

(4)(A) Any order issued under this subsection shall state with reasonable specificity the nature of the violation and may specify a reasonable time for compliance.

(B) In assessing any civil penalty under this subsection, the Administrator shall take into account appropriate factors, including (i) the seriousness of the violation; (ii) the economic benefit (if any) resulting from the violation; (iii) any history of such violations; (iv) any good-faith efforts to comply with the applicable requirements; (v) the economic impact of the penalty on the violator; and (vi) such other matters as justice may require.

(5) Any violation with respect to which the Administrator has commenced and is diligently prosecuting an action, or has issued an order under this subsection assessing a penalty, shall not be subject to an action under subsection (b) of this section or section 300h-3(c) or 300j-8 of this title, except that the foregoing limitation on civil actions under section 300j-8 of this title shall not apply with respect to any violation for which—

(A) a civil action under section 300j-8(a)(1) of this title has been filed prior to commencement of an action under this subsection, or

(B) a notice of violation under section 300j-8(b)(1) of this title has been given before commencement of an action under this subsection and an action under section 300j-8(a)(1) of this title is filed before 120 days after such notice is given.

(6) Any person against whom an order is issued or who commented on a proposed order pursuant to paragraph (3) may file an appeal of such order with the United States District Court for the District of Columbia or the district in which the violation is alleged to have occurred. Such an appeal may only be filed within the 30-day period beginning on the date the order is issued. Appellant shall simultaneously send a copy of the appeal by certified mail to the Administrator and to the Attorney General. The Administrator shall promptly file in such court a certified copy of the record on which such order was imposed. The district court shall not set aside or remand such order unless there is not substantial evidence on the record, taken as a whole, to support the finding of a violation or, unless the Administrator's assessment of penalty or requirement for compliance constitutes an abuse of discretion. The district court shall not impose additional civil penalties for the same violation unless the Administrator's assessment of a penalty constitutes an abuse of discretion. Notwithstanding section 300j-7(a)(2) of this title, any order issued under paragraph (3) shall be subject to judicial review exclusively under this paragraph.

(7) If any person fails to pay an assessment of a civil penalty—

(A) after the order becomes effective under paragraph (3), or

(B) after a court, in an action brought under paragraph (6), has entered a final judgment in favor of the Administrator,

the Administrator may request the Attorney General to bring a civil action in an appropriate district court to recover the amount assessed

(plus costs, attorneys' fees, and interest at currently prevailing rates from the date the order is effective or the date of such final judgment, as the case may be). In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review.

(8) The Administrator may, in connection with administrative proceedings under this subsection, issue subpoenas compelling the attendance and testimony of witnesses and subpoenas duces tecum, and may request the Attorney General to bring an action to enforce any subpoena under this section. The district courts shall have jurisdiction to enforce such subpoenas and impose sanction.

(d) State authority to adopt or enforce laws or regulations respecting underground injection unaffected

Nothing in this subchapter shall diminish any authority of a State or political subdivision to adopt or enforce any law or regulation respecting underground injection but no such law or regulation shall relieve any person of any requirement otherwise applicable under this subchapter.

(July 1, 1944, ch. 373, title XIV, §1423, as added Pub. L. 93-523, §2(a), Dec. 16, 1974, 88 Stat. 1677; amended Pub. L. 96-502, §2(b), Dec. 5, 1980, 94 Stat. 2738; Pub. L. 99-339, title II, §202, June 19, 1986, 100 Stat. 654.)

AMENDMENTS

1986—Pub. L. 99-339, §202(d), substituted "Enforcement" for "Failure of State to assure enforcement" in section catchline.

Subsec. (a)(1). Pub. L. 99-339, §202(a)(1), substituted provisions which related to issuance of an order of compliance or commencement of a civil action by the Administrator if the State has not commenced enforcement against the violator for provisions directing the Administrator to give public notice and request that the State report within 15 days thereafter as to steps taken to enforce compliance and authorizing the Administrator to commence a civil action upon failure by the State to comply timely.

Subsec. (a)(2). Pub. L. 99-339, §202(a)(2), substituted provision that the Administrator issue an order under subsec. (c) of this section or commence a civil action under subsec. (b) of this section for provision that he commence a civil action under subsec. (b)(1) of this section.

Subsec. (b). Pub. L. 99-339, §202(b), amended subsec. (b) generally, substituting provisions relating to jurisdiction of the appropriate Federal district court, entry of judgment, civil penalty of \$25,000 per day, criminal liability and fine for willful violation for provisions which related to judicial determinations in appropriate Federal district courts, civil penalties of \$5,000 per day, and fines of \$10,000 per day for willful violations.

Subsecs. (c), (d). Pub. L. 99-339, §202(c), added subsec. (c) and redesignated former subsec. (c) as (d).

1980—Subsec. (a)(1). Pub. L. 96-502 inserted reference to section 300h-4(c) of this title.

§ 300h-3. Interim regulation of underground injections

(a) Necessity for well operation permit; designation of one aquifer areas

(1) Any person may petition the Administrator to have an area of a State (or States) designated as an area in which no new underground injection well may be operated during the period beginning on the date of the designation and end-

ing on the date on which the applicable underground injection control program covering such area takes effect unless a permit for the operation of such well has been issued by the Administrator under subsection (b). The Administrator may so designate an area within a State if he finds that the area has one aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health.

(2) Upon receipt of a petition under paragraph (1) of this subsection, the Administrator shall publish it in the Federal Register and shall provide an opportunity to interested persons to submit written data, views, or arguments thereon. Not later than the 30th day following the date of the publication of a petition under this paragraph in the Federal Register, the Administrator shall either make the designation for which the petition is submitted or deny the petition.

(b) Well operation permits; publication in Federal Register; notice and hearing; issuance or denial; conditions for issuance

(1) During the period beginning on the date an area is designated under subsection (a) and ending on the date the applicable underground injection control program covering such area takes effect, no new underground injection well may be operated in such area unless the Administrator has issued a permit for such operation.

(2) Any person may petition the Administrator for the issuance of a permit for the operation of such a well in such an area. A petition submitted under this paragraph shall be submitted in such manner and contain such information as the Administrator may require by regulation. Upon receipt of such a petition, the Administrator shall publish it in the Federal Register. The Administrator shall give notice of any proceeding on a petition and shall provide opportunity for agency hearing. The Administrator shall act upon such petition on the record of any hearing held pursuant to the preceding sentence respecting such petition. Within 120 days of the publication in the Federal Register of a petition submitted under this paragraph, the Administrator shall either issue the permit for which the petition was submitted or shall deny its issuance.

(3) The Administrator may issue a permit for the operation of a new underground injection well in an area designated under subsection (a) only, if he finds that the operation of such well will not cause contamination of the aquifer of such area so as to create a significant hazard to public health. The Administrator may condition the issuance of such a permit upon the use of such control measures in connection with the operation of such well, for which the permit is to be issued, as he deems necessary to assure that the operation of the well will not contaminate the aquifer of the designated area in which the well is located so as to create a significant hazard to public health.

(c) Civil penalties; separate violations; penalties for willful violations; temporary restraining order or injunction

Any person who operates a new underground injection well in violation of subsection (b), (1)

shall be subject to a civil penalty of not more than \$5,000 for each day in which such violation occurs, or (2) if such violation is willful, such person may, in lieu of the civil penalty authorized by clause (1), be fined not more than \$10,000 for each day in which such violation occurs. If the Administrator has reason to believe that any person is violating or will violate subsection (b), he may petition the United States district court to issue a temporary restraining order or injunction (including a mandatory injunction) to enforce such subsection.

(d) "New underground injection well" defined

For purposes of this section, the term "new underground injection well" means an underground injection well whose operation was not approved by appropriate State and Federal agencies before December 16, 1974.

(e) Areas with one aquifer; publication in Federal Register; commitments for Federal financial assistance

If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the Federal Register. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

(July 1, 1944, ch. 373, title XIV, §1424, as added Pub. L. 93-523, §2(a), Dec. 16, 1974, 88 Stat. 1678.)

§ 300h-4. Optional demonstration by States relating to oil or natural gas

(a) Approval of State underground injection control program; alternative showing of effectiveness of program by State

For purposes of the Administrator's approval or disapproval under section 300h-1 of this title of that portion of any State underground injection control program which relates to—

(1) the underground injection of brine or other fluids which are brought to the surface in connection with oil or natural gas production or natural gas storage operations, or

(2) any underground injection for the secondary or tertiary recovery of oil or natural gas,

in lieu of the showing required under subparagraph (A) of section 300h-1(b)(1) of this title the State may demonstrate that such portion of the State program meets the requirements of subparagraphs (A) through (D) of section 300h(b)(1) of this title and represents an effective program (including adequate recordkeeping and reporting) to prevent underground injection which endangers drinking water sources.
