Collection of such information is a priority objective and will be pursued in a vigorous, innovative, and responsible manner that is consistent with the Constitution and applicable law and respectful of the principles upon which the United States was founded.

2.2 PURPOSE

This Order is intended to enhance human and technical collection techniques, especially those undertaken abroad, and the acquisition of significant foreign intelligence, as well as the detection and countering of international terrorist activities, the spread of weapons of mass destruction, and espionage conducted by foreign powers. Set forth below are certain general principles that, in addition to and consistent with applicable laws, are intended to achieve the proper balance between the acquisition of essential information and protection of individual interests. Nothing in this Order shall be construed to apply to or interfere with any authorized civil or criminal law enforcement responsibility of any department or agency.

2.3 COLLECTION OF INFORMATION

Those procedures shall permit collection, retention, and dissemination of the following types of information:

EX. ORD. NO. 13732. UNITED STATES POLICY ON PRE- AND POST-STRIKE MEASURES TO ADDRESS CIVILIAN CASUALTIES IN U.S. OPERATIONS INVOLVING THE USE OF FORCE

Ex. Ord. No. 13732, July 1, 2016, 81 F.R. 44485, as amended by Ex. Ord. No. 13862, §2, Mar. 6, 2019, 84 F.R. 8789, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct as follows:

SECTION 1. *Purpose.* United States policy on civilian casualties resulting from U.S. operations involving the use of force in armed conflict or in the exercise of the Nation's inherent right of self-defense is based on our national interests, our values, and our legal obligations. As a Nation, we are steadfastly committed to complying with our obligations under the law of armed conflict, including those that address the protection of civilians, such as the fundamental principles of necessity, humanity, distinction, and proportionality.

The protection of civilians is fundamentally consistent with the effective, efficient, and decisive use of force in pursuit of U.S. national interests. Minimizing civilian casualties can further mission objectives; help maintain the support of partner governments and vulnerable populations, especially in the conduct of counterterrorism and counterinsurgency operations;

and enhance the legitimacy and sustainability of U.S. operations critical to our national security. As a matter of policy, the United States therefore routinely imposes certain heightened policy standards that are more protective than the requirements of the law of armed conflict that relate to the protection of civilians.

Civilian casualties are a tragic and at times unavoidable consequence of the use of force in situations of armed conflict or in the exercise of a state's inherent right of self-defense. The U.S. Government shall maintain and promote best practices that reduce the likelihood of civilian casualties, take appropriate steps when such casualties occur, and draw lessons from our operations to further enhance the protection of civilians.

SEC. 2. *Policy.* In furtherance of U.S. Government efforts to protect civilians in U.S. operations involving the use of force in armed conflict or in the exercise of the Nation's inherent right of self-defense, and with a view toward enhancing such efforts, relevant departments and agencies (agencies) shall continue to take certain measures in present and future operations.

(a) In particular, relevant agencies shall, consistent with mission objectives and applicable law, including the law of armed conflict:

(i) train personnel, commensurate with their responsibilities, on compliance with legal obligations and policy guidance that address the protection of civilians and on implementation of best practices that reduce the likelihood of civilian casualties, including through exercises, pre-deployment training, and simulations of complex operational environments that include civilians;

(ii) develop, acquire, and field intelligence, surveillance, and reconnaissance systems that, by enabling more accurate battlespace awareness, contribute to the protection of civilians;

(iii) develop, acquire, and field weapon systems and other technological capabilities that further enable the discriminate use of force in different operational contexts;

(iv) take feasible precautions in conducting attacks to reduce the likelihood of civilian casualties, such as providing warnings to the civilian population (unless the circumstances do not permit), adjusting the timing of attacks, taking steps to ensure military objectives and civilians are clearly distinguished, and taking other measures appropriate to the circumstances; and

(v) conduct assessments that assist in the reduction of civilian casualties by identifying risks to civilians and evaluating efforts to reduce risks to civilians.

(b) In addition to the responsibilities above, relevant agencies shall also, as appropriate and consistent with mission objectives and applicable law, including the law of armed conflict:

(i) review or investigate incidents involving civilian casualties, including by considering relevant and credible information from all available sources, such as other agencies, partner governments, and nongovernmental organizations, and take measures to mitigate the likelihood of future incidents of civilian casualties;

(ii) acknowledge U.S. Government responsibility for civilian casualties and offer condolences, including ex gratia payments, to civilians who are injured or to the families of civilians who are killed;

(iii) engage with foreign partners to share and learn best practices for reducing the likelihood of and responding to civilian casualties, including through appropriate training and assistance; and

(iv) maintain channels for engagement with the International Committee of the Red Cross and other nongovernmental organizations that operate in conflict zones and encourage such organizations to assist in efforts to distinguish between military objectives and civilians, including by appropriately marking protected facilities, vehicles, and personnel, and by providing updated information on the locations of such facilities and personnel.

SEC. 3. *Report on Strikes Undertaken by the U.S. Government Against Terrorist Targets Outside Areas of Active*

Hostilities. [Revoked by Ex. Ord. No. 13862, §2, Mar. 6, 2019, 84 F.R. 8789.]

SEC. 4. *Periodic Consultation.* In furtherance of the policies and practices set forth in this order, the Assistant to the President for National Security Affairs, through the National Security Council staff, will convene agencies with relevant defense, counterterrorism, intelligence, legal, civilian protection, and technology expertise to consult on civilian casualty trends, consider potential improvements to U.S. Government civilian casualty mitigation efforts, and, as appropriate, report to the Deputies and Principals Committees, consistent with Presidential Policy Directive 1 or its successor. Specific incidents will not be considered in this context, and will continue to be examined within relevant chains of command.

SEC. 5. *General Provisions.* (a) The policies and practices set forth above are not intended to alter, and shall be implemented consistent with, the authority and responsibility of commanders and other U.S. personnel to execute their mission as directed by the President or other appropriate authorities, which necessarily includes the inherent right of self-defense and the maintenance of good order and discipline among U.S. personnel. No part of this order modifies the chain of command of the U.S. Armed Forces or the authority of U.S. commanders.

(b) No part of this order modifies priorities in the collection of intelligence or the development, acquisition, or fielding of weapon systems and other technological capabilities.

(c) No part of this order shall prejudice or supplant established procedures pertaining to administrative or criminal investigative or judicial processes in the context of the military justice system or other applicable law and regulation.

(d) The policies set forth in this order are consistent with existing U.S. obligations under international law and are not intended to create new international legal obligations; nor shall anything in this order be construed to derogate from obligations under applicable law, including the law of armed conflict.

(e) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

EX. ORD. NO. 14086. ENHANCING SAFEGUARDS FOR UNITED STATES SIGNALS INTELLIGENCE ACTIVITIES

Ex. Ord. No. 14086, Oct. 7, 2022, 87 F.R. 62283, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Purpose.* The United States collects signals intelligence so that its national security decision-makers have access to the timely, accurate, and insightful information necessary to advance the national security interests of the United States and to protect its citizens and the citizens of its allies and partners from harm. Signals intelligence capabilities are a major reason we have been able to adapt to a dynamic and challenging security environment, and the United States must preserve and continue to develop robust and technologically advanced signals intelligence capabilities to protect our security and that of our allies and partners. At the same time, the United States recognizes that signals intelligence activities must take into account that all persons should be treated with dignity and respect, regardless of their nationality or wherever they might reside, and that all persons have legitimate privacy interests in the handling of their personal information. Therefore, this order establishes safeguards for such signals intelligence activities.

SEC. 2. *Signals Intelligence Activities.*

(a) *Principles.* Signals intelligence activities shall be authorized and conducted consistent with the following principles:

(i) Signals intelligence activities shall be authorized by statute or by Executive Order, proclamation, or

other Presidential directive and undertaken in accordance with the Constitution and with applicable statutes and Executive Orders, proclamations, and other Presidential directives.

(ii) Signals intelligence activities shall be subject to appropriate safeguards, which shall ensure that privacy and civil liberties are integral considerations in the planning and implementation of such activities so that:

(A) signals intelligence activities shall be conducted only following a determination, based on a reasonable assessment of all relevant factors, that the activities are necessary to advance a validated intelligence priority, although signals intelligence does not have to be the sole means available or used for advancing aspects of the validated intelligence priority; and

(B) signals intelligence activities shall be conducted only to the extent and in a manner that is proportionate to the validated intelligence priority for which they have been authorized, with the aim of achieving a proper balance between the importance of the validated intelligence priority being advanced and the impact on the privacy and civil liberties of all persons, regardless of their nationality or wherever they might reside.

(iii) Signals intelligence activities shall be subjected to rigorous oversight in order to ensure that they comport with the principles identified above.

(b) *Objectives.* Signals intelligence collection activities shall be conducted in pursuit of legitimate objectives.

(i) *Legitimate objectives.*

(A) Signals intelligence collection activities shall be conducted only in pursuit of one or more of the following objectives:

(1) understanding or assessing the capabilities, intentions, or activities of a foreign government, a foreign military, a faction of a foreign nation, a foreign-based political organization, or an entity acting on behalf of or controlled by any such foreign government, military, faction, or political organization, in order to protect the national security of the United States and of its allies and partners;

(2) understanding or assessing the capabilities, intentions, or activities of foreign organizations, including international terrorist organizations, that pose a current or potential threat to the national security of the United States or of its allies or partners;

(3) understanding or assessing transnational threats that impact global security, including climate and other ecological change, public health risks, humanitarian threats, political instability, and geographic rivalry;

(4) protecting against foreign military capabilities and activities;

(5) protecting against terrorism, the taking of hostages, and the holding of individuals captive (including the identification, location, and rescue of hostages and captives) conducted by or on behalf of a foreign government, foreign organization, or foreign person;

(6) protecting against espionage, sabotage, assassination, or other intelligence activities conducted by, on behalf of, or with the assistance of a foreign government, foreign organization, or foreign person;

(7) protecting against threats from the development, possession, or proliferation of weapons of mass destruction or related technologies and threats conducted by, on behalf of, or with the assistance of a foreign government, foreign organization, or foreign person;

(8) protecting against cybersecurity threats created or exploited by, or malicious cyber activities conducted by or on behalf of, a foreign government, foreign organization, or foreign person;

(9) protecting against threats to the personnel of the United States or of its allies or partners;

(10) protecting against transnational criminal threats, including illicit finance and sanctions eva-

sion related to one or more of the other objectives identified in subsection (b)(i) of this section;

(1) protecting the integrity of elections and political processes, government property, and United States infrastructure (both physical and electronic) from activities conducted by, on behalf of, or with the assistance of a foreign government, foreign organization, or foreign person; and

(2) advancing collection or operational capabilities or activities in order to further a legitimate objective identified in subsection (b)(i) of this section.

(B) The President may authorize updates to the list of objectives in light of new national security imperatives, such as new or heightened threats to the national security of the United States, for which the President determines that signals intelligence collection activities may be used. The Director of National Intelligence (Director) shall publicly release any updates to the list of objectives authorized by the President, unless the President determines that doing so would pose a risk to the national security of the United States.

(ii) *Prohibited objectives.*

(A) Signals intelligence collection activities shall not be conducted for the purpose of:

(1) suppressing or burdening criticism, dissent, or the free expression of ideas or political opinions by individuals or the press;

(2) suppressing or restricting legitimate privacy interests;

(3) suppressing or restricting a right to legal counsel; or

(4) disadvantaging persons based on their ethnicity, race, gender, gender identity, sexual orientation, or religion.

(B) It is not a legitimate objective to collect foreign private commercial information or trade secrets to afford a competitive advantage to United States companies and United States business sectors commercially. The collection of such information is authorized only to protect the national security of the United States or of its allies or partners.

(iii) *Validation of signals intelligence collection priorities.*

(A) Under section 102A of the National Security Act of 1947, as amended (50 U.S.C. 3024), the Director must establish priorities for the Intelligence Community to ensure the timely and effective collection of national intelligence, including national intelligence collected through signals intelligence. The Director does this through the National Intelligence Priorities Framework (NIPF), which the Director maintains and presents to the President, through the Assistant to the President for National Security Affairs, on a regular basis. In order to ensure that signals intelligence collection activities are undertaken to advance legitimate objectives, before presenting the NIPF or any successor framework that identifies intelligence priorities to the President, the Director shall obtain from the Civil Liberties Protection Officer of the Office of the Director of National Intelligence (CLPO) an assessment as to whether, with regard to anticipated signals intelligence collection activities, each of the intelligence priorities identified in the NIPF or successor framework:

(1) advances one or more of the legitimate objectives set forth in subsection (b)(i) of this section;

(2) neither was designed nor is anticipated to result in signals intelligence collection in contravention of the prohibited objectives set forth in subsection (b)(ii) of this section; and

(3) was established after appropriate consideration for the privacy and civil liberties of all persons, regardless of their nationality or wherever they might reside.

(B) If the Director disagrees with any aspect of the CLPO's assessment with respect to any of the intelligence priorities identified in the NIPF or successor framework, the Director shall include the CLPO's as-

essment and the Director's views when presenting the NIPF to the President.

(c) *Privacy and civil liberties safeguards.* The following safeguards shall fulfill the principles contained in subsections (a)(ii) and (a)(iii) of this section.

(i) *Collection of signals intelligence.*

(A) The United States shall conduct signals intelligence collection activities only following a determination that a specific signals intelligence collection activity, based on a reasonable assessment of all relevant factors, is necessary to advance a validated intelligence priority, although signals intelligence does not have to be the sole means available or used for advancing aspects of the validated intelligence priority; it could be used, for example, to ensure alternative pathways for validation or for maintaining reliable access to the same information. In determining whether to collect signals intelligence consistent with this principle, the United States—through an element of the Intelligence Community or through an interagency committee consisting in whole or in part of the heads of elements of the Intelligence Community, the heads of departments containing such elements, or their designees—shall consider the availability, feasibility, and appropriateness of other less intrusive sources and methods for collecting the information necessary to advance a validated intelligence priority, including from diplomatic and public sources, and shall prioritize such available, feasible, and appropriate alternatives to signals intelligence.

(B) Signals intelligence collection activities shall be as tailored as feasible to advance a validated intelligence priority and, taking due account of relevant factors, not disproportionately impact privacy and civil liberties. Such factors may include, depending on the circumstances, the nature of the pursued objective; the feasible steps taken to limit the scope of the collection to the authorized purpose; the intrusiveness of the collection activity, including its duration; the probable contribution of the collection to the objective pursued; the reasonably foreseeable consequences to individuals, including unintended third parties; the nature and sensitivity of the data to be collected; and the safeguards afforded to the information collected.

(C) For purposes of subsection (c)(i) of this section, the scope of a specific signals intelligence collection activity may include, for example, a specific line of effort or target, as appropriate.

(ii) *Bulk collection of signals intelligence.*

(A) Targeted collection shall be prioritized. The bulk collection of signals intelligence shall be authorized only based on a determination—by an element of the Intelligence Community or through an interagency committee consisting in whole or in part of the heads of elements of the Intelligence Community, the heads of departments containing such elements, or their designees—that the information necessary to advance a validated intelligence priority cannot reasonably be obtained by targeted collection. When it is determined to be necessary to engage in bulk collection in order to advance a validated intelligence priority, the element of the Intelligence Community shall apply reasonable methods and technical measures in order to limit the data collected to only what is necessary to advance a validated intelligence priority, while minimizing the collection of non-pertinent information.

(B) Each element of the Intelligence Community that collects signals intelligence through bulk collection shall use such information only in pursuit of one or more of the following objectives:

(1) protecting against terrorism, the taking of hostages, and the holding of individuals captive (including the identification, location, and rescue of hostages and captives) conducted by or on behalf of a foreign government, foreign organization, or foreign person;

(2) protecting against espionage, sabotage, assassination, or other intelligence activities conducted

by, on behalf of, or with the assistance of a foreign government, foreign organization, or foreign person;

(3) protecting against threats from the development, possession, or proliferation of weapons of mass destruction or related technologies and threats conducted by, on behalf of, or with the assistance of a foreign government, foreign organization, or foreign person;

(4) protecting against cybersecurity threats created or exploited by, or malicious cyber activities conducted by or on behalf of, a foreign government, foreign organization, or foreign person;

(5) protecting against threats to the personnel of the United States or of its allies or partners; and

(6) protecting against transnational criminal threats, including illicit finance and sanctions evasion related to one or more of the other objectives identified in subsection (c)(ii) of this section.

(C) The President may authorize updates to the list of objectives in light of new national security imperatives, such as new or heightened threats to the national security of the United States, for which the President determines that bulk collection may be used. The Director shall publicly release any updates to the list of objectives authorized by the President, unless the President determines that doing so would pose a risk to the national security of the United States.

(D) In order to minimize any impact on privacy and civil liberties, a targeted signals intelligence collection activity that temporarily uses data acquired without discriminants (for example, without specific identifiers or selection terms) shall be subject to the safeguards described in this subsection, unless such data is:

(1) used only to support the initial technical phase of the targeted signals intelligence collection activity;

(2) retained for only the short period of time required to complete this phase; and

(3) thereafter deleted.

(iii) *Handling of personal information collected through signals intelligence.*

(A) *Minimization.* Each element of the Intelligence Community that handles personal information collected through signals intelligence shall establish and apply policies and procedures designed to minimize the dissemination and retention of personal information collected through signals intelligence.

(1) *Dissemination.* Each element of the Intelligence Community that handles personal information collected through signals intelligence:

(a) shall disseminate non-United States persons' personal information collected through signals intelligence only if it involves one or more of the comparable types of information that section 2.3 of Executive Order 12333 of December 4, 1981 (United States Intelligence Activities), as amended [50 U.S.C. 3001 note], states may be disseminated in the case of information concerning United States persons;

(b) shall not disseminate personal information collected through signals intelligence solely because of a person's nationality or country of residence;

(c) shall disseminate within the United States Government personal information collected through signals intelligence only if an authorized and appropriately trained individual has a reasonable belief that the personal information will be appropriately protected and that the recipient has a need to know the information;

(d) shall take due account of the purpose of the dissemination, the nature and extent of the personal information being disseminated, and the potential for harmful impact on the person or persons concerned before disseminating personal information collected through signals intelligence to recipients outside the United States Govern-

ment, including to a foreign government or international organization; and

(e) shall not disseminate personal information collected through signals intelligence for the purpose of circumventing the provisions of this order.

(2) *Retention.* Each element of the Intelligence Community that handles personal information collected through signals intelligence:

(a) shall retain non-United States persons' personal information collected through signals intelligence only if the retention of comparable information concerning United States persons would be permitted under applicable law and shall subject such information to the same retention periods that would apply to comparable information concerning United States persons;

(b) shall subject non-United States persons' personal information collected through signals intelligence for which no final retention determination has been made to the same temporary retention periods that would apply to comparable information concerning United States persons; and

(c) shall delete non-United States persons' personal information collected through signals intelligence that may no longer be retained in the same manner that comparable information concerning United States persons would be deleted.

(B) *Data security and access.* Each element of the Intelligence Community that handles personal information collected through signals intelligence:

(1) shall process and store personal information collected through signals intelligence under conditions that provide appropriate protection and prevent access by unauthorized persons, consistent with the applicable safeguards for sensitive information contained in relevant Executive Orders, proclamations, other Presidential directives, Intelligence Community directives, and associated policies;

(2) shall limit access to such personal information to authorized personnel who have a need to know the information to perform their mission and have received appropriate training on the requirements of applicable United States law, as described in policies and procedures issued under subsection (c)(iv) of this section; and

(3) shall ensure that personal information collected through signals intelligence for which no final retention determination has been made is accessed only in order to make or support such a determination or to conduct authorized administrative, testing, development, security, or oversight functions.

(C) *Data quality.* Each element of the Intelligence Community that handles personal information collected through signals intelligence shall include such personal information in intelligence products only as consistent with applicable Intelligence Community standards for accuracy and objectivity, with a focus on applying standards relating to the quality and reliability of the information, consideration of alternative sources of information and interpretations of data, and objectivity in performing analysis.

(D) *Queries of bulk collection.* Each element of the Intelligence Community that conducts queries of unminimized signals intelligence obtained by bulk collection shall do so consistent with the permissible uses of signals intelligence obtained by bulk collection identified in subsection (c)(ii)(B) of this section and according to policies and procedures issued under subsection (c)(iv) of this section, which shall appropriately take into account the impact on the privacy and civil liberties of all persons, regardless of their nationality or wherever they might reside.

(E) *Documentation.* In order to facilitate the oversight processes set forth in subsection (d) of this section and the redress mechanism set forth in section 3 of this order, each element of the Intelligence Community that engages in signals intelligence collec-

tion activities shall maintain documentation to the extent reasonable in light of the nature and type of collection at issue and the context in which it is collected. The content of any such documentation may vary based on the circumstances but shall, to the extent reasonable, provide the factual basis pursuant to which the element of the Intelligence Community, based on a reasonable assessment of all relevant factors, assesses that the signals intelligence collection activity is necessary to advance a validated intelligence priority.

(iv) *Update and publication of policies and procedures.* The head of each element of the Intelligence Community:

(A) shall continue to use the policies and procedures issued pursuant to Presidential Policy Directive 28 of January 17, 2014 (Signals Intelligence Activities) (PPD-28), until they are updated pursuant to subsection (c)(iv)(B) of this section;

(B) shall, within 1 year of the date of this order [Oct. 7, 2022], in consultation with the Attorney General, the CLPO, and the Privacy and Civil Liberties Oversight Board (PCLOB), update those policies and procedures as necessary to implement the privacy and civil liberties safeguards in this order; and

(C) shall, within 1 year of the date of this order, release these policies and procedures publicly to the maximum extent possible, consistent with the protection of intelligence sources and methods, in order to enhance the public's understanding of, and to promote public trust in, the safeguards pursuant to which the United States conducts signals intelligence activities.

(v) *Review by the PCLOB.*

(A) *Nature of review.* Consistent with applicable law, the PCLOB is encouraged to conduct a review of the updated policies and procedures described in subsection (c)(iv)(B) of this section once they have been issued to ensure that they are consistent with the enhanced safeguards contained in this order.

(B) *Consideration of review.* Within 180 days of completion of any review by the PCLOB described in subsection (c)(v)(A) of this section, the head of each element of the Intelligence Community shall carefully consider and shall implement or otherwise address all recommendations contained in such review, consistent with applicable law.

(d) *Subjecting signals intelligence activities to rigorous oversight.* The actions directed in this subsection are designed to build on the oversight mechanisms that elements of the Intelligence Community already have in place, in order to further ensure that signals intelligence activities are subjected to rigorous oversight.

(i) *Legal, oversight, and compliance officials.* Each element of the Intelligence Community that collects signals intelligence:

(A) shall have in place senior-level legal, oversight, and compliance officials who conduct periodic oversight of signals intelligence activities, including an Inspector General, a Privacy and Civil Liberties Officer, and an officer or officers in a designated compliance role with the authority to conduct oversight of and ensure compliance with applicable United States law;

(B) shall provide such legal, oversight, and compliance officials access to all information pertinent to carrying out their oversight responsibilities under this subsection, consistent with the protection of intelligence sources or methods, including their oversight responsibilities to ensure that any appropriate actions are taken to remediate an incident of non-compliance with applicable United States law; and

(C) shall not take any actions designed to impede or improperly influence such legal, oversight, and compliance officials in carrying out their oversight responsibilities under this subsection.

(ii) *Training.* Each element of the Intelligence Community shall maintain appropriate training requirements to ensure that all employees with access to signals intelligence know and understand the require-

ments of this order and the policies and procedures for reporting and remediating incidents of non-compliance with applicable United States law.

(iii) *Significant incidents of non-compliance.*

(A) Each element of the Intelligence Community shall ensure that, if a legal, oversight, or compliance official, as described in subsection (d)(i) of this section, or any other employee, identifies a significant incident of non-compliance with applicable United States law, the incident is reported promptly to the head of the element of the Intelligence Community, the head of the executive department or agency (agency) containing the element of the Intelligence Community (to the extent relevant), and the Director.

(B) Upon receipt of such report, the head of the element of the Intelligence Community, the head of the agency containing the element of the Intelligence Community (to the extent relevant), and the Director shall ensure that any necessary actions are taken to remediate and prevent the recurrence of the significant incident of non-compliance.

(e) *Savings clause.* Provided the signals intelligence collection is conducted consistent with and in the manner prescribed by this section of this order, this order does not limit any signals intelligence collection technique authorized under the National Security Act of 1947, as amended (50 U.S.C. 3001 *et seq.*), the Foreign Intelligence Surveillance Act of 1978, as amended (50 U.S.C. 1801 *et seq.*) (FISA), Executive Order 12333, or other applicable law or Presidential directive.

SEC. 3. *Signals Intelligence Redress Mechanism.*

(a) *Purpose.* This section establishes a redress mechanism to review qualifying complaints transmitted by the appropriate public authority in a qualifying state concerning United States signals intelligence activities for any covered violation of United States law and, if necessary, appropriate remediation.

(b) *Process for submission of qualifying complaints.* Within 60 days of the date of this order, the Director, in consultation with the Attorney General and the heads of elements of the Intelligence Community that collect or handle personal information collected through signals intelligence, shall establish a process for the submission of qualifying complaints transmitted by the appropriate public authority in a qualifying state.

(c) *Initial investigation of qualifying complaints by the CLPO.*

(i) *Establishment.* The Director, in consultation with the Attorney General, shall establish a process that authorizes the CLPO to investigate, review, and, as necessary, order appropriate remediation for qualifying complaints. This process shall govern how the CLPO will review qualifying complaints in a manner that protects classified or otherwise privileged or protected information and shall ensure, at a minimum, that for each qualifying complaint the CLPO shall:

(A) review information necessary to investigate the qualifying complaint;

(B) exercise its statutory and delegated authority to determine whether there was a covered violation by:

(i) [sic] taking into account both relevant national security interests and applicable privacy protections;

(ii) giving appropriate deference to any relevant determinations made by national security officials; and

(iii) applying the law impartially;

(C) determine the appropriate remediation for any covered violation;

(D) provide a classified report on information indicating a violation of any authority subject to the oversight of the Foreign Intelligence Surveillance Court (FISC) to the Assistant Attorney General for National Security, who shall report violations to the FISC in accordance with its rules of procedure;

(E) after the review is completed, inform the complainant, through the appropriate public authority in

a qualifying state and without confirming or denying that the complainant was subject to United States signals intelligence activities, that:

(1) “the review either did not identify any covered violations or the Civil Liberties Protection Officer of the Office of the Director of National Intelligence issued a determination requiring appropriate remediation”;

(2) the complainant or an element of the Intelligence Community may, as prescribed in the regulations issued by the Attorney General pursuant to section 3(d)(i) of this order, apply for review of the CLPO’s determinations by the Data Protection Review Court described in subsection (d) of this section; and

(3) if either the complainant or an element of the Intelligence Community applies for review by the Data Protection Review Court, a special advocate will be selected by the Data Protection Review Court to advocate regarding the complainant’s interest in the matter;

(F) maintain appropriate documentation of its review of the qualifying complaint and produce a classified decision explaining the basis for its factual findings, determination with respect to whether a covered violation occurred, and determination of the appropriate remediation in the event there was such a violation, consistent with its statutory and delegated authority;

(G) prepare a classified ex parte record of review, which shall consist of the appropriate documentation of its review of the qualifying complaint and the classified decision described in subsection (c)(i)(F) of this section; and

(H) provide any necessary support to the Data Protection Review Court.

(i) *Binding effect.* Each element of the Intelligence Community, and each agency containing an element of the Intelligence Community, shall comply with any determination by the CLPO to undertake appropriate remediation pursuant to subsection (c)(i)(C) of this section, subject to any contrary determination by the Data Protection Review Court.

(ii) *Assistance.* Each element of the Intelligence Community shall provide the CLPO with access to information necessary to conduct the reviews described in subsection (c)(i) of this section, consistent with the protection of intelligence sources and methods, and shall not take any actions designed to impede or improperly influence the CLPO’s reviews. Privacy and civil liberties officials within elements of the Intelligence Community shall also support the CLPO as it performs the reviews described in subsection (c)(i) of this section.

(iv) *Independence.* The Director shall not interfere with a review by the CLPO of a qualifying complaint under subsection (c)(i) of this section; nor shall the Director remove the CLPO for any actions taken pursuant to this order, except for instances of misconduct, malfeasance, breach of security, neglect of duty, or incapacity.

(d) *Data Protection Review Court.*

(i) *Establishment.* The Attorney General is authorized to and shall establish a process to review determinations made by the CLPO under subsection (c)(i) of this section. In exercising that authority, the Attorney General shall, within 60 days of the date of this order, promulgate regulations establishing a Data Protection Review Court to exercise the Attorney General’s authority to review such determinations. These regulations shall, at a minimum, provide that:

(A) The Attorney General, in consultation with the Secretary of Commerce, the Director, and the PCLOB, shall appoint individuals to serve as judges on the Data Protection Review Court, who shall be legal practitioners with appropriate experience in the fields of data privacy and national security law, giving weight to individuals with prior judicial experience, and who shall not be, at the time of their initial appointment, employees of the United States Government. During their term of appointment on the Data

Protection Review Court, such judges shall not have any official duties or employment within the United States Government other than their official duties and employment as judges on the Data Protection Review Court.

(B) Upon receipt of an application for review filed by the complainant or an element of the Intelligence Community of a determination made by the CLPO under subsection (c) of this section, a three-judge panel of the Data Protection Review Court shall be convened to review the application. Service on the Data Protection Review Court panel shall require that the judge hold the requisite security clearances to access classified national security information.

(C) Upon being convened, the Data Protection Review Court panel shall select a special advocate through procedures prescribed in the Attorney General’s regulations. The special advocate shall assist the panel in its consideration of the application for review, including by advocating regarding the complainant’s interest in the matter and ensuring that the Data Protection Review Court panel is well informed of the issues and the law with respect to the matter. Service as a special advocate shall require that the special advocate hold the requisite security clearances to access classified national security information and to adhere to restrictions prescribed in the Attorney General’s regulations on communications with the complainant to ensure the protection of classified or otherwise privileged or protected information.

(D) The Data Protection Review Court panel shall impartially review the determinations made by the CLPO with respect to whether a covered violation occurred and the appropriate remediation in the event there was such a violation. The review shall be based at a minimum on the classified ex parte record of review described in subsection (c)(i)(F) of this section and information or submissions provided by the complainant, the special advocate, or an element of the Intelligence Community. In reviewing determinations made by the CLPO, the Data Protection Review Court panel shall be guided by relevant decisions of the United States Supreme Court in the same way as are courts established under Article III of the United States Constitution, including those decisions regarding appropriate deference to relevant determinations of national security officials.

(E) In the event that the Data Protection Review Court panel disagrees with any of the CLPO’s determinations with respect to whether a covered violation occurred or the appropriate remediation in the event there was such a violation, the panel shall issue its own determinations.

(F) The Data Protection Review Court panel shall provide a classified report on information indicating a violation of any authority subject to the oversight of the FISC to the Assistant Attorney General for National Security, who shall report violations to the FISC in accordance with its rules of procedure.

(G) After the review is completed, the CLPO shall be informed of the Data Protection Review Court panel’s determinations through procedures prescribed by the Attorney General’s regulations.

(H) After a review is completed in response to a complainant’s application for review, the Data Protection Review Court, through procedures prescribed by the Attorney General’s regulations, shall inform the complainant, through the appropriate public authority in a qualifying state and without confirming or denying that the complainant was subject to United States signals intelligence activities, that “the review either did not identify any covered violations or the Data Protection Review Court issued a determination requiring appropriate remediation.”

(i) *Binding effect.* Each element of the Intelligence Community, and each agency containing an element of the Intelligence Community, shall comply with any determination by a Data Protection Review Court panel to undertake appropriate remediation.

(iii) *Assistance.* Each element of the Intelligence Community shall provide the CLPO with access to information necessary to conduct the review described in subsection (d)(i) of this section, consistent with the protection of intelligence sources and methods, that a Data Protection Review Court panel requests from the CLPO and shall not take any actions for the purpose of impeding or improperly influencing a panel's review.

(iv) *Independence.* The Attorney General shall not interfere with a review by a Data Protection Review Court panel of a determination the CLPO made regarding a qualifying complaint under subsection (c)(i) of this section; nor shall the Attorney General remove any judges appointed as provided in subsection (d)(i)(A) of this section, or remove any judge from service on a Data Protection Review Court panel, except for instances of misconduct, malfeasance, breach of security, neglect of duty, or incapacity, after taking due account of the standards in the Rules for Judicial-Conduct and Judicial-Disability Proceedings promulgated by the Judicial Conference of the United States pursuant to the Judicial Conduct and Disability Act [probably means the Judicial Improvements Act of 2002] (28 U.S.C. 351 *et seq.*).

(v) *Record of determinations.* For each qualifying complaint transmitted by the appropriate public authority in a qualifying state, the Secretary of Commerce shall:

(A) maintain a record of the complainant who submitted such complaint;

(B) not later than 5 years after the date of this order and no less than every 5 years thereafter, contact the relevant element or elements of the Intelligence Community regarding whether information pertaining to the review of such complaint by the CLPO has been declassified and whether information pertaining to the review of any application for review submitted to the Data Protection Review Court has been declassified, including whether an element of the Intelligence Community filed an application for review with the Data Protection Review Court; and

(C) if informed that such information has been declassified, notify the complainant, through the appropriate public authority in a qualifying state, that information pertaining to the review of their complaint by the CLPO or to the review of any application for review submitted to the Data Protection Review Court may be available under applicable law.

(e) *Annual review by PCLOB of redress process.*

(i) *Nature of review.* Consistent with applicable law, the PCLOB is encouraged to conduct an annual review of the processing of qualifying complaints by the redress mechanism established by section 3 of this order, including whether the CLPO and the Data Protection Review Court processed qualifying complaints in a timely manner; whether the CLPO and the Data Protection Review Court are obtaining full access to necessary information; whether the CLPO and the Data Protection Review Court are operating consistent with this order; whether the safeguards established by section 2 of this order are properly considered in the processes of the CLPO and the Data Protection Review Court; and whether the elements of the Intelligence Community have fully complied with determinations made by the CLPO and the Data Protection Review Court.

(ii) *Assistance.* The Attorney General, the CLPO, and the elements of the Intelligence Community shall provide the PCLOB with access to information necessary to conduct the review described in subsection (e)(i) of this section, consistent with the protection of intelligence sources and methods.

(iii) *Report and certification.* Within 30 days of completing any review described in subsection (e)(i) of this section, the PCLOB is encouraged to:

(A) provide the President, the Attorney General, the Director, the heads of elements of the Intelligence Community, the CLPO, and the congressional intelligence committees with a classified report detailing the results of its review;

(B) release to the public an unclassified version of the report; and

(C) make an annual public certification as to whether the redress mechanism established pursuant to section 3 of this order is processing complaints consistent with this order.

(iv) *Consideration of review.* Within 180 days of receipt of any report by the PCLOB described in subsection (e)(iii)(A) of this section, the Attorney General, the Director, the heads of elements of the Intelligence Community, and the CLPO shall carefully consider and shall implement or otherwise address all recommendations contained in such report, consistent with applicable law.

(f) *Designation of qualifying state.*

(i) To implement the redress mechanism established by section 3 of this order, the Attorney General is authorized to designate a country or regional economic integration organization as a qualifying state for purposes of the redress mechanism established pursuant to section 3 of this order, effective immediately or on a date specified by the Attorney General, if the Attorney General determines, in consultation with the Secretary of State, the Secretary of Commerce, and the Director, that:

(A) the laws of the country, the regional economic integration organization, or the regional economic integration organization's member countries require appropriate safeguards in the conduct of signals intelligence activities for United States persons' personal information that is transferred from the United States to the territory of the country or a member country of the regional economic integration organization;

(B) the country, the regional economic integration organization, or the regional economic integration organization's member countries of the regional economic integration organization permit, or are anticipated to permit, the transfer of personal information for commercial purposes between the territory of that country or those member countries and the territory of the United States; and

(C) such designation would advance the national interests of the United States.

(ii) The Attorney General may revoke or amend such a designation, effective immediately or on a date specified by the Attorney General, if the Attorney General determines, in consultation with the Secretary of State, the Secretary of Commerce, and the Director, that:

(A) the country, the regional economic integration organization, or the regional economic integration organization's member countries do not provide appropriate safeguards in the conduct of signals intelligence activities for United States persons' personal information that is transferred from the United States to the territory of the country or to a member country of the regional economic integration organization;

(B) the country, the regional economic integration organization, or the regional economic integration organization's member countries do not permit the transfer of personal information for commercial purposes between the territory of that country or those member countries and the territory of the United States; or

(C) such designation is not in the national interests of the United States.

SEC. 4. *Definitions.* For purposes of this order:

(a) "Appropriate remediation" means lawful measures designed to fully redress an identified covered violation regarding a specific complainant and limited to measures designed to address that specific complainant's complaint, taking into account the ways that a violation of the kind identified have customarily been addressed. Such measures may include, depending on the specific covered violation at issue, curing through administrative measures violations found to have been procedural or technical errors relating to otherwise lawful access to or handling of data, terminating acquisition of data where collection is not lawfully authorized, deleting data that had been acquired without law-

ful authorization, deleting the results of inappropriately conducted queries of otherwise lawfully collected data, restricting access to lawfully collected data to those appropriately trained, or recalling intelligence reports containing data acquired without lawful authorization or that were otherwise disseminated in a manner inconsistent with United States law. Appropriate remediation shall be narrowly tailored to redress the covered violation and to minimize adverse impacts on the operations of the Intelligence Community and the national security of the United States.

(b) “Bulk collection” means the authorized collection of large quantities of signals intelligence data that, due to technical or operational considerations, is acquired without the use of discriminants (for example, without the use of specific identifiers or selection terms).

(c) “Counterintelligence” shall have the same meaning as it has in Executive Order 12333 [50 U.S.C. 3001 note].

(d) “Covered violation” means a violation that:

(i) arises from signals intelligence activities conducted after the date of this order regarding data transferred to the United States from a qualifying state after the effective date of the Attorney General’s designation for such state, as provided in section 3(f)(1) of this order;

(ii) adversely affects the complainant’s individual privacy and civil liberties interests; and

(iii) violates one or more of the following:

(A) the United States Constitution;

(B) the applicable sections of FISA or any applicable FISC-approved procedures;

(C) Executive Order 12333 or any applicable agency procedures pursuant to Executive Order 12333;

(D) this order or any applicable agency policies and procedures issued or updated pursuant to this order (or the policies and procedures identified in section 2(c)(iv)(A) of this order before they are updated pursuant to section 2(c)(iv)(B) of this order);

(E) any successor statute, order, policies, or procedures to those identified in section 4(d)(iii)(B)–(D) of this order; or

(F) any other statute, order, policies, or procedures adopted after the date of this order that provides privacy and civil liberties safeguards with respect to United States signals intelligence activities within the scope of this order, as identified in a list published and updated by the Attorney General, in consultation with the Director of National Intelligence.

(e) “Foreign intelligence” shall have the same meaning as it has in Executive Order 12333.

(f) “Intelligence” shall have the same meaning as it has in Executive Order 12333.

(g) “Intelligence Community” and “elements of the Intelligence Community” shall have the same meaning as they have in Executive Order 12333.

(h) “National security” shall have the same meaning as it has in Executive Order 13526 of December 29, 2009 (Classified National Security Information) [50 U.S.C. 3161 note].

(i) “Non-United States person” means a person who is not a United States person.

(j) “Personnel of the United States or of its allies or partners” means any current or former member of the Armed Forces of the United States, any current or former official of the United States Government, and any other person currently or formerly employed by or working on behalf of the United States Government, as well as any current or former member of the military, current or former official, or other person currently or formerly employed by or working on behalf of an ally or partner.

(k) “Qualifying complaint” means a complaint, submitted in writing, that:

(i) alleges a covered violation has occurred that pertains to personal information of or about the complainant, a natural person, reasonably believed to have been transferred to the United States from a qualifying state after the effective date of the Attorney General’s

designation for such state, as provided in section 3(f)(i) of this order;

(ii) includes the following basic information to enable a review: information that forms the basis for alleging that a covered violation has occurred, which need not demonstrate that the complainant’s data has in fact been subject to United States signals intelligence activities; the nature of the relief sought; the specific means by which personal information of or about the complainant was believed to have been transmitted to the United States; the identities of the United States Government entities believed to be involved in the alleged violation (if known); and any other measures the complainant pursued to obtain the relief requested and the response received through those other measures;

(iii) is not frivolous, vexatious, or made in bad faith;

(iv) is brought on behalf of the complainant, acting on that person’s own behalf, and not as a representative of a governmental, nongovernmental, or intergovernmental organization; and

(l) “Significant incident of non-compliance” shall mean a systemic or intentional failure to comply with a principle, policy, or procedure of applicable United States law that could impugn the reputation or integrity of an element of the Intelligence Community or otherwise call into question the propriety of an Intelligence Community activity, including in light of any significant impact on the privacy and civil liberties interests of the person or persons concerned.

(m) “United States person” shall have the same meaning as it has in Executive Order 12333.

(n) “Validated intelligence priority” shall mean, for most United States signals intelligence collection activities, a priority validated under the process described in section 2(b)(iii) of this order; or, in narrow circumstances (for example, when such process cannot be carried out because of a need to address a new or evolving intelligence requirement), shall mean a priority set by the President or the head of an element of the Intelligence Community in accordance with the criteria described in section 2(b)(iii)(A)(1)–(3) of this order to the extent feasible.

(o) “Weapons of mass destruction” shall have the same meaning as it has in Executive Order 13526.

SEC. 5. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law, including orders of and procedures approved by the FISC, and subject to the availability of appropriations.

(c) Nothing in this order precludes the application of more privacy-protective safeguards for United States signals intelligence activities that would apply in the absence of this order. In the case of any conflict between this order and other applicable law, the more privacy-protective safeguards shall govern the conduct of signals intelligence activities, to the maximum extent allowed by law.

(d) Nothing in this order prohibits elements of the Intelligence Community from disseminating information relating to a crime for law enforcement purposes; disseminating warnings of threats of killing, serious bodily injury, or kidnapping; disseminating cyber threat, incident, or intrusion response information; notifying victims or warning potential victims of crime; or complying with dissemination obligations required by statute, treaty, or court order, including orders of and procedures approved by the FISC or other court orders.

(e) The collection, retention, and dissemination of information concerning United States persons is governed by multiple legal and policy requirements, such

as those required by FISA and Executive Order 12333. This order is not intended to alter the rules applicable to United States persons adopted pursuant to FISA, Executive Order 12333, or other applicable law.

(f) This order shall apply to signals intelligence activities consistent with the scope of PPD-28's application to such activities prior to PPD-28's partial revocation by the national security memorandum issued concurrently with this order. To implement this subsection, the head of each agency containing an element of the Intelligence Community, in consultation with the Attorney General and the Director, is hereby delegated the authority to issue guidance, which may be classified, as appropriate, as to the scope of application of this order with respect to the element or elements of the Intelligence Community within their agency. The CLPO and the Data Protection Review Court, in carrying out the functions assigned to it under this order, shall treat such guidance as authoritative and binding.

(g) Nothing in this order confers authority to declassify or disclose classified national security information except as authorized pursuant to Executive Order 13526 or any successor order. Consistent with the requirements of Executive Order 13526, the CLPO, the Data Protection Review Court, and the special advocates shall not have authority to declassify classified national security information, nor shall they disclose any classified or otherwise privileged or protected information except to authorized and appropriately cleared individuals who have a need to know the information.

(h) This order creates an entitlement to submit qualifying complaints to the CLPO and to obtain review of the CLPO's decisions by the Data Protection Review Court in accordance with the redress mechanism established in section 3 of this order. This order is not intended to, and does not, create any other entitlement, right, or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person. This order is not intended to, and does not, modify the availability or scope of any judicial review of the decisions rendered through the redress mechanism, which is governed by existing law.

J.R. BIDEN, JR.

EFFECTIVE DATES OF PROVISIONS IN TITLE I OF THE INTELLIGENCE REFORM AND TERRORISM PREVENTION ACT OF 2004

Memorandum of President of the United States, Apr. 21, 2005, 70 F.R. 23925, provided:

Memorandum for the Secretary of State[,] the Secretary of the Treasury[,] the Secretary of Defense[,] the Attorney General[,] the Secretary of Energy[,] the Secretary of Homeland Security[,] the Director of the Office of Management and Budget[, and] the Director of National Intelligence

Subsection 1097(a) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458, December 17, 2004) (the Act) [set out in a note above] provides:

(a) IN GENERAL- Except as otherwise expressly provided in this Act, this title and the amendments made by this title shall take effect not later than 6 months after the date of the enactment of this Act.

Subsection 1097(a) clearly contemplates that one or more of the provisions in Title I of the Act may take effect earlier than the date that is 6 months after the date of enactment of the Act, but does not state explicitly the mechanism for determining when such earlier effect shall occur, leaving it to the President in the execution of the Act. Moreover, given that section 1097(a) evinces a legislative intent to afford the President flexibility, and such flexibility is constitutionally appropriate with respect to intelligence matters (see *United States v. Curtiss-Wright Export Corporation*, 299 U.S. 304 (1936)), the executive branch shall construe section 1097(a) to authorize the President to select different effective dates that precede the 6-month deadline for different provisions in Title I.

Therefore, pursuant to the Constitution and the laws of the United States of America, including subsection 1097(a) of the Act, I hereby determine and direct:

1. Sections 1097(a) and 1103 of the Act [set out in notes above], relating respectively to effective dates of provisions and to severability, shall take effect immediately upon the signing of this memorandum to any extent that they have not already taken effect.

2. Provisions in Title I of the Act other than those addressed in numbered paragraph 1 of this memorandum shall take effect immediately upon the signing of this memorandum, except:

(a) any provision in Title I of the Act for which the Act expressly provides the date on which the provision shall take effect; and

(b) sections 1021 and 1092 of the Act [enacting section 3056 of this title and provisions set out in a note above, respectively], relating to the National Counterterrorism Center.

The taking of effect of a provision pursuant to section 1097(a) of the Act and this memorandum shall not affect the construction of such provision by the executive branch as set forth in my Statement of December 17, 2004, upon signing the Act into law.

The Director of the Office of Management and Budget is authorized and directed to publish this memorandum in the Federal Register.

GEORGE W. BUSH.

§ 3002. Congressional declaration of purpose

In enacting this chapter, it is the intent of Congress to provide a comprehensive program for the future security of the United States; to provide for the establishment of integrated policies and procedures for the departments, agencies, and functions of the Government relating to the national security; to provide a Department of Defense, including the three military Departments of the Army, the Navy (including naval aviation and the United States Marine Corps), and the Air Force under the direction, authority, and control of the Secretary of Defense; to provide that each military department shall be separately organized under its own Secretary and shall function under the direction, authority, and control of the Secretary of Defense; to provide for their unified direction under civilian control of the Secretary of Defense but not to merge these departments or services; to provide for the establishment of unified or specified combatant commands, and a clear and direct line of command to such commands; to eliminate unnecessary duplication in the Department of Defense, and particularly in the field of research and engineering by vesting its overall direction and control in the Secretary of Defense; to provide more effective, efficient, and economical administration in the Department of Defense; to provide for the unified strategic direction of the combatant forces, for their operation under unified command, and for their integration into an efficient team of land, naval, and air forces but not to establish a single Chief of Staff over the armed forces nor an overall armed forces general staff.

EX. ORD. NO. 13729. A COMPREHENSIVE APPROACH TO ATROCITY PREVENTION AND RESPONSE

Ex. Ord. No. 13729, May 18, 2016, 81 F.R. 32611, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* As articulated in Presidential Study Directive-10 (PSD-10), preventing mass atrocities and genocide is a core national security interest and a core moral responsibility of the United States. Noting that governmental engagement on mass atrocities and genocide too often arrives too late, when opportunities for prevention or low-cost, low-risk action have been missed, PSD-10 directed the establishment of an Interagency Atrocities Prevention Board (Board), with the primary purpose of coordinating a whole-of-government approach to prevent mass atrocities and genocide. PSD-10 also directed an interagency study to develop and recommend the membership, mandate, structure, operational protocols, authorities, and support necessary for the Board to coordinate and develop atrocity prevention and response policy. This order continues in place the Board established in 2012 as I directed in PSD-10, sets out the support to be afforded by executive departments, agencies, and offices, and updates and memorializes the terms on which the Board will continue to operate in the service of its important mission.

SEC. 2. *Definition.* For purposes of this order, the term “mass atrocities” or “atrocities,” neither of which is defined under international law, refers to large scale and deliberate attacks on civilians, and includes acts falling within the definition “genocide” as defined in international law and under U.S. domestic statute.

SEC. 3. *Responsibilities.* The Board shall seek to ensure that mass atrocities and the risk thereof are effectively considered and appropriately addressed by the U.S. Government, and shall coordinate the development and execution of policies and tools to enhance our capacity to prevent and respond to mass atrocities.

(a) In order to ensure that emerging mass atrocity risks and mass atrocity situations are considered and addressed, the Board shall monitor developments around the world that heighten the risk of mass atrocities, and analyze and closely review specific mass atrocity threats or situations of heightened concern.

(b) The Board shall also identify any gaps related to the prevention of and response to mass atrocities in the current policies and ongoing interagency processes con-

cerning particular regions or countries and shall make recommendations to strengthen policies, programs, resources, and tools related to mass atrocity prevention and response to relevant executive departments and agencies (agencies), including through the Board’s function as an interagency policy committee, as detailed in section 4 of this order. In these efforts, the Board shall focus in particular on ways for the U.S. Government to develop, strengthen, and enhance its capabilities to:

(i) monitor, receive early warning of, and coordinate responses to potential mass atrocities;

(ii) deter and isolate perpetrators of mass atrocities through all available and appropriate authorities;

(iii) promote accountability of and deny impunity for perpetrators of mass atrocities, including by denying safe haven for perpetrators found in the United States;

(iv) engage allies and partners, including the United Nations and other multilateral and regional institutions, to build capacity and mobilize action for preventing and responding to mass atrocities;

(v) deploy civilian personnel with expertise in conflict prevention, civilian protection, mediation, and other relevant skills, including on a rapid response basis, to assist in mass atrocity prevention and response efforts;

(vi) increase capacity for our diplomats, armed services, development professionals, and other actors to engage in mass atrocity prevention and response activities;

(vii) develop and implement tailored foreign assistance programs as well as doctrine for our armed services to address and mitigate the risks of mass atrocities;

(viii) ensure intelligence collection, analysis, and sharing of information, as appropriate, relating to mass atrocity threats and situations; and

(ix) address any other issue regarding mass atrocity prevention and response that the Board determines is appropriate.

SEC. 4. *Structure and Protocols of the Atrocities Prevention Board.* The Board shall continue to operate and will have the following structure and protocols:

(a) The Board shall function as an interagency policy committee, or body of equivalent standing, chaired by a member of the National Security Council staff at the Senior Director level or higher who shall be designated by the President (Chair).

(b) The Chair shall convene the Board on a monthly basis to perform the responsibilities set forth in section 3 of this order. The Board shall also meet as needed on an ad hoc and time-sensitive basis to consider and address emerging mass atrocity threats or situations.

(c) The Deputies Committee of the National Security Council (Deputies) shall meet at least twice per year, and the Principals Committee of the National Security Council (Principals) shall meet at least once per year, to review and direct the work of the Board.

(d) The Board shall be composed of individuals at the Assistant Secretary-level or higher who shall be designated by the leadership of their respective departments or agencies. Within 60 days of a vacancy on the Board, the relevant department or agency or office head shall designate a replacement representative and notify the National Security Advisor. In addition to the Chair, the Board shall consist of the designated representatives from the following:

(i) the Office of the Vice President;

(ii) the Department of State;

(iii) the Department of the Treasury;

(iv) the Department of Defense;

(v) the Department of Justice;

(vi) the Department of Homeland Security;

(vii) the U.S. Mission to the United Nations;

(viii) the Office of the Director of National Intelligence;

(ix) the Central Intelligence Agency;

(x) the U.S. Agency for International Development;

(xi) the Joint Chiefs of Staff; and

(xii) such other agencies or offices as may request to participate in coordination with the Chair.

(e) The Chair shall report, through the National Security Advisor, to the President by April 30 each year on the work of the U.S. Government in mass atrocity prevention and response, including the work of the Board.

(f) The Chair shall prepare written updates for the public, on an annual basis, on the work of the U.S. Government in mass atrocity prevention and response, including the work of the Board.

(g) Consistent with the objectives set out in this order and in accordance with applicable law, the Board shall conduct outreach, including regular consultations, with representatives of nongovernmental organizations with expertise in mass atrocity prevention and response and other appropriate parties. Such outreach shall be for the purpose of assisting the Board with its work on considering and addressing emerging mass atrocity threats or situations and on developing new or improved policies and tools, as well as for the purpose of providing transparency on the work of the Board.

(h) In order to conduct the work set forth in this order effectively, the Board may:

(i) request information or analysis from the Intelligence Community (IC), Chiefs of Mission, agencies, and offices;

(ii) develop policy recommendations and programmatic recommendations for agencies, offices, and existing interagency processes;

(iii) in conjunction with existing interagency processes, formulate policy recommendations and programmatic recommendations;

(iv) coordinate with the Office of Management and Budget (OMB) to develop guidance on mass atrocity prevention resource priorities for agencies and offices; and

(v) bring urgent or significant matters to the attention of the Deputies and, as appropriate, request that the Deputies convene to address a situation of concern, consistent with Presidential Policy Directive-1 or its successor.

SEC. 5. *Enhancing Capabilities and Tools.* Agencies shall take the following actions in support of the United States Government's policy of working to prevent and respond to mass atrocities:

(a) Agencies, in coordination with the Board, shall ensure that mass atrocity prevention and response staffing, training, funding, and activities are addressed in their strategic planning and budget processes, including Department Quadrennial Reviews, Mission Resource Requests, State Department Integrated Country Strategies, U.S. Agency for International Development (USAID) Joint Strategic Plans, State Department Bureau Strategic Resource Plans, and related strategic planning and budget processes and documents. The Chair shall make recommendations to the National Security Advisor on the inclusion of material in the President's National Security Strategy that addresses mass atrocity prevention and response.

(b) The Department of State and USAID shall work with OMB to support the maintenance of civilian assistance accounts and authorities that enable swift civilian responses to mass atrocity threats and situations.

(c) The Department of State and USAID shall offer mass atrocity prevention and response training courses to all officers deployed or planning deployment to countries deemed by the IC to be at high or substantial risk for mass atrocities.

(d) The Department of State and USAID shall continue to build and use civilian capacity (i.e., the ability to deploy personnel with expertise in conflict prevention, civilian protection, mediation, and other relevant skills) effectively for mass atrocity prevention and response, and shall develop mechanisms for enhanced partnerships with non-U.S. Government actors that could provide surge capacity, such as the United Nations and other multilateral and regional organizations, foreign governments, and nongovernmental organizations.

(e) The IC shall continue to monitor developments worldwide and, as changing conditions warrant, prepare

an IC-coordinated assessment updating IC judgments in its National Intelligence Estimate on the global risk of mass atrocities and genocide at regular intervals to inform the work of the Board.

(f) Recognizing mass atrocity prevention as a core national security interest of the United States, the IC shall allocate resources so as to permit a collection surge for countries where the Board determines, and the Deputies concur, that there are ongoing or acute risks of mass atrocities that merit increased attention, in accordance with the National Intelligence Priority Framework and available resources.

(g) The IC shall work with partner governments to encourage the collection and analysis of mass atrocity-related intelligence and the sharing of this intelligence with the U.S. Government and its partners in mass atrocity prevention and response.

(h) The Department of Homeland Security (DHS) and the Department of Justice, in coordination with the Department of State, shall continue to develop proposals for legislative, regulatory, or administrative amendments or changes that would permit the more effective use and enforcement of immigration and other laws to deny impunity to perpetrators of mass atrocities and that would enhance our ability to prosecute such perpetrators subject to the jurisdiction of the United States and remove those who are not citizens.

(i) The Department of Defense (DOD) shall continue to develop joint doctrine and training that support mass atrocity prevention and response operations and shall address mass atrocity prevention and response as part of its general planning guidance to combatant commands and services.

(j) The Department of State, the Department of the Treasury, DHS, the U.S. Mission to the United Nations (USUN), and other agencies as appropriate, shall coordinate with bilateral and multilateral partners on the deployment of mass atrocity prevention and response tools, including isolating and deterring perpetrators of mass atrocities through all available authorities (including administrative actions, visa authorities, and capacity-building support), as appropriate.

(k) The Department of State, in coordination with USUN, DOD, and other agencies as appropriate, shall work bilaterally, multilaterally, and with regionally based organizations to enhance effectiveness in the fields of early warning, analysis, prevention, response, and accountability, and shall work with international partners to build or encourage building the capacity of our allies and partners to prevent and respond to mass atrocities.

SEC. 6. *General Provisions.* (a) Members of the Board shall serve without any additional compensation for their work on the Board.

(b) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof, or the status of that department or agency within the Federal Government; or

(ii) the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(c) This order shall be implemented consistent with applicable law, and subject to the availability of appropriations.

(d) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

SECTION 1. *Policy.* As articulated in the National Strategy for Countering Biological Threats and implemented in Presidential Policy Directive 2 (PPD-2), promoting global health security is a core tenet of our national strategy for countering biological threats. No single nation can be prepared if other nations remain unprepared to counter biological threats; therefore, it is the policy of the United States to advance the Global Health Security Agenda (GHSA), which is a multi-faceted, multi-country initiative intended to accelerate partner countries' measurable capabilities to achieve specific targets to prevent, detect, and respond to infectious disease threats (GHSA targets), whether naturally occurring, deliberate, or accidental. To advance the achievement of the GHSA targets and to support the implementation of the IHR within partner countries, each executive department, agency, and office (agency) shall, as appropriate, partner, consult, and coordinate with other governments, international financial institutions, international organizations, regional organizations, economic communities, and non-governmental stakeholders, including the private sector.

EX. ORD. NO. 13773. ENFORCING FEDERAL LAW WITH RESPECT TO TRANSNATIONAL CRIMINAL ORGANIZATIONS AND PREVENTING INTERNATIONAL TRAFFICKING

Ex. Ord. No. 13773, Feb. 9, 2017, 82 F.R. 10691, as amended by Ex. Ord. No. 14060, §3(a)(i), Dec. 15, 2021, 86 F.R. 71794, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Purpose.* Transnational criminal organizations and subsidiary organizations, including transnational drug cartels, have spread throughout the Nation, threatening the safety of the United States and its citizens. These organizations derive revenue through widespread illegal conduct, including acts of violence and abuse that exhibit a wanton disregard for human life. They, for example, have been known to commit brutal murders, rapes, and other barbaric acts.

These groups are drivers of crime, corruption, violence, and misery. In particular, the trafficking by cartels of controlled substances has triggered a resurgence in deadly drug abuse and a corresponding rise in violent crime related to drugs. Likewise, the trafficking and smuggling of human beings by transnational criminal groups risks creating a humanitarian crisis. These crimes, along with many others, are enriching and empowering these organizations to the detriment of the American people.

A comprehensive and decisive approach is required to dismantle these organized crime syndicates and restore safety for the American people.

SEC. 2. *Policy.* It shall be the policy of the executive branch to:

(a) strengthen enforcement of Federal law in order to thwart transnational criminal organizations and subsidiary organizations, including criminal gangs, cartels, racketeering organizations, and other groups engaged in illicit activities that present a threat to public safety and national security and that are related to, for example:

(i) the illegal smuggling and trafficking of humans, drugs or other substances, wildlife, and weapons;

(ii) corruption, cybercrime, fraud, financial crimes, and intellectual-property theft; or

(iii) the illegal concealment or transfer of proceeds derived from such illicit activities.

(b) ensure that Federal law enforcement agencies give a high priority and devote sufficient resources to efforts to identify, interdict, disrupt, and dismantle transnational criminal organizations and subsidiary organizations, including through the investigation, ap-

prehension, and prosecution of members of such organizations, the extradition of members of such organizations to face justice in the United States and, where appropriate and to the extent permitted by law, the swift removal from the United States of foreign nationals who are members of such organizations;

(c) maximize the extent to which all Federal agencies share information and coordinate with Federal law enforcement agencies, as permitted by law, in order to identify, interdict, and dismantle transnational criminal organizations and subsidiary organizations;

(d) enhance cooperation with foreign counterparts against transnational criminal organizations and subsidiary organizations, including, where appropriate and permitted by law, through sharing of intelligence and law enforcement information and through increased security sector assistance to foreign partners by the Attorney General and the Secretary of Homeland Security;

(e) develop strategies, under the guidance of the Secretary of State, the Attorney General, and the Secretary of Homeland Security, to maximize coordination among agencies—such as through the Organized Crime Drug Enforcement Task Forces (OCDETF), Special Operations Division, the OCDETF Fusion Center, and the International Organized Crime Intelligence and Operations Center—to counter the crimes described in subsection (a) of this section, consistent with applicable Federal law; and

(f) pursue and support additional efforts to prevent the operational success of transnational criminal organizations and subsidiary organizations within and beyond the United States, to include prosecution of ancillary criminal offenses, such as immigration fraud and visa fraud, and the seizure of the implements of such organizations and forfeiture of the proceeds of their criminal activity.

SEC. 3. [Revoked by Ex. Ord. No. 14060, §3(a)(i), Dec. 15, 2021, 86 F.R. 71794, set out below.]

SEC. 4. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

EX. ORD. NO. 14060. ESTABLISHING THE UNITED STATES COUNCIL ON TRANSNATIONAL ORGANIZED CRIME

Ex. Ord. No. 14060, Dec. 15, 2021, 86 F.R. 71793, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. *Purpose.* Transnational organized crime (TOC) poses a direct and escalating threat to public health, public safety, and national security. Transnational criminal organizations engage in a broad range of criminal activities, including drug and weapons trafficking, migrant smuggling, human trafficking, cybercrime, intellectual property theft, money laundering, wildlife and timber trafficking, illegal fishing, and illegal mining.

These networks continue to expand in size and influence in the United States and abroad. Transnational criminal organizations contribute directly to tens of thousands of drug-overdose deaths in the United States each year and adversely affect American communities and economic prosperity. They also threaten United States national security by degrading the security and stability of allied and partner nations, undermining the rule of law, fostering corruption, acting as proxies for

hostile state activities, directly or indirectly funding insurgent and terrorist groups, depleting natural resources, harming human health and the environment, contributing to climate change through illegal deforestation and logging, and exploiting and endangering vulnerable populations. In some regions, transnational criminal organizations wield state-like capabilities, disregarding sovereign borders, compromising the integrity of democratic institutions and threatening the legitimacy of fragile governments, and securing their power through intimidation, corruption, and violence. For these reasons, it is in the national interest of the United States to counter TOC. Addressing TOC requires a coordinated Federal framework accompanied by a cohesive whole-of-government effort executed in collaboration with State, local, Tribal, territorial, and civil society partners in the United States and in close coordination with foreign partners, international and regional organizations, and international and local civil society groups abroad.

SEC. 2. Policy. Executive departments and agencies (agencies) shall take actions within their respective authorities, including, as appropriate, through the provision of technical and financial assistance, to enhance efforts to counter TOC. It is the policy of the United States to:

- (a) employ authorized intelligence and operational capabilities in an integrated manner to target, disrupt, and degrade transnational criminal organizations that pose the greatest threat to national security;
- (b) collaborate with private entities and international, multilateral, and bilateral organizations to combat TOC, while also strengthening cooperation with and advancing efforts to build capacity in partner nations to reduce transnational criminal activity;
- (c) improve information sharing between law enforcement entities and the Intelligence Community to enhance strategic analysis of, and efforts to combat, transnational criminal organizations and their activities, while also preserving our ability to speedily bring TOC actors to justice;
- (d) expand tools and capabilities to combat illicit finance, which underpins all TOC activities; and
- (e) develop and deploy new technologies to identify and disrupt existing and newly emerging TOC threats.

SEC. 3. Establishments. (a) There shall be established a United States Council on Transnational Organized Crime (USCTOC), which shall report to the President through the Assistant to the President for National Security Affairs. The USCTOC shall monitor the production and implementation of coordinated strategic plans for whole-of-government counter-TOC efforts in support of and in alignment with policy priorities established by the President through the National Security Council.

(i) The USCTOC shall replace the Threat Mitigation Working Group, previously directed to lead whole-of-government efforts on TOC under Executive Order 13773 of February 9, 2017 (Enforcing Federal Law With Respect to Transnational Criminal Organizations and Preventing International Trafficking) [set out above]. Accordingly, section 3 of Executive Order 13773 is hereby revoked.

(ii) The USCTOC shall consist of the following members or their designees:

- (A) the Secretary of State;
- (B) the Secretary of the Treasury;
- (C) the Secretary of Defense;
- (D) the Attorney General;
- (E) the Secretary of Homeland Security; and
- (F) the Director of National Intelligence.

(iii) The USCTOC may request other agencies to contribute to the USCTOC's efforts as necessary, including by detail or assignment of personnel consistent with subsection (b)(v) of this section.

(iv) The USCTOC shall meet not later than 60 days from the date of this order [Dec. 15, 2021] and periodically thereafter.

(b) There shall be established a USCTOC Strategic Division (Division), an interagency working group

housed at the Department of Justice, comprising personnel from agencies designated in subsection (a)(ii) of this section.

(i) The Division shall produce coordinated strategic plans for whole-of-government counter-TOC efforts in support of and in alignment with policy priorities established by the President through the National Security Council. These strategic plans shall be informed by intelligence assessments, be developed in coordination with agencies, and include recommendations for actions by agencies. The Division shall submit its completed strategic plans to the USCTOC.

(ii) The Division shall be chaired by a senior official from the Department of Justice or the Department of Homeland Security. The Chairperson shall serve a 2 year term. The Attorney General and the Secretary of Homeland Security, or their designees, shall alternate every 2 years selecting the Chairperson.

(iii) The Division shall be established for administrative purposes within the Department of Justice, and the Department of Justice shall, to the extent permitted by law and subject to the availability of appropriations, provide administrative support and funding for the Division.

(iv) Agencies designated in subsection (a)(ii) of this section are hereby directed, consistent with their authorities, budget priorities, and mission constraints, and to the extent permitted by law and consistent with the need to protect intelligence and law enforcement sources, methods, operations, and investigations, to provide to the Division:

(A) details or assignments of personnel, who shall be qualified subject-matter experts and strategic planners, and who shall serve on full-time assignments of not less than 1 year;

(B) relevant information, research, intelligence, and analysis; and

(C) such other resources and assistance as the Division may request for the purpose of carrying out the responsibilities outlined in this section.

(v) To the extent permitted by law, agencies designated in subsection (a)(ii) of this section are encouraged to detail or assign their employees to the Division on a non-reimbursable basis.

(vi) The Division, within 120 days of the date of this order, shall submit to the USCTOC a report describing a process that the USCTOC can implement on an ongoing basis and as necessary to identify and prioritize the most significant TOC threats in alignment with policy priorities established by the President through the National Security Council.

SEC. 4. Report. The Director of National Intelligence, within 120 days of the date of this order and annually thereafter, shall submit a report to the President through the Assistant to the President for National Security Affairs assessing the Intelligence Community's posture with respect to TOC-related collection efforts, including recommendations on resource allocation and prioritization.

SEC. 5. Definitions. For the purposes of this order:

(a) the term "Intelligence Community" has the meaning ascribed to it under 50 U.S.C. 3003(4); and

(b) the term "transnational criminal organizations" refers to groups, networks, and associated individuals who operate transnationally for the purpose of obtaining power, influence, or monetary or commercial gain, wholly or in part by illegal means, while advancing their activities through a pattern of crime, corruption, or violence, and while protecting their illegal activities through a transnational organizational structure and the exploitation of public corruption or transnational logistics, financial, or communication mechanisms.

SEC. 6. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

STEPS FOR INCREASED LEGAL AND POLICY TRANSPARENCY CONCERNING THE UNITED STATES USE OF MILITARY FORCE AND RELATED NATIONAL SECURITY OPERATIONS

Memorandum of President of the United States, Dec. 5, 2016, 81 F.R. 94213, provided:

Memorandum for the Heads of Executive Departments and Agencies

Since my earliest days in office, I have emphasized the importance of transparency and my commitment to making as much information as possible available to the Congress and the public about the United States use of military force and related national security operations. Doing so, I believe, not only supports the process of democratic decision making, but also demonstrates the legitimacy and strengthens the sustainability of our operations while promoting mutual understanding with our allies and partners.

The United States has used military force and conducted related national security operations within legal and policy frameworks that are designed to ensure that such operations are lawful and effective and that they serve our interests and values. Consistent with my commitment to transparency, my Administration has provided to the public an unprecedented amount of information regarding these frameworks through speeches, public statements, reports, and other materials. We have attempted to explain, consistent with our national security and the proper functioning of the executive branch, when and why the United States conducts such operations, the legal basis and policy parameters for such operations, and how such operations have unfolded, so that the American people can better understand them.

In addition to the efforts we have made to date, there is still more work that can be done to inform the public. Thus, consistent with my Administration's previous efforts, by this memorandum I am directing national security departments and agencies to take additional steps to share with the public further information relating to the legal and policy frameworks within which the United States uses military force and conducts related national security operations. Accordingly, I hereby direct as follows:

SECTION 1. Report. National security departments and agencies shall prepare for the President a formal report that describes key legal and policy frameworks that currently guide the United States use of military force and related national security operations, with a view toward the report being released to the public.

SEC. 2. Keeping the Public Informed. On no less than an annual basis, the National Security Council staff shall be asked to, as appropriate, coordinate a review and update of the report described in section 1 of this memorandum, provide any updated report to the President, and arrange for the report to be released to the public.

SEC. 3. Definitions. For the purposes of this memorandum:

“National security departments and agencies” include the Departments of State, the Treasury, Defense, Justice, and Homeland Security, the Office of the Director of National Intelligence, the Central Intelligence Agency, and such other agencies as the President may designate.

“Related national security operations” include operations deemed relevant and appropriate by national security departments and agencies for inclusion in the report described in section 1 of this memorandum, such as detention, transfer, and interrogation operations.

SEC. 4. Publication. The Secretary of State is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

As President, my highest priority is to ensure the safety and security of the American people. In order to advise and assist me in executing this solemn responsibility, as well as to protect and advance the national interests of the United States at home and abroad, I hereby direct that my system for national security policy development and decision making shall be organized as follows:

A. The National Security Council, the Homeland Security Council, and Supporting Staff

The National Security Act of 1947, as amended, established the National Security Council (NSC) to advise the President with respect to the integration of domestic, foreign, and military policies relating to the national security. There is also a Homeland Security Council (HSC)—established through Executive Order 13228 of October 8, 2001, and subsequently codified in the Homeland Security Act of 2002—that has the purpose of advising the President on matters pertaining to homeland security. Each Council is also responsible for the effective coordination of the security-related activities and functions of the executive departments and agencies.

The security threats facing the United States in the 21st century transcend international boundaries. Accordingly, the United States Government's decision-

making structures and processes to address these challenges must remain equally adaptive and transformative. Both Councils are statutory bodies that the President will continue to chair. Invitations to participate in specific Council meetings shall be extended to those heads of executive departments and agencies, and other senior officials, who are needed to address the issue or issues under consideration. When the President is absent from a meeting of either Council, the Vice President may preside at the President's direction.

The Assistant to the President for National Security Affairs (National Security Advisor) shall be responsible, as appropriate and at the President's direction, for determining the agenda for the NSC or HSC, respectively, ensuring that the necessary papers are prepared and recording Council actions and Presidential decisions in a timely manner. The Assistant to the President for Homeland Security and Counterterrorism (Homeland Security Advisor) may, at the sole discretion of the National Security Advisor, perform those functions. When international economic issues are on the agenda of the NSC, the Assistant to the President for Economic Policy may, at the sole discretion of the National Security Advisor, perform those functions.

The NSC and HSC shall have as their regular attendees (both statutory and non-statutory) the President, the Vice President, the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Attorney General, the Secretary of Energy, the Secretary of Homeland Security, the National Security Advisor, the Homeland Security Advisor, and the Representative of the United States to the United Nations. The Director of National Intelligence and the Chairman of the Joint Chiefs of Staff, as statutory advisors to the NSC, shall also be regular attendees, as will the Director of the Central Intelligence Agency.

When international economic issues are on the agenda of the NSC, the NSC's regular attendees will include the Secretary of Commerce, the United States Trade Representative, and the Assistant to the President for Economic Policy.

The Assistant to the President and Chief of Staff (Chief of Staff to the President), the Counsel to the President, the Deputy Counsel to the President for National Security Affairs, and the Director of the Office of Management and Budget are invited as attendees to any NSC meeting.

In addition to the NSC and HSC, there is also a single NSC staff within the Executive Office of the President that serves both the NSC and HSC. The staff is composed of regional, issue-focused, and functional directorates and headed by a single civilian Executive Secretary, pursuant to 50 U.S.C. 3021, who is also the Chief of Staff. All policy and staff activity decisions will be transmitted to the Executive Secretary for appropriate distribution and awareness. The purpose of the staff is to advise the President, the National Security Advisor, the Homeland Security Advisor, the NSC members, the HSC members, and others in the White House; to facilitate the implementation of Administration policy; and to help coordinate the national-security-related activities of the executive departments and agencies.

B. The Principals Committee

The Principals Committee (PC) shall continue to serve as the Cabinet-level senior interagency forum for considering policy issues that affect the national security interests of the United States. The PC shall be convened and chaired by the National Security Advisor. The Homeland Security Advisor may, at the sole discretion of the National Security Advisor, also convene and chair the PC. The Chair shall determine the agenda in consultation with the appropriate committee members, and the Executive Secretary shall ensure that necessary papers are prepared, and that conclusions and decisions are communicated in a timely manner. Invitations to participate in or attend a specific PC shall be extended at the discretion of the Chair, and may include those Cabinet-level heads of executive departments and agencies, and other senior officials, who are needed to address any issue under consideration.

The PC shall have as its regular attendees the Secretary of State, the Secretary of the Treasury, the Secretary of Defense, the Attorney General, the Secretary of Energy, the Secretary of Homeland Security, the Chief of Staff to the President, the Director of National Intelligence, the Chairman of the Joint Chiefs of Staff, the Director of the Central Intelligence Agency, the National Security Advisor, the Homeland Security Advisor, and the Representative of the United States to the United Nations. The Counsel to the President, the Deputy Counsel to the President for National Security Affairs, and the Director of the Office of Management and Budget may attend all PC meetings.

The Assistant to the President and Deputy National Security Advisor (Deputy National Security Advisor), the Deputy National Security Advisor for Strategy, the Deputy Assistant to the President and National Security Advisor to the Vice President, and the Executive Secretary (who shall serve as the Executive Secretary of the PC) shall attend all of the meetings of the PC, and the Assistant to the President for Intragovernmental and Technology Initiatives may attend as appropriate.

When international economic issues are on the agenda of the PC, the Committee's regular attendees will include the Secretary of Commerce, the United States Trade Representative, and the Assistant to the President for Economic Policy (who shall serve as Chair for agenda items that principally pertain to international economics).

C. The Deputies Committee

The Deputies Committee (DC) shall continue to serve as the senior sub-Cabinet interagency forum for consideration of, and where appropriate, decision making on, policy issues that affect the national security interests of the United States. The DC shall be convened and chaired by the Deputy National Security Advisor. The Deputy Homeland Security Advisor may, at the sole discretion of the National Security Advisor, also convene and Chair the DC. The Chair shall determine the agenda in consultation with the regular DC attendees, and the Executive Secretary shall ensure that necessary papers are prepared and that conclusions and decisions are communicated in a timely manner. Invitations to participate in or attend a specific DC meeting shall be extended by the Chair to those at the Deputy Secretary or Under Secretary level of executive departments and agencies, and to other senior officials, who are needed to address any issue under consideration.

The DC shall have as its regular attendees the Deputy Secretary of State, the Deputy Secretary of the Treasury, the Deputy Secretary of Defense, the Deputy Attorney General, the Deputy Secretary of Energy, the Deputy Secretary of Homeland Security, the Deputy Director of the Office of Management and Budget, the Deputy Director of National Intelligence, the Vice Chairman of the Joint Chiefs of Staff, the Deputy Director of the Central Intelligence Agency, the Deputy National Security Advisor, the Deputy National Security Advisor for Strategy, the Deputy Homeland Security Advisor, the Deputy Assistant to the President and National Security Advisor to the Vice President, and the Administrator of the United States Agency for International Development.

The Executive Secretary shall attend the DC meetings. The Deputy Counsel to the President for National Security Affairs may attend all DC meetings. Other senior officials, including the Deputy Representative of the United States to the United Nations, may be invited when appropriate.

The DC shall review and monitor the work of the interagency national security process, including the interagency groups established pursuant to section D below. The DC shall help to ensure that issues brought before the NSC, HSC, and PC have been properly analyzed and prepared for decision. The DC shall also focus significant attention on monitoring the implementation of policies and decisions and shall conduct periodic reviews of the Administration's major national security and foreign policy initiatives. The DC is respon-

sible for establishing Policy Coordination Committees (PCCs) and for providing objectives and clear guidance.

D. Policy Coordination Committees

Management of the development and implementation of national security policies by multiple executive departments and agencies typically shall be accomplished by the PCCs, with participation primarily occurring at the Assistant Secretary level. As the main day-to-day fora for interagency coordination of national security policies, the PCCs shall provide policy analysis for consideration by the more senior committees of the national security system and ensure timely responses to the President's decisions.

Regional and issue-related PCCs shall be established at the direction of the DC. Members of the NSC staff (or National Economic Council staff, as appropriate) will chair the PCCs; the DC, at its discretion, may add co-chairs to any PCC. The PCCs shall review and coordinate the implementation of Presidential decisions in their respective policy areas. The Chair of each PCC, in consultation with the Executive Secretary, shall invite representatives of other executive departments and agencies to attend meetings of the PCC where appropriate. The Chair of each PCC, with the agreement of the Executive Secretary, may establish subordinate working groups to assist that PCC in the performance of its duties.

E. General

The President and the Vice President may attend any and all meetings of any entity established by or under this memorandum.

This document is part of a series of National Security Presidential Memoranda, which have replaced both Presidential Policy Directives and Presidential Study Directives as the instrument for communicating relevant Presidential decisions. This memorandum shall supersede all other existing Presidential directives and guidance on the organization or support of the NSC and the HSC, including National Security Presidential Memorandum-2 (January 28, 2017), which is hereby revoked. With regard to its application to economic matters, this document shall be interpreted in concert with any Executive Order governing the National Economic Council and with Presidential Memoranda signed hereafter that implement it or those Executive Orders.

The Secretary of Defense is hereby authorized and directed to publish this memorandum in the Federal Register.

DONALD J. TRUMP.

(A) to the President;

(B) to the heads of departments and agencies of the executive branch;

(C) to the Chairman of the Joint Chiefs of Staff and senior military commanders;

(D) to the Senate and House of Representatives and the committees thereof; and

(E) to such other persons as the Director of National Intelligence determines to be appropriate.

(2) Such national intelligence should be timely, objective, independent of political considerations, and based upon all sources available to the intelligence community and other appropriate entities.

(b) Access to intelligence

Unless otherwise directed by the President, the Director of National Intelligence shall have access to all national intelligence and intelligence related to the national security which is collected by any Federal department, agency, or other entity, except as otherwise provided by law or, as appropriate, under guidelines agreed upon by the Attorney General and the Director of National Intelligence.

(c) Budget authorities

(1) With respect to budget requests and appropriations for the National Intelligence Program, the Director of National Intelligence shall—

(B) based on budget proposals provided to the Director of National Intelligence by the heads of agencies and organizations within the intelligence community and the heads of their respective departments and, as appropriate, after obtaining the advice of the Joint Intelligence Community Council, develop and determine an annual consolidated National Intelligence Program budget; and

(C) present such consolidated National Intelligence Program budget, together with any comments from the heads of departments containing agencies or organizations within the intelligence community, to the President for approval.

(2) In addition to the information provided under paragraph (1)(B), the heads of agencies and organizations within the intelligence community shall provide the Director of National Intelligence such other information as the Director shall request for the purpose of determining the annual consolidated National Intelligence Program budget under that paragraph.

(3)(A) The Director of National Intelligence shall participate in the development by the Sec-

retary of Defense of the annual budget for the Military Intelligence Program or any successor program or programs.

(B) The Director of National Intelligence shall provide guidance for the development of the annual budget for each element of the intelligence community that is not within the National Intelligence Program.

(4) The Director of National Intelligence shall ensure the effective execution of the annual budget for intelligence and intelligence-related activities.

(5)(A) The Director of National Intelligence shall be responsible for managing appropriations for the National Intelligence Program by directing the allotment or allocation of such appropriations through the heads of the departments containing agencies or organizations within the intelligence community and the Director of the Central Intelligence Agency, with prior notice (including the provision of appropriate supporting information) to the head of the department containing an agency or organization receiving any such allocation or allotment or the Director of the Central Intelligence Agency.

(B) Notwithstanding any other provision of law, pursuant to relevant appropriations Acts for the National Intelligence Program, the Director of the Office of Management and Budget shall exercise the authority of the Director of the Office of Management and Budget to apportion funds, at the exclusive direction of the Director of National Intelligence, for allocation to the elements of the intelligence community through the relevant host executive departments and the Central Intelligence Agency. Department comptrollers or appropriate budget execution officers shall allot, allocate, reprogram, or transfer funds appropriated for the National Intelligence Program in an expeditious manner.

(C) The Director of National Intelligence shall monitor the implementation and execution of the National Intelligence Program by the heads of the elements of the intelligence community that manage programs and activities that are part of the National Intelligence Program, which shall include audits and evaluations.

(D) Consistent with subparagraph (C), the Director of National Intelligence shall ensure that the programs and activities that are part of the National Intelligence Program, including those of the Federal Bureau of Investigation, are structured and executed in a manner than enables budget traceability.

(6) Apportionment and allotment of funds under this subsection shall be subject to chapter 13 and section 1517 of title 31 and the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 621 et seq.).

(7)(A) The Director of National Intelligence shall provide a semi-annual report, beginning April 1, 2005, and ending April 1, 2007, to the President and the Congress regarding implementation of this section.

(B) The Director of National Intelligence shall report to the President and the Congress not later than 15 days after learning of any instance in which a departmental comptroller acts in a manner inconsistent with the law (including permanent statutes, authorization Acts, and ap-

propriations Acts), or the direction of the Director of National Intelligence, in carrying out the National Intelligence Program.

(d) Role of Director of National Intelligence in transfer and reprogramming of funds

(1)(A) No funds made available under the National Intelligence Program may be transferred or reprogrammed without the prior approval of the Director of National Intelligence, except in accordance with procedures prescribed by the Director of National Intelligence.

(B) The Secretary of Defense shall consult with the Director of National Intelligence before transferring or reprogramming funds made available under the Military Intelligence Program or any successor program or programs.

(2) Subject to the succeeding provisions of this subsection, the Director of National Intelligence may transfer or reprogram funds appropriated for a program within the National Intelligence Program—

(A) to another such program;

(B) to other departments or agencies of the United States Government for the development and fielding of systems of common concern related to the collection, processing, analysis, exploitation, and dissemination of intelligence information; or

(C) to a program funded by appropriations not within the National Intelligence Program to address critical gaps in intelligence information sharing or access capabilities.

(3) The Director of National Intelligence may only transfer or reprogram funds referred to in paragraph (1)(A)—

(A) with the approval of the Director of the Office of Management and Budget; and

(B) after consultation with the heads of departments containing agencies or organizations within the intelligence community to the extent such agencies or organizations are affected, and, in the case of the Central Intelligence Agency, after consultation with the Director of the Central Intelligence Agency.

(4) The amounts available for transfer or reprogramming in the National Intelligence Program in any given fiscal year, and the terms and conditions governing such transfers and reprogrammings, are subject to the provisions of annual appropriations Acts and this subsection.

(i) the funds are being transferred to an activity that is a higher priority intelligence activity;

(ii) the transfer or reprogramming supports an emergent need, improves program effectiveness, or increases efficiency;

(iv) the transfer or reprogramming results in a cumulative transfer or reprogramming of funds out of any department or agency, as appropriate, funded in the National Intelligence Program in a single fiscal year—

(I) that is less than \$150,000,000, and

(II) that is less than 5 percent of amounts available to a department or agency under the National Intelligence Program; and

(v) the transfer or reprogramming does not terminate an acquisition program.

(B) A transfer or reprogramming may be made without regard to a limitation set forth in clause (iv) or (v) of subparagraph (A) if the transfer has the concurrence of the head of the department involved or the Director of the Central Intelligence Agency (in the case of the Central Intelligence Agency). The authority to provide such concurrence may only be delegated by the head of the department involved or the Director of the Central Intelligence Agency (in the case of the Central Intelligence Agency) to the deputy of such officer.

(6) Funds transferred or reprogrammed under this subsection shall remain available for the same period as the appropriations account to which transferred or reprogrammed.

(7) Any transfer or reprogramming of funds under this subsection shall be carried out in accordance with existing procedures applicable to reprogramming notifications for the appropriate congressional committees. Any proposed transfer or reprogramming for which notice is given to the appropriate congressional committees shall be accompanied by a report explaining the nature of the proposed transfer or reprogramming and how it satisfies the requirements of this subsection. In addition, the congressional intelligence committees shall be promptly notified of any transfer or reprogramming of funds made pursuant to this subsection in any case in which the transfer or reprogramming would not have otherwise required reprogramming notification under procedures in effect as of December 17, 2004.

(e) Transfer of personnel

(1)(A) In addition to any other authorities available under law for such purposes, in the first twelve months after establishment of a new national intelligence center, the Director of National Intelligence, with the approval of the Director of the Office of Management and Budget and in consultation with the congressional committees of jurisdiction referred to in subparagraph (B), may transfer not more than 100 personnel authorized for elements of the intelligence community to such center.

(B) The Director of National Intelligence shall promptly provide notice of any transfer of personnel made pursuant to this paragraph to—

nature of the transfer and how it satisfies the requirements of this subsection.

(2)(A) The Director of National Intelligence, with the approval of the Director of the Office of Management and Budget and in accordance with procedures to be developed by the Director of National Intelligence and the heads of the departments and agencies concerned, may transfer personnel authorized for an element of the intelligence community to another such element for a period of not more than 2 years.

(B) A transfer of personnel may be made under this paragraph only if—

(i) the personnel are being transferred to an activity that is a higher priority intelligence activity; and

(ii) the transfer supports an emergent need, improves program effectiveness, or increases efficiency.

(C) The Director of National Intelligence shall promptly provide notice of any transfer of personnel made pursuant to this paragraph to—

(i) the congressional intelligence committees;

(ii) in the case of the transfer of personnel to or from the Department of Defense, the Committees on Armed Services of the Senate and the House of Representatives; and

(B) Except as provided in subparagraph (C), the Director of National Intelligence may use a full-time equivalent position authorized under subparagraph (A) only for the purpose of providing a temporary transfer of personnel made in accordance with paragraph (2) to an element of the intelligence community to enable such element to increase the total number of personnel authorized for such element, on a temporary basis—

(i) during a period in which a permanent employee of such element is absent to participate in critical language training; or

(ii) to accept a permanent employee of another element of the intelligence community to provide language-capable services.

(C) Paragraph (2)(B) shall not apply with respect to a transfer of personnel made under subparagraph (B).

(D) For each of the fiscal years 2010, 2011, and 2012, the Director of National Intelligence shall submit to the congressional intelligence committees an annual report on the use of authorities under this paragraph. Each such report shall include a description of—

(ii) the critical language needs that were fulfilled or partially fulfilled through the use of such transfers; and

(iii) the cost to carry out subparagraph (B).

(4) It is the sense of Congress that—

(A) the nature of the national security threats facing the United States will continue to challenge the intelligence community to respond rapidly and flexibly to bring analytic resources to bear against emerging and unforeseen requirements;

(B) both the Office of the Director of National Intelligence and any analytic centers determined to be necessary should be fully and properly supported with appropriate levels of personnel resources and that the President's yearly budget requests adequately support those needs; and

(C) the President should utilize all legal and administrative discretion to ensure that the Director of National Intelligence and all other elements of the intelligence community have the necessary resources and procedures to respond promptly and effectively to emerging and unforeseen national security challenges.

(f) Tasking and other authorities

(1)(A) The Director of National Intelligence shall—

(i) establish objectives, priorities, and guidance for the intelligence community to ensure timely and effective collection, processing, analysis, and dissemination (including access by users to collected data consistent with applicable law and, as appropriate, the guidelines referred to in subsection (b) and analytic products generated by or within the intelligence community) of national intelligence;

(ii) determine requirements and priorities for, and manage and direct the tasking of, collection, analysis, production, and dissemination of national intelligence by elements of the intelligence community, including—

(I) approving requirements (including those requirements responding to needs provided by consumers) for collection and analysis; and

(II) resolving conflicts in collection requirements and in the tasking of national collection assets of the elements of the intelligence community; and

(iii) provide advisory tasking to intelligence elements of those agencies and departments not within the National Intelligence Program.

(B) The authority of the Director of National Intelligence under subparagraph (A) shall not apply—

(i) insofar as the President so directs;

(ii) with respect to clause (ii) of subparagraph (A), insofar as the Secretary of Defense exercises tasking authority under plans or arrangements agreed upon by the Secretary of Defense and the Director of National Intelligence; or

(v) require service in more than one element of the intelligence community as a condition of promotion to such positions within the intelligence community as the Director shall specify, and take requisite steps to ensure compliance among elements of the intelligence community; and

(vi) ensure the effective management of intelligence community personnel who are responsible for intelligence community-wide matters.

(B) Policies prescribed under subparagraph (A) shall not be inconsistent with the personnel policies otherwise applicable to members of the uniformed services.

(4) The Director of National Intelligence shall ensure compliance with the Constitution and laws of the United States by the Central Intelligence Agency and shall ensure such compliance by other elements of the intelligence community through the host executive departments that manage the programs and activities that are part of the National Intelligence Program.

(5) The Director of National Intelligence shall ensure the elimination of waste and unnecessary duplication within the intelligence community.

(6) The Director of National Intelligence shall establish requirements and priorities for foreign intelligence information to be collected under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.), and provide assistance to the Attorney General to ensure that information derived from electronic surveillance or physical searches under that Act is disseminated so it may be used efficiently and effectively for national intelligence purposes, except that the Director shall have no authority to direct or undertake electronic surveillance or

physical search operations pursuant to that Act unless authorized by statute or Executive order.

(7)(A) The Director of National Intelligence shall, if the Director determines it is necessary, or may, if requested by a congressional intelligence committee, conduct an accountability review of an element of the intelligence community or the personnel of such element in relation to a failure or deficiency within the intelligence community.

(B) The Director of National Intelligence, in consultation with the Attorney General, shall establish guidelines and procedures for conducting an accountability review under subparagraph (A).

(C)(i) The Director of National Intelligence shall provide the findings of an accountability review conducted under subparagraph (A) and the Director's recommendations for corrective or punitive action, if any, to the head of the applicable element of the intelligence community. Such recommendations may include a recommendation for dismissal of personnel.

(ii) If the head of such element does not implement a recommendation made by the Director under clause (i), the head of such element shall submit to the congressional intelligence committees a notice of the determination not to implement the recommendation, including the reasons for the determination.

(8) The Director of National Intelligence shall—

(A) conduct assessments and audits of the compliance of each element of the intelligence community with minimum insider threat policy;

(B) receive information from each element of the intelligence community regarding the collection, sharing, and use by such element of audit and monitoring data for insider threat detection across all classified and unclassified information technology systems within such element;

(C) provide guidance and oversight to Federal departments and agencies to fully implement automated records checks, consistent with personnel vetting reforms and the Trusted Workforce 2.0 initiative, or successor initiative, and ensure that information collected pursuant to such records checks is appropriately shared in support of intelligence community-wide insider threat initiatives;

(D) carry out evaluations of the effectiveness of counterintelligence, security, and insider threat program activities of each element of the intelligence community, including with respect to the lowest organizational unit of each such element, that include an identification of any gaps, shortfalls, or resource needs of each such element;

(E) identify gaps, shortfalls, resources needs, and recommendations for adjustments in allocations and additional resources and other remedies to strengthen counterintelligence, security, and insider threat detection programs;

(F) pursuant to final damage assessments facilitated by the National Counterintelligence and Security Center that have been undertaken as a result of an unauthorized disclosure, determine whether the heads of the elements of the intelligence community implement recommended mitigation, and notify the congressional intelligence committees of such determinations and notify the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives in cases involving elements of the intelligence community within the Department of Defense; and

(G) study the data collected during the course of background investigations and adjudications for security clearances granted to individuals who subsequently commit unauthorized disclosures, and issue findings regarding the quality of such data as a predictor for insider threat activity, delineated by the severity of the unauthorized disclosure.

(9) The Director of National Intelligence shall ensure there is established a policy for minimum insider threat standards for the intelligence community and ensure compliance by the elements of the intelligence community with that policy.

(10) The Director of National Intelligence shall perform such other intelligence-related functions as the President may direct, and upon receiving any such direction, the Director shall notify the congressional intelligence committees immediately in writing with a description of such other intelligence-related functions directed by the President.

(11) Nothing in this subchapter shall be construed as affecting the role of the Department of Justice or the Attorney General under the Foreign Intelligence Surveillance Act of 1978 [50 U.S.C. 1801 et seq.].

(E) develop an enterprise architecture for the intelligence community and ensure that elements of the intelligence community comply with such architecture;

(F) have procurement approval authority over all enterprise architecture-related information technology items funded in the National Intelligence Program; and

(G) in accordance with Executive Order No. 13526 (75 Fed. Reg. 707; relating to classified national security information) (or any subse-

quent corresponding executive order), and part 2001 of title 32, Code of Federal Regulations (or any subsequent corresponding regulation), establish—

(i) guidance to standardize, in appropriate cases, the formats for classified and unclassified intelligence products created by elements of the intelligence community for purposes of promoting the sharing of intelligence products; and

(ii) policies and procedures requiring the increased use, in appropriate cases, and including portion markings, of the classification of portions of information within one intelligence product.

(2) The President shall ensure that the Director of National Intelligence has all necessary support and authorities to fully and effectively implement paragraph (1).

(3) Except as otherwise directed by the President or with the specific written agreement of the head of the department or agency in question, a Federal agency or official shall not be considered to have met any obligation to provide any information, report, assessment, or other material (including unevaluated intelligence information) to that department or agency solely by virtue of having provided that information, report, assessment, or other material to the Director of National Intelligence or the National Counterterrorism Center.

(4) The Director of National Intelligence shall, in a timely manner, report to Congress any statute, regulation, policy, or practice that the Director believes impedes the ability of the Director to fully and effectively ensure maximum availability of access to intelligence information within the intelligence community consistent with the protection of the national security of the United States.

(h) Analysis

To ensure the most accurate analysis of intelligence is derived from all sources to support national security needs, the Director of National Intelligence shall—

(1) implement policies and procedures—

(A) to require sound analytic methods and tradecraft, independent of political considerations, throughout the elements of the intelligence community;

(B) to ensure that analysis is based upon all sources available; and

(C) to ensure that the elements of the intelligence community regularly conduct competitive analysis of analytic products, whether such products are produced by or disseminated to such elements;

(2) ensure that resource allocation for intelligence analysis is appropriately proportional to resource allocation for intelligence collection systems and operations in order to maximize analysis of all collected data;

(3) ensure that substantial differences in analytic judgment are fully considered, brought to the attention of policymakers, and documented in analytic products; and

(4) ensure that sufficient relationships are established between intelligence collectors and analysts to facilitate greater understanding of the needs of analysts.

(i) Protection of intelligence sources and methods

(1) The Director of National Intelligence shall protect, and shall establish and enforce policies to protect, intelligence sources and methods from unauthorized disclosure.

(2) Consistent with paragraph (1), in order to maximize the dissemination of intelligence, the Director of National Intelligence shall establish and implement requirements for the intelligence community for the following purposes:

(A) Classification of information under applicable law, Executive orders, or other Presidential directives.

(B) Access to and dissemination of intelligence, both in final form and in the form when initially gathered.

(C) Preparation of intelligence products in such a way that source information is removed to allow for dissemination at the lowest level of classification possible or in unclassified form to the extent practicable.

(3) The Director may only delegate a duty or authority given the Director under this subsection to the Principal Deputy Director of National Intelligence.

(4)(A) Each head of an element of the intelligence community shall ensure that any congressionally mandated report submitted to Congress by the head, other than such a report submitted solely to the congressional intelligence committees, shall be consistent with the protection of intelligence sources and methods in accordance with the policies established by the Director under paragraph (1), regardless of whether the provision of law mandating the report explicitly requires such protection.

(B) Nothing in this paragraph shall be construed to alter any congressional leadership's or congressional committee's jurisdiction or access to information from any element of the intelligence community under the rules of either chamber of Congress.

(j) Uniform procedures for classified information

The Director of National Intelligence, subject to the direction of the President, shall—

(1) establish uniform standards and procedures for the grant of access to sensitive compartmented information to any officer or employee of any agency or department of the United States and to employees of contractors of those agencies or departments;

“(5) Following the September 11, 2001, terrorist attacks, the United States, under President George W.

Bush, led an international coalition into Afghanistan to dismantle al Qaeda, deny them a safe haven in Afghanistan and ungoverned areas along the Pakistani border, and bring Osama bin Laden to justice.

“(6) President Barack Obama in 2009 committed additional forces and resources to efforts in Afghanistan and Pakistan as ‘the central front in our enduring struggle against terrorism and extremism’.

“(7) The valiant members of the United States Armed Forces have courageously and vigorously pursued al Qaeda and its affiliates in Afghanistan and around the world.

“(8) The anonymous, unsung heroes of the intelligence community have pursued al Qaeda and affiliates in Afghanistan, Pakistan, and around the world with tremendous dedication, sacrifice, and professionalism.

“(9) The close collaboration between the Armed Forces and the intelligence community prompted the Director of National Intelligence, General James Clapper, to state, ‘Never have I seen a more remarkable example of focused integration, seamless collaboration, and sheer professional magnificence as was demonstrated by the Intelligence Community in the ultimate demise of Osama bin Laden.’

“(10) While the death of Osama bin Laden represents a significant blow to the al Qaeda organization and its affiliates and to terrorist organizations around the world, terrorism remains a critical threat to United States national security.

“(11) President Obama said, ‘For over two decades, bin Laden has been al Qaeda’s leader and symbol, and has continued to plot attacks against our country and our friends and allies. The death of bin Laden marks the most significant achievement to date in our Nation’s effort to defeat al Qaeda.’

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) the raid that killed Osama bin Laden demonstrated the best of the intelligence community’s capabilities and teamwork;

“(2) for years to come, Americans will look back at this event as a defining point in the history of the United States;

“(3) it is vitally important that the United States memorialize all the events that led to the raid so that future generations will have an official record of the events that transpired before, during, and as a result of the operation; and

“(4) preserving this history now will allow the United States to have an accurate account of the events while those that participated in the events are still serving in the Government.

“(c) REPORT ON THE OPERATION THAT KILLED OSAMA BIN LADEN.—Not later than 90 days after the completion of the report being prepared by the Center for the Study of Intelligence that documents the history of and lessons learned from the raid that resulted in the death of Osama bin Laden, the Director of the Central Intelligence Agency shall submit such report to the congressional intelligence committees.

“(d) PRESERVATION OF RECORDS.—The Director of the Central Intelligence Agency shall preserve any records, including intelligence information and assessments, used to generate the report described in subsection (c).”

[For definitions of “intelligence community” and “congressional intelligence committees” as used in section 414 of Pub. L. 112-87, set out above, see section 2 of Pub. L. 112-87, set out as a note under section 3003 of this title.]

DEPARTMENT OF DEFENSE STRATEGY FOR OPEN-SOURCE INTELLIGENCE

Pub. L. 109-163, div. A, title IX, §931, Jan. 6, 2006, 119 Stat. 3411, provided that:

“(a) FINDINGS.—Congress makes the following findings:

“(1) Open-source intelligence (OSINT) is intelligence that is produced from publicly available information and is collected, exploited, and disseminated in a timely manner to an appropriate audience for the purpose of addressing a specific intelligence requirement.

“(2) With the Information Revolution, the amount, significance, and accessibility of open-source information has expanded significantly, but the intelligence community has not expanded its exploitation efforts and systems to produce open-source intelligence.

“(3) The production of open-source intelligence is a valuable intelligence discipline that must be integrated into intelligence tasking, collection, processing, exploitation, and dissemination to ensure that United States policymakers are fully and completely informed.

“(4) The dissemination and use of validated open-source intelligence inherently enables information sharing since open-source intelligence is produced without the use of sensitive sources and methods. Open-source intelligence products can be shared with the American public and foreign allies because of the unclassified nature of open-source intelligence.

“(5) The National Commission on Terrorist Attacks Upon the United States (popularly referred to as the ‘9/11 Commission’), in its final report released on July 22, 2004, identified shortfalls in the ability of the United States to use all-source intelligence, a large component of which is open-source intelligence.

“(6) In the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458) [see Tables for classification], Congress calls for coordination of the collection, analysis, production, and dissemination of open-source intelligence.

“(7) The Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction, in its report to the President released on March 31, 2005, found that ‘the need for exploiting open-source material is greater now than ever before,’ but that ‘the Intelligence Community’s open source programs have not expanded commensurate with either the increase in available information or with the growing importance of open source data to today’s problems’.

“(b) DEPARTMENT OF DEFENSE STRATEGY FOR OPEN-SOURCE INTELLIGENCE.—

“(1) DEVELOPMENT OF STRATEGY.—The Secretary of Defense shall develop a strategy for the purpose of integrating open-source intelligence into the Defense intelligence process. The strategy shall be known as the ‘Defense Strategy for Open-Source Intelligence’. The strategy shall be incorporated within the larger Defense intelligence strategy.

“(2) SUBMISSION.—The Secretary shall submit to Congress a report setting forth the strategy developed under paragraph (1). The report shall be submitted not later than 180 days after the date of the enactment of this Act [Jan. 6, 2006].

“(c) MATTERS TO BE INCLUDED.—The strategy under subsection (b) shall include the following:

“(1) A plan for providing funds over the period of the future-years defense program for the development

of a robust open-source intelligence capability for the Department of Defense, with particular emphasis on exploitation and dissemination.

“(2) A description of how management of the collection of open-source intelligence is currently conducted within the Department of Defense and how that management can be improved.

“(3) A description of the tools, systems, centers, organizational entities, and procedures to be used within the Department of Defense to perform open-source intelligence tasking, collection, processing, exploitation, and dissemination.

“(4) A description of proven tradecraft for effective exploitation of open-source intelligence, to include consideration of operational security.

“(5) A detailed description on how open-source intelligence will be fused with all other intelligence sources across the Department of Defense.

“(6) A description of—

“(A) a training plan for Department of Defense intelligence personnel with respect to open-source intelligence; and

“(B) open-source intelligence guidance for Department of Defense intelligence personnel.

“(7) A plan to incorporate the function of oversight of open-source intelligence—

“(A) into the Office of the Undersecretary of Defense for Intelligence; and

“(B) into service intelligence organizations.

“(8) A plan to incorporate and identify an open-source intelligence specialty into personnel systems of the Department of Defense, including military personnel systems.

“(9) A plan for the use of intelligence personnel of the reserve components to augment and support the open-source intelligence mission.

“(10) A plan for the use of the Open-Source Information System for the purpose of exploitation and dissemination of open-source intelligence.”

A, title IX, §921(g), Nov. 24, 2003, 117 Stat. 1570, provided that: “If the Director of Central Intelligence requests that the Secretary of Defense exercise any authority available to the Secretary under [former] section 1101(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261; 5 U.S.C. 3104 note) to carry out a program of special personnel management authority at the National Geospatial-Intelligence Agency and the National Security Agency in order to facilitate recruitment of eminent experts in science and engineering at such agencies, the Secretary shall respond to such request not later than 30 days after the date of such request.”

REFERENCES IN TEXT

This title, referred to in text, meant, when enacted, title IV of act July 26, 1947, ch. 343, which was added by section 11 of act Aug. 10, 1949, ch. 412, 63 Stat. 585, and which consisted of sections 401 to 411, this section being section 411. Section 11 of act Aug. 10, 1949—except for “§411”—was repealed by Pub. L. 87-651, §307, Sept. 7, 1962, 76 Stat. 526. Although that repeal was executed by repealing title IV of act July 26, 1947 (except for this section), and the subsequent renumbering of section 411 of that Act as section 312 suggests that this section is now within title III, it is unclear whether the reference to “this title” should now be interpreted as referring to title III (classified to this subchapter) or whether it continues to refer to the now eliminated title IV. See Codification note below.

CODIFICATION

When originally enacted, this section was section 411 of title IV of the National Security Act of 1947, act July 26, 1947, ch. 343 (“the Act”). Title IV of the Act, consisting of sections 401 to 411, was added by section 11 of act Aug. 10, 1949, ch. 412, 63 Stat. 585. Provisions of title IV of the Act were restated by Pub. L. 87-651, Sept. 7, 1962, 76 Stat. 506, section 307 of which (at 76 Stat. 526) subsequently repealed section 11 of act Aug. 10, 1949—except for “§411”—but did not repeal any of the sections in title IV directly. Nevertheless, the repeal of section 11, except for “§411”, was executed as a repeal of title IV of the Act, except for this section. There is debate as to whether any of title IV of the Act continued to exist after the repeal such that section 411 re-

¹ See References in Text note below.

mained a part of it or whether all other traces of the title were eliminated completely so that section 411 was effectively absorbed into title III. The subsequent renumbering of section 411 of the Act as section 312 by Pub. L. 116-92 suggests that this section should be considered within title III (as shown in the credit above), although there has been no explicit amendment renumbering the title of the Act containing it.

Section was classified to section 3006 of this title prior to renumbering by Pub. L. 116-92.

Section was formerly classified to section 412 of this title prior to editorial reclassification and renumbering as section 3006, and to section 172j of former Title 5 prior to the general revision and enactment of Title 5, Government Organization and Employees, by Pub. L. 89-554, § 1, Sept. 6, 1966, 80 Stat. 378.

§ 3079. Insider threat policy compliance and reporting

The head of each element of the intelligence community shall—

(1) implement the policy established in accordance with section 3024(f)(8) of this title; and

(2) concurrent with the submission to Congress of budget justification materials in support of the budget of the President for a fiscal year that is submitted to Congress under section 1105(a) of title 31, submit to Congress a certification as to whether the element is in compliance with such policy.

(July 26, 1947, ch. 343, title III, § 313, as added Pub. L. 117-263, div. F, title LXIII, § 6314(b), Dec. 23, 2022, 136 Stat. 3511.)

SUBCHAPTER III—ACCOUNTABILITY FOR INTELLIGENCE ACTIVITIES

§ 3091. General congressional oversight provisions

(a) Reports to congressional committees of intelligence activities and anticipated activities

(1) The President shall ensure that the congressional intelligence committees are kept fully and currently informed of the intelligence activities of the United States, including any significant anticipated intelligence activity as required by this subchapter.

(2) Nothing in this subchapter shall be construed as requiring the approval of the congressional intelligence committees as a condition precedent to the initiation of any significant anticipated intelligence activity.

(b) Reports concerning illegal intelligence activities

The President shall ensure that any illegal intelligence activity is reported promptly to the congressional intelligence committees, as well as any corrective action that has been taken or is planned in connection with such illegal activity.

(c) Procedures for reporting information

The President and the congressional intelligence committees shall each establish such written procedures as may be necessary to carry out the provisions of this subchapter.

(d) Procedures to protect from unauthorized disclosure

The House of Representatives and the Senate shall each establish, by rule or resolution of

such House, procedures to protect from unauthorized disclosure all classified information, and all information relating to intelligence sources and methods, that is furnished to the congressional intelligence committees or to Members of Congress under this subchapter. Such procedures shall be established in consultation with the Director of National Intelligence. In accordance with such procedures, each of the congressional intelligence committees shall promptly call to the attention of its respective House, or to any appropriate committee or committees of its respective House, any matter relating to intelligence activities requiring the attention of such House or such committee or committees.

(e) Construction of authority conferred

Nothing in this chapter shall be construed as authority to withhold information from the congressional intelligence committees on the grounds that providing the information to the congressional intelligence committees would constitute the unauthorized disclosure of classified information or information relating to intelligence sources and methods.

(f) “Intelligence activities” defined

As used in this section, the term “intelligence activities” includes covert actions as defined in section 3093(e) of this title, and includes financial intelligence activities.

(July 26, 1947, ch. 343, title V, § 501, as added Pub. L. 102-88, title VI, § 602(a)(2), Aug. 14, 1991, 105 Stat. 441; amended Pub. (2) In determining whether an activity constitutes a significant undertaking for purposes of paragraph (1), the President shall consider whether the activity—

§ 3097. Budget treatment of costs of acquisition of major systems by the intelligence community

(a) Independent cost estimates

(1) The Director of National Intelligence shall, in consultation with the head of each element of the intelligence community concerned, prepare an independent cost estimate of the full life-cycle cost of development, procurement, and operation of each major system to be acquired by the intelligence community.

(2)(A) Each independent cost estimate for a major system shall, to the maximum extent practicable, specify the amount required to be appropriated and obligated to develop, procure, and operate the major system in each fiscal year of the proposed period of development, procurement, and operation of the major system.

(B) For major system acquisitions requiring a service or capability from another acquisition or

program to deliver the end-to-end functionality for the intelligence community end users, independent cost estimates shall include, to the maximum extent practicable, all estimated costs across all pertinent elements of the intelligence community. For collection programs, such cost estimates shall include the cost of new analyst training, new hardware and software for data exploitation and analysis, and any unique or additional costs for data processing, storing, and power, space, and cooling across the life cycle of the program. If such costs for processing, exploitation, dissemination, and storage are scheduled to be executed in other elements of the intelligence community, the independent cost estimate shall identify and annotate such costs for such other elements accordingly.

(3)(A) In the case of a program of the intelligence community that qualifies as a major system, an independent cost estimate shall be prepared before the submission to Congress of the budget of the President for the first fiscal year in which appropriated funds are anticipated to be obligated for the development or procurement of such major system.

(B) In the case of a program of the intelligence community for which an independent cost estimate was not previously required to be prepared under this section, including a program for which development or procurement commenced before December 13, 2003, if the aggregate future costs of development or procurement (or any combination of such activities) of the program will exceed \$500,000,000 (in current fiscal year dollars), the program shall qualify as a major system for purposes of this section, and an independent cost estimate for such major system shall be prepared before the submission to Congress of the budget of the President for the first fiscal year thereafter in which appropriated funds are anticipated to be obligated for such major system.

(4) The independent cost estimate for a major system shall be updated upon—

(A) the completion of any preliminary design review associated with the major system;

(B) any significant modification to the anticipated design of the major system; or

(C) any change in circumstances that renders the current independent cost estimate for the major system inaccurate.

(5) Any update of an independent cost estimate for a major system under paragraph (4) shall meet all requirements for independent cost estimates under this section, and shall be treated as the most current independent cost estimate for the major system until further updated under that paragraph.

(b) Preparation of independent cost estimates

(1) The Director shall establish within the Office of the Director of National Intelligence for Community Management an office which shall be responsible for preparing independent cost estimates, and any updates thereof, under subsection (a), unless a designation is made under paragraph (2).

(2) In the case of the acquisition of a major system for an element of the intelligence community within the Department of Defense, the Director and the Secretary of Defense shall pro-

vide that the independent cost estimate, and any updates thereof, under subsection (a) be prepared by an entity jointly designated by the Director and the Secretary in accordance with section 2434(b)(1)(A)¹ of title 10.

(c) Utilization in budgets of President

(1) If the budget of the President requests appropriations for any fiscal year for the development or procurement of a major system by the intelligence community, the President shall, subject to paragraph (2), request in such budget an amount of appropriations for the development or procurement, as the case may be, of the major system that is equivalent to the amount of appropriations identified in the most current independent cost estimate for the major system for obligation for each fiscal year for which appropriations are requested for the major system in such budget.

(2) If the amount of appropriations requested in the budget of the President for the development or procurement of a major system is less than the amount of appropriations identified in the most current independent cost estimate for the major system for obligation for each fiscal year for which appropriations are requested for the major system in such budget, the President shall include in the budget justification materials submitted to Congress in support of such budget—

(A) an explanation for the difference between the amount of appropriations requested and the amount of appropriations identified in the most current independent cost estimate;

(B) a description of the importance of the major system to the national security;

(C) an assessment of the consequences for the funding of all programs of the National Intelligence Program in future fiscal years if the most current independent cost estimate for the major system is accurate and additional appropriations are required in future fiscal years to ensure the continued development or procurement of the major system, including the consequences of such funding shortfalls on the major system and all other programs of the National Intelligence Program; and

(D) such other information on the funding of the major system as the President considers appropriate.

(d) Inclusion of estimates in budget justification materials

The budget justification materials submitted to Congress in support of the budget of the President shall include the most current independent cost estimate under this section for each major system for which appropriations are requested in such budget for any fiscal year.

(e) Definitions

In this section:

(1) The term “budget of the President” means the budget of the President for a fiscal year as submitted to Congress under section 1105(a) of title 31.

(2)(A) The term “independent cost estimate” means a pragmatic and neutral analysis, assessment, and quantification of all costs and

risks associated with the development, acquisition, procurement, operation, and sustainment of a major system across its proposed life cycle, which shall be based on programmatic and technical specifications provided by the office within the element of the intelligence community with primary responsibility for the development, procurement, or operation of the major system.

(B) In accordance with subsection (a)(2)(B), each independent cost estimate shall include all costs required across elements of the intelligence community to develop, acquire, procure, operate, and sustain the system to provide the end-to-end intelligence functionality of the system, including—

(i) for collection programs, the cost of new analyst training, new hardware and software for data exploitation and analysis, and any unique or additional costs for data processing, storing, and power, space, and cooling across the life cycle of the program; and

(ii) costs for processing, exploitation, dissemination, and storage scheduled to be executed in other elements of the intelligence community.

(3) The term “major system” means any significant program of an element of the intelligence community with projected total development and procurement costs exceeding \$500,000,000 (based on fiscal year 2010 constant dollars), which costs shall include all end-to-end program costs, including costs associated with the development and procurement of the program and any other costs associated with the development and procurement of systems required to support or utilize the program.

CONGRESSIONAL FINDINGS

Pub. L. 108-177, title III, §312(a), Dec. 13, 2003, 117 Stat. 2606, provided that: “Congress makes the following findings:

“(1) Funds within the National Intelligence Program often must be shifted from program to program and from fiscal year to fiscal year to address funding shortfalls caused by significant increases in the costs of acquisition of major systems by the intelligence community.

“(2) While some increases in the costs of acquisition of major systems by the intelligence community are unavoidable, the magnitude of growth in the costs of acquisition of many major systems indicates a systemic bias within the intelligence community to underestimate the costs of such acquisition, particularly in the preliminary stages of development and production.

“(3) Decisions by Congress to fund the acquisition of major systems by the intelligence community rely significantly upon initial estimates of the affordability of acquiring such major systems and occur within a context in which funds can be allocated for a variety of alternative programs. Thus, substantial increases in costs of acquisition of major systems place significant burdens on the availability of funds for other programs and new proposals within the National Foreign Intelligence Program.

“(4) Independent cost estimates, prepared by independent offices, have historically represented a more accurate projection of the costs of acquisition of major systems.

“(5) Recognizing the benefits associated with independent cost estimates for the acquisition of major systems, the Secretary of Defense has built upon the statutory requirement in [former] section 2434 of title 10, United States Code, to develop and consider independent cost estimates for the acquisition of such systems by mandating the use of such estimates in budget requests of the Department of Defense.

“(6) The mandatory use throughout the intelligence community of independent cost estimates for the acquisition of major systems will assist the President

and Congress in the development and funding of budgets which more accurately reflect the requirements and priorities of the United States Government for intelligence and intelligence-related activities.”

LIMITATIONS ON MAJOR SYSTEM PROCUREMENT, ACQUISITION, AND DEVELOPMENT

Pub. L. 108-177, title III, §312(d), Dec. 13, 2003, 117 Stat. 2609, provided that:

“(1)(A) For each major system for which funds have been authorized for a fiscal year before fiscal year 2005, or for which funds are sought in the budget of the President for fiscal year 2005, as submitted to Congress pursuant to section 1105(a) of title 31, United States Code, and for which no independent cost estimate has been provided to Congress, no contract, or option to contract, for the procurement or acquisition of such major system may be entered into, or option to contract be exercised, before the date of the enactment of an Act to authorize appropriations for fiscal year 2005 for intelligence and intelligence-related activities of the United States Government.

“(B) Subparagraph (A) shall not affect any contract for procurement or acquisition that was entered into before the date of the enactment of this Act [Dec. 13, 2003].

“(2) Commencing as of the date of the submittal to Congress of the budget of the President for fiscal year 2006 pursuant to section 1105(a) of title 31, United States Code, no funds may be obligated or expended for the development or procurement of a major system until the President has complied with the requirements of section 506A of the National Security Act of 1947 (as added by subsection (b)) [50 U.S.C. 3097] with respect to such major system.

“(3) In this subsection, the terms ‘independent cost estimate’ and ‘major system’ have the meaning given such terms in subsection (e) of section 506A of the National Security Act of 1947 (as so added) [50 U.S.C. 3097(e)].”

§ 3102. Critical cost growth in major systems

(a) Reassessment of major system

If the Director of National Intelligence determines under section 3101(d) of this title that the total acquisition cost of a major system has increased by a percentage equal to or greater than the critical cost growth threshold for the major system, the Director shall—

(1) determine the root cause or causes of the critical cost growth, in accordance with applicable statutory requirements, policies, procedures, and guidance; and

(2) carry out an assessment of—

(A) the projected cost of completing the major system if current requirements are not modified;

(B) the projected cost of completing the major system based on reasonable modification of such requirements;

(C) the rough order of magnitude of the costs of any reasonable alternative system or capability; and

(D) the need to reduce funding for other systems due to the growth in cost of the major system.

(b) Presumption of termination

(1) After conducting the reassessment required by subsection (a) with respect to a major system, the Director shall terminate the major system unless the Director submits to Congress a Major System Congressional Report containing a certification in accordance with paragraph (2) and the information described in paragraph (3). The Director shall submit such Major System Congressional Report and certification not later than 90 days after the date the Director receives the relevant major system cost report under subsection (b) or (c) of section 3101 of this title.

(D) the major system is a higher priority than other systems whose funding must be reduced to accommodate the growth in cost of the major system; and

(c) Actions if major system not terminated

If the Director elects not to terminate a major system pursuant to subsection (b), the Director shall—

(1) restructure the major system in a manner that addresses the root cause or causes of the critical cost growth, as identified pursuant to subsection (a), and ensures that the system has an appropriate management structure as set forth in the certification submitted pursuant to subsection (b)(2)(E);

(2) rescind the most recent Milestone approval for the major system;

(3) require a new Milestone approval for the major system before taking any action to enter a new contract, exercise an option under an existing contract, or otherwise extend the scope of an existing contract under the system, except to the extent determined necessary by the Milestone Decision Authority, on a nondelegable basis, to ensure that the system may be restructured as intended by the Director without unnecessarily wasting resources;

(4) establish a revised current Baseline Estimate for the major system based upon an updated cost estimate; and

(5) conduct regular reviews of the major system.

(d) Actions if major system terminated

If a major system is terminated pursuant to subsection (b), the Director shall submit to Congress a written report setting forth—

intelligence committees written notice of the waiver that includes—

(i) the information described in section 3101(f) of this title; and

(ii) if the current total acquisition cost of the major system has increased by a percentage equal to or greater than the critical cost growth threshold—

(I) a determination of the root cause or causes of the critical cost growth, as described in subsection (a)(1); and

(II) a certification that includes the elements described in subparagraphs (A), (B), and (E) of subsection (b)(2).

(B) The Director shall submit the written notice required by subparagraph (A) not later than 90 days after the date that the Director receives a major system cost report under subsection (b) or (c) of section 3101 of this title that indicates that the total acquisition cost for the major system has increased by a percentage equal to or greater than the significant cost growth threshold or critical cost growth threshold.

(c) Search and review for information

Notwithstanding subsection (a) of this section, exempted operational files shall continue to be subject to search and review for information concerning—

Whenever any person who has requested agency records under section 552 of title 5 (Freedom of Information Act), alleges that the Central Intelligence Agency has improperly withheld records because of failure to comply with any provision of this section, judicial review shall be available under the terms set forth in section 552(a)(4)(B) of title 5, except that—

(4)(A) when a complainant alleges that requested records were improperly withheld because of improper exemption of operational files, the Central Intelligence Agency shall meet its burden under section 552(a)(4)(B) of title 5 by demonstrating to the court by sworn written submission that exempted operational files likely to contain responsive records cur-

rently perform the functions set forth in subsection (b) of this section; and

(B) the court may not order the Central Intelligence Agency to review the content of any exempted operational file or files in order to make the demonstration required under subparagraph (A) of this paragraph, unless the complainant disputes the Central Intelligence Agency's showing with a sworn written submission based on personal knowledge or otherwise admissible evidence;

(5) in proceedings under paragraphs (3) and (4) of this subsection, the parties shall not obtain discovery pursuant to rules 26 through 36 of the Federal Rules of Civil Procedure, except that requests for admission may be made pursuant to rules 26 and 36;

§ 3142. Operational files of the National Geospatial-Intelligence Agency

(a) Exemption of certain operational files from search, review, publication, or disclosure

(1) The Director of the National Geospatial-Intelligence Agency, with the coordination of the Director of National Intelligence, may exempt operational files of the National Geospatial-Intelligence Agency from the provisions of section 552 of title 5 which require publication, disclosure, search, or review in connection therewith.

(2)(A) Subject to subparagraph (B), for the purposes of this section, the term “operational files” means files of the National Geospatial-Intelligence Agency (hereafter in this section referred to as “NGA”) concerning the activities of NGA that before the establishment of NGA were performed by the National Photographic Interpretation Center of the Central Intelligence Agency (NPIC), that document the means by which foreign intelligence or counterintelligence is collected through scientific and technical systems.

(B) Files which are the sole repository of disseminated intelligence are not operational files.

(3) Notwithstanding paragraph (1), exempted operational files shall continue to be subject to search and review for information concerning—

(A) United States citizens or aliens lawfully admitted for permanent residence who have requested information on themselves pursuant to the provisions of section 552 or 552a of title 5;

(B) any special activity the existence of which is not exempt from disclosure under the provisions of section 552 of title 5; or

(C) the specific subject matter of an investigation by any of the following for any impro-

(i) The congressional intelligence committees.

(ii) The Intelligence Oversight Board.

(iii) The Department of Justice.

(iv) The Office of General Counsel of NGA.

(v) The Office of the Director of NGA.

(vi) The Office of the Inspector General of the National Geospatial-Intelligence Agency.

(4)(A) Files that are not exempted under paragraph (1) which contain information derived or disseminated from exempted operational files shall be subject to search and review.

(B) The inclusion of information from exempted operational files in files that are not exempted under paragraph (1) shall not affect the exemption under paragraph (1) of the originating operational files from search, review, publication, or disclosure.

(C) Records from exempted operational files which have been disseminated to and referenced in files that are not exempted under paragraph (1) and which have been returned to exempted operational files for sole retention shall be subject to search and review.

(5) The provisions of paragraph (1) may not be superseded except by a provision of law which is enacted after December 3, 1999, and which specifically cites and repeals or modifies its provisions.

(6)(A) Except as provided in subparagraph (B), whenever any person who has requested agency records under section 552 of title 5 alleges that NGA has withheld records improperly because of failure to comply with any provision of this section, judicial review shall be available under the terms set forth in section 552(a)(4)(B) of title 5.

(B) Judicial review shall not be available in the manner provided for under subparagraph (A) as follows:

(i) In any case in which information specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign relations is filed with, or produced for, the court by NGA, such information shall be examined *ex parte*, in camera by the court.

(ii) The court shall, to the fullest extent practicable, determine the issues of fact based on sworn written submissions of the parties.

(iii) When a complainant alleges that requested records are improperly withheld because of improper placement solely in exempted operational files, the complainant shall support such allegation with a sworn written submission based upon personal knowledge or otherwise admissible evidence.

(iv)(I) When a complainant alleges that requested records were improperly withheld because of improper exemption of operational files, NGA shall meet its burden under section 552(a)(4)(B) of title 5 by demonstrating to the court by sworn written submission that exempted operational files likely to contain responsive records currently perform the functions set forth in paragraph (2).

(II) The court may not order NGA to review the content of any exempted operational file

or files in order to make the demonstration required under subclause (I), unless the complainant disputes NGA's showing with a sworn written submission based on personal knowledge or otherwise admissible evidence.

(v) In proceedings under clauses (iii) and (iv), the parties may not obtain discovery pursuant to rules 26 through 36 of the Federal Rules of Civil Procedure, except that requests for admissions may be made pursuant to rules 26 and 36.

(vi) If the court finds under this paragraph that NGA has improperly withheld requested records because of failure to comply with any provision of this subsection, the court shall order NGA to search and review the appropriate exempted operational file or files for the requested records and make such records, or portions thereof, available in accordance with the provisions of section 552 of title 5, and such order shall be the exclusive remedy for failure to comply with this subsection.

(vii) If at any time following the filing of a complaint pursuant to this paragraph NGA agrees to search the appropriate exempted operational file or files for the requested records, the court shall dismiss the claim based upon such complaint.

(viii) Any information filed with, or produced for the court pursuant to clauses (i) and (iv) shall be coordinated with the Director of National Intelligence prior to submission to the court.

(b) Decennial review of exempted operational files

(1) Not less than once every 10 years, the Director of the National Geospatial-Intelligence Agency and the Director of National Intelligence shall review the exemptions in force under subsection (a)(1) to determine whether such exemptions may be removed from the category of exempted files or any portion thereof. The Director of National Intelligence must approve any determination to remove such exemptions.

(2) The review required by paragraph (1) shall include consideration of the historical value or other public interest in the subject matter of the particular category of files or portions thereof and the potential for declassifying a significant part of the information contained therein.

(3) A complainant that alleges that NGA has improperly withheld records because of failure to comply with this subsection may seek judicial review in the district court of the United States of the district in which any of the parties reside, or in the District of Columbia. In such a proceeding, the court's review shall be limited to determining the following:

(A) Whether NGA has conducted the review required by paragraph (1) before the expiration of the 10-year period beginning on December 3, 1999, or before the expiration of the 10-year period beginning on the date of the most recent review.

(B) Whether NGA, in fact, considered the criteria set forth in paragraph (2) in conducting the required review.

NOW, THEREFORE, under and by virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States and as Commander in Chief of the armed forces of the United States, it is hereby ordered as follows:

SECTION 1. When used in this order, the term "head of a department" means the Secretary of State, the Secretary of Defense, the Secretary of Transportation, the Secretary of Energy, the Secretary of Homeland Security, the Nuclear Regulatory Commission, the Administrator of the National Aeronautics and Space Administration, and, in section 4, the Attorney General. (1) A written statement of the reasons why his access authorization may be denied or revoked, which shall be as comprehensive and detailed as the national security permits.

(2) A reasonable opportunity to reply in writing under oath or affirmation to the statement of reasons.

(3) After he has filed under oath or affirmation a written reply to the statement of reasons, the form and sufficiency of which may be prescribed by regulations issued by the head of the department concerned, an opportunity to appear personally before the head of the department concerned or his designee including, but not limited to, those officials named in section 8 of this order for the purpose of supporting his eligibility for access authorization and to present evidence on his behalf.

(4) A reasonable time to prepare for that appearance.

(6) An opportunity to cross-examine persons either orally or through written interrogatories in accordance with section 4 on matters not relating to the characterization in the statement of reasons of any organization or individual other than the applicant.

(7) A written notice of the final decision in his case which, if adverse, shall specify whether the head of the department or his designee, including, but not limited to, those officials named in section 8 of this order, found for or against him with respect to each allegation in the statement of reasons.

SEC. 4. (a) An applicant shall be afforded an opportunity to cross-examine persons who have made oral or written statements adverse to the applicant relating to a controverted issue except that any such statement may be received and considered without affording such opportunity in the circumstances described in either of the following paragraphs:

(1) The head of the department supplying the statement certifies that the person who furnished the information is a confidential informant who has been engaged in obtaining intelligence information for the Government and that disclosure of his identity would be substantially harmful to the national interest.

(2) The head of the department concerned or his special designee for that particular purpose has preliminarily determined, after considering information furnished by the investigative agency involved as to the reliability of the person and the accuracy of the statement concerned, that the statement concerned appears to be reliable and material, and the head of the department or such special designee has determined that failure to receive and consider such statement would, in view of the level of access sought, be substantially harmful to the national security and that the person who furnished the information cannot appear to testify (A) due to death, severe illness, or similar cause, in which case the identity of the person and the information to be considered shall be made available to the applicant, or (B) due to some other cause determined by the head of the department to be good and sufficient.

(b) Whenever procedures under paragraphs (1) or (2) of subsection (a) of this section are used (1) the applicant shall be given a summary of the information which shall be as comprehensive and detailed as the national security permits, (2) appropriate consideration shall be accorded to the fact that the applicant did not have an opportunity to cross-examine such person or persons, and (3) a final determination adverse to the applicant shall be made only by the head of the department based upon his personal review of the case.

SEC. 5. (a) Records compiled in the regular course of business, or other physical evidence other than investigative reports, may be received and considered subject to rebuttal without authenticating witnesses, provided that such information has been furnished to the department concerned by an investigative agency pursuant to its responsibilities in connection with assisting the head of the department concerned to safeguard classified information within industry pursuant to this order.

(b) Records compiled in the regular course of business, or other physical evidence other than investigative reports, relating to a controverted issue which, because they are classified, may not be inspected by the applicant, may be received and considered provided that: (1) the head of the department concerned or his special designee for that purpose has made a preliminary determination that such physical evidence appears to be material, (2) the head of the department concerned or such designee has made a determination that failure to receive and consider such physical evidence would, in view of the level of access sought, be substantially harmful to the national security, and (3) to the extent that the national security permits, a summary or description of such physical evidence is made available to the applicant. In every such case, information as to the authenticity and accuracy of such physical evidence furnished by the investigative agency involved shall be considered. In such instances a final determination adverse to the applicant shall be made only by the head of the department based upon his personal review of the case.

SEC. 6. The head of a department of the United States or his representative, may issue, in appropriate cases, invitations and requests to appear and testify in order that the applicant may have the opportunity to cross-examine as provided by this order. Whenever a witness is so invited or requested to appear and testify at a proceeding and the witness is an officer or employee of the executive branch of the Government or a member of

the armed forces of the United States, and the proceeding involves the activity in connection with which the witness is employed, travel expenses and per diem are authorized as provided by the Standardized Government Travel Regulations or the Joint Travel Regulations, as appropriate. In all other cases (including non-Government employees as well as officers or employees of the executive branch of the Government or members of the armed forces of the United States not covered by the foregoing sentence), transportation in kind and reimbursement for actual expenses are authorized in an amount not to exceed the amount payable under Standardized Government Travel Regulations. An officer or employee of the executive branch of the Government or a member of the armed forces of the United States who is invited or requested to appear pursuant to this paragraph shall be deemed to be in the performance of his official duties. So far as the national security permits, the head of the investigative agency involved shall cooperate with the Secretary, the Administrator, or the head of the other department or agency, as the case may be, in identifying persons who have made statements adverse to the applicant and in assisting him in making them available for cross-examination. If a person so invited is an officer or employee of the executive branch of the government or a member of the armed forces of the United States, the head of the department or agency concerned shall cooperate in making that person available for cross-examination.

SEC. 7. Any determination under this order adverse to an applicant shall be a determination in terms of the national interest and shall in no sense be a determination as to the loyalty of the applicant concerned.

SEC. 8. Except as otherwise specified in the preceding provisions of this order, any authority vested in the head of a department by this order may be delegated to the [sic] deputy of that department, or the principal assistant to the head of that department, as the case may be.

SEC. 9. Nothing contained in this order shall be deemed to limit or affect the responsibility and powers of the head of a department to deny or revoke access to a specific classification category if the security of the nation so requires. Such authority may not be delegated and may be exercised only when the head of a department determines that the procedures prescribed in sections 3, 4, and 5 cannot be invoked consistently with the national security and such determination shall be conclusive.

The effectiveness of the Agreement depends significantly upon the provision and exchange of information and material by participants in advisory bodies created by the International Energy Agency. Confidentiality is essential to assure the free and open discussion necessary to accomplish the tasks assigned to those bodies. I have consulted with the Secretary of State, the Attorney General and the Administrator of the Federal Energy Administration concerning the handling and safeguarding of information and material in the possession of the United States which has been obtained pursuant to the program, and I find that some of such information and material requires protection as provided in Executive Order No. 11652 of March 8, 1972, as amended [formerly set out above].

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States, it is hereby ordered as follows:

SECTION 1. Information and material obtained pursuant to the International Energy Program and which requires protection against unauthorized disclosure in the interest of the national defense or foreign relations of the United States shall be classified pursuant to Executive Order No. 11652 of March 8, 1972, as amended [formerly set out above]. The Secretary of State shall have the responsibility for the classification, declassification and safeguarding of information and material in the possession of the United States Government which has been obtained pursuant to:

(a) Section 252(c)(3), (d)(2), or (e)(3) of the Energy Policy and Conservation Act (89 Stat. 871; 42 U.S.C. 6272(c)(3), (d)(2), (e)(3)), or

(b) The Voluntary Agreement and Program relating to the International Energy Program (40 F.R. 16041, April 8, 1975), or

(c) Any similar Voluntary Agreement and Program entered into under the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.] after the date of this Order.

SEC. 2. Information or material classified pursuant to Section 1 of this Order may be exempted from the General Declassification Schedule established by Section 5 of Executive Order No. 11652 [formerly set out above] if it was obtained by the United States on the understanding that it be kept in confidence, or if it might otherwise be exempted under Section 5(B) of such Order.

SEC. 3. (a) Within 60 days of the date of this Order, the Secretary of State shall promulgate regulations which implement his responsibilities under this Order.

(b) The directives issued under Section 6 of Executive Order No. 11652 [formerly set out above] shall not apply to information and material classified under this Order. However, the regulations promulgated by the Secretary of State shall:

(1) conform, to the extent practicable, to the policies set forth in Section 6 of Executive Order No. 11652 [formerly set out above], and

(2) provide that he may take such measures as he deems necessary and appropriate to ensure the confidentiality of any information and material classified under this Order that may remain in the custody or control of any person outside the United States Government.

Ex. Ord. No. 12812, July 22, 1992, 57 F.R. 32879, provided:

WHEREAS, the Senate, by S. Res. 324 of July 2, 1992, has asked that I “expeditiously issue an Executive order requiring all executive branch departments and agencies to declassify and publicly release without compromising United States national security all documents, files, and other materials pertaining to POWs and MIAs;” and

SEC. 3. This order is not intended to create any right or benefit, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

EX. ORD. NO. 12829. NATIONAL INDUSTRIAL SECURITY PROGRAM

Ex. Ord. No. 12829, Jan. 6, 1993, 58 F.R. 3479, as amended by Ex. Ord. No. 12885, Dec. 14, 1993, 58 F.R. 65863; Ex. Ord. No. 13691, §6, Feb. 13, 2015, 80 F.R. 9351; Ex. Ord. No. 13708, §4, Sept. 30, 2015, 80 F.R. 60273, provided:

This order establishes a National Industrial Security Program to safeguard Federal Government classified information that is released to contractors, licensees, and grantees of the United States Government. To promote our national interests, the United States Government issues contracts, licenses, and grants to non-government organizations. When these arrangements require access to classified information, the national security requires that this information be safeguarded in a manner equivalent to its protection within the executive branch of Government. The national security

also requires that our industrial security program promote the economic and technological interests of the United States. Redundant, overlapping, or unnecessary requirements impede those interests. Therefore, the National Industrial Security Program shall serve as a single, integrated, cohesive industrial security program to protect classified information and to preserve our Nation’s economic and technological interests.

Therefore, by the authority vested in me as President by the Constitution and the laws of the United States of America, including the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011–2286) [42 U.S.C. 2011 et seq.], the National Security Act of 1947, as amended (codified as amended in scattered sections of the United States Code) [50 U.S.C. 3001 et seq.], the Intelligence Reform and Terrorism Prevention Act of 2004 [Pub. L. 108–458, see Tables for classification], and the Federal Advisory Committee Act, as amended ([former] 5 U.S.C. App. 2) [see 5 U.S.C. 1001 et seq.], it is hereby ordered as follows:

PART 1. ESTABLISHMENT AND POLICY

SECTION 101. *Establishment.* (a) There is established a National Industrial Security Program. The purpose of this program is to safeguard classified information that may be released or has been released to current, prospective, or former contractors, licensees, or grantees of United States agencies. For the purposes of this order, the terms “contractor, licensee, or grantee” means current, prospective, or former contractors, licensees, or grantees of United States agencies. The National Industrial Security Program shall be applicable to all executive branch departments and agencies.

(b) The National Industrial Security Program shall provide for the protection of information classified pursuant to Executive Order 13526 of December 29, 2009 [set out below], or any predecessor or successor order, and the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 et seq.).

(c) For the purposes of this order, the term “contractor” does not include individuals engaged under personal services contracts.

SEC. 102. *Policy Direction.* (a) The National Security Council shall provide overall policy direction for the National Industrial Security Program.

(b) In consultation with the National Security Advisor, the Director of the Information Security Oversight Office, in accordance with Executive Order 13526 of December 29, 2009, shall be responsible for implementing and monitoring the National Industrial Security Program and shall:

(1) develop, in consultation with the agencies, and promulgate subject to the approval of the National Security Council, directives for the implementation of this order, which shall be binding on the agencies;

(2) oversee agency, contractor, licensee, and grantee actions to ensure compliance with this order and implementing directives;

(3) review all agency implementing regulations, internal rules, or guidelines. The Director shall require any regulation, rule, or guideline to be changed if it is not consistent with this order or implementing directives. Any such decision by the Director may be appealed to the National Security Council. The agency regulation, rule, or guideline shall remain in effect pending a prompt decision on the appeal;

(4) have the authority, pursuant to terms of applicable contracts, licenses, grants, or regulations, to conduct on-site reviews of the implementation of the National Industrial Security Program by each agency, contractor, licensee, and grantee that has access to or stores classified information and to require of each agency, contractor, licensee, and grantee those reports, information, and other cooperation that may be necessary to fulfill the Director’s responsibilities. If these reports, inspections, or access to specific classified information, or other forms of cooperation, would pose an exceptional national security risk, the affected agency head or the senior official designated under section 203(a) of this order may request the National Security

Council to deny access to the Director. The Director shall not have access pending a prompt decision by the National Security Council;

(5) report any violations of this order or its implementing directives to the head of the agency or to the senior official designated under section 203(a) of this order so that corrective action, if appropriate, may be taken. Any such report pertaining to the implementation of the National Industrial Security Program by a contractor, licensee, or grantee shall be directed to the agency that is exercising operational oversight over the contractor, licensee, or grantee under section 202 of this order;

(6) consider and take action on complaints and suggestions from persons within or outside the Government with respect to the administration of the National Industrial Security Program;

(7) consider, in consultation with the advisory committee established by this order, affected agencies, contractors, licensees, and grantees, and recommend to the President through the National Security Council changes to this order; and

(8) report at least annually to the President through the National Security Council on the implementation of the National Industrial Security Program.

(c) Nothing in this order shall be construed to supersede the authority of the Secretary of Energy or the Nuclear Regulatory Commission under the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 *et seq.*), or the authority of the Director of National Intelligence (or any Intelligence Community element) under the Intelligence Reform and Terrorism Prevention Act of 2004 [Pub. L. 108-458, see Tables for classification], the National Security Act of 1947, as amended [50 U.S.C. 3001 *et seq.*], or Executive Order 12333 of December 8, 1981 [50 U.S.C. 3001 note], as amended, or the authority of the Secretary of Homeland Security, as the Executive Agent for the Classified National Security Information Program established under Executive Order 13549 of August 18, 2010 (Classified National Security Information Program for State, Local, Tribal, and Private Sector Entities) [set out below].

SEC. 103. *National Industrial Security Program Policy Advisory Committee.* (a) *Establishment.* There is established the National Industrial Security Program Policy Advisory Committee ("Committee"). The Director of the Information Security Oversight Office shall serve as Chairman of the Committee and appoint the members of the Committee. The members of the Committee shall be the representatives of those departments and agencies most affected by the National Industrial Security Program and nongovernment representatives of contractors, licensees, or grantees involved with classified contracts, licenses, or grants, as determined by the Chairman.

(b) *Functions.* (1) The Committee members shall advise the Chairman of the Committee on all matters concerning the policies of the National Industrial Security Program, including recommended changes to those policies as reflected in this order, its implementing directives, or the operating manual established under this order, and serve as a forum to discuss policy issues in dispute.

(2) The Committee shall meet at the request of the Chairman, but at least twice during the calendar year.

(c) *Administration.* (1) Members of the Committee shall serve without compensation for their work on the Committee. However, nongovernment members may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the Government service (5 U.S.C. 5701-5707).

(2) To the extent permitted by law and subject to the availability of funds, the National Archives and Records Administration shall provide the Committee with administrative services, facilities, staff, and other support services necessary for the performance of its functions.

(d) *General.* Notwithstanding any other Executive order, the functions of the President under the Federal

Advisory Committee Act, as amended [see 5 U.S.C. 1001 *et seq.*], except that of reporting to the Congress, which are applicable to the Committee, shall be performed by the the [sic] Archivist of the United States in accordance with the guidelines and procedures established by the General Services Administration.

PART 2. OPERATIONS

SEC. 201. *National Industrial Security Program Operating Manual.* (a) The Secretary of Defense, in consultation with all affected agencies and with the concurrence of the Secretary of Energy, the Nuclear Regulatory Commission, the Director of National Intelligence, and the Secretary of Homeland Security, shall issue and maintain a National Industrial Security Program Operating Manual (Manual). The Secretary of Energy and the Nuclear Regulatory Commission shall prescribe and issue that portion of the Manual that pertains to information classified under the Atomic Energy Act of 1954, as amended (42 U.S.C. 2011 *et seq.*). The Director of National Intelligence shall prescribe and issue that portion of the Manual that pertains to intelligence sources and methods, including Sensitive Compartmented Information. The Secretary of Homeland Security shall prescribe and issue that portion of the Manual that pertains to classified information shared under a designated critical infrastructure protection program.

(b) The Manual shall prescribe specific requirements, restrictions, and other safeguards that are necessary to preclude unauthorized disclosure and control authorized disclosure of classified information to contractors, licensees, or grantees. The Manual shall apply to the release of classified information during all phases of the contracting process including bidding, negotiation, award, performance, and termination of contracts, the licensing process, or the grant process, with or under the control of departments or agencies.

(c) The Manual shall also prescribe requirements, restrictions, and other safeguards that are necessary to protect special classes of classified information, including Restricted Data, Formerly Restricted Data, intelligence sources and methods information, Sensitive Compartmented Information, and Special Access Program information.

(d) The Manual shall also prescribe arrangements necessary to permit and enable secure sharing of classified information under a designated critical infrastructure protection program to such authorized individuals and organizations as determined by the Secretary of Homeland Security.

(e) In establishing particular requirements, restrictions, and other safeguards within the Manual, the Secretary of Defense, the Secretary of Energy, the Nuclear Regulatory Commission, the Director of National Intelligence, and the Secretary of Homeland Security shall take into account these factors: (i) the damage to the national security that reasonably could be expected to result from an unauthorized disclosure; (ii) the existing or anticipated threat to the disclosure of information; and (iii) the short- and long-term costs of the requirements, restrictions, and other safeguards.

(f) To the extent that is practicable and reasonable, the requirements, restrictions, and safeguards that the Manual establishes for the protection of classified information by contractors, licensees, and grantees shall be consistent with the requirements, restrictions, and safeguards that directives implementing Executive Order 13526 of December 29, 2009 [set out below], or any successor order, or the Atomic Energy Act of 1954, as amended, establish for the protection of classified information by agencies. Upon request by the Chairman of the Committee, the Secretary of Defense shall provide an explanation and justification for any requirement, restriction, or safeguard that results in a standard for the protection of classified information by contractors, licensees, and grantees that differs from the standard that applies to agencies.

SEC. 202. *Operational Oversight.* (a) The Secretary of Defense shall serve as Executive Agent for inspecting

and monitoring the contractors, licensees, and grantees who require or will require access to, or who store or will store classified information; and for determining the eligibility for access to classified information of contractors, licensees, and grantees and their respective employees. The heads of agencies shall enter into agreements with the Secretary of Defense that establish the terms of the Secretary's responsibilities on behalf of these agency heads.

(b) The Director of National Intelligence retains authority over access to intelligence sources and methods, including Sensitive Compartmented Information. The Director of National Intelligence may inspect and monitor contractor, licensee, and grantee programs and facilities that involve access to such information or may enter into written agreements with the Secretary of Defense, as Executive Agent, or with the Director of the Central Intelligence Agency to inspect and monitor these programs or facilities, in whole or in part, on the Director's behalf.

(c) The Secretary of Energy and the Nuclear Regulatory Commission retain authority over access to information under their respective programs classified under the Atomic Energy Act of 1954, as amended [42 U.S.C. 2011 et seq.]. The Secretary or the Commission may inspect and monitor contractor, licensee, and grantee programs and facilities that involve access to such information or may enter into written agreements with the Secretary of Defense, as Executive Agent, to inspect and monitor these programs or facilities, in whole or in part, on behalf of the Secretary or the Commission, respectively.

(d) The Secretary of Homeland Security may determine the eligibility for access to Classified National Security Information of contractors, licensees, and grantees and their respective employees under a designated critical infrastructure protection program, including parties to agreements with such program; the Secretary of Homeland Security may inspect and monitor contractor, licensee, and grantee programs and facilities or may enter into written agreements with the Secretary of Defense, as Executive Agent, or with the Director of the Central Intelligence Agency, to inspect and monitor these programs or facilities in whole or in part, on behalf of the Secretary of Homeland Security.

(e) The Executive Agent shall have the authority to issue, after consultation with affected agencies, standard forms or other standardization that will promote the implementation of the National Industrial Security Program.

SEC. 203. *Implementation.* (a) The head of each agency that enters into classified contracts, licenses, or grants shall designate a senior agency official to direct and administer the agency's implementation and compliance with the National Industrial Security Program.

(b) Agency implementing regulations, internal rules, or guidelines shall be consistent with this order, its implementing directives, and the Manual. Agencies shall issue these regulations, rules, or guidelines no later than 180 days from the issuance of the Manual. They may incorporate all or portions of the Manual by reference.

(c) Each agency head or the senior official designated under paragraph (a) above shall take appropriate and prompt corrective action whenever a violation of this order, its implementing directives, or the Manual occurs.

(d) The senior agency official designated under paragraph (a) above shall account each year for the costs within the agency associated with the implementation of the National Industrial Security Program. These costs shall be reported to the Director of the Information Security Oversight Office, who shall include them in the reports to the President prescribed by this order.

(e) The Secretary of Defense, with the concurrence of the Administrator of General Services, the Administrator of the National Aeronautics and Space Administration, and such other agency heads or officials who may be responsible, shall amend the Federal Acquisition Regulation to be consistent with the implementation of the National Industrial Security Program.

(f) All contracts, licenses, or grants that involve access to classified information and that are advertised or proposed following the issuance of agency regulations, rules, or guidelines described in paragraph (b) above shall comply with the National Industrial Security Program. To the extent that is feasible, economical, and permitted by law, agencies shall amend, modify, or convert preexisting contracts, licenses, or grants, or previously advertised or proposed contracts, licenses, or grants, that involve access to classified information for operation under the National Industrial Security Program. Any direct inspection or monitoring of contractors, licensees, or grantees specified by this order shall be carried out pursuant to the terms of a contract, license, grant, or regulation.

(g) [Amended Ex. Ord. No. 10865, set out above.]

(h) All delegations, rules, regulations, orders, directives, agreements, contracts, licenses, and grants issued under preexisting authorities, including section 1(a) and (b) of Executive Order No. 10865 of February 20, 1960, as amended, by Executive Order No. 10909 of January 17, 1961, and Executive Order No. 11382 of November 27, 1967, shall remain in full force and effect until amended, modified, or terminated pursuant to authority of this order.

(i) This order shall be effective immediately.

SEC. 4. *Definition.* As used herein, "imagery" means the product acquired by space-based national intelligence reconnaissance systems that provides a likeness or representation of any natural or man-made feature or related objective or activities and satellite positional data acquired at the same time the likeness or representation was acquired.

EX. ORD. NO. 12968. ACCESS TO CLASSIFIED INFORMATION

Ex. Ord. No. 12968, Aug. 2, 1995, 60 F.R. 40245, as amended by Ex. Ord. No. 13467, §3(b), June 30, 2008, 73 F.R. 38107; Ex. Ord. No. 13764, §3(v), Jan. 17, 2017, 82 F.R. 8128, provided:

The national interest requires that certain information be maintained in confidence through a system of classification in order to protect our citizens, our democratic institutions, and our participation within the community of nations. The unauthorized disclosure of information classified in the national interest can cause irreparable damage to the national security and loss of human life.

Security policies designed to protect classified information must ensure consistent, cost effective, and efficient protection of our Nation's classified information, while providing fair and equitable treatment to those Americans upon whom we rely to guard our national security.

This order establishes a uniform Federal personnel security program for employees who will be considered for initial or continued access to classified information.

NOW, THEREFORE, by the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SEC. 1.2. Access to Classified Information. (a) No employee shall be granted access to classified information unless that employee has been determined to be eligi-

ble in accordance with this order and to possess a need-to-know.

(b) Agency heads shall be responsible for establishing and maintaining an effective program to ensure that access to classified information by each employee is clearly consistent with the interests of the national security.

(c) Employees shall not be granted access to classified information unless they:

(1) have been determined to be eligible for access under section 3.1 of this order by agency heads or designated officials based upon a favorable adjudication of an appropriate investigation of the employee's background;

(2) have a demonstrated need-to-know; and

(3) have signed an approved nondisclosure agreement.

(d) All employees shall be subject to investigation by an appropriate government authority prior to being granted access to classified information and at any time during the period of access to ascertain whether they continue to meet the requirements for access.

(e)(1) All employees granted access to classified information shall be required as a condition of such access to provide to the employing agency written consent permitting access by an authorized investigative agency, for such time as access to classified information is maintained and for a period of 3 years thereafter, to:

(A) relevant financial records that are maintained by a financial institution as defined in 31 U.S.C. 5312(a) or by a holding company as defined in section 1101(6) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3401[(6)]);

(C) records maintained by commercial entities within the United States pertaining to any travel by the employee outside the United States.

(2) Information may be requested pursuant to employee consent under this section where:

(A) there are reasonable grounds to believe, based on credible information, that the employee or former employee is, or may be, disclosing classified information in an unauthorized manner to a foreign power or agent of a foreign power;

(B) information the employing agency deems credible indicates the employee or former employee has incurred excessive indebtedness or has acquired a level of affluence that cannot be explained by other information; or

(C) circumstances indicate the employee or former employee had the capability and opportunity to disclose classified information that is known to have been lost or compromised to a foreign power or an agent of a foreign power.

(3) Nothing in this section shall be construed to affect the authority of an investigating agency to obtain information pursuant to the Right to Financial Privacy Act [of 1978, 12 U.S.C. 3401 et seq.], the Fair Credit Reporting Act [15 U.S.C. 1681 et seq.] or any other applicable law.

SEC. 1.3. Financial Disclosure. (a) Not later than 180 days after the effective date of this order, the head of each agency that originates, handles, transmits, or possesses classified information shall designate each employee, by position or category where possible, who has a regular need for access to classified information that, in the discretion of the agency head, would reveal:

(1) the identity of covert agents as defined in the Intelligence Identities Protection Act of 1982 (50 U.S.C. 421 [sic] [et seq.]) [now 50 U.S.C. 3121 et seq.];

(2) technical or specialized national intelligence collection and processing systems that, if disclosed in an unauthorized manner, would substantially negate or impair the effectiveness of the system;

(3) the details of:

(A) the nature, contents, algorithm, preparation, or use of any code, cipher, or cryptographic system or;

(B) the design, construction, functioning, maintenance, or repair of any cryptographic equipment; but

not including information concerning the use of cryptographic equipment and services;

(4) particularly sensitive special access programs, the disclosure of which would substantially negate or impair the effectiveness of the information or activity involved; or

(5) especially sensitive nuclear weapons design information (but only for those positions that have been certified as being of a high degree of importance or sensitivity, as described in section 145(f) of the Atomic Energy Act of 1954, as amended [42 U.S.C. 2165(f)]).

(b) An employee may not be granted access, or hold a position designated as requiring access, to information described in subsection (a) unless, as a condition of access to such information, the employee:

(1) files with the head of the agency a financial disclosure report, including information with respect to the spouse and dependent children of the employee, as part of all background investigations or reinvestigations;

(2) is subject to annual financial disclosure requirements, if selected by the agency head; and

(3) files relevant information concerning foreign travel, as determined by the Security Executive Agent.

(c) Not later than 180 days after the effective date of this order, the Security Executive Agent shall develop procedures for the implementation of this section, including a standard financial disclosure form for use by employees under subsection (b) of this section, and agency heads shall identify certain employees, by position or category, who are subject to annual financial disclosure.

SEC. 1.4. Use of Automated Financial Record Data Bases. As part of all investigations and reinvestigations described in section 1.2(d) of this order, agencies may request the Department of the Treasury, under terms and conditions prescribed by the Secretary of the Treasury, to search automated data bases consisting of reports of currency transactions by financial institutions, international transportation of currency or monetary instruments, foreign bank and financial accounts, transactions under \$10,000 that are reported as possible money laundering violations, and records of foreign travel.

SEC. 1.5. Employee Education and Assistance. The head of each agency that grants access to classified information shall establish a program for employees with access to classified information to: (a) educate employees about individual responsibilities under this order; and

(b) inform employees about guidance and assistance available concerning issues that may affect their eligibility for access to classified information, including sources of assistance for employees who have questions or concerns about financial matters, mental health, or substance abuse.

PART 2—ACCESS ELIGIBILITY POLICY AND PROCEDURE

SEC. 2.1. Eligibility Determinations. (a) Determinations of eligibility for access to classified information shall be based on criteria established under this order. Such determinations are separate from suitability determinations with respect to the hiring or retention of persons for employment by the government or any other personnel actions.

(b) The number of employees that each agency determines are eligible for access to classified information shall be kept to the minimum required for the conduct of agency functions.

(1) Eligibility for access to classified information shall not be requested or granted solely to permit entry to, or ease of movement within, controlled areas when the employee has no need for access and access to classified information may reasonably be prevented. Where circumstances indicate employees may be inadvertently exposed to classified information in the course of their duties, agencies are authorized to grant or deny, in their discretion, facility access approvals to such employees based on an appropriate level of investigation as determined by each agency.

(2) Except in agencies where eligibility for access is a mandatory condition of employment, eligibility for access to classified information shall only be requested or granted based on a demonstrated, foreseeable need for access. Requesting or approving eligibility in excess of actual requirements is prohibited.

(3) Eligibility for access to classified information may be granted where there is a temporary need for access, such as one-time participation in a classified project, provided the investigative standards established under this order have been satisfied. In such cases, a fixed date or event for expiration shall be identified and access to classified information shall be limited to information related to the particular project or assignment.

(4) Access to classified information shall be terminated when an employee no longer has a need for access.

SEC. 2.2. Level of Access Approval. (a) The level at which an access approval is granted for an employee shall be limited, and relate directly, to the level of classified information for which there is a need for access. Eligibility for access to a higher level of classified information includes eligibility for access to information classified at a lower level.

(b) Access to classified information relating to a special access program shall be granted in accordance with procedures established by the head of the agency that created the program or, for programs pertaining to intelligence activities (including special activities but not including military operational, strategic, and tactical programs) or intelligence sources and methods, by the Director of Central Intelligence. To the extent possible and consistent with the national security interests of the United States, such procedures shall be consistent with the standards and procedures established by and under this order.

SEC. 2.3. Temporary Access to Higher Levels. (a) An employee who has been determined to be eligible for access to classified information based on favorable adjudication of a completed investigation may be granted temporary access to a higher level where security personnel authorized by the agency head to make access eligibility determinations find that such access:

(1) is necessary to meet operational or contractual exigencies not expected to be of a recurring nature;

(2) will not exceed 180 days; and

(3) is limited to specific, identifiable information that is made the subject of a written access record.

(b) Where the access granted under subsection (a) of this section involves another agency's classified information, that agency must concur before access to its information is granted.

SEC. 2.4. Reciprocal Acceptance of Access Eligibility Determinations. (a) Except when an agency has substantial information indicating that an employee may not satisfy the standards in section 3.1 of this order, background investigations and eligibility determinations conducted under this order shall be mutually and reciprocally accepted by all agencies.

(b) Except where there is substantial information indicating that the employee may not satisfy the standards in section 3.1 of this order, an employee with existing access to a special access program shall not be denied eligibility for access to another special access program at the same sensitivity level as determined personally by the agency head or deputy agency head, or have an existing access eligibility readjudicated, so long as the employee has a need for access to the information involved.

(c) This section shall not preclude agency heads from establishing additional, but not duplicative, investigative or adjudicative procedures for a special access program or for candidates for detail or assignment to their agencies, where such procedures are required in exceptional circumstances to protect the national security.

(d) Where temporary eligibility for access is granted under sections 2.3 or 3.3 of this order or where the determination of eligibility for access is conditional, the fact of such temporary or conditional access shall be

conveyed to any other agency that considers affording the employee access to its information.

SEC. 2.5. *Specific Access Requirement.* (a) Employees who have been determined to be eligible for access to classified information shall be given access to classified information only where there is a need-to-know that information.

(b) It is the responsibility of employees who are authorized holders of classified information to verify that a prospective recipient's eligibility for access has been granted by an authorized agency official and to ensure that a need-to-know exists prior to allowing such access, and to challenge requests for access that do not appear well-founded.

SEC. 2.6. *Access by Non-United States Citizens.* (a) Where there are compelling reasons in furtherance of an agency mission, immigrant alien and foreign national employees who possess a special expertise may, in the discretion of the agency, be granted limited access to classified information only for specific programs, projects, contracts, licenses, certificates, or grants for which there is a need for access. Such individuals shall not be eligible for access to any greater level of classified information than the United States Government has determined may be releasable to the country of which the subject is currently a citizen, and such limited access may be approved only if the prior 10 years of the subject's life can be appropriately investigated. If there are any doubts concerning granting access, additional lawful investigative procedures shall be fully pursued.

(b) Exceptions to these requirements may be permitted only by the agency head or the senior agency official designated under section 6.1 of this order to further substantial national security interests.

PART 3—ACCESS ELIGIBILITY STANDARDS

SEC. 3.1. *Standards.* (a) No employee shall be deemed to be eligible for access to classified information merely by reason of Federal service or contracting, licensee, certificate holder, or grantee status, or as a matter of right or privilege, or as a result of any particular title, rank, position, or affiliation.

(b) Except as provided in sections 2.6 and 3.3 of this order, eligibility for access to classified information shall be granted only to employees who are United States citizens for whom an appropriate investigation has been completed and whose personal and professional history affirmatively indicates loyalty to the United States, strength of character, trustworthiness, honesty, reliability, discretion, and sound judgment, as well as freedom from conflicting allegiances and potential for coercion, and willingness and ability to abide by regulations governing the use, handling, and protection of classified information. A determination of eligibility for access to such information is a discretionary security decision based on judgments by appropriately trained adjudicative personnel or appropriate automated procedures. Eligibility shall be granted only where facts and circumstances indicate access to classified information is clearly consistent with the national security interests of the United States, and any doubt shall be resolved in favor of the national security.

(c) The United States Government does not discriminate on the basis of race, color, religion, sex, national origin, disability, or sexual orientation in granting access to classified information.

(d) In determining eligibility for access under this order, agencies may investigate and consider any matter that relates to the determination of whether access is clearly consistent with the interests of national security. No inference concerning the standards in this section may be raised solely on the basis of the sexual orientation of the employee.

(e) No negative inference concerning the standards in this section may be raised solely on the basis of mental health counseling. Such counseling can be a positive factor in eligibility determinations. However, mental health counseling, where relevant to the adjudication

of access to classified information, may justify further inquiry to determine whether the standards of subsection (b) of this section are satisfied, and mental health may be considered where it directly relates to those standards.

(f) Not later than 180 days after the effective date of this order, the Security Executive Agent shall develop a common set of adjudicative guidelines for determining eligibility for access to classified information, including access to special access programs.

SEC. 3.2. *Basis for Eligibility Approval.* (a) Eligibility determinations for access to classified information shall be based on information concerning the applicant or employee that is acquired through the investigation conducted pursuant to this order or otherwise available to security officials and shall be made part of the applicant's or employee's security record. Applicants or employees shall be required to provide relevant information pertaining to their background and character for use in investigating and adjudicating their eligibility for access.

(b) Not later than 180 days after the effective date of this order, the Security Executive Agent shall develop a common set of investigative standards for background investigations for access to classified information. These standards may vary for the various levels of access.

(c) Nothing in this order shall prohibit an agency from utilizing any lawful investigative procedure in addition to the investigative requirements set forth in this order and its implementing regulations to resolve issues that may arise during the course of a background investigation or reinvestigation.

SEC. 3.3. *Special Circumstances.* (a) In exceptional circumstances where official functions must be performed prior to the completion of the investigative and adjudication process, temporary eligibility for access to classified information may be granted to an employee while the initial investigation is underway. When such eligibility is granted, the initial investigation shall be expedited.

(1) Temporary eligibility for access under this section shall include a justification, and the employee must be notified in writing that further access is expressly conditioned on the favorable completion of the investigation and issuance of an access eligibility approval. Access will be immediately terminated, along with any assignment requiring an access eligibility approval, if such approval is not granted.

(2) Temporary eligibility for access may be granted only by security personnel authorized by the agency head to make access eligibility determinations and shall be based on minimum investigative standards developed by the Security Executive Agent not later than 180 days after the effective date of this order.

(3) Temporary eligibility for access may be granted only to particular, identified categories of classified information necessary to perform the lawful and authorized functions that are the basis for the granting of temporary access.

(b) Nothing in subsection (a) shall be construed as altering the authority of an agency head to waive requirements for granting access to classified information pursuant to statutory authority.

(c) Where access has been terminated under section 2.1(b)(4) of this order and a new need for access arises, access eligibility up to the same level shall be reapproved without further investigation as to employees who were determined to be eligible based on a favorable adjudication of an investigation completed within the prior 5 years, provided they have remained employed by the same employer during the period in question, the employee certifies in writing that there has been no change in the relevant information provided by the employee for the last background investigation, and there is no information that would tend to indicate the employee may no longer satisfy the standards established by this order for access to classified information.

(d) Access eligibility shall be reapproved for individuals who were determined to be eligible based on a fa-

avorable adjudication of an investigation completed within the prior 5 years and who have been retired or otherwise separated from United States Government employment for not more than 2 years; provided there is no indication the individual may no longer satisfy the standards of this order, the individual certifies in writing that there has been no change in the relevant information provided by the individual for the last background investigation, and an appropriate record check reveals no unfavorable information.

SEC. 3.4. *Reinvestigation Requirements.* (a) Because circumstances and characteristics may change dramatically over time and thereby alter the eligibility of employees for continued access to classified information, reinvestigations shall be conducted with the same priority and care as initial investigations.

(b) Employees who are eligible for access to classified information shall be the subject of periodic reinvestigations and may also be reinvestigated if, at any time, there is reason to believe that they may no longer meet the standards for access established in this order.

(c) Not later than 180 days after the effective date of this order, the Security Executive Agent shall develop a common set of reinvestigative standards, including the frequency of reinvestigations.

SEC. 3.5. *Continuous Evaluation.* An individual who has been determined to be eligible for or who currently has access to classified information shall be subject to continuous evaluation as further defined by and under standards (including, but not limited to, the frequency of such evaluation) as determined by the Director of National Intelligence.

PART 4—INVESTIGATIONS FOR FOREIGN GOVERNMENTS

SEC. 4. *Authority.* Agencies that conduct background investigations, including the Federal Bureau of Investigation and the Department of State, are authorized to conduct personnel security investigations in the United States when requested by a foreign government as part of its own personnel security program and with the consent of the individual.

PART 5—REVIEW OF ACCESS DETERMINATIONS

SEC. 5.1. *Determinations of Need for Access.* A determination under section 2.1(b)(4) of this order that an employee does not have, or no longer has, a need for access is a discretionary determination and shall be conclusive.

SEC. 5.2. *Review Proceedings for Denials or Revocations of Eligibility for Access.* (a) Applicants and employees who are determined to not meet the standards for access to classified information established in section 3.1 of this order shall be:

(1) provided as comprehensive and detailed a written explanation of the basis for that conclusion as the national security interests of the United States and other applicable law permit;

(2) provided within 30 days, upon request and to the extent the documents would be provided if requested under the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act (5 U.S.C. 552a), as applicable, any documents, records, and reports upon which a denial or revocation is based;

(3) informed of their right to be represented by counsel or other representative at their own expense; to request any documents, records, and reports as described in section 5.2(a)(2) upon which a denial or revocation is based; and to request the entire investigative file, as permitted by the national security and other applicable law, which, if requested, shall be promptly provided prior to the time set for a written reply;

(4) provided a reasonable opportunity to reply in writing to, and to request a review of, the determination;

(5) provided written notice of and reasons for the results of the review, the identity of the deciding authority, and written notice of the right to appeal;

(6) provided an opportunity to appeal in writing to a high level panel, appointed by the agency head, which

shall be comprised of at least three members, two of whom shall be selected from outside the security field. Decisions of the panel shall be in writing, and final except as provided in subsection (b) of this section; and

(7) provided an opportunity to appear personally and to present relevant documents, materials, and information at some point in the process before an adjudicative or other authority, other than the investigating entity, as determined by the agency head. A written summary or recording of such appearance shall be made part of the applicant's or employee's security record, unless such appearance occurs in the presence of the appeals panel described in subsection (a)(6) of this section.

(b) Nothing in this section shall prohibit an agency head from personally exercising the appeal authority in subsection (a)(6) of this section based upon recommendations from an appeals panel. In such case, the decision of the agency head shall be final.

(c) Agency heads shall promulgate regulations to implement this section and, at their sole discretion and as resources and national security considerations permit, may provide additional review proceedings beyond those required by subsection (a) of this section. This section does not require additional proceedings, however, and creates no procedural or substantive rights.

(d) When the head of an agency or principal deputy personally certifies that a procedure set forth in this section cannot be made available in a particular case without damaging the national security interests of the United States by revealing classified information, the particular procedure shall not be made available. This certification shall be conclusive.

(e) This section shall not be deemed to limit or affect the responsibility and power of an agency head pursuant to any law or other Executive order to deny or terminate access to classified information in the interests of national security. The power and responsibility to deny or terminate access to classified information pursuant to any law or other Executive order may be exercised only where the agency head determines that the procedures prescribed in subsection (a) of this section cannot be invoked in a manner that is consistent with national security. This determination shall be conclusive.

(f)(1) This section shall not be deemed to limit or affect the responsibility and power of an agency head to make determinations of suitability for employment.

(2) Nothing in this section shall require that an agency provide the procedures prescribed in subsection (a) of this section to an applicant where a conditional offer of employment is withdrawn for reasons of suitability or any other reason other than denial of eligibility for access to classified information.

(3) A suitability determination shall not be used for the purpose of denying an applicant or employee the review proceedings of this section where there has been a denial or revocation of eligibility for access to classified information.

PART 6—IMPLEMENTATION

SEC. 6.1. *Agency Implementing Responsibilities.* Heads of agencies that grant employees access to classified information shall: (a) designate a senior agency official to direct and administer the agency's personnel security program established by this order. All such programs shall include active oversight and continuing security education and awareness programs to ensure effective implementation of this order;

(b) cooperate, under the guidance of the Security Executive Agent, with other agencies to achieve practical, consistent, and effective adjudicative training and guidelines; and

(c) conduct periodic evaluations of the agency's implementation and administration of this order, including the implementation of section 1.3(a) of this order. Copies of each report shall be provided to the Security Executive Agent.

SEC. 6.2. *Employee Responsibilities.* (a) Employees who are granted eligibility for access to classified information shall:

(1) protect classified information in their custody from unauthorized disclosure;

(2) report all contacts with persons, including foreign nationals, who seek in any way to obtain unauthorized access to classified information;

(3) report all violations of security regulations to the appropriate security officials; and

(4) comply with all other security requirements set forth in this order and its implementing regulations.

(b) Employees are encouraged and expected to report any information that raises doubts as to whether another employee's continued eligibility for access to classified information is clearly consistent with the national security.

SEC. 6.3. *Security Executive Agent Responsibilities and Implementation.* (a) With respect to actions taken by the Security Executive Agent pursuant to sections 1.3(c), 3.1(f), 3.2(b), 3.3(a)(2), and 3.4(c) of this order, the Director of National Intelligence shall serve as the final authority for implementation.

(b) Any guidelines, standards, or procedures developed by the Security Executive Agent pursuant to this order shall be consistent with those guidelines issued by the Federal Bureau of Investigation in March 1994 on Background Investigations Policy/Guidelines Regarding Sexual Orientation.

(c) In carrying out its responsibilities under this order, the Security Executive Agent shall consult where appropriate with the Overseas Security Executive Agent. In carrying out its responsibilities under section 1.3(c) of this order, the Security Executive Agent shall obtain the concurrence of the Director of the Office of Management and Budget.

SEC. 6.4. *Sanctions.* Employees shall be subject to appropriate sanctions if they knowingly and willfully grant eligibility for, or allow access to, classified information in violation of this order or its implementing regulations. Sanctions may include reprimand, suspension without pay, removal, and other actions in accordance with applicable law and agency regulations.

PART 7—GENERAL PROVISIONS

SEC. 7.1. *Classified Information Procedures Act.* Nothing in this order is intended to alter the procedures established under the Classified Information Procedures Act (18 U.S.C. App.).

SEC. 7.2. *General.* (a) Information obtained by an agency under sections 1.2(e) or 1.3 of this order may not be disseminated outside the agency, except to:

(1) the agency employing the employee who is the subject of the records or information;

(2) the Department of Justice for law enforcement or counterintelligence purposes; or

(3) any agency if such information is clearly relevant to the authorized responsibilities of such agency.

(b) The Attorney General, at the request of the head of an agency, shall render an interpretation of this order with respect to any question arising in the course of its administration.

(c) No prior Executive orders are repealed by this order. To the extent that this order is inconsistent with any provision of any prior Executive order, this order shall control, except that this order shall not diminish or otherwise affect the requirements of Executive Order No. 10450 [5 U.S.C. 7311 note], the denial and revocation procedures provided to individuals covered by Executive Order No. 10865, as amended [set out above], or access by historical researchers and former presidential appointees under Executive Order No. 12958 [formerly set out above] or any successor order.

(d) If any provision of this order or the application of such provision is held to be invalid, the remainder of this order shall not be affected.

(e) This Executive order is intended only to improve the internal management of the executive branch and is not intended to, and does not, create any right to administrative or judicial review, or any other right or benefit or trust responsibility, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

(f) This order is effective immediately.

EX. ORD. NO. 13467. REFORMING PROCESSES RELATED TO SUITABILITY FOR GOVERNMENT EMPLOYMENT, FITNESS FOR CONTRACTOR EMPLOYEES, AND ELIGIBILITY FOR ACCESS TO CLASSIFIED NATIONAL SECURITY INFORMATION

Ex. Ord. No. 13467, June 30, 2008, 73 F.R. 38103, as amended by Ex. Ord. No. 13741, §1, Sept. 29, 2016, 81 F.R. 68289; Ex. Ord. No. 13764, §3, Jan. 17, 2017, 82 F.R. 8117; Ex. Ord. No. 13869, §2, Apr. 24, 2019, 84 F.R. 18125, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including sections 3301, 7103(b), and 7301 of title 5, United States Code, and in order to strengthen and ensure a secure, efficient, timely, reciprocal, and aligned system for investigating and determining suitability or fitness for Government employment, fitness to work as a contractor or a nonappropriated fund employee, eligibility for access to classified information or to hold a sensitive position, and authorization to be issued a Federal credential, while providing fair, impartial, and equitable treatment, and protecting individual rights under the Constitution and laws of the United States, and taking appropriate account of title III of Public Law 108-458, it is hereby ordered as follows:

PART 1—POLICY, APPLICABILITY, AND DEFINITIONS

SECTION 1.1. *Policy.* (a) Executive branch vetting policies and procedures relating to suitability, contractor or Federal employee fitness, eligibility to hold a sensitive position, authorization to be issued a Federal credential for access to federally controlled facilities and information systems, and eligibility for access to classified information shall be aligned using consistent standards to the extent possible, shall provide for reciprocal recognition, and shall ensure cost-effective, timely, and efficient protection of the national interest, while providing fair treatment to those upon whom the Federal Government relies to conduct our Nation's business and protect national security.

(b) The Government's tools, systems, and processes for conducting these background investigations and managing sensitive investigative information should keep pace with technological advancements, regularly integrating current best practices to better anticipate, detect, and counter malicious activities, and threats posed by external or internal actors who may seek to do harm to the Government's personnel, property, and information. To help fulfill these responsibilities, there shall be a primary executive branch investigative service provider whose mission is to provide effective, efficient, and secure background investigations for the Federal Government.

(c) Executive branch vetting policies and procedures shall be sustained by an enhanced risk-management approach that facilitates early detection of issues by an informed, aware, and responsible Federal workforce; results in quality decisions enabled by improved vetting capabilities; and advances Government-wide capabilities through enterprise approaches.

(d) The appointment or retention of each covered individual shall be subject to an investigation. Federal investigative standards established pursuant to this order shall be designed to develop information as to whether the employment or retention in employment in the Federal service of the person being investigated is clearly consistent with the interests of the national security, and the scope of the investigation shall be determined in the first instance according to the degree of material adverse effect the occupant of the position sought to be filled could bring about, by virtue of the nature of the position, on the national security." [sic]

(e) Investigative agencies shall control the reports, information, and other investigative materials that are developed during the vetting process. Recipient departments and agencies may retain and use the received re-

ports, information, and other investigative material within that recipient for authorized purposes (including, but not limited to, adjudications, hearings and appeals, continuous evaluation, inspector general functions, counterintelligence, research, and insider threat programs), in compliance with the Privacy Act of 1974, as amended (section 552a of title 5, United States Code). Investigative agencies shall ensure that their applicable System of Records Notices include, at a minimum, the authorized uses of the recipient departments and agencies such as those set forth above. Recipient departments and agencies shall not make any external releases of received information, other than to an investigative subject for the purpose of providing procedural rights or administrative due process; and shall direct any other requests for external releases of copies of the reports, information, and other investigative materials to the investigative agency. In the event redisclosure by the recipient agency is required by compulsory legal process, the recipient agency shall consult with the investigating agency. (o) “Sensitive Position” means any position within or in support of a department or agency, the occupant of which could bring about, by virtue of the nature of the position, a material adverse effect on the national security, regardless of whether the occupant has access to classified information, and regardless of whether the occupant is an employee, a military service member, or a contractor.

(p) “Suitability” has the meaning and coverage provided in 5 CFR Part 731.

(q) “Vetting” is the process by which covered individuals undergo investigation, evaluation, and adjudication of whether they are, and remain over time, suitable or fit for Federal employment, eligible to occupy a sensitive position, eligible for access to classified information, eligible to serve as a nonappropriated fund employee or a contractor, eligible to serve in the military, or authorized to be issued a Federal credential. The transfer shall commence no later than June 24, 2019, and shall:

(i) be executed with the assistance of the Personnel Vetting Transformation Office established pursuant to paragraph (b)(ix) of this section, which shall, in providing such assistance, consider input from other stakeholder agencies, as appropriate;

(ii) be conducted in accordance with a risk management approach that is consistent with Office of Management and Budget Circular A-123;

(iii) include any appropriate funds that the Secretary of Defense and the Director of the Office of Personnel Management, with the concurrence of the Director of the Office of Management and Budget, determine to be available and necessary to finance and discharge the functions transferred;

(vi) permit NBIB to conduct background investigations for DCSA, as necessary, until September 30, 2019.

(e) The Director of the Office of Personnel Management shall:

(i) no later than June 24, 2019, take any steps necessary to make effective the delegation, pursuant to section 1104(a)(2) of title 5, United States Code, of the functions described in subsection (b)(iv) of this section;

(ii) promptly establish appropriate performance standards and oversight as required by section 1104(b) of title 5, United States Code;

(vi) immediately upon the finalization of the agreement described in paragraph (v) of this subsection and section 2.6(b)(viii) of this order, commence efforts to transition transferred or delegated functions and, as

appropriate, associated Office of Personnel Management authorities, operations, resources, and personnel, to the DCSA;

(vii) during the transition period, coordinate with the Department of Defense regarding any decisions concerning NBIB's personnel structure, finances, contracts, or organization to the extent provided in the written agreement described by paragraph (b)(viii) of this section;

(viii) no later than September 30, 2019, complete the transfer of all designated administrative and operational functions to the Department of Defense and revoke any applicable delegation or designation to NBIB of investigative or other authority; and

(ix) in the event the agreement described in paragraph (v) of this subsection and section 2.6(b)(viii) of this order is not executed by June 24, 2019, beginning on such date, the Director of the Office of Personnel Management shall begin to take necessary actions to begin execution of paragraphs (iii) through (viii) of this subsection until the agreement described in paragraph (v) of this subsection and section 2.6(b)(viii) of this order is executed, at which time the Director of the Office of Personnel Management shall ensure actions subject to such agreement under paragraphs (iii) through (viii) of this subsection are executed in accordance with its terms.

(f) The Director of the Office of Management and Budget shall:

(i) facilitate an effective transfer of functions, including personnel and resources;

(ii) support the Department of Defense's efforts to establish a single, centralized funding capability for its background investigations, as required by section 925(e)(1) of the National Defense Authorization Act for Fiscal Year 2018 (10 U.S.C. 1564 note);

(iii) mediate any disagreements between the Secretary of Defense and the Director of the Office of Personnel Management that may arise during or outside of the transition period and facilitate resolution of the conflicting positions; and

(iv) develop, in consultation with the Secretary of Defense and the Director of the Office of Personnel Management, an appropriate funding plan for the activities undertaken pursuant to this order.

SEC. 2.7. *Additional Functions.* (a) The duties assigned to the Security Policy Board by Executive Order 12968 of August 2, 1995, to consider, coordinate, and recommend policy directives for executive branch security policies, procedures, and practices are reassigned to the Security Executive Agent.

(b) Heads of agencies shall:

(i) designate, or cause to be designated, as a "sensitive position," any position occupied by a covered individual in which the occupant could bring about by virtue of the nature of the position, a material adverse effect on the national security;

(ii) establish and maintain within their respective agencies, an effective program to ensure that employment and retention of any covered individual within the agency is clearly consistent with the interests of national security and, as applicable, meets standards for eligibility for access to classified information or to hold a sensitive position, suitability, fitness, or credentialing, established by the respective Executive Agent;

(iii) carry out any function assigned to the agency head by the Chair, and shall assist the Chair, the Council, the Executive Agents, the National Background Investigations Bureau, and the Department of Defense in carrying out any function under sections 2.4, 2.5, and 2.6 of this order;

(iv) implement any policy or procedure established pursuant to this order;

(v) to the extent permitted by law, make available to the Council, the Executive Agents, the National Background Investigations Bureau, and the Department of Defense such information as may be requested to implement this order, including information necessary to implement enterprise-wide vetting policies and procedures;

(vi) except as authorized by section 3341(e)(5) of title 50, United States Code, promptly furnish, or cause to be promptly furnished, to the Office of Personnel Management the information deemed by the Executive Agents to be necessary for purposes of record keeping and reciprocity including, but not limited to, the date on which a background investigation is initiated, the date on which the background investigation is closed, and the specific adjudicative or access decision made. The Executive Agents shall determine the appropriate timeline pursuant to which this information must be reported to the Office of Personnel Management. The Executive Agents shall maintain discretion to determine the scope of information needed for record keeping and reciprocity purposes. The Office of Personnel Management shall regularly provide this information to the Director of National Intelligence for national security purposes.

(vii) ensure that all actions taken under this order take account of the counterintelligence interests of the United States, as appropriate; and

(viii) ensure that actions taken under this order are consistent with the President's constitutional authority to:

(D) supervise the unitary executive branch.

(c) All investigations being conducted by agencies that develop information indicating that an individual may have been subjected to coercion, influence, or pressure to act contrary to the interests of the national security, or information that the individual may pose a counterintelligence or terrorist threat, or as otherwise provided by law, shall be referred to the Federal Bureau of Investigation for potential investigation, and may also be referred to other agencies where appropriate.

PART 3—MISCELLANEOUS

SEC. 3. *General Provisions.* (a) Executive Order 13381 of June 27, 2005 [amending Ex. Ord. No. 12171, set out as a note under section 7103 of Title 5, Government Organization and Employees], as amended, and Executive Order 10450 of April 27, 1953 [formerly set out as a note under section 7311 of Title 5], as amended, are revoked. By revoking Executive Order 10450 of April 27, 1953, as amended, there is no intent to alter the requirement for an investigation for national security purposes or the "clearly consistent with the interest of national security" standard prescribed by that Executive Order for making the determinations referenced in section 2.7(b)(ii). Further, suitability, fitness, credentialing, and national security eligibility regulations, standards and guidance issued by, or interagency agreements entered into by, the Council, the Executive Agents, or any agency pursuant to Executive Order 10450 of April 27, 1953, as amended, shall remain valid until superseded. Nothing in this order shall:

(i) supersede, impede, or otherwise affect:

(A) Executive Order 10577 of November 23, 1954, as amended;

(B) Executive Order 12333 of December 4, 1981, as amended;

(C) Executive Order 12829 of January 6, 1993, as amended; or

(D) Executive Order 13526 of December 29, 2009; or

(ii) diminish or otherwise affect the denial and revocation procedures provided to individuals covered by Executive Order 10865 of February 20, 1960, as amended; or

(iii) be applied in such a way as to affect any administrative proceeding pending on the date of this order.

(b) [Amended Ex. Ord. No. 12968, set out as a note above.]

(c) Provisions of Executive Order 12968 of August 2, 1995, as amended, that apply to eligibility for access to classified information shall apply to eligibility to hold any sensitive position regardless of whether that sensitive position requires access to classified information, subject to the Security Executive Agent issuing implementing or clarifying guidance regarding requirements for sensitive positions. Nothing in this order shall supersede, impede, or otherwise affect the remainder of Executive Order 12968 of August 2, 1995, as amended.

(d) Nothing in this order shall be construed to impair or otherwise affect the:

(i) authority granted by law to a department or agency, or the head thereof; or

(ii) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) Existing delegations of authority made pursuant to Executive Order 13381 of June 27, 2005, as amended, to any agency relating to granting eligibility for access to classified information shall remain in effect, subject to the exercise of authorities pursuant to this order to revise or revoke such delegation.

(g) Existing delegations of authority made by the Office of Personnel Management to any agency relating to suitability or fitness shall remain in effect, subject to the exercise of authorities to revise or revoke such delegations.

(h) If any provision of this order or the application of such provision is held to be invalid, the remainder of this order shall not be affected.

(i) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

EX. ORD. NO. 13526. CLASSIFIED NATIONAL SECURITY INFORMATION

Ex. Ord. No. 13526, Dec. 29, 2009, 75 F.R. 707, 1013, provided:

This order prescribes a uniform system for classifying, safeguarding, and declassifying national security information, including information relating to defense against transnational terrorism. Our democratic principles require that the American people be informed of the activities of their Government. Also, our Nation's progress depends on the free flow of information both within the Government and to the American people. Nevertheless, throughout our history, the national defense has required that certain information be maintained in confidence in order to protect our citizens, our democratic institutions, our homeland security, and our interactions with foreign nations. Protecting information critical to our Nation's security and demonstrating our commitment to open Government through accurate and accountable application of classification standards and routine, secure, and effective declassification are equally important priorities.

NOW, THEREFORE, I, BARACK OBAMA, by the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

PART 1—ORIGINAL CLASSIFICATION

SECTION 1.1. *Classification Standards.* (a) Information may be originally classified under the terms of this order only if all of the following conditions are met:

(1) an original classification authority is classifying the information;

(2) the information is owned by, produced by or for, or is under the control of the United States Government;

(3) the information falls within one or more of the categories of information listed in section 1.4 of this order; and

(4) the original classification authority determines that the unauthorized disclosure of the information reasonably could be expected to result in damage to the national security, which includes defense against transnational terrorism, and the original classification authority is able to identify or describe the damage.

(b) If there is significant doubt about the need to classify information, it shall not be classified. This provision does not:

(1) amplify or modify the substantive criteria or procedures for classification; or

(2) create any substantive or procedural rights subject to judicial review.

(c) Classified information shall not be declassified automatically as a result of any unauthorized disclosure of identical or similar information.

(d) The unauthorized disclosure of foreign government information is presumed to cause damage to the national security.

SEC. 1.2. *Classification Levels.* (a) Information may be classified at one of the following three levels:

(1) "Top Secret" shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause exceptionally grave damage to the national security that the original classification authority is able to identify or describe.

(2) "Secret" shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause serious damage to the national security that the original classification authority is able to identify or describe.

(3) "Confidential" shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause damage to the national security that the original classification authority is able to identify or describe.

(b) Except as otherwise provided by statute, no other terms shall be used to identify United States classified information.

(c) If there is significant doubt about the appropriate level of classification, it shall be classified at the lower level.

SEC. 1.3. *Classification Authority.* (a) The authority to classify information originally may be exercised only by:

(1) the President and the Vice President;
(2) agency heads and officials designated by the President; and

(3) United States Government officials delegated this authority pursuant to paragraph (c) of this section.

(b) Officials authorized to classify information at a specified level are also authorized to classify information at a lower level.

(c) Delegation of original classification authority.

(1) Delegations of original classification authority shall be limited to the minimum required to administer this order. Agency heads are responsible for ensuring that designated subordinate officials have a demonstrable and continuing need to exercise this authority.

(2) "Top Secret" original classification authority may be delegated only by the President, the Vice President, or an agency head or official designated pursuant to paragraph (a)(2) of this section.

(3) "Secret" or "Confidential" original classification authority may be delegated only by the President, the Vice President, an agency head or official designated pursuant to paragraph (a)(2) of this section, or the senior agency official designated under section 5.4(d) of this order, provided that official has been delegated "Top Secret" original classification authority by the agency head.

(4) Each delegation of original classification authority shall be in writing and the authority shall not be redelegated except as provided in this order. Each delegation shall identify the official by name or position.

(5) Delegations of original classification authority shall be reported or made available by name or position to the Director of the Information Security Oversight Office.

(d) All original classification authorities must receive training in proper classification (including the

avoidance of over-classification) and declassification as provided in this order and its implementing directives at least once a calendar year. Such training must include instruction on the proper safeguarding of classified information and on the sanctions in section 5.5 of this order that may be brought against an individual who fails to classify information properly or protect classified information from unauthorized disclosure. Original classification authorities who do not receive such mandatory training at least once within a calendar year shall have their classification authority suspended by the agency head or the senior agency official designated under section 5.4(d) of this order until such training has taken place. A waiver may be granted by the agency head, the deputy agency head, or the senior agency official if an individual is unable to receive such training due to unavoidable circumstances. Whenever a waiver is granted, the individual shall receive such training as soon as practicable.

(e) Exceptional cases. When an employee, government contractor, licensee, certificate holder, or grantee of an agency who does not have original classification authority originates information believed by that person to require classification, the information shall be protected in a manner consistent with this order and its implementing directives. The information shall be transmitted promptly as provided under this order or its implementing directives to the agency that has appropriate subject matter interest and classification authority with respect to this information. That agency shall decide within 30 days whether to classify this information.

SEC. 1.4. *Classification Categories.* Information shall not be considered for classification unless its unauthorized disclosure could reasonably be expected to cause identifiable or describable damage to the national security in accordance with section 1.2 of this order, and it pertains to one or more of the following:

(a) military plans, weapons systems, or operations;
(b) foreign government information;
(c) intelligence activities (including covert action), intelligence sources or methods, or cryptology;
(d) foreign relations or foreign activities of the United States, including confidential sources;

(e) scientific, technological, or economic matters relating to the national security;

(f) United States Government programs for safeguarding nuclear materials or facilities;

(g) vulnerabilities or capabilities of systems, installations, infrastructures, projects, plans, or protection services relating to the national security; or (h) the development, production, or use of weapons of mass destruction.

SEC. 1.5. *Duration of Classification.* (a) At the time of original classification, the original classification authority shall establish a specific date or event for declassification based on the duration of the national security sensitivity of the information. Upon reaching the date or event, the information shall be automatically declassified. Except for information that should clearly and demonstrably be expected to reveal the identity of a confidential human source or a human intelligence source or key design concepts of weapons of mass destruction, the date or event shall not exceed the time frame established in paragraph (b) of this section.

(b) If the original classification authority cannot determine an earlier specific date or event for declassification, information shall be marked for declassification 10 years from the date of the original decision, unless the original classification authority otherwise determines that the sensitivity of the information requires that it be marked for declassification for up to 25 years from the date of the original decision.

(c) An original classification authority may extend the duration of classification up to 25 years from the date of origin of the document, change the level of classification, or reclassify specific information only when the standards and procedures for classifying information under this order are followed.

(d) No information may remain classified indefinitely. Information marked for an indefinite duration of classification under predecessor orders, for example, marked as "Originating Agency's Determination Required," or classified information that contains incomplete declassification instructions or lacks declassification instructions shall be declassified in accordance with part 3 of this order.

SEC. 1.6. *Identification and Markings.* (a) At the time of original classification, the following shall be indicated in a manner that is immediately apparent:

(1) one of the three classification levels defined in section 1.2 of this order;

(2) the identity, by name and position, or by personal identifier, of the original classification authority;

(3) the agency and office of origin, if not otherwise evident;

(4) declassification instructions, which shall indicate one of the following:

(A) the date or event for declassification, as prescribed in section 1.5(a);

(B) the date that is 10 years from the date of original classification, as prescribed in section 1.5(b);

(C) the date that is up to 25 years from the date of original classification, as prescribed in section 1.5(b); or

(D) in the case of information that should clearly and demonstrably be expected to reveal the identity of a confidential human source or a human intelligence source or key design concepts of weapons of mass destruction, the marking prescribed in implementing directives issued pursuant to this order; and

(5) a concise reason for classification that, at a minimum, cites the applicable classification categories in section 1.4 of this order.

(b) Specific information required in paragraph (a) of this section may be excluded if it would reveal additional classified information.

(c) With respect to each classified document, the agency originating the document shall, by marking or other means, indicate which portions are classified, with the applicable classification level, and which portions are unclassified. In accordance with standards prescribed in directives issued under this order, the Director of the Information Security Oversight Office may grant and revoke temporary waivers of this requirement. The Director shall revoke any waiver upon a finding of abuse.

(d) Markings or other indicia implementing the provisions of this order, including abbreviations and requirements to safeguard classified working papers, shall conform to the standards prescribed in implementing directives issued pursuant to this order.

(e) Foreign government information shall retain its original classification markings or shall be assigned a U.S. classification that provides a degree of protection at least equivalent to that required by the entity that furnished the information. Foreign government information retaining its original classification markings need not be assigned a U.S. classification marking provided that the responsible agency determines that the foreign government markings are adequate to meet the purposes served by U.S. classification markings.

(f) Information assigned a level of classification under this or predecessor orders shall be considered as classified at that level of classification despite the omission of other required markings. Whenever such information is used in the derivative classification process or is reviewed for possible declassification, holders of such information shall coordinate with an appropriate classification authority for the application of omitted markings.

(g) The classification authority shall, whenever practicable, use a classified addendum whenever classified information constitutes a small portion of an otherwise unclassified document or prepare a product to allow for dissemination at the lowest level of classification possible or in unclassified form.

(h) Prior to public release, all declassified records shall be appropriately marked to reflect their declassification.

SEC. 1.7. *Classification Prohibitions and Limitations.* (a) In no case shall information be classified, continue to be maintained as classified, or fail to be declassified in order to:

(1) conceal violations of law, inefficiency, or administrative error;

(2) prevent embarrassment to a person, organization, or agency;

(3) restrain competition; or

(4) prevent or delay the release of information that does not require protection in the interest of the national security.

(b) Basic scientific research information not clearly related to the national security shall not be classified.

(c) Information may not be reclassified after declassification and release to the public under proper authority unless:

(1) the reclassification is personally approved in writing by the agency head based on a document-by-document determination by the agency that reclassification is required to prevent significant and demonstrable damage to the national security;

(2) the information may be reasonably recovered without bringing undue attention to the information;

(3) the reclassification action is reported promptly to the Assistant to the President for National Security Affairs (National Security Advisor) and the Director of the Information Security Oversight Office; and

(4) for documents in the physical and legal custody of the National Archives and Records Administration (National Archives) that have been available for public use, the agency head has, after making the determinations required by this paragraph, notified the Archivist of the United States (Archivist), who shall suspend public access pending approval of the reclassification action by the Director of the Information Security Oversight Office. Any such decision by the Director may be appealed by the agency head to the President through the National Security Advisor. Public access shall remain suspended pending a prompt decision on the appeal.

(d) Information that has not previously been disclosed to the public under proper authority may be classified or reclassified after an agency has received a request for it under the Freedom of Information Act (5 U.S.C. 552), the Presidential Records Act, 44 U.S.C. 2204(c)(1), the Privacy Act of 1974 (5 U.S.C. 552a), or the mandatory review provisions of section 3.5 of this order only if such classification meets the requirements of this order and is accomplished on a document-by-document basis with the personal participation or under the direction of the agency head, the deputy agency head, or the senior agency official designated under section 5.4 of this order. The requirements in this paragraph also apply to those situations in which information has been declassified in accordance with a specific date or event determined by an original classification authority in accordance with section 1.5 of this order.

(e) Compilations of items of information that are individually unclassified may be classified if the compiled information reveals an additional association or relationship that:

(1) meets the standards for classification under this order; and

(2) is not otherwise revealed in the individual items of information.

SEC. 1.8. *Classification Challenges.* (a) Authorized holders of information who, in good faith, believe that its classification status is improper are encouraged and expected to challenge the classification status of the information in accordance with agency procedures established under paragraph (b) of this section.

(b) In accordance with implementing directives issued pursuant to this order, an agency head or senior agency official shall establish procedures under which authorized holders of information, including authorized holders outside the classifying agency, are encouraged and expected to challenge the classification of information that they believe is improperly classified or unclassified. These procedures shall ensure that:

(1) individuals are not subject to retribution for bringing such actions;

(2) an opportunity is provided for review by an impartial official or panel; and

(3) individuals are advised of their right to appeal agency decisions to the Interagency Security Classification Appeals Panel (Panel) established by section 5.3 of this order.

(c) Documents required to be submitted for pre-publication review or other administrative process pursuant to an approved nondisclosure agreement are not covered by this section.

SEC. 1.9. *Fundamental Classification Guidance Review.*

(a) Agency heads shall complete on a periodic basis a comprehensive review of the agency's classification guidance, particularly classification guides, to ensure the guidance reflects current circumstances and to identify classified information that no longer requires protection and can be declassified. The initial fundamental classification guidance review shall be completed within 2 years of the effective date of this order.

(b) The classification guidance review shall include an evaluation of classified information to determine if it meets the standards for classification under section 1.4 of this order, taking into account an up-to-date assessment of likely damage as described under section 1.2 of this order.

(c) The classification guidance review shall include original classification authorities and agency subject matter experts to ensure a broad range of perspectives.

(d) Agency heads shall provide a report summarizing the results of the classification guidance review to the Director of the Information Security Oversight Office and shall release an unclassified version of this report to the public.

PART 2—DERIVATIVE CLASSIFICATION

SEC. 2.1. *Use of Derivative Classification.* (a) Persons who reproduce, extract, or summarize classified information, or who apply classification markings derived from source material or as directed by a classification guide, need not possess original classification authority.

(b) Persons who apply derivative classification markings shall:

(1) be identified by name and position, or by personal identifier, in a manner that is immediately apparent for each derivative classification action;

(2) observe and respect original classification decisions; and

(3) carry forward to any newly created documents the pertinent classification markings. For information derivatively classified based on multiple sources, the derivative classifier shall carry forward:

(A) the date or event for declassification that corresponds to the longest period of classification among the sources, or the marking established pursuant to section 1.6(a)(4)(D) of this order; and

(B) a listing of the source materials.

(c) Derivative classifiers shall, whenever practicable, use a classified addendum whenever classified information constitutes a small portion of an otherwise unclassified document or prepare a product to allow for dissemination at the lowest level of classification possible or in unclassified form.

(d) Persons who apply derivative classification markings shall receive training in the proper application of the derivative classification principles of the order, with an emphasis on avoiding over-classification, at least once every 2 years. Derivative classifiers who do not receive such training at least once every 2 years shall have their authority to apply derivative classification markings suspended until they have received such training. A waiver may be granted by the agency head, the deputy agency head, or the senior agency official if an individual is unable to receive such training due to unavoidable circumstances. Whenever a waiver is granted, the individual shall receive such training as soon as practicable.

SEC. 2.2. *Classification Guides.* (a) Agencies with original classification authority shall prepare classification

guides to facilitate the proper and uniform derivative classification of information. These guides shall conform to standards contained in directives issued under this order.

(b) Each guide shall be approved personally and in writing by an official who:

(1) has program or supervisory responsibility over the information or is the senior agency official; and

(2) is authorized to classify information originally at the highest level of classification prescribed in the guide.

(c) Agencies shall establish procedures to ensure that classification guides are reviewed and updated as provided in directives issued under this order.

(d) Agencies shall incorporate original classification decisions into classification guides on a timely basis and in accordance with directives issued under this order.

(e) Agencies may incorporate exemptions from automatic declassification approved pursuant to section 3.3(j) of this order into classification guides, provided that the Panel is notified of the intent to take such action for specific information in advance of approval and the information remains in active use.

(f) The duration of classification of a document classified by a derivative classifier using a classification guide shall not exceed 25 years from the date of the origin of the document, except for:

(1) information that should clearly and demonstrably be expected to reveal the identity of a confidential human source or a human intelligence source or key design concepts of weapons of mass destruction; and

(2) specific information incorporated into classification guides in accordance with section 2.2(e) of this order.

PART 3—DECLASSIFICATION AND DOWNGRADING

SEC. 3.1. *Authority for Declassification.* (a) Information shall be declassified as soon as it no longer meets the standards for classification under this order.

(b) Information shall be declassified or downgraded by:

(1) the official who authorized the original classification, if that official is still serving in the same position and has original classification authority;

(2) the originator's current successor in function, if that individual has original classification authority;

(3) a supervisory official of either the originator or his or her successor in function, if the supervisory official has original classification authority; or (4) officials delegated declassification authority in writing by the agency head or the senior agency official of the originating agency.

(c) The Director of National Intelligence (or, if delegated by the Director of National Intelligence, the Principal Deputy Director of National Intelligence) may, with respect to the Intelligence Community, after consultation with the head of the originating Intelligence Community element or department, declassify, downgrade, or direct the declassification or downgrading of information or intelligence relating to intelligence sources, methods, or activities.

(d) It is presumed that information that continues to meet the classification requirements under this order requires continued protection. In some exceptional cases, however, the need to protect such information may be outweighed by the public interest in disclosure of the information, and in these cases the information should be declassified. When such questions arise, they shall be referred to the agency head or the senior agency official. That official will determine, as an exercise of discretion, whether the public interest in disclosure outweighs the damage to the national security that might reasonably be expected from disclosure. This provision does not:

(1) amplify or modify the substantive criteria or procedures for classification; or

(2) create any substantive or procedural rights subject to judicial review.

(e) If the Director of the Information Security Oversight Office determines that information is classified in

violation of this order, the Director may require the information to be declassified by the agency that originated the classification. Any such decision by the Director may be appealed to the President through the National Security Advisor. The information shall remain classified pending a prompt decision on the appeal.

(f) The provisions of this section shall also apply to agencies that, under the terms of this order, do not have original classification authority, but had such authority under predecessor orders.

(g) No information may be excluded from declassification under section 3.3 of this order based solely on the type of document or record in which it is found. Rather, the classified information must be considered on the basis of its content.

(h) Classified nonrecord materials, including artifacts, shall be declassified as soon as they no longer meet the standards for classification under this order.

(i) When making decisions under sections 3.3, 3.4, and 3.5 of this order, agencies shall consider the final decisions of the Panel.

SEC. 3.2. *Transferred Records.*

(a) In the case of classified records transferred in conjunction with a transfer of functions, and not merely for storage purposes, the receiving agency shall be deemed to be the originating agency for purposes of this order.

(b) In the case of classified records that are not officially transferred as described in paragraph (a) of this section, but that originated in an agency that has ceased to exist and for which there is no successor agency, each agency in possession of such records shall be deemed to be the originating agency for purposes of this order. Such records may be declassified or downgraded by the agency in possession of the records after consultation with any other agency that has an interest in the subject matter of the records.

(c) Classified records accessioned into the National Archives shall be declassified or downgraded by the Archivist in accordance with this order, the directives issued pursuant to this order, agency declassification guides, and any existing procedural agreement between the Archivist and the relevant agency head.

(d) The originating agency shall take all reasonable steps to declassify classified information contained in records determined to have permanent historical value before they are accessioned into the National Archives. However, the Archivist may require that classified records be accessioned into the National Archives when necessary to comply with the provisions of the Federal Records Act. This provision does not apply to records transferred to the Archivist pursuant to section 2203 of title 44, United States Code, or records for which the National Archives serves as the custodian of the records of an agency or organization that has gone out of existence.

(e) To the extent practicable, agencies shall adopt a system of records management that will facilitate the public release of documents at the time such documents are declassified pursuant to the provisions for automatic declassification in section 3.3 of this order.

SEC. 3.3 *Automatic Declassification.*

(a) Subject to paragraphs (b)–(d) and (g)–(j) of this section, all classified records that (1) are more than 25 years old and (2) have been determined to have permanent historical value under title 44, United States Code, shall be automatically declassified whether or not the records have been reviewed. All classified records shall be automatically declassified on December 31 of the year that is 25 years from the date of origin, except as provided in paragraphs (b)–(d) and (g)–(j) of this section. If the date of origin of an individual record cannot be readily determined, the date of original classification shall be used instead.

(b) An agency head may exempt from automatic declassification under paragraph (a) of this section specific information, the release of which should clearly and demonstrably be expected to:

(1) reveal the identity of a confidential human source, a human intelligence source, a relationship

with an intelligence or security service of a foreign government or international organization, or a nonhuman intelligence source; or impair the effectiveness of an intelligence method currently in use, available for use, or under development;

(2) reveal information that would assist in the development, production, or use of weapons of mass destruction;

(3) reveal information that would impair U.S. cryptologic systems or activities;

(4) reveal information that would impair the application of state-of-the-art technology within a U.S. weapon system;

(5) reveal formally named or numbered U.S. military war plans that remain in effect, or reveal operational or tactical elements of prior plans that are contained in such active plans;

(6) reveal information, including foreign government information, that would cause serious harm to relations between the United States and a foreign government, or to ongoing diplomatic activities of the United States;

(7) reveal information that would impair the current ability of United States Government officials to protect the President, Vice President, and other protectees for whom protection services, in the interest of the national security, are authorized;

(8) reveal information that would seriously impair current national security emergency preparedness plans or reveal current vulnerabilities of systems, installations, or infrastructures relating to the national security; or

(9) violate a statute, treaty, or international agreement that does not permit the automatic or unilateral declassification of information at 25 years.

(c)(1) An agency head shall notify the Panel of any specific file series of records for which a review or assessment has determined that the information within that file series almost invariably falls within one or more of the exemption categories listed in paragraph (b) of this section and that the agency proposes to exempt from automatic declassification at 25 years.

(2) The notification shall include:

(A) a description of the file series;

(B) an explanation of why the information within the file series is almost invariably exempt from automatic declassification and why the information must remain classified for a longer period of time; and

(C) except when the information within the file series almost invariably identifies a confidential human source or a human intelligence source or key design concepts of weapons of mass destruction, a specific date or event for declassification of the information, not to exceed December 31 of the year that is 50 years from the date of origin of the records.

(3) The Panel may direct the agency not to exempt a designated file series or to declassify the information within that series at an earlier date than recommended. The agency head may appeal such a decision to the President through the National Security Advisor.

(4) File series exemptions approved by the President prior to December 31, 2008, shall remain valid without any additional agency action pending Panel review by the later of December 31, 2010, or December 31 of the year that is 10 years from the date of previous approval.

(d) The following provisions shall apply to the onset of automatic declassification:

(1) Classified records within an integral file block, as defined in this order, that are otherwise subject to automatic declassification under this section shall not be automatically declassified until December 31 of the year that is 25 years from the date of the most recent record within the file block.

(2) After consultation with the Director of the National Declassification Center (the Center) established by section 3.7 of this order and before the records are subject to automatic declassification, an agency head or senior agency official may delay automatic declas-

sification for up to five additional years for classified information contained in media that make a review for possible declassification exemptions more difficult or costly.

(3) Other than for records that are properly exempted from automatic declassification, records containing classified information that originated with other agencies or the disclosure of which would affect the interests or activities of other agencies with respect to the classified information and could reasonably be expected to fall under one or more of the exemptions in paragraph (b) of this section shall be identified prior to the onset of automatic declassification for later referral to those agencies.

(A) The information of concern shall be referred by the Center established by section 3.7 of this order, or by the centralized facilities referred to in section 3.7(e) of this order, in a prioritized and scheduled manner determined by the Center.

(B) If an agency fails to provide a final determination on a referral made by the Center within 1 year of referral, or by the centralized facilities referred to in section 3.7(e) of this order within 3 years of referral, its equities in the referred records shall be automatically declassified.

(C) If any disagreement arises between affected agencies and the Center regarding the referral review period, the Director of the Information Security Oversight Office shall determine the appropriate period of review of referred records.

(D) Referrals identified prior to the establishment of the Center by section 3.7 of this order shall be subject to automatic declassification only in accordance with subparagraphs (d)(3)(A)–(C) of this section.

(4) After consultation with the Director of the Information Security Oversight Office, an agency head may delay automatic declassification for up to 3 years from the date of discovery of classified records that were inadvertently not reviewed prior to the effective date of automatic declassification.

(e) Information exempted from automatic declassification under this section shall remain subject to the mandatory and systematic declassification review provisions of this order.

(f) The Secretary of State shall determine when the United States should commence negotiations with the appropriate officials of a foreign government or international organization of governments to modify any treaty or international agreement that requires the classification of information contained in records affected by this section for a period longer than 25 years from the date of its creation, unless the treaty or international agreement pertains to information that may otherwise remain classified beyond 25 years under this section.

(g) The Secretary of Energy shall determine when information concerning foreign nuclear programs that was removed from the Restricted Data category in order to carry out provisions of the National Security Act of 1947, as amended, may be declassified. Unless otherwise determined, such information shall be declassified when comparable information concerning the United States nuclear program is declassified.

(h) Not later than 3 years from the effective date of this order, all records exempted from automatic declassification under paragraphs (b) and (c) of this section shall be automatically declassified on December 31 of a year that is no more than 50 years from the date of origin, subject to the following:

(1) Records that contain information the release of which should clearly and demonstrably be expected to reveal the following are exempt from automatic declassification at 50 years:

(A) the identity of a confidential human source or a human intelligence source; or

(B) key design concepts of weapons of mass destruction.

(2) In extraordinary cases, agency heads may, within 5 years of the onset of automatic declassification, propose to exempt additional specific information from declassification at 50 years.

(3) Records exempted from automatic declassification under this paragraph shall be automatically declassified on December 31 of a year that is no more than 75 years from the date of origin unless an agency head, within 5 years of that date, proposes to exempt specific information from declassification at 75 years and the proposal is formally approved by the Panel.

(i) Specific records exempted from automatic declassification prior to the establishment of the Center described in section 3.7 of this order shall be subject to the provisions of paragraph (h) of this section in a scheduled and prioritized manner determined by the Center.

(j) At least 1 year before information is subject to automatic declassification under this section, an agency head or senior agency official shall notify the Director of the Information Security Oversight Office, serving as Executive Secretary of the Panel, of any specific information that the agency proposes to exempt from automatic declassification under paragraphs (b) and (h) of this section.

(1) The notification shall include:

(A) a detailed description of the information, either by reference to information in specific records or in the form of a declassification guide;

(B) an explanation of why the information should be exempt from automatic declassification and must remain classified for a longer period of time; and

(C) a specific date or a specific and independently verifiable event for automatic declassification of specific records that contain the information proposed for exemption.

(2) The Panel may direct the agency not to exempt the information or to declassify it at an earlier date than recommended. An agency head may appeal such a decision to the President through the National Security Advisor. The information will remain classified while such an appeal is pending.

(k) For information in a file series of records determined not to have permanent historical value, the duration of classification beyond 25 years shall be the same as the disposition (destruction) date of those records in each Agency Records Control Schedule or General Records Schedule, although the duration of classification shall be extended if the record has been retained for business reasons beyond the scheduled disposition date.

SEC. 3.4. *Systematic Declassification Review.*

(a) Each agency that has originated classified information under this order or its predecessors shall establish and conduct a program for systematic declassification review for records of permanent historical value exempted from automatic declassification under section 3.3 of this order. Agencies shall prioritize their review of such records in accordance with priorities established by the Center.

(b) The Archivist shall conduct a systematic declassification review program for classified records:

(1) accessioned into the National Archives; (2) transferred to the Archivist pursuant to 44 U.S.C. 2203; and (3) for which the National Archives serves as the custodian for an agency or organization that has gone out of existence.

SEC. 3.5. *Mandatory Declassification Review.*

(a) Except as provided in paragraph (b) of this section, all information classified under this order or predecessor orders shall be subject to a review for declassification by the originating agency if:

(1) the request for a review describes the document or material containing the information with sufficient specificity to enable the agency to locate it with a reasonable amount of effort;

(2) the document or material containing the information responsive to the request is not contained within an operational file exempted from search and review, publication, and disclosure under 5 U.S.C. 552 in accordance with law; and

(3) the information is not the subject of pending litigation.

(b) Information originated by the incumbent President or the incumbent Vice President; the incumbent

President's White House Staff or the incumbent Vice President's Staff; committees, commissions, or boards appointed by the incumbent President; or other entities within the Executive Office of the President that solely advise and assist the incumbent President is exempted from the provisions of paragraph (a) of this section. However, the Archivist shall have the authority to review, downgrade, and declassify papers or records of former Presidents and Vice Presidents under the control of the Archivist pursuant to 44 U.S.C. 2107, 2111, 2111 note, or 2203. Review procedures developed by the Archivist shall provide for consultation with agencies having primary subject matter interest and shall be consistent with the provisions of applicable laws or lawful agreements that pertain to the respective Presidential papers or records. Agencies with primary subject matter interest shall be notified promptly of the Archivist's decision. Any final decision by the Archivist may be appealed by the requester or an agency to the Panel. The information shall remain classified pending a prompt decision on the appeal.

(c) Agencies conducting a mandatory review for declassification shall declassify information that no longer meets the standards for classification under this order. They shall release this information unless withholding is otherwise authorized and warranted under applicable law.

(d) If an agency has reviewed the requested information for declassification within the past 2 years, the agency need not conduct another review and may instead inform the requester of this fact and the prior review decision and advise the requester of appeal rights provided under subsection (e) of this section.

(e) In accordance with directives issued pursuant to this order, agency heads shall develop procedures to process requests for the mandatory review of classified information. These procedures shall apply to information classified under this or predecessor orders. They also shall provide a means for administratively appealing a denial of a mandatory review request, and for notifying the requester of the right to appeal a final agency decision to the Panel.

(f) After consultation with affected agencies, the Secretary of Defense shall develop special procedures for the review of cryptologic information; the Director of National Intelligence shall develop special procedures for the review of information pertaining to intelligence sources, methods, and activities; and the Archivist shall develop special procedures for the review of information accessioned into the National Archives.

(g) Documents required to be submitted for pre-publication review or other administrative process pursuant to an approved nondisclosure agreement are not covered by this section.

(h) This section shall not apply to any request for a review made to an element of the Intelligence Community that is made by a person other than an individual as that term is defined by 5 U.S.C. 552a(a)(2), or by a foreign government entity or any representative thereof.

SEC. 3.6. *Processing Requests and Reviews.* Notwithstanding section 4.1(i) of this order, in response to a request for information under the Freedom of Information Act, the Presidential Records Act, the Privacy Act of 1974, or the mandatory review provisions of this order:

(a) An agency may refuse to confirm or deny the existence or nonexistence of requested records whenever the fact of their existence or nonexistence is itself classified under this order or its predecessors.

(b) When an agency receives any request for documents in its custody that contain classified information that originated with other agencies or the disclosure of which would affect the interests or activities of other agencies with respect to the classified information, or identifies such documents in the process of implementing sections 3.3 or 3.4 of this order, it shall refer copies of any request and the pertinent documents to the originating agency for processing and may, after consultation with the originating agency, inform any

requester of the referral unless such association is itself classified under this order or its predecessors. In cases in which the originating agency determines in writing that a response under paragraph (a) of this section is required, the referring agency shall respond to the requester in accordance with that paragraph.

(c) Agencies may extend the classification of information in records determined not to have permanent historical value or nonrecord materials, including artifacts, beyond the time frames established in sections 1.5(b) and 2.2(f) of this order, provided:

(1) the specific information has been approved pursuant to section 3.3(j) of this order for exemption from automatic declassification; and

(2) the extension does not exceed the date established in section 3.3(j) of this order.

SEC. 3.7. *National Declassification Center.* (a) There is established within the National Archives a National Declassification Center to streamline declassification processes, facilitate quality-assurance measures, and implement standardized training regarding the declassification of records determined to have permanent historical value. There shall be a Director of the Center who shall be appointed or removed by the Archivist in consultation with the Secretaries of State, Defense, Energy, and Homeland Security, the Attorney General, and the Director of National Intelligence.

(b) Under the administration of the Director, the Center shall coordinate:

(1) timely and appropriate processing of referrals in accordance with section 3.3(d)(3) of this order for accessioned Federal records and transferred presidential records.

(2) general interagency declassification activities necessary to fulfill the requirements of sections 3.3 and 3.4 of this order;

(3) the exchange among agencies of detailed declassification guidance to enable the referral of records in accordance with section 3.3(d)(3) of this order;

(4) the development of effective, transparent, and standard declassification work processes, training, and quality assurance measures;

(5) the development of solutions to declassification challenges posed by electronic records, special media, and emerging technologies;

(6) the linkage and effective utilization of existing agency databases and the use of new technologies to document and make public declassification review decisions and support declassification activities under the purview of the Center; and

(7) storage and related services, on a reimbursable basis, for Federal records containing classified national security information.

(c) Agency heads shall fully cooperate with the Archivist in the activities of the Center and shall:

(1) provide the Director with adequate and current declassification guidance to enable the referral of records in accordance with section 3.3(d)(3) of this order; and

(2) upon request of the Archivist, assign agency personnel to the Center who shall be delegated authority by the agency head to review and exempt or declassify information originated by their agency contained in records accessioned into the National Archives, after consultation with subject-matter experts as necessary.

(d) The Archivist, in consultation with representatives of the participants in the Center and after input from the general public, shall develop priorities for declassification activities under the purview of the Center that take into account the degree of researcher interest and the likelihood of declassification.

(e) Agency heads may establish such centralized facilities and internal operations to conduct internal declassification reviews as appropriate to achieve optimized records management and declassification business processes. Once established, all referral processing of accessioned records shall take place at the Center, and such agency facilities and operations shall be coordinated with the Center to ensure the maximum degree of consistency in policies and procedures that re-

late to records determined to have permanent historical value.

(f) Agency heads may exempt from automatic declassification or continue the classification of their own originally classified information under section 3.3(a) of this order except that in the case of the Director of National Intelligence, the Director shall also retain such authority with respect to the Intelligence Community.

(g) The Archivist shall, in consultation with the Secretaries of State, Defense, Energy, and Homeland Security, the Attorney General, the Director of National Intelligence, the Director of the Central Intelligence Agency, and the Director of the Information Security Oversight Office, provide the National Security Advisor with a detailed concept of operations for the Center and a proposed implementing directive under section 5.1 of this order that reflects the coordinated views of the aforementioned agencies.

PART 4—SAFEGUARDING

SEC. 4.1. *General Restrictions on Access.*

(a) A person may have access to classified information provided that:

(1) a favorable determination of eligibility for access has been made by an agency head or the agency head's designee;

(2) the person has signed an approved nondisclosure agreement; and

(3) the person has a need-to-know the information.

(b) Every person who has met the standards for access to classified information in paragraph (a) of this section shall receive contemporaneous training on the proper safeguarding of classified information and on the criminal, civil, and administrative sanctions that may be imposed on an individual who fails to protect classified information from unauthorized disclosure.

(c) An official or employee leaving agency service may not remove classified information from the agency's control or direct that information be declassified in order to remove it from agency control.

(d) Classified information may not be removed from official premises without proper authorization.

(e) Persons authorized to disseminate classified information outside the executive branch shall ensure the protection of the information in a manner equivalent to that provided within the executive branch.

(f) Consistent with law, executive orders, directives, and regulations, an agency head or senior agency official or, with respect to the Intelligence Community, the Director of National Intelligence, shall establish uniform procedures to ensure that automated information systems, including networks and telecommunications systems, that collect, create, communicate, compute, disseminate, process, or store classified information:

(1) prevent access by unauthorized persons;

(2) ensure the integrity of the information; and

(3) to the maximum extent practicable, use:

(A) common information technology standards, protocols, and interfaces that maximize the availability of, and access to, the information in a form and manner that facilitates its authorized use; and

(B) standardized electronic formats to maximize the accessibility of information to persons who meet the criteria set forth in section 4.1(a) of this order.

(g) Consistent with law, executive orders, directives, and regulations, each agency head or senior agency official, or with respect to the Intelligence Community, the Director of National Intelligence, shall establish controls to ensure that classified information is used, processed, stored, reproduced, transmitted, and destroyed under conditions that provide adequate protection and prevent access by unauthorized persons.

(h) Consistent with directives issued pursuant to this order, an agency shall safeguard foreign government information under standards that provide a degree of protection at least equivalent to that required by the government or international organization of governments that furnished the information. When adequate to achieve equivalency, these standards may be less re-

strictive than the safeguarding standards that ordinarily apply to U.S. "Confidential" information, including modified handling and transmission and allowing access to individuals with a need-to-know who have not otherwise been cleared for access to classified information or executed an approved nondisclosure agreement.

(1)(1) Classified information originating in one agency may be disseminated to another agency or U.S. entity by any agency to which it has been made available without the consent of the originating agency, as long as the criteria for access under section 4.1(a) of this order are met, unless the originating agency has determined that prior authorization is required for such dissemination and has marked or indicated such requirement on the medium containing the classified information in accordance with implementing directives issued pursuant to this order.

(2) Classified information originating in one agency may be disseminated by any other agency to which it has been made available to a foreign government in accordance with statute, this order, directives implementing this order, direction of the President, or with the consent of the originating agency. For the purposes of this section, "foreign government" includes any element of a foreign government, or an international organization of governments, or any element thereof.

(3) Documents created prior to the effective date of this order shall not be disseminated outside any other agency to which they have been made available without the consent of the originating agency. An agency head or senior agency official may waive this requirement for specific information that originated within that agency.

(4) For purposes of this section, the Department of Defense shall be considered one agency, except that any dissemination of information regarding intelligence sources, methods, or activities shall be consistent with directives issued pursuant to section 6.2(b) of this order.

(5) Prior consent of the originating agency is not required when referring records for declassification review that contain information originating in more than one agency.

SEC. 4.2. *Distribution Controls.*

(a) The head of each agency shall establish procedures in accordance with applicable law and consistent with directives issued pursuant to this order to ensure that classified information is accessible to the maximum extent possible by individuals who meet the criteria set forth in section 4.1(a) of this order.

(b) In an emergency, when necessary to respond to an imminent threat to life or in defense of the homeland, the agency head or any designee may authorize the disclosure of classified information (including information marked pursuant to section 4.1(i)(1) of this order) to an individual or individuals who are otherwise not eligible for access. Such actions shall be taken only in accordance with directives implementing this order and any procedure issued by agencies governing the classified information, which shall be designed to minimize the classified information that is disclosed under these circumstances and the number of individuals who receive it. Information disclosed under this provision or implementing directives and procedures shall not be deemed declassified as a result of such disclosure or subsequent use by a recipient. Such disclosures shall be reported promptly to the originator of the classified information. For purposes of this section, the Director of National Intelligence may issue an implementing directive governing the emergency disclosure of classified intelligence information.

(c) Each agency shall update, at least annually, the automatic, routine, or recurring distribution mechanism for classified information that it distributes. Recipients shall cooperate fully with distributors who are updating distribution lists and shall notify distributors whenever a relevant change in status occurs.

SEC. 4.3. *Special Access Programs.* (a) Establishment of special access programs. Unless otherwise authorized

by the President, only the Secretaries of State, Defense, Energy, and Homeland Security, the Attorney General, and the Director of National Intelligence, or the principal deputy of each, may create a special access program. For special access programs pertaining to intelligence sources, methods, and activities (but not including military operational, strategic, and tactical programs), this function shall be exercised by the Director of National Intelligence. These officials shall keep the number of these programs at an absolute minimum, and shall establish them only when the program is required by statute or upon a specific finding that:

- (1) the vulnerability of, or threat to, specific information is exceptional; and
- (2) the normal criteria for determining eligibility for access applicable to information classified at the same level are not deemed sufficient to protect the information from unauthorized disclosure.

(b) Requirements and limitations.

(1) Special access programs shall be limited to programs in which the number of persons who ordinarily will have access will be reasonably small and commensurate with the objective of providing enhanced protection for the information involved.

(2) Each agency head shall establish and maintain a system of accounting for special access programs consistent with directives issued pursuant to this order.

(3) Special access programs shall be subject to the oversight program established under section 5.4(d) of this order. In addition, the Director of the Information Security Oversight Office shall be afforded access to these programs, in accordance with the security requirements of each program, in order to perform the functions assigned to the Information Security Oversight Office under this order. An agency head may limit access to a special access program to the Director of the Information Security Oversight Office and no more than one other employee of the Information Security Oversight Office or, for special access programs that are extraordinarily sensitive and vulnerable, to the Director only.

(4) The agency head or principal deputy shall review annually each special access program to determine whether it continues to meet the requirements of this order.

(5) Upon request, an agency head shall brief the National Security Advisor, or a designee, on any or all of the agency's special access programs.

(6) For the purposes of this section, the term "agency head" refers only to the Secretaries of State, Defense, Energy, and Homeland Security, the Attorney General, and the Director of National Intelligence, or the principal deputy of each.

(c) Nothing in this order shall supersede any requirement made by or under 10 U.S.C. 119.

SEC. 4.4. *Access by Historical Researchers and Certain Former Government Personnel.*

(a) The requirement in section 4.1(a)(3) of this order that access to classified information may be granted only to individuals who have a need-to-know the information may be waived for persons who:

- (1) are engaged in historical research projects;
- (2) previously have occupied senior policy-making positions to which they were appointed or designated by the President or the Vice President; or
- (3) served as President or Vice President.

(b) Waivers under this section may be granted only if the agency head or senior agency official of the originating agency:

- (1) determines in writing that access is consistent with the interest of the national security;
- (2) takes appropriate steps to protect classified information from unauthorized disclosure or compromise, and ensures that the information is safeguarded in a manner consistent with this order; and
- (3) limits the access granted to former Presidential appointees or designees and Vice Presidential appointees or designees to items that the person originated, reviewed, signed, or received while serving as a Presidential or Vice Presidential appointee or designee.

PART 5—IMPLEMENTATION AND REVIEW

SEC. 5.1. *Program Direction.* (a) The Director of the Information Security Oversight Office, under the direction of the Archivist and in consultation with the National Security Advisor, shall issue such directives as are necessary to implement this order. These directives shall be binding on the agencies. Directives issued by the Director of the Information Security Oversight Office shall establish standards for:

- (1) classification, declassification, and marking principles;
- (2) safeguarding classified information, which shall pertain to the handling, storage, distribution, transmittal, and destruction of and accounting for classified information;
- (3) agency security education and training programs;
- (4) agency self-inspection programs; and
- (5) classification and declassification guides.

(b) The Archivist shall delegate the implementation and monitoring functions of this program to the Director of the Information Security Oversight Office.

(c) The Director of National Intelligence, after consultation with the heads of affected agencies and the Director of the Information Security Oversight Office, may issue directives to implement this order with respect to the protection of intelligence sources, methods, and activities. Such directives shall be consistent with this order and directives issued under paragraph (a) of this section.

SEC. 5.2. *Information Security Oversight Office.* (a) There is established within the National Archives an Information Security Oversight Office. The Archivist shall appoint the Director of the Information Security Oversight Office, subject to the approval of the President.

(b) Under the direction of the Archivist, acting in consultation with the National Security Advisor, the Director of the Information Security Oversight Office shall:

- (1) develop directives for the implementation of this order;
- (2) oversee agency actions to ensure compliance with this order and its implementing directives;
- (3) review and approve agency implementing regulations prior to their issuance to ensure their consistency with this order and directives issued under section 5.1(a) of this order;
- (4) have the authority to conduct on-site reviews of each agency's program established under this order, and to require of each agency those reports and information and other cooperation that may be necessary to fulfill its responsibilities. If granting access to specific categories of classified information would pose an exceptional national security risk, the affected agency head or the senior agency official shall submit a written justification recommending the denial of access to the President through the National Security Advisor within 60 days of the request for access. Access shall be denied pending the response;

(5) review requests for original classification authority from agencies or officials not granted original classification authority and, if deemed appropriate, recommend Presidential approval through the National Security Advisor;

(6) consider and take action on complaints and suggestions from persons within or outside the Government with respect to the administration of the program established under this order;

(7) have the authority to prescribe, after consultation with affected agencies, standardization of forms or procedures that will promote the implementation of the program established under this order;

(8) report at least annually to the President on the implementation of this order; and

(9) convene and chair interagency meetings to discuss matters pertaining to the program established by this order.

SEC. 5.3. *Interagency Security Classification Appeals Panel.*

(a) Establishment and administration.

(1) There is established an Interagency Security Classification Appeals Panel. The Departments of State, Defense, and Justice, the National Archives, the Office of the Director of National Intelligence, and the National Security Advisor shall each be represented by a senior-level representative who is a full-time or permanent part-time Federal officer or employee designated to serve as a member of the Panel by the respective agency head. The President shall designate a Chair from among the members of the Panel.

(2) Additionally, the Director of the Central Intelligence Agency may appoint a temporary representative who meets the criteria in paragraph (a)(1) of this section to participate as a voting member in all Panel deliberations and associated support activities concerning classified information originated by the Central Intelligence Agency.

(3) A vacancy on the Panel shall be filled as quickly as possible as provided in paragraph (a)(1) of this section.

(4) The Director of the Information Security Oversight Office shall serve as the Executive Secretary of the Panel. The staff of the Information Security Oversight Office shall provide program and administrative support for the Panel.

(5) The members and staff of the Panel shall be required to meet eligibility for access standards in order to fulfill the Panel's functions.

(6) The Panel shall meet at the call of the Chair. The Chair shall schedule meetings as may be necessary for the Panel to fulfill its functions in a timely manner.

(7) The Information Security Oversight Office shall include in its reports to the President a summary of the Panel's activities.

(b) Functions. The Panel shall:

(1) decide on appeals by persons who have filed classification challenges under section 1.8 of this order;

(2) approve, deny, or amend agency exemptions from automatic declassification as provided in section 3.3 of this order;

(3) decide on appeals by persons or entities who have filed requests for mandatory declassification review under section 3.5 of this order; and

(4) appropriately inform senior agency officials and the public of final Panel decisions on appeals under sections 1.8 and 3.5 of this order.

(c) Rules and procedures. The Panel shall issue bylaws, which shall be published in the Federal Register. The bylaws shall establish the rules and procedures that the Panel will follow in accepting, considering, and issuing decisions on appeals. The rules and procedures of the Panel shall provide that the Panel will consider appeals only on actions in which:

(1) the appellant has exhausted his or her administrative remedies within the responsible agency;

(2) there is no current action pending on the issue within the Federal courts; and

(3) the information has not been the subject of review by the Federal courts or the Panel within the past 2 years.

(d) Agency heads shall cooperate fully with the Panel so that it can fulfill its functions in a timely and fully informed manner. SECTION 1. *Establishment and Policy.*

SEC. 1.1. There is established a Classified National Security Information Program (Program) designed to safeguard and govern access to classified national security information shared by the Federal Government with State, local, tribal, and private sector (SLTPS) entities.

SEC. 1.2. The purpose of this order is to ensure that security standards governing access to and safeguarding of classified material are applied in accordance with Executive Order 13526 of December 29, 2009 (“Classified National Security Information”), Executive Order 12968 of August 2, 1995, as amended (“Access to Classified Information”), Executive Order 13467 of June 30, 2008 (“Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information”), and Executive Order 12829 of January 6, 1993, as amended (“National Industrial Security Program”). (a) Eligibility for access to classified information by SLTPS personnel shall be determined by a sponsoring agency. The level of access granted shall not exceed the Secret level, unless the sponsoring agency determines on a case-by-case basis that the applicant has a demonstrated and foreseeable need for access to Top Secret, Special Access Program, or Sensitive Compartmented Information.

(g) Nothing in this order limits the protection afforded any classified information by other provisions of law. This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(h) Nothing in this order shall be construed to oblige action or otherwise affect functions by the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

EX. ORD. NO. 13587. STRUCTURAL REFORMS TO IMPROVE THE SECURITY OF CLASSIFIED NETWORKS AND THE RESPONSIBLE SHARING AND SAFEGUARDING OF CLASSIFIED INFORMATION

Ex. Ord. No. 13587, Oct. 7, 2011, 76 F.R. 63811, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America and in order to ensure the responsible sharing and safeguarding of classified national security information (classified information) on computer networks, it is hereby ordered as follows:

SECTION 1. *Policy.* Our Nation’s security requires classified information to be shared immediately with authorized users around the world but also requires sophisticated and vigilant means to ensure it is shared securely. Computer networks have individual and common vulnerabilities that require coordinated decisions on risk management.

This order directs structural reforms to ensure responsible sharing and safeguarding of classified information on computer networks that shall be consistent with appropriate protections for privacy and civil liberties. Agencies bear the primary responsibility for meeting these twin goals. These structural reforms will ensure coordinated interagency development and reliable implementation of policies and minimum standards regarding information security, personnel security, and systems security; address both internal and external security threats and vulnerabilities; and provide policies and minimum standards for sharing classified information both within and outside the Federal Government. These policies and minimum standards will address all agencies that operate or access classified computer networks, all users of classified computer networks (including contractors and others who operate or access classified computer networks controlled by the Federal Government), and all classified information on those networks.

SEC. 2. *General Responsibilities of Agencies.*

SEC. 2.1. The heads of agencies that operate or access classified computer networks shall have responsibility for appropriately sharing and safeguarding classified information on computer networks. As part of this responsibility, they shall:

(a) designate a senior official to be charged with overseeing classified information sharing and safeguarding efforts for the agency;

(b) implement an insider threat detection and prevention program consistent with guidance and standards developed by the Insider Threat Task Force established in section 6 of this order;

(c) perform self-assessments of compliance with policies and standards issued pursuant to sections 3.3, 5.2, and 6.3 of this order, as well as other applicable policies and standards, the results of which shall be reported annually to the Senior Information Sharing and Safeguarding Steering Committee established in section 3 of this order;

(d) provide information and access, as warranted and consistent with law and section 7(d) of this order, to enable independent assessments by the Executive Agent for Safeguarding Classified Information on Computer

Networks and the Insider Threat Task Force of compliance with relevant established policies and standards; and

(e) detail or assign staff as appropriate and necessary to the Classified Information Sharing and Safeguarding Office and the Insider Threat Task Force on an ongoing basis.

SEC. 3. *Senior Information Sharing and Safeguarding Steering Committee.*

SEC. 3.1. There is established a Senior Information Sharing and Safeguarding Steering Committee (Steering Committee) to exercise overall responsibility and ensure senior-level accountability for the coordinated interagency development and implementation of policies and standards regarding the sharing and safeguarding of classified information on computer networks.

SEC. 3.2. The Steering Committee shall be co-chaired by senior representatives of the Office of Management and Budget and the National Security Staff. Members of the committee shall be officers of the United States as designated by the heads of the Departments of State, Defense, Justice, Energy, and Homeland Security, the Office of the Director of National Intelligence, the Central Intelligence Agency, and the Information Security Oversight Office within the National Archives and Records Administration (ISOO), as well as such additional agencies as the co-chairs of the Steering Committee may designate.

SEC. 3.3. The responsibilities of the Steering Committee shall include:

(a) establishing Government-wide classified information sharing and safeguarding goals and annually reviewing executive branch successes and shortcomings in achieving those goals;

(b) preparing within 90 days of the date of this order and at least annually thereafter, a report for the President assessing the executive branch's successes and shortcomings in sharing and safeguarding classified information on computer networks and discussing potential future vulnerabilities;

(c) developing program and budget recommendations to achieve Government-wide classified information sharing and safeguarding goals;

(d) coordinating the interagency development and implementation of priorities, policies, and standards for sharing and safeguarding classified information on computer networks;

(e) recommending overarching policies, when appropriate, for promulgation by the Office of Management and Budget or the ISOO;

(f) coordinating efforts by agencies, the Executive Agent, and the Task Force to assess compliance with established policies and standards and recommending corrective actions needed to ensure compliance;

(g) providing overall mission guidance for the Program Manager-Information Sharing Environment (PM-ISE) with respect to the functions to be performed by the Classified Information Sharing and Safeguarding Office established in section 4 of this order; and

(h) referring policy and compliance issues that cannot be resolved by the Steering Committee to the Deputies Committee of the National Security Council in accordance with Presidential Policy Directive/PPD-1 of February 13, 2009 (Organization of the National Security Council System).

SEC. 4. *Classified Information Sharing and Safeguarding Office.*

SEC. 4.1. There shall be established a Classified Information Sharing and Safeguarding Office (CISSO) within and subordinate to the office of the PM-ISE to provide expert, full-time, sustained focus on responsible sharing and safeguarding of classified information on computer networks. Staff of the CISSO shall include detailees, as needed and appropriate, from agencies represented on the Steering Committee.

SEC. 4.2. The responsibilities of CISSO shall include:

(a) providing staff support for the Steering Committee;

(b) advising the Executive Agent for Safeguarding Classified Information on Computer Networks and the Insider Threat Task Force on the development of an effective program to monitor compliance with established policies and standards needed to achieve classified information sharing and safeguarding goals; and

SEC. 5. *Executive Agent for Safeguarding Classified Information on Computer Networks.*

SEC. 5.1. The Secretary of Defense and the Director, National Security Agency, shall jointly act as the Executive Agent for Safeguarding Classified Information on Computer Networks (the "Executive Agent"), exercising the existing authorities of the Executive Agent and National Manager for national security systems, respectively, under National Security Directive/NSD-42 of July 5, 1990, as supplemented by and subject to this order.

SEC. 5.2. The Executive Agent's responsibilities, in addition to those specified by NSD-42, shall include the following:

(a) developing effective technical safeguarding policies and standards in coordination with the Committee on National Security Systems (CNSS), as re-designated by Executive Orders 13286 of February 28, 2003, and 13231 of October 16, 2001, that address the safeguarding of classified information within national security systems, as well as the safeguarding of national security systems themselves;

(b) referring to the Steering Committee for resolution any unresolved issues delaying the Executive Agent's timely development and issuance of technical policies and standards;

(c) reporting at least annually to the Steering Committee on the work of CNSS, including recommendations for any changes needed to improve the timeliness and effectiveness of that work; and

(d) conducting independent assessments of agency compliance with established safeguarding policies and standards, and reporting the results of such assessments to the Steering Committee.

SEC. 6. *Insider Threat Task Force.*

SEC. 6.1. There is established an interagency Insider Threat Task Force that shall develop a Government-wide program (insider threat program) for deterring, detecting, and mitigating insider threats, including the safeguarding of classified information from exploitation, compromise, or other unauthorized disclosure, taking into account risk levels, as well as the distinct needs, missions, and systems of individual agencies. This program shall include development of policies, objectives, and priorities for establishing and integrating security, counterintelligence, user audits and monitoring, and other safeguarding capabilities and practices within agencies.

SEC. 6.2. The Task Force shall be co-chaired by the Attorney General and the Director of National Intelligence, or their designees. Membership on the Task Force shall be composed of officers of the United States from, and designated by the heads of, the Departments of State, Defense, Justice, Energy, and Homeland Security, the Office of the Director of National Intelligence, the Central Intelligence Agency, and the ISOO, as well as such additional agencies as the co-chairs of the Task Force may designate. It shall be staffed by personnel from the Federal Bureau of Investigation and the Office of the National Counterintelligence Executive (ONCIX), and other agencies, as determined by the co-chairs for their respective agencies and to the extent permitted by law. Such personnel must be officers or full-time or permanent part-time employees of the United States. To the extent permitted by law, ONCIX shall provide an appropriate work site and administrative support for the Task Force.

SEC. 6.3. The Task Force's responsibilities shall include the following:

(a) developing, in coordination with the Executive Agent, a Government-wide policy for the deterrence, detection, and mitigation of insider threats, which shall be submitted to the Steering Committee for appropriate review;

(b) in coordination with appropriate agencies, developing minimum standards and guidance for implementation of the insider threat program's Government-wide policy and, within 1 year of the date of this order, issuing those minimum standards and guidance, which shall be binding on the executive branch;

(c) if sufficient appropriations or authorizations are obtained, continuing in coordination with appropriate agencies after 1 year from the date of this order to add to or modify those minimum standards and guidance, as appropriate;

(d) if sufficient appropriations or authorizations are not obtained, recommending for promulgation by the Office of Management and Budget or the ISOO any additional or modified minimum standards and guidance developed more than 1 year after the date of this order;

(f) conducting, in accordance with procedures to be developed by the Task Force, independent assessments of the adequacy of agency programs to implement established policies and minimum standards, and reporting the results of such assessments to the Steering Committee;

(g) providing assistance to agencies, as requested, including through the dissemination of best practices; and

(h) providing analysis of new and continuing insider threat challenges facing the United States Government.

EX. ORD. NO. 14040. DECLASSIFICATION REVIEWS OF CERTAIN DOCUMENTS CONCERNING THE TERRORIST ATTACKS OF SEPTEMBER 11, 2001

Ex. Ord. No. 14040, Sept. 3, 2021, 86 F.R. 50439, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby order as follows:

SECTION 1. *Policy.* Many Americans continue to seek full accountability for the horrific attacks of September 11, 2001 (9/11), including 9/11 survivors and victims' family members. As the 20th anniversary of 9/11 approaches, the American people deserve to have a fuller picture of what their Government knows about those attacks. Although the indiscriminate release of classified information could jeopardize the national security—including the United States Government's efforts to protect against future acts of terrorism—information should not remain classified when the public interest in disclosure outweighs any damage to the national security that might reasonably be expected from disclosure. The significant events in question occurred two decades ago or longer, and they concern a tragic moment that continues to resonate in American history and in the lives of so many Americans. It is therefore critical to ensure that the United States Government maximizes transparency, relying on classification only when narrowly tailored and necessary. Thus, information collected and generated in the United States Government's investigation of the 9/11 terrorist attacks should now be disclosed, except when the strongest possible reasons counsel otherwise.

SEC. 2. *Declassification Reviews.* The Attorney General and the heads of any other executive departments and agencies (agencies) that originated relevant information shall complete declassification reviews:

(a) not later than September 11, 2021, of the Federal Bureau of Investigation (FBI) electronic communication dated April 4, 2016, from the subfile investigation described in chapter V of the 2015 Report of the Congressionally-directed 9/11 Review Commission to the Director of the FBI (subfile investigation), which was identified but withheld in full during discovery in *In re Terrorist Attacks on September 11, 2001*, MDL No. 03-1570 (S.D.N.Y.);

(b) not later than 60 days after the date of this order [Sept. 3, 2021], of:

(i) all other records that previously were withheld as classified, in full or in part, during discovery in *In re Terrorist Attacks on September 11, 2001*; and

(ii) the 2021 FBI electronic communication closing the subfile investigation;

(c) not later than 120 days after the date of this order, of all interview reports, analytical documents, documents reporting investigative findings, or other substantive records (including phone records and banking records, if any) from the FBI's initial investigation of the 9/11 terrorist attacks—known as the Pentagon/Twin Towers Bombings (PENTTBOM) investigation—that reference the individual subjects of the subfile investigation and may be found through search terms, keyword identifiers, and other diligent means; and

(d) not later than 180 days after the date of this order, of all records from any separate FBI investigation other than the PENTTBOM investigation or the subfile investigation of any individual subjects of the subfile investigation that are relevant to the 9/11 terrorist attacks or to any of the individual subjects' connection to an agency relationship with a foreign government.

SEC. 3. *Standards for Declassification.* (a) Consistent with Executive Order 13526 of December 29, 2009 (Classified National Security Information) [set out above], the Attorney General or the head of any other agency that originated the information, as the case may be, shall be responsible for conducting the declassification reviews and making declassification determinations for information that originated within their respective agency. Information may remain classified only if it still requires protection in the interest of the national security and disclosure of the information reasonably could be expected to result in damage to the national security. Information shall not remain classified if there is significant doubt about the need to maintain its classified status. Nor shall information remain classified in order to conceal violations of law, inefficiency, or administrative error or to prevent embarrassment to a person, organization, or agency.

(b) Even when information requires continued protection in the interest of the national security, the Attorney General or the head of any other agency that originated the information, as the case may be, should determine, as an exercise of discretion, whether the public interest in disclosure of the information outweighs the damage to the national security that might reasonably be expected from disclosure.

(c) Upon the completion of the declassification reviews under section 2 of this order, the Attorney General and the heads of any other agencies that originated relevant information shall ensure that, as to all information subject to such reviews but not declassified pursuant to such reviews:

(i) such information meets the requirements for classification, in accordance with Executive Order 13526;

(ii) all non-classified information is disentangled from any classified information and, to the extent practicable, made available to the public under section 5 of this order; and

(iii) all information is nonetheless declassified, in accordance with section 3.1 of Executive Order 13526, or any successor order, when the Attorney General or the head of any other agency that originated the information, as the case may be, determines that the United States Government's interest in classification is outweighed by the public's interest in disclosure.

SEC. 4. *Report to the President and the Congressional Intelligence Committees.* Upon completion of each review, the Attorney General, in consultation with the heads of any other agencies that originated relevant information, shall submit to the President, through the Assistant to the President for National Security Affairs, and to the congressional intelligence committees, reports on the results of the declassification reviews completed under section 2 of this order, including a justification for each decision not to declassify information pursuant to such reviews.

SEC. 5. *Public Release.* Upon completion of each review, the Attorney General, in consultation with the heads of any other agencies that originated relevant information, shall make publicly available information declassified as a result of the declassification reviews

completed under section 2 of this order, except for information the disclosure of which would materially impair confidential executive branch deliberations.

SEC. 6. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law, including the Privacy Act [5 U.S.C. 552a], and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

J.R. BIDEN, JR.

IMPLEMENTATION OF THE EXECUTIVE ORDER, "CLASSIFIED NATIONAL SECURITY INFORMATION"

Memorandum of President of the United States, Dec. 29, 2009, 75 F.R. 733, provided:

Memorandum for the Heads of Executive Departments and Agencies

Today I have signed an executive order [Ex. Ord. No. 13526, set out above] entitled, "Classified National Security Information" (the "order"), which substantially advances my goals for reforming the security classification and declassification processes. I expect that the order will produce measurable progress towards greater openness and transparency in the Government's classification and declassification programs while protecting the Government's legitimate interests, and I will closely monitor the results. I also look forward to reviewing recommendations from the study that the National Security Advisor will undertake in cooperation with the Public Interest Declassification Board to design a more fundamental transformation of the security classification system. To further assist in fulfilling the goal of measurable progress toward greater openness and transparency, I hereby direct the following actions.

1. *Initial Implementation Efforts.*

Successful implementation of the order requires personal commitment from the heads of departments and agencies, as well as their senior officials. It also requires effective security education and training programs, self-inspection programs, and measures designed to hold personnel accountable.

In accordance with section 5.4 of the order, the head of each department and agency that creates or handles classified information shall provide the Director of the Information Security Oversight Office (ISOO) a copy of the department or agency regulations implementing the requirements of the order. Such regulations shall be issued in final form within 180 days of ISOO's publication of its implementing directive for the order. The Director of ISOO shall consider agency actions to implement the requirements of section 5.4 of the order as a key element in planning oversight of agencies. Each senior agency official designated under section 5.4(d) of the order shall provide ISOO with updates concerning agency plans and other actions to implement the requirements of the order. The Director of ISOO shall publish a periodic status report on agency implementation.

2. *Declassification of Records of Permanent Historical Value.*

Under the direction of the National Declassification Center (NDC), and utilizing recommendations of an ongoing Business Process Review in support of the NDC, referrals and quality assurance problems within a backlog of more than 400 million pages of accessioned Federal records previously subject to automatic declassification shall be addressed in a manner that will permit public access to all declassified records from this backlog no later than December 31, 2013. In order to

promote the efficient and effective utilization of finite resources available for declassification, further referrals of these records are not required except for those containing information that would clearly and demonstrably reveal: (a) the identity of a confidential human source or a human intelligence source; or (b) key design concepts of weapons of mass destruction.

The Secretaries of State, Defense, and Energy, and the Director of National Intelligence shall provide the Archivist of the United States with sufficient guidance to complete this task. The Archivist shall make public a report on the status of the backlog every 6 months.

3. *Delegation of Original Classification Authority.*

Delegations of original classification authority shall be limited to the minimum necessary to implement the order and only those individuals or positions with a demonstrable and continuing need to exercise such authority shall be delegated original classification authority.

Accordingly, heads of departments and agencies with original classification authority shall commence a review to ensure that all delegations of original classification authority are so limited and otherwise in accordance with section 1.3(c) of the order. Each department and agency shall submit a report on the results of this review to the Director of ISOO within 120 days of the date of this memorandum.

4. *Promotion of New Technologies to Support Declassification.*

Striking the critical balance between openness and secrecy is a difficult but necessary part of our democratic form of government. Striking this balance becomes more difficult as the volume and complexity of the information increases. Improving the capability of departments and agencies to identify still-sensitive information and to make declassified information available to the public are integral parts of the classification system.

Therefore, I am directing that the Secretary of Defense and the Director of National Intelligence each support research to assist the NDC in addressing the cross-agency challenges associated with declassification.

5. *Publication.* The Archivist of the United States is authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

EX. ORD. NO. 14093. PROHIBITION ON USE BY THE UNITED STATES GOVERNMENT OF COMMERCIAL SPYWARE THAT POSES RISKS TO NATIONAL SECURITY

Ex. Ord. No. 14093, Mar. 27, 2023, 88 F.R. 18957, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* Technology is central to the future of our national security, economy, and democracy. The United States has fundamental national security and foreign policy interests in (1) ensuring that technology is developed, deployed, and governed in accordance with universal human rights; the rule of law; and appropriate legal authorization, safeguards, and oversight, such that it supports, and does not undermine, democracy, civil rights and civil liberties, and public safety; and (2) mitigating, to the greatest extent possible, the risk emerging technologies may pose to United States Government institutions, personnel, information, and information systems.

To advance these interests, the United States supports the development of an international technology

ecosystem that protects the integrity of international standards development; enables and promotes the free flow of data and ideas with trust; protects our security, privacy, and human rights; and enhances our economic competitiveness. The growing exploitation of Americans' sensitive data and improper use of surveillance technology, including commercial spyware, threatens the development of this ecosystem. Foreign governments and persons have deployed commercial spyware against United States Government institutions, personnel, information, and information systems, presenting significant counterintelligence and security risks to the United States Government. Foreign governments and persons have also used commercial spyware for improper purposes, such as to target and intimidate perceived opponents; curb dissent; limit freedoms of expression, peaceful assembly, or association; enable other human rights abuses or suppression of civil liberties; and track or target United States persons without proper legal authorization, safeguards, or oversight.

The United States has a fundamental national security and foreign policy interest in countering and preventing the proliferation of commercial spyware that has been or risks being misused for such purposes, in light of the core interests of the United States in protecting United States Government personnel and United States citizens around the world; upholding and advancing democracy; promoting respect for human rights; and defending activists, dissidents, and journalists against threats to their freedom and dignity. To advance these interests and promote responsible use of commercial spyware, the United States must establish robust protections and procedures to ensure that any United States Government use of commercial spyware helps protect its information systems and intelligence and law enforcement activities against significant counterintelligence or security risks; aligns with its core interests in promoting democracy and democratic values around the world; and ensures that the United States Government does not contribute, directly or indirectly, to the proliferation of commercial spyware that has been misused by foreign governments or facilitate such misuse.

Therefore, I hereby establish as the policy of the United States Government that it shall not make operational use of commercial spyware that poses significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person. In furtherance of the national security and foreign policy interests of the United States, this order accordingly directs steps to implement that policy and protect the safety and security of United States Government institutions, personnel, information, and information systems; discourage the improper use of commercial spyware; and encourage the development and implementation of responsible norms regarding the use of commercial spyware that are consistent with respect for the rule of law, human rights, and democratic norms and values. The actions directed in this order are consistent with the policy objectives set forth in section 6318 of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023 (NDAA FY 2023) (Public Law 117-263) [enacting this section and provisions set out as notes above] and section 5502 of the National Defense Authorization Act for Fiscal Year 2022 (NDAA FY 2022) (Public Law 117-81) [22 U.S.C. 2679e].

SEC. 2. Prohibition on Operational Use. (a) Executive departments and agencies (agencies) shall not make operational use of commercial spyware where they determine, based on credible information, that such use poses significant counterintelligence or security risks to the United States Government or that the commercial spyware poses significant risks of improper use by a foreign government or foreign person. For the purposes of this use prohibition:

(i) Commercial spyware may pose counterintelligence or security risks to the United States Government when:

(A) a foreign government or foreign person has used or acquired the commercial spyware to gain or attempt to gain access to United States Government computers or the computers of United States Government personnel without authorization from the United States Government; or

(B) the commercial spyware was or is furnished by an entity that:

(1) maintains, transfers, or uses data obtained from the commercial spyware without authorization from the licensed end-user or the United States Government;

(2) has disclosed or intends to disclose non-public United States Government information or non-public information about the activities of the United States Government without authorization from the United States Government; or

(3) is under the direct or effective control of a foreign government or foreign person engaged in intelligence activities, including surveillance or espionage, directed against the United States.

(ii) Commercial spyware may pose risks of improper use by a foreign government or foreign person when:

(A) the commercial spyware, or other commercial spyware furnished by the same vendor, has been used by a foreign government or foreign person for any of the following purposes:

(1) to collect information on activists, academics, journalists, dissidents, political figures, or members of non-governmental organizations or marginalized communities in order to intimidate such persons; curb dissent or political opposition; otherwise limit freedoms of expression, peaceful assembly, or association; or enable other forms of human rights abuses or suppression of civil liberties; or

(2) to monitor a United States person, without such person's consent, in order to facilitate the tracking or targeting of the person without proper legal authorization, safeguards, and oversight; or

(B) the commercial spyware was furnished by an entity that provides commercial spyware to governments for which there are credible reports in the annual country reports on human rights practices of the Department of State that they engage in systematic acts of political repression, including arbitrary arrest or detention, torture, extrajudicial or politically motivated killing, or other gross violations of human rights, consistent with any findings by the Department of State pursuant to section 5502 of the NDAA FY 2022 or other similar findings.

(iii) In determining whether the operational use of commercial spyware poses significant counterintelligence or security risks to the United States Government or poses significant risks of improper use by a foreign government or foreign person, such that operational use should be prohibited, agencies shall consider, among other relevant considerations, whether the entity furnishing the commercial spyware knew or reasonably should have known that the spyware posed risks described in subsections (a)(i) or (ii) of this section, and whether the entity has taken appropriate measures to remove such risks, such as canceling relevant licensing agreements or contracts that present such risks; taking other verifiable action to prevent continuing uses that present such risks; or cooperating in United States Government efforts to counter improper use of the spyware.

(b) An agency shall not request or directly enable a third party to make operational use of commercial spyware where the agency has determined that such use poses significant counterintelligence or security risks to the United States Government or that the commercial spyware poses significant risks of improper use by a foreign government or foreign person, as described in subsection (a) of this section. For purposes of this order, the term "operational use" includes such indirect use.

(c) To facilitate effective interagency coordination of information relevant to the factors set forth in sub-

section (a) of this section and to promote consistency of application of this order across the United States Government, the Director of National Intelligence (DNI) shall, within 90 days of the date of this order [Mar. 27, 2023], and on a semiannual basis thereafter, issue a classified intelligence assessment that integrates relevant information—including intelligence, open source, financial, sanctions-related, and export controls-related information—on foreign commercial spyware or foreign government or foreign person use of commercial spyware relevant to the factors set forth in subsection (a) of this section. The intelligence assessment shall incorporate, but not be limited to, the report and assessment required by section 1102A(b) of the National Security Act of 1947 [50 U.S.C. 3232a(b)], 50 U.S.C. 3001 *et seq.*, as amended by section 6318(c) of the NDAA FY 2023. In order to facilitate the production of the intelligence assessment, the head of each agency shall, on an ongoing basis, provide the DNI all new credible information obtained by the agency on foreign commercial spyware vendors or foreign government or foreign person use of commercial spyware relevant to the factors set forth in subsection (a) of this section. Such information shall include intelligence, open source, financial, sanctions-related, export controls-related, and due diligence information, as well as information relevant to the development of the list of covered contractors developed or maintained pursuant to section 5502 of the NDAA FY 2022 or other similar information.

(d) Any agency that makes a determination of whether operational use of a commercial spyware product is prohibited under subsection (a) of this section shall provide the results of that determination and key elements of the underlying analysis to the DNI. After consulting with the submitting agency to protect operational sensitivities, the DNI shall incorporate this information into the intelligence assessment described in subsection (c) of this section and, as needed, shall make this information available to other agencies consistent with section 3(b) of this order.

(e) The Assistant to the President for National Security Affairs (APNSA), or a designee, shall, within 30 days of the issuance of the intelligence assessment described in subsection (c) of this section, and additionally as the APNSA or designee deems necessary, convene agencies to discuss the intelligence assessment, as well as any other information about commercial spyware relevant to the factors set forth in subsection (a) of this section, in order to ensure effective inter-agency awareness and sharing of such information.

(f) For any commercial spyware intended by an agency for operational use, a relevant official, as provided in section 5(k) of this order, shall certify the determination that the commercial spyware does not pose significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person based on the factors set forth in subsection (a) of this section. The obligation to certify such a determination shall not be delegated, except as provided in section 5(k) of this order.

(g) If an agency decides to make operational use of commercial spyware, the head of the agency shall notify the APNSA of such decision, describing the due diligence completed before the decision was made, providing relevant information on the agency's consideration of the factors set forth in subsection (a) of this section, and providing the reasons for the agency's determination. The agency may not make operational use of the commercial spyware until at least 7 days after providing this information or until the APNSA has notified the agency that no further process is required.

(h) Within 90 days of the issuance of the intelligence assessment described in subsection (c) of this section, each agency shall review all existing operational uses of commercial spyware and discontinue, as soon as the head of the agency determines is reasonably possible without compromising ongoing operations, operational use of any commercial spyware that the agency deter-

mines poses significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person, pursuant to subsection (a) of this section.

(i) Within 180 days of the date of this order, each agency that may make operational use of commercial spyware shall develop appropriate internal controls and oversight procedures for conducting determinations under subsection (a) of this section, as appropriate and consistent with applicable law.

(j) At any time after procuring commercial spyware for operational use, if the agency obtains relevant information with respect to the factors set forth in subsection (a) of this section, the agency shall determine whether the commercial spyware poses significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person, and, if so, shall terminate such operational use as soon as the head of the agency determines is reasonably possible without compromising ongoing operations, and shall notify the DNI and the APNSA.

(k) The Federal Acquisition Security Council shall consider the intelligence assessment described in subsection (c) of this section in evaluating whether commercial spyware poses a supply chain risk, as appropriate and consistent with applicable law, including 41 CFR Part 201-1 and 41 U.S.C. 1323.

(l) The prohibitions contained in this section shall not apply to the use of commercial spyware for purposes of testing, research, analysis, cybersecurity, or the development of countermeasures for counterintelligence or security risks, or for purposes of a criminal investigation arising out of the criminal sale or use of the spyware.

(m) A relevant official, as provided in section 5(k) of this order, may issue a waiver, for a period not to exceed 1 year, of an operational use prohibition determined pursuant to subsection (a) of this section if the relevant official determines that such waiver is necessary due to extraordinary circumstances and that no feasible alternative is available to address such circumstances. This authority shall not be delegated, except as provided in section 5(k) of this order. A relevant official may, at any time, revoke any waiver previously granted. Within 72 hours of making a determination to issue or revoke a waiver pursuant to this subsection, the relevant official who has issued or revoked the waiver shall notify the President, through the APNSA, of this determination, including the justification for the determination. The relevant official shall provide this information concurrently to the DNI.

SEC. 3. *Application to Procurement.* An agency seeking to procure commercial spyware for any purpose other than for a criminal investigation arising out of the criminal sale or use of the spyware shall, prior to making such procurement and consistent with its existing statutory and regulatory authorities:

(a) review the intelligence assessment issued by the DNI pursuant to section 2(c) of this order;

(b) request from the DNI any additional information regarding the commercial spyware that is relevant to the factors set forth in section 2(a) of this order;

(c) consider the factors set forth in section 2(a) of this order in light of the information provided by the DNI; and

(d) consider whether any entity furnishing the commercial spyware being considered for procurement has implemented reasonable due diligence procedures and standards—such as the industry-wide norms reflected in relevant Department of State guidance on business and human rights and on transactions linked to foreign government end-users for products or services with surveillance capabilities—and controls that would enable the entity to identify and prevent uses of the commercial spyware that pose significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person.

SEC. 4. *Reporting Requirements.* (a) The head of each agency that has procured commercial spyware, upon

completing the review described in section 2(h) of this order, shall submit to the APNSA a report describing the review's findings. If the review identifies any existing operational use of commercial spyware, as defined in this order, the agency report shall include:

- (i) a description of such existing operational use;
- (ii) a determination of whether the commercial spyware poses significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person, along with key elements of the underlying analysis, pursuant to section 2(a) of this order; and
- (iii) in the event the agency determines that the commercial spyware poses significant risks pursuant to section 2(a) of this order, what steps have been taken to terminate its operational use.

(b) Within 45 days of an agency's procurement of any commercial spyware for any use described in section 2(1) of this order except for use in a criminal investigation arising out of the criminal sale or use of the spyware, the head of the agency shall notify the APNSA of such procurement and shall include in the notification a description of the purpose and authorized uses of the commercial spyware.

(c) Within 6 months of the date of this order, the head of each agency that has made operational use of commercial spyware or has procured commercial spyware for operational use shall submit to the APNSA a report on the actions that the agency has taken to implement this order, including the internal controls and oversight procedures the agency has developed pursuant to section 2(i) of this order.

(d) Within 1 year of the date of this order, and on an annual basis thereafter, the head of each agency that has procured commercial spyware for operational use shall provide the APNSA a report that identifies:

- (i) any existing operational use of commercial spyware and the reasons why it does not pose significant counterintelligence or security risks to the United States Government or significant risks of improper use by a foreign government or foreign person, pursuant to section 2(a) of this order;
- (ii) any operational use of commercial spyware that was terminated during the preceding year because it was determined to pose significant risks pursuant to section 2(a) of this order, the circumstances under which this determination was made, and the steps taken to terminate such use; and
- (iii) any purchases made of commercial spyware, and whether they were made for operational use, during the preceding year.

§ 3240. Report on best practices to protect privacy, civil liberties, and civil rights of Chinese Americans

(a) Sense of Congress

It is the sense of Congress that—

(1) the People’s Republic of China appears to be specifically targeting the Chinese-American community for intelligence purposes;

(2) such targeting carries a substantial risk that the loyalty of such Americans may be generally questioned and lead to unacceptable stereotyping, targeting, and racial profiling;

(3) the United States Government has a duty to warn and protect all Americans including those of Chinese descent from these intelligence efforts by the People’s Republic of China;

(4) the broad stereotyping, targeting, and racial profiling of Americans of Chinese descent is contrary to the values of the United States and reinforces the flawed narrative perpetuated by the People’s Republic of China that ethnically Chinese individuals worldwide have a duty to support the People’s Republic of China; and

(5) the United States efforts to combat the People’s Republic of China’s intelligence activities should actively safeguard and promote the constitutional rights of all Chinese Americans.

(b) Report

On an annual basis, the Director of National Intelligence, acting through the Office of Civil Liberties, Privacy, and Transparency, in coordination with the civil liberties and privacy officers of the elements of the intelligence community, shall submit a report to the congressional intelligence committees containing—

(1) a review of how the policies, procedures, and practices of the intelligence community that govern the intelligence activities and operations targeting the People’s Republic of China affect policies, procedures, and practices relating to the privacy, civil liberties, and civil rights of Americans of Chinese descent who may be targets of espionage and influence operations by China; and

(2) recommendations to ensure that the privacy, civil liberties, and civil rights of Americans of Chinese descent are sufficiently protected.

(c) Form

The report under subsection (b) shall be submitted in unclassified form, but may include a classified annex.
