§ 122. Limitations on exclusive rights: Secondary transmissions by satellite

(a) Secondary Transmissions into Local Markets.

(1) Secondary transmissions of television broadcast stations within a local market—

A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station into the station's local market shall be subject to statutory licensing under this section if—

(A) the secondary transmission is made by a satellite carrier to the public; 
(B) with regard to secondary transmissions, the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals; and

(C) the satellite carrier makes a direct or indirect charge for the secondary transmission to—

(i) each subscriber receiving the secondary transmission; or

(ii) a distributor that has contracted with the satellite carrier for direct or indirect delivery of the secondary transmission to the public.

(2) Significantly Viewed Stations.

(A) In General.—A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station to subscribers who receive secondary transmissions of primary transmissions under paragraph (1) shall be subject to statutory licensing under this paragraph if the secondary transmission is of the primary transmission of a network station or a non-network station to a subscriber who resides outside the station's local market but within a community in which the signal has been determined by the Federal Communications Commission to be significantly viewed in such community, pursuant to the rules, regulations, and authorizations of the Federal Communications Commission in effect on April 15, 1976, applicable to determining with respect to a cable system whether signals are significantly viewed in a community.

(B) Waiver.—A subscriber who is denied the secondary transmission of the primary transmission of a network station or a non-network station under subparagraph (A) may request a waiver from such denial by submitting a request, through the subscriber's satellite carrier, to the network station or non-network station in the local market affiliated with the same network or non-network where the subscriber is located. The network station or non-network station shall accept or reject the subscriber's request for a waiver within 30 days after receipt of the request. If the network station or non-network station fails to accept or reject the subscriber's request for a waiver within that 30-day period, that network station or non-network station shall be deemed to agree to the waiver request.

(A) In General.—Subject to subparagraphs (B) and (C), a secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station...
broadcast station to subscribers who receive secondary transmissions of primary transmissions under paragraph (1) shall be subject to statutory licensing under this paragraph if the secondary transmission is of the primary transmission of a television broadcast station that is licensed as a low power television station, to a subscriber who resides within the same designated market area as the station that originates the transmission.

(B) No applicability to repeaters and translators.—Secondary transmissions provided for in subparagraph (A) shall not apply to any low power television station that retransmits the programs and signals of another television station for more than 2 hours each day.

(C) No impact on other secondary transmissions.—A satellite carrier that makes secondary transmissions of a primary transmission of a low power television station under a statutory license provided under this section is not required, by reason of such secondary transmissions, to make any other secondary transmissions.

(4) Special exceptions.—A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station to subscribers who receive secondary transmissions of primary transmissions under paragraph (1) shall, if the secondary transmission is made by a satellite carrier that complies with the requirements of that State in which are located 4 counties within that State as of January 1, 1995, are assigned to the same local market and that local market does not encompass all counties of that State, the statutory license provided for in this paragraph shall apply to the secondary transmission by a satellite carrier of the primary transmission of that station to any subscriber in a community that is located within that State and that is not within the First 50 television markets as listed in the regulations of the Commission as in effect on such date (47 C.F.R. 76.51).

(B) States with all network stations and non-network stations in same local market.—In a State in which all network stations and non-network stations licensed by the Federal Communications Commission within that State as of January 1, 1995, are assigned to the same local market and that local market does not encompass all counties of that State, the statutory license provided for in this paragraph shall apply to the secondary transmission by a satellite carrier of the primary transmissions of such station to all subscribers in the State who reside in a local market that is within the First 50 major television markets as listed in the regulations of the Commission as in effect on such date (section 76.51 of title 47, Code of Federal Regulations).

(C) Additional stations.—In the case of that State in which are located 4 counties that—

(i) on January 1, 2004, were in local markets principally comprised of counties in another State, and

(ii) had a combined total of 41,540 television households, according to the U.S. Nielsen Television Households Estimates by Nielsen Media Research for 2004,

the statutory license provided under this paragraph shall apply to secondary transmissions by a satellite carrier to subscribers in any such county of the primary transmissions of any network station located in that State, if the satellite carrier was making such secondary transmissions to any subscribers in that county on January 1, 2004.

(D) Certain additional stations.—If 2 adjacent counties in a single State are in a local market comprised principally of counties located in another State, the statutory license provided for in this paragraph shall apply to the secondary transmission by a satellite carrier to subscribers in those 2 counties of the primary transmissions of any network station located in the capital of the State in which such 2 counties are located, if—

(i) the 2 counties are located in a local market that is in the top 100 markets for the year 2003 according to Nielsen Media Research; and

(ii) the total number of television households in the 2 counties combined did not exceed 10,000 for the year 2003 according to Nielsen Media Research.

(E) Networks of noncommercial educational broadcast stations.—In the case of a system of three or more noncommercial educational broadcast stations licensed to a single State, public agency, or political, educational, or special purpose subdivision of a State, the statutory license provided for in this paragraph shall apply to the secondary transmission of the primary transmission of such system to any subscriber in any county or county equivalent within such State, if such subscriber is located in a designated market area that is not otherwise eligible to receive the secondary transmission of the primary transmission of a noncommercial educational broadcast station located within the State pursuant to paragraph (1).

(5) Applicability of royalty rates and procedures.—The royalty rates and procedures under section 119(b) shall apply to the secondary transmissions to which the statutory license under paragraph (4) applies.

(b) Reporting requirements.—

(1) Initial lists.—A satellite carrier that makes secondary transmissions of a primary transmission made by a network station under subsection (a) shall, within 90 days after commencing such secondary transmissions, submit to the network that owns or is affiliated with the network station—

scriber information submitted by a satellite carrier under this subsection may be used only for the purposes of monitoring compliance by the satellite carrier with this section.

(4) REQUIREMENTS OF NETWORKS.—The sub-

mission requirements of this subsection shall apply to a satellite carrier only if the network to which the submissions are to be made places on file with the Register of Copyrights a document identifying the name and address of the person to whom such submissions are to be made. The Register of Copyrights shall maintain for public inspection a file of all such documents.

(c) NO ROYALTY FEE REQUIRED FOR CERTAIN SECONDARY TRANSMISSIONS.—A satellite carrier whose secondary transmissions are subject to statutory licensing under paragraphs (1), (2), and (3) of subsection (a) shall have no royalty obliga-
tion for such secondary transmissions.

(d) NONCOMPLIANCE WITH REPORTING AND REGULATORY REQUIREMENTS.—Notwithstanding subsection (a), the willful or repeated secondary transmission to the public by a satellite carrier into the local market of a television broadcast station of a primary transmission embodying a performance or display of a work made by that television broadcast station is actionable as an act of infringement under section 501, and is fully sub-

ject to the remedies provided by sections 502 through 506 and section 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcement transmitted by the primary transmitter during, or immediately before or after, the transmission of such pro-

gram, is in any way willfully altered by the sat-

eellite carrier through changes, deletions, or ad-

ditions, or is combined with programming from any other broadcast signal.

(f) VIOLATION OF TERRITORIAL RESTRICTIONS ON STATUTORY LICENSE FOR TELEVISION BROADCAST STATIONS.—

(1) INDIVIDUAL VIOLATIONS.—The willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission embodying a performance or display of a work made by a television broadcast station to a subscriber who does not reside in that station’s local market, and is not subject to statutory licensing under section 119, subject to statutory licensing by reason of paragraph (2)(A), (3), or (4) of subsection (a), or subject to a private licensing agreement, is ac-

tionable as an act of infringement under section 501 and is fully subject to the remedies provided by sections 502 through 506, except that—

(A) no damages shall be awarded for such act of infringement if the satellite carrier took corrective action by promptly with-

drawing service from the ineligible sub-

scriber; and

(B) any statutory damages shall not ex-

ceed $250 for such subscriber for each month during which the violation occurred.

(2) PATTERN OF VIOLATIONS.—If a satellite carrier engages in a willful or repeated pattern or practice of secondarily transmitting to the public a primary transmission embodying a performance or display of a work made by a television broadcast station to subscribers who do not reside in that station’s local mar-

ket, and are not subject to statutory licensing under section 119, subject to statutory licensing by reason of paragraph (2)(A), (3), or (4) of subsection (a), or subject to a private licensing agreement, then in addition to the remedies under paragraph (1)—

(A) if the pattern or practice has been car-

ried out on a substantially nationwide basis, the court—

(i) shall order a permanent injunction barring the secondary transmission by the satellite carrier of the primary transmissions of that television broadcast sta-

tion (and if such television broadcast sta-
tion is a network station, all other tele-

vision broadcast stations affiliated with such network); and

(ii) may order statutory damages not ex-

ceeding $2,500,000 for each 6-month period during which the pattern or practice was carried out; and

(B) if the pattern or practice has been car-

(i) shall order a permanent injunction barring the secondary transmission in that locality or region by the satellite carrier of the primary transmissions of any television broadcast station; and

(g) BURDEN OF PROOF.—In any action brought under subsection (f), the satellite carrier shall have the burden of proving that its secondary transmission of a primary transmission by a television broadcast station is made only to subscribers located within that station’s local market or subscribers being served in compliance with section 119, paragraph (2)(A), (3), or (4) of subsection (a), or a private licensing agreement.
