

## CHANGE OF NAME

“United States magistrate judges” substituted for “United States magistrates” in subsec. (c) pursuant to section 321 of Pub. L. 101-650, set out as a note under section 631 of Title 28, Judiciary and Judicial Procedure.

## EFFECTIVE DATE

Section effective upon the expiration of the sixty-day period following Oct. 21, 1972, see section 4 of Pub. L. 92-522, set out as a note under section 1361 of this title.

## TRANSFER OF FUNCTIONS

“Director of the Office of Personnel Management” substituted for “Civil Service Commission” in subsec. (b) pursuant to Reorg. Plan No. 2 of 1978, §102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred functions vested by statute in Civil Service Commission to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1-102 of Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

**§ 1378. International program****(a) Duties of Secretary**

The Secretary, through the Secretary of State, shall—

(1) initiate negotiations as soon as possible for the development of bilateral or multilateral agreements with other nations for the protection and conservation of all marine mammals covered by this chapter;

(2) initiate—

(A) negotiations as soon as possible with all foreign governments which are engaged in, or which have persons or companies engaged in, commercial fishing operations which are found by the Secretary to be unduly harmful to any species or population stock of marine mammal, for the purpose of entering into bilateral and multilateral treaties with such countries to protect marine mammals, with the Secretary of State to prepare a draft agenda relating to this matter for discussion at appropriate international meetings and forums;

(B) discussions with foreign governments whose vessels harvest yellowfin tuna with purse seines in the eastern tropical Pacific Ocean, for the purpose of concluding, through the Inter-American Tropical Tuna Commission or such other bilateral or multilateral institutions as may be appropriate, international arrangements for the conservation of marine mammals taken incidentally in the course of harvesting such tuna, which should include provisions for (i) cooperative research into alternative methods of locating and catching yellowfin tuna which do not involve the taking of marine mammals, (ii) cooperative research on the status of affected marine mammal population stocks, (iii) reliable monitoring of the number, rate, and species of marine mammals taken by vessels of harvesting nations, (iv) limitations on incidental take levels based upon the best scientific information available, and (v) the use of the best marine mammal safety techniques and equipment that are economically and technologically

practicable to reduce the incidental kill and serious injury of marine mammals to insignificant levels approaching a zero mortality and serious injury rate;

(C) negotiations to revise the Convention for the Establishment of an Inter-American Tropical Tuna Commission (1 U.S.T. 230; TIAS 2044) which will incorporate—

(i) the conservation and management provisions agreed to by the nations which have signed the Declaration of Panama and in the Straddling Fish Stocks and Highly Migratory Fish Stocks Agreement, as opened for signature on December 4, 1995; and

(ii) a revised schedule of annual contributions to the expenses of the Inter-American Tropical Tuna Commission that is equitable to participating nations; and

(D) discussions with those countries participating, or likely to participate, in the International Dolphin Conservation Program, for the purpose of identifying sources of funds needed for research and other measures promoting effective protection of dolphins, other marine species, and the marine ecosystem;

(3) encourage such other agreements to promote the purposes of this chapter with other nations for the protection of specific ocean and land regions which are of special significance to the health and stability of marine mammals;

(4) initiate the amendment of any existing international treaty for the protection and conservation of any species of marine mammal to which the United States is a party in order to make such treaty consistent with the purposes and policies of this chapter;

(5) seek the convening of an international ministerial meeting on marine mammals before July 1, 1973, for the purposes of (A) the negotiation of a binding international convention for the protection and conservation of all marine mammals, and (B) the implementation of paragraph (3) of this section; and

(6) provide to the Congress by not later than one year after October 21, 1972, a full report on the results of his efforts under this section.

**(b) Consultations and studies concerning North Pacific fur seals**

(1) In addition to the foregoing, the Secretary shall—

(A) in consultation with the Marine Mammal Commission established by section 1401 of this title, undertake a study of the North Pacific fur seals to determine whether herds of such seals subject to the jurisdiction of the United States are presently at their optimum sustainable population and what population trends are evident; and

(B) in consultation with the Secretary of State, promptly undertake a comprehensive study of the provisions of this chapter, as they relate to North Pacific fur seals, and the provisions of the North Pacific Fur Seal Convention signed on February 9, 1957, as extended (hereafter referred to in this subsection as the “Convention”), to determine what modifica-

tions, if any, should be made to the provisions of the Convention, or of this chapter, or both, to make the Convention and this chapter consistent with each other.

The Secretary shall complete the studies required under this paragraph not later than one year after October 21, 1972, and shall immediately provide copies thereof to Congress.

(2) If the Secretary finds—

(A) as a result of the study required under paragraph (1)(A) of this subsection, that the North Pacific fur seal herds are below their optimum sustainable population and are not trending upward toward such level, or have reached their optimum sustainable population but are commencing a downward trend, and believes the herds to be in danger of depletion; or

(B) as a result of the study required under paragraph (1)(B) of this subsection, that modifications of the Convention are desirable to make it and this chapter consistent;

he shall, through the Secretary of State, immediately initiate negotiations to modify the Convention so as to (i) reduce or halt the taking of seals to the extent required to assure that such herds attain and remain at their optimum sustainable population, or (ii) make the Convention and this chapter consistent; or both, as the case may be. If negotiations to so modify the Convention are unsuccessful, the Secretary shall, through the Secretary of State, take such steps as may be necessary to continue the existing Convention beyond its present termination date so as to continue to protect and conserve the North Pacific fur seals and to prevent a return to pelagic sealing.

**(c) Description of annual results of discussions; proposals for further action**

The Secretary shall include a description of the annual results of discussions initiated and conducted pursuant to subsection (a)(2)(B), as well as any proposals for further action to achieve the purposes of that subsection, in the report required under section 1373(f) of this title.

(Pub. L. 92-522, title I, §108, Oct. 21, 1972, 86 Stat. 1038; Pub. L. 100-711, §4(b), (c), Nov. 23, 1988, 102 Stat. 4766, 4767; Pub. L. 105-42, §4(e), Aug. 15, 1997, 111 Stat. 1125.)

AMENDMENTS

1997—Subsecs. (a)(2)(C), (D). Pub. L. 105-42 added subpars. (C) and (D).

1988—Subsec. (a)(2). Pub. L. 100-711, §4(b), amended par. (2) generally. Prior to amendment, par. (2) read as follows: “initiate negotiations as soon as possible with all foreign governments which are engaged in, or which have persons or companies engaged in, commercial fishing operations which are found by the Secretary to be unduly harmful to any species of marine mammal, for the purpose of entering into bilateral and multilateral treaties with such countries to protect marine mammals. The Secretary of State shall prepare a draft agenda relating to this matter for discussion at appropriate international meetings and forums;”.

Subsec. (c). Pub. L. 100-711, §4(c), added subsec. (c).

EFFECTIVE DATE OF 1997 AMENDMENT

For effective date of amendment by Pub. L. 105-42, see section 8 of Pub. L. 105-42, set out as a note under section 1362 of this title.

EFFECTIVE DATE

Section effective upon the expiration of the sixty-day period following Oct. 21, 1972, see section 4 of Pub. L. 92-522, set out as a note under section 1361 of this title.

**§ 1379. Transfer of management authority**

**(a) State enforcement of State laws or regulations prohibited without transfer to State of management authority by Secretary**

No State may enforce, or attempt to enforce, any State law or regulation relating to the taking of any species (which term for purposes of this section includes any population stock) of marine mammal within the State unless the Secretary has transferred authority for the conservation and management of that species (hereinafter referred to in this section as “management authority”) to the State under subsection (b)(1).

**(b) Findings prerequisite to transfer of authority; State program; implementation**

(1) Subject to paragraph (2) and subsection (f) of this section, the Secretary shall transfer management authority for a species of marine mammal to a State if the Secretary finds, after notice and opportunity for public comment, that the State has developed and will implement a program for the conservation and management of the species that—

(A) is consistent with the purposes, policies, and goals of this chapter and with international treaty obligations;

(B) requires that all taking of the species be humane;

(C) does not permit the taking of the species unless and until—

(i) the State has determined, under a process consistent with the standards set forth in subsection (c)—

(I) that the species is at its optimum sustainable population (hereinafter in this section referred to as “OSP”), and

(II) the maximum number of animals of that species that may be taken without reducing the species below its OSP, and

(ii) the determination required under clause (i) is final and implemented under State law, and, if a cooperative allocation agreement for the species is required under subsection (d)(1), such an agreement is implemented;

(D) does not permit the taking of a number of animals of the species that exceeds the maximum number determined pursuant to subparagraph (C)(i)(II), and, in the case of taking for subsistence uses (as defined in subsection (f)(2)), does not permit the taking of a number of animals that would be inconsistent with the maintenance of the species at its OSP;

(E) does not permit the taking of the species for scientific research, public display, or enhancing the survival or recovery of a species or stock, except for taking for such purposes that is undertaken by, or on behalf of, the State;

(F) provides procedures for acquiring data, and evaluating such data and other new evidence, relating to the OSP of the species, and
