

(B) Further availability for insurance reform and consumer protection

If the amounts appropriated under subparagraph (A) are not fully obligated under grants under paragraph (1) by the end of fiscal year 2014, any remaining funds shall remain available to the Secretary for grants to States for planning and implementing the insurance reforms and consumer protections under part A.

(C) Allocation

The Secretary shall establish a formula for determining the amount of any grant to a State under this subsection. Under such formula—

- (i) the Secretary shall consider the number of plans of health insurance coverage offered in each State and the population of the State; and
- (ii) no State qualifying for a grant under paragraph (1) shall receive less than \$1,000,000, or more than \$5,000,000 for a grant year.

(d) Medical reimbursement data centers**(1) Functions**

A center established under subsection (c)(1)(C) shall—

(A) develop fee schedules and other database tools that fairly and accurately reflect market rates for medical services and the geographic differences in those rates;

(B) use the best available statistical methods and data processing technology to develop such fee schedules and other database tools;

(C) regularly update such fee schedules and other database tools to reflect changes in charges for medical services;

(D) make health care cost information readily available to the public through an Internet website that allows consumers to understand the amounts that health care providers in their area charge for particular medical services; and

(E) regularly publish information concerning the statistical methodologies used by the center to analyze health charge data and make such data available to researchers and policy makers.

(2) Conflicts of interest

A center established under subsection (c)(1)(C) shall adopt by-laws that ensures that the center (and all members of the governing board of the center) is independent and free from all conflicts of interest. Such by-laws shall ensure that the center is not controlled or influenced by, and does not have any corporate relation to, any individual or entity that may make or receive payments for health care services based on the center's analysis of health care costs.

(3) Rule of construction

Nothing in this subsection shall be construed to permit a center established under subsection (c)(1)(C) to compel health insurance issuers to provide data to the center.

§ 300hh-1. National Health Security Strategy

(a) In general

(1) Preparedness and response regarding public health emergencies

Beginning in 2018 and every four years thereafter, the Secretary shall prepare and submit to the relevant committees of Congress a coordinated strategy (to be known as the National Health Security Strategy) and any revisions thereof, and an accompanying implementation plan for public health emergency preparedness and response. Such National Health Security Strategy shall describe potential emergency health security threats and identify the process for achieving the preparedness goals described in subsection (b) to be prepared to identify and respond to such threats and shall be consistent with the national preparedness goal (as described in section 314(a)(19) of title 6), the National Incident Management System (as defined in section 311(7) of such title), and the National Response Plan developed pursuant to section 314 of such title, or any successor plan.

(2) Evaluation of progress

The National Health Security Strategy shall include an evaluation of the progress made by Federal, State, local, and tribal entities, based on the evidence-based benchmarks and objective standards that measure levels of preparedness established pursuant to section 247d-3a(g) of this title. Such evaluation shall include aggregate and State-specific breakdowns of obligated funding spent by major category (as defined by the Secretary) for activities funded through awards pursuant to sections 247d-3a and 247d-3b of this title, and an analysis of any changes to the evidence-based benchmarks and objective standards under sections 247d-3a and 247d-3b of this title.

(3) Public health workforce

In 2022, the National Health Security Strategy shall include a national strategy for establishing an effective and prepared public health workforce, including defining the functions, capabilities, and gaps in such workforce (including gaps in the environmental health and animal health workforces, as applicable), describing the status of such workforce, identifying strategies to recruit, retain, and protect such workforce from workplace exposures dur-
