GENERAL PROVISIONS

§ 701. Findings; purpose; policy

(a) Findings

Congress finds that—

(1) millions of Americans have one or more physical or mental disabilities and the number of Americans with such disabilities is increasing;

(2) individuals with disabilities constitute one of the most disadvantaged groups in society;

(3) disability is a natural part of the human experience and in no way diminishes the right of individuals to—

- (A) live independently;
- (B) enjoy self-determination;
- (C) make choices;
- (D) contribute to society;
- (E) pursue meaningful careers; and

(F) enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of American society;

(4) increased employment of individuals with disabilities can be achieved through implementation of statewide workforce development systems defined in section 3102 of this title that provide meaningful and effective participation for individuals with disabilities in workforce investment activities and activities carried out under the vocational rehabilitation program established under subchapter I, and through the provision of independent living services, support services, and meaningful opportunities for employment in integrated work settings through the provision of reasonable accommodations;

(5) individuals with disabilities continually encounter various forms of discrimination in such critical areas as employment, housing, public accommodations, education, transportation, communication, recreation, institutionalization, health services, voting, and public services;

(6) the goals of the Nation properly include the goal of providing individuals with disabilities with the tools necessary to—

(A) make informed choices and decisions; and

(B) achieve equality of opportunity, full inclusion and integration in society, employment, independent living, and economic and social self-sufficiency, for such individuals; and

(7)(A) a high proportion of students with disabilities is leaving secondary education without being employed in competitive integrated employment, or being enrolled in postsecondary education; and

(B) there is a substantial need to support such students as they transition from school to postsecondary life.

(b) Purpose

The purposes of this chapter are—

(1) to empower individuals with disabilities to maximize employment, economic self-sufficiency, independence, and inclusion and integration into society, through—

(A) statewide workforce development systems defined in section 3102 of this title that include, as integral components, comprehensive and coordinated state-of-the-art programs of vocational rehabilitation;

(B) independent living centers and services;

(C) research;

(D) training;

(E) demonstration projects; and

(F) the guarantee of equal opportunity;

(2) to maximize opportunities for individuals with disabilities, including individuals with significant disabilities, for competitive integrated employment;

(3) to ensure that the Federal Government plays a leadership role in promoting the employment of individuals with disabilities, especially individuals with significant disabilities, and in assisting States and providers of services in fulfilling the aspirations of such individuals with disabilities for meaningful and gainful employment and independent living;

(4) to increase employment opportunities and employment outcomes for individuals with disabilities, including through encouraging meaningful input by employers and vocational rehabilitation service providers on successful and prospective employment and placement strategies; and

(5) to ensure, to the greatest extent possible, that youth with disabilities and students with disabilities who are transitioning from receipt of special education services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) and receipt of services under section 794 of this title have opportunities for postsecondary success.

(c) Policy

It is the policy of the United States that all programs, projects, and activities receiving assistance under this chapter shall be carried out in a manner consistent with the principles of—

(1) respect for individual dignity, personal responsibility, self-determination, and pursuit of meaningful careers, based on informed choice, of individuals with disabilities;

(2) respect for the privacy, rights, and equal access (including the use of accessible formats), of the individuals;

(3) inclusion, integration, and full participation of the individuals;

(4) support for the involvement of an individual's representative if an individual with a disability requests, desires, or needs such support; and

(5) support for individual and systemic advocacy and community involvement.

§ 718. Traditionally underserved populations

(a) Findings

With respect to the programs authorized in subchapters II through VII, the Congress finds as follows:

(1) Racial profile

The demographic profile of America is rapidly changing. While the percentage increase from 2000 to 2010 for white Americans was 9.7 percent, the percentage increase for racial and ethnic minorities was much higher: 43.0 percent for Latinos, 12.3 percent for African-Americans, and 43.2 percent for Asian-Americans.

(2) Rate of disability

Ethnic and racial minorities tend to have disabling conditions at a disproportionately high rate. In 2011—

(A) among Americans ages 16 through 64, the rate of disability was 12.1 percent;

(B) among African-Americans in that age range, the disability rate was more than twice as high, at 27.1 percent; and

(C) for American Indians and Alaska Natives in the same age range, the disability rate was also more than twice as high, at 27.0 percent.

(3) Inequitable treatment

Patterns of inequitable treatment of minorities have been documented in all major junctures of the vocational rehabilitation process. As compared to white Americans, a larger percentage of African-American applicants to the vocational rehabilitation system is denied acceptance. Of applicants accepted for service, a larger percentage of African-American cases is closed without being rehabilitated. Minorities are provided less training than their white counterparts. Consistently, less money is spent on minorities than on their white counterparts.

(4) Recruitment

Recruitment efforts within vocational rehabilitation at the level of preservice training, continuing education, and in-service training must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of vocational rehabilitation.

(b) Outreach to minorities

(1) In general

For each fiscal year, the Commissioner and the Director of the National Institute on Dis-

ability, Independent Living, and Rehabilitation Research (referred to in this subsection as the “Director”) shall reserve 1 percent of the funds appropriated for the fiscal year for programs authorized under subchapters II, III, VI, and VII to carry out this subsection. The Commissioner and the Director shall use the reserved funds to carry out one or more of the activities described in paragraph (2) through a grant, contract, or cooperative agreement.

(2) Activities

The activities carried out by the Commissioner and the Director shall include one or more of the following:

(A) Making awards to minority entities and Indian tribes to carry out activities under the programs authorized under subchapters II, III, VI, and VII.

(B) Making awards to minority entities and Indian tribes to conduct research, training, technical assistance, or a related activity, to improve services provided under this chapter, especially services provided to individuals from minority backgrounds.

(C) Making awards to entities described in paragraph (3) to provide outreach and technical assistance to minority entities and Indian tribes to promote their participation in activities funded under this chapter, including assistance to enhance their capacity to carry out such activities.

(3) Eligibility

To be eligible to receive an award under paragraph (2)(C), an entity shall be a State or a public or private nonprofit agency or organization, such as an institution of higher education or an Indian tribe.

(4) Report

In each fiscal year, the Commissioner and the Director shall prepare and submit to Congress a report that describes the activities funded under this subsection for the preceding fiscal year.

(5) Definitions

In this subsection:

(A) Historically Black college or university

The term “historically Black college or university” means a part B institution, as defined in section 1061(2) of title 20.

(B) Minority entity

The term “minority entity” means an entity that is a historically Black college or university, a Hispanic-serving institution of higher education, an American Indian tribal college or university, or another institution of higher education whose minority student enrollment is at least 50 percent.

(c) Demonstration

In awarding grants, or entering into contracts or cooperative agreements under subchapters I, II, III, VI, and VII of this chapter, and section 794e of this title, the Commissioner and the Director of the National Institute on Disability, Independent Living, and Rehabilitation Research, in appropriate cases, shall require applicants to demonstrate how the applicants will

address, in whole or in part, the needs of individuals with disabilities from minority backgrounds.
