHAPTER II—DRUG-FREE COMMUNITIES

§ 1521. Findings

Congress finds the following:

(1) Substance abuse among youth has more than doubled in the 5-year period preceding 1996, with substantial increases in the use of marijuana, inhalants, cocaine, methamphetamine, LSD, and heroin.

(2) The most dramatic increases in substance abuse has occurred among 13- and 14-year-olds.

(3) Casual or periodic substance abuse by youth today will contribute to hard core or chronic substance abuse by the next generation of adults.

(4) Substance abuse is at the core of other problems, such as rising violent teenage and violent gang crime, increasing health care costs, HIV infections, teenage pregnancy, high school dropouts, and lower economic productivity.

(5) Increases in substance abuse among youth are due in large part to an erosion of understanding by youth of the high risks associated with substance abuse, and to the softening of peer norms against use.

(6)(A) Substance abuse is a preventable behavior and a treatable disease; and

(B)(i) during the 13-year period beginning with 1979, monthly use of illegal drugs among youth 12 to 17 years of age declined by over 70 percent; and

(ii) data suggests that if parents would simply talk to their children regularly about the dangers of substance abuse, use among youth could be expected to decline by as much as 30 percent.

(7) Community anti-drug coalitions throughout the United States are successfully developing and implementing comprehensive, long-term strategies to reduce substance abuse among youth on a sustained basis.

(8) Intergovernmental cooperation and coordination through national, State, and local or tribal leadership and partnerships are critical to facilitate the reduction of substance abuse among youth in communities throughout the United States.

(Pub. L. 100-690, title I, §1021, as added Pub. L. 105-20, §2(a)(2), June 27, 1997, 111 Stat. 224.)

FIVE-YEAR EXTENSION OF DRUG-FREE COMMUNITIES SUPPORT PROGRAM

Pub. L. 107-82, §1(a), Dec. 14, 2001, 115 Stat. 814, provided that: "Congress makes the following findings:

"(1) In the next 15 years, the youth population in the United States will grow by 21 percent, adding 6,500,000 youth to the population of the United States. Even if drug use rates remain constant, there will be a huge surge in drug-related problems, such as academic failure, drug-related violence, and HIV incidence, simply due to this population increase.

"(2) According to the 1994-1996 National Household Survey, 60 percent of students age 12 to 17 who frequently cut classes and who reported delinquent behavior in the past 6 months used marijuana 52 days or more in the previous year.

"(3) The 2000 Washington Kids Count survey conducted by the University of Washington reported that students whose peers have little or no involvement with drinking and drugs have higher math and reading scores than students whose peers had low level drinking or drug use.

"(4) Substance abuse prevention works. In 1999, only 10 percent of teens saw marijuana users as popular, compared to 17 percent in 1998 and 19 percent in 1997. The rate of past-month use of any drug among 12- to 17-year-olds declined 26 percent between 1997 and 1999. Marijuana use for sixth through eighth graders is at the lowest point in 5 years, as is use of cocaine, inhalants, and hallucinogens.

"(5) Community Anti-Drug Coalitions throughout the United States are successfully developing and implementing comprehensive, long-term strategies to reduce substance abuse among youth on a sustained basis. For example:

"(A) The Boston Coalition brought college and university presidents together to create the Cooperative Agreement on Underage Drinking. This agreement represents the first coordinated effort of Boston's many institutions of higher education to address issues such as binge drinking, underage drinking, and changing the norms surrounding alcohol abuse that exist on college and university campuses.

"(B) In 2000, the Coalition for a Drug-Free Greater Cincinnati surveyed more than 47,000 local stu-

dents in grades 7 through 12. The results provided evidence that the Coalition's initiatives are working. For the first time in a decade, teen drug use in Greater Cincinnati appears to be leveling off. The data collected from the survey has served as a tool to strengthen relationships between schools and communities, as well as facilitate the growth of anti-drug coalitions in communities where such coalitions had not existed.

"(C) The Miami Coalition used a three-part strategy to decrease the percentage of high school seniors who reported using marijuana at least once during the most recent 30-day period. The development of a media strategy, the creation of a network of prevention agencies, and discussions with high school students about the dangers of marijuana all contributed to a decrease in the percentage of seniors who reported using marijuana from over 22 percent in 1995 to 9 percent in 1997. The Miami Coalition was able to achieve these results while national rates of marijuana use were increasing.

"(D) The Nashville Prevention Partnership worked with elementary and middle school children in an attempt to influence them toward positive life goals and discourage them from using substances. The Partnership targeted an area in East Nashville and created after school programs, mentoring opportunities, attendance initiatives, and safe passages to and from school. Attendance and test scores increased as a result of the program.

"(E) At a youth-led town meeting sponsored by the Bering Strait Community Partnership in Nome, Alaska, youth identified a need for a safe, substance-free space. With help from a variety of community partners, the Partnership staff and youth members created the Java Hut, a substance-free coffeehouse designed for youth. The Java Hut is helping to change norms in the community by providing a fun, youth-friendly atmosphere and activities that are not centered around alcohol or marijuana.

"(F) Portland's Regional Drug Initiative (RDI) has promoted the establishment of drug-free workplaces among the city's large and small employers. Over 3,000 employers have attended an RDI training session, and of those, 92 percent have instituted drug-free workplace policies. As a result, there has been a 5.5 percent decrease in positive workplace drug tests.

"(G) San Antonio Fighting Back worked to increase the age at which youth first used illegal substances. Research suggests that the later the age of first use, the lower the risk that a young person will become a regular substance abuser. As a result, the age of first illegal drug use increased from 9.4 years in 1992 to 13.5 years in 1997.

"(H) In 1990, multiple data sources confirmed a trend of increased alcohol use by teenagers in the Troy community. Using its 'multiple strategies over multiple sectors' approach, the Troy Coalition worked with parents, physicians, students, coaches, and others to address this problem from several angles. As a result, the rate of twelfth grade students who had consumed alcohol in the past month decreased from 62.1 percent to 53.3 percent between 1991 and 1998, and the rate of eighth grade students decreased from 26.3 percent to 17.4 percent. The Troy Coalition believes that this decline represents not only a change in behavior on the part of students, but also a change in the norms of the community.

"(6) Despite these successes, drug use continues to be a serious problem facing communities across the United States. For example:

"(A) According to the Pulse Check: Trends in Drug Abuse Mid-Year 2000 report—

"(i) crack and powder cocaine remains the most serious drug problem;

"(ii) marijuana remains the most widely available illicit drug, and its potency is on the rise;

“(iii) treatment sources report an increase in admissions with marijuana as the primary drug of abuse—and adolescents outnumber other age groups entering treatment for marijuana;

“(iv) 80 percent of Pulse Check sources reported increased availability of club drugs, with ecstasy (MDMA) and ketamine the most widely cited club drugs and seven sources reporting that powder cocaine is being used as a club drug by young adults;

“(v) ecstasy abuse and trafficking is expanding, no longer confined to the ‘rave’ scene;

“(vi) the sale and use of club drugs has grown from nightclubs and raves to high schools, the streets, neighborhoods, open venues, and younger ages;

“(vii) ecstasy users often are unknowingly purchasing adulterated tablets or some other substance sold as MDMA; and

“(viii) along with reports of increased heroin snorting as a route of administration for initiates, there is also an increase in injecting initiates and the negative health consequences associated with injection (for example, increases in HIV/AIDS and Hepatitis C) suggesting that there is a generational forgetting of the dangers of injection of the drug.

“(B) The 2000 Parent’s Resource Institute for Drug Education study reported that 23.6 percent of children in the sixth through twelfth grades used illicit drugs in the past year. The same study found that monthly usage among this group was 15.3 percent.

“(C) According to the 2000 Monitoring the Future study, the use of ecstasy among eighth graders increased from 1.7 percent in 1999 to 3.1 percent in 2000, among tenth graders from 4.4 percent to 5.4 percent, and from 5.6 percent to 8.2 percent among twelfth graders.

“(D) A 1999 Mellman Group study found that—

“(i) 56 percent of the population in the United States believed that drug use was increasing in 1999;

“(ii) 92 percent of the population viewed illegal drug use as a serious problem in the United States; and

“(iii) 73 percent of the population viewed illegal drug use as a serious problem in their communities.

“(7) According to the 2001 report of the National Center on Addiction and Substance Abuse at Columbia University entitled ‘Shoveling Up: The Impact of Substance Abuse on State Budgets’, using the most conservative assumption, in 1998 States spent \$77,900,000,000 to shovel up the wreckage of substance abuse, only \$3,000,000,000 to prevent and treat the problem and \$433,000,000 for alcohol and tobacco regulation and compliance. This \$77,900,000,000 burden was distributed as follows:

“(A) \$30,700,000,000 in the justice system (77 percent of justice spending).

“(B) \$16,500,000,000 in education costs (10 percent of education spending).

“(C) \$15,200,000,000 in health costs (25 percent of health spending).

“(D) \$7,700,000,000 in child and family assistance (32 percent of child and family assistance spending).

“(E) \$5,900,000,000 in mental health and developmental disabilities (31 percent of mental health spending).

“(F) \$1,500,000,000 in public safety (26 percent of public safety spending) and \$400,000,000 for the state workforce.

“(8) Intergovernmental cooperation and coordination through national, State, and local or tribal leadership and partnerships are critical to facilitate the reduction of substance abuse among youth in communities across the United States.

“(9) Substance abuse is perceived as a much greater problem nationally than at the community level. Ac-

cording to a 2001 study sponsored by The Pew Charitable Trusts, between 1994 and 2000—

“(A) there was a 43 percent increase in the percentage of Americans who felt progress was being made in the war on drugs at the community level;

“(B) only 9 percent of Americans say drug abuse is a ‘crisis’ in their neighborhood, compared to 27 percent who say this about the nation; and

“(C) the percentage of those who felt we lost ground in the war on drugs on a community level fell by more than a quarter, from 51 percent in 1994 to 37 percent in 2000.”

(D) Renewal grants

Subject to subparagraph (F), the Administrator may award a renewal grant to a grant recipient under this paragraph for each of the fiscal years of the 4-fiscal-year period

following the fiscal year for which the initial additional grant under subparagraph (A) is awarded in an amount not to exceed amounts as follows:

(c) Treatment of funds for coalitions representing certain organizations

Funds appropriated for the substance abuse activities of a coalition that includes a representative of the Bureau of Indian Affairs, the Indian Health Service, or a tribal government agency with expertise in the field of substance abuse may be counted as non-Federal funds raised by the coalition for purposes of this section.

(d) Priority in awarding grants

In awarding grants under subsection (b)(1)(A)(i), priority shall be given to a coalition serving economically disadvantaged areas.

**CHAPTER 21—BIOMATERIALS ACCESS
ASSURANCE**

Sec.	
1601.	Findings.
1602.	Definitions.
1603.	General requirements; applicability; preemption.
1604.	Liability of biomaterials suppliers.
1605.	Procedures for dismissal of civil actions against biomaterials suppliers.
1606.	Subsequent impleader of dismissed biomaterials supplier.

§ 1601. Findings

The Congress finds that—

(1) each year millions of citizens of the United States depend on the availability of lifesaving or life-enhancing medical devices, many of which are permanently implantable within the human body;

(2) a continued supply of raw materials and component parts is necessary for the invention, development, improvement, and maintenance of the supply of the devices;

(3) most of the medical devices are made with raw materials and component parts that—

(A) move in interstate commerce;

(B) are not designed or manufactured specifically for use in medical devices; and

(C) come in contact with internal human tissue;

(4) the raw materials and component parts also are used in a variety of nonmedical products;

(5) because small quantities of the raw materials and component parts are used for medical devices, sales of raw materials and component parts for medical devices constitute an extremely small portion of the overall market for the raw materials and component parts;

(6) under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) manufacturers of medical devices are required to demonstrate that the medical devices are safe and effective, including demonstrating that the products are properly designed and have adequate warnings or instructions;

(7) notwithstanding the fact that raw materials and component parts suppliers do not design, produce, or test a final medical device, the suppliers have been the subject of actions alleging inadequate—

(A) design and testing of medical devices manufactured with materials or parts supplied by the suppliers; or

(B) warnings related to the use of such medical devices;

(8) even though suppliers of raw materials and component parts have very rarely been held liable in such actions, such suppliers have ceased supplying certain raw materials and component parts for use in medical devices for a number of reasons, including concerns about the costs of such litigation;

(9) unless alternate sources of supply can be found, the unavailability of raw materials and component parts for medical devices will lead to unavailability of lifesaving and life-enhancing medical devices;

(10) because other suppliers of the raw materials and component parts in foreign nations are refusing to sell raw materials or component parts for use in manufacturing certain medical devices in the United States, the prospects for development of new sources of supply for the full range of threatened raw materials and component parts for medical devices are remote;

(11) it is unlikely that the small market for such raw materials and component parts in the United States could support the large investment needed to develop new suppliers of such raw materials and component parts;

(12) attempts to develop such new suppliers would raise the cost of medical devices;

(13) courts that have considered the duties of the suppliers of the raw materials and component parts have generally found that the suppliers do not have a duty—

(A) to evaluate the safety and efficacy of the use of a raw material or component part in a medical device; or

(B) to warn consumers concerning the safety and effectiveness of a medical device;

(14) because medical devices and the raw materials and component parts used in their manufacture move in interstate commerce, a shortage of such raw materials and component parts affects interstate commerce;

(15) in order to safeguard the availability of a wide variety of lifesaving and life-enhancing medical devices, immediate action is needed—

(A) to clarify the permissible bases of liability for suppliers of raw materials and component parts for medical devices; and

(B) to provide expeditious procedures to dispose of unwarranted suits against the suppliers in such manner as to minimize litigation costs;

(16) the several States and their courts are the primary architects and regulators of our

tort system; Congress, however, must, in certain circumstances involving the national interest, address tort issues, and a threatened shortage of raw materials and component parts for lifesaving medical devices is one such circumstance; and

(17) the protections set forth in this chapter are needed to assure the continued supply of materials for lifesaving medical devices, although such protections do not protect negligent suppliers.

(Pub. L. 105-230, § 3, Aug. 13, 1998, 112 Stat. 1520.)

§ 1603. General requirements; applicability; preemption

(a) General requirements

(1) In general

In any civil action covered by this chapter, a biomaterials supplier may—

(A) raise any exclusion from liability set forth in section 1604 of this title; and

(B) make a motion for dismissal or for summary judgment as set forth in section 1605 of this title.

(2) Procedures

Notwithstanding any other provision of law, a Federal or State court in which an action covered by this chapter is pending shall, in connection with a motion under section 1605 or 1606 of this title, use the procedures set forth in this chapter.

(b) Applicability

(1) In general

Except as provided in paragraph (2), this chapter applies to any civil action brought by a claimant, whether in a Federal or State court, on the basis of any legal theory, for harm allegedly caused, directly or indirectly, by an implant.

(2) Exclusion

A civil action brought by a purchaser of a medical device, purchased for use in providing professional health care services, for loss or damage to an implant or for commercial loss to the purchaser—

(A) shall not be considered an action that is subject to this chapter; and

(B) shall be governed by applicable commercial or contract law.

(c) Scope of preemption

(1) In general

This chapter supersedes any State law regarding recovery for harm caused by an implant and any rule of procedure applicable to a civil action to recover damages for such harm only to the extent that this chapter establishes a rule of law applicable to the recovery of such damages.

(2) Applicability of other laws

Any issue that arises under this chapter and that is not governed by a rule of law applicable to the recovery of damages described in paragraph (1) shall be governed by applicable Federal or State law.

(d) Statutory construction

Nothing in this chapter may be construed—

(1) to affect any defense available to a defendant under any other provisions of Federal or State law in an action alleging harm caused by an implant; or

(2) to create a cause of action or Federal court jurisdiction pursuant to section 1331 or 1337 of title 28 that otherwise would not exist under applicable Federal or State law.

(Pub. L. 105-230, § 4, Aug. 13, 1998, 112 Stat. 1523.)

§ 1604. Liability of biomaterials suppliers

(a) In general

Except as provided in section 1606 of this title, a biomaterials supplier shall not be liable for harm to a claimant caused by an implant unless such supplier is liable—

(1) as a manufacturer of the implant, as provided in subsection (b);

(2) as a seller of the implant, as provided in subsection (c); or

(3) for furnishing raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, as provided in subsection (d).

(b) Liability as manufacturer

(1) In general

A biomaterials supplier may, to the extent required and permitted by any other applicable law, be liable for harm to a claimant caused by an implant if the biomaterials supplier is the manufacturer of the implant.

(2) Grounds for liability

The biomaterials supplier may be considered the manufacturer of the implant that allegedly caused harm to a claimant only if the biomaterials supplier—

(A)(i) registered or was required to register with the Secretary pursuant to section 360 of this title and the regulations issued under such section; and

(ii) included or was required to include the implant on a list of devices filed with the Secretary pursuant to section 360(j) of this title and the regulations issued under such section;

(B) is the subject of a declaration issued by the Secretary pursuant to paragraph (3) that states that the supplier, with respect to the implant that allegedly caused harm to the claimant, was required to—

(i) register with the Secretary under section 360 of this title, and the regulations issued under such section, but failed to do so; or

(ii) include the implant on a list of devices filed with the Secretary pursuant to section 360(j) of this title and the regulations issued under such section, but failed to do so; or

(C) is related by common ownership or control to a person meeting all the requirements described in subparagraph (A) or (B), if the court deciding a motion to dismiss in accordance with section 1605(c)(3)(B)(i) of this title finds, on the basis of affidavits submitted in accordance with section 1605 of this title, that it is necessary to impose liability on the biomaterials supplier as a manufacturer because the related manufacturer meeting the requirements of subparagraph (A) or (B) lacks sufficient financial resources to satisfy any judgment that the court feels it is likely to enter should the claimant prevail.

(3) Administrative procedures

(A) In general

The Secretary may issue a declaration described in paragraph (2)(B) on the motion of the Secretary or on petition by any person, after providing—

(i) notice to the affected persons; and
(ii) an opportunity for an informal hearing.

(B) Docketing and final decision

Immediately upon receipt of a petition filed pursuant to this paragraph, the Sec-

retary shall docket the petition. Not later than 120 days after the petition is filed, the Secretary shall issue a final decision on the petition.

(C) Applicability of statute of limitations

Any applicable statute of limitations shall toll during the period from the time a claimant files a petition with the Secretary under this paragraph until such time as either (i) the Secretary issues a final decision on the petition, or (ii) the petition is withdrawn.

(D) Stay pending petition for declaration

If a claimant has filed a petition for a declaration with respect to a defendant, and the Secretary has not issued a final decision on the petition, the court shall stay all proceedings with respect to that defendant until such time as the Secretary has issued a final decision on the petition.

(c) Liability as seller

A biomaterials supplier may, to the extent required and permitted by any other applicable law, be liable as a seller for harm to a claimant caused by an implant only if—

(1) the biomaterials supplier—

(A) held title to the implant and then acted as a seller of the implant after its initial sale by the manufacturer; or

(B) acted under contract as a seller to arrange for the transfer of the implant directly to the claimant after the initial sale by the manufacturer of the implant; or

(2) the biomaterials supplier is related by common ownership or control to a person meeting all the requirements described in paragraph (1), if a court deciding a motion to dismiss in accordance with section 1605(c)(3)(B)(ii) of this title finds, on the basis of affidavits submitted in accordance with section 1605 of this title, that it is necessary to impose liability on the biomaterials supplier as a seller because the related seller meeting the requirements of paragraph (1) lacks sufficient financial resources to satisfy any judgment that the court feels it is likely to enter should the claimant prevail.

(d) Liability for failure to meet applicable contractual requirements or specifications

A biomaterials supplier may, to the extent required and permitted by any other applicable law, be liable for harm to a claimant caused by an implant if the claimant in an action shows, by a preponderance of the evidence, that—

(1) the biomaterials supplier supplied raw materials or component parts for use in the implant that either—

(A) did not constitute the product described in the contract between the biomaterials supplier and the person who contracted for the supplying of the product; or

(B) failed to meet any specifications that were—

(i) accepted, pursuant to applicable law, by the biomaterials supplier;

(ii) published by the biomaterials supplier;

(iii) provided by the biomaterials supplier to the person who contracted for such product;

(iv) contained in a master file that was submitted by the biomaterials supplier to the Secretary and that is currently maintained by the biomaterials supplier for purposes of premarket approval of medical devices; or

(v) included in the submissions for purposes of premarket approval or review by the Secretary under section 360, 360c, 360e, or 360j of this title, and received clearance from the Secretary if such specifications were accepted, pursuant to applicable law, by the biomaterials supplier; and

(2) such failure to meet applicable contractual requirements or specifications was an actual and proximate cause of the harm to the claimant.

(Pub. L. 105-230, § 5, Aug. 13, 1998, 112 Stat. 1524.)

§ 1605. Procedures for dismissal of civil actions against biomaterials suppliers

(a) Motion to dismiss

A defendant may, at any time during which a motion to dismiss may be filed under applicable law, move to dismiss an action against it on the grounds that the defendant is a biomaterials supplier and one or more of the following:

(1) The defendant is not liable as a manufacturer, as provided in section 1604(b) of this title.

(2) The defendant is not liable as a seller, as provided in section 1604(c) of this title.

(3) The defendant is not liable for furnishing raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, as provided in section 1604(d) of this title.

(4) The claimant did not name the manufacturer as a party to the action, as provided in subsection (b).

(b) Manufacturer of implant shall be named a party

In any civil action covered by this chapter, the claimant shall be required to name the manufacturer of the implant as a party to the action, unless—

(1) the manufacturer is subject to service of process solely in a jurisdiction in which the biomaterials supplier is not domiciled or subject to a service of process; or

(2) a claim against the manufacturer is barred by applicable law or rule of practice.

(c) Proceeding on motion to dismiss

The following rules shall apply to any proceeding on a motion to dismiss filed by a defendant under this section:

(1) Effect of motion to dismiss on discovery

(A) In general

Except as provided in subparagraph (B), if a defendant files a motion to dismiss under subsection (a), no discovery shall be permitted in connection with the action that is the subject of the motion, other than discovery necessary to determine a motion to dismiss for lack of jurisdiction, until such time as the court rules on the motion to dismiss.

(B) Discovery

If a defendant files a motion to dismiss under subsection (a)(3) on the grounds that

it did not furnish raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, the court may permit discovery limited to issues that are directly relevant to—

- (i) the pending motion to dismiss; or
- (ii) the jurisdiction of the court.

(2) Affidavits

(A) Defendant

A defendant may submit affidavits supporting the grounds for dismissal contained in its motion to dismiss under subsection (a). If the motion is made under subsection (a)(1), the defendant may submit an affidavit demonstrating that the defendant has not included the implant on a list, if any, filed with the Secretary pursuant to section 360(j) of this title.

(B) Claimant

In response to a motion to dismiss, the claimant may submit affidavits demonstrating that—

(i) the Secretary has, with respect to the defendant and the implant that allegedly caused harm to the claimant, issued a declaration pursuant to section 1604(b)(2)(B) of this title; or

(ii) the defendant is a seller of the implant who is liable under section 1604(c) of this title.

(3) Basis of ruling on motion to dismiss

The court shall rule on a motion to dismiss filed under subsection (a) solely on the basis of the pleadings and affidavits of the parties made pursuant to this subsection. The court shall grant a motion to dismiss filed under subsection (a)—

(A) unless the claimant submits a valid affidavit that demonstrates that the defendant is not a biomaterials supplier;

(B) unless the court determines, to the extent raised in the pleadings and affidavits, that one or more of the following apply:

(i) the defendant may be liable as a manufacturer, as provided in section 1604(b) of this title;

(ii) the defendant may be liable as a seller, as provided in section 1604(c) of this title; or

(iii) the defendant may be liable for furnishing raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, as provided in section 1604(d) of this title; or

(C) if the claimant did not name the manufacturer as a party to the action, as provided in subsection (b).

(4) Treatment of motion as motion for summary judgment

The court may treat a motion to dismiss as a motion for summary judgment subject to subsection (d) in order to determine whether the pleadings and affidavits, in connection with such action, raise genuine issues of material fact concerning whether the defendant furnished raw materials or component parts of

the implant that failed to meet applicable contractual requirements or specifications as provided in section 1604(d) of this title.

(d) Summary judgment

(1) In general

(A) Basis for entry of judgment

If a motion to dismiss of a biomaterials supplier is to be treated as a motion for summary judgment under subsection (c)(4) or if a biomaterials supplier moves for summary judgment, the biomaterials supplier shall be entitled to entry of judgment without trial if the court finds there is no genuine issue of material fact for each applicable element set forth in paragraphs (1) and (2) of section 1604(d) of this title.

(B) Issues of material fact

With respect to a finding made under subparagraph (A), the court shall consider a genuine issue of material fact to exist only if the evidence submitted by the claimant would be sufficient to allow a reasonable jury to reach a verdict for the claimant if the jury found the evidence to be credible.

(2) Discovery made prior to a ruling on a motion for summary judgment

If, under applicable rules, the court permits discovery prior to a ruling on a motion for summary judgment governed by section 1604(d) of this title, such discovery shall be limited solely to establishing whether a genuine issue of material fact exists as to the applicable elements set forth in paragraphs (1) and (2) of section 1604(d) of this title.

(3) Discovery with respect to a biomaterials supplier

A biomaterials supplier shall be subject to discovery in connection with a motion seeking dismissal or summary judgment on the basis of the inapplicability of section 1604(d) of this title or the failure to establish the applicable elements of section 1604(d) of this title solely to the extent permitted by the applicable Federal or State rules for discovery against non-parties.

(e) Dismissal with prejudice

An order granting a motion to dismiss or for summary judgment pursuant to this section shall be entered with prejudice, except insofar as the moving defendant may be rejoined to the action as provided in section 1606 of this title.

(f) Manufacturer conduct of litigation

The manufacturer of an implant that is the subject of an action covered under this chapter shall be permitted to conduct litigation on any motion for summary judgment or dismissal filed by a biomaterials supplier who is a defendant under this section on behalf of such supplier if the manufacturer and any other defendant in such action enter into a valid and applicable contractual agreement under which the manufacturer agrees to bear the cost of such litigation or to conduct such litigation.

(Pub. L. 105-230, § 6, Aug. 13, 1998, 112 Stat. 1526.)

§ 1606. Subsequent impleader of dismissed biomaterials supplier

(a) Impleading of dismissed defendant

A court, upon motion by a manufacturer or a claimant within 90 days after entry of a final judgment in an action by the claimant against a manufacturer, and notwithstanding any otherwise applicable statute of limitations, may implead a biomaterials supplier who has been dismissed from the action pursuant to this chapter if—

(1) the manufacturer has made an assertion, either in a motion or other pleading filed with the court or in an opening or closing statement at trial, or as part of a claim for contribution or indemnification, and the court finds based on the court's independent review of the evidence contained in the record of the action, that under applicable law—

(A) the negligence or intentionally tortious conduct of the dismissed supplier was an actual and proximate cause of the harm to the claimant; and

(B) the manufacturer's liability for damages should be reduced in whole or in part because of such negligence or intentionally tortious conduct; or

(2) the claimant has moved to implead the supplier and the court finds, based on the court's independent review of the evidence contained in the record of the action, that under applicable law—

(A) the negligence or intentionally tortious conduct of the dismissed supplier was an actual and proximate cause of the harm to the claimant; and

(B) the claimant is unlikely to be able to recover the full amount of its damages from the remaining defendants.

(b) Standard of liability

Notwithstanding any preliminary finding under subsection (a), a biomaterials supplier who has been impleaded into an action covered by this chapter, as provided for in this section—

(1) may, prior to entry of judgment on the claim against it, supplement the record of the proceeding that was developed prior to the grant of the motion for impleader under subsection (a); and

(2) may be found liable to a manufacturer or a claimant only to the extent required and permitted by any applicable State or Federal law other than this chapter.

(c) Discovery

Nothing in this section shall give a claimant or any other party the right to obtain discovery from a biomaterials supplier at any time prior to grant of a motion for impleader beyond that allowed under section 1605 of this title.

(Pub. L. 105-230, § 7, Aug. 13, 1998, 112 Stat. 1528.)

EX. ORD. NO. 13165. WHITE HOUSE TASK FORCE ON DRUG USE IN SPORTS AND UNITED STATES REPRESENTATIVE ON THE BOARD OF THE WORLD ANTI-DOPING AGENCY

Ex. Ord. No. 13165, Aug. 9, 2000, 65 F.R. 49469, as amended by Ex. Ord. No. 13286, §11, Feb. 28, 2003, 68 F.R. 10622, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Office of National Drug Control [Policy] Reauthorization Act of 1998, (21 U.S.C. 1701 *et seq.*), and in order to develop recommendations for Federal agency actions to address the use of drugs in sports, in particular among young people, it is hereby ordered as follows:

SECTION 1. *Policy.* The use of drugs in sports has reached a level that endangers not just the legitimacy of athletic competition but also the lives and health of athletes—from the elite ranks to youth leagues. The National Household Survey on Drug Abuse issued in 1999 found that in just 1 year's time the rate of steroid use among young people rose roughly 50 percent among both sexes and across all age groups. It is the policy of my Administration to take the steps needed to help eliminate illicit or otherwise banned drug use and doping in sports at the State, national, and international level.

SEC. 2. *Establishment of a White House Task Force on Drug Use in Sports.* (a) There is established a White House Task Force on Drug Use in Sports (Task Force). The Task Force shall comprise the co-vice chairs of the White House Olympic Task Force (the “Olympic Task Force Vice Chairs”), and representatives designated by the Office of National Drug Control Policy, the Department of Health and Human Services, the Department of Labor, the President's Council on Physical Fitness and Sports [now President's Council on Fitness, Sports, and Nutrition], the Office of Management and Budget, the National Security Council, the Department of State, the Department of the Treasury, the Department of Education, the Department of Justice, the Department of Transportation, the Department of Homeland Security, the National Institute on Drug Abuse, and the Substance Abuse and Mental Health Services Administration.

All lawful and reasonable means must be used to ensure that the United States has a comprehensive and effective National Drug Control Strategy.

Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Narcotics Leadership Act of 1988, as amended (former 21 U.S.C. 1501 *et seq.*), and in order to provide for the effective management of the drug abuse policies of the United States, it is hereby ordered as follows:

(2) The Director shall provide, by July 1 of each year, budget recommendations to the heads of departments and agencies with responsibilities under the National Drug Control Program. The recommendations shall apply to the second following fiscal year and address funding priorities developed in the annual National Drug Control Strategy.

(b) *Measurement of National Drug Control Strategy Outcomes.* (1) The National Drug Control Strategy shall include long-range goals for reducing drug use and the consequences of drug use in the United States, including burdens on hospital emergency rooms, drug use among arrestees, the extent of drug-related crime, high school dropout rates, the number of infants exposed annually to illicit drugs in utero, national drug abuse treatment capacity, and the annual national health care costs of drug use.

(3) The Director shall coordinate an effort among the relevant drug control program agencies to assess the quality, access, management, effectiveness, and standards of accountability of drug abuse treatment, prevention, education, and other demand reduction activities.

(c) *Provision of Reports.* To the extent permitted by law, heads of departments and agencies with responsibilities under the National Drug Control Program shall make available to the Office of National Drug Control Policy, appropriate statistics, studies, and reports, pertaining to Federal drug abuse control.

§ 1706. High Intensity Drug Trafficking Areas Program

(a) Establishment

(1) In general

There is established in the Office a program to be known as the High Intensity Drug Trafficking Areas Program (in this section referred to as the “Program”).

(2) Purpose

The purpose of the Program is to reduce drug trafficking and drug production in the United States by—

(A) facilitating cooperation among Federal, State, local, and tribal law enforcement agencies to share information and implement coordinated enforcement activities;

(B) enhancing law enforcement intelligence sharing among Federal, State, local, and tribal law enforcement agencies;

(C) providing reliable law enforcement intelligence to law enforcement agencies needed to design effective enforcement strategies and operations; and

(D) supporting coordinated law enforcement strategies which maximize use of available resources to reduce the supply of illegal drugs in designated areas and in the United States as a whole.

(b) Designation

(1) In general

The Director, in consultation with the Attorney General, the Secretary of the Treasury, the Secretary of Homeland Security, heads of the National Drug Control Program agencies, and the Governor of each applicable State, may designate any specified area of the United

States as a high intensity drug trafficking area.

(2) Activities

After making a designation under paragraph (1) and in order to provide Federal assistance to the area so designated, the Director may—

(A) obligate such sums as are appropriated for the Program;

(B) direct the temporary reassignment of Federal personnel to such area, subject to the approval of the head of the department or agency that employs such personnel;

(C) take any other action authorized under section 1703 of this title to provide increased Federal assistance to those areas; and

(D) coordinate activities under this section (specifically administrative, recordkeeping, and funds management activities) with State, local, and tribal officials.

(c) Petitions for designation

The Director shall establish regulations under which a coalition of interested law enforcement agencies from an area may petition for designation as a high intensity drug trafficking area. Such regulations shall provide for a regular review by the Director of the petition, including a recommendation regarding the merit of the petition to the Director by a panel of qualified, independent experts.

(d) Factors for consideration

In considering whether to designate an area under this section as a high intensity drug trafficking area, the Director shall consider, in addition to such other criteria as the Director considers to be appropriate, the extent to which—

(1) the area is a significant center of illegal drug production, manufacturing, importation, or distribution;

(2) State, local, and tribal law enforcement agencies have committed resources to respond to the drug trafficking problem in the area, thereby indicating a determination to respond aggressively to the problem;

(3) drug-related activities in the area are having a significant harmful impact in the area, and in other areas of the country; and

(4) a significant increase in allocation of Federal resources is necessary to respond adequately to drug-related activities in the area.

(e) Organization of high intensity drug trafficking areas

(1) Executive Board and officers

To be eligible for funds appropriated under this section, each high intensity drug trafficking area shall be governed by an Executive Board. The Executive Board shall designate a chairman, vice chairman, and any other officers to the Executive Board that it determines are necessary.

(2) Responsibilities

The Executive Board of a high intensity drug trafficking area shall be responsible for—

(A) providing direction and oversight in establishing and achieving the goals of the high intensity drug trafficking area;

(B) managing the funds of the high intensity drug trafficking area;

(C) reviewing and approving all funding proposals consistent with the overall objective of the high intensity drug trafficking area; and

(D) reviewing and approving all reports to the Director on the activities of the high intensity drug trafficking area.

(3) Board representation

None of the funds appropriated under this section may be expended for any high intensity drug trafficking area, or for a partnership or region of a high intensity drug trafficking area, if the Executive Board for such area, region, or partnership, does not apportion an equal number of votes between representatives of participating Federal agencies and representatives of participating State, local, and tribal agencies. Where it is impractical for an equal number of representatives of Federal agencies and State, local, and tribal agencies to attend a meeting of an Executive Board in person, the Executive Board may use a system of proxy votes or weighted votes to achieve the voting balance required by this paragraph.

(4) No agency relationship

The eligibility requirements of this section are intended to ensure the responsible use of Federal funds. Nothing in this section is intended to create an agency relationship between individual high intensity drug trafficking areas and the Federal Government.

(f) Use of funds

The Director shall ensure that no Federal funds appropriated for the Program are expended for the establishment or expansion of drug treatment programs, and shall ensure that not more than 5 percent of the Federal funds appropriated for the Program are expended for the establishment of drug prevention programs.

(g) Counterterrorism activities

(1) Assistance authorized

The Director may authorize use of resources available for the Program to assist Federal, State, local, and tribal law enforcement agencies in investigations and activities related to terrorism and prevention of terrorism, especially but not exclusively with respect to such investigations and activities that are also related to drug trafficking.

(2) Limitation

The Director shall ensure—

(A) that assistance provided under paragraph (1) remains incidental to the purpose of the Program to reduce drug availability and carry out drug-related law enforcement activities; and

(B) that significant resources of the Program are not redirected to activities exclusively related to terrorism, except on a temporary basis under extraordinary circumstances, as determined by the Director.

(h) Role of Drug Enforcement Administration

The Director, in consultation with the Attorney General, shall ensure that a representative of the Drug Enforcement Administration is included in the Intelligence Support Center for each high intensity drug trafficking area.

- (2) a detailed justification that explains—
 - (A) the reasons for the proposed funding level; how such funding level was determined based on a current assessment of the drug trafficking threat in each high intensity drug trafficking area;
 - (B) how such funding will ensure that the goals and objectives of each such area will be achieved; and
 - (C) how such funding supports the National Drug Control Strategy; and

(3) the amount of HIDTA funds used to investigate and prosecute organizations and individuals trafficking in methamphetamine in the prior calendar year, and a description of how those funds were used.

(j) Emerging threat response fund**(1) In general**

Subject to the availability of appropriations, the Director may expend up to 10 percent of the amounts appropriated under this section on a discretionary basis, to respond to any emerging drug trafficking threat in an existing high intensity drug trafficking area, or to establish a new high intensity drug trafficking area or expand an existing high intensity drug trafficking area, in accordance with the criteria established under paragraph (2).

(2) Consideration of impact

In allocating funds under this subsection, the Director shall consider—

- (A) the impact of activities funded on reducing overall drug traffic in the United States, or minimizing the probability that an emerging drug trafficking threat will spread to other areas of the United States; and
- (B) such other criteria as the Director considers appropriate.

(k) Evaluation**(1) Initial report**

Not later than 90 days after December 29, 2006, the Director shall, after consulting with the Executive Boards of each designated high intensity drug trafficking area, submit a report to Congress that describes, for each designated high intensity drug trafficking area—

- (A) the specific purposes for the high intensity drug trafficking area;
- (B) the specific long-term and short-term goals and objectives for the high intensity drug trafficking area;
- (C) the measurements that will be used to evaluate the performance of the high intensity drug trafficking area in achieving the long-term and short-term goals; and
- (D) the reporting requirements needed to evaluate the performance of the high inten-

sity drug trafficking area in achieving the long-term and short-term goals.

(2) Evaluation of HIDTA Program as part of National Drug Control Strategy

For each designated high intensity drug trafficking area, the Director shall submit, as part of the annual National Drug Control Strategy report, a report that—

- (A) describes—
 - (i) the specific purposes for the high intensity drug trafficking area; and
 - (ii) the specific long-term and short-term goals and objectives for the high intensity drug trafficking area; and
- (B) includes an evaluation of the performance of the high intensity drug trafficking area in accomplishing the specific long-term and short-term goals and objectives identified under paragraph (1)(B).

(l) Assessment of drug enforcement task forces in high intensity drug trafficking areas

- (A) each Federal, State, local, and tribal drug enforcement task force operating in the high intensity drug trafficking area;
- (B) how such task forces coordinate with each other, with any high intensity drug trafficking area task force, and with investigations receiving funds from the Organized Crime and Drug Enforcement Task Force;
- (C) what steps, if any, each such task force takes to share information regarding drug trafficking and drug production with other federally funded drug enforcement task forces in the high intensity drug trafficking area;
- (D) the role of the high intensity drug trafficking area in coordinating the sharing of such information among task forces;
- (E) the nature and extent of cooperation by each Federal, State, local, and tribal participant in ensuring that such information is shared among law enforcement agencies and with the high intensity drug trafficking area;
- (F) the nature and extent to which information sharing and enforcement activities are coordinated with joint terrorism task forces in the high intensity drug trafficking area; and
- (G) any recommendations for measures needed to ensure that task force resources are utilized efficiently and effectively to reduce the availability of illegal drugs in the high intensity drug trafficking areas.

(m) Assessment of law enforcement intelligence sharing in High Intensity Drug Trafficking Areas Program

Not later than 180 days after December 29, 2006, and as part of each subsequent annual National Drug Control Strategy report, the Direc-

tor, in consultation with the Director of National Intelligence, shall submit to Congress a report—

(1) evaluating existing and planned law enforcement intelligence systems supported by each high intensity drug trafficking area, or utilized by task forces receiving any funding under the Program, including the extent to which such systems ensure access and availability of law enforcement intelligence to Federal, State, local, and tribal law enforcement agencies within the high intensity drug trafficking area and outside of it;

(2) the extent to which Federal, State, local, and tribal law enforcement agencies participating in each high intensity drug trafficking area are sharing law enforcement intelligence information to assess current drug trafficking threats and design appropriate enforcement strategies; and

(3) the measures needed to improve effective sharing of information and law enforcement intelligence regarding drug trafficking and drug production among Federal, State, local, and tribal law enforcement participating in a high intensity drug trafficking area, and between such agencies and similar agencies outside the high intensity drug trafficking area.

(n) Coordination of Law enforcement intelligence sharing with Organized Crime Drug Enforcement Task Force program

The Director, in consultation with the Attorney General, shall ensure that any drug enforcement intelligence obtained by the Intelligence Support Center for each high intensity drug trafficking area is shared, on a timely basis, with the drug intelligence fusion center operated by the Organized Crime Drug Enforcement Task Force of the Department of Justice.

¹ So in original. There probably should be a closing parenthesis.

(3) Certification

Before the Director awards any funds to a high intensity drug trafficking area, the Director shall certify that the law enforcement entities participating in that HIDTA are providing laboratory seizure data to the national clandestine laboratory database at the El Paso Intelligence Center.

(p) Authorization of appropriations

There is authorized to be appropriated to the Office of National Drug Control Policy to carry out this section—

- (1) \$240,000,000 for fiscal year 2007;

FINDINGS

Pub. L. 109-469, title III, § 302(b), Dec. 29, 2006, 120 Stat. 3524, provided that: “Congress finds the following: “(1) In the early morning hours of October 16, 2002, the home of Carnell and Angela Dawson was firebombed in apparent retaliation for Mrs. Dawson's notification to police about persistent drug distribu-

² So in original.

tion activity in their East Baltimore City neighborhood.

“(2) The arson claimed the lives of Mr. and Mrs. Dawson and their 5 young children, aged 9 to 14.

“(3) The horrific murder of the Dawson family is a stark example of domestic narco-terrorism.

“(4) In all phases of counternarcotics law enforcement—from prevention to investigation to prosecution to reentry—the voluntary cooperation of ordinary citizens is a critical component.

“(5) Voluntary cooperation is difficult for law enforcement officials to obtain when citizens feel that cooperation carries the risk of violent retaliation by illegal drug trafficking organizations and their affiliates.

“(6) Public confidence that law enforcement is doing all it can to make communities safe is a prerequisite for voluntary cooperation among people who may be subject to intimidation or reprisal (or both).

“(7) Witness protection programs are insufficient on their own to provide security because many individuals and families who strive every day to make distressed neighborhoods livable for their children, other relatives, and neighbors will resist or refuse offers of relocation by local, State, and Federal prosecutorial agencies and because, moreover, the continued presence of strong individuals and families is critical to preserving and strengthening the social fabric in such communities.

“(8) Where (as in certain sections of Baltimore City) interstate trafficking of illegal drugs has severe ancillary local consequences within areas designated as high intensity drug trafficking areas, it is important that supplementary High Intensity Drug Trafficking Areas Program funds be committed to support initiatives aimed at making the affected communities safe for the residents of those communities and encouraging their cooperation with tribal, local, State, and Federal law enforcement efforts to combat illegal drug trafficking.”

COMBATING METHAMPHETAMINE AND AMPHETAMINE IN HIGH INTENSITY DRUG TRAFFICKING AREAS

Pub. L. 106-310, div. B, title XXXVI, §3624, Oct. 17, 2000, 114 Stat. 1232, provided that:

“(a) IN GENERAL.—

“(1) IN GENERAL.—The Director of National Drug Control Policy shall use amounts available under this section to combat the trafficking of methamphetamine and amphetamine in areas designated by the Director as high intensity drug trafficking areas.

“(2) ACTIVITIES.—In meeting the requirement in paragraph (1), the Director shall transfer funds to appropriate Federal, State, and local governmental agencies for employing additional Federal law enforcement personnel, or facilitating the employment of additional State and local law enforcement personnel, including agents, investigators, prosecutors, laboratory technicians, chemists, investigative assistants, and drug-prevention specialists.

“(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section—

“(1) \$15,000,000 for fiscal year 2000; and

“(2) such sums as may be necessary for each of fiscal years 2001 through 2004.

“(c) APPORTIONMENT OF FUNDS.—

“(1) FACTORS IN APPORTIONMENT.—The Director shall apportion amounts appropriated for a fiscal year pursuant to the authorization of appropriations in subsection (b) for activities under subsection (a) among and within areas designated by the Director as high intensity drug trafficking areas based on the following factors:

“(A) The number of methamphetamine manufacturing facilities and amphetamine manufacturing facilities discovered by Federal, State, or local law enforcement officials in the previous fiscal year.

“(B) The number of methamphetamine prosecutions and amphetamine prosecutions in Federal, State, or local courts in the previous fiscal year.

“(C) The number of methamphetamine arrests and amphetamine arrests by Federal, State, or local law enforcement officials in the previous fiscal year.

“(D) The amounts of methamphetamine, amphetamine, or listed chemicals (as that term is defined in section 102(33) of the Controlled Substances Act (21 U.S.C. 802(33)) seized by Federal, State, or local law enforcement officials in the previous fiscal year.

“(E) Intelligence and predictive data from the Drug Enforcement Administration and the Department of Health and Human Services showing patterns and trends in abuse, trafficking, and transportation in methamphetamine, amphetamine, and listed chemicals (as that term is so defined).

“(2) CERTIFICATION.—Before the Director apportions any funds under this subsection to a high intensity drug trafficking area, the Director shall certify that the law enforcement entities responsible for clandestine methamphetamine and amphetamine laboratory seizures in that area are providing laboratory seizure data to the national clandestine laboratory database at the El Paso Intelligence Center.

“(d) LIMITATION ON ADMINISTRATIVE COSTS.—Not more than 5 percent of the amount appropriated in a fiscal year pursuant to the authorization of appropriations for that fiscal year in subsection (b) may be available in that fiscal year for administrative costs associated with activities under subsection (a).”

FUNDING FOR HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

Pub. L. 106-58, title III, Sept. 29, 1999, 113 Stat. 448, provided in part: “That, hereafter, of the amount appropriated for fiscal year 2000 or any succeeding fiscal year for the High Intensity Drug Trafficking Areas Program, the funds to be obligated or expended during such fiscal year for programs addressing the treatment or prevention of drug use as part of the approved strategy for a designated High Intensity Drug Trafficking Area (HIDTA) shall not be less than the funds obligated or expended for such programs during fiscal year 1999 for each designated HIDTA without the prior approval of the Committees on Appropriations”.

(B) Potency levels of contemporary marijuana, particularly hydroponically grown

marijuana, are significantly higher than in the past, rising from under 1 percent of THC in the mid-1970s to as high as 30 percent today.

(C) Contemporary research has demonstrated that youths smoking marijuana early in life may be up to 5 times more likely to use hard drugs.

(D) Contemporary research has demonstrated clear detrimental effects in adolescent educational achievement resulting from marijuana use.

(E) Contemporary research has demonstrated clear detrimental effects in adolescent brain development resulting from marijuana use.

(F) An estimated 9,000,000 Americans a year drive while under the influence of illegal drugs, including marijuana.

(G) Marijuana smoke contains 50 to 70 percent more of certain cancer causing chemicals than tobacco smoke.

(H) Teens who use marijuana are up to 4 times more likely to have a teen pregnancy than teens who have not.

With respect to fiscal year 2008 and any fiscal year thereafter, if the Director certifies in writing to Congress that domestic methamphetamine laboratory seizures (as reported to the El Paso Intelligence Center of the Drug Enforcement Administration) decreased to at least 75 percent of the 2006 level, or the Director has documented a highly, statistically significant increase in a specific drug, from a baseline determined by locally collected data, that can be defined as a local drug crisis, the Director may apply paragraph (1)(A) for that fiscal year with respect to advertisements specifically intended to reduce the use of such other drugs.

(D) Authorization of appropriations

There is authorized to be appropriated to the Office to carry out this section, \$195,000,000 for each of fiscal years 2007 and 2008 and \$210,000,000 for each of fiscal years 2009 through 2011.

§ 1901. Findings and policy

(a) Findings

§ 2105. Enhanced aquaculture and seafood inspection

(a) Findings

Congress finds the following:

(1) In 2007, there has been an overwhelming increase in the volume of aquaculture and seafood that has been found to contain substances that are not approved for use in food in the United States.

(2) As of May 2007, inspection programs are not able to satisfactorily accomplish the goals of ensuring the food safety of the United States.

(3) To protect the health and safety of consumers in the United States, the ability of the Secretary to perform inspection functions must be enhanced.

(b) Heightened inspections

The Secretary is authorized to enhance, as necessary, the inspection regime of the Food and Drug Administration for aquaculture and seafood, consistent with obligations of the United States under international agreements and United States law.

(c) Report to Congress

Not later than 180 days after September 27, 2007, the Secretary shall submit to Congress a report that—

(1) describes the specifics of the aquaculture and seafood inspection program;

(2) describes the feasibility of developing a traceability system for all catfish and seafood products, both domestic and imported, for the purpose of identifying the processing plant of origin of such products; and

(3) provides for an assessment of the risks associated with particular contaminants and banned substances.

(d) Partnerships with States

Upon the request by any State, the Secretary may enter into partnership agreements, as soon as practicable after the request is made, to implement inspection programs to Federal standards regarding the importation of aquaculture and seafood.

(1) it is vital for Congress to provide the Food and Drug Administration with additional resources, authorities, and direction with respect to ensuring the safety of the food supply of the United States;

(2) additional inspectors are required to improve the Food and Drug Administration's ability to safeguard the food supply of the United States;

(3) because of the increasing volume of international trade in food products the Secretary should make it a priority to enter into agreements with the trading partners of the United States with respect to food safety; and

(4) Congress should work to develop a comprehensive response to the issue of food safety.

(Pub. L. 110–85, title X, §1008, Sept. 27, 2007, 121 Stat. 970.)

§ 2223. Enhancing tracking and tracing of food and recordkeeping**(a) Pilot projects****(1) In general**

Not later than 270 days after January 4, 2011, the Secretary of Health and Human Services (referred to in this section as the “Secretary”), taking into account recommendations from the Secretary of Agriculture and representatives of State departments of health and agriculture, shall establish pilot projects in coordination with the food industry to explore and evaluate methods to rapidly and effectively identify recipients of food to prevent or mitigate a foodborne illness outbreak and to address credible threats of serious adverse health consequences or death to humans or animals as a result of such food being adulterated under section 342 of this title or misbranded under section 343(w) of this title.

(2) Content

The Secretary shall conduct 1 or more pilot projects under paragraph (1) in coordination with the processed food sector and 1 or more such pilot projects in coordination with processors or distributors of fruits and vegetables that are raw agricultural commodities. The Secretary shall ensure that the pilot projects under paragraph (1) reflect the diversity of the food supply and include at least 3 different types of foods that have been the subject of significant outbreaks during the 5-year period preceding January 4, 2011, and are selected in order to—

(A) develop and demonstrate methods for rapid and effective tracking and tracing of foods in a manner that is practicable for facilities of varying sizes, including small businesses;

(B) develop and demonstrate appropriate technologies, including technologies existing on January 4, 2011, that enhance the tracking and tracing of food; and

(C) inform the promulgation of regulations under subsection (d).

(3) Report

Not later than 18 months after January 4, 2011, the Secretary shall report to Congress on the findings of the pilot projects under this subsection together with recommendations for improving the tracking and tracing of food.

(b) Additional data gathering**(1) In general**

The Secretary, in coordination with the Secretary of Agriculture and multiple representa-

tives of State departments of health and agriculture, shall assess—

(A) the costs and benefits associated with the adoption and use of several product tracing technologies, including technologies used in the pilot projects under subsection (a);

(B) the feasibility of such technologies for different sectors of the food industry, including small businesses; and

(C) whether such technologies are compatible with the requirements of this subsection.

(2) Requirements

To the extent practicable, in carrying out paragraph (1), the Secretary shall—

(A) evaluate domestic and international product tracing practices in commercial use;

(B) consider international efforts, including an assessment of whether product tracing requirements developed under this section are compatible with global tracing systems, as appropriate; and

(C) consult with a diverse and broad range of experts and stakeholders, including representatives of the food industry, agricultural producers, and nongovernmental organizations that represent the interests of consumers.

(c) Product tracing system

The Secretary, in consultation with the Secretary of Agriculture, shall, as appropriate, establish within the Food and Drug Administration a product tracing system to receive information that improves the capacity of the Secretary to effectively and rapidly track and trace food that is in the United States or offered for import into the United States. Prior to the establishment of such product tracing system, the Secretary shall examine the results of applicable pilot projects and shall ensure that the activities of such system are adequately supported by the results of such pilot projects.

(d) Additional recordkeeping requirements for high risk foods**(1) In general**

In order to rapidly and effectively identify recipients of a food to prevent or mitigate a foodborne illness outbreak and to address credible threats of serious adverse health consequences or death to humans or animals as a result of such food being adulterated under section 342 of this title or misbranded under section 343(w) of this title, not later than 2 years after January 4, 2011, the Secretary shall publish a notice of proposed rulemaking to establish recordkeeping requirements, in addition to the requirements under section 350c of this title and subpart J of part 1 of title 21, Code of Federal Regulations (or any successor regulations), for facilities that manufacture, process, pack, or hold foods that the Secretary designates under paragraph (2) as high-risk foods. The Secretary shall set an appropriate effective date of such additional requirements for foods designated as high risk that takes into account the length of time necessary to comply with such requirements. Such requirements shall—

(A) relate only to information that is reasonably available and appropriate;

(B) be science-based;

(C) not prescribe specific technologies for the maintenance of records;

(D) ensure that the public health benefits of imposing additional recordkeeping requirements outweigh the cost of compliance with such requirements;

(E) be scale-appropriate and practicable for facilities of varying sizes and capabilities with respect to costs and recordkeeping burdens, and not require the creation and maintenance of duplicate records where the information is contained in other company records kept in the normal course of business;

(F) minimize the number of different recordkeeping requirements for facilities that handle more than 1 type of food;

(G) to the extent practicable, not require a facility to change business systems to comply with such requirements;

(H) allow any person subject to this subsection to maintain records required under this subsection at a central or reasonably accessible location provided that such records can be made available to the Secretary not later than 24 hours after the Secretary requests such records; and¹

(I) include a process by which the Secretary may issue a waiver of the requirements under this subsection if the Secretary determines that such requirements would result in an economic hardship for an individual facility or a type of facility;

(J) be commensurate with the known safety risks of the designated food;

(K) take into account international trade obligations;

(L) not require—

(i) a full pedigree, or a record of the complete previous distribution history of the food from the point of origin of such food;

(ii) records of recipients of a food beyond the immediate subsequent recipient of such food; or

(iii) product tracking to the case level by persons subject to such requirements; and

(M) include a process by which the Secretary may remove a high-risk food designation developed under paragraph (2) for a food or type of food.

(2) Designation of high-risk foods

(A) In general

Not later than 1 year after January 4, 2011, and thereafter as the Secretary determines necessary, the Secretary shall designate high-risk foods for which the additional recordkeeping requirements described in paragraph (1) are appropriate and necessary to protect the public health. Each such designation shall be based on—

(i) the known safety risks of a particular food, including the history and severity of foodborne illness outbreaks attributed to such food, taking into consideration

foodborne illness data collected by the Centers for Disease Control and Prevention;

(ii) the likelihood that a particular food has a high potential risk for microbiological or chemical contamination or would support the growth of pathogenic microorganisms due to the nature of the food or the processes used to produce such food;

(iii) the point in the manufacturing process of the food where contamination is most likely to occur;

(iv) the likelihood of contamination and steps taken during the manufacturing process to reduce the possibility of contamination;

(v) the likelihood that consuming a particular food will result in a foodborne illness due to contamination of the food; and

(vi) the likely or known severity, including health and economic impacts, of a foodborne illness attributed to a particular food.

(B) List of high-risk foods

At the time the Secretary promulgates the final rules under paragraph (1), the Secretary shall publish the list of the foods designated under subparagraph (A) as high-risk foods on the Internet website of the Food and Drug Administration. The Secretary may update the list to designate new high-risk foods and to remove foods that are no longer deemed to be high-risk foods, provided that each such update to the list is consistent with the requirements of this subsection and notice of such update is published in the Federal Register.

(3) Protection of sensitive information

In promulgating regulations under this subsection, the Secretary shall take appropriate measures to ensure that there are effective procedures to prevent the unauthorized disclosure of any trade secret or confidential information that is obtained by the Secretary pursuant to this section, including periodic risk assessment and planning to prevent unauthorized release and controls to—

(A) prevent unauthorized reproduction of trade secret or confidential information;

(B) prevent unauthorized access to trade secret or confidential information; and

(C) maintain records with respect to access by any person to trade secret or confidential information maintained by the agency.

(4) Public input

During the comment period in the notice of proposed rulemaking under paragraph (1), the Secretary shall conduct not less than 3 public meetings in diverse geographical areas of the United States to provide persons in different regions an opportunity to comment.

(5) Retention of records

Except as otherwise provided in this subsection, the Secretary may require that a facility retain records under this subsection for not more than 2 years, taking into consideration the risk of spoilage, loss of value, or loss

¹ So in original. The word “and” probably should not appear.

of palatability of the applicable food when determining the appropriate timeframes.

(6) Limitations

(A) Farm to school programs

In establishing requirements under this subsection, the Secretary shall, in consultation with the Secretary of Agriculture, consider the impact of requirements on farm to school or farm to institution programs of the Department of Agriculture and other farm to school and farm to institution programs outside such agency, and shall modify the requirements under this subsection, as appropriate, with respect to such programs so that the requirements do not place undue burdens on farm to school or farm to institution programs.

(B) Identity-preserved labels with respect to farm sales of food that is produced and packaged on a farm

The requirements under this subsection shall not apply to a food that is produced and packaged on a farm if—

- (i) the packaging of the food maintains the integrity of the product and prevents subsequent contamination or alteration of the product; and
- (ii) the labeling of the food includes the name, complete address (street address, town, State, country, and zip or other postal code), and business phone number of the farm, unless the Secretary waives the requirement to include a business phone number of the farm, as appropriate, in order to accommodate a religious belief of the individual in charge of such farm.

(C) Fishing vessels

The requirements under this subsection with respect to a food that is produced through the use of a fishing vessel (as defined in section 1802(18) of title 16) shall be limited to the requirements under subparagraph (F) until such time as the food is sold by the owner, operator, or agent in charge of such fishing vessel.

(D) Commingled raw agricultural commodities

(i) Limitation on extent of tracing

Recordkeeping requirements under this subsection with regard to any commingled raw agricultural commodity shall be limited to the requirements under subparagraph (F).

(ii) Definitions

For the purposes of this subparagraph—

(I) the term “commingled raw agricultural commodity” means any commodity that is combined or mixed after harvesting, but before processing;

(II) the term “commingled raw agricultural commodity” shall not include types of fruits and vegetables that are raw agricultural commodities for which the Secretary has determined that standards promulgated under section 350h of this title (as added by section 105)² would minimize the risk of serious

adverse health consequences or death; and

(III) the term “processing” means operations that alter the general state of the commodity, such as canning, cooking, freezing, dehydration, milling, grinding, pasteurization, or homogenization.

(E) Exemption of other foods

The Secretary may, by notice in the Federal Register, modify the requirements under this subsection with respect to, or exempt a food or a type of facility from, the requirements of this subsection (other than the requirements under subparagraph (F), if applicable) if the Secretary determines that product tracing requirements for such food (such as bulk or commingled ingredients that are intended to be processed to destroy pathogens) or type of facility is not necessary to protect the public health.

(F) Recordkeeping regarding previous sources and subsequent recipients

In the case of a person or food to which a limitation or exemption under subparagraph (C), (D), or (E) applies, if such person, or a person who manufactures, processes, packs, or holds such food, is required to register with the Secretary under section 350d of this title with respect to the manufacturing, processing, packing, or holding of the applicable food, the Secretary shall require such person to maintain records that identify the immediate previous source of such food and the immediate subsequent recipient of such food.

(G) Grocery stores

With respect to a sale of a food described in subparagraph (H) to a grocery store, the Secretary shall not require such grocery store to maintain records under this subsection other than records documenting the farm that was the source of such food. The Secretary shall not require that such records be kept for more than 180 days.

(H) Farm sales to consumers

The Secretary shall not require a farm to maintain any distribution records under this subsection with respect to a sale of a food described in subparagraph (I) (including a sale of a food that is produced and packaged on such farm), if such sale is made by the farm directly to a consumer.

(I) Sale of a food

A sale of a food described in this subparagraph is a sale of a food in which—

- (i) the food is produced on a farm; and
- (ii) the sale is made by the owner, operator, or agent in charge of such farm directly to a consumer or grocery store.

(7) No impact on non-high-risk foods

The recordkeeping requirements established under paragraph (1) shall have no effect on foods that are not designated by the Secretary under paragraph (2) as high-risk foods. Foods described in the preceding sentence shall be subject solely to the recordkeeping require-

ments under section 350c of this title and subpart J of part 1 of title 21, Code of Federal Regulations (or any successor regulations).

(e) Evaluation and recommendations

(1) Report

Not later than 1 year after the effective date of the final rule promulgated under subsection (d)(1), the Comptroller General of the United States shall submit to Congress a report, taking into consideration the costs of compliance and other regulatory burdens on small businesses and Federal, State, and local food safety practices and requirements, that evaluates the public health benefits and risks, if any, of limiting—

(A) the product tracing requirements under subsection (d) to foods identified under paragraph (2) of such subsection, including whether such requirements provide adequate assurance of traceability in the event of intentional adulteration, including by acts of terrorism; and

(B) the participation of restaurants in the recordkeeping requirements.

(2) Determination and recommendations

In conducting the evaluation and report under paragraph (1), if the Comptroller General of the United States determines that the limitations described in such paragraph do not adequately protect the public health, the Comptroller General shall submit to Congress recommendations, if appropriate, regarding recordkeeping requirements for restaurants and additional foods, in order to protect the public health.

Section 331(j) of this title and the Freedom of Information Act [5 U.S.C. 552] shall apply with respect to any confidential commercial information that is disclosed to the Food and Drug Administration in the course of responding to a request under paragraph (1).

(5) Records

Except with respect to identifying potential immediate recipients in response to a request under this subsection, nothing in this subsection shall require the establishment or maintenance by farms of new records.

(g) No Limitation on commingling of food

Nothing in this section shall be construed to authorize the Secretary to impose any limitation on the commingling of food.

(h) Small entity compliance guide

Not later than 180 days after promulgation of a final rule under subsection (d), the Secretary shall issue a small entity compliance guide setting forth in plain language the requirements of the regulations under such subsection in order to assist small entities, including farms and small businesses, in complying with the recordkeeping requirements under such subsection.

(i) Flexibility for small businesses

Notwithstanding any other provision of law, the regulations promulgated under subsection (d) shall apply—
