

be included in the gross income of the beneficiary an amount which bears the same ratio to distributable net income (as so computed) as the amount of income required to be distributed currently to such beneficiary bears to the amount required to be distributed currently to all beneficiaries. For purposes of this section, the phrase “the amount of income for the taxable year required to be distributed currently” includes any amount required to be paid out of income or corpus to the extent such amount is paid out of income for such taxable year.

(2) Other amounts distributed

All other amounts properly paid, credited, or required to be distributed to such beneficiary for the taxable year. If the sum of—

(A) the amount of income for the taxable year required to be distributed currently to all beneficiaries, and

(B) all other amounts properly paid, credited, or required to be distributed to all beneficiaries

exceeds the distributable net income of the estate or trust, then, in lieu of the amount provided in the preceding sentence, there shall be included in the gross income of the beneficiary an amount which bears the same ratio to distributable net income (reduced by the amounts specified in (A)) as the other amounts properly paid, credited or required to be distributed to the beneficiary bear to the other amounts properly paid, credited, or required to be distributed to all beneficiaries.

(b) Character of amounts

The amounts determined under subsection (a) shall have the same character in the hands of the beneficiary as in the hands of the estate or trust. For this purpose, the amounts shall be treated as consisting of the same proportion of each class of items entering into the computation of distributable net income as the total of each class bears to the total distributable net income of the estate or trust unless the terms of the governing instrument specifically allocate different classes of income to different beneficiaries. In the application of the preceding sentence, the items of deduction entering into the computation of distributable net income (including the deduction allowed under section 642(c)) shall be allocated among the items of distributable net income in accordance with regulations prescribed by the Secretary. In the application of this subsection to the amount determined under paragraph (1) of subsection (a), distributable net income shall be computed without regard to any portion of the deduction under section 642(c) which is not attributable to income of the taxable year.

(c) Different taxable years

If the taxable year of a beneficiary is different from that of the estate or trust, the amount to be included in the gross income of the beneficiary shall be based on the distributable net income of the estate or trust and the amounts properly paid, credited, or required to be distributed to the beneficiary during any taxable year or years of the estate or trust ending within or with his taxable year.

(c) Separate shares treated as separate estates or trusts

For the sole purpose of determining the amount of distributable net income in the application of sections 661 and 662, in the case of a single trust having more than one beneficiary, substantially separate and independent shares of different beneficiaries in the trust shall be treated as separate trusts. Rules similar to the rules of the preceding provisions of this subsection shall apply to treat substantially separate and independent shares of different bene-

ficiaries in an estate having more than 1 beneficiary as separate estates. The existence of such substantially separate and independent shares and the manner of treatment as separate trusts or estates, including the application of subpart D, shall be determined in accordance with regulations prescribed by the Secretary.
