

terminated by the Secretary of Energy as subject to or exempt from a prohibition under the Act. The conservation rules shall be used to enforce other new ways of achieving the purposes of the Act related to the conservation of petroleum and natural gas.

1-110. In order to assess the effectiveness of this program, each agency shall annually prepare a report on its activities in accord with Section 403(b)(1)(B) of the Act [42 U.S.C. 8373(b)]. These reports shall be submitted to the President through the Secretary of Energy.

1-111. The Secretary of Energy shall prepare for the President's consideration and transmittal to the Congress the report required by Section 403(c) of the Act [42 U.S.C. 8373(c)].

1-112. The Director of the Office of Management and Budget may issue any rules, regulations, or orders he deems necessary to ensure the implementation of this Order. The Director may exercise any of the authority vested in the President by Section 403(b) of the Act [42 U.S.C. 8373(b)], and may redelegate such of that authority as he deems appropriate to the head of any other agency.

JIMMY CARTER.

EXECUTIVE ORDER No. 12217

Ex. Ord. No. 12217, June 18, 1980, 45 F.R. 41623, which established the responsibilities and duties of Executive agencies for compliance with this chapter, was revoked by Ex. Ord. No. 12437, Aug. 11, 1983, 48 F.R. 36801.

§ 8374. Emergency authorities

(a) Coal allocation authority

(1) If the President—

(A) declares a severe energy supply interruption, as defined in section 6202(8) of this title, or

(B) finds, and publishes such finding, that a national or regional fuel supply shortage exists or may exist which the President determines—

(i) is, or is likely to be, of significant scope and duration, and of an emergency nature;

(ii) causes, or may cause, major adverse impact on public health, safety, or welfare or on the economy; and

(iii) results, or is likely to result, from an interruption in the supply of coal or from sabotage, or an act of God;

the President may, by order, allocate coal (and require the transportation thereof) for the use of any electric powerplant or major fuel-burning installation, in accordance with such terms and conditions as he may prescribe, to insure reliability of electric service or prevent unemployment, or protect public health, safety, or welfare.

(2) For purposes of this subsection, the term "coal" means anthracite and bituminous coal and lignite (but does not mean any fuel derivative thereof).

(b) Emergency prohibition on use of natural gas or petroleum

If the President declares a severe energy supply interruption, as defined in section 6202(8) of this title, the President may, by order, prohibit any electric powerplant or major fuel-burning installation from using natural gas or petroleum, or both, as a primary energy source for the duration of such interruption. Notwithstanding any other provision of this section, any suspension of emission limitations or other requirements of applicable implementation plans,

as defined in section 7410(d)¹ of this title, required by such prohibition shall be issued only in accordance with section 7410(f) of this title.

(c) Emergency stays

The President may, by order, stay the application of any provision of this chapter, or any rule or order thereunder, applicable to any new or existing electric powerplant, if the President finds, and publishes such finding, that an emergency exists, due to national, regional, or systemwide shortages of coal or other alternate fuels, or disruption of transportation facilities, which emergency is likely to affect reliability of service of any such electric powerplant.

(d) Duration of emergency orders

(1) Except as provided in paragraph (3), any order issued by the President under this section shall not be effective for longer than the duration of the interruption or emergency, or 90 days, whichever is less.

(2) Any such order may be extended by a subsequent order which the President shall transmit to the Congress in accordance with section 6421 of this title. Such order shall be subject to congressional review pursuant to such section.

(3) Notwithstanding paragraph (1), the effectiveness of any order issued under this section shall not terminate under this subsection during the 15-calendar-day period during which any such subsequent order described in paragraph (2) is subject to congressional review under section 6421 of this title.

(4) For purposes of this subsection, the provisions of this subsection supersede the provisions of subchapter II of chapter 34 of title 50.

(e) Delegation of authority prohibited

The authority of the President to issue any order under this section may not be delegated. This subsection shall not be construed to prevent the President from directing any Federal agency to issue rules or regulations or take such other action, consistent with this section, in the implementation of such order.

(f) Publication and reports to Congress of orders

Any order issued under this section shall be published in the Federal Register. To the greatest extent practicable, the President shall, before issuing any order under this section, but in no event later than 5 days after issuing such order, report to the Congress of his intention to issue such order and state his reasons therefor.

(Pub. L. 95-620, title IV, §404, Nov. 9, 1978, 92 Stat. 3319; Pub. L. 100-42, §1(c)(15), May 21, 1987, 101 Stat. 313.)

REFERENCES IN TEXT

Section 7410(d) of this title, referred to in subsec. (b), was repealed by Pub. L. 101-549, title I, §101(d)(4), Nov. 15, 1990, 104 Stat. 2409.

This chapter, referred to in subsec. (c), was in the original "this Act", meaning Pub. L. 95-620, Nov. 9, 1978, 92 Stat. 3289, known as the Powerplant and Industrial Fuel Use Act of 1978, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 8301 of this title and Tables.

Subchapter II (§1621 et seq.) of chapter 34 of title 50, referred to in subsec. (d)(4), was in the original "title II

of the Act of September 14, 1976 (Public Law 94-412)", which is known as the National Emergencies Act.

AMENDMENTS

1987—Subsec. (g). Pub. L. 100-42 struck out subsec. (g) which permitted use of natural gas or petroleum as primary energy source in peakload powerplant or major fuel-burning installation during temporary emergency condition (other than emergency conditions provided for under section 8302(a)(15) of this title).

§ 8375. Repealed. Pub. L. 100-42, § 1(a)(5), May 21, 1987, 101 Stat. 310

Section, Pub. L. 95-620, title IV, § 405, Nov. 9, 1978, 92 Stat. 3320, prohibited increased use of petroleum as primary energy source in existing electric powerplants which, during calendar year 1977, used coal or another alternate fuel as primary energy source, unless permit authorizing such increased use had been issued by Secretary.

SUBCHAPTER V—SYSTEM COMPLIANCE OPTION

§ 8391. Repealed. Pub. L. 100-42, § 1(a)(6), May 21, 1987, 101 Stat. 310

Section, Pub. L. 95-620, title V, § 501, Nov. 9, 1978, 92 Stat. 3321, mandated that existing electric powerplants owned or operated by an electric utility be considered in compliance with prohibitions under subchapter III of this chapter relating to use of natural gas if there is in effect an approved plan of system compliance for such utility, and set forth requirements for approval of such plan.

SUBCHAPTER VI—FINANCIAL ASSISTANCE

§ 8401. Assistance to areas impacted by increased coal or uranium production

(a) Designation of impacted areas

(1) In accordance with such criteria and guidelines as the Secretary of Agriculture shall, by rule, prescribe, the Governor of any State may designate any area within such State for the purposes of this section, if he finds that—

(A) either (i) employment in coal or uranium production development activities in such area has increased for the most recent calendar year by 8 percent or more from the immediately preceding year or (ii) employment in such activities will increase 8 percent or more per year during each of the 3 calendar years beginning after the date of such finding;

(B) such employment increase has required or will require substantial increases in housing or public facilities and services or a combination of both in such area; and

(C) the State and the local government or governments serving such area lack the financial and other resources to meet any such increases in public facilities and services within a reasonable time.

The Secretary of Agriculture shall prescribe a rule containing criteria and guidelines for making a designation under this subsection, after consultation with the Secretary of Labor and the Secretary of Energy, not later than 180 days after the effective date of this chapter.

(2) For purposes of paragraph (1)(C), increased revenues, including severance tax revenues, royalties, and similar fees to the State and local governments which are associated with the in-

crease in coal or uranium development activities and which are not prohibited from being used under provisions of law in effect on November 9, 1978, shall be taken into account in determining if a State or local government lacks financial resources.

(3) The Secretary shall, after consultation with the Secretary of Agriculture, approve any designation of an area under paragraph (1) only if—

(A) the Governor of the State making the designation provides the Secretary in writing with the data and information on which such designation was made, together with such additional information as the Secretary may require to carry out the purposes of this section; and

(B) the Secretary determines that the requirements of subparagraphs (A), (B), and (C) of paragraph (1) have been met.

(b) Planning grants

(1) The Secretary of Agriculture may make a grant to any State in which there is an area designated and approved under subsection (a) for the purposes of developing a plan for such area which shall include determinations of—

(A) the anticipated level of coal or uranium production activities in such area;

(B) the socio-economic impacts which have occurred or which are reasonably projected to occur as a result of the increase in coal or uranium production activities;

(C) the availability and location of resources within such area to meet the increased needs resulting from socio-economic impacts determined under subparagraph (B) (such as any increased need for housing, or public facilities and services); and

(D) the nature and expense of measures necessary to meet within a reasonable time the increased needs resulting from such impact for which there are no resources reasonably available other than under this section.

(2)(A) Any grant for developing a plan under this subsection shall be for an amount equal to 100 percent of the costs of such plan, as determined by the Secretary of Agriculture.

(B) The aggregate amount granted under this subsection in any fiscal year may not exceed 10 percent of the total amount appropriated for purposes of this section for such year.

(3) The Governor of a State receiving a grant under this subsection for developing a plan shall submit a copy of such plan to the Secretary of Agriculture as soon as practicable after it has been prepared.

(c) Land acquisition and development grants

(1) In the case of any real property—

(A) within an area for which a plan meeting the requirements of subsection (b)(1) has been approved;

(B) which is for housing or public facilities determined in such plan as necessary due to an increase in employment due to coal or uranium development activities;

(C) with respect to which the Secretary of Agriculture has determined that the State and the local governments serving such area do not have the financial resources to acquire or
