EX. ORD. No. 13330. Human Service Transportation Coordination
Ex. Ord. No. 13330, Feb. 24, 2004, 69 F.R. 9185, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance access to transportation to improve mobility, employment opportunities, and access to community services for persons who are transportation-disadvantaged, it is hereby ordered as follows:

SECTION 1. This order is issued consistent with the following findings and principles:
(a) A strong America depends on citizens who are productive and who actively participate in the life of their communities.
(b) Transportation plays a critical role in providing access to employment, medical, and health care, education, and other community services and amenities. The importance of this role is underscored by the variety of transportation programs that have been created in conjunction with health and human service programs, and by the significant Federal investment in accessible public transportation systems throughout the Nation.
(c) These transportation resources, however, are often difficult for citizens to understand and access, and are more costly than necessary due to inconsistent and unnecessary Federal and State program rules and restrictions.
(d) A broad range of Federal program funding allows for the purchase or provision of transportation services and resources for persons who are transportation-disadvantaged. Yet, in too many communities, these services and resources are fragmented, unused, or altogether unavailable.
(e) Federally assisted community transportation services should be seamless, comprehensive, and accessible to those who rely on them for their lives and livelihoods. For persons with mobility limitations related to advanced age, persons with disabilities, and persons struggling for self-sufficiency, transportation within and between our communities should be as available and affordable as possible.
(f) The development, implementation, and maintenance of responsive, comprehensive, coordinated community transportation systems is essential for persons with disabilities, persons with low incomes, and older adults who rely on such transportation to fully participate in their communities.

SEC. 2. Definitions. (a) As used in this order, the term “agency” means an executive department or agency of the Federal Government.
(b) For the purposes of this order, persons who are transportation-disadvantaged are persons who qualify for Federally conducted or Federally assisted transportation-related programs or services due to disability, income, or advanced age.

SEC. 3. Establishment of the Interagency Transportation Coordinating Council on Access and Mobility. (a) There is hereby established, within the Department of Transportation for administrative purposes, the “Interagency Transportation Coordinating Council on Access and Mobility” (“Interagency Transportation Coordinating Council” or “Council”). The membership of the Interagency Transportation Coordinating Council shall consist of:

(i) the Secretaries of Transportation, Health and Human Services, Education, Labor, Veterans Affairs, Agriculture, Housing and Urban Development, and the Interior, the Attorney General, and the Commissioner of Social Security; and
(ii) such other Federal officials as the Chairperson of the Council may designate.
(b) The Secretary of Transportation, or the Secretary’s designee, shall serve as the Chairperson of the Council. The Chairperson shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to particular subject matters, establish and direct subgroups of the Council, which shall consist exclusively of the Council’s members.
(c) A member of the Council may designate any person who is part of the member’s agency and who is an officer appointed by the President or a full-time employee serving in a position with pay equal to or greater than the minimum rate payable for GS–15 of the General Schedule to perform functions of the Council or its subgroups on the member’s behalf.

SEC. 4. Functions of the Interagency Transportation Coordinating Council. The Interagency Transportation Coordinating Council shall:
(a) promote interagency cooperation and the establishment of appropriate mechanisms to minimize duplication and overlap of Federal programs and services so that transportation-disadvantaged persons have access to more transportation services;
(b) facilitate access to the most appropriate, cost-effective transportation services within existing resources;
(c) encourage enhanced customer access to the variety of transportation and resources available;
(d) formulate and implement administrative, policy, and procedural mechanisms that enhance transportation services at all levels; and
(e) develop and implement a method for monitoring progress on achieving the goals of this order.

SEC. 5. Report. In performing its functions, the Interagency Transportation Coordinating Council shall...
present to me a report not later than 1 calendar year from the date of this order. The report shall:
(a) Identify those Federal, State, Tribal and local laws, regulations, procedures, and actions that have proven to be most useful and appropriate in coordinating transportation services for the targeted populations;
(b) Identify substantive and procedural requirements of transportation-related Federal laws and regulations that are duplicative or restrict the laws’ and regulations’ most efficient operation;

INTERNET AVAILABILITY OF INFORMATION
Pub. L. 106-181, title IX, § 903, Apr. 5, 2000, 114 Stat. 196, provided that: “The Administrator shall make available through the Internet home page of the Federal Aviation Administration the abstracts relating to all research grants and awards made with funds authorized by the amendments made by this Act [see Tables for classification]. Nothing in this section shall be construed to require or permit the release of any information prohibited by law or regulation from being released to the public.”

FINDINGS
Pub. L. 104-264, title II, § 221, Oct. 9, 1996, 110 Stat. 3227, provided that: “Congress finds the following:
“(1) In many respects the Administration is a unique agency, being one of the few non-defense government agencies that operate 24 hours a day, 365 days of the year, while continuing to rely on outdated technology to carry out its responsibilities for a state-of-the-art industry.
“(2) Until January 1, 1996, users of the air transportation system paid 70 percent of the budget of the Administration, with the remaining 30 percent coming from the General Fund. The General Fund contribution over the years is one measure of the benefit received by the general public, military, and other users of Administration's services.
“(3) The Administration must become a more efficient, effective, and different organization to meet future challenges.
“(4) The need to balance the Federal budget means that it may become more and more difficult to obtain sufficient General Fund contributions to meet the Administration's future budget needs.
“(5) Congress must keep its commitment to the users of the national air transportation system by seeking to spend all moneys collected from them each year and deposited into the Airport and Airway Trust Fund. Existing surpluses representing past receipts must also be spent for the purposes for which such funds were collected.

“(6) The aviation community and the employees of the Administration must come together to improve the system. The Administration must continue to recognize who its customers are and what their needs are, and to design and redesign the system to make safety improvements and increase productivity.

“(7) The Administration projects that commercial operations will increase by 18 percent and passenger traffic by 35 percent by the year 2002. Without effective airport expansion and system modernization, these needs cannot be met.

“(8) Absent significant and meaningful reform, future changes cannot be met.

“(9) The Administration must have a new way of doing business.

“(10) There is widespread agreement within government and the aviation industry that reform of the Administration is essential to safely and efficiently accommodate the projected growth of aviation within the next decade.

“(11) To the extent that Congress determines that certain segments of the aviation community are not required to pay all of the costs of the government services which they require and benefits which they receive, Congress should appropriate the difference between such costs and any receipts received from such segment.

“(12) Prior to the imposition of any new charges or user fees on segments of the industry, an independent review must be performed to assess the funding needs and assumptions for operations, capital spending, and airport infrastructure.

“(13) An independent, thorough, and complete study and assessment must be performed of the costs to the Administration and the costs driven by each segment of the aviation system for safety and operational services, including the use of the air traffic control system and the Nation’s airports.

“(14) Because the Administration is a unique Federal entity in that it is a participant in the daily operations of an industry, and because the national air transportation system faces significant problems without significant changes, the Administration has been authorized to change the Federal procurement and personnel systems to ensure that the Administration has the ability to keep pace with new technology and is able to match resources with the real personnel needs of the Administration.

“(15) The existing budget system does not allow for long-term planning or timely acquisition of technology by the Administration.

“(16) Without reforms in the areas of procurement, personnel, funding, and governance, the Administration will continue to experience delays and cost overruns in its major modernization programs and needed improvements in the performance of the air traffic management system will not occur.

“(17) All reforms should be designed to help the Administration become more responsive to the needs of its customers and maintain the highest standards of safety.”

PURPOSES

“(1) to ensure that final action shall be taken on all notices of proposed rulemaking of the Administration within 18 months after the date of their publication;

“(2) to permit the Administration, with Congressional review, to establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

“(3) to establish a more autonomous and accountable Administration within the Department of Transportation; and

“(4) to make the Administration a more efficient and effective organization, able to meet the needs of a dynamic, growing industry, and to ensure the safety of the traveling public.”

Prior provisions authorizing the appointment of a retired military officer as Administrator were contained in the following acts:

EX. ORD. NO. 13180. AIR TRAFFIC PERFORMANCE-BASED ORGANIZATION

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to further improve the provision of air traffic services in ways that increase efficiency, take better advantage of new technologies, accelerate modernization efforts, and respond more effectively to the needs of the traveling public, while enhancing the safety, security, and efficiency of the Nation’s air transportation system, it is hereby ordered as follows:

SECTION 1. Establishment of the Air Traffic Organization. (a) The Secretary of Transportation (Secretary) shall, consistent with his legal authorities, move to establish within the Federal Aviation Administration (FAA) a performance-based organization to be known as the ‘‘Air Traffic Organization’’ (ATO).

(b) The ATO shall be composed of those elements of the FAA’s Air Traffic Services and Research and Acquisition organizations that have direct connection and give support to the provision of day-to-day operational air traffic services, as determined by the Administrator of the Federal Aviation Administration (Administrator). The Administrator may delegate responsibility for any operational activity of the air traffic control system to the head of the ATO. The Administrator’s responsibility for general safety, security, and policymaking functions for the National Airspace System is unaffected by this order.

(c) The Chief Operating Officer (COO) of the Air Traffic Control System, established by the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (Air-21) (Public Law 106–181) [see Short Title of 2000 Amendments note set out under section 40101 of this title], shall head the ATO and shall report directly to the Administrator and be subject to the authority of the Administrator. The COO, in consultation with the Air Traffic Control Subcommittee of the Aviation Management Advisory Committee, shall enter into an annual performance agreement with the Administrator that sets forth measurable, right, privilege, or benefit incident to or arising out of any such status, office, rank, or grade, except to the extent that sub-

may receive an annual bonus not to exceed 30 percent of the annual rate of basic pay, based upon the Administrator’s evaluation of the COO’s performance in relation to the targets and goals described above.

(d) The COO shall develop a 5-year strategic plan for the air traffic control system, including a clear statement of the mission and objectives for the system’s safety, efficiency, and productivity. This strategic plan must ensure that ATO actions are consistent with long-term FAA strategies for the aviation system as a whole.

(e) The COO shall also enter into a framework agreement with the Administrator that will establish the relationship of the ATO with the other organizations of the FAA.

§ 2. Purpose. The FAA’s primary mission is to ensure the safety, security, and efficiency of the National Airspace System. The purpose of this order is to enhance that mission and further improve the delivery of air traffic services to the American public by reorganizing the FAA’s air traffic services and related offices into a performance-based, results-oriented, organization. The ATO will be better able to make use of the unique procurement and personnel authorities that the FAA currently has and to better use the additional management reforms enacted by the Congress this year under Air-21. Specifically, the ATO shall:

(a) optimize use of existing management flexibilities and authorities to improve the efficiency of air traffic services and increase the capacity of the system;

(b) develop methods to accelerate air traffic control modernization and to improve aviation safety related to air traffic control;

(c) develop agreements with the Administrator of the FAA and users of the products, services, and capabilities it will provide;

(d) operate in accordance with safety performance standards developed by the FAA and rapidly respond to FAA safety and security oversight findings;

(e) consult with its customers, the traveling public, including direct users such as airlines, cargo carriers, manufacturers, airports, general aviation, and commercial space transportation providers, and focus on producing results that satisfy the FAA’s external customer needs;

(f) consult with appropriate Federal, State, and local public agencies, including the Department of Defense and the National Aeronautics and Space Administration, to determine the best practices for meeting the diverse needs throughout the National Airspace System;

(g) establish strong incentives to managers for achieving results; and

(h) formulate and recommend to the Administrator any management, fiscal, or legislative changes necessary for the organization to achieve its performance goals.

§ 3. Aviation Management Advisory Committee. The Air Traffic Control Subcommittee of the Aviation Management Advisory Committee shall provide, consistent with its responsibilities under Air-21, general oversight to ATO regarding the administration, management, conduct, direction, and supervision of the air traffic control system.

§ 4. Evaluation and Report. Not later than 5 years after the date of this order, the Aviation Management Advisory Committee shall provide to the Secretary and the Administrator a report on the operation and effectiveness of the ATO, together with any recommendations for management, fiscal, or legislative changes to enable the organization to achieve its goals.

§ 5. Definitions. The term “air traffic control system” has the same meaning as the term defined by section 49102(a)(22) [now 49102(a)(47)] of title 49, United States Code.

§ 6. Judicial Review. This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right to administrative or judicial review, or any right, whether substantive or procedural, enforceable by any party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

Prioritizing Statutory Rulemakings

Pub. L. 114–94, div. A, title V, § 5204, Dec. 4, 2015, 129 Stat. 1543, provided that: The Federal Motor Carrier Safety Administration shall prioritize the completion of each outstanding rulemaking required by statute before beginning any other rulemaking, unless the Secretary of Transportation determines that there is a significant need for such other rulemaking and notifies Congress of such determination.

Findings

Pub. L. 106–159, § 3, Dec. 9, 1999, 113 Stat. 1749, provided that: "Congress makes the following findings:

"(1) the current rate, number, and severity of crashes involving motor carriers in the United States are unacceptable.

"(2) the number of Federal and State commercial motor vehicle and operator inspections is insufficient and civil penalties for violators must be utilized to deter future violations.

"(3) the Department of Transportation is failing to meet statutorily mandated deadlines for completing rulemaking proceedings on motor carrier safety and, in some significant safety rulemaking proceedings, including driver hours-of-service regulations, extensive periods have elapsed without progress toward resolution or implementation.

"(4) too few motor carriers undergo compliance reviews and the Department's data bases and information systems require substantial improvement to enhance the Department's ability to target inspection and enforcement resources toward the most serious safety problems and to improve States' ability to keep dangerous drivers off the roads.

"(5) additional safety inspectors and inspection facilities are needed in international border areas to ensure that commercial motor vehicles, drivers, and carriers comply with United States safety standards.

"(6) the Department should rigorously avoid conflicts of interest in federally funded research."
"(7) Meaningful measures to improve safety must be implemented expeditiously to prevent increases in motor carrier crashes, injuries, and fatalities.

"(8) Proper use of Federal resources is essential to the Department's ability to improve its research, rulemaking, oversight, and enforcement activities related to commercial motor vehicles, operators, and carriers.

PURPOSES

"(1) to improve the administration of the Federal motor carrier safety program and to establish a Federal Motor Carrier Safety Administration in the Department of Transportation; and

"(2) to reduce the number and severity of large-truck involved crashes through more commercial motor vehicle and operator inspections and motor carrier compliance reviews, stronger enforcement measures against violators, expedited completion of rulemaking proceedings, scientifically sound research, and effective commercial driver's license testing, recordkeeping and sanctions."

SAVINGS PROVISION

"(2) that are in effect on the effective date of such transfer (or become effective after such date pursuant to their terms as in effect on such effective date),

shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked in accordance with law by the Administration, any other authorized official, a court of competent jurisdiction, or operation of law.

"(c) PROCEEDINGS.—

"(1) IN GENERAL.—The provisions of this Act shall not affect any proceedings or any application for any license pending before the Office at the time this Act takes effect [see Effective Date of 1999 Amendment note set out under section 104 of this title], insofar as those functions are transferred by this Act; but such proceedings and applications, to the extent that they relate to functions so transferred, shall be continued. "(2) STATUTORY CONSTRUCTION.—Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any proceeding described in paragraph (1) under the same terms and conditions and to the same extent that such proceeding could have been discontinued or modified if this Act had not been enacted.

"(3) ORDERLY TRANSFER.—The Secretary is authorized to provide for the orderly transfer of pending proceedings from the Office.

"(d) SUITS.—

"(1) IN GENERAL.—This Act shall not affect suits commenced before the date of the enactment of this Act [Dec. 9, 1999], except as provided in paragraphs (2) and (3). EX. ORD. NO. 13274. ENVIRONMENTAL STEWARDSHIP AND TRANSPORTATION INFRASTRUCTURE PROJECT REVIEWS

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance environmental stewardship and streamline the environmental review and development of transportation infrastructure projects, it is hereby ordered as follows:

SECTION 1. Policy. The development and implementation of transportation infrastructure projects in an efficient and environmentally sound manner is essential to the well-being of the American people and a strong American economy. Executive departments and agencies (agencies) shall take appropriate actions, to the extent consistent with applicable law and available resources, to promote environmental stewardship in the Nation’s transportation system and expedite environmental reviews of high-priority transportation infrastructure projects.

SEC. 2. Actions. (a) For transportation infrastructure projects, agencies shall, in support of the Department of Transportation, formulate and implement administrative, policy, and procedural mechanisms that enable each agency required by law to conduct environmental reviews (reviews) with respect to such projects to ensure completion of such reviews in a timely and environmentally responsible manner.

(b) In furtherance of the policy set forth in section 1 of this order, the Secretary of Transportation, in coordination with agencies as appropriate, shall advance environmental stewardship through cooperative actions with project sponsors to promote protection and enhancement of the natural and human environment in the planning, development, operation, and maintenance of transportation facilities and services.

(c) The Secretary of Transportation shall designate for the purposes of this order a list of high-priority transportation infrastructure projects that should receive expedited agency reviews and shall amend such list from time to time as the Secretary deems appropriate. For projects on the Secretary’s list, agencies shall to the maximum extent practicable expedite their reviews for relevant permits or other approvals, and take related actions as necessary, consistent with available resources and applicable laws, including those relating to safety, public health, and environmental protection.

SEC. 3. Interagency Task Force. (a) Establishment. There is established, within the Department of Transportation for administrative purposes, the interagency “Transportation Infrastructure Streamlining Task Force” (Task Force) to: (i) monitor and assist agencies in their efforts to expedite a review of transportation infrastructure projects and issue permits or similar actions, as necessary; (ii) review projects, at least quarterly, on the list of priority projects pursuant to section 2(c) of this order; and (iii) identify and promote policies that can effectively streamline the process required to provide approvals for transportation infrastructure projects, in compliance with applicable law, while maintaining safety, public health, and environmental protection.

(b) Membership and Operation. The Task Force shall promote interagency cooperation and the establishment of appropriate mechanisms to coordinate Federal, State, tribal, and local agency consultation, review, approval, and permitting of transportation infrastructure projects. The Task Force shall consist exclusively of the following officers of the United States: the Secretary of Agriculture, Secretary of Commerce, Secretary of Transportation (who shall chair the Task Force), Secretary of the Interior, Secretary of Defense, Secretary of Homeland Security, Administrator of the Environmental Protection Agency, Chairman of the Advisory Council on Historic Preservation, and Chairman of the Council on Environmental Quality. A member of the Task Force may designate, to perform the Task Force functions of the member, any person who is part of the member’s department, agency, or office and who is either an officer of the United States appointed by the President with the advice and consent of the Senate or a member of the Senior Executive Service. The Task Force shall report to the President through the Chairman of the Council on Environmental Quality.

SEC. 4. Report. At least once each year, the Task Force shall submit to the President a report that: (a) Describes the results of the coordinated and expedited reviews on a project-by-project basis, and identifies those procedures and actions that proved to be most useful and appropriate in coordinating and expediting the review of the projects.

(b) Identifies substantive and procedural requirements of Federal, State, tribal, and local laws, regulations, and Executive Orders that are inconsistent with, duplicative of, or are structured so as to restrict their efficient implementation with other applicable requirements.

(c) Makes recommendations regarding those additional actions that could be taken to: (i) address the coordination and expediting of reviews of transportation infrastructure projects by simplifying and harmonizing applicable substantive and procedural requirements; and (ii) elevate and resolve controversies among Federal, State, tribal, and local agencies related to an environmental review or impacts of transportation infrastructure projects in a timely manner.

(d) Provides any other recommendations that would, in the judgement of the Task Force, advance the policy set forth in section 1 of this order.

SEC. 5. Preservation of Authority. Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, and legislative proposals.

SEC. 6. Judicial Review. This order is intended only to improve the internal management of the Federal Government and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

GEORGE W. BUSH.

§ 302. Policy standards for transportation

(a) The Secretary of Transportation is governed by the transportation policy of sections 10101 and 13101 of this title in addition to other laws.

(b) This subtitle and chapters 221 and 315 of this title do not authorize, without appropriate
action by Congress, the adoption, revision, or implementation of a transportation policy or investment standards or criteria.

(c) The Secretary shall consider the needs—

(1) for effectiveness and safety in transportation systems; and

(2) of national defense.

(d) (1) It is the policy of the United States to promote the construction and commercialization of high-speed ground transportation systems by—

(A) conducting economic and technological research;

(B) demonstrating advancements in high-speed ground transportation technologies;

(C) establishing a comprehensive policy for the development of such systems and the effective integration of the various high-speed ground transportation technologies; and

(D) minimizing the long-term risks of investors.

(2) It is the policy of the United States to establish in the shortest time practicable a United States designed and constructed magnetic levitation transportation technology capable of operating along Federal-aid highway rights-of-way, as part of a national transportation system of the United States.

(e) INTERMODAL TRANSPORTATION.—It is the policy of the United States Government to encourage and promote development of a national intermodal transportation system in the United States to move people and goods in an energy-efficient manner, provide the foundation for improved productivity growth, strengthen the Nation's ability to compete in the global economy, and obtain the optimum yield from the Nation's transportation resources.

In subsection (a), the words "in carrying out his duties and responsibilities under this chapter" before "Secretary of Transportation" are omitted as surplus. The words the transportation policy of sections 10101 and 10101a of this title in addition to other laws" are substituted for "all applicable statutes including the policy standards set forth in the Federal Aviation Act of 1958, as amended [49 U.S.C. 1301 et seq.]; the national transportation policy of the Interstate Commerce Act, as amended; title 23, relating to Federal-aid highways; and title 49, sections 52 and 53 of the Revised Statutes, the Act of April 25, 1940, as amended, and the Act of September 2, 1958, as amended, relating to the United States Coast Guard" because each of the omitted laws is now applicable to the Secretary of Transportation and the Department of Transportation as the result of the restatement of those laws, and the Secretary is therefore bound to follow those laws by their own terms.

In subsection (c), the words "in exercising the functions, powers, and duties conferred on and transferred to the Secretary by this chapter" before "Secretary" are omitted as surplus. The word "consider" is substituted for "give full consideration to" to eliminate surplus words. The words the functions transferred after "the needs" are omitted as executed.

(1) the lead authority makes a determination, with the concurrence of the cooperating authority—

(A) on the applicability of a categorical exclusion to a proposed multimodal project; and

3. defense features included at the direction of the Department of Defense in designing and constructing civil air, sea, or land transportation;
4. foreign assistance programs;
5. water resources projects; or
6. grant-in-aid programs authorized by law.

(b) A department, agency, or instrumentality of the Government preparing a survey, plan, or report that includes a proposal about which the Secretary has prescribed standards and criteria under subsection (a) of this section shall—

1. prepare the survey, plan, or report under those standards and criteria and on the basis of information provided by the Secretary on the—
   (A) projected growth of transportation needs and traffic in the affected area;
   (B) the relative efficiency of various modes of transportation;
   (C) the available transportation services in the area; and
   (D) the general effect of the proposed investment on existing modes of transportation and on the regional and national economy;

In subsection (a), before clause (1), the words “consistent with national transportation policies” after “develop standards and criteria” are omitted as unnecessary because of section 302 of the revised title. The words “Based on experience” are substituted for “in the light of experience”, and the words “shall prescribe” are substituted for “be promulgated by the”, to conform to other sections of the revised title. The words “from time to time” after “shall revise” are omitted as unnecessary. The words “This subsection does not apply to” are substituted for “except such proposals as are concerned with” for clarity. In clause (1), the words “a department, agency, or instrumentality of the Government” are substituted for “Federal agencies” for clarity and consistency. Similar conforming changes are made throughout the section. The word “services” after “provide transportation” is omitted as unnecessary. In clause (2), the words “48 contiguous States” are substituted for “contiguous United States” for clarity.

The text of 49:1656(a) (last par.) that provided that the Secretary of Transportation was a member of the Water Resources Council on matters pertaining to navigation features of water resource projects is omitted as superseded because 42:1962(a) gave the Secretary membership on the Council without limitation.

In subsection (b)(2), the words “unit of” before “governments” are omitted as surplus. In clause (3), the word “thereafter” after “send” is omitted as surplus.
§ 306. Prohibited discrimination

(a) In this section, “financial assistance” includes obligation guarantees.

(b) A person in the United States may not be excluded from participating in, be denied the benefits of, or be subject to discrimination under, a project, program, or activity because of race, color, national origin, or sex when any part of the project, program, or activity is financed through financial assistance under section 332 or 333 or chapter 221 or 249 of this title, section 211 or 216 of the Regional Rail Revitalization Act of 1973 (45 U.S.C. 721, 726), or title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 et seq.).

(c) When the Secretary of Transportation decides that a person receiving financial assistance under a law referred to in subsection (b) of this section has not complied with that subsection, a Federal civil rights law, or an order or regulation issued under a Federal civil rights law, the Secretary shall notify the person of the decision and require the person to take necessary action to ensure compliance with that subsection.

(d) If a person does not comply with subsection (b) of this section within a reasonable time after receiving a notice under subsection (c) of this section, the Secretary shall take at least one of the following actions:

(1) direct that no more Federal financial assistance be provided the person.

(2) refer the matter to the Attorney General with a recommendation that a civil action be brought against the person.

(3) carry out the duties and powers provided by title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

(4) take other action provided by law.

(e) When a matter is referred to the Attorney General under subsection (d)(2) of this section, or when the Attorney General has reason to believe that a person is engaged in a pattern or practice violating this section, the Attorney General may begin a civil action in a district court of the United States for appropriate relief.

In subsection (b), the enumerated laws are substituted for “through financial assistance under this Act”, meaning the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94–210, 90 Stat. 31) and laws amended by that Act. The laws cited in the subsection are substituted for “through financial assistance under this Act” for clarity. The enumerated laws include provisions of the Railroad Revitalization and Regulatory Reform Act of 1976 that amend other laws as well as provisions that are not amendments to other laws. In subsection (c), the word “determines” for consistency. The word “ensure” is substituted for “assure” as being more precise.

In subsection (d), the words “at least one of the following actions” are substituted for “and/or” for clarity and consistency.

In subsection (e), the text of 45:803(d) is omitted as unnecessary because section 322 of the revised title gives the Secretary of Transportation general authority to prescribe regulations and other provisions of the revised title give the Secretary general authority to carry out his duties and powers. The text of 45:803(e) is omitted as unnecessary.

This is necessary to correct a cross-reference in section 306(b) and to reflect the transfer of the non-positive law provisions of title 49 to title 49 appendices.
(b) ACTIVITIES ELIGIBLE FOR FUNDING.—Activities for which funds may be provided under subsection (a) include transportation planning activities that precede the initiation of the environmental review process, activities directly related to the environmental review process, dedicated staffing, training of agency personnel, information gathering and mapping, and development of programmatic agreements.

(c) AMOUNTS.—A request under subsection (a) may be approved only for the addition amounts that the Secretary determines are necessary for the Federal agencies, State agencies, or Indian tribes participating in the environmental review process to timely conduct the review.

(d) AGREEMENTS.—Prior to providing funds approved by the Secretary for dedicated staffing at an affected Federal agency under subsection (a), the affected Federal agency and the requesting public entity shall enter into an agreement that establishes a process to identify projects or priorities to be addressed by the use of the funds.

(e) GUIDANCE.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary shall issue guidance to implement this section.

(2) FACTORS.—As part of the guidance issued under paragraph (1), the Secretary shall ensure—

(A) to the maximum extent practicable, that expediting and improving the process of environmental review and permitting through the use of funds accepted and expended under this section does not adversely affect the timeline for review and permitting by Federal agencies, State agencies, or Indian tribes of other entities that have not contributed funds under this section;

(B) that the use of funds accepted under this section will not impact impartial decisionmaking with respect to environmental reviews or permits, either substantively or procedurally; and

(C) that the Secretary maintains, and makes publicly available, including on the Internet, a list of projects or programs for which such review or permits have been carried out using funds authorized under this section.

(f) EXISTING AUTHORITY.—Nothing in this section may be construed to conflict with section 139(j) of title 23.

"(B) AWARD OF CONTRACTS.—Not later than 15 months after the date of the enactment of this Act, the Secretary and the Assistant Secretary shall, based on the recommendations of the program director and the potential for further development of such designs, award 1-year contracts for research and development to no fewer than 5 eligible applicants. If fewer than 5 complete applications have been received, contracts shall be awarded to as many eligible applicants as is practical.

"(C) FACTORS AND CONDITIONS TO BE CONSIDERED.—The Secretary and the Assistant Secretary may approve contracts under subparagraph (B) only after consideration of factors relating to the construction and operation of a magnetic levitation system, including the cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along the Interstate highway rights-of-way, the potential jointly that no design be a national standard, the applicant’s resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors and only if the applicant agrees to submit a report to the Maglev Project Office detailing the results of the research and development and agrees to provide for matching of the phase one contract at a 50 percent Federal, 50 percent non-Federal, cost share.

"(3) PHASE TWO CONTRACTS.—Within 3 months of receiving the final reports of contract activities under paragraph (2), and based on the recommendations of the program director, the Secretary and the Assistant Secretary shall select not more than 3 eligible applicants from among the contract recipients submitting reports under paragraph (2) to receive 18-month contracts for research and development leading to a detailed design for a prototype maglev system. The Secretary and the Assistant Secretary may only award contracts under this paragraph if—

"(A) they determine that the applicant has demonstrated technical merit for the conceptual design and the potential for further development of such design into an operational prototype as described in paragraph (4).

"(B) the applicant agrees to submit the detailed design within such 18-month period to the Maglev Project Office and the selection committee described in paragraph (4), and

"(C) the applicant agrees to provide for matching of the phase two contract at a 80 percent Federal, 20 percent non-Federal, cost share.

"(4) PROTOTYPE.—

"(A) SELECTION OF DESIGN.—Within 6 months of receiving the detailed designs developed under paragraph (3), the Secretary and the Assistant Secretary shall, based on the recommendations of the selection committee described in this subparagraph, select 1 design for development into a full-scale prototype, unless the Secretary and the Assistant Secretary determine that no design shall be selected based on an assessment of technical feasibility and projected cost of construction and operation of the prototype. A selection committee of 6 members, consisting of—

"(i) 1 member to be appointed by the Secretary,

"(ii) 1 member to be appointed by the Assistant Secretary,

"(iii) 3 members to be appointed by the Senate majority and minority leaders, and

"(iv) 3 members to be appointed by the Speaker of the House and the minority leader of the House, shall be appointed not later than 1 year following the award of contracts under paragraph (3). The selection committee, within 3 months of receiving the detailed designs developed under paragraph (3), shall make a recommendation to the Secretary and the Assistant Secretary as to the best prototype design and the suitability of any design. The program director shall provide technical reviews of the phase two contract reports to the selection committee and otherwise provide any technical assistance that the committee requires to assist it in making a recommendation. In the event that the Secretary and the Assistant Secretary determine jointly not to select a design for development under this subsection, they shall report to Congress on the basis for such determination, together with recommendations for future action, including further research, development, or design, termination of the program, or such other action as may be appropriate.

"(B) AWARD OF CONSTRUCTION GRANT OR CONTRACT.—Unless the Secretary and the Assistant Secretary determine not to proceed pursuant to subparagraph (A), they shall, not later than 3 months after selection of a design for development into a full-scale prototype, and based on the recommendations of the program director, award 1 construction grant or contract to the applicant whose detailed design was selected under subparagraph (A) for the purpose of constructing a prototype maglev system in accordance with the selected design. Not more than 75 percent of the cost of the project shall be borne by the United States.

"(C) FACTORS TO BE CONSIDERED IN SELECTION.—Selection of the detailed design under this paragraph shall be based on consideration of the following factors, among others:

"(i) The project shall be capable of utilizing Interstate highway rights-of-way along or above a significant portion of its route, and may also use railroad rights-of-way along or above any portion of the railroad route.

"(ii) The total length of guideway shall be at least 19 miles and allow significant full-speed operations between stops.

"(iii) The project shall be constructed and ready for operational testing within 3 years after the award of the contract or grant.

"(iv) The project shall provide for the conversion of the prototype to commercial operation after testing and technical evaluation is completed.

"(v) The project shall be located in an area that provides a potential ridership base for future commercial operation.

"(vi) The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States.

"(vii) The project shall have at least 1 switch.

"(viii) The project shall be intermodal in nature connecting a major metropolitan area with an airport, port, passenger rail station, or other transportation mode.

"(D) ADDITIONAL FACTORS FOR CONSIDERATION.—In awarding a grant or contract under this paragraph, the Secretary shall encourage the development of domestic manufacturing capabilities. In selecting among eligible applicants, the Secretary shall consider existing railroads and equipment manufacturers with excess production capacity, including railroads that have experience in advanced technologies (including self-propelled cars).

"(E) LICENSING.—

"(A) PROPRIETARY RIGHTS.—No trade secrets or commercial or financial information that is privileged or confidential, under the meaning of section 552(b)(4) of title 5, United States Code, which is obtained from a United States business, research, or education entity as a result of activities under this subsection shall be disclosed.

"(B) COMMERCIAL INFORMATION.—The research, development, and use of any technology developed pursuant to an agreement reached pursuant to this subsection, including the terms under which any technology may be licensed and the resulting royalties
may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701–3714). In addition, the Secretary and the Assistant Secretary may require any grant or contract recipient to assure that research and development be performed substantially in the United States and that the products embodying the inventions made under any agreement pursuant to this subsection or produced through the use of such inventions be manufactured substantially in the United States.

"(6) Exports.—The Secretary and the Assistant Secretary shall provide periodic reports to Congress on progress made under this subsection.

"(7) Eligible applicant defined.—For purposes of this subsection, the term 'eligible applicant' means a United States private business, United States public or private education and research organization, Federal laboratory, or a consortium of such businesses, organizations, and laboratories."

§ 310. Aligning Federal environmental reviews

(a) Coordinated and Concurrent Environmental Reviews.—Not later than 1 year after the date of enactment of this section, the Department of Transportation, in coordination with the heads of Federal agencies likely to have substantive review or approval responsibilities under Federal law, shall develop a coordinated and concurrent environmental review and permitting process for transportation projects when initiating an environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) (in this section referred to as "NEPA").

(b) Contents.—The coordinated and concurrent environmental review and permitting process developed under subsection (a) shall—

(1) ensure that the Department of Transportation and agencies of jurisdiction possess sufficient information early in the review process to determine a statement of a transportation project’s purpose and need and range of alternatives for analysis that the lead agency and agencies of jurisdiction will rely on for concurrent environmental reviews and permitting decisions required for the proposed project;

(2) achieve early concurrence or issue resolution during the NEPA scoping process on the Department of Transportation’s statement of a project’s purpose and need, and during development of the environmental impact statement on the range of alternatives for analysis, that the lead agency and agencies of jurisdiction will rely on for concurrent environmental reviews and permitting decisions required for the proposed project;

(3) achieve concurrence or issue resolution in an expedited manner if circumstances arise that require reconsideration of the purpose and need or range of alternatives considered during any Federal agency’s environmental or permitting review in order to meet an agency of jurisdiction’s obligations under a statute or Executive order; and

(c) Environmental Checklist.—

(1) In General.—Not later than 90 days after the date of enactment of this section, the Secretary of Transportation and Federal agencies of jurisdiction likely to have substantive review or approval responsibilities on transportation projects shall jointly develop a checklist to help project sponsors identify potential natural, cultural, and historic resources in the area of a proposed project.

(2) Purpose.—The purpose of the checklist shall be to—

(A) identify agencies of jurisdiction and cooperating agencies;

(B) develop the information needed for the purpose and need and alternatives for analysis; and

The United States Railway Association abolished effective Apr. 1, 1987, all powers, duties, rights, and obligations of Association relating to Consolidated Rail Corporation under the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.) transferred to Secretary of Transportation on Jan. 1, 1987, and any securities of Corporation held by Association transferred to Secretary of Transportation on Oct. 21, 1986, see section 1341 of Title 45, Railroads.

§ 333. Responsibility for rail transportation unification and coordination projects

(a) The Secretary of Transportation may develop and make available to interested persons any plans, proposals, and recommendations for mergers, consolidations, reorganizations, and other unification or coordination projects for rail transportation (including arrangements for joint use of tracks and other facilities and acquisition or sale of assets) that the Secretary believes will result in a rail system that is more efficient and consistent with the public interest.

(b) To achieve a more efficient, economical, and viable rail system in the private sector, the Secretary, when requested by a rail carrier and under this section, may assist in planning, negotiating, and carrying out a unification or coordination of operations and facilities of at least 2 rail carriers.

(c)(1) The Secretary may conduct studies to determine the potential cost savings and possible improvements in the quality of rail transportation that are likely to result from unification or coordination of at least 2 rail carriers, through—

(A) elimination of duplicating or overlapping operations and facilities;

(B) reducing switching operations;

(C) using the shortest or more efficient and economical routes;

(D) exchanging trackage rights;

(E) combining trackage and terminal or other facilities;

(F) upgrading tracks and other facilities used by at least 2 rail carriers;

(G) reducing administrative and other expenses; and

(H) other measures likely to reduce costs and improve rail transportation.

(2) When the Secretary requests information for a study under this section, a rail carrier shall provide the information requested. In carrying out this section, the Secretary may designate an officer or employee to get from a rail carrier information on the kind, quality, origin, destination, consignor, consignee, and routing of
property. This information may be obtained without the consent of the consignor or consignee notwithstanding section 11904 of this title. When appropriate, the designated officer or employee has the powers described in section 203(c) of the Regional Rail Reorganization Act of 1973 to carry out this section, but a subpoena must be issued under the signature of the Secretary.

(d)(1) When requested by a rail carrier, the Secretary may hold conferences on and mediate disputes resulting from a proposed unification or coordination project. The Secretary may invite to a conference—

(e) When the approval of a proposal submitted by a rail carrier for a merger or other action is subject to the jurisdiction of the Surface Transportation Board under section 11323(a) of this title, the Secretary may study the proposal to decide whether it satisfies section 11324(b) of this title. When the proposal is the subject of an application and proceeding before the Board, the Secretary may appear in any proceeding related to the application.

L. 89–670, 80 Stat. 831), because 49:1655(f)(2) gave the Secretary of Transportation the same powers enumerated in 49:1655(f)(2) that the Interstate Commerce Commission had before certain duties and powers under 49:1655(e) were transferred on April 1, 1967, from the Commission to the Secretary. All references to brokers in the source provisions are omitted as not being applicable to the duties and powers transferred to the Secretary of Transportation.

Subsection (a) is included to ensure that the identical definitions that are relevant are used without repeating them. The source provisions for the definitions are found in the revision notes for sections 3101, 3102(c), and 10102 of the revised title.

In subsection (b), the provisions of law to which the chapter applies are only certain laws listed in 49:1655(e).

Those laws include the source provisions restated in chapter 31 of the revised title and 45:4, 5, 6 (in carrying out 45:4 and 5), 11, 12, 13 (proviso), 13 (less proviso in carrying out 45:11, 12, and 13 (proviso)), and 61–64b, and 49:26(a)(f) (words before last semicolon) and (h). The administrative powers of the Secretary under the chapter are based on the administrative powers of 49:1655(f)(2). That provision lists administrative powers the Commission had under the Interstate Commerce Act or to which the powers of the Commission under the Act were applied. The text of 49:61–64b is included because section 4 of the Act of March 4, 1907 (ch. 299, 34 Stat. 1417), stated, “It shall be the duty of the Interstate Commerce Commission to execute and enforce the provisions of this Act, and all powers granted to the Interstate Commerce Commission are hereby extended to it in the execution of this Act”. The transfer to the Secretary was executed on March 31, 1967. The Act of March 4, 1907, was restated by the Act of December 26, 1969 (Pub. L. 91–169, 83 Stat. 463); section 4 was not included in the restatement. However, repeal by implication is not favored and the transfer was completed on March 31, 1967. Therefore, the text of 49:61–64b is included within the scope of the chapter. The text of 49:304(a)(3) (last sentence 1st–7th words) and (a)(3a) (last sentence 1st–5th words) is omitted as executed.

PUBL. L. 103–272

Section 4(j)(11) makes conforming amendments to 49:ch. 5 to reflect the restatement of 49:508 and related provisions in chapter 59 of the revised title.

AMENDMENTS

1 Section catchline amended by Pub. L. 112–141 without corresponding amendment of chapter analysis.
§ 502. General authority

(a) The Secretary of Transportation shall carry out this chapter.

(b) The Secretary may—

(1) inquire into and report on the management of the business of rail carriers and motor carriers;

(2) inquire into and report on the management of the business of a person controlling, controlled by, or under common control with those carriers to the extent that the business of the person is related to the management of the business of that carrier; and

(3) obtain from those carriers and persons information the Secretary determines to be necessary.

(c) In carrying out this chapter as it applies to motor carriers, motor carriers of migrant workers, and motor private carriers, the Secretary may—

(1) confer and hold joint hearings with State authorities;

(2) cooperate with and use the services, records, and facilities of State authorities; and

(3) make cooperative agreements with a State to enforce the safety laws and regulations of a State and the United States related to highway transportation.

(d) The Secretary may subpoena witnesses and records related to a proceeding or investigation under this chapter from a place in the United States to the designated place of the proceeding or investigation. If a witness disobeys a subpoena, the Secretary, or a party to a proceeding or investigation before the Secretary, may petition the district court for the judicial district in which the proceeding or investigation is conducted to enforce the subpoena. The court may punish a refusal to obey an order of the court to comply with a subpoena as a contempt of court.

(e)(1) In a proceeding or investigation, the Secretary may take testimony of a witness by deposition and may order the witness to produce records. A party to a proceeding or investigation pending before the Secretary may take the testimony of a witness by deposition and may require the witness to produce records at any time after a proceeding or investigation is at issue, on petition and answer. If a witness fails to be deposed or to produce records under this subsection, the Secretary may subpoena the witness to take a deposition, produce the records, or both.

(2) A deposition may be taken before a judge of a court of the United States, a United States magistrate judge, a clerk of a district court, or a chancellor, justice, or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of a county court, or court of common pleas of any State, or a notary public who is not counsel or attorney of a party or interested in the proceeding or investigation.

(3) Before taking a deposition, reasonable notice must be given in writing by the party or the attorney of that party proposing to take a deposition to the opposing party or the attorney of record of that party, whoever is nearest. The notice shall state the name of the witness and the time and place of taking the deposition.

(4) The testimony of a person deposed under this subsection shall be taken under oath. The person taking the deposition shall prepare, or cause to be prepared, a transcript of the testimony taken. The transcript shall be subscribed by the deponent.

(5) The testimony of a witness who is in a foreign country may be taken by deposition before an officer or person designated by the Secretary or agreed on by the parties by written stipulation filed with the Secretary. The deposition shall be filed with the Secretary promptly.

(6) Each witness summoned before the Secretary or whose deposition is taken under this section and the individual taking the deposition are entitled to the same fees and mileage paid for those services in the courts of the United States.

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The text of 49:305(a)–(c), (e), and (g)–(j) is not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In subsection (d), the reference to joint boards in 49:305(d) is omitted as not applicable to this chapter because the Secretary of Transportation already has authority under chapter 3 of the revised title to make recommendations to Congress. In subsections (c)–(f), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

In subsection (c), the words “economic and” are omitted as not being transferred to the Secretary. The text of 49:305(f) (last sentence) is omitted as not applicable to this chapter.

In subsection (d), the reference to joint boards in 49:305(d) is omitted as not applicable to this chapter because 49:305(a) (establishing joint boards) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The section is included because 49:1655(e)(6)(D) transferred to the Secretary of Transportation all functions, powers, and duties of the Interstate Commerce Commission under 49:321(a) and (c) to the extent those subsections relate to motor carriers of migrant workers and motor private carriers. The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In the section, the words “motor carriers” are omitted because 49:1655(e)(6)(D) applies 49:321(a) and (c) only to motor carriers of migrant workers, other than motor carriers operating in the United States while providing transportation between places in a foreign country or between a place in one foreign country and a place in another foreign country, shall designate an agent in each State in which it operates by name and post office address on whom process issued by a court with subject matter jurisdiction may be served in an action brought against that carrier. The designation shall be in writing and filed with the Secretary and with the authority of each State in which the carrier operates having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of that State.
§ 504. Reports and records

(a) In this section—

(1) “association” means an organization maintained by or in the interest of a group of rail carriers, motor carriers, motor carriers of migrant workers, or motor private carriers that performs a service, or engages in activities, related to transportation of that carrier.

(2) “carrier” means a motor carrier, motor carrier of migrant workers, motor private carrier, and rail carrier.

(3) “lessor” means a person owning a road that is leased to and operated by a rail carrier, and a person leasing a right to operate as a motor carrier, motor carrier of migrant workers, or motor private carrier to another.

(4) “lessor” and “carrier” include a receiver or trustee of that lessor or carrier, respectively.

(b)(1) The Secretary of Transportation may prescribe the form of records required to be prepared or compiled under this section by—

(A) carriers and lessors; and

(B) a person furnishing cars or protective service against heat or cold to or for a rail carrier.

(2) The Secretary may require—

(A) carriers, lessors, associations, or classes of them as the Secretary may prescribe, to file annual, periodic, and special reports with the Secretary containing answers to questions asked by the Secretary; and

(B) a person furnishing cars or protective service against heat or cold to or for a rail carrier to file reports with the Secretary containing answers to questions asked by the Secretary.

(c) The Secretary, or an employee (and, in the case of a motor carrier, a contractor, or an employee of the recipient of a grant issued under section 501 of the revised title for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

1. (1) An annual report shall contain an account, in as much detail as the Secretary may require, of the affairs of a carrier, lessor, or association for the 12-month period ending on the 31st day of December of each year. The annual report shall be filed with the Secretary by the end of the 3d month after the end of the year for which the report is made unless the Secretary extends the filing date or changes the period covered by the report.

2. The annual report and, if the Secretary requires, any other report made under this section shall be made under oath.

3. No part of a report of an accident occurring in operations of a motor carrier, motor carrier of migrant workers, or motor private carrier and required by the Secretary, and no part of a report of an investigation of the accident made by the Secretary, may be admitted into evidence or used in a civil action for damages related to a matter mentioned in the report or investigation.

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:
The provisions of 49:330(c) are not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In the section, the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed. The text of 49:220(b) (related to 12th–13th words) is not included because it was enacted after the effective date of the transfer authority under 49:1655.

In subsection (a), references to “water line” and “pipe line” are omitted as not applicable to this chapter. Clause (2) is added to provide a simple phrase to refer to all types of carriers to which the section applies.

In subsection (f), the words “the course of the” are omitted as surplus. The words “civil action” are substituted for “suit or action” because of rule 2 of the Federal Rules of Civil Procedure (29 App. U.S.C.).

**AMENDMENTS**

2012—Subsec. (c). Pub. L. 112–141 inserted ‘‘or’’, an employee of the recipient of a grant issued under section 3102 of this title’’ after ‘‘contractor’’ and ‘‘person or in writing’’ after ‘‘proper credentials’’ in introductory provisions.

**EFFECTIVE DATE OF 2012 AMENDMENT**

§ 505. Arrangements and public records

(a) The Secretary of Transportation may require a motor carrier, motor carrier of migrant workers, or motor private carrier to file a copy of each arrangement related to a matter under this chapter that it has with another person. The Secretary may disclose the existence or contents of an arrangement between a motor contract carrier and a shipper filed under this section only if the disclosure is consistent with the public interest and is made as part of the record in a formal proceeding.

(b) Except as provided in subsection (a) of this section, all arrangements and statistics, tables, and figures contained in reports filed with the Secretary by a motor carrier under this chapter are public records. Such a public record, or a copy or extract of it, certified by the Secretary under seal is competent evidence in a proceeding of the Secretary, and, except as provided in section 504(f) of this title, in a judicial proceeding.

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsection (a), the text of 49:330(a) (proviso) is not included for motor carriers of migrant workers and motor private carriers because that provision, while included in the enumeration in 49:304(a)(3) and (3a), is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed. The words “also” and “with it” are omitted as surplus. The words “contract, agreement, or” are omitted as covered by “arrangement.” The words “carrier or” are omitted as covered by “person.” The words “related to a matter under this chapter” are substituted for “in relation to any traffic affected by the provisions of this chapter” for clarity because of section 501 of the revised title.

Subsection (b) does not apply to reports made to the Secretary by a rail carrier because 49:16(13) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The subsection does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. References to schedules, classifications, and tariffs are omitted as not applicable to this chapter. The words “Except as provided in section 504(f) of this title” are added for clarity. The words “except as provided in section 504(f) of this title” are added for clarity and consistency because of the restatement of the chapter.

§ 506. Authority to investigate

(a) The Secretary of Transportation may begin an investigation under this chapter on the initiative of the Secretary or on complaint. If the Secretary finds that a rail carrier, motor carrier, motor carrier of migrant workers, or motor private carrier is violating this chapter, the Secretary shall take appropriate action to compel compliance with this chapter. The Secretary may take action only after giving the carrier notice of the investigation and an opportunity for a proceeding.

(b) A person, including a governmental authority, may file with the Secretary a complaint about a violation of this chapter by a carrier referred to in subsection (a) of this section. The complaint must state the facts that are the subject of the violation. The Secretary may dismiss a complaint the Secretary determines does not state reasonable grounds for investigation and action. However, the Secretary may not dismiss a complaint made against a rail carrier because of the absence of direct damage to the complainant.

(c) The Secretary shall make a written report of each proceeding involving a rail carrier or
motor car carrier conducted and furnish a copy to each party to that proceeding. The report shall include the findings, conclusions, and the order of the Secretary. The Secretary may have the reports published for public use. A published report of the Secretary is competent evidence of its contents.

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsections (a) and (b), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

Subsection (a) is patterned after 49:304(c). The words “violating this chapter” are substituted for “failed to comply with any such provision or requirement” for clarity.

In subsection (b), the text of 49:13(2) (last sentence) is omitted because 49:13(3) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The words “referred to in subsection (a) of this section” are added for clarity.

Subsection (c) does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) applies only to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. The word “proceeding” is substituted for “investigation” for clarity and to conform to other sections of the revised title. The word “findings” is added for clarity. The word “decision” is omitted as covered by “conclusions”. The words “or requirement” are omitted as covered by “order”. The words “in the premises” are omitted as surplus. The words “and in case damages are awarded, such report shall include the findings of fact on which the award is made” are omitted as not applicable to this chapter. The words “entered of record”, “and decisions in such form and manner as may be best adapted for public information and use”, “in all courts of the United States and of the several States without any further proof or authentication thereof” are omitted as surplus. The text of 49:14(3) (last sentence) is omitted as unnecessary.

§ 507. Enforcement

(a) The Secretary of Transportation may bring a civil action to enforce—
(1) an order of the Secretary under this chapter when violated by a rail carrier; and
(2) this chapter or a regulation or order of the Secretary under this chapter and to prosecute a person violating this chapter or a regulation or order of the Secretary.

(b) The Attorney General may, and on request of the Secretary shall, bring court proceedings to enforce this chapter or a regulation or order of the Secretary under this chapter and to prosecute a person violating this chapter or a regulation or order of the Secretary.

(c) The Attorney General, at the request of the Secretary, may bring an action in an appropriate district court of the United States for equitable relief to redress a violation by any person of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title, or an order or regulation issued under any of those provisions. Such district court shall have jurisdiction to determine any such action and may grant such relief as is necessary or appropriate, including mandatory or prohibitive injunctive relief, interim equitable relief, and punitive damages.

(d) A person injured because a rail carrier or freight forwarder does not obey an order of the Secretary under this chapter may bring a civil action to enforce that order under this subsection.

(e) In a civil action brought under subsection (a) of this section against a motor carrier, motor carrier of migrant workers, or motor private carrier—
(1) trial is in the judicial district in which the carrier operates;
(2) process may be served without regard to the territorial limits of the district or of the State in which the action is brought; and
(3) a person participating in the carrier in a violation may be joined in the civil action without regard to the residence of the person.

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In the section, the text of 49:322(b)(2) and (3) is not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(i). In subsections (a) and (d), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

In subsection (a), the words “or of any term or condition of any certificate or permit” are omitted as not applicable to this chapter.

In subsection (a)(1), reference to a civil action to enforce an order for the payment of money is omitted as not applicable to this chapter.

“(a) ASSESSMENT.—Not later than 18 months after the date of enactment of this section (June 9, 1998), the Secretary of Transportation shall assess the scope of the problem of shippers, freight forwarders, brokers, consignees, or other persons (other than rail carriers, motor carriers, motor carriers of migrant workers, or motor private carriers) encouraging violations of chapter 5 of title 49, United States Code, or a regulation or order issued by the Secretary under such chapter.

(b) SUBMISSION OF IMPLEMENTATION PLAN.—After completion of the assessment under subsection (a), the Secretary shall submit to the Congress a plan for implementing authority (if subsequently provided by law) to investigate and bring civil actions to enforce chapter 5 of title 49, United States Code, or regulations or orders issued by the Secretary under such chapter with respect to persons described in subsection (a).

(c) CONTENTS OF IMPLEMENTATION PLAN.—In developing the implementation plan under subsection (b), the Secretary shall consider, as appropriate—

“(1) in what circumstances the Secretary would exercise the new authority;

“(2) how the Secretary would determine that shippers, freight forwarders, brokers, consignees, or other persons committed violations described in subsection (a), including what types of evidence would be conclusive;

“(3) what procedures would be necessary during investigations to ensure the confidentiality of shipper contract terms prior to the Secretary’s findings of violations;

“(4) what impact the exercise of the new authority would have on the Secretary’s resources, including whether additional investigative or legal resources would be necessary and whether the staff would need specialized education or training to exercise properly such authority;

“(5) to what extent the Secretary would conduct educational activities for persons who would be subject to the new authority; and

“(6) any other information that would assist the Congress in determining whether to provide the Secretary the new authority.”

(B) the motor carrier and any agents and insurers of the motor carrier have taken all precautions reasonably necessary to protect the records from disclosure to any person, except for such an insurer, not directly involved in deciding whether to hire that individual; and

(C) the motor carrier has used those records only to assess the safety performance of the individual who is the subject of those records in deciding whether to hire that individual.

(2) PERSON COMPLYING WITH REQUESTS.—Subsection (a) does not apply to a person complying with a request for safety performance records unless—

chapter 311 (except sections 31138 and 31139) or section 31502 of this title about transportation by motor carrier, motor carrier of migrant workers, or motor private carrier, or an officer, agent, or employee of that person.

(i) who does not make the report, does not specifically, completely, and truthfully answer that question in 30 days from the date the Secretary requires the question to be answered, or does not make, prepare, or preserve that record in the form and manner prescribed by the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed $1,000 for each offense, and each day of the violation shall constitute a separate offense, except that the total of all civil penalties assessed against any violator for all offenses related to any single violation shall not exceed $10,000; or

(ii) who knowingly falsifies, destroys, mutilates, or changes a required report or record, knowingly files a false report with the Secretary, knowingly makes or causes or permits to be made a false or incomplete entry in that record about an operation or business fact or transaction, or knowingly makes, prepares, or preserves a record in violation of a regulation or order of the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed $10,000 for each violation, if any such action can be shown to have misrepresented a fact that constitutes a violation other than a reporting or recordkeeping violation.

(C) VIOLATIONS PERTAINING TO CDLS.—Any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act which is a violation of section 31302, 31303, 31304, 31305(b), or 31310(g)(1)(A) of this title shall be liable to the United States for a civil penalty not to exceed $2,500 for each offense.

(D) DETERMINATION OF AMOUNT.—The amount of any civil penalty, and a reasonable time for abatement of the violation, shall by written order be determined by the Secretary, taking into account the nature, circumstances, extent and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

(E)(i) COPYING OF RECORDS AND ACCESS TO EQUIPMENT, LANDS, AND BUILDINGS.—A person subject to chapter 51 or a motor carrier, broker, freight forwarder, or owner or operator of a commercial motor vehicle subject to part B of subtitle VI who fails to allow promptly, upon demand, the Secretary (or an employee designated by the Secretary) to inspect and copy any record or inspect and examine equipment, lands, buildings and other property in accordance with sections 504(c), 5121(c), and 14122(b) shall be liable to the United States for a civil penalty not to exceed $1,000 for each offense. Each day the Secretary is denied the right to inspect and copy any record or inspect and examine equipment, lands, buildings and other property shall constitute a separate offense, except that the total of all civil penalties against any violator for all offenses related to a single violation shall not exceed $10,000. In the case of a motor carrier, the Secretary may also place the violator’s motor carrier operations out of service. It shall be a defense to a penalty that the records did not exist at the time of the Secretary’s request or could not be timely produced without unreasonable expense or effort. Nothing in this subparagraph amends or supersedes any remedy available to the Secretary under section 502(d), section 507(c), or any other provision of this title.

(ii) PLACE OUT OF SERVICE.—The Secretary may by regulation adopt procedures for placing out of service the commercial motor vehicle of a foreign-domiciled motor carrier that fails to promptly allow the Secretary to inspect and copy a record or inspect equipment, land, buildings, or other property.

(F) PENALTY FOR VIOLATIONS RELATING TO OUT OF SERVICE ORDERS.—A motor carrier or employer (as defined in section 31132) that operates a commercial motor vehicle in commerce in violation of a prohibition on transportation under section 31144(c) of this title or an imminent hazard out of service order issued under subsection (b)(5) of this section or section 5121(d) of this title shall be liable for a civil penalty not to exceed $25,000.

(3) The Secretary may require any violator served with a notice of violation to post a copy of such notice or statement of such notice in such place or places and for such duration as the Secretary may determine appropriate to aid in the enforcement of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title, as the case may be.

(4) Such civil penalty may be recovered in an action brought by the Attorney General on behalf of the United States in the appropriate district court of the United States or, before referral to the Attorney General, such civil penalty may be compromised by the Secretary.

(5)(A) If, upon inspection or investigation, the Secretary determines that a violation of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title or a regulation issued under any of those provisions, or combination of such violations, poses an imminent hazard to safety, the Secretary shall order a vehicle or employee operating such vehicle out of service, or order an employer to cease all or part of the employer’s commercial motor vehicle operations. In making any such order, the Secretary shall impose no restriction on any employee or employer beyond that required to abate the hazard. Subsequent to the issuance of the order, opportunity for review shall be provided in accordance with section 554 of title 5, except that such review shall occur not later than 10 days after issuance of such order.

(B) In this paragraph, “imminent hazard” means any condition of vehicle, employee, or commercial motor vehicle operations which substantially increases the likelihood of serious injury or death if not discontinued immediately.

(6) CRIMINAL PENALTIES.—
§ 521

TITLED—TRANSPORTATION

Page 106

(A) IN GENERAL.—Any person who knowingly and willfully violates any provision of subsection III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title, or a regulation issued under any of those provisions, shall, upon conviction, be subject to a fine not to exceed $25,000 or imprisonment for a term not to exceed one year, or both, except that, if such violator is an employee, the violator shall only be subject to penalty if, while operating a commercial motor vehicle, the violator’s activities have led or could have led to death or serious injury, in which case the violator shall be subject, upon conviction, to a fine not to exceed $2,500.

(B) VIOLATIONS PERTAINING TO CDLS.—Any person who knowingly and willfully violates—

(i) any provision of section 31302, 31303(b) or (c), 31304, 31305(b), or 31310(c)(1)(A) of this title or a regulation issued under such section, or

(ii) with respect to notification of a serious traffic violation as defined under section 31301 of this title, any provision of section 31303(a) of this title or a regulation issued under section 31303(a),

shall, upon conviction, be subject for each offense to a fine not to exceed $5,000 or imprisonment for a term not to exceed 90 days, or both.

(7) The Secretary shall issue regulations establishing penalty schedules designed to induce timely compliance for persons failing to comply promptly with the requirements set forth in any notices and orders under this subsection.

(8) PROHIBITION ON OPERATION IN INTERSTATE COMMERCE AFTER NONPAYMENT OF PENALTIES.—

(A) IN GENERAL.—An owner or operator of a commercial motor vehicle against whom a civil penalty is assessed under this chapter or chapter 51, 149, or 311 of this title and who does not pay such penalty or fails to arrange and abide by an acceptable payment plan for such civil penalty may not operate in interstate commerce beginning on the 91st day after the date specified by order of the Secretary for payment of such penalty. This paragraph shall not apply to any person who is unable to pay a civil penalty because such person is a debtor in a case under chapter 11 of title 11, United States Code.

(B) REGULATIONS.—Not later than 12 months after the date of the enactment of this paragraph, the Secretary, after notice and an opportunity for public comment, shall issue regulations setting forth procedures for ordering commercial motor vehicle owners and operators delinquent in paying civil penalties to cease operations until payment has been made.

(9) Any aggrieved person who, after a hearing, is adversely affected by a final order issued under this section may, within 30 days, petition for review of the order in the United States Court of Appeals in the circuit wherein the violation is alleged to have occurred or where the violator has his principal place of business or residence, or in the United States Court of Appeals for the District of Columbia Circuit. Review of the order shall be based on a determina-

of whether the Secretary’s findings and conclusions were supported by substantial evidence, or were otherwise not in accordance with law. No objection that has not been urged before the Secretary shall be considered by the court, unless reasonable grounds existed for failure or neglect to do so. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the order of the Secretary.

(10) All penalties and fines collected under this section shall be deposited into the Highway Trust Fund (other than the Mass Transit Account).

(11) In any action brought under this section, process may be served without regard to the territorial limits of the district of the State in which the action is brought.

(12) In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, trial shall be by the court, or, upon demand of the accused, by a jury, conducted in accordance with the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

(13) The provisions of this subsection shall not affect chapter 51 of this title or any regulation promulgated by the Secretary under chapter 51.

(14) As used in this subsection, the terms “commercial motor vehicle”, “employee”, “employer”, and “State” have the meaning such terms have under section 31132 of this title.

(15) IMPOUNDMENT OF COMMERCIAL MOTOR VEHICLES.—

(A) ENFORCEMENT OF IMMINENT HAZARD OUT-OF-SERVICE ORDERS.—

(i) The Secretary, or an authorized State official carrying out motor carrier safety enforcement activities under section 31102, may enforce an imminent hazard out-of-service order issued under chapters 5, 51, 131 through 149, 311, 313, or 315 of this title, or a regulation promulgated thereunder, by towing and impounding a commercial motor vehicle until the order is rescinded.

(ii) Enforcement shall not unreasonably interfere with the ability of a shipper, carrier, broker, or other party to arrange for the alternative transportation of any cargo or passenger being transported at the time the commercial motor vehicle is immobilized. In the case of a commercial motor vehicle transporting passengers, the Secretary or authorized State official shall provide reasonable, temporary, and secure shelter and accommodations for passengers in transit.

(iii) The Secretary’s designee or an authorized State official carrying out motor carrier safety enforcement activities under section 31102, shall immediately notify the owner of a commercial motor vehicle of the impoundment and the opportunity for review of the impoundment. A review shall be provided in accordance with section 554 of title 5, except that the review shall occur not later than 10 days after the impoundment.

(B) ISSUANCE OF REGULATIONS.—The Secretary shall promulgate regulations on the use of impoundment or immobilization of com-
mmercial motor vehicles as a means of enforcing additional out-of-service orders issued under chapters 5, 51, 131 through 149, 311, 313, or 315 of this title, or a regulation promulgated thereunder. Regulations promulgated under this subparagraph shall include consideration of public safety, the protection of passengers and cargo, inconvenience to passengers, and the security of the commercial motor vehicle.

(C) DEFINITION.—In this paragraph, the term ‘‘impounding’’ means the seizing and taking into custody of a commercial motor vehicle or the immobilizing of a commercial motor vehicle through the attachment of a locking device or other mechanical or electronic means.

HISTORICAL AND REVISION NOTES

Revised Section Source (U.S. Code) Source (Statutes at Large)

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

Section 521 49 U.S. Code Revised Section
(a) ............ 23(7)(a), (c)–(e) 11901
(b) ............ 322(h) 11901

See the revision notes for the revised section for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsection (a)(3), the words ‘‘against heat and cold’’ are inserted for consistency with sections 11105 and 11901 of the revised title.

Subsection (b) does not apply to motor carriers of migrant workers and motor private carriers because 49:322(h) (1st sentence) only applies to motor carriers and 49:304(a)(5) and (3a) do not apply 49:322(h) (1st sentence) to motor carriers of migrant workers and motor private carriers.

The reference to 49:303(c), 306(a)(1), and 309(a)(1) is omitted as not applicable to this chapter.

Minimum and Maximum Assessments

Pub. L. 106–159, title II, § 222, Dec. 9, 1999, 113 Stat. 1769, provided that:

“(a) In General.—The Secretary of Transportation should ensure that motor carriers operate safely by imposing civil penalties at a level calculated to ensure prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

“(b) Establishment.—The Secretary—

“(1) should establish and assess minimum civil penalties for each violation of a law referred to in subsection (a) and

“(2) shall assess the maximum civil penalty for each violation of a law referred to in subsection (a) by any person who is found to have committed a pattern of violations of critical or acute regulations issued to carry out such a law or to have previously committed the same or a related violation of critical or acute regulations issued to carry out such a law.

“(c) Extraordinary Circumstances.—If the Secretary determines and documents that extraordinary circumstances exist which merit the assessment of any civil penalty lower than any level established under
subsection (b), the Secretary may assess such lower penalty. In cases where a person has been found to have previously committed the same or a related violation of previous or acute regulations issued to carry out a law referred to in subsection (a), extraordinary circumstances may be found to exist when the Secretary determines that repetition of such violation does not demonstrate a failure to take appropriate remedial action.

"(d) REPORT TO CONGRESS.—The Secretary shall conduct a study of the effectiveness of the revised civil penalties established in the Transportation Equity Act for the 21st Century [Pub. L. 105–178, see Tables for classification] and this Act [see Tables for classification] in ensuring prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

"(2) SUBMISSION TO CONGRESS.—The Secretary shall transmit the results of such study and any recommendations to Congress by September 30, 2002."

**Repeal: Penalties; Effectiveness**

Section 213(d) of Pub. L. 98–554 directed Secretary of Transportation to conduct a study of effectiveness of civil and criminal penalties established by amendments made by section 213 of Pub. L. 98–554 in deterring violations of commercial motor vehicle safety regulations issued under title II of Pub. L. 98–554 and in effectively prosecuting such violations when they occur, which study was to examine the effectiveness of penalties in effect before Oct. 30, 1984, in comparison to the penalties established by the amendments made by title II of Pub. L. 98–554, and was to further investigate the need for, and make recommendations concerning, increased fine levels for civil and criminal penalties, and the need for additional categories of civil and criminal penalties to deter further, and prosecute effectively, violations of such commercial motor vehicle safety regulations, and further directed Secretary to submit to Congress a report on the findings of this study, together with legislative recommendations, not later than 2 years after Oct. 30, 1984.

**§ 522. Reporting and record keeping violations**

A person required to make a report to the Secretary of Transportation, or make, prepare, or preserve a record, under section 504 of this title about transportation by rail carrier, that knowingly and willfully (1) makes a false entry in the report or record, (2) destroys, mutilates, changes, or by another means falsifies the report or record, (3) does not make, prepare, or preserve the record in violation of a regulation or order of the Secretary, or (5) files a false report or record with the Secretary, shall be fined not more than $5,000, imprisoned for not more than 2 years, or both.

(a) GENERAL AUTHORITY.—(1) The National Transportation Safety Board, and when authorized by it, a member of the Board, an administrative law judge employed by or assigned to the Board, or an officer or employee designated by the Chairman of the Board, may conduct hearings to carry out this chapter, administer oaths, and require, by subpoena or otherwise, necessary witnesses and evidence.

(b) A witness or evidence in a hearing under paragraph (1) of this subsection may be summoned or required to be produced from any place in the United States to the designated place of the hearing. (c) A subpoena shall be issued under the signature of the Chairman or the Chairman’s delegate but may be served by any person designated by the Chairman.

(d) If a person disobeys a subpoena, order, or inspection notice of the Board, the Board may bring a civil action in a district court of the United States to enforce the subpoena, order, or notice. An action under this paragraph may be brought in the judicial district in which the person against whom the action is brought resides, is found, or does business. The court may punish a failure to obey an order of the court to comply with the subpoena, order, or notice as a contempt of court.

(2) The Board shall deposit in the Treasury amounts received under paragraph (1)(I) of this subsection to be credited as offsetting collections to the appropriation of the Board. The Board shall maintain an annual record of collections received under paragraph (1)(I) of this subsection.

(c) SUBMISSION OF CERTAIN COPIES TO CONGRESS.—When the Board submits to the President or the Director of the Office of Management and Budget a budget estimate, budget request, supplemental budget estimate, other budget information, a legislative recommendation, prepared testimony for congressional hearings, or comments on legislation, the Board must submit a copy to Congress at the same time. An officer, department, agency, or instrumentality of the Government may not require the Board to submit the estimate, request, information, recommendation, testimony, or comments to another officer, department, agency, or instrumentality of the Government for approval, comment, or review before being submitted to Congress. The Board shall develop and approve a process for the Board’s review and comment or approval of documents submitted to the President, Director of the Office of Management and Budget, or Congress under this subsection.

(h) INVESTIGATIVE OFFICERS.—The Board shall maintain at least 1 full-time employee in each State located more than 1,000 miles from the nearest Board regional office to provide initial investigative response to accidents the Board is empowered to investigate under this chapter that occur in that State.

(C) a railroad accident in which there is a fatality or substantial property damage, or that involves a passenger train;
(D) a pipeline accident in which there is a fatality, substantial property damage, or significant injury to the environment;
(E) a major marine casualty (except a casualty involving only public vessels) occurring on or under the navigable waters, internal waters, or the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988, or involving a vessel of the United States (as defined in section 2101((6) of title 46), under regulations prescribed jointly by the Board and the head of the department in which the Coast Guard is operating; and
(F) any other accident related to the transportation of individuals or property when the Board decides—
(i) the accident is catastrophic;
(ii) the accident involves problems of a recurring character; or
(iii) the investigation of the accident would carry out this chapter.
(2)(A) Subject to the requirements of this paragraph, an investigation by the Board under paragraph (1)(A)–(D) or (F) of this subsection has priority over any investigation by another department, agency, or instrumentality of the United States Government. The Board shall provide for appropriate participation by other departments, agencies, or instrumentalities in the investigation. However, those departments, agencies, or instrumentalities may not participate in the decision of the Board about the probable cause of the accident.
(B) If the Attorney General, in consultation with the Chairman of the Board, determines and notifies the Board that circumstances reasonably indicate that the accident may have been caused by an intentional criminal act, the Board shall relinquish investigative priority to the Federal Bureau of Investigation. The relinquishment of investigative priority by the Board shall not otherwise affect the authority of the Board to continue its investigation under this section.
(C) If a Federal law enforcement agency suspects and notifies the Board that an accident being investigated by the Board under subparagraph (A), (B), (C), or (D) of paragraph (1) may have been caused by an intentional criminal act, the Board, in consultation with the law enforcement agency, shall take necessary actions to ensure that evidence of the criminal act is preserved.
(3) This section and sections 1113, 1116(b), 1133, and 1134(a) and (c)–(e) of this title do not affect the authority of another department, agency, or instrumentality of the Government to investigate an accident under applicable law or to obtain information directly from the parties involved in, and witnesses to, the accident. The Board and other departments, agencies, and instrumentalities shall ensure that appropriate information developed about the accident is exchanged in a timely manner.
(b) ACCIDENTS INVOLVING PUBLIC VESSELS.—(1) The Board or the head of the department in which the Coast Guard is operating shall investigate and establish the facts, circumstances, and cause or probable cause of a marine accident involving a public vessel and any other vessel. The results of the investigation shall be made available to the public.
(2) Paragraph (1) of this subsection and subsection (a)(1)(E) of this section do not affect the responsibility, under another law of the United States, of the head of the department in which the Coast Guard is operating.
(c) ACCIDENTS NOT INVOLVING GOVERNMENT MISFEASANCE OR NONFEASANCE.—(1) When asked by the Board, the Secretary of Transportation or the Secretary of the department in which the Coast Guard is operating may—

(B) report the facts and circumstances of the accident to the Board.
(2) The Board shall use the report in establishing cause or probable cause of an accident described under subsection (a) or (b) of this section.
(d) ACCIDENTS INVOLVING PUBLIC AIRCRAFT.—The Board, in furtherance of its investigative duties with respect to public aircraft accidents under subsection (a)(1)(A) of this section, shall have the same duties and powers as are specified for civil aircraft accidents under sections 1132(a), 1132(b), and 1134(a), (b), (d), and (f) of this title.
(e) ACCIDENT REPORTS.—The Board shall report on the facts and circumstances of each accident investigated by it under subsection (a) or (b) of this section. The Board shall make each report available to the public at reasonable cost.
**40102(a)(37)** of this title other than an aircraft operated by the Armed Forces or by an intelligence agency of the United States.

Subsecs. (d) and (e) added by Pub. L. 103–411, § 3(c)(3), designated existing provisions as subpars. (A), (B), and (C). 1994—Subsec. (a)(1)(E) inserted before semicolon at end “or an aircraft accident involving a public aircraft as defined by section 40102(a)(37) of this title other than an aircraft operated by the Armed Forces or by an intelligence agency of the United States.”

**Section 1132. Civil aircraft accident investigations**

(a) **GENERAL AUTHORITY.**—(1) The National Transportation Safety Board shall investigate—

(A) each accident involving civil aircraft; and

(B) with the participation of appropriate military authorities, each accident involving both military and civil aircraft.

(2) A person employed under section 1113(b)(1) of this title that is conducting an investigation or hearing about an aircraft accident has the same authority to conduct the investigation or hearing as the Board.

(b) **NOTIFICATION AND REPORTING.**—The Board shall prescribe regulations governing the notifi-
cation and reporting of accidents involving civil aircraft.

(c) PARTICIPATION OF SECRETARY.—The Board shall provide for the participation of the Secretary of Transportation in the investigation of an aircraft accident under this chapter when participation is necessary to carry out the duties and powers of the Secretary. However, the Secretary may not participate in establishing probable cause.

(d) ACCIDENTS INVOLVING ONLY MILITARY AIRCRAFT.—If an accident involves only military aircraft and a duty of the Secretary is or may be involved, the military authorities shall provide for the participation of the Secretary. In subsection (a)(1)(A), the words “and report the facts, conditions, and circumstances related to each accident and the probable cause thereof” in 49 App.1441(a)(2) are omitted as unnecessary because of section 1131(d) of the revised title.

In subsection (a)(1)(B), the words “provide for” in 49 App.1441(a)(2) are omitted as surplus.

In subsection (a)(2), the words “any member of the National Transportation Safety Board or any officer or employee of the National Transportation Safety Board” in 49 App.1441(c) are omitted as unnecessary because of sections 1113 and 1134 of the revised title.

In subsections (c) and (d), the words “Secretary of Transportation” and “Secretary” are substituted for “Administrator” in sections 701(g) and 702(b) and (c) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 782) for consistency. Section 6(c)(1) of the Department of Transportation Act (Public Law 89–670, 80 Stat. 938) transferred all duties and powers of the Federal Aviation Agency and the Administrator to the Secretary of Transportation. However, the Secretary was to carry out certain provisions through the Administrator. In addition, various laws enacted since then have vested duties and powers in the Administrator. All provisions of law the Secretary is required to carry out through the Administrator are included in 49:106(g).

In subsection (c), the words “and his representatives” in 49 App.141(g) are omitted because of 49:322(b). The words “when participation is necessary to carry out the duties and powers” are substituted for “In order to assure the proper discharge . . . . of his duties and responsibilities” to eliminate unnecessary words. The words “or his representatives” are omitted because of 49:322(b).

§ 1133. Review of other agency action

The National Transportation Safety Board shall review on appeal—

1. the denial, amendment, modification, suspension, or revocation of a certificate issued by the Secretary of Transportation under section 44702, 44709, or 44710 of this title;
2. the revocation of a certificate of registration under section 44106 of this title;
3. a decision of the head of the department in which the Coast Guard is operating on an appeal from the decision of an administrative law judge denying, revoking, or suspending a license, certificate, document, or register in a proceeding under section 6101, 6301, or 7503, chapter 77, or section 9303 of title 46; and
4. under section 46301(d)(5) of this title, an order imposing a penalty under section 46301.

In clause (1), the word “certificate” is substituted for “operating certificate” for consistency in the revised title. The words “or license” are omitted as unnecessary because only certificates are issued under the section. The words “or operating certificate” are substituted for “Certificate” for consistency in the revised title.

In clause (3), the words “head of the department in which the Coast Guard is operating” are substituted for “Commandant of the Coast Guard” for consistency with 14:5 and 46:2101(34).

Clause (4) is added to reflect all the appellate responsibilities of the National Transportation Safety Board.

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 1134. Inspections and autopsies

(a) ENTRY AND INSPECTION.—An officer or employee of the National Transportation Safety Board—

1. on display of appropriate credentials and written notice of inspection authority, may enter property where a transportation accident has occurred or wreckage from the accident is located and do anything necessary to conduct an investigation; and
2. during reasonable hours, may inspect any record, process, control, or facility related to an accident investigation under this chapter.
(b) Inspection, Testing, Preservation, and Moving of Aircraft and Parts.—(1) In investigating an aircraft accident under this chapter, the Board may inspect and test, to the extent necessary, any civil aircraft, aircraft engine, propeller, appliance, or property on an aircraft involved in an accident in air commerce.

(2) Any civil aircraft, aircraft engine, propeller, appliance, or property on an aircraft involved in an accident in air commerce shall be preserved, and may be moved, only as provided by regulations of the Board.

(c) Avoiding Unnecessary Interference and Preserving Evidence.—In carrying out subsection (a)(1) of this section, an officer or employee may examine or test any vehicle, vessel, rolling stock, track, or pipeline component. The examination or test shall be conducted in a way that—

(1) does not interfere unnecessarily with transportation services provided by the owner or operator of the vehicle, vessel, rolling stock, track, or pipeline component; and

(2) to the maximum extent feasible, preserves evidence related to the accident, consistent with the needs of the investigation and with the cooperation of that owner or operator.

(d) Exclusive Authority of Board.—Only the Board has the authority to decide on the way in which testing under this section will be conducted, including decisions on the person that will conduct the test, the type of test that will be conducted, and any individual who will witness the test. Those decisions are committed to the discretion of the Board. The Board shall make any of those decisions based on the needs of the investigation being conducted and, when applicable, subsections (a), (c), and (e) of this section.

(e) Promptness of Tests and Availability of Results.—An inspection, examination, or test under subsection (a) or (c) of this section shall be started and completed promptly, and the results shall be made available.

(f) Autopsies.—(1) The Board may order an autopsy to be performed and have other tests made when necessary to investigate an accident under this chapter. However, local law protecting religious beliefs related to autopsies shall be observed to the extent consistent with the needs of the accident investigation.

(2) With or without reimbursement, the Board may obtain a copy of an autopsy report performed by a State or local official on an individual who died because of a transportation accident investigated by the Board under this chapter.

In subsection (a), before clause (1), the word “officer” is added for consistency in the revised title.

In subsection (b)(1), the words “investigating an aircraft accident” are substituted for “carrying out its duties” in 49 App.:1441(c) for clarity. In subsection (c), before clause (1), the words “In carrying out subsection (a)(1) of this section, an officer or employee” are added because of the restatement. The words “or any part of any such item” are omitted as surplus. The words “when such examination or testing is determined to be required for purposes of such investigation” are omitted as unnecessary because of the words “do anything necessary to conduct an investigation” in subsection (a)(1) of this section. In clause (1), the word “obstruct” is omitted as being included in “interfere.”

In subsection (d), the word “individuals” is substituted for “persons” the 2d time that word is used for clarity. The words “The Board shall make any of those decisions” are substituted for “and shall be made” because of the restatement.

In subsection (e), the word “promptly” is substituted for “with reasonable promptness” to eliminate unnecessary words.

In subsection (f)(1), the words “In the case of any fatal accident” in 49 App.:1441(c) are omitted as surplus. The words “to examine the remains of any deceased person aboard the aircraft at the time of the accident, who dies as a result of the accident” are omitted as unnecessary because of the authority of the Board to conduct autopsies.

(A) any recommendation for which the Secretary has developed, or intends to develop, procedures to adopt the recommendation or part of the recommendation, but has yet to complete the procedures; and

The Secretary shall continue to report on the regulatory status of each such recommendation in the report due on February 1 of subsequent years until final regulatory action is taken on that recommendation or the Secretary (or an Administration within the Department) determines and states in such a report that no action should be taken.

(2) FAILURE TO REPORT.—If on March 1 of each year the Board has not received the Secretary’s report required by this subsection, the Board shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate of the Secretary’s failure to submit the required report.

(2) designate an independent nonprofit organization, with experience in disasters and post-trauma communication with families, which shall have primary responsibility for coordinating the emotional care and support of the families of passengers involved in the accident.

(b) Responsibilities of the Board.—The Board shall have primary Federal responsibility for—

(1) facilitating the recovery and identification of fatally injured passengers involved in an accident described in subsection (a); and

(2) communicating with the families of passengers involved in the accident as to the roles, with respect to the accident and the post-accident activities, of—

(A) the organization designated for an accident under subsection (a)(2);

(B) Government agencies; and

(C) the rail passenger carrier involved.

(4) To arrange a suitable memorial service, in consultation with the families.

(d) Passenger Lists.—

(1) Requests for Passenger Lists.—

(A) Requests by Director of Family Support Services.—It shall be the responsibility of the director of family support services designated for an accident under subsection (a)(1) to request, as soon as practicable, from the rail passenger carrier involved in the accident a list, which is based on the best available information at the time of the request, of the names of the passengers that were aboard the rail passenger carrier’s train involved in the accident. A rail passenger carrier shall use reasonable efforts, with respect to its unreserved trains, and passengers not holding reservations on its other trains, to ascertain the names of passengers aboard a train involved in an accident.

(B) Requests by Designated Organization.—The organization designated for an accident under subsection (a)(2) may request from the rail passenger carrier involved in the accident a list described in subparagraph (A).

(2) Use of Information.—Except as provided in subsection (k), the director of family support services and the organization may not release to any person information on a list obtained under paragraph (1) but may provide information on the list about a passenger to the family of the passenger to the extent that the director of family support services or the organization considers appropriate.

(e) Continuing Responsibilities of the Board.—In the course of its investigation of an accident described in subsection (a), the Board shall, to the maximum extent practicable, ensure that the families of passengers involved in the accident—

(1) are briefed, prior to any public briefing, about the accident and any other findings from the investigation; and

(2) are individually informed of and allowed to attend any public hearings and meetings of the Board about the accident.

(2) Unsolicited Communications.—No unsolicited communication concerning a potential action or settlement offer for personal injury or wrongful death may be made by an attorney (including any associate, agent, employee, or other representative of an attorney) or any potential party to the litigation, including the railroad carrier or rail passenger carrier, to an individual (other than an employee of the rail passenger carrier) injured in the accident, or to a relative of an individual involved in the accident, before the 45th day following the date of the accident.

(3) Prohibition on Actions to Prevent Mental Health and Counseling Services.—No State or political subdivision thereof may prevent the employees, agents, or volunteers of an organization designated for an accident under subsection (a)(2) from providing mental health and counseling services under subsection (c)(1) in the 30-day period beginning on the date of the accident. The director of family support services designated for the accident under subsection (a)(1) may extend such period for not to exceed an additional 30 days if the director determines that the extension is necessary to meet the needs of the families and if State and local authorities are notified of the determination.

(h) Definitions.—In this section:

(1) Rail Passenger Accident.—The term “rail passenger accident” means any rail passenger disaster resulting in a major loss of life occurring in the provision of—

(A) interstate intercity rail passenger transportation (as such term is defined in section 21402); or

(B) interstate or intrastate high-speed rail transportation (as such term is defined in section 24105), except that such term does not include a tourist, historic, scenic, or excursion rail carrier.

(3) Passenger.—The term “passenger” includes—

(C) any other person injured or killed in a rail passenger accident, as determined appropriate by the Board.

(1) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section may be construed as limiting the actions that a rail passenger carrier may take, or the obligations that a rail passenger carrier may have, in providing assistance to the families of passengers involved in a rail passenger accident.

(j) RELINQUISHMENT OF INVESTIGATIVE PRIORITY.—

(1) GENERAL RULE.—This section (other than subsection (g)) shall not apply to a rail passenger accident if the Board has relinquished investigative priority under section 1131(a)(2)(B) and the Federal agency to which the Board has relinquished investigative priority is willing and able to provide assistance to the victims and families of the passengers involved in the accident.

(2) BOARD ASSISTANCE.—If this section does not apply to a rail passenger accident because the Board has relinquished investigative priority with respect to the accident, the Board shall assist, to the maximum extent possible, the agency to which the Board has relinquished investigative priority in assisting families with respect to the accident.

(k) SAVINGS CLAUSE.—Nothing in this section shall be construed to abridge the authority of the Board or the Secretary of Transportation to investigate the causes or circumstances of any rail accident, including development of information regarding the nature of injuries sustained and the manner in which they were sustained for the purposes of determining compliance with existing laws and regulations or for identifying means of preventing similar injuries in the future, or both.

AMENDMENTS

The words "civil action" are substituted for "proceedings . . . begun originally in any court of the United States" for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words "section 1132, 1134(b) or (f)(1) (related to an aircraft accident), or 1155(a) of this title" are substituted for "issued under this chapter" and "provisions of this chapter" because those sections restate the relevant provisions of 49 App.:ch. 20 carried out by the National Transportation Safety Board. The word "rule" is omitted as being synonymous with "regulation". The word "requirement" is omitted as included in "order". The words "or any term, condition, or limitation of any certificate or permit" are omitted because the National Transportation Safety Board under this chapter may apply for review of the order by filing a petition to be filed after the 60 days after the order of the National Transportation Safety Board is issued.

### §1153. Judicial review

(b) PERSONS SEEKING JUDICIAL REVIEW OF AVIATION MATTERS.—(1) A person disclosing a substantial interest in an order related to an aviation matter issued by the Board under this chapter may apply for review of the order by filing a petition for review in the United States Court of Appeals for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the person resides or has its principal place of business. The petition must be filed not later than 60 days after the order is issued. The court may allow the petition to be filed after the 60 days only if there was a reasonable ground for not filing within that 60-day period.

(2) When a petition is filed under paragraph (1) of this subsection, the clerk of the court immediately shall send a copy of the petition to the Board. The Board shall file with the court a record of the proceeding in which the order was issued.

(3) When the petition is sent to the Board, the court has exclusive jurisdiction to affirm, amend, modify, or set aside any part of the order and may order the Board to conduct further proceedings. ### §1152. Joinder and intervention in aviation proceedings

A person interested in or affected by a matter under consideration in a proceeding or a civil action to enforce section 1132, 1134(b) or (f)(1) (related to an aircraft accident), or 1155(a) of this title, or a regulation prescribed or order issued under any of those sections, may be joined as a party or permitted to intervene in the proceeding or civil action.

(Pub. L. 103-272, §1(d), July 5, 1994, 108 Stat. 756.)
of fact by the Board, if supported by substantial evidence, are conclusive.

(4) In reviewing an order under this subsection, the court may consider an objection to an order of the Board only if the objection was made in the proceeding conducted by the Board or if there was a reasonable ground for not making the objection in the proceeding.

(5) A decision by a court under this subsection may be reviewed only by the Supreme Court under section 1254 of title 28.

(c) ADMINISTRATOR SEEKING JUDICIAL REVIEW OF AVIATION MATTERS.—When the Administrator of the Federal Aviation Administration decides that an order of the Board under section 44703(d), 44709, or 46301(d)(5) of this title will have a significant adverse impact on carrying out this chapter related to aviation matters, the Administrator may obtain judicial review of the order under section 46110 of this title. The Administrator shall be made a party to the judicial review proceedings. Findings of fact of the Board are conclusive if supported by substantial evidence.

(d) COMMANDANT SEEKING JUDICIAL REVIEW OF MARITIME MATTERS.—If the Commandant of the Coast Guard decides that an order of the Board issued pursuant to a review of a Coast Guard action under section 1133 of this title will have an adverse impact on maritime safety or security, the Commandant may obtain judicial review of the order under subsection (a). The Commandant, in the official capacity of the Commandant, shall be a party to the judicial review proceedings.

§ 1154. Discovery and use of cockpit and surface vehicle recordings and transcripts

In subsection (a), the text of 49 App.:1903(d) (last sentence) is omitted as unnecessary because such 7 applies by its own terms. The words “final order” are substituted for “order, affirmative or negative” in 49 App.:1655(d) and “Decisions of the National Transportation Safety Board made pursuant to the exercise of the functions, powers, and duties enumerated in this subsection shall be administratively final” in 49 App.:1655(d) to eliminate unnecessary words. The words “as issued” are substituted for “after the entry” for consistency in the revised title and with other titles of the Code. The text of 49 App.:1655(d) (last sentence words after last comma) is omitted as unnecessary because of 49 App.:1903(d).

In subsection (b)(1), the words “affirmative or negative” are omitted as surplus. The words “related to an aviation matter” are added because the source provisions being restated only apply to aviation matters. The words “as issued” are substituted for “of the entry” for consistency in the revised title and with other titles of the Code.

In subsection (b)(2), the words “if any” are omitted as surplus. The word “of the proceeding” is substituted for “urged before” for clarity. The words “complained of” and “as provided in section 2112 of title 28” are omitted as surplus. The words “taking other appropriate action” are substituted for “by such mandatory or other relief as may be appropriate” for clarity and to eliminate unnecessary words. In subsection (b)(3), the word “amend” is substituted for “interlocutory” for clarity. The words “taking other appropriate action” are substituted for “such mandatory or other relief as may be appropriate” for clarity and to eliminate unnecessary words. In subsection (b)(4), the words “made in the proceeding conducted by” are substituted for “urged before” for clarity.

In subsection (c), the source provisions are combined to eliminate unnecessary words and are restated in this chapter to alert the reader to the authority of the Administrator of the Federal Aviation Administration to seek judicial review of an order of the National Transportation Safety Board under section 47709 or 48301(d) of the revised title that the Administrator decides will have a significant adverse impact on carrying out source provisions restated in this chapter that are derived from title VII of the Federal Aviation Act of 1958 (Public Law 85–856, 72 Stat. 781).

AMENDMENTS
2012—Subsec. (c). Pub. L. 112–96 substituted “section 44703(d), 44709, or” for “section 44709 or”.

§ 1154. Discovery and use of cockpit and surface vehicle recordings and transcripts

(a) TRANSCRIPTS AND RECORDINGS.—(1) Except as provided by this subsection, a party in a judicial proceeding may not use discovery to obtain—

(A) any part of a cockpit or surface vehicle recorder transcript that the National Transportation Safety Board has not made available to the public under section 1114(c) or 1114(d) of this title; and

(B) a cockpit or surface vehicle recorder recording.
(2)(A) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder transcript if, after an in camera review of the transcript, the court decides that—
(i) the part of the transcript made available to the public under section 1114(c) or 1114(d) of this title does not provide the party with sufficient information for the party to receive a fair trial; and
(ii) discovery of additional parts of the transcript is necessary to provide the party with sufficient information for the party to receive a fair trial.

(B) A court may allow discovery, or require production for an in camera review, of a cockpit or surface vehicle recorder transcript that the Board has not made available under section 1114(c) or 1114(d) of this title only if the cockpit or surface vehicle recorder recording is not available.

(3) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder recording if, after an in camera review of the recording, the court decides that—
(A) the parts of the transcript made available to the public under section 1114(c) or 1114(d) of this title and to the party through discovery under paragraph (2) of this subsection do not provide the party with sufficient information for the party to receive a fair trial; and
(B) discovery of the cockpit or surface vehicle recorder recording is necessary to provide the party with sufficient information for the party to receive a fair trial.

(4)(A) When a court allows discovery in a judicial proceeding of a part of a cockpit or surface vehicle recorder transcript not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording, the court shall issue a protective order—
(i) to limit the use of the part of the transcript or the recording to the judicial proceeding;
and
(ii) to prohibit dissemination of the part of the transcript or the recording to any person that does not need access to the part of the transcript or the recording for the proceeding.

(B) A court may allow a part of a cockpit or surface vehicle recorder transcript not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording to be admitted into evidence in a judicial proceeding, only if the court places the part of the transcript or the recording under seal to prevent the use of the part of the transcript or the recording for purposes other than for the proceeding.

(5) This subsection does not prevent the Board from referring at any time to cockpit or surface vehicle recorder information in making safety recommendations.

(6) In this subsection:
(A) RECORDER.—The term "recorder" means a voice or video recorder.
(B) TRANSCRIPT.—The term "transcript" includes any written depiction of visual information obtained from a video recorder.

(b) REPORTS.—No part of a report of the Board, related to an accident or an investigation of an accident, may be admitted into evidence or used in a civil action for damages resulting from a matter mentioned in the report.

HISTORICAL AND REVISION NOTES

In subsection (a), the word "transcript" is substituted for "transcriptions" for clarity.

In subsection (a)(1)(A), the words "that the National Transportation Safety Board has not made available to the public" are substituted for "other than such portions made available to the public by the Board" for clarity.

In subsection (a)(2)(B), the words "prepared by or under the direction of the Board" are omitted as unnecessary and for consistency with the source provisions restated in this subsection.

In subsection (b), the words "civil action" are substituted for "suit or action" in 49 App.:1441(e) and 1903(c) for consistency with the Federal Rules of Civil Procedure (28 App. U.S.C.).

AMENDMENTS

Pub. L. 106–424, §5(c)(1)(C), substituted "... cockpit or surface vehicle recorder transcript" for "... cockpit voice recorder transcript" wherever appearing.
Subsec. (a)(6). Pub. L. 106–424, §5(c)(1)(D), which directed the amendment of this section by adding par. (6) at the end, was executed by adding par. (6) at the end of subsec. (a) to reflect the probable intent of Congress.

(a) CIVIL PENALTY.—(1) A person violating section 1132, section 1134(b), section 1134(f)(1), or section 1136(g) (related to an aircraft accident) of this title or a regulation prescribed or order issued under any of those sections is liable to the United States Government for a civil penalty of not more than $1,000. A separate violation occurs for each day a violation continues.

(2) This subsection does not apply to a member of the armed forces of the United States or an employee of the Department of Defense subject to the Uniform Code of Military Justice when the member or employee is performing official duties. The appropriate military authorities are responsible for taking necessary disciplinary action and submitting to the National Transportation Safety Board a timely report on action taken.

(3) The Board may compromise the amount of a civil penalty imposed under this subsection.

(4) The Government may deduct the amount of a civil penalty imposed or compromised under this subsection from amount it owes the person liable for the penalty.

In subsection (a)(1), the words “section 1132 or 1134(b) or (f)(1)” (related to an aircraft accident) of this title are substituted for “any provision of subchapter VII ...” of this chapter in 49 App.:1471(a)(1) because those sections restate the relevant source provisions of 49 App.ch. 20 carried out by the Board. The words “regulation prescribed or order issued under either of those sections” are substituted for “rule, regulation, or order issued thereunder” for clarity and consistency in the revised title and with other titles of the United States Code and because “rule” and “regulation” are synonymous. The words “liable to the United States Government” are substituted for “subject to” for clarity. The words “for each such violation” are omitted as unnecessary because of 18:1. In subsection (a)(2), the word “civilian” is omitted as unnecessary. The words “with respect thereto” are omitted as surplus.

In subsection (a)(4), the words “imposed or compromised” are substituted for “finally determined or fixed by order of the Board, or the amount agreed upon to be imposed” in 49 App.:1471(a)(2) for consistency and to eliminate unnecessary words.

In subsection (a)(5), the words “imposed or assessed” are omitted as surplus. The words “civil action against the person” are substituted for “proceedings in personam against the person” in 49 App.:1473(b)(1) for consistency with rule 2 of the Federal Rules of Civil Procedure (28 U.S.C.) and to eliminate unnecessary words. The text of 49 App.:1473(b)(1) (last sentence words after 1st comma and last sentence) is omitted as unnecessary because penalties imposed by the National Transportation Safety Board do not involve liens on aircraft. The text of 49 App.:1473(b)(4) is omitted as unnecessary because of 28:ch. 131.

FINDS

“(1) approximately 4,000,000,000 tons of regulated hazardous materials are transported each year and approximately 1,200,000 movements of hazardous materials occur each day, according to Department of Transportation estimates;

“(2) the movement of hazardous materials in commerce is necessary to maintain economic vitality and meet consumer demands and must be conducted in a safe, secure, and efficient manner;

“(3) accidents involving, or unauthorized access to, hazardous materials in transportation may result in a release of such materials and pose a serious threat to public health and safety;

“(4) because of the potential risks to life, property, and the environment posed by unintentional releases of hazardous materials, consistency in laws and regulations governing the transportation of hazardous materials is necessary and desirable; and

“(5) in order to provide reasonable, adequate, and cost-effective protection from the risks posed by the transportation of hazardous materials, a network of well-trained State and local emergency response personnel and hazmat employees is essential.”

BUY AMERICAN

“(a) COMPLIANCE WITH BUY AMERICAN ACT.—None of the funds made available under this title [see Short Title of 1994 Amendment note above] may be expended in violation of sections 2 through 4 of the Act of March 3, 1933 (former) 41 U.S.C. 10a–10c; popularly known as the ‘Buy American Act’ [see 41 U.S.C. 8301 et seq.], which are applicable to those funds.

“(b) SENSE OF CONGRESS; REQUIREMENT REGARDING NOTICE.—

“(1) In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this title, it is the sense of Congress that entities receiving such assistance should, in expending such assistance, purchase only American-made equipment and products.

“(2) In providing financial assistance under this title, the Secretary of Transportation shall provide to each recipient of the assistance a notice describing the statement made in paragraph (1) by Congress.

“(c) PROHIBITION OF CONTRACTS.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a ‘Made in America’ inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract or subcontract made with funds provided pursuant to this title, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.

“(d) RECIPROCITY.—

“(1) Except as provided in paragraph (2), no contract or subcontract may be made with funds authorized under this title to a company organized under the laws of a foreign country unless the Secretary of Transportation finds that such country affords comparable opportunities to companies organized under the laws of the United States.

“(2)(A) The Secretary of Transportation may waive the provisions of paragraph (1) if the products or services required are not reasonably available from companies organized under the laws of the United States. Any such waiver shall be reported to Congress.

“(B) Paragraph (1) shall not apply to the extent that to do so would violate the General Agreement on Tariffs and Trade or any other international agreement to which the United States is a party.”

petence of responders to accidents and incidents involving hazardous materials.

(3) The Secretary may make a grant to a State or Indian tribe under paragraph (1) of this subsection only if—

      (ii) the person agrees to have an auditable accounting system; and
      (iii) the State or Indian tribe conducts at least one on-site observation of the training each year.

(d) GOVERNMENT’S SHARE OF COSTS.—A grant under this section is for 80 percent of the cost the State or Indian tribe incurs in the fiscal year to carry out the activity for which the grant is made. Amounts of the State or tribe under subsection (a)(3)(A) of this section are not part of the non-Government share under this subsection.

(e) MONITORING AND TECHNICAL ASSISTANCE.—In coordination with the Secretaries of Transportation and Energy, Administrator of the Environmental Protection Agency, and Director of the National Institute of Environmental Health Sciences, the Administrator of the Federal Emergency Management Agency shall monitor public sector emergency response planning and training for an accident or incident involving hazardous material. Considering the results of the monitoring, the Secretaries, Administrators, and Director each shall provide technical assistance to a State, political subdivision of a State, or Indian tribe for carrying out emergency response training and planning for an accident or incident involving hazardous material and shall coordinate the assistance using the existing coordinating mechanisms of the National Response Team and, for radioactive material, the Federal Radiological Preparedness Coordinating Committee.

(f) DELEGATION OF AUTHORITY.—To minimize administrative costs and to coordinate Federal financial assistance for emergency response training and planning, the Secretary may delegate to the Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sciences, Chairman of the Nuclear Regulatory Commission, Administrator of the Environmental Protection Agency, and Secretaries of Labor and Energy any of the following:
   (1) authority to receive applications for grants under this section;
   (2) authority to review applications for technical compliance with this section;
   (3) authority to review applications to recommend approval or disapproval;
   (4) any other ministerial duty associated with grants under this section.

(g) MINIMIZING DUPLICATION OF EFFORT AND EXPENSES.—The Secretaries of Transportation, Labor, and Energy, Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sci-
ences. Chairman of the Nuclear Regulatory Commission, and Administrator of the Environmental Protection Agency shall review periodically, with the head of each department, agency, or instrumentality of the Government, all emergency response and preparedness training programs of that department, agency, or instrumentality to minimize duplication of effort and expense of the department, agency, or instrumentality in carrying out the programs and shall take necessary action to minimize duplication.

(h) **ANNUAL REGISTRATION FEE ACCOUNT AND ITS USES.**—The Secretary of the Treasury shall establish an account in the Treasury (to be known as the “Hazardous Materials Emergency Preparedness Fund”) into which the Secretary of Transportation transfers to the Secretary of the Treasury under section 5108(g)(2)(C) of this title. Without further appropriation, amounts in the account are available—

(1) to make grants under this section and section 5107(e);
(2) to monitor and provide technical assistance under subsection (e) of this section;
(3) to publish and distribute an emergency response guide; and
(4) to pay administrative costs of carrying out this section and sections 5107(e) and 5108(g)(2) of this title, except that not more than 2 percent of the amounts made available from the account in a fiscal year may be used to pay those costs.

(i) **SUPPLEMENTAL TRAINING GRANTS.**—

(1) In order to further the purposes of subsection (a), the Secretary shall, subject to the availability of funds and through a competitive process, make a grant or make grants to national nonprofit fire service organizations for the purpose of training instructors to conduct hazardous materials response training programs for individuals with statutory responsibility to respond to hazardous materials accidents and incidents.

(2) For the purposes of this subsection the Secretary, after consultation with interested organizations, shall—

(A) identify regions or locations in which fire departments or other organizations which provide emergency response to hazardous materials transportation accidents and incidents are in need of hazardous materials training; and
(B) prioritize such needs and develop a means for identifying additional specific training needs.

(3) Funds granted to an organization under this subsection shall only be used—

(A) to provide training, including portable training, for instructors to conduct hazardous materials response training programs;
(B) to purchase training equipment used exclusively to train instructors to conduct such training programs; and
(C) to disseminate such information and materials as are necessary for the conduct of such training programs.

(4) The Secretary may only make a grant to an organization under this subsection in a fiscal year if the organization enters into an agreement with the Secretary to provide training, including portable training, for instructors to conduct hazardous materials response training programs in such fiscal year that will use—

(A) a course or courses developed or identified under section 5115 of this title; or
(B) other courses which the Secretary determines are consistent with the objectives of this subsection;

for training individuals with statutory responsibility to respond to accidents and incidents involving hazardous materials. Such agreement also shall provide that training courses shall comply with Federal regulations and national consensus standards for hazardous materials response and be open to all such individuals on a nondiscriminatory basis.

(5) The Secretary may not award a grant to an organization under this subsection unless the organization ensures that emergency responders who receive training under the grant will have the ability to protect nearby persons, property, and the environment from the effects of accidents or incidents involving the transportation of hazardous material in accordance with existing regulations or National Fire Protection Association standards for competence of responders to accidents and incidents involving hazardous materials.

(6) Notwithstanding paragraphs (1) and (3), to the extent determined appropriate by the Secretary, a grant awarded by the Secretary to an organization under this subsection to conduct hazardous material response training programs may be used to train individuals with responsibility to respond to accidents and incidents involving hazardous material.

(7) For the purposes of this subsection, the term “portable training” means live, instructor-led training provided by certified fire service instructors that can be offered in any suitable setting, rather than specific designated facilities. Under this training delivery model, instructors travel to locations convenient to students and utilize local facilities and resources.

(8) The Secretary may impose such additional terms and conditions on grants to be made under this subsection that the Secretary determines are necessary to protect the interests of the United States and to carry out the objectives of this subsection.

(j) **REPORTS.**—The Secretary shall submit an annual report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and make available the report to the public. The report submitted under this subsection shall include information on the allocation and uses of the planning and training grants under subsection (a) and grants under subsection (i) of this section and under subsections (e) and (1) of section 5107. The report submitted under this subsection shall identify the ultimate recipients of such grants and include—

(1) a detailed accounting and description of each grant expenditure by each grant recipi-
ent, including the amount of, and purpose for, each expenditure;
(2) the number of persons trained under the grant program, by training level;

In subsections (a)(2)(A) and (b)(2)(A), the words “at least equal” are substituted for “be maintained at a level which does not fall below” to eliminate unnecessary words.

In section (a)(2)(B), the words “by the State emergency response commission” are omitted as surplus.

In section (b)(2)(B), the words “or courses” are omitted because of 1:1.

In each subsec. of section (c), the words “including compliance with such sections with respect to accidents and incidents involving the transportation of hazardous materials” are omitted as surplus.

In subsection (d), the word “section” is substituted for “subsection” for clarity because there are no objectives in the subsection being restated.

In subsection (e), the words “A grant under this section is for” are substituted for “By a grant under this section, the Secretary shall reimburse any State or Indian tribe an amount not to exceed” to eliminate unnecessary words and for consistency in the revised title. The words “which are required to be expended under subsections (a)(2) and (b)(2) of this section” are omitted as surplus. The words “under this subsection” are added for clarity.

In subsection (h), the words “including coordination of training programs” are omitted as surplus.

This adds 49:§116(j)(4)(A) to correct an erroneous cross-reference.

SAVINGS CLAUSE
Pub. L. 114–94, div. A, title VII, § 7203(c), Dec. 4, 2015, 129 Stat. 1591, provided that: ‘Nothing in this section (amending this section and section 5108 of this title) may be construed to prohibit the Secretary of Transportation from recovering and deobligating funds from grants that are not managed or expended in compliance with a grant agreement.’

§ 5117. Special permits and exclusions
(a) AUTHORITY TO ISSUE SPECIAL PERMITS.—(1) As provided under procedures prescribed by regulation, the Secretary may issue, modify, or terminate a special permit authorizing a variance from this chapter or a regulation prescribed under section 5103(b), 5104, 5110, or 5112 of this title to a person performing a function regulated by the Secretary under section 5103(b)(1) in a way that achieves a safety level—
(A) at least equal to the safety level required under this chapter; or
(B) consistent with the public interest and this chapter, if a required safety level does not exist.

(2) A special permit issued under this section shall be effective for an initial period of not more than 2 years and may be renewed by the Secretary upon application for successive periods of not more than 4 years each or, in the case of a special permit relating to section 5112, for an additional period of not more than 2 years.

(b) APPLICATIONS.—When applying for a special permit or renewal of a special permit under this section, the person must provide a safety analysis prescribed by the Secretary that justifies the special permit. The Secretary shall publish in the Federal Register notice that an application for a new special permit or a modification to an existing special permit has been filed and shall give the public an opportunity to inspect the safety analysis and comment on the application. The Secretary shall make available to the public on the Department of Transportation’s Internet Web site any special permit other than a renewal of a special permit under this chapter—

(A) a public vessel (as defined in section 2101 of title 46);
(B) a vessel exempted under section 3702 of title 46 from chapter 37 of title 46; and
(C) a vessel to the extent it is regulated under the Ports and Waterways Safety Act of 1972 (33 U.S.C. 1221 et seq.).

(2) This chapter and regulations prescribed under this chapter do not prohibit—

(A) or regulate transportation of a firearm (as defined in section 232 of title 18), or ammunition for a firearm, by an individual for personal use; or
(B) transportation of a firearm or ammunition in commerce.

(c) LIMITATION ON AUTHORITY.—Unless the Secretary decides that an emergency exists, a special permit or renewal granted under this section is the only way a person subject to this chapter may be granted a variance from this chapter.

(d) INCORPORATION INTO REGULATIONS.—

(1) IN GENERAL.—Not later than 1 year after the date on which a special permit has been in continuous effect for a 10-year period, the Secretary shall conduct a review and analysis of that special permit to determine whether it may be converted into the hazardous materials regulations.

(2) FACTORS.—In conducting the review and analysis under paragraph (1), the Secretary may consider—

(A) the safety record for hazardous materials transported under the special permit;
(B) the application of a special permit;
(C) the suitability of provisions in the special permit for incorporation into the hazardous materials regulations; and
(D) rulemaking activity in related areas.

(3) RULEMAKING.—After completing the review and analysis under paragraph (1) and after providing notice and opportunity for public comment, the Secretary shall either institute a rulemaking to incorporate the special permit into the hazardous materials regulations or publish in the Federal Register the Secretary’s justification for why the special permit is not appropriate for incorporation into the regulations.

(g) DISCLOSURE OF FINAL ACTION.—The Secretary shall periodically, but at least every 120 days—

(1) publish in the Federal Register notice of the final disposition of each application for a new special permit, modification to an existing special permit, or approval during the preceding quarter; and
(2) make available to the public on the Department of Transportation’s Internet Web site notice of the final disposition of any other special permit during the preceding quarter.

In subsection (c)(1), clauses (A) and (B) are substituted for "any vessel which is excepted from the application of section 201 of the Ports and Waterways Safety Act of 1972 by paragraph (2) of such section." Section 201 of that Act amended section 4417a of the Revised Statutes (classified at 46:391a prior to its repeal and reenactment as part of the codification of subtitle II of title 46 in 1988). Clauses (A) and (B) restate the exceptions provided by section 201 of that Act and by section 4417a of the Revised Statutes as subsequently amended. Clause (C) is substituted for "any other vessel regulated under such Act, to the extent of such regulation" because of the restatement.

In subsection (c)(2), before clause (A), the word "prescribed" is substituted for "issued" for consistency in the revised title and with other titles of the United States Code.

(A) the person has actual knowledge of the facts giving rise to the violation; or
(B) a reasonable person acting in the cir-

§ 5125. Preemption

(a) GENERAL.—Except as provided in sub-
sections (b), (c), and (e) of this section and un-
less authorized by another law of the United
States, a requirement of a State, political sub-
division of a State, or Indian tribe is preempted if—

(1) complying with a requirement of the State, political subdivision, or tribe and a re-
quirement of this chapter, a regulation pre-
scribed under this chapter, or a hazardous ma-
terials transportation security regulation or directive issued by the Secretary of Homeland
Security is not possible; or

(2) the requirement of the State, political subdivision, or tribe, as applied or enforced, is
an obstacle to accomplishing and carrying out
this chapter, a regulation prescribed under this chapter, or a hazardous materials transpor-
tation security regulation or directive issued by the Secretary of Homeland Security.

(b) SUBSTANTIVE DIFFERENCES.—(1) Except as provided in subsection (c) of this section and un-
less authorized by another law of the United
States, a law, regulation, order, or other re-
quirement of a State, political subdivision of a State, or Indian tribe about any of the following
subjects, that is not substantively the same as a
provision of this chapter, a regulation pres-
cribed under this chapter, or a hazardous mate-
rials transportation security regulation or di-
rective issued by the Secretary of Homeland
Security, is preempted:

(A) the designation, description, and classi-
fication of hazardous material;

(B) the packing, repacking, handling, label-
ing, marking, and placarding of hazardous ma-
terial;

(C) the preparation, execution, and use of
shipping documents related to hazardous ma-
terial and requirements related to the number,
contents, and placement of those documents.

(D) the written notification, recording, and
reporting of the unintentional release in trans-
portation of hazardous material and oth-
er written hazardous materials transpor-
tation incident reporting involving State or
local emergency responders in the initial re-

sponse to the incident.

(E) the designing, manufacturing, fabricat-
ing, inspecting, marking, maintaining, recondi-
tioning, repairing, or testing a package, con-
tainer, or packaging component that is rep-
resented, marked, certified, or sold as qual-
ified for use in transporting hazardous material
in commerce.

(2) If the Secretary prescribes or has pre-
scribed under section 5103(b), 5104, 5110, or 5112 of
this title or prior comparable provision of law a
regulation or standard related to a subject re-
ferred to in paragraph (1) of this subsection, a
State, political subdivision of a State, or Indian
tribe may prescribe, issue, maintain, and en-
force only a law, regulation, standard, or order
about the subject that is substantively the same
as a provision of this chapter or a regulation
prescribed or order issued under this chapter.
The Secretary shall decide on and publish in the
Federal Register the effective date of section
5103(b) of this title for any regulation or stand-
ard about any of those subjects that the Sec-
retary prescribes. The effective date may not be
earlier than 90 days after the Secretary pre-
scribes the regulation or standard nor later than
the last day of the 2-year period beginning on
the date the Secretary prescribes the regulation
or standard.

(3) If a State, political subdivision of a State,
or Indian tribe imposes a fine or penalty the
Secretary decides is appropriate for a violation
related to a subject referred to in paragraph (1)
of this subsection, an additional fine or penalty
may not be imposed by any other authority.

DECISIONS ON PREEMPTION.—(1) Except as provided in paragraph (2) of
this subsection, after the last day of the 2-year
period beginning on the date a regulation is pre-
scribed under section 5112(b) of this title, a
State or Indian tribe may establish, maintain,
or enforce a highway routing designation over
which hazardous material may or may not be
transported by motor vehicles, or a limitation
or requirement related to highway routing, only
if the designation, limitation, or requirement
complies with section 5112(b), and is published in
the Department’s hazardous materials route
registry under section 5112(c).

(A) A highway routing designation, limita-
tion, or requirement established before the date
a regulation is prescribed under section 5112(b)
of this title does not have to comply with sec-
tion 5112(b)(1)(B), (C), and (F).

(B) This subsection and section 5112 of this
title do not require a State or Indian tribe to
come into compliance with section 5112(b)(1)(B)
if the highway routing designation, limitation, or requirement
was established before November 16, 1990.

(C) The Secretary may allow a highway rout-
ing designation, limitation, or requirement to
continue in effect until a dispute related to the
designation, limitation, or requirement is re-
solved under section 5112(d) of this title.

(D) DECISIONS ON PREEMPTION.—(1) A person
(whether a State, political subdivision of a
State, or Indian tribe) directly affected by a re-
quirement of a State, political subdivision, or
tribe may apply to the Secretary, as provided by
regulations prescribed by the Secretary, for a
decision on whether the requirement is pre-
empted by subsection (a), (b)(1), or (c) of this
section or section 5119(f). The Secretary shall
publish notice of the application in the Federal
Register. The Secretary shall issue a decision on
an application for a determination within 180
days after the date of the publication of the no-
tice of having received such application, or the
Secretary shall publish a statement in the Fed-
eral Register of the reason why the Secretary’s
decision on the application is delayed, along
with an estimate of the additional time nec-
essary before the decision is made. After notice
is published, an applicant may not seek judicial
relief on the same or substantially the same
issue until the Secretary takes final action on
the application or until 180 days after the appli-
cation is filed, whichever occurs first.

(2) After consulting with States, political sub-
divisions of States, and Indian tribes, the Sec-
retary shall prescribe regulations for carrying
out paragraph (1) of this subsection.

(3) Subsection (a) of this section does not pre-
vent a State, political subdivision of a State, or
Indian tribe from seeking a decision on
preemption from a court of competent jurisdic-
tion instead of applying to the Secretary under
paragraph (1) of this subsection.

(E) WAIVER OF PREEMPTION.—A State, political
subdivision of a State, or Indian tribe may apply
to the Secretary for a waiver of preemption of a
requirement the State, political subdivision, or
tribe acknowledges is preempted by subsection
(a), (b)(1), or (c) of this section or section 5119(f).
Under a procedure the Secretary prescribes by
regulation, the Secretary may waive preemption
on deciding the requirement—

(1) provides the public at least as much pro-
tection as do requirements of this chapter and
regulations prescribed under this chapter; and

(2) is not an unreasonable burden on com-
merce.

(F) FEES.—(1) A State, political subdivision of a
State, or Indian tribe may impose a fee related
to transporting hazardous material only if the
fee is fair and used for a purpose related to
transporting hazardous material, including en-
forcement and planning, developing, and main-
taining a capability for emergency response.

(2) A State or political subdivision thereof or
Indian tribe that levies a fee in connection with
the transportation of hazardous materials shall
biennially report to the Secretary on—

(A) the basis on which the fee is levied upon
persons involved in such transportation;

(B) the purposes for which the revenues from
the fee are used;

(C) the annual total amount of the revenues
collected from the fee; and

(D) such other matters as the Secretary re-
quests.

(G) APPLICATION OF EACH PREEMPTION STAND-
ARD.—Each standard for preemption in sub-
section (a), (b)(1), or (c), and in section 5119(f), is
independent in its application to a requirement
of a State, political subdivision of a State, or In-
dian tribe.

(h) NON-FEDERAL ENFORCEMENT STANDARDS.—
This section does not apply to any procedure,
penalty, required mental state, or other standard utilized by a State, political subdivision of a State, or Indian tribe to enforce a requirement applicable to the transportation of hazardous material.

Commute-to-Work Benefits

"(c) FINDINGS.—The Congress finds that—

"(1) current Federal policy places commuter transit benefits at a disadvantage compared to drive-to-work benefits;" consistent with important national objectives of energy conservation, reduce reliance on energy imports, lessen congestion, and clean our Nation's air;" commuter transit benefits should be part of a comprehensive solution to national transportation and air pollution problems;" current Federal law allows employers to provide only up to $21 per month in employee benefits for transit or van pools;" the current 'cliff provision', which treats an entire commuter transit benefit as taxable income if it exceeds $21 per month, unduly penalizes the most effective employer efforts to change commuter behavior;" employer-provided commuter transit incentives offer many public benefits, including increased access of low-income persons to good jobs, inexpensive reduction of roadway and parking congestion, and cost-effective incentives for timely arrival at work; and

"(7) legislation to provide equitable treatment of employer-provided commuter transit benefits has been introduced with bipartisan support in both the Senate and House of Representatives." provision is consistent with important national objectives of energy conservation, reduced reliance on energy imports, lessened congestion, and clean air.”

The word “municipalities” is substituted for “public” wherever it appears in a section. In clause (1), before subclause (A), the words “actual”, “all”, and “reconstruction” are omitted as surplus. In subclause (D), the words “whether or not such overhaul increases the useful life of the rolling stock” are omitted as surplus. In clause (2), the words “for each of the jurisdictions included in the definition of “State”” are omitted as surplus. In clause (3)(B)(iii), the words “of persons” are omitted as surplus. In clauses (4) and (5), the word “mass” is substituted for “public” because of the restatement. In clause (4)(A), the words “including, but not limited to, fixed rail, automated guideway transit, and exclusive facilities for buses” are omitted as surplus. In clause (6)(B), the word “authority” is substituted for “public agencies and instrumentalities” for consistency in the revised title and with other titles of the Code. The word “municipalities” is omitted as surplus. In clause (7), the words “bus, or rail, or other”, “either publicly or privately owned”, and “on a . . . basis” are omitted as surplus. Clause (8) is added for clarity because the term “net project cost” has the same meaning throughout this chapter. In clause (11), the words “the Commonwealths of” are omitted as surplus. In clause (12), the word “includes” is substituted for “including”. In clause (13)(A), the words “in the case of any such area” and “entire” are omitted as surplus. The words “Secretary of Commerce” are substituted for “Bureau of the Census” because of 15:1511(e). In clause (13)(B), the words “so designated by the Bureau of Census”, “which shall be”, “responsible”, and “in cooperation with each other” are omitted as surplus.

Subsection (b) applies to section 5307(d)(1)(D) of the revised title because of 49 App.:1607a(e)(1), restated as section 5307(n)(2) of the revised title.

$5318. Bus testing facility

(a) FACILITY.—The Secretary shall maintain one facility for testing a new bus model for maintainability, reliability, safety, performance (including braking performance), structural integrity, fuel economy, emissions, and noise.

(b) OPERATION AND MAINTENANCE.—The Secretary shall enter into a contract or cooperative agreement with, or make a grant to, a qualified person or organization to operate and maintain the facility. The contract, cooperative agreement, or grant may provide for the testing of rail cars and other public transportation vehicles at the facility.

(d) AVAILABILITY OF AMOUNTS TO PAY FOR TESTING.—The Secretary shall enter into a contract or cooperative agreement with, or make a grant to, the operator of the facility under which the Secretary shall pay 80 percent of the cost of testing a vehicle at the facility from amounts available to carry out this section. The entity having the vehicle tested shall pay 20 percent of the cost.

The final rule issued under subparagraph (B)(i) shall establish a “pass/fail” standard that uses the aggregate score described in the preceding sentence. Amounts appropriated or otherwise made available under this chapter may be obligated or expended to acquire a new bus model only if the new bus model has received a passing aggregate test score. The Secretary shall work with the bus testing facility, bus manufacturers, and transit agencies to develop the bus model scoring system under this paragraph. A passing aggregate test score under the rule issued under subparagraph (B)(i) indicates only that amounts appropriated or made available under this chapter may be obligated or expended to acquire a new bus model and shall not be interpreted as a warranty or guarantee that the new bus model will meet a purchaser’s specific requirements.

### §5321. Crime prevention and security

The Secretary of Transportation may make capital grants from amounts available under section 5338 of this title to public transportation systems for crime prevention and security. This chapter does not prevent the financing of a capital project for property acquired from a private company engaged in public transportation after July 9, 1964, or to operate a public transportation facility or equipment in competition with, or in addition to, transportation service provided by an existing public transportation company, only if—

(A) the Secretary determines that such financial assistance is essential to a program of projects required under sections 5303, 5304, and 5306;
(B) the Secretary determines that the program provides for the participation of private companies engaged in public transportation to the maximum extent feasible; and
(C) just compensation under State or local law will be paid to the company for its franchise or property.

(2) LIMITATION.—A governmental authority may not use financial assistance of the United States Government to acquire land, equipment, or a facility used in public transportation from another governmental authority in the same geographic area.

(b) RELOCATION AND REAL PROPERTY REQUIREMENTS.—The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) shall apply to financial assistance for capital projects under this chapter.

(c) CONSIDERATION OF ECONOMIC, SOCIAL, AND ENVIRONMENTAL INTERESTS.—

(1) COOPERATION AND CONSULTATION.—The Secretary shall cooperate and consult with the Secretary of the Interior and the Administrator of the Environmental Protection Agency on each project that may have a substantial impact on the environment.

(2) COMPLIANCE WITH NEPA.—The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply to financial assistance for capital projects under this chapter.

(d) CONDITION ON CHARTER BUS TRANSPORTATION SERVICE.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used to buy or operate a bus only if the applicant, governmental authority, or publicly owned operator that receives the assistance agrees that, except as provided in the agreement, the governmental authority or an operator of public transportation for the governmental authority will not provide charter bus transportation service outside the urban area in which it provides regularly scheduled public transportation service. An agreement shall provide for a fair arrangement the Secretary of Transportation considers appropriate to ensure that the assistance will not enable a governmental authority or an operator for a governmental authority to foreclose a private operator from providing intercity charter bus service if the private operator can provide the service.

(2) VIOLATIONS.—

(A) INVESTIGATIONS.—On receiving a complaint about a violation of the agreement required under paragraph (1), the Secretary shall investigate and decide whether a violation has occurred.

(B) ENFORCEMENT OF AGREEMENTS.—If the Secretary decides that a violation has occurred, the Secretary shall correct the violation under terms of the agreement.

(C) ADDITIONAL REMEDIES.—In addition to any remedy specified in the agreement, the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate if the Secretary finds a pattern of violations of the agreement.

(e) BOND PROCEEDS ELIGIBLE FOR LOCAL SHARE.—

(1) USE AS LOCAL MATCHING FUNDS.—Notwithstanding any other provision of law, a recipient of assistance under section 5307, 5309, or 5337 may use the proceeds from the issuance of revenue bonds as part of the local matching funds for a capital project.

(2) MAINTENANCE OF EFFORT.—The Secretary shall approve of the use of the proceeds from the issuance of revenue bonds for the remainder of the net project cost only if the Secretary finds that the aggregate amount of financial support for public transportation in the urbanized area provided by the State and affected local governmental authorities during the next 3 fiscal years, as programmed in the State transportation improvement program under section 5304, is not less than the aggregate amount provided by the State and affected local governmental authorities in the urbanized area during the preceding 3 fiscal years.

(3) DEBT SERVICE RESERVE.—The Secretary may reimburse an eligible recipient for deposits of bond proceeds in a debt service reserve that the recipient establishes pursuant to section 5302(3)(J) from amounts made available to the recipient under section 5309.

(f) SCHOOLBUS TRANSPORTATION.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used for a capital project, or to operate public transportation equipment or a public transportation facility, only if the applicant agrees not to provide schoolbus transportation that exclusively transports students and school personnel in competition with a private schoolbus operator. This subsection does not apply:

(A) to an applicant that operates a school system in the area to be served and a separate and exclusive schoolbus program for the school system; and

(B) unless a private schoolbus operator can provide adequate transportation that complies with applicable safety standards at reasonable rates.

(2) VIOLATIONS.—If the Secretary finds that an applicant, governmental authority, or publicly owned operator has violated the agreement required under paragraph (1), the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate.

(g) BUYING BUSES UNDER OTHER LAWS.—Subsections (d) and (f) of this section apply to financial assistance to buy a bus under sections 133 and 142 of title 23.

(h) GRANT AND LOAN PROHIBITIONS.—A grant or loan may not be used to—

(1) pay ordinary governmental or nonproject operating expenses;

(2) pay incremental costs of incorporating art or non-functional landscaping into facilities, including the costs of an artist on the design team; or

(3) support a procurement that uses an exclusionary or discriminatory specification.

(i) GOVERNMENT SHARE OF COSTS FOR CERTAIN PROJECTS.—

(1) ACQUIRING VEHICLES AND VEHICLE-RELATED EQUIPMENT OR FACILITIES.—
(A) VEHICLES.—A grant for a project to be assisted under this chapter that involves acquiring vehicles for purposes of complying with or maintaining compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) or the Clean Air Act is for 95 percent of the net project cost.

(B) VEHICLE-RELATED EQUIPMENT OR FACILITIES.—A grant for a project to be assisted under this chapter that involves acquiring vehicle-related equipment or facilities required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) or vehicle-related equipment or facilities (including clean fuel or alternative fuel vehicle-related equipment or facilities) for purposes of complying with or maintaining compliance with the Clean Air Act, is for 90 percent of the net project cost of such equipment or facilities attributable to compliance with those Acts. The Secretary shall have discretion to determine, through practicable administrative procedures, the costs of such equipment or facilities attributable to compliance with those Acts.

(2) COSTS INCURRED BY PROVIDERS OF PUBLIC TRANSPORTATION BY VANPOOL.—

(A) LOCAL MATCHING SHARE.—The local matching share provided by a recipient of assistance for a capital project under this chapter may include any amounts expended by a provider of public transportation by vanpool for the acquisition of rolling stock to be used by such provider in the recipient’s service area, excluding any amounts the provider may have received in Federal, State, or local government assistance for such acquisition.

(B) USE OF REVENUES.—A private provider of public transportation by vanpool may use revenues it receives in the provision of public transportation service in the service area of a recipient of assistance under this chapter that are in excess of the provider’s operating costs for the purpose of acquiring rolling stock to be used by such provider in the recipient’s service area, excluding any amounts the provider may have received in Federal, State, or local government assistance for such acquisition.

(C) DEFINITIONS.—In this paragraph, the following definitions apply:

(j) BUY AMERICA.—

(1) IN GENERAL.—The Secretary may obligate an amount that may be appropriated to carry out this chapter for a project only if the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality; and

(2) WAIVER.—The Secretary may waive paragraph (1) of this subsection if the Secretary finds that—

(A) applying paragraph (1) would be inconsistent with the public interest;

(B) the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality; and

(C) when procuring rolling stock (including train control, communication, traction power equipment, and rolling stock prototypes) under this chapter—

(3) WRITTEN WAIVER DETERMINATION AND ANNUAL REPORT.—

(ii) provide the public with a reasonable period of time for notice and comment.

(B) ANNUAL REPORT.—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, and annually thereafter, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report listing any waiver issued under paragraph (2) during the preceding year.

(4) LABOR COSTS FOR FINAL ASSEMBLY.—In this subsection, labor costs involved in final assembly are not included in calculating the cost of components.

(5) ROLLING STOCK FRAMES OR CAR SHELLS.—In carrying out paragraph (2)(C) in the case of a rolling stock procurement receiving assistance under this chapter in which the average cost of a rolling stock vehicle in the procure-
ment is more than $300,000, if rolling stock frames or car shells are not produced in the United States, the Secretary shall include in the calculation of the domestic content of the rolling stock the cost of steel or iron that is produced in the United States and used in the rolling stock frames or car shells.

(6) Certification of Domestic Supply and Disclosure.—

(A) Certification of Domestic Supply.—If the Secretary denies an application for a waiver under paragraph (2), the Secretary shall provide to the applicant a written certification that—

(i) the steel, iron, or manufactured goods, as applicable, (referred to in this subparagraph as the ‘‘item’’) is produced in the United States in a sufficient and reasonably available amount;

(ii) the item produced in the United States is of a satisfactory quality; and

(iii) includes a list of known manufacturers in the United States from which the item can be obtained.

(B) Disclosure.—The Secretary shall disclose the waiver denial and the written certification to the public in an easily identifiable location on the website of the Department of Transportation.

(7) Waiver Prohibited.—The Secretary may not make a waiver under paragraph (2) of this subsection for goods produced in a foreign country if the Secretary, in consultation with the United States Trade Representative, decides that the government of that foreign country—

(A) has an agreement with the United States Government under which the Secretary has waived the requirement of this subsection; and

(B) has violated the agreement by discriminating against goods to which this subsection applies that are produced in the United States.

(8) Penalty for Mislabeling and Misrepresentation.—A person is ineligible under subpart 9.1 of the Federal Acquisition Regulation, or any successor thereto, to receive a contract or subcontract made with amounts authorized under the Federal Public Transportation Act of 2015 if a court or department, agency, or instrumentality of the Government decides the person intentionally—

(B) represented that goods described in subparagraph (A) of this paragraph were produced in the United States.

(9) State Requirements.—The Secretary may not impose any limitation on assistance provided under this chapter that restricts a State from imposing more stringent requirements than this subsection on the use of articles, materials, and supplies mined, produced, or manufactured in foreign countries in projects carried out with that assistance or restricts a recipient of that assistance from complying with those State-imposed requirements.

(10) Opportunity to Correct Inadvertent Error.—The Secretary may allow a manufacturer or supplier of steel, iron, or manufactured goods to correct after bid opening any certification of noncompliance or failure to properly complete the certification (but not including failure to sign the certification) under this subsection if such manufacturer or supplier attests under penalty of perjury that such manufacturer or supplier submitted an incorrect certification as a result of an inadvertent or clerical error. The burden of establishing inadvertent or clerical error is on the manufacturer or supplier.

(11) Administrative Review.—A party adversely affected by an agency action under this subsection shall have the right to seek review under section 702 of title 5.

(12) Steel and Iron.—For purposes of this subsection, steel and iron meeting the requirements of section 661.5(b) of title 49, Code of Federal Regulations may be considered produced in the United States.

(13) Definition of Small Purchase.—For purposes of determining whether a purchase qualifies for a general public interest waiver under paragraph (2)(A) of this subsection, including under any regulation promulgated under that paragraph, the term ‘‘small purchase’’ means a purchase of not more than $150,000.

(k) Participation of Governmental Agencies in Design and Delivery of Transportation Services.—Governmental agencies and nonprofit organizations that receive assistance from Government sources (other than the Department of Transportation) for nonemergency transportation services shall—

(1) participate and coordinate with recipients of assistance under this chapter in the design and delivery of transportation services; and

(2) be included in the planning for those services.

(l) Relationship to Other Laws.—

(1) Fraud and False Statements.—Section 1001 of title 18 applies to a certificate, submission, or statement provided under this chapter. The Secretary may terminate financial assistance under this chapter and seek reimbursement directly, or by offsetting amounts, available under this chapter if the Secretary determines that a recipient of such financial assistance has made a false or fraudulent statement or related act in connection with a Federal public transportation program.

(2) Political Activities of Nonsupervisory Employees.—The provision of assistance under this chapter shall not be construed to require the application of chapter 15 of title 5 to any nonsupervisory employee of a public transportation system (or any other agency or entity performing related functions) to whom such chapter does not otherwise apply.

(m) Preaward and Postdelivery Review of Rolling Stock Purchases.—The Secretary shall
prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with Government motor vehicle safety requirements, subsection (j) of this section, and bid specifications requirements of grant recipients under this chapter. Under this subsection, independent inspections and review are required, and a manufacturer certification is not sufficient. Rolling stock procurements of 20 vehicles or fewer made for the purpose of serving rural areas and urbanized areas with populations of 200,000 or fewer shall be subject to the same requirements as established for procurements of 10 or fewer buses under the post-delivery purchaser's requirements certification process under section 663.37(c) of title 49, Code of Federal Regulations.

(n) Submission of Certifications.—A certification required under this chapter and any additional certification or assurance required by law or regulation to be submitted to the Secretary may be consolidated into a single document to be submitted annually as part of a grant application under this chapter. The Secretary shall publish annually a list of all certifications required under this chapter with the publication required under section 5336(d)(2).

(o) Grant Requirements.—The grant requirements under sections 5307, 5309, and 5337 apply to any project under this chapter that receives any assistance or other financing under chapter 6 (other than section 609) of title 23.

(p) Alternative Fueling Facilities.—A recipient of assistance under this chapter may allow the incidental use of federally funded alternative fueling facilities and equipment by nontransit public entities and private entities if—

(1) the incidental use does not interfere with the recipient’s public transportation operations;

(2) all costs related to the incidental use are fully recaptured by the recipient from the nontransit public entity or private entity;

(3) the recipient uses revenues received from the incidental use in excess of costs for planning, capital, and operating expenses that are incurred in providing public transportation; and

(4) private entities pay all applicable excise taxes on fuel.

(q) Corridor Preservation.—

(1) In General.—The Secretary may assist a recipient in acquiring right-of-way before the completion of the environmental reviews for any project that may use the right-of-way if the acquisition is otherwise permitted under Federal law.

(2) Environmental Reviews.—Right-of-way acquired under this subsection may not be developed in anticipation of the project until all required environmental reviews for the project have been completed.

(r) Reasonable Access to Public Transportation Facilities.—A recipient of assistance under this chapter may not deny reasonable access for a private intercity or charter transportation operator to federally funded public transportation facilities, including intermodal facilities, park and ride lots, and bus-only highway lanes. In determining reasonable access, capacity requirements of the recipient of assistance and the extent to which access would be detrimental to existing public transportation services must be considered.

(s) Value Capture Revenue Eligible for Local Share.—Notwithstanding any other provision of law, a recipient of assistance under this chapter may use the revenue generated from value capture financing mechanisms as local matching funds for capital projects and operating costs eligible under this chapter.

(t) Special Condition on Charter Bus Transportation Service.—If, in a fiscal year, the Secretary is prohibited by law from enforcing regulations related to charter bus service under part 604 of title 49, Code of Federal Regulations, for any transit agency that during fiscal year 2008 was both initially granted a 60-day period to come into compliance with such part 604, and then was subsequently granted an exception from such part—

(1) the transit agency shall be precluded from receiving its allocation of urbanized area formula grant funds for such fiscal year; and

(2) any amounts withheld pursuant to paragraph (1) shall be added to the amount that the Secretary may apportion under section 5336 in the following fiscal year.

§ 5331. Alcohol and controlled substances testing

(a) DEFINITIONS.—In this section—

(1) “controlled substance” means any substance under section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802) whose use the Secretary decides has a risk to transportation safety.

(2) “person” includes any entity organized or existing under the laws of the United States, a State, territory, or possession of the United States, or a foreign country.

(3) “public transportation” means any form of public transportation, except a form the Secretary decides is covered adequately, for employee alcohol and controlled substances testing purposes, under the alcohol and controlled substance statutes or regulations of an agency within the Department of Transportation or the Coast Guard.

(b) TESTING PROGRAM FOR PUBLIC TRANSPORTATION EMPLOYEES.—(1) In the interest of public transportation safety, the Secretary shall prescribe regulations that establish a program requiring public transportation operations that receive financial assistance under section 5307, 5309, or 5311 of this title to conduct preemployment, reasonable suspicion, random, and post-accident testing of public transportation employees responsible for safety-sensitive functions (as decided by the Secretary) for the use of a controlled substance in violation of law or a United States Government regulation, and to conduct reasonable suspicion, random, and post-accident testing of such employees for the use of alcohol in violation of law or a United States Government regulation. The regulations shall permit such operations to conduct preemployment testing of such employees for the use of alcohol.

(2) When the Secretary considers it appropriate in the interest of safety, the Secretary may prescribe regulations for conducting periodic recurring testing of public transportation employees responsible for safety-sensitive functions (as decided by the Secretary) for the use of alcohol or a controlled substance in violation of law or a Government regulation.

(2) In prescribing regulations under this subsection, the Secretary—

(A) shall require that post-accident testing of such a public transportation employee be conducted when loss of human life occurs in an accident involving public transportation; and

(B) may require that post-accident testing of such a public transportation employee be conducted when bodily injury or significant property damage occurs in any other serious accident involving public transportation.

(c) DISQUALIFICATIONS FOR USE.—(1) When the Secretary considers it appropriate, the Secretary shall require disqualification for an established period of time or dismissal of any employee referred to in subsection (b)(1) of this section who is found—

(A) to have used or been impaired by alcohol when on duty; or

(B) to have used a controlled substance, whether or not on duty, except as allowed for medical purposes by law or regulation.

(2) This section does not supersede any penalty applicable to a public transportation employee under another law.

(d) TESTING AND LABORATORY REQUIREMENTS.—In carrying out subsection (b) of this section, the Secretary shall develop requirements that shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimens;

(2) for laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any amendments to those guidelines, including mandatory guidelines establishing—
(A) comprehensive standards for every aspect of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards requiring the use of the best available technology to ensure the complete reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimens collected for controlled substances testing;

(B) the minimum list of controlled substances for which individuals may be tested; and

(C) appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

(3) require that a laboratory involved in controlled substances testing under this section have the capability and facility, at the laboratory, of performing screening and confirmation tests;

(4) provide that all tests indicating the use of alcohol or a controlled substance in violation of law or a Government regulation be confirmed by a scientifically recognized method of testing capable of providing quantitative information about alcohol or a controlled substance;

(5) provide that each specimen be subdivided, secured, and labeled in the presence of the tested individual and that a part of the specimen be retained in a secure manner to prevent the possibility of tampering, so that if the individual's confirmation test results are positive the individual has an opportunity to have a part tested by a 2d confirmation test done independently at another certified laboratory if the individual requests the 2d confirmation test not later than 3 days after being advised of the results of the first confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations that may be necessary and in consultation with the Secretary of Health and Human Services;

(7) provide for the confidentiality of test results and medical information (except information about alcohol or a controlled substance) of employees, except that this clause does not prevent the use of test results for the orderly imposition of appropriate sanctions under this section; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(e) REHABILITATION.—The Secretary shall prescribe regulations establishing requirements for rehabilitation programs that provide for the identification and opportunity for treatment of any public transportation employee referred to in subsection (b)(1) of this section who is found to have used alcohol or a controlled substance in violation of law or a Government regulation. The Secretary shall decide on the circumstances under which employees shall be required to participate in a program. This subsection does not prevent a public transportation operation from establishing a program under this section in cooperation with another public transportation operation.

(f) RELATIONSHIP TO OTHER LAWS, REGULATIONS, STANDARDS, AND ORDERS.—(1) A State or local government may not prescribe, issue, or continue in effect a law, regulation, standard, or order that is inconsistent with regulations prescribed under this section. However, a regulation prescribed under this section does not preempt a State criminal law that imposes sanctions for reckless conduct leading to loss of life, injury, or damage to property.

(2) In prescribing regulations under this section, the Secretary—

(A) shall establish only requirements that are consistent with international obligations of the United States; and

(B) shall consider applicable laws and regulations of foreign countries.

(g) CONDITIONS ON FEDERAL ASSISTANCE.—(1) INELIGIBILITY FOR ASSISTANCE.—A person that receives funds under this chapter is not eligible for financial assistance under section 5307, 5309, or 5311 of this title if the person is required, under regulations the Secretary prescribes under this section, to establish a program of alcohol and controlled substances testing and does not establish the program in accordance with this section.

(2) ADDITIONAL REMEDIES.—If the Secretary determines that a person that receives funds under this chapter is not in compliance with regulations prescribed under this section, the Secretary may bar the person from receiving Federal transit assistance in an amount the Secretary considers appropriate.

EFFECTIVE DATE OF 2012 AMENDMENT

§ 5333. Labor standards

(a) PREVAILING WAGES REQUIREMENT.—The Secretary of Transportation shall ensure that laborers and mechanics employed by contractors and subcontractors in construction work financed with a grant or loan under this chapter be paid wages not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor under sections 3141 through 3144, 3146, and 3147 of title 40. The Secretary of Transportation may approve a grant or loan only after being assured that required labor standards will be maintained on the construction work. For a labor standard under this subsection, the Secretary of Labor has the same duties and powers stated in Reorganization Plan No. 14 of 1950 (eff. May 24, 1950, 64 Stat. 1267) and section 3145 of title 40.

(b) EMPLOYEE PROTECTIVE ARRANGEMENTS.—(1) As a condition of financial assistance under sections 5307–5312, 5316, 5318, 5323(a)(1), 5323(b), 5323(d), 5328, and 5338(b) of this title, the interests of employees affected by the assistance shall be protected under arrangements the Secretary of Labor concludes are fair and equitable. The agreement granting the assistance under sections 5307–5312, 5316, 5318, 5323(a)(1), 5323(b), 5323(d), 5328, and 5338(b) shall specify the arrangements.

(2) Arrangements under this subsection shall include provisions that may be necessary for—
(A) the preservation of rights, privileges, and benefits (including continuation of pension rights and benefits) under existing collective bargaining agreements or otherwise;
(B) the continuation of collective bargaining rights;
(C) the protection of individual employees against a worsening of their positions related to employment;
(D) assurances of employment to employees of acquired public transportation systems;
(E) assurances of priority of reemployment of employees whose employment is ended or who are laid off; and
(F) paid training or retraining programs.

(3) Arrangements under this subsection shall provide benefits at least equal to benefits established under section 11326 of this title.

(4) Fair and equitable arrangements to protect the interests of employees utilized by the Secretary of Labor for assistance to purchase like-kind equipment or facilities, and grant amendments which do not materially revise or amend existing assistance agreements, shall be certified without referral.

(5) When the Secretary is called upon to issue fair and equitable determinations involving assurances of employment when one private transit bus service contractor replaces another through competitive bidding, such decisions shall be based on the principles set forth in the Department of Labor's decision of September 21, 1994, as clarified by the supplemental ruling of November 7, 1994, with respect to grant NV–90–X021. This paragraph shall not serve as a basis for objections under section 215.3(d) of title 29, Code of Federal Regulations.

1 See References in Text note below.
In subsection (a), the words “take such action as may be necessary for”, “the performance of”, “the assistance of”, and “at rates” are omitted as surplus. The word “same” is added for clarity. The words “duties and powers” are substituted for “authority and functions” for consistency in the revised title and with other titles of the United States Code.

In subsection (b)(1), the reference to sections 5307, 5308, 5310, and 5311 of the revised title is added for clarity because of 49 App:1609(e)(1), 1609a(a)(1), 1612(b), and 1614(f), restated as sections 5307(a)(2), 5308(b)(1), 5310(a), and 5311(i) of the revised title. The reference to section 5312 is added for clarity because it is intended that 49 App:1609(c) cover research, development, training, and demonstration projects. The words “terms and conditions of the protective” are omitted as surplus.

In subsection (b)(2), before clause (A), the words “without being limited to” are omitted as being included in “include”. The words “such provisions as may be necessary for” are omitted as surplus. In clause (C), the word “individual” is omitted as surplus.

EFFECTIVE DATE OF 2012 AMENDMENT

EFFECTIVE DATE OF 1995 AMENDMENT

§ 5334. Administrative provisions
(a) GENERAL AUTHORITY.—In carrying out this chapter, the Secretary of Transportation may—
(1) prescribe terms for a project that receives Federal financial assistance under this chapter (except terms the Secretary of Labor prescribes under section 5333(b) of this title);
(2) sue and be sued;
(3) foreclose on property or bring a civil action to protect or enforce a right conferred on the Secretary of Transportation by law or agreement;
(4) buy property related to a loan under this chapter;
(5) agree to pay an annual amount in place of a State or local tax on real property acquired or owned under this chapter;
(6) sell, exchange, or lease property, a security, or an obligation;
(7) obtain loss insurance for property and assets the Secretary of Transportation holds;
(8) consent to a modification in an agreement under this chapter;
(9) include in an agreement or instrument under this chapter a covenant or term the Secretary of Transportation considers necessary to carry out this chapter;
(10) collect fees to cover the costs of training or conferences, including costs of promotional materials, sponsored by the Federal Transit Administration to promote public transportation and credit amounts collected to the appropriation concerned; and
(11) issue regulations as necessary to carry out the purposes of this chapter.

(b) PROHIBITIONS AGAINST REGULATING OPERATIONS AND CHARGES.—
(1) IN GENERAL.—Except for purposes of national defense or in the event of a national or regional emergency, or for purposes of establishing and enforcing a program to improve the safety of public transportation systems in the United States as described in section 5329, the Secretary may not regulate the operation, routes, or schedules of a public transportation system for which a grant is made under this chapter. The Secretary may not regulate the rates, fares, tolls, rentals, or other charges prescribed by any provider of public transportation.

(2) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to prevent the Secretary from requiring a recipient of funds under this chapter to comply with the terms and conditions of its Federal assistance agreement.

(c) PROCEDURES FOR PRESCRIBING REGULATIONS.—(1) The Secretary shall prepare an agenda listing all areas in which the Secretary intends to propose regulations governing activities under this chapter within the following 12 months. The Secretary shall publish the proposed agenda in the Federal Register as part of the Secretary’s semiannual regulatory agenda that lists regulatory activities of the Federal Transit Administration. The Secretary shall submit the agenda to the Committee on Banking, Housing, and Urban Affairs and the Committee on Appropriations of the Senate and the Committee on Transportation and Infrastruc-
the Committee on Appropriations of the House of Representatives on the day the agenda is published.

(2) Except for emergency regulations, the Secretary shall give interested parties at least 60 days to participate in a regulatory proceeding under this chapter by submitting written information, views, or arguments, with or without an oral presentation, except when the Secretary for good cause finds that public notice and comment are unnecessary because of the routine nature or insignificant impact of the regulation or that an emergency regulation should be issued. The Secretary may extend the 60-day period if the Secretary decides the period is insufficient to allow diligent individuals to prepare comments or that other circumstances justify an extension.

(3) An emergency regulation ends 120 days after it is issued.

(4) The Secretary shall comply with this subsection when proposing or carrying out a regulation governing an activity under this chapter, except for a routine matter or a matter with no significant impact.

(d) Budget Program and Set of Accounts.—The Secretary shall—

(1) submit each year a budget program as provided in section 9109 of title 31; and

(2) maintain a set of accounts for audit under chapter 35 of title 31.

(e) Depository and Availability of Amounts.—The Secretary shall deposit amounts made available to the Secretary under this chapter in a checking account in the Treasury. Receipts, assets, and amounts obtained or held by the Secretary to carry out this chapter are available for administrative expenses to carry out this chapter.

(f) Binding Effect of Financial Transaction.—A financial transaction of the Secretary under this chapter and a related voucher are binding on all officers and employees of the United States Government.

(g) Dealing With Acquired Property.—Notwithstanding another law related to the Government acquiring, using, or disposing of real property, the Secretary may deal with property acquired under paragraph (3) or (4) of subsection (a) in any way. However, this subsection does not—

(1) deprive a State or political subdivision of a State of jurisdiction of the property; or

(2) impair the civil rights, under the laws of a State or political subdivision of a State, of an inhabitant of the property.

(h) Transfer of Assets No Longer Needed.—

(1) If a recipient of assistance under this chapter decides an asset acquired under this chapter at least in part with that assistance is no longer needed for the purpose for which it was acquired, the Secretary may authorize the recipient to transfer the asset to a local governmental authority to be used for a public purpose with no further obligation to the Government. The Secretary may authorize a transfer for a public purpose other than public transportation only if the Secretary decides—

(A) the asset will remain in public use for at least 5 years after the date the asset is transferred;

(B) there is no purpose eligible for assistance under this chapter for which the asset should be used;

(C) the overall benefit of allowing the transfer is greater than the interest of the Government in liquidation and return of the financial interest of the Government in the asset, after considering fair market value and other factors; and

(D) through an appropriate screening or survey process, that there is no interest in acquiring the asset for Government use if the asset is a facility or land.

(2) A decision under paragraph (1) must be in writing and include the reason for the decision.

(3) This subsection is in addition to any other law related to using and disposing of a facility or equipment under an assistance agreement.

(4) Proceeds from the Sale of Transit Assets.—

(A) In General.—When real property, equipment, or supplies acquired with assistance under this chapter are no longer needed for public transportation purposes as determined under the applicable assistance agreement, the Secretary may authorize the sale, transfer, or lease of the assets under conditions determined by the Secretary and subject to the requirements of this subsection.

(B) Use.—The net income from asset sales, uses, or leases (including lease renewals) under this subsection shall be used by the recipient to reduce the gross project cost of other capital projects carried out under this chapter.

(C) Relationship to Other Authority.—The authority of the Secretary under this subsection is in addition to existing authorities controlling allocation or use of recipient income otherwise permissible in law or regulation in effect prior to the date of enactment of this paragraph.

(j) Agency Statements.—

(1) Transfer of Amounts and Non-Government Share.—(1) Amounts made available for a public transportation project under title 23 may be transferred to and administered by the Secretary under this chapter. Amounts made available for a highway project under this chapter shall be transferred to and administered by the Secretary under title 23.

(2) The provisions of title 23 related to the non-Government share apply to amounts under title 23 used for public transportation projects. The provisions of this chapter related to the non-Government share apply to amounts under this chapter used for highway projects.

(k) Notification of Pending Discretionary Grants.—Not less than 3 full business days before announcement of award by the Secretary of any discretionary grant, letter of intent, or full funding grant agreement totaling $1,000,000 or more, the Secretary shall notify the Committee on Banking, Housing, and Urban Affairs and the Committee on Appropriations of the Senate and the Committee on Transportation and Infrastructure and the Committee on Appropriations of the House of Representatives.
tion 5334 of title 5 before the Federal Transit Administration issues a statement that imposes a binding obligation on recipients of Federal assistance under this chapter.

(2) BINDING OBLIGATION DEFINED.—In this subsection, the term “binding obligation” means a substantive policy statement, rule, or guidance document issued by the Federal Transit Administration that grants rights, imposes obligations, produces significant effects on private interests, or effects a significant change in existing policy.

5334(a) ..... 49 App.:1608(a) (1st sentence related to 12:1749a(c) (1)–(3), (5), (7)–(9)). July 9, 1964, Pub. L. 88–365, § 20(a), 81 Stat. 25.

In subsections (c)–(f), and (j), the relevant substantive provisions of 12:1749a are substituted for “shall... have the functions, powers, and duties set forth in section 1749a of title 12, except subsections (c)(2) and (f) of such section” for clarity. The reference to subsection (c)(2) is omitted as obsolete because section 201(d)(1) of the Housing and Community Development Technical Amendments Act of 1984 (Public Law 98–479, 98 Stat. 2228) repealed 12:1749a(c)(2). The words “in addition to any authority otherwise vested in him” are omitted as surplus.

In subsection (a), the text of 49 App.:1608(a) (1st sentence related to 12:1749a(c)(8)) is omitted as obsolete. Before clause (1), the words “carrying out this chapter” are substituted for “the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter” to eliminate unnecessary words.

In clause (1), the word “civil” is added for clarity. The words “contract, or other” are omitted as surplus. In clause (4), the words “bid and... at any foreclosure or other sale” are omitted as surplus. In clause (6), the words “at public or private sale”, “real or personal”, “and” are added for consistency in the revised title and because “rule” and “regulation” are synonymous.

In section (b)(1), the words “Federal Transit Administration” are substituted for “Urban Mass Transportation Administration” because of section 3009(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102–240, 105 Stat. 2088). The words “also” and “required by the first sentence of this paragraph” are omitted as surplus.

In subsection (c), before clause (1), the words “In the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter...” to eliminate unnecessary words. In clause (1), the word “or” is added for clarity. The word “required” is substituted for “in connection with such financial transactions” to eliminate unnecessary words. The words “approved by the Secretary” are substituted for “binding obligation” to eliminate surplus. The word “binding” is substituted for “final and conclusive” to eliminate unnecessary words.

In subsection (e), the words “and employees” are added for consistency in the revised title and with other titles of the United States Code.

In subsection (f), before clause (1), the words “in any way” are substituted for “complete, administer, re-model and convert, dispose of, lease and otherwise” to eliminate unnecessary words. In clause (1), the words “civil or criminal” are omitted as surplus. In clause (2), the words “political subdivision of a State” are substituted for “local” for consistency.

In subsection (g)(1), before clause (A), the words “facilities and equipment and other,” (including land), and “first” are omitted as surplus.

In subsection (g)(3), the words “and not in lieu of” are omitted as surplus.

Subsection (i) is substituted for section 1(a)(1) (related to authority and functions reserved to Secretary of Housing and Urban Development) of Reorganization Plan No. 2 of 1968 to eliminate unnecessary words. The
reference to 49 App.:1602(c)(1) is translated as a reference to 49 App.:1602(e)(1) because section 2(1) of the Urban Mass Transportation Assistance Act of 1976 (Public Law 94–553, 84 Stat. 3743) is redesignated subsection (c) as subsection (e). The references to 49 App.:1603(a) (1st sentence), 1604, and 1607c(b) and former 49 App.:1607a are omitted as obsolete because of section 108(a) of the National Mass Transportation Act of 1974 (Public Law 93–501, 86 Stat. 1567) and sections 303(b), 305(a), and 307 of the Federal Public Transportation Act of 1978 (Public Law 95–599, 92 Stat. 2737, 2743, 2747). Reference to 49 App.:1607c(c) is omitted because it was enacted after the Reorganization Plan and was not intended to be within the scope of the Plan.

Subsection (j)(1) is substituted for 49 App.:1608(a)(1) (1st sentence) to eliminate unnecessary words.

(A) 50 percent of the total amount apportioned multiplied by a ratio equal to the population of the area divided by the total population of all urbanized areas with populations of less than 200,000 as shown in the most recent decennial census; and

(B) 50 percent of the total amount apportioned multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile; and

(2) 90.68 percent shall be apportioned each fiscal year only in urbanized areas with populations of at least 200,000 as provided in subsections (b) and (c) of this section.

(b) BASED ON FIXED GUIDEWAY VEHICLE REVENUE MILES, DIRECTIONAL ROUTE MILES, AND PASSENGER MILES.—(1) In this subsection, “fixed guideway vehicle revenue miles” and “fixed guideway directional route miles” include passenger ferry operations directly or under contract by the designated recipient.

(B) 370; multiplied by

(C)(i) the population of the State in urbanized areas; divided by

(ii) the total population of the State.

(3) **STATE APPORTIONMENT FACTOR.**—For each State qualifying for an apportionment under paragraph (1), the Secretary shall calculate an amount equal to the difference between the total population of the State less the amount calculated in paragraph (2).

(5) **APPORTIONMENTS AMONG URBANIZED AREAS IN EACH STATE.**—The Secretary shall apportion amounts made available to each State under paragraph (4) so that each urbanized area receives an amount equal to the amount apportioned under paragraph (4) multiplied by a ratio equal to the population of each urbanized area divided by the sum of populations of all urbanized areas in the State. **SUBCHAPTER I—GENERAL**

§ 5501. National Intermodal Transportation System policy

(a) GENERAL.—It is the policy of the United States Government to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the United States to compete in the global economy, and will move individuals and property in an energy efficient manner.

(b) SYSTEM CHARACTERISTICS.—(1) The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the United States’ preeminent position in international commerce.

(2) The National Intermodal Transportation System shall include a National Highway System consisting of the Dwight D. Eisenhower System of Interstate and Defense Highways and those principal arterial roads that are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

(3) The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals in urban and rural areas of the United States.

(4) The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation’s link to commerce.

(5) The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion, and other aspects of the quality of life in the United States.

(6) The National Intermodal Transportation System must be operated and maintained with persistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly costly construction of the Dwight D. Eisenhower System of Interstate and Defense Highways must be confronted and stopped.

(7) The National Intermodal Transportation System shall be adapted to “intelligent vehicles”, “magnetic levitation systems”, and other new technologies, wherever feasible and economical, with benefit cost estimates given special emphasis on safety considerations and techniques for cost allocation.

(8) When appropriate, the National Intermodal Transportation System will be financed, as regards Government apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help carry out national goals related to mobility for elderly individuals, individuals with disabilities, and economically disadvantaged individuals.

(9) The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the United States for the 21st century.

(c) DISTRIBUTION AND POSTING.—The Secretary of Transportation shall distribute copies of the policy in subsections (a) and (b) of this section to each employee of the Department of Transportation and ensure that the policy is posted in all offices of the Department.

SUBCHAPTER II—TERMINALS

§ 5561. Definition
In this chapter, “civic and cultural activities” includes libraries, musical and dramatic presentations, art exhibits, adult education programs, public meeting places, and other facilities for carrying on an activity any part of which is supported under a law of the United States.

In this chapter, both sections 6 and 15 of the Amtrak Improvement Act (Public Law 93–406, 88 Stat. 1528, 1533) are listed as source credits for the addition of section 4(i) to the Department of Transportation Act (Public Law 89–670, 80 Stat. 931). This is done to conform to the probable intent of Congress as evidenced by the directory language of section 15 of the Act of October 28, 1974.

In this section, the words “for community groups, convention visitors and others” are omitted as unnecessary.

§ 5562. Assistance projects

(2) planning activity directed toward conversion or reuse has begun and is proceeding in a competent way.

(c) Maximizing Preservation of Terminals.—

(1) Amounts appropriated to carry out this section and section 5562(a)(2) of this title shall be expended in the way most likely to maximize the preservation of rail passenger terminals that are—

AMENDMENTS
(7) “Intermodal transportation” means the successive transportation of a loaded container or trailer from its place of origin to its place of destination by more than one mode of transportation in interstate or foreign commerce, whether under a single bill of lading or under separate bills of lading.

(8) “Trailer” means a nonpower, property-carrying, trailing unit that is designed for use in combination with a truck tractor.

This chapter restates 49:508 and the relevant definitions in 49:501 because the subject matter more appropriately belongs in subtitle III of title 49. The text of 49:501(a)(1) is restated to incorporate the definitions in 49:10102. The terms defined in 49:501(a)(2) and (3) are not used in this chapter.

In clause (2), the word “including” is substituted for “For purposes of this paragraph . . . shall be treated as a beneficial owner of such property” for consistency and to eliminate unnecessary words. The words “is not a beneficial owner only because of providing or arranging for any part of the intermodal transportation of property” are substituted for “providing or arranging for any portion of intermodal transportation of property shall in no case be a beneficial owner of such property, for purposes of this paragraph, solely by reason of providing or arranging for such transportation” to eliminate unnecessary words.

In clause (3)(A), the words “(as such terms are defined in section 10102 of this title)” are omitted as unnecessary because of clause (1) of this section.

In clause (7), the words “property-carrying” are substituted for “cargo carrying” for consistency in the revised title.

### AMENDMENTS

1996—Par. (1). Pub. L. 104–291, §203(1), added par. (1) and struck out former par. (1) which read as follows: “the definitions in section 10102 of this title apply.”

### § 5902. Notifications and certifications

#### (a) prior notification

The notification may be transmitted electronically or by telephone. This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier.

#### (b) certification

(1) In General.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

(2) contents of certification

The certification required by paragraph (1) shall include—

(A) the actual gross cargo weight;

(B) a reasonable description of the contents of the container or trailer;

(C) the identity of the certifying party;

(D) the container or trailer number; and

(E) the date of certification or transfer of data to another document, as provided for in paragraph (3).

In clause (2), the word “including” is substituted for “For purposes of this paragraph . . . shall be treated as a beneficial owner of such property” for consistency and to eliminate unnecessary words. In clause (7), the words “property-carrying” are substituted for “cargo carrying” for consistency in the revised title.

### AMENDMENTS

1996—Par. (1). Pub. L. 104–291, §203(1), added par. (1) and struck out former par. (1) which read as follows: “the definitions in section 10102 of this title apply.”

### § 5902. Notifications and certifications

(a) Prior Notification.—If the first carrier to which any loaded container or trailer having a projected gross cargo weight of more than 29,000 pounds is tendered for intermodal transportation is a motor carrier, the person tendering the container or trailer shall give the motor carrier a notification of the gross cargo weight and a reasonable description of the contents of the container or trailer before the tendering of the container or trailer. The notification may be transmitted electronically or by telephone. This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier.

(b) Certification.—

(1) In General.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

(2) Contents of Certification.—The certification required by paragraph (1) shall include—

(A) the actual gross cargo weight;

(B) a reasonable description of the contents of the container or trailer;

(C) the identity of the certifying party;

(D) the container or trailer number; and

(E) the date of certification or transfer of data to another document, as provided for in paragraph (3).

(3) Transfer of Certification Data.—A carrier who receives a certification may transfer the information contained in the certification to another document or to electronic format for forwarding to a subsequent carrier. The person transferring the information shall state on the forwarded document the date on which the data was transferred and the identity of the party who performed the transfer.

(4) Separate Document Marking.—For purposes of this chapter, a shipping document, prepared by the person who tenders a container or trailer to a first carrier, that contains the information required by paragraph (2) meets the requirements of paragraph (1).

(5) Use of “Freight All Kinds” Term.—The term “Freight All Kinds” or “FAK” may not be used for the purpose of certification under section 5902(b) after December 31, 2000, as a commodity description for a trailer or container if the weight of any commodity in the trailer or container equals or exceeds 20 percent of the total weight of the contents of the trailer or container. This subsection does not prohibit the use of the term after that date for rating purposes.

(6) Separate Document Marking.—If a separate document is used to meet the requirements of paragraph (1), it shall be conspicuously marked “INTERMODAL CERTIFICATION”.

(7) Applicability.—This subsection applies to any person, domestic or foreign, who first tenders a container or trailer subject to this chapter for intermodal transportation within the United States.

(c) Forwarding Certifications to Subsequent Carriers.—A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator shall forward the certification provided under subsection (b) of this section to a subsequent carrier transporting the container or trailer in intermodal transportation before or when the loaded intermodal container or trailer is tendered to the subsequent carrier. If no certification is received by the subsequent carrier before or when the container or trailer is tendered to it, the subsequent
carrier may presume that no certification is required. The act of forwarding the certification may not be construed as a verification or affirmation of the accuracy or completeness of the information in the certification. If a person inaccurately transfers the information on the certification, or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest for any such fine, penalty, cost (including storage), or interest incurred as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure.

(d) LIABILITY TO OWNER OR BENEFICIAL OWNER.—If—

(1) a person inaccurately transfers information on a certification required by subsection (b)(1), or fails to forward a certification to the subsequent carrier;

(2) as a result of the inaccurate transfer of such information or a failure to forward a certification, the subsequent carrier incurs a bond, fine, penalty, or cost (including storage), or interest; and

(3) that subsequent carrier exercises its rights to a lien under section 5905, then that person is liable to the owner or beneficial owner, or to any other person paying the amount of the lien to the subsequent carrier, for the amount of the lien and all costs related to the imposition of the lien, including court costs and legal fees incurred in connection with it.

(e) NONAPPLICATION.—(1) The notification and certification requirements of subsections (a) and (b) of this section do not apply to any intermodal container or trailer containing consolidated shipments loaded by a motor carrier if that motor carrier—

(A) performs the highway portion of the intermodal movement; or

(B) assumes the responsibility for any weight-related fine or penalty incurred by any other motor carrier that performs a part of the highway transportation.

(2) Subsections (a) and (b) of this section and section 5903(c) of this title do not apply to a carrier when the carrier is transferring a loaded container or trailer to another carrier during intermodal transportation, unless the carrier is also the person tendering the loaded container or trailer to the first carrier.

(3) A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator is deemed not to be a person tendering a loaded container or trailer to a first carrier under this section, unless the carrier, agent, broker, customs broker, freight forwarder, warehouse, or terminal operator assumes legal responsibility for loading property into the container or trailer.

(4) As used in subsection (a), the term "intermodal transportation" means the transportation of a container or trailer for which there is an actual or apparent change of carrier between the initial carrier and a subsequent carrier.

(Historical and Revision Notes)

In subsection (c), the words “shall forward” are substituted for “If a person inaccurately transfers the information on or interest as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure.”

In subsection (d)(2), the words “is deemed not to be” are substituted for “shall not be considered to be” for consistency in the revised title.

Amendments

1996—Subsec. (a). Pub. L. 104–291, § 204(a)(4), (5), substituted “electronically or by telephone. This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier.” for “electronically.”

Pub. L. 104–291, § 204(a)(3), inserted “before the tendering of the container or trailer” after “contents of the container or trailer.”

Pub. L. 104–291, § 204(a)(2), substituted “29,000 pounds is tendered for intermodal transportation a motor carrier, the person tendering the container or trailer shall give the motor carrier a” for “10,000 pounds (including packing material and pallets), the person shall give the carrier a written”.

Pub. L. 104–291, § 204(a)(1), substituted “if the first carrier to which any” for “Before a person tenders to a first carrier for intermodal transportation a”.

Subsec. (b). Pub. L. 104–291, § 204(b), reenacted heading without change and amended text generally. Prior to amendment, text read as follows: “Not later than when a person tenders to a first carrier for intermodal transportation a container or trailer to which subsection (a) of this section applies or a loaded container or trailer having an actual gross cargo weight of more than 10,000 pounds (including packing material and pallets), the person shall certify to the carrier in writing the actual gross cargo weight and a reasonable description of the contents of the container or trailer.”

Subsec. (c). Pub. L. 104–291, § 204(c)(2), inserted at end “‘If a person inaccurately transfers the information on the certification, or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest for any such fine, penalty, cost (including storage), or interest incurred as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure.’”

Pub. L. 104–291, § 204(c)(1), substituted “transportation before or when the loaded intermodal container or trailer is tendered to the subsequent carrier. If no certification is received by the subsequent carrier before or when the container or trailer is tendered to it, the subsequent carrier may presume that no certification is required.” for “transportation.”

Subsec. (e), Pub. L. 104–291, § 204(d), (e), redesignated subsec. (d) as (e), added par. (1), redesignated former pars. (1) and (2) as (2) and (3), respectively, and adjusted margin of par. (2).

§ 5903. Prohibitions

(a) Providing erroneous information.—A person, To whom section 5902(b) applies, tendering a loaded container or trailer may not provide erroneous information in a certification required by section 5902(b) of this title.

(b) Transporting prior to receiving certification.—

(1) Presumption.—If no certification is received by a motor carrier before or when a loaded intermodal container or trailer is tendered to it, the motor carrier may presume that the gross cargo weight of the container or trailer is less than 29,001 pounds.

(2) Copy of certification not required to accompany container or trailer.—Notwithstanding any other provision of this chapter to the contrary, a copy of the certification required by section 5902(b) is not required to accompany the intermodal container or trailer.

(c) Unlawful coercion.—(1) A person may not coerce or attempt to coerce a person participating in intermodal transportation to transport a loaded container or trailer having an actual gross cargo weight of more than 29,000 pounds before the certification required by section 5902(b) of this title is provided.

(2) A person, knowing that the weight of a loaded container or trailer or the weight of a tractor-trailer combination carrying the container or trailer is more than the weight allowed by applicable State law, may not coerce or attempt to coerc a carrier to transport the container or trailer or to operate the tractor-trailer combination in violation of that State law.

(d) Notice to leased operators.—

(1) In general.—If a motor carrier knows that the gross cargo weight of an intermodal container or trailer subject to the certification requirements of section 5902(b) would result in a violation of applicable State gross vehicle weight laws, then—

(A) the motor carrier shall give notice to the operator of the vehicle which is leased by the vehicle operator to a motor carrier that transports an intermodal container or trailer of the gross cargo weight of the container or trailer as certified to the motor carrier under section 5902(b);

(B) the notice shall be provided to the operator prior to the operator being tendered the container or trailer;

(C) the notice required by this subsection shall be in writing, but may be transmitted electronically; and

(D) the motor carrier shall bear the burden of proof to establish that it tendered the required notice to the operator.

(2) Reimbursement.—If the operator of a leased vehicle transporting a container or trailer subject to this chapter is fined because of a violation of a State’s gross vehicle weight laws or regulations and the lessee motor carrier cannot establish that it tendered to the operator the notice required by paragraph (1) of this subsection, then the operator shall be entitled to reimbursement from the motor carrier in the amount of any fine and court costs resulting from the failure of the motor carrier to tender the notice to the operator.

Historical and Revision Notes

In this section, the words “may not” are substituted for “it shall be a violation” and “it shall be unlawful” for consistency in the revised title.

In subsection (a), the words “After the date on which the Secretary of Transportation issues final regulations to enforce this section” are omitted because of section 5907(b) of the revised title. The words “to fail to comply with paragraph (1) or (2)” are omitted as unnecessary because the failure to comply with an affirmative duty is a violation without the need to say so specifically. The word “false” is omitted as included in “erroneous”. The word “written” is omitted as surplus.

In subsection (b), the words “as such term is defined in section 10102 of this title” are omitted as unnecessary because of section 5901(1) of the revised title. The word “transport” is substituted for “provide transportation of” for consistency and to eliminate unnecessary words.

Amendments

1996—Subsec. (a). Pub. L. 104–291, § 205(1), inserted “, To whom section 5902(b) applies,” after “person”.

Subsec. (b). Pub. L. 104–291, § 205(2), added subsec. (b) and struck out former subsec. (b) which read as follows: “(b) Transporting prior to receiving certification.—A motor carrier may not transport a loaded container or trailer to which section 5902(b) of this title applies before receiving the certification required by section 5902(b).”

Subsec. (c). Pub. L. 104–291, § 205(3), substituted “29,000 pounds” for “10,000 pounds (including packing materials and pallets)”.

§ 5904. State enforcement

(a) General.—A State may enact a law to permit the State or a political subdivision of the State—

(1) to impose a fine or penalty, for a violation of a State highway weight law or regulation by a tractor-trailer combination carrying a loaded container or trailer for which a certification is required by section 5902(b) of this title, against the person tendering the loaded container or trailer to the first carrier if the violation results from the person’s having provided erroneous information in the certification in violation of section 5903(a) of this title; and

(2) to impound the container or trailer until the fine or penalty has been paid by the owner or beneficial owner of the contents of the container or trailer or the person tendering the loaded container or trailer to the first carrier.

(b) Limitation.—This chapter does not require a person tendering a loaded container or trailer...
to a first carrier to ensure that the first carrier or any other carrier involved in the intermodal transportation will comply with any State highway weight law or regulation, other than as required by this chapter.

§ 5905. Liens

(a) GENERAL.—If a person involved in the intermodal transportation of a loaded container or trailer for which a certification is required by section 5902(b) of this title is required, because of a violation of a State's gross vehicle weight laws or regulations, to post a bond or pay a fine, penalty, cost (including storage), or interest resulting from—

(1) erroneous information provided by the certifying party in the certification to the first carrier in violation of section 5903(a) of this title;
(2) the failure of the party required to provide the certification to the first carrier to provide it;
(3) the failure of a person required under section 5902(c) to forward the certification to the first carrier; or
(4) an error occurring in the transfer of information on the certification to another document under section 5902(b)(3) or (c),

then the person posting the bond, or paying the fine, penalty, costs (including storage), or interest incurred, until the person receives a payment of that amount from the owner or beneficial owner of the contents or from the person responsible for making the certification.

Subsec. (b)(1). Pub. L. 104–291, §206(3), substituted “cost (including storage), or interest. The lien shall remain in effect until the lien holder has received payment for all costs and expenses described in subsection (a) of this section.” for “cost, or interest.”

Pub. L. 104–291, §206(2), inserted “, or the owner or beneficial owner of the contents,” after “first carrier”.

§ 5906. Perishable agricultural commodities

Section 5905 of this title does not apply to a container or trailer the contents of which are perishable agricultural commodities (as defined in the Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499a et seq.)).

References in Text

The Perishable Agricultural Commodities Act, 1930, referred to in text, is act June 10, 1930, ch. 438, 46 Stat. 551, as amended, which is classified generally to chapter 20A (§499a et seq.) of Title 7, Agriculture. For complete classification of this Act to the Code, see section 499a(a) of Title 7 and Tables.
$5907. Effective date

This chapter shall take effect 180 days after the date of enactment of the Intermodal Safe Container Transportation Amendments Act of 1996.

$5908. Relationship to other laws

Nothing in this chapter affects—
(1) chapter 51 (relating to transportation of hazardous material) or the regulations promulgated under that chapter; or
(2) any State highway weight or size law or regulation applicable to tractor-trailer combinations.

$6101. Purposes

The purposes of this chapter are—
(1) to enhance public safety;
(2) to protect the environment;
(3) to minimize risks to excavators; and
(4) to prevent disruption of vital public services,
by reducing the incidence of damage to underground facilities during excavation through the voluntary adoption and efficient implementation by all States of State one-call notification programs that meet the minimum standards set forth under section 6103.

$6102. Definitions

In this chapter, the following definitions apply:
(1) ONE-CALL NOTIFICATION SYSTEM.—The term “one-call notification system” means a system operated by an organization that has as 1 of its purposes to receive notification from excavators of intended excavation in a specified area in order to disseminate such notification to underground facility operators that are members of the system so that such operators can locate and mark their facilities in order to prevent damage to underground facilities in the course of such excavation.
§ 6103. Minimum standards for State one-call notification programs

(a) MINIMUM STANDARDS.—

(1) IN GENERAL.—In order to qualify for a grant under section 6106, a State one-call notification program, at a minimum, shall provide for—

(A) appropriate participation by all underground facility operators, including all government operators;

(B) appropriate participation by all excavators, including all government and contract excavators; and

(C) flexible and effective enforcement under State law with respect to participation in, and use of, one-call notification systems.

(2) EXEMPTIONS PROHIBITED.—In order to qualify for a grant under section 6106, a State one-call notification program may not exempt municipalities, State agencies, or their contractors from the one-call notification system requirements of the program.

(b) APPROPRIATE PARTICIPATION.—In determining the appropriate extent of participation required for types of underground facilities or excavators under subsection (a), a State shall assess, rank, and take into consideration the risks to the public safety, the environment, excavators, and vital public services associated with—

(1) damage to types of underground facilities; and

(2) activities of types of excavators.

(c) IMPLEMENTATION.—A State one-call notification program also shall, at a minimum, provide for and document—

(1) consideration of the ranking of risks under subsection (b) in the enforcement of its provisions;

(2) a reasonable relationship between the benefits of one-call notification and the cost of implementing and complying with the requirements of the State one-call notification program; and

(3) voluntary participation where the State determines that a type of underground facility or an activity of a type of excavator poses a de minimis risk to public safety or the environment.

(d) PENALTIES.—To the extent the State determines appropriate and necessary to achieve the purposes of this chapter, a State one-call notification program shall, at a minimum, provide for—

(1) administrative or civil penalties commensurate with the seriousness of a violation by an excavator or facility owner of a State one-call notification program;

(2) increased penalties for parties that repeatedly damage underground facilities because they fail to use one-call notification systems or for parties that repeatedly fail to provide timely and accurate marking after the required call has been made to a one-call notification system;

(3) reduced or waived penalties for a violation of a requirement of a State one-call notification program that results in, or could result in, damage that is promptly reported by the violator;

(4) equitable relief; and

(5) citation of violations.

AMENDMENTS

2012—Subsec. (a). Pub. L. 112–90, § 3(a), amended subsec. (a) generally. Prior to amendment, text read as follows: “In order to qualify for a grant under section 6106, a State one-call notification program shall, at a minimum, provide for—

“(1) appropriate participation by all underground facility operators, including all government operators;

“(2) appropriate participation by all excavators, including all government and contract excavators; and

“(3) flexible and effective enforcement under State law with respect to participation in, and use of, one-call notification systems.”

EFFECTIVE DATE OF 2012 AMENDMENT

Pub. L. 112–90, § 3(c), Jan. 3, 2012, 125 Stat. 1906, provided that: “The amendments made by this section [amending this section and section 60134 of this title] shall take effect 2 years after the date of enactment of this Act (Jan. 3, 2012).”

§ 6104. Compliance with minimum standards

(a) REQUIREMENT.—In order to qualify for a grant under section 6106, each State shall submit to the Secretary a grant application under subsection (b). The State shall submit the application not later than 2 years after the date of enactment of this chapter.

(b) APPLICATION.—

(1) Upon application by a State, the Secretary shall review that State’s one-call notification program, including the provisions for the implementation of the program and the record of compliance and enforcement under the program.

(2) Based on the review under paragraph (1), the Secretary shall determine whether the State’s one-call notification program meets
the minimum standards for such a program set forth in section 6103 in order to qualify for a grant under section 6106.

(3) In order to expedite compliance under this section, the Secretary may consult with the State as to whether an existing State one-call notification program, a specific modification thereof, or a proposed State program would result in a positive determination under paragraph (2).

(4) The Secretary shall prescribe the form and manner of filing an application under this section that shall provide sufficient information about a State’s one-call notification program for the Secretary to evaluate its overall effectiveness. Such information may include the nature and reasons for exceptions from required participation, the types of enforcement available, and such other information as the Secretary deems necessary.

(5) The application of a State under paragraph (1) and the record of actions of the Secretary under this section shall be available to the public.

(c) ALTERNATIVE PROGRAM.—A State is eligible to receive a grant under section 6106 if the State maintains an alternative one-call notification program that provides protection for public safety, excavators, and the environment that is equivalent to, or greater than, protection provided under a program that meets the minimum standards set forth in section 6103.

(d) REPORT.—The Secretary shall include the following information in reports submitted under section 60124 of this title—

(1) a description of the extent to which each State has adopted and implemented the minimum Federal standards under section 6103 or maintains an alternative program under subsection (c);

(2) an analysis by the Secretary of the overall effectiveness of each State’s one-call notification program and the one-call notification systems operating under such program in achieving the purposes of this chapter;

(3) the impact of each State’s decisions on the extent of required participation in one-call notification systems on prevention of damage to underground facilities; and

(4) areas where improvements are needed in one-call notification systems in operation in each State.

The report shall also include any recommendations the Secretary determines appropriate. If the Secretary determines that the purposes of this chapter have been substantially achieved, no further report under this section shall be required.

Chapter 101—GENERAL PROVISIONS

§ 10101. Rail transportation policy

In regulating the railroad industry, it is the policy of the United States Government—

(1) to allow, to the maximum extent possible, competition and the demand for services to establish reasonable rates for transportation by rail;

(2) to minimize the need for Federal regulatory control over the rail transportation system and to require fair and expeditious regulatory decisions when regulation is required;

(3) to promote a safe and efficient rail transportation system by allowing rail carriers to earn adequate revenues, as determined by the Board;

(4) to ensure the development and continuation of a sound rail transportation system with effective competition among rail carriers and with other modes, to meet the needs of the public and the national defense;

(5) to foster sound economic conditions in transportation and to ensure effective competition and coordination between rail carriers and other modes;

(6) to maintain reasonable rates where there is an absence of effective competition and where rail rates provide revenues which exceed the amount necessary to maintain the rail system and to attract capital;

(7) to reduce regulatory barriers to entry into and exit from the industry;

(8) to operate transportation facilities and equipment without detriment to the public health and safety;

(9) to encourage honest and efficient management of railroads;

(10) to require rail carriers, to the maximum extent practicable, to rely on individual rate increases, and to limit the use of increases of general applicability;

(11) to encourage fair wages and safe and suitable working conditions in the railroad industry;

(12) to prohibit predatory pricing and practices, to avoid undue concentrations of market

power, and to prohibit unlawful discrimination;
(13) to ensure the availability of accurate cost information in regulatory proceedings, while minimizing the burden on rail carriers of preparing and maintaining the capability of providing such information;
(14) to encourage and promote energy conservation; and
(15) to provide for the expeditious handling and resolution of all proceedings required or permitted to be brought under this part.

§ 10501. General jurisdiction

(a)(1) Subject to this chapter, the Board has jurisdiction over transportation by rail carrier that is—

(A) only by railroad; or

(B) by railroad and water, when the transportation is under common control, management, or arrangement for a continuous carriage or shipment.

(2) Jurisdiction under paragraph (1) applies only to transportation in the United States between a place in—

§10702. Authority for rail carriers to establish rates, classifications, rules, and practices

A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part shall establish reasonable—

(1) rates, to the extent required by section 10707, divisions of joint rates, and classifications for transportation and service it may provide under this part; and

(2) rules and practices on matters related to that transportation or service.

Prior Provisions

§10704. Authority and criteria: rates, classifications, rules, and practices prescribed by Board

(a)(1) When the Board, after a full hearing, decides that a rate charged or collected by a rail carrier for transportation subject to the jurisdiction of the Board under this part, or that a classification, rule, or practice of that carrier, does or will violate this part, the Board may prescribe the maximum rate, classification, rule, or practice to be followed. The Board may order the carrier to stop the violation. When a rate, classification, rule, or practice is prescribed under this subsection, the affected carrier may not publish, charge, or collect a different rate and shall adopt the classification and observe the rule or practice prescribed by the Board.

(2) The Board shall maintain and revise as necessary standards and procedures for establishing revenue levels for rail carriers providing transportation subject to its jurisdiction under this part that are adequate, under honest, economical, and efficient management, for the infrastructure and investment needed to meet the present and future demand for rail services and to cover total operating expenses, including depreciation and obsolescence, plus a reasonable and economic profit or return (or both) on capital employed in the business. The Board shall
make an adequate and continuing effort to assist those carriers in attaining revenue levels prescribed under this paragraph. Revenue levels established under this paragraph should—

(A) provide a flow of net income plus depreciation adequate to support prudent capital outlays, assure the repayment of a reasonable level of debt, permit the raising of needed equity capital, and cover the effects of inflation; and

(B) attract and retain capital in amounts adequate to provide a sound transportation system in the United States.

(3) On the basis of the standards and procedures described in paragraph (2), the Board shall annually determine which rail carriers are earning adequate revenues.

(b) The Board may begin a proceeding under this section only on complaint. A complaint under subsection (a) of this section must be made under section 11701 of this title, but the proceeding may also be in extension of a complaint pending before the Board.

(c) In a proceeding to challenge the reasonableness of a rate, the Board shall make its determination as to the reasonableness of the challenged rate—

(1) within 9 months after the close of the administrative record if the determination is based upon a stand-alone cost presentation; or

(2) within 6 months after the close of the administrative record if the determination is based upon the methodology adopted by the Board pursuant to section 10701(d)(3).

(d)(1) The Board shall maintain procedures to ensure the expeditious handling of challenges to the reasonableness of railroad rates. The procedures shall include appropriate measures for avoiding delay in the discovery and evidentiary phases of such proceedings and exemption or revocation proceedings, including appropriate sanctions for such delay, and for ensuring prompt disposition of motions and interlocutory administrative appeals.

(2) Except as provided under subparagraph (B), in a stand-alone cost rate challenge, the Board shall comply with the following timeline:

(i) Discovery shall be completed not later than 150 days after the date on which the challenge is initiated.

(ii) The development of the evidentiary record shall be completed not later than 155 days after the date on which discovery is completed under clause (i).

(iii) The closing brief shall be submitted not later than 60 days after the date on which the development of the evidentiary record is completed under clause (ii).

(iv) A final Board decision shall be issued not later than 180 days after the date on which the evidentiary record is completed under clause (ii).

(B) The Board may extend a timeline under subparagraph (A) after a request from any party or in the interest of due process.

what division would have been reasonable and order adjustment to be made retroactive to the date the complaint was filed, the date the order for an investigation was made, or a later date that the Board decides is justified. The Board may make a decision under this subsection effective as part of its original decision.

Prior Provisions

Prior sections 10705 and 10705a were omitted in the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§10706. Rate agreements: exemption from anti-trust laws

(a)(1) In this subsection—

(A) the term “affiliate” means a person controlling, controlled by, or under common control or ownership with another person and “ownership” refers to equity holdings in a business entity of at least 5 percent;

(B) the term “single-line rate” refers to a rate or allowance proposed by a single rail carrier that is applicable only over its line and for which the transportation (exclusive of terminal services by switching, drayage or other terminal carriers or agencies) can be provided by that carrier; and

(C) the term “practically participates in the movement” shall have such meaning as the Board shall by regulation prescribe.

(2)(A) A rail carrier providing transportation subject to the jurisdiction of the Board under this part that is a party to an agreement of at least 2 rail carriers that relates to rates (including charges between rail carriers and compensation paid or received for the use of facilities and equipment), classifications, divisions, or rules related to them, or procedures for joint consideration, initiation, publication, or establishment of them, shall apply to the Board for approval of that agreement under this subsection.

The Board shall approve the agreement only when it finds that the making and carrying out of the agreement will further the transportation policy of section 10101 of this title and may require compliance with conditions necessary to make the agreement further that policy as a condition of its approval. If the Board approves the agreement, it may be made and carried out under its terms and under the conditions required by the Board, and the Sherman Act (15 U.S.C. 1 et seq.), the Clayton Act (15 U.S.C. 12 et seq.), the Federal Trade Commission Act (15 U.S.C. 41 et seq.), sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9), and the Act of June 19, 1936 (15 U.S.C. 13, 13a, 13b, 21a) do not apply to parties and other persons with respect to making or carrying out the agreement. However, the Board may not approve or continue approval of an agreement when the conditions required by it are not met or if it does not receive a verified statement under subparagraph (B) of this paragraph.

(B) The Board may approve an agreement under subparagraph (A) of this paragraph only when the rail carriers applying for approval file a verified statement with the Board. Each statement must specify for each rail carrier that is a party to the agreement—

(i) the name of the carrier;

(ii) the mailing address and telephone number of its headquarter’s office; and

(iii) the names of each of its affiliates and the names, addresses, and affiliates of each of its officers and directors and of each person, together with an affiliate, owning or controlling any debt, equity, or security interest in it having a value of at least $1,000,000.

(3)(A) An organization established or continued under an agreement approved under this subsection shall make a final disposition of a rate or rule docketed with it by the 120th day after the proposal is docketed. Such an organization may not—

(i) permit a rail carrier to discuss, to participate in agreements related to, or to vote on single-line rates proposed by another rail carrier, except that for purposes of general rate increases and broad changes in rates, classifications, rules, and practices only, if the Board finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part;

(ii) permit a rail carrier to discuss, to participate in agreements related to, or to vote on rates related to a particular interline movement unless that rail carrier practically participates in the movement; or

(iii) if there are interline movements over two or more routes between the same end points, permit a carrier to discuss, to participate in agreements related to, or to vote on rates except with a carrier which forms part of a particular single route. If the Board finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part.

(B)(i) In any proceeding in which a party alleges that a rail carrier voted or agreed on a rate or allowance in violation of this subsection, that party has the burden of showing that the vote or agreement occurred. A showing of parallel behavior does not satisfy that burden by itself.

(ii) In any proceeding in which it is alleged that a carrier was a party to an agreement, conspiracy, or combination in violation of a Federal law cited in subsection (a)(2)(A) of this section or of any similar State law, proof of an agreement, conspiracy, or combination may not be inferred from evidence that two or more rail carriers acted together with respect to an interline rate or related matter and that a party to such action took similar action with respect to a rate or related matter on another route or
traffic. In any proceeding in which such a violation is alleged, evidence of a discussion or agreement between or among such rail carrier and one or more other rail carriers, or of any rate or other action resulting from such discussion or agreement, shall not be admissible if the discussion or agreement—

(I) was in accordance with an agreement approved under paragraph (2) of this subsection; or

(II) concerned an interline movement of the rail carrier, and the discussion or agreement would not, considered by itself, violate the laws referred to in the first sentence of this clause.

In any proceeding before a jury, the court shall determine whether the requirements of subsection (a) are satisfied before allowing the introduction of any such evidence.

(C) An organization described in subparagraph (A) of this paragraph shall provide transcripts or sound recordings to the Board and made available to other Federal agencies in connection with their statutory responsibilities over rate bureaus, except that such material shall be kept confidential and shall not be subject to disclosure under section 552 of title 5, United States Code.

(4) Notwithstanding any other provision of this subsection, one or more rail carriers may enter into an agreement, without obtaining prior Board approval, that provides solely for compilation, publication, and other distribution of rates in effect or to become effective. The Sherman Act (15 U.S.C. 1 et seq.), the Clayton Act (15 U.S.C. 12 et seq.), the Federal Trade Commission Act (15 U.S.C. 41 et seq.), sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9), and the Act of June 18, 1936 (15 U.S.C. 13, 13a, 13b, 21a) shall not apply to parties and other persons with respect to making or carrying out such agreement. However, the Board may, upon application or on its own initiative, investigate whether the parties to such an agreement have exceeded its scope, and upon a finding that they have, the Board may issue such orders as are necessary, including an order dissolving the agreement, to ensure that actions taken pursuant to the agreement are limited as provided in this paragraph.

(5)(A) Whenever two or more shippers enter into an agreement to discuss among themselves that relates to the amount of compensation such shippers propose to be paid by rail carriers providing transportation subject to the jurisdiction of the Board under this part, for use by such rail carriers of rolling stock owned or leased by such shippers, the shippers shall apply to the Board for approval of that agreement under this paragraph. The Board shall approve the agreement only when it finds that the making and carrying out of the agreement will further the transportation policy set forth in section 10101 of this title and may require compliance with conditions necessary to make the agreement further that policy as a condition of approval. If the Board approves the agreement, it may be made and carried out under its terms and under the terms required by the Board, and the antitrust laws set forth in paragraph (2) of this subsection do not apply to parties and other persons with respect to making or carrying out the agreement. The Board shall approve or disapprove an agreement under this paragraph within one year after the date application for approval of such agreement is made.

(B) If the Board approves an agreement described in subparagraph (A) of this paragraph and the shippers entering into such agreement and the rail carriers proposing to use rolling stock owned or leased by such shippers, under payment by such carriers or under a published allowance, are unable to agree upon the amount of compensation to be paid for the use of such rolling stock, any party directly involved in the negotiations may require that the matter be settled by submitting the issues in dispute to the Board. The Board shall render a binding decision, based upon a standard of reasonableness and after taking into consideration any past precedents on the subject matter of the negotiations, no later than 90 days after the date of the submission of the dispute to the Board.

(C) Nothing in this paragraph shall be construed to change the law in effect prior to October 1, 1980, with respect to the obligation of rail carriers to utilize rolling stock owned or leased by shippers.

(b) The Board may require an organization established or continued under an agreement approved under this section to maintain records and submit reports. The Board may inspect a record maintained under this section.

(d) The Board may begin a proceeding under this section on its own initiative or on application. Action of the Board under this section—

(1) approving an agreement;

(2) denying, ending, or changing approval;

(3) prescribing the conditions on which approval is granted; or

(4) changing those conditions, has effect only as related to application of the antitrust laws referred to in subsection (a) of this section.

(e)(1) The Federal Trade Commission, in consultation with the Antitrust Division of the Department of Justice, shall prepare periodically an assessment of, and shall report to the Board on—

(A) possible anticompetitive features of—

(i) agreements approved or submitted for approval under subsection (a) of this section; and

(ii) an organization operating under those agreements; and

(B) possible ways to alleviate or end an anticompetitive feature, effect, or aspect in a manner that will further the goals of this part and of the transportation policy of section 10101 of this title.
(2) Reports received by the Board under this subsection shall be published and made available to the public under section 552(a) of title 5.

AMENDMENTS

§10707. Determination of market dominance in rail rate proceedings

(a) In this section, “market dominance” means an absence of effective competition from other rail carriers or modes of transportation for the transportation to which the rate applies.

(b) When a rate for transportation by a rail carrier providing transportation subject to the jurisdiction of the Board under this part is challenged as being unreasonably high, the Board shall determine whether the rail carrier proposing the rate has market dominance over the transportation to which the rate applies. The Board may make that determination on its own initiative or on complaint. A finding by the Board that the rail carrier does not have market dominance is determinative in a proceeding under this part related to that rate or transportation unless changed or set aside by the Board or set aside by a court of competent jurisdiction.

(c) When the Board finds in any proceeding that a rail carrier proposing or defending a rate for transportation has market dominance over the transportation to which the rate applies, it may then determine that rate to be unreasonable if it exceeds a reasonable maximum for that transportation. However, a finding of market dominance does not establish a presumption that the proposed rate exceeds a reasonable maximum.

(d)(1)(A) In making a determination under this section, the Board shall find that the rail carrier establishing the challenged rate does not have market dominance over the transportation to which the rate applies if such rail carrier proves that the rate charged results in a revenue-variable cost percentage for such transportation that is less than 180 percent.

(B) For purposes of this section, variable costs for a rail carrier shall be determined only by using such carrier’s unadjusted costs, calculated using the Uniform Rail Costing System cost finding methodology (or an alternative methodology adopted by the Board in lieu thereof) and indexed quarterly to account for current wage and price levels in the region in which the carrier operates, with adjustments specified by the Board. A rail carrier may meet its burden of proof under this subsection by establishing its variable costs in accordance with this paragraph, but a shipper may rebut that showing by evidence of such type, and in accordance with such burden of proof, as the Board shall prescribe.

(2) A finding by the Board that a rate charged by a rail carrier results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than 180 percent does not establish a presumption that—

(A) such rail carrier has or does not have market dominance over such transportation; or

(B) the proposed rate exceeds or does not exceed a reasonable maximum.

PROVISIONS

Provisions similar to those in this section were contained in section 10709 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

Prior sections 10707 and 10707a were omitted in the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§10708. Rail cost adjustment factor

(a) The Board shall, as often as practicable, but in no event less often than quarterly, pub-
lish a rail cost adjustment factor which shall be
a fraction, the numerator of which is the latest
published Index of Railroad Costs (which index
shall be compiled or verified by the Board, with
appropriate adjustments to reflect the change in
composition of railroad costs, including the
quality and mix of material and labor) and the
denominator of which is the same index for the
fourth quarter of every fifth year, beginning
with the fourth quarter of 1992.

(b) The rail cost adjustment factor published
by the Board under subsection (a) of this section
shall take into account changes in railroad pro-
ductivity. The Board shall also publish a similar
index that does not take into account changes in
railroad productivity.

carrier rates, classifications, rules, and practices, prior
to the general amendment of this subtitle by Pub. L.

§ 10709. Contracts

(a) One or more rail carriers providing trans-
portation in the jurisdiction of the Board under
this part may enter into a contract with one or more purchasers of rail services
to provide specified services under specified rates
and conditions.

(b) A party to a contract entered into under
this section shall have no duty in connection
with services provided under such contract
other than those duties specified by the terms of
the contract.

(c)(1) A contract that is authorized by this sec-
tion, and transportation under such contract,
shall not be subject to this part, and may not be
subsequently challenged before the Board or in
any court on the grounds that such contract vo-
lates a provision of this part.

(2) The exclusive remedy for any alleged
breach of a contract entered into under this
section shall be an action in an appropriate State
court or United States district court, unless the
parties otherwise agree. This section does not
confer original jurisdiction on the district
courts of the United States based on section 1331
or 1337 of title 28, United States Code.

(d)(1) A summary of each contract for the
transportation of agricultural products (includ-
ing grain, as defined in section 3 of the United
States Grain Standards Act (7 U.S.C. 75) and
products thereof) entered into under this section
shall be filed with the Board, containing such
nonconfidential information as the Board pre-
scribes. The Board shall publish special rules for
such contracts in order to ensure that the essen-
tial terms of the contract are available to the
general public.

(2) Documents, papers, and records (and any
copies thereof) relating to a contract described
in subsection (a) shall not be subject to the
mandatory disclosure requirements of section
552 of title 5.

(e) Any lawful contract between a rail carrier
and one or more purchasers of rail service that
was in effect on October 1, 1980, shall be consid-
ered a contract authorized by this section.

(f) A rail carrier that enters into a contract as
authorized by this section remains subject to
the common carrier obligation set forth in sec-
section 11101, with respect to rail transportation
not provided under such a contract.

(g)(1) No later than 30 days after the date of
filling of a summary of a contract under this sec-
section, the Board may, on complaint, begin a pro-
ceeding to review such contract on the grounds
described in this subsection.

(2)(A) A complaint may be filed under this sub-
section—

(i) by a shipper on the grounds that such
shipper individually will be harmed because
the proposed contract unduly impairs the abil-
ity of the contracting rail carrier or carriers
to meet their common carrier obligations to
the complainant under section 11101 of this
title; or

(ii) by a port on the grounds that such
port individually will be harmed because
the proposed contract will result in unreasonable
discrimination against such port.

(B) In addition to the grounds for a complaint
described in subparagraph (A) of this paragraph,
a complaint may be filed by a shipper of agricul-
tural commodities on the grounds that such
shipper individually will be harmed because—

(i) the rail carrier has unreasonably dis-

criminated by refusing to enter into a con-
tract with such shipper for rates and services
for the transportation of the same type of
commodity under similar conditions to the
contract at issue, and that shipper was ready,

(ii) the proposed contract constitutes a de-
structive competitive practice under this part.

In making a determination under clause (ii) of
this subparagraph, the Board shall consider the
difference between contract rates and published
single car rates.

(C) For purposes of this paragraph, the term
"unreasonable discrimination" has the same
meaning as such term has under section 10741 of
this title.

(3)(A) Within 30 days after the date a proceed-
ing is commenced under paragraph (1) of this
subsection, or within such shorter time period
after such date as the Board may establish, the
Board shall determine whether the contract
that is the subject of such proceeding is in viola-
tion of this section.

(B) If the Board determines, on the basis of a
complaint filed under paragraph (2)(B)(i) of this
subsection, that the grounds for a complaint de-
scribed in such paragraph have been established
with respect to a rail carrier, the Board shall,
subject to the provisions of this section, order
such rail carrier to provide rates and service
substantially similar to the contract at issue.

AMENDMENTS

SUBCHAPTER II—SPECIAL CIRCUMSTANCES

§10721. Government traffic

A rail carrier providing transportation or service for the United States Government may transport property or individuals for the United States Government without charge or at a rate reduced from the applicable commercial rate. Section 6101(b) to (d) of title 41 does not apply to rates and liability based on value.

§ 10741. Prohibitions against discrimination by rail carriers

(a)(1) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part may not subject a person, place, port, or type of traffic to unreasonable discrimination.

(2) For purposes of this section, a rail carrier engages in unreasonable discrimination when it charges or receives from a person a different compensation for a service rendered, or to be rendered, in transportation the rail carrier may perform under this part than it charges or receives from another person for performing a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances.

(b) This section shall not apply to—

(1) contracts described in section 10709 of this title;

(2) rail rates applicable to different routes;

(3) discrimination against the traffic of another carrier providing transportation by any mode.

(c) Differences between rates, classifications, rules, and practices of rail carriers do not constitute a violation of this section if such differences result from different services provided by rail carriers.

PRIOR PROVISIONS

§ 10742. Facilities for interchange of traffic

A rail carrier providing transportation subject to the jurisdiction of the Board under this part shall provide reasonable, proper, and equal facilities that are within its power to provide for the interchange of traffic between, and for the receiving, forwarding, and delivering of passengers and property to and from, its respective line and a connecting line of another rail carrier or of a water carrier providing transportation subject to chapter 137.

PRIOR PROVISIONS

§ 10743. Liability for payment of rates

(a)(1) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor to a consignee other than the shipper or consignor, is determined under this subsection when the transportation is provided by a rail carrier under this part. When the shipper or consignor instructs the rail carrier transporting the property to deliver it to a consignee that is an agent only, not having beneficial title to the property, the consignee is liable for rates billed at the time of delivery for which the consignee is otherwise liable, but not for additional rates that may be found to be due after delivery if the consignee gives written notice to the delivering carrier before delivery of the property—

(A) of the agency and absence of beneficial title; and

(B) of the name and address of the beneficial owner of the property if it is reconsigned or diverted to a place other than the place specified in the original bill of lading.

(2) When the consignee is liable only for rates billed at the time of delivery under paragraph (1) of this subsection, the shipper or consignor, or, if the property is reconsigned or diverted, the beneficial owner, is liable for those additional rates regardless of the bill of lading or contract under which the property was transported. The beneficial owner is liable for all rates when the property is reconsigned or diverted by an agent but is refused or abandoned at its ultimate destination if the agent gave the rail carrier in the reconsignment or diversion order a notice of agency and the name and address of the beneficial owner. A consignee giving the rail carrier, a reconsignor or diverter giving a rail carrier, erroneous information about the identity of the beneficial owner of the property is liable for the additional rates.

(b) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor, named in the bill of lading as consignee, is determined under this subsection when the transportation is provided by a rail carrier under this part. When the shipper or consignor gives written notice, before delivery of the property, to the line-haul rail carrier that is to make ultimate delivery—

(1) to deliver the property to another party identified by the shipper or consignor as the beneficial owner of the property; and

(2) that delivery is to be made to that party on payment of all applicable transportation rates;

that party is liable for the rates billed at the time of delivery and for additional rates that may be found to be due after delivery if that party does not pay the rates required to be paid under paragraph (2) of this subsection on delivery. However, if the party gives written notice to the delivering rail carrier before delivery that the party is not the beneficial owner of the prop-
§ 10745. Transportation services or facilities furnished by shipper

A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part may establish a charge or allowance for transportation or service for property when the owner of the property, directly or indirectly, furnishes a service related to or an instrumentality used in the transportation or service. The Board may prescribe the maximum reasonable charge or allowance a rail carrier subject to its jurisdiction may pay for a service or instrumentality furnished under this section. The Board may begin a proceeding under this section on its own initiative or on application.

Prior Provisions

Provisions similar to those in this section were contained in section 10746 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, § 182(a).

§ 10746. Demurrage charges

A rail carrier providing transportation subject to the jurisdiction of the Board under this part shall compute demurrage charges, and establish rules related to those charges, in a way that fulfills the national needs related to—

(1) freight car use and distribution; and

(2) maintenance of an adequate supply of freight cars to be available for transportation of property.

Prior Provisions

Provisions similar to those in this section were contained in section 10570 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, § 182(a).

§ 10747. Designation of certain routes by shippers

(a)(1) When a person delivers property to a rail carrier for transportation subject to the jurisdiction of the Board under this part, the person may direct the rail carrier to transport the property over an established through route. When competing rail lines constitute a part of the route, the person shipping the property may designate the lines over which the property will be transported. The designation must be in writing. A rail carrier may be directed to transport property over a particular through route when—

(A) there are at least 2 through routes over which the property could be transported;

(B) a through rate has been established for transportation over each of those through routes; and

(C) the rail carrier is a party to those routes and rates.

(2) A rail carrier directed to route property transported under paragraph (1) of this subsection must issue a through bill of lading containing the routing instructions and transport the property according to the instructions. When the property is delivered to a connecting
rail carrier, that rail carrier must also receive and transport it according to the routing instructions and deliver it to the next succeeding rail carrier or consignee according to the instructions.

(b) The Board may prescribe exceptions to the authority of a person to direct the movement of traffic under subsection (a) of this section.

AMENDMENTS

§10901. Authorizing construction and operation of railroad lines

(a) A person may—

(1) construct an extension to any of its railroad lines;

(2) construct an additional railroad line;

(3) provide transportation over, or by means of, an extended or additional railroad line; or

(4) in the case of a person other than a rail carrier, acquire a railroad line or acquire or operate an extended or additional railroad line, only if the Board issues a certificate authorizing such activity under subsection (c).

(b) A proceeding to grant authority under subsection (a) of this section begins when an application is filed. On receiving the application, the Board shall give reasonable public notice, including notice to the Governor of any affected State, of the beginning of such proceeding.

(c) The Board shall issue a certificate authorizing activities for which such authority is requested in an application filed under subsection (b) unless the Board finds that such activities are inconsistent with the public convenience and necessity. Such certificate may approve the application as filed, or with modifications, and may require compliance with conditions (other than labor protection conditions) the Board finds necessary in the public interest.

(d)(1) When a certificate has been issued by the Board under this section authorizing the construction or extension of a railroad line, no other rail carrier may block any construction or extension authorized by such certificate by refusing to permit the carrier to cross its property if—

(A) the construction does not unreasonably interfere with the operation of the crossed line;
(B) the operation does not materially interfere with the operation of the crossed line; and
(C) the owner of the crossing line compensates the owner of the crossed line.

(2) If the parties are unable to agree on the terms of operation or the amount of payment for purposes of paragraph (1) of this subsection, either party may submit the matters in dispute to the Board for determination. The Board shall make a determination under this paragraph within 120 days after the dispute is submitted for determination.

PRIOR PROVISIONS

EFFECTIVE DATE

§ 10902. Short line purchases by Class II and Class III rail carriers

(a) A Class II or Class III rail carrier providing transportation subject to the jurisdiction of the Board under this part may acquire or operate an extended or additional rail line under this section only if the Board issues a certificate authorizing such activity under subsection (c).

(b) A proceeding to grant authority under subsection (a) of this section begins when an application is filed. On receiving the application, the Board shall give reasonable public notice of the beginning of such proceeding.

(c) The Board shall issue a certificate authorizing activities for which such authority is requested in an application filed under subsection (b) unless the Board finds that such activities are inconsistent with the public convenience and necessity. Such certificate may approve the application as filed, or with modifications, and may require compliance with conditions (other than labor protection conditions) the Board finds necessary in the public interest.

(d) The Board shall require any Class II rail carrier which receives a certificate under subsection (c) of this section to provide a fair and equitable arrangement for the protection of the interests of employees who may be affected thereby. The arrangement shall consist exclusively of one year of severance pay, which shall not exceed the amount of earnings from railroad employment of the employee during the 12-month period immediately preceding the date on which the application for such certificate is filed with the Board. The amount of such severance pay shall be reduced by the amount of earnings from railroad employment of the employee with the acquiring carrier during the 12-month period immediately following the effective date of the transaction to which the certificate applies. The parties may agree to terms other than as provided in this subsection. The Board shall not require such an arrangement from a Class III rail carrier which receives a certificate under subsection (c) of this section.

PRIOR PROVISIONS
A prior section 10902, Pub. L. 95–473, Oct. 17, 1978, 92 Stat. 1403, related to authorizing action by rail carriers to provide adequate, efficient, and safe facilities.

§ 10903. Filing and procedure for application to abandon or discontinue

(a)(1) A rail carrier providing transportation subject to the jurisdiction of the Board under this part who intends to—
(A) abandon any part of its railroad lines; or
(B) discontinue the operation of all rail transportation over any part of its railroad lines,

must file an application relating thereto with the Board. An abandonment or discontinuance may be carried out only as authorized under this chapter.

(2) When a rail carrier providing transportation subject to the jurisdiction of the Board under this part files an application, the application shall include—
(A) an accurate and understandable summary of the rail carrier’s reasons for the proposed abandonment or discontinuance;
(B) a statement indicating that each interested party is entitled to make recommendations to the Board on the future of the rail line; and
(C)(i) a statement that the line is available for subsidy or sale in accordance with section 10904 of this title, (ii) a statement that the rail carrier will promptly provide to each interested party an estimate of the annual subsidy and minimum purchase price, calculated in accordance with section 10904 of this title, and (iii) the name and business address of the person who is authorized to discuss the subsidy or sale terms for the rail carrier.

(3) The rail carrier shall—
(A) send by certified mail notice of the application to the chief executive officer of each State that would be directly affected by the proposed abandonment or discontinuance;
(B) post a copy of the notice in each terminal and station on each portion of a railroad line proposed to be abandoned or over which all transportation is to be discontinued;
(C) publish a copy of the notice for 3 consecutive weeks in a newspaper of general circulation in each county in which each such portion is located;
(D) mail a copy of the notice, to the extent practicable, to all shippers that have made significant use (as designated by the Board) of the railroad line during the 12 months preceding the filing of the application; and
(E) attach to the application filed with the Board an affidavit certifying the manner in which subparagraphs (A) through (D) of this paragraph have been satisfied, and certifying that subparagraphs (A) through (D) have been satisfied within the most recent 30 days prior to the date the application is filed.

(b)(1) Except as provided in subsection (d), abandonment and discontinuance may occur as provided in section 10904.
(2) The Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c) of this title before May 31, 1998.

(c)(1) In this subsection, the term "potentially subject to abandonment" has the meaning given the term in regulations of the Board. The regulations may include standards that vary by region of the United States and by railroad or group of railroads.

(2) Each rail carrier shall maintain a complete diagram of the transportation system operated, directly or indirectly, by the rail carrier. The rail carrier shall submit to the Board and publish amendments to its diagram that are necessary to maintain the accuracy of the diagram. The diagram shall—

(A) include a detailed description of each of its railroad lines potentially subject to abandonment; and

(B) identify each railroad line for which the rail carrier plans to file an application to abandon or discontinue under subsection (a) of this section.

(d) A rail carrier providing transportation subject to the jurisdiction of the Board under this part may—

(1) abandon any part of its railroad lines; or

(2) discontinue the operation of all rail transportation over any part of its railroad lines;

only if the Board finds that the present or future public convenience and necessity require or permit the abandonment or discontinuance. In making the finding, the Board shall consider whether the abandonment or discontinuance will have a serious adverse impact on rural and community development.

(e) Subject to this section and sections 10904 and 10905 of this title, if the Board—

(1) finds public convenience and necessity, it shall—

(A) approve the application as filed; or

(B) approve the application with modifications and require compliance with conditions that the Board finds are required by public convenience and necessity; or

(2) fails to find public convenience and necessity, it shall deny the application.

§ 10904. Offers of financial assistance to avoid abandonment and discontinuance

(a) In this section—

(1) the term "avoidable cost" means all expenses that would be incurred by a rail carrier in providing transportation that would not be incurred if the railroad line over which the transportation was provided were abandoned or if the transportation were discontinued. Expenses include cash inflows foregone and cash outflows incurred by the rail carrier as a result of not abandoning or discontinuing the transportation. Cash inflows foregone and cash outflows incurred include—

(A) working capital and required capital expenditure;

(B) expenditures to eliminate deferred maintenance;

(C) the current cost of freight cars, locomotives, and other equipment; and

(D) the foregone tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes; and

(2) the Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c) of this title before May 31, 1998.

(3) The Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c) of this title before May 31, 1998.

(4) The Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c) of this title before May 31, 1998.

(5) The Board shall require as a condition of any abandonment or discontinuance under this section provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under sections 11326(a) and 24706(c) of this title before May 31, 1998.
(2) the term "reasonable return" means—
   (A) if a rail carrier is not in reorganization, the cost of capital to the rail carrier, as determined by the Board; and
   (B) if a rail carrier is in reorganization, the mean cost of capital of rail carriers not in reorganization, as determined by the Board.

(b) Any rail carrier which has filed an application for abandonment or discontinuance shall provide promptly to a party considering an offer of financial assistance and shall provide concurrence for abandonment or discontinuance shall currently to the Board—
   (1) an estimate of the annual subsidy and minimum purchase price required to keep the line or a portion of the line in operation;
   (2) its most recent reports on the physical condition of that part of the railroad line involved in the proposed abandonment or discontinuance;
   (3) traffic, revenue, and other data necessary to determine the amount of annual financial assistance which would be required to continue rail transportation over that part of the railroad line; and
   (4) any other information that the Board considers necessary to allow a potential offeror to calculate an adequate subsidy or purchase offer.

(c) Within 4 months after an application is filed under section 10903, any person may offer to subsidize or purchase the railroad line that is the subject of such application. Such offer shall be filed concurrently with the Board. If the offer to subsidize or purchase is less than the carrier's estimate stated pursuant to subsection (b)(1), the offer shall explain the basis of the disparity, and the manner in which the offer is calculated.

(d)(1) Unless the Board, within 15 days after the expiration of the 4-month period described in subsection (c), finds that one or more financially responsible persons (including a governmental authority) have offered financial assistance regarding that part of the railroad line to be abandoned or over which all rail transportation is to be discontinued, abandonment or discontinuance may be carried out in accordance with section 10903.

   (A) the carrier and a financially responsible person have reached agreement on a transaction for subsidy or sale of the line; or
   (B) the conditions and amount of compensation are established under subsection (f).

(e) Except as provided in subsection (f)(3), if the rail carrier and a financially responsible person (including a governmental authority) fail to agree on the amount or terms of the subsidy or purchase, each party may, within 30 days after the offer is made, request that the Board establish the conditions and amount of compensation.

(f)(1) Whenever the Board is requested to establish the conditions and amount of compensation under this section—
   (A) the Board shall render its decision within 30 days;
   (B) for proposed sales, the Board shall determine the price and other terms of sale, except that in no case shall the Board set a price which is below the fair market value of the line (including, unless otherwise mutually agreed, all facilities on the line or portion necessary to provide effective transportation services); and
   (C) for proposed subsidies, the Board shall establish the compensation as the difference between the revenues attributable to that part of the railroad line and the avoidable cost of providing rail freight transportation on the line, plus a reasonable return on the value of the line.

(2) The decision of the Board shall be binding on both parties, except that the person who has offered to subside or purchase the line may withdraw his offer within 10 days of the Board's decision. In such a case, the abandonment or discontinuance may be carried out immediately, unless other offers are being considered pursuant to paragraph (3) of this subsection.

(3) If a rail carrier receives more than one offer to subsidize or purchase, it shall select the offeror with whom it wishes to transact business, and complete the subsidy or sale agreement, or request that the Board establish the conditions and amount of compensation before the 40th day after the expiration of the 4-month period described in subsection (c). If no agreement on subsidy or sale is reached within such 40-day period and the Board has not been requested to establish the conditions and amount of compensation, any other offeror whose offer was made within the 4-month period described in subsection (c) may request that the Board establish the conditions and amount of compensation. If the Board has established the conditions and amount of compensation, and the original offer has been withdrawn, any other offeror whose offer was made within the 4-month period described in subsection (c) may request that the Board's decision within 20 days after such decision, and the Board shall require the carrier to enter into a subsidy or sale agreement with such offeror, if such subsidy or sale agreement incorporates the Board's decision.

(4)(A) No purchaser of a line or portion of line sold under this section may transfer or discontinue service on such line prior to the end of the second year after consummation of the sale, nor may such purchaser transfer such line, except to the rail carrier from whom it was purchased, prior to the end of the fifth year after consummation of the sale.

   (B) No subsidy arrangement approved under this section shall remain in effect for more than one year, unless otherwise mutually agreed by the parties.

(g) Upon abandonment of a railroad line under this chapter, the obligation of the rail carrier abandoning the line to provide transportation on that line, as required by section 11101(a), is extinguished.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 10905 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, § 102(a).
§ 10905. Offering abandoned rail properties for sale for public purposes

When the Board approves an application to abandon or discontinue under section 10903, the Board shall find whether the rail properties that are involved in the proposed abandonment or discontinuance are appropriate for use for public purposes, including highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. If the Board finds that the rail properties proposed to be abandoned are appropriate for public purposes and not required for continued rail operations, the properties may be sold, leased, exchanged, or otherwise disposed of only under conditions provided in the order of the Board. The conditions may include a prohibition on any such disposal for a period of not more than 180 days after the effective date of the order, unless the properties have first been offered, on reasonable terms, for sale for public purposes.

Prior Provisions

Provisions similar to those in this section were contained in section 10906 of this title prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 10906. Exception

Notwithstanding section 10901 and subchapter II of chapter 113 of this title, and without the approval of the Board, a rail carrier providing transportation subject to the jurisdiction of the Board under this part may enter into arrangements for the joint ownership or joint use of spur, industrial, team, switching, or side tracks. The Board does not have authority under this chapter over construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks.

Prior Provisions

Provisions similar to those in this section were contained in section 10907 of this title prior to the general amendment of this subtitle by Pub. L. 104-88, §102(a).

§ 10907. Railroad development

(a) In this section, the term “financially responsible person” means a person who—

1) is capable of paying the constitutional minimum value of the railroad line proposed to be acquired; and
2) is able to assure that adequate transportation will be provided over such line for a period of not less than 3 years.

Such term includes a governmental authority but does not include a Class I or Class II rail carrier.

(b) (1) When the Board finds that—

(A)(i) the public convenience and necessity require or permit the sale of a particular railroad line under this section; or

(ii) a railroad line is on a system diagram map as required under section 10903 of this title, but the rail carrier owning such line has not filed an application to abandon such line

under section 10903 of this title before an application to purchase such line, or any required preliminary filing with respect to such application, is filed under this section; and

(B) an application to purchase such line has been filed by a financially responsible person, the Board shall require the rail carrier owning the railroad line to sell such line to such financially responsible person at a price not less than the constitutional minimum value.

(2) For purposes of this subsection, the constitutional minimum value of a particular railroad line shall be presumed to be not less than the net liquidation value of such line or the going concern value of such line, whichever is greater.

(c)(1) For purposes of this section, the Board may determine that the public convenience and necessity require or permit the sale of a railroad line if the Board determines, after a hearing on the record, that—

(A) the rail carrier operating such line refuses within a reasonable time to make the necessary efforts to provide adequate service to shippers who transport traffic over such line;

(B) the transportation over such line is inadequate for the majority of shippers who transport traffic over such line;

(C) the sale of such line will not have a significantly adverse financial effect on the rail carrier operating such line;

(D) the sale of such line will not have an adverse effect on the overall operational performance of the rail carrier operating such line; and

(E) the sale of such line will be likely to result in improved railroad transportation for shippers that transport traffic over such line.

(2) In a proceeding under this subsection, the burden of proving that the public convenience and necessity require or permit the sale of a particular railroad line is on the person filing the application to acquire such line. If the Board finds under this subsection that the public convenience and necessity require or permit the sale of a particular railroad line, the Board shall concurrently notify the parties of such finding and publish such finding in the Federal Register.

(d) In the case of any railroad line subject to sale under subsection (a) of this section, the Board shall, upon the request of the acquiring carrier, require the selling carrier to provide to
the acquiring carrier trackage rights to allow a reasonable interchange with the selling carrier or to move power equipment or empty rolling stock between noncontiguous feeder lines operated by the acquiring carrier. The Board shall require the acquiring carrier to provide the selling carrier reasonable compensation for any such trackage rights.

(e) The Board shall require, to the maximum extent practicable, the use of the employees who would normally have performed work in connection with a railroad line subject to a sale under this section.

(f) In the case of a railroad line which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, whenever a purchasing carrier under this section petitioned the Board for joint rates applicable to traffic moving over through routes in which the purchasing carrier may practically participate, the Board shall, within 30 days after the date such petition is filed and pursuant to section 10705(a) of this title, require the establishment of reasonable joint rates and divisions over such route.

(g)(1) Any person operating a railroad line acquired under this section may elect to be exempt from any of the provisions of this part, except that such a person may not be exempt from the provisions of chapter 107 of this title with respect to transportation under a joint rate.

(2) The provisions of paragraph (1) of this subsection shall apply to any line of railroad which was abandoned during the 18-month period immediately prior to October 1, 1980, and was subsequently purchased by a financially responsible person.

(h) If a purchasing carrier under this section proposes to sell or abandon all or any portion of a railroad line, such purchasing carrier shall offer the right of first refusal with respect to such line or portion thereof to the carrier which sold such line under this section. Such offer shall be made at a price equal to the sum of the price paid by such purchasing carrier for such line or portion thereof and the fair market value (less deterioration) of any improvements made, as adjusted to reflect inflation.

(i) Any person operating a railroad line acquired under this section may elect to be exempt from any of the provisions of this part, except that such a person may not be exempt from the provisions of chapter 107 of this title with respect to transportation under a joint rate.
§ 10908. Regulation of solid waste rail transfer facilities

(a) In General.—Each solid waste rail transfer facility shall be subject to and shall comply with all applicable Federal and State requirements, both substantive and procedural, including judicial and administrative orders and fines, respecting the prevention and abatement of pollution, the protection and restoration of the environment, and the protection of public health and safety, including laws governing solid waste to the same extent as required for any similar solid waste management facility, as defined in section 1004(29) of the Solid Waste Disposal Act (42 U.S.C. 6903(29))\(^1\) that is not owned or operated by or on behalf of a rail carrier, except as provided for in section 10909 of this chapter.

(b) Existing Facilities.—

(1) State laws and standards.—Not later than 90 days after the date of enactment of the Clean Railroads Act of 2008, a solid waste rail transfer facility operating as of such date of enactment shall comply with all Federal and State requirements pursuant to subsection (a) other than those provisions requiring permits.

(2) Permit requirements.—

(A) State non-siting permits.—Any solid waste rail transfer facility operating as of the date of enactment of the Clean Railroads Act of 2008 that does not possess a permit required pursuant to subsection (a), other than a siting permit for the facility, as of the date of enactment of the Clean Railroads Act of 2008 shall not be required to possess any such permits in order to operate the facility—

(i) if, within 180 days after such date of enactment, the solid waste rail transfer facility has submitted, in good faith, a complete application for all permits, except siting permits, required pursuant to subsection (a) to the appropriate permitting agency authorized to grant such permits; and

(ii) until the permitting agency has either approved or denied the solid waste rail transfer facility’s application for each permit.

(B) Siting permits and requirements.—A solid waste rail transfer facility operating as of the date of enactment of the Clean Railroads Act of 2008 that does not possess a State siting permit required pursuant to subsection (a) as of such date of enactment shall not be required to possess any siting permit to continue to operate or comply with any State land use requirements. The Governor of a State in which the facility is located, or his or her designee, may petition the Board to require the facility to apply for a land-use exemption pursuant to section 10909 of this chapter. The Board shall accept the petition, and the facility shall be required to have a Board-issued land-use exemption in order to continue to operate, pursuant to section 10909 of this chapter.

(c) Common Carrier Obligation.—No prospective or current rail carrier customer may demand solid waste rail transfer service from a rail carrier at a solid waste rail transfer facility that does not already possess the necessary Federal land-use exemption and State permits at the location where service is requested.

(d) Non-Waste Commodities.—Nothing in this section or section 10909 of this chapter shall affect a rail carrier’s ability to conduct transportation-related activities with respect to commodities other than solid waste.

(e) Definitions.—

(1) In General.—In this section:

(A) Commercial and retail waste.—The term “commercial and retail waste” means material discarded by stores, offices, restaurants, warehouses, nonmanufacturing activities at industrial facilities, and other similar establishments or facilities.

(B) Construction and demolition debris.—The term “construction and demolition debris” means waste building materials, packaging, and rubble resulting from construction, remodeling, repair, and demolition operations on pavements, houses, commercial buildings, and other structures.

(C) Household waste.—The term “household waste” means material discarded by residential dwellings, hotels, motels, and other similar permanent or temporary housing establishments or facilities.

(D) Industrial waste.—The term “industrial waste” means the solid waste generated by manufacturing and industrial and research and development processes and operations, including contaminated soil, non-hazardous oil spill cleanup waste and dry nonhazardous pesticides and chemical waste, but does not include hazardous waste regulated under subtitle C of the Solid Waste Disposal Act (42 U.S.C. 6921 et seq.), mining or oil and gas waste.

(E) Institutional waste.—The term “institutional waste” means material discarded by schools, nonmedical waste discarded by hospitals, material discarded by nonmanufacturing activities at prisons and government facilities, and material discarded by other similar establishments or facilities.

(F) Municipal solid waste.—The term “municipal solid waste” means—

(i) household waste;

(ii) commercial and retail waste; and

(iii) institutional waste.

(G) Solid waste.—With the exception of waste generated by a rail carrier during

\(^1\) So in original. Probably should be followed by a comma.
track, track structure, or right-of-way construction, maintenance, or repair (including railroad ties and line-side poles) or waste generated as a result of a railroad accident, incident, or derailment, the term "solid waste" means—(i) construction and demolition debris; (ii) municipal solid waste; (iii) household waste; (iv) commercial and retail waste; (v) institutional waste; (vi) sludge; (vii) industrial waste; and (viii) other solid waste, as determined appropriate by the Board.

(H) SOLID WASTE RAIL TRANSFER FACILITY.—The term "solid waste rail transfer facility"—

(i) means the portion of a facility owned or operated by or on behalf of a rail carrier (as defined in section 10102 of this title) where solid waste, as a commodity to be transported for a charge, is collected, stored, separated, processed, treated, managed, disposed of, or transferred, when the activity takes place outside of original shipping containers; but (ii) does not include—

(I) the portion of a facility to the extent that activities taking place at such portion are comprised solely of the railroad transportation of solid waste after the solid waste is loaded for shipment on or in a rail car, including railroad transportation for the purpose of interchanging railroad cars containing solid waste shipments; or

(II) a facility where solid waste is solely transferred or transloaded from a tank truck directly to a rail tank car.

(I) SLUDGE.—The term "sludge" means any solid, semi-solid or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility exclusive of the treated effluent from a wastewater treatment plant.

(2) EXCEPTIONS.—Notwithstanding paragraph (1), the terms "household waste", "commercial and retail waste", and "institutional waste" do not include—

(A) yard waste and refuse-derived fuel;

(B) used oil;

(C) wood pallets;

(D) clean wood;

(E) medical or infectious waste; or

(F) motor vehicles (including motor vehicle parts or vehicle fluff).

(3) STATE REQUIREMENTS.—In this section the term "State requirements" does not include the laws, regulations, ordinances, orders, or other requirements of a political subdivision of a State, including a locality or municipality, unless a State expressly delegates such authority to such political subdivision.

PRIOR PROVISIONS
For prior section 10908, see note set out under section 10907 of this title.

§ 10909. Solid waste rail transfer facility land-use exemption

(a) AUTHORITY.—The Board may issue a land-use exemption for a solid waste rail transfer facility that is or is proposed to be operated by or on behalf of a rail carrier if—

(1) the Board finds that a State, local, or municipal law, regulation, order, or other requirement affecting the siting of such facility unreasonably burdens the interstate transportation of solid waste by railroad, discriminates against the railroad transportation of solid waste and a solid waste rail transfer facility, or a rail carrier that owns or operates such a facility petitions the Board for such an exemption; or

(2) the Governor of a State in which a facility that is operating as of the date of enactment of the Clean Railroads Act of 2008 is located, or his or her designee, petitions the Board to initiate a permit proceeding for that particular facility.

(b) LAND-USE EXEMPTION PROCEDURES.—Not later than 90 days after the date of enactment of the Clean Railroads Act of 2008, the Board shall publish procedures governing the submission and review of applications for solid waste rail transfer facility land-use exemptions. At a minimum, the procedures shall address—

(1) the information that each application should contain to explain how the solid waste rail transfer facility will not pose an unreasonable risk to public health, safety, or the environment;

(2) the opportunity for public notice and comment including notification of the municipality, the State, and any relevant Federal or State regional planning entity in the jurisdiction of which the solid waste rail transfer facility is proposed to be located;

(3) the timeline for Board review, including a requirement that the Board approve or deny an exemption within 90 days after the full record for the application is developed;

(4) the expedited review timelines for petitions for modifications, amendments, or revocations of granted exemptions;

(5) the process for a State to petition the Board to require a solid waste transfer facility or a rail carrier that owns or operates such a facility to apply for a siting permit; and

(6) the process for a solid waste transfer facility or a rail carrier that owns or operates such a facility to petition the Board for a land-use exemption.

(c) STANDARD FOR REVIEW.—
(1) The Board may only issue a land-use exemption if it determines that the facility at the existing or proposed location does not pose an unreasonable risk to public health, safety, or the environment. In deciding whether a solid waste rail transfer facility that is or proposed to be constructed or operated by or on behalf of a rail carrier poses an unreasonable risk to public health, safety, or the environment, the Board shall weigh the particular facility’s potential benefits to and the adverse impacts on public health, public safety, the environment, interstate commerce, and transportation of solid waste by rail.

(2) The Board may not grant a land-use exemption for a solid waste rail transfer facility proposed to be located on land within any unit of or land affiliated with the National Park System, the National Wildlife Refuge System, the National Wilderness Preservation System, the National Trails System, the National Wild and Scenic Rivers System, a National Reserve, a National Monument, or lands referenced in Public Law 108–421 for which a State has implemented a conservation management plan, if operation of the facility would be inconsistent with restrictions placed on such land.

(d) CONSIDERATIONS.—When evaluating an application under this section, the Board shall consider and give due weight to the following, as applicable:

(1) the land-use, zoning, and siting regulations or solid waste planning requirements of the State or State subdivision in which the facility is or will be located that are applicable to solid waste transfer facilities, including those that are not owned or operated by or on behalf of a rail carrier;

(2) the land-use, zoning, and siting regulations or solid waste planning requirements applicable to the property where the solid waste rail transfer facility is proposed to be located;

(3) regional transportation planning requirements developed pursuant to Federal and State law;

(4) regional solid waste disposal plans developed pursuant to State or Federal law;

(5) any Federal and State environmental protection laws or regulations applicable to the site;

(6) any unreasonable burdens imposed on the interstate transportation of solid waste by railroad, or the potential for discrimination against the railroad transportation of solid waste, a solid waste rail transfer facility, or a rail carrier that owns or operates such a facility; and

(7) any other relevant factors, as determined by the Board.

(e) EXISTING FACILITIES.—Upon the granting of a petition from the State in which a solid waste rail transfer facility is operating as of the date of enactment of the Clean Railroads Act of 2008 until the Board has approved or denied a permit pursuant to subsection (c).

(f) EFFECT OF LAND-USE EXEMPTION.—If the Board grants a land-use exemption to a solid waste rail transfer facility, all State laws, regulations, orders, or other requirements affecting the siting of a facility are preempted with regard to that facility. An exemption may require compliance with such State laws, regulations, orders, or other requirements.

(g) INJUNCTIVE RELIEF.—Nothing in this section precludes a person from seeking an injunction to enjoin a solid waste rail transfer facility from being constructed or operated by or on behalf of a rail carrier if that facility has materially violated, or will materially violate, its land-use exemption or if it failed to receive a valid land-use exemption under this section.

(h) FEES.—The Board may charge permit applicants reasonable fees to implement this section, including the costs of third-party consultants.

(1) DEFINITIONS.—In this section the terms “solid waste”, “solid waste rail transfer facility”, and “State requirements” have the meaning given such terms in section 10908(e).

§ 11101. Common carrier transportation, service, and rates

(a) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part shall provide the transportation or service on reasonable request. A rail carrier shall not be found to have violated this section or service in accordance with the rates and service terms, including classifications, rules, and practices, and their effective dates. Final regulations shall be adopted by the Board not later than 180 days after January 1, 1996.

PRIOR PROVISIONS

AMENDMENTS

§ 11102. Use of terminal facilities

(a) The Board may require terminal facilities, including main-line tracks for a reasonable distance outside of a terminal, owned by a rail carrier providing transportation subject to the jurisdiction of the Board under this part, to be used by another rail carrier if the Board finds that use to be practicable and in the public interest without substantially impairing the ability of the rail carrier owning the facilities or entitled to use the facilities to handle its own business. The rail carriers are responsible for establishing the conditions and compensation for use of the facilities. However, if the rail carriers cannot agree, the Board may establish conditions and compensation for use of the facilities under the principle controlling compensation in condemnation proceedings. The compensation shall be paid or adequately secured before a rail carrier may begin to use the facilities of another rail carrier under this section.

(b) A rail carrier whose terminal facilities are required to be used by another rail carrier under this section is entitled to recover damages from the other rail carrier for injuries sustained as the result of compliance with the requirement or for compensation for the use, or both as ap-
§ 11103. Switch connections and tracks

(a) On application of the owner of a lateral branch line of railroad, or of a shipper tendering interstate traffic for transportation, a rail carrier providing transportation subject to the jurisdiction of the Board under this part shall construct, maintain, and operate, on reasonable conditions, a switch connection to connect that branch line or private side track with its railroad and shall furnish cars to move that traffic to the best of its ability without discrimination in favor of or against the shipper when the connection—

(1) is reasonably practicable;
(2) can be made safely; and
(3) will furnish sufficient business to justify its construction and maintenance.

(b) If a rail carrier fails to install and operate a switch connection after application is made under subsection (a) of this section, the owner of the lateral branch line of railroad or the shipper may file a complaint with the Board under section 11701 of this title. The Board shall investigate the complaint and decide the safety, practicability, justification, and compensation to be paid for the connection. The Board may direct the rail carrier to comply with subsection (a) of this section only after a full hearing.

Prior Provisions

Provisions similar to those in this section were contained in section 11105 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

Prior sections 11103 to 11111 were omitted in the general amendment of this subtitle by Pub. L. 104–88, §102(a).

$11103. Switch connections and tracks

(a) On application of the owner of a lateral branch line of railroad, or of a shipper tendering interstate traffic for transportation, a rail carrier providing transportation subject to the jurisdiction of the Board under this part shall furnish safe and adequate car service and establish, observe, and enforce reasonable rules and practices on car service. The Board may require a rail carrier to provide facilities and equipment that are reasonably necessary to furnish safe and adequate car service if the Board decides that the rail carrier has materially failed to furnish that service. The Board may begin a proceeding under this paragraph when an interested person files an application with it. The Board may act only after a hearing on the record and an affirmative finding, based on the evidence presented, that—

(A) providing the facilities or equipment will not materially and adversely affect the ability of the rail carrier to provide safe and adequate transportation;
(B) the amount spent for the facilities or equipment, including a return equal to the rail carrier’s current cost of capital, will be recovered;
(C) providing the facilities or equipment will not impair the ability of the rail carrier to attract adequate capital.

(b) The Board may require a rail carrier to file its car service rules with the Board.

(c) The Board may designate and appoint agents and agencies to make and carry out its directions related to car service and matters under sections 11123 and 11124(a)(1) of this title.

(d) The Board shall consult, as it considers necessary, with the National Grain Car Council on matters within the charter of that body.

Prior Provisions

Provisions similar to those in this section were contained in section 11104 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).
§ 11123. Situations requiring immediate action to serve the public

(a) When the Board determines that shortage of equipment, congestion of traffic, unauthorized cessation of operations, failure of existing commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, or other failure of traffic movement exists which creates an emergency situation of such magnitude as to have substantial adverse effects on shippers, or on rail service in a region of the United States, or that a rail carrier providing transportation subject to the jurisdiction of the Board under this part cannot transport the traffic offered to it in a manner that properly serves the public, the Board may, to promote commerce and service to the public, for a period not to exceed 30 days—

(1) direct the handling, routing, and movement of the traffic of a rail carrier and its distribution over its own or other railroad lines;

(2) require joint or common use of railroad facilities;

(3) prescribe temporary through routes;

(4) give directions for—

(A) preference or priority in transportation;

(B) embargoes; or

(C) movement of traffic under permits; or

(5) in the case of a failure of existing freight or commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, direct the continuation of the operations and dispatching, maintenance, and other necessary infrastructure functions related to the operations.

(b)(1) Except with respect to proceedings under paragraph (2) of this subsection, the Board may act under this section on its own initiative or on application without regard to subchapter II of chapter 5 of title 5.

(2) Rail carriers may establish between themselves the terms of compensation for operations, and use of facilities and equipment, required under this section. When rail carriers do not agree on the terms of compensation under this section, the Board may establish the terms for them. The Board may act under subsection (a) before conducting a proceeding under this paragraph.

(3)(A) Except as provided in subparagraph (B), when a rail carrier is directed under this section to operate the lines of another rail carrier due to that carrier’s cessation of operations, compensation for the directed operations shall derive only from revenues generated by the directed operations.

(B) In the case of a failure of existing freight or commuter rail passenger transportation operations caused by a cessation of service by the National Railroad Passenger Corporation, the Board shall provide funding to fully reimburse the directed service provider for its costs associated with the activities directed under subsection (a), including the payment of increased insurance premiums. The Board shall order complete indemnification against any and all claims associated with the provision of service to which the directed rail carrier may be exposed.

(c)(1) The Board may extend any action taken under subsection (a) of this section beyond 30 days if the Board finds that a transportation emergency described in subsection (a) continues to exist. Action by the Board under subsection (a) of this section may not remain in effect for more than 240 days beyond the initial 30-day period.

(2) The Board may not take action under this section that would—

(A) cause a rail carrier to operate in violation of this part; or

(B) impair substantially the ability of a rail carrier to serve its own customers adequately, or to fulfill its common carrier obligations.

(3) A rail carrier directed by the Board to take action under this section is not responsible, as a result of that action, for debts of any other rail carrier.

(4) In the case of a failure of existing freight or commuter rail passenger transportation operations caused by cessation of service by the National Railroad Passenger Corporation, the Board may not direct a rail carrier to undertake activities under subsection (a) to continue such operations unless—

(A) the Board first affirmatively finds that the rail carrier is operationally capable of conducting the directed service in a safe and efficient manner; and
(b) the funding for such directed service required by subparagraph (B) of subsection (b)(3) is provided in advance in appropriations Acts.

(d) In carrying out this section, the Board shall require, to the maximum extent practicable, the use of employees who would normally have performed work in connection with the traffic subject to the action of the Board.

(e) For purposes of this section, the National Railroad Passenger Corporation and any entity providing commuter rail passenger transportation shall be considered rail carriers subject to the Board’s jurisdiction.

(f) For purposes of this section, the term “commuter rail passenger transportation” has the meaning given that term in section 24102(4). (Added Pub. L. 104–88, title I, §102(a), Dec. 29, 1995, 109 Stat. 834.)

REFERENCES IN TEXT
Section 24102 of this title, referred to in subsec. (f), was substantially amended, and section 24102(4) no longer defines “commuter rail passenger transportation”. However, such term is defined elsewhere in that section.

PRIOR PROVISIONS

SUBCHAPTER III—REPORTS AND RECORDS

§11141. Definitions

In this subchapter—

(1) the terms “rail carrier” and “lessor” include a receiver or trustee of a rail carrier and lessor, respectively;

(2) the term “lessor” means a person owning a railroad that is leased to and operated by a carrier providing transportation subject to the jurisdiction of the Board under this part; and

(3) the term “association” means an organization maintained by or in the interest of a group of rail carriers providing transportation or service subject to the jurisdiction of the Board under this part that performs a service, or engages in activities, related to transportation under this part.

PRIOR PROVISIONS
Provisions similar to those in this section were contained in section 11126 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

Prior sections 11124 to 11128 were omitted in the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§11142. Uniform accounting system

The Board may prescribe a uniform accounting system for classes of rail carriers providing transportation subject to the jurisdiction of the Board under this part. To the maximum extent practicable, the Board shall conform such system to generally accepted accounting principles, and shall administer this subchapter in accordance with such principles.

PRIOR PROVISIONS
§ 11143. Depreciation charges

The Board shall, for a class of rail carriers providing transportation subject to its jurisdiction under this part, prescribe, and change when necessary, those classes of property for which depreciation charges may be included under operating expenses and a rate of depreciation that may be charged to a class of property. The Board may classify those rail carriers for purposes of this section. A rail carrier for whom depreciation charges and rates of depreciation are in effect under this section for any class of property may not—

(1) charge to operating expenses a depreciation charge on a class of property other than that prescribed by the Board;
(2) charge another rate of depreciation; or
(3) include other depreciation charges in operating expenses.

PRIOR PROVISIONS

§ 11144. Records: form; inspection; preservation

(a) The Board may prescribe the form of records required to be prepared or compiled under this subchapter—

(1) by rail carriers and lessors, including records related to movement of traffic and receipts and expenditures of money; and
(2) by persons furnishing cars to or for a rail carrier providing transportation subject to the jurisdiction of the Board under this part to the extent related to those cars or that service.

(b) The Board, or an employee designated by the Board, may on demand and display of proper credentials—

(1) inspect and examine the lands, buildings, and equipment of a rail carrier or lessor; and
(2) inspect and copy any record of—

(A) a rail carrier, lessor, or association;
(B) a person controlling, controlled by, or under common control with a rail carrier if the Board considers inspection relevant to that person’s relation to, or transaction with, that rail carrier; and
(C) a person furnishing cars to or for a rail carrier if the Board prescribed the form of that record.

(c) The Board may prescribe the time period during which operating, accounting, and financial records must be preserved by rail carriers, lessors, and persons furnishing cars.

PRIOR PROVISIONS

§ 11145. Reports by rail carriers, lessors, and associations

(a) The Board may require—

(1) rail carriers, lessors, and associations, or classes of them as the Board may prescribe, to file annual, periodic, and special reports with the Board containing answers to questions asked by it; and
(2) a person furnishing cars to a rail carrier to file reports with the Board containing answers to questions about those cars.

(b)(1) An annual report shall contain an account, in as much detail as the Board may require, of the affairs of the rail carrier, lessor, or association for the 12-month period ending on December 31 of each year.

(2) An annual report shall be filed with the Board by the end of the third month after the end of the year for which the report is made unless the Board extends the filing date or changes the period covered by the report. The annual report and, if the Board requires, any other report made under this section, shall be made under oath.

PRIOR PROVISIONS

SUBCHAPTER IV—RAILROAD COST ACCOUNTING

§ 11161. Implementation of cost accounting principles

The Board shall periodically review its cost accounting rules and shall make such changes in those rules as are required to achieve the regulatory purposes of this part. The Board shall ensure that the rules promulgated under this section are the most efficient and least burdensome means by which the required information may be developed for regulatory purposes. To the maximum extent practicable, the Board shall conform such rules to generally accepted accounting principles.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11163 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11162. Rail carrier cost accounting system

(a) Each rail carrier shall have and maintain a cost accounting system that is in compliance with the rules promulgated by the Board under section 11161 of this title. A rail carrier may,
after notifying the Board, make modifications in such system unless, within 60 days after the date of notification, the Board finds such modifications to be inconsistent with the rules promulgated by the Board under section 11161 of this title.

(b) For purposes of determining whether the cost accounting system of a rail carrier is in compliance with the rules promulgated by the Board, the Board shall have the right to examine and make copies of any documents, papers, or records of such rail carrier relating to compliance with such rules. Such documents, papers, and records (and any copies thereof) shall not be subject to the mandatory disclosure requirements of section 552 of title 5.

PRIOR PROVISIONS
Provisions similar to those in this section were contained in section 11164 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11163. Cost availability

As required by the rules of the Board governing discovery in Board proceedings, rail carriers shall make relevant cost data available to shippers, States, ports, communities, and other interested parties that are a party to a Board proceeding in which such data are required.

PRIOR PROVISIONS
Provisions similar to those in this section were contained in section 11165 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11164. Accounting and cost reporting

To obtain expense and revenue information for regulatory purposes, the Board may promulgate reasonable rules for rail carriers providing transportation subject to the jurisdiction of the Board under this part, prescribing expense and revenue accounting and reporting requirements consistent with generally accepted accounting principles uniformly applied to such carriers. Such requirements shall be cost effective and compatible with and not duplicative of the managerial and responsibility accounting requirements of those carriers.

PRIOR PROVISIONS
Provisions similar to those in this section were contained in section 11166 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

recording of those documents. This section does not change chapter 313 of title 46.

(b) The Board shall maintain a system for recording each document filed under subsection (a) of this section and mark each of them with a consecutive number and the date and hour of their recordation. The Board shall maintain and keep open for public inspection an index of documents filed under that subsection. That index shall include the name and address of the principal debtors, trustees, guarantors, and other parties to those documents and may include other facts that will assist in determining the rights of the parties to those transactions.

(c) The Board may to the greatest extent practicable perform its functions under this section through contracts with private sector entities.

(d) A mortgage, lease, equipment trust agreement, conditional sales agreement, or other instrument evidencing the mortgage, lease, conditional sale, or bailment of or security interest in vessels, railroad cars, locomotives, or other rolling stock, or accessories used on such railroad cars, locomotives, or other rolling stock (including superstructures and racks), or any assignment thereof, which—

1. is duly constituted under the laws of a country other than the United States; and
2. relates to property that bears the reporting marks and identification numbers of any person domiciled in or corporation organized under the laws of such country,

shall be recognized with the same effect as having been filed under this section.

(f) The Board shall collect, maintain, and keep open for public inspection a railway equipment register consistent with the manner and format maintained by the Interstate Commerce Commission as of January 1, 1996.

SUBCHAPTER II—COMBINATIONS

§ 11321. Scope of authority

(a) The authority of the Board under this subchapter is exclusive. A rail carrier or corporation participating in or resulting from a transaction approved by or exempted by the Board under this subchapter may carry out the transaction, own and operate property, and exercise control or franchises acquired through the transaction without the approval of a State authority. A rail carrier, corporation, or person participating in that approved or exempted transaction is exempt from the antitrust laws and from all other law, including State and municipal law, as necessary to let that rail carrier, corporation, or person carry out the transaction, hold, maintain, and operate property, and exercise control or franchises acquired through the transaction. However, if a purchase and sale, a lease, or a corporate consolidation or merger is involved in the transaction, the carrier or corporation may carry out the transaction only with the assent of a majority, or the number required under applicable State law, of the votes of the holders of the capital stock of that corporation entitled to vote. The vote must occur at a regular meeting, or special meeting called for that purpose, of those stockholders and the notice of the meeting must indicate its purpose.

(b) A power granted under this subchapter to a carrier or corporation is in addition to and changes its powers under its corporate charter and under State law. Action under this subchapter does not establish or provide for establishing a corporation under the laws of the United States.

§ 11322. Limitation on pooling and division of transportation or earnings

(a) A rail carrier providing transportation subject to the jurisdiction of the Board under this part may not agree or combine with another of those rail carriers to pool or divide traffic or services or any part of their earnings without the approval of the Board under this section or section 11123 of this title. The Board may approve and authorize the agreement or combination if the rail carriers involved consent to the pooling or division and the Board finds that a pooling or division of traffic, services, or earnings—

(1) will be in the interest of better service to the public or of economy of operation; and

(2) will not unreasonably restrain competition.

(b) The Board may impose conditions governing the pooling or division and may approve and authorize payment of a reasonable consideration between the rail carriers.

(c) The Board may begin a proceeding under this section on its own initiative or on application.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11342 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11323. Consolidation, merger, and acquisition of control

(a) The following transactions involving rail carriers providing transportation subject to the jurisdiction of the Board under this part may be carried out only with the approval and authorization of the Board:

(1) Consolidation or merger of the properties or franchises of at least 2 rail carriers into one corporation for the ownership, management, and operation of the previously separately owned properties.

(2) A purchase, lease, or contract to operate property of another rail carrier by any number of rail carriers.

(3) Acquisition of control of a rail carrier by any number of rail carriers.

(4) Acquisition of control of at least 2 rail carriers by a person that is not a rail carrier.

(5) Acquisition of control of a rail carrier by a person that is not a rail carrier but that controls any number of rail carriers.

(6) Acquisition by a rail carrier of trackage rights over, or joint ownership in or joint use of, a railroad line (and terminals incidental to it) owned or operated by another rail carrier.

(b) A person may carry out a transaction referred to in subsection (a) of this section or participate in achieving the control or manage-

ment, including the power to exercise control or management, in a common interest of more than one of those rail carriers, regardless of how that result is reached, only with the approval and authorization of the Board under this subchapter. In addition to other transactions, each of the following transactions are considered achievements of control or management:

(1) A transaction by a rail carrier that has the effect of putting that rail carrier and person affiliated with it, taken together, in control of another rail carrier.

(2) A transaction by a person affiliated with a rail carrier that has the effect of putting that rail carrier and persons affiliated with it, taken together, in control of another rail carrier.

(3) A transaction by at least 2 persons acting together (one of whom is a rail carrier or is affiliated with a rail carrier) that has the effect of putting those persons and rail carriers and persons affiliated with any of them, or with any of those affiliated rail carriers, taken together, in control of another rail carrier.

(c) A person is affiliated with a rail carrier under this subchapter if, because of the relationship between that person and a rail carrier, it is reasonable to believe that the affairs of another rail carrier, control of which may be acquired by that person, will be managed in the interest of the other rail carrier.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11343 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11324. Consolidation, merger, and acquisition of control: conditions of approval

(a) The Board may begin a proceeding to approve and authorize a transaction referred to in section 11323 of this title on application of the person seeking that authority. When an application is filed with the Board, the Board shall notify the chief executive officer of each State in which property of the rail carriers involved in the proposed transaction is located and shall notify those rail carriers. The Board shall hold a public hearing unless the Board determines that a public hearing is not necessary in the public interest.

(b) In a proceeding under this section which involves the merger or control of at least two Class I railroads, as defined by the Board, the Board shall consider at least—

(1) the effect of the proposed transaction on the adequacy of transportation to the public;

(2) the effect on the public interest of including, or failing to include, other rail carriers in the area involved in the proposed transaction;

(3) the total fixed charges that result from the proposed transaction;

(4) the interest of rail carrier employees affected by the proposed transaction; and
(5) whether the proposed transaction would have an adverse effect on competition among rail carriers in the affected region or in the national rail system.

(c) The Board shall approve and authorize a transaction under this section when it finds the transaction is consistent with the public interest. The Board may impose conditions governing the transaction, including the divestiture of parallel tracks or requiring the granting of track rights and access to other facilities. Any trackage rights and related conditions imposed to alleviate anticompetitive effects of the transaction shall provide for operating terms and compensation levels to ensure that such effects are alleviated. When the transaction contemplates a guaranty or assumption of payment of dividends or of fixed charges or will result in an increase of total fixed charges, the Board may approve and authorize the transaction only if it finds that the guaranty, assumption, or increase is consistent with the public interest. The Board may require inclusion of other rail carriers located in the area involved in the transaction if they apply for inclusion and the Board finds their inclusion to be consistent with the public interest.

(d) In a proceeding under this section which does not involve the merger or control of at least two Class I railroads, as defined by the Board, the Board shall approve such an application unless it finds that—

1. as a result of the transaction, there is likely to be substantial lessening of competition, creation of a monopoly, or restraint of trade in freight surface transportation in any region of the United States; and
2. the anticompetitive effects of the transaction outweigh the public interest in meeting significant transportation needs.

In making such findings, the Board shall, with respect to any application that is part of a plan or proposal developed under section 333(a)–(d) of this title, accord substantial weight to any recommendations of the Attorney General.

(e) No transaction described in section 11326(b) may have the effect of avoiding a collective bargaining agreement or shifting work from a rail carrier with a collective bargaining agreement to a rail carrier without a collective bargaining agreement.

(f)(1) To the extent provided in this subsection, a proceeding under this subchapter relating to a transaction involving at least one Class I rail carrier shall not be considered an adjudication required by statute to be determined on the record after opportunity for an agency hearing, for the purposes of subchapter II of chapter 5 of title 5, United States Code.

(2) Ex parte communications as defined in section 551(14) of title 5, United States Code, shall be permitted in proceedings described in paragraph (1) of this subsection, subject to the requirements of paragraph (3) of this subsection.

(3)(A) Any member or employee of the Board who makes or receives an oral ex parte communication concerning the merits of a proceeding described in paragraph (1) shall promptly place a written summary of the oral communication in the public docket of the proceeding.

(B) Any member or employee of the Board who makes or receives an oral ex parte communication concerning the merits of a proceeding described in paragraph (1) shall promptly place a written summary of the oral communication in the public docket of the proceeding.

(4) Nothing in this subsection shall be construed to require the Board or any of its members or employees to engage in any ex parte communication with any person. Nothing in this subsection or any other law shall be construed to limit the authority of the members or employees of the Board, in their discretion, to note in the docket or otherwise publicly the occurrence and substance of an ex parte communication.

Prior Provisions

Provisions similar to those in this section were contained in section 1194 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11325. Consolidation, merger, and acquisition of control: procedure

(a) The Board shall publish notice of the application under section 11324 in the Federal Register by the end of the 30th day after the application is filed with the Board. However, if the application is incomplete, the Board shall reject it by the end of that period. The order of rejection is a final action of the Board. The published notice shall indicate whether the application involves—

1. the merger or control of at least two Class I railroads, as defined by the Board, to be decided within the time limits specified in subsection (b) of this section;
2. transactions of regional or national transportation significance, to be decided within the time limits specified in subsection (c) of this section; or
3. any other transaction covered by this section, to be decided within the time limits specified in subsection (d) of this section.

(b) If the application involves the merger or control of two or more Class I railroads, as defined by the Board, the following conditions apply:

1. Written comments about an application may be filed with the Board within 45 days after notice of the application is published under subsection (a) of this section. Copies of such comments shall be served on the Attorney General and the Secretary of Transportation, who may decide to intervene as a party to the proceeding. That decision must be made by the 15th day after the date of receipt of the written comments, and if the decision is to intervene, preliminary comments about the application must be sent to the Board by the end of the 15th day after the date of receipt of the written comments.

2. The Board shall require that applications inconsistent with an application, notice of which was published under subsection (a) of this section, and applications for inclusion in the transaction, be filed with it by the 90th day after publication of notice under that subsection.
§ 11326. Employee protective arrangements in 
transactions involving rail carriers

(3) The Board must conclude evidentiary 
proceedings by the end of 1 year after the date of 
publication of notice under subsection (a) of 
this section. The Board must issue a final de-
cision by the 90th day after the date on which 
it concludes the evidentiary proceedings.

(c) If the application involves a transaction 
other than the merger or control of at least two 
Class I railroads, as defined by the Board, which 
the Board has determined to be of regional or 
national transportation significance, the follow-
ing conditions apply:

(1) Written comments about an application, 
including comments of the Attorney General 
and the Secretary of Transportation, may be 
filed with the Board within 30 days after no-
tice of the application is published under sub-
section (a) of this section.

(2) The Board shall require that applications 
 inconsisent with an application, notice of 
which was published under subsection (a) of 
this section, and applications for inclusion in 
the transaction, be filed with it by the 60th 
day after publication of notice under that sub-
section.

(3) The Board must conclude any evidentiary 
proceedings by the 180th day after the date of 
publication of notice under subsection (a) of 
this section. The Board must issue a final de-
cision by the 90th day after the date on which 
it concludes the evidentiary proceedings.

(d) For all applications under this section 
other than those specified in subsections (b) and 
(c) of this section, the following conditions 
apply:

(1) Written comments about an application, 
including comments of the Attorney General 
and the Secretary of Transportation, may be 
filed with the Board within 30 days after no-
tice of the application is published under sub-
section (a) of this section.

(2) The Board must conclude any evidentiary 
proceedings by the 105th day after the date of 
publication of notice under subsection (a) of 
this section. The Board must issue a final de-
cision by the 45th day after the date on which 
it concludes the evidentiary proceedings.

PRIOR PROVISIONS

Provisions similar to those in this section were con-
tained in section 11345 of this title prior to the general 
amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11326. Employee protective arrangements in 
transactions involving rail carriers

(a) Except as otherwise provided in this sec-
tion, when approval is sought for a transaction 
under sections 11324 and 11325 of this title, the 
Board shall require the rail carrier to provide a 
fair arrangement at least as protective of the in-
terests of employees who are affected by the 
transaction as the terms imposed under section 522(f) of the Interstate Commerce Act before 
February 5, 1976, and the terms established 
under section 24706(c)1 of this title. Notwith-
standing this part, the arrangement may be 
made by the rail carrier and the authorized repre-
sentative of its employees. The arrangement 
and the order approving the transaction must 
require that the employees of the affected rail 
carrier will not be in a worse position related to 
their employment as a result of the transaction 
during the 4 years following the effective date of 
the final action of the Board (or if an employee 
was employed for a lesser period of time by the 
rail carrier before the action became effective, 
for that lesser period).

(b) When approval is sought under sections 
11324 and 11325 for a transaction involving one 
Class II and one or more Class III rail carriers, 
there shall be an arrangement as required under 
subsection (a) of this section, except that such 
arrangement shall be limited to one year of sev-
erance pay, which shall not exceed the amount of 
earnings from the railroad employment of that 
employee during the 12-month period im-
mediately preceding the date on which the ap-
plication for approval of such transaction is 
filed with the Board. The amount of such sever-
ance pay shall be reduced by the amount of 
earnings from railroad employment of that em-
ployee with the acquiring carrier during the 12-
month period immediately following the effec-
tive date of the transaction. The parties may 
agree to terms other than as provided in this 
subsection.

(c) When approval is sought under sections 
11324 and 11325 for a transaction involving only 
Class III rail carriers, this section shall not 
apply.

CHAPTER 115—FEDERAL-STATE RELATIONS
Sec.

11501. Tax discrimination against rail transportation property.

11502. Withholding State and local income tax by rail carriers.

§11501. Tax discrimination against rail transportation property

(a) In this section—

(1) the term ‘‘assessment’’ means valuation for a property tax levied by a taxing district;

(2) the term ‘‘assessment jurisdiction’’ means a geographical area in a State used in determining the assessed value of property for ad valorem taxation;

(3) the term ‘‘rail transportation property’’ means property, as defined by the Board, owned or used by a rail carrier providing transportation subject to the jurisdiction of the Board under this part; and

(4) the term ‘‘commercial and industrial property’’ means property, other than transportation property and land used primarily for agricultural purposes or timber growing, devoted to a commercial or industrial use and subject to a property tax levy.

(b) The following acts unreasonably burden and discriminate against interstate commerce, and a State, subdivision of a State, or authority acting for a State or subdivision of a State may not do any of them:

(1) Assess rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the ratio that the assessed value of other commercial and industrial property in the same assessment jurisdiction has to the true market value of the other commercial and industrial property.

(2) Levy or collect a tax on an assessment that may not be made under paragraph (1) of this subsection.

(3) Levy or collect an ad valorem property tax on rail transportation property at a tax
rate that exceeds the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

(4) Impose another tax that discriminates against a rail carrier providing transportation subject to the jurisdiction of the Board under this part.

(c) Notwithstanding section 1341 of title 28 and without regard to the amount in controversy or citizenship of the parties, a district court of the United States has jurisdiction, concurrent with other jurisdiction of courts of the United States and the States, to prevent a violation of subsection (b) of this section. Relief may be granted under this subsection only if the ratio of assessed value to true market value of rail transportation property exceeds by at least 5 percent the ratio of assessed value to true market value of commercial and industrial property in the same assessment jurisdiction. The burden of proof in determining assessed value and true market value is governed by State law. If the ratio of the assessed value of other commercial and industrial property in the assessment jurisdiction to the true market value of all other commercial and industrial property cannot be determined to the satisfaction of the district court through the random-sampling method known as a sales assessment ratio study (to be carried out under statistical principles applicable to such a study), the court shall find, as a violation of this section—

(1) an assessment of the rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the assessed value of all other property subject to a property tax levy in the assessment jurisdiction has to the true market value of all other commercial and industrial property; and

(2) the collection of an ad valorem property tax on the rail transportation property at a tax rate that exceeds the tax ratio rate applicable to taxable property in the taxing district.

AMENDMENTS

§ 11701. General authority

(a) Except as otherwise provided in this part, the Board may begin an investigation under this

part on the Board's own initiative or upon receiving a complaint pursuant to subsection (b). If the Board finds that a rail carrier is violating this part, the Board shall take appropriate action to compel compliance with this part. If the Board finds a violation of this part in a proceeding brought on its own initiative, any remedy from such proceeding may only be applied prospectively.

(b) A person, including a governmental authority, may file with the Board a complaint about a violation of this part by a rail carrier providing transportation or service subject to the jurisdiction of the Board under this part. The complaint must state the facts that are the subject of the violation. The Board may dismiss a complaint if it determines that it does not state reasonable grounds for investigation and action. However, the Board may not dismiss a complaint made against a rail carrier providing transportation subject to the jurisdiction of the Board under this part because of the absence of direct damage to the complainant.

(c) A formal investigative proceeding begun by the Board under subsection (a) of this section is dismissed automatically unless it is concluded by the Board with administrative finality by the end of the third year after the date on which it was begun. (d) In any investigation commenced on the Board's own initiative, the Board shall—

(1) not later than 30 days after initiating the investigation, provide written notice to the parties under investigation, which shall state the basis for such investigation;

(2) only investigate issues that are of national or regional significance;

(3) permit the parties under investigation to file a written statement describing any or all facts and circumstances concerning a matter which may be the subject of such investigation;

(4) make available to the parties under investigation and Board members—

(A) any recommendations made as a result of the investigation; and

(B) a summary of the findings that support such recommendations;

(5) to the extent practicable, separate the investigative and decisionmaking functions of staff;

(6) dismiss any investigation that is not concluded by the Board with administrative finality within 1 year after the date on which it was commenced; and

(7) not later than 90 days after receiving the recommendations and summary of findings under paragraph (4),

(A) dismiss the investigation if no further action is warranted; or

(B) initiate a proceeding to determine if a provision under this part has been violated.

"(1) comply with the requirements of section 11701(d) of title 49, United States Code, as added by subsection (b);

"(2) satisfy due process requirements; and

"(3) take into account ex parte constraints."

§11702. Enforcement by the Board

The Board may bring a civil action—

(1) to enjoin a rail carrier from violating sections 10901 through 10906 of this title, or a regulation prescribed or order or certificate issued under any of those sections;

(2) to enforce subchapter II of chapter 113 of this title and to compel compliance with an order of the Board under that subchapter; and

(3) to enforce an order of the Board, except a civil action to enforce an order for the payment of money, when it is violated by a rail carrier providing transportation subject to the jurisdiction of the Board under this part.

PRIOR PROVISIONS

§ 11703. Enforcement by the Attorney General

(a) The Attorney General may, and on request of the Board shall, bring court proceedings to enforce this part, or a regulation or order of the Board or certificate issued under this part, and to prosecute a person violating this part or a regulation or order of the Board or certificate issued under this part.

(b) The United States Government may bring a civil action on behalf of a person to compel a rail carrier providing transportation subject to the jurisdiction of the Board under this part to provide that transportation to that person in compliance with this part at the same rate charged, or on conditions as favorable as those given by the rail carrier, for like traffic under similar conditions to another person.

PRIOR PROVISIONS

§ 11704. Rights and remedies of persons injured by rail carriers

(a) A person injured because a rail carrier providing transportation or service subject to the jurisdiction of the Board under this part does not obey an order of the Board, except an order providing transportation or service subject to the jurisdiction of the Board under this part, pursuant to subsection (b) of this section to enforce an order of the Board requiring the payment of damages by a rail carrier providing transportation subject to the jurisdiction of the Board under this part, the text of the order of the Board must be included in the complaint. In addition to the district courts of the United States, a State court of general jurisdiction having jurisdiction of the parties has jurisdiction to enforce an order under this paragraph. The findings and order of the Board are competent evidence of the facts stated in them. Trial in a civil action brought in a district court of the United States under this paragraph is in the judicial district—

(A) in which the plaintiff resides;

(B) in which the principal operating office of the rail carrier is located; or

(C) through which the railroad line of that carrier runs.

In a civil action under this paragraph, the plaintiff is liable for only those costs that accrue on an appeal taken by the plaintiff.

(2) All parties in whose favor the award was made may be joined as plaintiffs in a civil action brought in a district court of the United States under this subsection and all the rail carriers that are parties to the order awarding damages may be joined as defendants. Trial in the action is in the judicial district in which any one of the plaintiffs could bring the action against any one of the defendants. Process may be served on a defendant at its principal operating office when that defendant is not in the district in which the action is brought. A judgment ordering recovery may be made in favor of any of those plaintiffs against the defendant found to be liable to that plaintiff.

(3) The district court shall award a reasonable attorney’s fee as a part of the damages for which a rail carrier is found liable under this subsection. The district court shall tax and collect that fee as a part of the costs of the action.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in section 11705 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§ 11705. Limitation on actions by and against rail carriers

(a) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part must begin a civil action to recover charges for transportation or service provided by the carrier within 3 years after the claim accrues.

(b) A person must begin a civil action to recover overcharges under section 11704(b) of this title within 3 years after the claim accrues, whether or not a complaint is filed under section 11704(c)(1).
§ 11706. Liability of rail carriers under receipts and bills of lading

(a) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part shall issue a receipt or bill of lading for property it receives for transportation under this part. That rail carrier and any other carrier that delivers the property and is providing transportation or service subject to the jurisdiction of the Board under this part are liable to the person entitled to recover under the receipt or bill of lading. The liability imposed under this subsection is for the actual loss or injury to the property caused by—

(1) the receiving rail carrier;
(2) the delivering rail carrier; or
(3) another rail carrier over whose line or route the property is transported in the United States or from a place in the United States to a place in an adjacent foreign country when transported under a through bill of lading.

(b) The rail carrier issuing the receipt or bill of lading under subsection (a) of this section or delivering the property for which the receipt or bill of lading was issued is entitled to recover from the rail carrier over whose line or route the loss or injury occurred the amount required to be paid to the owners of the property, as evidenced by a receipt, judgment, or transcript, and the amount of its expenses reasonably incurred in defending a civil action brought by that person.

(c) (1) A rail carrier may not limit or be exempt from liability imposed under subsection (a) of this section except as provided in this subsection. A limitation of liability or of the amount of recovery or representation or agreement in a receipt, bill of lading, contract, or rule in violation of this section is void.

(2) A rail carrier of passengers may limit its liability under its passenger rate for loss or injury of baggage carried on trains carrying passengers.

(3) A rail carrier providing transportation or service subject to the jurisdiction of the Board under this part may establish rates for transportation of property under which—

(A) the liability of the rail carrier for such property is limited to a value established by written declaration of the shipper or by a written agreement between the shipper and the carrier; or

(B) specified amounts are deducted, pursuant to a written agreement between the shipper and the carrier, from any claim against the carrier with respect to the transportation of such property.

(d)(1) A civil action under this section may be brought in a district court of the United States or in a State court.

(A) against the originating rail carrier, in the judicial district in which the point of origin is located;

(B) against the delivering rail carrier, in the judicial district in which the principal place of business of the person bringing the action is located if the delivering carrier operates a railroad or a route through such judicial district, or in the judicial district in which the point of destination is located; and

(C) against the carrier alleged to have caused the loss or damage, in the judicial district in which such loss or damage is alleged to have occurred.

(B) In this section, “judicial district” means

(i) in the case of a United States district court, a judicial district of the United States, and (ii) in the case of a State court, the applicable geo-
graphic area over which such court exercises jurisdic-
tion.

(e) A rail carrier may not provide by rule, contract, or otherwise, a period of less than 9 months for filing a claim against it under this section and a period of less than 2 years for bringing a civil action against it under this section. The period for bringing a civil action is computed from the date the carrier gives a person written notice that the carrier has dis-
allowed any part of the claim specified in the notice. For the purposes of this subsection—

(1) an offer of compromise shall not constitute a disallowance of any part of the claim unless the carrier, in writing, informs the claimant that such part of the claim is dis-
allowed and provides reasons for such dis-
allowance; and

(2) communications received from a carrier’s insurer shall not constitute a disallowance of any part of the claim unless the insurer, in writing, informs the claimant that such part of the claim is dis-
allowed, provides reasons for such dis-
allowance, and informs the claimant that the insurer is acting on behalf of the car-
rier.

§11707. Liability when property is delivered in
violation of routing instructions

(a)(1) When a rail carrier providing transpor-
tation subject to the jurisdiction of the Board under this part diverts or delivers property to
another rail carrier in violation of routing in-
structions in the bill of lading, both of those rail
 carriers are jointly and severally liable to the
rail carrier that was deprived of its right to par-
ticipate in hauling that property for the total
amount of the rate it would have received if it
participated in hauling the property.

(2) A rail carrier is not liable under paragraph
(1) of this subsection when it diverts or delivers property in compliance with an order or regu-
lation of the Board.

(3) A rail carrier to whom property is trans-
ported is not liable under this subsection if it shows that it had no notice of the routing in-
structions before transporting the property. The
burden of proving lack of notice is on that rail
carrier.

(b) The court shall award a reasonable attor-
ney’s fee to the plaintiff in a judgment against the
defendant rail carrier under subsection (a) of
this section. The court shall tax and collect that
fee as a part of the costs of the action.

(D) may initiate the voluntary and binding arbitration process not later than 40 days after the date on which a written complaint is filed or through other procedures adopted by the Board in a rulemaking proceeding.

(2) LIMITATION.—Initiation of the voluntary and binding arbitration process shall preclude the Board from separately reviewing a complaint or dispute related to the same rail rate or practice in a covered dispute involving the same parties.

(3) RATES.—In resolving a covered dispute involving the reasonableness of a rail carrier's rates, the arbitrator or panel of arbitrators, as applicable, shall consider the Board's methodologies for setting maximum lawful rates, giving due consideration to the need for differential pricing to permit a rail carrier to collect adequate revenues (as determined under section 10704(a)(2)).

(3) DECISION.—The arbitrator or panel of arbitrators, as applicable, shall issue a decision not later than 30 days after the date on which the evidentiary record is closed.

(2) a clear abuse of arbitral authority or discretion occurred;

(3) the decision directly contravenes statutory authority; or

Board, as applicable, shall exempt a person, class of persons, or a transaction or service from the application, in whole or in part, of a provision of this part, or use this exemption authority to modify the application of a provision of this part as it applies to such person, class, transaction, or service, when the Secretary or Board finds that the application of that provision—

(1) is not necessary to carry out the transportation policy of section 13101;
(2) is not needed to protect shippers from the abuse of market power or that the transaction or service is of limited scope; and
(3) is in the public interest.

(b) INITIATION OF PROCEEDING.—The Secretary or Board, as applicable, may, where appropriate, begin a proceeding under this section on the Secretary’s or Board’s own initiative or on application by an interested party.

(c) PERIOD OF EXEMPTION.—The Secretary or Board, as applicable, may specify the period of time during which an exemption granted under this section is effective.

(d) REVOCA TION.—The Secretary or Board, as applicable, may revoke an exemption, to the extent specified, on finding that application of a provision of this part to the person, class, or transportation is necessary to carry out the transportation policy of section 13101.

(e) LIMITATIONS.—

(1) IN GENERAL.—The exemption authority under this section may not be used to relieve a person from the application of, and compliance with, any law, rule, regulation, standard, or order pertaining to cargo loss and damage, insurance, safety fitness, or activities approved under section 13703 or 14302 or not terminated under section 13907(d)(2).

(2) WATER CARRIERS.—The Secretary or Board, as applicable, may not exempt a water carrier from the application of, or compliance with, section 13701 or 13702 for transportation in the non-contiguous domestic trade.

(f) CONTINUATION OF CERTAIN EXISTING EXEMPTIONS FOR WATER CARRIERS.—The Secretary or Board, as applicable, shall not regulate or exercise jurisdiction under this part over the transportation by water carrier in the non-contiguous domestic trade of any cargo or type of cargo or service which was not subject to regulation by, or under the jurisdiction of, either the Federal Maritime Commission or Interstate Commerce Commission under Federal law in effect on November 1, 1995.

§ 13701. Requirements for reasonable rates, classifications, through routes, rules, and practices for certain transportation

(a) REASONABLENESS.—

(1) CERTAIN HOUSEHOLD GOODS TRANSPORTATION; JOINT RATES INVOLVING WATER TRANSPORTATION.—A rate, classification, rule, or practice related to transportation or service provided by a carrier subject to jurisdiction under chapter 135 for transportation or service involving—

(A) a movement of household goods,
(B) a rate for a movement by or with a water carrier in noncontiguous domestic trade, or
(C) rates, rules, and classifications made collectively by motor carriers under agreements approved pursuant to section 13703, must be reasonable.

(2) THROUGH ROUTES AND DIVISIONS OF JOINT RATES.—Through routes and divisions of joint rates for such transportation or service must be reasonable.

(b) PRESCRIPTION BY BOARD FOR VIOLATIONS.—When the Board finds it necessary to stop or prevent a violation of subsection (a), the Board shall prescribe the rate, classification, rule, practice, through route, or division of joint rates to be applied for such transportation or service.

(c) FILING OF COMPLAINT.—A complaint that a rate, classification, rule, or practice in non-contiguous domestic trade violates subsection (a) may be filed with the Board.

(d) ZONE OF REASONABLENESS.—

(1) IN GENERAL.—For purposes of this section, a rate or division of a motor carrier for service in noncontiguous domestic trade or water carrier for port-to-port service in that trade is reasonable if the aggregate of increases and decreases in any such rate or division is not more than 7.5 percent above, or more than 10 percent below, the rate or division in effect 1 year before the effective date of the proposed rate or division.

(2) ADJUSTMENTS TO THE ZONE.—The percentage specified in paragraph (1) shall be in-
creased or decreased, as the case may be, by the percentage change in the Producers Price Index, as published by the Department of Labor, that has occurred during the most recent 1-year period before the date the rate or division in question first took effect.

(3) Determinations after complaint.—The Board shall determine whether any rate or division of a carrier or service in noncontiguous domestic trade which is not within the range described in paragraph (1) is reasonable if a complaint is filed under subsection (c) or section 13702(b)(6).

(4) Reparations.—Upon a finding of violation of subsection (a), the Board shall award reparations to the complaining shipper or shippers in an amount equal to all sums assessed and collected that exceed the determined reasonable rate, division, rate structure, or tariff. Upon complaint from any governmental agency or authority and upon a finding or violation of subsection (a), the Board shall make such orders as are just and shall require the carrier to return, to the extent practicable, to shippers all amounts plus interest, which the Board finds to have been assessed and collected in violation of subsection (a).

Prior Provisions
Provisions similar to those in this section were contained in sections 10701, 10704, and 10705 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, § 102(a).

§ 13702. Tariff requirement for certain transportation

(a) In General.—Except when providing transportation for charitable purposes without charge, a carrier subject to jurisdiction under chapter 135 may provide transportation or service that is—

(1) in noncontiguous domestic trade, except with regard to bulk cargo, forest products, recycled metal scrap, waste paper, and paper waste; or

(2) for movement of household goods;

only if the rate for such transportation or service is contained in a tariff that is in effect under this section. The carrier may not charge or receive a different compensation for the transportation or service than the rate specified in the tariff, whether by returning a part of that rate to a person, giving a person a privilege, allowing the use of a facility that affects the value of that transportation or service, or another device. A rate contained in a tariff shall be stated in money of the United States.

(b) Tariff Requirements for Noncontiguous Domestic Trade

(1) Filing.—A carrier providing transportation or service described in subsection (a)(1) shall publish and file with the Board tariffs containing the rates established for such transportation or service. The carriers shall keep such tariffs available for public inspection. The Board shall prescribe the form and manner of publishing, filing, and keeping tariffs available for public inspection under this subsection.

(2) Contents.—The Board may prescribe any specific information and charges to be identified in a tariff, but at a minimum tariffs must identify plainly—

(A) the carriers that are parties to it;

(B) the places between which property will be transported;

(C) terminal charges if a carrier provides transportation or service subject to jurisdiction under subchapter III of chapter 135;

(D) privileges given and facilities allowed; and

(E) any rules that change, affect, or determine any part of the published rate.

(3) Inland Divisions.—A carrier providing transportation or service described in subsection (a)(1) under a joint rate for a through movement shall not be required to state separately or otherwise reveal in tariff filings the inland divisions of that through rate.

(4) Time-Volume Rates.—Rates in tariffs filed under this subsection may vary with the volume of cargo offered over a specified period of time.

(5) Changes.—The Board may permit carriers to change rates, classifications, rules, and practices without filing complete tariffs under this subsection that cover matter that is not being changed when the Board finds that action to be consistent with the public interest. Those carriers may either—

(A) publish new tariffs that incorporate changes, or

(B) plainly indicate the proposed changes in the tariffs then in effect and make the tariffs as changed available for public inspection.

(6) Complaints.—A complaint that a rate or related rule or practice maintained in a tariff under this subsection violates section 13701(a) may be submitted to the Board for resolution.

(c) Tariff Requirements for Household Goods Carriers.—

(1) In General.—A carrier providing transportation described in subsection (a)(2) shall maintain rates and related rules and practices in a published tariff. The tariff must be available for inspection by the Board and be made available for inspection by shippers upon reasonable request.

(2) Notice of Availability.—A carrier that maintains a tariff under this subsection may not enforce the provisions of the tariff unless the carrier has given notice that the tariff is available for inspection in its bill of lading or by other actual notice to individuals whose shipments are subject to the tariff.

(3) Requirements.—A carrier that maintains a tariff under this subsection is bound by the tariff except as otherwise provided in this part. A tariff that does not comply with this subsection may not be enforced against any individual shipper.

(4) Incorporation by Reference.—A carrier may incorporate by reference the rates, terms,

(2) SUBMISSION OF AGREEMENT TO BOARD; APPROVAL.—An agreement entered into under paragraph (1) may be submitted by any carrier or carriers that are parties to such agreement to the Board for approval and may be approved by the Board only if it finds that such agreement is in the public interest.

(3) CONDITIONS.—The Board may require compliance with reasonable conditions consistent with this part to assure that the agreement furthers the transportation policy set forth in section 13101.

(4) INDEPENDENTLY ESTABLISHED RATES.—Any carrier which is a party to an agreement under paragraph (1) is not, and may not be, precluded from independently establishing its own rates, classification, and mileages or from adopting and using a noncollectively made classification or mileage guide.

(5) INVESTIGATIONS.—

(A) REASONABLENESS.—The Board may suspend and investigate the reasonableness of any rate, rule, classification, or rate adjustment of general application made pursuant to an agreement under this section.

(B) ACTIONS NOT IN THE PUBLIC INTEREST.—The Board may investigate any action taken pursuant to an agreement approved under this section. If the Board finds that the action is not in the public interest, the Board may take such measures as may be necessary to protect the public interest with regard to the action, including issuing an order directing the parties to cease and desist or modify the action.

(b) EFFECT OF APPROVAL.—If the Board approves the agreement or renews approval of the agreement, it may be made and carried out under its terms and under the conditions required by the Board, and the antitrust laws, as defined in the first section of the Clayton Act (15 U.S.C. 12), do not apply to parties and other persons with respect to making or carrying out the agreement.

(c) REVIEW.—

(1) IN GENERAL.—The Board may review an agreement approved under this section, on its own initiative or on request, and shall change the conditions of approval or terminate it when necessary to protect the public interest.

(2) PERIODIC REVIEW OF APPROVALS.—Subject to this section, in the 5-year period beginning on the date of the enactment of this paragraph and in each 5-year period thereafter, the Board shall initiate a proceeding to review any agreement approved pursuant to this section. Any such agreement shall be continued unless the Board determines otherwise.

(d) EXISTING AGREEMENTS.—

(1) AGREEMENTS EXISTING AS OF DECEMBER 31, 1995.—Agreements approved under former section 10706(b) and in effect on December 31, 1995, shall be treated for purposes of this section as approved by the Board under this section beginning on January 1, 1996.

(2) CASES PENDING AS OF DATE OF THE ENACTMENT.—Nothing in section 227 (other than subsection (b)) of the Motor Carrier Safety Improvement Act of 1999, including the amendments made by such section, shall be construed to affect any case brought under this section that is pending before the Board as of the date of the enactment of this paragraph.

(e) LIMITATIONS ON STATUTORY CONSTRUCTION.—

(1) UNDERCHARGE CLAIMS.—Nothing in this section shall serve as a basis for any undercharge claim.

(2) OBLIGATION OF SHIPPER.—Nothing in this title, the ICC Termination Act of 1995, or any amendments or repeals made by such Act shall
be construed as creating any obligation for a shipper based solely on a classification that was on file with the Interstate Commerce Commission or elsewhere on December 31, 1995.

(f) INDUSTRY STANDARD GUIDES.—

(A) PUBLIC AVAILABILITY.—Routes, rates, classifications, mileage guides, and rules established under agreements approved under this section shall be published and made available for public inspection upon request.
(B) PARTICIPATION OF CARRIERS.—

(ii) POWER OF ATTORNEY.—The motor carrier of property shall issue a power of attorney to the publishing agent and, upon its acceptance, the agent shall issue a written certification to the motor carrier affirming its participation in the governing publication, and the certification shall be made available for public inspection.

(2) MILEAGE LIMITATION.—No carrier subject to jurisdiction under subchapter I or III of chapter 135 may enforce collection of its mileage rates unless such carrier—
(A) is a participant in a publication of mileages formulated under an agreement approved under this section; or
(B) uses a publication of mileage (other than a publication described in subparagraph (A)) that can be examined by any interested person upon reasonable request.

(g) SINGLE LINE RATE DEFINED.—In this section, the term “single line rate” means a rate, charge, or allowance proposed by a single motor carrier that is applicable only over its line and for which the transportation can be provided by that carrier.

§13704. Household goods rates—estimates; guarantees of service

(a) IN GENERAL.—
(1) AUTHORITY.—Subject to the provisions of paragraph (2) of this subsection, a motor carrier providing transportation of household goods subject to jurisdiction under subchapter I of chapter 135 may establish a rate for the transportation of household goods which is based on the carrier’s written, binding estimate of charges for providing such transportation.

(2) NONPREFERENTIAL; NONPREDATORY.—Any rate established under this subsection must be
available on a nonpreferential basis to shippers and must not result in charges to shippers which are predatory.

(b) Rates for Guaranteed Service.—

(1) Authority.—Subject to the provisions of paragraph (2) of this subsection, a motor carrier providing transportation of household goods subject to jurisdiction under subchapter I of chapter 135 may establish rates for the transportation of household goods which guarantee that the carrier will pick up and deliver such household goods at the times specified in the contract for such services and provide a penalty or per diem payment in the event the carrier fails to pick up or deliver such household goods at the specified time. The charges, if any, for such guarantee and penalty provision may vary to reflect one or more options available to meet a particular shipper’s needs.

(2) Authority of Secretary to Require Non-Guaranteed Service Rates.—Before a carrier may establish a rate for any service under paragraph (1) of this subsection, the Secretary may require such carrier to have in effect and keep in effect, during any period such rate is in effect under paragraph (1), a rate for such service which does not guarantee the pick up and delivery of household goods at the times specified in the contract for such services and which does not provide a penalty or per diem payment in the event the carrier fails to pick up or deliver household goods at the specified time.

§13705. Requirements for through routes among motor carriers of passengers

(a) Establishment; Reasonableness.—A motor carrier providing transportation of passengers subject to jurisdiction under subchapter I of chapter 135 shall establish through routes with other carriers of the same type and shall establish individual and joint rates applicable to them. Such through route must be reasonable.

(b) Prescribed by Board.—When the Board finds it necessary to enforce the requirements of this section, the Board may prescribe through routes and the conditions under which those routes must be operated for motor carriers providing transportation of passengers subject to jurisdiction under subchapter I of chapter 135.

PRIOR PROVISIONS

Provisions similar to those in this section were contained in sections 10703 and 10705 of this title prior to the general amendment of this subtitle by Pub. L. 104–88, §102(a).

§13706. Liability for payment of rates

(a) Liability of Consignee.—Liability for payment of rates for transportation for a shipment of property by a shipper or consignor to a consignee other than the shipper or consignor, is determined under this section when the transportation is provided by motor carrier under this part. When the shipper or consignor instructs the carrier transporting the property to deliver it to a consignee that is an agent only, not having beneficial title to the property, the consignee is liable for rates billed at the time of delivery for which the consignee is otherwise liable, but not for additional rates that may be found to be due after delivery if the consignee gives written notice to the delivering carrier before delivery of the property—

(1) of the agency and absence of beneficial title; and

(2) of the name and address of the beneficial owner of the property if it is reconsigned or diverted to a place other than the place specified in the original bill of lading.

(b) Liability of Beneficial Owner.—When the consignee is liable only for rates billed at the time of delivery under subsection (a), the shipper or consignor, or, if the property is reconsigned or diverted, the beneficial owner is liable for those additional rates regardless of the bill of the lading or contract under which the property was transported. The beneficial owner is liable for all rates when the property is reconsigned or diverted by an agent but is refused or abandoned at its ultimate destination if the agent gave the carrier in the reconsignment or diversion order a notice of agency and the name and address of the beneficial owner. A consignee giving the carrier erroneous information about the identity of the beneficial owner of the property is liable for the additional rates.

§13707. Payment of rates

(a) Transfer of Possession Upon Payment.—Except as provided in subsection (b), a carrier providing transportation or service subject to jurisdiction under this part shall give up possession at the destination of the property transported by it only when payment for the transportation or service is made.

(b) Exceptions.—

(1) Regulations.—Under regulations of the Secretary governing the payment for transportation and service and preventing discrimination, those carriers may give up possession at destination of property transported by them before payment for the transportation or service. The regulations of the Secretary may provide for weekly or monthly payment for transportation provided by motor carriers and for periodic payment for transportation provided by water carriers.

(2) Extensions of Credit to Governmental Entities.—Such a carrier (including a motor carrier being used by a household goods freight forwarder) may extend credit for transporting property for the United States Government, a State, a territory or possession of the
United States, or a political subdivision of any of them.

(3) SHIPMENTS OF HOUSEHOLD GOODS.—
   (A) IN GENERAL.—A motor carrier providing transportation of a shipment of household goods shall give up possession of the household goods being transported at the destination upon payment of—
      (i) 100 percent of the charges contained in a binding estimate provided by the carrier;
      (ii) not more than 110 percent of the charges contained in a nonbinding estimate provided by the carrier; or
      (iii) in the case of a partial delivery of the shipment, the prorated percentage of the charges calculated in accordance with subparagraph (B).
   (B) CALCULATION OF PRORATED CHARGES.—For purposes of subparagraph (A)(iii), the prorated percentage of the charges shall be the percentage of the total charges due to the carrier as described in clause (i) or (ii) of subparagraph (A) that is equal to the percentage of the weight of that portion of the shipment delivered to the total weight of the shipment.
   (C) POST-CONTRACT SERVICES.—Subparagraph (A) does not apply to additional services requested by a shipper after the contract of service is executed that were not included in the estimate.
   (D) IMPRACTICABLE OPERATIONS.—Subparagraph (A) does not apply to impracticable operations, as defined by the applicable carrier tariff, except that the charges collected at delivery for such operations shall not exceed 15 percent of all other charges due at delivery. Any remaining charges due shall be paid within 30 days after the carrier presents its freight bill.

         (iv) such transportation rate was billed and collected by the carrier or freight forwarder; and
         (v) the carrier or freight forwarder demands additional payment of a higher rate filed in a tariff.
   (2) FORUM.—If there is a dispute as to the showing under paragraph (1)(A), such dispute shall be resolved by the court in which the claim is brought. If there is a dispute as to the showing under paragraph (1)(B), such dispute shall be resolved by the Board. Pending the resolution of any such dispute, the person

(a) DISCLOSURE.—A motor carrier subject to jurisdiction under subchapter I of chapter 135 shall disclose, when a document is presented or electronically transmitted for payment to the person responsible directly to the motor carrier for payment or agent of such responsible person, the actual rates, charges, or allowances for any transportation service and shall also disclose, at such time, whether and to whom any allowance or reduction in charges is made.
   (b) FALSE OR MISLEADING INFORMATION.—No person may cause a motor carrier to present false or misleading information on a document about the actual rate, charge, or allowance to any party to the transaction.
   (c) ALLOWANCES FOR SERVICES.—When the actual rate, charge, or allowance is dependent upon the performance of a service by a party to the transportation arrangement, such as tendering a volume of freight over a stated period of time, the motor carrier shall indicate in any document presented for payment to the person responsible directly to the motor carrier for payment or agent of such responsible person, at the actual rates, charges, or allowances for any party to the transaction.

In the event that a dispute arises as to the rate that was legally applicable to the shipment, such dispute shall be resolved by the Board.

(c) Claims Involving Shipments Weighing More Than 10,000 Pounds.—A person from whom the additional legally applicable and effective tariff rate or charges are sought may elect to satisfy the claim if the shipments each weighed more than 10,000 pounds, by payment of 15 percent of the difference between the carrier’s applicable and effective tariff rate and the rate originally billed and paid. In the event that a dispute arises as to the rate that was legally applicable to the shipment, such dispute shall be resolved by the Board.

(e) Effects of Election.—When a person from whom the additional legally applicable freight rates or charges are sought does not elect to use the provisions of subsection (b), (c) or (d), the person may pursue all rights and remedies existing under this part or, for transportation provided by the carrier or freight forwarder until the Board has made a determination as to the reasonableness of the challenged rate as applied to the freight rate or charges being claimed by a person from whom additional freight charges are sought.

(f) Stay of Additional Compensation.—When a person proceeds under this section to challenge the reasonableness of the legally applicable freight rate or charges being claimed by a carrier or freight forwarder in addition to those already billed and collected, the person shall not have to pay any additional compensation to the carrier or freight forwarder until the Board has made a determination as to the reasonableness of the challenged rate as applied to the freight rate or charges being claimed by a person from whom the claim is made.

(g) Notification of Election.—(1) General Rule.—A person must notify the carrier or freight forwarder as to its election to proceed under subsection (b), (c), or (d). Except as provided in paragraphs (2), (3), and (4), such election may be made at any time.

(2) Demands for Payment Initially Made After December 3, 1993.—If the carrier or freight forwarder or party representing such carrier or freight forwarder initially demands the payment of additional freight charges after December 3, 1993, and notifies the person from whom additional freight charges are sought of the provisions of subsections (a) through (f) at the time of the making of such initial demand, the election must be made not later than the later of—

(A) the 60th day following the filing of an answer to a suit for the collection of such additional legally applicable freight rate or charges, or

(a) MISCELLANEOUS PROVISIONS.—

(1) INFORMATION RELATING TO BASIS OF RATE.—A motor carrier of property (other than a motor carrier providing transportation in noncontiguous domestic trade) shall provide to the shipper, on request of the shipper, a written or electronic copy of the rate, classification, rules, and practices, upon which any rate applicable to its shipment or agreed to between the shipper and carrier is based.

(2) REASONABLENESS OF RATES; COLLECTING ADDITIONAL CHARGES.—When the applicability or reasonableness of the rates and related provisions billed by a motor carrier is challenged by the person paying the freight charges, the Board shall determine whether such rates and provisions are reasonable under section 13701 or applicable based on the record before it.

(3) BILLING DISPUTES.—

(A) INITIATED BY MOTOR CARRIERS.—In those cases where a motor carrier (other than a motor carrier providing transportation of household goods or in noncontiguous domestic trade) seeks to collect charges in addition to those billed and collected which are contested by the payor, the carrier may request that the Board determine whether any additional charges over those billed and collected must be paid. A carrier must issue any bill for charges in addition to those originally billed within 180 days of the receipt of the original bill in order to have the right to collect such charges.

(B) INITIATED BY SHIPPERS.—If a shipper seeks to contest the charges originally billed or additional charges subsequently billed, the shipper may request that the Board determine whether the charges billed must be paid. A shipper must contest the original bill or subsequent bill within 180 days of receipt of the bill in order to have the right to contest such charges.

(4) VOIDING OF CERTAIN TARIFFS.—Any tariff on file with the Interstate Commerce Commission on August 26, 1994, and not required to be filed after that date is null and void beginning on that date. Any tariff on file with the Interstate Commerce Commission on January 1, 1996, and not required to be filed after that date is null and void beginning on that date.

(b) RESOLUTION OF DISPUTES OVER STATUS OF COMMON CARRIER OR CONTRACT CARRIER.—If a motor carrier (other than a motor carrier providing transportation of household goods) that was subject to jurisdiction under subchapter II of chapter 105, as in effect on December 31, 1995, and that had authority to provide transportation as both a motor common carrier and a motor contract carrier and a dispute arises as to whether certain transportation that was provided prior to January 1, 1996, was provided in its common carrier or contract carrier capacity and the parties are not able to resolve the dispute consensually, the Board shall resolve the dispute.

Alternative procedure for resolving undercharge disputes

(a) GENERAL RULE.—It shall be an unreasonable practice for a motor carrier of property (other than a household goods carrier) providing transportation subject to jurisdiction under subchapter I of chapter 135 or, before January 1, 1996, to have provided transportation that was subject to jurisdiction under subchapter II of chapter 105, as in effect on December 31, 1995, a freight forwarder (other than a household goods freight forwarder), or a party representing such a carrier or freight forwarder to attempt to charge or to charge for a transportation service the difference between (1) the applicable rate that was lawfully in effect pursuant to this chapter or, with respect to transportation provided before January 1, 1996, in accordance with chapter 107, as in effect on the date the transportation was provided, by the carrier or freight forwarder applicable to such transportation service, and (2) the negotiated rate for such transportation service if the carrier or freight forwarder is no longer transporting property between places described in section 13501(1) or is transporting property between places described in section 13501(1) for the purpose of avoiding application of this section.

(b) JURISDICTION OF BOARD.—

(1) DETERMINATION.—The Board shall have jurisdiction to make a determination of whether or not attempting to charge or the charging of a rate by a motor carrier or freight forwarder or party representing a motor carrier or freight forwarder is an unreasonable practice under subsection (a). If the Board determines that attempting to charge or the charging of the rate is an unreasonable practice under subsection (a), the carrier, freight forwarder, or party may not collect the difference described in subsection (a) between the applicable rate and the negotiated rate for the transportation service.

(2) FACTORS TO CONSIDER.—In making a determination under paragraph (1), the Board shall consider—

(A) whether the person was offered a transportation rate by the carrier or freight forwarder or party other than that legally on file with the Interstate Commerce Commission or the Board, as required, at the time of the movement for the transportation service;

(B) whether the person tendered freight to the carrier or freight forwarding in reasonable reliance upon the offered transportation rate;

(C) whether the carrier or freight forwarder did not properly or timely file with the Interstate Commerce Commission or the Board, as required, a tariff providing for such transportation rate or failed to enter into an agreement for contract carriage;

(D) whether the transportation rate was billed and collected by the carrier or freight forwarder; and

(E) whether the carrier or freight forwarder or party demands additional payment of a higher rate filed in a tariff.

(2) STAY OF ADDITIONAL COMPENSATION.—When a person proceeds under this section to challenge the reasonableness of the practice of a motor carrier, freight forwarder, or party described in subsection (a) to attempt to charge or to charge the difference described in subsection (a) between the applicable rate and the negotiated rate for the transportation service in addition to those charges already billed and collected for the transportation service, the person shall not have to pay any additional compensation to the carrier, freight forwarder, or party until the Board has made a determination as to the reasonableness of the practice as applied to the freight of the person against whom the claim is made.

(d) TREATMENT.—Subsection (a) is an exception to the requirements of section 13702 and, for transportation provided before January 1, 1996, to the requirements of sections 10761(a) and 10762, as in effect on December 31, 1995, as such sections relate to a filed tariff rate and other general tariff requirements.

(e) NONAPPLICABILITY OF NEGOTIATED RATE DISPUTE RESOLUTION PROCEDURE.—If a person elects to seek enforcement of subsection (a) with respect to a rate for a transportation or service, section 13709 shall not apply to such rate.

(f) DEFINITIONS.—In this section, the term "negotiated rate" means a rate, charge, classification, or rule agreed upon by a motor carrier or freight forwarder and a shipper through negotiations pursuant to which no tariff was lawfully and timely filed and for which there is written evidence of such agreement.

(g) APPLICABILITY TO PENDING CASES.—This section shall apply to all cases and proceedings pending on January 1, 1996.

(D) after the Secretary establishes a written proficiency examination pursuant to section 32101(b) of the Commercial Motor Vehicle Safety Enhancement Act of 2012, has passed the written proficiency examination.

(2) ADDITIONAL REGISTRATION REQUIREMENTS FOR HOUSEHOLD GOODS MOTOR CARRIERS.—In addition to meeting the requirements of paragraph (1), the Secretary may register a person to provide transportation of household goods as a household goods motor carrier only after that person—

(A) provides evidence of participation in an arbitration program and provides a copy of the notice of the arbitration program as required by section 1706(b)(2); and

(B) identifies its tariff and provides a copy of the notice of the availability of that tariff for inspection as required by section 13702(c); and

(b) MOTOR CARRIERS OF PASSENGERS.—

(1) REGISTRATION OF PRIVATE RECIPIENTS OF GOVERNMENTAL ASSISTANCE.—The Secretary shall register under subsection (a)(1) a private recipient of governmental assistance to provide special or charter transportation subject to jurisdiction under subchapter I of chapter 135 as a motor carrier of passengers if the Secretary finds that the recipient meets the requirements of subsection (a)(1), unless the Secretary finds, on the basis of evidence presented by any person objecting to the registration, that the transportation to be provided pursuant to the registration is not in the public interest.

(C) TREATMENT OF CERTAIN PUBLIC RECIPIENTS.—Any public recipient of governmental assistance which is providing or seeking to provide transportation of passengers subject to jurisdiction under subchapter I of chapter 135 shall, for purposes of this part, be treated as a person which is providing or seeking to provide transportation of passengers subject to such jurisdiction.

(3) INTRASTATE TRANSPORTATION BY INTERSTATE CARRIERS.—A motor carrier of passengers that is registered by the Secretary under subsection (a) is authorized to provide regular-route transportation entirely in one State as a motor carrier of passengers if such intrastate transportation is to be provided on a route over which the carrier provides interstate transportation of passengers.

(4) PREEMPTION OF STATE REGULATION REGARDING CERTAIN SERVICE.—No State or political subdivision thereof and no interstate agency or other political agency of 2 or more States shall enact or enforce any law, rule, regulation, standard or other provision having the force and effect of law relating to the provision of pickup and delivery of express packages, newspapers, or mail in a commercial zone if the shipment has had or will have a prior or subsequent movement by bus in intrastate commerce and, if a city within the commercial zone, is served by a motor carrier of passengers providing regular-route transportation of passengers subject to jurisdiction under subchapter I of chapter 135.

(5) JURISDICTION OVER CERTAIN INTRASTATE TRANSPORTATION.—Subject to section 14501(a), any intrastate transportation authorized by this subsection shall be treated as transportation subject to jurisdiction under subchapter I of chapter 135 until such time as the carrier takes such action as is necessary to establish under the laws of such State rules, practices and procedures applicable to such transportation, but in no case later than the 30th day following the date on which the motor carrier of passengers first begins providing transportation entirely in one State under this paragraph.

(6) SPECIAL OPERATIONS.—This subsection shall not apply to any regular-route transportation of passengers provided entirely in one State which is in the nature of a special operation.

(7) SUSPENSION OR REVOCATION.—Intrastate transportation authorized under this subsection may be suspended or revoked by the Secretary under section 13905 of this title at any time.

(c) RESTRICTIONS ON MOTOR CARRIERS DOMICILED IN OR OWNED OR CONTROLLED BY NATIONALS OF A CONTIGUOUS FOREIGN COUNTRY.—

(1) PREVENTION OF DISCRIMINATORY PRACTICES.—If the President, or the delegate thereof, determines that an act, policy, or practice of a foreign country contiguous to the United States, or any political subdivision or any instrumentality of any such country is unreasonable or discriminatory and burdens or restricts United States transportation companies providing, or seeking to provide, motor carrier transportation to, from, or within such foreign country, the President or such delegate may—

(A) seek elimination of such practices through consultations; or

(B) notwithstanding any other provision of law, suspend, modify, amend, condition, or restrict operations, including geographical restriction of operations, in the United States by motor carriers of property or passengers domiciled in such foreign country or owned or controlled by persons of such foreign country.

(2) EQUALIZATION OF TREATMENT.—Any action taken under paragraph (1)(A) to eliminate an act, policy, or practice shall be so devised so as to equal to the extent possible the bur-
dens or restrictions imposed by such foreign country on United States transportation companies.

(3) REMOVAL OR MODIFICATION.—The President, or the delegate thereof, may remove or modify in whole or in part any action taken under paragraph (1)(A) if the President or such delegate determines that such removal or modification is consistent with the obligations of the United States under a trade agreement or with United States transportation policy.

(4) PROTECTION OF EXISTING OPERATIONS.—Unless and until the President, or the delegate thereof, makes a determination under paragraph (1) or (3), nothing in this subsection shall affect—

(A) operations of motor carriers of property or passengers domiciled in any contiguous foreign country or owned or controlled by persons of any contiguous foreign country permitted in the commercial zones along the United States-Mexico border as such zones were defined on December 31, 1995; or

(B) any existing restrictions on operations of motor carriers of property or passengers domiciled in any contiguous foreign country or owned or controlled by persons of any contiguous foreign country or any modifications thereof pursuant to section 6 of the Bus Regulatory Reform Act of 1982.

(5) PUBLICATION; COMMENT.—Unless the President, or the delegate thereof, determines that expeditious action is required, the President shall publish in the Federal Register any determination under paragraph (1) or (3), together with a description of the facts on which such a determination is based and any proposed action to be taken pursuant to paragraph (1)(B) or (3), and provide an opportunity for public comment.

(6) DELEGATION TO SECRETARY.—The President may delegate any or all authority under this subsection to the Secretary, who shall consult with other agencies as appropriate. In accordance with the directions of the President, the Secretary may issue regulations to enforce this subsection.

(7) CIVIL ACTIONS.—Either the Secretary or the Attorney General may bring a civil action in an appropriate district court of the United States to enforce this subsection or a regulation prescribed or order issued under this subsection. The court may award appropriate relief, including injunctive relief.

(8) LIMITATION ON STATUTORY CONSTRUCTION.—This subsection shall not be construed as affecting the requirement for all foreign motor carriers and foreign motor private carriers operating in the United States to comply with all applicable laws and regulations pertaining to fitness, safety of operations, financial responsibility, and taxes imposed by section 4481 of the Internal Revenue Code of 1986.

(d) TRANSITION RULE.—

(1) IN GENERAL.—Pending the implementation of the rulemaking required by section 13908, the Secretary may register a person under this section—

(A) as a motor common carrier if such person would have been issued a certificate to provide transportation as a motor common carrier under this subtitle on December 31, 1995; and

(B) as a motor contract carrier if such person would have been issued a permit to provide transportation as a motor contract carrier under this subtitle on such day.

(2) DEFINITIONS.—In this subsection, the terms “motor common carrier” and “motor contract carrier” have the meaning such terms had under section 10102 as such section was in effect on December 31, 1995.

(3) TERMINATION.—This subsection shall cease to be in effect on the transition termination date.

(e) PENALTIES FOR FAILURE TO COMPLY WITH REGISTRATION REQUIREMENTS.—In addition to other penalties available under law, motor carriers that fail to register their operations as required by this section or that operate beyond the scope of their registrations may be subject to the following penalties:

(1) OUT-OF-SERVICE ORDERS.—If, upon inspection or investigation, the Secretary determines that a motor carrier providing transportation requiring registration under this section is operating without a registration or beyond the scope of its registration, the Secretary may order the motor carrier operations out-of-service. Subsequent to the issuance of the out-of-service order, the Secretary shall provide an opportunity for review in accordance with section 554 of title 5, United States Code; except that such review shall occur not later than 10 days after issuance of such order.

(2) PENALTY FOR OPERATIONS.—A person domiciled in a country contiguous to the United States with respect to which an action under subsection (c)(1)(A) or (c)(1)(B) is in effect and providing transportation for which registration is required under this section shall maintain evidence of such registration in the motor vehicle when the person is providing the transportation. The Secretary shall not permit the operation in interstate commerce in the United States of any motor vehicle in which there is not a copy of the registration issued pursuant to this section.

person holding a motor carrier certificate of registration redesignated under this paragraph may provide both contract carriage (as defined in section 13102(a)(B)) and transportation under terms and conditions meeting the requirements of section 13710(a)(1). The Secretary may not, pursuant to any regulation or form issued before or after the transition termination date, make any distinction among holders of motor carrier certificates of registration on the basis of whether the holder would have been classified as a common carrier or as a contract carrier under—

(A) subsection (d) of this section, as that section was in effect before the transition termination date; or

(B) any other provision of this title that was in effect before the transition termination date.

(3) TRANSITION TERMINATION DATE DEFINED.—In this section, the term “transition termination date” means the first day of January occurring more than 12 months after the date of enactment of the Unified Carrier Registration Act of 2005.

(g) MOTOR CARRIER DEFINED.—In this section and sections 13905 and 13906, the term “motor carrier” includes foreign motor private carriers.

(h) UPDATE OF REGISTRATION.—

(1) IN GENERAL.—The Secretary shall require a registrant to update its registration under this section not later than 30 days after a change in the registrant’s address, other contact information, officers, process agent, or other essential information, as determined by the Secretary.

(2) MOTOR CARRIERS OF PASSENGERS.—In addition to the requirements of paragraph (1), the Secretary shall require a motor carrier of passengers to update its registration information, including numbers of vehicles, annual mileage, and individuals responsible for compliance with Federal safety regulations quarterly for the first 2 years after being issued a registration under this section.

(i) REGISTRATION AS FREIGHT FORWARDER OR BROKER REQUIRED.—A motor carrier registered under this chapter—

(1) may only provide transportation of property with—

(A) self-propelled motor vehicles owned or leased by the motor carrier; or

(B) interchanges under regulations issued by the Secretary if the originating carrier—

(i) physically transports the cargo at some point; and

(ii) retains liability for the cargo and for payment of interchanged carriers; and

AUTHORITY OF MEXICAN MOTOR CARRIERS TO OPERATE BEYOND UNITED STATES MUNICIPALITIES AND COMMERCIAL ZONES ON UNITED STATES-MEXICO BORDER

“(a) Hereafter, funds limited or appropriated for the Department of Transportation may be obligated or expended to grant authority to a Mexico-domiciled motor carrier to operate beyond United States municipalities and commercial zones on the United States-Mexico border only to the extent that—

“(1) granting such authority is first tested as part of a pilot program;

“(2) such pilot program complies with the requirements of section 350 of Public Law 107–87 [set out below] and the requirements of subsections (b)(1) and (c) of title 49, United States Code, related to pilot programs; and

“(3) simultaneous and comparable authority to operate within Mexico is made available to motor carriers domiciled in the United States.

“(b) Prior to the initiation of the pilot program described in subsection (a) in any fiscal year—

“(1) the Inspector General of the Department of Transportation shall transmit to Congress and the Secretary of Transportation a report verifying compliance with each of the requirements of subsection (a) of section 350 of Public Law 107–87, including whether the Secretary of Transportation has established sufficient mechanisms to apply Federal motor carrier safety laws and regulations to motor carriers domiciled in Mexico that are granted authority to operate beyond the United States municipalities and commercial zones on the United States-Mexico border and to ensure compliance with such laws and regulations; and

“(2) the Secretary of Transportation shall—

“(i) address any issues raised in the report of the Inspector General under subsection (b)(1) and submit a report to Congress detailing such actions; and

“(iv) specific standards to be used to evaluate the pilot program and any change in the level of motor carrier safety as a result of the pilot program; and

“(v) a list of Federal motor carrier safety laws and regulations, including the commercial drivers license requirements, for which the Secretary of Transportation will accept compliance with a corresponding Mexican law or regulation as the equivalent to compliance with the United States law or regulation, including for each law or regulation an analysis as to how the corresponding United States and Mexican laws and regulations differ.

“(c) During and following the pilot program described in subsection (a), the Inspector General of the Department of Transportation shall monitor and review the conduct of the pilot program and submit to Congress and the Secretary of Transportation an interim report, 6 months after the commencement of the pilot program, and a final report, within 60 days after the conclusion of the pilot program. Such reports shall address whether—

“(1) the Secretary of Transportation has established sufficient mechanisms to determine whether the pilot program is having any adverse effects on motor carrier safety;

“(2) Federal and State monitoring and enforcement activities are sufficient to ensure that participants in the pilot program are in compliance with all applicable laws and regulations; and

“(3) the pilot program consists of a representative and adequate sample of Mexico-domiciled carriers likely to engage in cross-border operations beyond United States municipalities and commercial zones on the United States-Mexico border.

“(d) In the event that the Secretary of Transportation in any fiscal year seeks to grant operating authority for the purpose of initiating cross-border operations beyond United States municipalities and commercial zones on the United States-Mexico border either with Mexican-domiciled motor carriers or Mexico-domiciled commercial motor vehicles carrying placardable quantities of hazardous materials, such activities shall be initiated only after the conclusion of a separate pilot program limited to vehicles of the pertinent type. Each such separate pilot program shall follow the same requirements and processes stipulated under subsections (a) through (c) of this section and shall be planned, conducted and evaluated in concert with the Department of Homeland Security or its Inspector General, as appropriate, so as to address any and all security concerns associated with such cross-border operations.”

LIMITED MODIFICATION TO MORATORIUM ON ISSUANCE OF CERTIFICATES OR PERMITS WITH RESPECT TO MEXICO

Memorandum of President of the United States, May 6, 1993, 58 F.R. 27667, provided:

Memorandum for the Secretary of Transportation

Section 6 of the Bus Regulatory Reform Act of 1982 (Pub. L. 97-261, see former 49 U.S.C. 10922(m)(1), (2)) imposed a moratorium on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by persons of, a contiguous foreign country. The Act (Pub. L. 97-261, see Tables for classification) authorized the President to remove the moratorium in whole or in part for any country or political subdivision thereof upon determining that such action is in the national interest. Sixty days’ advance notice to the Congress is required whenever the removal or modification applies to a contiguous foreign country or political subdivision thereof that substantially prohibits the granting of motor carrier authority to persons from the United States.

I am pleased that an agreement between the United States and Mexico has been concluded to ensure fair and reciprocal treatment for charter and tour bus interests on both sides of the border. The agreement reached, however, does not allow for full access to cross-border and domestic markets. Therefore, the moratorium must reflect the conditions under which operating authority may be issued to Mexican charter and tour companies under the agreement.

Pursuant to section 6 of the Bus Regulatory Reform Act of 1982, 49 U.S.C. section 10922(i)(2)(A) [see former 49 U.S.C. 10922(m)(2)(A)], I hereby make a limited modification to the moratorium imposed by that section and all actions taken by my predecessors under that section on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by persons of, a contiguous foreign country.

The moratorium is modified only to authorize the Interstate Commerce Commission to grant Mexican motor carriers authority to transport passengers in charter or special operations, in foreign commerce, in round trip or one-way service between Mexico and the United States pursuant to the following restrictions:

1. The Mexican motor carrier can conduct cross-border charter or special service in the United States only when the international tour or charter begins in Mexico;

2. Tickets or tour packages for such operations cannot be sold in the United States; and

3. The terms of the grants of authority given to Mexican motor carriers will be limited by the life of the agreement with Mexico covering reciprocal cross-border charter and special operations.

This action applies only to international charter and tour operations, does not allow for point-to-point service within the United States, and does not authorize companies to conduct cross-border regular route service. This action preserves the status quo with respect to Mexican trucking companies and Mexican companies engaged in regular route service, and will maintain the moratorium on those operations through September 25, 1994, unless earlier revoked or modified.
Accordingly, you are directed to notify the Congress today on my behalf that, effective 60 days hence, the moratorium will no longer be in effect for Mexican charter and tour bus companies subject to the above-stated conditions. Because of this action, the Interstate Commerce Commission will then accept and process expeditiously all applications for operating authority from Mexican owned, controlled, or domiciled charter and tour bus firms. I should note that applications in Mexico by United States charter and tour bus firms will be similarly treated.

You are hereby authorized and directed to publish this determination in the Federal Register.

WILLIAM J. CLINTON.

Memorandum of President of the United States, Jan. 1, 1994, 59 F.R. 653, provided:

Memorandum for the Secretary of Transportation.

Section 6 of the Bus Regulatory Reform Act of 1982 [Pub. L. 97–261, see former 49 U.S.C. 10922(m)(1), (2)] imposed a moratorium on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by, persons of a contiguous foreign country.

The Act [Pub. L. 97–261, see Tables for classification] authorized the President to remove the moratorium in whole or in part for any country or political subdivision thereof upon determining that such action is in the national interest. Sixty days’ advance notice to the Congress is required whenever the removal or modification applies to a foreign country or political subdivision thereof that substantially prohibits the granting of motor carrier authority to persons from the United States.

As set forth in the Statement of Administrative Action regarding the North American Free Trade Agreement (NAFTA) that I submitted to the Congress on November 3, 1993, the moratorium with respect to Mexico will be lifted in phases to coincide with the schedule of liberalization in the relevant provisions of the NAFTA. The NAFTA specifically states that the moratorium will not apply to the provision of cross-border charter or tour bus services as of the date of entry into force of the Agreement.

This is to give public notice that, pursuant to section 6 of the Bus Regulatory Reform Act of 1982, 49 U.S.C. section 10922(c)(1)(A) [see former 49 U.S.C. 10922(m)(2)(A)], on November 3, 1993, I gave the Congress notice of my intention to make a limited modification to the moratorium imposed by that section and all actions taken by my predecessors under that section on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by, persons of Mexico. This modification will take effect on January 1, 1994, the 60th day after my notice to the Congress.

The moratorium is modified only to authorize the Interstate Commerce Commission to grant Mexican motor carriers authority to transport passengers in charter and tour bus operations, in foreign commerce, in round-trip or one-way service between Mexico and the United States.

This action applies only to international charter or tour bus operations, does not allow for point-to-point bus service within the United States, and does not authorize companies to conduct cross-border regular route bus service.

Effective January 1, 1994, the Interstate Commerce Commission will begin to accept and process expeditiously all applications for operating authority from Mexican-owned, controlled, or domiciled charter and tour bus firms.

This determination shall be published in the Federal Register.

WILLIAM J. CLINTON.

EXTENSION OF MORATORIUM

Memorandum of President of the United States, Mar. 2, 1995, 60 F.R. 12393, provided:

Memorandum for the Secretary of Transportation [and the United States Trade Representative].

Pursuant to section 6 of the Bus Regulatory Reform Act of 1982, 49 U.S.C. 10922(m)(1) and (2) [Pub. L. 97–261, see former 49 U.S.C. 10922(m)(1), (2)], I hereby extend for an additional 2 years both the moratorium imposed by that section and all actions taken by my predecessors under that section on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by persons of Mexico.

This memorandum shall be published in the Federal Register.

WILLIAM J. CLINTON.

Memorandum of President of the United States, June 5, 2001, 66 F.R. 30799, provided:

Memorandum for the Secretary of Transportation.

Section 6 of the Bus Regulatory Reform Act of 1982 [Pub. L. 97–261, see former 49 U.S.C. 10922(m)(1), (2)] imposed a moratorium on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by, persons of Mexico. This modification will take effect on January 1, 1994, the 60th day after my notice to the Congress.

The moratorium is modified only to authorize the Interstate Commerce Commission to grant Mexican motor carriers authority to transport passengers in charter and tour bus operations, in foreign commerce, in round-trip or one-way service between Mexico and the United States. These modifications shall be effective today.

The North American Free Trade Agreement (NAFTA) established a schedule for liberalizing certain restrictions on investment in truck and bus services. Pursuant to 49 U.S.C. 13902(c)(3), I have determined that the following modifications to the moratorium are consistent with obligations of the United States under NAFTA and with U.S. transportation policy, and that the moratorium shall be modified accordingly. First, enterprises domiciled in the United States that are owned or controlled by persons of Mexico will be allowed to obtain operating authority to provide truck services for the transportation of international cargo between points in the United States. Second, enterprises domiciled in the United States that are owned or controlled by persons of Mexico will be allowed to obtain operating authority to provide bus services between points in the United States. These modifications shall be effective today.

Pursuant to 49 U.S.C. 13902(c)(5), I have determined that expeditious action is required to implement these modifications to the moratorium. Effective today, the Department of Transportation will accept and expedi-
States or to provide bus services between points in the United States will be subject to the same Federal and State regulations and procedures that apply to all other U.S. carriers. These include safety regulations, such as drug and alcohol testing; insurance requirements; taxes and fees; and all other applicable laws and regulations, including those administered by the United States Customs Service, the Immigration and Naturalization Service, the Department of Labor, and Federal and State environmental agencies.

You are authorized and directed to publish this memorandum in the Federal Register.

GEORGE W. BUSH.

Memorandum of President of the United States, Nov. 27, 2002.

This memorandum shall be published in the Federal Register.

GEORGE W. BUSH.

Memorandum for the Secretary of Transportation

Section 6 of the Bus Regulatory Reform Act of 1982, Public Law 97–261, 96 Stat. 1103 [see former 49 U.S.C. 10922(b)(1)], imposed a moratorium on the issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by persons of, a contiguous foreign country and authorized the President to modify the moratorium. The Interstate Commerce Commission Termination Act of 1995 (ICCTA), Public Law 104–88, 109 Stat. 803 [ICC Termination Act of 1995, see Tables for classification], maintained these restrictions, subject to modifications made prior to the enactment of the ICCTA [Dec. 29, 1995], and empowered the President to make further modifications to the moratorium.

Pursuant to 49 U.S.C. 13902(c)(1), I modified the moratorium on June 5, 2001, to allow motor carriers domiciled in the United States that are owned or controlled by persons of Mexico to obtain operating authority to transport international cargo by truck between points in the United States and to provide bus services between points in the United States.

The North American Free Trade Agreement (NAFTA) established a schedule for liberalizing certain restrictions on the provision of bus and truck services by Mexican-domiciled motor carriers in the United States. Pursuant to 49 U.S.C. 13902(c)(3), I hereby determine that the following modifications to the moratorium are consistent with obligations of the United States under NAFTA and with our national transportation policy and that the moratorium shall be modified accordingly.

First, qualified motor carriers domiciled in Mexico will be allowed to obtain operating authority to transport passengers in cross-border scheduled bus services. Second, qualified motor carriers domiciled in Mexico will be allowed to obtain operating authority to provide cross-border truck services. §14103. Loading and unloading motor vehicles

(a) Shipper responsible for assisting.—Whenever a shipper or receiver of property requires that any person who owns or operates a motor vehicle transporting property in interstate commerce (whether or not such transportation is subject to jurisdiction under subchapter I of chapter 135) be assisted in the loading or unloading of such vehicle, the shipper or receiver shall be responsible for providing such assistance or shall compensate the owner or operator for all costs associated with securing and compensating the person or persons providing such assistance.

§14104. Household goods carrier operations

(a) General regulatory authority.—

(1) Paperwork minimization.—The Secretary may issue regulations, including regulations protecting individual shippers, in order to carry out this part with respect to the transportation of household goods by motor carriers subject to jurisdiction under subchapter I of chapter 135. The regulations and paperwork required of motor carriers providing transportation of household goods shall be minimized to the maximum extent feasible consistent with the protection of individual shippers.

(2) Performance standards.—

(A) In general.—Regulations of the Secretary protecting individual shippers shall include, where appropriate, reasonable performance standards for the transportation of household goods subject to jurisdiction under subchapter I of chapter 135.

(B) Factors to consider.—In establishing performance standards under this paragraph, the Secretary shall take into account at least the following—

(i) the level of performance that can be achieved by a well-managed motor carrier transporting household goods;
(ii) the degree of harm to individual shippers which could result from a violation of the regulation;
(iii) the need to set the level of performance at a level sufficient to deter abuses which result in harm to consumers and violations of regulations;
(iv) service requirements of the carriers;
(v) the cost of compliance in relation to the consumer benefits to be achieved from such compliance; and
(vi) the need to set the level of performance at a level designed to encourage carriers to offer service responsive to shipper needs.

(3) Limitations on statutory construction.—Nothing in this section shall be construed to limit the Secretary’s authority to require reports from motor carriers providing transportation of household goods or to require such carriers to provide specified infor-
mation to consumers concerning their past performance.

(b) ESTIMATES.—

(1) REQUIRED TO BE IN WRITING.—

(A) IN GENERAL.—Except as otherwise provided in this subsection, every motor carrier providing transportation of household goods described in section 13102(10)(A) as a household goods motor carrier and subject to jurisdiction under subchapter I of chapter 135 shall conduct a physical survey of the household goods to be transported on behalf of a prospective individual shipper and shall provide the shipper with a written estimate of charges for the transportation and all related services.

(B) WAIVER.—A shipper may elect to waive a physical survey under this paragraph by written agreement signed by the shipper before the shipment is loaded. A copy of the waiver agreement must be retained as an addendum to the bill of lading and shall be subject to the same record inspection and preservation requirements of the Secretary as are applicable to bills of lading.

(C) ESTIMATE.—

(i) In general.—Notwithstanding a waiver under subparagraph (B), a carrier’s statement of charges for transportation must be submitted to the shipper in writing and must indicate whether it is binding or nonbinding. The written estimate shall be based on a physical survey of the household goods if the household goods are located within a 50-mile radius of the location of the carrier’s household goods agent preparing the estimate.

(ii) BINDING.—A binding estimate under this paragraph must indicate that the carrier and shipper are bound by such charges. The carrier may impose a charge for providing a written binding estimate.

(iii) NONBINDING.—A nonbinding estimate under this paragraph must indicate that the actual charges will be based upon the actual weight of the individual shipper’s shipment and the carrier’s lawful tariff charges. The carrier may not impose a charge for providing a nonbinding estimate.

(2) OTHER INFORMATION.—At the time that a motor carrier provides the written estimate required by paragraph (1), the motor carrier shall provide the shipper a copy of the Department of Transportation’s publication FMCSA–ESA–03–005 (or its successor publication) entitled “Ready to Move?”. Before the execution of a contract for service, the motor carrier shall provide the shipper copy of the Department of Transportation publication OCE 100, entitled “Your Rights and Responsibilities When You Move” required by section 375.213 of title 49, Code of Federal Regulations (or any successor regulation).

(3) APPLICABILITY OF ANTITRUST LAWS.—Any charge for an estimate of charges provided by a motor carrier to a shipper for transportation of household goods subject to jurisdiction under subchapter I of chapter 135 shall be subject to the antitrust laws, as defined in the first section of the Clayton Act (15 U.S.C. 12).

(c) FLEXIBILITY IN WEIGHING SHIPMENTS.—The Secretary shall issue regulations that provide motor carriers providing transportation of household goods subject to jurisdiction under subchapter I of chapter 135 with the maximum possible flexibility in weighing shipments, consistent with assurance to the shipper of accurate weighing practices. The Secretary shall not prohibit such carriers from backweighing shipments or from basing their charges on the reweigh weights if the shipper observes both the tare and gross weighings (or, prior to such weighings, waives in writing the opportunity to observe such weighings) and such weighings are performed on the same scale.

(1) Application.—Any motor carrier of property may apply to the Board for approval of an agreement or combination with another such carrier to pool or divide traffic or any services or any part of their earnings by filing such agreement or combination with the Board not less than 50 days before its effective date.

(2) Determination of importance and restraint on competition.—Prior to the effective date of the agreement or combination, the Board shall determine whether the agreement or combination is of major transportation importance and whether there is substantial likelihood that the agreement or combination will unduly restrain competition. or of economy in operation and whether it will unduly restrain competition and shall suspend operation of such agreement or combination pending such hearing and final decision thereon. After such hearing, the Board shall indicate to what extent it finds that the agreement or combination will be in the interest of better service to the public or of economy in operation and will not unduly restrain competition and if assented to by all the carriers involved, shall to that extent, approve and authorize the agreement or combination, under such rules and regulations as the Board may issue, and for such consideration between such carriers and upon such terms and conditions as shall be found by the Board to be just and reasonable.

(5) STREAMLINING AND SIMPLIFYING.—The Board shall streamline, simplify, and expedite, to the maximum extent practicable, the process (including any paperwork) for submission and approval of applications under this section for agreements and combinations between motor carriers providing transportation of household goods and their agents.

(d) CONDITIONS.—The Board may impose conditions governing the pooling or division and may approve and authorize payment of a reasonable consideration between the carriers.

(e) STATE PARTICIPATION.—
(1) STATE PLAN.—No State shall be eligible to participate in the unified carrier registration plan or to receive any revenues derived under the UCR agreement, unless the State submits to the Secretary, not later than 3 years after the date of enactment of the Unified Carrier Registration Act of 2005, a plan—

(B) demonstrating that an amount at least equal to the revenue derived by the State from the unified carrier registration agreement shall be used for motor carrier safety programs, enforcement, or the administration of the UCR plan and UCR agreement.

(2) AMENDED PLANS.—A State that submits a plan under this subsection may change the agency designated in the plan by filing an amended plan with the Secretary and the chairperson of the board of directors.

(B) The fees shall be determined by the Secretary based upon the recommendation of the board under subsection (d)(7).

(C) The board shall develop for purposes of charging fees no more than 6 and no less than 4 brackets of carriers (including motor private carriers) based on the size of fleet.

(D) The fee scale shall be progressive in the amount of the fee.

(E) The board may ask the Secretary to adjust the fees within a reasonable range on an annual basis if the revenues derived from the fees—

(ii) exceed those revenues.

(2) DETERMINATION OF OWNERSHIP OR OPERATION.—For purposes of this subsection, a commercial motor vehicle is owned or operated by a motor carrier, motor private carrier, or freight forwarder if the vehicle is registered under Federal law or State law, or both, in the name of the motor carrier, motor private carrier, or freight forwarder or is controlled by the motor carrier, motor private carrier, or freight forwarder under a long term lease during a vehicle registration year.

(3) CALCULATION OF NUMBER OF COMMERCIAL MOTOR VEHICLES OWNED OR OPERATED.—The number of commercial motor vehicles owned or operated by a motor carrier, motor private carrier, or freight forwarder for purposes of paragraph (1) shall be based either on the number of commercial motor vehicles the motor carrier, motor private carrier, or freight forwarder has indicated it operates on its most recently filed MCS–150 or the total number of such vehicles it owned or operated for the 12-month period ending on June 30 of the year immediately prior to the registration year of the Unified Carrier Registration System. A motor carrier may include in the calculation of its fleet size for purposes of paragraph (1) any commercial motor vehicle. (2) A State that collected intrastate registration fees from interstate motor carriers, interstate motor private carriers, or intrastate exempt carriers and complies with subsection (e) is entitled to receive under this section an additional portion of the revenues generated under the UCR agreement equivalent to the revenues it received from such carriers in the last calendar year ending before the date of enactment of the Unified Carrier Registration Act of 2005, as long as the State continues to comply with subsection (e).

(3) States that comply with subsection (e) but did not participate in SSRS during such last registration year shall be entitled under this section to an annual allotment not to exceed $500,000 from the revenues generated under the UCR agreement, as long as the State continues to comply with the provisions of subsection (e).

(4) The amount of revenues generated under the UCR agreement to which a State is entitled under this section shall be calculated by the board and approved by the Secretary.

All revenues a participating State collects in excess of the amount to which the State is so entitled shall be forwarded to the depository designated by the board under subsection (d)(2)(D).

(3) Distribution of Funds from Depository.—The excess funds deposited in the depository shall be distributed by the board of directors as follows:

(A) On a pro rata basis to each participating State that did not collect revenues under the UCR agreement equivalent to the amount such State is entitled under subsection (g), except that the sum of the gross revenues collected under the UCR agreement by a participating State and the amount distributed to it from the depository shall not exceed the amount to which the State is entitled under subsection (g).

(B) After all distributions under subparagraph (A) have been made, to pay the administrative costs of the UCR plan and the UCR agreement.

(4) Retention of Certain Excess Funds.—Any excess funds held by the depository after distributions and payments under paragraphs (3)(A) and (3)(B) shall be retained in the depository, and the fees charged under the UCR agreement to motor carriers, motor private carriers, leasing companies, freight forwarders, and brokers for the next fee year shall be reduced by the Secretary accordingly.

(i) Enforcement.—

(1) Civil Actions.—Upon request by the Secretary, the Attorney General may bring a civil action in the United States district court described in paragraph (2) to enforce an order issued to require compliance with this section and with the terms of the UCR agreement.

(3) Relief.—Subject to section 1341 of title 28, the court, on a proper showing shall issue a temporary restraining order or a preliminary or permanent injunction requiring that the State or any person comply with this section.

(4) Enforcement by States.—Nothing in this section—

(A) prohibits a participating State from issuing citations and imposing reasonable fines and penalties pursuant to the applicable laws and regulations of the State on any motor carrier, motor private carrier, freight forwarder, broker, or lessing company for failure to—

(1) submit information documents as required under subsection (d)(2); or

(ii) pay the fees required under subsection (f); or

(B) authorizes a State to require a motor carrier, motor private carrier, or freight forwarder to display as evidence of compliance any form of identification in excess of those permitted under section 14506 on or in a commercial motor vehicle.

(j) Application to Intrastate Carriers.—Notwithstanding any provision of this section, a State may elect to apply the provisions of the UCR agreement to motor carriers and motor private carriers and freight forwarders subject to its jurisdiction that operate solely in intrastate commerce within the borders of the State.

That carrier and any other carrier that delivers the property and is providing transportation or service subject to jurisdiction under subchapter I or III of chapter 135 may, subject to the provisions of this chapter (including with respect to a motor carrier, the requirements of section 13710(a)), establish rates for the transportation of property (other than household goods described in section 13102(10)(A)) under which the liability of the carrier for such property is limited to a value established by written or electronic declaration of the shipper or by written agreement between the carrier and shipper if that value would be reasonable under the circumstances surrounding the transportation.

(B) CARRIER NOTIFICATION.—If the motor carrier is not required to file its tariff with the Board, it shall provide under section 13710(a)(1) to the shipper, on request of the shipper, a written or electronic copy of the rate, classification, rules, and practices upon which any applicable to a shipment, or agreed to between the shipper and the carrier, is based. The copy provided by the carrier shall clearly state the dates of applicability of the rate, classification, rules, or practices.

(C) PROHIBITION AGAINST COLLECTIVE ESTABLISHMENT.—No discussion, consideration, or approval as to rules to limit liability under this subsection may be undertaken by

(2) FULL VALUE PROTECTION OBLIGATION.—Unless the carrier receives a waiver in writing under paragraph (3), a carrier's maximum liability for household goods that are lost, damaged, destroyed, or otherwise not delivered to the final destination is an amount equal to the replacement value of such goods, subject to a maximum amount equal to the declared value of the shipment and to rules issued by the Surface Transportation Board and applicable tariffs.

(3) APPLICATION OF RATES.—The released rates established by the Board under paragraph (1) (commonly known as “released rates”) shall not apply to the transportation of household goods by a carrier unless the liability of the carrier for the full value of such household goods under paragraph (2) is waived, in writing, by the shipper.

(1) STUDY.—The Secretary shall conduct a study to determine whether any modifications or reforms should be made to the loss and damage provisions of this section, including those related to limitation of liability by carriers.

(2) FACTORS TO CONSIDER.—In conducting the study, the Secretary, at a minimum, shall consider—

(A) the efficient delivery of transportation services;

(B) international and intermodal harmony;

(C) the public interest; and

ability protection provided by motor carriers that provide transportation of household goods and revise such regulations, if necessary, to provide enhanced protection in the case of loss or damage.

"(b) DETERMINATIONS.—The review required by subsection (a) shall include a determination of—

(1) whether the current regulations provide adequate protection;

(2) the benefits of purchase by a shipper of insurance to supplement the carrier's limitations on liability; and

(3) whether there are abuses of the current regulations that leave the shipper unprotected in the event of loss and damage to a shipment of household goods.

For definitions of "carrier", "household goods", "motor carrier", and "transportation" as used in section 4215 of Pub. L. 109–59, set out above, see section 13102 of this title.

§ 14708. Dispute settlement program for household goods carriers

(a) OFFERING SHIPPERS ARBITRATION.—As a condition of registration under section 13802 or 13902, a carrier providing transportation of household goods subject to jurisdiction under subchapter I or III of chapter 135 must agree to offer in accordance with this section to shippers of household goods arbitration as a means of settling disputes between such carriers and shippers of household goods concerning damage or loss to the household goods transported and to determine whether carrier charges, in addition to those collected at delivery, must be paid by shippers for transportation and services related to transportation of household goods.

(b) ARBITRATION REQUIREMENTS.—

(1) PREVENTION OF SPECIAL ADVANTAGE.—The arbitration that is offered must be designed to prevent a carrier from having any special advantage in any case in which the claimant resides or does business at a place distant from the carrier's principal or other place of business.

(2) NOTICE OF ARBITRATION PROCEDURE.—The carrier must provide the shipper an adequate notice of the availability of neutral arbitration, including a concise easy-to-read, accurate summary of the arbitration procedure, any applicable costs, and disclosure of the legal effects of election to utilize arbitration. Such notice must be given to persons for whom household goods are to be transported by the carrier before such goods are tendered to the carrier for transportation.

(3) PROVISION OF FORMS.—Upon request of a shipper, the carrier must promptly provide such forms and other information as are necessary for initiating an action to resolve a dispute under arbitration.

(4) INDEPENDENCE OF ARBITRATOR.—Each person authorized to arbitrate or otherwise settle disputes must be independent of the parties to the dispute and must be capable, as determined under such regulations as the Secretary may issue, to resolve such disputes fairly and expeditiously. The carrier must ensure that each person chosen to settle the disputes is authorized and able to obtain from the shipper or carrier any material and relevant information to the extent necessary to carry out a fair and expedient decisionmaking process.

(5) APPOINTMENT OF COSTS.—No shipper may be charged more than half of the cost for instituting an arbitration proceeding that is brought under this section. In the decision, the arbitrator may determine which party shall pay the cost or a portion of the cost of the arbitration proceeding, including the cost of instituting the proceeding.

(6) REQUESTS.—The carrier must not require the shipper to agree to utilize arbitration prior to the time that a dispute arises. If the dispute involves a claim for $10,000 or less and the shipper requests arbitration, such arbitration shall be binding on the parties. If the dispute involves a claim for more than $10,000 and the shipper requests arbitration, such arbitration shall be binding on the parties only if the carrier agrees to arbitration.

(7) ORAL PRESENTATION OF EVIDENCE.—The arbitrator may provide for an oral presentation of a dispute concerning transportation of household goods by a party to the dispute (or a party's representative), but such oral presentation may be made only if all parties to the dispute expressly agree to such presentation and the date, time, and location of such presentation.

(8) DEADLINE FOR DECISION.—The arbitrator must, as expeditiously as possible but at least
within 60 days of receipt of written notification of the dispute, render a decision based on the information gathered; except that, in any case in which a party to the dispute fails to provide in a timely manner any information containing such dispute which the person settling the dispute may reasonably require to resolve the dispute, the arbitrator may extend such 60-day period for a reasonable period of time. A decision resolving a dispute may include any remedies appropriate under the circumstances, including repair, replacement, refund, reimbursement for expenses, compensation for damages, and an order requiring the payment of additional carrier charges.

(c) LIMITATION ON USE OF MATERIALS.—Materials and information obtained in the course of a decision making process to settle a dispute by arbitration under this section may not be used to bring an action under section 14605.

(d) Court Fees to Shippers.—In any court action to resolve a dispute between a shipper of household goods and a carrier providing transportation or service subject to jurisdiction under subchapter I or III of chapter 135 concerning the transportation of household goods by such carrier, the shipper shall be awarded reasonable attorney’s fees if—

(1) the shipper submits a claim to the carrier within 120 days after the date the shipment is delivered or the date the delivery is scheduled, whichever is later;

(2) the carrier prevails in such court action; and

(3) (A) the shipper was not advised by the carrier during the claim settlement process that a dispute settlement program was available to resolve the dispute;

(B) a decision resolving the dispute was not rendered through arbitration under this section within the period provided under subsection (b)(8) of this section or an extension of such period under such subsection; or

(C) the court proceeding is to enforce a decision rendered through arbitration under this section and is instituted after the period for performance under such decision has elapsed.

(e) Attorney’s Fees to Carriers.—In any court action to resolve a dispute between a shipper of household goods and a carrier providing transportation, or service subject to jurisdiction under subchapter I or III of chapter 135 concerning the transportation of household goods by such carrier, such carrier may be awarded reasonable attorney’s fees by the court only if the shipper brought such action in bad faith—

(1) after resolution of such dispute through arbitration under this section; or

(2) after institution of an arbitration proceeding by the shipper to resolve such dispute under this section but before—

(A) the period provided under subsection (b)(8) for resolution of such dispute (including, if applicable, an extension of such period under such subsection) ends; and

(B) a decision resolving such dispute is rendered.

(f) Limitation of Applicability to Collect-on-Delivery Transportation.—The provisions of this section shall apply only in the case of collect-on-delivery transportation of household goods.

(g) Review by Secretary.—Not later than 18 months after January 1, 1996, the Secretary shall complete a review of the dispute settlement program established under this section. If, after notice and opportunity for comment, the Secretary determines that changes are necessary to such program to ensure the fair and equitable resolution of disputes under this section, the Secretary shall implement such changes and transmit a report to Congress on such changes.
