(i) that no low greenhouse gas emitting vehicle is available to meet the functional needs of the agency and details in writing the functional needs that could not be met with a low greenhouse gas emitting vehicle; or
(ii) that the agency has taken specific alternative more cost-effective measures to reduce petroleum consumption that—

(I) have reduced a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved through acquisition of a low greenhouse gas emitting vehicle over the lifetime of the vehicle; or

(II) will reduce each year a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved each year through acquisition of a low greenhouse gas emitting vehicle.

(C) Special rule for vehicles provided by funds contained in Members' Representational Allowance

This paragraph shall apply to the acquisition of a light duty motor vehicle or medium

1So in original. The word ‘in’ probably should appear after ‘term’.

Census, with a 1980 population of more than 250,000, that are centrally fueled or capable of being centrally fueled and are owned, operated, leased, or otherwise controlled by or assigned to any Federal executive department, military department, Government corporation, independent establishment, or executive agency, the United States Postal Service, the Congress, the courts of the United States, or the Executive Office of the President. Such term does not include—

(A) motor vehicles held for lease or rental to the general public;
(B) motor vehicles used for motor vehicle manufacturer product evaluations or tests;
(C) law enforcement vehicles;
(D) emergency vehicles;
(E) motor vehicles acquired and used for military purposes that the Secretary of Defense has certified to the Secretary must be exempt for national security reasons; or
(F) nonroad vehicles, including farm and construction vehicles.

The General Services Administration and any other Federal agency that procures motor vehicles for distribution to other Federal agencies shall allocate the incremental cost of alternative fueled vehicles over the cost of comparable gasoline vehicles across the entire fleet of motor vehicles distributed by such agency.

The provisions of section 6374 of this title relating to the Federal acquisition of alternative fueled vehicles shall apply to the acquisition of vehicles pursuant to this section.

The Administrator of General Services shall take all feasible steps to ensure that all alternative fueled vehicles sold by the Federal Government shall remain alternative fueled vehicles at time of sale.

The term ‘Federal agency’ does not include any office of the legislative branch, except that it does include the House of Representatives with respect to an acquisition described in paragraph (2)(C).

The term ‘medium duty passenger vehicle’ has the meaning given that term sec. 532.2 of title 49 of the Code of Federal Regulations, as in effect on December 19, 2007.

The term ‘Member’s Representational Allowance’ means the allowance described in section 5341(a) of title 2.

Except as provided in subparagraph (B), no Federal agency shall acquire a light duty motor vehicle or medium duty passenger vehicle that is not a low greenhouse gas emitting vehicle.

The prohibition in subparagraph (A) shall not apply to acquisition of a vehicle if the head of the agency certifies in writing, in a separate certification for each individual vehicle purchased, either—

(i) that no low greenhouse gas emitting vehicle is available to meet the functional needs of the agency and details in writing the functional needs that could not be met with a low greenhouse gas emitting vehicle; or
(ii) that the agency has taken specific alternative more cost-effective measures to reduce petroleum consumption that—

(I) have reduced a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved through acquisition of a low greenhouse gas emitting vehicle over the lifetime of the vehicle; or

(II) will reduce each year a measured and verified quantity of greenhouse gas emissions equal to or greater than the quantity of greenhouse gas reductions that would have been achieved each year through acquisition of a low greenhouse gas emitting vehicle.

This paragraph shall apply to the acquisition of a light duty motor vehicle or medium...
duty passenger vehicle using any portion of a Member's Representational Allowance, including an acquisition under a long-term lease.

(3) Guidance

(A) In general

Each year, the Administrator of the Environmental Protection Agency shall issue guidance identifying the makes and model numbers of vehicles that are low greenhouse gas emitting vehicles.

(B) Consideration

In identifying vehicles under subparagraph (A), the Administrator shall take into account the most stringent standards for vehicle greenhouse gas emissions applicable to and enforceable against motor vehicle manufacturers for vehicles sold anywhere in the United States.

(C) Requirement

The Administrator shall not identify any vehicle as a low greenhouse gas emitting vehicle if the vehicle emits greenhouse gases at a higher rate than such standards allow for the manufacturer’s fleet average grams per mile of carbon dioxide-equivalent emissions for that class of vehicle, taking into account any emissions allowances and adjustment factors such standards provide.

(g) Authorization of appropriations

There are authorized to be appropriated for carrying out this section, such sums as may be necessary for fiscal years 1993 through 1998, to remain available until expended.

§ 13214. Federal agency promotion, education, and coordination

(a) Promotion and education

The Secretary, in cooperation with the Administrator of General Services, shall promote programs and educate officials and employees of Federal agencies on the merits of alternative fueled vehicles. The Secretary, in cooperation with the Administrator of General Services, shall provide and disseminate information to Federal agencies on—

(1) the location of refueling and maintenance facilities available to alternative fueled vehicles in the Federal fleet;

(2) the range and performance capabilities of alternative fueled vehicles;

(3) State and local government and commercial alternative fueled vehicle programs;

(4) Federal alternative fueled vehicle purchases and placements;

(5) the operation and maintenance of alternative fueled vehicles in accordance with the manufacturer’s standards and recommendations; and

(6) incentive programs established pursuant to sections 13215 and 13216 of this title.

(b) Assistance in procurement and placement

The Secretary, in cooperation with the Administrator of General Services, shall provide guidance, coordination, and technical assistance to Federal agencies in the procurement and geographic location of alternative fueled vehicles purchased through the Administrator of General Services.
§ 13215. Omitted

CODIFICATION
Section, Pub. L. 102–486, title III, § 306, Oct. 24, 1992, 106 Stat. 2873, which related to incentives for Federal agency with the alternative fuel purchasing requirements for Federal fleets under this Act and Executive Order No. 13031; and

(b) includes a plan of compliance that contains specific dates for achieving compliance using reasonable means.

(2) Contents

(A) In general

Each report submitted under paragraph (1) shall include—

(i) any information on any failure to meet statutory requirements or requirements under Executive Order No. 13031;

(ii)(I) any plan of compliance that the agency head is required to submit under Executive Order No. 13031; or

(ii)(II) if a plan of compliance referred to in subclause (I) does not contain specific dates by which the Federal agency is to achieve compliance, a revised plan of compliance that contains specific dates for achieving compliance; and

(iii) any related information the agency head is required to submit to the Director of the Office of Management and Budget under Executive Order No. 13031.

(B) Penultimate report

The penultimate report submitted under paragraph (1) shall include an announcement that the report for the next year shall be the final report submitted under paragraph (1).

(3) Public dissemination of report

Each report submitted under paragraph (1) shall be made public, including—

(A) placing such report on a publicly available website on the Internet; and

(B) publishing the availability of the report, including such website address, in the Federal Register.

§ 13218. Reports

(a) Omitted

(b) Compliance report

(1) In general

Not later than February 15, 2006, and annually thereafter for the next 14 years, the head of each Federal agency which is subject to this Act and Executive Order No. 13031 shall prepare, and submit to Congress, a report that—

(A) summarizes the compliance by such Federal agency with the alternative fuel vehicle program through—

(A) exemplary promotion of alternative fueled vehicle use within Federal agencies;

(B) proper alternative fueled vehicle care and maintenance;

(C) coordination with Federal, State, and local efforts;

(D) innovative alternative fueled vehicle procurement, refueling, and maintenance arrangements with commercial entities;

(E) making regular requests for alternative fueled vehicles for agency use; and

(F) maintaining a high number of alternative fueled vehicles used relative to comparable conventionally fueled motor vehicles used; and

(2) to fuel efficiency in Federal motor vehicle use through the promotion of such measures as increased use of fuel-efficient vehicles, carpooling, ride-sharing, regular maintenance, and other conservation and awareness measures.

(c) Authorization of appropriations

There are authorized to be appropriated for the purpose of carrying out this section not more than $35,000 for fiscal year 1994 and such sums as may be necessary for each of the fiscal years 1995 and 1996.

§ 13217. Measurement of alternative fuel use

The Administrator of General Services shall use such means as may be necessary to measure the percentage of alternative fuel use in dual-fueled vehicles procured by the Administrator of General Services. Not later than one year after October 24, 1992, the Secretary, in consultation with the Administrator of General Services, shall issue guidelines to Federal agencies for use in measuring the aggregate percentage of alternative fuel use in dual-fueled vehicles in their fleets.

REFERENCES IN TEXT
Section 13215 of this title, referred to in subsec. (a)(6), was omitted from the Code since the section ceased to be effective after Oct. 24, 1995.
REFERENCES IN TEXT

CODIFICATION
Subsec. (a) of this section, which required the Administrator of General Services to report biennially to Congress on the General Services Administration’s alternative fueled vehicle program under the Energy Policy Act of 1992, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 15th item on page 194 of House Document No. 103-7.

AMENDMENTS

1998—Pub. L. 105-388 substituted “General Services Administration” for “General Services Administration report” in section catch-line, designated existing provisions as subsec. (a) and inserted heading, and added subsec. (b).

§ 13219. United States Postal Service
(a) Omitted

(b) Coordination
To the maximum extent practicable, the Postmaster General shall coordinate the Postal Service’s alternative fueled vehicle procurement, placement, refueling, and maintenance programs with those at the Federal, State, and local level. The Postmaster General shall communicate, share, and disseminate, on a regular basis, information on such programs with the Secretary, the Administrator of General Services, and heads of appropriate Federal agencies.

(c) Program criteria
The Postmaster General shall consider the following criteria in the procurement and placement of alternative fueled vehicles:

(1) The procurement plans of State and local governments and other public and private institutions.

(2) The current and future availability of refueling and repair facilities.

(3) The reduction in emissions of the Postal fleet.

(4) Whether the vehicle is to be used in a nonattainment area as specified in the Clean Air Act Amendments of 1990.

(5) The operational requirements of the Postal fleet.

(6) The contribution to the reduction in the consumption of oil in the transportation sector.

REFERENCES IN TEXT

CODIFICATION
Subsec. (a) of this section, which required the Postmaster General to biennially submit to Congress a report on the Postal Service’s alternative fueled vehicle program, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the 15th item on page 194 of House Document No. 103-7.

§ 13220. Biodiesel fuel use credits
(a) Allocation of credits

(1) In general
The Secretary shall allocate one credit under this section to a fleet or covered person for each qualifying volume of the biodiesel component of fuel containing at least 20 percent biodiesel by volume purchased after the date of the enactment of this section, for use by the fleet or covered person in vehicles owned or operated by the fleet or covered person that weigh more than 8,500 pounds gross vehicle weight rating.

(2) Exceptions
No credits shall be allocated under paragraph (1) for a purchase of biodiesel—

(A) for use in alternative fueled vehicles; or

(B) that is required by Federal or State law.

(3) Authority to modify percentage
The Secretary may, by rule, lower the 20 percent biodiesel volume requirement in paragraph (1) for reasons related to cold start, safety, or vehicle function considerations.

(4) Documentation
A fleet or covered person seeking a credit under this section shall provide written documentation to the Secretary supporting the allocation of a credit to such fleet or covered person under paragraph (1).

(b) Use of credits

(1) In general
At the request of a fleet or covered person that purchase as the acquisition of one alternative fueled vehicle the fleet or covered person is required to acquire under this subchapter, subchapter II, or subchapter III.

(2) Limitation
Credits allocated under subsection (a) may not be used to satisfy more than 50 percent of the alternative fueled vehicle requirements of a fleet or covered person under this subchapter, subchapter II, and subchapter III. This paragraph shall not apply to a fleet or covered person that is a biodiesel alternative fuel provider described in section 12251(a)(2)(A) of this title.

(c) Credit not a section 13258 credit
A credit under this section shall not be considered a credit under section 13258 of this title.
(d) Issuance of rule

The Secretary shall, before January 1, 1999, issue a rule establishing procedures for the implementation of this section.

(e) Collection of data

The Secretary shall collect such data as are required to make a determination described in subsection (f)(2)(B).

(f) Definitions

For purposes of this section—

(1) the term “biodiesel”—

(A) means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 7545 of this title;

(B) includes biodiesel derived from—

(i) animal wastes, including poultry fats and poultry wastes, and other waste materials; or

(ii) municipal solid waste and sludges and oils derived from wastewater and the treatment of wastewater; and

(2) the term “qualifying volume”—

(A) 450 gallons; or

(B) if the Secretary determines by rule that the average annual alternative fuel use in light duty vehicles by fleets and covered persons exceeds 450 gallons or gallon equivalents, the amount of such average annual alternative fuel use.

§ 13231. Labeling requirements

(a) Establishment of requirements

The Federal Trade Commission, in consultation with appropriate Federal agencies and individuals and organizations with practical experience in the production and use of alternative fuels and alternative fueled vehicles, shall, for the purposes of promoting the use of alternative fuels and alternative fueled vehicles, establish a public information program on the benefits and costs of the use of alternative fuels in motor vehicles. Within 18 months after October 24, 1992, the Secretary shall produce and make available an information package for consumers to assist them in choosing among alternative fuels and alternative fueled vehicles. Such information package shall provide relevant and objective information on motor vehicle characteristics and fuel characteristics as compared to gasoline, on a life cycle basis, including environmental performance, energy efficiency, domestic content, cost, maintenance requirements, reliability, and safety. Such information package shall also include information with respect to the conversion of conventional motor vehicles to alternative fueled vehicles. The Secretary shall include such other information as the Secretary determines is reasonable and necessary to help promote the use of alternative fuels in motor vehicles. Such information package shall be updated annually to reflect the most recent available information.

§ 13232. Labeling requirements

(a) Establishment of requirements

The Federal Trade Commission, in consultation with the Secretary, the Administrator of the Environmental Protection Agency, and the Secretary of Transportation, shall, within 18 months after October 24, 1992, issue a notice of proposed rulemaking for a rule to establish uniform labeling requirements, to the greatest extent practicable, for alternative fuels and alternative fueled vehicles, including requirements for appropriate information with respect to costs and benefits, so as to reasonably enable the consumer to make choices and comparisons. Required labeling under the rule shall be simple and, where appropriate, consolidated with other labels providing information to the consumer. In formulating the rule, the Federal Trade Commission shall give consideration to the problems associated with developing and publishing useful and timely cost and benefit information, taking into account lead time, costs, the frequency of changes in costs and benefits that may occur, and other relevant factors. The Commission shall obtain the views of affected industries, consumer organizations, Federal and State agencies, and others in formulating the rule. A final rule shall be issued within 1 year after the notice of proposed rulemaking is issued. Such rule shall be updated periodically to reflect the most recent available information.
(b) Technical assistance and coordination

The Secretary shall provide technical assistance to the Federal Trade Commission in developing labeling requirements under subsection (a). The Secretary shall coordinate activities under this section with activities under section 13231 of this title.

§ 13233. Data acquisition program

(a) Not later than one year after October 24, 1992, the Secretary, through the Energy Information Administration, and in cooperation with appropriate State, regional, and local authorities, shall establish a data collection program to be conducted in at least 5 geographically and climatically diverse regions of the United States for the purpose of collecting data which would be useful to persons seeking to manufacture, convert, sell, own, or operate alternative fueled vehicles or alternative fueling facilities. Such data shall include—

(1) identification of the number and types of motor vehicle trips made daily and miles driven per trip, including commuting, business, and recreational trips;

(2) the projections of the Secretary as to the most likely combination of alternative fueled vehicle use and other forms of transit, including rail and other forms of mass transit;

(3) cost, performance, environmental, energy, and safety data on alternative fuels and alternative fueled vehicles; and

(4) other appropriate demographic information and consumer preferences.

(b) The Secretary shall consult with interested parties, including other appropriate Federal agencies, manufacturers, public utilities, owners and operators of fleets of light duty motor vehicles, and State or local governmental entities, to determine the types of data to be collected and analyzed under subsection (a).

§ 13234. Federal Energy Regulatory Commission authority to approve recovery of certain expenses in advance

(a) Natural gas motor vehicles

The Federal Energy Regulatory Commission may, under section 717c of title 15, allow recovery of expenses in advance by natural-gas companies for research, development, and demonstration activities by the Gas Research Institute for projects on the use of natural gas, including fuels derived from natural gas, for transportation, and projects on the use of natural gas to control pollutants and to control emissions from the combustion of other fuels, if the Commission finds that the benefits, including environmental benefits, to existing and future ratepayers resulting from such activities exceed all direct costs to existing and future ratepayers. To the maximum extent practicable, through the establishment of cofunding requirements applicable to such projects, the Commission shall ensure that the costs of such activities shall be provided in part, through contributions of cash, personnel, services, equipment, and other resources, by sources other than the recovery of expenses pursuant to this section.

(b) Electric motor vehicles

The Federal Energy Regulatory Commission may, under section 824d of title 16, allow recovery of expenses in advance by electric utilities for research, development, and demonstration activities by the Electric Power Research Institute for projects on electric motor vehicles, if the Commission finds that the benefits, including environmental benefits, to existing and future ratepayers resulting from such activities exceed all direct costs to existing and future ratepayers. To the maximum extent practicable, through the establishment of cofunding requirements applicable to each project, the costs of such activities shall be provided, in part, through contributions of cash, personnel, services, equipment, and other resources, by sources other than the recovery of expenses pursuant to this section.

CODIFICATION

§ 13235. State and local incentives programs

(a) Establishment of program

(1) The Secretary shall, within one year after October 24, 1992, issue regulations establishing guidelines for comprehensive State alternative fuels and alternative fueled vehicle incentives and program plans designed to accelerate the introduction and use of such fuels and vehicles. Such guideline 1 shall address the development, modification, and implementation of such State plans and shall describe those program elements, as described in paragraph (3), to be addressed in such plans.

(2) The Secretary, after consultation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall invite the Governor of each State to submit to the Secretary a State plan within one year after the effective date of the regulations issued under paragraph (1). Such plan shall include—

(A) provisions designed to result in scheduled progress toward, and achievement of, the goal of introducing substantial numbers of alternative fueled vehicles in such State by the year 2000; and

(B) a detailed description of the requirements, including the estimated cost of implementation, of such plan.

(3) Each proposed State plan, in order to be eligible for Federal assistance under this section, shall describe the manner in which coordination shall be achieved with Federal and local governmental entities in implementing such plan, and shall include an examination of—

1 So in original. Probably should be “guidelines”.  
§ 13235

(A) exemption from State sales tax or other State or local taxes or surcharges (other than such taxes or surcharges which are dedicated for transportation purposes) with respect to alternative fueled vehicles, alternative fuels, or alternative fueling facilities;

(B) the introduction of alternative fueled vehicles into State-owned or operated motor vehicle fleets;

(C) special parking at public buildings and airport and transportation facilities;

(D) programs of public education to promote the use of alternative fueled vehicles;

(E) the treatment of sales of alternative fuels for use in alternative fueled vehicles;

(F) methods by which State and local governments might facilitate—

(i) the availability of alternative fuels; and

(ii) the ability to recharge electric motor vehicles at public locations;

(G) allowing public utilities to include in rates the incremental cost of—

(i) new alternative fueled vehicles;

(ii) converting conventional vehicles to operate on alternative fuels; and

(iii) installing alternative fueling facilities,

but only to the extent that the inclusion of such costs in rates would not create competitive disadvantages for other market participants, and taking into consideration the effect inclusion of such costs would have on rates, service, and reliability to other utility customers;

(H) such other programs and incentives as the State may describe;

(I) whether accomplishing any of the goals in this subsection would require amendment to State law or regulation, including traffic safety prohibitions;

(J) services provided by municipal, county, and regional transit authorities; and

(K) effects of such plan on programs authorized by the Intermodal Surface Transportation Efficiency Act of 1991 and amendments made by that Act.

(b) Federal assistance to States

(1) Upon request of the Governor of any State with a plan approved under this section, the Secretary may provide to such State—

(A) information and technical assistance, including model State laws and proposed regulations relating to alternative fueled vehicles;

(B) grants of Federal financial assistance for the purpose of assisting such State in the implementation of such plan or any part thereof; and

(C) grants of Federal financial assistance for the acquisition of alternative fueled vehicles.

(2) In determining whether to approve a State plan submitted under subsection (a), and in determining the amount of Federal financial assistance, if any, to be provided to any State under this subsection, the Secretary shall take into account—

(A) the energy-related and environmental-related impacts, on a life cycle basis, of the introduction and use of alternative fueled vehicles included in the plan compared to conventional motor vehicles;

(B) the number of alternative fueled vehicles likely to be introduced by the year 2000, as a result of successful implementation of the plan; and

(C) such other factors as the Secretary considers appropriate.

(c) General provisions

(1) In carrying out this section, the Secretary shall consult with the Secretaries of Transportation on matters relating to transportation and with other appropriate Federal and State departments and agencies.

(2) The Secretary shall report annually to the President and the Congress, and shall furnish copies of such report to the Governor of each State participating in the program, on the operation of the program under this section. Such report shall include—

(A) an estimate of the number of alternative fueled vehicles in use in each State;

(B) the degree of each State’s participation in the program;

(C) a description of Federal, State, and local programs undertaken in the various States, whether pursuant to a State plan under this section or not, to provide incentives for introduction of alternative fueled vehicles;

(D) an estimate of the energy and environmental benefits of the program; and

(E) the recommendations of the Secretary, if any, for additional action by the Federal Government.

(d) Definitions

For the purposes of this section, the following definitions apply:

(1) Governor

The term “Governor” means the chief executive of a State.

(2) State

The term “State” means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other Commonwealth, territory, or possession of the United States.

(e) Authorization of appropriations

There are authorized to be appropriated for carrying out this section, $10,000,000 for each of the 5 fiscal years beginning after October 24, 1992.

Amendment note set out under section 101 of Title 49, Transportation, and Tables.

**TERMINATION OF REPORTING REQUIREMENTS**

For termination, effective May 15, 2000, of provisions in subsec. (c)(2) of this section relating to annual reports to Congress, see section 3003 of Pub. L. 101–549, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 8th item on page 86 of House Document No. 103–7.

**§ 13236. Alternative fuel bus program**

(a) Cooperative agreements and joint ventures

(1) The Secretary of Transportation, in consultation with the Secretary, may enter into cooperative agreements and joint ventures proposed by any municipal, county, or regional transit authority in an urban area with a population over 100,000 (according to latest available census information) to demonstrate the feasibility of commercial application, including safety of specific vehicle design, of using alternative fuels for urban buses and other motor vehicles used for mass transit.

(2) The cooperative agreements and joint ventures under paragraph (1) may include interested or affected private firms willing to provide assistance in cash, or in kind, for any such demonstration.

(3) Federal assistance provided under cooperative agreements and joint ventures entered into under paragraph (1) to demonstrate the feasibility of commercial application of using alternative fuels for urban buses shall be in addition to Federal assistance provided under any other law for such purpose.

(b) Limitations

(1) The Secretary of Transportation may not enter into cooperative agreement or joint venture under subsection (a) with any municipal, county, or regional transit authority, unless such authority agrees to provide 20 percent of the costs of such demonstration.

(2) The Secretary of Transportation may grant such priority under this section to any entity that demonstrates that the use of alternative fuels for transportation would have a significant beneficial effect on the environment.

(c) School buses

The Secretary of Transportation may also provide, in accordance with such rules as he may prescribe, financial assistance to any agency, municipality, or political subdivision in an urban area referred to in subsection (a), of any State or the District of Columbia for the purpose of meeting the incremental costs of school buses that are dedicated vehicles and used regularly for such transportation during the school term. Such costs may include the purchase and installation of alternative fuel refueling facilities to be used for school bus refueling, and the conversion of school buses to dedicated vehicles. The Secretary of Transportation may provide such assistance directly to a person who is a contractor of such agency, municipality, or political subdivision, upon the request of the agency, municipality, or political subdivision, and who, under such contract, provides for such transportation. Any conversion under this subsection shall comply with the warranty and safety requirements for alternative fuel conversions contained in section 7587 of this title.

(d) Authorization of appropriations

There are authorized to be appropriated not more than $30,000,000 for each of the fiscal years 1993, 1994, and 1995 for purposes of this section.

**REFERENCES IN TEXT**

Section 7587 of this title, referred to in subsec. (c), was added Nov. 15, 1990, Pub. L. 101–549, title II, §229(a), 104 Stat. 2523, to reflect the probable intent of Congress, because the Clean Air Act Amendments of 1990 does not contain a section 247, and section 247 of the Clean Air Act relates to alternate fuel conversions for vehicles.

**§ 13237. Certification of training programs**

The Secretary shall ensure that the Federal Government establishes and carries out a program for the certification of training programs for technicians who are responsible for motor vehicle installation of equipment that converts gasoline or diesel-fueled motor vehicles into dedicated vehicles or dual fueled vehicles, and for the maintenance of such converted motor vehicles. A training program shall not be certified under the program established under this section unless it provides technicians with instruction on the proper and safe installation procedures and techniques, adherence to specifications (including original equipment manufacturer specifications), motor vehicle operating procedures, emissions testing, and other appropriate mechanical concerns applicable to these motor vehicle conversions. The Secretary shall ensure that, in the development of the program required under this section, original equipment manufacturers, fuel suppliers, companies that convert conventional vehicles to use alternative fuels, and other affected persons are consulted.

**§ 13238. Alternative fuel use in nonroad vehicles and engines**

(a) Nonroad vehicles and engines

(1) The Secretary shall conduct a study to determine whether the use of alternative fuels in nonroad vehicles and engines would contribute substantially to reduced reliance on imported energy sources. Such study shall be completed, and the results thereof reported to Congress, within 2 years after October 24, 1992.

(2) The study shall assess the potential of nonroad vehicles and engines to run on alternative fuels. Taking into account the nonroad vehicles and engines for which running on alternative fuels is feasible, the study shall assess the potential reduction in reliance on foreign energy sources that could be achieved if such vehicles were to run on alternative fuels.

1 See References in Text note below.
(3) The report required under paragraph (1) may include the Secretary’s recommendations for encouraging or requiring nonroad vehicles and engines which can feasibly be run on alternative fuels, to utilize such alternative fuels.

(b) Definition of nonroad vehicles and engines

Nonroad vehicles and engines, for purposes of this section, shall include nonroad vehicles and engines used for surface transportation or principally for industrial or commercial purposes, vehicles used for rail transportation, vehicles used at airports, vehicles or engines used for marine purposes, and other vehicles or engines at the discretion of the Secretary.

(c) Designation

Upon completion of the study required pursuant to subsection (a) of this section, the Secretary may designate such vehicles and engines as qualifying for loans pursuant to section 13239 of this title.

§ 13239. Low interest loan program

(a) Establishment

Within 1 year after October 24, 1992, the Secretary shall establish a program for making low interest loans, giving preference to small businesses that own or operate fleets, for—

(1) the conversion of motor vehicles to operation on alternative fuels;

(2) covering the incremental costs of the purchase of motor vehicles which operate on alternative fuels, when compared with purchase costs of comparable conventionally fueled motor vehicles; or

(3) covering the incremental costs of purchase of non-road vehicles and engines designated by the Secretary pursuant to section 13239(c) of this title.

(b) Loan terms

The Secretary, to the extent practicable, shall establish reasonable terms for loans made under this subsection, with preference given to repayment schedules that enable such loans to be repaid by the borrower from the cost differential between gasoline and the alternative fuel on which the motor vehicle operates.

(c) Criteria

In deciding to whom loans shall be made under this subsection, the Secretary shall consider—

(1) the financial need of the applicant;

(2) the goal of assisting the greatest number of applicants; and

(3) the ability of an applicant to repay the loan, taking into account the fuel cost savings likely to accrue to the applicant.

(d) Priorities

Priority shall be given under this section to fleets where the use of alternative fuels would have a significant beneficial effect on energy security and the environment.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, $25,000,000 for each of the fiscal years 1993, 1994, and 1995.

SUBCHAPTER III—AVAILABILITY AND USE OF REPLACEMENT FUELS, ALTERNATIVE FUELS, AND ALTERNATIVE FUELED PRIVATE VEHICLES

§ 13251. Mandate for alternative fuel providers

(a) In general

(1) The Secretary shall, before January 1, 1994, issue regulations requiring that of the new light duty motor vehicles acquired by a covered person described in paragraph (2), the following percentages shall be alternative fueled vehicles for the following model years:

(A) 30 percent for model year 1996.

(B) 50 percent for model year 1997.

(C) 70 percent for model year 1998.

(D) 90 percent for model year 1999 and thereafter.

(2) For purposes of this section, a person referred to in paragraph (1) is—

(A) a covered person whose principal business is producing, storing, refining, processing, transporting, distributing, importing, or selling at wholesale or retail any alternative fuel other than electricity;

(B) a non-Federal covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity; or

(C) a covered person—

(i) who produces, imports, or produces and imports in combination, an average of 50,000 barrels per day or more of petroleum; and

(ii) a substantial portion of whose business is producing alternative fuels.

(3)(A) In the case of a covered person described in paragraph (2) with more than one affiliate, division, or other business unit, only an affiliate, division, or business unit which is substantially engaged in the alternative fuels business (as determined by the Secretary by rule) shall be subject to this subsection.

(B) No covered person or affiliate, division, or other business unit of such person whose principal business is—

(i) transforming alternative fuels into a product that is not an alternative fuel; or

(ii) consuming alternative fuels as a feedstock or fuel in the manufacture of a product that is not an alternative fuel, shall be subject to this subsection.

(4) The vehicles purchased pursuant to this section shall be operated solely on alternative fuels except when operating in an area where the appropriate alternative fuel is unavailable.

(5) Regulations issued under paragraph (1) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, from the requirements of paragraph (1) of any covered person, in whole or in part, if such person demonstrates to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of that person are not reasonably available for acquisition; or
(B) alternative fuels that meet the normal requirements and practices of the principal business of that person are not available in the area in which the vehicles are to be operated.

(b) Revisions and extensions
With respect to model years 1997 and thereafter, the Secretary may—

(1) revise the percentage requirements under subsection (a)(1) downward, except that under no circumstances shall the percentage requirement for a model year be less than 20 percent; and

(2) extend the time under subsection (a)(1) for up to 2 model years.

(c) Option for electric utilities
The Secretary shall, within 1 year after October 24, 1992, issue regulations requiring that, in the case of a covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the requirements of subsection (a)(1) shall not apply until after December 31, 1997, with respect to electric motor vehicles. Any covered person described in this subsection which plans to acquire electric motor vehicles to comply with the requirements of this section shall so notify the Secretary before January 1, 1996.

(d) Report to Congress
The Secretary shall, before January 1, 1998, submit a report to the Congress providing detailed information on actions taken to carry out this section, and the progress made and problems encountered thereunder.

§ 13253. Replacement fuel demand estimates and supply information

(a) Estimates
Not later than October 1, 1993, and annually thereafter, the Secretary, in consultation with the Administrator, the Secretary of Transportation, and other appropriate State and Federal officials, shall estimate for the following calendar year—

(1) the number of each type of alternative fueled vehicle likely to be in use in the United States;

(2) the probable geographic distribution of such vehicles;

(3) the amount and distribution of each type of replacement fuel; and

(4) the greenhouse gas emissions likely to result from replacement fuel use.

(b) Information
Beginning on October 1, 1994, the Secretary shall annually require—

(1) fuel suppliers to report to the Secretary on the amount of each type of replacement fuel that such supplier—

(A) has supplied in the previous calendar year; and

(B) plans to supply for the following calendar year;

(2) suppliers of alternative fueled vehicles to report to the Secretary on the number of each type of alternative fueled vehicle that such supplier—

(A) has made available in the previous calendar year; and

(B) plans to make available for the following calendar year; and

(3) such fuel suppliers to provide the Secretary information necessary to determine the
§ 13254. Modification of goals; additional rulemaking authority

(a) Examination of goals

Within 3 years after October 24, 1992, and periodically thereafter, the Secretary shall examine the goals established under section 13252(b)(2) of this title, in the context of the program goals stated under section 13252(a) of this title, to determine if the goals under section 13252(b)(2) of this title, including the applicable percentage requirements and dates, should be modified under this section. The Secretary shall publish in the Federal Register the results of each examination under this subsection and provide an opportunity for public comment.

(b) Modification of goals

If, after analysis of information obtained in connection with carrying out subsection (a) or section 13252 of this title, or other information, and taking into account the determination of technical and economic feasibility made under section 13252(b)(2) of this title, the Secretary determines that goals described in section 13252(b)(2) of this title, including the percentage requirements or dates, are not achievable, the Secretary, in consultation with appropriate Federal agencies, shall, by rule, establish goals that are achievable, for purposes of this subchapter. The modification of goals under this section may include changing the target dates specified in section 13252(b)(2) of this title.

(c) Additional rulemaking authority

If the Secretary determines that the achievement of goals described in section 13252(b)(2) of this title would result in a significant and correctable failure to meet the program goals described in section 13252(a) of this title, the Secretary shall issue such additional regulations as are necessary to remedy such failure. The Secretary shall have no authority under this Act to mandate the production of alternative fueled vehicles or to specify, as applicable, the models, lines, or types of, or marketing or pricing practices, policies, or strategies for, vehicles subject to this Act. Nothing in this Act shall be construed to give the Secretary authority to mandate marketing or pricing practices, policies, or strategies for alternative fuels or to mandate the production or delivery of such fuels.

§ 13255. Voluntary supply commitments

The Secretary shall, by January 1, 1994, and thereafter, undertake to obtain voluntary commitments in geographically diverse regions of the United States—

(1) from fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) from owners of 10 or more motor vehicles to acquire and use alternative fueled vehicles and alternative fuels; and

(3) from suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services, in sufficient volume to achieve the goals described in section 13252(b)(2) of this title or as modified under section 13254 of this title, and in order to meet any fleet requirement program established by rule under this subchapter. The Secretary shall periodically report to the Congress on the results of efforts under this section. All voluntary commitments obtained pursuant to this section shall be available to the public, except to the extent provided in applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18.

§ 13256. Technical and policy analysis

(a) Requirement

Not later than March 1, 1995, and March 1, 1997, the Secretary shall prepare and transmit to the President and the Congress a technical and policy analysis under this section. The Secretary shall utilize the analytical capability and authorities of the Energy Information Administration and such other offices of the Department of Energy as the Secretary considers appropriate.

(b) Purposes

The technical and policy analysis prepared under this section shall be based on the best available data and information obtained by the Secretary under section 13253 of this title, or otherwise, and on experience under this subchapter and other provisions of law in the development and use of replacement fuels and alternative fueled vehicles, and shall evaluate—

(1) progress made in achieving the goals described in section 13252(b)(2) of this title, as modified under section 13254 of this title;

(2) the actual and potential role of replacement fuels and alternative fueled vehicles in significantly reducing United States reliance on imported oil to the extent of the goals referred to in paragraph (1); and

(3) the actual and potential availability of various domestic replacement fuels and dedicated vehicles and dual fueled vehicles.

(c) Publication

The Secretary shall publish a proposed version of each analysis under this section in the Fed-
§ 13257. Fleet requirement program

(a) Fleet program purchase goals

(1) Except as provided in paragraph (2), the following percentages of new light duty motor vehicles acquired in each model year for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person subject to section 13251 of this title, shall be alternative fueled vehicles:

(A) 20 percent of the motor vehicles acquired in model years 1999, 2000, and 2001;

(B) 30 percent of the motor vehicles acquired in model year 2002;

(C) 40 percent of the motor vehicles acquired in model year 2003;

(D) 50 percent of the motor vehicles acquired in model year 2004;

(E) 60 percent of the motor vehicles acquired in model year 2005; and

(F) 70 percent of the motor vehicles acquired in model year 2006 and thereafter.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (b), establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 1998 (or model year 1999) for initiating the fleet requirements under paragraph (1).

(3) The Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(A) evaluating the progress toward achieving the goals of replacement fuel use described in section 13252(b)(2) of this title, as modified under section 13254 of this title;

(B) identifying the problems associated with achieving those goals;

(C) assessing the adequacy and practicability of those goals; and

(D) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(4) After the completion of such advance notice of proposed rulemaking, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (b), and shall provide for a public comment period, with hearings, of not less than 90 days.

(b) Early rulemaking

(1) Not earlier than 1 year after October 24, 1992, and after carrying out the requirements of subsection (a), the Secretary shall initiate a rulemaking to determine whether a fleet requirement program to begin in calendar year 1998 (when model year 1999 begins), or such other later date as he may select pursuant to subsection (a), is necessary under this section. Such rule, consistent with subsection (a)(1), shall establish the annual applicable model year percentage. No rule under this subsection may be promulgated after December 15, 1996, and be enforceable. A fleet requirement program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under section 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title;

(B) the goal is practicable and actually achievable within periods specified in section 13252(b)(2)(C) of this title, as modified under section 13254 of this title, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals; and

(C) by 1998 (when model year 1999 begins) or the date specified by the Secretary in such rule for initiating a fleet requirement program—

(i) there exists sufficient evidence to ensure that the fuel and the needed infrastructure, including the supply and deliverability systems, will be installed and located at convenient places in the fleet areas subject to the rule and will be fully operational when the rule is effective to offer a reliable and timely supply of the applicable alternative fuel at reasonable costs (as compared to conventional fuels) to meet the fleet requirement program, as demonstrated through use of the provisions of section 13255(1) of this title regarding voluntary commitments or other adequate, reliable, and convincing forms of agreements, arrangements, or representations that such fuels and infrastructure are in existence or will exist when the rule is effective and will be expanded as the percentages increase annually; and

(ii) there will be a sufficient number of new alternative fueled vehicles from original equipment manufacturers that comply with all applicable requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] and chapter 301 of title 49;

(iii) such new vehicles will meet the applicable non-Federal and non-State fleet performance requirements of such fleets (including range, passenger or cargo-carrying capacity, reliability, refueling capability, vehicle mix, and economical operation and maintenance); and

(iv) establishment of a fleet requirement program by rule under this subsection will not result in unfair competitive advantages.
or disadvantages, or result in undue economic hardship, to the affected fleets.

(2) The Secretary shall not promulgate a rule under this subsection if he is unable to make affirmative findings in the case of each of the subparagraphs under paragraph (1), and each of the clauses under subparagraph (C) of paragraph (1).

(3) If the Secretary does not determine that such program is necessary under this subsection, the provisions of subsection (e) shall apply to the consideration in the future of any fleet requirement program. The record of this rulemaking, including the Secretary's findings, shall be incorporated into a rulemaking under that subsection. If the Secretary determines under this subsection that such program is necessary, the Secretary shall not initiate the later rulemaking under subsection (e).

(c) Advance notice of proposed rulemaking

Not later than April 1, 1998, the Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(1) evaluating the progress toward achieving the goals of replacement fuel use described in section 13252(b)(2) of this title, as modified under section 13254 of this title;

(2) identifying the problems associated with achieving those goals;

(3) assessing the adequacy and practicability of those goals; and

(4) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(d) Proposed rule

Before May 1, 1999, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (g), and shall provide for a public comment period, with hearings, of not less than 90 days.

(e) Determination

(1) Not later than January 1, 2000, the Secretary shall, through the rule required under subsection (g), determine whether a fleet requirement program is necessary under this section. Such a program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under section 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title; and

(B) such goal is practicable and actually achievable within periods specified in section 13252(b)(2) of this title, as modified under section 13254 of this title, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals.

(2) The rule under subsection (b) or (g) shall also modify the goal described in section 13252(b)(2)(B) of this title and establish a revised goal pursuant to section 13254 of this title if the Secretary determines, based on the proceeding required under subsection (a) or (c), that the goal in effect at the time of that proceeding is inadequate or impracticable, and not expected to be achievable. Such goal as modified and established shall be applicable in making the findings described in paragraph (1). If the Secretary modifies the goal under this paragraph, he may also modify the percentages stated in subsection (a)(1) or (g)(1) and the minimum percentage stated in subsection (a)(2) or (g)(2) shall be not less than 10 percent.

(f) Explanation of determination that fleet requirement program is not necessary

If the Secretary determines, based on findings under subsection (b) or (e), that a fleet requirement program under this section is not necessary, the Secretary shall—

(1) by December 15, 1996, with respect to a rulemaking under subsection (b); and

(2) by January 1, 2000, with respect to a rulemaking under subsection (e), publish such determination in the Federal Register as a final agency action, including an explanation of the findings on which such determination is made and the basis for the determination.

(g) Fleet requirement program

(1) If the Secretary determines under subsection (e) that a fleet requirement program is necessary, the Secretary shall, by January 1, 2000, by rule require that, except as provided in paragraph (2), of the total number of new light duty motor vehicles acquired for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person under section 13251 of this title—

(A) 20 percent of the motor vehicles acquired in model year 2002;

(B) 40 percent of the motor vehicles acquired in model year 2003;

(C) 60 percent of the motor vehicles acquired in model year 2004; and

(D) 70 percent of the motor vehicles acquired in model year 2005 and thereafter,

shall be alternative fueled vehicles.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (g), establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 2002 (when model year 2003 begins) for initiating the fleet requirements under paragraph (1).

(3) Nothing in this subchapter shall be construed as requiring any fleet to acquire alter-
native fueled vehicles or alternative fuels that do not meet the normal business requirements and practices and needs of that fleet.

(4) A vehicle operating only on gasoline that complies with applicable requirements of the Clean Air Act [42 U.S.C. 7581 et seq.] shall not be considered an alternative fueled vehicle under subsection (b) or this subsection, except that the Secretary, as part of the rule under subsection (b) or this subsection, may determine that such vehicle should be treated as an alternative fueled vehicle for purposes of this section, for fleets subject to part C of title II of the Clean Air Act [42 U.S.C. 7581 et seq.], taking into consideration the impact on energy security and the goals stated in section 13252(a) of this title.

(h) Extension of deadlines

The Secretary may, by notice published in the Federal Register, extend the deadlines established under subsections (e), (f)(2), and (g) for an additional 90 days if the Secretary is unable to meet such deadlines. Such extension shall not be reviewable.

(i) Exemptions

(1) A rule issued under subsection (b), (g), or (o) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, of any fleet from the requirements of subsection (b), (g), or (o), in whole or in part, if it is demonstrated to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of the fleet owner are not reasonably available for acquisition;

(B) alternative fuels that meet the normal requirements and practices of the principal business of the fleet owner are not available in the area in which the vehicles are to be operated; or

(C) in the case of State and local government entities, the application of such requirements would pose an unreasonable financial hardship.

(2) In the case of private fleets, if the motor vehicles, when under normal operations, are garaged at personal residences at night, such motor vehicles shall be exempt from the requirements of subsections (b) and (g).

(j) Conversions

Nothing in this subchapter or the amendments made by this subchapter shall require a fleet owner to acquire conversion vehicles.

(k) Inclusion of law enforcement vehicles and urban buses

(1) If the Secretary determines, by rule, that the inclusion of fleets of law enforcement motor vehicles in the fleet requirement program established under subsection (g) would contribute to achieving the goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, the Secretary may include such urban buses in such program, if the Secretary finds that such application will be consistent with energy security goals and the needs and objectives of encouraging and facilitating the greater use of such urban buses by the public, taking into consideration the impact of such application on public transit entities. The Secretary may only initiate one rulemaking under this paragraph.

(3) Rulemakings under paragraph (1) or (2) shall be separate from a rulemaking under subsection (g), but may not occur unless a rulemaking is carried out under subsection (g).

(l) Consideration of factors

In carrying out this section, the Secretary shall take into consideration energy security, costs, safety, lead time requirements, vehicle miles traveled annually, effect on greenhouse gases, technological feasibility, energy requirements, economic impacts, including impacts on workers and the impact on consumers (including users of the alternative fuel for purposes such as for residences, agriculture, process use, and non-fuel purposes) and fleets, the availability of alternative fuels and alternative fueled vehicles, and other relevant factors.

(m) Consultation and participation of other Federal agencies

In carrying out this section and section 13256 of this title, the Secretary shall consult with the Secretary of Transportation, the Administrator, and other appropriate Federal agencies. The Secretary shall provide for the participation of the Secretary of Transportation and the Administrator in the development and issuance of the rule under this section, including the public process concerning such rule.

(n) Petitions

As part of the rule promulgated either pursuant to subsection (b) or (g) of this section, the Secretary shall establish procedures for any fleet owner or operator or motor vehicle manufacturer to request that the Secretary modify or suspend a fleet requirement program established under either subsection nationally, by region, or in an applicable fleet area because, as demonstrated by the petitioner, the infrastructure or fuel supply or distribution system for an applicable alternative fuel is inadequate to meet the needs of a fleet. In the event that the Secretary determines that a modification or suspension of the fleet requirement program on a regional basis would detract from the widespread character of any fleet requirement program established by rule or would sufficiently diminish the economies of scale for the production of alternative fueled vehicles or alternative fuels and thereby the practicability and effectiveness of such program, the Secretary may only modify or suspend the program nationally. The procedures shall include provisions for notice and public hearings. The Secretary shall deny or grant the petition within 180 days after filing.
§ 13258. Credits

(a) Definitions

In this section:

(1) **Fuel cell electric vehicle**

The term “fuel cell electric vehicle” means an on-road or non-road vehicle that uses a fuel cell (as defined in section 16152 of this title).

(2) **Hybrid electric vehicle**

The term “hybrid electric vehicle” means a new qualified hybrid electric vehicle (as defined in section 30B(d)(3) of title 26).

(3) **Medium- or heavy-duty electric vehicle**

The term “medium- or heavy-duty electric vehicle” means an electric, hybrid electric, or plug-in hybrid electric vehicle with a gross vehicle weight of more than 8,501 pounds.

(4) **Neighborhood electric vehicle**

The term “neighborhood electric vehicle” means a 4-wheeled on-road or nonroad vehicle that—

(A) has a top attainable speed in 1 mile of more than 20 mph and not more than 25 mph on a paved level surface; and

(B) is propelled by an electric motor and on-board, rechargeable energy storage system that is rechargeable using an off-board source of electricity.

(5) **Plug-in electric drive vehicle**

The term “plug-in electric drive vehicle” means a vehicle that—

(A) draws motive power from a battery with a capacity of at least 4 kilowatt-hours;

(B) can be recharged from an external source of electricity for motive power; and

(C) is a light-, medium-, or heavy duty motor vehicle or nonroad vehicle (as those terms are defined in section 7550 of this title).

(b) In general

(1) **Allocation**

The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this subchapter, if that fleet or person acquires an alternative fueled vehicle in excess of the number that fleet or person is required to acquire under this subchapter or acquires an alternative fueled vehicle before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter.

(2) **Electric vehicles**

Not later than January 31, 2009, the Secretary shall—

(A) allocate credit in an amount to be determined by the Secretary for—

(I) acquisition of—

(a) a plug-in hybrid electric vehicle;

(b) a hybrid electric vehicle;

(c) a fuel cell electric vehicle;

(d) a neighborhood electric vehicle; or

(V) a medium- or heavy-duty electric vehicle; and

References in Text

The Clean Air Act, referred to in subsecs. (b)(1)(C)(i), (g)(4), and (k)(2), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (7401 et seq.) of this title. Title II of the Act, known as the National Emission Standards Act, is classified generally to subchapter II (7521 et seq.) of chapter 85 of this title. Part C of title II of the Act is classified generally to part C (7581 et seq.) of chapter 85 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

This subchapter, referred to in subsecs. (b)(1)(A), (e)(1)(A), (g)(3), (i), and (o)(2)(A), was in the original “title V” meaning title V of Pub. L. 102–486, Oct. 24, 1992, 102 Stat. 2887, which is classified generally to this subchapter.

Codification

§ 13258. Credits
(ii) investment in qualified alternative fuel infrastructure or nonroad equipment, as determined by the Secretary; and

(B) allocate more than 1, but not to exceed 5, credits for investment in an emerging technology relating to any vehicle described in subparagraph (A) to encourage—

(i) a reduction in petroleum demand; (ii) technological advancement; and (iii) a reduction in vehicle emissions.

(c) Allocation

In allocating credits under subsection (b), the Secretary shall allocate one credit for each alternative fueled vehicle the fleet or covered person acquires that exceeds the number of alternative fueled vehicles that fleet or person is required to acquire under this subchapter or that is acquired before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter. In the event that a vehicle is acquired before the date otherwise required, the Secretary shall allocate one credit per vehicle for each year the vehicle is acquired before the required date. The credit shall be allocated for the same type vehicle as the excess vehicle or earlier acquired vehicle.

(d) Use of credits

At the request of a fleet or covered person allocated a credit under this section, the Secretary shall treat the credit as the acquisition of an alternative fueled vehicle of the type for which the credit is allocated in the year designated by that fleet or person when determining whether that fleet or person has complied with this subchapter in the year designated. A credit may be counted toward compliance for only one year.

(e) Transferability

A fleet or covered person allocated a credit under this section or to whom a credit is transferred under this section, may transfer freely the credit to another fleet or person who is required to comply with this subchapter. At the request of the fleet or person to whom a credit is transferred, the Secretary shall treat the transferred credit as the acquisition of an alternative fueled vehicle of the type for which the credit is allocated in the year designated by the fleet or person when determining whether that fleet or person has complied with this subchapter in the year designated. A transferred credit may be counted toward compliance for only one year. In the case of the alternative fuel provider program under section 13251 of this title, a transferred credit may be counted toward compliance only if the requirement of section 13251(a)(4) of this title is met.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2008 through 2013.

Subsec. (b). Pub. L. 110–140, § 133(1), (3), redesignated subsec. (a) as (b), designated existing provisions as par. (1), inserted par. heading, and added par. (2). Former subsec. (b) redesignated (c).

Subsec. (c). Pub. L. 110–140, § 133(1), (4), redesignated subsec. (b) as (c) and substituted “subsection (b)” for “subsection (a)”. Former subsec. (c) redesignated (d).

Subsecs. (d), (e). Pub. L. 110–140, § 133(1), redesignated subsecs. (c) and (d) as (d) and (e), respectively.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1624 of Title 2, The Congress.

§ 13259. Secretary's recommendations to Congress

(a) Recommendations to require availability or acquisition

If the Secretary determines, under section 13257(f) of this title, that a fleet requirement program under section 13257 of this title is not necessary, the Secretary shall so notify the Congress. If the Secretary so notifies the Congress, the Secretary shall, within 2 years after such notification and by rule, prepare and submit to the Congress recommendations for requirements or incentives for—

(1) fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services; and

(3) motor vehicle drivers to use replacement fuels,

to the extent necessary to achieve such goals of replacement fuel use and to ensure that the availability of alternative fuels and of alternative fueled vehicles are consistent with each other.

(b) Fair and equitable application

In carrying out this section, the Secretary shall recommend the imposition of requirements proportionately on all appropriate fuel suppliers and purchasers of motor fuels and suppliers and purchasers of motor vehicles in a fair and equitable manner.

§ 13260. Effect on other laws

(a) In general

Nothing in this Act or the amendments made by this Act shall be construed to alter, affect, or modify the provisions of the Clean Air Act [42 U.S.C. 7401 et seq.], or regulations issued thereunder.

(b) Compliance by alternative fueled vehicles

Alternative fueled vehicles, whether dedicated vehicles or dual fueled vehicles, and the alternative fuels for operating such vehicles, shall comply with requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] applicable to such vehicles and fuels.
§ 13261. Prohibited acts

It shall be unlawful for any person to violate any provision of section 13251, 13253(b), 13257, or 13263a of this title, or any regulation issued under such sections.

Amendments

2005—Pub. L. 109–58 substituted “13257, or 13263a” for “or 13257”.

§ 13262. Enforcement

(a) Violation

Whoever violates section 13261 of this title shall be subject to a civil penalty of not more than $5,000 for each violation.

(b) Willful violation

Whoever willfully violates section 13261 of this title shall be fined not more than $10,000 for each violation.

(c) Knowing and willful violation following prior violation and penalty

Any person who knowingly and willfully violates section 13261 of this title shall be subject to a civil penalty of not more than $50,000.

Amendments

2005—Pub. L. 109–58 substituted “13257, or 13263a” for “or 13257”.

§ 13263. Powers of Secretary

For the purpose of carrying out subchapter I, subchapter II, this subchapter, and subchapter IV, the Secretary, or the duly designated agent of the Secretary, may hold such hearings, take such testimony, sit and act at such times and places, administer such oaths, and require, by subpoena, the attendance and testimony of such witnesses and the production of such books, papers, correspondence, memorandums, contracts, agreements, or other records as the Secretary of Transportation is authorized to do under section 32910(a)(1) of title 49.

Amendments

2005—Pub. L. 109–58 substituted “13257, or 13263a” for “or 13257”.

§ 13264. Alternative compliance

(a) Application for waiver

Any covered person subject to section 13251 of this title and any State subject to section 13257(o) of this title may petition the Secretary for a waiver of the applicable requirements of section 13251 or 13257(o) of this title.

(b) Grant of waiver

The Secretary shall grant a waiver of the requirements of section 13251 or 13257(o) of this title on a showing that the fleet owned, operated, leased, or otherwise controlled by the State or covered person—

(1) will achieve a reduction in the annual consumption of petroleum fuels by the fleet equal to—

(A) the reduction in consumption of petroleum that would result from 100 percent cumulative compliance with the fuel use requirements of section 13251 of this title; or

(B) in the case of an entity covered under section 13257(o) of this title, a reduction equal to the annual consumption by the State entity of alternative fuels if all of the cumulative alternative fuel vehicles of the State entity given credit under section 13258 of this title were to use alternative fuel 100 percent of the time; and

(2) is in compliance with all applicable vehicle emission standards established by the Administrator of the Environmental Protection Agency under the Clean Air Act (42 U.S.C. 7401 et seq.).

(c) Reporting requirement

Not later than December 31 of a model year, any State or covered person granted a waiver under this section for the preceding model year shall submit to the Secretary an annual report that—

(1) certifies the quantity of the petroleum motor fuel reduction of the State or covered person during the preceding model year; and

(2) projects the baseline quantity of the petroleum motor fuel reduction of the State or covered person during the following model year.

(d) Revocation of waiver

If a State or covered person that receives a waiver under this section fails to comply with this section, the Secretary—
(1) shall revoke the waiver; and
(2) may impose on the State or covered per-
son a penalty under section 12362 of this title.

(Pub. L. 102–486, title V, § 514, as added Pub. L.
815.)

§ 13264. Authorization of appropriations

There are authorized to be appropriated to the
Secretary for carrying out this subchapter $10,000,000 for each of the fiscal years 1993 through 1997, and such sums as may be neces-

815.)

SUBCHAPTER IV—ELECTRIC MOTOR
VEHICLES

§ 13271. Definitions

For the purposes of this subchapter—
(1) the term “antitrust laws” means the
Acts set forth in section 12 of title 15;
(2) the term “associated equipment” means
equipment necessary for the regeneration, re-
fueling, or recharging of batteries or other
forms of electric energy used to power an elec-
tric motor vehicle and, in the case of electric-
hybrid vehicles, such term includes nonpetro-
leum-related equipment necessary for, and
solely related to, the demonstration of such
vehicles;
(3) the term “discount payment” means the
amount determined pursuant to section 13283
of this title;
(4) the term “electric motor vehicle” means
a motor vehicle primarily powered by an elec-
tric motor that draws current from recharge-
able storage batteries, fuel cells, photovoltaic
arrays, or other sources of electric current
and may include an electric-hybrid vehicle;
(5) the term “electric-hybrid vehicle” means
a vehicle primarily powered by an electric
motor that draws current from rechargeable
storage batteries, fuel cells, or other source of
electric current and also relies on a non-elec-
tric source of power;
(6) the term “eligible metropolitan area”
means any Metropolitan Area (as such term is
defined by the Office of Management and
Budget pursuant to section 3504 of title 44)
with a 1980 population of 250,000 or more that
has been designated by a proposer and the Sec-
retary for a demonstration project under this
subchapter, except that the Secretary may
designate an area with a 1990 population of
50,000 or more as an eligible metropolitan
area;
(7) the term “infrastructure and support sys-
tems” includes support and maintenance serv-
cices and facilities, electricity delivery mech-
anism and methods, regulatory treatment of
investment in electric motor vehicles and as-
associated equipment, consumer education pro-
grams, safety and health procedures, and bat-
tery availability, replacement, recycling, and
disposal, that may be required to enable elec-
tric utilities, manufacturers, and others to
support the operation and maintenance of
electric motor vehicles and associated equip-
ment;
(8) the term “motor vehicle” has the mean-
ing given such term under section 7550(c) of
this title;
(9) the term “non-Federal person” means an
entity not part of the Federal Government
that is either—
(A) organized under the laws of the United
States or the laws of a State of the United
States;
or
(B) a unit of State or local government;
(10) the term “proposer” means a non-Fed-
eral person that submits a proposal to conduct
demonstration project under this sub-
chapter;
(11) the term “price differential” means—
(A) in the case of a purchased electric
motor vehicle, the difference between the
manufacturer’s suggested retail price of a com-
parable conventionally fueled motor vehicle;
and
(B) in the case of a leased electric motor
vehicle, the difference between the monthly
lease payment of such electric motor vehicle
over the life of the lease and the monthly
lease payment of a comparable convention-
ally fueled motor vehicle over the life of the
lease;
and
(12) the term “user” means a person or enti-
ity that purchases or leases an electric motor

vehicle.

Stat. 2889.)

PART A—ELECTRIC MOTOR VEHICLE COMMERCIAL
DEMONSTRATION PROGRAM

§ 13281. Program and solicitation

(a) Program

The Secretary shall conduct a program to
demonstrate electric motor vehicles and the as-
sociated equipment of such vehicles, in con-
sultation with the Electric and Hybrid Vehicle
Program Site Operators, manufacturers, the
electric utility industry, and such other persons
as the Secretary considers appropriate. Such
program shall be—
(1) designed to accelerate the development
and use of electric motor vehicles; and
(2) structured to evaluate the performance of
such electric motor vehicles in field operation,
including fleet operation, and evaluate the
necessary supporting infrastructure.

(b) Solicitation

(1) Not later than 18 months after October 24,
1992, the Secretary shall solicit proposals to
demonstrate electric motor vehicles and associated equipment in one or more eligible metropolitan areas. The Secretary may make additional solicitations for proposals if the Secretary determines that such solicitations are necessary to carry out this part.

(2) (A) Solicitations for proposals under this subsection shall require the proposer to include a description, including the manufacturer or manufacturers of the electric motor vehicles; the proposed users of the electric motor vehicles; the eligible metropolitan area or areas involved; the number of electric motor vehicles to be demonstrated and their type, characteristics, and life-cycle costs; the price differential; the proposed discount payment; the contributions of State or local governments and other persons to the demonstration project; the type of associated equipment to be demonstrated; the domestic content of the electric motor vehicles and associated equipment; and any other information the Secretary considers appropriate.

(B) If the proposal includes a lease arrangement, the proposal shall indicate the terms of such lease arrangement for the electric motor vehicles or associated equipment.

(3) The solicitation for proposals under this subsection shall establish a closing date for receipt of proposals. The Secretary may, if necessary, extend the closing date for receipt of proposals for a period not to exceed 90 days.

§ 13282. Selection of proposals

(a) Selection

(1) The Secretary, in consultation with the Secretary of Transportation, the Secretary of Commerce, and the Administrator of the Environmental Protection Agency, shall, not later than 120 days after the closing date, as established by the Secretary, for receipt of proposals under section 13281 of this title, select at least one, but not more than 10, proposals to receive financial assistance under section 13283 of this title.

(2) The Secretary may select more than 10 proposals under this section, if the Secretary determines that the total amount of available funds is not likely to be otherwise utilized.

(3) Any proposal selected under paragraph (1) must satisfy the limitations set forth in section 13283(c) of this title.

(4) No one project selected under this section shall receive more than 25 percent of the funds authorized under section 13286 of this title.

(5) A demonstration project may not include electric motor vehicles in more than one eligible metropolitan area, unless the total number of electric motor vehicles in that project is equal to, or greater than, 100.

(b) Criteria

In selecting a proposal and in negotiating financial assistance under this section, the Secretary shall consider—

(1) the ability of the manufacturer, directly, indirectly, or in combination with the proposer, to develop, assist in the demonstration of, manufacture, distribute, sell, provide warranties for, service, and ensure the continued availability of parts for, electric motor vehicles in the demonstration project;

(2) the geographic and climatic diversity of the eligible metropolitan area or areas in which the demonstration project is to be undertaken, when considered in combination with other proposals and other selected demonstration projects;

(3) the long-term technical and competitive viability of the electric motor vehicles;

(4) the suitability of the electric motor vehicles for their intended uses;

(5) the environmental effects of the use of the proposed electric motor vehicles;

(6) the price differential and the proposed discount payment;

(7) the extent of involvement of State or local government and other persons in the demonstration project, and whether such involvement will—

(A) permit a reduction of the Federal cost share per vehicle; or

(B) otherwise be used to allow the Federal contribution to be provided for a greater number of electric motor vehicles;

(8) the proportion of domestic content of the electric motor vehicles and associated equipment;

(9) the safety of the electric motor vehicles; and

(10) such other criteria as the Secretary considers appropriate.

(c) Conditions

The Secretary shall require that—

(1) as a part of a demonstration project, the user or users of the electric motor vehicles will provide to the proposer and the manufacturer information regarding the operation, maintenance, performance, and use of the electric motor vehicles for 5 years after the beginning of the demonstration project;

(2) the proposer shall provide to the Secretary such information regarding the operation, maintenance, performance, and use of the electric motor vehicles as the Secretary may request during the period of the demonstration project;

(3) in the case of a demonstration project including automobiles or light duty trucks, the number of electric motor vehicles to be included in the demonstration project shall be no less than 50, except that the Secretary may select a demonstration project with fewer than 50 electric motor vehicles if the Secretary determines that selection of such a proposal will ensure that there is geographic or climatic diversity among the proposals selected and that an adequate demonstration to accelerate the development and use of electric motor vehicles can be undertaken with fewer than 50 electric motor vehicles; and

(4) the procurement practices of the manufacturer do not discriminate against United States producers of vehicle parts.

§ 13283. Discount payments
(a) Certification
The Secretary shall provide a discount payment to a proposer of a proposal selected under this part for purposes of reimbursing the proposer for a discount provided to the users if the proposer certifies to the Secretary that—
(1) the electric motor vehicles have been purchased or leased by a user or users in accordance with the requirements of this part; and
(2) the proposer has provided to the user or users a discount payment in accordance with the requirements of this part.
(b) Payment
Not later than 30 days after receipt from the proposer of certification that the Secretary determines satisfies the requirements of subsection (a), the Secretary shall pay to the proposer the full amount of the discount payment, to the extent provided in advance in appropriations Acts.
(c) Calculations of discount payments
(1) The discount payment shall be no greater than—
(A) the price differential; or
(B) the price of the comparable conventionally fueled motor vehicle.
(2) The purchase price of the electric motor vehicle, less the discount payment and less any additional reduction in the purchase price of the electric motor vehicle that may result from contributions provided by other parties, may not be less than the manufacturer’s suggested retail price of a comparable conventionally fueled motor vehicle.
(3) The maximum discount payment shall be no greater than $10,000 per electric motor vehicle.

§ 13284. Cost-sharing
(a) Requirement
The Secretary shall require that at least 50 percent of the costs directly and specifically related to any project under this part to be from non-Federal sources. Such share may be in the form of cash, personnel, services, equipment, and other resources.
(b) Reduction
The Secretary may reduce the amount of costs required to be provided by non-Federal sources under subsection (a) if the Secretary determines that the reduction is necessary and appropriate—
(1) considering the technological risks involved in the project; and
(2) in order to meet the objectives of this part.

§ 13285. Reports to Congress
(a) Progress reports
The Secretary shall report annually to Congress on the progress being made, through demonstration projects supported under this part, to accelerate the development and use of electric motor vehicles.
(b) Report on encouraging purchase and use of electric motor vehicles
Within 18 months after October 24, 1992, the Secretary shall submit to the Congress a report on methods for encouraging the purchase and use of electric motor vehicles. Such report shall—
(1) address the potential cost of purchasing and maintaining electric motor vehicles, including the initial cost of the batteries and the cost of replacement batteries;
(2) identify methods for reducing, subsidizing, or sharing such costs; and
(3) include recommendations for legislative and administrative measures to encourage the purchase and use of electric motor vehicles.

§ 13286. Authorization of appropriations
There are authorized to be appropriated to the Secretary for purposes of this part $50,000,000 for the 10-year period beginning with the first full fiscal year after October 24, 1992, to remain available until expended.

PART B—ELECTRIC MOTOR VEHICLE INFRASTRUCTURE AND SUPPORT SYSTEMS DEVELOPMENT PROGRAM

§ 13291. General authority
(a) Program
The Secretary shall undertake a program with one or more non-Federal persons, including fleet operators, for cost-shared research, development, demonstration, or commercial application of an infrastructure and support systems program.
(b) Eligibility
A non-Federal person shall be eligible to receive financial assistance under this part only if such person demonstrates, to the satisfaction of the Secretary, that the person will conduct a substantial portion of activities under the project in the United States using domestic labor and materials.
(c) Coordination
Activities under this part shall be coordinated with activities under part A.

§ 13292. Proposals
(a) Solicitation
Not later than one year after October 24, 1992, the Secretary shall solicit proposals from non-Federal persons, including fleet operators, for projects under this part. Within 240 days after proposals have been solicited, the Secretary shall select proposals.
(b) Criteria
(1) The Secretary shall provide financial assistance to no more than 10 projects under this
part, unless the Secretary determines that the total amount of available funds is not likely to be otherwise used.

(2) The proposals selected by the Secretary shall, to the extent practicable, represent geographically and climatically diverse regions of the United States.

(3) The aggregate Federal financial assistance for each project under this part may not exceed $1,000,000.

c) Projects

The infrastructure and support systems programs for which projects are selected under this part may address—

(1) the ability to service electric motor vehicles and to provide or service associated equipment;

(2) the installation of charging facilities;

(3) rates and cost recovery for electric utility activities who invest in infrastructure capital-related expenditures;

(4) the development of safety and health procedures and guidelines related to battery charging, watering, and emissions;

(5) the conduct of information dissemination programs; and

(6) such other subjects as the Secretary considers necessary in order to address the infrastructure and support systems needed to support the development and use of energy storage technologies, including advanced batteries, and the demonstration of electric motor vehicles.

§ 13293. Protection of proprietary information

(a) In general

In the case of activities, including joint venture activities, under this subchapter, and in the case of any existing or future activities, including joint venture activities, related primarily to battery technology for electric motor vehicles under other provisions of law, where the knowledge resulting from research and development activities conducted pursuant to such activities, including joint venture activities, is for the benefit of the participants (particularly domestic companies) that provide financial resources to a project under this subchapter, the Secretary, for a period of up to 5 years after the development of information that—

(1) results from research and development activities conducted under this subchapter; and

(2) would be a trade secret or commercial or financial information that is privileged or confidential if the information had been obtained from a participant,

shall, notwithstanding any other provision of law, provide appropriate protections against the dissemination of such information to the public, and the provisions of section 1905 of title 18 shall apply to such information. Nothing in this subsection provides protections against the dissemination of such information to Congress.

(b) “Domestic companies” defined

For purposes of subsection (a), the term “domestic companies” means entities which are substantially involved in the United States in the domestic production of motor vehicles for sale in the United States and have a substantial percentage of their production facilities in the United States.

§ 13294. Compliance with existing law

Nothing in this subchapter shall be deemed to convey to any person, partnership, corporation, or other entity, immunity from civil or criminal liability under any antitrust law or to create defenses to actions under any antitrust law.

§ 13296. Authorization of appropriations

There are authorized to be appropriated to the Secretary for purposes of this part $40,000,000 for the 5-year period beginning with the first full fiscal year after October 24, 1992, to remain available until expended.

SUBCHAPTER V—RENEWABLE ENERGY

§ 13311. Purposes

The purposes of this subchapter are to promote—

(1) increases in the production and utilization of energy from renewable energy resources;

(2) further advances of renewable energy technologies; and

(3) exports of United States renewable energy technologies and services.

References in Text

This subchapter, referred to in text, was in the original “this title” meaning title XII of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2956, which enacted this subchapter and amended sections 5276, 12001 to 12003, 12005, and 12006 of this title.

§ 13312. Renewable energy export technology training

(a) Establishment of program

The Secretary, through the Agency for International Development, shall establish a program for the training of individuals from developing countries in the operation and maintenance of renewable energy and energy efficiency technologies in accordance with this section. The Secretary and the Administrator of the Agency for International Development shall, within one year after October 24, 1992, enter into a written agreement to carry out this program.

(b) Purpose

The purpose of the program established under this section shall be to train appropriate persons
in the system design, operation, and maintenance of renewable energy and energy efficiency equipment manufactured in the United States, including equipment for water pumping, heating and purification, and the production of electric power in remote areas.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary $6,000,000 for each of the fiscal years 1994, 1995, and 1996, to carry out this section.

§13313. Renewable Energy Advancement Awards

(a) Authority

The Secretary shall make Renewable Energy Advancement Awards in recognition of developments that advance the practical application of biomass, geothermal, hydroelectric, photovoltaic solar thermal, ocean thermal, and wind technologies to consumer, utility, or industrial uses, in accordance with this section. Except as provided in subsection (f), Renewable Energy Advancement Awards shall include a cash award.

(b) Selection criteria

The Secretary, in consultation with the Advisory Committee on Demonstration and Commercial Application of Renewable Energy and Energy Efficiency Technologies (in this section referred to as the “Advisory Committee”), shall—

(1) develop a comprehensive data base and information dissemination system, using the National Trade Data Bank and the Commercial Information Management System of the Department of Commerce, that will provide information on the specific energy technology needs of foreign countries, and the technical and economic competitiveness of various renewable energy and energy efficiency products and technologies;

(2) make such information available to industry, Federal and multilateral lending agencies, nongovernmental organizations, host-country and donor-agency officials, and such others as the Secretary of Commerce considers necessary; and

(3) prepare and transmit to the Congress not later than June 1, 1993, and biennially thereafter, a comprehensive report evaluating the full range of energy and environmental technologies necessary to meet the energy needs of foreign countries, including—

(A) information on the specific energy needs of foreign countries;

(B) an inventory of United States technologies and services to meet those needs;

(C) an update on the status of ongoing bilateral and multilateral programs which promote United States exports of renewable energy and energy efficiency products and technologies; and

(D) an evaluation of current programs (and recommendations for future programs) that develop and promote energy efficiency and sustainable use of indigenous renewable energy resources in foreign countries to reduce the generation of greenhouse gases.

§13314. Study of tax and rate treatment of renewable energy projects

(a) The Secretary, in conjunction with State regulatory commissions, shall undertake a study to determine if conventional taxation and ratemaking procedures result in economic barriers to or incentives for renewable energy power plants compared to conventional power plants.

(b) Within 1 year after October 24, 1992, the Secretary shall submit a report to the Congress on the results of the study undertaken under subsection (a).

§13315. Data system and energy technology evaluation

The Secretary of Commerce, in his or her role as a member of the interagency working group established under section 6276 of this title, shall—

(1) develop a comprehensive data system and information dissemination system, using the National Trade Data Bank and the Commercial Information Management System of the Department of Commerce, that will provide information on the specific energy technology needs of foreign countries, and the technical and economic competitiveness of various renewable energy and energy efficiency products and technologies;

(2) make such information available to industry, Federal and multilateral lending agencies, nongovernmental organizations, host-country and donor-agency officials, and such others as the Secretary of Commerce considers necessary; and

(3) prepare and transmit to the Congress not later than June 1, 1993, and biennially thereafter, a comprehensive report evaluating the full range of energy and environmental technologies necessary to meet the energy needs of foreign countries, including—

(A) information on the specific energy needs of foreign countries;

(B) an inventory of United States technologies and services to meet those needs;

(C) an update on the status of ongoing bilateral and multilateral programs which promote United States exports of renewable energy and energy efficiency products and technologies; and

(D) an evaluation of current programs (and recommendations for future programs) that develop and promote energy efficiency and sustainable use of indigenous renewable energy resources in foreign countries to reduce the generation of greenhouse gases.
§ 13316. Innovative renewable energy technology transfer program

(a) Establishment of program

The Secretary, through the Agency for International Development, and in consultation with the other members of the interagency working group established under section 6276(d) of this title (in this section referred to as the “interagency working group”), shall establish a renewable energy technology transfer program to carry out the purposes described in subsection (b). Within 150 days after October 24, 1992, the Secretary and the Administrator of the Agency for International Development shall enter into a written agreement to carry out this section. The agreement shall establish a procedure for resolving any disputes between the Secretary and the Administrator regarding the implementation of specific projects. With respect to countries not assisted by the Agency for International Development, the Secretary may enter into agreements with other appropriate Federal agencies. If the Secretary and the Administrator, or the Secretary and an agency described in the previous sentence, are unable to reach an agreement, each shall send a memorandum to the President outlining an appropriate agreement. Within 90 days after receipt of either memorandum, the President shall determine which version of the agreement shall be in effect. Any agreement entered into under this subsection shall be provided to the appropriate committees of the Congress and made available to the public.

(b) Purposes of program

The purposes of the technology transfer program under this section are to—

1. reduce the United States balance of trade deficit through the export of United States renewable energy technologies and technological expertise;
2. retain and create manufacturing and related service jobs in the United States;
3. encourage the export of United States renewable energy technologies, including services related thereto, to those countries that have a need for developmentally sound facilities to provide energy derived from renewable resources;
4. develop markets for United States renewable energy technologies to be utilized in meeting the energy and environmental requirements of foreign countries;
5. better ensure that United States participation in energy-related projects in foreign countries includes participation by United States firms as well as utilization of United States technologies that have been developed or demonstrated in the United States through publicly or privately funded demonstration programs;
6. ensure the introduction of United States firms and expertise in foreign countries;
7. provide financial assistance by the Federal Government to foster greater participation by United States firms in the financing, ownership, design, construction, or operation of renewable energy technology projects in foreign countries;
8. assist foreign countries in meeting their energy needs through the use of renewable energy in an environmentally acceptable manner, consistent with sustainable development policies; and
9. assist United States firms, especially firms that are in competition with firms in foreign countries, to obtain opportunities to transfer technologies to, or undertake projects in, foreign countries.

(c) Identification

Pursuant to the agreements required by subsection (a), the Secretary, through the Agency for International Development, and after consultation with the interagency working group, United States firms, and representatives from foreign countries, shall develop mechanisms to identify potential energy projects in host countries, and shall identify a list of such projects within 240 days after October 24, 1992, and periodically thereafter.

(d) Financial mechanisms

1. Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall—
   A. establish appropriate financial mechanisms to increase the participation of United States firms in energy projects utilizing United States renewable energy technologies and services related thereto, in developing countries;
   B. utilize available financial assistance authorized by this section to counterbalance assistance provided by foreign governments to non-United States firms; and
   C. provide financial assistance to support projects.
2. The financial assistance authorized by this section may be—
   A. provided in combination with other forms of financial assistance, including non-United States funding that is available to the project; and
   B. utilized to assist United States firms in the development of innovative financing packages for renewable energy technology projects that utilize other financial assistance programs available through the Federal Government.
3. United States obligations under the Arrangement on Guidelines for Officially Supported Export Credits established through the Organization for Economic Cooperation and Development shall be applicable to this section.

(e) Solicitations for project proposals

1. Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, within one year after October 24, 1992, and subsequently as appropriate thereafter, shall solicit proposals from United States firms for the design, construction, testing, and operation of the project or projects identified under subsection (c) which propose to utilize a United States renewable energy technology. Each solicitation under this section shall establish a closing date for receipt of proposals.
2. The solicitation under this subsection shall, to the extent appropriate, be modeled
after the RFP No. DE-FG01-90ER62271 Clean Coal Technology IV, as administered by the Department of Energy.

(3) Any solicitation made under this subsection shall include the following requirements:

(A) The United States firm that submits a proposal in response to the solicitation shall have an equity interest in the proposed project.

(B) The project shall utilize a United States renewable energy technology, including services related thereto, in meeting the applicable energy and environmental requirements of the host country.

(C) Proposals for projects shall be submitted by and undertaken with a United States firm, although a joint venture or other teaming arrangement with a non-United States manufacturer or other non-United States entity is permissible.

(f) Assistance to United States firms

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the interagency working group, shall establish a procedure to provide financial assistance to United States firms under this section for a project identified under subsection (c) where solicitations for the project are being conducted by the host country or by a multilateral lending institution.

(g) Other program requirements

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the working group, shall—

(1) establish eligibility criteria for host countries;

(2) periodically review the energy needs of such countries and export opportunities for United States firms for the development of projects in such countries;

(3) consult with government officials in host countries and, as appropriate, with representatives of utilities or other entities in host countries, to determine interest in and support for potential projects; and

(4) determine whether each project selected under this section is developmentally sound, as determined under the criteria developed by the Development Assistance Committee of the Organization for Economic Cooperation and Development.

(h) Selection of projects

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall, not later than 120 days after receipt of proposals in response to a solicitation under subsection (e), select one or more proposals under this section.

(2) In selecting a proposal under this section, the Secretary, through the Agency for International Development, shall consider—

(A) the ability of the United States firm, in cooperation with the host country, to undertake and complete the project;

(B) the degree to which the equipment to be included in the project is designed and manufactured in the United States;

(C) the long-term technical and competitive viability of the United States technology, and services related thereto, and the ability of the United States firm to compete in the development of additional energy projects using such technology in the host country and in other foreign countries;

(D) the extent of technical and financial involvement of the host country in the project;

(E) the extent to which the proposed project meets the purposes stated in section 13311(b) of this title;

(F) the extent of technical, financial, management, and marketing capabilities of the participants in the project, and the commitment of the participants to completion of a successful project in a manner that will facilitate acceptance of the United States technology for future application; and

(G) such other criteria as may be appropriate.

(3) In selecting among proposed projects, the Secretary shall seek to ensure that, relative to otherwise comparable projects in the host country, a selected project will meet 1 or more of the following criteria:

(A) It will reduce environmental emissions to an extent greater than required by applicable provisions of law.

(B) It will make greater use of indigenous renewable energy resources.

(C) It will be a more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those projects which, in the judgment of the Secretary, best meet one or more of these criteria.

(i) United States-Asia Environmental Partnership

Activities carried out under this section shall be coordinated with the United States-Asia Environmental Partnership.

(j) Buy America

In carrying out this section, the Secretary, through the Agency for International Development, and pursuant to the agreements under subsection (a), shall ensure—

(1) the maximum percentage, but in no case less than 50 percent, of the cost of any equipment furnished in connection with a project authorized under this section shall be attributable to the manufactured United States components of such equipment; and

(2) the maximum participation of United States firms.

In determining whether the cost of United States components equals or exceeds 50 percent, the cost of assembly of such United States components in the host country shall not be considered a part of the cost of such United States component.

(k) Reports to Congress

The Secretary and the Administrator of the Agency for International Development shall re-
§ 13317  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8058

port annually to the Committee on Energy and Natural Resources of the Senate and the appropriate committees of the House of Representatives on the progress being made to introduce renewable energy technologies into foreign countries.

(f) Definitions

For purposes of this section—

(1) the term "host country" means a foreign country which is—

(A) the participant in or the site of the proposed renewable energy technology project; and

(B) either—

(i) classified as a country eligible to participate in development assistance programs of the Agency for International Development pursuant to applicable law or regulation; or

(ii) a developing country.

(2) the term "developing country" includes, but is not limited to, countries in Central and Eastern Europe or in the independent states of the former Soviet Union.

(m) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program required by this section, $100,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998.

§ 13317. Renewable energy production incentive

(a) Incentive payments

(1) For electric energy generated and sold by a qualified renewable energy facility during the incentive period, the Secretary shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility.

(2) The amount of such payment made to any such owner or operator shall be as determined under subsection (e).

(3) Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment.

(4)(A) Subject to subparagraph (B), if there are insufficient appropriations to make full payments for electric production from all qualified renewable energy facilities for a fiscal year, the Secretary shall assign—

(i) 60 percent of appropriated funds for the fiscal year to facilities that use solar, wind, marine energy (as defined in section 17211 of this title), geothermal, or closed-loop (dedicated energy crops) biomass technologies to generate electricity; and

(ii) 40 percent of appropriated funds for the fiscal year to other projects.

(B) After submitting to Congress an explanation of the reasons for the alteration, the Secretary may alter the percentage requirements of subparagraph (A).

(b) Qualified renewable energy facility

For purposes of this section, a qualified renewable energy facility is a facility which is owned by a not-for-profit electric cooperative, a public utility described in section 115 of title 26, a State, Commonwealth, territory, or possession of the United States, or the District of Columbia, or a political subdivision thereof, an Indian tribal government or subdivision thereof, or a Native Corporation (as defined in section 1602 of title 43), and which generates electric energy for sale in, or affecting, interstate commerce using solar, wind, biomass, landfill gas, livestock methane, marine energy (as defined in section 17211 of this title), or geothermal energy, except that—

(1) the burning of municipal solid waste shall not be treated as using biomass energy; and

(2) geothermal energy shall not include energy produced from a dry steam geothermal reservoir which has—

(A) no mobile liquid in its natural state;

(B) steam quality of 95 percent water; and

(C) an enthalpy for the total produced fluid greater than or equal to 1200 Btu/lb (British thermal units per pound).

(c) Eligibility window

Payments may be made under this section only for electricity generated from a qualified renewable energy facility first used before October 1, 2016.

(d) Payment period

A qualified renewable energy facility may receive payments under this section for a 10-fiscal year period. Such period shall begin with the fiscal year in which electricity generated from the facility is first eligible for such payments, or in which the Secretary determines that all necessary Federal and State authorizations have been obtained to begin construction of the facility.

(e) Amount of payment

(1) In general

Incentive payments made by the Secretary under this section to the owner or operator of any qualified renewable energy facility shall be based on the number of kilowatt hours of electricity generated by the facility through the use of solar, wind, biomass, landfill gas, livestock methane, marine energy (as defined in section 17211 of this title), or geothermal energy during the payment period referred to in subsection (d). For any facility, the amount of such payment shall be 1.5 cents per kilowatt hour, adjusted as provided in paragraph (2).

(2) Adjustments

The amount of the payment made to any person under this subsection as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 1993 in the same manner as provided in the provisions of section 29(d)(2)(B) of title 26, except that in applying such provisions the calendar year 1993 shall be substituted for calendar year 1979.

(f) Sunset

No payment may be made under this section to any facility after September 30, 2026, and no

1 See References in Text note below.
payment may be made under this section to any facility after a payment has been made with respect to such facility for a 10-fiscal year period.

(g) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2006 through 2026, to remain available until expended.

AMENDMENTS

2020—Subsec. (a)(4)(A)(ii). Pub. L. 116–260, § 3006(c)(1), substituted “marine energy (as defined in section 17211 of this title)” for “ocean (including tidal, wave, current, and thermal)”.

Subsec. (b). Pub. L. 116–260, § 3006(c)(2), in introductory provisions, substituted “marine energy (as defined in section 17211 of this title)” for “ocean (including tidal, wave, current, and thermal)”.

Subsec. (e)(1). Pub. L. 116–260, § 3006(c)(3), substituted “marine energy (as defined in section 17211 of this title)” for “ocean (including tidal, wave, current, and thermal)”.

2005—Subsec. (a). Pub. L. 109–58, § 202(a), designated first, second, and third sentences as pars. (1) to (3), respectively, in par. (3) struck out “and which satisfies such other requirements as the Secretary determines necessary” after “receive such payment”, struck out at end “Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.”, and added par. (4).

Subsec. (b). Pub. L. 109–58, § 202(b), in introductory provisions, substituted “a not-for-profit electric cooperative, a public utility described in section 115 of title 26, a State, Commonwealth, territory, or possession of the United States, or the District of Columbia, or a political subdivision thereof, an Indian tribal government or subdivision thereof, or a Native Corporation (as defined in section 1602 of title 43),” for “a State or any political subdivision of a State (or an agency, authority, or instrumentality of a State or a political subdivision),” by any corporation or association which is wholly owned, directly or indirectly, by one or more of the foregoing, or by a nonprofit electrical cooperative” and inserted “landfill gas, livestock methane, ocean (including tidal, wave, current, and thermal)” after “wind, biomass,”.

Subsec. (c). Pub. L. 109–58, § 202(c), substituted “before October 1, 2016” for “during the 10-fiscal year period beginning with the first full fiscal year occurring after October 24, 1992”.

Subsec. (d). Pub. L. 109–58, § 202(d), inserted “, or in which the Secretary determines that all necessary Federal and State authorizations have been obtained to begin construction of the facility” after “eligible for such payments”.

Subsec. (e)(1). Pub. L. 109–58, § 202(e), inserted “landfill gas, livestock methane, ocean (including tidal, wave, current, and thermal)” after “wind, biomass,”.

Subsec. (f). Pub. L. 109–58, § 202(f), substituted “September 30, 2026” for “the expiration of the 20-fiscal year period beginning with the first full fiscal year occurring after October 24, 1992”.

Subsec. (g). Pub. L. 109–58, § 202(g), added subsec. (g) and struck out heading and text of former subsec. (g) Text read as follows: “There are authorized to be appropriated to the Secretary for fiscal years 1993, 1994, and 1995 such sums as may be necessary to carry out the purposes of this section.”

SUBCHAPTER VI—COAL

PART A—RESEARCH, DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION

§ 13331. Coal research, development, demonstration, and commercial application programs

(a) Establishment

The Secretary shall, in accordance with section 13541 and 13542 of this title, conduct programs for research, development, demonstration, and commercial application on coal-based technologies. Such research, development, demonstration, and commercial application programs shall include the programs established under this part, and shall have the goals and objectives of—

(1) ensuring a reliable electricity supply;
(2) complying with applicable environmental requirements;
(3) achieving the control of sulfur oxides, oxides of nitrogen, air toxics, solid and liquid wastes, greenhouse gases, or other emissions resulting from coal use or conversion at levels of proficiency greater than or equal to applicable currently available commercial technology;
(4) achieving the cost competitive conversion of coal into energy forms usable in the transportation sector;
(5) demonstrating the conversion of coal to synthetic gaseous, liquid, and solid fuels;
(6) demonstrating, in cooperation with other Federal and State agencies, the use of coal-derived fuels in mobile equipment, with opportunities for industrial cost sharing participation;
(7) ensuring the timely commercial application of cost-effective technologies or energy production processes or systems utilizing coal which achieve—
(A) greater efficiency in the conversion of coal to useful energy when compared to currently available commercial technology for the use of coal; and
(B) the control of emissions from the utilization of coal; and
(8) ensuring the availability for commercial use of such technologies by the year 2010.

(b) Demonstration and commercial application programs

(1) In selecting either a demonstration project or a commercial application project for financial assistance under this part, the Secretary shall seek to ensure that, relative to otherwise comparable commercially available technologies or products, the selected project will meet one or more of the following criteria:
(A) It will reduce environmental emissions to an extent greater than required by applicable provisions of law.
(B) It will increase the overall efficiency of the utilization of coal, including energy conversion efficiency and, where applicable, production of products derived from coal.
(C) It will be a more cost-effective technological alternative, based on life cycle capital

1 So in original. Probably should be “sections”. 
and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those projects which, in the judgment of the Secretary, best meet one or more of these criteria.

(2) In administering demonstration and commercial application programs authorized by this part, the Secretary shall establish accounting and project management controls that will be adequate to control costs.

(3)(A) Not later than 180 days after October 24, 1992, the Secretary shall establish procedures and criteria for the recoupment of the Federal share of each cost shared demonstration and commercial application project authorized pursuant to this part. Such recoupment shall occur within a reasonable period of time following the date of completion of such project, but not later than 20 years following such date, taking into account the effect of recoupment on—

(i) the commercial competitiveness of the entity carrying out the project;
(ii) the profitability of the project; and
(iii) the commercial viability of the coal-based technology utilized.

(B) The Secretary may at any time waive or defer all or some portion of the recoupment requirement as necessary for the commercial viability of the project.

(4) Projects selected by the Secretary under this part for demonstration or commercial application of a technology shall, in the judgment of the Secretary, be capable of enhancing the state of the art for such technology.

(c) Report

Within 240 days after October 24, 1992, the Secretary shall transmit to the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate a report which shall include each of the following:

(1) A detailed description of ongoing research, development, demonstration, and commercial application activities regarding coal-based technologies undertaken by the Department of Energy, other Federal or State government departments or agencies and, to the extent such information is publicly available, other public or private organizations in the United States and other countries.

(2) A listing and analysis of current Federal and State government regulatory and financial incentives that could further the goals of the programs established under this part.

(3) Recommendations regarding the manner in which any ongoing coal-based demonstration and commercial application program might be modified and extended in order to ensure the timely demonstrations of advanced coal-based technologies so as to ensure that the goals established under this section are achieved and that such demonstrated technologies are available for commercial use by the year 2010.

(4) Recommendations, if any, regarding the manner in which the cost sharing demonstrations conducted pursuant to the Clean Coal Program established by Public Law 98-473 might be modified and extended in order to ensure the timely demonstration of advanced coal-based technologies.

(5) A detailed plan for conducting the research, development, demonstration, and commercial application programs to achieve the goals and objectives of subsection (a) of this section, which plan shall include a description of—

(A) the program elements and management structure to be utilized;
(B) the technical milestones to be achieved with respect to each of the advanced coal-based technologies included in the plan; and
(C) the dates at which further deadlines for additional cost sharing demonstrations shall be established.

(d) Status reports

Within one year after transmittal of the report described in subsection (c), and every 2 years thereafter for a period of 6 years, the Secretary shall transmit to the Congress a report that provides a detailed description of the status of development of the advanced coal-based technologies and the research, development, demonstration, and commercial application activities undertaken to carry out the programs required by this part.

(e) Consultation

In carrying out research, development, demonstration, and commercial application activities under this part, the Secretary shall consult with the National Coal Council and other representatives of the public and private sectors as the Secretary considers appropriate.

References in Text

Change of Name

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2. The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

§ 13332. Coal-fired diesel engines

The Secretary shall conduct a program of research, development, demonstration, and commercial application for utilizing coal-derived liquid or gaseous fuels, including ultra-clean coal-water slurries, in diesel engines. The program shall address—

(1) required engine retrofit technology;
(2) coal-fuel production technology;
(3) emission control requirements;
(4) the testing of low-Btu highly reactive fuels;
(5) fuel delivery and storage systems requirements; and
(6) other infrastructure required to support commercial deployment.

§ 13333. Clean coal, waste-to-energy

The Secretary shall establish a program of research, development, demonstration, and commercial application with respect to the use of solid waste combined with coal as a fuel source for clean coal combustion technologies. The program shall address—

(1) the feasibility of cofiring coal and used vehicle tires in fluidized bed combustion units;
(2) the combined gasification of coal and municipal sludge using integrated gasification combined cycle technology;
(3) the creation of fuel pellets combining coal and material reclaimed from solid waste;
(4) the feasibility of cofiring, in fluidized bed combustion units, waste methane from coal mines, including ventilation air, together with coal or coal wastes; and
(5) other sources of waste and coal mixtures in other applications that the Secretary considers appropriate.

§ 13334. Nonfuel use of coal

(a) Program

The Secretary shall prepare a plan for and carry out a program of research, development, demonstration, and commercial application with respect to technologies for the nonfuel use of coal, including—

(1) production of coke and other carbon products derived from coal;
(2) production of coal-derived, carbon-based chemical intermediates that are precursors of value-added chemicals and polymers;
(3) production of chemicals from coal-derived synthesis gas;
(4) coal treatment processes, including methodologies such as solvent-extraction techniques that produce low ash, low sulfur, coal-based chemical feedstocks; and
(5) waste utilization, including recovery, processing, and marketing of products derived from sulfur, carbon dioxide, nitrogen, and ash from coal.

(b) Plan contents

The plan described in subsection (a) shall address and evaluate—

(1) the known and potential processes for using coal in the creation of products in the chemical, utility, fuel, and carbon-based materials industries;
(2) the costs, benefits, and economic feasibility of using coal products in the chemical and materials industries, including value-added chemicals, carbon-based products, coke, and waste derived from coal;
(3) the economics of coproduction of products from coal in conjunction with the production of electric power, thermal energy, and fuel;
(4) the economics of the refining of coal and coal byproducts to produce nonfuel products;
(5) the economics of coal utilization in comparison with other feedstocks that might be used for the same purposes;
(6) the steps that can be taken by the public and private sectors to bring about commercialization of technologies developed under the program recommended; and
(7) the past development, current status, and future potential of coal products and processes associated with nonfuel uses of coal.

§ 13335. Coal refinery program

(a) Program

The Secretary shall conduct a program of research, development, demonstration, and commercial application for coal refining technologies.

(b) Objectives

The program shall include technologies for refining high sulfur coals, low sulfur coals, sub-bituminous coals, and lignites to produce clean-burning transportation fuels, compliance boiler fuels, fuel additives, lubricants, chemical feedstocks, and carbon-based manufactured products, either alone or in conjunction with the generation of electricity or process heat, or the manufacture of a variety of products from coal. The objectives of such program shall be to achieve—

(1) the timely commercial application of technologies, including mild gasification, hydrocracking and other hydropyrolysis processes, and other energy production processes or systems to produce coal-derived fuels and coproducts, which achieve greater efficiency and economy in the conversion of coal to electrical energy and coproducts than currently available technology;
(2) the production of energy, fuels, and products which, on a complete energy system basis, will result in environmental emissions no greater than those produced by existing comparable energy systems utilized for the same purpose;
(3) the capability to produce a range of coal-derived transportation fuels, including oxygenated hydrocarbons, boiler fuels, turbine fuels, and coproducts, which can reduce dependence on imported oil by displacing conventional petroleum in the transportation sector and other sectors of the economy;
(4) reduction in the cost of producing such coal-derived fuels and coproducts;
(5) the control of emissions from the combustion of coal-derived fuels; and
(6) the availability for commercial use of such technologies by the year 2000.

§ 13336. Coalbed methane recovery

(a) Study of barriers and environmental and safety aspects

The Secretary, in consultation with the Administrator of the Environmental Protection
Agency and the Secretary of the Interior, shall conduct a study of—

(1) technical, economic, financial, legal, regulatory, institutional, or other barriers to coalbed methane recovery, and of policy options for eliminating such barriers; and

(2) the environmental and safety aspects of flaring coalbed methane liberated from coal mines.

Within two years after October 24, 1992, the Secretary shall submit a report to the Congress detailing the results of such study.

(b) Information dissemination

Beginning one year after October 24, 1992, the Secretary, in consultation with the Administrator of the Environmental Protection Agency and the Secretary of the Interior, shall disseminate to the public information on state-of-the-art coalbed methane recovery techniques, including information on costs and benefits.

(c) Demonstration and commercial application program

The Secretary, in consultation with the Administrator of the Environmental Protection Agency and the Secretary of the Interior, shall establish a coalbed methane recovery demonstration and commercial application program, which shall emphasize gas enrichment technology. Such program shall address—

(1) gas enrichment technologies for enriching medium-quality methane recovered from coal mines to pipeline quality;

(2) technologies to use mine ventilation air in nearby power generation facilities, including gas turbines, internal combustion engines, or other coal fired powerplants;

(3) technologies for cofiring methane recovered from mines, including methane from ventilation systems and degasification systems, together with coal in conventional or clean coal technology boilers; and

(4) other technologies for producing and using methane from coal mines that the Secretary considers appropriate.

§ 13337. Metallurgical coal development

(a) The Secretary shall establish a research, development, demonstration, and commercial application program on metallurgical coal utilization for the purpose of developing techniques that will lead to the greater and more efficient utilization of the Nation’s metallurgical coal resources.

(b) The program referred to in subsection (a) shall include the use of metallurgical coal—

(1) as a boiler fuel for the purpose of generating steam to produce electricity, including the use ofmetallurgical coal with other coals in order to enhance its efficient application as a boiler fuel;

(2) as an ingredient in the manufacturing of steel; and

(3) as a source of pipeline quality coalbed methane.

§ 13338. Utilization of coal wastes

(a) Coal waste utilization program

The Secretary, in consultation with the Secretary of the Interior, shall establish a research, development, demonstration, and commercial application program on coal waste utilization for the purpose of developing techniques that will lead to the greater and more efficient utilization of coal wastes from mining and processing, other than coal ash.

(b) Use as boiler fuel

The program referred to in subsection (a) shall include projects to facilitate the use of coal wastes from mining and processing as a boiler fuel for the purpose of generating steam to produce electricity.

§ 13339. Underground coal gasification

(a) Program

The Secretary shall conduct a research, development, demonstration, and commercial application program for underground coal gasification technology for in-situ conversion of coal to a cleaner burning, easily transportable gaseous fuel. The goal and objective of this program shall be to accelerate the development and commercialization of underground coal gasification. In carrying out this program, the Secretary shall give equal consideration to all ranks of coal.

(b) Demonstration projects

As part of the program authorized in subsection (a), the Secretary may solicit proposals for underground coal gasification technology projects to fulfill the goal and objective of subsection (a).

§ 13340. Low-rank coal research and development

The Secretary shall pursue a program of research and development with respect to the technologies needed to expand the use of low-rank coals which take into account the unique properties of lignites and sub-bituminous coals, including, but not limited to, the following areas—

(1) high value-added carbon products;

(2) fuel cell applications;

(3) emissions control and combustion efficiencies;

(4) coal water fuels and underground coal gasification;

(5) distillates; and

(6) any other technologies which will assist in the development of niche markets for lignites and sub-bituminous coals.

§ 13341. Magnetohydrodynamics

(a) Program

The Secretary shall carry out a research, development, demonstration, and commercial ap-
application program in magnetohydrodynamics. The purpose of this program shall be to determine the adequacy of the engineering and design information completed to date under Department of Energy contracts related to magnetohydrodynamics retrofit systems and to determine whether any further Federal investment in this technology is warranted.

(b) Solicitation of proposals
In order to carry out the program authorized in subsection (a), the Secretary may solicit proposals from the private sector and seek to enter into an agreement with appropriate parties.

§ 13342. Oil substitution through coal liquefaction

(a) Program direction
The Secretary shall conduct a program of research, development, demonstration, and commercial application for the purpose of developing economically and environmentally acceptable advanced technologies for oil substitution through coal liquefaction.

(b) Program goals
The goals of the program established under subsection (a) shall include—
(1) improved resource selection and product quality;
(2) the development of technologies to increase net yield of liquid fuel product per ton of coal;
(3) an increase in overall thermal efficiency; and
(4) a reduction in capital and operating costs through technology improvements.

(c) Proposals
Within 180 days after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

§ 13343. Authorization of appropriations
There are authorized to be appropriated to the Secretary for carrying out this part $278,139,000 for fiscal year 1993 and such sums as may be necessary for fiscal years 1994 through 1997.

§ 13344. Rare earth elements

(a) Research program
(1) In general
The Secretary of Energy, acting through the Assistant Secretary for Fossil Energy (referred to in this section as the “Secretary”), shall conduct a program of research and development—
(A) to develop and assess advanced separation technologies for the extraction and recovery of rare earth elements and other critical materials from coal and coal byproducts; and
(B) to determine if there are, and mitigate, any potential environmental or public health impacts that could arise from the recovery of rare earth elements from coal-based resources.

(2) Authorization of appropriations
There is authorized to be appropriated to the Secretary to carry out the program described in paragraph (1)—
(A) $23,000,000 for each of fiscal years 2021 and 2022;
(B) $24,300,000 for fiscal year 2023;
(C) $25,400,000 for fiscal year 2024;
(D) $26,600,000 for fiscal year 2025; and
(E) $27,800,000 for fiscal year 2026.

(b) Report
Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology and Energy and Commerce of the House of Representatives a report evaluating the development of advanced separation technologies for the extraction and recovery of rare earth elements and other critical materials from coal and coal byproducts, including acid mine drainage from coal mines.

§ 13351. Additional clean coal technology solicitations

(a) Program design
Addtional clean coal technology solicitations described in subsection (b) shall be designed to ensure the timely development of cost-effective technologies or energy production processes or systems utilizing coal that achieve greater efficiency in the conversion of coal to useful energy when compared to currently commercially available technology for the use of coal and the control of emissions from the combustion of coal. Such program shall be designed to ensure, to the greatest extent possible, the availability for commercial use of such technologies by the year 2010.

(b) Additional solicitations
In conducting the Clean Coal Program established by Public Law 98–473, the Secretary shall consider the potential benefits of conducting additional solicitations pursuant to such program and, based on the results of that consideration, may carry out such additional solicitations, which shall be similar in scope and percentage of Federal cost sharing as that provided by Public Law 101–121.

§ 13361. Clean coal technology export promotion and interagency coordination

(a) Establishment
There shall be established within the Trade Promotion Coordinating Committee (established by the President on May 23, 1990) a Clean Coal Technology Subgroup (in this part referred to as the “CCT Subgroup”) to focus interagency efforts on clean coal technologies. The CCT Subgroup shall seek to expand the export and use of clean coal technologies, particularly in those countries which can benefit from gains in the efficiency of, and the control of environmental emissions from, coal utilization.

(b) Membership
The CCT Subgroup shall include 1 member from each agency represented on the Energy, Environment, and Infrastructure Working Group of the Trade Promotion Coordinating Committee as of October 24, 1992. The Secretary shall serve as chair of the CCT Subgroup and shall be responsible for ensuring that the functions of the CCT Subgroup are carried out through its member agencies.

(c) Consultation
(1) In carrying out this section, the CCT Subgroup shall consult with representatives from the United States coal industry, representatives of railroads and other transportation industries, organizations representing workers, the electric utility industry, manufacturers of equipment utilizing clean coal technology, members of organizations formed to further the goals of environmental protection or to promote the development and use of clean coal technologies that are developed, manufactured, or controlled by United States firms; and other appropriate interested members of the public.

(2) The CCT Subgroup shall maintain ongoing liaison with other elements of the Trade Promotion Coordinating Committee relating to clean coal technologies or regions where these technologies could be important, including Eastern Europe, Asia, and the Pacific.

(d) Duties
The Secretary, acting through the CCT Subgroup, shall—
(1) facilitate the establishment of technical training for the consideration, planning, construction, and operation of clean coal technologies by end users and international development personnel;
(2) facilitate the establishment of and, where practicable, cause to be established, consistent with the goals and objectives stated in section 13331(a) of this title, within existing departments and agencies—
(A) financial assistance programs (including grants, loan guarantees, and no interest and low interest loans) to support prefeasibility and feasibility studies for projects that will utilize clean coal technologies; and
(B) loan guarantee programs, grants, and no interest and low interest loans designed to facilitate access to capital and credit in order to finance such clean coal technology projects;

(3) develop and ensure the execution of programs, including the establishment of financial incentives, to encourage and support private sector efforts in exports of clean coal technologies that are developed, manufactured, or controlled by United States firms;

(4) encourage the training in, and understanding of, clean coal technologies by representatives of foreign companies or countries intending to use coal or clean coal technologies by providing technical or financial support for training programs, workshops, and other educational programs sponsored by United States firms;

(5) educate loan officers and other officers of international lending institutions, commercial and energy attaches of the United States, and such other personnel as the CCT Subgroup considers appropriate, for the purposes of providing information about clean coal technologies and foreign governments or potential project sponsors of clean coal technology projects;

(6) develop policies and practices to be conducted by commercial and energy attaches of the United States, and such other personnel as the CCT Subgroup considers appropriate, in order to promote the exports of clean coal technologies to those countries interested in or intending to utilize coal resources;

(7) augment budgets for trade and development programs supported by Federal agencies for the purpose of financially supporting prefeasibility or feasibility studies for projects in foreign countries that will utilize clean coal technologies;

(8) review ongoing clean coal technology projects and review and advise Federal agencies on the approval of planned clean coal technology projects which are sponsored abroad by any Federal agency to determine whether such projects are consistent with the overall goals and objectives of this section;

(9) coordinate the activities of the appropriate Federal agencies in order to ensure that Federal clean coal technology export promotion policies are implemented in a timely fashion;

(10) work with CCT Subgroup member agencies to develop an overall strategy for promoting clean coal technology exports, including setting goals and allocating specific responsibilities among member agencies, consistent with applicable statutes; and

(11) coordinate with multilateral institutions to ensure that United States technologies are properly represented in their projects.
(e) Data and information

(1) The CCT Subgroup, consistent with other applicable provisions of law, shall ensure the development of a comprehensive data base and information dissemination system, using the National Trade Data Bank and the Commercial Information Management System of the Department of Commerce, relating to the availability of clean coal technologies and the potential need for such technologies, particularly in developing countries and countries making the transition from nonmarket to market economies.

(2) The Secretary, acting through the CCT Subgroup, shall assess and prioritize foreign markets that have the most potential for the export of clean coal technologies that are developed, manufactured, or controlled by United States firms. Such assessment shall include—

(A) an analysis of the financing requirements for clean coal technology projects in foreign countries and whether such projects are dependent upon financial assistance from foreign countries or multilateral institutions;

(B) the availability of other fuel or energy resources that may be available to meet the energy requirements intended to be met by the clean coal technology projects;

(C) the priority of environmental considerations in the selection of such projects;

(D) the technical competence of those entities likely to be involved in the planning and operation of such projects;

(E) an objective comparison of the environmental, energy, and economic performance of each clean coal technology relative to conventional technologies;

(F) a list of United States vendors of clean coal technologies; and

(G) answers to commonly asked questions about clean coal technologies.1

The Secretary, acting through the CCT Subgroup, shall make such information available to the House of Representatives and the Senate, and to the appropriate committees of each House of Congress, industry, Federal and international financing organizations, nongovernmental organizations, potential customers abroad, governments of countries where such clean coal technologies might be used, and such others as the CCT Subgroup considers appropriate.

(f) Report

Within 180 days after the Secretary submits the report to the Congress as required by section 409 of Public Law 101–549, the Secretary, acting through the CCT Subgroup, shall provide to the appropriate committees of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a plan which details actions to be taken in order to address those recommendations and findings made in the report submitted pursuant to section 409 of Public Law 101–549. As a part of the plan required by this section, the Secretary, acting through the CCT Subgroup, shall specifically address the adequacy of financial assistance available from Federal departments and agencies and international financing organizations to aid in the financing of prefeasibility and feasibility studies and projects that would use a clean coal technology in developing countries and countries making the transition from nonmarket to market economies.

References in Text

This part, referred to in subsec. (a), was in the original “this subtitle” meaning subtitle C of title XIII of Pub. L. 102–486, which enacted this part and provisions set out as a note under section 824a–3 of Title 16, Conservation.

Section 409 of Public Law 101–549, referred to in subsec. (f), is section 409 of Pub. L. 101–549, title IV, Nov. 15, 1990, 104 Stat. 2634, which directed the Secretary of Energy, in consultation with the Secretary of Commerce, to submit a report to Congress within one year of November 15, 1990, respecting clean coal technology programs, and which is not classified to the Code.

§ 13362. Innovative clean coal technology transfer program

(a) Establishment of program

The Secretary, through the Agency for International Development, and in consultation with the other members of the CCT Subgroup, shall establish a clean coal technology transfer program to carry out the purposes described in subsection (b). Within 150 days after October 24, 1992, the Secretary and the Administrator of the Agency for International Development shall enter into a written agreement to carry out this section. The agreement shall establish a procedure for resolving any disputes between the Secretary and the Administrator regarding the implementation of specific projects. With respect to countries not assisted by the Agency for International Development, the Secretary may enter into agreements with other appropriate United States agencies. If the Secretary and the Administrator, or the Secretary and an agency described in the previous sentence, are unable to reach an agreement, each shall send a memorandum to the President outlining an appropriate agreement. Within 90 days after receipt of either memorandum, the President shall determine which version of the agreement shall be in effect. Any agreement entered into under this subsection shall be provided to the appropriate committees of the Congress and made available to the public.

(b) Purposes of program

The purposes of the technology transfer program under this section are to—

(1) reduce the United States balance of trade deficit through the export of United States energy technologies and technological expertise;

(2) retain and create manufacturing and related service jobs in the United States;

(3) encourage the export of United States technologies, including services related thereto, to those countries that have a need for developmentally sound facilities to provide energy derived from coal resources;

(4) develop markets for United States technologies and, where appropriate, United States coal resources to be utilized in meeting the energy and environmental requirements of foreign countries;

1 So in original. The comma probably should be a period.
§ 13362

(5) better ensure that United States participation in energy-related projects in foreign countries includes participation by United States firms as well as utilization of United States technologies that have been developed or demonstrated in the United States through publicly or privately funded demonstration programs;

(6) provide for the accelerated deployment of United States technologies that will serve to introduce into foreign countries United States technologies intended to use coal resources in a more efficient, cost-effective, and environmentally acceptable manner;

(7) serve to ensure the introduction of United States firms and expertise in foreign countries;

(8) provide financial assistance by the Federal Government to foster greater participation by United States firms in the financing, ownership, design, construction, or operation of clean coal technology projects in foreign countries;

(9) assist foreign countries in meeting their energy needs through the use of coal in an environmentally acceptable manner, consistent with sustainable development policies; and

(10) assist United States firms, especially firms that are in competition with firms in foreign countries, to obtain opportunities to transfer technologies to, or undertake projects in, foreign countries.

(c) Identification

Pursuant to the agreements required by subsection (a), the Secretary, through the Agency for International Development, after consultation with the CCT Subgroup, United States firms, and representatives from foreign countries, shall develop mechanisms to identify potential energy projects in host countries, and shall identify a list of such projects within 240 days after October 24, 1992, and periodically thereafter.

(d) Financial mechanisms

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall—

(A) establish appropriate financial mechanisms to increase the participation of United States firms in energy projects utilizing United States clean coal technologies, and services related thereto, in developing countries and countries making the transition from nonmarket to market economies;

(B) utilize available financial assistance authorized by this section to counterbalance assistance provided by foreign governments to non-United States firms; and

(C) provide financial assistance to support projects, including—

(i) financing the incremental costs of a clean coal technology project attributable only to expenditures to prevent or abate emissions;

(ii) providing the difference between the costs of a conventional energy project in the host country and a comparable project that would utilize a clean coal technology capable of achieving greater efficiency of energy products and improved environmental emissions compared to such conventional project; and

(iii) such other forms of financial assistance as the Secretary, through the Agency for International Development, considers appropriate.

(2) The financial assistance authorized by this section may be—

(A) provided in combination with other forms of financial assistance, including non-United States funding that is available to the project; and

(B) utilized to assist United States firms to develop innovative financing packages for clean coal technology projects that seek to utilize other financial assistance programs available through other Federal agencies.

(3) United States obligations under the Arrangement on Guidelines for Officially Supported Export Credits established through the Organization for Economic Cooperation and Development shall be applicable to this section.

(e) Solicitations for project proposals

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, within one year after October 24, 1992, and subsequently as appropriate thereafter, shall solicit proposals from United States firms for the design, construction, testing, and operation of the project or projects identified under subsection (c) which propose to utilize a United States technology. Each solicitation under this section shall establish a closing date for receipt of proposals.

(2) The solicitation under this subsection shall, to the extent appropriate, be modeled after the RFP No. DE-FS01-90FE62271 Clean Coal Technology IV as administered by the Department of Energy.

(3) Any solicitation made under this subsection shall include the following requirements:

(A) The United States firm that submits a proposal in response to the solicitation shall have an equity interest in the proposed project;

(B) The project shall utilize a United States clean coal technology, including services related thereto, and, where appropriate, United States coal resources, in meeting the applicable energy and environmental requirements of the host country;

(C) Proposals for projects shall be submitted by and undertaken with a United States firm, although a joint venture or other teaming arrangement with a non-United States manufacturer or other non-United States entity is permissible.

(f) Assistance to United States firms

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the CCT Subgroup, shall establish a procedure to provide financial assistance to United States firms under this section for a project identified under subsection (c) where solicitations for the project are being conducted by the host country or by a multilateral lending institution.
(g) **Other program requirements**

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the CCT Subgroup, shall—

(1) establish eligibility criteria for countries that will host projects;
(2) periodically review the energy needs of such countries and export opportunities for United States firms for the development of projects in such countries;
(3) consult with government officials in host countries and, as appropriate, with representatives of utilities or other entities in host countries, to determine interest in and support for potential projects; and
(4) determine whether each project selected under this section is developmentally sound, as determined under the criteria developed by the Development Assistance Committee of the Organization for Economic Cooperation and Development.

(h) **Selection of projects**

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall, not later than 120 days after receipt of proposals in response to a solicitation under subsection (e), select one or more proposals under this section.
(2) In selecting a proposal under this section, the Secretary, through the Agency for International Development, shall consider—
   (A) the ability of the United States firm, in cooperation with the host country, to undertake and complete the project;
   (B) the degree to which the equipment to be included in the project is designed and manufactured in the United States;
   (C) the long-term technical and competitive viability of the United States technology, and services related thereto, and the ability of the United States firm to compete in the development of additional energy projects using such technology in the host country and in other foreign countries;
   (D) the extent of technical and financial involvement of the host country in the project;
   (E) the extent to which the proposed project meets the goals and objectives stated in section 13331(a) of this title;
   (F) the extent of technical, financial, management, and marketing capabilities of the participants in the project, and the commitment of the participants to completion of a successful project in a manner that will facilitate acceptance of the United States technology for future application; and
   (G) such other criteria as may be appropriate.

(3) In selecting among proposed projects, the Secretary shall seek to ensure that, relative to otherwise comparable projects in the host country, a selected project will meet 1 or more of the following criteria:
   (A) It will reduce environmental emissions to an extent greater than required by applicable provisions of law.
   (B) It will increase the overall efficiency of the utilization of coal, including energy conversion efficiency and, where applicable, production of products derived from coal.
   (C) It will be a more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those projects which, in the judgment of the Secretary, best meet one or more of these criteria.

(i) **United States-Asia Environmental Partnership**

Activities carried out under this section shall be coordinated with the United States-Asia Environmental Partnership.

(j) **Buy America**

In carrying out this section, the Secretary, through the Agency for International Development, and pursuant to the agreements under subsection (a), shall ensure—

(1) the maximum percentage, but in no case less than 50 percent, of the cost of any equipment furnished in connection with a project authorized under this section shall be attributable to the manufactured United States components of such equipment; and
(2) the maximum participation of United States firms.

In determining whether the cost of United States components equals or exceeds 50 percent, the cost of assembly of such United States components in the host country shall not be considered a part of the cost of such United States component.

(k) **Reports to Congress**

The Secretary and the Administrator of the Agency for International Development shall report annually to the Committee on Energy and Natural Resources of the Senate and the appropriate committees of the House of Representatives on the progress being made to introduce clean coal technologies into foreign countries.

(l) **“Host country” defined**

For purposes of this section, the term “host country” means a foreign country which is—

(1) the participant in or the site of the proposed clean coal technology project; and
(2) either—
   (A) classified as a country eligible to participate in development assistance programs pursuant to applicable law or regulation; or
   (B) a developing country or country with an economy in transition from a nonmarket to a market economy.

(m) **Authorization of appropriations**

There are authorized to be appropriated to the Secretary to carry out the program required by this section, $100,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998.

§ 13363. *Conventional coal technology transfer*

If the Secretary determines that the utilization of a clean coal technology is not practicable for a proposed project and that a United
States conventional coal technology would constitute a substantial improvement in efficiency, costs, and environmental performance relative to the technology being used in a developing country or country making the transition from nonprofit to market economies, with significant indigenous coal resources, such technology shall, for purposes of sections 13361 and 13362\(^1\) of this title, be considered a clean coal technology. In the case of combustion technologies, only the retrofit, repowering, or replacement of a conventional technology shall constitute a substantial improvement for purposes of this section. In carrying out this section, the Secretary shall give highest priority to promoting the most environmentally sound and energy efficient technologies.

REFERENCES IN TEXT

Sections 13361 and 13362 of this title, referred to in text, was in the original “sections 1321 and 1322” and was translated as reading “sections 1331 and 1332,” meaning sections 1331 and 1332 of Pub. L. 102–486, to reflect the probable intent of Congress, because Pub. L. 102–486 does not contain a section 1322 and sections 1331 and 1332 of Pub. L. 102–486 relate to export of clean coal technology.

§ 13364. Study of utilization of coal combustion byproducts

(a) “Coal combustion byproducts” defined

As used in this section, the term “coal combustion byproducts” means the residues from the combustion of coal including ash, slag, and flue gas desulfurization materials.

(b) Study and report to Congress

(1) The Secretary shall conduct a detailed and comprehensive study on the institutional, legal, and regulatory barriers to increased utilization of coal combustion byproducts by potential governmental and commercial users. Such study shall identify and investigate barriers found to exist at the Federal, State, or local level, which may have limited or may have the foreseeable effect of limiting the quantities of coal combustion byproducts that are utilized. In conducting this study, the Secretary shall consult with other departments and agencies of the Federal Government, appropriate State and local governments, and the private sector.

(2) Not later than one year after October 24, 1992, the Secretary shall submit a report to the Congress containing the results of the study required by paragraph (1) and the Secretary’s recommendations for action to be taken to increase the utilization of coal combustion byproducts. At a minimum, such report shall identify actions that would increase the utilization of coal combustion byproducts in—

(A) bridge and highway construction;

(B) stabilizing wastes;

(C) procurement by departments and agencies of the Federal Governments and State and local governments; and

(D) federally funded or federally subsidized procurement by the private sector.

(1) a technical and economic feasibility assessment of such technologies;

(2) projected developments in such technologies;

(3) an assessment of the market potential of such technologies, including the potential to displace imported crude oil and refined petroleum products;

(4) identification of barriers to commercialization of such technologies; and

(5) recommendations for addressing barriers to commercialization.

CHANGE OF NAME

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2. The Congress, Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

§ 13366. National clearinghouse

(a) Feasibility

(1) The Secretary shall assess the feasibility of establishing a national clearinghouse for the exchange and dissemination of technical information on technology relating to coal and coal-derived fuels.

(2) In assessing the feasibility, the Secretary shall consider whether such a clearinghouse would be appropriate for purposes of—

(A) collecting information and data on technology relating to coal, and coal-derived fuels, which can be utilized to improve environmental quality and increase energy independence;

(B) disseminating to appropriate individuals, governmental departments, agencies, and instrumentalities, institutions of higher education, and other entities, information and data collected pursuant to this section;

(C) maintaining a library of technology publications and treatises relating to technology information and data collected pursuant to this section;

(D) organizing and conducting seminars for government officials, utilities, coal companies, and other entities or institutions relating to technology using coal and coal-derived fuels that will improve environmental quality and increase energy independence;

(1) See References in Text note below.
§ 13367. Coal exports

(a) the Secretary may establish a clearinghouse;

(b) Authority to establish clearinghouse

Based upon the assessment under subsection (a), the Secretary may establish a clearinghouse.

§ 13368. Ownership of coalbed methane

(a) Federal lands and mineral rights

In the case of any deposit of coalbed methane where the United States is the owner of the surface estate or where the United States has transferred the surface estate but reserved the subsurface mineral estate, the Secretary of the Interior shall administer this section. This section and the definitions contained herein shall be applicable only on lands within Affected States.

(b) Affected States

Not later than 180 days after October 24, 1992, the Secretary of the Interior, with the participation of the Secretary of Energy, shall publish in the Federal Register a list of Affected States which shall be comprised of States—

(1) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that disputes, uncertainty, or litigation exist, regarding the ownership of coalbed methane gas;

(2) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that development of significant deposits of coalbed methane gas is being impeded by such existing disputes, uncertainty, or litigation regarding ownership of such coalbed methane;

(3) which do not have in effect a statutory or regulatory procedure or existing case law permitting and encouraging the development of coalbed methane gas within that State; and

(4) which do not have extensive development of coalbed methane gas.

The Secretary of the Interior, with the participation of the Secretary of Energy, shall revise such list of Affected States from time to time.

Any Affected State shall be deleted from the list of Affected States upon the receipt by the Secretary of the Interior of a Governor’s petition requesting such deletion, a State law requesting such deletion, or a resolution requesting such deletion enacted by the legislative body of the State. A Governor intending to petition the Secretary of the Interior to delete a State from the list of Affected States shall provide the State’s legislative body with 6 months notice of such petition during a legislative session. At the end of such 6-month period, the Governor may petition the Secretary of the Interior to delete a State from the list of Affected States, unless during such 6-month period, the State’s legislative body has enacted a law or resolution disapproving the Governor’s petition. Until the Secretary of the Interior, with the participation of the Secretary of Energy, publishes a different list, the States of West Virginia, Pennsylvania, Kentucky, Ohio, Tennessee, Indiana, and Illinois shall be the Affected States, effective on October 24, 1992. The States of Colorado, Montana, New Mexico, Wyoming, Utah, Virginia, Washington, Mississippi, Louisiana, and Alabama shall not be included on the Secretary of the Interior’s list of Affected States or any extension or revision thereof.

(c) Failure to adopt statutory or regulatory procedure

If an Affected State has not placed in effect, by statute or by regulation, a substantial pro-
gram promoting the permitting, drilling and production of coalbed methane wells (including pooling arrangements) within that State within 3 years after becoming an Affected State, the Secretary of the Interior, with the participation of the Secretary of Energy, shall administer this section and shall promulgate such regulations as are necessary to carry out this section in that State.

(d) Implementation by Secretary of the Interior

In implementing this section, the Secretary of the Interior, with the participation of the Secretary of Energy, shall—

(A) consider existing and future coal mining plans,

(B) preserve the mineability of coal seams, and

(C) provide for the prevention of waste and maximization of recovery of coal and coalbed methane gas in a manner which will protect the rights of all entities owning an interest in such coalbed methane resource.

(e) Spacing

Except where State law in an Affected State contains existing spacing requirements regarding the minimum distance between coalbed methane wells and the minimum distance of a coalbed methane well from a property line, the Secretary of the Interior shall establish such requirements within 90 days after the assertion of jurisdiction pursuant to subsection (c) of this section.

(f) Spacing units

Applications to establish spacing units for the drilling and operation of coalbed methane gas wells may be filed by any entity claiming a coalbed methane ownership interest within a proposed spacing unit. Upon receipt and approval of an application, the Secretary of the Interior shall issue an order establishing the boundaries of the coalbed methane spacing unit. Spacing units shall generally be uniform in size.

(g) Development under pooling arrangement

Following issuance of an order establishing a spacing unit under subsection (f), and pursuant to an application for pooling filed by the entity claiming a coalbed methane ownership interest and proposing to drill a coalbed methane gas well, the Secretary of the Interior shall hold a hearing to consider the application for pooling and shall, if the criteria of this section are met, issue an order allowing the proposed pooling of acreage within the designated spacing unit for purposes of drilling and production of coalbed methane from the spacing unit. The pooling order shall not be issued before notice or a reason-able and diligent effort to provide notice has been made to each entity which may claim an ownership interest in the coalbed methane gas within such spacing unit and each such entity has been offered an opportunity to appear before the Secretary of the Interior at the hearing. Upon issuance of a pooling order, each owner or claimant of an ownership interest shall be allowed to make one of the following elections:

(1) An election to sell or lease its coalbed methane ownership interest to the unit operator at a rate determined by the Secretary of the Interior as set forth in the pooling order.

(2) An election to become a participating working interest owner by bearing a share of the risks and costs of drilling, completing, equipping, gathering, operating (including all disposal costs), plugging and abandoning the well, and receiving a share of production from the well.

(3) An election to share in the operation of the well as a nonparticipating working interest owner by relinquishing its working interest to participating working interest owners until the proceeds allocable to its share equal 300 percent of the share of such costs allocable to its interest. Thereafter, the nonparticipating working interest owner shall become a participating working interest owner.

The pooling order shall designate a unit operator who shall be authorized to drill and operate the spacing unit. The pooling order shall provide that any entity claiming an ownership interest in the coalbed methane within such spacing unit which does not make an election under the pooling order shall be deemed to have leased its coalbed methane interest to the unit operator under such terms and conditions as the pooling order may provide. No pooling order may be issued under this paragraph for any spacing unit if all entities claiming an ownership interest in the coalbed methane in the spacing unit have entered into a voluntary agreement providing for the drilling and operation of the coalbed methane gas well for the spacing unit.

(h) Escrow account

(1) Each pooling order issued under subsection (g) shall provide for the establishment of an escrow account into which the payment of costs and proceeds attributable to the conflicting interests shall be deposited and held for the interest of the claimants as follows:

(A) Each participating working interest owner, except for the unit operator, shall deposit in the escrow account its proportionate share of the costs allocable to the ownership interest claimed by each such participating working interest owner as set forth in the pooling order issued by the Secretary of the Interior.

(B) The unit operator shall deposit in the escrow account all proceeds attributable to the conflicting interests of lessees, plus all proceeds in excess of ongoing operational expenses (including reasonable overhead costs) attributable to conflicting working interests.

(2) The Secretary of the Interior shall order payment of principal and accrued interest from the escrow account to all legally entitled enti-ties within 30 days of receipt by the Secretary of the Interior of notification of the final legal determination of entitlement or upon agreement of all entities claiming an ownership interest in the coalbed methane gas. Upon such final determination—

(A) each legally entitled participating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest;

(B) each legally entitled nonparticipating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest.
the conflicting ownership interest, less the cost of being carried as a nonparticipating working interest owner (as determined by the election of the entity under the applicable pooling order); and

(2) if an entity leasing (or deemed to have leased) its coalbed methane ownership interest to the unit operator shall receive a share of the royalty proceeds (as set out in the applicable pooling order) attributable to the conflicting interests of lessees; and

(D) the unit operator shall receive the costs contributed to the escrow account by each legally entitled participating working interest owner.

The Secretary of the Interior shall enact rules and regulations for the administration and protection of funds delivered to the escrow accounts.

(i) Approval of Secretary of the Interior

No entity may drill any well for the production of coalbed methane gas from a coal seam, subject to the provisions of subsection (g), in an Affected State unless the drilling of such well has been approved by the Secretary of the Interior.

(j) Authorization to stimulate coal seam

(1) No operator of a coalbed methane well may stimulate a coal seam without the written consent of each entity which, at the time that the coalbed methane operator applies for a drilling permit, is operating a coal mine, or has by virtue of his property rights in the coal the ability to operate a coal mine, located within a horizontal or vertical distance from the point of stimulation as established by the Secretary of the Interior pursuant to paragraph (3) of this subsection. In seeking the coal operator's consent, a coalbed methane well operator shall provide the coal operator with necessary information about such stimulation, including relevant information to ensure compliance with coal mine safety laws and rules.

(2) In the absence of a written consent pursuant to paragraph (1) and at the request of a coalbed methane operator, the Secretary of the Interior shall make a determination regarding stimulation of a coal seam. Such request shall include an affidavit which shall—

(A) state that an entity from which consent is required pursuant to paragraph (1) has refused to provide written consent;

(B) set forth in detail the efforts undertaken by the applicant to obtain such written consent;

(C) state the known reasons for the consent not being provided;

(D) set forth the conditions and compensation, if any, offered by the applicant as part of the efforts to obtain consent; and

(E) provide prima facie evidence that the method of stimulation proposed by the coalbed methane operator will not (i) cause unreasonable loss or damage to the coal seam considering all factors, including the prospect, taking into consideration the economics of the coal industry, that coal seams for which no actual or proposed mining plans exist will be mined at some future date, or (ii) violate mine safety requirements. If a denial of consent by a coal operator is based on reasons related to safety, the Secretary of the Interior shall seek the views and recommendations of the appropriate State or Federal coal mine safety agency. Any determination by the Secretary of the Interior shall be in accordance with all applicable Federal and State coal mine safety laws and such views and recommendations. A determination by the Secretary of the Interior approving a method of stimulation may include reasonable conditions including, but not limited to, conditions to mitigate, to the extent practicable, economic damage to the coal seam. Any determination approving or denying a method of stimulation by the Secretary of the Interior shall be subject to appeal. Interested entities shall be allowed to participate in and comment on proceedings under this paragraph.

(3) The Secretary of the Interior shall by rule establish, for an Affected State, a region thereof, or a multi-State region comprised of Affected States, the boundaries within which a coalbed methane operator shall be required to obtain written consent from a coal operator pursuant to paragraph (1). Such boundaries shall be stated in terms of a horizontal and a vertical distance from the point of stimulation and shall be determined based on an evaluation of the maximum length, height and depth of fracture producible in a coal seam in such Affected State, region thereof, or multi-State region comprised of Affected States.

(4) The consent required under this subsection shall in no way be deemed to impair, abridge, or affect any contractual rights or objections arising out of a coalbed methane gas contract or coalbed methane gas lease in existence as of October 24, 1992, between the coalbed methane operator and the coal operator, and the existence of such lease or contractual agreement and any extensions or renewals of such lease shall be deemed to fully meet the requirements of this section.

(5) Nothing in this subsection precludes either a coal operator or a coalbed methane operator from seeking in the appropriate State forum compensation for the consequences of a determination by the Secretary of the Interior pursuant to paragraph (2).

(k) Notice and objection

(1) The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless the unit operator has notified each entity which is operating, or has the ability, by virtue of his property rights in the coal, to operate, a coal mine in any portion of the coalbed that would be affected by such well within the distances established pursuant to the rules promulgated under subsection (j)(3). Any notified entity may object to the drilling of such well within 30 days after receipt of a notice. Upon receipt of a timely objection to the drilling of any coalbed methane gas well submitted by a notified entity, the Secretary of the Interior may refuse to approve the drilling of the well based on any of the following:

1 See Codification note below.
(A) The proposed activity, due to its proximity to any coal mine opening, shaft, underground workings, or to any proposed extension of the coal mine, would adversely affect any operating, inactive or abandoned coal mine, including any coal mine already surveyed and platted but not yet being operated.

(B) The proposed activity would not conform with a coal operator’s development plan for an existing or proposed operation.

(C) There would be an unreasonable interference from the proposed activity with present or future coal mining operations, including the ability to comply with other applicable laws and regulations.

(D) The presence of evidence indicating that the proposed drilling activities would be unsafe, taking into consideration the dangers from creeps, squeezes or other disturbances due to the extraction of coal.

(E) The proposed activity would unreasonably interfere with the safe recovery of coal, oil and gas.

(2) In the event the Secretary of the Interior does not approve the drilling of a coalbed methane well pursuant to paragraph (1), the Secretary shall establish the conditions under which the drilling could be approved if the unit operator modifies the proposed activities to take into account any of the following:

(A) The proposed activity could instead be reasonably done through an existing or planned pillar of coal, or in close proximity to an existing well or such pillar of coal, taking into consideration surface topography.

(B) The proposed activity could instead be moved to a mined-out area, below the coal outcrop or to some other feasible area.

(C) The unit operator agrees to a drilling moratorium of not more than two years in order to permit completion of coal mining operations.

(D) The practicality of locating the proposed spacing unit or well on a uniform pattern with other spacing units or wells.

(l) Plugging

All coalbed methane wells drilled after October 24, 1992, that penetrate coal seams with remaining reserves shall provide for subsequent safe mining through the well in accordance with standards prescribed by the Secretary of the Interior, in consultation with any Federal and State agencies having authority over coal mine safety. Well plugging costs should be allocated in accordance with State law or private contractual arrangement, as the case may be.

(m) Notice and objection by other parties

The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless such well complies with the spacing and other requirements established by the Secretary of the Interior and each of the following:

(1) The unit operator of such well has notified, or has made a reasonable and diligent effort to notify, all entities claiming ownership of coalbed methane to be drained by such well and provided an opportunity to object in accordance with requirements established by the Secretary of the Interior.

(2) Where conflicting interests exist, an order under subsection (g) establishing pooling requirements has been issued.

The notification requirements of this subsection shall be additional to the notification referred to in subsection (k). The Secretary of the Interior shall establish the conditions under which entities claiming ownership of coalbed methane may object to the drilling of a coalbed methane well.

(n) Venting for safety

Nothing in this section shall be construed to prevent or inhibit the entity which has the right to develop and mine coal in any mine from venting coalbed methane gas to ensure safe mine operations.

(o) Other laws

The Secretary of the Interior shall comply with all applicable Federal and State coal mine safety laws and regulations.

(p) Definitions

As used in this section—

(1) The term “Affected State” means a State listed by the Secretary of the Interior, with the participation of the Secretary of Energy, under subsection (b).

(2) The term “coalbed methane gas” means occluded natural gas produced (or which may be produced) from coalbeds and rock strata associated therewith.

(3) The term “unit operator” means the entity designated in a pooling order to develop a spacing unit by the drilling of one or more wells on the unit.

(4) The term “nonparticipating working interest owner” means a gas or oil owner of a tract included in a spacing unit which elects to share in the operation of the well on a carried basis by agreeing to have its proportionate share of the costs allocable to its interest charged against its share of production of the well in accordance with subsection (f)(3).

(5) The term “participating working interest owner” means a gas or oil owner which elects to bear a share of the risks and costs of drilling, completing, equipping, gathering, operating (including any and all disposal costs), plugging, and abandoning a well on a spacing unit and to receive a share of production from the well equal to the proportion which the acreage in the spacing unit it owns or holds under lease bears to the total acreage of the spacing unit.

(6) The term “coal seam” means any stratum of coal 20 inches or more in thickness, unless a stratum of less thickness is being commercially worked, or can in the judgment of the Secretary of the Interior foreseeably be commercially worked and will require protection if wells are being drilled through it.

(7) The term “coal mine” means any mine from which coal is being or has been commercially worked, or can in the judgment of the Secretary of the Interior foreseeably be commercially worked.

CODIFICATION

October 24, 1992, referred to in subsec. (j)(4), was in the original “the effective date of this section”, which

So in original. Probably should be followed by a comma.

So in original. Probably should be “foreseeably”.

was translated as meaning the date of enactment of Pub. L. 102–486, which enacted this section.

FEDERAL COALBED METHANE REGULATION

Pub. L. 109–58, title III, § 387, Aug. 8, 2005, 119 Stat. 744, provided that: “Any State currently on the list of Affected States established under section 1339(b) of the Energy Policy Act of 1992 (42 U.S.C. 13368(b)) shall be removed from the list if, not later than 3 years after the date of enactment of this Act (Aug. 7, 2005), the State takes, or prior to the date of enactment has taken, any of the actions required for removal from the list under such section 1339(b).”

§ 13369. Establishment of data base and study of transportation rates

(a) Data base

The Secretary shall review the information currently collected by the Federal Government and shall determine whether information on transportation rates for rail and pipeline transport of domestic coal, oil, and gas during the period of January 1, 1988, through December 31, 1997, is reasonably available. If he determines that such information is not reasonably available, the Secretary shall establish a data base containing, to the maximum extent practicable, information on all such rates. The confidentiality of contract rates shall be preserved. To obtain data pertaining to rail contract rates, the Secretary shall acquire such data in aggregate form only from the Surface Transportation Board, under terms and conditions that maintain the confidentiality of such rates.

(b) Study

The Energy Information Administration shall determine the extent to which any agency of the Federal Government is studying the rates and distribution patterns of domestic coal, oil, and gas to determine the impact of the Clean Air Act [42 U.S.C. 7401 et seq.] as amended by the Act entitled “An Act to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes,” enacted November 15, 1990 (Public Law 101–549, Nov. 15, 1990, 104 Stat. 2999, popularly known as the Clean Air Act Amendments of 1990. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

An Act to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes, referred to in subsec. (b), is Pub. L. 101–549, Nov. 15, 1990, 104 Stat. 2999, popularly known as the Clean Air Act Amendments of 1990. For complete classification of this Act to the Code, see Short Title of 1990 Amendment note set out under section 7401 of this title and Tables.

§ 13370. Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this part, other than section 13362, of this title, such sums as may be necessary for fiscal years 1993 through 1998.

REFERENCES IN TEXT

Section 13392 of this title, referred to in text, was in the original “section 1322” and was translated as reading “section 1332” meaning section 1332 of Pub. L. 102–486, to reflect the probable intent of Congress, because Pub. L. 102–486 does not contain a section 1322.

SUBCHAPTER VII—GLOBAL CLIMATE CHANGE

§ 13381. Report

Not later than 2 years after October 24, 1992, the Secretary shall submit a report to the Congress that includes an assessment of—

(1) the feasibility and economic, energy, social, environmental, and competitive implications, including implications for jobs, of stabilizing the generation of greenhouse gases in the United States by the year 2005;

(2) the recommendations made in chapter 9 of the 1991 National Academy of Sciences report entitled “Policy Implications of Groen-

1 See References in Text note below.
§ 13382. Least-cost energy strategy

(a) Strategy

The first National Energy Policy Plan (in this subchapter referred to as the “Plan”) under section 7321 of this title and relevant Federal, State, and local requirements. Such strategy shall be designed to achieve a 20 percent reduction from 1988 levels in the generation of carbon dioxide by the year 2005 as recommended by the 1988 Toronto Scientific World Conference on the Changing Atmosphere;

(6) the potential economic, energy, social, environmental, and competitive implications, including implications for jobs, of implementing the policies necessary to enable the United States to comply with any obligations under the United Nations Framework Convention on Climate Change or subsequent international agreements.

§ 13382. Least-cost energy strategy

(a) Strategy

The first National Energy Policy Plan (in this subchapter referred to as the “Plan”) under section 7321 of this title and required to be submitted by the President to Congress after February 1, 1993, and each subsequent such Plan, shall include a least-cost energy strategy prepared by the Secretary. In developing the least-cost energy strategy, the Secretary shall take into consideration the economic, energy, social, environmental, and competitive costs and benefits, including costs and benefits for jobs, of his choices. Such strategy shall also take into account the report required under section 13381 of this title and relevant Federal, State, and local requirements. Such strategy shall be designed to achieve to the maximum extent practicable and at least-cost to the Nation—

(1) the energy production, utilization, and energy conservation priorities of subsection (d);

(2) the stabilization and eventual reduction in the generation of greenhouse gases;

(3) an increase in the efficiency of the Nation’s total energy use by 30 percent over 1988 levels by the year 2010;

(4) an increase in the percentage of energy derived from renewable resources by 75 percent over 1988 levels by the year 2005; and

(5) a reduction in the Nation’s oil consumption from the 1990 level of approximately 40 percent of total energy use to 35 percent by the year 2005.

(b) Additional contents

The least-cost energy strategy shall also include—

(1) a comprehensive inventory of available energy and energy efficiency resources and their projected costs, taking into account all costs of production, transportation, distribution, and utilization of such resources, including—

(A) coal, clean coal technologies, coal seam methane, and underground coal gasification;

(B) energy efficiency, including existing technologies for increased efficiency in production, transportation, distribution, and utilization of energy, and other technologies that are anticipated to be available through further research and development; and

(C) other energy resources, such as renewable energy, solar energy, nuclear fission, fusion, geothermal, biomass, fuel cells, hydropower, and natural gas;

(2) a proposed two-year program for ensuring adequate supplies of the energy and energy efficiency resources and technologies described in paragraph (1), and an identification of administrative actions that can be undertaken within existing Federal authority to ensure their adequate supply;

(3) estimates of life-cycle costs for existing energy production facilities;

(4) basecase forecasts of short-term and long-term national energy needs under low and high case assumptions of economic growth; and

(5) an identification of all applicable Federal authorities needed to achieve the purposes of this section, and of any inadequacies in those authorities.

(c) Secretarial consideration

In developing the least-cost energy strategy, the Secretary shall give full consideration to—

(1) the relative costs of each energy and energy efficiency resource based upon a comparison of all direct and quantifiable net costs for the resource over its available life, including the cost of production, transportation, distribution, utilization, waste management, environmental compliance, and, in the case of imported energy resources, maintaining access to foreign sources of supply; and

(2) the economic, energy, social, environmental, and competitive consequences resulting from the establishment of any particular order of Federal priority as determined under subsection (d).

(d) Priorities

The least-cost energy strategy shall identify Federal priorities, including policies that—

(1) implement standards for more efficient use of fossil fuels;

(2) increase the energy efficiency of existing technologies;

(3) encourage technologies, including clean coal technologies, that generate lower levels of greenhouse gases;

(4) promote the use of renewable energy resources, including solar, geothermal, sustainable biomass, hydropower, and wind power;

(5) affect the development and consumption of energy and energy efficiency resources and electricity through tax policy;

(6) encourage investment in energy efficient equipment and technologies; and

(7) encourage the development of energy technologies, such as advanced nuclear fission and nuclear fusion, that produce energy without greenhouse gases as a byproduct, and en-
encourage the deployment of nuclear electric generating capacity.

(e) Assumptions
The Secretary shall include in the least-cost energy strategy an identification of all of the assumptions used in developing the strategy and priorities thereunder, and the reasons for such assumptions.

(f) Preference
When comparing an energy efficiency resource to an energy resource, a higher priority shall be assigned to the energy efficiency resource whenever all direct and quantifiable net costs for the resource over its available life are equal to the estimated cost of the energy resource.

(g) Public review and comment
The Secretary shall provide for a period of public review and comment of the least-cost energy strategy, for a period of at least 30 days, to be completed at least 60 days before the issuance of such strategy. The Secretary shall also provide for public review and comment before the issuance of any update to the least-cost energy strategy required under this section.

References in Text
This subchapter, referred to in subsec. (a), was in the original "this title" meaning title XVI of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2999, which enacted this subchapter and repealed sections 7361 to 7364 of this title.

§13383. Director of Climate Protection
Within 6 months after October 24, 1992, the Secretary shall establish, within the Department of Energy, a Director of Climate Protection (in this section referred to as the "Director"). The Director shall—

(1) in the absence of the Secretary, serve as the Secretary’s representative for interagency and multinational policy discussions of global climate change, including the activities of the Committee on Earth and Environmental Sciences as established by the Global Change Research Act of 1990 (Public Law 101–606) [15 U.S.C. 2921 et seq.] and the Policy Coordinating Committee Working Group on Climate Change;

(2) monitor, in cooperation with other Federal agencies, domestic and international policies for their effects on the generation of greenhouse gases; and

(3) have the authority to participate in the planning activities of relevant Department of Energy programs.

References in Text

§13384. Assessment of alternative policy mechanisms for addressing greenhouse gas emissions
Not later than 18 months after October 24, 1992, the Secretary shall transmit a report to Congress containing a comparative assessment of alternative policy mechanisms for reducing the generation of greenhouse gases. Such assessment shall include a short-run and long-run analysis of the social, economic, energy, environmental, competitive, and agricultural costs and benefits, including costs and benefits for jobs and competition, and the practicality of each of the following policy mechanisms:

(1) Various systems for controlling the generation of greenhouse gases, including caps for the generation of greenhouse gases from major sources and emissions trading programs.

(2) Federal standards for energy efficiency for major sources of greenhouse gases, including efficiency standards for power plants, industrial processes, automobile fuel economy, appliances, and buildings, and for emissions of methane.

(3) Various Federal and voluntary incentives programs.

§13385. National inventory and voluntary reporting of greenhouse gases

(a) National inventory
Not later than one year after October 24, 1992, the Secretary, through the Energy Information Administration, shall develop, based on data available to, and obtained by, the Energy Information Administration, an inventory of the national aggregate emissions of each greenhouse gas for each calendar year of the baseline period of 1987 through 1990. The Administrator of the Energy Information Administration shall annually update and analyze such inventory using available data. This subsection does not provide any new data collection authority.

(b) Voluntary reporting
(1) Issuance of guidelines
Not later than 18 months after October 24, 1992, the Secretary shall, after opportunity for public comment, issue guidelines for the voluntary collection and reporting of information on sources of greenhouse gases. Such guidelines shall establish procedures for the accurate voluntary reporting of information on—

(A) greenhouse gas emissions—

(i) for the baseline period of 1987 through 1990; and

(ii) for subsequent calendar years on an annual basis;

(B) annual reductions of greenhouse gas emissions and carbon fixation achieved through any measures, including fuel switching, forest management practices, tree planting, use of renewable energy, manufacture or use of vehicles with reduced greenhouse gas emissions, appliance efficiency, energy efficiency, methane recovery, cogeneration, chlorofluorocarbon capture and replacement, and power plant heat rate improvement;

References in Text
This subchapter, referred to in subsec. (a), was in the original "this title" meaning title XVI of Pub. L. 101–606, Nov. 16, 1990, 104 Stat. 3906, which is classified generally to chapter 56A (§2921 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 2921 of Title 15 and Tables.
§ 13386. Export of domestic energy resource technologies to developing countries

The Secretary, through the Trade Promotion Coordinating Council, shall develop policies and programs to encourage the export and promotion of domestic energy resource technologies, including renewable energy, energy efficiency, and clean coal technologies, to developing countries.

§ 13387. Innovative environmental technology transfer program

(a) Establishment of program

The Secretary, through the Agency for International Development, and in consultation with the interagency working group established under section 6276(d) of this title (in this section referred to as the “interagency working group”), shall establish a technology transfer program to carry out the purposes described in subsection (b).

(b) Within 150 days after October 24, 1992, the Secretary and the Administrator of the Agency for International Development shall enter into a written agreement to carry out this section. The agreement shall establish a procedure for resolving any disputes between the Secretary and the Administrator regarding the implementation of specific projects. With respect to countries not assisted by the Agency for International Development, the Secretary may enter into agreements with other appropriate Federal agencies. If the Secretary and the Administrator, or the Secretary and an agency described in the previous sentence, are unable to reach an agreement, each shall send a memorandum to the President outlining an appropriate agreement. Within 90 days after receipt of either memorandum, the President shall determine which version of the agreement shall be in effect. Any agreement entered into under this subsection shall be provided to the appropriate committees of the Congress and made available to the public.

(b) Purposes of program

The purposes of the technology transfer program under this section are to—

(1) reduce the United States balance of trade deficit through the export of United States energy technologies and technological expertise;

(2) retain and create manufacturing and related service jobs in the United States;

(3) encourage the export of United States technologies, including services related thereto, to those countries that have a need for developmentally sound facilities to provide energy derived from technologies that substantially reduce environmental pollutants, including greenhouse gases;

(4) develop markets for United States technologies, including services related thereto, that substantially reduce environmental pollutants, including greenhouse gases, that meet the energy and environmental requirements of foreign countries;

(5) better ensure that United States participation in energy-related projects in foreign countries includes participation by United States firms as well as utilization of United States technologies;

(6) ensure the introduction of United States firms and expertise in foreign countries;

(7) provide financial assistance by the Federal Government to foster greater participation by United States firms in the financing, ownership, design, construction, or operation of technologies or services that substantially reduce environmental pollutants, including greenhouse gases; and

(8) assist United States firms, especially firms that are in competition with firms in foreign countries, to obtain opportunities to transfer technologies to, or undertake projects in, foreign countries.

(c) Identification

Pursuant to the agreements required by subsection (a), the Secretary, through the Agency for International Development, and after consultation with the interagency working group, United States firms, and representatives from foreign countries, shall develop mechanisms to

(C) reductions in greenhouse gas emissions achieved as a result of—

(i) voluntary reductions;

(ii) plant or facility closings; and

(iii) State or Federal requirements; and

(D) an aggregate calculation of greenhouse gas emissions by each reporting entity.

Such guidelines shall also establish procedures for taking into account the differential radiative activity and atmospheric lifetimes of each greenhouse gas.

(2) Reporting procedures

The Administrator of the Energy Information Administration shall develop forms for voluntary reporting under the guidelines established under paragraph (1), and shall make such forms available to entities wishing to report such information. Persons reporting under this subsection shall certify the accuracy of the information reported.

(3) Confidentiality

Trade secret and commercial or financial information that is privileged or confidential shall be protected as provided in section 552(b)(4) of title 5.

(4) Establishment of data base

Not later than 18 months after October 24, 1992, the Secretary, through the Administrator of the Energy Information Administration, shall establish a data base comprised of information voluntarily reported under this subsection. Such information may be used by the reporting entity to demonstrate achieved reductions of greenhouse gases.

(c) Consultation

In carrying out this section, the Secretary shall consult, as appropriate, with the Administrator of the Environmental Protection Agency.

§ 13386. Export of domestic energy resource technologies to developing countries

The Secretary, through the Trade Promotion Coordinating Council, shall develop policies and programs to encourage the export and promotion of domestic energy resource technologies, including renewable energy, energy efficiency, and clean coal technologies, to developing countries.

§ 13387. Innovative environmental technology transfer program

(a) Establishment of program

The Secretary, through the Agency for International Development, and in consultation with the interagency working group established under section 6276(d) of this title (in this section referred to as the “interagency working group”), shall establish a technology transfer program to carry out the purposes described in subsection

1So in original. Probably should be preceded by a closing parenthesis.
identify potential energy projects in host countries that substantially reduce environmental pollutants, including greenhouse gases, and shall identify a list of such projects within 240 days after October 24, 1992, and periodically thereafter.

(d) Financial mechanisms

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall—
(A) establish appropriate financial mechanisms to increase the participation of United States firms in energy projects, and services related thereto, that substantially reduce environmental pollutants, including greenhouse gases in foreign countries;
(B) utilize available financial assistance authorized by this section to counterbalance assistance provided by foreign governments to non-United States firms; and
(C) provide financial assistance to support projects.

(2) The financial assistance authorized by this section may be—
(A) provided in combination with other forms of financial assistance, including non-Federal funding that may be available for the project; and
(B) utilized in conjunction with financial assistance programs available through other Federal agencies.

(3) United States obligations under the Arrangement on Guidelines for Officially Supported Export Credits established through the Organization for Economic Cooperation and Development shall be applicable to this section.

(e) Solicitations for project proposals

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, within one year after October 24, 1992, and subsequently as appropriate thereafter, shall solicit proposals from United States firms for the design, construction, testing, and operation of the project or projects identified under subsection (c) which propose to utilize a United States technology or service. Each solicitation under this section shall establish a closing date for receipt of proposals.

(2) The solicitation under this subsection shall, to the extent appropriate, be modeled after the RFP No. DE-PS01-90FE02271 Clean Coal Technology IV, as administered by the Department of Energy.

(3) Any solicitation made under this subsection shall include the following requirements:
(A) The United States firm that submits a proposal in response to the solicitation shall have an equity interest in the proposed project.
(B) The project shall utilize a United States technology, including services related thereto, that substantially reduce environmental pollutants, including greenhouse gases, in meeting the applicable energy and environmental requirements of the host country.
(C) Proposals for projects shall be submitted by and undertaken with a United States firm, although a joint venture or other teaming arrangement with a non-United States manufacturer or other non-United States entity is permissible.

(f) Assistance to United States firms

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the interagency working group, shall establish a procedure to provide financial assistance to United States firms under this section for a project identified under subsection (c) where solicitations for the project are being conducted by the host country or by a multilateral lending institution.

(g) Other program requirements

Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, and in consultation with the interagency working group, shall—
(1) establish eligibility criteria for countries that will host projects;
(2) periodically review the energy needs of such countries and export opportunities for United States firms for the development of projects in such countries;
(3) consult with government officials in host countries and, as appropriate, with representatives of utilities or other entities in host countries, to determine interest in and support for potential projects; and
(4) determine whether each project selected under this section is developmentally sound, as determined under the criteria developed by the Development Assistance Committee of the Organization for Economic Cooperation and Development.

(h) Eligible technologies

Not later than 6 months after October 24, 1992, the Secretary shall prepare a list of eligible technologies and services under this section. In preparing such a list, the Secretary shall consider fuel cell powerplants, aeroderivative gas turbines and catalytic combustion technologies for aeroderivative gas turbines, ocean thermal energy conversion technology, anaerobic digester and storage tanks, and other renewable energy and energy efficiency technologies.

(i) Selection of projects

(1) Pursuant to the agreements under subsection (a), the Secretary, through the Agency for International Development, shall, not later than 120 days after receipt of proposals in response to a solicitation under subsection (e), select one or more proposals under this section.

(2) In selecting a proposal under this section, the Secretary, through the Agency for International Development, shall consider—
(A) the ability of the United States firm, in cooperation with the host country, to undertake and complete the project;
(B) the degree to which the equipment to be included in the project is designed and manufactured in the United States;
(C) the long-term technical and competitive viability of the United States technology, and services related thereto, and the ability of the United States firm to compete in the development of additional energy projects using such
technology in the host country and in other foreign countries;
(D) the extent of technical and financial involvement of the host country in the project;
(E) the extent to which the proposed project meets the purposes of this section;
(F) the extent of technical, financial, management, and marketing capabilities of the participants in the project, and the commitment of the participants to completion of a successful project in a manner that will facilitate acceptance of the United States technology or service for future application; and
(G) such other criteria as may be appropriate.
(3) In selecting among proposed projects, the Secretary shall seek to ensure that, relative to otherwise comparable projects in the host country, a selected project will meet the following criteria:
(A) It will reduce environmental emissions, including greenhouse gases, to an extent greater than required by applicable provisions of law.
(B) It will be a more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.
(C) It will increase the overall efficiency of energy use.
Priority in selection shall be given to those projects which, in the judgment of the Secretary, best meet these criteria.
(j) United States-Asia Environmental Partnership
Activities carried out under this section shall be coordinated with the United States-Asia Environmental Partnership.
(k) Buy America
In carrying out this section, the Secretary, through the Agency for International Development, and pursuant to the agreements under subsection (a), shall ensure—
(1) the maximum percentage, but in no case less than 50 percent, of the cost of any equipment furnished in connection with a project authorized under this section shall be attributable to the manufactured United States components of such equipment; and
(2) the maximum participation of United States firms.
In determining whether the cost of United States components equals or exceeds 50 percent, the cost of assembly of such United States components in the host country shall not be considered a part of the cost of such United States component.
(l) Report to Congress
The Secretary and the Administrator of the Agency for International Development shall report annually to the Committee on Energy and Natural Resources of the Senate and the appropriate committees of the House of Representatives on the progress being made to introduce innovative energy technologies, and services related thereto, that substantially reduce environmental pollutants, including greenhouse gases, into foreign countries.
(m) Definitions
For purposes of this section—
(1) the term “host country” means a foreign country which is—
(A) the participant in or the site of the proposed innovative energy technology project; and
(B) either—
(i) classified as a country eligible to participate in development assistance programs of the Agency for International Development pursuant to applicable law or regulation; or
(ii) a developing country; and
(2) the term “developing country” includes, but is not limited to, countries in Central and Eastern Europe or in the independent states of the former Soviet Union.
(n) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out the program required by this section, $100,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998.
§ 13388. Global Climate Change Response Fund
(a) Establishment of Fund
The Secretary of the Treasury, in consultation with the Secretary of State, shall establish a Global Climate Change Response Fund to act as a mechanism for United States contributions to assist global efforts in mitigating and adapting to global climate change.
(b) Restrictions on deposits
No deposits shall be made to the Global Climate Change Response Fund until the United States has ratified the United Nations Framework Convention on Climate Change.
(c) Use of Fund
Moneys deposited into the Fund shall be used by the President, to the extent authorized and appropriated under section 2222 of title 22, solely for contributions to a financial mechanism negotiated pursuant to the United Nations Framework Convention on Climate Change, including all protocols or agreements related thereto.
(d) Authorization of appropriations
There are authorized to be appropriated for deposit in the Fund to carry out the purposes of this section, $50,000,000 for fiscal year 1994 and such sums as may be necessary for fiscal years 1995 and 1996.
§ 13389. Greenhouse gas intensity reducing strategies
(a) Definitions
In this section:
(1) Advisory Committee
The term “Advisory Committee” means the Climate Change Technology Advisory Committee established under subsection (f)(1).
(2) Carbon sequestration
The term “carbon sequestration” means the capture of carbon dioxide through terrestrial,
geological, biological, or other means, which prevents the release of carbon dioxide into the atmosphere.

(3) Committee
The term “Committee” means the Committee on Climate Change Technology established under subsection (b)(1).

(4) Developing country
The term “developing country” has the meaning given the term in section 13387(m) of this title.

(5) Greenhouse gas
The term “greenhouse gas” means—
(A) carbon dioxide;
(B) methane;
(C) nitrous oxide;
(D) hydrofluorocarbons;
(E) perfluorocarbons; and
(F) sulfur hexafluoride.

(6) Greenhouse gas intensity
The term “greenhouse gas intensity” means the ratio of greenhouse gas emissions to economic output.

(7) National Laboratory
The term “National Laboratory” has the meaning given the term in section 15801(3) of this title.

(b) Committee on Climate Change Technology
(1) In general
Not later than 180 days after August 8, 2005, the President shall establish a Committee on Climate Change Technology to—
(A) integrate current Federal climate reports; and
(B) coordinate Federal climate change technology activities and programs carried out in furtherance of the strategy developed under subsection (c)(1).

(2) Membership
The Committee shall be composed of at least 7 members, including—
(A) the Secretary, who shall chair the Committee;
(B) the Secretary of Commerce;
(C) the Chairman of the Council on Environmental Quality;
(D) the Secretary of Agriculture;
(E) the Administrator of the Environmental Protection Agency;
(F) the Secretary of Transportation;
(G) the Director of the Office of Science and Technology Policy; and
(H) other representatives as may be determined by the President.

(3) Staff
The members of the Committee shall provide such personnel as are necessary to enable the Committee to perform its duties.

(e) National climate change technology policy
(1) In general
Not later than 18 months after August 8, 2005, the Committee shall, based on applicable Federal climate reports, submit to the Secretary and the President a national strategy to promote the deployment and commercialization of greenhouse gas intensity reducing technologies and practices developed through research and development programs conducted by the National Laboratories, other Federal research facilities, institutions of higher education, and the private sector.

(2) Updates
The Committee shall—
(A) at the time of submission of the strategy to the President under paragraph (1), also make the strategy available to the public; and
(B) update the strategy every 5 years, or more frequently as the Committee determines to be necessary.

(d) Climate Change Technology Program
Not later than 180 days after the date on which the Committee is established under subsection (b)(1), the Secretary, in consultation with the Committee, shall establish within the Department of Energy the Climate Change Technology Program to—
(1) assist the Committee in the interagency coordination of climate change technology research, development, demonstration, and deployment to reduce greenhouse gas intensity; and
(2) carry out the programs authorized under this section.

(e) Technology inventory
(1) In general
The Secretary shall conduct and make public an inventory and evaluation of greenhouse gas intensity reducing technologies that have been developed, or are under development, by the National Laboratories, other Federal research facilities, institutions of higher education, and the private sector to determine which technologies are suitable for commercialization and deployment.

(2) Report
Not later than 180 days after the completion of the inventory under paragraph (1), the Secretary shall submit to Congress a report that includes the results of the completed inventory and any recommendations of the Secretary.

(3) Use
The Secretary shall use the results of the inventory as guidance in the commercialization and deployment of greenhouse gas intensity reducing technologies.

(4) Updated inventory
The Secretary shall—
(A) periodically update the inventory under paragraph (1), including when determined necessary by the Committee; and
(B) make the updated inventory available to the public.

(f) Climate Change Technology Advisory Committee
(1) In general
The Secretary, in consultation with the Committee, may establish under section 7234
§ 13389  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8080

of this title a Climate Change Technology Advisory Committee to identify statutory, regulatory, economic, and other barriers to the commercialization and deployment of greenhouse gas intensity reducing technologies and practices in the United States.

(2) Composition

The Advisory Committee shall be composed of the following members, to be appointed by the Secretary, in consultation with the Committee:

(A) 1 representative shall be appointed from each National Laboratory.

(B) 3 members shall be representatives of energy-producing trade organizations.

(C) 3 members shall represent energy-intensive trade organizations.

(D) 3 members shall represent groups that represent end-use energy and other consumers.

(E) 3 members shall be employees of the Federal Government who are experts in energy technology, intellectual property, and tax.

(F) 3 members shall be representatives of institutions of higher education with expertise in energy technology development that are recommended by the National Academy of Engineering.

(3) Report

Not later than 1 year after August 8, 2005, and annually thereafter, the Advisory Committee shall submit to the Committee a report that describes—

(A) the findings of the Advisory Committee; and

(B) any recommendations of the Advisory Committee for the removal or reduction of barriers to commercialization, deployment, and increasing the use of greenhouse gas intensity reducing technologies and practices.

(g) Greenhouse gas intensity reducing technology deployment

(1) In general

Based on the strategy developed under subsection (c)(1), the technology inventory conducted under subsection (e)(1), the greenhouse gas intensity reducing technology study report submitted under subsection (e)(2), and reports under subsection (f)(3), if any, the Committee shall develop recommendations that would provide for the removal of domestic barriers to the commercialization and deployment of greenhouse gas intensity reducing technologies and practices.

(2) Requirements

In developing the recommendations under paragraph (1), the Committee shall consider in the aggregate—

(A) the cost-effectiveness of the technology;

(B) fiscal and regulatory barriers;

(C) statutory and other barriers; and

(D) intellectual property issues.

(3) Demonstration projects

In developing recommendations under paragraph (1), the Committee may identify the need for climate change technology demonstration projects.

(4) Report

Not later than 18 months after August 8, 2005, the Committee shall submit to the President and Congress a report that—

(A) identifies, based on the report submitted under subsection (f)(3), any barriers to, and commercial risks associated with, the deployment of greenhouse gas intensity reducing technologies; and

(B) includes a plan for carrying out demonstration projects.

(5) Updates

The Committee shall—

(A) at the time of submission of the report to Congress under paragraph (4), also make the report available to the public; and

(B) update the report every 5 years, or more frequently as the Committee determines to be necessary.

(h) Procedures for calculating, monitoring, and analyzing greenhouse gas intensity

The Secretary, in collaboration with the Committee and the National Institute of Standards and Technology, and after public notice and opportunity for comment, shall develop standards and best practices for calculating, monitoring, and analyzing greenhouse gas intensity.

(i) Demonstration projects

(1) In general

The Secretary shall, subject to the availability of appropriations, support demonstration projects that—

(A) increase the reduction of the greenhouse gas intensity to levels below that which would be achieved by technologies being used in the United States as of August 8, 2005;

(B) maximize the potential return on Federal investment;

(C) demonstrate distinct roles in public-private partnerships;

(D) produce a large-scale reduction of greenhouse gas intensity if commercialization occurred; and

(E) support a diversified portfolio to mitigate the uncertainty associated with a single technology.

(2) Cost sharing

In supporting a demonstration project under this subsection, the Secretary shall require cost-sharing in accordance with section 16332 of this title.

(3) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this subsection.

(j) Cooperative research and development agreements

In carrying out greenhouse gas intensity reduction research and technology deployment activities under this subtitle, the Secretary may

2So in original. See References in Text note below.
enter into cooperative research and development agreements under section 3710a of title 15.

REFERENCES IN TEXT

Section 15801(3) of this title, referred to in subsec. (a)(7), was in the original “section 3(3) of the Energy Policy Act of 2005” and was translated as meaning section 2(3) of that Act to reflect the probable intent of Congress, because the Energy Policy Act of 2005 does not contain a section 3 and section 2(3) defines “National Laboratory”.

This subtitle, referred to in subsec. (j), appearing in the original, is unidentifiable because title XVI of Pub. L. 102–486, of which this section is a part, does not contain subtitles.

SUBCHAPTER VIII—REDUCTION OF OIL VULNERABILITY

§ 13401. Goals

It is the goal of the United States in carrying out energy supply and energy conservation research and development—

1) to strengthen national energy security by reducing dependence on imported oil;

2) to increase the efficiency of the economy by meeting future needs for energy services at the lowest total cost to the Nation, including environmental costs, giving comparable consideration to technologies that enhance energy supply and technologies that improve the efficiency of energy end uses;

3) to reduce the air, water, and other environmental impacts (including emissions of greenhouse gases) of energy production, distribution, transportation, and utilization, through the development of an environmentally sustainable energy system;

4) to maintain the technological competitiveness of the United States and stimulate economic growth through the development of advanced materials and technologies;

5) to foster international cooperation by developing international markets for domestically produced sustainable energy technologies, and by transferring environmentally sound, advanced energy systems and technologies to developing countries to promote sustainable development;

6) to consider the comparative environmental and public health impacts of the energy to be produced or saved by the specific activities;

7) to consider the obstacles inherent in private industry’s development of new energy technologies and steps necessary for establishing or maintaining technological leadership in the area of energy and energy efficiency resource technologies; and

8) to consider the contribution of a given activity to fundamental scientific knowledge.

PART A—OIL AND GAS SUPPLY ENHANCEMENT

§ 13411. Enhanced oil recovery

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on technologies to increase the recoverability of domestic oil resources to—

1) improve reservoir characterization;

2) improve analysis and field verification;

3) field test and demonstrate enhanced oil recovery processes, including advanced processes, in reservoirs the Secretary considers to be of high priority, ranked primarily on the basis of oil recovery potential and risk of abandonment;

4) transfer proven recovery technologies to producers and operators of wells, including stripper wells, that would otherwise be likely to be abandoned in the near term due to declining production;

5) improve enhanced oil recovery process technology for more economic and efficient oil production;

6) identify and develop new recovery technologies;

7) study reservoir properties and how they affect oil recovery from porous media;

8) improve techniques for meeting environmental requirements;

9) improve data bases of reservoir and environmental conditions; and

10) lower lifting costs on reservoir and environmental field operations for waste disposal and injection practices.

(b) Program goals

(1) Near-term priorities

The near-term priorities of the program include preserving access to high potential reservoirs, identifying available technologies that can extend the lifetime of wells and of stripper well property, and developing environmental field operations for waste disposal and injection practices.

(2) Mid-term priorities

The mid-term priorities of the program include developing and testing identified but unproven technologies, and transferring those technologies for widespread use.

(3) Long-term priorities

The long-term priorities of the program include developing advanced techniques to recover oil not recoverable by other techniques.

(c) Accelerated program plan

Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a plan for carrying out under this section the accelerated field testing of technologies to achieve the priorities stated in subsection (b). In preparing the plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies, and with the Advisory Board established under section 13522 of this title.

(d) Proposals

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

(e) Consultation

In carrying out the provisions of this section, the Secretary shall consult representatives of
the oil and gas industry with respect to innovative research and development proposals to improve oil and gas recovery and shall consider relevant technical data from industry and other research and information centers and institutes.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, including advanced extraction and process technology, $57,250,000 for fiscal year 1993 and $70,000,000 for fiscal year 1994.

§ 13412. Oil shale

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on oil shale extraction and conversion, including research and development on both eastern and western shales, as provided in this section.

(b) Program goals

The goals of the program established under this section include—

(1) supporting the development of economically competitive and environmentally acceptable technologies to produce domestic supplies of liquid fuels from oil shale;

(2) increasing knowledge of environmentally acceptable oil shale waste disposal technologies and practices;

(3) increasing knowledge of the chemistry and kinetics of oil shale retorting;

(4) increasing understanding of engineering issues concerning the design and scale-up of oil shale extraction and conversion technologies;

(5) improving techniques for oil shale mining systems; and

(6) providing for cooperation with universities and other private sector entities.

(c) Eastern oil shale program

(1) As part of the program authorized by this section, the Secretary shall carry out a program on oil shale that includes applied research, in cooperation with universities and the private sector, on eastern oil shale that may have the potential to decrease United States dependence on energy imports.

(2) As part of the program authorized by this subsection, the Secretary shall consider the potential benefits of including in that program applied research carried out in cooperation with universities and other private sector entities that are, as of October 24, 1992, engaged in research on eastern oil shale retorting and associated processes.

(3) The program carried out under this subsection shall be cost-shared with universities and the private sector to the maximum extent possible.

(d) Western oil shale program

As part of the program authorized by this section, the Secretary shall carry out a program on extracting oil from western oil shales that includes, if appropriate, establishment and utilization of at least one field testing center for the purpose of testing, evaluating, and developing improvements in oil shale technology at the field test level. In establishing such a center, the Secretary shall consider sites with existing oil shale mining and processing infrastructure and facilities. Sixty days prior to establishing any such field testing center, the Secretary shall submit a report to Congress on the center to be established.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $5,250,000 for fiscal year 1993 and $6,000,000 for fiscal year 1994.

§ 13413. Natural gas supply

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, to increase the recoverable natural gas resource base including, but not limited to—

(1) more intensive recovery of natural gas from discovered conventional resources;

(2) the extraction of natural gas from tight gas sands and devonian shales or other unconventional sources;

(3) surface gasification of coal; and

(4) recovery of methane from biofuels including municipal solid waste.

(b) Proposals

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

(c) Cofiring of natural gas and coal

(1) Program

The Secretary shall establish and carry out a 5-year program, in accordance with sections 13541 and 13542 of this title, on cofiring natural gas with coal in utility and large industrial boilers in order to determine optimal natural gas injection levels for both environmental and operational benefits.

(2) Financial assistance

The Secretary shall enter into agreements with, and provide financial assistance to, appropriate parties for application of cofiring technologies to boilers to demonstrate this technology.

(3) Report to Congress

The Secretary shall, before December 31, 1995, submit to the Congress a report on the progress made in carrying out this subsection.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section and sections 13414 and 13415 of this title, $23,745,000 for fiscal year 1993 and $45,000,000 for fiscal year 1994.

§ 13414. Natural gas end-use technologies

The Secretary shall carry out a 5-year program, in accordance with sections 13541 and
13452 of this title, on new and advanced natural gas utilization technologies including, but not limited to—

(1) stationary source emissions control and efficiency improvements including combustion systems, industrial processes, cogeneration, and waste fuels; and

(2) natural gas storage including increased deliverability from existing gas storage facilities and new capabilities for storage near demand centers, and on-site storage at major energy consuming facilities.

§ 13415. Midcontinent Energy Research Center
(a) Finding
Congress finds that petroleum resources in the midcontinent region of the United States are very large but are being prematurely abandoned.

(b) Purposes
The purposes of this section are to—

(1) improve the efficiency of petroleum recovery;

(2) increase ultimate petroleum recovery; and

(3) delay the abandonment of resources.

(c) Establishment
The Secretary may establish the Midcontinent Energy Research Center (referred to in this section as the “Center”) to—

(1) conduct research in petroleum geology and engineering focused on improving the recovery of petroleum from existing fields and established plays in the upper midcontinent region of the United States; and

(2) ensure that the results of the research described in paragraph (1) are transferred to users.

(d) Research
(1) In general
In conducting research under this section, the Center shall, to the extent practicable, cooperate with agencies of the Federal Government, the States in the midcontinent region of the United States, and the affected industry.

(2) Programs
Research programs conducted by the Center may include—

(A) data base development and transfer of technology;

(B) reservoir management;

(C) reservoir characterization;

(D) advanced recovery methods; and

(E) development of new technology.

PART B—OIL AND GAS DEMAND REDUCTION AND SUBSTITUTION
§ 13431. General transportation
(a) Program direction
The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on cost effective technologies to reduce the demand for oil in the transportation sector for all motor vehicles, including existing vehicles, through increased energy efficiency and the use of alternative fuels. Such program shall include a broad range of technological approaches, and shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic viability to meet the goals stated in section 13401 of this title. Such program shall include the activities required under sections 13432 through 13437 of this title, and ongoing activities of a similar nature at the Department of Energy.

(b) Program plan
Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide activities under this part. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, utilities, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies.

(c) Proposals
Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

(d) “Alternative fuels” defined
For purposes of this part, the term “alternative fuels” includes natural gas, liquefied petroleum gas, hydrogen, fuels other than alcohol that are derived from biological materials, and any fuel the content of which is at least 85 percent by volume methanol, ethanol, or other alcohol.

(e) Authorization of appropriations
(1) There are authorized to be appropriated to the Secretary for carrying out this part, including all transportation sector energy conservation research and development (other than activities under section 13435 of this title) and all transportation sector biofuels energy systems under solar energy, $119,144,000 for fiscal year 1993 and $160,000,000 for fiscal year 1994.

(2) There are authorized to be appropriated to the Secretary for carrying out section 13435 of this title—

(A) $60,300,000 for fiscal year 1993;

(B) $75,000,000 for fiscal year 1994;

(C) $80,000,000 for fiscal year 1995;

(D) $80,000,000 for fiscal year 1996;

(E) $90,000,000 for fiscal year 1997; and

(F) $100,000,000 for fiscal year 1998.

§ 13432. Advanced automotive fuel economy
(a) Program direction
The Secretary shall conduct a program, in accordance with sections 13541 and 13542 of this title, to supplement ongoing research activities of a similar nature at the Department of Energy, to accelerate the near-term and mid-term development of advanced technologies to improve the fuel economy of light-duty passenger vehicles powered by a piston engine, and hybrid vehicles powered by a combination of piston engine and electric motor.
§ 13433. Electric motor vehicles and associated equipment research and development

(a) General

The Secretary shall conduct, pursuant to the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901–5920), a research and development program on electric motor vehicles and associated equipment. Such program shall be conducted in cooperation with the electric utility industry, and automobile industry, battery manufacturers, and such other persons as the Secretary considers appropriate.

(b) Comprehensive plan

(1) The Secretary shall prepare a comprehensive 5-year program plan for carrying out the purposes of this section. Such comprehensive plan shall be updated biennially for a period of not less than 10 years after October 24, 1992.

(2) The comprehensive plan under paragraph (1) shall be prepared in consultation with the Administrator of the Environmental Protection Agency, the Secretary of Transportation, the Secretary of Commerce, the heads of other appropriate Federal agencies, representatives of the electric utility industry, electric motor vehicle manufacturers, the United States automobile industry, and such other persons as the Secretary considers appropriate.

(3) The comprehensive plan shall include—

(A) a prioritization of research areas critical to the commercialization of electric motor vehicles, including advanced battery technology;

(B) the program elements, management structure, and activities, including program responsibilities, of Federal agencies;

(C) the program strategies, including technical milestones to be achieved toward specific goals during each fiscal year of the comprehensive plan for all major activities and projects;

(D) the estimated costs of individual program elements, including estimated costs for each of the fiscal years of the comprehensive plan for each of the participating Federal agencies;

(E) a description of the methods of technology transfer;

(F) a proposal for participation by non-Federal entities in the implementation of the comprehensive plan; and

(G) such other information as the Secretary considers appropriate.

(4) Not later than 180 days after October 24, 1992, the Secretary shall transmit the comprehensive plan to the Congress. Biennial updates shall be submitted to the Congress.

(c) Cooperative agreements

The Secretary, consistent with the comprehensive plan under subsection (b), may enter

§ 13434. Biofuels user facility

(a) The Secretary shall establish a biofuels user facility to expedite industry adoption of biofuels technologies, including production of alcohol fuels from biomass.

(b) The Secretary, through such universities and colleges as the Secretary determines are qualified, shall establish a program, in accordance with sections 13541 and 13542 of this title, with respect to the production and use of diesel fuels from vegetable oils or animal fats. The program shall investigate—

(1) the economic feasibility of production of oilseed crops for biofuels purposes; and

(2) the establishment of a mobile small-scale oilseed pressing and esterification unit and a stationary small-scale commercial oilseed pressing and esterification unit.

§ 13435. Alternative fuel vehicle program

(a) Program direction

The Secretary shall carry out a program, in accordance with sections 13541 and 13542 of this title, on techniques related to improving natural gas and other alternative fuel vehicle technology, including—

(1) fuel injection;

(2) carburetion;

(3) manifolding;

(4) combustion;

(5) power optimization;

(6) efficiency;

(7) lubricants and detergents;

(8) engine durability;

(9) ignition, including fuel additives to assist ignition;

(10) multifuel engines;

(11) emissions control, including catalysts;

(12) novel gas compression concepts;

(13) advanced storage systems;

(14) advanced gaseous fueling technologies; and

(15) the incorporation of advanced materials in these areas.

(b) Cooperative agreements and assistance

The Secretary may enter into cooperative agreements with, and provide financial assistance to, public or private entities willing to provide 50 percent of the costs of a program to perform activities under subsection (a).

(c) Definitions

For purposes of this section—

(1) the term “alternative fuel vehicle” means a motor vehicle that operates on alternative fuels; and

(2) the term “motor vehicle” includes any automobile, truck, bus, van, or other on-road or off-road motor vehicle, including a boat.

§ 13434. Biofuels user facility

(a) The Secretary shall establish a biofuels user facility to expedite industry adoption of biofuels technologies, including production of alcohol fuels from biomass.

(b) The Secretary, through such universities and colleges as the Secretary determines are qualified, shall establish a program, in accordance with sections 13541 and 13542 of this title, with respect to the production and use of diesel fuels from vegetable oils or animal fats. The program shall investigate—

(1) the economic feasibility of production of oilseed crops for biofuels purposes; and

(2) the establishment of a mobile small-scale oilseed pressing and esterification unit and a stationary small-scale commercial oilseed pressing and esterification unit.

§ 13435. Alternative fuel vehicle program

(a) Program direction

The Secretary shall carry out a program, in accordance with sections 13541 and 13542 of this title, on techniques related to improving natural gas and other alternative fuel vehicle technology, including—

(1) fuel injection;

(2) carburetion;

(3) manifolding;

(4) combustion;

(5) power optimization;

(6) efficiency;

(7) lubricants and detergents;

(8) engine durability;

(9) ignition, including fuel additives to assist ignition;

(10) multifuel engines;

(11) emissions control, including catalysts;

(12) novel gas compression concepts;

(13) advanced storage systems;

(14) advanced gaseous fueling technologies; and

(15) the incorporation of advanced materials in these areas.

(b) Cooperative agreements and assistance

The Secretary may enter into cooperative agreements with, and provide financial assistance to, public or private entities willing to provide 50 percent of the costs of a program to perform activities under subsection (a).

(c) Definitions

For purposes of this section—

(1) the term “alternative fuel vehicle” means a motor vehicle that operates on alternative fuels; and

(2) the term “motor vehicle” includes any automobile, truck, bus, van, or other on-road or off-road motor vehicle, including a boat.

into cooperative agreements to conduct research and development projects with industry in such areas of technology development as—

(1) high efficiency electric power trains, including advanced motors, motor controllers, and hybrid power trains for electric motor vehicle range improvement;

(2) light-weight structures for electric motor vehicle weight reduction;

(3) advanced batteries with high energy density and power density, and improved range or recharging cycles for a given unit weight, for electric motor vehicle application;

(4) hybrid power trains incorporating an electric motor and recyclable battery charged by an onboard liquid fuel engine, designed to significantly improve fuel economies while maintaining acceleration characteristics comparable to a conventionally fueled vehicle;

(5) batteries and fuel cells for electric-hybrid vehicle application;

(6) fuel cells and fuel cell systems for primary electric motor vehicle power sources; and

(7) photovoltaics for use with electric motor vehicles.

(d) Solicitation of proposals

(1) Within one year after October 24, 1992, the Secretary shall solicit proposals for cooperative agreements for research and development under subsection (c).

(2) Thereafter, the Secretary may solicit additional proposals for cooperative agreements under subsection (c) if, in the judgment of the Secretary, such cooperative agreements could contribute to the development of electric motor vehicles and associated equipment.

(e) Cost-sharing

(1) The Secretary shall require at least 50 percent of the costs directly and specifically related to any cooperative agreement under this section, other than a cooperative agreement under subsection (j), to be from non-Federal sources. Such share may be in the form of cash, personnel, services, equipment, and other resources.

(2) The Secretary may reduce the amount of costs required to be provided by non-Federal sources under paragraph (1), if the Secretary determines that the reduction is necessary and appropriate—

(A) considering the technological risks involved in the project; and

(B) in order to meet the objectives of this section.

(f) Deployment

(1) The Secretary shall conduct a program designed to accelerate deployment of advanced battery technologies for use with electric motor vehicles.

(2) In carrying out the program authorized by this subsection, the Secretary shall—

(A) undertake an inventory and assessment of advanced battery technologies and electric motor vehicle technologies and the commercial capability of such technologies; and

(B) develop a Federal industry information exchange program to improve the deployment or use of such technologies, which may consist of workshops, publications, conferences, and a data base for use by the public and private sectors.

(g) Domestic parts manufacturers

In carrying out this section, the Secretary, in consultation with the Secretary of Commerce, shall issue regulations to ensure that the procurement practices of participating electric motor vehicle and associated equipment manufacturers do not discriminate against the United States manufacturers of vehicle parts.

(h) Hold harmless

Nothing in this section shall be construed to alter, affect, modify, or change any activities or agreements initiated prior to October 24, 1992, with domestic motor vehicle manufacturers through joint venture or consortium agreements regarding batteries for electric motor vehicles.

(i) Consultation

The Secretary shall consult with the Administrator of the Environmental Protection Agency and the Secretary of Transportation in carrying out this section.

(j) Fuel cells for transportation

(1) The Secretary shall develop and implement a comprehensive program of research, development, and demonstration of fuel cells and related systems for transportation applications through the establishment of one or more cooperative programs among industry, government, and research institutions to develop and demonstrate the use of fuel cells as the primary power source for private and mass transit vehicles and other mobile applications.

(2) Research, development, and demonstration activities under this subsection shall be designed to incorporate one or more of the following priorities:

(A) The potential for near-term to mid-term commercialization.

(B) The ability of the systems to use a variety of renewable and nonfossil fuels.

(C) Emission reduction and energy conservation potential.

(D) The potential to utilize fuel cells and fuel cell systems developed under Department of Defense and National Aeronautics and Space Administration programs.

(E) The potential to take maximum practical advantage of advances made in electric motor vehicle research, stationary source fuel cell research, and other research activities authorized by this subchapter.

(3)(A) Research, development, and demonstration projects selected by the Secretary under this subsection shall apply to—

(i) passenger vehicles;

(ii) vans and utility vehicles;

(iii) light rail systems and locomotives;

(iv) trucks, including long-haul trucks, dump trucks, and garbage trucks;

(v) passenger buses;

(vi) non-chlorofluorocarbon mobile refrigeration systems;

(vii) marine vessels, including recreational marine engines; or

(viii) mobile engines and power generation, including recreational generators, and industrial and construction equipment.
(B) The Secretary shall establish programs to undertake research, development, and demonstration activities for the applications listed in clauses (i) through (viii) of subparagraph (A) in each of fiscal years 1993, 1994, 1995, and 1996, based on the priorities established in paragraph (2), so that by the end of the period, research, development, and demonstration activities are under way for the applications under each such clause. The initiatives authorized and implemented pursuant to this subsection shall be in addition to any other fuel cell programs authorized in existing law.

(k) Definitions

For purposes of this section—

(1) the term “advanced battery technology” means electrochemical storage devices and systems, including fuel cells, and associated technology necessary to charge, discharge, recharge, or regenerate such devices, for use as a source of power for an electric motor vehicle and any other associated equipment;

(2) the term “associated equipment” means equipment necessary for the regeneration, refueling, or recharging of batteries or other forms of electric energy used to power an electric motor vehicle and, in the case of electric hybrid vehicles, such term includes nonpetroleum-related equipment necessary for, and solely related to, the demonstration of such vehicles;

(3) the term “electric motor vehicle” means a motor vehicle primarily powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, photovoltaic arrays, or other sources of electric current and may include an electric-hybrid vehicle; and

(4) the term “electric-hybrid vehicle” means vehicle primarily powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electric current and also relies on a non-electric source of power that also operates on or is capable of operating on a nonelectrical source of power.

REFERENCES IN TEXT

AMENDMENTS

Effectiv Date of Repeal

§ 13437. Advanced diesel emissions program

(a) Program direction

The Secretary shall initiate a 5-year program, in accordance with sections 13541 and 13542 of this title, on diesel engine combustion and engine systems, related advanced materials, and fuels and lubricants to reduce emissions oxides of nitrogen and particulates. Activities conducted under this program shall supplement activities of a similar nature at the Department of Energy. Such program shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic viability to meet the goal stated in subsection (b).

(b) Program goal

The goal of the program established under subsection (a) shall be to accelerate the ability of United States diesel manufacturers to meet current and future oxides of nitrogen and particulate emissions requirements.

(c) Program plan

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide the activities under this section. Such plan shall be included as part of the plan required by section 13431(b) of this title.

(d) Solicitation of proposals

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities consistent with the 5-year program plan.

§ 13438. Telecommuting study

(a) Study

The Secretary, in consultation with the Secretary of Transportation, shall conduct a study of the potential costs and benefits to the energy and transportation sectors of telecommuting. The study shall include—

(1) an estimation of the amount and type of reduction of commuting by form of transportation type and numbers of commuters;

(2) an estimation of the potential number of lives saved;

(3) an estimation of the reduction in environmental pollution, in consultation with the Environmental Protection Agency;

(4) an estimation of the amount and type of reduction of energy use and savings by form of transportation type; and

(5) an estimation of the social impact of widespread use of telecommuting.

(b) Report to Congress

This study shall be completed no more than one hundred and eighty days after October 24,
1992. A report, summarizing the results of the study, shall be transmitted to the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate no more than sixty days after completion of this study.

SUBCHAPTER IX—ENERGY AND ENVIRONMENT

PART A—IMPROVED ENERGY EFFICIENCY

§ 13451. General improved energy efficiency

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on cost effective technologies to improve energy efficiency and increase the use of renewable energy in the industrial, and utility sectors. Such program shall include a broad range of technological approaches, and shall include field demonstrations of sufficient scale and number to prove technical and economic viability to meet the goals stated in section 13401 of this title. Such program shall include the activities required under sections 13452, 13453, 13454, 13455, 13456, and 13457 of this title and section 2106 and ongoing activities of a similar nature at the Department of Energy. Such program shall also include the activities conducted pursuant to the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 (Public Law 100–680) [15 U.S.C. 5101 et seq.] and the Department of Energy Metal Casting Competitiveness Research Act of 1990 (Public Law 101–425) [15 U.S.C. 5301 et seq.].

(b) Program goals

The goals of the program established under subsection (a) shall include—

(1) in the buildings sector—

(A) to accelerate the development of technologies that will increase energy efficiency; and

(B) to increase the use of renewable energy; and

(C) to reduce environmental impacts;

(2) in the industrial sector—

(A) to accelerate the development of technologies that will increase energy efficiency in order to improve productivity;

(B) to increase the use of renewable energy; and

(C) to reduce environmental impacts; and

(3) in the utility sector—

(A) to accelerate the development of technologies that will increase energy efficiency; and

(B) to increase the use of integrated resource planning.

(c) Program plan

Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide activities under this part. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, utilities, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies.

(d) Proposals

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this part, including all building, industry, and utility sectors energy conservation research and development, and inventions and innovation under energy conservation technical and financial assistance—

$178,250,000 for fiscal year 1993 and $275,000,000 for fiscal year 1994.

Section 2106, referred to in subsec. (a), means section 2106 of Pub. L. 102–486, which amended sections 5103, 5107, 5108, 5110, and 5307 of Title 15, Commerce and Trade.

The Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988, referred to in subsec. (a), is Pub. L. 100–680, Nov. 17, 1988, 102 Stat. 4073, as amended, which is classified generally to chapter 77 (§ 5301 et seq.) of Title 15. For complete classification of this Act to the Code, see Short Title note set out under section 5101 of Title 15, Commerce and Trade.

This part, referred to in subsecs. (c) and (e), was in the original “this subtitle” meaning subtitle A of title XXI of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 3067, which enacted this part and amended sections 5103, 5107, 5108, 5110, and 5307 of Title 15.

DISTRICT HEATING AND COOLING PROGRAMS

“(a) In GENERAL.—The Secretary, in consultation with appropriate industry organizations, shall conduct a study to—

“(1) assess existing district heating and cooling technologies to determine cost-effectiveness, technical performance, energy efficiency, and environmental impacts as compared to alternative methods for heating and cooling buildings;

“(2) estimate the economic value of benefits that may result from implementation of district heating and cooling systems but that are not currently recognized, such as reduced emissions of air pollutants, local economic development, and energy security;

“(3) evaluate the cost-effectiveness, including the economic value referred to in paragraph (2), of cogener-

ated district heating and cooling technologies compared to other alternatives for generating or conserving electricity;

“(4) assess and make recommendations for reducing institutional and other constraints on the implementation of district heating and cooling systems; and

“(5) evaluate the use of renewable energy systems (as such term is defined in section 415(c) of the Energy Conservation and Production Act (42 U.S.C. 6865(c))) in residential buildings.

1See References in Text note below.
§ 13452

STUDY AND REPORT ON VIBRATION REDUCTION TECHNOLOGIES

“(a) IN GENERAL.—The Secretary shall, in consultation with the appropriate industry representatives, conduct a study to assess the cost-effectiveness, technical performance, energy efficiency, and environmental impacts of active noise and vibration cancellation technologies that use fast adapting algorithms.

“(b) PROCEDURE.—In carrying out such study, the Secretary shall—

“(1) estimate the potential for conserving energy and the economic and environmental benefits that may result from implementing active noise and vibration abatement technologies in demand side management; and

“(2) evaluate the cost-effectiveness of active noise and vibration cancellation technologies as compared to other alternatives for reducing noise and vibration.

“(c) DEMONSTRATION.—The Secretary may, based on the findings and conclusions of the study carried out under this section, conduct at least one project designed to demonstrate the commercial application of active noise and vibration cancellation technologies using fast adapting algorithms in products or equipment with a significant potential for increased energy efficiency.”

§ 13453. Pulp and paper

(a) Program direction

The Secretary shall initiate a 5-year program, in accordance with sections 13541 and 13542 of this title, on advanced pulp and paper technologies. Such program shall include activities on energy generation technologies, boilers, combustion processes, pulping processes (excluding de-inking), chemical recovery, causticizing, source reduction processes, and other related technologies that can improve the energy efficiency of, and reduce the adverse environmental impacts of, pulp and papermaking operations. This section does not authorize projects involving the combustion of waste paper, other than gasification.

(b) Proposals

Within 180 days after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

§ 13454. Advanced buildings for 2005

(a) Program direction

The Secretary shall initiate a 5-year program, in accordance with sections 13541 and 13542 of this title, on advanced building energy efficiency, while maintaining affordability, by the year 2005. Such program shall include activities on—

(1) building design, design methods, and construction techniques;

(2) building materials, including recycled materials, and components;

(3) on-site energy supply conversion systems such as photovoltaics;

(4) automated energy management systems;

(5) methods of evaluating performance; and

(6) insulation products manufactured with nonozone depleting materials.

(b) Proposals

(1) Solicitation

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.

(2) Contents of proposals

Proposals submitted under this subsection shall include and be judged upon—

(A) evidence of knowledge of current building practices in the United States and in other countries;

(B) an explanation of how the proposal will encourage the commercialization of the technologies resulting from activities in subsection (a);

(C) evidence of consideration of collaboration with Department of Energy national laboratories;

(D) evidence of collaboration with relevant industry or other groups or organizations; and

(E) a demonstration of the ability of the proposers to undertake and complete the project proposed.

§ 13455. Electric drives

(a) Program

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on advanced electric drives.

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of
this title, to increase the efficiency of electric
drive technologies, including adjustable speed
drives, high speed motors, and high efficiency
motors.

(b) Proposals
Within 1 year after October 24, 1992, the Sec-
retary shall solicit proposals for projects under
this section.

Stat. 3070.)

§ 13456. Improving efficiency in energy-intensive
industries

(a) Secretarial action
The Secretary, in accordance with sections
13541 and 13542 of this title, shall—
(1) pursue a research, development, demon-
stration and commercial application pro-
gram intended to improve energy efficiency
and productivity in energy-intensive indus-
tries and industrial processes; and
(2) undertake joint ventures to encourage
the commercialization of technologies de-
veloped under paragraph (1).

(b) Joint ventures
(1) The Secretary shall—
(A) conduct a competitive solicitation for
proposals from private firms and investors for
such joint ventures under subsection (a)(2); and
(B) provide financial assistance to at least
five such joint ventures.

(2) The purpose of the joint ventures shall be
to design, test, and demonstrate changes to in-
dustrial processes that will result in improved
energy efficiency and productivity. The joint
ventures may also demonstrate other improve-
ments of benefit to such industries so long as
demonstration of energy efficiency improve-
ments is the principal objective of the joint ven-
ture.

(3) In evaluating proposals for financial assis-
tance and joint ventures under this section, the
Secretary shall consider—
(A) whether the activities conducted under
this section improve the quality and energy
efficiency of industries or industrial processes;
(B) the regional distribution of the energy-
intensive industries and industrial processes; and
(C) whether the proposed joint venture
project would be located in the region which
has the energy-intensive industry and indus-
trial processes that would benefit from the
project.

Stat. 3070.)

§ 13457. Energy efficient environmental program

(a) Program direction
The Secretary, in consultation with the Ad-
ministrator of the Environmental Protection
Agency, is authorized to continue to carry out a
5-year program to improve the energy efficiency
and cost effectiveness of pollution prevention
technologies and processes, including source re-
duction and waste minimization technologies
and processes. The purposes of this section shall
be to—
(1) apply a systems approach to minimizing
adverse environmental effects of industrial
production in the most cost effective and en-
ergy efficient manner; and
(2) incorporate consideration of the entire
materials and energy cycle with the goal of
minimizing adverse environmental impacts.

(b) Identification of opportunities
Within 9 months after October 24, 1992, the Sec-
retary, in consultation with the Adminis-
trator of the Environmental Protection Agency,
shall identify opportunities for the demonstra-
tion of energy efficient pollution prevention
technologies and processes.

(c) Report
Within 1 year after October 24, 1992, the Sec-
retary shall submit a report to Congress evalu-
ating the opportunities identified under sub-
section (b). Such report shall include—
(1) an assessment of the technologies avail-
able to increase productivity and simulta-
neously reduce the consumption of energy and
material resources and the production of
wastes;
(2) an assessment of the current use of such
technologies by industry in the United States;
(3) the status of any such technologies cur-
tently being developed, together with pro-
jected schedules of their commercial avail-
ability;
(4) the energy savings resulting from the use
of such technologies;
(5) the environmental benefits of such tech-
nologies;
(6) the costs of such technologies;
(7) an evaluation of any existing Federal or
State regulatory disincentives for the employ-
ment of such technologies; and
(8) an evaluation of any other barriers to the
use of such technologies.

In preparing the report required by this sub-
section, the Secretary shall consult with the Ad-
ministrator of the Environmental Protection
Agency, any other Federal, State, or local offi-
cial the Secretary considers necessary, rep-
resentatives of appropriate industries, members
of organizations formed to further the goals of
environmental protection or energy efficiency,
and other appropriate interested members of the
public, as determined by the Secretary.

(d) Proposals
Within 1 year after October 24, 1992, the Sec-
retary, in consultation with the Administrator
of the Environmental Protection Agency, shall
solicit proposals for activities under this sec-
tion. Proposals selected under this subsection
shall demonstrate—
(1) technical viability and cost effectiveness;
and
(2) procedures for technology transfer and
information outreach during and after comple-
tion of the project.

Stat. 3071.)
§ 13458. Energy efficient lighting and building centers
(a) Purpose

The purpose of this section is to encourage energy efficiency in buildings through the establishment of regional centers to promote energy efficient lighting, heating and cooling, and building design.

(b) Grants for establishment

Not later than 18 months after October 24, 1992, the Secretary shall make grants to nonprofit institutions, or to consortiums that may include nonprofit institutions, State and local governments, universities, and utilities, to establish or enhance one regional building energy efficiency center (hereafter in this section referred to as a “regional center”) in each of the 10 regions served by a Department of Energy regional support office.

(c) Permitted activities

Each regional center established under this section may—

(1) provide information, training, and technical assistance to building professionals such as architects, designers, engineers, contractors, and building code officials, on building energy efficiency methods and technologies, including lighting, heating and cooling, and passive solar;

(2) operate an outreach program to inform such building professionals of the benefits and opportunities of energy efficiency, and of the services of the center;

(3) provide displays demonstrating building energy efficiency methods and technologies, such as lighting, windows, and heating and cooling equipment;

(4) coordinate its activities and programs with other institutions within the region, such as State and local governments, universities, and educational institutions, in order to support their efforts to promote building energy efficiency;

(5) serve as a clearinghouse to ensure that information about new building energy efficiency technologies, including case studies of successful applications, is disseminated to end-users in the region;

(6) study the building energy needs of the region and make available region-specific energy efficiency information to facilitate the adoption of cost-effective energy efficiency improvements;

(7) assist educational institutions in establishing building energy efficiency engineering and technical programs and curricula; and

(8) evaluate the performance of the center in promoting building energy efficiency.

(d) Application

Any nonprofit institution or consortium interested in receiving a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. A lighting or building energy center in existence on October 24, 1992, which is owned and operated by a nonprofit institution or a consortium as described in subsection (b) shall be eligible for a grant under this section.

(e) Selection criteria

The Secretary shall select recipients of grants under this section on the basis of the following criteria:

(1) The capability of the grant recipient to establish a board of directors for the regional center composed of representatives from utilities, State and local governments, building trade and professional organizations, manufacturers, and nonprofit energy and environmental organizations.

(2) The demonstrated or potential resources available to the grant recipient for carrying out this subsection.

(3) The demonstrated or potential ability of the grant recipient to promote building energy efficiency by carrying out the activities specified in subsection (c).

(4) The activities which the grant recipient proposes to carry out under the grant.

(f) Requirement of matching funds

(1) Federal share

The Federal share of a grant under this section shall be no more than 50 percent of the cost of establishing, and no more than 25 percent of the cost of operating the regional center.

(2) Non-Federal contributions

No grant may be made under this section in any fiscal year unless the recipient of such grant enters into such agreements with the Secretary as the Secretary may require to ensure that such recipient will provide the necessary non-Federal contributions. Such non-Federal contributions may be provided by utilities, State and local governments, nonprofit institutions, foundations, corporations, and other non-Federal entities.

(g) Task force

The Secretary shall establish a task force to—

(1) advise the Secretary on activities to be carried out by grant recipients;

(2) review and evaluate programs carried out by grant recipients; and

(3) make recommendations regarding the building energy efficiency center grant program.

(h) Membership terms and administration of task force

(1) In general

The task force shall be composed of approximately 20 members, appointed by the Secretary, with expertise in the area of building energy efficiency, including representatives from—

(A) State or local energy offices;

(B) utilities;

(C) building construction trade or professional associations;

(D) architecture, engineering or professional associations;

(E) building component or equipment manufacturers;

(F) from national laboratories;

(G) building code officials or professional associations; and

So in original. The word “from” probably should not appear.
The Secretary shall conduct a comprehensive 5-year program, in accordance with sections 13541 and 13542 of this title, to provide cost-effective options for the generation of electricity from renewable energy sources for grid and nongrid application, including field demonstrations of sufficient scale and number in operating environments to prove technical and economic feasibility for providing cost effective generation and for meeting the goal stated in section 13401(3) of this title and section 13382(a)(4) of this title.

(b) Program plan

Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, including all solar energy programs (other than activities under section 13431 of this title), geothermal systems, electric energy systems, and energy storage systems, $208,975,000 for fiscal year 1993 and $275,000,000 for fiscal year 1994.

§ 13472. High efficiency heat engines

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, to improve the efficiency of heat engines. Such program shall—

(1) include field demonstrations of sufficient scale and number so as to demonstrate technical and economic feasibility;

(2) incorporate materials that increase engine efficiency; and

(3) cover advanced engine designs for electric and industrial power generation for a range of small-, mid-, and large-scale applications, including—

(A) mechanically recuperated gas turbines;

(B) intercooled gas turbines with steam injection or recuperation;

(C) gas turbines utilizing reformed fuels or hydrogen; and

(D) high efficiency, simple cycle gas turbines.

(b) Program goal

The goal of the program established under subsection (a) shall be to develop heat engines that can achieve over 50 percent efficiency in the mid-term.

(c) Program plan

Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan, to be included in the plan required under section 13451(c) of this title, to guide the activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including the Environmental Protection Agency and national laboratories, and professional and technical societies.

(d) Proposals

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities under this section.
(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary to be derived from sums authorized under section 13451(e) of this title.

§ 13473. Civilian nuclear waste

(a) Study

The Secretary shall conduct a study of the potential for minimizing the volume and toxic lifetime of nuclear waste, including an analysis of the viability of existing technologies and an assessment of the extent of research and development required for new technologies.

(b) Program

Based on the results of the study required under subsection (a), the Secretary shall prepare and submit to Congress a 5-year program plan for carrying out a program of research and development on new technologies for minimizing the volume and toxic lifetime of, and thereby mitigating hazards associated with, nuclear waste.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $4,700,000 for fiscal year 1994.

§ 13474. Fusion energy

(a) Program

The Secretary shall conduct a fusion energy 5-year program, in accordance with sections 13541 and 13542 of this title, that by the year 2010 will result in a technology demonstration which verifies the practicability of commercial electric power production.

(b) Program goals

The goals of the program established under subsection (a) shall include:

(1) a broad based fusion energy program;

(2) United States participation in the Engineering Design Activity of the International Thermonuclear Experimental Reactor (ITER) program and in the related research and technology development efforts;

(3) the development of technology for fusion power and industrial participation in the development of such technology;

(4) the design and construction of a major new machine for fusion research and technology development consistent with paragraphs (2) and (3); and

(5) research and development for Inertial Confinement Fusion Energy and development of a Heavy Ion Inertial Confinement Fusion experiment.

(c) Management plan

(1) Within 180 days after October 24, 1992, the Secretary shall prepare a comprehensive management plan for the fusion energy program.

The plan shall include specific program objectives, milestones and schedules for technology development, and cost estimates and program management resource requirements.

(2) The plan shall also include a description of—

(A) United States participation in the Engineering Design Activity of ITER, including industrial participation;

(B) potential United States participation in the construction and operation of an ITER facility; and

(C) the requirements needed to build and test an inertial fusion energy reactor for the purpose of power production.

(3) As part of the plan required under paragraph (1), the Secretary shall evaluate the status of international fusion programs and evaluate whether the Federal Government should initiate efforts to strengthen existing international cooperative agreements in fusion energy or enter into new cooperative agreements to accomplish the purposes of this section.

(4) The plan shall also evaluate the extent to which university or private sector participation is appropriate or necessary in order to carry out the purposes of this section.

(5) The President shall include in the budget submitted to the Congress each year under section 1105 of title 31 a report prepared by the Secretary describing the progress made in meeting the program objectives, milestones, and schedules established in the management plan. Each such report shall also describe the organization of the program, the personnel assigned and funds committed to the program, and expenditures made in carrying out the program objectives. The report shall be submitted with the plan required under section 13523 of this title.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $339,710,000 for fiscal year 1993 and $380,000,000 for fiscal year 1994.

Amendments

1995—Subsec. (c)(5). Pub. L. 104–66 inserted first sentence and struck out former first sentence which read as follows: "Within 1 year after October 24, 1992, and every 2 years thereafter, the Secretary shall issue a report describing the progress made in meeting the program objectives, milestones, and schedules established in the management plan."

§ 13475. Fuel cells

(a) Program direction

The Secretary shall conduct a 5-year program, in accordance with sections 13541 and 13542 of this title, on efficient and environmentally benign power generation using fuel cells. The program may include activities on molten carbonate, solid oxide, including tubular, monolithic, and planar technologies, and advanced concepts.

(b) Program goal

The goal of the program established under subsection (a) is the development of cost-effec-
§ 13477. High-temperature superconductivity program

(a) Program

The Secretary shall carry out a 5-year program, in accordance with sections 13541 and 13542 of this title, on high-temperature superconducting electric power equipment technologies. Elements of the program shall include, but are not limited to—

(1) activities that address the development of high-temperature superconducting materials that have increased electrical current capacity, which shall be the emphasis of the program for the near-term;

(2) the development of prototypes, where appropriate, of the major elements of a superconducting electric power system such as motors, generators, transmission lines, transformers, and magnetic energy storage systems;

(3) activities that will improve the efficiency of materials performance of higher temperatures and at all magnetic field orientations;

(4) development of prototypes based on high-temperature superconducting wire, that operate at the highest temperature possible, and refrigeration systems using cryogenics such as nitrogen;

(5) activities that will assist the private sector with designs for more efficient electric power generation and delivery systems which are cost competitive with conventional energy systems; and

(6) development of prototypes that have application in both the commercial and defense sectors.

The Secretary is also encouraged to expedite government, laboratory, industry, and university collaborative agreements under existing mechanisms at the Department of Energy in coordination with other Federal agencies.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $30,000,000 for fiscal year 1993 and such sums as may be necessary for subsequent fiscal years, to be derived from sums authorized under section 13471(c) of this title.

§ 13478. Omitted

CODIFICATION

§ 13479. Spark M. Matsunaga Renewable Energy and Ocean Technology Center

(a) Findings

The Congress finds that—

(1) the late Spark M. Matsunaga, United States Senator from Hawaii, was a long-standing champion of research and development of renewable energy, particularly wind and ocean energy, photovoltaics, and hydrogen fuels;

(2) it was Senator Matsunaga’s vision that renewable energy could provide a sustained source of non-polluting energy and that such forms of alternative energy might ultimately be employed in the production of liquid hydrogen as a transportation fuel and energy storage medium available as an energy export;

(3) Senator Matsunaga also believed that research on other aspects of renewable energy and ocean resources, such as advanced materials, could be crucial to full development of energy storage and conversion systems; and

(4) Keahole Point, Hawaii is particularly well-suited as a site to conduct renewable energy and associated marine research.

(b) Purpose

It is the purpose of this section to establish the facilities and equipment located at Keahole Point, Hawaii as a cooperative research and development facility, to be known as the Spark M. Matsunaga Renewable Energy and Ocean Technology Center.

(c) Establishment

The facilities and equipment located at Keahole Point, Hawaii are established as the Spark M. Matsunaga Renewable Energy and Ocean Technology Center (in this section referred to as the “Center”).

(d) Administration

(1) Not later than 180 days after October 24, 1992, the Secretary may authorize a cooperative agreement with a qualified research institution to administer the Center.

(2) For the purpose of paragraph (1), a qualified research institution is a research institu-
tion located in the State of Hawaii that has demonstrated competence and will be the lead organization in the State in renewable energy and ocean technologies.

(e) Activities

The Center may carry out research, development, educational, and technology transfer activities on—

(1) renewable energy;
(2) energy storage, including the production of hydrogen from renewable energy;
(3) materials applications related to energy and marine environments;
(4) other environmental and ocean research concepts, including sea ranching and global climate change; and
(5) such other matters as the Secretary may direct.

(f) Matching funds

To be eligible for Federal funds under this section, the Center must provide funding in cash or in kind from non-Federal sources for each amount provided by the Secretary.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived from sums authorized under section 13471(c) of this title.

PART C—ADVANCED NUCLEAR REACTORS

§ 13491. Purposes and definitions

(a) Purposes

The purposes of this part are—

(1) to require the Secretary to carry out civilian nuclear programs in a way that will lead toward the commercial availability of advanced nuclear reactor technologies; and
(2) to authorize such activities to further the timely availability of advanced nuclear reactor technologies, including technologies that utilize standardized designs or exhibit passive safety features.

(b) Definitions

For purposes of this part—

(1) the term “advanced nuclear reactor technologies” means—

(A) advanced light water reactors that may be commercially available in the near-term, including but not limited to mid-sized reactors with passive safety features for the generation of commercial electric power from nuclear fission; and
(B) other advanced nuclear reactor technologies that may require prototype demonstration prior to commercial availability in the mid- or long-term, including but not limited to high-temperature, gas-cooled reactors and liquid metal reactors, for the generation of commercial electric power from nuclear fission;

(2) the term “Commission” means the Nuclear Regulatory Commission;

(3) the term “standardized design” means a design for a nuclear power plant that may be utilized for a multiple number of units or a multiple number of sites; and

(4) the term “certification” means approval by the Commission of a standardized design.

REFERENCES IN TEXT

This part, referred to in text, was in the original “this subtitle” meaning subtitle C of title XXI of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 3081, which enacted this part and amended sections 12003 and 12004 of this title.

§ 13492. Program, goals, and plan

(a) Program direction

The Secretary shall conduct a program to encourage the deployment of advanced nuclear reactor technologies that to the maximum extent practicable—

(1) are cost effective in comparison to alternative sources of commercial electric power of comparable availability and reliability, taking into consideration life cycle environmental costs;
(2) facilitate the design, licensing, construction, and operation of a nuclear powerplant using a standardized design;
(3) exhibit enhanced safety features; and
(4) incorporate features that advance the objectives of the Nuclear Non-Proliferation Act of 1978 [22 U.S.C. 3201 et seq.].

(b) Program goals

The goals of the program established under subsection (a) shall include—

(1) for the near-term—

(A) to facilitate the completion, by September 30, 1996, for certification by the Commission of standardized advanced light water reactor technology designs that the Secretary determines have the characteristics described in subsection (a)(1) through (4);
(B) to facilitate the completion of submissions, by September 30, 1996, for preliminary design approvals by the Commission of standardized designs for the modular high-temperature gas-cooled reactor technology and the liquid metal reactor technology; and
(C) to complete necessary research and development on high-temperature gas-cooled reactor technology to support the selection, by September 30, 1998, of one or both of those technologies as appropriate for prototype demonstration; and
(2) for the mid-term—

(A) to facilitate increased efficiency of enhanced safety, advanced light water reactors to produce electric power at the lowest cost to the customer;
(B) to develop advanced reactor concepts that are passively safe and environmentally acceptable; and
(C) to complete necessary research and development on high-temperature gas-cooled reactor technology and liquid metal reactor technology to support the selection, by September 30, 1998, of one or both of those technologies as appropriate for prototype demonstration; and
(3) for the long-term, to complete research and development and demonstration to sup-
port the design of advanced reactor technologies capable of providing electric power to a utility grid as soon as practicable but no later than the year 2010.

(c) Program plan
Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the activities under this section. The program plan shall include schedule milestones, Federal funding requirements, and non-Federal cost sharing requirements. In preparing the program plan, the Secretary shall take into consideration—

(1) the need for, and the potential for future adoption by electric utilities or other entities of, advanced nuclear reactor technologies that are available, under development, or have the potential for being developed, for the generation of energy from nuclear fission;

(2) how the Federal Government, acting through the Secretary, can be effective in ensuring the availability of such technologies when they are needed;

(3) how the Federal Government can most effectively cooperate with the private sector in the accomplishment of the goals set forth in subsection (b); and

(4) potential alternative funding sources for carrying out this section.

In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall update the program plan annually and submit such update to Congress. Each such update shall describe any activities that are behind schedule, any funding shortfalls, and any other circumstances that might affect the ability of the Secretary to meet the goals set forth in subsection (b).

REFERENCES IN TEXT
The Nuclear Non-Proliferation Act of 1978, referred to in subsec. (a)(4), is Pub. L. 95–222, Mar. 10, 1978, 92 Stat. 120, as amended, which is classified principally to chapter 47 (§ 3201 et seq.) of Title 22, Foreign Relations and Intercourse. For complete classification of this Act to the Code, see Short Title note set out under section 3201 of Title 22 and Tables.

§ 13493. Commercialization of advanced light water reactor technology

(a) Certification of designs
In order to achieve the goal of certification of completed standardized designs by the Commission by 1996 as set forth in section 13492(b) of this title, the Secretary shall conduct a 5-year program of technical and financial assistance to encourage the development and submission for certification of advanced light water reactor designs which, in the judgment of the Secretary, can be certified by the Commission by no later than the end of fiscal year 1996.

(b) First-of-a-kind engineering

(1) Establishment of program
The Secretary shall conduct a program of Federal financial and technical assistance for the first-of-a-kind engineering design of standardized commercial nuclear powerplants which are included, as of October 24, 1992, in the Department of Energy’s program for certification of advanced light water reactor designs.

(2) Selection criteria
In order to be eligible for assistance under this subsection, an entity shall certify to the satisfaction of the Secretary that—

(A) the entity, or its members, are bona fide entities engaged in the design, engineering, manufacture, construction, or operation of nuclear reactors;

(B) the entity, or its members, have the financial resources necessary for, and fully intend to pursue the design, engineering, manufacture, construction, and operation in the United States of nuclear power plants through completion of construction and into operation;

(C) the design proposed is scheduled for certification by the Commission under the Department of Energy’s program for certification of light water reactor designs; and

(D) at least 50 percent of the funding for the project shall be obtained from non-Federal sources, and a substantial portion of that non-Federal funding shall be obtained from utilities or entities whose primary purpose is the production of electrical power for public consumption.

(3) Program documents
The Secretary shall prepare and submit to the Congress a program document for each design selected under this subsection, specifying goals and objectives, major milestones for achieving those goals and objectives, and the work products to be provided to the Secretary or made available for inspection.

(4) Funding limitations

(A) Before entering into an agreement with an entity under this subsection, the Secretary shall establish a cost ceiling for the contribution of the Federal Government for the project, and shall report such cost ceiling to the Congress.

(B) No entity shall receive assistance under this subsection for a period greater than 4 years.

(C) The aggregate funding provided by the Secretary for projects under this subsection shall not exceed $100,000,000 for the period encompassing fiscal years 1993 through 1997.

CODIFICATION
Subsec. (b)(5) of this section, which required the Secretary to submit annually to Congress a status report on each project receiving assistance under subsec. (b), terminated, effective May 15, 2000, pursuant to section 3063 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the last item on page 85 of House Document No. 103–7.

1 So in original. Probably should be “powerplants”.
§ 13494. Prototype demonstration of advanced nuclear reactor technology

(a) Solicitation of proposals

Within 3 years after October 24, 1992, the Secretary shall solicit proposals for carrying out the preliminary engineering design of not more than 2 prototype advanced nuclear reactor technologies developed by the Department of Energy, other than advanced light water reactor technologies, necessary to support a decision on whether to recommend construction of a prototype demonstration reactor with the characteristics described in section 13493(a) of this title. Proposals submitted under this subsection shall be for modular design concepts of sufficient size to address requirements related to the certification of a standardized design.

(b) Recommendation to Congress

(1) Not later than September 30, 1998, the Secretary shall submit to Congress recommendations on whether to build one or more prototype demonstration reactors under this section. Such recommendations shall—
   (A) specify a preferred technology or technologies;
   (B) include detailed information on milestones for construction and operation;
   (C) include an estimate of the funding requirements; and
   (D) specify the extent and type of non-Federal financial support anticipated.

In developing the recommendations under this paragraph, the Secretary shall provide for public notice and an opportunity for comment, and shall solicit the views of the Commission and other parties with technical expertise the Secretary considers useful in the development of such recommendations.

(2) The prototype demonstration program under this section shall be carried out to the maximum extent practicable with private sector funding. At least 50 percent of the funding for such program shall be non-Federal funding. The extent of non-Federal cost sharing proposed for any demonstration project shall be a criterion for the selection of the project.

(c) Selection of technology

Any technology selected by the Secretary for recommendation for prototype demonstration under this section shall to the maximum extent possible exhibit the characteristics set forth in section 13499(a) of this title.

§ 13495. Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this part $212,804,000 for fiscal year 1993 and such sums as may be necessary for fiscal year 1994. Amounts authorized or otherwise made available for program direction, space reactor power systems, advanced radioisotope power systems, and the space exploration initiative under nuclear energy research and development shall be in addition to the amounts authorized in the preceding sentence.

§ 13501. National Advanced Materials Program

(a) Program direction

The Secretary shall establish a 5-year National Advanced Materials Program, in accordance with sections 13541 and 13542 of this title. Such program shall foster the commercialization of techniques for processing, synthesizing, fabricating, and manufacturing advanced materials and associated components. At a minimum, the Program shall expedite the private sector deployment of advanced materials for use in high performance energy efficient and renewable energy technologies in the industrial, transportation, and buildings sectors that can foster economic growth and competitiveness. The Program shall include field demonstrations of sufficient scale and number to prove technical and economic feasibility.

(b) Program plan

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide activities under this section. The Secretary shall biennially update and resubmit the program plan to Congress.

(c) Proposals

(1) Solicitation

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities consistent with the 5-year program plan. Such proposals may be submitted by one or more parties.

(2) Contents of proposals

Proposals submitted under this subsection shall include—
   (A) an explanation of how the proposal will expedite the commercialization of advanced materials in energy efficiency or renewable energy in the near-term to mid-term;
   (B) evidence of consideration of whether the unique capabilities of Department of Energy national laboratories warrants collaboration with such laboratories, and the extent of such collaboration proposed;
   (C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and
   (D) evidence of the ability of the proposers to undertake and complete the proposed project.

(d) General Services Administration demonstration program

The Secretary, in consultation with the Administrator of General Services, shall establish a program to expedite the use, in goods and services acquired by the General Services Administration, of advanced materials technologies. Such program shall include a demonstration of the use of advanced materials technologies as may be necessary to establish
technical and economic feasibility. The Secretary shall transfer funds to the General Services Administration for carrying out this subsection.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived for energy efficient applications from section 13451(e) of this title and for renewable applications from section 13471(c) of this title, including Department of Energy national laboratory participation in proposals submitted under subsection (c), and including transferring funds to the General Services Administration.

Termination of Reporting Requirements

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section relating to the biennial resubmittal of the program plan to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 1st item on page 86 of House Document No. 103–7.

§ 13503. National Advanced Manufacturing Technologies Program

(a) Program direction

The Secretary shall establish a 5-year National Advanced Manufacturing Technologies Program, in accordance with sections 13541 and 13542 of this title. Such program shall foster the commercialization of advanced manufacturing technologies to improve energy efficiency and productivity in manufacturing. At a minimum, the Program shall expedite the private sector deployment of advanced manufacturing technologies to improve productivity, quality, and control in manufacturing processes that can foster economic growth, energy efficiency, and competitiveness. The program shall include field demonstrations of sufficient scale and number to prove technical and economic feasibility.

(b) Program plan

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide activities under this section. The Secretary shall biennially update and resubmit the program plan to Congress.

(c) Proposals

(1) Solicitation

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities consistent with the 5-year program plan. Such proposals may be submitted by one or more parties.

(2) Contents of proposals

Proposals submitted under this subsection shall include—

(A) an explanation of how the proposal will expedite the commercialization of advanced manufacturing technologies to improve energy efficiency in the building, industry, and transportation sectors;

(B) evidence of consideration of whether the unique capabilities of Department of Energy national laboratories warrants collaboration with such laboratories, and the extent of such collaboration proposed;

(C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and

(D) evidence of the ability of the proposers to undertake and complete the proposed project.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived from sums authorized under section 13451(e) of this title, including Department of Energy national laboratory participation in proposals submitted under subsection (c).

Termination of Reporting Requirements

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section relating to the biennial resubmittal of the program plan to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 2nd item on page 86 of House Document No. 103–7.

§ 13503. Supporting research and technical analysis

(a) Basic energy sciences

(1) Program direction

The Secretary shall continue to support a vigorous program of basic energy sciences to provide basic research support for the development of energy technologies. Such program shall focus on the efficient production and use of energy, and the expansion of our knowledge of materials, chemistry, geology, and other related areas of advancing technology development.

(2) User facilities

(A) As part of the program referred to in paragraph (1), the Secretary shall carry out planning, construction, and operation of user facilities to provide special scientific and research capabilities, including technical expertise and support as appropriate, to serve the research needs of our Nation’s universities, industry, private laboratories, Federal laboratories, and others. Research institutions or individuals from other nations shall be accommodated at such user facilities in cases where reciprocal accommodations are provided to United States research institutions and individuals or where the Secretary considers such accommodation to be in the national interest.

(B) The construction of the Advanced Photon Source at the Argonne National Laboratory is hereby authorized.

(C) The Secretary shall not change the user fee practice in effect as of October 1, 1991, with
respect to user facilities unless the Secretary notifies Congress 90 days before the effective date of any change.

(D) The Secretary shall expedite the design for construction of the Advanced Neutron Source at the Oak Ridge National Laboratory, in order to provide critical research capabilities in support of our national research initiatives for advanced materials and biotechnology, as well as a broad range of research. Such action shall be consistent with the Basic Energy Sciences Advisory Committee’s Technical Evaluation of accelerator and reactor neutron source technologies. Within 90 days after October 24, 1992, the Secretary shall submit to the Congress a plan for such design, including a schedule for construction.

(3) Cost sharing

The Secretary shall not require cost sharing for research and development pursuant to this subsection, except—

(A) as otherwise provided for in cooperative research and development agreements or other agreements entered into under existing law;

(B) for fees for user facilities, as determined by the Secretary; or

(C) in the case of specific projects, where the Secretary determines that the benefits of such research and development accrue to a specific industry or group of industries, in which case cost sharing under section 13542 of this title shall apply.

(b) University and science education

(1) The Secretary shall support programs for improvements and upgrading of university research reactors and associated instrumentation and equipment. Within 1 year after October 24, 1992, the Secretary shall submit to the Congress a report on the condition and status of university research reactors, which includes a 5-year plan for upgrading and improving such facilities, instrumentation capabilities, and related equipment.

(2) The Secretary shall develop a method to evaluate the effectiveness of science and mathematics education programs provided by the Department of Energy and its laboratories, including specific evaluation criteria.

(3) Established Program to Stimulate Competitive Research.—

(A) Definitions.—In this paragraph:

(i) Eligible Jurisdiction.—The term “eligible jurisdiction” means a State that is determined to be eligible for a grant under this paragraph in accordance with subparagraph (D).

(ii) EPSCoR.—The term “EPSCoR” means the Established Program to Stimulate Competitive Research operated under subparagraph (B).

(iii) National Laboratory.—The term “National Laboratory” has the meaning given the term in section 15801 of this title.

(iv) State.—The term “State” means—

(I) a State;

(II) the District of Columbia;

(III) the Commonwealth of Puerto Rico;

(IV) Guam; and

(V) the United States Virgin Islands.

(B) Program Operation.—The Secretary shall operate an Established Program to Stimulate Competitive Research.

(C) Objectives.—The objectives of EPSCoR shall be—

(i) to increase the number of researchers in eligible jurisdictions, especially at institutions of higher education, capable of performing nationally competitive science and engineering research in support of the mission of the Department of Energy in the areas of applied energy research, environmental management, and basic science;

(ii) to improve science and engineering research and education programs at institutions of higher education in eligible jurisdictions and enhance the capabilities of eligible jurisdictions to develop, plan, and execute research that is competitive, including through investing in research equipment and instrumentation; and

(iii) to increase the probability of long-term growth of competitive funding to eligible jurisdictions.

(D) Eligible Jurisdictions.—

(i) In General.—The Secretary may establish criteria for determining whether a State is eligible for a grant under this paragraph.

(ii) Requirement.—Except as provided in clause (iii), in establishing criteria under clause (i), the Secretary shall ensure that a State is eligible for a grant under this paragraph if the State, as determined by the Secretary, is a State that—

(I) historically has received relatively little Federal research and development funding; and

(II) has demonstrated a commitment—

(aa) to develop the research bases in the State; and

(bb) to improve science and engineering research and education programs at institutions of higher education in the State.

(iii) Eligibility Under NSF EPSCoR.—At the election of the Secretary, or if the Secretary declines to establish criteria under clause (i), the Secretary may continue to use the eligibility criteria in use on January 1, 2021, or any successor criteria.

(E) Grants in Areas of Applied Energy Research, Environmental Management, and Basic Science.—

(i) In General.—EPSCoR shall make grants to eligible jurisdictions to carry out and support applied energy research and research in all areas of environmental management and basic science sponsored by the Department of Energy, including—

(I) energy efficiency, fossil energy, renewable energy, and other applied energy research;

(II) electricity delivery research;

(III) cybersecurity, energy security, and emergency response;

(IV) environmental management; and

(V) basic science research.

(ii) Activities.—EPSCoR shall make grants under this subparagraph for activities
consistent with the objectives described in subparagraph (C) in the areas of applied energy research, environmental management, and basic science described in clause (i), including—

(IV) to support research that is carried out in partnership with the National Laboratories;

(II) to provide for graduate traineeships; and

(III) to improve research capabilities through biennial research implementation grants.

(iii) NO COST SHARING.—EPSCoR shall not impose any cost-sharing requirement with respect to a grant made under this subparagraph, but may require letters of commitment from National Laboratories.

(F) OTHER ACTIVITIES.—EPSCoR may carry out such activities as may be necessary to meet the objectives described in subparagraph (C) in the areas of applied energy research, environmental management, and basic science described in subparagraph (E)(i).

(G) PROGRAM IMPLEMENTATION.—

(i) IN GENERAL.—Not later than 270 days after January 1, 2021, the Secretary shall submit to the Committees on Energy and Natural Resources and Appropriations of the Senate and the Committees on Energy and Commerce and Appropriations of the House of Representatives a plan describing how the Secretary shall implement EPSCoR.

(ii) CONTENTS OF PLAN.—The plan described in clause (i) shall include a description of—

(I) the management structure of EPSCoR, which shall ensure that all research areas and activities described in this paragraph are incorporated into EPSCoR;

(II) efforts to conduct outreach to inform eligible jurisdictions and faculty of changes to, and opportunities under, EPSCoR;

(III) how EPSCoR plans to increase engagement with eligible jurisdictions, faculty, and State committees, including by holding regular workshops, to increase participation in EPSCoR; and

(IV) any other issues relating to EPSCoR that the Secretary determines appropriate.

(H) PROGRAM EVALUATION.—

(i) IN GENERAL.—Not later than 5 years after January 1, 2021, the Secretary shall contract with a federally funded research and development center, the National Academy of Sciences, or a similar organization to carry out an assessment of the effectiveness of EPSCoR, including an assessment of—

(I) the tangible progress made towards achieving the objectives described in subparagraph (C);

(II) the impact of research supported by EPSCoR on the mission of the Department of Energy; and

(III) any other issues relating to EPSCoR that the Secretary determines appropriate.

(ii) LIMITATION.—The organization with which the Secretary contracts under clause (i) shall not be a National Laboratory.

(iii) REPORT.—Not later than 6 years after January 1, 2021, the Secretary shall submit to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate and the Committee on Science, Space and Technology and the Committee on Appropriations of the House of Representatives a report describing the results of the assessment carried out under clause (i), including recommendations for improvements that would enable the Secretary to achieve the objectives described in subparagraph (C).

(c) Technology transfer

The Secretary shall support technology transfer activities conducted by the National Laboratories. Within 1 year after October 24, 1992, the Secretary shall submit to the Congress a report on the adequacy of funding for such activities, along with a proposal recommending ways to reduce the length of time required to consummate cooperative research and development agreements.

(d) Facilities support for multiprogram energy laboratories

(1) Facility policy

The Secretary shall develop and implement a least cost strategy for correcting facility problems, closing unneeded facilities, making facility modifications, and building new facilities at multiprogram energy laboratories.

(2) Facility plan

Within 1 year after October 24, 1992, the Secretary shall prepare and submit to the Congress a comprehensive plan for conducting future facility maintenance, making repairs, modifications, and new additions, and constructing new facilities at multiprogram energy laboratories. Such plan shall provide for facilities work in accordance with the following priorities, listed in descending order of priority:

(A) Providing for the safety and health of employees, visitors, and the general public with regard to correcting existing structural, mechanical, electrical, and environmental deficiencies.

(B) Providing for the repair and rehabilitation of existing facilities to keep them in use and prevent deterioration.

(C) Providing engineering design and construction services for those facilities which require modification or additions in order to meet the needs of new or expanded programs.

Such plan shall include plans for new facilities and facility modifications which will be required to meet the Department of Energy’s changing missions of the twenty-first century, including schedules and estimates for implementation, and including a section outlining long-term funding requirements consistent with anticipated budgets and annual authorization of appropriations. Such plan shall address the coordination of modernization and

...
consolidation of facilities in order to meet changing mission requirements, and shall pro-
vide for annual reports to Congress on accomplish-
ments, conformance to schedules, commit-
ments, and expenditures.

(e) Authorization of appropriations

There are authorized to be appropriated to the
Secretary for Supporting Research and Tech-
ical Analysis, including Basic Energy Sciences,
Energy Research Analysis, University and Sci-
ence Education, Technology Transfer, Advi-
sory and Oversight Program Direction, and Fa-
cilities Support for Multiprogram Energy Lab-
oratories, $966,804,000 for fiscal year 1993 and
such sums as may be necessary for fiscal year
1994.

Stat. 2606; Pub. L. 116–283, div. H, title XCIV,
§ 9411, Jan. 1, 2021, 134 Stat. 4815.)

AMENDMENTS

identical to the par. (3) appearing in the amendment by

2020—Subsec. (b)(3). Pub. L. 116–260 added par. (3) and
struck out former par. (3) which related to the oper-
ation of an Experimental Program to Stimulate Com-
petitive Research (EPsCoR).

‘Office of Science’ for ‘Office of Energy Research’.

§ 13504. Math and science education program

(a) Program

The Secretary shall enter into contracts with
existing qualified entities to conduct science
and mathematics education programs that sup-
plement the Special Programs for Students from
Disadvantaged Backgrounds carried out by the
Secretary of Education under sections 1070d
through 1070d–1d of title 20.1

(b) Purpose

(1) The purpose of the programs shall be to
provide support to Federal, State, and private
programs designed to promote the participation
of low-income and first generation college stu-
dents as defined in section 1070d of title 20 in
post-secondary science and mathematics edu-
cation.

(2) Support activities may include—

(A) the development of educational mate-
rials;

(B) the training of teachers and counselors;

(C) the establishment of student internships;

(D) the development of seminars on mathe-
ematics and science;

(E) tutoring in mathematics and science;

(F) academic counseling;

(G) the development of opportunities for
research; and

(H) such other activities that may promote
the participation of low-income and first gen-
eration college students in post-secondary
science and mathematics education.

1 See References in Text note below.

(c) Support

(1) In carrying out the purpose of this section,
the entities may provide support under sub-
section (b)(2) to—

(A) low-income and first generation college
students; and

(B) institutions of higher education, public
and private agencies and organizations, and
secondary and middle schools that principally
benefit low-income students.

(2) The qualified entities shall, to the extent
practicable, coordinate support activities under
this section with the Secretary of Education and
the Secretary.

(d) Cooperation with qualified entities

The Secretary shall cooperate with qualified
entities and, to the extent practicable, make
available to the entities such personnel, facili-
ties, and other resources of the Department of
Energy as may be necessary to carry out the du-
ties of the entities.

(e) Report

(1) Not later than October 1 of each year, the en-
tities shall report to the Secretary, the Sec-
retary of Education, and the Congress on—

(A) progress made to promote the participa-
tion of low-income and first generation college
students in post-secondary science and mathe-
matics education by—

(A) the qualified entities;

(B) other mathematics and science edu-
cation programs of the Department of En-
ergy; and

(C) the Special Programs for Students
from Disadvantaged Backgrounds of the De-
partment of Education; and

(2) recommendations for such additional ac-
tions as may be needed to promote the partici-
pation of low-income students in post-sec-
ondary science and mathematics education.

(f) Effect on existing programs

The programs in this section shall supplement
and be developed in cooperation with the cur-
rent mathematics and science education pro-
grams of the Department of Energy and the De-
partment of Education but shall not supplant
them.

(g) ‘Qualified entity’ defined

For purposes of this section, the term ‘quali-
ified entity’ means a nonprofit corporation, as-
soiation, or institution that has demonstrated
special knowledge of, and experience with, the
education of low-income and first generation
college students and whose primary mission is
the operation of national programs that focus on
low-income students and provide training and
other services to educators.

(h) Authorization of appropriations

There are authorized to be appropriated such
sums as may be necessary, to be derived from
section 13503(e) of this title and the Environ-
mental Restoration and Waste Management pro-
gram, to carry out the purposes of this section.

106 Stat. 3089.)

REFERENCES IN TEXT

Sections 1070d through 1070d–1d of title 20, referred to
in subsec. (a), and section 1070d of title 20, referred to
§ 13505. Integration of research and development

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to Congress a 5-year program plan for improving the integration of basic energy research programs with other energy programs within the Department of Energy. Such program plan shall include—

(1) an evaluation of current procedures and mechanisms used to achieve such integration;
(2) an assessment of the role that the Department of Energy national laboratories play in such integration;
(3) an identification and evaluation of models that could enhance such integration;
(4) an identification and evaluation of new programs, mechanisms, and related policy options that could improve the integrating process, including—
   (A) set aside funding for matching or leveraging basic and applied programs;
   (B) more formal linkages; and
   (C) program coordination;
(5) recommendations for expanded research and development and new technology areas; and
(6) budget estimates for activities under this section.

§ 13506. Definitions

For purposes of this subchapter—

(1) the term “advanced manufacturing technology” means processes, equipment, techniques, practices, and capabilities that are applied for the purpose of—
   (A) improving the productivity, quality, or energy efficiency of the design, development, testing, or manufacture of a product; or
   (B) expanding the technical capability to design, develop, test, or manufacture a product that is fundamentally different in character from existing products and that will result in improved energy efficiency;
(2) the term “advanced materials” means materials that are processed, synthesized, fabricated, and manufactured to develop high performance properties that exceed the corresponding properties of conventional materials for structural, electronic, magnetic, or photonic applications, or for joining, welding, bonding, or packaging components into complex assemblies, including—
   (A) advanced monolithic materials such as metals, ceramics, and polymers;
   (B) advanced composite materials such as metal matrix (including intermetallics), polymer matrix, ceramic matrix, continuous fiber ceramic composite, and carbon matrix composites; and
   (C) advanced electronic, magnetic, and photonic materials, including superconducting, semiconductor, electrooptic, magnetooptic, thin-film, and special purpose coating materials used in technologies for energy efficiency, renewable energy, or electric power applications; and
(3) the term “United States” means the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, the Northern Mariana Islands, and any other territory or possession of the United States.

§ 13522. Energy Research, Development, Demonstration, and Commercial Application Advisory Board

(a) Establishment

The Secretary shall establish an Energy Research, Development, Demonstration, and Commercial Application Advisory Board (hereafter in this section referred to as the “Advisory Board”).

(b) Responsibilities

The Advisory Board shall provide impartial technical advice to the Secretary to assist in the development of energy research, development, demonstration, and commercial application plans and reports under sections 5905 and 5914 of this title, under section 7321 of this title, and as otherwise provided in subchapters VIII through XI of this chapter. The Advisory Board shall also periodically review such plans and reports and their implementation in relation to the goals stated in section 13401 of this title, and report the results of such review to the Secretary and the Congress. Such report shall be included as part of the report required under section 5914 of this title.

(c) Use of existing advisory board

The Secretary may use an existing advisory board to carry out the responsibilities described in subsection (b).

1 See References in Text note below.
§ 13523. Management plan

(a) Plan preparation
The Secretary, in consultation with the Advisory Board established under section 13522 of this title, shall prepare a management plan for the conduct of research, development, demonstration, and commercial application of energy technologies that is consistent with the goals stated in section 13401 of this title.

(b) Contents of plan
The management plan under subsection (a) shall provide for—

(1) investigation of promising energy and energy efficiency resource technologies that have been identified as potentially significant future contributors to national energy security;

(2) development of energy and energy efficiency resource technologies that have the potential to reduce energy supply vulnerability, and to minimize adverse impacts on the environment, the global climate, and the economy; and

(3) creation of opportunities for export of energy and energy efficiency resource technologies from the United States that can enhance the Nation’s competitiveness.

(c) Energy technology inventory and status report
As part of the management plan, the Secretary, with the advice of the Advisory Board established under section 13522 of this title, shall develop an inventory and status report of technologies to enhance energy supply and to improve the efficiency of energy end uses. The inventory and status report shall include fossil, renewable, nuclear, and energy conservation technologies which have not yet achieved the status of fully reliable and cost-competitive commercial availability, but which the Secretary projects may become available with additional research, development, and demonstration. The inventory and status report shall provide, for each technology—

(1) an assessment of its—
   (A) degree of technological maturity; and
   (B) principal research, development, and demonstration issues, including—
      (i) the barriers posed by capital, operating, and maintenance costs; and
      (ii) technical performance; and
      (iii) potential environmental impacts;

(2) the projected time frame for commercial availability, specifying at a minimum whether the technology will be commercially available in the near-term, mid-term, or long-term, whether there are too many uncertainties to project availability, or whether it is unlikely that the technology will ever be commercial; and

(3) a projection of the future cost-competitiveness of the technology in comparison with alternative technologies to provide the same energy service.

(d) Public comment
The Secretary shall publish the proposed management plan for a written public comment period of at least 90 days. The Secretary shall consider such comments and include a summary thereof in the management plan.

(e) Plan submission
Within one year after October 24, 1992, the Secretary shall submit the first management plan under this section to Congress. Thereafter, the Secretary shall submit a revised management plan biennially, at the time of submittal of the President’s annual budget submission to the Congress.

§ 13524. Costs related to decommissioning and storage and disposal of nuclear waste

(a) Award of contracts

(1) Prime contractors
In awarding contracts to perform nuclear hot cell services, the Secretary, in evaluating bids for such contracts, shall exclude from consideration costs related to the decommissioning of nuclear facilities or the storage and disposal of nuclear waste, if—

(A) one or more of the parties bidding to perform such services is a United States company that is subject to such costs; and

(B) one or more of the parties bidding to perform such services is a foreign company that is not subject to comparable costs.

(2) Subcontractors
Any person awarded a contract subject to the restrictions described in paragraph (1) who subcontracts with a person to perform the services described in such paragraph shall be subject to the same restrictions in evaluating bids among potential subcontractors, as the Secretary was subject to in evaluating bids among prime contractors.

(b) Issuance of regulations
The Secretary shall issue regulations not later than 90 days after October 24, 1992, to carry out the requirements of subsection (a).
§ 13525. Limits on participation by companies

A company shall be eligible to receive financial assistance under subchapters VIII through XI of this chapter only if—

(1) the Secretary finds that the company’s participation in any program under such subchapters would be in the economic interest of the United States, as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; an agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

(2) either—

(A) the company is a United States-owned company; or

(B) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded to any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

§ 13526. Uncosted obligations

(a) Report

Along with the submission of each of the President’s annual budget requests to Congress, the Secretary shall submit to Congress a report which—

(1) identifies the amount of Department of Energy funds that were, as of the end of the previous fiscal year—

(A) committed uncosted obligations; and

(B) uncommitted uncosted obligations;

(2) specifically describes the purposes for which all such funds are intended; and

(3) explains the effect that information contained in the report has had on the annual budget request for the Department of Energy being simultaneously submitted.

(b) Definitions

Within 90 days after October 24, 1992, the Secretary shall submit to the Congress containing definitions of the terms “uncosted obligation”, “committed uncosted obligation”, and “uncommitted uncosted obligation” for purposes of reports to be submitted under subsection (a).

SUBCHAPTER XII—MISCELLANEOUS

PART A—GENERAL PROVISIONS

§ 13541. Research, development, demonstration, and commercial application activities

(a) Research, development, and demonstration

(1) Except as otherwise provided in this Act, research, development, and demonstration activities under this Act may be carried out under the procedures of the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5901–5920), the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), or any other Act under which the Secretary is authorized to carry out such activities, but only to the extent the Secretary is authorized to carry out such activities, and “uncommitted uncosted obligation” for purposes of reports to be submitted under subsection (a).

(b) Commercial application
Except as otherwise provided in this Act, in carrying out commercial application programs and commercial application activities under this Act, the Secretary may use, to the extent authorized under applicable provisions of law, contracts, cooperative agreements, cooperative research and development agreements under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grants, joint ventures, and any other form of agreement available to the Secretary. An objective of any commercial application program under this Act shall be to accelerate the transition of technologies from the research and development stage.

(c) “Joint venture” defined
For purposes of this section, the term “joint venture” has the meaning given the term “joint research and development venture” under section 4301(a)(6) and (b) of title 15, except that such term may apply under this section to research, development, demonstration, and commercial application joint ventures.

(d) Protection of information
Section 12(c)(7) of the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3710a(c)(7)], relating to the protection of information, shall apply to research, development, demonstration, and commercial application programs and activities under this Act.

(e) Guidelines and procedures
The Secretary shall provide guidelines and procedures for the transition, where appropriate, of energy technologies from research through development and demonstration under subsection (a) to commercial application under subsection (b). Nothing in this section shall preclude the Secretary from—

(1) entering into a contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grant, joint venture, or any other form of agreement available to the Secretary under this section that relates to research, development, demonstration, and commercial application; or

(2) extending a contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980, grant, joint venture, or any other form of agreement available to the Secretary that relates to research, development, and demonstration to cover commercial application.

(f) Application of section
This section shall not apply to any contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grant, joint venture, or any other form of agreement available to the Secretary that is in effect as of October 24, 1992.

§ 13542. Cost sharing

(a) Research and development
Except as otherwise provided in this Act, for research and development programs carried out under this Act, the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this subsection if the Secretary determines that the research and development is of a basic or fundamental nature.

(b) Demonstration and commercial application
Except as otherwise provided in this Act, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this Act to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this subsection if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this Act.

(c) Calculation of amount
In calculating the amount of the non-Federal commitment under paragraph (1) or (2), the Secretary shall include cash, personnel, services, equipment, and other resources.

(d) Tennessee Valley Authority
Funds derived by the Tennessee Valley Authority from its power program may be used for all or part of any cost sharing requirements under this section, except to the extent that such funds are provided by annual appropriation Acts.

References in Text

The Stevenson-Wydler Technology Innovation Act of 1980, referred to in subsecs. (a)(2), (b), (e)(1), (2), and (f), is Pub. L. 96-480, Oct. 21, 1980, 94 Stat. 2311, as amended, which is classified generally to chapter 63 (§3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3701 of Title 15 and Tables.

PART B—OTHER MISCELLANEOUS PROVISIONS

§ 13552. Use of energy futures for fuel purchases

(a) Fuel study

The Secretary shall conduct a study—

(1) to ascertain if the use of energy futures and options contracts could provide cost-effective protection for Government entities (including Government purchases for military purposes and for the Strategic Petroleum Reserve) and consumer cooperatives (or any organization whose purpose is to purchase fuel in bulk) from unanticipated surges in the price of fuel; and

(2) to ascertain how such Government entities or consumer cooperatives may be educated in the prudent use of energy futures and options contracts to maximize their purchasing effectiveness, protect themselves against unanticipated surges in the price of fuel, and minimize fuel costs.

(b) Pilot program

The Secretary shall conduct a pilot program, commencing not later than 30 days after the transmission of the study required in subsection (b),1 to educate such governmental entities, consumer cooperatives, or other organizations on the prudent and cost-effective use of energy futures and options contracts to increase their protection against unanticipated surges in the price of fuel, and thereby increase the efficiency of their fuel purchase or assistance programs.

(c) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this section.

§ 13553. Energy subsidy study

(a) In general

The Secretary shall contract with the National Academy of Sciences to conduct a study of energy subsidies that—

(1) are in effect on October 24, 1992; or

(2) have been in effect prior to October 24, 1992.

(b) Report to Congress

Not later than 18 months after October 24, 1992, the Secretary shall transmit to the Congress, the results of such study to be accompanied by recommendations for legislation, if any.

(c) Contents

(1) In general

The study shall identify and quantify the direct and indirect subsidies and other legal and institutional factors that influence decisions in the marketplace concerning fuels and energy technologies.

(2) Topics for examination

The study shall examine—

(A) fuel and technology choices that are—

(i) available on October 24, 1992; or

(ii) reasonably foreseeable on October 24, 1992;

(B) production subsidies for the extraction of raw materials;

(C) subsidies encouraging investment in large capital projects;

(D) indemnification;

(E) fuel cycle subsidies, including waste disposal;

(F) government research and development support; and

(G) other relevant incentives and disincentives.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section $500,000 for each of the fiscal years 1993 and 1994.

§ 13554. Tar sands

(a) Policy

It is the policy of the United States to promote the development and production, by all means consistent with sound engineering, economic, and environmental practices, of deposits of tar sands.

(b) “Tar sands” defined

(1) For purposes of this section, the term “tar sands” means any consolidated or unconsolidated rock (other than coal, oil shale, or gilsonite) that either—

(A) contains a hydrocarbonaceous material with a gas-free viscosity, at original reservoir temperature, greater than 10,000 centipoise; or

(B) contains a hydrocarbonaceous material and is produced by mining or quarrying.

(2) Nothing in this section is intended or shall be construed to affect in any way the definition

1 See References in Text note below.
of the term "tar sands" under any other provision of Federal law.

(c) Study

The Secretary, in consultation with the Secretary of the Interior, shall submit a study to the House of Representatives and the Committee on Energy and Natural Resources of the Senate within one year after October 24, 1992. Such study shall identify and evaluate the development potential of sources of tar sands in the United States. The study shall also identify and evaluate processes for extracting oil from the identified tar sand sources, including existing tar sands waste tailings, and evaluate the environmental benefits of, and the potential for co-production of minerals and metals from, such processes.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 1993 and 1994 to carry out this section.

§ 13555. Consultative Commission on Western Hemisphere Energy and Environment

(a) Findings

The Congress finds that—

(1) there is growing mutual economic interdependence among the countries of the Western Hemisphere;
(2) energy and environmental issues are intrinsically linked and must be considered together when formulating policy on the broader issue of sustainable economic development for the Western Hemisphere as a whole;
(3) when developing their respective energy infrastructures, countries in the Western Hemisphere must consider existing and emerging environmental constraints, and do so in a way that results in sustainable long-term economic growth;
(4) the coordination of respective national energy and environmental policies of the governments of the Western Hemisphere could be substantially improved through regular consultation among these countries;
(5) the development, production and consumption of energy can affect environmental quality, and the environmental consequences of energy-related activities are not confined within national boundaries, but are regional and global in scope;
(6) although the Western Hemisphere is richly endowed with indigenous energy resources, an insufficient energy supply would severely constrain future opportunities for sustainable economic development and growth in each of these member countries; and
(7) the energy markets of the United States are linked with those in other countries of the Western Hemisphere and the world.

(b) "Commission" defined

For purposes of this section, the term "Commission" means the Consultative Commission on Western Hemisphere Energy and Environment.

(c) Negotiations

The President is authorized to direct the United States representative to the Organization of American States to initiate negotiations with the Organization of American States for the establishment of a Consultative Commission on Western Hemisphere Energy and Environment under the auspices of the Organization of American States.

(d) The Commission

In the course of the negotiations, the following shall be pursued:

(1) Objectives

The objectives of the Commission shall be—

(A) to evaluate from the viewpoint of the Western Hemisphere as a whole the energy and environmental situations, trends, and policies of the countries of the participating governments necessary to support sustainable economic development;
(B) to recommend to the participating governments actions, policies, and institutional arrangements that will enhance cooperation and policy coordination among their respective countries in the future development and use of indigenous energy resources and technologies, and in the future development and implementation of measures to protect the environment of the Western Hemisphere; and
(C) to recommend to the participating governments actions and policies that will enhance energy and environmental cooperation and coordination among the countries of the Western Hemisphere and the world.

(2) Composition of Commission

The Commission shall include representatives of—

(A) the respective foreign energy and environmental ministries or departments of the participating governments;
(B) the parliamentary or legislative bodies with legislative responsibilities for energy and environmental matters;
(C) other governmental and non-governmental observers appointed by the heads of each participating government on the basis of their experience and expertise.

(3) Secretariat

A small secretariat shall be chosen by the participating governments for their expertise in the areas of energy and the environment.

(4) Sunset provision

The Commission's authority—

(A) shall terminate five years from the date of the agreement under which it was created; and
(B) may be extended for a five-year term at the expiration of the previous term by agreement of the participating governments.

(e) Report

The President shall, within one year after October 24, 1992, report to the Committee on Energy and Commerce and the Committee on Foreign Affairs of the House of Representatives, and to the Committee on Energy and Natural Resources and the Committee on Foreign Relations of the Senate, on the progress toward the establishment of the Commission and achievement of the purposes of this section.
§ 13556. Disadvantaged business enterprises

(a) General rule

To the extent practicable, the head of each agency shall provide that the obligation of not less than 10 percent of the total combined amounts obligated for contracts and subcontracts by each agency under this Act and amendments made by this Act pursuant to competitive procedures within the meaning of either division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41, or chapter 137 of title 10, shall be expended either with—

(1) small business concerns controlled by socially and economically disadvantaged individuals or women;
(2) historically Black colleges and universities;
(3) colleges and universities having a student body in which more than 20 percent of the students are Hispanic Americans or Native Americans; or
(4) qualified HUBZone small business concerns.

(b) Definitions

For purposes of this section, the following definitions shall apply:

(1) The term “small business concern” has the meaning such term has under section 632 of title 15. However, for purposes of contracts and subcontracts requiring engineering services the applicable size standard shall be that established for military and aerospace equipment and military weapons.
(2) The term “socially and economically disadvantaged individuals” has the meaning such term has under section 637(d) of title 15 and relevant subcontracting regulations promulgated pursuant thereto.
(3) The term “qualified HUBZone small business concern” has the meaning given that term in section 632(p) of title 15.

References in Text

1See References in Text note below.
(A) improve—
   (i) energy efficiency; or
   (ii) environmental performance consistent with relevant Federal and State clean air requirements, including those promulgated under the Clean Air Act (42 U.S.C. 7401 et seq.); and

(B) are not yet cost competitive; and

(2) facilitate the utilization of existing coal-based electricity generation plants through projects that—
   (A) deploy advanced air pollution control equipment and processes; and
   (B) are designed to voluntarily enhance environmental performance above current applicable obligations under the Clean Air Act and State implementation efforts pursuant to such Act.

(b) Financial criteria

As determined by the Secretary for a particular project, financial assistance under this subchapter shall be in the form of—

(1) cost-sharing of an appropriate percentage of the total project cost, not to exceed 50 percent as calculated under section 13532 of this title; or

(2) financial assistance, including grants, cooperative agreements, or loans as authorized under this Act or other statutory authority of the Secretary.

REFERENCES IN TEXT

§13573. Generation projects

(a) Eligible projects

Projects supported under section 13572(a)(1) of this title may include—

(1) equipment or processes previously supported by a Department of Energy program;

(2) advanced combustion equipment and processes that the Secretary determines will be cost-effective and could substantially contribute to meeting environmental or energy needs, including gasification, gasification fuel cells, gasification coproduction, oxidation combustion techniques, ultra-supercritical boilers, and chemical looping; and

(3) hybrid gasification/combustion systems, including systems integrating fuel cells with gasification or combustion units.

(b) Criteria

The Secretary shall establish criteria for the selection of generation projects under section 13572(a)(1) of this title. The Secretary may modify the criteria as appropriate to reflect improvements in equipment, except that the criteria shall not be modified to be less stringent.

The selection criteria shall include—

(1) prioritization of projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas;

(2) prioritization of projects whose installation is likely to result in lower emission rates of pollution;

(3) prioritization of projects that result in the repowering or replacement of older, less efficient units;

(4) documented broad interest in the procurement of the equipment and utilization of the processes used in the projects by owners or operators of facilities for electricity generation;

(5) equipment and processes beginning in 2006 through 2011 that are projected to achieve a thermal efficiency of—
   (A) 40 percent for coal of more than 9,000 Btu per pound based on higher heating values;
   (B) 38 percent for coal of 7,000 to 9,000 Btu per pound passed on higher heating values; and
   (C) 36 percent for coal of less than 7,000 Btu per pound based on higher heating values; except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph; and

(6) equipment and processes beginning in 2012 and 2013 that are projected to achieve a thermal efficiency of—
   (A) 45 percent for coal of more than 9,000 Btu per pound based on higher heating values;
   (B) 44 percent for coal of 7,000 to 9,000 Btu per pound passed on higher heating values; and
   (C) 40 percent for coal of less than 7,000 Btu per pound based on higher heating values; except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph.

(c) Program balance and priority

In carrying out the program under section 13572(a)(1) of this title, the Secretary shall ensure, to the extent practicable, that—

(1) between 25 percent and 75 percent of the projects supported are for the sole purpose of electrical generation; and

(2) priority is given to projects that use electrical generation equipment and processes that have been developed and demonstrated and applied in actual production of electricity, but are not yet cost-competitive, and that achieve greater efficiency and environmental performance.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out section 13572(a)(1) of this title—

(1) $250,000,000 for fiscal year 2007;

(2) $350,000,000 for fiscal year 2008;

(3) $400,000,000 for each of fiscal years 2009 through 2012; and
§ 13574. Air quality enhancement program

(a) Eligible projects
Projects supported under section 13572(a)(2) of this title shall—
(1) utilize technologies that meet relevant Federal and State clean air requirements applicable to the unit or facility, including being adequately demonstrated for purposes of section 7411 of this title, achievable for purposes of section 7479 of this title, or achievable in practice for purposes of section 7501 of this title solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under section 13572(a)(1) of this title.

(b) Priority in project selection
In making an award under section 13572(a)(2) of this title, the Secretary shall give priority to—
(1) projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas or substantially reduce the emission level of criteria pollutants and mercury air emissions;
(2) projects for pollution control that result in the mitigation or collection of more than 1 pollutant; and
(3) projects designed to allow the use of the waste byproducts or other byproducts of the equipment.

(c) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out section 13572(a)(2) of this title—
(1) $300,000,000 for fiscal year 2007;
(2) $100,000,000 for fiscal year 2008;
(3) $40,000,000 for fiscal year 2009;
(4) $30,000,000 for fiscal year 2010; and
(5) $30,000,000 for fiscal year 2011.

(d) Applicability
No technology, or level of emission reduction under subsection (a)(2) shall be treated as adequately demonstrated for purposes of section 7411 of this title, achievable for purposes of section 7479 of this title, or achievable in practice for purposes of section 7501 of this title solely by the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under section 13572(a)(2) of this title.

CHAPTER 135—RESIDENCY AND SERVICE REQUIREMENTS IN FEDERALLY ASSISTED HOUSING

SUBCHAPTER I—STANDARDS AND OBLIGATIONS OF RESIDENCY IN FEDERALLY ASSISTED HOUSING

Sec. 13601. Compliance by owners as condition of Federal assistance.
13602. Compliance with criteria for occupancy as requirement for tenancy.
13603. Establishment of criteria for occupancy.
13604. Assisted applications.

SUBCHAPTER II—AUTHORITY TO PROVIDE PREFERENCES FOR ELDERLY RESIDENTS AND UNITS FOR DISABLED RESIDENTS IN CERTAIN SECTION 8 ASSISTED HOUSING

13611. Authority.
13612. Reservation of units for disabled families.
13613. Secondary preferences.
13614. General availability of units.
13615. Preference within groups.
13616. Prohibition of evictions.
13617. Treatment of covered section 8 housing not subject to elderly preference.
13618. Treatment of other federally assisted housing.
13619. “Covered section 8 housing” defined.
13620. Study.

SUBCHAPTER III—SERVICE COORDINATORS FOR ELDERLY AND DISABLED RESIDENTS OF FEDERALLY ASSISTED HOUSING

13631. Requirement to provide service coordinators.
13632. Grants for costs of providing service coordinators in certain federally assisted housing.

SUBCHAPTER IV—GENERAL PROVISIONS

13641. Definitions.
13642. Applicability.
13643. Regulations.

SUBCHAPTER V—SAFETY AND SECURITY IN PUBLIC AND ASSISTED HOUSING

13661. Screening of applicants for federally assisted housing.
13662. Termination of tenancy and assistance for illegal drug users and alcohol abusers in federally assisted housing.
13663. Ineligibility of dangerous sex offenders for admission to public housing.
13664. Definitions.

SUBCHAPTER I—STANDARDS AND OBLIGATIONS OF RESIDENCY IN FEDERALLY ASSISTED HOUSING

§ 13601. Compliance by owners as condition of Federal assistance

The Secretary of Housing and Urban Development shall require owners of federally assisted housing (as such term is defined in section 13641(2) of this title), as a condition of receiving housing assistance for such housing, to comply with the procedures and requirements established under this subchapter.

\footnote{So in original. Probably should be “purposes”.
So in original. Probably should be “purposes of section”.}
§ 13602. Compliance with criteria for occupancy as requirement for tenancy

In selecting tenants for occupancy of units in federally assisted housing, an owner of such housing shall utilize the criteria for occupancy in federally assisted housing established by the Secretary, by regulation, under section 13603 of this title. If an owner determines that an applicant for occupancy in the housing does not meet such criteria, the owner may deny such applicant occupancy.

§ 13603. Establishment of criteria for occupancy

(a) Task force

(1) Establishment

To assist the Secretary in establishing reasonable criteria for occupancy in federally assisted housing, the Secretary shall establish a task force to review all rules, policy statements, handbooks, technical assistance memoranda, and other relevant documents issued by the Department of Housing and Urban Development on the standards and obligations governing residency in federally assisted housing and make recommendations to the Secretary for the establishment of such criteria for occupancy.

(2) Members

The Secretary shall appoint members to the task force, which shall include individuals representing the interests of owners, managers, and tenants of federally assisted housing, public housing agencies, owner and tenant advocacy organizations, persons with disabilities and disabled families, organizations assisting homeless individuals, and social service, mental health, and other nonprofit service providers who serve federally assisted housing.

(3) Compensation

Members of the task force shall not receive compensation for serving on the task force.

(4) Duties

The task force shall—
(A) review all existing standards, regulations, and guidelines governing occupancy and tenant selection policies in federally assisted housing;
(B) review all existing standards, regulations, and guidelines governing lease provisions and other rules of occupancy for federally assisted housing;
(C) determine whether the standards, regulations, and guidelines reviewed under subparagraphs (A) and (B) provide sufficient guidance to owners and managers of federally assisted housing to—
(i) develop procedures for preselection inquiries sufficient to determine the capacity of applicants to comply with reasonable lease terms and conditions of occupancy;
(ii) utilize leases that prohibit behavior which endangers the health or safety of other tenants or violates the rights of other tenants to peaceful enjoyment of the premises;
(iii) assess the need to provide, and appropriate measures for providing, reasonable accommodations required under the Fair Housing Act [42 U.S.C. 3601 et seq.] and section 794 of title 29 for persons with various types of disabilities; and
(iv) comply with civil rights laws and regulations;
(D) propose criteria for occupancy in federally assisted housing, standards for the reasonable performance and behavior of tenants of federally assisted housing, compliance standards consistent with the reasonable accommodation of the requirements of the Fair Housing Act [42 U.S.C. 3601 et seq.] and section 794 of title 29, standards for compliance with other civil rights laws, and procedures for the eviction of tenants not complying with such standards consistent with sections 1437d and 1437f of this title; and
(E) report to the Congress and the Secretary of Housing and Urban Development pursuant to paragraph (7).

(5) Procedure

In carrying out its duties, the task force shall hold public hearings and receive written comments for a period of not less than 60 days.

(6) Support

The Secretary of Housing and Urban Development shall cooperate fully with the task force and shall provide support staff and office space to assist the task force in carrying out its duties.

(7) Reports

Not later than 3 months after October 28, 1992, the task force shall submit to the Secretary and the Congress a preliminary report describing its initial actions. Not later than 6 months after October 28, 1992, the task force shall submit a report to the Secretary and the Congress, which shall include—
(A) a description of its findings; and
(B) recommendations to revise such standards, regulations, and guidelines to provide accurate and complete guidance to owners and managers of federally assisted housing as determined necessary under paragraph (4).

(b) Rulemaking

(1) Authority

The Secretary shall, by regulation, establish criteria for selection of tenants for occupancy in federally assisted housing and lease provisions for such housing.

(2) Standards

The criteria shall provide sufficient guidance to owners and managers of federally assisted housing to enable them to (A) select tenants capable of complying with reasonable
lease terms, (B) utilize leases prohibiting behavior which endangers the health or safety of others or violates the right of other tenants to peaceful enjoyment of the premises, (C) comply with legal requirements to make reasonable accommodations for persons with disabilities, and (D) comply with civil rights laws. The criteria shall be consistent with the requirements under subsections (k) and (l) of section 1437d of this title and section 1437f(d)(1) of this title and any similar contract and lease requirements for federally assisted housing. In establishing the criteria, the Secretary shall take into consideration the report of the task force under subsection (a)(7).

(3) Procedure

Not later than 90 days after the submission of the final report under subsection (a)(7), the Secretary shall issue a notice of proposed rulemaking of the regulations under this subsection providing for notice and opportunity for public comment regarding the regulations, pursuant to the provisions of section 553 of title 5 (notwithstanding subsections (a)(2), (b)(B), and (d)(3) of such section). The duration of the period for public comment under such section 553 shall not be less than 60 days. The Secretary shall issue final regulations under this subsection not later than the expiration of the 60-day period beginning upon the conclusion of the comment period, which shall take effect upon issuance.

REFERENCES IN TEXT

The Fair Housing Act, referred to in subsec. (a)(4)(C)(iii), (D), is title VIII of Pub. L. 90–284, Apr. 11, 1968, 82 Stat. 81, as amended, which is classified principally to subchapter I (§ 3601 et seq.) of chapter 45 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3601 of this title and Tables.

§ 13604. Assisted applications

(a) Authority

The Secretary shall provide that any individual or family applying for occupancy in federally assisted housing may include in the application for the housing the name, address, phone number, and other relevant information of a family member, friend, or social, health, advocacy, or other organization, and that the owner shall treat such information as confidential.

(b) Maintenance of information

The Secretary shall require the owner of any federally assisted housing receiving an application including such information to maintain such information for any applicants who become tenants of the housing, for the purposes of facilitating contact by the owner with such person or organization to assist in providing any services or special care for the tenant and assist in resolving any relevant tenancy issues arising during the tenancy of such tenant.

(c) Limitations

An owner of federally assisted housing may not require any individual or family applying for occupancy in the housing to provide the information described in subsection (a).

SUBCHAPTER II—AUTHORITY TO PROVIDE PREFERENCES FOR ELDERLY RESIDENTS AND UNITS FOR DISABLED RESIDENTS IN CERTAIN SECTION 8 ASSISTED HOUSING

§ 13611. Authority

Notwithstanding any other provision of law, an owner of a covered section 8 housing project (as such term is defined in section 13619 of this title) designed primarily for occupancy by elderly families may, in selecting tenants for units in the project that become available for occupancy, give preference to elderly families who have applied for occupancy in the housing, subject to the requirements of this subchapter.

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original “this subtitle”, meaning subtitle D of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3823, which enacted this subchapter and amended section 1437f of this title.

§ 13612. Reservation of units for disabled families

(a) Requirement

Notwithstanding any other provision of law, for any project for which an owner gives preference in occupancy to elderly families pursuant to section 13611 of this title, such owner shall (subject to sections 13613, 13614, and 13615 of this title) reserve units in the project for occupancy only by disabled families who are not elderly or near-elderly families (and who have applied for occupancy in the housing) in the number determined under subsection (b).

(b) Number of units

Each owner required to reserve units in a project for occupancy under subsection (a) shall reserve a number of units in the project that is not less than the lesser of—

(1) the number of units equivalent to the higher of—

(A) the percentage of units in the project that were occupied by such disabled families upon October 28, 1992; or

(B) the percentage of units in the project that were occupied by such families upon January 1, 1992; or

(2) 10 percent of the number of units in the project.

§ 13613. Secondary preferences

(a) Insufficient elderly families

If an owner of a covered section 8 housing project in which elderly families are given a preference for occupancy pursuant to section 13611 of this title determines (in accordance with regulations established by the Secretary) that
there are insufficient numbers of elderly families who have applied for occupancy in the housing to fill all the units in the project not reserved under section 13612 of this title, the owner may give preference for occupancy of such units to disabled families who are near-elderly families and have applied for occupancy in the housing.

(b) Insufficient non-elderly disabled families

If an owner of a covered section 8 housing project in which elderly families are given a preference for occupancy pursuant to section 13611 of this title determines (in accordance with regulations established by the Secretary) that there are insufficient numbers of disabled families who are not elderly or near-elderly families and have applied for occupancy in the housing to fill all the units in the project reserved under section 13612 of this title, the owner may give preference for occupancy of units so reserved to disabled families who are near-elderly families and have applied for occupancy in the housing.

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§ 13614. General availability of units

If an owner of a covered section 8 housing project in which disabled families who are near-elderly families are given a preference for occupancy pursuant to subsection (a) or (b) of section 13613 of this title determines (in accordance with regulations established by the Secretary) that there are an insufficient number of such families to fill all the units in the project for which the preference is applicable, the owner shall make such units generally available for occupancy by families who have applied, and are eligible, for occupancy in the housing, without regard to the preferences established pursuant to this subchapter.

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§ 13615. Preference within groups

Among disabled families qualifying for occupancy in units reserved under section 13612 of this title, and among elderly families and near-elderly families qualifying for preference for occupancy pursuant to section 13611 or 13613 of this title, preference for occupancy in units that are assisted under section 1437f of this title shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency.

AMENDMENTS

1998—Pub. L. 105–276 substituted “shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency,” for “shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency,” and “shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency,” for “shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency.”

§ 13616. Prohibition of evictions

Any tenant who, except for reservation of a percentage of the units of a project pursuant to section 13612 of this title or any preference for occupancy established pursuant to this subchapter, is lawfully residing in a dwelling unit in a covered section 8 housing project, may not be evicted or otherwise required to vacate such unit because of the reservation or preferences or because of any action taken by the Secretary of Housing and Urban Development or the owner of the project pursuant to this subchapter.

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§ 13617. Treatment of covered section 8 housing not subject to elderly preference

If an owner of any covered section 8 housing project designed primarily for occupancy by elderly families does not give preference in occupancy to elderly families as authorized in this subchapter, then elderly families (as such term was defined in section 1437a of this title before October 28, 1992) shall be eligible for occupancy in such housing to the same extent that such families were eligible before October 28, 1992.

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§ 13618. Treatment of other federally assisted housing

(a) Restricted occupancy

An owner of any federally assisted project (or portion of a project) as described in subparagraphs (D), (E), and (F) of section 13641(2) of this title that was designed for occupancy by elderly families may continue to restrict occupancy in such project (or portion) to elderly families in accordance with the rules, standards, and agree-
ments governing occupancy in such housing in effect at the time of the development of the housing.

(b) Prohibition of evictions

Any tenant who is lawfully residing in a dwelling unit in a housing project described in subsection (a) may not be evicted or otherwise required to vacate such unit because of any reservation or preferences under this subchapter or because of any action taken by the Secretary of Housing and Urban Development or the owner of the project pursuant to this subchapter.

§ 13619. “Covered section 8 housing” defined

For purposes of this subchapter, the term “covered section 8 housing” means housing described in section 13641(2)(G) of this title that was originally designed for occupancy by elderly families.

§ 13620. Study

The Secretary of Housing and Urban Development shall conduct a study to determine the extent to which Federal housing programs serve elderly families, disabled families, and families with children, in relation to the need of such families who are eligible for assistance under such programs. The Secretary shall submit a report to the Congress describing the study and the findings of the study not later than the expiration of the 1-year period beginning on October 28, 1992.

SUBCHAPTER III—SERVICE COORDINATORS FOR ELDERLY AND DISABLED RESIDENTS OF FEDERALLY ASSISTED HOUSING

§ 13631. Requirement to provide service coordinators

(a) In general

To the extent that amounts are made available for providing service coordinators under this section, the Secretary shall require owners of covered federally assisted housing projects (as such term is defined in subsection (d)) receiving such amounts to provide for employing or otherwise retaining the services of one or more individuals to coordinate the provision of supportive services for elderly and disabled families residing in the projects (in this section referred to as a “service coordinator”). No such elderly or disabled family may be required to accept services.

(b) Responsibilities

Each service coordinator of a covered federally assisted housing project provided pursuant to this subtitle1 or the amendments made by this subtitle—

(1) shall consult with the owner of the housing, tenants, any tenant organizations, any resident management organizations, service providers, and any other appropriate persons, to identify the particular needs and characteristics of elderly and disabled families who reside in the project and any supportive services related to such needs and characteristics;

(2) shall manage and coordinate the provision of such services for residents of the project;

(3) may provide training to tenants of the project in the obligations of tenancy or coordinate such training;

(4) shall meet the minimum qualifications and standards required under section 8011(d)(4) of this title; and

(5) may carry out other appropriate activities for residents of the project.

(c) Included services

Supportive services referred to under subsection (b)(1) may include health-related services, mental health services, services for nonmedical counseling, meals, transportation, personal care, bathing, toileting, housekeeping, chore assistance, safety, group and socialization activities, assistance with medications (in accordance with any applicable State laws), case management, personal emergency response, education and outreach regarding telemarketing fraud in accordance with the standards issued under subsection (f), and other appropriate services. The services may be provided through any agency of the Federal Government or any other public or private department, agency, or organization.

(d) Covered federally assisted housing

For purposes of this subtitle, the term “covered federally assisted housing” means housing that is federally assisted housing (as such term is defined in section 13641(2) of this title), except that such term does not include housing described in subparagraphs (C) and (D) of such section.

(e) Services for low-income elderly or disabled families residing in vicinity of certain projects

To the extent only that this section applies to service coordinators for covered federally assisted housing described in subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title, any reference in this section to elderly or disabled residents of a project shall be construed to include low-income elderly or disabled families living in the vicinity of such project.

(f) Protection against telemarketing fraud

(1) In general

The Secretary, in coordination with the Secretary of Health and Human Services, shall establish standards for service coordinators in federally assisted housing who are providing education and outreach to elderly persons residing in such housing regarding telemarketing fraud. The standards shall be designed to ensure that such education and outreach informs such elderly persons of the dangers of telemarketing fraud and facilitates the investigation and prosecution of telemarketers engaging in fraud against such residents.

1 See References in Text note below.
(2) Contents

The standards established under this subsection shall require that any such education and outreach be provided in a manner that—

(A) informs such residents of—

(i) the prevalence of telemarketing fraud targeted against elderly persons;

(ii) how telemarketing fraud works;

(iii) how to identify telemarketing fraud;

(iv) how to protect themselves against telemarketing fraud, including an explanation of the dangers of providing bank account, credit card, or other financial or personal information over the telephone to unsolicited callers;

(v) how to report suspected attempts at telemarketing fraud; and

(vi) their consumer protection rights under Federal law;

(B) provides such other information as the Secretary considers necessary to protect such residents against fraudulent telemarketing; and

(C) disseminates the information provided by appropriate means, and in determining such appropriate means, the Secretary shall consult on-site presentations at federally assisted housing, public service announcements, a printed manual or pamphlet, an Internet website, and telephone outreach to residents whose names appear on “mooch lists,” confiscated from fraudulent telemarketers.

REFERENCES IN TEXT

This subtitle, referred to in subsecs. (b) and (d), means subtitle E of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3826, which enacted this subchapter, amended sections 1437f, 1437g, and 8011 of this title and section 1701q of Title 12, Banks and Banking, and enacted provisions set out as a note under section 1701q of Title 12.

AMENDMENTS

2000—Subsec. (a). Pub. L. 106–569, § 851(b)(1), in first sentence, substituted “for providing service coordinators under this section” for “to carry out this subtitle pursuant to the amendments made by this subtitle.”

Subsec. (d). Pub. L. 106–569, § 851(b)(2), inserted closing parenthesis after “section 13641(2) of this title.”

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by title VIII of Pub. L. 106–569 effective Dec. 27, 2000, unless effectiveness or applicability upon another date certain is specifically provided for, with provisions relating to effect of regulatory authority, see section 803 of Pub. L. 106–569, set out as a note under section 1701q of Title 12, Banks and Banking.

§ 13632. Grants for costs of providing service coordinators in certain federally assisted housing

(a) Authority

The Secretary may make grants under this section to owners of federally assisted housing projects described in subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title. Any grant amounts shall be used for the costs of employing or otherwise retaining the services of one or more service coordinators under section 13631 of this title to coordinate the provision of any services within the project for residents of the project who are elderly families and disabled families (as such terms are defined in section 13641 of this title). A service coordinator funded with a grant under this section for a project may provide services to low-income elderly or disabled families living in the vicinity of such project.

(b) Application and selection

The Secretary shall provide for the form and manner of applications for grants under this section and for selection of applicants to receive such grants.

(c) Eligible project expense

For any federally assisted housing project described in subparagraph (B), (C), (D), (E), (F), or (G) of section 13641(2) of this title that does not receive a grant under this section, the cost of employing or otherwise retaining the services of one or more service coordinators under section 13631 of this title and not more than 15 percent of the cost of providing services to the residents of the project shall be considered an eligible project expense, but only to the extent that amounts are available from project rent and other income for such costs.

AMENDMENTS

2000—Pub. L. 106–569, § 851(a)(1), substituted “certain federally assisted housing” for “multifamily housing assisted under National Housing Act” in section catchline.

Subsec. (a). Pub. L. 106–569, § 851(a)(2), substituted “subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title” for “subparagraphs (E) and (F) of section 13641(2) of this title”, made technical amendment to reference in original act which appears in text as reference to section 13631 of this title, and inserted at end “A service coordinator funded with a grant under this section for a project may provide services to low-income elderly or disabled families living in the vicinity of such project.”

Subsec. (c). Pub. L. 106–569, § 851(a)(4), redesignated subsec. (d) as (c) and struck out heading and text of former subsec. (c). Text read as follows: “There are authorized to be appropriated for fiscal years 1993 and 1994 such sums as may be necessary for grants under this section.”

Pub. L. 106–569, § 851(a)(3), substituted “subparagraph (B), (C), (D), (E), (F), or (G) of section 13641(2) of this title” for “subparagraph (E) or (F) of section 13641(2) of this title” and made technical amendment to reference in original act which appears in text as reference to section 13631 of this title.
SUBCHAPTER IV—GENERAL PROVISIONS

§ 13641. Definitions

For purposes of this title: 1

(1) Elderly, disabled, and near-elderly families

The terms “elderly family”, “disabled family”, and “near-elderly family” have the meanings given the terms under section 3(b)(3) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)(3)).

(2) Federally assisted housing

The terms “federally assisted housing” and “project” mean—

(A) a public housing project (as such term is defined in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)(1)));

(B) housing for which project-based assistance is provided under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f);

(C) housing that is assisted under section 1701q of title 12;

(D) housing that is assisted under section 1701q of title 12, as such section existed before November 28, 1990;

(E) housing financed by a loan or mortgage insured under section 1715(d)(3) of title 12 that bears interest at a rate determined under the proviso of section 1715(d)(5) of title 12;

(F) housing assisted, insured, or held by the Secretary or a State or State agency under section 1715e–1 of title 12;

(G) housing constructed or substantially rehabilitated pursuant to assistance provided under section 8(b)(2) of the United States Housing Act of 1937 (42 U.S.C. 1437f(b)(2)), as in effect before October 1, 1983, that is assisted under a contract for assistance under such section; and

(H) housing that is assisted under section 8013 of this title.

(3) Housing assistance

The term “housing assistance” means, with respect to federally assisted housing, the grant, contribution, capital advance, loan, mortgage insurance, or other assistance provided for the housing under the provisions of law referred to in paragraph (2). The term also includes any related assistance provided for the housing by the Secretary, including any rental assistance for low-income occupants.

(4) Owner

The term “owner” means, with respect to federally assisted housing, the entity or private person, including a cooperative or public housing agency, that has the legal right to lease or sublease dwelling units in such housing.

1 See References in Text note below.

(5) Secretary

The term “Secretary” means the Secretary of Housing and Urban Development.

References in Text

This title, referred to in text, is title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3802, which enacted this chapter, amended sections 1437a, 1437c to 1437f, 1437g, 1437o, 1438, 8011 to 8013, 12705, 12901 to 12910, and 12912 of this title and section 1701q of Title 12. Banks and Banking, enacted provisions set out as notes under sections 1437a, 8011, and 12901 of this title and section 1701q of Title 12, and amended provisions set out as a note under section 1701q of Title 12. For complete classification of this title to the Code, see Short Title of 1992 Amendment note set out under section 5301 of this title and Tables.

§ 13642. Applicability

Except as otherwise provided in subtitles B through F of this title and the amendments made by such subtitles, such subtitles and the amendments made by such subtitles shall apply upon the expiration of the 6-month period beginning on October 28, 1992.

References in Text

Subtitles B through F of this title, referred to in text, mean subtitles B to F of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3812–3830, which enacted this chapter, amended sections 1437a, 1437c to 1437f, 1437g, 1437o, 1438, 8011 to 8013, 12705, and 12912 of this title and section 1701q of Title 12, Banks and Banking, and enacted provisions set out as notes under section 1437a of this title and section 1701q of Title 12.

§ 13643. Regulations

The Secretary shall issue regulations necessary to carry out subtitles B through F of this title and the amendments made by such subtitles not later than the expiration of the 6-month period beginning on October 28, 1992. The regulations shall be issued after notice and opportunity for public comment pursuant to the provisions of section 553 of title 5 (notwithstanding subsections (a)(2), (b)(1), and (d)(3) of such section).

References in Text

Subtitles B through F of this title, referred to in text, mean subtitles B to F of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3812–3830, which enacted this chapter, amended sections 1437a, 1437c to 1437f, 1437g, 1437o, 1438, 8011, 8013, and 12705 of this title and section 1701q of Title 12.
§ 13661. Screening of applicants for federally assisted housing

(a) Ineligibility because of eviction for drug crimes

Any tenant evicted from federally assisted housing by reason of drug-related criminal activity (as such term is defined in section 1437a(b) of this title) shall not be eligible for federally assisted housing during the 3-year period beginning on the date of such eviction, unless the evicted tenant successfully completes a rehabilitation program approved by the public housing agency (which shall include a waiver of this subsection if the circumstances leading to eviction no longer exist).

(b) Ineligibility of illegal drug users and alcohol abusers

(1) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing, as determined by the Secretary, shall establish standards that prohibit admission to the program or admission to federally assisted housing for any household with a member—

(A) who the public housing agency or owner determines is illegally using a controlled substance; or

(B) with respect to whom the public housing agency or owner determines that it has reasonable cause to believe that such household member’s illegal use (or pattern of illegal use) of a controlled substance, or abuse (or pattern of abuse) of alcohol, may interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(2) Consideration of rehabilitation

In determining whether, pursuant to paragraph (1)(B), to deny admission to the program or federally assisted housing to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(A) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(B) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(C) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

(c) Authority to deny admission to criminal offenders

Except as provided in subsections (a) and (b) of this section and in addition to any other authority to screen applicants, in selecting among applicants for admission to the program or to federally assisted housing, if the public housing agency or owner of such housing (as applicable) determines that an applicant or any member of the applicant’s household is or was, during a reasonable time preceding the date when the applicant household would otherwise be selected for admission, engaged in any drug-related or violent criminal activity or other criminal activity which would adversely affect the health, safety, or right to peaceful enjoyment of the premises by other residents, the owner, or public housing agency employees, the public housing agency or owner may—

(1) deny such applicant admission to the program or to federally assisted housing; and

(2) after the expiration of the reasonable period beginning upon such activity, require the applicant, as a condition of admission to the program or to federally assisted housing, to submit to the public housing agency or owner evidence sufficient (as the Secretary shall by regulation provide) to ensure that the individual or individuals in the applicant’s household who engaged in criminal activity for which denial was made under paragraph (1) have not engaged in any criminal activity during such reasonable period.

Codification

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

Effective Date

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, with provision that Secretary may implement any provision of this section before such date, except to extent otherwise provided, see section 503 of Pub. L. 105–276, set out as an effective date of 1998 Amendment note under section 1437 of this title.

§ 13662. Termination of tenancy and assistance for illegal drug users and alcohol abusers in federally assisted housing

(a) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing (as applicable), shall establish standards or lease provisions for continued assistance or occupancy in federally assisted housing that allow the agency or owner (as applicable) to terminate the tenancy or assistance for any household with a member—

(1) who the public housing agency or owner determines is illegally using a controlled substance; or

(2) whose illegal use (or pattern of illegal use) of a controlled substance, or whose abuse (or pattern of abuse) of alcohol, is determined by the public housing agency or owner to interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.
(b) Consideration of rehabilitation

In determining whether, pursuant to subsection (a)(2), to terminate tenancy or assistance to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(1) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(2) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(3) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

CODIFICATION

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.

§ 13663. Ineligibility of dangerous sex offenders for admission to public housing

(a) In general

Notwithstanding any other provision of law, any owner of federally assisted housing shall prohibit admission to such housing for any household that includes any individual who is subject to a lifetime registration requirement under a State sex offender registration program.

(b) Obtaining information

As provided in regulations issued by the Secretary to carry out this section—

(1) a public housing agency shall carry out criminal history background checks on applicants for federally assisted housing and make further inquiry with State and local agencies as necessary to determine whether an applicant for federally assisted housing is subject to a lifetime registration requirement under a State sex offender registration program; and

(2) State and local agencies responsible for the collection or maintenance of criminal history record information or information on persons required to register as sex offenders shall comply with requests of public housing agencies for information pursuant to this section.

(c) Requests by owners for PHAs to obtain information

A public housing agency may take any action under subsection (b) regarding applicants for, or tenants of, federally assisted housing other than federally assisted housing described in subparagraph (A) or (B) of section 13664(a)(2) of this title, but only if the housing is located within the jurisdiction of the agency and the owner of such housing has requested that the agency take such action on behalf of the owner. Upon such a request by the owner, the agency shall take the action requested under subsection (b). The agency may not make any information obtained pursuant to the action under subsection (b) available to the owner but shall perform determinations for the owner regarding screening, lease enforcement, and eviction based on criteria supplied by the owner.

(d) Opportunity to dispute

Before an adverse action is taken with respect to an applicant for federally assisted housing on the basis that an individual is subject to a lifetime registration requirement under a State sex offender registration program, the public housing agency obtaining the record shall provide the tenant or applicant with a copy of the registration information and an opportunity to dispute the accuracy and relevance of that information.

(e) Fee

A public housing agency may be charged a reasonable fee for taking actions under subsection (b). In the case of a public housing agency taking actions on behalf of another owner of federally assisted housing pursuant to subsection (c), the owner may pass such fee on to the owner making the request and may charge an additional reasonable fee for making the request on behalf of the owner.

(f) Records management

Each public housing agency应当 establish and implement a system of records management that ensures that any criminal record or information regarding a lifetime registration requirement under a State sex offender registration program that is obtained under this section by the public housing agency is—

(1) maintained confidentially;

(2) not misused or improperly disseminated; and

(3) destroyed, once the purpose for which the record was requested has been accomplished.

CODIFICATION

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.
§ 13664. Definitions

(a) Definitions

For purposes of this subchapter, the following definitions shall apply:

(1) Drug-related criminal activity

The term “drug-related criminal activity” has the meaning given the term in section 1437a(b) of this title.

(2) Federally assisted housing

The term “federally assisted housing” means a dwelling unit—

(A) in public housing (as such term is defined in section 1437a(b) of this title);

(B) assisted with tenant-based assistance under section 1437 of this title;

(C) in housing that is provided project-based assistance under section 1437f of this title, including new construction and substantial rehabilitation projects;

(D) in housing that is assisted under section 1701q of title 12 (as amended by section 801 of the Cranston-Gonzalez National Affordable Housing Act);

(E) in housing that is assisted under section 1701q of title 12, as such section existed before the enactment of the Cranston-Gonzalez National Affordable Housing Act [November 28, 1990];

(F) in housing that is assisted under section 8013 of this title;

(G) in housing financed by a loan or mortgage insured under section 1715(d)(3) of title 12 that bears interest at a rate determined under the proviso of section 1715(d)(5) of title 12;

(H) in housing insured, assisted, or held by the Secretary or a State or State agency under section 1715z–1 of title 12; or

(I) in housing assisted under section 1484 or 1485 of this title.

(3) Owner

The term “owner” means, with respect to federally assisted housing, the entity or private person (including a cooperative or public housing agency) that has the legal right to lease or sublease dwelling units in such housing.

§ 13701. Transferred
CODIFICATION
Section 13701 was editorially reclassified as section 12101 of Title 34, Crime Control and Law Enforcement.

SHORT TITLE OF 1996 AMENDMENTS
Pub. L. 104–236, § 1, Oct. 3, 1996, 110 Stat. 3093, provided that: "This Act [enacting former sections 14072 and 14073 of this title, amending former section 14071 of this title, and enacting provisions formerly set out as notes under section 14071 of this title] may be cited as the 'Pam Lychner Sexual Offender Tracking and Identification Act of 1996'."

Pub. L. 104–145, § 1, May 17, 1996, 110 Stat. 1345, provided that: "This Act [amending former section 14071 of this title] may be cited as 'Megan's Law'."

SHORT TITLE

§ 13702. Transferred
CODIFICATION
Section 13702 was editorially reclassified as section 12102 of Title 34, Crime Control and Law Enforcement.

§ 13703. Transferred
CODIFICATION
Section 13703 was editorially reclassified as section 12103 of Title 34, Crime Control and Law Enforcement.

§ 13704. Transferred
CODIFICATION
Section 13704 was editorially reclassified as section 12104 of Title 34, Crime Control and Law Enforcement.

§ 13705. Transferred
CODIFICATION
Section 13705 was editorially reclassified as section 12105 of Title 34, Crime Control and Law Enforcement.

§ 13706. Transferred
CODIFICATION
Section 13706 was editorially reclassified as section 12106 of Title 34, Crime Control and Law Enforcement.

§ 13707. Transferred
CODIFICATION
Section 13707 was editorially reclassified as section 12107 of Title 34, Crime Control and Law Enforcement.

§ 13708. Transferred
CODIFICATION
Section 13708 was editorially reclassified as section 12108 of Title 34, Crime Control and Law Enforcement.

§ 13709. Transferred
CODIFICATION
Section 13709 was editorially reclassified as section 12109 of Title 34, Crime Control and Law Enforcement.

§ 13710. Transferred
CODIFICATION
Section 13710 was editorially reclassified as section 12110 of Title 34, Crime Control and Law Enforcement.

§ 13711. Transferred
CODIFICATION
Section 13711 was editorially reclassified as section 12111 of Title 34, Crime Control and Law Enforcement.

§ 13712. Transferred
CODIFICATION
Section 13712 was editorially reclassified as section 12112 of Title 34, Crime Control and Law Enforcement.

§ 13713. Transferred
CODIFICATION
Section 13713 was editorially reclassified as section 12113 of Title 34, Crime Control and Law Enforcement.

PART B—MISCELLANEOUS PROVISIONS

§ 13721. Transferred
CODIFICATION
Section 13721 was editorially reclassified as section 12121 of Title 34, Crime Control and Law Enforcement.

§ 13722. Transferred
CODIFICATION
Section 13722 was editorially reclassified as section 12122 of Title 34, Crime Control and Law Enforcement.

§ 13723. Omitted
CODIFICATION

§ 13724. Transferred
CODIFICATION
Section 13724 was editorially reclassified as section 12124 of Title 34, Crime Control and Law Enforcement.

§ 13725. Transferred
CODIFICATION
Section 13725 was editorially reclassified as section 12125 of Title 34, Crime Control and Law Enforcement.

§ 13726. Transferred
CODIFICATION
Section 13726 was editorially reclassified as section 60101 of Title 34, Crime Control and Law Enforcement.

§ 13726a. Transferred
CODIFICATION
Section 13726a was editorially reclassified as section 60102 of Title 34, Crime Control and Law Enforcement.
§ 13726. Transferred
CODIFICATION
Section 13726 was editorially reclassified as section 60104 of Title 34, Crime Control and Law Enforcement.

§ 13726c. Transferred
CODIFICATION
Section 13726c was editorially reclassified as section 60105 of Title 34, Crime Control and Law Enforcement.

§ 13727. Transferred
CODIFICATION
Section 13727 was editorially reclassified as section 60106 of Title 34, Crime Control and Law Enforcement.

§ 13727a. Transferred
CODIFICATION
Section 13727a was editorially reclassified as a note under section 4001 of Title 18, Crimes and Criminal Procedure.

SUBCHAPTER II—CRIME PREVENTION
PART A—OUNCIE OF PREVENTION COUNCIL

§ 13741. Transferred
CODIFICATION
Section 13741 was editorially reclassified as section 12131 of Title 34, Crime Control and Law Enforcement.

§ 13742. Transferred
CODIFICATION
Section 13742 was editorially reclassified as section 12132 of Title 34, Crime Control and Law Enforcement.

§ 13743. Transferred
CODIFICATION
Section 13743 was editorially reclassified as section 12133 of Title 34, Crime Control and Law Enforcement.

§ 13744. Omitted
CODIFICATION

PART B—LOCAL CRIME PREVENTION BLOCK GRANT PROGRAM

YOUTH VIOLENCE REDUCTION DEMONSTRATION PROJECTS
Pub. L. 109–162, title XI, § 1199, Jan. 5, 2006, 119 Stat. 3132, which authorized the Attorney General to make up to 5 grants for the purpose of carrying out Youth Violence Demonstration Projects, was editorially reclassified and is set out as a note under section 11313 of Title 34, Crime Control and Law Enforcement.

§ 13812. Omitted
CODIFICATION

PART G—NATIONAL COMMUNITY ECONOMIC PARTNERSHIP
SUBPART 1—COMMUNITY ECONOMIC PARTNERSHIP INVESTMENT FUNDS
§ 13821. Transferred
CODIFICATION
Section 13821 was editorially reclassified as section 12181 of Title 34, Crime Control and Law Enforcement.

§ 13822. Transferred
CODIFICATION
Section 13822 was editorially reclassified as section 12182 of Title 34, Crime Control and Law Enforcement.

§ 13823. Transferred
CODIFICATION
Section 13823 was editorially reclassified as section 12183 of Title 34, Crime Control and Law Enforcement.

§ 13824. Transferred
CODIFICATION
Section 13824 was editorially reclassified as section 12184 of Title 34, Crime Control and Law Enforcement.

§ 13825. Transferred
CODIFICATION
Section 13825 was editorially reclassified as section 12185 of Title 34, Crime Control and Law Enforcement.

§ 13826. Transferred
CODIFICATION
Section 13826 was editorially reclassified as section 12186 of Title 34, Crime Control and Law Enforcement.

SUBPART 2—EMERGING COMMUNITY DEVELOPMENT CORPORATIONS
§ 13841. Transferred
CODIFICATION
Section 13841 was editorially reclassified as section 12201 of Title 34, Crime Control and Law Enforcement.

§ 13842. Transferred
CODIFICATION
Section 13842 was editorially reclassified as section 12202 of Title 34, Crime Control and Law Enforcement.

SUBPART 3—MISCELLANEOUS PROVISIONS
§ 13851. Transferred
CODIFICATION
Section 13851 was editorially reclassified as section 12211 of Title 34, Crime Control and Law Enforcement.

§ 13852. Omitted
CODIFICATION

§ 13853. Transferred
CODIFICATION
Section 13853 was editorially reclassified as section 12212 of Title 34, Crime Control and Law Enforcement.

PART H—COMMUNITY-BASED JUSTICE GRANTS FOR PROSECUTORS
§ 13861. Transferred
CODIFICATION
Section 13861 was editorially reclassified as section 12221 of Title 34, Crime Control and Law Enforcement.

§ 13862. Transferred
CODIFICATION
Section 13862 was editorially reclassified as section 12222 of Title 34, Crime Control and Law Enforcement.

§ 13863. Transferred
CODIFICATION
Section 13863 was editorially reclassified as section 12223 of Title 34, Crime Control and Law Enforcement.
§ 13864. Transferred
CODIFICATION
Section 13864 was editorially reclassified as section 12224 of Title 34, Crime Control and Law Enforcement.

§ 13865. Transferred
CODIFICATION
Section 13865 was editorially reclassified as section 12225 of Title 34, Crime Control and Law Enforcement.

§ 13866. Transferred
CODIFICATION
Section 13866 was editorially reclassified as section 12226 of Title 34, Crime Control and Law Enforcement.

§ 14043b. Transferred

CODIFICATION

Section 14043b was editorially reclassified as section 12441 of Title 34, Crime Control and Law Enforcement.

§ 14043b–1. Transferred

CODIFICATION

Section 14043b–1 was editorially reclassified as section 12442 of Title 34, Crime Control and Law Enforcement.

§ 14043b–2. Transferred

CODIFICATION

Section 14043b–2 was editorially reclassified as section 12443 of Title 34, Crime Control and Law Enforcement.

§ 14043b–3. Transferred

CODIFICATION

Section 14043b–3 was editorially reclassified as section 12444 of Title 34, Crime Control and Law Enforcement.

§ 14043b–4. Omitted

CODIFICATION

Section 14043b–4 was editorially reclassified as section 12445 of Title 34, Crime Control and Law Enforcement.

Repeal not effective until the beginning of the fiscal year following Mar. 7, 2013, see section 4 of Pub. L. 113–4, set out as an Effective Date of 2013 Amendment note under section 2261 of Title 18, Crimes and Criminal Procedure.

PART K—SERVICES, EDUCATION, PROTECTION AND JUSTICE FOR YOUNG VICTIMS OF VIOLENCE

CODIFICATION

This part was, in the original, subtitle L of title IV of Pub. L. 103–322, as added by Pub. L. 109–162, and was redesignated as part K of this subchapter for purposes of codification.

§ 14043c. Transferred

CODIFICATION

Section 14043c was editorially reclassified as section 12451 of Title 34, Crime Control and Law Enforcement.

Repeal not effective until the beginning of the fiscal year following Mar. 7, 2013, see section 4 of Pub. L. 113–4, set out as an Effective Date of 2013 Amendment note under section 2261 of Title 18, Crimes and Criminal Procedure.

PART L—STRENGTHENING AMERICA’S FAMILIES BY PREVENTING VIOLENCE AGAINST WOMEN AND CHILDREN

CODIFICATION

This part was, in the original, subtitle M of title IV of Pub. L. 103–322, as added by Pub. L. 109–162, and was redesignated as part L of this subchapter for purposes of codification.

§ 14043d. Transferred

CODIFICATION

Section 14043d was editorially reclassified as section 12461 of Title 34, Crime Control and Law Enforcement.

§ 14043d–1. Transferred

CODIFICATION

Section 14043d–1 was editorially reclassified as section 12462 of Title 34, Crime Control and Law Enforcement.
§ 14043d–2. Transferred
CODIFICATION
Section 14043d–2 was editorially reclassified as section 12463 of Title 34, Crime Control and Law Enforcement.

EFFECTIVE DATE OF REPEAL
Repeal not effective until the beginning of the fiscal year following Mar. 7, 2013, see section 4 of Pub. L. 113–4, set out as an Effective Date of 2013 Amendment note under section 2261 of Title 18, Crimes and Criminal Procedure.

PART M—ADDRESSING THE HOUSING NEEDS OF VICTIMS OF DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING
CODIFICATION
This part was, in the original, subtitle N of title IV of Pub. L. 103–322, as added by Pub. L. 109–162, and was redesignated as part M of this subchapter for purposes of codification.

SUBPART 1—GRANT PROGRAMS
§ 14043e. Transferred
CODIFICATION
Section 14043e was editorially reclassified as section 12471 of Title 34, Crime Control and Law Enforcement.

§ 14043e–1. Transferred
CODIFICATION
Section 14043e–1 was editorially reclassified as section 12472 of Title 34, Crime Control and Law Enforcement.

§ 14043e–2. Transferred
CODIFICATION
Section 14043e–2 was editorially reclassified as section 12473 of Title 34, Crime Control and Law Enforcement.

§ 14043e–3. Transferred
CODIFICATION
Section 14043e–3 was editorially reclassified as section 12474 of Title 34, Crime Control and Law Enforcement.

§ 14043e–4. Transferred
CODIFICATION
Section 14043e–4 was editorially reclassified as section 12475 of Title 34, Crime Control and Law Enforcement.

SUBPART 2—HOUSING RIGHTS
§ 14043e–11. Transferred
CODIFICATION
Section 14043e–11 was editorially reclassified as section 12491 of Title 34, Crime Control and Law Enforcement.

PART N—NATIONAL RESOURCE CENTER
§ 14043f. Transferred
CODIFICATION
Section 14043f was editorially reclassified as section 12501 of Title 34, Crime Control and Law Enforcement.

PART N–1—SEXUAL ASSAULT SERVICES
§ 14043g. Transferred
CODIFICATION
Section 14043g was editorially reclassified as section 12511 of Title 34, Crime Control and Law Enforcement.

PART N–2—RAPE SURVIVOR CHILD CUSTODY
§ 14043h. Transferred
CODIFICATION
Section 14043h was editorially reclassified as section 21301 of Title 34, Crime Control and Law Enforcement.

§ 14043h–1. Transferred
CODIFICATION
Section 14043h–1 was editorially reclassified as section 21302 of Title 34, Crime Control and Law Enforcement.

§ 14043h–2. Transferred
CODIFICATION
Section 14043h–2 was editorially reclassified as section 21303 of Title 34, Crime Control and Law Enforcement.

§ 14043h–3. Transferred
CODIFICATION
Section 14043h–3 was editorially reclassified as section 21304 of Title 34, Crime Control and Law Enforcement.

§ 14043h–4. Transferred
CODIFICATION
Section 14043h–4 was editorially reclassified as section 21305 of Title 34, Crime Control and Law Enforcement.

§ 14043h–5. Transferred
CODIFICATION
Section 14043h–5 was editorially reclassified as section 21306 of Title 34, Crime Control and Law Enforcement.

§ 14043h–6. Transferred
CODIFICATION
Section 14043h–6 was editorially reclassified as section 21307 of Title 34, Crime Control and Law Enforcement.

§ 14043h–7. Transferred
CODIFICATION
Section 14043h–7 was editorially reclassified as section 21308 of Title 34, Crime Control and Law Enforcement.
PART O—COMBATTING DOMESTIC TRAFFICKING IN PERSONS

§ 14044. Transferred
CODIFICATION
Section 14044 was editorially reclassified as section 20701 of Title 34, Crime Control and Law Enforcement.

§ 14044a. Transferred
CODIFICATION
Section 14044a was editorially reclassified as section 20702 of Title 34, Crime Control and Law Enforcement.

§ 14044b. Transferred
CODIFICATION
Section 14044b was editorially reclassified as section 20703 of Title 34, Crime Control and Law Enforcement.

§ 14044b–1. Transferred
CODIFICATION
Section 14044b–1 was editorially reclassified as section 20704 of Title 34, Crime Control and Law Enforcement.

§ 14044c. Transferred
CODIFICATION
Section 14044c was editorially reclassified as section 20705 of Title 34, Crime Control and Law Enforcement.

§ 14044d. Transferred
CODIFICATION
Section 14044d was editorially reclassified as section 20706 of Title 34, Crime Control and Law Enforcement.

§ 14044e. Transferred
CODIFICATION
Section 14044e was editorially reclassified as section 20707 of Title 34, Crime Control and Law Enforcement.

§ 14044f. Transferred
CODIFICATION
Section 14044f was editorially reclassified as section 20708 of Title 34, Crime Control and Law Enforcement.

§ 14044g. Transferred
CODIFICATION
Section 14044g was editorially reclassified as section 20709 of Title 34, Crime Control and Law Enforcement.

§ 14044h. Transferred
CODIFICATION
Section 14044h was editorially reclassified as section 20711 of Title 34, Crime Control and Law Enforcement.

PART P—MISCELLANEOUS AUTHORITIES

§ 14045. Transferred
CODIFICATION
Section 14045 was editorially reclassified as section 20233 of Title 34, Crime Control and Law Enforcement.

§ 14045a. Transferred
CODIFICATION
Section 14045a was editorially reclassified as section 2024 of Title 34, Crime Control and Law Enforcement.
against a minor or a sexually violent offense and by sexually violent predators.

Effective Date of Repeal

Pub. L. 110–246, title I, §129(b), July 27, 2006, 120 Stat. 601, provided that: “Notwithstanding any other provision of this Act [see Tables for classification], this section [repealing sections 14071 to 14073 of this title] shall take effect on the date of the deadline determined in accordance with section 124(a) [34 U.S.C. 20926(a)] [3 years after July 27, 2006].”

Short Title

Subtitle A of title XVII of Pub. L. 103–322, which was classified generally to this subchapter prior to repeal, was popularly known as the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act.

CHAPTER 137—MANAGEMENT OF RECHARGEABLE BATTERIES AND BATTERIES CONTAINING MERCURY

SUBCHAPTER I—GENERALLY

§ 14301. Findings
Sec.
14301. Findings.
14302. Definitions.
14303. Information dissemination.
14304. Enforcement.
14305. Information gathering and access.
14306. State authority.
14307. Authorization of appropriations.

SUBCHAPTER II—RECYCLING OF RECHARGEABLE BATTERIES

14321. Purpose.
14322. Rechargeable consumer products and labeling.
14323. Requirements.

SUBCHAPTER III—MANAGEMENT OF BATTERIES CONTAINING MERCURY

14331. Purpose.
14332. Limitations on sale of alkaline-manganese batteries containing mercury.
14333. Limitations on sale of zinc-carbon batteries containing mercury.
14334. Limitations on sale of button cell mercuric-oxide batteries.
14335. Limitations on sale of other mercuric-oxide batteries.
14336. New product or use.

SUBCHAPTER I—GENERALLY

§ 14301. Findings
The Congress finds that—
(1) it is in the public interest to—
(A) phase out the use of mercury in batteries and provide for the efficient and cost-effective collection and recycling or proper disposal of used nickel cadmium batteries, small sealed lead-acid batteries, and other regulated batteries; and
(B) educate the public concerning the collection, recycling, and proper disposal of such batteries;
(2) uniform national labeling requirements for regulated batteries, rechargeable consumer products, and product packaging will significantly benefit programs for regulated battery collection and recycling or proper disposal; and
(3) it is in the public interest to encourage persons who use rechargeable batteries to participate in collection for recycling of used nickel-cadmium, small sealed lead-acid, and other regulated batteries.

SHORT TITLE
Pub. L. 104–142, §1, May 13, 1996, 110 Stat. 1329, provided that: ‘‘This Act [enacting this chapter] may be cited as the ‘Mercury-Containing and Rechargeable Battery Management Act’.’’
of this chapter] may be cited as the ‘Rechargeable Battery Recycling Act’.

Pub. L. 104–142, title II, §201, May 13, 1996, 110 Stat. 1330, provided that: ‘This title [enacting subchapter III of this chapter] may be cited as the ‘Mercury-Containing Battery Management Act’.’

§ 14302. Definitions

For purposes of this chapter:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Button cell

The term “button cell” means a button- or coin-shaped battery.

(3) Easily removable

The term “easily removable,” with respect to a battery, means detachable or removable at the end of the life of the battery—

(A) from a consumer product by a consumer with the use of common household tools; or

(B) by a retailer of replacements for a battery used as the principal electrical power source for a vehicle.

(4) Mercuric-oxide battery

The term “mercuric-oxide battery” means a battery that uses a mercuric-oxide electrode.

(5) Rechargeable battery

The term “rechargeable battery”—

(A) means 1 or more voltaic or galvanic cells, electrically connected to produce electric energy, that is designed to be recharged for repeated uses; and

(B) includes any type of enclosed device or sealed container consisting of 1 or more such cells, including what is commonly called a battery pack (and in the case of a battery pack, for the purposes of the requirements of easy removability and labeling under section 14322 of this title, means the battery pack as a whole rather than each component individually); but

(C) does not include—

(i) a lead-acid battery used to start an internal combustion engine or as the principal electrical power source for a vehicle, such as an automobile, a truck, construction equipment, a motorcycle, a garden tractor, a golf cart, a wheelchair, or a boat;

(ii) a lead-acid battery used for load leveling or for storage of electricity generated by an alternative energy source, such as a solar cell or wind-driven generator;

(iii) a battery used as a backup power source for memory or program instruction storage, timekeeping, or any similar purpose that requires uninterrupted electrical power in order to function if the primary energy supply fails or fluctuates momentarily; or

(iv) a rechargeable alkaline battery.

(6) Rechargeable consumer product

The term “rechargeable consumer product”—

(A) means a product that, when sold at retail, includes a regulated battery as a primary energy supply, and that is primarily intended for personal or household use; but

(B) does not include a product that only uses a battery solely as a source of backup power for memory or program instruction storage, timekeeping, or any similar purpose that requires uninterrupted electrical power in order to function if the primary energy supply fails or fluctuates momentarily.

(7) Regulated battery

The term “regulated battery” means a rechargeable battery that—

(A) contains a cadmium or a lead electrode or any combination of cadmium and lead electrodes; or

(B) contains other electrode chemistries and is the subject of a determination by the Administrator under section 14322(d) of this title.

(8) Remanufactured product

The term “remanufactured product” means a rechargeable consumer product that has been altered by the replacement of parts, re-packaged, or repaired after initial sale by the original manufacturer.

§ 14303. Information dissemination

The Administrator shall, in consultation with representatives of rechargeable battery manufacturers, rechargeable consumer product manufacturers, and retailers, establish a program to provide information to the public concerning the proper handling and disposal of used regulated batteries and rechargeable consumer products with nonremovable batteries.

§ 14304. Enforcement

(a) Civil penalty

When on the basis of any information the Administrator determines that a person has violated, or is in violation of, any requirement of this chapter (except a requirement of section 14323 of this title) the Administrator—

(1) in the case of any violation, may issue an order assessing a civil penalty of not more than $10,000 for each violation, or requiring compliance immediately or within a reasonable specified time period, or both; or

(2) in the case of any violation or failure to comply with an order issued under this section, may commence a civil action in the United States district court in the district in which the violation occurred or in the district in which the violator resides for appropriate relief, including a temporary or permanent injunction.

(b) Contents of order

An order under subsection (a)(1) shall state with reasonable specificity the nature of the violation.

(c) Considerations

In assessing a civil penalty under subsection (a)(1), the Administrator shall take into account
the seriousness of the violation and any good faith efforts to comply with applicable requirements.

(d) Finality of order; request for hearing
An order under subsection (a)(1) shall become final unless, not later than 30 days after the order is served, a person named in the order requests a hearing on the record.

(e) Hearing
On receiving a request under subsection (d), the Administrator shall promptly conduct a hearing on the record.

(f) Subpoena power
In connection with any hearing on the record under this section, the Administrator may issue subpoenas for the attendance and testimony of witnesses and for the production of relevant papers, books, and documents.

(g) Continued violation after expiration of period for compliance
If a violator fails to take corrective action within the time specified in an order under subsection (a)(1), the Administrator may assess a civil penalty of not more than $10,000 for the section (a)(1), the Administrator may assess a civil penalty of not more than $10,000 for the

§ 14305. Information gathering and access

(a) Records and reports
A person who is required to carry out the objectives of this chapter, including—

(1) a regulated battery manufacturer;
(2) a rechargeable consumer product manufacturer;
(3) a mercury-containing battery manufacturer; and
(4) an authorized agent of a person described in paragraph (1), (2), or (3),
shall establish and maintain such records and report such information as the Administrator may by regulation reasonably require to carry out the objectives of this chapter.

(b) Access and copying
The Administrator or the Administrator’s authorized representative, on presentation of credentials of the Administrator, may at reasonable times have access to and copy any records required to be maintained under subsection (a).

(c) Confidentiality
The Administrator shall maintain the confidentiality of documents and records that contain proprietary information.

§ 14306. State authority
Nothing in this chapter shall be construed to prohibit a State from enacting and enforcing a standard or requirement that is identical to a standard or requirement established or promulgated under this chapter. Except as provided in sections 14322(e) and 14323 of this title, nothing in this chapter shall be construed to prohibit a State from enacting and enforcing a standard or requirement that is more stringent than a standard or requirement established or promulgated under this chapter.

§ 14307. Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this chapter.

SUBCHAPTER II—RECYCLING OF RECHARGEABLE BATTERIES

§ 14321. Purpose
The purpose of this subchapter is to facilitate the efficient recycling or proper disposal of used nickel-cadmium rechargeable batteries, used small sealed lead-acid rechargeable batteries, other regulated batteries, and such rechargeable batteries in used consumer products, by—

(1) providing for uniform labeling requirements and streamlined regulatory requirements for regulated battery collection programs; and
(2) encouraging voluntary industry programs by eliminating barriers to funding the collection and recycling or proper disposal of used rechargeable batteries.

§ 14322. Rechargeable consumer products and labeling

(a) Prohibition

(1) In general
No person shall sell for use in the United States a regulated battery that is ready for retail sale or a rechargeable consumer product that is ready for retail sale, if such battery or product was manufactured on or after the date 12 months after May 13, 1996, unless the labeling requirements of subsection (b) are met and, in the case of a regulated battery, the regulated battery—

(A) is easily removable from the rechargeable consumer product; or
(B) is sold separately.

(2) Application
Paragraph (1) does not apply to any of the following:
(A) The sale of a remanufactured product unit unless paragraph (1) applied to the sale of the unit when originally manufactured.

(B) The sale of a product unit intended for export purposes only.

(b) **Labeling**

Each regulated battery or rechargeable consumer product without an easily removable battery manufactured on or after the date that is 1 year after May 13, 1996, whether produced domestically or imported shall bear the following labels:

1. 3 chasing arrows or a comparable recycling symbol.
2. (A) On each regulated battery which is a nickel-cadmium battery, the chemical name or the abbreviation “Ni-Cd” and the phrase “BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.”
   (B) On each regulated battery which is a lead-acid battery, “Pb” or the words “LEAD”, “RETURN”, and “RECYCLE” and if the regulated battery is sealed, the phrase “BATTERY MUST BE RECYCLED.”
3. (A) On each rechargeable consumer product containing a regulated battery that is not easily removable, the phrase “CONTAINS NICKEL-Cadmium BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.” or “CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.”, as applicable.
4. (A) A statement of the specific basis for the request for the exemption.
   (B) The name, business address, and telephone number of the applicant.

(c) **Existing or alternative labeling**

(1) **Initial period**

For a period of 2 years after May 13, 1996, regulated batteries, rechargeable consumer products containing regulated batteries, and rechargeable consumer product packages that are labeled in substantial compliance with subsection (b) shall be deemed to comply with the labeling requirements of subsection (b).

(2) **Certification**

(A) **In general**

On application by persons subject to the labeling requirements of subsection (b) or the labeling requirements promulgated by the Administrator under subsection (d), the Administrator shall certify that a different label meets the requirements of subsection (b) or (d), respectively. If the different label—

(i) conveys the same information as the label required under subsection (b) or (d), respectively; or
(ii) conforms with a recognized international standard that is consistent with the overall purposes of this subchapter.

(B) **Constructive certification**

Failure of the Administrator to object to an application under subparagraph (A) on the ground that a different label does not meet either of the conditions described in subparagraph (A)(i) or (ii) within 120 days after the date on which the application is made shall constitute certification for the purposes of this chapter.

(d) **Rulemaking authority of Administrator**

(1) **In general**

If the Administrator determines that other rechargeable batteries having electrode chemistries different from regulated batteries are toxic and may cause substantial harm to human health and the environment if discarded into the solid waste stream for land disposal or incineration, the Administrator may, with the advice and counsel of State regulatory authorities and manufacturers of rechargeable batteries and rechargeable consumer products, and after public comment—

(A) promulgate labeling requirements for the batteries with different electrode chemistries, rechargeable consumer products containing such batteries that are not easily removable batteries, and packaging for the batteries and products; and

(B) promulgate requirements for easy removability of regulated batteries from rechargeable consumer products designed to contain such batteries.

(2) **Substantial similarity**

The regulations promulgated under paragraph (1) shall be substantially similar to the requirements set forth in subsections (a) and (b).

(e) **Uniformity**

After the effective dates of a requirement set forth in subsection (a), (b), or (c) or a regulation promulgated by the Administrator under subsection (d), no Federal agency, State, or political subdivision of a State may enforce any easy removability or environmental labeling requirement for a rechargeable battery or rechargeable consumer product that is not identical to the requirement or regulation.

(f) **Exemptions**

(1) **In general**

With respect to any rechargeable consumer product, any person may submit an application to the Administrator for an exemption from the requirements of subsection (a) in accordance with the procedures under paragraph (2). The application shall include the following information:

(A) A statement of the specific basis for the request for the exemption.

(B) The name, business address, and telephone number of the applicant.

(2) **Granting of exemption**

Not later than 60 days after receipt of an application under paragraph (1), the Administrator shall approve or deny the application. On approval of the application the Administrator shall grant an exemption to the applicant. The exemption shall be issued for a period of time that the Administrator determines to be appropriate, except that the period shall not exceed 2 years. The Adminis-
§ 14323. Requirements

(a) Batteries subject to certain regulations

The collection, storage, or transportation of used rechargeable batteries, batteries described in section 14302(5)(C) of this title or in subchapter III, and used rechargeable consumer products containing rechargeable batteries that are not easily removable rechargeable batteries, shall, notwithstanding any law of a State or political subdivision thereof governing such collection, storage, or transportation, be regulated under applicable provisions of the regulations promulgated by the Environmental Protection Agency at 40 CFR 260.41 and the equivalent requirements of an approved State program shall not apply, and this section shall not apply to any lead acid battery managed under 40 CFR 266 subpart G or the equivalent requirements of an approved State program.

(b) Enforcement under Solid Waste Disposal Act

(1) Any person who fails to comply with the requirements imposed by subsection (a) of this section may be subject to enforcement under applicable provisions of the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.].

(2) States may implement and enforce the requirements of subsection (a) if the Administrator finds that—

(A) the State has adopted requirements that are identical to those referred to in subsection (a) governing the collection, storage, or transportation of batteries referred to in subsection (a); and

(B) the State provides for enforcement of such requirements.

§ 14331. Purpose

The purpose of this subchapter is to phase out the use of batteries containing mercury.

§ 14332. Limitations on sale of alkaline-manganese batteries containing mercury

No person shall sell, offer for sale, or offer for promotional purposes any alkaline-manganese battery manufactured on or after May 13, 1996, that contains mercury that was intentionally introduced (as distinguished from mercury that may be incidentally present in other materials), except that the limitation on mercury content in alkaline-manganese button cells shall be 25 milligrams of mercury per button cell.

§ 14333. Limitations on sale of zinc-carbon batteries containing mercury

No person shall sell, offer for sale, or offer for promotional purposes any zinc-carbon battery manufactured on or after May 13, 1996, that contains mercury that was intentionally introduced as described in section 14332 of this title.

§ 14334. Limitations on sale of button cell mercuric-oxide batteries

No person shall sell, offer for sale, or offer for promotional purposes any button cell mercuric-oxide battery for use in the United States on or after May 13, 1996.

§ 14335. Limitations on sale of other mercuric-oxide batteries

(a) Prohibition

On or after May 13, 1996, no person shall sell, offer for sale, or offer for promotional purposes a mercuric-oxide battery for use in the United States unless the battery manufacturer, or the importer of such a battery—

(1) identifies a collection site in the United States that has all required Federal, State, and local government approvals, to which persons may send used mercuric-oxide batteries for recycling or proper disposal;

(2) informs each of its purchasers of mercuric-oxide batteries of the collection site identified under paragraph (1); and

(3) informs each of its purchasers of mercuric-oxide batteries of a telephone number...
that the purchaser may call to get information about sending mercuric-oxide batteries for recycling or proper disposal.

(b) Application of section

This section does not apply to a sale or offer of a mercuric-oxide button cell battery. (Pub. L. 104–142, title II, §206, May 13, 1996, 110 Stat. 1336.)

§ 14336. New product or use

On petition of a person that proposes a new use for a battery technology described in this subchapter or the use of a battery described in this subchapter in a new product, the Administrator may exempt from this subchapter the new use of the technology or the use of such a battery in the new product on the condition, if appropriate, that there exist reasonable safeguards to ensure that the resulting battery or product without an easily removable battery will not be disposed of in an incinerator, composting facility, or landfill (other than a facility regulated under subtitle C of the Solid Waste Disposal Act (42 U.S.C. 6921 et seq.)). (Pub. L. 104–142, title II, §207, May 13, 1996, 110 Stat. 1336.)

CHAPTER 138—ASSISTED SUICIDE FUNDING RESTRICTION

Sec.
14401. Findings and purpose.
14402. Restriction on use of Federal funds under health care programs.
14403. Restriction on use of Federal funds under certain grant programs.
14404. Restriction on use of Federal funds by advocacy programs.
14405. Restriction on use of other Federal funds.
14406. Clarification with respect to advance directives.
14407. Application to District of Columbia.
14408. Relation to other laws.

§ 14401. Findings and purpose

(a) Findings

Congress finds the following:

(1) The Federal Government provides financial support for the provision of and payment for health care services, as well as for advocacy activities to protect the rights of individuals.

(2) Assisted suicide, euthanasia, and mercy killing have been criminal offenses throughout the United States and, under current law, it would be unlawful to provide services in support of such illegal activities.

(3) Because of recent legal developments, it may become lawful in areas of the United States to furnish services in support of such activities.

(4) Congress is not providing Federal financial assistance in support of assisted suicide, euthanasia, and mercy killing and intends that Federal funds not be used to promote such activities.

(b) Purpose

It is the principal purpose of this chapter to continue current Federal policy by explicitly declaring that Federal funds may not be used to support activities of which Congress is not providing Federal financial assistance in support of assisted suicide, euthanasia, and mercy killing and intends that Federal funds not be used to promote such activities.

Application to Contracts

Such provisions shall apply with respect to contracts entered into, renewed, or extended after the date of the enactment of this Act for items and services furnished to or by any individual receiving Federal assistance in support of assisted suicide, euthanasia, or mercy killing under such contract. (Pub. L. 105–12, §2, Apr. 30, 1997, 111 Stat. 23.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (b), was in the original ‘‘this Act’’, meaning Pub. L. 105–12, Apr. 30, 1997, 111 Stat. 23, known as the Assisted Suicide Funding Restriction Act of 1997. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

EFFECTIVE DATE

Pub. L. 105–12, §11, Apr. 30, 1997, 111 Stat. 29, provided that:

‘‘(a) IN GENERAL.—The provisions of this Act [see Short Title note below] (and the amendments made by this Act) take effect upon its enactment [Apr. 30, 1997] and apply, subject to subsection (b), to Federal payments made pursuant to obligations incurred after the date of the enactment of this Act for items and services provided on or after such date.

‘‘(b) APPLICATION TO CONTRACTS.—Such provisions shall apply with respect to contracts entered into, renewed, or extended after the date of the enactment of this Act [Apr. 30, 1997] and shall also apply to a contract entered into before such date to the extent permitted under such contract.’’

SHORT TITLE

Pub. L. 105–12, §1(a), Apr. 30, 1997, 111 Stat. 23, provided that: ‘‘This Act [enacting this chapter, section 258b of this title, section 1821x of Title 25, Indians, and section 1707 of Title 38, Veterans’ Benefits, amending sections 295, 701, 1395y, 1395cc, 1396a, 1396b, 1397d, 2996f, 6022, 6042, 6062, 6082, and 10805 of this title, section 8902 of Title 5, Government Organization and Employees, section 1073 of Title 10, Armed Forces, section 4005 of Title 18, Crimes and Criminal Procedure, section 2504 of Title 22, Foreign Relations and Intercourse, and section 794e of Title 29, Labor, and enacting provisions set out as notes under this section and section 296 of this title] may be cited as the ‘‘Assisted Suicide Funding Restriction Act of 1997.’’’

CONSTRUCTION OF CONFORMING AMENDMENTS

Pub. L. 105–12, §8(p), Apr. 30, 1997, 111 Stat. 29, provided that: ‘‘The fact that a law is not amended under this section (enacting section 258b of this title, section 1821x of Title 25, Indians, and section 1707 of Title 38, Veterans’ Benefits, amending sections 701, 1395y, 1395cc, 1396a, 1396b, 1397d, 2996f, 6022, 6042, 6062, 6082, and 10805 of this title, section 8902 of Title 5, Government Organization and Employees, section 1073 of Title 10, Armed Forces, section 4005 of Title 18, Crimes and Criminal Procedure, section 2504 of Title 22, Foreign Relations and Intercourse, and section 794e of Title 29, Labor) shall not be construed as indicating that the provisions of this Act [see Short Title note above] do not apply to such a law.’’
§ 14402. Restriction on use of Federal funds under health care programs

(a) Restriction on Federal funding of health care services

Subject to subsection (b), no funds appropriated by Congress for the purpose of paying (directly or indirectly) for the provision of health care services may be used—

1. To provide any health care item or service furnished for the purpose of causing, or for the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing;
2. To pay (directly, through payment of Federal financial participation or other matching payment, or otherwise) for such an item or service, including payment of expenses relating to such an item or service; or
3. To pay (in whole or in part) for health benefit coverage that includes any coverage of such an item or service or of any expenses relating to such an item or service.

(b) Construction and treatment of certain services

Nothing in subsection (a), or in any other provision of this chapter (or in any amendment made by this chapter), shall be construed to apply to or to affect any limitation relating to—

1. The withholding or withdrawing of medical treatment or medical care;
2. The withholding or withdrawing of nutrition or hydration;
3. The use of an item, good, benefit, or service furnished for the purpose of alleviating pain or discomfort, even if such use may increase the risk of death, so long as such item, good, benefit, or service is not also furnished for the purpose of causing, or the purpose of assisting in causing, death, for any reason.

(c) Limitation on Federal facilities and employees

Subject to subsection (b), with respect to health care items and services furnished—

1. By or in a health care facility owned or operated by the Federal government, or
2. By any physician or other individual employed by the Federal government to provide health care services within the scope of the physician’s or individual’s employment,

no such item or service may be furnished for the purpose of causing, or for the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(d) List of programs to which restrictions apply

1. Federal health care funding programs

Subsection (a) applies to funds appropriated under or to carry out the following:

(A) Medicare program

Title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.].

(B) Medicaid program

Title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(C) Title XX social services block grant

Title XX of the Social Security Act [42 U.S.C. 1397 et seq.].

(D) Maternal and child health block grant program

Title V of the Social Security Act [42 U.S.C. 701 et seq.].

(E) Public Health Service Act

The Public Health Service Act [42 U.S.C. 201 et seq.].

(F) Indian Health Care Improvement Act

The Indian Health Care Improvement Act [25 U.S.C. 1601 et seq.].

(G) Federal employees health benefits program

Chapter 89 of title 5.

(H) Military health care system (including Tricare and CHAMPUS programs)

Chapter 55 of title 10.

(I) Veterans medical care

Chapter 17 of title 38.

(J) Health services for Peace Corps volunteers

Section 2504(e) of title 22.

(K) Medical services for Federal prisoners

Section 4005(a) of title 18.

(2) Federal facilities and personnel

The provisions of subsection (c) apply to facilities and personnel of the following:

(A) Military health care system

The Department of Defense operating under chapter 55 of title 10.

(B) Veterans medical care

The Veterans Health Administration of the Department of Veterans Affairs.

(C) Public Health Service

The Public Health Service.

(3) Nonexclusive list

Nothing in this subsection shall be construed as limiting the application of subsection (a) to the programs specified in paragraph (1) or the application of subsection (c) to the facilities and personnel specified in paragraph (2).

AMENDMENTS

§ 14404. Restriction on use of Federal funds by advocacy programs

(a) In general

Subject to section 14402(b) of this title (relating to construction and treatment of certain services), no funds appropriated by Congress may be used to assist in, to support, or to fund any activity or service which has a purpose of assisting in, or to bring suit or provide any other form of legal assistance for the purpose of—

(1) securing or funding any item, benefit, program, or service furnished for the purpose of causing, or the purpose of assisting in causing, the suicide, euthanasia, or mercy killing of any individual;

(2) compelling any person, institution, governmental entity\(^1\) to provide or fund any item, benefit, program, or service for such purpose; or

(3) asserting or advocating a legal right to cause, or to assist in causing, the suicide, euthanasia, or mercy killing of any individual.

(b) List of programs to which restrictions apply

(1) In general

Subsection (a) applies to funds appropriated under or to carry out the following:

(A) Protection and advocacy systems under the Developmental Disabilities Assistance and Bill of Rights Act of 2000

(B) Protection and advocacy systems under the Protection and Advocacy for Mentally Ill Individuals Act

The Protection and Advocacy for Mentally Ill Individuals Act of 1986 \(^2\) [42 U.S.C. 10801 et seq.].

(C) Protection and advocacy systems under the Rehabilitation Act of 1973

(D) Ombudsman programs under the Older Americans Act of 1965

Ombudsman programs under the Older Americans Act of 1965 [42 U.S.C. 3001 et seq.].

(E) Legal assistance

Legal assistance programs under the Legal Services Corporation Act [42 U.S.C. 2996 et seq.].

(2) Nonexclusive list

Nothing in this subsection shall be construed as limiting the application of subsection (a) to the programs specified in paragraph (1).

The Legal Services Corporation Act, referred to in subsection (b)(1)(E), is title X of Pub. L. 94–452, as added by Pub. L. 93–355, §2, July 25, 1974, 88 Stat. 378, as amended, which is classified generally to subchapter X (§2996 et seq.) of chapter 34 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2701 of this title and Tables.

AMENDMENTS

§ 14405. Restriction on use of other Federal funds
(a) In general
Subject to section 14402(b) of this title (relating to construction and treatment of certain services) and subsection (b) of this section, no funds appropriated by the Congress shall be used to provide, procure, furnish, or fund any item, good, benefit, activity, or service, furnished or performed for the purpose of causing, or assisting in causing, the suicide, euthanasia, or mercy killing of any individual.

(b) Nonduplication
Subsection (a) shall not apply to funds to which section 14402, 14403, or 14404 of this title applies, except that subsection (a), rather than section 14402 of this title, shall apply to funds appropriated to carry out title 10 (other than chapter 55), title 18 (other than section 4005(a)), and chapter 37 of title 28.

§ 14406. Clarification with respect to advance directives
Subject to section 14402(b) of this title (relating to construction and treatment of certain services), sections 1395sc(f) and 1396a(w) of this title shall not be construed—
(1) to require any provider or organization, or any employee of such a provider or organization, to inform or counsel any individual regarding any right to obtain an item or service furnished for the purpose of causing, or the purpose of assisting in causing, the death of the individual, such as by assisted suicide, euthanasia, or mercy killing; or
(2) to apply to or to affect any requirement with respect to a portion of an advance directive that directs the purposeful causing of, or the purposeful assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

§ 14407. Application to District of Columbia
For purposes of this chapter, the term “funds appropriated by Congress” includes funds appropriated to the District of Columbia pursuant to an authorization of appropriations under title V of the District of Columbia Home Rule Act and the term “Federal government” includes the government of the District of Columbia.

REFERENCES IN TEXT
This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 105–12, Apr. 30, 1997, 111 Stat. 23, known as the Assisted Suicide Funding Restriction Act of 1997, which is classified principally to this chapter.

For complete classification of this Act to the Code, see Short Title note set out under section 14401 of this title and Tables.

AMENDMENTS

§ 14408. Relation to other laws
The provisions of this chapter supersede other Federal laws (including laws enacted after April 30, 1997) except to the extent such laws specifically supersede the provisions of this chapter.

REFERENCES IN TEXT
This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 105–12, Apr. 30, 1997, 111 Stat. 23, known as the Assisted Suicide Funding Restriction Act of 1997, which is classified principally to this chapter.

For complete classification of this Act to the Code, see Short Title note set out under section 14401 of this title and Tables.

CHAPTER 139—VOLUNTEER PROTECTION

§ 14501. Findings and purpose
(a) Findings
The Congress finds and declares that—
(1) the willingness of volunteers to offer their services is deterred by the potential for liability actions against them;
(2) as a result, many nonprofit public and private organizations and governmental entities, including voluntary associations, social service agencies, educational institutions, and other civic programs, have been adversely affected by the withdrawal of volunteers from boards of directors and service in other capacities;
(3) the contribution of these programs to their communities is thereby diminished, resulting in fewer and higher cost programs than would be obtainable if volunteers were participating;
(4) because Federal funds are expended on useful and cost-effective social service programs, many of which are national in scope,
depend heavily on volunteer participation, and represent some of the most successful public-private partnerships, protection of volunteerism through clarification and limitation of the personal liability risks assumed by the volunteer in connection with such participation is an appropriate subject for Federal legislation;
(5) services and goods provided by volunteers and nonprofit organizations would often otherwise be provided by private entities that operate in interstate commerce;
(6) due to high liability costs and unwarranted litigation costs, volunteers and nonprofit organizations face higher costs in purchasing insurance, through interstate insurance markets, to cover their activities; and
(7) clarifying and limiting the liability risk assumed by volunteers is an appropriate subject for Federal legislation because—
(A) of the national scope of the problems created by the legitimate fears of volunteers about frivolous, arbitrary, or capricious lawsuits;
(B) the citizens of the United States depend on, and the Federal Government expends funds on, and provides tax exemptions and other consideration to, numerous social programs that depend on the services of volunteers;
(C) it is in the interest of the Federal Government to encourage the continued operation of volunteer service organizations and contributions of volunteers because the Federal Government lacks the capacity to carry out all of the services provided by such organizations and volunteers; and
(D) liability reform for volunteers, will promote the free flow of goods and services, lessen burdens on interstate commerce and uphold constitutionally protected due process rights; and
(i) therefore, liability reform is an appropriate use of the powers contained in article I, section 8, clause 3 of the United States Constitution, and the fourteenth amendment to the United States Constitution.

(b) Purpose
The purpose of this chapter is to promote the interests of social service program beneficiaries and taxpayers and to sustain the availability of programs, nonprofit organizations, and governmental entities that depend on volunteer contributions by reforming the laws to provide certain protections from liability abuses related to volunteers serving nonprofit organizations and governmental entities.

§ 14502. Preemption and election of State nonapplicability

(a) Preemption
This chapter preempts the laws of any State to the extent that such laws are inconsistent with this chapter; except that this chapter shall not preempt any State law that provides additional protection from liability relating to volunteers or to any category of volunteers in the performance of services for a nonprofit organization or governmental entity.

(b) Election of State regarding nonapplicability
This chapter shall not apply to any civil action in a State court against a volunteer in which all parties are citizens of the State if such State enacts a statute in accordance with State requirements for enacting legislation—
(1) citing the authority of this subsection;
(2) declaring the election of such State that this chapter shall not apply, as of a date certain, to such civil action in the State; and
(3) containing no other provisions.

§ 14503. Limitation on liability for volunteers

(a) Liability protection for volunteers
Except as provided in subsections (b), (c), and (e), no volunteer of a nonprofit organization or governmental entity shall be liable for harm caused by an act or omission of the volunteer on behalf of the organization or entity if—
(1) the volunteer was acting within the scope of the volunteer’s responsibilities in the nonprofit organization or governmental entity at the time of the act or omission;
(2) if appropriate or required, the volunteer was properly licensed, certified, or authorized by the appropriate authorities for the activities or practice in the State in which the harm occurred, where the activities were or practice was undertaken within the scope of the volunteer’s responsibilities in the nonprofit organization or governmental entity;
(3) the harm was not caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed by the volunteer; and
(4) the harm was not caused by the volunteer operating a motor vehicle, vessel, aircraft, or other vehicle for which the State requires the operator or the owner of the vehicle, craft, or vessel to—
(A) possess an operator’s license; or
(B) maintain insurance.

(b) Liability protection for pilots that fly for public benefit
Except as provided in subsections (c) and (e), no volunteer of a volunteer pilot nonprofit organization that arranges flights for public benefit shall be liable for harm caused by an act or omission of the volunteer on behalf of the organization if, at the time of the act or omission, the volunteer—
§ 14504 TITLE 42—THE PUBLIC HEALTH AND WELFARE Page 8142

(1) was operating an aircraft in furtherance of the purpose of, and acting within the scope of the volunteer's responsibilities on behalf of, the nonprofit organization to provide patient and medical transport (including medical transport for veterans), disaster relief, humanitarian assistance, or other similar charitable missions;
(2) was properly licensed and insured for the operation of the aircraft;
(3) was in compliance with all requirements of the Federal Aviation Administration for recent flight experience; and
(4) did not cause the harm through willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed by the volunteer.

(e) Concerning responsibility of volunteers to organizations and entities

Nothing in this section shall be construed to affect any civil action brought by any nonprofit organization or any governmental entity against any volunteer of such organization or entity.

(d) No effect on liability of organization or entity

Nothing in this section shall be construed to affect the liability of any nonprofit organization or governmental entity with respect to harm caused to any person.

(e) Exceptions to volunteer liability protection

If the laws of a State limit volunteer liability subject to one or more of the following conditions, such conditions shall not be construed as inconsistent with this section:

(1) A State law that requires a nonprofit organization or governmental entity to adhere to risk management procedures, including mandatory training of volunteers.
(2) A State law that makes the organization or entity liable for the acts or omissions of its volunteers to the same extent as an employer is liable for the acts or omissions of its employees.
(3) A State law that makes a limitation of liability inapplicable if the civil action was brought by an officer of a State or local government pursuant to State or local law.
(4) A State law that makes a limitation of liability applicable only if the nonprofit organization or governmental entity provides a financial secure source of recovery for individuals who suffer harm as a result of actions taken by a volunteer on behalf of the organization or entity. A financially secure source of recovery may be an insurance policy within specified limits, comparable coverage from a risk pooling mechanism, equivalent assets, or alternative arrangements that satisfy the State that the organization or entity will be able to pay for losses up to a specified amount. Separate standards for different types of liability exposure may be specified.

(f) Limitation on punitive damages based on actions of volunteers

(1) General rule

Punitive damages may not be awarded against a volunteer in an action brought for harm based on the action of a volunteer acting within the scope of the volunteer’s responsibilities to a nonprofit organization or governmental entity unless the claimant establishes by clear and convincing evidence that the harm was proximately caused by an action of such volunteer which constitutes willful or criminal misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed.

(2) Construction

Paragraph (1) does not create a cause of action for punitive damages and does not preempt or supersede any Federal or State law to the extent that such law would further limit the award of punitive damages.

(g) Exceptions to limitations on liability

(1) In general

The limitations on the liability of a volunteer under this chapter shall not apply to any misconduct that—
(A) constitutes a crime of violence (as that term is defined in section 16 of title 18) or act of international terrorism (as that term is defined in section 2331 of title 18) for which the defendant has been convicted in any court;
(B) constitutes a hate crime (as that term is used in the Hate Crime Statistics Act (28 U.S.C. 534 note));
(C) involves a sexual offense, as defined by applicable State law, for which the defendant has been convicted in any court;
(D) involves misconduct for which the defendant has been convicted in any court;
(E) where the defendant was under the influence (as determined pursuant to applicable State law) of intoxicating alcohol or any drug at the time of the misconduct.

(2) Rule of construction

Nothing in this subsection shall be construed to affect subsection (a)(3) or (f).

REFERENCES IN TEXT

The Hate Crime Statistics Act, referred to in subsec. (g)(1)(B), is Pub. L. 101–275, Apr. 23, 1990, 104 Stat. 140, which was set out as a note under section 534 of Title 28, Judiciary and Judicial Procedure, prior to editorial reclassification as section 41305 of Title 34, Crime Control and Law Enforcement, and as provisions set out as a note under section 41305 of Title 34.

AMENDMENTS

2018—Subsec. (a). Pub. L. 115–254, § 584(2), in introductory provisions, substituted “subsections (b), (c), and (e)” for “(b) and (d)”. Pub. L. 115–254, § 584(1), (3), added subsec. (b) to (f) as (c) to (g), respectively.

Subsec. (g)(2). Pub. L. 115–254, § 584(4), substituted “(f)” for “(e)”.

§ 14504. Liability for noneconomic loss

(a) General rule

In any civil action against a volunteer, based on an action of a volunteer acting within the
scope of the volunteer’s responsibilities to a nonprofit organization or governmental entity, the liability of the volunteer for noneconomic loss shall be determined in accordance with subsection (b).

(b) Amount of liability

(1) In general

Each defendant who is a volunteer, shall be liable only for the amount of noneconomic loss allocated to that defendant in direct proportion to the percentage of responsibility of that defendant (determined in accordance with paragraph (2)) for the harm to the claimant with respect to which that defendant is liable. The court shall render a separate judgment against each defendant in an amount determined pursuant to the preceding sentence.

(2) Percentage of responsibility

For purposes of determining the amount of noneconomic loss allocated to a defendant who is a volunteer under this section, the trier of fact shall determine the percentage of responsibility of that defendant for the claimant’s harm.

§ 14505. Definitions

For purposes of this chapter:

(1) Economic loss

The term “economic loss” means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for such loss is allowed under applicable State law.

(2) Harm

The term “harm” includes physical, nonphysical, economic, and noneconomic losses.

(3) Noneconomic losses

The term “noneconomic losses” means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other nonpecuniary losses of any kind or nature.

(4) Nonprofit organization

The term “nonprofit organization” means—

(A) any organization which is described in section 501(c)(3) of title 26 and exempt from tax under section 501(a) of such title and which does not practice any action which constitutes a hate crime referred to in subsection (b)(1) of the first section of the Hate Crime Statistics Act (28 U.S.C. 534 note); or

(B) any not-for-profit organization which is organized and conducted for public benefit and operated primarily for charitable, civic, educational, religious, welfare, or health purposes and which does not practice any ac-

SUBCHAPTER I—PROMOTION OF COMMERCIAL SPACE OPPORTUNITIES

Section, Pub. L. 105–303, title I, § 101, Oct. 28, 1998, 112 Stat. 2845, related to commercialization of Space Station. Subsec. (a) was repealed and reenacted as subsec. (a) of section 50111 of Title 51, National and Commercial Space Programs. Subsec. (b), which required the Administrator to deliver certain studies and reports to Congress, the last of which was required before budget request for fiscal year 2000, was repealed as obsolete.

§ 14712. Repealed or Transferred

CODIFICATION
Section, Pub. L. 105–303, title I, § 104, Oct. 28, 1998, 112 Stat. 2852, which related to promotion of United States Global Positioning System standards, was repealed in part and transferred in part. Subsec. (b) was repealed and reenacted as section 50112 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a) was transferred and is set out as a note under section 50112 of Title 51.

Section 14715, Pub. L. 105–303, title I, § 107, Oct. 28, 1998, 112 Stat. 2853, related to sources of Earth Science data. Subsecs. (a), (b), (d), and (e) were repealed and reenacted as subsecs. (a), (b), (c) and (d) of section 50115 of Title 51. Subsec. (c), which required the Administrator to submit certain study results to Congress within six months after Oct. 28, 1998, was repealed as obsolete.

SUBCHAPTER II—FEDERAL ACQUISITION OF SPACE TRANSPORTATION SERVICES

Section 14733, Pub. L. 105–303, title II, § 204, Oct. 28, 1998, 112 Stat. 2856, related to potential privatization of the Space Shuttle program. Subsec. (a) was repealed and reenacted as section 50133 of Title 51. Subsec. (b), requiring feasibility study, and subsec. (c), requiring reports to congressional committees within 60 days after Oct. 28, 1998, were repealed as obsolete.

CHAPTER 142—POISON CONTROL CENTER ENHANCEMENT AND AWARENESS

Section 14802, Pub. L. 106–174, § 3, Feb. 25, 2000, 114 Stat. 18, defined “Secretary”.

Section 14803, Pub. L. 106–174, § 4, Feb. 25, 2000, 114 Stat. 18, established a national toll-free number to be used to access regional poison control centers. See section 300d–71 of this title.

Section 14804, Pub. L. 106–174, § 5, Feb. 25, 2000, 114 Stat. 19, established a nationwide media campaign to educate the public and health care providers about poison prevention and the availability of poison control resources in local communities. See section 300d–72 of this title.

SHORT TITLE

CHAPTER 143—INTERCOUNTRY ADOPTIONS

Sec.
14901. Findings and purposes.
14902. Definitions.

SUBCHAPTER I—UNITED STATES CENTRAL AUTHORITY

14911. Designation of central authority.

14912. Responsibilities of the Secretary of State.

14913. Responsibilities of the Attorney General.

14914. Annual report on intercountry adoptions.

SUBCHAPTER II—PROVISIONS RELATING TO ACCREDITATION AND APPROVAL

14921. Accreditation or approval required in order to provide adoption services in cases subject to the Convention.

14922. Process for accreditation and approval; role of accrediting entities.

14923. Standards and procedures for providing accreditation or approval.

SUBCHAPTER III—RECOGNITION OF CONVENTION ADOPTIONS IN THE UNITED STATES

14931. Adoptions of children immigrating to the United States.

14932. Adoptions of children emigrating from the United States.

SUBCHAPTER IV—ADMINISTRATION AND ENFORCEMENT

14941. Access to Convention records.

14942. Documents of other Convention countries.

14943. Authorization of appropriations; collection of fees.

14944. Enforcement.

SUBCHAPTER V—GENERAL PROVISIONS

14951. Recognition of Convention adoptions.

14952. Special rules for certain cases.

14953. Relationship to other laws.

14954. No private right of action.

§14901. Findings and purposes

(a) Findings

Congress recognizes—

(1) the international character of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption (done at The Hague on May 29, 1993); and

(2) the need for uniform interpretation and implementation of the Convention in the United States and abroad, and therefore finds that enactment of a Federal law governing adoptions and prospective adoptions subject to the Convention involving United States residents is essential.

(b) Purposes

The purposes of this chapter are—

(1) to provide for implementation by the United States of the Convention;

(2) to protect the rights of, and prevent abuses against, children, birth families, and adoptive parents involved in adoptions (or prospective adoptions) subject to the Convention, and to ensure that such adoptions are in the children’s best interests; and

(3) to improve the ability of the Federal Government to assist United States citizens seeking to adopt children from abroad and residents of other countries party to the Convention seeking to adopt children from the United States.
title] shall take effect on the date of the enactment of this Act [Oct. 6, 2000].

(2) *Provisions effective upon the entry into force of the Convention.—* Subject to subsection (b), the provisions of this Act not specified in paragraph (1) (enacting sections 14914, 14921, 14931, 14932, 14941(b), (c), 14942, 14944, 14951, 14952, and 14964 of this title; amending sections 1101 and 1154 of Title 8, Aliens and Nationality; and enacting provisions set out as notes under this section) shall take effect upon the entry into force of the Convention [Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption] for the United States pursuant to Article 46(2)(a) of the Convention [The Convention entered into force for the United States on Apr. 1, 2008.].

(b) **TRANSITION RULE.—** The Convention and this Act [see Short Title note below] shall not apply—

(1) in the case of a child immigrating to the United States, if the application for advance processing of an orphan petition or petition to classify an orphan as an immediate relative for the child is filed before the effective date described in subsection (a)(2); or

(2) in the case of a child emigrating from the United States, if the prospective adoptive parents of the child initiated the adoption process in their country of residence with the filing of an appropriate application before the effective date described in subsection (a)(2).

**SHORT TITLE OF 2020 AMENDMENT**

Pub. L. 116–184, § 1, Oct. 30, 2020, 134 Stat. 897, provided that: "This Act [amending section 1154 of Title 8, Aliens and Nationality, and enacting provisions set out as notes under section 14925 of this title] may be cited as the ‘Intercountry Adoption Information Act of 2019’ ‘."

**SHORT TITLE OF 2013 AMENDMENT**

Pub. L. 112–276, § 1, Jan. 14, 2013, 126 Stat. 2466, provided that: "This Act [enacting section 14925 of this title, amending sections 14921 and 14943 of this title, and enacting provisions set out as notes under section 14923 of this title] may be cited as the ‘Intercountry Adoption Universal Accreditation Act of 2012’ ‘."

**SHORT TITLE**

Pub. L. 110–279, § 1(a), Oct. 6, 2000, 114 Stat. 825, provided that: "This Act [enacting this chapter and amending sections 14922 and 14943 of this title, and enacting provisions set out as notes under section 14923 of this title] may be cited as the ‘Intercountry Adoption Act of 2000’ ‘."

§ 14902. Definitions

As used in this chapter:

1. **Accredited agency**

The term "accredited agency" means an agency accredited under subchapter II to provide adoption services in the United States in cases subject to the Convention.

2. **Accrediting entity**

The term "accrediting entity" means an entity designated under section 14922(a) of this title to accredit agencies and approve persons under subchapter II.

3. **Adoption service**

The term "adoption service" means—

(A) identifying a child for adoption and arranging an adoption;

(B) securing necessary consent to termination of parental rights and to adoption;

(C) performing a background study on a child or a home study on a prospective adoptive parent, and reporting on such a study;

(D) making determinations of the best interests of a child and the appropriateness of adoptive placement for the child;

(E) post-placement monitoring of a case until final adoption; and

(F) where made necessary by disruption before final adoption, assuming custody and providing child care or any other social service pending an alternative placement.

The term "providing", with respect to an adoption service, includes facilitating the provision of the service.

4. **Agency**

The term "agency" means any person other than an individual.

5. **Approved person**

The term "approved person" means a person approved under subchapter II to provide adoption services in the United States in cases subject to the Convention.

6. **Attorney General**

Except as used in section 14941 of this title, the term "Attorney General" means the Attorney General, acting through the Commissioner of Immigration and Naturalization.

7. **Central authority**

The term "central authority" means the entity designated as such by any Convention country under Article 6(1) of the Convention.

8. **Central authority function**

The term "central authority function" means any duty required to be carried out by a central authority under the Convention.

9. **Convention**

10. **Convention adoption**

The term "Convention adoption" means an adoption of a child resident in a foreign country party to the Convention by a United States citizen, or an adoption of a child resident in the United States by an individual residing in another Convention country.

11. **Convention record**

The term "Convention record" means any item, collection, or grouping of information contained in an electronic or physical document, an electronic collection of data, a photograph, an audio or video tape, or any other information storage medium of any type whatever that contains information about a specific past, current, or prospective Convention adoption (regardless of whether the adoption was made final) that has been preserved in accordance with section 14941(a) of this title by the Secretary of State or the Attorney General.

12. **Convention country**

The term "Convention country" means a country party to the Convention.

13. **Other Convention country**

The term "other Convention country" means a Convention country other than the United States.

14. **Person**

The term "person" shall have the meaning provided in section 1 of title 1 and shall not in-
(15) **Person with an ownership or control interest**

The term “person with an ownership or control interest” has the meaning given such term in section 1320a–3(a)(3) of this title.

(16) **Secretary**

The term “Secretary” means the Secretary of State.

(17) **State**

The term “State” means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, and the Virgin Islands.

**References in Text**

This chapter, referred to in introductory provisions, was in the original “this Act”, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

**§ 14912. Responsibilities of the Secretary of State**

(a) **Liaison responsibilities**

The Secretary shall have responsibility for—

(1) liaison with the central authorities of other Convention countries; and

(2) the coordination of activities under the Convention by persons subject to the jurisdiction of the United States.

(b) **Information exchange**

The Secretary shall be responsible for—

(1) providing the central authorities of other Convention countries with information concerning—

(A) accredited agencies and approved persons, agencies and persons whose accreditation or approval has been suspended or canceled, and agencies and persons who have been temporarily or permanently debarred from accreditation or approval;

(B) Federal and State laws relevant to implementing the Convention; and

(C) any other matters necessary and appropriate for implementation of the Convention;

(2) not later than the date of the entry into force of the Convention for the United States (pursuant to Article 46(2)(a) of the Convention) and at least once during each subsequent calendar year, providing to the central authority of all other Convention countries a notice requesting the central authority of each such country to specify any requirements of such country regarding adoption, including restrictions on the eligibility of persons to adopt, with respect to which information on the prospective adoptive parent or parents in the United States would be relevant;

(3) making responses to notices under paragraph (2) available to—

(A) accredited agencies and approved persons; and

(B) other persons or entities performing home studies under section 14921(b)(1) of this title;

(4) ensuring the provision of a background report (home study) on prospective adoptive parent or parents (pursuant to the require-
ments of section 14923(b)(1)(A)(ii) of this title), through the central authority of each child’s country of origin, to the court having jurisdiction over the adoption (or, in the case of a child emigrating to the United States for the purpose of adoption, to the competent authority in the child’s country of origin with responsibility for approving the child’s emigration) in adequate time to be considered prior to the granting of such adoption or approval;

(5) providing Federal agencies, State courts, and accredited agencies and approved persons with an identification of Convention countries and persons authorized to perform functions under the Convention in each such country; and

(6) facilitating the transmittal of other appropriate information to, and among, central authorities, Federal and State agencies (including State courts), and accredited agencies and approved persons.

c) Accreditation and approval responsibilities

The Secretary shall carry out the functions prescribed by the Convention with respect to the accreditation of agencies and the approval of persons to provide adoption services in the United States in cases subject to the Convention as provided in subchapter II. Such functions may not be delegated to any other Federal agency.

d) Additional responsibilities

The Secretary—

(1) shall monitor individual Convention adoption cases involving United States citizens; and

(2) may facilitate interactions between such citizens and officials of other Convention countries on matters relating to the Convention in any case in which an accredited agency or approved person is unwilling or unable to provide such facilitation.

e) Establishment of registry

The Secretary and the Attorney General shall jointly establish a case registry of all adoptions involving immigration of children into the United States and emigration of children from the United States, regardless of whether the adoption occurs under the Convention. Such registry shall permit tracking of pending cases and retrieval of information on both pending and closed cases.

f) Methods of performing responsibilities

The Secretary may—

(1) authorize public or private entities to perform appropriate central authority functions for which the Secretary is responsible, pursuant to regulations or under agreements published in the Federal Register; and

(2) carry out central authority functions through grants to, or contracts with, any individual or public or private entity, except as may be otherwise specifically provided in this chapter.

References in Text

Subchapter II, referred to in subsec. (c), was in the original “title II”, meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which enacted subchapter II of this chapter and amended section 622 of this title. For complete classification of title II to the Code, see Tables.

This chapter, referred to in subsec. (f)(2), was in the original “this Act”, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

§ 14913. Responsibilities of the Attorney General

In addition to such other responsibilities as are specifically conferred upon the Attorney General by this chapter, the central authority functions specified in Article 14 of the Convention (relating to the filing of applications by prospective adoptive parents to the central authority of their country of residence) shall be performed by the Attorney General.

References in Text

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. Effective Date

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14914. Annual report on intercountry adoptions

(a) Reports required

Beginning 1 year after the date of the entry into force of the Convention for the United States and each year thereafter, the Secretary, in consultation with the Attorney General and other appropriate agencies, shall submit a report describing the activities of the central authority of the United States under this chapter during the preceding year to the Committee on Foreign Affairs, the Committee on Ways and Means, and the Committee on the Judiciary of the House of Representatives and the Committee on Foreign Relations, the Committee on Finance, and the Committee on the Judiciary of the Senate.

(b) Report elements

Each report under subsection (a) shall set forth with respect to the year concerned, the following:

(1) The number of intercountry adoptions involving immigration to the United States, regardless of whether the adoption occurred under the Convention, including the country from which each child emigrated, the State to which each child immigrated, and the country in which the adoption was finalized.
(2) The number of intercountry adoptions involving emigration from the United States, regardless of whether the adoption occurred under the Convention, including the country to which each child immigrated and the State from which each child emigrated.

(3) The number of Convention placements for adoption in the United States that were disrupted, including the country from which the child emigrated, the age of the child, the date of the placement for adoption, the reasons for the disruption, the resolution of the disruption, the agencies that handled the placement for adoption, and the plans for the child, and in addition, any information regarding disruption or dissolution of adoptions of children from other countries received pursuant to section 622(b)(12) of this title.

(4) The average time required for completion of a Convention adoption, set forth by country from which the child emigrated.

(5) The current list of agencies accredited and persons approved under this chapter to provide adoption services.

(6) The names of the agencies and persons temporarily or permanently debarred under this chapter, and the reasons for the debarment.

(7) The range of adoption fees charged in connection with Convention adoptions involving immigration to the United States and the median of such fees set forth by the country of origin.

(8) The range of fees charged for accreditation of agencies and the approval of persons in the United States engaged in providing adoption services under the Convention.

(9) A list of countries that established or maintained a significant law or regulation that prevented or prohibited adoptions involving immigration to the United States, regardless of whether such adoptions occurred under the Convention.

(10) For each country listed under paragraph (9), the date on which the law or regulation was initially implemented.

(11) Information on efforts taken with respect to a country listed under paragraph (9) to encourage the resumption of halted or stalled adoption proceedings involving immigration to the United States, regardless of whether the adoptions would have occurred under the Convention.

(12) Information on any action the Secretary carried out that prevented, prohibited, or halted any adoptions involving immigration to the United States, regardless of whether the adoptions occurred under the Convention.

(13) For each country listed pursuant to paragraph (12), a description of—

(A) what policies, procedures, resources, and safeguards the country lacks, or other shortcomings or circumstances, that caused the action to be carried out;

(B) what progress the country has made to alleviate those shortcomings; and

(C) what steps the Department of State has taken in order to assist the country to reopen intercountry adoptions.

(14) An assessment of the impact of the fee schedule of the Intercountry Adoption Accreditation and Maintenance Entity on families seeking to adopt internationally, especially low-income families, families seeking to adopt sibling groups, or families seeking to adopt children with disabilities.

(c) Public availability of report

The Secretary shall make the information contained in the report required under subsection (a) available to the public on the website of the Department of State.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b)(5), (6), was in the original ‘‘This Act’’, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–184, § 2(d), substituted ‘‘Foreign Affairs’’ for ‘‘International Relations’’.

Subsec. (b)(9) to (14). Pub. L. 116–184, § 2(a), added pars. (9) to (14).

EFFECTIVE DATE OF 2020 AMENDMENT

Pub. L. 116–184, § 2(e), Oct. 30, 2020, 134 Stat. 898, provided that: ‘‘The amendments made by this section [amending this section] shall apply with respect to reports required to be submitted under section 104 of the Intercountry Adoption Act of 2000 (42 U.S.C. 14914) beginning on the date that is 180 days after the date of enactment of this Act [Oct. 30, 2020].’’

EFFECTIVE DATE OF 2006 AMENDMENT

Amendment by Pub. L. 109–288 effective Oct. 1, 2006, and applicable to payments under parts B and E of subchapter IV of chapter 7 of this title for calendar quarters beginning on or after such date, without regard to whether implementing regulations have been promulgated, and with delay permitted if State legislation is required to meet additional requirements, see section 12(a), (b) of Pub. L. 109–288, set out as a note under section 621 of this title.

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

PRIVACY CONCERNS

Pub. L. 116–184, § 2(c), Oct. 30, 2020, 134 Stat. 898, provided that: ‘‘In complying with the amendments made by subsections (a) and (b) [amending this section], the Secretary shall avoid, to the maximum extent practicable, disclosing any personally identifiable information relating to United States citizens or the adoptees of such citizens.’’
§ 14921. Accreditation or approval required in order to provide adoption services in cases subject to the Convention

(a) In general
Except as otherwise provided in this subchapter, no person may offer or provide adoption services in connection with a Convention adoption in the United States unless that person—
(1) is accredited or approved in accordance with this subchapter; or
(2) is providing such services through or under the supervision and responsibility of an accredited agency or approved person.

(b) Exceptions
Subsection (a) shall not apply to the following:

(1) Background studies and home studies
The performance of a background study on a child or a home study on a prospective adoptive parent, or any report on any such study by a social work professional or organization who is not providing any other adoption service in the case, if the background or home study is approved by an accredited agency.

(2) Child welfare services
The provision of a child welfare service by a person who is not providing any other adoption service in the case.

(3) Legal services
The provision of legal services by a person who is not providing any other adoption service in the case.

(4) Prospective adoptive parents acting on own behalf
The conduct of a prospective adoptive parent on his or her own behalf in the case, to the extent not prohibited by the law of the State in which the prospective adoptive parent resides.

This subchapter, referred to in subsec. (a), was in the original “this title”, meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which is classified principally to this subchapter. For complete classification of title II to the Code, see Tables.

EFFECTIVE DATE
Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14922. Process for accreditation and approval; role of accrediting entities

(a) Designation of accrediting entities

(1) In general
The Secretary shall enter into agreements with one or more qualified entities under which such entities will perform the duties described in subsection (b) in accordance with the Convention, this subchapter, and the regulations prescribed under section 14923 of this title, and upon entering into each such agreement shall designate the qualified entity as an accrediting entity.

(2) Qualified entities
In paragraph (1), the term “qualified entity” means:
(A) a nonprofit private entity that has expertise in developing and administering standards for entities providing child welfare services and that meets such other criteria as the Secretary may by regulation establish; or
(B) a public entity (other than a Federal entity), including an agency or instrumentality of State government having responsibility for licensing adoption agencies, that—
(i) has expertise in developing and administering standards for entities providing child welfare services;
(ii) accredits only agencies located in the State in which the public entity is located; and
(iii) meets such other criteria as the Secretary may by regulation establish.

(b) Duties of accrediting entities
The duties described in this subsection are the following:

(1) Accreditation and approval
Accreditation of agencies, and approval of persons, to provide adoption services in the United States in cases subject to the Convention.

(2) Oversight
Ongoing monitoring of the compliance of accredited agencies and approved persons with applicable requirements, including review of complaints against such agencies and persons in accordance with procedures established by the accrediting entity and approved by the Secretary.

(3) Enforcement
Taking of adverse actions (including requiring corrective action, imposing sanctions, and refusing to renew, suspending, or canceling accreditation or approval) for noncompliance with applicable requirements, including notification of the agency or person against whom adverse actions are taken of the deficiencies necessitating the adverse action.

(4) Data, records, and reports
Collection of data, maintenance of records, and reporting to the Secretary, the United States central authority, State courts, and other entities (including on persons and agencies granted or denied approval or accreditation), to the extent and in the manner that the Secretary requires.

(5) Report on use of Federal funding
Not later than 90 days after an accrediting entity receives Federal funding authorized by section 14943 of this title, the entity shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on
Foreign Affairs of the House of Representatives that describes—

(A) the amount of such funding the entity received; and

(B) how such funding was, or will be, used by the entity.

c) Remedies for adverse action by accrediting entity

(1) Correction of deficiency

An agency or person who is the subject of an adverse action by an accrediting entity may re-apply for accreditation or approval (or petition for termination of the adverse action) on demonstrating to the satisfaction of the accrediting entity that the deficiencies necessitating the adverse action have been corrected.

(2) No other administrative review

An adverse action by an accrediting entity shall not be subject to administrative review.

(3) Judicial review

An agency or person who is the subject of an adverse action by an accrediting entity may petition the United States district court in the judicial district in which the agency is located or the person resides to set aside the adverse action. The court shall review the adverse action in accordance with section 706 of title 5, and for purposes of such review the accrediting entity shall be considered an agency within the meaning of section 701 of such title.

d) Fees

The amount of fees assessed by accrediting entities for the costs of accreditation shall be subject to approval by the Secretary. Such fees may not exceed the costs of accreditation. In reviewing the level of such fees, the Secretary shall consider the relative size of, the geographic location of, and the number of Convention adoption cases managed by the agencies or persons subject to accreditation or approval by the accrediting entity.

REFERENCES IN TEXT

This subchapter, referred to in subsec. (a)(1), was in the original “this title”, meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which is classified principally to this subchapter. For complete classification of title II to the Code, see Tables.

AMENDMENTS

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14923. Standards and procedures for providing accreditation or approval

(a) In general

(1) Promulgation of regulations

The Secretary, shall, by regulation, prescribe the standards and procedures to be used by accrediting entities for the accreditation of agencies and the approval of persons to provide adoption services in the United States in cases subject to the Convention.

(2) Consideration of views

In developing such regulations, the Secretary shall consider any standards or procedures developed or proposed by, and the views of, individuals and entities with interest and expertise in international adoptions and family social services, including public and private entities with experience in licensing and accrediting adoption agencies.

(3) Applicability of notice and comment rules

Subsections (b), (c), and (d) of section 553 of title 5 shall apply in the development and issuance of regulations under this section.

(b) Minimum requirements

(1) Accreditation

The standards prescribed under subsection (a) shall include the requirement that accreditation of an agency may not be provided or continued under this subchapter unless the agency meets the following requirements:

(A) Specific requirements

(i) The agency provides prospective adoptive parents of a child in a prospective Convention adoption a copy of the medical records of the child (which, to the fullest extent practicable, shall include an English-language translation of such records) on a date which is not later than the earlier of the date that is 2 weeks before: (I) the adoption; or (II) the date on which the prospective parents travel to a foreign country to complete all procedures in such country relating to the adoption.

(ii) The agency ensures that a thorough background report (home study) on the prospective adoptive parent or parents has been completed in accordance with the Convention and with applicable Federal and State requirements and transmitted to the Attorney General with respect to each Convention adoption. Each such report shall include a criminal background check and a full and complete statement of all facts relevant to the eligibility of the prospective adopting parent or parents to adopt a child under any requirements specified by the central authority of the child’s country of origin under section 14912(b)(3) of this title, including, in the case of a child emigrating to the United States for the purpose of adoption, the requirements of the child’s country of origin applicable to adoptions taking place in such country. For purposes of this clause, the term “background report (home study)” includes any supplemental statement submitted by the agency to the Attorney General for the purpose of providing information relevant to any requirements specified by the child’s country of origin.

(iii) The agency provides prospective adoptive parents with a training program that includes counseling and guidance for the purpose of promoting a successful inter-country adoption before such parents travel to adopt the child or the child is placed with such parents for adoption.
(iv) The agency employs personnel providing intercountry adoption services on a fee for service basis rather than on a contingent fee basis.

(v) The agency discloses fully its policies and practices, the disruption rates of its placements for intercountry adoption, and all fees charged by such agency for intercountry adoption.

(B) Capacity to provide adoption services

The agency has, directly or through arrangements with other persons, a sufficient number of appropriately trained and qualified personnel, sufficient financial resources, appropriate organizational structure, and appropriate procedures to enable the agency to provide, in accordance with this chapter, all adoption services in cases subject to the Convention.

(C) Use of social service professionals

The agency has established procedures designed to ensure that social service functions requiring the application of clinical skills and judgment are performed only by professionals with appropriate qualifications and credentials.

(D) Records, reports, and information matters

The agency is capable of—

(i) maintaining such records and making such reports as may be required by the Secretary, the United States central authority, and the accrediting entity that accredits the agency;

(ii) cooperating with reviews, inspections, and audits;

(iii) safeguarding sensitive individual information; and

(iv) complying with other requirements concerning information management necessary to ensure compliance with the Convention, this chapter, and any other applicable law.

(E) Liability insurance

The agency agrees to have in force adequate liability insurance for professional negligence and any other insurance that the Secretary considers appropriate.

(F) Compliance with applicable rules

The agency has established adequate measures to comply (and to ensure compliance of their agents and clients) with the Convention, this chapter, and any other applicable law.

(G) Nonprofit organization with state license to provide adoption services

The agency is a private nonprofit organization licensed to provide adoption services in at least one State.

(2) Approval

The standards prescribed under subsection (a) shall include the requirement that a person shall not be approved under this subchapter unless the person is a private for-profit entity that meets the requirements of subparagraphs (A) through (F) of paragraph (1) of this subsection.

(3) Renewal of accreditation or approval

The standards prescribed under subsection (a) shall provide that the accreditation of an agency or approval of a person under this subchapter shall be for a period of not less than 3 years and not more than 5 years, and may be renewed on a showing that the agency or person meets the requirements applicable to original accreditation or approval under this subchapter.

(c) Temporary registration of community based agencies

(1) One-year registration period for medium community based agencies

For a 1-year period after the entry into force of the Convention and notwithstanding subsection (b), the Secretary may provide, in regulations issued pursuant to subsection (a), that an agency may register with the Secretary and be accredited to provide adoption services in the United States in cases subject to the Convention during such period if the agency has provided adoption services in fewer than 100 intercountry adoptions in the preceding calendar year and meets the criteria described in paragraph (3).

(2) Two-year registration period for small community-based agencies

For a 2-year period after the entry into force of the Convention and notwithstanding subsection (b), the Secretary may provide, in regulations issued pursuant to subsection (a), that an agency may register with the Secretary and be accredited to provide adoption services in the United States in cases subject to the Convention during such period if the agency has provided adoption services in fewer than 50 intercountry adoptions in the preceding calendar year and meets the criteria described in paragraph (3).

(3) Criteria for registration

Agencies registered under this subsection shall meet the following criteria:

(A) The agency is licensed in the State in which it is located and is a nonprofit agency.

(B) The agency has been providing adoption services in connection with intercountry adoptions for at least 3 years.

(C) The agency has demonstrated that it will be able to provide the United States Government with all information related to the elements described in section 14914(b) of this title and provides such information.

(D) The agency has initiated the process of becoming accredited under the provisions of this chapter and is actively taking steps to become an accredited agency.

(E) The agency has not been found to be involved in any improper conduct relating to intercountry adoptions.
This chapter, referred to in subsecs. (b)(1)(B), (D)(iv), (F) and (c)(3)(D) was in the original “this Act”, meaning Pub. L. 106-279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

**Effective Date**

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106-279, set out as an Effective Date; Transition Rule note under section 14901 of this title.

§ 14924. Secretarial oversight of accreditation and approval

(a) Oversight of accrediting entities

The Secretary shall—

(1) monitor the performance by each accrediting entity of its duties under section 14922 of this title and its compliance with the requirements of the Convention, this chapter, other applicable laws, and implementing regulations under this chapter; and

(2) suspend or cancel the designation of an accrediting entity found to be substantially out of compliance with the Convention, this chapter, other applicable laws, or implementing regulations under this chapter.

(b) Suspension or cancellation of accreditation or approval

(1) Secretary’s authority

The Secretary shall suspend or cancel the accreditation or approval granted by an accrediting entity to an agency or person pursuant to section 14922 of this title when the Secretary finds that—

(A) the agency or person is substantially out of compliance with applicable requirements; and

(B) the accrediting entity has failed or refused, after consultation with the Secretary, to take appropriate enforcement action.

(2) Correction of deficiency

At any time when the Secretary is satisfied that the deficiencies on the basis of which an adverse action is taken under paragraph (1) have been corrected, the Secretary shall—

(A) notify the accrediting entity that the deficiencies have been corrected; and

(B) (i) in the case of a suspension, terminate the suspension; or

(ii) in the case of a cancellation, notify the agency or person that the agency or person may re-apply to the accrediting entity for accreditation or approval.

(c) Debarment

(1) Secretary’s authority

On the initiative of the Secretary, or on request of an accrediting entity, the Secretary may temporarily or permanently debar an agency from accreditation or a person from approval under this subchapter, but only if—

(A) there is substantial evidence that the agency or person is out of compliance with applicable requirements; and

(B) there has been a pattern of serious, willful, or grossly negligent failures to comply or other aggravating circumstances indicatinthat continued accreditation or approval would not be in the best interests of the children and families concerned.

(2) Period of debarment

The Secretary’s debarment order shall state whether the debarment is temporary or permanent. If the debarment is temporary, the Secretary shall specify a date, not earlier than 3 years after the date of the order, on or after which the agency or person may apply to the Secretary for withdrawal of the debarment.

(3) Effect of debarment

An accrediting entity may take into account the circumstances of the debarment of an agency or person that has been debarred pursuant to this subsection in considering any subsequent application of the agency or person, or of any other entity in which the agency or person has an ownership or control interest, for accreditation or approval under this subchapter.

(d) Judicial review

A person (other than a prospective adoptive parent), an agency, or an accrediting entity who is the subject of a final action of suspension, cancellation, or debarment by the Secretary under this subchapter may petition the United States District Court for the District of Columbia or the United States district court in the judicial district in which the person resides or the agency or accrediting entity is located to set aside the action. The court shall review the action in accordance with section 706 of title 5.

(4) Failure to ensure a full and complete home study

(1) In general

Willful, grossly negligent, or repeated failure to ensure the completion and transmission of a background report (home study) that fully complies with the requirements of section 14923(b)(1)(A)(ii) of this title shall constitute substantial noncompliance with applicable requirements.

(2) Regulations

Regulations promulgated under section 14923 of this title shall provide for—

(A) frequent and careful monitoring of compliance by agenciese approvedpersons with the requirements of section 14923(b)(1)(A)(ii) of this title; and

(B) consultation between the Secretary and the accrediting entity where an agency or person has engaged in substantial noncompliance with the requirements of section 14923(b)(1)(A)(ii) of this title, unless the accrediting entity has taken appropriate corrective action and the noncompliance has not recurred.

(3) Repeated failures to comply

Repeated serious, willful, or grossly negligent failures to comply with the requirements of section 14923(b)(1)(A)(ii) of this title by an agency or person after consultation between Secretary and the accrediting entity with respect to previous noncompliance by

1So in original. Probably should be section “14923(b)(1)(A)(ii)”.

---

Page 8153  TITLE 42—THE PUBLIC HEALTH AND WELFARE  § 14924
such agency or person shall constitute a pattern of serious, willful, or grossly negligent failures to comply under subsection (c)(1)(B).

(4) Failure to comply with certain requirements

A failure to comply with the requirements of section 14923(b)(1)(A)(ii) of this title shall constitute a serious failure to comply under subsection (c)(1)(B) unless it is shown by clear and convincing evidence that such noncompliance had neither the purpose nor the effect of determining the outcome of a decision or proceeding by a court or other competent authority in the United States or the child’s country of origin.

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original ‘‘this Act’’, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter.

This subchapter, referred to in subsecs. (c)(1), (3) and (d), was in the original ‘‘this title’’, meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which is classified principally to this subchapter. For complete classification of title II to the Code, see Tables.

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14925. Universal accreditation requirements

(a) In general

The provisions of title II and section 404 of the Intercountry Adoption Act of 2000 (42 U.S.C. 14901 et seq. [42 U.S.C. 14944]), and related implementing regulations, shall apply to any person offering or providing adoption services in connection with a child described in section 1101(b)(1)(F) of title 8, to the same extent as they apply to the offering or provision of adoption services in connection with a Convention adoption. The Secretary of State, the Secretary of Homeland Security, the Attorney General (with respect to section 404(b) of the Intercountry Adoption Act of 2000 (42 U.S.C. 14944(b))), and the accrediting entities shall have the duties, responsibilities, and authorities under title II and title IV of the Intercountry Adoption Act of 2000 (42 U.S.C. 14921 et seq., 14941 et seq.) and related implementing regulations with respect to a person offering or providing such adoption services, irrespective of whether such services are offered or provided in connection with a Convention adoption.

(b) Effective date

The provisions of this section shall take effect 18 months after January 14, 2013.

(c) Transition rule

This Act shall not apply to a person offering or providing adoption services as described in subsection (a) in the case of a prospective adoption in which—

(1) an application for advance processing of an orphan petition or petition to classify an orphan as an immediate relative for a child is filed before the date that is 180 days after January 14, 2013; or

(2) the prospective adoptive parents of a child have initiated the adoption process with the filing of an appropriate application in a foreign country sufficient such that the Secretary of State is satisfied before the date that is 180 days after January 14, 2013.

REFERENCES IN TEXT

The Intercountry Adoption Act of 2000, referred to in subsec. (a), is Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825. Title II of the Act is classified principally to this subchapter, and title IV of the Act is classified generally to subchapter IV (§14941 et seq.) of this chapter. CONSTRUCTION

Section was enacted as part of the Intercountry Adoption Universal Accreditation Act of 2012, and not as part of the Intercountry Adoption Act of 2000 which comprises this chapter.

DEFINITIONS

SUBCHAPTER III—RECOGNITION OF CONVENTION ADOPTIONS IN THE UNITED STATES

§ 14931. Adoptions of children immigrating to the United States

(a) Legal effect of certificates issued by the Secretary of State

(1) Issuance of certificates by the Secretary of State

The Secretary of State shall, with respect to each Convention adoption, issue a certificate to the adoptive citizen parent domiciled in the United States that the adoption has been granted or, in the case of a prospective adoptive citizen parent, that legal custody of the child has been granted to the citizen parent for purposes of emigration and adoption, pursuant to the Convention and this chapter, if the Secretary of State—

(A) receives appropriate notification from the central authority of such child’s country of origin; and

(B) has verified that the requirements of the Convention and this chapter have been met with respect to the adoption.

(2) Legal effect of certificates

If appended to an original adoption decree, the certificate described in paragraph (1) shall—
be treated by Federal and State agencies, courts, and other public and private persons and entities as conclusive evidence of the facts certified therein and shall constitute the certification required by section 1154(d)(2) of title 8.

(b) Legal effect of Convention adoption finalized in another Convention country

A final adoption in another Convention country, certified by the Secretary of State pursuant to subsection (a) of this section or section 14932(c) of this title, shall be recognized as a final valid adoption for purposes of all Federal, State, and local laws of the United States.

(c) Condition on finalization of Convention adoption by State court

In the case of a child who has entered the United States from another Convention country for the purpose of adoption, an order declaring the adoption final shall not be entered unless the Secretary of State has issued the certificate provided for in subsection (a) with respect to the adoption.

REFERENCES IN TEXT

This chapter, referred to in subsec. (a)(1), was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

Effective Date

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14932. Adoptions of children emigrating from the United States

(a) Duties of accredited agency or approved person

In the case of a Convention adoption involving the emigration of a child residing in the United States to a foreign country, the accredited agency or approved person providing adoption services, or the prospective adoptive parent or parents acting on their own behalf (if permitted by the laws of such other Convention country in which they reside and the laws of the State in which the child resides), shall do the following:

(1) Ensure that, in accordance with the Convention—

(A) a background study on the child is completed;

(B) the accredited agency or approved person—

(i) has made reasonable efforts to actively recruit and make a diligent search for prospective adoptive parents to adopt the child in the United States; and

(ii) despite such efforts, has not been able to place the child for adoption in the United States in a timely manner; and

(C) a determination is made that placement with the prospective adoptive parent or parents is in the best interests of the child.

(2) Furnish to the State court with jurisdiction over the case—

(A) documentation of the matters described in paragraph (1);

(B) a background report (home study) on the prospective adoptive parent or parents (including a criminal background check) prepared in accordance with the laws of the receiving country; and

(C) a declaration by the central authority (or other competent authority) of such other Convention country—

(i) that the child will be permitted to enter and reside permanently, or on the same basis as the adopting parent, in the receiving country; and

(ii) that the central authority (or other competent authority) of such other Convention country consents to the adoption, if such consent is necessary under the laws of such country for the adoption to become final.

(3) Furnish to the United States central authority—

(A) official copies of State court orders certifying the final adoption or grant of custody; and

(B) the information and documents described in paragraph (2), to the extent required by the United States central authority; and

(C) any other information concerning the case required by the United States central authority to perform the functions specified in subsection (c) or otherwise to carry out the duties of the United States central authority under the Convention.

(b) Conditions on State court orders

An order declaring an adoption to be final or granting custody for the purpose of adoption in a case described in subsection (a) shall not be entered unless the court—

(1) has received and verified to the extent the court may find necessary—

(A) the material described in subsection (a)(2); and

(B) satisfactory evidence that the requirements of Articles 4 and 15 through 21 of the Convention have been met; and

(2) has determined that the adoptive placement is in the best interests of the child.

(c) Duties of the Secretary of State

In a case described in subsection (a), the Secretary, on receipt and verification as necessary of the material and information described in subsection (a)(3), shall issue, as applicable, an official certification that the child has been adopted or a declaration that custody for purposes of adoption has been granted, in accordance with the Convention and this chapter.

(d) Filing with registry regarding non-Convention adoptions

Accredited agencies, approved persons, and other persons, including governmental authorities, providing adoption services in an intercountry adoption not subject to the Convention...
that involves the emigration of a child from the United States shall file information required by regulations jointly issued by the Attorney General and the Secretary of State for purposes of implementing section 14912(e) of this title.

SUBCHAPTER IV—ADMINISTRATION AND ENFORCEMENT

§ 14941. Access to Convention records

(a) Preservation of Convention records

(1) In general

Not later than 180 days after October 6, 2000, the Secretary, in consultation with the Attorney General, shall issue regulations that establish procedures and requirements in accordance with the Convention and this section for the preservation of Convention records.

(2) Applicability of notice and comment rules

Subsections (b), (c), and (d) of section 553 of title 5 shall apply in the development and issuance of regulations under this section.

(b) Access to Convention records

(1) Prohibition

Except as provided in paragraph (2), the Secretary or the Attorney General may disclose a Convention record, and access to such a record may be provided in whole or in part, only if such record is maintained under the authority of the Immigration and Nationality Act [8 U.S.C. 1101 et seq.] and disclosure of, or access to, such record is permitted or required by applicable Federal law.

(2) Exception for administration of the Convention

A Convention record may be disclosed, and access to such a record may be provided, in whole or in part, among the Secretary, the Attorney General, central authorities, accredited agencies, and approved persons, only to the extent necessary to administer the Convention or this chapter.

(3) Penalties for unlawful disclosure

Unlawful disclosure of all or part of a Convention record shall be punishable in accordance with applicable Federal law.

(c) Access to non-Convention records

Disclosure of, access to, and penalties for unlawful disclosure of, adoption records that are not Convention records, including records of adoption proceedings conducted in the United States, shall be governed by applicable State law.

REFERENCES IN TEXT
The Immigration and Nationality Act, referred to in subsec. (b)(1), is act June 27, 1952, ch. 477, 66 Stat. 163, as amended, which is classified principally to chapter 12 (§1101 et seq.) of Title 8, Aliens and Nationality. For complete classification of this Act to the Code, see Short Title note set out under section 1101 of Title 8 and Tables.

This chapter, referred to in subsec. (b)(2), was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

EFFECTIVE DATE
Subsec. (a) of this section effective Oct. 6, 2000, and subsecs. (b) and (c) of this section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 565 of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14942. Documents of other Convention countries

Documents originating in any other Convention country and related to a Convention adoption case shall require no authentication in order to be admissible in any Federal, State, or local court in the United States, unless a specific and supported claim is made that the documents are false, have been altered, or are otherwise unreliable.

EFFECTIVE DATE
Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 565a(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14943. Authorization of appropriations; collection of fees

(a) Authorization of appropriations

(1) In general

There are authorized to be appropriated such sums as may be necessary to agencies of the Federal Government implementing the Convention and the provisions of this chapter.

(2) Availability of funds

Amounts appropriated pursuant to paragraph (1) are authorized to remain available until expended.

(b) Assessment of fees

(1) The Secretary may charge a fee for new or enhanced services that will be undertaken by the Department of State to meet the requirements of this chapter with respect to inter-
country adoptions under the Convention and comparable services with respect to other intercountry adoptions. Such fee shall be prescribed by regulation and shall not exceed the cost of such services.

(2) Fees collected under paragraph (1) shall be retained and deposited as an offsetting collection to any Department of State appropriation to recover the costs of providing such services. Such fees shall remain available for obligation until expended.

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

AMENDMENTS

2013—Subsec. (c). Pub. L. 112–276 struck out subsec. (c). Text read as follows: “No funds collected under the authority of this section may be made available to an accreding entity to carry out the purposes of this chapter.”

Subsec. (b)(3). Pub. L. 107–228, § 211(a)(2), struck out par. (3) which read as follows: “Fees authorized under this section shall be available for obligation only to the extent and in the amount provided in advance in appropriations Acts.”

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which enacted subchapter II of this chapter and amended section 622 of this title. For complete classification of title II to the Code, see Tables.

$14952. Money penalties

(a) General

Any person who—

(1) violates section 14921 of this title;

(2) makes a false or fraudulent statement, or misrepresentation, with respect to a material fact, or offers, gives, solicits, or accepts inducement by way of compensation, intended to influence or affect in the United States or a foreign country—

(A) a decision by an accreding entity with respect to the accreditation of an agency or approval of a person under subchapter II;

(B) the relinquishment of parental rights or the giving of parental consent relating to the adoption of a child in a case subject to the Convention; or

(C) a decision or action of any entity performing a central authority function; or

(3) engages another person as an agent, whether in the United States or in a foreign country, who in the course of that agency takes any of the actions described in paragraph (1) or (2),

shall be subject, in addition to any other penalty that may be prescribed by law, to a civil money penalty of not more than $50,000 for a first violation, and not more than $100,000 for each succeeding violation.

(b) Civil enforcement

(1) Authority of Attorney General

The Attorney General may bring a civil action to enforce subsection (a) against any person in any United States district court.

(2) Factors to be considered in imposing penalties

In imposing penalties the court shall consider the gravity of the violation, the degree of culpability of the defendant, and any history of prior violations by the defendant.

(c) Criminal penalties

Whoever knowingly and willfully violates paragraph (1) or (2) of subsection (a) shall be subject to a fine of not more than $250,000, imprisonment for not more than 5 years, or both.

REFERENCES IN TEXT

Subchapter II, referred to in subsec. (a)(2)(A), was in the original “title II”, meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which enacted subchapter II of this chapter and amended section 622 of this title. For complete classification of title II to the Code, see Tables.

SUBCHAPTER V—GENERAL PROVISIONS

$14951. Recognition of Convention adoptions

Subject to Article 24 of the Convention, adoptions concluded between two other Convention countries that meet the requirements of Article 23 of the Convention and that became final before the date of entry into force of the Convention for the United States shall be recognized thereafter in the United States and given full effect. Such recognition shall include the specific effects described in Article 28 of the Convention.

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

$14952. Special rules for certain cases

(a) Authority to establish alternative procedures for adoption of children by relatives

To the extent consistent with the Convention, the Secretary may establish by regulation alternative procedures for the adoption of children
by individuals related to them by blood, marriage, or adoption, in cases subject to the Convention.

(b) Waiver authority

(1) In general

Notwithstanding any other provision of this chapter, to the extent consistent with the Convention, the Secretary may, on a case-by-case basis, waive applicable requirements of this chapter or regulations issued under this chapter, in the interests of justice or to prevent grave physical harm to the child.

(2) Nondelegation

The authority provided by paragraph (1) may not be delegated.

REFERENCES IN TEXT

This chapter, referred to in subsec. (b)(1), was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, which is classified principally to this chapter. Effective Date

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§ 14953. Relationship to other laws

(a) Preemption of inconsistent State law

The Convention and this chapter shall not be construed to preempt any provision of the law of any State or political subdivision thereof, or prevent a State or political subdivision thereof from enacting any provision of law with respect to the subject matter of the Convention or this chapter, except to the extent that such provision of State law is inconsistent with the Convention or this chapter, and then only to the extent of the inconsistency.

(b) Applicability of the Indian Child Welfare Act

The Convention and this chapter shall not be construed to affect the application of the Indian Child Welfare Act of 1978 (25 U.S.C. 1901 et seq.).

(c) Relationship to other laws

Sections 3506(c), 3507, and 3512 of title 44 shall not apply to information collection for purposes of sections 14914, 14922(b)(4), and 14932(d) of this title or for use as a Convention record as defined in this chapter.

CHAPTER 144—DEVELOPMENTAL DISABILITIES ASSISTANCE AND BILL OF RIGHTS

SUBCHAPTER I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

PART A—GENERAL PROVISIONS

Sec.
15001. Findings, purposes, and policy.
15002. Definitions.
15003. Records and audits.
15004. Responsibilities of the Secretary.
15005. Reports of the Secretary.
15006. State control of operations.
15007. Employment of individuals with disabilities.
15008. Construction.
15009. Rights of individuals with developmental disabilities.

PART B—FEDERAL ASSISTANCE TO STATE COUNCILS ON DEVELOPMENTAL DISABILITIES

15021. Purpose.
15022. State allotments.
15023. Payments to the States for planning, administration, and services.
15024. State plan.
15025. State Councils on Developmental Disabilities and designated State agencies.
15026. Federal and non-Federal share.
15027. Withholding of payments for planning, administration, and services.
15028. Appeals by States.
15029. Authorization of appropriations.

PART C—PROTECTION AND ADVOCACY OF INDIVIDUAL RIGHTS

15041. Purpose.
15042. Allotments and payments.
15043. System required.
15044. Administration.
§ 15001. Findings, purposes, and policy

(a) Findings

Congress finds that—

(1) disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to live independently, to exert control and choice over their lives, and to fully participate in and contribute to their communities through full integration and inclusion in the economic, political, social, cultural, and educational mainstream of United States society;

(2) in 1999, there were between 3,200,000 and 4,500,000 individuals with developmental disabilities in the United States, and recent studies indicate that individuals with developmental disabilities comprise between 1.2 and 1.65 percent of the United States population;

(3) individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely;

(4) individuals with developmental disabilities often encounter discrimination in the provision of critical services, such as services in the areas of emphasis (as defined in section 15002 of this title);

(5) individuals with developmental disabilities are at greater risk than the general population of abuse, neglect, financial and sexual exploitation, and the violation of their legal and human rights;

(6) a substantial portion of individuals with developmental disabilities and their families do not have access to appropriate services and support, including access to assistive technology, from generic and specialized service systems, and remain underserved or unserved;

(7) individuals with developmental disabilities often require lifelong community services, individualized supports, and other forms of assistance, that are most effective when provided in a coordinated manner;

(8) there is a need to ensure that services, supports, and other assistance are provided in a culturally competent manner, that ensures that individuals from racial and ethnic minority backgrounds are fully included in all activities provided under this subchapter;

(9) family members, friends, and members of the community can play an important role in enhancing the lives of individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance;

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;
(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) Purpose

The purpose of this subchapter is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this subchapter, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c); and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuous education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or indirectly relevant to the lives of individuals with developmental disabilities;

(B) technical assistance to entities who engage in or intend to engage in activities consistent with the purpose described in this subsection or the policy described in subsection (c); and

(C) other nationally significant activities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities receiving assistance under this subchapter shall be carried out in a manner consistent with the principles that—

(1) individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of self-determination, independence, productivity, and integration and inclusion in all facets of community life, but often require the provision of community services, individualized supports, and other forms of assistance;

(2) individuals with developmental disabilities and their families have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individuals;

(3) individuals with developmental disabilities and their families are the primary decisionmakers regarding the services and supports such individuals and their families receive, including regarding choosing where the individuals live from available options, and play decisionmaking roles in policies and programs that affect the lives of such individuals and their families;

(4) services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preferences, and cultural differences;

(5) specific efforts must be made to ensure that individuals with developmental disabilities from racial and ethnic minority backgrounds and their families enjoy increased and meaningful opportunities to access and use
community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families;

(8) individuals with developmental disabilities need to have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

SHORT TITLE

contracts or cooperative agreements with, Special Olympics for the implementation of on-site health assessments, screening for health problems, health education, data collection, and referrals to direct health care services.

“(2) COORDINATION.—Activities under paragraph (1) shall be coordinated with private health providers, expanded authorized programs of State and local jurisdictions, or the Department of Health and Human Services, as applicable.

“(d) LIMITATION.—Amounts appropriated to carry out this section shall not be used for direct treatment of diseases, medical conditions, or mental health conditions. Nothing in the preceding sentence shall be construed to limit the use of non-Federal funds by Special Olympics.

“SEC. 4. APPLICATION AND ANNUAL REPORT.

“(a) APPLICATION.—

“(1) IN GENERAL.—To be eligible for a grant, contract, or cooperative agreement under subsection (a), (b), or (c) of section 3, Special Olympics shall submit an application at such time, in such manner, and containing such information as the Secretary of Education, Secretary of State, or Secretary of Health and Human Services, as applicable, may require.

“(2) CONTENT.—At a minimum, an application under this subsection shall contain the following:

“(A) ACTIVITIES.—A description of activities to be carried out with the grant, contract, or cooperative agreement.

“(B) MEASURABLE GOALS.—Information on specific measurable goals and objectives to be achieved through activities carried out with the grant, contract, or cooperative agreement.

“(b) ANNUAL REPORT.—

“(1) IN GENERAL.—As a condition on receipt of any funds under subsection (a), (b), or (c) of section 3, Special Olympics shall agree to submit an annual report at such time, in such manner, and containing such information as the Secretary of Education, Secretary of State, or Secretary of Health and Human Services, as applicable, may require.

“(2) CONTENT.—At a minimum, each annual report under this subsection shall describe the degree to which progress has been made toward meeting the goals and objectives described in the applications submitted under subsection (a).

“SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

“(a) There are authorized to be appropriated—

“(1) for grants, contracts, or cooperative agreements under section 3(a), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years;

“(2) for grants, contracts, or cooperative agreements under section 3(b), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years; and

“(3) for grants, contracts, or cooperative agreements under section 3(c), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years.”

EX. ORD. NO. 12994. PRESIDENT’S COMMITTEE ON MENTAL RETARDATION

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to promote full participation of people with intellectual disabilities in their communities, it is hereby ordered as follows:

SECTION 1. Committee Continued and Responsibilities Expanded. The President’s Committee on Mental Retardation, with expanded membership and expanded responsibilities, and renamed the President’s Committee for People with Intellectual Disabilities (Committee), is hereby continued in operation.

S. 2. Composition of Committee. (a) The Committee shall be composed of the following members:

(1) The Attorney General;

(2) The Secretary of the Interior;

(3) The Secretary of Commerce;

(4) The Secretary of Labor;

(5) The Secretary of Health and Human Services;

(6) The Secretary of Housing and Urban Development;

(7) The Secretary of Transportation;

(8) The Secretary of Education;

(9) The Secretary of Homeland Security;

(10) The Chief Executive Officer of the Corporation for National and Community Service;

(11) The Commissioner of Social Security;

(12) The Chairman of the Equal Employment Opportunity Commission;

(13) The Chairperson of the National Council on Disability; and

(14) No more than 21 other members who shall be appointed to the Committee by the President. These citizen members shall consist of individuals who represent a broad spectrum of perspectives, experience, and expertise on intellectual disabilities; persons with intellectual disabilities and members of families with a child or adult with intellectual disabilities; and persons employed in either the public or the private sector. Except as the President may from time to time otherwise direct, appointees under this paragraph shall serve for two-year terms, except that an appointment made to fill a vacancy occurring before the expiration of a term shall be made for the balance of the unexpired term.

(b) The President shall designate the Chair of the Committee from the 21 citizen members. The Chair shall preside over meetings of the Committee and represent the Committee on appropriate occasions.

SEC. 3. Functions of the Committee. (a) Consistent with subsection (c) of this section, the Committee shall:

(1) provide such advice concerning intellectual disabilities as the President or the Secretary of Health and Human Services may request; and

(2) provide advice to the President concerning the following for people with intellectual disabilities:

(A) expansion of educational opportunities;

(B) promotion of homeownership;

(C) assurance of workplace integration;

(D) improvement of transportation options;

(E) expansion of full access to community living; and

(F) increasing access to assistive and universally designed technologies.

(b) The Committee shall provide an annual report to the President through the Secretary of Health and Human Services. Such additional reports may be made as the President may direct or as the Committee may deem appropriate.

(c) The members shall advise the President and carry out their advisory role consistent with the requirements of the Federal Advisory Committee Act, as amended (5 U.S.C. App.).

SEC. 4. Cooperation by Agencies. The heads of Federal departments and agencies shall:

(a) designate, when requested by the Secretary of Health and Human Services, an officer or employee of such department or agency to serve as a liaison with the Committee; and

(b) furnish such information and assistance to the Committee, to the extent permitted by law, as the Secretary of Health and Human Services may request to assist the Committee in performing its functions under this order.

SEC. 5. Administration. (a) The Department of Health and Human Services shall provide the Committee with necessary staff support, administrative services and facilities, and funding, to the extent permitted by law.

(b) Each member of the Committee, except any member who receives other compensation from the United States Government, may receive compensation for each day engaged in the work of the Committee, as authorized by law (5 U.S.C. 3109), and may also receive travel expenses, including per diem in lieu of subsistence, as authorized by law (5 U.S.C. 5701–5707), for persons em-
employed intermittently in the Government service. Committee members with disabilities may be compensated for attendant expenses, consistent with Government procedures and practices.

(c) The Secretary of Health and Human Services shall perform such other functions with respect to the Committee as may be required by the Federal Advisory Committee Act, as amended (5 U.S.C. App.), except that of reporting to the Congress.

5. General. (a) Nothing in this order shall be construed as subjecting any Federal agency, or any function vested by law in, any Federal agency, to the authority of the Committee or as abrogating or restricting any such function in any manner.

(b) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, instrumentalities, or entities, its officers or employees, or any other person.

EXTENSION OF TERM OF PRESIDENT'S COMMITTEE FOR PEOPLE WITH INTELLECTUAL DISABILITIES

Term of the President's Committee for People with Intellectual Disabilities extended until Sept. 30, 2021, by Ex. Ord. No. 13869, Sept. 27, 2019, 84 F.R. 52743, set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees.

Previous extensions of term of the President's Committee for People with Intellectual Disabilities (formerly President's Committee on Mental Retardation) were contained in the following prior Executive Orders:

§ 15002. Definitions

In this subchapter:

(1) American Indian Consortium

The term “American Indian Consortium” means any confederation of 2 or more recognized American Indian tribes, created through the official action of each participating tribe, that has a combined total resident population of 150,000 enrolled tribal members and a contiguous territory of Indian lands in 2 or more States.

(2) Areas of emphasis

The term “areas of emphasis” means the areas related to quality assurance activities, education activities and early intervention activities, child care-related activities, health-related activities, employment-related activities, housing-related activities, transportation-related activities, recreation-related activities, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life.

(3) Assistive technology device

The term “assistive technology device” means any item, piece of equipment, or product system, whether acquired commercially, modified or customized, that is used to increase, maintain, or improve functional capabilities of individuals with developmental disabilities.

(4) Assistive technology service

The term “assistive technology service” means any service that directly assists an individual with a developmental disability in the selection, acquisition, or use of an assistive technology device. Such term includes—

(A) conducting an evaluation of the needs of an individual with a developmental disability, including a functional evaluation of the individual in the individual's customary environment;
(B) purchasing, leasing, or otherwise providing for the acquisition of an assistive technology device by an individual with a developmental disability;
(C) selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing or replacing an assistive technology device;
(D) coordinating and using another therapy, intervention, or service with an assistive technology device, such as a therapy, intervention, or service associated with an education or rehabilitation plan or program;
(E) providing training or technical assistance for an individual with a developmental disability, or, where appropriate, a family member, guardian, advocate, or authorized representative of an individual with a developmental disability; and
(F) providing training or technical assistance for professionals (including individuals providing education and rehabilitation services), employers, or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of, an individual with developmental disabilities.

(5) Center

The term “Center” means a University Center for Excellence in Developmental Disabili-
§ 15002  TITLE 42—THE PUBLIC HEALTH AND WELFARE

(6) Child care-related activities

The term "child care-related activities" means advocacy, capacity building, and systemic change activities that result in families of children with developmental disabilities having access to and use of child care services, including before-school, after-school, and out-of-school services, in their communities.

(7) Culturally competent

The term "culturally competent", used with respect to services, supports, or other assistance, means services, supports, or other assistance that is conducted or provided in a manner that is responsive to the beliefs, interpersonal styles, attitudes, language, and behaviors of individuals who are receiving the services, supports, or other assistance, and in a manner that has the greatest likelihood of ensuring their maximum participation in the program involved.

(8) Developmental disability

(A) In general

The term "developmental disability" means a severe, chronic disability of an individual that—

(i) is attributable to a mental or physical impairment or combination of mental and physical impairments;

(ii) is manifested before the individual attains age 22;

(iii) is likely to continue indefinitely;

(iv) results in substantial functional limitations in 3 or more of the following areas of major life activity:

(I) Self-care.

(II) Receptive and expressive language.

(III) Learning.

(IV) Mobility.

(V) Self-direction.

(VI) Capacity for independent living.

(VII) Economic self-sufficiency; and

(v) reflects the individual's need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

(B) Infants and young children

An individual from birth to age 9, inclusive, who has a substantial developmental delay or specific congenital or acquired condition, may be considered to have a developmental disability without meeting 3 or more of the criteria described in clauses (i) through (v) of subparagraph (A) if the individual, without services and supports, has a high probability of meeting those criteria later in life.

(9) Early intervention activities

The term "early intervention activities" means advocacy, capacity building, and systemic change activities provided to individuals described in paragraph (8)(B) and their families to enhance—

(A) the development of the individuals to maximize their potential; and

(B) the capacity of families to meet the special needs of the individuals.

(10) Education activities

The term "education activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities being able to access appropriate supports and modifications when necessary, to maximize their educational potential, to benefit from lifelong educational activities, and to be integrated and included in all facets of student life.

(11) Employment-related activities

The term "employment-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities acquiring, retaining, or advancing in paid employment, including supported employment or self-employment, in integrated settings in a community.

(12) Family support services

(A) In general

The term "family support services" means services, supports, and other assistance, provided to families with members who have developmental disabilities, that are designed to—

(i) strengthen the family's role as primary caregiver;

(ii) prevent inappropriate out-of-the-home placement of the members and maintain family unity; and

(iii) reunite families with members who have been placed out of the home whenever possible.

(B) Specific services

Such term includes respite care, provision of rehabilitation technology and assistive technology, personal assistance services, parent training and counseling, support for families headed by aging caregivers, vehicular and home modifications, and assistance with extraordinary expenses, associated with the needs of individuals with developmental disabilities.

(13) Health-related activities

The term "health-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of coordinated health, dental, mental health, and other human and social services, including prevention activities, in their communities.

(14) Housing-related activities

The term "housing-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of coordinated health, dental, mental health, and other human and social services, including prevention activities, in their communities.

(15) Inclusion

The term "inclusion", used with respect to individuals with developmental disabilities,
means the acceptance and encouragement of the presence and participation of individuals with developmental disabilities, by individuals without disabilities, in social, educational, work, and community activities, that enables individuals with developmental disabilities to—
(A) have friendships and relationships with individuals and families of their own choice;
(B) live in homes close to community resources, with regular contact with individuals without disabilities in their communities;
(C) enjoy full access to and active participation in the same community activities and types of employment as individuals without disabilities; and
(D) take full advantage of their integration into the same community resources as individuals without disabilities, living, learning, working, and enjoying life in regular contact with individuals without disabilities.

(16) Individualized supports
The term “individualized supports” means supports that—
(A) enable an individual with a developmental disability to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life;
(B) are designed to—
(i) enable such individual to control such individual’s environment, permitting the most independent life possible;
(ii) prevent placement into a more restrictive living arrangement than is necessary; and
(iii) enable such individual to live, learn, work, and enjoy life in the community; and
(C) include—
(i) early intervention services;
(ii) respite care;
(iii) personal assistance services;
(iv) family support services;
(v) supported employment services;
(vi) support services for families headed by aging caregivers of individuals with developmental disabilities; and
(vii) provision of rehabilitation technology and assistive technology, and assistive technology services.

(17) Integration
The term “integration”, used with respect to individuals with developmental disabilities, means exercising the equal right of individuals with developmental disabilities to access and use the same community resources as are used by and available to other individuals.

(18) Not-for-profit
The term “not-for-profit”, used with respect to an agency, institution, or organization, means an agency, institution, or organization that is owned or operated by 1 or more corporations or associations, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(19) Personal assistance services
The term “personal assistance services” means a range of services, provided by 1 or more individuals, designed to assist an individual with a disability to perform daily activities, including activities on or off a job that such individual would typically perform if such individual did not have a disability. Such services shall be designed to increase such individual’s control in life and ability to perform everyday activities, including activities on or off a job.

(20) Prevention activities
The term “prevention activities” means activities that address the causes of developmental disabilities and the exacerbation of functional limitation, such as activities that—
(A) eliminate or reduce the factors that cause or predispose individuals to developmental disabilities or that increase the prevalence of developmental disabilities;
(B) increase the early identification of problems to eliminate circumstances that create or increase functional limitations; and
(C) mitigate against the effects of developmental disabilities throughout the lifespan of an individual.

(21) Productivity
The term “productivity” means—
(A) engagement in income-producing work that is measured by increased income, improved employment status, or job advancement; or
(B) engagement in work that contributes to a household or community.

(22) Protection and advocacy system
The term “protection and advocacy system” means a protection and advocacy system established in accordance with section 15043 of this title.

(23) Quality assurance activities
The term “quality assurance activities” means advocacy, capacity building, and systemic change activities that result in improved consumer- and family-centered quality assurance and that result in systems of quality assurance and consumer protection that—
(A) include monitoring of services, supports, and assistance provided to an individual with developmental disabilities that ensures that the individual—
(i) will not experience abuse, neglect, sexual or financial exploitation, or violation of legal or human rights; and
(ii) will not be subject to the inappropriate use of restraints or seclusion;
(B) include training in leadership, self-advocacy, and self-determination for individuals with developmental disabilities, their families, and their guardians to ensure that those individuals—
(i) will not experience abuse, neglect, sexual or financial exploitation, or violation of legal or human rights; and
(ii) will not be subject to the inappropriate use of restraints or seclusion; or
(C) include activities related to inter-agency coordination and systems integra-
tion that result in improved and enhanced services, supports, and other assistance that contribute to and protect the self-determination, independence, productivity, and integration and inclusion in all facets of community life, of individuals with developmental disabilities.

(24) Recreation-related activities

The term “recreation-related activities” means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of recreational, leisure, and social activities, in their communities.

(25) Rehabilitation technology

The term “rehabilitation technology” means the systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers confronted by, individuals with developmental disabilities in areas that include education, rehabilitation, employment, transportation, independent living, and recreation. Such term includes rehabilitation engineering, and the provision of assistive technology devices and assistive technology services.

(26) Secretary

The term “Secretary” means the Secretary of Health and Human Services.

(27) Self-determination activities

The term “self-determination activities” means activities that result in individuals with developmental disabilities, with appropriate assistance, having—

(A) the ability and opportunity to communicate and make personal decisions;
(B) the ability and opportunity to communicate choices and exercise control over the type and intensity of services, supports, and other assistance the individuals receive;
(C) the authority to control resources to obtain needed services, supports, and other assistance;
(D) opportunities to participate in, and contribute to, their communities; and
(E) support, including financial support, to advocate for themselves and others, to develop leadership skills, through training in self-advocacy, to participate in coalitions, to educate policymakers, and to play a role in the development of public policies that affect individuals with developmental disabilities.

(28) State

The term “State”, except as otherwise provided, includes, in addition to each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(29) State Council on Developmental Disabilities

The term “State Council on Developmental Disabilities” means a Council established under section 15025 of this title.

(30) Supported employment services

The term “supported employment services” means services that enable individuals with developmental disabilities to perform competitive work in integrated work settings, in the case of individuals with developmental disabilities—

(A)(i) for whom competitive employment has not traditionally occurred; or
(ii) for whom competitive employment has been interrupted or intermittent as a result of significant disabilities; and
(B) who, because of the nature and severity of their disabilities, need intensive supported employment services or extended services in order to perform such work.

(31) Transportation-related activities

The term “transportation-related activities” means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of transportation.

(32) Unserved and underserved

The term “unserved and underserved” includes populations such as individuals from racial and ethnic minority backgrounds, disadvantaged individuals, individuals with limited English proficiency, individuals from underserved geographic areas (rural or urban), and specific groups of individuals within the population of individuals with developmental disabilities, including individuals who require assistive technology in order to participate in and contribute to community life.

§ 15003. Records and audits

(a) Records

Each recipient of assistance under this subchapter shall keep such records as the Secretary shall prescribe, including—

(1) records that fully disclose—
(A) the amount and disposition by such recipient of the assistance;
(B) the total cost of the project or undertaking in connection with which such assistance is given or used; and
(C) the amount of that portion of the cost of the project or undertaking that is supplied by other sources; and
(2) such other records as will facilitate an effective audit.

(b) Access

The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipients of assistance under this subchapter that are pertinent to such assistance.

§ 15004. Responsibilities of the Secretary

(a) Program accountability

(1) In general

In order to monitor entities that received funds under this chapter to carry out activi-
ties under parts B, C, and D and determine the extent to which the entities have been responsive to the purpose of this subchapter and have taken actions consistent with the policy described in section 15001(c) of this title, the Secretary shall develop and implement an accountability process as described in this subsection, with respect to activities conducted after October 1, 2001.

(2) Areas of emphasis

The Secretary shall develop a process for identifying and reporting (pursuant to section 15005 of this title) on progress achieved through advocacy, capacity building, and systemic change activities, undertaken by the entities described in paragraph (1), that resulted in individuals with developmental disabilities and their families participating in the design and having access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life. Specifically, the Secretary shall develop a process for identifying and reporting on progress achieved, through advocacy, capacity building, and systemic change activities, by the entities in the areas of emphasis.

(3) Indicators of progress

(A) In general

In identifying progress made by the entities described in paragraph (1) in the areas of emphasis, the Secretary, in consultation with the Commissioner of the Administration on Developmental Disabilities and the entities, shall develop indicators for each area of emphasis.

(B) Proposed indicators

Not later than 180 days after October 30, 2000, the Secretary shall develop and publish in the Federal Register for public comment proposed indicators of progress for monitoring how entities described in paragraph (1) have addressed the areas of emphasis described in paragraph (2) in a manner that is responsive to the purpose of this subchapter and consistent with the policy described in section 15001(c) of this title.

(C) Final indicators

Not later than October 1, 2001, the Secretary shall revise the proposed indicators of progress, to the extent necessary based on public comment, and publish final indicators of progress in the Federal Register.

(D) Specific measures

At a minimum, the indicators of progress shall be used to describe and measure—

(i) the satisfaction of individuals with developmental disabilities with the advocacy, capacity building, and systemic change activities provided under parts B, C, and D;

(ii) the extent to which the advocacy, capacity building, and systemic change activities provided through parts B, C, and D result in improvements in—

(I) the ability of individuals with developmental disabilities to make choices and exert control over the type, intensity, and timing of services, supports, and assistance that the individuals have used;

(II) the ability of individuals with developmental disabilities to participate in the full range of community life with persons of the individuals' choice; and

(III) the ability of individuals with developmental disabilities to access services, supports, and assistance in a manner that ensures that such an individual is free from abuse, neglect, sexual and financial exploitation, violation of legal and human rights, and the inappropriate use of restraints and seclusion; and

(iii) the extent to which the entities described in paragraph (1) collaborate with each other to achieve the purpose of this subchapter and the policy described in section 15001(c) of this title.

(4) Time line for compliance with indicators of progress

The Secretary shall require entities described in paragraph (1) to meet the indicators of progress described in paragraph (3). For fiscal year 2002 and each year thereafter, the Secretary shall apply the indicators in monitoring entities described in paragraph (1), with respect to activities conducted after October 1, 2001.

(b) Time line for regulations

Except as otherwise expressly provided in this subchapter, the Secretary, not later than 1 year after October 30, 2000, shall promulgate such regulations as may be required for the implementation of this subchapter.

(c) Interagency committee

(1) In general

The Secretary shall maintain the interagency committee authorized in section 6007 of this title as in effect on the day before October 30, 2000, except as otherwise provided in this subsection.

(2) Composition

The interagency committee shall be composed of representatives of—

(A) the Administration on Developmental Disabilities, the Administration on Children, Youth, and Families, the Administration on Aging, and the Health Resources and Services Administration, of the Department of Health and Human Services; and

(B) such other Federal departments and agencies as the Secretary of Health and Human Services considers to be appropriate.

(3) Duties

Such interagency committee shall meet regularly to coordinate and plan activities conducted by Federal departments and agencies for individuals with developmental disabilities.

(4) Meetings

Each meeting of the interagency committee (except for any meetings of any subcommittees of the committee) shall be open to the
§ 15005. Reports of the Secretary

At least once every 2 years, the Secretary, using information submitted in the reports and information required under parts B, C, D, and E, shall prepare and submit to the President, Congress, and the National Council on Disability, a report that describes the goals and outcomes of programs supported under parts B, C, D, and E. In preparing the report, the Secretary shall provide—

1. meaningful examples of how the councils, protection and advocacy systems, centers, and entities funded under parts B, C, D, and E, respectively—
   A) have undertaken coordinated activities with each other;
   B) have enhanced the ability of individuals with developmental disabilities and their families to participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life;
   C) have brought about advocacy, capacity building, and systemic change activities (including policy reform), and other actions on behalf of individuals with developmental disabilities and their families, including individuals who are traditionally underserved, particularly individuals who are members of ethnic and racial minority groups and individuals from underserved geographic areas; and
   D) have brought about advocacy, capacity building, and systemic change activities that affect individuals with disabilities other than individuals with developmental disabilities;

2. information on the extent to which programs authorized under this subchapter have addressed—
   A) protecting individuals with developmental disabilities from abuse, neglect, sexual and financial exploitation, and violations of legal and human rights, so that those individuals are at no greater risk of harm than other persons in the general population; and
   B) reports of deaths of and serious injuries to individuals with developmental disabilities; and

3. a summary of any incidents of non-compliance of the programs authorized under this subchapter with the provisions of this subchapter, and corrections made or actions taken to obtain compliance.

§ 15006. State control of operations

Except as otherwise specifically provided, nothing in this subchapter shall be construed as conferring on any Federal officer or employee the right to exercise any supervision or control over the administration, personnel, maintenance, or operation of any programs, services, and supports for individuals with developmental disabilities with respect to which any funds have been or may be expended under this subchapter.

§ 15007. Employment of individuals with disabilities

As a condition of providing assistance under this subchapter, the Secretary shall require that each recipient of such assistance take affirmative action to employ and advance in employment qualified individuals with disabilities on the same terms and conditions required with respect to the employment of such individuals under the provisions of title V of the Rehabilitation Act of 1973 (29 U.S.C. 791 et seq.) and the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), that govern employment.

The Americans with Disabilities Act of 1990, referred to in text, is Pub. L. 101–336, July 26, 1990, 104 Stat. 327, as amended, which is classified principally to chapter 12 of Title 29, Labor, and to chapters 30 and 32 of Title 42, and to Tables.

REFERENCES IN TEXT

The Americans with Disabilities Act of 1990, referred to in text, is Pub. L. 101–336, July 26, 1990, 104 Stat. 327, as amended, which is classified principally to chapter 30 of Title 29, Labor, and to chapters 30 and 32 of Title 42, and to Tables.

§ 15008. Construction

Nothing in this subchapter shall be construed to preclude an entity funded under this subchapter from engaging in advocacy, capacity building, and systemic change activities for individuals with developmental disabilities that may also have a positive impact on individuals with other disabilities.

§ 15009. Rights of individuals with developmental disabilities

(a) In general

Congress makes the following findings respecting the rights of individuals with developmental disabilities:
(1) Individuals with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities, consistent with section 15001(c) of this title.

(2) The treatment, services, and habilitation for an individual with developmental disabilities should be designed to maximize the potential of the individual and should be provided in the setting that is least restrictive of the individual’s personal liberty.

(3) The Federal Government and the States both have an obligation to ensure that public funds are provided only to institutional programs, residential programs, and other community programs, including educational programs in which individuals with developmental disabilities participate, that—

(A) provide treatment, services, and habilitation that are appropriate to the needs of such individuals; and

(B) meet minimum standards relating to—

(i) provision of care that is free of abuse, neglect, sexual and financial exploitation, and violations of legal and human rights and that subjects individuals with developmental disabilities to no greater risk of harm than others in the general population;

(ii) provision to such individuals of appropriate and sufficient medical and dental services;

(iii) prohibition of the use of physical restraint and seclusion for such an individual unless absolutely necessary to ensure the immediate physical safety of the individual or others, and prohibition of the use of such restraint and seclusion as a punishment or as a substitute for a habilitation program;

(iv) prohibition of the excessive use of chemical restraints on such individuals and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such individuals; and

(v) provision for close relatives or guardians of such individuals to visit the individuals without prior notice.

(4) All programs for individuals with developmental disabilities should meet standards—

(A) that are designed to assure the most favorable possible outcome for those served; and

(B)(i) in the case of residential programs serving individuals in need of comprehensive health-related, habilitative, assistive technology or rehabilitative services, that are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded, promulgated in regulations of the Secretary on June 3, 1988, as appropriate, taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(ii) in the case of other residential programs for individuals with developmental disabilities, that assure that—

(I) care is appropriate to the needs of the individuals being served by such programs;

(II) the individuals admitted to facilities of such programs are individuals whose needs can be met through services provided by such facilities; and

(III) the facilities of such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(iii) in the case of nonresidential programs, that assure that the care provided by such programs is appropriate to the individuals served by the programs.

(b) Clarification

The rights of individuals with developmental disabilities described in findings made in this section shall be considered to be in addition to any constitutional or other rights otherwise afforded to all individuals.

PART B—FEDERAL ASSISTANCE TO STATE COUNCILS ON DEVELOPMENTAL DISABILITIES

§ 15021. Purpose

The purpose of this part is to provide for allotments to support State Councils on Developmental Disabilities (referred to individually in this part as a “Council”) in each State to—

(1) engage in advocacy, capacity building, and systemic change activities that are consistent with the purpose described in section 15001(b) of this title and the policy described in section 15001(c) of this title; and

(2) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that enable individuals with developmental disabilities to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life.

§ 15022. State allotments

(a) Allotments

(1) In general

(A) Authority

For each fiscal year, the Secretary shall, in accordance with regulations and this paragraph, allot the sums appropriated for such year under section 15029 of this title among the States on the basis of—

(i) the population;

(ii) the extent of need for services for individuals with developmental disabilities; and

(iii) the financial need, of the respective States.

(B) Use of funds

Sums allotted to the States under this section shall be used to pay for the Federal...
share of the cost of carrying out projects in accordance with State plans approved under section 15024 of this title for the provision under such plans of services for individuals with developmental disabilities.

(2) Adjustments

The Secretary may make adjustments in the amounts of State allotments based on clauses (i), (ii), and (iii) of paragraph (1)(A) not more often than annually. The Secretary shall notify each State of any adjustment made under this paragraph and the percentage of the total sums appropriated under section 15029 of this title that the adjusted allotment represents not later than 6 months before the beginning of the fiscal year in which such adjustment is to take effect.

(3) Minimum allotment for appropriations less than or equal to $70,000,000

(A) In general

Except as provided in paragraph (4), for any fiscal year the allotment under this section—

(i) to each of American Samoa, Guam, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands may not be less than $210,000; and

(ii) to any State not described in clause (i) may not be less than $400,000, the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater.

(B) Reduction of allotment

Notwithstanding subparagraph (A), if the aggregate of the amounts to be allotted to the States pursuant to subparagraph (A) for any fiscal year exceeds the total amount appropriated under section 15029 of this title for such fiscal year, the amount to be allotted to each State for such fiscal year shall be proportionately reduced.

(4) Minimum allotment for appropriations in excess of $70,000,000

(A) In general

In any case in which the total amount appropriated under section 15029 of this title for a fiscal year is more than $70,000,000, the allotment under this section for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands may not be less than $220,000; and

(ii) to any State not described in clause (i) may not be less than $450,000, the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater.

(B) Reduction of allotment

The requirements of paragraph (3)(B) shall apply with respect to amounts to be allotted to States under subparagraph (A), in the same manner and to the same extent as such requirements apply with respect to amounts to be allotted to States under paragraph (3)(A).

(5) State supports, services, and other activities

In determining, for purposes of paragraph (1)(A)(ii), the extent of need in any State for services for individuals with developmental disabilities, the Secretary shall take into account the scope and extent of the services, supports, and assistance described, pursuant to section 15024(c)(3)(A) of this title, in the State plan of the State.

(6) Increase in allotments

In any year in which the total amount appropriated under section 15029 of this title for a fiscal year exceeds the total amount appropriated under such section (or a corresponding provision) for the preceding fiscal year by a percentage greater than the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase), the Secretary shall increase each of the minimum allotments described in paragraphs (3) and (4), the Secretary shall increase each minimum allotment by an amount that bears the same ratio to the amount of such minimum allotment (including any increases in such minimum allotment under this paragraph (or a corresponding provision) for prior fiscal years) as the amount that is equal to the difference between—

(A) the total amount appropriated under section 15029 of this title for the fiscal year for which the increase in the minimum allotment is being made; minus

(B) the total amount appropriated under section 15029 of this title (or a corresponding provision) for the immediately preceding fiscal year,

bears to the total amount appropriated under section 15029 of this title (or a corresponding provision) for such preceding fiscal year.

(b) Unobligated funds

Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available to such State for the purposes for which such amount was paid.

(c) Obligation of funds

For the purposes of this part, State Interagency Agreements are considered valid obligations for the purpose of obligating Federal funds allotted to the State under this part.

(d) Cooperative efforts between States

If a State plan approved in accordance with section 15024 of this title provides for cooperative or joint effort between or among States or agencies, public or private, in more than 1 State, portions of funds allotted to 1 or more States described in this subsection may be combined in accordance with the agreements between the States or agencies involved.

(e) Reallocations

(1) In general

If the Secretary determines that an amount of an allotment to a State for a period (of a fiscal year or longer) will not be required by
the State during the period for the purpose for which the allotment was made, the Secretary may reallocate the amount.

(2) **Timing**

The Secretary may make such a reallocation from time to time, on such date as the Secretary may fix, but not earlier than 30 days after the Secretary has published notice of the intention of the Secretary to make the reallocation in the Federal Register.

(3) **Amounts**

The Secretary shall reallocate the amount to other States with respect to which the Secretary has not made that determination. The Secretary shall reallocate the amount in proportion to the original allotments of the other States for such fiscal year, but shall reduce such proportionate amount for any of the other States to the extent the proportionate amount exceeds the sum that the Secretary estimates the State needs and will be able to use during such period.

(4) **Reallotment of reductions**

The Secretary shall similarly reallocate the total of the reductions among the States whose proportionate amounts were not so reduced.

(5) **Treatment**

Any amount reallocated to a State under this subsection for a fiscal year shall be deemed to be a part of the allotment of the State under subsection (a) for such fiscal year.

**AMENDMENTS**

2003—Subsec. (a)(3)(A)(ii), (4)(A)(ii). Pub. L. 108–154 inserted before period at end “the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater”.

Effective Date of 2003 Amendment

§ 15023. Payments to the States for planning, administration, and services

(a) **State plan expenditures**

From each State’s allotment for a fiscal year under section 15022 of this title, the Secretary shall pay to the State the Federal share of the cost, other than the cost for construction, incurred during such year for activities carried out under the State plan approved under section 15024 of this title. The Secretary shall make such payments from time to time in advance on the basis of estimates by the Secretary of the sums the State will expend for the cost under the State plan. The Secretary shall make such adjustments as may be necessary to the payments on account of previously made underpayments or overpayments under this section.

(b) **Designated State agency expenditures**

The Secretary may make payments to a State for the portion described in section 15024(c)(5)(B)(vi) of this title in advance or by way of reimbursement, and in such installments as the Secretary may determine.

§ 15024. State plan

(a) **In general**

Any State desiring to receive assistance under this part shall submit to the Secretary, and obtain approval of, a 5-year strategic State plan under this section.

(b) **Planning cycle**

The plan described in subsection (a) shall be updated as appropriate during the 5-year period.

(c) **State plan requirements**

In order to be approved by the Secretary under this section, a State plan shall meet each of the following requirements:

(1) **State Council**

The plan shall provide for the establishment and maintenance of a Council in accordance with section 15025 of this title and describe the membership of such Council.

(2) **Designated State agency**

The plan shall identify the agency or office within the State designated to support the Council in accordance with this section and section 15025(d) of this title (referred to in this part as a “designated State agency”).

(3) **Comprehensive review and analysis**

The plan shall describe the results of a comprehensive review and analysis of the extent to which services, supports, and other assistance are available to individuals with developmental disabilities and their families, and the extent of unmet needs for services, supports, and other assistance for those individuals and their families, in the State. The results of the comprehensive review and analysis shall include—

(A) a description of the services, supports, and other assistance being provided to individuals with developmental disabilities and their families under other federally assisted State programs, plans, and policies under which the State operates and in which individuals with developmental disabilities are or may be eligible to participate, including particularly programs relating to the areas of emphasis, including—

(i) medical assistance, maternal and child health care, services for children with special health care needs, children’s mental health services, comprehensive health and mental health services, and institutional care options;

(ii) job training, job placement, worksite accommodation, and vocational rehabilitation, and other work assistance programs; and

(iii) social, child welfare, aging, independent living, and rehabilitation and assistive technology services, and such other services as the Secretary may specify;

(B) a description of the extent to which agencies operating such other federally as-
sisted State programs, including activities authorized under section 3003 or 3004 of title 29, pursue interagency initiatives to improve and enhance community services, individualized supports, and other forms of assistance for individuals with developmental disabilities;

(C) an analysis of the extent to which community services and opportunities related to the areas of emphasis directly benefit individuals with developmental disabilities from receiving services described in this clause;

(ii) the barriers that impede full participation of members of unserved and underserved groups of individuals with developmental disabilities and their families;

(iv) the availability of assistive technology, assistive technology services, or rehabilitation technology, or information about assistive technology, assistive technology services, or rehabilitation technology to individuals with developmental disabilities;

(v) the number of individuals with developmental disabilities on waiting lists for services described in this subparagraph;

(vi) a description of the adequacy of current resources and projected availability of future resources to fund services described in this subparagraph;

(vii) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are in facilities receive (based in part on each independent review (pursuant to section 1396a(a)(30)(C) of this title) of an Intermediate Care Facility (Mental Retardation) within the State, which the State shall provide to the Council not later than 30 days after the availability of the review); and

(viii) to the extent that information is available, a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are served through home and community-based waivers (authorized under section 1396n(c) of this title) receive;

(D) a description of how entities funded under parts C and D, through interagency agreements or other mechanisms, collaborated with the entity funded under this part in the State, each other, and other entities to contribute to the achievement of the purpose of this part; and

(E) the rationale for the goals related to advocacy, capacity building, and systemic change to be undertaken by the Council to contribute to the achievement of the purpose of this part.

(4) Plan goals

The plan shall focus on Council efforts to bring about the purpose of this part, by—

(A) specifying 5-year goals, as developed through data driven strategic planning, for advocacy, capacity building, and systemic change related to the areas of emphasis, to be undertaken by the Council, that—

(i) are derived from the unmet needs of individuals with developmental disabilities and their families identified under paragraph (3); and

(ii) include a goal, for each year of the grant, to—

(I) establish or strengthen a program for the direct funding of a State self-advocacy organization led by individuals with developmental disabilities;

(II) support opportunities for individuals with developmental disabilities who are considered leaders to provide leadership training to individuals with developmental disabilities who may become leaders; and

(III) support and expand participation of individuals with developmental disabilities in cross-disability and culturally diverse leadership coalitions; and

(B) for each year of the grant, describing—

(i) the goals to be achieved through the grant, which, beginning in fiscal year 2002, shall be consistent with applicable indicators of progress described in section 15004(a)(3) of this title;

(ii) the strategies to be used in achieving each goal; and

(iii) the method to be used to determine if each goal has been achieved.

(5) Assurances

(A) In general

The plan shall contain or be supported by assurances and information described in subparagraphs (B) through (N) that are satisfactory to the Secretary.

(B) Use of funds

With respect to the funds paid to the State under section 15022 of this title, the plan shall provide assurances that—

(i) not less than 70 percent of such funds will be expended for activities related to the goals described in paragraph (4);

(ii) such funds will contribute to the achievement of the purpose of this part in various political subdivisions of the State;

(iii) such funds will be used to supplement, and not supplant, the non-Federal funds that would otherwise be made available for the purposes for which the funds paid under section 15022 of this title are provided;
(iv) such funds will be used to complement and augment rather than duplicate or replace services for individuals with developmental disabilities and their families who are eligible for Federal assistance under other State programs;

(v) part of such funds will be made available by the State to public or private entities;

(vi) at the request of any State, a portion of such funds provided to such State under this part for any fiscal year shall be available to pay up to 1⁄2 (or the entire amount if the Council is the designated State agency) of the expenditures found to be necessary by the Secretary for the proper and efficient exercise of the functions of the designated State agency, except that not more than 5 percent of such funds provided to such State for any fiscal year, or $50,000, whichever is less, shall be made available for total expenditures for such purpose by the designated State agency; and

(vii) not more than 20 percent of such funds will be allocated to the designated State agency for service demonstrations by such agency that—

(I) contribute to the achievement of the purpose of this part; and

(II) are explicitly authorized by the Council.

(C) State financial participation

The plan shall provide assurances that there will be reasonable State financial participation in the cost of carrying out the plan.

(D) Conflict of interest

The plan shall provide an assurance that no member of such Council will cast a vote on any matter that would provide direct financial benefit to the member or otherwise give the appearance of a conflict of interest.

(E) Urban and rural poverty areas

The plan shall provide assurances that special financial and technical assistance will be given to organizations that provide community services, individualized supports, and other forms of assistance to individuals with developmental disabilities who live in areas designated as urban or rural poverty areas.

(F) Program accessibility standards

The plan shall provide assurances that programs, projects, and activities funded under the plan, and the buildings in which such programs, projects, and activities are operated, will meet standards prescribed by the Secretary in regulations and all applicable Federal and State accessibility standards, including accessibility requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), section 794d of title 29, and the Fair Housing Act (42 U.S.C. 3601 et seq.).

(G) Individualized services

The plan shall provide assurances that any direct services provided to individuals with developmental disabilities and funded under the plan will be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individual.

(H) Human rights

The plan shall provide assurances that the human rights of the individuals with developmental disabilities (especially individuals without familial protection) who are receiving services under programs assisted under this part will be protected consistent with section 15009 of this title (relating to rights of individuals with developmental disabilities).

(I) Minority participation

The plan shall provide assurances that the State has taken affirmative steps to assure that participation in programs funded under this part is geographically representative of the State, and reflects the diversity of the State with respect to race and ethnicity.

(J) Employee protections

The plan shall provide assurances that fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) will be provided to protect the interests of employees affected by actions taken under the plan to provide community living activities, including arrangements designed to preserve employee rights and benefits and provide training and retraining of such employees where necessary, and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

(K) Staff assignments

The plan shall provide assurances that the staff and other personnel of the Council, while working for the Council, will be responsible solely for assisting the Council in carrying out the duties of the Council under this part and will not be assigned duties by the designated State agency, or any other agency, office, or entity of the State.

(L) Noninterference

The plan shall provide assurances that the designated State agency, and any other agency, office, or entity of the State, will not interfere with the advocacy, capacity building, and systemic change activities, budget, personnel, State plan development, or plan implementation of the Council, except that the designated State agency shall have the authority necessary to carry out the responsibilities described in section 15025(d)(3) of this title.

(M) State quality assurance

The plan shall provide assurances that the Council will participate in the planning, design or redesign, and monitoring of State quality assurance systems that affect individuals with developmental disabilities.

(N) Other assurances

The plan shall contain such additional information and assurances as the Secretary
may find necessary to carry out the provisions (including the purpose) of this part.

(d) Public input and review, submission, and approval

(1) Public input and review

The plan shall be based on public input. The Council shall make the plan available for public review and comment, after providing appropriate and sufficient notice in accessible formats of the opportunity for such review and comment. The Council shall revise the plan to take into account and respond to significant comments.

(2) Consultation with the designated State agency

Before the plan is submitted to the Secretary, the Council shall consult with the designated State agency to ensure that the State plan is consistent with State law and to obtain appropriate State plan assurances.

(3) Plan approval

The Secretary shall approve any State plan and, as appropriate, amendments of such plan that comply with the provisions of subsections (a), (b), and (c) and this subsection. The Secretary may take final action to disapprove a State plan after providing reasonable notice and an opportunity for a hearing to the State.

Amendments

2004—Subsec. (c)(3)(B). Pub. L. 108–364 substituted “section 3003 or 3004 of title 29” for “section 3011 or 3012 of title 29”.

§ 15025. State Councils on Developmental Disabilities and designated State agencies

(a) In general

Each State that receives assistance under this part shall establish and maintain a Council to undertake advocacy, capacity building, and systemic change activities (consistent with subsections (b) and (c) of section 15001 of this title) that contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that contribute to the achievement of the purpose of this part. The Council shall have the authority to fulfill the responsibilities described in subsection (c).

(b) Council membership

(1) Council appointments

(A) In general

The members of the Council of a State shall be appointed by the Governor of the State from among the residents of that State.

(B) Recommendations

The Governor shall select members of the Council, at the discretion of the Governor, after soliciting recommendations from organizations representing a broad range of individuals with developmental disabilities and individuals interested in individuals with developmental disabilities, including the non-State agency members of the Council. The Council may, at the initiative of the Council, or on the request of the Governor, coordinate Council and public input to the Governor regarding all recommendations.

(C) Representation

The membership of the Council shall be geographically representative of the State and reflect the diversity of the State with respect to race and ethnicity.

(2) Membership rotation

TheGovernor shall make appropriate provisions to rotate the membership of the Council. Such provisions shall allow members to continue to serve on the Council until such members’ successors are appointed. The Council shall notify the Governor regarding membership requirements of the Council, and shall notify the Governor when vacancies on the Council remain unfilled for a significant period of time.

(3) Representation of individuals with developmental disabilities

Not less than 60 percent of the membership of each Council shall consist of individuals who are—

(A)(i) individuals with developmental disabilities;

(ii) parents or guardians of children with developmental disabilities; or

(iii) immediate relatives or guardians of adults with mentally impairing developmental disabilities who cannot advocate for themselves; and

(B) not employees of a State agency that receives funds or provides services under this part, and who are not managing employees (as defined in section 1126(b) of the Social Security Act (42 U.S.C. 1320a–5(b)) of any other entity that receives funds or provides services under this part.

(4) Representation of agencies and organizations

(A) In general

Each Council shall include—

(i) representatives of relevant State entities, including—

(I) State entities that administer funds provided under Federal laws related to individuals with disabilities, including the Rehabilitation Act of 1973 (29 U.S.C.
§ 15025
(c) Council responsibilities

(6) Institutionalized individuals

(A) In general

Of the members of the Council described in paragraph (5), at least 1 shall be an immediate relative or guardian of an individual with a developmental disability who resides or previously resided in an institution or shall be an individual with a developmental disability who resides or previously resided in an institution.

(B) Limitation

Subparagraph (A) shall not apply with respect to a State if such an individual does not reside in that State.

(c) Council responsibilities

(1) In general

A Council, through Council members, staff, consultants, contractors, or subgrantees, shall have the responsibilities described in paragraphs (2) through (10).

(2) Advocacy, capacity building, and systemic change activities

The Council shall serve as an advocate for individuals with developmental disabilities and conduct or support programs, projects, and activities that carry out the purpose of this part.

(3) Examination of goals

At the end of each grant year, each Council shall—

(A) determine the extent to which each goal of the Council was achieved for that year;

(B) determine to the extent that each goal was not achieved, the factors that impeded the achievement;

(C) determine needs that require amendment of the 5-year strategic State plan required under section 15024 of this title;

(D) separately determine the information on the self-advocacy goal described in section 15024(c)(4)(A)(ii) of this title; and

(E) determine customer satisfaction with Council supported or conducted activities.

(4) State plan development

The Council shall develop the State plan and submit the State plan to the Secretary after consultation with the designated State agency under the State plan. Such consultation shall be solely for the purposes of obtaining State assurances and ensuring consistency of the plan with State law.

(5) State plan implementation

(A) In general

The Council shall implement the State plan by conducting and supporting advocacy, capacity building, and systemic change activities such as those described in subparagraphs (B) through (L).

(B) Outreach

The Council may support and conduct outreach activities to identify individuals with developmental disabilities and their families who otherwise might not come to the attention of the Council and assist and enable the individuals and families to obtain services, individualized supports, and other forms of assistance, including access to special adaptation of generic community services or specialized services.

(C) Training

The Council may support and conduct training for persons who are individuals with developmental disabilities, their families, and personnel (including professionals, paraprofessionals, students, volunteers, and other community members) to enable such persons to obtain access to, or to provide, community services, individualized supports, and other forms of assistance, including special adaptation of generic community services or specialized services for individuals with developmental disabilities and their families.

(D) Technical assistance

The Council may support and conduct technical assistance activities to assist pub-
lic and private entities to contribute to the achievement of the purpose of this part.

(E) Supporting and educating communities

The Council may support and conduct activities to assist neighborhoods and communities to respond positively to individuals with developmental disabilities and their families—

(i) by encouraging local networks to provide informal and formal supports;

(ii) through education; and

(iii) by enabling neighborhoods and communities to offer such individuals and their families access to and use of services, resources, and opportunities.

(F) Intergency collaboration and coordinaation

The Council may support and conduct activities to promote interagency collaboration and coordination to better serve, support, assist, or advocate for individuals with developmental disabilities and their families.

(G) Coordination with related councils, committees, and programs

The Council may support and conduct activities to enhance coordination of services with—

(i) other councils, entities, or committees, authorized by Federal or State law, concerning individuals with disabilities (such as the State interagency coordinating council established under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), the State Rehabilitation Council and the Statewide Independent Living Council established under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.), the State mental health planning council established under subtitle B of title XIX of the Public Health Service Act (42 U.S.C. 300x et seq.), and the activities authorized under section 3003 or 3004 of title 29, and entities carrying out other similar councils, entities, or committees);

(ii) parent training and information centers under part D of the Individuals with Disabilities Education Act (20 U.S.C. 1451 et seq.) and other entities carrying out federally funded projects that assist parents of children with disabilities; and

(iii) other groups interested in advocacy, capacity building, and systemic change activities to benefit individuals with disabilities.

(H) Barrier elimination, systems design and redesign

The Council may support and conduct activities to eliminate barriers to access and use of community services by individuals with developmental disabilities, enhance systems design and redesign, and enhance citizen participation to address issues identified in the State plan.

(I) Coalition development and citizen participation

The Council may support and conduct activities to educate the public about the capabilities, preferences, and needs of individuals with developmental disabilities and their families and to develop and support coalitions that support the policy agenda of the Council, including training in self-advocacy, education of policymakers, and citizen leadership skills.

(J) Informing policymakers

The Council may support and conduct activities to provide information to policymakers by supporting and conducting studies and analyses, gathering information, and developing and disseminating model policies and procedures, information, approaches, strategies, findings, conclusions, and recommendations. The Council may provide the information directly to Federal, State, and local policymakers, including Congress, the Federal executive branch, the Governors, State legislatures, and State agencies, in order to increase the ability of such policymakers to offer opportunities and to enhance or adapt generic services to meet the needs of, or provide specialized services to, individuals with developmental disabilities and their families.

(K) Demonstration of new approaches to services and supports

(i) In general

The Council may support and conduct, on a time-limited basis, activities to demonstrate new approaches to serving individuals with developmental disabilities that are a part of an overall strategy for systemic change. The strategy may involve the education of policymakers and the public about how to deliver effectively, to individuals with developmental disabilities and their families, services, supports, and assistance that contribute to the achievement of the purpose of this part.

(ii) Sources of funding

The Council may carry out this subparagraph by supporting and conducting demonstration activities through sources of funding other than funding provided under this part, and by assisting entities conducting demonstration activities to develop strategies for securing funding from other sources.

(L) Other activities

The Council may support and conduct other advocacy, capacity building, and systemic change activities to promote the development of a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that contribute to the achievement of the purpose of this part.

(6) Review of designated State agency

The Council shall periodically review the designated State agency and activities carried

1 See References in Text note below.
out under this part by the designated State agency and make any recommendations for change to the Governor.

(7) Reports

Beginning in fiscal year 2002, the Council shall annually prepare and transmit to the Secretary a report. Each report shall be in a form prescribed by the Secretary by regulation under section 15004(b) of this title. Each report shall contain information about the progress made by the Council in achieving the goals of the Council (as specified in section 15024(c)(4) of this title), including—

(A) a description of the extent to which the goals were achieved;

(B) a description of the strategies that contributed to achieving the goals;

(C) to the extent to which the goals were not achieved, a description of factors that impeded the achievement;

(D) separate information on the self-advocacy goal described in section 15024(c)(4)(A)(ii) of this title;

(E)(i) as appropriate, an update on the results of the comprehensive review and analysis described in section 15024(c)(3) of this title; and

(ii) information on consumer satisfaction with Council supported or conducted activities;

(F)(i) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities in Intermediate Care Facilities (Mental Retardation) receive; and

(ii) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities served through home and community-based waivers (authorized under section 1915(c) of the Social Security Act (42 U.S.C. 1396n(c)) receive;

(G) an accounting of the manner in which funds paid to the State under this part for a fiscal year were expended;

(H) a description of—

(i) resources made available to carry out activities to assist individuals with developmental disabilities that are directly attributable to Council actions; and

(ii) resources made available for such activities that are undertaken by the Council in collaboration with other entities; and

(I) a description of the method by which the Council will widely disseminate the annual report to affected constituencies and the general public and will assure that the report is available in accessible formats.

(8) Budget

Each Council shall prepare, approve, and implement a budget using amounts paid to the State under this part to fund and implement all programs, projects, and activities carried out under this part, including—

(A)(i) conducting such hearings and forums as the Council may determine to be necessary to carry out the duties of the Council; and

(ii) as determined in Council policy—

(I) reimbursing members of the Council for reasonable and necessary expenses (including expenses for child care and personal assistance services) for attending Council meetings and performing Council duties;

(II) paying a stipend to a member of the Council, if such member is not employed or must forfeit wages from other employment, to attend Council meetings and perform other Council duties;

(III) supporting Council member and staff travel to authorized training and technical assistance activities including in-service training and leadership development activities; and

(IV) carrying out appropriate subcontracting activities;

(B) hiring and maintaining such numbers and types of staff (qualified by training and experience) and obtaining the services of such professional, consulting, technical, and clerical staff (qualified by training and experience), consistent with State law, as the Council determines to be necessary to carry out the functions of the Council under this part, except that such State shall not apply hiring freezes, reductions in force, prohibitions on travel, or other policies to the staff of the Council, to the extent that such policies would impact the staff or functions funded with Federal funds, or would prevent the Council from carrying out the functions of the Council under this part; and

(C) directing the expenditure of funds for grants, contracts, interagency agreements that are binding contracts, and other activities authorized by the State plan approved under section 15024 of this title.

(9) Staff hiring and supervision

The Council shall, consistent with State law, recruit and hire a Director of the Council, should the position of Director become vacant, and supervise and annually evaluate the Director. The Director shall hire, supervise, and annually evaluate the staff of the Council. Council recruitment, hiring, and dismissal of staff shall be conducted in a manner consistent with Federal and State nondiscrimination laws. Dismissal of personnel shall be conducted in a manner consistent with State law and personnel policies.

(10) Staff assignments

The staff of the Council, while working for the Council, shall be responsible solely for assisting the Council in carrying out the duties of the Council under this part and shall not be assigned duties by the designated State agency or any other agency or entity of the State.

(11) Construction

Nothing in this subchapter shall be construed to authorize a Council to direct, control, or exercise any policymaking authority or administrative authority over any program assisted under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.) or the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).
(d) Designated State agency

(1) In general

Each State that receives assistance under this part shall designate a State agency that shall, on behalf of the State, provide support to the Council. After April 6, 1994, any designation of a State agency under this paragraph shall be made in accordance with the requirements of this subsection.

(2) Designation

(A) Type of agency

Except as provided in this subsection, the designated State agency shall be—

(i) the Council if such Council may be the designated State agency under the laws of the State;

(ii) a State agency that does not provide or pay for services for individuals with developmental disabilities; or

(iii) a State office, including the immediate office of the Governor of the State or a State planning office.

(B) Conditions for continuation of State service agency designation

(i) Designation before April 6, 1994

If a State agency that provides or pays for services for individuals with developmental disabilities was a designated State agency for purposes of part B of the Developmental Disabilities Assistance and Bill of Rights Act on April 6, 1994, and the Governor of the State (or the legislature, where appropriate and in accordance with State law) determines prior to June 30, 1994, not to change the designation of such agency, such agency may continue to be a designated State agency for purposes of this part.

(ii) Criteria for continued designation

The determination, at the discretion of the Governor (or the legislature, as the case may be), shall be made after—

(I) the Governor has considered the comments and recommendations of the general public and a majority of the non-State agency members of the Council with respect to the designation of such State agency; and

(II) the Governor (or the legislature, as the case may be) has made an independent assessment that the designation of such agency will not interfere with the budget, personnel, priorities, or other action of the Council, and the ability of the Council to serve as an independent advocate for individuals with developmental disabilities.

(C) Review of designation

The Council may request a review of and change in the designation of the designated State agency by the Governor (or the legislature, as the case may be). The Council shall provide documentation concerning the reason the Council desires a change to be made and make a recommendation to the Governor (or the legislature, as the case may be) regarding a preferred designated State agency.

(D) Appeal of designation

After the review is completed under subparagraph (C), a majority of the non-State agency members of the Council may appeal to the Secretary for a review of and change in the designation of the designated State agency if the ability of the Council to serve as an independent advocate is not assured because of the actions or inactions of the designated State agency.

(3) Responsibilities

(A) In general

The designated State agency shall, on behalf of the State, have the responsibilities described in subparagraphs (B) through (G).

(B) Support services

The designated State agency shall provide required assurances and support services as requested by and negotiated with the Council.

(C) Fiscal responsibilities

The designated State agency shall—

(i) receive, account for, and disburse funds under this part based on the State plan required in section 15024 of this title; and

(ii) provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of, and accounting for, funds paid to the State under this part.

(D) Records, access, and financial reports

The designated State agency shall keep and provide access to such records as the Secretary and the Council may determine to be necessary. The designated State agency, if other than the Council, shall provide timely financial reports at the request of the Council regarding the status of expenditures, obligations, and liquidation by the agency or the Council, and the use of the Federal and non-Federal shares described in section 15026 of this title, by the agency or the Council.

(E) Non-Federal share

The designated State agency, if other than the Council, shall provide the required non-Federal share described in section 15026(c) of this title.

(F) Assurances

The designated State agency shall assist the Council in obtaining the appropriate State plan assurances and in ensuring that the plan is consistent with State law.

(G) Memorandum of understanding

On the request of the Council, the designated State agency shall enter into a memorandum of understanding with the Council delineating the roles and responsibilities of the designated State agency.

(4) Use of funds for designated State agency responsibilities

(A) Condition for Federal funding

(i) In general

The Secretary shall provide amounts to a State under section 15024(c)(5)(B)(vi) of
this title for a fiscal year only if the State expends an amount from State sources for carrying out the responsibilities of the designated State agency under paragraph (3) for the fiscal year that is not less than the total amount the State expended from such sources for carrying out similar responsibilities for the previous fiscal year.

(ii) Exception
Clause (i) shall not apply in a year in which the Council is the designated State agency.

(B) Support services provided by other agencies
With the agreement of the designated State agency, the Council may use or contract with agencies other than the designated State agency to perform the functions of the designated State agency.

For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

AMENDMENTS

§15026. Federal and non-Federal share

(a) Aggregate cost

(1) In general
Except as provided in paragraphs (2) and (3), the Federal share of the cost of all projects in a State supported by an allotment to the State under this part may not be more than 75 percent of the aggregate necessary cost of such projects, as determined by the Secretary.

(2) Urban or rural poverty areas
In the case of projects whose activities or products target individuals with developmental disabilities who live in urban or rural poverty areas, as determined by the Secretary, the Federal share of the cost of all such projects may not be more than 90 percent of the aggregate necessary cost of such activities, as determined by the Secretary.

(3) State plan activities
In the case of projects undertaken by the Council or Council staff to implement State plan activities, the Federal share of the cost of all such projects may be no more than 100 percent of the aggregate necessary cost of such activities.

(b) Nonduplication
In determining the amount of any State’s Federal share of the cost of such projects incurred by such State under a State plan approved under section 15024 of this title, the Secretary shall not consider—

(1) any portion of such cost that is financed by Federal funds provided under any provision of law other than section 15022 of this title; and

(2) the amount of any non-Federal funds required to be expended as a condition of receipt of the Federal funds described in paragraph (1).

(c) Non-Federal share

(1) In-kind contributions

The non-Federal share of the cost of any project supported by an allotment under this part may be provided in cash or in kind, fairly evaluated, including plant, equipment, or services.

(2) Contributions of political subdivisions and public or private entities

(A) In general

Contributions to projects by a political subdivision of a State or by a public or private entity under an agreement with the State shall, subject to such limitations and conditions as the Secretary may by regulation prescribe under section 15064(b) of this title, be considered to be contributions by such State, in the case of a project supported under this part.

(B) State contributions

State contributions, including contributions by the designated State agency to provide support services to the Council pursuant to section 15025(d)(4) of this title, may be...
§ 15027. Withholding of payments for planning, administration, and services

Whenever the Secretary, after providing reasonable notice and an opportunity for a hearing to the Council and the designated State agency, finds that—

(1) the Council or agency has failed to comply substantially with any of the provisions required by section 15024 of this title to be included in the State plan, particularly provisions required by paragraphs (4)(A) and (5)(B)(vii) of section 15024(c) of this title, or with any of the provisions required by section 15025(b)(3) of this title; or

(2) the Council or agency has failed to comply substantially with any regulations of the Secretary that are applicable to this part,

the Secretary shall notify such Council and agency that the Secretary will not make further payments to the State under section 15022 of this title (or, in the discretion of the Secretary, shall make no further payments to the State under section 15022 of this title, or shall limit further payments under section 15022 of this title to such State to activities for which there is no such failure.

§ 15028. Appeals by States

(a) Appeal

If any State is dissatisfied with the Secretary’s action under section 15024(d)(3) or 15027 of this title, such State may appeal to the United States court of appeals for the circuit in which such State is located, by filing a petition with such court not later than 60 days after such action.

(b) Filing

The clerk of the court shall transmit promptly a copy of the petition to the Secretary, or any officer designated by the Secretary for that purpose. The Secretary shall file promptly with the court the record of the proceedings on which the Secretary based the action, as provided in section 2112 of title 28.

(c) Jurisdiction

Upon the filing of the petition, the court shall have jurisdiction to affirm the action of the Secretary or to set the action aside, in whole or in part, temporarily or permanently. Until the filing of the record, the Secretary may modify or set aside the order of the Secretary relating to the action.

(d) Findings and remand

The findings of the Secretary about the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case involved to the Secretary for further proceedings to take further evidence. On remand, the Secretary may make new or modified findings of fact and may modify the previous action of the Secretary, and shall file with the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(e) Finality

The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(f) Effect

The commencement of proceedings under this section shall not, unless so specifically ordered by a court, operate as a stay of the Secretary’s action.

§ 15029. Authorization of appropriations

(a) Funding for State allotments

Except as described in subsection (b), there are authorized to be appropriated for allotments under section 15022 of this title $76,000,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Reservation for technical assistance

(1) Lower appropriation years

For any fiscal year for which the amount appropriated under subsection (a) is less than $76,000,000, the Secretary shall reserve funds in accordance with section 15083(c) of this title to provide technical assistance to entities funded under this part.

(2) Higher appropriation years

For any fiscal year for which the amount appropriated under subsection (a) is not less than $76,000,000, the Secretary shall reserve not less than $300,000 and not more than 1 percent of the amount appropriated under subsection (a) to provide technical assistance to entities funded under this part.

§ 15042. Allotments and payments

(a) Allotments

(1) In general

To assist States in meeting the requirements of section 15043(a) of this title, the Secretary shall allot to the States the amounts appropriated under section 15045 of this title and not reserved under paragraph (6). Allotments and reallocations of such sums shall be made on the same basis as the allotments and reallocations are made under subsections (a)(1)(A) and (e) of section 15022 of this title, except as provided in paragraph (2).

(2) Minimum allotments

In any case in which—

(A) the total amount appropriated under section 15045 of this title for a fiscal year is not less than $20,000,000, the allotment under paragraph (1) for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands may not be less than $107,000; and

(ii) to any State not described in clause (i) may not be less than $200,000; or

(B) the total amount appropriated under section 15045 of this title for a fiscal year is less than $20,000,000, the allotment under paragraph (1) for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands may not be less than $80,000; and

(ii) to any State not described in clause (i) may not be less than $150,000.

(3) Reduction of allotment

Notwithstanding paragraphs (1) and (2), if the aggregate of the amounts to be allotted to the States pursuant to such paragraphs for any fiscal year exceeds the total amount appropriated for such allotments under section 15045 of this title for such fiscal year, the amount to be allotted to each State for such fiscal year shall be proportionately reduced.

(4) Increase in allotments

In any year in which the total amount appropriated under section 15045 of this title for a fiscal year exceeds the total amount appropriated under such section (or a corresponding provision) for the preceding fiscal year by a percentage greater than the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase), the Secretary shall increase each of the minimum allotments described in subparagraphs (A) and (B) of paragraph (2). The Secretary shall increase each minimum allotment by an amount that bears the same ratio to the amount of such minimum allotment (including any increases in such minimum allotment under this paragraph (or a corresponding provision) for prior fiscal years) as the amount that is equal to the difference between—

(A) the total amount appropriated under section 15045 of this title for the fiscal year for which the increase in the minimum allotment is being made; minus

(B) the total amount appropriated under section 15045 of this title (or a corresponding provision) for the immediately preceding fiscal year;

bears to the total amount appropriated under section 15045 of this title (or a corresponding provision) for such preceding fiscal year.

(5) Monitoring the administration of the system

In a State in which the system is housed in a State agency, the State may use not more than 5 percent of any allotment under this subsection for the costs of monitoring the administration of the system required under section 15043(a) of this title.

(6) Technical assistance and American Indian consortium

In any case in which the total amount appropriated under section 15045 of this title for a fiscal year is more than $24,500,000, the Secretary shall—

(A) use not more than 2 percent of the amount appropriated to provide technical assistance to eligible systems with respect to activities carried out under this part (consistent with requests by such systems for such assistance for the year); and

(B) provide a grant in accordance with section 15043(b) of this title, and in an amount described in paragraph (2)(A)(i), to an American Indian consortium to provide protection and advocacy services.

(b) Payment to systems

Notwithstanding any other provision of law, the Secretary shall pay directly to any system in a State that complies with the provisions of this part the amount of the allotment made for the State under this section, unless the system specifies otherwise.

(c) Unobligated funds

Any amount paid to a system under this part for a fiscal year and remaining unobligated at the end of such year shall remain available to such system for the next fiscal year, for the purposes for which such amount was paid.

§ 15043. System required

(a) System required

In order for a State to receive an allotment under part B or this part—

1. the State shall have in effect a system to protect and advocate the rights of individuals with developmental disabilities;

2. such system shall—

(A) have the authority to—

(i) pursue legal, administrative, and other appropriate remedies or approaches to ensure the protection of, and advocacy for, the rights of such individuals within the State who are or who may be eligible for treatment, services, or habilitation, or
who are being considered for a change in living arrangements, with particular attention to members of ethnic and racial minority groups; and

(ii) provide information on and referral to programs and services addressing the needs of individuals with developmental disabilities;

(B) have the authority to investigate incidents of abuse and neglect of individuals with developmental disabilities if the incidents are reported to the system or if there is probable cause to believe that the incidents occurred;

(C) on an annual basis, develop, submit to the Secretary, and take action with regard to goals (each of which is related to 1 or more areas of emphasis) and priorities, developed through data driven strategic planning, for the system’s activities;

(D) on an annual basis, provide to the public, including individuals with developmental disabilities attributable to either physical impairment, mental impairment, or a combination of physical and mental impairment, and their representatives, and as appropriate, non-State agency representatives of the State Councils on Developmental Disabilities, and Centers, in the State, an opportunity to comment on—

(i) the goals and priorities established by the system and the rationale for the establishment of such goals; and

(ii) the activities of the system, including the coordination of services with the entities carrying out advocacy programs under the Rehabilitation Act of 1973 (29 U.S.C. 901 et seq.), the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.), and the Protection and Advocacy for Mentally Ill Individuals Act of 1986 (42 U.S.C. 10801 et seq.), and with entities carrying out other related programs, including the parent training and information centers funded under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), and activities authorized under section 3003 or 3004 of title 29;

(E) establish a grievance procedure for clients or prospective clients of the system to ensure that individuals with developmental disabilities have full access to services of the system;

(F) not be administered by the State Council on Developmental Disabilities;

(G) be independent of any agency that provides treatment, services, or habilitation to individuals with developmental disabilities;

(H) have access at reasonable times to any individual with a developmental disability in a location in which services, supports, and other assistance are provided to such an individual, in order to carry out the purpose of this part;

(I) have access to all records of—

(i) any individual with a developmental disability who is a client of the system if such individual, or the legal guardian, conservator, or other legal representative of such individual, has authorized the system to have such access;

(ii) any individual with a developmental disability, in a situation in which—

(I) the individual does not have a legal guardian, conservator, or other legal representative, or the legal guardian of the individual is the State; and

(II) a complaint has been received by the system about the individual with regard to the status or treatment of the individual or, as a result of monitoring or other activities, there is probable cause to believe that such individual has been subject to abuse or neglect; and

(III) any individual with a developmental disability, in a situation in which—

(I) the individual has a legal guardian, conservator, or other legal representative;

(II) a complaint has been received by the system about the individual with regard to the status or treatment of the individual or, as a result of monitoring or other activities, there is probable cause to believe that such individual has been subject to abuse or neglect;

(III) such representative has been contacted by such system, upon receipt of the name and address of such representative;

(IV) such system has offered assistance to such representative to resolve the situation; and

(V) such representative has failed or refused to act on behalf of the individual;

(J) have access to the records of individuals described in subparagraphs (B) and (I), and other records that are relevant to conducting an investigation, under the circumstances described in those subparagraphs, not later than 3 business days after the system makes a written request for the records involved; and

(ii) have immediate access, not later than 24 hours after the system makes such a request, to the records without consent from another party, in a situation in which services, supports, and other assistance are provided to an individual with a developmental disability

(I) if the system determines there is probable cause to believe that the health or safety of the individual is in serious and immediate jeopardy; or

(II) in any case of death of an individual with a developmental disability;

(K) hire and maintain sufficient numbers and types of staff (qualified by training and experience) to carry out such system’s functions, except that the State involved shall not apply hiring freezes, reductions in force, prohibitions on travel, or other policies to the staff of the system, to the extent that

1 See References in Text note below.
such policies would impact the staff or functions of the system funded with Federal funds or would prevent the system from carrying out the functions of the system under this part;
(L) have the authority to educate policymakers; and
(M) provide assurances to the Secretary that funds allotted to the State under section 15042 of this title will be used to supplement, and not supplant, the non-Federal funds that would otherwise be made available for the purposes for which the allotted funds are provided;
(3) to the extent that information is available, the State shall provide to the system—
(A) a copy of each independent review, pursuant to section 1396a(a)(30)(C) of this title, of an Intermediate Care Facility (Mental Retardation) within the State, not later than 30 days after the availability of such a review; and
(B) information about the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are served through home and community-based waivers (authorized under section 1396n(c) of this title) receive; and
(4) the agency implementing the system shall not be redesignated unless—
(A) there is good cause for the redesignation;
(B) the State has given the agency notice of the intention to make such redesignation, including notice regarding the good cause for such redesignation, and given the agency an opportunity to respond to the assertion that good cause has been shown;
(C) the State has given timely notice and an opportunity for public comment in an accessible format to individuals with developmental disabilities or their representatives; and
(D) the system has an opportunity to appeal the redesignation to the Secretary, on the basis that the redesignation was not for good cause.

(b) American Indian consortium

Upon application to the Secretary, an American Indian consortium established to provide protection and advocacy services under this part, shall receive funding pursuant to section 15042(a)(6) of this title to provide the services. Such consortium shall be considered to be a system for purposes of this part and shall coordinate the services with other systems serving the same geographic area. The tribal council that designates the consortium shall carry out the responsibilities and exercise the authorities specified for a State in this part, with regard to the consortium.

(c) Record

In this section, the term ‘‘record’’ includes—
(1) a report prepared or received by any staff at any location at which services, supports, or other assistance is provided to individuals with developmental disabilities;
(2) a report prepared by an agency or staff person charged with investigating reports of incidents of abuse or neglect, injury, or death occurring at such location, that describes such incidents and the steps taken to investigate such incidents; and
(3) a discharge planning record.

For complete classification of this Act to the Code, see Short Title note set out under section 1400 of Title 20 and Tables.

AMENDMENTS

§ 15044. Administration

(a) Governing board

In a State in which the system described in section 15043 of this title is organized as a private nonprofit entity with a multimember governing board, or a public system with a multimember governing board, such governing board shall be selected according to the policies and procedures of the system, except that—
(1) (A) the governing board shall be composed of members who broadly represent or are knowledgeable about the needs of the individuals served by the system;
(B) a majority of the members of the board shall be—
(i) individuals with disabilities, including individuals with developmental disabilities, who are eligible for services, or have received or are receiving services through the system; or
(ii) parents, family members, guardians, advocates, or authorized representatives of individuals referred to in clause (i); and
(C) the board may include a representative of the State Council on Developmental Disabilities, the Centers in the State, and the self-advocacy organization described in section 15024(c)(4)(A)(ii)(I) of this title;
(2) not more than 1/3 of the members of the governing board may be appointed by the chief
executive officer of the State involved, in the case of any State in which such officer has the authority to appoint members of the board;
(3) the membership of the governing board shall be subject to term limits set by the system to ensure rotating membership;
(4) any vacancy in the board shall be filled not later than 60 days after the date on which the vacancy occurs; and
(5) in a State in which the system is organized as a public system without a multi-member governing or advisory board, the system shall establish an advisory council—
(A) that shall advise the system on policies and priorities to be carried out in protecting and advocating the rights of individuals with developmental disabilities; and
(B) on which a majority of the members shall be—
(i) individuals with developmental disabilities who are eligible for services, or have received or are receiving services, through the system; or
(ii) parents, family members, guardians, advocates, or authorized representatives of individuals referred to in clause (i).

(b) Legal action
(1) In general
Nothing in this subchapter shall preclude a system from bringing a suit on behalf of individuals with developmental disabilities against a State, or an agency or instrumentality of a State.

(2) Use of amounts from judgment
An amount received pursuant to a suit described in paragraph (1) through a court judgment may only be used by the system to further the purpose of this part and shall not be used to augment payments to legal contractors or to award personal bonuses.

(3) Limitation
The system shall use assistance provided under this part in a manner consistent with section 14404 of this title.

(c) Disclosure of information
For purposes of any periodic audit, report, or evaluation required under this part, the Secretary shall not require an entity carrying out a program to disclose the identity of, or any other personally identifiable information related to, any individual requesting assistance under such program.

(d) Public notice of Federal onsite review
The Secretary shall provide advance public notice of any Federal programmatic or administrative onsite review of a system conducted under this part and solicit public comment on the system through such notice. The Secretary shall prepare an onsite visit report containing the results of such review, which shall be distributed to the Governor of the State and to other interested public and private parties. The comments received in response to the public comment solicitation notice shall be included in the onsite visit report.

(e) Reports
Beginning in fiscal year 2002, each system established in a State pursuant to this part shall annually prepare and transmit to the Secretary a report that describes the activities, accomplishments, and expenditures of the system during the preceding fiscal year, including a description of the system’s goals, the extent to which the goals were achieved, barriers to their achievement, the process used to obtain public input, the nature of such input, and how such input was used.

(2) In general
From appropriations authorized under section 15066(a)(1) of this title, the Secretary shall make 5-year grants to entities in each State designated as University Centers for Excellence in Developmental Disabilities Education, Research, and Service to carry out activities described in section 15063(a) of this title.

(b) National training initiatives
From appropriations authorized under section 15066(a)(1) of this title and reserved under section 15066(a)(2) of this title, the Secretary shall make grants to Centers to carry out activities described in section 15063(b) of this title.

(c) Technical assistance
From appropriations authorized under section 15066(a)(1) of this title and reserved under section 15066(a)(3) of this title (or from funds reserved under section 15063(c) of this title, as appropriate), the Secretary shall enter into 1 or more cooperative agreements or contracts for the purpose of providing technical assistance described in section 15063(c) of this title.

(2) In general
In awarding and distributing grant funds under section 15061(a) of this title for a fiscal year, the Secretary, subject to the availability of appropriations and the condition specified in subsection (d), shall award and distribute grant funds in equal amounts of $500,000 (adjusted in accordance with subsection (b)), to each Center that existed during the preceding fiscal year and that meets the requirements of this part, prior to making grants under subsection (c) or (d).
§ 15063. Purpose and scope of activities

(a) National network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service

(1) In general

In order to provide leadership in, advise Federal, State, and community policymakers about, and promote opportunities for individuals with developmental disabilities to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life, the Secretary shall award grants to eligible entities designated as Centers in each State to pay for the Federal share of the cost of the administration and operation of the Centers. The Centers shall be interdisciplinary education, research, and public service units of universities (as defined by the Secretary) or public or nonprofit entities associated with universities that engage in core functions, described in paragraph (2), addressing, directly or indirectly, 1 or more of the areas of emphasis.

(2) Core functions

The core functions referred to in paragraph (1) shall include the following:

(A) Provision of interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter.

(B) Provision of community services—

(i) that provide training or technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities.

(C) Conduct of research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families.

(D) Dissemination of information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances.

(b) National training initiatives on critical and emerging needs

(1) Supplemental grants

After consultation with relevant, informed sources, including individuals with developmental disabilities and their families, the Secretary shall award, under section 15061(b) of this title, supplemental grants to Centers to pay for the Federal share of the cost of training initiatives related to the unmet needs of individuals with developmental disabilities and their families. The Secretary shall make the grants on a competitive basis, and for periods of not more than 5 years.

(2) Establishment of consultation process by the Secretary

Not later than 1 year after October 30, 2000, the Secretary shall establish a consultation process that, on an ongoing basis, allows the
Secretary to identify and address, through supplemental grants authorized under paragraph (1), training initiatives related to the unmet needs of individuals with developmental disabilities and their families.

(c) Technical assistance

In order to strengthen and support the national network of Centers, the Secretary may enter into 1 or more cooperative agreements or contracts to—

1. assist in national and international dissemination of specific information from multiple Centers and, in appropriate cases, other entities whose work affects the lives of individuals with developmental disabilities;
2. compile, analyze, and disseminate state-of-the-art training, research, and demonstration results policies, and practices from multiple Centers and, in appropriate cases, other entities whose work affects the lives of persons with developmental disabilities;
3. convene experts from multiple Centers to discuss and make recommendations with regard to national emerging needs of individuals with developmental disabilities;
4. (A) develop portals that link users with every Center’s website; and
   (B) facilitate electronic information sharing using state-of-the-art Internet technologies such as real-time online discussions, multipoint video conferencing, and web-based audio/video broadcasts, on emerging topics that impact individuals with disabilities and their families;
5. serve as a research-based resource for Federal and State policymakers on information concerning and issues impacting individuals with developmental disabilities and entities that assist or serve those individuals; or
6. undertake any other functions that the Secretary determines to be appropriate;

to promote the viability and use of the resources and expertise of the Centers nationally and internationally.

§ 15064. Applications

(a) Applications for core Center grants

(1) In general

To be eligible to receive a grant under section 15061(a) of this title for a Center, an entity shall submit to the Secretary, and obtain approval of, an application at such time, in such manner, and containing such information, as the Secretary may require.

(2) Application contents

Each application described in paragraph (1) shall describe a 5-year plan, including a projected goal related to 1 or more areas of emphasis for each of the core functions described in section 15063(a) of this title.

(3) Assurances

The application shall be approved by the Secretary only if the application contains or is supported by reasonable assurances that the entity designated as the Center will—

(A) meet regulatory standards as established by the Secretary for Centers;
(B) address the projected goals, and carry out goal-related activities, based on data driven strategic planning and in a manner consistent with the objectives of this part, that—
   (i) are developed in collaboration with the consumer advisory committee established pursuant to subparagraph (E);
   (ii) are consistent with, and to the extent feasible complement and further, the Council goals contained in the State plan submitted under section 15024 of this title and the system goals established under section 15043 of this title; and
   (iii) will be reviewed and revised annually as necessary to address emerging trends and needs;
(C) use the funds made available through the grant to supplement, and not supplant, the funds that would otherwise be made available for activities described in section 15063(a) of this title;
(D) protect, consistent with the policy specified in section 15061(c) of this title (relating to rights of individuals with developmental disabilities), the legal and human rights of all individuals with developmental disabilities (especially those individuals under State guardianship) who are involved in activities carried out under programs assisted under this part;
(E) establish a consumer advisory committee—
   (i) of which a majority of the members shall be individuals with developmental disabilities and family members of such individuals;
   (ii) that is comprised of—
      (I) individuals with developmental disabilities and related disabilities;
      (II) family members of individuals with developmental disabilities;
      (III) a representative of the State protection and advocacy system;
      (IV) a representative of the State Council on Developmental Disabilities;
      (V) a representative of a self-advocacy organization described in section 15024(c)(4)(A)(I) of this title; and
      (VI) representatives of organizations that may include parent training and information centers assisted under section 1471 or 1472 of title 20, entities carrying out activities authorized under section 3003 or 3004 of title 29, relevant State agencies, and other community groups concerned with the welfare of individuals with developmental disabilities and their families;
   (iii) that reflects the racial and ethnic diversity of the State; and
   (iv) that shall—
      (I) consult with the Director of the Center regarding the development of the 5-year plan, and shall participate in an annual review of, and comment on, the progress of the Center in meeting the projected goals contained in the plan,
and shall make recommendations to the Director of the Center regarding any proposed revisions of the plan that might be necessary; and

(II) meet as often as necessary to carry out the role of the committee, but at a minimum twice during each grant year;

(F) to the extent possible, utilize the infrastructure and resources obtained through funds made available under the grant to leverage additional public and private funds to successfully achieve the projected goals developed in the 5-year plan;

(G)(i) have a director with appropriate academic, professional, demonstrated leadership, expertise regarding developmental disabilities, significant experience in managing grants and contracts, and the ability to leverage public and private funds; and

(ii) allocate adequate staff time to carry out activities related to each of the core functions described in section 15063(a) of this title; and

(H) educate, and disseminate information related to the purpose of this subchapter to, the legislature of the State in which the Center is located, and to Members of Congress from such State.

(b) Supplemental grant applications pertaining to national training initiatives in critical and emerging needs

To be eligible to receive a supplemental grant under section 15061(b) of this title, a Center may submit a supplemental application to the Secretary at such time, in such manner, and containing such information as the Secretary may require, pursuant to the terms and conditions set by the Secretary consistent with section 15063(b) of this title.

(c) Peer review

(1) In general

The Secretary shall require that all applications submitted under this part be subject to technical and qualitative review by peer review groups established under paragraph (2). The Secretary may approve an application under this part only if such application has been recommended by a peer review group that has conducted the peer review required under this paragraph. In conducting the review, the group may conduct onsite visits or inspections of related activities as necessary.

(2) Establishment of peer review groups

(A) In general

The Secretary, acting through the Commissioner of the Administration on Developmental Disabilities, may, notwithstanding—

(i) the provisions of title 5 concerning appointments to the competitive service; and

(ii) the provisions of chapter 51, and subchapter III of chapter 53 of title 5 concerning classification and General Schedule pay rates;

establish such peer review groups and appoint and set the rates of pay of members of such groups.

(B) Composition

Each peer review group shall include such individuals with disabilities and parents, guardians, or advocates of or for individuals with developmental disabilities, as are necessary to carry out this subsection.

(3) Waivers of approval

The Secretary may waive the provisions of paragraph (1) with respect to review and approval of an application if the Secretary determines that exceptional circumstances warrant such a waiver.

(d) Federal share

(1) In general

The Federal share of the cost of administration or operation of a Center, or the cost of carrying out a training initiative, supported by a grant made under this part may not be more than 75 percent of the necessary cost of such project, as determined by the Secretary.

(2) Urban or rural poverty areas

In the case of a project whose activities or products target individuals with developmental disabilities who live in an urban or rural poverty area, as determined by the Secretary, the Federal share of the cost of the project may not be more than 90 percent of the necessary costs of the project, as determined by the Secretary.

(3) Grant expenditures

For the purpose of determining the Federal share with respect to the project, expenditures on that project by a political subdivision of a State or by a public or private entity shall, subject to such limitations and conditions as the Secretary may by regulation prescribe under section 15004(b) of this title, be considered to be expenditures made by a Center under this part.

(e) Annual report

Each Center shall annually prepare and transmit to the Secretary a report containing—

(1) information on progress made in achieving the projected goals of the Center for the previous year, including—

(A) the extent to which the goals were achieved;

(B) a description of the strategies that contributed to achieving the goals;

(C) to the extent to which the goals were not achieved, a description of factors that impeded the achievement; and

(D) an accounting of the manner in which funds paid to the Center under this part for a fiscal year were expended;

(2) information on proposed revisions to the goals; and

(3) a description of successful efforts to leverage funds, other than funds made available under this part, to pursue goals consistent with this part.

§ 15065. Definition

In this part, the term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, and Guam.

§ 15066. Authorization of appropriations

(a) Authorization and reservations

(1) Authorization

There are authorized to be appropriated to carry out this part (other than section 15063(c)(4) of this title) $30,000,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(2) Reservation for training initiatives

From any amount appropriated for a fiscal year under paragraph (1) and remaining after each Center described in section 15062(a) of this title has received a grant award of not less than $500,000, as described in section 15062 of this title, the Secretary shall reserve funds for the training initiatives authorized under section 15063(b) of this title.

(3) Reservation for technical assistance

(A) Years before appropriation trigger

For any covered year, the Secretary shall reserve funds in accordance with section 15063(c) of this title to fund technical assistance activities under section 15063(c) of this title (other than section 15063(c)(4) of this title).

(B) Years after appropriation trigger

For any fiscal year that is not a covered year, the Secretary shall reserve not less than $300,000 and not more than 2 percent of the amount appropriated under paragraph (1) to fund technical assistance activities under section 15063(c) of this title (other than section 15063(c)(4) of this title).

(C) Covered year

In this paragraph, the term "covered year" means a fiscal year prior to the first fiscal year for which the amount appropriated under paragraph (1) is not less than $20,000,000.

(b) Limitation

The Secretary may not use, for peer review or other activities directly related to peer review conducted under this part—

(1) for fiscal year 2001, more than $300,000 of the funds made available under subsection (a); and

(2) for any succeeding fiscal year, more than the amount of funds used for the peer review and related activities in fiscal year 2001, adjusted to take into account the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase).

PART E—PROJECTS OF NATIONAL SIGNIFICANCE

§ 15081. Purpose

The purpose of this part is to provide grants, contracts, or cooperative agreements for projects of national significance that—

(1) create opportunities for individuals with developmental disabilities to directly and fully contribute to, and participate in, all facets of community life; and

(2) support the development of national and State policies that reinforce and promote, with the support of families, guardians, advocates, and communities, of individuals with developmental disabilities, the self-determination, independence, productivity, and integration and inclusion in all facets of community life of such individuals through—

(A) family support activities;

(B) data collection and analysis;

(C) technical assistance to entities funded under parts B and D, subject to the limitations described in sections 15029(b), 15066(a)(3), and 15083(c) of this title; and

(D) other projects of sufficient size and scope that hold promise to expand or improve opportunities for such individuals, including—

(i) projects that provide technical assistance for the development of information and referral systems;

(ii) projects that provide technical assistance to self-advocacy organizations of individuals with developmental disabilities;

(iii) projects that provide education for policymakers;

(iv) Federal interagency initiatives;

(v) projects that enhance the participation of racial and ethnic minorities in public and private sector initiatives in developmental disabilities;

(vi) projects that provide aid to transition youth with developmental disabilities from school to adult life, especially in finding employment and postsecondary education opportunities and in upgrading and changing any assistive technology devices that may be needed as a youth matures;

(vii) initiatives that address the development of community quality assurance systems and the training related to the development, implementation, and evaluation of such systems, including training of individuals with developmental disabilities and their families;

(viii) initiatives that address the needs of aging individuals with developmental disabilities and aging caregivers of adults with developmental disabilities in the community;

(ix) initiatives that create greater access to and use of generic services systems,
community organizations, and associations, and initiatives that assist in community economic development;
(x) initiatives that create access to increased living options;
(xi) initiatives that address the challenging behaviors of individuals with developmental disabilities, including initiatives that promote positive alternatives to the use of restraints and seclusion; and
(xii) initiatives that address other areas of emerging need.

§ 15082. Grant authority
(a) In general
The Secretary shall award grants, contracts, or cooperative agreements to public or private nonprofit entities for projects of national significance relating to individuals with developmental disabilities to carry out activities described in section 15081(2) of this title.

(b) Federal interagency initiatives
(1) In general
(A) Authority
The Secretary may—
(i) enter into agreements with Federal agencies to jointly carry out activities described in section 15081(2) of this title or to jointly carry out activities of common interest related to the objectives of such section; and
(ii) transfer to such agencies for such purposes funds appropriated under this part, and receive and use funds from such agencies for such purposes.

(B) Relation to program purposes
Funds transferred or received pursuant to this paragraph shall be used only in accordance with statutes authorizing the appropriation of such funds. Such funds shall be made available through grants, contracts, or cooperative agreements only to recipients eligible to receive such funds under such statutes.

(C) Procedures and criteria
If the Secretary enters into an agreement under this subsection for the administration of a jointly funded project—
(i) the agreement shall specify which agency’s procedures shall be used to award grants, contracts, or cooperative agreements and to administer such awards;
(ii) the participating agencies may develop a single set of criteria for the jointly funded project, and may require applicants to submit a single application for joint review by such agencies; and
(iii) unless the heads of the participating agencies develop joint eligibility requirements, an applicant for an award for the project shall meet the eligibility requirements of each program involved.

(2) Limitation
The Secretary may not construe the provisions of this subsection to take precedence over a limitation on joint funding contained in an applicable statute.

§ 15083. Authorization of appropriations
(a) In general
There are authorized to be appropriated to carry out the projects specified in this section $16,000,000 for fiscal year 2001, and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Use of funds
(1) Grants, contracts, and agreements
Except as provided in paragraph (2), the amount appropriated under subsection (a) for each fiscal year may be used to provide for the administrative costs (other than compensation of Federal employees) of the Administration on Developmental Disabilities for administering this part and parts B, C, and D, including monitoring the performance of and providing technical assistance to, entities that receive funds under this subchapter.

(2) Administrative costs
Not more than 1 percent of the amount appropriated under subsection (a) for each fiscal year may be used to provide for the administrative costs of administering this part and parts B, C, and D, including monitoring the performance of and providing technical assistance to, entities that receive funds under this subchapter.

(c) Technical assistance for Councils and Centers
(1) In general
For each covered year, the Secretary shall—
(A) expend, to provide technical assistance for entities funded under part B or D, a fiscal year amount appropriated under subsection (a) for each fiscal year shall be used to award grants, or enter into contracts, cooperative agreements, or other agreements, under section 15082 of this title.

(2) Covered year
In this subsection, the term “covered year” means—
(A) in the case of an expenditure for entities funded under part B, a fiscal year for which the amount appropriated under section 15029(a) of this title is less than $76,000,000; and
(B) in the case of an expenditure for entities funded under part D, a fiscal year prior to the first fiscal year for which the amount appropriated under section 15066(a)(1) of this title is not less than $20,000,000.

(3) References
References in this subsection to part D shall not be considered to include section 15086(c)(4) of this title.

(d) Technical assistance on electronic information sharing
In addition to any funds reserved under subsection (c), the Secretary shall reserve $100,000 from the amount appropriated under subsection (a) for each fiscal year to carry out section 15063(c)(4) of this title.
§ 15091

(a) Findings

Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen, expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;

(B) to enable families of children with disabilities to nurture and enjoy their children at home;

(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and

(D) to support family caregivers of adults with disabilities.

(b) Purposes

The purposes of this subchapter are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;

(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;

(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and

(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities funded under this subchapter shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

§ 15092. Definitions and special rule

(a) Definitions

In this subchapter:

(1) Child with a disability

The term “child with a disability” means an individual who—

(A) has a significant physical or mental impairment, as defined pursuant to State policy to the extent that such policy is established without regard to type of disability; or

(B) is an infant or a young child from birth through age 8 and has a substantial developmental delay or specific congenital or acquired condition that presents a high probability of resulting in a disability if services are not provided to the infant or child.

(2) Family

(A) In general

Subject to subparagraph (B), for purposes of the application of this subchapter in a State, the term “family” has the meaning given the term by the State.

(B) Exclusion of employees

The term does not include an employee who, acting in a paid employment capacity, provides services to a child with a disability in an out-of-home setting such as a hospital, nursing home, personal care home, board and care home, group home, or other facility.

(3) Family support for families of children with disabilities

The term “family support for families of children with disabilities” means supports, re-
§ 15094. Grants to States

(a) In general

The Secretary shall make grants to States on a competitive basis, in accordance with the provisions of this subchapter, to support systems change activities designed to assist States to develop and implement, or expand and enhance, a statewide system of family support services for families of children with disabilities that accomplishes the purposes of this subchapter.

(b) Award period and grant limitation

No grant shall be awarded under this section for a period of more than 3 years. No State shall be eligible for more than 1 grant under this section.

(c) Amount of grants

(1) Grants to States

(A) Federal matching share

From amounts appropriated under section 15101(a) of this title, the Secretary shall pay to each State that has an application approved under section 15094 of this title, for each year of the grant period, an amount that is—

(i) equal to not more than 75 percent of the cost of the systems change activities to be carried out by the State; and

(ii) not less than $100,000 and not more than $500,000.

(B) Non-Federal share

The non-Federal share of the cost of the systems change activities may be in cash or in kind, fairly evaluated, including plant, equipment, or services.

(2) Calculation of amounts

The Secretary shall calculate a grant amount described in paragraph (1) on the basis of—

(A) the amounts available for making grants under this section; and

(B) the child population of the State concerned.

(d) Priority for previously participating States

For the second and third fiscal years for which amounts are appropriated to carry out this section, the Secretary, in providing payments under this section, shall give priority to States that received payments under this section during the preceding fiscal year.

(e) Priorities for distribution

To the extent practicable, the Secretary shall award grants to States under this section in a manner that—

(1) is geographically equitable;

(2) distributes the grants among States that have differing levels of development of statewide systems of family support services for families of children with disabilities; and

(3) distributes the grants among States that attempt to meet the needs of underserved and underserved populations, such as individuals from racial and ethnic minority backgrounds, disadvantaged individuals, individuals with limited English proficiency, and individuals from underserved geographic areas (rural or urban).
§ 15095. Designation of the lead entity

(a) Designation

The Chief Executive Officer of a State that desires to receive a grant under section 15093 of this title, shall designate the office or entity (referred to in this subchapter as the “lead entity”) responsible for—

(1) submitting the application described in section 15094 of this title on behalf of the State;

(2) administering and supervising the use of the amounts made available under the grant;

(3) coordinating efforts related to and supervising the preparation of the application;

(4) coordinating the planning, development, implementation (or expansion and enhancement), and evaluation of a statewide system of family support services for families of children with disabilities among public agencies and between public agencies and private agencies, including coordinating efforts related to entering into interagency agreements;

(5) coordinating efforts related to the participation by families of children with disabilities in activities carried out under a grant made under this subchapter; and

(6) submitting the report described in section 15097 of this title on behalf of the State.

(b) Qualifications

In designating the lead entity, the Chief Executive Officer may designate—

(1) an office of the Chief Executive Officer;

(2) a commission appointed by the Chief Executive Officer;

(3) a public agency;

(4) a council established under Federal or State law; or

(5) another appropriate office, agency, or entity.

§ 15096. Authorized activities

(a) In general

A State that receives a grant under section 15093 of this title shall use the funds made available through the grant to carry out systems change activities that accomplish the purposes of this subchapter.

(b) Special rule

In carrying out activities authorized under this subchapter, a State shall ensure that such activities address the needs of families of children with disabilities from unserved or underserved populations.

§ 15097. Reporting

A State that receives a grant under this subchapter shall prepare and submit to the Secretary, at the end of the grant period, a report containing the results of State efforts to develop and implement, or expand and enhance, a statewide system of family support services for families of children with disabilities.

§ 15098. Technical assistance

(a) In general

The Secretary shall enter into contracts or cooperative agreements with appropriate public or private agencies and organizations, including institutions of higher education, with documented experience, expertise, and capacity, for the purpose of providing technical assistance and information with respect to the development and implementation, or expansion and enhancement, of a statewide system of family support services for families of children with disabilities.

(b) Purpose

An agency or organization that provides technical assistance and information under this section in a State that receives a grant under this subchapter shall provide the technical assistance and information to the lead entity of the State, family members of children with disabilities, organizations, service providers, and policymakers involved with children with disabilities and their families. Such an agency or organization may also provide technical assistance and information to a State that does not receive a grant under this subchapter.

(c) Reports to the Secretary

An entity providing technical assistance and information under this section shall prepare and submit to the Secretary periodic reports regarding Federal policies and procedures identified within the States that facilitate or impede the delivery of family support services to families of children with disabilities. The report shall include recommendations to the Secretary regarding the delivery of services, coordination with other programs, and integration of the policies described in section 15091 of this title in Federal law, other than this subchapter.

§ 15099. Evaluation

(a) In general

The Secretary shall conduct a national evaluation of the program of grants to States authorized by this subchapter.

(b) Purpose

(1) In general

The Secretary shall conduct the evaluation under subsection (a) to assess the status and effects of State efforts to develop and implement, or expand and enhance, statewide systems of family support services for families of children with disabilities in a manner consistent with the provisions of this subchapter. In particular, the Secretary shall assess the impact of such efforts on families of children with disabilities, and recommend amendments to this subchapter that are necessary to assist States to accomplish fully the purposes of this subchapter.

(2) Information systems

The Secretary shall work with the States to develop an information system designed to compile and report, from information provided by the States, qualitative and quantitative de-
scriptions of the impact of the program of grants to States authorized by this subchapter on—
(A) families of children with disabilities, including families from unserved and under-served populations;
(B) access to and funding for family sup-port services for families of children with disabilities;
(C) interagency coordination and collabora-tion between agencies responsible for pro-visioning the services; and
(D) the involvement of families of children with disabilities at all levels of the state-wide systems.

(c) Report to Congress
Not later than 21⁄2 years after October 30, 2000, the Secretary shall prepare and submit to the appropriate committees of Congress a report concerning the results of the evaluation conducted under this section.

§ 15100. Projects of national significance
(a) Study by the Secretary
The Secretary shall review Federal programs to determine the extent to which such programs facilitate or impede access to, provision of, and funding for family support services for families of children with disabilities, consistent with the policies described in section 15091 of this title.

(b) Projects of national significance
The Secretary shall make grants or enter into contracts for projects of national significance to support the development of national and State policies and practices related to the development and implementation, or expansion and enhancement, of family-centered and family-di-rected systems of family support services for families of children with disabilities.

§ 15101. Authorization of appropriations
(a) In general
There are authorized to be appropriated to carry out this subchapter such sums as may be necessary for each of fiscal years 2001 through 2007.

(b) Reservation
(1) In general
The Secretary shall reserve for each fiscal year 10 percent, or $400,000 (whichever is greater), of the amount appropriated pursuant to subsection (a) to carry out—
(A) section 15098 of this title (relating to the provision of technical assistance and information to States); and
(B) section 15099 of this title (relating to the conduct of evaluations).

(2) Special rule
For each year that the amount appropriated pursuant to subsection (a) is $10,000,000 or greater, the Secretary may reserve 5 percent of such amount to carry out section 15100 of this title.

§ 15111. Findings
Congress finds that—
(1) direct support workers, especially young adults, have played essential roles in providing the support needed by individuals with developmental disabilities and expanding community options for those individuals;
(2) 4 factors have contributed to a decrease in the available pool of direct support workers, specifically—
(A) the small population of individuals who are age 18 through 25, an age group that has been attracted to direct support work in the past;
(B) the rapid expansion of the service sector, which attracts individuals who previously would have elected to pursue employment as direct support workers;
(C) the failure of wages in the human services sector to keep pace with wages in other service sectors; and
(D) the lack of quality training and career advancement opportunities available to direct support workers; and
(3) individuals with developmental disabilities benefit from assistance from direct support workers who are well trained, and benefit from receiving services from professionals who have spent time as direct support workers.

§ 15112. Definitions
In this subchapter:
(1) Developmental disability
The term “developmental disability” has the meaning given the term in section 15002 of this title.

(2) Institution of higher education
The term “institution of higher education” has the meaning given the term in section 1141 of title 20.

(3) Secretary
The term “Secretary” means the Secretary of Health and Human Services.

REFERENCES IN TEXT
Section 1141 of title 20, referred to in par. (2), was repealed by Pub. L. 105–244, § 3, title I, § 101(b), title VII, §702, Oct. 7, 1998, 112 Stat. 1585, 1616, 1803, effective Oct. 1, 1998. However, the term “institution of higher education” is defined in section 1101 of Title 20, Education.

§ 15113. Reaching up scholarship program
(a) Program authorization
The Secretary may award grants to eligible entities, on a competitive basis, to enable the
entities to carry out scholarship programs by providing vouchers for postsecondary education to direct support workers who assist individuals with developmental disabilities residing in diverse settings. The Secretary shall award the grants to pay for the Federal share of the cost of providing the vouchers.

(b) Eligible entity

To be eligible to receive a grant under this section, an entity shall be—

(1) an institution of higher education; 
(2) a State agency; or
(3) a consortium of such institutions or agencies.

(c) Application requirements

To be eligible to receive a grant under this section, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a description of—

(1) the basis for awarding the vouchers; 
(2) the number of individuals to receive the vouchers; and
(3) the amount of funds that will be made available by the eligible entity to pay for the non-Federal share of the cost of providing the vouchers.

(d) Selection criteria

In awarding a grant under this section for a scholarship program, the Secretary shall give priority to an entity submitting an application that—

(1) specifies that individuals who receive vouchers through the program will be individuals—
(A) who are direct support workers who assist individuals with developmental disabilities residing in diverse settings, while pursuing postsecondary education; and
(B) each of whom verifies, prior to receiving the voucher, that the worker has completed 250 hours as a direct support worker in the past 90 days;
(2) states that the vouchers that will be provided through the program will be in amounts of not more than $2,000 per year; 
(3) provides an assurance that the eligible entity (or another specified entity that is not a voucher recipient) will contribute the non-Federal share of the cost of providing the vouchers; and
(4) meets such other conditions as the Secretary may specify.

(e) Federal share

The Federal share of the cost of providing the vouchers shall be not more than 80 percent.

§ 15114. Staff development curriculum authorization

(a) Funding

(1) In general

The Secretary shall award funding, on a competitive basis, through a grant, cooperative agreement, or contract, to a public or private entity or a combination of such entities, for the development, evaluation, and dissemination of a staff development curriculum, and related guidelines, for computer-assisted, competency-based, multimedia, interactive instruction, relating to service as a direct support worker.

(2) Participants

The curriculum shall be developed for individuals who—

(A) seek to become direct support workers who assist individuals with developmental disabilities or are such direct support workers; and
(B) seek to upgrade their skills and competencies related to being a direct support worker.

(b) Application requirements

To be eligible to receive an award under this section, an entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including—

(1) a comprehensive analysis of the content of direct support roles;
(2) information identifying an advisory group that—
(A) is comprised of individuals with experience and expertise with regard to the support provided by direct support workers, and effective ways to provide the support, for individuals with developmental disabilities in diverse settings; and
(B) will advise the entity throughout the development, evaluation, and dissemination of the staff development curriculum and guidelines;
(3) information describing how the entity will—
(A) develop, field test, and validate a staff development curriculum that—
(i) relates to the appropriate reading level for direct service workers who assist individuals with disabilities;
(ii) allows for multiple levels of instruction;
(iii) provides instruction appropriate for direct support workers who work in diverse settings; and
(iv) is consistent with subsections (b) and (c) of section 15001 of this title and section 15009 of this title;
(B) develop, field test, and validate guidelines for the organizations that use the curriculum that provide for—
(i) providing necessary technical and instructional support to trainers and mentors for the participants;
(ii) ensuring easy access to and use of such curriculum by workers that choose to participate in using, and agencies that choose to use, the curriculum;
(iii) evaluating the proficiency of the participants with respect to the content of the curriculum;
(iv) providing necessary support to the participants to assure that the participants have access to, and proficiency in
using, a computer in order to participate in the development, testing, and validation process;
(v) providing necessary technical and instructional support to trainers and mentors for the participants in conjunction with the development, testing, and validation process;
(vi) addressing the satisfaction of participants, individuals with developmental disabilities and their families, providers of services for such individuals and families, and other relevant entities with the curriculum; and
(vii) developing methods to maintain a record of the instruction completed, and the content mastered, by each participant under the curriculum; and
(C) nationally disseminate the curriculum and guidelines, including dissemination through—
(i) parent training and information centers funded under part D of the Individuals with Disabilities Education Act (20 U.S.C. 1451 et seq.);
(ii) community-based organizations of and for individuals with developmental disabilities and their families;
(iii) entities funded under subchapter I;
(iv) centers for independent living;
(v) State educational agencies and local educational agencies;
(vi) entities operating appropriate medical facilities;
(vii) postsecondary education entities; and
(viii) other appropriate entities; and
(4) such other information as the Secretary may require.

References in Text
The Individuals with Disabilities Education Act, referred to in subsec. (b)(3)(C)(i), is title VI of Pub. L. 91–230, Apr. 13, 1970, 84 Stat. 175, as amended. Part D of the Act is classified generally to subchapter IV (§1450 et seq.) of chapter 33 of Title 20, Education. For complete classification of this Act to the Code, see section 1400 of Title 20 and Tables.

§ 15115. Authorization of appropriations

(a) Scholarships

There are authorized to be appropriated to carry out section 15113 of this title $800,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Staff development curriculum

There are authorized to be appropriated to carry out section 15114 of this title $800,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 and 2003.

CHAPTER 145—PUBLIC SAFETY OFFICER MEDAL OF VALOR AND TRIBUTES

Sec. 15201. Authorization of Medal.

§ 15201. Authorization of Medal

After September 1, 2001, the President may award, and present in the name of Congress, a Medal of Valor of appropriate design, with ribbons and appurtenances, to a public safety officer who is cited by the Attorney General, upon the recommendation of the Medal of Valor Review Board, for extraordinary valor above and beyond the call of duty. The Public Safety Medal of Valor shall be the highest national award for valor by a public safety officer.

Short Title
Pub. L. 107–12, §1, May 30, 2001, 115 Stat. 20, provided that: "This Act [enacting this chapter and amending section 2214 of Title 15, Commerce and Trade] may be cited as the 'Public Safety Officer Medal of Valor Act of 2001'."

§ 15202. Medal of Valor Board

(a) Establishment of Board

There is established a Medal of Valor Review Board (hereinafter in this chapter referred to as the "Board"), which shall be composed of 11 members appointed in accordance with subsection (b) and shall conduct its business in accordance with this chapter.

(b) Membership

(1) Members

The members of the Board shall be individuals with knowledge or expertise, whether by experience or training, in the field of public safety, of which—
(A) two shall be appointed by the majority leader of the Senate;
(B) two shall be appointed by the minority leader of the Senate;
(C) two shall be appointed by the Speaker of the House of Representatives;
(D) two shall be appointed by the minority leader of the House of Representatives; and
(E) three shall be appointed by the President, including one with experience in firefighting, one with experience in law enforcement, and one with experience in emergency services.

(2) Term

The term of a Board member shall be 4 years.

(3) Vacancies

Any vacancy in the membership of the Board shall not affect the powers of the Board and shall be filled in the same manner as the original appointment.

(4) Operation of the Board

(A) Chairman

The Chairman of the Board shall be elected by the members of the Board from among the members of the Board.
§ 15203. Board personnel matters

(a) Compensation of members

(1) Except as provided in paragraph (2), each member of the Board shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5 for each day (including travel time) during which such member is engaged in the performance of the duties of the Board.

(2) All members of the Board who serve as officers or employees of the United States, a State, or a local government, shall serve without compensation in addition to that received for those services.

(b) Travel expenses

The members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, while away from their homes or regular places of business in the performance of service for the Board.

§ 15204. Definitions

In this chapter:

(1) Public safety officer

The term “public safety officer” means a person serving a public agency, with or without compensation, as a firefighter, law enforcement officer, or emergency services officer, as determined by the Attorney General. For the purposes of this paragraph, the term “law enforcement officer” includes a person who is a corrections or court officer or a civil defense officer.

(2) State

The term “State” means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

References in Text

This chapter, referred to in subsections (a), (b)(4)(C), and (c), was in the original “this Act”, meaning Pub. L. 107-12, May 30, 2001, 115 Stat. 20, which enacted this chapter and amended section 2214 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 15201 of this title and Tables.
§ 15206. National Medal of Valor Office

There is established within the Department of Justice a National Medal of Valor Office. The Office shall provide staff support to the Board to establish criteria and procedures for the submission of recommendations of nominees for the Medal of Valor and for the final design of the Medal of Valor.

§ 15207. Consultation requirement

The Board shall consult with the Institute of Heraldry within the Department of Defense regarding the design and artistry of the Medal of Valor. The Board may also consider suggestions received by the Department of Justice regarding the design of the medal, including those made by persons not employed by the Department.

§ 15208. Law enforcement tribute acts

(a) Short title

This section may be cited as the “Law Enforcement Tribute Act”.

(b) Findings

Congress finds the following:

(1) The well-being of all citizens of the United States is preserved and enhanced as a direct result of the vigilance and dedication of law enforcement and public safety personnel.

(2) More than 700,000 law enforcement officers, both men and women, at great risk to their personal safety, serve their fellow citizens as guardians of peace.

(3) Nationwide, 51 law enforcement officers were killed in the line of duty in 2000, according to statistics released by the Federal Bureau of Investigation. This number is an increase of 19 from the 1999 total of 32.

(4) In 1999, 112 firefighters died while on duty, an increase of 21 deaths from the previous year.

(5) Every year, 1 in 9 peace officers is assaulted, 1 in 25 is injured, and 1 in 4,400 is killed in the line of duty.

(6) In addition, recent statistics indicate that 83 officers were accidentally killed in the performance of their duties in 2000, an increase of 18 from the 65 accidental deaths in 1999.

(7) A permanent tribute is a powerful means of honoring the men and women who have served our Nation with distinction. However, many law enforcement and public safety agencies lack the resources to honor their fallen colleagues.

(c) Program authorized

From amounts made available to carry out this section, the Attorney General may make grants to States, units of local government, and Indian tribes to carry out programs to honor, through permanent tributes, men and women of the United States who were killed or disabled while serving as law enforcement or public safety officers.

(d) Uses of funds

Grants awarded under this section shall be distributed directly to the State, unit of local government, or Indian tribe, and shall be used for the purposes specified in subsection (c).

(e) $150,000 limitation

A grant under this section may not exceed $150,000 to any single recipient.

(f) Matching funds

(1) The Federal portion of the costs of a program provided by a grant under this section may not exceed 50 percent.

(2) Any funds appropriated by Congress for the activities of any agency of an Indian tribal government or the Bureau of Indian Affairs performing law enforcement or public safety functions on any Indian lands may be used to provide the non-Federal share of a matching requirement funded under this subsection.

(g) Applications

To request a grant under this section, the chief executive of a State, unit of local government, or Indian tribe shall submit an application to the Attorney General at such time, in such manner, and accompanied by such information as the Attorney General may require.

(h) Annual report to Congress

Not later than November 30 of each year, the Attorney General shall submit a report to the Congress regarding the activities carried out under this section. Each such report shall include, for the preceding fiscal year, the number of grants funded under this section, the amount of funds provided under those grants, and the activities for which those funds were used.

(i) Authorization of appropriations

There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2002 through 2009.

Codification

Section was enacted as the Law Enforcement Tribute Act, and also as part of the 21st Century Department of Justice Appropriations Authorization Act, and not as part of the Public Safety Officer Medal of Valor Act of 2001 which comprises this chapter.

Amendments

CHAPTER 145A—LAW ENFORCEMENT CONGRESSIONAL BADGE OF BRAVERY

Sec. 15231. Transferred.
§ 15231. Transferred
CODIFICATION
Section 15231 was editorially reclassified as section 50301 of Title 34, Crime Control and Law Enforcement.

SUBCHAPTER I—FEDERAL LAW ENFORCEMENT CONGRESSIONAL BADGE OF BRAVERY

§ 15241. Transferred
CODIFICATION
Section 15241 was editorially reclassified as section 50311 of Title 34, Crime Control and Law Enforcement.

§ 15242. Transferred
CODIFICATION
Section 15242 was editorially reclassified as section 50312 of Title 34, Crime Control and Law Enforcement.

§ 15243. Transferred
CODIFICATION
Section 15243 was editorially reclassified as section 50313 of Title 34, Crime Control and Law Enforcement.

§ 15244. Transferred
CODIFICATION
Section 15244 was editorially reclassified as section 50314 of Title 34, Crime Control and Law Enforcement.

SUBCHAPTER II—STATE AND LOCAL LAW ENFORCEMENT CONGRESSIONAL BADGE OF BRAVERY

§ 15251. Transferred
CODIFICATION
Section 15251 was editorially reclassified as section 50321 of Title 34, Crime Control and Law Enforcement.

§ 15252. Transferred
CODIFICATION
Section 15252 was editorially reclassified as section 50322 of Title 34, Crime Control and Law Enforcement.

§ 15253. Transferred
CODIFICATION
Section 15253 was editorially reclassified as section 50323 of Title 34, Crime Control and Law Enforcement.

§ 15254. Transferred
CODIFICATION
Section 15254 was editorially reclassified as section 50324 of Title 34, Crime Control and Law Enforcement.

SUBCHAPTER III—CONGRESSIONAL BADGE OF BRAVERY OFFICE

§ 15261. Transferred
CODIFICATION
Section 15261 was editorially reclassified as section 50331 of Title 34, Crime Control and Law Enforcement.

CHAPTER 146—ELECTION ADMINISTRATION IMPROVEMENT

SUBCHAPTER I—PAYMENTS TO STATES FOR ELECTION ADMINISTRATION IMPROVEMENTS AND REPLACEMENT OF PUNCH CARD AND LEVER VOTING MACHINES

§ 15301. Transferred
CODIFICATION
Section 15301 was editorially reclassified as section 20901 of Title 52, Voting and Elections.

§ 15302. Transferred
CODIFICATION
Section 15302 was editorially reclassified as section 20902 of Title 52, Voting and Elections.

§ 15303. Transferred
CODIFICATION
Section 15303 was editorially reclassified as section 20903 of Title 52, Voting and Elections.

§ 15304. Transferred
CODIFICATION
Section 15304 was editorially reclassified as section 20904 of Title 52, Voting and Elections.

§ 15305. Transferred
CODIFICATION
Section 15305 was editorially reclassified as section 20905 of Title 52, Voting and Elections.

§ 15306. Transferred
CODIFICATION
Section 15306 was editorially reclassified as section 20906 of Title 52, Voting and Elections.

PART A—ESTABLISHMENT AND GENERAL ORGANIZATION

SUBPART I—ELECTION ASSISTANCE COMMISSION

§ 15321. Transferred
CODIFICATION
Section 15321 was editorially reclassified as section 20921 of Title 52, Voting and Elections.

§ 15322. Transferred
CODIFICATION
Section 15322 was editorially reclassified as section 20922 of Title 52, Voting and Elections.

§ 15323. Transferred
CODIFICATION
Section 15323 was editorially reclassified as section 20923 of Title 52, Voting and Elections.
§ 15324. Transferred
CODIFICATION
Section 15324 was editorially reclassified as section 20924 of Title 52, Voting and Elections.

§ 15325. Transferred
CODIFICATION
Section 15325 was editorially reclassified as section 20925 of Title 52, Voting and Elections.

§ 15326. Transferred
CODIFICATION
Section 15326 was editorially reclassified as section 20926 of Title 52, Voting and Elections.

§ 15327. Transferred
CODIFICATION
Section 15327 was editorially reclassified as section 20927 of Title 52, Voting and Elections.

§ 15328. Transferred
CODIFICATION
Section 15328 was editorially reclassified as section 20928 of Title 52, Voting and Elections.

§ 15329. Transferred
CODIFICATION
Section 15329 was editorially reclassified as section 20929 of Title 52, Voting and Elections.

§ 15330. Transferred
CODIFICATION
Section 15330 was editorially reclassified as section 20930 of Title 52, Voting and Elections.

§ 15341. Transferred
CODIFICATION
Section 15341 was editorially reclassified as section 20941 of Title 52, Voting and Elections.

§ 15342. Transferred
CODIFICATION
Section 15342 was editorially reclassified as section 20942 of Title 52, Voting and Elections.

§ 15343. Transferred
CODIFICATION
Section 15343 was editorially reclassified as section 20943 of Title 52, Voting and Elections.

§ 15344. Transferred
CODIFICATION
Section 15344 was editorially reclassified as section 20944 of Title 52, Voting and Elections.

§ 15345. Transferred
CODIFICATION
Section 15345 was editorially reclassified as section 20945 of Title 52, Voting and Elections.

§ 15346. Transferred
CODIFICATION
Section 15346 was editorially reclassified as section 20946 of Title 52, Voting and Elections.

SUBPART 3—TECHNICAL GUIDELINES DEVELOPMENT COMMITTEE

§ 15361. Transferred
CODIFICATION
Section 15361 was editorially reclassified as section 20961 of Title 52, Voting and Elections.

§ 15362. Transferred
CODIFICATION
Section 15362 was editorially reclassified as section 20962 of Title 52, Voting and Elections.

PART B—TESTING, CERTIFICATION, DECERTIFICATION, AND RECERTIFICATION OF VOTING SYSTEM HARDWARE AND SOFTWARE

§ 15371. Transferred
CODIFICATION
Section 15371 was editorially reclassified as section 20971 of Title 52, Voting and Elections.

PART C—STUDIES AND OTHER ACTIVITIES TO PROMOTE EFFECTIVE ADMINISTRATION OF FEDERAL ELECTIONS

§ 15381. Transferred
CODIFICATION
Section 15381 was editorially reclassified as section 20981 of Title 52, Voting and Elections.

§ 15382. Transferred
CODIFICATION
Section 15382 was editorially reclassified as section 20982 of Title 52, Voting and Elections.

§ 15383. Transferred
CODIFICATION
Section 15383 was editorially reclassified as section 20983 of Title 52, Voting and Elections.

§ 15384. Transferred
CODIFICATION
Section 15384 was editorially reclassified as section 20984 of Title 52, Voting and Elections.

§ 15385. Transferred
CODIFICATION
Section 15385 was editorially reclassified as section 20985 of Title 52, Voting and Elections.

§ 15386. Transferred
CODIFICATION
Section 15386 was editorially reclassified as section 20986 of Title 52, Voting and Elections.

§ 15387. Transferred
CODIFICATION
Section 15387 was editorially reclassified as section 20987 of Title 52, Voting and Elections.

PART D—ELECTION ASSISTANCE

SUBPART 1—REQUIREMENTS PAYMENTS

§ 15401. Transferred
CODIFICATION
Section 15401 was editorially reclassified as section 21001 of Title 52, Voting and Elections.
§ 15402. Transferred
CODIFICATION
Section 15402 was editorially reclassified as section 21002 of Title 52, Voting and Elections.

§ 15403. Transferred
CODIFICATION
Section 15403 was editorially reclassified as section 21003 of Title 52, Voting and Elections.

§ 15404. Transferred
CODIFICATION
Section 15404 was editorially reclassified as section 21004 of Title 52, Voting and Elections.

§ 15405. Transferred
CODIFICATION
Section 15405 was editorially reclassified as section 21005 of Title 52, Voting and Elections.

§ 15406. Transferred
CODIFICATION
Section 15406 was editorially reclassified as section 21006 of Title 52, Voting and Elections.

§ 15407. Transferred
CODIFICATION
Section 15407 was editorially reclassified as section 21007 of Title 52, Voting and Elections.

§ 15408. Transferred
CODIFICATION
Section 15408 was editorially reclassified as section 21008 of Title 52, Voting and Elections.

SUBPART 2—PAYMENTS TO STATES AND UNITS OF LOCAL GOVERNMENT TO ASSURE ACCESS FOR INDIVIDUALS WITH DISABILITIES

§ 15421. Transferred
CODIFICATION
Section 15421 was editorially reclassified as section 21021 of Title 52, Voting and Elections.

§ 15422. Transferred
CODIFICATION
Section 15422 was editorially reclassified as section 21022 of Title 52, Voting and Elections.

§ 15423. Transferred
CODIFICATION
Section 15423 was editorially reclassified as section 21023 of Title 52, Voting and Elections.

§ 15424. Transferred
CODIFICATION
Section 15424 was editorially reclassified as section 21024 of Title 52, Voting and Elections.

§ 15425. Transferred
CODIFICATION
Section 15425 was editorially reclassified as section 21025 of Title 52, Voting and Elections.

SUBPART 3—GRANTS FOR RESEARCH ON VOTING TECHNOLOGY IMPROVEMENTS

§ 15441. Transferred
CODIFICATION
Section 15441 was editorially reclassified as section 21041 of Title 52, Voting and Elections.

§ 15442. Transferred
CODIFICATION
Section 15442 was editorially reclassified as section 21042 of Title 52, Voting and Elections.

§ 15443. Transferred
CODIFICATION
Section 15443 was editorially reclassified as section 21043 of Title 52, Voting and Elections.

SUBPART 4—PILOT PROGRAM FOR TESTING OF EQUIPMENT AND TECHNOLOGY

§ 15451. Transferred
CODIFICATION
Section 15451 was editorially reclassified as section 21051 of Title 52, Voting and Elections.

§ 15452. Transferred
CODIFICATION
Section 15452 was editorially reclassified as section 21052 of Title 52, Voting and Elections.

§ 15453. Transferred
CODIFICATION
Section 15453 was editorially reclassified as section 21053 of Title 52, Voting and Elections.

SUBPART 5—PROTECTION AND ADVOCACY SYSTEMS

§ 15461. Transferred
CODIFICATION
Section 15461 was editorially reclassified as section 21061 of Title 52, Voting and Elections.

§ 15462. Transferred
CODIFICATION
Section 15462 was editorially reclassified as section 21062 of Title 52, Voting and Elections.

SUBPART 6—NATIONAL STUDENT AND PARENT Mock Election

§ 15471. Transferred
CODIFICATION
Section 15471 was editorially reclassified as section 21071 of Title 52, Voting and Elections.

§ 15472. Transferred
CODIFICATION
Section 15472 was editorially reclassified as section 21072 of Title 52, Voting and Elections.
SUBCHAPTER III—UNIFORM AND NON-DISCRIMINATORY ELECTION TECHNOLOGY AND ADMINISTRATION REQUIREMENTS

PART A—REQUIREMENTS

§ 15481. Transferred

CODIFICATION
Section 15481 was editorially reclassified as section 21081 of Title 52, Voting and Elections.

§ 15482. Transferred

CODIFICATION
Section 15482 was editorially reclassified as section 21082 of Title 52, Voting and Elections.

§ 15483. Transferred

CODIFICATION
Section 15483 was editorially reclassified as section 21083 of Title 52, Voting and Elections.

§ 15484. Transferred

CODIFICATION
Section 15484 was editorially reclassified as section 21084 of Title 52, Voting and Elections.

§ 15485. Transferred

CODIFICATION
Section 15485 was editorially reclassified as section 21085 of Title 52, Voting and Elections.

PART B—VOLUNTARY GUIDANCE

§ 15501. Transferred

CODIFICATION
Section 15501 was editorially reclassified as section 21101 of Title 52, Voting and Elections.

§ 15502. Transferred

CODIFICATION
Section 15502 was editorially reclassified as section 21102 of Title 52, Voting and Elections.

SUBCHAPTER IV—ENFORCEMENT

§ 15511. Transferred

CODIFICATION
Section 15511 was editorially reclassified as section 21111 of Title 52, Voting and Elections.

§ 15512. Transferred

CODIFICATION
Section 15512 was editorially reclassified as section 21112 of Title 52, Voting and Elections.

SUBCHAPTER V—HELP AMERICA VOTE COLLEGE PROGRAM

§ 15521. Transferred

CODIFICATION
Section 15521 was editorially reclassified as section 21121 of Title 52, Voting and Elections.

§ 15522. Transferred

CODIFICATION
Section 15522 was editorially reclassified as section 21122 of Title 52, Voting and Elections.

SUBCHAPTER VI—TRANSFER TO COMMISSION OF FUNCTIONS UNDER CERTAIN LAWS

§ 15531. Transferred

CODIFICATION
Section 15531 was editorially reclassified as section 21131 of Title 52, Voting and Elections.

§ 15532. Transferred

CODIFICATION
Section 15532 was editorially reclassified as section 21132 of Title 52, Voting and Elections.

§ 15533. Transferred

CODIFICATION
Section 15533 was editorially reclassified as section 21133 of Title 52, Voting and Elections.

§ 15534. Transferred

CODIFICATION
Section 15534 was editorially reclassified as section 21134 of Title 52, Voting and Elections.

SUBCHAPTER VII—MISCELLANEOUS PROVISIONS

§ 15541. Transferred

CODIFICATION
Section 15541 was editorially reclassified as section 21141 of Title 52, Voting and Elections.

§ 15542. Transferred

CODIFICATION
Section 15542 was editorially reclassified as section 21142 of Title 52, Voting and Elections.

§ 15543. Transferred

CODIFICATION
Section 15543 was editorially reclassified as section 21143 of Title 52, Voting and Elections.

§ 15544. Transferred

CODIFICATION
Section 15544 was editorially reclassified as section 21144 of Title 52, Voting and Elections.

§ 15545. Transferred

CODIFICATION
Section 15545 was editorially reclassified as section 21145 of Title 52, Voting and Elections.

CHAPTER 147—PRISON RAPE ELIMINATION

Sec. 15601 to 15609. Transferred.

§ 15601. Transferred

CODIFICATION
Section 15601 was editorially reclassified as section 30301 of Title 34, Crime Control and Law Enforcement.
§ 15602. Transferred
CODIFICATION
Section 15602 was editorially reclassified as section 30302 of Title 34, Crime Control and Law Enforcement.

§ 15603. Transferred
CODIFICATION
Section 15603 was editorially reclassified as section 30303 of Title 34, Crime Control and Law Enforcement.

§ 15604. Transferred
CODIFICATION
Section 15604 was editorially reclassified as section 30304 of Title 34, Crime Control and Law Enforcement.

§ 15605. Transferred
CODIFICATION
Section 15605 was editorially reclassified as section 30305 of Title 34, Crime Control and Law Enforcement.

§ 15606. Transferred
CODIFICATION
Section 15606 was editorially reclassified as section 30306 of Title 34, Crime Control and Law Enforcement.

§ 15607. Transferred
CODIFICATION
Section 15607 was editorially reclassified as section 30307 of Title 34, Crime Control and Law Enforcement.

§ 15608. Transferred
CODIFICATION
Section 15608 was editorially reclassified as section 30308 of Title 34, Crime Control and Law Enforcement.

§ 15609. Transferred
CODIFICATION
Section 15609 was editorially reclassified as section 30309 of Title 34, Crime Control and Law Enforcement.

CHAPTER 148—WINDSTORM IMPACT REDUCTION

Sec. 15701. Findings.
15702. Definitions.
15704. National Advisory Committee on Windstorm Impact Reduction.
15705. Savings clause.
15706. Authorization of appropriations.
15707. Coordination.

§ 15701. Findings
The Congress finds the following:
(1) Hurricanes, tropical storms, tornadoes, and thunderstorms can cause significant loss of life, injury, destruction of property, and economic and social disruption. All States and regions are vulnerable to these hazards.
(2) The United States currently sustains several billion dollars in economic damages each year due to these windstorms. In recent decades, rapid development and population growth in high-risk areas has greatly increased overall vulnerability to windstorms.
(3) Improved windstorm impact reduction measures have the potential to reduce these losses through—

(A) cost-effective and affordable design and construction methods and practices;
(B) effective mitigation programs at the local, State, and national level;
(C) improved data collection and analysis and impact prediction methodologies;
(D) engineering research on improving new structures and retrofitting existing ones to better withstand windstorms, atmospheric-related research to better understand the behavior and impact of windstorms on the built environment, and subsequent application of those research results; and
(E) public education and outreach.

(4) There is an appropriate role for the Federal Government in supporting windstorm impact reduction. An effective Federal program in windstorm impact reduction will require interagency coordination, and input from individuals, academia, the private sector, and other interested non-Federal entities.

SHORT TITLE OF 2015 AMENDMENT

SHORT TITLE

§ 15702. Definitions
In this chapter:
(1) Director
The term “Director” means the Director of the National Institute of Standards and Technology.
(2) Lifelines
The term “lifelines” means public works and utilities, including transportation facilities and infrastructure, oil and gas pipelines, electrical power and communication facilities and infrastructure, and water supply and sewage treatment facilities.
(3) Program
The term “Program” means the National Windstorm Impact Reduction Program established by section 15703(a) of this title.
(4) State
The term “State” means each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.
(5) Windstorm
The term “windstorm” means any storm with a damaging or destructive wind component, such as a hurricane, tropical storm, northeaster, tornado, or thunderstorm.
§ 15703. National Windstorm Impact Reduction Program

(a) Establishment

There is established the National Windstorm Impact Reduction Program, the purpose of which is to achieve major measurable reductions in the losses of life and property from windstorms through a coordinated Federal effort, in cooperation with other levels of government, academia, and the private sector, aimed at improving the understanding of windstorms and their impacts and developing and encouraging the implementation of cost-effective mitigation measures to reduce those impacts.

(b) Responsibilities of Program agencies

(1) Lead agency

The National Institute of Standards and Technology shall have the primary responsibility for planning and coordinating the Program. In carrying out this paragraph, the Director shall—
(A) ensure that the Program includes the necessary components to promote the implementation of windstorm risk reduction measures by Federal, State, and local governments, national standards and model building code organizations, architects and engineers, and others with a role in planning and constructing buildings and lifelines;
(B) support the development of performance-based engineering tools, and work with appropriate groups to promote the commercial application of such tools, including through wind-related model building codes, voluntary standards, and construction best practices;
(C) request the assistance of Federal agencies other than the Program agencies, as necessary to assist in carrying out this chapter;
(D) coordinate all Federal post-windstorm investigations to the extent practicable; and
(E) when warranted by research or investigative findings, issue recommendations to assist in informing the development of model codes, and provide information to Congress on the use of such recommendations.

(2) National Institute of Standards and Technology

In addition to the lead agency responsibilities described under paragraph (1), the National Institute of Standards and Technology shall be responsible for carrying out research and development to improve model building codes, voluntary standards, and best practices for the design, construction, and retrofit of buildings, structures, and lifelines.

(3) National Science Foundation

The National Science Foundation shall support research in—
(A) engineering and the atmospheric sciences to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines; and
(B) economic and social factors influencing windstorm risk reduction measures.

(4) National Oceanic and Atmospheric Administration

The National Oceanic and Atmospheric Administration shall support atmospheric sciences research to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

(5) Federal Emergency Management Agency

The Federal Emergency Management Agency shall—
(A) support—
(i) the development of risk assessment tools and effective mitigation techniques;
(ii) windstorm-related data collection and analysis;
(iii) public outreach and information dissemination; and
(iv) promotion of the adoption of windstorm preparedness and mitigation measures, including for households, businesses, and communities, consistent with the Agency’s all-hazards approach; and
(B) work closely with national standards and model building code organizations, in conjunction with the National Institute of Standards and Technology, to promote the implementation of research results and promote better building practices within the building design and construction industry, including architects, engineers, contractors, builders, and inspectors.

(c) Program components

(1) In general

The Program shall consist of three primary mitigation components: improved understanding of windstorms, windstorm impact assessment, and windstorm impact reduction. The components shall be implemented through activities such as data collection and analysis, risk assessment, outreach, technology transfer, and research and development. To the extent practicable, research activities authorized under this chapter shall be peer-reviewed, and the components shall be designed to be
complementary to, and avoid duplication of, other public and private hazard reduction efforts.

(2) **Understanding of windstorms**

Activities to enhance the understanding of windstorms shall include research to improve knowledge of and data collection on the impact of severe wind on buildings, structures, and infrastructure.

(3) **Windstorm impact assessment**

Activities to improve windstorm impact assessment shall include—

(A) development of mechanisms for collecting and inventorying information on the performance of buildings, structures, and infrastructure in windstorms and improved collection of pertinent information from sources, including the design and construction industry, insurance companies, and building officials;

(B) research, development, and technology transfer to improve loss estimation and risk assessment systems; and

(C) research, development, and technology transfer to improve simulation and computational modeling of windstorm impacts.

(4) **Windstorm impact reduction**

Activities to reduce windstorm impacts shall include—

(A) development of improved outreach and implementation mechanisms to translate existing information and research findings into cost-effective and affordable practices for design and construction professionals, and State and local officials;

(B) development of cost-effective and affordable windstorm-resistant systems, structures, and materials for use in new construction and retrofit of existing construction; and

(C) outreach and information dissemination related to cost-effective and affordable construction techniques, loss estimation and risk assessment methodologies, and other pertinent information regarding windstorm phenomena to Federal, State, and local officials, the construction industry, and the general public.

(d) **Budget activities**

The Director of the National Institute of Standards and Technology, the Director of the National Science Foundation, the Director of the Federal Emergency Management Agency shall each include in their agency’s annual budget request to Congress a description of their agency’s projected activities under the Program for the fiscal year covered by the budget request, along with an assessment of what they plan to spend on those activities for that fiscal year.

(e) **Interagency Coordinating Committee on Windstorm Impact Reduction**

(1) Establishments

There is established an Interagency Coordinating Committee on Windstorm Impact Reduction, chaired by the Director or the Director’s designee.

(2) **Membership**

In addition to the chair, the Committee shall be composed of—

(A) the heads or such designees of—

(i) the Federal Emergency Management Agency;

(ii) the National Oceanic and Atmospheric Administration;

(iii) the National Science Foundation;

(iv) the Office of Science and Technology Policy; and

(v) the Office of Management and Budget; and

(B) the head of any other Federal agency, or such designee, the chair considers appropriate.

(3) **Meetings**

The Committee shall meet not less than once a year at the call of the Director of the National Institute of Standards and Technology.

(4) **General purpose and duties**

The Committee shall oversee the planning and coordination of the Program.

(5) **Strategic plan**

The Committee shall develop and submit to Congress, not later than 1 year after September 30, 2015, a Strategic Plan for the Program that includes—

(A) prioritized goals for the Program that will mitigate against the loss of life and property from future windstorms;

(B) short-term, mid-term, and long-term research objectives to achieve those goals;

(C) a description of the role of each Program agency in achieving the prioritized goals;

(D) the methods by which progress towards the goals will be assessed; and

(E) an explanation of how the Program will foster the transfer of research results into outcomes, such as improved model building codes.

(6) **Progress report**

Not later than 18 months after September 30, 2015, the Committee shall submit to the Congress a report on the progress of the Program that includes—

(A) a description of the activities funded under the Program, a description of how these activities align with the prioritized goals and research objectives established in the Strategic Plan, and the budgets, per agency, for these activities;

(B) the outcomes achieved by the Program for each of the goals identified in the Strategic Plan;

(C) a description of any recommendations made to change existing building codes that were the result of Program activities; and

(D) a description of the extent to which the Program has incorporated recommendations from the Advisory Committee on Windstorm Impact Reduction.

(7) **Coordinated budget**

The Committee shall develop a coordinated budget for the Program, which shall be sub-
mitted to the Congress not later than 60 days after the date of the President’s budget submission for each fiscal year.

§ 15705. Savings clause

Nothing in this chapter supersedes any provision of the National Manufactured Housing Construction and Safety Standards Act of 1974 [42 U.S.C. 5401 et seq.]. No design, construction method, practice, technology, material, mitigation methodology, or hazard reduction measure of any kind developed under this chapter shall be required for a home certified under section 616 of the National Manufactured Housing Construction and Safety Standards Act of 1974 (42 U.S.C. 5415), pursuant to standards issued under such Act, without being subject to the consensus development process and rulemaking procedures of that Act.

REFERENCES IN TEXT

This chapter, referred to in subsection (b)(2) of the Federal Advisory Committee Act (5 U.S.C. App.), the Advisory Committee shall not be required to file a charter subsequent to its initial charter, filed under section 3(a)(1) of that Act, before the termination date specified in subsection (f) of this section.

(f) Termination

The Advisory Committee shall terminate on September 30, 2017.

(g) Conflict of interest

An Advisory Committee member shall recuse himself from any Advisory Committee activity in which he has an actual pecuniary interest.

REFERENCES IN TEXT

Sections 9 and 14 of the Federal Advisory Committee Act, referred to in subsection (e), are sections 9 and 14, respectively, of Pub. L. 92–463, which are set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

§ 15704. National Advisory Committee on Windstorm Impact Reduction

(a) In general

The Director of the National Institute of Standards and Technology shall establish an Advisory Committee on Windstorm Impact Reduction, which shall be composed of at least 7 and not more than 15 members who are qualified to provide advice on windstorm impact reduction and represent related scientific, architectural, and engineering disciplines, none of whom may be employees of the Federal Government, including—

(1) representatives of research and academic institutions;
(2) industry standards development organizations;
(3) emergency management agencies;
(4) State and local government; and
(5) business communities, including the insurance industry.

(b) Assessments

The Advisory Committee on Windstorm Impact Reduction shall offer assessments and recommendations on—

(1) trends and developments in the natural, engineering, and social sciences and practices of windstorm impact mitigation; (2) the priorities of the Program’s Strategic Plan; (3) the coordination of the Program; (4) the effectiveness of the Program in meeting its purposes; and (5) any revisions to the Program which may be necessary.

(c) Compensation

The members of the Advisory Committee established under this section shall serve without compensation.

(d) Reports

At least every 2 years, the Advisory Committee shall report to the Director on the assessments carried out under subsection (b) and its recommendations for ways to improve the Program.

(e) Charter

Notwithstanding section 14(b)(2) of the Federal Advisory Committee Act (5 U.S.C. App.), the Advisory Committee shall not be required to file a charter subsequent to its initial charter, filed under section 3(a)(1) of that Act, before the termination date specified in subsection (f) of this section.

The Advisory Committee shall terminate on September 30, 2017.

§ 15705. National Advisory Committee on Windstorm Impact Reduction

(a) In general

The Director of the National Institute of Standards and Technology shall establish an Advisory Committee on Windstorm Impact Reduction, which shall be composed of at least 7 and not more than 15 members who are qualified to provide advice on windstorm impact reduction and represent related scientific, architectural, and engineering disciplines, none of whom may be employees of the Federal Government, including—

(1) representatives of research and academic institutions;
(2) industry standards development organizations;
(3) emergency management agencies;
(4) State and local government; and
(5) business communities, including the insurance industry.

(b) Assessments

The Advisory Committee on Windstorm Impact Reduction shall offer assessments and recommendations on—

(1) trends and developments in the natural, engineering, and social sciences and practices of windstorm impact mitigation; (2) the priorities of the Program’s Strategic Plan; (3) the coordination of the Program; (4) the effectiveness of the Program in meeting its purposes; and (5) any revisions to the Program which may be necessary.

(c) Compensation

The members of the Advisory Committee established under this section shall serve without compensation.

(d) Reports

At least every 2 years, the Advisory Committee shall report to the Director on the assessments carried out under subsection (b) and its recommendations for ways to improve the Program.

(e) Charter

Notwithstanding section 14(b)(2) of the Federal Advisory Committee Act (5 U.S.C. App.), the Advisory Committee shall not be required to file a charter subsequent to its initial charter, filed under section 9(c) of such Act, before the termination date specified in subsection (f) of this section.

(f) Termination

The Advisory Committee shall terminate on September 30, 2017.

(g) Conflict of interest

An Advisory Committee member shall recuse himself from any Advisory Committee activity in which he has an actual pecuniary interest.

REFERENCES IN TEXT

Sections 9 and 14 of the Federal Advisory Committee Act, referred to in subsection (e), are sections 9 and 14, respectively, of Pub. L. 92–463, which are set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

References to this title, meaning title II of Pub. L. 108–360, Oct. 25, 2004, 118 Stat. 1675, which is classified principally to this chapter: For complete classification of title II to the Code, see Short Title note set out under section 15701 of this title and Tables.

AMENDMENTS

2015—Subsecs. (a), (b), Pub. L. 114–52, § 3(1), added subs. (a) and (b) and struck out former subs. (a) and (b) which related to the establishment and objective of the National Windstorm Impact Reduction Program.

Subsec. (c), Pub. L. 114–52, § 3(1), (2), redesignated subsec. (d) as (c) and struck out former subsec. (c) which established an Interagency Working Group.

Subsecs. (d), (e), Pub. L. 114–52, § 3(2), (3), added subs. (d) and (e), redesignated former subsec. (d) as (c), and struck out former subsec. (e) which required an implementation plan from the Interagency Working Group.

Subsec. (f), Pub. L. 114–52, § 3(2), struck out subsec. (f) which required biennial reports on the status of the windstorm impact reduction program.

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Act, see section 315(a)(1) of Title 6, Domestic Security.
2004, 118 Stat. 1675, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 15701 of this title and Tables.

§ 15706. Authorization of appropriations

(a) Federal Emergency Management Agency

There are authorized to be appropriated to the Federal Emergency Management Agency for carrying out this chapter—

(1) $5,332,000 for fiscal year 2015;

(2) $5,332,000 for fiscal year 2016; and

(3) $5,332,000 for fiscal year 2017.

(b) National Science Foundation

There are authorized to be appropriated to the National Science Foundation for carrying out this chapter—

(1) $9,682,000 for fiscal year 2015;

(2) $9,682,000 for fiscal year 2016; and

(3) $9,682,000 for fiscal year 2017.

(c) National Institute of Standards and Technology

There are authorized to be appropriated to the National Institute of Standards and Technology for carrying out this chapter—

(1) $4,120,000 for fiscal year 2015;

(2) $4,120,000 for fiscal year 2016; and

(3) $4,120,000 for fiscal year 2017.

(d) National Oceanic and Atmospheric Administration

There are authorized to be appropriated to the National Oceanic and Atmospheric Administration for carrying out this chapter—

(1) $2,266,000 for fiscal year 2015;

(2) $2,266,000 for fiscal year 2016; and

(3) $2,266,000 for fiscal year 2017.

AMENDMENTS

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Agency, see section 315(a)(1) of Title 5, Government Organization.

§ 15707. Coordination

The Secretary of Commerce, the Director of the National Institute of Standards and Technology, the Director of the Office of Science and Technology Policy and the heads of other Federal departments and agencies carrying out activities under this chapter and the statutes amended by this chapter shall work together to ensure that research, technologies, and response techniques are shared among the programs authorized in this chapter in order to coordinate the Nation’s efforts to reduce vulnerability to the hazards described in this chapter.

This chapter, referred to in text, was in the original ‘‘this title’’, meaning title II of Pub. L. 108–360, Oct. 25, 2004, 118 Stat. 1675, which is classified principally to the Code, see Short Title note set out under section 15701 of this title and Tables.

CHAPTER 149—NATIONAL ENERGY POLICY AND PROGRAMS

Sec. 15801. Definitions.

SUBCHAPTER I—ENERGY EFFICIENCY

PART A—FEDERAL PROGRAMS

15811. Voluntary commitments to reduce industrial energy intensity.

15812. Advanced building efficiency testbed.

15813. Enhancing energy efficiency in management of Federal lands.

PART B—ENERGY ASSISTANCE AND STATE PROGRAMS

15821. Energy efficient appliance rebate programs.

15822. Energy efficient public buildings.

15823. Low income community energy efficiency pilot program.

15824. State Technologies Advancement Collaborative.

PART C—ENERGY EFFICIENT PRODUCTS

15831. Public energy education program.

15832. Energy efficiency public information initiative.

15833. Energy efficiency pilot program.

15834. Report on failure to comply with deadlines for new or revised energy conservation standards.

PART D—PUBLIC HOUSING

15842. Energy strategy for HUD.

SUBCHAPTER II—RENEWABLE ENERGY

PART A—GENERAL PROVISIONS

15851. Assessment of renewable energy resources.

15852. Federal purchase requirement.

15853. Rebate program.

15854. Sugar Cane Ethanol Program.

15855. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes.

PART B—GEOTHERMAL ENERGY

15871. Coordination of geothermal leasing and permitting on Federal lands.

15872. Assessment of geothermal energy potential.

15873. Deposit and use of geothermal lease revenues for 5 fiscal years.

15874. Intermountain West Geothermal Consortium.

PART C—HYDROELECTRIC

15881. Hydroelectric production incentives.
15882. Hydroelectric efficiency improvement.

PART D—INSULAR ENERGY

15891. Projects enhancing insular energy independence.

SUBCHAPTER III—OIL AND GAS

PART A—PRODUCTION INCENTIVES

15901. Definition of Secretary.

15902. Program on oil and gas royalties in-kind.

15903. Marginal property production incentives.

15904. Incentives for natural gas production from deep wells in the shallow waters of the Gulf of Mexico.

15905. Royalty relief for deep water production.

15907. Orphaned, abandoned, or idled wells on Federal land.

15908. Preservation of geological and geophysical data.

15909. Gas hydrate production incentive.

15910. Enhanced oil and natural gas production through carbon dioxide injection.

15911. Denali Commission.

15912. Comprehensive inventory of OCS oil and natural gas resources.

PART B—ACCESS TO FEDERAL LANDS

15921. Management of Federal oil and gas leasing programs.

15922. Consultation regarding oil and gas leasing on public land.

15923. Methodology.

15924. Project to improve Federal permit coordination.

15925. Fair market value determinations for linear right-of-way corridors on public lands and national forests.

15927. Oil shale, tar sands, and other strategic unconventional fuels.

15928. Consultation regarding energy right-of-way on public land.

PART C—MISCELLANEOUS

15941. Great Lakes oil and gas drilling ban.

15942. NEPA review.

PART D—REFINERY REVITALIZATION

15951. Findings and definitions.

15952. Federal-State regulatory coordination and assistance.

SUBCHAPTER IV—COAL

PART A—CLEAN COAL POWER INITIATIVE

15962. Project criteria.

15964. Clean coal centers of excellence.

15965. Time limit for award; extension.

PART B—CLEAN POWER PROJECTS

15971. Integrated coal/renewable energy system.

15972. Loan to place Alaska clean coal technology facility in service.

15973. Western integrated coal gasification demonstration project.

15974. Coal gasification.

15975. Petroleum coke gasification.

15976. Electron scrubbing demonstration.

15977. Department of Energy transportation fuels from Illinois basin coal.

PART C—FEDERAL COAL LEASES

15991. Inventory requirement.

1647. Strategy for facilities and infrastructure.

1648. Strategic research portfolio analysis and coordination plan.

1649. Competitive award of management contracts.

1650. Western Michigan demonstration project.

1651. Arctic Engineering Research Center.

1652. Barrow Geophysical Research Facility.

PART J—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

16371 to 16378. Repealed.

SUBCHAPTER X—DEPARTMENT OF ENERGY MANAGEMENT

1639. Improved technology transfer of energy technologies.

1639a. Technology transfer reports and evaluation.

1640. Technology Infrastructure Program.

1641. Small business advocacy and assistance.

1642. Outreach.

1643. Relationship to other laws.

1644. Prizes for achievement in grand challenges of science and technology.

SUBCHAPTER XI—PERSONNEL AND TRAINING

16411. Workforce trends and traineeship grants.

16412. Training guidelines for nonnuclear electric energy industry personnel.

SUBCHAPTER XII—ELECTRICITY

PART A—TRANSMISSION INFRASTRUCTURE MODERNIZATION

16411. Third-party finance.

16412a. Western Area Power Administration borrowing authority.

1642. Advanced transmission technologies.

1643. Advanced Power System Technology Incentive Program.

PART B—TRANSMISSION OPERATION IMPROVEMENTS

16431. Federal utility participation in transmission organizations.

16432. Study on the benefits of economic dispatch.

PART C—TRANSMISSION RATE REFORM

16441. Funding new interconnection and transmission upgrades.

PART D—REPEAL OF PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

16451. Definitions.

16452. Federal access to books and records.

16453. State access to books and records.

16454. Exemption authority.

16455. Affiliate transactions.

16456. Applicability.

16457. Effect on other regulations.

16458. Enforcement.

16459. Savings provisions.

16460. Implementation.

16461. Transfer of resources.

16462. Service allocation.

16463. Authorization of appropriations.

PART E—MARKET TRANSPARENCY, ENFORCEMENT, AND CONSUMER PROTECTION

16471. Consumer privacy and unfair trade practices.

PART F—DEFINITIONS

16481. Commission defined.

SUBCHAPTER XIII—MISCELLANEOUS

16491. Energy production incentives.
(A) Ames Laboratory.
(B) Argonne National Laboratory.
(C) Brookhaven National Laboratory.
(D) Fermi National Accelerator Laboratory.
(E) Idaho National Laboratory.
(F) Lawrence Berkeley National Laboratory.
(G) Lawrence Livermore National Laboratory.
(H) Los Alamos National Laboratory.
(I) National Energy Technology Laboratory.
(J) National Renewable Energy Laboratory.
(K) Oak Ridge National Laboratory.
(L) Pacific Northwest National Laboratory.
(M) Princeton Plasma Physics Laboratory.
(N) Sandia National Laboratories.
(O) Savannah River National Laboratory.
(P) Stanford Linear Accelerator Center.
(Q) Thomas Jefferson National Accelerator Facility.

(4) Secretary
The term “Secretary” means the Secretary of Energy.

(5) Small business concern
The term “small business concern” has the meaning given in the term in section 632 of title 15.

REFERENCES IN TEXT
This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note below and Tables.

SHORT TITLE OF 2018 AMENDMENT
Pub. L. 115–248, §1, Sept. 28, 2018, 132 Stat. 3154, provided that: “This Act [enacting sections 16278 to 16290 of this title and amending sections 16271 to 16274, and 16275 to 16277 of this title] may be cited as the ‘Nuclear Energy Innovation Capabilities Act of 2017.’”

SHORT TITLE OF 2011 AMENDMENT
Pub. L. 111–364, §1, Jan. 4, 2011, 124 Stat. 4056, provided that: “This Act [amending sections 16311 to 16313 and 16317 of this title and enacting provisions set out as a note under section 16451 of this title] may be cited as the ‘Diesel Emissions Reduction Act of 2010.’”

SHORT TITLE OF 2007 AMENDMENT
Pub. L. 110–96, title V, §5001, Aug. 9, 2007, 121 Stat. 600, provided that: “This Act [enacting subchapter XVII of this chapter and sections 7381g to 7381r of this title, amending sections 738an, 738ad, 738ae, and 1631 of this title, and enacting provisions set out as a note under section 7381g of this title] may be cited as the ‘Protecting America’s Competitive Edge Through Energy Act’ or the ‘FACE–Energy Act’.”

SHORT TITLE OF 2006 AMENDMENT

SHORT TITLE

Pub. L. 109–58, title V, §501, Aug. 8, 2005, 119 Stat. 763, provided that: “This title [enacting subchapter V of this chapter, section 714e of this title, and chapter 37 (§3301 et seq.) of Title 25, Indians, amending section 5315 of Title 5, Government Organization and Employees, and section 4312 of Title 25, and enacting provisions set out as a note under section 3501 of Title 25] may be cited as the ‘Indian Tribal Energy Development and Self-Determination Act of 2005.’”

Pub. L. 109–58, title IX, §901, Aug. 8, 2005, 119 Stat. 856, provided that: “This title [enacting subchapter IX of this chapter, amending sections 8101 and 8102 of Title 7, Agriculture, and section 5523 of Title 15, Commerce and Trade, enacting provisions set out as notes under section 8102 of Title 7 and section 2001 of Title 30, Mineral Lands and Mining, amending provisions set out as notes under section 8101 of Title 7, and section 1902 of Title 30] may be cited as the ‘Energy Research, Development, Demonstration, and Commercial Application Act of 2005.’”

Pub. L. 109–58, title XII, §1201, Aug. 8, 2005, 119 Stat. 941, provided that: “This title [enacting subchapter XII of this chapter and sections 824j–1 and 824q to 824w of Title 16, Conservation, amending sections 796, 824, 824a–3, 824b, 824e, 824j, 824m, 825e, 825f, 825i to 825o, 825p–1, 2621, 2622, 2625, 2634, and 2642 of Title 16, repealing chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and sections 824n and 825q of Title 16, and enacting provisions set out as notes under section 16451 of this title and sections 824b, 824e, 824q, and 2642 of Title 16] may be cited as the ‘Electricity Modernization Act of 2005.’”

Pub. L. 109–58, title XII, §1261, Aug. 8, 2005, 119 Stat. 972, provided that: “This subtitle [subtitle F (§§1261–1277) of title XII of Pub.L. 109–58, enacting part D (§16451 et seq.) of subchapter XII of this chapter, amending sections 824 and 824m of Title 16, Conservation, repealing chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacting provisions set out as a note under section 16451 of this title] may be cited as the ‘Public Utility Holding Company Act of 2005.’”

SUBCHAPTER I—ENERGY EFFICIENCY
PART A—FEDERAL PROGRAMS

§15811. Voluntary commitments to reduce industrial energy intensity

(a) Definition of energy intensity
In this section, the term “energy intensity” means the primary energy consumed for each unit of physical output in an industrial process.

(b) Voluntary agreements
The Secretary may enter into voluntary agreements with one or more persons in industrial sectors that consume significant quantities of primary energy for each unit of physical output to reduce the energy intensity of the production activities of the persons.

(c) Goal
Voluntary agreements under this section shall have as a goal the reduction of energy intensity
by not less than 2.5 percent each year during the period of calendar years 2007 through 2016.

(d) Recognition

The Secretary, in cooperation with other appropriate Federal agencies, shall develop mechanisms to recognize and publicize the achievements of participants in voluntary agreements under this section.

(e) Technical assistance

A person that enters into an agreement under this section and continues to make a good faith effort to achieve the energy efficiency goals specified in the agreement shall be eligible to receive from the Secretary a grant or technical assistance, as appropriate, to assist in the achievement of those goals.

(f) Report

Not later than each of June 30, 2012, and June 30, 2017, the Secretary shall submit to Congress a report that—

(1) evaluates the success of the voluntary agreements under this section; and

(2) provides independent verification of a sample of the energy savings estimates provided by participating firms.

§ 15812. Advanced Building Efficiency Testbed

(a) Establishment

The Secretary, in consultation with the Administrator of General Services, shall establish an Advanced Building Efficiency Testbed program for the development, testing, and demonstration of advanced engineering systems, components, and materials to enable innovations in building technologies. The program shall evaluate efficiency concepts for government and industry buildings, and demonstrate the ability of next generation buildings to support individual and organizational productivity and health (including by improving indoor air quality) as well as flexibility and technological change to improve environmental sustainability. Such program shall complement and not duplicate existing national programs.

(b) Participants

The program established under subsection (a) shall be led by a university with the ability to combine the expertise from numerous academic fields including, at a minimum, intelligent workplaces and advanced building systems and engineering, electrical and computer engineering, computer science, architecture, urban design, and environmental and mechanical engineering. Such university shall partner with other universities and entities who have established programs and the capability of advancing innovative building efficiency technologies.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $6,000,000 for each of the fiscal years 2006 through 2008, to remain available until expended. For any fiscal year in which funds are expended under this section, the Secretary shall provide one-third of the total amount to the lead university described in subsection (b), and provide the remaining two-thirds to the other participants referred to in subsection (b) on an equal basis.

§ 15813. Enhancing energy efficiency in management of Federal lands

(a) Sense of the Congress

It is the sense of the Congress that Federal agencies should enhance the use of energy efficient technologies in the management of natural resources.

(b) Energy efficient buildings

To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to incorporate energy efficient technologies in public and administrative buildings associated with management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuaries System, and other public lands and resources managed by the Secretaries.

(c) Energy efficient vehicles

To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to incorporate energy efficient motor vehicles, including vehicles equipped with biodiesel or hybrid engine technologies, in the management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuaries System, and other public lands and resources managed by the Secretaries.
(b) Eligible States

A State shall be eligible to receive an allocation under subsection (c) if the State—

(1) establishes (or has established) a State energy efficient appliance rebate program to provide rebates to residential consumers for the purchase of residential Energy Star products, or products with improved energy efficiency in cold climates, to replace used appliances of the same type;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Secretary may require; and

(3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(e) Amount of allocations

(1) In general

Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) Minimum allocations

For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible State is allocated a sum that is less than an amount determined by the Secretary.

(d) Use of allocated funds

The allocation to a State energy office under subsection (c) may be used to pay up to 50 percent of the cost of establishing and carrying out a State program.

(e) Issuance of rebates

Rebates may be provided to residential consumers that meet the requirements of the State program. The amount of a rebate shall be determined by the State energy office, taking into consideration—

(1) the amount of the allocation to the State energy office under subsection (c);

(2) the amount of any Federal or State tax incentive available for the purchase of the residential Energy Star product or product with improved energy efficiency in a cold climate; and

(3) the difference between the cost of the residential Energy Star product or product with improved energy efficiency in a cold climate and the cost of an appliance that is not a residential Energy Star product or product with improved energy efficiency in a cold climate, but is of the same type as, and is the nearest capacity, performance, and other relevant characteristics (as determined by the State energy office) to, the residential Energy Star product or product with improved energy efficiency in a cold climate.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $50,000,000 for each of the fiscal years 2006 through 2010.

AMENDMENTS

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1624 of Title 2, The Congress.

§ 15822. Energy efficient public buildings

(a) Grants

The Secretary may make grants to the State agency responsible for developing State energy conservation plans under section 6322 of this title, or, if no such agency exists, a State agency designated by the Governor of the State, to assist units of local government in the State in improving the energy efficiency of public buildings and facilities—

(1) through construction of new energy efficient public buildings that use at least 30 percent less energy than a comparable public building constructed in compliance with standards prescribed in the most recent version of the International Energy Conservation Code, or a similar State code intended to achieve substantially equivalent efficiency levels; or

(2) through renovation of existing public buildings to achieve reductions in energy use of at least 30 percent as compared to the baseline energy use in such buildings prior to renovation, assuming a 3-year, weather-normalized average for calculating such baseline.

(b) Administration

State energy offices receiving grants under this section shall—

(1) maintain such records and evidence of compliance as the Secretary may require; and

(2) develop and distribute information and materials and conduct programs to provide technical services and assistance to encourage planning, financing, and design of energy efficient public buildings by units of local government.

(c) Authorization of appropriations

For the purposes of this section, there are authorized to be appropriated to the Secretary $30,000,000 for each of fiscal years 2006 through 2010. Not more than 10 percent of appropriated funds shall be used for administration.

§ 15823. Low income community energy efficiency pilot program

(a) Grants
The Secretary is authorized to make grants to units of local government, private, non-profit community development organizations, and Indian tribe economic development entities to improve energy efficiency; identify and develop alternative, renewable, and distributed energy supplies; and increase energy conservation in low income rural and urban communities.

(b) Purpose of grants
The Secretary may make grants on a competitive basis for—

(1) investments that develop alternative, renewable, and distributed energy supplies;
(2) energy efficiency projects and energy conservation programs;
(3) studies and other activities that improve energy efficiency in low income rural and urban communities;
(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and
(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) Definition
For purposes of this section, the term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) Authorization of appropriations
For the purposes of this section there are authorized to be appropriated $20,000,000 for each of fiscal years 2006 through 2010.

§ 15831. Public energy education program

(a) In general
Not later than 180 days after August 8, 2005, the Secretary shall convene an organizational conference for the purpose of establishing an ongoing, self-sustaining national public energy education program.

(b) Participants
The Secretary shall invite to participate in the conference individuals and entities representing all aspects of energy production and distribution, including—

(1) industrial firms;
(2) professional societies;
(3) educational organizations;
(4) trade associations; and
(5) governmental agencies.

(c) Purpose, scope, and structure

(1) Purpose
The purpose of the conference shall be to establish an ongoing, self-sustaining national public energy education program to examine and recognize interrelationships between energy sources in all forms, including—

(A) conservation and energy efficiency;
(B) the role of energy use in the economy; and
(C) the impact of energy use on the environment.

(2) Scope and structure
Taking into consideration the purpose described in paragraph (1), the participants in the conference invited under subsection (b) shall design the scope and structure of the program described in subsection (a).
§ 15832. Energy efficiency public information initiative

(a) In general

The Secretary shall carry out a comprehensive national program, including advertising and media awareness, to inform consumers about—

(1) the need to reduce energy consumption during the 4-year period beginning on August 8, 2005;

(2) the benefits to consumers of reducing consumption of electricity, natural gas, and petroleum, particularly during peak use periods;

(3) the importance of low energy costs to economic growth and preserving manufacturing jobs in the United States; and

(4) practical, cost-effective measures that consumers can take to reduce consumption of electricity, natural gas, and gasoline, including—

(A) maintaining and repairing heating and cooling ducts and equipment;

(B) weatherizing homes and buildings;

(C) purchasing energy efficient products; and

(D) proper tire maintenance.

(b) Cooperation

The program carried out under subsection (a) shall—

(1) include collaborative efforts with State and local government officials and the private sector; and

(2) incorporate, to the maximum extent practicable, successful State and local public education programs.

(c) Report

Not later than July 1, 2009, the Secretary shall submit to Congress a report describing the effectiveness of the program under this section.

(d) Termination of authority

The program carried out under this section shall terminate on December 31, 2010.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section $90,000,000 for each of fiscal years 2006 through 2010.

§ 15833. Energy efficiency pilot program

(a) In general

The Secretary shall establish a pilot program under which the Secretary provides financial assistance to at least 3, but not more than 7, States to carry out pilot projects in the States for—

(1) planning and adopting statewide programs that encourage, for each year in which the pilot project is carried out—

(A) energy efficiency; and

(B) reduction of consumption of electricity or natural gas in the State by at least 0.75 percent, as compared to a baseline determined by the Secretary for the period preceding the implementation of the program; or

(2) for any State that has adopted a statewide program as of August 8, 2005, activities that reduce energy consumption in the State by expanding and improving the program.

(b) Verification

A State that receives financial assistance under subsection (a)(1) shall submit to the Secretary independent verification of any energy savings achieved through the statewide program.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2006 through 2010, to remain available until expended.

§ 15834. Report on failure to comply with deadlines for new or revised energy conservation standards

(a) Initial report

The Secretary shall submit a report to Congress regarding each new or revised energy conservation or water use standard which the Secretary has failed to issue in conformance with the deadlines established in the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.]. Such report shall state the reasons why the Secretary has failed to comply with the deadline for issuance of the new or revised standard and set forth the Secretary’s plan for expeditiously prescribing such new or revised standard. The Secretary’s initial report shall be submitted not later than 6 months following August 8, 2005, and subsequent reports shall be submitted whenever the Secretary determines that additional deadlines for issuance of new or revised standards have been missed.

(b) Implementation report

Every 6 months following the submission of a report under subsection (a) until the adoption of a new or revised standard described in such report, the Secretary shall submit to the Congress an implementation report describing the Secretary’s progress in implementing the Secretary’s plan or the issuance of the new or revised standard.

References in Text

PART D—PUBLIC HOUSING

§ 15841. Energy-efficient appliances

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 8259b of this title, unless the purchase of energy-efficient appliances is not cost-effective to the agency.

§ 15842. Energy strategy for HUD

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after August 8, 2005, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall submit an update every 2 years thereafter on progress in implementing the strategy.

SUBCHAPTER II—RENEWABLE ENERGY

PART A—GENERAL PROVISIONS

§ 15851. Assessment of renewable energy resources

(a) Resource assessment

Not later than 6 months after August 8, 2005, and each year thereafter, the Secretary shall review the available assessments of renewable energy resources within the United States, including solar, wind, biomass, marine, geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies, and other relevant factors.

(b) Contents of reports

Not later than 1 year after August 8, 2005, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

(1) a detailed inventory describing the available amount and characteristics of the renewable energy resources; and

(2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) Authorization of appropriations

For the purposes of this section, there are authorized to be appropriated to the Secretary $10,000,000 for each of fiscal years 2006 through 2010.

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260 substituted “marine” for “ocean (including tidal, wave, current, and thermal)

§ 15852. Federal purchase requirement

(a) Requirement

The President, acting through the Secretary, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

(1) Not less than 3 percent in fiscal years 2007 through 2009.

(2) Not less than 5 percent in fiscal years 2010 through 2012.

(3) Not less than 7.5 percent in fiscal year 2013 and each fiscal year thereafter.

(b) Definitions

In this section:

(1) Biomass

The term “biomass” means any lignin waste material that is segregated from other waste materials and is determined to be nonhazardous by the Administrator of the Environmental Protection Agency and any solid, nonhazardous, cellulose material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) Renewable energy

The term “renewable energy” means marine energy (as defined in section 17211 of this title), or electric energy produced from solar, wind, biomass, landfill gas, geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased effi-
§ 15853. Rebate program

(1) Establishment

The Secretary shall establish a program providing rebates for consumers for expenditures made for the installation of a renewable energy system in connection with a dwelling unit or small business.

(2) Amount of rebate

 Rebates provided under the program established under paragraph (1) shall be in an amount not to exceed the lesser of—

(A) 25 percent of the expenditures described in paragraph (1) made by the consumer; or

(B) $3,000.

(3) Definition

For purposes of this section, the term “renewable energy system” has the meaning given that term in section 6865(c)(6)(A) of this title.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, to remain available until expended—

(A) $150,000,000 for fiscal year 2006;

(B) $150,000,000 for fiscal year 2007;

(C) $200,000,000 for fiscal year 2008;

(D) $250,000,000 for fiscal year 2009; and

(E) $250,000,000 for fiscal year 2010.

§ 15854. Sugar Cane Ethanol Program

(a) Definition of program

In this section, the term “program” means the Sugar Cane Ethanol Program established by subsection (b).

(b) Establishment

There is established within the Environmental Protection Agency a program to be known as the “Sugar Cane Ethanol Program”.

(c) Project

(1) In general

Subject to the availability of appropriations under subsection (d), in carrying out the program, the Administrator of the Environmental Protection Agency shall establish a project that is—

(A) carried out in multiple States—

(i) in each of which is produced cane sugar that is eligible for loans under section 7272 of title 7, or a similar subsequent authority; and

(ii) at the option of each such State, that have an incentive program that requires the use of ethanol in the State; and

(B) designed to study the production of ethanol from cane sugar, sugarcane, and sugarcane byproducts.

(2) Requirements

A project described in paragraph (1) shall—

(A) be limited to sugar producers and the production of ethanol in the States of Florida, Louisiana, Texas, and Hawaii, divided equally among the States, to demonstrate that the process may be applicable to cane sugar, sugarcane, and sugarcane byproducts;
§ 15855. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes

(a) Definitions
In this section:

(1) Biomass
The term “biomass” means nonmerchantable materials or precommercial thinnings that are byproducts of preventive treatments, such as trees, wood, brush, thinnings, chips, and slash, that are removed—
(A) to reduce hazardous fuels;
(B) to reduce or contain disease or insect infestation; or
(C) to restore forest health.

(2) Indian tribe
The term “Indian tribe” has the meaning given in section 5304(e) of title 25.

(3) Nonmerchantable
For purposes of subsection (b), the term “nonmerchantable” means that portion of the byproducts of preventive treatments that would not otherwise be used for higher value products.

(4) Person
The term “person” includes—
(A) an individual;
(B) a community (as determined by the Secretary concerned);
(C) an Indian tribe;
(D) a small business or a corporation that is incorporated in the United States; and
(E) a nonprofit organization.

(5) Preferred community
The term “preferred community” means—
(A) any Indian tribe;
(B) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—
(i) has a population of not more than 50,000 individuals; and
(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near Federal or Indian land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or
(C) any county that—
(i) is not contained within a metropolitan statistical area; and
(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near Federal or Indian land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(d) Authorization of appropriations
There is authorized to be appropriated to carry out this section $36,000,000, to remain available until expended.

§ 15855. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes

(b) Biomass commercial use grant program

(1) In general
The Secretary concerned may make grants to any person in a preferred community that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, or transportation fuels to offset the costs incurred to purchase biomass for use by such facility.

(2) Grant amounts
A grant under this subsection may not exceed $20 per green ton of biomass delivered.

(3) Monitoring of grant recipient activities
As a condition of a grant under this subsection, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that purchases or uses biomass and an opportunity to examine the inventory and records of the facility.

(c) Improved biomass use grant program

(1) In general
The Secretary concerned may make grants to persons to offset the cost of projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) Selection
The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to—
(A) the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy;
(B) the potential for the creation or expansion of small businesses and micro-businesses;
(C) the potential for new job creation;
(D) the potential for the project to improve efficiency or develop cleaner technologies for biomass utilization; and
(E) the potential for the project to reduce the hazardous fuels from the areas in greatest need of treatment.

(3) Grant amount
A grant under this subsection may not exceed $500,000.
(d) Authorization of appropriations

There are authorized to be appropriated $50,000,000 for fiscal year 2006 and $35,000,000 for each of fiscal years 2007 through 2016 to carry out this section.

(e) Report

Not later than October 1, 2010, the Secretary of Agriculture, in consultation with the Secretary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, in consultation with the Secretary of the Senate, and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives, a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

AMENDMENTS

2006—Subsec. (d). Pub. L. 109–375 substituted ‘‘$50,000,000 for fiscal year 2006 and $35,000,000 for each of fiscal years 2007 through 2016’’ for ‘‘$50,000,000 for each of the fiscal years 2006 through 2016’’.

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

PART B—GEOTHERMAL ENERGY

§ 15871. Coordination of geothermal leasing and permitting on Federal lands

(a) In general

Not later than 180 days after August 8, 2005, the Secretary of the Interior and the Secretary of Agriculture shall enter into and submit to Congress a memorandum of understanding in accordance with this section, the Geothermal Steam Act of 1970 (as amended by this Act) [30 U.S.C. 1001 et seq.], and other applicable laws, regarding coordination of leasing and permitting for geothermal development of public lands and National Forest System lands under their respective jurisdictions.

(b) Lease and permit applications

The memorandum of understanding shall—

(1) establish an administrative procedure for processing geothermal lease applications, including lines of authority, steps in application processing, and time limits for application processing;

(2) establish a 5-year program for geothermal leasing of lands in the National Forest System, and a process for updating that program every 5 years; and

(3) establish a program for reducing the backlog of geothermal lease application pending on January 1, 2005, by 90 percent within the 5-year period beginning on August 8, 2005, including, as necessary, by issuing leases, rejecting lease applications for failure to comply with the provisions of the regulations under which they were filed, or determining that an original applicant (or the applicant’s assigns, heirs, or estate) is no longer interested in pursuing the lease application.

(c) Data retrieval system

The memorandum of understanding shall establish a joint data retrieval system that is capable of tracking lease and permit applications and providing to the applicant information as to their status within the Departments of the Interior and Agriculture, including an estimate of the time required for administrative action.

REFERENCES IN TEXT

This Act, referred to in subsec. (a), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§ 15872. Assessment of geothermal energy potential

Not later than 3 years after August 8, 2005, and thereafter as the availability of data and developments in technology warrants, the Secretary of the Interior, acting through the Director of the United States Geological Survey and in cooperation with the States, shall—

(1) update the Assessment of Geothermal Resources made during 1978; and

(2) submit to Congress the updated assessment.

§ 15873. Deposit and use of geothermal lease revenues for 5 fiscal years

(a) Deposit of geothermal resources leases

Notwithstanding any other provision of law, amounts received by the United States in the first 5 fiscal years beginning after August 8, 2005, as rentals, royalties, and other payments required under leases under the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.], excluding funds required to be paid to State and county governments, shall be deposited into a separate account in the Treasury.

(b) Use of deposits

Amounts deposited under subsection (a) shall be available to the Secretary of the Interior for expenditure, without further appropriation and

(c) Transfer of funds

For the purposes of coordination and processing of geothermal leases and geothermal use authorizations on Federal land the Secretary of the Interior may authorize the expenditure or transfer of such funds as are necessary to the Forest Service.

For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§ 15874. Intermountain West Geothermal Consortium

(a) Participation authorized

The Secretary, acting through the Idaho National Laboratory, may participate in a consortium described in subsection (b) to address science and science policy issues surrounding the expanded discovery and use of geothermal energy, including from geothermal resources on public lands.

(b) Members

The consortium referred to in subsection (a) shall—

(1) be known as the “Intermountain West Geothermal Consortium”;

(2) be a regional consortium of institutions and government agencies that focuses on building collaborative efforts among the universities in the State of Idaho, other regional universities, State agencies, and the Idaho National Laboratory;

(3) include Boise State University, the University of Idaho (including the Idaho Water Resources Research Institute), the Oregon Institute of Technology, the Desert Research Institute, the University and Community College System of Nevada, and the Energy and Geoscience Institute at the University of Utah;

(4) be hosted and managed by Boise State University; and

(5) have a director appointed by Boise State University, and associate directors appointed by each participating institution.

(c) Financial assistance

The Secretary, acting through the Idaho National Laboratory and subject to the availability of appropriations, will provide financial assistance to Boise State University for expenditure under contracts with members of the consortium to carry out the activities of the consortium.

PART C—HYDROELECTRIC

§ 15881. Hydroelectric production incentives

(a) Incentive payments

For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) Definitions

For purposes of this section:

(1) Qualified hydroelectric facility

The term “qualified hydroelectric facility” means a turbine or other generating device owned or solely operated by a non-Federal entity—

(A) that generates hydroelectric energy for sale; and

(B)(i) that is added to an existing dam or conduit; or

(ii)(I) that has a generating capacity of not more than 20 megawatts;

(II) for which the non-Federal entity has received a construction authorization from the Federal Energy Regulatory Commission, if applicable; and

(III) that is constructed in an area in which there is inadequate electric service, as determined by the Secretary, including by taking into consideration—

(aa) access to the electric grid;

(bb) the frequency of electric outages; or

(cc) the affordability of electricity.

(2) Existing dam or conduit

The term “existing dam or conduit” means any dam or conduit the construction of which was completed before August 8, 2005, and which does not require any construction or enlargement of impoundment or diversion structures (other than repair or reconstruction) in connection with the installation of a turbine or other generating device.

(3) Conduit

The term “conduit” has the same meaning as when used in section 823a(a)(2) of title 16.

The terms defined in this subsection shall apply without regard to the hydroelectric kilowatt capacity of the facility concerned, without regard to whether the facility uses a dam owned by a governmental or nongovernmental entity, and without regard to whether the facility begins operation on or after August 8, 2005.
(c) Eligibility window

Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 22 fiscal years beginning with the first full fiscal year occurring after August 8, 2005.

(d) Incentive period

A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the "incentive period"). Such period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.

(e) Amount of payment

(1) In general

Payments made by the Secretary under this section to the owner or operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except that no facility may receive more than $750,000 in 1 calendar year.

(2) Adjustments

The amount of the payment made to any person under this section as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 2005 in the same manner as provided in the provisions of section 45K(d)(2)(B) of title 26, except that in applying such provisions the calendar year 2005 shall be substituted for calendar year 1979.

(f) Sunset

No payment may be made under this section to any qualified hydroelectric facility after the expiration of the period of 32 fiscal years beginning with the first full fiscal year occurring after August 8, 2005, and no payment may be made under this section to any such facility after a payment has been made with respect to such facility for a period of 10 fiscal years.

(g) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $10,000,000 for each of fiscal years 2021 through 2026.

Subsec. (g). Pub. L. 116–260, §3005(a)(5), substituted “each of fiscal years 2021 through 2036” for “each of the fiscal years 2006 through 2015”.

§ 15882. Hydroelectric efficiency improvement

(a) Incentive payments

The Secretary shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) Limitations

Incentive payments under this section shall not exceed 10 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of $750,000 may be made with respect to improvements at a single facility.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out this section not more than $10,000,000 for each of fiscal years 2021 through 2026.

Subsec. (a). Pub. L. 116–260, §3005(a)(5), substituted “each of fiscal years 2021 through 2036” for “each of the fiscal years 2006 through 2015”.

§ 15891. Projects enhancing insular energy independence

(a) Project feasibility studies

(1) In general

On a request described in paragraph (2), the Secretary shall conduct a feasibility study of a project to implement a strategy or project identified in the plans submitted to Congress pursuant to section 1492 of title 48 as having the potential to—

(A) significantly reduce the dependence of an insular area on imported fossil fuels; or

(B) provide needed distributed generation to an insular area.

(2) Request

The Secretary shall conduct a feasibility study under paragraph (1) on—

(A) the request of an electric utility located in an insular area that commits to fund at least 10 percent of the cost of the study; and

(B) if the electric utility is located in the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau, written support for that request by the President or the Ambassador of the affected freely associated state.

(3) Consultation

The Secretary shall consult with regional utility organizations in—

Subsec. (a)(1). Pub. L. 116–260, §3005(a)(1), added par. (1) and struck out former par. (1). Prior to amendment, text read as follows: “The term ‘qualified hydroelectric facility’ means a turbine or other generating device owned or solely operated by a non-Federal entity which generates hydroelectric energy for sale and which is added to an existing dam or conduit.”

AMENDMENTS

2020—Subsec. (c). Pub. L. 116–260 substituted “each of fiscal years 2021 through 2036” for “each of the fiscal years 2006 through 2015”.

PART D—INSULAR ENERGY

Subsec. (d). Pub. L. 116–260, §3005(a)(5), substituted “each of fiscal years 2021 through 2036” for “each of the fiscal years 2006 through 2015”.

AMENDMENTS
(A) conducting feasibility studies under paragraph (1); and
(B) determining the feasibility of potential projects.

(4) Feasibility

For the purpose of a feasibility study under paragraph (1), a project shall be determined to be feasible if the project would significantly reduce the dependence of an insular area on imported fossil fuels, or provide needed distributed generation to an insular area, at a reasonable cost.

(b) Implementation

(1) In general

On a determination by the Secretary (in consultation with the Secretary of the Interior) that a project is feasible under subsection (a) and a commitment by an electric utility to operate and maintain the project, the Secretary may provide such technical and financial assistance as the Secretary determines is appropriate for the implementation of the project.

(2) Regional utility organizations

In providing assistance under paragraph (1), the Secretary shall consider providing the assistance through regional utility organizations.

(c) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary—
(A) $500,000 for each fiscal year for project feasibility studies under subsection (a); and
(B) $4,000,000 for each fiscal year for project implementation under subsection (b).

(2) Limitation of funds received by insular areas

No insular area may receive, during any 3-year period, more than 20 percent of the total funds made available during that 3-year period under subparagraphs (A) and (B) of paragraph (1) unless the Secretary determines that providing funding in excess of that percentage best advances existing opportunities to meet the objectives of this section.

SUBCHAPTER III—OIL AND GAS

PART A—PRODUCTION INCENTIVES

§ 15901. Definition of Secretary

In this part, the term “Secretary” means the Secretary of the Interior.

REFERENCES IN TEXT

This part, referred to in text, was in the original “this subtitle”, meaning subtitle E (§§341–357) of title III of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 697, which enacted this part, amended sections 6504, 6506a, 6507, and 6508 of this title, sections 184 and 226 of Title 30, Mineral Lands and Mining, and section 1337 of Title 43, Public Lands, and enacted provisions set out as a note under section 226 of Title 30. For complete classification of subtitle E to the Code, see Tables.

§ 15902. Program on oil and gas royalties in-kind

(a) Applicability of section

Notwithstanding any other provision of law, this section applies to all royalty in-kind accepted by the Secretary on or after August 8, 2005, under any Federal oil or gas lease or permit under—
(1) section 192 of title 30;
(2) section 1353 of title 43; or
(3) any other Federal law governing leasing of Federal land for oil and gas development.

(b) Terms and conditions

All royalty accruing to the United States shall, on the demand of the Secretary, be paid in-kind. If the Secretary makes such a demand, the following provisions apply to the payment:

(1) Satisfaction of royalty obligation

Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies royalty obligation of the lessee for the amount delivered, except that transportation and processing reimbursements paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) Marketable condition

(A) Definition of marketable condition

In this paragraph, the term “marketable condition” means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(B) Requirement

Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(3) Disposition by the Secretary

The Secretary may—
(A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 1353(a)(3) of title 43 for not less than the market price; and
(B) transport or process (or both) any royalty production taken in-kind.

(4) Retention by the Secretary

The Secretary may, notwithstanding section 3302 of title 31, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (referred to in this paragraph as “royalty production”) to pay the cost of—
(A) transporting the royalty production;
(B) processing the royalty production; or
(C) disposing of the royalty production; or

1 So in original. Probably should be followed by a closing parenthesis.
(D) any combination of transporting, processing, and disposing of the royalty production.

(5) Limitation
   (A) In general
      Except as provided in subparagraph (B), the Secretary may not use revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other administrative costs of the Federal Government.
   (B) Exception
      Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from royalty in-kind sales, without fiscal year limitation, to pay salaries and other administrative costs directly related to the royalty in-kind program.

(c) Reimbursement of cost
   If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—
      (1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or
      (2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) Benefit to the United States required
   The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) Deduction of expenses
   (1) In general
      Before making payments under section 191 of title 30 or section 1337(g) of title 43 of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall—
      (A) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or
      (B) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.
   (2) Accounting for deductions
      When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(f) Consultation with States
   The Secretary—
      (1) shall consult with a State before conducting a royalty in-kind program under this part within the State;
      (2) may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and
      (3) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to the revenues likely to have been received had royalties been taken in-value.

(g) Small refineries
   (1) Preference
      If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to those refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in those refineries at private sale at not less than the market price.

   (2) Proration among refineries in production area
      In disposing of oil under this subsection, the Secretary may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(h) Disposition to Federal agencies
   (1) Onshore royalty
      Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.
   (2) Offshore royalty
      Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 1353 of title 43.

(i) Federal low-income energy assistance programs
   (1) Preference
      In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, including any Federal or State agency, for the purpose of providing additional resources to any Federal low-income energy assistance program.
   (2) Report
      Not later than 3 years after August 8, 2005, the Secretary shall submit a report to Congress—
      (A) assessing the effectiveness of granting preferences specified in paragraph (1); and
      (B) providing a specific recommendation on the continuation of authority to grant preferences.

REFERENCES IN TEXT

This part, referred to in subsec. (f)(1), was in the original “this subtitle”, meaning subtitle E (§§341–357) of title III of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 697, which enacted this part, amended sections 6504, 6506a, 6507, and 6508 of this title, sections 184 and 226 of title 30, Mineral Lands and Mining, and section 1337 of title 42—THE PUBLIC HEALTH AND WELFARE.
§ 15903. Marginal property production incentives

(a) Definition of marginal property

Until such time as the Secretary issues regulations under subsection (e) that prescribe a different definition, in this section, the term “marginal property” means an onshore unit, communitization agreement, or lease not within a unit or communitization agreement, that produces on average the combined equivalent of less than 15 barrels of oil per well per day or 90,000,000 British thermal units of gas per well per day calculated based on the average over the 3 most recent production months, including only wells that produce on more than half of the days during those 3 production months.

(b) Conditions for reduction of royalty rate

Until such time as the Secretary issues regulations under subsection (e) that prescribe different standards or requirements, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) if the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than $15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) if the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds $2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days.

(c) Reduced royalty rate

(1) In general

When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) Period of effectiveness

The reduced royalty rate under this subsection shall be effective beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) Termination of reduced royalty rate

A royalty rate prescribed in subsection (c)(1) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds $15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds $2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.

(e) Regulations prescribing different relief

(1) Discretionary regulations

The Secretary may by regulation prescribe different parameters, standards, and requirements for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) Mandatory regulations

Unless a determination is made under paragraph (3), not later than 18 months after August 8, 2005, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) Report

To the extent the Secretary determines that it is not practicable to issue the regulations referred to in paragraph (2), the Secretary shall provide a report to Congress explaining such determination by not later than 18 months after August 8, 2005.

(4) Considerations

In issuing regulations under this subsection, the Secretary may consider—

(A) oil and gas prices and market trends;

(B) production costs;

(C) abandonment costs;

(D) Federal and State tax provisions and the effects of those provisions on production economics;

(E) other royalty relief programs;

(F) regional differences in average wellhead prices;

(G) national energy security issues; and

(H) other relevant matters, as determined by the Secretary.

(f) Savings provision

Nothing in this section prevents a lessee from receiving royalty relief or a royalty reduction
§ 15904. Royalty incentive regulations for ultra deep gas wells

(a) In general
Not later than 180 days after August 8, 2005, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty relief suspension volumes of not less than 35 billion cubic feet with respect to the production of natural gas from ultra deep wells on leases issued in shallow waters less than 400 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes west longitude.

(b) Royalty incentive regulations for deep gas wells
Not later than 180 days after August 8, 2005, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty relief suspension volumes with respect to production of natural gas from deep wells on leases issued in waters more than 200 meters but less than 400 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes west longitude. The suspension volumes for deep wells within 200 to 400 meters of water depth shall be calculated using the same methodology used to calculate the suspension volumes for deep wells in the shallower waters of the Gulf of Mexico, and in no case shall the suspension volumes for deep wells within 200 to 400 meters of water depth be lower than those for deep wells in shallower waters. Regulations issued under this subsection shall be retroactive to the date that the notice of proposed rulemaking is published in the Federal Register.

§ 15905. Royalty relief for deep water production

(a) In general
Subject to subsections (b) and (c), for each tract located in water depths of greater than 400 meters in the Western and Central Planning Area of the Gulf of Mexico (including the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude), any oil or gas lease sale under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) occurring during the 5-year period beginning on August 8, 2005, shall use the bidding system authorized under section 8(a)(1)(H) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(1)(H)).

(b) Suspension of royalties
The suspension of royalties under subsection (a) shall be established at a volume of not less than—

(1) 5,000,000 barrels of oil equivalent for each lease in water depths of 400 to 800 meters;

(2) 9,000,000 barrels of oil equivalent for each lease in water depths of 800 to 1,600 meters; and

(3) 12,000,000 barrels of oil equivalent for each lease in water depths of 1,600 to 2,000 meters; and

(4) 16,000,000 barrels of oil equivalent for each lease in water depths greater than 2,000 meters.
§ 15906. North Slope Science Initiative

(a) Establishment

(1) In general

The Secretary of the Interior shall establish a long-term initiative to be known as the “North Slope Science Initiative” (referred to in this section as the “Initiative”).

(2) Purpose

The purpose of the Initiative shall be to implement efforts to coordinate collection of scientific data that will provide a better understanding of the terrestrial, aquatic, and marine ecosystems of the North Slope of Alaska.

(b) Objectives

To ensure that the Initiative is conducted through a comprehensive science strategy and implementation plan, the Initiative shall, at a minimum—

1. identify and prioritize information needs for inventory, monitoring, and research activities to address the individual and cumulative effects of past, ongoing, and anticipated development activities and environmental change on the North Slope;

2. develop an understanding of information needs for regulatory and land management agencies, local governments, and the public;

3. focus on prioritization of pressing natural resource management and ecosystem information needs, coordination, and cooperation among agencies and organizations;

4. coordinate ongoing and future inventory, monitoring, and research activities to minimize duplication of effort, share financial resources and expertise, and assure the collection of quality information;

5. identify priority needs not addressed by agency science programs in effect on August 8, 2005, and develop a funding strategy to meet those needs;

6. provide a consistent approach to high caliber science, including inventory, monitoring, and research;

7. maintain and improve public and agency access to—
   (A) accumulated and ongoing research; and
   (B) contemporary and traditional local knowledge; and

8. ensure through appropriate peer review that the science conducted by participating agencies and organizations is of the highest technical quality.

(c) Membership

(1) In general

To ensure comprehensive collection of scientific data, in carrying out the Initiative, the Secretary shall consult and coordinate with Federal, State, and local agencies that have responsibilities for land and resource management across the North Slope.

(2) Cooperative agreements

The Secretary shall enter into cooperative agreements with the State of Alaska, the North Slope Borough, the Arctic Slope Regional Corporation, and other Federal agencies as appropriate to coordinate efforts, share resources, and fund projects under this section.

(d) Science technical advisory panel

(1) In general

The Initiative shall include a panel to provide advice on proposed inventory, monitoring, and research functions.

(2) Membership

The panel described in paragraph (1) shall consist of a representative group of not more than 15 scientists and technical experts from diverse professions and interests, including the oil and gas industry, subsistence users, Native Alaskan entities, conservation organizations, wildlife management organizations, and academia, as determined by the Secretary.

(e) Reports

Not later than 3 years after August 8, 2005, and each year thereafter, the Secretary shall publish a report that describes the studies and findings of the Initiative.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

§ 15907. Orphaned, abandoned, or idled wells on Federal land

(a) In general

The Secretary, in cooperation with the Secretary of Agriculture, shall establish a program not later than 1 year after August 8, 2005, to remediate, reclaim, and close orphaned, abandoned, or idled oil and gas wells located on land administered by the land management agencies within the Department of the Interior and the Department of Agriculture.

(b) Activities

The program under subsection (a) shall—

1. include a means of ranking orphaned, abandoned, or idled wells sites for priority in remediation, reclamation, and closure, based on public health and safety, potential environmental harm, and other land use priorities;

2. provide for identification and recovery of the costs of remediation, reclamation, and closure from persons or other entities currently providing a bond or other financial assurance required under State or Federal law for an oil or gas well that is orphaned, abandoned, or idled; and
(3) provide for recovery from the persons or entities identified under paragraph (2), or their sureties or guarantors, of the costs of remediation, reclamation, and closure of such wells.

(c) Cooperation and consultations

In carrying out the program under subsection (a), the Secretary shall—

(1) work cooperatively with the Secretary of Agriculture and the States within which Federal land is located; and

(2) consult with the Secretary of Energy and the Interstate Oil and Gas Compact Commission.

(d) Plan

Not later than 1 year after August 8, 2005, the Secretary, in cooperation with the Secretary of Agriculture, shall submit to Congress a plan for carrying out the program under subsection (a).

(e) Idled well

For the purposes of this section, a well is idled if—

(1) the well has been nonoperational for at least 7 years; and

(2) there is no anticipated beneficial use for the well.

(f) Federal reimbursement for orphaned well reclamation pilot program

(1) Reimbursement for remediating, reclaiming, and closing wells on land subject to a new lease

The Secretary shall carry out a pilot program under which, in issuing a new oil and gas lease on federally owned land on which 1 or more orphaned wells are located, the Secretary—

(A) may require, other than as a condition of the lease, that the lessee remEDIATE, reclaim, and close in accordance with standards established by the Secretary, all orphaned wells on the land leased; and

(B) shall develop a program to reimburse a lessee, through a royalty credit against the Federal share of royalties or other means, for the reasonable actual costs of remediating, reclaiming, and closing the orphaned wells pursuant to that requirement.

(2) Reimbursement for reclaiming orphaned wells on other land

In carrying out this subsection, the Secretary—

(A) may authorize any lessee under an oil and gas lease on federally owned land to reclaim in accordance with the Secretary’s standards—

(i) an orphaned well on unleased federally owned land; or

(ii) an orphaned well located on an existing lease on federally owned land for the reclamation of which the lessee is not legally responsible; and

(B) shall develop a program to provide reimbursement of 100 percent of the reasonable actual costs of remediating, reclaiming, and closing the orphaned well, through credits against the Federal share of royalties or other means.

(3) Regulations

The Secretary may issue such regulations as are appropriate to carry out this subsection.

(g) Technical assistance program for non-Federal land

(1) In general

The Secretary of Energy shall establish a program to provide technical and financial assistance to oil and gas producing States to facilitate State efforts over a 10-year period to ensure a practical and economical remedy for environmental problems caused by orphaned or abandoned oil and gas exploration or production well sites on State or private land.

(2) Assistance

The Secretary of Energy shall work with the States, through the Interstate Oil and Gas Compact Commission, to assist the States in quantifying and mitigating environmental risks of onshore orphaned or abandoned oil or gas wells on State and private land.

(3) Activities

The program under paragraph (1) shall include—

(A) mechanisms to facilitate identification, if feasible, of the persons currently providing a bond or other form of financial assurance required under State or Federal law for an oil or gas well that is orphaned or abandoned;

(B) criteria for ranking orphaned or abandoned well sites based on factors such as public health and safety, potential environmental harm, and other land use priorities;

(C) information and training programs on best practices for remediation of different types of sites; and

(D) funding of State mitigation efforts on a cost-shared basis.

(h) Authorization of appropriations

(1) In general

There are authorized to be appropriated to carry out this section $25,000,000 for each of fiscal years 2006 through 2010.

(2) Use

Of the amounts authorized under paragraph (1), $5,000,000 are authorized for each fiscal year for activities under subsection (f).

(i) Federally drilled wells

Out of any amounts in the Treasury not otherwise appropriated, $10,000,000 for fiscal year 2014, $36,000,000 for fiscal year 2015, and $4,000,000 for fiscal year 2019 shall be made available to the Secretary, without further appropriation and to remain available until expended, to remediate, reclaim, and close abandoned oil and gas wells on current or former National Petroleum Reserve land.

AMENDMENTS

§ 15908. Preservation of geological and geophysical data

(a) Short title

This section may be cited as the "National Geologica l and Geophysical Data Preservation Program Act of 2005".

(b) Program

The Secretary shall carry out a National Geological and Geophysical Data Preservation Program in accordance with this section—

(1) to archive geologic, geophysical, and engineering data, maps, well logs, and samples;

(2) to provide a national catalog of such archival material; and

(3) to provide technical and financial assistance related to the archival material.

(c) Plan

Not later than 1 year after August 8, 2005, the Secretary shall submit to Congress a plan for the implementation of the Program.

(d) Data archive system

(1) Establishment

The Secretary shall establish, as a component of the Program, a data archive system to provide for the storage, preservation, and archiving of subsurface, surface, geological, geophysical, and engineering data and samples. The Secretary, in consultation with the Advisory Committee, shall develop guidelines relating to the data archive system, including the types of data and samples to be preserved.

(2) System components

The system shall be comprised of State agencies that elect to be part of the system and agencies within the Department of the Interior that maintain geological and geophysical data and samples that are designated by the Secretary in accordance with this subsection. The Program shall provide for the storage of data and samples through data repositories operated by such agencies.

(3) Limitation of designation

The Secretary may not designate a State agency as a component of the data archive system unless that agency is the agency that acts as the geological survey in the State.

(4) Data from Federal land

The data archive system shall provide for the archiving of relevant subsurface data and samples obtained from Federal land—

(A) in the most appropriate repository designated under paragraph (2), with preference being given to archiving data in the State in which the data were collected; and

(B) consistent with all applicable law and requirements relating to confidentiality and proprietary data.

(e) National catalog

(1) In general

As soon as practicable after August 8, 2005, the Secretary shall develop and maintain, as a component of the Program, a national catalog that identifies—

(A) data and samples available in the data archive system established under subsection (d);

(B) the repository for particular material in the system; and

(C) the means of accessing the material.

(2) Availability

The Secretary shall make the national catalog accessible to the public on the site of the Survey on the Internet, consistent with all applicable requirements related to confidentiality and proprietary data.

(f) Advisory Committee

(1) In general

The Advisory Committee shall advise the Secretary on planning and implementation of the Program.

(2) New duties

In addition to its duties under the National Geologic Mapping Act of 1992 (43 U.S.C. 31a et seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (c).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation’s energy and mineral resources, geologic hazards, and engineering geology.

(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3) of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) Financial assistance

(1) Archive facilities

Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) Studies

Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) Federal share

The Federal share of the cost of an activity carried out with assistance under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) Private contributions

The Secretary shall apply to the non-Federal share of the cost of an activity carried out

1See References in Text note below.
with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) Report
The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—
1. a description of the status of the Program;
2. an evaluation of the progress achieved in developing the Program during the period covered by the report; and
3. any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) Maintenance of State effort
It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) Definitions
In this section:
1. Advisory Committee
The term “Advisory Committee” means the advisory committee established under section 5 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d).

2. Program
The term “Program” means the National Geological and Geophysical Data Preservation Program carried out under this section.

3. Secretary
The term “Secretary” means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

4. Survey
The term “Survey” means the United States Geological Survey.

(k) Authorization of appropriations
There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2021 through 2029, to remain available until expended.

(4) Survey
The term “Survey” means the United States Geological Survey.

(l) Suspension of royalties
(b) Suspension of royalties
(1) In general
1. The Secretary may grant royalty relief in accordance with this section for natural gas produced from gas hydrate resources under an eligible lease.

2. Eligible leases
A lease shall be an eligible lease for purposes of this section if—
(A) it is issued under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.); or
(B) it is issued prior to January 1, 2016; and
(C) production under the lease of natural gas from gas hydrate resources commences prior to January 1, 2018.

(3) Amount of relief
The Secretary shall conduct a rulemaking and grant royalty relief under this section as a suspension volume if the Secretary determines that such royalty relief would encourage production of natural gas from gas hydrate resources from an eligible lease. The maximum suspension volume shall be 30 billion cubic feet of natural gas per lease. Such relief shall be in addition to any other royalty relief under any other provision applicable to the lease that does not specifically grant a gas hydrate production incentive. Such royalty suspension volume shall be applied to any eligible production occurring on or after the date of publication of the advanced notice of proposed rulemaking.

(4) Limitation
The Secretary may place limitations on royalty relief granted under this section based on market price.

(c) Application
This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

(d) Rulemakings
(1) Requirement
The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(2) Gas hydrate resources defined
Such regulations shall define the term “gas hydrate resources” to include both the natural gas content of gas hydrates within the hydrate stability zone and free natural gas trapped by and beneath the hydrate stability zone.

(e) Review
Not later than 365 days after August 8, 2005, the Secretary, in consultation with the Secretary of Energy, shall carry out a review of, and submit to Congress a report on, further opportunities to enhance production of natural gas from gas hydrate resources on the outer Continental Shelf and on Federal lands in Alaska.
through the provision of other production incentives or through technical or financial assistance.

§15910. Enhanced oil and natural gas production through carbon dioxide injection

(a) Production incentive

(1) Findings

Congress finds the following:

(A) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(B) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production.

(C) Capturing and productively using carbon dioxide would help reduce the carbon intensity of the economy.

(2) Purpose

The purpose of this section is—

(A) to promote the capturing, transportation, and injection of produced carbon dioxide, natural carbon dioxide, and other appropriate gases or other matter for sequestration into oil and gas fields; and

(B) to promote oil and natural gas production from the outer Continental Shelf and onshore Federal lands under lease by providing royalty incentives to use enhanced recovery techniques using injection of the substances referred to in subparagraph (A).

(b) Suspension of royalties

(1) In general

If the Secretary determines that reduction of the royalty under a Federal oil and gas lease that is an eligible lease is in the public interest and promotes the purposes of this section, the Secretary shall undertake a rulemaking to provide for such reduction for an eligible lease.

(2) Rulemakings

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(3) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is a lease for production of oil and gas from the outer Continental Shelf or Federal onshore lands;

(B) the injection of the substances referred to in subsection (a)(2)(A) will be used as an enhanced recovery technique on such lease; and

(C) the Secretary determines that the lease contains oil or gas that would not likely be produced without the royalty reduction provided under this section.

(4) Amount of relief

The rulemaking shall provide for a suspension volume, which shall not exceed 5,000,000 barrels of oil equivalent for each eligible lease. Such suspension volume shall be applied to any production from an eligible lease occurring on or after the date of publication of any advanced notice of proposed rulemaking under this subsection.

(5) Limitation

The Secretary may place limitations on the royalty reduction granted under this section based on market price.

(6) Application

This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

(c) Demonstration program

(1) Establishment

(A) In general

The Secretary of Energy shall establish a competitive grant program to provide grants to producers of oil and gas to carry out projects to inject carbon dioxide for the purpose of enhancing recovery of oil or natural gas while increasing the sequestration of carbon dioxide.

(B) Projects

The demonstration program shall provide for—

(i) not more than 10 projects in the Willistin Basin in North Dakota and Montana; and

(ii) 1 project in the Cook Inlet Basin in Alaska.

(2) Requirements

(A) In general

The Secretary of Energy shall issue requirements relating to applications for grants under paragraph (1).

(B) Rulemaking

The issuance of requirements under subparagraph (A) shall not require a rulemaking.

(C) Minimum requirements

At a minimum, the Secretary shall require under subparagraph (A) that an application for a grant include—

(i) a description of the project proposed in the application;

(ii) an estimate of the production increase and the duration of the production increase from the project, as compared to conventional recovery techniques, including water flooding;

(iii) an estimate of the carbon dioxide sequestered by project, over the life of the project; and

(iv) a plan to collect and disseminate data relating to each project to be funded by the grant;
(v) a description of the means by which the project will be sustainable without Federal assistance after the completion of the term of the grant;

(vi) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(vii) a description of which costs of the project will be supported by Federal assistance under this section; and

(viii) a description of any secondary or tertiary recovery efforts in the field and the efficacy of water flood recovery techniques used.

(3) Partners
An applicant for a grant under paragraph (1) may carry out a project under a pilot program in partnership with 1 or more other public or private entities.

(4) Selection criteria
In evaluating applications under this subsection, the Secretary of Energy shall—
(A) consider the previous experience with similar projects of each applicant; and
(B) give priority consideration to applications that—
(i) are most likely to maximize production of oil and gas in a cost-effective manner;
(ii) sequester significant quantities of carbon dioxide from anthropogenic sources;
(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this section is completed; and
(iv) minimize any adverse environmental effects from the project.

(5) Demonstration program requirements

(A) Maximum amount
The Secretary of Energy shall not provide more than $3,000,000 in Federal assistance under this subsection to any applicant.

(B) Cost sharing
The Secretary of Energy shall require cost-sharing under this subsection in accordance with section 1824 of Title 2, The Congress.

(C) Period of grants

(i) In general
A project funded by a grant under this subsection shall begin construction not later than 2 years after the date of provision of the grant, but in any case not later than December 31, 2010.

(ii) Term
The Secretary shall not provide grant funds to any applicant under this subsection for a period of more than 5 years.

(6) Transfer of information and knowledge
The Secretary of Energy shall establish mechanisms to ensure that the information and knowledge gained by participants in the program under this subsection are transferred among other participants and interested persons, including other applicants that submitted applications for a grant under this subsection.

(7) Schedule

(A) Publication
Not later than 180 days after August 8, 2005, the Secretary of Energy shall publish in the Federal Register, and elsewhere, as appropriate, a request for applications to carry out projects under this subsection.

(B) Date for applications
An application for a grant under this subsection shall be submitted not later than 180 days after the date of publication of the request under subparagraph (A).

(C) Selection
After the date by which applications for grants are required to be submitted under subparagraph (B), the Secretary of Energy, in a timely manner, shall select, after peer review and based on the criteria under paragraph (4), those projects to be awarded a grant under this subsection.

(d) Records and inventory
The Secretary of the Interior, acting through the Bureau of Land Management, shall maintain records on, and an inventory of, the quantity of carbon dioxide stored within Federal mineral leaseholds.

(e) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section.

(a) In general
The Secretary shall conduct an inventory and analysis of oil and natural gas resources beneath all of the waters of the United States Outer Continental Shelf (‘‘OCS’’). The inventory and analysis shall—

(1) use available data on oil and gas resources in areas offshore of Mexico and Canada that will provide information on trends of oil and gas accumulation in areas of the OCS;

(2) use any available technology, except drilling, but including 3-D seismic technology to obtain accurate resource estimates;

(3) analyze how resource estimates in OCS areas have changed over time in regards to gathering geological and geophysical data, initial exploration, or full field development, including areas such as the deepwater and subsalt areas in the Gulf of Mexico;

(4) estimate the effect that understated oil and gas resource inventories have on domestic energy investments; and

(5) identify and explain how legislative, regulatory, and administrative programs or processes restrict or impede the development of identified resources and the extent that they affect domestic supply, such as moratoria, lease terms and conditions, operational stipulations and requirements, approval delays by the Federal Government and coastal States, and local zoning restrictions for onshore processing facilities and pipeline landings.

(b) Reports
The Secretary shall submit a report to Congress on the inventory of estimates and the analysis of restrictions or impediments, together with any recommendations, within 6 months of August 8, 2005. The report shall be publicly available and updated at least every 5 years.

PART B—ACCESS TO FEDERAL LANDS

§ 15921. Management of Federal oil and gas leasing programs

(a) Timely action on leases and permits

(1) Secretary of the Interior
To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (referred to in this section as the ‘‘Secretary’’) shall—

(A) ensure expeditious compliance with section 4332(2)(C) of this title and any other applicable environmental and cultural resources laws;

(B) improve consultation and coordination with the States and the public; and

(C) improve the collection, storage, and retrieval of information relating to the oil and gas leasing activities.

(2) Secretary of Agriculture
To ensure timely action on oil and gas lease applications for permits to drill on land otherwise available for leasing, the Secretary of Agriculture shall—

(A) ensure expeditious compliance with all applicable environmental and cultural resources laws; and

§ 15912. Comprehensive inventory of OCS oil and natural gas resources

(a) In general
The Secretary shall conduct an inventory and analysis of oil and natural gas resources beneath all of the waters of the United States Outer Continental Shelf (‘‘OCS’’). The inventory and analysis shall—

(1) use available data on oil and gas resources in areas offshore of Mexico and Canada that will provide information on trends of oil and gas accumulation in areas of the OCS;

(2) use any available technology, except drilling, but including 3-D seismic technology to obtain accurate resource estimates;

(3) analyze how resource estimates in OCS areas have changed over time in regards to gathering geological and geophysical data, initial exploration, or full field development, including areas such as the deepwater and subsalt areas in the Gulf of Mexico;

(4) estimate the effect that understated oil and gas resource inventories have on domestic energy investments; and

(5) identify and explain how legislative, regulatory, and administrative programs or processes restrict or impede the development of identified resources and the extent that they affect domestic supply, such as moratoria, lease terms and conditions, operational stipulations and requirements, approval delays by the Federal Government and coastal States, and local zoning restrictions for onshore processing facilities and pipeline landings.

(b) Reports
The Secretary shall submit a report to Congress on the inventory of estimates and the analysis of restrictions or impediments, together with any recommendations, within 6 months of August 8, 2005. The report shall be publicly available and updated at least every 5 years.

PART B—ACCESS TO FEDERAL LANDS

§ 15921. Management of Federal oil and gas leasing programs

(a) Timely action on leases and permits

(1) Secretary of the Interior
To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (referred to in this section as the ‘‘Secretary’’) shall—

(A) ensure expeditious compliance with section 4332(2)(C) of this title and any other applicable environmental and cultural resources laws;

(B) improve consultation and coordination with the States and the public; and

(C) improve the collection, storage, and retrieval of information relating to the oil and gas leasing activities.

(2) Secretary of Agriculture
To ensure timely action on oil and gas lease applications for permits to drill on land otherwise available for leasing, the Secretary of Agriculture shall—

(A) ensure expeditious compliance with all applicable environmental and cultural resources laws; and

References in Text
(b) Best management practices

(1) In general

Not later than 18 months after August 8, 2005, the Secretary shall develop and implement best management practices to—

(A) improve the administration of the onshore oil and gas leasing program under the Mineral Leasing Act (30 U.S.C. 181 et seq.); and

(B) ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing.

(2) Considerations

In developing the best management practices under paragraph (1), the Secretary shall consider any recommendations from the review under section 361.1

(3) Regulations

Not later than 180 days after the development of the best management practices under paragraph (1), the Secretary shall publish, for public comment, proposed regulations that set forth specific timeframes for processing leases and applications in accordance with the best management practices, including deadlines for—

(A) approving or disapproving—

(i) resource management plans and related documents;

(ii) lease applications;

(iii) applications for permits to drill; and

(iv) surface use plans; and

(B) related administrative appeals.

c) Improved enforcement

The Secretary and the Secretary of Agriculture shall improve inspection and enforcement of oil and gas activities, including enforcement of terms and conditions in permits to drill on land under the jurisdiction of the Secretary and the Secretary of Agriculture, respectively.

d) Authorization of appropriations

In addition to amounts made available to carry out activities relating to oil and gas leasing on public land administered by the Secretary and National Forest System land administered by the Secretary of Agriculture, there are authorized to be appropriated for each of fiscal years 2006 through 2010—

(1) to the Secretary, acting through the Director of the Bureau of Land Management—

(A) $40,000,000 to carry out subsections (a)(1) and (b); and

(B) $20,000,000 to carry out subsection (c);

(2) to the Secretary, acting through the Director of the United States Fish and Wildlife Service, $5,000,000 to carry out subsection (a)(1); and

(3) to the Secretary of Agriculture, acting through the Chief of the Forest Service, $5,000,000 to carry out subsections (a)(2) and (c).

1 See References in Text note below.

References in Text

The Mineral Leasing Act, referred to in subsec. (b)(1)(A), is act Feb. 25, 1920, ch. 85, 41 Stat. 437, as amended, which is classified generally to chapter 3A (§181 et seq.) of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 181 of Title 30 and Tables.

§ 15922. Consultation regarding oil and gas leasing on public land

(a) In general

Not later than 180 days after August 8, 2005, the Secretary of the Interior and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

(1) public land under the jurisdiction of the Secretary of the Interior; and

(2) National Forest System land under the jurisdiction of the Secretary of Agriculture.

(b) Contents

The memorandum of understanding shall include provisions that—

(1) establish administrative procedures and lines of authority that ensure timely processing of—

(A) oil and gas lease applications;

(B) surface use plans of operation, including steps for processing surface use plans; and

(C) applications for permits to drill consistent with applicable timelines;

(2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts;

(3) ensure that lease stipulations are—

(A) applied consistently;

(B) coordinated between agencies; and

(C) only as restrictive as necessary to protect the resource for which the stipulations are applied;

(4) establish a joint data retrieval system that is capable of—

(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and

(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture; and

(5) establish a joint geographic information system mapping system for use in—

(A) tracking surface resource values to aid in resource management; and

(B) processing surface use plans of operation and applications for permits to drill.

§ 15923. Methodology

The Secretary of the Interior shall use the same assessment methodology across all geo-
logical provinces, areas, and regions in preparing and issuing national geological assessments to ensure accurate comparisons of geological resources.

§ 15924. Project to improve Federal permit coordination

(a) Establishment

The Secretary of the Interior (referred to in this section as the “Secretary”) shall establish a Federal Permit Streamlining Project (referred to in this section as the “Project”).

(b) Memorandum of understanding

(1) In general

Not later than 90 days after August 8, 2005, the Secretary shall enter into a memorandum of understanding for purposes of this section with—

(A) the Secretary of Agriculture;

(B) the Administrator of the Environmental Protection Agency; and

(C) the Chief of Engineers.

(2) State participation

The Secretary may request that the Governors of the States in which Project offices are located be signatories to the memorandum of understanding.

(c) Designation of qualified staff

(1) In general

Not later than 30 days after the date of the signing of the memorandum of understanding under subsection (b), all Federal signatory parties shall, if appropriate, assign to each of the field offices identified in subsection (d) an employee who has expertise in the regulatory issues relating to the office in which the employee is employed, including, as applicable, particular expertise in—

(A) the consultations and the preparation of biological opinions under section 1536 of title 16;

(B) permits under section 1344 of title 33;

(C) regulatory matters under the Clean Air Act (42 U.S.C. 7401 et seq.); and

(D) planning under the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.); and

(E) the preparation of analyses under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) Duties

Each employee assigned under paragraph (1) shall—

(A) not later than 90 days after the date of assignment, report to the Bureau of Land Management Field Managers in the office to which the employee is assigned;

(B) be responsible for all issues relating to the jurisdiction of the home office or agency of the employee; and

(C) participate as part of the team of personnel working on proposed energy projects, planning, and environmental analyses.

(d) Project offices

The following Bureau of Land Management Offices shall serve as the Project offices:

(1) Rawlins Field Office, Wyoming.

(2) High Plains District Office, Wyoming.

(3) Montana/Dakotas State Office, Montana.

(4) Farmington Field Office, New Mexico.

(5) Carlsbad Field Office, New Mexico.

(7) Vernal Field Office, Utah.

(8) Any other State, district, or field office of the Bureau of Land Management determined by the Secretary.

(e) Report to Congress

Not later than February 1 of the first fiscal year beginning after the date of enactment of the National Defense Authorization Act for Fiscal Year 2015 and each February 1 thereafter, the Secretary shall report to the Chairman and ranking minority Member of the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, which shall include—

(1) the allocation of funds to each Project office for the previous fiscal year; and

(2) the accomplishments of each Project office relating to the coordination and processing of oil and gas use authorizations during that fiscal year.

(f) Additional personnel

The Secretary shall assign to each field office identified in subsection (d) any additional personnel that are necessary to ensure the effective implementation of—

(1) the Project; and

(2) other programs administered by the field offices, including inspection and enforcement relating to energy development on Federal land, in accordance with the multiple use mandate of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

(g) Omitted

(h) Transfer of funds

For the purposes of coordination and processing of oil and gas use authorizations on Federal land under the administration of the Project offices identified in subsection (d), the Secretary may authorize the expenditure or transfer of such funds as are necessary to—

(1) the United States Fish and Wildlife Service;

(2) the Bureau of Indian Affairs;

(3) the Forest Service;

(4) the Environmental Protection Agency;

(5) the Corps of Engineers; and

(6) the States in which Project offices are located.

(i) Savings provision

Nothing in this section affects—

(1) the operation of any Federal or State law; or

(2) any delegation of authority made by the head of a Federal agency whose employees are participating in the Project.

REFERENCES IN TEXT

is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

Codification

Section is comprised of section 365 of Pub. L. 109–58. Subsec. (g) of section 365 of Pub. L. 109–58 amended section 191 of Title 30, Mineral Lands and Mining.

Amendments

Subsec. (e). Pub. L. 113–291, §3021(a)(5), added subsec. (e) which required the Secretary to submit to Congress a report about the Pilot Project not later than 3 years after Aug. 8, 2005.

Subsec. (h)(6). Pub. L. 113–291, §3021(a)(6), added par. (6) and struck out former par. (6) which read as follows: “the States of Wyoming, Montana, Colorado, Utah, and New Mexico.”

Subsec. (i). Pub. L. 113–291, §3021(a)(7), (8), redesignated subsec. (j) as (i) and struck out former subsec. (i). Prior to amendment, text read as follows: “During the period in which the Project is authorized, the Secretary shall not implement a rulemaking that would enable an increase in fees to recover additional costs related to processing drilling-related permit applications and use authorizations.”

Pub. L. 113–291, §3021(a)(2), substituted “Project” for “Pilot Project”.

2013—Subsec. (d). Pub. L. 113–69 added subsec. (d) and struck out former subsec. (d). Prior to amendment, text read as follows: “The following Bureau of Land Management Field Offices shall serve as the Pilot Project offices:

(1) Rawlins, Wyoming.

(2) Buffalo, Wyoming.

(3) Miles City, Montana.

(4) Farmington, New Mexico.

(5) Carlsbad, New Mexico.

(7) Vernal, Utah.”

$\textbf{15925. Fair market value determinations for linear rights-of-way across public lands and national forests}$

(a) Update of fee schedule

Not later than 1 year after August 8, 2005—

(1) the Secretary of the Interior shall update section 2806.20 of title 43, Code of Federal Regulations, as in effect on August 8, 2005, to revise the per acre rental fee zone value schedule by State, county, and type of linear right-of-way use to reflect current values of land in each zone; and

(2) the Secretary of Agriculture shall make the same revision for linear rights-of-way granted, issued, or renewed under title V of the Federal Lands Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) on National Forest System land.

(b) Fair market value rental determination for linear rights-of-way

The fair market value rent of a linear right-of-way across public lands or National Forest System lands issued under section 504 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764) or section 185 of title 30 shall be determined in accordance with subpart 2806 of title 43, Code of Federal Regulations, as in effect on August 8, 2005 (including the annual or periodic updates specified in the regulations), and as updated in accordance with subsection (a).

$\textbf{15926. Energy right-of-way corridors on Federal land}$

(a) Western States

Not later than 2 years after August 8, 2005, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior (in this section referred to collectively as “the Secretaries”), in consultation with the Federal Energy Regulatory Commission, States, tribal or local units of governments as appropriate, affected utility industries, and other interested persons, shall consult with each other and shall—

(1) designate, under their respective authorities, corridors for oil, gas, and hydrogen pipelines and electricity transmission and dis-
tribution facilities on Federal land in the eleven contiguous Western States (as defined in section 1702(o) of title 43,\(^1\))

(2) perform any environmental reviews that may be required to complete the designation of such corridors;

(3) incorporate the designated corridors into the relevant agency land use and resource management plans or equivalent plans.

(b) Other States

Not later than 4 years after August 8, 2005, the Secretaries, in consultation with the Federal Energy Regulatory Commission, affected utility industries, and other interested persons, shall join—

(1) identify corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land in States other than those described in subsection (a); and

(2) schedule prompt action to identify, designate, and incorporate the corridors into the applicable land use plans.

(c) Ongoing responsibilities

The Secretaries, in consultation with the Federal Energy Regulatory Commission, affected utility industries, and other interested parties, shall establish procedures under their respective authorities that—

(1) ensure that additional corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land are promptly identified and designated as necessary; and

(2) expedite applications to construct or modify oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities within such corridors, taking into account prior analyses and environmental reviews undertaken during the designation of such corridors.

(d) Considerations

In carrying out this section, the Secretaries shall take into account the need for upgraded and new electricity transmission and distribution facilities to—

(1) improve reliability;

(2) relieve congestion; and

(3) enhance the capability of the national grid to deliver electricity.

(e) Specifications of corridor

A corridor designated under this section shall, at a minimum, specify the centerline, width, and compatible uses of the corridor.

TRANSFORMING OUR NATION’S ELECTRIC GRID THROUGH IMPROVED SITING, PERMITTING, AND REVIEW

Memorandum of President of the United States, June 7, 2013, 78 F.R. 35539, provided:

Memorandum for the Heads of Executive Departments and Agencies

Our Nation’s electric transmission grid is the backbone of our economy, a key factor in future economic growth, and a critical component of our energy security. Countries that harness the power of clean, renewable energy will be best positioned to thrive in the global economy while protecting the environment and increasing prosperity. In order to ensure the growth of America’s clean energy economy and improve energy security, we must modernize and expand our electric transmission grid. Modernizing our grid will improve energy reliability and resiliency, allowing us to minimize power outages and manage cyber-security threats. By diversifying power sources and reducing congestion, a modernized grid will also create cost savings for consumers and spur economic growth.

Modernizing our Nation’s electric transmission grid requires improvements in how transmission lines are sited, permitted, and reviewed. As part of our efforts to improve the performance of Federal siting, permitting, and review processes for infrastructure development, my Administration created a Rapid Response Team for Transmission (RRTT), a collaborative effort involving nine different executive departments and agencies (agencies), which is working to improve the efficiency and effectiveness of transmission siting, permitting, and review, increase interagency coordination and transparency, and increase the predictability of the siting, permitting, and review processes. In furtherance of Executive Order 13644 of March 22, 2012 (Improving Performance of Federal Permitting and Review of Infrastructure Projects), this memorandum builds upon the work of the RRTT to improve the Federal siting, permitting, and review processes for transmission projects. Because a single project may cross multiple governmental jurisdictions over hundreds of miles, robust collaboration among Federal, State, local, and tribal governments must be a critical component of this effort.

An important avenue to improve these processes is the designation of energy right-of-way corridors (energy corridors) on Federal lands. Section 368 of the Energy Policy Act of 2005 (the “Act”) (42 U.S.C. 15926), requires the Secretaries of Agriculture, Commerce, Defense, Energy, and the Interior (Secretaries) to undertake a continued effort to identify and designate such energy corridors. Energy corridors include areas on Federal lands that are most suitable for siting transmission projects because the chosen areas minimize regulatory conflicts and impacts on environmental and cultural resources, and also address concerns of local communities. Designated energy corridors provide an opportunity to co-locate projects and share environmental and cultural resource impact data to reduce overall impacts on environmental and cultural resources and reduce the need for land use plan amendments in support of the authorization of transmission rights-of-way. The designation of energy corridors can help expedite the siting, permitting, and review processes for projects within such corridors, as well as improve the predictability and transparency of these processes. Pursuant to the Act, in 2009, the Secretaries of the Interior and Agriculture each designated energy corridors for the 11 contiguous Western States, as defined in section 368 of the Act. Energy corridors have not yet been designated in States other than those identified as Western States. It is important that agencies build on their existing efforts in a coordinated manner.

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

(a) In carrying out the requirements of this memorandum regarding energy corridors, the Secretaries shall:

(i) collaborate with Member Agencies of the Steering Committee on Federal Infrastructure Permitting and Review Process Improvement (Steering Committee) established by Executive Order 13604, which shall provide prompt and adequate information to ensure that additional corridor designations and revisions are consistent with the statutory responsibilities and activities of the Member Agencies and enable timely actions by the Secretaries;

So in original. A closing parenthesis probably should follow “title 43.”
The Report shall be provided in two parts. The first part, which shall provide recommendations to the Steering Committee a Transmission Corridor Assessment (Report) that provides recommendations on how to best achieve the requirements set forth in subsection (a)(ii) of this section. Where research is available, the Report shall include an assessment of whether investment in co-locating with or upgrading existing transmission facilities, distributed generation, improved energy efficiency, or demand response may play a role in meeting these requirements. In preparing the Report, the Secretary of Energy shall consult with other Federal agencies, State, local, and tribal governments, affected industries, environmental and community representatives, transmission planning authorities, and other interested parties. The Report shall be provided in two parts. The first part, which shall provide recommendations with respect to the Western States, shall be provided by December 1, 2013, and the second part, which shall provide recommendations with respect to States other than the Western States, shall be provided by April 1, 2014.

(i) focus on facilitating renewable energy resources and improving grid resiliency and comply with the requirements in section 368 of the Act, by ensuring that energy corridors address the need for upgraded and new electric transmission and distribution facilities to improve reliability, relieve congestion, and enhance the capability of the national grid to deliver electricity;

(ii) design energy corridors to mitigate impacts on environmental and cultural resources to the extent practicable, including impacts that may occur outside the boundaries of Federal lands, and minimize impacts on the National’s aviation system and the mission of the Armed Forces; and

(iii) develop interagency mitigation plans, where appropriate, for environmental and cultural resources potentially impacted by projects sited in the energy corridors to provide project developers predictability on how to seek first to avoid, then attempt to minimize any negative effects from, and lastly to mitigate such impacts, where otherwise unavoidable. Mitigation plans shall:

(A) be developed at the landscape or watershedscale with interagency collaboration, be based on conservation and resource management plans and regional environmental and cultural resource analyses, and identify priority areas for compensatory mitigation where appropriate;

(B) be developed in consultation with other Federal agencies, State, local, and tribal governments, non-governmental organizations, and the public;

(C) include clear and measurable mitigation goals, apply adaptive management methods, and use performance measures to evaluate outcomes and ensure accountability and the long-term effectiveness of mitigation activities;

(D) include useful mechanisms, such as mitigation banks and in lieu fee programs, where appropriate for achieving statutory and regulatory goals; and

(E) be considered in the energy corridor designation process.

(b) The Secretary of Energy shall assess and synthesize current research related to the requirements set forth in subsection (a)(ii) of this section, such as transmission planning authority studies, congestion studies, and renewable energy assessments. Based on that analysis, the Secretary of Energy shall provide to the Steering Committee a Transmission Corridor Assessment Report (Report) that provides recommendations on how to best achieve the requirements set forth in subsection (a)(ii) of this section. Where research is available, the Report shall include an assessment of whether investment in co-locating with or upgrading existing transmission facilities, distributed generation, improved energy efficiency, or demand response may play a role in meeting these requirements. In preparing the Report, the Secretary of Energy shall consult with other Federal agencies, State, local, and tribal governments, affected industries, environmental and community representatives, transmission planning authorities, and other interested parties. The Report shall be provided in two parts. The first part, which shall provide recommendations with respect to the Western States, shall be provided by December 1, 2013, and the second part, which shall provide recommendations with respect to States other than the Western States, shall be provided by April 1, 2014.

§ 15926

TITLE 42—THE PUBLIC HEALTH AND WELFARE

Page 8236

SIC. 2. Energy Corridors for the Western States. (a) The Secretaries shall strongly encourage the use of designated energy corridors on Federal land in the Western States where the energy corridors are consistent with the requirements in this memorandum and other applicable requirements, unless it can be demonstrated that a project cannot be constructed within a designated corridor due to resource constraints on Federal lands. Additionally, the Secretaries, pursuant to section 368 of the Act, shall continue to evaluate designated energy corridors to determine the necessity for revisions, deletions, or additions to those energy corridors. Also, the Secretaries, coordinated by the Secretaries of the Interior and Agriculture, shall:

(i) by July 12, 2013, provide to the Steering Committee a plan for producing the Western corridor study and regional corridor assessments (as specified in subsection (a)(ii) and (a)(iii) of this section), which shall include descriptions of timelines and milestones, existing resources to be utilized, plans for collaborating with Member Agencies, and plans for consulting with other Federal agencies, State, local, and tribal governments, affected industries, environmental and community representatives, and other interested parties;

(ii) within 12 months of completion of the plan pursuant to subsection (a)(i) of this section, provide to the Steering Committee a Western corridor study, which shall assess the utility of the existing designated energy corridors;

(iii) provide to the Steering Committee regional corridor assessments, which shall examine the need for additions, deletions, and revisions to the existing energy corridors for the Western States by region. The regional corridor assessments shall evaluate energy corridors based on the requirements set forth in subsection (a) of section 1, the Report issued pursuant to subsection (b) of section 1, and the Western corridor study. The regional corridor assessments shall be developed promptly, depending on resource availability, with at least the first assessment completed within 12 months of completion of the plan pursuant to subsection (a)(i) of this section;

(iv) by November 12, 2014, provide to the Steering Committee and the Office of Management and Budget (OMB) an implementation plan for achieving the requirements set forth in subsections (a)(v) and (a)(vi) of this section based on the regional corridor assessments. The implementation plan shall include timelines and milestones that prioritize coordinated agency actions and a detailed budget;

(v) promptly after the completion of the regional corridor assessments and prioritized based on the available resources, undertake coordinated land planning and environmental and cultural resource review processes to consider additions, deletions, or revisions to the current Western energy corridors, consistent with the requirements set forth in subsection (a) of section 1, the Report required issued pursuant to subsection (b) of section 1, and the Western corridor study; and

(vi) as appropriate, after completing the required environmental and cultural resource analyses, promptly incorporate the designated Western corridor additions, deletions, or revisions and any mitigation plans developed pursuant to subsection (a)(vii) of section 1 into relevant agency land use and resource management plans or equivalent plans prioritized based on the availability of resources.

(b) The Member Agencies, where authorized, shall complete any required land use planning, internal policies, and interagency corridors address energy corridors are consistent with the designation of energy corridors implemented pursuant to subsection (a)(vi) of this section. The Secretaries and Member Agencies shall also develop and implement a process for expediting applications for projects whose projects are sited primarily within the designated energy corridors in the Western States, and who have committed to implement the necessary mitigation activities, including those with respect to Studies other than the Western States, shall be provided by April 1, 2014.
(a) Short title
This section may be cited as the “Oil Shale, Tar Sands, and Other Strategic Unconventional Fuels Act of 2005”.

(b) Declaration of policy
Congress declares that it is the policy of the United States that—

(1) United States oil shale, tar sands, and other unconventional fuels are strategically important domestic resources that should be developed to reduce the growing dependence of the United States on politically and economically unstable sources of foreign oil imports;

(2) the development of oil shale, tar sands, and other strategic unconventional fuels, for research and commercial development, should be conducted in an environmentally sound manner, using practices that minimize impacts; and

(3) development of those strategic unconventional fuels should occur, with an emphasis on sustainability, to benefit the United States while taking into account affected States and communities.

(c) Leasing program for research and development of oil shale and tar sands
In accordance with section 241 of title 30 and any other applicable law, except as provided in this section, not later than 180 days after August 8, 2005, from land otherwise available for leasing, the Secretary of the Interior (referred to in this section as the “Secretary”) shall make available for leasing such land as the Secretary considers to be necessary to conduct research and development activities with respect to technologies for the recovery of liquid fuels from oil shale and tar sands resources on public lands. Prospective public lands within each of the States of Colorado, Utah, and Wyoming shall be made available for such research and development leasing.

(d) Programmatic environmental impact statement and commercial leasing program for oil shale and tar sands
(1) Programmatic environmental impact statement
Not later than 18 months after August 8, 2005, in accordance with section 4332(2)(C) of this title, the Secretary shall complete a pro-
grammatic environmental impact statement for a commercial leasing program for oil shale and tar sands resources on public lands, with an emphasis on the most geologically prospective lands within each of the States of Colorado, Utah, and Wyoming.

(2) Final regulation

Not later than 6 months after the completion of the programmatic environmental impact statement under this subsection, the Secretary shall publish a final regulation establishing such program.

(e) Commencement of commercial leasing of oil shale and tar sands

Not later than 180 days after publication of the final regulation required by subsection (d), the Secretary shall consult with the Governors of States with significant oil shale and tar sands resources on public lands, representatives of local governments in such States, interested Indian tribes, and other interested persons, to determine the level of support and interest in the States in the development of tar sands and oil shale resources. If the Secretary finds sufficient support and interest exists in a State, the Secretary may conduct a lease sale in that State under the commercial leasing program regulations. Evidence of interest in a lease sale under this subsection shall include, but not be limited to, appropriate areas nominated for leasing by potential lessees and other interested parties.

(f) Diligent development requirements

The Secretary shall, by regulation, designate work requirements and milestones to ensure the diligent development of the lease.

(g) Initial report by the Secretary of the Interior

Within 90 days after August 8, 2005, the Secretary of the Interior shall report to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on—

(1) the interim actions necessary to—
   (A) develop the program, complete the programmatic environmental impact statement, and promulgate the final regulation as required by subsection (d); and
   (B) conduct the first lease sales under the program as required by subsection (e); and

(2) a schedule to complete such actions within the time limits mandated by this section.

(h) Task Force

(1) Establishment

The Secretary of Energy, in cooperation with the Secretary of the Interior and the Secretary of Defense, shall establish a task force to develop a program to coordinate and accelerate the commercial development of strategic unconventional fuels, including but not limited to oil shale and tar sands resources within the United States, in an integrated manner.

(2) Composition

The Task Force shall be composed of—

(A) the Secretary of Energy (or the designee of the Secretary);

(B) the Secretary of the Interior (or the designee of the Secretary of the Interior); (C) the Secretary of Defense (or the designee of the Secretary of Defense);

(D) the Governors of affected States; and

(E) representatives of local governments in affected areas.

(3) Recommendations

The Task Force shall make such recommendations regarding promoting the development of the strategic unconventional fuels resources within the United States as it may deem appropriate.

(4) Partnerships

The Task Force shall make recommendations with respect to initiating a partnership with the Province of Alberta, Canada, for purposes of sharing information relating to the development and production of oil from tar sands, and similar partnerships with other nations that contain significant oil shale resources.

(5) Reports

(A) Initial report

Not later than 180 days after August 8, 2005, the Task Force shall submit to the President and Congress a report that describes the analysis and recommendations of the Task Force.

(B) Subsequent reports

The Secretary shall provide an annual report describing the progress in developing the strategic unconventional fuels resources within the United States for each of the 5 years following submission of the report provided for in subparagraph (A).

(i) Office of Petroleum Reserves

(1) In general

The Office of Petroleum Reserves of the Department of Energy shall—

(A) coordinate the creation and implementation of a commercial strategic fuel development program for the United States;

(B) evaluate the strategic importance of unconventional sources of strategic fuels to the security of the United States;

(C) promote and coordinate Federal Government actions that facilitate the development of strategic fuels in order to effectively address the energy supply needs of the United States;

(D) identify, assess, and recommend appropriate actions of the Federal Government required to assist in the development and manufacturing of strategic fuels; and

(E) coordinate and facilitate appropriate relationships between private industry and the Federal Government to promote sufficient and timely private investment to commercialize strategic fuels for domestic and military use.

(2) Consultation and coordination

The Office of Petroleum Reserves shall work closely with the Task Force and coordinate its staff support.
(j) Omitted

(k) Interagency coordination and expeditious review of permitting process

(1) Department of the Interior as lead agency

Upon written request of a prospective applicant for Federal authorization to develop a proposed oil shale or tar sands project, the Department of the Interior shall act as the lead Federal agency for the purposes of coordinating all applicable Federal authorizations and environmental reviews. To the maximum extent practicable under applicable Federal law, the Secretary shall coordinate this Federal authorization and review process with any Indian tribes and State and local agencies responsible for conducting any separate permitting and environmental reviews.

(2) Implementing regulations

Not later than 6 months after August 8, 2005, the Secretary shall issue any regulations necessary to implement this subsection.

(l) Cost-shared demonstration technologies

(1) Identification

The Secretary of Energy shall identify technologies for the development of oil shale and tar sands that—

(A) are ready for demonstration at a commercially-representative scale; and

(B) have a high probability of leading to commercial production.

(2) Assistance

For each technology identified under paragraph (1), the Secretary of Energy may provide—

(A) technical assistance;

(B) assistance in meeting environmental and regulatory requirements; and

(C) cost-sharing assistance.

(m) National oil shale and tar sands assessment

(1) Assessment

(A) In general

The Secretary shall carry out a national assessment of oil shale and tar sands resources for the purposes of evaluating and mapping oil shale and tar sands deposits, in the geographic areas described in subparagraph (B). In conducting such an assessment, the Secretary shall make use of the extensive geological assessment work for oil shale and tar sands already conducted by the United States Geological Survey.

(B) Geographic areas

The geographic areas referred to in subparagraph (A), listed in the order in which the Secretary shall assign priority, are—

(i) the Green River Region of the States of Colorado, Utah, and Wyoming;

(ii) the Devonian oil shales and other hydrocarbon-bearing rocks having the nomenclature of “shale” located east of the Mississippi River; and

(iii) any remaining area in the central and western United States (including the State of Alaska) that contains oil shale and tar sands, as determined by the Secretary.

(2) Use of State surveys and universities

In carrying out the assessment under paragraph (1), the Secretary may request assistance from any State-administered geological survey or university.

(n) Land exchanges

(1) In general

To facilitate the recovery of oil shale and tar sands, especially in areas where Federal, State, and private lands are intermingled, the Secretary shall give priority to implementing land exchanges where appropriate and feasible to consolidate land ownership and mineral interests into manageable areas.

(2) Identification and priority of public lands

The Secretary shall identify public lands containing deposits of oil shale or tar sands within the Green River, Piceance Creek, Uintah, and Washakie geologic basins, and shall give priority to implementing land exchanges within those basins. The Secretary shall consider the geology of the respective basin in determining the optimum size of the lands to be consolidated.

(3) Compliance with section 1716 of title 43

A land exchange undertaken in furtherance of this subsection shall be implemented in accordance with section 1716 of title 43.

(o) Royalty rates for leases

The Secretary shall establish royalties, fees, rentals, bonus, or other payments for leases under this section that shall—

(1) encourage development of the oil shale and tar sands resource; and

(2) ensure a fair return to the United States.

(p) Heavy oil technical and economic assessment

The Secretary of Energy shall update the 1987 technical and economic assessment of domestic heavy oil resources that was prepared by the Interstate Oil and Gas Compact Commission. Such an update should include all of North America and cover all unconventional oil, including heavy oil, tar sands (oil sands), and oil shale.

(q) Omitted

(r) State water rights

Nothing in this section preempts or affects any State water law or interstate compact relating to water.

(s) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

CODIFICATION

Section is comprised of section 369 of Pub. L. 109–58. Subsecs. (j) and (q) of section 369 of Pub. L. 109–58 enacted section 209a of Title 10, Armed Forces, and amended the table of sections for chapter 141 of Title 10 and sections 226 and 241 of Title 30, Mineral Lands and Mining.

AMENDMENTS

2014—Subsec. (i)(3). Pub. L. 113–188 struck out par. (3). Text read as follows: “Not later than 180 days after Au-
§ 15928 Consultation regarding energy rights-of-way on public land

(a) Memorandum of understanding

(1) In general

Not later than 6 months after August 8, 2005, the Secretary of Energy, in consultation with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Defense with respect to lands under their respective jurisdictions, shall enter into a memorandum of understanding to coordinate all applicable Federal authorizations and environmental reviews relating to a proposed or existing utility facility. To the maximum extent practicable under applicable law, the Secretary of Energy shall, to ensure timely review and permit decisions, coordinate such authorizations and reviews with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the affected utility facility.

(2) Contents

The memorandum of understanding shall include provisions that—

(A) establish—

(i) a unified right-of-way application form; and

(ii) an administrative procedure for processing right-of-way applications, including lines of authority, steps in application processing, and timeframes for application processing;

(B) provide for coordination of planning relating to the granting of the rights-of-way;

(C) provide for an agreement among the affected Federal agencies to prepare a single environmental review document to be used as the basis for all Federal authorization decisions; and

(D) provide for coordination of use of right-of-way stipulations to achieve consistency.

(b) Natural gas pipelines

(1) In general

With respect to permitting activities for interstate natural gas pipelines, the May 2002 document entitled “Interagency Agreement On Early Coordination Of Required Environmental And Historic Preservation Reviews Conducted In Conjunction With The Issuance Of Authorizations To Construct And Operate Interstate Natural Gas Pipelines Certified By The Federal Energy Regulatory Commission” shall constitute compliance with subsection (a).

(2) Report

(A) In general

Not later than 1 year after August 8, 2005, and every 2 years thereafter, agencies that are signatories to the document referred to in paragraph (1) shall transmit to Congress a report on how the agencies under the jurisdiction of the Secretaries are incorporating and implementing the provisions of the document referred to in paragraph (1).

(B) Contents

The report shall address—

(1) efforts to implement the provisions of the document referred to in paragraph (1); and

(2) recommendations for inclusion of State and tribal governments in a coordinated permitting process.

(c) Definition of utility facility

In this section, the term “utility facility” means any privately, publicly, or cooperatively owned line, facility, or system—

(1) for the transportation of—

(A) oil, natural gas, synthetic liquid fuel, or gaseous fuel;

(B) any refined product produced from oil, natural gas, synthetic liquid fuel, or gaseous fuel; or

(C) products in support of the production of material referred to in subparagraph (A) or (B);

(2) for storage and terminal facilities in connection with the production of material referred to in paragraph (1); or

(3) for the generation, transmission, and distribution of electric energy.

§ 15941 Great Lakes oil and gas drilling ban

No Federal or State permit or lease shall be issued for new oil and gas slant, directional, or offshore drilling in or under one or more of the Great Lakes.

§ 15942 NEPA review

(a) NEPA review

Action by the Secretary of the Interior in managing the public lands, or the Secretary of Agriculture in managing National Forest System Lands, with respect to any of the activities described in subsection (b) shall be subject to a rebuttable presumption that the use of a categorical exclusion under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] (NEPA) would apply if the activity is conducted pursuant to the Mineral Leasing Act [30 U.S.C. 181 et seq.] for the purpose of exploration or development of oil or gas.

(b) Activities described

The activities referred to in subsection (a) are the following:
(1) Individual surface disturbances of less than 5 acres so long as the total surface disturbance on the lease is not greater than 150 acres and site-specific analysis in a document prepared pursuant to NEPA has been previously completed.

(2) Drilling an oil or gas well at a location or well pad site at which drilling has occurred previously within 5 years prior to the date of spudding the well.

(3) Drilling an oil or gas well within a developed field for which an approved land use plan or any environmental document prepared pursuant to NEPA analyzed such drilling as a reasonably foreseeable activity, so long as such plan or document was approved within 5 years prior to the date of spudding the well.

(4) Placement of a pipeline in an approved right-of-way corridor, so long as the corridor was approved within 5 years prior to the date of placement of the pipeline.

(5) Maintenance of a minor activity, other than any construction or major renovation or a building or facility.

REFERENCES IN TEXT

The Mineral Leasing Act, referred to in subsec. (a), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§ 7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

PART D—REFINERY REVITALIZATION

§ 15951. Findings and definitions

(a) Findings
Congress finds that—
(1) it serves the national interest to increase petroleum refining capacity for gasoline, heating oil, diesel fuel, jet fuel, kerosene, and petrochemical feedstocks wherever located within the United States, to bring more supply to the markets for the use of the American people;
(2) United States demand for refined petroleum products currently exceeds the country’s petroleum refining capacity to produce such products;
(3) this excess demand has been met with increased imports;
(4) due to lack of capacity, refined petroleum product imports are expected to grow from 7.9 percent to 10.7 percent of total refined product by 2025;
(5) refiners are still subject to significant environmental and other regulations and face several new requirements under the Clean Air Act (42 U.S.C. 7401 et seq.) over the next decade; and
(6) better coordination of Federal and State regulatory reviews may help facilitate siting and construction of new refineries to meet the demand in the United States for refined products.

(b) Definitions
In this part:
(1) Administrator
The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) State
The term “State” means—
(A) a State;
(B) the Commonwealth of Puerto Rico; and
(C) any other territory or possession of the United States.

REFERENCES IN TEXT
The Clean Air Act, referred to in subsec. (a)(5), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§ 7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§ 15952. Federal-State regulatory coordination and assistance

(a) In general
At the request of the Governor of a State, the Administrator may enter into a refinery permitting cooperative agreement with the State, under which each party to the agreement identifies steps, including timelines, that it will take to streamline the consideration of Federal and State environmental permits for a new refinery.

(b) Authority under agreement
The Administrator shall be authorized to—
(1) accept from a refiner a consolidated application for all permits required from the Environmental Protection Agency, to the extent consistent with other applicable law;
(2) enter into memoranda of agreement with other Federal agencies to coordinate consideration of refinery applications and permits among Federal agencies; and
(3) enter into memoranda of agreement with a State, under which Federal and State review of refinery permit applications will be coordinated and concurrently considered, to the extent practicable.

(c) State assistance
The Administrator is authorized to provide financial assistance to State governments to facilitate the hiring of additional personnel with expertise in fields relevant to consideration of refinery permits.

(d) Other assistance
The Administrator is authorized to provide technical, legal, or other assistance to State governments to facilitate their review of applications to build new refineries.

§ 15961. AUTHORIZATION OF APPROPRIATIONS

(a) Clean coal power initiative

There are authorized to be appropriated to the Secretary to carry out the activities authorized by this part $200,000,000 for each of fiscal years 2006 through 2014, to remain available until expended.

(b) Report

The Secretary shall submit to Congress the report required by this subsection not later than March 31, 2007. The report shall include, with respect to subsection (a), a plan containing—

(1) a detailed assessment of whether the aggregate funding levels provided under subsection (a) are the appropriate funding levels for that program;

(2) a detailed description of how proposals will be solicited and evaluated, including a list of all activities expected to be undertaken;

(3) a detailed list of technical milestones for each coal and related technology that will be pursued; and

(4) a detailed description of how the program will avoid problems enumerated in Government Accountability Office reports on the Clean Coal Technology Program, including problems that have resulted in unspent funds and projects that failed either financially or scientifically.

§ 15962. PROJECT CRITERIA

(a) In general

To be eligible to receive assistance under this part, a project shall advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that are in commercial service or have been demonstrated on a scale that the Secretary determines is sufficient to demonstrate that commercial service is viable as of August 8, 2005.

(b) Technical criteria for clean coal power initiative

(1) Gasification projects

(A) In general

In allocating the funds made available under section 15961(a) of this title, the Secretary shall ensure that at least 70 percent of the funds are used only to fund projects on coal-based gasification technologies, including—

(i) gasification combined cycle;

(ii) gasification fuel cells and turbine combined cycle;

(iii) gasification coproduction;

(iv) hybrid gasification and combustion; and

(v) other advanced coal-based technologies capable of producing a concentrated stream of carbon dioxide.

(B) Technical milestones

(i) Periodic determination

(I) In general

The Secretary shall periodically set technical milestones specifying the emission and thermal efficiency levels that coal gasification projects under this part shall be designed, and reasonably expected, to achieve.

(II) Prescriptive milestones

The technical milestones shall become more prescriptive during the period of the clean coal power initiative.

(ii) 2020 goals

The Secretary shall establish the periodic milestones so as to achieve by the year 2020 goals described in paragraph (I).

(B) Technical milestones

(i) Periodic determination

(I) In general

The Secretary shall periodically establish technical milestones specifying the emission and thermal efficiency levels that projects funded under this paragraph shall be designed, and reasonably expected, to achieve.

(II) Prescriptive milestones

The technical milestones shall become more prescriptive during the period of the clean coal power initiative.

(ii) 2020 goals

The Secretary shall set the periodic milestones so as to achieve by the year 2020 projects able—

(I) to remove at least 97 percent of sulfur dioxide;

(II) to emit no more than .08 lbs of NOx per million Btu;

(III) to achieve at least 95 percent reductions in mercury emissions; and

(IV) to achieve a thermal efficiency of at least—

(aa) 43 percent for coal of more than 9,000 Btu;

(bb) 41 percent for coal of 7,000 to 9,000 Btu; and

(cc) 39 percent for coal of less than 7,000 Btu.

(2) Other projects

(A) Allocation of funds

The Secretary shall ensure that up to 30 percent of the funds made available under section 15961(a) of this title are used to fund projects other than those described in paragraph (1).

(B) Technical milestones

(i) Periodic determination

(I) In general

The Secretary shall periodically establish technical milestones specifying the emission and thermal efficiency levels that projects funded under this paragraph shall be designed, and reasonably expected, to achieve.

(II) Prescriptive milestones

The technical milestones shall become more prescriptive during the period of the clean coal power initiative.

(ii) 2020 goals

The Secretary shall set the periodic milestones so as to achieve by the year 2020 projects able—

(I) to remove at least 97 percent of sulfur dioxide;

(II) to emit no more than .08 lbs of NOx per million Btu;

(III) to achieve at least 95 percent reductions in mercury emissions; and

(IV) to achieve a thermal efficiency of at least—

(aa) 43 percent for coal of more than 9,000 Btu;

(bb) 41 percent for coal of 7,000 to 9,000 Btu; and

(cc) 39 percent for coal of less than 7,000 Btu.
(3) Consultation
Before setting the technical milestones under paragraphs (1)(B) and (2)(B), the Secretary shall consult with—

(A) the Administrator of the Environmental Protection Agency; and
(B) interested entities, including—
(i) coal producers;
(ii) industries using coal;
(iii) organizations that promote coal or advanced coal technologies;
(iv) environmental organizations;
(v) organizations representing workers; and
(vi) organizations representing consumers.

(4) Existing units
In the case of projects at units in existence on August 8, 2005, in lieu of the thermal efficiency requirements described in paragraphs (1)(B)(i)(IV) and (2)(B)(i)(IV), the milestones shall be designed to achieve an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—

(A) 7 percent for coal of more than 9,000 Btu;
(B) 6 percent for coal of 7,000 to 9,000 Btu; or
(C) 4 percent for coal of less than 7,000 Btu.

(5) Administration
(A) Elevation of site
In evaluating project proposals to achieve thermal efficiency levels established under paragraphs (1)(B)(i)(IV) and (2)(B)(i)(IV) and in determining progress towards thermal efficiency milestones under paragraphs (1)(B)(i)(IV), (2)(B)(i)(IV), and (4), the Secretary shall take into account and make adjustments for the elevation of the site at which a project is proposed to be constructed.

(B) Applicability of milestones
In applying the thermal efficiency milestones under paragraphs (1)(B)(i)(IV), (2)(B)(i)(IV), and (4) to projects that separate and capture at least 50 percent of the potential emissions of carbon dioxide by a facility, the energy used for separation and capture of carbon dioxide shall not be counted in calculating the thermal efficiency.

(C) Permitted uses
In carrying out this section, the Secretary may give priority to projects that include, as part of the project—

(i) the separation or capture of carbon dioxide; or
(ii) the reduction of the demand for natural gas if deployed.

(c) Financial criteria
The Secretary shall not provide financial assistance under this part for a project unless the recipient documents to the satisfaction of the Secretary that—

(1) the recipient is financially responsible;
(2) the recipient will provide sufficient information to the Secretary to enable the Secretary to ensure that the funds are spent efficiently and effectively; and
(3) a market exists for the technology being demonstrated or applied, as evidenced by statements of interest in writing from potential purchasers of the technology.

(d) Financial assistance
The Secretary shall provide financial assistance to projects that, as determined by the Secretary—

(1) meet the requirements of subsections (a), (b), and (c); and
(2) are likely—
(A) to achieve overall cost reductions in the use of coal to generate useful forms of energy or chemical feedstocks;
(B) to improve the competitiveness of coal among various forms of energy in order to maintain a diversity of fuel choices in the United States to meet electricity generation requirements; and
(C) to demonstrate methods and equipment that are applicable to 25 percent of the electricity generating facilities, using various types of coal, that use coal as the primary feedstock as of August 8, 2005.

(e) Cost-sharing
In carrying out this part, the Secretary shall require cost sharing in accordance with section 16332 of this title.

(f) Scheduled completion of selected projects
(1) In general
In selecting a project for financial assistance under this section, the Secretary shall establish a reasonable period of time during which the owner or operator of the project shall complete the construction or demonstration phase of the project, as the Secretary determines to be appropriate.

(2) Condition of financial assistance
The Secretary shall require as a condition of receipt of any financial assistance under this part that the recipient of the assistance enter into an agreement with the Secretary not to request an extension of the time period established for the project by the Secretary under paragraph (1).

(3) Extension of time period
(A) In general
Subject to subparagraph (B), the Secretary may extend the time period established under paragraph (1) if the Secretary determines, in the sole discretion of the Secretary, that the owner or operator of the project cannot complete the construction or demonstration phase of the project within the time period due to circumstances beyond the control of the owner or operator.

(B) Limitation
The Secretary shall not extend a time period under subparagraph (A) by more than 4 years.

(g) Fee title
The Secretary may vest fee title or other property interests acquired under cost-share clean coal power initiative agreements under
this part in any entity, including the United States.

(h) Data protection

For a period not exceeding 5 years after completion of the operations phase of a cooperative agreement, the Secretary may provide appropriate protections (including exemptions from subchapter II of chapter 5 of title 5) against the dissemination of information that—

(1) results from demonstration activities carried out under the clean coal power initiative program; and

(2) would be a trade secret or commercial or financial information that is privileged or confidential if the information had been obtained from and first produced by a non-Federal party participating in a clean coal power initiative project.

(i) Applicability

No technology, or level of emission reduction, solely by reason of the use of the technology, or the achievement of the emission reduction, by 1 or more facilities receiving assistance under this Act, shall be considered to be—

(1) adequately demonstrated for purposes of section 7411 of this title;

(2) achievable for purposes of section 7479 of this title; or

(3) achievable in practice for purposes of section 7501 of this title.

REFERENCES IN TEXT

This Act, referred to in subsec. (i), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

AMENDMENTS

2007—Subsec. (b)(1)(B)(ii)(I). Pub. L. 110–140 added subcl. (I) and struck out former subcl. (I) which read as follows: “to remove at least 99 percent of sulfur dioxide;”.

EFFECTIVE DATE OF 2007 AMENDMENT

$15964. Clean coal centers of excellence

(a) In general

As part of the clean coal power initiative, the Secretary shall award competitive, merit-based grants to institutions of higher education for the establishment of centers of excellence for energy systems of the future.

(b) Basis for grants

The Secretary shall award grants under this section to institutions of higher education that show the greatest potential for advancing new clean coal technologies.

$15965. Time limit for award; extension

If a Clean Coal Power Initiative project selected after March 11, 2009, for negotiation under this Act, is not awarded within 2 years from the date the application was selected, negotiations shall cease and the Federal funds committed to the application shall be retained by the Department for future coal-related research, development and demonstration projects, except that the time limit may be extended at the Secretary’s discretion for matters outside the control of the applicant, or if the Secretary determines that extension of the time limit is in the public interest.

CODIFICATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2009, and also as part of the Omnibus Appropriations Act, 2009, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART B—CLEAN POWER PROJECTS

$15971. Integrated coal/renewable energy system

(a) In general

Subject to the availability of appropriations, the Secretary may provide loan guarantees for a project to produce energy from coal of less than 7,000 Btu/lb. using appropriate advanced integrated gasification combined cycle technology, including repowering of existing facilities, that—

(1) is combined with wind and other renewable sources;

(2) minimizes and offers the potential to sequester carbon dioxide emissions; and

(3) provides a ready source of hydrogen for near-site fuel cell demonstrations.

(b) Requirements

The facility—

(1) may be built in stages;

(2) shall have a combined output of at least 200 megawatts at successively more competitive rates; and

(3) shall be located in the Upper Great Plains.

(c) Technical criteria

Technical criteria described in section 15962(b) of this title shall apply to the facility.
§ 15973. Loan to place Alaska clean coal technology facility in service

(a) Definitions

In this section:

(1) Borrower

The term "borrower" means the owner of the clean coal technology plant.

(2) Clean coal technology plant

The term "clean coal technology plant" means the plant located near Healy, Alaska, constructed under Department cooperative agreement number DE-FC-22-91PC90544.

(3) Cost of a direct loan

The term "cost of a direct loan" has the meaning given the term in section 661a(5)(B) of title 2.

(b) Authorization

Subject to subsection (c), the Secretary shall use amounts made available under subsection (e) to provide the cost of a direct loan to the borrower for purposes of placing the clean coal technology plant into reliable operation for the generation of electricity.

(c) Requirements

(1) Maximum loan amount

The amount of the direct loan provided under subsection (b) shall not exceed $80,000,000.

(2) Determinations by Secretary

Before providing the direct loan to the borrower under subsection (b), the Secretary shall determine that—

A. the plan of the borrower for placing the clean coal technology plant in reliable operation has a reasonable prospect of success;

B. the amount of the loan (when combined with amounts available to the borrower from other sources) will be sufficient to carry out the project; and

C. there is a reasonable prospect that the borrower will repay the principal and interest on the loan.

(3) Interest; term

The direct loan provided under subsection (b) shall bear interest at a rate and for a term that the Secretary determines appropriate, after consultation with the Secretary of the Treasury, taking into account the needs and capacities of the borrower and the prevailing rate of interest for similar loans made by public and private lenders.

(d) Use of payments

Before providing the direct loan to the borrower under subsection (b), the Secretary shall carry out a project to demonstrate production of energy from coal mined in the western United States using integrated gasification combined cycle technology (referred to in this section as the "demonstration project").

(e) Cost sharing

The demonstration project shall be designed to demonstrate the ability to use a variety of types of coal (including subbituminous and bituminous coal with an energy content of up to 13,000 Btu/lb.) mined in the western United States and to in this section as the "demonstration project").

(f) Loan guarantees

Notwithstanding the foregoing, and to the extent economically feasible, the demonstration project shall also be designed to demonstrate the ability to use a variety of types of coal (including subbituminous and bituminous coal with an energy content of up to 13,000 Btu/lb.) mined in the western United States and to in this section as the "demonstration project").

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to provide the cost of a direct loan under subsection (b).

REFERENCES IN TEXT

Subchapter XIII, referred to in subsec. (f), was in the original "title XIV", meaning title XIV of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 1061, which enacted subchapter XIII of this chapter and section 13557 of this title.
§ 15974. Coal gasification

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology of at least 400 megawatts in capacity that produces power at competitive rates in deregulated energy generation markets and that does not receive any subsidy (direct or indirect) from ratepayers.

§ 15975. Petroleum coke gasification

The Secretary is authorized to provide loan guarantees for at least 5 petroleum coke gasification projects.

§ 15976. Electron scrubbing demonstration

The Secretary shall use $5,000,000 from amounts appropriated to initiate, through the Chicago Operations Office, a project to demonstrate the viability of high-energy electron scrubbing technology on commercial-scale electrical generation using high-sulfur coal.

§ 15977. Department of Energy transportation fuels from Illinois basin coal

(a) In general

The Secretary shall carry out a program to evaluate the commercial and technical viability of advanced technologies for the production of Fischer-Tropsch transportation fuels, and other transportation fuels, manufactured from Illinois basin coal, including the capital modification of existing facilities and the construction of testing facilities under subsection (b).

(b) Facilities

For the purpose of evaluating the commercial and technical viability of different processes for producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal, the Secretary shall support the use and capital modification of existing facilities and the construction of new facilities at—

(1) Southern Illinois University Coal Research Center;
(2) University of Kentucky Center for Applied Energy Research; and
(3) Energy Center at Purdue University.

(c) Gasification products test center

In conjunction with the activities described in subsections (a) and (b), the Secretary shall construct a test center to evaluate and confirm liquid and gas products from syngas catalysis in order that the system has an output of at least 500 gallons of Fischer-Tropsch transportation fuel per day in a 24-hour operation.

(d) Milestones

(1) Selection of processes

Not later than 180 days after August 8, 2005, the Secretary shall select processes for evaluating the commercial and technical viability of different processes of producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal.

(2) Agreements

Not later than 1 year after August 8, 2005, the Secretary shall offer to enter into agreements—

(A) to carry out the activities described in this section, at the facilities described in subsection (b); and

(B) for the capital modifications or construction of the facilities at the locations described in subsection (b).

(3) Evaluations

Not later than 3 years after August 8, 2005, the Secretary shall begin, at the facilities described in subsection (b), evaluation of the technical and commercial viability of different processes of producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal.

(4) Construction of facilities

(A) In general

The Secretary shall construct the facilities described in subsection (b) at the lowest cost practicable.

(B) Grants or agreements

The Secretary may make grants or enter into agreements or contracts with the institutions of higher education described in subsection (b).

(e) Cost sharing

The cost of making grants under this section shall be shared in accordance with section 16332 of this title.

(f) Authorization of appropriations

There is authorized to be appropriated to carry out this section $35,000,000 for the period of fiscal years 2006 through 2010.

PART C—FEDERAL COAL LEASES

§ 15991. Inventory requirement

(a) Review of assessments

(1) In general

The Secretary of the Interior, in consultation with the Secretary of Agriculture and the Secretary, shall review coal assessments and other available data to identify—

(A) Federal lands with coal resources that are available for development;

(B) the extent and nature of any restrictions on the development of coal resources on Federal lands identified under paragraph (1); and

(C) with respect to areas of such lands for which sufficient data exists, resources of compliant coal and supercompliant coal.

(2) Definitions

For purposes of this subsection—

(A) the term “compliant coal” means coal that contains not less than 1.0 and not more
(b) Completion and updating of the inventory

The Secretary—

(1) shall complete the inventory under subsection (a) by not later than 2 years after August 8, 2005; and

(2) shall update the inventory as the availability of data and developments in technology warrant.

(c) Report

The Secretary shall submit to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate and make publicly available—

(1) a report containing the inventory under this section, by not later than 2 years after the effective date of this section; and

(2) each update of such inventory.

REFERENCES IN TEXT

The effective date of this section, referred to in subsec. (c)(1), probably means the date of enactment of Pub. L. 109–58, which enacted this section.

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

SHORT TITLE

For short title of subtitle D of title IV of Pub. L. 109–58, which enacted this part, as the ''Indian Tribal Energy Development and Self-Determination Act of 2005'', see section 431 of Pub. L. 109–58, set out as a note under section 15801 of this title.

SUBCHAPTER V—INDIAN ENERGY

§16001. Energy efficiency in federally assisted housing

The Secretary of Housing and Urban Development shall promote energy conservation in housing that is located on Indian land and assisted with Federal resources through—

(1) the use of energy-efficient technologies and innovations (including the procurement of energy-efficient refrigerators and other appliances);

(2) the promotion of shared savings contracts; and

(3) the use and implementation of other similar technologies and innovations as the Secretary of Housing and Urban Development considers to be appropriate.

SHORT TITLE

SUBCHAPTER VI—NUCLEAR MATTERS

PART A—GENERAL NUCLEAR MATTERS

§16011. Demonstration hydrogen production at existing nuclear power plants

(a) Demonstration projects

The Secretary shall provide for the establishment of 2 projects in geographic areas that are regionally and climatically diverse to demonstrate the commercial production of hydrogen at existing nuclear power plants.

(b) Economic analysis

Prior to making an award under subsection (a), the Secretary shall determine whether the use of existing nuclear power plants is a cost-effective means of producing hydrogen.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for the purposes of carrying out this section not more than $100,000,000.

§16012. Prohibition on assumption by United States Government of liability for certain foreign incidents

(a) In general

Notwithstanding any other provision of law, no officer of the United States or of any department, agency, or instrumentality of the United States Government may enter into any contract or other arrangement, or into any amendment or modification of a contract or other arrangement, the purpose or effect of which would be to directly or indirectly impose liability on the United States Government, or any department, agency, or instrumentality of the United States Government, or to otherwise directly or indirectly require an indemnity by the United States Government, for nuclear incidents occurring in connection with the design, construction, or operation of a production facility or utilization facility in any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which, as of September 11, 2001, had been determined by the Secretary of State under section 2371(a) of title 22, section 4605(j)(1) of title 50, or section 2780(d) of title 22 to have repeatedly provided support for acts of international terrorism). This section shall not apply to nuclear incidents occurring as a result of missions, carried out under the direction of the Secretary, the Secretary of Defense, or the Secretary of State, that are necessary to safely secure, store, transport, or remove nuclear materials for nuclear safety or non-proliferation purposes.

(b) Definitions

The terms used in this section shall have the same meaning as those terms have under section 2014 of this title, unless otherwise expressly provided in this section.

1 See References in Text note below.
§ 16013. Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

§ 16014. Standby support for certain nuclear plant delays

(a) Definitions

In this section:

(1) Advanced nuclear facility

The term “advanced nuclear facility” means any nuclear facility the reactor design for which is approved after December 31, 1993, by the Commission (and such design or a substantially similar design of comparable capacity was not approved on or before that date).

(2) Combined license

The term “combined license” means a combined construction and operating license for an advanced nuclear facility issued by the Commission.

(3) Commission

The term “Commission” means the Nuclear Regulatory Commission.

(4) Sponsor

The term “sponsor” means a person who has applied for or been granted a combined license.

(b) Contract authority

(1) In general

The Secretary may enter into contracts under this section with sponsors of an advanced nuclear facility that cover a total of 6 reactors, with the 6 reactors consisting of not more than 3 different reactor designs, in accordance with paragraph (2).

(2) Requirement for contracts

(A) Definition of loan cost

In this paragraph, the term “loan cost” has the meaning given the term “cost of a loan guarantee” under section 661a(5)(C) of title 2.

(B) Establishment of accounts

There is established in the Department 2 separate accounts, which shall be known as the—

(i) “Standby Support Program Account”;

and

(ii) “Standby Support Grant Account”.

(C) Requirement

The Secretary shall not enter into a contract under this section unless the Secretary deposits—

(i) in the Standby Support Program Account established under subparagraph (B), funds appropriated to the Secretary in advance of the contract or a combination of appropriated funds and loan guarantee fees that are in an amount sufficient to cover the loan costs described in subsection (d)(5)(A); and

(ii) in the Standby Support Grant Account established under subparagraph (B), funds appropriated to the Secretary in advance of the contract, paid to the Secretary by the sponsor of the advanced nuclear facility, or a combination of appropriations and payments that are in an amount sufficient cover the costs described in subparagraphs (B), (C), and (D) of subsection (d)(5).

(c) Covered delays

(1) Inclusions

Under each contract authorized by this section, the Secretary shall pay the costs specified in subsection (d), using funds appropriated or collected for the covered costs, if full power operation of the advanced nuclear facility is delayed by—

(A) the failure of the Commission to comply with schedules for review and approval of inspections, tests, analyses, and acceptance criteria established under the combined license or the conduct of preoperational hearings by the Commission for the advanced nuclear facility; or

(B) litigation that delays the commencement of full-power operations of the advanced nuclear facility.

(2) Exclusions

The Secretary may not enter into any contract under this section that would obligate the Secretary to pay any costs resulting from—

(A) the failure of the sponsor to take any action required by law or regulation;

(B) events within the control of the sponsor; or

(C) normal business risks.

(d) Covered costs

(1) In general

Subject to paragraphs (2), (3), and (4), the costs that shall be paid by the Secretary pursuant to a contract entered into under this section are the costs that result from a delay covered by the contract.

(2) Initial 2 reactors

In the case of the first 2 reactors that receive combined licenses and on which construction is commenced, the Secretary shall pay—

1 So in original. Probably should be followed by “to”.

References in Text

§ 16013. Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

References in Text

This subtitle, referred to in text, is subtitle B (§§621–639) of title VI of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 782, which enacted this part and sections 2015b, 2133, 2135, 2136, 2158, 2160d, 2190a, 2214, 2297h–8, and 5851 of this title, repealed section 2213 of this title, and enacted

(A) 100 percent of the covered costs of delay; but
(B) not more than $500,000,000 per contract.

(3) Subsequent 4 reactors
In the case of the next 4 reactors that receive a combined license and on which construction is commenced, the Secretary shall pay—
(A) 50 percent of the covered costs of delay that occur after the initial 180-day period of covered delay; but
(B) not more than $250,000,000 per contract.

(4) Conditions on payment of certain covered costs
(A) In general
The obligation of the Secretary to pay the covered costs described in subparagraph (B) of paragraph (5) is subject to the Secretary receiving from appropriations or payments from other non-Federal sources amounts sufficient to pay the covered costs.

(B) Non-Federal sources
The Secretary may receive and accept payments from any non-Federal source, which shall be made available without further appropriation for the payment of the covered costs.

(5) Types of covered costs
Subject to paragraphs (2), (3), and (4), the contract entered into under this subparagraph (B) of paragraph (5) is subject to the Secretary receiving from appropriations or payments from other non-Federal sources amounts sufficient to pay the covered costs.

(A) principal or interest on any debt obligation of an advanced nuclear facility owned by a non-Federal entity; and
(B) the incremental difference between—
(i) the fair market price of power purchased to meet the contractual supply agreements that would have been met by the advanced nuclear facility but for the delay; and
(ii) the contractual price of power from the advanced nuclear facility subject to the delay.

(e) Requirements
Any contract between a sponsor and the Secretary covering an advanced nuclear facility under this section shall require the sponsor to use due diligence to shorten, and to end, the delay covered by the contract.

(f) Reports
For each advanced nuclear facility that is covered by a contract entered into under this section, the Commission shall submit to Congress and the Secretary quarterly reports summarizing the status of licensing actions associated with the advanced nuclear facility.

(g) Regulations
(1) In general
Subject to paragraphs (2) and (3), the Secretary shall issue such regulations as necessary to carry out this section.

(2) Interim final rulemaking
Not later than 270 days after August 8, 2005, the Secretary shall issue for public comment an interim final rule regulating contracts authorized by this section.

(3) Notice of final rulemaking
Not later than 1 year after August 8, 2005, the Secretary shall issue a notice of final rulemaking regulating the contracts.

(h) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section.

PART B—NEXT GENERATION NUCLEAR PLANT PROJECT

§ 16021. Project establishment
(a) Establishment
The Secretary shall establish a project to be known as the “Next Generation Nuclear Plant Project” (referred to in this part as the “Project”).

(b) Content
The Project shall consist of the research, development, design, construction, and operation of a prototype plant, including a nuclear reactor that—
(1) is based on research and development activities supported by the Generation IV Nuclear Energy Systems Initiative under section 16272(c) of this title; and
(2) shall be used—
(A) to generate electricity;
(B) to produce hydrogen; or
(C) both to generate electricity and to produce hydrogen.

§ 16022. Project management
(a) Departmental management
(1) In general
The Project shall be managed in the Department by the Office of Nuclear Energy, Science, and Technology.

(2) Generation IV Nuclear Energy Systems program
The Secretary may combine the Project with the Generation IV Nuclear Energy Systems Initiative.

(3) Existing DOE project management expertise
The Secretary may utilize capabilities for review of construction projects for advanced

1 See References in Text note below.
scientific facilities within the Office of Science to track the progress of the Project.

(b) Laboratory management

(1) Lead Laboratory

The Idaho National Laboratory shall be the lead National Laboratory for the Project and shall collaborate with other National Laboratories, institutions of higher education, other research institutes, industrial researchers, and international researchers to carry out the Project.

(2) Industrial partnerships

(A) In general

The Idaho National Laboratory shall organize a consortium of appropriate industrial partners that will carry out cost-shared research, development, design, and construction activities, and operate research facilities, on behalf of the Project.

(B) Cost-sharing

Activities of industrial partners funded by the Project shall be cost-shared in accordance with section 16352 of this title.

(C) Preference

Preference in determining the final structure of the consortium or any partnerships under this part shall be given to a structure (including designating as a lead industrial partner an entity incorporated in the United States) that retains United States technological leadership in the Project while maximizing cost sharing opportunities and minimizing Federal funding responsibilities.

(3) Prototype plant siting

The prototype nuclear reactor and associated plant shall be sited at the Idaho National Laboratory in Idaho.

(4) Reactor test capabilities

The Project shall use, if appropriate, reactor test capabilities at the Idaho National Laboratory.

(5) Other Laboratory capabilities

The Project may use, if appropriate, facilities at other National Laboratories.

§ 16023. Project organization

(a) Major project elements

The Project shall consist of the following major program elements:

(1) High-temperature hydrogen production technology development and validation.

(2) Energy conversion technology development and validation.

(3) Nuclear fuel development, characterization, and qualification.

(4) Materials selection, development, testing, and qualification.

(5) Reactor and balance-of-plant design, engineering, safety analysis, and qualification.

(b) Project phases

The Project shall be conducted in the following phases:

(1) First project phase

A first project phase shall be conducted to—

(A) select and validate the appropriate technology under subsection (a)(1);

(B) carry out enabling research, development, and demonstration activities on technologies and components under paragraphs (2) through (5) of subsection (a);

(C) determine whether it is appropriate to combine electricity generation and hydrogen production in a single prototype nuclear reactor and plant; and

(D) carry out initial design activities for a prototype nuclear reactor and plant, including development of design methods and safety analytical methods and studies under subsection (a)(5).

(2) Second project phase

A second project phase shall be conducted to—

(A) continue appropriate activities under paragraphs (1) through (5) of subsection (a);

(B) develop, through a competitive process, a final design for the prototype nuclear reactor and plant;

(C) apply for licenses to construct and operate the prototype nuclear reactor from the Nuclear Regulatory Commission; and

(D) construct and start up operations of the prototype nuclear reactor and its associated hydrogen or electricity production facilities.

(c) Project requirements

(1) In general

The Secretary shall ensure that the Project is structured so as to maximize the technical interchange and transfer of technologies and ideas into the Project from other sources of relevant expertise, including—

(A) the nuclear power industry, including nuclear powerplant construction firms, particularly with respect to issues associated with plant design, construction, and operational and safety issues;

(B) the chemical processing industry, particularly with respect to issues relating to—

(i) the use of process energy for production of hydrogen; and

(ii) the integration of technologies developed by the Project into chemical processing environments; and

(C) international efforts in areas related to the Project, particularly with respect to hydrogen production technologies.

(2) International collaboration

(A) In general

The Secretary shall seek international cooperation, participation, and financial contributions for the Project.

(B) Assistance from international partners

The Secretary, through the Idaho National Laboratory, may contract for assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international partners if the specialists or facilities provide access to cost-effective and relevant skills or test capabilities.
§ 16025. Project timelines and authorization of appropriations

(a) Target date to complete the first project phase

Not later than September 30, 2011, the Secretary shall—
(1) select the technology to be used by the Project for high-temperature hydrogen production and the initial design parameters for the prototype nuclear plant; or
(2) submit to Congress a report establishing an alternative date for making the selection.

(b) Design competition for second project phase

(1) In general

The Secretary, acting through the Idaho National Laboratory, shall fund not more than 4 teams for not more than 2 years to develop detailed proposals for competitive evaluation and selection of a single proposal for a final design of the prototype nuclear reactor.

(2) Systems integration

The Secretary may structure Project activities in the second project phase to use the lead

(C) Partner nations

The Project may involve demonstration of selected project objectives in a partner country.

(D) Generation IV International Forum

The Secretary shall ensure that international activities of the Project are coordinated with the Generation IV International Forum.

(3) Review by Nuclear Energy Research Advisory Committee

(A) In general

The Nuclear Energy Research Advisory Committee of the Department (referred to in this paragraph as the `NERAC`) shall—
(i) review all program plans for the Project and all progress under the Project on an ongoing basis; and
(ii) ensure that important scientific, technical, safety, and program management issues receive attention in the Project and by the Secretary.

(B) Additional expertise

The NERAC shall supplement the expertise of the NERAC or appoint subpanels to incorporate into the review by the NERAC the relevant sources of expertise described under paragraph (A).

(C) Initial review

Not later than 180 days after August 8, 2005, the NERAC shall—
(i) review existing program plans for the Project in light of the recommendations of the document entitled `Design Features and Technology Uncertainties for the Next Generation Nuclear Plant,' dated June 30, 2004; and
(ii) address any recommendations of the document not incorporated in program plans for the Project.

(D) First project phase review

On a determination by the Secretary that the appropriate activities under the first project phase under subsection (b)(1) are nearly complete, the Secretary shall request the NERAC to conduct a comprehensive review of the Project and to report to the Secretary the recommendation of the NERAC concerning whether the Project is ready to proceed to the second project phase under subsection (b)(2).

(E) Transmittal of reports to Congress

Not later than 60 days after receiving any report from the NERAC related to the Project, the Secretary shall submit to the appropriate committees of the Senate and the House of Representatives a copy of the report, along with any additional views of the Secretary that the Secretary may consider appropriate.

§ 16024. Nuclear Regulatory Commission

(a) In general

In accordance with section 5842 of this title, the Nuclear Regulatory Commission shall have licensing and regulatory authority for any reactor authorized under this part.

(b) Licensing strategy

Not later than 3 years after August 8, 2005, the Secretary and the Chairman of the Nuclear Regulatory Commission shall jointly submit to the appropriate committees of the Senate and the House of Representatives a licensing strategy for the prototype nuclear reactor, including—
(1) a description of ways in which current licensing requirements relating to light-water reactors need to be adapted for the types of prototype nuclear reactor being considered by the Project;
(2) a description of analytical tools that the Nuclear Regulatory Commission will have to develop to independently verify designs and performance characteristics of components, equipment, systems, or structures associated with the prototype nuclear reactor;
(3) other research or development activities that may be required on the part of the Nuclear Regulatory Commission in order to review a license application for the prototype nuclear reactor; and
(4) an estimate of the budgetary requirements associated with the licensing strategy.

(c) Ongoing interaction

The Secretary shall seek the active participation of the Nuclear Regulatory Commission throughout the duration of the Project to—
(1) avoid design decisions that will compromise adequate safety margins in the design of the reactor or impair the accessibility of nuclear safety-related components of the prototype reactor for inspection and maintenance;
(2) develop tools to facilitate inspection and maintenance needed for safety purposes; and
(3) develop risk-based criteria for any future commercial development of a similar reactor architectures.

industrial partner of the competitively selected design under paragraph (1) in a systems integration role for final design and construction of the Project.

(c) Target date to complete project construction

Not later than September 30, 2021, the Secretary shall—

(1) complete construction and begin operations of the prototype nuclear reactor and associated energy or hydrogen facilities; or

(2) submit to Congress a report establishing an alternative date for completion.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary for research and construction activities under this part (including for transfer to the Nuclear Regulatory Commission for activities under section 16024 of this title as appropriate)—

(1) $1,250,000,000 for the period of fiscal years 2006 through 2015; and

(2) such sums as are necessary for each of fiscal years 2016 through 2021.

PART C—NUCLEAR SECURITY

§ 16041. Nuclear facility and materials security

(a) In general

(1), (2) Omitted

(3) Federal security coordinators

(A) Regional offices

Not later than 18 months after August 8, 2005, the Nuclear Regulatory Commission (referred to in this section as the “Commission”) shall assign a Federal security coordinator, under the employment of the Commission, to each region of the Commission.

(B) Responsibilities

The Federal security coordinator shall be responsible for—

(i) communicating with the Commission and other Federal, State, and local authorities concerning threats, including threats against such classes of facilities as the Commission determines to be appropriate;

(ii) monitoring such classes of facilities as the Commission determines to be appropriate to ensure that they maintain security consistent with the security plan in accordance with the appropriate threat level; and

(iii) assisting in the coordination of security measures among the private security forces at such classes of facilities as the Commission determines to be appropriate and Federal, State, and local authorities, as appropriate.

(b) Backup power for certain emergency notification systems

For any licensed nuclear power plants located where there is a permanent population, as determined by the 2000 decennial census, in excess of 15,000,000 within a 50-mile radius of the power plant, not later than 18 months after August 8, 2005, the Commission shall require that backup power to be available for the emergency notification system of the power plant, including the emergency siren warning system, if the alternating current supply within the 10-mile emergency planning zone of the power plant is lost.

(c), (d) Omitted

(e) Final regulations; waivers

(1) to (3) Omitted

(4) Final regulations

(A) Regulations

(i) In general

Not later than 18 months after August 8, 2005, the Commission, after consultation with States and other stakeholders, shall issue final regulations establishing such requirements as the Commission determines to be necessary to carry out this section and the amendments made by this section.

(ii) Inclusions

The regulations shall include a definition of the term “discrete source” for purposes of paragraphs (3) and (4) of section 2014(e) of this title.

(B) Cooperation

In promulgating regulations under paragraph (1), the Commission shall, to the maximum extent practicable—

(i) cooperate with States; and

(ii) use model State standards in existence on August 8, 2005.

(C) Transition plan

(i) Definition of byproduct material

In this paragraph, the term “byproduct material” has the meaning given the term in paragraphs (3) and (4) of section 2014(e) of this title.

(ii) Preparation and publication

To facilitate an orderly transition of regulatory authority with respect to byproduct material, the Commission, in issuing regulations under subparagraph (A), shall prepare and publish a transition plan for—

(I) States that have not, before the date on which the plan is published, entered into an agreement with the Commission under section 2021(b) of this title; and

(II) States that have entered into an agreement with the Commission under that section before the date on which the plan is published.

(iii) Inclusions

The transition plan under clause (ii) shall include—

(I) a description of the conditions under which a State may exercise authority over byproduct material; and

(II) a statement of the Commission that any agreement covering byproduct material

\footnote{So in original. Probably should be “subparagraph (A)”\textsuperscript{1}.}
material, as defined in paragraph (1) or (2) of section 2014(e) of this title, entered into between the Commission and a State under section 2021(b) of this title before the date of publication of the transition plan shall be considered to include byproduct material, as defined in paragraph (3) or (4) of section 2014(e) of this title, if the Governor of the State certifies to the Commission on the date of publication of the transition plan that—

(aa) the State has a program for licensing byproduct material, as defined in paragraph (3) or (4) of section 2014(e) of this title, that is adequate to protect the public health and safety, as determined by the Commission; and

(bb) the State intends to continue to implement the regulatory responsibility of the State with respect to the byproduct material.

(D) Availability of radiopharmaceuticals

In promulgating regulations under subparagraph (A), the Commission shall consider the impact on the availability of radiopharmaceuticals to—

(i) physicians; and

(ii) patients the medical treatment of which relies on radiopharmaceuticals.

(5) Waivers

(A) In general

Except as provided in subparagraph (B), the Commission may grant a waiver to any entity of any requirement under this section or an amendment made by this section with respect to a matter relating to byproduct material (as defined in paragraphs (3) and (4) of section 2014(e) of this title) if the Commission determines that the waiver is in accordance with the protection of the public health and safety, as determined by the Commission; and

(B) Exceptions

(i) in general

The Commission may not grant a waiver under subparagraph (A) with respect to—

(I) any requirement under the amendments made by subsection (c)(1);

(II) a matter relating to an importation into, or exportation from, the United States for a period ending after the date that is 1 year after August 8, 2005; or

(III) any other matter for a period ending after the date that is 4 years after August 8, 2005.

(ii) Waivers to States

The Commission shall terminate any waiver granted to a State under subparagraph (A) if the Commission determines that—

(I) the State has entered into an agreement with the Commission under section 2021(b) of this title;

(II) the agreement described in subclause (I) covers byproduct material (as described in paragraph (3) or (4) of section 2014(e) of this title); and

(III) the program of the State for licensing such byproduct material is adequate to protect the public health and safety.

(C) Publication

The Commission shall publish in the Federal Register a notice of any waiver granted under this subsection.

References in Text

For references to “the amendments made by this section”, “an amendment made by this section”, and “the amendments made by subsection (c)(1)”, appearing in subsection (c)(4)(A)(i), (c)(5)(A), and (c)(5)(B)(I)(I), respectively, see Codification note below.

Codification

§ 16042. Department of Homeland Security consultation

Before issuing a license for a utilization facility, the Nuclear Regulatory Commission shall consult with the Department of Homeland Security concerning the potential vulnerabilities of the location of the proposed facility to terrorist attack.

SUBCHAPTER VII—VEHICLES AND FUELS

PART A—EXISTING PROGRAMS

§ 16051. Joint flexible fuel/hybrid vehicle commercialization initiative

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a for-profit corporation;

(B) a nonprofit corporation; or

(C) an institution of higher education.

(2) Program

The term “program” means a program established under subsection (b).

(b) Establishment

The Secretary shall establish a program to improve technologies for the commercialization of—

(1) a combination hybrid/flexible fuel vehicle; or

(2) a plug-in hybrid/flexible fuel vehicle.

(c) Grants

In carrying out the program, the Secretary shall provide grants that give preference to proposals that—

(1) achieve the greatest reduction in miles per gallon of petroleum fuel consumption;
§ 16061. Hybrid vehicles

The Secretary shall accelerate efforts directed toward the improvement of batteries and other rechargeable energy storage systems, power electronics, hybrid systems integration, and other technologies for use in hybrid vehicles.

§ 16062. Domestic manufacturing conversion grant program

(a) Program

(1) In general

The Secretary shall establish a program to encourage domestic production and sales of efficient hybrid and advanced diesel vehicles and components of those vehicles.

(2) Inclusions

The program shall include grants and loan guarantees under section 16513 of this title to automobile manufacturers and suppliers and hybrid component manufacturers to encourage domestic production of efficient hybrid, plug-in electric drive, and advanced diesel vehicles.

(b) Coordination with State and local programs

The Secretary may coordinate implementation of this section with State and local programs designed to accomplish similar goals, including the retention and retraining of skilled workers from the manufacturing facilities, including by establishing matching grant arrangements.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section.

Amendments

Subsec. (a)(2). Pub. L. 110–140, § 134(a), inserted “and loan guarantees under section 16513 of this title” after “grants”.

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

SUBPART 2—ADVANCED VEHICLES

§ 16071. Pilot program

(a) Establishment

The Secretary, in consultation with the Secretary of Transportation, shall establish a competitive grant pilot program (referred to in this subpart as the “pilot program”), to be administered through the Clean Cities Program of the Department, to provide not more than 30 geographically dispersed project grants to State governments, local governments, or metropolitan transportation authorities to carry out a project or projects for the purposes described in subsection (b).

(b) Grant purposes

A grant under this section may be used for the following purposes:

(1) The acquisition of alternative fueled vehicles or fuel cell vehicles, including—

(A) passenger vehicles (including neighborhood electric vehicles); and

(B) motorized 2-wheel bicycles or other vehicles for use by law enforcement personnel or other State or local government or metropolitan transportation authority employees.

(2) The acquisition of alternative fueled vehicles, hybrid vehicles, or fuel cell vehicles, including—

(3) Priority

Priority shall be given to the refurbishment or retooling of manufacturing facilities that have recently ceased operation or will cease operation in the near future.

2007—Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.
(A) buses used for public transportation or transportation to and from schools;
(B) delivery vehicles for goods or services; and
(C) ground support vehicles at public airports (including vehicles to carry baggage or push or pull airplanes toward or away from terminal gates).

(3) The acquisition of ultra-low sulfur diesel vehicles.

(4) Installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant, including fueling and other support equipment.

(5) Operation and maintenance of vehicles, infrastructure, and equipment acquired as part of a project funded by the grant.

(c) Applications

(1) Requirements

(A) In general

The Secretary shall issue requirements for applying for grants under the pilot program.

(B) Minimum requirements

At a minimum, the Secretary shall require that an application for a grant—

(i) be submitted by the head of a State or local government or a metropolitan transportation authority, or any combination thereof, and a registered participant in the Clean Cities Program of the Department; and

(ii) include—

(I) a description of the project proposed in the application, including how the project meets the requirements of this subpart;

(II) an estimate of the ridership or degree of use of the project;

(III) an estimate of the air pollution emissions reduced and fossil fuel displaced as a result of the project, and a plan to collect and disseminate environmental data, related to the project to be funded under the grant, over the life of the project;

(IV) a description of how the project will be sustainable without Federal assistance after the completion of the term of the grant;

(V) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(VI) a description of which costs of the project will be supported by Federal assistance under this subpart; and

(VII) documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the project, and a commitment by the applicant to use such fuel in carrying out the project.

(2) Partners

An applicant under paragraph (1) may carry out a project under the pilot program in partnership with public and private entities.

(d) Selection criteria

In evaluating applications under the pilot program, the Secretary shall—

(1) consider each applicant’s previous experience with similar projects; and

(2) give priority consideration to applications that—

(A) are most likely to maximize protection of the environment;

(B) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subpart is completed; and

(C) exceed the minimum requirements of subsection (c)(1)(B)(ii).

(e) Pilot project requirements

(1) Maximum amount

The Secretary shall not provide more than $15,000,000 in Federal assistance under the pilot program to any applicant.

(2) Cost sharing

The Secretary shall not provide more than 50 percent of the cost, incurred during the period of the grant, of any project under the pilot program.

(3) Maximum period of grants

The Secretary shall not fund any applicant under the pilot program for more than 5 years.

(4) Deployment and distribution

The Secretary shall seek to the maximum extent practicable to ensure a broad geographic distribution of project sites.

(5) Transfer of information and knowledge

The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(f) Schedule

(1) Publication

Not later than 90 days after August 8, 2005, the Secretary shall publish in the Federal Register, Commerce Business Daily, and elsewhere as appropriate, a request for applications to undertake projects under the pilot program. Applications shall be due not later than 180 days after the date of publication of the notice.

(2) Selection

Not later than 180 days after the date by which applications for grants are due, the Secretary shall select by competitive, peer reviewed proposal, all applications for projects to be awarded a grant under the pilot program.

(g) Definitions

For purposes of carrying out the pilot program, the Secretary shall issue regulations defining any term, as the Secretary determines to be necessary.

§ 16072. Reports to Congress

(a) Initial report
Not later than 60 days after the date on which grants are awarded under this subpart, the Secretary shall submit to Congress a report containing—

(1) an identification of the grant recipients and a description of the projects to be funded;
(2) an identification of other applicants that submitted applications for the pilot program; and
(3) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(b) Evaluation
Not later than 3 years after August 8, 2005, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and
(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.

§ 16073. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this subpart $200,000,000, to remain available until expended.

SUBPART 3—FUEL CELL BUSES

§ 16081. Fuel cell transit bus demonstration

(a) In general
The Secretary, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) Preference
In selecting projects under this section, the Secretary shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out this section $10,000,000 for each of fiscal years 2006 through 2010.

PART C—CLEAN SCHOOL BUSES

§ 16091. Clean school bus program

(a) Definitions
In this section:

(1) Administrator
The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Alternative fuel
The term “alternative fuel” means—

(A) liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, or propane;
(B) methanol or ethanol at no less than 85 percent by volume; or
(C) biodiesel conforming with standards published by the American Society for Testing and Materials as of August 8, 2005.

(3) Clean school bus
The term “clean school bus” means a school bus with a gross vehicle weight of greater than 14,000 pounds that—

(A) is powered by a heavy duty engine; and
(B) is operated solely on an alternative fuel or ultra-low sulfur diesel fuel.

(4) Eligible recipient
(A) In general
Subject to subparagraph (B), the term “eligible recipient” means—

(i) 1 or more local or State governmental entities responsible for—

(1) providing school bus service to 1 or more public school systems; or
(2) the purchase of school buses;

(ii) 1 or more contracting entities that provide school bus service to 1 or more public school systems; or
(iii) a nonprofit school transportation association.

(B) Special requirements
In the case of eligible recipients identified under clauses (ii) and (iii), the Administrator shall establish timely and appropriate requirements for notice and may establish timely and appropriate requirements for approval by the public school systems that would be served by buses purchased or retrofit using grant funds made available under this section.

(5) Retrofit technology
The term “retrofit technology” means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(6) Ultra-low sulfur diesel fuel
The term “ultra-low sulfur diesel fuel” means diesel fuel that contains sulfur at not more than 15 parts per million.

1This section is substantially identical to section 16891a of this title.
2So in original. Probably means clauses (ii) and (iii) of subparagraph (A).
(b) Program for retrofit or replacement of certain existing school buses with clean school buses

(1) Establishment

(A) In general

The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible recipients for the replacement, or retrofit (including repowering, aftertreatment, and remanufactured engines) of, certain existing school buses.

(B) Balancing

In awarding grants under this section, the Administrator shall, to the maximum extent practicable, achieve an appropriate balance between awarding grants—

(i) to replace school buses; and

(ii) to install retrofit technologies.

(2) Priority of grant applications

(A) Replacement

In the case of grant applications to replace school buses, the Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(B) Retrofitting

In the case of grant applications to retrofit school buses, the Administrator shall give priority to applicants that propose to retrofit school buses manufactured in or after model year 1991.

(3) Use of school bus fleet

(A) In general

All school buses acquired or retrofitted with funds provided under this section shall be operated as part of the school bus fleet for which the grant was made for not less than 5 years.

(B) Maintenance, operation, and fueling

New school buses and retrofit technology shall be maintained, operated, and fueled according to manufacturer recommendations or State requirements.

(4) Retrofit grants

The Administrator may award grants for up to 100 percent of the retrofit technologies and installation costs.

(5) Replacement grants

(A) Eligibility for 50 percent grants

The Administrator may award grants for replacement of school buses in the amount of up to one-half of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007, 2008, or 2009 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter to be applicable for school buses manufactured in model year 2010.

(B) Eligibility for 25 percent grants

The Administrator may award grants for replacement of school buses in the amount of up to one-fourth of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007 or thereafter that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter from school buses manufactured in that model year.

(6) Ultra-low sulfur diesel fuel

(A) In general

In the case of a grant recipient receiving a grant for the acquisition of ultra-low sulfur diesel fuel school buses with engines manufactured in model year 2005 or 2006, the grant recipient shall provide, to the satisfaction of the Administrator—

(i) documentation that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant; and

(ii) a commitment by the applicant to use that fuel in carrying out the purposes of the grant.

(7) Deployment and distribution

The Administrator shall, to the maximum extent practicable—

(A) achieve nationwide deployment of clean school buses through the program under this section; and

(B) ensure a broad geographic distribution of grant awards, with no State receiving more than 10 percent of the grant funding made available under this section during a fiscal year.

(8) Annual report

(A) In general

Not later than January 31 of each year, the Administrator shall submit to Congress a report that—

(i) evaluates the implementation of this section; and

(ii) describes—

(I) the total number of grant applications received;

(II) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications;
(III) grants awarded and the criteria used to select the grant recipients;
(IV) certified engine emission levels of all buses purchased or retrofitted under this section;
(V) an evaluation of the in-use emission level of buses purchased or retrofitted under this section; and
(VI) any other information the Administrator considers appropriate.

(c) Education

(1) In general

Not later than 90 days after August 8, 2005, the Administrator shall develop an education outreach program to promote and explain the grant program.

(2) Coordination with stakeholders

The outreach program shall be designed and conducted in conjunction with national school bus transportation associations and other stakeholders.

(3) Components

The outreach program shall—
(A) inform potential grant recipients on the process of applying for grants;
(B) describe the available technologies and the benefits of the technologies;
(C) explain the benefits of participating in the grant program; and
(D) include, as appropriate, information from the annual report required under subsection (b)(8).

(d) Authorization of appropriations

There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—
(1) $55,000,000 for each of fiscal years 2006 and 2007; and
(2) such sums as are necessary for each of fiscal years 2008, 2009, and 2010.

§ 16091a. Clean school bus program

(a) Definitions

In this section, the following definitions apply:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Alternative fuel

The term “alternative fuel” means—
(A) liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, or propane;
(B) methanol or ethanol at no less than 85 percent by volume; or
(C) biodiesel conforming with standards published by the American Society for Testing and Materials as of August 10, 2005.

(3) Clean school bus

The term “clean school bus” means a school bus with a gross vehicle weight of greater than 14,000 pounds that—

(A) is powered by a heavy duty engine; and
(B) is operated solely on an alternative fuel or ultra-low sulfur diesel fuel.

(4) Eligible recipient

(A) In general

Subject to subparagraph (B), the term “eligible recipient” means—
(i) one or more local or State governmental entities responsible for providing school bus service to one or more public school systems or the purchase of school buses;
(ii) one or more contracting entities that provide school bus service to one or more public school systems; or
(iii) a nonprofit school transportation association.

(B) Special requirements

In the case of eligible recipients identified under clauses (i) and (ii) of subparagraph (A), the Administrator shall establish timely and appropriate requirements for notice and may establish timely and appropriate requirements for approval by the public school systems that would be served by buses purchased or retrofit using grant funds made available under this section.

(5) Retrofit technology

The term “retrofit technology” means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(6) Secretary

The term “Secretary” means the Secretary of Energy.

(7) Ultra-low sulfur diesel fuel

The term “ultra-low sulfur diesel fuel” means diesel fuel that contains sulfur at not more than 15 parts per million.

(b) Program for retrofit or replacement of certain existing school buses with clean school buses

(1) Establishment

(A) In general

The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible recipients for the replacement of, retrofit (including repowering, aftertreatment, and remanufactured engines) of, or purchase of alternative fuels for, certain existing school buses. The awarding of grants for the purchase of alternative fuels should be consistent with the historic funding levels of the program for such purchase.

(B) Balancing

In awarding grants under this section, the Administrator shall achieve, to the maximum extent practicable, an appropriate balance between awarding grants—

1 This section is substantially identical to section 16091 of this title.

2 So in original. The word “achieve” probably should not appear.
(i) to replace school buses;
(ii) to install retrofit technologies; and
(iii) to purchase and use alternative fuel.

(2) Priority of grant applications

(A) Replacement

In the case of grant applications to replace school buses, the Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(B) Retrofitting

In the case of grant applications to retrofit school buses, the Administrator shall give priority to applicants that propose to retrofit school buses manufactured in or after model year 1991.

(3) Use of school bus fleet

(A) In general

All school buses acquired or retrofitted with funds provided under this section shall be operated as part of the school bus fleet for which the grant was made for not less than 5 years.

(B) Maintenance, operation, and fueling

New school buses and retrofit technology shall be maintained, operated, and fueled according to manufacturer recommendations or State requirements.

(4) Retrofit grants

The Administrator may award grants under this section for up to 100 percent of the retrofit technologies and installation costs.

(5) Replacement grants

(A) Eligibility for 50 percent grants

The Administrator may award grants under this section for replacement of school buses in the amount of up to one-half of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 1.8 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and
(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2005 or 2006, the grant for the acquisition of ultra-low sulfur diesel fuel school buses with engines manufactured in model year 2007, 2008, or 2009 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter from school buses manufactured in that model year.

(B) Eligibility for 25 percent grants

The Administrator may award grants under this section for replacement of school buses in the amount of up to one-fourth of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(ii) clean school buses with engines manufactured in model year 2007, 2008, or 2009 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter from school buses manufactured in model year 2010.

(6) Ultra-low sulfur diesel fuel

(A) In general

In the case of a grant recipient receiving a grant for the acquisition of ultra-low sulfur diesel fuel school buses with engines manufactured in model year 2005 or 2006, the grant recipient shall provide, to the satisfaction of the Administrator—

(i) documentation that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant; and

(ii) a commitment by the applicant to use that fuel in carrying out the purposes of the grant.

(7) Deployment and distribution

The Administrator, to the maximum extent practicable, shall—

(A) achieve nationwide deployment of clean school buses through the program under this section; and

(B) ensure a broad geographic distribution of grant awards, with no State receiving more than 10 percent of the grant funding made available under this section during a fiscal year.

(8) Annual report

(A) In general

Not later than January 31 of each year, the Administrator shall submit to Congress a report that—

(i) evaluates the implementation of this section; and

(ii) describes—

(I) the total number of grant applications received; 
(II) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications; 
(III) grants awarded and the criteria used to select the grant recipients; 
(IV) certified engine emission levels of all buses purchased or retrofitted under this section; 
(V) an evaluation of the in-use emission level of buses purchased or retrofitted under this section; and

(VI) any other information the Administrator considers appropriate.

(c) Education

(1) In general

Not later than 90 days after August 10, 2005, the Administrator shall develop an education outreach program to promote and explain the grant program.

So in original. No subpar. (B) was enacted.
§ 16092. Diesel truck retrofit and fleet modernization program

(a) Establishment

The Administrator, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to public agencies and entities for fleet modernization programs including installation of retrofit technologies for diesel trucks.

(b) Eligible recipients

A grant shall be awarded under this section only to a State or local government or an agency or instrumentality of a State or local government or of two or more State or local governments who will allocate funds, with preference to ports and other major hauling operations.

(c) Awards

(1) In general

The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) Preferences

In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, and/or particulate matter per proposal or per truck; or

(B) involve the use of Environmental Protection Agency or California Air Resources Board verified emissions control retrofit technology on diesel trucks that operate solely on ultra-low sulfur diesel fuel after September 2006.

(d) Conditions of grant

A grant shall be provided under this section on the conditions that—

(1) trucks which are replacing scrapped trucks and on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1998 and before; and

(C) will be used for the transportation of cargo goods especially in port areas or used in goods movement and major hauling operations;

(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 50 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit, from any source other than this section.

(e) Verification

Not later than 90 days after August 8, 2005, the Administrator shall publish in the Federal Register procedures to—

(1) make grants pursuant to this section;

(2) verify that trucks powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur after September 2006; and

(3) verify that grants are administered in accordance with this section.

(f) Authorization of appropriations

There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended the following sums:

(1) $20,000,000,000 for fiscal year 2006.

(2) $35,000,000 for fiscal year 2007.

(3) $45,000,000 for fiscal year 2008.

(4) Such sums as are necessary for each of fiscal years 2009 and 2010.

CODIFICATION

Section was enacted as part of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users or the SAFETEA-LU, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

§ 16093. Fuel cell school buses

(a) Establishment

The Secretary shall establish a program for entering into cooperative agreements—

(1) with private sector fuel cell bus developers for the development of fuel cell-powered school buses; and

(2) subsequently, with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.
(b) Cost sharing

The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and
(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) Reports to Congress

Not later than 3 years after August 8, 2005, the Secretary shall transmit to Congress a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and
(2) assesses the results of the development and demonstration program under this section.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for the period of fiscal years 2006 through 2009.

PART D—MISCELLANEOUS

§ 16101. Railroad efficiency

(a) Establishment

The Secretary shall (in cooperation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency) establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase energy efficiency, reduce emissions, and lower costs of operation.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section:

(1) $15,000,000 for fiscal year 2006;
(2) $20,000,000 for fiscal year 2007; and
(3) $30,000,000 for fiscal year 2008.

ADVANCED TECHNOLOGY LOCOMOTIVE GRANT PILOT PROGRAM

"(c) Grant criteria.—In selecting applicants for grants under this section, the Secretary of Transportation shall consider—

"(1) the level of energy efficiency that would be achieved by the proposed project;
"(2) the extent to which the proposed project would assist in commercial deployment of hybrid or other energy-efficient locomotive technologies;
"(3) the extent to which the proposed project complements other private or governmental partnership efforts to improve air quality or fuel efficiency in a particular area; and
"(4) the extent to which the applicant demonstrates innovative strategies and a financial commitment to increasing energy efficiency and reducing greenhouse gas emissions of its railroad operations.

"(d) Competitive grant selection process.—

"(1) Applications.—A railroad carrier or State or local government seeking a grant under this section shall submit for approval by the Secretary of Transportation an application for the grant containing such information as the Secretary of Transportation may require.

"(2) Competitive selection.—The Secretary of Transportation shall conduct a national solicitation for applications for grants under this section and shall select grantees on a competitive basis.

"(e) Federal share.—The Federal share of the cost of a project under this section shall not exceed 80 percent of the project cost.

"(f) Report.—Not later than 3 years after the date of enactment of this Act [Dec. 19, 2007], the Secretary of Transportation shall submit to Congress a report on the results of the pilot program carried out under this section.

"(g) Authorization of appropriations.—There is authorized to be appropriated to the Secretary of Transportation $10,000,000 for each of the fiscal years 2008 through 2011 to carry out this section. Such funds shall remain available until expended."

§ 16102. Diesel fueled vehicles

(a) Definition of tier 2 emission standards

In this section, the term "tier 2 emission standards" means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 7521 and 7545 of this title.

(b) Diesel combustion and after-treatment technologies

The Secretary shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) Goals

The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:
   (A) Tier 2 emission standards.
   (B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of August 8, 2005.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, including homogeneous charge compression ignition technology.
§ 16103. Conserve by Bicycling Program

(a) Definitions

In this section:

(1) Program

The term “program” means the Conserve by Bicycling Program established by subsection (b).

(2) Secretary

The term “Secretary” means the Secretary of Transportation.

(b) Establishment

There is established within the Department of Transportation a program to be known as the “Conserve by Bicycling Program”.

(c) Projects

(1) In general

In carrying out the program, the Secretary shall establish not more than 10 pilot projects that are—

(A) dispersed geographically throughout the United States; and

(B) designed to conserve energy resources by encouraging the use of bicycles in place of motor vehicles.

(2) Requirements

A pilot project described in paragraph (1) shall—

(A) use education and marketing to convert motor vehicle trips to bicycle trips;

(B) document project results and energy savings (in estimated units of energy conserved);

(C) facilitate partnerships among interested parties in at least 2 of the fields of—

(i) transportation;

(ii) law enforcement;

(iii) education;

(iv) public health;

(v) environment; and

(vi) energy;

(D) maximize bicycle facility investments;

(E) demonstrate methods that may be used in other regions of the United States; and

(F) facilitate the continuation of ongoing programs that are sustained by local resources.

(3) Cost sharing

At least 20 percent of the cost of each pilot project described in paragraph (1) shall be provided from non-Federal sources.

(d) Energy and bicycling research study

(1) In general

Not later than 2 years after August 8, 2005, the Secretary shall enter into a contract with the National Academy of Sciences for, and the National Academy of Sciences shall conduct and submit to Congress a report on, a study on the feasibility of converting motor vehicle trips to bicycle trips.

(2) Components

The study shall—

(A) document the results or progress of the pilot projects under subsection (c);

(B) determine the type and duration of motor vehicle trips that people in the United States may feasibly make by bicycle, taking into consideration factors such as—

(i) weather;

(ii) land use and traffic patterns;

(iii) the carrying capacity of bicycles; and

(iv) bicycle infrastructure;

(C) determine any energy savings that would result from the conversion of motor vehicle trips to bicycle trips;

(D) include a cost-benefit analysis of bicycle infrastructure investments; and

(E) include a description of any factors that would encourage more motor vehicle trips to be replaced with bicycle trips.

(e) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $6,200,000, to remain available until expended, of which—

1. $5,150,000 shall be used to carry out pilot projects described in subsection (c);

2. $300,000 shall be used by the Secretary to coordinate, publicize, and disseminate the results of the program; and

3. $750,000 shall be used to carry out subsection (d).

§ 16104. Reduction of engine idling

(a) Definitions

In this section:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Advanced truck stop electrification system

The term “advanced truck stop electrification system” means a stationary system that delivers heat, air conditioning, electricity, or communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle with or without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

(3) Auxiliary power unit

The term “auxiliary power unit” means an integrated system that—

(A) provides heat, air conditioning, engine warming, or electricity to components on a heavy-duty vehicle; and

(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) Heavy-duty vehicle

The term “heavy-duty vehicle” means a vehicle that—

(A) has a gross vehicle weight rating greater than 8,500 pounds; and
(B) is powered by a diesel engine.

(5) Idle reduction technology

The term “idle reduction technology” means any device, system of devices, or equipment that—

(A) is used to reduce long-duration idling; and

(B) allows for the main drive engine or auxiliary refrigeration engine to be shut down.

(6) Energy conservation technology

The term “energy conservation technology” means any device, system of devices, or equipment that improves the fuel economy.

(7) Long-duration idling

(A) In general

The term “long-duration idling” means the operation of a main drive engine or auxiliary refrigeration engine, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.

(B) Exclusions

The term “long-duration idling” does not include the operation of a main drive engine or auxiliary refrigeration engine during a routine stoppage associated with traffic movement or congestion.

(b) Idle reduction technology benefits, programs, and studies

(1) In general

Not later than 90 days after August 8, 2005, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and

(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) Deadline for completion

Not later than 180 days after August 8, 2005, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available one or more reports on the results of the reviews.

(3) Discretionary inclusions

The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) Idle reduction and energy conservation deployment program

(A) Establishment

(i) In general

Not later than 90 days after August 8, 2005, the Administrator, in consultation with the Secretary of Transportation, shall—

(A) begin a study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

(i) truck stops;

(ii) rest areas;

(iii) border crossings;

(iv) ports;

(v) transfer facilities; and

(vi) private terminals.

(B) Deadline for completion

Not later than 180 days after August 8, 2005, the Administrator shall—
(i) complete the study under subparagrap­h (A); and
(ii) prepare and make publicly available one or more reports of the results of the study.

(c) Omitted

(d) Report

Not later than 60 days after the date on which funds are initially awarded under this section, and on an annual basis thereafter, the Administrator shall submit to Congress a report con­taining—

(1) an identification of the grant recipients, a description of the projects to be funded and the amount of funding provided; and
(2) an identification of all other applicants that submitted applications under the pro­gram.

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (b)(1)(A)(i), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

CODIFICATION

Section is comprised of section 756 of Pub. L. 109–58. Subsec. (c) of section 756 of Pub. L. 109–58 amended section 127 of Title 23, Highways.

§ 16105. Biodiesel engine testing program

(a) In general

Not later that 180 days after August 8, 2005, the Secretary shall initiate a partnership with diesel engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) Scope

The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;
(2) the impact of long-term use of biodiesel on engine operations;
(3) the options for optimizing these technolo­gies for both emissions and performance when switching between biodiesel and diesel fuel; and
(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur con­tent.

(c) Report

Not later than 2 years after August 8, 2005, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) Authorization of appropriations

There are authorized to be appropriated $5,000,000 for each of fiscal years 2006 through 2010 to carry out this section.

(e) Definition

For purposes of this section, the term “biodiesel” means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 7545 of this title and that meets the American Society for Testing and Materials D6751–02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

§ 16106. Ultra-efficient engine technology for aircraft

(a) Ultra-efficient engine technology partnership

The Secretary shall enter into a cooperative agreement with the National Aeronautics and Space Administration for the development of ultra-efficient engine technology for aircraft.

(b) Performance objective

The Secretary shall establish the following performance objectives for the program set forth in subsection (a):

(1) A fuel efficiency increase of at least 10 percent.
(2) A reduction in the impact of landing and takeoff nitrogen oxides emissions on local air quality of 70 percent.
(3) Exploring advanced concepts, alternate propulsion, and power configurations, including hybrid fuel cell powered systems.
(4) Exploring the use of alternate fuel in conventional or nonconventional turbine-based systems.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $50,000,000 for each of the fiscal years 2006, 2007, 2008, 2009, and 2010.

PART E—FEDERAL AND STATE PROCUREMENT

§ 16121. Definitions

In this part:

(1) Fuel cell

The term “fuel cell” means a device that directly converts the chemical energy of a fuel and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(2) Light-duty or heavy-duty vehicle fleet

The term “light-duty or heavy-duty vehicle fleet” does not include any vehicle designed or
§ 16122. Federal and State procurement of fuel cell vehicles and hydrogen energy systems

(a) Purposes

The purposes of this section are—

(1) to stimulate acceptance by the market of fuel cell vehicles and hydrogen energy systems;

(2) to support development of technologies relating to fuel cell vehicles, public refueling stations, and hydrogen energy systems; and

(3) to require the Federal government, when used in reference to a fuel cell, include—

(A) continuous electric power; and

(B) backup electric power.

(4) Task Force

The term “Task Force” means the Hydrogen and Fuel Cell Technical Task Force established under section 16155 of this title.

(5) Technical Advisory Committee

The term “Technical Advisory Committee” means the independent Technical Advisory Committee selected under section 16155 of this title.

(b) Federal leases and purchases

(1) Requirement

(A) In general

Not later than January 1, 2010, the head of any Federal agency that uses a light-duty or heavy-duty vehicle fleet shall lease or purchase fuel cell vehicles and hydrogen energy systems to meet any applicable energy savings goal described in subsection (c).

(B) Learning demonstration vehicles

The Secretary may lease or purchase appropriate vehicles developed under subsections (a)(10) and (b)(1)(A) of section 16157 of this title to meet the requirement in subparagraph (A).

(2) Costs of leases and purchases

(A) In general

The Secretary, in cooperation with the Task Force and the Technical Advisory Committee shall pay to Federal agencies (or share the cost under interagency agreements) the difference in cost between—

(i) the cost to the agencies of leasing or purchasing fuel cell vehicles and hydrogen energy systems under paragraph (1); and

(ii) the cost to the agencies of a feasible alternative to leasing or purchasing fuel cell vehicles and hydrogen energy systems, as determined by the Secretary.

(B) Competitive costs and management structures

In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a fuel cell vehicle or hydrogen energy system; or

(ii) a cost-effective management structure of the lease of a fuel cell vehicle or hydrogen energy system.

(3) Exception

(A) In general

If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable fuel cell vehicle or hydrogen energy system in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(B) Consideration

In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and

(ii) an evaluation performed by—

(I) the Task Force; or

(II) the Technical Advisory Committee.

(c) Energy savings goals

(1) In general

(A) Regulations

Not later than December 31, 2006, the Secretary shall—

(i) in cooperation with the Task Force, promulgate regulations for the period of 2008 through 2010 that extend and augment energy savings goals for each Federal agency, in accordance with any Executive order issued after March 2000; and

(ii) promulgate regulations to expand the minimum Federal fleet requirement and credit allowances for fuel cell vehicle systems under section 13212 of this title.

(B) Review, evaluation, and new regulations

Not later than December 31, 2010, the Secretary shall—

(i) review the regulations promulgated under subparagraph (A);

(ii) evaluate any progress made toward achieving energy savings by Federal agencies; and

(iii) promulgate new regulations for the period of 2011 through 2015 to achieve additional energy savings by Federal agencies relating to technical and cost-performance standards.

(2) Offsetting energy savings goals

An agency that leases or purchases a fuel cell vehicle or hydrogen energy system in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal of the agency.

(d) Cooperative program with State agencies

(1) In general

The Secretary may establish a cooperative program with State agencies managing motor vehicles to encourage—

(I) the use of alternative energy systems vehicles and hydrogen energy systems; and

(II) the creation of public refueling stations for fuel cell vehicles.

So in original. Probably should be capitalized.
vehicle fleets to encourage purchase of fuel cell vehicles by the agencies.

(2) Incentives

In carrying out the cooperative program, the Secretary may offer incentive payments to a State agency to assist with the cost of planning, differential purchases, and administration.

(e) Authorization of appropriations

There is authorized to be appropriated to carry out this section—

(1) $15,000,000 for fiscal year 2008;
(2) $25,000,000 for fiscal year 2009;
(3) $65,000,000 for fiscal year 2010; and
(4) such sums as are necessary for each of fiscal years 2011 through 2015.

§ 16123. Federal procurement of stationary, portable, and micro fuel cells

(a) Purposes

The purposes of this section are—

(1) to stimulate acceptance by the market of stationary, portable, and micro fuel cells; and
(2) to support development of technologies relating to stationary, portable, and micro fuel cells.

(b) Federal leases and purchases

(1) In general

Not later than January 1, 2006, the head of any Federal agency that uses electrical power from stationary, portable, or micro fuel cells shall lease or purchase a stationary, portable, or micro fuel cell to meet any applicable energy savings goal described in subsection (c).

(2) Costs of leases and purchases

(A) In general

The Secretary, in cooperation with the Task Force and the Technical Advisory Committee, shall pay the cost to Federal agencies (or share the cost under inter-agency agreements) of leasing or purchasing stationary, portable, and micro fuel cells under paragraph (1).

(B) Competitive costs and management structures

In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a stationary, portable, or micro fuel cell; or
(ii) a cost-effective management structure of the lease of a stationary, portable, or micro fuel cell.

(3) Exception

(A) In general

If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable stationary, portable, or micro fuel cell in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(b) Authorization of appropriations

There is authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2006;
(2) $50,000,000 for fiscal year 2007;
(3) $75,000,000 for fiscal year 2008;
(4) $100,000,000 for fiscal year 2009;
(5) $100,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2015.

PART F—DIESEL EMISSIONS REDUCTION

§ 16131. Definitions

In this part:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Certified engine configuration

The term “certified engine configuration” means a new, rebuilt, or remanufactured engine configuration—

(A) that has been certified or verified by—

(1) the Administrator; or
(2) the California Air Resources Board;

(B) that meets or is rebuilt or remanufactured to a more stringent set of engine emission standards, as determined by the Administrator; and

(C) in the case of a certified engine configuration involving the replacement of an existing engine or vehicle, an engine configuration that replaced an engine that was—

(1) removed from the vehicle; and
(2) returned to the supplier for remanufacturing to a more stringent set of engine emissions standards or for scrappage.

(3) Eligible entity

The term “eligible entity” means—

(A) a regional, State, local, or tribal agency or port authority with jurisdiction over transportation or air quality;
(B) a nonprofit organization or institution that—

(1) represents or provides pollution reduction or educational services to persons or organizations that own or operate diesel fleets; or

(B) Consideration

In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and
(ii) an evaluation performed by—

(I) the Task Force; or
(II) the Technical Advisory Committee of the Task Force.

(c) Energy savings goals

An agency that leases or purchases a stationary, portable, or micro fuel cell in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal described in section 16157 of this title that is applicable to the agency.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2006;
(2) $50,000,000 for fiscal year 2007;
(3) $75,000,000 for fiscal year 2008;
(4) $100,000,000 for fiscal year 2009;
(5) $100,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2015.

The term “eligible entity” means—

(A) a regional, State, local, or tribal agency or port authority with jurisdiction over transportation or air quality;
(B) a nonprofit organization or institution that—

(1) represents or provides pollution reduction or educational services to persons or organizations that own or operate diesel fleets; or

(B) Consideration

In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and
(ii) an evaluation performed by—

(I) the Task Force; or
(II) the Technical Advisory Committee of the Task Force.

(c) Energy savings goals

An agency that leases or purchases a stationary, portable, or micro fuel cell in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal described in section 16157 of this title that is applicable to the agency.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2006;
(2) $50,000,000 for fiscal year 2007;
(3) $75,000,000 for fiscal year 2008;
(4) $100,000,000 for fiscal year 2009;
(5) $100,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2015.

(ii) has, as its principal purpose, the promotion of transportation or air quality; and

(C) any private individual or entity that—

(i) is the owner of record of a diesel vehicle or fleet operated pursuant to a contract, license, or lease with a Federal department or agency or an entity described in subparagraph (A); and

(ii) meets such timely and appropriate requirements as the Administrator may establish for vehicle use and for notice to and approval by the Federal department or agency or entity described in subparagraph (A) with respect to which the owner has entered into a contract, license, or lease as described in clause (i).

(4) **Emerging technology**

The term “emerging technology” means a technology that is not currently, or has not been previously, certified or verified by the Administrator or the California Air Resources Board but for which an approvable application and test plan has been submitted for verification to the Administrator or the California Air Resources Board.

(5) **Fleet**

The term “fleet” means one or more diesel vehicles or mobile or stationary diesel engines.

(6) **Heavy-duty truck**

The term “heavy-duty truck” has the meaning given the term “heavy duty vehicle” in section 7521 of this title.

(7) **Medium-duty truck**

The term “medium-duty truck” has such meaning as shall be determined by the Administrator, by regulation.

(8) **State**

The term “State” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the United States Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(9) **Verified technology**

The term “verified technology” means a pollution control technology, including a retrofit technology or auxiliary power unit, that has been verified by—

(A) the Administrator; or

(B) the California Air Resources Board.

(42 U.S.C. 7521 note)
§ 16132

(2) Eligibility

(A) Grants

To be eligible to receive a grant under this section, an eligible entity shall submit to the Administrator an application at such time, in such manner, and containing such information as the Administrator may require.

(B) Rebates and low-cost loans

To be eligible to receive a rebate or a low-cost loan under this section, an eligible entity shall submit an application in accordance with such guidance as the Administrator may establish—

(i) to the Administrator; or

(ii) to an entity that has entered into a contract under subsection (e).

(3) Inclusions

An application under this subsection shall include—

(A) a description of the air quality of the area served by the eligible entity;

(B) the quantity of air pollution produced by the diesel fleets in the area served by the eligible entity;

(C) a description of the project proposed by the eligible entity, including—

(i) any certified engine configuration, verified technology, or emerging technology to be used or funded by the eligible entity; and

(ii) the means by which the project will achieve a significant reduction in diesel emissions;

(D) an evaluation (using methodology approved by the Administrator or the National Academy of Sciences) of the quantifiable and unquantifiable benefits of the emissions reductions of the proposed project;

(E) an estimate of the cost of the proposed project;

(F) a description of the age and expected lifetime control of the equipment used or funded by the eligible entity;

(G) in the case of an application relating to nonroad engines or vehicles, a description of the diesel fuel available in the area to be served by the eligible entity, including the sulfur content of the fuel; and

(H) provisions for the monitoring and verification of the project.

(4) Priority

In providing a grant, rebate, or loan under this section, the Administrator shall give highest priority to proposed projects that, as determined by the Administrator—

(A) maximize public health benefits;

(B) are the most cost-effective;

(C) serve areas—

(i) with the highest population density;

(ii) that are poor air quality areas, including areas identified by the Administrator as—

(I) in nonattainment or maintenance of national ambient air quality standards for a criteria pollutant;

(II) Federal Class I areas; or

(III) areas with toxic air pollutant concerns;

(iii) that receive a disproportionate quantity of air pollution from diesel fleets, including truckstops, ports, rail yards, terminals, construction sites, schools, and distribution centers; or

(iv) that use a community-based multi-stakeholder collaborative process to reduce toxic emissions;

(D) include a certified engine configuration, verified technology, or emerging technology that has a long expected useful life;

(E) will maximize the useful life of any certified engine configuration, verified technology, or emerging technology used or funded by the eligible entity; and

(F) conserve diesel fuel.

(d) Use of funds

(1) In general

An eligible entity may use a grant, rebate, or loan provided under this section to fund the costs of—

(A) a retrofit technology (including any incremental costs of a repowered or new diesel engine) that significantly reduces emissions through development and implementation of a certified engine configuration, verified technology, or emerging technology for—

(i) a bus;

(ii) a medium-duty truck or a heavy-duty truck;

(iii) a marine engine;

(iv) a locomotive; or

(v) a nonroad engine or vehicle used in—

(I) construction;

(II) handling of cargo (including at a port or airport);

(III) agriculture;

(IV) mining; or

(V) energy production; or

(B) programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described in subparagraph (A).

(2) Regulatory programs

(A) In general

Notwithstanding paragraph (1), no grant, rebate, or loan provided, or contract entered into, under this section shall be used to fund the costs of emissions reductions that are mandated under any Federal law, except that this subparagraph shall not apply to a mandate in a State implementation plan approved by the Administrator under the Clean Air Act [42 U.S.C. 7401 et seq.].

(B) Mandated

For purposes of subparagraph (A), voluntary or elective emission reduction meas-
ures shall not be considered “mandated”, regard-
less of whether the reductions are in-
cluded in the State implementation plan of a
State.

(e) Contract programs

(1) Authority

In addition to the use of contracting author-
ity otherwise available to the Administrator, the
Administrator may enter into contracts with eligible contractors described in para-
graph (2) for the administration of programs
for providing rebates or loans, subject to the
requirements of this part.

(2) Eligible contractors

The Administrator may enter into a con-
tact under this subsection with a for-profit or
nonprofit entity that has the capacity—

(A) to sell diesel vehicles or equipment to,
or to arrange financing for, individuals or
elements that own a diesel vehicle or fleet; or

(B) to upgrade diesel vehicles or equipment
with verified Environmental Protection
Agency-certified engines or technologies, or
to arrange financing for such upgrades.

(f) Public notification

Not later than 60 days after the date of the
award of a grant, rebate, or loan, the Adminis-
trator shall publish on the website of the Envi-
ronmental Protection Agency—

(1) for rebates and loans provided to the
owner of a diesel vehicle or fleet, the total
number and dollar amount of rebates or loans
provided, as well as a breakdown of the tech-
nologies funded through the rebates or loans; and

(2) for other rebates and loans, and for
grants, a description of each application for
which the grant, rebate, or loan is provided.

Stat. 4056.)

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (d)(2)(A), is
act July 14, 1955, ch. 360, 69 Stat. 322, which is classified
generally to chapter 85 (§7401 et seq.) of this title. For
complete classification of this Act to the Code, see
Short Title note set out under section 7401 of this title.

AMENDMENTS

after “grant” in section catchline.

“to provide grants, rebates, or low-cost revolving loans,
as determined by the Administrator, on a competitive
basis, to eligible entities, including through contracts
to other entities entered into under subsection (e) of this section,” for
“to provide grants and low-cost revolving loans, as
determined by the Administrator, on a competitive basis,
to eligible entities” in introductory provisions.

“tons of” before “pollution produced.”

Subsec. (b)(2). Pub. L. 111–364, §2(b)(3)(A), (B), redesign-
ated par. (3) as (2) and struck out former par. (2). Prior
to amendment, text read as follows: “The Adminis-
trator shall provide not less than 50 percent of funds
available for a fiscal year under this section to eligible entities for the benefit of public fleets.”

tuted “65” for “80” in introductory provisions.

tuted “5 percent” for “10 percent”.

tuted “a verification application” for “the application
under subsection (c)”.

Subsec. (b)(3). Pub. L. 111–364, §2(b)(3)(B), redesign-
ated par. (3) as (2).

Subsec. (c). Pub. L. 111–364, §2(b)(4)(A), (B), added pars. (1) and (2), redesignated former pars. (2) and (3) as
(3) and (4), respectively, and struck out former par. (1).

Prior to amendment, text of par. (1) read as follows:
“Prior to award of a grant, rebate, or loan, the Adminis-
trator shall provide not less than 50 percent of funds
available for a fiscal year under this section to eligible entities in the State implementation plan of a
State.”

“, rebate,” after “grant” and “highest” before “pri-
ority” in introductory provisions.

Subsec. (c)(4)(E) to (G). Pub. L. 111–364, §2(b)(4)(D)(v), inserted “construction sites, schools,” after “termi-
nals.”

Subsec. (c)(4)(E) to (G). Pub. L. 111–364, §2(b)(4)(D)(ii), substituted “diesel fleets” for “a diesel fleet” and in-
corporated “construction sites, schools,” after “termi-
nals.”

“, rebate,” after “grant” in introductory provisions.

Subsec. (d)(2). Pub. L. 111–364, §2(b)(5)(B), substi-
tuted “grant, rebate, or loan provided, or contract
entered into,” for “grant or loan provided” and “any
Federal law,” except that this subparagraph shall not
apply to a mandate in a State implementation plan ap-
proved by the Administrator under the Clean Air Act,”
for “Federal, State or local law”.

Subsecs. (e), (f). Pub. L. 111–364, §2(b)(6), added sub-
secs. (e) and (f).

EFFECTIVE DATE OF 2011 AMENDMENT

Amendment by Pub. L. 111–364 effective Oct. 1, 2011,
extcept as otherwise provided, see section 4 of Pub. L.
111–364, set out as a note under section 16131 of this
title.

§ 16133. State grant, rebate, and loan programs

(a) In general

Subject to the availability of adequate appro-
priations, the Administrator shall use 30 percent of
the funds made available for a fiscal year under
this part to support grant, rebate, and
loan programs administered by States that are
designed to achieve significant reductions in
diesel emissions.

(b) Applications

The Administrator shall—

(1) provide to States guidance for use in ap-
plying for grant, rebate, or loan funds under this
section, including information regard-
ing—

(A) the process and forms for applications;

(B) permissible uses of funds received; and

(C) the cost-effectiveness of various emis-
sion reduction technologies eligible to be
carried out using funds provided under this
section; and

(2) establish, for applications described in
paragraph (1)—

(A) an annual deadline for submission of the
applications;
(B) a process by which the Administrator shall approve or disapprove each application; and
(C) a streamlined process by which a State may renew an application described in paragraph (1) for subsequent fiscal years.

c Allocation of funds

(1) In general

For each fiscal year, the Administrator shall allocate among States for which applications are approved by the Administrator under subsection (b)(2)(B) funds made available to carry out this section for the fiscal year.

(2) Allocation

(A) In general

Except as provided in subparagraphs (B) and (C), using not more than 20 percent of the funds made available to carry out this part for a fiscal year, the Administrator shall provide to each State qualified for an allocation for the fiscal year an allocation equal to \( \frac{1}{53} \) of the funds made available for that fiscal year for distribution to States under this paragraph.

(B) Certain territories

(i) In general

Except as provided in clause (ii), Guam, the United States Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands shall collectively receive an allocation equal to \( \frac{1}{53} \) of the funds made available for that fiscal year for distribution to States under this subsection, divided equally among those 4 States.

(ii) Exception

If any State described in clause (i) does not qualify for an allocation under this paragraph, the Administrator shall reallocate pursuant to subparagraph (C).

(C) Reallocation

If any State does not qualify for an allocation under this paragraph, the share of funds otherwise allocated for that State under clause (i) shall be reallocated pursuant to subparagraph (C).

(3) State matching incentive

(A) In general

If a State agrees to match the allocation provided to the State under paragraph (2) for a fiscal year, the Administrator shall provide to the State for the fiscal year an additional amount equal to 50 percent of the allocation of the State under paragraph (2).

(B) Requirements

A State—

(i) may not use funds received under this part to pay a matching share required under this subsection; and
(ii) shall not be required to provide a matching share for any additional amount received under subparagraph (A).

(4) Unclaimed funds

Any funds that are not claimed by a State for a fiscal year under this subsection shall be used to carry out section 16132 of this title.

d Administration

(1) In general

Subject to paragraphs (2) and (3) and, to the extent practicable, the priority areas listed in section 16132(c)(3) of this title, a State shall use any funds provided under this section to develop and implement such grant, rebate, and low-cost revolving loan programs in the State as are appropriate to meet State needs and goals relating to the reduction of diesel emissions.

(2) Apportionment of funds

The chief executive of a State that receives funding under this section may determine the portion of funds to be provided as grants, rebates, or loans.

(3) Use of funds

A grant, rebate, or loan provided under this section shall be used to carry out section 16132 of this title.

(4) Priority

In providing grants, rebates, and loans under this section, a State shall use the priorities in section 16132(c)(4) of this title.

(5) Public notification

Not later than 60 days after the date of the award of a grant, rebate, or loan by a State, the State shall publish on the Web site of the State—

(A) for rebates, grants, and loans provided to the owner of a diesel vehicle or fleet, the total number and dollar amount of rebates, grants, or loans provided, as well as a breakdown of the technologies funded through the rebates, grants, or loans; and
(B) for other rebates, grants, and loans, a description of each application for which the grant, rebate, or loan is provided.

§ 16134. Evaluation and report
(a) In general
Not later than 1 year after the date on which funds are made available under this part, and biennially thereafter, the Administrator shall submit to Congress a report evaluating the implementation of the programs under this part.
(b) Inclusions
The report shall include a description of—
(1) the total number of grant applications received;
(2) each grant, rebate, or loan made under this part, including the amount of the grant, rebate, or loan;
(3) each project for which a grant, rebate, or loan is provided under this part, including the criteria used to select the grant, rebate, or loan recipients;
(4) the actual and estimated air quality and diesel fuel conservation benefits, cost-effectiveness, and cost-benefits of the grant, rebate, and loan programs under this part;
(5) the problems encountered by projects for which a grant, rebate, or loan is provided under this part;
(6) any other information the Administrator considers to be appropriate; and
(7) in the last report sent to Congress before January 1, 2016, an analysis of the need to continue the program, including an assessment of the size of the vehicle and engine fleet that could provide benefits from being retrofit under this program and a description of the number and types of applications that were not granted in the preceding year.

§ 16135. Outreach and incentives
(a) Definition of eligible technology
In this section, the term "eligible technology" means—
(1) a verified technology; or
(2) an emerging technology.
(b) Technology transfer program
(1) In general
The Administrator shall establish a program under which the Administrator—
(A) informs stakeholders of the benefits of eligible technologies; and
(B) develops nonfinancial incentives to promote the use of eligible technologies.
(2) Eligible stakeholders
Eligible stakeholders under this section include—
(A) equipment owners and operators;
(B) emission and pollution control technology manufacturers;
(C) engine and equipment manufacturers;
(D) State and local officials responsible for air quality management;
(E) community organizations; and
(F) public health, educational, and environmental organizations.
(c) State implementation plans
The Administrator shall develop appropriate guidance to provide credit to a State for emission reductions in the State created by the use of eligible technologies through a State implementation plan under section 7410 of this title.
(d) International markets
The Administrator, in coordination with the Department of Commerce and industry stakeholders, shall inform foreign countries with air quality problems of the potential of technology developed or used in the United States to provide emission reductions in those countries.

§ 16136. Effect of part
Nothing in this part affects any authority under the Clean Air Act (42 U.S.C. 7401 et seq.) in existence on the day before August 8, 2005.

References in Text
The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§ 16137. Authorization of appropriations
(a) In general
There is authorized to be appropriated to carry out this part $100,000,000 for each of fiscal years 2012 through 2024, to remain available until expended.
§ 16138. EPA authority to accept diesel emissions reduction Supplemental Environmental Projects

The Administrator of the Environmental Protection Agency (hereinafter, the “Agency”) may accept (notwithstanding sections 3302 and 1301 of title 31) diesel emissions reduction Supplemental Environmental Projects if the projects, as part of a settlement of any alleged violations of environmental law—

(1) protect human health or the environment;

(2) are related to the underlying alleged violations;

(3) do not constitute activities that the defendant would otherwise be legally required to perform; and

(4) do not provide funds for the staff of the Agency or for contractors to carry out the Agency’s internal operations.

CODIFICATION

Section was not enacted as part of the Energy Policy Act of 2005 which comprises this chapter.

§ 16152. Definitions

In this subchapter:

(1) Fuel cell

The term “fuel cell” means a device that directly converts the chemical energy of a fuel, which is supplied from an external source, and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(2) Heavy-duty vehicle

The term “heavy-duty vehicle” means a motor vehicle that—

(A) is rated at more than 8,500 pounds gross vehicle weight;

(B) has a curb weight of more than 6,000 pounds; or

(C) has a basic vehicle frontal area in excess of 45 square feet.

(3) Infrastructure

The term “infrastructure” means the equipment, systems, or facilities used to produce, distribute, deliver, or store hydrogen (except for onboard storage).
(4) Light-duty vehicle
The term “light-duty vehicle” means a motor vehicle that is rated at 8,500 or less pounds gross vehicle weight.

(5) Stationary; portable
The terms “stationary” and “portable”, when used in reference to a fuel cell, include—
(A) continuous electric power; and
(B) backup electric power.

(6) Task Force
The term “Task Force” means the Hydrogen and Fuel Cell Technical Task Force established under section 16155 of this title.

(7) Technical Advisory Committee
The term “Technical Advisory Committee” means the independent Technical Advisory Committee established under section 16156 of this title.

§ 16153. Plan
Not later than 6 months after August 8, 2005, the Secretary shall transmit to Congress a coordinated plan for the programs described in this subchapter and other programs of the Department that are directly related to fuel cells or hydrogen. The plan shall describe, at a minimum—
(1) the agenda for the next 5 years for the programs authorized under this subchapter, including the agenda for each activity enumerated in section 16154(e) of this title;
(2) the types of entities that will carry out the activities under this subchapter and what role each entity is expected to play;
(3) the milestones that will be used to evaluate the programs for the next 5 years;
(4) the most significant technical and non-technical hurdles that stand in the way of achieving the goals described in section 16154 of this title, and how the programs will address those hurdles; and
(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

§ 16154. Programs
(a) In general
The Secretary, in consultation with other Federal agencies and the private sector, shall conduct a research and development program on technologies relating to the production, purification, distribution, storage, and use of hydrogen energy, fuel cells, and related infrastructure.

(b) Goal
The goal of the program shall be to demonstrate and commercialize the use of hydrogen for transportation (in light-duty vehicles and heavy-duty vehicles), utility, industrial, commercial, and residential applications.

(c) Focus
In carrying out activities under this section, the Secretary shall focus on factors that are common to the development of hydrogen infrastructure and the supply of vehicle and electric power for critical consumer and commercial applications, and that achieve continuous technical evolution and cost reduction, particularly for hydrogen production, the supply of hydrogen, storage of hydrogen, and end uses of hydrogen that—
(1) steadily increase production, distribution, and end use efficiency and reduce life-cycle emissions;
(2) resolve critical problems relating to catalysts, membranes, storage, lightweight materials, electronic controls, manufacturability, and other problems that emerge from the program;
(3) enhance sources of renewable fuels and biofuels for hydrogen production; and
(4) enable widespread use of distributed electricity generation and storage.

(d) Public education and research
In carrying out this section, the Secretary shall support enhanced public education and research conducted at institutions of higher education in fundamental sciences, application design, and systems concepts (including education and research relating to materials, subsystems, manufacturability, maintenance, and safety) relating to hydrogen and fuel cells.

(e) Activities
The Secretary, in partnership with the private sector, shall conduct programs to address—
(1) production of hydrogen from diverse energy sources, including—
(A) fossil fuels, which may include carbon capture and sequestration;
(B) hydrogen-carrier fuels (including ethanol and methanol);
(C) renewable energy resources, including biomass; and
(D) nuclear energy;
(2) use of hydrogen for commercial, industrial, and residential electric power generation;
(3) safe delivery of hydrogen or hydrogen-carrier fuels, including—
(A) transmission by pipeline and other distribution methods; and
(B) convenient and economic refueling of vehicles either at central refueling stations or through distributed onsite generation;
(4) advanced vehicle technologies, including—
(A) engine and emission control systems; and
(B) energy storage, electric propulsion, and hybrid systems;
(C) automotive materials; and
(D) other advanced vehicle technologies;
(5) storage of hydrogen or hydrogen-carrier fuels, including development of materials for safe and economic storage in gaseous, liquid, or solid form at refueling facilities and onboard vehicles;
(6) development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for nat-
ural gas, fuel cell stack and system reliability, low temperature operation, and cold start capability; and
(7) the ability of domestic automobile manufacturers to manufacture commercially available competitive hybrid vehicle technologies in the United States.

(f) Program goals
(1) Vehicles
For vehicles, the goals of the program are—
(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and
(B) to enable production, delivery, and acceptance by consumers of model year 2020 hydrogen fuel cell and other hydrogen-powered vehicles that will have, when compared to light duty vehicles in model year 2005—
(i) fuel economy that is substantially higher;
(ii) substantially lower emissions of air pollutants; and
(iii) equivalent or improved vehicle fuel system crash integrity and occupant protection.

(2) Hydrogen energy and energy infrastructure
For hydrogen energy and energy infrastructure, the goals of the program are to enable a commitment not later than 2015 that will lead to infrastructure by 2020 that will provide—
(A) safe and convenient refueling;
(B) improved overall efficiency;
(C) widespread availability of hydrogen from domestic energy sources through—
(i) production, with consideration of emissions levels;
(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and
(iii) storage, including storage in surface transportation vehicles;
(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, micro, critical needs facilities, and transportation applications; and
(E) other technologies consistent with the Department’s plan.

(3) Fuel cells
The goals for fuel cells and their portable, stationary, and transportation applications are to enable—
(A) safe, economical, and environmentally sound hydrogen fuel cells;
(B) fuel cells for light duty and other vehicles; and
(C) other technologies consistent with the Department’s plan.

(g) Funding
(1) In general
The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.

(2) Research centers
Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(h) Hydrogen supply
There are authorized to be appropriated to carry out projects and activities relating to hydrogen production, storage, distribution and dispensing, transport, education and coordination, and technology transfer under this section—
(1) $160,000,000 for fiscal year 2006;
(2) $200,000,000 for fiscal year 2007;
(3) $220,000,000 for fiscal year 2008;
(4) $230,000,000 for fiscal year 2009;
(5) $250,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

(i) Fuel cell technologies
There are authorized to be appropriated to carry out projects and activities relating to fuel cell technologies under this section—
(1) $150,000,000 for fiscal year 2006;
(2) $160,000,000 for fiscal year 2007;
(3) $170,000,000 for fiscal year 2008;
(4) $180,000,000 for fiscal year 2009;
(5) $200,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.
(D) uniform hydrogen codes, standards, and safety protocols; and
(E) vehicle hydrogen fuel system integrity safety performance.

(2) Activities
The Task Force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The Task Force shall—
(A) foster the exchange of generic, nonproprietary information and technology among industry, academia, and government;
(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;
(C) integrate technical and other information made available as a result of the programs and activities under this subchapter;
(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and
(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users.

(c) Agency cooperation
The heads of all agencies, including those whose agencies are not represented on the Task Force, shall cooperate with and furnish information to the Task Force, the Technical Advisory Committee, and the Department.

§ 16156. Technical Advisory Committee

(a) Establishment
The Hydrogen Technical and Fuel Cell Advisory Committee is established to advise the Secretary on the programs and activities under this subchapter.

(b) Membership
(1) Members
The Technical Advisory Committee shall be comprised of not fewer than 12 nor more than 25 members. The members shall be appointed by the Secretary to represent domestic industry, academia, professional societies, government agencies, Federal laboratories, previous advisory panels, and financial, environmental, and other appropriate organizations based on the Department’s assessment of the technical and other qualifications of Technical Advisory Committee members and the needs of the Technical Advisory Committee.

(2) Terms
The term of a member of the Technical Advisory Committee shall not be more than 3 years. The Secretary may appoint members of the Technical Advisory Committee in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the Technical Advisory Committee. A member of the Technical Advisory Committee whose term is expiring may be reappointed.

(3) Chairperson
The Technical Advisory Committee shall have a chairperson, who shall be elected by the members from among their number.

(c) Review
The Technical Advisory Committee shall review and make recommendations to the Secretary on—
(1) the implementation of programs and activities under this subchapter;
(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and
(3) the plan under section 16153 of this title.

(d) Response
(1) Consideration of recommendations
The Secretary shall consider, but need not adopt, any recommendations of the Technical Advisory Committee under subsection (c).

(2) Biennial report
The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Technical Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations, or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President’s budget proposal.

(e) Support
The Secretary shall provide resources necessary in the judgment of the Secretary for the Technical Advisory Committee to carry out its responsibilities under this subchapter.

§ 16157. Demonstration

(a) In general
In carrying out the programs under this section, the Secretary shall fund a limited number of demonstration projects, consistent with this subchapter and a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—
(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;
(2) depend on reliable power from hydrogen to carry out essential activities;
(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;
(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;
§ 16158  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8276

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen fuel infrastructure;
(6) raise awareness of hydrogen technology among the public;
(7) facilitate identification of an optimum technology among competing alternatives;
(8) address distributed generation using renewable sources;
(9) carry out demonstrations of evolving hydrogen and fuel cell technologies in national parks, remote island areas, and on Indian tribal land, as selected by the Secretary;
(10) carry out a program to demonstrate developmental hydrogen and fuel cell systems for mobile, portable, and stationary uses, using improved versions of the learning demonstrations program concept of the Department including demonstrations involving—
(A) light-duty vehicles;
(B) heavy-duty vehicles;
(C) fleet vehicles;
(D) specialty industrial and farm vehicles; and
(E) commercial and residential portable, continuous, and backup electric power generation;
(11) in accordance with any code or standards developed in a region, fund prototype, pilot fleet, and infrastructure regional hydrogen supply corridors along the interstate highway system in varied climates across the United States; and
(12) fund demonstration programs that explore the use of hydrogen blends, hybrid hydrogen, and hydrogen reformed from renewable agricultural fuels, including the use of hydrogen in hybrid electric, heavier duty, and advanced internal combustion-powered vehicles.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (12).

(b) System demonstrations

(1) 1 In general

As a component of the demonstration program under this section, the Secretary shall provide grants, on a cost share basis as appropriate, to eligible entities (as determined by the Secretary) for use in—
(A) devising system design concepts that provide for the use of advanced composite vehicles in programs under section 16122 of this title that—
(i) have as a primary goal the reduction of drive energy requirements;
(ii) after 2010, add another research and development phase, as defined in subsection (c), including the vehicle and infrastructure partnerships developed under the learning demonstrations program concept of the Department; and
(iii) are managed through an enhanced FreedomCAR program within the Department that encourages involvement in cost-shared projects by manufacturers and governments; and
(B) designing a local distributed energy system that—
(i) incorporates renewable hydrogen production, off-grid electricity production, and fleet applications in industrial or commercial service;
(ii) integrates energy or applications described in clause (i), such as stationary, portable, micro, and mobile fuel cells, into a high-density commercial or residential building complex or agricultural community; and
(iii) is managed in cooperation with industry, State, tribal, and local governments, agricultural organizations, and nonprofit generators and distributors of electricity.

(c) Identification of new program requirements

In carrying out the demonstrations under subsection (a), the Secretary, in consultation with the Task Force and the Technical Advisory Committee, shall—
(1) after 2008 for stationary and portable applications, and after 2010 for vehicles, identify new requirements that refine technological concepts, planning, and applications; and
(2) during the second phase of the learning demonstrations under subsection (b)(1)(A)(ii), redesign subsequent program work to incorporate those requirements.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section—
(1) $4,000,000 for fiscal year 2006;
(2) $7,000,000 for fiscal year 2007;
(3) $200,000,000 for fiscal year 2008;
(4) $250,000,000 for fiscal year 2009;
(5) $375,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

§ 16158. Codes and standards

(a) In general

The Secretary, in cooperation with the Task Force, shall provide grants to, or offer to enter into contracts with, such professional organizations, public service organizations, and government agencies as the Secretary determines appropriate to support timely and extensive development of safety codes and standards relating to fuel cell vehicles, hydrogen energy systems, and stationary, portable, and micro fuel cells.

(b) Educational efforts

The Secretary shall support educational efforts by organizations and agencies described in subsection (a) to share information, including information relating to best practices, among those organizations and agencies.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out this section—
(1) $4,000,000 for fiscal year 2006;
(2) $7,000,000 for fiscal year 2007;
(3) $8,000,000 for fiscal year 2008;
(4) $10,000,000 for fiscal year 2009;

1 So in original. No par. (2) has been enacted.
§ 16159. Disclosure

Section 13233 of this title shall apply to any project carried out through a grant, cooperative agreement, or contract under this subchapter.

§ 16160. Reports

(a) Secretary

Subject to subsection (c), not later than 2 years after August 8, 2005, and triennially thereafter, the Secretary shall submit to Congress a report describing—

(1) activities carried out by the Department under this subchapter, for hydrogen and fuel cell technology;

(2) measures the Secretary has taken during the preceding 2 years to support the transition of primary industry (or a related industry) to a fully commercialized hydrogen economy;

(3) any change made to the strategy relating to hydrogen and fuel cell technology to reflect the results of a learning demonstrations;

(4) progress, including progress in infrastructure, made toward achieving the goal of producing and deploying not less than—

(A) 100,000 hydrogen-fueled vehicles in the United States by 2010; and

(B) 2,500,000 hydrogen-fueled vehicles in the United States by 2020;

(5) progress made toward achieving the goal of supplying hydrogen at a sufficient number of fueling stations in the United States by 2010 including by integrating—

(A) hydrogen activities; and

(B) associated targets and timetables for the development of hydrogen technologies;

(6) any problem relating to the design, execution, or funding of a program under this subchapter;

(7) progress made toward and goals achieved in carrying out this subchapter and updates to the developmental roadmap, including the results of the reviews conducted by the National Academy of Sciences under subsection (b) for the fiscal years covered by the report; and

(8) any updates to strategic plans that are necessary to meet the goals described in paragraph (4).

(b) External review

The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under sections 16154 and 16157 of this title every fourth year following August 8, 2005. The Academy’s review shall include the program priorities and technical milestones, and evaluate the progress toward achieving them. The first review shall be completed not later than 5 years after August 8, 2005. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review’s recommendations or an explanation for the reasons that a recommendation will not be implemented.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2006 through 2020.

§ 16161. Solar and wind technologies

(a) Solar energy technologies

The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this subchapter related to solar energy technologies and for implementing the recommendations related to solar energy technologies that are included in the report transmitted under subsection (e);

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at solar energy facilities, including one demonstration project at a National Laboratory or institution of higher education;

(3) establish a program—

(A) to develop optimized concentrating solar power devices that may be used for the production of both electricity and hydrogen; and

(B) to evaluate the use of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power devices;

(4) coordinate with activities sponsored by the Department’s Office of Nuclear Energy, Science, and Technology on high-temperature materials, thermochemical cycles, and economic issues related to solar energy;

(5) provide for the construction and operation of new concentrating solar power devices or solar power cogeneration facilities that produce hydrogen either concurrently with, or independently of, the production of electricity;

(6) support existing facilities and programs of study related to concentrating solar power devices; and

(7) establish a program—

(A) to develop methods that use electricity from photovoltaic devices for the onsite production of hydrogen, such that no intermediate transmission or distribution infrastructure is required or used and future demand growth may be accommodated;

(B) to evaluate the economics of small-scale electrolysis for hydrogen production; and

(C) to study the potential of modular photovoltaic devices for the development of a hydrogen infrastructure, the security implications of a hydrogen infrastructure, and the benefits potentially derived from a hydrogen infrastructure.

(b) Wind energy technologies

The Secretary shall—

1So in original. The comma probably should not appear.
§ 16162. Technology transfer

In carrying out this subchapter, the Secretary shall carry out programs that—

1. provide for the transfer of critical hydrogen and fuel cell technologies to the private sector;
2. accelerate wider application of those technologies in the global market;
3. foster the exchange of generic, nonproprietary information; and
4. assess technical and commercial viability of technologies relating to the production, distribution, storage, and use of hydrogen energy and fuel cells.

§ 16163. Miscellaneous provisions

(a) Representation

The Secretary may represent the United States interests with respect to activities and programs under this subchapter, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

1. other Federal, State, regional, and local governments and their representatives;
2. industry and its representatives, including members of the energy and transportation industries; and
3. in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) Regulatory authority

Nothing in this subchapter shall be construed to alter the regulatory authority of the Department.

§ 16164. Cost sharing

The costs of carrying out projects and activities under this subchapter shall be shared in accordance with section 16952 of this title.

§ 16165. Savings clause

Nothing in this subchapter shall be construed to affect the authority of the Secretary of Transportation that may exist prior to August 8, 2005, with respect to—
(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49;

(2) regulation of hazardous materials transportation under chapter 51 of title 49;

(3) regulation of pipeline safety under chapter 601 of title 49;

(4) encouragement and promotion of research, development, and deployment activities relating to advanced vehicle technologies under section 5506 of title 49;

(5) regulation of motor vehicle safety under chapter 301 of title 49;

(6) automobile fuel economy under chapter 329 of title 49; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49.

REFERENCES IN TEXT

SUBCHAPTER IX—RESEARCH AND DEVELOPMENT

§16182. Definitions

In this subchapter:

(1) Departmental mission

The term “departmental mission” means any of the functions vested in the Secretary by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(2) Hispanic-serving institution

The term “Hispanic-serving institution” has the meaning given the term in section 1101(a)(2) of title 20.

(3) Nonmilitary energy laboratory

The term “nonmilitary energy laboratory” means a National Laboratory other than a National Laboratory listed in subparagraph (G), (H), or (N) of section 19801(3) of this title.

(4) Part B institution

The term “part B institution” has the meaning given the term in section 1001 of title 20.

(5) Single-purpose research facility

The term “single-purpose research facility” means—

(A) any of the primarily single-purpose entities owned by the Department; or

(B) any other organization of the Department designated by the Secretary.

(6) University

The term “university” has the meaning given the term “institution of higher education” in section 1001 of title 20.

§ 16183. Energy and water for sustainability

(a) Nexus of energy and water for sustainability

(1) Definitions

In this section:

(A) Department

The term “Department” means the Department of Energy.

(B) Energy-water nexus

The term “energy-water nexus” means the links between—

(i) the water needed to produce fuels, electricity, and other forms of energy; and

(ii) the energy needed to transport, recover, reclaim, and treat water and wastewater.

(C) Interagency RD&D Coordination Committee

The term “Interagency RD&D Coordination Committee” means the Interagency RD&D Coordination Committee on the Nexus of Energy and Water for Sustainability (or the “NEWS RD&D Committee”) established under paragraph (3)(A).

(D) Nexus of Energy and Water Sustainability RD&D Office; NEWS RD&D Office

The term “Nexus of Energy and Water Sustainability RD&D Office” or the “NEWS RD&D Office” means an office located at the Department and managed in cooperation with the Department of the Interior pursuant to an agreement between the 2 agencies to carry out leadership and administrative functions for the Interagency RD&D Coordination Committee.

(E) RD&D

The term “RD&D” means research, development, and demonstration.

(F) Secretary

The term “Secretary” means the Secretary of Energy.

(2) Statement of policy

Recognizing States’ primacy over allocation and administration of water resources (except in specific instances where preempted under Federal law) and the siting of energy infrastructure within State boundaries on non-Federal lands, it is the national policy that the Federal government, in all energy-water nexus management activities, shall maximize coordination and consultation among Federal agencies and with State and local governments, and disseminate information to the public in the most effective manner.

(3) Interagency RD&D Coordination Committee

(A) Establishment

Not later than 180 days after December 27, 2020, the Secretary and the Secretary of the Interior shall establish the joint NEWS RD&D Office and Interagency RD&D Coordination Committee on the Nexus of Energy and Water for Sustainability (or the “NEWS RD&D Committee”) to carry out the duties described in subparagraph (C).

(B) Administration

(i) Chairs

The Secretary and the Secretary of the Interior shall jointly manage the NEWS RD&D Office and serve as co-chairs of the Interagency RD&D Coordination Committee.

(ii) Membership; staffing

Membership and staffing shall be determined by the co-chairs.

(C) Duties

The Interagency RD&D Coordination Committee shall—

(i) serve as a forum for developing common Federal goals and plans on energy-water nexus RD&D activities, in coordination with the National Science and Technology Council;

(ii) not later than 1 year after December 27, 2020, and biennially thereafter, issue a strategic plan on energy-water nexus RD&D activities, priorities, and objectives pursuant to subparagraph (D), which shall be developed in consultation with relevant State and local governments;

(iii) convene and promote coordination of RD&D activities of relevant Federal departments and agencies on energy-water nexus;

(iv) (I) coordinate and develop capabilities and methodologies related to RD&D activities for data collection, data communication protocols (including models and modeling results), data management, and dissemination of validated data and results related to energy-water nexus RD&D activities to requesting Federal departments and agencies; and

(II) promote information exchange between Federal departments and agencies—

(aa) to identify and document Federal and non-Federal RD&D programs and funding opportunities that support basic and applied RD&D proposals to advance energy-water nexus related science and technologies;

(bb) to leverage existing RD&D programs by encouraging joint solicitations, block grants, and matching programs with non-Federal entities; and

(cc) to identify opportunities for domestic and international public-private
partnerships, innovative financing mechanisms, and information and data exchange with respect to RD&D activities;

(v) identify ways to leverage existing RD&D programs, including programs at the State and local level;

(vi) make publicly available the results of RD&D activities on the energy water nexus;

(vii) with regard to RD&D programs, recommend improvements and best practices for the collection and dissemination of federal water use data and the use of monitoring networks; and

(viii) promote coordination on RD&D with non-Federal interests by—

(I) consulting with representatives of research and academic institutions, State, local, and Tribal governments, public utility commissions, and industry, who have expertise in technologies, technological innovations, or practices relating to the energy-water nexus; and

(II) considering conducting technical workshops.

(D) Strategic plan

In developing the strategic plan pursuant to (C)(ii), the Interagency RD&D Coordination Committee shall—

(i) to the maximum extent possible, avoid duplication with other Federal RD&D programs, and projects, including with those of the National Laboratories;

(ii) consider inclusion of specific research, development and demonstration needs, including—

(I) innovative practices, technologies and other advancements improving water efficiency, treatment, recovery, or reuse associated with energy generation, including cooling, and fuel production;

(II) innovative practices, technologies and other advancements associated with energy use in water collection, supply, delivery, distribution, treatment, or reuse;

(III) innovative practices, technologies and other advancements associated with generation or production of energy from water or wastewater systems; and

(IV) modeling and systems analysis related to energy-water nexus; and

(iii) submit the plan to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives.

(E) Rules of construction

(i) Nothing in this section grants to the Interagency RD&D Coordination Committee the authority to promulgate regulations or set standards.

(ii) Notwithstanding any other provision of law, nothing in this section shall be construed to require State, Tribal, or local governments to take any action that may result in an increased financial burden to such governments.

(F) Additional participation

In developing the strategic plan described in subparagraph (C)(ii), the Secretary shall consult and coordinate with a diverse group of representatives from research and academic institutions, industry, public utility commissions, and State and local governments who have expertise in technologies and practices relating to the energy-water nexus.

(G) Review; report

At the end of the 5-year period beginning on the date on which the Interagency RD&D Coordination Committee and NEWS RD&D Office are established, the NEWS RD&D Office shall—

(i) review the activities, relevance, and effectiveness of the Interagency RD&D Coordination Committee; and

(ii) submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives a report that—

(I) describes the results of the review conducted under clause (i); and

(II) includes a recommendation on whether the Interagency RD&D Coordination Committee should continue.

(4) Crosscut budget

Not later than 30 days after the President submits the budget of the United States Government under section 1105 of title 31, the co-chairs of the Interagency RD&D Coordination Committee (acting through the NEWS RD&D Office) shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives, an interagency budget crosscut report that displays at the program-, project-, and activity-level for each of the Federal agencies that carry out or support (including through grants, contracts, interagency and intraagency transfers, and multiyear and no-year funds) basic and applied RD&D activities to advance the energy-water nexus related science and technologies, including—

(A) the budget proposed in the budget request of the President for the upcoming fiscal year;

(B) expenditures and obligations for the prior fiscal year; and

(C) estimated expenditures and obligations for the current fiscal year.

(5) Termination

(A) In general

The authority provided to the NEWS RD&D Office and NEWS RD&D Committee under this subsection shall terminate on the date that is 7 years after December 27, 2020.

(B) Effect

The termination of authority under subparagraph (A) shall not affect ongoing interagency planning, coordination, or other RD&D activities relating to the energy-water nexus.
(b) Integrating energy and water research

The Secretary shall integrate the following considerations into energy RD&D programs and projects of the Department by—

(1) advancing RD&D for energy and energy efficiency technologies and practices that meet the objectives of—
(A) minimizing freshwater withdrawal and consumption;
(B) increasing water use efficiency; and
(C) utilizing nontraditional water sources;
(2) considering the effects climate variability may have on water supplies and quality for energy generation and fuel production; and
(3) improving understanding of the energy-water nexus (as defined in subsection (a)(1)).

(c) Additional activities

The Secretary may provide for such additional RD&D activities as appropriate to integrate the considerations described in subsection (b) into the RD&D activities of the Department.

Codification
Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART A—ENERGY EFFICIENCY

§ 16191. Energy efficiency

(a) In general

(1) Objectives

The Secretary shall conduct programs of energy efficiency research, development, demonstration, and commercial application, including activities described in this part. Such programs shall take into consideration the following objectives:

(A) Increasing the energy efficiency of vehicles, buildings, and industrial processes;
(B) Reducing the demand of the United States for energy, especially energy from foreign sources;
(C) Reducing the cost of energy and making the economy more efficient and competitive;
(D) Improving the energy security of the United States;
(E) Reducing the environmental impact of energy-related activities.

(2) Programs

Programs under this part shall include research, development, demonstration, and commercial application of—

(A) advanced, cost-effective technologies to improve the energy efficiency and environmental performance of vehicles, including—
(i) hybrid and electric propulsion systems;
(ii) plug-in hybrid systems;
(iii) advanced combustion engines;
(iv) weight and drag reduction technologies;
(v) whole-vehicle design optimization; and
(vi) advanced drive trains;
(B) cost-effective technologies, for new construction and retrofit, to improve the energy efficiency and environmental performance of buildings, using a whole-buildings approach, including onsite renewable energy generation;
(C) advanced technologies to improve the energy efficiency, environmental performance, and process efficiency of energy-intensive and waste-intensive industries;
(D) advanced control devices to improve the energy efficiency of electric motors, including those used in industrial processes, heating, ventilation, and cooling; and
(E) technologies to improve the energy efficiency of appliances and mechanical systems for buildings in cold climates, including combined heat and power units and increased use of renewable resources, including fuel.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out energy efficiency and conservation research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $783,000,000 for fiscal year 2007;
(2) $865,000,000 for fiscal year 2008; and
(3) $952,000,000 for fiscal year 2009.

(c) Allocations

From amounts authorized under subsection (b), the following sums are authorized:

(1) For activities under section 16192 of this title, $50,000,000 for each of fiscal years 2007 through 2009.
(2) For activities under section 16195 of this title, $7,000,000 for each of fiscal years 2007 through 2009.
(3) For activities under subsection (a)(2)(A)—
(A) $200,000,000 for fiscal year 2007;
(B) $270,000,000 for fiscal year 2008; and
(C) $310,000,000 for fiscal year 2009.
(4) For activities under subsection (a)(2)(D), $2,000,000 for each of fiscal years 2007 and 2008.

(d) Extended authorization

There are authorized to be appropriated to the Secretary to carry out section 16192 of this title $50,000,000 for each of fiscal years 2010 through 2013.

(e) Limitations

None of the funds authorized to be appropriated under this section may be used for—

(1) the issuance or implementation of energy efficiency regulations;
(2) the weatherization program established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);
(3) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or
(4) a Federal energy management measure carried out under part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.).
REFERENCES IN TEXT

The Secretary shall carry out the research activities of the Initiative through competitively awarded grants to—

(1) researchers, including Industry Alliance participants;
(2) small businesses;
(3) National Laboratories; and
(4) institutions of higher education.

The information and roadmaps under paragraph (2) shall be available to the public.

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;
(B) an assessment of the progress of the research activities of the Initiative; and
(C) assistance in annually updating solid-state lighting technology roadmaps.

Availability to public

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;
(B) an assessment of the progress of the research activities of the Initiative; and
(C) assistance in annually updating solid-state lighting technology roadmaps.

Development, demonstration, and commercial application

(1) In general

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;
(B) an assessment of the progress of the research activities of the Initiative; and
(C) assistance in annually updating solid-state lighting technology roadmaps.

(2) Preference

In making the awards, the Secretary may give preference to participants in the Industry Alliance.

Cost sharing

In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(a) Definitions

In this section:

(1) Advanced solid-state lighting

The term “advanced solid-state lighting” means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) Industry Alliance

The term “Industry Alliance” means an entity selected by the Secretary under subsection (d).

(3) Initiative

The term “Initiative” means the Next Generation Lighting Initiative carried out under this section.

(4) Research

The term “research” includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(5) White light emitting diode

The term “white light emitting diode” means a semiconducting package, using either organic or inorganic materials, that produces white light using externally applied voltage.

(b) Initiative

The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(c) Objectives

The objectives of the Initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting, are more energy-efficient and cost-competitive, and have less environmental impact.

(d) Industry Alliance

Not later than 90 days after August 8, 2005, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms, open to large and small businesses, that, as a group, are broadly representative of United States solid-state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(e) Research

(1) Grants

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;
(B) an assessment of the progress of the research activities of the Initiative; and
(C) assistance in annually updating solid-state lighting technology roadmaps.

(2) Availability to public

The information and roadmaps under paragraph (2) shall be available to the public.

Development, demonstration, and commercial application

(1) In general

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;
(B) an assessment of the progress of the research activities of the Initiative; and
(C) assistance in annually updating solid-state lighting technology roadmaps.

(2) Preference

In making the awards, the Secretary may give preference to participants in the Industry Alliance.

Cost sharing

In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(h) Intellectual property

The Secretary may require (in accordance with section 202(a)(ii) of title 35, section 2182 of this title, and section 5908 of this title) that for any new invention developed under subsection (e)—

(1) that the Industry Alliance participants who are active participants in research, devel-
opment, and demonstration activities related to the advanced solid-state lighting technologies that are covered by this section shall be granted the first option to negotiate with the invention owner, at least in the field of solid-state lighting, nonexclusive licenses and royalties on terms that are reasonable under the circumstances;

(2)(A) that, for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in paragraph (1); and

(B) that, during the year described in subparagraph (A), the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in paragraph (1); and

(3) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(i) National Academy review

The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct periodic reviews of the Initiative.

§ 16193. National Building Performance Initiative

(a) Interagency group

(1) In general

Not later than 90 days after August 8, 2005, the Director of the Office of Science and Technology Policy shall establish an interagency group to develop, in coordination with the advisory committee established under subsection (e), a National Building Performance Initiative (referred to in this section as the "Initiative").

(2) Cochairs

The interagency group shall be co-chaired by appropriate officials of the Department and the Department of Commerce, who shall jointly arrange for the provision of necessary administrative support to the group.

(b) Integration of efforts

The Initiative shall integrate Federal, State, and voluntary private sector efforts to reduce the costs of construction, operation, maintenance, and renovation of commercial, industrial, institutional, and residential buildings.

(c) Plan

(1) In general

Not later than 1 year after August 8, 2005, the interagency group shall submit to Congress a plan for carrying out the appropriate Federal role in the Initiative.

(2) Inclusions

The plan shall include—

(A) research, development, demonstration, and commercial application of energy technology systems and materials for new construction and retrofit relating to the building envelope and building system components;

(B) research, development, demonstration, and commercial application of energy technology and infrastructure enabling the energy efficient, automated operation of buildings and building equipment; and

(C) the collection, analysis, and dissemination of research results and other pertinent information on enhancing building performance to industry, government entities, and the public.

(d) Department of Energy role

Within the Federal portion of the Initiative, the Department shall be the lead agency for all aspects of building performance related to use and conservation of energy.

(e) Advisory committee

The Director of the Office of Science and Technology Policy shall establish an advisory committee to—

(1) analyze and provide recommendations on potential private sector roles and participation in the Initiative; and

(2) review and provide recommendations on the plan described in subsection (c).

(f) Administration

Nothing in this section provides any Federal agency with new authority to regulate building performance.

§ 16194. Building standards

(a) Definition of high performance building

In this section, the term "high performance building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity.

(b) Assessment

Not later than 120 days after August 8, 2005, the Secretary shall enter into an agreement with the National Institute of Building Sciences to—

(1) conduct an assessment (in cooperation with industry, standards development organizations, and other entities, as appropriate) of whether the current voluntary consensus standards and rating systems for high performance buildings are consistent with the current technological state of the art, including relevant results from the research, development and demonstration activities of the Department;

(2) determine if additional research is required, based on the findings of the assessment; and

(3) recommend steps for the Secretary to accelerate the development of voluntary consensus-based standards for high performance buildings that are based on the findings of the assessment.

(c) Grant and technical assistance program

Consistent with subsection (b) and section 12(d) of the National Technology Transfer and
§ 16195. Secondary electric vehicle battery use program

(a) Definitions
In this section:

(1) Battery
The term ‘‘battery’’ means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(2) Associated equipment
The term ‘‘associated equipment’’ means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(b) Program
(1) In general
The Secretary shall establish and conduct a program of research, development, demonstration, and commercial application of energy technology for the secondary use of batteries, if the Secretary finds that there are sufficient numbers of batteries to support the program.

(2) Administration
The program shall be—

(A) designed to demonstrate the use of batteries in secondary applications, including utility and commercial power storage and power quality;

(B) structured to evaluate the performance, including useful service life and costs, of such batteries in field operations, and the necessary supporting infrastructure, including reuse and disposal of batteries; and

(C) coordinated with ongoing secondary battery use programs at the National Laboratories and in industry.

(c) Solicitation
(1) In general
Not later than 180 days after August 8, 2005, the Secretary shall solicit proposals to demonstrate the secondary use of batteries and associated equipment and supporting infrastructure in geographic locations throughout the United States.

(2) Additional solicitations
The Secretary may make additional solicitations for proposals if the Secretary determines that the solicitations are necessary to carry out this section.

(d) Selection of proposals
(1) In general
Not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), the Secretary shall select up to five proposals that may receive financial assistance under this section once the Department receives appropriated funds to carry out this section.

(2) Factors
In selecting proposals, the Secretary shall consider—

(A) the diversity of battery type;

(B) geographic and climatic diversity; and

(C) life-cycle environmental effects of the approaches.

(3) Limitation
No one project selected under this section shall receive more than 25 percent of the funds made available to carry out the program under this section.

(4) Non-Federal involvement
In selecting proposals, the Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) Other criteria
In selecting proposals, the Secretary may consider such other criteria as the Secretary considers appropriate.

(e) Conditions
In carrying out this section, the Secretary shall require that—

(1) relevant information be provided to—

(A) the Department;

(B) the users of the batteries;

(C) the proposers of a project under this section; and

(D) the battery manufacturers; and

(2) the costs of carrying out projects and activities under this section are shared in accordance with section 16352 of this title.

§ 16196. Energy Efficiency Science Initiative

(a) Establishment
The Secretary shall establish an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section 7133(a)(9) of this title, in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) Report
The Secretary shall submit to Congress, along with the annual budget request of the President submitted to Congress, a report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.
lations, State and local governments, cooperative extension services, or institutions of higher education (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers. In making awards under this section, the Secretary shall—

(1) give priority to applicants already operating or partnered with an outreach program capable of transferring knowledge and information about advanced energy efficiency methods and technologies;
(2) ensure that, to the extent practicable, the program enables the transfer of knowledge and information—
   (A) about a variety of technologies; and
   (B) in a variety of geographic areas;
(3) give preference to applicants that would significantly expand on or fill a gap in existing programs in a geographical region; and
(4) consider the special needs and opportunities for increased energy efficiency for manufactured and site-built housing, including construction, renovation, and retrofit.

(b) Activities
Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use. Funds awarded under this section may be used for the following activities:

(1) Developing and distributing informational materials on technologies that could use energy more efficiently.
(2) Carrying out demonstrations of advanced energy methods and technologies.
(3) Developing and conducting seminars, workshops, long-distance learning sessions, and other activities to aid in the dissemination of knowledge and information on technologies that could use energy more efficiently.
(4) Providing or coordinating onsite energy evaluations, including instruction on the commissioning of building heating and cooling systems, for a wide range of energy end-users.
(5) Examining the energy efficiency needs of energy end-users to develop recommended research projects for the Department.
(6) Hiring experts in energy efficient technologies to carry out activities described in paragraphs (1) through (5).

(c) Application
A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant under this section to an entity already in existence if the entity is otherwise eligible under this section. The application shall include, at a minimum—

(1) a description of the applicant’s outreach program, and the geographic region it would serve, and of why the program would be capable of transferring knowledge and information about advanced energy technologies that increase efficiency of energy use;
(2) a description of the activities the applicant would carry out, of the technologies that would be transferred, and of any other organizations that will help facilitate a regional approach to carrying out those activities;
(3) a description of how the proposed activities would be appropriate to the specific energy needs of the geographic region to be served;
(4) an estimate of the number and types of energy end-users expected to be reached through such activities; and
(5) a description of how the applicant will assess the success of the program.

(d) Selection criteria
The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

(1) The ability of the applicant to carry out the proposed activities.
(2) The extent to which the applicant will coordinate the activities of the Center with other entities as appropriate, such as State and local governments, utilities, institutions of higher education, and National Laboratories.
(3) The appropriateness of the applicant’s outreach program for carrying out the program described in this section.
(4) The likelihood that proposed activities could be expanded or used as a model for other areas.

(e) Cost-sharing
In carrying out this section, the Secretary shall require cost-sharing in accordance with the requirements of section 16352 of this title for commercial application activities.

(f) Duration
(1) Initial grant period
A grant awarded under this section shall be for a period of 3 years.
(2) Initial evaluation
Each grantee under this section shall be evaluated during its third year of operation under procedures established by the Secretary to determine if the grantee is accomplishing the purposes of this section described in subsection (a). The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for 3 additional years beyond the original term of the grant.

(3) Additional extension
If a grantee receives an extension under paragraph (2), the grantee shall be evaluated again during the second year of the extension. The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for a final additional period of 3 additional years beyond the original extension.

(4) Limitation
No grantee may receive more than 11 years of support under this section without re-
§ 16198. Smart energy and water efficiency pilot program

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a utility;

(B) a municipality;

(C) a water district;

(D) an Indian Tribe or Alaska Native village; and

(E) any other authority that provides water, wastewater, or water reuse services.

(2) Smart energy and water efficiency pilot program

The term “smart energy and water efficiency pilot program” or “pilot program” means the pilot program established under subsection (b).

(b) Smart energy and water efficiency pilot program

(1) In general

The Secretary shall establish and carry out a smart energy and water efficiency pilot program in accordance with this section.

(2) Purpose

The purpose of the smart energy and water efficiency pilot program is to award grants to eligible entities to demonstrate unique, advanced, or innovative technology-based solutions that will—

(A) improve the net energy balance of water, wastewater, and water reuse systems;

(B) improve the net energy balance of water, wastewater, and water reuse systems to help communities across the United States make measurable progress in conserving water, saving energy, and reducing costs;

(C) support the implementation of innovative and unique processes and the installation of established advanced automated systems that provide real-time data on energy and water; and

(D) improve energy-water conservation and quality and predictive maintenance through technologies that utilize internet connected technologies, including sensors, intelligent gateways, and security embedded in hardware.

(3) Project selection

(A) In general

The Secretary shall make competitive, merit-reviewed grants under the pilot program to not less than 3, but not more than 5, eligible entities.
§ 16211

(4) Administration  

(A) In general  

Not later than 1 year after December 27, 2020, the Secretary shall select grant recipients under this section.

(B) Evaluations  

(i) Annual evaluations  

The Secretary shall annually carry out an evaluation of each project for which a grant is provided under this section that meets performance measures and benchmarks developed by the Secretary, consistent with the purposes of this section.

(ii) Requirements  

Consistent with the performance measures and benchmarks developed under clause (i), in carrying out an evaluation under that clause, the Secretary shall—  

(I) evaluate the progress and impact of the project; and  

(II) assess the degree to which the project is meeting the goals of the pilot program.

(C) Technical and policy assistance  

On the request of a grant recipient, the Secretary shall provide technical and policy assistance.

(D) Best practices  

The Secretary shall make available to the public through the Internet and other means the Secretary considers to be appropriate—  

(i) a copy of each evaluation carried out under subparagraph (B); and  

(ii) a description of any best practices identified by the Secretary as a result of those evaluations.

(E) Report to Congress  

The Secretary shall submit to Congress a report containing the results of each evaluation carried out under subparagraph (B).

(c) Authorization of appropriations  

There is authorized to be appropriated to the Secretary to carry out this section $15,000,000, to remain available until expended.

PART B—DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS

§ 16211. Distributed energy and electric energy systems  

(a) In general  

The Secretary shall carry out programs of research, development, demonstration, and commercial application on distributed energy resources and systems reliability and efficiency, to improve the reliability and efficiency of distributed energy resources and systems, integrating advanced energy technologies with grid connectivity, including activities described in this part. The programs shall address advanced energy technologies and systems and advanced grid reliability technologies.

(b) Authorization of appropriations  

(1) Distributed energy and electric energy systems activities  

There are authorized to be appropriated to the Secretary to carry out distributed energy and electric energy systems activities, including activities authorized under this part—  

(A) $240,000,000 for fiscal year 2007;  

(B) $255,000,000 for fiscal year 2008; and  

(C) $273,000,000 for fiscal year 2009.
(2) Power delivery research initiative

There are authorized to be appropriated to the Secretary to carry out the Power Delivery Research Initiative under subsection (b) of this title such sums as may be necessary for each of fiscal years 2007 through 2009.

(c) Micro-cogeneration energy technology

From amounts authorized under subsection (b), $20,000,000 for each of fiscal years 2007 and 2008 shall be available to carry out activities under section 16213 of this title.

(d) High-voltage transmission lines

From amounts authorized under subsection (b), $2,000,000 for fiscal year 2007 shall be available to carry out activities under section 16215(g) of this title.

§ 16212. High power density industry program

(a) In general

The Secretary shall establish a comprehensive research, development, demonstration, and commercial application to improve the energy efficiency of high power density facilities, including data centers, server farms, and telecommunications facilities.

(b) Technologies

The program shall consider technologies that provide significant improvement in thermal controls, metering, load management, peak load reduction, or the efficient cooling of electronics.

§ 16213. Micro-cogeneration energy technology

(a) In general

The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology.

(b) Uses

The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances;
(2) the use of excess power to operate other appliances within the residence; and
(3) the supply of excess generated power to the power grid.

§ 16214. Distributed energy technology demonstration programs

(a) Coordinating consortia program

The Secretary may provide financial assistance to coordinating consortia of interdisciplinary participants for demonstrations designed to accelerate the use of distributed energy technologies (such as fuel cells, microturbines, reciprocating engines, thermally activated technologies, and combined heat and power systems) in high-energy intensive commercial applications.

(b) Small-scale portable power program

(1) In general

The Secretary shall—

(A) establish a research, development, and demonstration program to develop working models of small scale portable power devices; and
(B) to the fullest extent practicable, identify and utilize the resources of universities that have shown expertise with respect to advanced portable power devices for either civilian or military use.

(2) Organization

The universities identified and utilized under paragraph (1)(B) are authorized to establish an organization to promote small scale portable power devices.

(3) Definition

For purposes of this subsection, the term “small scale portable power device” means a field-deployable portable mechanical or electromechanical device that can be used for applications such as communications, computation, mobility enhancement, weapons systems, optical devices, cooling, sensors, medical devices, and active biological agent detection systems.

§ 16215. Electric transmission and distribution programs

(a) Program

The Secretary shall establish a comprehensive research, development, and demonstration program to ensure the reliability, efficiency, and environmental integrity of electrical transmission and distribution systems, which shall include—

(1) advanced energy delivery technologies, energy storage technologies, materials, and systems, giving priority to new transmission technologies, including composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;
(2) advanced grid reliability and efficiency technology development;
(3) technologies contributing to significant load reductions;
(4) advanced metering, load management, and control technologies;
(5) technologies to enhance existing grid components;
(6) the development and use of high-temperature superconductors to—
(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or
(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;
(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power.

1 So in original. Probably should be “section”.

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;
(9) the development and use of advanced grid design, operation, and planning tools;
(10) the development of cost-effective technologies that enable two-way information and power flow between distributed energy resources and the electric grid;
(11) the development of technologies and concepts that enable interoperability between distributed energy resources and other behind-the-meter devices and the electric grid;
(12) any other infrastructure technologies, as appropriate; and
(13) technology transfer and education.

(b) Program plan
(1) In general
Not later than 1 year after August 8, 2005, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and submit to Congress a 5-year program plan to guide activities under this section.

(2) Consultation
In preparing the program plan, the Secretary shall consult with—
(A) utilities;
(B) energy service providers;
(C) manufacturers;
(D) institutions of higher education;
(E) other appropriate State and local agencies;
(F) environmental organizations;
(G) professional and technical societies; and
(H) any other persons the Secretary considers appropriate.

(c) Implementation
The Secretary shall consider implementing the program under this section using a consortium of participants from industry, institutions of higher education, and National Laboratories.

(d) Report
Not later than 2 years after the submission of the plan under subsection (b), the Secretary shall submit to Congress a report—
(1) describing the progress made under this section; and
(2) identifying any additional resources needed to continue the development and commercial application of transmission and distribution of infrastructure technologies.

(e) Power delivery research initiative
(1) In general
The Secretary shall establish a research, development, and demonstration initiative specifically focused on power delivery using components incorporating high temperature superconductivity power applications, including suitable modeling and analysis;
(C) to facilitate the commercial transition toward direct current power transmission, storage, and use for high power systems using high temperature superconductivity; and
(D) to facilitate the integration of very low impedance high temperature superconducting wires and cables in existing electric networks to improve system performance, power flow control, and reliability.

(3) Inclusions
The Initiative shall include—
(A) feasibility analysis, planning, research, and design to construct demonstrations of superconducting links in high power, direct current, and controllable alternating current transmission systems;
(B) public-private partnerships to demonstrate deployment of high temperature superconducting cable into testbeds simulating a realistic transmission grid and under varying transmission conditions, including actual grid insertions; and
(C) testbeds developed in cooperation with National Laboratories, industries, and institutions of higher education to—
(i) demonstrate those technologies;
(ii) prepare the technologies for commercial introduction; and
(iii) address cost or performance roadblocks to successful commercial use.

(f) Transmission and distribution grid planning and operations initiative
(1) In general
The Secretary shall establish a research, development, and demonstration initiative specifically focused on tools needed to plan, operate, and expand the transmission and distribution grids in the presence of competitive market mechanisms for energy, load demand, customer response, and ancillary services.

(2) Goals
The goals of the Initiative shall be—
(A)(i) to develop and use a geographically distributed center, consisting of institutions of higher education, and National Laboratories, with expertise and facilities to develop the underlying theory and software for power system application; and
(ii) to ensure commercial development in partnership with software vendors and utilities;
(B) to provide technical leadership in engineering and economic analysis for the reliability and efficiency of power systems planning and operations in the presence of competitive markets for electricity;
(C) to model, simulate, and experiment with new market mechanisms and operating practices to understand and optimize those new methods before actual use; and
(D) to provide technical support and technology transfer to electric utilities and other participants in the domestic electric industry and marketplace.

(g) High-voltage transmission lines
As part of the program described in subsection (a), the Secretary shall award a grant to a uni-
versity research program to design and test, in consultation with the Tennessee Valley Authority, state-of-the-art optimization techniques for power flow through existing high voltage transmission lines.

AMENDMENTS
2020—Subsec. (a)(10) to (13). Pub. L. 116–194 added pars. (10) and (11) and redesignated former pars. (10) and (11) as (12) and (13), respectively.

COORDINATION OF EFFORTS
Pub. L. 116–194, div. Z, title VIII, §8004(a), Dec. 27, 2020, 134 Stat. 2586, provided that: “In carrying out the amendments made by this title enacting sections 16236, 17014, 17384, 17387, and 17388 of this title and amending this section, section 17384 of this title and sections 3501 and 3502 of Title 25, Indians], the Secretary [probably means Secretary of Energy] shall coordinate with relevant entities to the maximum extent practicable, including:

(1) electric utilities;
(2) private sector entities;
(3) representatives of all sectors of the electric power industry;
(4) transmission organizations;
(5) transmission owners and operators;
(6) distribution organizations;
(7) distribution asset owners and operators;
(8) State, Tribal, local, and territorial governments and regulatory authorities;
(9) academic institutions;
(10) the National Laboratories;
(11) other Federal agencies;
(12) nonprofit organizations;
(13) the Federal Energy Regulatory Commission;
(14) the North American Reliability Corporation;
(15) independent system operators; and
(16) programs and program offices at the Department.”

PART C—RENEWABLE ENERGY

§ 16231. Renewable energy
(a) In general
(1) Objectives
The Secretary shall conduct programs of renewable energy research, development, demonstration, and commercial application for—

(1) improving detection of geothermal resources;
(2) decreasing drilling costs;
(3) decreasing maintenance costs through improved materials;
(4) increasing the potential for other revenue sources, such as mineral production; and
(5) increasing the understanding of reservoir life cycle and management.

(b) Hydroelectric
The Secretary shall conduct a program of research, development, demonstration, and commercial application for cost competitive technologies that enable the development of new and incremental hydropower capacity, adding to the diversity of the energy supply of the United States, including:

(i) Fish-friendly large turbines.
(ii) Advanced technologies to enhance environmental performance and yield greater energy efficiencies.

(c) Miscellaneous projects
The Secretary shall conduct research, development, demonstration, and commercial application programs for—

(i) ocean energy, including wave energy;
(ii) the combined use of renewable energy technologies with one another and with other energy technologies, including the combined use of wind power and coal gasification technologies;
(iii) renewable energy technologies for cogeneration of hydrogen and electricity; and
(iv) kinetic hydro turbines.

(b) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out renewable energy research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $632,000,000 for fiscal year 2007;
(2) $743,000,000 for fiscal year 2008;
(3) $852,000,000 for fiscal year 2009; and
(4) $963,000,000 for fiscal year 2010.

(c) Bioenergy
From the amounts authorized under subsection (b), there are authorized to be appropriated to carry out section 16232 of this title—

(1) $213,000,000 for fiscal year 2007, of which $100,000,000 shall be for section 16232(d) of this title;
(2) $377,000,000 for fiscal year 2008, of which $125,000,000 shall be for section 16232(d) of this title;
(3) $398,000,000 for fiscal year 2009, of which $150,000,000 shall be for section 16232(d) of this title; and
(4) $419,000,000 for fiscal year 2010, of which $150,000,000 shall be for section 16232(d) of this title.

(d) Administration
Of the funds authorized under subsection (c), not less than $5,000,000 for each fiscal year shall be made available for grants to—
(1) part B institutions;  
(2) Tribal Colleges or Universities (as defined in section 1059c(b) of title 20); and  
(3) Hispanic-serving institutions.

(e) Rural demonstration projects  
In carrying out this section, the Secretary, in consultation with the Secretary of Agriculture, shall demonstrate the use of renewable energy technologies to assist in delivering electricity to rural and remote locations including—  
(1) advanced wind power technology, including combined use with coal gasification;  
(2) biomass; and  
(3) geothermal energy systems.

(f) Analysis and evaluation  
(1) In general  
The Secretary shall conduct analysis and evaluation in support of the renewable energy programs under this part. These activities shall be used to guide budget and program decisions, and shall include—  
(A) economic and technical analysis of renewable energy potential, including resource assessment;  
(B) analysis of past program performance, both in terms of technical advances and in market introduction of renewable energy; and  
(C) any other analysis or evaluation that the Secretary considers appropriate.

(2) Funding  
The Secretary may designate up to 1 percent of the funds appropriated for carrying out this part for analysis and evaluation activities under this subsection.

Amendments  
2020—Subsec. (a)(2). Pub. L. 116–260, § 3006(b)(3)(A)(i), (b), redesignated subpars. (C) to (E) as (A) to (C), respectively, and struck out former subpars. (A) and (B) which related to solar and wind energy programs.  
Subsecs. (d) to (g). Pub. L. 116–260, § 3006(b)(3)(B), (C), redesignated subsecs. (e) to (g) as (d) to (f), respectively, and struck out former subsec. (d) which related to solar power.

Subsec. (c)(2) to (4). Pub. L. 110–140, § 231(2), in par. (2), substituted "$377,000,000" for "$251,000,000", in par. (3), substituted "$398,000,000" for "$274,000,000", and added par. (4).

Effective Date of 2007 Amendment  
Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1824 of Title 2, The Congress.

§ 16232. Bioenergy program

(a) Definitions  
In this section:

(1) Biomass  
The term “biomass” means—  
(A) any organic material grown for the purpose of being converted to energy;  
(B) any organic byproduct of agriculture (including wastes from food production and processing) that can be converted into energy; or  
(C) any waste material that can be converted to energy, is segregated from other waste materials, and is derived from—  
(i) any of the following forest-related resources: mill residues, precommercial thinnings, slash, brush, or otherwise nonmerchantable material; or  
(ii) wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste, gas derived from the biodegradation of municipal solid waste, or paper that is commonly recycled.

(2) Lignocellulosic feedstock  
The term “lignocellulosic feedstock” means any portion of a plant or coproduct from conversion, including crops, trees, forest residues, and agricultural residues not specifically grown for food, including from barley grain, grapeseed, rice bran, rice hulls, rice straw, soybean matter, and sugarcane bagasse.

(b) Program  
The Secretary shall conduct a program of research, development, demonstration, and commercial application for bioenergy, including—  
(1) biopower energy systems;  
(2) biofuels;  
(3) bioproducts;  
(4) integrated biorefineries that may produce biopower, biofuels, and bioproducts;  
(5) cross-cutting research and development in feedstocks; and  
(6) economic analysis.

(c) Biofuels and bioproducts  
The goals of the biofuels and bioproducts programs shall be to develop, in partnership with industry and Institutions of higher education—  
(1) advanced biochemical and thermochemical conversion technologies capable of making fuels from lignocellulosic feedstocks that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles;  
(2) advanced biotechnology processes capable of making biofuels and bioproducts with emphasis on development of biorefinery technologies using enzyme-based processing systems;  
(3) advanced biotechnology processes capable of increasing energy production from lignocellulosic feedstocks, with emphasis on reducing the dependence of industry on fossil fuels in manufacturing facilities; and  
(4) other advanced processes that will enable the development of cost-effective bioproducts, including biofuels.

(d) Integrated biorefinery demonstration projects  
(1) In general  
The Secretary shall carry out a program to demonstrate the commercial application of in-
Biofuel technology and the development of biorefineries. The Secretary shall ensure geographical distribution of biorefinery demonstrations under this subsection. The Secretary shall not provide more than $100,000,000 under this subsection for any single biorefinery demonstration. In making awards under this subsection, the Secretary shall encourage—

- the demonstration of a wide variety of lignocellulosic feedstocks;
- the commercial application of biomass technologies for a variety of uses, including—
  1. liquid transportation fuels;
  2. high-value biobased chemicals;
  3. substitutes for petroleum-based feedstocks and products; and
  4. energy in the form of electricity or useful heat; and
- the demonstration of the collection and treatment of a variety of biomass feedstocks.

(2) Proposals

Not later than 6 months after August 8, 2005, the Secretary shall solicit proposals for demonstration of advanced biorefineries. The Secretary shall select only proposals that—

- demonstrate that the project will be able to operate profitably without direct Federal subsidy after initial construction costs are paid; and
- enable the biorefinery to be easily replicated.

(e) University biodiesel program

The Secretary shall establish a demonstration program to determine the feasibility of the operation of diesel electric power generators, using biodiesel fuels with ratings as high as B100, at electric generation facilities owned by institutions of higher education. The program shall examine—

- heat rates of diesel fuels with large quantities of cellulosic content;
- the reliability of operation of various fuel blends;
- performance in cold or freezing weather;
- stability of fuel after extended storage; and
- other criteria, as determined by the Secretary.

(g) Biorefinery energy efficiency

The Secretary shall establish a program of research, development, demonstration, and commercial application for increasing energy efficiency and reducing energy consumption in the operation of biorefinery facilities.

(h) Retrofit technologies for the development of ethanol from cellulosic materials

The Secretary shall establish a program of research, development, demonstration, and commercial application on technologies and processes to enable biorefineries that exclusively use corn grain or corn starch as a feedstock to produce ethanol to be retrofitted to accept a range of biomass, including lignocellulosic feedstocks.

1 So in original. No subsec. (f) has been enacted.
lished under part B of subchapter VI on high temperature materials, thermochemical cycles, and economic issues.

(c) Assessment

In carrying out the program under this section, the Secretary shall—

(1) assess conflicting guidance on the economic potential of concentrating solar power for electricity production received from the National Research Council in the report entitled “Renewable Power Pathways: A Review of the U.S. Department of Energy’s Renewable Energy Programs” and dated 2000 and subsequent reviews of that report funded by the Department; and

(2) provide an assessment of the potential impact of technology used to concentrate solar power for electricity before, or concurrent with, submission of the budget for fiscal year 2008.

(d) Report

Not later than 5 years after August 8, 2005, the Secretary shall provide to Congress a report on the economic and technical potential for electricity or hydrogen production, with or without cogeneration, with concentrating solar power, including the economic and technical feasibility of potential construction of a pilot demonstration facility suitable for commercial production of electricity or hydrogen from concentrating solar power.

§ 16235. Renewable energy in public buildings

(a) Demonstration and technology transfer program

The Secretary shall establish a program for the demonstration of innovative technologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(b) Limit on Federal funding

Notwithstanding section 16352 of this title, the Secretary shall provide under this section no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(c) Requirements

As part of the application for awards under this section, the Secretary shall require all applicants—

(1) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(2) to state how they expect any award to further their transition to the significant use of renewable energy.

§ 16236. Research and development into integrating renewable energy onto the electric grid

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program on technologies that enable integration of renewable energy generation sources onto the electric grid across multiple program offices of the Department. The program shall include—

(1) forecasting for predicting generation from variable renewable energy sources;

(2) development of cost-effective low-loss, long-distance transmission lines; and

(3) development of cost-effective advanced technologies for variable renewable generation sources to provide grid services.

(b) Coordination

In carrying out this program, the Secretary shall coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

(c) Adoption of technologies

In carrying out this section, the Secretary shall consider barriers to adoption and commercial application of technologies that enable integration of renewable energy sources onto the electric grid, including cost and other economic barriers, and shall coordinate with relevant entities to reduce these barriers.

§ 16237. Wind energy research and development

(a) Definitions

In this section:

(1) Critical material

The term “critical material” has the meaning given the term in section 1606 of title 30.

(2) Economically distressed area

The term “economically distressed area” means an area described in section 3161(a) of this title.

(3) Eligible entity

The term “eligible entity” means—

(A) an institution of higher education, including a minority-serving institution;

(B) a National Laboratory;

(C) a Federal research agency;

(D) a State research agency;

(E) a research agency associated with a territory or freely associated state;

(F) a Tribal energy development organization;

(G) an Indian Tribe;

(H) a Tribal organization;

(I) a Native Hawaiian community-based organization;

(J) a nonprofit research organization;

(K) an industrial entity;

(L) any other entity, as determined by the Secretary; and

(M) a consortium of 2 or more entities described in subparagraphs (A) through (L).
(4) Indian Tribe
The term “Indian Tribe” has the meaning given the term in section 5304 of title 25.

(5) Institution of higher education
The term “institution of higher education” means—
(A) an institution of higher education (as defined in section 1001(a) of title 20); or
(B) a postsecondary vocational institution (as defined in section 1002(c) of title 20).

(6) Minority serving institution
The term “minority-serving institution” has the meaning given the term “eligible institution” in section 1067q(a) of title 20.

(7) National Laboratory
The term “National Laboratory” has the meaning given such term in section 15801(3) of this title.

(8) Native Hawaiian community-based organization
The term “Native Hawaiian community-based organization” has the meaning given the term in section 7517 of title 20.

(9) Program
The term “program” means the program established under subsection (b)(1).

(10) Secretary
The term “Secretary” means the Secretary of Energy.

(11) Territory or freely associated state
The term “territory or freely associated state” has the meaning given the term “insular area” in section 3103 of title 7.

(12) Tribal energy development organization
The term “Tribal energy development organization” has the meaning given the term “tribal energy development organization” in section 3501 of title 25.

(13) Tribal organization
The term “Tribal organization” has the meaning given the term in section 5304 of title 25.

(b) Wind energy technology program

(1) Establishment
(A) In general
The Secretary shall establish a program to conduct research, development, demonstration, and commercialization of wind energy technologies in accordance with this subsection.

(B) Purposes
The purposes of the program are the following:
(i) To improve the energy efficiency, cost effectiveness, reliability, resilience, security, siting, integration, manufacturability, installation, decommissioning, and recyclability of wind energy technologies.
(ii) To optimize the performance and operation of wind energy components, turbines, and systems, including through the development of new materials, hardware, and software.
(iii) To optimize the design and adaptability of wind energy technologies to the broadest practical range of geographic, atmospheric, offshore, and other site conditions, including—
(I) at varying hub heights; and
(II) through the use of computer modeling.
(iv) To support the integration of wind energy technologies with the electric grid and other energy technologies and systems.
(v) To reduce the cost, risk, and other potential negative impacts across the life-span of wind energy technologies, including—
(I) manufacturing, siting, permitting, installation, operations, maintenance, decommissioning, and recycling; and
(II) through the development of solutions to transportation barriers to wind components.
(vi) To reduce and mitigate potential negative impacts of wind energy technologies on human communities, the environment, or commerce.
(vii) To address barriers to the commercialization and export of wind energy technologies.
(viii) To support the domestic wind industry, workforce, and supply chain.

(C) Targets
Not later than 180 days after December 27, 2020, the Secretary shall establish targets for the program relating to near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of wind energy technologies, including onshore, offshore, distributed, and off-grid technologies.

(2) Activities

(A) Types of activities
In carrying out the program, the Secretary shall carry out research, development, demonstration, and commercialization activities, including—
(i) awarding grants and awards, on a competitive, merit-reviewed basis;
(ii) performing precompetitive research and development;
(iii) establishing or maintaining demonstration facilities and projects, including through stewardship of existing facilities such as the National Wind Test Center;
(iv) providing technical assistance;
(v) entering into contracts and cooperative agreements;
(vi) providing small business vouchers;
(vii) establishing prize competitions;
(viii) conducting education and outreach activities;
(ix) conducting professional development activities; and
(x) conducting analyses, studies, and reports.

(B) Subject areas
The Secretary shall carry out research, development, demonstration, and commer-
cialization activities in the following subject areas:

(i) Wind power plant siting, performance, operations, and security.

(ii) New materials and designs relating to all hardware, software, and components of wind energy technologies, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that are determined to be vulnerable to disruption.

(iii) Advanced wind energy manufacturing and installation technologies and practices, including materials, processes, such as onsite or near site manufacturing, and design.

(iv) Offshore wind-specific projects and plants, including—

(I) fixed and floating substructure systems, materials, and components;

(II) the operation of offshore facilities, such as—

(aa) an offshore research facility to conduct research for oceanic, biological, geological, and atmospheric resource characterization relevant to offshore wind energy development in coordination with the ocean and atmospheric science communities; and

(bb) an offshore support structure testing facility to conduct development, demonstration, and commercialization of large-scale and full-scale offshore wind energy support structure components and systems;

(III) the monitoring and analysis of site and environmental considerations unique to offshore sites, including freshwater environments.

(v) Integration of wind energy technologies with—

(I) the electric grid, including transmission, distribution, microgrids, and distributed energy systems; and

(II) other energy technologies, including—

(aa) other generation sources;

(bb) demand response technologies; and

(cc) energy storage technologies.

(vi) Methods to improve the lifetime, maintenance, decommissioning, recycling, reuse, and sustainability of wind energy components and systems, including technologies and strategies to reduce the use of energy, water, critical materials, and other valuable or harmful inputs.

(vii) Wind power forecasting and atmospheric measurement systems, including for turbines and plant systems of varying height.

(viii) Integrated wind energy systems, grid-connected and off-grid, that incorporate diverse—

(I) generation sources;

(II) loads; and

(III) storage technologies.

(ix) Reducing market barriers, including non-hardware and information-based barriers, to the adoption of wind energy technologies, such as impacts on, or challenges relating to—

(I) distributed wind technologies, including the development of best practices, models, and voluntary streamlined processes for local siting and permitting of distributed wind energy systems to reduce costs;

(II) airspace;

(III) military operations;

(IV) radar;

(V) local communities, with special consideration given to economically distressed areas, previously disturbed lands such as landfills and former mines, and other areas disproportionately impacted by environmental pollution;

(VI) wildlife and wildlife habitats; and

(VII) any other appropriate matter, as determined by the Secretary.

(x) Technologies or strategies to avoid, minimize, and offset the potential impacts of wind energy facilities on bird species, bat species, marine wildlife, and other sensitive species and habitats.

(xi) Advanced physics-based and data analysis computational tools, in coordination with the high-performance computing programs of the Department, to more efficiently design, site, permit, manufacture, install, operate, decommission, and recycle wind energy systems.

(xii) Technologies for distributed wind, including micro, small, and medium turbines and the components of those turbines and their microgrid applications.

(xiii) Transformational technologies for harnessing wind energy.

(xiv) Other research areas that advance the purposes of the program, as determined by the Secretary.

(C) Prioritization

In carrying out activities under the program, the Secretary shall, to the maximum extent practicable, give special consideration to—

(i) projects that—

(I) are located in a geographically diverse range of eligible entities;

(II) support the development or demonstration of projects—

(aa) in economically distressed areas and areas disproportionately impacted by pollution; and

(bb) that provide the greatest potential to reduce energy costs, as well as promote accessibility and community implementation of demonstrated technologies;

(III) can be replicated in a variety of regions and climates;

(IV) include business commercialization plans that have the potential for—

(aa) domestic manufacturing and production of wind energy technologies; or

(bb) exports of wind energy technologies; and
(V) are carried out in collaboration with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated States; and

(ii) with regards to professional development, activities that expand the number of individuals from underrepresented groups pursuing and attaining skills relevant to wind energy.

(D) Coordination
To the maximum extent practicable, the Secretary shall coordinate activities under the program with other relevant programs and capabilities of the Department and other Federal research programs.

(E) Use of funds
To the extent that funding is not otherwise available through other Federal programs or power purchase agreements, funding awarded for demonstration projects may be used for additional nontechnology costs, as determined to be appropriate by the Secretary, such as engineering or feasibility studies.

(F) Solicitation
Not less than once every two years, the Secretary shall conduct a national solicitation for applications for demonstration projects under this section.

(G) Report
(i) In general
Not later than 180 days after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the potential for, and technical viability of, airborne wind energy systems to provide a significant source of energy in the United States.

(ii) Contents
The report under paragraph (1) shall include a summary of research, development, demonstration, and commercialization needs, including an estimate of Federal funding requirements, to further examine and validate the technical and economic viability of airborne wind energy concepts over the 10-year period beginning on December 27, 2020.

(3) Wind technician training grant program
The Secretary may award grants, on a competitive basis, to eligible entities to purchase large pieces of wind component equipment, such as nacelles, towers, and blades, for use in training wind technician students in onshore or offshore wind applications.

(4) Wind energy technology recycling research, development, and demonstration program
(A) In general
In addition to the program activities described in paragraph (2), in carrying out the program, the Secretary shall award financial assistance to eligible entities for research, development, and demonstration, and commercialization projects to create innovative and practical approaches to increase the reuse and recycling of wind energy technologies, including—

(i) by increasing the efficiency and cost effectiveness of the recovery of raw materials from wind energy technology components and systems, including enabling technologies such as inverters;
(ii) by minimizing potential environmental impacts from the recovery and disposal processes;
(iii) by advancing technologies and processes for the disassembly and recycling of wind energy devices;
(iv) by developing alternative materials, designs, manufacturing processes, and other aspects of wind energy technologies and the disassembly and resource recovery process that enable efficient, cost effective, and environmentally responsible disassembly of, and resource recovery from, wind energy technologies; and
(v) strategies to increase consumer acceptance of, and participation in, the recycling of wind energy technologies.

(B) Dissemination of results
The Secretary shall make available to the public and the relevant committees of Congress the results of the projects carried out through financial assistance awarded under subparagraph (A), including—

(i) development of best practices or training materials for use in the wind energy technology manufacturing, design, installation, decommissioning, or recycling industries;
(ii) dissemination at industry conferences;
(iii) coordination with information dissemination programs relating to recycling of electronic devices in general; and
(iv) demonstration projects; and
(v) educational materials.

(C) Priority
In carrying out the activities authorized under this subsection, the Secretary shall give special consideration to projects that recover critical materials.

(D) Sensitive information
In carrying out the activities authorized under this subsection, the Secretary shall ensure proper security controls are in place to protect proprietary or sensitive information, as appropriate.

(5) Wind energy technology materials physical property database
(A) In general
Not later than September 1, 2022, the Secretary shall establish a comprehensive physical property database of materials for use in wind energy technologies, which shall identify the type, quantity, country of origin, source, significant uses, projected availability, and physical properties of materials used in wind energy technologies.
§ 16238. Solar energy research and development

(a) Definitions

In this section:

(1) Critical material

The term “critical material” has the meaning given in section 1606 of title 30.

(2) Economically distressed area

The term “economically distressed area” means an area described in section 3161(a) of this title.

(3) Eligible entity

The term “eligible entity” means—

(A) an institution of higher education, including a minority-serving institution;

(B) a National Laboratory;

(C) a Federal research agency;

(D) a State research agency;

(E) a research agency associated with a territory or freely associated state;

(F) a Tribal energy development organization;

(G) an Indian Tribe;

(H) a Tribal organization;

(I) a Native Hawaiian community-based organization;

(J) a nonprofit research organization;

(K) an industrial entity;

(L) any other entity, as determined by the Secretary; and

(M) a consortium of 2 or more entities described in subparagraphs (A) through (L).

(4) Indian Tribe

The term “Indian Tribe” has the meaning given in section 5304 of title 25.

(5) Institution of higher education

The term “institution of higher education” has the meaning given in section 1001 of title 20.

(6) Minority-serving institution

The term “minority-serving institution” has the meaning given the term “eligible institution” in section 1067g(a) of title 20.

(7) National Laboratory

The term “National Laboratory” has the meaning given such term in section 15801(3) of this title.

(8) Native Hawaiian community-based organization

The term “Native Hawaiian community-based organization” has the meaning given the term in section 7517 of title 20.

(9) Photovoltaic device

The term “photovoltaic device” means—

(A) a device that converts light directly into electricity through a solid-state, semiconductor process;

(B) the photovoltaic cells of a device described in subparagraph (A); and

(C) the electronic and electrical components of a device described in subparagraph (A).

(10) Program

The term “program” means the program established under subsection (b)(1)(A).

(11) Secretary

The term “Secretary” means the Secretary of Energy.

(12) Solar energy

The term “solar energy” means—

(A) thermal or electric energy derived from radiation from the Sun; or

(B) energy resulting from a chemical reaction caused by radiation recently originated in the Sun.

(13) Territory or freely associated state

The term “territory or freely associated state” has the meaning given the term “insular area” in section 3103 of title 7.
(14) Tribal energy development organization

The term “Tribal energy development organization” has the meaning given the term “tribal energy development organization” in section 5304 of title 25.

(15) Tribal organization

The term “Tribal organization” has the meaning given the term in section 5304 of title 25.

(b) Solar energy technology program

(1) Establishment

(A) In general

The Secretary shall establish a program to conduct research, development, demonstration, and commercialization of solar energy technologies in accordance with this subsection.

(B) Purposes

The purposes of the program are the following:

(i) To improve the energy efficiency, cost effectiveness, reliability, resilience, security, siting, integration, manufacturability, installation, decommissioning, and recyclability of solar energy technologies.

(ii) To optimize the performance and operation of solar energy components, cells, and systems, and enabling technologies, including through the development of new materials, hardware, and software.

(iii) To optimize the design and adaptability of solar energy systems to the broadest practical range of geographic and atmospheric conditions.

(iv) To support the integration of solar energy technologies with the electric grid and complementary energy technologies.

(v) To create and improve the conversion of solar energy to other useful forms of energy or other products.

(vi) To reduce the cost, risk, and other potential negative impacts across the life span of solar energy technologies, including manufacturing, siting, permitting, installation, operations, maintenance, decommissioning, and recycling.

(vii) To reduce and mitigate potential life cycle negative impacts of solar energy technologies on human communities, wildlife, and wildlife habitats.

(viii) To address barriers to the commercialization and export of solar energy technologies.

(ix) To support the domestic solar industry, workforce, and supply chain.

(C) Targets

Not later than 180 days after December 27, 2020, the Secretary shall establish targets for the program to address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of all types of solar energy systems.

(2) Activities

(A) Types of activities

In carrying out the program, the Secretary shall carry out research, development, demonstration, and commercialization activities, including—

(i) awarding grants and awards, on a competitive, merit-reviewed basis;

(ii) performing precompetitive research and development;

(iii) establishing or maintaining demonstration facilities and projects, including through stewardship of existing facilities;

(iv) providing technical assistance;

(v) entering into contracts and cooperative agreements;

(vi) providing small business vouchers;

(vii) establishing prize competitions;

(viii) conducting education and outreach activities;

(ix) conducting workforce development activities; and

(x) conducting analyses, studies, and reports.

(B) Subject areas

The Secretary shall carry out research, development, demonstration, and commercialization activities in the following subject areas:

(i) Advanced solar energy technologies of varying scale and power production, including—

(I) new materials, components, designs, and systems, including perovskites, cadmium telluride, and organic materials;

(II) advanced photovoltaic and thin-film devices;

(III) concentrated solar power;

(IV) solar heating and cooling; and

(V) enabling technologies for solar energy systems, including hardware and software.

(ii) Solar energy technology siting, performance, installation, operations, resilience, and security.

(iii) Integration of solar energy technologies with—

(I) the electric grid, including transmission, distribution, microgrids, and distributed energy systems;

(II) other energy technologies, including—

(aa) other generation sources;

(bb) demand response technologies; and

(cc) energy storage technologies; and

(III) other applications, such as in the agriculture, transportation, buildings, industrial, and fuels sectors.

(iv) Advanced solar energy manufacturing technologies and practices, including materials, processes, and design.

(v) Methods to improve the lifetime, maintenance, decommissioning, recycling, reuse, and sustainability of solar energy components and systems, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that are determined to be vulnerable to disruption.

(vi) Solar energy forecasting, modeling, and atmospheric measurement systems.
§ 16238  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8300

including for small-scale, large-scale, and aggregated systems.

(vii) Integrated solar energy systems that incorporate diverse—
    (I) generation sources; (II) loads; and (III) storage technologies.

(viii) Reducing market barriers, including nonhardware and information-based barriers, to the adoption of solar energy technologies, including impacts on, or challenges relating to—
    (I) distributed and community solar energy systems, including the development of best practices, models, and voluntary streamlined processes for local siting and permitting of distributed solar energy systems to reduce costs;
    (II) local communities, with special consideration given to economically distressed areas, previously disturbed lands such as landfills and former mines, and other areas disproportionately impacted by environmental pollution;
    (III) wildlife and wildlife habitats; and
    (IV) any other appropriate matter, as determined by the Secretary.

(ix) Transformational technologies for harnessing solar energy.

(x) Other research areas that advance the purposes of the program, as determined by the Secretary.

(C) Prioritization

In carrying out activities under the program, the Secretary shall, to the maximum extent practicable, give priority to projects that—

(i) are located in a geographically diverse range of eligible entities; (ii) support the development or demonstration of projects—
    (I) in economically distressed areas and areas disproportionately impacted by pollution; or
    (II) that provide the greatest potential to reduce energy costs, as well as promote accessibility and community implementation of demonstrated technologies;

(iii) can be replicated in a variety of regions and climates;

(iv) include business commercialization plans that have the potential for—
    (I) domestic manufacturing and production of solar energy technologies; or
    (II) exports of solar energy technologies;

(v) are carried out in collaboration with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated States; and

(vi) with regards to workforce development, activities that expand the number of individuals from underrepresented groups pursuing and attaining skills relevant to solar energy.

(D) Coordination

To the maximum extent practicable, the Secretary shall coordinate activities under the program with other relevant programs and capabilities of the Department and other Federal research programs.

(E) Use of funds

To the extent that funding is not otherwise available through other Federal programs or power purchase agreements, funding awarded for demonstration projects may be used for additional nontechnology costs, as determined to be appropriate by the Secretary, such as engineering or feasibility studies.

(F) Solicitation

Not less than once every two years, the Secretary shall conduct a national solicitation for applications for demonstration projects under this section.

(3) Advanced solar energy manufacturing initiative

(A) Grants

In addition to the program activities described in paragraph (2), in carrying out the program, the Secretary shall award financial assistance to eligible entities for research, development, demonstration, and commercialization projects to advance new solar energy manufacturing technologies and techniques.

(B) Priority

In awarding grants under subparagraph (A), to the extent practicable, the Secretary shall give priority to solar energy manufacturing projects that—

(i) increase efficiency and cost effectiveness in—
    (I) the manufacturing process; and
    (II) the use of resources, such as energy, water, and critical materials;

(ii) support domestic supply chains for materials and components;

(iii) identify and incorporate nonhazardous alternative materials for components and devices;

(iv) operate in partnership with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated States; or

(v) are located in economically distressed areas.

(C) Evaluation

Not later than 3 years after December 27, 2020, and every 4 years thereafter, the Secretary shall conduct, and make available to the public and the relevant committees of Congress, an independent review of the progress of the grants awarded under subparagraph (A).

(4) Solar energy technology recycling research, development, and demonstration program

(A) In general

In addition to the program activities described in paragraph (2), in carrying out the
program, the Secretary shall award financial assistance to eligible entities for research, development, demonstration, and commercialization projects to create innovative and practical approaches to increase the reuse and recycling of solar energy technologies, including—

(i) by increasing the efficiency and cost effectiveness of the recovery of raw materials from solar energy technology components and systems, including enabling technologies such as inverters;

(ii) by minimizing potential environmental impacts from the recovery and disposal processes;

(iii) by advancing technologies and processes for the disassembly and recycling of solar energy devices;

(iv) by developing alternative materials, designs, manufacturing processes, and other aspects of solar energy technologies and the disassembly and resource recovery process that enable efficient, cost effective, and environmentally responsible disassembly of, and resource recovery from, solar energy technologies; and

(v) strategies to increase consumer acceptance of, and participation in, the recycling of photovoltaic devices.

(B) Dissemination of results

The Secretary shall make available to the public and the relevant committees of Congress the results of the projects carried out through financial assistance awarded under subparagraph (A), including—

(i) development of best practices or training materials for use in the photovoltaics manufacturing, design, installation, refurbishing, disposal, or recycling industries;

(ii) dissemination at industry conferences;

(iii) coordination with information dissemination programs relating to recycling of electronic devices in general;

(iv) demonstration projects; and

(v) educational materials.

(C) Priority

In carrying out the activities authorized under this subsection, the Secretary shall give special consideration to projects that recover critical materials.

(D) Sensitive information

In carrying out the activities authorized under this subsection, the Secretary shall ensure proper security controls are in place to protect proprietary or sensitive information, as appropriate.

(5) Solar energy technology materials physical property database

(A) In general

Not later than September 1, 2022, the Secretary shall establish a comprehensive physical property database of materials for use in solar energy technologies, which shall identify the type, quantity, country of origin, source, significant uses, projected availability, and physical properties of materials used in solar energy technologies.

(B) Coordination

In establishing the database described in subparagraph (A), the Secretary shall coordinate with—

(i) other Department activities, including those carried out by the Office of Science;

(ii) the Director of the National Institute of Standards and Technology;

(iii) the Administrator of the Environmental Protection Agency;

(iv) the Secretary of the Interior; and

(v) relevant industry stakeholders, as determined by the Secretary.

(6) Solar energy technology program strategic vision

(A) In general

Not later than September 1, 2022, and every 6 years thereafter, the Secretary shall submit to Congress a report on the strategic vision, progress, goals, and targets of the program, including assessments of solar energy markets and manufacturing.

(B) Inclusion

As a part of the report described in subparagraph (A), the Secretary shall include a study that examines the viable market opportunities available for solar energy technology manufacturing in the United States, including—

(i) a description of—

(I) the ability to competitively manufacture solar technology in the United States, including the manufacture of—

(aa) new and advanced materials, such as cells made with new, high efficiency materials;

(bb) solar module equipment and enabling technologies, including smart inverters, sensors, and tracking equipment; and

(cc) innovative solar module designs and applications, including those that can directly integrate with new and existing buildings and other infrastructure; and

(II) opportunities and barriers within the United States and international solar energy technology market;

(ii) policy recommendations for enhancing solar energy technology manufacturing in the United States;

(iii) a 10-year target and plan to enhance the competitiveness of solar energy technology manufacturing in the United States; and

(iv) any other research areas as determined by the Secretary.

(C) Preparation

The Secretary shall coordinate the preparation of the report under subparagraph (A) with—

(i) existing peer review processes;

(ii) studies conducted by the National Laboratories; and

(iii) the multiyear program planning required under section 16358 of this title.
(7) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program $300,000,000 for each of fiscal years 2021 through 2025.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this section, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

PART D—AGRICULTURAL BIOMASS RESEARCH AND DEVELOPMENT PROGRAMS

§ 16251. Production incentives for cellulosic biofuels

(a) Purpose

The purpose of this section is to—

(1) accelerate deployment and commercialization of biofuels;
(2) deliver the first 1,000,000,000 gallons in annual cellulosic biofuels production by 2015;
(3) ensure biofuels produced after 2015 are cost competitive with gasoline and diesel; and
(4) ensure that small feedstock producers and rural small businesses are full participants in the development of the cellulosic biofuels industry.

(b) Definitions

In this section:

(1) Cellulosic biofuels

The term “cellulosic biofuels” means any fuel that is produced from cellulosic feedstocks.

(2) Eligible entity

The term “eligible entity” means a producer of fuel from cellulosic biofuels the production facility of which—

(A) is located in the United States;
(B) meets all applicable Federal and State permitting requirements; and
(C) meets any financial criteria established by the Secretary.

(c) Program

(1) Establishment

The Secretary, in consultation with the Secretary of Agriculture, the Secretary of Defense, and the Administrator of the Environmental Protection Agency, shall establish an incentive program for the production of cellulosic biofuels.

(2) Basis of incentives

Under the program, the Secretary shall award production incentives on a per gallon basis of cellulosic biofuels from eligible entities, through—

(A) set payments per gallon of cellulosic biofuels produced in an amount determined by the Secretary, until initiation of the first reverse auction; and
(B) reverse auction thereafter.

(3) First reverse auction

The first reverse auction shall be held on the earlier of—

(A) not later than 1 year after the first year of annual production in the United States of 1,000,000,000 gallons of cellulosic biofuels, as determined by the Secretary; or
(B) not later than 3 years after August 8, 2005.

(4) Reverse auction procedure

(A) In general

On initiation of the first reverse auction, and each year thereafter until the earlier of the first year of annual production in the United States of 1,000,000,000 gallons of cellulosic biofuels, as determined by the Secretary, or 10 years after August 8, 2005, the Secretary shall conduct a reverse auction at which—

(i) the Secretary shall solicit bids from eligible entities;
(ii) eligible entities shall submit—
(I) a desired level of production incentive on a per gallon basis; and
(II) an estimated annual production amount in gallons; and
(iii) the Secretary shall issue awards for the production amount submitted, beginning with the eligible entity submitting the bid for the lowest level of production incentive on a per gallon basis and meeting such other criteria as are established by the Secretary, until the amount of funds available for the reverse auction is committed.

(B) Amount of incentive received

An eligible entity selected by the Secretary through a reverse auction shall receive the amount of performance incentive requested in the auction for each gallon produced and sold by the entity during the first 6 years of operation.

(C) Commencement of production of cellulosic biofuels

As a condition of the receipt of an award under this section, an eligible entity shall enter into an agreement with the Secretary under which the eligible entity agrees to begin production of cellulosic biofuels not later than 3 years after the date of the reverse auction in which the eligible entity participates.

(d) Limitations

Awards under this section shall be limited to—

(1) a per gallon amount determined by the Secretary during the first 4 years of the program;
(2) a declining per gallon cap over the remaining lifetime of the program, to be established by the Secretary so that cellulosic biofuels produced after the first year of annual cellulosic biofuels production in the United States in excess of 1,000,000,000 gallons are cost competitive with gasoline and diesel;
not more than 25 percent of the funds committed within each reverse auction to any
1 project;
(4) not more than $100,000,000 in any 1 year;
and
(5) not more than $1,000,000,000 over the life-
time of the program.

(e) Priority
In selecting a project under the program, the
Secretary shall give priority to projects that—
(1) demonstrate outstanding potential for local and regional economic development;
(2) include agricultural producers or co-
operators of agricultural producers as equity partners in the ventures; and
(3) have a strategic agreement in place to fairly reward feedstock suppliers.

(f) Authorizations of appropriations
There is authorized to be appropriated to carry out this section $250,000,000.

§ 16252. Education

(1) In general
The Architect of the Capitol shall establish in the Capitol Complex a program of public
education regarding use by the Architect of the Capitol of biobased products.

(2) Purposes
The purposes of the program shall be—
(A) to establish the Capitol Complex as a showcase for the existence and benefits of biobased products; and
(B) to provide access to further information on biobased products to occupants and visitors.

§ 16253. Small business biobased product marketing and certification grants

(a) In general
Using amounts made available under sub-
section (g), the Secretary of Agriculture (referred to in this section as the “Secretary”) shall make available on a competitive basis grants to eligible entities described in sub-
section (b) for the biobased product marketing and certification purposes described in sub-
section (c).

(b) Eligible entities
(1) In general
An entity eligible for a grant under this sec-
tion is any manufacturer of biobased products that—
(A) proposes to use the grant for the biobased product marketing and certification purposes described in subsection (c); and
(B) has not previously received a grant under this section.

(2) Preference
In making grants under this section, the Secretary shall provide a preference to an eli-
gible entity that has fewer than 50 employees.

(c) Biobased product marketing and certification grant purposes
A grant made under this section shall be used—
(1) to provide working capital for marketing of biobased products; and
(2) to provide for the certification of biobased products to—
(A) qualify for the label described in section 8102(b) of title 7; or
(B) meet other biobased standards determined appropriate by the Secretary.

(d) Matching funds
(1) In general
Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) Expenditure
Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) Amount
A grant made under this section shall not ex-
cede $100,000.

(f) Administration
The Secretary shall establish such administra-
tive requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(g) Authorizations of appropriations
There are authorized to be appropriated to make grants under this section—
(1) $1,000,000 for fiscal year 2006; and
(2) such sums as are necessary for each of fiscal years 2007 through 2015.

§ 16254. Regional bioeconomy development grants

(a) In general
Using amounts made available under sub-
section (g), the Secretary of Agriculture (referred to in this section as the “Secretary”) shall make available on a competitive basis grants to eligible entities described in sub-
section (b) for the purposes described in sub-
section (c).

(b) Eligible entities
An entity eligible for a grant under this sec-
tion is any regional bioeconomy development association, agricultural or energy trade association, or Land Grant institution that—
(1) proposes to use the grant for the purposes described in subsection (c); and
(2) has not previously received a grant under this section.

(c) Regional bioeconomy development association grant purposes
A grant made under this section shall be used to support and promote the growth and develop-
ment of the bioeconomy within the region served by the eligible entity, through coordination, education, outreach, and other endeavors by the eligible entity.

(d) Matching funds

(1) In general
Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) Expenditure
Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) Administration
The Secretary shall establish such administrative requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(f) Amount
A grant made under this section shall not exceed $500,000.

(g) Authorizations of appropriations
There are authorized to be appropriated to make grants under this section—
(1) $1,000,000 for fiscal year 2006; and
(2) such sums as are necessary for each of fiscal years 2007 through 2015.

(1) In general
The Secretary of Agriculture (referred to in this section as the “Secretary”) shall make grants under this section to enterprising entities owned by agricultural producers, for the purposes of demonstrating cost-effective, cellulosic biomass innovations in—
(1) preprocessing of feedstocks, including cleaning, separating and sorting, mixing or blending, and chemical or biochemical treatments, to add value and lower the cost of feedstock processing at a biorefinery; or
(2) 1-pass or other efficient, multiple crop harvesting techniques.

(b) Limitations on grants

(1) Number of grants
Not more than 5 demonstration projects per fiscal year shall be funded under this section.

(2) Non-Federal cost share
The non-Federal cost share of a project under this section shall be not less than 20 percent, as determined by the Secretary.

(c) Condition of grant
To be eligible for a grant for a project under this section, a recipient of a grant or a participating entity shall agree to use the material harvested under the project—
(1) to produce ethanol; or
(2) for another energy purpose, such as the generation of heat or electricity.

(d) Authorization for appropriations
There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2006 through 2010.

(1) $1,000,000 for fiscal year 2006; and
(2) such sums as are necessary for each of fiscal years 2007 through 2015.

(1) In general
The Secretary of Agriculture shall establish, within the Department of Agriculture or through an independent contracting entity, a program of education and outreach on biobased fuels and biobased products consisting of—
(1) training and technical assistance programs for feedstock producers to promote producer ownership, investment, and participation in the operation of processing facilities; and
(2) public education and outreach to familiarize consumers with the biobased fuels and biobased products.

(b) Authorization of appropriations
There is authorized to be appropriated to carry out this section $1,000,000 for each of fiscal years 2006 through 2010.

(1) In general
The Secretary shall carry out programs of civilian nuclear research, development, demonstration, and commercial application, including activities under this part.

(2) Considerations
The programs carried out under paragraph (1) shall take into consideration the following objectives:
(A) Providing research infrastructure to promote scientific progress and enable users from academia, the National Laboratories, and the private sector to make scientific discoveries relevant for nuclear, chemical, and materials science engineering.
(B) Maintaining nuclear energy research and development programs at the National Laboratories and institutions of higher education, including infrastructure at the National Laboratories and institutions of higher education.
(C) Providing the technical means to reduce the likelihood of nuclear proliferation.
(D) Increasing confidence margins for public safety of nuclear energy systems.
(E) Reducing the environmental impact of activities relating to nuclear energy.
(F) Supporting technology transfer from the National Laboratories to the private sector.
(G) Enabling the private sector to partner with the National Laboratories to demonstrate novel reactor concepts for the purpose of resolving technical uncertainty asso-
(b) Definitions
In this part:

(1) Advanced nuclear reactor
The term “advanced nuclear reactor” means—
(A) a nuclear fission reactor, including a prototype plant (as defined in sections 50.2 and 52.1 of title 10, Code of Federal Regulations (or successor regulations)), with significant improvements compared to reactors operating on December 27, 2020, including improvements such as—
(i) additional inherent safety features;
(ii) lower waste yields;
(iii) improved fuel and material performance;
(iv) increased tolerance to loss of fuel cooling;
(v) enhanced reliability or improved resilience;
(vi) increased proliferation resistance;
(vii) increased thermal efficiency;
(ix) the ability to integrate into electric applications and nonelectric applications;
(x) modular sizes to allow for deployment that corresponds with the demand for electricity or process heat; and
(xi) operational flexibility to respond to changes in demand for electricity or process heat and to complement integration with intermittent renewable energy or energy storage; and
(B) a fusion reactor.

(2) Commission
The term “Commission” means the Nuclear Regulatory Commission.

(3) Fast neutron
The term “fast neutron” means a neutron with kinetic energy above 100 kiloelectron volts.

(4) National Laboratory
(A) In general
Except as provided in subparagraph (B), the term “National Laboratory” has the meaning given the term in section 15801 of this title.

(B) Limitation
With respect to the Lawrence Livermore National Laboratory, the Los Alamos National Laboratory, and the Sandia National Laboratories, the term “National Laboratory” means only the civilian activities of the laboratory.

(5) Neutron flux
The term “neutron flux” means the intensity of neutron radiation measured as a rate of flow of neutrons applied over an area.

(6) Neutron source
The term “neutron source” means a research machine that provides neutron irradiation services for—

(A) research on materials sciences and nuclear physics; and
(B) testing of advanced materials, nuclear fuels, and other related components for reactor systems.

§ 16272. Reactor concepts research, development, demonstration, and commercial application

(a) Sustainability program for light water reactors

(1) In general
The Secretary shall carry out a program of research, development, demonstration, and commercial application, including through the use of modeling and simulation, to support existing operating nuclear power plants which shall address technologies to modernize and improve, with respect to such plants—
(A) reliability;
(B) capacity;
(C) component aging;
(D) safety;
(E) physical security and security costs;
(F) plant lifetime;
(G) operations and maintenance costs, including by utilizing risk-informed systems analysis;
(H) the ability for plants to operate flexibly;
(I) nuclear integrated energy system applications described in subsection (c);
(J) efficiency;
(K) environmental impacts; and
(L) resilience.

(2) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out the program under this subsection $55,000,000 for each of fiscal years 2021 through 2025.

(3) Report
The Secretary shall submit annually a public report to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate documenting funds spent under the program that describes program activities, objectives, and outcomes, including those that could benefit the entirety of the existing reactor fleet, such as with respect to aging management and related sustainability concerns, and identifying funds awarded to private entities.

(b) Advanced reactor technologies

(1) In general
The Secretary shall carry out a program of research, development, demonstration, and
commercial application to support advanced reactor technologies.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall—

(A) prioritize designs for advanced nuclear reactors that are proliferation resistant and passively safe, including designs that, compared to reactors operating on December 27, 2020—

(i) are economically competitive with other electric power generation plants;
(ii) have higher efficiency, lower cost, less environmental impacts, increased resilience, and improved safety;
(iii) use fuels that are proliferation resistant and have reduced production of high-level waste per unit of output; and
(iv) use advanced instrumentation and monitoring systems;

(B) consult with the Nuclear Regulatory Commission on appropriate metrics to consider for the criteria specified in subparagraph (A);

(C) support research and development to resolve materials challenges relating to extreme environments, including environments that contain high levels of—

(i) radiation fluence;
(ii) temperature;
(iii) pressure; and
(iv) corrosion;

(D) support research and development to aid in the qualification of advanced fuels, including fabrication techniques;

(E) support activities that address near-term challenges in modeling and simulation to enable accelerated design of and licensing of advanced nuclear reactors, including the identification of tools and methodologies for validating such modeling and simulation efforts;

(F) develop technologies, including technologies to manage, reduce, or reuse nuclear waste;

(G) ensure that nuclear research infrastructure is maintained or constructed, including—

(i) currently operational research reactors at the National Laboratories and institutions of higher education;
(ii) hot cell research facilities;
(iii) a versatile fast neutron source; and
(iv) advanced coolant testing facilities, including coolants such as lead, sodium, gas, and molten salt;

(H) improve scientific understanding of nonlight water coolant physics and chemistry;

(I) develop advanced sensors and control systems, including the identification of tools and methodologies for validating such sensors and systems;

(J) investigate advanced manufacturing and advanced construction techniques and materials to reduce the cost of advanced nuclear reactors, including the use of digital twins and of strategies to implement project and construction management best practices, and study the effects of radiation and corrosion on materials created with these techniques;

(K) consult with the Administrator of the National Nuclear Security Administration to integrate reactor safeguards and security into design;

(L) support efforts to reduce any technical barriers that would prevent commercial application of advanced nuclear energy systems; and

(M) develop various safety analyses and emergency preparedness and response methodologies.

(3) Coordination

The Secretary shall coordinate with individuals engaged in the private sector and individuals who are experts in nuclear nonproliferation, environmental and public health and safety, and economics to advance the development of various designs of advanced nuclear reactors. In carrying out this paragraph, the Secretary shall convene an advisory committee of such individuals and such committee shall submit annually a report to the relevant committees of Congress with respect to the progress of the program.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $55,000,000 for each of fiscal years 2021 through 2025.

(c) Nuclear integrated energy systems research, development, demonstration, and commercial application program

(1) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application to develop nuclear integrated energy systems, composed of 2 or more co-located or jointly operated subsystems of energy generation, energy storage, or other technologies and in which not less than 1 such subsystem is a nuclear energy system, to—

(A) reduce greenhouse gas emissions in both the power and nonpower sectors; and

(B) maximize energy production and efficiency.

(2) Coordination

In carrying out the program under paragraph (1), the Secretary shall coordinate with—

(A) relevant program offices within the Department of Energy;

(B) National Laboratories;

(C) institutions of higher education; and

(D) the private sector.

(3) Focus areas

The program under paragraph (1) may include research, development, demonstration, or commercial application of nuclear integrated energy systems with respect to—

(A) desalination technologies and processes;

(B) hydrogen or other liquid and gaseous fuel or chemical production;
(C) heat for industrial processes;
(D) district heating;
(E) heat or electricity generation and storage;
(F) carbon capture, use, utilization, and storage;
(G) microgrid or island applications;
(H) integrated systems modeling, analysis, and optimization, inclusive of different configurations of integrated energy systems; and
(I) integrated design, planning, building, and operation of systems with existing infrastructure, including interconnection requirements with the electric grid, as appropriate.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection—

(A) $30,000,000 for fiscal year 2021;
(B) $30,000,000 for fiscal year 2022;
(C) $30,000,000 for fiscal year 2023;
(D) $40,000,000 for fiscal year 2024; and
(E) $40,000,000 for fiscal year 2025.

AMENDMENTS

2018—Subsecs. (c) to (e), Pub. L. 115–248 redesignated subsecs. (d) and (e) as (c) and (d), respectively, and struck out former subsec. (c) which related to establishment and administration of a Nuclear Power 2010 Program.

§ 16273. Fuel cycle research, development, demonstration, and commercial application

(a) Used nuclear fuel research, development, demonstration, and commercial application

(1) In general

The Secretary shall conduct an advanced fuel cycle research, development, demonstration, and commercial application program to improve fuel cycle performance, minimize environmental and public health and safety impacts, and support a variety of options for used nuclear fuel storage, use, and disposal, including advanced nuclear reactor and non-reactor concepts (such as radioisotope power systems), which may include—

(A) dry cask storage;
(B) consolidated interim storage;
(C) deep geological storage and disposal, including mined repository, and other technologies;
(D) used nuclear fuel transportation;
(E) integrated waste management systems;
(F) vitrification;
(G) fuel recycling and transmutation technologies, including advanced reprocessing technologies such as electrochemical and molten salt technologies, and advanced redox extraction technologies;
(H) advanced materials to be used in subparagraphs (A) through (G); and
(I) other areas as determined by the Secretary.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall—

(A) ensure all activities and designs incorporate state of the art safeguards technologies and techniques to reduce risk of proliferation;
(B) consult with the Administrator of the National Nuclear Security Administration to integrate safeguards and security by design;
(C) consider the potential benefits and other impacts of those activities for civilian nuclear applications, environmental health and safety, and national security, including consideration of public consent; and
(D) consider the economic viability of all activities and designs.

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $60,000,000 for each of fiscal years 2021 through 2025.

(b) Advanced fuels

(1) In general

The Secretary shall conduct an advanced fuels research, development, demonstration, and commercial application program on next-generation light water reactor and advanced reactor fuels that demonstrate the potential for improved—

(A) performance;
(B) accident tolerance;
(C) proliferation resistance;
(D) use of resources;
(E) environmental impact; and
(F) economics.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall focus on the development of advanced technology fuels, including fabrication techniques, that offer improved accident-tolerance and economic performance with the goal of initial commercial application by December 31, 2025.

(3) Report

Not later than 180 days December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes how the technologies and concepts studied under this program would impact reactor economics, the fuel cycle, operations, safety, proliferation, and the environment.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $125,000,000 for each of fiscal years 2021 through 2025.

(a) University nuclear science and engineering support

(1) In general
The Secretary shall conduct a program to invest in human resources and infrastructure in the nuclear sciences and related fields, including health physics, nuclear engineering, and radiochemistry, consistent with missions of the Department related to civilian nuclear research, development, demonstration, and commercial application.

(2) Requirements
In carrying out the program under this subsection, the Secretary shall—
(A) conduct a graduate and undergraduate fellowship program to attract new and talented students, which may include fellowships for students to spend time at National Laboratories in the areas of nuclear science, engineering, and health physics with a member of the National Laboratory staff acting as a mentor;
(B) conduct a junior faculty research initiative grant program to assist universities in recruiting and retaining new faculty in the nuclear sciences and engineering by awarding grants to junior faculty for research on issues related to nuclear energy engineering and science;
(C) support fundamental nuclear sciences, engineering, and health physics research through a nuclear engineering education and research program;
(D) encourage collaborative nuclear research among industry, National Laboratories, and universities; and
(E) support communication and outreach related to nuclear science, engineering, and health physics.

(3) University-National Laboratory interactions
The Secretary shall conduct—
(A) a fellowship program for professors at universities to spend sabbaticals at National Laboratories in the areas of nuclear science and technology; and
(B) a visiting scientist program in which National Laboratory staff can spend time in academic nuclear science and engineering departments.

(4) Strengthening university research and training reactors and associated infrastructure
In carrying out the program under this subsection, the Secretary may support—
(A) converting research reactors from high-enrichment fuels to low-enrichment fuels and upgrading operational instrumentation;
(B) consortia of universities to broaden access to university research reactors; (C) student training programs, in collaboration with the United States nuclear industry, in relicensing and upgrading reactors, including through the provision of technical assistance; and
(D) reactor improvements that emphasize research, training, and education, including through the Innovations in Nuclear Infrastructure and Education Program or any similar program.

(5) Radiological facilities management
(A) In general
The Secretary shall carry out a program under which the Secretary shall provide project management, technical support, quality engineering and inspection, and nuclear material handling support to research reactors located at universities.

(B) Authorization of appropriations
Of any amounts appropriated to carry out the program under this subsection, there are authorized to be appropriated to the Secretary to carry out the program under this paragraph $20,000,000 for each of fiscal years 2021 through 2025.

(6) Nuclear energy university program
In carrying out the programs under this section, the Department shall, to the maximum extent practicable, allocate 20 percent of funds appropriated to nuclear energy research and development programs annually to fund university-led research and university infrastructure projects through an open, competitive solicitation process.

(7) Operations and maintenance
Funding for a project provided under this subsection may be used for a portion of the operating and maintenance costs of a research reactor at a university used in the project.

(8) Definition
In this subsection, the term “junior faculty” means a faculty member who was awarded a doctorate less than 10 years before receipt of an award from the grant program described in paragraph (2)(B).

(b) Nuclear energy graduate traineeship subprogram

(1) Establishment
In carrying out the program under subsection (a), the Secretary shall establish a nuclear energy graduate traineeship subprogram under which the Secretary shall competitively award graduate traineeships in coordination with universities to provide focused, advanced training to meet critical mission needs of the Department, including in industries that are represented by skilled labor unions.

(2) Requirements
In carrying out the subprogram under this subsection, the Secretary shall—
(A) encourage appropriate partnerships among National Laboratories, affected universities, and industry; and
(B) on an annual basis, evaluate the needs of the nuclear energy community to imple-
ment graduate traineeships for focused topical areas addressing mission-specific workforce needs.

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the subprogram under this subsection $5,000,000 for each of fiscal years 2021 through 2025.

AMENDMENTS

Subsec. (a). Pub. L. 116–260, § 2003(c)(10), designated existing provisions as subsec. (a) and inserted heading.

Pub. L. 116–260, § 2003(c)(9), added pars. (5) and (6).

Pub. L. 116–260, § 2003(c)(7), redesignated subsec. (b) as par. (2).

Pub. L. 116–260, § 2003(c)(2), substituted “this subsection” for “this section” in introductory provisions, redesignated pars. (1) to (5) as subpars. (A) to (E), respectively, and realigned margins.

Subsec. (c). Pub. L. 116–260, § 2003(c)(7), redesignated subsec. (c) as par. (3).

Pub. L. 116–260, § 2003(c)(3), redesignated pars. (1) and (2) as subpars. (A) and (B), respectively, and realigned margins.

Pub. L. 116–260, § 2003(c)(4), substituted “this subsection” for “this section” in introductory provisions, redesignated pars. (1) to (4) as subpars. (A) to (D), respectively, and realigned margins.

Subsec. (e). Pub. L. 116–260, § 2003(c)(8), redesignated subsec. (e) as par. (5). Margins realigned to reflect the probable intent of Congress.

Pub. L. 116–260, § 2003(c)(5), substituted “this subsection” for “this section”.

Pub. L. 116–260, § 2003(c)(6), substituted “this subsection” for “this section” and “paragraph (2)(B)” for “subsection (b)(2)”.

2018—Subsec. (d)(4). Pub. L. 115–248 substituted “that emphasize” for “as part of a taking into consideration effort that emphasizes”.

§ 16274a. University Nuclear Leadership Program

(a) In general

The Secretary of Energy, the Administrator of the National Nuclear Security Administration, and the Chairman of the Nuclear Regulatory Commission shall jointly establish a program, to be known as the “University Nuclear Leadership Program”.

(b) Use of funds

(1) In general

Except as provided in paragraph (2), amounts made available to carry out the Program shall be used to provide financial assistance for scholarships, fellowships, and research and development projects at institutions of higher education in areas relevant to the programmatic mission of the applicable Federal agency, with an emphasis on providing the financial assistance with respect to research, development, demonstration, and commercial application activities relevant to civilian advanced nuclear reactors including, but not limited to—

(A) relevant fuel cycle technologies;

(B) project management; and

(C) advanced construction, manufacturing, and fabrication methods.

(2) Exception

Notwithstanding paragraph (1), amounts made available to carry out the Program may be used to provide financial assistance for a scholarship, fellowship, or multiyear research and development project that does not align directly with a programmatic mission of the Department of Energy, if the activity for which assistance is provided would facilitate the maintenance of the discipline of nuclear science or engineering.

(c) Definitions

In this section:

(1) Advanced nuclear reactor; institution of higher education

The terms “advanced nuclear reactor” and “institution of higher education” have the meanings given those terms in section 16271 of this title.

(2) Program

The term “Program” means the University Nuclear Leadership Program established under this section.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out the Program for each of fiscal years 2021 through 2025—

(1) $30,000,000 to the Secretary of Energy, of which $15,000,000 shall be for use by the Administrator of the National Nuclear Security Administration; and

(2) $15,000,000 to the Nuclear Regulatory Commission.

CODIFICATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2009, and also as part of the Omnibus Appropriations Act, 2009, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

AMENDMENTS

§ 16275. Department of Energy civilian nuclear infrastructure and facilities

(a) In general

The Secretary shall operate and maintain infrastructure and facilities to support the nuclear energy research, development, demonstration, and commercial application programs, including radiological facilities management, isotope production, and facilities management.

(b) Duties

In carrying out this section, the Secretary shall—
(1) develop an inventory of nuclear science and engineering facilities, equipment, expertise, and other assets at all of the National Laboratories;
(2) develop a prioritized list of nuclear science and engineering plant and equipment improvements needed at each of the National Laboratories;
(3) consider the available facilities and expertise at all National Laboratories and emphasize investments which complement rather than duplicate capabilities; and
(4) develop a timeline and a proposed budget for the completion of deferred maintenance on plant and equipment, with the goal of ensuring that Department programs under this part will be generally recognized to be among the best in the world.

(e) Versatile neutron source

(1) Authorization

(A) In general

Not later than December 31, 2017, the Secretary shall provide for a versatile reactor-based fast neutron source, which shall operate as a national user facility.

(B) Consultations required

In carrying out subparagraph (A), the Secretary shall consult with the private sector, institutions of higher education, the National Laboratories, and relevant Federal agencies to ensure that the user facility described in subparagraph (A) will meet the research needs of the largest practicable majority of prospective users.

(2) Establishment

As soon as practicable after determining the mission need under paragraph (1)(A), the Secretary shall submit to the appropriate committees of Congress a detailed plan for the establishment of the user facility.

(3) Facility requirements

(A) Capabilities

The Secretary shall ensure that the user facility will provide, at a minimum, the following capabilities:

(i) Fast neutron spectrum irradiation capability.
(ii) Capacity for upgrades to accommodate new or expanded research needs.

(B) Considerations

In carrying out the plan submitted under paragraph (2), the Secretary shall consider the following:

(i) Capabilities that support experimental high-temperature testing.
(ii) Providing a source of fast neutrons at a neutron flux, higher than that at which current research facilities operate, sufficient to enable research for an optimal base of prospective users.
(iii) Maximizing irradiation flexibility and irradiation volume to accommodate as many concurrent users as possible.
(iv) Capabilities for irradiation with neutrons of a lower energy spectrum.
(v) Multiple loops for fuels and materials testing in different coolants.

(vi) Additional pre-irradiation and post-irradiation examination capabilities.
(vii) Lifetime operating costs and lifecycle costs.

(4) Deadline for establishment

The Secretary shall, to the maximum extent practicable, complete construction of, and approve the start of operations for, the user facility by not later than December 31, 2026.

(5) Reporting

The Secretary shall include in the annual budget request of the Department an explanation for any delay in the progress of the Department in completing the user facility by the deadline described in paragraph (4).

(6) Coordination

The Secretary shall leverage the best practices for management, construction, and operation of national user facilities from the Office of Science.

(7) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the construction of the facility under this section—

(A) $384,000,000 for fiscal year 2021;
(B) $348,000,000 for fiscal year 2022;
(C) $325,000,000 for fiscal year 2023;
(D) $354,000,000 for fiscal year 2024; and
(E) $584,000,000 for fiscal year 2025.

(d) Gateway for Accelerated Innovation in Nuclear

(1) In general

In carrying out the programs under this part, the Secretary is authorized to establish a new initiative to be known as the Gateway for Accelerated Innovation in Nuclear (GAIN). The initiative shall, to the maximum extent practicable and consistent with national security, provide the nuclear energy industry with access to cutting edge research and development along with the technical, regulatory, and financial support necessary to move innovative nuclear energy technologies toward commercialization in an accelerated and cost-effective fashion. The Secretary shall make available, as a minimum—

(A) experimental capabilities and testing facilities;
(B) computational capabilities, modeling, and simulation tools;
(C) access to existing datasets and data validation tools; and
(D) technical assistance with guidance or processes as needed.

(2) Selection

(A) In general

The Secretary shall select industry partners for awards on a competitive merit-reviewed basis.

(B) Considerations

In selecting industry partners under subparagraph (A), the Secretary shall consider—

(i) the information disclosed by the Department as described in paragraph (1); and
§ 16277. High-performance computation and simulation.  

The Secretary shall carry out a program to enhance the capabilities of the United States to develop new reactor technologies through high-performance computation modeling and simulation techniques.  

(a) National Reactor Innovation Center  

There is authorized a program to enable the testing and demonstration of reactor concepts to be proposed and funded, in whole or in part, by the private sector.  

(b) Technical expertise  

In carrying out the program under subsection (a), the Secretary shall leverage the technical expertise of relevant Federal agencies and the National Laboratories in order to minimize the time required to enable construction and operation of privately funded experimental reactors at National Laboratories or other Department-owned sites.  

(c) Objectives  

The reactors described in subsection (b) shall operate to meet the following objectives:  

(1) Enabling physical validation of advanced nuclear reactor concepts.  

(2) Resolving technical uncertainty and increasing practical knowledge relevant to safe-
ty, resilience, security, and functionality of advanced nuclear reactor concepts.
(3) General research and development to improve nascent technologies.

(d) Sharing technical expertise

In carrying out the program under subsection (a), the Secretary may enter into a memorandum of understanding with the Chairman of the Commission in order to share technical expertise and knowledge through—
(1) enabling the testing and demonstration of advanced nuclear reactor concepts to be proposed and funded, in whole or in part, by the private sector;
(2) operating a database to store and share data and knowledge relevant to nuclear science and engineering between Federal agencies and the private sector;
(3) developing and testing electric and non-electric integration and energy conversion systems relevant to advanced nuclear reactors;
(4) leveraging expertise from the Commission with respect to safety analysis; and
(5) enabling technical staff of the Commission to actively observe and learn about technologies developed under the program.

(e) Agency coordination

The Chairman of the Commission and the Secretary shall enter into a memorandum of understanding regarding the following:
(1) Ensuring that—
(A) the Department has sufficient technical expertise to support the timely research, development, demonstration, and commercial application by the civilian nuclear industry of safe and innovative advanced nuclear reactor technology; and
(B) the Commission has sufficient technical expertise to support the evaluation of applications for licenses, permits, and design certifications and other requests for regulatory approval for advanced nuclear reactors.
(2) The use of computers and software codes to calculate the behavior and performance of advanced nuclear reactors based on mathematical models of the physical behavior of advanced nuclear reactors.
(3) Ensuring that—
(A) the Department maintains and develops the facilities necessary to enable the timely research, development, demonstration, and commercial application by the civilian nuclear industry of safe and innovative reactor technology; and
(B) the Commission has access to the facilities described in subparagraph (A), as needed.

(f) Reporting requirements

(1) In general

Not later than 180 days after September 28, 2018, the Secretary, in consultation with the National Laboratories, relevant Federal agencies, and other stakeholders, shall submit to the appropriate committees of Congress a report assessing the capabilities of the Department to authorize, host, and oversee privately funded experimental advanced nuclear reactors as described in subsection (b).

(2) Contents

The report submitted under paragraph (1) shall address—
(A) the safety review and oversight capabilities of the Department, including options to leverage expertise from the Commission and the National Laboratories;
(B) options to regulate privately proposed and funded experimental reactors hosted by the Department;
(C) potential sites capable of hosting privately funded experimental advanced nuclear reactors;
(D) the efficacy of the available contractual mechanisms of the Department to partner with the private sector and Federal agencies, including cooperative research and development agreements, strategic partnership projects, and agreements for commercializing technology;
(E) the liability of the Federal Government with respect to the disposal of low-level radioactive waste, spent nuclear fuel, or high-level radioactive waste (as those terms are defined in section 10101 of this title);
(F) the impact on the aggregate inventory in the United States of low-level radioactive waste, spent nuclear fuel, or high-level radioactive waste (as those terms are defined in section 10101 of this title);
(G) potential cost structures relating to physical security, decommissioning, liability, and other long-term project costs; and
(H) other challenges or considerations identified by the Secretary.

(3) Updates

Once every 2 years, the Secretary shall update relevant provisions of the report submitted under paragraph (1) and submit to the appropriate committees of Congress the update.

(g) Savings clauses

(1) Licensing requirement

Nothing in this section authorizes the Secretary or any person to construct or operate a nuclear reactor for the purpose of demonstrating the suitability for commercial application of the nuclear reactor unless licensed by the Commission in accordance with section 5842 of this title.

(2) Financial protection

Any activity carried out under this section that involves the risk of public liability shall be subject to the financial protection or indemnification requirements of section 2210 of this title (commonly known as the "Price-Anderson Act").
Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives 2 alternative 10-year budget plans for civilian nuclear energy research and development by the Secretary, as described in subsections (b) through (d).

(b) Budget plan alternative 1

One of the budget plans submitted under subsection (a) shall assume constant annual funding for 10 years at the appropriated level for the current fiscal year for the civilian nuclear energy research and development of the Department.

(c) Budget plan alternative 2

One of the budget plans submitted under subsection (a) shall be an unconstrained budget.

(d) Inclusions

Each alternative budget plan submitted under subsection (a) shall include—

(1) a prioritized list of the programs, projects, and activities of the Department to best support the development of advanced nuclear reactor technologies;

(2) realistic budget requirements for the Department to implement sections 16275(c), 16277, and 16278 of this title;

(3) the justification of the Department for continuing or terminating existing civilian nuclear energy research and development programs; and

(4) a description of the progress made under the programs described in section 16279a of this title.

(e) Updates

Not less frequently than once every 2 years, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate updated 10-year budget plans which shall identify, and provide a justification for, any major deviation from a previous budget plan submitted under this section.

AMENDMENTS

2020—Subsec. (b). Pub. L. 116–260, § 2005(1), added subsec. (b) generally. Prior to amendment, text read as follows: "One of the budget plans submitted under subsection (a) shall assume constant annual funding for 10 years at the appropriated level for the civilian nuclear energy research and development of the Department for fiscal year 2016."

§ 16279a. Advanced reactor demonstration program

(a) Demonstration project defined

For the purposes of this section, the term "demonstration project" means an advanced nuclear reactor operated in any manner, including as part of the power generation facilities of an electric utility system, for the purpose of demonstrating the suitability for commercial application of the advanced nuclear reactor.

(b) Establishment

The Secretary shall establish a program to advance the research, development, demonstration, and commercial application of domestic advanced, affordable, nuclear energy technologies by—

(1) demonstrating a variety of advanced nuclear reactor technologies, including those that could be used to produce—

(A) safer, emissions-free power at a competitive cost of electricity compared to other new energy generation technologies on December 27, 2020;

(B) heat for community heating, industrial purposes, heat storage, or synthetic fuel production;

(C) remote or off-grid energy supply; or

(D) backup or mission-critical power supplies;

(2) identifying research areas that the private sector is unable or unwilling to undertake due to the cost of, or risks associated with, the research; and

(3) facilitating the access of the private sector—

(A) to Federal research facilities and personnel; and

(B) to the results of research relating to civil nuclear technology funded by the Federal Government.

(c) Demonstration projects

In carrying out demonstration projects under the program established in subsection (b), the Secretary shall—

(1) include, as an evaluation criterion, diversity in designs for the advanced nuclear reactors demonstrated under this section, including designs using various—

(A) primary coolants;

(B) fuel types and compositions; and

(C) neutron spectra;

(2) consider, as evaluation criterions—

(A) the likelihood that the operating cost for future commercial units for each design implemented through a demonstration project under this subsection is cost-competitive in the applicable market, including those designs configured as integrated energy systems as described in section 16272(c) of this title;

(B) the technology readiness level of a proposed advanced nuclear reactor technology;

(C) the technical abilities and qualifications of teams desiring to demonstrate a proposed advanced nuclear reactor technology; and

(D) the capacity to meet cost-share requirements of the Department;

(3) ensure that each evaluation of candidate technologies for the demonstration projects is completed through an external review of proposed designs, which review shall—

(A) be conducted by a panel that includes not fewer than 1 representative that does not have a conflict of interest of each within the applicable market of the design of—
§ 16279b. International nuclear energy cooperation

The Secretary shall carry out a program—

(1) to collaborate in international efforts with respect to research, development, demonstration, and commercial application of nuclear technology that supports diplomatic, financing, nonproliferation, climate, and international economic objectives for the safe, secure, and peaceful use of such technology; and

(2) to develop collaboration initiatives with respect to such efforts with a variety of countries through—

(A) preparations for research and development agreements;

(B) the development of coordinated action plans; and

(C) new or existing multilateral cooperation commitments including—

(i) the International Framework for Nuclear Energy Cooperation;

(ii) the Generation IV International Forum;

(iii) the International Atomic Energy Agency;

(iv) the Organization for Economic Cooperation and Development Nuclear Energy Agency; and

(ii) an entity that uses high-temperature process heat for manufacturing or industrial processing, such as a petrochemical or synthetic fuel company, a manufacturer of metals or chemicals, or a manufacturer of concrete;

(iii) an expert from the investment community;

(iv) a project management practitioner; and

(v) an environmental health and safety expert; and

(B) include a review of each demonstration project under this subsection which shall include consideration of cost-competitiveness and other value streams, together with the technology readiness level, the technical abilities and qualifications of teams desiring to demonstrate a proposed advanced nuclear reactor technology, the capacity to meet cost-share requirements of the Department, if Federal funding is provided, and environmental impacts;

(4) for federally funded demonstration projects, enter into cost-sharing agreements with private sector partners in accordance with section 16352 of this title for the conduct of activities relating to the research, development, and demonstration of advanced nuclear reactor designs under the program;

(5) consult with—

(A) National Laboratories;

(B) institutions of higher education;

(C) traditional end users (such as electric utilities);

(D) potential end users of new technologies (such as users of high-temperature process heat for manufacturing processing, including petrochemical or synthetic fuel companies, manufacturers of metals or chemicals, or manufacturers of concrete);

(E) developers of advanced nuclear reactor technology;

(F) environmental and public health and safety experts; and

(G) non-proliferation experts;

(6) seek to ensure that the demonstration projects carried out under this section do not cause any delay in the progress of an advanced reactor project by private industry and the Department of Energy that is underway as of December 27, 2020;

(7) establish a streamlined approval process for expedited contracting between awardees and the Department;

(8) identify technical challenges to candidate technologies;

(9) support near-term research and development to address the highest risk technical challenges to the successful demonstration of a selected advanced reactor technology, in accordance with—

(A) paragraph (8);

(B) the research and development activities under section 16272(b) of this title; and

(C) the research and development activities under section 16278 of this title; and

(10) establish such technology advisory working groups as the Secretary determines to be appropriate to advise the Secretary regarding the technical challenges identified under paragraph (8) and the scope of research and development programs to address the challenges, in accordance with paragraph (9), to be comprised of—

(A) private sector advanced nuclear reactor technology developers;

(B) technical experts with respect to the relevant technologies at institutions of higher education;

(C) technical experts at the National Laboratories;

(D) environmental and public health and safety experts;

(E) non-proliferation experts; and

(F) any other entities the Secretary determines appropriate.

(d) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under subsection (c) as a milestone-based demonstration project under section 7256c of this title.

(e) Nonduplication

Entities may not receive funds under this program if receiving funds from another reactor demonstration program at the Department in the same fiscal year.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection—

(1) $405,000,000 for fiscal year 2021;

(2) $405,000,000 for fiscal year 2022;

(3) $420,000,000 for fiscal year 2023;

(4) $455,000,000 for fiscal year 2024; and

(5) $455,000,000 for fiscal year 2025.

§ 16279b. International nuclear energy cooperation

The Secretary shall carry out a program—

(1) to collaborate in international efforts with respect to research, development, demonstration, and commercial application of nuclear technology that supports diplomatic, financing, nonproliferation, climate, and international economic objectives for the safe, secure, and peaceful use of such technology; and

(2) to develop collaboration initiatives with respect to such efforts with a variety of countries through—

(A) preparations for research and development agreements;

(B) the development of coordinated action plans; and

(C) new or existing multilateral cooperation commitments including—

(i) the International Framework for Nuclear Energy Cooperation;

(ii) the Generation IV International Forum;

(iii) the International Atomic Energy Agency;

(iv) the Organization for Economic Cooperation and Development Nuclear Energy Agency; and

(ii) an entity that uses high-temperature process heat for manufacturing or industrial processing, such as a petrochemical or synthetic fuel company, a manufacturer of metals or chemicals, or a manufacturer of concrete;

(iii) an expert from the investment community;

(iv) a project management practitioner; and

(v) an environmental health and safety expert; and

(B) include a review of each demonstration project under this subsection which shall include consideration of cost-competitiveness and other value streams, together with the technology readiness level, the technical abilities and qualifications of teams desiring to demonstrate a proposed advanced nuclear reactor technology, the capacity to meet cost-share requirements of the Department, if Federal funding is provided, and environmental impacts;

(4) for federally funded demonstration projects, enter into cost-sharing agreements with private sector partners in accordance with section 16352 of this title for the conduct of activities relating to the research, development, and demonstration of advanced nuclear reactor designs under the program;

(5) consult with—

(A) National Laboratories;

(B) institutions of higher education;

(C) traditional end users (such as electric utilities);

(D) potential end users of new technologies (such as users of high-temperature process heat for manufacturing processing, including petrochemical or synthetic fuel companies, manufacturers of metals or chemicals, or manufacturers of concrete);

(E) developers of advanced nuclear reactor technology;

(F) environmental and public health and safety experts; and

(G) non-proliferation experts;

(6) seek to ensure that the demonstration projects carried out under this section do not cause any delay in the progress of an advanced reactor project by private industry and the Department of Energy that is underway as of December 27, 2020;

(7) establish a streamlined approval process for expedited contracting between awardees and the Department;

(8) identify technical challenges to candidate technologies;

(9) support near-term research and development to address the highest risk technical challenges to the successful demonstration of a selected advanced reactor technology, in accordance with—

(A) paragraph (8);

(B) the research and development activities under section 16272(b) of this title; and

(C) the research and development activities under section 16278 of this title; and

(10) establish such technology advisory working groups as the Secretary determines to be appropriate to advise the Secretary regarding the technical challenges identified under paragraph (8) and the scope of research and development programs to address the challenges, in accordance with paragraph (9), to be comprised of—

(A) private sector advanced nuclear reactor technology developers;

(B) technical experts with respect to the relevant technologies at institutions of higher education;

(C) technical experts at the National Laboratories;

(D) environmental and public health and safety experts;

(E) non-proliferation experts; and

(F) any other entities the Secretary determines appropriate.

(d) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under subsection (c) as a milestone-based demonstration project under section 7256c of this title.

(e) Nonduplication

Entities may not receive funds under this program if receiving funds from another reactor demonstration program at the Department in the same fiscal year.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection—

(1) $405,000,000 for fiscal year 2021;

(2) $405,000,000 for fiscal year 2022;

(3) $420,000,000 for fiscal year 2023;

(4) $455,000,000 for fiscal year 2024; and

(5) $455,000,000 for fiscal year 2025.

(v) any other international collaborative effort with respect to advanced nuclear reactor operations and safety.

§ 16279c. Organization and administration of programs

(a) Coordination

In carrying out this part, the Secretary shall coordinate activities, and effectively manage crosscutting research priorities across programs of the Department and other relevant Federal agencies, including the National Laboratories.

(b) Collaboration

(1) In general

In carrying out this part, the Secretary shall collaborate with industry, National Laboratories, other relevant Federal agencies, institutions of higher education, including minority-serving institutions and research reactors, Tribal entities, including Alaska Native Corporations, and international bodies with relevant scientific and technical expertise.

(2) Participation

To the extent practicable, the Secretary shall encourage research projects that promote collaboration between entities specified in paragraph (1).

(c) Dissemination of results and public availability

The Secretary shall, except to the extent protected from disclosure under section 552(b) of title 5, publish the results of projects supported under this part through Department websites, reports, databases, training materials, and industry conferences, including information discovered after the completion of such projects.

(d) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information and promote public understanding of nuclear energy.

(e) Technical assistance

In carrying out this part, for the purposes of supporting technical, nonhardware, and information-based advances in nuclear energy development and operations, the Secretary shall also conduct technical assistance and analysis activities, including activities that support commercial application of nuclear energy in rural, Tribal, and low-income communities.

(f) Program review

At least annually, all programs in this part shall be subject to an annual review by the Nuclear Energy Advisory Committee of the Department or other independent entity, as appropriate.

(g) Sensitive information

The Secretary shall not publish any information generated under this part that is detrimental to national security, as determined by the Secretary.

CODIFICATION

Section was enacted as part of the Nuclear Energy Innovation Capabilities Act of 2017, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

§ 16281. Advanced nuclear fuel availability

(a) Program

(1) Establishment

The Secretary shall establish and carry out, through the Office of Nuclear Energy, a program to support the availability of HA–LEU for civilian domestic research, development, demonstration, and commercial use.

(2) Program elements

In carrying out the program under paragraph (1), the Secretary—
(A) shall develop, in consultation with the Commission, criticality benchmark data to assist the Commission in—
   (i) the licensing and regulation of special nuclear material fuel fabrication and enrichment facilities under part 70 of title 10, Code of Federal Regulations; and
   (ii) certification of transportation packages under part 71 of title 10, Code of Federal Regulations;

(B) shall conduct research and development, and provide financial assistance to assist commercial entities, to design and license transportation packages for HA–LEU, including canisters for metal, gas, and other HA–LEU compositions;

(C) shall, to the extent practicable—
   (i) by January 1, 2024, support commercial entity submission of such transportation package designs to the Commission for certification by the Commission under part 71 of title 10, Code of Federal Regulations; and
   (ii) encourage the Commission to have such transportation package designs so certified by the Commission within 24 months after receipt of an application;

(D) shall consider options for acquiring or providing HA–LEU from a stockpile of uranium owned by the Department, or using enrichment technology, to make available to members of the consortium established pursuant to subparagraph (F) for commercial use or demonstration projects, taking into account cost and amount of time required, and prioritizing methods that would produce usable HA–LEU the quickest, including options for acquiring or providing HA–LEU—
   (i) that—
      (I) directly meets the needs of an end user; and
      (II) has been previously used or fabricated for another purpose;
   (ii) that meets the needs of an end user after having radioactive or other contaminants that resulted from a previous use or fabrication of the fuel for research, development, demonstration, or deployment activities of the Department removed;
   (iii) that is produced from high-enriched uranium that is blended with lower assay uranium to become HA–LEU to meet the needs of an end user;
   (iv) that is produced by Department research, development, and demonstration activities;
   (v) that is produced in the United States by—
      (I) a United States-owned commercial entity operating United States-origin technology;
      (II) a United States-owned commercial entity operating a foreign-origin technology; or
      (III) a foreign-owned entity operating a foreign-origin technology;
   (vi) that does not require extraction of uranium or development of uranium from lands managed by the Federal Govern-
   (vii) that does not negatively impact the availability of HA–LEU by the Department to support the production of medical isotopes, including the medical isotopes defined under the American Medical Isotopes Production Act of 2012 (Public Law 112–239; 126 Stat. 2211);

(E) not later than 1 year after December 27, 2020, and biennially thereafter, shall conduct a survey of stakeholders to estimate the quantity of HA–LEU necessary for domestic commercial use for each of the 5 subsequent years;

(F) shall establish, and from time to time update, a consortium, which may include entities involved in any stage of the nuclear fuel cycle, to partner with the Department to support the availability of HA–LEU for civilian domestic demonstration and commercial use, including by—
   (i) providing information to the Secretary for purposes of surveys conducted under subparagraph (E);
   (ii) purchasing HA–LEU made available by the Secretary to members of the consortium for commercial use under the program; and
   (iii) carrying out demonstration projects using HA–LEU provided by the Secretary under the program;

(G) if applicable, shall, prior to acquiring or providing HA–LEU under subparagraph (H), in coordination with the consortium established pursuant to subparagraph (F), develop a schedule for cost recovery of HA–LEU made available to members of the consortium using HA–LEU for commercial use pursuant to subparagraph (H);

(H) shall, beginning not later than 3 years after the establishment of a consortium under subparagraph (F), have the capability to acquire or provide HA–LEU, in order to make such HA–LEU available to members of the consortium beginning not later than January 1, 2026, in amounts that are consistent, to the extent practicable, with—
   (i) the quantities estimated under the surveys conducted under subparagraph (E); plus
   (ii) the quantities necessary for demonstration projects carried out under the program, as determined by the Secretary;

(I) shall, for advanced reactor demonstration projects, prioritize the provision of HA–LEU made available under this section through a merit-based, competitive selection process; and

(J) shall seek to ensure that the activities carried out under this section do not cause any delay in the progress of any HA–LEU project between private industry and the Department that is underway as of December 27, 2020.
(3) Applicability of USEC Privatization Act

(A) Sale or transfer to consortium

The requirements of section 3112 of the USEC Privatization Act (42 U.S.C. 2297h–10), except for the requirements of subparagraph (A) of section 3112(d)(2), shall not apply to the provision of enrichment services, or the sale or transfer of HA–LEU for commercial use by the Secretary to a member of the consortium under this subsection.

(B) Demonstration

HA–LEU made available to members of the consortium established pursuant to paragraph (2)(F) for demonstration projects shall remain the property of and title will remain with the Department, which shall be responsible for the storage, use, and disposition of all radioactive waste and spent nuclear fuel created by the irradiation, processing, or purification of such uranium, and shall not be subject to the requirements of a sale or transfer of uranium under sections 3112, except for the requirements of subparagraph (A) of section 3112, and 3113 of the USEC Privatization Act (42 U.S.C. 2297h–10; 42 U.S.C. 2297h–11).

(4) National security needs

The Secretary shall only make available to a member of the consortium under this section for commercial or demonstration project use material that the President has determined is not necessary for national security needs, provided that this available material shall not include any material that the Secretary may determine to be necessary for the National Nuclear Security Administration or other critical Departmental missions.

(5) DOE acquisition of HA–LEU

The Secretary may not make commitments under this section (including cooperative agreements (used in accordance with section 6305 of title 31), purchase agreements, guarantees, leases, service contracts, or any other type of commitment) for the purchase or other acquisition of HA–LEU unless—

(A) funds are specifically provided for such purposes in advance in subsequent appropriations Acts, and only to the extent that the full extent of anticipated costs stemming from such commitments is recorded as an obligation up front and in full at the time it is made; or

(B) such committing agreement includes a clause conditioning the Federal Government's obligation on the availability of future year appropriations.

(6) Sunset

The authority of the Secretary to carry out the program under this subsection shall expire on the earlier of—

(A) September 30, 2034; or

(B) 90 days after the date on which HA–LEU is available to provide a reliable and adequate supply for civilian domestic advanced nuclear reactors in the commercial market.

(7) Limitation

The Secretary shall not barter or otherwise sell or transfer uranium in any form in exchange for services relating to the final disposition of radioactive waste from uranium that is made available under this subsection.

(b) Reports to Congress

(1) Commission report on necessary regulatory updates

Not later than 12 months after December 27, 2020, the Commission shall submit to Congress a report that includes—

(A) identification of updates to regulations, certifications, and other regulatory policies that the Commission determines are necessary in order for HA–LEU to be commercially available, including—

(i) guidance for material control and accountability of special nuclear material;

(ii) certifications relating to transportation packaging for HA–LEU; and

(iii) licensing of enrichment, conversion, and fuel fabrication facilities for HA–LEU, and associated physical security plans for such facilities;

(B) a description of such updates; and

(C) a timeline to complete such updates.

(2) DOE report on program to support the availability of HA–LEU for civilian domestic demonstration and commercial use

(A) In general

Not later than 180 days after December 27, 2020, the Secretary shall submit to Congress a report that describes actions proposed to be carried out by the Secretary under the program described in subsection (a)(1).

(B) Coordination and stakeholder input

In developing the report under this paragraph, the Secretary shall consult with—

(i) the Commission;

(ii) suppliers of medical isotopes that have converted their operations to use HA–LEU;

(iii) the National Laboratories;

(iv) institutions of higher education;

(v) a diverse group of entities from the nuclear energy industry;

(vi) a diverse group of technology developers;

(vii) experts in nuclear nonproliferation, environmental safety, safeguards and security, and public health and safety; and

(viii) members of the consortium created under subsection (a)(2)(F).

(C) Cost and schedule estimates

The report under this paragraph shall include estimated costs, budgets, and timeframes for all activities carried out under this section.

(D) Required evaluations

The report under this paragraph shall evaluate—

(i) the actions required to establish and carry out the program under subsection (a)(1) and the cost of such actions, including with respect to—

(I) proposed preliminary terms for contracting between the Department and recipients of HA–LEU under the program (including guidelines defining the roles
and responsibilities between the Department and the recipient); and
(II) the potential to coordinate with recipients of HA–LEU under the program regarding—
(aa) fuel fabrication; and
(bb) fuel transport;
(ii) the potential sources and fuel forms available to provide uranium for the program under subsection (a)(1);
(iii) options to coordinate the program under subsection (a)(1) with the operation of the versatile, reactor-based fast neutron source under section 16279a of this title (as added by section 2003);
(iv) the ability of uranium producers to provide materials for advanced nuclear reactor fuel;
(v) any associated legal, regulatory, and policy issues that should be addressed to enable—
(I) implementation of the program under subsection (a)(1); and
(II) the establishment of an industry capable of providing HA–LEU; and
(vi) any research and development plans to develop criticality benchmark data under subsection (a)(2)(A), if needed.
(3) Alternate fuels report
Not later than 180 days after December 27, 2020, the Secretary shall, after consulting with relevant entities, including National Laboratories, institutions of higher education, and technology developers, submit to Congress a report identifying any and all options for providing nuclear material, containing isotopes other than the uranium-235 isotope, such as uranium-233 and thorium-232 to be used as fuel for advanced nuclear reactor research, development, demonstration, or commercial application purposes.
(c) Authorization of appropriations
There are authorized to be appropriated to carry out research, development, demonstration, and transportation activities in this section—
(1) $31,500,000 for fiscal year 2021;
(2) $33,075,000 for fiscal year 2022;
(3) $34,728,750 for fiscal year 2023;
(4) $36,465,188 for fiscal year 2024; and
(5) $38,288,447 for fiscal year 2025.
(d) Definitions
In this section:
(1) Commission
The term “Commission” means the Nuclear Regulatory Commission.
(2) Demonstration project
The term “demonstration project” has the meaning given such term in section 16279a of this title.
(3) HA–LEU
The term “HA–LEU” means high-assay low-enriched uranium.
(4) High-assay low-enriched uranium
The term “high-assay low-enriched uranium” means uranium having an assay greater than 5.0 weight percent and less than 20.0 weight percent of the uranium-235 isotope.
(5) High-enriched uranium
The term “high-enriched uranium” means uranium with an assay of 20.0 weight percent or more of the uranium-235 isotope.
(6) Secretary
The term “Secretary” means the Secretary of Energy.

REFERENCES IN TEXT

Section 16279a of this title (as added by section 2003), referred to in subsec. (b)(2)(D)(iii), is section 16279a of this title as added by section 2003 of div. Z of Pub. L. 116–260.

CODIFICATION
Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART F—FOSSIL ENERGY

§ 16291. Fossil energy

(a) Establishment
(1) In general
The Secretary shall carry out research, development, demonstration, and commercial application programs in fossil energy, including activities under this part, with the goal of improving the efficiency, effectiveness, and environmental performance of fossil energy production, upgrading, conversion, and consumption.
(2) Objectives
The programs described in paragraph (1) shall take into consideration the following objectives:
(A) Increasing the energy conversion efficiency of all forms of fossil energy through improved technologies.
(B) Decreasing the cost of all fossil energy production, generation, and delivery.
(C) Promoting diversity of energy supply.
(D) Decreasing the dependence of the United States on foreign energy supplies.
(E) Improving United States energy security.
(F) Decreasing the environmental impact of energy-related activities, including technology development to reduce emissions of carbon dioxide and associated emissions of heavy metals within coal combustion residues and gas streams resulting from fossil fuel use and production.
(G) Increasing the export of fossil energy-related equipment, technology, including emissions control technologies, and services from the United States.
(H) Decreasing the cost of emissions control technologies for fossil energy production, generation, and delivery.
(I) Significantly lowering greenhouse gas emissions for all fossil fuel production, generation, delivery, and utilization technologies.

(J) Developing carbon removal and utilization technologies, products, and methods that result in net reductions in greenhouse gas emissions, including direct air capture and storage, and carbon use and reuse for commercial application.

(K) Improving the conversion, use, and storage of carbon oxides produced from fossil fuels.

(L) Reducing water use, improving water reuse, and minimizing surface and subsurface environmental impact in the development of unconventional domestic oil and natural gas resources.

(3) Priority

In carrying out the objectives described in subparagraphs (F) through (K) of paragraph (2), the Secretary shall prioritize activities and strategies that have the potential to significantly reduce emissions for each technology relevant to the applicable objective and the international commitments of the United States.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out fossil energy research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $367,000,000 for fiscal year 2007;

(2) $376,000,000 for fiscal year 2008; and

(3) $391,000,000 for fiscal year 2009.

(c) Allocations

From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 16292 of this title—

(A) $367,000,000 for fiscal year 2007;

(B) $376,000,000 for fiscal year 2008; and

(C) $391,000,000 for fiscal year 2009.

(2) For activities under section 16294 of this title—

(A) $20,000,000 for fiscal year 2007;

(B) $25,000,000 for fiscal year 2008; and

(C) $30,000,000 for fiscal year 2009.

(3) For activities under section 16296 of this title—

(A) $1,500,000 for fiscal year 2007; and

(B) $450,000 for each of fiscal years 2008 and 2009.

(4) For the Office of Arctic Energy under section 7144d of this title $25,000,000 for each of fiscal years 2007 through 2009.

(d) Extended authorization

There are authorized to be appropriated to the Secretary for the Office of Arctic Energy established under section 7144d of this title $25,000,000 for each of fiscal years 2010 through 2012.

(e) Limitations

(1) Uses

None of the funds authorized under this section may be used for Fossil Energy Environment Restoration or Import/Export Authorization.

(2) Institutions of higher education

Of the funds authorized under subsection (c)(2), not less than 20 percent of the funds appropriated for each fiscal year shall be dedicated to research and development carried out at institutions of higher education.

(3) Property interests

That for all programs funded under Fossil Energy appropriations in this and subsequent Acts, the Secretary may vest fee title or other property rights acquired under projects in any entity, including the United States, and may enter into agreements with such entities.

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260, § 4001(5), designated second sentence of par. (1), as redesignated, as par. (2), inserted heading, and substituted “The programs described in paragraph (1) shall” for “Such programs”.

Subsec. (b). Pub. L. 116–260, § 4001(3), added subpars. (G) to (L) and struck out former subpars. (G) and (H), as redesignated, which read as follows: “Increasing the export of fossil energy-related equipment, technology, and services from the United States.”

Subsec. (a)(3). Pub. L. 116–260, § 4001(2), in subpar. (F), as redesignated, inserted “including technology development to reduce emissions of carbon dioxide and associated emissions of heavy metals within coal combustion residues and gas streams resulting from fossil fuel use and production” after period at end.

2014—Pub. L. 113–76, § 4001(1), redesignated pars. (1) to (7) of subsec. (a) as subpars. (A) to (G) and realigned margins.

§ 16291a. Property interests

That for all programs funded under Fossil Energy appropriations in this and subsequent Acts, the Secretary may vest fee title or other property interests acquired under projects in any entity, including the United States.

CONSOLIDATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2014, and also as part of the Consolidated Appropriations Act, 2014, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

DEFINITIONS

For definition of “this [Act]”, referred to in text, see section 3 of Pub. L. 113–76, set out as a note under section 1 of Title 1, General Provisions.

§ 16292. Carbon capture technology program

(a) Definitions

In this section:
§ 16292

(1) Large-scale pilot project

The term “large-scale pilot project” means a pilot project that—
(A) represents the scale of technology development beyond laboratory development and bench scale testing, but not yet advanced to the point of being tested under real operational conditions at commercial scale;
(B) represents the scale of technology necessary to gain the operational data needed to understand the technical and performance risks of the technology before the application of that technology at commercial scale or in commercial-scale demonstration; and
(C) is large enough—
(i) to validate scaling factors; and
(ii) to demonstrate the interaction between major components so that control philosophies for a new process can be developed and enable the technology to advance from large-scale pilot project application to commercial-scale demonstration or application.

(2) Natural gas

The term “natural gas” means any fuel consisting in whole or in part of—
(A) natural gas;
(B) liquid petroleum gas;
(C) synthetic gas derived from petroleum or natural gas liquids;
(D) any mixture of natural gas and synthetic gas; or
(E) biomethane.

(3) Natural gas electric generation facility

(A) In general

The term “natural gas electric generation facility” means a facility that generates electric energy using natural gas as the fuel.

(B) Inclusions

The term “natural gas electric generation facility” includes without limitation a new or existing—
(i) simple cycle plant;
(ii) combined cycle plant;
(iii) combined heat and power plant; or
(iv) steam methane reformer that produces hydrogen from natural gas for use in the production of electric energy.

(4) Program

The term “program” means the program established under subsection (b)(1).

(5) Transformational technology

(A) In general

The term “transformational technology” means a technology that represents a significant change in the methods used to convert energy that will enable a step change in performance, efficiency, cost of electricity, and reduction of emissions as compared to the technology in existence on December 27, 2020.

(B) Inclusions

The term “transformational technology” includes a broad range of potential technology improvements, including—
(i) thermodynamic improvements in energy conversion and heat transfer, including—
(I) advanced combustion systems, including oxygen combustion systems and chemical looping; and
(II) the replacement of steam cycles with supercritical carbon dioxide cycles;
(ii) improvements in steam or carbon dioxide turbine technology;
(iii) improvements in carbon capture, utilization, and storage systems technology;
(iv) improvements in small-scale and modular coal-fired technologies with reduced carbon output or carbon capture that can support incremental power generation capacity additions;
(v) fuel cell technologies for low-cost, high-efficiency modular power systems;
(vi) advanced gasification systems; and
(vii) thermal cycling technologies; and
(viii) any other technology the Secretary recognizes as transformational technology.

(b) Carbon capture technology program

(1) In general

The Secretary shall establish a carbon capture technology program for the development of transformational technologies that will significantly improve the efficiency, effectiveness, costs, emissions reductions, and environmental performance of coal and natural gas use, including in manufacturing and industrial facilities.

(2) Requirements

The program shall include—
(A) a research and development program;
(B) large-scale pilot projects;
(C) demonstration projects, in accordance with paragraph (4); and
(D) a front-end engineering and design program.

(3) Program goals and objectives

In consultation with the interested entities described in paragraph (6)(C), the Secretary shall develop goals and objectives for the program to be applied to the transformational technologies developed within the program, taking into consideration the following:

(A) Increasing the performance of coal electric generation facilities and natural gas electric generation facilities, including by—
(i) ensuring reliable, low-cost power from new and existing coal electric generation facilities and natural gas electric generation facilities;
(ii) achieving high conversion efficiencies;
(iii) addressing emissions of carbon dioxide and other air pollutants;
(iv) developing small-scale and modular technologies to support incremental capacity additions and load following generation, in addition to large-scale generation technologies; and
(v) supporting dispatchable operations for new and existing applications of coal and natural gas generation; and
(vi) accelerating the development of technologies that have transformational energy conversion characteristics.

(B) Using carbon capture, utilization, and sequestration technologies to decrease the carbon dioxide emissions, and the environmental impact from carbon dioxide emissions, from new and existing coal electric generation facilities and natural gas electric generation facilities, including by—

(i) accelerating the development, deployment, and commercialization of technologies to capture and sequester carbon dioxide emissions from new and existing coal electric generation facilities and natural gas electric generation facilities;

(ii) supporting sites for safe geological storage of large volumes of anthropogenic sources of carbon dioxide and the development of the infrastructure needed to support a carbon dioxide utilization and storage industry;

(iii) improving the conversion, utilization, and storage of carbon dioxide produced from fossil fuels and other anthropogenic sources of carbon dioxide;

(iv) lowering greenhouse gas emissions for all fossil fuel production, generation, delivery, and use, to the maximum extent practicable;

(v) developing carbon utilization technologies, products, and methods, including carbon in use and reuse for commercial application;

(vi) developing net-negative carbon dioxide emissions technologies; and

(vii) developing technologies for the capture of carbon dioxide produced during the production of hydrogen from natural gas.

(C) Decreasing the non-carbon dioxide relevant environmental impacts of coal and natural gas production, including by—

(i) further reducing non-carbon dioxide air emissions; and

(ii) reducing the use, and managing the discharge, of water in power plant operations.

(D) Accelerating the development of technologies to significantly decrease emissions from manufacturing and industrial facilities, including—

(i) nontraditional fuel manufacturing facilities, including ethanol or other biofuel production plants or hydrogen production plants; and

(ii) energy-intensive manufacturing facilities that produce carbon dioxide as a byproduct of operations.

(E) Entering into cooperative agreements to carry out and expedite demonstration projects (including pilot projects) to demonstrate the technical and commercial viability of technologies to reduce carbon dioxide emissions released from coal electric generation facilities and natural gas electric generation facilities for commercial deployment.

(F) Identifying any barriers to the commercial deployment of any technologies under development for the capture of carbon dioxide produced by coal electric generation facilities and natural gas electric generation facilities.

(4) Demonstration projects

(A) In general

In carrying out the program, the Secretary shall establish a demonstration program under which the Secretary, through a competitive, merit-reviewed process, shall enter into cooperative agreements by not later than September 30, 2025, for demonstration projects to demonstrate the construction and operation of 6 facilities to capture carbon dioxide from coal electric generation facilities, natural gas electric generation facilities, and industrial facilities.

(B) Technical assistance

The Secretary, to the maximum extent practicable, shall provide technical assistance to any eligible entity seeking to enter into a cooperative agreement described in subparagraph (A) for the purpose of obtaining any necessary permits and licenses to demonstrate qualifying technologies.

(C) Eligible entities

The Secretary may enter into cooperative agreements under subparagraph (A) with industry stakeholders, including any industry stakeholder operating in partnership with the National Laboratories, institutions of higher education, multi-institutional collaborations, and other appropriate entities.

(D) Commercial-scale demonstration projects

(i) In general

In carrying out the program, the Secretary shall establish a carbon capture technology commercialization program to demonstrate substantial improvements in the efficiency, effectiveness, cost, and environmental performance of carbon capture technologies for power, industrial, and other commercial applications.

(ii) Requirement

The program established under clause (i) shall include funding for commercial-scale carbon capture technology demonstrations of projects supported by the Department, including projects in addition to the projects described in subparagraph (A), including funding for not more than 2 projects to demonstrate substantial improvements in a particular technology type beyond the first of a kind demonstration and to account for considerations described in subparagraph (G).

(E) Requirement

Of the demonstration projects carried out under subparagraph (A)—

(i) 2 shall be designed to capture carbon dioxide from a natural gas electric generation facility;

(ii) 2 shall be designed to capture carbon dioxide from a coal electric generation facility; and

(iii) 2 shall be designed to capture carbon dioxide from an industrial facility not purposed for electric generation.
§ 16292  TITLE 42—THE PUBLIC HEALTH AND WELFARE

(F) Goals

Each demonstration project under the demonstration program under subparagraph (A)—

(i) shall be designed to further the development, deployment, and commercialization of technologies to capture and sequester carbon dioxide emissions from new and existing coal electric generation facilities, natural gas electric generation facilities, and industrial facilities;

(ii) shall be financed in part by the private sector; and

(iii) if necessary, shall secure agreements for the offtake of carbon dioxide emissions captured by qualifying technologies during the project.

(G) Applications

(i) In general

To be eligible to enter into an agreement with the Secretary for a demonstration project under subparagraphs (A) and (D), an entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(ii) Review of applications

In reviewing applications submitted under clause (i), the Secretary, to the maximum extent practicable, shall—

(I) ensure a broad geographic distribution of project sites;

(II) ensure that a broad selection of electric generation facilities are represented;

(III) ensure that a broad selection of technologies are represented; and

(IV) leverage existing public-private partnerships and Federal resources.

(H) GAO study and report

(i) Study and report

(I) In general

Not later than 1 year after December 27, 2020, the Comptroller General of the United States shall conduct, and submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the results of, a study of the successes, failures, practices, and improvements of the Department in carrying out demonstration projects under this paragraph.

(II) Considerations

In conducting the study under subclause (I), the Comptroller General of the United States shall consider—

(aa) applicant and contractor qualifications;

(bb) project management practices at the Department;

(cc) economic or market changes and other factors impacting project viability;

(dd) completion of third-party agreements, including power purchase agreements and carbon dioxide offtake agreements;

(ee) regulatory challenges; and

(ff) construction challenges.

(ii) Recommendations

The Secretary shall—

(I) consider any relevant recommendations, as determined by the Secretary, provided in the report required under clause (i)(I); and

(II) adopt such recommendations as the Secretary considers appropriate.

(I) Report

(i) In general

Not later than 180 days after the date on which the Secretary solicits applications under subparagraph (G), and annually thereafter, the Secretary shall submit to the appropriate committees of jurisdiction of the Senate and the House of Representatives a report that includes a detailed description of how the applications under the demonstration program established under subparagraph (A) were or will be solicited and how the applications were or will be evaluated, including—

(I) a list of any activities carried out by the Secretary to solicit or evaluate the applications; and

(II) a process for ensuring that any projects carried out under a cooperative agreement entered into under subparagraph (A) are designed to result in the development or demonstration of qualifying technologies.

(ii) Inclusions

The Secretary shall include—

(I) in the first report required under clause (i), a detailed list of technical milestones for the development and demonstration of each qualifying technology pursued under the demonstration program established under subparagraph (A);

(II) in each subsequent report required under clause (i), a description of the progress made towards achieving the technical milestones described in subclause (I) during the applicable period covered by the report; and

(III) in each report required under clause (i)—

(aa) an estimate of the cost of licensing, permitting, constructing, and operating each carbon capture facility expected to be constructed under the demonstration program established under subparagraph (A);

(bb) a schedule for the planned construction and operation of each demonstration or pilot project under the demonstration program; and

(cc) an estimate of any financial assistance, compensation, or incentives proposed to be paid by the host State, Indian Tribe, or local government with respect to each facility described in item (aa).
(5) **Intraagency coordination for carbon capture, utilization, and sequestration activities**

The carbon capture, utilization, and sequestration activities described in paragraph (3)(B) shall be carried out by the Assistant Secretary for Fossil Energy, in coordination with the heads of other relevant offices of the Department and the National Laboratories.

(6) **Consultations required**

In carrying out the program, the Secretary shall—

(A) undertake international collaborations, taking into consideration the recommendations of the National Coal Council and the National Petroleum Council;

(B) use existing authorities to encourage international cooperation; and

(C) consult with interested entities, including—

(i) coal and natural gas producers;

(ii) industries that use coal and natural gas;

(iii) organizations that promote coal, advanced coal, and natural gas technologies;

(iv) environmental organizations;

(v) organizations representing workers; and

(vi) organizations representing consumers.

(c) **Report**

(1) **In general**

Not later than 18 months after December 27, 2020, the Secretary shall submit to Congress a report describing the program goals and objectives adopted under subsection (b)(3).

(2) **Update**

Not less frequently than once every 2 years after the initial report is submitted under paragraph (1), the Secretary shall submit to Congress a report describing the progress made towards achieving the program goals and objectives adopted under subsection (b)(3).

(d) **Funding**

(1) **Authorization of appropriations**

There are authorized to be appropriated to the Secretary to carry out this section, to remain available until expended—

(A) for activities under the research and development program component described in subsection (b)(2)(A)—

(i) $220,000,000 for each of fiscal years 2021 and 2022; and

(ii) $150,000,000 for each of fiscal years 2023 through 2025;

(B) subject to paragraph (2), for activities under the large-scale pilot projects program component described in subsection (b)(2)(B)—

(i) $225,000,000 for each of fiscal years 2021 and 2022;

(ii) $200,000,000 for each of fiscal years 2023 and 2024; and

(iii) $150,000,000 for fiscal year 2025;

(C) for activities under the demonstration projects program component described in subsection (b)(2)(C)—

(i) $500,000,000 for each of fiscal years 2021 through 2024; and

(ii) $600,000,000 for fiscal year 2025; and

(D) for activities under the front-end engineering and design program described in subsection (b)(2)(D), $50,000,000 for each of fiscal years 2021 through 2024.

(2) **Cost sharing for large-scale pilot projects**

Activities under subsection (b)(2)(B) shall be subject to the cost-sharing requirements of section 16352(b) of this title.

(e) **Carbon capture test centers**

(1) **In general**

Not later than 2 years after December 27, 2020, the Secretary shall award grants to 1 or more entities for the operation of 1 or more test centers (referred to in this subsection as a “Center”) to provide distinct testing capabilities for innovative carbon capture technologies.

(2) **Purpose**

Each Center shall—

(A) advance research, development, demonstration, and commercial application of carbon capture technologies;

(B) support large-scale pilot projects and demonstration projects and test carbon capture technologies; and

(C) develop front-end engineering design and economic analysis.

(3) **Selection**

(A) **In general**

The Secretary shall select entities to receive grants under this subsection according to such criteria as the Secretary may develop.

(B) **Competitive basis**

The Secretary shall select entities to receive grants under this subsection on a competitive basis.

(C) **Priority criteria**

In selecting entities to receive grants under this subsection, the Secretary shall prioritize consideration of applicants that—

(i) have access to existing or planned research facilities for carbon capture technologies;

(ii) are institutions of higher education with established expertise in engineering for carbon capture technologies, or partnerships with such institutions of higher education; or

(iii) have access to existing research and test facilities for bulk materials design and testing, component design and testing, or professional engineering design.

(D) **Existing centers**

In selecting entities to receive grants under this subsection, the Secretary shall prioritize carbon capture test centers in existence on December 27, 2020.

(4) **Formula for awarding grants**

The Secretary may develop a formula for awarding grants under this subsection.
§ 16293. Carbon storage validation and testing

(a) Definitions

In this section:

(1) Large-scale carbon sequestration

The term ‘large-scale carbon sequestration’ means a scale that—

(A) demonstrates the ability to inject into geologic formations and sequester carbon dioxide; and

(B) has a goal of sequestering not less than 50 million metric tons of carbon dioxide over a 10-year period.

(2) Program

The term ‘program’ means the program established under subsection (b)(1).

(b) Carbon storage program

(1) In general

The Secretary shall establish a program of research, development, and demonstration for carbon storage.

(2) Program activities

Activities under the program shall include—

(A) in coordination with relevant Federal agencies, developing and maintaining mapping tools and resources that assess the capacity of geologic storage formation in the United States;

(B) developing monitoring tools, modeling of geologic formations, and analyses—

(i) to predict carbon dioxide containment; and

(ii) to account for sequestered carbon dioxide in geologic storage sites;

(C) researching—

(i) potential environmental, safety, and health impacts in the event of a leak into the atmosphere or to an aquifer; and

(ii) any corresponding mitigation actions or responses to limit harmful consequences of such a leak;

(D) evaluating the interactions of carbon dioxide with formation solids and fluids, including the propensity of injections to induce seismic activity;

(E) assessing and ensuring the safety of operations relating to geologic sequestration of carbon dioxide;

(F) determining the fate of carbon dioxide concurrent with and following injection into geologic formations;

(G) supporting cost and business model assessments to examine the economic viability of technologies and systems developed under the program; and

(H) providing information to the Environmental Protection Agency, States, local governments, Tribal governments, and other appropriate entities, to ensure the protection of human health and the environment.

(3) Geologic settings

In carrying out research activities under this subsection, the Secretary shall consider a variety of candidate onshore and offshore geologic settings, including—

(A) operating oil and gas fields;

(B) depleted oil and gas fields;

(C) residual oil zones;

(D) unconventional reservoirs and rock types;

(E) unmineable coal seams;

(F) saline formations in both sedimentary and basaltic geologies;

(G) geologic systems that may be used as engineered reservoirs to extract economical quantities of brine from geothermal resources of low permeability or porosity; and

(H) geologic systems containing in situ carbon dioxide mineralization formations.

(c) Large-scale carbon sequestration demonstration program

(1) In general

The Secretary shall establish a demonstration program under which the Secretary shall provide funding for demonstration projects to collect and validate information on the cost and feasibility of commercial deployment of large-scale carbon sequestration technologies.

(2) Existing regional carbon sequestration partnerships

In carrying out paragraph (1), the Secretary may provide additional funding to regional carbon sequestration partnerships that are carrying out or have completed a large-scale carbon sequestration demonstration project under this section (as in effect on the day before December 27, 2020) for additional work on that project.

(3) Demonstration components

Each demonstration project carried out under this subsection shall include longitudinal tests involving carbon dioxide injection
and monitoring, mitigation, and verification operations.

(4) Clearinghouse

The National Energy Technology Laboratory shall act as a clearinghouse of shared information and resources for—

(A) existing or completed demonstration projects receiving additional funding under paragraph (2); and

(B) any new demonstration projects funded under this subsection.

(5) Report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report that—

(A) assesses the progress of all regional carbon sequestration partnerships carrying out a demonstration project under this subsection;

(B) identifies the remaining challenges in achieving large-scale carbon sequestration that is reliable and safe for the environment and public health; and

(C) creates a roadmap for carbon storage research and development activities of the Department through 2025, with the goal of reducing economic and policy barriers to commercial carbon sequestration.

(d) Integrated storage

(1) In general

The Secretary may transition large-scale carbon sequestration demonstration projects under subsection (c) into integrated commercial storage complexes.

(2) Goals and objectives

The goals and objectives of the Secretary in seeking to transition large-scale carbon sequestration demonstration projects into integrated commercial storage complexes under paragraph (1) shall be—

(A) to identify geologic storage sites that are able to accept large volumes of carbon dioxide acceptable for commercial contracts;

(B) to understand the technical and commercial viability of carbon dioxide geologic storage sites; and

(C) to carry out any other activities necessary to transition the large-scale carbon sequestration demonstration projects under subsection (c) into integrated commercial storage complexes.

(e) Preference in project selection from meritorious proposals

In making competitive awards under this section, subject to the requirements of section 16332 of this title, the Secretary shall—

(1) give preference to proposals from partnerships among industrial, academic, and government entities; and

(2) require recipients to provide assurances that all laborers and mechanics employed by contractors and subcontractors in the construction, repair, or alteration of new or existing facilities performed in order to carry out a demonstration or commercial application activity authorized under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, and the Secretary of Labor shall, with respect to the labor standards in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 Fed. Reg. 3176; 5 U.S.C. Appendix) and section 3145 of title 40.

(f) Cost sharing

Activities carried out under this section shall be subject to the cost-sharing requirements of section 16332 of this title.

(g) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section—

(1) $200,000,000 for fiscal year 2021;

(2) $200,000,000 for fiscal year 2022;

(3) $150,000,000 for fiscal year 2023;

(4) $150,000,000 for fiscal year 2024; and

(5) $100,000,000 for fiscal year 2025.

(AMENDMENTS)

2020—Pub. L. 116–260, § 4003(a)(4), substituted “Carbon storage validation and testing” for “Carbon capture and sequestration research, development, and demonstration program” in section catchline.

Subsecs. (a), (b). Pub. L. 116–260, § 4003(a)(4), added subsecs. (a) and (b) and struck out former subsecs. (a) and (b) which related to the establishment of a carbon capture and sequestration research, development, and demonstration program and program objectives.

Subsec. (c). Pub. L. 116–260, § 4003(a)(4), added subsec. (c) and struck out pars. (1) to (3) of former subsec. (c) which related to fundamental science and engineering research and development and demonstration supporting carbon capture and sequestration technologies and carbon use activities, field validation testing activities, and large-scale carbon dioxide sequestration testing, respectively.

Subsec. (c)(5). Pub. L. 116–260, § 4003(a)(2)(A), struck out paras. (5) and (6) which related to cost sharing and program review and report.

Subsec. (e). Pub. L. 116–260, § 4003(a)(3), redesignated subpars. (A) and (B) as pars. (1) and (2), respectively, substituted “section” for “subsection” in introductory provisions and in par. (2), and realigned margins.

Pub. L. 116–260, § 4003(a)(2)(B), redesignated par. (4) of subsec. (c) as (e).

Subsec. (a). Pub. L. 110–140, § 702(a)(2), in introductory provisions, substituted “and sequestration research, development, and demonstration” for “research and de-
§ 16294. Research and development for coal mining technologies

(a) Establishment

The Secretary shall carry out a program for research and development on coal mining technologies.

(b) Cooperation

In carrying out the program, the Secretary shall cooperate with appropriate Federal agencies, coal producers, trade associations, equipment manufacturers, institutions of higher education with mining engineering departments, and other relevant entities.

(c) Program

The research and development activities carried out under this section shall—

1. be guided by the mining research and development priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National Academy of Sciences on mining technologies;
2. include activities exploring minimization of contaminants in mined coal that contribute to environmental concerns including development and demonstration of electromagnetic wave imaging ahead of mining operations;
3. develop and demonstrate coal bed electromagnetic wave imaging, spectroscopic reservoir analysis technology, and techniques for horizontal drilling in order to—
   (A) identify areas of high coal gas content;
   (B) increase methane recovery efficiency;
   (C) prevent spoilage of domestic coal reserves; and
   (D) minimize water disposal associated with methane extraction; and
4. expand mining research capabilities at institutions of higher education.

§ 16295. Oil and gas research programs

(a) In general

The Secretary shall conduct a program of research, development, demonstration, and commercial application of oil and gas, including—

1. exploration and production;
2. gas hydrates;
3. reservoir life and extension;
4. transportation and distribution infrastructure;
5. ultraclean fuels;
6. heavy oil, oil shale, and tar sands; and
7. related environmental research.

(b) Objectives

The objectives of this program shall include advancing the science and technology available to domestic petroleum producers, particularly independent operators, to minimize the economic dislocation caused by the decline of domestic supplies of oil and natural gas resources.

(c) Natural gas and oil deposits report

Not later than 2 years after August 8, 2005, and every 2 years thereafter, the Secretary of the Interior, in consultation with other appropriate Federal agencies, shall submit to Congress a report on the latest estimates of natural gas and oil reserves, reserves growth, and undiscovered resources in Federal and State waters off the coast of Louisiana, Texas, Alabama, and Mississippi.

(d) Integrated clean power and energy research

(1) Establishment of center

The Secretary shall establish a national center or consortium of excellence in clean energy and power generation, using the resources of the Clean Power and Energy Research Consortium in existence on August 8, 2005, to address the critical dependence of the United States on energy and the need to reduce emissions.

(2) Focus areas

The center or consortium shall conduct a program of research, development, demonstration, and commercial application on integrating the following 6 focus areas:

A. Efficiency and reliability of gas turbines for power generation.
B. Reduction in emissions from power generation.
C. Promotion of energy conservation issues.
D. Effectively using alternative fuels and renewable energy.
E. Development of advanced materials technology for oil and gas exploration and use in harsh environments.
F. Education on energy and power generation issues.

§ 16296. Low-volume oil and gas reservoir research program

(a) Definition of GIS

In this section, the term “GIS” means geographic information systems technology that facilitates the organization and management of data with a geographic component.

(b) Program

The Secretary shall establish a program of research, development, demonstration, and commercial application to maximize the productive capacity of marginal wells and reservoirs.
(c) Data collection
Under the program, the Secretary shall collect data on—
(1) the status and location of marginal wells and oil and gas reservoirs;
(2) the production capacity of marginal wells and oil and gas reservoirs;
(3) the location of low-pressure gathering facilities and pipelines; and
(4) the quantity of natural gas vented or flared in association with crude oil production.
(d) Analysis
Under the program, the Secretary shall—
(1) estimate the remaining producible reserves based on variable pipeline pressures; and
(2) recommend measures that will enable the continued production of those resources.
(e) Study
(1) In general
The Secretary may award a grant to an organization of States that contain significant numbers of marginal oil and natural gas wells to conduct an annual study of low-volume natural gas reservoirs.
(2) Organization with no GIS capabilities
If an organization receiving a grant under paragraph (1) does not have GIS capabilities, the organization shall contract with an institution of higher education with GIS capabilities.
(3) State geologists
The organization receiving a grant under paragraph (1) shall collaborate with the State geologist of each State being studied.
(f) Public information
The Secretary may use the data collected and analyzed under this section to produce maps and literature to disseminate to States to promote conservation of natural gas reserves.

§ 16297. Complex Well Technology Testing Facility
The Secretary, in coordination with industry leaders in extended research drilling technology, shall establish a Complex Well Technology Testing Facility at the Rocky Mountain Oilfield Testing Center to increase the range of extended drilling technologies.

§ 16298. Carbon utilization program
(a) In general
The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall carry out a program of research, development, demonstration, and commercialization relating to carbon utilization.
(b) Activities
Under the program described in subsection (a), the Secretary shall—
(1) assess and monitor—
(A) potential changes in lifecycle carbon dioxide and other greenhouse gas emissions; and
(B) other environmental safety indicators of new technologies, practices, processes, or methods used in enhanced hydrocarbon recovery as part of the activities authorized under section 16293 of this title;
(2) identify and evaluate novel uses for carbon (including conversion of carbon oxides) that, on a full lifecycle basis, achieve a permanent reduction, or avoidance of a net increase, in carbon dioxide in the atmosphere, for use in commercial and industrial products such as—
(A) chemicals;
(B) plastics;
(C) building materials;
(D) fuels;
(E) cement;
(F) products of coal utilization in power systems or in other applications; and
(G) other products with demonstrated market value;
(3) identify and assess carbon capture technologies for industrial systems; and
(4) identify and assess alternative uses for coal that result in zero net emissions of carbon dioxide or other pollutants, including products derived from carbon engineering, carbon fiber, and coal conversion methods.
(c) Prioritization
In supporting demonstration and commercialization research under the program described in subsection (a), the Secretary shall prioritize consideration of projects that—
(1) have access to a carbon dioxide emissions stream generated by a stationary source in the United States that is capable of supplying not less than 250 metric tons per day of carbon dioxide for research;
(2) have access to equipment for testing small-scale carbon dioxide utilization technologies, with onsite access to larger test bays for scale-up; and
(3) have 1 or more existing partnerships with a National Laboratory, an institution of higher education, a private company, or a State or other government entity.
(d) Coordination
The Secretary shall coordinate the activities authorized under this section with the activities authorized in section 16298a of this title as part of a single consolidated program of the Department.
(e) Authorization of appropriations
There is authorized to be appropriated to the Secretary to carry out this section $50,000,000, to remain available until expended.

§ 16298a. Carbon utilization program
(a) In general
The Secretary shall establish a program of research, development, and demonstration for carbon utilization—
§ 16298b
TITLE 42—THE PUBLIC HEALTH AND WELFARE

(1) to assess and monitor—
   (A) potential changes in lifecycle carbon dioxide and other greenhouse gas emissions; and
   (B) other environmental safety indicators of new technologies, practices, processes, or methods used in enhanced hydrocarbon recovery as part of the activities authorized under section 16298 of this title;
(2) to identify and assess novel uses for carbon, including the conversion of carbon and carbon oxides for commercial and industrial products and other products with potential market value;
(3) to identify and assess carbon capture technologies for industrial systems; and
(4) to identify and assess alternative uses for raw coal and processed coal products in all phases that result in no significant emissions of carbon dioxide or other pollutants, including products derived from carbon engineering, carbon fiber, and coal conversion methods.

(b) Demonstration programs for the purpose of commercialization

(1) In general
   Not later than 180 days after December 27, 2020, as part of the program established under subsection (a), the Secretary shall establish a 2-year demonstration program in each of the 2 major coal-producing regions of the United States for the purpose of partnering with private institutions in coal mining regions to accelerate the commercial deployment of coal-based technologies that consider a range of storage regimes.
(2) Cost sharing
   Activities under paragraph (1) shall be subject to the cost-sharing requirements of section 16352 of this title.

(c) Carbon Utilization Research Center

(1) In general
   In carrying out the program under subsection (a), the Secretary shall establish and operate a national Carbon Utilization Research Center (referred to in this subsection as the “Center”), which shall focus on early stage research and development activities including—
   (A) post-combustion and pre-combustion capture of carbon dioxide;
   (B) advanced compression technologies for new and existing fossil fuel-fired power plants;
   (C) technologies to convert carbon dioxide to valuable products and commodities; and
   (D) advanced carbon dioxide storage technologies that consider a range of storage regimes.
(2) Selection
   The Secretary shall—
   (A) select the Center under this subsection on a competitive, merit-reviewed basis; and
   (B) consider applications from the National Laboratories, institutions of higher education, multiinstitutional collaborations, and other appropriate entities.
(3) Existing centers
   In selecting the Center under this subsection, the Secretary shall prioritize carbon utilization research centers in existence on December 27, 2020.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section—
(1) $54,000,000 for fiscal year 2021;
(2) $55,250,000 for fiscal year 2022;
(3) $56,562,500 for fiscal year 2023;
(4) $57,940,625 for fiscal year 2024; and
(5) $59,387,656 for fiscal year 2025.

(e) Coordination

The Secretary shall coordinate the activities authorized in this section with the activities authorized in section 16298 of this title as part of one consolidated program at the Department. Nothing in section 16298 of this title shall be construed as limiting the authorities provided in this section.

§ 16298b. High efficiency turbines

(a) In general
   The Secretary, acting through the Assistant Secretary for Fossil Energy (referred to in this section as the “Secretary”), shall establish a multiyear, multiphase program (referred to in this section as the “program”) of research, development, and technology demonstration to improve the efficiency of gas turbines used in power generation systems and aviation.

(b) Program elements
   The program shall—
   (1) support first-of-a-kind engineering and detailed gas turbine design for small-scale and utility-scale electric power generation, including—
      (A) high temperature materials, including superalloys, coatings, and ceramics;
      (B) improved heat transfer capability;
      (C) manufacturing technology required to construct complex 3-dimensional geometry parts with improved aerodynamic capability;
      (D) combustion technology to produce higher firing temperature while lowering nitrogen oxide and carbon monoxide emissions per unit of output;
      (E) advanced controls and systems integration;
(F) advanced high performance compressor technology; and
(G) validation facilities for the testing of components and subsystems;
(2) include technology demonstration through component testing, subscale testing, and full-scale testing in existing fleets;
(3) include field demonstrations of the developed technology elements to demonstrate technical and economic feasibility;
(4) assess overall combined cycle and simple cycle system performance;
(5) increase fuel flexibility by enabling gas turbines to operate with high proportions of, or pure, hydrogen or other renewable gas fuels;
(6) enhance foundational knowledge needed for low-emission combustion systems that can work in high-pressure, high-temperature environments required for high-efficiency cycles;
(7) increase operational flexibility by reducing turbine start-up times and improving the ability to accommodate flexible power demand; and
(8) include any other elements necessary to achieve the goals described in subsection (c), as determined by the Secretary, in consultation with private industry.
(c) Program goals
(1) In general
The goals of the program shall be—
(A) in phase I, to develop a conceptual design of, and to develop and demonstrate the technology required for—
(i) advanced high efficiency gas turbines to achieve, on a lower heating value basis—
(I) a combined cycle efficiency of not less than 65 percent; or
(II) a simple cycle efficiency of not less than 47 percent; and
(ii) aviation gas turbines to achieve a 25 percent reduction in fuel burn by improving fuel efficiency to existing best-in-class turbo-fan engines; and
(B) in phase II, to develop a conceptual design of advanced high efficiency gas turbines that can achieve, on a lower heating value basis—
(i) a combined cycle efficiency of not less than 67 percent; or
(ii) a simple cycle efficiency of not less than 50 percent.
(2) Additional goals
If a goal described in paragraph (1) has been achieved, the Secretary, in consultation with private industry and the National Academy of Sciences, may develop additional goals or phases for advanced gas turbine research and development.
(d) Financial assistance
(1) In general
The Secretary may provide financial assistance, including grants, to carry out the program.
(2) Proposals
Not later than 180 days after December 27, 2020, the Secretary shall solicit proposals from industry, small businesses, universities, and other appropriate parties for conducting activities under this section.
(3) Considerations
In selecting proposed projects to receive financial assistance under this subsection, the Secretary shall give special consideration to the extent to which the proposed project will—
(A) stimulate the creation or increased retention of jobs in the United States; and
(B) promote and enhance technology leadership in the United States.
(4) Competitive awards
The Secretary shall provide financial assistance under this subsection on a competitive basis, with an emphasis on technical merit.
(5) Cost sharing
Financial assistance provided under this subsection shall be subject to the cost sharing requirements of section 16352 of this title.
(e) Authorization of appropriations
There is authorized to be appropriated to carry out this section $50,000,000 for each of fiscal years 2021 through 2025.
§ 16298c. National Energy Technology Laboratory reforms
(a) Special hiring authority for scientific, engineering, and project management personnel
(1) In general
The Director of the National Energy Technology Laboratory (referred to in this section as the “Director”) may—
(A) make appointments to positions in the National Energy Technology Laboratory to assist in meeting a specific project or research need, without regard to civil service laws, of individuals who—
(i) have an advanced scientific or engineering background; or
(ii) have a business background and can assist in specific technology-to-market needs;
(B) fix the basic pay of any employee appointed under subparagraph (A) at a rate not to exceed level II of the Executive Schedule under section 5313 of title 5; and
(C) pay any employee appointed under subparagraph (A) payments in addition to the basic pay fixed under subparagraph (B), subject to the condition that the total amount of additional payments paid to an employee under this subparagraph for any 12-month period shall not exceed the least of—
(i) $25,000;
(ii) the amount equal to 25 percent of the annual rate of basic pay of that employee; and
(iii) the amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5.
(2) Limitations
(A) In general
The term of any employee appointed under paragraph (1)(A) shall not exceed 3 years.
§ 16298d — TITLE 42—THE PUBLIC HEALTH AND WELFARE

(B) Full-time employees

Not more than 10 full-time employees appointed under paragraph (1)(A) may be employed at the National Energy Technology Laboratory at any given time.

(b) Laboratory-directed research and development

(1) In general

Beginning in fiscal year 2021, the National Energy Technology Laboratory shall be eligible for laboratory-directed research and development funding.

(2) Authorization of funding

(A) In general

Each fiscal year, of funds made available to the National Energy Technology Laboratory, the Secretary may deposit an amount, not to exceed the rate made available to the National Laboratories for laboratory-directed research and development, in a special fund account.

(B) Use

Amounts in the account under subparagraph (A) shall only be available for laboratory-directed research and development.

(C) Requirements

The account under subparagraph (A)—

(i) shall be administered by the Secretary;

(ii) shall be available without fiscal year limitation; and

(iii) shall not be subject to appropriation.

(3) Requirement

The Director shall carry out laboratory-directed research and development activities at the National Energy Technology Laboratory consistent with Department of Energy Order 413.2C, dated August 2, 2018 (or a successor order).

(4) Annual report on use of authority

Annually, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the use of the authority provided under this subsection during the preceding fiscal year.

(c) Laboratory operations

The Secretary shall delegate human resources operations of the National Energy Technology Laboratory to the Director to assist in carrying out this section.

(d) Review

Not later than 2 years after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report assessing the management and research activities of the National Energy Technology Laboratory, which shall include—

(1) an assessment of the quality of science and research at the National Energy Technology Laboratory, relative to similar work at other National Laboratories;

(2) a review of the effectiveness of authorities provided in subsections (a) and (b); and

(3) recommendations for policy changes within the Department and legislative changes to provide the National Energy Technology Laboratory with the necessary tools and resources to advance the research mission of the National Energy Technology Laboratory.

§ 16298d. Carbon removal

(a) Establishment

The Secretary, in coordination with the heads of appropriate Federal agencies, including the Secretary of Agriculture, shall establish a research, development, and demonstration program (referred to in this section as the “program”) to test, validate, or improve technologies and strategies to remove carbon dioxide from the atmosphere on a large scale.

(b) Intraagency coordination

The Secretary shall ensure that the program includes the coordinated participation of the Office of Fossil Energy, the Office of Science, and the Office of Energy Efficiency and Renewable Energy.

(c) Program activities

The program may include research, development, and demonstration activities relating to—

(1) direct air capture and storage technologies;

(2) bioenergy with carbon capture and sequestration;

(3) enhanced geological weathering;

(4) agricultural practices;

(5) forest management and afforestation; and

(6) planned or managed carbon sinks, including natural and artificial.

(d) Requirements

In developing and identifying carbon removal technologies and strategies under the program, the Secretary shall consider—

(1) land use changes, including impacts on natural and managed ecosystems;

(2) ocean acidification;

(3) net greenhouse gas emissions;

(4) commercial viability;

(5) potential for near-term impact;

(6) potential for carbon reductions on a gigaton scale; and

(7) economic cobenefits.

(e) Air capture prize competitions

(1) Definitions

In this subsection:

(A) Dilute media

The term “dilute media” means media in which the concentration of carbon dioxide is less than 1 percent by volume.

(B) Prize competition

The term “prize competition” means the competitive technology prize competition established under paragraph (2).

(C) Qualified carbon dioxide

(i) In general

The term “qualified carbon dioxide” means any carbon dioxide that—
(I) is captured directly from the ambient air; and
(II) is measured at the source of capture and verified at the point of disposal, injection, or utilization.

(ii) Inclusion
The term “qualified carbon dioxide” includes the initial deposit of captured carbon dioxide used as a tertiary injectant.

(iii) Exclusion
The term “qualified carbon dioxide” does not include carbon dioxide that is re-captured, recycled, and reinjected as part of the enhanced oil and natural gas recovery process.

(D) Qualified direct air capture facility
(i) In general
The term “qualified direct air capture facility” means any facility that—
(I) uses carbon capture equipment to capture carbon dioxide directly from the ambient air; and
(II) captures more than 50,000 metric tons of qualified carbon dioxide annually.

(ii) Exclusion
The term “qualified direct air capture facility” does not include any facility that captures carbon dioxide—
(I) that is deliberately released from naturally occurring subsurface springs; or
(II) using natural photosynthesis.

(2) Establishment
Not later than 2 years after December 27, 2020, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall establish as part of the program a competitive technology prize competition to award prizes for—
(A) precommercial carbon dioxide capture from dilute media; and
(B) commercial applications of direct air capture technologies.

(3) Requirements
In carrying out this subsection, the Secretary, in accordance with section 3719 of title 15, shall develop requirements for—
(A) the prize competition process; and
(B) monitoring and verification procedures for projects selected to receive a prize under the prize competition.

(4) Eligible projects
(A) Precommercial air capture projects
With respect to projects described in paragraph (2)(A), to be eligible to be awarded a prize under the prize competition, a project shall—
(i) meet minimum performance standards set by the Secretary;
(ii) meet minimum levels set by the Secretary for the capture of carbon dioxide from dilute media; and
(iii) demonstrate in the application of the project for a prize—
(I) a design for a promising carbon capture technology that will—
(aa) be operated on a demonstration scale; and
(bb) have the potential to achieve significant reduction in the level of carbon dioxide in the atmosphere;
(II) a successful bench-scale demonstration of a carbon capture technology; or
(III) an operational carbon capture technology on a commercial scale.

(B) Commercial direct air capture projects
(i) In general
With respect to projects described in paragraph (2)(B), the Secretary shall award prizes under the prize competition to qualified direct air capture facilities for metric tons of qualified carbon dioxide captured and verified at the point of disposal, injection, or utilization.

(ii) Amount of award
The amount of the award per metric ton under clause (i)—
(I) shall be equal for each qualified direct air capture facility selected for a prize under the prize competition; and
(II) shall be determined by the Secretary and in any case shall not exceed—
(aa) $180 for qualified carbon dioxide captured and stored in saline storage formations;
(bb) a lesser amount, as determined by the Secretary, for qualified carbon dioxide captured and utilized in any activity consistent with section 45Q(f)(5) of title 26.

(iii) Requirement
The Secretary shall make awards under this subparagraph until appropriated funds are expended.

(f) Direct air capture test center
(1) In general
Not later than 2 years after December 27, 2020, the Secretary shall award grants to 1 or more entities for the operation of 1 or more test centers (referred to in this subsection as a “Center”) to provide distinct testing capabilities for innovative direct air capture and storage technologies.

(2) Purpose
Each Center shall—
(A) advance research, development, demonstration, and commercial application of direct air capture and storage technologies; and
(B) support large-scale pilot and demonstration projects and test direct air capture and storage technologies; and
(C) develop front-end engineering design and economic analysis.

(3) Selection
(A) In general
The Secretary shall select entities to receive grants under this subsection according
to such criteria as the Secretary may develop.

(B) Competitive basis

The Secretary shall select entities to receive grants under this subsection on a competitive basis.

(C) Priority criteria

In selecting entities to receive grants under this subsection, the Secretary shall prioritize consideration of applicants that—

(i) have access to existing or planned research facilities for direct air capture and storage technologies;
(ii) are institutions of higher education with established expertise in engineering for direct air capture and storage technologies, or partnerships with such institutions of higher education; or
(iii) have access to existing research and test facilities for bulk materials design and testing, component design and testing, or professional engineering design.

(4) Formula for awarding grants

The Secretary may develop a formula for awarding grants under this subsection.

(5) Schedule

(A) In general

Each grant awarded under this subsection shall be for a term of not more than 5 years, subject to the availability of appropriations.

(B) Renewal

The Secretary may renew a grant for 1 or more additional 5-year terms, subject to a competitive merit review and the availability of appropriations.

(6) Termination

To the extent otherwise authorized by law, the Secretary may eliminate, and terminate projects funded by grants or contracts authorized under this subsection, the Secretary shall

(a) estimate the magnitude of excess carbon dioxide in the atmosphere that will need to be removed by 2050 to achieve net-zero emissions and stabilize the climate;
(b) inventories current and emerging approaches of carbon dioxide removal and evaluates the advantages and disadvantages of each of the approaches; and
(c) identify recommendations for legislation, funding, rules, revisions to rules, financing mechanisms, or other policy tools that the Federal Government can use to sufficiently advance the deployment of carbon dioxide removal projects in order to meet, in the aggregate, the magnitude of needed removals estimated under paragraph (1), including policy tools, such as—

(A) grants;
(B) loans or loan guarantees;
(C) public-private partnerships;
(D) direct procurement;
(E) incentives, including subsidized Federal financing mechanisms available to project developers;
(F) advance market commitments;
(G) regulations; and
(H) any other policy mechanism determined by the Secretary to be beneficial for advancing carbon dioxide removal methods and the deployment of carbon dioxide removal projects.

(c) Submission; publication
The Secretary shall—
(1) submit the report prepared under subsection (b) to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and Science, Space, and Technology of the House of Representatives; and
(2) as soon as practicable after completion of the report, make the report publicly available.

(d) Evaluation; revision
(1) In general
Not later than 2 years after the date on which the Secretary publishes the report under subsection (c)(2), and every 2 years thereafter, the Secretary shall evaluate the findings and recommendations of the report, or the most recent updated report submitted under paragraph (2)(B), as applicable, taking into consideration any issues and recommendations identified by the task force established under subsection (e)(1).

(2) Revision
After completing each evaluation under paragraph (1), the Secretary shall—
(A) revise the report as necessary; and
(B) if the Secretary revises the report under subparagraph (A), submit and publish the updated report in accordance with subsection (c).

(e) Task force
(1) Establishment and duties
Not later than 60 days after December 27, 2020, the Secretary shall establish a task force—
(A) to identify barriers to advancement of carbon dioxide removal methods and the deployment of carbon dioxide removal projects;
(B) to inventory existing or potential Federal legislation, rules, revisions to rules, financing mechanisms, or other policy tools that are capable of advancing carbon dioxide removal methods and the deployment of carbon dioxide removal projects;
(C) to assist in preparing the report described in subsection (b) and any updates to the report under subsection (d); and
(D) to advise the Secretary on matters pertaining to carbon dioxide removal.

(2) Members and selection
The Secretary shall—
(A) develop criteria for the selection of members to the task force established under paragraph (1); and
(B) select members for the task force in accordance with the criteria developed under subparagraph (A).

(3) Meetings
The task force shall meet not less frequently than once each year.

(4) Evaluation
Not later than 7 years after December 27, 2020, the Secretary shall—
(A) reevaluate the need for the task force established under paragraph (1); and
(B) submit to Congress a recommendation as to whether the task force should continue.

CODIFICATION
Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART G—SCIENCE
§ 16311. Science

(a) In general
The Secretary shall conduct, through the Office of Science, programs of research, development, demonstration, and commercial application in high energy physics, nuclear physics, biological and environmental research, basic energy sciences, advanced scientific computing research, and fusion energy sciences, including activities described in this part. The programs shall include support for facilities and infrastructure, education, outreach, information, analysis, and coordination activities.

(b) Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out research, development, demonstration, and commercial application activities of the Office of Science, including activities authorized under this part (including the amounts authorized under the amendment made by section 976(b)1 and including basic energy sciences, advanced scientific and computing research, biological and environmental research, fusion energy sciences, high energy physics, nuclear physics, research analysis, and infrastructure support)—

1. See References in Text note below.

(1) $4,153,000,000 for fiscal year 2007;
(2) $4,586,000,000 for fiscal year 2008;
(3) $5,200,000,000 for fiscal year 2009;
(4) $5,247,000,000 for fiscal year 2011;
(5) $5,614,000,000 for fiscal year 2012; and
(6) $5,814,000,000 for fiscal year 2013.

(c) Allocations
From amounts authorized under subsection (b), the following sums are authorized:
(1) For activities under the Fusion Energy Sciences program (including activities under section 16312 of this title)—
(A) $355,500,000 for fiscal year 2007;
(B) $369,500,000 for fiscal year 2008;
(C) $384,800,000 for fiscal year 2009; and
(D) $394,800,000 for fiscal year 2009; and
(2) as soon as practicable after completion of the report, make the report publicly available.
construction, consistent with the limitations of section 16312(c)(5) of this title.

(2) For activities under the catalysis research program under section 16313 of this title—
   (A) $36,500,000 for fiscal year 2007;
   (B) $38,200,000 for fiscal year 2008; and
   (C) such sums as may be necessary for fiscal year 2009.

(3) For activities under the Systems Biology Program under section 16317 of this title such sums as may be necessary for each of fiscal years 2007 through 2009.

(4) For activities under the Energy and Water Supplies program under section 16319 of this title, $30,000,000 for each of fiscal years 2007 through 2009.

(5) For the energy research fellowships programs under section 16324 of this title, $40,000,000 for each of fiscal years 2007 through 2009.

(6) For the advanced scientific computing activities under section 976—
   (A) $270,000,000 for fiscal year 2007;
   (B) $350,000,000 for fiscal year 2008; and
   (C) $375,000,000 for fiscal year 2009.

(7) For the science and engineering education pilot program under section 16323 of this title—
   (A) $4,000,000 for each of fiscal years 2007 and 2008; and
   (B) $5,000,000 for fiscal year 2009.

(d) Integrated bioenergy research and development

In addition to amounts otherwise authorized by this section, there are authorized to be appropriated to the Secretary for integrated bioenergy research and development programs, projects, and activities, $49,000,000 for each of the fiscal years 2005 through 2009. Activities funded under this subsection shall be coordinated with ongoing related programs of other Federal agencies, including the Plant Genome Program of the National Science Foundation. Of the funds authorized under this subsection, at least $5,000,000 for each fiscal year shall be for training and education targeted to minority and socially disadvantaged farmers and ranchers.

REFERENCES IN TEXT

This part, referred to in subsecs. (a) and (b), was in the original “this subtitle”, meaning subtitle G (§§ 971–984A) of title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 888, which enacted this part and amended section 5523 of Title 15, Commerce and Trade. For complete classification of subtitle G to the Code, see Tables.

Section 976, referred to in subsecs. (b) and (c)(6), is section 976 of Pub. L. 109–58. Subsection (a) of section 976 is classified to section 16316 of this title and subsection (b) of section 976 amended section 5523 of Title 15, Commerce and Trade.

AMENDMENTS

§ 16312. Fusion energy sciences program

(a) Declaration of policy

It shall be the policy of the United States to conduct research, development, demonstration, and commercial applications to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other countries in providing fusion energy for its own needs and the needs of other countries, including by demonstrating electric power or hydrogen production for the United States energy grid using fusion energy at the earliest date.

(b) Planning

(1) In general

Not later than 180 days after August 8, 2005, the Secretary shall submit to Congress a plan (with proposed cost estimates, budgets, and lists of potential international partners) for the implementation of the policy described in subsection (a) in a manner that ensures that—

(A) existing fusion research facilities are more fully used;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research and development facilities are selected based on scientific innovation and cost effectiveness, and the potential of the facilities to advance the goal of practical fusion energy at the earliest date practicable;

(D) facilities that are selected are funded at a cost-effective rate;

(E) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(F) inertial confinement fusion facilities are used to the extent practicable for the purpose of inertial fusion energy research and development;

(G) attractive alternative inertial and magnetic fusion energy approaches are more fully explored; and

(H) to the extent practicable, the recommendations of the Fusion Energy Sciences Advisory Committee in the report on workforce planning, dated March 2004, are carried out, including periodic reassessment of program needs.

(2) Costs and schedules

The plan shall also address the status of, and, to the extent practicable, costs and schedules for—

(A) the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.

(c) United States participation in ITER

(1) In general

There is authorized United States participation in the construction and operations of the
(2) Report
Not later than 1 year after the date of enactment of this section, the Secretary shall submit to Congress a report providing an assessment of the most recent schedule for ITER that has been approved by the ITER Council.

(3) Authorization of appropriations
Out of funds authorized to be appropriated under section 18645(o) of this title, there shall be made available to the Secretary to carry out the construction of ITER—
(A) $374,000,000 for fiscal year 2021; and
(B) $281,000,000 for each of fiscal years 2022 through 2025.

(2) Leveraging
In carrying out programs and activities under this Initiative, the Secretary shall leverage expertise and resources from—
(A) the Basic Energy Sciences Program and the Biological and Environmental Research Program of the Office of Science; and
(B) the Office of Energy Efficiency and Renewable Energy.

(3) Teams
(A) In general
In carrying out the Initiative, the Secretary shall organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(B) Goals
The multidisciplinary teams described in subparagraph (A) shall pursue aggressive, milestone-driven, basic research goals.

(C) Resources
The Secretary shall provide sufficient resources to the multidisciplinary teams described in subparagraph (A) to achieve the goals described in subparagraph (B) over a period of time to be determined by the Secretary.

(4) Additional activities
The Secretary may organize additional activities under this subsection through Energy Frontier Research Centers, Energy Innovation Hubs, or other organizational structures.

(b) Artificial photosynthesis

(1) In general
The Secretary shall carry out under the Initiative a program to support research needed to bridge scientific barriers to, and discover knowledge relevant to, artificial photosynthetic systems.

(2) Activities
As part of the program described in paragraph (1)—
(A) the Director of the Office of Basic Energy Sciences shall support basic research to pursue distinct lines of scientific inquiry, including—
(i) photoinduced production of hydrogen and oxygen from water; and
(ii) the sustainable photoinduced reduction of carbon dioxide to fuel products including hydrocarbons, alcohols, carbon monoxide, and natural gas; and
(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review
The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition
No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(c) Biochemistry, replication of natural photosynthesis, and related processes

(1) In general
The Secretary shall carry out under the Initiative a program to support research needed to replicate natural photosynthetic processes by use of artificial photosynthetic components and materials.

(2) Activities
As part of the program described in paragraph (1)—
(A) the Director of the Office of Basic Energy Sciences shall support basic research to expand fundamental knowledge to replicate natural synthesis processes, including—
(i) the photoinduced reduction of dinitrogen to ammonia;
(ii) the absorption of carbon dioxide from ambient air;
(iii) molecular-based charge separation and storage;
(iv) photoinitiated electron transfer; and
(v) catalysis in biological or biomimetic systems;

(B) the Associate Director of Biological and Environmental Research shall support systems biology and genomics approaches to understand genetic and physiological pathways connected to photosynthetic mechanisms; and

(C) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

§ 16314. Hydrogen

(a) In general

The Secretary shall conduct a program of fundamental research and development in support of programs authorized under subchapter VIII.

(b) Methods

The program shall include support for methods of generating hydrogen without the use of natural gas.

§ 16315. Electricity Storage Research Initiative

(a) Initiative

(1) In general

The Secretary shall carry out a research initiative, to be known as the “Electricity Storage Research Initiative” (referred to in this section as the “Initiative”)—

(A) to expand theoretical and fundamental knowledge to control, store, and convert—
(i) electrical energy to chemical energy; and
(ii) chemical energy to electrical energy; and

(B) to support scientific inquiry into the practical understanding of chemical and physical processes that occur within systems involving crystalline and amorphous solids, polymers, and organic and aqueous liquids.

(2) Leveraging

In carrying out programs and activities under the Initiative, the Secretary shall leverage expertise and resources from—

(A) the Basic Energy Sciences Program, the Advanced Scientific Computing Research Program, and the Biological and Environmental Research Program of the Office of Science; and

(B) the Office of Energy Efficiency and Renewable Energy.

(3) Teams

(A) In general

In carrying out the Initiative, the Secretary shall organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(B) Goals

The multidisciplinary teams described in subparagraph (A) shall pursue aggressive, milestone-driven, basic research goals.

(C) Resources

The Secretary shall provide sufficient resources to the multidisciplinary teams described in subparagraph (A) to achieve the goals described in subparagraph (B) over a period of time to be determined by the Secretary.

(4) Additional activities

The Secretary may organize additional activities under this subsection through Energy Frontier Research Centers, Energy Innovation Hubs, or other organizational structures.

(b) Multivalent systems

(1) In general

The Secretary shall carry out under the Initiative a program to support research needed to bridge scientific barriers to, and discover knowledge relevant to, multivalent ion materials in electric energy storage systems.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences shall investigate electrochemical properties and the dynamics of materials, including charge transfer phenomena and mass transport in materials; and

(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.
(c) Electrochemistry modeling and simulation
   (1) In general
   The Secretary shall carry out under the Initiative a program to support research to model and simulate organic electrolytes, including the static and dynamic electrochemical behavior and phenomena of organic electrolytes at the molecular and atomic level in monovalent and multivalent systems.

   (2) Activities
   As part of the program described in paragraph (1)—
   (A) the Director of the Office of Basic Energy Sciences, in coordination with the Associate Director of Advanced Scientific Computing Research, shall support the development of high performance computational tools through a joint development process to maximize the effectiveness of current and projected high performance computing systems; and
   (B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

   (3) Standard of review
   The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

   (4) Prohibition
   No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(d) Mesoscale electrochemistry
   (1) In general
   The Secretary shall carry out under the Initiative a program to support research needed to reveal electrochemistry in confined mesoscale spaces, including scientific discoveries relevant to—
   (A) bio-electrochemistry and electrochemical energy conversion and storage in confined spaces; and
   (B) the dynamics of the phenomena described in subparagraph (A).

   (2) Activities
   As part of the program described in paragraph (1)—
   (A) the Director of the Office of Basic Energy Sciences and the Associate Director of Biological and Environmental Research shall investigate phenomena of mesoscale electrochemical confinement for the purpose of replicating and controlling new electrochemical behavior; and
   (B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

   (3) Standard of review
   The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

§ 16317. Systems biology program
(a) Program
   (1) Establishment
   The Secretary shall establish a research, development, and demonstration program in microbial and plant systems biology, protein science, computational biology, and environmental science to support the energy, national security, and environmental missions of the Department.

   (2) Grants
   The program shall support individual researchers and multidisciplinary teams of researchers through competitive, merit-reviewed grants.
§ 16318. Bioenergy research centers

(a) Establishment of centers

In carrying out the program under subsection (a), the Secretary shall establish at least 7 bioenergy research centers, which may be of varying size.

(b) Geographic distribution

The Secretary shall establish at least 1 bioenergy research center in each Petroleum Administration for Defense District or Subdistrict of a Petroleum Administration for Defense District.

(c) Goals

The goals of the centers established under this subsection shall be to accelerate basic transformational research and development of biofuels, including biological processes.

(d) Consultation

In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) Goals

The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen in sustainable production systems that reduce greenhouse gas emissions;

(2) convert carbon dioxide to organic carbon;

(3) detoxify soils and water, including at facilities of the Department, contaminated with heavy metals and radiological materials;

(4) develop cellulosic and other feedstocks that are less resource and land intensive and that promote sustainable use of resources, including soil, water, energy, forests, and land, and ensure protection of air, water, and soil quality; and

(5) address other Department missions as identified by the Secretary.

(c) Plan

(1) Development of plan

Not later than 1 year after August 8, 2005, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) Review of plan

The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary’s response to the recommendations contained in the review.

(d) User facilities and ancillary equipment

Within the funds authorized to be appropriated pursuant to this part, amounts shall be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities, including user facilities at National Laboratories, for researchers conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.

(e) Prohibition on biomedical and human cell and human subject research

(1) No biomedical research

In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) Limitations

Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

(f) Bioenergy research centers

(1) Establishment of centers

In carrying out the program under subsection (a), the Secretary shall establish at least 7 bioenergy research centers, which may be of varying size.

(2) Geographic distribution

The Secretary shall establish at least 1 bioenergy research center in each Petroleum Administration for Defense District or Subdistrict of a Petroleum Administration for Defense District.

(3) Goals

The goals of the centers established under this subsection shall be to accelerate basic transformational research and development of biofuels, including biological processes.

(4) Selection and duration

(A) In general

A center under this subsection shall be selected on a competitive basis for a period of 5 years.

(B) Reapplication

After the end of the period described in subparagraph (A), a grantee may reapply for selection on a competitive basis.

(5) Inclusion

A center that is in existence on December 19, 2007—

(A) shall be counted towards the requirement for establishment of at least 7 bioenergy research centers; and

(B) may continue to receive support for a period of 5 years beginning on the date of establishment of the center.

References in Text

This part, referred to in subsec. (d), was in the original “this subtitle”, meaning subtitle G (§§971–984A) of title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 896, which enacted this part and amended section 5523 of Title 15, Commerce and Trade. For complete classification of subtitle G to the Code, see Tables.

Amendments

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1624 of Title 2, The Congress.

§ 16318. Fission and fusion energy materials research program

(a) In general

Along with the budget request of the President submitted to Congress for fiscal year 2007, the
Secretary shall establish a research and development program on material science issues presented by advanced fission reactors and the fusion energy program of the Department.

(b) Administration

In carrying out the program, the Secretary shall develop—

(1) a catalog of material properties required for applications described in subsection (a);
(2) theoretical models for materials possessing the required properties;
(3) benchmark models against existing data; and
(4) a roadmap to guide further research and development in the area covered by the program.

§ 16319. Energy and water supplies

(a) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application to—

(1) address energy-related issues associated with provision of adequate water supplies, optimal management, and efficient use of water;
(2) address water-related issues associated with the provision of adequate supplies, optimal management, and efficient use of energy; and
(3) assess the effectiveness of existing programs within the Department and other Federal agencies to address these energy and water related issues.

(b) Program elements

The program under this section shall include—

(1) arsenic treatment;
(2) desalination; and
(3) planning, analysis, and modeling of energy and water supply and demand.

(c) Collaboration

In carrying out this section, the Secretary shall consult with the Administrator of the Environmental Protection Agency, the Secretary of the Interior, the Chief Engineer of the Army Corps of Engineers, the Secretary of Commerce, the Secretary of Defense, and other Federal agencies as appropriate.

(d) Facilities

The Secretary may utilize all existing facilities within the Department and may design and construct additional facilities as needed to carry out the purposes of this program.

(e) Advisory committee

The Secretary shall establish or utilize an advisory committee to provide independent advice and review of the program.

(f) Reports

Not later than 2 years after August 8, 2005, the Secretary shall submit to Congress a report on the assessment described in subsection (b) and recommendations for future actions.

§ 16320. Spallation Neutron Source

(a) Definitions

In this section:

(1) SING
The term “SING” means the Spallation Neutron Source Instruments Next Generation major item of equipment.

(2) SNS power upgrade
The term “SNS power upgrade” means the Spallation Neutron Source power upgrade described in the 20-year facilities plan of the Office of Science of the Department.

(3) SNS second target station
The term “SNS second target station” means the Spallation Neutron Source second target station described in the 20-year facilities plan of the Office of Science of the Department.

(4) Spallation Neutron Source Facility
The terms “Spallation Neutron Source Facility” and “Facility” mean the completed Spallation Neutron Source scientific user facility located at Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(5) Spallation Neutron Source Project
The terms “Spallation Neutron Source Project” and “Project” means Department Project 99-E-334, Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(b) Spallation Neutron Source Project

(1) In general
The Secretary shall submit to Congress, as part of the annual budget request of the President submitted to Congress, a report on progress on the Spallation Neutron Source Project.

(2) Contents
The report shall include for the Project—

(A) a description of the achievement of milestones;
(B) a comparison of actual costs to estimated costs; and
(C) any changes in estimated Project costs or schedule.

(c) Spallation Neutron Source Facility plan

(1) In general
The Secretary shall develop an operational plan for the Spallation Neutron Source Facility that ensures that the Facility is employed to the full capability of the Facility in support of the study of advanced materials, nanoscience, and other missions of the Office of Science of the Department.

(2) Plan
The operational plan shall—

(A) include a plan for the operation of an effective scientific user program that—
(i) is based on peer review of proposals submitted for use of the Facility;
(ii) includes scientific and technical support to ensure that external users, including researchers based at institutions of higher education, are able to make full use
§ 16321. Facility for Rare Isotope Beams

(a) Establishment

The Secretary shall construct and operate a Facility for Rare Isotope Beams. The Secretary shall commence construction no later than September 30, 2008.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section. The Secretary shall not spend more than $1,100,000,000 in Federal funds for all activities associated with the Facility for Rare Isotope Beams, prior to operation of the Accelerator.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary, for the Facility $12,000,000 for fiscal year 2007; and $219,000,000 shall be used for other Project costs.

(ii) instrumentation built at the Facility during the operating phase through full use of the experimental hall, including the SING; (iii) the SNS power upgrade; and (iv) the SNS second target station.

(2) Spallation Neutron Source Facility

(A) In general

Except as provided in subparagraph (B), there is authorized to be appropriated for the Spallation Neutron Source Facility for— (i) the SING, $75,000,000 for each of fiscal years 2007 through 2009; and (ii) the SNS power upgrade, $160,000,000, to remain available until expended.

(B) Insufficient stockpiles of heavy water

If stockpiles of heavy water of the Department are insufficient to meet the needs of the Facility, there is authorized to be appropriated for the Facility $12,000,000 for fiscal year 2007.

AMENDMENTS
2018—Pub. L. 115–246 substituted “Facility for Rare Isotope Beams” for “Rare Isotope Accelerator” in section catchline and in subsecs. (a) and (b).

§ 16322. Office of Scientific and Technical Information

The Secretary, through the Office of Scientific and Technical Information, shall maintain within the Department publicly available collections of scientific and technical information resulting from research, development, demonstration, and commercial applications activities supported by the Department.

AMENDMENTS
the award of the grant, the Secretary shall transmit to Congress a report outlining lessons learned and, if determined appropriate by the Secretary, containing a plan for expanding the program throughout the United States.”

§ 16324. Energy research fellowships

(a) Postdoctoral fellowship program

The Secretary shall establish a program under which the Secretary provides fellowships to encourage outstanding young scientists and engineers to pursue postdoctoral research appointments in energy research and development at institutions of higher education of their choice.

(b) Senior research fellowships

(1) In general

The Secretary shall establish a program under which the Secretary provides fellowships to allow outstanding senior researchers and their research groups in energy research and development to explore research and development topics of their choosing for a period of not less than 3 years, to be determined by the Secretary.

(2) Consideration

In providing a fellowship under the program described in paragraph (1), the Secretary shall consider—

(A) the past scientific or technical accomplishment of a senior researcher; and

(B) the potential for continued accomplishment by the researcher during the period of the fellowship.

§ 16325. Science and Technology Scholarship Program

(a) In general

The Secretary is authorized to establish a Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Department and National Laboratories.

(b) Service requirement

The Secretary may require that an individual receiving a scholarship under this section serve as a full-time employee of the Department or a National Laboratory for a fixed period in return for receiving the scholarship.

PART H—INTERNATIONAL COOPERATION

§ 16341. Western Hemisphere energy cooperation

(a) Program

The Secretary shall carry out a program to promote cooperation on energy issues with countries of the Western Hemisphere.

(b) Activities

Under the program, the Secretary shall fund activities to work with countries of the Western Hemisphere to—

(1) increase the production of energy supplies;

(2) improve energy efficiency; and

(3) assist in the development and transfer of energy supply and efficiency technologies that would have a beneficial impact on world energy markets.

(c) Participation by institutions of higher education

To the extent practicable, the Secretary shall carry out the program under this section with the participation of institutions of higher education so as to take advantage of the acceptance of institutions of higher education by countries of the Western Hemisphere as sources of unbiased technical and policy expertise when assisting the Secretary in—

(1) evaluating new technologies;

(2) resolving technical issues;

(3) working with those countries in the development of new policies; and

(4) training policymakers, particularly in the case of institutions of higher education that involve the participation of minority students, such as—

(A) Hispanic-serving institutions; and

(B) part B institutions.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $10,000,000 for fiscal year 2007;

(2) $13,000,000 for fiscal year 2008; and

(3) $16,000,000 for fiscal year 2009.

§ 16342. International energy training

(a) In general

The Secretary, in consultation with the Secretary of Commerce, the Secretary of the Interior, and Secretary of State, and the Federal Energy Regulatory Commission, shall coordinate training and outreach efforts for international commercial energy markets in countries with developing and restructuring economies.

(b) Components

The training and outreach efforts referred to in subsection (a) may include—

(1) production-related fiscal regimes;

(2) grid and network issues;

(3) energy user and demand side response;

(4) international trade of energy; and

(5) international transportation of energy.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2007 through 2010.

PART I—RESEARCH ADMINISTRATION AND OPERATIONS

§ 16351. Availability of funds

Funds authorized to be appropriated to the Department under this Act or an amendment made by this Act shall remain available until expended.

§ 16352. Cost sharing

(a) Applicability

Notwithstanding any other provision of law, in carrying out a research, development, demonstration, or commercial application program or activity that is initiated after August 8, 2005, the Secretary shall require cost-sharing in accordance with this section.

(b) Research and development

(1) In general

Except as provided in paragraphs (2), (3), and (4) and subsection (f), the Secretary shall require not less than 20 percent of the cost of a research or development activity described in subsection (a) to be provided by a non-Federal source.

(2) Exclusion

Paragraph (1) shall not apply to a research or development activity described in subsection (a) that is of a basic or fundamental nature, as determined by the appropriate officer of the Department.

(3) Reduction

The Secretary may reduce or eliminate the requirement of paragraph (1) for a research and development activity of an applied nature if the Secretary determines that the reduction is necessary and appropriate.

(4) Exemption for institutions of higher education and other nonprofit institutions

(A) In general

Paragraph (1) shall not apply to a research or development activity performed by an institution of higher education or nonprofit institution (as defined in section 4 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703)).

(B) Termination date

The exemption under subparagraph (A) shall apply during the 2-year period beginning on September 28, 2018.

(c) Demonstration and commercial application

(1) In general

Except as provided in paragraph (2) and subsection (f), the Secretary shall require that not less than 50 percent of the cost of a demonstration or commercial application activity described in subsection (a) to be provided by a non-Federal source.

(2) Reduction of non-Federal share

The Secretary may reduce the non-Federal share required under paragraph (1) if the Secretary determines the reduction to be necessary and appropriate, taking into consideration any technological risk relating to the activity.

(d) Calculation of amount

In calculating the amount of a non-Federal contribution under this section, the Secretary—

(1) may include allowable costs in accordance with the applicable cost principles, including—

(A) cash;

(B) personnel costs;

(C) the value of a service, other resource, or third party in-kind contribution determined in accordance with the applicable circular of the Office of Management and Budget;

(D) indirect costs or facilities and administrative costs; or

(E) any funds received under the power program of the Tennessee Valley Authority (except to the extent that such funds are made available under an annual appropriation Act); and

(2) shall not include—

(A) revenues or royalties from the prospective operation of an activity beyond the time considered in the award;

(B) proceeds from the prospective sale of an asset of an activity; or

(C) other appropriated Federal funds.

(e) Repayment of Federal share

The Secretary shall not require repayment of the Federal share of a cost-shared activity under this section as a condition of making an award.

(f) Exclusions

This section shall not apply to—

(1) a cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.);

(2) a fee charged for the use of a Department facility; or

(3) an award under—

(A) the small business innovation research program under section 638 of title 15; or

(B) the small business technology transfer program under that section.

REFERENCES IN TEXT

AMENDMENTS

2018—Subsec. (b)(1). Pub. L. 115–246, § 108(a)(1), substituted “Except as provided in paragraphs (2), (3), and (4)” for “Except as provided in paragraphs (2) and (3)”.

§ 16353. Merit review of proposals

(a) Awards

Awards of funds authorized under this Act or an amendment made by this Act shall be made
only after an impartial review of the scientific and technical merit of the proposals for the awards has been carried out by or for the Department.

(b) Competition

Competitive awards under this Act shall involve competitions open to all qualified entities within one or more of the following categories:

(1) Institutions of higher education.
(2) National Laboratories.
(3) Nonprofit and for-profit private entities.
(4) State and local governments.
(5) Consortia of entities described in paragraphs (1) through (4).

(c) Sense of Congress

It is the sense of Congress that research, development, demonstration, and commercial application activities carried out by the Department should be awarded using competitive procedures, to the maximum extent practicable.

REFERENCES IN TEXT

This Act, referred to in subsec. (a) and (b), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16354. External technical review of departmental programs

(a) National energy research and development advisory boards

(1) Establishment

The Secretary shall establish one or more advisory boards to review research, development, demonstration, and commercial application programs of the Department in energy efficiency, renewable energy, nuclear energy, and fossil energy.

(2) Alternatives

The Secretary may—

(A) designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this section; and
(B) enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) Use of existing committees

The Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.

(c) Membership

Each advisory board under this section shall consist of persons with appropriate expertise representing a diverse range of interests.

(d) Meetings and goals

(1) Meetings

Each advisory board under this section shall meet at least semiannually to review and advise on the progress made by the respective one or more research, development, demonstration, and commercial application programs.

(2) Goals

The advisory board shall review the measurable cost and performance-based goals for the programs as established under section 16181 of this title, and the progress on meeting the goals.

(e) Periodic reviews and assessments

(1) In general

The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct periodic reviews and assessments of—

(A) the research, development, demonstration, and commercial application programs authorized by this Act and amendments made by this Act;
(B) the measurable cost and performance-based goals for the programs as established under section 16181 of this title, if any; and
(C) the progress on meeting the goals.

(2) Timing

The reviews and assessments shall be conducted every 5 years or more often as the Secretary considers necessary.

(3) Reports

The Secretary shall submit to Congress reports describing the results of all the reviews and assessments.

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (b), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

§16355. National Laboratory designation

After August 8, 2005, the Secretary shall not designate a facility that is not listed in section 15801(3) of this title as a National Laboratory.

§16356. Report on equal employment opportunity practices

Not later than 12 months after August 8, 2005, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each National Laboratory contractor’s equal employment opportunity policies, including promotion to management and professional positions and pay raises;
(2) a statistical report on complaints and their disposition in the National Laboratories;
§ 16357 Strategy for facilities and infrastructure

(a) Facility and infrastructure policy

(1) In general

The Secretary shall develop and implement a strategy for facilities and infrastructure supported primarily from the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, or the Office of Nuclear Energy, Science and Technology Programs at all National Laboratories and single-purpose research facilities.

(2) Strategy

The strategy shall provide cost-effective means for—

(A) maintaining existing facilities and infrastructure;

(B) closing unneeded facilities;

(C) making facility modifications; and

(D) building new facilities.

(b) Report

(1) In general

The Secretary shall prepare and submit, along with the budget request of the President submitted to Congress for fiscal year 2018, a report describing the strategy developed under subsection (a).

(2) Contents

For each National Laboratory and single-purpose research facility that is primarily used for science and energy research, the report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;

(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

AMENDMENTS

§ 16358 Strategic research portfolio analysis and coordination plan

(a) In general

The Secretary shall periodically review all of the science and technology activities of the Department in a strategic framework that takes into account—

(1) the frontiers of science to which the Department can contribute;

(2) the national needs relevant to the statutory missions of the Department; and

(3) global energy dynamics.

(b) Coordination analysis and plan

(1) In general

As part of the review under subsection (a), the Secretary shall develop a plan to improve coordination and collaboration in research, development, demonstration, and commercial application activities across organizational boundaries of the Department.

(2) Plan contents

The plan developed under paragraph (1) shall describe—

(A) crosscutting scientific and technical issues and research questions that span more than one program or major office of the Department;

(B) ways in which the applied technology programs of the Department are coordinating activities and addressing the questions referred to in subparagraph (A);

(C) ways in which the technical interchange within the Department, particularly between the Office of Science and the applied technology programs, could be enhanced, including ways in which the research agendas of the Office of Science and the applied programs could better interact and assist each other;

(D) ways in which the Secretary would ensure that the overall research agenda of the Department includes, in addition to fundamental, curiosity-driven research, fundamental research related to topics of concern to the applied programs, and applications in Departmental technology programs of research results generated by fundamental, curiosity-driven research;

(E) critical assessments of any ongoing programs that have experienced subpar performance or cost overruns of 10 percent or more over 1 or more years;

(F) any activities that may be more effectively left to the States, industry, non-governmental organizations, institutions of higher education, or other stakeholders; and

(G) detailed evaluations and proposals for innovation hubs, institutes, and research centers of the Department, including—
§ 16360. Western Michigan demonstration project

The Administrator of the Environmental Protection Agency, in consultation with the State of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8-hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8-hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after August 8, 2005, and shall not impose any requirement or sanction under the Clean Air Act (42 U.S.C. 7401 et seq.) that might otherwise apply during the pendency of the demonstration project.

REFERENCES IN TEXT

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§ 16361. Arctic Engineering Research Center

(a) In general

The Secretary of Transportation, in consultation with the Secretary and the United States Arctic Research Commission, shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the “Arctic Engineering Research Center” (referred to in this section as the “Center”).

(b) Purpose

The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

(1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as practicable;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing materials for the construction of roads, bridges,
rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure in the Arctic region; and
(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

(c) Objectives
The Secretary shall provide a grant in the amount of
(1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and
(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

(d) Amount of grant
For each of fiscal years 2006 through 2011, the Secretary shall provide a grant in the amount of $3,000,000 to the institution specified in subsection (a) to carry out this section.

(e) Authorization of appropriations
There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2006 through 2011.

§ 16362. Barrow Geophysical Research Facility
(a) Establishment
The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the “Barrow Geophysical Research Facility”, to support scientific research activities in the Arctic.

(b) Authorization of appropriations
There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical Research Facility, $61,000,000.

PART J—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

Section 16371, Pub. L. 109–58, title IX, § 999A, Aug. 8, 2005, 119 Stat. 916, authorized the Secretary of Energy to carry out a program under this part of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resources.

EX. ORD. NO. 13605. SUPPORTING SAFE AND RESPONSIBLE DEVELOPMENT OF UNCONVENTIONAL DOMESTIC NATURAL GAS RESOURCES
Ex. Ord. No. 13605, Apr. 13, 2012, 77 F.R. 23107, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to coordinate the efforts of Federal agencies responsible for overseeing the safe and responsible development of unconventional domestic natural gas resources and associated infrastructure and to help reduce our dependence on oil, it is hereby ordered as follows:

SECTION 1. Policy. In 2011, natural gas provided 25 percent of the energy consumed in the United States. Its production creates jobs and provides economic benefits to the entire domestic production supply chain, as well as to chemical and other manufacturers, who benefit from lower feedstock and energy costs. By helping to power our transportation system, greater use of natural gas can also reduce our dependence on oil. And with appropriate safeguards, natural gas can provide a cleaner source of energy than other fossil fuels.

For these reasons, it is vital that we take full advantage of our natural gas resources, while giving American families and communities confidence that natural and cultural resources, air and water quality, and public health and safety will not be compromised. While natural gas production is carried out by private firms, and States are the primary regulators of onshore oil and gas activities, the Federal Government has an important role to play by regulating oil and gas activities on public and Indian trust lands, encouraging greater use of natural gas in transportation, supporting research and development aimed at improving the safety of natural gas development and transportation activities, and setting sensible, cost-effective public health and environmental standards to implement Federal law and augment State safeguards.

Because efforts to promote safe, responsible, and efficient development of unconventional domestic natural gas resources are underway at a number of executive departments and agencies (agencies), close interagency coordination is important for effective implementation of these programs and activities. To formalize and promote ongoing interagency coordination, this order establishes a high-level, interagency working group that will facilitate coordinated Administration policy efforts to support safe and responsible unconventional domestic natural gas development.

SEC. 2. Interagency Working Group to Support Safe and Responsible Development of Unconventional Domestic Natural Gas Resources. There is established an Interagency Working Group to Support Safe and Responsible Development of Unconventional Domestic Natural Gas Resources (Working Group), to be chaired by the Director
of the Domestic Policy Council, or a designated representative.

(a) Membership. In addition to the Chair, the Working Group shall include department-level representatives or equivalent officials, designated by the head of the respective agency or office, from:

(i) the Department of Defense;
(ii) the Department of the Interior;
(iii) the Department of Agriculture;
(iv) the Department of Commerce;
(v) the Department of Health and Human Services;
(vi) the Department of Transportation;
(vii) the Department of Energy;
(viii) the Department of Homeland Security;
(ix) the Environmental Protection Agency;
(x) the Council on Environmental Quality;
(xi) the Office of Science and Technology Policy;
(xii) the Office of Management and Budget;
(xiii) the National Economic Council; and
(xiv) such other agencies or offices as the Chair may invite to participate.

(b) Functions. Consistent with the authorities and responsibilities of participating agencies and offices, the Working Group shall support the safe and responsible production of domestic unconventional natural gas by performing the following functions:

(i) coordinate agency policy activities, ensuring their efficient and effective operation and facilitating cooperation among agencies, as appropriate;
(ii) coordinate among agencies the sharing of scientific, environmental, and related technical and economic information;
(iii) engage in long-term planning and ensure coordination among the appropriate Federal entities with respect to such issues as research, natural resource assessment, and the development of infrastructure;
(iv) promote interagency communication with stakeholders; and
(v) consult with other agencies and offices as appropriate.

SISC. 3. General Provisions. (a) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(b) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or
(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

SUBCHAPTER X—DEPARTMENT OF ENERGY MANAGEMENT

§ 16391. Improved technology transfer of energy technologies

(a) Office of Technology Transitions

(1) Establishment

There is established within the Department an Office of Technology Transitions (referred to in this section as the "Office").

(2) Mission

The mission of the Office shall be—

(A) to expand the commercial impact of the research investments of the Department; and

(B) to focus on commercializing technologies that support the missions of the Department, including reducing greenhouse gas emissions and other pollutants.

(3) Goals

(A) In general

In carrying out the mission and activities of the Office, the Chief Commercialization Officer appointed under paragraph (4) shall, with respect to commercialization activities, meet all of the goals described in subparagraph (B).

(B) Goals described

The goals referred to in subparagraph (A) are the following:

(i) Reduction of greenhouse gas emissions and other pollutants.

(ii) Ensuring economic competitiveness.

(iii) Enhancement of domestic energy security and national security.

(iv) Enhancement of domestic jobs.

(v) Improvement of energy efficiency.

(vi) Any other goals to support the transfer of technology developed by Department-funded programs to the private sector, as consistent with missions of the Department.

(4) Chief Commercialization Officer

(A) In general

The Office shall be headed by an officer, who shall be known as the "Chief Commercialization Officer", and who shall report directly to, and be appointed by, the Secretary.

(B) Principal advisor

The Chief Commercialization Officer shall be the principal advisor to the Secretary on all matters relating to technology transfer and commercialization.

(C) Qualifications

The Chief Commercialization Officer shall be an individual who, by reason of professional background and experience, is specially qualified to advise the Secretary on matters pertaining to technology transfer at the Department.

(D) Duties

The Chief Commercialization Officer shall oversee—

(i) the activities of the Technology Transfer Working Group established under subsection (b);

(ii) the expenditure of funds allocated for technology transfer within the Department;

(iii) the activities of each technology partnership ombudsman appointed under section 7261c of this title; and

(iv) efforts to engage private sector entities, including venture capital companies.

(5) Coordination

In carrying out the mission and activities of the Office, the Chief Commercialization Officer shall coordinate with the senior leadership of the Department, other relevant program offices of the Department, National Laboratories, the Technology Transfer Working Group established under subsection (b), the Technology Transfer Policy Board, and other stakeholders (including private industry).
(b) Technology Transfer Working Group

The Secretary shall establish a Technology Transfer Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;
(2) exchange information about technology transfer practices, including alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters; and
(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department, including opportunities and procedures related to alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters.

c) Technology Commercialization Fund

The Secretary shall establish an Energy Technology Commercialization Fund, using 0.9 percent of the amount made available to the Department for applied energy research, development, demonstration, and commercial application for each fiscal year based on future planned activities and the amount of the appropriations for the fiscal year, to be used to provide matching funds with private partners to promote promising energy technologies for commercial purposes.

d) Technology transfer responsibility

Nothing in this section affects the technology transfer responsibilities of Federal employees under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

e) Technology Commercialization Fund

(1) Establishment

The Secretary, acting through the Chief Commercialization Officer established in subsection (a), shall establish a Technology Commercialization Fund (hereafter referred to as the “Fund”), using nine-tenths of one percent of the amount of appropriations made available to the Department for applied energy research, development, demonstration, and commercial application for each fiscal year, to be used to provide, in accordance with the cost-sharing requirements under section 16352 of this title, funds to private partners, including national laboratories, to promote promising energy technologies for commercial purposes.

(2) Applications

(A) Considerations

The Secretary shall develop criteria for evaluating applications for funding under this section, which may include—

(i) the potential that a proposed technology will result in a commercially successful product within a reasonable timeframe; and
(ii) the relative maturity of a proposed technology for commercial application.

(B) Selections

In awarding funds under this section, the Secretary may give special consideration to applications that involve at least one applicant that has participated in an entrepreneurial or commercialization training program, such as Energy Innovation Corports.

(f) Annual report

The Secretary shall include in the annual report required under section 16391a(a) of this title—

(1) description of the projects carried out with awards from the Fund for that fiscal year;
(2) each project’s cost-share for that fiscal year; and
(3) each project’s partners for that fiscal year.

g) Technology commercialization fund report

(1) In general

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology and Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources and Committee on Appropriations of the Senate a report on the current and recommended implementation of the Fund.

(2) Contents

The report under subparagraph (A) shall include—

(A) a summary, with supporting data, of how much Department program offices contribute to and use the Fund each year, including a list of current funding restrictions;
(B) recommendations on how to improve implementation and administration of the Fund; and
(C) an analysis on how to spend funds optimally on technology areas that have the greatest need and opportunity for commercial application, rather than spending funds at the programmatic level or under current funding restrictions.

(f) Planning and reporting

(1) In general

Not later than 180 days after August 8, 2005, the Secretary shall submit to Congress a technology transfer execution plan.

(2) Updates

Each year after the submission of the plan under paragraph (1), the Secretary shall submit to Congress an updated execution plan and reports that describe progress toward meeting goals set forth in the execution plan and the funds expended under subsection (c).

g) Additional technology transfer programs

The Secretary may develop additional programs to—

(1) support regional energy innovation systems;
(2) support clean energy incubators;
(3) provide small business vouchers;
(4) provide financial and technical assistance for entrepreneurial fellowships at national laboratories;

1 So in original. There are two subsecs. (f).
2 So in original. There are two subsecs. (g).
(5) encourage students, energy researchers, and national laboratory employees to develop entrepreneurial skill sets and engage in entrepreneurial opportunities;
(6) support private companies and individuals in partnering with National Laboratories; and
(7) further support the mission and goals of the Office.

REFERENCES IN TEXT
The Stevenson-Wydler Technology Innovation Act of 1980, referred to in subsec. (d), is Pub. L. 96–480, Oct. 31, 1980, 94 Stat. 2311, which is classified generally to chapter 37 (§ 3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section referred to as the ‘Secretary’, acting through the Chief Commercialization Officer established in section 1001(a) of the Energy Policy Act of 2005 (42 U.S.C. 13511(a)), shall establish a Lab Partnering Service Pilot Program (hereinafter in this section referred to as the ‘pilot program’).

(2) PURPOSES.—The purposes of the pilot program are to provide services, in collaboration with relevant external entities, and to identify and develop metrics regarding the effectiveness of such partnerships.

(3) ACTIVITIES.—In carrying out this pilot program, the Secretary shall—
"(A) conduct outreach to and engage with relevant public and private entities;
"(B) identify and disseminate best practices for strengthening connections between the National Laboratories and public and private sector entities; and
"(C) develop a website to disseminate information on—
"(i) different partnering mechanisms for working with the National Laboratories;
"(ii) National Laboratory experts and research areas; and
"(iii) National Laboratory facilities and user facilities.

(4) METRICS.—The Secretary shall support the development of metrics, including conversion metrics, to determine the effectiveness of the pilot program in achieving the purposes in subsection (a) and the number and types of partnerships established between public and private sector entities and the National Laboratories compared to baseline data.

(5) COORDINATION.—In carrying out the activities authorized in this section, the Secretary shall coordinate with the Directors of (and dedicated technology transfer staff at) the National Laboratories, in particular for matchmaking services for individual projects, which should be led by the National Laboratories.

(6) DURATION.—Subject to the availability of appropriations, the pilot program established in this section shall operate for not less than 3 years and may be built off an existing program.
§ 16391a. Technology transfer reports and evaluation

(a) Annual report

As part of the updated technology transfer execution plan required each year under section 16391(b)(2) of this title, the Secretary of Energy (in this section referred to as the ‘‘Secretary’’) shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the progress and implementation of programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act.

(b) Evaluation

Not later than 3 years after December 27, 2020, and every 3 years thereafter the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the extent to which programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act are achieving success based on relevant short-term and long-term metrics.

(c) Report on technology transfer gaps

Not later than 3 years after December 27, 2020, the Secretary shall enter into an agreement with the National Academies of Science, Engineering, and Medicine to submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on programmatic gaps that exist to advance the commercial application of technologies developed at the National Laboratories (as defined in section 15801(3) of this title).

§ 16392. Technology Infrastructure Program

(a) Definitions

In this section:

(1) Program

The term ‘‘Program’’ means the Technology Infrastructure Program established under subsection (b).

(2) Technology cluster

The term ‘‘technology cluster’’ means a concentration of technology-related business concerns, institutions of higher education, or nonprofit institutions, that reinforce each other’s performance in the areas of technology development through formal or informal relationships.

(3) Technology-related business concern

The term ‘‘technology-related business concern’’ means a for-profit corporation, company, association, firm, partnership, or small business concern that—

(A) conducts scientific or engineering research;

(B) develops new technologies;

(C) manufactures products based on new technologies; or

(D) performs technological services.

(b) Establishment

The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(c) Purpose

The purpose of the Program shall be to improve the ability of National Laboratories and single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities; and

(2) improving the ability of National Laboratories and single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between—

(A) National Laboratories or single-purpose research facilities; and

(B) entities that can support departmental missions at the National Laboratories or single-purpose research facilities, such as—

(i) institutions of higher education;

(ii) technology-related business concerns;

(iii) nonprofit institutions; and

(iv) agencies of State, tribal, or local governments.

(d) Projects

The Secretary shall authorize the director of each National Laboratory or single-purpose research facility to implement the Program at the National Laboratory or facility through one or more projects that meet the requirements of subsections (e) and (f).

(e) Program requirements

(1) In general

Each project funded under this section shall meet the requirements of this subsection.
(2) Entities
Each project shall include at least one of each of the following entities:
   (A) A business.
   (B) An institution of higher education.
   (C) A nonprofit institution.
   (D) An agency of a State, local, or tribal government.
(3) Cost-sharing
   (A) In general
      The costs of carrying out projects under this section shall be shared in accordance with section 16352 of this title.
   (B) Sources
      The calculation of costs paid by the non-Federal sources for a project shall include cash, personnel, services, equipment, and other resources expended on the project after the commencement of the project.
   (C) Research and development expenses
      Independent research and development expenses of Government contractors that qualify for reimbursement under section 31.205-18(e) of title 48, Code of Federal Regulations, issued pursuant to section 1303(a)(1) of title 41, may be credited towards costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.
(4) Competitive selection
   A project under this section shall be competitively selected using procedures determined by the Secretary.
(5) Accounting
   Any participant that receives funds under this section may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.
(6) Duration
   No Federal funds shall be made available under this section for a construction project or for any project with a duration of more than 5 years.
(f) Selection criteria
   (1) Departmental missions
      The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to achieve technical success in meeting departmental missions.
   (2) Other criteria
      In selecting a project to receive Federal funds, the Secretary shall consider—
      (A) the potential of the project to promote the development of a commercially sustainable technology cluster following the period of investment by the Department, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility;
      (B) the potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility;
      (C) the extent to which the project involves a variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project;
      (D) the extent to which the project focuses on promoting the development of technology-related business concerns that are small businesses or involves such small businesses substantively in the project; and
      (E) such other criteria as the Secretary determines to be appropriate.
(g) Allocation
   In allocating funds for projects approved under this section, the Secretary shall provide—
   (1) the Federal share of the project costs; and
   (2) additional funds to the National Laboratory or single-purpose research facility managing the project to permit the National Laboratory or single-purpose research facility to carry out activities relating to the project, and to coordinate the activities with the project.
(h) Report to Congress
   Not later than July 1, 2008, the Secretary shall submit to Congress a report on whether the Program should be continued and, if so, how the program should be managed.
(i) Authorization of appropriations
   There are authorized to be appropriated to the Secretary for activities under this section $10,000,000 for each of fiscal years 2006 through 2008.

CODIFICATION

§ 16393. Small business advocacy and assistance
(a) Small business advocate
   The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to designate a small business advocate to—
   (1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns (as defined in section 637(a)(4) of title 15), in procurement, collaborative research, tech-
nology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility; (2) report to the Director of the National Laboratory or single-purpose research facility on the actual participation of small business concerns in procurement and collaborative research along with recommendations, if appropriate, on how to improve participation; (3) make available to small business concerns training, mentoring, and information on how to participate in procurement and collaborative research activities; (4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and (5) establish guidelines for the program under subsection (b) and report on the effectiveness of the program to the Director of the National Laboratory or single-purpose research facility.

(b) Establishment of small business assistance program

The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to establish a program to provide small business concerns with— (1) assistance directed at making the small business concerns more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facility; or (2) general technical assistance, the cost of which shall not exceed $10,000 per instance of assistance, to improve the products or services of the small business concern.

c) Use of funds

None of the funds expended under subsection (b) may be used for direct grants to small business concerns.

d) Authorization of appropriations

There is authorized to be appropriated to the Secretary for activities under this section $5,000,000 for each of fiscal years 2006 through 2008.

§ 16394. Outreach

The Secretary shall ensure that each program authorized by this Act or an amendment made by this Act includes an outreach component to provide information, as appropriate, to manufacturers, consumers, engineers, architects, builders, energy service companies, institutions of higher education, facility planners and managers, State and local governments, and other entities.

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§ 16395. Relationship to other laws

Except as otherwise provided in this Act or an amendment made by this Act, the Secretary shall carry out the research, development, demonstration, and commercial application programs, projects, and activities authorized by this Act or an amendment made by this Act in accordance with the applicable provisions of— (1) the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.); (2) the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.); (3) the Energy Policy Act of 1992 (42 U.S.C. 13201 et seq.); (4) the Stevenson-Wydler Technology Innovation Act of 1980 (35 U.S.C. 3701 et seq.); (5) chapter 18 of title 35 (commonly known as the “Bayh-Dole Act”); and (6) any other Act under which the Secretary is authorized to carry out the programs, projects, and activities.

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§ 16396. Prizes for achievement in grand challenges of science and technology

(a) Authority

The Secretary may carry out a program to award cash prizes in recognition of breakthrough achievements in research, development, demonstration, and commercial application that have the potential for application to the performance of the mission of the Department.

(b) Competition requirements

The program under subsection (a) may include prizes for the achievement of goals articulated
by the Secretary in a specific area through a widely advertised solicitation of submission of results for research, development, demonstration, or commercial application projects.

(c) Prizes for processes and technologies to reduce dependence on imported oil

The Secretary, in cooperation with the Freedom Prizes Foundation, shall support a program of awarding prizes, to be known as Freedom Prizes, to encourage and recognize the development and deployment of processes and technologies that serve to reduce the dependence of the United States on imported oil.

(d) Relationship to other authority

The program under subsection (a) may be carried out in conjunction with or in addition to the exercise of any other authority of the Secretary to acquire, support, or stimulate research, development, demonstration, or commercial application projects.

(e) Coordination

In carrying out subsection (a), and for any prize competitions under section 105 of the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Reauthorization Act of 2010, the Secretary shall—

(1) issue Department-wide guidance on the design, development, and implementation of prize competitions;

(2) collect and disseminate best practices on the design and administration of prize competitions;

(3) streamline contracting mechanisms for the implementation of prize competitions; and

(4) provide training and prize competition design support, as necessary, to Department staff to develop prize competitions and challenges.

(f) Authorization of appropriations

There are authorized to be appropriated—

(1) $10,000,000 to carry out the program under subsection (a); and

(2) $5,000,000 to carry out the program under subsection (c).

(g) H-prize

(1) Prize authority

(A) In general

As part of the program under this section, the Secretary shall carry out a program to competitively award cash prizes in conformity with this subsection to advance the research, development, demonstration, and commercial application of hydrogen energy technologies.

(B) Advertising and solicitation of competitors

(i) Advertising

The Secretary shall widely advertise prize competitions under this subsection to encourage broad participation, including by individuals, universities (including historically Black colleges and universities and other minority serving institutions), and large and small businesses (including businesses owned or controlled by socially and economically disadvantaged persons).

(ii) Announcement through Federal Register notice

The Secretary shall announce each prize competition under this subsection by publishing a notice in the Federal Register. This notice shall include essential elements of the competition such as the subject of the competition, the duration of the competition, the eligibility requirements for participation in the competition, the process for participants to register for the competition, the amount of the prize, and the criteria for awarding the prize.

(C) Administering the competitions

The Secretary shall enter into an agreement with a private, nonprofit entity to administer the prize competitions under this subsection, subject to the provisions of this subsection (in this subsection referred to as the “administering entity”). The duties of the administering entity under the agreement shall include—

(i) advertising prize competitions under this subsection and their results;

(ii) raising funds from private entities and individuals to pay for administrative costs and to contribute to cash prizes, including funds provided in exchange for the right to name a prize awarded under this subsection;

(iii) developing, in consultation with and subject to the final approval of the Secretary, the criteria for selecting winners in prize competitions under this subsection, based on goals provided by the Secretary;

(iv) determining, in consultation with the Secretary, the appropriate amount and funding sources for each prize to be awarded under this subsection, subject to the final approval of the Secretary with respect to Federal funding;

(v) providing advice and consultation to the Secretary on the selection of judges in accordance with paragraph (2)(D), using criteria developed in consultation with and subject to the final approval of the Secretary; and

(vi) protecting against the administering entity’s unauthorized use or disclosure of a registered participant’s trade secrets and confidential business information. Any information properly identified as trade secrets or confidential business information that is submitted by a participant as part of a competitive program under this subsection may be withheld from public disclosure.

(D) Funding sources

Prizes under this subsection shall consist of Federal appropriated funds and any funds provided by the administering entity (including funds raised pursuant to subparagraph (C)(ii)) for such cash prize programs. The Secretary may accept funds from other Federal agencies for such cash prizes and,
§ 16396 

(2) Prize categories

(E) Announcement of prizes

The Secretary may not issue a notice required by subparagraph (B)(ii) until all the funds needed to pay out the announced amount of the prize have been appropriated or committed in writing by the administering entity. The Secretary may increase the amount of a prize after an initial announcement is made under subparagraph (B)(ii) if—

(i) notice of the increase is provided in the same manner as the initial notice of the prize; and

(ii) the funds needed to pay out the announced amount of the increase have been appropriated or committed in writing by the administering entity.

(F) Sunset

The authority to announce prize competitions under this subsection shall terminate on September 30, 2018.

(2) Prize categories

(A) Categories

The Secretary shall establish prizes under this subsection for—

(i) advancements in technologies, components, or systems related to—

(I) hydrogen production;

(II) hydrogen storage;

(III) hydrogen distribution; and

(IV) hydrogen utilization;

(ii) prototypes of hydrogen-powered vehicles or other hydrogen-based products that best meet or exceed objective performance criteria, such as completion of a race over a certain distance or terrain or generation of energy at certain levels of efficiency; and

(iii) transformational changes in technologies for the distribution or production of hydrogen that meet or exceed far-reaching objective criteria, which shall include minimal carbon emissions and which may include cost criteria designed to facilitate the eventual market success of a winning technology.

(B) Awards

(i) Advancements

To the extent permitted under paragraph (1)(E), the prizes authorized under subparagraph (A)(i) shall be awarded biennially to the most significant advance made in each of the four subcategories described in subclauses (I) through (IV) of subparagraph (A)(i) since the submission deadline of the previous prize competition in the same category under subparagraph (A)(i) or December 19, 2007, whichever is later, unless no such advance is significant enough to merit an award. No one such prize may exceed $1,000,000. If less than $4,000,000 is available for a prize competition under subparagraph (A)(i), the Secretary may omit one or more subcategories, reduce the amount of the prizes, or not hold a prize competition.

(ii) Prototypes

To the extent permitted under paragraph (1)(E), prizes authorized under subparagraph (A)(i) shall be awarded biennially in alternate years from the prizes authorized under subparagraph (A)(i). The Secretary is authorized to award up to one prize in this category in each 2-year period. No such prize may exceed $4,000,000. If no registered participants meet the objective performance criteria established pursuant to subparagraph (C) for a competition under this clause, the Secretary shall not award a prize.

(iii) Transformational technologies

To the extent permitted under paragraph (1)(E), the Secretary shall announce one prize competition authorized under subparagraph (A)(iii) as soon after December 19, 2007, as is practicable. A prize offered under this clause shall be not less than $10,000,000, paid to the winner in a lump sum, and an additional amount paid to the winner as a match for each dollar of private funding raised by the winner for the hydrogen technology beginning on the date the winner was named. The match shall be provided for 3 years after the date the prize winner is named or until the full amount of the prize has been paid out, whichever occurs first. A prize winner may elect to have the match amount paid to another entity that is continuing the development of the winning technology. The Secretary shall announce the rules for receiving the match in the notice required by paragraph (1)(B)(ii). The Secretary shall award a prize under this clause only when a registered participant has met the objective criteria established for the prize pursuant to subparagraph (C) and announced pursuant to paragraph (1)(B)(ii). Not more than $10,000,000 in Federal funds may be used for the prize award under this clause. The administering entity shall seek to raise $40,000,000 toward the matching award under this clause.

(C) Criteria

In establishing the criteria required by this subsection, the Secretary—

(i) shall consult with the Department’s Hydrogen Technical and Fuel Cell Advisory Committee;

(ii) shall consult with other Federal agencies, including the National Science Foundation; and

(iii) may consult with other experts such as private organizations, including professional societies, industry associations, and the National Academy of Sciences and the National Academy of Engineering.
(D) Judges

For each prize competition under this subsection, the Secretary in consultation with the administering entity shall assemble a panel of qualified judges to select the winner or winners on the basis of the criteria established under subparagraph (C). Judges for each prize competition shall include individuals from outside the Department, including from the private sector. A judge, spouse, minor children, and members of the judge’s household may not—

(i) have personal or financial interests in, or be an employee, officer, director, or agent of, any entity that is a registered participant in the prize competition for which he or she will serve as a judge; or

(ii) have a familial or financial relationship with an individual who is a registered participant in the prize competition for which he or she will serve as a judge.

(3) Eligibility

To be eligible to win a prize under this subsection, an individual or entity—

(A) shall have complied with all the requirements in accordance with the Federal Register notice required under paragraph (1)(B)(ii);

(B) in the case of a private entity, shall be incorporated in and maintain a primary place of business in the United States, and in the case of an individual, whether participating singly or in a group, shall be a citizen of, or an alien lawfully admitted for permanent residence in, the United States; and

(C) shall not be a Federal entity, a Federal laboratory acting within the scope of its employment, or an employee of a national laboratory acting within the scope of his employment.

(4) Intellectual property

The Federal Government shall not, by virtue of offering or awarding a prize under this subsection, be entitled to any intellectual property rights derived as a consequence of, or direct relation to, the participation by a registered participant in a competition authorized by this subsection. This paragraph shall not be construed to prevent the Federal Government from negotiating a license for the use of intellectual property developed for a prize competition under this subsection.

(5) Liability

(A) Waiver of liability

The Secretary may require registered participants to waive claims against the Federal Government and the administering entity (except claims for willful misconduct) for any injury, death, damage, or loss of property, revenue, or profits arising from the registered participants’ participation in a competition under this subsection. The Secretary shall give notice of any waiver required under this subparagraph in the notice required by paragraph (1)(B)(ii). The Secretary may not require a registered participant to waive claims against the administering entity arising out of the unauthorized use or disclosure by the administering entity of the registered participant’s trade secrets or confidential business information.

(B) Liability insurance

(i) Requirements

Registered participants in a prize competition under this subsection shall be required to obtain liability insurance or demonstrate financial responsibility, in amounts determined by the Secretary, for claims by—

(I) a third party for death, bodily injury, or property damage or loss resulting from an activity carried out in connection with participation in a competition under this subsection; and

(II) the Federal Government for damage or loss to Government property resulting from such an activity.

(ii) Federal Government insured

The Federal Government shall be named as an additional insured under a registered participant’s insurance policy required under clause (i), and registered participants shall be required to agree to indemnify the Federal Government against third party claims for damages arising from or related to competition activities under this subsection.

(6) Report to Congress

Not later than 60 days after the awarding of the first prize under this subsection, and annually thereafter, the Secretary shall transmit to the Congress a report that—

(A) identifies each award recipient;

(B) describes the technologies developed by each award recipient; and

(C) specifies actions being taken toward commercial application of all technologies with respect to which a prize has been awarded under this subsection.

(7) Authorization of appropriations

(A) In general

(i) Awards

There are authorized to be appropriated to the Secretary for the period encompassing fiscal years 2008 through 2017 for carrying out this subsection—

(I) $20,000,000 for awards described in paragraph (2)(A)(i);

(II) $20,000,000 for awards described in paragraph (2)(A)(ii); and

(III) $10,000,000 for the award described in paragraph (2)(A)(iii).

(ii) Administration

In addition to the amounts authorized in clause (i), there are authorized to be appropriated to the Secretary for each of fiscal years 2008 and 2009 $2,000,000 for the administrative costs of carrying out this subsection.

(B) Carryover of funds

Funds appropriated for prize awards under this subsection shall remain available until expended, and may be transferred, reprogrammed, or expended for other purposes.
only after the expiration of 10 fiscal years after the fiscal year for which the funds were originally appropriated. No provision in this subsection permits obligation or payment of funds in violation of section 1341 of title 31 (commonly referred to as the Anti-Deficiency Act).

(8) Nonsubstitution

The programs created under this subsection shall not be considered a substitute for Federal research and development programs.

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1054 of Title 51, National and Commercial Space Programs.

Amendments

Subsecs. (f) to (h), Pub. L. 116–260, which directed redesignation of subsecs. (f) and (g) as (g) and (h), respectively, was executed by redesignating subsecs. (e) and (f) as (g) and (h), respectively, to reflect the probable intent of Congress.

Effective Date of 2007 Amendment

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

SUBCHAPTER XI—PERSONNEL AND TRAINING

§ 16411. Workforce trends and traineeship grants

(a) Definitions

In this section:

(1) Energy technology industry

The term ‘‘energy technology industry’’ includes—

(A) a renewable energy industry;

(B) a company that develops or commercializes a device to increase energy efficiency;

(C) the oil and gas industry;

(D) the nuclear power industry;

(E) the coal industry;

(F) the electric utility industry; and

(G) any other industrial sector, as the Secretary determines to be appropriate.

(2) Skilled technical personnel

The term ‘‘skilled technical personnel’’ means—

(A) journey- and apprentice-level workers who are enrolled in, or have completed, a federally-recognized or State-recognized apprenticeship program; and

(B) other skilled workers in energy technology industries, as determined by the Secretary.

(b) Workforce trends

(1) Monitoring

The Secretary, in consultation with, and using data collected by, the Secretary of Labor, shall monitor trends in the workforce of—

(A) skilled technical personnel that support energy technology industries; and

(B) electric power and transmission engineers.

(2) Report on trends

Not later than 1 year after August 8, 2005, the Secretary shall submit to Congress a report on current trends under paragraph (1), with recommendations (as appropriate) to meet the future labor requirements for the energy technology industries.

(3) Report on shortage

As soon as practicable after the date on which the Secretary identifies or predicts a significant national shortage of skilled technical personnel in one or more energy technology industries, the Secretary shall submit to Congress a report describing the shortage.

(c) Traineeship grants for skilled technical personnel

The Secretary, in consultation with the Secretary of Labor, may establish programs in the appropriate offices of the Department under which the Secretary provides grants to enhance training (including distance learning) for any workforce category for which a shortage is identified or predicted under subsection (b)(2).

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2006 through 2008.

§ 16412. Training guidelines for nonnuclear electric energy industry personnel

(a) In general

The Secretary of Labor, in consultation with the Secretary and in conjunction with the electric industry and recognized employee representatives, shall develop model personnel training guidelines to support the reliability and safety of the nonnuclear electric system.

(b) Requirements

The training guidelines under subsection (a) shall, at a minimum—

(1) include training requirements for workers engaged in the construction, operation, inspection, or maintenance of nonnuclear electric generation, transmission, or distribution systems, including requirements relating to—

(A) competency;

(B) certification; and

(C) assessment, including—

(i) initial and continuous evaluation of workers;

(ii) recertification procedures; and

(iii) methods for examining or testing the qualification of an individual who performs a covered task; and
(2) consolidate training guidelines in existence on the date on which the guidelines under subsection (a) are developed relating to the construction, operation, maintenance, and inspection of nonnuclear electric generation, transmission, and distribution facilities, such as guidelines established by the National Electric Safety Code and other industry consensus standards.

§16413. National Center for Energy Management and Building Technologies

The Secretary shall support the ongoing activities of and explore opportunities for expansion of the National Center for Energy Management and Building Technologies to carry out research, education, and training activities to facilitate the improvement of energy efficiency, indoor environmental quality, and security of industrial, commercial, residential, and public buildings.

§16414. National Power Plant Operations Technology and Educational Center

(a) Establishment

The Secretary shall support the establishment of a National Power Plant Operations Technology and Education Center (referred to in this section as the “Center”), to address the need for training and educating certified operators and technicians for the electric power industry.

(b) Location of Center

The Secretary shall support the establishment of the Center at an institution of higher education that has—

(1) expertise in providing degree programs in electric power generation, transmission, and distribution technologies;

(2) expertise in providing onsite and Internet-based training; and

(3) demonstrated responsiveness to workforce and training requirements in the electric power industry.

(c) Training and continuing education

(1) In general

The Center shall provide training and continuing education in electric power generation, transmission, and distribution technologies and operations.

(2) Location

The Center shall carry out training and education activities under paragraph (1)—

(A) at the Center; and

(B) through Internet-based information technologies that allow for learning at remote sites.

SUBCHAPTER XII—ELECTRICITY

PART A—Transmission Infrastructure Modernization

§16421. Third-party finance

(a) Existing facilities

The Secretary, acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred to as “WAPA”), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as “SWPA”), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities (“Project”) needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act [16 U.S.C. 824p(a)] and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act [16 U.S.C. 791a et seq.], if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.

(b) New facilities

The Secretary, acting through WAPA or SWPA, or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, a new electric power transmission facility and related facilities (“Project”) located within any State in which WAPA or SWPA operates if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in an area designated under section 216(a) of the Federal Power Act [16 U.S.C. 824p(a)] and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act [16 U.S.C. 791a et seq.], if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.
§ 16421a

TITLED—THE PUBLIC HEALTH AND WELFARE

Page 8358

(B) efficient and reliable operation of the transmission grid;
(3) will be operated in conformance with prudent utility practice;
(4) will be operated by, or in conformance with the rules of, the appropriate (A) Transmission Organization, if any, or (B) if such an organization does not exist, regional reliability organization; and
(5) will not duplicate the functions of existing transmission facilities or proposed facilities which are the subject of ongoing or approved siting and related permitting proceedings.

c) Other funds

(1) In general

In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) Availability

The contributed funds shall be available for expenditure for the purpose of carrying out the Project—
(A) without fiscal year limitation; and
(B) as if the funds had been appropriated specifically for that Project.

(3) Allocation of costs

In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

d) Relationship to other laws

Nothing in this section affects any requirement of—
(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);
(2) any Federal or State law relating to the siting of energy facilities; or
(3) any existing authorizing statutes.

e) Savings clause

Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) Secretarial determinations

Any determination made pursuant to subsections (a) or (b) shall be based on findings by the Secretary using the best available data.

g) Maximum funding amount

The Secretary shall not accept and use more than $100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2006 through 2015.

REFERENCES IN TEXT

The Federal Power Act, referred to in subsections (a)(2)(A) and (b)(2)(A), is act June 10, 1920, ch. 285, 41 Stat. 963, as amended, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

§ 16421a. Western Area Power Administration

borrowing authority

(a) Definitions

In this section:

(1) Administrator

The term “Administrator” means the Administrator of the Western Area Power Administration.

(2) Secretary

The term “Secretary” means the Secretary of the Treasury.

(b) Authority

(1) In general

Notwithstanding any other provision of law, subject to paragraphs (2) through (5)—
(A) the Western Area Power Administration may borrow funds from the Treasury; and
(B) the Secretary shall, without further appropriation and without fiscal year limitation, loan to the Western Area Power Administration, on such terms as may be fixed by the Administrator and the Secretary, such sums (not to exceed, in the aggregate (including deferred interest), $3,250,000,000 in outstanding repayable balances at any one time) as, in the judgment of the Administrator, are from time to time required for the purpose of—
(i) constructing, financing, facilitating, planning, operating, maintaining, or studying construction of new or upgraded electric power transmission lines and related facilities with at least one terminus within the area served by the Western Area Power Administration; and
(ii) delivering or facilitating the delivery of power generated by renewable energy resources constructed or reasonably expected to be constructed after February 17, 2009.

(2) Interest

The rate of interest to be charged in connection with any loan made pursuant to this subsection shall be fixed by the Secretary, taking into consideration market yields on outstanding marketable obligations of the United States of comparable maturities as of the date of the loan.

(3) Refinancing

The Western Area Power Administration may refinance loans taken pursuant to this section within the Treasury.
(4) Participation

The Administrator may permit other entities to participate in the financing, construction and ownership projects financed under this section.

(5) Congressional review of disbursement

Effective upon February 17, 2009, the Administrator shall have the authority to have utilized $1,750,000,000 at any one time. If the Administrator seeks to borrow funds above $1,750,000,000, the funds will be disbursed unless there is enacted, within 90 calendar days of the first such request, a joint resolution that rescinds the remainder of the balance of the borrowing authority provided in this section.

c) Transmission line and related facility projects

(1) In general

For repayment purposes, each transmission line and related facility project in which the Western Area Power Administration participates pursuant to this section shall be treated as separate and distinct from—

(A) each other such project; and
(B) all other Western Area Power Administration power and transmission facilities.

(2) Proceeds

The Western Area Power Administration shall apply the proceeds from the use of the transmission capacity from an individual project under this section to the repayment of the principal and interest of the loan from the Treasury attributable to that project, after reserving such funds as the Western Area Power Administration determines are necessary—

(A) to pay for any ancillary services that are provided; and
(B) to meet the costs of operating and maintaining the new project from which the revenues are derived.

(3) Source of revenue

Revenue from the use of projects under this section shall be the only source of revenue for—

(A) repayment of the associated loan for the project; and
(B) payment of expenses for ancillary services and operation and maintenance.

(4) Limitation on authority

Nothing in this section confers on the Administrator any additional authority or obligation to provide ancillary services to users of transmission facilities developed under this section.

(5) Treatment of certain revenues

Revenue from ancillary services provided by existing Federal power systems to users of transmission projects funded pursuant to this section shall be treated as revenue to the existing power system that provided the ancillary services.

d) Certification

(1) In general

For each project in which the Western Area Power Administration participates pursuant to this section, the Administrator shall certify, prior to committing funds for any such project, that—

(A) the project is in the public interest;
(B) the project will not adversely impact system reliability or operations, or other statutory obligations; and
(C) it is reasonable to expect that the proceeds from the project shall be adequate to make repayment of the loan.

(2) Forgiveness of balances

(A) In general

If, at the end of the useful life of a project, there is a remaining balance owed to the Treasury under this section, the balance shall be forgiven.

(B) Unconstructed projects

Funds expended to study projects that are considered pursuant to this section but that are not constructed shall be forgiven.

(C) Notification

The Administrator shall notify the Secretary of such amounts as are to be forgiven under this paragraph.

e) Public processes

(1) Policies and practices

Prior to requesting any loans under this section, the Administrator shall use a public process to develop practices and policies that implement the authority granted by this section.

(2) Requests for interest

In the course of selecting potential projects to be funded under this section, the Administrator shall seek Requests For Interest from entities interested in identifying potential projects through one or more notices published in the Federal Register.

§ 16422. Advanced transmission technologies

(a) Definition of advanced transmission technology

In this section, the term “advanced transmission technology” means a technology that increases the capacity, efficiency, or reliability of an existing or new transmission facility, including—

(1) high-temperature lines (including superconducting cables);
(2) underground cables;
(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);
(4) high-capacity ceramic electric wire, connectors, and insulators;
§ 16431. Federal utility participation in transmission organizations

(a) Definitions

In this section:

(1) **Appropriate Federal regulatory authority**

The term "appropriate Federal regulatory authority" means—

(A) in the case of a Federal power marketing agency, the Secretary, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of the Federal power marketing agency; and

(B) in the case of the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) **Federal power marketing agency**

The term "Federal power marketing agency" has the meaning given the term in section 796 of title 16.
(3) Federal utility
The term "Federal utility" means—
(A) a Federal power marketing agency; or
(B) the Tennessee Valley Authority.

(4) Transmission Organization
The term "Transmission Organization" has the meaning given in the term in section 796 of title 16.

(5) Transmission system
The term "transmission system" means an electric transmission facility owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) Transfer
The appropriate Federal regulatory authority may enter into a contract, agreement, or other arrangement transferring control and use of all or part of the transmission system of a Federal utility to a Transmission Organization.

c) Contents
The contract, agreement, or arrangement shall include—
(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines are necessary or appropriate, including standards that ensure—
(A) recovery of all of the costs and expenses of the Federal utility related to the transmission facilities that are the subject of the contract, agreement, or other arrangement;
(B) consistency with existing contracts and third-party financing arrangements; and
(C) consistency with the statutory authorities, obligations, and limitations of the Federal utility;
(2) provisions for monitoring and oversight by the Federal utility of the Transmission Organization’s terms and conditions of the contract, agreement, or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the Transmission Organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and
(3) a provision that allows the Federal utility to withdraw from the Transmission Organization and terminate the contract, agreement, or other arrangement in accordance with its terms.

d) Commission
Neither this section, actions taken pursuant to this section, nor any other transaction of a Federal utility participating in a Transmission Organization shall confer on the Commission jurisdiction or authority over—
(1) the electric generation assets, electric capacity, or energy of the Federal utility that the Federal utility is authorized by law to market; or
(2) the power sales activities of the Federal utility.

e) Existing statutory and other obligations
(1) System operation requirements
No statutory provision requiring or authorizing a Federal utility to transmit electric power or to construct, operate, or maintain the transmission system of the Federal utility prohibits a transfer of control and use of the transmission system pursuant to, and subject to, the requirements of this section.

(2) Other obligations
This subsection does not—
(A) suspend, or exempt any Federal utility from, any provision of Federal law in effect on August 8, 2005, including any requirement or direction relating to the use of the transmission system of the Federal utility, environmental protection, fish and wildlife protection, flood control, navigation, water delivery, or recreation; or
(B) authorize abrogation of any contract or treaty obligation.

CODIFICATION

§ 16432. Study on the benefits of economic dispatch

(a) Study
The Secretary, in coordination and consultation with the States, shall conduct a study on—
(1) the procedures currently used by electric utilities to perform economic dispatch;
(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and
(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each State if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition
The term “economic dispatch” when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

c) Report to Congress and the States
Not later than 90 days after August 8, 2005, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

PART C—TRANSMISSION RATE REFORM

§ 16441. Funding new interconnection and transmission upgrades
The Commission may approve a participant funding plan that allocates costs related to
transmission upgrades or new generator inter-connection, without regard to whether an appli-
cant is a member of a Commission-approved Transmission Organization, if the plan results in
rates that—
(1) are just and reasonable;
(2) are not unduly discriminatory or prefer-
tential; and
(3) are otherwise consistent with sections
824d and 824e of title 16.
(Pub. L. 109–58, title XII, § 1242, Aug. 8, 2005, 119
Stat. 962.)

§ 16451. Definitions
For purposes of this part:

(1) **Affiliate**
The term “affiliate” of a company means any company, 5 percent or more of the out-
standing voting securities of which are owned, controlled, or held with power to vote, di-
rectly or indirectly, by such company.

(2) **Associate company**
The term “associate company” of a company means any company in the same holding company system with such company.

(3) **Commission**
The term “Commission” means the Federal Energy Regulatory Commission.

(4) **Company**
The term “company” means a corporation, partnership, association, joint stock company, business trust, or any organized group of per-
sons, whether incorporated or not, or a re-
ceiver, trustee, or other liquidating agent of any of the foregoing.

(5) **Electric utility company**
The term “electric utility company” means any company that owns or operates facilities used for the generation, transmission, or dis-
tribution of electric energy for sale.

(6) **Exempt wholesale generator and foreign utility company**
The terms “exempt wholesale generator” and “foreign utility company” have the same meanings as in sections 79z–5a and 79z–5b of title 15, as those sections existed on the day before the effective date of this part.

(7) **Gas utility company**
The term “gas utility company” means any company that owns or operates facilities used for distribution at retail (other than the dist-
bution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or man-
ufactured gas for heat, light, or power.

(8) **Holding company**
(A) **In general**
The term “holding company” means—
(i) any company that directly or indi-
rectly owns, controls, or holds, with power to vote, 10 percent or more of the out-
standing voting securities of a public-utili-
ty company or of a holding company of any public-utility company; and
(ii) any person, determined by the Com-
mission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrange-
ment or understanding with one or more persons) such a controlling influence over the management or policies of any public-
utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be sub-
ject to the obligations, duties, and liabilities imposed by this part upon holding companies.

(B) **Exclusions**
The term “holding company” shall not in-
clude—
(i) a bank, savings association, or trust company, or their operating subsidiaries that own, control, or hold, with the power to vote, public utility or public utility holding company securities so long as the securities are—
(I) held as collateral for a loan;
(II) held in the ordinary course of busi-
ness as a fiduciary; or
(III) acquired solely for purposes of liq-
uidation and in connection with a loan previously contracted for and owned benefit-
entially for a period of not more than two years; or
(ii) a broker or dealer that owns, con-
trols, or holds with the power to vote pub-
lic utility or public utility holding company securities so long as the securities are—
(I) not beneficially owned by the broker or dealer and are subject to any voting instructions which may be given by customers or their assigns; or
(II) acquired within 12 months in the ordinary course of business as a broker, dealer, or underwriter with the bona fide intention of effecting distribution of the specific securities so acquired.

(9) **Holding company system**
The term “holding company system” means a holding company, together with its sub-
sidiary companies.

(10) **Jurisdictional rates**
The term “jurisdictional rates” means rates accepted or established by the Commission for the transmission of electric energy in inter-
state commerce, the sale of electric energy at wholesale in interstate commerce, the trans-
portation of natural gas in interstate com-
merce, and the sale in interstate commerce of natural gas for resale for ultimate public con-
sumption for domestic, commercial, indus-
trial, or any other use.

(11) **Natural gas company**
The term “natural gas company” means a person engaged in the transportation of nat-
ural gas in interstate commerce or the sale of such gas in interstate commerce for resale.
(12) Person
The term "person" means an individual or company.

(13) Public utility
The term "public utility" means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) Public-utility company
The term "public-utility company" means an electric utility company or a gas utility company.

(15) State commission
The term "State commission" means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) Subsidiary company
The term "subsidiary company" of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this part upon subsidiary companies of holding companies.

(17) Voting security
The term "voting security" means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

References in Text
This part, referred to in text, was in the original "this subtitle", meaning subtitle F (§§1261–1277) of title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacting provisions set out as a note under section 15801 of this title) shall take effect 6 months after the date of enactment of this subtitle [Aug. 8, 2005].

(b) Compliance with certain rules.—If the [Federal Energy Regulatory] Commission approves and makes effective any final rulemaking modifying the standards of conduct governing entities that own, operate, or control facilities for transmission of electricity in interstate commerce or transportation of natural gas in interstate commerce prior to the effective date of this subtitle, any action taken by a public-utility company or utility holding company to comply with the requirements of such rulemaking shall not subject such public-utility company or utility holding company to any regulatory requirement applicable to a holding company under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.)."

Short Title
For short title of subtitle F of title XII of Pub. L. 109–58, which enacted this part, as the “Public Utility Holding Company Act of 2005”, see section 1261 of Pub. L. 109–58, set out as a note under section 15801 of this title.

§16452. Federal access to books and records
(a) In general
Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) Affiliate companies
Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) Holding company systems
The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) Confidentiality
No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.
§ 16453. State access to books and records

(a) In general

Upon the written request of a State commission having jurisdiction to regulate a public-utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public-utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail in a proceeding before the State commission;

(2) the State commission determines are relevant to costs incurred by such public-utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) Limitation

Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of one or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) Confidentiality of information

The production of books, accounts, memorandum, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) Effect on State law

Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memorandum, and other records, or in any way limit the rights of any State to obtain books, accounts, memorandum, and other records under any other Federal law, contract, or otherwise.

(e) Court jurisdiction

Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

§ 16454. Exemption authority

(a) Rulemaking

Not later than 90 days after the effective date of this part, the Commission shall issue a final rule to exempt from the requirements of section 16452 of this title (relating to Federal access to books and records) any person that is a holding company, solely with respect to one or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) Other authority

The Commission shall exempt a person or transaction from the requirements of section 16452 of this title (relating to Federal access to books and records) if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

REFERENCES IN TEXT

For the effective date of this part, referred to in subsec. (a), see Effective Date note set out under section 16451 of this title.

§ 16455. Affiliate transactions

(a) Commission authority unaffected

Nothing in this part shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the issuance of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) Recovery of costs

Nothing in this part shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public-utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an associate company, or any costs of goods or services acquired by such public-utility company from an associate company.

L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 823q of Title 16, and enacted provisions set out as notes under sections 15801 and 16451 of this title. For complete classification of subtitle F to the Code, see Short Title note set out under section 15801 of this title and Tables.

The Federal Power Act, referred to in subsec. (a), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended,
which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

§ 16456. Applicability

Except as otherwise specifically provided in this part, no provision of this part shall apply to, or be deemed to include—
(1) the United States;
(2) a State or any political subdivision of a State;
(3) any foreign governmental authority not operating in the United States;
(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or
(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), (3), or (4) acting as such in the course of his or her official duty.

§ 16459. Savings provisions

(a) In general

Nothing in this part, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on August 8, 2005, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) Effect on other Commission authority

Nothing in this part limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) or the Natural Gas Act (15 U.S.C. 717 et seq.).

(c) Tax treatment

Tax treatment under section 1081 of title 26 as a result of transactions ordered in compliance with the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) shall not be affected in any manner due to the repeal of that Act and the enactment of the Public Utility Holding Company Act of 2005 (42 U.S.C. 16451 et seq.).

This part, referred to in text, was in the original "this subtitle", meaning subtitle F (§§1261–1277) of title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacted provisions set out as notes under sections 15801 and 16451 of this title. For complete classification of subtitle F to the Code, see Short Title note set out under section 15801 of this title and Tables.

§ 16462. Service allocation

(a) Definition of public utility

In this section, the term "public utility" has the meaning given the term in section 824(e) of Title 16.

(b) FERC review

In the case of non-power goods or administrative or management services provided by an associate company organized specifically for the purpose of providing such goods or services to any public utility in the same holding company system, at the election of the system or a State commission having jurisdiction over the public utility, the Commission, after the effective date of this part, shall review and authorize the allocation of the costs for such goods or services to the extent relevant to that associate company.

(c) Effect on Federal and State law

Nothing in this section shall affect the authority of the Commission or a State commission under other applicable law.

(d) Rules

Not later than 4 months after August 8, 2005, the Commission shall issue rules (which rules shall be effective no earlier than the effective date of this part) to exempt from the requirements of this section any company in a holding company system whose public utility operations are confined substantially to a single State and any other class of transactions that the Commission finds is not relevant to the jurisdictional rates of a public utility.

REFERENCES IN TEXT

For the effective date of this part, referred to in subsecs. (b) and (d), see Effective Date note set out under section 16451 of this title.

§ 16463. Authorization of appropriations

There are authorized to be appropriated such funds as may be necessary to carry out this part.

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle F (§§1261–1277) of title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacted provisions set out as notes under sections 15801 and 16451 of this title. PART E—MARKET TRANSPARENCY, ENFORCEMENT, AND CONSUMER PROTECTION

§ 16471. Consumer privacy and unfair trade practices

(a) Privacy

The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric energy to electric consumers.

(b) Slamming

The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) Cramming

The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) Rulemaking

The Federal Trade Commission shall proceed in accordance with section 553 of title 5 when prescribing a rule under this section.

(e) State authority

If the Federal Trade Commission determines that a State's regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.
(f) Definitions
For purposes of this section:

(1) State regulatory authority
The term “State regulatory authority” has the meaning given that term in section 796(21) of title 16.

(2) Electric consumer and electric utility
The terms “electric consumer” and “electric utility” have the meanings given those terms in section 2602 of title 16.

§ 16481. Commission defined
In this subchapter, the term “Commission” means the Federal Energy Regulatory Commission.

(f) Definitions
For purposes of this section:

(1) State regulatory authority
The term “State regulatory authority” has the meaning given that term in section 796(21) of title 16.

(2) Electric consumer and electric utility
The terms “electric consumer” and “electric utility” have the meanings given those terms in section 2602 of title 16.

Part F—Definitions

§ 16481. Commission defined
In this subchapter, the term “Commission” means the Federal Energy Regulatory Commission.

§ 16491. Energy production incentives
(a) In general
A State may provide to any entity—
(1) a credit against any tax or fee owed to the State under a State law, or
(2) any other tax incentive,
determined by the State to be appropriate, in the amount calculated under and in accordance with a formula determined by the State, for production described in subsection (b) in the State by a utility that has such credit or such incentive.

(b) Eligible entities
Subsection (a) shall apply with respect to the production in the State of electricity from coal mined in the State and used in a facility, if such production meets all applicable Federal and State laws and if such facility uses scrubbers or other forms of clean coal technology.

(c) Effect on interstate commerce
Any action taken by a State in accordance with this section with respect to a tax or fee payable, or incentive applicable, for any period beginning after August 8, 2005, shall—
(1) be considered to be a reasonable regulation of commerce; and
(2) not be considered to impose an undue burden on interstate commerce or to otherwise impair, restrain, or discriminate, against interstate commerce.

§ 16492. Regulation of certain oil used in transformers
Notwithstanding any other provision of law, or rule promulgated by the Environmental Protection Agency, vegetable oil made from soybeans and used in electric transformers as thermal insulation shall not be regulated as an oil identified under section 2720(a)(1)(B) of title 33.

§ 16493. National Priority Project Designation
(a) Designation of National Priority Projects
(1) In general
There is established the National Priority Project Designation (referred to in this section as the “Designation”), which shall be evidenced by a medal bearing the inscription “National Priority Project”.

(2) Design and materials
The medal shall be of such design and materials and bear such additional inscriptions as the President may prescribe.

(b) Making and presentation of Designation
(1) In general
The President, on the basis of recommendations made by the Secretary, shall annually designate organizations that have—
(A) advanced the field of renewable energy technology and contributed to North American energy independence; and
(B) been certified by the Secretary under subsection (e).

(2) Presentation
The President shall designate projects with such ceremonies as the President may prescribe.

(3) Use of Designation
An organization that receives a Designation under this section may publicize the Designation of the organization as a National Priority Project in advertising.

(4) Categories in which the Designation may be given
Separate Designations shall be made to qualifying projects in each of the following categories:
(A) Wind and biomass energy generation projects.
(B) Photovoltaic and fuel cell energy generation projects.
(C) Energy efficient building and renewable energy projects.
(D) First-in-Class projects.

(c) Selection criteria
(1) In general
Certification and selection of the projects to receive the Designation shall be based on criteria established under this subsection.
(2) Wind, biomass, and building projects
In the case of a wind, biomass, or building project, the project shall demonstrate that the project will install not less than 30 megawatts of renewable energy generation capacity.

(3) Solar photovoltaic and fuel cell projects
In the case of a solar photovoltaic or fuel cell project, the project shall demonstrate that the project will install not less than 3 megawatts of renewable energy generation capacity.

(4) Energy efficient building and renewable energy projects
In the case of an energy efficient building or renewable energy project, in addition to meeting the criteria established under paragraph (2), each building project shall demonstrate that the project will—
(A) comply with third-party certification standards for high-performance, sustainable buildings;
(B) use whole-building integration of energy efficiency and environmental performance design and technology, including advanced building controls;
(C) use renewable energy for at least 50 percent of the energy consumption of the project;
(D) comply with applicable Energy Star standards; and
(E) include at least 5,000,000 square feet of enclosed space.

(5) First-in-Class use
Notwithstanding paragraphs (2) through (4), a new building project may qualify under this section if the Secretary determines that the project—
(A) represents a First-In-Class use of renewable energy; or
(B) otherwise establishes a new paradigm of building integrated renewable energy use or energy efficiency.

(d) Application
(1) Initial applications
No later than 120 days after August 8, 2005, and annually thereafter, the Secretary shall publish in the Federal Register an invitation and guidelines for submitting applications, consistent with this section.

(2) Contents
The application shall describe the project, or planned project, and the plans to meet the criteria established under subsection (c).

(e) Certification
(1) In general
Not later than 60 days after the application period described in subsection (d), and annually thereafter, the Secretary shall certify projects that are reasonably expected to meet the criteria established under subsection (c).

(2) Certified projects
The Secretary shall designate personnel of the Department to work with persons carrying out each certified project and ensure that the personnel—
(A) provide each certified project with guidance in meeting the criteria established under subsection (c);
(B) identify programs of the Department, including National Laboratories and Technology Centers, that will assist each project in meeting the criteria established under subsection (c); and
(C) ensure that knowledge and transfer of the most current technology between the applicable resources of the Federal Government (including the National Laboratories and Technology Centers, the Department, and the Environmental Protection Agency) and the certified projects is being facilitated to accelerate commercialization of work developed through those resources.

(f) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2006 through 2010.

§ 16494. Oxygen-fuel
(a) Program
The Secretary shall establish a program on oxygen-fuel systems. If feasible, the program shall include renovation of at least one existing large unit and one existing small unit, and construction of one new large unit and one new small unit.

(b) Authorization of appropriations
There are authorized to be appropriated to the Secretary for carrying out this section—
(1) $100,000,000 for fiscal year 2006;
(2) $100,000,000 for fiscal year 2007; and
(3) $100,000,000 for fiscal year 2008.

(c) Definitions
For purposes of this section—
(1) the term “large unit” means a unit with a generating capacity of 100 megawatts or more;
(2) the term “oxygen-fuel systems” means systems that utilize fuel efficiency benefits of oil, gas, coal, and biomass combustion using substantially pure oxygen, with high flame temperatures and the exclusion of air from the boiler, in industrial or electric utility steam generating units; and
(3) the term “small unit” means a unit with a generating capacity in the 10–50 megawatt range.

SUBCHAPTER XIV—ETHANOL AND MOTOR FUELS
§ 16501. Commercial byproducts from municipal solid waste and cellulosic biomass loan guarantee program
(a) Definition of municipal solid waste
In this section, the term “municipal solid waste” has the meaning given the term “solid waste” in section 6903 of this title.
(b) Establishment of program
The Secretary shall establish a program to provide guarantees of loans by private institu-
tions for the construction of facilities for the processing and conversion of municipal solid waste and cellulosic biomass into fuel ethanol and other commercial byproducts.

(c) Requirements

The Secretary may provide a loan guarantee under subsection (b) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (b);

(2) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(d) Criteria

In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility because of—

(A) the limited availability of land for waste disposal;

(B) the availability of sufficient quantities of cellulosic biomass; or

(C) a high level of demand for fuel ethanol or other commercial byproducts of the facility.

(e) Maturity

A loan guaranteed under subsection (b) shall have a maturity of not more than 20 years.

(f) Terms and conditions

The loan agreement for a loan guaranteed under subsection (b) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(g) Assurance of repayment

The Secretary shall require that an applicant for a loan guarantee under subsection (b) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(h) Guarantee fee

The recipient of a loan guarantee under subsection (b) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(i) Full faith and credit

The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(j) Reports

Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(k) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(l) Termination of authority

The authority of the Secretary to issue a loan guarantee under subsection (b) terminates on the date that is 10 years after August 8, 2005.

§ 16502. Advanced Biofuel Technologies Program

(a) In general

Subject to the availability of appropriations under subsection (d), the Administrator of the Environmental Protection Agency shall, in consultation with the Secretary of Agriculture and the Biomass Research and Development Technical Advisory Committee established under section 8605 of title 7, establish a program, to be known as the "Advanced Biofuel Technologies Program", to demonstrate advanced technologies for the production of alternative transportation fuels.

(b) Priority

In carrying out the program under subsection (a), the Administrator shall give priority to projects that enhance the geographical diversity of alternative fuels production and utilize feedstocks that represent 10 percent or less of ethanol or biodiesel fuel production in the United States during the previous fiscal year.

(c) Demonstration projects

(1) In general

As part of the program under subsection (a), the Administrator shall fund demonstration projects—

(A) to develop not less than 4 different conversion technologies for producing cellulosic biomass ethanol; and

(B) to develop not less than 5 technologies for coproducing value-added bioproducts (such as fertilizers, herbicides, and pesticides) resulting from the production of biodiesel fuel.

(2) Administration

Demonstration projects under this subsection shall be—

(A) conducted based on a merit-reviewed, competitive process; and

(B) subject to the cost-sharing requirements of section 16352 of this title.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section $110,000,000 for each of fiscal years 2005 through 2009.

1 See References in Text note below.
§ 16503. Sugar ethanol loan guarantee program

(a) In general

Funds may be provided for the cost (as defined in section 661a of title 2) of loan guarantees issued under title XIV to carry out commercial demonstration projects for ethanol derived from sugarcane, bagasse, and other sugarcane byproducts.

(b) Demonstration projects

The Secretary may issue loan guarantees under this section to projects to demonstrate commercially the feasibility and viability of producing ethanol using sugarcane, sugarcane bagasse, and other sugarcane byproducts as a feedstock.

(c) Requirements

An applicant for a loan guarantee under this section may provide assurances, satisfactory to the Secretary, that—

1. the project design has been validated through the operation of a continuous process facility;
2. the project has been subject to a full technical review;
3. the project, with the loan guarantee, is economically viable; and
4. there is a reasonable assurance of repayment of the guaranteed loan.

(d) Limitations

(1) Maximum guarantee

Except as provided in paragraph (2), a loan guarantee under this section—

(A) may be issued for up to 80 percent of the estimated cost of a project; but
(B) shall not exceed $50,000,000 for any 1 project.

(2) Additional guarantees

(A) In general

The Secretary may issue additional loan guarantees for a project to cover—

(i) up to 80 percent of the excess of actual project costs; but
(ii) not to exceed 15 percent of the amount of the original loan guarantee.

(B) Principal and interest

Subject to subparagraph (A), the Secretary shall guarantee 100 percent of the principal and interest of a loan guarantee made under subparagraph (A).

(2) Insufficient appropriations

Except as provided in paragraph (2), the cost of a guarantee shall be paid by the Secretary using an appropriation made for the cost of the guarantee, subject to the availability of such an appropriation.

(3) Specific appropriation or contribution

(1) In general

Except as provided in paragraph (2), the cost of a guarantee shall be paid by the Secretary using an appropriation made for the cost of the guarantee, subject to the availability of such an appropriation.
(f) Term

The term of an obligation shall require full repayment over a period not to exceed the lesser of—

(1) 30 years; or
(2) 90 percent of the projected useful life of the physical asset to be financed by the obligation (as determined by the Secretary).

(g) Defaults

(1) Payment by Secretary

(A) In general

If a borrower defaults on the obligation (as defined in regulations promulgated by the Secretary and specified in the guarantee contract), the holder of the guarantee shall have the right to demand payment of the unpaid amount from the Secretary.

(B) Payment required

Within such period as may be specified in the guarantee or related agreements, the Secretary shall pay to the holder of the guarantee the unpaid interest on, and unpaid principal of the obligation as to which the borrower has defaulted, unless the Secretary finds that there was no default by the borrower in the payment of interest or principal or that the default has been remedied.

(C) Forbearance

Nothing in this subsection precludes any forbearance by the holder of the obligation for the benefit of the borrower which may be agreed upon by the parties to the obligation and approved by the Secretary.

(2) Subrogation

(A) In general

If the Secretary makes a payment under paragraph (1), the Secretary shall be subrogated to the rights of the recipient of the payment as specified in the guarantee or related agreements including, where appropriate, the authority (notwithstanding any other provision of law) to—

(i) complete, maintain, operate, lease, or otherwise dispose of any property acquired pursuant to such guarantee or related agreements; or
(ii) permit the borrower, pursuant to an agreement with the Secretary, to continue to pursue the purposes of the project if the Secretary determines this to be in the public interest.

(B) Superiority of rights

The rights of the Secretary, with respect to any property acquired pursuant to a guarantee or related agreements, shall be superior to the rights of any other person with respect to the property.

(C) Terms and conditions

A guarantee agreement shall include such detailed terms and conditions as the Secretary determines appropriate to—

(i) protect the interests of the United States in the case of default; and
(ii) have available all the patents and technology necessary for any person selected, including the Secretary, to complete and operate the project.

(3) Payment of principal and interest by Secretary

With respect to any obligation guaranteed under this section, the Secretary may enter into a contract to pay, and pay, holders of the obligation, for and on behalf of the borrower, from funds appropriated for that purpose, the principal and interest payments which become due and payable on the unpaid balance of the obligation if the Secretary finds that—

(A) (i) the borrower is unable to meet the payments and is not in default; (ii) it is in the public interest to permit the borrower to continue to pursue the purposes of the project; and (iii) the probable net benefit to the Federal Government in paying the principal and interest will be greater than that which would result in the event of a default; and
(B) the amount of the payment that the Secretary is authorized to pay shall be no greater than the amount of principal and interest that the borrower is obligated to pay under the agreement being guaranteed; and
(C) the borrower agrees to reimburse the Secretary for the payment (including interest) on terms and conditions that are satisfactory to the Secretary.
(4) Action by Attorney General
   (A) Notification
   If the borrower defaults on an obligation, the Secretary shall notify the Attorney General of the default.
   (B) Recovery
   On notification, the Attorney General shall take such action as is appropriate to recover the unpaid principal and interest due from—
   (i) such assets of the defaulting borrower as are associated with the obligation; or
   (ii) any other security pledged to secure the obligation.
(h) Fees
   (1) In general
      The Secretary shall charge, and collect on or after the date of the financial close of an obligation, a fee for a guarantee in an amount that the Secretary determines is sufficient to cover applicable administrative expenses (including any costs associated with third-party consultants engaged by the Secretary).
   (2) Availability
      Fees collected under this subsection shall—
      (A) be deposited by the Secretary into the Treasury; and
      (B) remain available until expended, subject to such other conditions as are contained in annual appropriations Acts.
   (3) Reduction in fee amount
      Notwithstanding paragraph (1) and subject to the availability of appropriations, the Secretary may reduce the amount of a fee for a guarantee under this subsection.
(i) Records; audits
   (1) In general
      A recipient of a guarantee shall keep such records and other pertinent documents as the Secretary shall prescribe by regulation, including such records as the Secretary may require to facilitate an effective audit.
   (2) Access
      The Secretary and the Comptroller General of the United States, or their duly authorized representatives, shall have access, for the purpose of audit, to the records and other pertinent documents.
(j) Full faith and credit
      The full faith and credit of the United States is pledged to the payment of all guarantees issued under this section with respect to principal and interest.
(k) Wage rate requirements
      All laborers and mechanics employed by contractors and subcontractors in the performance of construction work financed in whole or in part by a loan guaranteed under this subchapter shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40. With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40.
(l) Restructuring of loan guarantees
      The Secretary shall consult with the Secretary of the Treasury regarding any restructuring of the terms or conditions of a guarantee issued pursuant to this subchapter, including with respect to any deviations from the financial terms of the guarantee.
(m) Written analysis
   (1) Requirement
      The Secretary may not make a guarantee under this subchapter until the Secretary of the Treasury has transmitted to the Secretary, and the Secretary has taken into consideration, a written analysis of the financial terms and conditions of the proposed guarantee.
   (2) Transmission
      Not later than 30 days after receiving information on a proposed guarantee from the Secretary, the Secretary of the Treasury shall transmit the written analysis of the financial terms and conditions of the proposed guarantee required under paragraph (1) to the Secretary.
   (3) Explanation
      If the Secretary makes a guarantee the financial terms and conditions of which are not consistent with the written analysis required under this subsection, not later than 30 days after making such guarantee, the Secretary shall submit to the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, a written explanation of any material inconsistencies.
(n) Application status
   (1) Request
      If the Secretary does not make a final decision on an application for a guarantee under this subchapter by the date that is 180 days after receipt of the application by the Secretary, the applicant may request, on or after that date and not more than once every 60 days thereafter until a final decision is made, that the Secretary provide to the applicant a response described in paragraph (2).
   (2) Response
      Not later than 10 days after receiving a request from an applicant under paragraph (1), the Secretary shall provide to the applicant a response that includes—
      (A) a description of the current status of review of the application;
      (B) a summary of any factors that are delaying a final decision on the application, a list of what items are required in order to reach a final decision, citations to authorities stating the reasons why such items are required, and a list of actions the applicant can take to expedite the process; and
amendments division C to the Code, see Short Title note set out under section 720 of Title 15 and Tables.

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (k), is set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS
2020—Subsec. (b). Pub. L. 116–260, § 9010(a)(1), amended subsec. (b) generally. Prior to amendment, text read as follows: "No guarantee shall be made unless—" (A) an appropriation for the cost of the guarantee has been made; and "(B) the Secretary has received from the borrower a payment in full for the cost of the guarantee and deposited the payment into the Treasury; or "(C) a combination of one or more appropriations under subparagraph (A) and one or more payments from the borrower under subparagraph (B) has been made that is sufficient to cover the cost of the guarantee."

Subsec. (d)(3). Pub. L. 116–260, § 9010(a)(2), substituted "including any reorganization, restructuring, or termination thereof, shall not at any time be subordinate" for "is not subordinate".

Subsec. (h)(1). Pub. L. 116–260, § 9010(a)(3)(A), amended par. (1) generally. Prior to amendment, text read as follows: "The Secretary shall charge and collect fees for guarantees in amounts the Secretary determines are sufficient to cover applicable administrative expenses."

2011—Subsec. (b). Pub. L. 112–74 added subsec. (b) and struck out former subsec. (b). Prior to amendment, text read as follows: "No guarantee shall be made unless—" (1) an appropriation for the cost has been made; or (2) the Secretary has received from the borrower a payment in full for the cost of the obligation and deposited the payment into the Treasury."

§ 16513. Eligible projects
(a) In general
The Secretary may make guarantees under this section only for projects that—
(1) avoid, reduce, utilize, or sequester air pollutants or anthropogenic emissions of greenhouse gases; and
(2) employ new or significantly improved technologies as compared to commercial technologies in service in the United States at the time the guarantee is issued, including projects that employ elements of commercial technologies in combination with new or significantly improved technologies.

(b) Categories
Projects from the following categories shall be eligible for a guarantee under this section:
(1) Renewable energy systems.
(2) Advanced fossil energy technology (including coal gasification meeting the criteria in subsection (d)).
(3) Hydrogen fuel cell technology for residential, industrial, or transportation applications.
(4) Advanced nuclear energy facilities, including manufacturing of nuclear supply components for advanced nuclear reactors.
(5) Carbon capture, utilization, and sequestration practices and technologies, including— (A) agricultural and forestry practices that store and sequester carbon; and (B) synthetic technologies to remove carbon from the air and oceans.
(6) Efficient electrical generation, transmission, and distribution technologies.

(7) Efficient end-use energy technologies.

(8) Production facilities for the manufacture of fuel efficient vehicles or parts of those vehicles, including electric drive vehicles and advanced diesel vehicles.

(9) Pollution control equipment.

(10) Refineries, meaning facilities at which crude oil is refined into gasoline.

(11) Energy storage technologies for residential, industrial, transportation, and power generation applications.

(12) Technologies or processes for reducing greenhouse gas emissions from industrial applications, including iron, steel, cement, and ammonia production, hydrogen production, and the generation of high-temperature heat.

(c) Gasification projects

The Secretary may make guarantees for the following gasification projects:

(1) Integrated gasification combined cycle projects

Integrating gasification combined cycle plants meeting the emission levels under subsection (d), including—

(A) projects for the generation of electricity—

(i) for which, during the term of the guarantee—

(I) coal, biomass, petroleum coke, or a combination of coal, biomass, and petroleum coke will account for at least 65 percent of annual heat input; and

(II) electricity will account for at least 65 percent of net useful annual energy output;

(ii) that have a design that is determined by the Secretary to be capable of accommodating the equipment likely to be necessary to capture the carbon dioxide that would otherwise be emitted in flue gas from the plant;

(iii) that have an assured revenue stream that covers project capital and operating costs (including servicing all debt obligations covered by the guarantee) that is approved by the Secretary and the relevant State public utility commission; and

(iv) on which construction commences no later than the date that is 3 years after the date of the issuance of the guarantee;

(B) a project to produce energy from coal (of not more than 13,000 Btu/lb and mined in the western United States) using appropriate advanced integrated gasification combined cycle technology that minimizes and offers the potential to sequester carbon dioxide emissions and that—

(i) may include repowering of existing facilities;

(ii) may be built in stages;

(iii) shall have a combined output of at least 100 megawatts;

(iv) shall be located in a western State at an altitude greater than 4,000 feet; and

(v) shall demonstrate the ability to use coal with an energy content of not more than 9,000 Btu/lb;

(C) a project located in a taconite-producing region of the United States that is entitled under the law of the State in which the plant is located to enter into a long-term contract approved by a State public utility commission to sell at least 450 megawatts of output to a utility;

(D) facilities that—

(i) generate one or more hydrogen-rich and carbon monoxide-rich product streams from the gasification of coal or coal waste; and

(ii) use those streams to facilitate the production of ultra clean premium fuels through the Fischer-Tropsch process; and

(E) a project to produce energy and clean fuels, using appropriate coal liquefaction technology, from Western bituminous or subbituminous coal, that—

(i) is owned by a State government; and

(ii) may include tribal and private coal resources.

(2) Industrial gasification projects

Facilities that gasify coal, biomass, or petroleum coke in any combination to produce synthesis gas for use as a fuel or feedstock and for which electricity accounts for less than 65 percent of the useful energy output of the facility.

(3) Petroleum coke gasification projects

The Secretary is encouraged to make loan guarantees under this subchapter available for petroleum coke gasification projects.

(4) Liquefaction project

Notwithstanding any other provision of law, funds awarded under the Department of Energy's Clean Coal Power Initiative for Fischer-Tropsch coal-to-oil liquefaction projects may be used to finance the cost of loan guarantees for projects awarded such funds.

(d) Emission levels

In addition to any other applicable Federal or State emission limitation requirements, a project shall attain at least—

(1) total sulfur dioxide emissions in flue gas from the project that do not exceed 0.05 lb/MMBtu;

(2) a 90-percent removal rate (including any fuel pretreatment) of mercury from the coal-derived gas, and any other fuel, combusted by the project;

(3) total nitrogen oxide emissions in the flue gas from the project that do not exceed 0.08 lb/MMBtu; and

(4) total particulate emissions in the flue gas from the project that do not exceed 0.01 lb/MMBtu.

(e) Qualification of facilities receiving tax credits

A project that receives tax credits for clean coal technology shall not be disqualified from receiving a guarantee under this subchapter.

(f) Regional variation

Notwithstanding subsection (a)(2), the Secretary may, if regional variation significantly affects the deployment of a technology, make guarantees under this subchapter for up to 6 projects that employ the same or similar tech-
nology as another project, provided no more than 2 projects that use the same or a similar technology are located in the same region of the United States.

AMENDMENTS

Subsec. (a)(2). Pub. L. 116–260, §9010(b)(1)(B), inserted ‘‘, including projects that employ elements of commercial technologies in combination with new or significantly improved technologies’’ before period at end.

Subsec. (b)(5). Pub. L. 116–260, §9010(b)(2)(B), amended par. (5) generally. Prior to amendment, par. (5) read as follows: ‘‘Carbon capture and sequestration practices and technologies, including agricultural and forestry practices that store and sequester carbon.’’

2007—Subsec. (b)(8). Pub. L. 110–140 added par. (8) and struck out former par. (8) which read as follows: ‘‘Production facilities for fuel efficient vehicles, including hybrid and advanced diesel vehicles.’’

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 18, 2007, see section 1661 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16514. Authorization of appropriations

(a) In general

There are authorized to be appropriated such sums as are necessary to provide the cost of guarantees under this subchapter.

(b) Use of other appropriated funds

The Department may use amounts awarded under the Clean Coal Power Initiative to carry out the project described in section 16513(c)(1)(C) of this title, on the request of the recipient of such award, for a loan guarantee, to the extent that the amounts have not yet been disbursed to, or have been repaid by, the recipient.

(c) Administrative and other expenses

There are authorized to be appropriated—

(1) $32,000,000 for each of fiscal years 2021 through 2025 to carry out this subchapter; and

(2) for fiscal year 2021, in addition to amounts authorized under paragraph (1), $25,000,000, to remain available until expended, for administrative expenses described in section 16512(h)(4) of this title that are not covered by fees collected pursuant to section 16512(h) of this title.

AMENDMENTS

§16515. Limitation on commitments to guarantee loans

(a) Notwithstanding section 101, subject to the Federal Credit Reform Act of 1990, as amended [2 U.S.C. 661 et seq.], commitments to guarantee loans under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.] shall not exceed a total principal amount, any part of which is to be guaranteed, of $4,000,000,000: Provided, That there are appropriated for the cost of the guaranteed loans such sums as are hereafter derived from amounts received from borrowers pursuant to section 16512(b)(2) of this title, to remain available until expended: Provided further, That the source of payments received from borrowers for the subsidy cost shall not be a loan or other debt obligation that is made or guaranteed by the Federal government. In addition, fees collected pursuant to section 16512(b) of this title in fiscal year 2007 shall be credited as off-setting collections to the Departmental Administration account for administrative expenses of the Loan Guarantee Program: Provided further, That the sum appropriated for administrative expenses for the Loan Guarantee Program shall be reduced by the amount of fees received during fiscal year 2007: Provided further, That any fees collected under section 16512(h) of this title in excess of the amount appropriated for administrative expenses shall not be available until appropriated.

(b) No loan guarantees may be awarded under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.] until final regulations are issued that include—

(1) programmatic, technical, and financial factors the Secretary will use to select projects for loan guarantees;

(2) policies and procedures for selecting and monitoring lenders and loan performance; and

(3) any other policies, procedures, or information necessary to implement title XVII of the Energy Policy Act of 2005.

(c) The Secretary of Energy shall enter into an arrangement with an independent auditor for annual evaluations of the program under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.]. In addition to the independent audit, the Comptroller General shall conduct a review every three years of the Department’s execution of the program under title XVII of the Energy Policy Act of 2005. The results of the independent audit and the Comptroller General’s review shall be provided directly to the Committees on Appropriations of the House of Representatives and the Senate.

1 See References in Text note below.

2 So in original. Probably should be capitalized.
(e) Not later than 120 days after February 15, 2007, and annually thereafter, the Secretary of Energy shall transmit to the Committees on Appropriations of the House of Representatives and the Senate a report containing a summary of all activities undertaken under title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 et seq.), beginning in fiscal year 2007, with a listing of responses to loan guarantee solicitations under such title, describing the technologies, amount of loan guarantee sought, and the applicants’ assessment of risk.

REFERENCES IN TEXT
Section 101, referred to in subsec. (a), is section 101 of title I of div. B of Pub. L. 109–289, as added by Pub. L. 110–5, § 2, Feb. 15, 2007, 121 Stat. 8. Subsec. (b) of section 101 is classified as a note under section 12651i of this title. Subsec. (c) of section 101 is not classified to the Code.

AMENDMENTS
2014—Subsec. (c). Pub. L. 113–76 substituted “a review every three years” for “an annual review”.

§ 16516. Omitted

CODIFICATION
Section was enacted as part of the Continuing Appropriations Resolution, 2007, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

§ 16522. Low-volume gas reservoir study

(a) Study

The Secretary shall make a grant to an organization of oil and gas producing States, specifically those containing significant numbers of marginal oil and natural gas wells, for conducting an annual study of low-volume natural gas reservoirs. Such organization shall work with the State geologist of each State being studied.

(b) Contents

The studies under this section shall—

(1) determine the status and location of marginal wells and gas reservoirs;

(2) gather the production information of these marginal wells and reservoirs;

(3) estimate the remaining producible reserves based on variable pipeline pressures;

(4) locate low-pressure gathering facilities and pipelines;

(5) recommend incentives which will enable the continued production of these resources;

(6) produce maps and literature to disseminate to States to promote conservation of natural gas reserves; and

(7) evaluate the amount of natural gas that is being wasted through the practice of venting or flaring of natural gas produced in association with crude oil well production.

(c) Data analysis

Data development and analysis under this section shall be performed by an institution of higher education with GIS capabilities. If the organization receiving the grant under subsection (a) does not have GIS capabilities, such organization shall contract with one or more entities with—

(1) technological capabilities and resources to perform advanced image processing, GIS programming, and data analysis; and

(2) the ability to—

(A) process remotely sensed imagery with high spatial resolution;

(B) deploy global positioning systems;

(C) process and synthesize existing, variable-format gas well, pipeline, gathering facility, and reservoir data;

(D) create and query GIS databases with infrastructure location and attribute information;

(E) write computer programs to customize relevant GIS software; and

(F) generate maps, charts, and graphs which summarize findings from data re-
search for presentation to different audiences; and

(G) deliver data in a variety of formats, including Internet Map Server for query and display, desktop computer display, and access through handheld personal digital assistants.

(d) Authorization of appropriations
There are authorized to be appropriated to the Secretary for carrying out this section—
(1) $1,500,000 for fiscal year 2006; and
(2) $450,000 for each of the fiscal years 2007 through 2010.

(e) Definitions
For purposes of this section, the term “GIS” means geographic information systems technology that facilitates the organization and management of data with a geographic component.

§ 16523. Alaska natural gas pipeline
Not later than 180 days after August 8, 2005, and every 180 days thereafter until the Alaska natural gas pipeline commences operation, the Federal Energy Regulatory Commission shall submit to Congress a report describing—
(1) the progress made in licensing and constructing the pipeline; and
(2) any issue impeding that progress.

§ 16524. Study on the benefits of economic dispatch
(a) Study
The Secretary, in coordination and consultation with the States, shall conduct a study on—
(1) the procedures currently used by electric utilities to perform economic dispatch;
(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and
(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition
The term “economic dispatch” when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) Report to Congress and the States
Not later than 90 days after August 8, 2005, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

§ 16531. Definitions
In this subchapter:

(1) Department
The term “Department” means the Department of Energy.

(2) Institution of higher education
The term “institution of higher education” has the meaning given the term in section 1001(a) of title 20.

(3) National Laboratory
The term “National Laboratory” has the meaning given the term in section 15801 of this title.

(4) Secretary
The term “Secretary” means the Secretary of Energy.

REFERENCES IN TEXT
This subchapter, referred to in introductory provisions, was in the original “this title”, meaning title V of Pub. L. 110–69, Aug. 9, 2007, 121 Stat. 600, known as the Protecting America’s Competitive Edge Through Energy Act and also as the PACE–Energy Act, which is classified principally to this subchapter. For complete classification of this title to the Code, see Short Title of 2007 Amendment note set out under section 15801 of this title and Tables.

§ 16532. Nuclear science talent expansion program for institutions of higher education
(a) Purposes
The purposes of this section are—
(1) to address the decline in the number of and resources available to nuclear science programs at institutions of higher education; and
(2) to increase the number of graduates with degrees in nuclear science, an area of strategic importance to the economic competitiveness and energy security of the United States.
(b) Definition of nuclear science
In this section, the term “nuclear science” includes—
(1) nuclear science;
(2) nuclear engineering;
(3) nuclear chemistry;
(4) radio chemistry; and
(5) health physics.

(c) Establishment
The Secretary shall establish, in accordance with this section, a program to expand and enhance institution of higher education nuclear science educational capabilities.

(d) Nuclear science program expansion grants for institutions of higher education

(1) In general
The Secretary shall award up to 3 competitive grants for each fiscal year to institutions of higher education that establish new academic degree programs in nuclear science.

(2) Priority
In evaluating grants under this subsection, the Secretary shall give priority to proposals that involve partnerships with a National Laboratory or other eligible nuclear-related entity, as determined by the Secretary.

(3) Criteria
Criteria for a grant awarded under this subsection shall be based on—
(A) the potential to attract new students to the program;
(B) academic rigor; and
(C) the ability to offer hands-on learning opportunities.

(4) Duration and amount

(A) Duration
A grant under this subsection may be up to 5 years in duration.

(B) Amount
An institution of higher education that receives a grant under this subsection shall be eligible for up to $1,000,000 for each year of the grant period.

(5) Use of funds
An institution of higher education that receives a grant under this subsection may use the grant to—
(A) increase the number of graduates in nuclear science that enter into careers in the nuclear science field;
(B) enhance the teaching of advanced nuclear technologies;
(C) aggressively pursue collaboration opportunities with industry and National Laboratories;
(D) bolster or sustain nuclear infrastructure and research facilities of the institution of higher education, such as research and training reactors or laboratories; and
(E) provide tuition assistance and stipends to undergraduate and graduate students.

(f) Authorization of appropriations

(1) Nuclear science program expansion grants for institutions of higher education
There are authorized to be appropriated to carry out subsection (d)—
(A) $3,500,000 for fiscal year 2008;
(B) $6,500,000 for fiscal year 2009;
(C) $9,500,000 for fiscal year 2010;
(D) $9,800,000 for fiscal year 2011;
(E) $10,100,000 for fiscal year 2012; and
(F) $10,400,000 for fiscal year 2013.

(2) Nuclear science competitiveness grants for institutions of higher education
There are authorized to be appropriated to carry out subsection (e)—
(A) $3,000,000 for fiscal year 2008;
(B) $5,500,000 for fiscal year 2009;
(C) $8,000,000 for fiscal year 2010;
(D) $8,240,000 for fiscal year 2011;
(E) $8,500,000 for fiscal year 2012; and
(F) $8,750,000 for fiscal year 2013.

(Amendments)

§ 16533. Hydrocarbon systems science talent expansion program for institutions of higher education

(a) Purposes
The purposes of this section are—
(1) to address the decline in the number of and resources available to hydrocarbon systems science programs at institutions of higher education; and

(2) to increase the number of graduates with degrees in hydrocarbon systems science, an area of strategic importance to the economic competitiveness and energy security of the United States.

(b) Definition of hydrocarbon systems science

In this section:

(1) In general

The term “hydrocarbon systems science” means a science involving natural gas or other petroleum exploration, development, or production.

(2) Inclusions

The term “hydrocarbon systems science” includes—

(A) petroleum or reservoir engineering;
(B) environmental geoscience;
(C) petrophysics;
(D) geophysics;
(E) geochemistry;
(F) petroleum geology;
(G) ocean engineering;
(H) environmental engineering;
(I) computer science, as computer science relates to a science described in this subsection; and
(J) hydrocarbon spill response and remediation.

(c) Establishment

The Secretary shall establish, in accordance with this section, a program to expand and enhance institution of higher education hydrocarbon systems science educational capabilities.

(d) Hydrocarbon systems science program expansion grants for institutions of higher education

(1) In general

The Secretary shall award up to 3 competitive grants for each fiscal year to institutions of higher education that establish new academic degree programs in hydrocarbon systems science.

(2) Eligibility

In evaluating grants under this subsection, the Secretary shall give priority to proposals that involve partnerships with the National Laboratories, including the National Energy Technology Laboratory, or other hydrocarbon systems scientific entities, as determined by the Secretary.

(3) Criteria

Criteria for a grant awarded under this subsection shall be based on—

(A) the potential to attract new students to the program;
(B) academic rigor; and
(C) the ability to offer hands-on learning opportunities.

(4) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $1,000,000 for each year of the grant period.

(5) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—

(A) recruit and retain new faculty;
(B) develop core and specialized course content;
(C) encourage collaboration between faculty and researchers in the hydrocarbon systems science field; and
(D) support outreach efforts to recruit students.

(e) Hydrocarbon systems science competitiveness grants for institutions of higher education

(1) In general

The Secretary shall award up to 5 competitive grants for each fiscal year to institutions of higher education with existing academic degree programs that produce graduates in hydrocarbon systems science.

(2) Criteria

Criteria for a grant awarded under this subsection shall be based on the potential for increasing the number and academic quality of graduates in hydrocarbon systems sciences who enter into careers in natural gas and other petroleum exploration, development, and production related fields.

(3) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $500,000 for each year of the grant period.

(4) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—

(A) increase the number of graduates in the hydrocarbon systems sciences that enter into careers in the natural gas and other petroleum exploration, development, and production science fields;
(B) enhance the teaching of advanced natural gas and other petroleum exploration, development, and production technologies;
(C) aggressively pursue collaboration opportunities with industry and the National Laboratories, including the National Energy Technology Laboratory;
(D) bolster or sustain natural gas and other petroleum exploration, development, and production infrastructure and research facilities of the institution of higher education, such as research and training or laboratories; and
(E) provide tuition assistance and stipends to undergraduate and graduate students.
(f) Authorization of appropriations

(1) Hydrocarbon systems science program expansion grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (d)—
(A) $3,500,000 for fiscal year 2008;
(B) $6,500,000 for fiscal year 2009;
(C) $9,500,000 for fiscal year 2010;
(D) $9,800,000 for fiscal year 2011;
(E) $10,000,000 for fiscal year 2012; and
(F) $10,400,000 for fiscal year 2013.

(2) Hydrocarbon systems science competitiveness grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (e)—
(A) $3,000,000 for fiscal year 2008;
(B) $5,500,000 for fiscal year 2009; and
(C) $8,000,000 for fiscal year 2010.

AMENDMENTS
Subsec. (f)(1)(D) to (F). Pub. L. 111–358, § 902(b)(2), added subpars. (D) to (F).

§ 16534. Department of Energy early career awards for science, engineering, and mathematics researchers

(a) Grant awards

The Director of the Office of Science of the Department (referred to in this section as the “Director”) shall carry out a program to award grants to scientists and engineers at an early career stage at institutions of higher education and organizations described in subsection (c) to conduct research in fields relevant to the mission of the Department.

(b) Amount and duration

(1) Amount

The amount of a grant awarded under this section shall be—
(A) not less than $80,000; and
(B) not more than $125,000.

(2) Duration

The term of a grant awarded under this section shall be not more than 5 years.

(c) Eligibility

(1) In general

To be eligible to receive a grant under this section, an individual shall, as determined by the Director—
(A) subject to paragraph (2), have completed a doctorate or other terminal degree not more than 10 years before the date on which the proposal for a grant is submitted under subsection (e)(1);
(B) have demonstrated promise in a science, engineering, or mathematics field relevant to the missions of the Department; and
(C) be employed—
(i) in a tenure track-position as an assistant professor or equivalent title at an institution of higher education in the United States;
(ii) at an organization in the United States that is a nonprofit, nondegree-granting research organization such as a museum, observatory, or research laboratory; or
(iii) as a scientist at a National Laboratory.

(2) Waiver

Notwithstanding paragraph (1)(A), the Director may determine that an individual who has completed a doctorate more than 10 years before the date of submission of a proposal under subsection (e)(1) is eligible to receive a grant under this section if the individual was unable to conduct research for a period of time because of extenuating circumstances, including military service or family responsibilities, as determined by the Director.

(d) Selection

Grant recipients shall be selected on a competitive, merit-reviewed basis.

(e) Selection process and criteria

(1) Proposal

To be eligible to receive a grant under this section, an individual shall submit to the Director a proposal at such time, in such manner, and containing such information as the Director may require.

(2) Evaluation

In evaluating the proposals submitted under paragraph (1), the Director shall take into consideration, at a minimum—
(A) the intellectual merit of the proposed project;
(B) the innovative or transformative nature of the proposed research;
(C) the extent to which the proposal integrates research and education, including undergraduate education in science and engineering disciplines; and
(D) the potential of the applicant for leadership at the frontiers of knowledge.

(f) Diversity requirement

(1) In general

In awarding grants under this section, the Director shall endeavor to ensure that the grant recipients represent a variety of types of institutions of higher education and nonprofit, nondegree-granting research organizations.

(2) Requirement

In support of the goal described in paragraph (1), the Director shall broadly disseminate information regarding the deadlines applicable to, and manner in which to submit, proposals for grants under this section, including by conducting outreach activities for—
(A) part B institutions, as defined in section 1061 of title 20; and
(B) minority institutions, as defined in section 1067k of title 20.
(g) Report on recruiting and retaining early career science and engineering researchers at National Laboratories

(1) In general

Not later than 90 days after August 9, 2007, the Director shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing efforts of the Director to recruit and retain young scientists and engineers at early career stages at the National Laboratories.

(2) Inclusions

The report under paragraph (1) shall include—
(A) a description of applicable Department and National Laboratory policies and procedures, and the source of policies and procedures relating to financial incentives, awards, promotions, time reserved for independent research, access to equipment or facilities, and other forms of recognition, designed to attract and retain young scientists and engineers;
(B) an evaluation of the impact of the incentives described in subparagraph (A) on—
(i) the careers of young scientists and engineers at the National Laboratories; and
(ii) the quality of the research at the National Laboratories and in Department programs;
(C) a description of barriers, if any, that exist with respect to efforts to recruit and retain young scientists and engineers, including the limited availability of full-time equivalent positions, legal and procedural requirements, and pay grading systems; and
(D) the amount of funding devoted to efforts to recruit and retain young researchers, and the source of the funds.

(h) Authorization of appropriations

There is authorized to be appropriated to the Secretary, acting through the Director, to carry out this section $25,000,000 for each of fiscal years 2008 through 2013.

AMENDMENTS

CHANGE OF NAME

Committee on Science and Technology of House of Representatives changed to Committee on Science, Space, and Technology of House of Representatives by House Resolution No. 5, One Hundred Twelfth Congress, Jan. 5, 2011.

§ 16535. Discovery science and engineering innovation institutes

(a) In general

The Secretary shall establish distributed, multidisciplinary institutes (referred to in this section as “Institutes”) centered at National Laboratories to apply fundamental science and engineering discoveries to technological innovations relating to—
(1) the missions of the Department; and
(2) the global competitiveness of the United States.

(b) Topical areas

The Institutes shall support scientific and engineering research and education activities on critical emerging technologies determined by the Secretary to be essential to global competitiveness, including activities relating to—
(1) sustainable energy technologies;
(2) multiscale materials and processes;
(3) micro- and nano-engineering;
(4) computational and information engineering; and
(5) genomics and proteomics.

(c) Partnerships

In carrying out this section, the Secretary shall establish partnerships between the Institutes and—
(1) institutions of higher education—
(A) to train undergraduate and graduate science and engineering students;
(B) to develop innovative undergraduate and graduate educational curricula; and
(C) to conduct research within the topical areas described in subsection (b); and
(2) private industry to develop innovative technologies within the topical areas described in subsection (b).

(d) Grants

(1) In general

For each fiscal year, the Secretary may select not more than 3 Institutes to receive a grant under this section.

(2) Merit-based selection

The selection of Institutes under paragraph (1) shall be—
(A) merit-based; and
(B) made through an open, competitive selection process.

(3) Term

An Institute shall receive a grant under this section for not more than 3 fiscal years.

(e) Review

The Secretary shall offer to enter into an agreement with the National Academy of Sciences under which the Academy shall, by not later than 3 years after August 9, 2007—
(1) review the performance of the Institutes under this section; and
(2) submit to Congress and the Secretary a report describing the results of the review.

(f) Authorization of appropriations

There is authorized to be appropriated to provide grants to each Institute selected under this section $10,000,000 for each of fiscal years 2008 through 2010.

§ 16536. Protecting America’s Competitive Edge (PACE) graduate fellowship program

(a) Definition of eligible student

In this section, the term “eligible student” means a student who attends an institution of
§ 16537  TITLE 42—THE PUBLIC HEALTH AND WELFARE

higher education that offers a doctoral degree in a field relevant to a mission area of the Department.

(b) Establishment
The Secretary shall establish a graduate fellowship program for eligible students pursuing a doctoral degree in a mission area of the Department.

c) Selection

(1) In general
The Secretary shall award fellowships to eligible students under this section through a competitive merit review process, involving written and oral interviews, that will result in a wide distribution of awards throughout the United States, as determined by the Secretary.

(2) Criteria
The Secretary shall establish selection criteria for awarding fellowships under this section that require an eligible student—

(A) to pursue a field of science or engineering of importance to a mission area of the Department;

(B) to demonstrate to the Secretary—

(i) the capacity of the eligible student to understand technical topics relating to the fellowship that can be derived from the first principles of the technical topics;

(ii) imagination and creativity;

(iii) leadership skills in organizations or intellectual endeavors, demonstrated through awards and past experience; and

(iv) excellent verbal and communication skills to explain, defend, and demonstrate an understanding of technical subjects relating to the fellowship; and

(C) to be a citizen or legal permanent resident of the United States.

d) Awards

(1) Amount
A fellowship awarded under this section shall—

(A) provide an annual living stipend; and

(B) cover—

(i) graduate tuition at an institution of higher education described in subsection (a); and

(ii) incidental expenses associated with curricula and research at the institution of higher education (including books, computers, and software).

(2) Duration
A fellowship awarded under this section shall be up to 3 years duration within a 5-year period.

(3) Portability
A fellowship awarded under this section shall be portable with the eligible student.

e) Administration
The Secretary, acting through the Director of Science, Engineering, and Mathematics Education—

(1) shall administer the program established under this section; and

(f) Authorization of appropriations
There are authorized to be appropriated to carry out this section—

(1) $7,500,000 for fiscal year 2008;

(2) $12,000,000 for fiscal year 2009, including nonexpiring fellowships for the preceding fiscal year;

(3) $20,000,000 for fiscal year 2010, including nonexpiring fellowships for preceding fiscal years;

(4) $30,600,000 for fiscal year 2011;

(5) $21,200,000 for fiscal year 2012; and

(6) $21,900,000 for fiscal year 2013.

(Amendments

§ 16537. Distinguished scientist program

(a) Purpose
The purpose of this section is to promote scientific and academic excellence through collaborations between institutions of higher education and National Laboratories.

(b) Establishment
The Secretary shall establish a program to support the joint appointment of distinguished scientists by institutions of higher education and National Laboratories.

(c) Qualifications
To be eligible for appointment as a distinguished scientist under this section, an individual, by reason of professional background and experience, shall be able to bring international recognition to the appointing institution of higher education or National Laboratory in the field of scientific endeavor of the individual.

(d) Selection
A distinguished scientist appointed under this section shall be selected through an open, competitive process.

(e) Appointment

(1) Institution of higher education
An appointment by an institution of higher education under this section shall be filled within the tenure allotment of the institution of higher education, at a minimum rank of professor.

(2) National Laboratory
An appointment by a National Laboratory under this section shall be at the rank of the highest grade of distinguished scientist or technical staff of the National Laboratory.

(f) Duration
An appointment under this section shall—

(1) be for a term of 6 years; and

(2) consist of 2 3-year funding allotments.

(g) Use of funds
Funds made available under this section may be used for—
(1) the salary of the distinguished scientist and support staff;
(2) undergraduate, graduate, and post-doctoral appointments;
(3) research-related equipment;
(4) professional travel; and
(5) such other requirements as the Secretary determines to be necessary to carry out the purpose of the program.

(h) Review

(1) In general
The appointment of a distinguished scientist under this section shall be reviewed at the end of the first 3-year allotment for the distinguished scientist through an open peer-review process to determine whether the appointment is meeting the purpose of this section under subsection (a).

(2) Funding
Funding of the appointment of the distinguished scientist for the second 3-year allotment shall be determined based on the review conducted under paragraph (1).

(i) Cost sharing
To be eligible for assistance under this section, an appointing institution of higher education shall pay at least 50 percent of the total costs of the appointment.

(j) Authorization of appropriations
There are authorized to be appropriated to carry out this section—
(1) $15,000,000 for fiscal year 2008;
(2) $20,000,000 for fiscal year 2009;
(3) $30,000,000 for fiscal year 2010;
(4) $31,000,000 for fiscal year 2011;
(5) $32,000,000 for fiscal year 2012; and
(6) $33,000,000 for fiscal year 2013.

Amendments

§ 16538. Advanced Research Projects Agency—Energy

(a) Definitions
In this section:

(1) ARPA-E
The term “ARPA–E” means the Advanced Research Projects Agency—Energy established by subsection (b).

(2) Director
The term “Director” means the Director of ARPA–E appointed under subsection (d).

(3) Fund
The term “Fund” means the Energy Transformation Acceleration Fund established under subsection (o)(1).

(b) Establishment
There is established the Advanced Research Projects Agency—Energy within the Department to overcome the long-term and high-risk technological barriers in the development of transformative science and technology solutions to address the energy and environmental missions of the Department.

(c) Goals

(1) In general
The goals of ARPA–E shall be—
(A) to enhance the economic and energy security of the United States through the development of energy technologies that—
(i) reduce imports of energy from foreign sources;
(ii) reduce energy-related emissions, including greenhouse gases;
(iii) improve the energy efficiency of all economic sectors;
(iv) provide transformative solutions to improve the management, clean-up, and disposal of radioactive waste and spent nuclear fuel; and
(v) improve the resilience, reliability, and security of infrastructure to produce, deliver, and store energy; and
(B) to ensure that the United States maintains a technological lead in developing and deploying advanced energy technologies.

(2) Means
ARPA–E shall achieve the goals established under paragraph (1) through advanced technology projects by—
(A) identifying and promoting revolutionary advances in fundamental and applied sciences;
(B) translating scientific discoveries and cutting-edge inventions into technological innovations; and
(C) accelerating transformational technological advances in areas that industry by itself is not likely to undertake because of technical and financial uncertainty.

(d) Director

(1) Appointment
There shall be in the Department of Energy a Director of ARPA–E, who shall be appointed by the President, by and with the advice and consent of the Senate.

(2) Qualifications
The Director shall be an individual who, by reason of professional background and experience, is especially qualified to advise the Secretary on, and manage research programs addressing, matters pertaining to long-term and high-risk technological barriers to the development of energy technologies.

(3) Relationship to Secretary
The Director shall report to the Secretary.

(4) Relationship to other programs
No other programs within the Department shall report to the Director.

(e) Responsibilities
The responsibilities of the Director shall include—
(1) approving all new programs within ARPA–E;
(2) developing funding criteria and assessing the success of programs through the establishment of technical milestones;
(3) administering the Fund through awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers, to achieve the goals described in subsection (c) through targeted acceleration of—
   (A) novel early-stage research with possible technology applications;
   (B) development of techniques, processes, and technologies, and related testing and evaluation;
   (C) research and development of advanced manufacturing process and technologies for the domestic manufacturing of novel energy technologies; and
   (D) coordination with nongovernmental entities for demonstration of technologies and research applications to facilitate technology transfer;
(4) terminating programs carried out under this section that are not achieving the goals of the programs; and
(5) pursuant to subsection (c)(2)(C)—
   (A) ensuring that applications for funding disclose the extent of current and prior efforts, including monetary investments as appropriate, in pursuit of the technology area for which funding is being requested;
   (B) adopting measures to ensure that, in making awards, program managers adhere to the purposes of subsection (c)(2)(C); and
   (C) providing as part of the annual report required by subsection (h)(1) a summary of the instances of and reasons for ARPA–E funding projects in technology areas already being undertaken by industry.

(f) Awards
In carrying out this section, the Director may provide awards in the form of grants, contracts, cooperative agreements, cash prizes, and other transactions.

(g) Personnel
(1) In general
The Director shall establish and maintain within ARPA–E a staff with sufficient qualifications and expertise to enable ARPA–E to carry out the responsibilities of ARPA–E under this section in conjunction with other operations of the Department.

(2) Program directors
(A) In general
The Director shall designate employees to serve as program directors for the programs established pursuant to the responsibilities established for ARPA–E under subsection (e).

(B) Responsibilities
A program director of a program shall be responsible for—
   (i) establishing research and development goals for the program, including through the convening of workshops and conferring with outside experts, and publicizing the goals of the program to the public and private sectors;
   (ii) soliciting applications for specific areas of particular promise, especially areas that the private sector or the Federal Government are not likely to undertake alone;
   (iii) building research collaborations for carrying out the program;
   (iv) selecting on the basis of merit each of the projects to be supported under the program after considering—
      (I) the novelty and scientific and technical merit of the proposed projects;
      (II) the demonstrated capabilities of the applicants to successfully carry out the proposed project;
      (III) the consideration by the applicant of future commercial applications of the project, including the feasibility of partnering with 1 or more commercial entities; and
      (IV) such other criteria as are established by the Director;
   (v) identifying innovative cost-sharing arrangements for ARPA–E projects, including through use of the authority provided under section 16352(b)(3) of this title;
   (vi) monitoring the progress of projects supported under the program;
   (vii) identifying mechanisms for commercial application of successful energy technology development projects, including through establishment of partnerships between awardees and commercial entities; and
   (viii) recommending program restructuring or termination of research partnerships or whole projects.

(C) Term
The term of a program manager shall be not more than 3 years and may be renewed.

(3) Hiring and management
(A) In general
The Director shall have the authority to—
   (i) make appointments of scientific, engineering, and professional personnel without regard to the civil service laws;
   (ii) fix the basic pay of such personnel at a rate to be determined by the Director at rates not in excess of Level II of the Executive Schedule (EX–II) without regard to the civil service laws;
   (iii) pay any employee appointed under this subparagraph payments in addition to basic pay, except that the total amount of additional payments paid to an employee under this subparagraph for any 12-month period shall not exceed the least of the following amounts:
      (I) $25,000.
      (II) The amount equal to 25 percent of the annual rate of basic pay of the employee.
      (III) The amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5.

(B) Number
The Director shall appoint not more than 120 personnel under this section.

(C) Private recruiting firms
The Secretary, or the Director serving as an agent of the Secretary, may contract
with private recruiting firms for the hiring of qualified technical staff to carry out this section.

(D) Additional staff

The Director may use all authorities in existence on August 9, 2007, that are provided to the Secretary to hire administrative, financial, and clerical staff as necessary to carry out this section.

(h) Reports and roadmaps

(1) Annual report

As part of the annual budget request submitted for each fiscal year, the Director shall provide to the relevant authorizing and appropriations committees of Congress a report that—

(A) describes projects supported by ARPA-E during the previous fiscal year;
(B) describes projects supported by ARPA-E during the previous fiscal year that examine topics and technologies closely related to other activities funded by the Department, and includes an analysis of whether in supporting such projects, the Director is in compliance with subsection (i)(1); and
(C) describes current, proposed, and planned projects to be carried out pursuant to subsection (e)(3)(D).

(2) Strategic vision roadmap

Not later than October 1, 2021, and every four years thereafter, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that ARPA-E will use to guide the choices of ARPA-E for future technology investments over the following 4 fiscal years.

(i) Coordination and nonduplication

(1) In general

To the maximum extent practicable, the Director shall ensure that—

(A) the activities of ARPA-E are coordinated with, and do not duplicate the efforts of, programs and laboratories within the Department and other relevant research agencies; and
(B) ARPA-E does not provide funding for a project unless the prospective grantee demonstrates sufficient attempts to secure private financing or indicates that the project is not independently commercially viable.

(2) Technology Transfer Coordinator

To the extent appropriate, the Director may coordinate technology transfer efforts with the Technology Transfer Coordinator appointed under section 16381 of this title.

(j) Federal demonstration of technologies

The Director shall seek opportunities to partner with purchasing and procurement programs of Federal agencies to demonstrate energy technologies resulting from activities funded through ARPA-E.

(k) Advice

(1) Advisory committees

The Director may seek advice on any aspect of ARPA-E from—

(A) an existing Department of Energy advisory committee; and
(B) a new advisory committee organized to support the programs of ARPA-E and to provide advice and assistance on—
(i) specific program tasks; or
(ii) overall direction of ARPA-E.

(2) Additional sources of advice

In carrying out this section, the Director may seek advice and review from—

(A) the President’s Committee of Advisors on Science and Technology; and
(B) any professional or scientific organization with expertise in specific processes or technologies under development by ARPA-E.

(l) ARPA-E evaluation

(1) In general

Not later than 3 years after December 27, 2020, the Secretary is authorized to enter into a contract with the National Academy of Sciences under which the National Academy shall conduct an evaluation of how well ARPA–E is achieving the goals and mission of ARPA–E.

(2) Inclusions

The evaluation may include—

(A) a recommendation on whether ARPA–E should be continued or terminated; and
(B) a description of lessons learned from operation of ARPA–E, and the manner in which those lessons may apply to the operation of other programs of the Department.

(3) Availability

On completion of the evaluation, the evaluation shall be made available to Congress and the public.

(m) Existing authorities

The authorities granted by this section are—

(1) in addition to existing authorities granted to the Secretary; and
(2) are not intended to supersede or modify any existing authorities.

(n) Protection of information

The following types of information collected by ARPA–E from recipients of financial assistance awards shall be considered commercial and financial information obtained from a person and privileged or confidential and not subject to disclosure under section 552(b)(4) of title 5:

(1) Plans for commercialization of technologies developed under the award, including business plans, technology-to-market plans, market studies, and cost and performance models.
(2) Investments provided to an awardee from third parties (such as venture capital firms, hedge funds, and private equity firms), including amounts and the percentage of ownership of the awardee provided in return for the investments.
(3) Additional financial support that the awardee—
(A) plans to or has invested into the technology developed under the award; or
(B) is seeking from third parties.
(4) Revenue from the licensing or sale of new products or services resulting from research conducted under the award.
(o) Funding

(1) Fund

There is established in the Treasury of the United States a fund, to be known as the “Energy Transformation Acceleration Fund”, which shall be administered by the Director for the purposes of carrying out this section.

(2) Authorization of appropriations

Subject to paragraph (4), there are authorized to be appropriated to the Director for deposit in the Fund, without fiscal year limitation—

(A) $435,000,000 for fiscal year 2021;
(B) $500,000,000 for fiscal year 2022;
(C) $575,000,000 for fiscal year 2023;
(D) $620,000,000 for fiscal year 2024; and
(E) $761,000,000 for fiscal year 2025.

(3) Separate budget and appropriation

(A) Budget request

The budget request for ARPA-E shall be separate from the rest of the budget of the Department.

(B) Appropriations

Appropriations to the Fund shall be separate and distinct from the rest of the budget for the Department.

(4) Allocation

Of the amounts appropriated for a fiscal year under paragraph (2)—

(A) not more than 50 percent of the amount shall be used to carry out subsection (e)(3)(D);

(B) at least 5 percent of the amount shall be used for technology transfer and outreach activities, consistent with the goal described in subsection (c)(2)(C) and within the responsibilities of program directors described in subsection (g)(2)(B)(vii); and

(C) no funds may be used for construction of new buildings or facilities during the 5-year period beginning on August 9, 2007.

REFERENCES IN TEXT

Level II of the Executive Schedule, referred to in subsec. (g)(3)(A)(ii), is set out in section 5313 of Title 5, Government Organization and Employees.

AMENDMENTS

Subsec. (h). Pub. L. 116–260, § 10001(d), amended subsec. (h) generally. Prior to amendment, text read as follows:

“(1) ANNUAL REPORT.—As part of the annual budget request submitted for each fiscal year, the Director shall provide to the relevant authorizing and appropriations committees of Congress a report describing projects supported by ARPA-E during the previous fiscal year.

“(2) STRATEGIC VISION ROADMAP.—Not later than October 1, 2010, and October 1, 2011, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that ARPA-E will use to guide the choices of ARPA-E for future technology investments over the following 5 fiscal years.

Subsec. (i)(1). Pub. L. 116–260, § 10001(e), added par. (1) and struck out former par. (1). Prior to amendment, text read as follows: “After ARPA-E has been in operation for 6 years, the Secretary shall offer to enter into a contract with the National Academy of Sciences under which the National Academy shall conduct an evaluation of how well ARPA-E is achieving the goals and mission of ARPA-E.”

Subsec. (j)(1). Pub. L. 116–260, § 10001(f)(1), added par. (1) and struck out former par. (1). Prior to amendment, text read as follows: “After ARPA-E has been in operation for 6 years, the Secretary shall offer to enter into a contract with the National Academy of Sciences under which the National Academy shall conduct an evaluation of how well ARPA-E is achieving the goals and mission of ARPA-E.”

Subsec. (m)(2). Pub. L. 116–260, § 10001(g), amended par. (2) generally. Prior to amendment, par. (2) authorized appropriations for fiscal years 2008 to 2013.

Subsecs. (n), (o). Pub. L. 115–246, § 202(2), (3), substituted subsec. (n) and redesignated former subsec. (n) as (o).

Subsec. (e)(3)(C). Pub. L. 111–358, § 904(3)(A)(i), added subpar. (C) and struck out former subpar. (C) which read as follows: “research and development of manufacturing processes for novel energy technologies; and”.

Subsec. (g). Pub. L. 111–358, § 904(4), redesignated subsec. (f) as (g). Former subsec. (g) redesignated (h).

Subsec. (g)(2). Pub. L. 111–358, § 904(6)(A)(C)(i), redesignated par. (1) as (2) and substituted “Program directors” for “Program managers” in heading.

Subsec. (g)(2)(A). Pub. L. 111–358, § 904(6)(C)(ii), substituted “program directors” for “program managers for each of”.

Subsec. (g)(2)(B)(iv). Pub. L. 111–358, § 904(6)(C)(1)(II), struck out “, with advice under subsection (j) as appro-
§ 16539. National Laboratory Jobs ACCESS Program

(a) In general

On or after the date that is 180 days after December 20, 2019, the Secretary may establish a program, to be known as the “Department of Energy National Lab Jobs ACCESS Program”, under which the Secretary may award, on a competitive basis, 3-year grants to eligible entities described in subsection (c) for the Federal share of the costs of pre-apprenticeship programs and apprenticeship programs described in subsection (b).

(b) Pre-apprenticeship and apprenticeship programs described

A pre-apprenticeship program or apprenticeship program described in this subsection is a pre-apprenticeship program or apprenticeship program that—

(1) leads to recognized postsecondary credentials for secondary school and postsecondary students;

(2) is focused on skills and qualifications needed, as determined by the Secretary in consultation with the directors of the National Laboratories, to meet the immediate and ongoing needs of traditional and emerging technician positions (including machinists and cybersecurity technicians) at the National Laboratories and covered facilities of the National Nuclear Security Administration;

(3) is established in consultation with a National Laboratory or covered facility of the National Nuclear Security Administration;

(4) is registered with and approved by the Secretary of Labor or a State apprenticeship agency; and

(5) ensures that participants in the pre-apprenticeship program or apprenticeship program do not displace paid employees.

(c) Eligible entities described

An eligible entity described in this subsection is a workforce intermediary or an eligible sponsor of a pre-apprenticeship program or apprenticeship program that—

(1) demonstrates experience in implementing and providing career planning and career pathways toward pre-apprenticeship programs or apprenticeship programs;

(2) (A) has a relationship with a National Laboratory or covered facility of the National Nuclear Security Administration;

(B) has knowledge of the technician workforce needs of the laboratory or facility and the associated security requirements of the laboratory or facility; and

(C) is eligible to enter into an agreement with the laboratory or facility that would be paid for in part or entirely from grant funds received under this section;

(3) demonstrates the ability to recruit and support individuals who plan to work in relevant technician positions upon the successful completion of the pre-apprenticeship program or apprenticeship program;

(4) provides students who complete the pre-apprenticeship program or apprenticeship program with, or prepares such students for obtaining, a recognized postsecondary credential;

(5) uses related instruction that is specifically aligned with the needs of the laboratory or facility and utilizes workplace learning advisors and on-the-job training to the greatest extent possible; and

(6) demonstrates successful outcomes connecting graduates of the pre-apprenticeship program or apprenticeship program to careers relevant to the program.

(d) Applications

If the Secretary establishes the program described in subsection (a), an eligible entity de-
scribed in subsection (c) seeking a grant under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(e) Priority

In selecting eligible entities described in subsection (c) to receive grants under this section, the Secretary may prioritize an eligible entity that—

(1) is a member of an industry or sector partnership;
(2) provides related instruction for a pre-apprenticeship program or apprenticeship program through—
(A) a local educational agency, a secondary school, a provider of adult education, an area career and technical education school, or an institution of higher education (such as a community college) that includes basic science, technology, and mathematics education in the related instruction; or
(B) an apprenticeship program that was registered with the Department of Labor or a State apprenticeship agency before the date on which the eligible entity applies for the grant under subsection (d);
(3) works with the Secretary of Defense, the Secretary of Veterans Affairs, or veterans organizations to transition members of the Armed Forces and veterans to pre-apprenticeship programs or apprenticeship programs in a relevant sector;
(4) plans to use the grant to carry out the pre-apprenticeship program or apprenticeship program with an entity that receives State funding or is operated by a State agency; and
(5) plans to use the grant to carry out the pre-apprenticeship program or apprenticeship program for—
(A) young adults ages 16 to 29, inclusive; or
(B) individuals with barriers to employment.

(f) Additional consideration

In making grants under this section, the Secretary may consider regional diversity.

(g) Limitation on applications

An eligible entity described in subsection (c) may not submit, either individually or as part of a joint application, more than one application for a grant under this section during any one fiscal year.

(h) Limitations on amount of grant

The amount of a grant provided under this section may not, for any 24-month period of the 5-year grant period, exceed $500,000.

(i) Non-Federal share

The non-Federal share of the cost of a pre-apprenticeship program or apprenticeship program carried out using a grant under this section shall be not less than 25 percent of the total cost of the program.

(j) Technical assistance

The Secretary may provide technical assistance to eligible entities described in subsection (c) to leverage the existing job training and education programs of the Department of Labor and other relevant programs at appropriate Federal agencies.

(k) Report

(1) In general

If the Secretary establishes the program described in subsection (a), not less than once every 2 years thereafter, the Secretary shall submit to Congress, and make publicly available on the website of the Department of Energy, a report on the program, including—
(A) a description of—
(i) any entity that receives a grant under this section;
(ii) any activity carried out using a grant under this section; and
(iii) best practices used to leverage the investment of the Federal Government under this section; and
(B) an assessment of the results achieved by the program, including the rate of employment for participants after completing a pre-apprenticeship program or apprenticeship program carried out using a grant under this section.

(2) Performance reports

Not later than one year after the establishment of a pre-apprenticeship program or apprenticeship program using a grant awarded under this section, and annually thereafter, the entity carrying out the program shall submit to the Secretary and the Secretary of Labor a report on the effectiveness of the program based on the accountability measures described in clauses (i) and (ii) of section 3141(b)(2)(A) of title 29.

(f) Definitions

In this section:

(1) ESEA terms

The terms “local educational agency” and “secondary school” have the meanings given the terms in section 7801 of title 20.

(2) WIOA terms

The terms “career planning”, “community-based organization”, “customized training”, “economic development agency”, “individual with a barrier to employment”, “industry or sector partnership”, “on-the-job training”, “recognized postsecondary credential”, and “workplace learning advisor” have the meanings given such terms in section 3102 of title 29.

(3) Apprenticeship program

The term “apprenticeship program” means a program registered under the Act of August 16, 1937 (commonly known as the “National Apprenticeship Act”); 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.).

(4) Area career and technical education school

The term “area career and technical education school” has the meaning given the term in section 2302 of title 20.

(5) Community college

The term “community college” has the meaning given the term “junior or community college” in section 1058(f) of title 20.
(6) Covered facility of the national nuclear security administration

The term “covered facility of the National Nuclear Security Administration” means a national security laboratory or a nuclear weapons production facility as such terms are defined in section 2521 of title 50.

(7) Eligible sponsor

The term “eligible sponsor” means a public organization or nonprofit organization that—

(A) with respect to an apprenticeship program, administers the program through a partnership that may include—

(i) an industry or sector partnership;

(ii) an employer or industry association;

(iii) a labor-management organization;

(iv) a local workforce development board or State workforce development board;

(v) a 2- or 4-year institution of higher education that offers an educational program leading to an associate’s or bachelor’s degree in conjunction with a certificate of completion of apprenticeship;

(vi) the Armed Forces (including the National Guard and Reserves);

(vii) a community-based organization; or

(viii) an economic development agency; and

(B) with respect to a pre-apprenticeship program, is a local educational agency, a secondary school, an area career technical education school, a provider of adult education, a State workforce development board, a local workforce development board, or a community-based organization, that administers the program with any required coordination and necessary approvals from the Secretary of Labor or a State department of labor.

(8) Institution of higher education

The term “institution of higher education” has the meaning given the term in section 1001 of title 20.

(9) Local workforce development board

The term “local workforce development board” has the meaning given the term “local board” in section 3102 of title 29.

(10) National Laboratory

The term “National Laboratory” has the meaning given the term in section 15801 of this title.

(11) Nonprofit organization

The term “nonprofit organization” means an organization that is described in section 501(c) of title 26 and exempt from tax under section 501(a) of such title.

(12) Pre-apprenticeship program

The term “pre-apprenticeship program” means a program—

(A) designed to prepare individuals to enter and succeed in an apprenticeship program; and

(B) that has a documented partnership with at least one, if not more, apprenticeship programs.

(13) Provider of adult education

The term “provider of adult education” has the meaning given the term “eligible provider” in section 3272 of title 29.

(14) Related instruction

The term “related instruction” means an organized and systematic form of instruction designed to provide an individual in a pre-apprenticeship program or apprenticeship program with the knowledge of the technical subjects related to the intended occupation of the individual after completion of the program.

(15) Secretary

The term “Secretary” means the Secretary of Energy, in consultation with the Secretary of Labor, except as otherwise specified in this section.

(16) Sponsor

The term “sponsor” means any person, association, committee, or organization operating a pre-apprenticeship program or apprenticeship program and in whose name the program is (or is to be) registered or approved.

(17) State apprenticeship agency

The term “State apprenticeship agency” has the meaning given that term in section 29.2 of title 29, Code of Federal Regulations (or any corresponding similar regulation or ruling).

(18) State workforce development board

The term “State workforce development board” has the meaning given the term “State board” in section 3102 of title 29.

(19) Workforce intermediary

The term “workforce intermediary”—

(A) means a nonprofit organization that—

(i) proactively addresses workforce needs using a dual customer approach, which considers the needs of both employees and employers; and

(ii) has partnered with a sponsor of a pre-apprenticeship program or apprenticeship program or is a sponsor of a pre-apprenticeship program or apprenticeship program; and

(B) may include a community organization, an employer organization, a community college, a temporary staffing agency, a State workforce development board, a local workforce development board, or a labor or labor-management organization.

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 2020, and not as part of the America COMPETES Act, which comprises this subchapter.

CHAPTER 150—NATIONAL AERONAUTICS AND SPACE PROGRAMS, 2005

§ 16601. Transferred

CODIFICATION

Section, Pub. L. 109–155, §2, Dec. 30, 2005, 119 Stat. 2897, which related to definitions, was transferred and is set out as a note under section 10101 of Title 51, National and Commercial Space Programs.
SUBCHAPTER I—GENERAL PRINCIPLES AND REPORTS

Section, Pub. L. 109–155, title I, § 206, Dec. 30, 2005, 119 Stat. 2905, related to limitation on use of appropriated funds for official representation, was omitted from the Code following the enactment of Title 51.

Subsections (d) to (g), providing for independent review of strategic need for aeronautics test facilities, was omitted from the Code following the enactment of Title 51.

Subsection (b), which provided sense of Congress regarding budget evaluation, was omitted from the Code following the enactment of Title 51.

Subsection (i) was repealed and reenacted as subsection (b) of section 30103 of Title 51.

Section, Pub. L. 109–155, title I, § 206, Dec. 30, 2005, 119 Stat. 2905, related to limitations on use of appropriated funds for official representation, was omitted from the Code following the enactment of Title 51.
§ 16652. Omitted
Section 16652, Pub. L. 109–155, title III, §302, Dec. 30, 2005, 119 Stat. 2037, which related to status of Hubble Space Telescope servicing mission and required Administrator’s report to Congress not later than 60 days after second Space Shuttle mission, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs.

§§ 16653, 16654. Omitted
Section 16653, Pub. L. 109–155, title III, §303, Dec. 30, 2005, 119 Stat. 2037, which required independent assessment of Landsat-NPOESS integrated mission to be transmitted to Congress not later than 180 days after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51.

§ 16655. Repealed or Omitted
Codification
Section 16655, Pub. L. 109–155, title III, §304, Dec. 30, 2005, 119 Stat. 2038, Pub. L. 111–314, §4(e), Dec. 18, 2010, 124 Stat. 3443, which related to assessment of science mission extensions, was repealed in part and omitted in part. Introductory provisions of subsec. (a) were repealed and reenacted as subsec. (a) of section 30504 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a)(1), requiring Administrator to carry out an assessment for certain missions not later than 60 days after Dec. 30, 2005, was amended and redesignated subsec. (a), by Pub. L. 111–314, §4(e)(1), Dec. 18, 2010, 124 Stat. 3443, and was omitted from the Code following the enactment of Title 51. Subsec. (a)(2) was repealed and reenacted as subsec. (b) of section 30504 of Title 51. Subsec. (b), requiring Administrator to submit report on assessment to congressional committees not later than 30 days after completion of assessment, was amended by Pub. L. 111–314, §4(e)(2), Dec. 18, 2010, 124 Stat. 3443, and was omitted from the Code following the enactment of Title 51. Section 16655, Pub. L. 109–155, title III, §305, Dec. 30, 2005, 119 Stat. 2918, which related to microgravity research, was repealed in part and omitted in part. Par. (1), which required Administrator to submit report to congressional committees not later than 90 days after Dec. 30, 2005, as required by former section 16786 of this title, was omitted from the Code following the enactment of Title 51. Pars. (2) and (3) were repealed and reenacted as section 4006 of Title 51 by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51.

§ 16657. Omitted
Codification

Section, Pub. L. 110–69, title II, §3003, Aug. 9, 2007, 121 Stat. 583, related to basic research enhancement. See section 28304 of Title 51, National and Commercial Space Programs.

Section 16935e was editorially reclassified as section 20940 of Title 34, Crime Control and Law Enforcement.

PART B—IMPROVING FEDERAL CRIMINAL LAW ENFORCEMENT TO ENSURE SEX OFFENDER COMPLIANCE WITH REGISTRATION AND NOTIFICATION REQUIREMENTS AND PROTECTION OF CHILDREN FROM VIOLENT PREDATORS

§ 16941. Transferred
CODIFICATION
Section 16941 was editorially reclassified as section 20941 of Title 34, Crime Control and Law Enforcement.

§ 16942. Transferred
CODIFICATION
Section 16942 was editorially reclassified as section 20942 of Title 34, Crime Control and Law Enforcement.

§ 16943. Transferred
CODIFICATION
Section 16943 was editorially reclassified as section 20943 of Title 34, Crime Control and Law Enforcement.

§ 16944. Transferred
CODIFICATION
Section 16944 was editorially reclassified as section 20944 of Title 34, Crime Control and Law Enforcement.

PART C—ACCESS TO INFORMATION AND RESOURCES NEEDED TO ENSURE THAT CHILDREN ARE NOT ATTACKED OR ABUSED

§ 16961. Transferred
CODIFICATION
Section 16961 was editorially reclassified as section 20961 of Title 34, Crime Control and Law Enforcement.

§ 16962. Transferred
CODIFICATION
Section 16962 was editorially reclassified as section 20962 of Title 34, Crime Control and Law Enforcement.
SUBCHAPTER II—CIVIL COMMITMENT OF DANGEROUS SEX OFFENDERS

§ 16971. Transferred
CODIFICATION
Section 16971 was editorially reclassified as section 20971 of Title 34, Crime Control and Law Enforcement.

SUBCHAPTER III—GRANTS AND OTHER PROVISIONS

§ 16981. Transferred
CODIFICATION
Section 16981 was editorially reclassified as section 20981 of Title 34, Crime Control and Law Enforcement.

§ 16982. Transferred
CODIFICATION
Section 16982 was editorially reclassified as section 20982 of Title 34, Crime Control and Law Enforcement.

§ 16983. Transferred
CODIFICATION
Section 16983 was editorially reclassified as section 20983 of Title 34, Crime Control and Law Enforcement.

§ 16984. Transferred
CODIFICATION
Section 16984 was editorially reclassified as section 20984 of Title 34, Crime Control and Law Enforcement.

§ 16985. Transferred
CODIFICATION
Section 16985 was editorially reclassified as section 20985 of Title 34, Crime Control and Law Enforcement.

§ 16986. Transferred
CODIFICATION
Section 16986 was editorially reclassified as section 20986 of Title 34, Crime Control and Law Enforcement.

§ 16987. Transferred
CODIFICATION
Section 16987 was editorially reclassified as section 20987 of Title 34, Crime Control and Law Enforcement.

§ 16988. Transferred
CODIFICATION
Section 16988 was editorially reclassified as section 20988 of Title 34, Crime Control and Law Enforcement.

§ 16989. Transferred
CODIFICATION
Section 16989 was editorially reclassified as section 20989 of Title 34, Crime Control and Law Enforcement.

§ 16990. Transferred
CODIFICATION
Section 16990 was editorially reclassified as section 20990 of Title 34, Crime Control and Law Enforcement.

§ 16991. Transferred
CODIFICATION
Section 16991 was editorially reclassified as section 20991 of Title 34, Crime Control and Law Enforcement.

CHAPTER 152—ENERGY INDEPENDENCE AND SECURITY

Sec. 17001. Definitions.
17002. Relationship to other law.

SUBCHAPTER I—IMPROVED VEHICLE TECHNOLOGY

17011. Transportation electrification.
17012. Advanced battery loan guarantee program.
17013. Advanced technology vehicles manufacturing incentive program.
17014. Research and development into integrating electric vehicles onto the electric grid.

SUBCHAPTER II—ENERGY SECURITY THROUGH INCREASED PRODUCTION OF BIOFUELS

PART A—RENEWABLE FUEL STANDARD

17021. Biomass-based diesel and biodiesel labeling.
17022. Grants for production of advanced biofuels.

PART B—BIOFUELS RESEARCH AND DEVELOPMENT

17031. Biodiesel.
17032. Grants for biofuel production research and development in certain States.
17033. Biofuels and biorefinery information center.
17034. Cellulosic ethanol and biofuels research.
17035. University based research and development grant program.

PART C—BIOFUELS INFRASTRUCTURE

17051. Renewable fuel dispenser requirements.
17052. Renewable fuel infrastructure grants.
17053. Federal fleet fueling centers.
17054. Biofuels distribution and advanced biofuels infrastructure.

SUBCHAPTER III—ENERGY SAVINGS IN BUILDINGS AND INDUSTRY

17061. Definitions.
17063. Energy information for commercial buildings.
17064. Smart building acceleration.

PART A—RESIDENTIAL BUILDING EFFICIENCY

17071. Energy Code improvements applicable to manufactured housing.

PART B—HIGH-PERFORMANCE COMMERCIAL BUILDINGS

17083. Public outreach.
17084. Separate spaces with high-performance energy efficiency measures.
17085. Tenant Star program.
17086. Advanced integration of buildings onto the electric grid.

PART C—HIGH-PERFORMANCE FEDERAL BUILDINGS

17091. Leasing.
17094. Storm water runoff requirements for Federal development projects.
17095. Cost-effective technology acceleration program.
17096. Authorization of appropriations.

PART D—INDUSTRIAL ENERGY EFFICIENCY

17111. Energy-intensive industries program.
17112. Energy efficiency for data center buildings.
17113. Industrial emissions reduction technology development program.
17114. Industrial Technology Innovation Advisory Committee.
17115. Technical assistance program to implement industrial emissions reduction.

PART E—GENERAL PROVISIONS

17121. Demonstration project.
17122. Research and development.
17123. Green Building Advisory Committee.
17124. Advisory Committee on Energy Efficiency Finance.

SUBCHAPTER IV—ENERGY SAVINGS IN GOVERNMENT AND PUBLIC INSTITUTIONS

PART A—ENERGY SAVINGS PERFORMANCE CONTRACTING

17131. Training Federal contracting officers to negotiate energy efficiency contracts.

PART B—ENERGY EFFICIENCY IN FEDERAL AGENCIES

17141. Prohibition on incandescent lamps by Coast Guard.
17142. Procurement and acquisition of alternative fuels.
17143. Government efficiency status reports.
17144. OMB Government efficiency reports and scorecards.

PART C—ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANTS

17151. Definitions.
17152. Energy Efficiency and Conservation Block Grant Program.
17153. Allocation of funds.
17154. Use of funds.
17155. Requirements for eligible entities.
17156. Competitive grants.
17157. Review and evaluation.
17158. Funding.

PART D—ENERGY STORAGE FOR TRANSPORTATION AND ELECTRIC POWER

17191. Definitions.
17192. Renewable energy deployment.
17193. General geothermal systems research and development.
17194. Enhanced geothermal systems research and development.
17195. Geothermal energy production from oil and gas fields and recovery and production of geopressed gas resources.
17195a. Geothermal heat pumps and direct use research and development.
17196. Organization and administration of programs.
17197. Advanced geothermal computing and data science research and development.
17198. Geothermal workforce development.
17199, 17200. Repealed.
17201. Carbon dioxide sequestration capacity assessment.
17202. Geologic sequestration training and research.
17203. Geothermal assessment, exploration information, and priority activities.
17204. High cost region geothermal energy grant program.

PART C—WATER POWER RESEARCH AND DEVELOPMENT

17211. Definitions.
17212. Water power technology research, development, and demonstration.
17213. Hydropower research, development, and demonstration.
17214. Marine energy research, development, and demonstration.
17216. Organization and administration of programs.
17217. Applicability of other laws.
17218. Authorization of appropriations.

SUBCHAPTER VII—IMPROVED MANAGEMENT OF ENERGY POLICY

PART A—MANAGEMENT IMPROVEMENTS

17231. National media campaign.
17232. Renewable energy deployment.
17233. Fuel choice.
17234. Geologic sequestration training and research.
17235. Sense of Congress relating to the use of renewable resources to generate energy.
17236. Geothermal assessment, exploration information, and priority activities.

PART B—PROHIBITIONS ON MARKET MANIPULATION AND FALSE INFORMATION

17301. Prohibition on market manipulation.
17302. Prohibition on false information.
17304. Penalties.
17305. Effect on other laws.

SUBCHAPTER VIII—INTERNATIONAL ENERGY PROGRAMS

1731. Definitions.

PART A—ASSISTANCE TO PROMOTE CLEAN AND EFFICIENT ENERGY TECHNOLOGIES IN FOREIGN COUNTRIES

17331. United States assistance for developing countries.
SAFETY

PART B—INTERNATIONAL CLEAN ENERGY FOUNDATION

§ 17001. Definitions

In this Act:

(1) Department

The term ‘Department’ means the Department of Energy.

(2) Institution of higher education

The term ‘institution of higher education’ has the meaning given in section 1001(a) of title 20.

(3) Secretary

The term ‘Secretary’ means the Secretary of Energy.

This Act, referred to in text, is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independ-
Subchapter I—Improved Vehicle Technology

§ 17011. Transportation electrification

(a) Definitions

In this section:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) Battery

The term “battery” means an electrochemical energy storage system powered directly by electrical current.

(3) Electric transportation technology

The term “electric transportation technology” means—

(A) technology used in vehicles that use an electric motor for all or part of the motive power of the vehicles, including battery electric, hybrid electric, plug-in hybrid electric, fuel cell, and plug-in fuel cell vehicles, or rail transportation; or

(B) equipment relating to transportation or mobile sources of air pollution that use an electric motor to replace an internal combustion engine for all or part of the work of the equipment, including—

(i) corded electric equipment linked to transportation or mobile sources of air pollution; and

(ii) electrification technologies at airports, ports, truck stops, and material-handling facilities.

(4) Nonroad vehicle

The term “nonroad vehicle” means a vehicle—

(A) powered—

(i) by a nonroad engine, as that term is defined in section 7550 of this title; or

(ii) fully or partially by an electric motor powered by a fuel cell, a battery, or an off-board source of electricity; and

(B) that is not a motor vehicle or a vehicle used solely for competition.

(5) Plug-in electric drive vehicle

The term “plug-in electric drive vehicle” means a vehicle that—

(A) draws motive power from a battery with a capacity of at least 4 kilowatt-hours;

(B) can be recharged from an external source of electricity for motive power; and

(C) is a light-, medium-, or heavy-duty motor vehicle or nonroad vehicle (as those terms are defined in section 7550 of this title).

(6) Qualified electric transportation project

The term “qualified electric transportation project” means an electric transportation technology project that would significantly reduce emissions of criteria pollutants, greenhouse gas emissions, and petroleum, including—

(A) shipside or shoreside electrification for vessels;

(B) truck-stop electrification;

(C) electric truck refrigeration units;

(D) battery-powered auxiliary power units for trucks;

(E) electric airport ground support equipment;

(F) electric material and cargo handling equipment;

(G) electric or dual-mode electric rail;

(H) any distribution upgrades needed to supply electricity to the project; and

(I) any ancillary infrastructure, including panel upgrades, battery chargers, in-situ transformers, and trenching.

(b) Plug-in electric drive vehicle program

(1) Establishment

The Secretary shall establish a competitive program to provide grants on a cost-shared basis to State governments, local governments, metropolitan transportation authorities, air pollution control districts, private or nonprofit entities, or combinations of those governments, authorities, districts, and entities, to carry out one or more projects to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies, as determined by the Secretary.

(2) Administration

The Secretary shall, in consultation with the Secretary of Transportation and the Administrator, establish requirements for applications for grants under this section, including reporting of data to be summarized for dissemination to grantees and the public, including safety, vehicle, and component performance, and vehicle and component life cycle costs.

(3) Priority

In making awards under this subsection, the Secretary shall—

(A) give priority consideration to applications that—

(i) encourage early widespread use of vehicles described in paragraph (1); and

(ii) are likely to make a significant contribution to the advancement of the production of the vehicles in the United States; and

(B) ensure, to the maximum extent practicable, that the program established under this subsection includes a variety of applications, manufacturers, and end-uses.

(4) Reporting

The Secretary shall require a grant recipient under this subsection to submit to the Secretary, on an annual basis, data relating to safety, vehicle performance, life cycle costs, and emissions of vehicles demonstrated under the grant, including emissions of greenhouse gases.

(5) Cost sharing

Section 16352 of this title shall apply to a grant made under this subsection.
§ 17012  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8400

(6) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $90,000,000 for each of fiscal years 2008 through 2012, of which not less than ½ of the total amount appropriated shall be available each fiscal year to make grants to local and municipal governments.

(c) Near-term transportation sector electrification program

(1) In general

Not later than 1 year after December 19, 2007, the Secretary, in consultation with the Secretary of Transportation and the Administrator, shall establish a program to provide grants for the conduct of qualified electric transportation projects.

(2) Priority

In providing grants under this subsection, the Secretary shall give priority to large-scale projects and large-scale aggregators of projects.

(3) Cost sharing

Section 16352 of this title shall apply to a grant made under this subsection.

(4) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $95,000,000 for each of fiscal years 2008 through 2013.

(d) Education program

(1) In general

The Secretary shall develop a nationwide electric drive transportation technology education program under which the Secretary shall provide—

(A) teaching materials to secondary schools and high schools; and

(B) assistance for programs relating to electric drive system and component engineering to institutions of higher education.

(2) Electric vehicle competition

The program established under paragraph (1) shall include a plug-in hybrid electric vehicle competition for institutions of higher education, which shall be known as the “Dr. Andrew Frank Plug-In Electric Vehicle Competition”.

(3) Engineers

In carrying out the program established under paragraph (1), the Secretary shall provide financial assistance to institutions of higher education to create new, or support existing, degree programs to ensure the availability of trained electrical and mechanical engineers with the skills necessary for the advancement of—

(A) plug-in electric drive vehicles; and

(B) other forms of electric drive transportation technology vehicles.

(4) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(h) Full faith and credit
The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(i) Reports
Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(j) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section.

(k) Termination of authority
The authority of the Secretary to issue a loan guarantee under subsection (a) terminates on the date that is 10 years after December 19, 2007.

§ 17013. Advanced technology vehicles manufacturing incentive program

(a) Definitions
In this section:

(1) Advanced technology vehicle
The term “advanced technology vehicle” means an ultra efficient vehicle or a light-duty vehicle that meets—
(A) the Bin 5 Tier II emission standard established in regulations issued by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act (42 U.S.C. 7521(i)), or a lower-numbered Bin emission standard;
(B) any new emission standard in effect for fine particulate matter prescribed by the Administrator under that Act (42 U.S.C. 7401 et seq.); and
(C) at least 75 miles per gallon while operating as a hybrid electric-gasoline or electric-diesel vehicle; or

(2) Combined fuel economy
The term “combined fuel economy” means—
(A) the combined city/highway miles per gallon values, as reported in accordance with section 32904 of title 49; and
(B) in the case of an electric drive vehicle with the ability to recharge from an off-board source, the reported mileage, as determined in a manner consistent with the Society of Automotive Engineers recommended practice for that configuration or a similar practice recommended by the Secretary.

(3) Engineering integration costs
The term “engineering integration costs” includes the cost of engineering tasks relating to—
(A) incorporating qualifying components into the design of advanced technology vehicles; and
(B) designing tooling and equipment and developing manufacturing processes and material suppliers for production facilities that produce qualifying components or advanced technology vehicles.

(4) Qualifying components
The term “qualifying components” means components that the Secretary determines to be—
(A) designed for advanced technology vehicles; and
(B) installed for the purpose of meeting the performance requirements of advanced technology vehicles.

(5) Ultra efficient vehicle
The term “ultra efficient vehicle” means a fully closed compartment vehicle designed to carry at least 2 adult passengers that achieves—
(A) at least 75 miles per gallon while operating on gasoline or diesel fuel;
(B) at least 75 miles per gallon equivalent while operating as a hybrid electric-gasoline or electric-diesel vehicle; or
(C) at least 75 miles per gallon equivalent while operating as a fully electric vehicle.

(b) Advanced vehicles manufacturing facility
The Secretary shall provide facility funding awards under this section to automobile manufacturers, ultra efficient vehicle manufacturers, and component suppliers to pay not more than 30 percent of the cost of—
(1) reequipping, expanding, or establishing a manufacturing facility in the United States to produce—
(A) qualifying advanced technology vehicles;
(B) qualifying components; or
(C) ultra efficient vehicles; and
(2) engineering integration performed in the United States of qualifying vehicles, ultra efficient vehicles, and qualifying components.

(c) Period of availability
An award under subsection (b) shall apply to—
(1) facilities and equipment placed in service before December 30, 2020; and
(2) engineering integration costs incurred during the period beginning on December 19, 2007, and ending on December 30, 2020.

(d) Direct loan program
(1) In general
Not later than 1 year after December 19, 2007, and subject to the availability of appropriated funds, the Secretary shall carry out a program to provide a total of not more than $25,000,000,000 in loans to eligible individuals and entities (as determined by the Secretary) for the costs of activities described in subsection (b). The loans shall be made through the Federal Financing Bank, with the full faith and credit of the United States Government on the principal and interest. The full credit subsidy shall be paid by the Secretary using appropriated funds.
§ 17013  

Application
An applicant for a loan under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a written assurance that—

(A) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a loan under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40; and

(B) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

Selection of eligible projects
The Secretary shall select eligible projects to receive loans under this subsection in cases in which, as determined by the Secretary, the award recipient—

(A) is financially viable without the receipt of additional Federal funding associated with the proposed project;

(B) will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively; and

(C) has met such other criteria as may be established and published by the Secretary.

Rates, terms, and repayment of loans
A loan provided under this subsection—

(A) shall have an interest rate that, as of the date on which the loan is made, is equal to the cost of funds to the Department of the Treasury for obligations of comparable maturity;

(B) shall have a term equal to the lesser of—

(i) the projected life, in years, of the eligible project to be carried out using funds from the loan, as determined by the Secretary; and

(ii) 25 years;

(C) may be subject to a deferral in repayment for not more than 5 years after the date on which the eligible project carried out using funds from the loan first begins operations, as determined by the Secretary; and

(D) shall be made by the Federal Financing Bank.

Improvement
Not later than 60 days after September 30, 2008, the Secretary shall promulgate an interim final rule establishing regulations that the Secretary deems necessary to administer this section and any loans made by the Secretary pursuant to this section. Such interim final rule shall require that, in order for an automobile manufacturer to be eligible for an award or loan under this section during a particular year, the adjusted average fuel economy of the manufacturer for light duty vehicles produced by the manufacturer during the most recent year for which data are available shall be not less than the average fuel economy for all light duty vehicles of the manufacturer for model year 2005. In order to determine fuel economy baselines for eligibility of a new manufacturer or a manufacturer that has not produced previously produced equivalent vehicles, the Secretary may substitute industry averages.

Fees
Administrative costs shall be no more than $100,000 or 10 basis points of the loan.

Priority
The Secretary shall, in making awards or loans to those manufacturers that have existing facilities, give priority to those facilities that are oldest or have been in existence for at least 20 years and are utilized primarily for the manufacture of ultra efficient vehicles. Such facilities can currently be sitting idle.

Set aside for small automobile manufacturers and component supplies
(1) Definition of covered firm
In this subsection, the term “covered firm” means a firm that—

(A) employs less than 500 individuals; and

(B) manufactures ultra efficient vehicles, automobiles, or components of automobiles.

(2) Set aside
Of the amount of funds that are used to provide awards for each fiscal year under subsection (b), the Secretary shall use not less than 10 percent to provide awards to covered firms or consortia led by a covered firm.

Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2008 through 2012.

Appointment and pay of personnel
(1) The Secretary may use direct hiring authority pursuant to section 3304(a)(3) of title 5 to appoint such professional and administrative personnel as the Secretary deems necessary to the discharge of the Secre-2
tary’s functions under this section.

(2) The rate of pay for a person appointed pursuant to paragraph (1) shall not exceed the maximum rate payable for GS-15 of the General Schedule under chapter 53 such as title 5.

(3) The Secretary may retain such consultants as the Secretary deems necessary to the discharge of the functions required by this section, pursuant to section 1901 of title 41.

REFERENCES IN TEXT
The Clean Air Act, referred to in subsec. (a)(1)(B), is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified

1 So in original. Probably should be “or”.

2 So in original. Probably should be “points”.

3 So in original. Probably should be “of such”. 
generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

Codification

Amendments

Subsec. (g). Pub. L. 111–85, §312(a)(3), inserted “or are utilized primarily for the manufacture of ultra efficient vehicles” after “”20 years””.

2008—Subsec. (d)(1). Pub. L. 110–329, §129(c)(1), inserted at end “The loans shall be made through the Federal Financing Bank, with the full faith and credit of the United States Government on the principal and interest. The full credit subsidy shall be paid by the Secretary using appropriated funds.”

Subsec. (e). Pub. L. 110–329, §129(c)(2), substituted “Not later than 60 days after September 30, 2008, the Secretary shall promulgate an interim final rule establishing regulations that the Secretary deems necessary to administer this section and any loans made by the Secretary pursuant to this section. Such interim final rule shall require that,” for “The Secretary shall issue regulations that require that,”.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1624 of Title 2, The Congress.

Reconsideration of Prior Applications

“(1) timely filed under that section before January 1, 2009;

“(2) rejected on the basis that the vehicles to which the proposal related were not advanced technology vehicles; and

“(3) related to ultra efficient vehicles.”

§17014. Research and development into integrating electric vehicles onto the electric grid

(a) In general

The Secretary shall establish a research, development, and demonstration program to advance the integration of electric vehicles, including plug-in hybrid electric vehicles, onto the electric grid.

(b) Vehicles-to-grid integration assessment report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of a study that examines the research, development, and demonstration opportunities, challenges, and standards needed for integrating electric vehicles onto the electric grid.

(1) Report requirements

The report shall include—

(A) an evaluation of the use of electric vehicles to maintain the reliability of the electric grid, including—

(i) the use of electric vehicles for demand response, load shaping, emergency power, and frequency regulation; and

(ii) the potential for the reuse of spent electric vehicle batteries for stationary grid storage;

(B) the impact of grid integration on electric vehicles, including—

(i) the impact of bi-directional electricity flow on battery degradation; and

(ii) the implications of the use of electric vehicles for grid services on original equipment manufacturer warranties;

(C) the impacts to the electric grid of increased penetration of electric vehicles, including—

(i) the distribution grid infrastructure needed to support an increase in charging capacity;

(ii) strategies for integrating electric vehicles onto the distribution grid while limiting infrastructure upgrades;

(iii) the changes in electricity demand and pricing techniques;

(iv) the potential for customer incentives and other managed charging stations strategies to shift charging off-peak;

(v) the technology needed to achieve bi-directional power flow on the distribution grid; and

(vi) the implementation of smart charging techniques;

(D) research on the standards needed to integrate electric vehicles with the grid, including communications systems, protocols, and charging stations, in collaboration with the National Institute for Standards and Technology;

(E) the cybersecurity challenges and needs associated with electrifying the transportation sector; and

(F) an assessment of the feasibility of adopting technologies developed under the program established under subsection (a) at Department facilities.

(2) Recommendations

As part of the Vehicles-to-Grid Integration Assessment Report, the Secretary shall de-
§ 17021. Biomass-based diesel and biodiesel labeling

(a) In general

Each retail diesel fuel pump shall be labeled in a manner that informs consumers of the percent of biomass-based diesel or biodiesel that is contained in the biomass-based diesel blend or biodiesel blend that is offered for sale, as determined by the Federal Trade Commission.

(b) Labeling requirements

Not later than 180 days after December 19, 2007, the Federal Trade Commission shall promulgate biodiesel labeling requirements as follows:

1. Biomass-based diesel blends or biodiesel blends that contain less than or equal to 5 percent biomass-based diesel or biodiesel by volume and that meet ASTM D975 diesel specifications shall not require any additional labels.

2. Biomass-based diesel blends or biodiesel blends that contain more than 5 percent biomass-based diesel or biodiesel by volume but not more than 20 percent by volume shall be labeled “contains biomass-based diesel or biodiesel in quantities between 5 percent and 20 percent”.

3. Biomass-based diesel or biodiesel blends that contain more than 20 percent biomass based or biodiesel by volume shall be labeled “contains more than 20 percent biomass-based diesel or biodiesel.”

(c) Definitions

In this section:

1. ASTM

The term “ASTM” means the American Society of Testing and Materials.

2. Biomass-based diesel

The term “biomass-based diesel” means biodiesel as defined in section 13220(f) of this title.

3. Biodiesel

The term “biodiesel” means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(A) the registration requirements for fuels and fuel additives under this section; and

(B) the requirements of ASTM standard D6751.

4. Biomass-based diesel and biodiesel blends

The terms “biomass-based diesel blend” and “biodiesel blend” means a blend of “biomass-based diesel” or “biodiesel” fuel that is blended with petroleum-based diesel fuel.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17022. Grants for production of advanced biofuels

(a) In general

The Secretary of Energy shall establish a grant program to encourage the production of advanced biofuels.

(b) Requirements and priority

In making grants under this section, the Secretary—

1. shall make awards to the proposals for advanced biofuels with the greatest reduction in lifecycle greenhouse gas emissions compared to the comparable motor vehicle fuel lifecycle emissions during calendar year 2005; and

2. shall not make an award to a project that does not achieve at least an 80 percent reduc-
tion in such lifecycle greenhouse gas emissions.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $500,000,000 for the period of fiscal years 2008 through 2015, except that the amount authorized to be appropriated to carry out this section not appropriated as of October 2, 2013, shall be reduced by $6,000,000.

AMENDMENTS

2013—Subsec. (c). Pub. L. 113–40 inserted ‘‘, except that the amount authorized to be appropriated to carry out this section not appropriated as of October 2, 2013, shall be reduced by $6,000,000’’ before period at end.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—BIOFUELS RESEARCH AND DEVELOPMENT

§ 17031. Biodiesel

(a) Biodiesel study

Not later than 180 days after December 19, 2007, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall submit to Congress a report on any research and development challenges inherent in increasing the proportion of diesel fuel sold in the United States that is biodiesel.

(b) Material for the establishment of standards

The Director of the National Institute of Standards and Technology, in consultation with the Secretary, shall make publicly available the physical property data and characterization of biodiesel and other biofuels as appropriate.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17032. Grants for biofuel production research and development in certain States

(a) In general

The Secretary shall provide grants to eligible entities for research, development, demonstration, and commercial application of biofuel production technologies in States with low rates of ethanol production, including low rates of production of cellulosic biomass ethanol, as determined by the Secretary.

(b) Eligibility

To be eligible to receive a grant under this section, an entity shall—

(1)(A) be an institution of higher education (as defined in section 15801 of this title), including tribally controlled colleges or universities, located in a State described in subsection (a); or

(B) be a consortium including at least 1 such institution of higher education and industry, State agencies, Indian tribal agencies, National Laboratories, or local government agencies located in the State; and

(2) have proven experience and capabilities with relevant technologies.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for each of fiscal years 2008 through 2010.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17033. Biofuels and biorefinery information center

(a) In general

The Secretary, in cooperation with the Secretary of Agriculture, shall establish a biofuels and biorefinery information center to make available to interested parties information on—

(1) renewable fuel feedstocks, including the varieties of fuel capable of being produced from various feedstocks;

(2) biorefinery processing techniques related to various renewable fuel feedstocks;

(3) the distribution, blending, storage, and retail dispensing infrastructure necessary for the transport and use of renewable fuels;

(4) Federal and State laws and incentives related to renewable fuel production and use;

(5) renewable fuel research and development advancements;

(6) renewable fuel development and biorefinery processes and technologies;

(7) renewable fuel resources, including information on programs and incentives for renewable fuels;

(8) renewable fuel producers;

(9) renewable fuel users; and

(10) potential renewable fuel users.

(b) Administration

In administering the biofuels and biorefinery information center, the Secretary shall—

(1) continually update information provided by the center;

(2) make information available relating to processes and technologies for renewable fuel production;

(3) make information available to interested parties on the process for establishing a biorefinery; and

(4) make information and assistance provided by the center available through a toll-free telephone number and website.

(c) Coordination and nonduplication

To the maximum extent practicable, the Secretary shall ensure that the activities under this section are coordinated with, and do not duplicate the efforts of, centers at other government agencies.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.
§ 17034. Cellulosic ethanol and biofuels research
(a) Definition of eligible entity

In this section, the term “eligible entity” means—

(1) an 1890 Institution (as defined in section 7601 of title 7);
(2) a part B institution (as defined in section 1061 of title 20) (commonly referred to as “Historically Black Colleges and Universities”);
(3) a tribal college or university (as defined in section 1059c(b) of title 20); or
(4) a Hispanic-serving institution (as defined in section 1101a(a) of title 20).

(b) Grants

The Secretary shall make cellulosic ethanol and biofuels research and development grants to 10 eligible entities selected by the Secretary to receive a grant under this section through a peer-reviewed competitive process.

(c) Collaboration

An eligible entity that is selected to receive a grant under subsection (b) shall collaborate with 1 of the Bioenergy Research Centers of the Office of Science of the Department.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to make grants described in subsection (b) $2,000,000.

§ 17035. University based research and development grant program

(a) Establishment

The Secretary shall establish a competitive grant program, in a geographically diverse manner, for projects submitted for consideration by institutions of higher education to conduct research and development of renewable energy technologies. Each grant made shall not exceed $2,000,000.

(b) Eligibility

Priority shall be given to institutions of higher education with—

(1) established programs of research in renewable energy;
(2) locations that are low income or outside of an urbanized area;
(3) a joint venture with an Indian tribe; and
(4) proximity to trees dying of disease or insect infestation as a source of woody biomass.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary $25,000,000 for carrying out this section.

(d) Definitions

In this section:

(1) Indian tribe

The term “Indian tribe” has the meaning as defined in section 1824 of Title 2, The Congress.

(2) Renewable energy

The term “renewable energy” has the meaning as defined in section 16181 of this title.

(3) Urbanized area

The term “urbanized area” has the meaning as defined by the U.S. Bureau of the Census.

§ 17051. Renewable fuel dispenser requirements

(a) Market penetration reports

The Secretary, in consultation with the Secretary of Transportation, shall determine and report to Congress annually on the market penetration for flexible-fuel vehicles in use within geographic regions to be established by the Secretary.

(b) Dispenser feasibility study

Not later than 24 months after December 19, 2007, the Secretary, in consultation with the Department of Transportation, shall report to the Congress on the feasibility of requiring motor fuel retailers to install E-85 compatible dispensers and related systems at retail fuel facilities in regions where flexible-fuel vehicle market penetration has reached 15 percent of motor vehicles. In conducting such study, the Secretary shall consider and report on the following factors:

(1) The commercial availability of E-85 fuel and the number of competing E-85 wholesale suppliers in a given region.
(2) The level of financial assistance provided on an annual basis by the Federal Government, State governments, and nonprofit entities for the installation of E-85 compatible infrastructure.
(3) The number of retailers whose retail locations are unable to support more than 2 underground storage tank dispensers.
(4) The expense incurred by retailers in the installation and sale of E-85 compatible dispensers and related systems and any potential effects on the price of motor vehicle fuel.

§ 17052. Renewable fuel infrastructure grants

(a) Definition of renewable fuel blend

For purposes of this section, the term “renewable fuel blend” means a gasoline blend that
contains not less than 11 percent, and not more than 85 percent, renewable fuel or diesel fuel that contains at least 10 percent renewable fuel.

(b) Infrastructure development grants

(1) Establishment

The Secretary shall establish a program for making grants for providing assistance to retail and wholesale motor fuel dealers or other entities for the installation, replacement, or conversion of motor fuel storage and dispensing infrastructure to be used exclusively to store and dispense renewable fuel blends.

(2) Selection criteria

Not later than 12 months after December 19, 2007, the Secretary shall establish criteria for evaluating applications for grants under this subsection that will maximize the availability and use of renewable fuel blends, and that will ensure that renewable fuel blends are available across the country. Such criteria shall provide for—

(A) consideration of the public demand for each renewable fuel blend in a particular geographic area based on State registration records showing the number of flexible-fuel vehicles;

(B) consideration of the opportunity to create or expand corridors of renewable fuel blend stations along interstate or State highways;

(C) consideration of the experience of each applicant with previous, similar projects;

(D) consideration of population, number of flexible-fuel vehicles, number of retail fuel outlets, and saturation of flexible-fuel vehicles; and

(E) priority consideration to applications that—

(i) are most likely to maximize displacement of petroleum consumption, measured as a total quantity and a percentage;

(ii) are best able to incorporate existing infrastructure while maximizing, to the extent practicable, the use of renewable fuel blends; and

(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subsection is completed.

(3) Limitations

Assistance provided under this subsection shall not exceed—

(A) 33 percent of the estimated cost of the installation, replacement, or conversion of motor fuel storage and dispensing infrastructure; or

(B) $180,000 for a combination of equipment at any one retail outlet location.

(4) Operation of renewable fuel blend stations

The Secretary shall establish rules that set forth requirements for grant recipients under this section that include providing to the public the renewable fuel blends, establishing a marketing plan that informs consumers of the price and availability of the renewable fuel blends, clearly labeling the dispensers and related equipment, and providing periodic reports on the status of the renewable fuel blend sales, the type and amount of the renewable fuel blends dispensed at each location, and the average price of such fuel.

(5) Notification requirements

Not later than the date on which each renewable fuel blend station begins to offer renewable fuel blends to the public, the grant recipient that used grant funds to construct or upgrade such station shall notify the Secretary of such opening. The Secretary shall add each new renewable fuel blend station to the renewable fuel blend station locator on its Website when it receives notification under this subsection.

(6) Double counting

No person that receives a credit under section 30C of title 26 may receive assistance under this section.

(7) Reservation of funds

The Secretary shall reserve funds appropriated for the renewable fuel blends infrastructure development grant program for technical and marketing assistance described in subsection (c).

(c) Retail technical and marketing assistance

The Secretary shall enter into contracts with entities with demonstrated experience in assisting retail fueling stations in installing refueling systems and marketing renewable fuel blends nationally, for the provision of technical and marketing assistance to recipients of grants under this section. Such assistance shall include—

(1) technical advice for compliance with applicable Federal and State environmental requirements;

(2) help in identifying supply sources and securing long-term contracts; and

(3) provision of public outreach, education, and labeling materials.

(d) Refueling infrastructure corridors

(1) In general

The Secretary shall establish a competitive grant pilot program (referred to in this subsection as the “pilot program’’), to be administered through the Vehicle Technology Deployment Program of the Department, to provide not more than 10 geographically-dispersed project grants to State governments, Indian tribal governments, local governments, metropolitan transportation authorities, or partnerships of those entities to carry out 1 or more projects for the purposes described in paragraph (2).

(2) Grant purposes

A grant under this subsection shall be used for the establishment of refueling infrastructure corridors, as designated by the Secretary, for renewable fuel blends, including—

(A) installation of infrastructure and equipment necessary to ensure adequate distribution of renewable fuel blends within the corridor;

(B) installation of infrastructure and equipment necessary to directly support vehicles powered by renewable fuel blends; and
§ 17052

(3) Applications

(A) Requirements

(i) In general

Subject to clause (ii), not later than 90 days after December 19, 2007, the Secretary shall issue requirements for use in applying for grants under the pilot program.

(ii) Minimum requirements

At a minimum, the Secretary shall require that an application for a grant under this subsection—

(I) be submitted by—

(aa) the head of a State, tribal, or local government or a metropolitan transportation authority, or any combination of those entities; and

(bb) a registered participant in the Vehicle Technology Deployment Program of the Department; and

(II) include—

(aa) a description of the project proposed in the application, including the ways in which the project meets the requirements of this subsection;

(bb) an estimate of the degree of use of the project, including the estimated size of fleet of vehicles operated with renewable fuels blend available within the geographic region of the corridor, measured as a total quantity and a percentage;

(cc) an estimate of the potential petroleum displaced as a result of the project (measured as a total quantity and a percentage), and a plan to collect and disseminate petroleum displacement and other relevant data relating to the project to be funded under the grant, over the expected life of the project;

(dd) a description of the means by which the project will be sustainable without Federal assistance after the completion of the term of the grant;

(ee) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project; and

(ff) a description of which costs of the project will be supported by Federal assistance under this subsection.

(B) Partners

An applicant under subparagraph (A) may carry out a project under the pilot program in partnership with public and private entities.

(4) Selection criteria

In evaluating applications under the pilot program, the Secretary shall—

(A) consider the experience of each applicant with previous, similar projects; and

(B) give priority consideration to applications that—

(i) are most likely to maximize displacement of petroleum consumption, measured as a total quantity and a percentage;

(ii) are best able to incorporate existing infrastructure while maximizing, to the extent practicable, the use of advanced biofuels;

(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subsection is completed;

(iv) represent a partnership of public and private entities; and

(v) exceed the minimum requirements of paragraph (3)(A)(ii).

(5) Pilot project requirements

(A) Maximum amount

The Secretary shall provide not more than $30,000,000 in Federal assistance under the pilot program to any applicant.

(B) Cost sharing

The non-Federal share of the cost of any activity relating to renewable fuel blend infrastructure development carried out using funds from a grant under this subsection shall be not less than 20 percent.

(C) Maximum period of grants

The Secretary shall not provide funds to any applicant under the pilot program for more than 2 years.

(D) Deployment and distribution

The Secretary shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of project sites funded by grants under this subsection.

(E) Transfer of information and knowledge

The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(6) Schedule

(A) Initial grants

(i) In general

Not later than 90 days after December 19, 2007, the Secretary shall publish in the Federal Register, Commerce Business Daily, and such other publications as the Secretary considers to be appropriate, a notice and request for applications to carry out projects under the pilot program.

(ii) Deadline

An application described in clause (i) shall be submitted to the Secretary by not later than 180 days after the date of publication of the notice under that clause.

(iii) Initial selection

Not later than 90 days after the date by which applications for grants are due

(C) operation and maintenance of infrastructure and equipment installed as part of a project funded by the grant.
under clause (ii), the Secretary shall select by competitive, peer-reviewed proposal up to 5 applications for projects to be awarded a grant under the pilot program.

(B) Additional grants

(i) In general
Not later than 2 years after December 19, 2007, the Secretary shall publish in the Federal Register, Commerce Business Daily, and such other publications as the Secretary considers to be appropriate, a notice and request for additional applications to carry out projects under the pilot program that incorporate the information and knowledge obtained through the implementation of the first round of projects authorized under the pilot program.

(ii) Deadline
An application described in clause (i) shall be submitted to the Secretary by not later than 180 days after the date of publication of the notice under that clause.

(iii) Initial selection
Not later than 90 days after the date by which applications for grants are due under clause (ii), the Secretary shall select by competitive, peer-reviewed proposal such additional applications for projects to be awarded a grant under the pilot program as the Secretary determines to be appropriate.

(7) Reports to Congress

(A) Initial report
Not later than 60 days after the date on which grants are awarded under this subsection, the Secretary shall submit to Congress a report containing—

(i) an identification of the grant recipients and a description of the projects to be funded under the pilot program;

(ii) an identification of other applicants that submitted applications for the pilot program but to which funding was not provided; and

(iii) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(B) Evaluation
Not later than 2 years after December 19, 2007, and annually thereafter until the termination of the pilot program, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including an assessment of the petroleum displacement and benefits to the environment derived from the projects included in the pilot program.

(e) Restriction
No grant shall be provided under subsection (b) or (c) to a large, vertically integrated oil company.

(f) Authorization of appropriations
There are authorized to be appropriated to the Secretary for carrying out this section $200,000,000 for each of the fiscal years 2008 through 2014.

Effectiveness Date
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17053. Federal fleet fueling centers

(a) In general
Not later than January 1, 2010, the head of each Federal agency shall install at least 1 renewable fuel pump at each Federal fleet fueling center in the United States under the jurisdiction of the head of the Federal agency.

(b) Report
Not later than October 31 of the first calendar year beginning after December 19, 2007, and each October 31 thereafter, the President shall submit to Congress a report that describes the progress toward complying with subsection (a), including identifying—

(1) the number of Federal fleet fueling centers that contain at least 1 renewable fuel pump; and

(2) the number of Federal fleet fueling centers that do not contain any renewable fuel pumps.

(c) Department of Defense facility
This section shall not apply to a Department of Defense fueling center with a fuel turnover rate of less than 100,000 gallons of fuel per year.

(d) Authorization of appropriations
There are authorized to be appropriated such sums as are necessary to carry out this section.

Effectiveness Date
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17054. Biofuels distribution and advanced biofuels infrastructure

(a) In general
The Secretary, in coordination with the Secretary of Transportation and in consultation with the Administrator of the Environmental Protection Agency, shall carry out a program of research, development, and demonstration relating to existing transportation fuel distribution infrastructure and new alternative distribution infrastructure.

(b) Focus
The program described in subsection (a) shall focus on the physical and chemical properties of biofuels and efforts to prevent or mitigate against adverse impacts of those properties in the areas of—

(1) corrosion of metal, plastic, rubber, cork, fiberglass, glues, or any other material used in pipes and storage tanks;
§ 17061. Definitions

(2) dissolving of storage tank sediments;
(3) clogging of filters;
(4) contamination from water or other adulterants or pollutants;
(5) poor flow properties related to low temperatures;
(6) oxidative and thermal instability in long-term storage and uses;
(7) microbial contamination;
(8) problems associated with electrical conductivity; and
(9) such other areas as the Secretary considers appropriate.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER III—ENERGY SAVINGS IN BUILDINGS AND INDUSTRY

§ 17061. Definitions

In this title: ¹

(1) Administrator

The term “Administrator” means the Administrator of General Services.

(2) Advisory Committee

The term “Advisory Committee” means the Green Building Advisory Committee established under section 484.¹

(3) Commercial Director

The term “Commercial Director” means the individual appointed to the position established under section 17081 of this title.

(4) Consortium

The term “Consortium” means the High-Performance Green Building Partnership Consortium created in response to section 17092(a) of this title, that represents the private sector in a public-private partnership to promote high-performance green buildings and zero-net-energy commercial buildings.

(5) Cost-effective lighting technology

(A) In general

The term “cost-effective lighting technology” means a lighting technology that—
(i) will result in substantial operational cost savings by ensuring an installed consumption of not more than 1 watt per square foot; or
(ii) is contained in a list under—
(I) section 8259b of this title;
(II) Federal acquisition regulation 23–203; and
(III) is at least as energy-conserving as required by other provisions of this Act, including the requirements of this title¹ and title III¹ which shall be applicable to the extent that they would achieve greater energy savings than provided under clause (i) or this clause.²

(B) Inclusions

The term “cost-effective lighting technology” includes—
(i) lamps;
(ii) ballasts;
(iii) luminaires;
(iv) lighting controls;
(v) daylighting; and
(vi) early use of other highly cost-effective lighting technologies.

(6) Cost-effective technologies and practices

The term “cost-effective technologies and practices” means a technology or practice that—
(A) will result in substantial operational cost savings by reducing electricity or fossil fuel consumption, water, or other utility costs, including use of geothermal heat pumps;
(B) complies with the provisions of section 8259b of this title and Federal acquisition regulation 23–203; and
(C) is at least as energy and water conserving as required under this title,¹ including sections 431 through 435, and title V,¹ including sections 511 through 525, which shall be applicable to the extent that they are more stringent or require greater energy or water savings than required by this section.

(7) Federal Director

The term “Federal Director” means the individual appointed to the position established under section 17092(a) of this title.

(8) Federal facility

The term “Federal facility” means any building that is constructed, renovated, leased, or purchased in part or in whole for use by the Federal Government.

(9) Operational cost savings

(A) In general

The term “operational cost savings” means a reduction in end-use operational costs through the application of cost-effective technologies and practices or geothermal heat pumps, including a reduction in electricity consumption relative to consumption by the same customer or at the same facility in a given year, as defined in guidelines promulgated by the Administrator pursuant to section 7628(b) of this title, that achieves cost savings sufficient to pay the incremental additional costs of using cost-effective technologies and practices including geothermal heat pumps by not later than the later of the date established under sections 431 through 434,¹ or—
(i) for cost-effective technologies and practices, the date that is 5 years after the date of installation; and
(ii) for geothermal heat pumps, as soon as practical after the date of installation of the applicable geothermal heat pump.

(B) Inclusions

The term “operational cost savings” includes savings achieved at a facility as a result of—
(i) the installation or use of cost-effective technologies and practices; or

¹See References in Text note below.
²So in original. Does not fit with cl. (ii) introductory provision.
(ii) the planting of vegetation that shades the facility and reduces the heating, cooling, or lighting needs of the facility.

(C) Exclusion

The term “operational cost savings” does not include savings from measures that would likely be adopted in the absence of cost-effective technology and practices programs, as determined by the Administrator.

(10) Geothermal heat pump

The term “geothermal heat pump” means any heating or air conditioning technology that—

(A) uses the ground or ground water as a thermal energy source to heat, or as a thermal energy sink to cool, a building; and

(B) meets the requirements of the Energy Star program of the Environmental Protection Agency applicable to geothermal heat pumps on the date of purchase of the technology.

(11) GSA facility

(A) In general

The term “GSA facility” means any building, structure, or facility, in whole or in part (including the associated support systems of the building, structure, or facility) that—

(i) is constructed (including facilities constructed for lease), renovated, or purchased, in whole or in part, by the Administrator for use by the Federal Government; or

(ii) is leased, in whole or in part, by the Administrator for use by the Federal Government

(I) except as provided in subclause (II), for a term of not less than 5 years; or

(II) for a term of less than 5 years, if the Administrator determines that use of cost-effective technologies and practices would result in the payback of expenses.

(B) Inclusion

The term “GSA facility” includes any group of buildings, structures, or facilities described in subparagraph (A) (including the associated energy-consuming support systems of the buildings, structures, and facilities).

(C) Exemption

The Administrator may exempt from the definition of “GSA facility” under this paragraph a building, structure, or facility that meets the requirements of section 8233(c) of this title.

(12) High-performance building

The term “high-performance building” means a building that integrates and optimizes on a life cycle basis all major high performance attributes, including energy conservation, environment, safety, security, durability, accessibility, cost-benefit, productivity, sustainability, functionality, and operational considerations.

(13) High-performance green building

The term “high-performance green building” means a high-performance building that, during its life-cycle, as compared with similar buildings (as measured by Commercial Buildings Energy Consumption Survey or Residential Energy Consumption Survey data from the Energy Information Agency)—

(A) reduces energy, water, and material resource use;

(B) improves indoor environmental quality, including reducing indoor pollution, improving thermal comfort, and improving lighting and acoustic environments that affect occupant health and productivity;

(C) reduces negative impacts on the environment throughout the life-cycle of the building, including air and water pollution and waste generation;

(D) increases the use of environmentally preferable products, including biobased, recycled content, and nontoxic products with lower life-cycle impacts;

(E) increases reuse and recycling opportunities;

(F) integrates systems in the building;

(G) reduces the environmental and energy impacts of transportation through building location and site design that support a full range of transportation choices for users of the building; and

(H) considers indoor and outdoor effects of the building on human health and the environment, including—

(i) improvements in worker productivity;

(ii) the life-cycle impacts of building materials and operations; and

(iii) other factors that the Federal Director or the Commercial Director consider to be appropriate.

(14) Life-cycle

The term “life-cycle”, with respect to a high-performance green building, means all stages of the useful life of the building (including components, equipment, systems, and controls of the building) beginning at conception of a high-performance green building project and continuing through site selection, design, construction, landscaping, commissioning, operation, maintenance, deconstruction or demolition, removal, and recycling of the high-performance green building.

(15) Life-cycle assessment

The term “life-cycle assessment” means a comprehensive system approach for measuring the environmental performance of a product or service over the life of the product or service, beginning at raw materials acquisition and continuing through manufacturing, transportation, installation, use, reuse, and end-of-life waste management.

(16) Life-cycle costing

The term “life-cycle costing”, with respect to a high-performance green building, means a technique of economic evaluation that—

(A) sums, over a given study period, the costs of initial investment (less resale value), replacements, operations (including energy use), and maintenance and repair of an investment decision; and

(B) is expressed—
§ 17062 TITLE 42—THE PUBLIC HEALTH AND WELFARE

(i) in present value terms, in the case of a study period equivalent to the longest useful life of the building, determined by taking into consideration the typical life of such a building in the area in which the building is to be located; or
(ii) in annual value terms, in the case of any other study period.

(17) Office of Commercial High-Performance Green Buildings

The term “Office of Commercial High-Performance Green Buildings” means the Office of Commercial High-Performance Green Buildings established under section 17091(a) of this title.

(18) Office of Federal High-Performance Green Buildings

The term “Office of Federal High-Performance Green Buildings” means the Office of Federal High-Performance Green Buildings established under section 17092(a) of this title.

(19) Practices

The term “practices” means design, financing, permitting, construction, commissioning, operation and maintenance, and other practices that contribute to achieving zero-net-energy buildings or facilities.

(20) Zero-net-energy commercial building

The term “zero-net-energy commercial building” means a commercial building that is designed, constructed, and operated to—
(A) require a greatly reduced quantity of energy to operate;
(B) meet the balance of energy needs from sources of energy that do not produce greenhouse gases;
(C) therefore result in no net emissions of greenhouse gases; and
(D) be economically viable.

This title, referred to in text, is title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1596, which enacted this chapter and enacted provisions set out as a note under section 6834 of this title. Sections 431 through 435, referred to in pars. (6)(C) and (9)(A), are sections 431 to 435 of Pub. L. 110–140. Sections 431 to 434 amended sections 6832, 6834, and 8253 of this title and enacted provisions set out as a note under section 6834 of this title. Section 435 enacted section 17091 of this title.

Title V, referred to in par. (6)(C), is title V of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1655, which enacted subsection IV of chapter 77 of this title, sections 6371h–1 and 7628 of this title, section 2162 of Title 2, title V, and subsections (a) through (k) of title V of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1655, which enacted subchapter IV of chapter 77 of this title, and sections 1824, 2162a, and 2169 of Title 2, the Congress, amended sections 6335, 6834, 6836, 6838, 8259, 8259h, 8267, and 8267c of this title, section 2162 of Title 2, section 2913 of Title 10, Armed Forces, section 3203 of Title 15, Commerce and Trade, and section 2621 of Title 16, Conservation, and enacted provisions set out as a note under section 8259h of this title. For complete classification of title V to the Code, see Tables.

Sections 511 through 525, referred to in par. (6)(C), are sections 511 to 525 of Pub. L. 110–140, which enacted part A (§ 17131) of subchapter IV of this chapter and section 17141 of this title, amended sections 6834, 8256, 8258, 8259, 8259h, 8267, and 8267c of this title and section 2913 of Title 10, Armed Forces, and enacted provisions set out as a note under section 8259h of this title.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, the Congress.

§ 17062. Energy efficiency in Federal and other buildings

(a) Definitions

In this section:

(1) Administrator

The term “Administrator” means the Administrator of General Services.

(2) Cost-effective energy efficiency measure

The term “cost-effective energy efficiency measure” means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides energy savings in an amount that is not less than the cost of such installing, implementing, or operating.

(3) Cost-effective water efficiency measure

The term “cost-effective water efficiency measure” means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides water savings in an amount that is not less than the cost of such installing, implementing, or operating.

(b) Model provisions, policies, and best practices

(1) In general

Not later than 180 days after April 30, 2015, the Administrator, in consultation with the Secretary of Energy and after providing the public with an opportunity for notice and comment, shall develop model commercial leasing provisions and best practices in accordance with this subsection.

(2) Commercial leasing

(A) In general

The model commercial leasing provisions developed under this subsection shall, at a minimum, align the interests of building owners and tenants with regard to invest-
ments in cost-effective energy efficiency measures and cost-effective water efficiency measures to encourage building owners and tenants to collaborate to invest in such measures.

(B) Use of model provisions

The Administrator may use the model commercial leasing provisions developed under this subsection in any standard leasing document that designates a Federal agency (or other client of the Administrator) as a landlord or tenant.

(C) Publication

The Administrator shall periodically publish the model commercial leasing provisions developed under this subsection, along with explanatory materials, to encourage building owners and tenants in the private sector to use such provisions and materials.

(3) Realty services

The Administrator shall develop policies and practices to implement cost-effective energy efficiency measures and cost-effective water efficiency measures for the realty services provided by the Administrator to Federal agencies (or other clients of the Administrator), including periodic training of appropriate Federal employees and contractors on how to identify and evaluate those measures.

(4) State and local assistance

The Administrator, in consultation with the Secretary of Energy, shall make available model commercial leasing provisions and best practices developed under this subsection to State, county, and municipal governments for use in managing owned and leased building space in accordance with the goal of encouraging investment in all cost-effective energy efficiency measures and cost-effective water efficiency measures.

CODIFICATION

Section was enacted as part of the Better Buildings Act of 2015, and also as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17063. Energy information for commercial buildings

(a) Omitted

(b) Study

(1) In general

Not later than 2 years after April 30, 2015, the Secretary of Energy, in collaboration with the Administrator of the Environmental Protection Agency, shall complete a study—

(A) on the impact of—

(i) State and local performance benchmarking and disclosure policies, and

(ii) programs and systems in which utilities provide aggregated information regarding whole building energy consumption and usage information to owners of multitenant commercial, residential, and mixed-use buildings;

(B) that identifies best practice policy approaches studied under subparagraph (A) that have resulted in the greatest improvements in building energy efficiency; and

(C) that considers—

(i) compliance rates and the benefits and costs of the policies and programs on building owners, utilities, tenants, and other parties;

(ii) utility practices, programs, and systems that provide aggregated energy consumption information to multitenant building owners, and the impact of public utility commissions and State privacy laws on those practices, programs, and systems;

(iii) exceptions to compliance in existing laws where building owners are not able to gather or access whole building energy information from tenants or utilities;

(iv) the treatment of buildings with—

(I) multiple uses;

(II) uses for which baseline information is not available; and

(III) uses that require high levels of energy intensities, such as data centers, trading floors, and televisions;

(v) implementation practices, including disclosure methods and phase-in of compliance;

(vi) the safety and security of benchmarking tools offered by government agencies, and the resiliency of those tools against cyber attacks; and

(vii) international experiences with regard to building benchmarking and disclosure laws and data aggregation for multitenant buildings.

(2) Submission to Congress

At the conclusion of the study, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the results of the study.

(c) Creation and maintenance of database

(1) In general

Not later than 18 months after April 30, 2015, and following opportunity for public notice and comment, the Secretary of Energy, in coordination with other relevant agencies, shall maintain, and if necessary create, a database for the purpose of storing and making available public energy-related information on commercial and multifamily buildings, including—

(A) data provided under Federal, State, local, and other laws or programs regarding building benchmarking and energy information disclosure;

(B) information on buildings that have disclosed energy ratings and certifications; and

1So in original. Probably should be “television.”
§ 17064. Smart building acceleration

(a) Definitions
In this section:

(1) Department
The term “Department” means the Department of Energy.

(2) Program
The term “program” means the Federal Smart Building Program established under subsection (b)(1).

(3) Secretary
The term “Secretary” means the Secretary of Energy.

(4) Smart building
The term “smart building” means a building or collection of buildings, with an energy system that—

(A) is flexible and automated;

(B) has extensive operational monitoring and communication connectivity, allowing remote monitoring and analysis of all building functions;

(C) takes a systems-based approach in integrating the overall building operations for control of energy generation, consumption, and storage;

(D) communicates with utilities and other third-party commercial entities, if appropriate;

(E) protects the health and safety of occupants and workers; and

(F) incorporates cybersecurity best practices.

(5) Smart building accelerator
The term “smart building accelerator” means an initiative that is designed to demonstrate specific innovative policies and approaches—

(A) with clear goals and a clear timeline; and

(B) that, on successful demonstration, would accelerate investment in energy efficiency.

(b) Federal Smart Building Program

(1) Establishment
Not later than 1 year after December 27, 2020, the Secretary shall, in consultation with the Administrator of General Services, establish a program to be known as the “Federal Smart Building Program”—

(A) to implement smart building technology; and

(B) to demonstrate the costs and benefits of smart buildings.

(2) Selection

(A) In general
The Secretary shall coordinate the selection of not fewer than 1 building from among each of several key Federal agencies, as described in paragraph (4), to compose an appropriately diverse set of smart buildings based on size, type, and geographic location.

(B) Inclusion of commercially operated buildings
In making selections under subparagraph (A), the Secretary may include buildings that are owned by the Federal Government but are commercially operated.

(3) Targets
Not later than 18 months after December 27, 2020, the Secretary shall establish targets for the number of smart buildings to be commissioned and evaluated by key Federal agencies by 3 years and 6 years after December 27, 2020.

(4) Federal agency described
The key Federal agencies referred to paragraph (2)(A) shall include buildings operated by—

(A) the Department of the Army;

(B) the Department of the Navy;

(C) the Department of the Air Force;

(D) the Department;

(E) the Department of the Interior;

(F) the Department of Veterans Affairs; and

(G) the General Services Administration.

(5) Requirement
In implementing the program, the Secretary shall leverage existing financing mechanisms including energy savings performance contracts, utility energy service contracts, and annual appropriations.

(6) Evaluation
Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected...
under paragraph (2), including an identification of—
   (A) which advanced building technologies—
      (i) are most cost-effective; and
      (ii) show the most promise for—
         (I) increasing building energy savings;
         (II) increasing service performance to
            building occupants;
         (III) reducing environmental impacts; and
         (IV) establishing cybersecurity; and
   (B) any other information the Secretary determines to be appropriate.

(7) Awards
The Secretary may expand awards made under the Federal Energy Management Pro-
gram and the Better Building Challenge to recognize specific agency achievements in ac-
celerating the adoption of smart building technologies.

(c) Survey of private sector smart buildings
(1) Survey
   The Secretary shall conduct a survey of pri-
vately owned smart buildings throughout the
United States, including commercial build-
ings, laboratory facilities, hospitals, multi-
family residential buildings, and buildings
owned by nonprofit organizations and institu-
tions of higher education.

(2) Selection
   From among the smart buildings surveyed
under paragraph (1), the Secretary shall select
not fewer than 1 building each from an appro-
priate range of building sizes, types, and geo-
graphic locations.

(3) Evaluation
   Using the guidelines of the Federal Energy
Management Program relating to whole-build-
ing performance, measurement, and verifi-
cation, the Secretary shall evaluate the
 costs and benefits of the buildings selected
under paragraph (2), including an identifica-
tion of—
   (A) which advanced building technologies
      and systems—
      (i) are most cost-effective; and
      (ii) show the most promise for—
         (I) increasing building energy savings;
         (II) increasing service performance to
            building occupants;
         (III) reducing environmental impacts; and
         (IV) establishing cybersecurity; and
   (B) any other information the Secretary
determines to be appropriate.

(d) Better building challenge
   As part of the Better Building Challenge of the
Department, the Secretary, in consultation with
major private sector property owners, shall de-
velop and accelerate smart building accelerators to
demonstrate innovative policies and approaches that
will accelerate the transition to smart buildings
in the public, institutional, and commercial
buildings sectors.

(e) Omitted

(f) Report
   Not later than 2 years after December 27, 2020,
and every 2 years thereafter until a total of 3 re-
ports have been made, the Secretary shall sub-
mitt to the Committee on Energy and Natural
Resources of the Senate and the Committee on
Energy and Commerce and the Committee on
Science, Space, and Technology of the House of
Representatives a report on—
   (1) the establishment of the Federal Smart
Building Program and the evaluation of Fed-
eral smart buildings under subsection (b);
   (2) the survey and evaluation of private sec-
tor smart buildings under subsection (c); and
   (3) any recommendations of the Secretary to
further accelerate the transition to smart
buildings.

2020, 134 Stat. 2433.)

CODIFICATION
Section is comprised of section 1007 of Pub. L. 116–260.
Subsec. (e) of section 1007 of Pub. L. 116–260 enacted sec-
tion 1007 of this title.
Section was enacted as part of the Energy Act of 2020,
and not as part of the Energy Independence and Secu-
rit y Act of 2007 which comprises this chapter.

PART A—RESIDENTIAL BUILDING EFFICIENCY

§ 17071. Energy Code improvements applicable to
manufactured housing

(a) Establishment of standards
(1) In general
   Not later than 4 years after December 19,
2007, the Secretary shall by regulation estab-
lish standards for energy efficiency in manu-
factured housing.

(2) Notice, comment, and consultation
   Standards described in paragraph (1) shall be
established after—
   (A) notice and an opportunity for comment
by manufacturers of manufactured housing
and other interested parties; and
   (B) consultation with the Secretary of
Housing and Urban Development, who may
seek further counsel from the Manufactured
Housing Consensus Committee.

(b) Requirements
(1) International Energy Conservation Code
   The energy conservation standards estab-
lished under this section shall be based on the
most recent version of the International En-
ergy Conservation Code (including supple-
ments), except in cases in which the Secretary
finds that the code is not cost-effective, or a
more stringent standard would be more cost-
effective, based on the impact of the code on
the purchase price of manufactured housing
and on total life-cycle construction and oper-
ating costs.

(2) Considerations
   The energy conservation standards estab-
lished under this section may—
   1So in original. Probably should be “Code”.

1
§ 17081
Commercial High-Performance Green Buildings

(a) Director of Commercial High-Performance Green Buildings

Notwithstanding any other provision of law, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall appoint a Director of Commercial High-Performance Green Buildings to a position in the career-reserved Senior Executive service, with the principal responsibility to—

(1) establish and manage the Office of Commercial High-Performance Green Buildings; and

(2) carry out other duties as required under this part.

(b) Qualifications

The Commercial Director shall be an individual, who by reason of professional background and experience, is specifically qualified to carry out the duties required under this part.

(c) Duties

The Commercial Director shall, with respect to development of high-performance green buildings and zero-energy commercial buildings nationwide—

(1) coordinate the activities of the Office of Commercial High-Performance Green Buildings with the activities of the Office of Federal High-Performance Green Buildings;

(2) develop the legal predicates and agreements for, negotiate, and establish one or more public-private partnerships with the Consortium, members of the Consortium, and other capable parties meeting the qualifications of the Consortium, to further such development;

(3) represent the public and the Department in negotiating and performing in accord with such public-private partnerships;

(4) use appropriated funds in an effective manner to encourage the maximum investment of private funds to achieve such development;

(5) promote research and development of high-performance green buildings, consistent with section 17083 of this title; and

(6) jointly establish with the Federal Director a national high-performance green building clearinghouse in accordance with section 17083(1) of this title, which shall provide high-performance green building information and disseminate research results through—

(A) outreach;

(B) education; and

(C) the provision of technical assistance.

(d) Reporting

The Commercial Director shall report directly to the Assistant Secretary for Energy Efficiency and Renewable Energy, or to other senior officials in a way that facilitates the integrated program of this part for both energy efficiency and renewable energy and both technology development and technology deployment.

(e) Coordination

The Commercial Director shall ensure full coordination of high-performance green building information and activities, including activities under this part, within the Federal Government by working with the General Services Administration and all relevant agencies, including, at a minimum—

(1) the Environmental Protection Agency;

(2) the Office of the Federal Environmental Executive;

(3) the Office of Federal Procurement Policy;

(4) the Department of Energy, particularly the Federal Energy Management Program;

(5) the Department of Health and Human Services;

(6) the Department of Housing and Urban Development;

(7) the Department of Defense;

(8) the National Institute of Standards and Technology;

(9) the Department of Transportation;

(10) the Office of Science Technology and Policy; and

(11) such nonprofit high-performance green building rating and analysis entities as the Commercial Director determines can offer support, expertise, and review services.

(f) High-Performance Green Building Partnership Consortium

(1) Recognition

Not later than 90 days after December 19, 2007, the Commercial Director shall formally recognize one or more groups that qualify as a high-performance green building partnership consortium.

(2) Representation to qualify

To qualify under this section, any consortium shall include representation from—
(A) the design professions, including national associations of architects and of professional engineers;
(B) the development, construction, financial, and real estate industries;
(C) building owners and operators from the public and private sectors;
(D) academic and research organizations, including at least one national laboratory with extensive commercial building expertise;
(E) building code agencies and organizations, including a model energy code-setting organization;
(F) independent high-performance green building associations or councils;
(G) experts in indoor air quality and environmental factors;
(H) experts in intelligent buildings and integrated building information systems;
(I) utility energy efficiency programs;
(J) manufacturers and providers of equipment and techniques used in high-performance green buildings;
(K) public transportation industry experts; and
(L) nongovernmental energy efficiency organizations.

(3) Funding
The Secretary may make payments to the Consortium pursuant to the terms of a public-private partnership for such activities of the Consortium undertaken under such a partnership as described in this part directly to the Consortium or through one or more of its members.

(g) Report
Not later than 2 years after December 19, 2007, and biennially thereafter, the Commercial Director, in consultation with the Consortium, shall submit to Congress a report that—
(1) describes the status of the high-performance building initiatives under this part and other Federal programs affecting commercial high-performance green buildings in effect as of the date of the report, including—
(A) the extent to which the programs are being carried out in accordance with this part; and
(B) the status of funding requests and appropriations for those programs; and
(2) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives).

CHANGE OF NAME
Office of the Federal Environmental Executive reestablished as the Office of the Chief Sustainability Officer by Ex. Ord. No. 13893, § 6, Mar. 19, 2015, 80 F.R. 15677, set out in a note under section 4321 of this title.

EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
(1) conduct research and development on building science, design, materials, components, equipment and controls, operation and other practices, integration, energy use measurement, and benchmarking;

(2) conduct pilot programs and demonstration projects to evaluate replicable approaches to achieving energy efficient commercial buildings for a variety of building types in a variety of climate zones;

(3) conduct deployment, dissemination, and technical assistance activities to encourage widespread adoption of technologies, practices, and policies to achieve energy efficient commercial buildings;

(4) conduct other research, development, demonstration, and deployment activities necessary to achieve each goal of the initiative, as determined by the Commercial Director, in consultation with the consortium;

(5) develop training materials and courses for building professionals and trades on achieving cost-effective high-performance energy efficient buildings;

(6) develop and disseminate public education materials to share information on the benefits and cost-effectiveness of high-performance energy efficient buildings;

(7) support code-setting organizations and State and local governments in developing minimum performance standards in building codes that recognize the ready availability of many technologies utilized in high-performance energy efficient buildings;

(8) develop strategies for overcoming the split incentives between builders and purchasers, and landlords and tenants, to ensure that energy efficiency and high-performance investments are made that are cost-effective on a lifecycle basis; and

(9) develop improved means of measurement and verification of energy savings and performance for public dissemination.

(e) Cost sharing

In carrying out this section, the Commercial Director shall require cost sharing in accordance with section 16352 of this title.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2008;

(2) $50,000,000 for each of fiscal years 2009 and 2010;

(3) $100,000,000 for each of fiscal years 2011 and 2012; and

(4) $200,000,000 for each of fiscal years 2013 through 2018.

§ 17084. Separate spaces with high-performance energy efficiency measures

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term “high-performance energy efficiency measure” means a technology, product, or practice that will result in substantial operational cost savings by reducing energy consumption and utility costs.

(2) Separate spaces

The term “separate spaces” means areas within a commercial building that are leased or otherwise occupied by a tenant or other oc-
cuppant for a period of time pursuant to the terms of a written agreement.

(b) Study

(1) In general

Not later than 1 year after April 30, 2015, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall complete a study on the feasibility of—

(A) significantly improving energy efficiency in commercial buildings through the design and construction, by owners and tenants, of separate spaces with high-performance energy efficiency measures; and

(B) encouraging owners and tenants to implement high-performance energy efficiency measures in separate spaces.

(2) Scope

The study shall, at a minimum, include—

(A) descriptions of—

(i) high-performance energy efficiency measures that should be considered as part of the initial design and construction of separate spaces;

(ii) processes that owners, tenants, architects, and engineers may replicate when designing and constructing separate spaces with high-performance energy efficiency measures;

(iii) policies and best practices to achieve reductions in energy intensities for lighting, plug loads, heating, cooling, cooking, laundry, and other systems to satisfy the needs of the commercial building tenant;

(iv) return on investment and payback analyses of the incremental cost and projected energy savings of the proposed set of high-performance energy efficiency measures, including consideration of available incentives;

(v) models and simulation methods that predict the quantity of energy used by separate spaces with high-performance energy efficiency measures and that compare that predicted quantity to the quantity of energy used by separate spaces without high-performance energy efficiency measures but that otherwise comply with applicable building code requirements;

(vi) measurement and verification platforms demonstrating actual energy use of high-performance energy efficiency measures installed in separate spaces, and whether such measures generate the savings intended in the initial design and construction of the separate spaces:

(vii) best practices that encourage an integrated approach to designing and constructing separate spaces to perform at optimum energy efficiency in conjunction with the central systems of a commercial building; and

(viii) any impact on employment resulting from the design and construction of separate spaces with high-performance energy efficiency measures; and

(B) case studies reporting economic and energy savings returns in the design and construction of separate spaces with high-performance energy efficiency measures.

(3) Public participation

Not later than 90 days after April 30, 2015, the Secretary shall publish a notice in the Federal Register requesting public comments regarding effective methods, measures, and practices for the design and construction of separate spaces with high-performance energy efficiency measures.

(4) Publication

The Secretary shall publish the study on the website of the Department of Energy.

§ 17085. Tenant Star program

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term “high-performance energy efficiency measure” has the meaning given the term in section 17084 of this title.

(2) Separate spaces

The term “separate spaces” has the meaning given the term in section 17084 of this title.

(b) Tenant Star

The Administrator of the Environmental Protection Agency, in consultation with the Secretary of Energy, shall develop a voluntary program within the Energy Star program established by section 6294a of this title, which may be known as “Tenant Star”, to promote energy efficiency in separate spaces leased by tenants or otherwise occupied within commercial buildings.

(c) Expanding survey data

The Secretary of Energy, acting through the Administrator of the Energy Information Administration, shall—

(1) collect, through each Commercial Buildings Energy Consumption Survey of the Energy Information Administration that is conducted after April 30, 2015, data on—

(A) categories of building occupancy that are known to consume significant quantities of energy, such as occupancy by data centers, trading floors, and restaurants; and

(B) other aspects of the property, building operation, or building occupancy determined by the Administrator of the Energy Information Administration, in consultation with the Administrator of the Environmental Protection Agency, to be relevant in lowering energy consumption;

(2) with respect to the first Commercial Buildings Energy Consumption Survey conducted after April 30, 2015, to the extent full compliance with the requirements of paragraph (1) is not feasible, conduct activities to develop the capability to collect such data and begin to collect such data; and

(3) make data collected under paragraphs (1) and (2) available to the public in aggregated
form and provide such data, and any associated results, to the Administrator of the Environmental Protection Agency for use in accordance with subsection (d).

(d) Recognition of owners and tenants

(1) Occupancy-based recognition

Not later than 1 year after the date on which sufficient data is received pursuant to subsection (c), the Administrator of the Environmental Protection Agency shall, following an opportunity for public notice and comment—

(A) in a manner similar to the Energy Star rating system for commercial buildings, develop policies and procedures to recognize tenants in commercial buildings that voluntarily achieve high levels of energy efficiency in separate spaces; 

(B) establish building occupancy categories eligible for Tenant Star recognition based on the data collected under subsection (c) and any other appropriate data sources; and

(C) consider other forms of recognition for commercial building tenants or other occupants that lower energy consumption in separate spaces.

(2) Design- and construction-based recognition

After the study required by section 17084(b) of this title is completed, the Administrator of the Environmental Protection Agency, in consultation with the Secretary and following an opportunity for public notice and comment, may develop a voluntary program to recognize commercial building owners and tenants that use high-performance energy efficiency measures in the design and construction of separate spaces.

§ 17086. Advanced integration of buildings onto the electric grid

(a) In general

The Secretary shall establish a program of research, development, and demonstration to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid. The program shall focus on—

(1) developing low-cost, low power, wireless sensors to—

(A) monitor building energy load;

(B) forecast building energy need; and

(C) enable building-level energy control;

(2) developing data management capabilities and standard communication protocols to further interoperability at the building and grid-level;

(3) developing advanced building-level energy management of components through integration of smart technologies, control systems, and data processing, to enable energy efficiency and savings;

(4) optimizing energy consumption at the building level to enable grid stability and resilience;

(5) improving visualization of behind the meter equipment and technologies to provide better insight into the energy needs and energy forecasts of individual buildings;

(6) reducing the cost of key components to accelerate the adoption of smart building technologies;

(7) protecting against cybersecurity threats and addressing security vulnerabilities of building systems or equipment; and

(8) other areas determined appropriate by the Secretary.

(b) Considerations

In carrying out the program under subsection (a), the Secretary shall—

(1) work with utility partners, building owners, technology vendors, and building developers to test and validate technologies and encourage the commercial application of these technologies by building owners; and

(2) consider the specific challenges of enabling greater interaction between components of—

(A) small- and medium-sized buildings and the electric grid; and

(B) residential and commercial buildings and the electric grid.

(c) Buildings-to-grid integration report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of a study that examines the research, development, and demonstration opportunities, challenges, and standards needed to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(1) Report requirements

The report shall include—

(A) an assessment of the technologies needed to enable building components as dynamic loads and resources for the electric grid, including how such technologies can be—

(i) incorporated into new commercial and residential buildings; and

(ii) retrofitted in older buildings;

(B) guidelines for the design of new buildings and building components to enable modern grid interactivity and improve energy efficiency;

(C) an assessment of barriers to the adoption by building owners of advanced technologies enabling greater integration of building components onto the electric grid; and

(D) an assessment of the feasibility of adopting technologies developed under subsection (a) at Department facilities.

(2) Recommendations

As part of the report, the Secretary shall develop a 10-year roadmap to guide the research, development, and demonstration program to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(3) Updates

The Secretary shall update the report required under this section every 3 years for the
duration of the program under subsection (a) and shall submit the updated report to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(d) Program implementation

In carrying out this section, the Secretary shall—

(1) implement the recommendations from the report in subsection (c); and

(2) coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

PART C—HIGH-PERFORMANCE FEDERAL BUILDINGS

§ 17091. Leasing

(a) In general

Except as provided in subsection (b), effective beginning on the date that is 3 years after December 19, 2007, no Federal agency shall enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year.

(b) Exception

(1) Application

This subsection applies if—

(A) no space is available in a building described in subsection (a) that meets the functional requirements of an agency, including locational needs;

(B) the agency proposes to remain in a building that the agency has occupied previously;

(C) the agency proposes to lease a building of historical, architectural, or cultural significance (as defined in section 3306(a)(4) of title 40) or space in such a building; or

(D) the lease is for not more than 10,000 gross square feet of space.

(2) Buildings without Energy Star label

If one of the conditions described in paragraph (1) is met, the agency may enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year if the lease contract includes provisions requiring that, prior to occupancy or, in the case of a contract described in paragraph (1)(B), not later than 1 year after signing the contract, the following requirements are met:

(A) The space is renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems.

(B)(i) Subject to clause (ii), the space is benchmarked under a nationally recognized, online, free benchmarking program, with public disclosure, unless the space is a space for which owners cannot access whole building utility consumption data, including spaces—

(I) that are located in States with privacy laws that provide that utilities shall not provide such aggregated information to multitenant building owners; and

(II) for which tenants do not provide energy consumption information to the commercial building owner in response to a request from the building owner.

(ii) A Federal agency that is a tenant of the space shall provide to the building owner, or authorize the owner to obtain from the utility, the energy consumption information of the space for the benchmarking and disclosure required by this subparagraph.

(c) Revision of Federal Acquisition Regulation

(1) In general

Not later than 3 years after December 19, 2007, the Federal Acquisition Regulation described in section 1121(b) and (c)(1) of title 41 shall be revised to require Federal officers and employees to comply with this section in leasing buildings.

(2) Consultation

The members of the Federal Acquisition Regulatory Council established under section 1302(a) of title 41 shall consult with the Federal Director and the Commercial Director before promulgating regulations to carry out this subsection.

C O N F I G U R A T I O N

In subsec. (c)(1), “section 1121(b) and (c)(1) of title 41” substituted for “section 6(a) of the Office of Federal Procurement Policy Act (41 U.S.C. 405(a))” on authority of Pub. L. 111–350, § 6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

A M E N D M E N T S

2015—Subsec. (b)(2). Pub. L. 114–11 substituted “paragraph (1) is met” for “paragraph (2) is met” and “signing the contract, the following requirements are met:” for “signing the contract, the space will be renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems.” and added subpars. (A) and (B).

E F F E C T I V E D A T E

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1823 of Title 2, The Congress.

§ 17092. High-performance green Federal buildings

(a) Establishment of Office

Not later than 60 days after December 19, 2007, the Administrator shall establish within the
General Services Administration an Office of Federal High-Performance Green Buildings, and appoint an individual to serve as Federal Director in a position in the career-reserved Senior Executive service, to—

(1) establish and manage the Office of Federal High-Performance Green Buildings; and

(2) carry out other duties as required under this part.

(b) Compensation

The compensation of the Federal Director shall not exceed the maximum rate of basic pay for the Senior Executive Service under section 5304(h)(2)(C) of that title.

(c) Duties

The Federal Director shall—

(1) coordinate the activities of the Office of Federal High-Performance Green Buildings with the activities of the Office of Commercial High-Performance Green Buildings, and the Secretary, in accordance with section 6834(a)(3)(D) of this title;

(2) ensure full coordination of high-performance green building information and activities within the General Services Administration and all relevant agencies, including, at a minimum—

(A) the Environmental Protection Agency;

(B) the Office of the Federal Environmental Executive;

(C) the Office of Federal Procurement Policy;

(D) the Department of Energy;

(E) the Department of Health and Human Services;

(F) the Department of Defense;

(G) the Department of Transportation;

(H) the National Institute of Standards and Technology; and

(I) the Office of Science and Technology Policy;

(3) establish a senior-level Federal Green Building Advisory Committee under section 474, which shall provide advice and recommendations in accordance with that section and subsection (d);

(4) identify and every 5 years reassess improved or higher rating standards recommended by the Advisory Committee;

(5) ensure full coordination, dissemination of information regarding, and promotion of the results of research and development information relating to Federal high-performance green building initiatives;

(6) identify and develop Federal high-performance green building standards for all types of Federal facilities, consistent with the requirements of this part and section 6834(a)(3)(D) of this title;

(7) establish green practices that can be used throughout the life of a Federal facility;

(8) review and analyze current Federal budget practices and life-cycle costing issues, and make recommendations to Congress, in accordance with subsection (d); and

(9) identify opportunities to demonstrate innovative and emerging green building technologies and concepts.

(d) Additional duties

The Federal Director, in consultation with the Commercial Director and the Advisory Committee, and consistent with the requirements of section 6834(a)(3)(D) of this title shall—

(1) identify, review, and analyze current budget and contracting practices that affect achievement of high-performance green buildings, including the identification of barriers to high-performance green building life-cycle costing and budgetary issues;

(2) develop guidance and conduct training sessions with budget specialists and contracting personnel from Federal agencies and budget examiners to apply life-cycle cost criteria to actual projects;

(3) identify tools to aid life-cycle cost decisionmaking; and

(4) explore the feasibility of incorporating the benefits of high-performance green buildings, such as security benefits, into a cost-benefit analysis to aid in life-cycle costing for budget and decisionmaking processes.

(e) Incentives

Within 90 days after December 19, 2007, the Federal Director shall identify incentives to encourage the expedited use of high-performance green buildings and related technology in the operations of the Federal Government, in accordance with the requirements of section 6834(a)(3)(D) of this title, including through—

(1) the provision of recognition awards; and

(2) the maximum feasible retention of financial savings in the annual budgets of Federal agencies for use in reinvesting in future high-performance green building initiatives.

(f) Report

Not later than 2 years after December 19, 2007, and biennially thereafter, the Federal Director, in consultation with the Secretary, shall submit to Congress a report that—

(1) describes the status of compliance with this part, the requirements of section 6834(a)(3)(D) of this title, and other Federal high-performance green building initiatives in effect as of the date of the report, including—

(A) the extent to which the programs are being carried out in accordance with this part and the requirements of section 6834(a)(3)(D) of this title; and

(B) the status of funding requests and appropriations for those programs;

(2) identifies within the planning, budgeting, and construction process all types of Federal facility procedures that may affect the certification of new and existing Federal facilities as high-performance green buildings under the provisions of section 6834(a)(3)(D) of this title and the criteria established in subsection (h);

(3) identifies inconsistencies, as reported to the Advisory Committee, in Federal law with provisions of section 6834(a)(3)(D) of this title; and

(4) recommends language for uniform standards for use by Federal agencies in environmentally responsible acquisition;

1See References in Text note below.
(5) in coordination with the Office of Management and Budget, reviews the budget process for capital programs with respect to alternatives for—
   (A) restructuring of budgets to require the use of complete energy and environmental cost accounting;
   (B) using operations expenditures in budget-related decisions while simultaneously incorporating productivity and health measures (as those measures can be quantified by the Office of Federal High-Performance Green Buildings, with the assistance of universities and national laboratories);
   (C) streamlining measures for permitting Federal agencies to retain all identified savings accrued as a result of the use of lifecycle costing for future high-performance green building initiatives; and
   (D) identifying short-term and long-term cost savings that accrue from high-performance green buildings, including those relating to health and productivity;

(6) identifies green, self-sustaining technologies to address the operational needs of Federal facilities in times of national security emergencies, natural disasters, or other dire emergencies;

(7) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives); and

(8) includes, for the 2-year period covered by the report, recommendations to address each of the matters, and a plan for implementation of each recommendation, described in paragraphs (1) through (7).

(g) Implementation

The Office of Federal High-Performance Green Buildings shall carry out each plan for implementation of recommendations under subsection (f)(8).

(h) Identification of certification system

(1) In general

For the purpose of this section, not later than 60 days after December 19, 2007, the Federal Director shall identify and shall provide to the Secretary pursuant to section 6834(a)(3)(D) of this title, a certification system that the Director determines to be the most likely to encourage a comprehensive and environmentally-sound approach to certification of green buildings.

(2) Basis

The system identified under paragraph (1) shall be based on—

(A) a study completed every 5 years and provided to the Secretary pursuant to section 6834(a)(3)(D) of this title, which shall be carried out by the Federal Director to compare and evaluate standards;

(B) the ability and availability of assessors and auditors to independently verify the criteria and measurement of metrics at the scale necessary to implement this part;

(C) the ability of the applicable standard-setting organization to collect and reflect public comment;

(D) the ability of the standard to be developed and revised through a consensus-based process;

(E) an evaluation of the robustness of the criteria for a high-performance green building, which shall give credit for promoting—
   (i) efficient and sustainable use of water, energy, and other natural resources;
   (ii) use of renewable energy sources;
   (iii) improved indoor environmental quality through enhanced indoor air quality, thermal comfort, acoustics, day lighting, pollutant source control, and use of low-emission materials and building system controls;
   (iv) reduced impacts from transportation through building location and site design that promote access by public transportation; and
   (v) such other criteria as the Federal Director determines to be appropriate; and

(F) national recognition within the building industry.

REFERENCES IN TEXT

This part, referred to in subsecs. (a)(2), (c)(6), (f)(1) and (h)(2)(B), was in the original “this subtitle”, meaning subtitle C (§§ 431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

Section 474, referred to in subsec. (c)(3), probably means section 494 of Pub. L. 110–140, which is classified to section 17123 of this title.

CHANGE OF NAME

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17093. Federal green building performance

(a) In general

Not later than October 31 of each of the 2 fiscal years following the fiscal year in which this Act is enacted, and at such times thereafter as the Comptroller General of the United States determines to be appropriate, the Comptroller General of the United States shall, with respect to the fiscal years that have passed since the preceding report—

(1) conduct an audit of the implementation of this part, section 6834(a)(3)(D) of this title, and section 17091 of this title; and

(2) submit to the Federal Director, the Advisory Committee, the Administrator, and Congress a report describing the results of the audit.
§ 17094  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8424

(b) Contents
An audit under subsection (a) shall include a review, with respect to the period covered by the report under subsection (a)(2), of—

(1) budget, life-cycle costing, and contracting issues, using best practices identified by the Controller General of the United States and heads of other agencies in accordance with section 17092(d) of this title;
(2) the level of coordination among the Federal Director, the Office of Management and Budget, the Department of Energy, and relevant agencies;
(3) the performance of the Federal Director and other agencies in carrying out the implementation plan;
(4) the design stage of high-performance green building measures;
(5) high-performance building data that were collected and reported to the Office; and
(6) such other matters as the Controller General of the United States determines to be appropriate.

c) Environmental Stewardship Scorecard

The Federal Director shall consult with the Advisory Committee to enhance, and assist in the implementation of, the Office of Management and Budget government efficiency reports and scorecards under section 17144 of this title and the Environmental Stewardship Scorecard announced at the White House summit on Federal sustainable buildings in January 2006, to measure the implementation by each Federal agency of sustainable design and green building initiatives.

REFERENCES IN TEXT
This Act, referred to in subsec. (a), is Pub. L. 110–140, which was approved Dec. 19, 2007.
This part, referred to in subsec. (a)(1), was in the original “‘this subtitle’”, meaning subtitle C (§§ 431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 6835–6839, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17095. Cost-effective technology acceleration program

(a) Definition of Administrator
In this section, the term “Administrator” means the Administrator of General Services.

(b) Establishment
(1) In general
The Administrator shall establish a program to accelerate the use of more cost-effective technologies and practices at GSA facilities.

(2) Requirements
The program established under this subsection shall—
(A) ensure centralized responsibility for the coordination of cost reduction-related recommendations, practices, and activities of all relevant Federal agencies;
(B) provide technical assistance and operational guidance to applicable tenants to achieve the goal identified in subsection (c)(2)(B)(ii);
(C) establish methods to track the success of Federal departments and agencies with respect to that goal; and
(D) be fully coordinated with and no less stringent nor less energy-conserving or water-conserving than required by other provisions of this Act and other applicable law, including sections 321 through 324, 431 through 434, 436, 461, 511 through 518, and 523 through 525 and amendments made by those sections.

c) Accelerated use of technologies

(1) Review
(A) In general
As part of the program under this section, not later than 90 days after December 19, 2007, the Administrator shall conduct a review of—
(i) current use of cost-effective lighting technologies and geothermal heat pumps in GSA facilities; and
(ii) the availability to managers of GSA facilities of cost-effective lighting technologies and geothermal heat pumps.

(B) Requirements
The review under subparagraph (A) shall—
(i) examine the use of cost-effective lighting technologies, geothermal heat pumps, and other cost-effective technologies and practices by Federal agencies in GSA facilities; and
(ii) as prepared in consultation with the Administrator of the Environmental Protection Agency, identify cost-effective lighting technology and geothermal heat pump technology standards that could be used for all types of GSA facilities.

(2) Replacement
(A) In general
As part of the program under this section, not later than 180 days after December 19, 2007, the Administrator shall establish, using available appropriations and programs implementing sections 432 and 525, the following:

1 See References in Text note below.
amendments made by those sections), a cost-effective lighting technology and geothermal heat pump technology acceleration program to achieve maximum feasible replacement of existing lighting, heating, cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies in each GSA facility. Such program shall fully comply with the requirements of sections 321 through 435, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections and any other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy savings than required by this section.

(b) Acceleration plan timetable

(i) In general

To implement the program established under subparagraph (A), not later than 1 year after December 19, 2007, the Administrator shall establish a timetable of actions to comply with the requirements of this section and sections 431 through 435, whichever achieves greater energy savings most expeditiously, including milestones for specific activities needed to replace existing lighting, heating, and cooling technologies and geothermal heat pump technologies, to the maximum extent feasible (including at the maximum rate feasible), at each GSA facility.

(ii) Goal

The goal of the timetable under clause (i) shall be to complete, using available appropriations and programs implementing sections 431 through 435 and amendments made by those sections, maximum feasible replacement of existing lighting, heating, and cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies consistent with the requirements of this section and sections 431 through 435, whichever achieves greater energy savings most expeditiously. Notwithstanding any provision of this section, such program shall fully comply with the requirements of the Act including sections 321 through 324, 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections and other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(d) GSA facility technologies and practices

(1) In general

Not later than 180 days after December 19, 2007, and annually thereafter, the Administrator shall:

(A) ensure that a manager responsible for implementing section 432 and for accelerating the use of cost-effective technologies and practices is designated for each GSA facility; and

(B) submit to Congress a plan to comply with section 432, this section, and other applicable provisions of this Act and applicable law with respect to energy and water conservation at GSA facilities.

(2) Measures

The plan shall implement measures required by such other provisions of law in accordance with those provisions, and shall implement the measures required by this section to the maximum extent feasible (including at the maximum rate feasible) using available appropriations and programs implementing sections 431 through 435 and 525 and amendments made by those sections, by not later than the date that is 5 years after December 19, 2007.

(3) Contents of plan

The plan shall—

(A) with respect to cost-effective technologies and practices—

(i) identify the specific activities needed to comply with sections 431 through 435;
(ii) identify the specific activities needed to achieve at least a 20-percent reduction in operational costs through the application of cost-effective technologies and practices from 2003 levels at GSA facilities by not later than 5 years after December 19, 2007;

(iii) describe activities required and carried out to estimate the funds necessary to achieve the reduction described in clauses (i) and (ii);

(B) include an estimate of the funds necessary to carry out this section;

(C) describe the status of the implementation of cost-effective technologies and practices at GSA facilities, including—

(i) the extent to which programs, including the program established under subsection (b), are being carried out in accordance with this part; and
(ii) the status of funding requests and appropriations for those programs;

(D) identify within the planning, budgeting, and construction processes, all types of GSA facility-related procedures that inhibit new and existing GSA facilities from implementing cost-effective technologies;

(E) recommend language for uniform standards for use by Federal agencies in implementing cost-effective technologies and practices;

(F) in coordination with the Office of Management and Budget, review the budget process for capital programs with respect to alternatives for—

(i) implementing measures that will assure that Federal agencies retain all identified savings accrued as a result of the use of cost-effective technologies, consistent with section 8253(a)(1) of this title, and other applicable law; and
(ii) identifying short- and long-term cost savings that accrue from the use of cost-effective technologies and practices;
(G) with respect to cost-effective technologies and practices, achieve substantial operational cost savings through the application of the technologies; and

(H) include recommendations to address each of the matters, and a plan for implementation of each recommendation, described in subparagraphs (A) through (G).

(4) Administration

Notwithstanding any provision of this section, the program required under this section shall fully comply with the requirements of sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section, to remain available until expended.

REFERENCES IN TEXT

Sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525, referred to in subsecs. (b)(2)(D), (c)(2)(A), (B)(ii), and (d)(4), are sections 321 to 324, 431 to 438, 461, 511 to 518, and 523 to 525, respectively, of Pub. L. 110–140, which enacted sections 17091 to 17094 of this title, part A (§ 17131) of subchapter IV of this chapter, subchapter V (§ 2695 et seq.) of chapter 53 of Title 15, Commerce and Trade, and section 3313 of Title 40, Public Buildings, Property, and Works, amended sections 6291 to 6294, 6295, 6297, 6302, 6304, 6308, 6314, 6834, 8253, 8256, 8258, 8259b, 8287, and 8297c of this title, section 2913 of Title 10, Armed Forces, and sections 3307, 3310, and 3314 to 3316 of Title 40, and enacted provisions set out as notes under sections 6294, 6295, 6297, and 8259b of this title.

Sections 434 through 439, referred to in text, are sections 434 through 439 of Pub. L. 110–140, which enacted sections 17091 to 17096 of this title and amended section 8253 of this title. Section 482 is unidentifiable because Pub. L. 110–140 does not contain a section 482.

(EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17096. Authorization of appropriations

There is authorized to be appropriated to carry out sections 434 through 439 and 482 $4,000,000 for each of fiscal years 2008 through 2012, to remain available until expended.

REFERENCES IN TEXT

Sections 434 through 439, referred to in text, are sections 434 to 439 of Pub. L. 110–140, which enacted sections 17091 to 17096 of this title and amended section 8253 of this title. Section 482 is unidentifiable because Pub. L. 110–140 does not contain a section 482.

(EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART D—INDUSTRIAL ENERGY EFFICIENCY

§17111. Energy-intensive industries program

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) an energy-intensive industry;

(B) a national trade association representing an energy-intensive industry; or

(C) a person acting on behalf of 1 or more energy-intensive industries or sectors, as determined by the Secretary.

(2) Energy-intensive industry

The term “energy-intensive industry” means an industry that uses significant quantities of energy as part of its primary economic activities, including—

(A) information technology, including data centers containing electrical equipment used in processing, storing, and transmitting digital information;

(B) consumer product manufacturing;

(C) food processing;

(D) materials manufacturers, including—

(i) aluminum;

(ii) chemicals;

(iii) forest and paper products;

(iv) metal casting;

(v) glass;

(vi) petroleum refining;

(vii) mining; and

(viii) steel;

(E) other energy-intensive industries, as determined by the Secretary.

(3) Feedstock

The term “feedstock” means the raw material supplied for use in manufacturing, chemical, and biological processes.

1 See References in Text note below.
(4) Partnership
The term "partnership" means an energy efficiency partnership established under subsection (c)(1)(A).

(5) Program
The term "program" means the energy-intensive industries program established under subsection (b).

(b) Establishment of program
The Secretary shall establish a program under which the Secretary, in cooperation with energy-intensive industries and national industry trade associations representing the energy-intensive industries, shall support, research, develop, and promote the use of new materials processes, technologies, and techniques to optimize energy efficiency and the economic competitiveness of the United States' industrial and commercial sectors.

(c) Partnerships
(1) In general
As part of the program, the Secretary shall establish energy efficiency partnerships between the Secretary and eligible entities to conduct research on, develop, and demonstrate new processes, technologies, and operating practices and techniques that significantly improve the energy efficiency of equipment and processes used by energy-intensive industries, including the conduct of activities to—
(A) increase the energy efficiency of industrial processes and facilities;
(B) research, develop, and demonstrate advanced technologies capable of energy intensity reductions and increased environmental performance; and
(C) promote the use of the processes, technologies, and techniques described in subparagraphs (A) and (B).

(2) Eligible activities
Partnership activities eligible for funding under this subsection include—
(A) feedstock and recycling research, development, and demonstration activities to identify and promote—
(i) opportunities for meeting industry feedstock requirements with more energy efficient and flexible sources of feedstock or energy supply;
(ii) strategies to develop and deploy technologies that improve the quality and quantity of feedstocks recovered from process and waste streams; and
(iii) other methods using recycling, reuse, and improved industrial materials;
(B) research to develop and demonstrate technologies and processes that utilize alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;
(C) research to achieve energy efficiency in steam, power, control system, and process heat technologies, and in other manufacturing processes; and
(D) industrial and commercial energy efficiency and sustainability assessments to—
(i) assist individual industrial and commercial sectors in developing tools, techniques, and methodologies to assess—
(i) the unique processes and facilities of the sectors;
(ii) the energy utilization requirements of the sectors; and
(iii) the application of new, more energy efficient technologies; and
(ii) conduct energy savings assessments;
(E) the incorporation of technologies and innovations that would significantly improve the energy efficiency and utilization of energy-intensive commercial applications; and
(F) any other activities that the Secretary determines to be appropriate.

(3) Proposals
(A) In general
To be eligible for funding under this subsection, a partnership shall submit to the Secretary a proposal that describes the proposed research, development, or demonstration activity to be conducted by the partnership.

(B) Review
After reviewing the scientific, technical, and commercial merit of a proposals submitted under subparagraph (A), the Secretary shall approve or disapprove the proposal.

(C) Competitive awards
The provision of funding under this subsection shall be on a competitive basis.

(4) Cost-sharing requirement
In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(d) Grants
The Secretary may award competitive grants for innovative technology research, development and demonstrations to universities, individual inventors, and small companies, based on energy savings potential, commercial viability, and technical merit.

(e) Institution of higher education-based industrial research and assessment centers
The Secretary shall provide funding to institutions of higher education-based industrial research and assessment centers, whose purpose shall be—
(1) to identify opportunities for optimizing energy efficiency and environmental performance;
(2) to promote applications of emerging concepts and technologies in small- and medium-sized manufacturers;
(3) to promote research and development for the use of alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;
(4) to coordinate with appropriate Federal and State research offices, and provide a clearinghouse for industrial process and energy efficiency technical assistance resources; and
(5) to coordinate with State-accredited technical training centers and community coll-
§ 17112. Energy efficiency for data center buildings

(a) Definitions

In this section:

(1) Data center

The term “data center” means any facility that primarily contains electronic equipment used to process, store, and transmit digital information, which may be—

(A) a free-standing structure; or

(B) a facility within a larger structure, that uses environmental control equipment to maintain the proper conditions for the operation of electronic equipment.

(2) Data center operator

The term “data center operator” means any person or government entity that builds or operates a data center or purchases data center services, equipment, and facilities.

(b) Voluntary national information program

(1) In general

Not later than 90 days after December 19, 2007, the Secretary and the Administrator of the Environmental Protection Agency shall, after consulting with information technology industry and other interested parties, initiate a voluntary national information program for those types of data centers and data center equipment and facilities that are widely used and for which there is a potential for significant data center energy savings as a result of the program.

(2) Requirements

The program described in paragraph (1) shall—

(A) address data center efficiency holistically, reflecting the total energy consumption of data centers as whole systems, including both equipment and facilities;

(B) consider prior work and studies undertaken in this area, including by the Environmental Protection Agency and the Department of Energy;

(C) consistent with the objectives described in paragraph (1), determine the type of data center and data center equipment and facilities to be covered under the program;

(D) produce specifications, measurements, best practices, and benchmarks that will enable data center operators to make more informed decisions about the energy efficiency and costs of data centers, and that take into account—

(i) the performance and use of servers, data storage devices, and other information technology equipment;

(ii) the efficiency of heating, ventilation, and air conditioning, cooling, and power conditioning systems, provided that no modification shall be required of a standard then in effect under the Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) for any covered heating, ventilation, air-conditioning, cooling or power-conditioning product;

(iii) energy savings from the adoption of software and data management techniques; and

(iv) other factors proposed by the stakeholders described in subsection (c);

(E) allow for creation of separate specifications, measurements, and benchmarks based on data center size and function, as well as other appropriate characteristics;

(F) advance the design and implementation of efficiency technologies to the maximum extent economically practical;

(G) provide to data center operators in the private sector and the Federal Government information about best practices and purchasing decisions that reduce the energy consumption of data centers; and

(H) publish the information described in subparagraph (G), which may be disseminated through catalogs, trade publications, the Internet, or other mechanisms, that will allow data center operators to assess the energy consumption and potential cost savings of alternative data centers and data center equipment and facilities.

(c) Stakeholder involvement

(1) In general

The Secretary and the Administrator shall carry out subsection (b) in collaboration with the information technology industry and other key stakeholders, with the goal of producing results that accurately reflect the most relevant and useful information.

(2) Considerations

In carrying out the collaboration described in paragraph (1), the Secretary and the Administrator shall pay particular attention to organizations that—
(A) have members with expertise in energy efficiency and in the development, operation, and functionality of data centers, information technology equipment, and software, including representatives of hardware manufacturers, data center operators, and facility managers;
(B) obtain and address input from the National Laboratories (as that term is defined in section 15801) of this title, or any institution of higher education, research institution, industry association, company, or public interest group with applicable expertise;
(C) follow—
   (i) commonly accepted procedures for the development of specifications; and
   (ii) accredited standards development processes; or
(D) have a mission to promote energy efficiency for data centers and information technology.

(d) Measurements and specifications
The Secretary and the Administrator shall consider and assess the adequacy of the specifications, measurements, best practices, and benchmarks described in subsection (b) for use by the Federal Energy Management Program, the Energy Star Program, and other efficiency programs of the Department of Energy or the Environmental Protection Agency.

(e) Study
(1) Definition of report
In this subsection, the term “report” means the report of the Lawrence Berkeley National Laboratory entitled “United States Data Center Energy Usage Report” and dated June 2016, which was prepared as an update to the “Report to Congress on Server and Data Center Energy Efficiency”, published on August 2, 2007, pursuant to section 1 of Public Law 109–431 (120 Stat. 2920).

(2) Study
Not later than 4 years after December 27, 2020, the Secretary, in collaboration with the Administrator, shall make available to the public an update to the report that provides—
   (A) a comparison and gap analysis of the estimates and projections contained in the report with new data regarding the period from 2015 through 2019;
   (B) an analysis considering the impact of information technologies, including virtualization and cloud computing, in the public and private sectors;
   (C) an evaluation of the impact of the combination of cloud platforms, mobile devices, social media, and big data on data center energy usage;
   (D) an evaluation of water usage in data centers and recommendations for reductions in that water usage; and
   (E) updated projections and recommendations for best practices through fiscal year 2025.

(f) Data center energy practitioner program
(1) In general
The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall maintain a data center energy practitioner program that provides for the certification of energy practitioners qualified to evaluate the energy usage and efficiency opportunities in federally owned and operated data centers.

(2) Evaluations
Each Federal agency shall consider having the data centers of the agency evaluated once every 4 years by energy practitioners certified pursuant to the program, whenever practicable using certified practitioners employed by the agency.

(g) Open data initiative
(1) In general
The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall establish an open data initiative relating to energy usage at federally owned and operated data centers, with the purpose of making the data available and accessible in a manner that encourages further data center innovation, optimization, and consolidation.

(2) Consideration
In establishing the initiative under paragraph (1), the Secretary shall consider using the online Data Center Maturity Model.

(h) International specifications and metrics
The Secretary, in collaboration with key stakeholders, shall actively participate in efforts to harmonize global specifications and metrics for data center energy and water efficiency.

(i) Data center utilization metric
The Secretary, in collaboration with key stakeholders, shall facilitate in the development of an efficiency metric that measures the energy efficiency of a data center (including equipment and facilities).

(j) Protection of proprietary information
The Secretary and the Administrator shall not disclose any proprietary information or trade secrets provided by any individual or company for the purposes of carrying out this section or the programs and initiatives established under this section.

Amendments
Subsec. (b)(3). Pub. L. 116–260, §1003(1)(B), struck out par. (3). Text read as follows: “The program described
§ 17113. Industrial emissions reduction technology development program

(a) Definitions

In this section:

(1) Director

The term “Director” means the Director of the Office of Science and Technology Policy.

(2) Eligible entity

The term “eligible entity” means—

(A) a scientist or other individual with knowledge and expertise in emissions reduction;

(B) an institution of higher education;

(C) a nongovernmental organization;

(D) a National Laboratory;

(E) a private entity; and

(F) a partnership or consortium of 2 or more entities described in subparagraphs (B) through (E).

(3) Emissions reduction

(A) In general

The term “emissions reduction” means the reduction, to the maximum extent practicable, of net nonwater greenhouse gas emissions to the atmosphere by energy services and industrial processes.

(B) Exclusion

The term “emissions reduction” does not include the elimination of carbon embodied in the principal products of industrial manufacturing.

(4) Program

The term “program” means the program established under subsection (b)(1).

(5) Critical material or mineral

The term “critical material or mineral” means a material or mineral that serves an essential function in the manufacturing of a product and has a high risk of a supply disruption, such that a shortage of such a material or mineral would have significant consequences for United States economic or national security.

(b) Industrial emissions reduction technology development program

(1) In general

Not later than 1 year after December 27, 2020, the Secretary, in consultation with the Director, the heads of relevant Federal agencies, National Laboratories, industry, and institutions of higher education, shall establish a crosscutting industrial emissions reduction technology development program of research, development, demonstration, and commercial application to advance innovative technologies that—

(A) increase the technological and economic competitiveness of industry and manufacturing in the United States;

(B) increase the viability and competitiveness of United States industrial technology exports; and

(C) achieve emissions reduction in nonpower industrial sectors.

(2) Coordination

In carrying out the program, the Secretary shall—

(A) coordinate with each relevant office in the Department and any other Federal agency;

(B) coordinate and collaborate with the Industrial Technology Innovation Advisory Committee established under section 17115 of this title; and

(C) coordinate and seek to avoid duplication with the energy-intensive industries program established under section 17111 of this title.

(3) Leverage of existing resources

In carrying out the program, the Secretary shall leverage, to the maximum extent practicable—

(A) existing resources and programs of the Department and other relevant Federal agencies; and

(B) public-private partnerships.

(c) Focus areas

The program shall focus on—

(1) industrial production processes, including technologies and processes that—

(A) achieve emissions reduction in high emissions industrial materials production processes, including production processes for iron, steel, steel mill products, aluminum, cement, concrete, glass, pulp, paper, and industrial ceramics;

(B) achieve emissions reduction in medium- and high-temperature heat generation, including—

(i) through electrification of heating processes;

(ii) through renewable heat generation technology;

(iii) through combined heat and power; and

(iv) by switching to alternative fuels, including hydrogen and nuclear energy;

(C) achieve emissions reduction in chemical production processes, including by incorporating, if appropriate and practicable, principles, practices, and methodologies of sustainable chemistry and engineering;

(D) leverage smart manufacturing technologies and principles, digital manufacturing technologies, and advanced data analytics to develop advanced technologies and practices in information, automation, moni-
(d) Grants, contracts, cooperative agreements, and demonstration projects

(1) Grants

In carrying out the program, the Secretary shall award grants on a competitive basis to eligible entities for projects that the Secretary determines would best achieve the goals of the program.

(2) Contracts and cooperative agreements

In carrying out the program, the Secretary may enter into contracts and cooperative agreements with eligible entities and Federal agencies for projects that the Secretary determines would further the purposes of the program.

(3) Demonstration projects

In supporting technologies developed under this section, the Secretary shall fund demonstration projects that test and validate technologies described in subsection (c).

(4) Application

An entity seeking funding or a contract or agreement under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(5) Cost sharing

In awarding funds under this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the demonstration projects authorized in subsection (d)(3)—

(1) $20,000,000 for fiscal year 2021;
(2) $80,000,000 for fiscal year 2022;
(3) $100,000,000 for fiscal year 2023;
(4) $150,000,000 for fiscal year 2024; and
(5) $150,000,000 for fiscal year 2025.

(f) Coordination

The Secretary shall carry out the activities authorized in this section in accordance with section 18631 of this title.

§ 17114. Industrial Technology Innovation Advisory Committee

(a) Definitions

In this section:

(1) Committee

The term “Committee” means the Industrial Technology Innovation Advisory Committee established under subsection (b).

(2) Director

The term “Director” means the Director of the Office of Science and Technology Policy.

(3) Emissions reduction

The term “emissions reduction” has the meaning given the term in section 17113(a) of this title.
(4) Program

The term “program” means the industrial emissions reduction technology development program established under section 17113(b)(1) of this title.

(b) Establishment

Not later than 180 days after December 27, 2020, the Secretary, in consultation with the Director, shall establish an advisory committee, to be known as the “Industrial Technology Innovation Advisory Committee”.

(c) Membership

(1) Appointment

The Committee shall be comprised of not fewer than 16 members and not more than 20 members, who shall be appointed by the Secretary, in consultation with the Director.

(2) Representation

Members appointed pursuant to paragraph (1) shall include—

(A) not less than 1 representative of each relevant Federal agency, as determined by the Secretary;

(B) the Chair of the Secretary of Energy Advisory Board, if that position is filled;

(C) not less than 2 representatives of labor groups;

(D) not less than 3 representatives of the research community, which shall include academia and National Laboratories;

(E) not less than 2 representatives of nongovernmental organizations;

(F) not less than 6 representatives of small- and large-scale industry, the collective expertise of which shall cover every focus area described in section 17113(c) of this title; and

(G) any other individuals the Secretary, in consultation with the Director, determines to be necessary to ensure that the Committee is comprised of a diverse group of representatives of industry, academia, independent researchers, and public and private entities.

(3) Chair

The Secretary shall designate a member of the Committee to serve as Chair.

(d) Duties

(1) In general

The Committee shall—

(A) in consultation with the Secretary and the Director, propose missions and goals for the program, which shall be consistent with the purposes of the program described in section 17113(b)(1) of this title; and

(B) advise the Secretary with respect to the program—

(i) by identifying and evaluating any technologies being developed by the private sector relating to the focus areas described in section 17113(c) of this title;

(ii) by recommending technology screening criteria for technology developed under the program to encourage adoption of the technology by the private sector; and

(iii) by surveying and analyzing factors that prevent the adoption of emissions reduction technologies by the private sector; and

(iv) by recommending technology screening criteria for technology developed under the program to encourage adoption of the technology by the private sector; and

(C) develop the strategic plan described in paragraph (2).

(2) Strategic plan

(A) Purpose

The purpose of the strategic plan developed under paragraph (1)(C) is to set forth a plan for achieving the goals of the program established in section 17113(b)(1) of this title, including for the focus areas described in section 17113(c) of this title.

(B) Contents

The strategic plan developed under paragraph (1)(C) shall—

(i) specify near-term and long-term qualitative and quantitative objectives relating to each focus area described in section 17113(c) of this title, including research, development, demonstration, and commercial application objectives;

(ii) leverage existing roadmaps relevant to the program in section 17113(b)(1) of this title and the focus areas in section 17113(c) of this title;

(iii) specify the anticipated timeframe for achieving the objectives specified under clause (i);

(iv) include plans for developing emissions reduction technologies that are globally cost-competitive, including, as applicable, in developing economies;

(v) identify the appropriate role for investment by the Federal Government, in coordination with the private sector, to achieve the objectives specified under clause (i);

(vi) identify the public and private costs of achieving the objectives specified under clause (i); and

(vii) estimate the economic and employment impact in the United States of achieving those objectives.

(e) Meetings

(1) Frequency

The Committee shall meet not less frequently than 2 times per year, at the call of the Chair.

(2) Initial meeting

Not later than 30 days after the date on which the members are appointed under subsection (b), the Committee shall hold its first meeting.

(f) Committee report

(1) In general

Not later than 2 years after December 27, 2020, and not less frequently than once every 3
years thereafter, the Committee shall submit to the Secretary a report on the progress of achieving the purposes of the program.

(2) Contents

The report under paragraph (1) shall include—

(A) a description of any technology innovation opportunities identified by the Committee;

(B) a description of any technology gaps identified by the Committee under subsection (d)(1)(B)(ii);

(C) recommendations for improving technology screening criteria and management of the program;

(D) an evaluation of the progress of the program and the research, development, and demonstration activities funded under the program;

(E) any recommended changes to the focus areas of the program described in section 17113(c) of this title;

(F) a description of the manner in which the Committee has carried out the duties described in subsection (d)(1) and any relevant findings as a result of carrying out those duties;

(G) if necessary, an update to the strategic plan developed by the Committee under subsection (d)(1)(C);

(H) the progress made in achieving the goals set out in that strategic plan;

(I) a review of the management, coordination, and industry utility of the program;

(J) an assessment of the extent to which progress has been made under the program in developing commercial, cost-competitive technologies in each focus area described in section 17113(c) of this title; and

(K) an assessment of the effectiveness of the program in coordinating efforts within the Department and with other Federal agencies to achieve the purposes of the program.

(g) Report to Congress

Not later than 60 days after receiving a report from the Committee under subsection (f), the Secretary shall submit a copy of that report to the Committees on Appropriations and Science, Space, and Technology of the House of Representatives, the Committees on Appropriations and Energy and Natural Resources of the Senate, and any other relevant Committee of Congress.

(h) Applicability of Federal Advisory Committee Act

Except as otherwise provided in this section, the Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the Committee.

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (h), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, which is set out in the Appendix to Title 5, Government Organization and Employees.

§17115. Technical assistance program to implement industrial emissions reduction

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a State;

(B) a unit of local government;

(C) a territory or possession of the United States;

(D) a relevant State or local office, including an energy office;

(E) a tribal organization (as defined in section 3765 of title 38);

(F) an institution of higher education;

(G) a private entity; and

(H) a trade association or technical society.

(2) Emissions reduction

The term “emissions reduction” has the meaning given the term in section 17113(a) of this title.

(3) Program

The term “program” means the program established under subsection (b).

(b) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall establish a program to provide technical assistance to eligible entities to promote the commercial application of emission reduction technologies developed through the program established in section 17113(b) of this title.

(c) Applications

(1) In general

An eligible entity desiring technical assistance under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Application process

The Secretary shall seek applications for technical assistance under the program on a periodic basis, but not less frequently than once every 12 months.

(3) Factors for consideration

In selecting eligible entities for technical assistance under the program, the Secretary shall, to the maximum extent practicable—

(A) give priority to—

(i) activities carried out with technical assistance under the program that have the greatest potential for achieving emissions reduction in nonpower industrial sectors;

(ii) activities carried out in a State in which there are active or inactive industrial facilities that may be used or retrofitted to carry out activities under the focus areas described in section 17113(c) of this title; and

(iii) activities carried out in an economically distressed area (as described in section 3161(a) of this title); and

So in original.
(B) ensure that—
   (i) there is geographic diversity among the eligible entities selected; and
   (ii) the activities carried out with technical assistance under the program reflect a majority of the focus areas described in section 17113(c) of this title.

§ 17115a. Development of national smart manufacturing plan

(a) In general
Not later than 3 years after December 27, 2020, the Secretary of Energy (in this section referred to as the “Secretary”), in consultation with the National Academies, shall develop and complete a national plan for smart manufacturing technology development and deployment to improve the productivity and energy efficiency of the manufacturing sector of the United States.

(b) Content
   (1) In general
   The plan developed under subsection (a) shall identify areas in which agency actions by the Secretary and other heads of relevant Federal agencies would—
   (A) facilitate quicker development, deployment, and adoption of smart manufacturing technologies and processes; 
   (B) result in greater energy efficiency and lower environmental impacts for all American manufacturers; and
   (C) enhance competitiveness and strengthen the manufacturing sectors of the United States.

   (2) Inclusions
   Agency actions identified under paragraph (1) shall include—
   (A) an assessment of previous and current actions of the Department relating to smart manufacturing;
   (B) the establishment of voluntary interconnection protocols and performance standards;
   (C) the use of smart manufacturing to improve energy efficiency and reduce emissions in supply chains across multiple companies;
   (D) actions to increase cybersecurity in smart manufacturing infrastructure;
   (E) deployment of existing research results;
   (F) the leveraging of existing high-performance computing infrastructure; and
   (G) consideration of the impact of smart manufacturing on existing manufacturing jobs and future manufacturing jobs.

(c) Biennial revisions
Not later than 2 years after the date on which the Secretary completes the plan under subsection (a), and not less frequently than once every 2 years thereafter, the Secretary shall revise the plan to account for advancements in information and communication technology and manufacturing needs.

(d) Report
Annually until the completion of the plan under subsection (a), the Secretary shall submit to Congress a report on the progress made in developing the plan.

(e) Definition
In this section, the term “smart manufacturing” means advanced technologies in information, automation, monitoring, computation, sensing, modeling, artificial intelligence, analytics, and networking that—
   (1) digitally—
   (A) simulate manufacturing production lines;
   (B) operate computer-controlled manufacturing equipment;
   (C) monitor and communicate production line status; and
   (D) manage and optimize energy productivity and cost throughout production;
   (2) model, simulate, and optimize the energy efficiency of a factory building;
   (3) monitor and optimize building energy performance;
   (4) model, simulate, and optimize the design of energy efficient and sustainable products, including the use of digital prototyping and additive manufacturing to enhance product design;
   (5) connect manufactured products in networks to monitor and optimize the performance of the networks, including automated network operations; and
   (6) digitally connect the supply chain network.

CODIFICATION
Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART E—GENERAL PROVISIONS

§ 17121. Demonstration project

(a) In general
The Federal Director and the Commercial Director shall establish guidelines to implement a demonstration project to contribute to the research goals of the Office of Commercial High-Performance Green Buildings and the Office of Federal High-Performance Green Buildings.

(b) Projects
In accordance with guidelines established by the Federal Director and the Commercial Director under subsection (a) and the duties of the Federal Director and the Commercial Director described in this title, the Federal Director or the Commercial Director shall carry out—
   (1) for each of fiscal years 2009 through 2014, 1 demonstration project per year of green features in a Federal building selected by the Federal Director in accordance with relevant agencies and described in subsection (c)(1), that—
   (A) provides for instrumentation, monitoring, and data collection related to the green features, for study of the impact of the features on overall energy use and oper-

1 See References in Text note below.
(c) Criteria

(1) Federal facilities

With respect to the existing or proposed Federal facility at which a demonstration project under this section is conducted, the Federal facility shall—

(A) be an appropriate model for a project relating to—

(i) the effectiveness of high-performance technologies;

(ii) analysis of materials, components, systems, and emergency operations in the building, and the impact of those materials, components, and systems, including the impact on the health of building occupants;

(iii) life-cycle costing and life-cycle assessment of building materials and systems; and

(B) achieve the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(2) no fewer than 4 demonstration projects at 4 universities, that, as competitively selected by the Commercial Director in accordance with subsection (c)(2), have—

(A) appropriate research resources and relevant projects to meet the goals of the demonstration project established by the Office of Commercial High-Performance Green Buildings; and

(B) the ability—

(i) to serve as a model for high-performance green building initiatives, including research and education² by achieving the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(ii) to identify the most effective ways to use high-performance green building and landscape technologies to engage and educate undergraduate and graduate students;

(iii) to effectively implement a high-performance green building education program for students and occupants;

(iv) to demonstrate the effectiveness of various high-performance technologies, including their impacts on energy use and operational costs, in each of the 4 climatic regions of the United States described in subsection (c)(2)(B); and

(v) to explore quantifiable and nonquantifiable beneficial impacts on public health and employee and student performance;

(3) demonstration projects to evaluate replicable approaches of achieving high performance in actual building operation in various types of commercial buildings in various climates; and

(4) deployment activities to disseminate information on and encourage widespread adoption of technologies, practices, and policies to achieve zero-net-energy commercial buildings or low energy use and effective monitoring of energy use in commercial buildings.

(2) Universities

With respect to the 4 universities at which a demonstration project under this section is conducted—

(A) the universities should be selected, after careful review of all applications received containing the required information, as determined by the Commercial Director, based on—

(i) successful and established public-private research and development partnerships;

(ii) demonstrated capabilities to construct or renovate buildings that meet high indoor environmental quality standards;

(iii) organizational flexibility;

(iv) technological adaptability;

(v) the demonstrated capacity of at least 1 university to replicate lessons learned among nearby or sister universities, preferably by participation in groups or consortia that promote sustainability;

(vi) the demonstrated capacity of at least 1 university to have officially-adopted, institution-wide “high-performance green building” guidelines for all campus building projects; and

(vii) the demonstrated capacity of at least 1 university to have officially-adopted, institution-wide “high-performance green building” guidelines for all campus building projects;

(B) each university shall be located in a different climatic region of the United States, each of which regions shall have, as determined by the Office of Commercial High-Performance Green Buildings—

(i) a hot, dry climate;

(ii) a hot, humid climate;

(iii) a cold climate; or

(iv) a temperate climate (including a climate with cold winters and humid summers);

(d) Applications

To receive a grant under subsection (b), an eligible applicant shall submit to the Federal Director or the Commercial Director an application at such time, in such manner, and containing such information as the Director may require, including a written assurance that all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40. The Secretary of Labor shall, with respect to the labor standards described in this subsection, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

²So in original. A comma probably should appear.
§ 17122

Research and development

(a) Establishment

The Federal Director and the Commercial Director, jointly and in coordination with the Advisory Committee, shall—

(1)(A) survey existing research and studies relating to high-performance green buildings; and

(B) coordinate activities of common interest;

(2) develop and recommend a high-performance green building research plan that—

(A) identifies information and research needs, including the relationships between human health, occupant productivity, safety, security, and accessibility and each of—

(i) emissions from materials and products in the building;

(ii) natural day lighting;

(iii) ventilation choices and technologies;

(iv) heating, cooling, and system control choices and technologies;

(v) moisture control and mold;

(vi) maintenance, cleaning, and pest control activities;

(vii) acoustics;

(viii) access to public transportation; and

(ix) other issues relating to the health, comfort, productivity, and performance of occupants of the building;

(B) promotes the development and dissemination of high-performance green building measurement tools that, at a minimum, may be used—

(i) to monitor and assess the life-cycle performance of facilities (including demonstration projects) built as high-performance green buildings; and

(ii) to perform life-cycle assessments; and

(C) identifies and tests new and emerging technologies for high-performance green buildings;

(3) assist the budget and life-cycle costing functions of the Directors’ Offices under section 17092(d) of this title;

(4) study and identify potential benefits of green buildings relating to security, natural disaster, and emergency needs of the Federal Government; and

(5) support other research initiatives determined by the Directors’ Offices.

(b) Indoor air quality

The Federal Director, in consultation with the Administrator of the Environmental Protection Agency and the Advisory Committee, shall develop and carry out a comprehensive indoor air quality program for all Federal facilities to ensure the safety of Federal workers and facility occupants—

(1) during new construction and renovation of facilities; and

(2) in existing facilities.

§ 17123. Green Building Advisory Committee

(a) Establishment

Not later than 180 days after December 19, 2007, the Federal Director, in coordination with the Commercial Director, shall establish an advisory committee, to be known as the “Green Building Advisory Committee”.

(b) Membership

(1) In general

The Committee shall be composed of representatives of, at a minimum—

(A) each agency referred to in section 17081(e) of this title; and

(B) other relevant agencies and entities, as determined by the Federal Director, including at least 1 representative of each of—

(i) State and local governmental green building programs;
(ii) independent green building associations or councils;
(iii) building experts, including architects, material suppliers, and construction contractors;
(iv) security advisors focusing on national security needs, natural disasters, and other dire emergency situations;
(v) public transportation industry experts; and
(vi) environmental health experts, including those with experience in children’s health.

(2) Non-Federal members
The total number of non-Federal members on the Committee at any time shall not exceed 15.

(c) Meetings
The Federal Director shall establish a regular schedule of meetings for the Committee.

(d) Duties
The Committee shall provide advice and expertise for use by the Federal Director in carrying out the duties under this part, including such recommendations relating to Federal activities carried out under sections 434 through 436 as are agreed to by a majority of the members of the Committee.

(e) FACA exemption

REFERENCES IN TEXT
This part, referred to in subsec. (d), was in the original “this subtitle”, meaning subtitle H (§§ 491–495) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1659, which enacted this part and section 7628 of this title. For complete classification of subtitle H to the Code, see Tables.

Sections 434 through 436, referred to in subsec. (d), are sections 434 to 436 of Pub. L. 110–140, which enacted sections 17091 and 17092 of this title and amended section 8253 of this title.

Effective Date
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17131. Training Federal contracting officers to negotiate energy efficiency contracts
(a) Program
The Secretary shall create and administer in the Federal Energy Management Program a training program to educate Federal contract negotiation and contract management personnel so that the contract officers are prepared to—
(1) negotiate energy savings performance contracts;
(2) conclude effective and timely contracts for energy efficiency services with all companies offering energy efficiency services; and
(3) review Federal contracts for all products and services for the potential energy efficiency opportunities and implications of the contracts.

(b) Schedule
Not later than 1 year after December 19, 2007, the Secretary shall plan, staff, announce, and begin training under the Federal Energy Management Program.

(c) Personnel to be trained
Personnel appropriate to receive training under the Federal Energy Management Program

1 See References in Text note below.
§ 17141. Prohibition on incandescent lamps by Coast Guard

(a) Prohibition

Except as provided by subsection (b), on and after January 1, 2009, a general service incandescent lamp shall not be purchased or installed in a Coast Guard facility by or on behalf of the Coast Guard.

(b) Exception

A general service incandescent lamp may be purchased, installed, and used in a Coast Guard facility whenever the application of a general service incandescent lamp is—

(1) necessary due to purpose or design, including medical, security, and industrial applications;

(2) reasonable due to the architectural or historical value of a light fixture installed before January 1, 2009; or

(3) the Commandant of the Coast Guard determines that operational requirements necessitate the use of a general service incandescent lamp.

(c) Limitation

In this section, the term “facility” does not include a vessel or aircraft of the Coast Guard.

§ 17142. Procurement and acquisition of alternative fuels

No Federal agency shall enter into a contract for procurement of an alternative or synthetic fuel, including a fuel produced from nonconventional petroleum sources, for any mobility-related use, other than for research or testing, unless the contract specifies that the lifecycle greenhouse gas emissions associated with the production and combustion of the fuel supplied under the contract must, on an ongoing basis, be less than or equal to such emissions from the equivalent conventional fuel produced from conventional petroleum sources.

§ 17143. Government efficiency status reports

(a) In general

Each Federal agency subject to any of the requirements of this title or the amendments made by this title shall compile and submit to the Director of the Office of Management and Budget an annual Government efficiency status report on—

(1) compliance by the agency with each of the requirements of this title and the amendments made by this title;

(2) the status of the implementation by the agency of initiatives to improve energy effi-
ciency, reduce energy costs, and reduce emissions of greenhouse gases; and
(3) savings to the taxpayers of the United States resulting from mandated improvements under this title and the amendments made by this title.

(b) Submission
The report shall be submitted—
(1) to the Director at such time as the Director requires;
(2) in electronic, not paper, format; and
(3) consistent with related reporting requirements.

REFERENCES IN TEXT
This title, referred to in subsec. (a), is title V of Pub. L. 110–140, which enacted this subchapter, part D (§8279) of subchapter III of chapter 91 of this title, and sections 6325, 6834, 8256, 8258, 8259b, 8287, and 8287c of this title, section 2162 of Title 2, section 2913 of Title 10, Armed Forces, section 3203 of Title 15, Commerce and Trade, and section 2621 of Title 16, Conservation, and enacted provisions set out as a note under section 8259b of this title. For complete classification of title V to the Code, see Tables.

CHANCE OF NAME
Committee on Oversight and Government Reform of House of Representatives changed to Committee on Oversight and Reform of House of Representatives by House Resolution No. 6, One Hundred Sixteenth Congress, Jan. 9, 2019.

EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART C—ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANTS

§17151. Definitions
In this part:
(1) Eligible entity
The term "eligible entity" means—
(A) a State;
(B) an eligible unit of local government; and
(C) an Indian tribe.

(2) Eligible unit of local government
The term "eligible unit of local government" means—
(A) an eligible unit of local government-alternative 1; and
(B) an eligible unit of local government-alternative 2.

(3)(A) Eligible unit of local government-alternative 1
The term "eligible unit of local government-alternative 1" means—
(i) a city with a population—
(1) of at least 35,000; or
(2) that causes the city to be 1 of the 10 highest-populated cities of the State in which the city is located; and
(ii) a county with a population—
(1) of at least 200,000; or
(2) that causes the county to be 1 of the 10 highest-populated counties of the State in which the county is located.

(B) Eligible unit of local government-alternative 2
The term "eligible unit of local government-alternative 2" means—
(i) a city with a population of at least 50,000; or
(ii) a county with a population of at least 200,000.

(4) Indian tribe
The term "Indian tribe" has the meaning given the term in section 5304 of title 25.

(5) Program
The term "program" means the Energy Efficiency and Conservation Block Grant Program established under section 17152(a) of this title.

(6) State
The term "State" means—

1 See References in Text note below.
§ 17152. Energy Efficiency and Conservation Block Grant Program

(a) Establishment
The Secretary shall establish a program, to be known as the “Energy Efficiency and Conservation Block Grant Program”, under which the Secretary shall provide grants to eligible entities in accordance with this part.

(b) Purpose
The purpose of the program shall be to assist eligible entities in implementing strategies—
(1) to reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities in a manner that—
(A) is environmentally sustainable; and
(B) to the maximum extent practicable, maximizes benefits for local and regional communities;
(2) to reduce the total energy use of the eligible entities; and
(3) to improve energy efficiency in—
(A) the transportation sector;
(B) the building sector; and
(C) other appropriate sectors.

§ 17153. Allocation of funds

(a) In general
Of amounts made available to provide grants under this part for each fiscal year, the Secretary shall allocate—
(1) 34 percent to eligible units of local government—alternative 1, in accordance with subsection (b); (2) 34 percent to eligible units of local government—alternative 2, in accordance with subsection (b); (3) 28 percent to States in accordance with subsection (c); (4) 2 percent to Indian tribes in accordance with subsection (d); and
(5) 2 percent for competitive grants under section 17156 of this title.

(b) Eligible units of local government
Of amounts available for distribution to eligible units of local government under subsection (a)(1) or (2), the Secretary shall provide grants to eligible units of local government under this section based on a formula established by the Secretary according to—
(1) the populations served by the eligible units of local government, according to the latest available decennial census; and
(2) the daytime populations of the eligible units of local government and other similar factors (such as square footage of commercial, office, and industrial space), as determined by the Secretary.

(c) States
Of amounts available for distribution to States under subsection (a)(2), the Secretary shall provide—
(1) not less than 1.25 percent to each State; and
(2) the remainder among the States, based on a formula to be established by the Secretary that takes into account—
(A) the population of each State; and
(B) any other criteria that the Secretary determines to be appropriate.

(d) Indian tribes
Of amounts available for distribution to Indian tribes under subsection (a)(3), the Secretary shall establish a formula for allocation of the amounts to Indian tribes, taking into account any factors that the Secretary determines to be appropriate.

(e) Publication of allocation formulas
Not later than 90 days before the beginning of each fiscal year for which grants are provided under this part, the Secretary shall publish in the Federal Register the formulas for allocation established under this section.

(f) State and local advisory committee
The Secretary shall establish a State and local advisory committee to advise the Secretary regarding administration, implementation, and evaluation of the program.

AMENDMENTS
2009—Subsec. (a)(1). Pub. L. 111–5, § 404(a)(2), added par. (1) and struck out former par. (1) which read as follows: “68 percent to eligible units of local government in accordance with subsection (b).”.
Subsec. (a)(2) to (5). Pub. L. 111–5, § 404(a), added par. (2) and redesignated former pars. (2) to (4) as (3) to (5), respectively.
Subsec. (b). Pub. L. 111–5, § 404(b), substituted “subdivision (a)(1) or (2)” for “subdivision (a)(1)” in introductory provisions.
(A) formulation of energy efficiency, energy conservation, and energy usage goals; 
(B) identification of strategies to achieve those goals—
   (i) through efforts to increase energy efficiency and reduce energy consumption; and
   (ii) by encouraging behavioral changes among the population served by the eligible entity;
(C) development of methods to measure progress in achieving the goals;
(D) development and publication of annual reports to the population served by the eligible entity describing—
   (i) the strategies and goals; and
   (ii) the progress made in achieving the strategies and goals during the preceding calendar year; and
(E) other services to assist in the implementation of the energy efficiency and conservation strategy;

(3) conducting residential and commercial building energy audits;
(4) establishment of financial incentive programs for energy efficiency improvements;
(5) the provision of grants to nonprofit organizations and governmental agencies for the purpose of performing energy efficiency retrofits;
(6) development and implementation of energy efficiency and conservation programs for buildings and facilities within the jurisdiction of the eligible entity, including—
   (A) design and operation of the programs;
   (B) identifying the most effective methods for achieving maximum participation and efficiency rates;
   (C) public education;
   (D) measurement and verification protocols; and
   (E) identification of energy efficient technologies;

(7) development and implementation of programs to conserve energy used in transportation, including—
   (A) use of flex time by employers;
   (B) satellite work centers;
   (C) development and promotion of zoning guidelines or requirements that promote energy efficient development;
   (D) development of infrastructure, such as bike lanes and pathways and pedestrian walkways;
   (E) synchronization of traffic signals; and
   (F) other measures that increase energy efficiency and decrease energy consumption;

(8) development and implementation of building codes and inspection services to promote building energy efficiency;

(9) application and implementation of energy distribution technologies that significantly increase energy efficiency, including—
   (A) distributed resources; and
   (B) district heating and cooling systems;

(10) activities to increase participation and efficiency rates for material conservation programs, including source reduction, recycling, and recycled content procurement programs that lead to increases in energy efficiency;

(11) the purchase and implementation of technologies to reduce, capture, and, to the maximum extent practicable, use methane and other greenhouse gases generated by landfills or similar sources;

(12) replacement of traffic signals and street lighting with energy efficient lighting technologies, including—
   (A) light emitting diodes; and
   (B) any other technology of equal or greater energy efficiency;

(13) development, implementation, and installation on or in any government building of the eligible entity of onsite renewable energy technology that generates electricity from renewable resources, including—
   (A) solar energy;
   (B) wind energy;
   (C) fuel cells; and
   (D) biomass; and

(14) any other appropriate activity, as determined by the Secretary, in consultation with—
   (A) the Administrator of the Environmental Protection Agency;
   (B) the Secretary of Transportation; and
   (C) the Secretary of Housing and Urban Development.

 EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17155. Requirements for eligible entities

(a) Construction requirement

(1) In general
To be eligible to receive a grant under the program, each eligible applicant shall submit to the Secretary a written assurance that all laborers and mechanics employed by any contractor or subcontractor of the eligible entity during any construction, alteration, or repair activity funded, in whole or in part, by the grant shall be paid wages at rates not less than the prevailing wages for similar construction activities in the locality, as determined by the Secretary of Labor, in accordance with sections 3141 through 3144, 3146, and 3147 of title 40.

(2) Secretary of Labor
With respect to the labor standards referred to in paragraph (1), the Secretary of Labor shall have the authority and functions described in—
   (A) Reorganization Plan Numbered 14 of 1950 (5 U.S.C. 903 note); and
   (B) section 3145 of title 40.

(b) Eligible units of local government and Indian tribes

(1) Proposed strategy

(A) In general
Not later than 1 year after the date on which an eligible unit of local government

1 See References in Text note below.
or Indian tribe receives a grant under this part, the eligible unit of local government or Indian tribe shall submit to the Secretary a proposed energy efficiency and conservation strategy in accordance with this paragraph.

(B) Inclusions

The proposed strategy under subparagraph (A) shall include—

(i) a description of the goals of the eligible unit of local government or Indian tribe, in accordance with the purposes of this part, for increased energy efficiency and conservation in the jurisdiction of the eligible unit of local government or Indian tribe; and

(ii) a plan for the use of the grant to assist the eligible unit of local government or Indian tribe in achieving those goals, in accordance with section 17154 of this title.

(C) Requirements for eligible units of local government

In developing the strategy under subparagraph (A), an eligible unit of local government shall—

(i) take into account any plans for the use of funds by adjacent eligible units of local governments that receive grants under the program; and

(ii) coordinate and share information with the State in which the eligible unit of local government is located regarding activities carried out using the grant to maximize the energy efficiency and conservation benefits under this part.

(2) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (1) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

(i) the Secretary shall provide to the eligible unit of local government or Indian tribe the reasons for the disapproval; and

(ii) the eligible unit of local government or Indian tribe may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to an eligible unit of local government or Indian tribe any grant under the program until a proposed strategy of the eligible unit of local government or Indian tribe is approved by the Secretary under this paragraph.

(3) Limitations on use of funds

Of amounts provided to an eligible unit of local government or Indian tribe under the program, an eligible unit of local government or Indian tribe may use—

(A) for administrative expenses, excluding the cost of meeting the reporting requirements of this part, an amount equal to the greater of—

(i) 10 percent; and

(ii) $75,000;

(B) for the establishment of revolving loan funds, an amount equal to the greater of—

(i) 20 percent; and

(ii) $250,000; and

(C) for the provision of subgrants to non-governmental organizations for the purpose of assisting in the implementation of the energy efficiency and conservation strategy of the eligible unit of local government or Indian tribe, an amount equal to the greater of—

(i) 20 percent; and

(ii) $250,000.

(4) Annual report

Not later than 2 years after the date on which funds are initially provided to an eligible unit of local government or Indian tribe under the program, and annually thereafter, the eligible unit of local government or Indian tribe shall submit to the Secretary a report describing—

(A) the status of development and implementation of the energy efficiency and conservation strategy of the eligible unit of local government or Indian tribe; and

(B) as practicable, an assessment of energy efficiency gains within the jurisdiction of the eligible unit of local government or Indian tribe.

(c) States

(1) Distribution of funds

(A) In general

A State that receives a grant under the program shall use not less than 60 percent of the amount received to provide subgrants to units of local government in the State that are not eligible units of local government.

(B) Deadline

The State shall provide the subgrants required under subparagraph (A) by not later than 180 days after the date on which the Secretary approves a proposed energy efficiency and conservation strategy of the State under paragraph (3).

(2) Revision of conservation plan; proposed strategy

Not later than 120 days after December 19, 2007, each State shall—

(A) modify the State energy conservation plan of the State under section 6322 of this title to establish additional goals for increased energy efficiency and conservation in the State; and

(B) submit to the Secretary a proposed energy efficiency and conservation strategy that—

(i) establishes a process for providing subgrants as required under paragraph (1); and

(ii) includes a plan of the State for the use of funds received under the program to assist the State in achieving the goals established under subparagraph (A), in ac-

---

2So in original. Probably should be “or”.

—END—
cordance with sections 17152(b) and 17154 of this title.

(3) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (2)(B) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

(i) the Secretary shall provide to the State the reasons for the disapproval; and

(ii) the State may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to a State any grant under the program until a proposed strategy of the State is approved by the Secretary under this paragraph.

(4) Limitations on use of funds

A State may use not more than 10 percent of amounts provided under the program for administrative expenses.

(5) Annual reports

Each State that receives a grant under the program shall submit to the Secretary an annual report that describes—

(A) the status of development and implementation of the energy efficiency and conservation strategy of the State during the preceding calendar year;

(B) the status of the subgrant program of the State under paragraph (1);

(C) the energy efficiency gains achieved through the energy efficiency and conservation strategy of the State during the preceding calendar year; and

(D) specific energy efficiency and conservation goals of the State for subsequent calendar years.

References in Text

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (a)(2)(A), is set out in the Appendix to Title 5, Government Organization and Employees. Section 903 of Title 5 relates to Presidential authority regarding reorganization plans.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17157. Review and evaluation

(a) In general

The Secretary may review and evaluate the performance of any eligible entity that receives a grant under the program, including by conducting an audit, as the Secretary determines to be appropriate.

(b) Withholding of funds

The Secretary may withhold from an eligible entity any portion of a grant to be provided to the eligible entity under the program if the Secretary determines that the eligible entity has failed to achieve compliance with—

(1) any applicable guideline or regulation of the Secretary relating to the program, including the misuse or misappropriation of funds provided under the program; or

(2) the energy efficiency and conservation strategy of the eligible entity.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17158. Funding

(a) Authorization of appropriations

(1) Grants

There is authorized to be appropriated to the Secretary for the provision of grants under the program $2,000,000,000 for each of fiscal years 2008 through 2012.

(2) Administrative costs

There are authorized to be appropriated to the Secretary for administrative expenses of the program—
(A) $20,000,000 for each of fiscal years 2008 and 2009;
(B) $25,000,000 for each of fiscal years 2010 and 2011; and
(C) $30,000,000 for fiscal year 2012.

(b) Maintenance of funding

The funding provided under this section shall supplement (and not supplant) other Federal funding provided under—

(1) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or
(2) the Weatherization Assistance Program for Low-Income Persons established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.).

References in Text

The Energy Policy and Conservation Act, referred to in subsec. (b)(1), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871. Part D of title III of the Act is classified generally to part B (§6321 et seq.) of subchapter III of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 1824 of Title 2, The Congress. The Secretary shall establish a program of research and development to provide lower cost and more viable thermal energy storage technologies to enable the shifting of electric power loads on demand and extend the operating time of concentrating solar power electric generating plants.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $5,000,000 for fiscal year 2008, $7,000,000 for fiscal year 2009, $9,000,000 for fiscal year 2010, $10,000,000 for fiscal year 2011, and $12,000,000 for fiscal year 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

Short Title

This part known as the “Solar Energy Research and Advancement Act of 2007”, see Short Title note set out under section 17001 of this title.

§ 17172. Solar energy curriculum development and certification grants

(a) Establishment

The Secretary shall establish in the Office of Solar Energy Technologies a competitive grant program to create and strengthen solar industry workforce training and internship programs in installation, operation, and maintenance of solar energy products. The goal of this program is to ensure a supply of well-trained individuals to support the expansion of the solar energy industry.

(b) Authorized activities

Grant funds may be used to support the following activities:

(1) Creation and development of a solar energy curriculum appropriate for the local educational, entrepreneurial, and environmental conditions, including curriculum for community colleges.
(2) Support of certification programs for individual solar energy system installers, instructors, and training programs.
(3) Internship programs that provide hands-on participation by students in commercial applications.
(4) Activities required to obtain certification of training programs and facilities by an industry-accepted quality-control certification program.
(5) Incorporation of solar-specific learning modules into traditional occupational training and internship programs for construction-related trades.
(6) The purchase of equipment necessary to carry out activities under this section.
(7) Support of programs that provide guidance and updates to solar energy curriculum instructors.

(c) Administration of grants

Grants may be awarded under this section for up to 3 years. The Secretary shall award grants to ensure sufficient geographic distribution of training programs nationally. Grants shall only be awarded for programs certified by an industry-accepted quality-control certification institution, or for new and growing programs with a credible path to certification. Due consideration shall be given to women, underrepresented minorities, and persons with disabilities.

(d) Report

The Secretary shall make public, on the website of the Department or upon request, information on the name and institution for all grants awarded under this section, including a brief description of the project as well as the grant award amount.
(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $10,000,000 for each of the fiscal years 2008 through 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17173. Daylighting systems and direct solar light pipe technology

(a) Establishment

The Secretary shall establish a program of research and development to provide assistance in the demonstration and commercial application of direct solar renewable energy sources to provide alternatives to traditional power generation for lighting and illumination, including light pipe technology, and to promote greater energy conservation and improved efficiency. All direct solar renewable energy devices supported under this program shall have the capability to provide measurable data on the amount of kilowatt-hours saved over the traditionally powered light sources they have replaced.

(b) Reporting

The Secretary shall transmit to Congress an annual report assessing the measurable data derived from each project in the direct solar renewable energy sources program and the energy savings resulting from its use.

(c) Definitions

For purposes of this section—

(1) the term “direct solar renewable energy” means energy from a device that converts sunlight into usable light within a building, tunnel, or other enclosed structure, replacing artificial light generated by a light fixture and doing so without the conversion of the sunlight into another form of energy; and

(2) the term “light pipe” means a device designed to transport visible solar radiation from its collection point to the interior of a building while excluding interior heat gain in the nonheating season.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $3,500,000 for each of the fiscal years 2008 through 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—GEOThermal ENERGY

§17191. Definitions

For purposes of this part:

(1) Engineered

When referring to enhanced geothermal systems, the term “engineered” means designed to access subsurface heat, including stimulation and nonstimulation technologies to address one or more of the following issues:

(A) Lack of effective permeability, porosity or open fracture connectivity within the heat reservoir.

(B) Insufficient contained geofluid in the heat reservoir.

(C) A low average geothermal gradient which necessitates deeper drilling, or the use of alternative heat sources or heat generation processes.

(2) Eligible entity

The term “eligible entity” means any of the following entities:

(A) An institution of higher education.

(B) A National laboratory.

(C) A Federal research agency.

(D) A State research agency.

(E) A nonprofit research organization.

(F) An industrial entity.

(G) A consortium of 2 or more entities described in subparagraphs (A) through (F).

(3) Enhanced geothermal systems

The term “enhanced geothermal systems” means geothermal reservoir systems that are engineered, as opposed to occurring naturally.

(4) Geofluid

The term “geofluid” means any fluid used to extract thermal energy from the Earth which is transported to the surface for direct use or electric power generation, except that such term shall not include oil or natural gas.

(5) Geopressed resources

The term “geopressed resources” mean geothermal deposits found in sedimentary rocks under higher than normal pressure and saturated with gas or methane.

(6) Geothermal

The term “geothermal” refers to heat energy stored in the Earth’s crust that can be accessed for direct use or electric power generation.

(7) Hydrothermal

The term “hydrothermal” refers to naturally occurring subsurface reservoirs of hot water or steam.

(8) Systems approach

The term “systems approach” means an approach to solving problems or designing systems that attempts to optimize the performance of the overall system, rather than a particular component of the system.

Amendments

2020—Par. (1). Pub. L. 116–260, §3002(a), amended par. (1) generally. Prior to amendment, par. (1) defined the term “engineered”.

Page 8445 TITLE 42—THE PUBLIC HEALTH AND WELFARE §17191
§ 17192. Hydrothermal research and development
(a) In general
The Secretary shall carry out a program of research, development, demonstration, and commercial application for geothermal energy production from hydrothermal systems.

(b) Programs
The program authorized in subsection (a) shall include the following:

1. Advanced hydrothermal resource tools
The research and development of advanced geologic tools to assist in locating hydrothermal resources, and to increase the reliability of site characterization, including the development of new imaging and sensing technologies and techniques to assist in prioritization of targets for characterization;

2. Exploratory drilling for geothermal resources
The demonstration of advanced technologies and techniques of siting and exploratory drilling for undiscovered resources in a variety of geologic settings, carried out in collaboration with industry partners that will assist in the acquisition of high quality data sets relevant for hydrothermal subsurface characterization activities.

§ 17193. General geothermal systems research and development
(a) Subsurface components and systems
The Secretary shall support a program of research, development, demonstration, and commercial application of components and systems capable of withstanding geothermal environments and necessary to develop, produce, and monitor geothermal reservoirs and produce geothermal energy.

(b) Environmental impacts
The Secretary shall—

1. support a program of research, development, demonstration, and commercial application of technologies and practices designed to mitigate or preclude potential adverse environmental impacts of geothermal energy development, production, or use;

2. support a research program to identify potential environmental impacts, including induced seismicity, and environmental benefits of geothermal energy development, production, and use, and ensure that the program described in paragraph (1) addresses such impacts, including water use and effects on groundwater and local hydrology;

3. support a program of research to compare the potential environmental impacts and environmental benefits identified as part of the development, production, and use of geothermal energy with the potential emission reductions of greenhouse gases gained by geothermal energy development, production, and use; and

4. in carrying out this section, the Secretary shall, to the maximum extent practicable, consult with relevant federal agencies, including the Environmental Protection Agency.

(e) Reservoir thermal energy storage
The Secretary shall support a program of research, development, and demonstration of reservoir thermal energy storage, emphasizing cost-effective improvements through deep direct use engineering, design, and systems research.

(d) Oil and gas technology transfer initiative
(1) In general
The Secretary shall support an initiative among the Office of Fossil Energy, the Office of Energy Efficiency and Renewable Energy, and the private sector to research, develop, and demonstrate relevant advanced technologies and operation techniques used in the oil and gas sector for use in geothermal energy development.

(2) Priorities
In carrying out paragraph (1), the Secretary shall prioritize technologies with the greatest potential to significantly increase the use and lower the cost of geothermal energy in the United States, including the cost and speed of geothermal drilling surface technologies, large- and small-scale drilling, and well construction.

(e) Coproduction of geothermal energy and minerals production research and development initiative
(1) In general
The Secretary shall carry out a research and development initiative under which the Secretary shall provide financial assistance to demonstrate the coproduction of critical minerals from geothermal resources.

(2) Requirements
An award made under paragraph (1) shall—

A. improve the cost effectiveness of removing minerals from geothermal brines as part of the coproduction process;

B. increase recovery rates of the targeted mineral commodity;

1. So in original. The words ‘The Secretary shall’ appear in introductory provisions.
(C) decrease water use and other environmental impacts, as determined by the Secretary; and
(D) demonstrate a path to commercial viability.

(f) **Flexible operations**

The Secretary shall support a research initiative on flexible operation of geothermal power plants.

(g) **Integrated energy systems**

The Secretary shall identify opportunities for joint research, development, and demonstration programs between geothermal systems and other energy generation or storage systems.

(h) **Drilling data repository**

(1) **In general**

The Secretary shall, in consultation with the Secretary of the Interior, establish and operate a voluntary, industry-wide repository of geothermal drilling information to lower the cost of future geothermal drilling.

(2) **Repository**

(A) **In general**

In carrying out paragraph (1), the Secretary shall collaborate with countries utilizing a significant amount of geothermal energy, as determined by the Secretary.

(B) **Data system**

The repository established under paragraph (1) shall be integrated with the National Geothermal Data System.

**AMENDMENTS**

**EFFECTIVE DATE**

Section effective on the date that is 1 day after Dec. 27, 2020, 134 Stat. 2488.

§ 17194. Enhanced geothermal systems research and development

(a) **In general**

The Secretary shall support a program of research, development, demonstration, and commercial application for enhanced geothermal systems, including the programs described in subsection (b).

(b) **Enhanced geothermal systems technologies**

In collaboration with industry partners, institutions of higher education, and the national laboratories, the Secretary shall support a program of research, development, demonstration, and commercial application of the technologies to achieve higher efficiency and lower cost enhanced geothermal systems, including—

(1) reservoir stimulation;
(2) drilled, non-stimulated (e.g., closed-loop) reservoir technologies;
(3) reservoir characterization, monitoring, and modeling and understanding of the surface area and volume of fractures;
(4) stress and fracture mapping including real-time monitoring and modeling;
(5) tracer development;
(6) three and four-dimensional seismic imaging and tomography;
(7) well placement and orientation;
(8) long-term reservoir management;
(9) drilling technologies, methods, and tools;
(10) improved exploration tools;
(11) zonal isolation; and
(12) understanding induced seismicity risks from reservoir engineering and stimulation.

(c) **Frontier observatory for research in geothermal energy**

(1) **In general**

The Secretary shall support the establishment and construction of up to 3 field research sites, which shall each be known as a “Frontier Observatory for Research in Geothermal Energy” or “FORGE” site to develop, test, and enhance techniques and tools for enhanced geothermal energy.

(2) **Duties**

The Secretary shall—

(A) provide financial assistance in support of research and development projects focused on advanced monitoring technologies, new technologies and approaches for implementing multi-zone stimulations, non-stimulation techniques, and dynamic reservoir modeling that incorporates all available high-fidelity characterization data; and

(B) seek opportunities to coordinate efforts and share information with domestic and international partners engaged in research and development of geothermal systems and related technology, including coordination between FORGE sites.

(3) **Site selection**

Of the FORGE sites referred to in paragraph (1), the Secretary shall—

(A) consider applications through a competitive, merit-reviewed process, from National Laboratories, multi-institutional collaborations, institutes of higher education and other appropriate entities best suited to provide national leadership on geothermal related issues and perform the duties enumerated under this subsection;

(B) prioritize existing field sites and facilities with capabilities relevant to the duties enumerated under this subsection;

(C) determine the mission need for and potential location of subsequent FORGE sites following the completion of construction and one year of operation of two FORGE sites; and

(D) ensure geologic diversity among FORGE sites when developing subsequent sites, to the maximum extent practicable.

(4) **Existing forge sites**

A FORGE site already in existence on December 27, 2020, may continue to receive support.

(5) **Site operation**

(A) **Initial duration**

FORGE sites selected under paragraph (3) shall operate for an initial term of not more
§ 17195. Geothermal energy production from oil and gas fields and recovery and production of geopressed gas resources

(a) In general

The Secretary shall establish a program of research, development, demonstration, and commercial application to support development of enhanced geothermal systems development, while also considering environmental impacts to the maximum extent practicable, as determined by the Secretary.

(b) Requirements

Demonstration projects under subparagraph (A) shall—

(i) collectively demonstrate—

(I) different geologic settings, such as hot sedimentary aquifers, layered geologic systems, supercritical systems, and basement rock systems; and

(II) a variety of development techniques, including open hole and cased hole completions, differing well orientations, and stimulation and nonstimulation mechanisms; and

(ii) to the extent practicable, use existing sites where subsurface characterization or geothermal energy integration analysis has been conducted.

(c) Eastern demonstration

Not fewer than 1 of the demonstration projects carried out under subparagraph (A) shall be located an area east of the Mississippi River that is suitable for enhanced geothermal demonstration for power, heat, or a combination of power and heat.

(d) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under this subsection as a milestone-based demonstration project under section 7256c of this title.

(3) Funding

Out of funds authorized to be appropriated under section 17202 of this title, there shall be made available to the Secretary to carry out the demonstration activities under this subsection $21,000,000 for each of fiscal years 2021 through 2023.

REFERENCES IN TEXT

December 27, 2020, referred to in subsecs. (c)(4) and (d)(1), was in the original “the date of enactment of this Act” and “the date of enactment of this section”, respectively, and were translated as meaning the date of enactment of Pub. L. 116–260, which was approved Dec. 27, 2020.

AMENDMENTS

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17195. Geothermal energy production from oil and gas fields and recovery and production of geopressed gas resources

(a) In general

The Secretary shall establish a program of research, development, demonstration, and commercial application to support development of enhanced geothermal systems for power production or di
geothermal energy production from oil and gas fields and production and recovery of energy, including electricity, from geopressed resources. In addition, the Secretary shall conduct such supporting activities including research, resource characterization, and technology development as necessary.

(b) Geothermal energy production from oil and gas fields

The Secretary shall implement a grant program in support of geothermal energy production from oil and gas fields. The program shall include grants for a total of not less than three demonstration projects of the use of geothermal techniques such as advanced organic rankine cycle systems at marginal, unproductive, and productive oil and gas wells. The Secretary shall, to the extent practicable and in the public interest, make awards that—

(1) include not less than five oil or gas well sites per project award;
(2) use a range of oil or gas well hot water source temperatures from 150 degrees Fahrenheit to 300 degrees Fahrenheit;
(3) cover a range of sizes up to one megawatt;
(4) are located at a range of sites;
(5) can be replicated at a wide range of sites;
(6) facilitate identification of optimum techniques among competing alternatives;
(7) include business commercialization plans that have the potential for production of equipment at high volumes and operation and support at a large number of sites; and
(8) satisfy other criteria that the Secretary determines are necessary to carry out the program and collect necessary data and information.

The Secretary shall give preference to assessments that address multiple elements contained in paragraphs (1) through (8).

c) Grant awards

Each grant award for demonstration of geothermal technology such as advanced organic rankine cycle systems at oil and gas wells made by the Secretary under subsection (b) shall include—

(1) necessary and appropriate site engineering study;
(2) detailed economic assessment of site specific conditions;
(3) appropriate feasibility studies to determine whether the demonstration can be replicated;
(4) design or adaptation of existing technology for site specific circumstances or conditions;
(5) installation of equipment, service, and support;
(6) operation for a minimum of 1 year and monitoring for the duration of the demonstration; and
(7) validation of technical and economic assumptions and documentation of lessons learned.

d) Geopressed gas resource recovery and production

(1) The Secretary shall implement a program to support the research, development, demonstration, and commercial application of cost-effective techniques to produce energy from geopressed resources.

(2) The Secretary shall solicit preliminary engineering designs for geopressed resources production and recovery facilities.

(3) Based upon a review of the preliminary designs, the Secretary shall award grants, which may be cost-shared, to support the detailed development and completion of engineering, architectural and technical plans needed to support construction of new designs.

(4) Based upon a review of the final design plans above, the Secretary shall award cost-shared development and construction grants for demonstration geopressed production facilities that show potential for economic recovery of the heat, kinetic energy and gas resources from geopressed resources.

e) Competitive grant selection

Not less than 90 days after December 19, 2007, the Secretary shall conduct a national solicitation for applications for grants under the programs outlined in subsections (b) and (d). Grant recipients shall be selected on a competitive basis based on criteria in the respective subsection.

(f) Well drilling

No funds may be used under this section for the purpose of drilling new wells.

§ 17195a. Geothermal heat pumps and direct use research and development

(a) Purposes

The purposes of this section are—

(1) to improve the understanding of related earth sciences, components, processes, and systems used for geothermal heat pumps and the direct use of geothermal energy; and
(2) to increase the energy efficiency, lower the cost, increase the use, and improve and demonstrate the effectiveness of geothermal heat pumps and the direct use of geothermal energy.

(b) Definitions

In this section:

(1) Direct use of geothermal energy

The term “direct use of geothermal energy” means geothermal systems that use water directly or through a heat exchanger to provide—

(A) heating and cooling to buildings, commercial districts, residential communities, and large municipal, or industrial projects; or
(B) heat required for industrial processes, agriculture, aquaculture, and other facilities.

(2) Economically distressed area

The term “economically distressed area” means an area described in section 3161(a) of this title.
§ 17196. Organization and administration of programs

(a) Federal share

The Federal share of costs of projects funded under this part shall be in accordance with section 16352 of this title.

(b) Organization and administration of programs

Programs under this part shall incorporate the following elements:

(1) The Secretary shall coordinate with, and where appropriate may provide funds in furtherance of the purposes of this part to, other Department of Energy research and development programs focused on drilling, subsurface characterization, and other related technologies.

(2) The Secretary shall coordinate and consult with the appropriate Federal land management agencies in selecting proposals for funding under this part.

(3) Nothing in this part shall be construed to alter or affect any law relating to the management or protection of Federal lands.

(c) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information on geothermal energy technologies and the geothermal energy workforce, including activities at the Frontier Observatory for Research in Geothermal Energy site or sites.

(d) Technical assistance

In carrying out this part, the Secretary shall also conduct technical assistance and analysis activities with eligible entities for the purpose of supporting the commercial application of advances in geothermal energy systems development and operations, which may include activities that support expanding access to advanced geothermal energy technologies for rural, Tribal, and low-income communities.

(e) Report

Every 5 years after December 27, 2020, the Secretary shall report to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on advanced concepts and technologies to maximize the geothermal resource potential of the United States.

(f) Progress reports

Not later than 1 year after December 27, 2020, and every 2 years thereafter, the Secretary shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of projects undertaken under this part and other such information the Secretary considers appropriate.
§ 17197. Advanced geothermal computing and data science research and development

(a) In general

The Secretary shall carry out a program of research and development of advanced computing and data science tools for geothermal energy.

(b) Programs

The program authorized in subsection (a) shall include the following:

(1) Advanced computing for geothermal systems technologies

Research, development, and demonstration of technologies to develop advanced data, machine learning, artificial intelligence, and related computing tools to assist in locating geothermal resources, to increase the reliability of site characterization, to increase the rate and efficiency of drilling, to improve induced seismicity mitigation, and to support enhanced geothermal systems technologies.

(2) Geothermal systems reservoir modeling

Research, development, and demonstration of models of geothermal reservoir performance and enhanced geothermal systems reservoir stimulation technologies and techniques, with an emphasis on accurately modeling fluid and heat flow, permeability evolution, geomechanics, geochemistry, seismicity, and operational performance over time, including collaboration with industry and field validation.

(c) Coordination

In carrying out these programs, the Secretary shall ensure coordination and consultation with the Department of Energy’s Office of Science. The Secretary shall ensure, to the maximum extent practicable, coordination of these activities with the Department of Energy National Laboratories, institutes of higher education, and the private sector.

§ 17198. Geothermal workforce development

The Secretary shall support the development of a geothermal energy workforce through a program that—

(1) facilitates collaboration between university students and researchers at the National Laboratories; and

(2) prioritizes science in areas relevant to the mission of the Department through the application of geothermal energy tools and technologies.

§ 17201. Applicability of other laws

Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law. To the extent that activities authorized in this part take place in coastal and ocean areas, the Secretary shall consult with the Secretary of Commerce, acting through the Under Secretary of Commerce for Oceans and Atmosphere, regarding the potential marine environmental impacts and measures to address such impacts.

§ 17202. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the programs under this part.

References in Text

This part, referred to in subsec. (f), probably should be a reference to “this subtitle”, meaning subtitle B of title VI of Pub. L. 110–140, which is classified to this part.

Amendments

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section read as follows: “The Secretary shall carry out the programs under this title in the performance of the mission of the Department through the application of geothermal energy tools and technologies.

REFERENCES IN EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
§ 17203. International geothermal energy development

(a) In general

The Secretary of Energy, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of geothermal technologies used to develop hydrothermal and enhanced geothermal system resources.

(b) United States Trade and Development Agency

The Director of the United States Trade and Development Agency may—

(1) encourage participation by United States firms in actions taken to carry out subsection (a); and

(2) provide grants and other financial support for feasibility and resource assessment studies conducted in, or intended to benefit, less developed countries.

(Pub. L. 110–140, title VI, § 624, Dec. 19, 2007, 121 Stat. 1686. Out of funds authorized under section 17202 of this title, there is authorized to be appropriated $5,000,000 for each of fiscal years 2008 to 2012.)

AMENDMENTS

(b) Program

The Secretary shall use amounts made available to carry out this section to make grants to eligible entities for activities described in subsection (c).

(c) Eligible activities

An eligible entity may use grant funds under this section, with respect to a geothermal energy project in a high-cost region, only—

(1) to conduct a feasibility study, including a study of exploration, geochemical testing, geomagnetic surveys, geologic information gathering, baseline environmental studies, well drilling, resource characterization, permitting, and economic analysis;

(2) for design and engineering costs, relating to the project; and

(3) to demonstrate and promote commercial application of technologies related to geothermal energy as part of the project.

(d) Cost sharing

The cost-sharing requirements of section 16332 of this title shall apply to any project carried out under this section.

(e) Authorization of appropriations

Out of funds authorized under section 17202 of this title, there is authorized to be appropriated to carry out this section $5,000,000,000 for each of fiscal years 2021 through 2025.

AMENDMENTS

Subsec. (e). Pub. L. 116–260, § 3002(l)(2), amended subsec. (e) generally. Prior to amendment, text read as follows: “There are authorized to be appropriated such sums as are necessary to carry out this section.”

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17204. High cost region geothermal energy grant program

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a utility;

(B) an electric cooperative;

(C) a State;

(D) a political subdivision of a State;

(E) an Indian tribe; or

(F) a Native corporation.

(2) High-cost region

The term “high-cost region” means a region in which the average cost of electrical power or heat exceeds 150 percent of the national average retail cost, as determined by the Secretary.

(b) Program

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a utility;

(B) an electric cooperative;

(C) a State;

(D) a political subdivision of a State;

(E) an Indian tribe; or

(F) a Native corporation.
Such part is shown herein, however, as having been added by Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2479, because of the extensive revision of the part’s provisions by Pub. L. 116–260.

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this part, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

§ 17211. Definitions

In this part:

(1) Eligible entity

The term “eligible entity” means any of the following entities:

(A) An institution of higher education.
(B) A National Laboratory.
(C) A Federal research agency.
(D) A State research agency.
(E) A nonprofit research organization.
(F) An industrial entity or a multi-institutional consortium thereof.

(2) Institution of higher education

The term “institution of higher education” means—

(A) an institution of higher education (as defined in section 1001(a) of title 20); or
(B) a postsecondary vocational institution (as defined in section 1002(c) of title 20).

(3) Marine energy

The term “marine energy” means energy from—

(A) waves, tides, and currents in oceans, estuaries, and tidal areas;
(B) free flowing water in rivers, lakes, streams, and man-made channels;
(C) differentials in salinity and pressure gradients; and
(D) differentials in water temperature, including ocean thermal energy conversion.

(4) National laboratory

The term “National Laboratory” has the meaning given such term in section 15801(3) of this title.

(5) Water power

The term “water power” refers to hydropower, including conduit power, pumped storage, and marine energy technologies.

(6) Microgrid

The term “microgrid” has the meaning given such term in section 17231 of this title.

§ 17212. Water power technology research, development, and demonstration

The Secretary shall carry out a program to conduct research, development, demonstration, and commercial application of water power technologies in support of each of the following purposes:

(1) To promote research, development, demonstration, and commercial application of water power generation technologies in order to increase capacity and reduce the cost of those technologies.
(2) To promote research and development to improve the environmental impact of water power technologies.
(3) To provide grid reliability and resilience, including through technologies that facilitate new market opportunities, such as ancillary services, for water power.
(4) To promote the development of water power technologies to improve economic growth and enhance cross-institutional foundational workforce development in the water power sector, including in coastal communities.

Prior Provisions

§ 17213. Hydropower research, development, and demonstration

The Secretary shall conduct a program of research, development, demonstration, and commercial application for technologies that improve the capacity, efficiency, resilience, security, reliability, affordability, and environmental impact, including potential cumulative environmental impacts, of hydropower systems. In carrying out such program, the Secretary shall prioritize activities designed to—

(1) develop technology for—

(A) non-powered dams, including aging and potentially hazardous dams;
(B) pumped storage;
(C) constructed waterways;
(D) new stream-reach development;
(E) modular and small dams;
(F) increased operational flexibility; and
(G) enhancement of relevant existing facilities;
(2) develop new strategies and technologies, including analytical methods, physical and numerical tools, and advanced computing, as well as methods to validate such methods and tools, in order to—

(A) extend the operational lifetime of hydropower systems and their physical structures, while improving environmental impact, including potential cumulative environmental impacts;
(B) assist in device and system design, installation, operation, and maintenance; and
(C) reduce costs, limit outages, and increase unit and plant efficiencies, including

Prior Provisions

Short Title
This part was formerly known as the “Marine and Hydrokinetic Renewable Energy Research and Development Act”, see Short Title note formerly set out under section 17001 of this title.
by examining the impact of changing water and electricity demand on hydropower generation, flexibility, and provision of grid services;

(3) study, in conjunction with other relevant Federal agencies as appropriate, methods to improve the hydropower licensing process, including by compiling current and accepted best practices, public comments, and methodologies to assess the full range of potential environmental and economic impacts;

(4) identify opportunities for joint research, development, and demonstration programs between hydropower systems, which may include—

(A) pumped storage systems and other renewable energy systems;
(B) small hydro facilities and other energy storage systems;
(C) other hybrid energy systems;
(D) small hydro facilities and critical infrastructure, including water infrastructure; and

(E) hydro facilities and responsive load technologies, which may include smart buildings and city systems;

(5) improve the reliability of hydropower technologies, including during extreme weather events;

(6) develop methods and technologies to improve environmental impact, including potential cumulative environmental impacts, of hydropower and pumped storage technologies, including potential impacts on wildlife, such as—

(A) fisheries;
(B) aquatic life and resources;
(C) navigation of waterways; and

(D) upstream and downstream environmental conditions, including sediment movement, water quality, and flow volumes;

(7) identify ways to increase power generation by—

(A) diversifying plant configuration options;
(B) improving pump-back efficiencies;
(C) investigating multi-phase systems;

(D) developing, testing, and monitoring advanced generators with faster cycling times, variable speeds, and improved efficiencies;

(E) developing, testing, and monitoring advanced turbines capable of improving environmental impact, including potential cumulative environmental impacts, including small turbine designs;

(F) developing standardized powertrain components;

(G) developing components with advanced materials and manufacturing processes, including additive manufacturing; and

(H) developing analytical tools that enable hydropower to provide grid services that, amongst other services, improve grid integration of other energy sources;

(8) advance new pumped storage technologies, including—

(A) systems with adjustable speed and other new pumping and generating equipment designs;

(B) modular systems;

(C) alternative closed-loop systems, including mines and quarries; and

(D) other innovative equipment and materials as determined by the Secretary;

(9) reduce civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency gains;

(10) advance efficient and reliable integration of hydropower and pumped storage systems with the electric grid by—

(A) improving methods for operational forecasting of renewable energy systems to identify opportunities for hydropower applications in pumped storage and hybrid energy systems, including forecasting of seasonal and annual energy storage;

(B) considering aggregating small distributed hydropower assets; and

(C) identifying barriers to grid scale implementation of hydropower and pumped storage technologies;

(11) improve computational fluid dynamic modeling methods;

(12) improve flow measurement methods, including maintenance of continuous flow measurement equipment;

(13) identify best methods for compiling data on all hydropower resources and assets, including identifying potential for increased capacity; and

(14) identify mechanisms to test and validate performance of hydropower and pumped storage technologies.

PUBLISHED TEXT

§ 17214. Marine energy research, development, and demonstration

(a) In general

The Secretary, in consultation with the Secretary of Defense, Secretary of Commerce (acting through the Under Secretary of Commerce for Oceans and Atmosphere) and other relevant Federal agencies, shall conduct a program of research, development, demonstration, and commercial application of marine energy technology, including activities to—

(1) assist technology development to improve the components, processes, and systems used for power generation from marine energy resources at a variety of scales;

(2) establish and expand critical testing infrastructure and facilities necessary to—

(A) demonstrate and prove marine energy devices at a range of scales in a manner that is cost-effective and efficient; and

(B) accelerate the technological readiness and commercial application of such devices;
§ 17215. National Marine Energy Centers

(a) In general

The Secretary shall award grants, each such grant up to $10,000,000 per year, to institutions of higher education (or consortia thereof) for—

(1) the continuation and expansion of the research, development, demonstration, testing, and commercial application activities at the National Marine Energy Centers (referred to in this section as “Centers”) established as of January 1, 2020; and

(2) the establishment of new National Marine Energy Centers.

(b) Study of non-power sector applications for advanced marine energy technologies

(1) In general

The Secretary, in consultation with the Secretary of Transportation and the Secretary of Commerce, shall conduct a study to examine opportunities for research and development in advanced marine energy technologies for non-power sector applications, including applications with respect to—

(A) the maritime transportation sector;

(B) associated maritime energy infrastructure, including infrastructure that serves ports, to improve system resilience and disaster recovery; and

(C) enabling scientific missions at sea and in extreme environments, including the Arctic.

(2) Report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report that describes the results of the study conducted under paragraph (1).

(3) Time limitation

Prior Provisions

§ 17215. National Marine Energy Centers
(b) Location selection
In selecting institutions of higher education for new Centers, the Secretary shall consider the following criteria:

(1) Whether the institution hosts an existing marine energy research and development program.
(2) Whether the institution has proven technical expertise to support marine energy research.
(3) Whether the institution has access to marine resources.

(c) Purposes
The Centers shall coordinate among themselves, the Department, and National Laboratories to—

(1) advance research, development, demonstration, and commercial application of marine energy technologies in response to industry and commercial needs;
(2) support in-water testing and demonstration of marine energy technologies, including facilities capable of testing—
   (A) marine energy systems of various technology readiness levels and scales;
   (B) a variety of technologies in multiple test berths at a single location;
   (C) arrays of technology devices; and
   (D) interconnectivity to an electrical grid, including microgrids; and
(3) collect and disseminate information on best practices in all areas relating to developing and managing marine energy resources and energy systems.

(d) Coordination
To the extent practicable, the Centers shall coordinate their activities with the Secretary of Commerce, acting through the Undersecretary of Commerce for Oceans and Atmosphere, and other relevant Federal agencies.

(e) Termination
To the extent otherwise authorized by law, the Secretary may terminate funding for a Center described in paragraph (a) if such Center is under-performing.

PRIOR PROVISIONS

§ 17216. Organization and administration of programs

(a) Coordination
In carrying out this part, the Secretary shall coordinate activities, and effectively manage cross-cutting research priorities across programs of the Department and other relevant Federal agencies, including the National Laboratories and the National Marine Energy Centers.

(b) Collaboration
(1) In general
In carrying out this part, the Secretary shall collaborate with industry, National Laboratories, other relevant Federal agencies, institutions of higher education, including Minority Serving Institutions, National Marine Energy Centers, Tribal entities, including Alaska Native Corporations, and international bodies with relevant scientific and technical expertise.

(2) Participation
To the extent practicable, the Secretary shall encourage research projects that promote collaboration between entities specified in paragraph (1) and include entities not historically associated with National Marine Energy Centers, such as Minority Serving Institutions.

(3) International collaboration
The Secretary, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of water power technologies used to develop hydropower, pump storage, and marine energy resources.

(c) Dissemination of results and public availability
The Secretary shall—

(1) publish the results of projects supported under this part through Department websites, reports, databases, training materials, and industry conferences, including information discovered after the completion of such projects, withholding any industrial proprietary information; and
(2) share results of such projects with the public except to the extent that the information is protected from disclosure under section 552(b) of title 5.

(d) Award frequency
The Secretary shall solicit applications for awards under this part no less frequently than once per fiscal year.

(e) Education and outreach
In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information and promote public understanding of water power technologies and the water power workforce, including activities at the National Marine Energy Centers.

(f) Technical assistance and workforce development
In carrying out this part, the Secretary may also conduct, for purposes of supporting technical, non-hardware, and information-based advances in water power systems development and operations—

(1) technical assistance and analysis activities with eligible entities, including activities that support expanding access to advanced water power technologies for rural, Tribal, and low-income communities; and
(2) workforce development and training activities, including to support the dissemination of standards and best practices for enabling water power production.
(g) Strategic plan
In carrying out the activities described in this part, the Secretary shall—
(1) not later than one year after December 27, 2020, draft a plan, considering input from relevant stakeholders such as industry and academia, to implement the programs described in this part and update the plan on an annual basis; and
(2) the plan shall address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of water power systems.

(h) Report to Congress
Not later than 1 year after December 27, 2020, and at least once every 2 years thereafter, the Secretary shall provide, and make available to the public and the relevant authorizing and appropriations committees of Congress, a report on the findings of research conducted and activities carried out pursuant to this part, including the most current strategic plan under subsection (g) and the progress made in implementing such plan.

§ 17217. Applicability of other laws
Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law.

§ 17218. Authorization of appropriations
There are authorized to be appropriated to the Secretary to carry out this part $186,600,000 for each of fiscal years 2021 through 2025, including $137,428,378 for marine energy and $49,171,622 for hydropower research, development, and demonstration activities.

PART D—ENERGY STORAGE FOR TRANSPORTATION AND ELECTRIC POWER

§ 17231. Energy storage competitiveness

(a) Short title
This section may be cited as the “United States Energy Storage Competitiveness Act of 2007”.

(b) Definitions
In this section:
(1) Council
The term “Council” means the Energy Storage Advisory Council established under subsection (e).

(2) Compressed air energy storage
The term “compressed air energy storage” means, in the case of an electricity grid application, the storage of energy through the compression of air.

(3) Electric drive vehicle
The term “electric drive vehicle” means—
(A) a vehicle that uses an electric motor for all or part of the motive power of the vehicle, including battery electric, hybrid electric, plug-in hybrid electric, fuel cell, and plug-in fuel cell vehicles and rail transportation vehicles; or
(B) mobile equipment that uses an electric motor to replace an internal combustion engine for all or part of the work of the equipment.

(4) Islanding
The term “islanding” means a distributed generator or energy storage device continuing to power a location in the absence of electric power from the primary source.

(5) Flywheel
The term “flywheel” means, in the case of an electricity grid application, a device used to store rotational kinetic energy.

(6) Microgrid
The term “microgrid” means an integrated energy system consisting of interconnected loads and distributed energy resources (including generators and energy storage devices), which as an integrated system can operate in parallel with the utility grid or in an intentional islanding mode.

(7) Self-healing grid
The term “self-healing grid” means a grid that is capable of automatically anticipating and responding to power system disturbances (including the isolation of failed sections and components), while optimizing the performance and service of the grid to customers.

(8) Spinning reserve services
The term “spinning reserve services” means a quantity of electric generating capacity in excess of the quantity needed to meet peak electric demand.

(9) Ultracapacitor
The term “ultracapacitor” means an energy storage device that has a power density comparable to a conventional capacitor but is capable of exceeding the energy density of a conventional capacitor by several orders of magnitude.

(c) Program
The Secretary shall carry out a research, development, and demonstration program to support the ability of the United States to remain globally competitive in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(d) Coordination
In carrying out the activities of this section, the Secretary shall coordinate relevant efforts with appropriate Federal agencies, including the Department of Transportation.
(e) Energy Storage Advisory Council

(1) Establishment
Not later than 90 days after December 19, 2007, the Secretary shall establish an Energy Storage Advisory Council.

(2) Composition
(A) In general
Subject to subparagraph (B), the Council shall consist of not less than 15 individuals appointed by the Secretary, based on recommendations of the National Academy of Sciences.

(B) Energy storage industry
The Council shall consist primarily of representatives of the energy storage industry of the United States.

(C) Chairperson
The Secretary shall select a Chairperson for the Council from among the members appointed under subparagraph (A).

(3) Meetings
(A) In general
The Council shall meet not less than once a year.

(B) Federal Advisory Committee Act
The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to a meeting of the Council.

(4) Plans
No later than 1 year after December 19, 2007, and every 5 years thereafter, the Council, in conjunction with the Secretary, shall develop a 5-year plan for integrating basic and applied research so that the United States retains a globally competitive domestic energy storage industry for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(5) Review
The Council shall—
(A) assess, every 2 years, the performance of the Department in meeting the goals of the plans developed under paragraph (4); and
(B) make specific recommendations to the Secretary on programs or activities that should be established or terminated to meet those goals.

(f) Basic research program

(1) Basic research
The Secretary shall conduct a basic research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution, including—
(A) materials design;
(B) materials synthesis and characterization;
(C) electrode-active materials, including electrolytes and bioelectrolytes;
(D) surface and interface dynamics;
(E) modeling and simulation; and
(F) thermal behavior and life degradation mechanisms.

(2) Nanoscience centers
The Secretary, in cooperation with the Council, shall coordinate the activities of the nanoscience centers of the Department to help the energy storage research centers of the Department maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(g) Applied research program

(1) In general
The Secretary shall conduct an applied research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution technologies, including—
(A) ultracapacitors;
(B) flywheels;
(C) batteries and battery systems (including flow batteries);
(D) compressed air energy systems;
(E) power conditioning electronics;
(F) manufacturing technologies for energy storage systems;
(G) thermal management systems; and
(H) hydrogen as an energy storage medium.

(2) Funding
For activities carried out under this subsection, in addition to funding activities at National Laboratories, the Secretary shall provide funds to, and coordinate activities with, a range of stakeholders including the public, private, and academic sectors.

(h) Energy storage research centers

(1) In general
The Secretary shall establish, through competitive bids, not more than 4 energy storage research centers to translate basic research into applied technologies to advance the capability of the United States to maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(2) Program management
The centers shall be managed by the Under Secretary for Science of the Department.

(3) Participation agreements
As a condition of participating in a center, a participant shall enter into a participation agreement with the center that requires that activities conducted by the participant for the center promote the goal of enabling the United States to compete successfully in global energy storage markets.

(4) Plans
A center shall conduct activities that promote the achievement of the goals of the plans of the Council under subsection (e)(4).

(5) National laboratories
A national laboratory (as defined in section 15801 of this title) may participate in a center
established under this subsection, including a cooperative research and development agreement (as defined in section 3710a(d) of title 15).

(6) Disclosure

Section 13293 of this title may apply to any project carried out through a grant, contract, or cooperative agreement under this subsection.

(7) Intellectual property

In accordance with section 202(a)(ii) of title 35, section 2182 of this title, and section 5908 of this title, the Secretary may require, for any new invention developed under this subsection relating to the advancement of energy storage technologies carried out, in whole or in part, with Federal funding, the industrial participant be granted the first option to negotiate with the invention owner, at least in the field of energy storage technologies, nonexclusive licenses, and royalties on terms that are reasonable, as determined by the Secretary:

(A) if an industrial participant is active in a 1 energy storage research center established under this subsection relating to the advancement of energy storage technologies carried out, in whole or in part, with Federal funding, the industrial participant is granted the first option to negotiate with the invention owner, at least in the field of energy storage technologies, nonexclusive licenses, and royalties on terms that are reasonable, as determined by the Secretary;

(B) if 1 or more industry participants are active in a center, during a 2-year period beginning on the date on which an invention is made,

(i) the patent holder shall not negotiate any license or royalty agreement with any entity that is not an industrial participant under this subsection; and

(ii) the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested industrial participant under this subsection; and

(C) the new invention developed under this subsection shall be necessary to promote the accelerated commercialization of inventions made under this subsection to advance the capability of the United States to successfully compete in global energy storage markets.

(i) Energy storage systems demonstrations

(1) In general

The Secretary shall carry out a program of new demonstrations of advanced energy storage systems.

(2) Scope

The demonstrations shall—

(A) be regionally diversified; and

(B) expand on the existing technology demonstration program of the Department.

(3) Stakeholders

In carrying out the demonstrations, the Secretary shall, to the maximum extent practicable, include the participation of a range of stakeholders, including—

(A) rural electric cooperatives;

(B) investor owned utilities;

(C) municipally owned electric utilities;

(D) energy storage systems manufacturers;

(E) electric drive vehicle manufacturers;

(F) the renewable energy production industry;

(G) State or local energy offices;

(H) the fuel cell industry; and

(I) institutions of higher education.

(4) Objectives

Each of the demonstrations shall include 1 or more of the following:

(A) Energy storage to improve the feasibility of microgrids or islanding, or transmission and distribution capability, to improve reliability in rural areas.

(B) Integration of an energy storage system with a self-healing grid.

(C) Use of energy storage to improve security to emergency response infrastructure and ensure availability of emergency backup power for consumers.

(D) Integration with a renewable energy production source, at the source or away from the source.

(E) Use of energy storage to provide ancillary services, such as spinning reserve services, for grid management.

(F) Advancement of power conversion systems to make the systems smarter, more efficient, able to communicate with other inverters, and able to control voltage.

(G) Use of energy storage to optimize transmission and distribution operation and power quality, which could address overloaded lines and maintenance of transformers and substations.

(H) Use of advanced energy storage for peak load management of homes, businesses, and the grid.

(I) Use of energy storage devices to store energy during nonpeak generation periods to make better use of existing grid assets.

(j) Vehicle energy storage demonstration

(1) In general

The Secretary shall carry out a program of electric drive vehicle energy storage technology demonstrations.

(2) Consortia

The technology demonstrations shall be conducted through consortia, which may include—

(A) energy storage systems manufacturers and suppliers of the manufacturers;

(B) electric drive vehicle manufacturers;

(C) rural electric cooperatives;

(D) investor owned utilities;

(E) municipal and rural electric utilities;

(F) State and local governments;

(G) metropolitan transportation authorities; and

(H) institutions of higher education.

(3) Objectives

The program shall demonstrate 1 or more of the following:

(A) Novel, high capacity, high efficiency energy storage, charging, and control systems, along with the collection of data on performance characteristics, such as battery life, energy storage capacity, and power delivery capacity.

(B) Advanced onboard energy management systems and highly efficient battery cooling systems.
§ 17231

(C) Integration of those systems on a prototype vehicular platform, including with drivetrain systems for passenger, commercial, and nonroad electric drive vehicles.

(D) New technologies and processes that reduce manufacturing costs.

(E) Integration of advanced vehicle technologies with electricity distribution system and smart metering technology.

(F) Control systems that minimize emissions profiles in cases in which clean diesel engines are part of a plug-in hybrid drive system.

(k) Secondary applications and disposal of electric drive vehicle batteries

The Secretary shall carry out a program of research, development, and demonstration of—

(1) secondary applications of energy storage devices following service in electric drive vehicles; and

(2) technologies and processes for final recycling and disposal of the devices.

(l) Cost sharing

The Secretary shall carry out the programs established under this section in accordance with section 16352 of this title.

(m) Merit review of proposals

The Secretary shall carry out the programs established under subsections (i), (j), and (k) in accordance with section 16353 of this title.

(n) Coordination and nonduplication

To the maximum extent practicable, the Secretary shall coordinate activities under this section with other programs and laboratories of the Department and other Federal research programs.

(o) Review by National Academy of Sciences

On the business day that is 5 years after December 19, 2007, the Secretary shall offer to enter into an arrangement with the National Academy of Sciences to assess the performance of the Department in carrying out this section.

(p) Authorization of appropriations

There are authorized to be appropriated to carry out—

(1) the basic research program under subsection (f) $50,000,000 for each of fiscal years 2009 through 2018;

(2) the applied research program under subsection (g) $80,000,000 for each of fiscal years 2009 through 2018; and; 2

(3) the energy storage research center program under subsection (h) $100,000,000 for each of fiscal years 2009 through 2018;

(4) the energy storage systems demonstration program under subsection (i) $30,000,000 for each of fiscal years 2009 through 2018;

(5) the vehicle energy storage demonstration program under subsection (j) $30,000,000 for each of fiscal years 2009 through 2018; and

(6) the secondary applications and disposal of electric drive vehicle batteries program under subsection (k) $5,000,000 for each of fiscal years 2009 through 2018.

(q) Critical material recycling and reuse research, development, and demonstration program

(1) Definitions

In this subsection:

(A) Critical material

The term “critical material” has the meaning given the term in 1606 of title 30.

(B) Critical material recycling

The term “critical material recycling” means the separation and recovery of critical materials embedded within an energy storage system through physical or chemical means for the purpose of reuse of those critical materials in other technologies.

(2) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program for critical material recycling and reuse of energy storage systems containing critical materials.

(3) Research, development, and demonstration

In carrying out the program established under paragraph (1), the Secretary shall conduct—

(A) research, development, and demonstration activities for—

(i) technologies, process improvements, and design optimizations that facilitate and promote critical material recycling of energy storage systems, including separation and sorting of component materials of such systems, and extraction, recovery, and reuse of critical materials from such systems;

(ii) technologies and methods that mitigate emissions and environmental impacts that arise from critical material recycling, including disposal of toxic reagents and byproducts related to critical material recycling processes;

(iii) technologies to enable extraction, recovery, and reuse of energy storage systems from electric vehicles and critical material recycling from such vehicles; and

(iv) technologies and methods to enable the safe transport, storage, and disposal of energy storage systems containing critical materials, including waste materials and components recovered during the critical material recycling process; and

(B) research on nontechnical barriers to improve the collection and critical material recycling of energy storage systems, including strategies to improve consumer education of, acceptance of, and participation in, the critical material recycling of energy storage systems.

(4) Report to Congress

Not later than 2 years after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report summarizing the activities, findings, and progress of the program.

2So in original.
§ 17232. Better energy storage technology

(a) Definitions

In this section:

(1) Energy storage system

The term “energy storage system” means any system, equipment, facility, or technology that—

(A) is capable of absorbing or converting energy, storing the energy for a period of time, and dispatching the energy; and

(B)(i) uses mechanical, electrochemical, thermal, electrolysis, or other processes to convert and store electric energy that was generated at an earlier time for use at a later time;

(ii) uses mechanical, electrochemical, biochemical, or thermal processes to convert and store energy generated from mechanical processes that would otherwise be wasted, for delivery at a later time; or

(iii) stores energy in an electric, thermal, or gaseous state for direct use for heating or cooling at a later time in a manner that avoids the need to use electricity or other fuel sources at that later time, such as a grid-enabled water heater.

(2) Program

The term “program” means the Energy Storage System Research, Development, and Deployment Program established under subsection (b)(1).

(3) Secretary

The term “Secretary” means the Secretary of Energy.

(b) Energy Storage System Research, Development, and Deployment Program

(1) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a program, to be known as the Energy Storage System Research, Development, and Deployment Program.

(2) Initial program objectives

The program shall focus on research, development, and deployment of—

(A) energy storage systems, components, and materials designed to further the development of technologies—

(i) for large-scale commercial deployment;

(ii) for deployment at cost targets established by the Secretary;

(iii) for hourly and subhourly durations required to provide reliability services to the grid;

(iv) for daily durations, which have the capacity to discharge energy for a minimum of 6 hours;

(v) for weekly or monthly durations, which have the capacity to discharge energy for 10 to 180 hours, at a minimum; and

(vi) for seasonal durations, which have the capability to address seasonal variations in supply and demand;

(B) distributed energy storage technologies and applications, including building-grid integration;

(C) long-term cost, performance, and demonstration targets for different types of energy storage systems and for use in a variety of regions, including rural areas;

(D) transportation energy storage technologies and applications, including vehicle-grid integration;

(E) cost-effective systems and methods for—

(i) the sustainable and secure sourcing, reclamation, recycling, and disposal of energy storage systems, including critical minerals; and

(ii) the reuse and repurposing of energy storage system technologies;

(F) advanced control methods for energy storage systems;

(G) pumped hydroelectric energy storage systems to advance—

(i) adoption of innovative technologies, including—

(I) systems with adjustable-speed and other new pumping and generating equipment designs;

(II) modular systems;

(III) closed-loop systems, including mines and quarries; and

(IV) other innovative equipment and materials as determined by the Secretary; and

(ii) reductions of civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency gains;

(H) models and tools to demonstrate the costs and benefits of energy storage to—

(i) power and water supply systems;

(ii) electric generation portfolio optimization; and

(iii) expanded deployment of other renewable energy technologies, including in integrated energy storage systems;

(I) energy storage use cases from individual and combination technology applications, including value from various-use cases and energy storage services; and

(J) advanced manufacturing technologies that have the potential to improve United
States competitiveness in energy storage manufacturing or reduce United States dependence on critical materials.

(3) Testing and validation

In coordination with 1 or more National Laboratories, the Secretary shall support the development, standardized testing, and validation of energy storage systems under the program, including test-bed and field trials, by developing testing and evaluation methodologies for—

(A) storage technologies, controls, and power electronics for energy storage systems under a variety of operating conditions;
(B) standardized and grid performance testing for energy storage systems, materials, and technologies during each stage of development;
(C) reliability, safety, degradation, and durability testing under standard and evolving duty cycles; and
(D) accelerated life testing protocols to predict estimated lifetime metrics with accuracy.

(4) Periodic evaluation of program objectives

Not less frequently than once every calendar year, the Secretary shall evaluate and, if necessary, update the program objectives to ensure that the program continues to advance energy storage systems toward widespread commercial deployment by lowering the costs and increasing the duration of energy storage resources.

(5) Energy storage strategic plan

(A) In general

The Secretary shall develop a 10-year strategic plan for the program, and update the plan, in accordance with this paragraph.

(B) Contents

The strategic plan developed under subparagraph (A) shall—

(i) be coordinated with and integrated across other relevant offices in the Department;
(ii) to the extent practicable, include metrics that can be used to evaluate storage technologies;
(iii) identify Department programs that—
(I) support the research and development activities described in paragraph (2) and the demonstration projects under subsection (c); and
(II)(aa) do not support the activities or projects described in subclause (I); but
(bb) are important to the development of energy storage systems and the mission of the Department, as determined by the Secretary;
(iv) include expected timelines for—
(I) the accomplishment of relevant objectives under current programs of the Department relating to energy storage systems; and
(II) the commencement of any new initiatives within the Department relating to energy storage systems to accomplish those objectives; and
(v) incorporate relevant activities described in the Grid Modernization Initiative Multi-Year Program Plan.

(C) Submission to Congress

Not later than 180 days after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and Science, Space, and Technology of the House of Representatives the strategic plan developed under subparagraph (A).

(D) Updates to plan

The Secretary—

(i) shall annually review the strategic plan developed under subparagraph (A); and
(ii) may periodically revise the strategic plan as appropriate.

(6) Leveraging of resources

The program may be led by a specific office of the Department, but shall be cross-cutting in nature, so that in carrying out activities under the program, the Secretary (or a designee of the Secretary charged with leading the program) shall leverage existing Federal resources, including, at a minimum, the expertise and resources of—

(A) the Office of Electricity;
(B) the Office of Energy Efficiency and Renewable Energy, including the Water Power Technologies Office; and
(C) the Office of Science, including—
(i) the Basic Energy Sciences Program;
(ii) the Advanced Scientific Computing Research Program;
(iii) the Biological and Environmental Research Program; and
(D) the Electricity Storage Research Initiative established under section 16315 of this title.

(7) Protecting privacy and security

In carrying out this subsection, the Secretary shall identify, incorporate, and follow best practices for protecting the privacy of individuals and businesses and the respective sensitive data of the individuals and businesses, including by managing privacy risk and implementing the Fair Information Practice Principles of the Federal Trade Commission for the collection, use, disclosure, and retention of individual electric consumer information in accordance with the Office of Management and Budget Circular A–130 (or successor circulars).

(c) Energy storage demonstration projects; pilot grant program

(1) Demonstration projects

Not later than September 30, 2023, the Secretary shall, to the maximum extent practicable, enter into agreements to carry out 3 energy storage system demonstration projects, including at least 1 energy storage system demonstration project designed to further the development of technologies described in clause (v) or (vi) of subsection (b)(2)(A).
(2) Energy storage pilot grant program

(A) Definition of eligible entity

In this paragraph, the term “eligible entity” means—

(i) a State energy office (as defined in section 15821(a) of this title);
(ii) an Indian Tribe (as defined in section 4003 of title 25);
(iii) a Tribal organization (as defined in section 3765 of title 38);
(iv) an institution of higher education (as defined in section 1001 of title 20);
(v) an electric utility, including—
   (I) an electric cooperative;
   (II) a political subdivision of a State, such as a municipally owned electric utility, or any agency, authority, corporation, or instrumentality of a State political subdivision; and
   (III) an investor-owned utility; and
(vi) a private energy storage company.

(B) Establishment

The Secretary shall establish a competitive grant program under which the Secretary shall award grants to eligible entities to carry out demonstration projects for pilot energy storage systems.

(C) Selection requirements

In selecting eligible entities to receive a grant under subparagraph (B), the Secretary shall, to the maximum extent practicable—

(i) ensure regional diversity among eligible entities awarded grants, including ensuring participation of eligible entities that are rural States and States with high energy costs;
(ii) ensure that grants are awarded for demonstration projects that—
   (I) expand on the existing technology demonstration programs of the Department;
   (II) are designed to achieve 1 or more of the objectives described in subparagraph (D); and
   (III) inject or withdraw energy from the bulk power system, electric distribution system, building energy system, or microgrid (grid-connected or islanded mode) where the project is located;
(iii) give consideration to proposals from eligible entities for securing energy storage through competitive procurement or contract for service; and
(iv) prioritize projects that leverage matching funds from non-Federal sources.

(D) Objectives

Each demonstration project carried out by a grant awarded under subparagraph (B) shall have 1 or more of the following objectives:

(i) To improve the security of critical infrastructure and emergency response systems.
(ii) To improve the reliability of transmission and distribution systems, particularly in rural areas, including high-energy cost rural areas.
(iii) To optimize transmission or distribution system operation and power quality to defer or avoid costs of replacing or upgrading electric grid infrastructure, including transformers and substations.
(iv) To supply energy at peak periods of demand on the electric grid or during periods of significant variation of electric grid supply.
(v) To reduce peak loads of homes and businesses.
(vi) To improve and advance power conversion systems.
(vii) To provide ancillary services for grid stability and management.
(viii) To integrate renewable energy resource production.
(ix) To increase the feasibility of microgrids (grid-connected or islanded mode).
(x) To enable the use of stored energy in forms other than electricity to support the natural gas system and other industrial processes.
(xi) To integrate fast charging of electric vehicles.
(xii) To improve energy efficiency.

(3) Reports

Not less frequently than once every 3 years for the duration of the programs under paragraphs (1) and (2), the Secretary shall submit to Congress and make publicly available a report describing the performance of those programs.

(4) No project ownership interest

The Federal Government shall not hold any equity or other ownership interest in any energy storage system that is part of a project under this subsection unless the holding is agreed to by each participant of the project.

(d) Long-duration demonstration initiative and joint program

(1) Definitions

In this subsection:

(A) Initiative

The term “Initiative” means the demonstration initiative established under paragraph (2).

(B) Joint Program

The term “Joint Program” means the joint program established under paragraph (4).

(2) Establishment of Initiative

Not later than 180 days after December 27, 2020, the Secretary shall establish a demonstration initiative composed of demonstration projects focused on the development of long-duration energy storage technologies.

(3) Selection of projects

To the maximum extent practicable, in selecting demonstration projects to participate in the Initiative, the Secretary shall—

(A) ensure a range of technology types;
(B) ensure regional diversity among projects; and
(C) consider bulk power level, distribution power level, behind-the-meter, microgrid
(gridconnected or islanded mode), and off-grid applications.

(4) Joint program

(A) Establishment

As part of the Initiative, the Secretary, in consultation with the Secretary of Defense, shall establish within the Department a joint program to carry out projects—

(i) to demonstrate promising long-duration energy storage technologies at different scales; and

(ii) to help new, innovative long-duration energy storage technologies become commercially viable.

(B) Memorandum of understanding

Not later than 200 days after December 27, 2020, the Secretary shall enter into a memorandum of understanding with the Secretary of Defense to administer the Joint Program.

(C) Infrastructure

In carrying out the Joint Program, the Secretary and the Secretary of Defense shall—

(i) use existing test-bed infrastructure at—

(I) Department facilities; and

(II) Department of Defense installations; and

(ii) develop new infrastructure for identified projects, if appropriate.

(D) Goals and metrics

The Secretary and the Secretary of Defense shall develop goals and metrics for technological progress under the Joint Program consistent with energy resilience and energy security policies.

(E) Selection of projects

(i) In general

To the maximum extent practicable, in selecting projects to participate in the Joint Program, the Secretary and the Secretary of Defense shall—

(I) ensure that projects are carried out under conditions that represent a variety of environments with different physical conditions and market constraints; and

(II) ensure an appropriate balance of—

(aa) larger, higher-cost projects; and

(bb) smaller, lower-cost projects.

(ii) Priority

In carrying out the Joint Program, the Secretary and the Secretary of Defense shall give priority to demonstration projects that—

(I) make available to the public project information that will accelerate deployment of long-duration energy storage technologies; and

(II) will be carried out in the field.

(e) Omitted

(f) Coordination

To the maximum extent practicable, the Secretary shall coordinate the activities under this section (including activities conducted pursuant to the amendments made by this section) among the offices and employees of the Department, other Federal agencies, and other relevant entities—

(1) to ensure appropriate collaboration;

(2) to avoid unnecessary duplication of those activities; and

(3) to increase domestic manufacturing and production of energy storage systems, such as those within the Department and within the National Institute of Standards and Technology.

(g) Authorization of appropriations

There are authorized to be appropriated—

(1) to carry out subsection (b), $100,000,000 for each of fiscal years 2021 through 2025, to remain available until expended;

(2) to carry out subsection (c), $71,000,000 for each of fiscal years 2021 through 2025, to remain available until expended; and

(3) to carry out subsection (d), $30,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17233. Energy storage technology and microgrid assistance program

(a) Definitions

In this section:

(1) Eligible entity

The term “eligible entity” means—

(A) a rural electric cooperative; (B) an agency, authority, or instrumentality of a State or political subdivision of a State that sells or otherwise uses electrical energy to provide electric services for customers; or (C) a nonprofit organization working with at least 6 entities described in subparagraph (A) or (B).

(2) Energy storage technology

The term “energy storage technology” includes grid-enabled water heaters, building heating or cooling systems, electric vehicles, the production of hydrogen for transportation or industrial use, or other technologies that store energy.

(3) Microgrid

The term “microgrid” means a localized grid that operates autonomously regardless of whether the grid can operate in connection with another grid.

(4) Renewable energy source

The term “renewable energy source” has the meaning given the term in section 918c(a) of title 7.

(5) Rural electric cooperative

The term “rural electric cooperative” means an electric cooperative (as defined in section
796 of title 16) that sells electric energy to persons in rural areas.

(6) Secretary

The term “Secretary” means the Secretary of Energy.

(b) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a program under which the Secretary shall—

(1) provide grants to eligible entities under subsection (d);

(2) provide technical assistance to eligible entities under subsection (e); and

(3) disseminate information to eligible entities on—

(A) the activities described in subsections (d)(1) and (e); and

(B) potential and existing energy storage technology and microgrid projects.

(c) Cooperative agreement

The Secretary may enter into a cooperative agreement with an eligible entity to carry out subsection (b).

(d) Grants

(1) In general

The Secretary may award grants to eligible entities for identifying, evaluating, designing, and demonstrating energy storage technology and microgrid projects that utilize energy from renewable energy sources.

(2) Application

To be eligible to receive a grant under paragraph (1), an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(3) Use of grant

An eligible entity that receives a grant under paragraph (1)—

(A) shall use the grant—

(i) to conduct feasibility studies to assess the potential for implementation or improvement of energy storage technology or microgrid projects;

(ii) to analyze and implement strategies to overcome barriers to energy storage technology or microgrid project implementation, including financial, contracting, siting, and permitting barriers;

(iii) to conduct detailed engineering of energy storage technology or microgrid projects;

(iv) to perform a cost-benefit analysis with respect to an energy storage technology or microgrid project;

(v) to plan for both the short- and long-term inclusion of energy storage technology or microgrid projects into the future development plans of the eligible entity; or

(vi) to purchase and install necessary equipment, materials, and supplies for demonstration of emerging technologies; and

(B) may use the grant to obtain technical assistance from experts in carrying out the activities described in subparagraph (A).

(4) Condition

As a condition of receiving a grant under paragraph (1), an eligible entity shall—

(A) implement a public awareness campaign, in coordination with the Secretary, about the project implemented under the grant in the community in which the eligible entity is located, which campaign shall include providing projected environmental benefits achieved under the project, where to find more information about the program established under this section, and any other information the Secretary determines necessary;

(B) submit to the Secretary, and make available to the public, a report that describes—

(i) any energy cost savings and environmental benefits achieved under the project; and

(ii) the results of the project, including quantitative assessments to the extent practicable, associated with each activity described in paragraph (3)(A); and

(C) create and disseminate tools and resources that will benefit other rural electric cooperatives, which may include cost calculators, guidebooks, handbooks, templates, and training courses.

(5) Cost-share

Activities under this subsection shall be subject to the cost-sharing requirements of section 16352 of this title.

(e) Technical assistance

(1) In general

In carrying out the program established under subsection (b), the Secretary may provide eligible entities with technical assistance relating to—

(A) identifying opportunities for energy storage technology and microgrid projects;

(B) understanding the technical and economic characteristics of energy storage technology or microgrid projects;

(C) understanding financing alternatives;

(D) permitting and siting issues;

(E) obtaining case studies of similar and successful energy storage technology or microgrid projects;

(F) reviewing and obtaining computer software for assessment, design, and operation and maintenance of energy storage technology or microgrid systems; and

(G) understanding and utilizing the reliability and resiliency benefits of energy storage technology and microgrid projects.

(2) External contracts

In carrying out paragraph (1), the Secretary may enter into contracts with third-party experts, including engineering, finance, and insurance experts, to provide technical assistance to eligible entities relating to the activities described in such paragraph, or other relevant activities, as determined by the Secretary.

(f) Authorization of appropriations

(1) In general

There is authorized to be appropriated to carry out this section $15,000,000 for each of fiscal years 2021 through 2025.
(2) Administrative costs

Not more than 5 percent of the amount appropriated under paragraph (1) for each fiscal year shall be used for administrative expenses.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART E—MISCELLANEOUS PROVISIONS

§ 17241. Lightweight materials research and development

(a) In general

As soon as practicable after December 19, 2007, the Secretary of Energy shall establish a program to determine ways in which the weight of motor vehicles could be reduced to improve fuel efficiency without compromising passenger safety by conducting research, development, and demonstration relating to—

(1) the development of new materials (including cast metal composite materials formed by autocombustion synthesis) and material processes that yield a higher strength-to-weight ratio or other properties that reduce vehicle weight; and

(2) reducing the cost of—

(A) lightweight materials (including high-strength steel alloys, aluminum, magnesium, metal composites, and carbon fiber reinforced polymer composites) with the properties required for construction of lighter-weight vehicles; and

(B) materials processing, automated manufacturing, joining, and recycling lightweight materials for high-volume applications.

(b) Authorization of appropriations

There is authorized to be appropriated to carry out this section $80,000,000 for the period of fiscal years 2008 through 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17242. Commercial insulation demonstration program

(a) Definitions

In this section:

(1) Advanced insulation

The term “advanced insulation” means insulation that has an R value of not less than R35 per inch.

(2) Covered refrigeration unit

The term “covered refrigeration unit” means any—

(A) commercial refrigerated truck;

(B) commercial refrigerated trailer; or

(C) commercial refrigerator, freezer, or refrigerator-freezer described in section 6313(c) of this title.

(b) Report

Not later than 90 days after December 19, 2007, the Secretary shall submit to Congress a report that includes an evaluation of—

(1) the state of technological advancement of advanced insulation; and

(2) the projected amount of cost savings that would be generated by implementing advanced insulation into covered refrigeration units.

(c) Demonstration program

(1) Establishment

If the Secretary determines in the report described in subsection (b) that the implementation of advanced insulation into covered refrigeration units would generate an economically justifiable amount of cost savings, the Secretary, in cooperation with manufacturers of covered refrigeration units, shall establish a demonstration program under which the Secretary shall demonstrate the cost-effectiveness of advanced insulation.

(2) Disclosure

The Secretary may, for a period of up to 5 years after an award is granted under the demonstration program, exempt from mandatory disclosure under section 552 of title 5 (popularly known as the Freedom of Information Act) information that the Secretary determines would be a privileged or confidential trade secret or commercial or financial information under subsection (b)(4) of such section if the information had been obtained from a non-Government party.

(3) Cost-sharing

Section 16352 of this title shall apply to any project carried out under this subsection.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section $8,000,000 for the period of fiscal years 2009 through 2014.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17243. Bright Tomorrow Lighting Prizes

(a) Establishment

Not later than 1 year after December 19, 2007, as part of the program carried out under section 16396 of this title, the Secretary shall establish and award Bright Tomorrow Lighting Prizes for solid state lighting in accordance with this section.

(b) Prize specifications

(1) 60-Watt Incandescent Replacement Lamp Prize

The Secretary shall award a 60-Watt Incandescent Replacement Lamp Prize to an entrant that produces a solid-state-light package simultaneously capable of—

(A) producing a luminous flux greater than 900 lumens;

(B) consuming less than or equal to 10 watts;
The Secretary shall award a Twenty-First Century Lamp Prize to an entrant that produces a solid-state-light package simultaneously capable of—

(A) producing a light output greater than 1,200 lumens;
(B) having an efficiency greater than 150 lumens per watt;
(C) having a color rendering index greater than 90;
(D) having a color coordinate temperature between 2,800 and 3,000 degrees Kelvin; and
(E) having a lifetime exceeding 25,000 hours.

(c) Private funds

(1) In general

Subject to paragraph (2), and notwithstanding section 3302 of title 31, the Secretary may accept, retain, and use funds contributed by any person, government entity, or organization for purposes of carrying out this subsection—

(A) without further appropriation; and

(B) without fiscal year limitation.

(2) Prize competition

A private source of funding may not participate in the competition for prizes awarded under this section.

(d) Technical review

The Secretary shall establish a technical review committee composed of non-Federal officers to review entrant data submitted under this section to determine whether the data meets the prize specifications described in subsection (b).

(e) Third party administration

The Secretary may competitively select a third party to administer awards under this section.

(f) Eligibility for prizes

To be eligible to be awarded a prize under this section—

(1) in the case of a private entity, the entity shall be incorporated in and maintain a primary place of business in the United States; and

(2) in the case of an individual (whether participating as a single individual or in a group), the individual shall be a citizen or lawful permanent resident of the United States.

(g) Award amounts

Subject to the availability of funds to carry out this section, the amount of—

(1) the 60-Watt Incandescent Replacement Lamp Prize described in subsection (b)(1) shall be $10,000,000; and

(2) the PAR Type 38 Halogen Replacement Lamp Prize described in subsection (b)(2) shall be $5,000,000; and

(3) the Twenty-First Century Lamp Prize described in subsection (b)(3) shall be $5,000,000.

(h) Federal procurement of solid-state-lights

(1) 60-watt incandescent replacement

Subject to paragraph (3), as soon as practicable after the successful award of the 60-Watt Incandescent Replacement Lamp Prize under subsection (b)(1), the Secretary (in consultation with the Administrator of General Services) shall develop governmentwide Federal purchase guidelines with a goal of replacing the use of 60-watt incandescent lamps in...
Federal Government buildings with a solid-state-light package described in subsection (b)(1) by not later than the date that is 5 years after the date the award is made.

(2) PAR 38 halogen replacement lamp replacement

Subject to paragraph (3), as soon as practicable after the successful award of the PAR Type 38 Halogen Replacement Lamp Prize under subsection (b)(2), the Secretary (in consultation with the Administrator of General Services) shall develop governmentwide Federal purchase guidelines with the goal of replacing the use of PAR 38 halogen lamps in Federal Government buildings with a solid-state-light package described in subsection (b)(2) by not later than the date that is 5 years after the date the award is made.

(3) Waivers

(A) In general

The Secretary or the Administrator of General Services may waive the application of paragraph (1) or (2) if the Secretary or Administrator determines that the return on investment from the purchase of a solid-state-light package described in paragraph (1) or (2) of subsection (b), respectively, is cost prohibitive.

(B) Report of waiver

If the Secretary or Administrator waives the application of paragraph (1) or (2), the Secretary or Administrator, respectively, shall submit to Congress an annual report that describes the waiver and provides a detailed justification for the waiver.

(i) Report

Not later than 2 years after December 19, 2007, and annually thereafter, the Administrator of General Services shall submit to the Energy Information Agency a report describing the quantity, type, and cost of each lighting product purchased by the Federal Government.

(j) Bright Tomorrow Lighting Award Fund

(1) Establishment

There is established in the United States Treasury a Bright Tomorrow Lighting permanent fund without fiscal year limitation to award prizes under paragraphs (1), (2), and (3) of subsection (b).

(2) Sources of funding

The fund established under paragraph (1) shall accept—

(A) fiscal year appropriations; and

(B) private contributions authorized under subsection (c).

(k) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

**Effective Date**

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
tion, exempt from mandatory disclosure under section 552 of title 5 (popularly known as the Freedom of Information Act) information that the Secretary determines would be a privileged or confidential trade secret or commercial or financial information under subsection (b)(4) of such section if the information had been obtained from a non-Government party.

(i) Sense of the Congress

It is the sense of the Congress that the Secretary should ensure that small businesses engaged in renewable manufacturing be given priority consideration for the assistance awards provided under this section.

(j) Authorization of appropriations

There is authorized to be appropriated out of funds appropriated to carry out this section $25,000,000 for each of fiscal years 2008 through 2013, to remain available until expended.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER VI—CARBON CAPTURE AND SEQUESTRATION

PART A—CARBON CAPTURE AND SEQUESTRATION RESEARCH, DEVELOPMENT, AND DEMONSTRATION

§ 17251. Carbon capture

(a) Program establishment

(1) In general

The Secretary shall carry out a program to demonstrate technologies for the large-scale capture of carbon dioxide from industrial sources. In making awards under this program, the Secretary shall select, as appropriate, a diversity of capture technologies to address the need to capture carbon dioxide from a range of industrial sources.

(2) Scope of award

Awards under this section shall be only for the portion of the project that—

(A) carries out the large-scale capture (including purification and compression) of carbon dioxide from industrial sources;

(B) provides for the transportation and injection of carbon dioxide; and

(C) incorporates a comprehensive measurement, monitoring, and validation program.

(3) Preferences for award

To ensure reduced carbon dioxide emissions, the Secretary shall take necessary actions to provide for the integration of the program under this paragraph with the large-scale carbon dioxide sequestration tests described in section 16293(c) of this title. These actions should not delay implementation of these tests. The Secretary shall give priority consideration to projects with the following characteristics:

(A) Capacity

Projects that will capture a high percentage of the carbon dioxide in the treated stream and large volumes of carbon dioxide as determined by the Secretary.

(B) Sequestration

Projects that capture carbon dioxide from industrial sources that are near suitable geological reservoirs and could continue sequestration including—

(i) a field testing validation activity under section 16293 of this title; or

(ii) other geologic sequestration projects approved by the Secretary.

(4) Requirement

For projects that generate carbon dioxide that is to be sequestered, the carbon dioxide stream shall be of a sufficient purity level to allow for safe transport and sequestration.

(5) Cost-sharing

The cost-sharing requirements of section 16352 of this title for research and development projects shall apply to this section.

(b) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $200,000,000 per year for fiscal years 2009 through 2013.

Amendments

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

Short Title

Subtitle A (§§701–708) of title VII of Pub. L. 110–140, which is classified principally to this part, is known as the “Department of Energy Carbon Capture and Sequestration Research, Development, and Demonstration Act of 2007”. See Short Title note set out under section 17001 of this title.

§ 17252. Review of large-scale programs

The Secretary shall enter into an arrangement with the National Academy of Sciences for an independent review and oversight, beginning in 2011, of the programs under section 16293(c) of this title and under section 17251 of this title, to ensure that the benefits of such programs are maximized. Not later than January 1, 2012, the Secretary shall transmit to the Congress a report on the results of such review and oversight.

Amendments

2020—Pub. L. 116–260 substituted “section 16293(c)” for “section 16293(c)(3)”.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
§ 17253. Geologic sequestration training and research

(a) Study

(1) In general

The Secretary shall enter into an arrangement with the National Academy of Sciences to undertake a study that—

(A) defines an interdisciplinary program in geology, engineering, hydrology, environmental science, and related disciplines that will support the Nation’s capability to capture and sequester carbon dioxide from anthropogenic sources;

(B) addresses undergraduate and graduate education, especially to help develop graduate level programs of research and instruction that lead to advanced degrees with emphasis on geologic sequestration science;

(C) develops guidelines for proposals from colleges and universities with substantial capabilities in the required disciplines that seek to implement geologic sequestration science programs that advance the Nation’s capacity to address carbon management through geologic sequestration science; and

(D) outlines a budget and recommendations for how much funding will be necessary to establish and carry out the grant program under subsection (b).

(2) Report

Not later than 1 year after December 19, 2007, the Secretary shall transmit to the Congress a copy of the results of the study provided by the National Academy of Sciences under paragraph (1).

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this subsection $1,000,000 for fiscal year 2008.

(b) Grant program

(1) Establishment

The Secretary shall establish a competitive grant program through which colleges and universities may apply for and receive 4-year grants for—

(A) salary and startup costs for newly designated faculty positions in an integrated geologic carbon sequestration science program; and

(B) internships for graduate students in geologic sequestration science.

(2) Renewal

Grants under this subsection shall be renewable for up to 2 additional 3-year terms, based on performance criteria, established by the National Academy of Sciences study conducted under subsection (a), that include the number of graduates of such programs.

(3) Interface with regional geologic carbon sequestration partnerships

To the greatest extent possible, geologic carbon sequestration science programs supported under this subsection shall interface with the research of the Regional Carbon Sequestration Partnerships operated by the Department to provide internships and practical training in carbon capture and geologic sequestration.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this subsection such sums as may be necessary.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17254. Relation to Safe Drinking Water Act

The injection and geologic sequestration of carbon dioxide pursuant to this subtitle and the amendments made by this subtitle shall be subject to the requirements of the Safe Drinking Water Act (42 U.S.C. 300f et seq.), including the provisions of part C of such Act (42 U.S.C. 300h et seq.; relating to protection of underground sources of drinking water). Nothing in this subtitle and the amendments made by this subtitle imposes or authorizes the promulgation of any requirement that is inconsistent or in conflict with the requirements of the Safe Drinking Water Act (42 U.S.C. 300f et seq.) or regulations thereunder.

References in Text

This subtitle, referred to in text, is subtitle A (§§701–708) of title VII of Pub. L. 110–140, which enacted this part, amended section 16293 of this title, and enacted provisions set out as a note under section 17001 of this title. For complete classification of subtitle A to the Code, see Short Title note set out under section 17001 of this title and Tables.

The Safe Drinking Water Act, referred to in text, is title XIV of act July 1, 1944, as added Dec. 16, 1974, Pub. L. 93–523, §2(a), 88 Stat. 1660, which is classified generally to subchapter XII (§300f et seq.) of chapter 6A of this title. Part C of the Act is classified generally to part C (§309h et seq.) of subchapter XII of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17255. Safety research

(a) Program

The Administrator of the Environmental Protection Agency shall conduct a research program to address public health, safety, and environmental impacts that may be associated with capture, injection, and sequestration of greenhouse gases in geologic reservoirs.

(b) Authorization of appropriations

There are authorized to be appropriated for carrying out this section $5,000,000 for each fiscal year.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
§ 17256. University based research and development grant program

(a) Establishment

The Secretary, in consultation with other appropriate agencies, shall establish a university based research and development program to study carbon capture and sequestration using the various types of coal.

(b) Rural and agricultural institutions

The Secretary shall give special consideration to rural or agricultural based institutions in areas that have regional sources of coal and that offer interdisciplinary programs in the area of environmental science to study carbon capture and sequestration.

(c) Authorization of appropriations

There are to be authorized to be appropriated $10,000,000 to carry out this section.

§ 17271. Carbon dioxide sequestration capacity assessment

(a) Definitions

In this section—

(1) Assessment

The term ‘‘assessment’’ means the national assessment of onshore capacity for carbon dioxide completed under subsection (f).

(2) Capacity

The term ‘‘capacity’’ means the portion of a sequestration formation that can retain carbon dioxide in accordance with the requirements (including physical, geological, and economic requirements) established under the methodology developed under subsection (b).

(3) Engineered hazard

The term ‘‘engineered hazard’’ includes the location and completion history of any well that could affect potential sequestration.

(4) Risk

The term ‘‘risk’’ includes any risk posed by geomechanical, geochemical, hydrogeological, structural, and engineered hazards.

(5) Secretary

The term ‘‘Secretary’’ means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(6) Sequestration formation

The term ‘‘sequestration formation’’ means a deep saline formation, unmineable coal seam, or oil or gas reservoir that is capable of accommodating a volume of industrial carbon dioxide.

(b) Methodology

Not later than 1 year after December 19, 2007, the Secretary shall develop a methodology for conducting an assessment under subsection (f), taking into consideration—

(1) the geographical extent of all potential sequestration formations in all States;

(2) the capacity of the potential sequestration formations;

(3) the injectivity of the potential sequestration formations;

(4) an estimate of potential volumes of oil and gas recoverable by injection and sequestration of industrial carbon dioxide in potential sequestration formations;

(5) the risk associated with the potential sequestration formations; and

(6) the work done to develop the Carbon Sequestration Atlas of the United States and Canada that was completed by the Department.

(c) Coordination

(1) Federal coordination

(A) Consultation

The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on issues of data sharing, format, development of the methodology, and content of the assessment required under this section to ensure the maximum usefulness and success of the assessment.

(B) Cooperation

The Secretary of Energy and the Administrator shall cooperate with the Secretary to ensure, to the maximum extent practicable, the usefulness and success of the assessment.

(d) External review and publication

On completion of the methodology under subsection (b), the Secretary shall—

(1) publish the methodology and solicit comments from the public and the heads of affected Federal and State agencies;

(2) establish a panel of individuals with expertise in the matters described in paragraphs (1) through (5) of subsection (b) composed, as appropriate, of representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international geoscience organizations to review the methodology and comments received under paragraph (1); and

(3) on completion of the review under paragraph (2), publish in the Federal Register the revised final methodology.

(e) Periodic updates

The methodology developed under this section shall be updated periodically (including at least once every 5 years) to incorporate new data as the data becomes available.

(f) National assessment

(1) In general

Not later than 2 years after the date of publication of the methodology under subsection
(d)(1), the Secretary, in consultation with the Secretary of Energy and State geological surveys, shall complete a national assessment of capacity for carbon dioxide in accordance with the methodology.

(2) Geological verification

As part of the assessment under this subsection, the Secretary shall carry out a drilling program to supplement the geological data relevant to determining sequestration capacity of carbon dioxide in geological sequestration formations, including—

(A) well log data;
(B) core data; and
(C) fluid sample data.

(3) Partnership with other drilling programs

As part of the drilling program under paragraph (2), the Secretary shall enter, as appropriate, into partnerships with other entities to collect and integrate data from other drilling programs relevant to the sequestration of carbon dioxide in geological formations.

(4) Incorporation into NatCarb

(A) In general

On completion of the assessment, the Secretary of Energy and the Secretary of the Interior shall incorporate the results of the assessment using—

(i) the NatCarb database, to the maximum extent practicable; or
(ii) a new database developed by the Secretary of Energy, as the Secretary of Energy determines to be necessary.

(B) Ranking

The database shall include the data necessary to rank potential sequestration sites for capacity and risk, across the United States, within each State, by formation, and within each basin.

(5) Report

Not later than 180 days after the date on which the assessment is completed, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a report describing the findings under the assessment.

(6) Periodic updates

The national assessment developed under this section shall be updated periodically (including at least once every 5 years) to support public and private sector decisionmaking.

(g) Authorization of appropriations

There is authorized to be appropriated to carry out this section $30,000,000 for the period of fiscal years 2008 through 2012.

§ 17272. Assessment of carbon sequestration and methane and nitrous oxide emissions from ecosystems

(a) Definitions

In this section:

(1) Adaptation strategy

The term “adaptation strategy” means a land use and management strategy that can be used—

(A) to increase the sequestration capabilities of covered greenhouse gases of any ecosystem; or
(B) to reduce the emissions of covered greenhouse gases from any ecosystem.

(2) Assessment

The term “assessment” means the national assessment authorized under subsection (b).

(3) Covered greenhouse gas

The term “covered greenhouse gas” means carbon dioxide, nitrous oxide, and methane gas.

(4) Ecosystem

The term “ecosystem” means any terrestrial, freshwater aquatic, or coastal ecosystem, including an estuary.

(5) Native plant species

The term “native plant species” means any noninvasive, naturally occurring plant species within an ecosystem.

(6) Secretary

The term “Secretary” means the Secretary of the Interior.

(b) Authorization of assessment

Not later than 2 years after the date on which the final methodology is published under subsection (f)(3)(D), the Secretary shall complete a national assessment of—

(1) the quantity of carbon stored in and released from ecosystems, including from mancaused and natural fires; and
(2) the annual flux of covered greenhouse gases in and out of ecosystems.

(c) Components

In conducting the assessment under subsection (b), the Secretary shall—

(1) determine the processes that control the flux of covered greenhouse gases in and out of each ecosystem;
(2) estimate the potential for increasing carbon sequestration in natural and managed ecosystems through management activities or restoration activities in each ecosystem;
(3) develop near-term and long-term adaptation strategies or mitigation strategies that can be employed—

(A) to enhance the sequestration of carbon in each ecosystem;
(B) to reduce emissions of covered greenhouse gases from ecosystems; and
(C) to adapt to climate change; and
(4) estimate the annual carbon sequestration capacity of ecosystems under a range of policies in support of management activities to optimize sequestration.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
Use of native plant species

In developing restoration activities under subsection (c)(2) and management strategies and adaptation strategies under subsection (c)(3), the Secretary shall emphasize the use of native plant species (including mixtures of many native plant species) for sequestering covered greenhouse gas in each ecosystem.

Consultation

In conducting the assessment under subsection (f), the Secretary shall consult with—

(A) the Secretary of Energy;
(B) the Secretary of Agriculture;
(C) the Administrator of the Environmental Protection Agency;
(D) the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere; and
(E) the heads of other relevant agencies.

Ocean and coastal ecosystems

In carrying out this section with respect to ocean and coastal ecosystems (including estuaries), the Secretary shall work jointly with the Secretary of Commerce, acting through the Under Secretary for Oceans and Atmosphere.

Methodology

(1) In general

Not later than 1 year after December 19, 2007, the Secretary shall develop a methodology for conducting the assessment.

(2) Requirements

The methodology developed under paragraph (1)—

(A) shall—
(i) determine the method for measuring, monitoring, and quantifying covered greenhouse gas emissions and reductions;
(ii) estimate the total capacity of each ecosystem to sequester carbon; and
(iii) estimate the ability of each ecosystem to reduce emissions of covered greenhouse gases through management practices; and
(B) may employ economic and other systems models, analyses, and estimates, to be developed in consultation with each of the individuals described in subsection (e).

External review and publication

On completion of a proposed methodology, the Secretary shall—

(A) publish the proposed methodology;
(B) at least 60 days before the date on which the final methodology is published, solicit comments from—
(i) the public; and
(ii) heads of affected Federal and State agencies;
(C) establish a panel to review the proposed methodology published under subparagraph (A) and any comments received under subparagraph (B), to be composed of members—
(i) with expertise in the matters described in subsections (c) and (d); and
(ii) that are, as appropriate, representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international organizations; and
(D) on completion of the review under subparagraph (C), publish in the Federal Register the revised final methodology.

(g) Estimate; review

The Secretary shall—

(1) based on the assessment, prescribe the data, information, and analysis needed to establish a scientifically sound estimate of the carbon sequestration capacity of relevant ecosystems; and
(2) not later than 180 days after the date on which the assessment is completed, submit to the heads of applicable Federal agencies and the appropriate committees of Congress a report that describes the results of the assessment.

Data and report availability

On completion of the assessment, the Secretary shall incorporate the results of the assessment into a web-accessible database for public use.

Authorization

There is authorized to be appropriated to carry out this section $20,000,000 for the period of fiscal years 2008 through 2012.

Effective date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER VII—IMPROVED MANAGEMENT OF ENERGY POLICY

PART A—MANAGEMENT IMPROVEMENTS

§ 17281. National media campaign

(a) In general

The Secretary, acting through the Assistant Secretary for Energy Efficiency and Renewable Energy (referred to in this section as the “Secretary”), shall develop and conduct a national media campaign—

(1) to increase energy efficiency throughout the economy of the United States during the 10-year period beginning on December 19, 2007;
(2) to promote the national security benefits associated with increased energy efficiency; and
(3) to decrease oil consumption in the United States during the 10-year period beginning on December 19, 2007.

(b) Contract with entity

The Secretary shall carry out subsection (a) directly or through—

(1) competitively bid contracts with 1 or more nationally recognized media firms for the development and distribution of monthly television, radio, and newspaper public service announcements; or
(2) collective agreements with 1 or more nationally recognized institutes, businesses, or nonprofit organizations for the funding, development, and distribution of monthly television, radio, and newspaper public service announcements.

(c) Use of funds
(1) In general
Amounts made available to carry out this section shall be used for—
(A) advertising costs, including—
(i) the purchase of media time and space;
(ii) creative and talent costs;
(iii) testing and evaluation of advertising; and
(iv) evaluation of the effectiveness of the media campaign; and
(B) administrative costs, including operational and management expenses.

(2) Limitations
In carrying out this section, the Secretary shall allocate not less than 85 percent of funds made available under subsection (e) for each fiscal year for the advertising functions specified under paragraph (1)(A).

(d) Reports
The Secretary shall annually submit to Congress a report that describes—
(1) the strategy of the national media campaign and whether specific objectives of the campaign were accomplished, including—
(A) determinations concerning the rate of change of energy consumption, in both absolute and per capita terms; and
(B) an evaluation that enables consideration of whether the media campaign contributed to reduction of energy consumption;
(2) steps taken to ensure that the national media campaign operates in an effective and efficient manner consistent with the overall strategy and focus of the campaign;
(3) plans to purchase advertising time and space;
(4) policies and practices implemented to ensure that Federal funds are used responsibly to purchase advertising time and space and eliminate the potential for waste, fraud, and abuse; and
(5) all contracts or cooperative agreements entered into with a corporation, partnership, or individual working on behalf of the national media campaign.

(e) Authorization of appropriations
(1) In general
There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2008 through 2012.

(2) Decreased oil consumption
The Secretary shall use not less than 50 percent of the amount that is made available under this section for each fiscal year to develop and conduct a national media campaign to decrease oil consumption in the United States over the next decade.

§ 17282. Renewable energy deployment

(a) Definitions
In this section:
(1) Alaska small hydroelectric power
The term “Alaska small hydroelectric power” means power that—
(A) is generated—
(i) in the State of Alaska;
(ii) without the use of a dam or impoundment of water; and
(iii) through the use of—
(I) a lake tap (but not a perched alpine lake); or
(II) a run-of-river screened at the point of diversion; and
(B) has a nameplate capacity rating of a wattage that is not more than 15 megawatts.

(2) Eligible applicant
The term “eligible applicant” means any—
(A) governmental entity;
(B) private utility;
(C) public utility;
(D) municipal utility;
(E) cooperative utility;
(F) Indian tribes; and
(G) Regional Corporation (as defined in section 1602 of title 43).

(3) Ocean energy
(A) Inclusions
The term “ocean energy” includes current, wave, and tidal energy.

(B) Exclusion
The term “ocean energy” excludes thermal energy.

(4) Renewable energy project
The term “renewable energy project” means a project—
(A) for the commercial generation of electricity; and
(B) that generates electricity from—
(i) solar, wind, or geothermal energy or ocean energy;
(ii) biomass (as defined in section 15852(b) of this title);
(iii) landfill gas; or
(iv) Alaska small hydroelectric power.

(b) Renewable energy construction grants
(1) In general
The Secretary shall use amounts appropriated under this section to make grants for use in carrying out renewable energy projects.

(2) Criteria
Not later than 180 days after December 19, 2007, the Secretary shall set forth criteria for use in awarding grants under this section.

(3) Application
To receive a grant from the Secretary under paragraph (1), an eligible applicant shall submit to the Secretary an application at such
time, in such manner, and containing such information as the Secretary may require, including a written assurance that—

(A) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40; and

(B) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1959 (5 U.S.C. App.) and section 3145 of title 40.

(4) Non-Federal share
Each eligible applicant that receives a grant under this subsection shall contribute to the total cost of the renewable energy project constructed by the eligible applicant an amount not less than 50 percent of the total cost of the project.

(c) Authorization of appropriations
There are authorized to be appropriated to the Fund such sums as are necessary to carry out this section.

REFERENCES IN TEXT
Reorganization Plan Numbered 14 of 1959, referred to in subsec. (b)(3)(B), is set out in the Appendix to Title 5, Government Organization and Employees.

EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 40 of title 40.

§ 17284. Assessment of resources
(a) 5-year plan
(1) Establishment
The Administrator of the Energy Information Administration (referred to in this section as the “Administrator”) shall establish a 5-year plan to enhance the quality and scope of the data collection necessary to ensure the scope, accuracy, and timeliness of the information needed for efficient functioning of energy markets and related financial operations.

(2) Requirement
In establishing the plan under paragraph (1), the Administrator shall pay particular attention to—

(A) data series terminated because of budget constraints;

(B) data on demand response;

(C) timely data series of State-level information;

(D) improvements in the area of oil and gas data;

(E) improvements in data on solid byproducts from coal-based energy-producing facilities; and

(F) the ability to meet applicable deadlines under Federal law (including regulations) to provide data required by Congress.

(b) Submission to Congress
The Administrator shall submit to Congress the plan established under subsection (a), including a description of any improvements needed to enhance the ability of the Administrator to collect and process energy information in a manner consistent with the needs of energy markets.

(c) Guidelines
(1) In general
The Administrator shall—

(A) establish guidelines to ensure the quality, comparability, and scope of State energy data, including data on energy production and consumption by product and sector and renewable and alternative sources, required to provide a comprehensive, accurate energy profile at the State level;

(B) share company-level data collected at the State level with each State involved, in a manner consistent with the legal authorities, confidentiality protections, and stated uses in effect at the time the data were collected, subject to the condition that the State shall agree to reasonable requirements for use of the data, as the Administrator may require;

(C) assess any existing gaps in data obtained and compiled by the Energy Information Administration; and

(D) evaluate the most cost-effective ways to address any data quality and quantity issues in conjunction with State officials.

(2) Consultation
The Administrator shall consult with State officials and the Federal Energy Regulatory Commission on a regular basis in—

(A) establishing guidelines and determining the scope of State-level data under paragraph (1); and

(B) exploring ways to address data needs and serve data uses.

(d) Assessment of State data needs
Not later than 1 year after December 19, 2007, the Administrator shall submit to Congress an assessment of State-level data needs, including a plan to address the needs.

(e) Authorization of appropriations
In addition to any other amounts made available to the Administrator, there are authorized to be appropriated to the Administrator to carry out this section—

(1) $10,000,000 for fiscal year 2008;

(2) $10,000,000 for fiscal year 2009;

(3) $10,000,000 for fiscal year 2010;

(4) $15,000,000 for fiscal year 2011;

(5) $20,000,000 for fiscal year 2012; and

(6) such sums as are necessary for subsequent fiscal years.
§ 17285. Sense of Congress relating to the use of renewable resources to generate energy

(a) Findings

Congress finds that—

(1) the United States has a quantity of renewable energy resources that is sufficient to supply a significant portion of the energy needs of the United States;

(2) the agricultural, forestry, and working land of the United States can help ensure a sustainable domestic energy system;

(3) accelerated development and use of renewable energy technologies provide numerous benefits to the United States, including improved national security, improved balance of payments, healthier rural economies, improved environmental quality, and abundant, reliable, and affordable energy for all citizens of the United States;

(4) the production of transportation fuels from renewable energy would help the United States meet rapidly growing domestic and global energy demands, reduce the dependence of the United States on energy imported from volatile regions of the world that are politically unstable, stabilize the cost and availability of energy, and safeguard the economy and security of the United States;

(5) increased energy production from domestic renewable resources would attract substantial new investments in energy infrastructure, create economic growth, develop new jobs for the citizens of the United States, and increase the income for farm, ranch, and forestry jobs in the rural regions of the United States;

(6) increased use of renewable energy is practical and can be cost effective with the implementation of supportive policies and proper incentives to stimulate markets and infrastructure; and

(7) public policies aimed at enhancing renewable energy technologies will further reduce energy costs over time and increase market demand.

(b) Sense of Congress

It is the sense of Congress that it is the goal of the United States that, not later than January 1, 2025, the agricultural, forestry, and working land of the United States should—

(1) provide from renewable resources not less than 25 percent of the total energy consumed in the United States; and

(2) continue to produce safe, abundant, and affordable food, feed, and fiber.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17286. Geothermal assessment, exploration information, and priority activities

(a) In general

Not later than January 1, 2012, the Secretary of the Interior, acting through the Director of the United States Geological Survey, shall—

(1) complete a comprehensive nationwide geothermal resource assessment that examines the full range of geothermal resources in the United States; and

(2) submit to the the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing the results of the assessment.

(b) Periodic updates

At least once every 10 years, the Secretary shall update the national assessment required under this section to support public and private sector decisionmaking.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary of the Interior to carry out this section—

(1) $15,000,000 for each of fiscal years 2008 through 2012; and

(2) such sums as are necessary for each of fiscal years 2013 through 2022.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—PROHIBITIONS ON MARKET MANIPULATION AND FALSE INFORMATION

§ 17301. Prohibition on market manipulation

It is unlawful for any person, directly or indirectly, to use or employ, in connection with the purchase or sale of crude oil gas or petroleum distillates at wholesale, any manipulative or deceptive device or contrivance, in contravention of such rules and regulations as the Federal Trade Commission may prescribe as necessary or appropriate in the public interest or for the protection of United States citizens.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17302. Prohibition on false information

It is unlawful for any person to report information related to the wholesale price of crude oil gas or petroleum distillates to a Federal department or agency if—

(1) the person knew, or reasonably should have known, the information to be false or misleading;

So in original.

1 So in original. A comma probably should appear.

1 So in original. A comma probably should appear.
§ 17303. Enforcement by the Federal Trade Commission

(a) Enforcement

This part shall be enforced by the Federal Trade Commission in the same manner, by the same means, and with the same jurisdiction as though all applicable terms of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this part.

(b) Violation treated as unfair or deceptive act or practice

The violation of any provision of this part shall be treated as an unfair or deceptive act or practice proscribed under a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

References in Text

The Federal Trade Commission Act, referred to in subsec. (a), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, which is classified generally to subchapter I (§41 et seq.) of chapter 2 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 58 of Title 15 and Tables.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17305. Effect on other laws

(a) Other authority of the Commission

Nothing in this part limits or affects the authority of the Federal Trade Commission to bring an enforcement action or take any other measure under the Federal Trade Commission Act (15 U.S.C. 41 et seq.) or any other provision of law.

(b) Antitrust law

Nothing in this part shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For purposes of this subsection, the term “antitrust laws” shall have the meaning given it in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12), except that it includes section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that such section 5 applies to unfair methods of competition.

(c) State law

Nothing in this part preempts any State law.

References in Text

The Federal Trade Commission Act, referred to in subsec. (a), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, which is classified generally to subchapter I (§41 et seq.) of chapter 2 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 58 of Title 15 and Tables.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17304. Penalties

(a) Civil penalty

In addition to any penalty applicable under the Federal Trade Commission Act (15 U.S.C. 41 et seq.), any supplier that violates section 17301 or 17302 of this title shall be punishable by a civil penalty of not more than $1,000,000.

(b) Method

The penalties provided by subsection (a) shall be obtained in the same manner as civil penalties imposed under section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

(c) Multiple offenses; mitigating factors

In assessing the penalty provided by subsection (a)—

(1) each day of a continuing violation shall be considered a separate violation; and

(2) the court shall take into consideration, among other factors—

(A) the seriousness of the violation; and

(B) the efforts of the person committing the violation to remedy the harm caused by the violation in a timely manner.

(a), is act Sept. 26, 1914, ch. 311, 38 Stat. 717, which is classified generally to subchapter I (§41 et seq.) of chapter 2 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 58 of Title 15 and Tables.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER VIII—INTERNATIONAL ENERGY PROGRAMS

§ 17321. Definitions

In this subchapter:

(1) Appropriate congressional committees

The term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on Energy and Commerce of the House of Representatives; and

(B) the Committee on Foreign Relations, the Committee on Energy and Natural Resources, the Committee on Environment and Public Works, and the Committee on Commerce, Science, and Transportation of the Senate.
(2) Clean and efficient energy technology

The term ‘‘clean and efficient energy technology’’ means an energy supply or end-use technology that, compared to a similar technology already in widespread commercial use in a recipient country, will—

(A) reduce emissions of greenhouse gases; or
(B) (i) increase efficiency of energy production; or
(ii) decrease intensity of energy usage.

(3) Greenhouse gas

The term ‘‘greenhouse gas’’ means—

(A) carbon dioxide;
(B) methane;
(C) nitrous oxide;
(D) hydrofluorocarbons;
(E) perfluorocarbons; or
(F) sulfur hexafluoride.

(a) Assistance authorized

The Administrator of the United States Agency for International Development shall support policies and programs in developing countries that promote clean and efficient energy technologies—

(1) to produce the necessary market conditions for the private sector delivery of energy and environmental management services;
(2) to create an environment that is conducive to accepting clean and efficient energy technologies that support the overall purpose of reducing greenhouse gas emissions, including—

(A) improving policy, legal, and regulatory frameworks;
(B) increasing institutional abilities to provide energy and environmental management services; and
(C) increasing public awareness and participation in the decision-making of delivering energy and environmental management services; and
(3) to promote the use of American-made clean and efficient energy technologies, products, and energy and environmental management services.

(b) Report

The Administrator of the United States Agency for International Development shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Administrator of the United States Agency for International Development $250,000,000 for each of the fiscal years 2008 through 2012.

References in Text

This subchapter, referred to in text, was in the original ‘‘this title’’, meaning title IX of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1725, which enacted this subchapter and amended section 5314 of Title 5, Government Organization and Employees, section 9201 of Title 31, Money and Finance, and section 3021 of Title 50, War and National Defense. For complete classification of title IX to the Code, see Tables.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17332. United States exports and outreach programs for India, China, and other countries

(a) Assistance authorized

The Secretary of Commerce shall direct the United States and Foreign Commercial Service to expand or create a corps of the Foreign Commercial Service officers to promote United States exports in clean and efficient energy technologies and build the capacity of government officials in India, China, and any other country the Secretary of Commerce determines appropriate, to become more familiar with the available technologies—

(1) by assigning or training Foreign Commercial Service attaches, who have expertise in clean and efficient energy technologies from the United States, to embark on business development and outreach efforts to such countries; and
(2) by deploying the attaches described in paragraph (1) to educate provincial, state, and local government officials in such countries on the variety of United States-based technologies in clean and efficient energy technologies for the purposes of promoting United States exports and reducing global greenhouse gas emissions.

(b) Report

The Secretary of Commerce shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Secretary of Commerce such sums as may be necessary for each of the fiscal years 2008 through 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
§ 17333. United States trade missions to encourage private sector trade and investment

(a) Assistance authorized

The Secretary of Commerce shall direct the International Trade Administration to expand or create trade missions to and from the United States to encourage private sector trade and investment in clean and efficient energy technologies—

(1) by organizing and facilitating trade missions to foreign countries and by matching United States private sector companies with opportunities in foreign markets so that clean and efficient energy technologies can help to combat increases in global greenhouse gas emissions; and

(2) by creating reverse trade missions in which the Department of Commerce facilitates the meeting of foreign private and public sector organizations with private sector companies in the United States for the purpose of showcasing clean and efficient energy technologies in use or in development that could be exported to other countries.

(b) Report

The Secretary of Commerce shall submit to the appropriate congressional committees an annual report on the implementation of this section for each of the fiscal years 2008 through 2012.

(c) Authorization of appropriations

To carry out this section, there are authorized to be appropriated to the Secretary of Commerce such sums as may be necessary for each of the fiscal years 2008 through 2012.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17334. Actions by United States International Development Finance Corporation

(a) Sense of Congress

It is the sense of Congress that the United States International Development Finance Corporation should promote greater investment in clean and efficient energy technologies by—

(1) proactively reaching out to United States companies that are interested in investing in clean and efficient energy technologies in countries that are significant contributors to global greenhouse gas emissions;

(2) giving preferential treatment to the evaluation and awarding of projects that involve the investment or utilization of clean and efficient energy technologies; and

(3) providing greater flexibility in supporting projects that involve the investment or utilization of clean and efficient energy technologies, including financing, insurance, and other assistance.

(b) Report

The United States International Development Finance Corporation shall include in its annual report required under section 9653 of title 22—

(1) a description of the activities carried out to implement this section; or

(2) if the Corporation did not carry out any activities to implement this section, an explanation of the reasons therefor.

Amendments

Subsec. (b). Pub. L. 115–254, §1470(v)(1)(C), substituted “United States International Development Finance Corporation shall include in its annual report required under section 9653 of title 22” for “Overseas Private Investment Corporation shall include in its annual report required under section 2200a of title 22” in introductory provisions.

Effective Date of 2018 Amendment

Amendment by Pub. L. 115–254 effective at the end of the transition period, as defined in section 9681 of Title 22, Foreign Relations and Intercourse, see section 1470(w) of Pub. L. 115–254, set out as a note under section 905 of Title 2, The Congress.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17335. Actions by United States Trade and Development Agency

(a) Assistance authorized

The Director of the Trade and Development Agency shall establish or support policies that—

(1) proactively seek opportunities to fund projects that involve the utilization of clean and efficient energy technologies, including in trade capacity building and capital investment projects;

(2) where appropriate, advance the utilization of clean and efficient energy technologies, particularly to countries that have the potential for significant reduction in greenhouse gas emissions; and

(3) recruit and retain individuals with appropriate expertise or experience in clean, renewable, and efficient energy technologies to identify and evaluate opportunities for projects that involve clean and efficient energy technologies and services.

(b) Report

The President shall include in the annual report on the activities of the Trade and Development Agency required under section 2421(d) of title 22 a description of the activities carried out to implement this section.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
§ 17336. Deployment of international clean and efficient energy technologies and investment in global energy markets

(a) Task Force

(1) Establishment

Not later than 90 days after December 19, 2007, the President shall establish a Task Force on International Cooperation for Clean and Efficient Energy Technologies (in this section referred to as the “Task Force”).

(2) Composition

The Task Force shall be composed of representatives, appointed by the head of the respective Federal department or agency, of—
(A) the Council on Environmental Quality;
(B) the Department of Energy;
(C) the Department of Commerce;
(D) the Department of the Treasury;
(E) the Department of State;
(F) the Environmental Protection Agency;
(G) the United States Agency for International Development;
(H) the Export-Import Bank of the United States;
(I) the United States International Development Finance Corporation;
(J) the Trade and Development Agency;
(K) the Small Business Administration;
(L) the Office of the United States Trade Representative; and
(M) other Federal departments and agencies, as determined by the President.

(3) Chairperson

The President shall designate a Chairperson or Co-Chairpersons of the Task Force.

(4) Duties

The Task Force—
(A) shall develop and assist in the implementation of the strategy required under subsection (c); and
(B)(i) shall analyze technology, policy, and market opportunities for the development, demonstration, and deployment of clean and efficient energy technologies on an international basis; and
(ii) shall examine relevant trade, tax, finance, international, and other policy issues to assess which policies, in the United States and in developing countries, would help open markets and improve the export of clean and efficient energy technologies from the United States.

(5) Termination

The Task Force, including any working group established by the Task Force pursuant to subsection (b), shall terminate 12 years after December 19, 2007.

(b) Working groups

(1) Establishment

The Task Force—
(A) shall establish an Interagency Working Group on the Export of Clean and Efficient Energy Technologies (in this section referred to as the “Interagency Working Group”); and
(B) may establish other working groups as may be necessary to carry out this section.

(2) Composition

The Interagency Working Group shall be composed of—
(A) the Secretary of Energy, the Secretary of Commerce, and the Secretary of State, who shall serve as Co-Chairpersons of the Interagency Working Group; and
(B) other members, as determined by the Chairperson or Co-Chairpersons of the Task Force.

(3) Duties

The Interagency Working Group shall coordinate the resources and relevant programs of the Department of Energy, the Department of Commerce, the Department of State, and other relevant Federal departments and agencies to support the export of clean and efficient energy technologies developed or demonstrated in the United States to other countries and the deployment of such clean and efficient energy technologies in such other countries.

(4) Interagency Center

The Interagency Working Group—
(A) shall establish an Interagency Center on the Export of Clean and Efficient Energy Technologies (in this section referred to as the “Interagency Center”) to assist the Interagency Working Group in carrying out its duties required under paragraph (3); and
(B) shall locate the Interagency Center at a site agreed upon by the Co-Chairpersons of the Interagency Working Group, with the approval of the Chairperson or Co-Chairpersons of the Task Force.

(c) Strategy

(1) In general

Not later than 1 year after December 19, 2007, the Task Force shall develop and submit to the President and the appropriate congressional committees a strategy to—
(A) support the development and implementation of programs, policies, and initiatives in developing countries to promote the adoption and deployment of clean and efficient energy technologies, with an emphasis on those developing countries that are expected to experience the most significant growth in energy production and use over the next 20 years;
(B) open and expand clean and efficient energy technology markets and facilitate the export of clean and efficient energy technologies to developing countries, in a manner consistent with United States obligations as a member of the World Trade Organization;
(C) integrate into the foreign policy objectives of the United States the promotion of—
(i) the deployment of clean and efficient energy technologies and the reduction of greenhouse gas emissions in developing countries; and
(ii) the export of clean and efficient energy technologies; and
(D) develop financial mechanisms and instruments, including securities that mitigate the political and foreign exchange risks
of uses that are consistent with the foreign policy objectives of the United States by combining the private sector market and government enhancements, that—

(1) are cost-effective; and

(2) facilitate private capital investment in clean and efficient energy technology projects in developing countries.

(2) Updates

Not later than 3 years after the date of submission of the strategy under paragraph (1), and every 3 years thereafter, the Task Force shall update the strategy in accordance with the requirements of paragraph (1).

(d) Report

(1) In general

Not later than 3 years after the date of submission of the strategy under subsection (c)(1), and every 3 years thereafter, the President shall transmit to the appropriate congressional committees a report on the implementation of this section for the prior 3-year period.

(2) Matters to be included

The report required under paragraph (1) shall include the following:

(A) An update of the strategy required under subsection (c)(1) and a description of the actions taken by the Task Force to assist in the implementation of the strategy.

(B) A description of actions taken by the Task Force to carry out the duties required under subsection (a)(4)(B).

(C) A description of assistance provided under this section.

(D) The results of programs, projects, and activities carried out under this section.

(E) A description of priorities for promoting the diffusion and adoption of clean and efficient energy technologies and strategies in developing countries, taking into account economic and security interests of the United States and opportunities for the export of technology of the United States.

(F) Recommendations to the heads of appropriate Federal departments and agencies on methods to streamline Federal programs and policies to improve the role of such Federal departments and agencies in the development, demonstration, and deployment of clean and efficient energy technologies on an international basis.

(G) Strategies to integrate representatives of the private sector and other interested groups on the export and deployment of clean and efficient energy technologies.

(H) A description of programs to disseminate information to the private sector and the public on clean and efficient energy technologies and opportunities to transfer such clean and efficient energy technologies.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2008 through 2020.

(Pub. L. 110–140, title IX, § 916, Dec. 19, 2007, 121 Stat. 1728; Pub. L. 115–254, div. F, title VI, § 905 of Title 2, Foreign Relations and Intercourse, set out as a note under section 9681 of Title 22, United States Code, effective at the end of the transition period, as defined in section 9681 of Title 22, United States Code.)

§ 17337. United States-Israel energy cooperation

(a) Findings

Congress finds that—

(1) it is in the highest national security interests of the United States to develop covered energy sources;

(2) the State of Israel is a steadfast ally of the United States;

(3) the special relationship between the United States and Israel is manifested in a variety of cooperative scientific research and development programs, such as—

(A) the United States-Israel Binational Science Foundation; and

(B) the United States-Israel Binational Industrial Research and Development Foundation;

(4) those programs have made possible—

(A) many scientific, technological, and commercial breakthroughs in the fields of life sciences, medicine, bioengineering, agriculture, biotechnology, communications, and others; and

(B) significant contributions to the development of renewable energy and energy efficiency through the established programs of the United States-Israel Binational Industrial Research and Development Foundation and the United States-Israel Binational Science Foundation;

(5) on February 1, 1996, the Secretary of Energy (referred to in this section as the “Secretary”) and the Israeli Minister of Energy and Infrastructure signed an agreement to establish a framework for collaboration between the United States and Israel in energy research and development activities;

(6) Israeli scientists and engineers are at the forefront of research and development in the field of covered energy sources;

(7) enhanced cooperation between the United States and Israel for the purpose of research and development of covered energy sources would be in the national interests of both countries;

(8) United States-Israel energy cooperation and the development of natural resources by Israel are in the strategic interest of the United States;

(9) Israel is a strategic partner of the United States in water technology;

(10) the United States can play a role in assisting Israel with regional safety and security issues;
(11) the National Science Foundation of the United States, to the extent consistent with the National Science Foundation’s mission, should collaborate with the Israel Science Foundation and the United States-Israel Binational Science Foundation; and
(12) the United States and Israel should strive to develop more robust academic cooperation in—
   (A) energy innovation technology and engineering;
   (B) water science;
   (C) technology transfer; and
   (D) analysis of emerging geopolitical implications, crises and threats from foreign natural resource and energy acquisitions, and the development of domestic resources as a response;
(13) the United States supports the goals of the Alternative Fuels Administration of Israel with respect to expanding the use of alternative fuels;
(14) the United States strongly urges open dialogue and continued mechanisms for regular engagement and encourages further cooperation between applicable departments, agencies, ministries, institutions of higher education, and the private sector of the United States and Israel on energy security issues, including—
   (A) identifying policy priorities associated with the development of natural resources of Israel;
   (B) discussing and sharing best practices to secure cyber energy infrastructure and other energy security matters;
   (C) leveraging natural gas to positively impact regional stability;
   (D) issues relating to the energy-water nexus, including improving energy efficiency and the overall performance of water technologies through research and development in water desalination, wastewater treatment and reclamation, water treatment in gas and oil production processes, and other water treatment refiners;
   (E) technical and environmental management of deep-water exploration and production;
   (F) emergency response and coastal protection and restoration;
   (G) academic outreach and engagement;
   (H) private sector and business development engagement;
   (I) regulatory consultations;
   (J) leveraging alternative transportation fuels and technologies; and
   (K) any other areas determined appropriate by the United States and Israel;
(15) the United States—
   (A) acknowledges the achievements and importance of the Binational Industrial Research and Development Foundation and the United States-Israel Binational Science Foundation; and
   (B) supports continued multiyear funding to ensure the continuity of the programs of the foundations specified in subparagraph (A); and
(16) the United States and Israel have a shared interest in addressing immediate, near-term, and long-term energy, energy poverty, energy independence, and environmental challenges facing the United States and Israel, respectively.

(b) Grant program
(1) Establishment
In implementing the agreement entitled the “Agreement between the Department of Energy of the United States of America and the Ministry of Energy and Infrastructure of Israel Concerning Energy Cooperation”, dated February 1, 1996, the Secretary shall establish a grant program in accordance with the requirements of sections 16332 and 16333 of this title to support research, development, and commercialization of covered energy.

(2) Types of energy
In carrying out paragraph (1), the Secretary may make grants to promote—
   (A) solar energy;
   (B) biomass energy;
   (C) energy efficiency;
   (D) wind energy;
   (E) geothermal energy;
   (F) wave and tidal energy;
   (G) advanced battery technology;
   (H) natural gas energy, including conventional and unconventional natural gas technologies and other associated technologies, and natural gas projects conducted by or in conjunction with the United States-Israel Binational Science Foundation and the United States-Israel Binational Industrial Research and Development Foundation; and
   (I) improvement of energy efficiency and the overall performance of water technologies through research and development in water desalination, wastewater treatment and reclamation, and other water treatment refiners.

(3) Eligible applicants
An applicant shall be eligible to receive a grant under this subsection if the project of the applicant—
   (A) addresses a requirement in the area of improved covered energy sources, as determined by the Secretary; and
   (B) is a joint venture between—
      (i) (I) a for-profit business entity, academic institution, National Laboratory (as defined in section 15801 of this title), or nonprofit entity in the United States; and
      (II) the Government of Israel.
   or
   (ii) (I) the Federal Government; and
      (II) the Government of Israel.

(4) Applications
To be eligible to receive a grant under this subsection, an applicant shall submit to the Secretary an application for the grant in accordance with procedures established by the Secretary, in consultation with the advisory board established under paragraph (5).

(5) Advisory board
(A) Establishment
The Secretary shall establish an advisory board—
(i) to monitor the method by which grants are awarded under this subsection; and
(ii) to provide to the Secretary periodic performance reviews of actions taken to carry out this subsection.

(B) Composition
The advisory board established under subparagraph (A) shall be composed of 3 members, to be appointed by the Secretary, of whom—
(i) 1 shall be a representative of the Federal Government;
(ii) 1 shall be selected from a list of nominees provided by the United States-Israel Binational Science Foundation; and
(iii) 1 shall be selected from a list of nominees provided by the United States-Israel Binational Industrial Research and Development Foundation.

(6) Contributed funds
Notwithstanding section 3302 of title 31, the Secretary may accept, retain, and use funds contributed by any person, government entity, or organization for purposes of carrying out this subsection—
(A) without further appropriation; and
(B) without fiscal year limitation.

(7) Report
Not later than 180 days after the date of completion of a project for which a grant is provided under this subsection, the grant recipient shall submit to the Secretary a report that contains—
(A) a description of the method by which the recipient used the grant funds; and
(B) an evaluation of the level of success of each project funded by the grant.

(8) Classification
Grants shall be awarded under this subsection only for projects that are considered to be unclassified by both the United States and Israel.

(c) International partnerships
(1) In general
The Secretary, subject to the availability of appropriations, may enter into cooperative agreements supporting and enhancing dialogue and planning involving international partnerships between the Department, including National Laboratories of the Department, and the Government of Israel and its ministries, offices, and institutions.

(2) Federal share
The Secretary may not pay more than 50 percent of Federal share of the costs of implementing cooperative agreements entered into pursuant to paragraph (1).

(3) Annual reports
If the Secretary enters into agreements authorized by paragraph (1), the Secretary shall submit an annual report to the Committee on Energy and Natural Resources of the Senate, the Committee on Foreign Relations of the Senate, the Committee on Appropriations of the Senate, the Committee on Energy and Commerce of the House of Representatives, the Committee on Science, Space, and Technology of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Appropriations of the House of Representatives that describes—
(A) actions taken to implement such agreements; and
(B) any projects undertaken pursuant to such agreements.

(d) United States-Israel Energy Center
The Secretary may establish a joint United States-Israel Energy Center in the United States leveraging the experience, knowledge, and expertise of institutions of higher education and entities in the private sector, among others, in offshore energy development to further dialogue and collaboration to develop more robust academic cooperation in energy innovation technology and engineering, water science, technology transfer, and analysis of emerging geopolitical implications, crises and threats from foreign natural resource and energy acquisitions, and the development of domestic resources as a response.

(e) Termination
The grant program and the advisory committee established under this section terminate on September 30, 2024.

Amendments
Former subsec. (c) redesignated (e).
Subsec. (d). Pub. L. 113–296, § 12(c)(1)(A), (C) and (D), struck out former subsec. (d) which related to authorization of appropriations.
Subsec. (e). Pub. L. 113–296, § 12(c)(1)(B), redesignated subsec. (c) as (e) and substituted “the date that is 7 years after December 19, 2007” for “the date that is 7 years after December 19, 2007”.

Effective date
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—INTERNATIONAL CLEAN ENERGY FOUNDATION

§ 17351. Definitions
In this part:
(1) Board

The term “Board” means the Board of Directors of the Foundation established pursuant to section 17352(c) of this title.

(2) Chief Executive Officer

The term “Chief Executive Officer” means the chief executive officer of the Foundation appointed pursuant to section 17352(b) of this title.

(3) Foundation

The term “Foundation” means the International Clean Energy Foundation established by section 17352(a) of this title.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17352. Establishment and management of Foundation

(a) Establishment

(1) In general

There is established in the executive branch a foundation to be known as the “International Clean Energy Foundation” that shall be responsible for carrying out the provisions of this part. The Foundation shall be a government corporation, as defined in section 103 of title 5.

(2) Board of Directors

The Foundation shall be governed by a Board of Directors in accordance with subsection (c).

(3) Intent of Congress

It is the intent of Congress, in establishing the structure of the Foundation set forth in this subsection, to create an entity that serves the long-term foreign policy and energy security goals of reducing global greenhouse gas emissions.

(b) Chief Executive Officer

(1) In general

There shall be in the Foundation a Chief Executive Officer who shall be responsible for the management of the Foundation.

(2) Appointment

The Chief Executive Officer shall be appointed by the Board, with the advice and consent of the Senate, and shall be a recognized leader in clean and efficient energy technologies and climate change and shall have experience in energy security, business, or foreign policy, chosen on the basis of a rigorous search.

(3) Relationship to Board

The Chief Executive Officer shall report to, and be under the direct authority of, the Board.

(4) Compensation and rank

(A) In general

The Chief Executive Officer shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5.

(B) Omitted

(C) Authorities and duties

The Chief Executive Officer shall be responsible for the management of the Foundation and shall exercise the powers and discharge the duties of the Foundation.

(D) Authority to appoint officers

In consultation and with approval of the Board, the Chief Executive Officer shall appoint all officers of the Foundation.

(c) Board of Directors

(1) Establishment

There shall be in the Foundation a Board of Directors.

(2) Duties

The Board shall perform the functions specified to be carried out by the Board in this part and may prescribe, amend, and repeal bylaws, rules, regulations, and procedures governing the manner in which the business of the Foundation may be conducted and in which the powers granted to it by law may be exercised.

(3) Membership

The Board shall consist of—

(A) the Secretary of State (or the Secretary’s designee), the Secretary of Energy (or the Secretary’s designee), and the Administrator of the United States Agency for International Development (or the Administrator’s designee); and

(B) four other individuals with relevant experience in matters relating to energy security (such as individuals who represent institutions of energy policy, business organizations, foreign policy organizations, or other relevant organizations) who shall be appointed by the President, by and with the advice and consent of the Senate, of whom—

(i) one individual shall be appointed from among a list of individuals submitted by the Majority Leader of the Senate;

(ii) one individual shall be appointed from among a list of individuals submitted by the Minority Leader of the Senate;

(iii) one individual shall be appointed from among a list of individuals submitted by the Majority Leader of the House of Representatives;

(iv) one individual shall be appointed from among a list of individuals submitted by the Minority Leader of the House of Representatives;

(v) one individual shall be appointed from among a list of individuals submitted by the Majority Leader of the Senate; and

(vi) one individual shall be appointed from among a list of individuals submitted by the Minority Leader of the Senate.

(4) Chief Executive Officer

The Chief Executive Officer of the Foundation shall serve as a nonvoting, ex officio member of the Board.

(5) Terms

(A) Officers of the Federal Government

Each member of the Board described in paragraph (3) shall serve for a term that is concurrent with the term of service of the individual’s position as an officer within the other Federal department or agency.
(B) Other members

Each member of the Board described in paragraph (3)(B) shall be appointed for a term of 3 years and may be reappointed for a term of an additional 3 years.

(C) Vacancies

A vacancy in the Board shall be filled in the manner in which the original appointment was made.

(D) Acting members

A vacancy in the Board may be filled with an appointment of an acting member by the Chairperson of the Board for up to 1 year while a nominee is named and awaits confirmation in accordance with paragraph (3)(B).

(6) Chairperson

There shall be a Chairperson of the Board. The Secretary of State (or the Secretary’s designee) shall serve as the Chairperson.

(7) Quorum

A majority of the members of the Board described in paragraph (3) shall constitute a quorum, which, except with respect to a meeting of the Board during the 135-day period beginning on December 19, 2007, shall include at least 1 member of the Board described in paragraph (3)(B).

(8) Meetings

The Board shall meet at the call of the Chairperson, who shall call a meeting no less than once a year.

(9) Compensation

(A) Officers of the Federal Government

(i) In general

A member of the Board described in paragraph (3)(A) may not receive additional pay, allowances, or benefits by reason of the member's service on the Board.

(ii) Travel expenses

Each such member of the Board shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5.

(B) Other members

(i) In general

Except as provided in clause (ii), a member of the Board described in paragraph (3)(B)—

(I) shall be paid compensation out of funds made available for the purposes of this part at the daily equivalent of the highest rate payable under section 5332 of title 5 for each day (including travel time) during which the member is engaged in the actual performance of duties as a member of the Board; and

(II) while away from the member’s home or regular place of business on necessary travel in the actual performance of duties as a member of the Board, shall be paid per diem, travel, and transportation expenses in the same manner as is provided under subchapter I of chapter 57 of title 5.

(ii) Limitation

A member of the Board may not be paid compensation under clause (i)(II) for more than 90 days in any calendar year.

Codification

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17353. Duties of Foundation

The Foundation shall—

(1) use the funds authorized by this part to make grants to promote projects outside of the United States that serve as models of how to significantly reduce the emissions of global greenhouse gases through clean and efficient energy technologies, processes, and services;

(2) seek contributions from foreign governments, especially those rich in energy resources such as member countries of the Organization of the Petroleum Exporting Countries, and private organizations to supplement funds made available under this part;

(3) harness global expertise through collaborative partnerships with foreign governments and domestic and foreign private actors, including nongovernmental organizations and private sector companies, by leveraging public and private capital, technology, expertise, and services towards innovative models that can be instituted to reduce global greenhouse gas emissions;

(4) create a repository of information on best practices and lessons learned on the utilization and implementation of clean and efficient energy technologies and processes to be used for future initiatives to tackle the climate change crisis;

(5) be committed to minimizing administrative costs and to maximizing the availability of funds for grants under this part; and

(6) promote the use of American-made clean and efficient energy technologies, processes, and services by giving preference to entities incorporated in the United States and whose technology will be substantially manufactured in the United States.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17354. Annual report

(a) Report required

Not later than March 31, 2008, and each March 31 thereafter, the Foundation shall submit to
the appropriate congressional committees a report on the implementation of this part during the prior fiscal year.

(b) Contents

The report required by subsection (a) shall include—

(1) the total financial resources available to the Foundation during the year, including appropriated funds, the value and source of any gifts or donations accepted pursuant to section 17355(a)(6) of this title, and any other resources;

(2) a description of the Board’s policy priorities for the year and the basis upon which competitive grant proposals were solicited and awarded to nongovernmental institutions and other organizations;

(3) a list of grants made to nongovernmental institutions and other organizations that includes the identity of the institutional recipient, the dollar amount, and the results of the program; and

(4) the total administrative and operating expenses of the Foundation for the year, as well as specific information on—

(A) the number of Foundation employees and the cost of compensation for Board members, Foundation employees, and personal service contractors;

(B) costs associated with securing the use of real property for carrying out the functions of the Foundation;

(C) total travel expenses incurred by Board members and Foundation employees in connection with Foundation activities; and

(D) total representational expenses.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007; see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17355. Powers of the Foundation; related provi-
sions

(a) Powers

The Foundation—

(1) shall have perpetual succession unless dissolved by a law enacted after December 19, 2007;

(2) may adopt, alter, and use a seal, which shall be judicially noticed;

(3) may make and perform such contracts, grants, and other agreements with any person or government however designated and wherever situated, as may be necessary for carrying out the functions of the Foundation;

(4) may determine and prescribe the manner in which its obligations shall be incurred and its expenses allowed and paid, including expenses for representation;

(5) may lease, purchase, or otherwise acquire, improve, and use such real property wherever situated, as may be necessary for carrying out the functions of the Foundation;

(6) may accept money, funds, services, or property (real, personal, or mixed), tangible or intangible, made available by gift, bequest 1 grant, or otherwise for the purpose of carrying out the provisions of this subchapter from domestic or foreign private individuals, charities, nongovernmental organizations, corporations, or governments;

(7) may use the United States mails in the same manner and on the same conditions as the executive departments;

(8) may contract with individuals for personal services, who shall not be considered Federal employees for any provision of law administered by the Office of Personnel Management;

(9) may hire or obtain passenger motor vehicles; and

(10) shall have such other powers as may be necessary and incident to carrying out this part.

(b) Principal office

The Foundation shall maintain its principal office in the metropolitan area of Washington, District of Columbia.

(c) Applicability of Government Corporation

Control Act

(1) In general

The Foundation shall be subject to chapter 91 of subtitle VI of title 31, except that the Foundation shall not be authorized to issue obligations or offer obligations to the public.

(2) Omitted

(d) Inspector General

(1) In general

The Inspector General of the Department of State shall serve as Inspector General of the Foundation, and, in acting in such capacity, may conduct reviews, investigations, and inspections of all aspects of the operations and activities of the Foundation.

(2) Authority of the Board

In carrying out the responsibilities under this subsection, the Inspector General shall report to and be under the general supervision of the Board.

(3) Reimbursement and authorization of services

(A) Reimbursement

The Foundation shall reimburse the Department of State for all expenses incurred by the Inspector General in connection with the Inspector General’s responsibilities under this subsection.

(B) Authorization for services

Of the amount authorized to be appropriated under section 17357(a) of this title for a fiscal year, up to $500,000 is authorized to be made available to the Inspector General of the Department of State to conduct reviews, investigations, and inspections of operations and activities of the Foundation.

REFERENCES IN TEXT

This subchapter, referred to in subsec. (a)(6), was in the original “this title”, meaning title IX of Pub. L. 110–140, title IX, § 924, Dec. 19, 2007, 121 Stat. 1736.)

1 So in original. A comma probably should appear.
§ 17356. General personnel authorities

(a) Detail of personnel

Upon request of the Chief Executive Officer, the head of an agency may detail any employee of such agency to the Foundation on a reimbursable basis. Any employee so detailed remains, for the purpose of preserving such employee’s allowances, privileges, rights, seniority, and other benefits, an employee of the agency from which detailed.

(b) Reemployment rights

(1) In general

An employee of an agency who is serving under a career or career conditional appointment (or the equivalent), and who, with the consent of the head of such agency, transfers to the Foundation, is entitled to be reemployed in such employee’s former position or a position of like seniority, status, and pay in such agency, if such employee—

(A) is separated from the Foundation for any reason, other than misconduct, neglect of duty, or malfeasance; and

(B) applies for reemployment not later than 90 days after the date of separation from the Foundation.

(2) Specific rights

An employee who satisfies paragraph (1) is entitled to be reemployed (in accordance with such paragraph) within 30 days after applying for reemployment and, on reemployment, is entitled to at least the rate of basic pay to which such employee would have been entitled had such employee never transferred.

(c) Hiring authority

Of persons employed by the Foundation, no more than 30 persons may be appointed, compensated, or removed without regard to the civil service laws and regulations.

(d) Basic pay

The Chief Executive Officer may fix the rate of basic pay of employees of the Foundation without regard to the provisions of chapter 51 of title 5 (relating to the classification of positions), subchapter III of chapter 53 of such title (relating to General Schedule pay rates), except that no employee of the Foundation may receive a rate of basic pay that exceeds the rate for level IV of the Executive Schedule under section 5315 of such title.

(e) Definitions

In this section—

(1) the term “agency” means an executive agency, as defined by section 105 of title 5; and

(2) the term “detail” means the assignment or loan of an employee, without a change of position, from the agency by which such employee is employed to the Foundation.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17357. Authorization of appropriations

(a) Authorization of appropriations

To carry out this part, there are authorized to be appropriated $20,000,000 for each of the fiscal years 2009 through 2013.

(b) Allocation of funds

(1) In general

The Foundation may allocate or transfer to any agency of the United States Government any of the funds available for carrying out this part. Such funds shall be available for obligation and expenditure for the purposes for which the funds were authorized, in accordance with authority granted in this part or under authority governing the activities of the United States Government agency to which such funds are allocated or transferred.

(2) Notification

The Foundation shall notify the appropriate congressional committees not less than 15 days prior to an allocation or transfer of funds pursuant to paragraph (1).

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

Part C—Miscellaneous provisions

§ 17371. Energy diplomacy and security within the Department of State

(a) State Department Coordinator for International Energy Affairs

(1) In general

The Secretary of State should ensure that energy security is integrated into the core mission of the Department of State.

(2) Coordinator for International Energy Affairs

There is established within the Office of the Secretary of State a Coordinator for International Energy Affairs, who shall be responsible for—

(A) representing the Secretary of State in interagency efforts to develop the international energy policy of the United States;

(B) ensuring that analyses of the national security implications of global energy and environmental developments are reflected in the decision making process within the Department of State;
§ 17372

§ 17372. Annual national energy security strategy report

(a) Reports

(1) In general

Subject to paragraph (2), on the date on which the President submits to Congress the budget for the following fiscal year under section 1105 of title 31, the President shall submit to Congress a comprehensive report on the national energy security of the United States.

(2) New Presidents

In addition to the reports required under paragraph (1), the President shall submit a comprehensive report on the national energy security of the United States by not later than 150 days after the date on which the President assumes the office of President after a presidential election.

(b) Contents

Each report under this section shall describe the national energy security strategy of the United States, including a comprehensive description of—

(1) the worldwide interests, goals, and objectives of the United States that are vital to the national energy security of the United States;

(2) the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary—

(A) to deter political manipulation of world energy resources; and

(B) to implement the national energy security strategy of the United States;

(3) the proposed short-term and long-term uses of the political, economic, military, and other authorities of the United States necessary—

(A) to protect or promote energy security; and

(B) to achieve the goals and objectives described in paragraph (1);

(4) the adequacy of the capabilities of the United States to protect the national energy security of the United States, including an evaluation of the balance among the capabilities of all elements of the national authority of the United States to support the implementation of the national energy security strategy; and

(5) such other information as the President determines to be necessary to inform Congress on matters relating to the national energy security of the United States.

(c) Classified and unclassified form

Each national energy security strategy report shall be submitted to Congress in—

(C) incorporating energy security priorities into the activities of the Department of State;

(D) coordinating energy activities of the Department of State with relevant Federal agencies; and

(E) coordinating energy security and other relevant functions within the Department of State currently undertaken by offices within—

(i) the Bureau of Economic, Energy and Business Affairs;

(ii) the Bureau of Oceans and International Environmental and Scientific Affairs; and

(iii) other offices within the Department of State.

(3) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(b) Energy experts in key embassies

Not later than 180 days after December 19, 2007, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that includes—

(1) a description of the Department of State personnel who are dedicated to energy matters and are stationed at embassies and consulates in countries that are major energy producers or consumers;

(2) an analysis of the need for Federal energy specialist personnel in United States embassies and other United States diplomatic missions; and

(3) recommendations for increasing energy expertise within United States embassies among foreign service officers and options for assigning to such embassies energy attachés from the National Laboratories or other agencies within the Department of Energy.

(c) Energy advisors

The Secretary of Energy may make appropriate arrangements with the Secretary of State to assign personnel from the Department of Energy or the National Laboratories of the Department of Energy to serve as dedicated advisors on energy matters in embassies of the United States or other United States diplomatic missions.

(d) Report

Not later than 180 days after December 19, 2007, and every 2 years thereafter for the following 20 years, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that describes—

(1) the energy-related activities being conducted by the Department of State, including activities within—

(A) the Bureau of Economic, Energy and Business Affairs;

(B) the Bureau of Oceans and Environmental and Scientific Affairs; and

(C) other offices within the Department of State;

(2) the amount of funds spent on each activity within each office described in paragraph (1); and

(3) the number and qualification of personnel in each embassy (or relevant foreign posting) of the United States whose work is dedicated exclusively to energy matters.

Effective Date

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.
(1) a classified form; and
(2) an unclassified form.

Effective Date
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17373. Convention on Supplementary Compensation for Nuclear Damage contingent cost allocation

(a) Findings and purpose

(1) Findings

Congress finds that—
(A) section 2210 of this title (commonly known as the “Price-Anderson Act”)—
(i) provides a predictable legal framework necessary for nuclear projects; and
(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;

(B) the Price-Anderson Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident;

(C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—
(i) to provide a predictable legal framework necessary for nuclear energy projects; and
(ii) to ensure prompt and equitable compensation in the event of a nuclear incident;

(D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for nuclear incidents that are not covered by the Price-Anderson Act by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident;

(E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident;

(F) the combined operation of the Convention, the Price-Anderson Act, and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators;

(G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention;

(H) any such contribution should be funded in a manner that does not—

(i) upset settled expectations based on the liability regime established under the Price-Anderson Act; or
(ii) shift to Federal taxpayers liability risks for nuclear incidents at foreign installations;

(I) with respect to a Price-Anderson incident, funds already available under the Price-Anderson Act should be used; and

(J) with respect to a nuclear incident outside the United States not covered by the Price-Anderson Act, a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) Purpose

The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997—

(A) with respect to a Price-Anderson incident, by using funds made available under section 2210 of this title to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 2210 of this title; and

(B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

(b) Definitions

In this section:

(1) Commission

The term “Commission” means the Nuclear Regulatory Commission.

(2) Contingent cost

The term “contingent cost” means the cost to the United States in the event of a covered incident the amount of which is equal to the amount of funds the United States is obligated to make available under paragraph 1(b) of Article III of the Convention.

(3) Convention

The term “Convention” means the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997.

(4) Covered incident

The term “covered incident” means a nuclear incident the occurrence of which results in a request for funds pursuant to Article VII of the Convention.

(5) Covered installation

The term “covered installation” means a nuclear installation at which the occurrence of a nuclear incident could result in a request for funds under Article VII of the Convention.

(6) Covered person

(A) In general

The term “covered person” means—
(i) a United States person; and
(ii) an individual or entity (including an agency or instrumentality of a foreign country) that—
(I) is located in the United States; or
(II) carries out an activity in the United States.

(B) Exclusions

The term “covered person” does not include—
(i) the United States; or
(ii) any agency or instrumentality of the United States.

(7) Nuclear supplier

The term “nuclear supplier” means a covered person (or a successor in interest of a covered person) that—
(A) supplies facilities, equipment, fuel, services, or technology pertaining to the design, construction, operation, or decommissioning of a covered installation; or
(B) transports nuclear materials that could result in a covered incident.

(8) Price-Anderson incident

The term “Price-Anderson incident” means a covered incident for which section 2210 of this title would make funds available to compensate for public liability (as defined in section 2014 of this title).

(9) Secretary

The term “Secretary” means the Secretary of Energy.

(10) United States

(A) In general

The term “United States” has the meaning given the term in section 2014 of this title.

(B) Inclusions

The term “United States” includes—
(i) the Commonwealth of Puerto Rico;
(ii) any other territory or possession of the United States;
(iii) the Canal Zone; and
(iv) the waters of the United States territorial sea under Presidential Proclamation Number 5928, dated December 27, 1988 (43 U.S.C. 1331 note).

(11) United States person

The term “United States person” means—
(A) any individual who is a resident, national, or citizen of the United States (other than an individual residing outside of the United States and employed by a person who is not a United States person); and
(B) any corporation, partnership, association, joint stock company, business trust, unincorporated organization, or sole proprietorship that is organized under the laws of the United States.

(c) Use of Price-Anderson funds

(1) In general

Funds made available under section 2210 of this title shall be used to cover the contingent cost resulting from any Price-Anderson incident.

(2) Effect

The use of funds pursuant to paragraph (1) shall not reduce the limitation on public liability established under section 2210(e) of this title.

(d) Effect on amount of public liability

(1) In general

Funds made available to the United States under Article VII of the Convention with respect to a Price-Anderson incident shall be used to satisfy public liability resulting from the Price-Anderson incident.

(2) Amount

The amount of public liability allowable under section 2210 of this title relating to a Price-Anderson incident under paragraph (1) shall be increased by an amount equal to the difference between—
(A) the amount of funds made available for the Price-Anderson incident under Article VII of the Convention; and
(B) the amount of funds used under subsection (c) to cover the contingent cost resulting from the Price-Anderson incident.

(e) Retrospective risk pooling program

(1) In general

Except as provided under paragraph (2), each nuclear supplier shall participate in a retrospective risk pooling program in accordance with this section to cover the contingent cost resulting from a covered incident outside the United States that is not a Price-Anderson incident.

(2) Deferred payment

(A) In general

The obligation of a nuclear supplier to participate in the retrospective risk pooling program shall be deferred until the United States is called on to provide funds pursuant to Article VII of the Convention with respect to a covered incident that is not a Price-Anderson incident.

(B) Amount of deferred payment

The amount of a deferred payment of a nuclear supplier under subparagraph (A) shall be based on the risk-informed assessment formula determined under subparagraph (C).

(C) Risk-informed assessment formula

(i) In general

Not later than 3 years after December 19, 2007, and every 5 years thereafter, the Secretary shall, by regulation, determine the risk-informed assessment formula for the allocation among nuclear suppliers of the contingent cost resulting from a covered incident that is not a Price-Anderson incident, taking into account risk factors such as—
(I) the nature and intended purpose of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;
(II) the quantity of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;
(III) the hazards associated with the supplied goods and services if the goods and services fail to achieve the intended purposes;
(IV) the hazards associated with the covered installation outside the United States to which the goods and services are supplied;
(V) the legal, regulatory, and financial infrastructure associated with the covered installation outside the United States to which the goods and services are supplied; and
(VI) the hazards associated with particular forms of transportation.

(ii) Factors for consideration
In determining the formula, the Secretary may—
(I) exclude—
(aa) goods and services with negligible risk;
(bb) classes of goods and services not intended specifically for use in a nuclear installation;
(cc) a nuclear supplier with a de minimis share of the contingent cost; and
(dd) a nuclear supplier no longer in existence for which there is no identifiable successor; and
(II) establish the period on which the risk assessment is based.

(iii) Application
In applying the formula, the Secretary shall not consider any covered installation or transportation for which funds would be available under section 2210 of this title.

(iv) Report
Not later than 5 years after December 19, 2007, and every 5 years thereafter, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report on whether there is a need for continuation or amendment of this section, taking into account the effects of the implementation of the Convention on the United States nuclear industry and suppliers.

(f) Reporting
(1) Collection of information
(A) In general
The Secretary may collect information necessary for developing and implementing the formula for calculating the deferred payment of a nuclear supplier under subsection (e)(2).
(B) Provision of information
Each nuclear supplier and other appropriate persons shall make available to the Secretary such information, reports, records, documents, and other data as the United States approves, by regulation, to be necessary or appropriate to develop and implement the formula under subsection (e)(2)(C).

(2) Private insurance
The Secretary shall make available to nuclear suppliers, and insurers of nuclear suppliers, information to support the voluntary establishment and maintenance of private insurance against any risk for which nuclear suppliers may be required to pay deferred payments under this section.

(g) Effect on liability
Nothing in any other law (including regulations) limits liability for a covered incident to an amount equal to less than the amount prescribed in paragraph 1(a) of Article IV of the Convention, unless the law—
(1) specifically refers to this section; and
(2) explicitly repeals, alters, amends, modifies, impairs, displaces, or supersedes the effect of this subsection.

(h) Payments to and by the United States
(1) Action by nuclear suppliers
(A) Notification
In the case of a request for funds under Article VII of the Convention resulting from a covered incident that is not a Price-Anderson incident, the Secretary shall notify each nuclear supplier of the amount of the deferred payment required to be made by the nuclear supplier.
(B) Payments
(i) In general
Except as provided under clause (ii), not later than 60 days after receipt of a notification under subparagraph (A), a nuclear supplier shall pay to the general fund of the Treasury the deferred payment of the nuclear supplier required under subparagraph (A).
(ii) Annual payments
A nuclear supplier may elect to prorate payment of the deferred payment required under this section by paying instalments (including interest on the unpaid balance at the prime rate prevailing at the time the first payment is due).

(C) Vouchers
A nuclear supplier shall submit payment certification vouchers to the Secretary of the Treasury in accordance with section 3325 of title 31.

(2) Use of funds
(A) In general
Amounts paid into the Treasury under paragraph (1) shall be available to the Secretary of the Treasury, without further appropriation and without fiscal year limitation, for the purpose of making the contributions of public funds required to be made by the United States under the Convention.

(B) Action by Secretary of Treasury
The Secretary of the Treasury shall pay the contribution required under the Convention to the court of competent jurisdiction under Article XIII of the Convention with respect to the applicable covered incident.

(3) Failure to pay
If a nuclear supplier fails to make a payment required under this subsection, the Sec-
§ 17374

TRANSPARENCY IN EXTRACTIVE INDUSTRIES RESOURCE PAYMENTS

(a) Purpose

The purpose of this section is to—

(1) ensure greater United States energy security by combating corruption in the governments of foreign countries that receive revenues from the sale of their natural resources; and

(2) enhance the development of democracy and increase political and economic stability in such resource-rich foreign countries.

(b) Statement of policy

It is the policy of the United States—

(1) to increase energy security by promoting anti-corruption initiatives in oil and natural gas rich countries; and

(2) to increase energy security by combating corruption in the governments of foreign countries that receive revenues from the sale of their natural resources.

(c) Definitions

For purposes of this section, the terms—

(1) ‘‘natural gas rich country’’ means a country that produces and exports substantial amounts of natural gas;

(2) ‘‘oil rich country’’ means a country that produces and exports substantial amounts of oil;

(3) ‘‘price Anderson incident’’ means an event that is caused by a nuclear incident and that may exist, an individual or entity seeks a remedy for nuclear damage suffered by the individual or entity.

(4) ‘‘Secretary’’ means the Secretary of Energy or the Commission, as appropriate, may prescribe regulations to carry out section 2210 of this title and this section.

(d) Applicability

The authority provided under this subsection is in addition to, and does not impair, any other authority of the Secretary or the Commission to prescribe regulations.

(e) Enforcement

The United States shall have a cause of action against the operator to recover for nuclear damage suffered by the individual or entity.

(f) Savings provision

Nothing in this paragraph affects the jurisdiction of the Supreme Court of the United States under chapter 81 of title 28.

(i) Limitation on judicial review

(A) In general

In any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, any appeal or review by writ of mandamus or otherwise with respect to a nuclear incident that is not a Price-Anderson incident shall be in accordance with chapter 83 of title 28, except that the appeal or review shall occur in the United States Court of Appeals for the District of Columbia Circuit.

(B) Supreme Court jurisdiction

Nothing in this paragraph affects the jurisdiction of the Supreme Court of the United States under chapter 81 of title 28.

(ii) Cause of action

(A) In general

Subject to subparagraph (B), in any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, in addition to any other cause of action that may exist, an individual or entity shall have a cause of action against the operator to recover for nuclear damage suffered by the individual or entity.

(B) Requirement

Subparagraph (A) shall apply only if the individual or entity seeks a remedy for nuclear damage (as defined in Article I of the Convention) that is not a Price-Anderson incident.

(C) Savings provision

Nothing in this paragraph may be construed to limit, modify, extinguish, or otherwise affect any cause of action that would have existed in the absence of enactment of this paragraph.

(j) Right of recourse

This section does not provide to an operator of a covered installation any right of recourse under the Convention.

(k) Protection of sensitive United States information

Nothing in the Convention or this section requires the disclosure of—

(1) any data that, at any time, was Restricted Data (as defined in section 2014 of title 50); or

(2) information relating to intelligence sources or methods protected by section 3024(j) of title 50; or

(3) national security information classified under Executive Order 12958 (former] 50 U.S.C. 435 note; relating to classified national security information) (or a successor Executive Order or regulation).

(l) Regulations

(1) In general

The Secretary or the Commission, as appropriate, may prescribe regulations to carry out section 2210 of this title and this section.

(2) Requirement

Rules prescribed under this subsection shall ensure, to the maximum extent practicable, that—

(A) the implementation of section 2210 of this title and this section is consistent and equitable; and

(B) the financial and operational burden on a Commission licensee in complying with section 2210 of this title is not greater as a result of the enactment of this section.

(m) Effective date

This section shall take effect on December 19, 2007.

REFERENCES IN TEXT

Presidential Proclamation Number 5928, referred to in subsec. (b)(10)(B)(iv), is set out as a note under section 1331 of Title 43, Public Lands. Executive Order 12958, referred to in subsec. (k)(3), which was formerly set out as a note under section 435 (now section 3161) of Title 50, War and National Defense, was revoked by Ex. Ord. No. 13526, § 6.2(y), Dec. 29, 2009, 75 F.R. 731.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007.
(2) to promote global energy security through promotion of programs such as the Extractive Industries Transparency Initiative (EITI) that seek to instill transparency and accountability into extractive industries resource payments.

(c) Sense of Congress

It is the sense of Congress that the United States should further global energy security and promote democratic development in resource-rich foreign countries by—

(1) encouraging further participation in the EITI by eligible countries and companies; and

(2) promoting the efficacy of the EITI program by ensuring a robust and candid review mechanism.

(d) Report

(1) Report required

Not later than 180 days after December 19, 2007, and annually thereafter, the Secretary of State, in consultation with the Secretary of Energy, shall submit to the appropriate congressional committees a report on progress made in promoting transparency in extractive industries resource payments.

(2) Matters to be included

The report required by paragraph (1) shall include a detailed description of United States participation in the EITI, bilateral and multilateral diplomatic efforts to further participation in the EITI, and other United States initiatives to strengthen energy security, deter energy kleptocracy, and promote transparency in the extractive industries.

(e) Authorization of appropriations

There is authorized to be appropriated $3,000,000 for the purposes of United States contributions to the Multi-Donor Trust Fund of the EITI.

§ 17381. Statement of policy on modernization of electricity grid

It is the policy of the United States to support the modernization of the Nation’s electricity transmission and distribution system to maintain a reliable and secure electricity infrastructure that can meet future demand growth and to achieve each of the following, which together characterize a Smart Grid:

(1) Increased use of digital information and controls technology to improve reliability, security, and efficiency of the electric grid.

(2) Dynamic optimization of grid operations and resources, with full cyber-security.

(3) Deployment and integration of distributed resources and generation, including renewable resources.

(4) Development and incorporation of demand response, demand-side resources, and energy-efficiency resources.

(5) Deployment of “smart” technologies (real-time, automated, interactive technologies that optimize the physical operation of appliances and consumer devices) for metering, communications concerning grid operations and status, and distribution automation.

(6) Integration of “smart” appliances and consumer devices.

(7) Deployment and integration of advanced electricity storage and peak-shaving technologies, including plug-in electric and hybrid electric vehicles, and thermal-storage air conditioning.

(8) Provision to consumers of timely information and control options.

(9) Development of standards for communication and interoperability of appliances and equipment connected to the electric grid, including the infrastructure serving the grid.

(10) Identification and lowering of unreasonable or unnecessary barriers to adoption of smart grid technologies, practices, and services.

SUBCHAPTER IX—SMART GRID

§ 17382. Smart grid system report

The Secretary, acting through the Assistant Secretary of the Office of Electricity Delivery and Energy Reliability (referred to in this section as the “OEDER”) and through the Smart Grid Task Force established in section 17383 of this title, shall, after consulting with any interested individual or entity as appropriate, no later than 1 year after December 19, 2007, and every 2 years thereafter, report to Congress concerning the status of smart grid deployments nationwide and any regulatory or government barriers to continued deployment. The report shall provide the current status and prospects of smart grid development, including information on technology penetration, communications network capabilities, costs, and obstacles. It may include recommendations for State and Federal policies or actions helpful to facilitate the transition to a smart grid. To the extent appropriate, it should take a regional perspective. In preparing this report, the Secretary shall solicit advice and contributions from the Smart Grid Advisory Committee created in section 17383 of this title; from other involved Federal agencies including but not limited to the Federal Energy Regulatory Commission (“Commission”), the National Institute of Standards and Technology (“Institute”), and the Department of Homeland Security; and from other stakeholder groups not already represented on the Smart Grid Advisory Committee.

CODIFICATION

December 19, 2007, referred to in text, was in the original “enactment” and was translated as meaning...
the date of enactment of Pub. L. 110–140 to reflect the probable intent of Congress.

**Effective Date**
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17383. Smart Grid Advisory Committee and Smart Grid Task Force

(a) Smart Grid Advisory Committee

(1) Establishment

The Secretary shall establish, within 90 days of December 19, 2007, a Smart Grid Advisory Committee (either as an independent entity or as a designated sub-part of a larger advisory committee on electricity matters). The Smart Grid Advisory Committee shall include eight or more members appointed by the Secretary who have sufficient experience and expertise to represent the full range of smart grid technologies and services, to represent both private and non-Federal public sector stakeholders. One member shall be appointed by the Secretary to Chair the Smart Grid Advisory Committee.

(2) Mission

The mission of the Smart Grid Advisory Committee shall be to advise the Secretary, the Assistant Secretary, and other relevant Federal officials concerning the development of smart grid technologies, the progress of a national transition to the use of smart-grid technologies and services, the evolution of widely-accepted technical and practical standards and protocols to allow interoperability and inter-communication among smart-grid capable devices, and the optimum means of using Federal incentive authority to encourage such progress.

(3) Applicability of Federal Advisory Committee Act

The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the Smart Grid Advisory Committee.

(b) Smart Grid Task Force

(1) Establishment

The Assistant Secretary of the Office of Electricity Delivery and Energy Reliability shall establish, within 90 days of December 19, 2007, a Smart Grid Task Force composed of designated employees from the various divisions of that office who have responsibilities related to the transition to smart-grid technologies and practices. The Assistant Secretary or his designee shall be identified as the Director of the Smart Grid Task Force. The Chairman of the Federal Energy Regulatory Commission and the Director of the National Institute of Standards and Technology shall each designate at least one employee to participate on the Smart Grid Task Force. Other members may come from other agencies at the invitation of the Assistant Secretary or the nomination of the head of such other agency. The Smart Grid Task Force shall, without disrupting the work of the Divisions or Offices from which its members are drawn, provide an identifiable Federal entity to embody the Federal role in the national transition toward development and use of smart grid technologies.

(2) Mission

The mission of the Smart Grid Task Force shall be to insure awareness, coordination and integration of the diverse activities of the Office and elsewhere in the Federal Government related to smart-grid technologies and practices, including but not limited to: smart grid research and development; development of widely accepted smart-grid standards and protocols; the relationship of smart-grid technologies and practices to electric utility regulation; the relationship of smart-grid technologies and practices to infrastructure development, system reliability and security; and the relationship of smart-grid technologies and practices to other facets of electricity supply, demand, transmission, distribution, and policy. The Smart Grid Task Force shall collaborate with the Smart Grid Advisory Committee and other Federal agencies and offices. The Smart Grid Task Force shall meet at the call of its Director as necessary to accomplish its mission.

(c) Authorization

There are authorized to be appropriated for the purposes of this section such sums as are necessary to the Secretary to support the operations of the Smart Grid Advisory Committee and Smart Grid Task Force for each of fiscal years 2008 through 2020.

**References in Text**

**Effective Date**
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§ 17384. Smart grid technology research, development, and demonstration

(a) Power grid digital information technology

The Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate agencies, electric utilities, the States, and other stakeholders, shall carry out a research, development, and demonstration program—

(1) to develop advanced techniques for measuring peak load reductions and energy-efficiency savings from smart metering, demand response, distributed generation, and electricity storage systems;

(2) to investigate means for demand response, distributed generation, and storage to provide ancillary services;

(3) to conduct research to advance the use of wide-area measurement and control networks, including data mining, visualization, advanced computing, and secure and dependable communications in a highly-distributed environment;
(4) to test new reliability technologies, including those concerning communications network capabilities, in a grid control room environment against a representative set of local outage and wide area blackout scenarios;

(5) to identify communications network capacity needed to implement advanced technologies;\(^1\)

(6) to investigate the feasibility of a transition to time-of-use and real-time electricity pricing;

(7) to develop algorithms for use in electric transmission system software applications;

(8) to promote the use of underutilized electricity generation capacity in any substitution of electricity for liquid fuels in the transportation system of the United States; and

(9) in consultation with the Federal Energy Regulatory Commission, to propose interconnection protocols to enable electric utilities to access electricity stored in vehicles to help meet peak demand loads.

(b) Smart grid regional demonstration initiative

(1) In general

The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the “Initiative”), composed of demonstration projects focused on cost-effective, advanced technologies for use in power grid sensing, communications, analysis, power flow control, visualization, distribution automation, industrial control systems, dynamic line rating systems, grid redesign, and the integration of distributed energy resources.

(2) Goals

The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric networks to improve system performance, power flow control, and reliability;

(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and fossil fuel emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices;

(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies; and

(F) to encourage the commercial application of advanced distribution automation technologies that exert intelligent control over electrical grid functions at the distribution level to improve system resilience.

(3) Demonstration projects

(A) In general

In carrying out the initiative,\(^2\) the Secretary shall provide financial support to smart grid demonstration projects in urban, suburban, tribal, and rural areas, including areas where electric system assets are controlled by nonprofit entities and areas where electric system assets are controlled by investor-owned utilities.

(B) Cooperation

A demonstration project under subparagraph (A) shall be carried out in cooperation with the electric utility that owns the grid facilities in the electricity control area in which the demonstration project is carried out.

(C) Federal share of cost of technology investments

The Secretary shall provide to an electric utility described in subparagraph (B) or to other parties financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility or other party to carry out a demonstration project.

(D) Ineligibility for grants

No person or entity participating in any demonstration project conducted under this subsection shall be eligible for grants under section 17386 of this title for otherwise qualifying investments made as part of that demonstration project.

(E) Availability of data

The Secretary shall establish and maintain a smart grid information clearinghouse in a timely manner which will make data from smart grid demonstration projects and other sources available to the public. As a condition of receiving financial assistance under this subsection, a utility or other participant in a smart grid demonstration project shall provide such information as the Secretary may require to become available through the smart grid information clearinghouse in the form and within the time-frames as directed by the Secretary. The Secretary shall assure that business proprietary information and individual customer information is not included in the information made available through the clearinghouse.

(F) Open protocols and standards

The Secretary shall require as a condition of receiving funding under this subsection that demonstration projects utilize open protocols and standards (including Internet-based protocols and standards) if available and appropriate.

(c) Authorization of appropriations

There are authorized to be appropriated—

(1) to carry out subsection (a), such sums as are necessary for each of fiscal years 2008 through 2012; and

(2) to carry out subsection (b), such sums as may be necessary.

\(^1\) So in original. The period probably should be a semicolon.

\(^2\) So in original. Probably should be “Initiative.”
§ 17384a  
TITLE 42—THE PUBLIC HEALTH AND WELFARE  
Page 4896

AMENDMENTS

2020—Subsec. (a), Pub. L. 116–260, § 8001(1), inserted "research, development, and demonstration" before "program" in introductory provisions.

Subsec. (b)(1), Pub. L. 116–260, § 8001(2)(A), amended par. (1) generally. Prior to amendment, text read as follows: "The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the 'Initiative') composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments."

2009—Subsec. (b)(3)(A). Pub. L. 111–5, § 405(1), amended subpar. (A) generally. Prior to amendment, text read as follows: "In carrying out the Initiative, the Secretary shall carry out smart grid demonstration projects in up to 5 electricity control areas, including rural areas and at least 1 area in which the majority of generation and transmission assets are controlled by a tax-exempt entity."

Subsec. (b)(3)(C). Pub. L. 111–5, § 405(2), amended subpar. (C) generally. Prior to amendment, text read as follows: "The Secretary shall provide to an electric utility described in subparagraph (B) financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility to carry out a demonstration project."

Subsec. (b)(3)(E), (F). Pub. L. 111–5, § 405(3), added subpars. (E) and (F).

Subsec. (c)(2). Pub. L. 111–5, § 405(4), amended par. (2) generally. Prior to amendment, par. (2) read as follows: "to carry out subsection (b), $100,000,000 for each of fiscal years 2009 through 2012."

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1224 of Title 2, The Congress.

§ 17384a. Smart grid modeling, visualization, architecture, and controls

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a program of research, development, demonstration, and commercial application on electric grid modeling, sensing, visualization, architecture development, and advanced operation and controls.

(b) Modeling research and development

The Secretary shall support development of models of emerging technologies and systems to facilitate the secure and reliable design, planning, and operation of the electric grid for use by industry stakeholders. In particular, the Secretary shall support development of—

(1) models to analyze and predict the effects of adverse physical and cyber events on the electric grid;
(2) coupled models of electrical, physical, and cyber systems;
(3) models of existing and emerging technologies being deployed on the electric grid due to projected changes in the electric generation mix and loads, for a variety of regional characteristics; and to amendment, (4) integrated models of the communications, transmission, distribution, and other interdependent systems for existing, new, and emerging technologies.

(c) Situational awareness research and development

(1) In general

The Secretary shall support development of computational tools and technologies to improve sensing, monitoring, and visualization of the electric grid for real-time situational awareness and decision support tools that enable improved operation of the power system, including utility, non-utility, and customer grid-connected assets, for use by industry partners.

(2) Data use

In developing visualization capabilities under this section, the Secretary shall develop tools for industry stakeholders to use to analyze data collected from advanced measurement and monitoring technologies, including data from phasor measurement units and advanced metering units.

(3) Severe events

The Secretary shall prioritize enhancing cyber and physical situational awareness of the electric grid during adverse manmade and naturally-occurring events.

(d) Operation and controls research and development

The Secretary shall conduct research to develop improvements to the operation and controls of the electric grid, in coordination with industry partners. Such activities shall include—

(1) a training facility or facilities to allow grid operators to gain operational experience with advanced grid control concepts and technologies;
(2) development of cost-effective advanced operation and control concepts and technologies, such as adaptive islanding, dynamic line rating systems, power flow controllers, network topology optimization, smart circuit breakers, intelligent load shedding, and fault-tolerant control system architectures;
(3) development of real-time control concepts using artificial intelligence and machine learning for improved electric grid resilience; and
(4) utilization of advanced data analytics including load forecasting, power flow modeling, equipment failure prediction, resource optimization, risk analysis, and decision analysis.

(e) Interoperability research and development

The Secretary shall conduct research and development on tools and technologies that improve the interoperability and compatibility of new and emerging components, technologies, and systems with existing electric grid infrastructure.

(f) Underground transmission and distribution lines

In carrying out the program under subsection (a), the Secretary shall support research and development on underground transmission and distribution lines. This shall include research on—

(1) methods for lowering the costs of underground transmission and distribution lines, including through novel installation techniques and materials considerations;
(2) techniques to improve the lifespan of underground transmission and distribution lines;
(3) wireless sensors to improve safety of underground transmission and distribution lines and to predict, identify, detect, and transmit information about degradation and faults; and
(4) methods for improving the resilience and reliability of underground transmission and distribution lines, including technologies and techniques that can mitigate the impact of flooding, storm surge, and seasonal climate cycles on degradation of and damage to underground transmission and distribution lines.

(g) Grid architecture and scenario development

(1) In general
Subject to paragraph (3), the Secretary shall establish and facilitate a collaborative process to develop model grid architecture and a set of future scenarios for the electric grid to examine the impacts of different combinations of resources (including different quantities of distributed energy resources and large-scale, central generation) on the electric grid.

(2) Architecture
In supporting the development of model grid architectures, the Secretary shall—

(A) analyze a variety of grid architecture scenarios that range from minor upgrades to existing transmission grid infrastructure to scenarios that involve the replacement of significant portions of existing transmission grid infrastructure;
(B) analyze the effects of the increasing proliferation of renewable and other zero emissions energy generation sources, increasing use of distributed resources owned by non-utility entities, and the use of digital and automated controls not managed by grid operators;
(C) include a variety of new and emerging distribution grid technologies, including distributed energy resources, electric vehicle charging stations, distribution automation technologies, energy storage, and renewable energy sources;
(D) analyze the effects of local load balancing and other forms of decentralized control;
(E) analyze the effects of changes to grid architectures resulting from modernizing electric grid systems, including communications, controls, markets, consumer choice, emergency response, electrification, and cybersecurity concerns; and
(F) develop integrated grid architectures that incorporate system resilience for cyber, physical, and communications systems.

(3) Market structure
The grid architecture and scenarios developed under paragraph (1) shall, to the extent practicable, account for differences in market structure, including an examination of the potential for stranded costs in each type of market structure.

(h) Computing resources and data coordination research and development

In carrying out this section, the Secretary shall—

(1) leverage existing computing resources at the National Laboratories; and
(2) develop voluntary standards for data taxonomies and communication protocols in coordination with public and private sector stakeholders.

(i) Information sharing
None of the activities authorized in this section shall require private entities to share information or data with the Secretary.

(j) Resilience
In this section, the term “resilience” means the ability to withstand and reduce the magnitude or duration of disruptive events, which includes the capability to anticipate, absorb, adapt to, or rapidly recover from such an event, including from deliberate attacks, accidents, and naturally occurring threats or incidents.

§ 17385. Smart grid interoperability framework

(a) Interoperability framework
The Director of the National Institute of Standards and Technology shall have primary responsibility to coordinate the development of a framework that includes protocols and model standards for information management to achieve interoperability of smart grid devices and systems. Such protocols and standards shall further align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network. In developing such protocols and standards—

(1) the Director shall seek input and cooperation from the Commission, OE DER and its Smart Grid Task Force, the Smart Grid Advisory Committee, other relevant Federal and State agencies; and
(2) the Director shall also solicit input and cooperation from private entities interested in such protocols and standards, including but not limited to the Gridwise Architecture Council, the International Electrical and Electronics Engineers, the National Electric Reliability Organization recognized by the Federal Energy Regulatory Commission, and National Electrical Manufacturer’s Association.

(b) Scope of framework
The framework developed under subsection (a) shall be flexible, uniform and technology neutral, including but not limited to technologies for managing smart grid information, and designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;
(2) to be flexible to incorporate—

(A) regional and organizational differences; and
(B) technological innovations;
(3) to consider the use of voluntary uniform standards for certain classes of mass-produced
§ 17386. Federal matching fund for smart grid investment costs

(a) Matching fund
The Secretary shall establish a Smart Grid Investment Matching Grant Program to provide grants of up to one-half (50 percent) of qualifying Smart Grid investments.

(b) Qualifying investments
Qualifying Smart Grid investments may include any of the following made on or after December 19, 2007:

(1) In the case of appliances covered for purposes of establishing energy conservation standards under part B of title III of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6291 et seq.), the documented expenditures incurred by a manufacturer of such appliances associated with purchasing or designing, creating the ability to manufacture, and manufacturing and installing for one calendar year, internal devices that allow the appliance to engage in Smart Grid functions.

(2) In the case of specialized electricity-using equipment, including motors and drivers, installed in industrial or commercial applications, the documented expenditures incurred by its owner or its manufacturer of installing devices or modifying that equipment to engage in Smart Grid functions.

(3) In the case of transmission and distribution equipment fitted with monitoring and communications devices to enable smart grid functions, the documented expenditures incurred by the electric utility to purchase and install such monitoring and communications devices.

(4) In the case of metering devices, sensors, control devices, and other devices integrated with and attached to an electric utility system or retail distributor or marketer of electricity that are capable of engaging in Smart Grid functions, the documented expenditures incurred by the electric utility, distributor, or marketer and its customers to purchase and install such devices.

(5) In the case of software that enables devices or computers to engage in Smart Grid functions, the documented purchase costs of the software.

(6) In the case of entities that operate or coordinate operations of regional electric grids, the documented expenditures for purchasing and installing such equipment that allows Smart Grid functions to operate and be combined or coordinated among multiple electric utilities and between that region and other regions.

(7) In the case of persons or entities other than electric utilities owning and operating a distributed electricity generator, the documented expenditures of enabling that generator to be monitored, controlled, or otherwise integrated into grid operations and electricity flows on the grid utilizing Smart Grid functions.

(8) In the case of electric or hybrid-electric vehicles, the documented expenses for devices that allow the vehicle to engage in Smart Grid functions (but not the costs of electricity storage for the vehicle).

(9) The documented expenditures related to purchasing and implementing Smart Grid functions in such other cases as the Secretary shall identify.

1So in original. Does not fit with subsec. (b) introductory provisions.

2So in original. Probably should be “section”.

The Institute shall begin work pursuant to this section within 60 days of December 19, 2007. The Institute shall provide and publish an initial report on progress toward recommended or consensus standards and protocols within 1 year after December 19, 2007, further reports at such times as developments warrant in the judgment of the Institute, and a final report when the Institute determines that the work is completed or that a Federal role is no longer necessary.

(c) Timing of framework development
The Institute shall begin work pursuant to this section within 60 days of December 19, 2007. The Institute shall provide and publish an initial report on progress toward recommended or consensus standards and protocols within 1 year after December 19, 2007, further reports at such times as developments warrant in the judgment of the Institute, and a final report when the Institute determines that the work is completed or that a Federal role is no longer necessary.

(d) Standards for interoperability in Federal jurisdiction
At any time after the Institute’s work has led to sufficient consensus in the Commission’s judgment, the Commission shall institute a rulemaking proceeding to adopt such standards and protocols as may be necessary to insure smart-grid functionality and interoperability in interstate transmission of electric power, and regional and wholesale electricity markets.

(e) Authorization
There are authorized to be appropriated for the purposes of this section $5,000,000 to the Institute to support the activities required by this subsection for each of fiscal years 2008 through 2012.

CODIFICATION
December 19, 2007, referred to in subsec. (c), was in the original “enactment” and was translated as meaning the date of enactment of Pub. L. 110-140, to reflect the probable intent of Congress.

EFFECTIVE DATE
Section effective on the date that is 1 day after Dec. 19, 2007, see section 1301 of Pub. L. 110-140, set out as a note under section 1624 of Title 2, The Congress.
(c) Investments not included

Qualifying Smart Grid investments do not include any of the following:

1. Investments or expenditures for Smart Grid technologies, devices, or equipment that utilize specific tax credits or deductions under the Internal Revenue Code, as amended.
2. Expenditures for electricity generation, transmission, or distribution infrastructure or equipment not directly related to enabling Smart Grid functions.
3. After the final date for State consideration of the Smart Grid Information Standard under section 2621(d)(17) of title 16, an investment that is not in compliance with such standard.
4. After the development and publication by the Institute of protocols and model standards for interoperability of smart grid devices and technologies, an investment that fails to incorporate any of such protocols or model standards.
5. Expenditures for physical interconnection of generators or other devices to the grid except those that are directly related to enabling Smart Grid functions.
6. Expenditures for ongoing salaries, benefits, or personnel costs not incurred in the initial installation, training, or start up of smart grid functions.
7. Expenditures for travel, lodging, meals or other personal costs.
8. Ongoing or routine operation, billing, customer relations, security, and maintenance expenditures.
9. Such other expenditures that the Secretary determines not to be Qualifying Smart Grid Investments by reason of the lack of the ability to perform Smart Grid functions or lack of direct relationship to Smart Grid functions.

(d) Smart grid functions

The term “smart grid functions” means any of the following:

1. The ability to develop, store, send and receive digital information concerning electricity use, costs, prices, time of use, nature of use, storage, or other information relevant to device, grid, or utility operations, to or from or by means of the electric utility system, through one or a combination of devices and technologies.
2. The ability to develop, store, send and receive digital information concerning electricity use, costs, prices, time of use, nature of use, storage, or other information relevant to device, grid, or utility operations to or from a computer or other control device.
3. The ability to measure or monitor electricity use as a function of time of day, power quality characteristics such as voltage level, current, cycles per second, or source or type of generation and to store, synthesize, or report that information by digital means.
4. The ability to sense and localize disruptions or changes in power flows on the grid and communicate such information instantaneously and automatically for purposes of enabling automatic protective responses to sustain reliability and security of grid operations.
5. The ability to detect, prevent, communicate with regard to, respond to, or recover from system security threats, including cyber security threats and terrorism, using digital information, media, and devices.
6. The ability of any appliance or machine to respond to such signals, measurements, or communications automatically or in a manner programmed by its owner or operator without independent human intervention.
7. The ability to use digital information to operate functionalities on the electric utility grid that were previously electro-mechanical or manual.
8. The ability to use digital controls to manage and modify electricity demand, enable congestion management, assist in voltage control, provide operating reserves, and provide frequency regulation.
9. Such other functions as the Secretary may identify as being necessary or useful to the operation of a Smart Grid.

(e) Procedures and rules

1. The Secretary shall, within 60 days after February 17, 2009, by means of a notice of intent and subsequent solicitation of grant proposals—
   A. establish procedures by which applicants can obtain grants of not more than one-half of their documented costs;
   B. require as a condition of receiving funding under this subsection that demonstration projects utilize open protocols and standards (including Internet-based protocols and standards) if available and appropriate;
   C. establish procedures to ensure that there is no duplication or multiple payment for the same investment or costs, that the grant goes to the party making the actual expenditures for the qualifying Smart Grid investments, and that the grants made have a significant effect in encouraging and facilitating the development of a smart grid;
   D. establish procedures to ensure there will be public records of grants made, recipients, and qualifying Smart Grid investments which have received grants; and
   E. establish procedures to provide advance payment of moneys up to the full amount of the grant award.
2. The Secretary shall have discretion and exercise reasonable judgment to deny grants for investments that do not qualify.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as are necessary for the administration of this section and the grants to be made pursuant to this section for fiscal years 2008 through 2012.

REFERENCES IN TEXT

See References in Text note below.
§ 17387. Integrated energy systems

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program to develop cost-effective integrated energy systems, including—

(1) development of computer modeling to design different configurations of integrated energy systems and to optimize system operation;
(2) research on system integration needed to plan, design, build, and operate integrated energy systems, including interconnection requirements with the electric grid;
(3) development of integrated energy systems for various applications, including—
   (A) thermal energy generation and storage for buildings and manufacturing;
   (B) electricity storage coupled with energy generation;
   (C) desalination;
   (D) production of liquid and gaseous fuels; and
   (E) production of chemicals such as ammonia and ethylene;
(4) development of testing facilities for integrated energy systems; and
(5) research on incorporation of various technologies for integrated energy systems, including nuclear energy, renewable energy, storage, and carbon capture, utilization, and sequestration technologies.

(b) Strategic plan

(1) In general

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a strategic plan that identifies opportunities, challenges, and standards needed for the development and commercial application of integrated energy systems. The strategic plan shall include—

(A) analysis of the potential benefits of development of integrated electric systems on the electric grid;
(B) analysis of the potential contributions of integrated energy systems to different grid architecture scenarios;
(C) research and development goals for various integrated energy systems, including those identified in subsection (a);
(D) assessment of policy and market barriers to the adoption of integrated energy systems;
(E) analysis of the technical and economic feasibility of adoption of different integrated energy systems; and
(F) a 10-year roadmap to guide the program established under subsection (a).

(2) Updates

Not less than once every 3 years for the duration of this research program, the Secretary shall submit an updated version of the strategic plan to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(c) Program implementation

In carrying out the research, development, demonstration, and commercial application aims of subsection (a), the Secretary shall—

(1) implement the recommendations set forth in the strategic plan in subsection (b);
(2) coordinate across all relevant program offices at the Department, including—
   (A) the Office of Energy Efficiency and Renewable Energy;
   (B) the Office of Nuclear Energy; and
   (C) the Office of Fossil Energy;
(3) leverage existing programs and resources of the Department; and
(4) prioritize activities that accelerate the development of integrated electricity generation, storage, and distribution systems with net zero greenhouse gas emissions.

(d) Integrated energy system defined

The term “integrated energy system” means a system composed of 2 or more co-located or jointly operated sub-systems of energy generation, energy storage, or other energy technologies.

§ 17388. Advisory committee

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall designate an existing advisory committee to advise the Secretary on the authorization of research, development, and demonstration projects under sections 17384 and 17384a of this title.

(b) Responsibility

The Secretary shall annually solicit from the advisory committee—
(1) comments to identify grid modernization technology needs;
(2) an assessment of the progress of the research activities on grid modernization; and
(3) assistance in annually updating grid modernization technology roadmaps.

§ 17389. Technology demonstration on the distribution grid

(a) In general

The Secretary shall establish a grant program to carry out eligible projects related to the modernization of the electric grid, including the application of technologies to improve observability, advanced controls, and prediction of system performance on the distribution system.

(b) Eligible projects

To be eligible for a grant under subsection (a), a project shall—

(1) be designed to improve the performance and efficiency of the future electric grid, while ensuring the continued provision of safe, secure, reliable, and affordable power; and
(2) demonstrate—
   (A) secure integration and management of two or more energy resources, including distributed energy generation, combined heat and power, micro-grids, energy storage, electric vehicles, energy efficiency, demand response, and intelligent loads; and
   (B) secure integration and interoperability of communications and information technologies.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this section, see section 9006(b) of div. Z of Pub. L. 110–140, as set out as a note under section 16237 of this title.

§ 17390. Voluntary model pathways

(a) Establishment of voluntary model pathways

(1) Establishment

Not later than 90 days after December 27, 2020, the Secretary of Energy (in this section referred to as the “Secretary”), in consultation with the steering committee established under paragraph (3), shall initiate the development of voluntary model pathways for modernizing the electric grid through a collaborative, public-private effort that—

(A) produces illustrative policy pathways encompassing a diverse range of technologies that can be adapted for State and regional applications by regulators and policymakers;
(B) facilitates the modernization of the electric grid and associated communications networks to achieve the objectives described in paragraph (2);
(C) ensures a reliable, resilient, affordable, safe, and secure electric grid; and
(D) acknowledges and accounts for different priorities, electric systems, and rate structures across States and regions.

(2) Objectives

The pathways established under paragraph (1) shall facilitate achievement of as many of the following objectives as practicable:

(A) Near real-time situational awareness of the electric system.
(B) Data visualization.
(C) Advanced monitoring and control of the advanced electric grid.
(D) Enhanced certainty of policies for investment in the electric grid.
(E) Increased innovation.
(F) Greater consumer empowerment.
(G) Enhanced grid resilience, reliability, and robustness.
(H) Improved—
   (i) integration of distributed energy resources;
   (ii) interoperability of the electric system; and
   (iii) predictive modeling and capacity forecasting.
(I) Reduced cost of service for consumers.
(J) Diversification of generation sources.

(3) Steering committee

Not later than 90 days after December 27, 2020, the Secretary shall establish a steering committee to help develop the pathways under paragraph (1), to be composed of members appointed by the Secretary, consisting of persons with appropriate expertise representing a diverse range of interests in the public, private, and academic sectors, including representatives of—

(A) the Federal Energy Regulatory Commission;
(B) the National Laboratories;
(C) States;
(D) State regulatory authorities;
(E) transmission organizations;
(F) representatives of all sectors of the electric power industry;
(G) institutions of higher education;
(H) independent research institutes; and
(I) other entities.

(b) Technical assistance

The Secretary may provide technical assistance to States, Indian Tribes, or units of local government to adopt or implement one or more elements of the pathways developed under subsection (a)(1), including on a pilot basis.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17391. Voluntary state, regional, and local electricity distribution planning

(a) In general

On the request of a State, regional organization, or electric utility, the Secretary of Energy
shall provide assistance to States, regional organizations, and electric utilities to facilitate the development of State, regional, and local electricity distribution plans by—

(1) conducting a resource assessment and analysis of future demand and distribution requirements; and

(2) developing open source tools for State, regional, and local planning and operations.

(b) Risk and security analysis

The assessment under subsection (a)(1) shall include—

(1) the evaluation of the physical security, cybersecurity, and associated communications needs of an advanced distribution management system and the integration of distributed energy resources; and

(2) advanced use of grid architecture to analyze risks in an all-hazards approach that includes communications infrastructure, control systems architecture, and power systems architecture.

(c) Designation

The information collected for the assessment and analysis under subsection (a)(1) shall include—

(1) shall be considered to be critical electric infrastructure information under section 824o-1 of title 16; and

(2) shall only be released in compliance with regulations implementing that section.

(d) Technical assistance

For the purpose of assisting in the development of State and regional electricity distribution plans, the Secretary shall provide technical assistance to—

(1) States;

(2) regional reliability entities; and

(3) other distribution asset owners and operators.

(e) Withdrawal

A State or any entity that has requested technical assistance under this section may withdraw the request for technical assistance at any time, and on such withdrawal, the Secretary shall terminate all assistance efforts.

(f) Effect

Nothing in this section authorizes the Secretary to require any State, regional organization, regional reliability entity, asset owner, or asset operator to adopt any model, tool, plan, analysis, or assessment.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17392. Micro-grid and integrated micro-grid systems program

(a) Definitions

In this section:

(1) Integrated micro-grid system

The term “integrated micro-grid system” means a micro-grid system that—

(A) comprises generation from both conventional and renewable energy resources; and

(B) may use grid-scale energy storage.

(2) Isolated community

The term “isolated community” means a community that is powered by a stand-alone electric generation and distribution system without the economic and reliability benefits of connection to a regional electric grid.

(3) Micro-grid system

The term “micro-grid system” means a localized grid that operates autonomously, regardless of whether the grid can operate in connection with another grid.

(4) Rural electric cooperative

The term “rural electric cooperative” means an electric cooperative (as defined in section 824z–1 of title 16) that sells electric energy to persons in rural areas.

(5) Strategy

The term “strategy” means the strategy developed pursuant to subsection (b)(2)(B).

(b) Program

(1) Establishment

The Secretary of Energy (in this section referred to as the “Secretary”) shall establish a program to promote the development of—

(A) integrated micro-grid systems for isolated communities; and

(B) micro-grid systems to increase the resilience of critical infrastructure.

(2) Requirements

The program established under paragraph (1) shall—

(A) develop a feasibility assessment for—

(i) integrated micro-grid systems in isolated communities; and

(ii) micro-grid systems to enhance the resilience of critical infrastructure;

(B) develop an implementation strategy, in accordance with paragraph (3), to promote the development of integrated micro-grid systems for isolated communities, particularly for those communities exposed to extreme weather conditions and high energy costs, including electricity, space heating and cooling, and transportation;

(C) develop an implementation strategy to promote the development of micro-grid systems that increase the resilience of critical infrastructure; and

(D) carry out cost-shared demonstration projects, based upon the strategies developed under subparagraph (B) that include the development of physical and cybersecurity plans to take appropriate measures to protect and secure the electric grid.

(3) Requirements for strategy

In developing the strategy under paragraph (2)(B), the Secretary shall consider—

(A) opportunities for improving the efficiency of existing integrated micro-grid systems;

(B) the capacity of the local workforce to operate, maintain, and repair a integrated
micro-grid system as well as opportunities to improve that capacity;
(C) leveraging existing capacity within local or regional research organizations, such as organizations based at institutions of higher education, to support development of integrated micro-grid systems, including by testing novel components and systems prior to field deployment;
(D) the need for basic infrastructure to develop, deploy, and sustain a integrated micro-grid system;
(E) input of traditional knowledge from local leaders of isolated communities in the development of a integrated micro-grid system;
(F) the impact of integrated micro-grid systems on defense, homeland security, economic development, and environmental interests;
(G) opportunities to leverage existing interagency coordination efforts and recommendations for new interagency coordination efforts to minimize unnecessary overhead, mobilization, and other project costs; and
(H) any other criteria the Secretary determines appropriate.
(c) Collaboration
The program established under subsection (b)(1) shall be carried out in collaboration with relevant stakeholders, including, as appropriate—
(1) States;
(2) Indian Tribes;
(3) regional entities and regulators;
(4) units of local government;
(5) institutions of higher education; and
(6) private sector entities.
(d) Report
Not later than 180 days after December 27, 2020, and annually thereafter until calendar year 2029, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the efforts to implement the program established under subsection (b)(1) and the status of the strategy developed under subsection (b)(2)(B).
(e) Barriers and benefits to micro-grid systems
(1) Report
Not later than 270 days after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the benefits of, and barriers to, implementing resilient micro-grid systems that are—
(A)(i) owned or operated by an isolated community, rural electric cooperative, or municipal government; or
(ii) operated on behalf of a municipal government or rural electric cooperative; and
(B) designed to maximize the use of—
(i) energy-generation facilities owned or operated by isolated communities; or
(ii) a municipal or rural electric cooperative energy-generation facility.
(2) Grants to overcome barriers
The Secretary shall award grants of not more than $500,000 to not fewer than 20 municipal governments, rural electric cooperatives, or isolated communities, up to a total of $15,000,000, each year to assist those municipal governments, rural electric cooperatives, and isolated communities in overcoming the barriers identified in the report under paragraph (1).
CODIFICATION
Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17521

Subchapter II—Enhanced Drug Treatment and Mentoring Grant Programs

Part A—Drug Treatment

§ 17521. Transferred

Codification

Section 17521 was editorially reclassified as section 60521 of Title 34, Crime Control and Law Enforcement.

Part B—Mentoring

§ 17531. Transferred

Codification

Section 17531 was editorially reclassified as section 60531 of Title 34, Crime Control and Law Enforcement.

§ 17532. Transferred

Codification

Section 17532 was editorially reclassified as section 60532 of Title 34, Crime Control and Law Enforcement.

Part C—Administration of Justice Reforms

Subpart 1—Improving Federal Offender Reentry

§ 17541. Transferred

Codification

Section 17541 was editorially reclassified as section 60541 of Title 34, Crime Control and Law Enforcement.

Subpart 2—Reentry Research

§ 17551. Transferred

Codification

Section 17551 was editorially reclassified as section 60551 of Title 34, Crime Control and Law Enforcement.

§ 17552. Transferred

Codification

Section 17552 was editorially reclassified as section 60552 of Title 34, Crime Control and Law Enforcement.

§ 17553. Transferred

Codification

Section 17553 was editorially reclassified as section 60553 of Title 34, Crime Control and Law Enforcement.

§ 17554. Transferred

Codification

Section 17554 was editorially reclassified as section 60554 of Title 34, Crime Control and Law Enforcement, which was subsequently repealed by Pub. L. 115–391, title V, § 504(d), Dec. 21, 2018, 132 Stat. 5233.

§ 17555. Transferred

Codification

Section 17555 was editorially reclassified as section 60555 of Title 34, Crime Control and Law Enforcement.

Chapter 154—Combating Child Exploitation

Sec. 17601. Transferred

Subchapter I—National Strategy for Child Exploitation Prevention and Interdiction

17611 to 17617. Transferred.

Subchapter II—Additional Measures to Combat Child Exploitation

17631. Transferred.

§ 17601. Transferred

Codification

Section 17601 was editorially reclassified as section 21101 of Title 34, Crime Control and Law Enforcement.

Subchapter I—National Strategy for Child Exploitation Prevention and Interdiction

§ 17611. Transferred

Codification

Section 17611 was editorially reclassified as section 21111 of Title 34, Crime Control and Law Enforcement.

§ 17612. Transferred

Codification

Section 17612 was editorially reclassified as section 21112 of Title 34, Crime Control and Law Enforcement.

§ 17613. Transferred

Codification

Section 17613 was editorially reclassified as section 21113 of Title 34, Crime Control and Law Enforcement.

§ 17614. Transferred

Codification

Section 17614 was editorially reclassified as section 21114 of Title 34, Crime Control and Law Enforcement.

§ 17615. Transferred

Codification

Section 17615 was editorially reclassified as section 21115 of Title 34, Crime Control and Law Enforcement.

§ 17616. Transferred

Codification

Section 17616 was editorially reclassified as section 21116 of Title 34, Crime Control and Law Enforcement.

§ 17617. Transferred

Codification

Section 17617 was editorially reclassified as section 21117 of Title 34, Crime Control and Law Enforcement.

Subchapter II—Additional Measures to Combat Child Exploitation

§ 17631. Transferred

Codification

Section 17631 was editorially reclassified as section 21131 of Title 34, Crime Control and Law Enforcement.
CHAPTER 155—AERONAUTICS AND SPACE ACTIVITIES

§§ 17701, 17702. Transferred

Codification

Section 17701, Pub. L. 110–422, § 2, Oct. 15, 2008, 122 Stat. 4781, which related to congressional findings on the 50th anniversary of the establishment of the National Aeronautics and Space Administration, was transferred and is set out as a note under section 20102 of Title 51, National and Commercial Space Programs. Section 17702, Pub. L. 110–422, § 5, Oct. 15, 2008, 122 Stat. 4782, which related to definitions, was transferred and is set out as a note under section 10101 of Title 51.

SUBCHAPTER I—EARTH SCIENCE

§§ 17711, 17712. Repealed or Omitted

Codification

§§ 17712, 17713. Repealed or Omitted

Codification

Section 17712, Pub. L. 110–422, title II, § 204, Oct. 15, 2008, 122 Stat. 4785, which related to transitioning experimental research into operational services, was repealed in part and omitted in part. Subsecs. (b), (c), and (d) were repealed and reenacted as subsecs. (a), (b), and (c), respectively, of section 60502 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided sense of Congress regarding such transitioning, was omitted from the Code following the enactment of Title 51.

Section 17713, Pub. L. 110–422, title II, § 206, Oct. 15, 2008, 122 Stat. 4785, which related to reauthorization of Glory Mission examining effect of aerosols and solar energy on climate, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 60502 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required baseline report no later than 90 days after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

§§ 17714, 17715. Repealed or Transferred

Codification

SUBCHAPTER II—AERONAUTICS

§§ 17721, 17722. Repealed or Transferred

Codification

§§ 17723, 17724. Repealed or Transferred

Codification

Section, Pub. L. 110–422, title III, § 304, Oct. 15, 2008, 122 Stat. 4787, related to research program to determine perceived impact of sonic booms, was repealed in part and transferred in part. Subsecs. (b) and (c) were repealed and reenacted as section 40704 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a) was transferred and is set out as a note under section 40704 of Title 51.

§§ 17724, 17725. Repealed or Transferred

Codification

SUBCHAPTER III—EXPLORATION INITIATIVE

§§ 17731, 17732. Repealed or Omitted

Codification

§§ 17732, 17733. Repealed or Transferred

Codification

Section 17732, Pub. L. 110–422, title IV, § 404, Oct. 15, 2008, 122 Stat. 4791, which related to establishment of a lunar outpost, was repealed in part and omitted in part. Subsecs. (a) and (b) were repealed and reenacted as section 70505 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (c), providing sense of Congress relating to use of commercial services in support of lunar outpost activities, was omitted from the Code following the enactment of Title 51.

§ 17733. Repealed or Transferred

Codification

SUBCHAPTER IV—SPACE SCIENCE

§§ 17741, 17742. Repealed or Transferred

Codification

§ 17751. Repealed or Omitted

CODIFICATION

Section, Pub. L. 110–422, title VI, § 601, Oct. 15, 2008, 122 Stat. 4793, which related to plan to support operation and utilization of the International Space Station beyond fiscal year 2015, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 70907 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required Administrator to submit a plan to congressional committees not later than nine months after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

§ 17753. Omitted

CODIFICATION

Section, Pub. L. 110–422, title VI, § 603, Oct. 15, 2008, 122 Stat. 4796, which related to contingency plan for cargo resupply of the International Space Station, and required contingency plan to be delivered to congressional committees no later than one year after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

PART B—SPACE SHUTTLE

§ 17761. Transferred

CODIFICATION

Section, Pub. L. 110–422, title VI, § 613, Oct. 15, 2008, 122 Stat. 4796, which related to Space Shuttle transition and disposition of program-related assets, and provided for Space Shuttle Transition Liaison Office, was transferred and is set out as a note under section 70501 of Title 51, National and Commercial Space Programs.

PART C—LAUNCH SERVICES

§ 17771. Transferred

CODIFICATION

Section, Pub. L. 110–422, title VI, § 621, Oct. 15, 2008, 122 Stat. 4801, which related to Launch Services strategy, was transferred and is set out as a note under section 50903 of Title 51, National and Commercial Space Programs.

SUBCHAPTER VI—EDUCATION

§ 17781. Repealed or Omitted

CODIFICATION

Section, Pub. L. 110–422, title VII, § 704, Oct. 15, 2008, 122 Stat. 4802, which related to enhancement of NASA’s educational role, was repealed in part and omitted in part. Subsec. (b) was repealed and reenacted as subsec. (d) of section 40903, and subsec. (c) was repealed and reenacted as section 40911 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided sense of Congress regarding educational and agency use of the International Space Station National Laboratory, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER VII—NEAR-EARTH OBJECTS

§ 17791. Repealed or Omitted

CODIFICATION

Section, Pub. L. 110–422, title VIII, § 801, Oct. 15, 2008, 122 Stat. 4803, which reaffirmed policy on surveying near-Earth asteroids and comets, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 71101 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which provided sense of Congress regarding the policy and its benefits, was omitted from the Code following the enactment of Title 51.

§ 17792. Transferred

CODIFICATION

Section, Pub. L. 110–422, title VIII, § 802, Oct. 15, 2008, 122 Stat. 4803, which related to Congressional findings regarding threat of collision of potentially hazardous near-Earth object with Earth, was transferred and is set out as a note under section 71101 of Title 51, National and Commercial Space Programs.

SUBCHAPTER VIII—COMMERCIAL INITIATIVES

Section, Pub. L. 110–422, title IX, § 902, Oct. 15, 2008, 122 Stat. 4805, related to commercial crew transfer and crew rescue services for the International Space Station. See section 50111(b) of Title 51, National and Commercial Space Programs.

SUBCHAPTER IX—REVITALIZATION OF NASA INSTITUTIONAL CAPABILITIES

§§ 17811, 17812. Repealed or Omitted

CODIFICATION

Section 17811, Pub. L. 110–422, title X, § 1002, Oct. 15, 2008, 122 Stat. 4806, which related to maintenance and upgrade of NASA Center facilities, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted as section 31502 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required determination of maintenance and upgrade backlog at NASA Centers and facilities, and subsec. (c), which required report to Congress to be delivered concurrently with fiscal 2011 budget request, were omitted from the Code following the enactment of Title 51.

Section 17812, Pub. L. 110–422, title X, § 1003, Oct. 15, 2008, 122 Stat. 4807, which related to assessment of NASA laboratory capabilities, was repealed in part and omitted in part. Subsec. (a) was repealed and reenacted
as section 31503 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (b), which required an independent external review of NASA laboratories and report to congressional committees no later than 18 months after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER X—OTHER PROVISIONS

§ 17821. Repealed or Transferred

CODIFICATION
Section, Pub. L. 110–422, title XI, §1102, Oct. 15, 2008, 122 Stat. 4808, which related to initiation of discussions on development of framework for space traffic management, was repealed in part and transferred in part. Subsec. (b) was repealed and reenacted as section 71302 of Title 51. National and Commercial Space Programs, by Pub. L. 111–314, §§ 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided congressional finding of need for space traffic management, was transferred and is set out as a note under section 71302 of Title 51.

§ 17825. Repealed or Omitted

CODIFICATION
Section, Pub. L. 110–422, title XI, §1109, Oct. 15, 2008, 122 Stat. 4811, which related to protection of scientific credibility, integrity, and communication within NASA, was repealed in part and omitted in part. Subsec. (c) was repealed and reenacted as section 69506 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided sense of Congress regarding NASA’s posture toward scientific research, and subsec. (b), which directed Comptroller General to initiate study within 60 days after Oct. 15, 2008, complete it within 270 days, and report to Congress, were omitted from the Code following the enactment of Title 51.

§ 17826. Omitted

CODIFICATION

CHAPTER 156—HEALTH INFORMATION TECHNOLOGY

SUBCHAPTER I—APPLICATION AND USE OF ADOPTED HEALTH INFORMATION TECHNOLOGY STANDARDS; REPORTS

Sec. 17901. Coordination of Federal activities with adopted standards and implementation specifications.

17902. Application to private entities.

17903. Study and reports.

SUBCHAPTER II—TESTING OF HEALTH INFORMATION TECHNOLOGY

17911. National Institute for Standards and Technology testing.

17912. Research and development programs.

SUBCHAPTER III—PRIVACY

17921. Definitions.

PART A—IMPROVED PRIVACY PROVISIONS AND SECURITY PROVISIONS

17931. Application of security provisions and penalties to business associates of covered entities; annual guidance on security provisions.

17932. Notification in the case of breach.

17933. Education on health information privacy.

17934. Application of privacy provisions and penalties to business associates of covered entities.

17935. Restrictions on certain disclosures and sales of health information; accounting of certain protected health information disclosures; access to certain information in electronic format.

17936. Conditions on certain contacts as part of health care operations.

17937. Temporary breach notification requirement for vendors of personal health records and other non-HIPAA covered entities.

17938. Business associate contracts required for certain entities.

17939. Improved enforcement.

17940. Audits.

17941. Recognition of security practices.

PART B—RELATIONSHIP TO OTHER LAWS; REGULATORY REFERENCES; EFFECTIVE DATE; REPORTS

17951. Relationship to other laws.

17952. Regulatory references.

17953. Studies, reports, guidance.

SUBCHAPTER I—APPLICATION AND USE OF ADOPTED HEALTH INFORMATION TECHNOLOGY STANDARDS; REPORTS

§ 17901. Coordination of Federal activities with adopted standards and implementation specifications

(a) Spending on health information technology systems

As each agency (as defined by the Director of the Office of Management and Budget, in consultation with the Secretary of Health and Human Services) implements, acquires, or upgrades health information technology systems used for the direct exchange of individually identifiable health information between agencies and with non-Federal entities, it shall uti-
lize, where available, health information technology systems and products that meet standards and implementation specifications adopted under section 300jj–14 of this title, as added by section 13101.1

(b) Federal information collection activities

With respect to a standard or implementation specification adopted under section 300jj–14 of this title, as added by section 13101, the President shall take measures to ensure that Federal activities involving the broad collection and submission of health information are consistent with such standard or implementation specification, respectively, within three years after the date of such adoption.

(c) Application of definitions

The definitions contained in section 300jj of this title, as added by section 13101, shall apply for purposes of this subchapter.

References in Text

§ 17902. Application to private entities

Each agency (as defined in such Executive Order issued on August 22, 2006, relating to promoting quality and efficient health care in Federal government administered or sponsored health care programs) shall require in contracts or agreements with health care providers, health plans, or health insurance issuers that as each provider, plan, or issuer implements, acquires, or upgrades health information technology systems, it shall utilize, where available, health information technology systems and products that meet standards and implementation specifications adopted under section 300jj–14 of this title, as added by section 13101.1

References in Text

Executive Order issued on August 22, 2006, referred to in text, is Ex. Ord. No. 13410, Aug. 22, 2006, 71 F.R. 51089, which is set out as a note under section 300u of this title.

§ 17903. Study and reports

(a) Report on adoption of nationwide system

Not later than 2 years after February 17, 2009, and annually thereafter, the Secretary of Health and Human Services shall submit to the appropriate committees of jurisdiction of the House of Representatives and the Senate a report that—

(1) describes the specific actions that have been taken by the Federal Government and private entities to facilitate the adoption of a nationwide system for the electronic use and exchange of health information;

(2) describes barriers to the adoption of such a nationwide system; and

(3) contains recommendations to achieve full implementation of such a nationwide system.

(b) Reimbursement incentive study and report

(1) Study

The Secretary of Health and Human Services shall carry out, or contract with a private entity to carry out, a study that examines methods to create efficient reimbursement incentives for improving health care quality in Federally qualified health centers, rural health clinics, and free clinics.

(2) Report

Not later than 2 years after February 17, 2009, the Secretary of Health and Human Services shall submit to the appropriate committees of jurisdiction of the House of Representatives and the Senate a report on the study carried out under paragraph (1).

(c) Aging services technology study and report

(1) In general

The Secretary of Health and Human Services shall carry out, or contract with a private entity to carry out, a study examining methods relating to the potential use of new aging services technology to assist seniors, individuals with disabilities, and their caregivers throughout the aging process.

(2) Matters to be studied

The study under paragraph (1) shall include—

(A) an evaluation of—

(i) methods for identifying current, emerging, and future health technology that can be used to meet the needs of seniors and individuals with disabilities and their caregivers across all aging services settings, as specified by the Secretary;

(ii) methods for fostering scientific innovation with respect to aging services technology within the business and academic communities; and

(B) identification of—

(i) barriers to innovation in aging services technology and devising strategies for removing such barriers; and

(ii) barriers to the adoption of aging services technology by health care providers and consumers and devising strategies to removing such barriers.

(3) Report

Not later than 24 months after February 17, 2009, the Secretary shall submit to the appropriate committees of jurisdiction of the House of Representatives and of the Senate a report on the study carried out under paragraph (1).

(4) Definitions

For purposes of this subsection:

(A) Aging services technology

The term "aging services technology" means health technology that meets the health care needs of seniors, individuals with disabilities, and the caregivers of such seniors and individuals.

1 See References in Text note below.

2 See References in Text note below.
(B) Voluntary testing program

The term "senior" has such meaning as specified by the Secretary.

SUBCHAPTER II—TESTING OF HEALTH INFORMATION TECHNOLOGY

§17911. National Institute for Standards and Technology testing

(a) Pilot testing of standards and implementation specifications

In coordination with the HIT Standards Committee established under section 300jj–13 of this title, as added by section 13101, with respect to the development of standards and implementation specifications under such section, the Director of the National Institute for Standards and Technology shall test such standards and implementation specifications, as appropriate, in order to assure the efficient implementation and use of such standards and implementation specifications.

(b) Voluntary testing program

In coordination with the HIT Standards Committee established under section 300jj–13 of this title, as added by section 13101, with respect to the development of standards and implementation specifications under such section, the Director of the National Institute for Standards and Technology shall support the establishment of conformance testing infrastructure, including the development of technical test beds. The development of this conformance testing infrastructure may include a program to accredit independent, non-Federal laboratories to perform testing.

REFERENCES IN TEXT

§17912. Research and development programs

(a) Health Care Information Enterprise Integration Research Centers

(1) In general

The Director of the National Institute of Standards and Technology, in consultation with the Director of the National Science Foundation and other appropriate Federal agencies, shall establish a program of assistance to institutions of higher education (or consortia thereof which may include nonprofit entities and Federal Government laboratories) to establish multidisciplinary Centers for Health Care Information Enterprise Integration.

(2) Review; competition

Grants shall be awarded under this subsection on a merit-reviewed, competitive basis.

See References in Text note below.

(B) Senior

The term "senior" has such meaning as specified by the Secretary.

(3) Purpose

The purposes of the Centers described in paragraph (1) shall be—

(A) to generate innovative approaches to health care information enterprise integration by conducting cutting-edge, multidisciplinary research on the systems challenges to health care delivery; and

(B) the development and use of health information technologies and other complementary fields.

(4) Research areas

Research areas may include—

(A) interfaces between human information and communications technology systems;

(B) voice-recognition systems;

(C) software that improves interoperability and connectivity among health information systems;

(D) software dependability in systems critical to health care delivery;

(E) measurement of the impact of information technologies on the quality and productivity of health care;

(F) health information enterprise management;

(G) health information technology security and integrity; and

(H) relevant health information technology to reduce medical errors.

(5) Applications

An institution of higher education (or a consortium thereof) seeking funding under this subsection shall submit an application to the Director of the National Institute of Standards and Technology at such time, in such manner, and containing such information as the Director may require. The application shall include, at a minimum, a description of—

(A) the research projects that will be undertaken by the Center established pursuant to assistance under paragraph (1) and the respective contributions of the participating entities;

(B) how the Center will promote active collaboration among scientists and engineers from different disciplines, such as information technology, biologic sciences, management, social sciences, and other appropriate disciplines;

(C) technology transfer activities to demonstrate and diffuse the research results, technologies, and knowledge; and

(D) how the Center will contribute to the education and training of researchers and other professionals in fields relevant to health information enterprise integration.

(b) National information technology research and development program

The Networking and Information Technology Research and Development Program established by section 5511 of title 15 shall include Federal research and development programs related to health information technology.

AMENDMENTS

2017—Subsec. (b). Pub. L. 114–329 substituted "Networking and Information Technology Research and De-
§ 17921

Development Program” for “National High-Performance Computing Program”.

SUBCHAPTER III—PRIVACY

§ 17921. Definitions

In this subchapter, except as specified otherwise:

(1) Breach

(A) In general

The term “breach” means the unauthorized acquisition, access, use, or disclosure of protected health information which compromises the security or privacy of such information, except where an unauthorized person to whom such information is disclosed would not reasonably have been able to retain such information.

(B) Exceptions

The term “breach” does not include—

(i) any unintentional acquisition, access, or use of protected health information by an employee or individual acting under the authority of a covered entity or business associate if—

(I) such acquisition, access, or use was made in good faith and within the course and scope of the employment or other professional relationship of such employee or individual, respectively, with the covered entity or business associate; and

(II) such information is not further acquired, accessed, used, or disclosed by any person; or

(ii) any inadvertent disclosure from an individual who is otherwise authorized to access protected health information at a facility operated by a covered entity or business associate to another similarly situated individual at the same facility; and

(iii) any such information received as a result of such disclosure is not further acquired, accessed, used, or disclosed without authorization by any person.

(2) Business associate

The term “business associate” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(3) Covered entity

The term “covered entity” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(4) Disclose

The terms “disclose” and “disclosure” have the meaning given the term “disclosure” in section 160.103 of title 45, Code of Federal Regulations.

(5) Electronic health record

The term “electronic health record” means an electronic record of health-related information on an individual that is created, gathered, managed, and consulted by authorized health care clinicians and staff.

(6) Health care operations

The term “health care operation” has the meaning given such term in section 164.501 of title 45, Code of Federal Regulations.

(7) Health care provider

The term “health care provider” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(8) Health plan

The term “health plan” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(9) National Coordinator

The term “National Coordinator” means the head of the Office of the National Coordinator for Health Information Technology established under section 300jj–11(a) of this title, as added by section 13101.

(10) Payment

The term “payment” has the meaning given such term in section 164.501 of title 45, Code of Federal Regulations.

(11) Personal health record

The term “personal health record” means an electronic record of PHR identifiable health information (as defined in section 17937(f)(2) of this title) on an individual that can be drawn from multiple sources and that is managed, shared, and controlled by or primarily for the individual.

(12) Protected health information

The term “protected health information” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(13) Secretary

The term “Secretary” means the Secretary of Health and Human Services.

(14) Security

The term “security” has the meaning given such term in section 164.304 of title 45, Code of Federal Regulations.

(15) State

The term “State” means each of the several States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

(16) Treatment

The term “treatment” has the meaning given such term in section 164.501 of title 45, Code of Federal Regulations.

(17) Use

The term “use” has the meaning given such term in section 160.103 of title 45, Code of Federal Regulations.

(18) Vendor of personal health records

The term “vendor of personal health records” means an entity, other than a covered entity (as defined in paragraph (3)), that offers or maintains a personal health record.

1 So in original. Probably should be followed by “the”.

2 See References in Text note below.
§ 17931. Application of security provisions and penalties to business associates of covered entities; annual guidance on security provisions

(a) Application of security provisions

Sections 164.308, 164.310, 164.312, and 164.316 of title 45, Code of Federal Regulations, shall apply to a business associate of a covered entity in the same manner that such sections apply to the covered entity. The additional requirements of this title that relate to security and that are made applicable with respect to covered entities shall also be applicable to such a business associate and shall be incorporated into the business associate agreement between the business associate and the covered entity.

(b) Application of civil and criminal penalties

In the case of a business associate that violates any security provision specified in subsection (a), sections 1320d-5 and 1320d-6 of this title shall apply to the business associate with respect to such violation in the same manner such sections apply to a covered entity that violates such security provision.

(c) Annual guidance

For the first year beginning after February 17, 2009, and annually thereafter, the Secretary of Health and Human Services shall, after consultation with stakeholders, annually issue guidance on the most effective and appropriate technical safeguards for use in carrying out the sections referred to in subsection (a) and the security standards in subpart C of part 164 of title 45, Code of Federal Regulations, including the use of standards developed under section 300j-12(b)(2)(B)(vi) of this title, as added by this title, as added by section 13101 of this Act, referred to in subsec. (c), means section 13101 of div. A of Pub. L. 111–5.

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this subtitle", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

PART A—IMPROVED PRIVACY PROVISIONS AND SECURITY PROVISIONS

§ 17932. Notification in the case of breach

(a) In general

A covered entity that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured protected health information (as defined in subsection (h)(1)) shall, in the case of a breach of such information that is discovered by the covered entity, notify each individual whose unsecured protected health information has been or is reasonably believed by the covered entity to have been, accessed, acquired, or disclosed as a result of such breach.

(b) Notification of covered entity by business associate

A business associate of a covered entity that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured protected health information shall, following the discovery of a breach of such information, notify the covered entity of such breach.

(c) Breaches treated as discovered

For purposes of this section, a breach shall be treated as discovered by a covered entity or by a business associate as of the first day on which such breach is known to such entity or associate, respectively, (including any person, other than the individual committing the breach, that is an employee, officer, or other agent of such entity or associate, respectively) or should reasonably have been known to such entity or associate (or person) to have occurred.

(d) Timeliness of notification

(1) In general

Subject to subsection (g), all notifications required under this section shall be made without unreasonable delay and in no case later than 60 calendar days after the discovery of a breach by the covered entity involved or business associate involved in the case of a notification required under subsection (b).

(2) Burden of proof

The covered entity involved (or business associate involved in the case of a notification required under subsection (b)), shall have the burden of demonstrating that all notifications were made as required under this part, including evidence demonstrating the necessity of any delay.
§ 17932

(e) Methods of notice

(1) Individual notice

Notice required under this section to be provided to an individual, with respect to a breach, shall be provided promptly and in the following form:

(A) Written notification by first-class mail to the individual (or the next of kin of the individual if the individual is deceased) at the last known address of the individual or the next of kin, respectively, or, if specified as a preference by the individual, by electronic mail. The notification may be provided in one or more mailings as information is available.

(B) In the case in which there is insufficient, or out-of-date contact information (including a phone number, email address, or any other form of appropriate communication) that precludes direct written (or, if specified by the individual under subparagraph (A), electronic) notification to the individual, a substitute form of notice shall be provided, including, in the case that there are 10 or more individuals for which there is insufficient or out-of-date contact information, a conspicuous posting for a period determined by the Secretary on the home page of the Web site of the covered entity involved or notice in major print or broadcast media, including major media in geographic areas where the individuals affected by the breach likely reside. Such a notice in media or web posting will include a toll-free phone number where an individual can learn whether or not the individual’s unsecured protected health information is possibly included in the breach.

(C) In any case deemed by the covered entity involved to require urgency because of possible imminent misuse of unsecured protected health information, the covered entity, in addition to notice provided under subparagraph (A), may provide information to individuals by telephone or other means, as appropriate.

(2) Media notice

Notice shall be provided to prominent media outlets serving a State or jurisdiction, following the discovery of a breach described in subsection (a), if the unsecured protected health information of more than 500 residents of such State or jurisdiction is, or is reasonably believed to have been, accessed, acquired, or disclosed during such breach.

(3) Notice to Secretary

Notice shall be provided to the Secretary by covered entities of unsecured protected health information that has been acquired or disclosed in a breach. If the breach was with respect to 500 or more individuals than such notice must be provided immediately. If the breach was with respect to less than 500 individuals, the covered entity may maintain a log of any such breach occurring and annually submit such a log to the Secretary docu-

menting such breaches occurring during the year involved.

(4) Posting on HHS public website

The Secretary shall make available to the public on the Internet website of the Department of Health and Human Services a list that identifies each covered entity involved in a breach described in subsection (a) in which the unsecured protected health information of more than 500 individuals is acquired or disclosed.

(f) Content of notification

Regardless of the method by which notice is provided to individuals under this section, notice of a breach shall include, to the extent possible, the following:

(1) A brief description of what happened, including the date of the breach and the date of the discovery of the breach.

(2) A description of the types of unsecured protected health information that were involved in the breach (such as full name, Social Security number, date of birth, home address, account number, or disability code).

(3) The steps individuals should take to protect themselves from potential harm resulting from the breach.

(4) A brief description of what the covered entity involved is doing to investigate the breach, to mitigate losses, and to protect against any further breaches.

(5) Contact procedures for individuals to ask questions or learn additional information, which shall include a toll-free telephone number, an e-mail address, Web site, or postal address.

(g) Delay of notification authorized for law enforcement purposes

If a law enforcement official determines that a notification, notice, or posting required under this section would impede a criminal investigation or cause damage to national security, such notification, notice, or posting shall be delayed in the same manner as provided under section 164.528(a)(2) of title 45, Code of Federal Regulations, in the case of a disclosure covered under such section.

(h) Unsecured protected health information

(1) Definition

(A) In general

Subject to subparagraph (B), for purposes of this section, the term “unsecured protected health information” means protected health information that is not secured through the use of a technology or methodology specified by the Secretary in the guidance issued under paragraph (2).

(B) Exception in case timely guidance not issued

In the case that the Secretary does not issue guidance under paragraph (2) by the date specified in such paragraph, for purposes of this section, the term “unsecured protected health information” shall mean protected health information that is not secured by a technology standard that renders protected health information unusable,
unreadable, or indecipherable to unauthorized individuals and is developed or endorsed by a standards developing organization that is accredited by the American National Standards Institute.

(2) Guidance

For purposes of paragraph (1) and section 17937(f)(3) of this title, not later than the date that is 60 days after February 17, 2009, the Secretary shall, after consultation with stakeholders, issue (and annually update) guidance specifying the technologies and methodologies that render protected health information unreadable, or indecipherable to unauthorized individuals, including the use of standards developed under section 300jj–12(b)(2)(B)(vi) of this title, as added by section 13101 of this Act.

(i) Report to Congress on breaches

(1) In general

Not later than 12 months after February 17, 2009, and annually thereafter, the Secretary shall prepare and submit to the Committee on Finance and the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report containing the information described in paragraph (2) regarding breaches for which notice was provided to the Secretary under subsection (e)(3).

(2) Information

The information described in this paragraph regarding breaches specified in paragraph (1) shall include—

(A) the number and nature of such breaches; and

(B) actions taken in response to such breaches.

(j) Regulations; effective date

To carry out this section, the Secretary of Health and Human Services shall promulgate interim final regulations by not later than the date that is 60 days after February 17, 2009. The provisions of this section shall apply to breaches that are discovered on or after the date that is 30 days after the date of publication of such interim final regulations.

(17934. Application of privacy provisions and penalties to business associates of covered entities)

(a) Application of contract requirements

In the case of a business associate of a covered entity that obtains or creates protected health information pursuant to a written contract (or other written arrangement) described in section 164.502(e)(2) of title 45, Code of Federal Regulations, with such covered entity, the business associate may use and disclose such protected health information only if such use or disclosure, respectively, is in compliance with each applicable requirement of section 164.504(e) of such title. The additional requirements of this subchapter that relate to privacy and that are made applicable with respect to covered entities shall also be applicable to such a business associate and shall be incorporated into the business associate agreement between the business associate and the covered entity.

(b) Application of knowledge elements associated with contracts

Section 164.504(e)(1)(ii) of title 45, Code of Federal Regulations, shall apply to a business associate described in subsection (a), with respect to compliance with such subsection, in the same manner that such section applies to a covered entity, with respect to compliance with the standards in sections 164.502(e) and 164.504(e) of such title, except that in applying such section 164.504(e)(1)(ii) each reference to the business associate, with respect to a contract, shall be...
§ 17935. Restrictions on certain disclosures and sales of health information; accounting of certain protected health information disclosures; access to certain information in electronic format

(a) Requested restrictions on certain disclosures of health information

In the case of an individual who requests under paragraph (a)(1)(i)(A) of section 164.522 of title 45, Code of Federal Regulations, that a covered entity restrict the disclosure of the protected health information of the individual, notwithstanding paragraph (a)(1)(i) of such section, the covered entity must comply with the requested restriction if—

(1) except as otherwise required by law, the disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for purposes of carrying out treatment); and

(2) the protected health information pertains solely to a health care item or service for which the health care provider involved has been paid out of pocket in full.

(b) Disclosures required to be limited to the limited data set or the minimum necessary

(1) In general

(A) In general

Subject to subparagraph (B), a covered entity shall be treated as being in compliance with section 164.502(b)(1) of title 45, Code of Federal Regulations, with respect to the use, disclosure, or request of protected health information described in such section, only if the covered entity limits such protected health information, to the extent practicable, to the limited data set (as defined in section 164.514(e)(2) of such title) or, if needed by such entity, to the minimum necessary to accomplish the intended purpose of such use, disclosure, or request, respectively.

(B) Guidance

Not later than 18 months after February 17, 2009, the Secretary shall issue guidance on what constitutes “minimum necessary” for purposes of subpart E of part 164 of title 45, Code of Federal Regulations. In issuing such guidance the Secretary shall take into consideration the guidance under section 17953(c) of this title and the information necessary to improve patient outcomes and to detect, prevent, and manage chronic disease.

(C) Sunset

Subparagraph (A) shall not apply on and after the effective date on which the Secretary issues the guidance under subparagraph (B).

(2) Determination of minimum necessary

For purposes of paragraph (1), in the case of the disclosure of protected health information, the covered entity or business associate disclosing such information shall determine what constitutes the minimum necessary to accomplish the intended purpose of such disclosure.

(3) Application of exceptions

(4) Rule of construction

Nothing in this subsection shall be construed as affecting the use, disclosure, or request of protected health information that has been de-identified.

(c) Accounting of certain protected health information disclosures required if covered entity uses electronic health record

(1) In general

In applying section 164.528 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information—

(A) the exception under paragraph (a)(1)(i) of such section shall not apply to disclosures through an electronic health record made by such entity of such information; and

(B) an individual shall have a right to receive an accounting of disclosures described in such paragraph of such information made by such covered entity during only the three years prior to the date on which the accounting is requested.

(2) Regulations

The Secretary shall promulgate regulations on what information shall be collected about

---

1 See in original. Probably should be “Regulations.”
2 See References in Text note below.
each disclosure referred to in paragraph (1), not later than 6 months after the date on which the Secretary adopts standards on accounting for disclosure described in the 3 section 300j–12(b)(2)(B)(iv) of this title, as added by section 13101. 2 Such regulations shall only require such information to be collected through an electronic health record in a manner that takes into account the interests of the individuals in learning the circumstances under which their protected health information is being disclosed and takes into account the administrative burden of accounting for such disclosures.

(3) Process

In response to an 4 request from an individual for an accounting, a covered entity shall elect to provide either an—

(A) accounting, as specified under paragraph (1), for disclosures of protected health information that are made by such covered entity and by a business associate acting on behalf of the covered entity; or

(B) accounting, as specified under paragraph (1), for disclosures that are made by such covered entity and provide a list of all business associates acting on behalf of the covered entity, including contact information for such associates (such as mailing address, phone, and email address).

A business associate included on a list under subparagraph (B) shall provide an accounting of disclosures (as required under paragraph (1) for a covered entity) made by the business associate upon a request made by an individual directly to the business associate for such an accounting.

(4) Effective date

(A) Current users of electronic records

In the case of a covered entity insofar as it acquired an electronic health record as of January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such a record on and after January 1, 2011.

(B) Others

In the case of a covered entity insofar as it acquires an electronic health record after January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such record on and after the later of the following:

(i) January 1, 2011; or

(ii) the date that it acquires an electronic health record.

(C) Later date

The Secretary may set an effective date that is later than 5 the date specified under paragraph (A) or (B) if the Secretary determines that such later date is necessary, but in no case may the date specified under—

(i) subparagraph (A) be later than 2016; or

(ii) subparagraph (B) be later than 2013.

(d) Prohibition on sale of electronic health records or protected health information

(1) In general

Except as provided in paragraph (2), a covered entity or business associate shall not directly or indirectly receive remuneration in exchange for any protected health information of an individual unless the covered entity obtained from the individual, in accordance with section 164.508 of title 45, Code of Federal Regulations, a valid authorization that includes, in accordance with such section, a specification of whether the protected health information can be further exchanged for remuneration by the entity receiving protected health information of that individual.

(2) Exceptions

Paragraph (1) shall not apply in the following cases:

(A) The purpose of the exchange is for public health activities (as described in section 164.512(b) of title 45, Code of Federal Regulations).

(B) The purpose of the exchange is for research (as described in sections 164.501 and 164.512(i) of title 45, Code of Federal Regulations) and the price charged reflects the costs of preparation and transmittal of the data for such purpose.

(C) The purpose of the exchange is for the treatment of the individual, subject to any regulation that the Secretary may promulgate to prevent protected health information from inappropriate access, use, or disclosure.

(D) The purpose of the exchange is the health care operation specifically described in subparagraph (iv) of paragraph (6) of the definition of healthcare operations in section 164.501 of title 45, Code of Federal Regulations.

(E) The purpose of the exchange is for remuneration that is provided by a covered entity to a business associate for activities involving the exchange of protected health information that the business associate undertakes on behalf of and at the specific request of the covered entity pursuant to a business associate agreement.

(F) The purpose of the exchange is to provide an individual with a copy of the individual’s protected health information pursuant to section 164.524 of title 45, Code of Federal Regulations.

(G) The purpose of the exchange is otherwise determined by the Secretary in regulations to be similarly necessary and appropriate as the exceptions provided in subparagraphs (A) through (F).

(3) Regulations

Not later than 18 months after February 17, 2009, the Secretary shall promulgate regulations to carry out this subsection. In promulgating such regulations, the Secretary—

(A) shall evaluate the impact of restricting the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects

---

2 So in original.
3 So in original. Probably should be “a”.
4 So in original. Probably should be “than”.
5 So in original.
the costs of the preparation and transmittal of the data for such purpose, on research or public health activities, including those conducted by or for the use of the Food and Drug Administration; and

(B) may further restrict the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects the costs of the preparation and transmittal of the data for such purpose, if the Secretary finds that such further restriction will not impede such research or public health activities.

(4) Effective date
Paragraph (1) shall apply to exchanges occurring on or after the date that is 6 months after the date of the promulgation of final regulations implementing this subsection.

(e) Access to certain information in electronic format
In applying section 164.524 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information of an individual—

(1) the individual shall have a right to obtain from such covered entity a copy of such information in an electronic format and, if the individual chooses, to direct the covered entity to transmit such copy directly to an entity or person designated by the individual, provided that any such choice is clear, conspicuous, and specific;

(2) if the individual makes a request to a business associate to grant such access to, or transmit such copy directly to, a person or entity designated by the individual, a business associate may provide the individual with such access or copy, which may be in an electronic form, or grant or transmit such access or copy to such person or entity designated by the individual; and

(3) notwithstanding paragraph (c)(4) of such section, any fee that the covered entity may impose for providing such individual with a copy of such information (or a summary or explanation) if such copy (or summary or explanation) is in an electronic form shall not be greater than the entity’s labor costs in responding to the request for the copy (or summary or explanation).

AMENDMENTS
2016—Subsec. (e)(2), (3). Pub. L. 114–255 added par. (2) and redesignated former par. (2) as (3).

EFFECTIVE DATE
Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§17936. Conditions on certain contacts as part of health care operations

(a) Marketing

(1) In general
A communication by a covered entity or business associate that is about a product or service and that encourages recipients of the communication to purchase or use the product or service shall not be considered a health care operation for purposes of subpart E of part 164 of title 45, Code of Federal Regulations, unless the communication is made as described in subparagraph (i), (ii), or (iii) of paragraph (1) of the definition of marketing in section 164.501 of such title.

(2) Payment for certain communications
A communication by a covered entity or business associate that is described in subparagraph (i), (ii), or (iii) of paragraph (1) of the definition of marketing in section 164.501 of title 45, Code of Federal Regulations, shall not be considered a health care operation for purposes of subpart E of part 164 of title 45, Code of Federal Regulations if the covered entity receives or has received direct or indirect payment in exchange for making such communication, except where—

(A)(i) such communication describes only a drug or biologic that is currently being prescribed for the recipient of the communication; and

(ii) any payment received by such covered entity in exchange for making a communication described in clause (i) is reasonable in amount;

(B) each of the following conditions apply—

(i) the communication is made by the covered entity; and

(ii) the covered entity making such communication obtains from the recipient of the communication, in accordance with section 164.508 of title 45, Code of Federal Regulations, a valid authorization (as described in paragraph (b) of such section) with respect to such communication; or

(C) each of the following conditions apply—

(i) the communication is made by a business associate on behalf of the covered entity; and

(ii) the communication is consistent with the written contract (or other written arrangement described in section 164.502(e)(2) of such title) between such business associate and covered entity.

(3) Reasonable in amount defined
For purposes of paragraph (2), the term “reasonable in amount” shall have the meaning
given such term by the Secretary by regulation.

(4) Direct or indirect payment

For purposes of paragraph (2), the term “direct or indirect payment” shall not include any payment for treatment (as defined in section 164.501 of title 45, Code of Federal Regulations) of an individual.

(b) Opportunity to opt out of fundraising

The Secretary shall by rule provide that any written fundraising communication that is a healthcare operation as defined under section 164.501 of title 45, Code of Federal Regulations, shall, in a clear and conspicuous manner, provide an opportunity for the recipient of the communications to elect not to receive any further such communication. When an individual elects not to receive any further such communication, such election shall be treated as a revocation of authorization under section 164.508 of title 45, Code of Federal Regulations.

(c) Effective date

This section shall apply to written communications occurring on or after the effective date specified under section 13423.1

REFERENCES IN TEXT

Section 13423, referred to in subsec. (c), means section 13423 of div. A of Pub. L. 111–5, which is set out as an Effective Date note under section 17931 of this title.

EFFECTIVE DATE

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§ 17937. Temporary breach notification requirement for vendors of personal health records and other non-HIPAA covered entities

(a) In general

In accordance with subsection (c), each vendor of personal health records, following the discovery of a breach of security of unsecured PHR identifiable health information that is in a personal health record maintained or offered by such vendor, and each entity described in clause (ii), (iii), or (iv) of section 17953(b)(1)(A) of this title, following the discovery of a breach of security of such information that is obtained through a product or service provided by such entity, shall—

(1) notify each individual who is a citizen or resident of the United States whose unsecured PHR identifiable health information was acquired by an unauthorized person as a result of such a breach of security; and

(2) notify the Federal Trade Commission.

(b) Notification by third party service providers

A third party service provider that provides services to a vendor of personal health records or to an entity described in clause (ii), (iii), or (iv) of section 17953(b)(1)(A) of this title in connection with the offering or maintenance of a personal health record or a related product or service and that accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses unsecured PHR identifiable health information in such a record as a result of such services shall, following the discovery of a breach of security of such information, notify such vendor or entity, respectively, of such breach. Such notice shall include the identification of each individual whose unsecured PHR identifiable health information has been, or is reasonably believed to have been, accessed, acquired, or disclosed during such breach.

(c) Application of requirements for timeliness, method, and content of notifications

Subsections (c), (d), (e), and (f) of section 17932 of this title shall apply to a notification required under subsection (a) and a vendor of personal health records, an entity described in subsection (a) and a third party service provider described in subsection (b), with respect to a breach of security under subsection (a) of unsecured PHR identifiable health information in such records maintained or offered by such vendor, in a manner specified by the Federal Trade Commission.

(d) Notification of the Secretary

Upon receipt of a notification of a breach of security under subsection (a)(2), the Federal Trade Commission shall notify the Secretary of such breach.

(e) Enforcement

A violation of subsection (a) or (b) shall be treated as an unfair and deceptive act or practice in violation of a regulation under section 57a(a)(1)(B) of title 15 regarding unfair or deceptive acts or practices.

(f) Definitions

For purposes of this section:

(1) Breach of security

The term “breach of security” means, with respect to unsecured PHR identifiable health information of an individual in a personal health record, acquisition of such information without the authorization of the individual.

(2) PHR identifiable health information

The term “PHR identifiable health information” means individually identifiable health information, as defined in section 1320d(6) of this title, and includes, with respect to an individual, information—

(A) that is provided by or on behalf of the individual; and

(B) that identifies the individual or with respect to which there is a reasonable basis to believe that the information can be used to identify the individual.

(3) Unsecured PHR identifiable health information

(A) In general

Subject to subparagraph (B), the term “unsecured PHR identifiable health information” means PHR identifiable health information that is not protected through the use

1 See References in Text note below.

2 So in original. The period probably should be a comma.

of a technology or methodology specified by the Secretary in the guidance issued under section 17932(h)(2) of this title.

(B) Exception in case timely guidance not issued

In the case that the Secretary does not issue guidance under section 17932(h)(2) of this title by the date specified in such section, for purposes of this section, the term "unsecured PHR identifiable health information" shall mean PHR identifiable health information that is not secured by a technology standard that renders protected health information unusable, unreadable, or indecipherable to unauthorized individuals and that is developed or endorsed by a standards developing organization that is accredited by the American National Standards Institute.

(g) Regulations; effective date; sunset

(1) Regulations; effective date

To carry out this section, the Federal Trade Commission shall promulgate interim final regulations by not later than the date that is 180 days after February 17, 2009. The provisions of this section shall apply to breaches of security that are discovered on or after the date that is 30 days after the date of publication of such interim final regulations.

(2) Sunset

If Congress enacts new legislation establishing requirements for notification in the case of a breach of security, that apply to entities that are not covered entities or business associates, the provisions of this section shall not apply to breaches of security discovered on or after the effective date of regulations implementing such legislation.

Effective Date

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§ 17938. Business associate contracts required for certain entities

Each organization, with respect to a covered entity, that provides data transmission of protected health information to such entity (or its business associate) and that requires access on a routine basis to such protected health information, such as a Health Information Exchange Organization, Regional Health Information Organization, E-prescribing Gateway, or each vendor that contracts with a covered entity to allow that covered entity to offer a personal health record to patients as part of its electronic health record, is required to enter into a written contract (or other written arrangement) described in section 164.308(e)(2) of title 45, Code of Federal Regulations and a written contract (or other arrangement) described in section 164.308(b) of such title, with such entity and shall be treated as a business associate of the covered entity for purposes of the provisions of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009.

References in text

This subchapter, referred to in text, was in the original "subsection", meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

Effective Date

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§ 17939. Improved enforcement

(a) In general

(1) Omitted

(2) Enforcement under Social Security Act

Any violation by a covered entity under this subchapter is subject to enforcement and penalties under section 1176 and 1177 of the Social Security Act [42 U.S.C. 1320d–5, 1320d–6].

(b) Effective date; regulations

(1) The amendments made by subsection (a) shall apply to penalties imposed on or after the date that is 24 months after February 17, 2009.

(2) Not later than 18 months after February 17, 2009, the Secretary of Health and Human Services shall promulgate regulations to implement such amendments.

(c) Distribution of certain civil monetary penalties collected

(1) In general

Subject to the regulation promulgated pursuant to paragraph (3), any civil monetary penalty or monetary settlement collected with respect to an offense punishable under this subchapter or section 1176 of the Social Security Act [42 U.S.C. 1320d–5] insofar as such section relates to privacy or security shall be transferred to the Office for Civil Rights of the Department of Health and Human Services to be used for purposes of enforcing the provisions of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009.

(2) GAO report

Not later than 18 months after February 17, 2009, the Comptroller General shall submit to the Secretary a report including recommendations for a methodology under which an individual who is harmed by an act that constitutes an offense referred to in paragraph (1) may receive a percentage of any civil monetary penalty or monetary settlement collected with respect to such offense.

So in original. Probably should be “this”.

So in original. Probably should be “sections”.

180 days after February 17, 2009. The provisions of this subchapter or section 1176 of the Social Security Act [42 U.S.C. 1320d–5] insofar as such section relates to privacy or security shall be transferred to the Office for Civil Rights of the Department of Health and Human Services to be used for purposes of enforcing the provisions of this subchapter and subparts C and E of part 164 of title 45, Code of Federal Regulations, as such provisions are in effect as of February 17, 2009.
(3) Establishment of methodology to distribute percentage of CMPS collected to harmed individuals

Not later than 3 years after February 17, 2009, the Secretary shall establish by regulation and based on the recommendations submitted under paragraph (2), a methodology under which an individual who is harmed by an act that constitutes an offense referred to in paragraph (1) may receive a percentage of any civil monetary penalty or monetary settlement collected with respect to such offense.

(4) Application of methodology

The methodology under paragraph (3) shall be applied with respect to civil monetary penalties or monetary settlements imposed on or after the effective date of the regulation.

(d) Tiered increase in amount of civil monetary penalties

(1) to (3) Omitted

(4) Effective date

The amendments made by this subsection shall apply to violations occurring after February 17, 2009.

(e) Enforcement through State attorneys general

(1), (2) Omitted

(3) Effective date

The amendments made by this subsection shall apply to violations occurring after February 17, 2009.

(Pub. L. 111–5, div. A, title XIII, § 13410, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.)

References in Text

This subchapter, referred to in text, was in the original “this subtitle”, meaning subtitle D (§ 13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

Effective Date

Section effective 12 months after Feb. 17, 2009, except as otherwise specifically provided, see section 13423 of Pub. L. 111–5, set out as a note under section 17931 of this title.

§ 17941. Recognition of security practices

(a) In general

Consistent with the authority of the Secretary under sections 1320d–5 and 1320d–6 of this title, when making determinations relating to fines under such section 1320d–5 (as amended by section 13410 of Pub. L. 111–5) or such section 1320d–6, decreasing the length and extent of an audit under section 17940 of this title, or remedies otherwise agreed to by the Secretary, the Secretary shall consider whether the covered entity or business associate has adequately demonstrated that it had, for not less than the previous 12 months, recognized security practices in place that may—

(1) mitigate fines under section 1320d–5 of this title (as amended by section 13410 of Pub. L. 111–5);

(2) result in the early, favorable termination of an audit under section 17940 of this title; and

(3) mitigate the remedies that would otherwise be agreed to in any agreement with respect to resolving potential violations of the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title) between the covered entity or business associate and the Department of Health and Human Services.

(b) Definition and miscellaneous provisions

(1) Recognized security practices

The term “recognized security practices” means the standards, guidelines, best practices, methodologies, procedures, and processes developed under section 278(c)(15) of title 15, the approaches promulgated under section 1533(d) of title 6, and other programs and processes that address cybersecurity and that are developed, recognized, or promulgated through regulations under other statutory authorities. Such practices shall be determined by the covered entity or business associate, consistent with the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title).

(2) Limitation

Nothing in this section shall be construed as providing the Secretary authority to increase fines under section 1320d–5 of this title (as amended by section 13410 of Pub. L. 111–5), or the length, extent or quantity of audits under section 17940 of this title, due to a lack of compliance with the recognized security practices.

(3) No liability for nonparticipation

Subject to paragraph (4), nothing in this section shall be construed to subject a covered...
entity or business associate to liability for electing not to engage in the recognized security practices defined by this section.

(4) Rule of construction

Nothing in this section shall be construed to limit the Secretary's authority to enforce the HIPAA Security rule (part 160 of title 45 Code of Federal Regulations and subparts A and C of part 164 of such title), or to supersede or conflict with an entity or business associate's obligations under the HIPAA Security rule.

Part B—Relationship to Other Laws; Regulatory References, Effective Date; Reports

§ 17951. Relationship to other laws

(a) Application of HIPAA State preemption

Section 1178 of the Social Security Act (42 U.S.C. 1320d–7) shall apply to a provision or requirement under this subchapter in the same manner that such section applies to a provision or requirement under part C of title XI of such Act (42 U.S.C. 1320d et seq.) or a standard or implementation specification adopted or established under sections 1172 through 1174 of such Act (42 U.S.C. 1320d–1 to 1320d–3).

(b) Health Insurance Portability and Accountability Act of 1996

The standards governing the privacy and security of individually identifiable health information promulgated by the Secretary under sections 262(a) and 264 of the Health Insurance Portability and Accountability Act of 1996 shall remain in effect to the extent that they are consistent with this subchapter. The Secretary shall by rule amend such Federal regulations as required to make such regulations consistent with this subchapter.

(c) Construction

Nothing in this subchapter shall constitute a waiver of any privilege otherwise applicable to an individual with respect to the protected health information of such individual.

References in Text

This subchapter, referred to in text, was in the original “this subtitle”, meaning subtitle D (§13400 et seq.) of title XIII of div. A of Pub. L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

§ 17952. Regulatory references

Each reference in this subchapter to a provision of the Code of Federal Regulations refers to such provision as in effect on February 17, 2009 (or to the most recent update of such provision).

L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

§ 17953. Studies, reports, guidance

(a) Report on compliance

(1) In general

For the first year beginning after February 17, 2009, and annually thereafter, the Secretary shall prepare and submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report concerning complaints of alleged violations of law, including the provisions of this subchapter as well as the provisions of subparts C and E of part 164 of title 45, Code of Federal Regulations, (as such provisions are in effect as of February 17, 2009) relating to privacy and security of health information that are received by the Secretary during the year for which the report is being prepared. Each such report shall include, with respect to such complaints received during the year—

(A) the number of such complaints;

(B) the number of such complaints resolved informally, a summary of the types of such complaints so resolved, and the number of covered entities that received technical assistance from the Secretary during such year in order to achieve compliance with such provisions and the types of such technical assistance provided;

(C) the number of such complaints that have resulted in the imposition of civil monetary penalties or have been resolved through monetary settlements, including the nature of the complaints involved and the amount paid in each penalty or settlement;

(D) the number of such complaints so resolved, and the number of monetary penalties or have been resolved through monetary settlements, including the nature of the complaints involved and the amount paid in each penalty or settlement;

(E) the number of subpoenas or inquiries issued;

(F) the Secretary's plan for improving compliance with and enforcement of such provisions for the following year; and

(G) the number of audits performed and a summary of audit findings pursuant to section 17940 of this title.

(2) Availability to public

Each report under paragraph (1) shall be made available to the public on the Internet website of the Department of Health and Human Services.
(b) Study and report on application of privacy and security requirements to non-HIPAA covered entities

(1) Study

Not later than one year after February 17, 2009, the Secretary, in consultation with the Federal Trade Commission, shall conduct a study, and submit a report under paragraph (2), on privacy and security requirements for entities that are not covered entities or business associates as of February 17, 2009, including—

(A) requirements relating to security, privacy, and notification in the case of a breach of security or privacy (including the applicability of an exemption to notification in the case of individually identifiable health information that has been rendered unusable, unreadable, or indecipherable through technologies or methodologies recognized by appropriate professional organization or standard setting bodies to provide effective security for the information) that should be applied to—

(i) vendors of personal health records;

(ii) entities that offer products or services through the website of a vendor of personal health records;

(iii) entities that are not covered entities and that offer products or services through the websites of covered entities that offer individuals personal health records;

(iv) entities that are not covered entities and that access information in a personal health record or send information to a personal health record; and

(v) third party service providers used by a vendor or entity described in clause (i), (ii), (iii), or (iv) to assist in providing personal health record products or services;

(B) a determination of which Federal government agency is best equipped to enforce such requirements recommended to be applied to such vendors, entities, and service providers under subparagraph (A); and

(C) a timeframe for implementing regulations based on such findings.

(2) Report

The Secretary shall submit to the Committee on Finance, the Committee on Health, Education, Labor, and Pensions, and the Committee on Commerce of the House of Representatives a report on the findings of the study under paragraph (1) and shall include in such report recommendations on the privacy and security requirements described in such paragraph.

(c) Guidance on implementation specification to de-identify protected health information

Not later than 12 months after February 17, 2009, the Secretary shall, in consultation with stakeholders, issue guidance on how best to implement the requirements for the de-identification of protected health information under section 164.514(b) of title 45, Code of Federal Regulations.

(d) GAO report on treatment disclosures

Not later than one year after February 17, 2009, the Comptroller General of the United States shall submit to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Energy and Commerce of the House of Representatives a report on the best practices related to the disclosure among health care providers of protected health information of an individual for purposes of treatment of such individual. Such report shall include an examination of the best practices implemented by States and by other entities, such as health information exchanges and regional health information organizations, an examination of the extent to which such best practices are successful with respect to the quality of the resulting health care provided to the individual and with respect to the ability of the health care provider to manage such best practices, and an examination of the use of electronic informed consent for disclosing protected health information for treatment, payment, and health care operations.

(e) Report required

Not later than 5 years after February 17, 2009, the Government Accountability Office shall submit to Congress and the Secretary of Health and Human Services a report on the impact of any of the provisions of this Act on health insurance premiums, overall health care costs, adoption of electronic health records by providers, and reduction in medical errors and other quality improvements.

(f) Study

The Secretary shall study the definition of “psychotherapy notes” in section 164.501 of title 45, Code of Federal Regulations, with regard to including test data that is related to direct responses, scores, items, forms, protocols, manuals, or other materials that are part of a mental health evaluation, as determined by the mental health professional providing treatment or evaluation in such definitions and may, based on such study, issue regulations to revise such definition.

L. 111–5, Feb. 17, 2009, 123 Stat. 258, which is classified principally to this subchapter. For complete classification of subtitle D to the Code, see Tables.

CHAPTER 157—QUALITY, AFFORDABLE HEALTH CARE FOR ALL AMERICANS

SUBCHAPTER I—IMMEDIATE ACTIONS TO PRESERVE AND EXPAND COVERAGE

Sec. 18001. Immediate access to insurance for uninsured individuals with a preexisting condition.
Subchapter V—Shared Responsibility for Health Care

Part A—Individual Responsibility

§ 18091. Requirement to maintain minimum essential coverage; findings.

§ 18092. Notification of nonenrollment.

Part B—Employer Responsibilities

§ 18101. Repealed.

Subchapter VI—Miscellaneous Provisions

§ 18111. Definitions.

§ 18112. Transparency in Government.

§ 18113. Prohibition against discrimination on assisted suicide.

§ 18114. Access to therapies.

§ 18115. Freedom not to participate in Federal health insurance programs.

§ 18116. Nondiscrimination.

§ 18117. Oversight.

§ 18119. Small business procurement.

§ 18120. Application.

§ 18121. Implementation funding.

§ 18122. Rule of construction regarding health care providers.

Subchapter I—Immediate Actions to Preserve and Expand Coverage

§ 18001. Immediate access to insurance for uninsured individuals with a preexisting condition

(a) In general

Not later than 90 days after March 23, 2010, the Secretary shall establish a temporary high risk health insurance pool program to provide health insurance coverage for eligible individuals during the period beginning on the date on which such program is established and ending on January 1, 2014.

(b) Administration

(1) In general

The Secretary may carry out the program under this section directly or through contracts to eligible entities.

(2) Eligible entities

To be eligible for a contract under paragraph (1), an entity shall—

(A) be a State or nonprofit private entity;

(B) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require; and

(C) agree to utilize contract funding to establish and administer a qualified high risk pool for eligible individuals.

(3) Maintenance of effort

To be eligible to enter into a contract with the Secretary under this subsection, a State shall agree not to reduce the annual amount the State expended for the operation of one or more State high risk pools during the year preceding the year in which such contract is entered into.

(c) Qualified high risk pool

(1) In general

Amounts made available under this section shall be used to establish a qualified high risk pool...
pool that meets the requirements of paragraph (2).

(2) Requirements

A qualified high risk pool meets the requirements of this paragraph if such pool—

(A) provides to all eligible individuals health insurance coverage that does not impose any preexisting condition exclusion with respect to such coverage;

(B) provides health insurance coverage—

(i) in which the issuer's share of the total allowed costs of benefits provided under such coverage is not less than 65 percent of such costs; and

(ii) that has an out of pocket limit not greater than the applicable amount described in section 223(c)(2) of title 26 for the year involved, except that the Secretary may modify such limit if necessary to ensure the pool meets the actuarial value limit under clause (i);

(C) ensures that with respect to the premium rate charged for health insurance coverage offered to eligible individuals through the high risk pool, such rate shall—

(i) except as provided in clause (ii), vary only as provided for under section 300gg of this title (as amended by this Act and notwithstanding the date on which such amendments take effect);

(ii) vary on the basis of age by a factor of not greater than 4 to 1; and

(iii) be established at a standard rate for a standard population; and

(D) meets any other requirements determined appropriate by the Secretary.

(d) Eligible individual

An individual shall be deemed to be an eligible individual for purposes of this section if such individual—

(1) is a citizen or national of the United States or is lawfully present in the United States (as determined in accordance with section 18081 of this title);

(2) has not been covered under creditable coverage (as defined in section 300gg(c)(1) of this title as in effect on March 23, 2010) during the 6-month period prior to the date on which such individual is applying for coverage through the high risk pool; and

(3) has a pre-existing condition, as determined in a manner consistent with guidance issued by the Secretary.

(e) Protection against dumping risk by insurers

(1) In general

The Secretary shall establish criteria for determining whether health insurance issuers and employment-based health plans have discouraged an individual from remaining enrolled in prior coverage based on that individual’s health status.

(2) Sanctions

An issuer or employment-based health plan shall be responsible for reimbursing the program under this section for the medical expenses incurred by the program for an individual who, based on criteria established by the Secretary, the Secretary finds was encouraged by the issuer to disenroll from health benefits coverage prior to enrolling in coverage through the program. The criteria shall include at least the following circumstances:

(A) In the case of prior coverage obtained through an employer, the provision by the employer, group health plan, or the issuer of money or other financial consideration for disenrolling from the coverage;

(B) In the case of prior coverage obtained directly from an issuer or under an employment-based health plan—

(i) the provision by the issuer or plan of money or other financial consideration for disenrolling from the coverage; or

(ii) in the case of an individual whose premium for the prior coverage exceeded the premium required by the program (adjusted based on the age factors applied to the prior coverage)—

(I) the prior coverage is a policy that is no longer being actively marketed (as defined by the Secretary) by the issuer; or

(II) the prior coverage is a policy for which duration of coverage form 1 issue or health status are factors that can be considered in determining premiums at renewal.

(3) Construction

Nothing in this subsection shall be construed as constituting exclusive remedies for violations of criteria established under paragraph (1) or as preventing States from applying or enforcing such paragraph or other provisions under law with respect to health insurance issuers.

(f) Oversight

The Secretary shall establish—

(1) an appeals process to enable individuals to appeal a determination under this section; and

(2) procedures to protect against waste, fraud, and abuse.

(g) Funding; termination of authority

(1) In general

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, $5,000,000,000 to pay claims against (and the administrative costs of) the high risk pool under this section that are in excess of the amount of premiums collected from eligible individuals enrolled in the high risk pool.

Such funds shall be available without fiscal year limitation.

(2) Insufficient funds

If the Secretary estimates for any fiscal year that the aggregate amounts available for the payment of the expenses of the high risk pool will be less than the actual amount of such expenses, the Secretary shall make such adjustments as are necessary to eliminate such deficit.

1 So in original. Probably should be “from”.

(3) Termination of authority

(A) In general

Except as provided in subparagraph (B), coverage of eligible individuals under a high risk pool in a State shall terminate on January 1, 2014.

(B) Transition to Exchange

The Secretary shall develop procedures to provide for the transition of eligible individuals enrolled in health insurance coverage offered through a high risk pool established under this section into qualified health plans offered through an Exchange. Such procedures shall ensure that there is no lapse in coverage with respect to the individual and may extend coverage after the termination of the risk pool involved, if the Secretary determines necessary to avoid such a lapse.

(4) Limitations

The Secretary has the authority to stop taking applications for participation in the program under this section to comply with the funding limitation provided for in paragraph (1).

(5) Relation to State laws

The standards established under this section shall supersede any State law or regulation (other than State licensing laws or State laws relating to plan solvency) with respect to qualified high risk pools which are established in accordance with this section.

References to Text

The date on which such amendments take effect, referred to in subsec. (c)(2)(C)(i), is the date on which the amendments by Pub. L. 111–148 to section 300gg of this title take effect, which is Jan. 1, 2014. See section 1255 of Pub. L. 111–148, set out as an Effective Date note under section 300gg of this title.

Short Title of 2014 Amendment

Short Title

Pub. L. 111–148, §1(a), Mar. 23, 2010, 124 Stat. 119, provided that: ‘‘This Act [see Tables for classification] may be cited as the ‘Patient Protection and Affordable Care Act’.’’

Ex. Ord. No. 13813, Promoting Healthcare Choice and Competition Across the United States

Ex. Ord. No. 13813, Oct. 12, 2017, 82 F.R. 48385, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Policy. (a) It shall be the policy of the executive branch, to the extent consistent with law, to facilitate the purchase of insurance across State lines and the development and operation of a healthcare system that provides high-quality care at affordable prices for the American people. The Patient Protection and Affordable Care Act (PPACA), however, has severely limited the choice of healthcare options available to many Americans and has produced large premium increases in many State individual markets for health insurance. The average exchange premium in the 39 States that are using www.healthcare.gov in 2017 is more than double the annual overage individual market premium recorded in 2013. The PPACA has also largely failed to provide meaningful choice or competi-
tion between insurers, resulting in one-third of America's counties having only one insurer offering coverage on their applicable government-run exchange in 2017. To address these and other concerns, My Administration will prioritize three areas for improvement in the near term: association health plans (AHPs), short-term, limited-duration insurance (STLDI), and health reimbursement arrangements (HRAs).

(i) Large employers often are able to obtain better terms on health insurance for their employees than small employers because of their larger pools of insurable individuals across which they can spread risk and administrative costs. Expanding access to AHPs can help small businesses overcome this competitive disadvantage by allowing them to group together to self-insure or purchase large group health insurance. Expanding access to AHPs will also allow more small businesses to avoid many of the PPACA's costly requirements. Expanding access to AHPs would provide more affordable health insurance options to many Americans, including hourly wage earners, farmers, and the employees of small businesses and entrepreneurs that supported economic growth.

(ii) STLDI is exempt from the onerous and expensive insurance mandates and regulations included in title I of the PPACA. This can make it an appealing and affordable alternative to government-run exchanges for many people without coverage available to them through their workplaces. The previous administration took steps to restrict access to this market by reducing the allowable coverage period from less than 12 months to less than 3 months and by preventing any extensions selected by the policyholder beyond 3 months of total coverage.

(iii) HRAs are tax-advantaged, account-based arrangements that employers can establish for employees to give employees more flexibility and choices regarding their healthcare. Expanding the flexibility and use of HRAs would provide many Americans, including employees who work at small businesses, with more options for financing their healthcare.

(c) My Administration will also continue to focus on promoting competition in healthcare markets and limiting excessive consolidation throughout the healthcare system. To the extent consistent with law, government rules and guidelines affecting the United States healthcare system should:

(i) expand the availability of and access to alternative, less-expensive, mandate-laden PPACA insurance, including AHPs, STLDI, and HRAs;

(ii) re-inject competition into healthcare markets by lowering barriers to entry, limiting excessive consolidation, and preventing abuses of market power; and

(iii) improve access to and the quality of information that Americans need to make informed healthcare decisions, including data about healthcare prices and outcomes, while minimizing reporting burdens on affected plans, providers, or payers.

SIC. 2. Expanded Access to Association Health Plans. Within 60 days of the date of this order, the Secretary of Labor shall consider proposing regulations or revising guidance, consistent with law, to expand access to health coverage by allowing more employers to form AHPs. To the extent permitted by law and supported by sound policy, the Secretary should consider expanding the conditions that satisfy the commonality-of-interest requirements under current Department of Labor advisory opinions interpreting the definition of an "employer" under section 3(3) of the Employee Retirement Income Security Act of 1974. The Secretary of Labor should also consider ways to promote AHP formation on the basis of common geography or industry.

SIC. 3. Expanded Availability of Short-Term, Limited-Duration Insurance. Within 60 days of the date of this order, the Secretaries of the Treasury, Labor, and Health and Human Services shall consider proposing regulations or revising guidance, to the extent permitted by law and supported by sound policy, to increase the usability of HRAs, to expand employers' ability to offer HRAs to their employees, and to allow HRAs to be used in conjunction with nongroup coverage.

SIC. 5. Public Comment. The Secretaries shall consider and evaluate public comments on any regulations proposed under sections 2 through 4 of this order.

SIC. 6. Reports. Within 180 days of the date of this order, and every 2 years thereafter, the Secretary of Health and Human Services, in consultation with the Secretaries of the Treasury and Labor and the Federal Trade Commission, shall provide a report to the President that:

(a) details the extent to which existing State and Federal laws, regulations, guidance, requirements, and policies fall to conform to the policies set forth in section 1 of this order; and

(b) identifies actions that States or the Federal Government could take in furtherance of the policies set forth in section 1 of this order.

SIC. 7. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.
providers; they give patients proper incentives to seek information about the price of healthcare services; and they provide useful price comparisons for "shopable" services (common services offered by multiple providers through the market, which patients can research and compare before making informed choices based on price and quality).

Inpatient and outpatient care. Of the categories requiring inpatient and outpatient care, 78 percent of the 100 highest-spending categories were shoppable. Among the categories of medical cases requiring outpatient care, 90 percent of the 300 highest-spending categories were shoppable. Making meaningful price and quality information more broadly available to more Americans will protect patients and increase competition, innovation, and value in the healthcare system.

SIC. 2. Policy. It is the policy of the Federal Government to ensure that patients are engaged with their healthcare decisions and have the information required for choosing the healthcare they want and need. The Federal Government aims to eliminate unnecessary barriers to price and quality transparency; to increase the availability of meaningful price and quality information for patients; to enhance patients' control over their own healthcare resources, including through tax-preferred medical accounts; and to protect patients from surprise medical bills.

SIC. 3. Informing Patients About Actual Prices. (a) Within 60 days of the date of this order (June 24, 2019), the Secretary of Health and Human Services shall propose a regulation, consistent with applicable law, to require hospitals to publicly post standard charge information, including charges and information based on negotiated rates and for common or shoppable items and services, in an easy-to-understand, consumer-friendly, and machine-readable format using consensus-based data standards that will meaningfully inform patients' decision making and allow patients to compare prices across hospitals. The regulation should require the posting of standard charge information for services, supplies, or fees billed by the hospital or provided by employees of the hospital. The regulation should also require hospitals to regularly update the posted information and establish a monitoring mechanism for the Secretary to ensure compliance with the posting requirement, as needed.

(b) Within 90 days of the date of this order, the Secretaries of Health and Human Services, the Treasury, and Labor shall issue an advance notice of proposed rulemaking, consistent with applicable law, soliciting comments on a proposal to require healthcare providers, health insurance issuers, and self-insured group health plans to provide or facilitate access to information about expected out-of-pocket costs for items or services to patients before they receive care.

(c) Within 180 days of the date of this order, the Secretary of Health and Human Services, in consultation with the Attorney General and the Federal Trade Commission, shall develop a proposal for describing the manner in which the Federal Government or the private sector are impeding healthcare price and quality transparency for patients, and providing recommendations for eliminating these impediments in a manner that promotes competition. The report should describe why, under current conditions, lower-cost providers generally avoid healthcare advertising.

SIC. 4. Establishing a Health Quality Roadmap. Within 180 days of the date of this order, the Secretaries of Health and Human Services, Defense, and Veterans Affairs shall develop a Health Quality Roadmap (Roadmap) that aims to align and improve reporting on data and quality measures across Medicare, Medicaid, and the Children's Health Insurance Program, the Health Insurance Marketplace, the Military Health System, and the Veterans Affairs Health System. The Roadmap shall include a strategy for establishing, adopting, and publishing common quality measurements; aligning inpatient and outpatient measures; and eliminating low-value or counterproductive measures.

SIC. 5. Making Meaningful Price and Quality Information More Transparent and Useful to Patients. Within 180 days of the date of this order, the Secretaries of Health and Human Services, in consultation with the Secretaries of the Treasury, Defense, Labor, and Veterans Affairs, and the Director of the Office of Personnel Management, shall announce a plan to require hospitals to regularly update the posted information and establish a monitoring mechanism for the Secretary to ensure compliance with the posting requirement, as needed. The Secretary of Health and Human Services shall make a list of priority datasets that, if de-identified, could advance the policies set forth by this order, and shall report to the President on proposed plans for future release of these priority datasets and on any barriers to their release.

SIC. 6. Empowering Patients by Enhancing Control Over Their Healthcare Resources. (a) Within 120 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall issue guidance to expand the ability of patients to select high-deductible health plans that can be used alongside a health savings account, and that cover low-cost preventive services before the deductible, for medical care that helps maintain health status for individuals with chronic conditions.

(b) Within 180 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall propose regulations to treat expenses related to certain types of arrangements, potentially including direct primary care arrangements and healthcare sharing ministries, as eligible medical expenses under section 213(d) of title 26, United States Code.

(c) Within 180 days of the date of this order, the Secretary of the Treasury, to the extent consistent with law, shall issue guidance to increase the amount of funds that can carry over without penalty at the end of the year for flexible spending arrangements.

SIC. 7. Addressing Surprise Medical Billing. Within 180 days of the date of this order, the Secretary of Health and Human Services shall submit a report to the President on additional steps the Administration may take to implement the principles on surprise medical billing announced on May 9, 2019.
shall be construed to impair or otherwise affect: (i) the authority granted by law to an executive department or agency, or the head thereof; or (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

The order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Donald J. Trump.

Ex. Ord. No. 13851. AN AMERICA-FIRST HEALTHCARE PLAN.

Ex. Ord. No. 13851, Sept. 24, 2020, 85 F.R. 62179, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

1. Purpose. Since January 20, 2017, my Administration has been committed to the goal of bringing great healthcare to the American people and putting monumental steps to improve the efficiency and quality of healthcare in the United States. (a) My Administration has been committed to restoring choice and control to the American patient.

On December 22, 2017, I signed into law the repeal of the burdensome individual-mandate penalty, liberating millions of low-income Americans from a tax that penalized them for not purchasing health-insurance coverage. In the 18 months of my Administration alone, we have approved a record number of generic drugs. The Council of Economic Advisers has estimated that these approvals saved patients $26 billion in the first 18 months of my Administration alone. As part of the Further Consolidated Appropriations Act, 2020 [Pub. L. 116–94], I signed into law the Creating and Restoring Equal Access to Equivalent Samples Act [see 21 U.S.C. 355–2], which will pave the way for even more generic drugs and is projected to save taxpayers $1.3 billion from 2019 to 2028. CMS has acted to offer Medicare beneficiaries prescription drug plans with the option of insulin capped at $35 in out-of-pocket expenses for a 30-day supply. We are also reducing Government payments to over-charging hospitals participating in the 340B Drug Pricing Program by instead paying rates that more accurately reflect the hospitals’ acquisition costs, which CMS estimated would save Medicare beneficiaries $320 million on copayments for drugs alone.

As a result of Executive Order 13877 of July 24, 2020 (Access to Affordable Life-Saving Medications) [42 U.S.C. 254b note], low-income Americans who receive care from a federally qualified health center will have access to insulin and injectable epinephrine at prices lower than ever before. Under Executive Order 13366 of July 24, 2020 (Increasing Drug Importation to Lower Prices for American Patients) [21 U.S.C. 384 note], my Administration will be the first to complete a rulemaking to authorize the importation of lower-cost prescription drugs from Canada. Pursuant to Executive Order 13939 of July 24, 2020 (Lowering Prices for Patients by Eliminating Kickbacks to Middlemen) [42 U.S.C. 1320a–7b note], my Administration is taking action to eliminate wasteful payments to middlemen by passing drug discounts through to patients at the pharmacy counter without increasing premiums for beneficiaries or cost to Federal taxpayers. And my Administration is taking action to ensure that Medicare patients receive the lowest price that drug companies offer comparable foreign nations through Executive Order 13496 of September 13, 2020 (Lowering Drug Prices by Putting America First) [42 U.S.C. 1390s note].

As part of the Further Consolidated Appropriations Act, 2020, I also signed into law the repeal of the med-
ical device tax, the annual fee on health-insurance providers, and the “Cadillac” tax on certain employer-sponsored health insurance, which threatened to dramatically increase the cost of healthcare for working families.

My Administration is transforming the black-box hospital and insurance pricing systems to be transparent about price and quality. Individuals and employers are unable to see how insurance companies, pharmacy benefit managers, insurance brokers, and providers are or will be paid. One major culprit is the practice of “surprise billing,” in which a patient receives unexpected bills at highly inflated prices from providers who are not part of the patient’s insurance network, even if the patient was treated at a hospital that was part of the patient’s network. Patients can receive these bills despite having no opportunity to select around an out-of-network provider in advance.

On May 9, 2019, I announced four principles to guide congressional efforts to prohibit exorbitant bills resulting from patients’ accidentally or unknowingly receiving services from out-of-network physicians. Unfortunately, the Congress has failed to act, and patients remain vulnerable to surprise billing.

In the absence of congressional action, my Administration has already taken strong and decisive action to make healthcare prices more transparent. On June 24, 2019, I signed Executive Order 13877 (Improving Price and Quality Transparency in American Healthcare to Put Patients First) (set out above), directing certain agencies—for the first time ever—to make sure patients have access to meaningful price and quality information prior to the delivery of care. Beginning January 1, 2021, hospitals will be required to publish their real price for every service, and publicly display in a consumer-friendly, easy-to-understand format the prices of at least 300 different common services that are able to be shopped for in advance.

We have also taken some concrete steps to eliminate surprise out-of-network bills. For example, on April 10, 2020, my Administration required providers to certify, as a condition of receiving supplemental COVID-19 funding, that they would not seek to collect out-of-pocket expenses from a patient for treatment related to COVID-19 in an amount greater than what the patient would have otherwise been required to pay for care by an in-network provider. These initiatives have made important progress, although additional efforts are necessary.

Not all hospitals allow for surprise bills. But many do. Unfortunately, surprise billing has become sufficiently pervasive that the fear of receiving a surprise bill may dissuade patients from seeking appropriate care. And research suggests a correlation between hospital patients who frequently allow surprise billing and increases in hospital admissions and imaging procedures, putting patients at risk of receiving unnecessary services, which can lead to physical harm and threatens the long-term financial sustainability of Medicare.

Efforts to limit surprise billing and increase the number of providers participating in the same insurance network as the hospital in which they work would correspondingly streamline the ability of patients to receive care and reduce time spent on billing disputes.

On May 15, 2020, HHS released the Health Quality Roadmap to empower patients to make fully informed decisions about their healthcare by facilitating the availability of appropriate and meaningful price and quality information. These transformative actions will arm patients with the tools to be active and effective shoppers for healthcare services, to identify high-value providers and services, and ultimately place downward pressure on prices.

My Administration has cracked down on waste, fraud, and abuse that direct valuable taxpayer dollars away from those who need them most. My Administration implemented a “site neutral” payment system between hospital outpatient departments and physicians’ offices, to ensure Medicare beneficiaries are charged the same price for the same service regardless of where it takes place, which will save them approximately $160 million in co-payments for 2020. We also changed the rules to enable Government watchdogs to proactively identify and stop perpetrators of fraud before money goes out the door.

(c) My Administration has been dedicated to providing better care for all Americans. This includes a steadfast commitment to always protecting individuals with pre-existing conditions and ensuring they have access to the high-quality healthcare they deserve. No American should have to risk going without health insurance based on a health history that he or she cannot change.

In an attempt to justify the ACA, the previous Administration claimed that, absent action by the Congress, up to 129 million (later updated to 133 million) non-elderly people with what it described as pre-existing conditions were in danger of being denied health-insurance coverage. According to the previous Administration, however, only 2.7 percent of such individuals actually gained access to health insurance through the ACA, given existing laws and programs already in place to cover them. For example, the Health Insurance Portability and Accountability Act of 1996 (Pub. L. 104-191) has long protected individuals with pre-existing conditions, including individuals covered by group health plans and individuals who had such coverage but lost it.

The ACA produced multiple other failures. The average insurance premium in the individual market more than doubled from 2013 to 2017, and those who have not received generous Federal subsidies have struggled to maintain coverage. For those who have managed to maintain coverage, many have experienced a substantial rise in deductibles, limited choice of insurers, and limited provider networks that exclude their doctors and the facilities best suited to care for them.

Additionally, approximately 30 million Americans remain uninsured, notwithstanding the previous Administration’s promises that the ACA would address this intractable problem. On top of these disappointing results, Federal taxpayers and, unfortunately, future generations of American workers, have been left with an enormous bill. The ACA’s Medicaid expansion and subsidies for the individual market are projected by the Congressional Budget Office to cost more than $1.8 trillion over the next decade.

The ACA is neither the best nor the only way to ensure that Americans who suffer from pre-existing conditions have access to health-insurance coverage. I have agreed with the States challenging the ACA that they have won in the Federal district court and court of appeals, that the ACA, as amended, exceeds the power of the Congress. The ACA was flawed from its inception and should be struck down. However, access to health insurance despite underlying health conditions should be maintained, even if the Supreme Court invalidates the unconstitutional, and largely harmful, ACA.

My Administration has always been committed to ensuring that patients with pre-existing conditions can obtain affordable healthcare, to lowering healthcare costs, to improving quality of care, and to enabling individuals to choose the healthcare that meets their needs. For example, when the COVID-19 pandemic hit, my Administration implemented a program to provide any individual without health-insurance coverage access to necessary COVID-19-related testing and treatment.

My commitment to improving care across our country expands vastly beyond the rules governing health-insurance costs. On July 10, 2019, I signed Executive Order 13879 (Advancing American Kidney Health) (42 U.S.C. 299g–6 note) to improve care for the hundreds of thousands of Americans suffering from end-stage renal disease. Pursuant to that order, my Administration launched a program to encourage home dialysis and promote transplants for patients, and expects to enroll...
approximately 120,000 Medicare beneficiaries with end-stage renal disease in the program. We also have re-moved financial barriers to living organ donation by adding additional financial support for living donors, such as by reimbursing expenses for lost wages, child care, and elder care. HHS, together with the American Society of Nephrology, issued two phases of awards through KidneyX’s Redesigning kidney Care innovation to work toward the creation of an artificial kid-ney.

My Administration has taken unprecedented action to improve the quality of and access to care for individ-uals with HIV, as part of our goal of ending the ep-idemic of HIV in the United States by 2030. HHS has awarded at least $226 million to expand access to HIV care, treatment, medication, and prevention services, focused on 48 counties, Washington, DC, and San Juan, Puerto Rico, where more than 50 percent of new HIV di-agnostes occurred in 2016 and 2017, as well as seven States with a substantial rural HIV rate. We secured a historic donation of a groundbreaking HIV preventive medication that is available at no cost to eligible pa-tients.

My Administration has started a transformation in healthcare in rural America. This includes a new effort, pursuant to my directive in Executive Order 13941, to support small hospitals and health clinics in rural com-munities in transitioning from volume-based Medicare and Medicaid reimbursement, which has failed rural communities that struggle with a lack of patient vol-uume, and toward value-based payment mechanisms that are tailored to meet the needs of their communi-ties. We updated Medicare payment policies to ad-dress a problem in the program’s payment calculation that has historically disadvantaged rural hospitals, and released a Rural Action Plan to incorporate rec-o mmendations from experts and leaders across the Fed-eral Government. We have also dedicated a special focus on improving care offered through the Indian Health Service (IHS) within HHS, including by creating the Office of Quality, implementing an annual in-come for HHS by $243 million from 2019 to 2020, and expanding nationwide IHS’s successful Alaska Community Health Aide Program.

My Administration has additionally demonstrated an incredible dedication to protecting and improving care for those most in need, including senior citizens, those with substance use disorders, and those to whom our Nation owes the greatest debt: our veterans.

I have proteeted the viability of the Medicare pro-gram. For example, on February 9, 2018, I signed into law the repeal of the Independent Payment Advisory Board, which would have been a group of unelected bu-reaucrats created by the ACA, designed to be insulated from the will of America’s elected leaders for the pur-pose of cutting the spending of this important program. On October 3, 2019, I signed Executive Order 13890 (Pro-tekting and Improving Medicare for Our Nation’s Sen-iors) (42 U.S.C. 1385 note prec.), to modernize the Medi-care program and continue its viability. According to CMS estimates, seniors have saved $2.65 billion in lower Medicare premiums under my Administration while benefitting from more choices. For example, the average monthly Medicare Advantage premium has declined an estimated 28 percent since 2017, and Medicare Advan-tage has included about 1,200 more plan options since 2018. New Medicare Advantage supplemental benefits have helped seniors stay safe in their homes, improved respite care for caregivers, and provided transpor-tation, meals, more in-home supportive services, and non-opioid pain management alternatives like therapeutic massages. Medicare Part D premiums are at their lowest level in their history, with the average basic premium declining 13.5 percent since 2016.

My Administration has directed unprecedented atten-tion on the substance use disorder epidemic, with a focus on reducing overdose deaths from prescription opioids and the deadly synthetic opioid fentanyl. On October 24, 2018, I signed the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treat-ment for Patients and Communities Act (Pub. L. 115–271), enabling the expenditure of billions of dollars of funding for important programs to support preven-tion, treatment, and recovery. My Administration has ap-proximately $22.5 billion from 2017 to 2020 to address the opioid crisis and improve access to prevention, treatment, and recovery services. We saw a 34 percent decrease in total opioid prescriptions between 2017 and 2019, an approximate increase of 64 percent in the number of Americans who receive medication-assisted treatment for opioid use disorder since 2016, and a 44 percent increase in naloxone pre-scriptions since 2017. Data show that drug overdose deaths fell nationwide for the first time in decades between 2017 and 2018, with many of the hardest-hit States leading the way.

Improving care for our Nation’s veterans has been a priority since the beginning of my Administration. On June 6, 2018, I signed the [John S. McCain III, Daniel K. Akaka, and Samuel R. Johnson] VA Maintaining Intern-al Systems and Strengthening Integrated Outside Net-works (MISSION) Act of 2018 [Pub. L. 115–182], which authorized billions of dollars to improve options for veterans to receive care outside of Department of Vet-erans Affairs (VA) healthcare providers. Since taking effect, the VA estimates that more than 2.1 million veterans have benefited from more than 6.5 million refer-a- tions to the 725,000 private healthcare providers with which the VA is now working. On June 23, 2017, I signed the Department of Veterans Affairs Accountability and Whistleblower Protection Act of 2017 [Pub. L. 115–42] to hold our civil servants accountable for maintaining the best quality of care possible for our Nation’s veterans by giving the Secretary of Veterans Affairs more power to discipline employees and shorten an appeals process that can last years. On March 5, 2019, I signed Execu-tive Order 13861 (National Roadmap to Empower Vet-erans and End Suicide) [Mar. 5, 2019, 84 F.R. 8585] to en-sure that the Federal Government leads a collective ef-fort to prevent suicide among our veterans.

I have used scientific research to focus on areas most pressing for the health of Americans. On September 19, 2019, I signed Executive Order 13887 (Modernizing Influenza Vaccines in the United States to Promote Na-tional Security and Public Health) [34 U.S.C. 247d–7e note], recognizing the threat that pandemic influenza continues to represent and putting forward a plan to prepare for future influenza pandemics. To modernize influenza vaccines and promote national security and public health, HHS issued a 6-year, $226 million con-tract to retain and increase capacity to produce pan-demine influenza vaccine domestically, and the Na-tional Institute of Allergy and Infectious Diseases, part of the National Institutes of Health within HHS, Initiated the Collaborative Influenza Vaccine Innovation Centers program.

Investments my Administration has made in sci-entific research will help tackle some of our most pressing medical challenges and pay dividends for genera-tions to come. This includes working to increase funding for Alzheimer’s disease research by billions of dollars since 2017 and a plan to invest more than $500 million over the next decade to improve pediatric can-cer research. On December 18, 2018, I signed the Sickle Cell Disease and Other Heritable Blood Disorders Re-search, Surveillance, Prevention, and Treatment Act of 2018 [Pub. L. 115–327, see 42 U.S.C. 300b–5] to provide support for research into sickle cell disease, which dis-proportionately impacts African Americans and His-torian Americans, and to authorize programs relating to sickle cell disease surveillance, prevention, and treat-ment.

In response to the COVID–19 pandemic, my Adminis-tration launched Operation Warp Speed, a groundbreaking effort of the Federal Government to
engage with the private sector to quickly develop and deliver safe and effective vaccines, therapeutics, and diagnostics for COVID-19. On August 6, 2020, I signed Executive Order 13944 (Combating Public Health Emergencies and Strengthening National Security by Ensuring Essential Medicines, Medical Countermeasures, and Critical Inputs Are Made in the United States) [42 U.S.C. 247d–6b note], to protect Americans through reduced dependence on foreign manufacturers for essential medicines and other items and to strengthen the Nation’s Public Health Industrial Base.

Taken together, these extraordinary reforms constitute an ongoing effort to improve American healthcare by putting patients first and delivering continuous innovation. And this effort will continue to succeed because of my Administration’s commitment to delivering great healthcare with more choices, better care, and lower costs for all Americans.

Sec. 2. Policy. It has been and will continue to be the policy of the United States to give Americans seeking healthcare more choice, lower costs, and better care and to ensure that Americans with pre-existing conditions can obtain the insurance of their choice at affordable rates.

Sec. 3. Giving Americans More Choice in Healthcare. The Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health and Human Services shall maintain and build upon existing actions to expand access to and options for affordable healthcare.

Sec. 4. Lowering Healthcare Costs for Americans. (a) The Secretary of Health and Human Services, in coordination with the Commissioner of Food and Drugs, shall maintain and build upon existing actions to expand access to affordable medicines, including accelerating the approvals of new generic and biosimilar drugs and facilitating the safe importation of affordable prescription drugs from abroad.

(b) The Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health and Human Services shall maintain and build upon existing actions to ensure consumers have access to meaningful price and quality information prior to the delivery of care.

(i) Recognizing that both chambers of the Congress have made substantial progress towards a solution to end surprise billing, the Secretary of Health and Human Services shall work with the Congress to reach a legislative solution by December 31, 2020.

(ii) In the event a legislative solution is not reached by December 31, 2020, the Secretary of Health and Human Services shall take administrative action to prevent a patient from receiving a bill for out-of-pocket expenses that the patient could not reasonably foresee.

(iii) Within 180 days of the date of this order (Sept. 24, 2020), the Secretary of Health and Human Services shall update the Medicare.gov Hospital Compare website to inform beneficiaries of hospital billing quality, including:

(A) whether the hospital is in compliance with the Hospital Price Transparency Final Rule, as amended (84 Fed. Reg. 65524), effective January 1, 2021;

(B) whether, upon discharge, the hospital provides patients with a receipt that includes a list of itemized services received during a hospital stay; and

(C) how often the hospital pursues legal action against patients, including to garnish wages, to place a lien on a patient’s home, or to withdraw money from a patient’s income tax refund.

(c) The Secretary of Health and Human Services, in coordination with the Administrator of CMS, shall maintain and build upon existing actions to reduce waste, fraud, and abuse in the healthcare system.

Sec. 5. Providing Better Care to Americans. (a) The Secretary of Health and Human Services and the Secretary of Veterans Affairs shall maintain and build upon existing actions to improve quality in the delivery of care for veterans.

(b) The Secretary of Health and Human Services shall continue to promote medical innovations to find novel and improved treatments for COVID-19, Alzheimer’s disease, sickle cell disease, pediatric cancer, and other conditions threatening the well-being of Americans.

Sec. 6. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Donald J. Trump.

§ 18002. Reinsurance for early retirees

(a) Administration

(1) In general

Not later than 90 days after March 23, 2010, the Secretary shall establish a temporary reinsurance program to provide reimbursement to participating employment-based plans for a portion of the cost of providing health insurance coverage to early retirees (and to the eligible spouses, surviving spouses, and dependents of such retirees) during the period beginning on the date on which such program is established and ending on January 1, 2014.

(2) Reference

In this section:

(A) Health benefits

The term “health benefits” means medical, surgical, hospital, prescription drug, and such other benefits as shall be determined by the Secretary, whether self-funded, or delivered through the purchase of insurance or otherwise.

(B) Employment-based plan

The term “employment-based plan” means a group benefits plan providing health benefits that—

(i) is—

(I) maintained by one or more current or former employers (including without limitation any State or local government or political subdivision thereof or any agency or instrumentality of any of the foregoing), employee organization, a voluntary employees’ beneficiary association, or a committee or board of individuals appointed to administer such plan; or

(ii) a multiemployer plan (as defined in section 1002(37) of title 29); and

(ii) provides health benefits to early retirees.

(C) Early retirees

The term “early retirees” means individuals who are age 55 and older but are not eligible for coverage under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], and who are not active employees of an employer maintaining, or currently contributing to, the employment-based plan or of any employer that has made substantial contributions to fund such plan.
(b) Participation

(1) Employment-based plan eligibility

A participating employment-based plan is an employment-based plan that—
(A) meets the requirements of paragraph (2) with respect to health benefits provided under the plan; and
(B) submits to the Secretary an application for participation in the program, at such time, in such manner, and containing such information as the Secretary shall require.

(2) Employment-based health benefits

An employment-based plan meets the requirements of this paragraph if the plan—
(A) implements programs and procedures to generate cost-savings with respect to participants with chronic and high-cost conditions;
(B) provides documentation of the actual cost of medical claims involved; and
(C) is certified by the Secretary.

(c) Payments

(1) Submission of claims

(A) In general

A participating employment-based plan shall submit claims for reimbursement to the Secretary which shall contain documentation of the actual costs of the items and services for which each claim is being submitted.

(B) Basis for claims

Claims submitted under subparagraph (A) shall be based on the actual amount expended by the participating employment-based plan involved within the plan year for the health benefits provided to an early retiree or the spouse, surviving spouse, or dependent of such retiree. In determining the amount of a claim for purposes of this subsection, the participating employment-based plan shall take into account any negotiated price concessions (such as discounts, direct or indirect subsidies, rebates, and direct or indirect remunerations) obtained by such plan with respect to such health benefit. For purposes of determining the amount of any such claim, the costs paid by the early retiree or the retiree’s spouse, surviving spouse, or dependent in the form of deductibles, co-payments, or co-insurance shall be included in the amounts paid by the participating employment-based plan.

(2) Program payments

If the Secretary determines that a participating employment-based plan has submitted a valid claim under paragraph (1), the Secretary shall reimburse such plan for 80 percent of that portion of the costs attributable to such claim that exceed $15,000, subject to the limits contained in paragraph (3).

(3) Limit

To be eligible for reimbursement under the program, a claim submitted by a participating employment-based plan shall not be less than $15,000 nor greater than $90,000. Such amounts shall be adjusted each fiscal year based on the percentage increase in the Medical Care Component of the Consumer Price Index for all urban consumers (rounded to the nearest multiple of $1,000) for the year involved.

(4) Use of payments

Amounts paid to a participating employment-based plan under this subsection shall be used to lower costs for the plan. Such payments may be used to reduce premium costs for an entity described in subsection (a)(2)(B)(1) or to reduce premium contributions, co-payments, deductibles, co-insurance, or other out-of-pocket costs for plan participants. Such payments shall not be used as general revenues for an entity described in subsection (a)(2)(B)(1). The Secretary shall develop a mechanism to monitor the appropriate use of such payments by such entities.

(5) Payments not treated as income

Payments received under this subsection shall not be included in determining the gross income of an entity described in subsection (a)(2)(B)(1) that is maintaining or currently contributing to a participating employment-based plan.

(6) Appeals

The Secretary shall establish—
(A) an appeals process to permit participating employment-based plans to appeal a determination of the Secretary with respect to claims submitted under this section; and
(B) procedures to protect against fraud, waste, and abuse under the program.

(d) Audits

The Secretary shall conduct annual audits of claims data submitted by participating employment-based plans under this section to ensure that such plans are in compliance with the requirements of this section.

(e) Funding

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, $5,000,000,000 to carry out the program under this section. Such funds shall be available without fiscal year limitation.

(f) Limitation

The Secretary has the authority to stop taking applications for participation in the program based on the availability of funding under subsection (e).

§ 18003. Immediate information that allows consumers to identify affordable coverage options

(a) Internet portal to affordable coverage options

(1) Immediate establishment

Not later than July 1, 2010, the Secretary, in consultation with the States, shall establish a mechanism, including an Internet website, through which a resident of, or small business in, any State may identify affordable health insurance coverage options in that State.

(2) Connecting to affordable coverage

An Internet website established under paragraph (1) shall, to the extent practicable, provide ways for residents of, and small businesses in, any State to receive information on at least the following coverage options:

(A) Health insurance coverage offered by health insurance issuers, other than coverage that provides reimbursement only for the treatment or mitigation of—
   (i) a single disease or condition; or
   (ii) an unreasonably limited set of diseases or conditions (as determined by the Secretary).

(B) Medicaid coverage under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(C) Coverage under title XXI of the Social Security Act [42 U.S.C. 1397aa et seq.].

(D) A State health benefits high risk pool, to the extent that such high risk pool is offered in such State; and

(E) Coverage under a high risk pool under section 18001 of this title.

(F) Coverage within the small group market for small businesses and their employees, including reimbursement for early retirees under section 18002 of this title, tax credits available under section 45R of title 26 (as added by section 1421), and other information specifically for small businesses regarding affordable health care options.

(b) Enhancing comparative purchasing options

(1) In general

Not later than 60 days after March 23, 2010, the Secretary shall develop a standardized format to be used for the presentation of information relating to the coverage options described in subsection (a)(2). Such format shall, at a minimum, require the inclusion of information on the percentage of total premium revenue expended on nonclinical costs (as reported under section 300gg–18(a) of this title), eligibility, availability, premium rates, and cost sharing with respect to such coverage options and be consistent with the standards adopted for the uniform explanation of coverage as provided for in section 300gg–15 of this title.

(2) Use of format

The Secretary shall utilize the format developed under paragraph (1) in compiling information concerning coverage options on the Internet website established under subsection (a).

(c) Authority to contract

The Secretary may carry out this section through contracts entered into with qualified entities.

REFERENCES IN TEXT

The Social Security Act, referred to in subsec. (a)(2)(B), (C), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XIX and XXI of the Act are classified generally to subchapters XIX (§1396 et seq.) and XXI (§1397aa et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

AMENDMENTS

2010—Subsec. (a)(1). Pub. L. 111–148, §10102(b)(1), which directed insertion of “, or small business in,” after “residents of any”, was executed by making the insertion after “resident of” to reflect the probable intent of Congress.

Subsec. (a)(2). Pub. L. 111–148, §10102(b)(2), added par. (2) and struck out former par. (2). Prior to amendment, text read as follows: “(A) Health insurance coverage offered by health insurance issuers, other than coverage that provides reimbursement only for the treatment or mitigation of—

‘‘(i) a single disease or condition; or

‘‘(ii) an unreasonably limited set of diseases or conditions (as determined by the Secretary);’’

(B) Medicaid coverage under title XIX of the Social Security Act.

(C) Coverage under title XXI of the Social Security Act.

(D) A State health benefits high risk pool, to the extent that such high risk pool is offered in such State; and

(E) Coverage under a high risk pool under section 18001 of this title.’’

SUBCHAPTER II—OTHER PROVISIONS

§ 18011. Preservation of right to maintain existing coverage

(a) No changes to existing coverage

(1) In general

Nothing in this Act (or an amendment made by this Act) shall be construed to require that an individual terminate coverage under a group health plan or health insurance coverage in which such individual was enrolled on March 23, 2010.

(2) Continuation of coverage

Except as provided in paragraph (3), with respect to a group health plan or health insurance coverage in which an individual was enrolled on March 23, 2010, this subtitle and subtitle A (and the amendments made by such subtitles) shall not apply to such plan or coverage, regardless of whether the individual renews such coverage after March 23, 2010.

(3) Application of certain provisions

Public Health Service Act (as added by subtitle A) shall apply to grandfathered health plans for plan years beginning on or after March 23, 2010.

(4) Application of certain provisions

(A) In general

The following provisions of the Public Health Service Act [42 U.S.C. 201 et seq.] (as added by this title)\(^1\) shall apply to grandfathered health plans for plan years beginning with the first plan year to which such provisions would otherwise apply:

(B) Provisions applicable only to group health plans

(i) Provisions described

Those provisions of section 2711 [42 U.S.C. 300gg–11] relating to annual limits and the provisions of section 2704 [42 U.S.C. 300gg–3] (relating to pre-existing condition exclusions) of the Public Health Service Act (as added by this subtitle) shall apply to grandfathered health plans that are group health plans for plan years beginning with the first plan year to which such provisions otherwise apply.

(ii) Adult child coverage

For plan years beginning before January 1, 2014, the provisions of section 2714 of the Public Health Service Act [42 U.S.C. 300gg–11] (as added by this subtitle) shall apply in the case of an adult child with respect to a grandfathered health plan that is a group health plan only if such adult child is not eligible to enroll in an eligible employer-sponsored health plan (as defined in section 5000A(f)(2) of title 26) other than such grandfathered health plan.

(5) Application of additional provisions

Sections 300gg–111, 300gg–112, and 300gg–117 of this title shall apply to grandfathered health plans for plan years beginning on or after January 1, 2022.

(b) Allowance for family members to join current coverage

With respect to a group health plan or health insurance coverage in which an individual was enrolled on March 23, 2010, and which is renewed after such date, family members of such individual shall be permitted to enroll in such plan or coverage if such enrollment is permitted under the terms of the plan in effect as of March 23, 2010.

(c) Allowance for new employees to join current plan

A group health plan that provides coverage on March 23, 2010, may provide for the enrolling of new employees (and their families) in such plan, and this subtitle and subtitle A (and the amendments made by such subtitles) shall not apply with respect to such plan and such new employees (and their families).

(d) Effect on collective bargaining agreements

In the case of health insurance coverage maintained pursuant to one or more collective bargaining agreements between employee representatives and one or more employers that was ratified before March 23, 2010, the provisions of this subtitle and subtitle A (and the amendments made by such subtitles) shall not apply until the date on which the last of the collective bargaining agreements relating to the coverage terminates. Any coverage amendment made pursuant to a collective bargaining agreement relating to the coverage which amends the coverage solely to conform to any requirement added by this subtitle or subtitle A (or amendments) shall not be treated as a termination of such collective bargaining agreement.

(e) Definition

In this title,\(^1\) the term “grandfathered health plan” means any group health plan or health insurance coverage to which this section applies.

APPLICABILITY OF AMENDMENT

REFERENCES IN TEXT

This subtitle, referred to in subsecs. (a)(2), (4)(B), (c), and (d), is subtitle C (§§1251–1255) of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 124, which enacted this chapter and sections 300gg to 300gg–2 and 300gg–4 to 300gg–7 of this title, transferred section 300gg of this title to section 300gg–3 of this title, amended sections 300gg–1 and 300gg–4 of this title, and enacted provisions set out as a note under section 300gg of this title.

For complete classification of subtitle C to the Code, see Tables.

For complete classification of subtitle A to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (a)(4)(A), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

This title, referred to in subsecs. (a)(4)(A) and (e), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130,
which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

EFFECTIVE DATE OF 2020 AMENDMENT

Amendment by Pub. L. 116–260 applicable with respect to plan years beginning on or after Jan. 1, 2022, see section 102(e) of div. BB of Pub. L. 116–260, set out as a note under section 8902 of Title 5, Government Organization and Employees.

Effective Date

Section effective Mar. 23, 2010, see section 1255(1) of Pub. L. 111–148, set out as a note under section 300gg of this title.

§ 18012. Rating reforms must apply uniformly to all health insurance issuers and group health plans

Any standard or requirement adopted by a State pursuant to this title,1 or any amendment made by this title, shall be applied uniformly to all health plans in each insurance market to which the standard and requirements apply. The preceding sentence shall also apply to a State standard or requirement relating to the standard or requirement required by this title (or any such amendment) that is not the same as the standard or requirement but that is not preempted under section 18041(d) of this title.

REFERENCES IN TEXT

This title, referred to in text, is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

Effective Date

Section effective for plan years beginning on or after Jan. 1, 2022, and annually thereafter, the Secretary of Labor shall prepare an aggregate annual report, using data collected from the Annual Return/Report of Employee Benefit Plan (Department of Labor Form 5500), that shall include general information on self-insured group health plans (including plan type, number of participants, benefits offered, funding arrangements, and benefit arrangements) as well as data from the financial filings of self-insured employers (including information on assets, liabilities, contributions, investments, and expenses). The Secretary shall submit such reports to the appropriate committees of Congress.

Prior Provisions

A prior section 1253 of Pub. L. 111–148 was renumbered section 1255 and is set out as a note under section 300gg of this title.

Effective Date

Section effective for plan years beginning on or after Jan. 1, 2014, see section 1255 of Pub. L. 111–148, set out as a note under section 300gg of this title.

§ 18014. Treatment of expatriate health plans under ACA

(a) In general

Subject to subsection (b), the provisions of (including any amendment made by) the Patient Protection and Affordable Care Act (Public Law 111–148) and of title I and subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152) shall not apply with respect to—

(1) expatriate health plans;

(2) employers with respect to such plans, solely in their capacity as plan sponsors for such plans; or

(3) expatriate health insurance issuers with respect to coverage offered by such issuers under such plans.

(b) Minimum essential coverage and reporting requirements

(1) In general

For the purpose of section 5000A(f) of title 26, and any other section of title 26 that incorporates the definition of minimum essential coverage under such section 5000A(f) by reference:

(A) An expatriate health plan offered to primary enrollees who are described in subsections (d)(3)(A) and (d)(3)(B) of this section shall be treated as an eligible employer sponsored plan under 5000A(f)(2) of such title.

(B) An expatriate health plan offered to primary enrollees who are described in subsection (d)(3)(C) of this section shall be treated as a plan in the individual market under section 5000A(f)(1)(C) of such title.

This subparagraph shall apply solely for the purposes of sections 36B, 5000A, and 6055 of such title.

(2) Exception

Subsection (a) shall not apply with respect to section 6055 of title 26, or sections 4980H and 6056 of such title in the case of an applicable large employer (as defined in section 4980H of such title), except that statements furnished to individuals may be provided through electronic media and the primary insured shall be deemed to have consented to receive the statements under such sections in electronic form, unless the individual explicitly refuses such consent. Notwithstanding subsection (a), section 4980I of title 26 shall continue to apply with respect to applicable employer-sponsored

1 See References in Text note below.
coverage (as defined in such section) of a qualified expatriate described in subsection (d)(3)(A)(i) who is assigned (rather than transferred) to work in the United States.

(c) Qualified expatriates, spouses, and dependents not United States health risk

(1) In general

For purposes of section 9010 of the Patient Protection and Affordable Care Act (26 U.S.C. 4001 note prec.), for calendar years after 2015, a qualified expatriate (and any spouse, dependent, or any other individual enrolled in the plan) enrolled in an expatriate health plan shall not be considered a United States health risk.

(2) Special rule

Notwithstanding paragraph (1), the fee under section 9010 of such Act for each of calendar years 2014 and 2015 with respect to any expatriate health insurance issuer shall be the amount which bears the same ratio to the fee amount determined by the Secretary of the Treasury with respect to such issuer under such section for each such year (determined without regard to this paragraph) as—

(A) the amount of premiums taken into account under such section with respect to such issuer for each such year, less the amount of premiums for expatriate health plans taken into account under such section with respect to such issuer for each such year, bears to

(B) the amount of premiums taken into account under such section with respect to such issuer for each such year.

(d) Definitions

In this section:

(1) Expatriate health insurance issuer

The term “expatriate health insurance issuer” means a health insurance issuer that issues expatriate health plans.

(2) Expatriate health plan

The term “expatriate health plan” means a group health plan, health insurance coverage offered in connection with a group health plan, or health insurance coverage offered to a group of individuals described in paragraph (3)(C) (which may include spouses, dependents, and other individuals enrolled in the plan) that meets each of the following standards:

(A) Substantially all of the primary enrollees in such plan or coverage are qualified expatriates with respect to such plan or coverage. In applying the previous sentence, an individual shall not be considered a primary enrollee if the individual is not a national of the United States and the individual resides in the country of which the individual is a citizen.

(B) Substantially all of the benefits provided under the plan or coverage are not excepted benefits described in section 9832(c) of title 26.

(C) The plan or coverage provides coverage for inpatient hospital services, outpatient facility services, physician services, and emergency services (comparable to such emergency services coverage described in and offered under section 9832(c) of title 26).

(D) The plan sponsor reasonably believes that the benefits provided by the expatriate health plan satisfy a standard at least actuarially equivalent to the level provided for in section 36B(c)(2)(C)(ii) of title 26.

(E) If the plan or coverage provides dependent coverage of children, the plan or coverage makes such dependent coverage available for adult children until the adult child turns 26 years of age, unless such individual is the child of a child receiving dependent coverage.

(F) The plan or coverage—

(i) is issued by an expatriate health plan issuer, or administered by an administrator, that together with any other person in the expatriate health plan issuer’s or administrator’s controlled group (as described in section 9010 of the Patient Protection and Affordable Care Act (and the regulations promulgated thereunder)), has licenses to sell insurance in more than two countries and accepts calls from customers in eight or more languages;

(ii) maintains call centers, directly or through third party contracts, with health care providers in eight or more countries;

(iii) processes (in the aggregate together with other plans or coverage it issues or administers) at least $1,000,000 in claims in foreign currency equivalents each year;
§ 18014

TITe 42—THE PUBLIC HEALTH AND WELFARE Page 8536

(IV) makes available (directly or through third party contracts) global evacuation/repatriation coverage; and
(V) maintains legal and compliance resources in three or more countries; and
(ii) offers reimbursements for items or services under such plan or coverage in the local currency in eight or more countries.

(G) The plan or coverage, and the plan sponsor or expatriate health insurance issuer with respect to such plan or coverage, satisfies the provisions of title XXVII of the Public Health Service Act (42 U.S.C. 300gg et seq.), chapter 100 of title 26, and part 7 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1181 et seq.), which would otherwise apply to such a plan or coverage, and sponsor or issuer, if not for the enactment of the Patient Protection and Affordable Care Act and title I and subtitle B of title II of the Health Care and Education Reconciliation Act of 2010.

(3) Qualified expatriate

The term “qualified expatriate” means a primary insured, or individual otherwise described in subparagraph (C)—
(A)(i) whose skills, qualifications, job duties, or expertise is of a type that has caused his or her employer to transfer or assign him or her to the United States for a specific and temporary purpose or assignment tied to his or her employment; and
(ii) in connection with such transfer or assignment, is reasonably determined by the plan sponsor to require access to health insurance and other related services and support in multiple countries, and is offered other multinational benefits on a periodic basis (such as tax equalization, compensation for cross border moving expenses, or compensation to enable the expatriate to return to their home country);
(B) who is working outside of the United States for a period of at least 180 days in a consecutive 12-month period that overlaps with the plan year; or
(C) who is a member of a group of similarly situated individuals—
(i) that is formed for the purpose of traveling or relocating internationally in service of one or more of the purposes listed in section 501(c)(3) or 501(c)(4) of title 26, or similarly situated organizations or groups (such as students or religious missionaries);
(ii) that is not formed primarily for the sale of health insurance coverage; and
(iii) that the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury and the Secretary of Labor, determines requires access to health insurance and other related services and support in multiple countries.

(4) United States

The term “United States” means the 50 States, the District of Columbia, and Puerto Rico.

(5) Miscellaneous terms

(A) Group health plan; health insurance coverage; health insurance issuer; plan sponsor

The terms “group health plan”, “health insurance coverage”, “health insurance issuer”, and “plan sponsor” have the meanings given those terms in section 2791 of the Public Health Service Act (22 U.S.C. 300gg–91).

(B) Transfer

The term “transfer” means an employer has transferred an employee to perform services for a branch of the same employer or a parent, affiliate, franchise, or subsidiary thereof.

(e) Regulations

The Secretary of the Treasury, the Secretary of Health and Human Services, and the Secretary of Labor may promulgate regulations necessary to carry out this Act, including such rules as may be necessary to prevent inappropriate expansion of the application of the exclusions under this Act from applicable laws and regulations, and to amend existing annual reporting requirements or procedures to include applicable qualified expatriate health insurers’ total number of expatriate plan enrollees.

(f) Effective date

Unless otherwise specified, this Act shall take effect on December 16, 2014, and shall apply only to expatriate health plans issued or renewed on or after July 1, 2015.

REFERENCES IN TEXT

For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The Public Health Service Act, referred to in subsec. (d)(2)(G), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§ 201 et seq.) of this title. Title XXVII of the Act is classified generally to subchapter XXV (§ 300gg et seq.) of chapter 6A. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

This Act, referred to in subsecs. (e) and (f), is div. M of Pub. L. 113–235, Dec. 16, 2014, 128 Stat. 2767, known as
the Expatriate Health Coverage Clarification Act of 2014. For complete classification of this Act to the Code, see Short Title of 2014 Amendment note set out under section 18001 of this title and Tables.

CODIFICATION

Section was enacted as part of the Expatriate Health Coverage Clarification Act of 2014, and also as part of the Consolidated and Further Continuing Appropriations Act, 2015, and not as part of title I of the Patient Protection and Affordable Care Act which enacted this chapter.

SUBCHAPTER III—AVAILABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—ESTABLISHMENT OF QUALIFIED HEALTH PLANS

§ 18021. Qualified health plan defined

(a) Qualified health plan

In this title: 1

(1) In general

The term “qualified health plan” means a health plan that—

(A) has in effect a certification (which may include a seal or other indication of approval) that such plan meets the criteria for certification described in section 18031(c) of this title issued or recognized by each Exchange through which such plan is offered;

(B) provides the essential health benefits package described in section 18022(a) of this title; and

(C) is offered by a health insurance issuer that—

(i) is licensed and in good standing to offer health insurance coverage in each State in which such issuer offers health insurance coverage under this title;

(ii) agrees to offer at least one qualified health plan in the silver level and at least one plan in the gold level in each such Exchange;

(iii) agrees to charge the same premium rate for each qualified health plan of the issuer without regard to whether the plan is offered through an Exchange or whether the plan is offered directly from the issuer or through an agent; and

(iv) complies with the regulations developed by the Secretary under section 18031(d) of this title and such other requirements as an applicable Exchange may establish.

(2) Inclusion of CO–OP plans and multi-State qualified health plans

Any reference in this title 1 to a qualified health plan shall be deemed to include a qualified health plan offered through the CO–OP program under section 18042 of this title, and a multi-State plan under section 18054 of this title, unless specifically provided for otherwise.

(3) Treatment of qualified direct primary care medical home plans

The Secretary of Health and Human Services shall permit a qualified health plan to provide coverage through a qualified direct primary care medical home plan that meets criteria established by the Secretary, so long as the qualified health plan meets all requirements that are otherwise applicable and the services covered by the medical home plan are coordinated with the entity offering the qualified health plan.

(4) Variation based on rating area

A qualified health plan, including a multi-State qualified health plan, may as appropriate vary premiums by rating area (as defined in section 300gg-(a)(2) of this title).

(b) Terms relating to health plans

In this title: 1

(1) Health plan

(A) In general

The term “health plan” means health insurance coverage and a group health plan.

(B) Exception for self-insured plans and MEWAs

Except to the extent specifically provided by this title, the term “health plan” shall not include a group health plan or multiple employer welfare arrangement to the extent the plan or arrangement is not subject to State insurance regulation under section 1144 of title 29.

(2) Health insurance coverage and issuer

The terms “health insurance coverage” and “health insurance issuer” have the meanings given such terms by section 300gg–91(b) of this title.

(3) Group health plan

The term “group health plan” has the meaning given such term by section 300gg–91(a) of this title.

REFERENCES IN TEXT

This title, where footnoted in text, is title I of Pub. L. 111–148. Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2010—Subsec. (a)(2) to (4). Pub. L. 111–148, § 10104(a), added pars. (2) to (4) and struck out former par. (2). Prior to amendment, text of par. (2) read as follows: “Any reference in this title to a qualified health plan shall be deemed to include a qualified health plan offered through the CO–OP program under section 18042 of this title or a community health insurance option under section 18043 of this title, unless specifically provided for otherwise.”

§ 18022. Essential health benefits requirements

(a) Essential health benefits package

In this title, the term “essential health benefits package” means, with respect to any health plan, coverage that—

(1) provides for the essential health benefits defined by the Secretary under subsection (b);
§ 18022  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8538

(2) limits cost-sharing for such coverage in accordance with subsection (c); and
(3) subject to subsection (e), provides either the bronze, silver, gold, or platinum level of coverage described in subsection (d).

(b) Essential health benefits

(1) In general

Subject to paragraph (2), the Secretary shall define the essential health benefits, except that such benefits shall include at least the following general categories and the items and services covered within the categories:

(A) Ambulatory patient services.
(B) Emergency services.
(C) Hospitalisation.
(D) Maternity and newborn care.
(E) Mental health and substance use disorder services, including behavioral health treatment.
(F) Prescription drugs.
(G) Rehabilitative and habilitative services and devices.
(H) Laboratory services.
(I) Preventive and wellness services and chronic disease management.
(J) Pediatric services, including oral and vision care.

(2) Limitation

(A) In general

The Secretary shall ensure that the scope of the essential health benefits under paragraph (1) is equal to the scope of benefits provided under a typical employer plan, as determined by the Secretary. To inform this determination, the Secretary of Labor shall conduct a survey of employer-sponsored coverage to determine the benefits typically covered by employers, including multiemployer plans, and provide a report on such survey to the Secretary.

(B) Certification

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall submit a report to the appropriate committees of Congress containing a certification from the Chief Actuary of the Centers for Medicare & Medicaid Services that such essential health benefits meet the limitation described in paragraph (2).

(3) Notice and hearing

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall provide notice and an opportunity for public comment.

(4) Required elements for consideration

In defining the essential health benefits under paragraph (1), the Secretary shall—

(A) ensure that such essential health benefits reflect an appropriate balance among the categories described in such subsection, so that benefits are not unduly weighted toward any category;
(B) not make coverage decisions, determine reimbursement rates, establish incen-

tive programs, or design benefits in ways that discriminate against individuals because of their age, disability, or expected length of life;
(C) take into account the health care needs of diverse segments of the population, including women, children, persons with disabilities, and other groups;
(D) ensure that health benefits established as essential not be subject to denial to individuals against their wishes on the basis of the individuals’ age or expected length of life or of the individuals’ present or predicted disability, degree of medical dependency, or quality of life;
(E) provide that a qualified health plan shall not be treated as providing coverage for the essential health benefits described in paragraph (1) unless the plan provides that—
(i) coverage for emergency department services will be provided without imposing any requirement under the plan for prior authorization of services or any limitation on coverage where the provider of services does not have a contractual relationship with the plan for the providing of services that is more restrictive than the requirements or limitations that apply to emergency department services received from providers who do have such a contractual relationship with the plan; and
(ii) if such services are provided out-of-network, the cost-sharing requirement (expressed as a copayment amount or coinsurance rate) is the same requirement that would apply if such services were provided in-network;
(F) provide that if a plan described in section 18031(b)(2)(B)(ii)3 of this title (relating to stand-alone dental benefits plans) is offered through an Exchange, another health plan offered through such Exchange shall not fail to be treated as a qualified health plan solely because the plan does not offer coverage of benefits offered through the stand-alone plan that are otherwise required under paragraph (1)(J); and
(G) periodically review the essential health benefits under paragraph (1), and provide a report to Congress and the public that contains—
(i) an assessment of whether enrollees are facing any difficulty accessing needed services for reasons of coverage or cost;
(ii) an assessment of whether the essential health benefits needs to be modified or updated to account for changes in medical evidence or scientific advancement;
(iii) information on how the essential health benefits will be modified to address any such gaps in access or changes in the evidence base;
(iv) an assessment of the potential of additional or expanded benefits to increase costs and the interactions between the addition or expansion of benefits and reductions in existing benefits to meet actuarial limitations described in paragraph (2); and

3So in original. Probably should be “paragraph.”.
4So in original. The word “and” probably should not appear.
(H) periodically update the essential health benefits under paragraph (1) to address any gaps in access to coverage or changes in the evidence base the Secretary identifies in the review conducted under subparagraph (G).

(5) Rule of construction
Nothing in this title shall be construed to prohibit a health plan from providing benefits in excess of the essential health benefits described in this subsection.

c) Requirements relating to cost-sharing

(1) Annual limitation on cost-sharing

(A) 2014
The cost-sharing incurred under a health plan with respect to self-only coverage or coverage other than self-only coverage for a plan year beginning in 2014 shall not exceed the dollar amounts in effect under section 223(c)(2)(A)(ii) of title 26 for self-only and family coverage, respectively, for taxable years beginning in 2014.

(B) 2015 and later
In the case of any plan year beginning in a calendar year after 2014, the limitation under this paragraph shall—
(i) in the case of self-only coverage, be equal to the dollar amount under subparagraph (A) for self-only coverage for plan years beginning in 2014, increased by an amount equal to the product of that amount and the premium adjustment percentage under paragraph (4) for the calendar year; and
(ii) in the case of other coverage, twice the amount in effect under clause (i).

If the amount of any increase under clause (i) is not a multiple of $50, such increase shall be rounded to the next lowest multiple of $50.

(3) Cost-sharing
In this title—

(A) In general
The term “cost-sharing” includes—
(i) deductibles, coinsurance, copayments, or similar charges; and
(ii) any other expenditure required of an insured individual which is a qualified medical expense (within the meaning of section 223(d)(2) of title 26) for self-only and family coverage, respectively, for taxable years beginning in 2014.

(B) Exceptions
Such term does not include premiums, balance billing amounts for non-network providers, or spending for non-covered services.

(4) Premium adjustment percentage
For purposes of paragraph (1)(B)(i), the premium adjustment percentage for any calendar year is the percentage (if any) by which the average per capita premium for health insurance coverage in the United States for the preceding calendar year (as estimated by the Secretary no later than October 1 of such preceding calendar year) exceeds such average per capita premium for 2013 (as determined by the Secretary).

(d) Levels of coverage

(1) Levels of coverage defined
The levels of coverage described in this subsection are as follows:

(A) Bronze level
A plan in the bronze level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 60 percent of the full actuarial value of the benefits provided under the plan.

(B) Silver level
A plan in the silver level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 70 percent of the full actuarial value of the benefits provided under the plan.

(C) Gold level
A plan in the gold level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 80 percent of the full actuarial value of the benefits provided under the plan.

(D) Platinum level
A plan in the platinum level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 90 percent of the full actuarial value of the benefits provided under the plan.

(2) Actuarial value

(A) In general
Under regulations issued by the Secretary, the level of coverage of a plan shall be determined on the basis that the essential health benefits described in subsection (b) shall be provided to a standard population (and without regard to the population the plan may actually provide benefits to).

(B) Employer contributions
The Secretary shall issue regulations under which employer contributions to a health savings account (within the meaning of section 223(d)(2) of title 26) may be taken into account in determining the level of coverage for a plan of the employer.

(C) Application
In determining under this title the Public Health Service Act [42 U.S.C. 201 et seq.], or title 26 the percentage of the total allowed costs of benefits provided under a group health plan or health insurance coverage that are provided by such plan or coverage, the rules contained in the regulations under this paragraph shall apply.

(3) Allowable variance
The Secretary shall develop guidelines to provide for a de minimis variation in the actuarial valuations used in determining the level of coverage of a plan to account for differences in actuarial estimates.
§ 18023

(4) Plan reference

In this title, any reference to a bronze, silver, gold, or platinum plan shall be treated as a reference to a qualified health plan providing a bronze, silver, gold, or platinum level of coverage, as the case may be.

(e) Catastrophic plan

(1) General

A health plan not providing a bronze, silver, gold, or platinum level of coverage shall be treated as meeting the requirements of subsection (d) with respect to any plan year if—

(A) the only individuals who are eligible to enroll in the plan are individuals described in paragraph (2); and

(B) the plan provides—

(ii) except as provided in clause (i), the essential health benefits determined under subsection (b), except that the plan provides no benefits for any plan year until the individual has incurred cost-sharing expenses in an amount equal to the annual limitation in effect under subsection (c)(1) for the plan year (except as provided for in section 2713); and

(ii) coverage for at least three primary care visits.

(2) Individuals eligible for enrollment

An individual is described in this paragraph for any plan year if the individual—

(A) has not attained the age of 30 before the beginning of the plan year; or

(B) has a certification in effect for any plan year under this title1 that the individual is exempt from the requirement under section 5000A of title 26 by reason of—

(i) section 5000A(e)(1) of such title (relating to individuals without affordable coverage); or

(ii) section 5000A(e)(5) of such title (relating to individuals with hardships).

(3) Restriction to individual market

If a health insurance issuer offers a health plan described in this subsection, the issuer may only offer the plan in the individual market.

(f) Child-only plans

If a qualified health plan is offered through the Exchange in any level of coverage specified under subsection (d), the issuer shall also offer that plan through the Exchange in that level as a plan in which the only enrollees are individuals who, as of the beginning of a plan year, have not attained the age of 21, and such plan shall be treated as a qualified health plan.

(g) Payments to Federally-qualified health centers

If any item or service covered by a qualified health plan is provided by a Federally-qualified health center (as defined in section 1396d(l) of this title) to an enrollee of the plan, the issuer of the plan shall pay to the center for the item or service an amount that is not less than the amount of payment that would have been paid to the center under section 1396a(bb) of this title for such item or service.

References in Text

This title, referred to in subsecs. (a), (b)(5), (d)(2)(C), (4), and (e)(2)(B), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of this title to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (d)(2)(C), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Section 2713, referred to in subsec. (e)(1)(B)(i), probably means section 2713 of act July 1, 1944, which is classified to section 300gg–13 of this title.

Amendments

2014—Subsec. (c)(2). Pub. L. 113–93, § 213(a)(1), struck out par. (2) which related to annual limitation on deductibles for employer-sponsored plans.

Subsec. (c)(4). Pub. L. 113–93, § 319(a)(2), which directed amendment of par. (4)(A) by substituting “paragraph (1)(B)(i)” for “paragraphs (1)(B)(i) and (2)(B)(i)” was executed by making the substitution in par. (4) to reflect the probable intent of Congress.

Effective Date of 2014 Amendment

Amendment by Pub. L. 113–93 effective as if included in the enactment of Pub. L. 111–148, see section 213(c) of Pub. L. 113–93, set out as a note under section 300gg–6 of this title.

§ 18023. Special rules

(a) State opt-out of abortion coverage

(1) In general

A State may elect to prohibit abortion coverage in qualified health plans offered through an Exchange in such State if such State enacts a law to provide for such prohibition.

(2) Termination of opt out

A State may repeal a law described in paragraph (1) and provide for the offering of such services through the Exchange.

(b) Special rules relating to coverage of abortion services

(1) Voluntary choice of coverage of abortion services

(A) In general

Notwithstanding any other provision of this title1 (or any amendment made by this title)—

(i) nothing in this title1 (or any amendment made by this title),1 shall be construed to require a qualified health plan to provide coverage of services described in subparagraph (B)(i) or (B)(ii) as part of its essential health benefits for any plan year; and

(ii) subject to subsection (a), the issuer of a qualified health plan shall determine whether or not the plan provides coverage of services described in subparagraph (B)(i) or (B)(ii) as part of such benefits for the plan year.

1 See References in Text note below.
(B) Abortion services

(i) Abortsions for which public funding is prohibited

The services described in this clause are abortions for which the expenditure of Federal funds appropriated for the Department of Health and Human Services is not permitted, based on the law as in effect as of the date that is 6 months before the beginning of the plan year involved.

(ii) Abortion services for which public funding is allowed

The services described in this clause are abortions for which the expenditure of Federal funds appropriated for the Department of Health and Human Services is permitted, based on the law as in effect as of the date that is 6 months before the beginning of the plan year involved.

(2) Prohibition on the use of Federal funds

(A) In general

If a qualified health plan provides coverage of services described in paragraph (1)(B)(i), the issuer of the plan shall not use any amount attributable to any of the following for purposes of paying for such services:

(i) The credit under section 36B of title 26 (and the amount (if any) of the advance payment of the credit under section 18082 of this title).

(ii) Any cost-sharing reduction under section 18071 of this title (and the amount (if any) of the advance payment of the reduction under section 18082 of this title).

(B) Establishment of allocation accounts

In the case of a plan to which subparagraph (A) applies, the issuer of the plan shall:

(i) collect from each enrollee in the plan (without regard to the enrollee’s age, sex, or family status) a separate payment for each of the following:

(I) an amount equal to the portion of the premium to be paid directly by the enrollee for coverage under the plan of services other than services described in paragraph (1)(B)(i) (after reduction for credits and cost-sharing reductions described in subparagraph (A)); and

(II) an amount equal to the actuarial value of the coverage of services described in paragraph (1)(B)(i), and

(ii) shall deposit all such separate payments into separate allocation accounts as provided in subparagraph (C).

In the case of an enrollee whose premium for coverage under the plan is paid through employee payroll deposit, the separate payments required under this subparagraph shall each be paid by a separate deposit.

(C) Segregation of funds

(i) In general

The issuer of a plan to which subparagraph (A) applies shall establish allocation accounts described in clause (ii) for enrollees receiving amounts described in subparagraph (A).

(ii) Allocation accounts

The issuer of a plan to which subparagraph (A) applies shall deposit—

(I) all payments described in subparagraph (B)(i) into a separate account that consists solely of such payments and that is used exclusively to pay for services other than services described in paragraph (1)(B)(i); and

(II) all payments described in subparagraph (B)(i)(II) into a separate account that consists solely of such payments and that is used exclusively to pay for services described in paragraph (1)(B)(i).

(D) Actuarial value

(i) In general

The issuer of a qualified health plan shall estimate the basic per enrollee, per month cost, determined on an average actuarial basis, for including coverage under the qualified health plan of the services described in paragraph (1)(B)(i).

(ii) Considerations

In making such estimate, the issuer—

(I) may take into account any cost reduction estimated to result from such services, including prenatal care, delivery, or postnatal care;

(II) shall estimate such costs as if such coverage were included for the entire population covered; and

(III) may not estimate such a cost at less than $1 per enrollee, per month.

(E) Ensuring compliance with segregation requirements

(i) In general

Subject to clause (ii), State health insurance commissioners shall ensure that health plans comply with the segregation requirements in this subsection through the segregation of plan funds in accordance with applicable provisions of generally accepted accounting requirements, circulars on funds management of the Office of Management and Budget, and guidance on accounting of the Government Accountability Office.

(ii) Clarification

Nothing in clause (i) shall prohibit the right of an individual or health plan to appeal such action in courts of competent jurisdiction.

(3) Rules relating to notice

(A) Notice

A qualified health plan that provides for coverage of the services described in paragraph (1)(B)(i) shall provide a notice to enrollees, only as part of the summary of benefits and coverage explanation, at the time of enrollment, of such coverage.

(B) Rules relating to payments

The notice described in subparagraph (A), any advertising used by the issuer with re-
§ 18023

TITLe 42—THE PUBLIC HEALTH AND WELFARE

Page 8542

spect to the plan, any information provided by the Exchange, and any other information specified by the Secretary shall provide information only with respect to the total amount of the combined payments for services described in paragraph (1)(B)(i) and other services covered by the plan.

(4) No discrimination on basis of provision of abortion

No qualified health plan offered through an Exchange may discriminate against any individual health care provider or health care facility because of its unwillingness to provide, pay for, provide coverage of, or refer for abortions.

(e) Application of State and Federal laws regarding abortion

(1) No preemption of State laws regarding abortion

Nothing in this Act shall be construed to preempt or otherwise have any effect on State laws regarding the prohibition of (or requirement of) coverage, funding, or procedural requirements on abortions, including parental notification or consent for the performance of an abortion on a minor.

(2) No effect on Federal laws regarding abortion

(A) In general

Nothing in this Act shall be construed to have any effect on Federal laws regarding—

(i) conscience protection;

(ii) willingness or refusal to provide abortion; and

(iii) discrimination on the basis of the willingness or refusal to provide, pay for, cover, or refer for abortion or to provide or participate in training to provide abortion.

(3) No effect on Federal civil rights law

Nothing in this subsection shall alter the rights and obligations of employers and employees under title VII of the Civil Rights Act of 1964.

(d) Application of emergency services laws

Nothing in this Act shall be construed to relieve any health care provider from providing emergency services as required by State or Federal law, including section 1395dd of this title (popularly known as “EMTALA”).

REFERENCES IN TEXT

This title, referred to in subsec. (b)(1)(A), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2010—Pub. L. 111–1148, §10104(c), amended section generally. Prior to amendment, section consisted of subsecs. (a) to (c) relating to special rules relating to coverage of abortion services, application of State and Federal laws regarding abortion, and application of emergency services laws.

EX. ORD. No. 13355. ENSURING ENFORCEMENT AND IMPLEMENTATION OF ABORTION RESTRICTIONS IN THE PATIENT PROTECTION AND AFFORDABLE CARE ACT

Ex. Ord. No. 13355, Mar. 24, 2010, 75 F.R. 15599, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the “Patient Protection and Affordable Care Act” (Public Law 111–148), I hereby order as follows:

SECTION 1. Policy. Following the recent enactment of the Patient Protection and Affordable Care Act (the “Act”), it is necessary to establish an adequate enforcement mechanism to ensure that Federal funds are not used for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), consistent with a longstanding Federal statutory restriction that is commonly known as the Hyde Amendment. The purpose of this order is to establish a comprehensive, Government-wide set of policies and procedures to achieve this goal and to make certain that all relevant actors—Federal officials, State officials (including insurance regulators) and health care providers—are aware of their responsibilities, new and old.

The Act maintains current Hyde Amendment restrictions governing abortion policy and extends those restrictions to the newly created health insurance exchanges. Under the Act, longstanding Federal laws to protect conscience (such as the Church Amendment, 42 U.S.C. 300a–7, and the Weldon Amendment, section 508(d)(1) of Public Law 111–8) remain intact and new protections prohibit discrimination against health care providers because of an unwillingness to provide, pay for, provide coverage of, or refer for abortions.

Numerous executive agencies have a role in ensuring that these restrictions are enforced, including the Department of Health and Human Services (HHS), the Office of Management and Budget (OMB), and the Office of Personnel Management.

Sic. 2. Strict Compliance with Prohibitions on Abortion Funding in Health Insurance Exchanges. The Act specifically prohibits the use of tax credits and cost-sharing reduction payments to pay for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered) in the health insurance exchanges that will be operational in 2014. The Act also imposes strict payment and accounting requirements to ensure that Federal funds are not used for abortion services in exchange plans (except in cases of rape or incest, or when the life of the woman would be endangered) and requires State health insurance commissioners to ensure that exchange plan funds are segregated by insurance companies in accordance with generally accepted accounting principles, OMB funds management circulars, and accounting guidance provided by the Government Accountability Office.

I hereby direct the Director of the OMB and the Secretary of HHS to develop, within 180 days of the date of this order, a model set of segregation guidelines for State health insurance commissioners to use when determining whether exchange plans are complying with the Act’s segregation requirements, established in sec-

# So in original. Probably should be followed by a period.

# So in original. There is no subpar. (B).
ation 1303 of the Act, for enrollees receiving Federal financial assistance. The guidelines shall also offer technical information that States should follow to conduct independent regular audits of insurance companies that participate in the health insurance exchanges. In developing these model guidelines, the Director of the OMB and the Secretary of HHS shall consult with executive agencies and offices that have relevant expertise in accounting principles, including, but not limited to, the Department of the Treasury, and with the Government Accountability Office. Upon completion of those model guidelines, the Secretary of HHS should promptly initiate a rulemaking to issue regulations, which will have the force of law, to interpret the Act’s segregation requirements, and shall provide guidance to State health insurance commissioners on how to comply with the model guidelines.

SIC. 3. Community Health Center Program. The Act establishes a new Community Health Center (CHC) Fund within HHS, which provides additional Federal funds for the community health center program. Existing law prohibits these centers from using Federal funds to provide abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), as a result of both the Hyde Amendment and longstanding regulations containing the Hyde language. Under the Act, the Hyde language shall apply to the authorization and appropriations of funds for Community Health Centers under section 1053 and all other relevant provisions. I hereby direct the Secretary of HHS to ensure that program administrators and recipients of Federal funds are aware of and comply with the limitations on abortion services imposed on CHCs by existing law. Such actions should include, but are not limited to, updating Grant Policy Statements that accompany CHC grants and issuing new interpretive rules.

SIC. 4. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect: (i) authority granted by law or Presidential directive to an agency, or the head thereof; or (ii) functions of the Director of the OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees or agents, or any other person.

BARACK OBAMA.

§ 18024. Related definitions

(a) Definitions relating to markets

In this title: 1

(1) Group market

The term “group market” means the health insurance market under which individuals obtain health insurance coverage (directly or through any arrangement) on behalf of themselves (and their dependents) through a group health plan maintained by a large employer (as defined in subsection (b)(1)) or by a small employer (as defined in subsection (b)(2)), respectively.

(b) Employers

In this title: 1

(1) Large employer

The term “large employer” means, in connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least 51 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(2) Small employer

The term “small employer” means, in connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least 1 but not more than 50 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(3) State option to extend definition of small employer

Notwithstanding paragraphs (1) and (2), nothing in this section shall prevent a State from applying this subsection by treating as a small employer, with respect to a calendar year and a plan year, an employer who employed an average of at least 1 but not more than 100 employees on business days during the preceding calendar year and who employs at least 1 employee on the first day of the plan year.

(4) Rules for determining employer size

For purposes of this subsection—

(A) Application of aggregation rule for employers

All persons treated as a single employer under subsection (b), (c), (m), or (o) of section 414 of title 26 shall be treated as 1 employer.

(B) Employers not in existence in preceding year

In the case of an employer which was not in existence throughout the preceding calendar year, the determination of whether such employer is a small or large employer shall be based on the average number of employees that it is reasonably expected such employer will employ on business days in the current calendar year.

(C) Predecessors

Any reference in this subsection to an employer shall include a reference to any predecessor of such employer.

(D) Continuation of participation for growing small employers

If—

(i) a qualified employer that is a small employer makes enrollment in qualified health plans offered in the small group market available to its employees through an Exchange; and

---

1 See References in Text note below.
§ 18031  TITLE 42—THE PUBLIC HEALTH AND WELFARE

(ii) the employer ceases to be a small employer by reason of an increase in the number of employees of such employer; the employer shall continue to be treated as a small employer for purposes of this subchapter for the period beginning with the increase and ending with the first day on which the employer does not make such enrollment available to its employees.

(c) Secretary
In this title, the term "Secretary" means the Secretary of Health and Human Services.

(d) State
In this title, the term "State" means each of the 50 States and the District of Columbia.

(e) Educated health care consumers
The term "educated health care consumer" means an individual who is knowledgeable about the health care system, and has background or experience in making informed decisions regarding health, medical, and scientific matters.

REFERENCES IN TEXT
This title, referred to in subsecs. (a) to (d), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS
Subsec. (b)(2). Pub. L. 114–60, §2(a)(2), substituted "50" for "100".
Subsec. (b)(3). Pub. L. 114–60, §2(a)(3), amended par. (3) generally. Prior to amendment, text read as follows: "In the case of plan years beginning before January 1, 2016, a State may elect to apply this subsection by substituting '51 employees' for '101 employees' in paragraph (1) and by substituting '50 employees' for '100 employees' in paragraph (2)."

PART B—CONSUMER CHOICES AND INSURANCE COMPETITION THROUGH HEALTH BENEFIT EXCHANGES

§ 18031. Affordable choices of health benefit plans
(a) Assistance to States to establish American Health Benefit Exchanges
(1) Planning and establishment grants
There shall be appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, an amount necessary to enable the Secretary to make awards, not later than 1 year after March 23, 2010, to States in the amount specified in paragraph (2) for the uses described in paragraph (3).

(2) Amount specified
For each fiscal year, the Secretary shall determine the total amount that the Secretary will make available to each State for grants under this subsection.

(3) Use of funds
A State shall use amounts awarded under this subsection for activities (including planning activities) related to establishing an American Health Benefit Exchange, as described in subsection (b).

(b) American Health Benefit Exchanges
(1) In general
Each State shall, not later than January 1, 2014, establish an American Health Benefit Exchange (referred to in this title as an "Exchange") for the State that—
(A) facilitates the purchase of qualified health plans;
(B) provides for the establishment of a Small Business Health Options Program (in this title referred to as a "SHOP Exchange") that is designed to assist qualified employers in the State who are small employers in facilitating the enrollment of their employees in qualified health plans offered in the small group market in the State; and
(C) meets the requirements of subsection (d).

(2) Merger of individual and SHOP Exchanges
A State may elect to provide only one Exchange in the State for providing both Exchange and SHOP Exchange services to both qualified individuals and qualified small employers, but only if the Exchange has adequate resources to assist such individuals and employers.

(c) Responsibilities of the Secretary
(1) In general
The Secretary shall, by regulation, establish criteria for the certification of health plans as qualified health plans. Such criteria shall require that, to be certified, a plan shall, at a minimum—

1 See References in Text note below.
(A) meet marketing requirements, and not employ marketing practices or benefit designs that have the effect of discouraging the enrollment in such plan by individuals with significant health needs;

(B) ensure a sufficient choice of providers (in a manner consistent with applicable network adequacy provisions under section 2702(c) of the Public Health Service Act [42 U.S.C. 300gg–1(c)]), and provide information to enrollees and prospective enrollees on the availability of in-network and out-of-network providers;

(C) include within health insurance plan networks those essential community providers, where available, that serve predominately low-income, medically-underserved individuals, such as health care providers defined in section 340B(a)(4) of the Public Health Service Act [42 U.S.C. 256b(a)(4)] and providers described in section 1927(c)(1)(D)(i)(IV) of the Social Security Act [42 U.S.C. 1396r–8(c)(1)(D)(i)(IV)] as set forth by section 221 of Public Law 111–8, except that nothing in this subparagraph shall be construed to require any health plan to provide coverage for any specific medical procedure;

(D)(i) be accredited with respect to local performance on clinical quality measures such as the Healthcare Effectiveness Data and Information Set, patient experience ratings on a standardized Consumer Assessment of Healthcare Providers and Systems survey, as well as consumer access, utilization management, quality assurance, provider credentialing, complaints and appeals, network adequacy and access, and patient information programs by any entity recognized by the Secretary for the accreditation of health insurance issuers or plans (so long as any such entity has transparent and rigorous methodological and scoring criteria); or

(ii) receive such accreditation within a period established by an Exchange for such accreditation that is applicable to all qualified health plans;

(E) implement a quality improvement strategy described in subsection (g)(1);

(F) utilize a uniform enrollment form that qualified individuals and qualified employers may use (either electronically or on paper) in enrolling in qualified health plans offered through such Exchange, and that takes into account criteria that the National Association of Insurance Commissioners develops and submits to the Secretary;

(G) utilize the standard format established for presenting health benefits plan options;

(H) provide information to enrollees and prospective enrollees, and to each Exchange in which the plan is offered, on any quality measures for health plan performance endorsed under section 399J of the Public Health Service Act (42 U.S.C. 280j–2), as applicable; and

(I) report to the Secretary at least annually and in such manner as the Secretary shall require, pediatric quality reporting measures consistent with the pediatric quality reporting measures established under section 1139A of the Social Security Act [42 U.S.C. 13320b–9a].

(2) Rule of construction

Nothing in paragraph (1)(C) shall be construed to require a qualified health plan to contract with a provider described in such paragraph if such provider refuses to accept the generally applicable payment rates of such plan.

(3) Rating system

The Secretary shall develop a rating system that would rate qualified health plans offered through an Exchange in each benefits level on the basis of the relative quality and price. The Exchange shall include the following in the information provided to individuals and employers through the Internet portal established under paragraph (4).

(4) Enrollee satisfaction system

The Secretary shall develop an enrollee satisfaction survey system that would evaluate the level of enrollee satisfaction with qualified health plans offered through an Exchange, for each such qualified health plan that had more than 500 enrollees in the previous year. The Exchange shall include enrollee satisfaction information in the information provided to individuals and employers through the Internet portal established under paragraph (5) in a manner that allows individuals to easily compare enrollee satisfaction levels between comparable plans.

(5) Internet portals

The Secretary shall—

(A) continue to operate, maintain, and update the Internet portal developed under section 18003(a) of this title and to assist States in developing and maintaining their own such portal; and

(B) make available for use by Exchanges a model template for an Internet portal that may be used to direct qualified individuals and qualified employers to qualified health plans, to assist such individuals and employers in determining whether they are eligible to participate in an Exchange or eligible for a premium tax credit or cost-sharing reduction, and to present standardized information (including quality ratings) regarding qualified health plans offered through an Exchange to assist consumers in making easy health insurance choices.

Such template shall include, with respect to each qualified health plan offered through the Exchange in each rating area, access to the uniform outline of coverage the plan is required to provide under section 2716 of the Public Health Service Act and to a copy of the plan’s written policy.

(6) Enrollment periods

The Secretary shall require an Exchange to provide for—

(A) an initial open enrollment, as determined by the Secretary (such determination to be made not later than July 1, 2012);

(B) annual open enrollment periods, as determined by the Secretary for calendar years after the initial enrollment period;
§ 18031  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8546

(C) special enrollment periods specified in section 9801 of title 26 and other special enrollment periods under circumstances similar to such periods under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.]; and

(D) special monthly enrollment periods for Indians (as defined in section 1603 of title 25).

(7) Reenrollment of certain individuals in qualified health plans in certain exchanges

(A) In general

In the case of an Exchange that the Secretary operates pursuant to section 18041(c)(1) of this title, the Secretary shall establish a process under which an individual described in subparagraph (B) is reenrolled for plan year 2021 in a qualified health plan offered through such Exchange. Such qualified health plan under which such individual is so reenrolled shall be—

(i) if available for plan year 2021, the qualified health plan under which such individual is enrolled during the annual open enrollment period for such plan year; and

(ii) if such qualified health plan is not available for plan year 2021, a qualified health plan offered through such Exchange determined appropriate by the Secretary.

(B) Individual described

An individual described in this subsection is an individual who, with respect to plan year 2020—

(i) resides in a State with an Exchange described in subparagraph (A);

(ii) is enrolled in a qualified health plan during such plan year and does not enroll in a qualified health plan for plan year 2021 during the annual open enrollment period for such plan year 2021; and

(iii) does not elect to disenroll under a qualified health plan for plan year 2021 during such annual open enrollment period.

(d) Requirements

(1) In general

An Exchange shall be a governmental agency or nonprofit entity that is established by a State.

(2) Offering of coverage

(A) In general

An Exchange shall make available qualified health plans to qualified individuals and qualified employers.

(B) Limitation

(i) In general

An Exchange may not make available any health plan that is not a qualified health plan.

(ii) Offering of stand-alone dental benefits

Each Exchange within a State shall allow an issuer of a plan that only provides limited scope dental benefits meeting the requirements of section 9832(c)(2)(A) of title 26 to offer the plan through the Exchange (either separately or in conjunction with a qualified health plan) if the plan provides pediatric dental benefits meeting the requirements of section 18022(b)(1)(J) of this title.

(3) Rules relating to additional required benefits

(A) In general

Except as provided in subparagraph (B), an Exchange may make available a qualified health plan notwithstanding any provision of law that may require benefits other than the essential health benefits specified under section 18022(b) of this title.

(B) States may require additional benefits

(i) In general

Subject to the requirements of clause (ii), a State may require that a qualified health plan offered in such State offer benefits in addition to the essential health benefits specified under section 18022(b) of this title.

(ii) State must assume cost

A State shall make payments—

(I) to an individual enrolled in a qualified health plan offered in such State; or

(II) on behalf of an individual described in subclause (I) directly to the qualified health plan in which such individual is enrolled;

to defray the cost of any additional benefits described in clause (i).

(4) Functions

An Exchange shall, at a minimum—

(A) implement procedures for the certification, recertification, and decertification, consistent with guidelines developed by the Secretary under subsection (c), of health plans as qualified health plans;

(B) provide for the operation of a toll-free telephone hotline to respond to requests for assistance;

(C) maintain an Internet website through which enrollees and prospective enrollees of qualified health plans may obtain standardized comparative information on such plans;

(D) assign a rating to each qualified health plan offered through such Exchange in accordance with the criteria developed by the Secretary under subsection (c)(3);

(E) utilize a standardized format for presenting health benefits plan options in the Exchange, including the use of the uniform outline of coverage established under section 2715 of the Public Health Service Act [42 U.S.C. 300gg–15];

(F) in accordance with section 18063 of this title, inform individuals of eligibility requirements for the medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the CHIP program under title XXI of such Act [42 U.S.C. 1397aa et seq.], or any applicable State or local public program and if through screening of the application by the Exchange, the Exchange determines that such individuals are eligible for any such program, enroll such individuals in such program;

(G) establish and make available by electronic means a calculator to determine the
(e) Certification

(1) In general

An Exchange may certify a health plan as a qualified health plan if—

(A) such health plan meets the requirements for certification as promulgated by the Secretary under subsection (c)(1); and

(B) the Exchange determines that making available such health plan through such Exchange is in the interests of qualified individuals and qualified employers in the State or States in which such Exchange operates, except that the Exchange may not exclude a health plan—

(i) on the basis that such plan is a fee-for-service plan;

(ii) through the imposition of premium price controls; or

(iii) on the basis that the plan provides treatments necessary to prevent patients’ deaths in circumstances the Exchange determines are inappropriate or too costly.

(2) Premium considerations

The Exchange shall require health plans seeking certification as qualified health plans to submit a justification for any premium increase prior to implementation of the increase. Such plans shall prominently post such information on their websites. The Exchange shall take this information, and the information and the recommendations provided to the Exchange by the State under section 2794(b)(1) of the Public Health Service Act [42 U.S.C. 300gg–94(b)(1)] (relating to patterns or practices of excessive or unjustified premium increases), into consideration when determining whether to make such health plan available through the Exchange. The Exchange shall take into account any excess of premium growth outside the Exchange as com-
pared to the rate of such growth inside the Exchange, including information reported by the States.

(3) Transparency in coverage
(A) In general
The Exchange shall require health plans seeking certification as qualified health plans to submit to the Exchange, the Secretary, the State health insurance commissioner, and make available to the public, accurate and timely disclosure of the following information:
(i) Information required to be submitted under subparagraph (A) shall be provided in an accurate and timely manner, including individuals with limited English proficiency, can readily understand and use because that language is concise, well-organized, and follows other best practices of plain language writing.
(B) Use of plain language
The information required to be submitted under subparagraph (A) shall be provided in plain language. The term "plain language" means language that the intended audience, including individuals with limited English proficiency, can readily understand and use because that language is concise, well-organized, and follows other best practices of plain language writing. The Secretary shall jointly develop and issue guidance on best practices of plain language writing.
(C) Cost sharing transparency
The Exchange shall require health plans seeking certification as qualified health plans to permit individuals to learn the amount of cost-sharing (including deductibles, copayments, and coinsurance) under the individual’s plan or coverage that the individual would be responsible for paying with respect to the furnishing of a specific item or service by a participating provider in a timely manner upon the request of the individual.

(D) Group health plans
The Secretary of Labor shall update and harmonize the Secretary’s rules concerning the accurate and timely disclosure to participants by group health plans of any out-of-network charges, including information reported by the Secretary under subparagraph (A).

(f) Flexibility
(1) Regional or other interstate exchanges
An Exchange may operate in more than one State if—
(A) each State in which such Exchange operates permits such operation; and
(B) the Secretary approves such regional or interstate Exchange.

(2) Subsidiary Exchanges
A State may establish one or more subsidiary Exchanges if—
(A) each such Exchange serves a geographicaly distinct area; and
(B) the area served by each such Exchange is at least as large as a rating area described in section 2701(a) of the Public Health Service Act [42 U.S.C. 300gg(a)].

(3) Authority to contract
(A) In general
A State may elect to authorize an Exchange established by the State under this section to enter into an agreement with an eligible entity to carry out 1 or more responsibilities of the Exchange.

(B) Eligible entity
In this paragraph, the term "eligible entity" means—
(i) a person—
(I) incorporated under, and subject to the laws of, 1 or more States; and
(II) that has demonstrated experience on a State or regional basis in the individual and small group health insurance markets and in benefits coverage; and
(III) that is not a health insurance issuer or that is treated under subsection (a) or (b) of section 52 of title 26 as a member of the same controlled group of corporations (or under common control with) as a health insurance issuer; or
(ii) the State medicaid agency under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(g) Rewarding quality through market-based incentives
(1) Strategy described
A strategy described in this paragraph is a payment structure that provides increased reimbursement or other incentives for—
(A) improving health outcomes through the implementation of activities that shall include quality reporting, effective care management, medication and care compliance initiatives, including through the use of the medical home model, for treatment or services under the plan or coverage;
(B) the implementation of activities to prevent hospital readmissions through a comprehensive program for hospital discharge that includes patient-centered education and counseling, comprehensive discharge planning, and post discharge reinforcement by an appropriate health care professional;
(C) the implementation of activities to improve patient safety and reduce medical errors through the appropriate use of best clinical practices, evidence based medicine, and health information technology under the plan or coverage;
§ 18031

(h) Quality improvement

(1) Enhancing patient safety

Beginning on January 1, 2015, a qualified health plan may contract with—

(A) a hospital with greater than 50 beds only if such hospital—

(i) utilizes a patient safety evaluation system as described in part C of title IX of the Public Health Service Act [42 U.S.C. 299b–21 et seq.]; and

(ii) implements a mechanism to ensure that each patient receives a comprehensive program for hospital discharge that includes patient-centered education and counseling, comprehensive discharge planning, and post discharge reinforcement by an appropriate health care professional; or

(B) a health care provider only if such provider implements such mechanisms to improve health care quality as the Secretary may by regulation require.

(2) Exceptions

The Secretary may establish reasonable exceptions to the requirements described in paragraph (1).

(3) Adjustment

The Secretary may by regulation adjust the number of beds described in paragraph (1)(A).

(i) Navigators

(1) In general

An Exchange shall establish a program under which it awards grants to entities described in paragraph (2) to carry out the duties described in paragraph (3).

(2) Eligibility

(A) In general

To be eligible to receive a grant under paragraph (1), an entity shall demonstrate to the Exchange involved that the entity has existing relationships, or could readily establish relationships, with employers and employees, consumers, uninsured and underinsured consumers, or self-employed individuals likely to be qualified to enroll in a qualified health plan.

(B) Types

Entities described in subparagraph (A) may include trade, industry, and professional associations, commercial fishing industry organizations, ranching and farming organizations, community and consumer-focused nonprofit groups, chambers of commerce, unions, resource partners of the Small Business Administration, other licensed insurance agents and brokers, and other entities that—

(i) are capable of carrying out the duties described in paragraph (3); and

(ii) meet the standards described in paragraph (4); and

(iii) provide information consistent with the standards developed under paragraph (5).

(3) Duties

An entity that serves as a navigator under a grant under this subsection shall—

(A) conduct public education activities to raise awareness of the availability of qualified health plans;

(B) distribute fair and impartial information concerning enrollment in qualified health plans, and the availability of premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

(C) facilitate enrollment in qualified health plans;

(D) provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under section 2793 of the Public Health Service Act [42 U.S.C. 300gg–93], or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; and

(E) provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Exchange or Exchanges.

(4) Standards

(A) In general

The Secretary shall establish standards for navigators under this subsection, including provisions to ensure that any private or public entity that is selected as a navigator is qualified, and licensed if appropriate, to engage in the navigator activities described in this subsection and to avoid conflicts of interest. Under such standards, a navigator shall not—

(i) be a health insurance issuer; or

(ii) receive any consideration directly or indirectly from any health insurance issuer in connection with the enrollment of any qualified individuals or employees of a qualified employer in a qualified health plan.

(5) Fair and impartial information and services

The Secretary, in collaboration with States, shall develop standards to ensure that information made available by navigators is fair, accurate, and impartial.

(6) Funding

Grants under this subsection shall be made from the operational funds of the Exchange
and not Federal funds received by the State to establish the Exchange.

(j) Applicability of mental health parity

Section 2726 of the Public Health Service Act [42 U.S.C. 300gg–26] shall apply to qualified health plans in the same manner and to the same extent as such section applies to health insurance issuers and group health plans.

(k) Conflict

An Exchange may not establish rules that conflict with or prevent the application of regulations promulgated by the Secretary under this subchapter.

(2) Qualified individuals

A qualified individual may enroll in any qualified health plan available to such individual and for which such individual is eligible.

(2) Qualified employers

(A) Employer may specify level

A qualified employer may provide support for coverage of employees under a qualified health plan by selecting any level of coverage under section 1802(d) of this title to be made available to employees through an Exchange.

(B) Employee may choose plans within a level

Each employee of a qualified employer that elects a level of coverage under subparagraph (A) may choose to enroll in a qualified health plan that offers coverage at that level.

(b) Payment of premiums by qualified individuals

A qualified individual enrolled in any qualified health plan may pay any applicable premium owed by such individual to the health insurance issuer issuing such qualified health plan.

(c) Single risk pool

(1) Individual market

A health insurance issuer shall consider all enrollees in all health plans (other than grand-
fatherted health plans) offered by such issuer in the individual market, including those enrollees who do not enroll in such plans through the Exchange, to be members of a single risk pool.

(2) Small group market
A health insurance issuer shall consider all enrollees in all health plans (other than grandfatherted health plans) offered by such issuer in the small group market, including those enrollees who do not enroll in such plans through the Exchange, to be members of a single risk pool.

(3) Merger of markets
A State may require the individual and small group insurance markets within a State to be merged if the State determines appropriate.

(4) State law
A State law requiring grandfatherted health plans to be included in a pool described in paragraph (1) or (2) shall not apply.

(d) Empowering consumer choice
(1) Continued operation of market outside Exchange
Nothing in this title shall be construed to prohibit—
(A) a health insurance issuer from offering outside of an Exchange a health plan to a qualified individual or qualified employer; and
(B) a qualified individual from enrolling in, or a qualified employer from selecting for its employees, a health plan offered outside of an Exchange.

(2) Continued operation of State benefit requirements
Nothing in this title shall be construed to terminate, abridge, or limit the operation of any requirement under State law with respect to any policy or plan that is offered outside of an Exchange to offer benefits.

(3) Voluntary nature of an Exchange
(A) Choice to enroll or not to enroll
Nothing in this title shall be construed to restrict the choice of a qualified individual to enroll or not to enroll in a qualified health plan or to participate in an Exchange.

(B) Prohibition against compelled enrollment
Nothing in this title shall be construed to compel an individual to enroll in a qualified health plan or to participate in an Exchange.

(C) Individuals allowed to enroll in any plan
A qualified individual may enroll in any qualified health plan, except that in the case of a catastrophic plan described in section 18022(e) of this title, a qualified individual may enroll in the plan only if the individual is eligible to enroll in the plan under section 18022(e)(2) of this title.

(D) Members of Congress in the Exchange
(i) Requirement
Notwithstanding any other provision of law, after the effective date of this sub-title, the only health plans that the Federal Government may make available to Members of Congress and congressional staff with respect to their service as a Member of Congress or congressional staff shall be health plans that are—
(I) created under this Act (or an amendment made by this Act); or
(II) offered through an Exchange established under this Act (or an amendment made by this Act).

(ii) Definitions
In this section:
(I) Member of Congress
The term “Member of Congress” means any member of the House of Representatives or the Senate.

(II) Congressional staff
The term “congressional staff” means all full-time and part-time employees employed by the official office of a Member of Congress, whether in Washington, DC or outside of Washington, DC.

(4) No penalty for transferring to minimum essential coverage outside Exchange
An Exchange, or a qualified health plan offered through an Exchange, shall not impose any penalty or other fee on an individual who cancels enrollment in a plan because the individual becomes eligible for minimum essential coverage (as defined in section 5000A(f) of title 26 without regard to paragraph (1)(C) or (D) thereof) or such coverage becomes affordable (within the meaning of section 36B(c)(2)(C) of such title).

(e) Enrollment through agents or brokers
The Secretary shall establish procedures under which a State may allow agents or brokers—
(1) to enroll individuals and employers in any qualified health plans in the individual or small group market as soon as the plan is offered through an Exchange in the State; and
(2) to assist individuals in applying for premium tax credits and cost-sharing reductions for plans sold through an Exchange.

(f) Qualified individuals and employers; access limited to citizens and lawful residents
(1) Qualified individuals
In this title: 1

(A) In general
The term “qualified individual” means, with respect to an Exchange, an individual who—
(i) is seeking to enroll in a qualified health plan in the individual market offered through the Exchange; and
(ii) resides in the State that established the Exchange.

(B) Incarcerated individuals excluded
An individual shall not be treated as a qualified individual if, at the time of enroll-
ment, the individual is incarcerated, other
than incarceration pending the disposition
of charges.

(2) Qualified employer
In this title: 1
(A) In general
The term ‗qualified employer‘ means a
small employer that elects to make all full-
time employees of such employer eligible for
1 or more qualified health plans offered in
the small group market through an Ex-
change that offers qualified health plans.

(B) Extension to large groups
(i) In general
Beginning in
2017, each State may allow
issuers of health insurance coverage in the
large group market in the State to offer
qualified health plans in such market through
an Exchange. Nothing in this sub-
paragraph shall be construed as requiring
the issuer to offer such plans through an Ex-
change.

(ii) Large employers eligible
If a State under clause (i) allows issuers
to offer qualified health plans in the large
group market through an Exchange, the
term ‗qualified employer‘ shall include a
large employer that elects to make all full-
time employees of such employer eligi-
bly for 1 or more qualified health plans
offered in the large group market through
the Exchange.

(3) Access limited to lawful residents
If an individual is not, or is not reasonably
expected to be for the entire period for which
enrollment is sought, a citizen or national of
the United States or an alien lawfully present
in the United States, the individual shall not
be treated as a qualified individual and may
not be covered under a qualified health plan
in the individual market that is offered through
an Exchange.

sec. (d)(3)(D)(i), is the effective date of subtitle D

This Act, referred to in subsec.
(d)(3)(D)(i), is Pub. L.
111–148, Mar. 23, 2010, 124 Stat. 119, known as the
Patient Protection and Affordable Care Act. For complete
classification of this Act to the Code, see Short Title
note set out under section 18001 of this title and Tables.

AMENDMENTS
inserted ‗‘and for which such individual is eligible‘‘
before period at end.
Subsec. (e). Pub. L. 111–148, §10104(i)(2)(B), struck out
concluding provisions which read as follows: ‗‘Such pro-
cedures may include the establishment of rate sched-
ules for broker commissions paid by health benefits
plans offered through an exchange.‘‘

§ 18033. Financial integrity

(a) Accounting for expenditures

(1) In general
An Exchange shall keep an accurate ac-
counting of all activities, receipts, and ex-
penditures and shall annually submit to the
Secretary a report concerning such account-
ings.

(2) Investigations
The Secretary, in coordination with the In-
spector General of the Department of Health
and Human Services, may investigate the aff-
fairs of an Exchange, may examine the prop-
erties and records of an Exchange, and may re-
quire periodic reports in relation to activities
undertaken by an Exchange. An Exchange
shall fully cooperate in any investigation con-
ducted under this paragraph.

(3) Audits
An Exchange shall be subject to annual au-
dits by the Secretary.

(4) Pattern of abuse
If the Secretary determines that an Ex-
change or a State has engaged in serious mis-
conduct with respect to compliance with the
requirements of, or carrying out of activities
required under, this title, 1 the Secretary may
rescind from payments otherwise due to such
State involved under this or any other Act ad-
ministered by the Secretary an amount not to
exceed 1 percent of such payments per year
until corrective actions are taken by the State
that are determined to be adequate by the Sec-
retary.

(5) Protections against fraud and abuse
With respect to activities carried out under
this title, 1 the Secretary shall provide for the
efficient and non-discriminatory administra-
tion of Exchange activities and implement any
measure or procedure that—

(A) the Secretary determines is appro-
priate to reduce fraud and abuse in the ad-
ministration of this title; 1 and

(B) the Secretary has authority to imple-
ment under this title 1 or any other Act.

(6) Application of the False Claims Act

(A) In general
Payments made by, through, or in connec-
tion with an Exchange are subject to the False
Claims Act (31 U.S.C. 3729 et seq.) if those
payments include any Federal funds. Compli-
ance with the requirements of this Act con-
cerning eligibility for a health insurance
issuer to participate in the Exchange
shall be a material condition of an issuer’s
entitlement to receive payments, including
payments of premium tax credits and cost-
sharing reductions, through the Exchange.

1 See References in Text note below.
(B) Damages

Notwithstanding paragraph (1) of section 3729(a) of title 31, and subject to paragraph (2) of such section, the civil penalty assessed under the False Claims Act on any person found liable under such Act as described in subparagraph (A) shall be increased by not less than 3 times and not more than 6 times the amount of damages which the Government sustains because of the act of that person.

(b) GAO oversight

Not later than 5 years after the first date on which Exchanges are required to be operational under this title, the Comptroller General shall conduct an ongoing study of Exchange activities and the enrollees in qualified health plans offered through Exchanges. Such study shall review—

(1) the operations and administration of Exchanges, including surveys and reports of qualified health plans offered through Exchanges and on the experience of such plans (including data on enrollees in Exchanges and individuals purchasing health insurance coverage outside of Exchanges), the expenses of Exchanges, claims statistics relating to qualified health plans, complaints data relating to such plans, and the manner in which Exchanges meet their goals;

(2) any significant observations regarding the utilization and adoption of Exchanges;

(3) where appropriate, recommendations for improvements in the operations or policies of Exchanges;

(4) a survey of the cost and affordability of health care insurance provided under the Exchanges for owners and employees of small business concerns (as defined under section 632(c) of title 31), including data on enrollees in Exchanges and individuals purchasing health insurance coverage outside of Exchanges; and

(5) how many physicians, by area and specialty, are not taking or accepting new patients enrolled in Federal Government health care programs, and the adequacy of provider networks of Federal Government health care programs.

REFERENCES IN TEXT

This title, referred to in subsec. (a)(4), (5) and (b), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS

2010—Subsec. (b)(4), (5). Pub. L. 111–148, §10104(k), added par. (4) and redesignated former par. (4) as (5).

TERMINATION OF PROVISION

PART C—STATE FLEXIBILITY RELATING TO EXCHANGES

§ 18041. State flexibility in operation and enforcement of Exchanges and related requirements

(a) Establishment of standards

(1) In general

The Secretary shall, as soon as practicable after March 23, 2010, issue regulations setting standards for meeting the requirements under this title, and the amendments made by this title, with respect to—

(A) the establishment and operation of Exchanges (including SHOP Exchanges);

(B) the offering of qualified health plans through such Exchanges;

(C) the establishment of the reinsurance and risk adjustment programs under part E; and

(D) such other requirements as the Secretary determines appropriate.

The preceding sentence shall not apply to standards for requirements under subtitles A and C (and the amendments made by such subtitles) for which the Secretary issues regulations under the Public Health Service Act [42 U.S.C. 201 et seq.].

(2) Consultation

In issuing the regulations under paragraph (1), the Secretary shall consult with the National Association of Insurance Commissioners and its members and with health insurance issuers, consumer organizations, and such other individuals as the Secretary selects in a manner designed to ensure balanced representation among interested parties.

(b) State action

Each State that elects, at such time and in such manner as the Secretary may prescribe, to apply the requirements described in subsection (a) shall, not later than January 1, 2014, adopt and have in effect—

(1) the Federal standards established under subsection (a); or

(2) a State law or regulation that the Secretary determines implements the standards within the State.

(c) Failure to establish Exchange or implement requirements

(1) In general

If—

(A) a State is not an electing State under subsection (b); or

(B) the Secretary determines, on or before January 1, 2013, that an electing State—

1 See References in Text note below.
(i) will not have any required Exchange operational by January 1, 2014; or
(ii) has not taken the actions the Secretary determines necessary to implement—
(III) the other requirements set forth in the standards under subsection (a); or
(III) the requirements set forth in subtitles A and C and the amendments made by such subtitles;
the Secretary shall (directly or through agreement with a not-for-profit entity) establish and operate such Exchange within the State and the Secretary shall take such actions as are necessary to implement such other requirements.

(2) Enforcement authority

The provisions of section 2736(b) of the Public Health Services Act [42 U.S.C. 300gg–22(b)] shall apply to the enforcement under paragraph (1) of requirements of subsection (a)(1) (without regard to any limitation on the application of those provisions to group health plans).

(d) No interference with State regulatory authority

Nothing in this title shall be construed to preempt any State law that does not prevent the application of the provisions of this title.

(e) Presumption for certain State-operated Exchanges

(1) In general

In the case of a State operating an Exchange before January 1, 2010, and which has insured a percentage of its population not less than the percentage of the population projected to be covered nationally after the implementation of this Act, that seeks to operate an Exchange under this section, the Secretary shall presume that such Exchange meets the standards under this section unless the Secretary determines, after completion of the process established under paragraph (2), that the Exchange does not comply with such standards.

(2) Process

The Secretary shall establish a process to work with a State described in paragraph (1) to provide assistance necessary to assist the State’s Exchange in coming into compliance with the standards for approval under this section.

REFERENCES IN TEXT

This title, referred to in subsecs. (a)(1) and (d), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

The Public Health Service Act, referred to in subsec. (a)(1), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

Section 2736 of the Public Health Service Act, referred to in subsec. (e)(1), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 199, known as the Patient Protection and Affordable Care Act. § 18042. Federal program to assist establishment and operation of nonprofit, member-run health insurance issuers

(a) Establishment of program

(1) In general

The Secretary shall establish a program to carry out the purposes of this section to be known as the Consumer Operated and Oriented Plan (CO–OP) program.

(2) Purpose

It is the purpose of the CO–OP program to foster the creation of qualified nonprofit health insurance issuers to offer qualified health plans in the individual and small group markets in the States in which the issuers are licensed to offer such plans.

(b) Loans and grants under the CO–OP program

(1) In general

The Secretary shall provide through the CO–OP program for the awarding to persons applying to become qualified nonprofit health insurance issuers of—
(A) loans to provide assistance to such person in meeting its start-up costs; and
(B) grants to provide assistance to such person in meeting any solvency requirements of States in which the person seeks to be licensed to issue qualified health plans.

(2) Requirements for awarding loans and grants

(A) In general

In awarding loans and grants under the CO–OP program, the Secretary shall—
(i) take into account the recommendations of the advisory board established under paragraph (3);
(ii) give priority to applicants that will offer qualified health plans on a Statewide basis, will utilize integrated care models, and have significant private support; and
(iii) ensure that there is sufficient funding to establish at least 1 qualified non-
profit health insurance issuer in each State, except that nothing in this clause shall prohibit the Secretary from funding the establishment of multiple qualified nonprofit health insurance issuers in any State if the funding is sufficient to do so.

(B) States without issuers in program

If no health insurance issuer applies to be a qualified nonprofit health insurance issuer within a State, the Secretary may use amounts appropriated under this section for the expansion of a qualified nonprofit health insurance issuer within the State or the establishment of a qualified nonprofit health insurance issuer from another State to the State.

(C) Agreement

(i) In general

The Secretary shall require any person receiving a loan or grant under the CO–OP program to enter into an agreement with the Secretary which requires such person to meet (and to continue to meet):

(I) any requirement under this section for such person to be treated as a qualified nonprofit health insurance issuer; and

(II) any requirements contained in the agreement for such person to receive such loan or grant.

(ii) Restrictions on use of Federal funds

The agreement shall include a requirement that no portion of the funds made available by any loan or grant under this section may be used—

(I) for carrying on propaganda, or otherwise attempting, to influence legislation; or

(II) for marketing.

Nothing in this clause shall be construed to allow a person to take any action prohibited by section 501(c)(29) of title 26.

(iii) Failure to meet requirements

If the Secretary determines that a person has failed to meet any requirement described in clause (i) or (ii) and has failed to correct such failure within a reasonable period of time of when the person first knows (or reasonably should have known) of such failure, such person shall repay to the Secretary an amount equal to the sum of—

(I) 110 percent of the aggregate amount of loans and grants received under this section; plus

(II) interest on the aggregate amount of loans and grants received under this section for the period the loans or grants were outstanding.

The Secretary shall notify the Secretary of the Treasury of any determination under this section of a failure that results in the termination of an issuer's tax-exempt status under section 501(c)(29) of such title.

(D) Time for awarding loans and grants

The Secretary shall not later than July 1, 2013, award the loans and grants under the CO–OP program and begin the distribution of amounts awarded under such loans and grants.

(3) Repayment of loans and grants

Not later than July 1, 2013, and prior to awarding loans and grants under the CO–OP program, the Secretary shall promulgate regulations with respect to the repayment of such loans and grants in a manner that is consistent with State solvency regulations and other similar State laws that may apply. In promulgating such regulations, the Secretary shall provide that such loans shall be repaid within 5 years and such grants shall be repaid within 15 years, taking into consideration any appropriate State reserve requirements, solvency regulations, and requisite surplus note arrangements that must be constructed in a State to provide for such repayment prior to awarding such loans and grants.

(4) Advisory board

(A) In general

The advisory board under this paragraph shall consist of 15 members appointed by the Comptroller General of the United States from among individuals with qualifications described in section 1385b–6(c)(2) of this title.

(B) Rules relating to appointments

(i) Standards

Any individual appointed under subparagraph (A) shall meet ethics and conflict of interest standards protecting against insurance industry involvement and interference.

(ii) Original appointments

The original appointment of board members under subparagraph (A)(ii) shall be made no later than 3 months after March 23, 2010.

(C) Vacancy

Any vacancy on the advisory board shall be filled in the same manner as the original appointment.

(D) Pay and reimbursement

(i) No compensation for members of advisory board

Except as provided in clause (ii), a member of the advisory board may not receive pay, allowances, or benefits by reason of their service on the board.

(ii) Travel expenses

Each member shall receive travel expenses, including per diem in lieu of subsistence under subchapter I of chapter 57 of title 5.

(E) Application of FACA

The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the advisory board, except that section 14 of such Act shall not apply.

(F) Termination

The advisory board shall terminate on the earlier of the date that it completes its duties under this section or December 31, 2015.
§ 18042

(c) Qualified nonprofit health insurance issuer

For purposes of this section—

(1) In general

The term “qualified nonprofit health insurance issuer” means a health insurance issuer that is an organization—

(A) that is organized under State law as a nonprofit, member corporation;

(B) substantially all of the activities of which consist of the issuance of qualified health plans in the individual and small group markets in each State in which it is licensed to issue such plans; and

(C) that meets the other requirements of this subsection.

(2) Certain organizations prohibited

An organization shall not be treated as a qualified nonprofit health insurance issuer if—

(A) the organization or a related entity (or any predecessor of either) was a health insurance issuer on July 16, 2009; or

(B) the organization is sponsored by a State or local government, any political subdivision thereof, or any instrumentality of such government or political subdivision.

(3) Governance requirements

An organization shall not be treated as a qualified nonprofit health insurance issuer unless—

(A) the governance of the organization is subject to a majority vote of its members;

(B) its governing documents incorporate ethics and conflict of interest standards protecting against insurance industry involvement and interference; and

(C) as provided in regulations promulgated by the Secretary, the organization is required to operate with a strong consumer focus, including timeliness, responsiveness, and accountability to members.

(4) Profits inure to benefit of members

An organization shall not be treated as a qualified nonprofit health insurance issuer unless any profits made by the organization are required to be used to lower premiums, to improve benefits, or for other programs intended to improve the quality of health care delivered to its members.

(5) Compliance with State insurance laws

An organization shall not be treated as a qualified nonprofit health insurance issuer unless the organization meets all the requirements that other issuers of qualified health plans are required to meet in any State where the issuer offers a qualified health plan, including solvency and licensure requirements, rules on payments to providers, and compliance with network adequacy rules, rate and form filing rules, any applicable State premium assessments and any other State law described in section 18044(b) of this title.

(6) Coordination with State insurance reforms

An organization shall not be treated as a qualified nonprofit health insurance issuer unless the organization does not offer a health plan in a State until that State has in effect (or the Secretary has implemented for the State) the market reforms required by part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] (as amended by subtitles A and C of this Act).

(d) Establishment of private purchasing council

(1) In general

Qualified nonprofit health insurance issuers participating in the CO–OP program under this section may establish a private purchasing council to enter into collective purchasing arrangements for items and services that increase administrative and other cost efficiencies, including claims administration, administrative services, health information technology, and actuarial services.

(2) Council may not set payment rates

The private purchasing council established under paragraph (1) shall not set payment rates for health care facilities or providers participating in health insurance coverage provided by qualified nonprofit health insurance issuers.

(3) Continued application of antitrust laws

(A) In general

Nothing in this section shall be construed to limit the application of the antitrust laws to any private purchasing council (whether or not established under this subsection) or to any qualified nonprofit health insurance issuer participating in such a council.

(B) Antitrust laws

For purposes of this subparagraph, the term “antitrust laws” has the meaning given the term in subsection (a) of section 12 of title 15. Such term also includes section 45 of title 15 to the extent that such section 45 applies to unfair methods of competition.

(e) Limitation on participation

No representative of any Federal, State, or local government (or of any political subdivision or instrumentality thereof), and no representative of a person described in subsection (c)(2)(A), may serve on the board of directors of a qualified nonprofit health insurance issuer or with a private purchasing council established under subsection (d).

(f) Limitations on Secretary

(1) In general

The Secretary shall not—

(A) participate in any negotiations between 1 or more qualified nonprofit health insurance issuers (or a private purchasing council established under subsection (d)) and any health care facilities or providers, including any drug manufacturer, pharmacy, or hospital; and

(B) establish or maintain a price structure for reimbursement of any health benefits covered by such issuers.

(2) Competition

Nothing in this section shall be construed as authorizing the Secretary to interfere with the competitive nature of providing health benefits through qualified nonprofit health insurance issuers.
(g) Appropriations

There are hereby appropriated, out of any funds in the Treasury not otherwise appropriated, $6,000,000,000 to carry out this section.

(h) Omitted

(i) GAO study and report

(1) Study

The Comptroller General of the General Accountability Office shall conduct an ongoing study on competition and market concentration in the health insurance market in the United States after the implementation of the reforms in such market under the provisions of, and the amendments made by, this Act. Such study shall include an analysis of new issuers of health insurance in such market.

(2) Report

The Comptroller General shall, not later than December 31 of each even-numbered year (beginning with 2014), report to the appropriate committees of the Congress the results of the study conducted under paragraph (1), including any recommendations for administrative or legislative changes the Comptroller General determines necessary or appropriate to increase competition in the health insurance market.

The Public Health Service Act, referred to in subsec. (c)(6), is act July 1, 1944, ch. 373, 58 Stat. 682. Part A of title XXVII of the Act is classified generally to part A (§300gg et seq.) of subchapter XXV of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title Note set out under section 18001 of this title and Tables.

Codification

Amendments

2010—Subsec. (b)(3), (4). Pub. L. 111–148, §10104(l), added par. (3) and redesignated former par. (3) as (4).

CONSUMER OPERATED AND ORIENTED PLAN PROGRAM

CONTINGENCY FUND

Pub. L. 112–240, title VI, §644, Jan. 2, 2013, 126 Stat. 2362, provided that:

"(a) ESTABLISHMENT.—The Secretary of Health and Human Services shall establish a fund to be used to provide assistance and oversight to qualified nonprofit health insurance issuers that have been awarded loans or grants under section 1322 of the Patient Protection and Affordable Care Act (42 U.S.C. 18042) prior to the date of enactment of this Act [Jan. 2, 2013].

"(b) TRANSFER AND RESCISSION.—

"(1) TRANSFER.—From the unobligated balance of funds appropriated under section 1322(g) of the Patient Protection and Affordable Care Act (42 U.S.C. 18042(g)), 10 percent of such sums are hereby transferred to the fund established under subsection (a) to remain available until expended.

"(2) RESCISSION.—Except as provided for in paragraph (1), amounts appropriated under section 1322(g) of the Patient Protection and Affordable Care Act (42 U.S.C. 18042(g)) that are unobligated as of the date of enactment of this Act [Jan. 2, 2013] are rescinded."

§18043. Funding for the territories

(a) In general

A territory that—

(1) elects consistent with subsection (b) to establish an Exchange in accordance with part B of this subchapter and establishes such an Exchange in accordance with such part shall be treated as a State for purposes of such part and shall be entitled to payment from the amount allocated to the territory under subsection (c); or

(2) does not make such election shall be entitled to an increase in the dollar limitation applicable to the territory under subsections (f) and (g) of section 1108 of the Social Security Act (42 U.S.C. 1308) for such period in such amount for such territory and such increase shall not be taken into account in computing any other amount under such subsections.

(b) Terms and conditions

An election under subsection (a)(1) shall—

(1) not be effective unless the election is consistent with section 18041 of this title and is received not later than October 1, 2013; and

(2) be contingent upon entering into an agreement between the territory and the Secretary that requires that—

(A) funds provided under the agreement shall be used only to provide premium and cost-sharing assistance to residents of the territory obtaining health insurance coverage through the Exchange; and

(B) the premium and cost-sharing assistance provided under such agreement shall be structured in such a manner so as to prevent any gap in assistance for individuals between the income level at which medical assistance is available through the territory’s Medicaid plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) and the income level at which premium and cost-sharing assistance is available under the agreement.

(c) Appropriation and allocation

(1) Appropriation

Out of any funds in the Treasury not otherwise appropriated, there is appropriated for
purposes of payment pursuant to subsection (a) $1,000,000,000,000, to be available during the period beginning with 2014 and ending with 2019.

(2) Allocation

The Secretary shall allocate the amount appropriated under paragraph (1) among the territories for purposes of carrying out this section as follows:

(A) For Puerto Rico, $925,000,000.

(B) For another territory, the portion of $75,000,000 specified by the Secretary.

PRIOR PROVISIONS

§ 18044. Level playing field

(a) In general

Notwithstanding any other provision of law, any health insurance coverage offered by a private health insurance issuer shall not be subject to any Federal or State law described in subsection (b) if a qualified health plan offered under the Consumer Operated and Oriented Plan program under section 18042 of this title, or a multi-State qualified health plan under section 18054 of this title, is not subject to such law.

(b) Laws described

The Federal and State laws described in this subsection are those Federal and State laws relating to—

(1) guaranteed renewal;

(2) rating;

(3) preexisting conditions;

(4) non-discrimination;

(5) quality improvement and reporting;

(6) fraud and abuse;

(7) solvency and financial requirements;

(8) market conduct;

(9) prompt payment;

(10) appeals and grievances;

(11) privacy and confidentiality;

(12) licensure; and

(13) benefit plan material or information.

AMENDMENTS

2010—Subsec. (a). Pub. L. 111–148, §10104(n), substituted “; or a multi-State qualified health plan under section 18043 of this title” for “; a community health insurance option under section 18043 of this title, or a multi-State qualified health plan under section 18053(b) of this title”.

PART D—STATE FLEXIBILITY TO ESTABLISH ALTERNATIVE PROGRAMS

§ 18051. State flexibility to establish basic health programs for low-income individuals not eligible for medicaid

(a) Establishment of program

(1) In general

The Secretary shall establish a basic health program meeting the requirements of this section under which a State may enter into contracts to offer 1 or more standard health plans providing at least the essential health benefits described in section 18022(b) of this title to eligible individuals in lieu of offering such individuals coverage through an Exchange.

(2) Certifications as to benefit coverage and costs

Such program shall provide that a State may not establish a basic health program under this section unless the State establishes to the satisfaction of the Secretary, and the Secretary certifies, that—

(A) in the case of an eligible individual enrolled in a standard health plan offered through the program, the State provides—

(i) that the amount of the monthly premium an eligible individual is required to pay for coverage under the standard health plan for the individual and the individual’s dependents does not exceed the amount of the monthly premium that the eligible individual would have been required to pay (in the rating area in which the individual resides) if the individual had enrolled in the applicable second lowest cost silver plan (as defined in section 36B(b)(3)(B) of title 26) offered to the individual through an Exchange; and

(ii) that the cost-sharing an eligible individual is required to pay under the standard health plan does not exceed—

(I) the cost-sharing required under a platinum plan in the case of an eligible individual with household income not in excess of 150 percent of the poverty line for the size of the family involved; and

(II) the cost-sharing required under a gold plan in the case of an eligible individual not described in subclause (I); and

(B) the benefits provided under the standard health plans offered through the program cover at least the essential health benefits described in section 18022(b) of this title.

For purposes of subparagraph (A)(i), the amount of the monthly premium an individual is required to pay under either the standard health plan or the applicable second lowest cost silver plan shall be determined after reduction for any premium tax credits and cost-sharing reductions allowable with respect to either plan.

(b) Standard health plan

In this section, the term “standard health plan” means a health benefits plan that the State contracts with under this section—

1So in original. Probably should be “health”.

1

1
(1) under which the only individuals eligible to enroll are eligible individuals;

(2) that provides at least the essential health benefits described in section 18022(b) of this title; and

(3) in the case of a plan that provides health insurance coverage offered by a health insurance issuer, that has a medical loss ratio of at least 85 percent.

c) Contracting process

(1) In general

A State basic health program shall establish a competitive process for entering into contracts with standard health plans under subsection (a), including negotiation of premiums and cost-sharing and negotiation of benefits in addition to the essential health benefits described in section 18022(b) of this title.

(2) Specific items to be considered

A State shall, as part of its competitive process under paragraph (1), include at least the following:

(A) Innovation

Negotiation with offerors of a standard health plan for the inclusion of innovative features in the plan, including—

(i) care coordination and care management for enrollees, especially for those with chronic health conditions;

(ii) incentives for use of preventive services; and

(iii) the establishment of relationships between providers and patients that maximize patient involvement in health care decision-making, including providing incentives for appropriate utilization under the plan.

(B) Health and resource differences

Consideration of, and the making of suitable allowances for, differences in health care needs of enrollees and differences in local availability of, and access to, health care providers. Nothing in this subparagraph shall be construed as allowing discrimination on the basis of pre-existing conditions or other health status-related factors.

(C) Managed care

Contracting with managed care systems, or with systems that offer as many of the attributes of managed care as are feasible in the local health care market.

(D) Performance measures

Establishing specific performance measures and standards for issuers of standard health plans that focus on quality of care and improved health outcomes, requiring such plans to report to the State with respect to the measures and standards, and making the performance and quality information available to enrollees in a useful form.

(3) Enhanced availability

(A) Multiple plans

A State shall, to the maximum extent feasible, seek to make multiple standard health plans available to eligible individuals within a State to ensure individuals have a choice of such plans.

(B) Regional compacts

A State may negotiate a regional compact with other States to include coverage of eligible individuals in all such States in agreements with issuers of standard health plans.

(4) Coordination with other State programs

A State shall seek to coordinate the administration of, and provision of benefits under, its program under this section with the State medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.], and other State-administered health programs to maximize the efficiency of such programs and to improve the continuity of care.

(d) Transfer of funds to States

(1) In general

If the Secretary determines that a State electing the application of this section meets the requirements of the program established under subsection (a), the Secretary shall transfer to the State for each fiscal year for which 1 or more standard health plans are operating within the State the amount determined under paragraph (3).

(2) Use of funds

A State shall establish a trust for the deposit of the amounts received under paragraph (1) and amounts in the trust fund shall only be used to reduce the premiums and cost-sharing of, or to provide additional benefits for, eligible individuals enrolled in standard health plans within the State. Amounts in the trust fund, and expenditures of such amounts, shall not be included in determining the amount of any non-Federal funds for purposes of meeting any matching or expenditure requirement of any federally-funded program.

(3) Amount of payment

(A) Secretarial determination

(i) In general

The amount determined under this paragraph for any fiscal year is the amount the Secretary determines is equal to 95 percent of the premium tax credits under section 36B of title 26, and the cost-sharing reductions under section 18071 of this title, that would have been provided for the fiscal year to eligible individuals enrolled in standard health plans in the State if such eligible individuals were allowed to enroll in qualified health plans through an Exchange established under this subchapter.

(ii) Specific requirements

The Secretary shall make the determination under clause (i) on a per enrollee basis and shall take into account all relevant factors necessary to determine the value of the premium tax credits and cost-sharing reductions that would have been provided to eligible individuals described in clause (i), including the age and income of the enrollee, whether the enrollment is
for self-only or family coverage, geographic differences in average spending for health care across rating areas, the health status of the enrollee for purposes of determining risk adjustment payments and reinsurance payments that would have been made if the enrollee had enrolled in a qualified health plan through an Exchange, and whether any reconciliation of the credit or cost-sharing reductions would have occurred if the enrollee had been so enrolled. This determination shall take into consideration the experience of other States with respect to participation in an Exchange and such credits and reductions provided to residents of the other States, with a special focus on enrollees with income below 200 percent of poverty.

(iii) Certification

The Chief Actuary of the Centers for Medicare & Medicaid Services, in consultation with the Office of Tax Analysis of the Department of the Treasury, shall certify whether the methodology used to make determinations under this subparagraph, and such determinations, meet the requirements of clause (ii). Such certifications shall be based on sufficient data from the State and from comparable States about their experience with programs created by this Act.

(B) Corrections

The Secretary shall adjust the payment for any fiscal year to reflect any error in the determinations under subparagraph (A) for any preceding fiscal year.

(4) Application of special rules

The provisions of section 18023 of this title shall apply to a State basic health program, and to standard health plans offered through such program, in the same manner as such rules apply to qualified health plans.

(e) Eligible individual

(1) In general

In this section, the term “eligible individual” means, with respect to any State, an individual—

(A) who is a resident of the State who is not eligible to enroll in the State’s Medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] for benefits that at a minimum consist of the essential health benefits described in section 18022(h) of this title;

(B) whose household income exceeds 133 percent but does not exceed 200 percent of the poverty line for the size of the family involved, or, in the case of an alien lawfully present in the United States, whose income is not greater than 133 percent of the poverty line for the size of the family involved but who is not eligible for the Medicaid program under title XIX of the Social Security Act by reason of such alien status;

(C) who is not eligible for minimum essential coverage (as defined in section 5000A(f) of title 26) or is eligible for an employer-sponsored plan that is not affordable coverage (as determined under section 5000A(e)(2) of such title); and

(D) who has not attained age 65 as of the beginning of the plan year.

Such term shall not include any individual who is not a qualified individual under section 18032 of this title who is eligible to be covered by a qualified health plan offered through an Exchange.

(2) Eligible individuals may not use Exchange

An eligible individual shall not be treated as a qualified individual under section 18032 of this title eligible for enrollment in a qualified health plan offered through an Exchange established under section 18031 of this title.

(f) Secretarial oversight

The Secretary shall each year conduct a review of each State program to ensure compliance with the requirements of this section, including ensuring that the State program meets—

(1) eligibility verification requirements for participation in the program;

(2) the requirements for use of Federal funds received by the program; and

(3) the quality and performance standards under this section.

(g) Standard health plan offerors

A State may provide that persons eligible to offer standard health plans under a basic health program established under this section may include a licensed health maintenance organization, a licensed health insurance insurer, or a network of health care providers established to offer services under the program.

(h) Definitions

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

REFERENCES IN TEXT

The Social Security Act, referred to in subsecs. (c)(4) and (e)(1)(A), (B), is Aug. 14, 1935, ch. 531, § 311, 49 Stat. 620. Titles XIX and XXI of the Act are classified generally to subchapters XIX (§ 1396 et seq.) and XXI (§ 1397aa et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

AMENDMENTS

2010—Subsec. (d)(3)(A)(i). Pub. L. 111–148, § 10104(o)(1), substituted “95 percent” for “85 percent”. Subsec. (e)(1)(B), Pub. L. 111–148, § 10104(o)(2), inserted “, or, in the case of an alien lawfully present in the United States, whose income is not greater than 133 percent of the poverty line for the size of the family involved but who is not eligible for the Medicaid program under title XIX of the Social Security Act by reason of such alien status” before semicolon at end.

So in original. Probably should be preceded by “is”.
§ 18052. Waiver for State innovation

(a) Application

(1) In general

A State may apply to the Secretary for the waiver of all or any requirements described in paragraph (2) with respect to health insurance coverage within that State for plan years beginning on or after January 1, 2017. Such application shall—

(A) be filed at such time and in such manner as the Secretary may require;
(B) contain such information as the Secretary may require, including—
   (i) a comprehensive description of the State legislation and program to implement a plan meeting the requirements for a waiver under this section; and
   (ii) a 10-year budget plan for such plan that is budget neutral for the Federal Government; and

(C) provide an assurance that the State has enacted the law described in subsection (b)(2).

(2) Requirements

The requirements described in this paragraph with respect to health insurance coverage within the State for plan years beginning on or after January 1, 2014, are as follows:

(A) Part A of this subchapter.
(B) Part B of this subchapter.
(C) Section 18071 of this title.
(D) Sections 36B, 4980H, and 5000A of title 26.

(3) Pass through of funding

With respect to a State waiver under paragraph (1), under which, due to the structure of the State plan, individuals and small employers in the State would not qualify for the premium tax credits, cost-sharing reductions, or small business credits under sections 36B of title 26 or under part I of subtitle E for which they would otherwise be eligible, the Secretary shall provide for an alternative means by which the aggregate amount of such credits or reductions that would have been paid on behalf of participants in the Exchanges established under this title had the State not received such waiver, shall be paid to the State for purposes of implementing the State plan under the waiver. Such amount shall be determined annually by the Secretary, taking into consideration the experience of other States with respect to participation in an Exchange and credits and reductions provided under such provisions to residents of the other States.

(4) Waiver consideration and transparency

(A) In general

An application for a waiver under this section shall be considered by the Secretary in accordance with the regulations described in subparagraph (B).

(B) Regulations

Not later than 180 days after March 23, 2010, the Secretary shall promulgate regulations relating to waivers under this section that provide—

(i) a process for public notice and comment at the State level, including public hearings, sufficient to ensure a meaningful level of public input;
(ii) a process for the submission of an application that ensures the disclosure of—
   (I) the provisions of law that the State involved seeks to waive; and
   (II) the specific plans of the State to ensure that the waiver will be in compliance with subsection (b);
(iii) a process for providing public notice and comment after the application is received by the Secretary, that is sufficient to ensure a meaningful level of public input and that does not impose requirements that are in addition to, or duplicative of, requirements imposed under the Administrative Procedures Act, or requirements that are unreasonable or unnecessarily burdensome with respect to State compliance;
(iv) a process for the submission to the Secretary of periodic reports by the State concerning the implementation of the program under the waiver; and
(v) a process for the periodic evaluation by the Secretary of the program under the waiver.

(C) Report

The Secretary shall annually report to Congress concerning actions taken by the Secretary with respect to applications for waivers under this section.

(5) Coordinated waiver process

The Secretary shall develop a process for coordinating and consolidating the State waiver processes applicable under the provisions of this section, and the existing waiver processes applicable under titles XVIII, XIX, and XXI of the Social Security Act [42 U.S.C. 1395 et seq., 1396 et seq., 1397aa et seq.], and any other Federal law relating to the provision of health care items or services. Such process shall permit a State to submit a single application for a waiver under any or all of such provisions.

(6) Definition

In this section, the term “Secretary” means—

(A) the Secretary of Health and Human Services with respect to waivers relating to the provisions described in subparagraph (A) through (C) of paragraph (2); and

(B) the Secretary of the Treasury with respect to waivers relating to the provisions described in paragraph (2)(D).

(b) Granting of waivers

(1) In general

The Secretary may grant a request for a waiver under subsection (a)(1) only if the Secretary determines that the State plan—

(A) will provide coverage that is at least as comprehensive as the coverage defined in section 18022(b) of this title and offered through Exchanges established under this title as certified by Office of the Actuary.

1 So in original. Probably should be “section”.
2 See References in Text note below.
3 So in original. Probably should be preceded by “the”. 
§ 18053  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8562

of the Centers for Medicare & Medicaid Services based on sufficient data from the State and from comparable States about their experience with programs created by this Act and the provisions of this Act that would be waived;

(B) will provide coverage and cost sharing protections against excessive out-of-pocket spending that are at least as affordable as the provisions of this title would provide; and

(C) will provide coverage to at least a comparable number of its residents as the provisions of this title would provide; and

(D) will not increase the Federal deficit.

(2) Requirement to enact a law

(A) In general

A law described in this paragraph is a State law that provides for State actions under a waiver under this section, including the implementation of the State plan under subsection (a)(1)(B).

(B) Termination of opt out

A State may repeal a law described in subparagraph (A) and terminate the authority provided under the waiver with respect to the State.

(c) Scope of waiver

(1) In general

The Secretary shall determine the scope of a waiver of a requirement described in subsection (a)(2) granted to a State under subsection (a)(1).

(2) Limitation

The Secretary may not waive under this section any Federal law or requirement that is not within the authority of the Secretary.

(d) Determinations by Secretary

(1) Time for determination

The Secretary shall make a determination under subsection (a)(1) not later than 180 days after the receipt of an application from a State under such subsection.

(2) Effect of determination

(A) Granting of waivers

If the Secretary determines to grant a waiver under subsection (a)(1), the Secretary shall notify the State involved of such determination and the terms and effectiveness of such waiver.

(B) Denial of waiver

If the Secretary determines a waiver should not be granted under subsection (a)(1), the Secretary shall notify the State involved, and the appropriate committees of Congress of such determination and the reasons therefore.4

(e) Term of waiver

No waiver under this section may extend over a period of longer than 5 years unless the State requests continuation of such waiver, and such request shall be deemed granted unless the Secretary, within 90 days after the date of its submission to the Secretary, either denies such request in writing or informs the State in writing with respect to any additional information which is needed in order to make a final determination with respect to the request.

L. 89–554, Sept. 6, 1966, 80 Stat. 375. See Short Title note preceding section 551 of Title 5.

§ 18053. Provisions relating to offering of plans in more than one State

(a) Health care choice compacts

(1) In general

Not later than July 1, 2013, the Secretary shall, in consultation with the National Association of Insurance Commissioners, issue regulations for the creation of health care choice compacts under which 2 or more States may enter into an agreement under which—

(A) 1 or more qualified health plans could be offered in the individual markets in all such States but, except as provided in subparagraph (B), only be subject to the laws and regulations of the State in which the plan was written or issued;

(B) the issuer of any qualified health plan to which the compact applies—

(i) would continue to be subject to market conduct, unfair trade practices, network adequacy, and consumer protection standards (including standards relating to rating), including addressing disputes as to the performance of the contract, of the State in which the purchaser resides; and

(ii) would be required to be licensed in each State in which it offers the plan under the compact or to submit to the ju-

4So in original. Probably should be "therefor."
risdiction of each such State with regard to the standards described in clause (i) (including allowing access to records as if the insurer were licensed in the State); and
(ii) must clearly notify consumers that the policy may not be subject to all the laws and regulations of the State in which the purchaser resides.

(2) State authority
A State may not enter into an agreement under this subsection unless the State enacts a law after March 23, 2010, that specifically authorizes the State to enter into such agreements.

(3) Approval of compacts
The Secretary may approve interstate health care choice compacts under paragraph (1) only if the Secretary determines that such health care choice compact—
(A) will provide coverage that is at least as comprehensive as the coverage defined in section 18022(b) of this title and offered through Exchanges established under this title;
(B) will provide coverage and cost sharing protections against excessive out-of-pocket spending that are at least as affordable as the provisions of this title would provide;
(C) will provide coverage to at least a comparable number of its residents as the provisions of this title would provide;
(D) will not increase the Federal deficit; and
(E) will not weaken enforcement of laws and regulations described in paragraph (1)(B)(i) in any State that is included in such compact.

(4) Effective date
A health care choice compact described in paragraph (1) shall not take effect before January 1, 2016.

This title, where footnoted in subsec. (a)(3)(A) to (C), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

AMENDMENTS
2010—Subsec. (b). Pub. L. 111–148, §10104(p), struck out subsec. (b) which provided authority and requirements for health insurance issuers to offer nationwide qualified health plans.

§18054. Multi-State plans

(a) Oversight by the Office of Personnel Management

(1) In general
The Director of the Office of Personnel Management (referred to in this section as the “Director”) shall enter into contracts with health insurance issuers (which may include a group of health insurance issuers affiliated either by common ownership and control or by the common use of a nationally licensed service mark), without regard to section 4101 of title 41 or other statutes requiring competitive bidding, to offer at least 2 multi-State qualified health plans through each Exchange in each State. Such plans shall provide individual, or in the case of small employers, group coverage.

(2) Terms
Each contract entered into under paragraph (1) shall be for a uniform term of at least 1 year, but may be made automatically renewable from term to term in the absence of notice of termination by either party. In entering into such contracts, the Director shall ensure that health benefits coverage is provided in accordance with the types of coverage provided for under section 270(a)(1)(A)(ii) of the Public Health Service Act [42 U.S.C. 300gg(a)(1)(A)(ii)].

(3) Non-profit entities
In entering into contracts under paragraph (1), the Director shall ensure that at least one contract is entered into with a non-profit entity.

(4) Administration
The Director shall implement this subsection in a manner similar to the manner in which the Director implements the contracting provisions with respect to carriers under the Federal employees health benefit program 1 under chapter 89 of title 5, including (through negotiating with each multi-state plan)—
(A) a medical loss ratio;
(B) a profit margin;
(C) the premiums to be charged; and
(D) such other terms and conditions of coverage as are in the interests of enrollees in such plans.

(5) Authority to protect consumers
The Director may prohibit the offering of any multi-State health plan that does not meet the terms and conditions defined by the Director with respect to the elements described in subparagraphs (A) through (D) of paragraph (4).

(6) Assured availability of varied coverage
In entering into contracts under this subsection, the Director shall ensure that with respect to multi-State qualified health plans offered in an Exchange, there is at least one such plan that does not provide coverage of services described in section 18023(b)(1)(B)(i) of this title.

(7) Withdrawal
Approval of a contract under this subsection may be withdrawn by the Director only after notice and opportunity for hearing to the

1 See References in Text note below.

2 So in original. The words “employees health benefit program” probably should be capitalized.

3 So in original. Probably should be “multi-State”.

§ 18054  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8564

issuer concerned without regard to subchapter II of chapter 5 and chapter 7 of title 5.

(b) Eligibility

A health insurance issuer shall be eligible to enter into a contract under subsection (a)(1) if such issuer—

(1) agrees to offer a multi-State qualified health plan that meets the requirements of subsection (c) in each Exchange in each State;

(2) is licensed in each State and is subject to all requirements of State law not inconsistent with this section, including the standards and requirements that a State imposes that do not prevent the application of a requirement of part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] or a requirement of this title; 3

(3) otherwise complies with the minimum standards prescribed for carriers offering health benefits plans under section 18022(e) of title 5 to the extent that such standards do not conflict with a provision of this title; 3 and

(4) meets such other requirements as determined appropriate by the Director, in consultation with the Secretary.

(c) Requirements for multi-State qualified health plan

(1) In general

A multi-State qualified health plan meets the requirements of this subsection if, in the determination of the Director—

(A) the plan offers a benefits package that is uniform in each State and consists of the essential benefits described in section 18022 of this title;

(B) the plan meets all requirements of this title with respect to a qualified health plan, including requirements relating to the offering of the bronze, silver, and gold levels of coverage and catastrophic coverage in each State Exchange;

(C) except as provided in paragraph (5), the issuer provides for determinations of premiums for coverage under the plan on the basis of the rating requirements of part A of title XXVII of the Public Health Service Act; and

(D) the issuer offers the plan in all geographic regions, and in all States that have adopted adjusted community rating before March 23, 2010.

(2) States may offer additional benefits

Nothing in paragraph (1)(A) shall preclude a State from requiring that benefits in addition to the essential health benefits required under such paragraph be provided to enrollees of a multi-State qualified health plan offered in such State.

(3) Credits

(A) In general

An individual enrolled in a multi-State qualified health plan under this section shall be eligible for credits under section 36B of title 26 and cost sharing assistance under section 18071 of this title in the same manner as an individual who is enrolled in a qualified health plan.

(B) No additional Federal cost

A requirement by a State under paragraph (2) that benefits in addition to the essential health benefits required under paragraph (1)(A) be provided to enrollees of a multi-State qualified health plan shall not affect the amount of a premium tax credit provided under section 36B of title 26 with respect to such plan.

(4) State must assume cost

A State shall make payments—

(A) to an individual enrolled in a multi-State qualified health plan offered in such State; or

(B) on behalf of an individual described in subparagraph (A) directly to the multi-State qualified health plan in which such individual is enrolled;

and to defray the cost of any additional benefits described in paragraph (2).

(5) Application of certain State rating requirements

With respect to a multi-State qualified health plan that is offered in a State with age rating requirements that are lower than 3:1, the State may require that Exchanges operating in such State only permit the offering of such multi-State qualified health plans if such plans comply with the State’s more protective age rating requirements.

(d) Plans deemed to be certified

A multi-State qualified health plan that is offered under a contract under subsection (a) shall be deemed to be certified by an Exchange for purposes of section 18031(d)(4)(A) of this title.

(e) Phase-in

Notwithstanding paragraphs (1) and (2) of subsection (b), the Director shall enter into a contract with a health insurance issuer for the offering of a multi-State qualified health plan under subsection (a) if—

(1) with respect to the first year for which the issuer offers such plan, such issuer offers the plan in at least 60 percent of the States;

(2) with respect to the second such year, such issuer offers the plan in at least 70 percent of the States;

(3) with respect to the third such year, such issuer offers the plan in at least 85 percent of the States; and

(4) with respect to each subsequent year, such issuer offers the plan in all States.

(f) Applicability

The requirements under chapter 89 of title 5 applicable to health benefits plans under such chapter shall apply to multi-State qualified health plans provided for under this section to the extent that such requirements do not conflict with a provision of this title.3

(g) Continued support for FEHBP

(1) Maintenance of effort

Nothing in this section shall be construed to permit the Director to allocate fewer financial or personnel resources to the functions of the Office of Personnel Management related to the administration of the Federal Employees

3See References in Text note below.
Health Benefit Program under chapter 89 of title 5.

(2) Separate risk pool

Enrollees in multi-State qualified health plans under this section shall be treated as a separate risk pool apart from enrollees in the Federal Employees Health Benefit Program under chapter 89 of title 5.

(3) Authority to establish separate entities

The Director may establish such separate units or offices within the Office of Personnel Management as the Director determines to be appropriate to ensure that the administration of multi-State qualified health plans under this section does not interfere with the effective administration of the Federal Employees Health Benefit Program under chapter 89 of title 5.

(4) Effective oversight

The Director may appoint such additional personnel as may be necessary to enable the Director to carry out activities under this section.

(5) Assurance of separate program

In carrying out this section, the Director shall ensure that the program under this section is separate from the Federal Employees Health Benefit Program under chapter 89 of title 5. Premiums paid for coverage under a multi-State qualified health plan under this section shall not be considered to be Federal funds for any purposes.

(6) FEHBP plans not required to participate

Nothing in this section shall require that a carrier offering coverage under the Federal Employees Health Benefit Program under chapter 89 of title 5 also offer a multi-State qualified health plan under this section.

(h) Advisory board

The Director shall establish an advisory board to provide recommendations on the activities described in this section. A significant percentage of the members of such board shall be comprised of enrollees in a multi-State qualified health plan, or representatives of such enrollees.

(i) Authorization of appropriations

There is authorized to be appropriated, such sums as may be necessary to enable the Director to carry out activities under this section.

PART E—REINSURANCE AND RISK ADJUSTMENT

§ 18061. Transitional reinsurance program for individual market in each State

(a) In general

Each State shall, not later than January 1, 2014—

(1) include in the Federal standards or State law or regulation the State adopts and has in effect under section 18041(b) of this title the provisions described in subsection (b); and

(2) establish (or enter into a contract with) 1 or more applicable reinsurance entities to carry out the reinsurance program under this section.

(b) Model regulation

(1) In general

In establishing the Federal standards under section 18041(a) of this title, the Secretary, in consultation with the National Association of Insurance Commissioners (the “NAIC”), shall include provisions that enable States to establish and maintain a program under which—

(A) health insurance issuers, and third party administrators on behalf of group health plans, are required to make payments to an applicable reinsurance entity for any plan year beginning in the 3-year period beginning January 1, 2014 (as specified in paragraph (3)); and

(B) the applicable reinsurance entity collects payments under subparagraph (A) and uses amounts so collected to make reinsurance payments to health insurance issuers described in subparagraph (A) that cover high risk individuals in the individual market (excluding grandfathered health plans) for any plan year beginning in such 3-year period.

(2) High-risk individual; payment amounts

The Secretary shall include the following in the provisions under paragraph (1):

(A) Determination of high-risk individuals

The method by which individuals will be identified as high risk individuals for purposes of the reinsurance program established under this section. Such method shall provide for identification of individuals as high-risk individuals on the basis of—

(i) a list of at least 50 but not more than 100 medical conditions that are identified as high-risk conditions and that may be based on the identification of diagnostic and procedure codes that are indicative of individuals with pre-existing, high-risk conditions; or

(ii) any other comparable objective method of identification recommended by the American Academy of Actuaries.

§ 18061.

REPEALS IN TEXT

The Public Health Service Act, referred to in subs. (b)(2) and (c)(1)(C), is act July 1, 1944, ch. 373, 58 Stat. 683. Part A of title XXVII of the Act is classified generally to part A (§300gg et seq.) of subchapter XXV of chapter 6A of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

This title, referred to in subs. (b)(2), (3), (c)(1)(B), and (l), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

CODIFICATION

1 So in original. A second closing parenthesis probably should precede the semicolon.
(B) Payment amount

The formula for determining the amount of payments that will be paid to health insurance issuers described in paragraph (1)(B) that insure high-risk individuals. Such formula shall provide for the equitable allocation of available funds through reconciliation and may be designed—
- (i) to provide a schedule of payments that specifies the amount that will be paid for each of the conditions identified under subparagraph (A); or
- (ii) to use any other comparable method for determining payment amounts that is recommended by the American Academy of Actuaries and that encourages the use of care coordination and care management programs for high risk conditions.

(3) Determination of required contributions

(A) In general

The Secretary shall include in the provisions under paragraph (1) the method for determining the amount each health insurance issuer and group health plan described in paragraph (1)(A) contributing to the reinsurance program under this section is required to contribute under such paragraph for each plan year beginning in the 36-month period beginning January 1, 2014. The contribution amount for any plan year may be based on the percentage of revenue of each issuer and the total costs of providing benefits to enrollees in self-insured plans or on a specified amount per enrollee and may be required to be paid in advance or periodically throughout the plan year.

(B) Specific requirements

The method under this paragraph shall be designed so that—
- (i) the contribution amount for each issuer proportionally reflects each issuer’s fully insured commercial book of business for all major medical products and the total value of all fees charged by the issuer and the costs of coverage administered by the issuer as a third party administrator;
- (ii) the contribution amount can include an additional amount to fund the administrative expenses of the applicable reinsurance entity;
- (iii) the aggregate contribution amounts for all States shall, based on the best estimates of the NAIC and without regard to amounts described in clause (ii), equal $10,000,000,000 for plan years beginning in 2014, $6,000,000,000 for plan years beginning in 2015, and $4,000,000,000 for plan years beginning in 2016; and
- (iv) in addition to the aggregate contribution amounts under clause (iii), each issuer’s contribution amount for any calendar year under clause (iii) reflects its proportionate share of an additional $2,000,000,000 for 2014, an additional $2,000,000,000 for 2015, and an additional $1,000,000,000 for 2016.

Nothing in this subparagraph shall be construed to preclude a State from collecting additional amounts from issuers on a voluntary basis.

(4) Expenditure of funds

The provisions under paragraph (1) shall provide that—

(A) the contribution amounts collected for any calendar year may be allocated and used in any of the three calendar years for which amounts are collected based on the reinsurance needs of a particular period or to reflect experience in a prior period; and

(B) amounts remaining unexpended as of December, 2016, may be used to make payments under any reinsurance program of a State in the individual market in effect in the 2-year period beginning on January 1, 2017.

Notwithstanding the preceding sentence, any contribution amounts described in paragraph (3)(B)(iv) shall be deposited into the general fund of the Treasury of the United States and may not be used for the program established under this section.

(c) Applicable reinsurance entity

For purposes of this section—

(1) In general

The term “applicable reinsurance entity” means a not-for-profit organization—

(A) the purpose of which is to help stabilize premiums for coverage in the individual market in a State during the first 3 years of operation of an Exchange for such markets within the State when the risk of adverse selection related to new rating rules and market changes is greatest; and

(B) the duties of which shall be to carry out the reinsurance program under this section by coordinating the funding and operation of the risk-spreading mechanisms designed to implement the reinsurance program.

(2) State discretion

A State may have more than 1 applicable reinsurance entity to carry out the reinsurance program under this section within the State and 2 or more States may enter into agreements to provide for an applicable reinsurance entity to carry out such program in all such States.

(3) Entities are tax-exempt

An applicable reinsurance entity established under this section shall be exempt from taxation under chapter 1 of title 26. The preceding sentence shall not apply to the tax imposed by section 511 such 3 title (relating to tax on unrelated business taxable income of an exempt organization).
Payment methodology

Social Security Act [42 U.S.C. 1395w–101 et seq.]. Organizations under part D of title XVIII of the Act may participate in a payment adjustment system based on the ratio of the allowable costs of the plan to the plan’s aggregate premiums. Such program shall be based on the program for regional participating provider organizations under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.].

§ 18062. Establishment of risk corridors for plans in individual and small group markets

(a) In general

The Secretary shall establish and administer a program of risk corridors for calendar years 2014, 2015, and 2016 under which a qualified health plan offered in the individual or small group market shall participate in a payment adjustment system based on the ratio of the allowable costs of the plan to the plan’s aggregate premiums. Such program shall be based on the program for regional participating provider organizations under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.].

(b) Payment methodology

(1) Payments out

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan’s allowable costs for any plan year are more than 103 percent but not more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to 50 percent of the target amount in excess of 103 percent of the target amount; and

(B) a participating plan’s allowable costs for any plan year are more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of allowable costs in excess of 108 percent of the target amount.

(2) Payments in

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan’s allowable costs for any plan year are less than 92 percent but not less than 97 percent of the target amount, the plan shall pay to the Secretary an amount equal to 50 percent of the excess of 97 percent of the target amount over the allowable costs; and

(B) a participating plan’s allowable costs for any plan year are less than 92 percent of the target amount, the plan shall pay to the Secretary an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of the excess of 92 percent of the target amount over the allowable costs.

(c) Definitions

In this section:

(1) Allowable costs

(A) In general

The amount of allowable costs of a plan for any year is an amount equal to the total costs (other than administrative costs) of the plan in providing benefits covered by the plan.

(B) Reduction for risk adjustment and reinsurance payments

Allowable costs shall be reduced by any risk adjustment and reinsurance payments received under section 18061 and 18063 of this title.

(2) Target amount

The target amount of a plan for any year is an amount equal to the total premiums (including any premium subsidies under any governmental program), reduced by the administrative costs of the plan.

REFERENCES IN TEXT

§ 18063. Risk adjustment

(a) In general

(1) Low actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall assess a charge on health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is less than the average actuarial risk of all enrollees in all plans or coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974 [29 U.S.C. 1001 et seq.]).

(2) High actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall provide a payment to health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is greater than the average actuarial risk of all enrollees in all plans and coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974).

(b) Criteria and methods

The Secretary, in consultation with States, shall establish criteria and methods to be used in carrying out the risk adjustment activities under this section. The Secretary may utilize criteria and methods similar to the criteria and methods utilized under part C or D of title XVIII of the Social Security Act [42 U.S.C. 1395w–21 et seq., 1395w–101 et seq.]. Such criteria and methods shall be included in the standards and
§ 18071. Reduced cost-sharing for individuals enrolling in qualified health plans

(a) In general
In the case of an eligible insured enrolled in a qualified health plan—
(1) the Secretary shall notify the issuer of the plan of such eligibility; and
(2) the issuer shall reduce the cost-sharing under the plan at the level and in the manner specified in subsection (c).

(b) Eligible insured
In this section, the term “eligible insured” means an individual—
(1) who enrolls in a qualified health plan in the silver level of coverage in the individual market offered through an Exchange; and
(2) whose household income exceeds 100 percent but not more than 200 percent of the poverty line for a family of the size involved.

In the case of an eligible insured who enrolls in a qualified health plan under this subsection who is also an eligible insured—
(1) in the individual or small group market within the State. This subsection shall not apply to a grandfathered health plan or the issuer of a grandfathered health plan with respect to that plan.

(B) Coordination with actuarial value limits

(i) In general
The Secretary shall ensure the reduction under this paragraph shall not result in an increase in the plan’s share of the total allowed costs of benefits provided under the plan above—
(I) 94 percent in the case of an eligible insured described in paragraph (2)(A);
(II) 87 percent in the case of an eligible insured described in paragraph (2)(B);
(III) 73 percent in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved; and
(IV) 70 percent in the case of an eligible insured whose household income is more than 250 percent but not more than 400 percent of the poverty line for a family of the size involved.

(ii) Adjustment
The Secretary shall adjust the out-of-pocket limits under paragraph (1) if necessary to ensure that such limits do not cause the respective actuarial values to exceed the levels specified in clause (i).

(2) Additional reduction for lower income insureds
The Secretary shall establish procedures under which the issuer of a qualified health plan to which this section applies shall further reduce cost-sharing under the plan in a manner sufficient to—
(A) in the case of an eligible insured whose household income is not less than 100 percent but not more than 150 percent of the poverty line for a family of the size involved, increase the plan’s share of the total allowed costs of benefits provided under the plan to 94 percent of such costs;
(B) in the case of an eligible insured whose household income is more than 150 percent but not more than 200 percent of the poverty line for a family of the size involved, increase the plan’s share of the total allowed costs of benefits provided under the plan to 87 percent of such costs; and
(C) in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved, increase the plan’s share of the total allowed costs of benefits provided under the plan to 73 percent of such costs.

So in original. Probably should be “out-of-pocket”.
(3) Methods for reducing cost-sharing

(A) In general

An issuer of a qualified health plan making reductions under this subsection shall notify the Secretary of such reductions and the Secretary shall make periodic and timely payments to the issuer equal to the value of the reductions.

(B) Capitated payments

The Secretary may establish a capitated payment system to carry out the payment of cost-sharing reductions under this section. Any such system shall take into account the value of the reductions and make appropriate risk adjustments to such payments.

(4) Additional benefits

If a qualified health plan under section 18022(b)(5) of this title offers benefits in addition to the essential health benefits required to be provided by the plan, or a State requires a qualified health plan under section 18031(d)(3)(B) of this title to cover benefits in addition to the essential health benefits required to be provided by the plan, the reductions in cost-sharing under this section shall not apply to such additional benefits.

(5) Special rule for pediatric dental plans

If an individual enrolls in both a qualified health plan and a plan described in section 18031(d)(2)(B)(ii)(I) not apply to such additional benefits. If an individual enrolls in both a qualified health plan and a plan described in section 18031(d)(2)(B)(ii)(I), the Secretary shall make periodic and time-

(1) Lawfully present

For purposes of this section, an individual shall be treated as lawfully present only if the individual is, and is reasonably expected to be, present in the United States.

(2) Secretarial authority

The Secretary, in consultation with the Secretary of the Treasury, shall prescribe rules setting forth the methods by which calculations of family size and household income are made for purposes of this subsection. Such rules shall be designed to ensure that the least burden is placed on individuals enrolling in qualified health plans through an Exchange and taxpayers eligible for the credit allowable under this section.

(f) Definitions and special rules

In this section:

(1) In general

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

(2) Limitations on reduction

No cost-sharing reduction shall be allowed under this section with respect to coverage for
any month unless the month is a coverage month with respect to which a credit is allowed to the insured (or an applicable taxpayer on behalf of the insured) under section 36B of such title.

(3) Data used for eligibility

Any determination under this section shall be made on the basis of the taxable year for which the advance determination is made under section 18082 of this title and not the taxable year for which the credit under section 36B of title 26 is allowed.

Amendments

2010—Subsec. (c)(1)(B)(i)(I). Pub. L. 111–152, § 1001(b)(2)(A)(ii), (C), added subcls. (III) and (IV) and struck out former subcl. (III). Prior to amendment, subcl. (III) read as follows: “70 percent in the case of an eligible insured described in clause (ii) or (iii) of subparagraph (A).”

Subsec. (c)(2)(C). Pub. L. 111–152, § 1001(b)(2)(B)(ii), (C), added subs. (III) and (IV) and struck out former subcl. (III). Prior to amendment, subcl. (III) read as follows: “70 percent in the case of an eligible insured described in clause (ii) or (iii) of subparagraph (A).”

Part B—Eligibility Determinations

§ 18081. Procedures for determining eligibility for Exchange participation, premium tax credits and reduced cost-sharing, and individual responsibility exemptions

(a) Establishment of program

The Secretary shall establish a program meeting the requirements of this section for determining—

(1) whether an individual who is to be covered in the individual market by a qualified health plan offered through an Exchange, or who is claiming a premium tax credit or reduced cost-sharing, meets the requirements of sections 18082(c)(3), 18071(e), and 18082(d) of this title and section 36B(e) of title 26 that the individual be a citizen or national of the United States or an alien lawfully present in the United States; and

(2) in the case of an individual claiming a premium tax credit or reduced cost-sharing under section 36B of title 26 or section 18071 of this title—

(A) whether the individual meets the income and coverage requirements of such sections; and

(B) the amount of the tax credit or reduced cost-sharing;

(3) whether an individual’s coverage under an employer-sponsored health benefits plan is treated as unaffordable under sections 36B(c)(2)(C) and 5000A(e)(2) of title 26; and

(4) whether to grant a certification under section 18031(d)(4)(H) of this title attesting that, for purposes of the individual responsibility requirement under section 5000A of title 26, an individual is entitled to an exemption from either the individual responsibility requirement or the penalty imposed by such section.

(b) Information required to be provided by applicants

(1) In general

An applicant for enrollment in a qualified health plan offered through an Exchange in the individual market shall provide—

(A) the name, address, and date of birth of each individual who is to be covered by the plan (in this subsection referred to as an “enrollee”); and

(B) the information required by any of the following paragraphs that is applicable to an enrollee.

(2) Citizenship or immigration status

The following information shall be provided with respect to every enrollee:

(A) In the case of an enrollee whose eligibility is based on an attestation of citizenship of the enrollee, the enrollee’s social security number.

(B) In the case of an individual whose eligibility is based on an attestation of the enrollee’s immigration status, the enrollee’s social security number (if applicable) and such identifying information with respect to the enrollee’s immigration status as the Secretary, after consultation with the Secretary of Homeland Security, determines appropriate.

(3) Eligibility and amount of tax credit or reduced cost-sharing

In the case of an enrollee with respect to whom a premium tax credit or reduced cost-sharing under section 36B of title 26 or section 18071 of this title is being claimed, the following information:

(A) Information regarding income and family size

The information described in section 6103(l)(21) of title 26 for the taxable year ending with or within the second calendar year preceding the calendar year in which the plan year begins.

(B) Certain individual health insurance policies obtained through small employers

The amount of the enrollee’s permitted benefit (as defined in section 9831(d)(3)(C) of title 26) under a qualified small employer health reimbursement arrangement (as defined in section 9831(d)(2) of such title).

(C) Changes in circumstances

The information described in section 18082(b)(2) of this title, including information with respect to individuals who were not required to file an income tax return for the taxable year described in subparagraph (A) or individuals who experienced changes in marital status or family size or significant reductions in income.

(4) Employer-sponsored coverage

In the case of an enrollee with respect to whom eligibility for a premium tax credit...
under section 36B of title 26 or cost-sharing reduction under section 18071 of this title is being established on the basis that the enrollee’s (or related individual’s) employer is not treated under section 36B(c)(2)(C) of title 26 as providing minimum essential coverage or affordable minimum essential coverage, the following information:

(A) The name, address, and employer identification number (if available) of the employer.

(B) Whether the enrollee or individual is a full-time employee and whether the employer provides such minimum essential coverage.

(C) If the employer provides such minimum essential coverage, the lowest cost option for the enrollee’s or individual’s enrollment status and the enrollee’s or individual’s required contribution (within the meaning of section 5000A(e)(1)(B) of title 26) under the employer-sponsored plan.

(D) If an enrollee claims an employer’s minimum essential coverage is unaffordable, the information described in paragraph (3).

If an enrollee changes employment or obtains additional employment while enrolled in a qualified health plan for which such credit or reduction is allowed, the enrollee shall notify the Exchange of such change or additional employment and provide the information described in this paragraph with respect to the new employer.

(5) Exemptions from individual responsibility requirements

In the case of an individual who is seeking an exemption certificate under section 18031(d)(4)(H) of this title from any requirement or penalty imposed by section 5000A of title 26, the following information:

(A) In the case of an individual seeking exemption based on the individual’s status as a member of a health care sharing ministry, as an Indian, or as an individual eligible for a hardship exemption, such information as the Secretary shall prescribe.

(B) In the case of an individual seeking exemption based on the lack of affordable coverage or the individual’s status as a taxpayer with household income less than 100 percent of the poverty line, the information described in paragraphs (3) and (4), as applicable.

(c) Verification of information contained in records of specific Federal officials

(1) Information transferred to Secretary

An Exchange shall submit the information provided by an applicant under subsection (b) to the Secretary for verification in accordance with the requirements of this subsection and subsection (d).

(2) Citizenship or immigration status

(A) Commissioner of Social Security

The Secretary shall submit to the Commissioner of Social Security the following information for a determination as to whether the information provided is consistent with the information in the records of the Commissioner:

(i) The name, date of birth, and social security number of each individual for whom such information was provided under subsection (b)(2).

(ii) The attestation of an individual that the individual is a citizen.

(B) Secretary of Homeland Security

(i) In general

In the case of an individual—

(I) who attests that the individual is a citizen but with respect to whom the Commissioner of Social Security has notified the Secretary under subsection (e)(3) that the attestation is inconsistent with information in the records maintained by the Commissioner;

(ii) by determining the consistency of the information provided with the information described in clause (i)(II), the attestation that the individual is a citizen.

(A) The name, date of birth, and any identity number (if available) of each individual for whom an exemption certificate was issued under section 36B(c)(2) of title 26, the following information:

(i) In general

(I) who attests that the individual is an alien lawfully present in the United States; or

(ii) by determining the consistency of the information provided with the information described in clause (i)(II), the attestation that the individual is a citizen.

(B) The attestation that the individual is an alien lawfully present in the United States or in the case of an individual described in clause (i)(II), the attestation that the individual is a citizen.

(3) Eligibility for tax credit and cost-sharing reduction

The Secretary shall submit the information described in subsection (b)(3)(A) provided under paragraph (3), (4), or (5) of subsection (b) to the Secretary of the Treasury for verification of household income and family size for purposes of eligibility.

(4) Methods

(A) In general

The Secretary, in consultation with the Secretary of the Treasury, the Secretary of Homeland Security, and the Commissioner of Social Security, shall provide that verifications and determinations under this subsection shall be done—

(i) through use of an on-line system or otherwise for the electronic submission of, and response to, the information submitted under this subsection with respect to an applicant; or

(ii) by determining the consistency of the information submitted with the information maintained in the records of the Secretary of the Treasury, the Secretary of Homeland Security, or the Commissioner of Social Security through such
other method as is approved by the Secretary.

(B) Flexibility

The Secretary may modify the methods used under the program established by this section for the Exchange and verification of information if the Secretary determines such modifications would reduce the administrative costs and burdens on the applicant, including allowing an applicant to request the Secretary of the Treasury to provide the information described in paragraph (3) directly to the Exchange or to the Secretary. The Secretary shall not make any such modification unless the Secretary determines that any applicable requirements under this section and section 6103 of title 26 with respect to the confidentiality, disclosure, maintenance, or use of information will be met.

(d) Verification by Secretary

In the case of information provided under subsection (b) that is not required under subsection (c) to be submitted to another person for verification, the Secretary shall verify the accuracy of such information in such manner as the Secretary determines appropriate, including delegating responsibility for verification to the Exchange.

(e) Actions relating to verification

(1) In general

Each person to whom the Secretary provided information under subsection (c) shall report to the Secretary under the method established under subsection (c)(4) the results of its verification and the Secretary shall notify the Exchange of such results. Each person to whom the Secretary provided information under subsection (d) shall report to the Secretary in such manner as the Secretary determines appropriate.

(2) Verification

(A) Eligibility for enrollment and premium tax credits and cost-sharing reductions

If information provided by an applicant under paragraphs (1), (2), (3), and (4) of subsection (b) is verified under subsections (c) and (d)—

(i) the individual’s eligibility to enroll through the Exchange and to apply for premium tax credits and cost-sharing reductions shall be satisfied; and

(ii) the Secretary shall, if applicable, notify the Secretary of the Treasury under section 18082(c) of this title of the amount of any advance payment to be made.

(B) Exemption from individual responsibility

If information provided by an applicant under subsection (b)(5) is verified under subsections (c) and (d), the Secretary shall issue the certification of exemption described in section 18031(d)(4)(H) of this title.

(3) Inconsistencies involving attestation of citizenship or lawful presence

If the information provided by any applicant under subsection (b)(2) is inconsistent with information in the records maintained by the Commissioner of Social Security or Secretary of Homeland Security, whichever is applicable, the applicant’s eligibility will be determined in the same manner as an individual’s eligibility under the medicaid program is determined under section 1396a(ee) of this title (as in effect on January 1, 2010).

(4) Inconsistencies involving other information

(A) In general

If the information provided by an applicant under subsection (b) (other than subsection (b)(2)) is inconsistent with information in the records maintained by persons under subsection (c) or is not verified under subsection (d), the Secretary shall notify the Exchange and the Exchange shall take the following actions:

(i) Reasonable effort

The Exchange shall make a reasonable effort to identify and address the causes of such inconsistency, including through typographical or other clerical errors, by contacting the applicant to confirm the accuracy of the information, and by taking such additional actions as the Secretary, through regulation or other guidance, may identify.

(ii) Notice and opportunity to correct

In the case the inconsistency or inability to verify is not resolved under subparagraph (A), the Exchange shall—

(I) notify the applicant of such fact;

(II) provide the applicant an opportunity to either present satisfactory documentary evidence or resolve the inconsistency with the person verifying the information under subsection (c) or (d) during the 90-day period beginning the date on which the notice required under subclause (I) is sent to the applicant.

The Secretary may extend the 90-day period under subclause (II) for enrollments occurring during 2014.

(B) Specific actions not involving citizenship or lawful presence

(i) In general

Except as provided in paragraph (3), the Exchange shall, during any period before the close of the period under subparagraph (A)(ii)(II), make any determination under paragraphs (2), (3), and (4) of subsection (a) on the basis of the information contained on the application.

(ii) Eligibility or amount of credit or reduction

If an inconsistency involving the eligibility for, or amount of, any premium tax credit or cost-sharing reduction is unresolved under this subsection as of the close of the period under subparagraph (A)(ii)(II), the Exchange shall notify the applicant of the amount (if any) of the credit or reduction that is determined on the basis of the records maintained by persons under subsection (c).
(iii) Employer affordability

If the Secretary notifies an Exchange that an enrollee is eligible for a premium tax credit under section 36B of title 26 or cost-sharing reduction under section 18071 of this title because the enrollee’s (or related individual’s) employer does not provide minimum essential coverage through an employer-sponsored plan or that the employer does provide that coverage but it is not affordable coverage, the Exchange shall notify the employer of such fact and that the employer may be liable for the payment assessed under section 4980H of title 26.

(iv) Exemption

In any case where the inconsistency involving, or inability to verify, information provided under subsection (b)(5) is not resolved as of the close of the period under subparagraph (A) or (II), the Exchange shall notify an applicant that no certification of exemption from any requirement or payment under section 5000A of such title will be issued.

(C) Appeals process

The Exchange shall also notify each person receiving notice under this paragraph of the appeals processes established under subsection (f).

(f) Appeals and redeterminations

(1) In general

The Secretary, in consultation with the Secretary of the Treasury, the Secretary of Homeland Security, and the Commissioner of Social Security, shall establish procedures by which the Secretary or one of such other Federal officers—

(A) hears and makes decisions with respect to appeals of any determination under subsection (e); and

(B) redetermines eligibility on a periodic basis in appropriate circumstances.

(2) Employer liability

(A) In general

The Secretary shall establish a separate appeals process for employers who are notified under subsection (e)(4)(C) that the employer may be liable for a tax imposed by section 4980H of title 26 with respect to an employee because of a determination that the employer does not provide minimum essential coverage through an employer-sponsored plan or that the employer does provide that coverage but it is not affordable coverage with respect to an employee. Such process shall provide an employer the opportunity to—

(i) present information to the Exchange for review of the determination either by the Exchange or the person making the determination, including evidence of the employer-sponsored plan and employer contributions to the plan; and

(ii) have access to the data used to make the determination to the extent allowable by law.

Such process shall be in addition to any rights of appeal the employer may have under subtitle F of such title.

(B) Confidentiality

Notwithstanding any provision of this title (or the amendments made by this title) or section 6103 of title 26, an employer shall not be entitled to any taxpayer return information with respect to an employee for purposes of determining whether the employer is subject to the penalty under section 4980H of title 26 with respect to the employee, except that—

(i) the employer may be notified as to the name of an employee and whether or not the employee’s income is above or below the threshold by which the affordability of an employer’s health insurance coverage is measured; and

(ii) this subparagraph shall not apply to an employee who provides a waiver (at such time and in such manner as the Secretary may prescribe) authorizing an employer to have access to the employee’s taxpayer return information.

(g) Confidentiality of applicant information

(1) In general

An applicant for insurance coverage or for a premium tax credit or cost-sharing reduction shall be required to provide only the information strictly necessary to authenticate identity, determine eligibility, and determine the amount of the credit or reduction.

(2) Receipt of information

Any person who receives information provided by an applicant under subsection (b) (whether directly or by another person at the request of the applicant), or receives information from a Federal agency under subsection (c), (d), or (e), shall—

(A) use the information only for the purposes of, and to the extent necessary in, ensuring the efficient operation of the Exchange, including verifying the eligibility of an individual to enroll through an Exchange or to claim a premium tax credit or cost-sharing reduction or the amount of the credit or reduction; and

(B) not disclose the information to any other person except as provided in this section.

(h) Penalties

(1) False or fraudulent information

(A) Civil penalty

(i) In general

If—

(I) any person fails to provide correct information under subsection (b); and

(II) such failure is attributable to negligence or disregard of any rules or regulations of the Secretary,

such person shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than

\[3\text{So in original. Probably should be “provide”}.\]
$25,000 with respect to any failures involving an application for a plan year. For purposes of this subparagraph, the terms "negligence" and "disregard" shall have the same meanings as when used in section 6662 of title 26.

(ii) Reasonable cause exception

No penalty shall be imposed under clause (i) if the Secretary determines that there was a reasonable cause for the failure and that the person acted in good faith.

(B) Knowing and willful violations

Any person who knowingly and willfully provides false or fraudulent information under subsection (b) shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than $250,000.

(2) Improper use or disclosure of information

Any person who knowingly and willfully uses or discloses information in violation of subsection (g) shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not more than $25,000.

(3) Limitations on liens and levies

The Secretary (or, if applicable, the Attorney General of the United States) shall not—

(A) file notice of lien with respect to any property of a person by reason of any failure to pay the penalty imposed by this subsection; or

(B) levy on any such property with respect to such failure.

(i) Study of administration of employer responsibility

(1) In general

The Secretary of Health and Human Services shall, in consultation with the Secretary of the Treasury, conduct a study of the procedures that are necessary to ensure that in the administration of this title and section 4980H of title 26 (as added by section 1513) 1 that the following rights are protected:

(A) The rights of employees to preserve their right to confidentiality of their taxpayer return information and their right to enroll in a qualified health plan through an Exchange if an employer does not provide affordable coverage.

(B) The rights of employers to adequate due process and access to information necessary to accurately determine any payment assessed on employers.

(2) Report

Not later than January 1, 2013, the Secretary of Health and Human Services shall report the results of the study conducted under paragraph (1), including any recommendations for legislative changes, to the Committees on Finance and Health, Education, Labor and Pensions of the Senate and the Committees on Education and Labor and Ways and Means of the House of Representatives.

Sections 36B(c)(2)(C) and 5000A(e)(2) of title 26, section 6103(h)(2) of title 26, and section 5000A of title 26, referred to in subsections (a)(3) and (b)(3)(A), (B), were in the original "sections 36B(c)(2)(C) and 5000A(e)(2)", "section 6103(h)(2)", and "section 5000A", respectively, and were translated as if they had been followed by "of the Internal Revenue Code of 1986", to reflect the probable intent of Congress.

This title, referred to in subsections (f)(2)(B) and (i)(1), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

Amendments

2016—Subsec. (b)(3)(B), (C). Pub. L. 114–255 added subpar. (B) and redesignated former subpar. (B) as (C).

Effective Date of 2016 Amendment

Verification of Household Income and Other Qualifications for the Provision of ACA Premium and Cost-Sharing Subsidies

"(a) In General.—Notwithstanding any other provision of law, the Secretary of Health and Human Services (referred to in this section as the 'Secretary') shall ensure that American Health Benefit Exchanges verify that individuals applying for premium tax credits under section 36B of the Internal Revenue Code of 1986 (26 U.S.C. 36B) and reductions in cost-sharing under section 1402 of the Patient Protection and Affordable Care Act (42 U.S.C. 18071) are eligible for such credits and cost sharing reductions consistent with the requirements of section 1411 of such Act (42 U.S.C. 18081), and, prior to making such credits and reductions available, the Secretary shall certify to the Congress that the Exchanges verify such eligibility consistent with the requirements of such Act [Pub. L. 111–148, see Tables for classification].

"(b) Report by Secretary.—Not later than January 1, 2014, the Secretary shall submit a report to the Congress that details the procedures employed by American Health Benefit Exchanges to verify eligibility for credits and cost-sharing reductions described in subsection (a).

"(c) Report by Inspector General.—Not later than July 1, 2014, the Inspector General of the Department of Health and Human Services shall submit to the Congress a report regarding the effectiveness of the procedures and safeguards provided under the Patient Protection and Affordable Care Act for preventing the submission of inaccurate or fraudulent information by applicants for enrollment in a qualified health plan offered through an American Health Benefit Exchange."

§ 18082. Advance determination and payment of premium tax credits and cost-sharing reductions

(a) In general

The Secretary, in consultation with the Secretary of the Treasury, shall establish a program under which—

(1) upon request of an Exchange, advance determinations are made under section 18081 of this title with respect to the income eligibility of individuals enrolling in a qualified...
health plan in the individual market through the Exchange for the premium tax credit allowable under section 36B of title 26 and the cost-sharing reductions under section 18071 of this title;

(2) the Secretary notifies—

(A) the Exchange and the Secretary of the Treasury of the advance determinations; and

(B) the Secretary of the Treasury of the name and employer identification number of each employer with respect to whom 1 or more employees of the employer were determined to be eligible for the premium tax credit under section 36B of title 26 and the cost-sharing reductions under section 18071 of this title because—

(i) the employer did not provide minimum essential coverage; or

(ii) the employer provided such minimum essential coverage but it was determined under section 36B(c)(2)(C) of title 26 to either be unaffordable to the employee or not provide the required minimum actuarial value; and

(3) the Secretary of the Treasury makes advance payments of such credit or reductions to the issuers of the qualified health plans in order to reduce the premiums payable by individuals eligible for such credit.

(b) Advance determinations

(1) In general

The Secretary shall provide under the program established under subsection (a) that advance determination of eligibility with respect to any individual shall be made—

(A) during the annual open enrollment period applicable to the individual (or such other enrollment period as may be specified by the Secretary); and

(B) on the basis of the individual’s household income for the most recent taxable year for which the Secretary, after consultation with the Secretary of the Treasury, determines information is available.

(2) Changes in circumstances

The Secretary shall provide procedures for making advance determinations on the basis of information other than that described in paragraph (1)(B) in cases where information included with an application form demonstrates substantial changes in income, changes in family size or other household circumstances, change in filing status, the filing of an application for unemployment benefits, or other significant changes affecting eligibility, including—

(A) allowing an individual claiming a decrease of 20 percent or more in income, or filing an application for unemployment benefits, to have eligibility for the credit determined on the basis of household income for a later period or on the basis of the individual’s estimate of such income for the taxable year; and

(B) the determination of household income in cases where the taxpayer was not required to file a return of tax imposed by this chapter for the second preceding taxable year.

(c) Payment of premium tax credits and cost-sharing reductions

(1) In general

The Secretary shall notify the Secretary of the Treasury and the Exchange through which the individual is enrolling of the advance determination under section 18081 of this title.

(2) Premium tax credit

(A) In general

The Secretary of the Treasury shall make the advance payment under this section of any premium tax credit allowed under section 36B of title 26 to the issuer of a qualified health plan on a monthly basis (or such other periodic basis as the Secretary may provide).

(B) Issuer responsibilities

An issuer of a qualified health plan receiving an advance payment with respect to an individual enrolled in the plan shall—

(i) reduce the premium charged the insured for any period by the amount of the advance payment for the period;

(ii) notify the Exchange and the Secretary of such reduction;

(iii) include with each billing statement the amount by which the premium for the plan has been reduced by reason of the advance payment; and

(iv) in the case of any nonpayment of premiums by the insured—

(I) notify the Secretary of such nonpayment; and

(II) allow a 3-month grace period for nonpayment of premiums before discontinuing coverage.

(3) Cost-sharing reductions

The Secretary shall also notify the Secretary of the Treasury and the Exchange under paragraph (1) if an advance payment of the cost-sharing reductions under section 18071 of this title is to be made to the issuer of any qualified health plan with respect to any individual enrolled in the plan. The Secretary of the Treasury shall make such advance payment at such time and in such amount as the Secretary specifies in the notice.

(d) No Federal payments for individuals not lawfully present

Nothing in this subtitle or the amendments made by this subtitle allows Federal payments, credits, or cost-sharing reductions for individuals who are not lawfully present in the United States.

(e) State flexibility

Nothing in this subtitle or the amendments made by this subtitle shall be construed to prohibit a State from making payments to or on behalf of an individual for coverage under a qualified health plan offered through an Exchange that are in addition to any credits or cost-sharing reductions allowable to the individual under this subtitle and such amendments.

REFERENCES IN TEXT

This subtitle, referred to in subsecs. (d) and (e), is subtitle E (§§1401–1421) of title I of Pub. L. 111–148.
which enacted this chapter and sections 36B and 45R of Title 26, Internal Revenue Code, amended section 405 of this title, sections 38, 136, 280C, 6103, and 7213 of Title 26, and section 1324 of Title 31, Money and Finance, and enacted provisions set out as notes under sections 36B and 38 of Title 26. For complete classification of sub-

title E to the Code, see Tables.

§ 18083. Streamlining of procedures for enrollment through an Exchange and State med-
icaid, CHIP, and health subsidy programs

(a) In general

The Secretary shall establish a system meeting the requirements of this section under which residents of each State may apply for enrollment in, receive a determination of eligibility for participation in, and continue participation in, applicable State health subsidy programs. Such system shall ensure that if an individual applying to an Exchange is found through screening to be eligible for medical assistance under the State medicaid plan under title XIX of [42 U.S.C. 1396 et seq.], or eligible for enrollment under a State children’s health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.], the individual is enrolled for assistance under such plan or program.

(b) Requirements relating to forms and notice

(1) Requirements relating to forms

(A) In general

The Secretary shall develop and provide to each State a single, streamlined form that—

(i) may be used to apply for all applicable State health subsidy programs within the State;

(ii) may be filed online, in person, by mail, or by telephone;

(iii) may be filed with an Exchange or with State officials operating one of the other applicable State health subsidy programs; and

(iv) is structured to maximize an applicant’s ability to complete the form satisfactorily, taking into account the characteristics of individuals who qualify for applicable State health subsidy programs.

(B) State authority to establish form

A State may develop and use its own single, streamlined form as an alternative to the form developed under subparagraph (A) if the alternative form is consistent with standards promulgated by the Secretary under this section.

(C) Supplemental eligibility forms

The Secretary may allow a State to use a supplemental or alternative form in the case of individuals who apply for eligibility that is not determined on the basis of household income (as defined in section 36B of title 26).

(2) Notice

The Secretary shall provide that an applicant filing a form under paragraph (1) shall receive notice of eligibility for an applicable State health subsidy program without any need to provide additional information or paperwork unless such information or paperwork is specifically required by law when information provided on the form is inconsistent with data used for the electronic verification under paragraph (3) or is otherwise insufficient to determine eligibility.

(c) Requirements relating to eligibility based on data exchanges

(1) Development of secure interfaces

Each State shall develop for all applicable State health subsidy programs a secure, electronic interface allowing an exchange of data (including information contained in the application forms described in subsection (b)) that allows a determination of eligibility for all such programs based on a single application. Such interface shall be compatible with the method established for data verification under section 18081(c)(4) of this title.

(2) Data matching program

Each applicable State health subsidy program shall participate in a data matching arrangement for determining eligibility for participation in the program under paragraph (3) that—

(A) provides access to data described in paragraph (3);

(B) applies only to individuals who—

(i) receive assistance from an applicable State health subsidy program; or

(ii) apply for such assistance—

(I) by filing a form described in subsection (b); or

(II) by requesting a determination of eligibility and authorizing disclosure of the information described in paragraph (3) to applicable State health coverage programs for purposes of determining and establishing eligibility; and

(C) consistent with standards promulgated by the Secretary, including the privacy and data security safeguards described in section 1942 of the Social Security Act [42 U.S.C. 1396w–2] or that are otherwise applicable to such programs.

(3) Determination of eligibility

(A) In general

Each applicable State health subsidy program shall, to the maximum extent practicable—

(i) establish, verify, and update eligibility for participation in the program using the data matching arrangement under paragraph (2); and

(ii) determine such eligibility on the basis of reliable, third party data, including information described in sections 1137, 453(i), and 1942(a) of the Social Security Act [42 U.S.C. 1320b–7, 653(i), 1396w–2(a)], obtained through such arrangement.

(B) Exception

This paragraph shall not apply in circumstances with respect to which the Secretary determines that the administrative

---

¹ So in original. Probably should be followed by “of the Social Security Act”.

² So in original. Probably should be preceded by “is”. 
and other costs of use of the data matching arrangement under paragraph (2) outweigh its expected gains in accuracy, efficiency, and program participation.

(4) Secretarial standards

The Secretary shall, after consultation with persons in possession of the data to be matched and representatives of applicable State health subsidy programs, promulgate standards governing the timing, contents, and procedures for data matching described in this subsection. Such standards shall take into account administrative and other costs and the value of data matching to the establishment, verification, and updating of eligibility for applicable State health subsidy programs.

(d) Administrative authority

(1) Agreements

Subject to section 18081 of this title and section 6103(h)(2) of title 26 and any other requirement providing safeguards of privacy and data integrity, the Secretary may establish model agreements, and enter into agreements, for the sharing of data under this section.

(2) Authority of exchange to contract out

Nothing in this section shall be construed to—

(A) prohibit contractual arrangements through which a State Medicaid agency determines eligibility for all applicable State health subsidy programs, but only if such agency complies with the Secretary's requirements ensuring reduced administrative costs, eligibility errors, and disruptions in coverage; or

(B) change any requirement under title XIX that eligibility for participation in a State's Medicaid program must be determined by a public agency.

(e) Applicable State health subsidy program

In this section, the term "applicable State health subsidy program" means—

(1) the program under this title for the enrollment in qualified health plans offered through an Exchange, including the premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

(2) a State Medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.];

(3) a State children's health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.]; and

(4) a State program under section 18051 of this title establishing qualified basic health plans.

SUBCHAPTER V—SHARED RESPONSIBILITY FOR HEALTH CARE

PART A—INDIVIDUAL RESPONSIBILITY

§18091. Requirement to maintain minimum essential coverage; findings

Congress makes the following findings:

(1) In general

The individual responsibility requirement provided for in this section (in this section referred to as the "requirement") is commercial and economic in nature, and substantially affects interstate commerce, as a result of the effects described in paragraph (2).

(2) Effects on the national economy and interstate commerce

The effects described in this paragraph are the following:

(A) The requirement regulates activity that is commercial and economic in nature: economic and financial decisions about how and when health care is paid for, and when health insurance is purchased. In the absence of the requirement, some individuals would make an economic and financial decision to forego health insurance coverage and attempt to self-insure, which increases financial risks to households and medical providers.

For complete classification of this Act to the Code, see section 1305 of this title and Tables.

This title, where footnoted in subsec. (e)(1), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

§18084. Premium tax credit and cost-sharing reduction payments disregarded for Federal and federally-assisted programs

For purposes of determining the eligibility of any individual for benefits or assistance, or the amount or extent of benefits or assistance, under any Federal program or under any State or local program financed in whole or in part with Federal funds—

(1) any credit or refund allowed or made to any individual by reason of section 36B of title 26 (as added by section 1401)¹ shall not be taken into account as income and shall not be taken into account as resources for the month of receipt and the following 2 months; and

(2) any cost-sharing reduction payment or advance payment of the credit allowed under such section 36B that is made under section 18071 or 18082 of this title shall be treated as made to the qualified health plan in which an individual is enrolled and not to that individual.

REFERENCES IN TEXT

¹See References in Text note below.
(B) Health insurance and health care services are a significant part of the national economy. National health spending is projected to increase from $2,500,000,000,000, or 17.6 percent of the economy, in 2009 to $4,700,000,000,000 in 2019. Private health insurance spending is projected to be $854,000,000,000 in 2009, and pays for medical supplies, drugs, and equipment that are shipped in interstate commerce. Since most health insurance is sold by national or regional health insurance companies, health insurance is sold in interstate commerce and claims payments flow through interstate commerce.

(C) The requirement, together with the other provisions of this Act, will add millions of new consumers to the health insurance market, increasing the supply of, and demand for, health care services, and will increase the number and share of Americans who are insured.

(D) The requirement achieves near-universal coverage by building upon and strengthening the private employer-based health insurance system, which covers 176,000,000 Americans nationwide. In Massachusetts, a similar requirement has strengthened private employer-based coverage: despite the economic downturn, the number of workers offered employer-based coverage has actually increased.

(E) The economy loses up to $207,000,000,000 a year because of the poorer health and shorter lifespan of the uninsured. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will significantly reduce this economic cost.

(F) The cost of providing uncompensated care to the uninsured was $43,000,000,000 in 2008. To pay for this cost, health care providers pass on the cost to families, which pass on the cost to private insurers, which pass on the cost to families. This cost-shifting increases family premiums by an average of $1,000 a year. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will significantly reduce health insurance premiums.

(G) 62 percent of all personal bankruptcies are caused in part by medical expenses. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will improve financial security for families.

(H) Under the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1001 et seq.), the Public Health Service Act (42 U.S.C. 201 et seq.), and this Act, the Federal Government has a significant role in regulating health insurance. The requirement is an essential part of this larger regulation of economic activity, and the absence of the requirement would undercut Federal regulation of the health insurance market.

(I) Under sections 2704 and 2705 of the Public Health Service Act (42 U.S.C. 300gg–3, 300gg–4) (as added by section 1201 of this Act), if there were no requirement, many individuals would wait to purchase health insurance until they needed care. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will minimize this adverse selection and broaden the health insurance risk pool to include healthy individuals, which will lower health insurance premiums. The requirement is essential to creating effective health insurance markets in which improved health insurance products that are guaranteed issue and do not exclude coverage of pre-existing conditions can be sold.

(J) Administrative costs for private health insurance, which were $90,000,000,000 in 2006, are 26 to 30 percent of premiums in the current individual and small group markets. By significantly increasing health insurance coverage and the size of purchasing pools, which will increase economies of scale, the requirement, together with the other provisions of this Act, will significantly reduce administrative costs and lower health insurance premiums. The requirement is essential to creating effective health insurance markets that do not require underwriting and eliminate its associated administrative costs.

(3) Supreme Court ruling

In United States v. South-Eastern Underwriters Association (322 U.S. 533 (1944)), the Supreme Court of the United States ruled that insurance is interstate commerce subject to Federal regulation.

REFERENCES IN TEXT
This Act, referred to in par. (2)(C), (E) to (J), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The Public Health Service Act, referred to in par. (2)(H), is act July 1, 1944, ch. 733, 58 Stat. 882, which is classified generally to chapter 6A (§301 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

AMENDMENTS
2010—Par. (2). Pub. L. 111–148, §10106(a), amended par. (2) generally. Prior to amendment, par. (2) described effects of the individual responsibility requirement on the national economy and interstate commerce.

§18092. Notification of nonenrollment

Not later than June 30 of each year, the Secretary of the Treasury, acting through the Internal Revenue Service and in consultation with the Secretary of Health and Human Services, shall send a notification to each individual who files an individual income tax return and who is not enrolled in minimum essential coverage (as defined in section 5000A of title 26). Such notification shall contain information on the services
available through the Exchange operating in the State in which such individual resides.

PART B—EMPLOYER RESPONSIBILITIES

EFFECTIVE DATE OF REPEAL

Repeal by Pub. L. 112–10 effective as if included in the provisions of, and the amendments made by, the provisions of Pub. L. 111–148 to which it relates, see section 1858(d) of Pub. L. 112–10, set out as an Effective Date of 2011 Amendment note under section 36B of Title 26, Internal Revenue Code.

SUBCHAPTER VI—MISCELLANEOUS PROVISIONS

§ 18111. Definitions

Unless specifically provided for otherwise, the definitions contained in section 300gg–91 of this title shall apply with respect to this title.1

REFERENCES IN TEXT

This title, where footnoted in text, is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

§ 18112. Transparency in Government

Not later than 30 days after March 23, 2010, the Secretary of Health and Human Services shall publish on the Internet website of the Department of Health and Human Services, a list of all of the authorities provided to the Secretary under this Act (and the amendments made by this Act).

REFERENCES IN TEXT

This title, where footnoted in text, is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

§ 18113. Prohibition against discrimination on assisted suicide

(a) In general

The Federal Government, and any State or local government or health care provider that receives Federal financial assistance under this Act (or under an amendment made by this Act) or any health plan created under this Act (or under an amendment made by this Act), may not subject an individual or institutional health care entity to discrimination on the basis that the entity does not provide any health care item or service furnished for the purpose of causing, or for the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(b) Definition

In this section, the term “health care entity” includes an individual physician or other health care professional, a hospital, a provider-sponsored organization, a health maintenance organization, a health insurance plan, or any other kind of health care facility, organization, or plan.

(c) Construction and treatment of certain services

Nothing in subsection (a) shall be construed to apply to, or to affect, any limitation relating to—

1. the withholding or withdrawing of medical treatment or medical care;
2. the withholding or withdrawing of nutrition or hydration;
3. abortion; or
4. the use of an item, good, benefit, or service furnished for the purpose of alleviating pain or discomfort, even if such use may increase the risk of death, so long as such item, good, benefit, or service is not also furnished for the purpose of causing, or the purpose of assisting in causing, death, for any reason.

(d) Administration

The Office for Civil Rights of the Department of Health and Human Services is designated to receive complaints of discrimination based on this section.

REFERENCES IN TEXT

This Act, referred to in subsec. (a), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

§ 18114. Access to therapies

Notwithstanding any other provision of this Act, the Secretary of Health and Human Services shall not promulgate any regulation that—

1. creates any unreasonable barriers to the ability of individuals to obtain appropriate medical care;
2. impedes timely access to health care services;
3. interferes with communications regarding a full range of treatment options between the patient and the provider;
4. restricts the ability of health care providers to provide full disclosure of all relevant information to patients making health care decisions;
5. violates the principles of informed consent and the ethical standards of health care professionals; or
6. limits the availability of health care treatment for the full duration of a patient’s medical needs.

and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

§ 18115. Freedom not to participate in Federal health insurance programs

No individual, company, business, nonprofit entity, or health insurance issuer offering group or individual health insurance coverage shall be required to participate in any Federal health insurance program created under this Act (or any amendments made by this Act), or in any Federal health insurance program expanded by this Act (or any such amendments), and there shall be no penalty or fine imposed upon any such issuer for choosing not to participate in such programs.

§ 18116. Nondiscrimination

(a) In general

Except as otherwise provided for in this title (or an amendment made by this title), an individual shall not, on the ground prohibited under title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.), the Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.), or section 794 of title 29, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any health program or activity, any part of which is receiving Federal financial assistance, including credits, subsidies, or contracts of insurance, or under any program or activity that is administered by an Executive Agency or any entity established under this title (or amendments). The enforcement mechanisms provided for and available under such title VI, title IX, section 794, or such Age Discrimination Act shall apply for purposes of violations of this subsection.

(b) Continued application of laws

Nothing in this title (or an amendment made by this title) shall be construed to invalidate or limit the rights, remedies, procedures, or legal standards available to individuals aggrieved under title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.), title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.), section 794 of title 29, or the Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.), or to supersede State laws that provide additional protections against discrimination on any basis described in subsection (a).

(c) Regulations

The Secretary may promulgate regulations to implement this section.

§ 18118. Rules of construction

(a) No effect on antitrust laws

Nothing in this title (or an amendment made by this title) shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For the purposes of this section, the term “antitrust laws” has the meaning given such term in subsection (a) of section 12 of title 15, except that such term includes section 45 of title 15 to the extent that such section 45 applies to unfair methods of competition.

(b) Rule of construction regarding Hawaii's Prepaid Health Care Act

Nothing in this title (or an amendment made by this title) shall be construed to modify or limit the application of the exemption for Hawaii’s Prepaid Health Care Act (Haw. Rev. Stat. §§393–1 et seq.) as provided for under section 1144(b)(5) of title 29.

(c) Student health insurance plans

Nothing in this title (or an amendment made by this title) shall be construed to prohibit an institution of higher education (as such term is

1 See References in Text note below.

2 See References in Text note below.
defined for purposes of the Higher Education Act of 1965 [20 U.S.C. 1001 et seq.] from offering a student health insurance plan, to the extent that such requirement is otherwise permitted under applicable Federal, State or local law.

(d) No effect on existing requirements

Nothing in this title (or an amendment made by this title) unless specified by direct statutory reference shall be construed to modify any existing Federal requirement concerning the State agency responsible for determining eligibility for programs identified in section 18083 of this title.

REFERENCES IN TEXT

This title, where footnoted in text, is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

The Act of 1965, referred to in subsec. (c), is Pub. L. 89–329, Nov. 8, 1965, 79 Stat. 1219, which is classified generally to chapter 28 (§ 1001 et seq.) of Title 20, Education. For complete classification of this Act to the Code, see Short Title note set out under section 1001 of Title 20 and Tables.

§ 18119. Small business procurement

Part 19 of the Federal Acquisition Regulation, section 444 of title 15, and any other applicable laws or regulations establishing procurement requirements relating to small business concerns (as defined in section 632 of title 15) may not be waived with respect to any contract awarded under any program or other authority under this Act or an amendment made by this Act.

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119, known as the Patient Protection and Affordable Care Act. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

CODIFICATION

§ 18120. Application

Notwithstanding any other provision of the Patient Protection and Affordable Care Act, nothing in such Act (or an amendment made by such Act) shall be construed to—

(1) prohibit (or authorize the Secretary of Health and Human Services to promulgate regulations that prohibit) a group health plan or health insurance issuer from carrying out utilization management techniques that are commonly used as of March 23, 2010; or

(2) restrict the application of the amendments made by this subtitle.

REFERENCES IN TEXT

The amendments made by this subtitle, referred to in par. (2), mean the amendments made by subtitle G (§§1551–1563) of title I of Pub. L. 111–148, which enacted section 300j–51 of this title, sections 4980H, 500A, 6555, 6056, and 9815 of Title 26, Internal Revenue Code, and sections 218a to 218c and 1185d of Title 29, Labor, amended sections 300gg–1 to 300gg–3, 300gg–9, 300gg–11, 300gg–12, 300gg–21 to 300gg–23, 300gg–25 to 300gg–28, 300gg–62, and 300gg–91 of this title, sections 125 and 6724 of Title 26, and sections 921 and 932 of Title 30, Mineral Lands and Mining.

CODIFICATION

Another section 1563 of Pub. L. 111–148 is classified to section 18119 of this title.

§ 18121. Implementation funding

(a) In general

There is hereby established a Health Insurance Reform Implementation Fund (referred to in this section as the “Fund”) within the Department of Health and Human Services to carry out the Patient Protection and Affordable Care Act and this Act (and the amendments made by such Acts).

(b) Funding

There is appropriated to the Fund, out of any funds in the Treasury not otherwise appropriated, $1,000,000,000 for Federal administrative expenses to carry out such Act (and the amendments made by such Acts).

REFERENCES IN TEXT

CODIFICATION

Section was enacted as part of the Health Care and Education Reconciliation Act of 2010, and not as part of the Patient Protection and Affordable Care Act which comprises this chapter.

§ 18122. Rule of construction regarding health care providers

(1) In general

Subject to paragraph (3), the development, recognition, or implementation of any guideline or other standard under any Federal health care provision shall not be construed to establish the standard of care or duty of care owed by a health care provider to a patient in any medical malpractice or medical product liability action or claim.

1 So in original. Probably should be “Acts”.

1
(2) Definitions

For purposes of this section:

(A) Federal health care provision

The term “Federal health care provision” means any provision of the Patient Protection and Affordable Care Act (Public Law 111–148), title I or subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152), or title XVIII or XIX of the Social Security Act (42 U.S.C. 1395 et seq., 42 U.S.C. 1396 et seq.).

(B) Health care provider

The term “health care provider” means any individual, group practice, corporation of health care professionals, or hospital—

(i) licensed, registered, or certified under Federal or State laws or regulations to provide health care services; or

(ii) required to be so licensed, registered, or certified but that is exempted by other statute or regulation.

(C) Medical malpractice or medical product liability action or claim

The term “medical malpractice or medical product liability action or claim” means a medical malpractice action or claim (as defined in section 11151(7) of this title) and includes a liability action or claim relating to a health care provider’s prescription or provision of a drug, device, or biological product (as such terms are defined in section 321 of title 21).

(D) State

The term “State” includes the District of Columbia, Puerto Rico, and any other commonwealth, possession, or territory of the United States.

(3) No preemption

Nothing in paragraph (1) or any provision of the Patient Protection and Affordable Care Act (Public Law 111–148), title I or subtitle B of title II of the Health Care and Education Reconciliation Act of 2010 (Public Law 111–152), or title XVIII or XIX of the Social Security Act (42 U.S.C. 1395 et seq., 42 U.S.C. 1396 et seq.) shall be construed to preempt any State or common law governing medical professional or medical product liability actions or claims.

REFERENCES IN TEXT

The Patient Protection and Affordable Care Act, referred to in pars. (2)(A) and (3), is Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 119. For complete classification of this Act to the Code, see Short Title note set out under section 18001 of this title and Tables.

The Social Security Act, referred to in pars. (2)(A) and (3), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles XVIII and XIX of the Act are classified generally to subchapters XVIII (§1395 et seq.) and XIX (§1396 et seq.), respectively, of chapter 7 of this title. For complete classification of this Act to the Code, see section 1305 of this title and Tables.
§ 18202. Establishment of Pregnancy Assistance Fund

(a) In general

The Secretary, in collaboration and coordination with the Secretary of Education (as appropriate), shall establish a Pregnancy Assistance Fund to be administered by the Secretary, for the purpose of awarding competitive grants to States to assist pregnant and parenting teens and women.

(b) Use of Fund

A State may apply for a grant under subsection (a) to carry out any activities provided for in section 18203 of this title.

(c) Applications

To be eligible to receive a grant under subsection (a), a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a description of the purposes for which the grant is being requested and the designation of a State agency for receipt and administration of funding received under this chapter.

§ 18203. Permissible uses of Fund

(a) In general

A State shall use amounts received under a grant under section 18202 of this title for the purposes described in this section to assist pregnant and parenting teens and women.

(b) Institutions of higher education

(1) In general

A State may use amounts received under a grant under section 18202 of this title to make funding available to eligible institutions of higher education to enable the eligible institutions to establish, maintain, or operate pregnant and parenting student services. Such funding shall be used to supplement, not supplant, existing funding for such services.

(2) Application

An eligible institution of higher education that desires to receive funding under this subsection shall submit an application to the designated State agency at such time, in such manner, and containing such information as the State agency may require.

(3) Matching requirement

An eligible institution of higher education that receives funding under this subsection shall contribute to the conduct of the pregnant and parenting student services office supported by the funding an amount from non-Federal funds equal to 25 percent of the amount of the funding provided. The non-Federal share may be in cash or in-kind, fairly evaluated, including services, facilities, supplies, or equipment.

(4) Use of funds for assisting pregnant and parenting college students

An eligible institution of higher education that receives funding under this subsection shall use such funds to establish, maintain or operate pregnant and parenting student services and may use such funding for the following programs and activities:

(A) Conduct a needs assessment on campus and within the local community—

(i) to assess pregnancy and parenting resources, located on the campus or within the local community, that are available to meet the needs described in subparagraph (B); and

(ii) to set goals for—

(I) improving such resources for pregnant, parenting, and prospective parenting students; and

(II) improving access to such resources.

(B) Annually assess the performance of the eligible institution in meeting the following needs of students enrolled in the eligible institution who are pregnant or are parents:

(i) The inclusion of maternity coverage and the availability of riders for additional family members in student health care.

(ii) Family housing.

(iii) Child care.

(iv) Flexible or alternative academic scheduling, such as telecommuting programs, to enable pregnant or parenting students to continue their education or stay in school.

(v) Education to improve parenting skills for mothers and fathers and to strengthen marriages.

(vi) Maternity and baby clothing, baby food (including formula), baby furniture, and similar items to assist parents and prospective parents in meeting the material needs of their children.

(vii) Post-partum counseling.

(C) Identify public and private service providers, located on the campus of the eligible institution or within the local community, that are qualified to meet the needs described in subparagraph (B), and establishes programs with qualified providers to meet such needs.

(D) Assist pregnant and parenting students, fathers or spouses in locating and obtaining services that meet the needs described in subparagraph (B).

(E) If appropriate, provide referrals for prenatal care and delivery, infant or foster care, or adoption, to a student who requests such information. An office shall make such referrals only to service providers that serve the following types of individuals:

(i) Parents.

(ii) Prospective parents awaiting adoption.

(iii) Women who are pregnant and plan on parenting or placing the child for adoption.

(iv) Parenting or prospective parenting couples.

1So in original. Probably should be "establish".
(5) Reporting
(A) Annual report by institutions
(i) In general
For each fiscal year that an eligible institution of higher education receives funds under this subsection, the eligible institution shall prepare and submit to the State, by the date determined by the State, a report that—
(I) itemizes the pregnant and parenting student services office’s expenditures for the fiscal year;
(II) contains a review and evaluation of the performance of the office in fulfilling the requirements of this section, using the specific performance criteria or standards established under subparagraph (B)(i); and
(III) describes the achievement of the office in meeting the needs listed in paragraph (4)(B) of the students served by the eligible institution, and the frequency of use of the office by such students.
(ii) Performance criteria
Not later than 180 days before the date the annual report described in clause (i) is submitted, the State—
(I) shall identify the specific performance criteria or standards that shall be used to prepare the report; and
(II) may establish the form or format of the report.
(B) Report by State
The State shall annually prepare and submit a report on the findings under this subsection, including the number of eligible institutions of higher education that were awarded funds and the number of students served by each pregnant and parenting student services office receiving funds under this section, to the Secretary.
(c) Support for pregnant and parenting teens
A State may use amounts received under a grant under section 18202 of this title to make funding available to eligible high schools and community service centers to establish, maintain or operate pregnant and parenting services in the same general manner and in accordance with all conditions and requirements described in subsection (b), except that paragraph (3) of such subsection shall not apply for purposes of this subsection.
(d) Improving services for pregnant women who are victims of domestic violence, sexual violence, sexual assault, and stalking
(1) In general
A State may use amounts received under a grant under section 18202 of this title to make funding available to its State Attorney General to assist Statewide offices in providing—
(A) intervention services, accompaniment, and supportive social services for eligible pregnant women who are victims of domestic violence, sexual violence, sexual assault, or stalking;
(B) technical assistance and training (as described in subsection (c)) relating to violence against eligible pregnant women to be made available to the following:
(i) Federal, State, tribal, territorial, and local governments, law enforcement agencies, and courts.
(ii) Professionals working in legal, social service, and health care settings.
(iii) Nonprofit organizations.
(iv) Faith-based organizations.
(2) Eligibility
To be eligible for a grant under paragraph (1), a State Attorney General shall submit an application to the designated State agency at such time, in such manner, and containing such information, as specified by the State.
(3) Technical assistance and training described
For purposes of paragraph (1)(B), technical assistance and training is—
(A) the identification of eligible pregnant women experiencing domestic violence, sexual violence, sexual assault, or stalking;
(B) the assessment of the immediate and short-term safety of such a pregnant woman, the evaluation of the impact of the violence or stalking on the pregnant woman's health, and the assistance of the pregnant woman in developing a plan aimed at preventing further domestic violence, sexual violence, sexual assault, or stalking, as appropriate;
(C) the maintenance of complete medical or forensic records that include the documentation of any examination, treatment given, and referrals made, recording the location and nature of the pregnant woman's injuries, and the establishment of mechanisms to ensure the privacy and confidentiality of those medical records; and
(D) the identification and referral of the pregnant woman to appropriate public and private nonprofit entities that provide intervention services, accompaniment, and supportive social services.
(4) Eligible pregnant woman
In this subsection, the term "eligible pregnant woman" means any woman who is pregnant on the date on which such woman becomes a victim of domestic violence, sexual violence, sexual assault, or stalking or who was pregnant during the one-year period before such date.
(e) Public awareness and education
A State may use amounts received under a grant under section 18202 of this title to make funding available to increase public awareness and education concerning any services available to pregnant and parenting teens and women under this chapter, or any other resources available to pregnant and parenting women in keeping with the intent and purposes of this chapter. The State shall be responsible for setting guidelines or limits as to how much of funding may be utilized for public awareness and education in any funding award.

§ 18204. Appropriations

There is authorized to be appropriated, and there are appropriated, $25,000,000 for each of fiscal years 2010 through 2019, to carry out this chapter.

CHAPTER 159—SPACE EXPLORATION, TECHNOLOGY, AND SCIENCE

Sec. 18301. Findings.
18302. Definitions.
SUBCHAPTER I—POLICY, GOALS, AND OBJECTIVES FOR HUMAN SPACE FLIGHT AND EXPLORATION
18311. United States human space flight policy.
18312. Goals and objectives.
18313. Assurance of core capabilities.
SUBCHAPTER II—EXPANSION OF HUMAN SPACE FLIGHT BEYOND THE INTERNATIONAL SPACE STATION AND LOW-EARTH ORBIT
18321. Human space flight beyond low-Earth orbit.
18322. Space Launch System as follow-on launch vehicle to the Space Shuttle.
18323. Multi-purpose crew vehicle.
18324. Utilization of existing workforce and assets in development of Space Launch System and multi-purpose crew vehicle.
18325. NASA launch support and infrastructure modernization program.
18326. Development of technologies and in-space capabilities for beyond near-Earth space missions.
18327. Report requirement.
SUBCHAPTER III—DEVELOPMENT AND USE OF COMMERCIAL CREW AND CARGO TRANSPORTATION CAPABILITIES
18341. Commercial Cargo Development program.
18342. Requirements applicable to development of commercial crew transportation capabilities and services.
SUBCHAPTER IV—CONTINUATION, SUPPORT, AND EVOLUTION OF THE INTERNATIONAL SPACE STATION
18351. Continuation of the International Space Station.
18353. Maintenance of the United States segment and assurance of continued operations of the International Space Station.
18354. Management of the ISS national laboratory.
SUBCHAPTER V—SPACE SHUTTLE RETIREMENT AND TRANSITION
18361. Sense of Congress on the Space Shuttle program.
18362. Retirement of Space Shuttle orbiters and transition of Space Shuttle program.
18363. Disposition of orbiter vehicles.
SUBCHAPTER VI—EARTH SCIENCE
18371. Interagency collaboration implementation approach.
18372. Transitioning experimental research to operations.
18373. Decadal Survey missions implementation for Earth observation.
18374. Instrument test-beds and venture class missions.
SUBCHAPTER VII—SPACE SCIENCE
18381. Technology development.
18382. Suborbital research activities.
18383. In-space servicing.
18384. Decadal results.
18385. On-going restoration of radioisotope thermoelectric generator material production.
18386. Collaboration with ESMD and SMD on robotic missions.
18387. Near-Earth object survey and policy with respect to threats posed.
18388. Repealed.
SUBCHAPTER VIII—AERONAUTICS AND SPACE TECHNOLOGY
18401. Aeronautics research goals.
18402. Research collaboration.
18403. Goal for Agency space technology.
18404. National space technology policy.
18405. Commercial Reusable Suborbital Research Program.

SUBCHAPTER IX—EDUCATION
18421. Study of potential commercial orbital platform program impact on science, technology, engineering, and mathematics.

SUBCHAPTER X—RE-SCOPING AND REVITALIZING INSTITUTIONAL CAPABILITIES
18431. Workforce stabilization and critical skills preservation.

SUBCHAPTER XI—OTHER MATTERS
18441. National and international orbital debris mitigation.
18442. Reports on program and cost assessment and control assessment.
18443. Eligibility for service of individual currently serving as Administrator of NASA.
18444. Counterfeit parts.
18445. Information security.

§ 18301. Findings

Congress makes the following findings:

(1) The United States human space flight program has, since the first Mercury flight on May 5, 1961, been a source of pride and inspiration for the Nation.

(2) The establishment of and commitment to human exploration goals is essential for providing the necessary long term focus and programmatic consistency and robustness of the United States civilian space program.

(3) The National Aeronautics and Space Administration is and should remain a multi-mission agency with a balanced and robust set of core missions in science, aeronautics, and human space flight and exploration.

(4) In the 50 years since the establishment of NASA, the arena of space has evolved substantially. As the uses and users of space continue to expand, the issues and operations in the regions closest to Earth have become increasingly complex, with a growing number of overlaps between civil, commercial and national security activities. These developments present opportunities and challenges to the space activities of NASA and the United States.

(5) The extraordinary challenges of achieving access to space both motivated and accelerated the development of technologies and industrial capabilities that have had widespread applications which have contributed to the technological excellence of the United States. It is essential to tie space activity to human
challenges ranging from enhancing the influence, relationships, security, economic development, and commerce of the United States to improving the overall human condition.

(6) It is essential to the economic well-being of the United States that the aerospace industrial capacity, highly skilled workforce, and embedded expertise remain engaged in demanding, challenging, and exciting efforts that ensure United States leadership in space exploration and related activities.

(7) Crewmembers provide the essential component to ensure the return on investment from and the growth and safe operation of the ISS. The Russian Soyuz vehicle has allowed continued human presence on the ISS for United States crewmembers with its ability to serve as both a routine and backup capability for crew delivery, rescue, and return. With the impending retirement of the Space Shuttle, the United States will find itself with no national crew delivery and return system. Without any other system, the United States and all the ISS partners will have no redundant system for human access to and from the ISS. It is therefore essential that a United States capability be developed as soon as possible.

(8) Existing and emerging United States commercial launch capabilities and emerging launch capabilities offer the potential for providing crew support assets. New capabilities for human crew access to the ISS should be developed in a manner that ensures ISS mission assurance and safety. Commercial services offer the potential to broaden the availability and access to space at lower costs.

(9) While commercial transportation systems have the promise to contribute valuable services, it is in the United States national interest to maintain a government operated space transportation system for crew and cargo delivery to space.

(10) Congress restates its commitment, expressed in the National Aeronautics and Space Administration Authorization Act of 2005, referred to in pars. (10) and (12), to Pub. L. 109–155, Dec. 30, 2005, 119 Stat. 2895, which was classified principally to chapter 150 (§ 16601 et seq.) of this title, and was substantially repealed and re-stated in chapters 305 (§ 30501 et seq.), 401 (§ 40101 et seq.), 603 (§ 60301 et seq.) and 707 (§ 70701 et seq.) and sections 20301, 20302, 30103(a), (b), 30104, 30106, 30703, 30704, 30902, 31301, 31501, 40701, 40904 to 40909, 50505, 50116, 60505, 70501 to 70503, and 70902 to 70905 of Title 51, National and Commercial Space Programs, as provided by the National Aeronautics and Space Administration Authorization Act of 2005.

(11) It is critical to identify an appropriate combination of NASA and related United States Government programs, while providing a framework that allows partnering, leveraging and stimulation of the existing and emerging commercial and international efforts in both near Earth space and the regions beyond.

(12) The designation of the United States segment of the ISS as a National Laboratory, as provided by the National Aeronautics and Space Administration Authorization Act of 2005 and the National Aeronautics and Space Administration Authorization Act of 2008 provides an opportunity for multiple United States Government agencies, university-based researchers, research organizations, and others to utilize the unique environment of microgravity for fundamental scientific research and potential economic development.

(13) For some potential replacement elements necessary for ISS sustainability, the Space Shuttle may represent the only vehicle, existing or planned, capable of carrying those elements to the ISS in the near term. Additional or alternative transportation capabilities must be identified as contingency delivery options, and accompanied by an independent analysis of projected availability of such capabilities.

(14) The United States must develop, as rapidly as possible, replacement vehicles capable of providing both human and cargo launch capability to low-Earth orbit and to destinations beyond low-Earth orbit.

(15) There is a need for national space and export control policies that protect the national security of the United States while also enabling the United States and its aerospace industry to undertake cooperative programs in science and human space flight in an effective and efficient manner and to compete effectively in the global market place.

References in Text

The National Aeronautics and Space Administration Authorization Act of 2005, referred to in pars. (10) and (12), is Pub. L. 109–155, Dec. 30, 2005, 119 Stat. 2895, which was classified principally to chapter 150 (§ 16601 et seq.) of this title, and was substantially repealed and re-stated in chapters 305 (§ 30501 et seq.), 401 (§ 40101 et seq.), 603 (§ 60301 et seq.) and 707 (§ 70701 et seq.) and sections 20301, 20302, 30103(a), (b), 30104, 30106, 30703, 30704, 30902, 31301, 31501, 40701, 40904 to 40909, 50505, 50116, 60505, 70501 to 70503, and 70902 to 70905 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444. For complete classification of this Act to the Code, see Title 51 Act note set out under section 10101 of Title 51 and Tables.

The National Aeronautics and Space Administration Authorization Act of 2008, referred to in paras. (10) and (12), is Pub. L. 110–422, Oct. 15, 2008, 122 Stat. 4779, which was classified principally to chapter 155 (§ 17701 et seq.) of this title, and was substantially repealed and re-stated as chapters 711 (§ 711101 et seq.) and 713 (§ 713101 et seq.) and sections 20305, 30305, 30310, 31302, 31502 to 31505, 40904, 40311, 40702 to 40704, 40903(d), 50111(b), 60501 to 60504, 60506, 70504 to 70506, 70902, and 70907 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§ 3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444. For complete classification of this Act to the Code, see Short Title of 2008 Act note set out under section 10101 of Title 51 and Tables.

Short Title

§ 18302. Definitions

In this chapter:

(1) Administrator

The term "Administrator" means the Administrator of the National Aeronautics and Space Administration.
(2) Appropriate committees of Congress

The term “appropriate committees of Congress” means—

(A) the Committee on Commerce, Science, and Transportation of the Senate; and

(B) the Committee on Science of the House of Representatives.

(3) Cis-lunar space

The term “cis-lunar space” means the region of space from the Earth out to and including the region around the surface of the Moon.

(4) Deep space

The term “deep space” means the region of space beyond cis-lunar space.

(5) ISS

The term “ISS” means the International Space Station.

(6) NASA

The term “NASA” means the National Aeronautics and Space Administration.

(7) Near-Earth space

The term “near-Earth space” means the region of space that includes low-Earth orbit and extends out to and includes geo-synchronous orbit.

(8) NOAA

The term “NOAA” means the National Oceanic and Atmospheric Administration.

(9) OSTP

The term “OSTP” means the Office of Science and Technology Policy.

(10) Space Launch System

The term “Space Launch System” means the follow-on government-owned civil launch system developed, managed, and operated by NASA to serve as a key component to expand human presence beyond low-Earth orbit.

SUBCHAPTER I—POLICY, GOALS, AND OBJECTIVES FOR HUMAN SPACE FLIGHT AND EXPLORATION

§18311. United States human space flight policy

(a) Use of non-United States human space flight transportation services

(1) In general

The Federal Government may not acquire human space flight transportation services from a foreign entity unless—

(A) no United States Government-operated human space flight capability is available; and

(B) no United States commercial provider is available; and

(C) it is a qualified foreign entity.

(2) Definitions

In this subsection:

(A) Commercial provider

The term “commercial provider” means any person providing human space flight transportation services, primary control of which is held by persons other than the Federal Government, a State or local government, or a foreign government.

(B) Qualified foreign entity

The term “qualified foreign entity” means a foreign entity that is in compliance with all applicable safety standards and is not prohibited from providing space transportation services under other law.

(C) United States commercial provider

The term “United States commercial provider” means a commercial provider, organized under the laws of the United States or of a State, that is more than 50 percent owned by United States nationals.

(b) United States human space flight capabilities

Congress reaffirms the policy stated in section 70501(a) of title 51, that the United States shall maintain an uninterrupted capability for human space flight and operations in low-Earth orbit, and beyond, as an essential instrument of national security and of the capacity to ensure continued United States participation and leadership in the exploration and utilization of space.

In this subsection:

(A) Committee on Commerce, Science, and Transportation

The term “Committee on Commerce, Science, and Transportation” means—

(A) the Committee on Commerce, Science, and Transportation of the Senate; and

(B) the Committee on Science of the House of Representatives.

(B) Qualified foreign entity

The term “qualified foreign entity” means a foreign entity that is in compliance with all applicable safety standards and is not prohibited from providing space transportation services under other law.

(2) Arrangements with foreign entities

Nothing in this subsection shall prevent the Administrator from negotiating or entering into human space flight transportation arrangements with foreign entities to ensure safety of flight and continued ISS operations.

(b) United States human space flight capabilities

Congress reaffirms the policy stated in section 70501(a) of title 51, that the United States shall maintain an uninterrupted capability for human space flight and operations in low-Earth orbit, and beyond, as an essential instrument of national security and of the capacity to ensure continued United States participation and leadership in the exploration and utilization of space.

AMENDMENTS

2017—Subsec. (a). Pub. L. 115–10 amended subsec. (a) generally. Prior to amendment, text read as follows: “It is the policy of the United States that reliance upon and use of non-United States human space flight capabilities shall be undertaken only as a contingency in circumstances where no United States-owned and operated human space flight capability is available, operational, and certified for flight by appropriate Federal agencies.”

§18312. Goals and objectives

(a) Long-term goals

The long-term goals of the human space flight and exploration efforts of NASA shall be—

(1) to expand permanent human presence beyond low-Earth orbit and to do so, where practical, in a manner involving international, academic, and industry partners;

(2) crewed missions and progress toward achieving the goal in paragraph (1) to enable the potential for subsequent human exploration and the extension of human presence throughout the solar system; and

(3) to enable a capability to extend human presence, including potential human habi-
tation on another celestial body and a thriving space economy in the 21st Century.¹

(b) Key objectives

The key objectives of the United States for human expansion into space shall be—

(1) to sustain the capability for long-duration presence in low-Earth orbit, initially through continuation of the ISS and full utilization of the United States segment of the ISS as a National Laboratory, and through assisting and enabling an expanded commercial presence in, and access to, low-Earth orbit, as elements of a low-Earth orbit infrastructure;

(2) to determine if humans can live in an extended manner in space with decreasing reliance on Earth, starting with utilization of low-Earth orbit infrastructure, to identify potential roles that space resources such as energy and materials may play, to meet national and global needs and challenges, such as potential cataclysmic threats, and to explore the viability of and lay the foundation for sustainable economic activities in space;

(3) to maximize the role that human exploration of space can play in advancing overall knowledge of the universe, supporting United States national and economic security and the United States global competitive posture, and inspiring young people in their educational pursuits;

(4) to build upon the cooperative and mutually beneficial framework established by the ISS partnership agreements and experience in developing and undertaking programs and meeting objectives designed to realize the goal of human space flight set forth in subsection (a); and

(5) to achieve human exploration of Mars and beyond through the prioritization of those technologies and capabilities best suited for such a mission in accordance with the stepping stone approach to exploration under section 70504 of title 51.

AMENDMENTS

2017—Subsec. (a), Pub. L. 115–10, § 411, amended subsec. (a) generally. Prior to amendment, text read as follows: “The long term goal of the human space flight and exploration efforts of NASA shall be—

1 To the following:

(1) to determine if humans can live in an extended manner in space with decreasing reliance on Earth, starting with utilization of low-Earth orbit infrastructure, to identify potential roles that space resources such as energy and materials may play, to meet national and global needs and challenges, such as potential cataclysmic threats, and to explore the viability of and lay the foundation for sustainable economic activities in space;

(2) to maximize the role that human exploration of space can play in advancing overall knowledge of the universe, supporting United States national and economic security and the United States global competitive posture, and inspiring young people in their educational pursuits;

(3) to build upon the cooperative and mutually beneficial framework established by the ISS partnership agreements and experience in developing and undertaking programs and meeting objectives designed to realize the goal of human space flight set forth in subsection (a); and

(4) to achieve human exploration of Mars and beyond through the prioritization of those technologies and capabilities best suited for such a mission in accordance with the stepping stone approach to exploration under section 70504 of title 51.

AMENDMENTS

2017—Subsec. (a), Pub. L. 115–10, § 411, added par. (5).

§ 18313. Assurance of core capabilities

(a) Sense of Congress

It is the sense of Congress that—

(1) the ISS, technology developments, the current Space Shuttle program, and follow-on transportation systems authorized by this chapter form the foundation of initial capabilities for missions beyond low-Earth orbit to a variety of lunar and Lagrangian orbital locations; and

(2) these initial missions and related capabilities should be utilized to provide oper-
§ 18321. Human space flight beyond low-Earth orbit

(a) Findings

Congress makes the following findings:

(1) The extension of the human presence from low-Earth orbit to other regions of space beyond low-Earth orbit will enable missions to the surface of the Moon and missions to deep space destinations such as near-Earth asteroids and Mars.

(2) The regions of cis-lunar space are accessible to other national and commercial launch capabilities, and such access raises a host of national security concerns and economic implications that international human space endeavors can help to address.

(3) The ability to support human missions in regions beyond low-Earth orbit and on the surface of the Moon can also drive developments in emerging areas of space infrastructure and technology.

(4) Developments in space infrastructure and technology can stimulate and enable increased space applications, such as in-space servicing, propellant resupply and transfer, and in situ resource utilization, and open opportunities for additional users of space, whether national, commercial, or international.

(5) A long term objective for human exploration of space should be the eventual international exploration of Mars.

(6) Future international missions beyond low-Earth orbit should be designed to incorporate capability development and availability, affordability, and international contributions.

(7) Human space flight and future exploration beyond low-Earth orbit should be based around a pay-as-you-go approach. Requirements in new launch and crew systems authorized in this chapter should be scaled to the minimum necessary to meet the core national mission capability needed to conduct cis-lunar missions. These initial missions, along with the development of new technologies and in-space capabilities can form the foundation for missions to other destinations. These initial missions also should provide operational experience prior to the further human expansion into space.

(b) Report on international collaboration

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the following assets and capabilities:

(A) Any effort by NASA to expand and ensure effective international collaboration on the ISS.

(B) The efforts of NASA, including its approach and progress, in defining near-term, cis-lunar space human missions.

(2) NASA contributions

In preparing the report required by paragraph (1), the Administrator shall assume that NASA will contribute to the efforts described in that paragraph the following:

(A) A Space Launch System.

(B) A multi-purpose crew vehicle.

(C) Such other technology elements the Administrator may consider appropriate, and which the Administrator shall specifically identify in the report.

§ 18322. Space Launch System as follow-on launch vehicle to the Space Shuttle

(a) United States policy

It is the policy of the United States that NASA develop a Space Launch System as a follow-on to the Space Shuttle that can access cis-lunar space and the regions of space beyond low-Earth orbit in order to enable the United States to participate in global efforts to access and develop this increasingly strategic region.

(b) Initiation of development

(1) In general

The Administrator shall, as soon as practicable after October 11, 2010, initiate development of a Space Launch System meeting the minimum capabilities requirements specified in subsection (c).

(2) Modification of current contracts

In order to limit NASA’s termination liability costs and support critical capabilities, the Administrator shall, to the extent practicable, extend or modify existing vehicle development and associated contracts necessary to meet the requirements in paragraph (1), including contracts for ground testing of solid rocket motors, if necessary, to ensure their availability for development of the Space Launch System.

(c) Minimum capability requirements

(1) In general.—The Space Launch System developed pursuant to subsection (b) shall be designed to have, at a minimum, the following:

(A) The initial capability of the core elements, without an upper stage, of lifting payloads weighing between 70 tons and 100 tons into low-Earth orbit in preparation for transit for missions beyond low-Earth orbit.

(B) The capability to carry an integrated upper Earth departure stage bringing the total lift capability of the Space Launch System to 130 tons or more.

(C) The capability to lift the multipurpose crew vehicle.

(D) The capability to serve as a backup system for supplying and supporting ISS cargo requirements or crew delivery requirements not otherwise met by available commercial or partner-supplied vehicles.

(2) Flexibility.—The Space Launch System shall be designed from inception as a fully-in-
§ 18323 Multi-purpose crew vehicle

(a) Initiation of development

(1) In general

The Administrator shall continue the development of a multi-purpose crew vehicle to be available as soon as practicable, and no later than for use with the Space Launch System. The vehicle shall continue to advance development of the human safety features, designs, and systems in the Orion project.

(2) Goal for operational capability

It shall be the goal to achieve full operational capability for the transportation vehicle developed pursuant to this subsection by not later than December 31, 2016. For purposes of meeting such goal, the Administrator may undertake a test of the transportation vehicle at the ISS before that date.

(b) Minimum capability requirements

The multi-purpose crew vehicle developed pursuant to subsection (a) shall be designed to have, at a minimum, the following:

(1) The capability to serve as the primary crew vehicle for missions beyond low-Earth orbit.

(2) The capability to conduct regular in-space operations, such as rendezvous, docking, and extra-vehicular activities, in conjunction with payloads delivered by the Space Launch System developed pursuant to section 18322 of this title, or other vehicles, in preparation for missions beyond low-Earth orbit or servicing of assets described in section 18333 of this title, or other assets in cis-lunar space.

(3) The capability to provide an alternative means of delivery of crew and cargo to the ISS, in the event other vehicles, whether commercial vehicles or partner-supplied vehicles, are unable to perform that function.

(4) The capacity for efficient and timely evolution, including the incorporation of new technologies, competition of sub-elements, and commercial operations.

§ 18324 Utilization of existing workforce and assets in development of Space Launch System and multi-purpose crew vehicle

(a) In general

In developing the Space Launch System pursuant to section 18322 of this title and the multi-purpose crew vehicle pursuant to section 18323 of this title, the Administrator shall, to the extent practicable utilize—

(1) existing contracts, investments, workforce, industrial base, and capabilities from the Space Shuttle and Orion and Ares 1 projects, including—

(A) space-suit development activities for application to, and coordinated development of, a multi-purpose crew vehicle suit and associated life-support requirements with potential development of standard NASA-certified suit and life support systems for use in alternative commercially-developed crew transportation systems; and

(B) Space Shuttle-derived components and Ares 1 components that use existing United States propulsion systems, including liquid fuel engines, external tank or tank-related capability, and solid rocket motor engines; and

(2) associated testing facilities, either in being or under construction as of October 11, 2010.

(b) Discharge of requirements

In meeting the requirements of subsection (a), the Administrator—

(1) shall, to the extent practicable, utilize ground-based manufacturing capability, ground testing activities, launch and operations infrastructure, and workforce expertise;

(2) shall, to the extent practicable, minimize the modification and development of ground infrastructure and maximize the utilization of existing software, vehicle, and mission operations processes;

(3) shall complete construction and activation of the A–3 test stand with a completion goal of September 30, 2013;

(4) may procure, develop, and flight test applicable components; and

(5) shall take appropriate actions to ensure timely and cost-effective development of the Space Launch System and the multi-purpose crew vehicle, including the use of a procurement approach that incorporates adequate and effective oversight, the facilitation of contractor efficiencies, and the stream-lining of contract and procurement requirements.

§ 18325 NASA launch support and infrastructure modernization program

(a) In general

The Administrator shall carry out a program the primary purpose of which is to prepare infra-
structure at the Kennedy Space Center that is needed to enable processing and launch of the Space Launch System. Vehicle interfaces and other ground processing and payload integration areas should be simplified to minimize overall costs, enhance safety, and complement the purpose of this section.

(b) Elements

The program required by this section shall include—

(1) investments to improve civil and national security operations at the Kennedy Space Center, to enhance the overall capabilities of the Center, and to reduce the long term cost of operations and maintenance;

(2) measures to provide multi-vehicle support, improvements in payload processing, and partnering at the Kennedy Space Center; and

(3) such other measures, including investments to improve launch infrastructure at NASA flight facilities scheduled to launch cargo to the ISS under the commercial orbital transportation services program as the Administrator may consider appropriate.

(c) Report on NASA launch support and infrastructure modernization program

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the plan for the implementation of the NASA launch support and infrastructure modernization program.

(2) Elements

The report required by this subsection shall include—

(A) a description of the ground infrastructure plan tied to the Space Launch System and potential ground investment activities at other NASA centers related to supporting the development of the Space Launch System;

(B) a description of proposed initiatives intended to be conducted jointly or in cooperation with Cape Canaveral Air Force Station, Florida, or other installations or components of the United States Government; and

(C) a description of plans to use funds authorized to be appropriated by this chapter to improve non-NASA facilities, which plans shall include a business plan outlining the nature and scope of investments planned by other parties.

§18327. Development of technologies and in-space capabilities for beyond near-Earth space missions

(a) Development authorized

The Administrator may initiate activities to develop the following:

(1) Technologies identified as necessary elements of missions beyond low-Earth orbit.

(2) In-space capabilities such as refueling and storage technology, orbital transfer stages, innovative in-space propulsion technology, communications, and data management that facilitate a broad range of users (including military and commercial) and applications defining the architecture and design of such missions.

(3) Spacesuit development and associated life support technology.

(4) Flagship missions.

(b) Investments

In developing technologies and capabilities under subsection (a), the Administrator may make investments—

(1) in space technologies such as advanced propulsion, propellant depots, in situ resource utilization, and robotic payloads or capabilities that enable human missions beyond low-Earth orbit ultimately leading to Mars;

(2) in a space-based transfer vehicle including these technologies with an ability to conduct space-based operations that provide capabilities—

(A) to integrate with the Space Launch System and other space-based systems;

(B) to provide opportunities for in-space servicing of and delivery to multiple space-based platforms; and

(C) to facilitate international efforts to expand human presence to deep space destinations;

(3) in advanced life support technologies and capabilities;

(4) in technologies and capabilities relating to in-space power, propulsion, and energy systems;

(5) in technologies and capabilities relating to in-space propellant transfer and storage;

(6) in technologies and capabilities relating to in situ resource utilization; and

(7) in expanded research to understand the greatest biological impediments to human deep space missions, especially the radiation challenge.

(c) Utilization of ISS as testbed

The Administrator may utilize the ISS as a testbed for any technology or capability developed under subsection (a) in a manner consistent with the provisions of this chapter.

(d) Coordination

The Administrator shall coordinate development of technologies and capabilities under this section through an overall agency technology approach, as authorized by section 905 of this Act.

REFERENCES IN TEXT

Section 905 of this Act, referred to in subsec. (d), is Pub. L. 111–267, title IX, §905, Oct. 11, 2010, 124 Stat. 2836, which is not classified to the Code.

§18327. Report requirement

Within 90 days after October 11, 2010, or upon completion of reference designs for the Space Launch System and Multi-purpose Crew Vehicle authorized by this chapter, whichever occurs first, the Administrator shall provide a detailed report to the appropriate committees of Congress that provides an overall description of the
reference vehicle design, the assumptions, description, data, and analysis of the systems
trades and resolution process, justification of trade decisions, the design factors which imple-
ment the essential system and vehicle capability requirements established by this chapter;
the explanation and justification of any devi-
a tions from those requirements, the plan for uti-
ilization of existing contracts, civil service and contract workforce, supporting infrastructure
utilization and modifications, and procurement strategy to expedite development activities
through modification of existing contract vehi-
cles, and the schedule of design and development milestones and related schedules leading to the
accomplishment of operational goals established
by this chapter. The Administrator shall provide
an update of this report as part of the Presi-
dent’s annual Budget Request.

Stat. 2819.)

SUBCHAPTER III—DEVELOPMENT AND USE
OF COMMERCIAL CREW AND CARGO
TRANSPORTATION CAPABILITIES

§ 18341. Commercial Cargo Development pro-
gram

The Administrator shall continue to support
the existing Commercial Resupply Services pro-
gram, aimed at enabling the commercial space
industry in support of NASA to develop reliable
means of launching cargo and supplies to the
ISS throughout the duration of the facility’s op-
teration. The Administrator may apply funds to-
wards the reduction of risk to the timely start
of these services, specifically—

(1) efforts to conduct a flight test;
(2) accelerate development; and
(3) develop the ground infrastructure needed
for commercial cargo capability.

21, 2017, 131 Stat. 26.)

AMENDMENTS
2017—Pub. L. 115–10 substituted “Commercial Resup-
ply Services” for “Commercial Orbital Transportation
Services” in introductory provisions.

§ 18342. Requirements applicable to development
of commercial crew transportation capabili-
ties and services

(a) FY 2011 contracts and procurement agree-
ments

(1) In general

Except as provided in paragraph (2), the Admin-
istrator may not execute a contract or
procurement agreement with respect to fol-
low-on commercial crew services during fiscal
year 2011.

(2) Exception

Notwithstanding paragraph (1), the Admin-
istrator may execute a contract or procurement
agreement with respect to follow-on commer-
cial crew services during fiscal year 2011 if—

(A) the requirements of paragraphs (1), (2),
and (3) of subsection (b) are met; and
(B) the total amount involved for all such
contracts and procurement agreements exe-
cuted during fiscal year 2011 does not exceed
$50,000,000 for fiscal year 2011.

(b) Support

The Administrator may, beginning in fiscal
year 2012 through the duration of the program,
support follow-on commercially-developed crew
transportation systems dependent upon the
completion of each of the following:

(1) Human rating requirements

Not later than 60 days after October 11, 2010,
the Administrator shall develop and make
available to the public detailed human rating
processes and requirements to guide the de-
sign of commercially-developed crew transpor-
tation capabilities, which requirements shall
be at least equivalent to proven requirements
for crew transportation in use as of October 11,
2010.

(2) Commercial market assessment

Not later than 180 days after October 11, 2010,
the Administrator shall submit to the ap-
propriate committees of Congress an assess-
ment, conducted, in coordination with the Federal
Aviation Administration’s Office of Commer-
cial Space Transportation, for purposes of this
paragraph, of the potential non-Government
market for commercially-developed crew and
cargo transportation systems and capabilities,
including an assessment of the activities asso-
ciated with potential private sector utilization
of the ISS research and technology develop-
ment capabilities and other potential activi-
ties in low-Earth orbit.

(3) Procurement system review

The Administrator shall review current Gov-
ernment procurement and acquisition prac-
tices and processes, including agreement au-
thorities under the National Aeronautics and
Space Act of 1958, to determine the most cost-
effective means of procuring commercial crew
transportation capabilities and related serv-
ices in a manner that ensures appropriate ac-
countability, transparency, and maximum ef-
ciency in the procurement of such capabili-
ties and services, which review shall include
an identification of proposed measures to ad-
dress risk management and means of indem-
nification of commercial providers of such ca-
pabilities and services, and measures for qual-
ity control, safety oversight, and the applica-
tion of Federal oversight processes within the
jurisdiction of other Federal agencies. A de-
scription of the proposed procurement process
and justification of the proposed procurement
for its selection shall be included in any pro-
posed initiation of procurement activity for
commercially-developed crew transportation
capabilities and services and shall be subject
to review by the appropriate committees of
Congress before the initiation of any competi-
tive process to procure such capabilities or
services. In support of the review by such com-
mittees, the Comptroller General shall under-
take an assessment of the proposed procure-
ment process and provide a report to the ap-
propriate committees of Congress within 90

1 See References in Text note below.
days after the date on which the Administrator provides the description and justification to such committees.

(4) Use of government-supplied capabilities and infrastructure

In evaluating any proposed development activity for commercially-developed crew or cargo launch capabilities, the Administrator shall identify the anticipated contribution of government personnel, expertise, technologies, and infrastructure to be utilized in support of design, development, or operations of such capabilities. This assessment shall include a clear delineation of the full requirements for the commercial crew service (including the contingency for crew rescue). The Administrator shall include details and associated costs of such support as part of any proposed development initiative for the procurement of commercially-developed crew or cargo launch capabilities or services.

(5) Flight demonstration and readiness requirements

The Administrator shall establish appropriate milestones and minimum performance objectives to be achieved before authority is granted to proceed to the procurement of commercially-developed crew transportation capabilities or systems. The guidelines shall include a procedure to provide independent assurance of flight safety and flight readiness before the authorization of United States government personnel to participate as crew on-board any commercial launch vehicle developed pursuant to this section.

(6) Commercial crew rescue capabilities

The provision of a commercial capability to provide ISS crew services shall include crew rescue requirements, and shall be undertaken through the procurement process initiated in conformance with this section. In the event such development is initiated, the Administrator shall make available any relevant government-owned intellectual property deriving from the development of a multi-purpose crew vehicle authorized by this chapter to commercial entities involved with such crew rescue capability development which shall be relevant to the design of a crew rescue capability. In addition, the Administrator shall seek to ensure that contracts for development of the multi-purpose crew vehicle contain provisions for the licensing of relevant intellectual property to participating commercial providers of any crew rescue capability development undertaken pursuant to this section. If one or more contractors involved with development of the multi-purpose crew vehicle seek to compete in development of a commercial crew service with crew rescue capability, separate legislative authority must be enacted to enable the Administrator to provide funding for any modifications of the multi-purpose crew vehicle necessary to fulfill the ISS crew rescue function.

§ 18353  TITLE 42—THE PUBLIC HEALTH AND WELFARE  Page 8594

(b) NASA actions
In carrying out subsection (a), NASA shall, at a minimum, undertake the following:

(1) Innovative use of U.S. segment
The United States segment of the ISS, which has been designated as a National Laboratory, shall be developed, managed and utilized in a manner that enables the effective and innovative use of such facility, as provided in section 18354 of this title.

(2) International cooperation
The ISS shall continue to be utilized as a key component of international efforts to build missions and capabilities that further the development of a human presence beyond near-Earth space and advance United States security and economic goals. The Administrator shall actively seek ways to encourage and enable the use of ISS capabilities to support these efforts.

(3) Domestic collaboration
The operations, management, and utilization of the ISS shall be conducted in a manner that provides opportunities for collaboration with other research programs and objectives of the United States Government in cooperation with commercial suppliers, users, and developers.

§ 18353. Maintenance of the United States segment and assurance of continued operations of the International Space Station.

(a) In general
The Administrator shall take all actions necessary to ensure the safe and effective operation, maintenance, and maximum utilization of the United States segment of the ISS through at least September 30, 2024.

(b) Vehicle and component review
(1) In general
The Administrator shall, as soon as is practicable after October 11, 2010, carry out a comprehensive assessment of the essential modules, operational systems and components, structural elements, and permanent scientific equipment on board or planned for delivery and installation aboard the ISS, including both United States and international partner elements, for purposes of identifying the spare or replacement modules, systems and components, elements, and equipment that are required to ensure complete, effective, and safe functioning and full scientific utilization of the ISS through September 30, 2020.¹

(2) Data
In carrying out the assessment, the Administrator shall assemble any existing data, and provide for the development of any data or analysis not currently available, that is necessary for purposes of the assessment.

(c) Reports
(1) Report on assessment
(A) Report required
Not later than 90 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the assessment required by subsection (b).

(B) Elements
The report required by this paragraph shall include, at minimum, the following:

(i) A description of the spare or replacement modules, systems and components, elements, and equipment identified pursuant to the assessment that are currently produced, in inventory, or on order, a description of the state of their readiness, and a schedule for their delivery to the ISS (including the planned transportation means for such delivery), including for each such module, system or component, element, or equipment a description of—

(I) its specifications, including size, weight, and necessary configuration for launch and delivery to the ISS;

(II) its function;

(III) its location; and

(IV) its criticality for ISS system integrity.

(ii) A description of the spare or replacement modules, systems and components, elements, and equipment identified pursuant to the assessment that are not currently produced, in inventory, or on order, including for each such module, system or component, element, or equipment a description of—

(I) its specifications, including size, weight, and necessary configuration for launch and delivery to the ISS;

(II) its function;

(III) its location; and

(IV) its criticality for ISS system integrity; and

(V) the anticipated cost and schedule for its design, procurement, manufacture, and delivery to the ISS.

(iii) A detailed summary of the delivery schedule and associated delivery vehicle requirements necessary to transport all spare and replacement elements considered essential for the ongoing and sustained functionality of all critical systems of the ISS, both in and of themselves and as an element of an integrated, mutually dependent essential capability, including an assessment of the current schedule for delivery, the availability of delivery vehicles to meet that schedule, and the likelihood of meeting that schedule through such vehicles.

(2) GAO report
(A) Report required
Not later than 90 days after the submittal to Congress under paragraph (1) of the assessment required by subsection (b), the Comptroller General of the United States

¹See References in Text note below.
shall submit to the appropriate committees of Congress a report on the assessment. The report shall set forth an evaluation of the accuracy and level of confidence in the findings of the assessment.

(B) Cooperation with GAO
The Administrator shall provide for the monitoring and participation of the Comptroller General in the assessment in a manner that does not interfere with other activities of the appropriate NASA organizations and officials in support and logistics, shall be planned, managed, and supported as provided in section 18354 of this title. Exploration-related research and technology development facilities, capabilities, and associated ground support and logistics shall be planned, managed, and supported by the appropriate NASA organizations and officials in a manner that does not interfere with other activities under section 18354 of this title.

(e) Space Shuttle mission to ISS
(1) Space Shuttle mission
The Administrator shall fly the Launch-On-Need Shuttle mission currently designated in the Shuttle Flight Manifest dated February 28, 2010, to the ISS in fiscal year 2011, but no earlier than June 1, 2011, unless required earlier by an operations contingency, and pending the results of the assessment required by paragraph (2) and the determination under paragraph (3)(A).

(2) Assessment of safe means of return
The Administrator shall provide for an assessment by the NASA Engineering and Safety Center of the procedures and plans developed to ensure the safety of the Space Shuttle crew, and alternative means of return, in the event the Space Shuttle is damaged or otherwise unable to return safely to Earth.

(3) Schedule and payload
The determination of the schedule and payload for the mission authorized by paragraph (1) shall take into account the following:
(A) The supply and logistics delivery requirements of the ISS.
(B) The findings of the study required by paragraph (2).

(4) Funds
Amounts authorized to be appropriated by section 101(2)(B)1 shall be available for the mission authorized by paragraph (1).

(f) Space Shuttle manifest flight assurance
(1) In general
The Administrator shall take all actions necessary to preserve Space Shuttle launch capability through fiscal year 2011 in a manner that enables the launch, at a minimum, of missions and primary payloads in the Shuttle flight manifest as of February 28, 2010.

(2) Continuation of contractor support
The Administrator may not terminate any contract that provides the system transitions necessary for shuttle-derived hardware to be used on either the multi-purpose crew vehicle described in section 18323 of this title or the Space Launch System described in section 18322 of this title.

1 See References in Text note below.
sion Directorate of NASA to act as liaison between NASA and the organization with which the Administrator enters into a cooperative agreement under subsection (a) with regard to the management of the ISS national laboratory.

(2) Consultation with liaison

The cooperative agreement shall require the organization entering into the agreement to carry out its responsibilities under the agreement in cooperation and consultation with the official or employee designated under paragraph (1).

(c) Planning and coordination of ISS national laboratory research activities

The Administrator shall provide initial financial assistance to the organization with which the Administrator enters into a cooperative agreement under subsection (a), in order for the organization to initiate the following:

(1) Planning and coordination of the ISS national laboratory research activities.

(2) Development and implementation of guidelines, selection criteria, and flight support requirements for non-NASA scientific utilization of ISS research capabilities and facilities available in United States-owned modules of the ISS or in partner-owned facilities of the ISS allocated to United States utilization by international agreement.

(3) Interaction with and integration of the International Space Station National Laboratory Advisory Committee established under section 70906 of title 51 with the governance of the organization, and review recommendations provided by that Committee regarding agreements with non-NASA departments and agencies of the United States Government, academic institutions and consortia, and commercial entities leading to the utilization of the ISS national laboratory facilities.

(4) Coordination of transportation requirements in support of the ISS national laboratory research and development objectives, including provision for delivery of instruments, logistics support, and related experiment materials, and provision for return to Earth of collected samples, materials, and scientific instruments in need of replacement or upgrade.

(5) Cooperation with NASA, other departments and agencies of the United States Government, the States, and commercial entities in ensuring the enhancement and sustained operations of non-exploration-related research payload ground support facilities for the ISS, including the Space Life Sciences Laboratory, the Space Station Processing Facility and Payload Operations Integration Center.

(6) Development and implementation of scientific outreach and education activities designed to ensure effective utilization of ISS research capabilities including the conduct of scientific assemblies, conferences, and other fora for the presentation of research findings, methods, and mechanisms for the dissemination of non-restricted research findings and the development of educational programs, course supplements, interaction with educational programs at all grade levels, including student-focused research opportunities for conduct of research in the ISS national laboratory facilities.

(7) Such other matters relating to the utilization of the ISS national laboratory facilities for research and development as the Administrator may consider appropriate.

(d) Research capacity allocation and integration of research payloads

(1) Allocation of ISS research capacity

As soon as practicable after October 11, 2010, but not later than October 1, 2011, ISS national laboratory managed experiments shall be guaranteed access to, and utilization of, not less than 50 percent of the United States research capacity allocation, including power, cold stowage, and requisite crew time onboard the ISS through at least September 30, 2024. Access to the ISS research capacity includes provision for the adequate upmass and downmass capabilities to utilize the ISS research capacity, as available. The Administrator may allocate additional capacity to the ISS national laboratory should such capacity be in excess of NASA research requirements.

(2) Additional research capabilities

If any NASA research plan is determined to require research capacity onboard the ISS beyond the percentage allocated under paragraph (1), such research plan shall be prepared in the form of a requested research opportunity to be submitted to the process established under this section for the consideration of proposed research within the capacity allocated to the ISS national laboratory. A proposal for such a research plan may include the establishment of partnerships with non-NASA institutions eligible to propose research to be conducted within the ISS national laboratory capacity. Until at least September 30, 2024, the official or employee designated under subsection (b) may grant an exception to this requirement in the case of a proposed experiment considered essential for purposes of preparing for exploration beyond low-Earth orbit, as determined by joint agreement between the organization with which the Administrator enters into a cooperative agreement under subsection (a) and the official or employee designated under subsection (b).

(3) Research priorities and enhanced capacity

The organization with which the Administrator enters into the cooperative agreement shall consider recommendations of the National Academies Decadal Survey on Biological and Physical Sciences in Space in establishing research priorities and in developing proposed enhancements of research capacity and opportunities for the ISS national laboratory.

(4) Responsibility for research payload

NASA shall retain its roles and responsibilities in providing research payload physical, analytical, and operations integration during pre-flight, post-flight, transportation, and orbital phases essential to ensure safe and effective flight readiness and vehicle integration of research activities approved and prioritized by the organization with which the Adminis-
trator enters into the cooperative agreement and the official or employee designated under subsection (b).

CODIFICATION

AMENDMENTS

SUBCHAPTER V—SPACE SHUTTLE RETIREMENT AND TRANSITION

§ 18361. Sense of Congress on the Space Shuttle program

(a) Findings

Congress makes the following findings:

(1) The Space Shuttle program represents a national asset consisting of critical skills and capabilities, including the ability to lift large payloads into space and return them to Earth.

(2) The Space Shuttle has carried more than 355 people from 16 nations into space.

(3) The Space Shuttle has projected the best of American values around the world, and Space Shuttle crews have sparked the imagination and dreams of the world’s youth and young at heart.

(b) Sense of Congress

It is the sense of Congress that—

(1) it is essential that the retirement of the Space Shuttle and the transition to new human space flight capabilities be done in a manner that builds upon the legacy of this national asset; and

(2) it is imperative for the United States to retain the skills and the industrial capability to provide a follow-on Space Launch System that is primarily designed for missions beyond near-Earth space, while offering some potential for supplanting shuttle delivery capabilities to low-Earth orbit, particularly in support of ISS requirements, if necessary.

§ 18362. Retirement of Space Shuttle orbiters and transition of Space Shuttle program

(a) In general

The Administrator shall retire the Space Shuttle orbiters pursuant to a schedule established by the Administrator and in a manner consistent with provisions of this chapter regarding potential requirements for contingency utilization of Space Shuttle orbiters for ISS requirements.

(b) Utilization of workforce and assets in follow-on Space Launch System

(1) Utilization of vehicle assets

In carrying out subsection (a), the Administrator shall, to the maximum extent practicable, utilize workforce, assets, and infrastructure of the Space Shuttle program in efforts relating to the initiation of a follow-on Space Launch System developed pursuant to section 18322 of this title.

(2) Other assets

With respect to the workforce, assets, and infrastructure not utilized as described in paragraph (1), the Administrator shall work closely with other departments and agencies of the Federal Government, and the private sector, to divest unneeded assets and to assist displaced workers with retraining and other placement efforts. Amounts authorized to be appropriated by section 101(2)(B); shall be available for activities pursuant to this paragraph.

REFERENCES IN TEXT

§ 18363. Disposition of orbiter vehicles

(a) In general

Upon the termination of the Space Shuttle program as provided in section 18362 of this title, the Administrator shall decommission any remaining Space Shuttle orbiter vehicles according to established safety and historic preservation procedures prior to their designation as surplus government property. The orbiter vehicles shall be made available and located for display and maintenance through a competitive procedure established pursuant to the disposition plan developed under section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)), with priority consideration given to eligible applicants meeting all conditions of that plan which would provide for the display and maintenance of orbiters at locations with the best potential value to the public, including where the location of the orbiters can advance educational opportunities in science, technology, engineering, and mathematics disciplines, and with an historical relationship with either the launch, flight operations, or processing of the Space Shuttle orbiters or the retrieval of NASA manned space vehicles, or significant contributions to human space flight. The Smithsonian Institution, which, as of October 11, 2001, houses the Space Shuttle Enterprise, shall determine any new location for the Enterprise.

(b) Display and maintenance

The orbiter vehicles made available under subsection (a) shall be displayed and maintained through agreements and procedures established pursuant to section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)), with priority consideration given to eligible applicants meeting all conditions of that plan which would provide for the display and maintenance of orbiters at locations with the best potential value to the public, including where the location of the orbiters can advance educational opportunities in science, technology, engineering, and mathematics disciplines, and with an historical relationship with either the launch, flight operations, or processing of the Space Shuttle orbiters or the retrieval of NASA manned space vehicles, or significant contributions to human space flight. The Smithsonian Institution, which, as of October 11, 2001, houses the Space Shuttle Enterprise, shall determine any new location for the Enterprise.

(c) Authorization of appropriations

There are authorized to be appropriated to NASA such sums as may be necessary to carry

1 See References in Text note below.

2 See References in Text note below.
out this section. The amounts authorized to be appropriated by this subsection shall be in addition to any amounts authorized to be appropriated by title I, and may be requested by the President as supplemental requirements, if needed, in the appropriate fiscal years.

REFERENCES IN TEXT

Section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008, referred to in subsecs. (a) and (b), is section 613(a) of Pub. L. 110–422, formerly classified to section 17761(a) of this title, which was transferred and is set out as a note under section 70501 of Title 51, National and Commercial Space Programs.

Title I, referred to in subsec. (c), is title I of Pub. L. 111–267, Oct. 11, 2010, 124 Stat. 2809, which is not classified to the Code.

SUBCHAPTER VI—EARTH SCIENCE

§ 18371. Interagency collaboration implementation approach

The Director of OSTP shall establish a mechanism to ensure greater coordination of the research, operations, and activities relating to civilian Earth observation of those Agencies, including NASA, that have active programs that either contribute directly or indirectly to these areas. This mechanism should include the development of a strategic implementation plan that is updated at least every 3 years, and includes a process for external independent advisory input. This plan should include a description of the responsibilities of the various Agency roles in Earth observations, recommended cost-sharing and procurement arrangements between Agencies and other entities, including international arrangements, and a plan for ensuring the provision of sustained, long term space-based climate observations. The Director shall provide a report to Congress within 90 days after October 11, 2010, on the implementation plan for this mechanism.

§ 18372. Transitioning experimental research to operations

The Administrator shall coordinate with the Administrator of NOAA and the Director of the United States Geological Survey to establish a formal mechanism that plans, coordinates, and supports the transitioning of NASA research findings, assets, and capabilities to NOAA operations and United States Geological Survey operations. In defining this mechanism, NASA should consider the establishment of a formal or informal Interagency Transition Office. The Administrator of NASA shall provide an implementation plan for this mechanism to Congress within 90 days after October 11, 2010.

§ 18373. Decadal Survey missions implementation for Earth observation

The Administrator shall undertake to implement, as appropriate, missions identified in the National Research Council’s Earth Science Decadal Survey within the scope of the funds authorized for the Earth Science Mission Directorate.

§ 18374. Instrument test-beds and venture class missions

The Administrator shall pursue innovative ways to fly instrument-level payloads for early demonstration or as co-manifested payloads. The Congress encourages the use of the ISS as an accessible platform for the conduct of such activities. Additionally, in order to address the cost and schedule challenges associated with large flight systems, NASA should pursue smaller systems where practicable and warranted.

REFERENCES IN TEXT

Section 905 of this Act, referred to in text, is Pub. L. 111–267, title VIII, §801, Oct. 11, 2010, 124 Stat. 2832, which is not classified to the Code.

SUBCHAPTER VII—SPACE SCIENCE

§ 18381. Technology development

The Administrator shall ensure that the Science Mission Directorate maintains a long term technology development program for space and Earth science. This effort should be coordinated with an overall Agency technology investment approach, as authorized in section 905 of this Act.

REFERENCES IN TEXT

Section 905 of this Act, referred to in text, is Pub. L. 111–267, title IX, §905, Oct. 11, 2010, 124 Stat. 2836, which is not classified to the Code.

§ 18382. Suborbital research activities

(a) In general

The report of the National Academy of Sciences, Revitalizing NASA’s Suborbital Program: Advancing Science, Driving Innovation and Developing Workforce, found that suborbital science missions were absolutely critical to building an aerospace workforce capable of meeting the needs of current and future human and robotic space exploration.

(b) Management

The Administrator shall designate an officer or employee of the Science Mission Directorate to act as the responsible official for all Suborbital Research in the Science Mission Directorate. The designee shall be responsible for the development of short- and long term strategic plans for maintaining, renewing and extending suborbital facilities and capabilities, monitoring progress towards goals in the plans, and be responsible for integration of suborbital activities and workforce development within the agency, thereby ensuring the long term recognition of their combined value to the directorate, to NASA, and to the Nation.

(c) Establishment of Suborbital Research Program

The Administrator shall establish a Suborbital Research Program within the Science
Mission Directorate that shall include the use of sounding rockets, aircraft, high altitude balloons, suborbital reusable launch vehicles, and commercial launch vehicles to advance science and train the next generation of scientists and engineers in systems engineering and systems integration which are vital to maintaining critical skills in the aerospace workforce. The program shall integrate existing suborbital research programs with orbital missions at the discretion of the designated officer or employee and shall emphasize the participation of undergraduate and graduate students and post-doctoral researchers when formulating announcements of opportunity.

(d) Report

The Administrator shall report to the appropriate committees of Congress on the number and type of suborbital missions conducted in each fiscal year and the number of undergraduate and graduate students participating in the missions. The report shall be made annually for each fiscal year under this section.

(e) Authorization

There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this section.

§ 18383. In-space servicing

The Administrator shall continue to take all necessary steps to ensure that provisions are made for in-space or human servicing and repair of all future observatory-class scientific spacecraft intended to be deployed in Earth-orbit or at a Lagrangian point to the extent practicable and appropriate. The Administrator should ensure that agency investments and future capabilities for space technology, robotics, and human space flight take the ability to service and repair these spacecraft into account, where appropriate, and incorporate such capabilities into design and operational plans.

§ 18384. Decadal results

NASA shall take into account the current decadal surveys from the National Academies’ Space Studies Board when submitting the President’s budget request to the Congress.

§ 18385. On-going restoration of radioisotope thermoelectric generator material production

(a) Findings

The Congress finds the following:

(1) The United States has led the world in the scientific exploration of space for nearly 50 years.

(2) Missions such as Viking, Voyager, Cassini, and New Horizons have greatly expanded knowledge of our solar system and planetary characteristics and evolution.

(3) Radioisotope power systems are the only available power sources for deep space missions making it possible to travel to such distant destinations as Mars, Jupiter, Saturn, Pluto, and beyond and maintain operational control and systems viability for extended mission durations.

(4) Current radioisotope power systems supplies and production will not fully support NASA missions planned even in the next decade and, without a new domestic production capability, the United States will no longer have the means to explore the majority of the solar system by the end of this decade.

(5) Continuing to rely on Russia or other foreign sources for radioisotope power system fuel production is not a secure option.

(6) Reestablishing domestic production will require a long lead-time. Thus, meeting future space exploration mission needs requires that a restart project begin at the earliest opportunity.

(b) In general

The Administrator shall, in coordination with the Secretary of Energy, pursue a joint approach beginning in fiscal year 2011 towards restarting and sustaining the domestic production of radioisotope thermoelectric generator material for deep space and other science and exploration missions. Funds authorized by this chapter for NASA shall be made available under a reimbursable agreement with the Department of Energy for the purpose of reestablishing facilities to produce fuel required for radioisotope thermoelectric generators to enable future missions.

(c) Report

Within 120 days after October 11, 2010, the Administrator and the Secretary of Energy shall submit a joint report to the appropriate committees of Congress on coordinated agreements, planned implementation, and anticipated schedule, production quantities, and mission applications under this section.

§ 18386. Collaboration with ESMD and SOMD on robotic missions

The Administrator shall ensure that the Exploration Systems Mission Directorate and the Space Operations Mission Directorate coordinate with the Science Mission Directorate on an overall approach and plan for interagency and international collaboration on robotic missions that are NASA or internationally developed, including lunar, Lagrangian, near-Earth orbit, and Mars spacecraft, such as the International Lunar Network. Within 90 days after October 11, 2010, the Administrator shall provide a plan to the appropriate committees of Congress for implementation of the collaborative approach required by this section. The Administrator may not cancel or initiate any Exploration Systems Mission Directorate or Science Mission Directorate robotic project before the plan is submitted to the appropriate committees of Congress.

§ 18387. Near-Earth object survey and policy with respect to threats posed

(a) Policy reaffirmation

Congress reaffirms the policy set forth in section 20102(g) of title 51 relating to surveying near-Earth asteroids and comets.

(b) Implementation

The Director of the OSTP shall implement, before September 30, 2012, a policy for notifying Federal agencies and relevant emergency response institutions of an impending near-Earth object threat if near-term public safety is at risk, and assign a Federal agency or agencies to be responsible for protecting the United States and working with the international community on such threats.

CODIFICATION

In subsec. (a), “section 20102(g) of title 51” substituted for “section 102(g) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2451(g))” on authority of Pub. L. 111–314, § 5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

SUBCHAPTER VIII—AERONAUTICS AND SPACE TECHNOLOGY

§ 18401. Aeronautics research goals

The Administrator should ensure that NASA maintains a strong aeronautics research portfolio ranging from fundamental research through systems research with specific research goals, including the following:

(1) Airspace capacity

NASA’s Aeronautics Research Mission Directorate shall address research needs of the Next Generation Air Transportation System, including the ability of the National Airspace System to handle up to 3 times the current travel demand by 2025.

(2) Environmental sustainability

The Directorate shall consider and pursue concepts to reduce noise, emissions, and fuel consumption while maintaining high safety standards and shall pursue research related to alternative fuels.

(3) Aviation safety

The Directorate shall proactively address safety challenges with new and current air vehicles and with operations in the Nation’s current and future air transportation system.

§ 18402. Research collaboration

(a) Department of Defense

The Administrator shall continue to coordinate with the Secretary of Defense, through the National Partnership for Aeronautics Testing, to develop and implement joint plans for those elements of the Nation’s research, development, testing, and engineering infrastructure that are of common interest and use.

(b) Federal Aviation Administration

The Administrator shall continue to coordinate with, and work closely with, the Administrator of the Federal Aviation Administration, under the framework of the Senior Policy Council, in development of the Next Generation Air Transportation Program. The Administrator shall encourage the Council to explore areas for greater collaboration, including areas where NASA can help to accelerate the development and demonstration of NextGen technologies.

§ 18403. Goal for Agency space technology

It is critical that NASA maintain an Agency space technology base that helps align mission directorate investments and supports long term needs to complement mission-directorate funded research and support, where appropriate, multiple users, building upon its Innovative Partnerships Program and other partnering approaches.

§ 18404. National space technology policy

(a) In general

The President or the President’s designee, in consultation with appropriate Federal agencies, shall develop a national policy to guide the space technology development programs of the United States through 2020. The policy shall include national goals for technology development and shall describe the role and responsibilities of each Federal agency that will carry out the policy. In developing the policy, the President or the President’s designee shall utilize external studies that have been conducted on the state of United States technology development and have suggested policies to ensure continued competitiveness.

(b) Content

(1) At a minimum, the national space technology development policy shall describe for NASA—

(A) the priority areas of research for technology investment;

(B) the basis on which and the process by which priorities for ensuing fiscal years will be selected;

(C) the facilities and personnel needed to carry out the technology development program; and

(D) the budget assumptions on which the policy is based, which for fiscal years 2011, 2012, and 2013 shall be the authorized level for NASA’s technology program authorized by this chapter.

(2) The policy shall be based on the premise that the Federal Government has an established interest in conducting research and de-
velopment programs that help preserve the role of the United States as a global leader in space technologies and their application.

(3) CONSIDERATIONS.—In developing the national space technology development policy, the President or the President’s designee shall consider, and include a discussion in the report required by subsection (c), of the following issues:

(A) The extent to which NASA should focus on long term, high-risk research or more incremental technology development, and the expected impact of that decision on the United States economy.

(B) The extent to which NASA should address military and commercial needs.

(C) How NASA will coordinate its technology program with other Federal agencies.

(D) The extent to which NASA will conduct research in-house, fund university research, and collaborate on industry research and the expected impact of that mix of funding on the supply of United States workers for industry.

(4) CONSULTATION.—In the development of the national space technology development policy, the President or the President’s designee shall consult widely with academic and industry experts and with other Federal agencies. The Administrator may enter into an arrangement with the National Academy of Sciences to help develop the policy.

(c) Report

(1) Policy

Not later than 1 year after October 11, 2010, the President shall transmit a report setting forth national space technology policy to the appropriate committees of Congress and to the Senate Committee on Appropriations and the House of Representatives Committee on Appropriations.

(2) Implementation

Not later than 60 days after the President transmits the report required by paragraph (1) to the Congress, the Administrator shall transmit a report to the same committees describing how NASA will carry out the policy.

(d) Report

The Administrator shall submit a report annually to the appropriate committees of Congress describing progress in carrying out the Commercial Reusable Suborbital Research program, including the number and type of suborbital missions planned in each fiscal year.

(e) Authorization

There are authorized to be appropriated to the Administrator $15,000,000 for each of fiscal years 2011 through 2013 to carry out this section.

SUBCHAPTER IX—EDUCATION

§ 18421. Study of potential commercial orbital platform program impact on science, technology, engineering, and mathematics

A fundamental and unique capability of NASA is in stimulating science, technology, engineering, and mathematics education in the United States. In ensuring maximum use of that capability, the Administrator shall carry out a study to—

(1) identify the benefits of and lessons learned from ongoing and previous NASA orbital student programs including, at a minimum, the Get Away Special (GAS) and Earth Knowledge Acquired by Middle School Students (EarthKAM) programs, on science, technology, engineering, and mathematics education;

(2) assess the potential impacts on science, technology, engineering, and mathematics education of a program that would facilitate the development of scientific and educational payloads involving United States students and educators and the flights of those payloads on commercially available orbital platforms, when available and operational, with the goal of providing frequent and regular payload launches;

(3) identify NASA expertise, such as NASA science, engineering, payload development, and payload operations, that could be made available to facilitate a science, technology,
engineering, and mathematics program using commercial orbital platforms; and

(4) identify the issues that would need to be addressed before NASA could properly assess the merits and feasibility of the program described in paragraph (2).

AMENDMENTS

2011—Pub. L. 111–358 amended section generally. Prior to amendment, text read as follows: “A fundamental and unique capability of NASA is in stimulating science, technology, engineering, and mathematics education in the United States. In ensuring maximum use of that capability, NASA shall—

“(1) establish a program to annually sponsor scientific and educational payloads developed with United States student and educator involvement to be flown on commercially available orbital platforms, when available and operational, with the goal of launching at least 50 such payloads (with at least one from each of the 50 States) to orbit on at least one mission per year;

“(2) contract with providers of commercial orbital platform services for their use by the STEM-Commercial Orbital Platform program, preceded by the issuance of a request for proposal, not later than 90 days after October 11, 2010, to enter into at least one funded, competitively-awarded contract for commercial orbital platform services and make awards within 180 days after such date; and

“(3) engage with United States students and educators and make available NASA’s science, engineering, payload development, and payload operations expertise to student teams selected to participate in the STEM-Commercial Orbital Platform program.”

EFFECTIVE DATE OF 2011 AMENDMENT

Pub. L. 111–358, title II, § 205(c), Jan. 4, 2011, 124 Stat. 3996, provided that: “The amendment made by subsection (a) [amending this section] shall take effect on October 12, 2010.”

SUBCHAPTER X—RE-SCOPING AND REVISUALIZING INSTITUTIONAL CAPABILITIES

§ 18431. Workforce stabilization and critical skills preservation

Prior to receipt by the Congress of the study, recommendations, and implementation strategy developed pursuant to section 1103, none of the funds authorized for use under this Act may be used to transfer the functions, missions, or activities, and associated civil service and contractor positions, from any NASA facility without authorization by the Congress to implement the proposed strategy. The Administrator shall preserve the critical skills and competencies in place at NASA centers prior to October 11, 2010, in order to facilitate timely implementation of the requirements of this chapter and to minimize disruption to the workforce. The Administrator may not implement any reduction-in-force or other involuntary separations of permanent, non-Senior-Executive-Service, civil servant employees before September 30, 2013, except for cause on charges of misconduct, delinquency, or inefficiency.

1 See References in Text note below.

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 111–267, title XI, § 1103, Oct. 11, 2010, 124 Stat. 2840, known as the National Aeronautics and Space Administration Authorization Act of 2010, which enacted this chapter (§ 18301 et seq.) and various other provisions, including provisions authorizing appropriations, which were not classified to the Code. For complete classification of this Act to the Code, see Short Title note set out under section 18301 of this title and Tables.

SUBCHAPTER XI—OTHER MATTERS

§ 18441. National and international orbital debris mitigation

(a) Findings

Congress makes the following findings:

(1) A national and international effort is needed to develop a coordinated approach towards the prevention, negation, and removal of orbital debris.

(2) The guidelines issued by the Inter-Agency Space Debris Coordination Committee provide a consensus understanding of 10 national space agencies (including NASA) plus the European Space Agency on the necessity of mitigating the creation of space debris and measures for doing so. NASA’s participation on the Committee should be robust, and NASA should urge other space-relevant Federal agencies (including the Departments of State, Defense, and Commerce) to work to ensure that their counterpart agencies in foreign governments are aware of these national commitments and the importance in which the United States holds them.

(3) Key components of such an approach should include—

(A) a process for debris prevention through agreements regarding spacecraft design, operations, and end-of-life disposition plans to minimize orbiting vehicles or elements which are nonfunctional;

(B) the development of a robust Space Situational Awareness network that can identify potential collisions and provide sufficient trajectory and orbital data to enable avoidance maneuvers;

(C) the interagency development of an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(b) International discussion

(1) In general

The Administrator shall, in consultation with such other departments and agencies of the Federal Government as the Administrator considers appropriate, continue and strengthen discussions with the representatives of other space-faring countries, within the Inter-Agency Space Debris Coordination Committee and elsewhere, to deal with this orbital debris mitigation.

(2) Interagency effort

For purposes of carrying out this subsection, the Director of OSTP, in coordination with the
Director of the National Security Council and using the President's Council of Advisors on Science and Technology coordinating mechanism, shall develop an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

§ 18442. Reports on program and cost assessment and control assessment

(a) Findings

Congress makes the following findings:

(1) The adherence of NASA to program cost and schedule targets and discipline across NASA programs remains a concern.

(2) The James Webb Space Telescope has exceeded its cost estimate.

(3) In 2007 the Government Accountability Office issued a report on NASA’s high risk acquisition performance.

(4) In response, NASA prepared a corrective action plan two years ago.

(b) Reports

(1) Reports required

Not later than 90 days after October 11, 2010, and not later than April 30 of each year there after, the Administrator shall submit to the appropriate committees of Congress a report on the implementation during the preceding year for the corrective action plan referred to in subsection (a)(4).

(2) Elements

Each report under this subsection shall set forth, for the year covered by such report, the following:

(A) A description of each NASA program that has exceeded its cost baseline by five percent or more or is more than 2 years behind its projected development schedule.

(B) For each program specified under subparagraph (A), a plan for such decrease in scope or requirements, or other measures, to be undertaken to control cost and schedule, including any cost monitoring or corrective actions undertaken pursuant to the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 108–155), and the amendments made by that Act.

§ 18443. Counterfeit parts

(a) In general

The Administrator shall plan, develop, and implement a program, in coordination with other Federal agencies, to detect, track, catalog, and reduce the number of counterfeit electronic parts in the NASA supply chain.

(b) Requirements

In carrying out the program, the Administrator shall establish—

(1) counterfeit part identification training for all employees that procure, process, distribute, and install electronic parts that will—

(A) teach employees how to identify counterfeit parts;

(B) educate employees on procedures to follow if they suspect a part is counterfeit;

(C) regularly update employees on new threats, identification techniques, and reporting requirements; and

(D) integrate industry associations, manufacturers, suppliers, and other Federal agencies, as appropriate;

(2) an internal database to track all suspected and confirmed counterfeit electronic parts that will maintain, at a minimum—

(A) companies and individuals known and suspected of selling counterfeit parts;

(B) parts known and suspected of being counterfeit, including lot and date codes, part numbers, and part images;

(C) countries of origin;

(D) sources of reporting;

(E) United States Customs seizures; and

(F) Government-Industry Data Exchange Program reports and other public or private sector database notifications; and

(3) a mechanism to report all information on suspected and confirmed counterfeit electronic parts to law enforcement agencies, industry associations, and other databases, and to issue bulletins to industry on counterfeit electronic parts and related counterfeit activity.

(c) Review of procurement and acquisition policy

(1) In general

In establishing the program, the Administrator shall amend existing acquisition and
§ 18445. Information security

(a) Monitoring risk

The criteria may include—

(A) authentication or encryption codes;
(B) embedded security markings in parts;
(C) unique, harder to copy labels and markings;
(D) identifying distinct lot and serial codes
on external packaging;
(E) radio frequency identification embedded into high-value parts;
(F) physical destruction of all defective, damaged, and sub-standard parts that are
by-products of the manufacturing process;
(G) testing certifications;
(H) maintenance of procedures for handling any counterfeit parts that slip through;
(I) maintenance of secure facilities to prevent unauthorized access to proprietary
information; and
(J) maintenance of product return, buy back, and inventory control practices that
limit counterfeiting.

(d) Report to Congress

Within one year after October 11, 2010, the Administrator shall report on the progress of implementing this section to the appropriate committees of Congress.

§ 18445. Information security

evaluate the effectiveness of the system described in this subsection.

(b) Information security awareness and education

(1) In general

In consultation with the Department of Education, other national security agencies, and other agency directorates, the chief information officer shall institute an information security awareness and education program for all operators and users of NASA information infrastructure, with the goal of reducing unauthorized remote, proximity, and insider use or access.

(2) Program requirements

(A) The program shall include, at a minimum, ongoing classified and unclassified threat-based briefings, and automated exercises and examinations that simulate common attack techniques.

(B) All agency employees and contractors engaged in the operation or use of agency information infrastructure shall participate in the program.

(C) Access to NASA information infrastructure shall only be granted to operators and users who regularly satisfy the requirements of the program.

(D) The chief human capital officer of NASA, in consultation with the chief information officer, shall create a system to reward operators and users of agency information infrastructure for continuous high achievement in the program.

(c) Information infrastructure defined

In this section, the term ‘information infrastructure’ means the underlying framework that information systems and assets rely on to process, transmit, receive, or store information electronically, including programmable electronic devices and communications networks and any associated hardware, software, or data.

CHAPTER 160—TREATMENT OF CERTAIN PAYMENTS IN EUGENICS COMPENSATION

Sec. 18501. Exclusion of payments from State eugenics compensation programs from consideration in determining eligibility for, or the amount of, Federal public benefits.

§ 18501. Exclusion of payments from State eugenics compensation programs from consideration in determining eligibility for, or the amount of, Federal public benefits

(a) In general

Notwithstanding any other provision of law, payments made under a State eugenics compensation program shall not be considered as in-

1 See References in Text note below.
come or resources in determining eligibility for, or the amount of, any Federal public benefit.

(b) Definitions

For purposes of this section:

(1) Federal public benefit

The term “Federal public benefit” means—
(A) any grant, contract, loan, professional license, or commercial license provided by an agency of the United States or by appropriated funds of the United States; and
(B) any retirement, welfare, health, disability, public or assisted housing, postsecondary education, food assistance, unemployment benefit, or any other similar benefit for which payments or assistance are provided to an individual, household, or family eligibility unit by an agency of the United States or by appropriated funds of the United States.

(2) State eugenics compensation program

The term “State eugenics compensation program” means a program established by State law that is intended to compensate individuals who were sterilized under the authority of the State.

Short Title

Pub. L. 115–246, title I, § 101, Sept. 28, 2018, 132 Stat. 3131, provided that: “This title [enacting subchapter I of this chapter and amending sections 16312 and 16391 of this title] may be cited as the ‘Laboratory Modernization and Technology Transfer Act’.”

Pub. L. 115–246, title II, § 201, Sept. 28, 2018, 132 Stat. 3134, provided that: “This title [enacting subchapter II of this chapter and section 16358 of this title, amending sections 16357 and 16358 of this title, and repealing section 16358 of this title] may be cited as the ‘Laboratory Modernization and Technology Transfer Act’.”

Pub. L. 115–246, title III, § 301, Sept. 28, 2018, 132 Stat. 3140, provided that: “This title [enacting subchapter III of this chapter and amending sections 2053, 7139, 16313, 16315, 16316, and 16321 of this title, sections 5541 and 5542 of Title 15, Commerce and Trade, and provisions set out as a note under section 5501 of Title 15] may be cited as the ‘Department of Energy Office of Science Policy Act’.”

SUBCHAPTER I—LABORATORY MODERNIZATION AND TECHNOLOGY TRANSFER

§ 18611. Sense of Congress on accelerating energy innovation

It is the sense of Congress that—
(1) although important progress has been made in cost reduction and deployment of clean energy technologies, accelerating clean energy innovation will help meet critical competitiveness, energy security, and environmental goals;
(2) accelerating the pace of clean energy innovation in the United States calls for—
(A) supporting existing research and development programs at the Department and the world-class National Laboratories;
(B) exploring and developing new pathways for innovators, investors, and decision-makers to leverage the resources of the Department for addressing the challenges and comparative strengths of geographic regions; and
(C) recognizing the financial constraints of the Department, regularly reviewing clean
energy programs to ensure that taxpayer investments are maximized;
(3) the energy supply, demand, policies, markets, and resource options of the United States vary by geographic region;
(4) a regional approach to innovation can bridge the gaps between local talent, institutions, and industries to identify opportunities and convert United States investment into domestic companies; and
(5) Congress, the Secretary, and energy industry participants should advance efforts that promote international, domestic, and regional cooperation on the research and development of energy innovations that—
(A) provide clean, affordable, and reliable energy for everyone;
(B) promote economic growth;
(C) are critical for energy security; and
(D) are sustainable without government support.

§18612. Restoration of laboratory directed research and development program

(a) In general
Except as provided in subsection (b), the Secretary shall ensure that laboratory operating contractors do not allocate costs of general and administrative overhead to laboratory directed research and development.

(b) Exception for national security laboratories
This section shall not apply to the national security laboratories with respect to which section 3119 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) applies.

REFERENCES IN TEXT
Section 3119 of the National Defense Authorization Act for Fiscal Year 2017, referred to in subsec. (b), is section 3119 of Pub. L. 114–328, which is set out as a note under section 2791 of Title 50, War and National Defense.

§18613. Research grants database

(a) In general
The Secretary shall establish and maintain a public database, accessible on the website of the Department, that contains a searchable listing of each unclassified research and development project contract, grant, cooperative agreement, task order for a federally funded research and development center, or other transaction administered by the Department.

(b) Requirements
Each listing described in subsection (a) shall include, at a minimum, for each listed project, the Department office carrying out the project, the project name, an abstract or summary of the project, funding levels, project duration, contractor or grantee name (including the names of any subcontractors), and expected objectives and milestones.

(c) Relevant literature and patents
The Secretary shall provide information through the public database established under subsection (a) on relevant literature and patents that are associated with each research and development project contract, grant, or cooperative agreement, or other transaction, of the Department.

§18614. Technology transfer and transitions assessment
Not later than 1 year after September 28, 2018, and as often as the Secretary determines to be necessary thereafter, the Secretary shall transmit to the appropriate committees of Congress a report that includes recommended changes to the policy of the Department and legislative changes to section 16391 of this title to improve the ability of the Department to successfully transfer new energy technologies to the private sector.

§18615. Agreements for commercializing technology pilot program

(a) In general
The Secretary shall carry out the Agreements for Commercializing Technology pilot program of the Department, as announced by the Secretary on December 8, 2011, in accordance with this section.

(b) Terms
Each agreement entered into pursuant to the pilot program referred to in subsection (a) shall provide to the contractor of the applicable National Laboratory, to the maximum extent determined to be appropriate by the Secretary, increased authority to negotiate contract terms, such as intellectual property rights, payment structures, performance guarantees, and multiparty collaborations.

(c) Eligibility
(1) In general
Any director of a National Laboratory may enter into an agreement pursuant to the pilot program referred to in subsection (a).

(2) Agreements with non-Federal entities
To carry out paragraph (1) and subject to paragraph (3), the Secretary shall permit the directors of the National Laboratories to execute agreements with a non-Federal entity, including a non-Federal entity already receiving Federal funding that will be used to support activities under agreements executed pursuant to paragraph (1), provided that such funding is solely used to carry out the purposes of the Federal award.

(3) Restriction
The requirements of chapter 18 of title 35 (commonly known as the “Bayh-Dole Act”) shall apply if—
(A) the agreement is a funding agreement (as that term is defined in section 201 of that title); and
(B) at least one of the parties to the funding agreement is eligible to receive rights under that chapter.
(d) Submission to Secretary
Each affected director of a National Laboratory shall submit to the Secretary, with respect to each agreement entered into under this section—
(1) a summary of information relating to the relevant project;
(2) the total estimated costs of the project;
(3) estimated commencement and completion dates of the project; and
(4) other documentation determined to be appropriate by the Secretary.

(e) Certification
The Secretary shall require the contractor of the affected National Laboratory to certify that each activity carried out under a project for which an agreement is entered into under this section—
(1) is not in direct competition with the private sector; and
(2) does not present, or minimizes, any apparent conflict of interest, and avoids or neutralizes any actual conflict of interest, as a result of the agreement under this section.

(f) Extension
The pilot program referred to in subsection (a) shall be extended until September 30, 2019.

(g) Reports
(1) Overall assessment
Not later than 60 days after the date described in subsection (f), the Secretary, in coordination with directors of the National Laboratories, shall submit to the appropriate committees of Congress a report that—
(A) assesses the overall effectiveness of the pilot program referred to in subsection (a);
(B) identifies opportunities to improve the effectiveness of the pilot program;
(C) assesses the potential for program activities to interfere with the responsibilities of the National Laboratories to the Department; and
(D) provides a recommendation regarding the future of the pilot program.

(2) Transparency
The Secretary, in coordination with directors of the National Laboratories, shall submit to the appropriate committees of Congress an annual report that accounts for all incidences of, and provides a justification for, non-Federal entities using funds derived from a Federal contract or award to carry out agreements pursuant to this section.

§ 18632. Energy Innovation Hubs

(a) Definitions
In this section:
(1) Advanced energy technology
The term ‘‘advanced energy technology’’ means—
(A) an innovative technology—
(i) that produces energy from solar, wind, geothermal, biomass, tidal, wave, ocean, or other renewable energy resources;
(ii) that produces nuclear energy;
(iii) for carbon capture and sequestration;
(iv) that enables advanced vehicles, vehicle components, and related technologies that result in significant energy savings;
(v) that generates, transmits, distributes, uses, or stores energy more efficiently than conventional technologies, including through Smart Grid technologies; or
(vi) that enhances the energy independence and security of the United States by enabling improved or expanded supply and production of domestic energy resources, including coal, oil, and natural gas;
(B) a research, development, demonstration, or commercial application activity necessary to ensure the long-term, secure, and sustainable supply of an energy-critical element; or
(C) any other innovative energy technology area identified by the Secretary.

(2) Hub
(A) In general
The term ‘‘Hub’’ means an Energy Innovation Hub established under this section.
§ 18632

TITLE 42—THE PUBLIC HEALTH AND WELFARE

(B) Inclusion

(3) Qualifying entity
The term “qualifying entity” means—
(A) an institution of higher education;
(B) an appropriate State or Federal entity, including a federally funded research and development center of the Department;
(C) a nongovernmental organization with expertise in advanced energy technology research, development, demonstration, or commercial application; or
(D) any other relevant entity the Secretary determines appropriate.

(b) Authorization of program
(1) In general
The Secretary shall carry out a program to enhance the economic, environmental, and energy security of the United States by making awards to consortia for establishing and operating hubs, to be known as “Energy Innovation Hubs”, to conduct and support, at, if practicable, one centralized location, multidisciplinary, collaborative research, development, demonstration, and commercial application of advanced energy technologies.

(2) Technology development focus
The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of each Hub with the activities of—
(A) other research entities of the Department, including the National Laboratories, the Advanced Research Projects Agency—Energy, and Energy Frontier Research Centers; and
(B) industry.

(c) Application process
(1) Eligibility
To be eligible to receive an award for the establishment and operation of a Hub under subsection (b)(1), a consortium shall—
(A) be composed of not fewer than two qualifying entities;
(B) operate subject to a binding agreement, entered into by each member of the consortium, that documents—
(i) the proposed partnership agreement, including the governance and management structure of the Hub;
(ii) measures the consortium will undertake to enable cost-effective implementation of activities under the program described in subsection (b)(1); and
(iii) a proposed budget, including financial contributions from non-Federal sources; and
(C) operate as a nonprofit organization.

(2) Application
(A) In general
A consortium seeking to establish and operate a Hub under subsection (b)(1) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a detailed description of each element of the consortium agreement required under paragraph (1)(B).

(B) Requirement
If the consortium members will not be located at one centralized location, the application under subparagraph (A) shall include a communications plan that ensures close coordination and integration of Hub activities.

(3) Selection
(A) In general
The Secretary shall select consortia for awards for the establishment and operation of Hubs through a competitive selection process.

(B) Considerations
In selecting consortia under subparagraph (A), the Secretary shall consider—
(i) the information disclosed by the consortium under this subsection; and
(ii) any existing facilities a consortium will provide for Hub activities.

(d) Term
(1) In general
An award made to a Hub under this section shall be for a period of not more than 5 years, subject to the availability of appropriations, after which the award may be renewed, subject to a rigorous merit review.

(2) Existing Hubs
A Hub already in existence on, or undergoing a renewal process on, September 28, 2018—
(A) may continue to receive support during the 5-year period beginning on the date of establishment of that Hub; and
(B) shall be eligible for renewal of that support at the end of that 5-year period.

(e) Hub operations
(1) In general
Each Hub shall conduct or provide for multidisciplinary, collaborative research, development, demonstration, and commercial application of advanced energy technologies within the technology development focus designated under subsection (b)(2).

(2) Activities
Each Hub shall—
(A) encourage collaboration and communication among the member qualifying entities of the consortium and awardees;
(B) develop and publish proposed plans and programs on a publicly accessible website;
(C) submit an annual report to the Department summarizing the activities of the Hub, including—
(i) detailing organizational expenditures; and
(ii) describing each project undertaken by the Hub; and
(D) monitor project implementation and coordination.
(3) Conflicts of interest
Each Hub shall maintain conflict of interest procedures, consistent with the conflict of interest procedures of the Department.

(4) Prohibition on construction

(A) In general
Except as provided in subparagraph (B)—
(i) no funds provided under this section may be used for construction of new buildings or facilities for Hubs; and
(ii) construction of new buildings or facilities shall not be considered as part of the non-Federal share of a Hub cost-sharing agreement.

(B) Test bed and renovation exception
Nothing in this paragraph prohibits the use of funds provided under this section or non-Federal cost share funds for the construction of a test bed or renovations to existing buildings or facilities for the purposes of research if the Secretary determines that the test bed or renovations are limited to a scope and scale necessary for the research to be conducted.

SUBCHAPTER III—DEPARTMENT OF ENERGY OFFICE OF SCIENCE POLICY

§ 18641. Basic energy sciences

(a) Energy Frontier Research Centers

(1) In general
The Director shall carry out a program to provide awards, on a competitive, merit-reviewed basis, to multi-institutional collaborations or other appropriate entities to conduct fundamental and use-inspired energy research to accelerate scientific breakthroughs.

(2) Collaborations
A collaboration receiving an award under this subsection may include multiple types of institutions and private sector entities.

(3) Selection and duration

(A) In general
A collaboration under this subsection shall be selected for a period of 4 years.

(B) Existing centers
An Energy Frontier Research Center in existence and supported by the Director on September 28, 2018, may continue to receive support for a period of 4 years beginning on the date of establishment of that center.

(C) Reapplication
After the end of the period described in subparagraph (A) or (B), as applicable, a recipient of an award may reapply for selection on a competitive, merit-reviewed basis.

(D) Termination
Consistent with the existing authorities of the Department, the Director may terminate an underperforming center for cause during the performance period.

(4) No funding for construction
No funding provided pursuant to this subsection may be used for the construction of new buildings or facilities.

(b) Basic energy sciences user facilities

(1) In general
The Director shall carry out a program for the development, construction, operation, and maintenance of national user facilities.

(2) Requirements
To the maximum extent practicable, the national user facilities developed, constructed, operated, or maintained under paragraph (1) shall serve the needs of the Department, industry, the academic community, and other relevant entities to create and examine materials and chemical processes for the purpose of improving the competitiveness of the United States.

(3) Included facilities
The national user facilities developed, constructed, operated, or maintained under paragraph (1) shall include—
(A) x-ray light sources;
(B) neutron sources;
(C) nanoscale science research centers; and
(D) such other facilities as the Director considers appropriate, consistent with section 7139 of this title.

(c) Accelerator research and development
The Director shall carry out research and development on advanced accelerator and storage ring technologies relevant to the development of basic energy sciences user facilities, in consultation with the High Energy Physics and Nuclear Physics programs of the Office of Science.

§ 18642. Advanced scientific computing research

(a) Omitted

(b) High-performance computing and networking research
The Director shall support research in high-performance computing and networking relevant to energy applications, including modeling, simulation, and advanced data analytics for basic and applied energy research programs carried out by the Secretary.

(c) Applied mathematics and software development for high-end computing systems
The Director shall carry out activities to develop, test, and support—
(1) mathematics, models, and algorithms for complex systems and programming environments; and
(2) tools, languages, and operating systems for high-end computing systems (as defined in section 5541 of title 15).

CODIFICATION
Section is comprised of section 304 of Pub. L. 115–246. Subsec. (a) of section 304 of Pub. L. 115–246 amended sections 16316 of this title, sections 5541 and 5542 of Title 15, Commerce and Trade, and provisions set out as a note under section 5561 of Title 15.

§ 18643. High-energy physics

(a) Sense of Congress
It is the sense of Congress that—
§ 18644

Title 42—The Public Health and Welfare

Page 8610

(1) the Director should incorporate the findings and recommendations of the report of the Particle Physics Project Prioritization Panel entitled "Building for Discovery: Strategic Plan for U.S. Particle Physics in the Global Context" into the planning process of the Department; and

(2) the nations that lead in particle physics by hosting international teams dedicated to a common scientific goal attract the world's best talent and inspire future generations of physicists and technologists.

(b) International collaboration

The Director, as practicable and in coordination with other appropriate Federal agencies as necessary, shall ensure the access of United States researchers to the most advanced accelerator facilities and research capabilities in the world, including the Large Hadron Collider.

(c) Neutrino research

The Director shall carry out research activities on rare decay processes and the nature of the neutrino, which may include collaborations with the National Science Foundation or international collaborations.

(d) Dark energy and dark matter research

The Director shall carry out research activities on the nature of dark energy and dark matter, which may include collaborations with the National Aeronautics and Space Administration or the National Science Foundation; or international collaborations.

§ 18644. Biological and environmental research

(a) Biological systems

The Director shall carry out research and development activities in fundamental, structural, computational, and systems biology to increase systems-level understanding of the complex biological systems, which may include activities—

1. to accelerate breakthroughs and new knowledge that would enable the cost-effective, sustainable production of—
   (A) biomass-based liquid transportation fuels;
   (B) bioenergy; and
   (C) biobased materials;

2. to improve understanding of the global carbon cycle, including processes for removing carbon dioxide from the atmosphere, through photosynthesis and other biological processes, for sequestration and storage; and

3. to understand the biological mechanisms used to transform, immobilize, or remove contaminants from subsurface environments.

(b) Limitation for research funds

The Director shall not approve new climate science-related initiatives without making a determination that such work is well-coordinated with any relevant work carried out by other Federal agencies.

(c) Low-dose radiation research program

(1) In general

The Secretary shall carry out a research program on low-dose and low dose-rate radiation to—

(A) enhance the scientific understanding of, and reduce uncertainties associated with, the effects of exposure to low-dose and low dose-rate radiation; and

(B) inform improved risk-assessment and risk-management methods with respect to such radiation.

(2) Program components

In carrying out the program required under paragraph (1), the Secretary shall—

(A) support and carry out the directives under section 106(b) of the American Innovation and Competitiveness Act (42 U.S.C. 6601 note), except that such section shall be treated for purposes of this subsection as applying to low dose and low-dose rate radiation research, in coordination with the Physical Science Subcommittee of the National Science and Technology Council;

(B) identify and, to the extent possible, quantify, potential monetary and health-related impacts to Federal agencies, the general public, industry, research communities, and other users of information produced by such research program;

(C) leverage the collective body of knowledge from existing low-dose and low dose-rate radiation research;

(D) engage with other Federal agencies, research communities, and potential users of information produced under this section, including institutions performing or utilizing radiation research, medical physics, radiology, health physics, and emergency response measures; and

(E) support education and outreach activities to disseminate information and promote public understanding of low-dose radiation, with a focus on non-emergency situations such as medical physics, space exploration, and naturally occurring radiation.

(3) Research plan

(A) Not later than 90 days after December 27, 2020, the Secretary shall enter into an agreement with the National Academy of Sciences to develop a long-term strategic and prioritized research agenda for the program described in paragraph (2);

(B) Not later than one year after December 27, 2020, the Secretary shall transmit this research plan developed in subparagraph (A) to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) GAO study

Not later than 3 years after December 27, 2020, the Comptroller General shall transmit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a report on:

(A) an evaluation of the program activities carried out under this section;

(B) the effectiveness of the coordination and management of the program; and

(C) the implementation of the research plan outlined in paragraph (3).
(6) Definitions
In this subsection:

(A) Low-dose radiation
The term “low-dose radiation” means a radiation dose of less than 100 millisieverts per hour.

(B) Low dose-rate radiation
The term “low dose-rate radiation” means a radiation dose rate of less than 5 millisieverts per hour.

(7) Rule of construction
Nothing in this subsection shall be construed to subject any research carried out by the Secretary for the program under this subsection to any limitations described in section 16317(e) of this title.

(8) Funding
For purposes of carrying out this subsection, the Secretary is authorized to make available from funds provided to the Biological and Environmental Research Program—

(A) $20,000,000 for fiscal year 2021;
(B) $30,000,000 for fiscal year 2022;
(C) $30,000,000 for fiscal year 2023; and
(D) $40,000,000 for fiscal year 2024.

(d) Space radiation research
The Secretary of Energy, shall continue and strengthen collaboration with the Administrator of the National Aeronautics and Space Administration on basic research to understand the effects and risks of human exposure to ionizing radiation in low Earth orbit, and in the space environment.

REFERENCES IN TEXT
Section 106(b) of the American Innovation and Competitiveness Act (42 U.S.C. 6601 note), referred to in subsection (a), is section 106(b) of Pub. L. 114–329, title I, Jan. 6, 2017, 130 Stat. 2986, which is set out in a note under section 6601 of this title.

AMENDMENTS
2020—Subsec. (c), Pub. L. 116–260, § 11001(a), amended subsec. (c) generally. Prior to amendment, subsec. (c) related to the establishment and purpose of a low-dose radiation research program. Subsec. (d), Pub. L. 116–260, § 11001(b), added subsec. (d).

§ 18645. Fusion energy

(a) Program
As part of the activities authorized under section 7139 of this title and section 16312 of this title, the Director shall carry out a fusion energy sciences research and enabling technology development program to effectively address the scientific and engineering challenges to building a cost competitive fusion power plant and to support the development of a competitive fusion power industry in the United States. As part of this program, the Director shall carry out research activities to expand the fundamental understandings of plasma and matter at very high temperatures and densities for fusion applications and for other engineering and plasma science applications.

(b) Fusion materials research and development
As part of the activities authorized in section 16318 of this title—

(1) the Director, in coordination with the Assistant Secretary for Nuclear Energy of the Department, shall carry out research and development activities to identify, characterize, and demonstrate materials that can endure the neutron, plasma, and heat fluxes expected in a fusion power system; and

(2) the Director shall provide an assessment of—

(A) the need for one or more facilities that can examine and test potential fusion and next generation fission materials and other enabling technologies relevant to the development of fusion power; and

(B) whether a single new facility that substantially addresses magnetic fusion and next generation fission materials research needs is feasible, in conjunction with the expected capabilities of facilities operational as of September 28, 2018.

(c) Tokamak research and development
The Director shall support research and development activities and facility operations to optimize the tokamak approach to fusion energy.

(d) Inertial fusion research and development

(1) In general
The Director shall carry out a program of research and technology development in inertial fusion for energy applications, including ion beam, laser, and pulsed power fusion systems.

(2) Activities
As part of the program described in paragraph (1), the Director shall support activities at and partnerships with universities and the National Laboratories to—

(A) develop novel target designs;

(B) support modeling of various inertial fusion energy concepts and systems;

(C) develop diagnostic tools; and

(D) improve inertial fusion energy driver technologies.

(3) Authorization of appropriations
Out of funds authorized to be appropriated under subsection (c), there are authorized to be appropriated to the Secretary to carry out the activities described in subsection (d) $25,000,000 for each of fiscal years 2021 through 2025.

(e) Alternative and enabling concepts

(1) In general
The Director shall support research and development activities and facility operations at institutions of higher education, National Laboratories, and private facilities in the United States for a portfolio of alternative and enabling fusion energy concepts that may provide solutions to significant challenges to the establishment of a commercial magnetic fusion power plant, prioritized based on the ability of the United States to play a leader-
(2) Activities

Fusion energy concepts and activities explored under paragraph (1) may include—

(A) alternative fusion energy concepts, including—
   (i) advanced stellarator concepts;
   (ii) non-tokamak confinement configurations operating at low magnetic fields;
   (iii) magnetized target fusion energy concepts; or
   (iv) other promising fusion energy concepts identified by the Director;

(B) enabling fusion technology development activities, including—
   (i) high magnetic field approaches facilitated by high temperature superconductors;
   (ii) liquid metals to address issues associated with fusion plasma interactions with the inner wall of the encasing device; and
   (iii) advanced blankets for heat management and fuel breeding; and

(C) advanced scientific computing activities.

(3) Innovation network for fusion energy

(A) In general

The Secretary, acting through the Office of Science, shall support a program to provide fusion energy researchers with access to scientific and technical resources and expertise at facilities supported by the Department, including such facilities at National Laboratories and universities, to advance innovative fusion energy technologies toward commercial application.

(B) Awards

Financial assistance under the program established in subsection (a)—

(i) shall be awarded on a competitive, merit-reviewed basis; and

(ii) may be in the form of grants, vouchers, equipment loans, or contracts to private entities.

(4) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (o), there are authorized to be appropriated to the Secretary to carry out the activities described in subsection (e) $50,000,000 for each of fiscal years 2021 through 2025.

(f) Coordination with ARPA-E

The Director shall coordinate with the Director of the Advanced Research Projects Agency-Energy (referred to in this subsection as “ARPA-E”) to—

(1) assess the potential for any fusion energy project supported by ARPA-E to represent a promising approach to a commercially viable fusion power plant;

(2) determine whether the results of any fusion energy project supported by ARPA-E merit the support of follow-on research activities carried out by the Office of Science; and

(3) avoid the unintentional duplication of activities.

(g) Omitted

(h) Identification of priorities

(1) Report

(A) In general

Not later than 2 years after September 28, 2018, the Secretary shall submit to Congress a report on the fusion energy research and development activities that the Department proposes to carry out over the 10-year period following the date of the report under not fewer than 3 realistic budget scenarios, including a scenario based on 3-percent annual growth in the non-ITER portion of the budget for fusion energy research and development activities.

(B) Inclusions

The report required under subparagraph (A) shall—

(i) identify specific areas of fusion energy research and enabling technology development in which the United States can and should establish or solidify a lead in the global fusion energy development effort;

(ii) identify priorities for initiation of facility construction and facility decommissioning under each of the three budget scenarios described in subparagraph (A); and

(iii) assess the ability of the United States to carry out the activities identified under clauses (i) and (ii), including the adequacy of programs at institutions of higher education in the United States to train the leaders and workers of the next generation of fusion energy researchers.

(2) Process

In order to develop the report required under paragraph (1)(A), the Secretary shall leverage best practices and lessons learned from the process used to develop the most recent report of the Particle Physics Project Prioritization Panel of the High Energy Physics Advisory Panel.

(3) Requirement

No member of the Fusion Energy Sciences Advisory Committee shall be excluded from participating in developing or voting on final approval of the report required under paragraph (1)(A).

(i) Milestone-based development program

(1) In general

Using the authority of the Secretary under section 7256(g) of this title, notwithstanding paragraph (10) of such section, the Secretary shall establish, not later than 6 months after the date of enactment of this section, a milestone-based fusion energy development program that requires projects to meet particular technical milestones before a participant is awarded funds by the Department.

(2) Purpose

The purpose of the program established by paragraph (1) shall be to support the develop-
mement of a U.S.-based fusion power industry through the research and development of technologies that will enable the construction of new full-scale fusion systems capable of demonstrating significant improvements in the performance of such systems, as defined by the Secretary, within 10 years of the enactment of this section.

(3) Eligibility

Any entity is eligible to participate in the program provided that the Secretary has deemed it as having the necessary resources and expertise.

(4) Requirements

In carrying out the milestone-based program under paragraph (1), the Secretary shall, for each relevant project—

(A) request proposals from eligible entities, as determined by the Secretary, that include proposed technical milestones, including estimated project timelines and total costs;

(B) set milestones based on a rigorous technical review process;

(C) award funding of a predetermined amount to projects that successfully meet proposed milestones under paragraph (1), or for expenses deemed reimbursable by the Secretary, in accordance with terms negotiated for an individual award; and

(D) communicate regularly with selected eligible entities and, if the Secretary deems appropriate, exercise small amounts of flexibility for technical milestones as projects mature.

(5) Awards

For the program established under paragraph (1)—

(A) an award recipient shall be responsible for all costs until milestones are achieved, or reimbursable expenses are reviewed and verified by the Department;

(B) should an awardee not meet the milestones described in paragraph (4), the Secretary may end the partnership with an award recipient and use the remaining funds in the ended agreement for new or existing projects carried out under this section; and

(C) consistent with the existing authorities of the Department, the Secretary may end the partnership with an award recipient for cause during the performance period.

(6) Applications

Any project proposal submitted to the program under paragraph (1) shall be evaluated based upon its scientific, technical, and business merits through a peer-review process, which shall include reviewers with appropriate expertise from the private sector, the investment community, and experts in the science and engineering of fusion and plasma physics.

(7) Project management

In carrying out projects under this program and assessing the completion of their milestones in accordance with paragraph (4), the Secretary shall consult with experts that represent diverse perspectives and professional experiences, including those from the private sector, to ensure a complete and thorough review.

(8) Programmatic review

Not later than 4 years after the Secretary has established 3 milestones under this program, the Secretary shall enter into a contractual arrangement with the National Academy of Sciences to review and provide a report describing the findings of this review to the House Committee on Science, Space, and Technology and the Senate Committee on Energy and Natural Resources on the program established under this paragraph (1) that assesses—

(A) the benefits and drawbacks of a milestone-based fusion program as compared to traditional program structure funding models at the Department;

(B) lessons-learned from program operations; and

(C) any other matters the Secretary determines regarding the program.

(9) Annual report

As part of the annual budget request submitted for each fiscal year, the Secretary shall provide the House Committee on Science, Space, and Technology and the Senate Committee on Energy and Natural Resources a report describing partnerships supported by the program established under paragraph (1) during the previous fiscal year.

(10) Authorization of appropriations

Out of funds authorized to be appropriated under subsection (e), there are authorized to be appropriated to the Secretary to carry out the activities described in subsection (i), to remain available until expended—

(A) $45,000,000 for fiscal year 2021;

(B) $65,000,000 for fiscal year 2022;

(C) $105,000,000 for fiscal year 2023;

(D) $65,000,000 for fiscal year 2024; and

(E) $45,000,000 for fiscal year 2025.

(j) Fusion reactor system design

The Director shall support research and development activities to design future fusion reactor systems and examine and address the technical drivers for the cost of these systems.

(k) General plasma science and applications

The Director shall support research in general plasma science and high energy density physics that advance the understanding of the scientific community of fundamental properties and complex behavior of matter to control and manipulate plasmas for a broad range of applications, including support for research relevant to advancements in chip manufacturing and microelectronics.

(l) Sense of Congress

It is the sense of Congress that the United States should support a robust, diverse program in addition to providing sufficient support to, at a minimum, meet its commitments to ITER and maintain the schedule of the project as determined by the Secretary in coordination with the ITER Organization at the time of the enactment of this section. It is further the sense of Congress that developing the scientific basis for fu-
sion, providing research results key to the success of ITER, and training the next generation of fusion scientists are of critical importance to the United States and should in no way be diminished by participation of the United States in the ITER project.

(m) International collaboration

The Director shall—

(1) as practicable and in coordination with other appropriate Federal agencies as necessary, ensure the access of United States researchers to the most advanced fusion research facilities and research capabilities in the world, including ITER;

(2) to the maximum extent practicable, continue to leverage United States participation in ITER,1 and prioritize expanding international partnerships and investments in current and future fusion research facilities within the United States; and

(3) to the maximum extent practicable, prioritize engagement in collaborative efforts in support of future international facilities that would provide access to the most advanced fusion research facilities in the world to United States researchers.

(n) Fission and fusion research coordination report

(1) In general

Not later than 6 months after the date of enactment of this section, the Secretary shall transmit to Congress a report addressing opportunities for coordinating fusion energy research and development activities between the Office of Nuclear Energy, the Office of Science, and the Advanced Research Projects Agency—Energy.

(2) Components

The report shall assess opportunities for collaboration on research and development of—

(A) liquid metals to address issues associated with fusion plasma interactions with the inner wall of the encasing device and other components within the reactor;

(B) immersion blankets for heat management and fuel breeding;

(C) technologies and methods for instrumentation and control;

(D) computational methods and codes for system operation and maintenance;

(E) codes and standard development;

(F) radioactive waste handling;

(G) radiological safety;

(H) potential for non-electricity generation applications; and

(I) any other overlapping priority as identified by the Director of the Office of Science or the Assistant Secretary of Energy for Nuclear Energy.

(o) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the activities described in this section—

(1) $969,000,000 for fiscal year 2021;

(2) $921,000,000 for fiscal year 2022;

(3) $961,000,000 for fiscal year 2023;

(4) $921,000,000 for fiscal year 2024; and

(5) $901,000,000 for fiscal year 2025.

REFERENCES IN TEXT

The date of enactment of this section, referred to in subsecs. (i)(1) and (n)(1), probably means the date of enactment of Pub. L. 116–260, which enacted subsecs. (i) and (n) of this section and was approved Dec. 27, 2020.

The enactment of this section, referred to in subsecs. (i)(2) and (l), probably means the enactment of Pub. L. 116–260, which enacted subsecs. (i) and (l) of this section and made other amendments to this section.

CODIFICATION

AMENDMENTS

Subs. (b), (c), Pub. L. 116–260, §2008(a)(1), redesignated subsecs. (a) and (b) as (b) and (c), respectively. Former subsec. (c) redesignated (d).

Subsec. (d). Pub. L. 116–260, §2008(a)(3), amended subsec. (d) generally. Prior to amendment, text read as follows: “The Director shall support research and development activities for inertial fusion for energy applications.”

Pub. L. 116–260, §2008(a)(1), redesignated subsec. (c) as (d), Former subsec. (d) redesignated (e).

Subsec. (e). Pub. L. 116–260, §2008(a)(4), amended subsec. (e) generally. Prior to amendment, text read as follows: “The Director shall support research and development activities and facility operations at institutions of higher education, National Laboratories, and private facilities in the United States for a portfolio of alternative and enabling fusion energy concepts that may provide solutions to significant challenges to the establishment of a commercial magnetic fusion power plant, prioritized based on the ability of the United States to play a leadership role in the international fusion research community.”

Pub. L. 116–260, §2008(a)(1), redesignated subsec. (d) as (e), Former subsec. (e) redesignated (f).

Subsecs. (f) to (h). Pub. L. 116–260, §2008(a)(1), redesignated subsecs. (f) and (g) as (g) and (h), respectively. Subs. (i) to (o). Pub. L. 116–260, §2008(a)(5), added subsecs. (i) to (o).

§18646. Isotope development and production for research applications

The Director—

(1) may carry out a program for the production of isotopes, including the development of techniques to produce isotopes, that the Secretary determines are needed for research, medical, industrial, or related purposes; and

(2) shall ensure that isotope production activities carried out under the program under this paragraph do not compete with private industry unless the Director determines that critical national interests require the involvement of the Federal Government.

(Pub. L. 115–246, title III, §308(a), Sept. 28, 2018, 132 Stat. 3150.)

§18647. Science laboratories infrastructure program

(a) In general

The Director shall carry out a program to improve the safety, efficiency, and mission rea-
ness of infrastructure at laboratories of the Office of Science.

(b) Inclusions

The program under subsection (a) shall include projects—

(1) to renovate or replace space that does not meet research needs;

(2) to replace facilities that are no longer cost effective to renovate or operate;

(3) to modernize utility systems to prevent failures and ensure efficiency;

(4) to remove excess facilities to allow safe and efficient operations; and

(5) to construct modern facilities to conduct advanced research in controlled environmental conditions.
