

(C) if purchased with funds made available under subchapter II on or after January 1, 2007, meet the voting system standards for disability access (as outlined in this paragraph).

(4) Alternative language accessibility

The voting system shall provide alternative language accessibility pursuant to the requirements of section 10503 of this title.

(5) Error rates

The error rate of the voting system in counting ballots (determined by taking into account only those errors which are attributable to the voting system and not attributable to an act of the voter) shall comply with the error rate standards established under section 3.2.1 of the voting systems standards issued by the Federal Election Commission which are in effect on October 29, 2002.

(6) Uniform definition of what constitutes a vote

Each State shall adopt uniform and non-discriminatory standards that define what constitutes a vote and what will be counted as a vote for each category of voting system used in the State.

(b) Voting system defined

In this section, the term “voting system” means—

(1) the total combination of mechanical, electromechanical, or electronic equipment (including the software, firmware, and documentation required to program, control, and support the equipment) that is used—

- (A) to define ballots;
- (B) to cast and count votes;
- (C) to report or display election results; and
- (D) to maintain and produce any audit trail information; and

(2) the practices and associated documentation used—

- (A) to identify system components and versions of such components;
- (B) to test the system during its development and maintenance;
- (C) to maintain records of system errors and defects;
- (D) to determine specific system changes to be made to a system after the initial qualification of the system; and
- (E) to make available any materials to the voter (such as notices, instructions, forms, or paper ballots).

(c) Construction

(1) In general

Nothing in this section shall be construed to prohibit a State or jurisdiction which used a particular type of voting system in the elections for Federal office held in November 2000 from using the same type of system after the effective date of this section, so long as the system meets or is modified to meet the requirements of this section.

(2) Protection of paper ballot voting systems

For purposes of subsection (a)(1)(A)(i), the term “verify” may not be defined in a manner

that makes it impossible for a paper ballot voting system to meet the requirements of such subsection or to be modified to meet such requirements.

(d) Effective date

Each State and jurisdiction shall be required to comply with the requirements of this section on and after January 1, 2006.

§ 21082. Provisional voting and voting information requirements

(a) Provisional voting requirements

If an individual declares that such individual is a registered voter in the jurisdiction in which the individual desires to vote and that the individual is eligible to vote in an election for Federal office, but the name of the individual does not appear on the official list of eligible voters for the polling place or an election official asserts that the individual is not eligible to vote, such individual shall be permitted to cast a provisional ballot as follows:

(1) An election official at the polling place shall notify the individual that the individual may cast a provisional ballot in that election.

(2) The individual shall be permitted to cast a provisional ballot at that polling place upon the execution of a written affirmation by the individual before an election official at the polling place stating that the individual is—

- (A) a registered voter in the jurisdiction in which the individual desires to vote; and
- (B) eligible to vote in that election.

(3) An election official at the polling place shall transmit the ballot cast by the individual or the voter information contained in the written affirmation executed by the individual under paragraph (2) to an appropriate State or local election official for prompt verification under paragraph (4).

(4) If the appropriate State or local election official to whom the ballot or voter information is transmitted under paragraph (3) determines that the individual is eligible under State law to vote, the individual's provisional ballot shall be counted as a vote in that election in accordance with State law.

(5)(A) At the time that an individual casts a provisional ballot, the appropriate State or local election official shall give the individual written information that states that any individual who casts a provisional ballot will be able to ascertain under the system established under subparagraph (B) whether the vote was counted, and, if the vote was not counted, the reason that the vote was not counted.

(B) The appropriate State or local election official shall establish a free access system (such as a toll-free telephone number or an Internet website) that any individual who

casts a provisional ballot may access to discover whether the vote of that individual was counted, and, if the vote was not counted, the reason that the vote was not counted.

States described in section 20503(b) of this title may meet the requirements of this subsection using voter registration procedures established under applicable State law. The appropriate State or local official shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by the free access system established under paragraph (5)(B). Access to information about an individual provisional ballot shall be restricted to the individual who cast the ballot.

(b) Voting information requirements

(1) Public posting on election day

The appropriate State or local election official shall cause voting information to be publicly posted at each polling place on the day of each election for Federal office.

(2) Voting information defined

In this section, the term “voting information” means—

- (A) a sample version of the ballot that will be used for that election;
- (B) information regarding the date of the election and the hours during which polling places will be open;
- (C) instructions on how to vote, including how to cast a vote and how to cast a provisional ballot;
- (D) instructions for mail-in registrants and first-time voters under section 21083(b) of this title;
- (E) general information on voting rights under applicable Federal and State laws, including information on the right of an individual to cast a provisional ballot and instructions on how to contact the appropriate officials if these rights are alleged to have been violated; and
- (F) general information on Federal and State laws regarding prohibitions on acts of fraud and misrepresentation.

(c) Voters who vote after the polls close

Any individual who votes in an election for Federal office as a result of a Federal or State court order or any other order extending the time established for closing the polls by a State law in effect 10 days before the date of that election may only vote in that election by casting a provisional ballot under subsection (a). Any such ballot cast under the preceding sentence shall be separated and held apart from other provisional ballots cast by those not affected by the order.

(d) Effective date for provisional voting and voting information

Each State and jurisdiction shall be required to comply with the requirements of this section on and after January 1, 2004.

§ 21083. Computerized statewide voter registration list requirements and requirements for voters who register by mail

(a) Computerized statewide voter registration list requirements

(1) Implementation

(A) In general

Except as provided in subparagraph (B), each State, acting through the chief State election official, shall implement, in a uniform and nondiscriminatory manner, a single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the State level that contains the name and registration information of every legally registered voter in the State and assigns a unique identifier to each legally registered voter in the State (in this subsection referred to as the “computerized list”), and includes the following:

- (i) The computerized list shall serve as the single system for storing and managing the official list of registered voters throughout the State.
- (ii) The computerized list contains the name and registration information of every legally registered voter in the State.
- (iii) Under the computerized list, a unique identifier is assigned to each legally registered voter in the State.
- (iv) The computerized list shall be coordinated with other agency databases within the State.
- (v) Any election official in the State, including any local election official, may obtain immediate electronic access to the information contained in the computerized list.
- (vi) All voter registration information obtained by any local election official in the State shall be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local official.
- (vii) The chief State election official shall provide such support as may be required so that local election officials are able to enter information as described in clause (vi).
- (viii) The computerized list shall serve as the official voter registration list for the conduct of all elections for Federal office in the State.

(B) Exception

The requirement under subparagraph (A) shall not apply to a State in which, under a State law in effect continuously on and after October 29, 2002, there is no voter registration requirement for individuals in the State with respect to elections for Federal office.
