§ 2244. Effect of chapter on other laws

(a) Conformity with State and Federal law

All actions taken pursuant to this chapter pertaining to the diversion, storage, use, or transfer of water shall be in conformity with applicable State and applicable Federal law.

(b) Effect on jurisdiction, authority, and water rights

Nothing in this chapter shall be construed as expanding or diminishing State, Federal, or tribal jurisdiction or authority over water resources development, control, or water rights.

(Pub. L. 102-250, title III, §304, Mar. 5, 1992, 106 Stat. 59.)

§ 2245. Excess storage and carrying capacity

The Secretary is authorized to enter into contracts with municipalities, public water districts and agencies, other Federal agencies, State agencies, and private entities, pursuant to the Act of February 21, 1911 (43 U.S.C. 523), for the impounding, storage, and carriage of non-project water for domestic, municipal, fish and wildlife, industrial, and other beneficial purposes using any facilities associated with the Central Valley Project, Cachuma Project, and the Ventura River Project, California, the Truckee Storage Project, and the Washoe Project, California and Nevada. The Secretary is further authorized to enter into contracts for the exchange of water for the aforementioned purposes using facilities associated with the Cachuma Project, California.

CHAPTER 41—FEDERAL LAND TRANSACTION FACILITATION

Sec.	
2301.	Findings.
2302.	Definitions.
2303.	Identification of inholdings.
2304.	Disposal of public land.
2305.	Federal Land Disposal Account.
2306.	Special provisions.

§ 2301. Findings

Congress finds that—

(1) the Bureau of Land Management has authority under the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) to sell land identified for disposal under its land use planning;

(2) the Bureau of Land Management has authority under that Act to exchange Federal land for non-Federal land if the exchange would be in the public interest;

(3) through land use planning under that Act, the Bureau of Land Management has identified certain tracts of public land for disposal;

(4) the Federal land management agencies of the Departments of the Interior and Agriculture have authority under existing law to acquire land consistent with the mission of each agency;

(5) the sale or exchange of land identified for disposal and the acquisition of certain non-Federal land from willing landowners would—

(A) allow for the reconfiguration of land ownership patterns to better facilitate resource management;

(B) contribute to administrative efficiency within Federal land management units; and

(C) allow for increased effectiveness of the allocation of fiscal and human resources within the Federal land management agencies;

(6) a more expeditious process for disposal and acquisition of land, established to facilitate a more effective configuration of land ownership patterns, would benefit the public interest;

(7) many private individuals own land within the boundaries of Federal land management units and desire to sell the land to the Federal Government;

(8) such land lies within national parks, national monuments, national wildlife refuges, national forests, and other areas designated for special management;

(9) Federal land management agencies are facing increased workloads from rapidly growing public demand for the use of public land, making it difficult for Federal managers to address problems created by the existence of inholdings in many areas;

(10) in many cases, inholders and the Federal Government would mutually benefit from Federal acquisition of the land on a priority basis;

(11) proceeds generated from the disposal of public land may be properly dedicated to the acquisition of inholdings and other land that will improve the resource management ability of the Federal land management agencies and adjoining landowners;

(12) using proceeds generated from the disposal of public land to purchase inholdings and other such land from willing sellers would enhance the ability of the Federal land management agencies to—

(A) work cooperatively with private landowners and State and local governments; and

(B) promote consolidation of the ownership of public and private land in a manner that would allow for better overall resource management;

(13) in certain locations, the sale of public land that has been identified for disposal is the best way for the public to receive fair market value for the land; and

(14) to allow for the least disruption of existing land and resource management programs, the Bureau of Land Management may use non-Federal entities to prepare appraisal documents for agency review and approval consistent with applicable provisions of the Uniform Standards for Federal Land Acquisition.

SHORT TITLE

Pub. L. 106-248, title II, §201, July 25, 2000, 114 Stat. 613, provided that: “This title [enacting this chapter] may be cited as the ‘Federal Land Transaction Facilitation Act’.”

§ 2302. Definitions

In this chapter:

(1) Exceptional resource

The term “exceptional resource” means a resource of scientific, natural, historic, cultural, recreational access and use, or other recreational value that has been documented by a Federal, State, or local governmental authority, and for which there is a compelling need for conservation and protection under the jurisdiction of a Federal agency in order to maintain the resource for the benefit of the public.

(2) Federally designated area

The term “federally designated area” means land in Alaska and the eleven contiguous

Western States (as defined in section 1702(o) of this title) that is within the boundary of—

(A) a national monument, area of critical environmental concern, national conservation area, national riparian conservation area, national recreation area, national scenic area, research natural area, national outstanding natural area, priority species and habitats designated in a land use plan in accordance with subpart E (entitled “Fish and Wildlife”) of part I of Appendix C of Bureau of Land Management Land Use Planning Handbook H-1601-1 (Rel 1-1693), a special recreation management area, or a national natural landmark managed by the Bureau of Land Management;

(B) a unit of the National Park System;

(C) a unit of the National Wildlife Refuge System;

(D) a National Forest or National Grassland in the National Forest System; or

(E) an area within which the Secretary or the Secretary of Agriculture is otherwise authorized by law to acquire lands or interests therein that is designated as—

(i) wilderness under the Wilderness Act (16 U.S.C. 1131 et seq.);

(ii) a wilderness study area;

(iii) a component of the Wild and Scenic Rivers System under the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.); or

(iv) a component of the National Trails System under the National Trails System Act (16 U.S.C. 1241 et seq.).

(3) Inaccessible lands that are open to public hunting, fishing, recreational shooting, or other recreational purposes

The term “inaccessible lands that are open to public hunting, fishing, recreational shooting, or other recreational purposes” means public lands in Alaska and the eleven contiguous Western States (as defined in section 1702 of this title) consisting of at least 640 contiguous acres on which the public is allowed under Federal or State law to hunt, fish, target shoot or use the land for other recreational purposes but—

(A) to which there is no public access or egress; or

(B) to which public access or egress to the land is significantly restricted, as determined by the Secretary.

(4) Inholding

The term “inholding” means any right, title, or interest, held by a non-Federal entity, in or to a tract of land that lies within the boundary of a federally designated area.

(5) Public land

The term “public land” means public lands (as defined in section 1702 of this title).

(6) Secretary

The term “Secretary” means the Secretary of the Interior.
