

(Pub. L. 109-58, title I, §141, Aug. 8, 2005, 119 Stat. 648.)

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (a), is Pub. L. 94-163, Dec. 22, 1975, 89 Stat. 871, as amended, which is classified principally to chapter 77 (§6201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

PART D—PUBLIC HOUSING

§ 15841. Energy-efficient appliances

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 8259b of this title, unless the purchase of energy-efficient appliances is not cost-effective to the agency.

(Pub. L. 109-58, title I, §152, Aug. 8, 2005, 119 Stat. 649.)

§ 15842. Energy strategy for HUD

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after August 8, 2005, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall submit an update every 2 years thereafter on progress in implementing the strategy.

(Pub. L. 109-58, title I, §154, Aug. 8, 2005, 119 Stat. 650.)

SUBCHAPTER II—RENEWABLE ENERGY

PART A—GENERAL PROVISIONS

§ 15851. Assessment of renewable energy resources

(a) Resource assessment

Not later than 6 months after August 8, 2005, and each year thereafter, the Secretary shall review the available assessments of renewable energy resources within the United States, including solar, wind, biomass, ocean (including tidal, wave, current, and thermal), geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies, and other relevant factors.

(b) Contents of reports

Not later than 1 year after August 8, 2005, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

- (1) a detailed inventory describing the available amount and characteristics of the renewable energy resources; and

- (2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) Authorization of appropriations

For the purposes of this section, there are authorized to be appropriated to the Secretary \$10,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109-58, title II, §201, Aug. 8, 2005, 119 Stat. 650.)

§ 15852. Federal purchase requirement

(a) Requirement

The President, acting through the Secretary, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

- (1) Not less than 3 percent in fiscal years 2007 through 2009.
- (2) Not less than 5 percent in fiscal years 2010 through 2012.
- (3) Not less than 7.5 percent in fiscal year 2013 and each fiscal year thereafter.

(b) Definitions

In this section:

(1) Biomass

The term “biomass” means any lignin waste material that is segregated from other waste materials and is determined to be nonhazardous by the Administrator of the Environmental Protection Agency and any solid, non-hazardous, cellulosic material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) Renewable energy

The term “renewable energy” means electric energy generated from solar, wind, biomass,

landfill gas, ocean (including tidal, wave, current, and thermal), geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project.

(c) Calculation

For purposes of determining compliance with the requirement of this section, the amount of renewable energy shall be doubled if—

- (1) the renewable energy is produced and used on-site at a Federal facility;
- (2) the renewable energy is produced on Federal lands and used at a Federal facility; or
- (3) the renewable energy is produced on Indian land as defined in title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) and used at a Federal facility.

(d) Report

Not later than April 15, 2007, and every 2 years thereafter, the Secretary shall provide a report to Congress on the progress of the Federal Government in meeting the goals established by this section.

(Pub. L. 109–58, title II, §203, Aug. 8, 2005, 119 Stat. 652.)

REFERENCES IN TEXT

The Energy Policy Act of 1992, referred to in subsec. (c)(3), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, as amended. Title XXVI of the Act is classified generally to chapter 37 (§3501 et seq.) of Title 25, Indians. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

FEDERAL LEADERSHIP ON ENERGY MANAGEMENT

Memorandum of President of the United States, Dec. 5, 2013, 78 F.R. 75209, which set a renewable energy target and building performance and energy management requirements for Federal agencies, was revoked by Ex. Ord. No. 13693, §16(b), Mar. 19, 2015, 80 F.R. 15880, formerly set out in a note under section 4321 of this title.

§ 15853. Rebate program

(1) Establishment

The Secretary shall establish a program providing rebates for consumers for expenditures made for the installation of a renewable energy system in connection with a dwelling unit or small business.

(2) Amount of rebate

Rebates provided under the program established under paragraph (1) shall be in an amount not to exceed the lesser of—

- (A) 25 percent of the expenditures described in paragraph (1) made by the consumer; or
- (B) \$3,000.

(3) Definition

For purposes of this section, the term “renewable energy system” has the meaning given that term in section 6865(c)(6)(A) of this title.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, to remain available until expended—

- (A) \$150,000,000 for fiscal year 2006;
- (B) \$150,000,000 for fiscal year 2007;

- (C) \$200,000,000 for fiscal year 2008;
- (D) \$250,000,000 for fiscal year 2009; and
- (E) \$250,000,000 for fiscal year 2010.

(Pub. L. 109–58, title II, §206(c), Aug. 8, 2005, 119 Stat. 655.)

§ 15854. Sugar Cane Ethanol Program

(a) Definition of program

In this section, the term “program” means the Sugar Cane Ethanol Program established by subsection (b).

(b) Establishment

There is established within the Environmental Protection Agency a program to be known as the “Sugar Cane Ethanol Program”.

(c) Project

(1) In general

Subject to the availability of appropriations under subsection (d), in carrying out the program, the Administrator of the Environmental Protection Agency shall establish a project that is—

- (A) carried out in multiple States—
 - (i) in each of which is produced cane sugar that is eligible for loans under section 7272 of title 7, or a similar subsequent authority; and
 - (ii) at the option of each such State, that have an incentive program that requires the use of ethanol in the State; and
- (B) designed to study the production of ethanol from cane sugar, sugarcane, and sugarcane byproducts.

(2) Requirements

A project described in paragraph (1) shall—

- (A) be limited to sugar producers and the production of ethanol in the States of Florida, Louisiana, Texas, and Hawaii, divided equally among the States, to demonstrate that the process may be applicable to cane sugar, sugarcane, and sugarcane byproducts;
- (B) include information on the ways in which the scale of production may be replicated once the sugar cane industry has located sites for, and constructed, ethanol production facilities; and
- (C) not last more than 3 years.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section \$36,000,000, to remain available until expended.

(Pub. L. 109–58, title II, §208, Aug. 8, 2005, 119 Stat. 656.)

§ 15855. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes

(a) Definitions

In this section:

(1) Biomass

The term “biomass” means nonmerchantable materials or precommercial thinnings that are byproducts of preventive treatments, such as trees, wood, brush, thinnings, chips, and slash, that are removed—
