EX. ORD. NO. 13330. HUMAN SERVICE TRANSPORTATION COORDINATION

Ex. Ord. No. 13330, Feb. 24, 2004, 69 F.R. 9185, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance access to transportation to improve mobility, employment opportunities, and access to community services for persons who are transportation-disadvantaged, it is hereby ordered as follows:

SECTION 1. This order is issued consistent with the following findings and principles:

(a) A strong America depends on citizens who are productive and who actively participate in the life of their communities.

(b) Transportation plays a critical role in providing access to employment, medical and health care, education, and other community services and amenities. The importance of this role is underscored by the variety of transportation programs that have been created in conjunction with health and human service programs, and by the significant Federal investment in accessible public transportation systems throughout the Nation.

(c) These transportation resources, however, are often difficult for citizens to understand and access, and are more costly than necessary due to inconsistent and unnecessary Federal and State program rules and restrictions.

(d) A broad range of Federal program funding allows for the purchase or provision of transportation services and resources for persons who are transportation-disadvantaged. Yet, in too many communities, these services and resources are fragmented, unused, or altogether unavailable.

(e) Federally assisted community transportation services should be seamless, comprehensive, and accessible to those who rely on them for their lives and livelihoods. For persons with mobility limitations related

to advanced age, persons with disabilities, and persons struggling for self-sufficiency, transportation within and between our communities should be as available and affordable as possible.

(f) The development, implementation, and maintenance of responsive, comprehensive, coordinated community transportation systems is essential for persons with disabilities, persons with low incomes, and older adults who rely on such transportation to fully participate in their communities.

SEC. 2. *Definitions.* (a) As used in this order, the term “agency” means an executive department or agency of the Federal Government.

(b) For the purposes of this order, persons who are transportation-disadvantaged are persons who qualify for Federally conducted or Federally assisted transportation-related programs or services due to disability, income, or advanced age.

SEC. 3. *Establishment of the Interagency Transportation Coordinating Council on Access and Mobility.* (a) There is hereby established, within the Department of Transportation for administrative purposes, the “Interagency Transportation Coordinating Council on Access and Mobility” (“Interagency Transportation Coordinating Council” or “Council”). The membership of the Interagency Transportation Coordinating Council shall consist of:

(i) the Secretaries of Transportation, Health and Human Services, Education, Labor, Veterans Affairs, Agriculture, Housing and Urban Development, and the Interior, the Attorney General, and the Commissioner of Social Security; and

(ii) such other Federal officials as the Chairperson of the Council may designate.

(b) The Secretary of Transportation, or the Secretary’s designee, shall serve as the Chairperson of the Council. The Chairperson shall convene and preside at meetings of the Council, determine its agenda, direct its work, and, as appropriate to particular subject matters, establish and direct subgroups of the Council, which shall consist exclusively of the Council’s members.

(c) A member of the Council may designate any person who is part of the member’s agency and who is an officer appointed by the President or a full-time employee serving in a position with pay equal to or greater than the minimum rate payable for GS-15 of the General Schedule to perform functions of the Council or its subgroups on the member’s behalf.

SEC. 4. *Functions of the Interagency Transportation Coordinating Council.* The Interagency Transportation Coordinating Council shall:

(a) promote interagency cooperation and the establishment of appropriate mechanisms to minimize duplication and overlap of Federal programs and services so that transportation-disadvantaged persons have access to more transportation services;

(b) facilitate access to the most appropriate, cost-effective transportation services within existing resources;

(c) encourage enhanced customer access to the variety of transportation and resources available;

(d) formulate and implement administrative, policy, and procedural mechanisms that enhance transportation services at all levels; and

(e) develop and implement a method for monitoring progress on achieving the goals of this order.

SEC. 5. *Report.* In performing its functions, the Interagency Transportation Coordinating Council shall present to me a report not later than 1 calendar year from the date of this order. The report shall:

(a) identify those Federal, State, Tribal and local laws, regulations, procedures, and actions that have proven to be most useful and appropriate in coordinating transportation services for the targeted populations;

(b) identify substantive and procedural requirements of transportation-related Federal laws and regulations that are duplicative or restrict the laws’ and regulations’ most efficient operation;

(c) Describe the results achieved, on an agency and program basis, in: (i) simplifying access to transportation services for persons with disabilities, persons with low income, and older adults; (ii) providing the most appropriate, cost-effective transportation services within existing resources; and (iii) reducing duplication to make funds available for more services to more such persons;

(d) Provide recommendations to simplify and coordinate applicable substantive, procedural, and administrative requirements; and

(e) Provide any other recommendations that would, in the judgment of the Council, advance the principles set forth in section 1 of this order.

SEC. 6. *General.* (a) Agencies shall assist the Interagency Transportation Coordinating Council and provide information to the Council consistent with applicable law as may be necessary to carry out its functions. To the extent permitted by law, and as permitted by available agency resources, the Department of Transportation shall provide funding and administrative support for the Council.

(b) Nothing in this order shall be construed to impair or otherwise affect the functions of the Director of the Office of Management and Budget relating to budget, administrative, or legislative proposals.

(c) This order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

GEORGE W. BUSH.

PUB. L. 103-272

Section 4(j)(3)(B) amends 49:106(g) to list the duties and powers of the Secretary of Transportation that the Administrator of the Federal Aviation Administration carries out. The duties and powers are derived from 2 sources. Some were transferred by former 49 App.:1655(c)(1), restated as 49:106 in section 1 of the Act of January 12, 1983 (Public Law 97-449, 96 Stat. 2417). The others are from laws enacted after October 15, 1966, in which the duties and powers are to be carried out by the Administrator rather than the Secretary.

INTERNET AVAILABILITY OF INFORMATION

Pub. L. 106-181, title IX, §903, Apr. 5, 2000, 114 Stat. 196, provided that: “The Administrator [of the Federal

Aviation Administration] shall make available through the Internet home page of the Federal Aviation Administration the abstracts relating to all research grants and awards made with funds authorized by the amendments made by this Act [see Tables for classification]. Nothing in this section shall be construed to require or permit the release of any information prohibited by law or regulation from being released to the public.”

FINDINGS

Pub. L. 104-264, title II, §221, Oct. 9, 1996, 110 Stat. 3227, provided that: “Congress finds the following:

“(1) In many respects the Administration is a unique agency, being one of the few non-defense government agencies that operates 24 hours a day, 365 days of the year, while continuing to rely on outdated technology to carry out its responsibilities for a state-of-the-art industry.

“(2) Until January 1, 1996, users of the air transportation system paid 70 percent of the budget of the Administration, with the remaining 30 percent coming from the General Fund. The General Fund contribution over the years is one measure of the benefit received by the general public, military, and other users of Administration’s services.

“(3) The Administration must become a more efficient, effective, and different organization to meet future challenges.

“(4) The need to balance the Federal budget means that it may become more and more difficult to obtain sufficient General Fund contributions to meet the Administration’s future budget needs.

“(5) Congress must keep its commitment to the users of the national air transportation system by seeking to spend all moneys collected from them each year and deposited into the Airport and Airway Trust Fund. Existing surpluses representing past receipts must also be spent for the purposes for which such funds were collected.

“(6) The aviation community and the employees of the Administration must come together to improve the system. The Administration must continue to recognize who its customers are and what their needs are, and to design and redesign the system to make safety improvements and increase productivity.

“(7) The Administration projects that commercial operations will increase by 18 percent and passenger traffic by 35 percent by the year 2002. Without effective airport expansion and system modernization, these needs cannot be met.

“(8) Absent significant and meaningful reform, future challenges and needs cannot be met.

“(9) The Administration must have a new way of doing business.

“(10) There is widespread agreement within government and the aviation industry that reform of the Administration is essential to safely and efficiently accommodate the projected growth of aviation within the next decade.

“(11) To the extent that Congress determines that certain segments of the aviation community are not required to pay all of the costs of the government services which they require and benefits which they receive, Congress should appropriate the difference between such costs and any receipts received from such segment.

“(12) Prior to the imposition of any new charges or user fees on segments of the industry, an independent review must be performed to assess the funding needs and assumptions for operations, capital spending, and airport infrastructure.

“(13) An independent, thorough, and complete study and assessment must be performed of the costs to the Administration and the costs driven by each segment of the aviation system for safety and operational services, including the use of the air traffic control system and the Nation’s airports.

“(14) Because the Administration is a unique Federal entity in that it is a participant in the daily operations of an industry, and because the national air

transportation system faces significant problems without significant changes, the Administration has been authorized to change the Federal procurement and personnel systems to ensure that the Administration has the ability to keep pace with new technology and is able to match resources with the real personnel needs of the Administration.

“(15) The existing budget system does not allow for long-term planning or timely acquisition of technology by the Administration.

“(16) Without reforms in the areas of procurement, personnel, funding, and governance, the Administration will continue to experience delays and cost overruns in its major modernization programs and needed improvements in the performance of the air traffic management system will not occur.

“(17) All reforms should be designed to help the Administration become more responsive to the needs of its customers and maintain the highest standards of safety.”

PURPOSES

Pub. L. 104-264, title II, §222, Oct. 9, 1996, 110 Stat. 3229, provided that: “The purposes of this title [see Effective Date of 1996 Amendment note set out above] are—

“(1) to ensure that final action shall be taken on all notices of proposed rulemaking of the Administration within 18 months after the date of their publication;

“(2) to permit the Administration, with Congressional review, to establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

“(3) to establish a more autonomous and accountable Administration within the Department of Transportation; and

“(4) to make the Administration a more efficient and effective organization, able to meet the needs of a dynamic, growing industry, and to ensure the safety of the traveling public.”

costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents; and (2) for transportation of said dependents between schools serving the area that they attend and their places of residence when the Secretary, under such regulations as may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.”

EX. ORD. NO. 13180. AIR TRAFFIC PERFORMANCE-BASED ORGANIZATION

Ex. Ord. No. 13180, Dec. 7, 2000, 65 F.R. 77493, as amended by Ex. Ord. No. 13264, June 4, 2002, 67 F.R. 39243, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to further improve the provision of air traffic services in ways that increase efficiency, take better advantage of new technologies, accelerate modernization efforts, and respond more effectively to the needs of the traveling public, while enhancing the safety, security, and efficiency of the Nation's air transportation system, it is hereby ordered as follows:

SECTION 1. *Establishment of the Air Traffic Organization.* (a) The Secretary of Transportation (Secretary) shall, consistent with his legal authorities, move to establish within the Federal Aviation Administration (FAA) a performance-based organization to be known as the "Air Traffic Organization" (ATO).

(b) The ATO shall be composed of those elements of the FAA's Air Traffic Services and Research and Acquisition organizations that have direct connection and give support to the provision of day-to-day operational air traffic services, as determined by the Administrator of the Federal Aviation Administration (Administrator). The Administrator may delegate responsibility for any operational activity of the air traffic control system to the head of the ATO. The Administrator's responsibility for general safety, security, and policy-making functions for the National Airspace System is unaffected by this order.

(c) The Chief Operating Officer (COO) of the Air Traffic Control System, established by the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (Air-21) (Public Law 106-181) [see Short Title of 2000 Amendments note set out under section 40101 of this title], shall head the ATO and shall report directly to the Administrator and be subject to the authority of the Administrator. The COO, in consultation with the Air Traffic Control Subcommittee of the Aviation Management Advisory Committee, shall enter into an annual performance agreement with the Administrator that sets forth measurable organization and individual goals in key operational areas and describes specific targets and how such goals will be achieved. The COO may receive an annual bonus not to exceed 30 percent of the annual rate of basic pay, based upon the Administrator's evaluation of the COO's performance in relation to the targets and goals described above.

(d) The COO shall develop a 5-year strategic plan for the air traffic control system, including a clear statement of the mission and objectives for the system's safety, efficiency, and productivity. This strategic plan must ensure that ATO actions are consistent with long-term FAA strategies for the aviation system as a whole.

(e) The COO shall also enter into a framework agreement with the Administrator that will establish the relationship of the ATO with the other organizations of the FAA.

SEC. 2. *Purpose.* The FAA's primary mission is to ensure the safety, security, and efficiency of the National Airspace System. The purpose of this order is to enhance that mission and further improve the delivery of air traffic services to the American public by reorganizing the FAA's air traffic services and related offices into a performance-based, results-oriented, organization. The ATO will be better able to make use of the unique procurement and personnel authorities that the FAA currently has and to better use the additional management reforms enacted by the Congress this year under Air-21. Specifically, the ATO shall:

- (a) optimize use of existing management flexibilities and authorities to improve the efficiency of air traffic services and increase the capacity of the system;
- (b) develop methods to accelerate air traffic control modernization and to improve aviation safety related to air traffic control;

(c) develop agreements with the Administrator of the FAA and users of the products, services, and capabilities it will provide;

(d) operate in accordance with safety performance standards developed by the FAA and rapidly respond to FAA safety and security oversight findings;

(e) consult with its customers, the traveling public, including direct users such as airlines, cargo carriers, manufacturers, airports, general aviation, and commercial space transportation providers, and focus on producing results that satisfy the FAA's external customer needs;

(f) consult with appropriate Federal, State, and local public agencies, including the Department of Defense and the National Aeronautics and Space Administra-

tion, to determine the best practices for meeting the diverse needs throughout the National Airspace System;

(g) establish strong incentives to managers for achieving results; and

(h) formulate and recommend to the Administrator any management, fiscal, or legislative changes necessary for the organization to achieve its performance goals.

SEC. 3. *Aviation Management Advisory Committee.* The Air Traffic Control Subcommittee of the Aviation Management Advisory Committee shall provide, consistent with its responsibilities under Air-21, general oversight to ATO regarding the administration, management, conduct, direction, and supervision of the air traffic control system.

SEC. 4. *Evaluation and Report.* Not later than 5 years after the date of this order, the Aviation Management Advisory Committee shall provide to the Secretary and the Administrator a report on the operation and effectiveness of the ATO, together with any recommendations for management, fiscal, or legislative changes to enable the organization to achieve its goals.

SEC. 5. *Definitions.* The term “air traffic control system” has the same meaning as the term defined by section 40102(a)(42) [now 40102(a)(47)] of title 49, United States Code.

SEC. 6. *Judicial Review.* This order is intended only to improve the internal management of the executive branch and is not intended to, nor does it, create any right to administrative or judicial review, or any right, whether substantive or procedural, enforceable by any party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

109(i)(3)	46 App.:1295c-1.	

In subsection (b), the words “The Assistant Secretary of Commerce for Maritime Affairs shall, ex officio, be the Administrator” in section 201 of Reorganization Plan No. 7 of 1961 are omitted as superseded by 46 App. U.S.C. 1601 and 1603. The words “and who shall be compensated at the rate provided for level III of the Executive Schedule” in 46 App. U.S.C. 1603 are omitted as unnecessary because of 5 U.S.C. 5314.

In subsection (c), the word “Secretary” means the “Secretary of Transportation” because under 46 App. U.S.C. 1602 all functions, powers, and duties relating to

the Maritime Administration were transferred from the Secretary of Commerce to the Secretary of Transportation. The words “in the competitive service” are substituted for “under the classified civil service” because of 5 U.S.C. 2102(c). The words “*Provided*, That such Deputy Administrator shall at no time sit as a member or acting member of the Federal Maritime Board” are omitted as obsolete because the Federal Maritime Board was abolished by section 304 of Reorganization Plan No. 7 of 1961 (46 App. U.S.C. 1111 note).

In subsection (f), the words “vessels of the United States” are substituted for “vessels of United States registry” because of the definition of “vessel of the United States” in chapter 1 of the revised title.

In subsection (g), the words “equal to the amount that would be paid to an individual performing work the Secretary considers to be of similar importance, difficulty, and responsibility” are substituted for “equal to the pay and allowances he would receive if he were the incumbent of an office or position in such service (or in the corresponding executive department), which, in the opinion of . . . the Secretary of Transportation, involves the performance of work similar in importance, difficulty, and responsibility” to eliminate unnecessary words.

In subsection (h)(2), the words “according to approved commercial practice as provided in the Act of March 20, 1922 (42 Stat. 444)” are omitted as obsolete and unnecessary.

In subsection (i)(2), the words “Notwithstanding any other provision of this chapter or any other law” are omitted as unnecessary. In clause (G), the words “National Defense Reserve Fleet” are substituted for “reserve fleet” for clarity. Clause (H) is substituted for “(7) maritime training at the Merchant Marine Academy at Kings Point, New York”, “(8) financial assistance to State maritime academies under section 1295c of this Appendix”, “(10) expenses necessary for additional training provided under section 1295d of this Appendix”, and “(10) expenses necessary to carry out subchapter XIII of this chapter” because of the reorganization of revised title 46 and to eliminate unnecessary words. The text of 46 App. U.S.C. 1119 (proviso) is omitted as obsolete.

A, title V, § 5302, Dec. 4, 2015, 129 Stat. 1543, provided that: “The Administrator of the Federal Motor Carrier Safety Administration shall prioritize the completion of each outstanding rulemaking required by statute before beginning any other rulemaking, unless the Secretary [of Transportation] determines that there is a significant need for such other rulemaking and notifies Congress of such determination.”

FINDINGS

Pub. L. 106-159, § 3, Dec. 9, 1999, 113 Stat. 1749, provided that: “Congress makes the following findings:

“(1) The current rate, number, and severity of crashes involving motor carriers in the United States are unacceptable.

“(2) The number of Federal and State commercial motor vehicle and operator inspections is insufficient and civil penalties for violators must be utilized to deter future violations.

“(3) The Department of Transportation is failing to meet statutorily mandated deadlines for completing rulemaking proceedings on motor carrier safety and, in some significant safety rulemaking proceedings, including driver hours-of-service regulations, extensive periods have elapsed without progress toward resolution or implementation.

“(4) Too few motor carriers undergo compliance reviews and the Department’s data bases and information systems require substantial improvement to enhance the Department’s ability to target inspection and enforcement resources toward the most serious safety problems and to improve States’ ability to keep dangerous drivers off the roads.

“(5) Additional safety inspectors and inspection facilities are needed in international border areas to ensure that commercial motor vehicles, drivers, and carriers comply with United States safety standards.

“(6) The Department should rigorously avoid conflicts of interest in federally funded research.

“(7) Meaningful measures to improve safety must be implemented expeditiously to prevent increases in motor carrier crashes, injuries, and fatalities.

“(8) Proper use of Federal resources is essential to the Department’s ability to improve its research, rulemaking, oversight, and enforcement activities related to commercial motor vehicles, operators, and carriers.”

PURPOSES

Pub. L. 106-159, § 4, Dec. 9, 1999, 113 Stat. 1749, provided that: “The purposes of this Act [see Tables for classification] are—

“(1) to improve the administration of the Federal motor carrier safety program and to establish a Federal Motor Carrier Safety Administration in the Department of Transportation; and

“(2) to reduce the number and severity of large-truck involved crashes through more commercial motor vehicle and operator inspections and motor carrier compliance reviews, stronger enforcement measures against violators, expedited completion of rulemaking proceedings, scientifically sound research, and effective commercial driver’s license testing, recordkeeping and sanctions.”

SAVINGS PROVISION

Pub. L. 106-159, title I, § 106, Dec. 9, 1999, 113 Stat. 1756, provided that:

“(a) TRANSFER OF ASSETS AND PERSONNEL.—Except as otherwise provided in this Act [see Tables for classification] and the amendments made by this Act, those personnel, property, and records employed, used, held, available, or to be made available in connection with a function transferred to the Federal Motor Carrier Safe-

Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this Act had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or revoked by a duly authorized official, by a court of competent jurisdiction, or by operation of law.

“(2) **STATUTORY CONSTRUCTION.**—Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any proceeding described in paragraph (1) under the same terms and conditions and to the same extent that such proceeding could have been discontinued or modified if this Act had not been enacted.

“(3) **ORDERLY TRANSFER.**—The Secretary is authorized to provide for the orderly transfer of pending proceedings from the Office.

“(d) **SUITS.**—

“(1) **IN GENERAL.**—This Act shall not affect suits commenced before the date of the enactment of this Act [Dec. 9, 1999], except as provided in paragraphs (2) and (3). No cause of action by or against the Office, or by or against any officer thereof in his official capacity, shall abate by reason of the enactment of this Act.

“(f) **EXERCISE OF AUTHORITIES.**—Except as otherwise provided by law, an officer or employee of the Adminis-

tration may, for purposes of performing a function transferred by this Act or the amendments made by this Act, exercise all authorities under any other provision of law that were available with respect to the performance of that function to the official responsible for the performance of the function immediately before the effective date of the transfer of the function under this Act or the amendments made by this Act.

“(g) **REFERENCES.**—Any reference to the Office in any Federal law, Executive order, rule, regulation, or delegation of authority, or any document of or pertaining to the Office or an officer or employee of the Office is deemed to refer to the Administration or a member or employee of the Administration, as appropriate.”

SEC. 2. *Actions.* (a) For transportation infrastructure projects, agencies shall, in support of the Department of Transportation, formulate and implement administrative, policy, and procedural mechanisms that enable each agency required by law to conduct environmental reviews (reviews) with respect to such projects to ensure completion of such reviews in a timely and environmentally responsible manner.

(b) In furtherance of the policy set forth in section 1 of this order, the Secretary of Transportation, in coordination with agencies as appropriate, shall advance environmental stewardship through cooperative actions with project sponsors to promote protection and enhancement of the natural and human environment in the planning, development, operation, and maintenance of transportation facilities and services.

(c) The Secretary of Transportation shall designate for the purposes of this order a list of high-priority transportation infrastructure projects that should receive expedited agency reviews and shall amend such list from time to time as the Secretary deems appropriate. For projects on the Secretary's list, agencies shall to the maximum extent practicable expedite their reviews for relevant permits or other approvals, and take related actions as necessary, consistent with available resources and applicable laws, including those relating to safety, public health, and environmental protection.

The Task Force shall report to the President through the Chairman of the Council on Environmental Quality.

SEC. 4. *Report.* At least once each year, the Task Force shall submit to the President a report that: (a) Describes the results of the coordinated and expedited reviews on a project-by-project basis, and identifies those procedures and actions that proved to be most useful and appropriate in coordinating and expediting the review of the projects.

(b) Identifies substantive and procedural requirements of Federal, State, tribal, and local laws, regulations, and Executive Orders that are inconsistent with, duplicative of, or are structured so as to restrict their efficient implementation with other applicable requirements.

(c) Makes recommendations regarding those additional actions that could be taken to: (i) address the coordination and expediting of reviews of transportation infrastructure projects by simplifying and harmonizing applicable substantive and procedural requirements; and (ii) elevate and resolve controversies among Federal, State, tribal, and local agencies related to the review or impacts of transportation infrastructure projects in a timely manner.

SEC. 6. *Judicial Review.* This order is intended only to improve the internal management of the Federal Government and is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

§ 304a. Accelerated decisionmaking in environmental reviews

(a) IN GENERAL.—In preparing a final environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), if the lead agency modifies the statement in response to comments that are minor and are confined to factual corrections or explanations of why the comments do not warrant additional agency response, the lead agency may write on errata sheets attached to the statement, instead of rewriting the draft statement, subject to the condition that the errata sheets—

(1) cite the sources, authorities, and reasons that support the position of the agency; and

(2) if appropriate, indicate the circumstances that would trigger agency reappraisal or further response.

(b) SINGLE DOCUMENT.—To the maximum extent practicable, the lead agency shall expeditiously develop a single document that consists of a final environmental impact statement and a record of decision, unless—

(1) the final environmental impact statement makes substantial changes to the proposed action that are relevant to environmental or safety concerns; or

(2) there is a significant new circumstance or information relevant to environmental concerns that bears on the proposed action or the impacts of the proposed action.

(c) ADOPTION AND INCORPORATION BY REFERENCE OF DOCUMENTS.—

(1) AVOIDING DUPLICATION.—To prevent duplication of analyses and support expeditious and efficient decisions, the operating administrations of the Department of Transportation shall use adoption and incorporation by reference in accordance with this subsection.

(2) ADOPTION OF DOCUMENTS OF OTHER OPERATING ADMINISTRATIONS.—An operating administration or a secretarial office within the Department of Transportation may adopt a draft environmental impact statement, an environmental assessment, or a final environmental impact statement of another operating administration for the use of the adopting operating administration when preparing an environmental assessment or final environmental impact statement for a project without recirculating the document for public review, if—

(A) the adopting operating administration certifies that the proposed action is substantially the same as the project considered in the document to be adopted;

(B) the other operating administration concurs with such decision; and

(C) such actions are consistent with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(3) INCORPORATION BY REFERENCE.—An operating administration or secretarial office within the Department of Transportation may incorporate by reference all or portions of a draft environmental impact statement, an environmental assessment, or a final environmental impact statement for the use of the adopting operating administration when preparing an environmental assessment or final environmental impact statement for a project if—

(A) the incorporated material is cited in the environmental assessment or final environmental impact statement and the contents of the incorporated material are briefly described;

(B) the incorporated material is reasonably available for inspection by potentially interested persons within the time allowed for review and comment; and

(C) the incorporated material does not include proprietary data that is not available for review and comment.

§ 307. Improving State and Federal agency engagement in environmental reviews

(a) IN GENERAL.—

(1) REQUESTS TO PROVIDE FUNDS.—A public entity receiving financial assistance from the Department of Transportation for 1 or more projects, or for a program of projects, for a public purpose may request that the Secretary allow the public entity to provide funds to Federal agencies, including the Department, State agencies, and Indian tribes participating in the environmental planning and review process for the project, projects, or program.

(2) USE OF FUNDS.—The funds may be provided only to support activities that directly and meaningfully contribute to expediting and improving permitting and review processes, including planning, approval, and consultation processes for the project, projects, or program.

(b) ACTIVITIES ELIGIBLE FOR FUNDING.—Activities for which funds may be provided under subsection (a) include transportation planning activities that precede the initiation of the environmental review process, activities directly related to the environmental review process, dedicated staffing, training of agency personnel, information gathering and mapping, and development of programmatic agreements.

(c) AMOUNTS.—A request under subsection (a) may be approved only for the additional amounts that the Secretary determines are necessary for the Federal agencies, State agencies, or Indian tribes participating in the environmental review process to timely conduct the review.

(d) AGREEMENTS.—Prior to providing funds approved by the Secretary for dedicated staffing at an affected Federal agency under subsection (a), the affected Federal agency and the requesting public entity shall enter into an agreement that establishes a process to identify projects or priorities to be addressed by the use of the funds.

(e) GUIDANCE.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary shall issue guidance to implement this section.

(2) FACTORS.—As part of the guidance issued under paragraph (1), the Secretary shall ensure—

(A) to the maximum extent practicable, that expediting and improving the process of

environmental review and permitting through the use of funds accepted and expended under this section does not adversely affect the timeline for review and permitting by Federal agencies, State agencies, or Indian tribes of other entities that have not contributed funds under this section;

(B) that the use of funds accepted under this section will not impact impartial decisionmaking with respect to environmental reviews or permits, either substantively or procedurally; and

(C) that the Secretary maintains, and makes publicly available, including on the Internet, a list of projects or programs for which such review or permits have been carried out using funds authorized under this section.

(f) EXISTING AUTHORITY.—Nothing in this section may be construed to conflict with section 139(j) of title 23.

§ 309. High-speed ground transportation

(a) The Secretary of Transportation, in consultation with the Secretaries of Commerce, Energy, and Defense, the Administrator of the Environmental Protection Agency, the Assistant Secretary of the Army for Public Works, and the heads of other interested agencies, shall lead and coordinate Federal efforts in the research and development of high-speed ground transpor-

tation technologies in order to foster the implementation of magnetic levitation and high-speed steel wheel on rail transportation systems as alternatives to existing transportation systems.

(b)(1) The Secretary may award contracts and grants for demonstrations to determine the contributions that high-speed ground transportation could make to more efficient, safe, and economical intercity transportation systems. Such demonstrations shall be designed to measure and evaluate such factors as the public response to new equipment, higher speeds, variations in fares, improved comfort and convenience, and more frequent service. In connection with grants and contracts for demonstrations under this section, the Secretary shall provide for financial participation by private industry to the maximum extent practicable.

(2)(A) In connection with the authority provided under paragraph (1), there is established a national high-speed ground transportation technology demonstration program, which shall be separate from the national magnetic levitation prototype development program established under section 1036(b) of the Intermodal Surface Transportation Efficiency Act of 1991 and shall be managed by the Secretary of Transportation.

(B)(i) Any eligible applicant may submit to the Secretary a proposal for demonstration of any advancement in a high-speed ground transportation technology or technologies to be incorporated as a component, subsystem, or system in any revenue service high-speed ground transportation project or system under construction or in operation at the time the application is made.

(ii) Grants or contracts shall be awarded only to eligible applicants showing demonstrable benefit to the research and development, design, construction, or ultimate operation of any maglev technology or high-speed steel wheel on rail technology. Criteria to be considered in evaluating the suitability of a proposal under this paragraph shall include—

- (I) feasibility of guideway or track design and construction;
- (II) safety and reliability;
- (III) impact on the environment in comparison to other high-speed ground transportation technologies;
- (IV) minimization of land use;
- (V) effect on human factors related to high-speed ground transportation;
- (VI) energy and power consumption and cost;
- (VII) integration of high-speed ground transportation systems with other modes of transportation;
- (VIII) actual and projected ridership; and
- (IX) design of signaling, communications, and control systems.

(C) For the purposes of this paragraph, the term “eligible applicant” means any United States private business, State government, local government, organization of State or local government, or any combination thereof. The term does not include any business owned in whole or in part by the Federal Government.

(D) The amount and distribution of grants or contracts made under this paragraph shall be determined by the Secretary. No grant or contract may be awarded under this paragraph to

demonstrate a technology to be incorporated into a project or system located in a State that prohibits under State law the expenditure of non-Federal public funds or revenues on the construction or operation of such project or system.

(E) Recipients of grants or contracts made pursuant to this paragraph shall agree to submit a report to the Secretary detailing the results and benefits of the technology demonstration proposed, as required by the Secretary.

(c)(1) In carrying out the responsibilities of the Secretary under this section, the Secretary is authorized to enter into 1 or more cooperative research and development agreements (as defined by section 12 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a)), and 1 or more funding agreements (as defined by section 201(b) of title 35, United States Code), with United States companies for the purpose of—

(A) conducting research to overcome technical and other barriers to the development and construction of practicable high-speed ground transportation systems and to help advance the basic generic technologies needed for these systems; and

(B) transferring the research and basic generic technologies described in subparagraph (A) to industry in order to help create a viable commercial high-speed ground transportation industry within the United States.

(2) In a cooperative agreement or funding agreement under paragraph (1), the Secretary may agree to provide not more than 80 percent of the cost of any project under the agreement. Not less than 5 percent of the non-Federal entity's share of the cost of any such project shall be paid in cash.

(3) The research, development, or utilization of any technology pursuant to a cooperative agreement under paragraph (1), including the terms under which such technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

(4) The research, development, or utilization of any technology pursuant to a funding agreement under paragraph (1), including the determination of all licensing and ownership rights, shall be subject to the provisions of chapter 18 of title 35, United States Code.

(5) At the conclusion of fiscal year 1993 and again at the conclusion of fiscal year 1996, the Secretary shall submit reports to Congress regarding research and technology transfer activities conducted pursuant to the authorization contained in paragraph (1).

(d)(1) Not later than June 1, 1995, the Secretary shall complete and submit to Congress a study of the commercial feasibility of constructing 1 or more high-speed ground transportation systems in the United States. Such study shall consist of—

(D) the availability of rights-of-way to serve each market, including the extent to which average and maximum speeds would be limited by the curvature of existing rights-of-way and the prospect of increasing speeds through the acquisition of additional rights-of-way without significant relocation of residential, commercial, or industrial facilities;

(E) a comparison of the projected costs of the various competing high-speed ground transportation technologies;

(F) recommendations for funding mechanisms, tax incentives, liability provisions, and changes in statutes and regulations necessary to facilitate the development of individual high-speed ground transportation systems and the completion of a nationwide high-speed ground transportation network;

NATIONAL MAGNETIC LEVITATION PROTOTYPE DEVELOPMENT PROGRAM

Pub. L. 102-240, title I, §1036(b), Dec. 18, 1991, 105 Stat. 1978, provided that:

"(1) MANAGEMENT OF PROGRAM.—There is hereby established a national magnetic levitation prototype development program to be managed by a program director appointed jointly by the Secretary and the Assistant Secretary of the Army for Civil Works (hereinafter in this subsection referred to as the 'Assistant Secretary'). To carry out such program, the Secretary and the Assistant Secretary shall establish a national maglev joint project office (hereinafter in this subsection referred to as the 'Maglev Project Office'), which shall be headed by the program director, and shall enter into such arrangements as may be necessary for funding, staffing, office space, and other requirements that will allow the Maglev Project Office to carry out its functions. In carrying out such program, the program director shall consult with appropriate Federal officials, including the Secretary of Energy and the Administrator of the Environmental Protection Agency.

"(2) PHASE ONE CONTRACTS.—

"(A) REQUEST FOR PROPOSALS.—Not later than 12 months after the date of the enactment of this Act [Dec. 18, 1991], the Maglev Project Office shall release a request for proposals for development of conceptual designs for a maglev system and for research to facilitate the development of such conceptual designs.

"(B) AWARD OF CONTRACTS.—Not later than 15 months after the date of the enactment of this Act, the Secretary and the Assistant Secretary shall, based on the recommendations of the program director, award 1-year contracts for research and development to no fewer than 5 eligible applicants. If fewer than 5 complete applications have been received, contracts shall be awarded to as many eligible applicants as is practical.

"(C) FACTORS AND CONDITIONS TO BE CONSIDERED.—The Secretary and the Assistant Secretary may approve contracts under subparagraph (B) only after consideration of factors relating to the construction and operation of a magnetic levitation system, including the cost-effectiveness, ease of maintenance, safety, limited environmental impact, ability to achieve sustained high speeds, ability to operate along the Interstate highway rights-of-way, the potential for the guideway design to be a national standard, the applicant's resources, capabilities, and history of successfully designing and developing systems of similar complexity, and the desirability of geographic diversity among contractors and only if the applicant agrees to submit a report to the Maglev Project Office detailing the results of the research and development and agrees to provide for matching of the phase one contract at a 90 percent Federal, 10 percent non-Federal, cost share.

“(3) PHASE TWO CONTRACTS.—Within 3 months of receiving the final reports of contract activities under paragraph (2), and based only on such reports and the recommendations of the program director, the Secretary and the Assistant Secretary shall select not more than 3 eligible applicants from among the contract recipients submitting reports under paragraph (2) to receive 18-month contracts for research and development leading to a detailed design for a prototype maglev system. The Secretary and the Assistant Secretary may only award contracts under this paragraph if—

“(A) they determine that the applicant has demonstrated technical merit for the conceptual design and the potential for further development of such design into an operational prototype as described in paragraph (4),

“(B) the applicant agrees to submit the detailed design within such 18-month period to the Maglev Project Office and the selection committee described in paragraph (4), and

“(C) the applicant agrees to provide for matching of the phase two contract at an 80 percent Federal, 20 percent non-Federal, cost share.

“(4) PROTOTYPE.—

“(A) SELECTION OF DESIGN.—Within 6 months of receiving the detailed designs developed under paragraph (3), the Secretary and the Assistant Secretary shall, based on the recommendations of the selection committee described in this subparagraph, select 1 design for development into a full-scale prototype, unless the Secretary and the Assistant Secretary determine jointly that no design shall be selected, based on an assessment of technical feasibility and projected cost of construction and operation of the prototype. A selection committee of 8 members, consisting of—

“(i) 1 member to be appointed by the Secretary,

“(ii) 1 member to be appointed by the Assistant Secretary,

“(iii) 3 members to be appointed by the Senate majority and minority leaders, and

“(iv) 3 members to be appointed by the Speaker of the House and the minority leader of the House, shall be appointed not later than 1 year following the award of contracts under paragraph (3). The selection committee, within 3 months of receiving the detailed designs developed under paragraph (3), shall make a recommendation to the Secretary and the Assistant Secretary as to the best prototype design or the unsuitability of any design. The program director shall provide technical reviews of the phase two contract reports to the selection committee and otherwise provide any technical assistance that the committee requires to assist it in making a recommendation. In the event that the Secretary and the Assistant Secretary determine jointly not to select a design for development under this subsection, they shall report to Congress on the basis for such determination, together with recommendations for future action, including further research, development, or design, termination of the program, or such other action as may be appropriate.

“(B) AWARD OF CONSTRUCTION GRANT OR CONTRACT.—Unless the Secretary and the Assistant Secretary determine not to proceed pursuant to subparagraph (A), they shall, not later than 3 months after selection of a design for development into a full-scale prototype, and based on the recommendations of the program director, award 1 construction grant or contract to the applicant whose detailed design was selected under subparagraph (A) for the purpose of constructing a prototype maglev system in accordance with the selected design. Not more than 75 percent of the cost of the project shall be borne by the United States.

“(C) FACTORS TO BE CONSIDERED IN SELECTION.—Selection of the detailed design under this paragraph shall be based on consideration of the following factors, among others:

“(i) The project shall be capable of utilizing Interstate highway rights-of-way along or above a

significant portion of its route, and may also use railroad rights-of-way along or above any portion of the railroad route.

“(ii) The total length of guideway shall be at least 19 miles and allow significant full-speed operations between stops.

“(iii) The project shall be constructed and ready for operational testing within 3 years after the award of the contract or grant.

“(iv) The project shall provide for the conversion of the prototype to commercial operation after testing and technical evaluation is completed.

“(v) The project shall be located in an area that provides a potential ridership base for future commercial operation.

“(vi) The project shall utilize a technology capable of being applied in commercial service in most parts of the contiguous United States.

“(vii) The project shall have at least 1 switch.

“(viii) The project shall be intermodal in nature connecting a major metropolitan area with an airport, port, passenger rail station, or other transportation mode.

“(D) ADDITIONAL FACTORS FOR CONSIDERATION.—In awarding a grant or contract under this paragraph, the Secretary shall encourage the development of domestic manufacturing capabilities. In selecting among eligible applicants, the Secretary shall consider existing railroads and equipment manufacturers with excess production capacity, including railroads that have experience in advanced technologies (including self-propelled cars).

“(5) LICENSING.—

“(A) PROPRIETARY RIGHTS.—No trade secrets or commercial or financial information that is privileged or confidential, under the meaning of section 552(b)(4) of title 5, United States Code, which is obtained from a United States business, research, or education entity as a result of activities under this subsection shall be disclosed.

“(B) COMMERCIAL INFORMATION.—The research, development, and use of any technology developed pursuant to an agreement reached pursuant to this subsection, including the terms under which any technology may be licensed and the resulting royalties may be distributed, shall be subject to the provisions of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701–3714). In addition, the Secretary and the Assistant Secretary may require any grant or contract recipient to assure that research and development be performed substantially in the United States and that the products embodying the inventions made under any agreement pursuant to this subsection or produced through the use of such inventions be manufactured substantially in the United States.

“(6) REPORTS.—The Secretary and the Assistant Secretary shall provide periodic reports to Congress on progress made under this subsection.

“(7) ELIGIBLE APPLICANT DEFINED.—For purposes of this subsection, the term ‘eligible applicant’ means a United States private business, United States public or private education and research organization, Federal laboratory, or a consortium of such businesses, organizations, and laboratories.”

§ 310. Aligning Federal environmental reviews

(a) COORDINATED AND CONCURRENT ENVIRONMENTAL REVIEWS.—Not later than 1 year after the date of enactment of this section, the Department of Transportation, in coordination with the heads of Federal agencies likely to have substantive review or approval responsibilities under Federal law, shall develop a coordinated and concurrent environmental review and permitting process for transportation projects when initiating an environmental impact statement under the National Environmental Policy

Act of 1969 (42 U.S.C. 4321 et seq.) (in this section referred to as “NEPA”).

(b) CONTENTS.—The coordinated and concurrent environmental review and permitting process developed under subsection (a) shall—

(1) ensure that the Department of Transportation and agencies of jurisdiction possess sufficient information early in the review process to determine a statement of a transportation project’s purpose and need and range of alternatives for analysis that the lead agency and agencies of jurisdiction will rely on for concurrent environmental reviews and permitting decisions required for the proposed project;

(2) achieve early concurrence or issue resolution during the NEPA scoping process on the Department of Transportation’s statement of a project’s purpose and need, and during development of the environmental impact statement on the range of alternatives for analysis, that the lead agency and agencies of jurisdiction will rely on for concurrent environmental reviews and permitting decisions required for the proposed project absent circumstances that require reconsideration in order to meet an agency of jurisdiction’s obligations under a statute or Executive order; and

(3) achieve concurrence or issue resolution in an expedited manner if circumstances arise that require a reconsideration of the purpose and need or range of alternatives considered during any Federal agency’s environmental or permitting review in order to meet an agency of jurisdiction’s obligations under a statute or Executive order.

(c) ENVIRONMENTAL CHECKLIST.—

322(e)	49:1344(a).	
	49:1344(e).	

In the chapter, the words “Secretary of Transportation” and “Secretary” are substituted for “Administrator” in the provisions of the Federal Aviation Act of 1958 (Pub. L. 85-726, 72 Stat. 731) restated in the revised chapter because of the transfer of aviation functions to the Secretary under 49:1655(c)(1).

In subsection (a), the words “may prescribe regulations to carry out the duties and powers” are substituted for “may make such rules and regulations as may be necessary to carry out . . . functions, powers, and duties” for consistency and to eliminate unnecessary words. The text of 49:1657(f) and (g) is omitted as executed because the transfer of personnel, assets, and liabilities, etc., has been accomplished.

In subsection (b), the words “Except where this chapter vests in any administration, agency or board, specific functions, powers, and duties” before “the Secretary may” in 49:1657(e)(1) are omitted because of the specific wording of sections 103, 104, and 106 of the revised title. The words “in addition to the authority to delegate and redelegate contained in any other Act in the exercise of the functions transferred to or vested in the Secretary in this chapter” before “delegate” in 49:1657(e)(1) are omitted because the authority of the Secretary to delegate is consolidated in the subsection. The words “the duties and powers of the Secretary” are substituted for “any of his residual functions, powers, and duties” in 49:1657(e)(1) and “any of the functions transferred to him by this reorganization plan” in section 2 of Reorganization Plan No. 2 of 1968 (eff. July 1, 1968, 82 Stat. 1369), for clarity and consistency. The words “as he may designate” and “of such functions, powers, and duties as he may deem desirable” are omitted as surplus each place they appear in 49:1657(e)(1) and (2). The text of section 322(b) (1st sentence) of the revised title is substituted for 49:1344(d) (less words after semicolon) for clarity and because of the transfer of aviation functions to the Secretary of Transportation under 49:1655(c)(1). The text of 49:1657(e)(2) (words before 2d comma) is omitted as unnecessary because the authority of an officer to delegate is consolidated in the subsection. The words “the duties and powers of the officer” are substituted for “such functions, powers, and duties” in 49:1657(e)(2) for clarity and consistency. The words “the duties and powers specified in sections 103(c)(1), 104(c)(1), and 106(g)(1) of this title” are substituted for “any of the statutory duties and responsibilities specifically assigned to them by this chapter” in 49:1657(e)(3) for clarity. The words “may not be delegated to an officer or employee outside the Administration concerned” are substituted for “The Administrators established by section 1652(e) of this title . . . may not delegate . . . outside of their respective administrations” in 49:1657(e)(3) for clarity and because of the restatement of the section.

In subsection (c), before clause (1), the words “aviation duties and powers” are added because the source provisions being restated only applies to carrying out duties and powers related to the Federal Aviation Administration. In clause (2), the words “those departments, agencies, and instrumentalities” are sub-

stituted for “such other agencies and instrumentalities” in 49:1343(i) for clarity and consistency. The words “aviation . . . Department” are substituted for “Administration” in 49:1343(i) because of the transfer of aviation functions to the Secretary under 49:1655(c)(1).

In subsection (d), before clause (1), the words “aviation duties and powers” are substituted for “for the exercise and performance of the powers and duties vested in and imposed upon him by law” in 49:1344(a) because the source provisions being restated only applies to carrying out duties and powers related to the Federal Aviation Administration. The words “at the seat of government and elsewhere as may be necessary” after “expenditures” and “and as from time to time may be appropriated for by Congress” are omitted as surplus. In clause (8), the words “passenger-carrying aircraft and automobiles” are substituted for “passenger-carrying automobiles and aircraft” in 49:1344(a) for clarity. The words “such . . . as is necessary in the exercise and performance of the powers and duties of the Secretary” after “aircraft” in 49:1344(a) are omitted as unnecessary because of the restatement of the section. The text of 49:1344(a) (proviso) is omitted as unnecessary.

In subsection (e), before clause (1), the words “or in support of” are omitted as surplus. In clause (1), the words “making the property” are substituted for “for manufacture” for clarity. In clause (2), the word “formal” is omitted as unnecessary. The word “unreasonably” is substituted for “unduly” for consistency.

In subsection (a), the word “information” is substituted for “data, statistics, and other information” in 49:1634 to eliminate unnecessary words. The words “transportation system of the United States” are substituted for “national transportation system” in 49:1634 for clarity and consistency. The words “in carrying out this activity” before “the Secretary shall” in 49:1634 are omitted as surplus. The words “departments, agencies, and instrumentalities of the United States Government” are substituted for “Federal agencies” in 49:1634 for clarity and consistency. In subsection (b), the words “by the National Transportation Safety Board under title VII of the Federal Aviation Act of 1958 (49 U.S.C. 1441 et seq.) or the Civil Aeronautics Board under title IV of that Act (49 U.S.C. 1371 et seq.)” are substituted for “the Board under subchapter IV and VII of this chapter” in 49:1352 because 49:1655(d) (1st sentence) transferred duties of the Civil Aeronautics Board under 49:ch. 20, subch. VII to the Secretary of Transportation to be carried out through the National Transportation Safety Board. The reference to the National Transportation Safety Board is to the independent Board established by section 303(a) of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2167) outside the Department of Transportation and not to the prior Board that was a part of the Department. The words “preparing the information” are substituted for “such work” after “actual cost of” for clarity. The word “payments” is substituted for “All moneys received by the Department in payment of the cost of

work under paragraph (1)” to eliminate unnecessary words. The words “in the Treasury” are added for clarity and consistency. The words “The Secretary may use amounts in the account” are substituted for “These moneys may be used, in the discretion of the Secretary” for clarity and to eliminate unnecessary words. The words “to getting and providing the information” are substituted for “to the work and/or to secure in connection therewith the special services of persons who are neither officers nor employees of the United States” for clarity and to eliminate unnecessary words.

In subsection (d), the words “in carrying out duties and powers under the Federal Aviation Act of 1958 (49 U.S.C. 1301 et seq.)” are substituted for “in discharge of responsibilities under this chapter” in 49:1343(b) because of the transfer of aviation functions to the Secretary under 49:1655(c)(1) and for consistency. The words “directly related to carrying out that part” are substituted for “directly relating to such responsibilities” in 49:1343(b) because of the restatement of the source provisions.

The United States Railway Association abolished effective Apr. 1, 1987, all powers, duties, rights, and obligations of Association relating to Consolidated Rail Corporation under the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.) transferred to Secretary of Transportation on Jan. 1, 1987, and any securities of Corporation held by Association transferred to Secretary of Transportation on Oct. 21, 1986, see section 1341 of Title 45, Railroads.

§ 333. Responsibility for rail transportation unification and coordination projects

(a) The Secretary of Transportation may develop and make available to interested persons

any plans, proposals, and recommendations for mergers, consolidations, reorganizations, and other unification or coordination projects for rail transportation (including arrangements for joint use of tracks and other facilities and acquisition or sale of assets) that the Secretary believes will result in a rail system that is more efficient and consistent with the public interest.

(b) To achieve a more efficient, economical, and viable rail system in the private sector, the Secretary, when requested by a rail carrier and under this section, may assist in planning, negotiating, and carrying out a unification or coordination of operations and facilities of at least 2 rail carriers.

(c)(1) The Secretary may conduct studies to determine the potential cost savings and possible improvements in the quality of rail transportation that are likely to result from unification or coordination of at least 2 rail carriers, through—

- (A) elimination of duplicating or overlapping operations and facilities;
- (B) reducing switching operations;
- (C) using the shortest or more efficient and economical routes;
- (D) exchanging trackage rights;
- (E) combining trackage and terminal or other facilities;
- (F) upgrading tracks and other facilities used by at least 2 rail carriers;
- (G) reducing administrative and other expenses; and
- (H) other measures likely to reduce costs and improve rail transportation.

(2) When the Secretary requests information for a study under this section, a rail carrier shall provide the information requested. In carrying out this section, the Secretary may designate an officer or employee to get from a rail carrier information on the kind, quality, origin, destination, consignor, consignee, and routing of property. This information may be obtained without the consent of the consignor or consignee notwithstanding section 11904 of this title. When appropriate, the designated officer or employee has the powers described in section 203(c) of the Regional Rail Reorganization Act of 1973 to carry out this section, but a subpoena must be issued under the signature of the Secretary.

(d)(1) When requested by a rail carrier, the Secretary may hold conferences on and mediate disputes resulting from a proposed unification or coordination project. The Secretary may invite to a conference—

- (A) officers and directors of an affected rail carrier;

(e) When the approval of a proposal submitted by a rail carrier for a merger or other action is subject to the jurisdiction of the Surface Transportation Board under section 11323(a) of this title, the Secretary may study the proposal to decide whether it satisfies section 11324(b) of this title. When the proposal is the subject of an application and proceeding before the Board, the Secretary may appear in any proceeding related to the application.

501(b)	45:15.	Apr. 14, 1910, ch. 160, § 6, 36 Stat. 299.

	49:1655(f)(2).	Oct. 15, 1966, Pub. L. 89-670, § 6(f)(2), 80 Stat. 940.

In the chapter, the source provisions are those in effect on March 31, 1967, the day before the effective date of the Department of Transportation Act (Pub. L. 89-670, 80 Stat. 931), because 49:1655(f)(2) gave the Secretary of Transportation the same powers enumerated in 49:1655(f)(2) that the Interstate Commerce Commission had before certain duties and powers under 49:1655(e) were transferred on April 1, 1967, from the Commission to the Secretary. All references to brokers

in the source provisions are omitted as not being applicable to the duties and powers transferred to the Secretary of Transportation.

Subsection (a) is included to ensure that the identical definitions that are relevant are used without repeating them. The source provisions for the definitions are found in the revision notes for sections 3101, 3102(c), and 10102 of the revised title.

In subsection (b), the provisions of law to which the chapter applies are only certain laws listed in 49:1655(e). Those laws include the source provisions restated in chapter 31 of the revised title and 45:4, 5, 6 (in carrying out 45:4 and 5), 11, 12, 13 (proviso), 13 (less proviso in carrying out 45:11, 12, and 13 (proviso)), and 61-64b, and 49:26(a)-(f) (words before last semicolon) and (h). The administrative powers of the Secretary under the chapter are based on the administrative powers of 49:1655(f)(2). That provision lists administrative powers the Commission had under the Interstate Commerce Act (ch. 104, 24 Stat. 379) to carry out the Act, and certain other laws authorized the Commission to use its powers under the Act to carry out those other laws. The administrative powers listed in 49:1655(f)(2) and codified in the chapter therefore apply only to a law listed in 49:1655(e) that was a part of the Interstate Commerce Act or to which the powers of the Commission under the Act were applied. The text of 45:61-64b is included because section 4 of the Act of March 4, 1907 (ch. 2939, 34 Stat. 1417), stated, “It shall be the duty of the Interstate Commerce Commission to execute and enforce the provisions of this Act, and all powers granted to the Interstate Commerce Commission are hereby extended to it in the execution of this Act”. The transfer to the Secretary was executed on March 31, 1967. The Act of March 4, 1907, was restated by the Act of December 26, 1969 (Pub. L. 91-169, 83 Stat. 463); section 4 was not included in the restatement. However, repeal by implication is not favored and the transfer was completed on March 31, 1967. Therefore, the text of 45:61-64b is included within the scope of the chapter. The text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed.

PUB. L. 103-272

Section 4(j)(11) makes conforming amendments to 49:ch. 5 to reflect the restatement of 49:508 and related provisions in chapter 59 of the revised title.

§ 502. General authority

(a) The Secretary of Transportation shall carry out this chapter.

(b) The Secretary may—

(1) inquire into and report on the management of the business of rail carriers and motor carriers;

(2) inquire into and report on the management of the business of a person controlling, controlled by, or under common control with those carriers to the extent that the business of the person is related to the management of the business of that carrier; and

(3) obtain from those carriers and persons information the Secretary determines to be necessary.

(c) In carrying out this chapter as it applies to motor carriers, motor carriers of migrant workers, and motor private carriers, the Secretary may—

(1) confer and hold joint hearings with State authorities;

(2) cooperate with and use the services, records, and facilities of State authorities; and

(3) make cooperative agreements with a State to enforce the safety laws and regulations of a State and the United States related to highway transportation.

(d) The Secretary may subpoena witnesses and records related to a proceeding or investigation under this chapter from a place in the United States to the designated place of the proceeding or investigation. If a witness disobeys a subpoena, the Secretary, or a party to a proceeding or investigation before the Secretary, may petition the district court for the judicial district in which the proceeding or investigation is conducted to enforce the subpoena. The court may punish a refusal to obey an order of the court to comply with a subpoena as a contempt of court.

(e)(1) In a proceeding or investigation, the Secretary may take testimony of a witness by deposition and may order the witness to produce records. A party to a proceeding or investigation pending before the Secretary may take the testimony of a witness by deposition and may require the witness to produce records at any time after a proceeding or investigation is at issue on petition and answer. If a witness fails to be deposed or to produce records under this subsection, the Secretary may subpoena the witness to take a deposition, produce the records, or both.

(2) A deposition may be taken before a judge of a court of the United States, a United States magistrate judge, a clerk of a district court, or a chancellor, justice, or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of a county court, or court of common pleas of any State, or a notary public who is not counsel or attorney of a party or interested in the proceeding or investigation.

(3) Before taking a deposition, reasonable notice must be given in writing by the party or the attorney of that party proposing to take a depo-

sition to the opposing party or the attorney of record of that party, whoever is nearest. The notice shall state the name of the witness and the time and place of taking the deposition.

(4) The testimony of a person deposed under this subsection shall be taken under oath. The person taking the deposition shall prepare, or cause to be prepared, a transcript of the testimony taken. The transcript shall be subscribed by the deponent.

(5) The testimony of a witness who is in a foreign country may be taken by deposition before an officer or person designated by the Secretary or agreed on by the parties by written stipulation filed with the Secretary. The deposition shall be filed with the Secretary promptly.

(f) Each witness summoned before the Secretary or whose deposition is taken under this section and the individual taking the deposition are entitled to the same fees and mileage paid for those services in the courts of the United States.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The text of 49:305(a)-(c), (e), and (g)-(j) is not included for motor carriers of migrant workers and motor pri-

vate carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In subsection (b), the text of 49:12(1)(a) (2d sentence words after semicolon) is omitted as unnecessary because the Secretary of Transportation already has authority under chapter 3 of the revised title to make recommendations to Congress.

In subsections (c)–(f), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

In subsection (c), the words “economic and” are omitted as not being transferred to the Secretary. The text of 49:305(f) (last sentence) is omitted as not applicable to this chapter.

In subsection (d), the reference to joint boards in 49:305(d) is omitted as not applicable to this chapter because 49:305(a) (establishing joint boards) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

PUB. L. 103–272

Section 4(j)(12) amends 49:502(e)(2) and 10321(d)(3) to reflect the change in the name of United States magistrates to United States magistrate judges made by section 321 of the Judicial Improvements Act of 1990 (Public Law 101–650, 104 Stat. 5117).

AMENDMENTS

1994—Subsec. (e)(2). Pub. L. 103–272 inserted “judge” after “United States magistrate”.

§ 503. Service of notice and process on certain motor carriers of migrant workers and on motor private carriers

(a) Each motor carrier of migrant workers (except a motor contract carrier) and each motor private carrier shall designate an agent by name and post office address on whom service of notices in a proceeding before, and actions of, the Secretary of Transportation may be made. The designation shall be in writing and filed with the Secretary. The carrier also shall file the designation with the authority of each State in which it operates having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of that State. The designation may be changed at any time in the same manner as originally made.

(b) A notice of the Secretary to a carrier under this section is served personally or by mail on that carrier or its designated agent. Service by mail on the designated agent is made at the address filed for the agent. When notice is given by mail, the date of mailing is considered to be the time when the notice is served. If the carrier does not have a designated agent, service may be made by posting a copy of the notice in the office of the secretary or clerk of the authority having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of the State in which the carrier maintains headquarters and with the Secretary.

(c) Each of those carriers, including such a carrier operating in the United States while providing transportation between places in a foreign country or between a place in one foreign country and a place in another foreign country, shall designate an agent in each State in which it operates by name and post office address on whom process issued by a court with subject matter jurisdiction may be served in an action brought against that carrier. The designation shall be in writing and filed with the Secretary and with the authority of each State in which

the carrier operates having jurisdiction to regulate transportation by motor vehicle in intrastate commerce on the highways of that State. If a designation under this subsection is not made, service may be made on any agent of the carrier in that State. The designation may be changed at any time in the same manner as originally made.

503	49:304(a)(3) (last sentence) (related to “Sec. 321”). 49:304(a)(3a) (last sentence) (related to “Sec. 321”). 49:1655(e)(6)(D) (related to “Sec. 321(a), (c)”).	Feb. 4, 1887, ch. 104, 24 Stat. 379, § 204(a)(3) (last sentence) (related to “Sec. 221”); added Aug. 9, 1935, ch. 498, 49 Stat. 546. Feb. 4, 1887, ch. 104, 24 Stat. 379, § 204(a)(3a) (last sentence) (related to “Sec. 221”); added Aug. 3, 1956, ch. 905, § 2, 70 Stat. 958. Oct. 15, 1966, Pub. L. 89–670, § 6(e)(6)(D) (related to “Sec. 221(a), (c)”), 80 Stat. 940.

The section is included because 49:1655(e)(6)(D) transferred to the Secretary of Transportation all functions, powers, and duties of the Interstate Commerce Commission under 49:321(a) and (c) to the extent those subsections relate to motor carriers of migrant workers and motor private carriers. The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

Section 503	49 U.S. Code	Revised Section
(a), (b)	321(a).	10329
(c)	321(c).	10330

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In the section, the words “motor carriers” are omitted because 49:1655(e)(6)(D) applies 49:321(a) and (c) only to motor carriers of migrant workers, other than motor contract carriers, and to motor private carriers, and 49:1655(f)(2)(B)(ii) contains no reference to 49:321. The text of 49:321(b) and (d) is not included because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(e)(6)(D).

In subsection (b), the text of 49:321(a) (less 1st–5th sentences) is omitted as not applicable to this chapter.

§ 504. Reports and records

(a) In this section—

(1) “association” means an organization maintained by or in the interest of a group of rail carriers, motor carriers, motor carriers of migrant workers, or motor private carriers that performs a service, or engages in activities, related to transportation of that carrier.

(2) “carrier” means a motor carrier, motor carrier of migrant workers, motor private carrier, and rail carrier.

(3) “lessor” means a person owning a railroad that is leased to and operated by a rail carrier, and a person leasing a right to operate as a motor carrier, motor carrier of migrant workers, or motor private carrier to another.

(4) “lessor” and “carrier” include a receiver or trustee of that lessor or carrier, respectively.

(b)(1) The Secretary of Transportation may prescribe the form of records required to be prepared or compiled under this section by—

(A) carriers and lessors; and

(B) a person furnishing cars or protective service against heat or cold to or for a rail carrier.

(2) The Secretary may require—

(A) carriers, lessors, associations, or classes of them as the Secretary may prescribe, to file annual, periodic, and special reports with the Secretary containing answers to questions asked by the Secretary; and

(B) a person furnishing cars or protective service against heat or cold to a rail carrier to file reports with the Secretary containing answers to questions about those cars or service.

(c) The Secretary, or an employee (and, in the case of a motor carrier, a contractor, or an employee of the recipient of a grant issued under section 31102 of this title) designated by the Secretary, may on demand and display of proper credentials, in person or in writing—

(1) inspect the equipment of a carrier or lessor; and

(2) inspect and copy any record of—

(A) a carrier, lessor, or association;

(B) a person controlling, controlled by, or under common control with a carrier, if the Secretary considers inspection relevant to that person's relation to, or transaction with, that carrier; and

(C) a person furnishing cars or protective service against heat or cold to or for a rail carrier if the Secretary prescribed the form of that record.

(d) The Secretary may prescribe the time period during which records must be preserved by a carrier, lessor, and person furnishing cars or protective service.

(e)(1) An annual report shall contain an account, in as much detail as the Secretary may require, of the affairs of a carrier, lessor, or association for the 12-month period ending on the 31st day of December of each year. The annual report shall be filed with the Secretary by the end of the 3d month after the end of the year for which the report is made unless the Secretary extends the filing date or changes the period covered by the report.

(2) The annual report and, if the Secretary requires, any other report made under this section shall be made under oath.

(f) No part of a report of an accident occurring in operations of a motor carrier, motor carrier of migrant workers, or motor private carrier and required by the Secretary, and no part of a report of an investigation of the accident made by the Secretary, may be admitted into evidence or used in a civil action for damages related to a matter mentioned in the report or investigation.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

The provisions of 49:320(c) are not included for motor carriers of migrant workers and motor private carriers because those provisions, while included in the enumeration in 49:304(a)(3) and (3a), are not included in the specific enumeration of 49:1655(f)(2)(B)(ii).

In the section, the text of 49:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed. The text of 49:320(b) (related to 13-period accounting year) and (g) is not included because it was enacted after the effective date of the transfer authority under 49:1655.

In subsection (a), references to "water line" and "pipe line" are omitted as not applicable to this chapter. Clause (2) is added to provide a simple phrase to refer to all types of carriers to which the section applies.

In subsection (f), the words "the course of the" are omitted as surplus. The words "civil action" are substituted for "suit or action" because of rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.).

AMENDMENTS

2012—Subsec. (c). Pub. L. 112-141 inserted ", or an employee of the recipient of a grant issued under section 31102 of this title" after "a contractor" and ", in person or in writing" after "proper credentials" in introductory provisions.

1998—Subsec. (c). Pub. L. 105-178 inserted “(and, in the case of a motor carrier, a contractor)” after “employee” in introductory provisions.

EFFECTIVE DATE OF 2012 AMENDMENT

Amendment by Pub. L. 112-141 effective Oct. 1, 2012, see section 3(a) of Pub. L. 112-141, set out as an Effective and Termination Dates of 2012 Amendment note under section 101 of Title 23, Highways.

§ 505. Arrangements and public records

(a) The Secretary of Transportation may require a motor carrier, motor carrier of migrant workers, or motor private carrier to file a copy of each arrangement related to a matter under this chapter that it has with another person. The Secretary may disclose the existence or contents of an arrangement between a motor contract carrier and a shipper filed under this section only if the disclosure is consistent with the public interest and is made as part of the record in a formal proceeding.

(b) Except as provided in subsection (a) of this section, all arrangements and statistics, tables, and figures contained in reports filed with the Secretary by a motor carrier under this chapter are public records. Such a public record, or a copy or extract of it, certified by the Secretary under seal is competent evidence in a proceeding of the Secretary, and, except as provided in section 504(f) of this title, in a judicial proceeding.

Feb. 4, 1887, ch. 104, 24 Stat. 379, §204(a)(3a) (last sentence) (related to “Sec. 220(a) (less 1st, 2d sentences)”); added Aug. 3, 1956, ch. 905, §2, 70 Stat. 958.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

(b)	16(13).	10303
	304(d) (related to administrative matters).	10303

See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsection (a), the text of 49:320(a) (proviso) is not included for motor carriers of migrant workers and motor private carriers because that provision, while included in the enumeration in 49:304(a)(3) and (3a), is not included in the specific enumeration of

49:1655(f)(2)(B)(ii). The text of 40:304(a)(3) (last sentence 1st-7th words) and (3a) (last sentence 1st-5th words) is omitted as executed. The words “also” and “with it” are omitted as surplus. The words “contract, agreement, or” are omitted as covered by “arrangement”. The words “carrier or” are omitted as covered by “person”. The words “related to a matter under this chapter” are substituted for “in relation to any traffic affected by the provisions of this chapter” for clarity because of section 501 of the revised title.

Subsection (b) does not apply to reports made to the Secretary by a rail carrier because 49:16(13) is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The subsection does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. References to schedules, classifications, and tariffs are omitted as not applicable to this chapter. The words “Except as provided in subsection (a) of this section” are added for clarity. The words “except as provided in section 504(f) of this title” are added for clarity and consistency because of the restatement of the chapter.

§ 506. Authority to investigate

(a) The Secretary of Transportation may begin an investigation under this chapter on the initiative of the Secretary or on complaint. If the Secretary finds that a rail carrier, motor carrier, motor carrier of migrant workers, or motor private carrier is violating this chapter, the Secretary shall take appropriate action to compel compliance with this chapter. The Secretary may take action only after giving the carrier notice of the investigation and an opportunity for a proceeding.

(b) A person, including a governmental authority, may file with the Secretary a complaint about a violation of this chapter by a carrier referred to in subsection (a) of this section. The complaint must state the facts that are the subject of the violation. The Secretary may dismiss a complaint the Secretary determines does not state reasonable grounds for investigation and action. However, the Secretary may not dismiss a complaint made against a rail carrier because of the absence of direct damage to the complainant.

(c) The Secretary shall make a written report of each proceeding involving a rail carrier or motor carrier conducted and furnish a copy to each party to that proceeding. The report shall include the findings, conclusions, and the order of the Secretary. The Secretary may have the reports published for public use. A published report of the Secretary is competent evidence of its contents.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised sections for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsections (a) and (b), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

Subsection (a) is patterned after 49:304(c). The words “violating this chapter” are substituted for “failed to comply with any such provision or requirement” for clarity.

In subsection (b), the text of 49:13(2) (last sentence) is omitted because 49:13(3) is not included in the specific enumeration of 49:1655(f)(2)(B)(i). The words “referred to in subsection (a) of this section” are added for clarity.

Subsection (c) does not apply to motor carriers of migrant workers and motor private carriers because 49:304(d) applies only to motor carriers and 49:304(a)(3) and (3a) do not apply 49:304(d) to motor carriers of migrant workers and motor private carriers. The word “proceeding” is substituted for “investigation” for clarity and to conform to other sections of the revised title. The word “findings” is added for clarity. The word “decision” is omitted as covered by “conclusions”. The words “or requirement” are omitted as covered by “order”. The words “in the premises” are omitted as surplus. The words “and in case damages are awarded, such report shall include the findings of fact on which the award is made” are omitted as not applicable to this chapter. The words “entered of record”, “and decisions in such form and manner as may be best adapted for public information and use”, and “in all courts of the United States and of the several States without any further proof or authentication thereof” are omitted as surplus. The text of 49:14(3) (last sentence) is omitted as unnecessary.

§ 507. Enforcement

(a) The Secretary of Transportation may bring a civil action to enforce—

(1) an order of the Secretary under this chapter when violated by a rail carrier; and

(2) this chapter or a regulation or order of the Secretary under this chapter when violated by a motor carrier, motor carrier of migrant workers, motor private carrier, or freight forwarder.

(b) The Attorney General may, and on request of the Secretary shall, bring court proceedings to enforce this chapter or a regulation or order of the Secretary under this chapter and to prosecute a person violating this chapter or a regulation or order of the Secretary.

(c) The Attorney General, at the request of the Secretary, may bring an action in an appropriate district court of the United States for equitable relief to redress a violation by any person of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title, or an order or regulation issued under any of those provisions. Such district court shall have jurisdiction to determine any such action and may grant such relief as is necessary or appropriate, including mandatory or prohibitive injunctive relief, interim equitable relief, and punitive damages.

(d) A person injured because a rail carrier or freight forwarder does not obey an order of the Secretary under this chapter may bring a civil action to enforce that order under this subsection.

(e) In a civil action brought under subsection (a)(2) of this section against a motor carrier, motor carrier of migrant workers, or motor private carrier—

(1) trial is in the judicial district in which the carrier operates;

(2) process may be served without regard to the territorial limits of the district or of the State in which the action is brought; and

(3) a person participating with the carrier in a violation may be joined in the civil action without regard to the residence of the person.

“(b) SUBMISSION OF IMPLEMENTATION PLAN.—After completion of the assessment under subsection (a), the Secretary may submit to the Congress a plan for implementing authority (if subsequently provided by law) to investigate and bring civil actions to enforce chapter 5 of title 49, United States Code, or regulations or orders issued by the Secretary under such chapter with respect to persons described in subsection (a).

“(2) how the Secretary would determine that shippers, freight forwarders, brokers, consignees, or other persons committed violations described in subsection (a), including what types of evidence would be conclusive;

“(3) what procedures would be necessary during investigations to ensure the confidentiality of shipper contract terms prior to the Secretary’s findings of violations;

“(4) what impact the exercise of the new authority would have on the Secretary’s resources, including whether additional investigative or legal resources would be necessary and whether the staff would need specialized education or training to exercise properly such authority;

“(5) to what extent the Secretary would conduct educational activities for persons who would be subject to the new authority; and

“(6) any other information that would assist the Congress in determining whether to provide the Secretary the new authority.”

§ 508. Safety performance history of new drivers; limitation on liability

(a) LIMITATION ON LIABILITY.—No action or proceeding for defamation, invasion of privacy, or interference with a contract that is based on the furnishing or use of safety performance records in accordance with regulations issued by the Secretary may be brought against—

(1) a motor carrier requesting the safety performance records of an individual under consideration for employment as a commercial motor vehicle driver as required by and in accordance with regulations issued by the Secretary;

(2) a person who has complied with such a request; or

(3) the agents or insurers of a person described in paragraph (1) or (2).

(b) RESTRICTIONS ON APPLICABILITY.—

(1) MOTOR CARRIER REQUESTING.—Subsection (a) does not apply to a motor carrier requesting safety performance records unless—

(A) the motor carrier and any agents of the motor carrier have complied with the regulations issued by the Secretary in using the records, including the requirement that the individual who is the subject of the records be afforded a reasonable opportunity to review and comment on the records;

(B) the motor carrier and any agents and insurers of the motor carrier have taken all precautions reasonably necessary to protect the records from disclosure to any person, except for such an insurer, not directly involved in deciding whether to hire that individual; and

(C) the motor carrier has used those records only to assess the safety performance of the individual who is the subject of those records in deciding whether to hire that individual.

(2) PERSON COMPLYING WITH REQUESTS.—Subsection (a) does not apply to a person complying with a request for safety performance records unless—

(A) the complying person and any agents of the complying person have taken all precautions reasonably necessary to ensure the accuracy of the records and have complied with the regulations issued by the Secretary in furnishing the records, including the requirement that the individual who is the subject of the records be afforded a reasonable opportunity to review and comment on the records; and

Notwithstanding any provision of law, written authorization shall not be required to obtain information on the motor vehicle driving record of an individual under consideration for employment with a motor carrier.

SUBCHAPTER II—PENALTIES

§ 521. Civil penalties

(a)(1) A person required under section 504 of this title to make, prepare, preserve, or submit to the Secretary of Transportation a record about rail carrier transportation, that does not make, prepare, preserve, or submit that record as required under that section, is liable to the United States Government for a civil penalty of \$500 for each violation.

(2) A rail carrier, and a lessor, receiver, or trustee of that carrier, violating section 504(c)(1) of this title, is liable to the Government for a civil penalty of \$100 for each violation.

(3) A rail carrier, a lessor, receiver, or trustee of that carrier, a person furnishing cars or protective service against heat or cold, and an officer, agent, or employee of one of them, required to make a report to the Secretary or answer a question, that does not make a report to the Secretary or does not specifically, completely, and truthfully answer the question, is liable to the Government for a civil penalty of \$100 for each violation.

(4) A separate violation occurs for each day a violation under this subsection continues.

(5) Trial in a civil action under this subsection is in the judicial district in which the rail carrier has its principal operating office or in a district through which the railroad of the rail carrier runs.

(b) VIOLATIONS RELATING TO COMMERCIAL MOTOR VEHICLE SAFETY REGULATION AND OPERATORS.—

(1) NOTICE.—

(A) IN GENERAL.—If the Secretary finds that a violation of a provision of subchapter III of chapter 311 (except sections 31138 and

31139) or section 31302, 31303, 31304, 31305(b), 31310(g)(1)(A),¹ or 31502 of this title, or a violation of a regulation issued under any of those provisions, has occurred, the Secretary shall issue a written notice to the violator. Such notice shall describe with reasonable particularity the nature of the violation found and the provision which has been violated. The notice shall specify the proposed civil penalty, if any, and suggest actions which might be taken in order to abate the violation. The notice shall indicate that the violator may, within 15 days of service, notify the Secretary of the violator's intention to contest the matter. In the event of a contested notice, the Secretary shall afford such violator an opportunity for a hearing, pursuant to section 554 of title 5, following which the Secretary shall issue an order affirming, modifying, or vacating the notice of violation.

(B) NONAPPLICABILITY TO REPORTING AND RECORDKEEPING VIOLATIONS.—Subparagraph (A) shall not apply to reporting and recordkeeping violations.

(2) CIVIL PENALTY.—

(A) IN GENERAL.—Except as otherwise provided in this subsection, any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act that is a violation of regulations issued by the Secretary under subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each offense. Notwithstanding any other provision of this section (except subparagraph (C)), no civil penalty shall be assessed under this section against an employee for a violation in an amount exceeding \$2,500.

(B) RECORDKEEPING AND REPORTING VIOLATIONS.—A person required to make a report to the Secretary, answer a question, or make, prepare, or preserve a record under section 504 of this title or under any regulation issued by the Secretary pursuant to subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title about transportation by motor carrier, motor carrier of migrant workers, or motor private carrier, or an officer, agent, or employee of that person—

(i) who does not make that report, does not specifically, completely, and truthfully answer that question in 30 days from the date the Secretary requires the question to be answered, or does not make, prepare, or preserve that record in the form and manner prescribed by the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed \$1,000 for each offense, and each day of the violation shall constitute a separate offense, except that the total of all civil penalties assessed against any violator for all offenses related to any single violation shall not exceed \$10,000; or

(ii) who knowingly falsifies, destroys, mutilates, or changes a required report or record, knowingly files a false report with

¹ See References in Text note below.

the Secretary, knowingly makes or causes or permits to be made a false or incomplete entry in that record about an operation or business fact or transaction, or knowingly makes, prepares, or preserves a record in violation of a regulation or order of the Secretary, shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each violation, if any such action can be shown to have misrepresented a fact that constitutes a violation other than a reporting or recordkeeping violation.

(C) VIOLATIONS PERTAINING TO CDLS.—Any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act which is a violation of section 31302, 31303, 31304, 31305(b), or 31310(g)(1)(A) of this title shall be liable to the United States for a civil penalty not to exceed \$2,500 for each offense.

(D) DETERMINATION OF AMOUNT.—The amount of any civil penalty, and a reasonable time for abatement of the violation, shall by written order be determined by the Secretary, taking into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

(E)(i) COPYING OF RECORDS AND ACCESS TO EQUIPMENT, LANDS, AND BUILDINGS.—A person subject to chapter 51 or a motor carrier, broker, freight forwarder, or owner or operator of a commercial motor vehicle subject to part B of subtitle VI who fails to allow promptly, upon demand, the Secretary (or an employee designated by the Secretary) to inspect and copy any record or inspect and examine equipment, lands, buildings and other property in accordance with sections 504(c), 5121(c), and 14122(b) shall be liable to the United States for a civil penalty not to exceed \$1,000 for each offense. Each day the Secretary is denied the right to inspect and copy any record or inspect and examine equipment, lands, buildings and other property shall constitute a separate offense, except that the total of all civil penalties against any violator for all offenses related to a single violation shall not exceed \$10,000. In the case of a motor carrier, the Secretary may also place the violator's motor carrier operations out of service. It shall be a defense to a penalty that the records did not exist at the time of the Secretary's request or could not be timely produced without unreasonable expense or effort. Nothing in this subparagraph amends or supersedes any remedy available to the Secretary under section 502(d), section 507(c), or any other provision of this title.

(ii) PLACE OUT OF SERVICE.—The Secretary may by regulation adopt procedures for placing out of service the commercial motor vehicle of a foreign-domiciled motor carrier that fails to promptly allow the Secretary to inspect and copy a record or inspect equipment, land, buildings, or other property.

(F) PENALTY FOR VIOLATIONS RELATING TO OUT OF SERVICE ORDERS.—A motor carrier or

employer (as defined in section 31132) that operates a commercial motor vehicle in commerce in violation of a prohibition on transportation under section 31144(c) of this title or an imminent hazard out of service order issued under subsection (b)(5) of this section or section 5121(d) of this title shall be liable for a civil penalty not to exceed \$25,000.

(3) The Secretary may require any violator served with a notice of violation to post a copy of such notice or statement of such notice in such place or places and for such duration as the Secretary may determine appropriate to aid in the enforcement of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title, as the case may be.

(4) Such civil penalty may be recovered in an action brought by the Attorney General on behalf of the United States in the appropriate district court of the United States or, before referral to the Attorney General, such civil penalty may be compromised by the Secretary.

(5)(A) If, upon inspection or investigation, the Secretary determines that a violation of a provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), or 31502 of this title or a regulation issued under any of those provisions, or combination of such violations, poses an imminent hazard to safety, the Secretary shall order a vehicle or employee operating such vehicle out of service, or order an employer to cease all or part of the employer's commercial motor vehicle operations. In making any such order, the Secretary shall impose no restriction on any employee or employer beyond that required to abate the hazard. Subsequent to the issuance of the order, opportunity for review shall be provided in accordance with section 554 of title 5, except that such review shall occur not later than 10 days after issuance of such order.

(B) In this paragraph, "imminent hazard" means any condition of vehicle, employee, or commercial motor vehicle operations which substantially increases the likelihood of serious injury or death if not discontinued immediately.

(6) CRIMINAL PENALTIES.—

(A) IN GENERAL.—Any person who knowingly and willfully violates any provision of subchapter III of chapter 311 (except sections 31138 and 31139) or section 31502 of this title, or a regulation issued under any of those provisions shall, upon conviction, be subject for each offense to a fine not to exceed \$25,000 or imprisonment for a term not to exceed one year, or both, except that, if such violator is an employee, the violator shall only be subject to penalty if, while operating a commercial motor vehicle, the violator's activities have led or could have led to death or serious injury, in which case the violator shall be subject, upon conviction, to a fine not to exceed \$2,500.

(B) VIOLATIONS PERTAINING TO CDLS.—Any person who knowingly and willfully violates—

(i) any provision of section 31302, 31303(b) or (c), 31304, 31305(b), or 31310(g)(1)(A) of this title or a regulation issued under such section, or

(ii) with respect to notification of a serious traffic violation as defined under section

31301 of this title, any provision of section 31303(a) of this title or a regulation issued under section 31303(a),

shall, upon conviction, be subject for each offense to a fine not to exceed \$5,000 or imprisonment for a term not to exceed 90 days, or both.

(7) The Secretary shall issue regulations establishing penalty schedules designed to induce timely compliance for persons failing to comply promptly with the requirements set forth in any notices and orders under this subsection.

(8) PROHIBITION ON OPERATION IN INTERSTATE COMMERCE AFTER NONPAYMENT OF PENALTIES.—

(A) IN GENERAL.—An owner or operator of a commercial motor vehicle against whom a civil penalty is assessed under this chapter or chapter 51, 149, or 311 of this title and who does not pay such penalty or fails to arrange and abide by an acceptable payment plan for such civil penalty may not operate in interstate commerce beginning on the 91st day after the date specified by order of the Secretary for payment of such penalty. This paragraph shall not apply to any person who is unable to pay a civil penalty because such person is a debtor in a case under chapter 11 of title 11, United States Code.

(B) REGULATIONS.—Not later than 12 months after the date of the enactment of this paragraph, the Secretary, after notice and an opportunity for public comment, shall issue regulations setting forth procedures for ordering commercial motor vehicle owners and operators delinquent in paying civil penalties to cease operations until payment has been made.

(9) Any aggrieved person who, after a hearing, is adversely affected by a final order issued under this section may, within 30 days, petition for review of the order in the United States Court of Appeals in the circuit wherein the violation is alleged to have occurred or where the violator has his principal place of business or residence, or in the United States Court of Appeals for the District of Columbia Circuit. Review of the order shall be based on a determination of whether the Secretary's findings and conclusions were supported by substantial evidence, or were otherwise not in accordance with law. No objection that has not been urged before the Secretary shall be considered by the court, unless reasonable grounds existed for failure or neglect to do so. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the order of the Secretary.

(10) All penalties and fines collected under this section shall be deposited into the Highway Trust Fund (other than the Mass Transit Account).

(11) In any action brought under this section, process may be served without regard to the territorial limits of the district of the State in which the action is brought.

(12) In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, trial shall be by the court, or, upon demand of the accused, by a jury, conducted in accordance with the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

(13) The provisions of this subsection shall not affect chapter 51 of this title or any regulation promulgated by the Secretary under chapter 51.

(14) As used in this subsection, the terms "commercial motor vehicle", "employee", "employer", and "State" have the meaning such terms have under section 31132 of this title.

(15) IMPOUNDMENT OF COMMERCIAL MOTOR VEHICLES.—

(A) ENFORCEMENT OF IMMINENT HAZARD OUT-OF-SERVICE ORDERS.—

(i) The Secretary, or an authorized State official carrying out motor carrier safety enforcement activities under section 31102, may enforce an imminent hazard out-of-service order issued under chapters 5, 51, 131 through 149, 311, 313, or 315 of this title, or a regulation promulgated thereunder, by towing and impounding a commercial motor vehicle until the order is rescinded.

(ii) Enforcement shall not unreasonably interfere with the ability of a shipper, carrier, broker, or other party to arrange for the alternative transportation of any cargo or passenger being transported at the time the commercial motor vehicle is immobilized. In the case of a commercial motor vehicle transporting passengers, the Secretary or authorized State official shall provide reasonable, temporary, and secure shelter and accommodations for passengers in transit.

(iii) The Secretary's designee or an authorized State official carrying out motor carrier safety enforcement activities under section 31102, shall immediately notify the owner of a commercial motor vehicle of the impoundment and the opportunity for review of the impoundment. A review shall be provided in accordance with section 554 of title 5, except that the review shall occur not later than 10 days after the impoundment.

(B) ISSUANCE OF REGULATIONS.—The Secretary shall promulgate regulations on the use of impoundment or immobilization of commercial motor vehicles as a means of enforcing additional out-of-service orders issued under chapters 5, 51, 131 through 149, 311, 313, or 315 of this title, or a regulation promulgated thereunder. Regulations promulgated under this subparagraph shall include consideration of public safety, the protection of passengers and cargo, inconvenience to passengers, and the security of the commercial motor vehicle.

(C) DEFINITION.—In this paragraph, the term "impoundment" or "impounding" means the seizing and taking into custody of a commercial motor vehicle or the immobilizing of a commercial motor vehicle through the attachment of a locking device or other mechanical or electronic means.

521	49:1655(f)(2).	Oct. 15, 1966, Pub. L. 89-670, § 6(f)(2), 80 Stat. 940.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). The powers of the Commission have been codified in subtitle IV of the revised title. The comparable provisions of title 49 that are represented by the section may be found as follows:

(a)	20(7)(a), (c)-(e).	11901
(b)	322(h).	11901

See the revision notes for the revised section for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

In subsection (a)(3), the words “against heat and cold” are inserted for consistency with sections 11105 and 11901 of the revised title.

Subsection (b) does not apply to motor carriers of migrant workers and motor private carriers because 49:322(h) (1st sentence) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:322(h) (1st sentence) to motor carriers of migrant workers and motor private carriers. The reference to 49:303(c), 306(a)(1), and 309(a)(1) is omitted as not applicable to this chapter.

MINIMUM AND MAXIMUM ASSESSMENTS

Pub. L. 106-159, title II, §222, Dec. 9, 1999, 113 Stat. 1769, provided that:

“(a) IN GENERAL.—The Secretary of Transportation should ensure that motor carriers operate safely by imposing civil penalties at a level calculated to ensure prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

“(b) ESTABLISHMENT.—The Secretary—

“(1) should establish and assess minimum civil penalties for each violation of a law referred to in subsection (a); and

“(2) shall assess the maximum civil penalty for each violation of a law referred to in subsection (a) by any person who is found to have committed a pattern of violations of critical or acute regulations issued to carry out such a law or to have previously committed the same or a related violation of critical or acute regulations issued to carry out such a law.

“(c) EXTRAORDINARY CIRCUMSTANCES.—If the Secretary determines and documents that extraordinary circumstances exist which merit the assessment of any civil penalty lower than any level established under subsection (b), the Secretary may assess such lower penalty. In cases where a person has been found to have previously committed the same or a related violation of critical or acute regulations issued to carry out a law referred to in subsection (a), extraordinary circumstances may be found to exist when the Secretary determines that repetition of such violation does not demonstrate a failure to take appropriate remedial action.

“(d) REPORT TO CONGRESS.—

“(1) IN GENERAL.—The Secretary shall conduct a study of the effectiveness of the revised civil penalties established in the Transportation Equity Act for the 21st Century [Pub. L. 105-178, see Tables for classification] and this Act [see Tables for classification] in ensuring prompt and sustained compliance with Federal motor carrier safety and commercial driver’s license laws.

“(2) SUBMISSION TO CONGRESS.—The Secretary shall transmit the results of such study and any recommendations to Congress by September 30, 2002.”

REPORT; PENALTIES; EFFECTIVENESS

Section 213(d) of Pub. L. 98-554 directed Secretary of Transportation to conduct a study of effectiveness of civil and criminal penalties established by amendments made by section 213 of Pub. L. 98-554 in deterring violations of commercial motor vehicle safety regulations

issued under title II of Pub. L. 98-554 and in effectively prosecuting such violations when they occur, which study was to examine the effectiveness of penalties in effect before Oct. 30, 1984, in comparison to the penalties established by the amendments made by title II of Pub. L. 98-554, and was to further investigate the need for, and make recommendations concerning, increased fine levels for civil and criminal penalties, and the need for additional categories of civil and criminal penalties to deter further, and prosecute effectively, violations of such commercial motor vehicle safety regulations, and further directed Secretary to submit to Congress a report on the findings of this study, together with legislative recommendations, not later than 2 years after Oct. 30, 1984.

§ 522. Reporting and record keeping violations

A person required to make a report to the Secretary of Transportation, or make, prepare, or preserve a record, under section 504 of this title about transportation by rail carrier, that knowingly and willfully (1) makes a false entry in the report or record, (2) destroys, mutilates, changes, or by another means falsifies the record, (3) does not enter business related facts and transactions in the record, (4) makes, prepares, or preserves the record in violation of a regulation or order of the Secretary, or (5) files a false report or record with the Secretary, shall be fined not more than \$5,000, imprisoned for not more than 2 years, or both.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). AMENDMENTS

1998—Pub. L. 105-178 struck out "(a)" before "A person required to make a report to the Secretary of

Transportation" and struck out subsec. (b) which read as follows: "A person required to make a report to the Secretary, answer a question, or make, prepare, or preserve a record under section 504 of this title about transportation by motor carrier, motor carrier of migrant workers, or motor private carrier, or an officer, agent, or employee of that person, that (1) willfully does not make that report, (2) willfully does not specifically, completely, and truthfully answer that question in 30 days from the date the Secretary requires the question to be answered, (3) willfully does not make, prepare, or preserve that record in the form and manner prescribed by the Secretary, (4) knowingly and willfully falsifies, destroys, mutilates, or changes that report or record, (5) knowingly and willfully files a false report or record with the Secretary, (6) knowingly and willfully makes a false or incomplete entry in that record about a business related fact or transaction, or (7) knowingly and willfully makes, prepares, or preserves a record in violation of a regulation or order of the Secretary, shall be fined not more than \$5,000."

§ 523. Unlawful disclosure of information

(a) A motor carrier, or an officer, receiver, trustee, lessee, or employee of that carrier, or another person authorized by that carrier to receive information from that carrier, may not knowingly disclose to another person (except the shipper or consignee), and another person may not solicit, or knowingly receive, information about the nature, kind, quantity, destination, consignee, or routing of property tendered or delivered to that carrier without the consent of the shipper or consignee if that information may be used to the detriment of the shipper or consignee or may disclose improperly to a competitor the business transactions of the shipper or consignee.

(b) This chapter does not prevent a motor carrier, motor carrier of migrant workers, or motor private carrier from giving information—

(1) in response to legal process issued under authority of a court of the United States or a State;

(2) to an officer, employee, or agent of the United States Government, a State, or a territory or possession of the United States; and

(3) to another motor carrier, motor carrier of migrant workers, or motor private carrier, or its agent, to adjust mutual traffic accounts in the ordinary course of business.

(c) An employee of the Secretary of Transportation delegated to make an inspection under section 504 of this title who knowingly discloses information acquired during that inspection, except as directed by the Secretary, a court, or a judge of that court, shall be fined not more than \$500, imprisoned for not more than 6 months, or both.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). See the revision notes for the revised section for an explanation of changes made in the text. Changes not accounted for in those revision notes are as follows:

Subsection (a) does not apply to motor carriers of migrant workers and motor private carriers because 49:322(e) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:322(e) to motor carriers of migrant workers and motor private carriers. The words “engaged in interstate or foreign commerce” are omitted as unnecessary because of the restatement of the chapter.

In subsections (b) and (c), the text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed.

§ 524. Evasion of regulation of motor carriers

A person, or an officer, employee, or agent of that person, that by any means tries to evade regulation of motor carriers under this chapter, chapter 51, subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), 31310(g)(1)(A), or 31502 of this title, or a regulation issued under any of those provisions, shall be fined at least \$2,000 but not more than \$5,000 for the first violation and at least \$2,500 but not more than \$7,500 for a subsequent violation.

The section is included because 49:1655(f)(2) gave the same administrative powers exercised by the Interstate Commerce Commission under certain sections of title 49 to the Secretary of Transportation to carry out duties transferred to the Secretary by 49:1655(e). See the revision notes for section 501 of the revised title for an explanation of the transfer under 49:1655(f)(2). The section does not apply to motor carriers of migrant workers and motor private carriers because 49:322(c) (related to evasion of regulation) only applies to motor carriers and 49:304(a)(3) and (3a) do not apply 49:322(c) (related to evasion of regulation) to motor carriers of migrant workers and motor private carriers.

AMENDMENTS

2012—Pub. L. 112–141 struck out “knowingly and willfully” after “by any means”, inserted “, chapter 51, subchapter III of chapter 311 (except sections 31138 and 31139) or section 31302, 31303, 31304, 31305(b), 31310(g)(1)(A), or 31502 of this title, or a regulation issued under any of those provisions,” after “this chapter”, and substituted “\$2,000 but not more than \$5,000” for “\$200 but not more than \$500” and “\$2,500 but not more than \$7,500” for “\$250 but not more than \$2,000”.

EFFECTIVE DATE OF 2012 AMENDMENT

Amendment by Pub. L. 112–141 effective Oct. 1, 2012, see section 3(a) of Pub. L. 112–141, set out as an Effective and Termination Dates of 2012 Amendment note under section 101 of Title 23, Highways.

§ 525. Disobedience to subpoenas

A motor carrier, motor carrier of migrant workers, or motor private carrier not obeying a subpoena or requirement of the Secretary of Transportation under this chapter to appear and testify or produce records shall be fined at least \$1,000 but not more than \$10,000, imprisoned for not more than one year, or both. The section does not apply to the liability of a rail carrier because 49:46 is not included in the specific enumeration of 49:1655(f)(2)(B)(ii). The text of 49:304(a)(3) (last sentence 1st–7th words) and (3a) (last sentence 1st–5th words) is omitted as executed. The words “under this chapter” are added for clarity.

At least 3 members shall be appointed on the basis of technical qualification, professional standing, and demonstrated knowledge in accident reconstruction, safety engineering, human factors, transportation safety, or transportation regulation.

(c) TERMS OF OFFICE AND REMOVAL.—The term of office of each member is 5 years. An individual appointed to fill a vacancy occurring before the expiration of the term for which the predecessor of that individual was appointed, is appointed for the remainder of that term. When the term of office of a member ends, the member may continue to serve until a successor is appointed and qualified. The President may remove a member for inefficiency, neglect of duty, or malfeasance in office.

(d) CHAIRMAN AND VICE CHAIRMAN.—The President shall designate, by and with the advice and consent of the Senate, a Chairman of the Board. The President also shall designate a Vice Chairman of the Board. The terms of office of both the Chairman and Vice Chairman are 3 years. When the Chairman is absent or unable to serve or when the position of Chairman is vacant, the Vice Chairman acts as Chairman.

(e) DUTIES AND POWERS OF CHAIRMAN.—The Chairman is the chief executive and administrative officer of the Board. Subject to the general policies and decisions of the Board, the Chairman shall—

(2) direct, manage, and provide policy guidance and oversight on financial management and property and inventory control; and

(3) review the fees, rents, and other charges imposed by the Board for services and things of value it provides, and suggest appropriate revisions to those charges to reflect costs incurred by the Board in providing those services and things of value.

(i) BOARD MEMBER STAFF.—Each member of the Board shall select and supervise regular and full-time employees in his or her immediate office as long as any such employee has been approved for employment by the designated agency ethics official under the same guidelines that apply to all employees of the Board. Except for the Chairman, the appointment authority provided by this subsection is limited to the number of full-time equivalent positions, in addition to 1 senior professional staff at a level not to exceed the GS 15 level and 1 administrative staff, allocated to each member through the Board’s annual budget and allocation process.

(e) **INQUIRIES.**—The Board, or an officer or employee of the Board designated by the Chairman, may conduct an inquiry to obtain information related to transportation safety after publishing notice of the inquiry in the Federal Register. The Board or designated officer or employee may require by order a department, agency, or instrumentality of the Government, a State or local governmental authority, or a person transporting individuals or property in commerce to submit to the Board a written report and answers to requests and questions related to a duty or power of the Board. (g) **OVERTIME PAY.**—

(1) **IN GENERAL.**—Subject to the requirements of this section and notwithstanding paragraphs (1) and (2) of section 5542(a) of title 5, for an employee of the Board whose basic pay is at a rate which equals or exceeds the minimum rate of basic pay for GS-10 of the General Schedule, the Board may establish an overtime hourly rate of pay for the employee with respect to work performed at the scene of an accident (including travel to or from the scene) and other work that is critical to an accident investigation in an amount equal to one and one-half times the hourly rate of basic pay of the employee. All of such amount shall be considered to be premium pay.

In subsection (a)(1), the words “sit and act at such times and places” are omitted as unnecessary. The word “necessary” is substituted for “as the Board or such officer or employee deems advisable” because it is more accurate.

In subsection (a)(2), the words “the witness would have been” are added for clarity and consistency in the revised title and with other titles of the United States Code.

In subsection (a)(4), the words “If a person disobeys” are substituted for “In case of contumacy or refusal to obey” for consistency in the revised title and with other titles of the Code. The words “of the Board” are substituted for “of the Board, or of any duly designated employee thereof” to eliminate unnecessary words. The words “the Board may bring a civil action in a district court of the United States” are substituted for “such district court shall, upon the request of the Board, have jurisdiction” for consistency in the revised title and because of 28:1331. The word “forthwith” is omitted as surplus. The words “An action under this paragraph may be brought in the judicial district” are added for clarity.

In subsection (b)(1)(A), the text of 49 App.:1441(b) (words before semicolon) is omitted as superseded by 49 App.:1903(b)(6)(C).

In subsection (b)(1)(B), the words “make agreements and other transactions” are substituted for “enter into . . . such contracts, leases, cooperative agreements, or other transactions” to eliminate unnecessary words. The words “to carry out this chapter” are substituted for “in the conduct of the functions and the duties of the Board under this chapter” for consistency. The words “with any government entity or any person” are omitted as surplus.

In subsection (b)(1)(C), the words “Department of Transportation and of other” are omitted as surplus. The words “department, agency, or instrumentality of the United States Government” are substituted for “civilian or military agencies and instrumentalities of the Federal Government” in 49 App.:1903(b)(6)(A) for consistency in the revised title and with other titles of the Code. The text of 49 App.:1441(b) (words after semicolon) is omitted as superseded by 49 App.:1903(b)(6)(A).

In subsection (b)(1)(D), the word “available” is omitted as surplus.

In subsection (b)(1)(E), the words “one or more” are omitted as surplus because the authority to appoint advisory committees is discretionary and unlimited on its face. The word “appropriate” is substituted for “necessary or appropriate” to eliminate unnecessary words. The words “in accordance with the Federal Advisory Committee Act” are omitted as surplus because that Act applies unless specifically excluded. (See 5 App. U.S.C.)

In subsection (b)(1)(G), the words “gifts of money and other property” are substituted for “gifts or donations of money or property (real, personal, mixed, tangible, or intangible)” to eliminate unnecessary words.

In subsection (b)(1)(H), the words “public or private” are omitted as surplus.

Subsection (b)(2) is substituted for “and to apply the funds received to the Board’s appropriations” for clarity and consistency in the revised title and with other titles of the Code.

SUBCHAPTER III—AUTHORITY

§ 1131. General authority

(a) GENERAL.—(1) The National Transportation Safety Board shall investigate or have investigated (in detail the Board prescribes) and establish the facts, circumstances, and cause or probable cause of—

(A) an aircraft accident the Board has authority to investigate under section 1132 of this title or an aircraft accident involving a public aircraft as defined by section 40102(a) of this title other than an aircraft operated by the Armed Forces or by an intelligence agency of the United States;

(B) a highway accident, including a railroad grade crossing accident, the Board selects in cooperation with a State;

(C) a railroad accident in which there is a fatality or substantial property damage, or that involves a passenger train;

(D) a pipeline accident in which there is a fatality, substantial property damage, or significant injury to the environment;

(E) a major marine casualty (except a casualty involving only public vessels) occurring on or under the navigable waters, internal waters, or the territorial sea of the United States as described in Presidential Proclamation No. 5928 of December 27, 1988, or involving a vessel of the United States (as defined in section 2101(46)¹ of title 46), under regulations prescribed jointly by the Board and the head of the department in which the Coast Guard is operating; and

(F) any other accident related to the transportation of individuals or property when the Board decides—

- (i) the accident is catastrophic;
- (ii) the accident involves problems of a recurring character; or
- (iii) the investigation of the accident would carry out this chapter.

(2)(A) Subject to the requirements of this paragraph, an investigation by the Board under paragraph (1)(A)–(D) or (F) of this subsection has priority over any investigation by another department, agency, or instrumentality of the United States Government. The Board shall provide for appropriate participation by other departments, agencies, or instrumentalities in the investigation. However, those departments, agencies, or instrumentalities may not participate in the decision of the Board about the probable cause of the accident.

(B) If the Attorney General, in consultation with the Chairman of the Board, determines and notifies the Board that circumstances reasonably indicate that the accident may have been caused by an intentional criminal act, the Board shall relinquish investigative priority to the Federal Bureau of Investigation. The relinquishment of investigative priority by the Board shall not otherwise affect the authority of the Board to continue its investigation under this section.

(C) If a Federal law enforcement agency suspects and notifies the Board that an accident being investigated by the Board under subparagraph (A), (B), (C), or (D) of paragraph (1) may have been caused by an intentional criminal act, the Board, in consultation with the law enforcement agency, shall take necessary actions to ensure that evidence of the criminal act is preserved.

(3) This section and sections 1113, 1116(b), 1133, and 1134(a) and (c)–(e) of this title do not affect the authority of another department, agency, or instrumentality of the Government to investigate an accident under applicable law or to obtain information directly from the parties involved in, and witnesses to, the accident. The Board and other departments, agencies, and instrumentalities shall ensure that appropriate information developed about the accident is exchanged in a timely manner.

¹ See References in Text note below.

(b) ACCIDENTS INVOLVING PUBLIC VESSELS.—(1) The Board or the head of the department in which the Coast Guard is operating shall investigate and establish the facts, circumstances, and cause or probable cause of a marine accident involving a public vessel and any other vessel. The results of the investigation shall be made available to the public.

(2) Paragraph (1) of this subsection and subsection (a)(1)(E) of this section do not affect the responsibility, under another law of the United States, of the head of the department in which the Coast Guard is operating.

(c) ACCIDENTS NOT INVOLVING GOVERNMENT MISFEASANCE OR NONFEASANCE.—(1) When asked by the Board, the Secretary of Transportation or the Secretary of the department in which the Coast Guard is operating may—

(A) investigate an accident described under subsection (a) or (b) of this section in which misfeasance or nonfeasance by the Government has not been alleged; and

(B) report the facts and circumstances of the accident to the Board.

(2) The Board shall use the report in establishing cause or probable cause of an accident described under subsection (a) or (b) of this section.

(d) ACCIDENTS INVOLVING PUBLIC AIRCRAFT.—The Board, in furtherance of its investigative duties with respect to public aircraft accidents under subsection (a)(1)(A) of this section, shall have the same duties and powers as are specified for civil aircraft accidents under sections 1132(a), 1132(b), and 1134(a), (b), (d), and (f) of this title.

(e) ACCIDENT REPORTS.—The Board shall report on the facts and circumstances of each accident investigated by it under subsection (a) or (b) of this section. The Board shall make each report available to the public at reasonable cost.

(d) **EXCLUSIVE AUTHORITY OF BOARD.**—Only the Board has the authority to decide on the way in which testing under this section will be conducted, including decisions on the person that will conduct the test, the type of test that will be conducted, and any individual who will witness the test. Those decisions are committed to the discretion of the Board. The Board shall make any of those decisions based on the needs of the investigation being conducted and, when applicable, subsections (a), (c), and (e) of this section.

(e) **PROMPTNESS OF TESTS AND AVAILABILITY OF RESULTS.**—An inspection, examination, or test under subsection (a) or (c) of this section shall be started and completed promptly, and the results shall be made available.

(f) **AUTOPSIES.**—(1) The Board may order an autopsy to be performed and have other tests made when necessary to investigate an accident under this chapter. However, local law protecting religious beliefs related to autopsies shall be observed to the extent consistent with the needs of the accident investigation.

(2) With or without reimbursement, the Board may obtain a copy of an autopsy report performed by a State or local official on an individual who died because of a transportation accident investigated by the Board under this chapter.

The words “civil action” are substituted for “proceedings . . . begun originally in any court of the United States” for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words “section 1132, 1134(b) or (f)(1) (related to an aircraft accident), or 1155(a) of this title” are substituted for “the provisions of this chapter” in 49 App.:1489 because 49 App.:1489 is taken from 49 App.:ch. 20 and the sections in quotations restate the relevant provisions of 49 App.:ch. 20 carried out by the National Transportation Safety Board. The remaining relevant provisions of 49 App.:ch. 20 are restated in part A of subtitle VII of the revised title, and provisions comparable to this section are included as section 46109 of the revised title. The word “rule” is omitted as being synonymous with “regulation”. The word “requirement” is omitted as included in “order”. The words “or any term, condition, or limitation of any certificate or permit” are omitted because the Board does not have authority to issue certificates or permits. The words “may be joined as a party or permitted to intervene” are substituted for “it shall be lawful to include as parties, or to permit the intervention of” for clarity. The text of 49 App.:1489 (words after semicolon) is omitted as surplus.

§ 1153. Judicial review

(a) GENERAL.—The appropriate court of appeals of the United States or the United States Court of Appeals for the District of Columbia Circuit may review a final order of the National Transportation Safety Board under this chapter. A person disclosing a substantial interest in the order may apply for review by filing a petition not later than 60 days after the order of the Board is issued.

(b) PERSONS SEEKING JUDICIAL REVIEW OF AVIATION MATTERS.—(1) A person disclosing a substantial interest in an order related to an aviation matter issued by the Board under this chapter may apply for review of the order by filing a petition for review in the United States Court of Appeals for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the person resides or has its principal place of business. The petition must be filed not later than 60 days after the order is issued. The court may allow the petition to be filed after the 60 days only if there was a reasonable ground for not filing within that 60-day period.

(2) When a petition is filed under paragraph (1) of this subsection, the clerk of the court immediately shall send a copy of the petition to the Board. The Board shall file with the court a record of the proceeding in which the order was issued.

(3) When the petition is sent to the Board, the court has exclusive jurisdiction to affirm, amend, modify, or set aside any part of the

order and may order the Board to conduct further proceedings. After reasonable notice to the Board, the court may grant interim relief by staying the order or taking other appropriate action when cause for its action exists. Findings of fact by the Board, if supported by substantial evidence, are conclusive.

(4) In reviewing an order under this subsection, the court may consider an objection to an order of the Board only if the objection was made in the proceeding conducted by the Board or if there was a reasonable ground for not making the objection in the proceeding.

(5) A decision by a court under this subsection may be reviewed only by the Supreme Court under section 1254 of title 28.

(c) ADMINISTRATOR SEEKING JUDICIAL REVIEW OF AVIATION MATTERS.—When the Administrator of the Federal Aviation Administration decides that an order of the Board under section 44703(d), 44709, or 46301(d)(5) of this title will have a significant adverse impact on carrying out this chapter related to an aviation matter, the Administrator may obtain judicial review of the order under section 46110 of this title. The Administrator shall be made a party to the judicial review proceedings. Findings of fact of the Board are conclusive if supported by substantial evidence.

(d) COMMANDANT SEEKING JUDICIAL REVIEW OF MARITIME MATTERS.—If the Commandant of the Coast Guard decides that an order of the Board issued pursuant to a review of a Coast Guard action under section 1133 of this title will have an adverse impact on maritime safety or security, the Commandant may obtain judicial review of the order under subsection (a). The Commandant, in the official capacity of the Commandant, shall be a party to the judicial review proceedings.

The words “is issued” are substituted for “after the entry” for consistency in the revised title and with other titles of the United States Code. In subsection (b)(4), the words “made in the proceeding conducted by” are substituted for “urged before” for clarity.

In subsection (c), the source provisions are combined to eliminate unnecessary words and are restated in this chapter to alert the reader to the authority of the Administrator of the Federal Aviation Administration to seek judicial review of an order of the National Transportation Safety Board under section 44709 or 46301(d) of the revised title that the Administrator decides will have a significant adverse impact on carrying out source provisions restated in this chapter that are derived from title VII of the Federal Aviation Act of 1958 (Public Law 85-726, 72 Stat. 781).

AMENDMENTS

2012—Subsec. (c). Pub. L. 112-95 substituted “section 44703(d), 44709, or” for “section 44709 or”.

§ 1154. Discovery and use of cockpit and surface vehicle recordings and transcripts

(a) IN GENERAL.—(1) Except as provided by this subsection, a party in a judicial proceeding may not use discovery to obtain—

(A) any still image that the National Transportation Safety Board has not made available

to the public under section 1114(c) or 1114(d) of this title;

(B) any part of a cockpit or surface vehicle recorder transcript that the National Transportation Safety Board has not made available to the public under section 1114(c) or 1114(d) of this title; and

(C) a cockpit or surface vehicle recorder recording.

(2)(A) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder transcript if, after an in camera review of the transcript, the court decides that—

(i) the part of the transcript made available to the public under section 1114(c) or 1114(d) of this title does not provide the party with sufficient information for the party to receive a fair trial; and

(ii) discovery of additional parts of the transcript is necessary to provide the party with sufficient information for the party to receive a fair trial.

(B) A court may allow discovery, or require production for an in camera review, of a cockpit or surface vehicle recorder transcript that the Board has not made available under section 1114(c) or 1114(d) of this title only if the cockpit or surface vehicle recorder recording is not available.

(3) Except as provided in paragraph (4)(A) of this subsection, a court may allow discovery by a party of a cockpit or surface vehicle recorder recording, including with regard to a video recording any still image that the National Transportation Safety Board has not made available to the public under section 1114(c) or 1114(d) of this title, if, after an in camera review of the recording, the court decides that—

(A) the parts of the transcript made available to the public under section 1114(c) or 1114(d) of this title and to the party through discovery under paragraph (2) of this subsection do not provide the party with sufficient information for the party to receive a fair trial; and

(B) discovery of the cockpit or surface vehicle recorder recording, including with regard to a video recording any still image that the National Transportation Safety Board has not made available to the public under section 1114(c) or 1114(d) of this title, is necessary to provide the party with sufficient information for the party to receive a fair trial.

(4)(A) When a court allows discovery in a judicial proceeding of a still image or a part of a cockpit or surface vehicle recorder transcript not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording, the court shall issue a protective order—

(i) to limit the use of the still image, the part of the transcript, or the recording to the judicial proceeding; and

(ii) to prohibit dissemination of the still image, the part of the transcript, or the recording to any person that does not need access to the still image, the part of the transcript, or the recording for the proceeding.

(B) A court may allow a still image or a part of a cockpit or surface vehicle recorder tran-

script not made available to the public under section 1114(c) or 1114(d) of this title or a cockpit or surface vehicle recorder recording to be admitted into evidence in a judicial proceeding, only if the court places the still image, the part of the transcript, or the recording under seal to prevent the use of the still image, the part of the transcript, or the recording for purposes other than for the proceeding.

(5) This subsection does not prevent the Board from referring at any time to cockpit or surface vehicle recorder information in making safety recommendations.

(6) In this subsection:

(A) RECORDER.—The term “recorder” means a voice or video recorder.

(B) STILL IMAGE.—The term “still image” means any still image obtained from a video recorder.

(C) TRANSCRIPT.—The term “transcript” includes any written depiction of visual information obtained from a video recorder.

(b) REPORTS.—No part of a report of the Board, related to an accident or an investigation of an accident, may be admitted into evidence or used in a civil action for damages resulting from a matter mentioned in the report.

§ 1155. Aviation penalties

(a) CIVIL PENALTY.—(1) A person violating section 1132, section 1134(b), section 1134(f)(1), or section 1136(g) (related to an aircraft accident) of this title or a regulation prescribed or order issued under any of those sections is liable to the United States Government for a civil penalty of not more than \$1,000. A separate violation occurs for each day a violation continues.

(2) This subsection does not apply to a member of the armed forces of the United States or an employee of the Department of Defense subject to the Uniform Code of Military Justice when the member or employee is performing official duties. The appropriate military authorities are responsible for taking necessary disciplinary action and submitting to the National Transportation Safety Board a timely report on action taken.

(3) The Board may compromise the amount of a civil penalty imposed under this subsection.

(4) The Government may deduct the amount of a civil penalty imposed or compromised under this subsection from amounts it owes the person liable for the penalty.

(5) A civil penalty under this subsection may be collected by bringing a civil action against the person liable for the penalty. The action shall conform as nearly as practicable to a civil action in admiralty.

(b) CRIMINAL PENALTY.—A person that knowingly and without authority removes, conceals, or withholds a part of a civil aircraft involved in an accident, or property on the aircraft at the time of the accident, shall be fined under title 18, imprisoned for not more than 10 years, or both.

In subsection (a)(1), the words “section 1132 or 1134(b) or (f)(1) (related to an aircraft accident) of this title” are substituted for “any provision of subchapter . . . The words “regulation prescribed or order issued under either of those sections” are substituted for “rule, regulation, or order issued thereunder” for clarity and consistency in the revised title and with other titles of the United States Code and because “rule” and “regulation” are synonymous. The words “liable to the United States Government” are substituted for “subject to” for clarity. The words “for each such violation” are omitted as unnecessary because of 18:1.

In subsection (a)(2), the word “civilian” is omitted as unnecessary. The words “with respect thereto” are omitted as surplus.

In subsection (a)(4), the words “imposed or compromised” are substituted for “finally determined or fixed by order of the Board, or the amount agreed upon in compromise” in 49 App.:1471(a)(2) for consistency and to eliminate unnecessary words.

In subsection (a)(5), the words “imposed or assessed” are omitted as surplus. The words “civil action against the person” are substituted for “proceedings in personam against the person” in 49 App.:1473(b)(1) for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.) and to eliminate unnecessary words. The members of the Council shall be appointed as follows:

(1) The members of the Council shall be appointed from among citizens of the United States who are not regular full-time employees of the United States and shall be selected for appointment so as to provide as nearly as practicable a broad representation of the various segments of the railroad and rail shipper industries.

(2) Nine of the members shall be appointed from senior executive officers of organizations engaged in the railroad and rail shipping industries, which 9 members shall be the voting members of the Council. Council action and Council positions shall be determined by a majority vote of the members present. A majority of such voting members shall constitute a quorum. Of such 9 voting members—

(A) at least 4 shall be representative of small shippers (as determined by the Chairman); and

(B) at least 4 shall be representative of Class II or III railroads.

(3) The remaining 6 members of the Council shall serve in a nonvoting advisory capacity only, but shall be entitled to participate in Council deliberations. Of the remaining members—

(A) 3 shall be representative of Class I railroads; and

(B) 3 shall be representative of large shipper organizations (as determined by the Chairman).

(4) The Secretary of Transportation and the members of the Board shall serve as ex officio, nonvoting members of the Council. The Council shall not be subject to the Federal Advisory Committee Act. A list of the members appointed to the Council shall be forwarded to the Chairmen and ranking members of the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

(5) Each ex officio member of the Council may designate an alternate, who shall serve as a member of the Council whenever the ex officio member is unable to attend a meeting of the Council. Any such designated alternate shall be selected from individuals who exercise significant decision-making authority in the Federal agency involved.

as designated by the Chairman at the time of appointment. Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of his term until his successor has taken office. Vacancies on the Council shall be filled in the same manner in which the original appointments were made. No member of the Council shall be eligible to serve in excess of two consecutive terms.

(c) **ELECTION AND DUTIES OF OFFICERS.**—The Council Chairman and Vice Chairman and other appropriate officers of the Council shall be elected by and from the voting members of the Council. The Council Chairman shall serve as the Council's executive officer and shall direct the administration of the Council, assign officer and committee duties, and shall be responsible for issuing and communicating the reports, policy positions and statements of the Council. In the event that the Council Chairman is unable to serve, the Vice Chairman shall act as Council Chairman.

(d) **EXPENSES.**—(1) The members of the Council shall receive no compensation for their services as such, but upon request by the Council Chairman, based on a showing of significant economic burden, the Secretary of Transportation or the Chairman of the Board, to the extent provided in advance in appropriation Acts, may provide reasonable and necessary travel expenses for such individual Council members from Department or Board funding sources in order to foster balanced representation on the Council.

(2) Upon request by the Council Chairman, the Secretary or Chairman of the Board, to the extent provided in advance in appropriations Acts, may pay the reasonable and necessary expenses incurred by the Council in connection with the coordination of Council activities, announcement and reporting of meetings, and preparation of such Council documents as are required or permitted by this section.

(3) The Council may solicit and use private funding for its activities, subject to this subsection.

(4) Prior to making any Federal funding requests, the Council Chairman shall undertake best efforts to fund such activities privately unless the Council Chairman determines that such private funding would create a conflict of interest, or the appearance thereof, or is otherwise impractical. The Council Chairman shall not request funding from any Federal agency without providing written justification as to why private funding would create any such conflict or appearance, or is otherwise impractical.

(5) To enable the Council to carry out its functions—

(A) the Council Chairman may request directly from any Federal agency such personnel, information, services, or facilities, on a compensated or uncompensated basis, as the Council Chairman determines necessary to carry out the functions of the Council;

(B) each Federal agency may, in its discretion, furnish the Council with such information, services, and facilities as the Council Chairman may request to the extent per-

mitted by law and within the limits of available funds; and

(C) each Federal agency may, in its discretion, detail to temporary duty with the Council, such personnel as the Council Chairman may request for carrying out the functions of the Council, each such detail to be without loss of seniority, pay, or other employee status.

(e) MEETINGS.—The Council shall meet at least semi-annually and shall hold other meetings at the call of the Council Chairman. Appropriate Federal facilities, where available, may be used for such meetings. Whenever the Council, or a committee of the Council, considers matters that affect the jurisdictional interests of Federal agencies that are not represented on the Council, the Council Chairman may invite the heads of such agencies, or their designees, to participate in the deliberations of the Council.

(f) FUNCTIONS AND DUTIES; ANNUAL REPORT.—(1) The Council shall advise the Secretary, the Chairman, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives with respect to rail transportation policy issues it considers significant, with particular attention to issues of importance to small shippers and small railroads, including car supply, rates, competition, and effective procedures for addressing legitimate shipper and other claims.

(2) To the extent the Council addresses specific grain car issues, it shall coordinate such activities with the National Grain Car Council. The Secretary and Chairman shall cooperate with the Council to provide research, technical and other reasonable support in developing any reports and policy statements required or authorized by this subsection.

(3) The Council shall endeavor to develop within the private sector mechanisms to prevent, or identify and effectively address, obstacles to the most effective and efficient transportation system practicable.

(4) The Council shall prepare an annual report concerning its activities and the results of Council efforts to resolve industry issues, and propose whatever regulatory or legislative relief it considers appropriate. The Council shall include in the annual report such recommendations as it considers appropriate with respect to the performance of the Secretary and Chairman under this chapter, and with respect to the operation and effectiveness of meetings and industry developments relating to the Council's efforts, and such other information as it considers appropriate. Such annual reports shall be reviewed by the Secretary and Chairman, and shall include the Secretary's and Chairman's views or comments relating to—

- (A) the accuracy of information therein;
- (B) Council efforts and reasonableness of Council positions and actions; and
- (C) any other aspects of the Council's work as they may consider appropriate.

The Council may prepare other reports or develop policy statements as the Council considers appropriate. An annual report shall be submitted for each fiscal year and shall be sub-

mitted to the Secretary and Chairman within 90 days after the end of the fiscal year. Other such reports and statements may be submitted as the Council considers appropriate.

FINDINGS

Pub. L. 109-59, title VII, §7101(a), Aug. 10, 2005, 119 Stat. 1891, provided that: “Congress finds with respect to hazardous materials transportation that—

“(1) approximately 4,000,000,000 tons of regulated hazardous materials are transported each year and approximately 1,200,000 movements of hazardous materials occur each day, according to Department of Transportation estimates;

“(2) the movement of hazardous materials in commerce is necessary to maintain economic vitality and meet consumer demands and must be conducted in a safe, secure, and efficient manner;

“(3) accidents involving, or unauthorized access to, hazardous materials in transportation may result in a release of such materials and pose a serious threat to public health and safety;

“(4) because of the potential risks to life, property, and the environment posed by unintentional releases of hazardous materials, consistency in laws and regulations governing the transportation of hazardous materials is necessary and desirable; and

“(5) in order to provide reasonable, adequate, and cost-effective protection from the risks posed by the transportation of hazardous materials, a network of well-trained State and local emergency response personnel and hazmat employees is essential.”

BUY AMERICAN

Pub. L. 103-311, title I, §123, Aug. 26, 1994, 108 Stat. 1682, provided that:

“(a) COMPLIANCE WITH BUY AMERICAN ACT.—None of the funds made available under this title [see Short Title of 1994 Amendment note above] may be expended in violation of sections 2 through 4 of the Act of March 3, 1933 ([former] 41 U.S.C. 10a-10c; popularly known as the ‘Buy American Act’ [see 41 U.S.C. 8301 et seq.]), which are applicable to those funds.

“(b) SENSE OF CONGRESS; REQUIREMENT REGARDING NOTICE.—

“(1) In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this title, it is the sense of Congress that entities receiving such assistance should, in expending such assistance, purchase only American-made equipment and products.

“(2) In providing financial assistance under this title, the Secretary of Transportation shall provide to each recipient of the assistance a notice describing the statement made in paragraph (1) by Congress.

“(c) PROHIBITION OF CONTRACTS.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a ‘Made in America’ inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract or subcontract made with funds provided pursuant to this title, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.

“(d) RECIPROCITY.—

“(1) Except as provided in paragraph (2), no contract or subcontract may be made with funds authorized under this title to a company organized under the laws of a foreign country unless the Secretary of Transportation finds that such country affords comparable opportunities to companies organized under laws of the United States.

“(2)(A) The Secretary of Transportation may waive the provisions of paragraph (1) if the products or services required are not reasonably available from companies organized under the laws of the United States. Any such waiver shall be reported to Congress.

“(B) Paragraph (1) shall not apply to the extent that to do so would violate the General Agreement on Tariffs and Trade or any other international agreement to which the United States is a party.”

(A) apply to a person who—

(i) transports hazardous material in commerce;

(ii) causes hazardous material to be transported in commerce;

(iii) designs, manufactures, fabricates, inspects, marks, maintains, reconditions, repairs, or tests a package, container, or packaging component that is represented, marked, certified, or sold as qualified for use in transporting hazardous material in commerce;

(c) FEDERALLY DECLARED DISASTERS AND EMERGENCIES.—

(1) IN GENERAL.—The Secretary may by order waive compliance with any part of an applicable standard prescribed under this chapter without prior notice and comment and on terms the Secretary considers appropriate if the Secretary determines that—

(A) it is in the public interest to grant the waiver;

(B) the waiver is not inconsistent with the safety of transporting hazardous materials; and

(C) the waiver is necessary to facilitate the safe movement of hazardous materials into, from, and within an area of a major disaster or emergency that has been declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

(2) PERIOD OF WAIVER.—A waiver under this subsection may be issued for a period of not more than 60 days and may be renewed upon application to the Secretary only after notice and an opportunity for a hearing on the waiver. affects the safety of the transportation of hazardous material, the Secretary of Homeland Security shall consult with the Secretary of Transportation.

“(2) the feasibility of requiring real-time dosimetry monitoring for such employees;

“(3) the feasibility of requiring routine radiation exposure monitoring in fixed railroad locations, such as yards and repair facilities; and

“(4) a review of the effectiveness of the Department’s packaging requirements for radioactive materials.

“(b) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 16, 2008], the Secretary of Transportation shall transmit a report on the results of the study required by subsection (a) and any recommendations to further protect employees of a railroad carrier or of a contractor or subcontractor to a

The results of the study shall be submitted to Congress within 1 year after the date of enactment of this Act [Aug. 26, 1994].”

FIBER DRUM PACKAGING

Pub. L. 104-88, title IV, §406, Dec. 29, 1995, 109 Stat. 957, provided that:

“(a) IN GENERAL.—In the administration of chapter 51 of title 49, United States Code, the Secretary of Transportation shall issue a final rule within 60 days after the date of the enactment of this Act [Dec. 29, 1995] authorizing the continued use of fiber drum packaging with a removable head for the transportation of liquid hazardous materials with respect to those liquid hazardous materials transported by such drums pursuant to regulations in effect on September 30, 1991, if—

“(b) ISSUANCE OF STANDARDS.—If the Secretary of Transportation determines, as a result of the rulemaking proceeding initiated under subsection (a), that a packaging standard other than the performance-oriented packaging standards referred to in subsection (a) will provide an equal or greater level of safety for the domestic transportation of liquid hazardous materials than would be provided if such performance-oriented packaging standards were in effect, the Secretary shall issue regulations which implement such other standard and which take effect before October 1, 1996.

“(c) COMPLETION OF RULEMAKING PROCEEDING.—The rulemaking proceeding initiated under subsection (a) shall be completed before October 1, 1995.

ardous materials endorsement to a commercial driver's license by that State may apply for a waiver.

(3) CLARIFICATION OF TERM DEFINED IN REGULATIONS.—The term “transportation security incident”, as defined in part 1572 of title 49, Code of Federal Regulations, does not include a work stoppage or other nonviolent employee-related action resulting from an employer-employee dispute. (1) IN GENERAL.—Beginning on the date that is 6 months after the date of enactment of this subsection, a commercial motor vehicle operator registered to operate in Mexico or Canada shall not operate a commercial motor vehicle transporting a hazardous material in commerce in the United States until the operator has undergone a background records check similar to the background records check required for commercial motor vehicle operators licensed in the United States to transport hazardous materials in commerce.

(2) EXTENSION.—The Director of the Transportation Security Administration may ex-

tend the deadline established by paragraph (1) for a period not to exceed 6 months if the Director determines that such an extension is necessary.

§ 5105. Transporting certain highly radioactive material

(a) DEFINITIONS.—In this section, “high-level radioactive waste” and “spent nuclear fuel” have the same meanings given those terms in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(b) TRANSPORTATION SAFETY STUDY.—In consultation with the Secretary of Energy, the Nuclear Regulatory Commission, potentially affected States and Indian tribes, representatives of the rail transportation industry, and shippers of high-level radioactive waste and spent nuclear fuel, the Secretary shall conduct a study comparing the safety of using trains operated only to transport high-level radioactive waste and spent nuclear fuel with the safety of using other methods of rail transportation for transporting that waste and fuel. The Secretary shall submit to Congress not later than November 16, 1991, a report on the results of the study.

(c) SAFE RAIL TRANSPORTATION REGULATIONS.—Not later than November 16, 1992, after considering the results of the study conducted under subsection (b) of this section, the Secretary shall prescribe amendments to existing regulations that the Secretary considers appropriate to provide for the safe rail transportation of high-level radioactive waste and spent nuclear fuel, including trains operated only for transporting high-level radioactive waste and spent nuclear fuel.

(d) INSPECTIONS OF MOTOR VEHICLES TRANSPORTING CERTAIN MATERIAL.—(1) Not later than November 16, 1991, the Secretary shall require by regulation that before each use of a motor vehicle to transport a highway-route-controlled quantity of radioactive material in commerce, the vehicle shall be inspected and certified as complying with this chapter and applicable United States motor carrier safety laws and regulations. The Secretary may require that the inspection be carried out by an authorized United States Government inspector or according to appropriate State procedures.

(2) The Secretary may allow a person, transporting or causing to be transported a highway-route-controlled quantity of radioactive material, to inspect the motor vehicle used to transport the material and to certify that the vehicle complies with this chapter. The inspector qualification requirements the Secretary prescribes for an individual inspecting a motor vehicle apply to an individual conducting an inspection under this paragraph.

§ 5116. Planning and training grants, monitoring, and review

(a) PLANNING AND TRAINING GRANTS.—(1) The Secretary shall make grants to States and Indian tribes—

(A) to develop, improve, and carry out emergency plans under the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001 et seq.), including ascertaining flow patterns of hazardous material on lands under the jurisdiction of a State or Indian tribe, and between lands under the jurisdiction of a State or Indian tribe and lands of another State or Indian tribe;

(B) to decide on the need for regional hazardous material emergency response teams; and

(C) to train public sector employees to respond to accidents and incidents involving hazardous material.

(2) To the extent that a grant is used to train emergency responders under paragraph (1)(C), the State or Indian tribe shall provide written certification to the Secretary that the emergency responders who receive training under the grant will have the ability to protect nearby persons, property, and the environment from the effects of accidents or incidents involving the transportation of hazardous material in accordance with existing regulations or National Fire Protection Association standards for competence of responders to accidents and incidents involving hazardous materials.

(3) The Secretary may make a grant to a State or Indian tribe under paragraph (1) of this subsection only if—

(A) the State or Indian tribe certifies that the total amount the State or Indian tribe expends (except amounts of the Federal Government) for the purpose of the grant will at least equal the average level of expenditure for the last 5 years; and

(B) any emergency response training provided under the grant shall consist of—

(i) a course developed or identified under section 5115 of this title; or

(ii) any other course the Secretary determines is consistent with the objectives of this section.

(4) A State or Indian tribe receiving a grant under this subsection shall ensure that planning and emergency response training under the grant is coordinated with adjacent States and Indian tribes.

(5) A training grant under paragraph (1)(C) may be used—

(A) to pay—

(i) the tuition costs of public sector employees being trained;

(ii) travel expenses of those employees to and from the training facility;

(iii) room and board of those employees when at the training facility; and

(iv) travel expenses of individuals providing the training;

(B) by the State, political subdivision, or Indian tribe to provide the training; and

(C) to make an agreement with a person (including an authority of a State, a political subdivision of a State or Indian tribe, or a local jurisdiction), subject to approval by the Secretary, to provide the training if—

(i) the agreement allows the Secretary and the State or Indian tribe to conduct random examinations, inspections, and audits of the training without prior notice;

(ii) the person agrees to have an auditable accounting system; and

(iii) the State or Indian tribe conducts at least one on-site observation of the training each year.

(6) The Secretary shall allocate amounts made available for grants under this subsection among eligible States and Indian tribes based on the needs of the States and Indian tribes for emergency response planning and training. In making a decision about those needs, the Secretary shall consider—

(A) the number of hazardous material facilities in the State or on land under the jurisdiction of the Indian tribe;

(B) the types and amounts of hazardous material transported in the State or on such land;

(C) whether the State or Indian tribe imposes and collects a fee for transporting hazardous material;

(D) whether such fee is used only to carry out a purpose related to transporting hazardous material;

(E) the past record of the State or Indian tribe in effectively managing planning and training grants; and

(F) any other factors the Secretary determines are appropriate to carry out this subsection.

(b) COMPLIANCE WITH CERTAIN LAW.—The Secretary may make a grant to a State under this section in a fiscal year only if the State certifies that the State complies with sections 301 and 303 of the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11001, 11003).

(c) APPLICATIONS.—A State or Indian tribe interested in receiving a grant under this section shall submit an application to the Secretary. The application must be submitted at the time, and contain information, the Secretary requires by regulation to carry out the objectives of this section.

(d) GOVERNMENT'S SHARE OF COSTS.—A grant under this section is for 80 percent of the cost the State or Indian tribe incurs in the fiscal year to carry out the activity for which the grant is made. Amounts of the State or tribe under subsection (a)(3)(A) of this section are not part of the non-Government share under this subsection.

(e) MONITORING AND TECHNICAL ASSISTANCE.—In coordination with the Secretaries of Transportation and Energy, Administrator of the Environmental Protection Agency, and Director of the National Institute of Environmental Health Sciences, the Administrator of the Federal Emergency Management Agency shall monitor

public sector emergency response planning and training for an accident or incident involving hazardous material. Considering the results of the monitoring, the Secretaries, Administrators, and Director each shall provide technical assistance to a State, political subdivision of a State, or Indian tribe for carrying out emergency response training and planning for an accident or incident involving hazardous material and shall coordinate the assistance using the existing coordinating mechanisms of the National Response Team and, for radioactive material, the Federal Radiological Preparedness Coordinating Committee.

(f) DELEGATION OF AUTHORITY.—To minimize administrative costs and to coordinate Federal financial assistance for emergency response training and planning, the Secretary may delegate to the Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sciences, Chairman of the Nuclear Regulatory Commission, Administrator of the Environmental Protection Agency, and Secretaries of Labor and Energy any of the following:

- (1) authority to receive applications for grants under this section.
- (2) authority to review applications for technical compliance with this section.
- (3) authority to review applications to recommend approval or disapproval.
- (4) any other ministerial duty associated with grants under this section.

(g) MINIMIZING DUPLICATION OF EFFORT AND EXPENSES.—The Secretaries of Transportation, Labor, and Energy, Administrator of the Federal Emergency Management Agency, Director of the National Institute of Environmental Health Sciences, Chairman of the Nuclear Regulatory Commission, and Administrator of the Environmental Protection Agency shall review periodically, with the head of each department, agency, or instrumentality of the Government, all emergency response and preparedness training programs of that department, agency, or instrumentality to minimize duplication of effort and expense of the department, agency, or instrumentality in carrying out the programs and shall take necessary action to minimize duplication.

(h) ANNUAL REGISTRATION FEE ACCOUNT AND ITS USES.—The Secretary of the Treasury shall establish an account in the Treasury (to be known as the “Hazardous Materials Emergency Preparedness Fund”) into which the Secretary of the Treasury shall deposit amounts the Secretary of Transportation transfers to the Secretary of the Treasury under section 5108(g)(2)(C) of this title. Without further appropriation, amounts in the account are available—

- (1) to make grants under this section and section 5107(e);
- (2) to monitor and provide technical assistance under subsection (e) of this section;
- (3) to publish and distribute an emergency response guide; and
- (4) to pay administrative costs of carrying out this section and sections 5107(e) and 5108(g)(2) of this title, except that not more than 2 percent of the amounts made available from the account in a fiscal year may be used to pay those costs.

(i) SUPPLEMENTAL TRAINING GRANTS.—

(1) In order to further the purposes of subsection (a), the Secretary shall, subject to the availability of funds and through a competitive process, make a grant or make grants to national nonprofit fire service organizations for the purpose of training instructors to conduct hazardous materials response training programs for individuals with statutory responsibility to respond to hazardous materials accidents and incidents.

(2) For the purposes of this subsection the Secretary, after consultation with interested organizations, shall—

- (A) identify regions or locations in which fire departments or other organizations which provide emergency response to hazardous materials transportation accidents and incidents are in need of hazardous materials training; and
- (B) prioritize such needs and develop a means for identifying additional specific training needs.

(3) Funds granted to an organization under this subsection shall only be used—

- (A) to provide training, including portable training, for instructors to conduct hazardous materials response training programs;
- (B) to purchase training equipment used exclusively to train instructors to conduct such training programs; and
- (C) to disseminate such information and materials as are necessary for the conduct of such training programs.

(4) The Secretary may only make a grant to an organization under this subsection in a fiscal year if the organization enters into an agreement with the Secretary to provide training, including portable training, for instructors to conduct hazardous materials response training programs in such fiscal year that will use—

- (A) a course or courses developed or identified under section 5115 of this title; or
- (B) other courses which the Secretary determines are consistent with the objectives of this subsection;

for training individuals with statutory responsibility to respond to accidents and incidents involving hazardous materials. Such agreement also shall provide that training courses shall comply with Federal regulations and national consensus standards for hazardous materials response and be open to all such individuals on a nondiscriminatory basis.

(5) The Secretary may not award a grant to an organization under this subsection unless the organization ensures that emergency responders who receive training under the grant will have the ability to protect nearby persons, property, and the environment from the effects of accidents or incidents involving the transportation of hazardous material in accordance with existing regulations or National Fire Protection Association standards for competence of responders to accidents and incidents involving hazardous materials.

(6) Notwithstanding paragraphs (1) and (3), to the extent determined appropriate by the

Secretary, a grant awarded by the Secretary to an organization under this subsection to conduct hazardous material response training programs may be used to train individuals with responsibility to respond to accidents and incidents involving hazardous material.

(7) For the purposes of this subsection, the term “portable training” means live, instructor-led training provided by certified fire service instructors that can be offered in any suitable setting, rather than specific designated facilities. Under this training delivery model, instructors travel to locations convenient to students and utilize local facilities and resources.

(8) The Secretary may impose such additional terms and conditions on grants to be made under this subsection as the Secretary determines are necessary to protect the interests of the United States and to carry out the objectives of this subsection.

(j) **REPORTS.**—The Secretary shall submit an annual report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and make available the report to the public. The report submitted under this subsection shall include information on the allocation and uses of the planning and training grants under subsection (a) and grants under subsection (i) of this section and under subsections (e) and (i) of section 5107. The report submitted under this subsection shall identify the ultimate recipients of such grants and include—

- (1) a detailed accounting and description of each grant expenditure by each grant recipient, including the amount of, and purpose for, each expenditure;
- (2) the number of persons trained under the grant program, by training level;
- (3) an evaluation of the efficacy of such planning and training programs; and
- (4) any recommendations the Secretary may have for improving such grant programs.

(B) transportation of a firearm or ammunition in commerce.

(f) **INCORPORATION INTO REGULATIONS.**—

(1) **IN GENERAL.**—Not later than 1 year after the date on which a special permit has been in continuous effect for a 10-year period, the Secretary shall conduct a review and analysis of that special permit to determine whether it may be converted into the hazardous materials regulations.

§ 5125. Preemption

(a) GENERAL.—Except as provided in subsections (b), (c), and (e) of this section and unless authorized by another law of the United States, a requirement of a State, political subdivision of a State, or Indian tribe is preempted if—

(1) complying with a requirement of the State, political subdivision, or tribe and a requirement of this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security is not possible; or

(2) the requirement of the State, political subdivision, or tribe, as applied or enforced, is an obstacle to accomplishing and carrying out this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security.

(b) SUBSTANTIVE DIFFERENCES.—(1) Except as provided in subsection (c) of this section and unless authorized by another law of the United States, a law, regulation, order, or other requirement of a State, political subdivision of a State, or Indian tribe about any of the following subjects, that is not substantively the same as a provision of this chapter, a regulation prescribed under this chapter, or a hazardous materials transportation security regulation or directive issued by the Secretary of Homeland Security, is preempted:

(A) the designation, description, and classification of hazardous material.

(B) the packing, repacking, handling, labeling, marking, and placarding of hazardous material.

(C) the preparation, execution, and use of shipping documents related to hazardous material and requirements related to the number, contents, and placement of those documents.

(D) the written notification, recording, and reporting of the unintentional release in transportation of hazardous material and other written hazardous materials transportation incident reporting involving State or local emergency responders in the initial response to the incident.

(E) the designing, manufacturing, fabricating, inspecting, marking, maintaining, reconditioning, repairing, or testing a package, container, or packaging component that is represented, marked, certified, or sold as qualified for use in transporting hazardous material in commerce.

(2) If the Secretary prescribes or has prescribed under section 5103(b), 5104, 5110, or 5112 of this title or prior comparable provision of law a regulation or standard related to a subject referred to in paragraph (1) of this subsection, a

State, political subdivision of a State, or Indian tribe may prescribe, issue, maintain, and enforce only a law, regulation, standard, or order about the subject that is substantively the same as a provision of this chapter or a regulation prescribed or order issued under this chapter. The Secretary shall decide on and publish in the Federal Register the effective date of section 5103(b) of this title for any regulation or standard about any of those subjects that the Secretary prescribes. The effective date may not be earlier than 90 days after the Secretary prescribes the regulation or standard nor later than the last day of the 2-year period beginning on the date the Secretary prescribes the regulation or standard.

(3) If a State, political subdivision of a State, or Indian tribe imposes a fine or penalty the Secretary decides is appropriate for a violation related to a subject referred to in paragraph (1) of this subsection, an additional fine or penalty may not be imposed by any other authority.

(c) COMPLIANCE WITH SECTION 5112(b) REGULATIONS.—(1) Except as provided in paragraph (2) of this subsection, after the last day of the 2-year period beginning on the date a regulation is prescribed under section 5112(b) of this title, a State or Indian tribe may establish, maintain, or enforce a highway routing designation over which hazardous material may or may not be transported by motor vehicles, or a limitation or requirement related to highway routing, only if the designation, limitation, or requirement complies with section 5112(b), and is published in the Department's hazardous materials route registry under section 5112(c).

(2)(A) A highway routing designation, limitation, or requirement established before the date a regulation is prescribed under section 5112(b) of this title does not have to comply with section 5112(b)(1)(B), (C), and (F).

(B) This subsection and section 5112 of this title do not require a State or Indian tribe to comply with section 5112(b)(1)(I) if the highway routing designation, limitation, or requirement was established before November 16, 1990.

(C) The Secretary may allow a highway routing designation, limitation, or requirement to continue in effect until a dispute related to the designation, limitation, or requirement is resolved under section 5112(d) of this title.

(d) DECISIONS ON PREEMPTION.—(1) A person (including a State, political subdivision of a State, or Indian tribe) directly affected by a requirement of a State, political subdivision, or tribe may apply to the Secretary, as provided by regulations prescribed by the Secretary, for a decision on whether the requirement is preempted by subsection (a), (b)(1), or (c) of this section or section 5119(f). The Secretary shall publish notice of the application in the Federal Register. The Secretary shall issue a decision on an application for a determination within 180 days after the date of the publication of the notice of having received such application, or the Secretary shall publish a statement in the Federal Register of the reason why the Secretary's decision on the application is delayed, along with an estimate of the additional time necessary before the decision is made. After notice is published, an applicant may not seek judicial

relief on the same or substantially the same issue until the Secretary takes final action on the application or until 180 days after the application is filed, whichever occurs first.

(2) After consulting with States, political subdivisions of States, and Indian tribes, the Secretary shall prescribe regulations for carrying out paragraph (1) of this subsection.

(3) Subsection (a) of this section does not prevent a State, political subdivision of a State, or Indian tribe, or another person directly affected by a requirement, from seeking a decision on preemption from a court of competent jurisdiction instead of applying to the Secretary under paragraph (1) of this subsection.

(e) **WAIVER OF PREEMPTION.**—A State, political subdivision of a State, or Indian tribe may apply to the Secretary for a waiver of preemption of a requirement the State, political subdivision, or tribe acknowledges is preempted by subsection (a), (b)(1), or (c) of this section or section 5119(f). Under a procedure the Secretary prescribes by regulation, the Secretary may waive preemption on deciding the requirement—

(1) provides the public at least as much protection as do requirements of this chapter and regulations prescribed under this chapter; and

(2) is not an unreasonable burden on commerce.

(f) **FEES.**—(1) A State, political subdivision of a State, or Indian tribe may impose a fee related to transporting hazardous material only if the fee is fair and used for a purpose related to transporting hazardous material, including enforcement and planning, developing, and maintaining a capability for emergency response.

(2) A State or political subdivision thereof or Indian tribe that levies a fee in connection with the transportation of hazardous materials shall biennially report to the Secretary on—

(A) the basis on which the fee is levied upon persons involved in such transportation;

(B) the purposes for which the revenues from the fee are used;

(C) the annual total amount of the revenues collected from the fee; and

(D) such other matters as the Secretary requests.

(g) **APPLICATION OF EACH PREEMPTION STANDARD.**—Each standard for preemption in subsection (a), (b)(1), or (c), and in section 5119(f), is independent in its application to a requirement of a State, political subdivision of a State, or Indian tribe.

(h) **NON-FEDERAL ENFORCEMENT STANDARDS.**—This section does not apply to any procedure, penalty, required mental state, or other standard utilized by a State, political subdivision of a State, or Indian tribe to enforce a requirement applicable to the transportation of hazardous material.

CONTRACTING OUT STUDY

Pub. L. 105-178, title III, §3032, June 9, 1998, 112 Stat. 385, as amended by Pub. L. 105-206, title IX, §9009(v), July 22, 1998, 112 Stat. 861, provided that a study of the effect of contracting out mass transportation operation and administrative functions was to be arranged between the Secretary of Transportation and the Transportation Research Board of the National Academy of Sciences no later than 6 months after June 9, 1998, and made available funds for fiscal year 1999.

COMMUTE-TO-WORK BENEFITS

Pub. L. 102-240, title VIII, §8004, Dec. 18, 1991, 105 Stat. 2206, provided that:

“(a) FINDINGS.—The Congress finds that—

“(1) current Federal policy places commuter transit benefits at a disadvantage compared to drive-to-work benefits;

“(2) this Federal policy is inconsistent with important national policy objectives, including the need to conserve energy, reduce reliance on energy imports, lessen congestion, and clean our Nation’s air;

“(3) commuter transit benefits should be part of a comprehensive solution to national transportation and air pollution problems;

“(4) current Federal law allows employers to provide only up to \$21 per month in employee benefits for transit or van pools;

“(5) the current ‘cliff provision’, which treats an entire commuter transit benefit as taxable income if it exceeds \$21 per month, unduly penalizes the most effective employer efforts to change commuter behavior;

“(6) employer-provided commuter transit incentives offer many public benefits, including increased access of low-income persons to good jobs, inexpensive reduction of roadway and parking congestion, and cost-effective incentives for timely arrival at work; and

“(7) legislation to provide equitable treatment of employer-provided commuter transit benefits has been introduced with bipartisan support in both the Senate and House of Representatives.

“(b) POLICY.—The Congress strongly supports Federal policy that promotes increased use of employer-provided commuter transit benefits. Such a policy ‘levels the playing field’ between transportation modes and is consistent with important national objectives of energy conservation, reduced reliance on energy imports, lessened congestion, and clean air.”

HISTORICAL AND REVISION NOTES—CONTINUED

<i>Revised Section</i>	<i>Source (U.S. Code)</i>	<i>Source (Statutes at Large)</i>
5302(b)	49 App.:1608(c)(4) (last sentence).	

In this chapter, the words “local governmental authority” are substituted for “local public body” for consistency in the revised title and with other titles of the United States Code.

In subsection (a), before clause (1), the text of 49 App.:1608(c)(7) is omitted as surplus. The text of 49 App.:1608(c)(8) is omitted because the complete title of the Secretary of Transportation is used the first time the term appears in a section. In clause (1), before subclause (A), the words “capital project” are substituted for “construction” for clarity. In subclause (A), the words “actual”, “all”, and “reconstruction” are omitted as surplus. In subclause (D), the words “(whether or not such overhaul increases the useful life of the rolling stock)” are omitted as surplus. In clause (2), the words “for each of the jurisdictions included in the definition of ‘State’” are omitted as surplus. In clauses (3) and (10), the word “regulation” is substituted for “rule” for consistency in the revised title and with other titles of the Code and because the terms are synonymous. In clause (3)(B)(iii), the words “of persons” are omitted as surplus. In clauses (4) and (5), the word “mass” is substituted for “public” because of the restatement. In clause (4)(A), the words “including, but not limited to, fixed rail, automated guideway transit, and exclusive facilities for buses” are omitted as surplus. In clause (6)(A), the words “municipalities and other” are omitted as surplus. In clause (6)(B), the word “authority” is substituted for “public agencies and instrumentalities” for consistency in the revised title and with other titles of the Code. The word “municipalities” is omitted as surplus. In clause (7), the words “bus, or rail, or other”, “either publicly or privately owned”, and “on a . . . basis” are omitted as surplus. Clause (8) is added for clarity because the term “net project cost” has the same meaning throughout this chapter. In clause (11), the words “the Commonwealths of” are omitted as surplus. In clause (12), the word “individuals” is substituted for “commuters or others” to eliminate unnecessary words. In clause (13)(A), the words “in the case of any such area” and “entire” are omitted as surplus. The words “Secretary of Commerce” are substituted for “Bureau of the Census” because of 15:1511(e). In clause (13)(B), the words “so designated by the Bureau of Census”, “which shall be”, “responsible”, and “in cooperation with each other” are omitted as surplus.

Subsection (b) applies to section 5307(d)(1)(D) of the revised title because of 49 App.:1607a(e)(1), restated as section 5307(n)(2) of the revised title.

(ii) INFORMATION COLLECTION AND ANALYSIS PLAN.—

(I) SUBMISSION OF PLAN.—Applicants seeking a full funding grant agreement under this paragraph shall submit a complete plan for the collection and analysis of information to identify the impacts of the new fixed guideway capital project

or core capacity improvement project and the accuracy of the forecasts prepared during the development of the project. Preparation of this plan shall be included in the full funding grant agreement as an eligible activity.

(II) CONTENTS OF PLAN.—The plan submitted under subclause (I) shall provide for—

(aa) collection of data on the current public transportation system regarding public transportation service levels and ridership patterns, including origins and destinations, access modes, trip purposes, and rider characteristics;

(bb) documentation of the predicted scope, service levels, capital costs, operating costs, and ridership of the project;

(cc) collection of data on the public transportation system 2 years after the opening of a new fixed guideway capital project or core capacity improvement project, including analogous information on public transportation service levels and ridership patterns and information on the as-built scope, capital, and financing costs of the project; and

(dd) analysis of the consistency of predicted project characteristics with actual outcomes.

(F) COLLECTION OF DATA ON CURRENT SYSTEM.—To be eligible for a full funding grant agreement under this paragraph, recipients shall have collected data on the current system, according to the plan required under subparagraph (E)(ii), before the beginning of construction of the proposed new fixed guideway capital project or core capacity improvement project. Collection of this data shall be included in the full funding grant agreement as an eligible activity.

(3) EARLY SYSTEMS WORK AGREEMENTS.—

(A) CONDITIONS.—The Secretary may enter into an early systems work agreement with an applicant if a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been issued on the project and the Secretary finds there is reason to believe—

(i) a full funding grant agreement for the project will be made; and

(ii) the terms of the work agreement will promote ultimate completion of the project more rapidly and at less cost.

(B) CONTENTS.—

(i) IN GENERAL.—An early systems work agreement under this paragraph obligates budget authority available under this chapter and title 23 and shall provide for reimbursement of preliminary costs of carrying out the project, including land acquisition, timely procurement of system elements for which specifications are decided, and other activities the Secretary decides are appropriate to make efficient, long-term project management easier.

(ii) CONTINGENT COMMITMENT.—An early systems work agreement may include a

commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law.

(iii) PERIOD COVERED.—An early systems work agreement under this paragraph shall cover the period of time the Secretary considers appropriate. The period may extend beyond the period of current authorization.

(iv) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out the early systems work agreement within a reasonable time are a cost of carrying out the agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

(v) FAILURE TO CARRY OUT PROJECT.—If an applicant does not carry out the project for reasons within the control of the applicant, the applicant shall repay all Federal grant funds awarded for the project from all Federal funding sources, for all project activities, facilities, and equipment, plus reasonable interest and penalty charges allowable by law or established by the Secretary in the early systems work agreement.

(vi) CREDITING OF FUNDS RECEIVED.—Any funds received by the Government under this paragraph, other than interest and penalty charges, shall be credited to the appropriation account from which the funds were originally derived.

(4) LIMITATION ON AMOUNTS.—

(A) IN GENERAL.—The Secretary may enter into full funding grant agreements under this subsection for new fixed guideway capital projects and core capacity improvement projects that contain contingent commitments to incur obligations in such amounts as the Secretary determines are appropriate.

(B) APPROPRIATION REQUIRED.—An obligation may be made under this subsection only when amounts are appropriated for the obligation.

(5) NOTIFICATION TO CONGRESS.—At least 30 days before issuing a letter of intent, entering into a full funding grant agreement, or entering into an early systems work agreement under this section, the Secretary shall notify, in writing, the Committee on Banking, Housing, and Urban Affairs and the Committee on Appropriations of the Senate and the Committee on Transportation and Infrastructure and the Committee on Appropriations of the House of Representatives of the proposed letter or agreement. The Secretary shall include with the notification a copy of the proposed letter or agreement as well as the evaluations and ratings for the project.

(I) GOVERNMENT SHARE OF NET CAPITAL PROJECT COST.—

(1) IN GENERAL.—

(A) ESTIMATION OF NET CAPITAL PROJECT COST.—Based on engineering studies, studies of economic feasibility, and information on the expected use of equipment or facilities, the Secretary shall estimate the net capital project cost.

(B) GRANTS.—

(i) GRANT FOR NEW FIXED GUIDEWAY CAPITAL PROJECT.—A grant for a new fixed guideway capital project shall not exceed 80 percent of the net capital project cost.

(ii) FULL FUNDING GRANT AGREEMENT FOR NEW FIXED GUIDEWAY CAPITAL PROJECT.—A full funding grant agreement for a new fixed guideway capital project shall not include a share of more than 60 percent from the funds made available under this section.

(iii) GRANT FOR CORE CAPACITY IMPROVEMENT PROJECT.—A grant for a core capacity improvement project shall not exceed 80 percent of the net capital project cost of the incremental cost to increase the capacity in the corridor.

(iv) GRANT FOR SMALL START PROJECT.—A grant for a small start project shall not exceed 80 percent of the net capital project costs.

(2) ADJUSTMENT FOR COMPLETION UNDER BUDGET.—The Secretary may adjust the final net capital project cost of a new fixed guideway capital project or core capacity improvement project evaluated under subsection (d), (e), or (i) to include the cost of eligible activities not included in the originally defined project if the Secretary determines that the originally defined project has been completed at a cost that is significantly below the original estimate.

(3) MAXIMUM GOVERNMENT SHARE.—The Secretary may provide a higher grant percentage than requested by the grant recipient if—

(A) the Secretary determines that the net capital project cost of the project is not more than 10 percent higher than the net capital project cost estimated at the time the project was approved for advancement into the engineering phase; and

(B) the ridership estimated for the project is not less than 90 percent of the ridership estimated for the project at the time the project was approved for advancement into the engineering phase.

(4) REMAINING COSTS.—The remainder of the net capital project costs shall be provided—

(A) in cash from non-Government sources;

(B) from revenues from the sale of advertising and concessions; or

(C) from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, or new capital.

(5) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as authorizing the Secretary to require a non-Federal financial commitment for a project that is more than 20 percent of the net capital project cost.

(6) SPECIAL RULE FOR ROLLING STOCK COSTS.—In addition to amounts allowed pursuant to

paragraph (1), a planned extension to a fixed guideway system may include the cost of rolling stock previously purchased if the applicant satisfies the Secretary that only amounts other than amounts provided by the Government were used and that the purchase was made for use on the extension. A refund or reduction of the remainder may be made only if a refund of a proportional amount of the grant of the Government is made at the same time.

(7) LIMITATION ON APPLICABILITY.—This subsection shall not apply to projects for which the Secretary entered into a full funding grant agreement before the date of enactment of the Federal Public Transportation Act of 2012.

(8) SPECIAL RULE FOR FIXED GUIDEWAY BUS RAPID TRANSIT PROJECTS.—For up to three fixed-guideway bus rapid transit projects each fiscal year the Secretary shall—

(A) establish a Government share of at least 80 percent; and

(B) not lower the project's rating for degree of local financial commitment for purposes of subsections (d)(2)(A)(v) or (h)(3)(C) as a result of the Government share specified in this paragraph.

(m) UNDERTAKING PROJECTS IN ADVANCE.—

(1) IN GENERAL.—The Secretary may pay the Government share of the net capital project cost to a State or local governmental authority that carries out any part of a project described in this section without the aid of amounts of the Government and according to all applicable procedures and requirements if—

(A) the State or local governmental authority applies for the payment;

(B) the Secretary approves the payment; and

(C) before the State or local governmental authority carries out the part of the project, the Secretary approves the plans and specifications for the part in the same way as other projects under this section.

(2) FINANCING COSTS.—

(A) IN GENERAL.—The cost of carrying out part of a project includes the amount of interest earned and payable on bonds issued by the State or local governmental authority to the extent proceeds of the bonds are expended in carrying out the part.

(B) LIMITATION ON AMOUNT OF INTEREST.—The amount of interest under this paragraph may not be more than the most favorable interest terms reasonably available for the project at the time of borrowing.

(C) CERTIFICATION.—The applicant shall certify, in a manner satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

(n) AVAILABILITY OF AMOUNTS.—

(1) IN GENERAL.—An amount made available or appropriated for a new fixed guideway capital project or core capacity improvement project shall remain available to that project for 4 fiscal years, including the fiscal year in which the amount is made available or appropriated. Any amounts that are unobligated to the project at the end of the 4-fiscal-year period may be used by the Secretary for any purpose under this section.

(2) USE OF DEOBLIGATED AMOUNTS.—An amount available under this section that is deobligated may be used for any purpose under this section.

(o) REPORTS ON NEW FIXED GUIDEWAY AND CORE CAPACITY IMPROVEMENT PROJECTS.—

(1) ANNUAL REPORT ON FUNDING RECOMMENDATIONS.—Not later than the first Monday in February of each year, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs and the Committee on Appropriations of the Senate and the Committee on Transportation and Infrastructure and the Committee on Appropriations of the House of Representatives a report that includes—

(A) a proposal of allocations of amounts to be available to finance grants for projects under this section among applicants for these amounts;

(B) evaluations and ratings, as required under subsections (d), (e), and (i), for each such project that is in project development, engineering, or has received a full funding grant agreement; and

(C) recommendations of such projects for funding based on the evaluations and ratings and on existing commitments and anticipated funding levels for the next 3 fiscal years based on information currently available to the Secretary.

(2) REPORTS ON BEFORE AND AFTER STUDIES.—Not later than the first Monday in August of each year, the Secretary shall submit to the committees described in paragraph (1) a report containing a summary of the results of any studies conducted under subsection (k)(2)(E).

(3) BIENNIAL GAO REVIEW.—The Comptroller General of the United States shall—

(A) conduct a biennial review of—

(i) the processes and procedures for evaluating, rating, and recommending new fixed guideway capital projects and core capacity improvement projects; and

(ii) the Secretary's implementation of such processes and procedures; and

(B) report to Congress on the results of such review by May 31 of each year.

(p) SPECIAL RULE.—For the purposes of calculating the cost effectiveness of a project described in subsection (d) or (e), the Secretary shall not reduce or eliminate the capital costs of art and non-functional landscaping elements from the annualized capital cost calculation.

(q) JOINT PUBLIC TRANSPORTATION AND INTERCITY PASSENGER RAIL PROJECTS.—

(1) IN GENERAL.—The Secretary may make grants for new fixed guideway capital projects and core capacity improvement projects that provide both public transportation and intercity passenger rail service.

(2) ELIGIBLE COSTS.—Eligible costs for a project under this subsection shall be limited to the net capital costs of the public transportation costs attributable to the project based on projected use of the new segment or expanded capacity of the project corridor, not including project elements designed to achieve or maintain a state of good repair, as determined by the Secretary under paragraph (4).

(3) PROJECT JUSTIFICATION AND LOCAL FINANCIAL COMMITMENT.—A project under this subsection shall be evaluated for project justification and local financial commitment under subsections (d), (e), (f), and (h), as applicable to the project, based on—

(A) the net capital costs of the public transportation costs attributable to the project as determined under paragraph (4); and

(B) the share of funds dedicated to the project from sources other than this section included in the unified finance plan for the project.

(4) CALCULATION OF NET CAPITAL PROJECT COST.—The Secretary shall estimate the net capital costs of a project under this subsection based on—

(A) engineering studies;

(B) studies of economic feasibility;

(C) the expected use of equipment or facilities; and

(D) the public transportation costs attributable to the project.

(5) GOVERNMENT SHARE OF NET CAPITAL PROJECT COST.—

(A) GOVERNMENT SHARE.—The Government share shall not exceed 80 percent of the net capital cost attributable to the public transportation costs of a project under this subsection as determined under paragraph (4).

(B) NON-GOVERNMENT SHARE.—The remainder of the net capital cost attributable to the public transportation costs of a project under this subsection shall be provided from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, or new capital.

“(8) LETTERS OF INTENT AND FULL FUNDING GRANT AGREEMENTS.—

“(A) LETTERS OF INTENT.—

“(i) AMOUNTS INTENDED TO BE OBLIGATED.—The Secretary may issue a letter of intent to an applicant announcing an intention to obligate, for an eligible project under this subsection, an amount from future available budget authority specified in law that is not more than the amount stipulated as the financial participation of the Secretary in the eligible project. When a letter is issued for an eligible project under this subsection, the amount shall be sufficient to complete at least an operable segment.

“(ii) TREATMENT.—The issuance of a letter under clause (i) is deemed not to be an obligation under section 1108(c), 1501, or 1502(a) of title 31, United States Code, or an administrative commitment.

“(B) FULL FUNDING GRANT AGREEMENTS.—

“(i) IN GENERAL.—Except as provided in clause (v), an eligible project shall be carried out under this subsection through a full funding grant agreement.

“(ii) CRITERIA.—The Secretary shall enter into a full funding grant agreement, based on the requirements of this subparagraph, with each applicant receiving assistance for an eligible project that has received a written notice of approval under paragraph (5)(A)(i).

“(iii) TERMS.—A full funding grant agreement shall—

“(I) establish the terms of participation by the Federal Government in the eligible project;

“(II) establish the maximum amount of Federal financial assistance for the eligible project;

“(III) include the period of time for completing construction of the eligible project, consistent

with the terms of the public-private partnership agreement, even if that period extends beyond the period of an authorization; and

“(iv) SPECIAL FINANCIAL RULES.—

“(I) IN GENERAL.—A full funding grant agreement under this subparagraph obligates an amount of available budget authority specified in law and may include a commitment, contingent on amounts to be specified in law in advance for commitments under this subparagraph, to obligate an additional amount from future available budget authority specified in law.

“(II) STATEMENT OF CONTINGENT COMMITMENT.—A full funding grant agreement shall state that the contingent commitment is not an obligation of the Federal Government.

“(III) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out a part of the eligible project within a reasonable time are a cost of carrying out the eligible project under a full funding grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the eligible project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

“(IV) COMPLETION OF OPERABLE SEGMENT.—The amount stipulated in an agreement under this subparagraph for a new fixed guideway capital project, core capacity improvement project, or small start project shall be sufficient to complete at least an operable segment.

“(v) EXCEPTION.—

“(I) IN GENERAL.—The Secretary, to the maximum extent practicable, shall provide Federal assistance under this subsection for a small start project in a single grant. If the Secretary cannot provide such a single grant, the Secretary may execute an expedited grant agreement in order to include a commitment on the part of the Secretary to provide funding for the project in future fiscal years.

“(ii) CONTENTS.—The written notification under clause (i) shall include a copy of the proposed letter of intent or full funding grant agreement for the eligible project.

“(9) GOVERNMENT SHARE OF NET CAPITAL PROJECT COST.—

“(A) IN GENERAL.—A grant for an eligible project shall not exceed 25 percent of the net capital project cost.

“(B) REMAINDER OF NET CAPITAL PROJECT COST.—The remainder of the net capital project cost shall be provided from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, or new capital.

“(C) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed as authorizing the Secretary to require a non-Federal financial commitment for a project that is more than 75 percent of the net capital project cost.

“(D) SPECIAL RULE FOR ROLLING STOCK COSTS.—In addition to amounts allowed pursuant to subparagraph (A), a planned extension to a fixed guideway system may include the cost of rolling stock previously purchased if the applicant satisfies the Secretary that only amounts other than amounts provided by the Federal Government were used and that the purchase was made for use on the extension. A refund or reduction of the remainder may be made only if a refund of a proportional amount of the grant of the Federal Government is made at the same time.

“(E) FAILURE TO CARRY OUT PROJECT.—If an applicant does not carry out an eligible project for reasons within the control of the applicant, the applicant shall repay all Federal funds awarded for the eligible project from all Federal funding sources, for all eligible project activities, facilities, and equipment, plus reasonable interest and penalty charges allowable by law.

§ 5323. General provisions

(a) INTERESTS IN PROPERTY.—

(1) IN GENERAL.—Financial assistance provided under this chapter to a State or a local governmental authority may be used to acquire an interest in, or to buy property of, a private company engaged in public transportation, for a capital project for property acquired from a private company engaged in public transportation after July 9, 1964, or to operate a public transportation facility or equipment in competition with, or in addition to, transportation service provided by an existing public transportation company, only if—

(A) the Secretary determines that such financial assistance is essential to a program of projects required under sections 5303, 5304, and 5306;

(B) the Secretary determines that the program provides for the participation of private companies engaged in public transportation to the maximum extent feasible; and

(C) just compensation under State or local law will be paid to the company for its franchise or property.

(2) LIMITATION.—A governmental authority may not use financial assistance of the United States Government to acquire land, equipment, or a facility used in public transportation from another governmental authority in the same geographic area.

(b) RELOCATION AND REAL PROPERTY REQUIREMENTS.—The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) shall apply to financial assistance for capital projects under this chapter.

(c) CONSIDERATION OF ECONOMIC, SOCIAL, AND ENVIRONMENTAL INTERESTS.—

(1) COOPERATION AND CONSULTATION.—The Secretary shall cooperate and consult with the Secretary of the Interior and the Administrator of the Environmental Protection Agency on each project that may have a substantial impact on the environment.

(2) COMPLIANCE WITH NEPA.—The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply to financial assistance for capital projects under this chapter.

(d) CONDITION ON CHARTER BUS TRANSPORTATION SERVICE.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used to buy or operate a bus only if the applicant, governmental au-

thority, or publicly owned operator that receives the assistance agrees that, except as provided in the agreement, the governmental authority or an operator of public transportation for the governmental authority will not provide charter bus transportation service outside the urban area in which it provides regularly scheduled public transportation service. An agreement shall provide for a fair arrangement the Secretary of Transportation considers appropriate to ensure that the assistance will not enable a governmental authority or an operator for a governmental authority to foreclose a private operator from providing intercity charter bus service if the private operator can provide the service.

(2) VIOLATIONS.—

(A) INVESTIGATIONS.—On receiving a complaint about a violation of the agreement required under paragraph (1), the Secretary shall investigate and decide whether a violation has occurred.

(B) ENFORCEMENT OF AGREEMENTS.—If the Secretary decides that a violation has occurred, the Secretary shall correct the violation under terms of the agreement.

(C) ADDITIONAL REMEDIES.—In addition to any remedy specified in the agreement, the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate if the Secretary finds a pattern of violations of the agreement.

(e) BOND PROCEEDS ELIGIBLE FOR LOCAL SHARE.—

(1) USE AS LOCAL MATCHING FUNDS.—Notwithstanding any other provision of law, a recipient of assistance under section 5307, 5309, or 5337 may use the proceeds from the issuance of revenue bonds as part of the local matching funds for a capital project.

(2) MAINTENANCE OF EFFORT.—The Secretary shall approve of the use of the proceeds from the issuance of revenue bonds for the remainder of the net project cost only if the Secretary finds that the aggregate amount of financial support for public transportation in the urbanized area provided by the State and affected local governmental authorities during the next 3 fiscal years, as programmed in the State transportation improvement program under section 5304, is not less than the aggregate amount provided by the State and affected local governmental authorities in the urbanized area during the preceding 3 fiscal years.

(3) DEBT SERVICE RESERVE.—The Secretary may reimburse an eligible recipient for deposits of bond proceeds in a debt service reserve that the recipient establishes pursuant to section 5302(3)(J) from amounts made available to the recipient under section 5309.

(f) SCHOOLBUS TRANSPORTATION.—

(1) AGREEMENTS.—Financial assistance under this chapter may be used for a capital project, or to operate public transportation equipment or a public transportation facility, only if the applicant agrees not to provide schoolbus transportation that exclusively transports students and school personnel in competition

with a private schoolbus operator. This subsection does not apply—

(A) to an applicant that operates a school system in the area to be served and a separate and exclusive schoolbus program for the school system; and

(B) unless a private schoolbus operator can provide adequate transportation that complies with applicable safety standards at reasonable rates.

(2) VIOLATIONS.—If the Secretary finds that an applicant, governmental authority, or publicly owned operator has violated the agreement required under paragraph (1), the Secretary shall bar a recipient or an operator from receiving Federal transit assistance in an amount the Secretary considers appropriate.

(g) BUYING BUSES UNDER OTHER LAWS.—Subsections (d) and (f) of this section apply to financial assistance to buy a bus under sections 133 and 142 of title 23.

(h) GRANT AND LOAN PROHIBITIONS.—A grant or loan may not be used to—

(1) pay ordinary governmental or nonproject operating expenses;

(2) pay incremental costs of incorporating art or non-functional landscaping into facilities, including the costs of an artist on the design team; or

(3) support a procurement that uses an exclusionary or discriminatory specification.

(i) GOVERNMENT SHARE OF COSTS FOR CERTAIN PROJECTS.—

(1) ACQUIRING VEHICLES AND VEHICLE-RELATED EQUIPMENT OR FACILITIES.—

(A) VEHICLES.—A grant for a project to be assisted under this chapter that involves acquiring vehicles for purposes of complying with or maintaining compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) or the Clean Air Act is for 85 percent of the net project cost.

(B) VEHICLE-RELATED EQUIPMENT OR FACILITIES.—A grant for a project to be assisted under this chapter that involves acquiring vehicle-related equipment or facilities required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) or vehicle-related equipment or facilities (including clean fuel or alternative fuel vehicle-related equipment or facilities) for purposes of complying with or maintaining compliance with the Clean Air Act, is for 90 percent of the net project cost of such equipment or facilities attributable to compliance with those Acts. The Secretary shall have discretion to determine, through practicable administrative procedures, the costs of such equipment or facilities attributable to compliance with those Acts.

(2) COSTS INCURRED BY PROVIDERS OF PUBLIC TRANSPORTATION BY VANPOOL.—

(A) LOCAL MATCHING SHARE.—The local matching share provided by a recipient of assistance for a capital project under this chapter may include any amounts expended by a provider of public transportation by vanpool for the acquisition of rolling stock to be used by such provider in the recipient's

service area, excluding any amounts the provider may have received in Federal, State, or local government assistance for such acquisition.

(B) **USE OF REVENUES.**—A private provider of public transportation by vanpool may use revenues it receives in the provision of public transportation service in the service area of a recipient of assistance under this chapter that are in excess of the provider's operating costs for the purpose of acquiring rolling stock, if the private provider enters into a legally binding agreement with the recipient that requires the provider to use the rolling stock in the recipient's service area.

(C) **DEFINITIONS.**—In this paragraph, the following definitions apply:

(i) **PRIVATE PROVIDER OF PUBLIC TRANSPORTATION BY VANPOOL.**—The term “private provider of public transportation by vanpool” means a private entity providing vanpool services in the service area of a recipient of assistance under this chapter using a commuter highway vehicle or vanpool vehicle.

(ii) **COMMUTER HIGHWAY VEHICLE; VANPOOL VEHICLE.**—The term “commuter highway vehicle or vanpool vehicle” means any vehicle—

(I) the seating capacity of which is at least 6 adults (not including the driver); and

(II) at least 80 percent of the mileage use of which can be reasonably expected to be for the purposes of transporting commuters in connection with travel between their residences and their place of employment.

(j) **BUY AMERICA.**—

(1) **IN GENERAL.**—The Secretary may obligate an amount that may be appropriated to carry out this chapter for a project only if the steel, iron, and manufactured goods used in the project are produced in the United States.

(2) **WAIVER.**—The Secretary may waive paragraph (1) of this subsection if the Secretary finds that—

(A) applying paragraph (1) would be inconsistent with the public interest;

(B) the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality;

(C) when procuring rolling stock (including train control, communication, traction power equipment, and rolling stock prototypes) under this chapter—

(i) the cost of components and sub-components produced in the United States—

(I) for fiscal years 2016 and 2017, is more than 60 percent of the cost of all components of the rolling stock;

(II) for fiscal years 2018 and 2019, is more than 65 percent of the cost of all components of the rolling stock; and

(III) for fiscal year 2020 and each fiscal year thereafter, is more than 70 percent of the cost of all components of the rolling stock; and

(ii) final assembly of the rolling stock has occurred in the United States; or

(D) including domestic material will increase the cost of the overall project by more than 25 percent.

(3) **WRITTEN WAIVER DETERMINATION AND ANNUAL REPORT.**—

(A) **WRITTEN DETERMINATION.**—Before issuing a waiver under paragraph (2), the Secretary shall—

(i) publish in the Federal Register and make publicly available in an easily identifiable location on the website of the Department of Transportation a detailed written explanation of the waiver determination; and

(ii) provide the public with a reasonable period of time for notice and comment.

(B) **ANNUAL REPORT.**—Not later than 1 year after the date of enactment of the Federal Public Transportation Act of 2012, and annually thereafter, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report listing any waiver issued under paragraph (2) during the preceding year.

(4) **LABOR COSTS FOR FINAL ASSEMBLY.**—In this subsection, labor costs involved in final assembly are not included in calculating the cost of components.

(5) **ROLLING STOCK FRAMES OR CAR SHELLS.**—In carrying out paragraph (2)(C) in the case of a rolling stock procurement receiving assistance under this chapter in which the average cost of a rolling stock vehicle in the procurement is more than \$300,000, if rolling stock frames or car shells are not produced in the United States, the Secretary shall include in the calculation of the domestic content of the rolling stock the cost of steel or iron that is produced in the United States and used in the rolling stock frames or car shells.

(6) **CERTIFICATION OF DOMESTIC SUPPLY AND DISCLOSURE.**—

(A) **CERTIFICATION OF DOMESTIC SUPPLY.**—If the Secretary denies an application for a waiver under paragraph (2), the Secretary shall provide to the applicant a written certification that—

(i) the steel, iron, or manufactured goods, as applicable, (referred to in this subparagraph as the “item”) is produced in the United States in a sufficient and reasonably available amount;

(ii) the item produced in the United States is of a satisfactory quality; and

(iii) includes a list of known manufacturers in the United States from which the item can be obtained.

(B) **DISCLOSURE.**—The Secretary shall disclose the waiver denial and the written certification to the public in an easily identifiable location on the website of the Department of Transportation.

(7) **WAIVER PROHIBITED.**—The Secretary may not make a waiver under paragraph (2) of this subsection for goods produced in a foreign country if the Secretary, in consultation with the United States Trade Representative, de-

cides that the government of that foreign country—

(A) has an agreement with the United States Government under which the Secretary has waived the requirement of this subsection; and

(B) has violated the agreement by discriminating against goods to which this subsection applies that are produced in the United States and to which the agreement applies.

(8) **PENALTY FOR MISLABELING AND MISREPRESENTATION.**—A person is ineligible under subpart 9.4 of the Federal Acquisition Regulation, or any successor thereto, to receive a contract or subcontract made with amounts authorized under the Federal Public Transportation Act of 2015 if a court or department, agency, or instrumentality of the Government decides the person intentionally—

(A) affixed a “Made in America” label, or a label with an inscription having the same meaning, to goods sold in or shipped to the United States that are used in a project to which this subsection applies but not produced in the United States; or

(B) represented that goods described in subparagraph (A) of this paragraph were produced in the United States.

(9) **STATE REQUIREMENTS.**—The Secretary may not impose any limitation on assistance provided under this chapter that restricts a State from imposing more stringent requirements than this subsection on the use of articles, materials, and supplies mined, produced, or manufactured in foreign countries in projects carried out with that assistance or restricts a recipient of that assistance from complying with those State-imposed requirements.

(10) **OPPORTUNITY TO CORRECT INADVERTENT ERROR.**—The Secretary may allow a manufacturer or supplier of steel, iron, or manufactured goods to correct after bid opening any certification of noncompliance or failure to properly complete the certification (but not including failure to sign the certification) under this subsection if such manufacturer or supplier attests under penalty of perjury that such manufacturer or supplier submitted an incorrect certification as a result of an inadvertent or clerical error. The burden of establishing inadvertent or clerical error is on the manufacturer or supplier.

(11) **ADMINISTRATIVE REVIEW.**—A party adversely affected by an agency action under this subsection shall have the right to seek review under section 702 of title 5.

(12) **STEEL AND IRON.**—For purposes of this subsection, steel and iron meeting the requirements of section 661.5(b) of title 49, Code of Federal Regulations may be considered produced in the United States.

(13) **DEFINITION OF SMALL PURCHASE.**—For purposes of determining whether a purchase qualifies for a general public interest waiver under paragraph (2)(A) of this subsection, including under any regulation promulgated under that paragraph, the term “small purchase” means a purchase of not more than \$150,000.

(k) **PARTICIPATION OF GOVERNMENTAL AGENCIES IN DESIGN AND DELIVERY OF TRANSPORTATION SERVICES.**—Governmental agencies and non-profit organizations that receive assistance from Government sources (other than the Department of Transportation) for nonemergency transportation services shall—

(1) participate and coordinate with recipients of assistance under this chapter in the design and delivery of transportation services; and

(2) be included in the planning for those services.

(l) **RELATIONSHIP TO OTHER LAWS.**—

(1) **FRAUD AND FALSE STATEMENTS.**—Section 1001 of title 18 applies to a certificate, submission, or statement provided under this chapter. The Secretary may terminate financial assistance under this chapter and seek reimbursement directly, or by offsetting amounts, available under this chapter if the Secretary determines that a recipient of such financial assistance has made a false or fraudulent statement or related act in connection with a Federal public transportation program.

(2) **POLITICAL ACTIVITIES OF NONSUPERVISORY EMPLOYEES.**—The provision of assistance under this chapter shall not be construed to require the application of chapter 15 of title 5 to any nonsupervisory employee of a public transportation system (or any other agency or entity performing related functions) to whom such chapter does not otherwise apply.

(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with Government motor vehicle safety requirements, subsection (j) of this section, and bid specifications requirements of grant recipients under this chapter. Under this subsection, independent inspections and review are required, and a manufacturer certification is not sufficient. Rolling stock procurements of 20 vehicles or fewer made for the purpose of serving rural areas and urbanized areas with populations of 200,000 or fewer shall be subject to the same requirements as established for procurements of 10 or fewer buses under the post-delivery purchaser’s requirements certification process under section 663.37(c) of title 49, Code of Federal Regulations.

(n) **SUBMISSION OF CERTIFICATIONS.**—A certification required under this chapter and any additional certification or assurance required by law or regulation to be submitted to the Secretary may be consolidated into a single document to be submitted annually as part of a grant application under this chapter. The Secretary shall publish annually a list of all certifications required under this chapter with the publication required under section 5336(d)(2).

(o) **GRANT REQUIREMENTS.**—The grant requirements under sections 5307, 5309, and 5337 apply to any project under this chapter that receives any assistance or other financing under chapter 6 (other than section 609) of title 23.

(p) **ALTERNATIVE FUELING FACILITIES.**—A recipient of assistance under this chapter may

allow the incidental use of federally funded alternative fueling facilities and equipment by nontransit public entities and private entities if—

- (1) the incidental use does not interfere with the recipient's public transportation operations;
- (2) all costs related to the incidental use are fully recaptured by the recipient from the nontransit public entity or private entity;
- (3) the recipient uses revenues received from the incidental use in excess of costs for planning, capital, and operating expenses that are incurred in providing public transportation; and
- (4) private entities pay all applicable excise taxes on fuel.

(q) CORRIDOR PRESERVATION.—

(1) IN GENERAL.—The Secretary may assist a recipient in acquiring right-of-way before the completion of the environmental reviews for any project that may use the right-of-way if the acquisition is otherwise permitted under Federal law.

(2) ENVIRONMENTAL REVIEWS.—Right-of-way acquired under this subsection may not be developed in anticipation of the project until all required environmental reviews for the project have been completed.

(r) REASONABLE ACCESS TO PUBLIC TRANSPORTATION FACILITIES.—A recipient of assistance under this chapter may not deny reasonable access for a private intercity or charter transportation operator to federally funded public transportation facilities, including intermodal facilities, park and ride lots, and bus-only highway lanes. In determining reasonable access, capacity requirements of the recipient of assistance and the extent to which access would be detrimental to existing public transportation services must be considered.

(s) VALUE CAPTURE REVENUE ELIGIBLE FOR LOCAL SHARE.—Notwithstanding any other provision of law, a recipient of assistance under this chapter may use the revenue generated from value capture financing mechanisms as local matching funds for capital projects and operating costs eligible under this chapter.

(t) SPECIAL CONDITION ON CHARTER BUS TRANSPORTATION SERVICE.—If, in a fiscal year, the Secretary is prohibited by law from enforcing regulations related to charter bus service under part 604 of title 49, Code of Federal Regulations, for any transit agency that during fiscal year 2008 was both initially granted a 60-day period to come into compliance with such part 604, and then was subsequently granted an exception from such part—

- (1) the transit agency shall be precluded from receiving its allocation of urbanized area formula grant funds for such fiscal year; and
- (2) any amounts withheld pursuant to paragraph (1) shall be added to the amount that the Secretary may apportion under section 5336 in the following fiscal year.

(u) LIMITATION ON CERTAIN ROLLING STOCK PROCUREMENTS.—

(1) IN GENERAL.—Except as provided in paragraph (5), financial assistance made available under this chapter shall not be used in award-

ing a contract or subcontract to an entity on or after the date of enactment of this subsection for the procurement of rolling stock for use in public transportation if the manufacturer of the rolling stock—

(A) is incorporated in or has manufacturing facilities in the United States; and

(B) is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

(i) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this subsection;

(ii) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a foreign country included on the priority watch list defined in subsection (g)(3) of that section; and

(iii) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).

(2) EXCEPTION.—For purposes of paragraph (1), the term “otherwise related legally or financially” does not include a minority relationship or investment.

(3) INTERNATIONAL AGREEMENTS.—This subsection shall be applied in a manner consistent with the obligations of the United States under international agreements.

(4) CERTIFICATION FOR RAIL ROLLING STOCK.—

(A) IN GENERAL.—Except as provided in paragraph (5), as a condition of financial assistance made available in a fiscal year under section 5337, a recipient that operates rail fixed guideway service shall certify in that fiscal year that the recipient will not award any contract or subcontract for the procurement of rail rolling stock for use in public transportation with a rail rolling stock manufacturer described in paragraph (1).

(B) SEPARATE CERTIFICATION.—The certification required under this paragraph shall be in addition to any certification the Secretary establishes to ensure compliance with the requirements of paragraph (1).

(5) SPECIAL RULES.—

(A) PARTIES TO EXECUTED CONTRACTS.—This subsection, including the certification requirement under paragraph (4), shall not apply to the award of any contract or subcontract made by a public transportation agency with a rail rolling stock manufacturer described in paragraph (1) if the manufacturer and the public transportation agency have executed a contract for rail rolling stock before the date of enactment of this subsection.

(B) ROLLING STOCK.—Except as provided in subparagraph (C) and for a contract or subcontract that is not described in subparagraph (A), this subsection, including the certification requirement under paragraph (4), shall not apply to the award of a contract or subcontract made by a public transportation agency with any rolling stock manufacturer

for the 2-year period beginning on or after the date of enactment of this subsection.

(C) EXCEPTION.—Subparagraph (B) shall not apply to the award of a contract or sub-contract made by the Washington Metropolitan Area Transit Authority.

(v) CYBERSECURITY CERTIFICATION FOR RAIL ROLLING STOCK AND OPERATIONS.—

(1) CERTIFICATION.—As a condition of financial assistance made available under this chapter, a recipient that operates a rail fixed guideway public transportation system shall certify that the recipient has established a process to develop, maintain, and execute a written plan for identifying and reducing cybersecurity risks.

(2) COMPLIANCE.—For the process required under paragraph (1), a recipient of assistance under this chapter shall—

(A) utilize the approach described by the voluntary standards and best practices developed under section 2(c)(15) of the National Institute of Standards and Technology Act (15 U.S.C. 272(c)(15)), as applicable;

(B) identify hardware and software that the recipient determines should undergo third-party testing and analysis to mitigate cybersecurity risks, such as hardware or software for rail rolling stock under proposed procurements; and

(C) utilize the approach described in any voluntary standards and best practices for rail fixed guideway public transportation systems developed under the authority of the Secretary of Homeland Security, as applicable.

(3) LIMITATIONS ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to interfere with the authority of—

(A) the Secretary of Homeland Security to publish or ensure compliance with requirements or standards concerning cybersecurity for rail fixed guideway public transportation systems; or

(B) the Secretary of Transportation under section 5329 to address cybersecurity issues as those issues relate to the safety of rail fixed guideway public transportation systems.

(3) in conjunction with an accident investigation or an investigation into a pattern or practice of conduct that negatively affects public safety, issue a subpoena to, and take the deposition of, any employee of a recipient or a State safety oversight agency, if—

(A) before the issuance of the subpoena, the Secretary requests a determination by the Attorney General of the United States as to whether the subpoena will interfere with an ongoing criminal investigation; and

(B) the Attorney General—

(i) determines that the subpoena will not interfere with an ongoing criminal investigation; or

(ii) fails to make a determination under clause (i) before the date that is 30 days after the date on which the Secretary makes a request under subparagraph (A);

(B) requiring more frequent oversight of the recipient by a State safety oversight agency or the Secretary;

(C) imposing more frequent reporting requirements;

(D) requiring that any Federal financial assistance provided under this chapter be spent on correcting safety deficiencies identified by the Secretary or the State safety oversight agency before such funds are spent on other projects; and

(E) withholding not more than 25 percent of financial assistance under section 5307.

(2) USE OR WITHHOLDING OF FUNDS.—

(A) IN GENERAL.—The Secretary may require the use of funds or withhold funds in accordance with paragraph (1)(D) or (1)(E) only if the Secretary finds that a recipient is engaged in a pattern or practice of serious safety violations or has otherwise refused to comply with Federal law relating to the safety of the public transportation system.

(B) NOTICE.—Before withholding funds from a recipient, the Secretary shall provide to the recipient—

(i) written notice of a violation and the amount proposed to be withheld; and

(h) RESTRICTIONS AND PROHIBITIONS.—

(1) RESTRICTIONS AND PROHIBITIONS.—The Secretary shall issue restrictions and prohibitions by whatever means are determined necessary and appropriate, without regard to section 5334(c), if, through testing, inspection, investigation, audit, or research carried out under this chapter, the Secretary determines that an unsafe condition or practice, or a combination of unsafe conditions and practices, exist such that there is a substantial risk of death or personal injury.

(2) NOTICE.—The notice of restriction or prohibition shall describe the condition or practice, the subsequent risk and the standards and procedures required to address the restriction or prohibition.

§ 5331. Alcohol and controlled substances testing

(a) DEFINITIONS.—In this section—

(1) “controlled substance” means any substance under section 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802) whose use the Secretary decides has a risk to transportation safety.

(2) “person” includes any entity organized or existing under the laws of the United States, a State, territory, or possession of the United States, or a foreign country.

(3) “public transportation” means any form of public transportation, except a form the Secretary decides is covered adequately, for employee alcohol and controlled substances testing purposes, under section 20140 or 31306 of this title or section 2303a, 7101(i), or 7302(e) of title 46. The Secretary may also decide that a form of public transportation is covered adequately, for employee alcohol and controlled substances testing purposes, under the alcohol and controlled substance statutes or regulations of an agency within the Department of Transportation or the Coast Guard.

(b) TESTING PROGRAM FOR PUBLIC TRANSPORTATION EMPLOYEES.—(1)(A) In the interest of public transportation safety, the Secretary shall prescribe regulations that establish a program requiring public transportation operations that receive financial assistance under section 5307, 5309, or 5311 of this title to conduct preemployment, reasonable suspicion, random, and post-accident testing of public transportation employees responsible for safety-sensitive func-

tions (as decided by the Secretary) for the use of a controlled substance in violation of law or a United States Government regulation, and to conduct reasonable suspicion, random, and post-accident testing of such employees for the use of alcohol in violation of law or a United States Government regulation. The regulations shall permit such operations to conduct preemployment testing of such employees for the use of alcohol.

(B) When the Secretary considers it appropriate in the interest of safety, the Secretary may prescribe regulations for conducting periodic recurring testing of public transportation employees responsible for safety-sensitive functions (as decided by the Secretary) for the use of alcohol or a controlled substance in violation of law or a Government regulation.

(2) In prescribing regulations under this subsection, the Secretary—

(A) shall require that post-accident testing of such a public transportation employee be conducted when loss of human life occurs in an accident involving public transportation; and

(B) may require that post-accident testing of such a public transportation employee be conducted when bodily injury or significant property damage occurs in any other serious accident involving public transportation.

(c) DISQUALIFICATIONS FOR USE.—(1) When the Secretary considers it appropriate, the Secretary shall require disqualification for an established period of time or dismissal of any employee referred to in subsection (b)(1) of this section who is found—

(A) to have used or been impaired by alcohol when on duty; or

(B) to have used a controlled substance, whether or not on duty, except as allowed for medical purposes by law or regulation.

(2) This section does not supersede any penalty applicable to a public transportation employee under another law.

(d) TESTING AND LABORATORY REQUIREMENTS.—In carrying out subsection (b) of this section, the Secretary shall develop requirements that shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimens;

(2) for laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any amendments to those guidelines, including mandatory guidelines establishing—

(A) comprehensive standards for every aspect of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards requiring the use of the best available technology to ensure the complete reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimens collected for controlled substances testing;

(B) the minimum list of controlled substances for which individuals may be tested; and

(C) appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

(3) require that a laboratory involved in controlled substances testing under this section have the capability and facility, at the laboratory, of performing screening and confirmation tests;

(4) provide that all tests indicating the use of alcohol or a controlled substance in violation of law or a Government regulation be confirmed by a scientifically recognized method of testing capable of providing quantitative information about alcohol or a controlled substance;

(5) provide that each specimen be subdivided, secured, and labeled in the presence of the tested individual and that a part of the specimen be retained in a secure manner to prevent the possibility of tampering, so that if the individual's confirmation test results are positive the individual has an opportunity to have the retained part tested by a 2d confirmation test done independently at another certified laboratory if the individual requests the 2d confirmation test not later than 3 days after being advised of the results of the first confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations that may be necessary and in consultation with the Secretary of Health and Human Services;

(7) provide for the confidentiality of test results and medical information (except information about alcohol or a controlled substance) of employees, except that this clause does not prevent the use of test results for the orderly imposition of appropriate sanctions under this section; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(e) **REHABILITATION.**—The Secretary shall prescribe regulations establishing requirements for rehabilitation programs that provide for the identification and opportunity for treatment of any public transportation employee referred to in subsection (b)(1) of this section who is found to have used alcohol or a controlled substance in violation of law or a Government regulation. The Secretary shall decide on the circumstances under which employees shall be required to participate in a program. This subsection does not prevent a public transportation operation from establishing a program under this section in cooperation with another public transportation operation.

(f) **RELATIONSHIP TO OTHER LAWS, REGULATIONS, STANDARDS, AND ORDERS.**—(1) A State or local government may not prescribe, issue, or continue in effect a law, regulation, standard, or order that is inconsistent with regulations prescribed under this section. However, a regula-

tion prescribed under this section does not preempt a State criminal law that imposes sanctions for reckless conduct leading to loss of life, injury, or damage to property.

(2) In prescribing regulations under this section, the Secretary—

(A) shall establish only requirements that are consistent with international obligations of the United States; and

(B) shall consider applicable laws and regulations of foreign countries.

(g) **CONDITIONS ON FEDERAL ASSISTANCE.**—

(1) **INELIGIBILITY FOR ASSISTANCE.**—A person that receives funds under this chapter is not eligible for financial assistance under section 5307, 5309, or 5311 of this title if the person is required, under regulations the Secretary prescribes under this section, to establish a program of alcohol and controlled substances testing and does not establish the program in accordance with this section.

(2) **ADDITIONAL REMEDIES.**—If the Secretary determines that a person that receives funds under this chapter is not in compliance with regulations prescribed under this section, the Secretary may bar the person from receiving Federal transit assistance in an amount the Secretary considers appropriate.

§ 5334. Administrative provisions

(a) GENERAL AUTHORITY.—In carrying out this chapter, the Secretary of Transportation may—

(1) prescribe terms for a project that receives Federal financial assistance under this chapter (except terms the Secretary of Labor prescribes under section 5333(b) of this title);

(2) sue and be sued;

(3) foreclose on property or bring a civil action to protect or enforce a right conferred on the Secretary of Transportation by law or agreement;

(4) buy property related to a loan under this chapter;

(5) agree to pay an annual amount in place of a State or local tax on real property acquired or owned under this chapter;

(6) sell, exchange, or lease property, a security, or an obligation;

(7) obtain loss insurance for property and assets the Secretary of Transportation holds;

(8) consent to a modification in an agreement under this chapter;

(9) include in an agreement or instrument under this chapter a covenant or term the Secretary of Transportation considers necessary to carry out this chapter;

(10) collect fees to cover the costs of training or conferences, including costs of promotional materials, sponsored by the Federal Transit Administration to promote public transportation and credit amounts collected to the appropriation concerned; and

(11) issue regulations as necessary to carry out the purposes of this chapter.

(b) PROHIBITIONS AGAINST REGULATING OPERATIONS AND CHARGES.—

(1) IN GENERAL.—Except for purposes of national defense or in the event of a national or regional emergency, or for purposes of establishing and enforcing a program to improve the safety of public transportation systems in the United States as described in section 5329, the Secretary may not regulate the operation, routes, or schedules of a public transportation system for which a grant is made under this chapter. The Secretary may not regulate the rates, fares, tolls, rentals, or other charges prescribed by any provider of public transportation.

(2) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to prevent the Secretary from requiring a recipient of funds under this chapter to comply with the terms and conditions of its Federal assistance agreement.

(c) PROCEDURES FOR PRESCRIBING REGULATIONS.—(1) The Secretary shall prepare an agenda listing all areas in which the Secretary intends to propose regulations governing activities under this chapter within the following 12 months. The Secretary shall publish the proposed agenda in the Federal Register as part of the Secretary’s semiannual regulatory agenda that lists regulatory activities of the Federal Transit Administration. The Secretary shall submit the agenda to the Committee on Banking, Housing, and Urban Affairs and the Committee on Appropriations of the Senate and the Committee on Transportation and Infrastructure and the Committee on Appropriations of the House of Representatives on the day the agenda is published.

(2) Except for emergency regulations, the Secretary shall give interested parties at least 60 days to participate in a regulatory proceeding under this chapter by submitting written information, views, or arguments, with or without an oral presentation, except when the Secretary for good cause finds that public notice and comment are unnecessary because of the routine nature or insignificant impact of the regulation or that an emergency regulation should be issued. The Secretary may extend the 60-day period if the Secretary decides the period is insufficient to allow diligent individuals to prepare comments or that other circumstances justify an extension.

(3) An emergency regulation ends 120 days after it is issued.

(4) The Secretary shall comply with this subsection when proposing or carrying out a regulation governing an activity under this chapter, except for a routine matter or a matter with no significant impact.

(d) BUDGET PROGRAM AND SET OF ACCOUNTS.—The Secretary shall—

(1) submit each year a budget program as provided in section 9103 of title 31; and

(2) maintain a set of accounts for audit under chapter 35 of title 31.

Receipts, assets, and amounts obtained or held by the Secretary to carry out this chapter are available for administrative expenses to carry out this chapter.

(f) BINDING EFFECT OF FINANCIAL TRANSACTION.—A financial transaction of the Secretary under this chapter and a related voucher are binding on all officers and employees of the United States Government.

(g) DEALING WITH ACQUIRED PROPERTY.—Notwithstanding another law related to the Government acquiring, using, or disposing of real property, the Secretary may deal with property acquired under paragraph (3) or (4) of subsection (a) in any way. However, this subsection does not—

(1) deprive a State or political subdivision of a State of jurisdiction of the property; or

(2) impair the civil rights, under the laws of a State or political subdivision of a State, of an inhabitant of the property.

(h) TRANSFER OF ASSETS NO LONGER NEEDED.—(1) If a recipient of assistance under this chapter decides an asset acquired under this chapter at least in part with that assistance is no longer needed for the purpose for which it was acquired, the Secretary may authorize the recipient to transfer the asset to a local governmental authority to be used for a public purpose with no further obligation to the Government. The Secretary may authorize a transfer for a public purpose other than public transportation only if the Secretary decides—

(A) the asset will remain in public use for at least 5 years after the date the asset is transferred;

(B) there is no purpose eligible for assistance under this chapter for which the asset should be used;

(C) the overall benefit of allowing the transfer is greater than the interest of the Government in liquidation and return of the financial interest of the Government in the asset, after considering fair market value and other factors; and

(D) through an appropriate screening or survey process, that there is no interest in acquiring the asset for Government use if the asset is a facility or land.

(2) A decision under paragraph (1) must be in writing and include the reason for the decision.

(3) This subsection is in addition to any other law related to using and disposing of a facility or equipment under an assistance agreement.

(4) PROCEEDS FROM THE SALE OF TRANSIT ASSETS.—

(A) IN GENERAL.—When real property, equipment, or supplies acquired with assistance under this chapter are no longer needed for public transportation purposes as determined under the applicable assistance agreement, the Secretary may authorize the sale, transfer, or lease of the assets under conditions determined by the Secretary and subject to the requirements of this subsection.

(B) USE.—The net income from asset sales, uses, or leases (including lease renewals) under this subsection shall be used by the recipient to reduce the gross project cost of other capital projects carried out under this chapter.

(C) RELATIONSHIP TO OTHER AUTHORITY.—The authority of the Secretary under this subsection is in addition to existing authorities controlling allocation or use of recipient income otherwise permissible in law or regulation in effect prior to the date of enactment of this paragraph.

(i) TRANSFER OF AMOUNTS AND NON-GOVERNMENT SHARE.—(1) Amounts made available for a public transportation project under title 23 may be transferred to and administered by the Secretary under this chapter. Amounts made available for a highway project under this chapter shall be transferred to and administered by the Secretary under title 23.

(2) The provisions of title 23 related to the non-Government share apply to amounts under title 23 used for public transportation projects. The provisions of this chapter related to the non-Government share apply to amounts under this chapter used for highway projects.

5334(j)(2)	49 App.:1608(a) (1st sentence related to 12:1749a(d)).	

In subsections (c)–(f), and (j), the relevant substantive provisions of 12:1749a are substituted for “shall . . . have the functions, powers, and duties set forth in section 1749a of title 12, except subsections (c)(2) and (f) of such section” for clarity. The reference to subsection (c)(2) is omitted as obsolete because section 201(d)(1) of the Housing and Community Development Technical Amendments Act of 1984 (Public Law 98-479, 98 Stat.

2228) repealed 12:1749a(c)(2). The words “(in addition to any authority otherwise vested in him)” are omitted as surplus.

In subsection (a), the text of 49 App.:1608(a) (1st sentence related to 12:1749a(c)(8)) is omitted as obsolete. Before clause (1), the words “carrying out this chapter” are substituted for “the performance of, and with respect to, the functions, powers, and duties vested in him by this chapter” to eliminate unnecessary words. In clause (1), the words “(except terms the Secretary of Labor prescribes under section 5333(b) of this title)” are added for clarity because 49 App.:1608(a) only applies to the Secretary of Transportation and does not supersede the responsibility of the Secretary of Labor. In clause (3), the word “civil” is added for clarity. The words “contract, or other” are omitted as surplus. In clause (4), the words “bid for and . . . at any foreclosure or any other sale” are omitted as surplus. In clause (6), the words “at public or private sale”, “real or personal”, and “upon such terms as he may fix” are omitted as surplus. Clause (8) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(c)(7)) to eliminate unnecessary words. In clause (9), the word “provisions” is omitted as surplus. The words “carry out this chapter” are substituted for “assure that the purposes of this subchapter will be achieved” to eliminate unnecessary words.

In subsection (b), the words “regulatory” and “regulatory proceeding” are substituted for “rulemaking” for consistency in the revised title and because “rule” and “regulation” are synonymous.

In subsection (b)(1), the words “Federal Transit Administration” are substituted for “Urban Mass Transportation Administration” because of section 3004(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102-240, 105 Stat. 2088). The words “also” and “required by the first sentence of this paragraph” are omitted as surplus.

In subsection (c), before clause (1), the words “In the performance of, and with respect to, the functions, powers, and duties vested in him by this subchapter . . . notwithstanding the provisions of any other law” are omitted as surplus. In clause (1), the words “prepare . . . and” and “for wholly owned Government corporations” are omitted as surplus.

Subsection (d) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(b) and last sentence) to eliminate unnecessary words.

In subsection (e), the words “such . . . as the making of loans” are omitted as surplus. The words “under this chapter” are added for clarity. The word “related” is substituted for “in connection with such financial transactions” to eliminate unnecessary words. The words “approved by the Secretary” are omitted as surplus. The word “binding” is substituted for “final and conclusive” to eliminate unnecessary words. The words “and employees” are added for consistency in the revised title and with other titles of the United States Code.

In subsection (f), before clause (1), the words “in any way” are substituted for “complete, administer, remodel and convert, dispose of, lease and otherwise” to eliminate unnecessary words. In clause (1), the words “civil or criminal” are omitted as surplus. In clause (2), the words “political subdivision of a State” are substituted for “local” for consistency.

In subsection (g)(1), before clause (A), the words “facilities and equipment and other”, “(including land)”, and “first” are omitted as surplus.

In subsection (g)(3), the words “and not in lieu of” are omitted as surplus.

Subsection (i) is substituted for section 1(a)(1) (related to authority and functions reserved to Secretary of Housing and Urban Development) of Reorganization Plan No. 2 of 1968 to eliminate unnecessary words. The reference to 49 App.:1602(c)(1) is translated as a reference to 49 App.:1602(e)(1) because section 2(1) of the Urban Mass Transportation Assistance Act of 1970 (Public Law 91-453, 84 Stat. 962) redesignated subsection (c) as subsection (e). The references to 49 App.:1603(a)

(1st sentence), 1604, and 1607(c)(b) and former 49 App.:1607a are omitted as obsolete because of section 103(a) of the National Mass Transportation Act of 1974 (Public Law 93-503, 88 Stat. 1567) and sections 303(b), 305(a), and 307 of the Federal Public Transportation Act of 1978 (Public Law 95-599, 92 Stat. 2737, 2743, 2747). Reference to 49 App.:1607(c) is omitted because it was enacted after the Reorganization Plan and was not intended to be within the scope of the Plan.

Subsection (j)(1) is substituted for 49 App.:1608(a) (1st sentence related to 12:1749a(e)) to eliminate unnecessary words.

(a) BASED ON URBANIZED AREA POPULATION.—Of the amount apportioned under subsection (h)(5) to carry out section 5307—

(1) 9.32 percent shall be apportioned each fiscal year only in urbanized areas with a population of less than 200,000 so that each of those areas is entitled to receive an amount equal to—

(A) 50 percent of the total amount apportioned multiplied by a ratio equal to the population of the area divided by the total population of all urbanized areas with populations of less than 200,000 as shown in the most recent decennial census; and

(B) 50 percent of the total amount apportioned multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile; and

(2) 90.68 percent shall be apportioned each fiscal year only in urbanized areas with populations of at least 200,000 as provided in subsections (b) and (c) of this section.

(b) BASED ON FIXED GUIDEWAY VEHICLE REVENUE MILES, DIRECTIONAL ROUTE MILES, AND PASSENGER MILES.—(1) In this subsection, “fixed guideway vehicle revenue miles” and “fixed guideway directional route miles” include passenger ferry operations directly or under contract by the designated recipient.

(2) Of the amount apportioned under subsection (a)(2) of this section, 33.29 percent shall be apportioned as follows:

(A) 95.61 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a popu-

ulation of at least 200,000 is entitled to receive an amount equal to—

(i) 60 percent of the 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway vehicle revenue miles attributable to the area, as established by the Secretary, divided by the total number of all fixed guideway vehicle revenue miles attributable to all areas; and

(ii) 40 percent of the 95.61 percent apportioned under this subparagraph multiplied by a ratio equal to the number of fixed guideway directional route miles attributable to the area, established by the Secretary, divided by the total number of all fixed guideway directional route miles attributable to all areas.

An urbanized area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least .75 percent of the total amount apportioned under this subparagraph.

(B) 4.39 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 is entitled to receive an amount equal to—

(i) the number of fixed guideway vehicle passenger miles traveled multiplied by the number of fixed guideway vehicle passenger miles traveled for each dollar of operating cost in an area; divided by

(ii) the total number of fixed guideway vehicle passenger miles traveled multiplied by the total number of fixed guideway vehicle passenger miles traveled for each dollar of operating cost in all areas.

An urbanized area with a population of at least 750,000 in which commuter rail transportation is provided shall receive at least .75 percent of the total amount apportioned under this subparagraph.

(C) Under subparagraph (A) of this paragraph, fixed guideway vehicle revenue or directional route miles, and passengers served on those miles, in an urbanized area with a population of less than 200,000, where the miles and passengers served otherwise would be attributable to an urbanized area with a population of at least 1,000,000 in an adjacent State, are attributable to the governmental authority in the State in which the urbanized area with a population of less than 200,000 is located. The authority is deemed an urbanized area with a population of at least 200,000 if the authority makes a contract for the service.

(D) A recipient's apportionment under subparagraph (A)(i) of this paragraph may not be reduced if the recipient, after satisfying the Secretary that energy or operating efficiencies would be achieved, reduces vehicle revenue miles but provides the same frequency of revenue service to the same number of riders.

(E) For purposes of subparagraph (A) and section 5337(c)(3), the Secretary shall deem to be attributable to an urbanized area not less than 27 percent of the fixed guideway vehicle revenue miles or fixed guideway directional route miles in the public transportation sys-

tem of a recipient that are located outside the urbanized area for which the recipient receives funds, in addition to the fixed guideway vehicle revenue miles or fixed guideway directional route miles of the recipient that are located inside the urbanized area.

(i) 50 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the total bus vehicle revenue miles operated in or directly serving the urbanized area divided by the total bus vehicle revenue miles attributable to all areas;

(ii) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as shown in the most recent decennial census; and

(iii) 25 percent of the 73.39 percent apportioned under this subparagraph multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile.

(B) 26.61 percent of the 90.8 percent apportioned under this paragraph shall be apportioned so that each urbanized area with a population of at least 200,000 but not more than 999,999 is entitled to receive an amount equal to—

(i) 50 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio equal to the total bus vehicle revenue miles operated in or directly serving the urbanized area divided by the total bus vehicle revenue miles attributable to all areas;

(ii) 25 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio equal to the population of the area divided by the total population of all areas, as shown by the most recent decennial census; and

(iii) 25 percent of the 26.61 percent apportioned under this subparagraph multiplied by a ratio for the area based on population weighted by a factor, established by the Secretary, of the number of inhabitants in each square mile.

(2) 9.2 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 is entitled to receive an amount equal to—

(A) the number of bus passenger miles traveled multiplied by the number of bus passenger miles traveled for each dollar of operating cost in an area; divided by
