§2053. Research for others; charges

In this section, with respect to international research projects, the term “private facilities or laboratories” means facilities or laboratories located in the United States. Where the Commission finds private facilities or laboratories are inadequate for the purpose, it is authorized to conduct for other persons, through its own facilities, such of those activities and studies of the types specified in section 2051 of this title as it deems appropriate to the development of energy. To the extent the Commission determines that private facilities or laboratories are inadequate for the purpose, and that the Commission’s facilities, or scientific or technical resources have the potential of lending significant assistance to other persons in the fields of protection of public health and safety, the Commission may also assist other persons in these fields by conducting for such persons, through the Commission’s own facilities, research and development or training activities and studies. The Commission is authorized to determine and make such charges as in its discretion may be desirable for the conduct of the activities and studies referred to in this section.

§ 2061. Production facilities

(a) Ownership

The Commission, as agent of and on behalf of the United States, shall be the exclusive owner of all production facilities other than facilities which (1) are useful in the conduct of research and development activities in the fields specified in section 2051 of this title, and do not, in the opinion of the Commission, have a potential production rate adequate to enable the user of such facilities to produce within a reasonable period of time a sufficient quantity of special nuclear material to produce an atomic weapon; (2) are licensed by the Commission under this division; or (3) are owned by the United States Enrichment Corporation.

(b) Operation of Commission's facilities

The Commission is authorized and directed to produce or to provide for the production of special nuclear material in its own production facilities. To the extent deemed necessary, the Commission is authorized to make, or to continue in effect, contracts with persons obligating them to produce special nuclear material in facilities owned by the Commission. The Commission is also authorized to enter into research and development contracts authorizing the contractor to produce special nuclear material in facilities owned by the Commission to the extent that the production of such special nuclear material may be incident to the conduct of research and development activities under such contracts. Any contract entered into under this section shall contain provisions (1) prohibiting the contractor from subcontracting any part of the work he is obligated to perform under the contract, except as authorized by the Commission; and (2) obligating the contractor (A) to make such reports pertaining to activities under the contract to the Commission as the Commission may require, (B) to submit to inspection by employees of the Commission of all such activities, and (C) to comply with all safety and security regulations which may be prescribed by the Commission. Any contract made under the provisions of this subsection may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advance payments may be made under such contracts.

(c) Operation of other facilities

Special nuclear material may be produced in the facilities which under this section are not required to be owned by the Commission.

(C) the costs of which shall be shared in accordance with section 10335 of this title.

(2) Criteria
Projects shall be evaluated against the following primary criteria:
(A) The length of time necessary for the proposed project to begin production of molybdenum-99 for medical uses within the United States.
(B) The capability of the proposed project to produce a significant percentage of United States demand for molybdenum-99 for medical uses.
(C) The capability of the proposed project to produce molybdenum-99 in a cost-effective manner.
(D) The cost of the proposed project.

(3) Exemption
An existing reactor in the United States fueled with highly enriched uranium shall not be disqualified from the program if the Secretary determines that—
(A) there is no alternative nuclear reactor fuel, enriched in the isotope U-235 to less than 20 percent, that can be used in that reactor;
(B) the reactor operator has provided assurances that, whenever an alternative nuclear reactor fuel, enriched in the isotope U-235 to less than 20 percent, can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and
(C) the reactor operator has provided a current report on the status of its efforts to convert the reactor to an alternative nuclear reactor fuel enriched in the isotope U-235 to less than 20 percent, and an anticipated schedule for completion of conversion.

(4) Public participation and review
The Secretary shall—
(A) develop a program plan and annually update the program plan through public workshops; and
(B) use the Nuclear Science Advisory Committee to conduct annual reviews of the progress made in achieving the program goals and make recommendations to improve program effectiveness.

(b) Development assistance
The Secretary shall carry out a program to provide assistance for—
(1) the development of fuels, targets, and processes for domestic molybdenum-99 production that do not use highly enriched uranium; and
(2) commercial operations using the fuels, targets, and processes described in paragraph (1).

(c) Uranium lease and take-back

(1) In general
The Secretary shall establish a program to make low enriched uranium available, through lease contracts, for irradiation for the production of molybdenum-99 for medical uses.

(2) Title
The lease contracts shall provide for the producers of the molybdenum-99 to take title to and be responsible for the molybdenum-99 created by the irradiation, processing, or purification of uranium leased under this section.

(3) Duties

(A) Secretary
The lease contracts shall require the Secretary—
(i) to retain responsibility for the final disposition of spent nuclear fuel created by the irradiation, processing, or purification of uranium leased under this section for the production of medical isotopes; and
(ii) to take title to and be responsible for the final disposition of radioactive waste created by the irradiation, processing, or purification of uranium leased under this section for which the Secretary determines the producer does not have access to a disposal path.

(B) Producer
The producer of the spent nuclear fuel and radioactive waste shall accurately characterize, appropriately package, and transport the spent nuclear fuel and radioactive waste prior to acceptance by the Department.

(4) Compensation

(A) In general
Subject to subparagraph (B), the lease contracts shall provide for compensation in cash amounts equivalent to prevailing market rates for the sale of comparable uranium products and for compensation in cash amounts equivalent to the net present value of the cost to the Federal Government for—
(i) the final disposition of spent nuclear fuel and radioactive waste for which the Department is responsible under paragraph (3); and
(ii) other costs associated with carrying out the uranium lease and take-back program authorized by this subsection.

(B) Discount rate
The discount rate used to determine the net present value of costs described in subparagraph (A)(ii) shall be not greater than the average interest rate on marketable Treasury securities.

(5) Authorized use of funds
Subject to the availability of appropriations, the Secretary may obligate and expend funds received under leases entered into under this

(B) any other services associated with carrying out the uranium lease and take-back program authorized by this subsection.

(d) Coordination of environmental reviews

The Department and the Nuclear Regulatory Commission shall ensure to the maximum extent practicable that environmental reviews for the production of the medical isotopes shall complement and not duplicate each review.

(e) Operational date

The Secretary shall establish a program as described in subsection (c)(3) not later than 3 years after January 2, 2013.

(f) Radioactive waste

Notwithstanding section 10101 of this title, radioactive material resulting from the production of medical isotopes shall complement and not exist as part of the Atomic Energy Act of 1954 section 2011 of this title and Tables.

§ 2071. Determination of other material as special nuclear material; Presidential assent; effective date

The Commission may determine from time to time that other material is special nuclear material in addition to that specified in the definition as special nuclear material. Before making any such determination, the Commission must find that such material is capable of releasing substantial quantities of atomic energy and must find that the determination that such material is special nuclear material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment for more than three days) before the determination of the Commission may become effective: Provided, however, That the Energy Committees, after having received such determination, may by resolution in writing, waive the conditions of or all or any portion of such thirty-day period.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1805(a)(1) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

AMENDMENTS

Section, act Aug. 1, 1946, ch. 724, § 52, as added Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 929, related to Government ownership of all special nuclear material and provided for compensation of private owners of such material.

EXTINGUISHMENT OF RIGHTS, TITLE AND INTEREST IN SPECIAL NUCLEAR MATERIAL

Pub. L. 88–489, § 4, Aug. 26, 1964, 78 Stat. 603, provided in part that: “All rights, title, and interest in and to any special nuclear material vested in the United States solely by virtue of the provisions of the first sentence of such section 52 [this section], and not by any other transaction authorized by the Atomic Energy Act of 1946, as amended [this chapter], or other applicable law, are hereby extinguished.”

§ 2073. Domestic distribution of special nuclear material

(a) Licenses

The Commission is authorized (i) to issue licenses to transfer or receive in interstate commerce, transfer, deliver, acquire, possess, own,
receive possession of or title to, import, or export under the terms of an agreement for cooperation arranged pursuant to section 2153 of this title, special nuclear material, (ii) to make special nuclear material available for the period of the license, and, (iii) to distribute special nuclear material within the United States to qualified applicants requesting such material—

(1) for the conduct of research and development activities of the types specified in section 2051 of this title;

(2) for use in the conduct of research and development activities or in medical therapy under a license issued pursuant to section 2134 of this title;

(3) for use under a license issued pursuant to section 2133 of this title;

(4) for such other uses as the Commission determines to be appropriate to carry out the purposes of this chapter.

(b) Minimum criteria for licenses

The Commission shall establish, by rule, minimum criteria for the issuance of specific or general licenses for the distribution of special nuclear material depending upon the degree of importance to the common defense and security or to the health and safety of the public of—

(1) the physical characteristics of the special nuclear material to be distributed;

(2) the quantities of special nuclear material to be distributed; and

(3) the intended use of the special nuclear material to be distributed.

(c) Manner of distribution; charges for material sold; agreements; charges for material leased

(1) The Commission may distribute special nuclear material licensed under this section by sale, lease, lease with option to buy, or grant: Provided, however. That unless otherwise authorized by law, the Commission shall not after December 31, 1970, distribute special nuclear material except by sale to any person who possesses or operates a utilization facility under a license issued pursuant to section 2133 or 2134(b) of this title for use in the course of activities under such license; nor shall the Commission permit any such person after June 30, 1973, to continue leasing for use in the course of such activities special nuclear material previously leased to such person by the Commission.

(2) The Commission shall establish reasonable sales prices for the special nuclear material licensed and distributed by sale under this section. Such sales prices shall be established on a nondiscriminatory basis which, in the opinion of the Commission, will provide reasonable compensation to the Government for the use of such special nuclear material.

(3) The Commission is authorized to enter into agreements with licensees for period of time as the Commission may deem necessary or desirable to distribute to such licensees such quantities of special nuclear material as may be necessary for the conduct of the licensed activity. In such agreements, the Commission may agree to repurchase any special nuclear material licensed and distributed by sale which is not consumed in the course of the licensed activity, or any uranium remaining after irradiation of such special nuclear material, at a repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission.

(4) The Commission may make a reasonable charge, determined pursuant to this section, for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4) and shall make a reasonable charge determined pursuant to this section for the use of special nuclear material licensed and distributed by lease under subsection (a)(3). The Commission shall establish criteria in writing for the determination of whether special nuclear material will be distributed by grant and for the determination of whether a charge will be made for the use of special nuclear material licensed and distributed by lease under subsection (a)(1), (2) or (4), considering, among other things, whether the licensee is a nonprofit or eleemosynary institution and the purposes for which the special nuclear material will be used.

(d) Determination of charges

In determining the reasonable charge to be made by the Commission for the use of special nuclear material distributed by lease to licensees of utilization or production facilities licensed pursuant to section 2133 or 2134 of this title, in addition to consideration of the cost thereof, the Commission shall take into consideration—

(1) the use to be made of the special nuclear material;

(2) the extent to which the use of the special nuclear material will advance the development of the peaceful uses of atomic energy;

(3) the energy value of the special nuclear material in the particular use for which the license is issued;

(4) whether the special nuclear material is to be used in facilities licensed pursuant to section 2133 or 2134 of this title. In this respect, the Commission shall, insofar as practicable, make uniform, nondiscriminatory charges for the use of special nuclear material distributed to facilities licensed pursuant to section 2133 of this title; and

(5) with respect to special nuclear material consumed in a facility licensed pursuant to section 2133 of this title, the Commission shall make a further charge equivalent to the sale price for similar special nuclear material established by the Commission in accordance with subsection (c)(2), and the Commission may make such a charge with respect to such material consumed in a facility licensed pursuant to section 2134 of this title.

(e) License conditions

Each license issued pursuant to this section shall contain and be subject to the following conditions—

(2) no right to the special nuclear material shall be conferred by the license except as defined by the license;

(3) neither the license nor any right under the license shall be assigned or otherwise transferred in violation of the provisions of this chapter;
(4) all special nuclear material shall be subject to the right of recapture or control reserved by section 2138 of this title and to all other provisions of this chapter; 

(5) no special nuclear material may be used in any utilization or production facility except in accordance with the provisions of this chapter; 

(6) special nuclear material shall be distributed only on terms, as may be established by rule of the Commission, such that no user will be permitted to construct an atomic weapon; 

(7) special nuclear material shall be distributed only pursuant to such safety standards as may be established by rule of the Commission to protect health and to minimize danger to life or property; and 

(8) except to the extent that the indemnification and limitation of liability provisions of section 2210 of this title apply, the licensee will hold the United States and the Commission harmless from any damages resulting from the use or possession of special nuclear material by the licensee. 

(f) Distribution for independent research and development activities 

The Commission is directed to distribute within the United States sufficient special nuclear material to permit the conduct of widespread independent research and development activities to the maximum extent practicable. In the event that applications for special nuclear material exceed the amount available for distribution, preference shall be given to those activities which are most likely, in the opinion of the Commission, to contribute to basic research, to the development of peacetime uses of atomic energy, or to the economic and military strength of the Nation.

§2074. Foreign distribution of special nuclear material 

(a) Compensation; distribution to International Atomic Energy Agency; procedure for distribution; repurchase of unconsumed materials; price; purchase of materials produced outside United States; price 

The Commission is authorized to cooperate with any nation or group of nations by distributing special nuclear material and to distribute such special nuclear material, pursuant to the terms of an agreement for cooperation to which such nation or group of nations is a party and which is made in accordance with section 2153 of this title. Unless hereafter otherwise authorized by law the Commission shall be compensated for special nuclear material so distributed at not less than the Commission’s published charges applicable to the domestic distribution of such material, except that the Commission to assist and encourage research on peaceful uses or for medical therapy may so distribute without charge during any calendar year only a quantity of such material which at the time of transfer does not exceed in value $10,000 in the case of one nation or $50,000 in the case of any group of nations. The Commission may distribute to the International Atomic Energy Agency, or to any group of nations, only such amounts of special nuclear materials and for such period of time as are authorized by Congress: Provided, however, That, (i) notwithstanding this provision, the Commission is hereby authorized, subject to the
provisions of section 2153 of this title, to distribute to the Agency five thousand kilograms of contained uranium-235, five hundred grams of uranium-233, and three kilograms of plutonium, together with the amounts of special nuclear material which will match in amount the sum of all quantities of special nuclear materials made available by all other members of the Agency to June 1, 1960; and (ii) notwithstanding the foregoing provisions of this subsection, the Commission may distribute to the International Atomic Energy Agency, or to any group of nations, such other amounts of special nuclear materials and for such other periods of time as are established in writing by the Commission: Provided, however, That before they are established by the Commission pursuant to this subdivision (ii), such proposed amounts and periods shall be submitted to the Congress and referred to the Energy Committees and a period of sixty days shall elapse while Congress is in session (in computing such sixty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days): And provided further, That any such proposed amounts and periods shall not become effective if during such sixty-day period the Congress passes a concurrent resolution stating in substance that it does not favor the proposed action: And provided further, That prior to the elapse of the first thirty days of any such sixty-day period the Energy Committees shall submit to their respective houses reports of their views and recommendations respecting the proposed amounts and periods and an accompanying proposed concurrent resolution stating in substance that the Congress favors, or does not favor, as the case may be, the proposed amounts or periods. The Commission may agree to repurchase any special nuclear material distributed under a sale arrangement pursuant to this subsection which is not consumed in the course of the activities conducted in accordance with the agreement for cooperation, or any uranium remaining after irradiation of such special nuclear material, at repurchase price not to exceed the Commission’s sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission. The Commission may also agree to purchase, consistent with and within the period of the agreement for cooperation, special nuclear material produced in a nuclear reactor located outside the United States through the use of special nuclear material which was leased or sold pursuant to this subsection. Under any such agreement the Commission shall purchase only such material as is delivered to the Commission during any period when there is in effect a guaranteed purchase price for the same material produced in a nuclear reactor by a person licensed under section 2134 of this title, established by the Commission pursuant to section 2076 of this title, and the price to be paid shall be the price so established by the Commission and in effect for the same material delivered to the Commission.

(b) Distribution to persons outside United States of plutonium and other special nuclear material exempted under section 2077(d) of this title; compensation; reports

Notwithstanding the provisions of sections 2153 and 2154 of this title and section 125 of the Atomic Energy Act of 1954, the Commission is authorized to distribute to any person outside the United States (1) plutonium containing 80 per centum or more by weight of plutonium-238, and (2) other special nuclear material when it has, in accordance with subsection 2077(d) of this title, exempted certain classes or quantities of such other special nuclear material or kinds of uses or users thereof from the requirements for a license set forth in this subchapter. Unless hereafter otherwise authorized by law, the Commission shall be compensated for special nuclear material so distributed at not less than the Commission’s published charges applicable to the domestic distribution of such material. The Commission shall not distribute any plutonium containing 80 per centum or more by weight of plutonium-238 to any person under this subsection if, in its opinion, such distribution would be inimical to the common defense and security. The Commission may require such reports regarding the use of material distributed pursuant to the provisions of this subsection as it deems necessary.

(c) Licensing or granting permission to others to distribute special nuclear material; conditions

The Commission is authorized to license or otherwise permit others to distribute special nuclear material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

(d) Laboratory samples; medical devices; monitoring or other instruments; emergencies

The authority to distribute special nuclear material under this section other than under an export license granted by the Nuclear Regulatory Commission shall extend only to the following small quantities of special nuclear material (in no event more than five hundred grams per year of the uranium isotope 233, the uranium isotope 235, or plutonium contained in special nuclear material to any recipient):

(1) which are contained in laboratory samples, medical devices, or monitoring or other instruments; or

(2) the distribution of which is needed to deal with an emergency situation in which time is of the essence.

(e) Arrangements for storage or disposition of irradiated fuel elements

The authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section 2160(a)(2)(E) of this title shall be subject to the requirements of section 2160 of this title.

L. 88-489 substituted provisions which directed the Commission to establish guaranteed purchase prices for plutonium produced by a person licensed under section 233 of this title and delivered to the Commission prior to Jan. 1, 1971, and for uranium enriched in the isotope 233, for such periods of time as it deems necessary, but not exceeding ten years as to any such period, if produced by a person licensed under said section 233, and delivered within the period of the guarantee, provided that guaranteed prices established under this section shall not exceed the Commission's estimated value of enriched plutonium or uranium as fuel in reactors, and shall be on a nondiscriminatory basis, and authorized such guaranteed prices only for such enriched plutonium or uranium as is produced through the use of special nuclear material by considering the value of the material for its intended use by the United States, and by giving such weight to the cost of production as it found to be equitable, providing that such price was to apply to all licensed producers of the same material, and permitting the Commission to establish guaranteed fair prices for all such material delivered to the Commission for such time as it deemed necessary, but not exceeding seven years.

§ 2077. Unauthorized dealings in special nuclear material
(a) Handling by persons
Unless authorized by a general or specific license issued by the Commission, which the Commission is authorized to issue pursuant to section 2073 of this title, no person may transfer or receive in interstate commerce, transfer, deliver, acquire, own, possess, receive possession of, or title to, or import into or export from the United States any special nuclear material.

(b) Engagement or participation in development or production
It shall be unlawful for any person to directly or indirectly engage or participate in the development or production of any special nuclear material outside of the United States except (1) as specifically authorized under an agreement for cooperation made pursuant to section 2153 of this title, including a specific authorization in a subsequent arrangement under section 2160 of this title, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States: Provided, That any such determination by the Secretary of Energy shall be made only with the concurrence of the Department of State and after consultation with the Nuclear Regulatory Commission, the Department of Commerce, and the Department of Defense. The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce, and the Nuclear Regulatory Commission for the consideration of requests for authorization under this subsection. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an interagency coordinating authority to monitor the processing of such requests, predetermined procedures for the expedient handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decision required under this subsection. The processing of any request proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this subsection. Any trade secrets or proprietary information submitted by any person seeking an authorization under this subsection shall be afforded the maximum degree of protection allowable by law: Provided further, That the export of component parts as defined in section 2134(y)(2) or (cc)(2) of this title shall be governed by sections 2139 and 2155 of this title: Provided further, That notwithstanding section 7172(d) of this title, the Secretary of Energy and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section, section 2074(d), section 2094, or section 2141(b) of this title.

(d) Establishment of classes of special nuclear material; exemption of materials, kinds of uses and users from requirement of license

The Commission is authorized to establish classes of special nuclear material and to exempt certain classes or quantities of special nuclear material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of special nuclear material or such kinds of uses or users would not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public.

(e) Transfer, etc., of special nuclear material

Special nuclear material, as defined in section 2101 of this title, produced in facilities licensed under section 2133 or 2134 of this title may not be transferred, reprocessed, used, or otherwise made available by any instrumentality of the United States or any other person for nuclear explosive purposes.

I hereby delegate functions and authorities vested in the President by section 3136(h) of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92) (the “Act”) to the Secretary of State.

Any reference in this memorandum to the Act shall be deemed to be a reference to any future act that is the same or substantially the same as such provision.

You are authorized and directed to publish this memorandum in the Federal Register.

§ 2078. Congressional review of guaranteed purchase price, guaranteed purchase price period, and criteria for waiver of charges

Before the Commission establishes any guaranteed purchase price or guaranteed purchase price period in accordance with the provisions of section 2076 of this title, or establishes any criteria for the waiver of any charge for the use of special nuclear material licensed and distributed under section 2075 of this title, the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge shall be submitted to the Energy
Committees and a period of forty-five days shall elapse while Congress is in session (in computing such forty-five days there shall be excluded the days in which either House is not in session because of adjournment for more than three days). Provided, however, That the Energy Committees, after having received the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge, may by resolution in writing waive the conditions of, or all or any portion of, such forty-five-day period.

AMENDMENTS

1964—Pub. L. 88-489 substituted “guaranteed purchase” and “purchase” for “fair” wherever appearing, “licensed and distributed” for “licensed or distributed”, and provided that the Joint Committee resolution waiving the conditions of the forty-five-day period must be in writing.

SUBCHAPTER VI—SOURCE MATERIAL

§ 2091. Determination of source material

The Commission may determine from time to time that other material is source material in addition to those specified in the definition of source material. Before making such determination, the Commission must find that such material is essential to the production of special nuclear material and must find that the determination that such material is source material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission’s determination, together with the assent of the President, shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days) before the determination of the Commission may become effective: Provided, however, That the Energy Committees, after having received such determination, may by resolution in writing waive the conditions of, or all or any portion of such thirty-day period.

PRIO R PROVISIONS

Provisions similar to this section were contained in section 1805(b)(2) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2092. License requirements for transfers

Unless authorized by a general or specific license issued by the Commission which the Commission is authorized to issue, no person may transfer or receive in interstate commerce, transfer, deliver, receive possession of or title to, or import into or export from the United States any source material after removal from its place of deposit in nature, except that licenses shall not be required for quantities of source material which, in the opinion of the Commission, are unimportant.

PRIO R PROVISIONS

Provisions similar to this section were contained in section 1805(b)(2) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2093. Domestic distribution of source material

(a) License

The Commission is authorized to issue licenses for and to distribute source material within the United States to qualified applicants requesting such material—

(1) for the conduct of research and development activities of the types specified in section 2251 of this title;

(2) for use in the conduct of research and development activities or in medical therapy under a license issued pursuant to section 2134 of this title;

(3) for use under a license issued pursuant to section 2133 of this title; or

(4) for any other use approved by the Commission as an aid to science or industry.

(b) Minimum criteria for licenses

The Commission shall establish, by rule, minimum criteria for the issuance of specific or general licenses for the distribution of source material depending upon the degree of importance to the common defense and security or to the health and safety of the public of—

(1) the physical characteristics of the source material to be distributed;

(2) the quantities of source material to be distributed; and

(3) the intended use of the source material to be distributed.

(c) Determination of charges

The Commission may make a reasonable charge determined pursuant to section 2201(m) of this title for the source material licensed and distributed under subsection (a)(1), (a)(2), or (a)(4) and shall make a reasonable charge determined pursuant to section 2201(m) of this title, for the source material licensed and distributed under subsection (a)(3). The Commission shall establish criteria in writing for the determination of whether a charge will be made for the source material licensed and distributed under subsection (a)(1), (a)(2), or (a)(4), considering, among other things, whether the licensee is a nonprofit or eleemosynary institution and the
purposes for which the source material will be used.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1805(b)(3) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2094. Foreign distribution of source material

The Commission is authorized to cooperate with any nation by distributing source material and to distribute source material pursuant to the terms of an agreement for cooperation to which such nation is a party and which is made in accordance with section 2153 of this title. The Commission is also authorized to distribute source material outside of the United States upon a determination by the Commission that such activity will not be inimical to the interests of the United States. The authority to distribute source material under this section other than under an export license granted by the Nuclear Regulatory Commission shall in no case extend to quantities of source material in excess of three metric tons per year per recipient.

AMENDMENTS

1978—Pub. L. 95–242 provided that the authority to distribute source material under this section other than under an export license granted by the Nuclear Regulatory Commission shall in no case extend to quantities of source material in excess of three metric tons per year per recipient.

EFFECTIVE DATE OF 1978 AMENDMENT

Amendment by Pub. L. 95–242 effective Mar. 10, 1978, except as otherwise provided and regardless of any requirement for the promulgation of implementing regulations, see section 693(c) of Pub. L. 95–242, set out as an Effective Date note under section 3201 of Title 22, Foreign Relations and Intercourse.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 9(b) of Ex. Ord. No. 12398, May 11, 1978, 43 F.R. 20447, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2095. Reports

The Commission is authorized to issue such rules, regulations, or orders requiring reports of ownership, possession, extraction, refining, shipment, or other handling of source material as it may deem necessary, except that such reports shall not be required with respect to (a) any source material prior to removal from its place of deposit in nature, or (b) quantities of source material which in the opinion of the Commission are unimportant or the reporting of which will discourage independent prospecting for new deposits.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1805(b)(9) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2096. Acquisition of source material; payments

The Commission is authorized and directed, to the extent it deems necessary to effectuate the provisions of this chapter—

(a) to purchase, take, requisition, condemn, or otherwise acquire supplies of source material;
(b) to purchase, condemn, or otherwise acquire any interest in real property containing deposits of source material; and
(c) to purchase, condemn, or otherwise acquire rights to enter upon any real property deemed by the Commission to have possibilities of containing deposits of source material in order to conduct exploratory operations for such deposits.

Any purchase made under this section may be made without regard to the provisions of section 6101 of title 41, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Partial and advanced payments may be made under contracts for such purposes. The Commission may establish guaranteed prices for all source material delivered to it within a specified time. Just compensation shall be made for any right, property, or interest in property taken, requisitioned, condemned, or otherwise acquired under this section.

§ 2098. Public and acquired lands

(a) Conditions on location, entry, and settlement

No individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic energy program, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association, by reason of having had such part in the development of the atomic energy program, acquired confidential official information as to the existence of deposits of such uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made, and subsequent to August 30, 1954, made such location, entry, or settlement or caused the same to be made for his, or its, or their benefit.

(b) Reservation of mineral rights; release

Any reservation of radioactive mineral substances, fissionable materials, or source material, together with the right to enter upon the land and prospect for, mine, and remove the same, inserted pursuant to Executive Order 9613 of September 13, 1945, Executive Order 9701 of March 4, 1946, the Atomic Energy Act of 1946, or Executive Order 9908 of December 5, 1947, in any patent, conveyance, lease, permit, or other authorization or instrument disposing of any interest in public or acquired lands of the United States, is released, remised, and quitclaimed to the person or persons entitled upon August 19, 1958 under the grant from the United States or successive grants to the ownership, occupancy, or use of the land under the applicable Federal or State laws: Provided, however, That in cases where any such reservation on acquired lands of the United States has been heretofore released, remised, or quitclaimed subsequent to August 12, 1954, in reliance upon authority deemed to have been contained in the Atomic Energy Act of 1946, as amended, or the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.], as heretofore amended, the same shall be valid and effective in all respects to the same extent as if public lands and not acquired lands had been involved. The foregoing release shall be subject to any rights which may have been granted by the United States pursuant to any such reservation, but the releases shall be subrogated to the rights of the United States.

(c) Prior locations

Notwithstanding the provisions of the Atomic Energy Act of 1946, as amended, and particularly section 5(b)(7) thereof, or the provisions of sections 501 to 505 of title 30, and particularly section 503 of title 30, any mining claim, heretofore located under the mining laws of the United States, for or based upon a discovery of a mineral deposit which is a source material and which, except for the possible contrary construction of said Atomic Energy Act, would have been locatable under such mining laws, shall, insofar as adversely affected by such possible contrary construction, be valid and effective, in all respects to the same extent as if said mineral deposit were a locatable mineral deposit other than a source material.

SUBCHAPTER VII—BYPRODUCT MATERIALS

§ 2111. Domestic distribution

(a) In general

No person may transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, own, possess, import, or export any byproduct material, except to the extent authorized by this section, section 2112 or section 2114 of this title. The Commission is authorized to issue general or specific licenses to applicants seeking to use byproduct material for research or development purposes, for medical therapy, industrial uses, agricultural uses, or such other useful applications as may be developed. The Commission may distribute, sell, loan, or lease such byproduct material as it owns to qualified applicants with or without charge: Provided, however, That, for byproduct material to be distributed by the Commission for a charge, the Commission shall establish prices on such equitable basis as, in the opinion of the Commission, (a) will provide reasonable compensation to the Government for such material, (b) will not discourage the use of such material or the development of sources of supply of such material independent of the Commission, and (c) will encourage research and development. In distributing such material, the Commission shall give preference to applicants proposing to use such material either in the conduct of research and development or in medical therapy. The Commission shall not permit the distribution of any byproduct material to any licensee, and shall recall or order the recall of any distributed material from any licensee, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor or approved by the Commission. The Commission is authorized to establish classes of byproduct material and to exempt certain classes or quantities of material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of such material or such kinds of uses or users will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

(b) Requirements

(1) In general

Except as provided in paragraph (2), byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, may only be transferred to and disposed of in a disposal facility that—

(A) is adequate to protect public health and safety; and

(B)(i) is licensed by the Commission; or

(ii) is licensed by a State that has entered into an agreement with the Commission under section 2021(b) of this title, if the licensing requirements of the State are compatible with the licensing requirements of the Commission.

(2) Effect of subsection

Nothing in this subsection affects the authority of any entity to dispose of byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, at a disposal facility in accordance with any Federal or State solid or hazardous waste law, including the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

(c) Treatment as low-level radioactive waste

Byproduct material, as defined in paragraphs (3) and (4) of section 2014(e) of this title, disposed of under this section shall not be considered to be low-level radioactive waste for the purposes of—

(1) section 2 of the Low-Level Radioactive Waste Policy Act (42 U.S.C. 2212(b)); or

(2) carrying out a compact that is—

(A) entered into in accordance with that Act (42 U.S.C. 2212 et seq.); and

(B) approved by Congress.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1865(c)(2) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

AMENDMENTS

2005—Pub. L. 109–58 designated existing provisions as subsec. (a), inserted heading, and added subsecs. (b) and (c).

1974—Pub. L. 93–377 substituted “qualified applicants with or without charge” for “licensees with or without charge”, and struck out “Licensees of the Commission may distribute byproduct material only to applicants therefor who are licensed by the Commission to receive such byproduct material” before “The Commission shall not”.

§ 2112. Foreign distribution of byproduct material

(a) Cooperation with other Nations

The Commission is authorized to cooperate with any nation by distributing byproduct material, and to distribute byproduct material, pursuant to the terms of an agreement for cooperation to which such nation is party and which is made in accordance with section 2153 of this title.

(b) Distribution to individuals

The Commission is also authorized to distribute byproduct material to any person outside the United States upon application therefor by such person and demand such charge for such material as would be charged for the material if it were distributed within the United States: Provided, however, That the Commission shall not distribute any such material to any person under this section if, in its opinion, such distribution would be inimical to the common defense and security: And provided further, That the Commission may require such reports regarding the use of material distributed pursuant to the provisions of this section as it deems necessary.

(c) Distributor’s license

The Commission is authorized to license others to distribute byproduct material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

§ 2113. Ownership and custody of certain byproduct material and disposal sites

(a) Specific assurances in license for pretermination actions

Any license issued or renewed after the effective date of this section under section 2092 or section 2111 of this title for any activity which results in the production of any byproduct material, as defined in section 2014(e)(2) of this title, shall contain such terms and conditions as the Commission determines to be necessary to assure that, prior to termination of such license—

(1) the licensee will comply with decontamination, decommissioning, and reclamation standards prescribed by the Commission for sites (A) at which ores were processed primarily for their source material content and (B) at which such byproduct material is deposited, and

(2) ownership of any byproduct material, as defined in section 2014(e)(2) of this title, which resulted from such licensed activity shall be transferred to (A) the United States or (B) in the State in which such activity occurred if such State exercises the option under subsection (b)(1) to acquire land used for the disposal of byproduct material.

Any license which is in effect on the effective date of this section and which is subsequently terminated without renewal shall comply with paragraphs (1) and (2) upon termination.

(b) Transfer of title; health and environmental protection through maintenance of property and materials; use of surface or subsurface estates; first refusal rights of transferor; maintenance, monitoring, and emergency measures and other authorized action; licensee-transferor liability for fraud or negligence; administrative and legal costs limitation; government retransfers under section 7914(b) of this title

(1) (A) The Commission shall require by rule, regulation, or order that prior to the termination of any license which is issued after the effective date of this section, title to the land, including any interests therein (other than land owned by the United States or by a State) which is used for the disposal of any byproduct material, as defined by section 2014(e)(2) of this title, pursuant to such license shall be transferred to—

(i) the United States, or

(ii) the State in which such land is located, at the option of such State,

unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or welfare or to minimize or eliminate danger to life or property. Such determination shall be made in accordance with section 2231 of this title. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 2111 of this title in such manner as will protect the public health, safety, and the environment.

(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, welfare, or environment, the Commission, pur-
suant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission's determination of compliance under subsection (c), assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment. Such custody may be transferred to another officer or instrumentality of the United States only upon approval of the President.

(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection (d), assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, welfare, and the environment.

(4) In the case of any such license under section 2092 of this title, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interests therein (as described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

(5) The Commission may, pursuant to a license, or by rule or order, require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and such other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 2114 of this title. The Secretary or such other Federal agency is authorized to carry out monitoring, maintenance, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after November 8, 1978.

(6) The transfer of title to land or byproduct materials, as defined in section 2014 of this title, to a State or the United States pursuant to this subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Subject to the provisions of paragraph (1)(B) of this subsection, the United States or a State shall not transfer title to material or property acquired under this subsection to any person, unless such transfer is in the same manner as provided under section 7914(h) of this title.

(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 2014(e)(2) of this title, the licensee shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

(c) Compliance with applicable standards and license requirements; determination upon termination of license

Upon termination on any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.

CONSOLIDATION OF LICENSES AND PROCEDURES

1 So in original. Probably should be "of".
shall consolidate, to the maximum extent practicable, licenses and licensing procedures under amendments made by this title [see Effective Date of 1978 Amendment note set out under section 2014 of this title] with licenses and licensing procedures under other authorities contained in the Atomic Energy Act of 1954 [this chapter].'

§ 2114. Authorities of Commission respecting certain byproduct material

(a) Management function

The Commission shall ensure that the management of any byproduct material, as defined in section 2014(e)(2) of this title, is carried out in such manner as—

(1) the Commission deems appropriate to protect the public health and safety and the environment from radiological and non-radiological hazards associated with the processing and with the possession and transfer of such material, taking into account the risk to the public health, safety, and the environment, with due consideration of the economic costs and such other factors as the Commission determines to be appropriate, 1

(2) conforms with applicable general standards promulgated by the Administrator of the Environmental Protection Agency under section 2022 of this title, and

(3) conforms to general requirements established by the Commission, with the concurrence of the Administrator, which are, to the maximum extent practicable, at least comparable to requirements applicable to the possession, transfer, and disposal of similar hazardous material regulated by the Administrator under the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.].

(b) Rules, regulations, or orders for certain activities; civil penalty

In carrying out its authority under this section, the Commission is authorized to—

(1) by rule, regulation, or order require persons, officers, or instrumentalities exempted from licensing under section 2111 of this title to conduct monitoring, perform remedial work, and to comply with such other measures as it may deem necessary or desirable to protect health or to minimize danger to life or property, and in connection with the disposal or storage of such byproduct material; and

(2) make such studies and inspections and to conduct such monitoring as may be necessary.

Any violation by any person other than the United States or any officer or employee of the United States or a State of any rule, regulation, or order or licensing provision, of the Commission established under this section or section 2113 of this title shall be subject to a civil penalty in the same manner and in the same amount as violations subject to a civil penalty under section 2282 of this title. Nothing in this section affects any authority of the Commission under any other provision of this chapter.

(c) Alternative requirements or proposals

In the case of sites at which ores are processed primarily for their source material content or which are used for the disposal of byproduct material as defined in section 2014(e)(2) of this title, a licensee may propose alternatives to specific requirements adopted and enforced by the Commission under this chapter. Such alternative requirements or proposals may take into account local or regional conditions, including geology, topography, hydrology and meteorology. The Commission may treat such alternatives as satisfying Commission requirements if the Commission determines that such alternatives will achieve a level of stabilization and containment of the sites concerned, and a level of protection for public health, safety, and the environment from radiological and nonradiological hazards associated with such sites, which is equivalent to, to the extent practicable, or more stringent than the level which would be achieved by standards and requirements adopted and enforced by the Commission for the same purpose and any final standards promulgated by the Administrator of the Environmental Protection Agency in accordance with section 2022 of this title.

SUBCHAPTER VIII—MILITARY APPLICATION OF ATOMIC ENERGY

§ 2121. Authority of Commission

(a) Research and development; weapons production; hazardous wastes; transfers of technologies

The Commission is authorized to—
(1) conduct experiments and do research and development work in the military application of atomic energy;

(2) engage in the production of atomic weapons, or atomic weapon parts, except that such activities shall be carried on only to the extent that the express consent and direction of the President of the United States has been obtained, which consent and direction shall be obtained at least once each year;

(3) provide for safe storage, processing, transportation, and disposal of hazardous waste (including radioactive waste) resulting from nuclear materials production, weapons production and surveillance programs, and naval nuclear propulsion programs;

(4) carry out research on and development of technologies needed for the effective negotiation and verification of international agreements on control of special nuclear materials and nuclear weapons; and

(5) under applicable law (other than this paragraph) and consistent with other missions of the Department of Energy, make transfers of federally owned or originated technology to State and local governments, private industry, and universities or other nonprofit organizations so that the prospects for commercialization of such technology are enhanced.

(b) Material for Department of Defense use

The President from time to time may direct the Commission (1) to deliver such quantities of special nuclear material or atomic weapons to the Department of Defense for such use as he deems necessary in the interest of national defense to manufacture, produce, or acquire any atomic weapon or utilization facility for military purposes: Provided, however, That such authorization shall not extend to the production of special nuclear material other than that incidental to the operation of such utilization facilities.

(c) Sale, lease, or loan to other Nations of materials for military applications

The President may authorize the Commission or the Department of Defense, with the assistance of the other, to cooperate with another nation and, notwithstanding the provisions of section 2077, 2092, or 2111 of this title, to transfer by sale, lease, or loan to that nation, in accordance with terms and conditions of a program approved by the President—

(1) nonnuclear parts of atomic weapons provided that such nation has made substantial progress in the development of atomic weapons, and other nonnuclear parts of atomic weapons systems involving Restricted Data provided that such transfer will not contribute significantly to that nation's atomic weapon design, development, or fabrication capability; for the purpose of improving that nation's state of training and operational readiness; and

(2) utilization facilities for military applications; and

(3) source, byproduct, or special nuclear material for research on, development of, production of, or use in utilization facilities for military applications; and

(4) source, byproduct, or special nuclear material for research on, development of, or use in atomic weapons: Provided, however, That the transfer of such material to that nation is necessary to improve its atomic weapon design, development, or fabrication capability: And provided further, That such nation has made substantial progress in the development of atomic weapons, whenever the President determines that the proposed cooperation and each proposed transfer arrangement for the nonnuclear parts of atomic weapons and atomic weapons systems, utilization facilities or source, byproduct, or special nuclear material will promote and will not constitute an unreasonable risk to the common defense and security, while such other nation is participating with the United States pursuant to an international arrangement by substantial and material contributions to the mutual defense and security: Provided, however, That the cooperation is undertaken pursuant to an agreement entered into in accordance with section 2153 of this title: And provided further, That if an agreement for cooperation arranged pursuant to this subsection provides for transfer of utilization facilities for military applications the Commission, or the Department of Defense with respect to cooperation it has been authorized to undertake, may authorize any person to transfer such utilization facilities for military applications in accordance with the terms and conditions of this subsection and of the agreement for cooperation.

ENCOURAGING PRIVATE INVESTMENT IN RESEARCH AND TEST REACTORS

Pub. L. 115–439, title I, §106(a), Jan. 14, 2019, 132 Stat. 5577, provided that: "The purpose of this section [amending this section] is to encourage private investment in research and test reactors."

§ 2135. Antitrust provisions governing licenses

(a) Violations of antitrust laws

Nothing contained in this chapter shall relieve any person from the operation of the following Acts, as amended, "An Act to protect trade and commerce against unlawful restraints and monopolies" approved July second, eighteen hundred and ninety; sections seventy-three to seventy-six, inclusive, of an Act entitled "An Act to reduce taxation, to provide revenue for the Government, and for other purposes" approved August twenty-seven, eighteen hundred and ninety-four; "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes" approved October fifteen, nineteen hundred and fourteen; and "An Act to create a Federal Trade Commission, to defined its powers and duties, and for other purposes" approved September twenty-six, nineteen hundred and fourteen; leading to the demonstration of the practical value of such energy which appears to violate or to tend toward the violation of any of the provisions of such laws in the conduct of the licensed activity, the Commission may suspend, revoke, or take such other action as it may deem necessary with respect to any license issued by the Commission under the provisions of this chapter.

(b) Reports to Attorney General

The Commission shall report promptly to the Attorney General any information it may have with respect to any utilization of special nuclear material or atomic energy which appears to violate or to tend toward the violation of any of the foregoing Acts, or to restrict free competition in private enterprise.

(c) Transmissions to Attorney General of copies of license applications; publication of advice; factors considered; exceptions

1. The Commission shall promptly transmit to the Attorney General a copy of any license application provided for in paragraph (2) of this subsection, and a copy of any written request provided for in paragraph (3) of this subsection; and the Attorney General shall, within a reasonable time, but in no event to exceed 180 days after receiving a copy of such application or written request, render such advice to the Commission as he determines to be appropriate in regard to the finding to be made by the Commission pursuant to paragraph (5) of this sub-section. Such advice shall include an explanatory statement as to the reasons or basis therefor.

2. Paragraph (1) of this subsection shall apply to an application for a license to construct or operate a utilization or production facility under section 2133 of this title: Provided, howev-er, That paragraph (1) shall not apply to an application for a license to operate a utilization or production facility for which a construction permit was issued under section 2133 of this title unless the Commission determines such review is advisable on the ground that significant changes in the licensee's activities or proposed activities have occurred subsequent to the previous review by the Attorney General and the Commission under this subsection in connection with the construction permit for the facility.

3. With respect to any Commission permit for the construction of a utilization or production facility issued pursuant to subsection (b) of section 2134 of this title prior to December 19, 1970, any person who intervened or who sought by timely written notice to the Commission to intervene in the construction permit proceedings for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination shall have the right, upon a written request to the Commission, to obtain an antitrust review under this section of the application for an operating license. Such written request shall be made within 25 days after the date of initial Commission publication in the Federal Register of notice of the filing of an application for an operating license for the facility or December 19, 1970, whichever is later.

4. Upon the request of the Attorney General, the Commission shall furnish or cause to be furnished such information as the Attorney General determines to be appropriate for the advice called for in paragraph (1) of this subsection.

5. Promptly upon receipt of the Attorney General's advice, the Commission shall publish the advice in the Federal Register. Where the Attorney General advises that there may be adverse antitrust aspects and recommends that there be a hearing, the Attorney General or his designee may participate as a party in the proceedings thereafter held by the Commission on such licensing matter in connection with the subject matter of his advice. The Commission shall give due consideration to the advice received from the Attorney General and to such evidence as may be provided during the proceedings in connection with such subject matter, and shall make a finding as to whether the activities under the license would create or maintain a situation inconsistent with the antitrust laws as specified in subsection (a).

6. In the event the Commission's finding under paragraph (5) is in the affirmative, the Commission shall also consider, in determining whether the license should be issued or continued, such other factors, including the need for power in the affected area, as the Commission in its judgment deems necessary to protect the public interest. On the basis of its findings, the Commission shall have the authority to issue or continue a license as applied for, to refuse to issue a license, to rescind a license or amend it,
and to issue a license with such conditions as it deems appropriate.

(7) The Commission, with the approval of the Attorney General, may except from any of the requirements of this subsection such classes or types of licenses as the Commission may determine would not significantly affect the applicant's activities under the antitrust laws as specified in subsection (a).

(8) With respect to any application for a construction permit or operating license so issued shall contain such conditions as the Commission deems appropriate to assure that any subsequent findings and orders of the Commission with respect to such matters will be given full force and effect.

(9) APPLICABILITY.—This subsection does not apply to an application for a license to construct or operate a utilization facility or production facility under section 2133 or 2134(b) of this title that is filed on or after August 8, 2005.

(1), (2), (4), and (5) and amended such provisions by extending the time for the Attorney General to give advice from 90 to 180 days and provided for review of licenses once granted under section 2133 of this title, and when the Attorney General recommends that there be a hearing, authorized the Commission to hold hearings and permit the Attorney General to appear as a party and to make a finding as to whether the activities under the license would be inconsistent with the antitrust laws, and in par. (3), provided for a review of the permit issued under section 2134(b) of this title, and added pars. (6) to (8).

1964—Subsec. (a). Pub. L. 88–489 struck out ‘‘...including the provisions which vest title to all special nuclear material in the United States,’’ before ‘‘shall relieve any person’’.

EFFECTIVE DATE OF 2002 AMENDMENT

Amendment by Pub. L. 107–273 effective Nov. 2, 2002, and applicable only with respect to cases commenced on or after Nov. 2, 2002, see section 14103 of Pub. L. 107–273, set out as a note under section 3 of Title 15, Commerce and Trade.

§ 2136. Classes of facilities

The Commission may—

(a) group the facilities licensed either under section 2133 or 2134 of this title into classes which may include either production or utilization facilities or both, upon the basis of the similarity of operating and technical characteristics of the facilities;

(b) define the various activities to be carried on at each such class of facility; and

(c) designate the amounts of special nuclear material available for use by each such facility.

§ 2137. Operators’ licenses

The Commission shall—

(a) prescribe uniform conditions for licensing individuals as operators of any of the various classes of production and utilization facilities licensed in this chapter;
§ 2138. Suspension of licenses during war or national emergency

Whenever the Congress declares that a state of war or national emergency exists, the Commission is authorized to suspend any licenses granted under this chapter if in its judgment such action is necessary to the common defense and security. The Commission is authorized during such period, if the Commission finds it necessary to the common defense and security, to order the recapture of any special nuclear material or to order the operation of any facility licensed under section 2133 or 2134 of this title, and is authorized to order the entry into any plant or facility in order to recapture such material, or to operate such facility. Just compensation shall be paid for any damages caused by the recapture of any special nuclear material or by the operation of any such facility.

TECHNICAL AND OTHER CORRECTIONS

Pub. L. 96–395, title III, §307, June 30, 1980, 94 Stat. 791, provided that: "(a) The Commission is authorized and directed to prepare a plan for improving the technical capability of licensee personnel to safely operate utilization facilities licensed under section 103 or 104b of the Atomic Energy Act of 1954 [sections 2133 and 2134(b) of this title]. In proposing such plan, the Commission shall consider the feasibility of requiring standard mandatory training programs for nuclear facility operators, including classroom study, apprenticeships at the facility, and emergency simulator training. Such plan shall include specific criteria for more intensive training and retraining of operator personnel licensed under section 107 of the Atomic Energy Act of 1954 [this section], and for the licensing of such personnel, to assure—"'

1. conforming the operating license;
2. early identification of accidents, events, or event sequences which may significantly increase the likelihood of an accident; and
3. effective response to any such event or sequence.

Such plan shall include provision for Commission review and approval of the qualifications of personnel conducting any required training and retraining program. The plan shall also include requirements for the renewal of operator licenses including, to the extent practicable, requirements that the operator—

1. has been actively and extensively engaged in the duties listed in such license,
2. has discharged such duties safely to the satisfaction of the Commission,
3. is capable of continuing such duties, and
4. has participated in a requalification training program.

Such plan shall include criteria for suspending or revoking operator licenses. In addition, the Commission shall also consider the feasibility of requiring such licensed operator to pass a requalification test every six months including—

1. written questions, and
2. emergency simulator exams.

The Commission shall transmit to the Congress the plan required by this subsection within six months after the date of the enactment of this Act (June 30, 1980), and shall implement as expeditiously as practicable each element thereof not requiring legislative enactment.

(b) The Nuclear Regulatory Commission is authorized and directed to undertake a study of the feasibility and value of licensing, under section 107 of the Atomic Energy Act of 1954 (this section), plant managers of utilization facilities and senior licensee officers responsible for operation of such facilities. The Commission shall report to the Congress within six months of the date of enactment of this Act (June 30, 1980) on the findings and recommendations of the study required by this subsection and shall expeditiously implement each such recommendation not requiring legislative enactment."
cept as provided in section 2155(b)(2) of this title, no such component, substance, or item which is so
determined by the Commission shall be exported unless the Commission issues a general or
specific license for its export after finding, based on a reasonable judgment of the assur-
ances provided and other information available to the Federal Government, including the Com-
misson, that the following criteria or their equivalent are met: (1) IAEA safeguards as re-
quired by Article III (2) of the Treaty will be applied with respect to such component, sub-
stance, or item; (2) no such component, substance, or item will be used for any nuclear exp-
losive device or for research on or development of any nuclear explosive device; and (3) no such
component, substance, or item will be transferred to the jurisdiction of any other nation or
group of nations unless the prior consent of the United States is obtained for such retransfer;
and after determining in writing that the issuance of such general or specific license or category of licenses will not be inimical to the common defense and security: Provided, That specific license shall not be required for
an export pursuant to this section if the compo-
nent, item or substance is covered by a facility license issued pursuant to section 2155 of this
title.

(c) Exports inimical to common defense and se-
curity of United States

The Commission shall not issue an export li-
cense under the authority(b) if it is
advised by the executive branch, in accord-
ance with the procedures established under section 2155(a) of this title, that the export would be inimical to the common defense and security of the United States.

§ 2142. Domestic medical isotope production

(a) The Commission may issue a license, or grant an amendment to an existing license, for the use in the United States of highly enriched uranium as a target for medical isotope production in a nuclear reactor, only if, in addition to any other requirement of this chapter—

(1) the Commission determines that—

(A) there is no alternative medical isotope production target that can be used in that reactor; and

(B) the proposed recipient of the medical isotope production target has provided assurances that, whenever an alternative medical isotope production target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

(b) As used in this section—

(1) the term “alternative medical isotope production target” means a nuclear reactor target which is enriched to less than 20 percent of the isotope U–235; and

(2) a target “can be used” in a nuclear research or test reactor if—

(A) the target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy; and

§ 2153

(a) Terms, conditions, duration, nature, scope, and other requirements of proposed agreements for cooperation; Presidential exemptions; negotiations; Nuclear Proliferation Assessment Statement

the proposed agreement for cooperation has been submitted to the President, which proposed agreement shall include the terms, conditions, duration, nature, and scope of the cooperation; and shall include the following requirements:

(1) a guaranty by the cooperating party that safeguards as set forth in the agreement for cooperation will be maintained with respect to all nuclear materials and equipment transferred pursuant thereto, and with respect to all special nuclear material used in or produced through the use of such nuclear materials and equipment, so long as the material or equipment remains under the jurisdiction or control of the cooperating party, irrespective of the duration of other provisions in the agreement or whether the agreement is terminated or suspended for any reason;

(2) in the case of non-nuclear-weapon states, a requirement, as a condition of continued United States nuclear supply under the agreement for cooperation, that IAEA safeguards be maintained with respect to all nuclear materials in all peaceful nuclear activities within the territory of such state, under its jurisdiction, or carried out under its control anywhere;

(3) except in the case of those agreements for cooperation arranged pursuant to section 2121(c) of this title, a guaranty by the cooperating party that no nuclear materials and equipment or sensitive nuclear technology to be transferred pursuant to such agreement, and no special nuclear material produced through the use of any nuclear materials and equipment or sensitive nuclear technology transferred pursuant to such agreement, will be used for any nuclear explosive device, or for research on or development of any nuclear explosive device, or for any other military purpose;

(4) except in the case of those agreements for cooperation arranged pursuant to section 2121(c) of this title and agreements for cooperation with nuclear-weapon states, a stipulation that the United States shall have the right to require the return of any nuclear materials and equipment transferred pursuant thereto and any special nuclear material produced through the use thereof if the cooperating party detonates a nuclear explosive device or terminates or abrogates an agreement providing for IAEA safeguards;

(5) a guaranty by the cooperating party that any material or any Restricted Data transferred pursuant to the agreement for cooperation and, except in the case of agreements arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, any production or utilization facility transferred pursuant to the agreement for cooperation or any special nuclear material produced through the use of any such facility or

through the use of any material transferred pursuant to the agreement, will not be transferred to unauthorized persons or beyond the jurisdiction or control of the cooperating party without the consent of the United States;

(6) a guaranty by the cooperating party that adequate physical security will be maintained with respect to any nuclear material transferred pursuant to such agreement and with respect to any special nuclear material used in or produced through the use of any material, production facility, or utilization facility transferred pursuant to the agreement for cooperation will be reprocessed, enriched or (in the case of plutonium, uranium 233, or uranium enriched to greater than twenty percent in the isotope 235, or other nuclear materials which have been irradiated) otherwise altered in form or content without the prior approval of the United States;

(7) except in the case of agreements for cooperation arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, a guaranty by the cooperating party that no material transferred pursuant to the agreement for cooperation and no material used in or produced through the use of any material, production facility, or utilization facility transferred pursuant to the agreement for cooperation will be reprocessed, enriched or recovered from any source or special nuclear material used in any production facility or utilization facility transferred pursuant to the agreement for cooperation, will be stored in any facility that has not been approved in advance by the United States; and

(9) except in the case of agreements for cooperation arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, a guaranty by the cooperating party that any special nuclear material, production facility, or utilization facility produced or constructed under the jurisdiction of the cooperating party by or through the use of any sensitive nuclear technology transferred pursuant to such agreement for cooperation will be subject to all the requirements specified in this subsection.

The President may exempt a proposed agreement for cooperation (except an agreement arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title) from any of the requirements of the foregoing sentence if he determines that inclusion of any such requirement would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security. Except in the case of those agreements for cooperation arranged pursuant to section 2121(c), 2164(b),
2164(c), or 2164(d) of this title, any proposed agreement for cooperation shall be negotiated by the Secretary of State, with the technical assistance and concurrence of the Secretary of Energy; and after consultation with the Commission shall be submitted to the President jointly by the Secretary of State and the Secretary of Energy accompanied by the views and recommendations of the Secretary of State, the Secretary of Energy, and the Nuclear Regulatory Commission. The Secretary of State shall also provide to the President an unclassified Nuclear Proliferation Assessment Statement (A) which shall analyze the consistency of the text of the proposed agreement for cooperation with all the requirements of this chapter, with specific attention to whether the proposed agreement is consistent with each of the criteria set forth in this subsection, and (B) regarding the adequacy of the safeguards and other control mechanisms and the peaceful use assurances contained in the agreement for cooperation to ensure that any assistance furnished thereunder will not be used to further any military or nuclear explosive purpose. Each Nuclear Proliferation Assessment Statement prepared pursuant to this chapter shall be accompanied by a classified annex, prepared in consultation with the Director of Central Intelligence, summarizing relevant classified information. In the case of those agreements for cooperation arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, any proposed agreement for cooperation shall be submitted to the President by the Secretary of Energy or, in the case of those agreements for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(d) of this title which are to be implemented pursuant to the procedures set forth in section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, the Committee on Armed Services of the Senate, but such proposed agreement for cooperation shall not become effective unless the Congress, during the sixty-day period the Congress adopts, and there is enacted, a joint resolution stating in substance that the Congress does not favor the proposed agreement for cooperation: Provided, That the sixty-day period shall not begin until a Nuclear Proliferation Assessment Statement prepared by the Secretary of State, and any annexes thereto, when required by subsection (a), have been submitted to the Congress: Provided further, That an agreement for cooperation exempted by the President pursuant to subsection (a) from any requirement contained in that subsection, or an agreement exempted pursuant to section 8003(a)(1) of title 22, shall not become effective unless the Congress adopts, and there is enacted, a joint resolution stating that the Congress does favor such agreement. During the sixty-day period the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Affairs of the Senate shall each hold hearings on the proposed agreement for cooperation and submit a report to their respective bodies recommending whether it should be approved or disapproved. Any such proposed agreement for cooperation shall be considered pursuant to the procedures set forth in section 2159(l) of this title.

Following submission of a proposed agreement for cooperation (except an agreement for cooperation arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title) to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, the Nuclear Regulatory...
Commission, the Department of State, the Department of Energy, and the Department of Defense shall, upon the request of either of those committees, promptly furnish to those committees their views as to whether the safeguards and other controls contained therein provide an adequate framework to ensure that any exports as contemplated by such agreement will not be inimical to or constitute an unreasonable risk to the common defense and security.

If, after March 10, 1978, the Congress fails to disapprove a proposed agreement for cooperation which exempts the recipient nation from the requirement set forth in subsection (a)(2), such failure to act shall constitute a failure to adopt a resolution of disapproval pursuant to section 2157(b)(3) of this title for purposes of the Commission’s consideration of applications and requests under section 2155(a)(2) of this title and there shall be no congressional review pursuant to section 2157 of this title of any subsequent license or authorization with respect to that state until the first such license or authorization which is issued after twelve months from the elapse of the sixty-day period in which the agreement for cooperation in question is reviewed by the Congress.

(e) Congressional committees informed of initiatives or negotiations relating to cooperation agreements

The President shall keep the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate fully and currently informed of any initiative or negotiations relating to a new or amended agreement for peaceful nuclear cooperation pursuant to this section (except an agreement arranged pursuant to section 2121(c), 2164(b), 2164(c), or 2164(d) of this title, or an amendment thereto).

1985—Subsec. (a). Pub. L. 99–94, §301(a)(3), in provisions following par. (9) inserted “(A) which shall analyze the consistency of the text of the proposed agreement for cooperation with all the requirements of this chapter, with specific attention to whether the proposed agreement is consistent with each of the criteria set forth in this subsection, and (B)” after “Assessment Statement”.

Subsec. (b). Pub. L. 99–94, §301(a)(2), inserted “the President has submitted text of the proposed agreement for cooperation”.

gness adopts, and there is enacted, a joint resolution stating that the Congress does favor such agreement, inserted sentence directing that during the sixty-day period the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate shall each hold hearings on the proposed agreement for cooperation and submit a report to their respective bodies recommending whether it should be approved or disapproved, and substituted “section 2159(i) of this title” for “section 2159 of this title for the consideration of Presidential submissions”.

1978—Pub. L. 95–242 added unlettered paragraphs following subsec. (d) relating to the submission of agency views for a period of 10 consecutive days of continuous session of either House.

Subsec. (a). Pub. L. 95–242 amended and carried forward into pars. (3), (5), and (6) the existing provisions relating to the terms and conditions required for inclusion in all new agreements for cooperation, inserted new paragraphs providing that the President may not propose agreements entailing implementation of sections 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) otherwise than in accordance with the requirements if he determines that inclusion of the requirement would be seriously prejudicial to the achievement of United States nonproliferation objectives or jeopardize the common defense and security for any other reason, provided that agreements be negotiated by the Department of State, with an exception for defense related agreements.

Subsec. (b). Pub. L. 95–242 reenacted existing provisions with only minor changes in punctuation.

Subsec. (c). Pub. “(b) Waiver.—The limitation under subsection (a) shall be waived with respect to a particular country beginning on the date that is 90 days after the date on which the President submits to the appropriate congressional committees a report describing the manner in which such agreement would advance the national security and defense interests of the United States and not contribute to the proliferation of nuclear weapons.
\( \text{SEC. 2. FINDINGS.} \)

\( \text{SECTION 1. SHORT TITLE.} \)

This Act may be cited as the ‘Support for United States-Republic of Korea Civil Nuclear Cooperation Act’.

\( \text{SEC. 2. FINDINGS.} \)

Congress makes the following findings:

(1) In the 60th year of the alliance, the relationship between the United States and the Republic of Korea could not be stronger. It is based on mutual sacrifice, mutual respect, shared interests, and shared responsibility to promote peace and security in the Asia-Pacific region and throughout the world.

(2) North Korea’s nuclear weapons programs, including uranium enrichment and plutonium reprocessing technologies, undermine security on the Korean Peninsula. The United States and the Republic of Korea have a shared interest in preventing further proliferation, including through the implementation of the 2005 Joint Statement of the Six-Party Talks.

(3) Both the United States and Republic of Korea have a shared objective in strengthening the Treaty on the Non-Proliferation of Nuclear Weapons, done at London, Moscow, and Washington July 1, 1968, and a political and commercial interest in working collaboratively to address challenges to their respective peaceful civil nuclear programs.

(4) The nuclear energy agreement referred to in section 3 is scheduled to expire on March 19, 2014. In order to maintain healthy and uninterrupted cooperation in this area between the two countries while a new agreement is being negotiated, Congress should authorize the President to extend the duration of the current agreement until March 19, 2016.

\( \text{SEC. 3. EXTENSION OF NUCLEAR ENERGY AGREEMENT WITH THE REPUBLIC OF KOREA.} \)

Notwithstanding section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153), the President is authorized to take such actions as may be required to extend the term of the Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Atomic Energy, done at Washington November 24, 1972 (24 UST 775; TIAS 7583), and amended on May 15, 1974 (25 UST 1102; TIAS 7842), to a date that is not later than March 19, 2016.

\( \text{SEC. 4. REPORT TO CONGRESS ON PROGRESS OF NEGOTIATIONS BETWEEN THE UNITED STATES AND REPUBLIC OF KOREA.} \)

Not later than 180 days after the date of the enactment of this Act [Feb. 12, 2014], and every 180 days thereafter until a new Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Nuclear Energy is submitted to Congress, the President shall provide to the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives a report on the progress of negotiations on a new civil nuclear cooperation agreement.
§ 2153a. Approval for enrichment after export of source or special nuclear material; export of major critical components of enrichment facilities

(a) Except as specifically provided in any agreement for cooperation, no source or special nuclear material hereafter exported from the United States may be enriched after export without the prior approval of the United States for such enrichment: Provided, That the procedures governing such approvals shall be identical to those set forth for the approval of proposed subsequent arrangements under section 2160 of this title, and any commitments from the recipient which the Secretary of Energy and the Secretary of State deem necessary to ensure that such approval will be obtained prior to such enrichment shall be obtained prior to the submission of the executive branch judgment regarding the export in question and shall be set forth in such submission: And provided further, That no source or special nuclear material shall be exported for the purpose of enrichment or reactor fueling to any nation or group of nations which has, after March 10, 1978, entered into a new or amended agreement for cooperation with the United States, except pursuant to such agreement.

(b) In addition to other requirements of law, no major critical component of any uranium enrichment, nuclear fuel reprocessing, or heavy water production facility shall be exported under any agreement for cooperation (except an agreement for cooperation pursuant to section 2121(c), 2164(b), or 2164(c) of this title) unless such agreement for cooperation specifically designates such components as items to be exported pursuant to the agreement for cooperation. For purposes of this subsection, the term “major critical component” means any component part or group of component parts which the President determines to be essential to the operation of a complete uranium enrichment, nuclear fuel reprocessing, or heavy water production facility.

(2) The authority vested in the President by section 144b of the Act [section 2164(b) of this title] to determine that the proposed cooperation and the proposed communication of Restricted Data referred to in that section will promote and will not constitute an unreasonable risk to the common defense and security: Provided, That each determination made under this paragraph shall be referred to the President and, unless disapproved by him, shall become effective fifteen days after such referral or at such later time as may be specified in the determination.

(3) The authority vested in the President by section 144c of the Act [section 2164(c) of this title] to determine that the proposed cooperation and the communication of the proposed Restricted Data referred to in that section will promote and will not constitute an unreasonable risk to the common defense and security.

(b) Whenever the Secretary of Defense and the Secretary of Energy are unable to agree upon a joint determination under the provisions of subsection (a) of this section, the recommendations of each of them, together with the recommendations of other agencies concerned, shall be referred to the President, and the determination shall be made by the President.

S 3. This order shall not be construed as delegating the function vested in the President by section 91c of the Act [section 2121(c) of this title] of approving proposed arrangements under that section.

S 4. (a) The functions of negotiating and entering into international agreements under the Act [this chapter] shall be performed by or under the authority of the Secretary of State.

(b) International cooperation under the Act [this chapter] shall be subject to the responsibilities of the Secretary of State with respect to the foreign policy of the United States pertinent thereto.

§ 2153b. Export policies relating to peaceful nuclear activities and international nuclear trade

The President shall take immediate and vigorous steps to seek agreement from all nations and groups of nations to commit themselves to
adhere to the following export policies with respect to their peaceful nuclear activities and their participation in international nuclear trade:

(a) Undertakings by transferee nations receiving nuclear material and equipment or sensitive nuclear technology

No nuclear materials and equipment and no sensitive nuclear technology within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be transferred to the jurisdiction of any other nation or group of nations unless the nation or group of nations receiving such transfer commits itself to strict undertakings including, but not limited to, provisions sufficient to ensure that—

(1) no nuclear materials and equipment and no sensitive nuclear technology in, under the jurisdiction of, or under the control of any non-nuclear-weapon state, shall be used for nuclear explosive devices for any purpose or for research or development of nuclear explosive devices for any purpose, except as permitted by Article V, the Treaty;

(2) IAEA safeguards will be applied to all peaceful nuclear activities in, under the jurisdiction of, or under the control of any non-nuclear-weapon state;

(3) adequate physical security measures will be established and maintained by any nation or group of nations on all of its nuclear activities;

(4) no nuclear materials and equipment and no sensitive nuclear technology intended for peaceful purposes in, under the jurisdiction of, or under the control of any nation or group of nations shall be transferred to the jurisdiction of any other nation or group of nations which does not agree to stringent undertakings meeting the objectives of this section; and

(5) no nation or group of nations will assist, encourage, or induce any non-nuclear-weapon state to manufacture or otherwise acquire any nuclear explosive device.

(b) Enrichment of source or special nuclear material only under effective international auspices and inspection

(1) No source or special nuclear material within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be enriched (as described in section 2014(aa)(2) of this title) or reprocessed, no irradiated fuel elements containing such material which are to be removed from a reactor will be altered in form or content, and no fabrication or stockpiling involving plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 prior to placement in a reactor or of irradiated fuel elements prior to transfer as required in subparagraph (1) shall be placed under effective international auspices and inspection.

(c) Establishment of physical security measures

Adequate physical security measures will be established and maintained with respect to all nuclear activities within the territory of each nation and group of nations, under its jurisdiction, or under its control anywhere, and with respect to any international shipment of significant quantities of source or special nuclear material or irradiated source or special nuclear material, which shall also be conducted under international safeguards.

(d) United States military activities

Nothing in this section shall be interpreted to require international control or supervision of any United States military activities.

CODIFICATION

Section was enacted as part of the Nuclear Non-Proliferation Act of 1978, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

EFFECTIVE DATE

Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 603(c) of Pub. L. 95–242, set out as a note under section 3201 of Title 22, Foreign Relations and Intercourse.

DELEGATION OF FUNCTIONS

Secretary of State responsible for performing functions vested in President under this section, see section 2(a) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

§2153c. Renegotiation of agreements for cooperation

(a) Application to existing agreements of undertakings required of new agreements after March 10, 1978

The President shall initiate a program immediately to renegotiate agreements for cooperation in effect on March 10, 1978, or otherwise to obtain the agreement of parties to such agreements for cooperation to the undertakings that
would be required for new agreements under the 1954 Act. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party contains provisions equivalent to any or all of the criteria set forth in section 2153b of the 1954 Act (42 U.S.C. 2153b) with respect to materials and equipment transferred pursuant thereto or with respect to any special nuclear material used in or produced through the use of any such material or equipment, any renegotiated agreement with that cooperating party shall continue to contain an equivalent provision with respect to such transferred materials and equipment and such special nuclear material. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party does not contain provisions with respect to any nuclear materials and equipment which have previously been transferred under an agreement for cooperation with the United States and which are under the jurisdiction or control of the cooperating party and with respect to any special nuclear material which is used in or produced through the use thereof and which is under the jurisdiction or control of the cooperating party, which are equivalent to any or all of those required for new and amended agreements for cooperation under section 123 a. of the 1954 Act (42 U.S.C. 2153(a)), the President shall vigorously seek to obtain the application of such provisions with respect to such nuclear materials and equipment and such special nuclear material. Nothing in this Act or in the 1954 Act shall be deemed to relinquish any rights which the United States may have under any agreement for cooperation in force on March 10, 1978.

(b) Presidential review of export agreement conditions and policy goals

The President shall annually review each of the requirements (1) through (9) set forth for inclusion in agreements for cooperation under section 123 a. of the 1954 Act (42 U.S.C. 2153(a)) and the export policy goals set forth in section 2153b of this title to determine whether it is in the interest of United States non-proliferation objectives to have under an agreement for cooperation with the United States and which is under the jurisdiction or control of the cooperating party and with respect to any special nuclear material which is used in or produced through the use thereof and which is under the jurisdiction or control of the cooperating party, which are equivalent to any or all of those required for new and amended agreements for cooperation under section 123 a. of the 1954 Act (42 U.S.C. 2153(a)), the President shall vigorously seek to obtain the application of such provisions with respect to such nuclear materials and equipment and such special nuclear material. Nothing in this Act or in the 1954 Act shall be deemed to relinquish any rights which the United States may have under any agreement for cooperation in force on March 10, 1978.

(c) Presidential proposals for additional export criteria

If the President proposes enactment of any such requirements or export policies as additional export criteria or to take any other action with respect to such requirements or export policy goals for the purpose of encouraging adherence by nations and groups of nations to such requirements and policies, he shall submit such a proposal together with an explanation thereof to the Congress.

(d) Congressional action

If the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs of the House of Representatives, after reviewing the President's annual report or any proposed legislation, determines that it is in the interest of United States non-proliferation objectives to take any action with respect to such require-
§ 2153d. Authority to continue agreements for cooperation entered into prior to March 10, 1978

(a) The amendments to section 2153 of this title made by this Act shall not affect the authority to continue cooperation pursuant to agreements for cooperation entered into prior to March 10, 1978.

(b) Nothing in this Act shall affect the authority to include dispute settlement provisions, including arbitration, in any agreement made pursuant to an Agreement for Cooperation.

§ 2153e. Protection of environment

The President shall endeavor to provide in any agreement entered into pursuant to section 2153 of this title for cooperation between the parties in protecting the international environment from radioactive, chemical or thermal contaminations arising from peaceful nuclear activities.

§ 2153f. Savings clause; Nuclear Non-Proliferation Act of 1978

(a) All orders, determinations, rules, regulations, permits, contracts, agreements, certificates, licenses, and privileges—

(1) which have been issued, made, granted, or allowed to become effective in the exercise of functions which are the subject of this Act, by (i) any agency or officer, or part thereof, in exercising the functions which are affected by this Act, or (ii) any court of competent jurisdiction, and

(2) which are in effect at the time this Act takes effect, shall continue in effect according to their terms until modified, terminated, superseded, set aside, or repealed as the case may be, by the
§ 2155. Export licensing procedures

(a) Executive branch judgment on export applications; criteria governing United States nuclear exports

No license may be issued by the Nuclear Regulatory Commission (the “Commission”) for the export of any production or utilization facility, or any source material or special nuclear material, including distributions of any material by the Department of Energy under section 2074, 2094, or 2112 of this title, for which a license is required or requested, and no exemption from any requirement for such an export license may be granted by the Commission, as the case may be, until—

1. The Commission has been notified by the Secretary of State that it is the judgment of the executive branch that the proposed export or exemption will not be inimical to the common defense and security, or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes. The Secretary of State shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of Energy, Defense, and Commerce, and the Nuclear Regulatory Commission, for the preparation of the executive branch judgment on export applications under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such applications, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such applications, predetermed procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to resolve the status of all pending applications, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency’s needs at the beginning of the process. Potentially controversial applications should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decisions required under this section. The processing of any export application proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section. The executive branch judgment shall be completed in not more than sixty days from receipt of the

(b) Nothing in this Act shall affect the procedures or requirements applicable to agreements for cooperation entered into pursuant to sections 2121(c), 2164(b), or 2164(c) of this title or arrangements pursuant thereto as it was in effect immediately prior to March 10, 1978.

Codification

Section was enacted as part of the Nuclear Non-Proliferation Act of 1978, and not as part of the Atomic Energy Act of 1954 which comprises this chapter.

Effective Date

Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 608(c) of Pub. L. 95–242, set out as a note under section 3201 of Title 22, Foreign Relations and Intercourse.

Performance of Functions Pending Development of Procedures

The performance of functions the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 2077, 2094, 2112, 2133, 2134, or 2164(a) of this title:

application or request, unless the Secretary of State in his discretion specifically authorizes additional time for consideration of the application or request because it is in the national interest to allow such additional time. The Secretary shall notify the Committee on Foreign Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives of any such authorization. In submitting any such judgment, the Secretary of State shall specifically address the extent to which the export criteria then in effect are met and the extent to which the cooperating party has adhered to the provisions of the applicable agreement for cooperation. In the event he considers it warranted, the Secretary may also address the following additional factors, among others:

(A) whether issuing the license or granting the exemption will materially advance the non-proliferation policy of the United States by encouraging the recipient nation to adhere to the Treaty, or to participate in the undertakings contemplated by section 2153b or 2153c(a) of this title;

(B) whether failure to issue the license or grant the exemption would otherwise be seriously prejudicial to the non-proliferation objectives of the United States; and

(C) whether the recipient nation or group of nations has agreed that conditions substantially identical to the export criteria set forth in section 2156 of this title will be applied by another nuclear-weapon applicant nation or group of nations to the proposed United States export, and whether in the Secretary’s judgment those conditions will be implemented in a manner acceptable to the United States.

The Secretary of State shall provide appropriate data and recommendations, subject to requests for additional data and recommendations, as required by the Commission or the Secretary of Energy, as the case may be; and

(2) the Commission finds, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the criteria in section 2156 of this title or their equivalent, and any other applicable statutory requirements, are met: Provided, That continued cooperation under an agreement for cooperation as authorized in accordance with section 2154 of this title shall not be prevented by failure to meet the provisions of paragraph (4) or (5) of section 2156 of this title for a period of thirty days after March 10, 1978, and for a period of twenty-three months thereafter if the Secretary of State notifies the Commission that the nation or group of nations bound by the relevant agreement has agreed to negotiations as called for in section 2153c(a) of this title; however, nothing in this subsection shall be deemed to relinquish any rights which the United States may have under agreements for cooperation in force on March 10, 1978: Provided further, That if, upon the expiration of such twenty-four month period, the President determines that failure to continue cooperation with any group of nations which has been exempted pursuant to the above proviso from the provisions of paragraph (4) or (5) of section 2156 of this title, but which has not yet agreed to comply with those provisions would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, he may, after notifying the Congress of his determination, extend by Executive order the duration of the above proviso for a period of twelve months, and may further extend the duration of such proviso by one year increments annually thereafter if he again makes such determination and so notifies the Congress. In the event that the Committee on Foreign Affairs of the House of Representatives or the Committee on Foreign Affairs of the Senate reports a joint resolution to take any action with respect to any such extension, such joint resolution will be considered in the House or Senate, as the case may be, under procedures identical to those provided for the consideration of resolutions pursuant to section 2159 of this title: And additionally provided, That the Commission is authorized to (A) make a single finding under this subsection for more than a single application or request, where the applications or requests involve exports to the same country, in the same general time frame, of similar significance for nuclear explosive purposes and under reasonably similar circumstances and (B) make a finding under this subsection that there is no material changed circumstance associated with a new application or request from those existing at the time of the last application or request for an export to the same country, where the prior application or request was approved by the Commission using all applicable procedures of this section, and such finding of no material changed circumstance shall be deemed to satisfy the requirement of this paragraph for findings of the Commission. The decision not to make any such finding in lieu of the findings which would otherwise be required to be made under this paragraph shall not be subject to judicial review: And provided further, That nothing contained in this section is intended to require the Commission independently to conduct or prohibit the Commission from independently conducting country or site specific visitations in the Commission’s consideration of the application of IAEA safeguards.

(b) Requests to be given timely consideration;

Requests to be given timely consideration;

Presidential review if Commission is unable to make required statutory determinations;

Commission review

(1) Timely consideration shall be given by the Commission to requests for export licenses and exemptions and such requests shall be granted upon a determination that all applicable statutory requirements have been met.

(2) If, after receiving the executive branch judgment that the issuance of a proposed export license will not be inimical to the common defense and security, the Commission does not issue the proposed license on a timely basis because it is unable to make the statutory determinations required under this chapter, the Commission shall publicly issue its decision to that
effect, and shall submit the license application to the President. The Commission’s decision shall include an explanation of the basis for the decision and any dissenting or separate views. If, after receiving the proposed license application and reviewing the Commission’s decision, the President determines that withholding the proposed export would be seriously prejudicial to the achievement of United States non-proliferation objectives, or would otherwise jeopardize the common defense and security, the proposed export may be authorized by Executive order: Provided, That prior to any such export, the President shall submit the Executive order, together with his explanation of why, in light of the Commission’s decision, the export should nonetheless be made, to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and shall be referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such proposed export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the proposed export. Any such Executive order shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submisions. And provided further, That the procedures established pursuant to subsection (b) of section 2155a of this title shall provide that the Commission shall immediately initiate review of any application for a license under this section and to the maximum extent feasible shall expeditiously process the application concurrently with the executive branch review, while awaiting the final executive branch judgment. In initiating its review, the Commission may identify a set of concerns and requests for information associated with the projected issuance of such license and shall transmit such concerns and requests to the executive branch which shall address such concerns and requests in its written communications with the Commission. Such procedures shall also provide that if the Commission has not completed action on the application within sixty days after the receipt of an executive branch judgment that the proposed export or exemption is not inimical to the common defense and security or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes, the Commission shall inform the applicant in writing of the reason for delay and provide follow-up reports as appropriate. If the Commission has not completed action by the end of an additional sixty days (a total of one hundred and twenty days from receipt of the executive branch judgment), the President may authorize the proposed export by Executive order, upon a finding that further delay would be excessive and upon making the findings required for such Presidential authorizations under this subsection, and subject to the Congressional review procedures set forth herein. However, if the Commission has commenced procedures for public participation regarding the proposed export under regulations promulgated pursuant to subsection (b) of section 2155a of this title, or—within sixty days after receipt of the executive branch judgment on the proposed export—the Commission has identified and transmitted to the executive branch a set of additional concerns or requests for information, the President may not authorize the proposed export until sixty days after public proceedings are completed or sixty days after a full executive branch response to the Commission’s additional concerns or requests has been made consistent with subsection (a)(1) of this section: Provided further, That nothing in this section shall affect the right of the Commission to obtain data and recommendations from the Secretary of State at any time as provided in subsection (a)(1) of this section.

(c) Additional export criteria

In the event that the House of Representatives or the Senate passes a joint resolution which would adopt one or more additional export criteria, or would modify any such criteria under this chapter, any such joint resolution shall be referred in the other House to the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs of the House of Representatives, as the case may be, and shall be considered by the other House under applicable procedures provided for the consideration of resolutions pursuant to section 2159 of this title.

§ 2155a. Regulations establishing Commission procedures covering grant, suspension, revocation, or amendment of nuclear export licenses or exemptions

(a) Omitted
(b) Within one hundred and twenty days of March 10, 1978, the Commission shall, after consultations with the Secretary of State, promulgate regulations establishing procedures (1) for the granting, suspending, revoking, or amending of any nuclear export license or exemption pursuant to its statutory authority; (2) for public participation in nuclear export licensing proceedings when the Commission finds that such participation will be in the public interest and will assist the Commission in making the statutory determinations required by the 1954 Act, including such public hearings and access to information as the Commission deems appropriate; Provided, That judicial review as to any such finding shall be limited to the determination of whether such finding was arbitrary and capricious; (3) for a public written Commission opinion accompanied by the dissenting or separate views of any Commissioner, in those proceedings where one or more Commissioners have dissenting or separate views on the issuance of an export license; and (4) for public notice of Commission proceedings and decisions, and for recording of minutes and votes of the Commission: Provided further, That until the regulations required by this subsection have been promulgated, the Commission shall implement the provisions of this Act under temporary procedures established by the Commission.

(c) The procedures to be established pursuant to subsection (b) shall constitute the exclusive basis for hearings in nuclear export licensing proceedings before the Commission and, notwithstanding section 189 a. of the 1954 Act [42 U.S.C. 2239(a)], shall not require the Commission to grant any person an on-the-record hearing in such a proceeding.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

DEFINITIONS
For definitions of terms used in this section, see section 3203 of Title 22, Foreign Relations and Intercourse.

§ 2156. Criteria governing United States nuclear exports

The United States adopts the following criteria which, in addition to other requirements of law, will govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology:

(1) IAEA safeguards as required by Article III(2) of the Treaty will be applied with respect to any such material or facilities proposed to be exported, to any such material or facilities previously exported and subject to the applicable agreement for cooperation, and to any special nuclear material used in or produced through the use thereof.

(2) No such material, facilities, or sensitive nuclear technology proposed to be exported or previously exported and subject to the applicable agreement for cooperation, and no special nuclear material produced through the use of such materials, facilities, or sensitive nuclear technology, will be used for any nuclear explosive device or for research on or development of any nuclear explosive device.

(3) Adequate physical security measures will be maintained with respect to such material or facilities proposed to be exported and to any special nuclear material used in or produced through the use thereof. Following the effective date of any regulations promulgated by the Commission pursuant to section 2156a of this title, physical security measures shall be deemed adequate if such measures provide a level of protection equivalent to that required by the applicable regulations.

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and no special nuclear material produced through the use of such material, will be retransferred to the jurisdiction of any other nation or group of nations unless the prior approval of the United States is obtained for such retransfer. In addition to other requirements of law, the United States may approve such retransfer only if the nation or group of nations designated to receive such retransfer agrees that it shall be subject to the conditions required by this section.

(5) No such material proposed to be exported and no special nuclear material produced through the use of such material will be reprocessed, and no irradiated fuel elements containing such material removed from a reactor shall be altered in form or content, unless the prior approval of the United States is obtained for such reprocessing or alteration.

(6) No such sensitive nuclear technology shall be exported unless the foregoing conditions shall be applied to any nuclear material or equipment which is produced or constructed under the jurisdiction of the recipient nation or group of nations by or through the use of any such exported sensitive nuclear technology.

EFFECTIVE DATE
Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 603(c) of Pub. L. 95–242, set out as a note under section 3201 of Title 22, Foreign Relations and Intercourse.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES
The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2156a. Regulations establishing levels of physical security to protect facilities and material

Within sixty days of March 10, 1978, the Commission shall, in consultation with the Secretary of State, the Secretary of Energy, and the Secretary of Defense, promulgate (and may from time to time amend) regulations establishing the levels of physical security which in its judgment are no less strict than those established by any international guidelines to which the United States subscribes and which in its judgment will provide adequate protection for facilities and material referred to in paragraph (3) of section 2156 of this title taking into consideration variations in risks to security as appropriate.
§ 2157. Additional export criterion and procedures

(a) As a condition of continued United States export of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology to non-nuclear-weapon states, no such export shall be made unless IAEA safeguards are maintained with respect to all peaceful nuclear activities in, under the jurisdiction of, or carried out under the control of such state at the time of the export.

(2) The President shall seek to achieve adherence to the foregoing criterion by recipient non-nuclear-weapon states.

(b) The criterion set forth in subsection (a) shall be applied as an export criterion with respect to any application for the export of materials, facilities, or technology specified in subsection (a) which is filed after eighteen months from March 10, 1978, or for any such application under which the first export would occur at least twenty-four months after March 10, 1978, except as provided in the following paragraphs:

(1) If the Commission or the Department of Energy, as the case may be, is notified that the President has determined that failure to approve an export to which this subsection applies because such criterion has not yet been met would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, the license or authorization may be issued subject to other applicable requirements of the law: Provided, That no such export of any production or utilization facility or of any source or special nuclear material (intended for use as fuel in any production or utilization facility) which has been licensed or authorized pursuant to this subsection shall be made to any non-nuclear-weapon state which has failed to meet such criterion until the first such license or authorization with respect to such state is submitted to the Congress (together with a detailed assessment of the reasons underlying the President’s determination, the judgment of the executive branch required under section 2155 of this title, and any Commission opinion and views) for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but such export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that the Congress does not favor the proposed export. Any such license or authorization shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

(2) If the Congress adopts a resolution of disapproval pursuant to paragraph (1), no further export of materials, facilities, or technology specified in subsection (a) shall be permitted for the remainder of that Congress, unless such state meets the criterion or the President notifies the Congress that he has determined that significant progress has been made in achieving adherence to such criterion by such state or that United States foreign policy interests dictate reconsideration and the Congress, pursuant to the procedures of paragraph (1), does not adopt a concurrent resolution stating in substance that it disagrees with the President’s determination.

(3) If the Congress does not adopt a resolution of disapproval with respect to a license or authorization submitted pursuant to paragraph (1), the criterion set forth in subsection (a) shall not be applied as an export criterion with respect to exports of materials, facilities and technology specified in subsection (a) to that state: Provided, That the first license or authorization with respect to that state which is issued pursuant to this paragraph after twelve months from the lapse of the sixty-day period specified in paragraph (1), and the first such license or authorization which is issued after each twelve-month period thereafter, shall be submitted to the Congress for review pursuant to the procedures specified in paragraph (1): Provided further, That if the Congress adopts a resolution of disapproval during any review period provided for by this
paragraph, the provisions of paragraph (2) shall apply with respect to further exports to such state.

Performance of Functions Pending Development of Procedures

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days (after Mar. 10, 1978) are allowed for establishing those procedures, see section 2(b), (d) of Ex. § 2158. Conduct resulting in termination of nuclear exports

(a) No nuclear materials and equipment or sensitive nuclear technology shall be exported to—

(1) any non-nuclear-weapon state that is found by the President to have, at any time after March 10, 1978,

(A) detonated a nuclear explosive device; or

(B) terminated or abrogated IAEA safeguards; or

(C) materially violated an IAEA safeguards agreement; or

(D) engaged in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President’s judgment, represent sufficient progress toward terminating such activities; or

(2) any nation or group of nations that is found by the President to have, at any time after March 10, 1978,

(A) materially violated an agreement for cooperation with the United States, or, with respect to material or equipment not supplied under an agreement for cooperation, materially violated the terms under which such material or equipment was supplied or the terms of any commitments obtained with respect thereto pursuant to section 2153(a) of this title; or

(B) assisted, encouraged, or induced any non-nuclear-weapon state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President’s judgment, represent sufficient progress toward terminating such assistance, encouragement, or inducement; or

(C) entered into an agreement after March 10, 1978, for the transfer of reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapon state except in connection with an international fuel cycle evaluation in which the United States is a participant or pursuant to a subsequent international agreement or understanding to which the United States subscribes;

unless the President determines that cessation of such exports would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security: Provided, That prior to the effective date of any such determination, the President’s determination, together with a report containing the reasons for his determination, shall be submitted to the Congress and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate for a period of sixty days of continuous session (as defined in section 2159(g) of this title), but any such determination shall not become effective if during such sixty-day period the Congress adopts, and there is enacted, a joint resolution stating in substance that it does not favor the determination. Any such determination shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

(b)(1) Notwithstanding any other provision of law, including specifically section 2151 of this title, and except as provided in paragraphs (2) and (3), no nuclear materials and equipment or sensitive nuclear technology, including items and assistance authorized by section 2077(b) of this title and regulated under part 810 of title 10, Code of Federal Regulations, and nuclear-related items on the Commerce Control List maintained under part 774 of title 15 of the Code of Federal Regulations, shall be exported or reexported, or transferred or retransferred whether directly or indirectly, and no Federal agency shall issue any license, approval, or authorization for the export or reexport, or transfer, of these items or assistance (as defined in this paragraph) to any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which has been determined by the Secretary of State under section 2371(a) of title
22, section 4605(j)(1) of title 50, or section 2780(d) of title 22 to have repeatedly provided support for acts of international terrorism).

(2) This subsection shall not apply to exports, reexports, transfers, or retransfers of radiation monitoring technologies, surveillance equipment, seals, cameras, tamper-indication devices, nuclear detectors, monitoring systems, or equipment necessary to safely store, transport, or remove hazardous materials, whether such items, services, or information are regulated by the Department of Energy, the Department of Commerce, or the Commission, except to the extent that such technologies, equipment, seals, cameras, devices, detectors, or systems are available for use in the design or construction of nuclear reactors or nuclear weapons.

(3) The President may waive the application of paragraph (1) to a country if the President determines and certifies to Congress that the waiver will not result in any increased risk that the country receiving the waiver will acquire nuclear weapons, nuclear reactors, or any materials or components of nuclear weapons and —

(A) the government of such country has not within the preceding 12-month period willfully aided or abetted the international proliferation of nuclear explosive devices to individuals or groups or willfully aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

(B) in the judgment of the President, the government of such country has provided adequate, verifiable assurances that it will cease its support for acts of international terrorism;

(C) the waiver of that paragraph is in the vital national security interest of the United States; or

(D) such a waiver is essential to prevent or respond to a serious radiological hazard in the country receiving the waiver that may or does threaten public health and safety.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12358, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

§ 2159. Congressional review procedures

(a) Committee consideration of Presidential submissions; reports

Not later than forty-five days of continuous session of Congress after the date of transmittal to the Congress of any submission of the President required by section 2155(a)(2), 2155(b)(2), 2157(b), 2158, 2160(a)(3), or 2160(f)(1)(A) of this title, the Committees on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives shall each submit a report to its respective House on its views and recommendations respecting such Presidential submission together with a resolution, as defined in subsection (f), stating in substance that the Congress approves or disapproves such submission, as the case may be: Provided. That if any such committee has not reported such a resolution at the end of such forty-five day period, such committee shall be deemed to be discharged from further consideration of such submission. If no such resolution has been reported at the end of such period, the first resolution, as defined in subsection (f), which is introduced within five days thereafter within such House shall be placed on the appropriate calendar of such House.

(b) Consideration of resolution by respective Houses of Congress

When the relevant committee or committees have reported such a resolution (or have been discharged from further consideration of such a resolution pursuant to subsection (a)) or when a resolution has been introduced and placed on the appropriate calendar pursuant to subsection (a), as the case may be, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution. The
motion is highly privileged and is not debatable. The motion shall not be subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(c) Debate

Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than ten hours, which shall be divided equally between individuals favoring and individuals opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to a motion to postpone, or a motion to reconsider the vote by which the resolution is agreed to or disagreed to shall not be in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to shall not be in order. No amendment to any concurrent resolution pursuant to the procedures of this section is in order except as provided in subsection (d).

(d) Vote on final approval

Immediately following (1) the conclusion of the debate on such concurrent resolution, (2) a single quorum call at the conclusion of debate if requested in accordance with the rules of the appropriate House, and (3) the consideration of an amendment introduced by the Majority Leader or his designee to insert the phrase, “does not,” in lieu of the word “does” if the resolution under consideration is a concurrent resolution of approval, the vote on final approval of the resolution shall occur.

(e) Appeals from decisions of Chair

Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to such a resolution shall be decided without debate.

(f) Resolution

For the purposes of subsections (a) through (e) of this section, the term “resolution” means a concurrent resolution of the Congress, the matter after the resolving clause of which is as follows: “That the Congress (does or does not) favor the proposed agreement for cooperation transmitted to the Congress by the President on”. The blank spaces therein to be appropriately filled, and the affirmative or negative phrase within the parenthesis to be appropriately selected.

(g) Continuity of Congressional sessions; computation of time

(1) Except as provided in paragraph (2), for the purposes of this section—

(A) continuity of session is broken only by an adjournment of Congress sine die at the end of a Congress; and

(B) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.

(2) For purposes of this section insofar as it applies to section 2153 of this title—

(A) continuity of session is broken only by an adjournment of Congress sine die at the end of a Congress; and

(B) the days on which either House is not in session because of an adjournment of more than three days are excluded in the computation of any period of time in which Congress is in continuous session.

(h) Supersedure or change in rules

This section is enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by subsection (f) of this section; and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(i) Joint resolutions

(1) For the purposes of this subsection, the term “joint resolution” means—

(A) for an agreement for cooperation pursuant to section 2153 of this title, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress (does or does not) favor the proposed agreement for cooperation transmitted to the Congress by the President on”. The blank spaces therein to be appropriately filled, and the affirmative or negative phrase within the parenthesis to be appropriately selected.

(B) for a determination under section 2158 of this title, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress does not favor the determination transmitted to the Congress by the President on”. The blank spaces therein to be appropriately filled, and the affirmative or negative phrase within the parenthesis to be appropriately selected.

(C) for a subsequent arrangement under section 203 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress does not favor the subsequent arrangement to the Agreement for Cooperation Between the Government of the United States of America and the Government of India Concerning Peaceful Uses of Nuclear Energy that was transmitted to Congress by the President on September 10, 2008.”.

with the date of the transmission of the proposed agreement for cooperation inserted in the blank, and the affirmative or negative phrase within the parenthesis appropriately selected.

(2) On the day on which a proposed agreement for cooperation is submitted to the House of Representatives and the Senate under section 2153(d) of this title, a joint resolution with respect to such agreement for cooperation shall be introduced (by request) in the House by the chairman of the Committee on Foreign Affairs for himself and the ranking minority member of the Committee, or by Members of the House designated by the chairman and ranking minority member; and shall be introduced (by request) in
the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

The Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(3) All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee or committees, and all joint resolutions introduced in the Senate shall be referred to the Committee on Foreign Relations and in addition, in the case of a proposed agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, the Committee on Armed Services.

(4) If the committee of either House to which a joint resolution has been referred has not reported it at the end of 45 days after its introduction (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15 days after its introduction), the committee shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter; except that, in the case of a joint resolution which has been referred to more than one committee, if before the end of that 45-day period (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15-day period) one such committee has reported the joint resolution, any other committee to which the joint resolution was referred shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter.

(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

The Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.
§ 2160. Subsequent arrangements

(a) Consultation and concurrence; negotiations of a policy nature; notice of proposed subsequent arrangements; Nuclear Proliferation Assessment Statement; reprocessing of material

(1) Prior to entering into any proposed subsequent arrangement under an agreement for cooperation (other than an agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title), the Secretary of Energy shall obtain the concurrence of the Secretary of State and shall consult with the Commission, and the Secretary of Defense: Provided, That the Secretary of State shall have the leading role in any negotiations of a policy nature pertaining to any proposed subsequent arrangement regarding arrangements for the storage or disposition of irradiated fuel elements or approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of source or special nuclear material, production or utilization facilities, or nuclear technology. Notice of any proposed subsequent arrangement shall be published in the Federal Register, together with the written determination of the Secretary of Energy that such arrangement will not be inimical to the common defense and security, and such proposed subsequent arrangement shall not take effect before fifteen days after publication. Whenever the Secretary of State is required to prepare a Nuclear Proliferation Assessment Statement pursuant to paragraph (2) of this subsection, notice of the proposed subsequent arrangement which is the subject of the requirement to prepare a Nuclear Proliferation Assessment Statement shall not be published until after the receipt by the Secretary of Energy of such Statement or the expiration of the time authorized by subsection (c) for the preparation of such Statement, whichever occurs first.

(2) If in the view of the Secretary of State, Secretary of Energy, Secretary of Defense, or the Commission a proposed subsequent arrangement might significantly contribute to proliferation, the Secretary of State, in consultation with such Secretary or the Commission, shall prepare an unclassified Nuclear Proliferation Assessment Statement with regard to such proposed subsequent arrangement regarding the adequacy of the safeguards and other control mechanisms and the application of the peaceful use assurances of the relevant agreement to ensure that assistance to be furnished pursuant to the subsequent arrangement will not be used to further any military or nuclear explosive purpose. For the purposes of this section, the term “subsequent arrangements” means arrangements entered into by any agency or department of the United States Government with respect to cooperation with any nation or group of nations (but not purely private or domestic arrangements) involving—

(A) contracts for the furnishing of nuclear materials and equipment;

(B) approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of any source or special nuclear material, production or utilization facility, or nuclear technology;

(C) authorization for the distribution of nuclear materials and equipment pursuant to this chapter which is not subject to the procedures set forth in section 2141(b), section 2155, or section 2159(b) of this title;

(D) arrangements for physical security;

(E) arrangements for the storage or disposition of irradiated fuel elements;

(F) arrangements for the application of safeguards with respect to nuclear materials and equipment; or

(G) any other arrangement which the President finds to be important from the standpoint of preventing proliferation.

(3) The United States will give timely consideration to all requests for prior approval, when required by this chapter, for the reprocessing of material proposed to be exported, previously exported and subject to the applicable agreement for cooperation, or special nuclear material produced through the use of such material or a production or utilization facility transferred pursuant to such agreement for cooperation, or to the altering of irradiated fuel elements containing such material, and additionally, to the maximum extent feasible, will attempt to expedite such consideration when the terms and conditions for such actions are set forth in such agreement for cooperation or in some other international agreement executed by the United States and subject to congressional review procedures comparable to those set forth in section 2153 of this title.

(4) All other statutory requirements under other sections of this chapter for the approval or conduct of any arrangement subject to this subsection shall continue to apply and any other such requirements for prior approval or conditions for entering such arrangements shall also be satisfied before the arrangement takes effect pursuant to paragraph (1).

(b) Reports to Congressional committees; increase in risk of proliferation

With regard to any special nuclear material exported by the United States or produced through the use of any nuclear materials and equipment or sensitive nuclear technology exported by the United States—

(1) the Secretary of Energy may not enter into any subsequent arrangement for the retransfer of any such material to a third country for reprocessing, for the reprocessing of any such material, or for the subsequent retransfer of any plutonium in quantities greater than 500 grams resulting from the reprocessing of any such material, until he has provided the Committee on Foreign Relations of the Senate with a report containing his reasons for entering into such arrangement and a period of 15 days of continuous session (as defined in section 2153(g) of this title) has elapsed: Provided, however, That if in the view of the President an emergency exists due to unforeseen circumstances requiring immediate entry into a subsequent arrangement, such period shall consist of fifteen calendar days;

(2) the Secretary of Energy may not enter into any subsequent arrangement for the re-
processing of any such material in a facility which has not processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to March 10, 1978, or for subsequent retransfer to a non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, unless in his judgment, and that of the Secretary of State, such reprocessing or retransfer will not result in a significant increase of the risk of proliferation beyond that which exists at the time that approval is requested. Among all the factors in making this judgment, foremost consideration will be given to whether or not the reprocessing or retransfer will take place under conditions that will ensure timely warning to the United States of any diversion well in advance of the time at which the non-nuclear-weapon state could transform the diverted material into a nuclear explosive device; and

(3) the Secretary of Energy shall attempt to ensure, in entering into any subsequent arrangement for the reprocessing of any such material in any facility that has processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to March 10, 1978, or for the subsequent retransfer to any non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, that such reprocessing or retransfer shall take place under conditions comparable to those which in his view, and that of the Secretary of State, satisfy the standards set forth in paragraph (2).

(c) Procedures for consideration of requests for subsequent arrangements

The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce and the Nuclear Regulatory Commission for the consideration of requests for subsequent arrangements under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such requests, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurance or evidentiary showings, for the decisions required under this section. Further, such procedures shall specify that if he intends to prepare a Nuclear Proliferation Assessment Statement, the Secretary of State shall declare in his response to the Department of Energy. If the Secretary of State declares that he intends to prepare such a Statement, he shall do so within sixty days of his receipt of a copy of the proposed subsequent arrangement (during which time the Secretary of Energy may not enter into the subsequent arrangement), unless pursuant to the Secretary of State's request, the President waives the sixty-day requirement and notifies the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of such waiver and the justification therefor. The processing of any subsequent arrangement proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section.

(d) Activities not prohibited, precluded, or limited

Nothing in this section is intended to prohibit, permanently or unconditionally, the reprocessing of spent fuel owned by a foreign nation which fuel has been supplied by the United States, to preclude the United States from full participation in the International Nuclear Fuel Cycle Evaluation provided for in section 3224 of title 22; to in any way limit the presentation or consideration in that evaluation of any nuclear fuel cycle by the United States or any other participant; nor to prejudice open and objective consideration of the results of the evaluation.

(e) Jurisdiction of Secretary of Energy

Notwithstanding section 7172(d) of this title, the Secretary of Energy, and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section.

(f) Subsequent arrangements involving direct or indirect commitment of United States for storage or other disposition of foreign spent nuclear fuel in United States

(1) With regard to any subsequent arrangement under subsection (a)(2)(E) (for the storage or disposition of irradiated fuel elements), where such arrangement involves a direct or indirect commitment of the United States for the storage or other disposition, interim or permanent, of any foreign spent nuclear fuel in the United States, the Secretary of Energy may not enter into any such subsequent arrangement, unless a (A)(1) Such commitment of the United States has been submitted to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such commitment shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the
committee, any such commitment to be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions; or (ii) if the President has submitted a detailed generic plan for such disposition or storage in the United States to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title), which plan has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate and has not been disapproved during such sixty-day period by the adoption of a concurrent resolution stating in substance that Congress does not favor the plan; and the commitment is subject to the terms of an effective plan.

Any such plan shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions;

(B) The Secretary of Energy has complied with subsection (a); and

(C) The Secretary of Energy has complied, or in the arrangement will comply with all other statutory requirements of this chapter, under sections 2074 and 2075 of this title and any other applicable sections, and any other requirements of law.

(2) Paragraph (1) shall not apply to the storage or other disposition in the United States of limited quantities of foreign spent nuclear fuel if the President determines that (A) a commitment under section 2074 or 2075 of this title of the United States for storage or other disposition of such limited quantities in the United States is required by an emergency situation, (B) it is in the national interest to take such immediate action, and (C) he notifies the Committees on Foreign Affairs and Science, Space, and Technology of the House of Representatives and the Committees on Foreign Relations and Energy and Natural Resources of the Senate of the determination and action, with a detailed explanation and justification thereof, as soon as possible.

(3) Any plan submitted by the President under paragraph (1) shall include a detailed discussion, with detailed information, and any supporting documentation thereof, relating to policy objectives, technical description, geographic information, cost data and justifications, legal and regulatory considerations, environmental impact information and any related international agreements, arrangements or understandings.

(4) For the purposes of this subsection, the term "foreign spent nuclear fuel" shall include any nuclear fuel irradiated in any nuclear power reactor located outside of the United States and operated by any foreign legal entity, government or nongovernment, regardless of the legal ownership or other control of the fuel or reactor and regardless of the origin or licensing of the fuel or reactor, but not including fuel irradiated in a research reactor.

§ 2160c. Consultation with Department of Defense concerning certain exports and subsequent arrangements

(a) In addition to other applicable requirements—

(1) a license may be issued by the Nuclear Regulatory Commission under this chapter for the export of special nuclear material described in subsection (b); and

(2) approval may be granted by the Secretary of Energy under section 2160 of this title for the transfer of special nuclear material described in subsection (b);

only after the Secretary of Defense has been consulted on whether the physical protection of that material during the export or transfer will be adequate to deter theft, sabotage, and other acts of international terrorism which would result in the diversion of that material. If, in the view of the Secretary of Defense based on all available intelligence information, the export or transfer might be subject to a genuine terrorist threat, the Secretary shall provide to the Nuclear Regulatory Commission or the Secretary of Energy, as appropriate, his written assessment of the risk and a description of the actions the Secretary of Defense considers necessary to upgrade physical protection measures.

(b) Subsection (a) applies to the export or transfer of more than 2 kilograms of plutonium or more than 5 kilograms of uranium enriched to more than 20 percent in the isotope 233 or the isotope 235.

Except as provided in subsection (b), the Commission may issue a license for the export of highly enriched uranium to be used as a fuel or target in a nuclear research or test reactor only if, in addition to any other requirement of this chapter, the Commission determines that—

(1) there is no alternative nuclear reactor fuel or target enriched in the isotope 235 to a lesser percent than the proposed export, that can be used in that reactor;

(2) the proposed recipient of that uranium has provided assurances that, whenever an alternative nuclear reactor fuel or target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

(3) the United States Government is actively developing an alternative nuclear reactor fuel or target that can be used in that reactor.

(b) Medical isotope production

(1) Definitions

In this subsection:

(A) Highly enriched uranium

The term ‘‘highly enriched uranium’’ means uranium enriched to include concentration of U–235 above 20 percent.

(B) Medical isotope

The term ‘‘medical isotope’’ includes Molybdenum 99, Iodine 131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

(C) Radiopharmaceutical

The term ‘‘radiopharmaceutical’’ means a radioactive isotope that—

(i) contains byproduct material combined with chemical or biological material; and

(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

(D) Recipient country

The term ‘‘recipient country’’ means Canada, Belgium, France, Germany, and the Netherlands.

(2) Licenses

The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched uranium for medical isotope production if, in addition to any other requirements of this chapter (except subsection (a)), the Commission determines that—

(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

(i) uses an alternative nuclear reactor fuel; or

(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.
(3) Review of physical protection requirements

(A) In general

The Commission shall review the adequacy of physical protection requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

(B) Imposition of additional requirements

If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

(4) First report to Congress

(A) NAS study

The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;

(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

(B) Feasibility

For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;

(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

(C) Report by the Secretary

Not later than 5 years after August 8, 2005, the Secretary shall submit to Congress a report that—

(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not later than the date that is 4 years after the date of submission of the report.

(5) Second report to Congress

If the study of the National Academy of Sciences determines under paragraph (4)(A)(i) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after August 8, 2005, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

(6) Certification

At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

(7) Sunset provision

After the Secretary submits a certification under paragraph (6), the Commission shall, by rule, terminate its review of export license applications under this subsection.

(c) Medical production license sunset

Effective 7 years after January 2, 2013, the Commission may not issue a license for the export of highly enriched uranium from the United States for the purposes of medical isotope production.

(d) Medical production license extension

The period referred to in subsection (c) may be extended for no more than 6 years if, no earlier than 6 years after January 2, 2013, the Secretary of Energy certifies to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate that—

(1) there is insufficient global supply of molybdenum-99 produced without the use of highly enriched uranium available to satisfy the domestic United States market; and

(2) the export of United States-origin highly enriched uranium for the purposes of medical isotope production is the most effective temporary means to increase the supply of molybdenum-99 to the domestic United States market.

(e) Public notice

To ensure public review and comment, the development of the certification described in subsection (d) shall be carried out through announcement in the Federal Register.
(f) Joint certification

(1) In general

In accordance with paragraph (2), the ban on the export of highly enriched uranium for purposes of medical isotope production referred to in subsections (c) and (d) shall not go into effect unless the Secretary of Energy and the Secretary of Health and Human Services have jointly certified that—

(A) there is a sufficient supply of molybdenum-99 produced without the use of highly enriched uranium available to meet the needs of patients in the United States; and

(B) it is not necessary to export United States-origin highly enriched uranium for the purposes of medical isotope production in order to meet United States patient needs.

(2) Time of certification

The joint certification under paragraph (1) shall be made not later than 7 years after January 2, 2013, except that, if the period referred to in subsection (c) is extended under subsection (d), the 7-year deadline under this paragraph shall be extended by a period equal to the period of such extension under subsection (d).

(g) Suspension of medical production license

At any time after the restriction of export licenses provided for in subsection (c) becomes effective, if there is a critical shortage in the supply of medical isotope production referred to in subsection (d), the 7-year deadline under this paragraph shall be extended by a period equal to the period of such extension under subsection (d).

(h) Definitions

As used in this section—

(1) the term “alternative nuclear reactor fuel or target” means a nuclear reactor fuel or target which is enriched to less than 20 percent in the isotope U–235;

(2) the term “highly enriched uranium” means uranium enriched to 20 percent or more in the isotope U–235;

(3) a fuel or target “can be used” in a nuclear research or test reactor if—

(A) the fuel or target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy; and

(B) use of the fuel or target will permit the large majority of ongoing and planned experiments and medical isotope production to be conducted in the reactor without a large percentage increase in the total cost of operating the reactor; and

(4) the term “medical isotope” includes molybdenum-99, iodine-131, xenon-133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic or therapeutic procedures or for research and development.

(2) Time of certification

The joint certification under paragraph (1) shall be made not later than 7 years after January 2, 2013, except that, if the period referred to in subsection (c) is extended under subsection (d), the 7-year deadline under this paragraph shall be extended by a period equal to the period of such extension under subsection (d).

(3) a fuel or target “can be used” in a nuclear research or test reactor if—

(A) there is a sufficient supply of molybdenum-99 produced without the use of highly enriched uranium available to meet the needs of patients in the United States; and

(B) it is not necessary to export United States-origin highly enriched uranium for the purposes of medical isotope production in order to meet United States patient needs.

(a) Transmission to Congress of nuclear agreements with Iran and verification assessment with respect to such agreements

(1) Transmission of agreements

Not later than 5 calendar days after reaching an agreement with Iran relating to the nuclear program of Iran, the President shall transmit to the appropriate congressional committees and leadership—

(A) the agreement, as defined in subsection (h)(1), including all related materials and annexes;

(B) a verification assessment report of the Secretary of State prepared under paragraph (2) with respect to the agreement; and

(C) a certification that—

(i) the agreement includes the appropriate terms, conditions, and duration of the agreement’s requirements with respect to Iran’s nuclear activities and provisions describing any sanctions to be waived, suspended, or otherwise reduced by the United States, and any other nation or entity, including the United Nations; and

(ii) the President determines the agreement meets United States non-proliferation objectives, does not jeopardize the common defense and security, provides an adequate framework to ensure that Iran’s nuclear activities permitted thereunder will not be inimical to or constitute an unreasonable risk to the common defense and security, and ensures that Iran’s nuclear activities permitted thereunder will not be used to further any nuclear-related military or nuclear explosive purpose, including for any research on or development of any nuclear explosive device or any other nuclear-related military purpose.

(ii) the President determines the agreement meets United States non-proliferation objectives, does not jeopardize the common defense and security, provides an adequate framework to ensure that Iran’s nuclear activities permitted thereunder will not be inimical to or constitute an unreasonable risk to the common defense and security, and ensures that Iran’s nuclear activities permitted thereunder will not be used to further any nuclear-related military or nuclear explosive purpose, including for any research on or development of any nuclear explosive device or any other nuclear-related military purpose.
(2) Verification assessment report

(A) In general

The Secretary of State shall prepare, with respect to an agreement described in paragraph (1), a report assessing—

(i) the extent to which the Secretary will be able to verify that Iran is complying with its obligations and commitments under the agreement;
(ii) the adequacy of the safeguards and other control mechanisms and other assurances contained in the agreement with respect to Iran’s nuclear program to ensure Iran’s activities permitted thereunder will not be used to further any nuclear-related military or nuclear explosive purpose, including for any research on or development of any nuclear explosive device or any other nuclear-related military purpose; and
(iii) the capacity and capability of the International Atomic Energy Agency to effectively implement the verification regime required by or related to the agreement, including whether the International Atomic Energy Agency will have sufficient access to investigate suspicious sites or allegations of covert nuclear-related activities and whether it has the required funding, manpower, and authority to undertake the verification regime required by or related to the agreement.

(B) Assumptions

In preparing a report under subparagraph (A) with respect to an agreement described in paragraph (1), the Secretary shall assume that Iran could—

(i) use all measures not expressly prohibited by the agreement to conceal activities that violate its obligations and commitments under the agreement; and
(ii) alter or deviate from standard practices in order to impede efforts to verify that Iran is complying with those obligations and commitments.

(C) Classified annex

A report under subparagraph (A) shall be transmitted in unclassified form, but shall include a classified annex prepared in consultation with the Director of National Intelligence, summarizing relevant classified information.

(3) Exception

(A) In general

Neither the requirements of subparagraphs (B) and (C) of paragraph (1), nor subsections (b) through (g) of this section, shall apply to an agreement described in subsection (h)(6) or to the EU-Iran Joint Statement made on April 2, 2015.

(B) Additional requirement

(6) Exception

The prohibitions under paragraphs (3) through (5) do not apply to any new deferral, waiver, or other suspension of statutory sanctions pursuant to the Joint Plan of Action if that deferral, waiver, or other suspension is made—

(A) consistent with the law in effect on May 22, 2015; and

(B) not later than 45 calendar days before the transmission by the President of an agreement, assessment report, and certification under subsection (a).

(7) Definition

In the House of Representatives, for purposes of this subsection, the terms “transmittal,” “transmitted,” and “transmission” mean transmittal, transmitted, and transmission, respectively, to the Speaker of the House of Representatives.

c) Effect of congressional action with respect to nuclear agreements with Iran

(1) Sense of Congress

It is the sense of Congress that—

(A) the sanctions regime imposed on Iran by Congress is primarily responsible for bringing Iran to the table to negotiate on its nuclear program;

(B) these negotiations are a critically important matter of national security and foreign policy for the United States and its closest allies;

(C) this section does not require a vote by Congress for the agreement to commence;

(D) this section provides for congressional review, including, as appropriate, for approval, disapproval, or no action on statutory sanctions relief under an agreement; and

(E) even though the agreement may commence, because the sanctions regime was imposed by Congress and only Congress can permanently modify or eliminate that regime, it is critically important that Congress have the opportunity, in an orderly and deliberative manner, to consider and, as appropriate, take action affecting the statutory sanctions regime imposed by Congress.

(2) In general

Notwithstanding any other provision of law, action involving any measure of statutory sanctions relief by the United States pursuant to an agreement subject to subsection (a) or the Joint Plan of Action—

(A) may be taken, consistent with existing statutory requirements for such action, if, during the period for review provided in subsection (b), there is enacted a joint resolution stating in substance that the Congress does favor the agreement;

(B) may not be taken if, during the period for review provided in subsection (b), there is enacted a joint resolution stating in substance that the Congress does not favor the agreement; or

(C) may be taken, consistent with existing statutory requirements for such action, if, following the period for review provided in subsection (b), there is not enacted any such joint resolution.

(3) Definition

For the purposes of this subsection, the phrase “action involving any measure of statutory sanctions relief by the United States” shall include waiver, suspension, reduction, or other effort to provide relief from, or otherwise limit the application of statutory sanctions with respect to Iran under any provision of law or any other effort to refrain from applying any such sanctions.

d) Congressional oversight of Iranian compliance with nuclear agreements

(1) In general

The President shall keep the appropriate congressional committees and leadership fully and currently informed of all aspects of Iranian compliance with respect to an agreement subject to subsection (a).

(2) Potentially significant breaches and compliance incidents

The President shall, within 10 calendar days of receiving credible and accurate information relating to a potentially significant breach or compliance incident by Iran with respect to an agreement subject to subsection (a), submit such information to the appropriate congressional committees and leadership.

(3) Material breach report

Not later than 30 calendar days after submitting information about a potentially significant breach or compliance incident pursuant to paragraph (2), the President shall make a determination whether such potentially significant breach or compliance issue constitutes a material breach and, if there is such a material breach, whether Iran has cured such material breach, and shall submit to the appropriate congressional committees and leadership such determination, accompanied by, as appropriate, a report on the action or failure to act by Iran that led to the material breach, actions necessary for Iran to cure the breach, and the status of Iran’s efforts to cure the breach.

(4) Semi-annual report

Not later than 180 calendar days after entering into an agreement described in subsection (a), and not less frequently than once every 180 calendar days thereafter, the President shall submit to the appropriate congressional committees and leadership a report on Iran’s nuclear program and the compliance of Iran with the agreement during the period covered by the report, including the following elements:

(A) Any action or failure to act by Iran that breached the agreement or is in non-compliance with the terms of the agreement.

(B) Any delay by Iran of more than one week in providing inspectors access to facilities, people, and documents in Iran as required by the agreement.

(C) Any progress made by Iran to resolve concerns by the International Atomic Energy Agency about possible military dimensions of Iran’s nuclear program.
(D) Any procurement by Iran of materials in violation of the agreement or which could otherwise significantly advance Iran’s ability to obtain a nuclear weapon.

(E) Any centrifuge research and development conducted by Iran that:
   (i) is not in compliance with the agreement; or
   (ii) may substantially reduce the breakout time of acquisition of a nuclear weapon by Iran, if deployed.

(F) Any diversion by Iran of uranium, carbon-fiber, or other materials for use in Iran’s nuclear program in violation of the agreement.

(G) Any covert nuclear activities undertaken by Iran, including any covert nuclear weapons-related or covert fissile material activities or research and development.

(H) An assessment of whether any Iranian financial institutions are engaged in money laundering or terrorist finance activities, including names of specific financial institutions if applicable.

(I) Iran’s advances in its ballistic missile program, including developments related to its long-range and inter-continental ballistic missile programs.

(J) An assessment of—
   (i) whether Iran directly supported, financed, planned, or carried out an act of terrorism against the United States or a United States person anywhere in the world;
   (ii) whether, and the extent to which, Iran supported acts of terrorism, including acts of terrorism against the United States or a United States person anywhere in the world;
   (iii) all actions, including in international fora, being taken by the United States to stop, counter, and condemn acts by Iran to directly or indirectly carry out acts of terrorism against the United States and United States persons;
   (iv) the impact on the national security of the United States and the safety of United States citizens as a result of any Iranian actions reported under this paragraph; and

(K) An assessment of whether violations of internationally recognized human rights in Iran have changed, increased, or decreased, as compared to the prior 180-day period.

(5) Additional reports and information

(A) Agency reports

Following submission of an agreement pursuant to subsection (a) to the appropriate congressional committees and leadership, the Department of Energy, and the Department of Defense shall, upon the request of any of those committees or leadership, promptly furnish to those committees or leadership their views as to whether the safeguards and other controls contained in the agreement with respect to Iran’s nuclear program provide an adequate framework to ensure that Iran’s activities permitted thereunder will not be inimical to or constitute an unreasonable risk to the common defense and security.

(B) Provision of information on nuclear initiatives with Iran

The President shall keep the appropriate congressional committees and leadership fully and currently informed of any initiative or negotiations with Iran relating to Iran’s nuclear program, including any new or amended agreement.

(6) Compliance certification

After the review period provided in subsection (b), the President shall, not less than every 90 calendar days—

(A) determine whether the President is able to certify that—
   (i) Iran is transparently, verifiably, and fully implementing the agreement, including all related technical or additional agreements;
   (ii) Iran has not committed a material breach with respect to the agreement or, if Iran has committed a material breach, Iran has cured the material breach;
   (iii) Iran has not taken any action, including covert activities, that could significantly advance its nuclear weapons program; and
   (iv) suspension of sanctions related to Iran pursuant to the agreement is—
      (I) appropriate and proportionate to the specific and verifiable measures taken by Iran with respect to terminating its illicit nuclear program; and
      (II) vital to the national security interests of the United States; and

(B) if the President determines he is able to make the certification described in subparagraph (A), make such certification to the appropriate congressional committees and leadership.

(7) Sense of Congress

It is the sense of Congress that—

(A) United States sanctions on Iran for terrorism, human rights abuses, and ballistic missiles will remain in place under an agreement, as defined in subsection (h)(1);

(B) issues not addressed by an agreement on the nuclear program of Iran, including fair and appropriate compensation for Americans who were terrorized and subjected to torture while held in captivity for 444 days after the seizure of the United States Embassy in Tehran, Iran, in 1979 and their families, the freedom of Americans held in Iran, the human rights abuses of the Government of Iran against its own people, and the continued support of terrorism worldwide by the Government of Iran, are matters critical to ensuring justice and the national security of the United States, and should be expeditiously addressed;

(C) the President should determine the agreement in no way compromises the com-

Expedited consideration of legislation

(1) Initiation

(A) In general

In the event the President does not submit a certification pursuant to subsection (d)(6) during each 90-day period following the review period provided in subsection (b), or submits a determination pursuant to subsection (d)(3) that Iran has materially breached an agreement subject to subsection (a) and the material breach has not been cured, qualifying legislation introduced within 60 calendar days of such event shall be entitled to expedited consideration pursuant to this subsection.

(B) Definition

In the House of Representatives, for purposes of this paragraph, the terms “submit” and “submits” mean submit and submits, respectively, to the Speaker of the House of Representatives.

(2) Qualifying legislation defined

For purposes of this subsection, the term “qualifying legislation” means only a bill of either House of Congress—

(A) the title of which is as follows: “A bill relating to statutory sanctions imposed with respect to Iran.”; and

(B) the matter after the enacting clause of which is: “Any statutory sanctions imposed with respect to Iran pursuant to that were waived, suspended, reduced, or otherwise relieved pursuant to an agreement submitted pursuant to section 135(a) of the Atomic Energy Act of 1954 are hereby reinstated and any action by the United States Government to facilitate the release of funds or assets to Iran pursuant to such agreement, or provide any further waiver, suspension, reduction, or other relief pursuant to such agreement is hereby prohibited.”, with the blank space being filled in with the law or laws under which sanctions are to be reinstated.

(3) Introduction

During the 60-calendar day period provided for in paragraph (1), qualifying legislation may be introduced—

(A) in the House of Representatives, by the majority leader or the minority leader; and

(B) in the Senate, by the majority leader (or the majority leader’s designee) or the minority leader (or the minority leader’s designee).

(4) Floor consideration in House of Representatives

(A) Reporting and discharge

If a committee of the House to which qualifying legislation has been referred has not reported such qualifying legislation within 10 legislative days after the date of referral, that committee shall be discharged from further consideration thereof.

(B) Proceeding to consideration

Beginning on the third legislative day after each committee to which qualifying legislation has been referred reports it to the House or has been discharged from further consideration thereof, it shall be in order to move to proceed to consider the qualifying legislation in the House. All points of order against the motion are waived. Such a motion shall not be in order after the House has disposed of a motion to proceed on the qualifying legislation with regard to the same agreement. The previous question shall be considered as ordered on the motion to its adoption without intervening motion. The motion shall not be debatable. A motion to reconsider the vote by which the motion is disposed of shall not be in order.

(C) Consideration

The qualifying legislation shall be considered as read. All points of order against the qualifying legislation and against its consideration are waived. The previous question shall be considered as ordered on the qualifying legislation to final passage without intervening motion except two hours of debate equally divided and controlled by the sponsor of the qualifying legislation (or a designee) and an opponent. A motion to reconsider the vote on passage of the qualifying legislation shall not be in order.

(5) Consideration in the Senate

(A) Committee referral

Qualifying legislation introduced in the Senate shall be referred to the Committee on Foreign Relations.

(B) Reporting and discharge

If the Committee on Foreign Relations has not reported such qualifying legislation within 10 session days after the date of referral of such legislation, that committee shall be discharged from further consideration of such legislation and the qualifying legislation shall be placed on the appropriate calendar.

(C) Proceeding to consideration

Notwithstanding Rule XXII of the Standing Rules of the Senate, it is in order at any time after the committee authorized to consider qualifying legislation reports it to the Senate or has been discharged from its consideration (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of qualifying legislation, and all points of order against qualifying legislation (and against consideration of the qualifying legislation) are waived. The motion to proceed is not debatable. The motion is not subject to a motion to postpone. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion
to proceed to the consideration of the qualifying legislation is agreed to, the qualifying legislation shall remain the unfinished business until disposed of.

(D) Debate

Debate on qualifying legislation, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between the majority and minority leaders or their designees. A motion to further limit debate is in order and not debatable. An amendment to, or a motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the qualifying legislation is not in order.

(E) Vote on passage

The vote on passage shall occur immediately following the conclusion of the debate on the qualifying legislation and a single quorum call at the conclusion of the debate, if requested in accordance with the rules of the Senate.

(F) Rulings of the Chair on procedure

Appeals from the decisions of the Chair relating to the application of the rules of the Senate, as the case may be, to the procedure relating to qualifying legislation shall be decided without debate.

(G) Consideration of veto messages

Debate in the Senate of any veto message with respect to qualifying legislation, including all debatable motions and appeals in connection with such qualifying legislation, shall be limited to 10 hours, to be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

(6) Rules relating to Senate and House of Representatives

(A) Coordination with action by other House

If, before the passage by one House of qualifying legislation of that House, that House receives qualifying legislation from the other House, then the following procedures shall apply:

(i) The qualifying legislation of the other House shall not be referred to a committee.

(ii) With respect to qualifying legislation of the House receiving the legislation—

(I) the procedure in that House shall be the same as if no qualifying legislation had been received from the other House; but

(II) the vote on passage shall be on the qualifying legislation of the other House.

(B) Treatment of a bill of other House

If one House fails to introduce qualifying legislation under this section, the qualifying legislation of the other House shall be entitled to expedited floor procedures under this section.

(C) Treatment of companion measures

If, following passage of the qualifying legislation in the Senate, the Senate then receives a companion measure from the House of Representatives, the companion measure shall not be debatable.

(D) Application to revenue measures

The provisions of this paragraph shall not apply in the House of Representatives to qualifying legislation which is a revenue measure.

(f) Rules of House of Representatives and Senate

Subsection (e) is enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of legislation described in those sections, and supersede other rules only to the extent that they are inconsistent with such rules; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

(g) Rules of construction

Nothing in the section shall be construed as—

(1) modifying, or having any other impact on, the President’s authority to negotiate, enter into, or implement appropriate executive agreements, other than the restrictions on implementation of the agreements specifically covered by this section;

(2) allowing any new waiver, suspension, reduction, or other relief from statutory sanctions with respect to Iran under any provision of law, or allowing the President to refrain from applying any such sanctions pursuant to an agreement described in subsection (a) during the period for review provided in subsection (b);

(3) revoking or terminating any statutory sanctions imposed on Iran; or

(4) authorizing the use of military force against Iran.

(5) Nothing in this section shall be construed to authorize the Secretary to authorize the withholding of information from the appropriate committees of the Congress.

(b) Civil penalties

AMENDMENTS

2005—Subsec. (a). Pub. L. 109–58, §652(1), revised and restructured provisions of subsec. (a). Prior to amendment, subsec. (a) read as follows: ‘‘The Nuclear Regulatory Commission (in this section referred to as the ‘Commission’) shall require each licensee or applicant for a license to operate a utilization facility under section 2133 or 2134(b) of this title to fingerprint each individual who is permitted unescorted access to the facility or is permitted access to safeguards information under section 2167 of this title. All fingerprints obtained by a licensee or applicant as required in the preceding sentence shall be submitted to the Attorney General of the United States through the Commission...’’
for identification and a criminal history records check. The costs of any identification and records check conducted pursuant to the preceding sentence shall be paid by the licensee or applicant. Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to the licensee or applicant submitting such fingerprints.” Amendment by Pub. L. 109–58, §652(1)(D), which misquoted the sentence to be stricken by leaving out the word “the” before “licensees”, was nevertheless executed to reflect the probable intent of Congress.

Subsec. (c)(2)(B). Pub. L. 109–58, §652(2)(B), substituted “unescorted access to a utilization facility, radioactive material, or other property described in subsection (a)(1)(B)” for “unescorted access to the facility of a licensee or applicant”.

Subsecs. (d), (e). Pub. L. 109–58, §652(3), (4), added subsec. (d) and redesignated former subsec. (d) as (e).

(b) Denial of rights; revocation of prior rights

No patent hereafter granted shall confer any rights with respect to any invention or discovery to the extent that such invention or discovery is used in the utilization of special nuclear material or atomic energy in atomic weapons. Any rights conferred by any patent herefore granted for any invention or discovery are revoked to the extent that such invention or discovery is so used, and just compensation shall be made therefor.

(c) Report of invention to Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and TRADEMARK Office

Any person who has made or hereafter makes any invention or discovery useful in the production or utilization of special nuclear material or atomic energy, shall file with the Commission a report containing a complete description thereof unless such invention or discovery is described in an application for a patent filed with the Under Secretary of Commerce for Intellectual Property and Director of the United States Pat-ent and Trademark Office by such person within the time required for the filing of such report. The report covering any such invention or discovery shall be filed on or before the one hundred and eightieth day after such person first discovers or first has reason to believe that such invention or discovery is useful in such production or utilization.

(d) Report to Commission by Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and TRADEMARK Office

The Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office shall notify the Commission of all applications for patents heretofore or hereafter filed which, in his opinion, disclose inventions or discoveries required to be reported under subsection (c), and shall provide the Commission access to all such applications.

Reports filed pursuant to subsection (c) of this section, and applications to which access is provided under subsection (d) of this section, shall be kept in confidence by the Commission, and no information concerning the same given without authority of the inventor or owner unless necessary to carry out the provisions of any Act of Congress or in such special circumstances as may be determined by the Commission.

PRIORITY PROVISIONS
Provisions similar to this section were contained in section 1811(a) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

AMENDMENTS

Subsec. (c), Pub. L. 87–206, §8, struck out designation as cl. (1) of provision relating to production or utilization of special nuclear material or atomic energy and cls. (2) and (3) relating to utilization of special nuclear material in an atomic weapon and utilization of atomic energy in an atomic weapon, respectively, and substituted “the one hundred and eightieth day” for “whichever of the following is the later: either the nineteenth day after completion of such invention or discovery; or the nineteenth day”.

EFFECTIVE DATE OF 1999 AMENDMENT
Amendment by Pub. L. 106–113 effective 4 months after Nov. 29, 1999, see section 1000(a)(9) [title IV, §4731] of Pub. L. 106–113, set out as a note under section 1 of Title 35, Patents.
§ 2182. Inventions conceived during Commission contracts; ownership; waiver; hearings

Any invention or discovery, useful in the production or utilization of special nuclear material or atomic energy, made or conceived in the course of or under any contract, subcontract, or arrangement entered into with or for the benefit of the Commission, regardless of whether the contract, subcontract, or arrangement involved the expenditure of funds by the Commission, shall be vested in, and be the property of, the Commission, except that the Commission may waive its claim to any such invention or discovery under such circumstances as the Commission may deem appropriate, consistent with the policy of this section. No patent for any invention or discovery, useful in the production or utilization of special nuclear material or atomic energy, shall be issued unless the applicant files with the application, or within thirty days after request therefor by the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (unless the Commission advises the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office that its rights have been determined and that accordingly no statement is necessary) a statement under oath setting forth the facts surrounding the making or conception of the invention or discovery described in the application and whether the invention or discovery was made or conceived in the course of or under any contract, subcontract, or arrangement entered into with or for the benefit of the Commission, regardless of whether the contract, subcontract, or arrangement involved the expenditure of funds by the Commission.

The Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office shall as soon as the application is otherwise in condition for allowance forward copies of the application and the statement to the Commission.

The Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office may proceed with the application and issue the patent to the applicant (if the invention or discovery is otherwise patentable) unless the Commission, within 90 days after receipt of copies of the application and statement, directs the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office to issue the patent to the Commission (if the invention or discovery is otherwise patentable) to be held by the Commission as the agent of and on behalf of the United States.

If the Commission files such a direction with the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office, and if the applicant’s statement claims, and the applicant still believes, that the invention or discovery was not made or conceived in the course of or under any contract, subcontract or arrangement entered into with or for the benefit of the Commission entitling the Commission to the title to the application or the patent the applicant may, within 30 days after notification of the filing of such a direction, request a hearing before the Patent Trial and Appeal Board. The Board shall have the power to hear and determine whether the Commission was entitled to the direction filed with the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office. The Board shall follow the rules and procedures established for interference and derivation cases and an appeal may be taken by either the applicant or the Commission from the final order of the Board to the United States Court of Appeals for the Federal Circuit in accordance with the procedures governing the appeals from the Patent Trial and Appeal Board.

If the statement filed by the applicant should thereafter be found to contain false material statements any notification by the Commission that it has no objections to the issuance of a patent to the applicant shall not be deemed in any respect to constitute a waiver of the provisions of this section or of any applicable civil or criminal statute, and the Commission may have the title to the patent transferred to the Commission on the records of the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office in accordance with the provisions of this section. A determination of rights by the Commission pursuant to a contractual provision or other arrangement prior to the request of the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office for the statement shall be final in the absence of false material statements or nondisclosure of material facts by the applicant.

AMENDMENTS

§ 2183. Nonmilitary utilization

(a) Declaration of public interest

The Commission may, after giving the patent owner an opportunity for a hearing, declare any patent to be affected with the public interest if (1) the invention or discovery covered by the patent is of primary importance in the production or utilization of special nuclear material or atomic energy; and (2) the licensing of such invention or discovery under this section is of primary importance to effectuate the policies and purposes of this chapter.

(b) Action by Commission

Whenever any patent has been declared affected with the public interest, pursuant to subsection (a)—

(1) the Commission is licensed to use the invention or discovery covered by such patent in performing any of its powers under this chapter; and

(2) any person may apply to the Commission for a nonexclusive patent license to use the invention or discovery covered by such patent, and the Commission shall grant such patent license to the extent that it finds that the use of the invention or discovery is of primary importance to the conduct of an activity by such person authorized under this chapter.

(c) Application for patent

Any person—

(1) who has made application to the Commission for a license under sections 2073, 2092, 2093, 2111, 2133 or 2134 of this title, or a permit or lease under section 2097 of this title; (2) to whom such license, permit, or lease has been issued by the Commission; (3) who is authorized to conduct such activities as such applicant is conducting or proposes to conduct under a general license issued by the Commission under sections 2092 or 2111 of this title; or

(4) whose activities or proposed activities are authorized under section 2051 of this title, may at any time make application to the Commission for a patent license for the use of an invention or discovery useful in the production or utilization of special nuclear material or atomic energy covered by a patent. Each such application shall set forth the nature and purpose of the use which the applicant intends to make of the patent license, the steps taken by the applicant to obtain a patent license from the owner of the patent, and a statement of the effects, as estimated by the applicant, on the authorized activities which will result from failure to obtain such patent license and which will result from the granting of such patent license.

(d) Hearings

Whenever any person has made an application to the Commission for a patent license pursuant to subsection (c)—

(1) the Commission, within 30 days after the filing of such application, shall make available to the owner of the patent all of the information contained in such application, and shall notify the owner of the patent of the time and place at which a hearing will be held by the Commission;

(2) the Commission shall hold a hearing within 60 days after the filing of such application at a time and place designated by the Commission; and

(3) in the event an applicant applies for two or more patent licenses, the Commission may, in its discretion, order the consolidation of such applications, and if the patents are owned by more than one owner, such owners may be made parties to one hearing.

(e) Commission’s findings

If, after any hearing conducted pursuant to subsection (d), the Commission finds that—

(1) the invention or discovery covered by the patent is of primary importance in the production or utilization of special nuclear material or atomic energy;

(2) the licensing of such invention or discovery is of primary importance to the conduct of the activities of the applicant;

(3) the activities to which the patent license are proposed to be applied by such applicant are of primary importance to the furtherance of policies and purposes of this chapter; and

(4) such applicant cannot otherwise obtain a patent license from the owner of the patent on terms which the Commission deems to be reasonable for the intended use of the patent to be made by such applicant,

the Commission shall license the applicant to use the invention or discovery covered by the patent for the purposes stated in such application on terms deemed equitable by the Commis-
sion and generally not less fair than those granted by the patentee or by the Commission to similar licensees for comparable use.

(f) Limitations on issuance of patent

The Commission shall not grant any patent license pursuant to subsection (e) for any other purpose than that stated in the application. Nor shall the Commission grant any patent license to any other applicant for a patent license on the same patent without an application being made by such applicant pursuant to subsection (c), and without separate notification and hearing as provided in subsection (d), and without a separate finding as provided in subsection (e).

(g) Royalty fees

The owner of the patent affected by a declaration or a finding made by the Commission pursuant to subsection (b) or (e) shall be entitled to a reasonable royalty fee from the licensee for any use of an invention or discovery licensed by this section. Such royalty fee may be agreed upon by such owner and the patent licensee, or in the absence of such agreement shall be determined for each patent license by the Commission pursuant to section 2187(c) of this title.

(h) Effective period

The provisions of this section shall apply to any patent the application for which shall have been filed before September 1, 1979.

§ 2184. Injunctions; measure of damages

No court shall have jurisdiction or power to stay, restrain, or otherwise enjoin the use of any invention or discovery by a patent licensee, to the extent that such use is licensed by section 2183(b) or 2183(e) of this title. If, in any action against such patent licensee, the court shall determine that the defendant is exercising such license, the measure of damages shall be the royalty fee determined pursuant to section 2187(c) of this title, together with such costs, interest, and reasonable attorney’s fees as may be fixed by the court. If no royalty fee has been determined, the court shall stay the proceeding until the royalty fee is determined pursuant to section 2187(c) of this title. If any such patent licensee shall fail to pay such royalty fee, the patentee may bring an action in any court of competent jurisdiction for such royalty fee, together with such costs, interest, and reasonable attorney’s fees as may be fixed by the court.

(c) Standards

(1) In determining a reasonable royalty fee as provided for in section 2183(b) or 2183(c) of this title, the Commission shall take into consideration (A) the advice of the Patent Compensation Board; (B) any defense, general or special, that might be pleaded by a defendant in an action for infringement; (C) the extent to which, if any, such patent was developed through federally financed research; and (D) the degree of utility, novelty, and importance of the invention or discovery, and may consider the cost to the owner of the patent of developing such invention or discovery or acquiring such patent.

A person authorized to carry firearms under this subsection may, while in the performance of, and in connection with, official duties, make arrests without warrant for any offense against the United States committed in that person’s presence or for any felony cognizable under the laws of the United States if that person has reasonable ground to believe that the individual to be arrested has committed or is committing such felony. (4) Water.
(5) Sewage and garbage disposal.
(6) Natural, manufactured, or mixed gas.
(7) Ice.

Proceeds of sales under this subsection shall be credited to the appropriation currently available for the supply of that utility or service. To meet local needs the Commission may make minor expansions and extensions of any distributing system or facility within or in the immediate vicinity of a Commission-owned community through which a utility or service is furnished under this subsection.

(s) Succession of authority

establish a plan for a succession of authority which will assure the continuity of direction of the Commission's operations in the event of a national disaster due to enemy activity. Notwithstanding any other provision of this chapter, the person or persons succeeding to command in the event of disaster in accordance with the plan established pursuant to this subsection shall be vested with all of the authority of the Commission; provided, That the disaster period includes the period when attack on the United States is imminent and the post-attack period necessary to reestablish normal lines of command.

(t) Contracts

enter into contracts for the processing, fabricating, separating, or refining in facilities owned by the Commission of source, byproduct or other material, or special nuclear material, in accordance with and within the period of an agreement for cooperation while comparable services are available to persons licensed under section 2133 or 2134 of this title: Provided, That the prices for services under such contracts shall be no less than the prices currently charged by the Commission pursuant to subsection (m);

(u) Additional contracts; guiding principles; appropriations

(2)(A) enter into contracts for such periods of time as the Commission may deem necessary or desirable for the purchase or acquisition of any supplies, equipment, materials, or services required by the Commission whenever the Commission determines that: (i) it is advantageous to the Government to make such purchase or acquisition from commercial sources; (ii) the furnishing of such supplies, equipment, materials, or services will require the construction or acquisition of special facilities by the vendors or suppliers thereof; (iii) the amortization chargeable to the Commission constitutes an appreciable portion of
the cost of contract performance, excluding cost of materials; and (iv) the contract for such period is more advantageous to the Government than a similar contract not executed under the authority of this subsection. Such contracts shall be entered into for periods not to exceed five years each from the date of initial delivery of such supplies, equipment, materials, or services or ten years from the date of execution of the contracts excluding periods of renewal under option.

(B) In entering into such contracts the Commission shall be guided by the following principles: (i) the percentage of the total cost of special facilities devoted to contract performance and chargeable to the Commission should not exceed the ratio between the period of contract deliveries and the anticipated useful life of such special facilities; (ii) the desirability of obtaining options to renew the contract for reasonable periods at prices not to include charges for special facilities already amortized; and (iii) the desirability of retaining in the Commission the right to take title to the special facilities under appropriate circumstances; and

(3) include in contracts made under this subsection provisions which limit the obligation of funds to estimated annual deliveries and services and the unamortized balance of such amounts due for special facilities as the parties shall agree is chargeable to the performance of the contract. Any appropriation available at the time of termination or thereafter made available to the Commission for operating expenses shall be available for payment of such costs which may arise from termination as the contract may provide. The term “special facilities” as used in this subsection means any land and any depreciable buildings, structures, utilities, machinery, equipment, and fixtures necessary for the production or furnishing of such supplies, equipment, materials, services and not available to the vendor or suppliers for the performance of the contract.

(v) Support of United States Enrichment Corporation

provide services in support of the United States Enrichment Corporation, except that the Secretary of Energy shall annually collect payments and other charges from the Corporation sufficient to ensure recovery of the costs (excluding depreciation and imputed interest on original plant investments in the Department’s gaseous diffusion plants and costs under section 2297c–2(d) of this title) incurred by the Department of Energy after October 24, 1992, in performing such services;

(w) License fees for nuclear power reactors

prescribe and collect from any other Government agency, which applies to the Commission for, or is issued by the Commission, a license or certificate, any fee, charge, or price which it may require, in accordance with the provisions of section 9701 of title 31 or any other law.

(x) Standards and instructions for bonding, surety, or other financial arrangements, including performance bonds

Establish by rule, regulation, or order, after public notice, and in accordance with the requirements of section 2231 of this title, such standards and instructions as the Commission may deem necessary or desirable to ensure—

(1) that an adequate bond, surety, or other financial arrangement (as determined by the Commission) will be provided, before termination of any license for byproduct material as defined in section 2014(e)(2) of this title, by a licensee to permit the completion of all requirements established by the Commission for the decontamination, decommissioning, and reclamation of sites, structures, and equipment used in conjunction with byproduct material as so defined, and

(2) that—

(A) in the case of any such license issued or renewed after November 8, 1978, the need for long-term maintenance and monitoring of such sites, structures and equipment after termination of such license will be minimized and, to the maximum extent practicable, eliminated; and

(B) in the case of each license for such material (whether in effect on November 8, 1978, or issued or renewed thereafter), if the Commission determines that any such long-term maintenance and monitoring is necessary, the licensee, before termination of any license for byproduct material as defined in section 2014(e)(2) of this title, will make available such bonding, surety, or other financial arrangements as may be necessary to assure such long-term maintenance and monitoring.

Such standards and instructions promulgated by the Commission pursuant to this subsection shall take into account, as determined by the Commission, so as to avoid unnecessary duplication and expense, performance bonds or other financial arrangements which are required by other Federal agencies or State agencies and/or other local governing bodies for such decommissioning, decontamination, and reclamation and long-term maintenance and monitoring except that nothing in this paragraph shall be construed to require that the Commission accept such bonds or arrangements if the Commission determines that such bonds or arrangements are not adequate to carry out subparagraphs (1) and (2) of this subsection.

Notwithstanding subsections (a)(4), (a)(5), (b)(2), (b)(4), and (c) of section 922 of title 18, section 925(d)(3) of title 18, section 5844 of title 26, and any law (including regulations) of a State or a political subdivision of a State that prohibits the transfer, receipt, possession, transportation, importation, or use of a handgun, a rifle, a shotgun, a short-barreled shotgun, a short-barreled rifle, a machinegun, a semiautomatic assault weapon, ammunition for any such gun or weapon, or a large capacity ammunition feeding device, in carrying out the duties of the Commission, the Commission may authorize the security personnel of any licensee or certificate holder of the Commission (including an employee of a contractor of such a licensee or certificate holder) to transfer, receive, possess, transport, import, and use 1 or more such guns, weapons, ammunition, or devices, if the Commission determines that—

(1) the authorization is necessary to the discharge of the official duties of the security personnel; and

(2) the security personnel—

(i) a facility owned or operated by a licensee or certificate holder of the Commission that is designated by the Commission; or

(ii) radioactive material or other property owned or possessed by a licensee or certificate holder of the Commission, or

that is being transported to or from a facility owned or operated by such a licensee or certificate holder, and that has been determined by the Commission to be of significance to the common defense and security or public health and safety; and

(D) are discharging the official duties of the security personnel in transferring, receiving, possessing, transporting, or importing the weapons, ammunition, or devices.

(c) Background checks

A person that receives, possesses, transports, imports, or uses a weapon, ammunition, or a device under subsection (b) shall be subject to a background check by the Attorney General, based on fingerprints and including a background check under section 103(b) of the Brady Handgun Violence Prevention Act (Public Law 103–159; 18 U.S.C. 922 note) 1 to determine whether the person is prohibited from possessing or receiving a firearm under Federal or State law.

(d) Effective date

This section takes effect on the date on which guidelines are issued by the Commission, with the approval of the Attorney General, to carry out this section.

TERMINATION OF ADVISORY BOARDS AND COMMITTEES

Advisory boards and committees in existence on Jan. 5, 1973, to terminate not later than the expiration of the 2-year period following Jan. 5, 1973, unless, in the case of a board or committee established by the President or an officer of the federal government, such board or committee is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a board or committee established by the Congress, its duration is otherwise provided by law.

§ 2204. Electric utility contracts; authority to enter into; cancellation; submission to Energy Committees

The Commission is authorized in connection with the construction or operation of the Oak Ridge, Paducah, and Portsmouth installations of the Commission, without regard to sections 1341, 1342, and 1349–1351 and subchapter II of chapter 15 of title 31, to enter into new contracts, or modify or confirm existing contracts, to provide for electric utility services for periods not exceeding twenty-five years, and such contracts shall be subject to termination by the Commission upon payment of cancellation costs as provided in such contracts, and any appropriation presently or hereafter made available to the Commission shall be available for the payment of such cancellation costs. Any such cancellation payments shall be taken into consideration in determination of the rate to be charged in the event the Commission or any other agency of the Federal Government shall purchase electric utility services from the contractor subsequent to the cancellation and during the life of the original contract. The authority of the Commission under this section to enter into new contracts or modify or confirm existing contracts to provide for electric utility services includes, in case such electric utility services are to be furnished to the Commission by the Tennessee Valley Authority, authority to contract with any person to furnish electric utility services to the Tennessee Valley Authority in replacement thereof. Any contract hereafter entered into by the Commission pursuant to this section shall be submitted to the Energy Committees and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of adjournment for more than three days) before the contract of the Commission shall become effective: Provided, however, That the Energy Committees, after having received the proposed contract, may by resolution in writing, waive the conditions of or all or any portion of such thirty-day period.

CONFINEMENT

AMENDMENTS

§ 2204a. Fission product contracts

(a) Authority to enter into contracts

Without regard to sections 1341, 1342, and 1349–1351 and subchapter II of chapter 15 of title 31, the Commission is authorized to enter into
contracts for such periods of time as the Commission may deem necessary or desirable, for the purpose of making available fission products from Commission reactors, with or without charge for commercial application.

(b) Cancellation

Any contract entered into by the Commission pursuant to this section shall be subject to termination by the Commission upon payment of cancellation costs as provided in such contract, and any appropriation presently or hereafter made available to the Commission shall be available for payment of such costs which may arise from termination as the contract may provide.

CODIFICATION

This chapter, referred to in text, was in the original “this Act”, meaning act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 919, known as the Atomic Energy Act of 1954, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

The Atomic Energy Act of 1946, as amended, referred to hereinafter in this section, was act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 919. L. 88–332, §11, Nov. 6, 1978, 92 Stat. 2593, directed Commission to report to Congress on Jan. 1, 1979, and annually thereafter on use of contractors, consultants, and National Laboratories by Commission, and that such report include, for each contract issued, in progress or completed during fiscal year 1978, information on bidding procedure, nature of work, amount and duration of contract, progress of work, relation to previous contracts, and relation between amount of contract and amount actually spent.

§ 2206. Comptroller General audit

No moneys appropriated for the purposes of this chapter shall be available for payments under any contract with the Commission, negotiated without advertising, except contracts with any foreign government or any agency thereof and contracts with foreign producers, unless such contract includes a clause to the effect that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment, have access to and the right to examine any directly pertinent books, documents, papers, and records of the contractor or any of his subcontractors engaged in the performance of, and involving transactions related to such contracts or subcontracts: Provided, however, That no moneys so appropriated shall be available for payment under such contract which includes any provision precluding an audit by the Government Accountability Office of any transaction under such contract: And provided further, That nothing in this section shall preclude the earlier disposal of contractor and subcontractor records in accordance with records disposal schedules agreed upon between the Commission and the Government Accountability Office.

TRANSFER OF FUNCTIONS

Atomic Energy Commission abolished and functions transferred by sections 5814 and 5841 of this title. See also, notes set out under those sections.

§ 2205. Contract practices

(a) In carrying out the purposes of this chapter the Commission shall not use the cost-plus-percentage-of-cost system of contracting.

(b) No contract entered into under the authority of this chapter shall provide, and no contract entered into under the authority of the Atomic Energy Act of 1946, as amended, shall be modified or amended after August 30, 1954, to provide, for direct payment or direct reimbursement by the Commission of any Federal income taxes on behalf of any contractor performing such contract for profit.

§ 2207. Claim settlements; reports to Congress

The Commission, acting on behalf of the United States, is authorized to consider, ascertain, adjust, determine, settle, and pay, any claim for money damage of $5,000 or less against the United States for bodily injury, death, or damage to or loss of real or personal property resulting from any detonation, explosion, or radiation produced in the conduct of any program undertaken by the Commission involving the detonation of an explosive device, where such claim is presented to the Commission in writing within one year after the accident or incident out of which the claim arises: Provided, however, That the damage to or loss of property, or bodily injury or death, shall not have been caused in whole or in part by any negligence or wrongful act on the part of the claimant, his agents, or employees. Any such settlement under the authority of this section shall be final and conclusive for all purposes, notwithstanding any other provision of law to the contrary. If the Commission considers that a claim in excess of $5,000 is meritorious and would otherwise be covered by this section, the Commission may report the facts and circumstances thereof to the Congress for its consideration.

AMENDMENTS

1961—Pub. L. 87–206 substituted “any program undertaken by the Commission involving the detonation of an explosive device” for “the Commission’s program for testing atomic weapons” and authorized the Commission to report meritorious claims in excess of $5,000 to the Congress.

§ 2208. Payments in lieu of taxes

In order to render financial assistance to those States and localities in which the activities of the Commission are carried on, and in which the Commission has acquired property previously subject to State and local taxation, the Commission is authorized to make payments to State and local governments in lieu of property taxes. Such payments may be in the amounts, at the times, and upon the terms the Commission deems appropriate, but the Commission shall be guided by the policy of not making payments in excess of the taxes which would have been payable for such property in the condition in which it was acquired, except in cases where special burdens have been cast upon the States or local governments by activities of the Commission, the Manhattan Engineer District or their agents. In any such case, any benefit accruing to the State or local government by reason of such activities shall be considered in determining the amount of the payment.

Prior Provisions

Provisions similar to this section were contained in section 1809(b) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2209. Subsidies

No funds of the Commission shall be employed in the construction or operation of facilities licensed under section 2133 or 2134 of this title except under contract or other arrangement entered into pursuant to section 2505 of this title.

§ 2210. Indemnification and limitation of liability

(a) Requirement of financial protection for licensees

Each license issued under section 2133 or 2134 of this title and each construction permit issued under section 2235 of this title shall, and each license issued under section 2073, 2093, or 2111 of this title may, for the public purposes cited in section 2012(i) of this title, have as a condition of the license a requirement that the licensee have and maintain financial protection of such type and in such amounts as the Nuclear Regulatory Commission (in this section referred to as the “Commission”) in the exercise of its licensing and regulatory authority and responsibility shall require in accordance with subsection (c). The Commission may require, as a further condition of issuing a license, that an applicant waive any immunity from public liability conferred by Federal or State law.

(b) Amount and type of financial protection for licensees

(1) The amount of primary financial protection required shall be the amount of liability insurance available from private sources, except that the Commission may establish a lesser amount on the basis of criteria set forth in writing, which it may revise from time to time, taking into consideration such factors as the following: (A) the cost and terms of private insur-
(B) the type, size, and location of the licensed activity and other factors pertaining to the hazard, and (C) the nature and purpose of the licensed activity: Provided, That for facilities designed for producing substantial amounts of electricity and having a rated capacity of 100,000 electrical kilowatts or more, the amount of primary financial protection required shall be the maximum amount available at reasonable cost and on reasonable terms from private sources (excluding the amount of private liability insurance available under the industry retrospective rating plan required in this subsection). Such primary financial protection may include private insurance, private contractual indemnities, self-insurance, other proof of financial responsibility, or a combination of such measures and shall be subject to such terms and conditions as the Commission may, by rule, regulation, or order, prescribe. The Commission shall require licensees that are required to have and maintain primary financial protection equal to the maximum amount of liability insurance available from private sources to maintain, in addition to such primary financial protection, private liability insurance available under an industry retrospective rating plan providing for premium charges deferred in whole or major part until public liability from a nuclear incident exceeds or appears likely to exceed the level of the primary financial protection required of the licensee involved in the nuclear incident: Provided, That such insurance is available to, and required of, all of the licensees of such facilities without regard to the manner in which they obtain other types or amounts of such primary financial protection: And provided further, That the maximum amount of the standard deferred premium that may be charged a licensee following any nuclear incident under such a plan shall not be more than $95,800,000 (subject to adjustment for inflation under subsection (t)), for each facility for which such licensee is required to maintain the maximum amount of primary financial protection: And provided further, That the amount which may be charged a licensee following any nuclear incident shall not exceed the licensee's pro rata share of the aggregate public liability claims and costs (excluding legal costs subject to subsection (o)(1)(D), payment of which has not been authorized under such subsection) arising out of the nuclear incident. Payment of any State premium taxes which may be applicable to any deferred premium provided for in this chapter shall be the responsibility of the licensee and shall not be included in the retrospective premium established by the Commission. (2)(A) The Commission may, on a case by case basis, assess annual deferred premium amounts less than the standard annual deferred premium amount assessed under paragraph (1)—

(1) for any facility, if more than one nuclear incident occurs in any one calendar year; or

(2)(ii) for any licensee licensed to operate more than one facility, if the Commission determines that the financial impact of assessing the standard annual deferred premium amount under paragraph (1) would result in undue financial hardship to such licensee or the rate-payers of such licensee.

(B) In the event that the Commission assesses a lesser annual deferred premium amount under subparagraph (A), the Commission shall require payment of the difference between the standard annual deferred premium assessment under paragraph (1) and any such lesser annual deferred premium assessment within a reasonable period of time, with interest at a rate determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the date that the standard annual deferred premium assessment under paragraph (1) would become due.

(3) The Commission shall establish such requirements as are necessary to assure availability of funds to meet any assessment of deferred premiums within a reasonable time when due, and may provide reinsurance or shall otherwise guarantee the payment of such premiums in the event it appears that the amount of such premiums will not be available on a timely basis through the resources of private industry and insurance. Any agreement by the Commission with a licensee or indemnitor to guarantee the payment of deferred premiums may contain such terms as the Commission deems appropriate to carry out the purposes of this section and to assure reimbursement to the Commission for its payments made due to the failure of such licensee or indemnitor to meet any of its obligations arising under or in connection with financial protection required under this subsection including without limitation terms creating liens upon the licensed facility and the revenues derived therefrom or any other property or revenues of such licensee to secure such reimbursement and consent to the automatic revocation of any license.

(4)(A) In the event that the funds available to pay valid claims in any year are insufficient as a result of the limitation on the amount of deferred premiums that may be required of a licensee in any year under paragraph (1) or (2), or the Commission is required to make reinsurance or guaranteed payments under paragraph (3), the Commission shall, in order to advance the necessary funds—

(i) request the Congress to appropriate sufficient funds to satisfy such payments; or

(ii) to the extent approved in appropriation Acts, issue to the Secretary of the Treasury obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions as may be agreed to by the Commission and the Secretary of the Treasury.

(B) Except for funds appropriated for purposes of making reinsurance or guaranteed payments under paragraph (3), any funds appropriated under subparagraph (A)(i) shall be repaid to the general fund of the United States Treasury from amounts made available by standard deferred premium assessments, with interest at a rate determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the
United States of comparable maturities during the month preceding the date that the funds appropriated under such subparagraph are made available.

(C) Except for funds appropriated for purposes of making reinsurance or guaranteed payments under paragraph (3), redemption of obligations issued under subparagraph (A)(ii) shall be made by the Commission from amounts made available by standard deferred premium assessments. Such obligations shall bear interest at a rate determined by the Secretary of the Treasury by taking into consideration the average market yield on outstanding marketable obligations to the United States of comparable maturities during the month preceding the issuance of the obligations. The Secretary shall purchase any issued obligations, and for such purpose the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which securities may be issued under such chapter are extended to include any purchase of such obligations. The Secretary of the Treasury may at any time sell any of the obligations acquired by the Secretary of the Treasury under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury under obligations under this paragraph shall be treated as public debt transactions of the United States.

(5)(A) For purposes of this section only, the Commission shall consider a combination of facilities described in subparagraph (B) to be a single facility having a rated capacity of 100,000 electrical kilowatts or more.

(B) A combination of facilities referred to in subparagraph (A) is two or more facilities located at a single site, each of which has a rated capacity of 100,000 electrical kilowatts or more but not more than 300,000 electrical kilowatts, with a combined rated capacity of not more than 1,300,000 electrical kilowatts.

(c) Indemnification of licensees by Nuclear Regulatory Commission

The Commission shall, with respect to licenses issued between August 30, 1954, and December 31, 2025, for which it requires financial protection of less than $500,000,000, agree to indemnify and hold harmless the licensee and other persons indemnified, as their interest may appear, from public liability arising from nuclear incidents which is in excess of the level of financial protection required of the licensee. The aggregate indemnity for all persons indemnified in connection with each nuclear incident shall not exceed $500,000,000 excluding costs of investigating and settling claims and defending suits for damage: Provided, however, That this amount of indemnification shall be reduced by the amount that the financial protection required shall exceed $60,000,000. Such a contract of indemnification shall cover public liability arising out of or in connection with the licensed activity. With respect to any production or utilization facility for which a construction permit is issued between August 30, 1954, and December 31, 2025, the requirements of this subsection shall apply to any license issued for such facility subsequent to December 31, 2025.

(d) Indemnification of contractors by Department of Energy

(1)(A) In addition to any other authority the Secretary of Energy (in this section referred to as the “Secretary”) may have, the Secretary shall, until December 31, 2025, enter into agreements of indemnification under this subsection with any person who may conduct activities under a contract with the Department of Energy that involve the risk of public liability and that are not subject to financial protection requirements under subsection (b) or agreements of indemnification under subsection (c) or (k).

(B)(i) Beginning 60 days after August 20, 1988, agreements of indemnification under subparagraph (A) shall be the exclusive means of indemnification for public liability arising from activities described in such subparagraph, including activities conducted under a contract that contains an indemnification clause under Public Law 85–804 [50 U.S.C. 1431 et seq.] entered into between August 1, 1987, and August 20, 1988.

(ii) The Secretary may incorporate in agreements of indemnification under subparagraph (A) the provisions relating to the waiver of any issue or defense as to charitable or governmental immunity authorized in subsection (n)(1) to be incorporated in agreements of indemnification. Any such provisions incorporated under this subclause shall apply to any nuclear incident arising out of nuclear waste activities subject to an agreement of indemnification under subparagraph (A).

(2) In an agreement of indemnification entered into under paragraph (1), the Secretary—

(A) may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity; and

(B) shall indemnify the persons indemnified against such liability above the amount of the financial protection required, in the amount of $10,000,000,000 (subject to adjustment for inflation under subsection (t)), in the aggregate, for all persons indemnified in connection with the contract and for each nuclear incident, including such legal costs of the contractor as are approved by the Secretary.

(3) All agreements of indemnification under which the Department of Energy (or its predecessor agencies) may be required to indemnify any person under this section shall be deemed to be amended, on August 8, 2005, to reflect the amount of indemnity for public liability and any applicable financial protection required of the contractor under this subsection.

(4) Financial protection under paragraph (2) and indemnification under paragraph (1) shall be the exclusive means of financial protection and
indemnification under this section for any Department of Energy demonstration reactor licensed by the Commission under section 5842 of this title.

(5) In the case of nuclear incidents occurring outside the United States, the amount of the indemnity provided by the Secretary under this subsection shall not exceed $500,000,000.

(6) The provisions of this subsection may be applicable to lump sum as well as cost type contracts and to contracts and projects financed in whole or in part by the Secretary.

(7) A contractor with whom an agreement of indemnification has been executed under paragraph (1)(A) and who is engaged in activities connected with the underground detonation of a nuclear explosive device shall be liable, to the extent so indemnified under this subsection, for injuries or damage sustained as a result of such detonation in the same manner and to the same extent as would a private person acting as principal, and no immunity or defense found in the Federal, State, or municipal character of the contractor or of the work to be performed under the contract shall be effective to bar such liability.

(e) Limitation on aggregate public liability

(1) The aggregate public liability for a single nuclear incident of persons indemnified, including such legal costs as are authorized to be paid under subsection (o)(1)(D), shall not exceed—

(A) in the case of facilities designed for producing substantial amounts of electricity and having a rated capacity of 100,000 electrical kilowatts or more, the maximum amount of financial protection required of such facilities under subsection (b) (plus any surcharge assessed under subsection (o)(1)(E));

(B) in the case of contractors with whom the Secretary has entered into an agreement of indemnification under subsection (d), the amount of indemnity and financial protection that may be required under paragraph (2) of subsection (d); and

(2) In the case of all other licensees of the Commission required to maintain financial protection under this section—

(i) $500,000,000, together with the amount of financial protection required of the licensee; or

(ii) the amount of financial protection required of the licensee exceeds $50,000,000, $500,000,000 or the amount of financial protection required of the licensee, whichever amount is more.

(2) In the event of a nuclear incident involving damages in excess of the amount of aggregate public liability under paragraph (1), the Congress will thoroughly review the particular incident in accordance with the procedures set forth in subsection (i) and will in accordance with such procedures, take whatever action is determined to be necessary (including approval of appropriate compensation plans and appropriation of funds) to provide full and prompt compensation to the public for all public liability claims resulting from a disaster of such magnitude.

(3) No provision of paragraph (1) may be construed to preclude the Congress from enacting a revenue measure, applicable to licensees of the Commission required to maintain financial protection pursuant to subsection (b), to fund any action undertaken pursuant to paragraph (2).

(4) With respect to any nuclear incident occurring outside the United States to which an agreement of indemnification entered into under the provisions of subsection (d) is applicable, such aggregate public liability shall not exceed the amount of $500,000,000, together with the amount of financial protection required of the contractor.

(f) Collection of fees by Nuclear Regulatory Commission

The Commission or the Secretary, as appropriate, is authorized to collect a fee from all persons with whom an indemnification agreement is executed under this section. This fee shall be $30 per year per thousand kilowatts of thermal energy capacity for facilities licensed under section 2133 of this title: Provided, That the Commission or the Secretary, as appropriate, is authorized to reduce the fee set forth above in reasonable relation to increases in financial protection required above a level of $60,000,000. For facilities licensed under section 2134 of this title, and for construction permits under section 2235 of this title, the Commission is authorized to reduce the fee set forth above. The Commission shall establish criteria in writing for determination of the fee for facilities licensed under section 2134 of this title, taking into consideration such factors as (1) the type, size, and location of facility involved, and other factors pertaining to the hazard, and (2) the nature and purpose of the facility. For other licenses, the Commission shall collect such nominal fees as it deems appropriate. No fee under this subsection shall be less than $100 per year.

(g) Use of services of private insurers

In administering the provisions of this section, the Commission or the Secretary, as appropriate, shall use, to the maximum extent practicable, the facilities and services of private insurance organizations, and the Commission or the Secretary, as appropriate, may contract to pay a reasonable compensation for such services. Any contract made under the provisions of this subsection may be made without regard to the provisions of section 6301 of title 41 upon a showing by the Commission or the Secretary, as appropriate, that advertising is not reasonably practicable and advance payments may be made.

(h) Conditions of agreements of indemnification

The agreement of indemnification may contain such terms as the Commission or the Secretary, as appropriate, deems appropriate to carry out the purposes of this section. Such agreement shall provide that, when the Commission or the Secretary, as appropriate, makes a determination that the United States will probably be required to make indemnity payments under this section, the Commission or the Secretary, as appropriate, shall collaborate with any person indemnified and may approve the payment of any claim under the agreement of indemnification, appear through the Attorney General on behalf of the person indemnified, take charge of such action, and settle or defend any such action. The Commission or the Sec-
retary, as appropriate, shall have final author-
ity on behalf of the United States to settle or
approve the settlement of any such claim on a
fair and reasonable basis with due regard for the
purposes of this chapter. Such settlement shall
not include expenses in connection with the
claim incurred by the person indemnified.

(i) Compensation plans

(1) After any nuclear incident involving dam-
ages that are likely to exceed the applicable
amount of aggregate public liability under sub-
paragraph (A), (B), or (C) of subsection (e)(1), the
Secretary or the Commission, as appropriate, shall—

(A) make a survey of the causes and extent of
damage; and

(B) expeditiously submit a report setting forth
the results of such survey to the Con-
gress, to the Representatives of the affected
districts, to the Senators of the affected
States, and (except for information that will
cause serious damage to the national defense
of the United States) to the public, to the par-
ties involved, and to the courts.

(2) Not later than 90 days after any determina-
tion by a court, pursuant to subsection (o), that
the public liability from a single nuclear inci-
dent may exceed the applicable amount of ag-
gregate public liability under subparagraph (A),
(B), or (C) of subsection (e)(1) the President shall
submit to the Congress—

(A) an estimate of the aggregate dollar value
of personal injuries and property damage that
arises from the nuclear incident and exceeds the
amount of aggregate public liability under
subsection (e)(1);

(B) recommendations for additional sources
of funds to pay claims exceeding the applica-
table amount of aggregate public liability under
subsection (e)(1); and

(C) 1 or more compensation plans, that ei-
ther individually or collectively shall provide
for full and prompt compensation for all valid
claims and contain a recommendation or rec-

including any recommendations that funds be
allocated or set aside for the payment of claims
that may arise as a result of latent in-
juries that may not be discovered until a later
date; and

(D) any additional legislative authorities
necessary to implement such compensation
plan or plans.

(3)(A) Any compensation plan transmitted to
the Congress pursuant to paragraph (2) shall
bear an identification number and shall be
transmitted to both Houses of Congress on the
same day and to each House while it is in ses-
sion.

(B) The provisions of paragraphs (4) through
(6) shall apply with respect to consideration in
the Senate of any compensation plan trans-
mitted to the Senate pursuant to paragraph (2).

(4) No such compensation plan may be consid-
ered approved for purposes of subsection (e)(2)
unless between the date of transmittal and the
end of the first period of sixty calendar days of
continuous session of Congress after the date on
which such action is transmitted to the Senate,
the Senate passes a resolution described in para-
graph 2 of this subsection.

(5) For the purpose of paragraph (4) of this sub-
section—

(A) continuity of session is broken only by
an adjournment of Congress sine die; and

(B) the days on which either House is not in
session because of an adjournment of more
than three days to a day certain are excluded in
the computation of the sixty-day calendar
period.

(6)(A) This paragraph is enacted—

(i) as an exercise of the rulemaking power of
the Senate and as such it is deemed a part of
the rules of the Senate, but applicable only
with respect to the procedure to be followed in
the Senate in the case of resolutions described
by subparagraph (B) and it supersedes other
rules only to the extent that it is inconsistent
therewith; and

(ii) with full recognition of the constitu-
tional right of the Senate to change the rules
at any time, in the same manner and to the
same extent as in the case of any other rule of
the Senate.

(B) For purposes of this paragraph, the term
"resolution" means only a joint resolution of
the Congress the matter after the resolving
clause of which is as follows: "That the
numbered ... submitted to the Congress
on ... '', the first blank space there-
in being filled with the name of the resolving
House and the other blank spaces being appro-
priately filled; but does not include a resolution
which specifies more than one compensation
plan.

(C) A resolution once introduced with respect
to a compensation plan shall immediately be re-
ferred to a committee (and all resolutions with
respect to the same compensation plan shall be
referred to the same committee) by the Presi-
dent of the Senate.

(D)(i) If the committee of the Senate to which
a resolution with respect to a compensation
plan has been referred has not reported it at the
end of twenty calendar days after its referral, it
shall be in order to move either to discharge the
committee from further consideration of such
resolution or to discharge the committee from
further consideration with respect to such com-
ensation plan which has been referred to the
committee.

(ii) A motion to discharge may be made only
by an individual favoring the resolution, shall
be highly privileged (except that it may not be
made after the committee has reported a resolu-
tion with respect to the same compensation
plan), and debate thereon shall be limited to not
more than one hour, to be divided equally be-

between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(iii) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same compensation plan.

(E)(i) When the committee has reported, or has been discharged from further consideration of, a resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(ii) Debate on the resolution referred to in clause (i) of this subparagraph shall be limited to not more than ten hours, which shall be divided equally between those favoring and those opposing such resolution. A motion further to limit debate shall not be debatable. An amendment to, or motion to recommit, the resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such resolution was agreed to or disagreed to.

(F)(i) Motions to postpone, made with respect to the discharge from committee, or the consideration of a resolution or motions to proceed to the consideration of other business, shall be decided without debate.

(ii) Appeals from the decision of the Chair relating to the application of the rules of the Senate to the procedures relating to a resolution shall be decided without debate.

(k) Exemption from financial protection requirement for nonprofit educational institutions

With respect to any license issued pursuant to section 2073, 2093, 2111, 2134(a), or 2134(c) of this title, for the conduct of educational activities to a person found by the Commission to be a nonprofit educational institution, the Commission shall exempt such licensee from the financial protection requirement of subsection (a). With respect to licenses issued between August 30, 1954, and December 31, 2025, for which the Commission grants such exemption:

(1) The Commission shall agree to indemnify and hold harmless the licensee and other persons indemnified, as their interests may appear, from public liability in excess of $250,000 arising from nuclear incidents. The aggregate indemnity for all persons indemnified in connection with each nuclear incident shall not exceed $500,000,000, including such legal costs of the licensee as are approved by the Commission;

(2) such contracts of indemnification shall cover public liability arising out of or in connection with the licensed activity; and shall include damage to property of persons indemnified, except property which is located at the site of and used in connection with the activity where the nuclear incident occurs; and

(3) such contracts of indemnification, when entered into with a licensee having immunity from public liability because it is a State agency, shall provide also that the Commission shall make payments under the contract on account of activities of the licensee in the same manner and to the same extent as the Commission would be required to do if the licensee were not such a State agency.

Any licensee may waive an exemption to which it is entitled under this subsection. With respect to any production or utilization facility for which a construction permit is issued between August 30, 1954, and December 31, 2025, the requirements of this subsection shall apply to any license issued for such facility subsequent to December 31, 2025.

(l) Presidential commission on catastrophic nuclear accidents

(1) Not later than 90 days after August 20, 1988, the President shall establish a commission (in this subsection referred to as the “study commission”) in accordance with the Federal Advisory Committee Act (5 U.S.C. App.) to study means of fully compensating victims of a catastrophic nuclear accident that exceeds the amount of aggregate public liability under subsection (e)(1).

(2)(A) The study commission shall consist of not less than 7 and not more than 11 members, who—

(i) shall be appointed by the President; and

(ii) shall be representative of a broad range of views and interests.

(B) The members of the study commission shall be appointed in a manner that ensures that not more than a mere majority of the members are of the same political party.

(C) Each member of the study commission shall hold office until the termination of the study commission, but may be removed by the President for inefficiency, neglect of duty, or malfeasance in office.

(D) Any vacancy in the study commission shall be filled in the manner in which the original appointment was made.

(E) The President shall designate one of the members of the study commission as chairperson, to serve at the pleasure of the President.

(3) The study commission shall conduct a comprehensive study of appropriate means of fully compensating victims of a catastrophic nuclear accident that exceeds the amount of aggregate public liability under subsection (e)(1), and shall submit to the Congress a final report setting forth—

(A) recommendations for any changes in the laws and rules governing the liability or civil procedures that are necessary for the equitable, prompt, and efficient resolution and payment of all valid damage claims, including the advisability of adjudicating public liabil-
ity claims through an administrative agency instead of the judicial system;

(B) recommendations for any standards or procedures that are necessary to establish priorities for the hearing, resolution, and payment of claims when awards are likely to exceed the amount of funds available within a specific time period; and

(C) recommendations for any special standards or procedures necessary to decide and pay claims for latent injuries caused by the nuclear incident.

(4)(A) The chairperson of the study commission may appoint and fix the compensation of a staff of such persons as may be necessary to discharge the responsibilities of the study commission, subject to the applicable provisions of the Federal Advisory Committee Act (5 U.S.C. App.) and title 5.

(B) To the extent permitted by law and requested by the chairperson of the study commission, the Administrator of General Services shall provide the study commission with necessary administrative services, facilities, and support on a reimbursable basis.

(C) The Attorney General, the Secretary of Health, and Human Services, and the Administrator of the Federal Emergency Management Agency shall, to the extent permitted by law and subject to the availability of funds, provide the study commission with such facilities, support, funds and services, including staff, as may be necessary for the effective performance of the functions of the study commission.

(D) The study commission may request any Executive agency to furnish such information, advice, or assistance as it determines to be necessary to carry out its functions. Each such agency is directed, to the extent permitted by law, to furnish such information, advice or assistance upon request by the chairperson of the study commission.

(E) Each member of the study commission may receive compensation at the maximum rate prescribed by the Federal Advisory Committee Act (5 U.S.C. App.) for each day such member is engaged in the work of the study commission. Each member may also receive travel expenses, including per diem in lieu of subsistence under sections 5702 and 5703 of title 5.

(F) The functions of the President under the Federal Advisory Committee Act (5 U.S.C. App.) that are applicable to the study commission, except the function of reporting annually to the Congress, shall be performed by the Administrator of General Services.

(G) The final report required in paragraph (3) shall be submitted to the Congress not later than the expiration of the 2-year period beginning on August 20, 1988.

(H) The study commission shall terminate upon the expiration of the 2-month period beginning on the date on which the final report required in paragraph (3) is submitted.

The Commission or the Secretary, as appropriate, is authorized to enter into agreements with other indemnitors to establish coordinated procedures for the prompt handling, investiga-

such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. When so incorporated, such waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified. Such waivers shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages, nor shall such waivers apply to injury or damage to a claimant or to a claimant’s property which is intentionally sustained by the claimant or which results from a nuclear incident intentionally and wrongfully caused by the claimant. The waivers authorized in this subsection shall, as to indemnitors, be effective only with respect to those obligations set forth in the insurance policies or the contracts furnished as proof of financial protection and in the indemnity agreements. Such waivers shall not apply to, or prejudice the prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (i) the terms of insurance policies or contracts furnished as proof of financial protection, or indemnity agreements, and (ii) the limit of liability provisions of subsection (e).

(2) With respect to any public liability action arising out of or resulting from a nuclear incident, the United States district court in the district where the nuclear incident takes place, or in the case of a nuclear incident taking place outside the United States, the United States District Court for the District of Columbia, shall have original jurisdiction without regard to the citizenship of any party or the amount in controversy. Upon motion of the defendant or of the Commission or the Secretary, as appropriate, any such action pending in any State court (including any such action pending on August 20, 1988) or United States district court shall be removed or transferred to the United States district court having venue under this subsection. Process of such district court shall be effective throughout the United States. In any action that is or becomes removable pursuant to this paragraph, a petition for removal shall be filed within the period provided in section 1446 of title 28 or within the 30-day period beginning on August 20, 1988, whichever occurs later.

(3)(A) Following any nuclear incident, the chief judge of the United States district court having jurisdiction under paragraph (2) with respect to public liability actions (or the judicial council of the judicial circuit in which the nuclear incident occurs) may appoint a special caseload management panel (in this paragraph referred to as the “management panel”) to coordinate and assign (but not necessarily hear themselves) cases arising out of the nuclear incident. If—

(i) a court, acting pursuant to subsection (o), determines that the aggregate amount of public liability is likely to exceed the amount of primary financial protection available under subsection (b) (or an equivalent amount in the case of a contractor indemnified under subsection (d)); or

(ii) the chief judge of the United States district court (or the judicial council of the judicial circuit) determines that cases arising out of the nuclear incident will have an unusual impact on the work of the court.

(B)(i) Each management panel shall consist only of members who are United States district judges or circuit judges.

(ii) Members of a management panel may include any United States district judge or circuit judge of another district court or court of appeals, if the chief judge of such other district court or court of appeals consents to such assignment.

(C) It shall be the function of each management panel—

(i) to consolidate related or similar claims for hearing or trial;

(ii) to establish priorities for the handling of different classes of cases;

(iii) to assign cases to a particular judge or special master;

(iv) to appoint special masters to hear particular types of cases, or particular elements or procedural steps of cases;

(v) to promulgate special rules of court, not inconsistent with the Federal Rules of Civil Procedure, to expedite cases or allow more equitable consideration of claims;

(vi) to implement such other measures, consistent with existing law and the Federal Rules of Civil Procedure, as will encourage the equitable, prompt, and efficient resolution of cases arising out of the nuclear incident; and

(vii) to assemble and submit to the President such data, available to the court, as may be useful in estimating the aggregate damages from the nuclear incident.

(o) Plan for distribution of funds

(1) Whenever the United States district court in the district where a nuclear incident occurs, or the United States District Court for the District of Columbia in case of a nuclear incident occurring outside the United States, determines upon the petition of any indemnitor or other interested person that public liability from a single nuclear incident may exceed the limit of liability under the applicable limit of liability under subparagraph (A), (B), or (C) of subsection (e)(i):

(A) Total payments made by or for all indemnitors as a result of such nuclear incident shall not exceed 15 per centum of such limit of liability without the prior approval of such court;

(B) The court shall not authorize payments in excess of 15 per centum of such limit of liability unless the court determines that such payments are or will be in accordance with a plan of distribution which has been approved by the court or such payments are not likely to prejudice the subsequent adoption and implementation by the court of a plan of distribution pursuant to subparagraph (C); and

(C) The Commission or the Secretary, as appropriate, shall, and any other indemnitor or other interested person may, submit to such district court a plan for the disposition of pending claims and for the distribution of remaining funds available. Such a plan shall include an allocation of appropriate amounts for personal injury claims, property damage,
claims, and possible latent injury claims which may not be discovered until a later time and shall include establishment of priorities between claimants and classes of claims, as necessary to insure the most equitable allocation of available funds. Such court shall have all power necessary to approve, disapprove, or modify plans proposed, or to adopt another plan; and to determine the proportionate share of funds available for each claimant. The Commission or the Secretary as appropriate, and any person indemnified shall be entitled to such orders as may be appropriate to implement and enforce the provisions of this section, including orders limiting the liability of the persons indemnified, orders approving or modifying the plan, orders staying the payment of claims and the execution of court judgments, orders apportioning the payments to be made to claimants, and orders permitting partial payments to be made before final determination of the total claims. The orders of such court shall be effective throughout the United States.

(D) A court may authorize payment of only such legal costs as are permitted under paragraph (2) from the amount of financial protection required by subsection (b).

(E) If the sum of public liability claims and legal costs authorized under paragraph (2) arising from any nuclear incident exceeds the maximum amount of financial protection required under subsection (b), any licensee required to pay a standard deferred premium under subsection (b) shall, in addition to such deferred premium, be charged such an amount as is necessary to pay a pro rata share of such claims and costs, but in no case more than 5 percent of the maximum amount of such standard deferred premium described in such subsection.

(2) A court may authorize the payment of legal costs under paragraph (1)(D) only if the person requesting such payment has—

(A) submitted to the court the amount of such payment requested; and

(B) demonstrated to the court—

(i) that such costs are reasonable and equitable; and

(ii) that such person has—

(I) litigated in good faith;

(II) avoided unnecessary duplication of effort with that of other parties similarly situated;

(III) not made frivolous claims or defenses; and

(IV) not attempted to unreasonably delay the prompt settlement or adjudication of such claims.

(p) Reports to Congress

The Commission and the Secretary shall submit to the Congress by December 31, 2021, detailed reports concerning the need for continuation or modification of the provisions of this section, taking into account the condition of the nuclear industry, availability of private insurance, and the state of knowledge concerning nuclear safety at that time, among other relevant factors, and shall include recommendations as to the repeal or modification of any of the provisions of this section.

(q) Limitation on awarding of precautionary evacuation costs

No court may award costs of a precautionary evacuation unless such costs constitute a public liability.

(r) Limitation on liability of lessors

No person under a bona fide lease of any utilization or production facility (or part thereof or undivided interest therein) shall be liable because of an interest as lessor of such production or utilization facility, for any legal liability arising out of or resulting from a nuclear incident resulting from such facility, unless such facility is in the actual possession and control of such person at the time of the nuclear incident giving rise to such legal liability.

(s) Limitation on punitive damages

No court may award punitive damages in any action with respect to a nuclear incident or precautionary evacuation against a person on behalf of whom the United States is obligated to make payments under an agreement of indemnification covering such incident or evacuation.

(t) Inflation adjustment

(1) The Commission shall adjust the amount of the maximum total and annual standard deferred premium under subsection (b)(1) not less than once during each 5-year period following August 20, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

(A) August 20, 2003, in the case of the first adjustment under this subsection; or

(B) the previous adjustment under this subsection.

(2) The Secretary shall adjust the amount of indemnification provided under an agreement of indemnification under subsection (d) not less than once during each 5-year period following July 1, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

(A) that date, in the case of the first adjustment under this paragraph; or

(B) the previous adjustment under this paragraph.

(3) For purposes of this subsection, the term "Consumer Price Index" means the Consumer Price Index for all urban consumers published by the Secretary of Labor.

“(1) PURPOSE.—The Nuclear Regulatory Commission (hereafter in this section referred to as the ‘Commission’) shall initiate a proceeding, in accordance with the requirements of this section, to determine whether to enter into indemnity agreements under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) with persons licensed by the Commission under section 81, 104(a), or 104(c) of the Atomic Energy Act of 1954 (42 U.S.C. 211, 213(a), and 213(c)) or by a State under section 274(b) of the Atomic Energy Act of 1954 (42 U.S.C. 2921(b)) for the manufacture, production, possession, or use of radioisotopes or radiopharmaceuticals for medical purposes (hereafter in this section referred to as ‘radiopharmaceutical licensees’).

“(2) FINAL DETERMINATION.—A final determination with respect to whether radiopharmaceutical licensees, or any class of such licensees, shall be indemnified pursuant to section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) and if so, the terms and conditions of such indemnification, shall be rendered by the Commission within 18 months of the date of the enactment of this Act [Aug. 20, 1988].

EXECUTIVE ORDER No. 12858

EXECUTIVE ORDER No. 12891

Ex. Ord. No. 12891, Jan. 15, 1994, 59 F.R. 2935, which established the Advisory Committee on Human Radiation Experiments, was revoked by Ex. Ord. No. 12862, § 3(a), Sept. 29, 1997, 62 F.R. 51756, formerly set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees.

§ 2210a. Conflicts of interest relating to contracts and other arrangements

(a) Disclosure requirements

The Commission shall, by rule, require any person proposing to enter into a contract, agreement, or other arrangement, whether by competitive bid or negotiation, under this chapter or any other law administered by it; for the conduct of research, development, evaluation activities, or for technical and management support services, to provide the Commission, prior to entering into any such contract, agreement, or arrangement, with all relevant information, as determined by the Commission, bearing on whether that person has a possible conflict of interest with respect to—

(1) being able to render impartial, technically sound, or objective assistance or ad-
vice in light of other activities or relationships with other persons, or
(2) being given an unfair competitive advantage. Such person shall insure, in accordance with regulations prescribed by the Commission, compliance with this section by any subcontractor (other than a supply subcontractor) of such person in the case of any subcontract for more than $10,000.

(b) Evaluation

(1) In general
Except as provided in paragraph (2), the Nuclear Regulatory Commission shall not enter into any such contract agreement or arrangement unless it finds, after evaluating all information provided under subsection (a) and any other information otherwise available to the Commission that—
(A) it is unlikely that a conflict of interest would exist, or
(B) such conflict has been avoided after appropriate conditions have been included in such contract, agreement, or arrangement; except that if the Commission determines that such conflict of interest exists and that such conflict of interest cannot be avoided by including appropriate conditions therein, the Commission may enter into such contract, agreement, or arrangement, if the Commission determines that it is in the best interests of the United States to do so and includes appropriate conditions in such contract, agreement, or arrangement to mitigate such conflict.

(2) Nuclear Regulatory Commission
Notwithstanding any conflict of interest, the Nuclear Regulatory Commission may enter into a contract, agreement, or arrangement with the Department of Energy or the operator of a Department of Energy facility, if the Nuclear Regulatory Commission determines that—
(A) the conflict of interest cannot be mitigated; and
(B) adequate justification exists to proceed without mitigation of the conflict of interest.

(c) Promulgation and publication of rules
The Commission shall publish rules for the implementation of this section, in accordance with section 533 of title 5 (without regard to subsection (a)(2) thereof) as soon as practicable after November 6, 1978, but in no event later than 120 days after such date.

§ 2210b. Uranium supply

(a) Assessment of domestic uranium industry viability; monitoring and reporting requirements; criteria; implementation by rules and regulations

The Secretary of Energy shall monitor and for the years 1983 to 1992 report annually to the Congress and to the President a determination of the viability of the domestic uranium mining and milling industry and shall establish by rule, after public notice and in accordance with the requirements of section 2231 of this title, within 9 months of January 4, 1983, specific criteria which shall be assessed in the annual reports on the domestic uranium industry’s viability. The Secretary of Energy is authorized to issue regulations providing for the collection of such information as the Secretary of Energy deems necessary to carry out the monitoring and reporting requirements of this section.

(b) Disclosure of information

Upon a satisfactory showing to the Secretary of Energy by any person that any information, or portion thereof obtained under this section, would, if made public, divulge proprietary information of such person, the Secretary shall not disclose such information and disclosure thereof shall be punishable under section 1905 of title 18.

(c) Criteria for monitoring and reporting requirements

The criteria referred to in subsection (a) shall also include, but not be limited to—
(1) an assessment of whether executed contracts or options for source material or special nuclear material will result in greater than 37% percent of actual or projected domestic uranium requirements for any two-consecutive-year period being supplied by source material or special nuclear material from foreign sources;
(2) projections of uranium requirements and inventories of domestic utilities for a 10 year period;
(3) present and probable future use of the domestic market by foreign imports;
(4) whether domestic economic reserves can supply all future needs for a future 10 year period;
(5) present and projected domestic uranium exploration expenditures and plans;
(6) present and projected employment and capital investment in the uranium industry;
(7) the level of domestic uranium production capacity sufficient to meet projected domestic nuclear power needs for a 10 year period; and
(8) a projection of domestic uranium production and uranium price levels which will be in effect under various assumptions with respect to imports.
(d) Excessive imports; investigation by United States International Trade Commission

The Secretary or Energy, at any time, may determine on the basis of the monitoring and annual reports required under this section that source material or special nuclear material from foreign sources is being imported in such increased quantities as to be a substantial cause of serious injury, or threat thereof, to the United States uranium mining and milling industry. Based on that determination, the United States Trade Representative shall request that the United States International Trade Commission initiate an investigation under section 2251 of title 19.

(e) Excessive imports for contracts or options as threatening national security; investigation by Secretary of Commerce; recommendation for further investigation

(1) If, during the period 1982 to 1992, the Secretary of Energy determines that executed contracts or options for source material or special nuclear material from foreign sources for use in utilization facilities within or under the jurisdiction of the United States represent greater than 37½ percent of actual or projected domestic uranium requirements for any two-consecutive-year period, or if the Secretary of Energy determines the level of contracts or options involving source material and special nuclear material from foreign sources may threaten to impair the national security, the Secretary of Energy shall request the Secretary of Commerce to initiate under section 1862 of title 19 an investigation to determine the effects on the national security of increased quantities as to be a substantial cause of injury, or threat thereof, to the United States uranium mining and milling industry. Based on that determination, the United States Trade Representative shall request that the United States International Trade Commission initiate an investigation under section 2251 of title 19.

§ 2210d. Security evaluations

(a) Security response evaluations

Not less often than 3 years following completion of any investigation by the Secretary of Commerce under paragraph (1), if no recommendation has been made pursuant to such study for trade adjustments to assist or protect domestic uranium production, the Secretary of Energy may initiate a request for another such investigation by the Secretary of Commerce.

(b) Force-on-force exercises

(1) The security evaluations shall include force-on-force exercises.

(2) The force-on-force exercises shall, to the maximum extent practicable, simulate security threats in accordance with any design basis threat applicable to a facility.

(c) Action by licensees

The Commission shall ensure that an affected licensee corrects those material defects in performance that adversely affect the ability of a private security force at that facility to defend against any applicable design basis threat.
(d) Facilities under heightened threat levels

The Commission may suspend a security evaluation under this section if the Commission determines that the evaluation would compromise security at a nuclear facility under a heightened threat level.

(e) Report

Not less often than once each year, the Commission shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report, in classified form and unclassified form, that describes the results of each security response evaluation conducted and any relevant corrective action taken by a licensee during the previous year.

§ 2210e. Design basis threat rulemaking

(a) Rulemaking

The Commission shall—

(7) the potential use of explosive devices of considerable size and other modern weaponry;

(8) the potential for attacks by persons with a sophisticated knowledge of facility operations;

(9) the potential for fires, especially fires of long duration;

(10) the potential for attacks on spent fuel shipments by multiple coordinated teams of a large number of individuals;

(11) the adequacy of planning to protect the public health and safety at and around nuclear facilities, as appropriate, in the event of a terrorist attack against a nuclear facility; and

(12) the potential for theft and diversion of nuclear materials from such facilities.

§ 2232. License applications

(a) Contents and form

Each application for a license hereunder shall be in writing and shall specifically state such information as the Commission, by rule or regulation, may determine to be necessary to decide whether the technical and financial qualifications of the applicant, the character of the applicant, the citizenship of the applicant, or any other qualifications of the applicant as the Commission deems appropriate for the license. In connection with applications for licenses to operate production or utilization facilities, the applicant shall state such technical specifications, including information of the amount, kind, and source of special nuclear material required, the place of the use, the specific characteristics of the facility, and such other information as the Commission may, by rule or regulation, deem necessary in order to enable it to find that the utilization or production of special nuclear material will be in accord with the common defense and security and will provide adequate protection to the health and safety of the public. Such technical specifications shall be a part of any license issued. The Commission may at any time after the filing of the original application, and before the expiration of the license, require further written statements in order to enable the Commission to determine whether the application should be granted or denied or whether a license should be modified or revoked. All applications and statements shall be signed by the applicant or licensee. Applications for, and statements made in connection with, licenses under sections 2133 and 2134 of this title shall be made under oath or affirmation. The Commission may require any other applications or statements to be made under oath or affirmation.

(b) Review of applications by Advisory Committee on Reactor Safeguards; report

The Advisory Committee on Reactor Safeguards shall review each application under section 2133 or section 2134(b) of this title for a construction permit or an operating license for a facility, any application under section 2134(c) of this title for a construction permit or an operating license for a testing facility, any application under subsection (a) or (c) of section 2134 of this title specifically referred to it by the Commission, and any application for an amendment to a construction permit or an amendment to an operating license under section 2133 or 2134(a), (b), or (c) of this title specifically referred to it by the Commission, and shall submit a report thereon which shall be made part of the record of the application and available to the public except to the extent that security classification prevents disclosure.

(c) Commercial power; publication

The Commission shall not issue any license under section 2133 of this title for a utilization or production facility for the generation of commercial power until it has given notice in writing to such regulatory agency as may have jurisdiction over the rates and services incident to the proposed activity; until it has published notice of the application in such trade or news publications as the Commission deems appropriate to give reasonable notice to municipalities, private utilities, public bodies, and cooperatives which might have a potential interest in such utilization or production facility; and until it has published notice of such application once each week for four consecutive weeks in the Federal Register, and until four weeks after the last notice.

(d) Preferred consideration

The Commission, in issuing any license for a utilization or production facility for the generation of commercial power under section 2133 of this title, shall give preferred consideration to applications for such facilities which will be located in high cost power areas in the United States if there are conflicting applications for a limited opportunity for such license. Where such conflicting applications resulting from limited opportunity for such license include those submitted by public or cooperative bodies such applications shall be given preferred consideration.

Amendments

1970—Subsec. (c). Pub. L. 91–560 substituted provisions requiring notification by publication giving reasonable notice to municipalities, private utilities, public bodies, and cooperatives which might have a potential interest in such utilization or production facility, for provisions requiring notice in writing to municipalities, private utilities, public bodies and cooperatives within transmission distance authorized to engage in the distribution of electric energy.

AMENDMENTS

1964—Pub. L. 88–489 inserted “or special nuclear material,” after “lien upon any facility” and substituted “interest in such facility” for “interest in such property”.

§ 2235. Construction permits and operating licenses

(a) All applicants for licenses to construct or modify production or utilization facilities shall, if the application is otherwise acceptable to the Commission, be initially granted a construction permit. The construction permit shall state the earliest and latest dates for the completion of the construction or modification. Unless the construction or modification of the facility is completed by the completion date, the construction permit shall expire, and all rights thereunder be forfeited, unless upon good cause shown, the Commission extends the completion date. Upon the completion of the construction or modification of the facility, upon the filing of any additional information needed to bring the original application up to date, and upon finding that the facility authorized has been constructed and will operate in conformity with the application as amended and in conformity with the provisions of this chapter and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of this chapter, the Commission shall thereupon issue a license to the applicant. For all other purposes of this chapter, a construction permit is deemed to be a “license”.

(b) After holding a public hearing under section 2239(a)(1)(A) of this title, the Commission shall issue to the applicant a combined license if the application as amended and in conformity with the provisions of this chapter, a construction permit is deemed to be a “license”. The construction permit shall expire, and all rights thereunder be forfeited, unless upon good cause shown, the Commission extends the completion date. Upon the completion of the construction or modification of the facility, upon the filing of any additional information needed to bring the original application up to date, and upon finding that the facility authorized has been constructed and will operate in conformity with the application as amended and in conformity with the provisions of this chapter and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of this chapter, the Commission shall thereupon issue a license to the applicant. For all other purposes of this chapter, a construction permit is deemed to be a “license”.

No license granted hereunder and no right to utilize or produce special nuclear material granted hereby shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of this chapter, and shall give its consent in writing. The Commission may give such consent to the creation of a mortgage, pledge, or other lien upon any facility or special nuclear material, owned or thereafter acquired by a licensee, or upon any leasehold or other interest to such facility, and the rights of the creditors so secured may thereafter be enforced by any court subject to rules and regulations established by the Commission to protect public health and safety and promote the common defense and security.

AMENDMENTS

1964—Pub. L. 88–489 inserted “or special nuclear material,” after “lien upon any facility” and substituted “interest in such facility” for “interest in such property”.

§ 2239(a)(1)(A)
§ 2239. Revocation of licenses

(a) False applications; failure of performance

Any license may be revoked for any material false statement in the application or any statement of fact required under section 2232 of this title, or because of conditions revealed by such application or statement of fact or any report, record, or inspection or other means which would warrant the Commission to refuse to grant a license on an original application, or for failure to construct or operate a facility in accordance with the terms of the construction permit or license or the technical specifications in the application, or for violation of, or failure to observe any of the terms and provisions of this chapter or of any regulation of the Commission.

(b) Procedure

The Commission shall follow the provisions of section 558(c) of title 5 in revoking any license.

(c) Repossession of material

Upon revocation of the license, the Commission may immediately retake possession of all special nuclear material held by the licensee. In cases found by the Commission to be of extreme importance to the national defense and security or to the health and safety of the public, the Commission may recapture any special nuclear material held by the licensee or may enter upon or to the health and safety of the public, the Commission may recapture any special nuclear material held by the licensee or may enter upon and operate the facility prior to any of the procedures provided under subchapter II of chapter 5 and chapter 7 of title 5. Just compensation shall be paid for the use of the facility.

§ 2238. Continued operation of facilities

Whenever the Commission finds that the public convenience and necessity or the production program of the Commission requires continued operation of a production facility or utilization facility the license for which has been revoked pursuant to section 2236 of this title, the Commission may, after consultation with the appropriate regulatory agency, State or Federal, having jurisdiction, order that possession be taken of such facility and be operated for such period of time as the public convenience and necessity or the production program of the Commission may, in the judgment of the Commission, require, or until a license for the operation of the facility shall become effective. Just compensation shall be paid for the use of the facility.

§ 2239. Hearings and judicial review

(a)(1)(A) In any proceeding under this chapter, for the granting, suspending, revoking, or amending of any license or construction permit, or application to transfer control, and in any proceeding for the issuance or modification of rules and regulations dealing with the activities of licensees, and in any proceeding for the payment of compensation, an award or royalties under sections 2183, 2187, 2236(c) or 2238 of this title may be in the form of a judgment, an order, or a decision of a court of competent jurisdiction.
title, the Commission shall grant a hearing upon the request of any person whose interest may be affected by the proceeding, and shall admit any such person as a party to such proceeding. The Commission shall hold a hearing after thirty days’ notice and publication once in the Federal Register, on each application under section 2133 or 2134(b) of this title for a construction permit for a facility, and on any application under section 2134(c) of this title for a construction permit for a testing facility. In cases where such a construction permit has been issued following the holding of such a hearing, the Commission may, in the absence of a request therefor by any person whose interest may be affected, issue an operating license or an amendment to a construction permit or an amendment to an operating license without a hearing, but upon thirty days’ notice and publication once in the Federal Register of its intent to do so. The Commission may dispense with such thirty days’ notice and publication with respect to any application for an amendment to a construction permit or an amendment to an operating license upon a determination by the Commission that the amendment involves no significant hazards consideration.

(B)(i) Not less than 180 days before the date scheduled for initial loading of fuel into a plant by a licensee that has been issued a combined construction and operating license under section 2235(b) of this title, the Commission shall publish in the Federal Register notice of intended operation. That notice shall provide that any person whose interest may be affected by operation of the plant, may within 60 days request the Commission to hold a hearing on whether the facility as constructed complies, or on completion will comply, with the acceptability criteria of the license.

(ii) A request for hearing under clause (i) shall show, prima facie, that one or more of the acceptability criteria in the combined license have not been, or will not be met, and the specific operational consequences of nonconformance that would be contrary to providing reasonable assurance of adequate protection of the public health and safety.

(iii) After receiving a request for a hearing under clause (i), the Commission expeditiously shall either deny or grant the request. If the request is granted, the Commission shall determine, after considering petitioners’ prima facie showing and any answers thereto, whether during a period of interim operation, there will be reasonable assurance of adequate protection of the public health and safety. If the Commission determines that there is such reasonable assurance, it shall allow operation during an interim period under the combined license.

(iv) The Commission, in its discretion, shall determine appropriate hearing procedures, whether informal or formal adjudicatory, for any hearing under clause (i), and shall state its reasons therefor.

(v) The Commission shall, to the maximum possible extent, render a decision on issues raised by the hearing request within 180 days of the publication of the notice provided by clause (i) or the anticipated date for initial loading of fuel into the reactor, whichever is later. Commencement of operation under a combined license is not subject to subparagraph (A).

(2)(A) The Commission may issue and make immediately effective any amendment to an operating license or any amendment to a combined construction and operating license, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person. Such amendment may be issued and made immediately effective in advance of the holding and completion of any required hearing. In determining under this section whether such amendment involves no significant hazards consideration, the Commission shall consult with the State in which the facility involved is located. In all other respects such amendment shall meet the requirements of this chapter.

(B) The Commission shall periodically (but not less frequently than once every thirty days) publish notice of any amendments issued, or proposed to be issued, as provided in subparagraph (A). Each such notice shall include all amendments issued, or proposed to be issued, since the date of publication of the last such periodic notice. Such notice shall, with respect to each amendment or proposed amendment (i) identify the facility involved; and (ii) provide a brief description of such amendment. Nothing in this subsection shall be construed to delay the effective date of any amendment.

(C) The Commission shall, during the ninety-day period following the effective date of this section, promulgate regulations establishing (i) standards for determining whether any amendment to an operating license or any amendment to a combined construction and operating license involves no significant hazards consideration; (ii) criteria for providing or, in emergency situations, dispensing with prior notice and reasonable opportunity for public comment on any such determination, which criteria shall take into account the exigency of the need for the amendment involved; and (iii) procedures for consultation on any such determination with the State in which the facility involved is located.

(b) The following Commission actions shall be subject to judicial review in the manner prescribed in chapter 138 of title 28 and chapter 7 of title 5:

(1) Any final order entered in any proceeding of the kind specified in subsection (a).

(2) Any final order allowing or prohibiting a facility to begin operating under a combined construction and operating license.

REPUBLICAN IN TEXT

This chapter, referred to in subsec. (a), was in the original “this Act”, meaning act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 919, known as the Atomic Energy Act of 1954, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

CODIFICATION

In subsec. (a), “sections 556(b) and 557(b) of title 5” substituted for “sections 7(a) and 8(a) of the Administrative Procedure Act [5 U.S.C. 1006(a), 1007(a)]” on authority of Pub. L. 89–554, § 7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5, Government Organization and Employees.

AMENDMENTS

1970—Subsec. (a). Pub. L. 91–560 required that two members of the board should have such technical or other qualifications the Commission deems appropriate to the issues to be decided.

§ 2242. Temporary operating license

(a) Fuel loading, testing, and operation at specific power level; petition, affidavit, etc.

In any proceeding upon an application for an operating license for a utilization facility required to be licensed under section 2133 or 2134(b) of this title, in which a hearing is otherwise required pursuant to section 2239(a) of this title, the applicant may petition the Commission for a temporary operating license for such facility authorizing fuel loading, testing, and operation at a specific power level to be determined by the Commission, pending final action by the Commission on the application. The initial petition for a temporary operating license for each such facility, and any temporary operating license issued for such facility based upon the initial petition, shall be limited to power levels not to exceed 5 percent of rated full thermal power. Following issuance by the Commission of the temporary operating license for each such facility, the licensee may file petitions with the Commission to amend the license to allow facility operation in staged increases at specific power levels, to be determined by the Commission, exceeding 5 percent of rated full thermal power. The initial petition for a temporary operating license for each such facility may be filed at any time after the filing of: (1) the report of the Advisory Committee on Reactor Safeguards required by section 2232(b) of this title; (2) the filing of the Initial Safety Evaluation Report by the Nuclear Regulatory Commission staff and the Nuclear Regulatory Commission staff’s first supplement to the report prepared in response to the report of the Advisory Committee on Reactor Safeguards for the facility; (3) the Nuclear Regulatory Commission staff’s final detailed statement on the environmental impact of the facility prepared pursuant to section 4332(2)(C) of this title; and (4) a State, local, or utility emergency preparedness plan for the facility. Petitions for the issuance of a temporary operating license, or for an amendment to such a license allowing operation at a specific power level greater than that authorized in the initial temporary operating license, shall be accompanied by an affidavit or affidavits setting forth the specific facts upon which the petitioner relies to justify issuance of the temporary operating license or the amendment thereto. The Commission shall publish notice of each such petition in the Federal Register and in such trade or news publications as the Commission deems appropriate to give reasonable notice to persons who might have a potential interest in the grant of such temporary operating license or amendment thereto. Any person may file affidavits or statements in support of, or in opposition to, the petition within thirty days after the publication of such notice in the Federal Register.

(b) Operation at greater power level; criteria, effect, terms and conditions, etc.; procedures applicable

With respect to any petition filed pursuant to subsection (a) of this section, the Commission may issue a temporary operating license, or amend the license to authorize temporary operation at each specific power level greater than that authorized in the initial temporary operating license, as determined by the Commission, upon finding that—

(1) in all respects other than the conduct or completion of any required hearing, the requirements of law are met;

(2) in accordance with such requirements, there is reasonable assurance that operation of the facility during the period of the temporary operating license in accordance with its terms and conditions will provide adequate protection to the public health and safety and the environment during the period of temporary operation; and

(3) denial of such temporary operating license will result in delay between the date on which construction of the facility is sufficiently completed, in the judgment of the Commission, to permit issuance of the temporary operating license, and the date when such facility would otherwise receive a final operating license pursuant to this chapter.

The temporary operating license shall become effective upon issuance and shall contain such terms and conditions as the Commission may deem necessary, including the duration of the license and any provision for the extension thereof. Any final order authorizing the issuance or amendment of any temporary operating license pursuant to this section shall recite with specificity the facts and reasons justifying the findings under this subsection, and shall be transmitted upon such issuance to the Committees on Natural Resources and on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works of the Senate. The final order of the Commission with
respect to the issuance or amendment of a temporary operating license shall be subject to judicial review pursuant to chapter 158 of title 28. The requirements of section 2239(a) of this title with respect to the issuance or amendment of facility licenses shall not apply to the issuance or amendment of a temporary operating license under this section.

(c) Hearing for final operating license; suspension, issuance, compliance, etc., with temporary operating license

Any hearing on the application for the final operating license for a facility required pursuant to section 2239(a) of this title shall be concluded as promptly as practicable. The Commission shall suspend the temporary operating license if it finds that the applicant is not prosecuting the application for the final operating license with due diligence. Issuance of a temporary operating license under subsection (b) of this section shall be without prejudice to the right of any party to raise any issue in a hearing required pursuant to section 2239(a) of this title; and failure to assert any ground for denial or limitation of a temporary operating license shall not bar the assertion of such ground in connection with the issuance of a subsequent final operating license. Any party to a hearing required pursuant to section 2239(a) of this title on the final operating license for a facility for which a temporary operating license has been issued under subsection (b), and any member of the Atomic Safety and Licensing Board conducting such hearing, shall promptly notify the Commission of any information indicating that the terms and conditions of the temporary operating license are not being met, or that such terms and conditions are not sufficient to comply with the provisions of paragraph (2) of subsection (b).

(d) Administrative remedies for minimization of need for license

The Commission is authorized and directed to adopt such administrative remedies as the Commission deems appropriate to minimize the need for issuance of temporary operating licenses pursuant to this section.

(e) Expiration of issuing authority

The authority to issue new temporary operating licenses under this section shall expire on December 31, 1983.

(a) Persons subject to penalty

Any person who has entered into an agreement of indemnification under section 2210(d) of this title (or any subcontractor or supplier thereto) who violates (or whose employee violates) any applicable rule, regulation, or order related to nuclear safety prescribed or issued by the Secretary of Energy pursuant to this chapter (or expressly incorporated by reference by the Secretary for purposes of nuclear safety, except any rule, regulation, or order issued by the Secretary of Transportation), or who violates any applicable law, rule, regulation, or order related to nuclear safety whistleblower protections, shall be subject to a civil penalty of not to exceed $100,000 for each such violation. If any violation under this subsection is a continuing one, each day of such violation shall constitute a separate violation for the purpose of computing the applicable civil penalty. The Secretary of Energy may carry out this section with respect to the National Nuclear Security Administration by acting through the Administrator for Nuclear Security.

(b) Determination of amount

(1) The Secretary shall have the power to compromise, modify, or remit, with or without conditions, such civil penalties and to prescribe regulations as he may deem necessary to implement this section.

(2) In determining the amount of any civil penalty under this subsection, the Secretary shall take into account the nature, circumstances, extent, and gravity of the violation or violations and, with respect to the violator, ability to pay, effect on ability to continue to do business, any history of prior such violations, the degree of culpability, and such other matters as justice may require.

(c) Assessment and payment

(1) Before issuing an order assessing a civil penalty against any person under this section, the Secretary shall provide to such person notice of the proposed penalty. Such notice shall inform such person of his opportunity to elect in writing within thirty days after the date of receipt of such notice to have the procedures of paragraph (3) (in lieu of those of paragraph (2)) apply with respect to such assessment.

(2)(A) Unless an election is made within thirty calendar days after receipt of notice under para-
graph (1) to have paragraph (3) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5 before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the administrative law judge’s findings and the basis for such assessment.

(B) Any person against whom a penalty is assessed under this paragraph may, within sixty calendar days after the date of the order of the Secretary assessing such penalty, institute an action in the United States court of appeals for the appropriate judicial circuit for judicial review of such order in accordance with chapter 7 of title 5. (B) If the civil penalty has not been paid within sixty calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to recover the amount of such penalty in any action for an order affirming the assessment of the civil penalty. The court shall have authority to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary.

(C) Any election to have this paragraph apply may not be revoked except with consent of the Secretary.

(4) In the event that the Russian Executive Agent does not exercise its right to enter into an agreement to take delivery of the natural uranium component of any low-enriched uranium, as contemplated in paragraph (3), within 90 days of the date such low-enriched uranium is delivered to the United States Executive Agent, or upon request of the Russian Executive Agent, then the United States Executive Agent shall engage an independent entity through a competitive selection process to auction an amount of uranium hexafluoride or U\(_{235}\) (in the event that the conversion component of such hexafluoride has previously been sold equivalent to the natural uranium component of such low-enriched uranium. An agreement executed pursuant to a request of the Russian Executive Agent, as contemplated in this paragraph, may pertain to any deliveries due during any period remaining under the Russian HEU Agreement. Such independent entity shall sell such uranium hexafluoride in one or more lots to any person or entity to maximize the proceeds from such sales, for disposition consistent with the limitations set forth in this subsection. The independent entity shall pay to the Russian Executive Agent the proceeds of any such auction less all reasonable transaction and other administrative costs. The quantity of such uranium hexafluoride auctioned shall be based on a tails assay of 0.30 U\(_{235}\). Title to uranium hexafluoride auctioned pursuant to this paragraph shall transfer to the buyer of such material upon delivery of such material to the buyer. Uranium hexafluoride auctioned pursuant to this paragraph shall be deemed under United States law for all purposes to be of Russian origin.

(5) Except as provided in paragraphs (6) and (7), uranium hexafluoride delivered to the Russian Executive Agent under paragraph (3) or auctioned pursuant to paragraph (4), may not be delivered for consumption by end users in the United States either directly or indirectly prior to January 1, 1998, and thereafter only in accordance with the following schedule:

(V) any related administrative guidance issued by the Department of Commerce.

(ii) Effect of termination of Suspension Agreement

Clause (i) shall remain in effect if the Suspension Agreement is terminated.

(C) Additional imports in exchange for a commitment to downblend an additional 300 metric tons of highly enriched uranium

(i) In general

In addition to the amount authorized to be imported under subparagraph (A) and except as provided in clause (ii), if the Russian Federation enters into a bilateral agreement with the United States under which the Russian Federation agrees to downblend an additional 300 metric tons of highly enriched uranium after the completion of the Russian HEU Agreement, 4 kilograms of low-enriched uranium, whether or not such low-enriched uranium is derived from highly enriched uranium of weapons origin and including low-enriched uranium obtained under contracts for separative work units, may be imported in a calendar year for every 1 kilogram of Russian highly enriched uranium of weapons origin that was downblended in the preceding calendar year, subject to the verification of the Secretary of Energy under paragraph (10).

(ii) Maximum annual imports

Not more than 120,000 kilograms of low-enriched uranium may be imported in a calendar year under clause (i).

(3) Exceptions

The import limitations described in paragraphs (1) and (2) shall not apply to low-enriched uranium produced in the Russian Federation that is imported into the United States—
(A) for use in the initial core of a new nuclear reactor; or
(B) for processing and to be certified for reexportation and not for consumption in the United States.

(4) Limited waiver authority

(A) In general

Notwithstanding paragraph (1)(C), if the completion of the Russian HEU Agreement does not occur before December 31, 2013, the import limitations under paragraph (1)(C) shall be waived, and low-enriched uranium may be imported into the United States in the quantities specified in paragraph (2) in a calendar year after 2013, if—
(i) the Secretary of Energy and the Secretary of State jointly determine that—
(I) the failure of the completion of the Russian HEU Agreement arises from causes beyond the control and without the fault or negligence of the Government of the Russian Federation; and
(II) the Government of the Russian Federation has made reasonable efforts to avoid and mitigate the effects of the failure of the completion of the Russian HEU Agreement; and
(ii) the Secretary of Energy and the Secretary of State jointly notify Congress of, and publish in the Federal Register, the determination under clause (i) and the reasons for the determination.

(B) Notice and wait

A waiver under subparagraph (A) may not take effect until the date that is 180 days after the date on which Secretary of Energy and the Secretary of State notify Congress under subparagraph (A)(ii).

(C) Termination

A waiver under subparagraph (A) shall terminate on December 31 of the calendar year with respect to which the Secretary makes the determination under subparagraph (A)(i).

(5) Adjustments to import limitations

(A) In general

The import limitations described in paragraph (2)(A) are based on the lower scenario data in the report of the World Nuclear Association entitled “The Nuclear Fuel Report: Global Scenarios for Demand and Supply Availability 2019–2040”. In each of calendar years 2023, 2029, and 2035, the Secretary of Commerce shall review the projected demand for uranium for nuclear reactors in the United States and adjust the import limitations described in paragraph (2)(A) to account for changes in such demand in years after the year in which that report or a subsequent report is published.

(B) Report required

Not later than one year after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to Congress a report that includes—
(i) a recommendation on the use of all publicly available data to ensure accurate forecasting by scenario data to comport to actual demand for low-enriched uranium for nuclear reactors in the United States; and
(ii) an identification of the steps to be taken to adjust the import limitations described in paragraph (2)(A) based on the most accurate scenario data.

(C) Incentive adjustment

Beginning in the second calendar year after the calendar year of the completion of the Russian HEU Agreement, the Secretary of Energy shall increase or decrease the amount of low-enriched uranium that may be imported in a calendar year under paragraph (2)(C) (including the amount of low-enriched uranium that may be imported for each kilogram of highly enriched uranium downblended under paragraph (2)(C)(1)) by a
percentage equal to the percentage increase or decrease, as the case may be, in the average amount of uranium loaded into nuclear power reactors in the United States in the most recent 3-calendar-year period for which data are available, as reported by the Energy Information Administration of the Department of Energy, compared to the average amount of uranium loaded into such reactors during the 3-calendar-year period beginning on January 1, 2011, as reported by the Energy Information Administration.

(D) Publication of adjustments

As soon as practicable, but not later than July 31 of each calendar year, the Secretary of Energy shall publish in the Federal Register the amount of low-enriched uranium that may be imported in the current calendar year after the adjustments under subparagraph (C).

(6) Authority for additional adjustment

In addition to the adjustment under paragraph (5)(A), the Secretary of Commerce may adjust the import limitations under paragraph (2)(A) for a calendar year if the Secretary—

(A) in consultation with the Secretary of Energy, determines that the available supply of low-enriched uranium and the available stockpiles of uranium of the Department of Energy are insufficient to meet demand in the United States in the following calendar year; and

(B) notifies Congress of the adjustment not less than 45 days before making the adjustment.

(7) Equivalent quantities of low-enriched uranium imports

(A) In general

The import limitations described in paragraphs (1) and (2) are expressed in terms of uranium containing 4.4 percent uranium-235 and a tails assay of 0.3 percent.

(B) Adjustment for other uranium

Imports of low-enriched uranium under paragraphs (1) and (2), including low-enriched uranium obtained under contracts for separative work units, shall count against the import limitations described in such paragraphs in amounts calculated as the quantity of low-enriched uranium containing 4.4 percent uranium-235 necessary to equal the total amount of uranium loaded into such imports.

(8) Downblending of other highly enriched uranium

(A) In general

The downblending of highly enriched uranium not of weapons origin may be counted for purposes of paragraph (2)(C), subject to verification under paragraph (10), if the Secretary of Energy determines that the highly enriched uranium to be downblended poses a risk to the national security of the United States.

(B) Equivalent quantities of highly enriched uranium

For purposes of determining the additional low-enriched uranium imports allowed under paragraph (2)(C), highly enriched uranium not of weapons origin downblended pursuant to subparagraph (A) shall count as downblended highly enriched uranium of weapons origin in amounts calculated as the quantity of highly enriched uranium containing 90 percent uranium-235 necessary to equal the total amount of uranium-235 contained in the highly enriched uranium not of weapons origin downblended pursuant to subparagraph (A).

(9) Termination of import restrictions

The provisions of this subsection shall terminate on December 31, 2040.

(10) Technical verifications by Secretary of Energy

(A) In general

The Secretary of Energy shall verify the origin, quantity, and uranium-235 content of the highly enriched uranium downblended for purposes of paragraphs (2)(C) and (8).

(B) Methods of verification

In conducting the verification required under subparagraph (A), the Secretary of Energy shall employ the transparency measures and access provisions agreed to under the Russian HEU Agreement for monitoring the downblending of Russian highly enriched uranium of weapons origin and such other methods as the Secretary determines appropriate.

(11) Enforcement of import limitations

The Secretary of Commerce shall be responsible for enforcing the import limitations imposed under this subsection and shall enforce such import limitations in a manner that imposes a minimal burden on the commercial nuclear industry.

(12) Effect on other agreements

(A) Russian HEU Agreement

Nothing in this section shall be construed to modify the terms of the Russian HEU Agreement, including the provisions of the Agreement relating to the amount of low-enriched uranium that may be imported into the United States.

(B) Other agreements

If a provision of any agreement between the United States and the Russian Federation, other than the Russian HEU Agreement or the Suspension Agreement, relating to the importation of low-enriched uranium, including low-enriched uranium obtained under contracts for separative work units, into the United States conflicts with a provision of this section, the provision of this section shall supersede the provision of the agreement to the extent of the conflict.

CHAPTER 31—PUBLIC WORKS ACCELERATION PROGRAM

Sec.

2641. Congressional declaration of purpose.
2642. Acceleration of public works.
2643. Increase of State or local expenditures.

§ 2641. Congressional declaration of purpose
(a) The Congress finds that (1) certain communities and areas in the Nation are presently burdened by substantial unemployment and underemployment and have failed to share fully in the economic gains of the recovery from the recession of 1960–1961 and (2) action by the Federal Government is necessary, both to provide immediate useful work for the unemployed and underemployed in these communities, through improvement of their facilities, to become more conducive to industrial development and better places in which to live and work. The Nation has a backlog of needed public projects, and an acceleration of these projects now will not only increase employment at a time when jobs are urgently required but will also meet longstanding public needs, improve community services, and enhance the health and welfare of citizens of the Nation.

(b) The Congress further finds that Federal assistance to stimulate public works investment in order to increase employment opportunities is most urgently needed in those areas, both urban and rural, which qualify as redevelopment areas because they suffer from persistent and chronic unemployment and economic underdevelopment, as well as in other areas which have suffered from substantial unemployment for a period of at least twelve months.

Short Title

§ 2642. Acceleration of public works

(a) Eligible areas
For the purposes of this section the term “eligible area” means—

(1) those areas which the Secretary of Labor designates each month as having been areas of substantial unemployment for at least nine of the preceding twelve months; and

(2) those areas which are designated by the Secretary of Commerce under subsections (a) and (b) of section 2504 of this title as “redevelopment areas”.

(b) Authority to initiate and accelerate projects; allocation of funds
The President is authorized to initiate and accelerate in eligible areas those Federal public works projects which have been authorized by Congress, and those public works projects of States and local governments for which Federal financial assistance is authorized under provisions of law other than this chapter, by allocating funds appropriated to carry out this section—

(1) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the construction of Federal public works projects, and

(2) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of laws authorizing Federal financial assistance to public works projects of State and local governments.

(c) Grants-in-aid; law governing; amount of Federal contributions
All grants-in-aid made from allocations made by the President under this section shall be made by the head of the department, agency, or instrumentality of the Federal Government administering the law authorizing such grants, and, except as otherwise provided in this subsection, shall be made in accordance with all of the provisions of such law except (1) provisions requiring allocation of funds among the States, and (2) limitations upon the total amount of such grants for any period. Notwithstanding any provisions of such law requiring the Federal contribution to the State or local government involved to be less than a fixed portion of the cost of a project, grants-in-aid may be made under authority of this section which bring the total of all Federal contributions to such project up to 50 per centum of the cost of such project, or up to 75 per centum of the cost of such project if the State or local government does not have economic and financial capacity to assume all of the additional financial obligations required.
(d) Authorization of appropriations

There is authorized to be appropriated not to exceed $900,000,000 to be allocated by the President in accordance with subsection (b) of this section, except that not less than $300,000,000 shall be allocated for public works projects in areas designated by the Secretary of Commerce as redevelopment areas under subsection (b) of section 2504 of this title.

(e) Rules and regulations; considerations

The President shall prescribe rules, regulations, and procedures to carry out this section which will assure that adequate consideration is given to the relative needs of eligible areas. In prescribing such rules, regulations, and procedures the President shall consider among other relevant factors (1) the severity of the rates of unemployment in the eligible areas and the duration of such unemployment and (2) the income levels of families and the extent of underemployment in eligible areas.

(f) Restrictions on allocated funds

Funds allocated by the President under this section shall be available only for projects—

1. which can be initiated or accelerated within a reasonably short period of time;
2. which meet an essential public need;
3. a substantial portion of which can be completed within twelve months after initiation or acceleration;
4. which will contribute significantly to the reduction of local unemployment;
5. which are not inconsistent with locally approved comprehensive plans for the jurisdiction affected, wherever such plans exist.

(g) Limit on allocations available for projects in any one State

Not more than 10 per centum of all amounts allocated by the President under this section shall be made available for public works projects within any one State.

(h) Criteria determining substantial unemployment

The criteria to be used by the Secretary of Labor in determining areas of substantial unemployment for the purposes of paragraph (1) of subsection (a) of this section shall be the criteria established in section 6.3 of title 29 of the Code of Federal Regulations as in effect May 1, 1962.

(2651. Recovery by United States)

§ 2651. Recovery by United States

(a) Conditions; exceptions; persons liable; amount of recovery; subrogation; assignment

In any case in which the United States is authorized or required by law to furnish or pay for hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) to a person who is injured or suffers a disease, after the effective date of this Act, under circumstances creating a tort liability upon some third person (other than or in addition to the United States and except employers of seamen treated under the provisions of section 249 of this title) to pay damages therefor, the United States shall have a right to recover (independent of the rights of the injured or diseased person) from said third person, or that person's insurer, the reasonable value of the care and treatment so furnished, to be furnished, paid for, or to be paid for and shall, as to this right be subrogated to any right or claim that the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors has against such third person to the extent of the reasonable value of the care and treatment so furnished, to be furnished, paid for, or to be paid for. The head of the department or agency of the United States furnishing such care or treatment may also require the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, as appropriate, to assign his claim or cause of action against the third person to the extent of that right or claim.

(b) Recovery of cost of pay for member of uniformed services unable to perform duties

If a member of the uniformed services is injured, or contracts a disease, under circumstances creating a tort liability upon a third person (other than or in addition to the United States and except employers of seamen referred to in subsection (a)) for damages for such injury or disease and the member is unable to perform the member's regular military duties as a result of the injury or disease, the United States shall have a right (independent of the rights of the member) to recover from the third person or an insurer of the third person, or both, the amount
equal to the total amount of the pay that accrues and is to accrue to the member for the period for which the member is unable to perform such duties as a result of the injury or disease and is not assigned to perform other military duties.

(c) United States deemed third party beneficiary under alternative system of compensation

(1) If, pursuant to the laws of a State that are applicable in a case of a member of the uniformed services who is injured or contracts a disease as a result of tortious conduct of a third person, there is in effect for such a case (as a substitute or alternative for compensation for damages through tort liability) a system of compensation or reimbursement for expenses of hospital, medical, surgical, or dental care and treatment or for lost pay pursuant to a policy of insurance, contract, medical or hospital service agreement, or similar arrangement, the United States shall be deemed to be a third-party beneficiary of such a policy, contract, agreement, or arrangement.

(2) For the purposes of paragraph (1)—

(A) the expenses incurred or to be incurred by the United States for care and treatment for an injured or diseased member as described in subsection (a) shall be deemed to have been incurred by the member;

(B) the cost to the United States of the pay of the member as described in subsection (b) shall be deemed to have been paid lost by the member as a result of the injury or disease; and

(C) the United States shall be subrogated to any right or claim that the injured or diseased member or the member’s guardian, personal representative, estate, dependents, or survivors have under a policy, contract, agreement, or arrangement referred to in paragraph (1) to the extent of the reasonable value of the care and treatment and the total amount of the pay deemed lost under subparagraph (B).

(d) Enforcement procedure; intervention; joinder of parties; State or Federal court proceedings

The United States may, to enforce a right under subsections (a), (b), and (c) (1) intervene or join in any action or proceeding brought by the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, against the third person who is liable for the injury or disease; and

(2) if such action or proceeding is not commenced within six months after the first day in which care and treatment is furnished or paid for by the United States in connection with the injury or disease involved, institute and prosecute legal proceedings against the third person who is liable for the injury or disease or the insurance carrier or other entity responsible for the payment or reimbursement of medical expenses or lost pay; or

(e) Veterans’ exception

The provisions of this section shall not apply with respect to hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) furnished by the Department of Veterans Affairs to an eligible veteran for a service-connected disability under the provisions of chapter 17 of title 38.

(f) Crediting of amounts recovered

(1) Any amount recovered under this section for medical care and related services furnished by a military medical treatment facility or similar military activity shall be credited to the appropriation or appropriations supporting the operation of that facility or activity, as determined under regulations prescribed by the Secretary of Defense.

(2) Any amount recovered under this section for the cost to the United States of pay of an injured or diseased member of the uniformed services shall be credited to the appropriation that supports the operation of the command, activity, or other unit to which the member was assigned at the time of the injury or illness, as determined under regulations prescribed by the Secretary concerned.

Alaska Federation of Natives’ Study and Report With Proposals To Implement Recommendations of Alaska Natives Commission

Pub. L. 104–270, Oct. 9, 1996, 110 Stat. 3301, provided that:

“SECTION 1. CONGRESSIONAL FINDINGS AND DECLARATION OF POLICY.

“The Congress finds and declares the following:

“(1) The Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives (hereafter in this Act referred to as the ‘Alaska Natives Commission’) was established by Public Law 101–379 (42 U.S.C. 2991a note) following the publication in 1989 of the ‘Report on the Status of Alaska Natives: A Call for Action’ by the Alaska Federation of Natives and after extensive congressional hearings which focused on the need for the first comprehensive assessment of the social, cultural, and economic condition of Alaska’s 86,000 Natives since the enactment of the Alaska Native Claims Settlement Act, Public Law 92–203 (43 U.S.C. 1601 et seq.).

“(2) The 14-member Alaska Natives Commission held 15 regional hearings throughout Alaska between July 1992 and October 1993, and 2 statewide hearings in Anchorage coinciding with the Conventions of 1992 and 1993 of the Alaska Federation of Natives. In May 1994, the Alaska Natives Commission issued its 3 volume, 1460 page report. As required by Public Law 101–379, the report was formally conveyed to the Congress, the President of the United States, and the Governor of Alaska.

“(3) The Alaska Natives Commission found that many Alaska Native individuals, families, and communities were experiencing a social, cultural, and economic crisis marked by rampant unemployment, lack of economic opportunity, alcohol abuse, depression, and morbidity and mortality rates that have been described by health care professionals as ‘staggering’.

“(4) The Alaska Natives Commission found that due to the high rate of unemployment and lack of economic opportunities for Alaska Natives, government programs for the poor have become the foundation of many village economies. Displacing traditional Alaskan Native social safety nets, these well-meaning programs have undermined the healthy interdependence and self-sufficiency of Native tribes and families and have put Native tribes and families at risk of becoming permanent dependencies of Government.

“(5) Despite these seemingly insurmountable problems, the Alaska Natives Commission found that Alaskan Natives, building on the Alaska Native Claims Settlement Act, had begun a unique process of critical self-examination which, if supported by the United States Congress through innovative legislation, and effective public administration at all levels including traditional Native governance, could provide the basis for an Alaskan Native social, cultural, economic, and spiritual renewal.

“(6) The Alaska Natives Commission recognized that the key to the future well-being of Alaskan Natives lies in—

“(A) the systematic resumption of responsibility by Alaskan Natives for the well-being of their members,

“(B) the strengthening of their economies,

“(C) the strengthening, operation, and control of their systems of governance, social services, education, health care, and law enforcement, and

“(D) exercising rights they have from their special relationship with the Federal Government and as citizens of the United States and Alaska.

“(7) The Alaska Natives Commission recognized that the following 3 basic principles must be respected in addressing the myriad of problems facing Alaskan Natives:

“(A) Self-reliance.

“(B) Self-determination.

“(C) Integrity of Native cultures.

“(8) There is a need to address the problems confronting Alaskan Natives. This should be done rapidly, with certainty, and in conformity with the real economic, social, and cultural needs of Alaskan Natives.

“(9) Congress retains and has exercised its constitutional authority over Native affairs in Alaska subse-
quently to the Treaty of Cession and does so now through this Act.

"SEC. 2. ALASKA NATIVE IMPLEMENTATION STUDY.

(a) FINDINGS.—The Congress finds and declares that—

"(1) the Alaska Natives Commission adopted certain recommendations raising important policy questions which are unresolved in Alaska and which require further study and review before Congress considers legislation to implement solutions to address these recommendations; and

"(2) the Alaska Federation of Natives has the representative body of statewide Alaska Native interests best suited to further investigate and report to Congress with proposals to implement the recommendations of the Alaska Natives Commission.

(b) GRANT.—The Secretary of Health and Human Services shall make a grant to the Alaska Federation of Natives to conduct the study and submit the report required by this section. Such grant may only be made if the Alaska Federation of Natives agrees to abide by the requirements of this section.

(c) ALASKA NATIVE IMPLEMENTATION.

(1) examine the recommendations of the Alaska Natives Commission;

(2) examine initiatives in the United States, Canada, and elsewhere for successful ways that issues similar to the issues addressed by the Alaska Natives Commission have been addressed;

(3) conduct hearings within the Native community on further ways in which the Commission’s recommendations might be implemented; and

(4) recommend enactment of specific provisions of law and other actions the Congress should take to implement such recommendations.

(d) CONSIDERATION OF LOCAL CONTROL.—In developing its recommendations pursuant to subsection (c)(4), the Alaska Federation of Natives shall give specific attention to the ways in which the recommendations may be achieved at the local level with maximum local control of the implementation of the recommendations.

(e) REPORT.—Not later than 12 months after the date on which the grant is made under subsection (b), the Alaska Federation of Natives shall submit a report on the study conducted under this section, together with the recommendations developed pursuant to subsection (c)(4) to the President and the Congress and to the Governor and legislature of the State of Alaska. In addition, the Alaska Federation of Natives shall make the report available to Alaska Native villages and organizations and to the general public.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $350,000 for the grant under subsection (b).

(g) ADDITIONAL STATE FUNDING.—The Congress encourages the State of Alaska to provide the additional funding necessary for the completion of the study under this section.

ALASKA NATIVES COMMISSION

Pub. L. 101-379, §12, Aug. 18, 1990, 104 Stat. 478, established a Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives to conduct a comprehensive review of Federal and State policies and programs affecting Alaska Natives in order to identify specific actions that could be taken to help assure that public policy goals were more fully realized among Alaska Natives, further provided for membership, meetings, and other administrative affairs of the Commission, as well as specific powers and duties, further directed the Commission to submit, by no later than 18 months after its first meeting, a report with recommendations to the President, the Congress, the Governor of Alaska, and the legislature of the State of Alaska, and further provided for funding as well as termination of the Commission 180 days after the date of submission of its report.

§ 2991b. Financial assistance for Native American projects

(a) Authorization for financial assistance to public and nonprofit agencies; consultation with other Federal agencies to avoid duplication

The Commissioner is authorized to provide financial assistance, on a single year or multiyear basis, to public and nonprofit private agencies, including but not limited to, governing bodies of Indian Tribes on Federal and State reservations, Alaska Native villages and regional corporations established by the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and such public and nonprofit private agencies serving Native Hawaiians, and Indian and Alaska Native organizations in urban or rural areas that are not Indian reservations or Alaska Native villages, for projects pertaining to the purposes of this subchapter. The Commissioner is authorized to provide financial assistance to public and nonprofit private agencies serving other Native American Pacific Islanders (including American Samoan Natives) for projects pertaining to the purposes of this Act. In determining the projects to be assisted under this subchapter, the Commissioner shall consult with other Federal agencies for the purpose of eliminating duplication or conflict among similar activities or projects and for the purpose of determining whether the findings resulting from those projects may be incorporated into one or more programs for which those agencies are responsible. Every determination made with respect to a request for financial assistance under this section shall be made without regard to whether the agency making such request serves, or the project to be assisted is for the benefit of, Indians who are not members of a federally recognized Tribe. To the greatest extent practicable, the Commissioner shall ensure that each project to be assisted under this subchapter is consistent with the priorities established by the agency which receives such assistance.

(b) Economic development

(1) In general

The Commissioner may provide assistance under subsection (a) for projects relating to the purposes of this subchapter to a Native community development financial institution, as defined by the Secretary of the Treasury.

(2) Priority

With regard to not less than 50 percent of the total amount available for assistance under this section, the Commissioner shall give priority to any application seeking assistance for—
(A) the development of a Tribal code or court system for purposes of economic development, including commercial codes, training for court personnel, regulation pursuant to section 261 of title 25, and the development of nonprofit subsidiaries or other Tribal business structures;
(B) the development of a community development financial institution, including training and administrative expenses; or
(C) the development of a Tribal master plan for community and economic development and infrastructure.

(c) Limitations of financial assistance; exceptions; non-Federal contributions

Financial assistance extended to an agency under this subchapter shall not exceed 80 percent of the approved costs of the assisted project, except that the Commissioner may approve assistance in excess of such percentage if the Commissioner determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this subchapter. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, and services. The Commissioner shall not require non-Federal contributions in excess of 20 percent of the approved costs of programs or activities assisted under this subchapter.

(d) Assistance as addition to, and not substitution for, activities previously carried out without Federal assistance; waiver; nonreservation areas

(1) No project shall be approved for assistance under this subchapter unless the Commissioner is satisfied that the activities to be carried out under such project will be in addition to, and not in substitution for, comparable activities previously carried out without Federal assistance, except that the Commissioner may waive this requirement in any case in which the Commissioner determines, in accordance with regulations establishing objective criteria, that application of the requirement would result in unnecessary hardship or otherwise be inconsistent with the purposes of this subchapter.

(2) No project may be disapproved for assistance under this subchapter solely because the agency requesting such assistance is an Indian organization in a nonreservation area or serves Indians in a nonreservation area.

(e) Grants to improve Tribal regulation of environmental quality

(1) The Commissioner shall award grants to Indian Tribes for the purpose of funding 80 percent of the costs of planning, developing, and implementing programs designed to improve the capability of the governing body of the Indian Tribe to regulate environmental quality pursuant to Federal and Tribal environmental laws.

(2) The purposes for which funds provided under any grant awarded under paragraph (1) may be used include, but are not limited to—
(A) the training and education of employees responsible for enforcing, or monitoring compliance with, environmental quality laws,
(B) the development of Tribal laws on environmental quality, and
(C) the enforcement and monitoring of environmental quality laws.

(3) The 20 percent of the costs of planning, developing, and implementing a program for which a grant is awarded under paragraph (1) that are not to be paid from such grant may be paid by the grant recipient in cash or through the provision of property or services, but only to the extent that such cash or property is from any source (including any Federal agency) other than a program, contract, or grant authorized under this subchapter.

(4) Grants shall be awarded under paragraph (1) on the basis of applications that are submitted by Indian Tribes to the Commissioner in such form as the Commissioner shall prescribe.

SUBCHAPTER X—LEGAL SERVICES CORPORATION

§ 2996. Congressional findings and declaration of purpose

The Congress finds and declares that—

(1) there is a need to provide equal access to the system of justice in our Nation for individuals who seek redress of grievances;

(2) there is a need to provide high quality legal assistance to those who would be otherwise unable to afford adequate legal counsel and to continue the present vital legal services program;

(3) providing legal assistance to those who face an economic barrier to adequate legal counsel will serve the ends of justice and assist in improving opportunities for low-income persons consistent with the purposes of this chapter;

(4) for many of our citizens, the availability of legal services has reaffirmed faith in our government of laws;

(5) to preserve its strength, the legal services program must be kept free from the influence of or use by it of political pressures; and
(6) attorneys providing legal assistance must have full freedom to protect the best interests of their clients in keeping with the Code of Professional Responsibility, the Canons of Ethics, and the high standards of the legal profession.

§ 2996f. Grants and contracts

(a) Requisites

With respect to grants or contracts in connection with the provision of legal assistance to eligible clients under this subchapter, the Corporation shall—

(1) insure the maintenance of the highest quality of service and professional standards, the preservation of attorney-client relationships, and the protection of the integrity of the adversary process from any impairment in furnishing legal assistance to eligible clients;

(2)(A) establish, in consultation with the Director of the Office of Management and Budget and with the Governors of the several States, maximum income levels (taking into account family size, urban and rural differences, and substantial cost-of-living variations) for individuals eligible for legal assistance under this subchapter;

(B) establish guidelines to insure that eligibility of clients will be determined by recipients on the basis of factors which include—

(i) the liquid assets and income level of the client,

(ii) the fixed debts, medical expenses, and other factors which affect the client’s ability to pay,

(iii) the cost of living in the locality, and

(iv) such other factors as relate to financial inability to afford legal assistance, which may include evidence of a prior determination that such individual’s lack of income results from refusal or unwillingness, without good cause, to seek or accept an employment situation; and

(C) insure that (i) recipients, consistent with goals established by the Corporation, adopt procedures for determining and implementing priorities for the provision of such assistance, taking into account the relative needs of eligible clients for such assistance (including such outreach, training, and support services as...
may be necessary), including particularly the needs for service on the part of significant segments of the population of eligible clients with special difficulties of access to legal services or special legal problems (including elderly and handicapped individuals); and (ii) appropriate training and support services are provided in order to provide such assistance to such significant segments of the population of eligible clients;

(3) insure that grants and contracts are made so as to provide the most economical and effective delivery of legal assistance to persons in both urban and rural areas;

(4) insure that attorneys employed full time in legal assistance activities supported in major part by the Corporation refrain from (A) any compensated outside practice of law, and (B) any uncompensated outside practice of law except as authorized in guidelines promulgated by the Corporation;

(5) insure that no funds made available to recipients by the Corporation shall be used at any time, directly or indirectly, to influence the issuance, amendment, or revocation of any executive order or similar promulgation by any Federal, State, or local agency, or to undertake to influence the passage or defeat of any legislation by the Congress of the United States, or by any State or local legislative bodies, or State proposals by initiative petition, except where—

(A) representation by an employee of a recipient for any eligible client is necessary to the provision of legal advice and representation with respect to such client's legal rights and responsibilities (which shall not be construed to permit an attorney or a recipient employee to solicit a client, in violation of professional responsibilities, for the purpose of making such representation possible); or

(B) a governmental agency, legislative body, a committee, or a member thereof—

(i) requests personnel of the recipient to testify, draft, or review measures or to make representations to such agency, body, committee, or member, or

(ii) is considering a measure directly affecting the activities under this subchapter of the recipient or the Corporation;

(6) insure that all attorneys engaged in legal assistance activities supported in whole or in part by the Corporation refrain, while so engaged, from—

(C) any voter registration activity (other than legal advice and representation);

(7) require recipients to establish guidelines, consistent with regulations promulgated by the Corporation, for a system for review of appeals to insure the efficient utilization of resources and to avoid frivolous appeals (except that such guidelines or regulations shall in no way interfere with attorneys' professional responsibilities);

(8) insure that recipients solicit the recommendations of the organized bar in the community being served before filling staff attorney positions in any project funded pursuant to this subchapter and give preference in filling such positions to qualified persons who reside in the community to be served;

(9) insure that every grantee, contractor, or person or entity receiving financial assistance under this subchapter or predecessor authority under this chapter which files with the Corporation a timely application for refunding is provided interim funding necessary to maintain its current level of activities until (A) the application for refunding has been approved and funds pursuant thereto received, or (B) the application for refunding has been finally denied in accordance with section 2996j of this title;

(10) insure that all attorneys, while engaged in legal assistance activities supported in whole or in part by the Corporation, refrain from the persistent incitement of litigation and any other activity prohibited by the Canons of Ethics and Code of Professional Responsibility of the American Bar Association, and insure that such attorneys refrain from personal representation for a private fee in any cases in which they were involved while engaged in such legal assistance activities; and

(11) ensure that an indigent individual whose primary residence is subject to civil forfeiture is represented by an attorney for the Corporation in such civil action.

(b) Limitations on uses

No funds made available by the Corporation under this subchapter, either by grant or contract, may be used—

this provision shall not be construed to pro-
hibit the training of attorneys or paralegal
personnel necessary to prepare them to pro-
vide adequate legal assistance to eligible cli-
ets; (7) to initiate the formation, or act as an or-
ganizer, of any association, federation, or
similar entity, except that this paragraph
shall not be construed to prohibit the provi-
sion of legal assistance to eligible clients;
(8) to provide legal assistance with respect
to any proceeding or litigation which seeks to
procure a nontherapeutic abortion or to com-
pel any individual or institution to perform an
abortion, or assist in the performance of an
abortion, or provide facilities for the perform-
ance of an abortion, contrary to the religious
beliefs or moral convictions of such individual
or institution; (9) to provide legal assistance with respect

nature of the population they serve, are unable
to comply with such requirement) and at
least one-third of which consists of persons who
are, when selected, eligible clients who may also
be representatives of associations or organiza-

(a) In general

(1) From the sums appropriated under subsections (a) through (d) of section 3023 of this title for each fiscal year, each State shall be allotted an amount which bears the same ratio to such sums as the population of older individuals in such State bears to the population of older individuals in all States.

(2) In determining the amounts allotted to States from the sums appropriated under section 3023 of this title for a fiscal year, the Assistant Secretary shall first determine the amount allotted to each State under paragraph (1) and then proportionately adjust such amounts, if necessary, to meet the requirements of paragraph (2).

(3)(A) No State shall be allotted less than 1⁄4 of 1 percent of the sum appropriated for the fiscal year for which the determination is made.

(B) Guam and the United States Virgin Islands shall each be allotted not less than 1⁄4 of 1 percent of the sum appropriated for the fiscal year for which the determination is made.

(C) American Samoa and the Commonwealth of the Northern Mariana Islands shall each be allotted not less than 1⁄4 of 1 percent of the sum appropriated for the fiscal year for which the determination is made. For the purposes of the exception contained in subparagraph (A) only, the term "State" does not include Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(D)(i) In this subparagraph and paragraph (5)—

(I) the term "allot" means allot under this subsection from a sum appropriated under section 3023(a) or 3023(b)(1) of this title, as the case may be; and

(II) the term "covered fiscal year" means any of fiscal years 2020 through 2029.

(ii) If the sum appropriated under section 3023(a) or 3023(b)(1) of this title for a particular covered fiscal year is less than or equal to the sum appropriated under section 3023(a) or 3023(b)(1) of this title, respectively, for fiscal year 2019, amounts shall be allotted to States from the sum appropriated for the particular year in accordance with paragraphs (1) and (2), and subparagraphs (A) through (C) as applicable, but no State shall be allotted an amount that is less than—

(I) for fiscal year 2020, 99.75 percent of the State’s allotment from the corresponding sum appropriated for fiscal year 2019;

(II) for fiscal year 2021, 99.50 percent of that allotment;

(III) for fiscal year 2022, 99.25 percent of that allotment;

(IV) for fiscal year 2023, 99.00 percent of that allotment;

(V) for fiscal year 2024, 98.75 percent of that allotment;

(IX) for fiscal year 2028, 97.75 percent of that allotment; and

(X) for fiscal year 2029, 97.50 percent of that allotment.

(iii) If the sum appropriated under section 3023(a) or 3023(b)(1) of this title for a particular covered fiscal year is greater than the sum appropriated under section 3023(a) or 3023(b)(1) of this title, respectively, for fiscal year 2019, the allotment to States from the corresponding sum shall be calculated as follows:

(I) From the portion equal to the corresponding sum appropriated for fiscal year 2019, amounts shall be allotted in accordance with paragraphs (1) and (2), and subparagraphs (A) through (C) as applicable, but no State shall be allotted an amount that is less than the percentage specified in clause (ii), for that particular year, of the State’s allotment from the corresponding sum appropriated for fiscal year 2019.

(II) From the remainder, amounts shall be allotted in accordance with paragraph (1), subparagraphs (A) through (C) as applicable, and paragraph (2) to the extent needed to meet the requirements of those subparagraphs.

(4) The number of individuals aged 60 or older in any State and in all States shall be deter-
minded by the Assistant Secretary on the basis of the most recent data available from the Bureau of the Census, and other reliable demographic data satisfactory to the Assistant Secretary.

(5) State allotments for a fiscal year under this section shall be proportionally reduced to the extent that appropriations may be insufficient to provide the full allotments as required by paragraph (3).

(b) Unused funds

Whenever the Assistant Secretary determines that any amount allotted to a State under part B or C, or part E, for a fiscal year under this section will not be used by such State for carrying out the purposes for which the allotment was made, the Assistant Secretary shall make such allotment available for carrying out such purpose to one or more other States to the extent the Assistant Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from an appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this subchapter, be regarded as part of such State’s allotment (as determined under subsection (a)) for such year, but shall remain available until the end of the succeeding fiscal year.

(c) Withholding of funds; disbursement

If the Assistant Secretary finds that any State has failed to qualify under the State plan requirements of section 3027 of this title or the Assistant Secretary does not approve the funding formula required under section 3028(a)(2)(C) of this title, the Assistant Secretary shall withhold the allotment of funds to such State for purposes described in paragraph (a) thereof. The Assistant Secretary shall disburse the funds so withheld directly to any public or private nonprofit institution or organization, agency, or political subdivision of such State submitting an approved plan under section 3027 of this title, which includes an agreement that any such payments shall be matched in the proportion determined under subsection (d)(1)(D) for such State, by funds or in-kind resources from non-Federal sources.

(d) Costs of administration, ombudsman program, demonstration projects, supportive services, senior centers and nutrition services; payment and determination of non-Federal share

(1) From any State’s allotment, after the application of section 3028(b) of this title, under this section for any fiscal year—

(C) not less than $150,000 and not more than 4 percent of the amount allotted to the State for carrying out part B, shall be available for conducting outreach demonstration projects under section 3058e of this title; and

(D) the remainder of such allotment shall be available to such State only for paying such percentage as the State agency determines, but not more than 85 percent of the cost of supportive services, senior centers, and nutrition services under this subchapter provided in the State as part of a comprehensive and coordinated system in planning and service areas for which there is an area plan approved by the State agency.

(2) The non-Federal share shall be in cash or in kind. In determining the amount of the non-Federal share, the Assistant Secretary may attribute fair market value to services and facilities contributed from non-Federal sources.

(b) Planning and service areas

(1) In carrying out the requirement of subsection (a)(1), the State may designate as a planning and service area any unit of general purpose local government which has a population of 100,000 or more. In any case in which a unit of general purpose local government makes application to the State agency under the preceding sentence to be designated as a planning and service area, the State agency shall, upon request, provide an opportunity for a hearing to such unit of general purpose local government. A State may designate as a planning and service area under subsection (a)(1), any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this subchapter. The State may include in any planning and service area designated under subsection (a)(1) such additional areas adjacent to the unit of general purpose local government or regions so designated as the State determines to be necessary for, and will enhance the effective administration of the programs authorized by this subchapter.

(2) The State is encouraged in carrying out the requirement of subsection (a)(1) to include the area covered by the appropriate economic development district involved in any planning and service area designated under subsection (a)(1), and to include all portions of an Indian reservation within a single planning and service area, if feasible.

(3) The chief executive officer of each State in which a planning and service area crosses State boundaries, or in which an interstate Indian reservation is located, may apply to the Assistant Secretary to request redesignation as an interstate planning and service area comprising the entire metropolitan area or Indian reservation. If the Assistant Secretary approves such an application, the Assistant Secretary shall adjust the State allotments of the areas within the planning and service area in which the interstate planning and service area is established to reflect the number of older individuals within the area who will be served by an interstate planning and service area not within the State.

(4) Whenever a unit of general purpose local government, a region, a metropolitan area or an Indian reservation is denied designation under the provisions of subsection (a)(1), such unit of general purpose local government, region, metropolitan area, or Indian reservation may appeal the decision of the State agency to the Assistant Secretary. The Assistant Secretary shall afford
such unit, region, metropolitan area, or Indian reservation an opportunity for a hearing. In carrying out the provisions of this paragraph, the Assistant Secretary may approve the decision of the State agency, disapprove the decision of the State agency and require the State agency to designate the unit, region, area, or Indian reservation appealing the decision as a planning and service area, or take such other action as the Assistant Secretary deems appropriate.

(5)(A) A State which on or before October 1, 1980, had designated, with the approval of the Assistant Secretary, a single planning and service area covering all of the older individuals in the State, in which the State agency was administering the area plan, may after that date designate one or more additional planning and service areas within the State to be administered by public or private nonprofit agencies or organizations as area agencies on aging, after considering the factors specified in subsection (a)(1)(E). The State agency shall continue to perform the functions of an area agency on aging for any area of the State not included in a planning and service area for which an area agency on aging has been designated.

(B) Whenever a State agency designates a new area agency on aging after October 9, 1984, the State agency shall give the right to first refusal to a unit of general purpose local government if (i) such unit can meet the requirements of subsection (c), and (ii) the boundaries of such a unit and the boundaries of the area are reasonably contiguous.

(II) designate an additional planning and service area in a State;

(III) divide the State into different planning and service areas; or

(IV) otherwise affect the boundaries of the planning and service areas in the State.

(III) conducting a public hearing for the action or proceeding;

(IV) involving area agencies on aging, service providers, and older individuals in the action or proceeding; and

(V) allowing an appeal of the decision of the State agency in the action or proceeding to the Assistant Secretary.

(iii) An adversely affected party involved in an action or proceeding described in clause (i) may bring an appeal described in clause (ii)(V) on the basis of—

(I) the facts and merits of the matter that is the subject of the action or proceeding; or

(II) procedural grounds.

(iv) In deciding an appeal described in clause (ii)(V), the Assistant Secretary may affirm or set aside the decision of the State agency. If the Assistant Secretary sets aside the decision, and the State agency has taken an action described in subclauses (I) through (III) of clause (i), the State agency shall nullify the action.

In designating an area agency on aging within the planning and service area or within any unit of general purpose local government designated as a planning and service area the State shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

The publication for review and comment required by paragraph (2)(C) of subsection (a) shall include—

(1) a descriptive statement of the formula’s assumptions and goals, and the application of the definitions of greatest economic or social need;

Effective Date of 1987 Amendment
Amendment by Pub. L. 100-175 effective Oct. 1, 1987, except not applicable with respect to any area plan sub-
mitted under section 3026(a) of this title or any State
§ 3028. Cost of administration of State plans

(a) Activities constituting administration; use of excess funds to supplement cost of administration of area plans; election to pay costs from sums received for administration of area plans

(1) Amounts available to States under subsection (b) may be used to make grants to States for paying such percentages as each State agency determines, but not more than 75 percent, of the cost of the administration of its State plan, including the preparation of the State plan, the evaluation of activities carried out under such plan, the collection of data and the carrying out of analyses related to the need for supportive services, nutrition services, and multipurpose senior centers within the State, and dissemination of information so obtained, the provision of short-term training to personnel of public or nonprofit private agencies and organizations engaged in the operation of programs authorized by this chapter, and the carrying out of demonstration projects of statewide significance relating to the initiation, expansion, or improvement of services assisted under this subchapter.

(2) Any sums available to a State under subsection (b) for part of the cost of the administration of its State plan which the State determines is not needed for such purpose may be used by the State to supplement the amount available under section 3024(d)(1)(A) of this title to cover part of the cost of the administration of area plans.

(3) Any State which has been designated a single planning and service area under section 3025(a)(1)(B) of this title covering all, or substantially all, of the older individuals in such State, as determined by the Assistant Secretary, may elect to pay part of the costs of the administration of State and area plans either out of sums received under this section of out sums made available for the administration of area plans under section 3024(d)(1)(A) of this title, but shall not pay such costs out of sums received or allotted under both such sections.

(b) Formula for computation of allotment; application for additional funds; approval of application by Assistant Secretary; limitation on amount of additional funds; transfer of funds

(1) If for any fiscal year the aggregate amount appropriated under section 3023 of this title does not exceed $300,000,000, then—

(A) except as provided in subparagraph (B), the greater of—

(i) 5 percent of the total amount of the allotments made to a State under sections 3024(a)(1) and 3030s–1(f) of this title; or

(ii) $300,000; and

(B) in the case of Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the greater of 5 percent of such total amount or $75,000; shall be available to such State to carry out the purposes of this section.

(2) If for any fiscal year the aggregate amount appropriated under section 3023 of this title exceeds $300,000,000, then—

(A) except as provided in subparagraph (B), the greater of—

(i) 5 percent of the total amount of the allotments made to a State under sections 3024(a)(1) and 3030s–1(f) of this title; or

(ii) $750,000; and

(B) in the case of Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the greater of 5 percent of such total amount or $100,000; shall be available to such State to carry out the purposes of this section.

(3)(A) If the aggregate amount appropriated under section 3023 of this title for a fiscal year does not exceed $300,000,000, then any State which desires to receive amounts, in addition to amounts allotted to such State under paragraph (1), to be used in the administration of its State plan in accordance with subsection (a) may transmit an application to the Assistant Secretary in accordance with this paragraph. Any such application shall be transmitted in such form, and according to such procedures, as the Assistant Secretary may require, except that such application may not be made as part of, or as an amendment to, the State plan.
(B) The Assistant Secretary may approve any application transmitted by a State under subparagraph (A) if the Assistant Secretary determines, based upon a particularized showing of need, that—

(i) the State will be unable to fully and effectively administer its State plan and to carry out programs and projects authorized by this subchapter unless such additional amounts are made available by the Assistant Secretary;

(ii) the State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 3025(a)(2)(A) of this title in the administration of its State plan in accordance with subsection (a); and

(iii) the State agency and area agencies on aging of such State are carrying out, on a full-time basis, programs and activities which are in furtherance of the objectives of this chapter.

(C) The Assistant Secretary may approve that portion of the amount requested by a State in its application under subparagraph (A) which the Assistant Secretary determines has been justified in such application.

(D) Amounts which any State may receive in any fiscal year under this paragraph may not exceed three-fourths of 1 percent of the sum of the amounts allotted under section 3023(a) of this title to such State to carry out the State plan for such fiscal year.

(E) No application by a State under subparagraph (A) shall be approved unless it contains assurances that no amounts received by the State under this paragraph will be used to hire any individual to fill a job opening created by the action of the State in laying off or terminating the employment of any regular employee not supported under this chapter in anticipation of filling the vacancy so created by hiring an employee to be supported through use of amounts received under this paragraph.

(4)(A) Notwithstanding any other provision of this subchapter and except as provided in subparagraph (B), with respect to funds received by a State attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, the State may elect to transfer not more than 40 percent of the funds so received between subpart I and subpart II of part C, for use as the State considers appropriate to meet the needs of the area served. The Assistant Secretary shall approve any such transfer unless the Assistant Secretary determines that such transfer is not consistent with the objectives of this chapter.

(B) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, including funds transferred under subparagraph (A) without regard to this subparagraph, for any fiscal year are insufficient to satisfy the need for services under subpart I or subpart II of part C, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need an additional 10 percent of the funds so received by a State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title.

(C) A State’s request for a waiver under subparagraph (B) shall—

(i) be not more than one page in length;

(ii) include a request that the waiver be granted;

(iii) specify the amount of the funds received by a State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, over the permissible 40 percent referred to in subparagraph (A), that the State requires to satisfy the need for services under subpart I or II of part C; and

(iv) not include a request for a waiver with respect to an amount if the transfer of the amount would jeopardize the appropriate provision of services under subpart I or II of part C.

(D) The State, in consultation with area agencies on aging, shall ensure the process used by the State in transferring funds under this paragraph (including requirements relating to the authority and timing of such transfers) is simplified and clarified to reduce administrative barriers and direct limited resources to the greatest nutritional service needs at the community level. Such process shall be modified to attempt to lessen the administrative barriers of such transfers, and help direct limited resources to where they are needed the most as the unmet need for nutrition services grows.

(5)(A) Notwithstanding any other provision of this subchapter, of the funds received by a State attributable to funds appropriated under subsection (a)(1), and paragraphs (1) and (2) of subsection (b), of section 3023 of this title, the State may elect to transfer not more than 30 percent for any fiscal year between programs under part B and part C, for use as the State considers appropriate. The State shall notify the Assistant Secretary of any such election.

(B) At a minimum, the notification described in subparagraph (A) shall include a description of the amount to be transferred, the purposes of the transfer, the need for the transfer, and the impact of the transfer on the provision of services from which the funding will be transferred.

(6) A State agency may not delegate to an area agency on aging or any other entity the authority to make a transfer under paragraph (4)(A) or (5)(A).

(7) The Assistant Secretary shall annually collect, and include in the report required by section 3018(a) of this title, data regarding the transfers described in paragraphs (4)(A) and (5)(A), including—

(A) the amount of funds involved in the transfers, analyzed by State;

(B) the rationales for the transfers;

(2) Plans

Prior to the implementation of cost sharing under subsection (a), each State and area agency on aging shall develop plans that are designed to ensure that the participation of low-income older individuals (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) receiving services will not decrease with the implementation of the cost sharing under such subsection.

(d) Evaluation

Not later than 1 year after November 13, 2000, and annually thereafter, the Assistant Secretary shall conduct a comprehensive evaluation of the impact on participation rates (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) receiving services will not decrease with the implementation of the cost sharing under such subsection.

(c) Duration of waiver

The application by a State agency for a waiver under this section shall include a recommendation as to the duration of the waiver (not to exceed the duration of the State plan of the State). The Assistant Secretary, in granting such waiver, shall specify the duration of the waiver, which may be the duration recommended by the State agency or such shorter time period as the Assistant Secretary finds to be appropriate.

(d) Reports to Secretary

With respect to each waiver granted under this section, not later than 1 year after the expiration of such waiver, and at any time during the waiver period that the Assistant Secretary may require, the State agency shall prepare and submit to the Assistant Secretary a report evaluating the impact of the waiver on the operation and effectiveness of programs and services provided under this subchapter.

AMENDMENTS

SHORT TITLE OF 1970 AMENDMENT

§§ 3102, 3103. Omitted

CODIFICATION

§ 3104. Advance acquisition of land for public purposes

(a) Authority to make grants

In order to encourage and assist the timely acquisition of land planned to be utilized in the future for public purposes, the Secretary is authorized to make grants to States and local public bodies and agencies to assist in financing the acquisition of a fee simple estate or other interest in such land.

(b) Maximum amount of grants

The amount of any grant made under this section shall not exceed the aggregate amount of reasonable interest charges on the loans or other financial obligations incurred by the Secretary to finance the acquisition of such land for a period not in excess of the lesser of (1) five years from the date of acquisition of such land or (2) the period of time between the date on which the land was acquired and the date its use began for the purpose for which it was acquired: Provided, That where all or any portion of the cost of such land is not financed through borrowings, the amount of the grant shall be computed on the basis of the aggregate amount of reasonable interest charges that the Secretary determines would have been required.

(c) Utilization of land for public purpose within reasonable period of time

No grant shall be made under this section unless the Secretary determines that the land will be utilized for a public purpose within a reasonable period of time and that such utilization will contribute to economy, efficiency, and the comprehensively planned development of the area. The Secretary shall in all cases require that land acquired with the assistance of a grant under this section be utilized for a public purpose within five years after the date on which a contract to make such grant is entered into, unless the Secretary determines that due to unusual circumstances a longer period of time is necessary and in the public interest.

(d) Diversion of land; repayment; interim use

No land acquired with assistance under this section shall, without approval of the Secretary, be diverted from the purpose originally approved. The Secretary shall approve no such diversion unless he finds that the diversion is in accord with the then applicable comprehensive plan for the area. In cases of a diversion of land to other than a public purpose, the Secretary may require repayment of the grant, or substitution of land of approximately equal fair market value, whichever he deems appropriate. An interim use of the land for a public or private purpose in accordance with standards prescribed by the Secretary, or approved by him, shall not constitute a diversion within the meaning of this subsection.

(e) Eligibility for other Federal loans or grant programs

Notwithstanding any other provision of law, no project for which land is acquired with assistance under this section shall, solely as a result of such advance acquisition, be considered ineligible for the purpose of any other Federal loan
or grant program, and the amount of the purchase price paid for the land by the recipient of a grant under this section may be considered an eligible cost for the purpose of such other Federal loan or grant program.

AMENDMENTS

Subsec. (d). Pub. L. 90–448 inserted provisions prohibiting diversion of land without approval of the Secretary, directing the Secretary to disapprove any diversion unless he finds that the diversion is in accord with the then applicable comprehensive plan for the area, authorizing the Secretary to accept, in cases of repayment, substitution of land of approximately equal fair market value, and stating that an interim use of land for a public or private purpose in accordance with prescribed standards shall not constitute a diversion, and eliminated provisions which required repayment if the land purchased with assistance is not utilized within five years after the agreement is entered into in connection with the construction of the public work or facility for which the land was acquired.

SUBCHAPTER I—ECONOMIC DEVELOPMENT PARTNERSHIPS COOPERATION AND COORDINATION
3131. Establishment of economic development partnerships.

Page 5471 TITLE 42—THE PUBLIC HEALTH AND WELFARE §3108
§ 3121. Findings and declarations

(a) Findings

Congress finds that—

(1) there continue to be areas of the United States experiencing chronic high unemployment, underemployment, outmigration, and low per capita incomes, as well as areas facing sudden and severe economic dislocations because of structural economic changes, changing trade patterns, certain Federal actions (including environmental requirements that result in the removal of economic activities from a locality), and natural disasters;

(2) economic growth in the States, cities, and rural areas of the United States is produced by expanding economic opportunities, expanding free enterprise through trade, developing and strengthening public infrastructure, and creating a climate for job creation and business development;

(3) the goal of Federal economic development programs is to raise the standard of living for all citizens and increase the wealth and overall rate of growth of the economy by encouraging communities to develop a more competitive and diversified economic base by—

(A) creating an environment that promotes economic activity by improving and expanding public infrastructure;

(B) promoting job creation through increased innovation, productivity, and entrepreneurship; and

(C) empowering local and regional communities experiencing chronic high unemployment and low per capita income to develop private sector business and attract increased private sector capital investment;

(4) while economic development is an inherently local process, the Federal Government should work in partnership with public and private State, regional, tribal, and local organizations to maximize the impact of existing resources and enable regions, communities, and citizens to participate more fully in the American dream and national prosperity;

(5) in order to avoid duplication of effort and achieve meaningful, long-lasting results, Federal, State, tribal, and local economic development activities should have a clear focus, improved coordination, a comprehensive approach, and simplified and consistent requirements; and

(6) Federal economic development efforts will be more effective if the efforts are coordinated with, and build upon, the trade, workforce investment, transportation, and technology programs of the United States.

(b) Declarations

In order to promote a strong and growing economy throughout the United States, Congress declares that—
(1) assistance under this chapter should be made available to both rural- and urban-distressed communities;

(2) local communities should work in partnership with neighboring communities, the States, Indian tribes, and the Federal Government to increase the capacity of the local communities to develop and implement comprehensive economic development strategies to alleviate economic distress and enhance competitiveness in the global economy;

(3) whether suffering from long-term distress or a sudden dislocation, distressed communities should be encouraged to support entrepreneurship to take advantage of the development opportunities afforded by technological innovation and expanding newly opened global markets; and

(4) assistance under this chapter should be made available to promote the productive reuse of abandoned industrial facilities and the redevelopment of brownfields.

3272. Cooperative assistance to State and other public agencies; types of assistance; private engineering services.

3273. Contributions of State or other public agencies toward cost of soil surveys.

3274. Authorization of appropriations.

§ 3271. Availability of soil surveys under soil survey program

In recognition of the increasing need for soil surveys by the States and other public agencies
in connection with community planning and resource development for protecting and improving the quality of the environment, meeting recreational needs, conserving land and water resources, providing for multiple uses of such resources, and controlling and reducing pollution from sediment and other pollutants in areas of rapidly changing uses, including farmlands being shifted to other uses, resulting from rapid expansions in the uses of land for industry, housing, transportation, recreation, and related services, it is the sense of Congress that the soil survey program of the United States Department of Agriculture should be conducted so as to make available soil surveys to meet such needs of the States and other public agencies in connection with community planning and resource development.

§ 3272. Cooperative assistance to State and other public agencies; types of assistance; private engineering services

In order to provide soil surveys to assist States, their political subdivisions, soil and water conservation districts, towns, cities, planning boards and commissions, community development districts, and other public agencies in community planning and resource development for the protection and improvement of the quality of the environment, recreational development, the conservation of land and water resources, the development of multiple uses of such resources, and the control and prevention of pollution from sediment and other pollutants in areas of rapidly changing uses, including farm and nonfarm areas, the Secretary of Agriculture shall, upon the request of a State or other public agency, provide by means of such cooperative arrangements with the State or other public agency, technical and other assistance needed for use of soil surveys; and consultation with other Federal agencies participating or assisting in the planning and development of such areas in order to assure the coordination of the work under this chapter with the related work of such other agencies.

The provision by the Secretary of such assistance shall not interfere with the furnishing of engineering services by private engineering firms or consultants for on-site sampling and testing of sites or for design and construction of specific engineering works.

§ 3273. Contributions of State or other public agencies toward cost of soil surveys

It is further the sense of the Congress that the Secretary shall make a reasonable effort to assure that the contributions of any State or other public agency under any cooperative agreement which may be entered into between the Secretary and such State or other public agency with respect to a soil survey shall be a substantial portion of the cost of such soil survey.

§ 3274. Authorization of appropriations

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this chapter, such sums to remain available until expended.

CODIFICATION

Sections were omitted pursuant to section 5316 of this title, which terminated authority to make grants or loans under this subchapter after Jan. 1, 1975.

Section 3302, Pub. L. 89–754, title I, §102, Nov. 3, 1966, 80 Stat. 1255, set out basic authority of Secretary of Housing and Urban Development under this subchapter.

**SUBCHAPTER II—PLANNED AREAWIDE DEVELOPMENT**

§ 3331. Congressional findings and declaration of purpose

(a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of our State and local governments. It further finds that our State and local governments are especially handicapped in this task by the complexity and scope of governmental services required, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of areawide problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this subchapter to provide through greater coordination of Federal programs, and through supplementary grants for certain Federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive areawide planning and programing effective.

**AMENDMENTS**

§ 3332. Cooperation between Federal agencies

In order to insure that all Federal programs related to areawide development are carried out in a coordinated manner—

(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for areawide development, and to assist the President in coordinating the areawide development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to areawide development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

**AMENDMENTS**

§ 3333. Metropolitan expediter

Upon the request of the duly authorized local officials of the central city in any metropolitan area, and after consultation with local governmental authorities throughout the metropolitan area with respect to whether or not the Secretary should make an appointment under this section (and with respect to the individuals who might be so appointed), the Secretary may appoint a metropolitan expediter for such area whenever he finds a need for the services specified in this section. The metropolitan expediter shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted...
within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(B) in connection with the transfer, was informed of a future, programmed reassignment to the installation.

(3) The eligibility of a civilian employee and member of the Armed Forces under paragraph (1) and a member of the Armed Forces under paragraph (2) for benefits under subsection (a)(1) in connection with the closure of an installation or activity is subject to the additional conditions set out in paragraphs (4) and (5).

(c) Election of benefits; mortgage loan encumbrance; foreclosure expenses

(1) Homeowner assistance related to closed military installations

A) In general

Such persons as the Secretary of Defense may determine to be eligible under the criteria set forth in subsection (a)(1) shall elect either—

B) Reimbursement of expenses

The Secretary may also pay a person who elects to receive a cash payment under subparagraph (A) an amount that the Secretary determines appropriate to reimburse the person for the costs incurred by the person in the sale of the property if the Secretary determines that such payment will benefit the person and is in the best interest of the United States.

(2) Homeowner assistance for permanently reassigned individuals

A) In general

Persons eligible under the criteria set forth in subsection (a)(3) may elect either—

(i) to receive a cash payment as compensation for losses which may be or have been sustained in a private sale, in an amount not to exceed the difference between

(I) 95 per centum of prior fair market value of their property (as such value is determined by the Secretary of Defense); and

(II) the fair market value of such property (as such value is determined by the Secretary of Defense) at the time of sale; or

Except in cases of payment as compensation for losses, in the event of foreclosure by mortgagees commenced on or after public announcement of intention to close all or part of the military base or instal-
lution the Secretary of Defense may reimburse or pay on account of eligible persons such sums as may be paid or be otherwise due and owing by such persons as the result of such foreclosure, including (without limiting the generality of the foregoing) direct costs of judicial foreclosure, expenses and liabilities enforceable according to the terms of their mortgages or promissory notes, and the amount of debts, if any, established against such persons by a Federal agency in the case of loans made, guaranteed, or insured by such agency following liquidation of the security for such loans.

There shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided above. The capital of such fund shall consist of such sums as may, from time to time, be appropriated thereto, and shall consist also of receipts from the management, rental, or sale of properties acquired under this section, which receipts shall be credited to the fund and shall be available, together with funds appropriated therefor, for purchase or reimbursement purposes as provided above, as well as to defray expenses arising in connection with the acquisition, management, and disposal of such properties, including payment of principal, interest, and expenses of mortgages or other indebtedness thereon, and including the cost of staff services and contract services, costs of insurance, and other indemnity. Any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts. Properties acquired under this section shall be conveyed to, and acquired in the name of, the United States. The Secretary of Defense shall have the power to deal with, rent, renovate, and dispose of, whether by sales for cash or credit or otherwise, any properties so acquired: Provided, however, That no contract for acquisition, or acquisition, shall be deemed to constitute a contract for or acquisition of family housing units in support of military installations or activities within the meaning of section 1594i of this title, nor shall it be deemed a transaction within the contemplation of section 2662 of title 10: Provided further, That no properties in foreign countries shall be acquired under this section, except in connection with compensation for property located on a base or installation pursuant to subsection (l).

Payments from the fund created by this section may be made in lieu of taxes to any State or political subdivision thereof, with respect to real property, including improvements thereon, acquired and held under this section. The amount so paid for any year upon such property shall not exceed the taxes which would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation, and shall reflect such allowance as may be considered appropriate for expenditures, if any, by the Government for streets, utilities, or other public services to serve such property.

Such regulations shall also prescribe the terms and conditions under which payments may be made and instruments accepted under this section, and all the determinations and decisions made pursuant to such regulations by the Secretary of Defense regarding such payments and conveyances and the terms and conditions under which they are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

(j) Omitted

(k) Reduction of operations at military base or installation

For the purpose of this subsection, the term "United States" means the several States and the District of Columbia.

(m) Eligibility for benefits as to closure actions announced after April 1, 1973; criteria

The Secretary of Defense and the Secretary of the department in which the Coast Guard is operating shall enter into an agreement under which the Secretary of the department in which the Coast Guard is operating shall carry out such reimbursement.

(o) Relocation assistance for nonappropriated fund instrumentality and other civilian employees

(1) Assistance under subsection (a)(1) shall be provided by the Secretary of Defense with respect to nonappropriated fund instrumentality employees adversely affected by the closure of a base or installation ordered to be closed, in whole or in part, after December 31, 1988.

(2) Notwithstanding subsection (b), a civilian employee who is serving overseas and is entitled to reemployment by the Federal Government (including a nonappropriated fund instrumentality of the United States) at or in connection with a base or installation ordered to be closed, in whole or in part, shall be entitled to the benefits of subsection (a)(1) to the same extent as an employee employed at or in connection with that base or installation.
