In subsection (a), the definitions apply to the entire chapter because of references in 15:1421–1431 applying 15:1391–1420 to 15:1421–1431. Before clause (1), the words “As used” are omitted as surplus. In clause (1), the text of 15:1391(10) and 49 App.:1655(a)(6)(A) is omitted as surplus because the complete name of the Secretary of Transportation is used the first time the term appears in a section. The words “selling and distributing” are

substituted for “who is engaged in the sale and distribution of” to eliminate unnecessary words. The word “purposes” is omitted as surplus. In clause (3), the words “selling and distributing” are substituted for “engaged in the sale and distribution of” to eliminate unnecessary words. In clause (5)(A), the words “manufacturing or assembling” are substituted for “engaged in the manufacturing or assembling of” to eliminate unnecessary words. In clause (7), the words “physician or other duly” and “drivers, passengers, and other” are omitted as surplus. In clause (8), the words “is also protected” and “to persons” are omitted as unnecessary. In clause (9), the words “which is practicable, which meets the need for motor vehicle safety and which provides objective criteria” are omitted as unnecessary because of 15:1392(a) which is restated in section 30111 of the revised title. In clauses (10) and (11), the words “the Northern Mariana Islands” are added because of section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94-241, 90 Stat. 268), and as proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593). The words “the Canal Zone” are omitted because of the Panama Canal Treaty of 1977. In clause (10), the word “means” is substituted for “includes” as being more appropriate. The words “a State of the United States” are substituted for “each of the several States” for consistency. The words “the Commonwealth of” are omitted as surplus. In clause (11), the word “Federal” is omitted as surplus. The words “of the Commonwealth of Puerto Rico” are omitted as unnecessary because the district court of Puerto Rico is a district court of the United States under 28:119.

In subsection (b)(1), before clause (A), the words “The term” and “the term” are omitted as surplus. In clause (B), the words “of a motor vehicle or motor vehicle equipment” are added for clarity. In clause (E), the words “to be” are added for consistency. The words “marketed under such brand name” are omitted as surplus. In clause (F), the words “a motor vehicle safety standard prescribed under this chapter” are added for clarity and consistency. The word “noncompliance” is substituted for “failure to comply” for consistency in the chapter. In clause (G), the words “(rather than the manufacturer of such equipment)” are omitted as surplus. The words “deemed to be” are substituted for “considered” for consistency. In clause (H), the words “which have been” are omitted as surplus.

Subsection (b)(2) is substituted for “Except as otherwise provided in regulations of the Secretary” for clarity and because of the restatement.

§ 30103. Relationship to other laws

(a) UNIFORMITY OF REGULATIONS.—The Secretary of Transportation may not prescribe a safety regulation related to a motor vehicle subject to subchapter I of chapter 135 of this title that differs from a motor vehicle safety standard prescribed under this chapter. However, the Secretary may prescribe, for a motor vehicle operated by a carrier subject to subchapter I of chapter 135, a safety regulation that imposes a higher standard of performance after manufacture than that required by an applicable standard in effect at the time of manufacture.

(b) PREEMPTION.—(1) When a motor vehicle safety standard is in effect under this chapter, a State or a political subdivision of a State may prescribe or continue in effect a standard applicable to the same aspect of performance of a motor vehicle or motor vehicle equipment only if the standard is identical to the standard prescribed under this chapter. However, the United States Government, a State, or a political subdivision of a State may prescribe a standard for a motor vehicle or motor vehicle equipment obtained for its own use that imposes a higher performance requirement than that required by the otherwise applicable standard under this chapter.

(2) A State may enforce a standard that is identical to a standard prescribed under this chapter.

(c) ANTITRUST LAWS.—This chapter does not—
(1) exempt from the antitrust laws conduct that is unlawful under those laws; or

(2) prohibit under the antitrust laws conduct that is lawful under those laws.

(d) WARRANTY OBLIGATIONS AND ADDITIONAL LEGAL RIGHTS AND REMEDIES.—Sections 30117(b), 30118–30121, 30166(f), and 30167(a) and (b) of this title do not establish or affect a warranty obligation under a law of the United States or a State. A remedy under those sections and sections 30161 and 30162 of this title is in addition to other rights and remedies under other laws of the United States or a State.

(e) COMMON LAW LIABILITY.—Compliance with a motor vehicle safety standard prescribed under this chapter does not exempt a person from liability at common law.

SUBCHAPTER II—STANDARDS AND COMPLIANCE

§ 30111. Standards

(a) GENERAL REQUIREMENTS.—The Secretary of Transportation shall prescribe motor vehicle safety standards. Each standard shall be practicable, meet the need for motor vehicle safety, and be stated in objective terms.

(b) CONSIDERATIONS AND CONSULTATION.—When prescribing a motor vehicle safety standard under this chapter, the Secretary shall—

(1) consider relevant available motor vehicle safety information;

(2) consult with the agency established under the Act of August 20, 1958 (Public Law 85-684, 72 Stat. 635), and other appropriate State or interstate authorities (including legislative committees);

(3) consider whether a proposed standard is reasonable, practicable, and appropriate for the particular type of motor vehicle or motor vehicle equipment for which it is prescribed; and

(4) consider the extent to which the standard will carry out section 30101 of this title.

(c) COOPERATION.—The Secretary may advise, assist, and cooperate with departments, agencies, and instrumentalities of the United States Government, States, and other public and private agencies in developing motor vehicle safety standards.

(d) EFFECTIVE DATES OF STANDARDS.—The Secretary shall specify the effective date of a motor vehicle safety standard prescribed under this chapter in the order prescribing the standard. A standard may not become effective before the 180th day after the standard is prescribed or later than one year after it is prescribed. However, the Secretary may prescribe a different effective date after finding, for good cause shown, that a different effective date is in the public interest and publishing the reasons for the finding.

(e) 5-YEAR PLAN FOR TESTING STANDARDS.—The Secretary shall establish and periodically review and update on a continuing basis a 5-year plan for testing motor vehicle safety standards prescribed under this chapter that the Secretary considers capable of being tested. In developing the plan and establishing testing priorities, the Secretary shall consider factors the Secretary considers appropriate, consistent with section 30101 of this title and the Secretary's other du-

ties and powers under this chapter. The Secretary may change at any time those priorities to address matters the Secretary considers of greater priority. The initial plan may be the 5-year plan for compliance testing in effect on December 18, 1991.

(f) MOTOR VEHICLE SAFETY GUIDELINES.—

(1) IN GENERAL.—No guidelines issued by the Secretary with respect to motor vehicle safety shall confer any rights on any person, State, or locality, nor shall operate to bind the Secretary or any person to the approach recommended in such guidelines. In any enforcement action with respect to motor vehicle safety, the Secretary shall allege a violation of a provision of this subtitle, a motor vehicle safety standard issued under this subtitle, or another relevant statute or regulation. The Secretary may not base an enforcement action on, or execute a consent order based on, practices that are alleged to be inconsistent with any such guidelines, unless the practices allegedly violate a provision of this subtitle, a motor vehicle safety standard issued under this subtitle, or another relevant statute or regulation.

(2) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to confer any authority upon or negate any authority of the Secretary to issue guidelines under this chapter.

“(a) RULEMAKING REQUIRED.—Not later than 18 months after the date of enactment of this Act [Jan. 4, 2011] the Secretary shall initiate rulemaking, under section 30111 of title 49, United States Code, to promulgate a motor vehicle safety standard—

“(1) establishing performance requirements for an alert sound that allows blind and other pedestrians to reasonably detect a nearby electric or hybrid vehicle operating below the cross-over speed, if any; and

“(2) requiring new electric or hybrid vehicles to provide an alert sound conforming to the requirements of the motor vehicle safety standard established under this subsection.

“The motor vehicle safety standard established under this subsection shall not require either driver or pedestrian activation of the alert sound and shall allow the pedestrian to reasonably detect a nearby electric or hybrid vehicle in critical operating scenarios including, but not limited to, constant speed, accelerating, or decelerating. The Secretary shall allow manufacturers to provide each vehicle with one or more sounds that comply with the motor vehicle safety standard at the time of manufacture. Further, the Secretary shall require manufacturers to provide, within reasonable manufacturing tolerances, the same sound or set of sounds for all vehicles of the same make and model and shall prohibit manufacturers from providing any mechanism for anyone other than the manufacturer or the dealer to disable, alter, replace, or modify the sound or set of sounds, except that the manufacturer or dealer may alter, replace, or modify the sound or set of sounds in order to remedy a defect or non-compliance with the motor vehicle safety standard. The Secretary shall promulgate the required motor vehicle safety standard pursuant to this subsection not later than 36 months after the date of enactment of this Act.

“(b) CONSIDERATION.—When conducting the required rulemaking, the Secretary shall—

“(1) determine the minimum level of sound emitted from a motor vehicle that is necessary to provide blind and other pedestrians with the information needed to reasonably detect a nearby electric or hybrid vehicle operating at or below the cross-over speed, if any;

“(3) consider the overall community noise impact.

“(c) PHASE-IN REQUIRED.—The motor vehicle safety standard prescribed pursuant to subsection (a) of this section shall establish a phase-in period for compliance, as determined by the Secretary, and shall require full compliance with the required motor vehicle safety standard for motor vehicles manufactured on or after September 1st of the calendar year that begins 3 years after the date on which the final rule is issued.

“(d) REQUIRED CONSULTATION.—When conducting the required study and rulemaking, the Secretary shall—

“(1) consult with the Environmental Protection Agency to assure that the motor vehicle safety standard is consistent with existing noise requirements overseen by the Agency;

“(2) consult consumer groups representing individuals who are blind;

CHILD SAFETY STANDARDS FOR MOTOR VEHICLES

Pub. L. 110-189, Feb. 28, 2008, 122 Stat. 639, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Cameron Gulbransen Kids Transportation Safety Act of 2007’ or the ‘K.T. Safety Act of 2007’.

“SEC. 2. RULEMAKING REGARDING CHILD SAFETY.

“(a) POWER WINDOW SAFETY.—

“(1) CONSIDERATION OF RULE.—Not later than 18 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary of Transportation (referred to in this Act as the ‘Secretary’) shall initiate a rulemaking to consider prescribing or amending Federal motor vehicle safety standards to require power windows and panels on motor vehicles to automatically reverse direction when such power windows and panels detect an obstruction to prevent children and others from being trapped, injured, or killed.

“(2) DEADLINE FOR DECISION.—If the Secretary determines such safety standards are reasonable, practicable, and appropriate, the Secretary shall prescribe, under section 30111 of title 49, United States Code, the safety standards described in paragraph (1) not later than 30 months after the date of enactment of this Act. If the Secretary determines that no additional safety standards are reasonable, practicable, and appropriate, the Secretary shall—

“(A) not later than 30 months after the date of enactment of this Act, transmit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate describing the reasons such standards were not prescribed; and

“(B) publish and otherwise make available to the public through the Internet and other means (such as the ‘Buying a Safer Car’ brochure) information regarding which vehicles are or are not equipped with power windows and panels that automatically reverse direction when an obstruction is detected.

“(b) REARWARD VISIBILITY.—Not later than 12 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary shall initiate a rulemaking to revise Federal Motor Vehicle Safety Standard 111 (FMVSS 111) to expand the required field of view to enable the driver of a motor vehicle to detect areas behind the motor vehicle to reduce death and injury resulting from backing incidents, particularly incidents involving small children and disabled persons. The Secretary may prescribe different requirements for different types of motor vehicles to expand the required field of view to enable the driver of a motor vehicle to detect areas behind the motor vehicle to reduce death and injury resulting from backing incidents, particularly incidents involving small children and disabled persons. Such standard may be met by the provision of additional mirrors, sensors, cameras, or other tech-

nology to expand the driver’s field of view. The Secretary shall prescribe final standards pursuant to this subsection not later than 36 months after the date of enactment of this Act.

“(c) PHASE-IN PERIOD.—

“(1) PHASE-IN PERIOD REQUIRED.—The safety standards prescribed pursuant to subsections (a) and (b) shall establish a phase-in period for compliance, as determined by the Secretary, and require full compliance with the safety standards not later than 48 months after the date on which the final rule is issued.

“(2) PHASE-IN PRIORITIES.—In establishing the phase-in period of the rearward visibility safety standards required under subsection (b), the Secretary shall consider whether to require the phase-in according to different types of motor vehicles based on data demonstrating the frequency by which various types of motor vehicles have been involved in backing incidents resulting in injury or death. If the Secretary determines that any type of motor vehicle should be given priority, the Secretary shall issue regulations that specify—

“(A) which type or types of motor vehicles shall be phased-in first; and

“(B) the percentages by which such motor vehicles shall be phased-in.

“(d) PREVENTING MOTOR VEHICLES FROM ROLLING AWAY.—

“(1) REQUIREMENT.—Each motor vehicle with an automatic transmission that includes a ‘park’ position manufactured for sale after September 1, 2010, shall be equipped with a system that requires the service brake to be depressed before the transmission can be shifted out of ‘park’. This system shall function in any starting system key position in which the transmission can be shifted out of ‘park’.

“(2) TREATMENT AS MOTOR VEHICLE SAFETY STANDARD.—A violation of paragraph (1) shall be treated as a violation of a motor vehicle safety standard prescribed under section 30111 of title 49, United States Code, and shall be subject to enforcement by the Secretary under chapter 301 of such title.

“(3) PUBLICATION OF NONCOMPLIANT VEHICLES.—

“(A) INFORMATION SUBMISSION.—Not later than 60 days after the date of the enactment of this Act [Feb. 28, 2008], for the current model year and annually thereafter through 2010, each motor vehicle manufacturer shall transmit to the Secretary the make and model of motor vehicles with automatic transmissions that include a ‘park’ position that do not comply with the requirements of paragraph (1).

“(B) PUBLICATION.—Not later than 30 days after receiving the information submitted under subparagraph (A), the Secretary shall publish and otherwise make available to the public through the Internet and other means the make and model of the applicable motor vehicles that do not comply with the requirements of paragraph (1). Any motor vehicle not included in the publication under this subparagraph shall be presumed to comply with such requirements.

“(e) DEFINITION OF MOTOR VEHICLE.—As used in this Act and for purposes of the motor vehicle safety standards described in subsections (a) and (b), the term ‘motor vehicle’ has the meaning given such term in section 30102(a)(6) [now 30102(a)(7)] of title 49, United States Code, except that such term shall not include—

“(1) a motorcycle or trailer (as such terms are defined in section 571.3 of title 49, Code of Federal Regulations); or

“(2) any motor vehicle that is rated at more than 10,000 pounds gross vehicular weight.

“(f) DATABASE ON INJURIES AND DEATHS IN NON-TRAFFIC, NONCRASH EVENTS.—

“(1) IN GENERAL.—Not later than 12 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary shall establish and maintain a database of injuries and deaths in nontraffic, noncrash events involving motor vehicles.

“(2) CONTENTS.—The database established pursuant to paragraph (1) shall include information regarding—

“(A) the number, types, and causes of injuries and deaths resulting from the events described in paragraph (1);

“(B) the make, model, and model year of motor vehicles involved in such events, when practicable; and

“(C) other variables that the Secretary determines will enhance the value of the database.

“(3) AVAILABILITY.—The Secretary shall make the information contained in the database established pursuant to paragraph (1) available to the public through the Internet and other means.

“SEC. 3. CHILD SAFETY INFORMATION PROGRAM.

“(a) IN GENERAL.—Not later than 9 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary shall provide information about hazards to children in nontraffic, noncrash incident situations by—

“(1) supplementing an existing consumer information program relating to child safety; or

“(2) creating a new consumer information program relating to child safety.

“(b) PROGRAM REQUIREMENTS.—In carrying out the program under subsection (a), the Secretary shall—

“(1) utilize information collected pursuant to section 2(f) regarding nontraffic, noncrash injuries, and other relevant data the Secretary considers appropriate, to establish priorities for the program;

“(2) address ways in which parents and caregivers can reduce risks to small children arising from back over incidents, hyperthermia in closed motor vehicles, accidental actuation of power windows, and any other risks the Secretary determines should be addressed; and

“(3) make information related to the program available to the public through the Internet and other means.

“SEC. 4. DEADLINES.

“If the Secretary determines that the deadlines applicable under this Act cannot be met, the Secretary shall—

“(1) establish new deadlines; and

“(2) notify the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate of the new deadlines and describing the reasons the deadlines specified under this Act could not be met.”

IMPROVING CRITERIA USED IN A RECALL

Pub. L. 106-414, § 15, Nov. 1, 2000, 114 Stat. 1808, provided that:

“(a) REVIEW OF STANDARDS AND CRITERIA USED IN OPENING A DEFECT OR NONCOMPLIANCE INVESTIGATION.—The Secretary shall, not later than 30 days after the date of the enactment of this Act [Nov. 1, 2000], undertake a comprehensive review of all standards, criteria, procedures, and methods, including data management and analysis used by the National Highway Traffic Safety Administration in determining whether to open a defect or noncompliance investigation pursuant to subchapter II or IV of chapter 301 of title 49, United States Code, and shall undertake such steps as may be necessary to update and improve such standards, criteria, procedures, or methods, including data management and analysis.

“(b) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this Act [Nov. 1, 2000], the Secretary shall transmit to the Committee on Commerce [now Committee on Energy and Commerce] of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the Secretary’s findings and actions under subsection (a).”

§ 30112. Prohibitions on manufacturing, selling, and importing noncomplying motor vehicles and equipment

(a) GENERAL.—(1) Except as provided in this section, sections 30113 and 30114 of this title, and subchapter III of this chapter, a person may not manufacture for sale, sell, offer for sale, introduce or deliver for introduction in interstate commerce, or import into the United States, any motor vehicle or motor vehicle equipment manufactured on or after the date an applicable motor vehicle safety standard prescribed under this chapter takes effect unless the vehicle or equipment complies with the standard and is covered by a certification issued under section 30115 of this title.

(2) Except as provided in this section, sections 30113 and 30114 of this title, and subchapter III of this chapter, a school or school system may not purchase or lease a new 15-passenger van if it will be used significantly by, or on behalf of, the school or school system to transport preprimary, primary, or secondary school students to or from school or an event related to school, unless the 15-passenger van complies with the motor vehicle standards prescribed for school buses and multifunction school activity buses under this title. (B) holding, without knowing about the noncompliance and before the vehicle or equipment is first purchased in good faith other than for resale, a certificate issued by a manufacturer or importer stating the vehicle or equipment complies with applicable standards prescribed under this chapter; or

(C) having no reason to know, despite exercising reasonable care, that a motor vehicle or motor vehicle equipment contains a de-

fect related to motor vehicle safety about which notice was given under section 30118(c) or an order was issued under section 30118(b);

(3) a motor vehicle or motor vehicle equipment intended only for export, labeled for export on the vehicle or equipment and on the outside of any container of the vehicle or equipment, and exported;

In subsection (a), the words “Except as provided in this section . . . and subchapter III of this chapter” are substituted for 15:1397(c)(1) to eliminate unnecessary words and because of the restatement. The reference to section 30113 is added for clarity.

In subsection (b), before clause (1), the text of 15:1397(a)(2)(D) is omitted as obsolete because under section 30124 of the revised title a standard prescribed under this chapter may not allow compliance by use of a safety belt interlock or a continuous buzzer. In clause (2)(A), the words “despite exercising reasonable care” are substituted for “in the exercise of due care” for clarity and consistency in the revised title. The words “motor vehicle safety standards prescribed under this chapter” are substituted for “Federal motor vehicle safety standards” for clarity and consistency in this chapter. In clause (2)(B), the words “without knowing about the noncompliance” are substituted for “unless such person knows that such vehicle or equipment does not so conform” to eliminate unnecessary words and for consistency in the revised title. Clauses (4)–(8) are added to provide cross-references to sections restating exceptions to the general rule restated in subsection (a) of this section.

EFFECTIVE DATE OF 2012 AMENDMENT

Amendment by Pub. L. 112–141 effective Oct. 1, 2012, see section 3(a) of Pub. L. 112–141, set out as an Effective and Termination Dates of 2012 Amendment note under section 101 of Title 23, Highways.

§ 30113. General exemptions

(a) DEFINITION.—In this section, “low-emission motor vehicle” means a motor vehicle meeting the standards for new motor vehicles applicable to the vehicle under section 202 of the Clean Air Act (42 U.S.C. 7521) when the vehicle is manufactured and emitting an air pollutant in an amount significantly below one of those standards.

(b) AUTHORITY TO EXEMPT AND PROCEDURES.—(1) The Secretary of Transportation may exempt, on a temporary basis, motor vehicles from a motor vehicle safety standard prescribed under this chapter or passenger motor vehicles from a bumper standard prescribed under chapter 325 of this title, on terms the Secretary considers appropriate. An exemption may be renewed. A renewal may be granted only on re-

application and must conform to the requirements of this subsection.

(2) The Secretary may begin a proceeding under this subsection when a manufacturer applies for an exemption or a renewal of an exemption. The Secretary shall publish notice of the application and provide an opportunity to comment. An application for an exemption or for a renewal of an exemption shall be filed at a time and in the way, and contain information, this section and the Secretary require.

(3) The Secretary may act under this subsection on finding that—

(A) an exemption is consistent with the public interest and this chapter or chapter 325 of this title (as applicable); and

(B)(i) compliance with the standard would cause substantial economic hardship to a manufacturer that has tried to comply with the standard in good faith;

(ii) the exemption would make easier the development or field evaluation of a new motor vehicle safety feature providing a safety level at least equal to the safety level of the standard;

(iii) the exemption would make the development or field evaluation of a low-emission motor vehicle easier and would not unreasonably lower the safety level of that vehicle; or

(iv) compliance with the standard would prevent the manufacturer from selling a motor vehicle with an overall safety level at least equal to the overall safety level of nonexempt vehicles.

(c) CONTENTS OF APPLICATIONS.—A manufacturer applying for an exemption under subsection (b) of this section shall include the following information in the application:

(1) if the application is made under subsection (b)(3)(B)(i) of this section, a complete financial statement describing the economic hardship and a complete description of the manufacturer's good faith effort to comply with each motor vehicle safety standard prescribed under this chapter, or a bumper standard prescribed under chapter 325 of this title, from which the manufacturer is requesting an exemption.

(3) if the application is made under subsection (b)(3)(B)(iii) of this section, a record of the research, development, and testing establishing that the motor vehicle is a low-emission motor vehicle and that the safety level of the vehicle is not lowered unreasonably by exemption from the standard.

(4) if the application is made under subsection (b)(3)(B)(iv) of this section, a detailed analysis showing how the vehicle provides an overall safety level at least equal to the overall safety level of nonexempt vehicles.

(d) ELIGIBILITY.—A manufacturer is eligible for an exemption under subsection (b)(3)(B)(i) of this section (including an exemption under sub-

(g) NOTICE OF DECISION.—The Secretary shall publish in the Federal Register a notice of each decision granting an exemption under this section and the reasons for granting it.

(h) PERMANENT LABEL REQUIREMENT.—The Secretary shall require a permanent label to be fixed to a motor vehicle granted an exemption under this section. The label shall either name or describe each motor vehicle safety standard prescribed under this chapter or bumper standard prescribed under chapter 325 of this title from which the vehicle is exempt. The Secretary may require that written notice of an exemption be delivered by appropriate means to the dealer and the first purchaser of the vehicle other than for resale.

§ 30114. Special exemptions

(A)¹ VEHICLES USED FOR PARTICULAR PURPOSES.² The Secretary of Transportation may exempt a motor vehicle or item of motor vehicle equipment from section 30112(a) of this title on terms the Secretary decides are necessary for research, investigations, demonstrations, training, competitive racing events, show, or display.

(b) EXEMPTION FOR LOW-VOLUME MANUFACTURERS.—

(1) IN GENERAL.—The Secretary shall—

(A) exempt from section 30112(a) of this title not more than 325 replica motor vehicles per year that are manufactured or imported by a low-volume manufacturer; and

(B) except as provided in paragraph (4) of this subsection, limit any such exemption to the Federal Motor Vehicle Safety Standards applicable to motor vehicles and not motor vehicle equipment.

(2) REGISTRATION REQUIREMENT.—To qualify for an exemption under paragraph (1), a low-volume manufacturer shall register with the Secretary at such time, in such manner, and under such terms that the Secretary determines appropriate. The Secretary shall establish terms that ensure that no person may register as a low-volume manufacturer if the person is registered as an importer under section 30141 of this title.

(3) PERMANENT LABEL REQUIREMENT.—

(A) IN GENERAL.—The Secretary shall require a low-volume manufacturer to affix a permanent label to a motor vehicle exempted under paragraph (1) that identifies the specified standards and regulations for which such vehicle is exempt from section 30112(a), states that the vehicle is a replica, and designates the model year such vehicle replicates.

(B) WRITTEN NOTICE.—The Secretary may require a low-volume manufacturer of a motor vehicle exempted under paragraph (1) to deliver written notice of the exemption to—

(i) the dealer; and

(ii) the first purchaser of the motor vehicle, if the first purchaser is not an individual that purchases the motor vehicle for resale.

prove or deny a registration submitted under paragraph (2). If the Secretary determines that any such registration submitted is incomplete, the Secretary shall have an additional 30 days for review. Any registration not approved or denied within 90 days after initial submission, or 120 days if the registration submitted is incomplete, shall be deemed approved. The Secretary shall have the authority to revoke an existing registration based on a failure to comply with requirements set forth in this subsection or a finding by the Secretary of a safety-related defect or unlawful conduct under this chapter that poses a significant safety risk. The registrant shall be provided a reasonable opportunity to correct all deficiencies, if such are correctable based on the sole discretion of the Secretary. An exemption granted by the Secretary to a low-volume manufacturer under this subsection may not be transferred to any other person, and shall expire at the end of the calendar year for which it was granted with respect to any volume authorized by the exemption that was not applied by the low-volume manufacturer to vehicles built during that calendar year. The Secretary shall maintain an up-to-date list of registrants and a list of the make and model of motor vehicles exempted under paragraph (1) on at least an annual basis and publish such list in the Federal Register or on a website operated by the Secretary.

(6) **LIMITATION OF LIABILITY FOR ORIGINAL MANUFACTURERS, LICENSORS OR OWNERS OF PRODUCT CONFIGURATION, TRADE DRESS, OR DESIGN PATENTS.**—The original manufacturer, its successor or assignee, or current owner, who grants a license or otherwise transfers rights to a low-volume manufacturer shall incur no liability to any person or entity under Federal or State statute, regulation, local ordinance, or under any Federal or State common law for such license or assignment to a low-volume manufacturer.

(B) **REPLICA MOTOR VEHICLE.**—The term “replica motor vehicle” means a motor vehicle produced by a low-volume manufacturer and that—

(i) is intended to resemble the body of another motor vehicle that was manufactured not less than 25 years before the manufacture of the replica motor vehicle; and

(ii) is manufactured under a license for the product configuration, trade dress, trademark, or patent, for the motor vehicle that is intended to be replicated from the original manufacturer, its successors or assignees, or current owner of such product configuration, trade dress, trademark, or patent rights.

(8) **CONSTRUCTION.**—Except as provided in paragraphs (1) and (4), a registrant shall be considered a motor vehicle manufacturer for purposes of parts A and C of subtitle VI of this title. Nothing shall be construed to exempt a registrant from complying with the requirements under sections 30116 through 30120A of this title if the motor vehicle excepted under paragraph (1) contains a defect related to motor vehicle safety.

(9) **STATE REGISTRATION.**—Nothing in this subsection shall be construed to preempt, affect, or supersede any State titling or registration law or regulation for a replica motor vehicle, or exempt a person from complying with such law or regulation.

Certification of a vehicle must be shown by a label or tag permanently fixed to the vehicle. Certification of equipment may be shown by a label or tag on the equipment or on the outside of the container in which the equipment is delivered.

(b) **CERTIFICATION LABEL.**—In the case of the certification label affixed by an intermediate or final stage manufacturer of a motor vehicle built in more than 1 stage, each intermediate or final stage manufacturer shall certify with re-

spect to each applicable Federal motor vehicle safety standard—

(1) that it has complied with the specifications set forth in the compliance documentation provided by the incomplete motor vehicle manufacturer in accordance with regulations prescribed by the Secretary; or

(2) that it has elected to assume responsibility for compliance with that standard.

If the intermediate or final stage manufacturer elects to assume responsibility for compliance with the standard covered by the documentation provided by an incomplete motor vehicle manufacturer, the intermediate or final stage manufacturer shall notify the incomplete motor vehicle manufacturer in writing within a reasonable time of affixing the certification label. A violation of this subsection shall not be subject to a civil penalty under section 30165.

(a) ACTIONS REQUIRED OF MANUFACTURERS AND DISTRIBUTORS.—If, after a manufacturer or distributor sells a motor vehicle or motor vehicle equipment to a distributor or dealer and before the distributor or dealer sells the vehicle or equipment, it is decided that the vehicle or equipment contains a defect related to motor vehicle safety or does not comply with applica-

§ 30117. Providing information to, and maintaining records on, purchasers

(a) PROVIDING INFORMATION AND NOTICE.—The Secretary of Transportation may require that each manufacturer of a motor vehicle or motor vehicle equipment provide technical information related to performance and safety required to carry out this chapter. The Secretary may require the manufacturer to give the following notice of that information when the Secretary decides it is necessary:

(1) to each prospective purchaser of a vehicle or equipment before the first sale other than for resale at each location at which the vehicle or equipment is offered for sale by a person having a legal relationship with the manufacturer, in a way the Secretary decides is appropriate.

(2) to the first purchaser of a vehicle or equipment other than for resale when the vehicle or equipment is bought, in printed matter placed in the vehicle or attached to or accompanying the equipment.

(b) MAINTAINING PURCHASER RECORDS AND PROCEDURES.—(1) A manufacturer of a motor vehicle or tire (except a retreaded tire) shall cause to be maintained a record of the name and address of the first purchaser of each vehicle or tire it produces and, to the extent prescribed by regulations of the Secretary, shall cause to be maintained a record of the name and address of the first purchaser of replacement equipment (except a tire) that the manufacturer produces. The Secretary may prescribe by regulation the records to be maintained and reasonable procedures

for maintaining the records under this subsection, including procedures to be followed by distributors and dealers to assist the manufacturer in obtaining the information required by this subsection. A procedure shall be reasonable for the type of vehicle or tire involved, and shall provide reasonable assurance that a customer list of a distributor or dealer, or similar information, will be made available to a person (except the distributor or dealer) only when necessary to carry out this subsection and sections 30118–30121, 30166(f), and 30167(a) and (b) of this title. Availability of assistance from a distributor or dealer does not affect an obligation of a manufacturer under this subsection.

(2)(A) Except as provided in paragraph (3) of this subsection, the Secretary may require a distributor or dealer to maintain a record under paragraph (1) of this subsection only if the business of the distributor or dealer is owned or controlled by a manufacturer of tires.

(B) The Secretary shall require each distributor and dealer whose business is not owned or controlled by a manufacturer of tires to give a registration form (containing the tire identification number) to the first purchaser of a tire. The Secretary shall prescribe the form, which shall be standardized for all tires and designed to allow the purchaser to complete and return it directly to the manufacturer of the tire. The manufacturer shall give sufficient copies of forms to distributors and dealers.

(3) RULEMAKING.—

(A) IN GENERAL.—The Secretary shall initiate a rulemaking to require a distributor or dealer of tires that is not owned or controlled by a manufacturer of tires to maintain records of—

- (i) the name and address of tire purchasers and lessors;
- (ii) information identifying the tire that was purchased or leased; and
- (iii) any additional records the Secretary considers appropriate.

(B) ELECTRONIC TRANSMISSION.—The rulemaking carried out under subparagraph (A) shall require a distributor or dealer of tires that is not owned or controlled by a manufacturer of tires to electronically transmit the records described in clauses (i), (ii), and (iii) of subparagraph (A) to the manufacturer of the tires or the designee of the manufacturer by secure means at no cost to tire purchasers or lessors.

(C) SATISFACTION OF REQUIREMENTS.—A regulation promulgated under subparagraph (A) may be considered to satisfy the requirements of paragraph (2)(B).

(c) ROLLOVER TESTS.—

(1) DEVELOPMENT.—Not later than 2 years from the date of the enactment of this subsection, the Secretary shall—

(A) develop a dynamic test on rollovers by motor vehicles for the purposes of a consumer information program; and

(B) carry out a program of conducting such tests.

mine how best to disseminate test results to the public.

(3) MOTOR VEHICLES COVERED.—This subsection applies to motor vehicles, including passenger cars, multipurpose passenger vehicles, and trucks, with a gross vehicle weight rating of 10,000 pounds or less. A motor vehicle designed to provide temporary residential accommodations is not covered.

§ 30119. Notification procedures

(a) CONTENTS OF NOTIFICATION.—Notification by a manufacturer required under section 30118 of this title of a defect or noncompliance shall contain—

- (1) a clear description of the defect or noncompliance;
- (2) an evaluation of the risk to motor vehicle safety reasonably related to the defect or noncompliance;
- (3) the measures to be taken to obtain a remedy of the defect or noncompliance;
- (4) a statement that the manufacturer giving notice will remedy the defect or noncompliance without charge under section 30120 of this title;
- (5) the earliest date on which the defect or noncompliance will be remedied without charge, and for tires, the period during which the defect or noncompliance will be remedied without charge under section 30120 of this title;
- (6) the procedure the recipient of a notice is to follow to inform the Secretary of Transportation when a manufacturer, distributor, or dealer does not remedy the defect or noncompliance without charge under section 30120 of this title; and
- (7) other information the Secretary prescribes by regulation.

(b) EARLIEST REMEDY DATE.—The date specified by a manufacturer in a notification under subsection (a)(5) of this section or section 30121(c)(2) of this title is the earliest date that parts and facilities reasonably can be expected to be available to remedy the defect or noncompliance. The Secretary may disapprove the date.

(c) TIME FOR NOTIFICATION.—Notification required under section 30118 of this title shall be given within a reasonable time—

- (1) prescribed by the Secretary, after the manufacturer receives notice of a final decision under section 30118(b) of this title; or
- (2) after the manufacturer first decides that a safety-related defect or noncompliance exists under section 30118(c) of this title.

(d) MEANS OF PROVIDING NOTIFICATION.—(1) Notification required under section 30118 of this title about a motor vehicle shall be sent in the manner prescribed by the Secretary, by regulation—

(A) to each person registered under State law as the owner and whose name and address are reasonably ascertainable by the manufacturer through State records or other available sources; or

(B) if a registered owner is not notified under clause (A) of this paragraph, to the most recent purchaser known to the manufacturer.

(2) Notification required under section 30118 of this title about replacement equipment shall be sent in the manner prescribed by the Secretary, by regulation, to the most recent purchaser known to the manufacturer.

(3) In addition to the notification required under paragraphs (1) and (2), if the Secretary decides that public notice is required for motor vehicle safety, public notice shall be given by the manufacturer in the way required by the Secretary after consulting with the manufacturer. In deciding whether public notice is required, the Secretary shall consider—

(A) the magnitude of the risk to motor vehicle safety caused by the defect or noncompliance; and

(B) the cost of public notice compared to the additional number of owners the notice may reach.

(4) A dealer to whom a motor vehicle or replacement equipment was delivered shall be notified in the manner prescribed by the Secretary, by regulation.

(e) ADDITIONAL NOTIFICATION.—

(1) SECOND NOTIFICATION.—If the Secretary decides that a notification sent by a manufacturer under this section has not resulted in an adequate number of motor vehicles or items of replacement equipment being returned for remedy, the Secretary may order the manufacturer to send a 2d notification in the way the Secretary prescribes by regulation.

(2) ADDITIONAL NOTIFICATIONS.—If the Secretary determines, after taking into account the severity of the defect or noncompliance, that the second notification by a manufacturer does not result in an adequate number of motor vehicles or items of replacement equipment being returned for remedy, the Secretary may order the manufacturer—

(A)(i) to send additional notifications in the manner prescribed by the Secretary, by regulation; or

(ii) to take additional steps to locate and notify each person registered under State law as the owner or lessee or the most recent purchaser or lessee, as appropriate; and

(B) to emphasize the magnitude of the safety risk caused by the defect or noncompliance in such notification.

(f) NOTIFICATION BY LESSOR TO LESSEE.—(1) In this subsection, “leased motor vehicle” means a motor vehicle that is leased to a person for at least 4 months by a lessor that has leased at least 5 motor vehicles in the 12 months before the date of the notification.

(2) A lessor that receives a notification required by section 30118 of this title about a leased motor vehicle shall provide a copy of the notification to the lessee in the way the Secretary prescribes by regulation.

(g) INFORMATION REGARDING COMPONENTS INVOLVED IN RECALL.—A manufacturer that is re-

quired to furnish a report under section 573.6 of title 49, Code of Federal Regulations (or any successor regulation) for a defect or noncompliance in a motor vehicle or in an item of original or replacement equipment shall, if such defect or noncompliance involves a specific component or components, include in such report, with respect to such component or components, the following information:

(1) The name of the component or components.

“(a) IN GENERAL.—The Secretary shall establish a publicly available and searchable electronic database of tire recall information that is reported to the Administrator of the National Highway Traffic Safety Administration.

§ 30120. Remedies for defects and noncompliance

(a) WAYS TO REMEDY.—(1) Subject to subsections (f) and (g) of this section, when notification of a defect or noncompliance is required under section 30118(b) or (c) of this title, the manufacturer of the defective or noncomplying motor vehicle or replacement equipment shall remedy the defect or noncompliance without charge when the vehicle or equipment is presented for remedy. Subject to subsections (b) and (c) of this section, the manufacturer shall remedy the defect or noncompliance in any of the following ways the manufacturer chooses:

(A) if a vehicle—

- (i) by repairing the vehicle;
- (ii) by replacing the vehicle with an identical or reasonably equivalent vehicle; or
- (iii) by refunding the purchase price, less a reasonable allowance for depreciation.

(B) if replacement equipment, by repairing the equipment, replacing the equipment with identical or reasonably equivalent equipment, or by refunding the purchase price.

(2) The Secretary of Transportation may prescribe regulations to allow the manufacturer to impose conditions on the replacement of a motor vehicle or refund of its price.

(b) TIRE REMEDIES.—(1) A manufacturer of a tire, including an original equipment tire, shall remedy a defective or noncomplying tire if the owner or purchaser presents the tire for remedy not later than 180 days after the later of—

(A) the day the owner or purchaser receives notification under section 30119 of this title; or

(B) if the manufacturer decides to replace the tire, the day the owner or purchaser receives notification that a replacement is available.

(2) If the manufacturer decides to replace the tire and the replacement is not available during the 180-day period, the owner or purchaser must present the tire for remedy during a subsequent 180-day period that begins only after the owner

or purchaser receives notification that a replacement will be available during the subsequent period. If tires are available during the subsequent period, only a tire presented for remedy during that period must be remedied.

(c) ADEQUACY OF REPAIRS.—(1) If a manufacturer decides to repair a defective or noncomplying motor vehicle or replacement equipment and the repair is not done adequately within a reasonable time, the manufacturer shall—

(A) replace the vehicle or equipment without charge with an identical or reasonably equivalent vehicle or equipment; or

(B) for a vehicle, refund the purchase price, less a reasonable allowance for depreciation.

(2) Failure to repair a motor vehicle or replacement equipment adequately not later than 60 days after its presentation is prima facie evidence of failure to repair within a reasonable time. However, the Secretary may extend, by order, the 60-day period if good cause for an extension is shown and the reason is published in the Federal Register before the period ends. Presentation of a vehicle or equipment for repair before the date specified by a manufacturer in a notice under section 30119(a)(5) or 30121(c)(2) of this title is not a presentation under this subsection.

(3) If the Secretary determines that a manufacturer's remedy program is not likely to be capable of completion within a reasonable time, the Secretary may require the manufacturer to accelerate the remedy program if the Secretary finds—

(A) that there is a risk of serious injury or death if the remedy program is not accelerated; and

(B) that acceleration of the remedy program can be reasonably achieved by expanding the sources of replacement parts, expanding the number of authorized repair facilities, or both.

The Secretary may prescribe regulations to carry out this paragraph.

(d) FILING MANUFACTURER'S REMEDY PROGRAM.—A manufacturer shall file with the Secretary a copy of the manufacturer's program under this section for remedying a defect or noncompliance. The Secretary shall make the program available to the public and publish a notice of availability in the Federal Register. A manufacturer's remedy program shall include a plan for reimbursing an owner or purchaser who incurred the cost of the remedy within a reasonable time in advance of the manufacturer's notification under subsection (b) or (c) of section 30118. The Secretary may prescribe regulations establishing what constitutes a reasonable time for purposes of the preceding sentence and other reasonable conditions for the reimbursement plan. In the case of a remedy program involving the replacement of tires, the manufacturer shall include a plan addressing how to prevent, to the extent reasonably within the control of the manufacturer, replaced tires from being resold for installation on a motor vehicle, and how to limit, to the extent reasonably within the control of the manufacturer, the disposal of replaced tires in landfills, particularly through shredding, crumbling, recycling, recovery, and other alternative beneficial non-vehicular uses.

The manufacturer shall include information about the implementation of such plan with each quarterly report to the Secretary regarding the progress of any notification or remedy campaigns.

(e) HEARINGS ABOUT MEETING REMEDY REQUIREMENTS.—On the motion of the Secretary or on application by any interested person, the Secretary may conduct a hearing to decide whether the manufacturer has reasonably met the remedy requirements under this section. Any interested person may make written and oral presentations of information, views, and arguments on whether the manufacturer has reasonably met the remedy requirements. If the Secretary decides a manufacturer has not reasonably met the remedy requirements, the Secretary shall order the manufacturer to take specified action to meet those requirements and may take any other action authorized under this chapter.

(f) FAIR REIMBURSEMENT TO DEALERS.—

(1) IN GENERAL.—A manufacturer¹ shall pay fair reimbursement to a dealer providing a remedy without charge under this section if—

(A) at the time of providing service for each of the manufacturer's motor vehicles it services, the dealer notifies the owner or the individual requesting the service of any open recall; and

(B) the notification requirement under subparagraph (A) is specified in a franchise, operating, or other agreement between the dealer and the manufacturer.

(2) DEFINITION OF OPEN RECALL.—In this subsection, the term "open recall" means a recall for which a notification by a manufacturer has been provided under section 30119 and that has not been remedied under this section.

(g) NONAPPLICATION.—(1) The requirement that a remedy be provided without charge does not apply if the motor vehicle or replacement equipment was bought by the first purchaser more than 15 calendar years, or the tire, including an original equipment tire, was bought by the first purchaser more than 5 calendar years, before notice is given under section 30118(c) of this title or an order is issued under section 30118(b) of this title, whichever is earlier.

(2) This section does not apply during any period in which enforcement of an order under section 30118(b) of this title is restrained or the order is set aside in a civil action to which section 30121(d) of this title applies.

(h) EXEMPTIONS.—On application of a manufacturer, the Secretary shall exempt the manufacturer from this section if the Secretary decides a defect or noncompliance is inconsequential to motor vehicle safety. The Secretary may take action under this subsection only after notice in the Federal Register and an opportunity for any interested person to present information, views, and arguments.

(i) LIMITATION ON SALE OR LEASE OF NEW VEHICLES OR EQUIPMENT, OR RENTAL.—

(1) IN GENERAL.—If notification is required by an order under section 30118(b) of this title or is required under section 30118(c) of this

¹ See 2015 Amendment note below.

title and the manufacturer has provided to a dealer (including retailers of motor vehicle equipment) notification about a new motor vehicle or new item of replacement equipment in the dealer's possession at the time of notification or the manufacturer has provided to a rental company notification about a covered rental vehicle in the company's possession at the time of notification that contains a defect related to motor vehicle safety or does not comply with an applicable motor vehicle safety standard prescribed under this chapter, the dealer or rental company may sell, lease, or rent the motor vehicle or item of replacement equipment only if—

(A) the defect or noncompliance is remedied as required by this section before delivery under the sale, lease, or rental agreement; or

(B) when the notification is required by an order under section 30118(b) of this title, enforcement of the order is restrained or the order is set aside in a civil action to which section 30121(d) of this title applies.

(2) **RULE OF CONSTRUCTION.**—Nothing in this subsection may be construed to prohibit a dealer or rental company from offering the vehicle or equipment for sale, lease, or rent.

(3) **SPECIFIC RULES FOR RENTAL COMPANIES.**—

(A) **IN GENERAL.**—Except as otherwise provided under this paragraph, a rental company shall comply with the limitations on sale, lease, or rental set forth in subparagraph (C) and paragraph (1) as soon as practicable, but not later than 24 hours after the earliest receipt of the notice to owner under subsection (b) or (c) of section 30118 (including the vehicle identification number for the covered vehicle) by the rental company, whether by electronic means or first class mail.

(B) **SPECIAL RULE FOR LARGE VEHICLE FLEETS.**—Notwithstanding subparagraph (A), if a rental company receives a notice to owner covering more than 5,000 motor vehicles in its fleet, the rental company shall comply with the limitations on sale, lease, or rental set forth in subparagraph (C) and paragraph (1) as soon as practicable, but not later than 48 hours after the earliest receipt of the notice to owner under subsection (b) or (c) of section 30118 (including the vehicle identification number for the covered vehicle) by the rental company, whether by electronic means or first class mail.

(C) **SPECIAL RULE FOR WHEN REMEDIES NOT IMMEDIATELY AVAILABLE.**—If a notification required under subsection (b) or (c) of section 30118 indicates that the remedy for the defect or noncompliance is not immediately available and specifies actions to temporarily alter the vehicle that eliminate the safety risk posed by the defect or noncompliance, the rental company, after causing the specified actions to be performed, may rent (but may not sell or lease) the motor vehicle. Once the remedy for the rental vehicle becomes available to the rental company, the rental company may not rent the vehicle until the vehicle has been remedied, as provided in subsection (a).

(D) **INAPPLICABILITY TO JUNK AUTOMOBILES.**—Notwithstanding paragraph (1), this subsection does not prohibit a rental company from selling a covered rental vehicle if such vehicle—

(i) meets the definition of a junk automobile under section 201 of the Anti-Car Theft Act of 1992 (49 U.S.C. 30501);

(ii) is retitled as a junk automobile pursuant to applicable State law; and

(iii) is reported to the National Motor Vehicle Information System, if required under section 204 of such Act (49 U.S.C. 30504).

(j) **PROHIBITION ON SALES OF REPLACEMENT EQUIPMENT.**—No person may sell or lease any motor vehicle equipment (including a tire), for installation on a motor vehicle, that is the subject of a decision under section 30118(b) or a notice required under section 30118(c) in a condition that it may be reasonably used for its original purpose unless—

(1) the defect or noncompliance is remedied as required by this section before delivery under the sale or lease; or

(2) notification of the defect or noncompliance is required under section 30118(b) but enforcement of the order is set aside in a civil action to which section 30121(d) applies.

§ 30121. Provisional notification and civil actions to enforce

(a) PROVISIONAL NOTIFICATION.—(1) The Secretary of Transportation may order a manufacturer to issue a provisional notification if a civil action about an order issued under section 30118(b) of this title has been brought under sec-

tion 30163 of this title. The provisional notification shall contain—

(A) a statement that the Secretary has decided that a defect related to motor vehicle safety or noncompliance with a motor vehicle safety standard prescribed under this chapter exists and that the manufacturer is contesting the decision in a civil action in a United States district court;

(B) a clear description of the Secretary’s stated basis for the decision;

(C) the Secretary’s evaluation of the risk to motor vehicle safety reasonably related to the defect or noncompliance;

(D) measures the Secretary considers necessary to avoid an unreasonable risk to motor vehicle safety resulting from the defect or noncompliance;

(E) a statement that the manufacturer will remedy the defect or noncompliance without charge under section 30120 of this title, but that the requirement to remedy without charge is conditioned on the outcome of the civil action; and

(F) other information the Secretary prescribes by regulation or includes in the order requiring the notice.

(2) A notification under this subsection does not relieve a manufacturer of liability for not giving notification required by an order under section 30118(b) of this title.

(b) CIVIL ACTIONS FOR NOT NOTIFYING.—(1) A manufacturer that does not notify owners and purchasers under section 30119(c) and (d) of this title is liable to the United States Government for a civil penalty, unless the manufacturer prevails in a civil action referred to in subsection (a) of this section or the court in that action enjoins enforcement of the order. Enforcement may be enjoined only if the court decides that the failure to notify is reasonable and that the manufacturer has demonstrated the likelihood of prevailing on the merits. If enforcement is enjoined, the manufacturer is not liable during the time the order is stayed.

(2) A manufacturer that does not notify owners and purchasers as required under subsection (a) of this section is liable for a civil penalty regardless of whether the manufacturer prevails in an action on the validity of the order issued under section 30118(b) of this title.

(c) ORDERS TO MANUFACTURERS.—If the Secretary prevails in a civil action referred to in subsection (a) of this section, the Secretary shall order the manufacturer—

(1) to notify each owner, purchaser, and dealer described in section 30119(d) of this title of the outcome of the action and other information the Secretary requires, and notification under this clause may be combined with notification required under section 30118(b) of this title;

(2) to specify the earliest date under section 30119(b) of this title on which the defect or noncompliance will be remedied without charge under section 30120 of this title; and

(3) if notification was required under subsection (a) of this section, to reimburse an owner or purchaser for reasonable and necessary expenses (in an amount that is not more than the amount specified in the order of

the Secretary under subsection (a)) incurred for repairing the defect or noncompliance during the period beginning on the date that notification was required to be issued and ending on the date the owner or purchaser receives the notification under this subsection.

(d) VENUE.—Notwithstanding section 30163(c) of this title, a civil action about an order issued under section 30118(b) of this title must be brought in the United States district court for a judicial district in the State in which the manufacturer is incorporated or the District of Columbia. On motion of a party, the court may transfer the action to another district court if good cause is shown. All actions related to the same order under section 30118(b) shall be consolidated in an action in one judicial district under an order of the court in which the first action was brought. If the first action is transferred to another court, that court shall issue the consolidation order.

TIRE PRESSURE MONITORING SYSTEM

Pub. L. 114-94, div. B, title XXIV, §24115, Dec. 4, 2015, 129 Stat. 1710, provided that:

“(a) PROPOSED RULE.—Not later than 1 year after the date of enactment of this Act [Dec. 4, 2015], the Secretary shall publish a proposed rule that—

“(1) updates the standards pertaining to tire pressure monitoring systems to ensure that a tire pressure monitoring system that is installed in a new motor vehicle after the effective date of such updated standards cannot be overridden, reset, or recalibrated in such a way that the system will no longer detect when the inflation pressure in one or more of the vehicle’s tires has fallen to or below a significantly underinflated pressure level; and

“(2) does not contain any provision that has the effect of prohibiting the availability of direct or indirect tire pressure monitoring systems that meet the requirements of the standards updated pursuant to paragraph (1).

“(b) FINAL RULE.—Not later than 2 years after the date of enactment of this Act, after providing the public with sufficient opportunity for notice and comment on the proposed rule published pursuant to subsection (a), the Secretary shall issue a final rule based on the proposed rule described in subsection (a) that—

“(1) allows a manufacturer to install a tire pressure monitoring system that can be reset or recalibrated to accommodate—

“(A) the repositioning of tire sensor locations on vehicles with split inflation pressure recommendations;

“(B) tire rotation; or

“(C) replacement tires or wheels of a different size than the original equipment tires or wheels; and

“(2) to address the accommodations described in subparagraphs (A), (B), and (C) of paragraph (1), ensures that a tire pressure monitoring system that is reset or recalibrated according to the manufacturer’s instructions would illuminate the low tire pressure warning telltale when a tire is significantly underinflated until the tire is no longer significantly underinflated.

“(c) SIGNIFICANTLY UNDERINFLATED PRESSURE LEVEL DEFINED.—In this section, the term ‘significantly underinflated pressure level’ means a pressure level that is—

“(1) below the level at which the low tire pressure warning telltale must illuminate, consistent with the TPMS detection requirements contained in S4.2(a) of section 571.138 of title 49, Code of Federal Regulations, or any corresponding similar or successor regulation or ruling (as determined by the Secretary); and

“(2) in the case of a replacement wheel or tire, below the recommended cold inflation pressure of the wheel or tire manufacturer.”

IMPROVED TIRE INFORMATION

Pub. L. 106–414, §11, Nov. 1, 2000, 114 Stat. 1806, provided that:

“(a) TIRE LABELING.—Within 30 days after the date of the enactment of this Act [Nov. 1, 2000], the Secretary of Transportation shall initiate a rulemaking proceeding to improve the labeling of tires required by section 30123 of title 49, United States Code[,] to assist consumers in identifying tires that may be the subject of a decision under section 30118(b) [of title 49] or a notice required under section 30118(c). The Secretary shall complete the rulemaking not later than June 1, 2002.

“(b) INFLATION LEVELS AND LOAD LIMITS.—In the rulemaking initiated under subsection (a), the Secretary may take whatever additional action is appropriate to ensure that the public is aware of the importance of observing motor vehicle tire load limits and maintaining proper tire inflation levels for the safe operation of a motor vehicle. Such additional action may include a requirement that the manufacturer of motor vehicles provide the purchasers of the motor vehicles information on appropriate tire inflation levels and load limits if the Secretary determines that requiring such manufacturers to provide such information is the most appropriate way such information can be provided.”

TIRE PRESSURE WARNING

Pub. L. 106–414, §13, Nov. 1, 2000, 114 Stat. 1806, provided that: “Not later than 1 year after the date of the enactment of this Act [Nov. 1, 2000], the Secretary of Transportation shall complete a rulemaking for a regulation to require a warning system in new motor vehicles to indicate to the operator when a tire is significantly under inflated. Such requirement shall become effective not later than 2 years after the date of the completion of such rulemaking.”

§ 30124. Nonuse of safety belts

A motor vehicle safety standard prescribed under this chapter may not require a manufacturer to comply with the standard by using a safety belt interlock designed to prevent starting or operating a motor vehicle if an occupant is not using a safety belt.

(D) 100 percent of each manufacturer’s annual production of vehicles described in clause (B) of this paragraph manufactured after August 31, 1998.

(2) Manufacturers may not use credits and incentives available before September 1, 1998, under the provisions of Standard 208 (as amended by this section) to comply with the requirements of paragraph (1)(D) of this subsection after August 31, 1998.

(c) **OWNER MANUAL REQUIREMENTS.**—In amending Standard 208, the Secretary of Transpor-

tation shall require, to be effective as soon as possible after the amendment is prescribed, that owner manuals for passenger cars, buses, multipurpose passenger vehicles, and trucks equipped with an inflatable restraint include a statement in an easily understandable format stating that—

(1) either or both of the front outboard seating positions of the vehicle are equipped with an inflatable restraint referred to as an “airbag” and a lap and shoulder belt;

(2) the “airbag” is a supplemental restraint and is not a substitute for lap and shoulder belts;

(3) lap and shoulder belts also must be used correctly by an occupant in a front outboard seating position to provide restraint or protection from frontal crashes as well as other types of crashes or accidents; and

(4) occupants should always wear their lap and shoulder belts, if available, or other safety belts, whether or not there is an inflatable restraint.

(d) SEAT BELT USE LAWS.—Congress finds that it is in the public interest for each State to adopt and enforce mandatory seat belt use laws and for the United States Government to adopt and enforce mandatory seat belt use regulations.

(e) TEMPORARY EXEMPTIONS.—(1) On application of a manufacturer, the Secretary of Transportation may exempt, on a temporary basis, motor vehicles of that manufacturer from any requirement under subsections (b) and (c) of this section on terms the Secretary considers appropriate. An exemption may be renewed.

(2) The Secretary of Transportation may grant an exemption under paragraph (1) of this subsection if the Secretary finds that there has been a disruption in the supply of any component of an inflatable restraint or in the use and installation of that component by the manufacturer because of an unavoidable event not under the control of the manufacturer that will prevent the manufacturer from meeting its anticipated production volume of vehicles with those restraints.

(3) Only an affected manufacturer may apply for an exemption. The Secretary of Transportation shall prescribe in the amendment to Standard 208 required under this section the information an affected manufacturer must include in its application under this subsection. The manufacturer shall specify in the application the models, lines, and types of vehicles affected. The Secretary may consolidate similar applications from different manufacturers.

(4) An exemption or renewal of an exemption is conditioned on the commitment of the manufacturer to recall the exempted vehicles for installation of the omitted inflatable restraints within a reasonable time that the manufacturer proposes and the Secretary of Transportation approves after the components become available in sufficient quantities to satisfy both anticipated production and recall volume requirements.

(5) The Secretary of Transportation shall publish in the Federal Register a notice of each application under this subsection and each decision to grant or deny a temporary exemption and the reasons for the decision.

(6) The Secretary of Transportation shall require a label for each exempted vehicle that can be removed only after recall and installation of the required inflatable restraint. The Secretary shall require that written notice of the exemption be provided to the dealer and the first purchaser of each exempted vehicle other than for resale, with the notice being provided in a way, and containing the information, the Secretary considers appropriate.

(f) APPLICATION.—(1) This section revises, but does not replace, Standard 208 as in effect on December 18, 1991, including the amendment of March 26, 1991 (56 Fed. Reg. 12472), to Standard 208, extending the requirements for automatic crash protection, with incentives for more innovative automatic crash protection, to trucks, buses, and multipurpose passenger vehicles. This section may not be construed as—

(A) affecting another provision of law carried out by the Secretary of Transportation applicable to passenger cars, buses, multipurpose passenger vehicles, or trucks; or

(B) establishing a precedent related to developing or prescribing a Government motor vehicle safety standard.

(2) This section and amendments to Standard 208 made under this section may not be construed as indicating an intention by Congress to affect any liability of a motor vehicle manufacturer under applicable law related to vehicles with or without inflatable restraints.

(g) REPORT.—(1) On October 1, 1992, and annually after that date through October 1, 2000, the Secretary of Transportation shall submit reports on the effectiveness of occupant restraint systems expressed as a percentage reduction in fatalities or injuries of restrained occupants compared to unrestrained occupants for—

(A) a combination of inflated restraints and lap and shoulder belts;

(B) inflated restraints only; and

(C) lap and shoulder belts only.

(2) In consultation with the Secretaries of Labor and Defense, the Secretary of Transportation also shall provide information and analysis on lap and shoulder belt use, nationally and in each State by—

(A) military personnel;

(B) Government, State, and local law enforcement officers;

(C) other Government and State employees; and

(D) the public.

(h) AIRBAGS FOR GOVERNMENT CARS.—In cooperation with the Administrator of General Services and the heads of appropriate departments, agencies, and instrumentalities of the Government, the Secretary of Transportation shall establish a program, consistent with applicable procurement laws of the Government and available appropriations, requiring that all passenger cars acquired—

(1) after September 30, 1994, for use by the Government be equipped, to the maximum extent practicable, with driver-side inflatable restraints; and

(2) after September 30, 1996, for use by the Government be equipped, to the maximum extent practicable, with inflatable restraints for both front outboard seating positions.

“SECTION 1. SHORT TITLE.

“This Act may be cited as ‘Anton’s Law’.

“SEC. 2. FINDINGS.

“Congress finds the following:

“(1) It is the policy of the Department of Transportation that all child occupants of motor vehicles, regardless of seating position, be appropriately restrained in order to reduce the incidence of injuries and fatalities resulting from motor vehicle crashes on the streets, roads, and highways.

“(2) Research has shown that very few children between the ages of 4 to 8 years old are in the appropriate restraint for their age when riding in passenger motor vehicles.

“(3) Children who have outgrown their child safety seats should ride in a belt-positioning booster seat until an adult seat belt fits properly.

“(4) Children who were properly restrained when riding in passenger motor vehicles suffered less severe injuries from accidents than children not properly restrained.

“SEC. 3. IMPROVEMENT OF SAFETY OF CHILD RESTRAINTS IN PASSENGER MOTOR VEHICLES.

“(a) IN GENERAL.—The Secretary of Transportation (hereafter referred to as the ‘Secretary’) shall initiate a rulemaking proceeding to establish performance requirements for child restraints, including booster seats, for the restraint of children weighing more than 50 pounds.

“(b) ELEMENTS FOR CONSIDERATION.—In the rulemaking proceeding required by subsection (a), the Secretary shall—

“(1) consider whether to include injury performance criteria for child restraints, including booster seats and other products for use in passenger motor vehicles for the restraint of children weighing more than 50 pounds, under the requirements established in the rulemaking proceeding;

“(2) consider whether to establish performance requirements for seat belt fit when used with booster seats and other belt guidance devices;

“(3) consider whether to address situations where children weighing more than 50 pounds only have access to seating positions with lap belts, such as allowing tethered child restraints for such children; and

“(4) review the definition of the term ‘booster seat’ in Federal motor vehicle safety standard No. 213 under section 571.213 of title 49, Code of Federal Regulations, to determine if it is sufficiently comprehensive.

“(c) COMPLETION.—The Secretary shall complete the rulemaking proceeding required by subsection (a) not later than 30 months after the date of the enactment of this Act [Dec. 4, 2002].

“SEC. 4. DEVELOPMENT OF ANTHROPOMORPHIC TEST DEVICE SIMULATING A 10-YEAR OLD CHILD.

“(a) DEVELOPMENT AND EVALUATION.—Not later than 24 months after the date of the enactment of this Act [Dec. 4, 2002], the Secretary shall develop and evaluate an anthropomorphic test device that simulates a 10-year old child for use in testing child restraints used in passenger motor vehicles.

“SEC. 5. REQUIREMENTS FOR INSTALLATION OF LAP AND SHOULDER BELTS.

“(a) IN GENERAL.—Not later than 24 months after the date of the enactment of this Act [Dec. 4, 2002], the Secretary shall complete a rulemaking proceeding to amend Federal motor vehicle safety standard No. 208 under section 571.208 of title 49, Code of Federal Regulations, relating to occupant crash protection, in order to—

“(1) require a lap and shoulder belt assembly for each rear designated seating position in a passenger motor vehicle with a gross vehicle weight rating of 10,000 pounds or less, except that if the Secretary determines that installation of a lap and shoulder belt assembly is not practicable for a particular designated seating position in a particular type of passenger motor vehicle, the Secretary may exclude the designated seating position from the requirement; and

“(2) apply that requirement to passenger motor vehicles in phases in accordance with subsection (b).

“(b) IMPLEMENTATION SCHEDULE.—The requirement prescribed under subsection (a)(1) shall be implemented in phases on a production year basis beginning with the production year that begins not later than 12 months after the end of the year in which the regulations are prescribed under subsection (a). The final rule shall apply to all passenger motor vehicles with a gross vehicle weight rating of 10,000 pounds or less that are manufactured in the third production year of the implementation phase-in under the schedule.

“SEC. 6. EVALUATION OF INTEGRATED CHILD SAFETY SYSTEMS.

“(a) EVALUATION.—Not later than 180 days after the date of enactment of this Act [Dec. 4, 2002], the Secretary shall initiate an evaluation of integrated or built-in child restraints and booster seats. The evaluation should include—

“(1) the safety of the child restraint and correctness of fit for the child;

“(2) the availability of testing data on the system and vehicle in which the child restraint will be used;

“(3) the compatibility of the child restraint with different makes and models;

“(4) the cost-effectiveness of mass production of the child restraint for consumers;

“(5) the ease of use and relative availability of the child restraint to children riding in motor vehicles; and

“(6) the benefits of built-in seats for improving compliance with State child occupant restraint laws.

“(b) REPORT.—Not later than 12 months after the date of enactment of this Act [Dec. 4, 2002], the Secretary shall transmit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report of this evaluation.

(c) OCCUPANT EJECTION PREVENTION.—

(1) IN GENERAL.—The Secretary shall also initiate a rulemaking proceeding to establish performance standards to reduce complete and partial ejections of vehicle occupants from outboard seating positions. In formulating the standards the Secretary shall consider various ejection mitigation systems. The Secretary shall issue a final rule under this paragraph no later than October 1, 2009.

(2) DOOR LOCKS AND DOOR RETENTION.—The Secretary shall complete the rulemaking proceeding initiated to upgrade Federal Motor Vehicle Safety Standard No. 206, relating to door locks and door retention, no later than 30 months after the date of enactment of this section.

(d) PROTECTION OF OCCUPANTS.—One of the rulemaking proceedings initiated under subsection (a) shall be to establish performance criteria to upgrade Federal Motor Vehicle Safety Standard No. 216 relating to roof strength for driver and passenger sides. The Secretary may consider industry and independent dynamic tests that realistically duplicate the actual forces transmitted during a rollover crash. The Secretary shall issue a proposed rule by December 31, 2005, and a final rule by July 1, 2008.

(e) DEADLINES.—If the Secretary determines that the deadline for a final rule under this section cannot be met, the Secretary shall—

CODIFICATION

Section 10301(a) of Pub. L. 109-59, which directed that this section be added at the end of subchapter II of chapter 301, without specifying the title to be amended, was executed by adding this section at the end of sub-

chapter II of this chapter, to reflect the probable intent of Congress.

SUBCHAPTER III—IMPORTING NONCOMPLYING MOTOR VEHICLES AND EQUIPMENT

§ 30141. Importing motor vehicles capable of complying with standards

(a) GENERAL.—Section 30112(a) of this title does not apply to a motor vehicle if—

(1) on the initiative of the Secretary of Transportation or on petition of a manufacturer or importer registered under subsection (c) of this section, the Secretary decides—

(A) the vehicle is—

(i) substantially similar to a motor vehicle originally manufactured for import into and sale in the United States;

(ii) certified under section 30115 of this title;

(iii) the same model year (as defined under regulations of the Secretary of Transportation) as the model of the motor vehicle it is being compared to; and

(iv) capable of being readily altered to comply with applicable motor vehicle safety standards prescribed under this chapter; or

(B) if there is no substantially similar United States motor vehicle, the safety features of the vehicle comply with or are capable of being altered to comply with those standards based on destructive test information or other evidence the Secretary of Transportation decides is adequate;

(2) the vehicle is imported by a registered importer; and

(3) the registered importer pays the annual fee the Secretary of Transportation establishes under subsection (e) of this section to pay for the costs of carrying out the registration program for importers under subsection (c) of this section and any other fees the Secretary of Transportation establishes to pay for the costs of—

(A) processing bonds provided to the Secretary of the Treasury under subsection (d) of this section; and

(B) making the decisions under this subchapter.

(b) PROCEDURES ON DECIDING ON MOTOR VEHICLE CAPABILITY.—(1) The Secretary of Transportation shall establish by regulation procedures for making a decision under subsection (a)(1) of this section and the information a petitioner must provide to show clearly that the motor vehicle is capable of being brought into compliance with applicable motor vehicle safety standards prescribed under this chapter. In establishing the procedures, the Secretary shall provide for a minimum period of public notice and written comment consistent with ensuring expeditious, but complete, consideration and avoiding delay by any person. In making a decision under those procedures, the Secretary shall consider test information and other information available to the Secretary, including any information provided by the manufacturer. If the Secretary makes a negative decision, the Sec-

retary may not make another decision for the same model until at least 3 calendar months have elapsed after the negative decision.

(2) The Secretary of Transportation shall publish each year in the Federal Register a list of all decisions made under subsection (a)(1) of this section. Each published decision applies to the model of the motor vehicle for which the decision was made. A positive decision permits another importer registered under subsection (c) of this section to import a vehicle of the same model under this section if the importer complies with all the terms of the decision.

(c) REGISTRATION.—(1) The Secretary of Transportation shall establish procedures for registering a person who complies with requirements prescribed by the Secretary by regulation under this subsection, including—

(A) recordkeeping requirements;

(B) inspection of records and facilities related to motor vehicles the person has imported, altered, or both; and

(C) requirements that ensure that the importer (or a successor in interest) will be able technically and financially to carry out responsibilities under sections 30117(b), 30118–30121, and 30166(f) of this title.

(2) The Secretary of Transportation shall deny registration to a person whose registration is revoked under paragraph (4) of this subsection.

(3) The Secretary of Transportation may deny registration to a person that is or was owned or controlled by, or under common ownership or control with, a person whose registration was revoked under paragraph (4) of this subsection.

(4) The Secretary of Transportation shall establish procedures for—

(A) revoking or suspending a registration issued under paragraph (1) of this subsection for not complying with a requirement of this subchapter or any of sections 30112, 30115, 30117–30122, 30125(c), 30127, or 30166 of this title or regulations prescribed under this subchapter or any of those sections;

(B) automatically suspending a registration for not paying a fee under subsection (a)(3) of this section in a timely manner or for knowingly filing a false or misleading certification under section 30146 of this title; and

(C) reinstating suspended registrations.

(d) BONDS.—(1) A person importing a motor vehicle under this section shall provide a bond to the Secretary of the Treasury (acting for the Secretary of Transportation) and comply with the terms the Secretary of Transportation decides are appropriate to ensure that the vehicle—

(A) will comply with applicable motor vehicle safety standards prescribed under this chapter within a reasonable time (specified by the Secretary of Transportation) after the vehicle is imported; or

(B) will be exported (at no cost to the United States Government) by the Secretary of the Treasury or abandoned to the Government.

(2) The amount of the bond provided under this subsection shall be at least equal to the dutiable value of the motor vehicle (as determined by the Secretary of the Treasury) but not more than 150 percent of that value.

(e) FEE REVIEW, ADJUSTMENT, AND USE.—The Secretary of Transportation shall review and make appropriate adjustments at least every 2 years in the amounts of the fees required to be paid under subsection (a)(3) of this section. The Secretary of Transportation shall establish the fees for each fiscal year before the beginning of that year. All fees collected remain available until expended without fiscal year limit to the extent provided in advance by appropriation laws. The amounts are only for use by the Secretary of Transportation—

(1) in carrying out this section and sections 30146(a)–(c)(1), (d), and (e) and 30147(b) of this title; and

(2) in advancing to the Secretary of the Treasury amounts for costs incurred under this section and section 30146 of this title to reimburse the Secretary of the Treasury for those costs.

§ 30146. Release of motor vehicles and bonds

(a) COMPLIANCE CERTIFICATION AND BOND.—(1) Except as provided in subsections (c) and (d) of this section, an importer registered under section 30141(c) of this title may license or register an imported motor vehicle for use on public streets, roads, or highways, or release custody of a motor vehicle imported by the registered importer or imported by an individual under section 30142 of this title and altered by the registered importer to meet applicable motor vehicle safety standards prescribed under this chapter to a person for license or registration for use on public streets, roads, or highways, only after 30 days after the registered importer certifies to the Secretary of Transportation, in the way the Secretary prescribes, that the motor vehicle complies with each standard prescribed in the year the vehicle was manufactured and that applies in that year to that vehicle. A vehicle may not be released if the Secretary gives written

notice before the end of the 30-day period that the Secretary will inspect the vehicle under subsection (c) of this section.

(2) The Secretaries of Transportation and the Treasury shall prescribe regulations—

(A) ensuring the release of a motor vehicle and bond required under section 30141(d) of this title at the end of the 30-day period, unless the Secretary of Transportation issues a notice of an inspection under subsection (c) of this section; and

(B) providing that the Secretary of Transportation shall release the vehicle and bond promptly after an inspection under subsection (c) of this section showing compliance with the standards applicable to the vehicle.

(3) Each registered importer shall include on each motor vehicle released under this subsection a label prescribed by the Secretary of Transportation identifying the importer and stating that the vehicle has been altered by the importer to comply with the standards applicable to the vehicle.

(b) RELIANCE ON MANUFACTURER’S CERTIFICATION.—In making a certification under subsection (a)(1) of this section, the registered importer may rely on the manufacturer’s certification for the model to which the motor vehicle involved is substantially similar if the importer certifies that any alteration made by the importer did not affect the compliance of the safety features of the vehicle and the importer keeps records verifying the certification for the period the Secretary of Transportation prescribes.

(c) EVIDENCE OF COMPLIANCE.—(1) The Secretary of Transportation may require that the certification under subsection (a)(1) of this section be accompanied by evidence of compliance the Secretary considers appropriate or may inspect the certified motor vehicle, or both. If the Secretary gives notice of an inspection, an importer may release the vehicle only after—

(A) an inspection showing the motor vehicle complies with applicable motor vehicle safety standards prescribed under this chapter for which the inspection was made; and

(B) release of the vehicle by the Secretary.

(2) The Secretary of Transportation shall inspect periodically a representative number of motor vehicles for which certifications have been filed under subsection (a)(1) of this section. In carrying out a motor vehicle testing program under this chapter, the Secretary shall include a representative number of motor vehicles for which certifications have been filed under subsection (a)(1).

(d) CHALLENGING THE CERTIFICATION.—A motor vehicle or bond may not be released under subsection (a) of this section if the Secretary of Transportation, not later than 30 days after receiving a certification under subsection (a)(1) of this section, gives written notice that the Secretary believes or has reason to believe that the certification is false or contains a misrepresentation.¹ The vehicle and bond may be released only after the Secretary is satisfied

¹ So in original. Probably should be “misrepresentation.”

with the certification and any modification of the certification.

(e) **BOND RELEASE.**—A release of a bond required under section 30141(d) of this title is deemed an acceptance of a certification or completion of an inspection under this section but is not a decision by the Secretary of Transportation under section 30118(a) or (b) of this title of compliance with applicable motor vehicle safety standards prescribed under this chapter.

§ 30171. Protection of employees providing motor vehicle safety information

(a) DISCRIMINATION AGAINST EMPLOYEES OF MANUFACTURERS, PART SUPPLIERS, AND DEALERSHIPS.—No motor vehicle manufacturer, part supplier, or dealership may discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(1) provided, caused to be provided, or is about to provide (with any knowledge of the employer) or cause to be provided to the employer or the Secretary of Transportation information relating to any motor vehicle defect, noncompliance, or any violation or alleged violation of any notification or reporting requirement of this chapter;

(2) has filed, caused to be filed, or is about to file (with any knowledge of the employer) or cause to be filed a proceeding relating to any violation or alleged violation of any motor vehicle defect, noncompliance, or any violation or alleged violation of any notification or reporting requirement of this chapter;

(3) testified or is about to testify in such a proceeding;

(4) assisted or participated or is about to assist or participate in such a proceeding; or

(5) objected to, or refused to participate in, any activity that the employee reasonably believed to be in violation of any provision of chapter 301 of this title, or any order, rule, regulation, standard, or ban under such provision.

(b) COMPLAINT PROCEDURE.—

(1) FILING AND NOTIFICATION.—A person who believes that he or she has been discharged or otherwise discriminated against by any person in violation of subsection (a) may file (or have any person file on his or her behalf), not later than 180 days after the date on which such violation occurs, a complaint with the Secretary of Labor (hereinafter in this section referred to as the “Secretary”) alleging such discharge or discrimination. evidence supporting the complaint, and of the opportunities that will be afforded to such person under paragraph (2).

(2) INVESTIGATION; PRELIMINARY ORDER.—

(A) IN GENERAL.—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) of the Secretary's findings. If the Secretary concludes that there is a reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the Secretary's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) REQUIREMENTS.—

(i) REQUIRED SHOWING BY COMPLAINANT.—

The Secretary shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (5) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (5) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates, by clear and con-

vincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary, the complainant, and the person alleged to have committed the violation.

(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary determines that a violation of subsection (a) has occurred, the Secretary shall order the person who committed such violation—

(i) to take affirmative action to abate the violation;

(ii) to reinstate the complainant to his or her former position together with the compensation (including back pay) and restore the terms, conditions, and privileges associated with his or her employment; and

(iii) to provide compensatory damages to the complainant.

(C) ATTORNEYS' FEES.—If such an order is issued under this paragraph, the Secretary, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, bringing the complaint upon which the order was issued.

(D) FRIVOLOUS COMPLAINTS.—If the Secretary determines that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary may award to the prevailing employer a reasonable attorney's fee not exceeding \$1,000.

(E) DE NOVO REVIEW.—With respect to a complaint under paragraph (1), if the Secretary has not issued a final decision within 210 days after the filing of the complaint and if the delay is not due to the bad faith of the employee, the employee may bring an original action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to the action, be tried by the court with a jury. The action shall be governed by the same legal burdens of proof specified in paragraph (2)(B) for review by the Secretary.

(4) REVIEW.—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain

review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review shall be filed not later than 60 days after the date of the issuance of the final order of the Secretary. Review shall conform to chapter 7 of title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER BY SECRETARY.—Whenever any person fails to comply with an order issued under paragraph (3), the Secretary may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including injunctive relief and compensatory damages.

(6) ENFORCEMENT OF ORDER BY PARTIES.—

(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed under this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an employee of a motor vehicle manufacturer, part supplier, or dealership who, acting without direction from such motor vehicle manufacturer, part supplier, or dealership (or such person's agent), deliberately causes a violation of any requirement relating to motor vehicle safety under this chapter.

(B) not more than 30 percent, in total, of collected monetary sanctions.

(2)(A) The Secretary shall delete from the Register a report or information that was compiled under the Act of July 14, 1960 (Public Law 86–660, 74 Stat. 526), as restated by section 401 of the National Traffic and Motor Vehicle Safety Act of

(2) **REQUIRED DEMONSTRATION.**—Any transfer of the National Driver Register's computer timeshare and user assistance functions to an organization that represents the interests of the States shall begin only after a determination is made by the Secretary that all States are participating in the National Driver Register's "Problem Driver Pointer System" (the system used by the Register to effect the exchange of motor vehicle driving records) and that the system is functioning properly.

In this section, the words “fined under title 18” are substituted for “fined not more than \$10,000” for consistency with title 18.

In subsection (a), before clause (1), the reference to “section 30305(b)(6) of this title” is used to carry out the probable intent of Congress. Section 305(b)(1) of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Public Law 100–223, 101 Stat. 1526) amended section 206(b) of the National Driver Register Act of 1982 (Public Law 97–364, 96 Stat. 1744) by “redesignating paragraphs (3) and (4), and any reference thereto, as paragraphs (4) and (5), respectively”. Because the reference to “section 206(b)(4)” in section 208 of the National Driver Register Act of 1982 appears to have been incorrect before that amendment, and would continue to be incorrect if the reference is redesignated as required by the amendment, a reference to section 30305(b)(6) is used in this section to carry out the probable intent of Congress.

§ 30308. Authorization of appropriations

(a) GENERAL.—The Secretary of Transportation shall make available from amounts made available to carry out section 402 of title 23 \$4,000,000 for each of the fiscal years ending September 30, 1993, and September 30, 1994, \$2,550,000 for each of fiscal years 1995, 1996, and 1997, and \$1,855,000 for the period of October 1, 1997, through March 31, 1998, to carry out this chapter.

§ 30502. National Motor Vehicle Title Information System

(a) ESTABLISHMENT OR DESIGNATION.—(1) In cooperation with the States and not later than December 31, 1997, the Attorney General shall establish a National Motor Vehicle Title Information System that will provide individuals and entities referred to in subsection (e) of this section with instant and reliable access to information maintained by the States related to automobile titling described in subsection (d) of this section. However, if the Attorney General decides that the existing information system meets the requirements of subsections (d) and (e) of this section and will permit the Attorney General to carry out this chapter as early as possible, the Attorney General, in consultation with the Secretary of Transportation, may designate an existing information system as the National Motor Vehicle Title Information System.

(2) In cooperation with the Secretary of Transportation and the States, the Attorney General shall ascertain the extent to which title and related information to be included in the system established under paragraph (1) of this subsection will be adequate, timely, reliable, uniform, and capable of assisting in efforts to prevent the introduction or reintroduction of stolen vehicles and parts into interstate commerce.

(b) OPERATION.—The Attorney General may authorize the operation of the System established or designated under subsection (a)(1) of this section by agreement with one or more States, or by designating, after consulting with the States, a third party that represents the interests of the States.

(c) USER FEES.—Operation of the System established or designated under subsection (a)(1) of this section shall be paid for by user fees and should be self-sufficient and not be dependent on amounts from the United States Government. The amount of fees the operator collects and keeps under this subsection subject to annual appropriation laws, excluding fees the operator collects and pays to an entity providing information to the operator, may be not more than the costs of operating the System.

(d) INFORMATION REQUIREMENTS.—The System established or designated under subsection (a)(1) of this section shall permit a user of the System at least to establish instantly and reliably—

- (1) the validity and status of a document purporting to be a certificate of title;
- (2) whether an automobile bearing a known vehicle identification number is titled in a particular State;
- (3) whether an automobile known to be titled in a particular State is or has been a junk automobile or a salvage automobile;
- (4) for an automobile known to be titled in a particular State, the odometer mileage disclosure required under section 32705 of this title for that automobile on the date the certificate of title for that automobile was issued and any later mileage information, if noted by the State; and
- (5) whether an automobile bearing a known vehicle identification number has been re-

ported as a junk automobile or a salvage automobile under section 30504 of this title.

(e) AVAILABILITY OF INFORMATION.—(1) The operator shall make available—

(A) to a participating State on request of that State, information in the System about any automobile;

(B) to a Government, State, or local law enforcement official on request of that official, information in the System about a particular automobile, junk yard, or salvage yard;

(C) to a prospective purchaser of an automobile on request of that purchaser, including an auction company or entity engaged in the business of purchasing used automobiles, information in the System about that automobile; and

(D) to a prospective or current insurer of an automobile on request of that insurer, information in the System about that automobile.

(2) The operator may release only the information reasonably necessary to satisfy the requirements of paragraph (1) of this subsection. The operator may not collect an individual's social security account number or permit users of the System to obtain an individual's address or social security account number.

(f) IMMUNITY.—Any person performing any activity under this section or sections 30503 or 30504 in good faith and with the reasonable belief that such activity was in accordance with this section or section 30503 or 30504, as the case may be, shall be immune from any civil action respecting such activity which is seeking money damages or equitable relief in any court of the United States or a State.

“(D) any data collection gaps or data sufficiency problems that may exist and the impact of those gaps and problems on the efficacy of the CSA program;

“(E) the accuracy of safety data, including the use of crash data from crashes in which a motor carrier was free from fault;

“(F) whether BASIC percentiles for motor carriers of passengers should be calculated separately from motor carriers of freight;

“(G) the differences in the rates at which safety violations are reported to the Federal Motor Carrier Safety Administration for inclusion in the SMS by various enforcement authorities, including States, territories, and Federal inspectors; and

“(H) how members of the public use the SMS and what effect making the SMS information public has

had on reducing crashes and eliminating unsafe motor carriers from the industry; and

“(2) shall consider—

“(A) whether the SMS provides comparable precision and confidence, through SMS alerts and percentiles, for the relative crash risk of individual large and small motor carriers;

“(B) whether alternatives to the SMS would identify high risk carriers more accurately; and

(2) ADJUSTED BASELINE AFTER FISCAL YEAR 2017.—At the request of a State, the Secretary may evaluate additional documentation related to the maintenance of effort and may make reasonable adjustments to the maintenance of effort baseline after the year in which the Secretary implements a new allocation formula under section 5106 of the FAST Act, and this adjusted baseline will replace the maintenance of effort requirement under paragraph (1).

(3) WAIVERS.—At the request of a State, the Secretary may waive or modify the requirements of this subsection for a total of 1 fiscal year if the Secretary determines that the

waiver or modification is reasonable, based on circumstances described by the State, to ensure the continuation of commercial motor vehicle enforcement activities in the State.

(4) **LEVEL OF STATE EXPENDITURES.**—In estimating the average level of a State's expenditures under paragraph (1), the Secretary—

(A) may allow the State to exclude State expenditures for federally sponsored demonstration and pilot programs and strike forces;

(A) enforcement of commercial motor vehicle size and weight limitations at locations, excluding fixed-weight facilities, such as near steep grades or mountainous terrains, where the weight of a commercial motor vehicle can significantly affect the safe operation of the vehicle, or at ports where intermodal shipping containers enter and leave the United States; and

(B) detection of and enforcement actions taken as a result of criminal activity, including the trafficking of human beings, in a commercial motor vehicle or by any occupant, including the operator, of the commercial motor vehicle; and

(2) for documented enforcement of State traffic laws and regulations designed to promote the safe operation of commercial motor vehicles, including documented enforcement of such laws and regulations relating to noncommercial motor vehicles when necessary to promote the safe operation of commercial motor vehicles, if—

(A) the number of motor carrier safety activities, including roadside safety inspections, conducted in the State is maintained at a level at least equal to the average level of such activities conducted in the State in fiscal years 2004 and 2005; and

(B) the State does not use more than 10 percent of the basic amount the State receives under a grant awarded under section 31104(a)(1) for enforcement activities relating to noncommercial motor vehicles necessary to promote the safe operation of com-

mercial motor vehicles unless the Secretary determines that a higher percentage will result in significant increases in commercial motor vehicle safety.

(i) **EVALUATION OF PLANS AND AWARD OF GRANTS.**—

(1) **AWARDS.**—The Secretary shall establish criteria for the application, evaluation, and approval of State plans under this section. Subject to subsection (j), the Secretary may allocate the amounts made available under section 31104(a)(1) among the States.

(3) **ELECTIVE ADJUSTMENTS.**—Subject to the availability of funding and notwithstanding fluctuations in the data elements used by the Secretary to calculate the annual allocation amounts, after the creation of a new allocation formula under section 5106 of the FAST Act, the Secretary may not make elective adjustments to the allocation formula that decrease a State's Federal funding levels by more than 3 percent in a fiscal year. The 3 percent limit shall not apply to the withholding provisions of subsection (k).

(k) **PLAN MONITORING.**—

(1) **IN GENERAL.**—On the basis of reports submitted by the lead State agency responsible for administering a State plan approved under this section and an investigation by the Secretary, the Secretary shall periodically evaluate State implementation of and compliance with the State plan.

(2) **WITHHOLDING OF FUNDS.**—

(A) **DISAPPROVAL.**—If, after notice and an opportunity to be heard, the Secretary finds that a State plan previously approved under this section is not being followed or has become inadequate to ensure enforcement of State regulations, standards, or orders described in subsection (c)(1), or the State is otherwise not in compliance with the requirements of this section, the Secretary may withdraw approval of the State plan and notify the State. Upon the receipt of such notice, the State plan shall no longer be in effect and the Secretary shall withhold all funding to the State under this section.

(B) **NONCOMPLIANCE WITHHOLDING.**—In lieu of withdrawing approval of a State plan under subparagraph (A), the Secretary may, after providing notice to the State and an

opportunity to be heard, withhold funding from the State to which the State would otherwise be entitled under this section for the period of the State's noncompliance. In exercising this option, the Secretary may withhold—

- (i) up to 5 percent of funds during the fiscal year that the Secretary notifies the State of its noncompliance;

“(e) TERMINATION OF WORKING GROUP.—The working group established under subsection (a) shall terminate on the date of the implementation of the new allocation formula for the motor carrier safety assistance program.”

MAINTENANCE OF EFFORT CALCULATION

Pub. L. 114-94, div. A, title V, § 5107, Dec. 4, 2015, 129 Stat. 1532, provided that:

“(a) BEFORE NEW ALLOCATION FORMULA.—

“(1) FISCAL YEAR 2017.—If a new allocation formula for the motor carrier safety assistance program has not been established under this subtitle [subtitle A (§§ 5101-5107) of title V of div. A of Pub. L. 114-94, see Tables for classification] for fiscal year 2017, the Secretary [of Transportation] shall calculate for fiscal year 2017 the maintenance of effort baseline required under section 31102(f) of title 49, United States Code, as amended by this subtitle, by averaging the expenditures for fiscal years 2004 and 2005 required by section 31102(b)(4) of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act [Dec. 4, 2015].

“(2) SUBSEQUENT FISCAL YEARS.—The Secretary may use the methodology for calculating the maintenance

of effort baseline specified in paragraph (1) for fiscal year 2018 and subsequent fiscal years if a new allocation formula for the motor carrier safety assistance program has not been established for that fiscal year.

“(b) BEGINNING WITH NEW ALLOCATION FORMATION.—

“(1) IN GENERAL.—Subject to paragraphs (2) and (3)(B), beginning on the date that a new allocation formula for the motor carrier safety assistance program is established under this subtitle, upon the request of a State, the Secretary may waive or modify the baseline maintenance of effort required of the State by section 31102(f) of title 49, United States Code, as amended by this subtitle, for the purpose of establishing a new baseline maintenance of effort if the Secretary determines that a waiver or modification—

“(A) is equitable due to reasonable circumstances;

“(B) will ensure the continuation of commercial motor vehicle enforcement activities in the State; and

“(C) is necessary to ensure that the total amount of State maintenance of effort and matching expenditures required under sections 31102 and 31104 of title 49, United States Code, as amended by this subtitle, does not exceed a sum greater than the average of the total amount of State maintenance of effort and matching expenditures required under those sections for the 3 fiscal years prior to the date of enactment of this Act.

“(2) ADJUSTMENT METHODOLOGY.—If requested by a State, the Secretary may modify the maintenance of effort baseline referred to in paragraph (1) for the State according to the following methodology:

“(A) The Secretary shall establish the maintenance of effort baseline for the State using the average baseline of fiscal years 2004 and 2005, as required by section 31102(b)(4) of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act.

“(B) The Secretary shall calculate the average required match by a lead State commercial motor vehicle safety agency for fiscal years 2013, 2014, and 2015 for motor carrier safety assistance grants established at 20 percent by section 31103 of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act.

“(C) The Secretary shall calculate the estimated match required under section 31104(b) of title 49, United States Code, as amended by this subtitle.

“(D) The Secretary shall subtract the amount in subparagraph (B) from the amount in subparagraph (C) and—

“(i) if the number is greater than 0, the Secretary shall subtract the number from the amount in subparagraph (A); or

“(ii) if the number is not greater than 0, the Secretary shall calculate the maintenance of effort using the methodology in subparagraph (A).

“(3) MAINTENANCE OF EFFORT AMOUNT.—

“(A) IN GENERAL.—The Secretary shall use the amount calculated under paragraph (2) as the baseline maintenance of effort required under section 31102(f) of title 49, United States Code, as amended by this subtitle.

“(B) DEADLINE.—If a State does not request a waiver or modification under this subsection before September 30 during the first fiscal year that the Secretary implements a new allocation formula for the motor carrier safety assistance program under this subtitle, the Secretary shall calculate the maintenance of effort using the methodology described in paragraph (2)(A).

“(4) MAINTENANCE OF EFFORT DESCRIBED.—The maintenance of effort calculated under this section is the amount required under section 31102(f) of title 49, United States Code, as amended by this subtitle.

“(c) TERMINATION OF EFFECTIVENESS.—The authority of the Secretary under this section shall terminate effective on the date that a new maintenance of effort

baseline is calculated based on a new allocation formula for the motor carrier safety assistance program implemented under section 31102 of title 49, United States Code.”

L. 106-159, title I, §103(b)(1), Dec. 9, 1999, 113 Stat. 1753, provided that: “The amount made available to incur obligations to carry out section 31102 of title 49, United States Code, by section 31104(a) of such title for each of fiscal years 2001 through 2003 shall be increased by \$65,000,000.”

§ 31105. Employee protections

(a) PROHIBITIONS.—(1) A person may not discharge an employee, or discipline or discriminate against an employee regarding pay, terms, or privileges of employment, because—

(A)(i) the employee, or another person at the employee's request, has filed a complaint or begun a proceeding related to a violation of a commercial motor vehicle safety or security regulation, standard, or order, or has testified or will testify in such a proceeding; or

(ii) the person perceives that the employee has filed or is about to file a complaint or has begun or is about to begin a proceeding related to a violation of a commercial motor vehicle safety or security regulation, standard, or order;

(B) the employee refuses to operate a vehicle because—

(i) the operation violates a regulation, standard, or order of the United States related to commercial motor vehicle safety, health, or security; or

(ii) the employee has a reasonable apprehension of serious injury to the employee or the public because of the vehicle's hazardous safety or security condition;

(C) the employee accurately reports hours on duty pursuant to chapter 315;

(D) the employee cooperates, or the person perceives that the employee is about to cooperate, with a safety or security investigation by the Secretary of Transportation, the Secretary of Homeland Security, or the National Transportation Safety Board; or

(E) the employee furnishes, or the person perceives that the employee is or is about to furnish, information to the Secretary of Transportation, the Secretary of Homeland Security, the National Transportation Safety Board, or any Federal, State, or local regu-

latory or law enforcement agency as to the facts relating to any accident or incident resulting in injury or death to an individual or damage to property occurring in connection with commercial motor vehicle transportation.

(2) Under paragraph (1)(B)(ii) of this subsection, an employee's apprehension of serious injury is reasonable only if a reasonable individual in the circumstances then confronting the employee would conclude that the hazardous safety or security condition establishes a real danger of accident, injury, or serious impairment to health. To qualify for protection, the employee must have sought from the employer, and been unable to obtain, correction of the hazardous safety or security condition.

(b) FILING COMPLAINTS AND PROCEDURES.—(1) An employee alleging discharge, discipline, or discrimination in violation of subsection (a) of this section, or another person at the employee's request, may file a complaint with the Secretary of Labor not later than 180 days after the alleged violation occurred. All complaints initiated under this section shall be governed by the legal burdens of proof set forth in section 42121(b). On receiving the complaint, the Secretary of Labor shall notify, in writing, the person alleged to have committed the violation of the filing of the complaint.

(2)(A) Not later than 60 days after receiving a complaint, the Secretary of Labor shall conduct an investigation, decide whether it is reasonable to believe the complaint has merit, and notify, in writing, the complainant and the person alleged to have committed the violation of the findings. If the Secretary of Labor decides it is reasonable to believe a violation occurred, the Secretary of Labor shall include with the decision findings and a preliminary order for the relief provided under paragraph (3) of this subsection.

(B) Not later than 30 days after the notice under subparagraph (A) of this paragraph, the complainant and the person alleged to have committed the violation may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of objections does not stay a reinstatement ordered in the preliminary order. If a hearing is not requested within the 30 days, the preliminary order is final and not subject to judicial review.

(C) A hearing shall be conducted expeditiously. Not later than 120 days after the end of the hearing, the Secretary of Labor shall issue a final order. Before the final order is issued, the proceeding may be ended by a settlement agreement made by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

(3)(A) If the Secretary of Labor decides, on the basis of a complaint, a person violated subsection (a) of this section, the Secretary of Labor shall order the person to—

(i) take affirmative action to abate the violation;

(ii) reinstate the complainant to the former position with the same pay and terms and privileges of employment; and

(iii) pay compensatory damages, including backpay with interest and compensation for

any special damages sustained as a result of the discrimination, including litigation costs, expert witness fees, and reasonable attorney fees.

(B) If the Secretary of Labor issues an order under subparagraph (A) of this paragraph and the complainant requests, the Secretary of Labor may assess against the person against whom the order is issued the costs (including attorney fees) reasonably incurred by the complainant in bringing the complaint. The Secretary of Labor shall determine the costs that reasonably were incurred.

(C) Relief in any action under subsection (b) may include punitive damages in an amount not to exceed \$250,000.

(c) DE NOVO REVIEW.—With respect to a complaint under paragraph (1),¹ if the Secretary of Labor has not issued a final decision within 210 days after the filing of the complaint and if the delay is not due to the bad faith of the employee, the employee may bring an original action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to such action, be tried by the court with a jury.

(d) JUDICIAL REVIEW AND VENUE.—A person adversely affected by an order issued after a hearing under subsection (b) of this section may file a petition for review, not later than 60 days after the order is issued, in the court of appeals of the United States for the circuit in which the violation occurred or the person resided on the date of the violation. Review shall conform to chapter 7 of title 5. The review shall be heard and decided expeditiously. An order of the Secretary of Labor subject to review under this subsection is not subject to judicial review in a criminal or other civil proceeding.

(e) CIVIL ACTIONS TO ENFORCE.—If a person fails to comply with an order issued under subsection (b) of this section, the Secretary of Labor shall bring a civil action to enforce the order in the district court of the United States for the judicial district in which the violation occurred.

(f) NO PREEMPTION.—Nothing in this section preempts or diminishes any other safeguards against discrimination, demotion, discharge, suspension, threats, harassment, reprimand, retaliation, or any other manner of discrimination provided by Federal or State law.

(g) RIGHTS RETAINED BY EMPLOYEE.—Nothing in this section shall be deemed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.

(h) DISCLOSURE OF IDENTITY.—

(1) Except as provided in paragraph (2) of this subsection, or with the written consent of the employee, the Secretary of Transportation or the Secretary of Homeland Security may

¹ So in original. Probably should be "subsection (b)(1)".

not disclose the name of an employee who has provided information about an alleged violation of this part, or a regulation prescribed or order issued under any of those provisions.

(2) The Secretary of Transportation or the Secretary of Homeland Security shall disclose to the Attorney General the name of an employee described in paragraph (1) of this subsection if the matter is referred to the Attorney General for enforcement. The Secretary making such disclosure shall provide reasonable advance notice to the affected employee if disclosure of that person's identity or identifying information is to occur.

(i) PROCESS FOR REPORTING SECURITY PROBLEMS TO THE DEPARTMENT OF HOMELAND SECURITY.—

(1) ESTABLISHMENT OF PROCESS.—The Secretary of Homeland Security shall establish through regulations, after an opportunity for notice and comment, a process by which any person may report to the Secretary of Homeland Security regarding motor carrier vehicle security problems, deficiencies, or vulnerabilities.

(2) ACKNOWLEDGMENT OF RECEIPT.—If a report submitted under paragraph (1) identifies the person making the report, the Secretary of Homeland Security shall respond promptly to such person and acknowledge receipt of the report.

(3) STEPS TO ADDRESS PROBLEM.—The Secretary of Homeland Security shall review and consider the information provided in any report submitted under paragraph (1) and shall take appropriate steps to address any problems or deficiencies identified.

(j) DEFINITION.—In this section, “employee” means a driver of a commercial motor vehicle (including an independent contractor when personally operating a commercial motor vehicle), a mechanic, a freight handler, or an individual not an employer, who—

(1) directly affects commercial motor vehicle safety or security in the course of employment by a commercial motor carrier; and

(2) is not an employee of the United States Government, a State, or a political subdivision of a State acting in the course of employment.

SUBCHAPTER II—LENGTH AND WIDTH LIMITATIONS

§ 31111. Length limitations

(a) DEFINITIONS.—In this section, the following definitions apply:

(1) AUTOMOBILE TRANSPORTER.—The term “automobile transporter” means any vehicle combination designed and used for the transport of assembled highway vehicles, including truck camper units. An automobile transporter shall not be prohibited from the transport of cargo or general freight on a backhaul, so long as it complies with weight limitations for a truck tractor and semitrailer combination.

(2) MAXI-CUBE VEHICLE.—The term “maxi-cube vehicle” means a truck tractor combined with a semitrailer and a separable property-

carrying unit designed to be loaded and unloaded through the semitrailer, with the length of the separable property-carrying unit being not more than 34 feet and the length of the vehicle combination being not more than 65 feet.

(3) **TRUCK TRACTOR.**—The term “truck tractor” means—

(A) a non-property-carrying power unit that operates in combination with a semitrailer or trailer; or

(B) a power unit that carries as property motor vehicles when operating in combination with a semitrailer in transporting motor vehicles or any other commodity, including cargo or general freight on a backhaul.

(4) **DRIVEAWAY SADDLEMOUNT VEHICLE TRANSPORTER COMBINATION.**—The term “driveaway saddlemount vehicle transporter combination” means a vehicle combination designed and specifically used to tow up to 3 trucks or truck tractors, each connected by a saddle to the frame or fifth-wheel of the forward vehicle of the truck or truck tractor in front of it. Such combination may include one fullmount.

(5) **BACKHAUL.**—The term “backhaul” means the return trip of a vehicle transporting cargo or general freight, especially when carrying goods back over all or part of the same route.

(6) **TRAILER TRANSPORTER TOWING UNIT.**—The term “trailer transporter towing unit” means a power unit that is not used to carry property when operating in a towaway trailer transporter combination.

(7) **TOWAWAY TRAILER TRANSPORTER COMBINATION.**—The term “towaway trailer transporter combination” means a combination of vehicles consisting of a trailer transporter towing unit and 2 trailers or semitrailers—

(A) with a total weight that does not exceed 26,000 pounds; and

(B) in which the trailers or semitrailers carry no property and constitute inventory property of a manufacturer, distributor, or dealer of such trailers or semitrailers.

(b) **GENERAL LIMITATIONS.**—(1) Except as provided in this section, a State may not prescribe or enforce a regulation of commerce that—

(A) imposes a vehicle length limitation of less than 45 feet on a bus, of less than 48 feet on a semitrailer operating in a truck tractor-semi-trailer combination, or of less than 28 feet on a semitrailer or trailer operating in a truck tractor-semi-trailer-trailer combination, on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (f) of this section) and those classes of qualifying Federal-aid Primary System highways designated by the Secretary of Transportation under subsection (e) of this section;

(B) imposes an overall length limitation on a commercial motor vehicle operating in a truck tractor-semi-trailer or truck tractor-semi-trailer-trailer combination;

(C) has the effect of prohibiting the use of a semi-trailer or trailer of the same dimensions as those that were in actual and lawful use in that State on December 1, 1982;

(D) imposes a vehicle length limitation of not less than or more than 97 feet on all driveaway saddlemount vehicle transporter combinations;

(E) has the effect of prohibiting the use of an existing semi-trailer or trailer, of not more than 28.5 feet in length, in a truck tractor-semi-trailer-trailer combination if the semi-trailer or trailer was operating lawfully on December 1, 1982, within a 65-foot overall length limit in any State;

(F) imposes a limitation of less than 46 feet on the distance from the kingpin to the center of the rear axle on trailers used exclusively or primarily in connection with motorsports competition events;

(G) imposes a vehicle length limitation of less than 80 feet on a stinger-steered automobile transporter with a front overhang of less than 4 feet and a rear overhang of less than 6 feet; or

(H) has the effect of imposing an overall length limitation of less than 82 feet on a towaway trailer transporter combination.

(2) A length limitation prescribed or enforced by a State under paragraph (1)(A) of this subsection applies only to a semi-trailer or trailer and not to a truck tractor.

(c) **MAXI-CUBE AND VEHICLE COMBINATION LIMITATIONS.**—A State may not prohibit a maxi-cube vehicle or a commercial motor vehicle combination consisting of a truck tractor and 2 trailing units on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (f) of this section) and those classes of qualifying Federal-aid Primary System highways designated by the Secretary under subsection (e) of this section.

(d) **EXCLUSION OF SAFETY AND ENERGY CONSERVATION DEVICES.**—Length calculated under this section does not include a safety or energy conservation device the Secretary decides is necessary for safe and efficient operation of a commercial motor vehicle. However, such a device may not have by its design or use the ability to carry cargo.

(e) **QUALIFYING HIGHWAYS.**—The Secretary by regulation shall designate as qualifying Federal-aid Primary System highways those highways of the Federal-aid Primary System in existence on June 1, 1991, that can accommodate safely the applicable vehicle lengths provided in this section.

(f) **EXEMPTIONS.**—(1) If the chief executive officer of a State, after consulting under paragraph (2) of this subsection, decides a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section, the chief executive officer may notify the Secretary of that decision and request the Secretary to exempt that segment from either or both provisions.

(2) Before making a decision under paragraph (1) of this subsection, the chief executive officer shall consult with units of local government in the State in which the segment of the Dwight D.

Eisenhower System of Interstate and Defense Highways is located and with the chief executive officer of any adjacent State that may be directly affected by the exemption. As part of the consultations, consideration shall be given to any potential alternative route that serves the area in which the segment is located and can safely accommodate a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section.

(3) A chief executive officer's notification under this subsection must include specific evidence of safety problems supporting the officer's decision and the results of consultations about alternative routes.

(4)(A) If the Secretary decides, on request of a chief executive officer or on the Secretary's own initiative, a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section, the Secretary shall exempt the segment from either or both of those provisions. Before making a decision under this paragraph, the Secretary shall consider any possible alternative route that serves the area in which the segment is located.

(B) The Secretary shall make a decision about a specific segment not later than 120 days after the date of receipt of notification from a chief executive officer under paragraph (1) of this subsection or the date on which the Secretary initiates action under subparagraph (A) of this paragraph, whichever is applicable. If the Secretary finds the decision will not be made in time, the Secretary immediately shall notify Congress, giving the reasons for the delay, information about the resources assigned, and the projected date for the decision.

(C) Before making a decision, the Secretary shall give an interested person notice and an opportunity for comment. If the Secretary exempts a segment under this subsection before the final regulations under subsection (e) of this section are prescribed, the Secretary shall include the exemption as part of the final regulations. If the Secretary exempts the segment after the final regulations are prescribed, the Secretary shall publish the exemption as an amendment to the final regulations.

(g) ACCOMMODATING SPECIALIZED EQUIPMENT.—In prescribing regulations to carry out this section, the Secretary may make decisions necessary to accommodate specialized equipment, including automobile and vessel transporters and maxi-cube vehicles.

In this section, the words “Dwight D. Eisenhower System of Interstate and Defense Highways” are substituted for “National System of Interstate and Defense Highways” because of the Act of October 15, 1990 (Public Law 101-427, 104 Stat. 927).

In subsection (a), the word “property” is substituted for “cargo” for consistency in the revised title.

Subsection (b)(1) is substituted for 49 App.:2311(a) and (b) (2d-last sentences) to eliminate unnecessary words and for consistency in the revised title and with other titles of the United States Code. Hyphens are used in describing the combinations “truck tractor-semitrailer” and “truck tractor-semitrailer-trailer” for consistency. In clause (D), the word “actually” is omitted as surplus.

Subsection (b)(2) is substituted for 49 App.:2311(b) (1st sentence) because of the restatement.

In subsection (d), the words “such as rear view mirrors, turn signal lamps, marker lamps, steps and handholds for entry and egress, flexible fender extensions, mudflaps and splash and spray suppressant devices, load-induced tire bulge, refrigeration units or air compressors and other devices” are omitted as unnecessary and because most items listed relate to width rather than length.

In subsection (e), the words “by regulation” are added for clarity. The words “subject to the provisions of subsections (a) and (c) of this section” are omitted as surplus. The text of 49 App.:2311(e)(2) and (3) is omitted as executed.

In subsection (f), the word “commercial” is added before “motor vehicle” for consistency.

In subsection (f)(4)(C), the reference to regulations prescribed under subsection (e) is substituted for the reference in the source to regulations issued under subsection (a) to be more precise. The word “amendment” is substituted for “revision” for consistency in the revised title.

Subsection (g) is substituted for 49 App.:2311(d) to eliminate unnecessary words. The Secretary’s general authority to prescribe regulations is provided in 49:322(a). The word “vessel” is substituted for “boat” because of 1:3. The text of 49 App.:2311(g) is omitted as executed.

§ 31112. Property-carrying unit limitation

(a) DEFINITIONS.—In this section—

(1) “property-carrying unit” means any part of a commercial motor vehicle combination

(except the truck tractor) used to carry property, including a trailer, a semitrailer, or the property-carrying section of a single unit truck, but not including a trailer or a semitrailer transported as part of a towaway trailer transporter combination (as defined in section 31111(a)).

(2) the length of the property-carrying units of a commercial motor vehicle combination is the length measured from the front of the first property-carrying unit to the rear of the last property-carrying unit.

(b) GENERAL LIMITATIONS.—A State may not allow by any means the operation, on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways and those classes of qualifying Federal-aid Primary System highways designated by the Secretary of Transportation under section 31111(e) of this title, of any commercial motor vehicle combination (except a vehicle or load that cannot be dismantled easily or divided easily and that has been issued a special permit under applicable State law) with more than one property-carrying unit (not including the truck tractor) whose property-carrying units are more than—

(1) the maximum combination trailer, semitrailer, or other type of length limitation allowed by law or regulation of that State before June 2, 1991; or

(2) the length of the property-carrying units of those commercial motor vehicle combinations, by specific configuration, in actual, lawful operation on a regular or periodic basis (including continuing seasonal operation) in that State before June 2, 1991.

(c) SPECIAL RULES FOR WYOMING, OHIO, ALASKA, IOWA, NEBRASKA, KANSAS, AND OREGON.—In addition to the vehicles allowed under subsection (b) of this section—

(1) Wyoming may allow the operation of additional vehicle configurations not in actual operation on June 1, 1991, but authorized by State law not later than November 3, 1992, if the vehicle configurations comply with the single axle, tandem axle, and bridge formula limits in section 127(a) of title 23 and are not more than 117,000 pounds gross vehicle weight;

(2) Ohio may allow the operation of commercial motor vehicle combinations with 3 property-carrying units of 28.5 feet each (not including the truck tractor) not in actual operation on June 1, 1991, to be operated in Ohio on the 1-mile segment of Ohio State Route 7 that begins at and is south of exit 16 of the Ohio Turnpike;

(3) Alaska may allow the operation of commercial motor vehicle combinations that were not in actual operation on June 1, 1991, but were in actual operation before July 6, 1991;

(4) Iowa may allow the operation on Interstate Route 29 between Sioux City, Iowa, and the border between Iowa and South Dakota or on Interstate Route 129 between Sioux City, Iowa, and the border between Iowa and Nebraska of commercial motor vehicle combinations with trailer length, semitrailer length, and property-carrying unit length allowed by law or regulation and in actual lawful operation on a regular or periodic basis (including

continued seasonal operation) in South Dakota or Nebraska, respectively, before June 2, 1991;

(5) Nebraska and Kansas may allow the operation of a truck tractor and 2 trailers or semitrailers not in actual lawful operation on a regular or periodic basis on June 1, 1991, if the length of the property-carrying units does not exceed 81 feet 6 inches and such combination is used only to transport equipment utilized by custom harvesters under contract to agricultural producers to harvest one or more of wheat, soybeans, and milo during the harvest months for such crops, as defined by the relevant state;¹ and

(6) Oregon may allow the operation of a truck tractor and 2 property-carrying units not in actual lawful operation on a regular or periodic basis on June 1, 1991, if—

(A) the length of the property-carrying units does not exceed 82 feet 8 inches;

(B) the combination is used only to transport sugar beets; and

(C) the operation occurs on United States Route 20, United States Route 26, United States Route 30, or Oregon Route 201 in the vicinity, or between any, of—

- (i) Vale, Oregon;
- (ii) Ontario, Oregon; or
- (iii) Nyssa, Oregon.

(d) ADDITIONAL LIMITATIONS.—(1) A commercial motor vehicle combination whose operation in a State is not prohibited under subsections (b) and (c) of this section may continue to operate in the State on highways described in subsection (b) only if at least in compliance with all State laws, regulations, limitations, and conditions, including routing-specific and configuration-specific designations and all other restrictions in force in the State on June 1, 1991. However, subject to regulations prescribed by the Secretary under subsection (g)(2) of this section, the State may make minor adjustments of a temporary and emergency nature to route designations and vehicle operating restrictions in effect on June 1, 1991, for specific safety purposes and road construction.

(2) This section does not prevent a State from further restricting in any way or prohibiting the operation of any commercial motor vehicle combination subject to this section, except that a restriction or prohibition shall be consistent with this section and sections 31113(a) and (b) and 31114 of this title.

(3) A State making a minor adjustment of a temporary and emergency nature as authorized by paragraph (1) of this subsection or further restricting or prohibiting the operation of a commercial motor vehicle combination as authorized by paragraph (2) of this subsection shall advise the Secretary not later than 30 days after the action. The Secretary shall publish a notice of the action in the Federal Register.

(4)² Nebraska may continue to allow to be operated under paragraphs (b)(1) and (b)(2) of this section,³ the State of Nebraska may allow longer combination vehicles that were not in ac-

tual operation on June 1, 1991 to be operated within its boundaries to transport sugar beets from the field where such sugar beets are harvested to storage, market, factory or stockpile or from stockpile to storage, market or factory. This provision shall expire on February 28, 1998.

(e) LIST OF STATE LENGTH LIMITATIONS.—(1) Not later than February 16, 1992, each State shall submit to the Secretary for publication a complete list of State length limitations applicable to commercial motor vehicle combinations operating in the State on the highways described in subsection (b) of this section. The list shall indicate the applicable State laws and regulations associated with the length limitations. If a State does not submit the information as required, the Secretary shall complete and file the information for the State.

(2) Not later than March 17, 1992, the Secretary shall publish an interim list in the Federal Register consisting of all information submitted under paragraph (1) of this subsection. The Secretary shall review for accuracy all information submitted by a State under paragraph (1) and shall solicit and consider public comment on the accuracy of the information.

(3) A law or regulation may not be included on the list submitted by a State or published by the Secretary merely because it authorized, or could have authorized, by permit or otherwise, the operation of commercial motor vehicle combinations not in actual operation on a regular or periodic basis before June 2, 1991.

(4) Except as revised under this paragraph or paragraph (5) of this subsection, the list shall be published as final in the Federal Register not later than June 15, 1992. In publishing the final list, the Secretary shall make any revisions necessary to correct inaccuracies identified under paragraph (2) of this subsection. After publication of the final list, commercial motor vehicle combinations prohibited under subsection (b) of this section may not operate on the Dwight D. Eisenhower System of Interstate and Defense Highways and other Federal-aid Primary System highways designated by the Secretary except as published on the list. The list may be combined by the Secretary with the list required under section 127(d) of title 23.

(5) On the Secretary's own motion or on request by any person (including a State), the Secretary shall review the list published under paragraph (4) of this subsection. If the Secretary decides there is reason to believe a mistake was made in the accuracy of the list, the Secretary shall begin a proceeding to decide whether a mistake was made. If the Secretary decides there was a mistake, the Secretary shall publish the correction.

(f) LIMITATIONS ON STATUTORY CONSTRUCTION.—This section may not be construed—

(1) to allow the operation on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways of a longer combination vehicle prohibited under section 127(d) of title 23;

(2) to affect in any way the operation of a commercial motor vehicle having only one property-carrying unit; or

(3) to affect in any way the operation in a State of a commercial motor vehicle with

³ So in original.

more than one property-carrying unit if the vehicle was in actual operation on a regular or periodic basis (including seasonal operation) in that State before June 2, 1991, that was authorized under State law or regulation or lawful State permit.

(g) REGULATIONS.—(1) In carrying out this section only, the Secretary shall define by regulation loads that cannot be dismantled easily or divided easily.

(2) Not later than June 15, 1992, the Secretary shall prescribe regulations establishing criteria for a State to follow in making minor adjustments under subsection (d) of this section.

EFFECTIVE DATE OF 2015 AMENDMENT

Amendment by Pub. L. 114-94 effective Oct. 1, 2015, see section 1003 of Pub. L. 114-94, set out as a note under section 5313 of Title 5, Government Organization and Employees.

§31113. Width limitations

(a) GENERAL LIMITATIONS.—(1) Except as provided in subsection (e) of this section, a State (except Hawaii) may not prescribe or enforce a regulation of commerce that imposes a vehicle width limitation of more or less than 102 inches on a commercial motor vehicle operating on—

(A) a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (e) of this section);

(B) a qualifying Federal-aid highway designated by the Secretary of Transportation, with traffic lanes designed to be at least 12 feet wide; or

(C) a qualifying Federal-aid Primary System highway designated by the Secretary if the Secretary decides the designation is consistent with highway safety.

(2) Notwithstanding paragraph (1) of this subsection, a State may continue to enforce a regulation of commerce in effect on April 6, 1983, that applies to a commercial motor vehicle of more than 102 inches in width, until the date on which the State prescribes a regulation of commerce that complies with this subsection.

(3) A Federal-aid highway (except an interstate highway) not designated under this subsection on June 5, 1984, may be designated under this subsection only with the agreement of the chief executive officer of the State in which the highway is located.

(b) EXCLUSION OF SAFETY AND ENERGY CONSERVATION DEVICES.—Width calculated under this section does not include a safety or energy conservation device the Secretary decides is necessary for safe and efficient operation of a commercial motor vehicle.

(c) SPECIAL USE PERMITS.—A State may grant a special use permit to a commercial motor vehicle that is more than 102 inches in width.

(d) STATE ENFORCEMENT.—Consistent with this section, a State may enforce a commercial motor vehicle width limitation of 102 inches on a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (e) of this section) or other qualifying Federal-aid highway designated by the Secretary.

(e) EXEMPTIONS.—(1) If the chief executive officer of a State, after consulting under paragraph (2) of this subsection, decides a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely ac-

commodating a commercial motor vehicle having the width provided in subsection (a) of this section, the chief executive officer may notify the Secretary of that decision and request the Secretary to exempt that segment from subsection (a) to allow the State to impose a width limitation of less than 102 inches for a vehicle (except a bus) on that segment.

(2) Before making a decision under paragraph (1) of this subsection, the chief executive officer shall consult with units of local government in the State in which the segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is located and with the chief executive officer of any adjacent State that may be directly affected by the exemption. As part of the consultations, consideration shall be given to any potential alternative route that serves the area in which the segment is located and can safely accommodate a commercial motor vehicle having the width provided for in subsection (a) of this section.

(3) A chief executive officer's notification under this subsection must include specific evidence of safety problems supporting the officer's decision and the results of consultations about alternative routes.

(4)(A) If the Secretary decides, on request of a chief executive officer or on the Secretary's own initiative, a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a width provided in subsection (a) of this section, the Secretary shall exempt the segment from subsection (a) to allow the State to impose a width limitation of less than 102 inches for a vehicle (except a bus) on that segment. Before making a decision under this paragraph, the Secretary shall consider any possible alternative route that serves the area in which the segment is located.

(B) The Secretary shall make a decision about a specific segment not later than 120 days after the date of receipt of notification from a chief executive officer under paragraph (1) of this subsection or the date on which the Secretary initiates action under subparagraph (A) of this paragraph, whichever is applicable. If the Secretary finds the decision will not be made in time, the Secretary immediately shall notify Congress, giving the reasons for the delay, information about the resources assigned, and the projected date for the decision.

(C) Before making a decision, the Secretary shall give an interested person notice and an opportunity for comment. If the Secretary exempts a segment under this subsection before the final regulations under subsection (a) of this section are prescribed, the Secretary shall include the exemption as part of the final regulations. If the Secretary exempts the segment after the final regulations are prescribed, the Secretary shall publish the exemption as an amendment to the final regulations.

The words “a commercial motor vehicle operating on” are added for clarity.

In subsection (b), the words “or energy conservation” are added for consistency with section 3111(d) of the revised title and because of the reference to “efficient operation”.

(a) PROHIBITION ON DENYING ACCESS.—A State may not enact or enforce a law denying to a commercial motor vehicle subject to this subchapter or subchapter I of this chapter reasonable access between—

(1) the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under section 3111(f) or 31113(e) of this title) and other qualifying Federal-aid Primary System highways designated by the Secretary of Transportation; and

(2) terminals, facilities for food, fuel, repairs, and rest, and points of loading and unloading for household goods carriers, motor carriers of passengers, any towaway trailer transporter combination (as defined in section 3111(a)), or any truck tractor-semitrailer combination in which the semitrailer has a length of not more than 28.5 feet and that generally operates as part of a vehicle combination described in section 3111(c) of this title.

(b) EXCEPTION.—This section does not prevent a State or local government from imposing reasonable restrictions, based on safety considerations, on a truck tractor-semitrailer combination in which the semitrailer has a length of not more than 28.5 feet and that generally operates as part of a vehicle combination described in section 3111(c) of this title.

SUBCHAPTER III—SAFETY REGULATION

§ 31131. Purposes and findings

(a) PURPOSES.—The purposes of this subchapter are—

(1) to promote the safe operation of commercial motor vehicles;

§ 31136. United States Government regulations

(a) **MINIMUM SAFETY STANDARDS.**—Subject to section 30103(a) of this title, the Secretary of Transportation shall prescribe regulations on commercial motor vehicle safety. The regulations shall prescribe minimum safety standards for commercial motor vehicles. At a minimum, the regulations shall ensure that—

(1) commercial motor vehicles are maintained, equipped, loaded, and operated safely;

(2) the responsibilities imposed on operators of commercial motor vehicles do not impair their ability to operate the vehicles safely;

(3) the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely and the periodic physical examinations required of such operators are performed by medical ex-

aminers who have received training in physical and medical examination standards and, after the national registry maintained by the Department of Transportation under section 31149(d) is established, are listed on such registry;

(4) the operation of commercial motor vehicles does not have a deleterious effect on the physical condition of the operators; and

(5) an operator of a commercial motor vehicle is not coerced by a motor carrier, shipper, receiver, or transportation intermediary to operate a commercial motor vehicle in violation of a regulation promulgated under this section, or chapter 51 or chapter 313 of this title.

(b) **ELIMINATING AND AMENDING EXISTING REGULATIONS.**—The Secretary may not eliminate or amend an existing motor carrier safety regulation related only to the maintenance, equipment, loading, or operation (including routing) of vehicles carrying material found to be hazardous under section 5103 of this title until an equivalent or more stringent regulation has been prescribed under section 5103.

(c) **PROCEDURES AND CONSIDERATIONS.**—(1) A regulation under this section shall be prescribed under section 553 of title 5 (without regard to sections 556 and 557 of title 5).

(2) Before prescribing regulations under this section, the Secretary shall consider, to the extent practicable and consistent with the purposes of this chapter—

(A) costs and benefits; and

(B) State laws and regulations on commercial motor vehicle safety, to minimize their unnecessary preemption.

(d) **EFFECT OF EXISTING REGULATIONS.**—If the Secretary does not prescribe regulations on commercial motor vehicle safety under this section, regulations on commercial motor vehicle safety prescribed by the Secretary before October 30, 1984, and in effect on October 30, 1984, shall be deemed in this subchapter to be regulations prescribed by the Secretary under this section.

(e) **EXEMPTIONS.**—The Secretary may grant in accordance with section 31315 waivers and exemptions from, or conduct pilot programs with respect to, any regulations prescribed under this section.

(f) **REGULATORY IMPACT ANALYSIS.**—

(1) **IN GENERAL.**—Within each regulatory impact analysis of a proposed or final major rule issued by the Federal Motor Carrier Safety Administration, the Secretary shall, whenever practicable—

(A) consider the effects of the proposed or final rule on different segments of the motor carrier industry; and

(B) formulate estimates and findings based on the best available science.

(2) **SCOPE.**—To the extent feasible and appropriate, and consistent with law, an analysis described in paragraph (1) shall—

(A) use data that is representative of commercial motor vehicle operators or motor carriers, or both, that will be impacted by the proposed or final rule; and

(B) consider the effects on commercial truck and bus carriers of various sizes and types.

(g) **PUBLIC PARTICIPATION.**—

(1) **IN GENERAL.**—If a proposed rule under this part is likely to lead to the promulgation of a major rule, the Secretary, before publishing such proposed rule, shall—

(A) issue an advance notice of proposed rulemaking; or

(B) proceed with a negotiated rulemaking.

(2) **REQUIREMENTS.**—Each advance notice of proposed rulemaking issued under paragraph (1) shall—

(A) identify the need for a potential regulatory action;

(B) identify and request public comment on the best available science or technical information relevant to analyzing potential regulatory alternatives;

(C) request public comment on the available data and costs with respect to regulatory alternatives reasonably likely to be considered as part of the rulemaking; and

(D) request public comment on available alternatives to regulation.

(3) **WAIVER.**—This subsection does not apply to a proposed rule if the Secretary, for good cause, finds (and incorporates the finding and a brief statement of reasons for such finding in the proposed or final rule) that an advance notice of proposed rulemaking is impracticable, unnecessary, or contrary to the public interest.

(h) **RULE OF CONSTRUCTION.**—Nothing in subsection (f) or (g) may be construed to limit the contents of an advance notice of proposed rulemaking.

The words “Subject to section 30103(a) of this title” are added to alert the reader to that section.

In subsection (c)(1), the words “except that the time periods specified in this subsection shall apply to the issuance of such regulations” are omitted because the

In subsection (d), the text of 49 App.:2505(d) is omitted as obsolete.

In subsection (f)(2)(C)(i), the words “an operator” are substituted for “such person” because only a natural person can have a medical or physical condition.

§ 31137. Electronic logging devices and brake maintenance regulations

(a) **USE OF ELECTRONIC LOGGING DEVICES.**—Not later than 1 year after the date of enactment of the Commercial Motor Vehicle Safety Enhancement Act of 2012, the Secretary of Transportation shall prescribe regulations—

(1) requiring a commercial motor vehicle involved in interstate commerce and operated by a driver subject to the hours of service and the record of duty status requirements under part 395 of title 49, Code of Federal Regulations, be¹ equipped with an electronic logging device to improve compliance by an operator of a vehicle with hours of service regulations prescribed by the Secretary; and

(2) ensuring that an electronic logging device is not used to harass a vehicle operator.

(b) **ELECTRONIC LOGGING DEVICE REQUIREMENTS.**—

(1) **IN GENERAL.**—The regulations prescribed under subsection (a) shall—

(A) require an electronic logging device—

(i) to accurately record commercial driver hours of service;

(ii) to record the location of a commercial motor vehicle;

(iii) to be tamper resistant; and

(iv) to be synchronized to the operation of the vehicle engine or be capable of recognizing when the vehicle is being operated;

(B) allow law enforcement to access the data contained in the device during a roadside inspection; and

(C) except as provided in paragraph (3), apply to a commercial motor vehicle beginning on the date that is 2 years after the date that the regulations are published as a final rule.

(2) **PERFORMANCE AND DESIGN STANDARDS.**—The regulations prescribed under subsection (a) shall establish performance standards—

(A) defining a standardized user interface to aid vehicle operator compliance and law enforcement review;

(B) establishing a secure process for standardized—

(i) and unique vehicle operator identification;

(ii) data access;

(iii) data transfer for vehicle operators between motor vehicles;

(iv) data storage for a motor carrier; and

(v) data transfer and transportability for law enforcement officials;

(C) establishing a standard security level for an electronic logging device and related components to be tamper resistant by using a methodology endorsed by a nationally recognized standards organization; and

(D) identifying each driver subject to the hours of service and record of duty status requirements under part 395 of title 49, Code of Federal Regulations.

(3) **EXCEPTION.**—A motor carrier, when transporting a motor home or recreation vehicle trailer within the definition of the term “driveaway-towaway operation” (as defined in section 390.5 of title 49, Code of Federal Regulations), may comply with the hours of service requirements by requiring each driver to use—

(A) a paper record of duty status form; or
(B) an electronic logging device.

¹ So in original. Probably should be preceded by “to”.

(c) CERTIFICATION CRITERIA.—

(1) IN GENERAL.—The regulations prescribed by the Secretary under this section shall establish the criteria and a process for the certification of electronic logging devices to ensure that the device meets the performance requirements under this section.

(2) EFFECT OF NONCERTIFICATION.—Electronic logging devices that are not certified in accordance with the certification process referred to in paragraph (1) shall not be acceptable evidence of hours of service and record of duty status requirements under part 395 of title 49, Code of Federal Regulations.

(d) ADDITIONAL CONSIDERATIONS.—The Secretary, in prescribing the regulations described in subsection (a), shall consider how such regulations may—

(1) reduce or eliminate requirements for drivers and motor carriers to retain supporting documentation associated with paper-based records of duty status if—

(A) data contained in an electronic logging device supplants such documentation; and

(B) using such data without paper-based records does not diminish the Secretary's ability to audit and review compliance with the Secretary's hours of service regulations; and

(2) include such measures as the Secretary determines are necessary to protect the privacy of each individual whose personal data is contained in an electronic logging device.

(e) USE OF DATA.—

(1) IN GENERAL.—The Secretary may utilize information contained in an electronic logging device only to enforce the Secretary's motor carrier safety and related regulations, including record-of-duty status regulations.

(2) MEASURES TO PRESERVE CONFIDENTIALITY OF PERSONAL DATA.—The Secretary shall institute appropriate measures to preserve the confidentiality of any personal data contained in an electronic logging device and disclosed in the course of an action taken by the Secretary or by law enforcement officials to enforce the regulations referred to in paragraph (1).

(3) ENFORCEMENT.—The Secretary shall institute appropriate measures to ensure any information collected by electronic logging devices is used by enforcement personnel only for the purpose of determining compliance with hours of service requirements.

(f) DEFINITIONS.—In this section:

(1) ELECTRONIC LOGGING DEVICE.—The term “electronic logging device” means an electronic device that—

(A) is capable of recording a driver's hours of service and duty status accurately and automatically; and

(B) meets the requirements established by the Secretary through regulation.

(2) TAMPER RESISTANT.—The term “tamper resistant” means resistant to allowing any individual to cause an electronic device to record the incorrect date, time, and location for changes to on-duty driving status of a commercial motor vehicle operator under part 395 of title 49, Code of Federal Regulations, or to

subsequently alter the record created by that device.

(g) BRAKES AND BRAKE SYSTEMS MAINTENANCE REGULATIONS.—The Secretary shall maintain regulations on improved standards or methods to ensure that brakes and brake systems of commercial motor vehicles are maintained properly and inspected by appropriate employees. At a minimum, the regulations shall establish minimum training requirements and qualifications for employees responsible for maintaining and inspecting the brakes and brake systems.

§ 31138. Minimum financial responsibility for transporting passengers

(a) GENERAL REQUIREMENT.—

(1) TRANSPORTATION OF PASSENGERS FOR COMPENSATION.—The Secretary of Transportation shall prescribe regulations to require minimum levels of financial responsibility sufficient to satisfy liability amounts established by the Secretary covering public liability and property damage for the transportation of passengers for compensation by motor vehicle in the United States between a place in a State and—

- (A) a place in another State;
- (B) another place in the same State through a place outside of that State; or
- (C) a place outside the United States.

(2) TRANSPORTATION OF PASSENGERS NOT FOR COMPENSATION.—The Secretary may prescribe regulations to require minimum levels of financial responsibility sufficient to satisfy liability amounts established by the Secretary covering public liability and property damage for the transportation of passengers for commercial purposes, but not for compensation, by motor vehicle in the United States between a place in a State and—

- (A) a place in another State;
- (B) another place in the same State through a place outside of that State; or
- (C) a place outside the United States.

(b) MINIMUM AMOUNTS.—The level of financial responsibility established under subsection (a) of this section for a motor vehicle with a seating capacity of—

- (1) at least 16 passengers shall be at least \$5,000,000; and
- (2) not more than 15 passengers shall be at least \$1,500,000.

(c) EVIDENCE OF FINANCIAL RESPONSIBILITY.—

(1) Subject to paragraph (2) of this subsection, financial responsibility may be established by evidence of one or a combination of the following if acceptable to the Secretary of Transportation:

- (A) insurance, including high self-retention.
- (B) a guarantee.
- (C) a surety bond issued by a bonding company authorized to do business in the United States.

(2) A person domiciled in a country contiguous to the United States and providing transportation to which a minimum level of financial responsibility under this section applies shall have evidence of financial responsibility in the motor vehicle when the person is providing the transportation. If evidence of financial responsibility is not in the vehicle, the Secretary of Transportation and the Secretary of the Treasury shall deny entry of the vehicle into the United States.

(3) A motor carrier may obtain the required amount of financial responsibility from more than one source provided the cumulative amount is equal to the minimum requirements of this section.

(4) OTHER PERSONS.—The Secretary may require a person, other than a motor carrier (as defined in section 13102), transporting passengers by motor vehicle to file with the Secretary the evidence of financial responsibility specified in subsection (c)(1) in an amount not less than the greater of the amount required by subsection (b)(1) or the amount required for such person to transport passengers under the laws of the State or States in which the person is operating; except that the amount of the financial responsibility must be sufficient to pay not more than the amount of the financial responsibility for each final judgment against the person for bodily injury to, or death of, an individual resulting from the negligent operation, maintenance, or use of the motor vehicle, or for loss or damage to property, or both.

(d) CIVIL PENALTY.—(1) If, after notice and an opportunity for a hearing, the Secretary of Transportation finds that a person (except an employee acting without knowledge) has knowingly violated this section or a regulation prescribed under this section, the person is liable to the United States Government for a civil penalty of not more than \$10,000 for each violation. A separate violation occurs for each day the violation continues.

(2) The Secretary of Transportation shall impose the penalty by written notice. In determining the amount of the penalty, the Secretary shall consider—

- (A) the nature, circumstances, extent, and gravity of the violation;
- (B) with respect to the violator, the degree of culpability, any history of prior violations, the ability to pay, and any effect on the ability to continue doing business; and
- (C) other matters that justice requires.

(3) The Secretary of Transportation may compromise the penalty before referring the matter to the Attorney General for collection.

(4) The Attorney General shall bring a civil action in an appropriate district court of the United States to collect a penalty referred to the Attorney General for collection under this subsection.

(5) The amount of the penalty may be deducted from amounts the Government owes the person. An amount collected under this section shall be deposited in the Highway Trust Fund (other than the Mass Transit Account).

(e) NONAPPLICATION.—This section does not apply to a motor vehicle—

- (1) transporting only school children and teachers to or from school;
- (2) providing taxicab service (as defined in section 13102);
- (3) carrying not more than 15 individuals in a single, daily round trip to and from work; or
- (4) providing transportation service within a transit service area under an agreement with a Federal, State, or local government funded, in whole or in part, with a grant under section 5307, 5310, or 5311, including transportation designed and carried out to meet the special

needs of elderly individuals and individuals with disabilities; except that, in any case in which the transit service area is located in more than 1 State, the minimum level of financial responsibility for such motor vehicle will be at least the highest level required for any of such States.

(D) qualification as a self-insurer.

(2) A person domiciled in a country contiguous to the United States and providing transportation to which a minimum level of financial responsibility under this section applies shall have evidence of financial responsibility in the motor vehicle when the person is providing the transportation. A separate violation occurs for each day the violation continues.

(2) The Secretary of Transportation shall impose the penalty by written notice. In determining the amount of the penalty, the Secretary shall consider—

Section, Pub. L. 103-272, § 1(e), July 5, 1994, 108 Stat. 1008, related to submission of State laws and regulations for review by Secretary of Transportation and Commercial Motor Vehicle Safety Regulatory Review Panel.

§ 31141. Review and preemption of State laws and regulations

(a) **PREEMPTION AFTER DECISION.**—A State may not enforce a State law or regulation on commercial motor vehicle safety that the Secretary of Transportation decides under this section may not be enforced.

(b) **SUBMISSION OF REGULATION.**—A State receiving funds made available under section 31104 that enacts a State law or issues a regulation on commercial motor vehicle safety shall submit a copy of the law or regulation to the Secretary immediately after the enactment or issuance.

(c) **REVIEW AND DECISIONS BY SECRETARY.**—

(1) **REVIEW.**—The Secretary shall review State laws and regulations on commercial motor vehicle safety. The Secretary shall decide whether the State law or regulation—

(A) has the same effect as a regulation prescribed by the Secretary under section 31136;

(B) is less stringent than such regulation;

or

(C) is additional to or more stringent than such regulation.

(2) **REGULATIONS WITH SAME EFFECT.**—If the Secretary decides a State law or regulation has the same effect as a regulation prescribed by the Secretary under section 31136 of this title, the State law or regulation may be enforced.

(3) **LESS STRINGENT REGULATIONS.**—If the Secretary decides a State law or regulation is less stringent than a regulation prescribed by the Secretary under section 31136 of this title,

the State law or regulation may not be enforced.

(4) **ADDITIONAL OR MORE STRINGENT REGULATIONS.**—If the Secretary decides a State law or regulation is additional to or more stringent than a regulation prescribed by the Secretary under section 31136 of this title, the State law or regulation may be enforced unless the Secretary also decides that—

(A) the State law or regulation has no safety benefit;

(B) the State law or regulation is incompatible with the regulation prescribed by the Secretary; or

(C) enforcement of the State law or regulation would cause an unreasonable burden on interstate commerce.

(5) **CONSIDERATION OF EFFECT ON INTERSTATE COMMERCE.**—In deciding under paragraph (4) whether a State law or regulation will cause an unreasonable burden on interstate commerce, the Secretary may consider the effect on interstate commerce of implementation of that law or regulation with the implementation of all similar laws and regulations of other States.

(d) **WAIVERS.**—(1) A person (including a State) may petition the Secretary for a waiver of a decision of the Secretary that a State law or regulation may not be enforced under this section. The Secretary shall grant the waiver, as expeditiously as possible, if the person demonstrates to the satisfaction of the Secretary that the waiver is consistent with the public interest and the safe operation of commercial motor vehicles.

AMENDMENTS

1998—Subsecs. (b), (c). Pub. L. 105-178, § 4008(e)(1), added subsecs. (b) and (c) and struck out headings and text of former subsecs. (b) and (c) which related to analysis and decisions by Commercial Motor Vehicle Safety Regulatory Review Panel and to review and decisions by Secretary, respectively.

Subsecs. (e) to (h). Pub. L. 105-178, § 4008(e)(2), (3), redesignated subsecs. (f) to (h) as (e) to (g), respectively, and struck out heading and text of former subsec. (e). Text read as follows: "The Secretary may consolidate regulatory proceedings under this section if the Secretary decides that the consolidation will not adversely affect a party to a proceeding."

§ 31142. Inspection of vehicles

(a) INSPECTION OF SAFETY EQUIPMENT.—On the instruction of an authorized enforcement official of a State or of the United States Government, a commercial motor vehicle is required to pass an inspection of all safety equipment required under the regulations issued under section 31136.

(b) INSPECTION OF VEHICLES AND RECORD RETENTION.—The Secretary of Transportation shall prescribe regulations on Government standards for inspection of commercial motor vehicles and

retention by employers of records of an inspection. The standards shall provide for annual or more frequent inspections of a commercial motor vehicle unless the Secretary finds that another inspection system is as effective as an annual or more frequent inspection system. Regulations prescribed under this subsection are deemed to be regulations prescribed under section 31136 of this title.

(c) PREEMPTION.—(1) Except as provided in paragraph (2) of this subsection, this subchapter and section 31102 of this title do not—

(A) prevent a State or voluntary group of States from imposing more stringent standards for use in their own periodic roadside inspection programs of commercial motor vehicles;

(B) prevent a State from enforcing a program for inspection of commercial motor vehicles that the Secretary decides is as effective as the Government standards prescribed under subsection (b) of this section;

(C) prevent a State from participating in the activities of a voluntary group of States enforcing a program for inspection of commercial motor vehicles; or

(D) require a State that is enforcing a program described in clause (B) or (C) of this paragraph to enforce a Government standard prescribed under subsection (b) of this section or to adopt a provision on inspection of commercial motor vehicles in addition to that program to comply with the Government standards.

(2) The Government standards prescribed under subsection (b) of this section shall preempt a program of a State described in paragraph (1)(C) of this subsection as the program applies to the inspection of commercial motor vehicles in that State. The State may not enforce the program if the Secretary—

(A) decides, after notice and an opportunity for a hearing, that the State is not enforcing the program in a way that achieves the objectives of this section; and

(B) after making a decision under clause (A) of this paragraph, provides the State with a 6-month period to improve the enforcement of the program to achieve the objectives of this section.

(d) INSPECTION TO BE ACCEPTED AS ADEQUATE IN ALL STATES.—A periodic inspection of a commercial motor vehicle under the Government standards prescribed under subsection (b) of this section or a program described in subsection (c)(1)(B) or (C) of this section that is being enforced shall be recognized as adequate in every State for the period of the inspection. This subsection does not prohibit a State from making random inspections of commercial motor vehicles.

(e) EFFECT OF GOVERNMENT STANDARDS.—The Government standards prescribed under subsection (b) of this section may not be enforced as the standards apply to the inspection of commercial motor vehicles in a State enforcing a program described in subsection (c)(1)(B) or (C) of this section if the Secretary decides that it is in the public interest and consistent with public safety for the Government standards not to be enforced as they apply to that inspection.

(f) APPLICATION OF STATE REGULATIONS TO GOVERNMENT-LEASED VEHICLES AND OPERATORS.—A State receiving financial assistance under section 31102 of this title in a fiscal year may enforce in that fiscal year a regulation on commercial motor vehicle safety adopted by the State as the regulation applies to commercial motor vehicles and operators leased to the Government.

§ 31306. Alcohol and controlled substances testing

(a) DEFINITION.—In this section and section 31306a, "controlled substance" means any substance under section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970

(21 U.S.C. 802) specified by the Secretary of Transportation.

(b) TESTING PROGRAM FOR OPERATORS OF COMMERCIAL MOTOR VEHICLES.—(1)(A) In the interest of commercial motor vehicle safety, the Secretary of Transportation shall prescribe regulations that establish a program requiring motor carriers to conduct preemployment, reasonable suspicion, random, and post-accident testing of operators of commercial motor vehicles for the use of a controlled substance in violation of law or a United States Government regulation and to conduct reasonable suspicion, random, and post-accident testing of such operators for the use of alcohol in violation of law or a United States Government regulation.

(B) The regulations prescribed under subparagraph (A) shall permit motor carriers—

(i) to conduct preemployment testing of commercial motor vehicle operators for the use of alcohol; and

(ii) to use hair testing as an acceptable alternative to urine testing—

(I) in conducting preemployment testing for the use of a controlled substance; and

(II) in conducting random testing for the use of a controlled substance if the operator was subject to hair testing for preemployment testing.

(C) When the Secretary of Transportation considers it appropriate in the interest of safety, the Secretary may prescribe regulations for conducting periodic recurring testing of operators of commercial motor vehicles for the use of alcohol or a controlled substance in violation of law or a Government regulation.

(2) In prescribing regulations under this subsection, the Secretary of Transportation—

(A) shall require that post-accident testing of an operator of a commercial motor vehicle be conducted when loss of human life occurs in an accident involving a commercial motor vehicle;

(B) may require that post-accident testing of such an operator be conducted when bodily injury or significant property damage occurs in any other serious accident involving a commercial motor vehicle; and

(C) shall provide an exemption from hair testing for commercial motor vehicle operators with established religious beliefs that prohibit the cutting or removal of hair.

(c) TESTING AND LABORATORY REQUIREMENTS.—In carrying out subsection (b) of this section, the Secretary of Transportation shall develop requirements that shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimens;

(2) for laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any amendments to those guidelines, for urine testing, and technical guidelines for hair testing, including mandatory guidelines establishing—

(A) comprehensive standards for every aspect of laboratory controlled substances testing and laboratory procedures to be ap-

plied in carrying out this section, including standards requiring the use of the best available technology to ensure the complete reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimens collected for controlled substances testing;

(B) the minimum list of controlled substances for which individuals may be tested;

(C) appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section; and

(D) laboratory protocols and cut-off levels for hair testing to detect the use of a controlled substance;

(3) require that a laboratory involved in testing under this section have the capability and facility, at the laboratory, of performing screening and confirmation tests;

(4) provide that any test indicating the use of alcohol or a controlled substance in violation of law or a Government regulation be confirmed by a scientifically recognized method of testing capable of providing quantitative information about alcohol or a controlled substance;

(5) provide that each specimen be subdivided, secured, and labeled in the presence of the tested individual and that a part of the specimen be retained in a secure manner to prevent the possibility of tampering, so that if the individual's confirmation test results are positive the individual has an opportunity to have the retained part tested by a 2d confirmation test done independently at another certified laboratory if the individual requests the 2d confirmation test not later than 3 days after being advised of the results of the first confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations that may be necessary and in consultation with the Secretary of Health and Human Services;

(7) provide for the confidentiality of test results and medical information (except information about alcohol or a controlled substance) of employees, except that this clause does not prevent the use of test results for the orderly imposition of appropriate sanctions under this section; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(d) TESTING AS PART OF MEDICAL EXAMINATION.—The Secretary of Transportation may provide that testing under subsection (a) of this section for operators subject to subpart E of part 391 of title 49, Code of Federal Regulations, be conducted as part of the medical examination required under that subpart.

(e) REHABILITATION.—The Secretary of Transportation shall prescribe regulations establishing requirements for rehabilitation pro-

grams that provide for the identification and opportunity for treatment of operators of commercial motor vehicles who are found to have used alcohol or a controlled substance in violation of law or a Government regulation. The Secretary shall decide on the circumstances under which those operators shall be required to participate in a program. This section does not prevent a motor carrier from establishing a program under this section in cooperation with another motor carrier.

(f) **SANCTIONS.**—The Secretary of Transportation shall decide on appropriate sanctions for a commercial motor vehicle operator who is found, based on tests conducted and confirmed under this section, to have used alcohol or a controlled substance in violation of law or a Government regulation but who is not under the influence of alcohol or a controlled substance as provided in this chapter.

(g) **EFFECT ON STATE AND LOCAL GOVERNMENT REGULATIONS.**—A State or local government may not prescribe or continue in effect a law, regulation, standard, or order that is inconsistent with regulations prescribed under this section. However, a regulation prescribed under this section may not be construed to preempt a State criminal law that imposes sanctions for reckless conduct leading to loss of life, injury, or damage to property.

(h) **INTERNATIONAL OBLIGATIONS AND FOREIGN LAWS.**—In prescribing regulations under this section, the Secretary of Transportation—

(1) shall establish only requirements that are consistent with international obligations of the United States; and

(2) shall consider applicable laws and regulations of foreign countries.

(i) **OTHER REGULATIONS ALLOWED.**—This section does not prevent the Secretary of Transportation from continuing in effect, amending, or further supplementing a regulation prescribed before October 28, 1991, governing the use of alcohol or a controlled substance by commercial motor vehicle employees.

§31315. Waivers, exemptions, and pilot programs

(a) **WAIVERS.**—The Secretary may grant a waiver that relieves a person from compliance in whole or in part with a regulation issued under this chapter or section 31136 if the Secretary determines that it is in the public interest to grant the waiver and that the waiver is likely to achieve a level of safety that is equivalent to, or greater than, the level of safety that would be obtained in the absence of the waiver—

- (1) for a period not in excess of 3 months;
- (2) limited in scope and circumstances;
- (3) for nonemergency and unique events; and
- (4) subject to such conditions as the Secretary may impose.

(b) **EXEMPTIONS.**—

(1) **IN GENERAL.**—Upon receipt of a request pursuant to this subsection, the Secretary of Transportation may grant to a person or class

of persons an exemption from a regulation prescribed under this chapter or section 31136 if the Secretary finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.

(2) **LENGTH OF EXEMPTION AND RENEWAL.**—An exemption may be granted under paragraph (1) for no longer than 5 years and may be renewed, upon request, for subsequent 5-year periods if the Secretary continues to make the finding under paragraph (1).

(3) **OPPORTUNITY FOR RESUBMISSION.**—If the Secretary denies an application under paragraph (1) and the applicant can reasonably address the reason for the denial, the Secretary may allow the applicant to resubmit the application.

(4) **AUTHORITY TO REVOKE EXEMPTION.**—The Secretary shall immediately revoke an exemption if—

(A) the person fails to comply with the terms and conditions of such exemption;

(B) the exemption has resulted in a lower level of safety than was maintained before the exemption was granted; or

(C) continuation of the exemption would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(5) **REQUESTS FOR EXEMPTION.**—Not later than 180 days after the date of enactment of this section and after notice and an opportunity for public comment, the Secretary shall specify by regulation the procedures by which a person may request an exemption. Such regulations shall, at a minimum, require the person to provide the following information for each exemption request:

(A) The provisions from which the person requests exemption.

(B) The time period during which the requested exemption would apply.

(C) An analysis of the safety impacts the requested exemption may cause.

(D) The specific countermeasures the person would undertake to ensure an equivalent or greater level of safety than would be achieved absent the requested exemption.

(6) **NOTICE AND COMMENT.**—

(A) **UPON RECEIPT OF A REQUEST.**—Upon receipt of an exemption request, the Secretary shall publish in the Federal Register (or, in the case of a request for an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) a notice explaining the request that has been filed and shall give the public an opportunity to inspect the safety analysis and any other relevant information known to the Secretary and to comment on the request. This subparagraph does not require the release of information protected by law from public disclosure.

(B) **UPON GRANTING A REQUEST.**—Upon granting a request and before the effective date of the exemption, the Secretary shall publish in the Federal Register (or, in the

case of an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) the name of the person granted the exemption, the provisions from which the person is exempt, the effective period, and the terms and conditions of the exemption.

(C) **AFTER DENYING A REQUEST.**—After denying a request for exemption, the Secretary shall publish in the Federal Register (or, in the case of a request for an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) the name of the person denied the exemption and the reasons for such denial. The Secretary may meet the requirement of this subparagraph by periodically publishing in the Federal Register the names of persons denied exemptions and the reasons for such denials.

(7) **APPLICATIONS TO BE DEALT WITH PROMPTLY.**—The Secretary shall grant or deny an exemption request after a thorough review of its safety implications, but in no case later than 180 days after the filing date of such request.

(8) **TERMS AND CONDITIONS.**—The Secretary shall establish terms and conditions for each exemption to ensure that it will likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The Secretary shall monitor the implementation of the exemption to ensure compliance with its terms and conditions.

(9) **NOTIFICATION OF STATE COMPLIANCE AND ENFORCEMENT PERSONNEL.**—Before the effective date of an exemption, the Secretary shall notify a State safety compliance and enforcement agency, and require the agency to notify the State's roadside inspectors, that a person will be operating pursuant to an exemption and the terms and conditions that apply to the exemption.

(c) **PILOT PROGRAMS.**—

(1) **IN GENERAL.**—The Secretary may conduct pilot programs to evaluate alternatives to regulations relating to, or innovative approaches to, motor carrier, commercial motor vehicle, and driver safety. Such pilot programs may include exemptions from a regulation prescribed under this chapter or section 31136 if the pilot program contains, at a minimum, the elements described in paragraph (2). The Secretary shall publish a detailed description of each pilot program, including the exemptions to be considered, and provide notice and an opportunity for public comment before the effective date of the program.

(2) **PROGRAM ELEMENTS.**—In proposing a pilot program and before granting exemptions for purposes of a pilot program, the Secretary shall require, as a condition of approval of the project, that the safety measures in the project are designed to achieve a level of safety that is equivalent to, or greater than, the level of safety that would otherwise be

achieved through compliance with the regulations prescribed under this chapter or section 31136. The Secretary shall include, at a minimum, the following elements in each pilot program plan:

(A) A scheduled life of each pilot program of not more than 3 years.

(B) A specific data collection and safety analysis plan that identifies a method for comparison.

(C) A reasonable number of participants necessary to yield statistically valid findings.

(D) An oversight plan to ensure that participants comply with the terms and conditions of participation.

(E) Adequate countermeasures to protect the health and safety of study participants and the general public.

(F) A plan to inform State partners and the public about the pilot program and to identify approved participants to safety compliance and enforcement personnel and to the public.

(3) **AUTHORITY TO REVOKE PARTICIPATION.**—The Secretary shall immediately revoke participation in a pilot program of a motor carrier, commercial motor vehicle, or driver for failure to comply with the terms and conditions of the pilot program or if continued participation would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(4) **AUTHORITY TO TERMINATE PROGRAM.**—The Secretary shall immediately terminate a pilot program if its continuation would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(5) **REPORT TO CONGRESS.**—At the conclusion of each pilot program, the Secretary shall report to Congress the findings, conclusions, and recommendations of the program, including suggested amendments to laws and regulations that would enhance motor carrier, commercial motor vehicle, and driver safety and improve compliance with national safety standards.

(d) **PREEMPTION OF STATE RULES.**—During the time period that a waiver, exemption, or pilot program is in effect under this chapter or section 31136, no State shall enforce any law or regulation that conflicts with or is inconsistent with the waiver, exemption, or pilot program with respect to a person operating under the waiver or exemption or participating in the pilot program.

(e) **REPORT TO CONGRESS.**—The Secretary shall submit an annual report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives listing the waivers, exemptions, and pilot programs granted under this section, and any impacts on safety.

(f) **WEB SITE.**—The Secretary shall ensure that the Federal Motor Carrier Safety Administration web site includes a link to the web site established by the Secretary to implement the requirements under sections 31149 and 31315. The link shall be in a clear and conspicuous location

on the home page of the Federal Motor Carrier Safety Administration web site and be easily accessible to the public.

(g) **LIMITATIONS ON MUNICIPALITY AND COMMERCIAL ZONE EXEMPTIONS AND WAIVERS.**—(1) The Secretary may not—

(A) exempt a person or commercial motor vehicle from a regulation related to commercial motor vehicle safety only because the operations of the person or vehicle are entirely in a municipality or commercial zone of a municipality; or

(B) waive application to a person or commercial motor vehicle of a regulation related to commercial motor vehicle safety only because the operations of the person or vehicle are entirely in a municipality or commercial zone of a municipality.

(2) If a person was authorized to operate a commercial motor vehicle in a municipality or commercial zone of a municipality in the United States for the entire period from November 19, 1987, through November 18, 1988, and if the person is otherwise qualified to operate a commercial motor vehicle, the person may operate a commercial motor vehicle entirely in a municipality or commercial zone of a municipality notwithstanding—

(A) paragraph (1) of this subsection;

(B) a minimum age requirement of the United States Government for operation of the vehicle; and

(C) a medical or physical condition that—

(i) would prevent an operator from operating a commercial motor vehicle under the commercial motor vehicle safety regulations in title 49, Code of Federal Regulations;

(ii) existed on July 1, 1988;

(iii) has not substantially worsened; and

(iv) does not involve alcohol or drug abuse.

(3) This subsection does not affect a State commercial motor vehicle safety law applicable to intrastate commerce.

(d) CONSIDERATIONS.—Before prescribing or revising any requirement under this section, the Secretary shall consider the costs and benefits of the requirement.

(C) the driver has at least 10 consecutive hours off duty following each 14 hours on duty;

3102(b)(2)	49:304(a)(3) (1st sentence). 49:1655(e)(6)(C).	Oct. 15, 1966, Pub. L. 89-670, § 6(e)(6)(C), 80 Stat. 939.
3102(c)	49:304(a)(3a) (1st sentence). 49:1655(e)(6)(C).	Feb. 4, 1887, ch. 104, 24 Stat. 379, § 204(a)(3a) (1st sentence); added Aug. 3, 1956, ch. 905, § 2, 70 Stat. 958.

Throughout the chapter, the words “Secretary of Transportation” are substituted for “Interstate Commerce Commission” because 49:1655(e)(6)(B)-(D) transferred the authority of the Interstate Commerce Commission under the provisions restated in this chapter to the Secretary of Transportation.

Subsection (a) is included to maintain the jurisdictional scope of the source provisions from which subsections (b) and (c) of the revised section are taken. Subsections (b) and (c) are based on 49:304 which, as part of 49:ch. 8, is now restated as subchapter II of chapter 105 of the revised title. In addition, 49:303(a)(11) (last sentence) extended the jurisdictional scope of 49:304 as provided in subsection (a) of the revised section.

In subsection (b), before clause (1), the words “and to that end” are omitted as surplus. The word “prescribe” is substituted for “establish” for consistency. The word “reasonable” is omitted as surplus.

In subsection (b)(1), the words “as provided in this chapter” are omitted as unnecessary because of the restatement. The term “motor carrier” is substituted for “common carriers by motor vehicle” and “contract carriers by motor vehicle” because they are inclusive.

In subsection (b)(2), the words “when needed” are substituted for “if need therefor is found” to eliminate unnecessary words.

In subsection (c), the word “prescribe” is substituted for “establish” for consistency. The word “reasonable” is omitted as surplus. The words “for a total distance of” are omitted as unnecessary because of the restatement. The words “at least” are substituted for “more than” for consistency. The word “line” is omitted as surplus. The words “possession of the United States” are added for consistency in the revised title. The words “a foreign country” and “the District of Columbia” are omitted as unnecessary because a carrier crossing the boundary of a foreign country or the District of Columbia into or from the United States would necessarily cross the boundary of a State and be covered by the provision related to a State.

In clause (1), the text of 15:1901(11) is omitted as surplus because the complete title of the Secretary of Transportation is used the first time the term appears in a section. The definition of “property loss reduction standard” is combined with the definition of “bumper standard” because the former term is used only in the

definition of the latter term. Before subclause (A), the words “the purpose of which is” and “eliminate” are omitted as surplus. In subclauses (A) and (B), the words “(or both)” are omitted as surplus. In subclause (A), the word “physical” is omitted as surplus.

In clauses (12) and (13), the words “the Northern Mariana Islands” are added because of section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94–241, 90 Stat. 268), and as proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593). The words “the Canal Zone” are omitted because of the Panama Canal Treaty of 1977.

In clause (12), the word “means” is substituted for “includes” as being more appropriate. The words “a State of the United States” are substituted for “each of the several States” for consistency in the revised title and with other titles of the United States Code.

In clause (13), the words “of the Commonwealth of Puerto Rico” are omitted as surplus because the district court of Puerto Rico is a district court of the United States under 28:119.

PUB. L. 103–429

This makes a conforming amendment to 49:32101 necessary because of the amendment to 49:32304(a)(11) made by section 6(29) of the bill and to clarify the restatement of 15:1901 by section 1 of the Act of July 5, 1994 (Public Law 103–272, 108 Stat. 1034).

(B) to prominently print the information described in subparagraph (A) within the owner’s manual; and

(C) to not place such information on the label required under section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232).

(2) APPLICATION.—The requirements under paragraph (1) shall apply to passenger motor vehicles manufactured in any model year beginning more than 1 year after the date on which a final rule is published under paragraph (1).

§ 32304. Passenger motor vehicle country of origin labeling

(a) **DEFINITIONS.**—In this section—

(1) “allied supplier” means a supplier of passenger motor vehicle equipment that is wholly owned by the manufacturer, or if a joint venture vehicle assembly arrangement, a supplier that is wholly owned by one member of the joint venture arrangement.

(2)(A) “carline”—

(i) means a name given a group of passenger motor vehicles that has a degree of commonality in construction such as body and chassis;

(ii) does not consider a level of decor or opulence; and

(iii) except for light duty trucks, is not generally distinguished by characteristics such as roof line, number of doors, seats, or windows; and

(B) light duty trucks are different carlines than passenger motor vehicles.

(3) “country of origin”, when referring to the origin of an engine or transmission, means the country from which the largest share of the dollar value added to an engine or transmission has originated—

(A) with the United States and Canada treated as separate countries; and

(B) the estimate of the percentage of the dollar value shall be based on the purchase price of direct materials, as received at individual engine or transmission plants, of engines of the same displacement and transmissions of the same transmission type, plus the assembly and labor costs incurred for the final assembly of such engines and transmissions.

(4) “dealer” means a person residing or located in the United States, including the District of Columbia or a territory or possession of the United States, and engaged in selling or distributing new passenger motor vehicles to the ultimate purchaser.

(5) “final assembly place” means the plant, factory, or other place at which a new passenger motor vehicle is produced or assembled by a manufacturer, and from which the vehicle is delivered to a dealer or importer with all component parts necessary for the mechanical operation of the vehicle included with the vehicle, whether or not the component parts are permanently installed in or on the vehicle. Such term does not include facilities for engine and transmission fabrication and assembly and the facilities for fabrication of motor vehicle equipment component parts which are produced at the same final assembly place using forming processes such as stamping, machining, or molding processes.

(6) “foreign content” means passenger motor vehicle equipment that is not of United States/Canadian origin.

(7) “manufacturer” means a person—

(A) engaged in manufacturing or assembling new passenger motor vehicles;

(B) importing new passenger motor vehicles for resale; or

(C) acting for and under the control of such a manufacturer, assembler, or importer in connection with the distribution of new passenger motor vehicles.

(8) “new passenger motor vehicle” means a passenger motor vehicle for which a manufacturer, distributor, or dealer has never transferred the equitable or legal title to the vehicle to an ultimate purchaser.

(9) “of United States/Canadian origin”, when referring to passenger motor vehicle equipment, means—

(A) for an outside supplier—

(i) the full purchase price of passenger motor vehicle equipment whose purchase price contains at least 70 percent value added in the United States and Canada; or

(ii) that portion of the purchase price of passenger motor vehicle equipment con-

taining less than 70 percent value added in the United States and Canada that is attributable to the percent value added in the United States and Canada when such percent is expressed to the nearest 5 percent; and

(B) for an allied supplier, that part of the individual passenger motor vehicle equipment whose purchase price the manufacturer determines remains after subtracting the total of the purchase prices of all material of foreign content purchased from outside suppliers, with the determination of the United States/Canadian origin or of the foreign content from outside suppliers being consistent with subclause (A) of this clause.

(10) “outside supplier” means a supplier of passenger motor vehicle equipment to a manufacturer’s allied supplier, or a person other than an allied supplier, who ships directly to the manufacturer’s final assembly place.

(11) “passenger motor vehicle” has the same meaning given that term in section 32101(10) of this title, except that it includes any multipurpose vehicle or light duty truck when that vehicle or truck is rated at not more than 8,500 pounds gross vehicle weight.

(12) “passenger motor vehicle equipment”—

(A) means a system, subassembly, or component received at the final vehicle assembly place for installation on, or attachment to, a passenger motor vehicle at the time of its first shipment by the manufacturer to a dealer for sale to an ultimate purchaser; but

(B) does not include minor parts (including nuts, bolts, clips, screws, pins, braces, and other attachment hardware) and other similar items the Secretary of Transportation may prescribe by regulation after consulting with manufacturers and labor.

(13) “percentage (by value)”, when referring to passenger motor vehicle equipment of United States/Canadian origin, means the percentage remaining after subtracting the percentage (by value) of passenger motor vehicle equipment that is not of United States/Canadian origin that will be installed or included on those vehicles produced in a carline, from 100 percent—

(A) with value being expressed in terms of the purchase price; and

(B) for outside suppliers and allied suppliers, the value used is the purchase price of the equipment paid at the final assembly place.

(14) “State” means a State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, Guam, American Samoa, and the Virgin Islands.

(15) “value added in the United States and Canada” means a percentage determined by subtracting the total purchase price of foreign content from the total purchase price, and dividing the remainder by the total purchase price, excluding costs incurred or profits made at the final assembly place and beyond (including advertising, assembly, labor, interest payments, and profits), with the following groupings being used:

(A) engines of same displacement produced at the same plant.

(B) transmissions of the same type produced at the same plant.

(b) MANUFACTURER REQUIREMENT.—(1) Each manufacturer of a new passenger motor vehicle manufactured after September 30, 1994, and distributed in commerce for sale in the United States, shall establish each year for each model year and cause to be attached in a prominent place on each of those vehicles, at least one label. The label shall contain the following information:

(A) the percentage (by value) of passenger motor vehicle equipment of United States/Canadian origin installed on vehicles in the carline to which that vehicle belongs, identified by the words “U.S./Canadian content”.

(B) the final assembly place for that vehicle by city, State (where appropriate) and country.

(C) if at least 15 percent (by value) of equipment installed on passenger motor vehicles in a carline originated in any country other than the United States and Canada, the names of at least the 2 countries in which the greatest amount (by value) of that equipment originated and the percentage (by value) of the equipment originating in each country.

(D) the country of origin of the engine and the transmission for each vehicle.

(2) At the beginning of each model year, each manufacturer shall establish the percentages required for each carline to be indicated on the label under this subsection. Those percentages are applicable to that carline for the entire model year. A manufacturer may round those percentages to the nearest 5 percent.

(3) A manufacturer complying with the requirement of paragraph (1)(B) of this subsection satisfies the disclosure requirement of section 3(b) of the Automobile Information Disclosure Act (15 U.S.C. 1232(b)).

(c) VEHICLE CONTENT PERCENTAGE BY ASSEMBLY PLANT.—A manufacturer may display separately on the label required by subsection (b) the domestic content of a vehicle based on the assembly plant. Such display shall occur after the matter required to be in the label by subsection (b)(1)(A).

(d) VALUE ADDED DETERMINATION.—If a manufacturer or allied supplier requests information in a timely manner from one or more of its outside suppliers concerning the United States/Canadian content of particular equipment, but does not receive that information despite a good faith effort to obtain it, the manufacturer or allied supplier may make its own good faith value added determinations, subject to the following:

(1) The manufacturer or allied supplier shall make the same value added determinations as would be made by the outside supplier, that is, whether 70 percent or more of the value of equipment is added in the United States and/or Canada.

(2) The manufacturer or allied supplier shall consider the amount of value added and the location in which the value was added for all of the stages that the outside supplier would be required to consider.

(3) The manufacturer or allied supplier may determine that the value added in the United States and/or Canada is 70 percent or more only if it has a good faith basis to make that determination.

(4) A manufacturer and its allied suppliers may, on a combined basis, make value added determinations for no more than 10 percent, by value, of a carline's total parts content from outside suppliers.

(5) Value added determinations made by a manufacturer or allied supplier under this paragraph shall have the same effect as if they were made by the outside supplier.

(6) This provision does not affect the obligation of outside suppliers to provide the requested information.

(e) **SMALL PARTS.**—The country of origin of nuts, bolts, clips, screws, pins, braces, gasoline, oil, blackout, phosphate rinse, windshield washer fluid, fasteners, tire assembly fluid, rivets, adhesives, and grommets, of any system, sub-assembly, or component installed in a vehicle shall be considered to be the country in which such parts were included in the final assembly of such vehicle.

(f) **DEALER REQUIREMENT.**—Each dealer engaged in the sale or distribution of a new passenger motor vehicle manufactured after September 30, 1994, shall cause to be maintained on that vehicle the label required to be attached to that vehicle under subsection (b) of this section.

(g) **FORM AND CONTENT OF LABEL.**—The Secretary of Transportation shall prescribe by regulation the form and content of the label required under subsection (b) of this section and the manner and location in which the label is attached. The Secretary shall permit a manufacturer to comply with this section by allowing the manufacturer to disclose the information required under subsection (b)(1) on the label required by section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232), on the label required by section 32908 of this title, or on a separate label that is readily visible. A manufacturer may add to the label required under subsection (b) a line stating the country in which vehicle assembly was completed.

(h) **REGULATIONS.**—In consultation with the Secretaries of Commerce and the Treasury, the Secretary of Transportation shall prescribe regulations necessary to carry out this section, including regulations establishing a procedure to verify the label information required under subsection (b)(1) of this section. Those regulations shall provide the ultimate purchaser of a new passenger motor vehicle with the best and most understandable information possible about the foreign content and United States/Canadian origin of the equipment of the vehicles without imposing costly and unnecessary burdens on the manufacturers. The Secretary of Transportation shall prescribe the regulations promptly to provide adequate lead time for each manufacturer to comply with this section. The regulations shall include provisions applicable to outside suppliers and allied suppliers to require those suppliers to certify whether passenger motor vehicle equipment provided by those suppliers is of United States origin, of United States/Canadian origin, or of foreign content and to provide

other information the Secretary of Transportation decides is necessary to allow each manufacturer to comply reasonably with this section and to rely on that certification and information.

(i) **PREEMPTION.**—(1) When a label content requirement prescribed under this section is in effect, a State or a political subdivision of a State may not adopt or enforce a law or regulation related to the content of vehicles covered by a requirement under this section.

(2) A State or a political subdivision of a State may prescribe requirements related to the content of passenger motor vehicles obtained for its own use.

In this section, the words “passenger motor vehicle” and “vehicle” are substituted for “automobile” because the defined terms used in the operative provisions of the law being restated are “passenger motor vehicle” and “new passenger motor vehicle”. The words “final assembly place” are substituted for “final assembly point” for clarity and consistency in the revised title and with other titles of the United States Code.

In subsection (a)(2)(A)(i), the word “given” is substituted for “denoting” for clarity. The words “passenger motor” are added for clarity and consistency in the revised section.

In section (a)(2)(A)(ii), the words “decor or opulence” are substituted for “decor of opulence” for clarity.

In subsection (a)(3), before subclause (A), the words “from which the largest share of the dollar value added to . . . has originated” are substituted for “in which 50 percent or more of the dollar value added of . . . originated. If no country accounts for 50 percent or more of the dollar value, then the country of origin is the country from which the largest share of the value added originated” for clarity and to eliminate unnecessary words. In subclause (A), the word “with” is substituted for “For the purpose of determining the country of origin for engines and transmissions” are omitted as unnecessary.

In subsection (a)(4), the word “possession” is added for clarity and consistency in the revised title and with other titles of the Code.

In subsection (a)(5), the words “in such a condition” are omitted as surplus.

In subsection (a)(6), the words “United States/Canadian origin” are substituted for “U.S./Canadian origin” for consistency with the defined term restated in the revised section. The word “foreign” is omitted as being included in “foreign content”.

“U.S./Canadian origin” are omitted as unnecessary because of the defined term “of United States/Canadian origin”. In subclause (A), the words “passenger motor vehicle equipment whose purchase price contains” are substituted for “the purchase price of automotive equipment which contains” for clarity. In subclause (B), the words “that part of the individual passenger motor vehicle equipment whose purchase price the manufacturer determines remains after subtracting the total of the purchase price of all material of foreign content purchased from outside suppliers” are substituted for “the manufacturer shall determine the foreign content of any passenger motor vehicle equipment supplied by the allied supplier by adding up the purchase price of all foreign material purchased from outside suppliers that comprise the individual passenger motor vehicle equipment and subtracting such purchase price from the total purchase price of such equipment” for clarity.

In subsection (a)(10), the word “person” is substituted for “anyone” for clarity and consistency in the revised title.

In subsection (a)(11), the words “a motor vehicle with motive power, manufactured primarily for use on public streets, roads, and highways, and designed to carry not more than 12 individuals . . . not including . . . a motorcycle; or . . . a truck not designed primarily to carry its operator or passengers” are substituted for “has the meaning provided in section 1901(1) of this title” for clarity.

In subsection (a)(15), before subclause (A), the words “‘Value added’ equals” are omitted as unnecessary because of the restatement.

The text of 15:1950(f)(2) is omitted as unnecessary because of 1:1. The text of 15:1950(f)(8) is omitted because the complete title of the Secretary of Transportation is used the first time the term appears in a section.

In subsection (b)(1)(A), the words “to which that vehicle belongs” are added for clarity.

In subsection (b)(3), the text of 15:1950(b)(3) (1st sentence) is omitted as unnecessary because of the source provisions restated in this subsection.

Subsection (c) is substituted for “and each dealer shall cause to be maintained” for clarity and because of the restatement.

In subsection (e), the words “passenger motor vehicle equipment” are substituted for “a component” for clarity and for consistency with the defined term. The text of 15:1950(d) (last sentence) is omitted as unnecessary because of section 32308 of the revised title. (2) ITEMS INCLUDED IN RULE.—The rule-making shall include—

(A) a national tire fuel efficiency rating system for motor vehicle replacement tires to assist consumers in making more educated tire purchasing decisions;

(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

(C) specifications for test methods for manufacturers to use in assessing and rating

tires to avoid variation among test equipment and manufacturers; and

(D) a national tire maintenance consumer education program including,¹ information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency, safety, and durability of replacement tires.

(3) APPLICABILITY.—This section shall apply only to replacement tires covered under section 575.104(c) of title 49, Code of Federal Regulations, in effect on the date of the enactment of the Ten-in-Ten Fuel Economy Act.

(b) PROMULGATION OF REGULATIONS FOR TIRE FUEL EFFICIENCY MINIMUM PERFORMANCE STANDARDS.—

(1) IN GENERAL.—The Secretary, after consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall promulgate regulations for tire fuel efficiency minimum performance standards for—

(A) passenger car tires with a maximum speed capability equal to or less than 149 miles per hour or 240 kilometers per hour; and

(B) passenger car tires with a maximum speed capability greater than 149 miles per hour or 240 kilometers per hour.

(2) TIRE FUEL EFFICIENCY MINIMUM PERFORMANCE STANDARDS.—

(A) STANDARD BASIS AND TEST PROCEDURES.—The minimum performance standards promulgated under paragraph (1) shall be expressed in terms of the rolling resistance coefficient measured using the test procedure specified in section 575.106 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act).²

(B) NO DISPARATE EFFECT ON HIGH PERFORMANCE TIRES.—The Secretary shall ensure that the minimum performance standards promulgated under paragraph (1) will not have a disproportionate effect on passenger car high performance tires with a maximum speed capability greater than 149 miles per hour or 240 kilometers per hour.

(C) APPLICABILITY.—

(i) IN GENERAL.—This subsection applies to new pneumatic tires for use on passenger cars.

(ii) EXCEPTIONS.—This subsection does not apply to light truck tires, deep tread tires, winter-type snow tires, space-saver or temporary use spare tires, or tires with nominal rim diameters of 12 inches or less.

(c) PROMULGATION OF REGULATIONS FOR TIRE WET TRACTION MINIMUM PERFORMANCE STANDARDS.—

(1) IN GENERAL.—The Secretary shall promulgate regulations for tire wet traction minimum performance standards to ensure that passenger tire wet traction capability is not reduced to achieve improved tire fuel efficiency.

(2) TIRE WET TRACTION MINIMUM PERFORMANCE STANDARDS.—

(A) BASIS OF STANDARD.—The minimum performance standards promulgated under paragraph (1) shall be expressed in terms of peak coefficient of friction.

(B) TEST PROCEDURES.—Any test procedure promulgated under this subsection shall be consistent with any test procedure promulgated under subsection (a).

(C) BENCHMARKING.—The Secretary shall conduct testing to benchmark the wet traction performance of tire models available for sale in the United States as of the date of enactment of this Act² to ensure that the minimum performance standards promulgated under paragraph (1) are tailored to—

(2) COMBINED EFFECT OF RULES.—The Secretary shall evaluate the regulations promulgated under subsections (b) and (c) to ensure that compliance with the minimum performance standards promulgated under subsection (b) will not diminish wet traction performance of affected tires.

(3) RULEMAKING DEADLINES.—The Secretary shall promulgate—

(A) the regulations under subsections (b) and (c) not later than 24 months after the date of enactment of this Act;² and

(B) the regulations under subsection (c) not later than the date of promulgation of the regulations under subsection (b).

(e) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

§ 32502. Bumper standards

(a) GENERAL REQUIREMENTS AND NONAPPLICATION.—The Secretary of Transportation shall prescribe by regulation bumper standards for passenger motor vehicles and may prescribe by regulation bumper standards for passenger motor vehicle equipment manufactured in, or imported into, the United States. A standard does not apply to a passenger motor vehicle or passenger motor vehicle equipment—

- (1) intended only for export;
- (2) labeled for export on the vehicle or equipment and the outside of any container of the vehicle or equipment; and
- (3) exported.

(b) LIMITATIONS.—A standard under this section—

- (1) may not conflict with a motor vehicle safety standard prescribed under chapter 301 of this title;
- (2) may not specify a dollar amount for the cost of repairing damage to a passenger motor vehicle; and
- (3) to the greatest practicable extent, may not preclude the attachment of a detachable hitch.

(c) EXEMPTIONS.—For good cause, the Secretary may exempt from all or any part of a standard—

- (1) a multipurpose passenger vehicle;
- (2) a make, model, or class of a passenger motor vehicle manufactured for a special use, if the standard would interfere unreasonably with the special use of the vehicle; or
- (3) a passenger motor vehicle for which an application for an exemption under section 30013(b)¹ of this title has been filed in accordance with the requirements of that section.

(d) COST REDUCTION AND CONSIDERATIONS.—When prescribing a standard under this section, the Secretary shall design the standard to obtain the maximum feasible reduction of costs to the public, considering—

- (1) the costs and benefits of carrying out the standard;
- (2) the effect of the standard on insurance costs and legal fees and costs;
- (3) savings in consumer time and inconvenience; and
- (4) health and safety, including emission standards.

(e) PROCEDURES.—Section 553 of title 5 applies to a standard prescribed under this section. However, the Secretary shall give an interested person an opportunity to make oral and written presentations of information, views, and arguments. A transcript of each oral presentation shall be kept. Under conditions prescribed by the Secretary, the Secretary may conduct a hearing to resolve an issue of fact material to a standard.

(f) EFFECTIVE DATE.—The Secretary shall prescribe an effective date for a standard under this section. That date may not be earlier than the date the standard is prescribed nor later than 18 months after the date the standard is prescribed. However, the Secretary may prescribe a later date when the Secretary submits to Congress and publishes the reasons for the later date. A standard only applies to a passenger motor vehicle or passenger motor vehicle equipment manufactured on or after the effective date.

(g) RESEARCH.—The Secretary shall conduct research necessary to carry out this chapter.

(3) A civil action to enforce a subpoena or order of the Secretary under this subsection may be brought in the United States district court for any judicial district in which the proceeding by the Secretary is conducted. The court may punish a failure to obey an order of the court to comply with the subpoena or order of the Secretary as a contempt of court.

(c) CONFIDENTIALITY OF INFORMATION.—(1) Information obtained by the Secretary under this chapter related to a confidential matter referred to in section 1905 of title 18 may be disclosed only—

(A) to another officer or employee of the United States Government for use in carrying out this chapter; or

In subsection (b), the text of 15:1987(b)(1) is omitted as surplus.

§ 32705. Disclosure requirements on transfer of motor vehicles

(a)(1) DISCLOSURE REQUIREMENTS.—Under regulations prescribed by the Secretary of Transportation that include the way in which information is disclosed and retained under this section, a person transferring ownership of a motor vehicle shall give the transferee the following written disclosure:

(A) Disclosure of the cumulative mileage registered on the odometer.

(B) Disclosure that the actual mileage is unknown, if the transferor knows that the odometer reading is different from the number of miles the vehicle has actually traveled.

(2) A person transferring ownership of a motor vehicle may not violate a regulation prescribed under this section or give a false statement to the transferee in making the disclosure required by such a regulation.

(3) A person acquiring a motor vehicle for resale may not accept a written disclosure under this section unless it is complete.

(4)(A) This subsection shall apply to all transfers of motor vehicles (unless otherwise exempted by the Secretary by regulation), except in the case of transfers of new motor vehicles from a vehicle manufacturer jointly to a dealer and a person engaged in the business of renting or leasing vehicles for a period of 30 days or less.

(B) For purposes of subparagraph (A), the term “new motor vehicle” means any motor vehicle driven with no more than the limited use necessary in moving, transporting, or road testing such vehicle prior to delivery from the vehicle manufacturer to a dealer, but in no event shall the odometer reading of such vehicle exceed 300 miles.

(5) The Secretary may exempt such classes or categories of vehicles as the Secretary deems appropriate from these requirements. Until such time as the Secretary amends or modifies the regulations set forth in 49 CFR 580.6, such regulations shall have full force and effect.

(b) MILEAGE STATEMENT REQUIREMENT FOR LICENSING.—(1) A motor vehicle the ownership of which is transferred may not be licensed for use in a State unless the transferee, in submitting an application to a State for the title on which the license will be issued, includes with the application the transferor's title and, if that title contains the space referred to in paragraph (3)(A)(iii) of this subsection, a statement, signed and dated by the transferor, of the mileage disclosure required under subsection (a) of this section. This paragraph does not apply to a transfer of ownership of a motor vehicle that has not been licensed before the transfer.

(2)(A) Under regulations prescribed by the Secretary, if the title to a motor vehicle issued to a transferor by a State is in the possession of a lienholder when the transferor transfers ownership of the vehicle, the transferor may use a written power of attorney (if allowed by State law) in making the mileage disclosure required under subsection (a) of this section. Regulations prescribed under this paragraph—

(i) shall prescribe the form of the power of attorney;

(ii) shall provide that the form be printed by means of a secure printing process (or other secure process);

(iii) shall provide that the State issue the form to the transferee;

(iv) shall provide that the person exercising the power of attorney retain a copy and submit the original to the State with a copy of the title showing the restatement of the mileage;

(v) may require that the State retain the power of attorney and the copy of the title for an appropriate period or that the State adopt alternative measures consistent with section 32701(b) of this title, after considering the costs to the State;

(vi) shall ensure that the mileage at the time of transfer be disclosed on the power of attorney document;

(vii) shall ensure that the mileage be restated exactly by the person exercising the power of attorney in the space referred to in paragraph (3)(A)(iii) of this subsection;

(viii) may not require that a motor vehicle be titled in the State in which the power of attorney was issued;

(ix) shall consider the need to facilitate normal commercial transactions in the sale or exchange of motor vehicles; and

(x) shall provide other conditions the Secretary considers appropriate.

(B) Section 32709(a) and (b) applies to a person granting or granted a power of attorney under this paragraph.

(3)(A) A motor vehicle the ownership of which is transferred may not be licensed for use in a State unless the title issued by the State to the transferee—

(i) is produced by means of a secure printing process (or other secure process);

(ii) indicates the mileage disclosure required to be made under subsection (a) of this section; and

(iii) contains a space for the transferee to disclose the mileage at the time of a future transfer and to sign and date the disclosure.

(B) Subparagraph (A) of this paragraph does not require a State to verify, or preclude a State from verifying, the mileage information contained in the title.

(c) LEASED MOTOR VEHICLES.—(1) For a leased motor vehicle, the regulations prescribed under subsection (a) of this section shall require written disclosure about mileage to be made by the lessee to the lessor when the lessor transfers ownership of that vehicle.

(2) Under those regulations, the lessor shall provide written notice to the lessee of—

(A) the lessee's mileage disclosure requirements under paragraph (1) of this subsection; and

(B) the penalties for failure to comply with those requirements.

(3) The lessor shall retain the disclosures made by a lessee under paragraph (1) of this subsection for at least 4 years following the date the lessor transfers the leased motor vehicle.

(4) If the lessor transfers ownership of a leased motor vehicle without obtaining possession of the vehicle, the lessor, in making the disclosure required by subsection (a) of this section, may indicate on the title the mileage disclosed by the lessee under paragraph (1) of this subsection unless the lessor has reason to believe that the disclosure by the lessee does not reflect the actual mileage of the vehicle.

(d) STATE ALTERNATE VEHICLE MILEAGE DISCLOSURE REQUIREMENTS.—The requirements of subsections (b) and (c)(1) of this section on the disclosure of motor vehicle mileage when motor vehicles are transferred or leased apply in a State unless the State has in effect alternate motor vehicle mileage disclosure requirements approved by the Secretary. The Secretary shall approve alternate motor vehicle mileage disclosure requirements submitted by a State unless the Secretary decides that the requirements are not consistent with the purpose of the disclosure required by subsection (b) or (c), as the case may be.

(e) AUCTION SALES.—If a motor vehicle is sold at an auction, the auction company conducting the auction shall maintain the following records for at least 4 years after the date of the sale:

(1) the name of the most recent owner of the motor vehicle (except the auction company) and the name of the buyer of the motor vehicle.

(2) the vehicle identification number required under chapter 301 or 331 of this title.

(3) the odometer reading on the date the auction company took possession of the motor vehicle.

(f) APPLICATION AND REVISION OF STATE LAW.—(1) Except as provided in paragraph (2) of this subsection, subsections (b)–(e) of this section apply to the transfer of a motor vehicle after April 28, 1989.

(2) If a State requests, the Secretary shall assist the State in revising its laws to comply

with subsection (b) of this section. If a State requires time beyond April 28, 1989, to revise its laws to achieve compliance, the Secretary, on request of the State, may grant additional time that the Secretary considers reasonable by publishing a notice in the Federal Register. The notice shall include the reasons for granting the additional time. In granting additional time, the Secretary shall ensure that the State is making reasonable efforts to achieve compliance.

(g) ELECTRONIC DISCLOSURES.—

(1) Not later than 18 months after the date of enactment of the Motor Vehicle and Highway Safety Improvement Act of 2012, in carrying out this section, the Secretary shall prescribe regulations permitting any written disclosures or notices and related matters to be provided electronically.

(2) Notwithstanding paragraph (1) and subject to paragraph (3), a State, without approval from the Secretary under subsection (d), may allow for written disclosures or notices and related matters to be provided electronically if—

(A) in compliance with—

(i) the requirements of subchapter 1 of chapter 96 of title 15;¹ or

(ii) the requirements of a State law under section 7002(a) of title 15;¹ and

(B) the disclosures or notices otherwise meet the requirements under this section, including appropriate authentication and security measures.

(3) Paragraph (2) ceases to be effective on the date the regulations under paragraph (1) become effective.

In clause (B), the words “if the transferor knows that the mileage registered by the odometer is incorrect” are substituted for “if the odometer reading is known to the transferor to be different from the number of miles the vehicle has actually traveled” to eliminate unnecessary words.

In subsection (b)(2)(A), before clause (i), the words “Under regulations prescribed by the Secretary” are substituted for “prescribed by rule by the Secretary” for consistency in the revised title and because “rule” is synonymous with “regulation”. The words “to a transferor” are added for clarity. The words “before February 1, 1989” are omitted as expired. The words “in the possession of” are substituted for “physically held by”, and the words “when the transferor transfers ownership of the vehicle” are substituted for “at the time of a transfer of such motor vehicle”, for clarity and consistency. There is no section 408(d)(2)(C) in that Act. Clause (vii) is substituted for “and under reasonable conditions” for clarity and consistency.

In subsection (b)(3)(A), before clause (i), the words “following such transfer” are omitted as surplus. In clause (i), the word “produced” is substituted for “set forth” for clarity. In clause (iii), the words “(in the event of a future transfer)” are omitted as surplus.

In subsection (d), the text of 15:1988(f)(1) (last sentence) is omitted as surplus because of 49:322(a).

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§ 32707. Administrative warrants

(a) DEFINITION.—In this section, “probable cause” means a valid public interest in the effective enforcement of this chapter or a regulation prescribed under this chapter sufficient to justify the inspection or impoundment in the circumstances stated in an application for a warrant under this section.

(b) WARRANT REQUIREMENT AND ISSUANCE.—(1) Except as provided in paragraph (4) of this subsection, an inspection or impoundment under section 32706 of this title may be carried out only after a warrant is obtained.

(2) A judge of a court of the United States or a State court of record or a United States magistrate may issue a warrant for an inspection or impoundment under section 32706 of this title within the territorial jurisdiction of the court or magistrate. The warrant must be based on an affidavit that—

(A) establishes probable cause to issue the warrant; and

(B) is sworn to before the judge or magistrate by an officer or employee who knows the facts alleged in the affidavit.

(3) The judge or magistrate shall issue the warrant when the judge or magistrate decides there is a reasonable basis for believing that probable cause exists to issue the warrant. The warrant must—

(A) identify the premises, property, or motor vehicle to be inspected and the items or type of property to be impounded;

(B) state the purpose of the inspection, the basis for issuing the warrant, and the name of the affiant;

(C) direct an individual authorized under section 32706 of this title to inspect the premises, property, or vehicle for the purpose stated in the warrant and, when appropriate, to impound the property specified in the warrant;

(D) direct that the warrant be served during the hours specified in the warrant; and

(E) name the judge or magistrate with whom proof of service is to be filed.

(4) A warrant under this section is not required when—

(A) the owner, operator, or agent in charge of the premises consents;

(B) it is reasonable to believe that the mobility of the motor vehicle to be inspected makes it impractical to obtain a warrant;

(C) an application for a warrant cannot be made because of an emergency;

(D) records are to be inspected and copied under section 32706(e)(1)(A) of this title; or

(E) a warrant is not constitutionally required.

(c) SERVICE AND IMPOUNDMENT OF PROPERTY.—

(1) A warrant issued under this section must be served and proof of service filed not later than 10 days after its issuance date. The judge or magistrate may allow additional time in the warrant if the Secretary of Transportation demonstrates a need for additional time. Proof of service must be filed promptly with a written inventory of the property impounded under the warrant. The inventory shall be made in the presence of the individual serving the warrant and the individual from whose possession or premises the property was impounded, or if that individual is not present, a credible individual except the individual making the inventory. The individual serving the warrant shall verify the inventory. On request, the judge or magistrate shall send a copy of the inventory to the individual from whose possession or premises the property was impounded and to the applicant for the warrant.

(2) When property is impounded under a warrant, the individual serving the warrant shall—

(A) give the person from whose possession or premises the property was impounded a copy of the warrant and a receipt for the property; or

(B) leave the copy and receipt at the place from which the property was impounded.

(3) The judge or magistrate shall file the warrant, proof of service, and all documents filed

about the warrant with the clerk of the United States district court for the judicial district in which the inspection is made.

§ 32709. Penalties and enforcement

(a) CIVIL PENALTY.—(1) A person that violates this chapter or a regulation prescribed or order issued under this chapter is liable to the United States Government for a civil penalty of not more than \$10,000 for each violation. A separate violation occurs for each motor vehicle or device involved in the violation. The maximum penalty under this subsection for a related series of violations is \$1,000,000.

(2) The Secretary of Transportation shall impose a civil penalty under this subsection. The

Attorney General shall bring a civil action to collect the penalty. Before referring a penalty claim to the Attorney General, the Secretary may compromise the amount of the penalty. Before compromising the amount of the penalty, the Secretary shall give the person charged with a violation an opportunity to establish that the violation did not occur.

(3) In determining the amount of a civil penalty under this subsection, the Secretary shall consider—

- (A) the nature, circumstances, extent, and gravity of the violation;
- (B) with respect to the violator, the degree of culpability, any history of prior violations, the ability to pay, and any effect on the ability to continue doing business; and
- (C) other matters that justice requires.

(b) CRIMINAL PENALTY.—A person that knowingly and willfully violates this chapter or a regulation prescribed or order issued under this chapter shall be fined under title 18, imprisoned for not more than 3 years, or both. In subsection (a)(1), the words “that violates this chapter” are substituted for “who commits any act or causes to be done any act that violates any provision of this subchapter or omits to do any act or causes to be omitted any act that is required by any such provision” in 15:1990b(a) for consistency and to eliminate unnecessary words. The words “or a regulation prescribed or order issued under this chapter” are substituted for “No transferor shall violate any rule prescribed under this section” in 15:1988 for consistency in the revised title and because “rule” is synonymous with “regulations”. The words “A separate violation occurs for each motor vehicle or device involved in the violation” are substituted for “A violation of any such provision shall, for purposes of this section, constitute a separate violation with respect to each motor vehicle or device involved” in 15:1990b(a) to eliminate unnecessary words.

In subsection (a)(2), the words “on behalf of the United States” are omitted as surplus. The words “or a regulation prescribed or order issued under this chapter” are substituted for “No transferor shall violate any rule prescribed under this section” in 15:1988 for consistency in the revised title and because “rule” is synonymous with “regulation”. The words “fined under title 18” are substituted for “fined not more than \$50,000” for consistency with title 18. The words “an act in violation of” are substituted for “any of the acts or practices constituting in whole or in part a violation of” to eliminate unnecessary words.

In subsections (c) and (d), the word “enjoin” is substituted for “restrain” for consistency.

In subsection (c), the words “The United States district courts shall have jurisdiction” are omitted because of 28:1331. The words “for cause shown and subject to the provisions of rule 65(a) and (b) of the Federal Rules of Civil Procedure” are omitted as surplus because the rules apply in the absence of an exemption from them. The words “the violation occurred” are substituted for “wherein any act, omission, or transaction constituting the violation occurred”, and the word “resides” is substituted for “is an inhabitant”, to eliminate unnecessary words. The words “may be served in” are substituted for “may run into” for clarity.

In subsection (d)(1), before clause (A), the words “this chapter or a regulation prescribed or order issued under this chapter” are substituted for “requirement imposed under this subchapter” for consistency. The words “civil action” are substituted for “any action” for con-

sistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.).

In subsection (d)(2), the words “without regard to the amount in controversy” are omitted because jurisdiction is now allowed under 28:1331 without regard to the amount in controversy. The words “United States district court” are substituted for “district court of the United States” for consistency with the definition in section 32101 of the revised title and with other provisions of the chapter.

(C) a work truck.

(4) “automobile manufactured by a manufacturer” includes every automobile manufactured by a person that controls, is controlled by, or is under common control with the manufacturer, but does not include an automobile manufactured by the person that is exported not later than 30 days after the end of the model year in which the automobile is manufactured.

In this chapter, the word “model” is substituted for “model type” for consistency in this part.

In subsection (a)(3), before clause (A), the words “except as provided in section 32908 of this title” are added for clarity. The word “line” is added for consistency in the revised title and with other titles of the United States Code. The words “or rails” are omitted because of 1:1. The text of 15:2001(1) (last sentence) is omitted because of 49:322(a). The text of 15:2001(13) and (14) is omitted as surplus because the complete names of the Secretary of Transportation and Administrator of the Environmental Protection Agency are used the first time the terms appear in a section. The text of 15:2001 (related to 15:2011) is omitted because 15:2011 is outside the scope of the restatement. See section 4(c) of the bill.

In subsection (a)(4), the words “‘automobile manufactured by a manufacturer’ includes” are substituted for “Any reference in this subchapter to automobiles manufactured by a manufacturer shall be deemed—(1) to include” to eliminate unnecessary words. The word “every” is substituted for “all” because of the restatement. The words “but does not include” are substituted for “to exclude” for consistency. The words “manufactured by the person” are substituted for “manufactured (within the meaning of paragraph (1))” to eliminate unnecessary words.

In subsection (a)(10), the words “in accordance with procedures established” are omitted as surplus.

In subsection (a)(14), the word “particular” is omitted as surplus.

Subsection (a)(15)(B) is substituted for “If a manufacturer has no annual production period, the term ‘model year’ means the calendar year” to eliminate unnecessary words.

In subsection (a)(16), before clause (A), the words “but does not include an automobile capable of off-highway operation that” are substituted for “(other than an automobile capable of off-highway operation)”

and “The term ‘automobile capable of off-highway operation’ means any automobile which” to eliminate unnecessary words.

In subsection (b), the words “The Secretary may prescribe regulations changing the percentage . . . to not less than 70 percent because of” are substituted for “but not less than 70 percent, as determined by the Secretary, by rule, to provide for” for clarity and because of the restatement.

In subsection (c)(1), the words “For purposes of the definitions in paragraph (1)(D)” are omitted as unnecessary because of the restatement. The words “within 18 months after October 14, 1988” are omitted as obsolete. The words “prescribe by regulation” are substituted for “establish by rule of general applicability” for clarity and consistency in the revised title and with other titles of the United States Code and because “rule” is synonymous with “regulation”. The words “that are passenger automobiles” are substituted for “The rule issued under this subparagraph shall apply only to dual fueled automobiles that are passenger automobiles” to eliminate unnecessary words.

§ 32902. Average fuel economy standards

(a) PRESCRIPTION OF STANDARDS BY REGULATION.—At least 18 months before the beginning of each model year, the Secretary of Transportation shall prescribe by regulation average fuel economy standards for automobiles manufactured by a manufacturer in that model year. Each standard shall be the maximum feasible average fuel economy level that the Secretary decides the manufacturers can achieve in that model year.

(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Secretary

of Energy and the Administrator of the Environmental Protection Agency, shall prescribe separate average fuel economy standards for—

(A) passenger automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with this subsection;

(B) non-passenger automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with this subsection; and

(C) work trucks and commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

(2) FUEL ECONOMY STANDARDS FOR AUTOMOBILES.—

(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe a separate average fuel economy standard for passenger automobiles and a separate average fuel economy standard for non-passenger automobiles for each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the total fleet of passenger and non-passenger automobiles manufactured for sale in the United States for that model year.

(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by each fleet of passenger and non-passenger automobiles manufactured for sale in the United States shall be the maximum feasible average fuel economy standard for each fleet for that model year.

(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.

(3) AUTHORITY OF THE SECRETARY.—The Secretary shall—

(A) prescribe by regulation separate average fuel economy standards for passenger and non-passenger automobiles based on 1 or more vehicle attributes related to fuel economy and express each standard in the form of a mathematical function; and

(B) issue regulations under this title prescribing average fuel economy standards for at least 1, but not more than 5, model years.

(4) MINIMUM STANDARD.—In addition to any standard prescribed pursuant to paragraph (3), each manufacturer shall also meet the minimum standard for domestically manufactured passenger automobiles, which shall be the greater of—

(A) 27.5 miles per gallon; or

(B) 92 percent of the average fuel economy projected by the Secretary for the combined domestic and non-domestic passenger automobile fleets manufactured for sale in the United States by all manufacturers in the model year, which projection shall be pub-

lished in the Federal Register when the standard for that model year is promulgated in accordance with this section.

(c) AMENDING PASSENGER AUTOMOBILE STANDARDS.—The Secretary of Transportation may prescribe regulations amending the standard under subsection (b) of this section for a model year to a level that the Secretary decides is the maximum feasible average fuel economy level for that model year. Section 553 of title 5 applies to a proceeding to amend the standard. However, any interested person may make an oral presentation and a transcript shall be taken of that presentation.

(d) EXEMPTIONS.—(1) Except as provided in paragraph (3) of this subsection, on application of a manufacturer that manufactured (whether in the United States or not) fewer than 10,000 passenger automobiles in the model year 2 years before the model year for which the application is made, the Secretary of Transportation may exempt by regulation the manufacturer from a standard under subsection (b) or (c) of this section. An exemption for a model year applies only if the manufacturer manufactures (whether in the United States or not) fewer than 10,000 passenger automobiles in the model year. The Secretary may exempt a manufacturer only if the Secretary—

(A) finds that the applicable standard under those subsections is more stringent than the maximum feasible average fuel economy level that the manufacturer can achieve; and

(B) prescribes by regulation an alternative average fuel economy standard for the passenger automobiles manufactured by the exempted manufacturer that the Secretary decides is the maximum feasible average fuel economy level for the manufacturers to which the alternative standard applies.

(2) An alternative average fuel economy standard the Secretary of Transportation prescribes under paragraph (1)(B) of this subsection may apply to an individually exempted manufacturer, to all automobiles to which this subsection applies, or to classes of passenger automobiles, as defined under regulations of the Secretary, manufactured by exempted manufacturers.

(3) Notwithstanding paragraph (1) of this subsection, an importer registered under section 30141(c) of this title may not be exempted as a manufacturer under paragraph (1) for a motor vehicle that the importer—

(A) imports; or

(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 of this title for an individual under section 30142 of this title.

(4) The Secretary of Transportation may prescribe the contents of an application for an exemption.

(e) EMERGENCY VEHICLES.—(1) In this subsection, “emergency vehicle” means an automobile manufactured primarily for use—

(A) as an ambulance or combination ambulance-hearse;

(B) by the United States Government or a State or local government for law enforcement; or

(C) for other emergency uses prescribed by regulation by the Secretary of Transportation.

(2) A manufacturer may elect to have the fuel economy of an emergency vehicle excluded in applying a fuel economy standard under subsection (a), (b), (c), or (d) of this section. The election is made by providing written notice to the Secretary of Transportation and to the Administrator of the Environmental Protection Agency.

(f) CONSIDERATIONS ON DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—When deciding maximum feasible average fuel economy under this section, the Secretary of Transportation shall consider technological feasibility, economic practicability, the effect of other motor vehicle standards of the Government on fuel economy, and the need of the United States to conserve energy.

(g) REQUIREMENTS FOR OTHER AMENDMENTS.—(1) The Secretary of Transportation may prescribe regulations amending an average fuel economy standard prescribed under subsection (a) or (d) of this section if the amended standard meets the requirements of subsection (a) or (d), as appropriate.

(2) When the Secretary of Transportation prescribes an amendment under this section that makes an average fuel economy standard more stringent, the Secretary shall prescribe the amendment (and submit the amendment to Congress when required under subsection (c)(2) of this section) at least 18 months before the beginning of the model year to which the amendment applies.

(h) LIMITATIONS.—In carrying out subsections (c), (f), and (g) of this section, the Secretary of Transportation—

(1) may not consider the fuel economy of dedicated automobiles;

(2) shall consider dual fueled automobiles to be operated only on gasoline or diesel fuel; and

(3) may not consider, when prescribing a fuel economy standard, the trading, transferring, or availability of credits under section 32903.

(i) CONSULTATION.—The Secretary of Transportation shall consult with the Secretary of Energy in carrying out this section and section 32903 of this title.

(j) SECRETARY OF ENERGY COMMENTS.—(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (a), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy at least 10 days from the receipt of the notice during which the Secretary of Energy may, if the Secretary of Energy concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.

(2) Before taking final action on a standard or an exemption from a standard under this sec-

tion, the Secretary of Transportation shall notify the Secretary of Energy and provide the Secretary of Energy a reasonable time to comment.

(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES AND WORK TRUCKS.—

(1) STUDY.—Not later than 1 year after the National Academy of Sciences publishes the results of its study under section 108 of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and work trucks and determine—

(A) the appropriate test procedures and methodologies for measuring the fuel efficiency of such vehicles and work trucks;

(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and work trucks and types of operations in which they are used;

(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that affect commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency; and

(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency.

(2) RULEMAKING.—Not later than 24 months after completion of the study required under paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking proceeding how to implement a commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt and implement appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles and work trucks. The Secretary may prescribe separate standards for different classes of vehicles under this subsection.

(3) LEAD-TIME; REGULATORY STABILITY.—The commercial medium- and heavy-duty on-highway vehicle and work truck fuel economy standard adopted pursuant to this subsection shall provide not less than—

(A) 4 full model years of regulatory lead-time; and

(B) 3 full model years of regulatory stability.

32902(j)	15:2002(i) (2d, last sentences), (j).	

In subsection (a), the words “Any standard applicable to a model year under this subsection shall be prescribed” are omitted as surplus. The words “which begins more than 30 months after December 22, 1975” are omitted as executed.

In subsection (b), the text of 15:2002(a)(1) (related to model years before 1985) and (3) is omitted as expired. The words “at least” are omitted as unnecessary because of the source provisions restated in subsection (c) of this section.

In subsection (c)(1), the words “Subject to paragraph (2) of this subsection” are added for clarity. The words “may prescribe regulations amending” are substituted for “may, by rule, amend” for clarity and consistency in the revised title and because “rule” is synonymous with “regulation”. The words “for a model year” are substituted for “for model year 1985, or for any subsequent model year” to eliminate the expired limitation. The reference in 15:2002(h) to 15:2002(d) is omitted because 15:2002(d) is omitted from the revised title as executed. The words “as well as written” are omitted as surplus.

In subsection (c)(2), the words “If an amendment increases the standard . . . or decreases the standard” are substituted for “except that any amendment that has the effect of increasing . . . a standard . . . , or of decreasing . . . a standard” to eliminate unnecessary words. The words “For purposes of considering any modification which is submitted to the Congress under paragraph (4)” are omitted as surplus. The words “are deemed to be” are substituted for “shall be lengthened to” for clarity and consistency.

In subsection (d)(1), before clause (A), the words “Except as provided in paragraph (3) of this subsection” are added because of the restatement. The words “in the model year 2 years before” are substituted for “in the second model year preceding” for clarity. The words “The Secretary may exempt a manufacturer only if the Secretary” are substituted for “Such exemption may only be granted if the Secretary” and “The Secretary may not issue exemptions with respect to a model year unless he” to eliminate unnecessary words. The words

“each such standard shall be set at a level which” are omitted as surplus.

In subsection (d)(3), before clause (A), the words “Notwithstanding paragraph (1) of this subsection” are substituted for “Notwithstanding any provision of law authorizing exemptions from energy conservation requirements for manufacturers of fewer than 10,000 motor vehicles” to eliminate unnecessary words. In clause (B), the word “compliance” is substituted for “conformity” for consistency with chapter 301 of the revised title. The words “prescribed under chapter 301 of this title” are substituted for “Federal” for consistency in the revised title.

Subsection (d)(4) is substituted for 15:2002(c)(1) (2d sentence) to eliminate unnecessary words. The text of 15:2002(c)(2) is omitted as expired.

In subsection (e)(1)(B), the words “police or other” are omitted as unnecessary because the authority to prescribe standards includes the authority to amend those standards.

In subsection (g)(1), the words “from time to time” are omitted as unnecessary. The cross-reference to 15:2002(a)(3) is omitted as executed because 15:2002(a)(3) applied to model years 1981–1984.

In subsection (g)(2), the words “that makes” are substituted for “has the effect of making” to eliminate unnecessary words.

In subsection (i), the words “his responsibilities under” are omitted as surplus.

In subsection (j), the reference to 15:2002(d) and the words “or any modification of” are omitted because 15:2002(d) is omitted from the revised title as executed.

In subsection (j)(1), the words “to prescribe or amend” are substituted for “to establish, reduce, or amend” to eliminate unnecessary words. The words “adverse impact” are substituted for “level” for clarity and consistency. The words “those comments” are substituted for “unaccommodated comments” for clarity.

THE ENERGY INDEPENDENCE AND SECURITY ACT OF 2007

Memorandum of President of the United States, Jan. 26, 2009, 74 F.R. 4907, provided:

Memorandum for the Secretary of Transportation [and] the Administrator of the National Highway Traffic Safety Administration

In 2007, the Congress passed the Energy Independence and Security Act (EISA). This law mandates that, as part of the Nation’s efforts to achieve energy independence, the Secretary of Transportation prescribe annual fuel economy increases for automobiles, beginning with model year 2011, resulting in a combined fuel economy fleet average of at least 35 miles per gallon by model year 2020. On May 2, 2008, the National Highway Traffic Safety Administration (NHTSA) published a Notice of Proposed Rulemaking entitled *Average Fuel Economy Standards, Passenger Cars and Light Trucks; Model Years 2011–2015*, 73 Fed. Reg. 24352. In the notice and comment period, the NHTSA received numerous comments, some of them contending that certain aspects of the proposed rule, including appendices providing for preemption of State laws, were inconsistent with provisions of EISA

and the Supreme Court’s decision in *Massachusetts v. Environmental Protection Agency*, 549 U.S. 497 (2007).

Federal law requires that the final rule regarding fuel economy standards be adopted at least 18 months before the beginning of the model year (49 U.S.C. 32902(g)(2)). In order for the model year 2011 standards to meet this requirement, the NHTSA must publish the final rule in the Federal Register by March 30, 2009. To date, the NHTSA has not published a final rule.

Therefore, I request that:

(a) in order to comply with the EISA requirement that fuel economy increases begin with model year 2011, you take all measures consistent with law, and in coordination with the Environmental Protection Agency, to publish in the Federal Register by March 30, 2009, a final rule prescribing increased fuel economy for model year 2011;

(b) before promulgating a final rule concerning model years after model year 2011, you consider the appropriate legal factors under the EISA, the comments filed in response to the Notice of Proposed Rulemaking, the relevant technological and scientific considerations, and to the extent feasible, the forthcoming report by the National Academy of Sciences mandated under section 107 of EISA; and

(c) in adopting the final rules in paragraphs (a) and (b) above, you consider whether any provisions regarding preemption are consistent with the EISA, the Supreme Court’s decision in *Massachusetts v. EPA* and other relevant provisions of law and the policies underlying them.

This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

The Secretary of Transportation is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

IMPROVING ENERGY SECURITY, AMERICAN COMPETITIVENESS AND JOB CREATION, AND ENVIRONMENTAL PROTECTION THROUGH A TRANSFORMATION OF OUR NATION’S FLEET OF CARS AND TRUCKS

Memorandum of President of the United States, May 21, 2010, 75 F.R. 29399, provided:

Memorandum for the Secretary of Transportation[,] the Secretary of Energy[,] the Administrator of the Environmental Protection Agency[, and] the Administrator of the National Highway Traffic Safety Administration

America has the opportunity to lead the world in the development of a new generation of clean cars and trucks through innovative technologies and manufacturing that will spur economic growth and create high-quality domestic jobs, enhance our energy security, and improve our environment. We already have made significant strides toward reducing greenhouse gas pollution and enhancing fuel efficiency from motor vehicles with the joint rulemaking issued by the National Highway Traffic Safety Administration (NHTSA) and the Environmental Protection Agency (EPA) on April 1, 2010, which regulates these attributes of passenger cars and light-duty trucks for model years 2012–2016. In this memorandum, I request that additional coordinated steps be taken to produce a new generation of clean vehicles.

SECTION 1. *Medium- and Heavy-Duty Trucks.*

While the Federal Government and many States have now created a harmonized framework for addressing the fuel economy of and greenhouse gas emissions from cars and light-duty trucks, medium- and heavy-duty trucks and buses continue to be a major source of fossil fuel consumption and greenhouse gas pollution. I therefore request that the Administrators of the EPA and the NHTSA immediately begin work on a joint rulemaking under the Clean Air Act (CAA) and the Energy

Independence and Security Act of 2007 (EISA) to establish fuel efficiency and greenhouse gas emissions standards for commercial medium- and heavy-duty vehicles beginning with model year 2014, with the aim of issuing a final rule by July 30, 2011. As part of this rule development process, I request that the Administrators of the EPA and the NHTSA:

(a) Propose and take comment on strategies, including those designed to increase the use of existing technologies, to achieve substantial annual progress in reducing transportation sector emissions and fossil fuel consumption consistent with my Administration's overall energy and climate security goals. These strategies should consider whether particular segments of the diverse heavy-duty vehicle sector present special opportunities to reduce greenhouse gas emissions and increase fuel economy. For example, preliminary estimates indicate that large tractor trailers, representing half of all greenhouse gas emissions from this sector, can reduce greenhouse gas emissions by as much as 20 percent and increase their fuel efficiency by as much as 25 percent with the use of existing technologies;

(b) Include fuel efficiency and greenhouse gas emissions standards that take into account the market structure of the trucking industry and the unique demands of heavy-duty vehicle applications; seek harmonization with applicable State standards; consider the findings and recommendations published in the National Academy of Science report on medium- and heavy-duty truck regulation; strengthen the industry and enhance job creation in the United States; and

(c) Seek input from all stakeholders, while recognizing the continued leadership role of California and other States.

SEC. 2. *Passenger Cars and Light-Duty Trucks.*

Building on the earlier joint rulemaking, and in order to provide greater certainty and incentives for long-term innovation by automobile and light-duty vehicle manufacturers, I request that the Administrators of the EPA and the NHTSA develop, through notice and comment rulemaking, a coordinated national program under the CAA and the EISA to improve fuel efficiency and to reduce greenhouse gas emissions of passenger cars and light-duty trucks of model years 2017–2025. The national program should seek to produce joint Federal standards that are harmonized with applicable State standards, with the goal of ensuring that automobile manufacturers will be able to build a single, light-duty national fleet. The program should also seek to achieve substantial annual progress in reducing transportation sector greenhouse gas emissions and fossil fuel consumption, consistent with my Administration's overall energy and climate security goals, through the increased domestic production and use of existing, advanced, and emerging technologies, and should strengthen the industry and enhance job creation in the United States. As part of implementing the national program, I request that the Administrators of the EPA and the NHTSA:

(a) Work with the State of California to develop by September 1, 2010, a technical assessment to inform the rulemaking process, reflecting input from an array of stakeholders on relevant factors, including viable technologies, costs, benefits, lead time to develop and deploy new and emerging technologies, incentives and other flexibilities to encourage development and deployment of new and emerging technologies, impacts on jobs and the automotive manufacturing base in the United States, and infrastructure for advanced vehicle technologies; and

(b) Take all measures consistent with law to issue by September 30, 2010, a Notice of Intent to Issue a Proposed Rule that announces plans for setting stringent fuel economy and greenhouse gas emissions standards for light-duty vehicles of model year 2017 and beyond, including plans for initiating joint rulemaking and gathering any additional information needed to support regulatory action. The Notice should describe the key elements of the program that the EPA and the NHTSA intend jointly to propose, under their respective statu-

tory authorities, including potential standards that could be practicably implemented nationally for the 2017–2025 model years and a schedule for setting those standards as expeditiously as possible, consistent with providing sufficient lead time to vehicle manufacturers.

SEC. 3. *Cleaner Vehicles and Fuels and Necessary Infrastructure.*

The success of our efforts to achieve enhanced energy security and to protect the environment also depends upon the development of infrastructure and promotion of fuels, including biofuels, which will enable the development and widespread deployment of advanced technologies. Therefore, I further request that:

(a) The Administrator of the EPA review for adequacy the current nongreenhouse gas emissions regulations for new motor vehicles, new motor vehicle engines, and motor vehicle fuels, including tailpipe emissions standards for nitrogen oxides and air toxics, and sulfur standards for gasoline. If the Administrator of the EPA finds that new emissions regulations are required, then I request that the Administrator of the EPA promulgate such regulations as part of a comprehensive approach toward regulating motor vehicles; and [sic]

(b) The Secretary of Energy promote the deployment of advanced technology vehicles by providing technical assistance to cities preparing for deployment of electric vehicles, including plug-in hybrids and all-electric vehicles; and

(c) The Department of Energy work with stakeholders on the development of voluntary standards to facilitate the robust deployment of advanced vehicle technologies and coordinate its efforts with the Department of Transportation, the NHTSA, and the EPA.

SEC. 4. *General Provisions.*

(a) This memorandum shall be implemented consistent with applicable law, including international trade obligations, and subject to the availability of appropriations.

(b) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(c) Nothing in this memorandum shall be construed to impair or otherwise affect:

(1) authority granted by law to a department, agency, or the head thereof; or

(2) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

SEC. 5. *Publication.*

The Secretary of Transportation is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

§ 32903. Credits for exceeding average fuel economy standards

(a) EARNING AND PERIOD FOR APPLYING CREDITS.—When the average fuel economy of passenger automobiles manufactured by a manufacturer in a particular model year exceeds an applicable average fuel economy standard under subsections (a) through (d) of section 32902 (determined by the Secretary of Transportation without regard to credits under this section), the manufacturer earns credits. The credits may be applied to—

(1) any of the 3 consecutive model years immediately before the model year for which the credits are earned; and

(2) to the extent not used under paragraph (1)¹ any of the 5 consecutive model years im-

¹ So in original. Probably should be followed by a comma.

mediately after the model year for which the credits are earned.

(b) PERIOD OF AVAILABILITY AND PLAN FOR FUTURE CREDITS.—(1) Except as provided in paragraph (2) of this subsection, credits under this section are available to a manufacturer at the end of the model year in which earned.

(2)(A) Before the end of a model year, if a manufacturer has reason to believe that its average fuel economy for passenger automobiles will be less than the applicable standard for that model year, the manufacturer may submit a plan to the Secretary of Transportation demonstrating that the manufacturer will earn sufficient credits under this section within the next 3 model years to allow the manufacturer to meet that standard for the model year involved. Unless the Secretary finds that the manufacturer is unlikely to earn sufficient credits under the plan, the Secretary shall approve the plan. Those credits are available for the model year involved if—

- (i) the Secretary approves the plan; and
- (ii) the manufacturer earns those credits as provided by the plan.

(B) If the average fuel economy of a manufacturer is less than the applicable standard under subsections (a) through (d) of section 32902 after applying credits under subsection (a)(1) of this section, the Secretary of Transportation shall notify the manufacturer and give the manufacturer a reasonable time (of at least 60 days) to submit a plan.

(c) DETERMINING NUMBER OF CREDITS.—The number of credits a manufacturer earns under this section equals the product of—

- (1) the number of tenths of a mile a gallon by which the average fuel economy of the passenger automobiles manufactured by the manufacturer in the model year in which the credits are earned exceeds the applicable average fuel economy standard under subsections (a) through (d) of section 32902; times

- (2) the number of passenger automobiles manufactured by the manufacturer during that model year.

(d) APPLYING CREDITS FOR PASSENGER AUTOMOBILES.—The Secretary of Transportation shall apply credits to a model year on the basis of the number of tenths of a mile a gallon by which the manufacturer involved was below the applicable average fuel economy standard for that model year and the number of passenger automobiles manufactured that model year by the manufacturer. Credits applied to a model year are no longer available for another model year. Before applying credits, the Secretary shall give the manufacturer written notice and reasonable opportunity to comment.

(e) APPLYING CREDITS FOR NON-PASSENGER AUTOMOBILES.—Credits for a manufacturer of automobiles that are not passenger automobiles are earned and applied to a model year in which the average fuel economy of that class of automobiles is below the applicable average fuel economy standard under section 32902(a) of this title, to the same extent and in the same way as provided in this section for passenger automobiles.

(f) CREDIT TRADING AMONG MANUFACTURERS.—

(1) IN GENERAL.—The Secretary of Transportation may establish, by regulation, a fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when trading credits to manufacturers that fail to achieve the prescribed standards.

(2) LIMITATION.—The trading of credits by a manufacturer to the category of passenger automobiles manufactured domestically is limited to the extent that the fuel economy level of such automobiles shall comply with the requirements of section 32902(b)(4), without regard to any trading of credits from other manufacturers.

(g) CREDIT TRANSFERRING WITHIN A MANUFACTURER'S FLEET.—

(1) IN GENERAL.—The Secretary of Transportation shall establish by regulation a fuel economy credit transferring program to allow any manufacturer whose automobiles exceed any of the average fuel economy standards prescribed under section 32902 to transfer the credits earned under this section and to apply such credits within that manufacturer's fleet to a compliance category of automobiles that fails to achieve the prescribed standards.

(2) YEARS FOR WHICH USED.—Credits transferred under this subsection are available to be used in the same model years that the manufacturer could have applied such credits under subsections (a), (b), (d), and (e), as well as for the model year in which the manufacturer earned such credits.

(3) MAXIMUM INCREASE.—The maximum increase in any compliance category attributable to transferred credits is—

- (A) for model years 2011 through 2013, 1.0 mile per gallon;
- (B) for model years 2014 through 2017, 1.5 miles per gallon; and
- (C) for model year 2018 and subsequent model years, 2.0 miles per gallon.

(4) LIMITATION.—The transfer of credits by a manufacturer to the category of passenger automobiles manufactured domestically is limited to the extent that the fuel economy level of such automobiles shall comply with the requirements under section 32904(b)(4), without regard to any transfer of credits from other categories of automobiles described in paragraph (6)(B).

(5) YEARS AVAILABLE.—A credit may be transferred under this subsection only if it is earned after model year 2010.

(6) DEFINITIONS.—In this subsection:

(A) FLEET.—The term “fleet” means all automobiles manufactured by a manufacturer in a particular model year.

(B) COMPLIANCE CATEGORY OF AUTOMOBILES.—The term “compliance category of automobiles” means any of the following 3 categories of automobiles for which compliance is separately calculated under this chapter:

- (i) Passenger automobiles manufactured domestically.
- (ii) Passenger automobiles not manufactured domestically.
- (iii) Non-passenger automobiles.

(h) **REFUND OF COLLECTED PENALTY.**—When a civil penalty has been collected under this chapter from a manufacturer that has earned credits under this section, the Secretary of the Treasury shall refund to the manufacturer the amount of the penalty to the extent the penalty is attributable to credits available under this section.

In subsection (a), before clause (1), the text of 15:2002(l)(4) is omitted as surplus because of 49:322(a). The words “any adjustment under subsection (d) of this section” are omitted because 15:2002(d) is omitted from the revised title as executed. The words “calculated under subparagraph (C)” (which apparently should be “calculated under subparagraph (D)”) are omitted as surplus. In clauses (1) and (2), the words “with respect to the average fuel economy of that manufacturer” are omitted as surplus. The words “year for which the credits are earned” are substituted for “year in which such manufacturer exceeds such applicable average fuel economy standard” to eliminate unnecessary words.

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§ 32904. Calculation of average fuel economy

(a) **METHOD OF CALCULATION.**—(1) The Administrator of the Environmental Protection Agency shall calculate the average fuel economy of a manufacturer subject to—

(A) section 32902(a) of this title in a way prescribed by the Administrator; and

(B) section 32902(b)–(d) of this title by dividing—

(i) the number of passenger automobiles manufactured by the manufacturer in a model year; by

(ii) the sum of the fractions obtained by dividing the number of passenger automobiles of each model manufactured by the manufacturer in that model year by the fuel economy measured for that model.

(2)(A) In this paragraph, “electric vehicle” means a vehicle powered primarily by an electric motor drawing electrical current from a portable source.

(B) If a manufacturer manufactures an electric vehicle, the Administrator shall include in the calculation of average fuel economy under paragraph (1) of this subsection equivalent petroleum based fuel economy values determined by the Secretary of Energy for various classes of electric vehicles. The Secretary shall review those values each year and determine and propose necessary revisions based on the following factors:

(i) the approximate electrical energy efficiency of the vehicle, considering the kind of vehicle and the mission and weight of the vehicle.

(ii) the national average electrical generation and transmission efficiencies.

(iii) the need of the United States to conserve all forms of energy and the relative scarcity and value to the United States of all fuel used to generate electricity.

(iv) the specific patterns of use of electric vehicles compared to petroleum-fueled vehicles.

(b) **SEPARATE CALCULATIONS FOR PASSENGER AUTOMOBILES MANUFACTURED DOMESTICALLY AND NOT DOMESTICALLY.**—(1)(A) Except as provided in paragraphs (6) and (7) of this subsection, the Administrator shall make separate calculations under subsection (a)(1)(B) of this section for—

(i) passenger automobiles manufactured domestically by a manufacturer (or included in this category under paragraph (5) of this subsection); and

(ii) passenger automobiles not manufactured domestically by that manufacturer (or excluded from this category under paragraph (5) of this subsection).

(B) Passenger automobiles described in subparagraph (A)(i) and (ii) of this paragraph are deemed to be manufactured by separate manufacturers under this chapter, except for the purposes of section 32903.

(2) In this subsection (except as provided in paragraph (3)), a passenger automobile is deemed to be manufactured domestically in a model year if at least 75 percent of the cost to the manufacturer is attributable to value added in the United States or Canada, unless the as-

sembly of the automobile is completed in Canada and the automobile is imported into the United States more than 30 days after the end of the model year.

(3)(A) In this subsection, a passenger automobile is deemed to be manufactured domestically in a model year, as provided in subparagraph (B) of this paragraph, if at least 75 percent of the cost to the manufacturer is attributable to value added in the United States, Canada, or Mexico, unless the assembly of the automobile is completed in Canada or Mexico and the automobile is imported into the United States more than 30 days after the end of the model year.

(B) Subparagraph (A) of this paragraph applies to automobiles manufactured by a manufacturer and sold in the United States, regardless of the place of assembly, as follows:

(i) A manufacturer that began assembling automobiles in Mexico before model year 1992 may elect, during the period from January 1, 1997, through January 1, 2004, to have subparagraph (A) of this paragraph apply to all automobiles manufactured by that manufacturer beginning with the model year that begins after the date of the election.

(ii) For a manufacturer that began assembling automobiles in Mexico after model year 1991, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 1994, or the model year beginning after the date the manufacturer begins assembling automobiles in Mexico, whichever is later.

(iii) A manufacturer not described in clause (i) or (ii) of this subparagraph that assembles automobiles in the United States or Canada, but not in Mexico, may elect, during the period from January 1, 1997, through January 1, 2004, to have subparagraph (A) of this paragraph apply to all automobiles manufactured by that manufacturer beginning with the model year that begins after the date of the election. However, if the manufacturer begins assembling automobiles in Mexico before making an election under this subparagraph, this clause does not apply, and the manufacturer is subject to clause (ii) of this subparagraph.

(iv) For a manufacturer that does not assemble automobiles in the United States, Canada, or Mexico, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 1994.

(v) For a manufacturer described in clause (i) or (iii) of this subparagraph that does not make an election within the specified period, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 2004.

(C) The Secretary of Transportation shall prescribe reasonable procedures for elections under subparagraph (B) of this paragraph.

(4) In this subsection, the fuel economy of a passenger automobile that is not manufactured domestically is deemed to be equal to the average fuel economy of all passenger automobiles manufactured by the same manufacturer that are not manufactured domestically.

(5)(A) A manufacturer may submit to the Secretary of Transportation for approval a plan, including supporting material, stating the actions and the deadlines for taking the actions, that will ensure that the model or models referred to in subparagraph (B) of this paragraph will be manufactured domestically before the end of the 4th model year covered by the plan. The Secretary promptly shall consider and act on the plan. The Secretary shall approve the plan unless—

(i) the Secretary finds that the plan is inadequate to meet the requirements of this paragraph; or

(ii) the manufacturer previously has submitted a plan approved by the Secretary under this paragraph.

(B) If the plan is approved, the Administrator shall include under paragraph (1)(A)(i) and exclude under paragraph (1)(A)(ii) of this subsection, for each of the 4 model years covered by the plan, not more than 150,000 passenger automobiles manufactured by that manufacturer but not qualifying as domestically manufactured if—

(i) the model or models involved previously have not been manufactured domestically;

(ii) at least 50 percent of the cost to the manufacturer of each of the automobiles is attributable to value added in the United States or Canada;

(iii) the automobiles, if their assembly was completed in Canada, are imported into the United States not later than 30 days after the end of the model year; and

(iv) the model or models are manufactured domestically before the end of the 4th model year covered by the plan.

(C) TESTING AND CALCULATION PROCEDURES.—The Administrator shall measure fuel economy for each model and calculate average fuel economy for a manufacturer under testing and calculation procedures prescribed by the Administrator. However, except under section 32908 of this title, the Administrator shall use the same procedures for passenger automobiles the Administrator used for model year 1975 (weighted 55 percent urban cycle and 45 percent highway cycle), or procedures that give comparable results. A measurement of fuel economy or a calculation of average fuel economy (except under section 32908) shall be rounded off to the nearest .1 of a mile a gallon. The Administrator shall decide on the quantity of other fuel that is equivalent to one gallon of gasoline. To the extent practicable, fuel economy tests shall be carried out with emissions tests under section 206 of the Clean Air Act (42 U.S.C. 7525).

(D) EFFECTIVE DATE OF PROCEDURE OR AMENDMENT.—The Administrator shall prescribe a procedure under this section, or an amendment (except a technical or clerical amendment) in a procedure, at least 12 months before the beginning of the model year to which the procedure or amendment applies.

(E) REPORTS AND CONSULTATION.—The Administrator shall report measurements and calculations under this section to the Secretary of Transportation and shall consult and coordinate with the Secretary in carrying out this section.

In subsection (a)(1), before clause (A), the words “of a manufacturer subject to” are substituted for “for the purposes of” for clarity. In clause (B)(ii), the words “the sum of the fractions obtained by” are substituted for “a sum of terms, each term of which is a fraction created by” to eliminate unnecessary words.

Subsection (a)(2)(A) is substituted for “as defined in section 2012(b)(2) of this title” for clarity.

In subsection (a)(2)(B), before clause (i), the words “the Administrator shall include in the calculation of average fuel economy” are substituted for “the average fuel economy will be calculated . . . to include” for clarity. The text of 15:2003(a)(3)(B) is omitted as executed. The words “determine and propose” are substituted for “propose” for clarity and consistency with the authority of the Secretary under the source provisions. The words “based on the following factors” are substituted for “Determination of these fuel economy values will take into account the following parameters” for clarity and to eliminate unnecessary words. The factors in clauses (i)–(iv) are applied to revisions in fuel economy values for clarity and consistency with the authority of the Secretary under the source provisions. In clause (iv), the words “patterns of use” are substituted for “driving patterns” for clarity.

In subsection (b)(1), before clause (A), the text of 15:2003(b)(2)(A)–(D) is omitted as executed. In clause (A), the words “is imported . . . more than 30 days after” are substituted for “is not imported . . . prior to the expiration of 30 days following” for clarity and for consistency in the revised chapter. The words “The EPA Administrator may prescribe rules for purposes of carrying out this subparagraph” are omitted as surplus because of the authority of the Administrator to prescribe regulations under section 32910(d) of the revised title. The term “regulations” is used in section 32910(d) instead of “rules” for consistency in the revised title and because the terms are synonymous. In clause (B), the words “which is imported by a manufacturer in

model year 1978 or any subsequent year, as the case may be, and” are omitted as surplus.

In subsection (b)(2)(A), before clause (i), the words “Except as provided in paragraphs (4) and (5) of this subsection” are added for clarity. The words “the Administrator shall make separate calculations” are substituted for “In calculating average fuel economy . . . the EPA Administrator shall separate the total number of passenger automobiles manufactured by a manufacturer into the following two categories” and “The EPA Administrator shall calculate the average fuel economy of each such separate category” to eliminate unnecessary words. In clauses (i) and (ii), the reference in the parenthetical to paragraph (3) is substituted for the reference in the source to paragraph (3), which apparently should have been a reference to paragraph (4). The text of 15:2003(b)(1)(A) (words in parentheses) and (B) (words in parentheses) is omitted as executed.

Subsection (b)(2)(B) is substituted for 15:2003(b)(1) (words after last comma) because of the restatement.

In subsection (b)(3)(A), before clause (i), the word “deadlines” is substituted for “dates” for clarity. The text of 15:2003(b)(4)(C) is omitted as executed.

In subsection (b)(4)(A), before clause (i), the words “A manufacturer may file with the Secretary of Transportation a petition for an exemption from the requirement of separate calculations under paragraph (2)(A) of this subsection” are substituted for “petition . . . for an exemption from the provisions of paragraph (1) filed by a manufacturer, the Secretary” for clarity.

In subsection (b)(5)(B), the words “judgment of the court under this subparagraph may be reviewed” are substituted for “judgment of the court affirming, remanding, or setting aside, in whole or in part, any such decision shall be final, subject to review” to eliminate unnecessary words.

In subsection (b)(5)(C), the words “Notwithstanding any other provision of law” are omitted as surplus. The words “a petition for” are added for consistency.

In subsection (c), the words “of a model type” and “of a manufacturer” are omitted as surplus. The words “by rule” are omitted as surplus because of the authority of the Administrator to prescribe regulations under section 32910(d) of the revised title. The term “regulations” is used in section 32910(d) instead of “rules” for consistency in the revised title and because the terms are synonymous. The words “However . . . the Administrator shall use the same procedures for passenger automobiles the Administrator used” are substituted for “Procedures so established with respect to passenger automobiles . . . shall be the procedures utilized by the EPA Administrator” for clarity. The words “(in accordance with rules of the EPA Administrator)” are omitted as surplus. The words “fuel economy tests shall be carried out with” are substituted for “Procedures under this subsection . . . shall require that fuel economy tests be conducted in conjunction with” to eliminate unnecessary words.

In subsection (d), the words “The Administrator shall prescribe a procedure under this section, or an amendment . . . at least” are substituted for “Testing and calculation procedures applicable to a model year and any amendment to such procedures . . . shall be promulgated not less than” to eliminate unnecessary words.

In subsection (e), the words “his duties under” are omitted as surplus.

§ 32905. Manufacturing incentives for alternative fuel automobiles

(a) DEDICATED AUTOMOBILES.—Except as provided in subsection (c) of this section or section 32904(a)(2) of this title, for any model of dedicated automobile manufactured by a manufacturer after model year 1992, the fuel economy measured for that model shall be based on the fuel content of the alternative fuel used to operate the automobile. A gallon of a liquid alternative fuel used to operate a dedicated automobile is deemed to contain .15 gallon of fuel.

(b) DUAL FUELED AUTOMOBILES.—Except as provided in subsection (d) of this section or section 32904(a)(2) of this title, for any model of dual fueled automobile manufactured by a manufacturer in model years 1993 through 2019, the Administrator of the Environmental Protection Agency shall measure the fuel economy for that model by dividing 1.0 by the sum of—

- (1) .5 divided by the fuel economy measured under section 32904(c) of this title when operating the model on gasoline or diesel fuel; and
- (2) .5 divided by the fuel economy—

(A) measured under subsection (a) when operating the model on alternative fuel; or

(B) measured based on the fuel content of B20 when operating the model on B20, which is deemed to contain 0.15 gallon of fuel.

(c) GASEOUS FUEL DEDICATED AUTOMOBILES.—For any model of gaseous fuel dedicated auto-

mobile manufactured by a manufacturer after model year 1992, the Administrator shall measure the fuel economy for that model based on the fuel content of the gaseous fuel used to operate the automobile. One hundred cubic feet of natural gas is deemed to contain .823 gallon equivalent of natural gas. The Secretary of Transportation shall determine the appropriate gallon equivalent of other gaseous fuels. A gallon equivalent of gaseous fuel is deemed to have a fuel content of .15 gallon of fuel.

(d) GASEOUS FUEL DUAL FUELED AUTOMOBILES.—For any model of gaseous fuel dual fueled automobile manufactured by a manufacturer in model years 1993 through 2019, the Administrator shall measure the fuel economy for that model by dividing 1.0 by the sum of—

- (1) .5 divided by the fuel economy measured under section 32904(c) of this title when operating the model on gasoline or diesel fuel; and
- (2) .5 divided by the fuel economy measured under subsection (c) of this section when operating the model on gaseous fuel.

(e) ELECTRIC DUAL FUELED AUTOMOBILES.—

(1) IN GENERAL.—At the request of the manufacturer, the Administrator may measure the fuel economy for any model of dual fueled automobile manufactured after model year 2015 that is capable of operating on electricity in addition to gasoline or diesel fuel, obtains its electricity from a source external to the vehicle, and meets the minimum driving range requirements established by the Secretary for dual fueled electric automobiles, by dividing 1.0 by the sum of—

(A) the percentage utilization of the model on gasoline or diesel fuel, as determined by a formula based on the model's alternative fuel range, divided by the fuel economy measured under section 32904(c); and

(B) the percentage utilization of the model on electricity, as determined by a formula based on the model's alternative fuel range, divided by the fuel economy measured under section 32904(a)(2).

(2) ALTERNATIVE CALCULATION.—If the manufacturer does not request that the Administrator calculate the manufacturing incentive for its electric dual fueled automobiles in accordance with paragraph (1), the Administrator shall calculate such incentive for such automobiles manufactured by such manufacturer after model year 2015 in accordance with subsection (b).

(f) FUEL ECONOMY CALCULATIONS.—The Administrator shall calculate the manufacturer's average fuel economy under section 32904(a)(1) of this title for each model described under subsections (a)–(d) of this section by using as the denominator the fuel economy measured for each model under subsections (a)–(d).

(g) FUEL ECONOMY INCENTIVE REQUIREMENTS.—In order for any model of dual fueled automobile to be eligible to receive the fuel economy incentives included in section 32906(a) and (b), a label shall be attached to the fuel compartment of each dual fueled automobile of that model, notifying that the vehicle can be operated on an alternative fuel and on gasoline or diesel, with the form of alternative fuel stated on the notice.

This requirement applies to dual fueled automobiles manufactured on or after September 1, 2006.

§ 32908. Fuel economy information

(a) DEFINITIONS.—In this section—

(1) “automobile” includes an automobile rated at not more than 8,500 pounds gross vehicle weight regardless of whether the Secretary of Transportation has applied this chapter to the automobile under section 32901(a)(3)(B) of this title.

(2) “dealer” means a person residing or located in a State, the District of Columbia, or a territory or possession of the United States, and engaged in the sale or distribution of new automobiles to the first person (except a dealer buying as a dealer) that buys the automobile in good faith other than for resale.

(b) LABELING REQUIREMENTS AND CONTENTS.—(1) Under regulations of the Administrator of the Environmental Protection Agency, a manufacturer of automobiles shall attach a label to a prominent place on each automobile manufactured in a model year. The dealer shall maintain the label on the automobile. The label shall contain the following information:

(A) the fuel economy of the automobile.

(B) the estimated annual fuel cost of operating the automobile.

(C) the range of fuel economy of comparable automobiles of all manufacturers.

(D) a statement that a booklet is available from the dealer to assist in making a comparison of fuel economy of other automobiles manufactured by all manufacturers in that model year.

(E) the amount of the automobile fuel efficiency tax imposed on the sale of the automobile under section 4064 of the Internal Revenue Code of 1986 (26 U.S.C. 4064).

(F) other information required or authorized by the Administrator that is related to the information required by clauses (A)–(D) of this paragraph.

(2) The Administrator may allow a manufacturer to comply with this subsection by—

(A) disclosing the information on the label required under section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232); and

(B) including the statement required by paragraph (1)(E) of this subsection at a time and in a way that takes into account special circumstances or characteristics.

(3) For dedicated automobiles manufactured after model year 1992, the fuel economy of those automobiles under paragraph (1)(A) of this subsection is the fuel economy for those automobiles when operated on alternative fuel, measured under section 32905(a) or (c) of this title, multiplied by .15. Each label required under paragraph (1) of this subsection for dual fueled automobiles shall—

(A) indicate the fuel economy of the automobile when operated on gasoline or diesel fuel;

(B) clearly identify the automobile as a dual fueled automobile;

(C) clearly identify the fuels on which the automobile may be operated; and

(D) contain a statement informing the consumer that the additional information required by subsection (c)(2) of this section is published and distributed by the Secretary of Energy.

(c) FUEL ECONOMY INFORMATION BOOKLET.—(1) The Administrator shall prepare the booklet referred to in subsection (b)(1)(D) of this section. The booklet—

(A) shall be simple and readily understandable;

(B) shall contain information on fuel economy and estimated annual fuel costs of operating automobiles manufactured in each model year; and

(C) may contain information on geographical or other differences in estimated annual fuel costs.

(2)(A) For dual fueled automobiles manufactured after model year 1992, the booklet pub-

lished under paragraph (1) shall contain additional information on—

- (i) the energy efficiency and cost of operation of those automobiles when operated on gasoline or diesel fuel as compared to those automobiles when operated on alternative fuel; and
- (ii) the driving range of those automobiles when operated on gasoline or diesel fuel as compared to those automobiles when operated on alternative fuel.

(B) For dual fueled automobiles, the booklet published under paragraph (1) also shall contain—

- (i) information on the miles a gallon achieved by the automobiles when operated on alternative fuel; and
- (ii) a statement explaining how the information made available under this paragraph can be expected to change when the automobile is operated on mixtures of alternative fuel and gasoline or diesel fuel.

(3) The Secretary of Energy shall publish and distribute the booklet. The Administrator shall prescribe regulations requiring dealers to make the booklet available to prospective buyers.

(d) DISCLOSURE.—A disclosure about fuel economy or estimated annual fuel costs under this section does not establish a warranty under a law of the United States or a State.

(e) VIOLATIONS.—A violation of subsection (b) of this section is—

- (1) a violation of section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232); and
- (2) an unfair or deceptive act or practice in or affecting commerce under the Federal Trade Commission Act (15 U.S.C. 41 et seq.), except sections 5(m) and 18 (15 U.S.C. 45(m), 57a).

(f) CONSULTATION.—The Administrator shall consult with the Federal Trade Commission and the Secretaries of Transportation and Energy in carrying out this section.

(g) CONSUMER INFORMATION.—

(1) PROGRAM.—The Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall develop and implement by rule a program to require manufacturers—

(A) to label new automobiles sold in the United States with—

- (i) information reflecting an automobile's performance on the basis of criteria that the Administrator shall develop, not later than 18 months after the date of the enactment of the Ten-in-Ten Fuel Economy Act, to reflect fuel economy and greenhouse gas and other emissions over the useful life of the automobile;
- (ii) a rating system that would make it easy for consumers to compare the fuel economy and greenhouse gas and other emissions of automobiles at the point of purchase, including a designation of automobiles—

(I) with the lowest greenhouse gas emissions over the useful life of the vehicles; and

(II) the highest fuel economy; and

(iii) a permanent and prominent display that an automobile is capable of operating on an alternative fuel; and

(B) to include in the owner's manual for vehicles capable of operating on alternative fuels information that describes that capability and the benefits of using alternative fuels, including the renewable nature and environmental benefits of using alternative fuels.

(2) CONSUMER EDUCATION.—

(A) IN GENERAL.—The Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall develop and implement by rule a consumer education program to improve consumer understanding of automobile performance described in paragraph (1)(A)(i) and to inform consumers of the benefits of using alternative fuel in automobiles and the location of stations with alternative fuel capacity.

(B) FUEL SAVINGS EDUCATION CAMPAIGN.—The Secretary of Transportation shall establish a consumer education campaign on the fuel savings that would be recognized from the purchase of vehicles equipped with thermal management technologies, including energy efficient air conditioning systems and glass.

(3) FUEL TANK LABELS FOR ALTERNATIVE FUEL AUTOMOBILES.—The Secretary of Transportation shall by rule require a label to be attached to the fuel compartment of vehicles capable of operating on alternative fuels, with the form of alternative fuel stated on the label. A label attached in compliance with the requirements of section 32905(h)¹ is deemed to meet the requirements of this paragraph.

(4) RULEMAKING DEADLINE.—The Secretary of Transportation shall issue a final rule under this subsection not later than 42 months after the date of the enactment of the Ten-in-Ten Fuel Economy Act.

In this section, references to the Secretary of Energy are substituted for references to the Administrator of the Federal Energy Administration because of 42:7151.

In subsection (a)(1), the words “regardless of whether the Secretary of Transportation has applied this chapter to the automobile” are substituted for “notwithstanding any lack of determination required of the Secretary” for consistency with section 32901(b) of the revised title.

In subsection (a)(2), the words “means a person residing or located in a State, the District of Columbia, or a territory or possession of the United States, and engaged in the sale or distribution of new automobiles to the first person (except a dealer buying as a dealer) that buys the automobile in good faith other than for resale” are substituted for “has the same meaning as such term has in section 2(e) of the Automobile Information Disclosure Act (15 U.S.C. 1231(e))” to include the words of 15:1231(e) and (g) in the subsection for clarity. The words “territory or possession” are substituted for “Territory” for consistency in the revised title and with other titles of the United States Code. The words “except that in applying such term to this section, the term ‘automobile’ has the same meaning as such term has in section 2001(1) of this title (taking into account paragraph (3) of this subsection)” are omitted as surplus.

In subsection (b)(1), before clause (A), the text of 15:2006(a)(2) is omitted as executed. The words “Except as otherwise provided in paragraph (2)” are omitted as surplus because 15:2006(a)(2) is executed and is not part of the revised title. The words “Under regulations of the Administrator of the Environmental Protection Agency” are substituted for “as determined in accordance with rules of the EPA Administrator” and the text of 15:2006(a)(3) (1st, 2d sentences) to eliminate unnecessary words, for consistency in the revised title, and because “rules” is synonymous with “regulations”. The word “attach” is substituted for “cause to be affixed”, to eliminate unnecessary words. The words “after model year 1976” are omitted as executed. The words “The label shall contain the following information” are substituted for “indicating” and “containing” for clarity. In clause (C), the words “of all manufacturers” are substituted for “(whether or not manufactured by such manufacturer)” to eliminate unnecessary words. In clause (D), the words “a booklet is available from the dealer to assist in making a comparison of fuel economy of other automobiles manufactured by all manufacturers in that model year” are substituted for “written information (as described in subsection (b)(1) of this section) with respect to the fuel economy of other automobiles manufactured in such model year (whether or not manufactured by such manufacturer) is available from the dealer in order to facilitate comparison among the various model types” to eliminate unnecessary words. In clause (E), the words “automobile fuel efficiency tax imposed on the sale of the automobile under section 4064 of the Internal Revenue Code of 1986 (26 U.S.C. 4064)” are substituted for

“in the case of any automobile, the sale of which is subject to any Federal tax imposed with respect to automobile fuel efficiency, a statement indicating the amount of such tax” for clarity.

In subsection (b)(3)(D), the words “Secretary of Energy” are substituted for “Department of Energy” because of 42:7131.

In subsection (c)(1), before clause (A), the words “compile and” are omitted as surplus.

In subsection (c)(3), the words “not later than July 31, 1976” are omitted as executed. The words “make the booklet available to prospective buyers” are substituted for “make available to prospective purchasers information compiled by the EPA Administrator under paragraph (1)” to eliminate unnecessary words.

In subsection (d), the words “which is required to be made”, “an express or implied”, and “that such fuel economy will be achieved, or that such cost will not be exceeded, under conditions of actual use” are omitted as surplus.

In subsection (f), the words “his duties under” are omitted as surplus.

(2) A person adversely affected by a regulation prescribed under section 32912(c)(1) of this title may apply for review of the regulation by filing a petition for review in the court of appeals of the United States for the circuit in which the person resides or has its principal place of business.

(b) TIME FOR FILING AND JUDICIAL PROCEDURES.—The petition must be filed not later than 59 days after the regulation is prescribed, except that a petition for review of a regulation prescribing an amendment of a standard submitted to Congress under section 32902(c)(2) of this title must be filed not later than 59 days after the end of the 60-day period referred to in section 32902(c)(2). The clerk of the court shall send immediately a copy of the petition to the Secretary of Transportation or the Administrator of the Environmental Protection Agency, whoever prescribed the regulation. The Secretary or the Administrator shall file with the court a record of the proceeding in which the regulation was prescribed.

(c) ADDITIONAL PROCEEDINGS.—(1) When reviewing a regulation under subsection (a)(1) of this section, the court, on request of the petitioner, may order the Secretary or the Administrator to receive additional submissions if the court is satisfied the additional submissions are material and there were reasonable grounds for not presenting the submissions in the proceeding before the Secretary or Administrator.

In subsection (a)(1) and (2), the words “apply for review” are added for clarity.

In subsection (a)(1), before clause (A), the words “or their duly designated agents” are omitted as surplus because of 49:322(b) and section 3 of Reorganization

Plan No. 3 of 1970 (eff. Dec. 2, 1970, 84 Stat. 2089). In clause (A), the words “inspect and copy records of any person” are substituted for “require, by general or special orders, that any person . . . (B) provide . . . access to (and for the purpose of examination, the right to copy) any documentary evidence of such person” to eliminate unnecessary words. The words “which is relevant to any functions of the Secretary or the EPA Administrator under this subchapter” are omitted as covered by “In carrying out this chapter”. In clause (B), the word “order” is substituted for “require, by general or special orders”, and the words “including reports or answers under oath” are substituted for “Such reports and answers shall be made under oath or otherwise”, to eliminate unnecessary words. The words “in such form as the Secretary or EPA Administrator may prescribe” and “shall be filed with the Secretary or the EPA Administrator within such reasonable period as either may prescribe” are omitted as surplus because of subsection (d) of this section and 49:322(a). The words “relating to any function of the Secretary or the EPA Administrator under this subchapter” are omitted as surplus. In clause (C), the words “sit and act at such times and places” are omitted as being included in “conduct hearings”. The words “subpena witnesses” are substituted for “require, by subpoena, the attendance and testimony of such witnesses” to eliminate unnecessary words.

In subsection (b), the words “A civil action to enforce a subpoena or order of the Secretary or Administrator under subsection (a) of this section may be brought in the district court of the United States for the judicial district in which the proceeding by the Secretary or Administrator was conducted” are substituted for 15:2005(b)(2) (1st sentence) for consistency and to eliminate unnecessary words.

In subsection (c), the words “to the public” are omitted as surplus. The words “However, the Secretary or the Administrator may withhold information” are substituted for “except that information may be withheld from disclosure” for clarity.

Subsection (d) is added for convenience because throughout the chapter the Administrator is given authority to prescribe regulations to carry out duties of the Administrator.

PUB. L. 103-429

This amends 49:32910(b) to clarify the restatement of 15:2005(b)(2) by section 1 of the Act of July 5, 1994 (Public Law 103-272, 108 Stat. 1071).

AMENDMENTS

1994—Subsec. (b). Pub. L. 103-429 substituted “any judicial district in which the proceeding by the Secretary or Administrator is conducted” for “the judicial district in which the proceeding by the Secretary or Administrator was conducted”.

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§ 32911. Compliance

(a) GENERAL.—A person commits a violation if the person fails to comply with this chapter and regulations and standards prescribed and orders issued under this chapter (except sections 32902, 32903, 32908(b), 32917(b), and 32918 and regulations and standards prescribed and orders issued under those sections). The Secretary of Transportation shall conduct a proceeding, with an opportunity for a hearing on the record, to decide whether a person has committed a violation. Any interested person may participate in a proceeding under this subsection.

(b) AUTOMOBILE MANUFACTURERS.—A manufacturer of automobiles commits a violation if the

manufacturer fails to comply with an applicable average fuel economy standard under section 32902 of this title. Compliance is determined after considering credits available to the manufacturer under section 32903 of this title. If average fuel economy calculations under section 32904(c) of this title indicate that a manufacturer has violated this subsection, the Secretary shall conduct a proceeding, with an opportunity for a hearing on the record, to decide whether a violation has been committed. The Secretary may not conduct the proceeding if further measurements of fuel economy, further calculations of average fuel economy, or other information indicates a violation has not been committed. The results of the measurements and calculations and the information shall be published in the Federal Register. Any interested person may participate in a proceeding under this subsection.

In subsection (a), the reference to 15:2011 is omitted because that provision is not restated in this chapter. The words “may not conduct” are substituted for “(unless” in 15:2008(a)(1) for clarity.

PUB. L. 103–429

This makes a conforming amendment necessary because of the restatement of 15:2011 as 49:32918 by section 6(43)(A) of the bill.

AMENDMENTS

1994—Subsec. (a). Pub. L. 103–429 substituted “, 32917(b), and 32918” for “, and 32917(b)”.

§ 32912. Civil penalties

(a) GENERAL PENALTY.—A person that violates section 32911(a) of this title is liable to the United States Government for a civil penalty of not more than \$10,000 for each violation. A separate violation occurs for each day the violation continues.

(b) PENALTY FOR MANUFACTURER VIOLATIONS OF FUEL ECONOMY STANDARDS.—Except as provided in subsection (c) of this section, a manufacturer that violates a standard prescribed for a model year under section 32902 of this title is liable to the Government for a civil penalty of \$5 multiplied by each .1 of a mile a gallon by which the applicable average fuel economy standard under that section exceeds the average fuel economy—

(1) calculated under section 32904(a)(1)(A) or (B) of this title for automobiles to which the standard applies manufactured by the manufacturer during the model year;

(2) multiplied by the number of those automobiles; and

(3) reduced by the credits available to the manufacturer under section 32903 of this title for the model year.

(c) HIGHER PENALTY AMOUNTS.—(1)(A) The Secretary of Transportation shall prescribe by regulation a higher amount for each .1 of a mile a gallon to be used in calculating a civil penalty under subsection (b) of this section, if the Secretary decides that the increase in the penalty—

(i) will result in, or substantially further, substantial energy conservation for automobiles in model years in which the increased penalty may be imposed; and

(ii) will not have a substantial deleterious impact on the economy of the United States, a State, or a region of a State.

(B) The amount prescribed under subparagraph (A) of this paragraph may not be more than \$10 for each .1 of a mile a gallon.

(C) The Secretary may make a decision under subparagraph (A)(ii) of this paragraph only when the Secretary decides that it is likely that the increase in the penalty will not—

(i) cause a significant increase in unemployment in a State or a region of a State;

(ii) adversely affect competition; or

(iii) cause a significant increase in automobile imports.

(D) A higher amount prescribed under subparagraph (A) of this paragraph is effective for the model year beginning at least 18 months after the regulation stating the higher amount becomes final.

(2) The Secretary shall publish in the Federal Register a proposed regulation under this subsection and a statement of the basis for the regulation and provide each manufacturer of automobiles a copy of the proposed regulation and the statement. The Secretary shall provide a period of at least 45 days for written public comments on the proposed regulation. The Secretary shall submit a copy of the proposed regu-

lation to the Federal Trade Commission and request the Commission to comment on the proposed regulation within that period. After that period, the Secretary shall give interested persons and the Commission an opportunity at a public hearing to present oral information, views, and arguments and to direct questions about disputed issues of material fact to—

(A) other interested persons making oral presentations;

(B) employees and contractors of the Government that made written comments or an oral presentation or participated in the development or consideration of the proposed regulation; and

(C) experts and consultants that provided information to a person that the person includes, or refers to, in an oral presentation.

(3) The Secretary may restrict the questions of an interested person and the Commission when the Secretary decides that the questions are duplicative or not likely to result in a timely and effective resolution of the issues. A transcript shall be kept of a public hearing under this subsection. A copy of the transcript and written comments shall be available to the public at the cost of reproduction.

(4) The Secretary shall publish a regulation prescribed under this subsection in the Federal Register with the decisions required under paragraph (1) of this subsection.

(5) An officer or employee of a department, agency, or instrumentality of the Government violates section 1905 of title 18 by disclosing, except in an in camera proceeding by the Secretary or a court, information—

(A) provided to the Secretary or the court during consideration or review of a regulation prescribed under this subsection; and

(B) decided by the Secretary to be confidential under section 11(d) of the Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 796(d)).

(d) **WRITTEN NOTICE REQUIREMENT.**—The Secretary shall impose a penalty under this section by written notice.

(e) **USE OF CIVIL PENALTIES.**—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to support rulemaking under this chapter; and

(2) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program to make grants to manufacturers for retooling, reequipping, or expanding existing manufacturing facilities in the United States to

produce advanced technology vehicles and components.

In this section, the words “whom the Secretary determines under subsection (a) of this section” are omitted as surplus.

In subsection (b), before clause (1)(A), the words “Except as provided in subsection (c) of this section” are added for clarity. The words “that violates a standard prescribed for a model year under section 32902 of this title” are substituted for “to have violated a provision of section 2007(a)(1) of this title with respect to any model year” and “to have violated section 2007(a)(2) of this title” to avoid referring, as in the source, to one provision that in turn refers to another provision. In clause (1), the words “calculated under” are substituted for “established under” for clarity. The reference to section 32904(a)(1)(A), which is a reference to the provision under which average fuel economy for nonpassenger automobiles is calculated, is added for clarity. The reference to section 32904(a)(1)(B), which is a reference to the provision under which average fuel economy for passenger automobiles is calculated, is substituted for the reference in the source to 15:2002(a) and (c), which is a reference to the provision under which the average fuel economy standard for those automobiles is established, for clarity. The words “in which the violation occurs” are omitted as surplus.

In subsection (c)(1)(A), before clause (i), the words “shall prescribe by regulation” are substituted for “shall, by rule . . . substitute” for consistency in the revised title and because “rule” and “regulation” are synonymous. The words “in accordance with the provisions of this subsection and subsection (e)” are omitted as surplus. The words “be less than \$5.00” are omitted as surplus because under the subsection the Secretary may only raise the amount imposed to \$10, or a \$5 increase. The words “in the absence of such rule” are omitted as surplus. The words “increase in the penalty” are substituted for “additional amount of the civil penalty” for clarity. In clause (ii), the words “subject to subparagraph (B)” are omitted as surplus.

In subsection (c)(1)(C), the words “the later of” and the text of 15:2008(d)(3)(A) are omitted as obsolete.

In subsection (c)(2), before clause (A), the words “After the Secretary of Transportation develops a proposed rule pursuant to subsection (d) of this section” are omitted as surplus. In clause (B), the words “written comments or an oral presentation” are substituted for “written or oral presentations” for consistency in the section. The text of 15:2008(e)(1)(B) (last sentence) and (C) is omitted as surplus because of 5:556(d).

In subsection (c)(5), before clause (A), the words “department, agency, or instrumentality” are substituted for “department or agency” for consistency in the revised title and with other titles of the United States Code.

AMENDMENTS

2007—Subsec. (e). Pub. L. 110–140 added subsec. (e).

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§ 32913. Compromising and remitting civil penalties

(a) GENERAL AUTHORITY AND LIMITATIONS.—The Secretary of Transportation may compromise or remit the amount of a civil penalty imposed under section 32912(a) or (b) of this title. However, the amount of a penalty imposed under section 32912(b) may be compromised or remitted only to the extent—

(1) necessary to prevent the insolvency or bankruptcy of the manufacturer of automobiles;

(2) the manufacturer shows that the violation was caused by an act of God, a strike, or a fire; or

(3) the Federal Trade Commission certifies under subsection (b)(1) of this section that a reduction in the penalty is necessary to prevent a substantial lessening of competition.

(b) CERTIFICATION BY COMMISSION.—(1) A manufacturer liable for a civil penalty under section 32912(b) of this title may apply to the Commission for a certification that a reduction in the penalty is necessary to prevent a substantial lessening of competition in the segment of the motor vehicle industry subject to the standard that was violated. The Commission shall make the certification when it finds that reduction is necessary to prevent the lessening. The Commission shall state in the certification the maximum amount by which the penalty may be reduced.

(2) An application under this subsection must be made not later than 30 days after the Secretary decides that the manufacturer has violated section 32911(b) of this title. To the maximum extent practicable, the Commission shall make a decision on an application by the 90th day after the application is filed. A proceeding under this subsection may not delay the manufacturer's liability for the penalty for more than 90 days after the application is filed.

(3) When a civil penalty is collected in a civil action under this chapter before a decision of the Commission under this subsection is final, the payment shall be paid to the court in which the action was brought. The court shall deposit the payment in the general fund of the Treasury on the 90th day after the decision of the Commission becomes final. When the court is holding payment of a penalty reduced under subsection (a)(3) of this section, the Secretary shall direct the court to remit the appropriate amount of the penalty to the manufacturer.

Amendment by Pub. L. 103–429 effective July 5, 1994, see section 9 of Pub. L. 103–429, set out as a note under section 321 of this title.

§ 32914. Collecting civil penalties

(a) CIVIL ACTIONS.—If a person does not pay a civil penalty after it becomes a final order of the

Secretary of Transportation or a judgment of a court of appeals of the United States for a circuit, the Attorney General shall bring a civil action in an appropriate district court of the United States to collect the penalty. The validity and appropriateness of the final order imposing the penalty is not reviewable in the action.

(b) **PRIORITY OF CLAIMS.**—A claim of a creditor against a bankrupt or insolvent manufacturer of automobiles has priority over a claim of the United States Government against the manufacturer for a civil penalty under section 32912(b) of this title when the creditor's claim is for credit extended before a final judgment (without regard to section 32913(b)(1) and (2) of this title) in an action to collect under subsection (a) of this section.

In clause (A), the words “to which this section applies” and “for the Armed Forces” are omitted as surplus. In clause (B), the words “the sum of the fractions obtained” are substituted for “a sum of terms, each term of which is a fraction created” to eliminate unnecessary words.

§ 32918. Retrofit devices

(a) DEFINITION.—In this section, the term “retrofit device” means any component, equipment, or other device—

(1) that is designed to be installed in or on an automobile (as an addition to, as a replacement for, or through alteration or modification of, any original component, equipment, or other device); and

(2) that any manufacturer, dealer, or distributor of the device represents will provide higher fuel economy than would have resulted with the automobile as originally equipped,

as determined under regulations of the Administrator of the Environmental Protection Agency. The term also includes a fuel additive for use in an automobile.

(b) EXAMINATION OF FUEL ECONOMY REPRESENTATIONS.—The Federal Trade Commission shall establish a program for systematically examining fuel economy representations made with respect to retrofit devices. Whenever the Commission has reason to believe that any representation may be inaccurate, the Commission shall request the Administrator to evaluate, in accordance with subsection (c) of this section, the retrofit device with respect to which the representation was made.

(c) EVALUATION OF RETROFIT DEVICES.—(1) On application of any manufacturer of a retrofit device (or prototype of a retrofit device), on request of the Commission under subsection (b) of this section, or on the motion of the Administrator, the Administrator shall evaluate, in accordance with regulations prescribed under subsection (e) of this section, any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations, if any, made with respect to the retrofit device are accurate.

(2) If under paragraph (1) of this subsection, the Administrator tests, or causes to be tested, any retrofit device on the application of a manufacturer of the device, the manufacturer shall supply, at the manufacturer's expense, one or more samples of the device to the Administrator and shall be liable for the costs of testing incurred by the Administrator. The procedures for testing retrofit devices so supplied may include a requirement for preliminary testing by a qualified independent testing laboratory, at the expense of the manufacturer of the device.

(d) RESULTS OF TESTS AND PUBLICATION IN FEDERAL REGISTER.—(1) The Administrator shall publish in the Federal Register a summary of the results of all tests conducted under this section, together with the Administrator's conclusions as to—

(A) the effect of any retrofit device on fuel economy;

(B) the effect of the device on emissions of air pollutants; and

(C) any other information the Administrator determines to be relevant in evaluating the device.

(2) The summary and conclusions shall also be submitted to the Secretary of Transportation and the Commission.

(e) REGULATIONS ESTABLISHING TESTS AND PROCEDURES FOR EVALUATION OF RETROFIT DEVICES.—The Administrator shall prescribe regulations establishing—

(1) testing and other procedures for evaluating the extent to which retrofit devices affect fuel economy and emissions of air pollutants; and

(2) criteria for evaluating the accuracy of fuel economy representations made with respect to retrofit devices.

In clause (7)(A), the word “completed” is omitted as unnecessary because of the restatement.

In clause (9), the words “after December 31, 1989” are substituted for “on or after the beginning of the 2-year period specified in section 2023(a)(1)(A) of this title” for clarity and consistency.

PUB. L. 103–429, §6(44)(A)

This corrects a cross-reference in 49:33101(2) by eliminating the reference to 49:33102(c)(1). Section 302(1) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3394) restated section 602(d)(1)(A) and (B) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947) as section 602(d)(1) without making a change in the cross-reference in section 601(6) to section 602(d)(1)(B).

PUB. L. 103–429, §6(44)(B)

This makes a conforming amendment for consistency with the style of title 49.

§ 33102. Theft prevention standard for high theft lines

(a) GENERAL.—(1) The Secretary of Transportation by regulation shall prescribe a vehicle theft prevention standard that conforms to the requirements of this chapter. The standard shall apply to—

(A) covered major parts that manufacturers install in passenger motor vehicles in lines designated under section 33104 of this title as high theft lines; and

(B) major replacement parts for the major parts described in clause (A) of this paragraph.

(2) The standard may apply only to—

(A) major parts that manufacturers install in passenger motor vehicles having a model year designation later than the calendar year in which the standard takes effect; and

(B) major replacement parts manufactured after the standard takes effect.

(b) STANDARD REQUIREMENTS.—The standard shall be practicable and provide relevant objective criteria.

(c) LIMITATIONS ON MAJOR PART AND REPLACEMENT PART STANDARDS.—(1) For a major part installed by the manufacturer of the motor vehicle, the standard may not require a part to have more than one identification.

(2) For a major replacement part, the standard may not require—

(A) identification of a part not designed as a replacement for a major part required to be identified under the standard; or

(B) the inscribing or affixing of identification except a symbol identifying the manufacturer and a common symbol identifying the part as a major replacement part.

(d) RECORDS AND REPORTS.—This chapter does not authorize the Secretary to require a person to keep records or make reports, except as provided in sections 33104(c), 33106(c), 33108(a), and 33112¹ of this title.

§ 33103. Theft prevention standard for other lines

(a) GENERAL.—Not later than October 25, 1994, the Secretary of Transportation shall prescribe a vehicle theft standard that conforms to the requirements of this chapter for covered major parts that manufacturers install in passenger motor vehicles (except light duty trucks) in not more than 50 percent of the lines not designated under section 33104 of this title as high theft lines.

(b) EXTENSION OF APPLICATION.—(1) Not later than 3 years after the standard is prescribed under subsection (a) of this section and based on the finding of the Attorney General under subsection (c) of this section to apply the standard, the Secretary shall apply that standard to covered major parts and major replacement parts for covered parts that manufacturers install in the lines of passenger motor vehicles (except light duty trucks)—

(A) not designated under section 33104 of this title as high theft lines; and

(B) not covered by the standard prescribed under subsection (a) of this section.

(2) The Secretary shall include as part of the regulatory proceeding under this subsection the finding of, and the record developed by, the Attorney General under subsection (c) of this section.

(c) INITIAL REVIEW OF EFFECTIVENESS.—Before the Secretary begins a regulatory proceeding under subsection (b) of this section, the Attorney General shall make a finding that the Secretary shall apply the standard prescribed under subsection (a) of this section unless the Attorney General finds, based on information collected and analyzed under section 33112¹ of this title and other information the Attorney General develops after providing notice and an opportunity for a public hearing, that applying the standard prescribed in subsection (a) to the remaining lines of passenger motor vehicles (except light duty trucks) not covered by that standard would not substantially inhibit chop shop operations and motor vehicle thefts. The Attorney General also shall consider and include in the record additional costs, effectiveness, competition, and available alternative factors. The Attorney General shall submit to the Secretary the finding and record on which the finding is based.

(d) LONG RANGE REVIEW OF EFFECTIVENESS.—(1) Not later than December 31, 1999, the Attorney General shall make separate findings, after notice and an opportunity for a public hearing, on the following:

(A) whether the application of the standard under subsection (a) or (b) of this subsection, or both, have been effective in substantially inhibiting the operation of chop shops and motor vehicle theft.

¹ See References in Text note below.

¹ See References in Text note below.

(B) whether the anti-theft devices for which the Secretary has granted exemptions under section 33106 of this title are an effective substitute for parts marking in substantially inhibiting motor vehicle theft.

(2)(A) In making the finding under paragraph (1)(A) of this subsection, the Attorney General shall—

(i) consider the additional cost, competition, and available alternatives;

(ii) base that finding on information collected and analyzed under section 33112¹ of this title;

(iii) consider the effectiveness, the extent of use, and the extent to which civil and criminal penalties under section 33115(b) of this title and section 2322 of title 18 on chop shops have been effective in substantially inhibiting operation of chop shops and motor vehicle theft;

(iv) base that finding on the 3-year and 5-year reports issued by the Secretary under section 33113 of this title; and

(v) base that finding on other information the Attorney General develops and includes in the public record.

(B) The Attorney General shall submit a finding under paragraph (1)(A) of this subsection promptly to the Secretary. If the Attorney General finds that the application of the standard under subsection (a) or (b) of this section, or both, has not been effective, the Secretary shall issue, not later than 180 days after receiving that finding, an order terminating the standard the Attorney General found was ineffective. The termination is effective for the model year beginning after the order is issued.

(3) In making a finding under paragraph (1)(B) of this subsection, the Secretary shall consider the additional cost, competition, and available alternatives. If the Attorney General finds that the anti-theft devices are an effective substitute, the Secretary shall continue to grant exemptions under section 33106 of this title for the model years after model year 2000 at one of the following levels that the Attorney General decides: at the level authorized before October 25, 1992, or at the level provided in section 33106(b)(2)(C) of this title for model year 2000.

(e) **EFFECTIVE DATE OF STANDARD.**—A standard prescribed under this section takes effect at least 6 months after the date the standard is prescribed, except that the Secretary may prescribe an earlier effective date if the Secretary—

(1) decides with good cause that the earlier date is in the public interest; and

(2) publishes the reasons for the decision.

(f) **NOTIFICATION OF CONGRESS.**—The Secretary and the Attorney General shall inform the appropriate legislative committees of Congress with jurisdiction over this part and section 2322 of title 18 of actions taken or planned under this section.

In subsection (a), the words “foreign and domestic” are omitted as unnecessary. The words “as high theft lines” are added for clarity.

In subsection (b)(1), the words “to apply the standard” are added for clarity. The words “shall apply that standard to covered major parts and major replacement parts for covered parts that manufacturers install in the lines of passenger motor vehicles (except light duty trucks) . . . not designated under section 33104 of this title as high theft lines; and . . . not covered by the standard prescribed under subsection (a) of this section” are substituted for “the Secretary . . . shall designate all the remaining such lines of such passenger motor vehicles (other than light-duty trucks) and apply such standard to such lines in conformance with the requirements of this subchapter” for clarity and because of the restatement.

In subsection (b)(2), the words “The Secretary shall include as part of the regulatory proceeding under this subsection . . . developed by the Attorney General under subsection (c) of this section” are substituted for “shall be a part of the Secretary’s rulemaking record” for clarity.

In subsection (c), the words “Before the Secretary begins a regulatory proceeding under subsection (b) of this section” are substituted for “prior to the Secretary’s initiation and promulgation of a rule” for clarity. The words “applying the standard prescribed in subsection (a) to the remaining lines of passenger motor vehicles (except light duty trucks) not covered by that standard” are substituted for “requiring such additional parts marking for all of the applicable passenger motor vehicles” for clarity and because of the restatement.

In subsection (d)(1)(A), the words “whether the application of the standard under subsection (a) or (b) of this subsection, or both” are substituted for “whether one or both rules promulgated under this subsection” for clarity.

In subsection (d)(2)(A)(iii), the words “civil . . . penalties under section 33115(b) of this title” are substituted for “civil . . . penalties under section 2027(b) of this title” to correct an erroneous cross-reference.

In subsection (d)(3), the words “for the model years after model year 2000” are substituted for “Nothing in this paragraph affects exemptions granted in model year 2000 or earlier to any manufacturer” to eliminate unnecessary words. The words “at one of the following levels that the Attorney General decides” are substituted for “as determined by the Attorney General” for clarity.

In subsection (e), the text of 15:2022(c)(4) (related to the standard under 15:2022(c)(1)) is omitted as obsolete because the standard under 15:2022(c)(1) has already been prescribed. See 49 C.F.R. 541.

§ 33104. Designation of high theft vehicle lines and parts

(a) DESIGNATION, NONAPPLICATION, SELECTION, AND PROCEDURES.—(1) For purposes of the standard under section 33102 of this title, the following are high theft lines:

(A) a passenger motor vehicle line determined under subsection (b) of this section to have had a new passenger motor vehicle theft rate in the 2-year period covering calendar years 1990 and 1991 greater than the median theft rate for all new passenger motor vehicle thefts in that 2-year period.

(B) a passenger motor vehicle line initially introduced into commerce in the United States after December 31, 1989, that is selected under paragraph (3) of this subsection as likely to have a theft rate greater than the median theft rate referred to in clause (A) of this paragraph.

(C) subject to paragraph (2) of this subsection, a passenger motor vehicle line having (for existing lines) or likely to have (for new lines) a theft rate below the median theft rate referred to in clause (A) of this paragraph, if the major parts in the vehicles are selected under paragraph (3) of this subsection as interchangeable with the majority of the major parts that are subject to the standard and are contained in the motor vehicles of a line described in clause (A) or (B) of this paragraph.

(2) The standard may not apply to any major part of a line described in paragraph (1)(C) of this subsection if all the passenger motor vehicles of lines that are, or are likely to be, below the median theft rate, and that contain parts interchangeable with the major parts of the line involved, account (for existing lines), or the Secretary of Transportation determines they are likely to account (for new lines), for more than 90 percent of the total annual production of all lines of that manufacturer containing those interchangeable parts.

(3) The lines, and the major parts of the passenger motor vehicles in those lines, that are to be subject to the standard may be selected by agreement between the manufacturer and the Secretary. If the manufacturer and the Secretary disagree on the selection, the Secretary shall select the lines and parts, after notice to the manufacturer and opportunity for written comment, and subject to the confidentiality requirements of this chapter.

(4) To the maximum extent practicable, the Secretary shall prescribe reasonable procedures designed to ensure that a selection under paragraph (3) of this subsection is made at least 6 months before the first applicable model year beginning after the selection.

(5) A manufacturer may not be required to comply with the standard under a selection under paragraph (3) of this subsection for a model year beginning earlier than 6 months after the date of the selection.

(6) A passenger motor vehicle line subject on October 25, 1992, to parts marking requirements under sections 602 and 603 of the Motor Vehicle Information and Cost Savings Act (Public Law 92-513, 86 Stat. 947), as added by section 101(a) of the Motor Vehicle Theft Law Enforcement Act

of 1984 (Public Law 98-547, 98 Stat. 2756), continues to be subject to the requirements of this section and section 33102 of this title unless the line is exempted under section 33106 of this title.

(b) DETERMINING THEFT RATE FOR PASSENGER VEHICLES.—(1) In this subsection, “new passenger motor vehicle thefts”, when used in reference to a calendar year, means thefts in the United States in that year of passenger motor vehicles with the same model-year designation as that calendar year.

(2) Under subsection (a) of this section, the theft rate for passenger motor vehicles of a line shall be determined by a fraction—

(A) the numerator of which is the number of new passenger motor vehicle thefts for that line during the 2-year period referred to in subsection (a)(1)(A) of this section; and

(B) the denominator of which is the sum of the respective production volumes of all passenger motor vehicles of that line (as reported to the Administrator of the Environmental Protection Agency under chapter 329 of this title) that are of model years 1990 and 1991 and are distributed for sale in commerce in the United States.

(3) Under subsection (a) of this section, the median theft rate for all new passenger motor vehicle thefts during that 2-year period is the theft rate midway between the highest and the lowest theft rates determined under paragraph (2) of this subsection. If there is an even number of theft rates determined under paragraph (2), the median theft rate is the arithmetic average of the 2 adjoining theft rates midway between the highest and the lowest of those theft rates.

(4) In consultation with the Director of the Federal Bureau of Investigation, the Secretary periodically shall obtain from the most reliable source accurate and timely theft and recovery information and publish the information for review and comment. To the greatest extent possible, the Secretary shall use theft information reported by United States Government, State, and local police. After publication and opportunity for comment, the Secretary shall use the theft information to determine the median theft rate under this subsection. The Secretary and the Director shall take any necessary actions to improve the accuracy, reliability, and timeliness of the information, including ensuring that vehicles represented as stolen are really stolen.

(5) The Secretary periodically (but not more often than once every 2 years) may redetermine and prescribe by regulation the median theft rate under this subsection.

(c) PROVIDING INFORMATION.—The Secretary by regulation shall require each manufacturer to provide information necessary to select under subsection (a)(3) of this section the high theft lines and the major parts to be subject to the standard.

(d) APPLICATION.—Except as provided in section 33106 of this title, the Secretary may not make the standard inapplicable to a line that has been subject to the standard.

In subsection (a)(1)(A), the words “the 2-year period covering calendar years 1990 and 1991” are substituted for “the 2 calendar years immediately preceding the year in which the Anti Car Theft Act of 1992 is enacted” because that Act was enacted on October 25, 1992. The substitution also makes it clear that the 2-year period is to be treated as a single period.

In subsection (a)(1)(B), the words “after December 31, 1989,” are substituted for “after the beginning of the 2-year period specified in subparagraph (A)” for consistency with clause (A).

In subsection (a)(6), the word “passenger” is added because the source provisions in the revised chapter apply to passenger motor vehicles.

In subsection (b)(2)(B), the words “Administrator of the” are added for clarity and consistency because of section 1(b) of Reorganization Plan No. 3 of 1970 (eff. Dec. 2, 1970, 84 Stat. 2086). The words “model years 1983 and 1984” are substituted for “the 2 model years having the same model-year designations as the 2 calendar years specified in subsection (a)(1)(A) of this section” because the particular years are now known.

In subsection (b)(4), the words “Immediately upon enactment of this subchapter” are omitted as executed. The words “or sources” are omitted because of 1:1.

L. 92-513, which were classified to sections 2022 and 2023, respectively, of Title 15, Commerce and Trade, and were repealed and reenacted as sections 33102 to 33104 of this title by Pub. L. 103-272, § 1(e), 7(b), July 5, 1994, 108 Stat. 1077, 1379.

§ 33105. Cost limitations

(a) MAXIMUM MANUFACTURER COSTS.—A standard under section 33102 or 33103 of this title may not impose—

(1) on a manufacturer of motor vehicles, compliance costs of more than \$15 a motor vehicle; or

(2) on a manufacturer of major replacement parts, compliance costs for each part of more than the reasonable amount (but less than \$15) that the Secretary of Transportation specifies in the standard.

(b) COSTS INVOLVED IN ENGINES AND TRANSMISSIONS.—For a manufacturer engaged in identifying engines or transmissions on October 25, 1984, in a way that substantially complies with the standard—

(1) the costs of identifying engines and transmissions may not be considered in calculating the manufacturer’s costs under subsection (a) of this section; and

(2) the manufacturer may not be required under the standard to conform to any identi-

fication system for engines and transmissions that imposes greater costs on the manufacturer than are incurred under the identification system used by the manufacturer on October 25, 1984.

(c) COST ADJUSTMENTS.—(1) In this subsection—

(A) “base period” means calendar year 1984.

(B) “price index” means the average over a calendar year of the Consumer Price Index (all items—United States city average) published monthly by the Secretary of Labor.

(2) At the beginning of each calendar year, as necessary data become available from the Bureau of Labor Statistics, the Secretary of Labor shall certify to the Secretary of Transportation and publish in the Federal Register the percentage difference between the price index for the 12 months before the beginning of the calendar year and the price index for the base period. For model years beginning in that calendar year, the amounts specified in subsection (a) of this section shall be adjusted by the percentage difference.

§ 33106. Exemption for passenger motor vehicles equipped with anti-theft devices

(a) DEFINITIONS.—In this section—

(1) “anti-theft device” means a device to reduce or deter theft that—

(A) is in addition to the theft-deterrent devices required by motor vehicle safety standard numbered 114 in section 571.114 of title 49, Code of Federal Regulations;

(B) the manufacturer believes will be effective in reducing or deterring theft of motor vehicles; and

(C) does not use a signaling device reserved by State law for use on police, emergency, or official vehicles, or on schoolbuses.

(2) “standard equipment” means equipment already installed in a motor vehicle when it is delivered from the manufacturer and not an accessory or other item that the first purchaser customarily has the option to have installed.

(b) GRANTING EXEMPTIONS AND LIMITATIONS.—

(1) A manufacturer may petition the Secretary of Transportation for an exemption from a requirement of a standard prescribed under section 33102 or 33103 of this title for a line of pas-

senger motor vehicles equipped as standard equipment with an anti-theft device that the Secretary decides is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the standard.

(2) The Secretary may grant an exemption—

(A) for model year 1987, for not more than 2 lines of a manufacturer;

(B) for each of the model years 1988–1996, for not more than 2 additional lines of a manufacturer;

(C) for each of the model years 1997–2000, for not more than one additional line of a manufacturer; and

(D) for each of the model years after model year 2000, for the number of lines that the Attorney General decides under section 33103(d)(3) of this title.

(3) An additional exemption granted under paragraph (2)(B) or (C) of this subsection does not affect an exemption previously granted.

(c) PETITIONING PROCEDURE.—A petition must be filed not later than 8 months before the start of production for the first model year covered by the petition. The petition must include—

(1) a detailed description of the device;

(2) the reasons for the manufacturer's conclusion that the device will be effective in reducing and deterring theft of motor vehicles; and

(3) additional information the Secretary reasonably may require to make the decision described in subsection (b)(1) of this section.

(d) DECISIONS AND APPROVALS.—The Secretary shall make a decision about a petition filed under this section not later than 120 days after the date the petition is filed. A decision approving a petition must be based on substantial evidence. The Secretary may approve a petition in whole or in part. If the Secretary does not make a decision within the 120-day period, the petition shall be deemed to be approved and the manufacturer shall be exempt from the standard for the line covered by the petition for the subsequent model year.

(e) RESCISSIONS.—The Secretary may rescind an exemption if the Secretary decides that the anti-theft device has not been as effective in reducing and deterring motor vehicle theft as compliance with the standard. A rescission may be effective only—

(1) for a model year after the model year in which the rescission occurs; and

(2) at least 6 months after the manufacturer receives written notice of the rescission from the Secretary.

§ 33107. Voluntary vehicle identification standards

(a) ELECTION TO INSCRIBE OR AFFIX IDENTIFYING MARKS.—The Secretary of Transportation by regulation may prescribe a vehicle theft prevention standard under which a person may elect to inscribe or affix an identifying number or symbol on major parts of a motor vehicle manufactured or owned by the person for purposes of section 511 of title 18 and related provisions. The standard may include provisions for registration of the identification with the Secretary or a person designated by the Secretary.

§ 33108. Monitoring compliance of manufacturers

(a) RECORDS, REPORTS, INFORMATION, AND INSPECTION.—To enable the Secretary of Transportation to decide whether a manufacturer of motor vehicles containing a part subject to a standard prescribed under section 33102 or 33103 of this title, or a manufacturer of major replacement parts subject to the standard, is complying with this chapter and the standard, the Secretary may require the manufacturer to—

- (1) keep records;
- (2) make reports;
- (3) provide items and information; and
- (4) allow an officer or employee designated by the Secretary to inspect the vehicles and parts and relevant records of the manufacturer.

(b) ENTRY AND INSPECTION.—To enforce this chapter, an officer or employee designated by the Secretary, on presenting appropriate credentials and a written notice to the owner, operator, or agent in charge, may inspect a facility in which motor vehicles containing major parts subject to the standard, or major replacement parts subject to the standard, are manufactured, held for introduction into interstate commerce, or held for sale after introduction into interstate commerce. An inspection shall be conducted at a reasonable time, in a reasonable way, and with reasonable promptness.

(c) CERTIFICATION OF COMPLIANCE.—(1) A manufacturer of a motor vehicle subject to the standard, and a manufacturer of a major replacement part subject to the standard, shall provide at the time of delivery of the vehicle or part a certification that the vehicle or part conforms to the applicable motor vehicle theft prevention standard. The certification shall accompany the vehicle or part until its delivery to the first purchaser. The Secretary by regulation may prescribe the type and form of the certification.

(2) This subsection does not apply to a motor vehicle or major replacement part that is—

- (A) intended only for export;
- (B) labeled only for export on the vehicle or replacement part and the outside of any container until exported; and
- (C) exported.

(d) NOTIFICATION OF ERROR.—A manufacturer shall notify the Secretary if the manufacturer discovers that—

- (1) there is an error in the identification (required by the standard) applied to a major part installed by the manufacturer in a motor vehicle during its assembly, or to a major replacement part manufactured by the manufacturer; and

§ 33109. National Stolen Passenger Motor Vehicle Information System

(a) GENERAL REQUIREMENTS.—(1) Not later than July 25, 1993, the Attorney General shall establish, and thereafter maintain, a National Stolen Passenger Motor Vehicle Information System containing the vehicle identification numbers of stolen passenger motor vehicles and stolen passenger motor vehicle parts. The System shall be located in the National Crime Information Center and shall include at least the following information on each passenger motor vehicle reported to a law enforcement authority as stolen and not recovered:

- (A) the vehicle identification number.
- (B) the make and model year.
- (C) the date on which the vehicle was reported as stolen.
- (D) the location of the law enforcement authority that received the report of the theft of the vehicle.

(E) the identification numbers of the vehicle parts (or derivatives of those numbers), at the time of the theft, if those numbers are different from the vehicle identification number of the vehicle.

(2) In establishing the System, the Attorney General shall consult with—

- (A) State and local law enforcement authorities; and
- (B) the National Crime Information Center Policy Advisory Board to ensure the security of the information in the System and that the System will not compromise the security of stolen passenger motor vehicle and passenger motor vehicle parts information in the System.

(3) If the Attorney General decides that the Center is not able to perform the functions of the System, the Attorney General shall make an

agreement for the operation of the System separate from the Center.

(4) The Attorney General shall prescribe by regulation the effective date of the System.

(a) DEFINITION.—In this section, “vehicle identification number” means a unique identification number (or derivative of that number) assigned to a passenger motor vehicle by a manufacturer in compliance with applicable regulations.

(b) GENERAL REQUIREMENTS.—(1) If an insurance carrier selling comprehensive motor vehicle insurance coverage obtains possession of and transfers a junk motor vehicle or a salvage motor vehicle, the carrier shall—

(A) under procedures the Attorney General prescribes by regulation under section 33109 of this title in consultation with the Secretary of Transportation, verify whether the vehicle is reported as stolen; and

(B) provide the purchaser or transferee of the vehicle from the insurance carrier verification identifying the vehicle identification number and verifying that the vehicle has not been reported as stolen or, if reported as stolen, that the carrier has recovered the vehicle and has proper legal title to the vehicle.

(2)(A) This subsection does not prohibit an insurance carrier from transferring a motor vehicle if, within a reasonable period of time during normal business operations (as decided by the Attorney General under section 33109 of this title) using reasonable efforts, the carrier—

(i) has not been informed under the procedures prescribed in section 33109 of this title that the vehicle has not been reported as stolen; or

(ii) has not otherwise established whether the vehicle has been reported as stolen.

In subsection (a)(1), the words “which is manufactured on or after the date the standard under section 2022 of this title takes effect under this subchapter for such vehicle or major replacement part” are omitted as obsolete because the standard applies to passenger motor vehicles and major replacement parts starting with the 1987 model year. See 50 Fed. Reg. 43166 (1985).

In subsection (a)(5)(A), the words “of any kind” are omitted as unnecessary because of the definition of “chop shop” in section 33101 of the revised title.

§ 33115. Civil penalties and enforcement

(a) GENERAL PENALTY AND CIVIL ACTIONS TO COLLECT.—(1) A person that violates section 33114(a)(1)–(4) of this title is liable to the United States Government for a civil penalty of not more than \$1,000 for each violation. The failure of more than one part of a single motor vehicle to conform to an applicable standard under section 33102 or 33103 of this title is only a single violation. The maximum penalty under this subsection for a related series of violations is \$250,000.

(2) The Secretary of Transportation imposes a civil penalty under this subsection. The Secretary may compromise the amount of a penalty.

(3) In determining the amount of a civil penalty or compromise under this subsection, the Secretary shall consider the size of the person’s business and the gravity of the violation.

(4) The Attorney General shall bring a civil action in a United States district court to collect a civil penalty imposed under this subsection.

(5) The Government may deduct the amount of a civil penalty imposed or compromised under this subsection from amounts it owes the person liable for the penalty.

(b) CHOP SHOP PENALTY AND ENFORCEMENT.—(1) A person that violates section 33114(a)(5) of this title is liable to the Government for a civil

penalty of not more than \$100,000 a day for each violation.

(2) As appropriate and in consultation with the Attorney General, the Secretary shall—

(A) bring a civil action for a temporary or permanent injunction to restrain a person violating section 33114(a)(5) of this section;

(B) impose and recover the penalty described in paragraph (1) of this subsection; or

(C) take both the actions described in clauses (A) and (B) of this paragraph.

(c) CIVIL ACTIONS TO ENFORCE.—(1) The Attorney General may bring a civil action in a United States district court to enjoin a violation of this chapter or the sale, offer for sale, introduction or delivery for introduction in interstate commerce, or importation into the United States, of a passenger motor vehicle containing a major part, or of a major replacement part, that is subject to the standard and is determined before the sale of the vehicle or part to a first purchaser not to conform to the standard.

(2)(A) When practicable, the Secretary—

(i) shall notify a person against whom an action under this subsection is planned;

(ii) shall give the person an opportunity to present that person’s views; and

(iii) except for a knowing and willful violation, shall give the person a reasonable opportunity to comply.

(B) The failure of the Secretary to comply with subparagraph (A) of this paragraph does not prevent a court from granting appropriate relief.

(d) JURY TRIAL DEMAND.—In a trial for criminal contempt for violating an injunction or restraining order issued under subsection (c) of this section, the violation of which is also a violation of this chapter, the defendant may demand a jury trial. The defendant shall be tried as provided in rule 42(b) of the Federal Rules of Criminal Procedure (18 App. U.S.C.).

(e) VENUE.—A civil action under subsection (a) or (c) of this section may be brought in the judicial district in which the violation occurred or the defendant resides, is found, or transacts business. Process in the action may be served in any other judicial district in which the defendant resides or is found. A subpoena for a witness in the action may be served in any judicial district.

Sections 607 and 611 were redesignated by section 306(a) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3397). The words “is liable to the United States Government for a civil penalty” are substituted for “may be assessed a civil penalty” for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(2), the word “imposes” is substituted for “assessed” for consistency.

In subsection (a)(3), the words “the appropriateness of such penalty to” are omitted as surplus.

In subsection (a)(5), the words “United States district court” are added for clarity and consistency in the revised title.

In subsection (c)(1), the words “The Attorney General may bring a civil action” are substituted for “Upon petition by the Attorney General” for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words “on behalf of the United States” are omitted as surplus. The words “shall have jurisdiction” are omitted because of 28:1331. The words “for cause shown and subject to the provisions of rule 65(a) and (b) of the Federal Rules of Civil Procedure” are omitted as surplus because the rules apply in the absence of an exception from them. The word “enjoin” is substituted for “restrain” for consistency in the revised title.

In subsection (d), the words “the defendant may demand a jury trial” are substituted for “trial shall be by the court, or, upon demand of the accused, by a jury” to eliminate unnecessary words and for consistency in the revised title.

§ 33116. Confidentiality of information

(a) GENERAL.—Information obtained by the Secretary of Transportation under this chapter related to a confidential matter referred to in section 1905 of title 18 may be disclosed only—

(1) to another officer or employee of the United States Government for use in carrying out this chapter; or

(2) in a proceeding under this chapter (except a proceeding under section 33104(a)(3)).

(b) WITHHOLDING INFORMATION FROM CONGRESS.—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

In subsection (a), before clause (1), the words “reported to, or otherwise” and “or the Secretary’s representative” are omitted as surplus. The words “related to a confidential matter referred to” are substituted for “contains or relates to a trade secret or other matter referred to” to eliminate unnecessary words and for consistency in the revised title. The words “or in section 552(b)(4) of title 5” are omitted as surplus because the language in 18:1905 is broader than the language in 5:552(b)(4) and for consistency with similar provisions in other chapters in this part. The words “shall be considered confidential for the purpose of the applicable section of this subchapter” are omitted

as surplus. In clause (1), the words “for use in carrying out” are substituted for “concerned with carrying out” for consistency with similar provisions in other chapters in this part. In clause (2), the words “when relevant” are omitted as surplus. The cross-reference to 15:2023(a)(3) is omitted. The text of 15:2023(a)(3), originally enacted as section 603(a)(3) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947), was repealed by section 303(2) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3396). Section 303(2) also redesignated subsection (a)(4) as subsection (a)(3). However, a corresponding amendment to correct the cross-reference in the source provisions restated in this section was not made.

In subsection (b), the words “authorized to have the information” are added for clarity and consistency with similar provisions in other chapters in this part.

§ 33117. Judicial review

A person that may be adversely affected by a regulation prescribed under this chapter may obtain judicial review of the regulation under section 32909 of this title. A remedy under this section is in addition to any other remedies provided by law.

§ 40101. Policy

(a) ECONOMIC REGULATION.—In carrying out subpart II of this part and those provisions of

subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others, as being in the public interest and consistent with public convenience and necessity:

(1) assigning and maintaining safety as the highest priority in air commerce.

(2) before authorizing new air transportation services, evaluating the safety implications of those services.

(3) preventing deterioration in established safety procedures, recognizing the clear intent, encouragement, and dedication of Congress to further the highest degree of safety in air transportation and air commerce, and to maintain the safety vigilance that has evolved in air transportation and air commerce and has come to be expected by the traveling and shipping public.

(4) the availability of a variety of adequate, economic, efficient, and low-priced services without unreasonable discrimination or unfair or deceptive practices.

(5) coordinating transportation by, and improving relations among, air carriers, and encouraging fair wages and working conditions.

(6) placing maximum reliance on competitive market forces and on actual and potential competition—

(A) to provide the needed air transportation system; and

(B) to encourage efficient and well-managed air carriers to earn adequate profits and attract capital, considering any material differences between interstate air transportation and foreign air transportation.

(7) developing and maintaining a sound regulatory system that is responsive to the needs of the public and in which decisions are reached promptly to make it easier to adapt the air transportation system to the present and future needs of—

(A) the commerce of the United States;

(B) the United States Postal Service; and

(C) the national defense.

(8) encouraging air transportation at major urban areas through secondary or satellite airports if consistent with regional airport plans of regional and local authorities, and if endorsed by appropriate State authorities—

(A) encouraging the transportation by air carriers that provide, in a specific market, transportation exclusively at those airports; and

(B) fostering an environment that allows those carriers to establish themselves and develop secondary or satellite airport services.

(9) preventing unfair, deceptive, predatory, or anticompetitive practices in air transportation.

(10) avoiding unreasonable industry concentration, excessive market domination, monopoly powers, and other conditions that would tend to allow at least one air carrier or foreign air carrier unreasonably to increase prices, reduce services, or exclude competition in air transportation.

(11) maintaining a complete and convenient system of continuous scheduled interstate air

transportation for small communities and isolated areas with direct financial assistance from the United States Government when appropriate.

(12) encouraging, developing, and maintaining an air transportation system relying on actual and potential competition—

(A) to provide efficiency, innovation, and low prices; and

(B) to decide on the variety and quality of, and determine prices for, air transportation services.

(13) encouraging entry into air transportation markets by new and existing air carriers and the continued strengthening of small air carriers to ensure a more effective and competitive airline industry.

(14) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

(15) strengthening the competitive position of air carriers to at least ensure equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(16) ensuring that consumers in all regions of the United States, including those in small communities and rural and remote areas, have access to affordable, regularly scheduled air service.

(b) **ALL-CARGO AIR TRANSPORTATION CONSIDERATIONS.**—In carrying out subpart II of this part and those provisions of subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others and in addition to the matters referred to in subsection (a) of this section, as being in the public interest for all-cargo air transportation:

(1) encouraging and developing an expedited all-cargo air transportation system provided by private enterprise and responsive to—

(A) the present and future needs of shippers;

(B) the commerce of the United States; and

(C) the national defense.

(2) encouraging and developing an integrated transportation system relying on competitive market forces to decide the extent, variety, quality, and price of services provided.

(3) providing services without unreasonable discrimination, unfair or deceptive practices, or predatory pricing.

(c) **GENERAL SAFETY CONSIDERATIONS.**—In carrying out subpart III of this part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator of the Federal Aviation Administration shall consider the following matters:

(1) the requirements of national defense and commercial and general aviation.

(2) the public right of freedom of transit through the navigable airspace.

(d) **SAFETY CONSIDERATIONS IN PUBLIC INTEREST.**—In carrying out subpart III of this part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator shall

consider the following matters, among others, as being in the public interest:

(1) assigning, maintaining, and enhancing safety and security as the highest priorities in air commerce.

(2) regulating air commerce in a way that best promotes safety and fulfills national defense requirements.

(3) encouraging and developing civil aeronautics, including new aviation technology.

(4) controlling the use of the navigable airspace and regulating civil and military operations in that airspace in the interest of the safety and efficiency of both of those operations.

(5) consolidating research and development for air navigation facilities and the installation and operation of those facilities.

(6) developing and operating a common system of air traffic control and navigation for military and civil aircraft.

(7) providing assistance to law enforcement agencies in the enforcement of laws related to regulation of controlled substances, to the extent consistent with aviation safety.

(e) INTERNATIONAL AIR TRANSPORTATION.—In formulating United States international air transportation policy, the Secretaries of State and Transportation shall develop a negotiating policy emphasizing the greatest degree of competition compatible with a well-functioning international air transportation system, including the following:

(1) strengthening the competitive position of air carriers to ensure at least equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(2) freedom of air carriers and foreign air carriers to offer prices that correspond to consumer demand.

(3) the fewest possible restrictions on charter air transportation.

(4) the maximum degree of multiple and permissive international authority for air carriers so that they will be able to respond quickly to a shift in market demand.

(5) eliminating operational and marketing restrictions to the greatest extent possible.

(6) integrating domestic and international air transportation.

(7) increasing the number of nonstop United States gateway cities.

(8) opportunities for carriers of foreign countries to increase their access to places in the United States if exchanged for benefits of similar magnitude for air carriers or the traveling public with permanent linkage between rights granted and rights given away.

(9) eliminating discrimination and unfair competitive practices faced by United States airlines in foreign air transportation, including—

(A) excessive landing and user fees;

(B) unreasonable ground handling requirements;

(C) unreasonable restrictions on operations;

(D) prohibitions against change of gauge; and

(E) similar restrictive practices.

(10) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

(f) STRENGTHENING COMPETITION.—In selecting an air carrier to provide foreign air transportation from among competing applicants, the Secretary of Transportation shall consider, in addition to the matters specified in subsections (a) and (b) of this section, the strengthening of competition among air carriers operating in the United States to prevent unreasonable concentration in the air carrier industry.

In this part, the words “overseas air commerce” and “overseas air transportation” are omitted as obsolete because there no longer is a distinction in economic or safety regulation between “interstate” and “overseas” air commerce or air transportation.

In this section, the words “In carrying out . . . this part” are substituted for “In the exercise and performance of its powers and duties under this chapter” in 49 App.:1302(a), “In the exercise and performance of his powers and duties under this chapter” in 49 App.:1303, and “In exercising the authority granted in, and discharging the duties imposed by, this chapter” in 49 App.:1347 for consistency in the revised title and to eliminate unnecessary words.

In subsections (a) and (b), the reference to subpart II is added because the policy applies only to economic issues, and under the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), the Civil Aeronautics Board was given responsibility for economic issues.

In subsection (a)(2), the word “full” is omitted as surplus. The words “the recommendations of the Secretary of Transportation on” are omitted as obsolete because the Secretary carries out 49 App.:1302(a). The words “and full evaluation of any report or recommendation submitted under section 1307 of this Ap-

pendix” are omitted as obsolete because the report and recommendations are no longer required.

In subsection (a)(4), the words “by air carriers and foreign air carriers” are omitted as surplus. The words “unreasonable discrimination” are substituted for “unjust discriminations, undue preferences or advantages” for consistency in the revised title and to eliminate unnecessary words.

In subsection (a)(6)(B), the words “nevertheless”, “on the one hand”, and “on the other” are omitted as surplus.

In subsection (a)(8), before subclause (A), the word “authorities” is substituted for “entities” for consistency in the revised title and with other titles of the Code. In subclause (A), the words “sole responsibility” are omitted as unnecessary because of the restatement.

In subsection (a)(15), the words “United States” are omitted as surplus because of the definition of “air carrier” in section 40102(a) of the revised title.

In subsection (b)(3), the words “unreasonable discrimination” are substituted for “unjust discriminations, undue preferences or advantages” for consistency in the revised title and to eliminate unnecessary words.

In subsections (c) and (d), the reference to subpart III is added because the policies apply only to safety issues, and under the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 731), the Federal Aviation Administration was given responsibility for safety issues.

In subsection (c), before clause (1), the word “Administrator” in section 306 of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 749) is retained on authority of 49:106(g). The words “consider the following matters” are substituted for “give full consideration to” for consistency in this section.

In subsection (d)(3), the word “both” in 49 App.:1303(c) is omitted as surplus the first time it appears. The words “of the United States” are omitted for consistency in the revised title and because of the definition of “navigable airspace” in section 40102(a) of the revised title. The words “of those operations” are added for clarity.

In subsection (d)(5), the word “both” in 49 App.:1303(e) is omitted as surplus.

In subsection (e), before clause (1), the words “the Congress intends that” are omitted as surplus. In clauses (1) and (4), the words “United States” are omitted as surplus because of the definition of “air carrier” in section 40102(a) of the revised title. In clause (2), the word “prices” is substituted for “fares and rates” because of the definition of “price” in section 40102(a). In clause (8), the words “places in the United States” are substituted for “United States points” for consistency in this chapter. The word “air” is added for clarity and consistency in this subtitle. In clause (9)(C), the word “unreasonable” is substituted for “undue” for consistency in the revised title and with other titles of the United States Code.

FINDINGS

Pub. L. 110-113, §2, Nov. 8, 2007, 121 Stat. 1039, provided that: “Congress finds the following:

“(1) The September 11th Victims Compensation Fund of 2001 [title IV of Pub. L. 107-42] (49 U.S.C. 40101 note) establishes a Federal cause of action in the United States District Court for the Southern District of New York as the exclusive remedy for damages arising out of the hijacking and subsequent crash of American Airlines flights 11 and 77, and United Airlines flights 93 and 175, on September 11, 2001.

“(2) Rules 45(b)(2) and 45(c)(3)(A)(ii) of the Federal Rules of Civil Procedure [28 U.S.C. App.] effectively limit service of a subpoena to any place within, or within 100 miles of, the district of the court by which it is issued, unless a statute of the United States expressly provides that the court, upon proper application and cause shown, may authorize the service of a subpoena at any other place.

“(3) Litigating a Federal cause of action under the September 11 Victims Compensation Fund of 2001 is likely to involve the testimony and the production of other documents and tangible things by a substantial number of witnesses, many of whom may not reside, be employed, or regularly transact business in, or within 100 miles of, the Southern District of New York.”

REVITALIZATION OF AVIATION AND AERONAUTICS

Pub. L. 108-176, §4, Dec. 12, 2003, 117 Stat. 2493, provided that: “Congress finds the following:

“(1) The United States has revolutionized the way people travel, developing new technologies and aircraft to move people more efficiently and more safely.

“(2) Past Federal investment in aeronautics research and development has benefited the economy and national security of the United States and the quality of life of its citizens.

“(3) The total impact of civil aviation on the United States economy exceeds \$900,000,000,000 annually and accounts for 9 percent of the gross national product and 11,000,000 jobs in the national workforce. Civil aviation products and services generate a significant surplus for United States trade accounts, and amount to significant numbers of the Nation’s highly skilled, technologically qualified work force.

“(4) Aerospace technologies, products, and services underpin the advanced capabilities of our men and women in uniform and those charged with homeland security.

“(5) Future growth in civil aviation increasingly will be constrained by concerns related to aviation

system safety and security, aviation system capabilities, aircraft noise, emissions, and fuel consumption.

“(6) Revitalization and coordination of the United States efforts to maintain its leadership in aviation and aeronautics are critical and must begin now.

“(7) A recent report by the Commission on the Future of the United States Aerospace Industry outlined the scope of the problems confronting the aerospace and aviation industries in the United States and found that—

“(A) aerospace will be at the core of the Nation’s leadership and strength throughout the 21st century;

“(B) aerospace will play an integral role in the Nation’s economy, security, and mobility; and

“(C) global leadership in aerospace is a national imperative.

“(8) Despite the downturn in the global economy, projections of the Federal Aviation Administration indicate that upwards of 1,000,000,000 people will fly annually by 2013. Efforts must begin now to prepare for future growth in the number of airline passengers.

“(9) The United States must increase its investment in research and development to revitalize the aviation and aerospace industries, to create jobs, and to provide educational assistance and training to prepare workers in those industries for the future.”

REPORT ON LONG-TERM ENVIRONMENTAL IMPROVEMENTS

Pub. L. 108-176, title III, §321, Dec. 12, 2003, 117 Stat. 2540, provided that:

“(a) IN GENERAL.—The Secretary of Transportation, in consultation with the Administrator of the National Aeronautics and Space Administration, shall conduct a study of ways to reduce aircraft noise and emissions and to increase aircraft fuel efficiency. The study shall—

“(1) explore new operational procedures for aircraft to achieve those goals;

“(2) identify both near-term and long-term options to achieve those goals;

“(3) identify infrastructure changes that would contribute to attainment of those goals;

“(4) identify emerging technologies that might contribute to attainment of those goals;

“(5) develop a research plan for application of such emerging technologies, including new combustor and engine design concepts and methodologies for designing high bypass ratio turbofan engines so as to minimize the effects on climate change per unit of production of thrust and flight speed; and

“(6) develop an implementation plan for exploiting such emerging technologies to attain those goals.

“(b) REPORT.—The Secretary shall transmit a report on the study to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure within 1 year after the date of enactment of this Act [Dec. 12, 2003].

“(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary \$500,000 for fiscal year 2004 to carry out this section.”

“TITLE I—AIRLINE STABILIZATION

“SEC. 101. AVIATION DISASTER RELIEF.

“(a) IN GENERAL.—Notwithstanding any other provision of law, the President shall take the following actions to compensate air carriers for losses incurred by the air carriers as a result of the terrorist attacks on the United States that occurred on September 11, 2001:

“[(1) Repealed. Pub. L. 110-161, div. D, title I, Dec. 26, 2007, 121 Stat. 1974.]

“(2) Compensate air carriers in an aggregate amount equal to \$5,000,000,000 for—

“(A) direct losses incurred beginning on September 11, 2001, by air carriers as a result of any Federal ground stop order issued by the Secretary of Transportation or any subsequent order which continues or renews such a stoppage; and

“(B) the incremental losses incurred beginning September 11, 2001, and ending December 31, 2001, by air carriers as a direct result of such attacks.

“(b) EMERGENCY DESIGNATION.—Congress designates the amount of new budget authority and outlays in all fiscal years resulting from this title as an emergency requirement pursuant to section 252(e) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(e)). Such amount shall be available only to the extent that a request, that includes designation of such amount as an emergency requirement as defined in such Act [see Short Title note set out under section 900 of Title 2, The Congress], is transmitted by the President to Congress.

“[SEC. 102. Repealed. Pub. L. 110-161, div. D, title I, Dec. 26, 2007, 121 Stat. 1974.]

“SEC. 103. SPECIAL RULES FOR COMPENSATION.

“(a) DOCUMENTATION.—Subject to subsection (b), the amount of compensation payable to an air carrier under section 101(a)(2) may not exceed the amount of losses described in section 101(a)(2) that the air carrier demonstrates to the satisfaction of the President, using sworn financial statements or other appropriate data, that the air carrier incurred. The Secretary of Transportation and the Comptroller General of the United States may audit such statements and may request any information that the Secretary and the Comptroller General deems necessary to conduct such audit.

“(b) MAXIMUM AMOUNT OF COMPENSATION PAYABLE PER AIR CARRIER.—The maximum total amount of compensation payable to an air carrier under section 101(a)(2) may not exceed the lesser of—

“(1) the amount of such air carrier’s direct and incremental losses described in section 101(a)(2); or

“(A) flights involving passenger-only or combined passenger and cargo transportation, the product of—

“(i) \$4,500,000,000; and

“(d) COMPENSATION FOR CERTAIN AIR CARRIERS.—

“(1) SET-ASIDE.—The President may set aside a portion of the amount of compensation payable to air carriers under section 101(a)(2) to provide compensation to classes of air carriers, such as air tour operators and air ambulances (including hospitals operating air ambulances) for whom the application of a distribution formula containing available seat miles as a factor would inadequately reflect their share of direct and incremental losses. The President shall reduce the \$4,500,000,000 specified in subsection (b)(2)(A)(i) by the amount set aside under this subsection.

“(2) DISTRIBUTION OF AMOUNTS.—The President shall distribute the amount set aside under this subsection proportionally among such air carriers based on an appropriate auditable measure, as determined by the President.

“SEC. 106. REPORTS.

“(a) REPORT.—Not later than February 1, 2002, the President shall transmit to the Committee on Transportation and Infrastructure, the Committee on Appropriations, and the Committee on the Budget of the House of Representatives and the Committee on Commerce, Science, and Transportation, the Committee on Appropriations, and the Committee on the Budget of the Senate a report on the financial status of the air carrier industry and the amounts of assistance provided under this title to each air carrier.

§ 40103. Sovereignty and use of airspace

(a) SOVEREIGNTY AND PUBLIC RIGHT OF TRANSIT.—(1) The United States Government has exclusive sovereignty of airspace of the United States.

(2) A citizen of the United States has a public right of transit through the navigable airspace. To further that right, the Secretary of Transportation shall consult with the Architectural and Transportation Barriers Compliance Board established under section 502 of the Rehabilitation Act of 1973 (29 U.S.C. 792) before prescribing a regulation or issuing an order or procedure that will have a significant impact on the accessibility of commercial airports or commercial air transportation for handicapped individuals.

(b) USE OF AIRSPACE.—(1) The Administrator of the Federal Aviation Administration shall develop plans and policy for the use of the navigable airspace and assign by regulation or order the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. The Administrator may modify or revoke an assignment when required in the public interest.

(2) The Administrator shall prescribe air traffic regulations on the flight of aircraft (including regulations on safe altitudes) for—

(A) navigating, protecting, and identifying aircraft;

(B) protecting individuals and property on the ground;

(C) using the navigable airspace efficiently; and

(D) preventing collision between aircraft, between aircraft and land or water vehicles, and between aircraft and airborne objects.

(3) To establish security provisions that will encourage and allow maximum use of the navigable airspace by civil aircraft consistent with national security, the Administrator, in consultation with the Secretary of Defense, shall—

(A) establish areas in the airspace the Administrator decides are necessary in the interest of national defense; and

(B) by regulation or order, restrict or prohibit flight of civil aircraft that the Administrator cannot identify, locate, and control with available facilities in those areas.

EX. ORD. NO. 11161. TRANSFER OF FEDERAL AVIATION AGENCY TO DEFENSE DEPARTMENT IN EVENT OF WAR

Ex. Ord. No. 11161, eff. July 7, 1964, 29 F.R. 9317, as amended by Ex. Ord. No. 11382, eff. Nov. 28, 1967, 32 F.R. 16247, provided:

WHEREAS Section 302(e) of the Federal Aviation Act of 1958 [see 49 U.S.C. 40107(b)] provides, in part, that in the event of war the President by Executive order may transfer to the Department of Defense any functions (including powers, duties, activities, facilities, and parts of functions) of the Federal Aviation Administration; and

WHEREAS it appears that the defense of the United States would require the transfer of the Federal Aviation Administration to the Department of Defense in the event of war; and

WHEREAS if any such transfer were to be made it would be essential to the defense of the United States

that the transition be accomplished promptly and with maximum ease and effectiveness; and

WHEREAS these objectives require that the relationships that would obtain in the event of such a transfer as between the Federal Aviation Administration and the Department of Defense be understood in advance by the two agencies concerned and be developed in necessary detail by them in advance of transfer:

NOW, THEREFORE, by virtue of the authority vested in me by Section 302(e) (72 Stat. 746; 49 U.S.C. 1343(c)) [see 49 U.S.C. 40107(b)], and as President of the United States and Commander in Chief of the Armed Forces of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Defense and the Secretary of Transportation are hereby directed to prepare and develop plans, procedures, policies, programs, and courses of action in anticipation of the probable transfer of the Federal Aviation Administration to the Department of Defense in the event of war. Those plans, policies, procedures, programs, and courses of action shall be prepared and developed in conformity with the following-described standards and conditions—

(A) The Federal Aviation Administration will function as an adjunct of the Department of Defense with the Federal Aviation Administrator being responsible directly to the Secretary of Defense and subject to his authority, direction, and control to the extent deemed by the Secretary to be necessary for the discharge of his responsibilities as Secretary of Defense.

(B) To the extent deemed by the Secretary of Defense to be necessary for the accomplishment of the military mission, he will be empowered to direct the Administrator to place operational elements of the Federal Aviation Administration under the direct operational control of appropriate military commanders.

(C) While functioning as an adjunct of the Department of Defense, the Federal Aviation Administration will remain organizationally intact and the Administrator thereof will retain responsibility for administration of his statutory functions, subject to the authority, direction, and control of the Secretary of Defense to the extent deemed by the Secretary to be necessary for the discharge of his responsibilities as Secretary of Defense.

SEC. 2. In furtherance of the objectives of the foregoing provisions of this order, the Secretary of Defense and the Secretary of Transportation shall, to the extent permitted by law, make such arrangements and take such actions as they deem necessary to assure—

(A) That the functions of the Federal Aviation Administration are performed during any period of national emergency short of war in a manner that will assure that essential national defense requirements will be satisfied during any such period of national emergency.

(B) Consistent with the provisions of paragraphs (A), (B), and (C) of Section 1 of this order, that any transfer of the Federal Aviation Administration to the Department of Defense, in the event of war, will be accomplished smoothly and rapidly and effective operation of the agencies and functions affected by the transfer will be achieved after the transfer.

40108(b)	49 App.:1354(d) (2d-last sentences). 49 App.:1655(c)(1).	

In this section, the word “Administrator” in section 313(d) of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 753) is retained on authority of 49:106(g). The words “school or” are omitted because of 1:1.

In subsection (a), the words “officers and” are added for clarity and consistency in the revised title and with other titles of the United States Code. The words “to carry out duties, powers, and activities of the Administrator” are substituted for “in those subjects necessary for the proper performance of all authorized functions of the Administration” for clarity and consistency in the revised title.

In subsection (b), the words “officers and employees” are substituted for “personnel”, the words “departments, agencies, or instrumentalities of the United States Government” are substituted for “governmental”, and the words “governments of foreign countries” are substituted for “foreign governments”, for consistency in the revised title and with other titles of the Code. The words “courses given in”, “sufficient”, and “appropriate” are omitted as surplus. The text of 49 App.:1354(d) (3d sentence) is omitted as unnecessary because chapter 41 of title 5, United States Code, applies to all training of employees. The words “or both” are substituted for “(3) in part as provided under clause (1) and in part as provided under clause (2)” to eliminate unnecessary words.

§ 40109. Authority to exempt

(a) **AIR CARRIERS AND FOREIGN AIR CARRIERS NOT ENGAGED DIRECTLY IN OPERATING AIRCRAFT.**—(1) The Secretary of Transportation may exempt from subpart II of this part—

(A) an air carrier not engaged directly in operating aircraft in air transportation; or

(B) a foreign air carrier not engaged directly in operating aircraft in foreign air transportation.

(2) The exemption is effective to the extent and for periods that the Secretary decides are in the public interest.

(b) **SAFETY REGULATION.**—The Administrator of the Federal Aviation Administration may grant an exemption from a regulation prescribed in carrying out sections¹ 40103(b)(1) and (2) of

¹ So in original. Probably should be “section”.

this title when the Administrator decides the exemption is in the public interest.

(c) OTHER ECONOMIC REGULATION.—Except as provided in this section, the Secretary may exempt to the extent the Secretary considers necessary a person or class of persons from a provision of chapter 411, chapter 413 (except sections 41307 and 41310(b)–(f)), chapter 415 (except sections 41502, 41505, and 41507–41509), chapter 417 (except sections 41703, 41704, 41710, 41713, and 41714), chapter 419, subchapter II of chapter 421, and sections 44909(a), 44909(b), and 46301(b) of this title, or a regulation or term prescribed under any of those provisions, when the Secretary decides that the exemption is consistent with the public interest.

(d) LABOR REQUIREMENTS.—The Secretary may not exempt an air carrier from section 42112 of this title. However, the Secretary may exempt from section 42112(b)(1) and (2) an air carrier not providing scheduled air transportation, and the operations conducted during daylight hours by an air carrier providing scheduled air transportation, when the Secretary decides that—

- (1) because of the limited extent of, or unusual circumstances affecting, the operation of the air carrier, the enforcement of section 42112(b)(1) and (2) of this title is or would be an unreasonable burden on the air carrier that would obstruct its development and prevent it from beginning or continuing operations; and
- (2) the exemption would not affect adversely the public interest.

(e) MAXIMUM FLYING HOURS.—The Secretary may not exempt an air carrier under this section from a provision referred to in subsection (c) of this section, or a regulation or term prescribed under any of those provisions, that sets maximum flying hours for pilots or copilots.

(f) SMALLER AIRCRAFT.—(1) An air carrier is exempt from section 41101(a)(1) of this title, and the Secretary may exempt an air carrier from another provision of subpart II of this part, if the air carrier—

- (A)(i) provides passenger transportation only with aircraft having a maximum capacity of 55 passengers; or
- (ii) provides the transportation of cargo only with aircraft having a maximum payload of less than 18,000 pounds; and
- (B) complies with liability insurance requirements and other regulations the Secretary prescribes.

(2) The Secretary may increase the passenger or payload capacities when the public interest requires.

(3)(A) An exemption under this subsection applies to an air carrier providing air transportation between 2 places in Alaska, or between Alaska and Canada, only if the carrier is authorized by Alaska to provide the transportation.

(B) The Secretary may limit the number or location of places that may be served by an air carrier providing transportation only in Alaska under an exemption from section 41101(a)(1) of this title, or the frequency with which the transportation may be provided, only when the Secretary decides that providing the transportation substantially impairs the ability of an air carrier holding a certificate issued by the Secretary

to provide its authorized transportation, including the minimum transportation requirement for Alaska specified under section 41732(b)(1)(B) of this title.

(g) EMERGENCY AIR TRANSPORTATION BY FOREIGN AIR CARRIERS.—(1) To the extent that the Secretary decides an exemption is in the public interest, the Secretary may exempt by order a foreign air carrier from the requirements and limitations of this part for not more than 30 days to allow the foreign air carrier to carry passengers or cargo in interstate air transportation in certain markets if the Secretary finds that—

(A) because of an emergency created by unusual circumstances not arising in the normal course of business, air carriers holding certificates under section 41102 of this title cannot accommodate traffic in those markets;

(B) all possible efforts have been made to accommodate the traffic by using the resources of the air carriers, including the use of—

- (i) foreign aircraft, or sections of foreign aircraft, under lease or charter to the air carriers; and
- (ii) the air carriers' reservations systems to the extent practicable;

(C) the exemption is necessary to avoid unreasonable hardship for the traffic in the markets that cannot be accommodated by the air carriers; and

(D) granting the exemption will not result in an unreasonable advantage to any party in a labor dispute where the inability to accommodate traffic in a market is a result of the dispute.

(2) When the Secretary grants an exemption to a foreign air carrier under this subsection, the Secretary shall—

(A) ensure that air transportation that the foreign air carrier provides under the exemption is made available on reasonable terms;

(B) monitor continuously the passenger load factor of air carriers in the market that hold certificates under section 41102 of this title; and

(C) review the exemption at least every 30 days (or, in the case of an exemption that is necessary to provide and sustain air transportation in American Samoa between the islands of Tutuila and Manu'a, at least every 180 days) to ensure that the unusual circumstances that established the need for the exemption still exist.

(3) RENEWAL OF EXEMPTIONS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary may renew an exemption (including renewals) under this subsection for not more than 30 days.

(B) EXCEPTION.—The Secretary may renew an exemption (including renewals) under this subsection that is necessary to provide and sustain air transportation in American Samoa between the islands of Tutuila and Manu'a for not more than 180 days.

(4) CONTINUATION OF EXEMPTIONS.—An exemption granted by the Secretary under this subsection may continue for not more than 5 days after the unusual circumstances that established the need for the exemption cease.

(h) NOTICE AND OPPORTUNITY FOR HEARING.—The Secretary may act under subsections (d) and (f)(3)(B) of this section only after giving the air carrier notice and an opportunity for a hearing.

In this section, the words “requirements of”, “term”, and “or limitation” are omitted as surplus. The word “rule” is omitted as being synonymous with “regulation”. The word “unreasonable” is substituted for “undue” for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(1), before clause (A), the words “by order” are omitted as unnecessary because of 5:ch. 5, subch. II. The word “exempt” is substituted for “relieve” for consistency in this section.

In subsection (a)(2), the words “that the Secretary decides” are added for clarity.

In subsections (b), (c), and (f)(1)(B), the words “from time to time” are omitted as unnecessary.

In subsection (b), the word “Administrator” in section 307(e) of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 750) is retained on authority of 49:106(g).

In subsection (d), before clause (1), the words “to the extent” are omitted as surplus.

In subsection (f)(1), before clause (A), the words “Subject to paragraph (5) of this subsection” and “in air transportation” are omitted as surplus. The words “the

Secretary may exempt” are substituted for “as may be prescribed in regulations promulgated by the Board” for clarity and to eliminate unnecessary words. In clause (A)(ii), the word “capacity” is omitted as surplus. In clause (B), the word “reasonable” is omitted as surplus. The word “prescribes” is substituted for “adopt” for consistency in the revised title and with other titles of the Code. The words “in the public interest” are omitted as surplus.

In subsection (f)(2), the words “by regulation” are omitted as surplus. The word “payload” is substituted for “property” for consistency in this subsection. The words “specified in this paragraph” are omitted as surplus.

In subsection (f)(3)(A), the words “under this subsection” are substituted for “from section 1371 of this title or any other requirement of this chapter”, the words “2 places” are substituted for “points both of which are”, and the word “between” is substituted for “one of which is in . . . and the other in”, to eliminate unnecessary words.

In subsection (f)(3)(B), the word “only” is added for clarity. The words “promulgated by the Board”, “by such air carrier to points within such State”, and “but not limited to” are omitted as surplus. The word “Alaska” is substituted for “such State” for clarity. The cross-reference is to section 41732(b)(1)(B) to correct an error in the source provisions. The cross-reference in 49 App.:1386(b)(6) to 49 App.:1389(c)(2) should have been to 49 App.:1389(f)(2). This error was not corrected when 49 App.:1389 was restated by section 202(b) of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Public Law 100–223, 101 Stat. 1508). The comparable provision is 49 App.:1389(k)(1)(A)(ii), restated as section 41732(b)(1)(B).

In subsection (g), the word “exemption” is substituted for “authorization” and “authority” for clarity and consistency.

In subsection (g)(3), the words “a period” are omitted as surplus.

In subsection (h), the words “The Secretary may act under subsections (d) and (f)(3)(B) of this section” are added because of the restatement. The word “notice” does not appear in 49 App.:1386(b)(6) (words between 5th and 6th commas) but is made applicable to both of the restated source provisions for consistency with subchapter II of chapter 5 of title 5, United States Code. The words “opportunity for a” are added for consistency in the revised title.

“(3) Alternative notice and publication requirements.

“(4) A process in which—

“(A) the competitive process is initiated by publication in the Commerce Business Daily, or by dissemination through FACNET, of a notice that—

“(i) contains a synopsis of the functional and performance needs of the executive agency conducting the test, and, for purposes of guidance only, other specifications; and

“(ii) invites any interested source to submit information or samples showing the suitability of its product for meeting those needs, together with a price quotation, or, if appropriate, showing the source's technical capability, past performance, product supportability, or other qualifications (including, as appropriate, information regarding rates and other cost-related factors);

§ 40111. Multiyear procurement contracts for services and related items

(a) GENERAL AUTHORITY.—Notwithstanding section 1341(a)(1)(B) of title 31, the Administrator of the Federal Aviation Administration may make a contract of not more than 5 years for the following types of services and items of supply related to those services for which amounts otherwise would be available for obligation only in the fiscal year for which appropriated:

- (1) operation, maintenance, and support of facilities and installations.
- (2) operation, maintenance, and modification of aircraft, vehicles, and other highly complex equipment.
- (3) specialized training requiring high quality instructor skills, including training of pilots and aircrew members and foreign language training.
- (4) base services, including ground maintenance, aircraft refueling, bus transportation, and refuse collection and disposal.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section only if the Administrator finds that—

- (1) there will be a continuing requirement for the service consistent with current plans for the proposed contract period;
- (2) providing the service will require a substantial initial investment in plant or equipment, or will incur a substantial contingent liability for assembling, training, or transporting a specialized workforce; and
- (3) the contract will promote the best interests of the United States by encouraging effective competition and promoting economies in operation.

(c) CONSIDERATIONS.—When making a contract under this section, the Administrator shall be guided by the following:

- (1) The part of the cost of a plant or equipment amortized as a cost of contract performance may not be more than the ratio between the period of contract performance and the anticipated useful commercial life (instead of physical life) of the plant or equipment, considering the location and specialized nature of the plant or equipment, obsolescence, and other similar factors.
- (2) The Administrator shall consider the desirability of—
 - (A) obtaining an option to renew the contract for a reasonable period of not more than 3 years, at a price that does not include charges for nonrecurring costs already amortized; and
 - (B) reserving in the Administrator the right, on payment of the unamortized part of the cost of the plant or equipment, to take title to the plant or equipment under appropriate circumstances.

(d) ENDING CONTRACTS.—A contract made under this section shall be ended if amounts are not made available to continue the contract

into a subsequent fiscal year. The cost of ending the contract may be paid from—

- (1) an appropriation originally available for carrying out the contract;
- (2) an appropriation currently available for procuring the type of service concerned and not otherwise obligated; or
- (3) amounts appropriated for payments to end the contract.

In subsection (a), before clause (1), the words “periods of” are omitted as surplus. In clause (3), the words “training of” are added for clarity. In clause (4), the word “aircraft” is substituted for “in-plane” for clarity.

In subsection (c)(2)(A), the words “plant, equipment, and other” are omitted as surplus.

In subsection (d), the words “canceled or” and “cancellation or” are omitted as being included in “ended” and “ending”, respectively.

§ 40112. Multiyear procurement contracts for property

(a) GENERAL AUTHORITY.—Notwithstanding section 1341(a)(1)(B) of title 31 and to the extent that amounts otherwise are available for obligation, the Administrator of the Federal Aviation Administration may make a contract of more than one but not more than 5 fiscal years to purchase property, except a contract to construct, alter, or make a major repair or improvement to real property.

(b) REQUIRED FINDINGS.—The Administrator may make a contract under this section if the Administrator finds that—

- (1) the contract will promote the safety or efficiency of the national airspace system and will result in reduced total contract costs;
- (2) the minimum need for the property to be purchased is expected to remain substantially unchanged during the proposed contract period in terms of production rate, procurement rate, and total quantities;
- (3) there is a reasonable expectation that throughout the proposed contract period the Administrator will request appropriations for the contract at the level required to avoid cancellation;
- (4) there is a stable design for the property to be acquired and the technical risks associated with the property are not excessive; and

(5) the estimates of the contract costs and the anticipated savings from the contract are realistic.

(c) REGULATIONS.—The Administrator shall prescribe regulations for acquiring property under this section to promote the use of contracts under this section in a way that will allow the most efficient use of those contracts. The regulations may provide for a cancellation provision in the contract to the extent the provision is necessary and in the best interest of the United States. The provision may include consideration of recurring and nonrecurring costs of the contractor associated with producing the item to be delivered under the contract. The regulations shall provide that, to the extent practicable—

(1) to broaden the aviation industrial base—

(A) a contract under this section shall be used to seek, retain, and promote the use under that contract of subcontractors, vendors, or suppliers; and

(B) on accrual of a payment or other benefit accruing on a contract under this section to a subcontractor, vendor, or supplier participating in the contract, the payment or benefit shall be delivered in the most expeditious way practicable; and

(2) this section and regulations prescribed under this section may not be carried out in a way that precludes or curtails the existing ability of the Administrator to provide for—

(A) competition in producing items to be delivered under a contract under this section; or

(B) ending a prime contract when performance is deficient with respect to cost, quality, or schedule.

(d) CONTRACT PROVISIONS.—(1) A contract under this section may—

(A) be used for the advance procurement of components, parts, and material necessary to manufacture equipment to be used in the national airspace system;

(B) provide that performance under the contract after the first year is subject to amounts being appropriated; and

(C) contain a negotiated priced option for varying the number of end items to be procured over the period of the contract.

(2) If feasible and practicable, an advance procurement contract may be made to achieve economic-lot purchases and more efficient production rates.

(e) CANCELLATION PAYMENT AND NOTICE OF CANCELLATION CEILING.—(1) If a contract under this section provides that performance is subject to an appropriation being made, it also may provide for a cancellation payment to be made to the contractor if the appropriation is not made.

(2) Before awarding a contract under this section containing a cancellation ceiling of more than \$100,000,000, the Administrator shall give written notice of the proposed contract and cancellation ceiling to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives. The contract may not be awarded until the end

of the 30-day period beginning on the date of the notice.

(f) ENDING CONTRACTS.—A contract made under this section shall be ended if amounts are not made available to continue the contract into a subsequent fiscal year. The cost of ending the contract may be paid from—

(1) an appropriation originally available for carrying out the contract;

(2) an appropriation currently available for procuring the type of property concerned and not otherwise obligated; or

(3) amounts appropriated for payments to end the contract.

EFFECTIVE DATE OF 1996 AMENDMENT

Amendment by Pub. L. 104-106 effective 180 days after Feb. 10, 1996, see section 5701 of Pub. L. 104-106, Feb. 10, 1996, 110 Stat. 702.

§ 40113. Administrative

(a) GENERAL AUTHORITY.—The Secretary of Transportation (or the Administrator of the Transportation Security Administration with respect to security duties and powers designated to be carried out by that Administrator or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by that Administrator) may take action the Secretary, Administrator of the Transportation Security Administration, or Administrator of the Federal Aviation Administration, as appropriate, considers necessary to carry out this part, including conducting investigations, prescribing regulations, standards, and procedures, and issuing orders.

(b) HAZARDOUS MATERIAL.—In carrying out this part, the Secretary has the same authority to regulate the transportation of hazardous material by air that the Secretary has under section 5103 of this title. However, this subsection does not prohibit or regulate the transportation of a firearm (as defined in section 232 of title 18) or ammunition for a firearm, when transported by an individual for personal use.

(c) GOVERNMENTAL ASSISTANCE.—The Secretary (or the Administrator of the Federal Aviation Administration with respect to aviation safety duties and powers designated to be carried out by the Administrator) may use the assistance of the Administrator of the National Aeronautics and Space Administration and any research or technical department, agency, or instrumentality of the United States Government on matters related to aircraft fuel and oil, and to the design, material, workmanship, construction, performance, maintenance, and operation of aircraft, aircraft engines, propellers, appliances, and air navigation facilities. Each department, agency, and instrumentality may conduct scientific and technical research, investigations, and tests necessary to assist the Secretary or Administrator of the Federal Aviation Administration in carrying out this part. This part does not authorize duplicating laboratory research activities of a department, agency, or instrumentality.

(d) INDEMNIFICATION.—The Administrator of the Federal Aviation Administration may indemnify an officer or employee of the Federal Aviation Administration against a claim or judgment arising out of an act that the Administrator decides was committed within the scope of the official duties of the officer or employee.

(e) ASSISTANCE TO FOREIGN AVIATION AUTHORITIES.—

(1) SAFETY-RELATED TRAINING AND OPERATIONAL SERVICES.—The Administrator may provide safety-related training and operational services to foreign aviation authorities (whether public or private) with or without reimbursement, if the Administrator determines that providing such services promotes aviation safety or efficiency. The Administrator may also provide technical assistance related to all aviation safety-related training and operational services in connection with bilateral and multilateral agreements, including further bolstering the components of airmanship. The Administrator is authorized to participate in, and submit offers in response to, competitions to provide these services, and to contract with foreign aviation authorities to provide these services consistent with section 106(l)(6). To the extent practicable, air travel reimbursed under this subsection shall be conducted on United States air carriers.

(2) REIMBURSEMENT SOUGHT.—The Administrator shall actively seek reimbursement for services provided under this subsection from foreign aviation authorities capable of providing such reimbursement. The Administrator is authorized, notwithstanding any other provision of law or policy, to accept payments for services provided under this subsection in arrears.

(3) CREDITING APPROPRIATIONS.—Funds received by the Administrator pursuant to this section shall—

(A) be credited to the appropriation current when the amount is received;

(B) be merged with and available for the purposes of such appropriation; and

(C) remain available until expended.

(4) REPORTING.—Not later than December 31, 1995, and annually thereafter, the Administrator shall transmit to Congress a list of the foreign aviation authorities to which the Administrator provided services under this subsection in the preceding fiscal year. Such list shall specify the dollar value of such services and any reimbursement received for such services.

(5) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator, \$5,000,000 for each of fiscal years 2021 through 2023, to carry out this subsection. Amounts appropriated under the preceding sentence for any fiscal year shall remain available until expended.

(f) APPLICATION OF CERTAIN REGULATIONS TO ALASKA.—In amending title 14, Code of Federal Regulations, in a manner affecting intrastate aviation in Alaska, the Administrator of the Federal Aviation Administration shall consider the extent to which Alaska is not served by transportation modes other than aviation, and shall establish such regulatory distinctions as the Administrator considers appropriate.

L. 104-264 applicable only to fiscal years beginning after Sept. 30, 1996, and not to be construed as affecting funds made available for a fiscal year ending before Oct. 1, 1996, see section 3 of Pub. L. 104-264, set out as a note under section 106 of this title.

CONSTRUCTION OF 2018 AMENDMENT

Pub. L. 115-254, div. B, title I, §159(b), Oct. 5, 2018, 132 Stat. 3220, provided that: “Nothing in this section [amending this section] or an amendment made by this section shall affect a change to a rate or other provision of a tax, fee, or charge under section 40116 of title 49, United States Code, that was enacted prior to the date of enactment of this Act [Oct. 5, 2018]. Such provision of a tax, fee, or charge shall continue to be subject to the requirements to which such provision was subject under that section as in effect on the day before the date of enactment of this Act.”

§ 40117. Passenger facility charges

(a) DEFINITIONS.—In this section, the following definitions apply:

(1) AIRPORT, COMMERCIAL SERVICE AIRPORT, AND PUBLIC AGENCY.—The terms “airport”, “commercial service airport”, and “public agency” have the meaning those terms have under section 47102.

(2) ELIGIBLE AGENCY.—The term “eligible agency” means a public agency that controls a commercial service airport.

(3) ELIGIBLE AIRPORT-RELATED PROJECT.—The term “eligible airport-related project” means any of the following projects:

(A) A project for airport development or airport planning under subchapter I of chapter 471.

(B) A project for terminal development described in section 47119(a).

(C) A project for costs of terminal development referred to in subparagraph (B) incurred after August 1, 1986, at an airport that did not have more than .25 percent of the total annual passenger boardings in the United States in the most recent calendar year for which data is available and at which total passenger boardings declined by at least 16 percent between calendar year 1989 and calendar year 1997.

(D) A project for airport noise capability planning under section 47505.

(E) A project to carry out noise compatibility measures eligible for assistance under section 47504, whether or not a program for those measures has been approved under section 47504.

(F) A project for constructing gates and related areas at which passengers board or exit aircraft. In the case of a project required to enable additional air service by an air carrier with less than 50 percent of the annual passenger boardings at an airport, the project for constructing gates and related areas may include structural foundations and floor systems, exterior building walls and load-bearing interior columns or walls, windows, door and roof systems, building utilities (including heating, air conditioning, ventilation, plumbing, and electrical service), and aircraft fueling facilities adjacent to the gate.

(G) A project for converting vehicles and ground support equipment used at a commercial service airport to low-emission technology (as defined in section 47102) or to use cleaner burning conventional fuels, retrofitting of any such vehicles or equipment that are powered by a diesel or gasoline engine with emission control technologies cer-

tified or verified by the Environmental Protection Agency to reduce emissions, or acquiring for use at a commercial service airport vehicles and ground support equipment that include low-emission technology or use cleaner burning fuels if the airport is located in an air quality nonattainment area (as defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2))) or a maintenance area referred to in section 175A of such Act (42 U.S.C. 7505a) and if such project will result in an airport receiving appropriate emission credits as described in section 47139.

(4) GROUND SUPPORT EQUIPMENT.—The term “ground support equipment” means service and maintenance equipment used at an airport to support aeronautical operations and related activities.

(5) PASSENGER FACILITY CHARGE.—The term “passenger facility charge” means a charge imposed under this section.

(6) PASSENGER FACILITY REVENUE.—The term “passenger facility revenue” means revenue derived from a passenger facility charge.

(b) GENERAL AUTHORITY.—(1) The Secretary of Transportation may authorize under this section an eligible agency to impose a passenger facility charge of \$1, \$2, or \$3 on each paying passenger of an air carrier or foreign air carrier boarding an aircraft at an airport the agency controls to finance an eligible airport-related project, including making payments for debt service on indebtedness incurred to carry out the project, to be carried out in connection with the airport or any other airport the agency controls.

(2) A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not regulate or prohibit the imposition or collection of a passenger facility charge or the use of the passenger facility revenue.

(3) A passenger facility charge may be imposed on a passenger of an air carrier or foreign air carrier originating or connecting at the commercial service airport that the agency controls.

(4) In lieu of authorizing a charge under paragraph (1), the Secretary may authorize under this section an eligible agency to impose a passenger facility charge of \$4.00 or \$4.50 on each paying passenger of an air carrier or foreign air carrier boarding an aircraft at an airport the agency controls to finance an eligible airport-related project, including making payments for debt service on indebtedness incurred to carry out the project.

(5) MAXIMUM COST FOR CERTAIN LOW-EMISSION TECHNOLOGY PROJECTS.—The maximum cost that may be financed by imposition of a passenger facility charge under this section for a project described in subsection (a)(3)(G) with respect to a vehicle or ground support equipment may not exceed the incremental amount of the project cost that is greater than the cost of acquiring a vehicle or equipment that is not low-emission and would be used for the same purpose, or the cost of low-emission retrofitting, as determined by the Secretary.

(6) DEBT SERVICE FOR CERTAIN PROJECTS.—In addition to the uses specified in paragraphs (1)

and (4), the Secretary may authorize a passenger facility charge imposed under paragraph (1) or (4) to be used for making payments for debt service on indebtedness incurred to carry out at the airport a project that is not an eligible airport-related project if the Secretary determines that such use is necessary due to the financial need of the airport.

(7) NOISE MITIGATION FOR CERTAIN SCHOOLS.—

(A) IN GENERAL.—In addition to the uses specified in paragraphs (1), (4), and (6), the Secretary may authorize a passenger facility charge imposed under paragraph (1) or (4) at a large hub airport that is the subject of an amended judgment and final order in condemnation filed on January 7, 1980, by the Superior Court of the State of California for the county of Los Angeles, to be used for a project to carry out noise mitigation for a building, or for the replacement of a relocatable building with a permanent building, in the noise impacted area surrounding the airport at which such building is used primarily for educational purposes, notwithstanding the air easement granted or any terms to the contrary in such judgment and final order, if—

(i) the Secretary determines that the building is adversely affected by airport noise;

(ii) the building is owned or chartered by the school district that was the plaintiff in case number 986,442 or 986,446, which was resolved by such judgment and final order;

(iii) the project is for a school identified in 1 of the settlement agreements effective February 16, 2005, between the airport and each of the school districts;

(iv) in the case of a project to replace a relocatable building with a permanent building, the eligible project costs are limited to the actual structural construction costs necessary to mitigate aircraft noise in instructional classrooms to an interior noise level meeting current standards of the Federal Aviation Administration; and

(v) the project otherwise meets the requirements of this section for authorization of a passenger facility charge.

(B) ELIGIBLE PROJECT COSTS.—In subparagraph (A)(iv), the term “eligible project costs” means the difference between the cost of standard school construction and the cost of construction necessary to mitigate classroom noise to the standards of the Federal Aviation Administration.

(c) APPLICATIONS.—(1) An eligible agency must submit to the Secretary an application for authority to impose a passenger facility charge. The application shall contain information and be in the form that the Secretary may require by regulation.

(2) Before submitting an application, the eligible agency must provide reasonable notice to, and an opportunity for consultation with, air carriers and foreign air carriers operating at the airport. The Secretary shall prescribe regulations that define reasonable notice and contain at least the following requirements:

(A) The agency must provide written notice of individual projects being considered for fi-

nancing by a passenger facility charge and the date and location of a meeting to present the projects to air carriers and foreign air carriers operating at the airport.

(B) Not later than 30 days after written notice is provided under subparagraph (A) of this paragraph, each air carrier and foreign air carrier operating at the airport must provide to the agency written notice of receipt of the notice. Failure of a carrier to provide the notice may be deemed certification of agreement with the project by the carrier under subparagraph (D) of this paragraph.

(C) Not later than 45 days after written notice is provided under subparagraph (A) of this paragraph, the agency must conduct a meeting to provide air carriers and foreign air carriers with descriptions of projects and justifications and a detailed financial plan for projects.

(D) Not later than 30 days after the meeting, each air carrier and foreign air carrier must provide to the agency certification of agreement or disagreement with projects (or total plan for the projects). Failure to provide the certification is deemed certification of agreement with the project by the carrier. A certification of disagreement is void if it does not contain the reasons for the disagreement.

(E) The agency must include in its application or notice submitted under subparagraph (A) copies of all certifications of agreement or disagreement received under subparagraph (D).

(F) For the purpose of this section, an eligible agency providing notice and an opportunity for consultation to an air carrier or foreign air carrier is deemed to have satisfied the requirements of this paragraph if the eligible agency limits such notices and consultations to air carriers and foreign air carriers that have a significant business interest at the airport. In the subparagraph, the term “significant business interest” means an air carrier or foreign air carrier that had no less than 1.0 percent of passenger boardings at the airport in the prior calendar year, had at least 25,000 passenger boardings at the airport in the prior calendar year, or provides scheduled service at the airport.

(3) Before submitting an application, the eligible agency must provide reasonable notice and an opportunity for public comment. The Secretary shall prescribe regulations that define reasonable notice and provide for at least the following under this paragraph:

(A) A requirement that the eligible agency provide public notice of intent to collect a passenger facility charge so as to inform those interested persons and agencies that may be affected. The public notice may include—

- (i) publication in local newspapers of general circulation;
- (ii) publication in other local media; and
- (iii) posting the notice on the agency’s Internet website.

(B) A requirement for submission of public comments no sooner than 30 days, and no later than 45 days, after the date of the publication of the notice.

(C) A requirement that the agency include in its application or notice submitted under subparagraph (A) copies of all comments received under subparagraph (B).

(4) After receiving an application, the Secretary may provide notice and an opportunity to air carriers, foreign air carriers, and other interested persons to comment on the application. The Secretary shall make a final decision on the application not later than 120 days after receiving it.

(d) LIMITATIONS ON APPROVING APPLICATIONS.—The Secretary may approve an application that an eligible agency has submitted under subsection (c) of this section to finance a specific project only if the Secretary finds, based on the application, that—

(1) the amount and duration of the proposed passenger facility charge will result in revenue (including interest and other returns on the revenue) that is not more than the amount necessary to finance the specific project;

(2) each project is an eligible airport-related project that will—

(A) preserve or enhance capacity, safety, or security of the national air transportation system;

(B) reduce noise resulting from an airport that is part of the system; or

(C) provide an opportunity for enhanced competition between or among air carriers and foreign air carriers;

(3) the application includes adequate justification for each of the specific projects; and

(4) in the case of an application to impose a charge of more than \$3.00 for an eligible surface transportation or terminal project, the agency has made adequate provision for financing the airside needs of the airport, including runways, taxiways, aprons, and aircraft gates.

(e) LIMITATIONS ON IMPOSING CHARGES.—(1) An eligible agency may impose a passenger facility charge only—

(A) if the Secretary approves an application that the agency has submitted under subsection (c) of this section; and

(B) subject to terms the Secretary may prescribe to carry out the objectives of this section.

(2) A passenger facility charge may not be collected from a passenger—

(A) for more than 2 boardings on a one-way trip or a trip in each direction of a round trip;

(B) for the boarding to an eligible place under subchapter II of chapter 417 of this title for which essential air service compensation is paid under subchapter II;

(C) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement, including any case in which the passenger obtained the ticket for the air transportation with a frequent flier award coupon without monetary payment;

(D) on flights, including flight segments, between 2 or more points in Hawaii;

(E) in Alaska aboard an aircraft having a seating capacity of less than 60 passengers; and

(F) enplaning at an airport if the passenger did not pay for the air transportation which resulted in such enplanement due to charter arrangements and payment by the Department of Defense.

(f) LIMITATIONS ON CONTRACTS, LEASES, AND USE AGREEMENTS.—(1) A contract between an air carrier or foreign air carrier and an eligible agency made at any time may not impair the authority of the agency to impose a passenger facility charge or to use the passenger facility revenue as provided in this section.

(2) A project financed with a passenger facility charge may not be subject to an exclusive long-term lease or use agreement of an air carrier or foreign air carrier, as defined by regulations of the Secretary.

(3) A lease or use agreement of an air carrier or foreign air carrier related to a project whose construction or expansion was financed with a passenger facility charge may not restrict the eligible agency from financing, developing, or assigning new capacity at the airport with passenger facility revenue.

(g) TREATMENT OF REVENUE.—(1) Passenger facility revenue is not airport revenue for purposes of establishing a price under a contract between an eligible agency and an air carrier or foreign air carrier.

(2) An eligible agency may not include in its price base the part of the capital costs of a project paid for by using passenger facility revenue to establish a price under a contract between the agency and an air carrier or foreign air carrier.

(3) For a project for terminal development, gates and related areas, or a facility occupied or used by at least one air carrier or foreign air carrier on an exclusive or preferential basis, a price payable by an air carrier or foreign air carrier using the facilities must at least equal the price paid by an air carrier or foreign air carrier using a similar facility at the airport that was not financed with passenger facility revenue.

(4) Passenger facility revenues that are held by an air carrier or an agent of the carrier after collection of a passenger facility charge constitute a trust fund that is held by the air carrier or agent for the beneficial interest of the eligible agency imposing the charge. Such carrier or agent holds neither legal nor equitable interest in the passenger facility revenues except for any handling fee or retention of interest collected on unremitted proceeds as may be allowed by the Secretary.

(h) COMPLIANCE.—(1) As necessary to ensure compliance with this section, the Secretary shall prescribe regulations requiring record-keeping and auditing of accounts maintained by an air carrier or foreign air carrier and its agent collecting a passenger facility charge and by the eligible agency imposing the charge.

(2) The Secretary periodically shall audit and review the use by an eligible agency of passenger facility revenue. After review and a public hearing, the Secretary may end any part of the authority of the agency to impose a passenger facility charge to the extent the Secretary decides that the revenue is not being used as provided in this section.

(3) The Secretary may set off amounts necessary to ensure compliance with this section

against amounts otherwise payable to an eligible agency under subchapter I of chapter 471 of this title if the Secretary decides a passenger facility charge is excessive or that passenger facility revenue is not being used as provided in this section.

(i) REGULATIONS.—The Secretary shall prescribe regulations necessary to carry out this section. The regulations—

(1) may prescribe the time and form by which a passenger facility charge takes effect;

(2) shall—

(A) require an air carrier or foreign air carrier and its agent to collect a passenger facility charge that an eligible agency imposes under this section;

(B) establish procedures for handling and remitting money collected;

(C) ensure that the money, less a uniform amount the Secretary determines reflects the average necessary and reasonable expenses (net of interest accruing to the carrier and agent after collection and before remittance) incurred in collecting and handling the charge, is paid promptly to the eligible agency for which they are collected; and

(D) require that the amount collected for any air transportation be noted on the ticket for that air transportation; and

(3) may permit an eligible agency to request that collection of a passenger facility charge be waived for—

(A) passengers enplaned by any class of air carrier or foreign air carrier if the number of passengers enplaned by the carriers in the class constitutes not more than one percent of the total number of passengers enplaned annually at the airport at which the charge is imposed; or

(B) passengers enplaned on a flight to an airport—

(i) that has fewer than 2,500 passenger boardings each year and receives scheduled passenger service; or

(ii) in a community which has a population of less than 10,000 and is not connected by a land highway or vehicular way to the land-connected National Highway System within a State.

(j) LIMITATION ON CERTAIN ACTIONS.—A State, political subdivision of a State, or authority of a State or political subdivision that is not the eligible agency may not tax, regulate, or prohibit or otherwise attempt to control in any manner, the imposition or collection of a passenger facility charge or the use of the revenue from the passenger facility charge.

(k) COMPETITION PLANS.—

(1) IN GENERAL.—Beginning in fiscal year 2001, no eligible agency may impose a passenger facility charge under this section with respect to a covered airport (as such term is defined in section 47106(f)) unless the agency has submitted to the Secretary a written competition plan in accordance with such section. This subsection does not apply to passenger facility charges in effect before the date of the enactment of this subsection.

(2) SECRETARY SHALL ENSURE IMPLEMENTATION AND COMPLIANCE.—The Secretary shall re-

view any plan submitted under paragraph (1) to ensure that it meets the requirements of this section, and shall review its implementation from time-to-time to ensure that each covered airport successfully implements its plan.

(I) PILOT PROGRAM FOR PASSENGER FACILITY CHARGE AUTHORIZATIONS.—

(1) IN GENERAL.—The Secretary shall establish a pilot program to test alternative procedures for authorizing eligible agencies for airports to impose passenger facility charges. An eligible agency may impose in accordance with the provisions of this subsection a passenger facility charge under this section. For purposes of the pilot program, the procedures in this subsection shall apply instead of the procedures otherwise provided in this section.

(2) NOTICE AND OPPORTUNITY FOR CONSULTATION.—The eligible agency must provide reasonable notice and an opportunity for consultation to air carriers and foreign air carriers in accordance with subsection (c)(2) and must provide reasonable notice and opportunity for public comment in accordance with subsection (c)(3).

(3) NOTICE OF INTENTION.—The eligible agency must submit to the Secretary a notice of intention to impose a passenger facility charge under this subsection. The notice shall include—

(A) information that the Secretary may require by regulation on each project for which authority to impose a passenger facility charge is sought;

(B) the amount of revenue from passenger facility charges that is proposed to be collected for each project; and

(C) the level of the passenger facility charge that is proposed.

(4) ACKNOWLEDGEMENT OF RECEIPT AND INDICATION OF OBJECTION.—The Secretary shall acknowledge receipt of the notice and indicate any objection to the imposition of a passenger facility charge under this subsection for any project identified in the notice within 30 days after receipt of the eligible agency's notice.

(5) AUTHORITY TO IMPOSE CHARGE.—Unless the Secretary objects within 30 days after receipt of the eligible agency's notice, the eligible agency is authorized to impose a passenger facility charge in accordance with the terms of its notice under this subsection.

(6) REGULATIONS.—The Secretary shall propose such regulations as may be necessary to carry out this subsection.

(7) ACKNOWLEDGEMENT NOT AN ORDER.—An acknowledgement issued under paragraph (4) shall not be considered an order issued by the Secretary for purposes of section 46110.

(m) FINANCIAL MANAGEMENT OF CHARGES.—

(1) HANDLING OF CHARGES.—A covered air carrier shall segregate in a separate account passenger facility revenue equal to the average monthly liability for charges collected under this section by such carrier or any of its agents for the benefit of the eligible agencies entitled to such revenue.

(2) TRUST FUND STATUS.—If a covered air carrier or its agent fails to segregate passenger

facility revenue in violation of the subsection, the trust fund status of such revenue shall not be defeated by an inability of any party to identify and trace the precise funds in the accounts of the air carrier.

(3) PROHIBITION.—A covered air carrier and its agents may not grant to any third party any security or other interest in passenger facility revenue.

(4) COMPENSATION TO ELIGIBLE ENTITIES.—A covered air carrier that fails to comply with any requirement of this subsection, or otherwise unnecessarily causes an eligible entity to expend funds, through litigation or otherwise, to recover or retain payment of passenger facility revenue to which the eligible entity is otherwise entitled shall be required to compensate the eligible agency for the costs so incurred.

(5) INTEREST ON AMOUNTS.—A covered air carrier that collects passenger facility charges is entitled to receive the interest on passenger facility charge accounts if the accounts are established and maintained in compliance with this subsection.

(6) EXISTING REGULATIONS.—The provisions of section 158.49 of title 14, Code of Federal Regulations, that permit the commingling of passenger facility charges with other air carrier revenue shall not apply to a covered air carrier.

(7) COVERED AIR CARRIER DEFINED.—In this section, the term “covered air carrier” means an air carrier that files for chapter 7 or chapter 11 of title 11 bankruptcy protection, or has an involuntary chapter 7 of title 11 bankruptcy proceeding commenced against it, after the date of enactment of this subsection.

(n) USE OF REVENUES AT PREVIOUSLY ASSOCIATED AIRPORT.—Notwithstanding the requirements relating to airport control under subsection (b)(1), the Secretary may authorize use of a passenger facility charge under subsection (b) to finance an eligible airport-related project if—

(1) the eligible agency seeking to impose the new charge controls an airport where a \$2.00 passenger facility charge became effective on January 1, 2013; and

(2) the location of the project to be financed by the new charge is at an airport that was under the control of the same eligible agency that had controlled the airport described in paragraph (1).

In subsection (a), before clause (1), the text of 49 App.:1513(e)(15)(A) is omitted for clarity and because the terms “air carrier” and “foreign air carrier” are used the first time they appear in each subsection. The text of 49 App.:1513(e)(15)(D) is omitted because the complete name of the Secretary of Transportation is used the first time the term appears in this section. Clauses (2), (4), and (5) are added to avoid repeating the source provisions throughout this section. In clause (3)(D), the words “without regard to” are omitted as surplus.

In subsection (b)(1), the words “bonds and other” are omitted as surplus.

In subsection (b)(2), the word “limit” is omitted as being included in “regulate”.

In subsection (d), before clause (1), the text of 49 App.:1513(e)(5) is omitted as executed. The words “approve an application that an eligible agency has submitted under subsection (c) of this section” are sub-

stituted for “grant a public agency which controls a commercial service airport authority to impose a fee under this subsection” for clarity.

In subsection (e)(1)(B), the words “and conditions” are omitted as being included in “terms”.

Subsection (e)(2)(A) is substituted for 49 App.:1513(e)(6) (last sentence) to eliminate unnecessary words.

In subsection (e)(2)(B), the words “a public agency which controls any other airport”, “If a passenger of an air carrier is being provided air service”, and “with respect to such air service” are omitted as surplus.

fewer commercial air tour operations over the park each year shall be exempt from the requirements of this section, except as provided in subparagraph (B).

(B) WITHDRAWAL OF EXEMPTION.—If the Director determines that an air tour management plan or voluntary agreement is necessary to protect park resources and values or park visitor use and enjoyment, the Director shall withdraw the exemption of a park under subparagraph (A).

(C) LIST OF PARKS.—

(i) IN GENERAL.—The Director and Administrator shall jointly publish a list each year of national parks that are covered by the exemption provided under this paragraph.

(ii) NOTIFICATION OF WITHDRAWAL OF EXEMPTION.—The Director shall inform the Administrator, in writing, of each determination to withdraw an exemption under subparagraph (B).

(D) ANNUAL REPORT.—A commercial air tour operator conducting commercial air tour operations over a national park that is exempt from the requirements of this section shall submit to the Administrator and the Director a report each year that includes the number of commercial air tour operations the operator conducted during the preceding 1-year period over such park.

(b) AIR TOUR MANAGEMENT PLANS.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, shall establish an air tour management plan for any national park or tribal land for which such a plan is not in effect whenever a person applies for authority to conduct a commercial air tour operation over the park. The air tour management plan shall be developed by means of a public process in accordance with paragraph (4).

(B) OBJECTIVE.—The objective of any air tour management plan shall be to develop acceptable and effective measures to mitigate or prevent the significant adverse impacts, if any, of commercial air tour operations upon the natural and cultural resources, visitor experiences, and tribal lands.

(C) EXCEPTION.—An application to begin or expand commercial air tour operations at Crater Lake National Park or Great Smoky Mountains National Park may be denied without the establishment of an air tour management plan by the Director of the National Park Service if the Director determines that such operations would adversely affect park resources or visitor experiences.

(2) ENVIRONMENTAL DETERMINATION.—In establishing an air tour management plan under this subsection, the Administrator and the Director shall each sign the environmental decision document required by section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) which may include a finding of no significant impact, an environmental assessment, or an environmental impact statement and the record of decision for the air tour management plan.

(3) CONTENTS.—An air tour management plan for a national park—

(A) may prohibit commercial air tour operations over a national park in whole or in part;

(B) may establish conditions for the conduct of commercial air tour operations over a national park, including commercial air tour routes, maximum or minimum altitudes, time-of-day restrictions, restrictions for particular events, maximum number of flights per unit of time, intrusions on privacy on tribal lands, and mitigation of noise, visual, or other impacts;

(C) shall apply to all commercial air tour operations over a national park that are also within ½ mile outside the boundary of a national park;

(D) shall include incentives (such as preferred commercial air tour routes and altitudes, relief from caps and curfews) for the adoption of quiet aircraft technology by commercial air tour operators conducting commercial air tour operations over a national park;

(E) shall provide for the initial allocation of opportunities to conduct commercial air tour operations over a national park if the plan includes a limitation on the number of commercial air tour operations for any time period; and

(F) shall justify and document the need for measures taken pursuant to subparagraphs (A) through (E) and include such justifications in the record of decision.

(4) PROCEDURE.—In establishing an air tour management plan for a national park or tribal lands, the Administrator and the Director shall—

(A) hold at least one public meeting with interested parties to develop the air tour management plan;

(B) publish the proposed plan in the Federal Register for notice and comment and make copies of the proposed plan available to the public;

(C) comply with the regulations set forth in sections 1501.3 and 1501.5 through 1501.8 of title 40, Code of Federal Regulations (for purposes of complying with the regulations, the Federal Aviation Administration shall be the lead agency and the National Park Service is a cooperating agency); and

(D) solicit the participation of any Indian tribe whose tribal lands are, or may be, overflowed by aircraft involved in a commercial air tour operation over the park or tribal lands to which the plan applies, as a cooperating agency under the regulations referred to in subparagraph (C).

(5) JUDICIAL REVIEW.—An air tour management plan developed under this subsection shall be subject to judicial review.

(6) AMENDMENTS.—The Administrator, in cooperation with the Director, may make amendments to an air tour management plan. Any such amendments shall be published in the Federal Register for notice and comment. A request for amendment of an air tour management plan shall be made in such form and manner as the Administrator may prescribe.

(7) VOLUNTARY AGREEMENTS.—

(A) IN GENERAL.—As an alternative to an air tour management plan, the Director and the Administrator may enter into a voluntary agreement with a commercial air tour operator (including a new entrant commercial air tour operator and an operator that has interim operating authority) that has applied to conduct commercial air tour operations over a national park to manage commercial air tour operations over such national park.

(B) PARK PROTECTION.—A voluntary agreement under this paragraph with respect to commercial air tour operations over a national park shall address the management issues necessary to protect the resources of such park and visitor use of such park without compromising aviation safety or the air traffic control system and may—

(i) include provisions such as those described in subparagraphs (B) through (E) of paragraph (3);

(ii) include provisions to ensure the stability of, and compliance with, the voluntary agreement; and

(iii) provide for fees for such operations.

(C) PUBLIC REVIEW.—The Director and the Administrator shall provide an opportunity for public review of a proposed voluntary agreement under this paragraph and shall consult with any Indian tribe whose tribal lands are, or may be, flown over by a commercial air tour operator under a voluntary agreement under this paragraph. After such opportunity for public review and consultation, the voluntary agreement may be implemented without further administrative or environmental process beyond that described in this subsection.

(D) TERMINATION.—

(i) IN GENERAL.—A voluntary agreement under this paragraph may be terminated at any time at the discretion of—

(I) the Director, if the Director determines that the agreement is not adequately protecting park resources or visitor experiences; or

(II) the Administrator, if the Administrator determines that the agreement is adversely affecting aviation safety or the national aviation system.

(ii) EFFECT OF TERMINATION.—If a voluntary agreement with respect to a national park is terminated under this subparagraph, the operators shall conform to the requirements for interim operating authority under subsection (c) until an air tour management plan for the park is in effect.

(c) INTERIM OPERATING AUTHORITY.—

(1) IN GENERAL.—Upon application for operating authority, the Administrator shall grant interim operating authority under this subsection to a commercial air tour operator for commercial air tour operations over a national park or tribal lands for which the operator is an existing commercial air tour operator.

(2) REQUIREMENTS AND LIMITATIONS.—Interim operating authority granted under this subsection—

(A) shall provide annual authorization only for the greater of—

(i) the number of flights used by the operator to provide the commercial air tour operations over a national park within the 12-month period prior to the date of the enactment of this section; or

(ii) the average number of flights per 12-month period used by the operator to provide such operations within the 36-month period prior to such date of enactment, and, for seasonal operations, the number of flights so used during the season or seasons covered by that 12-month period;

(B) may not provide for an increase in the number of commercial air tour operations over a national park conducted during any time period by the commercial air tour operator above the number that the air tour operator was originally granted unless such an increase is agreed to by the Administrator and the Director;

(C) shall be published in the Federal Register to provide notice and opportunity for comment;

(D) may be revoked by the Administrator for cause;

(E) shall terminate 180 days after the date on which an air tour management plan is established for the park or tribal lands;

(F) shall promote protection of national park resources, visitor experiences, and tribal lands;

(G) shall promote safe commercial air tour operations;

(H) shall promote the adoption of quiet technology, as appropriate; and

(I) may allow for modifications of the interim operating authority without further environmental review beyond that described in this subsection, if—

(i) adequate information regarding the existing and proposed operations of the operator under the interim operating authority is provided to the Administrator and the Director;

(ii) the Administrator determines that there would be no adverse impact on aviation safety or the air traffic control system; and

(iii) the Director agrees with the modification, based on the professional expertise of the Director regarding the protection of the resources, values, and visitor use and enjoyment of the park.

(3) NEW ENTRANT AIR TOUR OPERATORS.—

(A) IN GENERAL.—The Administrator, in cooperation with the Director, may grant interim operating authority under this paragraph to an air tour operator for a national park or tribal lands for which that operator is a new entrant air tour operator without further environmental process beyond that described in this paragraph, if—

(i) adequate information on the proposed operations of the operator is provided to the Administrator and the Director by the operator making the request;

(ii) the Administrator agrees that there would be no adverse impact on aviation safety or the air traffic control system; and

(iii) the Director agrees, based on the Director's professional expertise regarding the protection of park resources and values and visitor use and enjoyment.

(B) SAFETY LIMITATION.—The Administrator may not grant interim operating authority under subparagraph (A) if the Administrator determines that it would create a safety problem at the park or on the tribal lands, or the Director determines that it would create a noise problem at the park or on the tribal lands.

(C) ATMP LIMITATION.—The Administrator may grant interim operating authority under subparagraph (A) of this paragraph only if the air tour management plan for the park or tribal lands to which the application relates has not been developed within 24 months after the date of the enactment of this section.

(d) COMMERCIAL AIR TOUR OPERATOR REPORTS.—

(1) REPORT.—Each commercial air tour operator conducting a commercial air tour operation over a national park under interim operating authority granted under subsection (c) or in accordance with an air tour management plan or voluntary agreement under subsection (b) shall submit to the Administrator and the Director a report regarding the number of commercial air tour operations over each national park that are conducted by the operator and such other information as the Administrator and Director may request in order to facilitate administering the provisions of this section.

(2) REPORT SUBMISSION.—Not later than 90 days after the date of enactment of the FAA Modernization and Reform Act of 2012, the Administrator and the Director shall jointly issue an initial request for reports under this subsection. The reports shall be submitted to the Administrator and the Director with a frequency and in a format prescribed by the Administrator and the Director.

(e) EXEMPTIONS.—This section shall not apply to—

- (1) the Grand Canyon National Park; or
- (2) tribal lands within or abutting the Grand Canyon National Park.

(f) LAKE MEAD.—This section shall not apply to any air tour operator while flying over or near the Lake Mead National Recreation Area, solely as a transportation route, to conduct an air tour over the Grand Canyon National Park. For purposes of this subsection, an air tour operator flying over the Hoover Dam in the Lake Mead National Recreation Area en route to the Grand Canyon National Park shall be deemed to be flying solely as a transportation route.

(ii) less than 1 mile laterally from any geographic feature within the park (unless more than $\frac{1}{2}$ mile outside the boundary).

(B) FACTORS TO CONSIDER.—In making a determination of whether a flight is a commercial air tour operation over a national park for purposes of this section, the Administrator may consider—

(i) whether there was a holding out to the public of willingness to conduct a sightseeing flight for compensation or hire;

(ii) whether a narrative that referred to areas or points of interest on the surface below the route of the flight was provided by the person offering the flight;

OVERFLIGHTS IN GRAND CANYON NATIONAL PARK

Pub. L. 112–141, div. C, title V, §35001, July 6, 2012, 126 Stat. 842, provided that:

“(a) DETERMINATIONS WITH RESPECT TO SUBSTANTIAL RESTORATION OF NATURAL QUIET AND EXPERIENCE.—

“(1) IN GENERAL.—Notwithstanding any other provision of law, for purposes of section 3(b)(1) of Public Law 100–91 ([former] 16 U.S.C. 1a–1 note [now set out below]), the substantial restoration of the natural quiet and experience of the Grand Canyon National Park (in this section referred to as the ‘Park’) shall be considered to be achieved in the Park if, for at least 75 percent of each day, 50 percent of the Park is free of sound produced by commercial air tour operations that have an allocation to conduct commercial air tours in the Park as of the date of enactment of this Act [see section 3(a), (b) of Pub. L. 112–141, set out as Effective and Termination Dates of 2012 Amendment notes under section 101 of Title 23, Highways].

“(2) CONSIDERATIONS.—

“(A) IN GENERAL.—For purposes of determining whether substantial restoration of the natural quiet and experience of the Park has been achieved in accordance with paragraph (1), the Secretary of the Interior (in this section referred to as the ‘Secretary’) shall use—

“(i) the 2-zone system for the Park in effect on the date of enactment of this Act to assess impacts relating to substantial restoration of natural quiet at the Park, including—

“(I) the thresholds for noticeability and audibility; and

“(II) the distribution of land between the 2 zones; and

“(ii) noise modeling science that is—

“(I) developed for use at the Park, specifically Integrated Noise Model Version 6.2;

“(II) validated by reasonable standards for conducting field observations of model results; and

“(III) accepted and validated by the Federal Interagency Committee on Aviation Noise.

“(B) SOUND FROM OTHER SOURCES.—The Secretary shall not consider sound produced by sources other than commercial air tour operations, including sound emitted by other types of aircraft operations or other noise sources, for purposes of—

“(i) making recommendations, developing a final plan, or issuing regulations relating to commercial air tour operations in the Park; or

“(ii) determining under paragraph (1) whether substantial restoration of the natural quiet and experience of the Park has been achieved.

“(3) CONTINUED MONITORING.—The Secretary shall continue monitoring noise from aircraft operating over the Park below 17,999 feet MSL to ensure continued compliance with the substantial restoration of natural quiet and experience of the Park.

“(4) DAY DEFINED.—For purposes of this section, the term ‘day’ means the hours between 7:00 a.m. and 7:00 p.m.

“(b) CONVERSION TO QUIET TECHNOLOGY AIRCRAFT.—

“(1) IN GENERAL.—Not later than 15 years after the date of enactment of this Act, all commercial air tour aircraft operating in the Grand Canyon National Park Special Flight Rules Area shall be required to fully convert to quiet aircraft technology (as determined in accordance with regulations in effect on the day before the date of enactment of this Act).
