9 IN RE: Bard IVC Filters Products  
10 Liability Litigation,  
11  
12

No. MDL 15-02641-PHX-DGC

11 **SUGGESTION OF REMAND AND**  
12 **TRANSFER ORDER (THIRD)**  
13

14 This multidistrict litigation proceeding (“MDL”) involves personal injury cases  
15 brought against Defendants C. R. Bard, Inc. and Bard Peripheral Vascular, Inc.  
16 (collectively, “Bard”). Bard manufactures and markets medical devices, including  
17 inferior vena cava (“IVC”) filters. The MDL Plaintiffs have received implants of Bard  
18 IVC filters and claim they are defective and have caused Plaintiffs to suffer serious injury  
19 or death.

20 The MDL was transferred to this Court in August 2015 when 22 cases had been  
21 filed. Doc. 1. More than 8,000 cases had been filed when the MDL closed on May 31,  
22 2019. Docs. 18079, 18128. Thousands of cases pending in the MDL have settled or are  
23 near settlement. *See* Docs. 16343, 19445, 19798, 21167, 21410. The remaining cases no  
24 longer benefit from centralized proceedings.

25 On August 20, 2019, the Court suggested the remand of 35 cases that were  
26 transferred to this MDL by the United States Judicial Panel for Multidistrict Litigation  
27 (the “Panel”), and transferred more than 500 cases that were directly filed in the MDL to  
28 appropriate districts. Doc. 19899 at 2-6, 34-59. The Court suggested the remand of

1 another case and transferred nearly 400 cases on October 17, 2019. Doc. 20672  
2 at 2-4, 32-48.

3 In updated reports on the settlement status of cases, the parties identify  
4 approximately 1,500 pending cases that are not likely to settle. Docs. 21406, 21426,  
5 21410. These cases are now subject to remand or transfer.

6 The cases listed on Schedule A should be remanded to the transferor courts  
7 pursuant to 28 U.S.C. § 1407(a). See Doc. 21410-1 (Am. Ex. A). The Court therefore  
8 provides this Suggestion of Remand to the Panel. The cases listed on Schedule B, which  
9 were directly filed in this MDL, will be transferred to appropriate districts pursuant to  
10 28 U.S.C. § 1404(a). See Docs. 21410-2, -10 (Am. Exs. B, C). To assist the courts that  
11 receive these cases, this order will describe events that have taken place in the MDL.  
12 A copy of this order, along with the case files and materials, will be available to courts  
13 after remand or transfer. The cases listed on Schedule C will be unconsolidated from the  
14 MDL, will remain in the District of Arizona, and will be assigned to the undersigned  
15 judge. See Docs. 21410-2, -7 (Am. Exs. B, I); 21426 at 3-4.

# 16 **I. Suggestion of Remand.**

## 17 **A. Remand Standard.**

18 The power to remand MDL cases rests solely with the Panel. 28 U.S.C. § 1407(a);  
19 see *Lexecon Inc. v. Milberg Weiss Bershad Hynes & Lerach*, 523 U.S. 26, 28 (1998).  
20 The Panel typically relies on the transferee court to suggest when remand is appropriate.  
21 See J.P.M.L. Rule 10.1(b)(i); *In re Motor Fuel Temperature Sales Practices Litig.*,  
22 No. 07-MD-1840-KHV, 2012 WL 1963350, at \*1 (D. Kan. May 30, 2012). Indeed, the  
23 Panel “is reluctant to order a remand absent the suggestion of the transferee judge[.]”  
24 J.P.M.L. Rule 10.3(a); see *In re Regions Morgan Keegan Sec., Derivative & ERISA*  
25 *Litig.*, No. 2:09-md-2009-SHM, 2013 WL 5614285, at \*2 (W.D. Tenn. Feb. 28, 2013).  
26 The transferee court may suggest remand when a case is “ready for trial, or . . . would no  
27 longer benefit from inclusion in the coordinated or consolidated pretrial proceedings.”  
28

1 *In re Multi-Piece Rim Prods. Liab. Litig.*, 464 F. Supp. 969, 975 (J.P.M.L. 1979); see  
 2 *In re TMJ Implants Prods. Liab. Litig.*, 872 F. Supp. 1019, 1038 (D. Minn. 1995).

3 **B. The Panel Should Remand the Cases Listed on Schedule A.**

4 The primary purposes of this MDL – coordinated pretrial discovery and resolution  
 5 of common issues – have been fulfilled. All common fact and expert discovery has been  
 6 completed. The Court has also resolved many *Daubert* motions and Defendants’  
 7 summary judgment motion based on preemption, as well as other summary judgment and  
 8 in limine motions in the bellwether cases. Six bellwether jury trials were scheduled, three  
 9 were held, a fourth settled on the eve of trial, one was resolved by summary judgment,  
 10 and one was dropped when Plaintiffs decided it would not provide helpful information.

11 The MDL cases listed on Schedule A are not likely to settle soon and no longer  
 12 benefit from centralized proceedings. The remaining case-specific issues are best left to  
 13 the transferor courts to resolve. The Court therefore suggests that the Panel remand the  
 14 cases on Schedule A to the transferor courts for further proceedings. See Doc. 21410-1  
 15 (Am. Ex. A); see also *In re TMJ Implants*, 872 F. Supp. at 1038 (suggesting remand of  
 16 cases that no longer benefited from consolidated pretrial proceedings).

17 **II. Transfer Under 28 U.S.C. § 1404(a).**

18 **A. Transfer Standard.**

19 Section 1404(a) provides that “[f]or the convenience of parties and witnesses, in  
 20 the interest of justice, a district court may transfer any civil action to any other district or  
 21 division where it might have been brought or to any district or division to which all  
 22 parties have consented.”

23 **B. The Direct-Filed Cases Listed on Schedule B Will Be Transferred.**

24 Not all MDL cases were transferred to the Court by the Panel. Pursuant to Case  
 25 Management Order No. 4 (“CMO 4”), many cases were filed directly in the MDL  
 26 through use of a short form complaint. Doc. 363 at 3 (as amended by Docs. 1108, 1485).  
 27 Plaintiffs were required to identify in the short form complaint the district where venue  
 28 would be proper absent direct filing in the MDL. See *id.* at 7. CMO 4 provides that,

upon the MDL's closure, each pending direct-filed case shall be transferred to the district identified in the short form complaint. *Id.* at 3.

Pursuant to § 1404(a), the Court will transfer the cases listed on Schedule B to the districts identified in the short form complaints or to the districts where the filters were implanted based on information provided in plaintiff profile forms. *See* Docs. 21410-2, -10 (Am. Exs. B, L); 21426 at 2-3; *see also In re Biomet M2a Magnum Hip Implant Prods. Liab. Litig.*, No. 3:12-MD-2391, 2018 WL 7683307, at \*1 (N.D. Ind. Sept. 6, 2018) (transferring cases under § 1404(a) where they would “no longer benefit from centralized proceedings[] and the remaining case-specific issues are best left to decision by the courts that will try the cases”).<sup>1</sup> Defendants' right to challenge venue and personal jurisdiction upon transfer is preserved. *See* Docs. 19899 at 4-6, 20672 at 4, 21426 at 4.

### III. The MDL Proceedings.

A summary of the MDL proceedings is provided below to assist courts on remand, if ordered by the Panel, and courts receiving transfers under § 1404(a). CMOs, discovery orders, and other significant rulings are listed in Exhibit 1. The status of the remaining case-specific discovery and other pretrial issues in individual cases should be addressed by the courts receiving the cases on remand or transfer.

#### A. Plaintiffs' Claims and the Pleadings.

The IVC is a large vein that returns blood to the heart from the lower body. An IVC filter is a small device implanted in the IVC to catch blood clots before they reach the heart and lungs. This MDL involves multiple versions of Bard's retrievable IVC filters – the Recovery, G2, G2X, Eclipse, Meridian, and Denali. These filters are umbrella-shaped devices that have multiple limbs fanning out from a cone-shaped head.

---

<sup>1</sup> Plaintiffs in sixteen cases identified no proper venue in the short form complaints. *See* Doc. 21410-10. No party objects to the cases being transferred to the filter-implant districts. *See* Doc. 21406 at 4.

1 The limbs consist of legs with hooks that attach to the IVC wall and curved arms to catch  
2 or break up blood clots. Each of these filters is a variation of its predecessor.<sup>2</sup>

3 The MDL Plaintiffs allege that Bard filters are more dangerous than other IVC  
4 filters because they have higher risks of tilting, perforating the IVC, or fracturing and  
5 migrating to vital organs. Plaintiffs further allege that Bard failed to warn patients and  
6 physicians about these higher risks. Defendants dispute these allegations, contending  
7 that Bard filters are safe and effective, that their complication rates are low and  
8 comparable to those of other IVC filters, and that the medical community is aware of the  
9 risks associated with IVC filters.

10 CMO 2, entered October 30, 2015, required the creation of a master complaint, a  
11 master answer, and templates of short-form complaints and answers. Doc. 249 at 6. The  
12 master complaint and answer were filed December 12, 2015. Docs. 364, 366. They are  
13 the operative pleadings for most of the cases in this MDL.

14 The master complaint gives notice, pursuant to Rule 8, of the allegations that  
15 Plaintiffs assert generally. The master complaint contains seventeen state law claims:  
16 manufacturing defect (Counts I and V); failure to warn (Counts II and VII); design defect  
17 (Counts III and IV); failure to recall (Count VI); misrepresentation (Counts VIII  
18 and XII); negligence per se (Count IX); breach of warranty (Counts X and XI);  
19 concealment (Count XIII); consumer fraud and deceptive trade practices (Count XIV);  
20 loss of consortium (Count XV); and wrongful death and survival (Counts XVI and XVII).  
21 Doc. 364 at 34-63. Plaintiffs seek both compensatory and punitive damages. *Id.* at 63.

22 Plaintiff-specific allegations are contained in individual short-form complaints or  
23 certain complaints served on Defendants before the filing of the master complaint. *See*  
24

---

25  
26 <sup>2</sup> In early 2019, Defendants moved to expand the scope of the MDL to include  
27 cases concerning Bard's Simon Nitinol Filter ("SNF"), a permanent device that predated  
28 the other filters in this litigation. The Panel denied the motion as moot because more  
than 80 SNF cases already had been filed in the MDL. None of the SNF cases are subject  
to this order.

1 Docs. 249, 363, 365. Plaintiffs also provided Defendants with profile forms and fact  
2 sheets that describe their individual claims and conditions. See Doc. 365.

3 **B. Case Management Orders.**

4 The primary orders governing pretrial management of this MDL are a series  
5 of CMOs, along with certain amendments. To date, the Court has issued 45 CMOs.  
6 These orders are discussed below and can be found on this District's website at  
7 <http://www.azd.uscourts.gov/case-info/bard>.

8 **C. Lead Counsel.**

9 CMO 1, entered October 30, 2015, appointed Co-Lead/Liaison Counsel for  
10 Plaintiffs ("Lead Counsel") to manage the litigation on behalf of Plaintiffs, and set out  
11 the responsibilities of Lead Counsel. Doc. 248. Plaintiffs' Lead Counsel has changed  
12 since the inception of the MDL. Mr. Ramon Lopez, of Lopez McHugh, LLP, in Newport  
13 Beach, California, and Mr. Mark O'Connor, of Beus Gilbert PLLC, in Phoenix, Arizona,  
14 are now Lead Counsel for Plaintiffs. Doc. 5285. Mr. Richard North of Nelson Mullins  
15 Riley & Scarborough, LLP, in Atlanta, Georgia, is Defendants' Lead Counsel.

16 **D. Plaintiffs' Steering Committee and Common Benefits Fund.**

17 CMO 1 directed the selection and appointment of a Plaintiffs' Steering Committee  
18 ("PSC") to assist in the coordination of pretrial activities and trial planning. Plaintiffs'  
19 Lead Counsel and the PSC together form the Plaintiffs' Leadership Counsel ("PLC").  
20 The PLC assists all Plaintiffs in the MDL by overseeing discovery, appearing in court,  
21 attending status conferences, and preparing motions and responses regarding case-wide  
22 discovery matters. CMO 1 has been amended to select and appoint a Plaintiffs'  
23 Executive Committee ("PEC") to assist Lead Counsel in the administration, organization,  
24 and strategic decisions of the PLC. Doc. 4016. The configuration of the PSC has  
25 changed during the course of the litigation. See Docs. 248, 4016, 5285.

26 CMO 6, entered December 18, 2015, set forth rules, policies, procedures, and  
27 guidelines for fees and expenses incurred by attorneys acting for the common benefit of  
28 all MDL Plaintiffs. Doc. 372. In May 2019, the Court increased the common benefit

1 attorneys' fees assessment from 6% to 8%, but declined to increase the 3% assessment  
2 for costs. Doc. 18038.

3 Upon remand or transfer, individual Plaintiffs likely will be represented by their  
4 own counsel – the attorney or attorneys who filed their original complaint. Plaintiffs'  
5 Lead Counsel, the PSC, the PLC, and the PEC were tasked with managing the MDL for  
6 Plaintiffs, not the individual cases on remand or transfer.

7 **E. Status Conferences.**

8 Since the inception of the MDL, the Court has held regular status conferences with  
9 Lead Counsel for the parties to discuss issues related to the litigation. The initial case  
10 management conference was held in October 2015. Doc. 246. Deadlines were set for,  
11 among other things, the filing of master and short-form pleadings, profile forms, a  
12 proposed protective order (including Rule 502 provisions), a proposed protocol  
13 governing the production of electronically stored information ("ESI"), as well as  
14 deadlines to complete first-phase MDL discovery and address privilege log issues.  
15 Doc. 249. Thereafter, the Court held periodic status conferences to ensure that the parties  
16 were on task and to address routine discovery issues and disputes. In addition to the  
17 status conferences, the Court conducted telephone hearings to address time-sensitive  
18 issues, as well as numerous additional conferences to consider various matters such as  
19 dispositive motions and general case management issues.

20 **F. Discovery.**

21 **1. General Fact Discovery.**

22 Prior to the establishment of this MDL, Plaintiffs' counsel had conducted  
23 substantial discovery against Bard concerning all aspects of Bard IVC filters, including  
24 the design, testing, manufacturing, marketing, labeling, and post-market surveillance of  
25 the devices. Bard produced numerous documents and ESI and responded to thousands of  
26 written discovery requests, and more than 80 corporate witness depositions were taken.  
27 The pre-MDL fact discovery was made available by Bard to all Plaintiffs in the MDL.  
28

1 CMO 8 established a procedure concerning re-deposing witnesses in the MDL.  
2 Doc. 519. CMO 14 established deposition protocols generally. Doc. 2239. The Court  
3 allowed additional depositions of a handful of corporate witnesses that had been  
4 previously deposed, as well as numerous depositions of other Bard corporate witnesses,  
5 including several Rule 30(b)(6) depositions. Docs. 3685, 4311. CMO 9 governed the  
6 production of ESI and hard-copy documents. Doc. 1259.

7 Discovery in the MDL was separated into phases. The parties completed the first  
8 phase of MDL discovery in early 2016. Doc. 519. The first phase included production of  
9 documents related to an FDA inspection and warning letter to Bard, an updated  
10 production of complaint and adverse event files, and an updated version of Bard's  
11 complaint database relating to IVC filters. Doc. 249. Plaintiffs also conducted a Rule  
12 30(b)(6) deposition concerning the FDA inspection and warning letter, and a deposition  
13 of corporate witness Kay Fuller.

14 The parties completed the second phase of fact discovery in February 2017.  
15 CMO 8 set deadlines for the second phase, which included all common fact and  
16 expert issues in the MDL, but not case-specific issues to be resolved after remand or  
17 transfer. Docs. 249, 519. Second-phase discovery included extensive additional  
18 discovery related to Bard's system architecture for ESI, Bard's ESI collection efforts, ESI  
19 relating to Bard's IVC filters, and Bard's national and regional sales and marketing  
20 practices. Plaintiffs also deposed two corporate witnesses in connection with Kay  
21 Fuller's allegations that a submission to the FDA regarding the Recovery filter did not  
22 bear her original signature. Doc. 1319 (CMO 10). Plaintiffs deposed additional  
23 corporate witnesses concerning the FDA inspections and warning letter. *Id.*

24 Bard also produced discovery regarding the sales and marketing materials related  
25 to the SNF, documents comparing filter performance and failure rates to the SNF, and  
26 internal and regulatory communications relating to the SNF. Docs. 1319, 10489. The  
27 Court denied Plaintiffs' request to obtain ESI discovery from Bard's overseas operations.  
28 Doc. 3398. The Court also denied Defendants' request to discover communications

1 between Plaintiffs' counsel and NBC news related to stories about the products at issue in  
2 this litigation, and third-party financing that may be in place with respect to MDL  
3 Plaintiffs. Docs. 3313, 3314. Plaintiffs were required to produce communications  
4 between Plaintiffs and the FDA related to the FDA warning letter, but the Court denied  
5 Defendants' request to depose Plaintiffs' counsel regarding these communications.  
6 Docs. 3312, 4339. Defendants also produced punitive damages discovery, and Plaintiffs  
7 conducted a Rule 30(b)(6) deposition related to Bard's net worth.

8 All common fact discovery has now been completed except for preservation  
9 depositions for certain witnesses who will not be traveling to testify live at the trials of  
10 remanded and transferred cases. The parties are engaged in a meet and confer process as  
11 to these depositions and shall complete them by March 16, 2020. *See* Docs. 16343,  
12 19959, 21063. Thus, courts receiving these cases need not be concerned with facilitating  
13 general fact discovery on remand or transfer.

## 14 **2. Case-Specific Discovery.**

15 CMO 5 governed initial case-specific discovery and required the parties to  
16 exchange abbreviated profile forms. Doc. 365 (as amended by Doc. 927). Plaintiffs were  
17 required to provide Defendants with a Plaintiff profile form ("PPF") that described  
18 individual conditions and claims. *Id.* at 5-9. Upon receipt of a substantially complete  
19 PPF, Defendants were required to provide the individual Plaintiff with a Defendants'  
20 profile form ("DPF") that disclosed information and documents concerning Defendants'  
21 contacts and relationship with Plaintiff's physicians, tracking and reporting of Plaintiff's  
22 claims, and certain manufacturing related information for Plaintiff's filter. *Id.* at 12-14.  
23 Completed profile forms were considered interrogatory answers under Rule 33 or  
24 responses to requests for production under Rule 34, and were governed by the standards  
25 applicable to written discovery under Rules 26 through 37. *Id.* at 2-3. CMO 5 also set  
26 deadlines and procedures for resolving any purported deficiencies with the parties'

1 profile forms, and for dismissal of cases that did not provide substantially completed  
2 profile forms. *Id.* at 2.<sup>3</sup>

3 Further discovery was conducted in a group of 48 cases (“Group 1”) selected for  
4 consideration in the bellwether trial process from the pool of cases filed and properly  
5 served on Defendants in the MDL as of April 1, 2016 (“Initial Plaintiff Pool”).  
6 Docs. 1662, 3214, 4311 (CMOs 11, 15, 19). Plaintiffs in Group 1 were required to  
7 provide Defendants with a Plaintiff fact sheet (“PFS”) that described their individual  
8 conditions and claims in greater detail, and provided detailed disclosures concerning their  
9 individual background, medical history, insurance, fact witnesses, prior claims, and  
10 relevant documents and records authorizations. Docs. 1153-1, 1662 at 3.

11 Upon receipt of a PFS, Defendants were required to provide the individual  
12 Plaintiff with a Defendants fact sheet (“DFS”) that disclosed in greater detail information  
13 concerning Defendants’ contacts and relationship with Plaintiff, Plaintiff’s physicians, or  
14 anyone on behalf of Plaintiff, Defendants’ tracking and reporting of Plaintiff’s claims,  
15 sales and marketing information for the implanting facility, manufacturing information  
16 for Plaintiff’s filter, and other relevant documents. Docs. 1153-2, 1662 at 3. Completed  
17 fact sheets were considered interrogatory answers under Rule 33 or responses to requests  
18 for production under Rule 34, and were governed by the standards applicable to written  
19 discovery under Rules 26 through 37. Doc. 1662 at 3. CMO 11 set deadlines and  
20 procedures for resolving any purported deficiencies with the parties’ fact sheets. *Id.* at 2,  
21 4-5. CMO 12 governed records discovery for Group 1. Doc. 1663. The parties agreed to  
22 use The Marker Group to collect medical, insurance, Medicare, Medicaid, prescription,  
23 Social Security, workers’ compensation, and employment records for individual plaintiffs  
24 from third-parties designated as custodians for such records in the PFS. *Id.* at 1.

---

25  
26  
27  
28 <sup>3</sup> The Court has dismissed certain cases where Plaintiffs failed to provide complete  
PPFs. *See* Docs. 19874, 20667.

1 From Group 1, twelve cases were selected for further consideration as bellwether  
2 cases (“Discovery Group 1”). Docs. 1662, 3685, 4311 (CMOs 11, 18, 19). CMO 20 set  
3 deadlines for preliminary case-specific discovery in that group. Doc. 4335. Pursuant to  
4 the protocols set in CMOs 14 and 21, the parties were permitted to depose each Plaintiff,  
5 his or her spouse or a significant family member, the implanting physician, an additional  
6 treating physician, and either a Bard sales representative or supervisor. Docs. 2239, 4866  
7 at 1-2. From Discovery Group 1, six Plaintiffs were selected for potential bellwether  
8 trials and further case-specific discovery (“Bellwether Group 1”). Docs. 1662, 3685,  
9 4311, 5770, 11659 (CMOs 11, 18, 19, 23, and 34).

10 Except for the 48 cases in Group 1, the parties did not conduct case-specific fact  
11 discovery for the cases listed on Schedules A and B during the MDL proceedings, other  
12 than exchanging abbreviated profile forms. The Court concluded that any additional  
13 case-specific discovery in these cases should await their remand or transfer. Thus, courts  
14 receiving these cases should set a schedule for the completion of case-specific discovery.

### 15 **3. Expert Discovery.**

16 CMO 8 governed expert disclosures and discovery. Doc. 519. The parties  
17 designated general experts in all MDL cases and case-specific experts in individual  
18 bellwether cases. General expert discovery closed July 14, 2017. Doc. 3685 (CMO 18).  
19 The parties did not conduct case-specific expert discovery for the cases listed on  
20 Schedules A and B during the MDL proceedings. The Court concluded that case-specific  
21 expert discovery in these cases should await their remand or transfer. Thus, courts  
22 receiving these cases should set a schedule for the completion of case-specific expert  
23 discovery.

### 24 **4. Privileged Materials.**

25 CMO 2 required Defendants to produce privilege logs in compliance with the  
26 Federal Rules of Civil Procedure. Doc. 249. The parties were then required to engage in  
27 an informal privilege log meet and confer process to resolve any privilege disputes.  
28 Defendants produced several privilege logs identifying documents withheld pursuant to

1 the attorney-client privilege, the work-product doctrine, and other privileges. The parties  
2 regularly met and conferred regarding the privilege logs and engaged in negotiations  
3 regarding certain entries identified by Plaintiffs. As part of that meet and confer process,  
4 Defendants provided Plaintiffs with a small number of these identified items for  
5 inspection and, in some cases, withdrew certain claims of attorney-client privilege and  
6 produced the previously withheld items.

7 CMO 3 governed the non-waiver of any privilege or work-product protection in  
8 this MDL, pursuant to Federal Rule of Evidence 502(d), by Defendants' disclosure or  
9 production of documents on its privilege logs as part of the meet and confer process.  
10 Doc. 314.

11 In late 2015, Plaintiffs challenged a substantial number of documents on  
12 Defendants' privilege log. The parties engaged in an extensive meet and confer process,  
13 and Defendants produced certain documents pursuant to the Rule 502(d) order. *See id.*  
14 Plaintiffs moved to compel production of 133 disputed documents. The Court granted  
15 the motion in part. Doc. 2813. The parties identified several categories of disputed  
16 documents and provided sample documents for in camera review. The Court denied  
17 Plaintiffs' motion with respect to seven of eight categories of documents and found only  
18 one of the sample documents in one of the categories to contain unprivileged portions  
19 that should be produced. The Court found all other documents protected by the attorney-  
20 client privilege or work product doctrine. The Court directed the parties to use this ruling  
21 as a guide to resolve remaining privilege disputes.

22 Since this ruling, there have been no further challenges to Defendants' privilege  
23 logs. Defendants continued to provide updated privilege logs throughout the discovery  
24 process, and the parties met and conferred to resolve privilege disputes. Privilege issues  
25 should not be a concern for courts that receive these cases.

## 26 **5. Protective Order and Confidentiality.**

27 A stipulated protective order governing the designation, handling, use, and  
28 disclosure of confidential discovery materials was entered in November 2015. Doc. 269.

1 CMO 7, entered January 5, 2016, governed redactions of material from additional  
2 adverse event reports, complaint files, and related documents in accordance with the  
3 Health Insurance Portability Act of 1996 (“HIPAA”) and under 21 C.F.R. § 20.63(f).  
4 Doc. 401.

5 In September 2016, to expedite production of ESI, the parties agreed to a primarily  
6 “no-eyes-on” document production as to relevancy while still performing a privilege  
7 review for this expedited ESI document production. CMO 17 (Doc. 3372) modified the  
8 protections and requirements in the stipulated protective order (Doc. 269) and CMO 7  
9 (Doc. 401) for ESI produced pursuant to this process. CMO 17 was amended in  
10 November 2016. Doc. 4015.

11 Defendants filed a motion to seal certain trial exhibits at the conclusion of the first  
12 bellwether trial. Doc. 11010. The Court denied this motion and Defendants’ subsequent  
13 motion for reconsideration. Docs. 11642, 11766, 12069. Defendants also filed a motion  
14 to enforce the protective order for the second and third bellwether trials collectively.  
15 Doc. 13126. This motion was denied. Doc. 14446. A list of exhibits admitted at the  
16 bellwether trials (excluding case-specific medical records) and documents deemed no  
17 longer subject to the protective order are attached as Exhibit 2.

18 **G. Bellwether Cases and Trials.**

19 Six Plaintiffs were selected for potential bellwether trials. Docs. 5770, 11659  
20 (CMOs 23, 34). The Court held three bellwether trials: *Booker*, No. CV-16-00474,  
21 *Jones*, No. CV-16-00782, and *Hyde*, No. CV-16-00893. The Court granted summary  
22 judgment in one of the bellwether cases, *Kruse*, No. CV-15-01634, and removed another  
23 from the bellwether trial schedule at the request of Plaintiffs, *Mulkey*, No. CV-16-00853.  
24 Docs. 12202, 13329. The final bellwether case, *Tinlin*, No. CV-16-00263, settled shortly  
25 before trial in May 2019. The Court determined that further bellwether trials were not  
26 necessary. Docs. 12853, 13329 (CMOs 38, 40).

27 ///

28 ///

1                   **1.     Booker, No. CV-16-00474.**

2           The first bellwether trial concerned Plaintiff Sherr-Una Booker and involved a  
3 Bard G2 filter. The filter had tilted, migrated, and fractured. Plaintiff required open  
4 heart surgery to remove the fractured limbs and repair heart damage caused by a  
5 percutaneous removal attempt. Plaintiff withdrew her breach of warranty claims before  
6 Defendants moved for summary judgment. The Court granted Defendants' motion for  
7 summary judgment on the claims for manufacturing defects, failure to recall,  
8 misrepresentation, negligence per se, and breach of warranty. Docs. 8873, 8874. The  
9 remaining claims for failure to warn, design defect, and punitive damages were tried to a  
10 jury over a three-week period in March 2018.

11           The jury found for Plaintiff Booker on her negligent failure-to-warn claim, and in  
12 favor of Defendants on the design defect and strict liability failure-to-warn claims.  
13 Doc. 10595. The jury returned a verdict of \$2 million in compensatory damages (of  
14 which \$1.6 million was attributed to Defendants after apportionment of fault) and  
15 \$2 million in punitive damages. *Id.*; Doc. 10596. The Court denied Defendants' motions  
16 for judgment as a matter of law and a new-trial. Docs. 10879, 11598. Defendants have  
17 appealed. Docs. 11934, 11953. Plaintiff filed and later dismissed with prejudice a cross-  
18 appeal. Docs. 12070, 17916.

19                   **2.     Jones, No. CV-16-00782.**

20           The second bellwether trial concerned Plaintiff Doris Jones and involved a Bard  
21 Eclipse filter. Plaintiffs withdrew the manufacturing defect, failure to recall, and breach  
22 of warranty claims. The Court granted summary judgment on the misrepresentation,  
23 negligence per se, and unfair trade practices claims. Doc. 10404. The remaining claims  
24 for failure to warn, design defect, and punitive damages were tried to a jury over a  
25 three-week period in May 2018. The jury returned a defense verdict. Doc. 11350.  
26 Plaintiff filed a motion to contact the jurors, which was denied. Docs. 11663, 12068.  
27 Plaintiff's appeal of the court's rulings excluding cephalad migration death evidence is  
28 pending. Docs. 12057, 12071.

1                   **3.     *Kruse, No. CV-15-01634.***

2           Plaintiff Carol Kruse's case was set for trial in September 2018. The Court  
3 granted Defendants' summary judgment motion on statute of limitations grounds.  
4 Doc. 12202.

5                   **4.     *Hyde, No. CV-16-00893.***

6           The third bellwether trial concerned Plaintiff Lisa Hyde and involved either a Bard  
7 G2X or Eclipse filter (the exact model was in dispute). Ms. Hyde's case was moved to  
8 the September 2018 bellwether slot in lieu of Ms. Kruse's case. Doc. 11867. Plaintiffs  
9 withdrew their claims for manufacturing defect and breach of express warranty. The  
10 Court granted summary judgment on the claims for breach of implied warranty, failure to  
11 warn, failure to recall, misrepresentation, concealment, and fraud. Doc. 12007. The  
12 Court also entered judgment in favor of Defendants on the negligence per se claim after  
13 concluding that it was impliedly preempted under 21 U.S.C. § 337(a). Doc. 12589. The  
14 remaining claims for design defect, loss of consortium, and punitive damages were tried  
15 to a jury over three weeks in September 2018. After the close of Plaintiffs' evidence, the  
16 Court granted in part Defendants' motion for judgment as a matter of law with respect to  
17 future damages for any cardiac arrhythmia Ms. Hyde may experience, but denied the  
18 motion as to the remaining claims. Doc. 12805. The jury returned a defense verdict.  
19 Doc. 12891. Plaintiff has appealed. Docs. 13465, 13480.

20                   **5.     *Mulkey, No. CV-16-00853.***

21           Plaintiff Debra Mulkey's case involved an Eclipse filter and was set for trial in  
22 February 2019. Before trial, Plaintiffs asked the Court to remove the Mulkey case from  
23 the bellwether trial schedule because it was similar to the Jones and Hyde cases and  
24 would not provide meaningful information to the parties. Doc. 12990. The Court  
25 granted the motion. Doc. 13329.

26                   **6.     *Tinlin, No. CV-16-00263.***

27           The final bellwether trial concerned Plaintiff Debra Tinlin and involved a Bard  
28 Recovery filter. Plaintiffs withdrew their claims for manufacturing defect, failure to

1 recall, negligence per se, and breach of warranty. The Court granted summary judgment  
 2 on the misrepresentation and deceptive trade practices claims. Doc. 17008. The  
 3 remaining claims for failure to warn, design defect, concealment, loss of consortium, and  
 4 punitive damages were scheduled for trial in May 2019, but the case settled.

#### 5 **H. Key Legal and Evidentiary Rulings.**

6 The Court has made many rulings in this MDL that could affect the remanded and  
 7 transferred cases. The Court provides the following summary of key legal and  
 8 evidentiary rulings to assist the courts that receive these cases.

##### 9 **1. Medical Monitoring Class Action Ruling.**

10 In May 2016, Plaintiffs' counsel filed a medical monitoring class action that was  
 11 consolidated with the MDL. See *Barraza v. C. R. Bard, Inc.*, No. CV-16-01374-PHX-  
 12 DCG (D. Ariz. May 5, 2015). The *Barraza* Plaintiffs moved for class certification for  
 13 medical monitoring relief on behalf of themselves and classes of individuals who have  
 14 been implanted with a Bard IVC filter, have not had that filter removed, and have not  
 15 filed a claim or lawsuit for personal injury related to the filter. *Id.*, Doc. 54. The Court  
 16 declined to certify the class. *Id.*, Doc. 95.

17 The class certification motion recognized that only 16 states permit claims for  
 18 medical monitoring. The Court concluded that the classes could not be certified under  
 19 Rule 23(b)(3) because individual issues would predominate. *Id.* at 20-21. The Court  
 20 further concluded that the class could not be certified under Rule 23(b)(2) because the  
 21 medical monitoring relief primarily constituted monetary rather than injunctive relief, and  
 22 the class claims were not sufficiently cohesive to permit binding class-wide relief. *Id.*  
 23 at 21-32. Finally, the Court concluded that typicality under Rule 23(a)(3) had not been  
 24 established. *Id.* at 32-34. The *Barazza* Plaintiffs dismissed their claims without  
 25 prejudice. Docs. 106, 107. No appeal has been filed.

##### 26 **2. Federal Preemption Ruling.**

27 Defendants moved for summary judgment on the grounds that Plaintiffs' state law  
 28 claims are expressly preempted by the Medical Device Amendments of 1976 ("MDA"),

1 21 U.S.C. § 360 et seq., and impliedly preempted by the MDA under the Supreme  
2 Court's conflict preemption principles. Doc. 5396. The Court denied the motion.  
3 Doc. 8872. Defendants have appealed this ruling. Docs. 11934, 11953.

4 The MDA curtails state regulation of medical devices through a provision that  
5 preempts state requirements that differ from or add to federal requirements. 21 U.S.C.  
6 § 360k. The Bard IVC filters at issue in this litigation were cleared for market by the  
7 FDA through section "510k" review, which focuses primarily on equivalence rather than  
8 safety and effectiveness. See § 360c(f)(1)(A).

9 The Supreme Court in *Medtronic, Inc. v. Lohr*, 518 U.S. 470 (1996), held that  
10 § 360k does not preempt state law claims directed at medical devices cleared through  
11 the 510(k) process because substantial equivalence review places no federal requirements  
12 on a device. *Id.* at 492-94. *Lohr* also noted that the "510(k) process is focused on  
13 equivalence, not safety." *Id.* at 493 (emphasis in original). Although the Safe Medical  
14 Devices Act of 1990 ("SMDA"), Pub. L. 101-629, injected safety and effectiveness  
15 considerations into 510(k) review, it did so only comparatively. The Court found that  
16 *Lohr* remains good law and that clearance of a product under 510(k) generally does not  
17 preempt state common law claims. Doc. 8872 at 12-14.

18 The Court further found that Defendants failed to show that the 510(k) reviews for  
19 Bard IVC filters imposed device-specific requirements as needed for preemption under  
20 § 360k. *Id.* at 14-20. Even if device-specific federal requirements could be ascertained,  
21 Defendants made no showing that any particular state law claim is expressly preempted  
22 by federal requirements. *Id.* at 21-22.

23 The Court concluded that Plaintiffs' state law claims are not impliedly preempted  
24 because Defendants failed to show that it is impossible to do under federal law what the  
25 state laws require. *Id.* at 22-24. Defendants are pursuing their preemption arguments in  
26 the Booker appeal.

27 ///

28 ///

### 3. The Lehmann Report Privilege and Work Product Rulings.

The Court granted Defendants' motion for a protective order to prevent Plaintiffs from using a December 15, 2004 report of Dr. John Lehmann. Doc. 699. Dr. Lehmann provided various consulting services to Bard at different times. Following Bard's receipt of potential product liability claims involving the Recovery filter, Bard's legal department retained Dr. Lehmann in November 2004 to provide an assessment of the risks associated with the Recovery filter and the extent of Bard's legal exposure. Dr. Lehmann prepared a written report of his findings at the request of the legal department and in anticipation of litigation. The Court found the report to be protected from disclosure by the work product doctrine. *Id.* at 4-12. The Court further found that Plaintiffs had not shown a substantial need for the report or undue hardship if the report was not disclosed. *Id.* at 13-15. The Court agreed with the parties that this ruling does not alter any prior rulings by transferor judges in specific cases. *Id.* at 22.

### 4. Daubert Rulings.

The Court has ruled on *Daubert* motions directed at general experts, and refers the remand and transfer courts to the following orders:

| <i>Daubert Order</i>                                                                         | <i>Doc. Nos.</i> |
|----------------------------------------------------------------------------------------------|------------------|
| Plaintiffs' Expert Dr. Thomas Kinney                                                         | 9428, 10323      |
| Plaintiffs' Experts Drs. Scott Resnick, Robert Vogelzang, Kush Desai, and Robert Lewandowski | 9432             |
| Plaintiffs' Experts Drs. David Kessler and Suzanne Parisian                                  | 9433             |
| Plaintiffs' Experts Drs. Thomas Kinney, Anne Christine Roberts, and Sanjeeva Kalva           | 9434             |
| Plaintiffs' Expert Dr. Mark Eisenberg                                                        | 9770             |

|                                                           |                     |
|-----------------------------------------------------------|---------------------|
| Plaintiffs' Expert Dr. Derek Muehrcke                     | 9771                |
| Plaintiffs' Expert Dr. Darren Hurst                       | 9772                |
| Plaintiffs' Expert Dr. Rebecca Betensky                   | 9773                |
| Defendants' Expert Dr. Clement Grassi                     | 9991, 10230         |
| Plaintiffs' Expert Dr. Robert McMeeking                   | 10051, 16992        |
| Plaintiffs' Expert Dr. Robert Ritchie                     | 10052               |
| Plaintiffs' Experts Drs. David Garcia and Michael Streiff | 10072               |
| Defendants' Expert Dr. Christopher Morris                 | 10230, 10231, 17285 |

## 5. Motion in Limine Rulings.

### a. FDA Evidence (*Cisson Motion*).

In the Booker bellwether trial, Plaintiffs sought to exclude, under Federal Rules of Evidence 402 and 403, evidence of the FDA's 510(k) clearance of Bard IVC filters and the lack of FDA enforcement action against Bard. Doc. 9529. The Court denied the motion. Docs. 9881, 10323.

The Court found that under Georgia law, which applied in both the Booker and Jones bellwether cases, compliance with federal regulations may not render a manufacturer's design choice immune from liability, but evidence of Bard's compliance with the 510(k) process was nonetheless relevant to the design defect and punitive damages claims. Doc. 9881 at 3-4. The Court acknowledged concerns that FDA evidence might mislead the jury or result in a mini-trial. *Id.* at 5-6 (citing *In re C.R. Bard, Inc., Pelvic Repair Sys. Prods. Liab. Litig. (Cisson)*, No. 2:10-CV-01224, 2013 WL 3282926, at \*2 (S.D.W. Va. June 27, 2013)). But the Court concluded that such concerns

1 could adequately be addressed by efficient management of the evidence and adherence to  
 2 the Court's time limits for trial, and, if necessary, by a limiting instruction regarding the  
 3 nature of the 510(k) process. *Id.* at 6-7.<sup>4</sup>

4 The Court noted that the absence of any evidence regarding the 510(k) process  
 5 would run the risk of confusing the jury, as many of the relevant events in this litigation  
 6 occurred in the context of the FDA's 510(k) review of the Bard filters and are best  
 7 understood in that context. Doc. 9881 at 7. Nor was the Court convinced that all FDA  
 8 references could adequately be removed from the evidence. *Id.*

9 The Court further concluded that it would not exclude evidence and arguments by  
 10 Defendants that the FDA took no enforcement action against Bard with respect to the G2  
 11 or Eclipse filters, or evidence regarding information Bard provided to the FDA in  
 12 connection with the 510(k) process. Docs. 10323 at 2-3 (Booker), 11011 at 4-5 (Jones).  
 13 The Court found that the evidence was relevant to the negligent design and punitive  
 14 damages claims under Georgia law. *Id.* The Court determined at trial that it had no basis  
 15 to conclude that the FDA's lack of enforcement was intended by the FDA as an assertion,  
 16 and therefore declined to exclude the evidence as hearsay. Doc. 10568 at 87.

17 **b. FDA Warning Letter.**

18 Defendants moved to exclude evidence of the July 13, 2015 FDA warning letter  
 19 issued to Bard. Doc. 9864 at 2-3. The Court granted the motion in part, excluding as  
 20 irrelevant topics 1, 2, 4(a), 4(b), 5, 6, 7, and 8 of the warning letter. Docs. 10258 at 6-8  
 21 (Booker), 10805 at 1 (Jones), 12736 (Hyde), 17401 at 10 (Tinlin). Topics 1 and 2  
 22 concern the Recovery Cone retrieval system; Topic 4(a) concerns the filter cleaning  
 23 process; and Topics 4(b), 5, 6, 7, and 8 concern the Denali Filter. The Court concluded  
 24 that none of these topics was relevant to the issues in the bellwether cases involving a G2  
 25

---

26  
 27  
 28 <sup>4</sup> The Court did not find a limiting instruction necessary at the close of either the  
 Booker or Jones trials. See Doc. 10694 at 9.

1 filter (Booker), an Eclipse filter (Jones), either a G2X or Eclipse filter (Hyde), and a  
2 Recovery filter (Tinlin). *Id.*

3 The Court deferred ruling on the relevance of topic 3 until trial in all bellwether  
4 cases. The Court found that topic 3, concerning Bard's complaint handling and reporting  
5 of adverse events with respect to the G2 and Eclipse filters, as well as the adequacy of  
6 Bard's evaluation of the root cause of the violations, was relevant to rebut the implication  
7 at trial that the FDA took no action with respect to Bard IVC filters. *See* Doc. 10693  
8 at 13-15; Doc. 11256. The Court concluded that the warning letter was admissible under  
9 Federal Rule of Evidence 803(8), and was not barred as hearsay. Doc. 10258 at 7. The  
10 Court further concluded that the probative value of topic 3 was not substantially  
11 outweighed by the danger of unfair prejudice to Bard under Rule 403. *Id.* The Court  
12 admitted the warning letter in redacted form during the three bellwether trials. *See*  
13 Docs. 10565, 11256, 12736. The Court noted that topic 3 included reference to the G2,  
14 the filter at issue in Booker, and reached similar conclusions in Jones and Hyde.  
15 Doc. 17401 at 11. The parties disputed the relevance of topic 3 in Tinlin because it did  
16 not include reference to the Recovery, the filter at issue in Tinlin. *Id.* The Court did not  
17 decide this issue because the Tinlin case settled.

18 **c. Recovery Cephalad Migration Death Evidence.**

19 Defendants moved to exclude evidence of cephalad migration (i.e., migration of  
20 the filter toward the patient's heart) by a Recovery filter resulting in patient death. The  
21 Court denied the motion for the Booker bellwether trial, which involved a G2 filter.  
22 Docs. 10258 at 4-5, 10323 at 4. Defendants have appealed this ruling. Docs. 11934,  
23 11953.

24 The Court granted the motion for the Jones bellwether trial, which involved an  
25 Eclipse filter, and denied Plaintiff's requests for reconsideration of the ruling before and  
26 during the trial. *See* Docs. 10819, 10920, 11041, 11113, 11256, 11302; *see also*  
27 Doc. 11409 at 94-96. Plaintiff Jones has appealed those rulings. Docs. 12057, 12071.

1 The Court granted the motion for the Hyde bellwether trial, which involved either  
2 a G2X or Eclipse filter. Doc. 12533 at 6-7. Plaintiff Hyde has appealed this ruling.  
3 Docs. 13465, 13480.

4 The Court denied Defendants' motion for the Tinlin bellwether trial, which  
5 involved a Recovery filter. Doc. 17401 at 7-10. The Tinlin case settled before trial.

6 The Court concluded for purposes of the Booker bellwether trial that evidence of  
7 cephalad migrations by a Recovery filter resulting in patient death was necessary for the  
8 jury to understand the issues that prompted creation and design of the next-generation G2  
9 filter, and thus was relevant to Plaintiff's design defect claims. Doc. 10323 at 4. In  
10 addition, because the Recovery filter was the predicate device for the G2 filter in  
11 Defendants' 510(k) submission to the FDA, and Defendants asserted to the FDA that the  
12 G2 was as safe and effective as the Recovery, the Court concluded that the safety and  
13 effectiveness of the Recovery filter was at issue. *Id.* The Court was concerned, however,  
14 that too heavy an emphasis on deaths caused by cephalad migration of the Recovery  
15 filter – a kind of migration which did not occur in the G2 filter generally or the Booker  
16 case specifically – would result in unfair prejudice to Defendants that substantially  
17 outweighed the probative value of the evidence. *Id.* Defendants did not object during  
18 trial that Plaintiffs were over-emphasizing the death evidence.

19 The Court initially concluded for purposes of the Jones bellwether trial, which  
20 involved an Eclipse filter, that evidence of cephalad migration deaths by the Recovery  
21 filter was inadmissible because it was only marginally relevant to Plaintiff's claims and  
22 its marginal relevancy was substantially outweighed by the risk of unfair prejudice. *See*  
23 Docs. 10819, 10920, 11041, 11113, 11256, 11302. This is because cephalad migration  
24 did not continue in any significant degree beyond the Recovery filter; cephalad migration  
25 deaths all occurred before the Recovery was taken off the market in late 2005; Ms. Jones  
26 did not receive her Eclipse filter until 2010; the Recovery-related deaths said nothing  
27 about three of Ms. Jones' four claims (strict liability design defect and the failure to warn  
28 claims); and instances of cephalad migration deaths were not substantially similar to

1 complications experienced by Ms. Jones and therefore did not meet the Georgia standard  
2 for evidence on punitive damages. Docs. 10819, 11041.

3 The Court also found that deaths caused by a non-predicate device (the Recovery  
4 was not the predicate device for the Eclipse in Defendants' 510(k) submission), and by a  
5 form of migration that was eliminated years earlier, were of sufficiently limited probative  
6 value that their relevancy was substantially outweighed by the danger of unfair prejudice  
7 because the death evidence may prompt a jury decision based on emotion. *Id.* The Court  
8 further concluded that Plaintiff Jones would not be seriously hampered in her ability to  
9 prove Recovery filter complications, testing, and design when references to cephalad  
10 migration deaths are removed. Doc. 11041. As a result, the Court held that such  
11 references should be redacted from evidence presented during the Jones trial.

12 The Court balanced this concern with the competing concern that it would be  
13 unfair for Defendants to present statistics about the Recovery filter and not allow  
14 Plaintiffs to present competing evidence that included Recovery deaths. *See, e.g.,*  
15 Doc. 11391 at 12. Based on this concern, Plaintiffs argued at various points during the  
16 trial that Defendants had opened the door to presenting evidence about Recovery  
17 cephalad migration deaths. The Court repeatedly made fact-specific determinations on  
18 this point, holding that even though Defendants presented some evidence that made the  
19 Recovery evidence more relevant, the danger of unfair prejudice continued to  
20 substantially outweigh the probative value of the cephalad migration death evidence. *See*  
21 Docs. 11113, 11302; *see also* Doc. 11409 at 94-96.

22 The Court concluded for purposes of the Hyde bellwether trial, which involved  
23 either a G2X or Eclipse filter, that evidence of Recovery filter cephalad migration deaths  
24 should be excluded under Rule 403 for the reasons identified in the Jones bellwether trial.  
25 Doc. 12533 at 6-7. The Court concluded that this evidence had marginal relevance to  
26 Plaintiff's claims because Ms. Hyde received either a G2X or Eclipse filter, two or three  
27 generations after the Recovery filter; Ms. Hyde did not receive her filter until 2011, more  
28 than five years after cephalad migration deaths stopped when the Recovery was taken off

1 the market; the deaths did not show that G2X or Eclipse filters – which did not cause  
2 cephalad migration deaths – had design defects when they left Defendants’ control; nor  
3 did the cephalad migration deaths, which were eliminated by design changes in the G2,  
4 shed light on Defendants’ state of mind when designing and marketing the G2X and  
5 Eclipse filters. *Id.* at 7.

6 The Court concluded for purposes of the Tinlin bellwether trial, which involved a  
7 Recovery filter, that Recovery deaths and Defendants’ knowledge of those deaths were  
8 relevant to Plaintiffs’ design defect claim under Wisconsin law because they went  
9 directly to the Recovery’s foreseeable risks of harm and whether it was unreasonably  
10 dangerous. Doc. 17401 at 7-8. The Court also concluded that the Recovery death  
11 evidence was relevant to Plaintiffs’ failure to warn and concealment claims because it  
12 was probative on the causation issue – that is, whether her treating physician would have  
13 selected a different filter for Ms. Tinlin had he been warned about the Recovery’s true  
14 risks, as Plaintiffs describe them. *Id.* at 8. In addition, because this evidence would be  
15 used to impeach expert testimony from Defendants that the Recovery filter was safe and  
16 effective, the Court concluded that substantial similarity was not required. *Id.* at 8-9.  
17 The Court further concluded that the death evidence was relevant to Bard’s state of mind  
18 and to show the reprehensibility of its alleged conduct for purposes of punitive damages.  
19 *Id.* at 9-10. The Court reached a different conclusion in the Jones and Hyde cases  
20 because cephalad migration deaths stopped when the Recovery was taken off the market  
21 in 2005, and the deaths shed little light on Defendants’ state of mind when marketing  
22 different, improved filters years later. *Id.* at 9 n.4. As noted, the Tinlin case settled  
23 before trial.

24 **d. SNF Evidence.**

25 Plaintiffs sought to exclude evidence of complications associated with the SNF,  
26 claiming that they were barred from conducting relevant discovery into the design and  
27 testing of the SNF under CMO 10. Doc. 10487; *see* Doc. 1319. The Court denied  
28 Plaintiffs’ request. Doc. 10489. The Court did not agree that Plaintiffs were foreclosed

1 from obtaining relevant evidence for rebuttal. The Court foreclosed this discovery  
 2 because Plaintiffs did not contend that the SNF was defective. *Id.* at 2. Plaintiffs also  
 3 had rebuttal evidence showing that reported failure rates for SNF were lower than  
 4 Recovery and G2 failure rates. *Id.* The Court ultimately concluded it would not preclude  
 5 Defendants from presenting its SNF evidence on the basis of a discovery ruling and  
 6 permitted Plaintiffs to make appropriate evidentiary objections at trial. *Id.* at 3.

7 **e. Use of Testimony of Withdrawn Experts.**

8 Defendants sought to preclude Plaintiffs' use at trial of the depositions of three  
 9 defense experts – Drs. Moritz, Rogers, and Stein – who originally were retained by Bard  
 10 but were later withdrawn in some or all cases. Doc. 10255 at 2. The Court denied the  
 11 request in part. Doc. 10382. The Court found that Defendants failed to show that the  
 12 depositions of these experts were inadmissible on hearsay grounds, but agreed that it  
 13 would be unfairly prejudicial under Rule 403 to disclose to the jury that the experts  
 14 originally were retained by Bard. *Id.* at 2-3. The Court therefore concluded that  
 15 Plaintiffs could use portions of the experts' depositions that support Plaintiffs' claims, but  
 16 could not disclose to the jury that the experts originally were retained by Bard. *Id.* at 3.  
 17 The Court was concerned about the presentation of cumulative evidence, and therefore  
 18 required Plaintiffs to show that no other expert of similar qualifications was available or  
 19 that the unavailable expert had some unique testimony to contribute, before the  
 20 deposition of any withdrawn expert could be used at trial. *Id.* at 3-4.

21 **f. Other Motion in Limine Rulings.**

22 Other motion in limine ("MIL") rulings may be useful to the receiving courts. *See*  
 23 Docs. 10075, 10235, 10258, 10947. The courts are referred to the following motions and  
 24 orders to assist in preparing for trial:<sup>5</sup>

---

25  
 26 <sup>5</sup> The Court also ruled on the parties' MILs concerning several case-specific  
 27 issues. *See* Docs. 10075 (Plaintiff's MIL 12 in Booker), 10258 (Plaintiff's MILs 6  
 28 and 13 in Booker), 10947 (Defendants' MIL 1 and Plaintiff's MILs 1-4 and 7 in Jones),  
 12533 (Plaintiff's MIL 3 in Hyde), 17285 (Plaintiff's MIL 1 in Tinlin), 17401 (Plaintiff's  
 MILs 2, 3, and 6 in Tinlin).

- 1 • **Parties' Joint Stipulation on MILs in Booker:** The Court, on stipulation of  
2 the parties, excluded evidence concerning several case-specific issues in the  
3 Booker bellwether trial, as well as a few general issues, including: Bard's 1994  
4 criminal conviction; other lawsuits or claims against Bard; advertising by  
5 Plaintiff's counsel; Plaintiff's counsel specializing in personal injury or  
6 products liability litigation; contingency fee agreements; and advertising by  
7 any counsel nationally for IVC filter cases. Doc. 10235.
- 8 • **Defendants MIL 1 in Booker:** The Court permitted evidence and testimony  
9 concerning Recovery complications. Doc. 10258 at 1-5; *see* Doc. 10819  
10 (Jones). As noted above, the Court permitted evidence and testimony  
11 concerning Recovery filter cephalad migration deaths in the Booker bellwether  
12 trial involving a G2 filter (Doc. 10323 at 4), but excluded such evidence in the  
13 trials involving a G2X or Eclipse filter (Docs. 10819, 10920, 11041).
- 14 • **Defendants' MIL 2 in Booker:** The Court permitted evidence and testimony  
15 relating to the development of the Recovery filter. Doc. 10258 at 5-6; *see*  
16 Doc. 10819 at 2-3 (Jones).
- 17 • **Defendants' MIL 4 in Booker:** The Court excluded evidence and testimony  
18 concerning a photograph of Bard employee Michael Randall making an  
19 offensive gesture. Doc. 10075 at 1-2.
- 20 • **Defendants' MIL 5 in Booker:** The Court permitted Plaintiff's expert  
21 Dr. Thomas Kinney to be called as a fact witness, but prohibited him from  
22 testifying regarding his prior work for Bard as an expert witness in two prior  
23 IVC filter cases or as a paid consultant to Bard. Docs. 10075 at 2-3, 10323  
24 at 4.
- 25 • **Plaintiff's MIL 2 in Booker:** The Court reserved ruling until trial on evidence  
26 and testimony regarding the nature of Bard's business, including the nature,  
27 quality, and usefulness of its products, the conscientiousness of its employees,  
28 and references to its mission statement. Doc. 10075 at 3-4.
- **Plaintiff's MIL 3 in Booker:** The Court permitted evidence and testimony  
concerning the benefits of IVC filters, including testimony describing Bard  
filters as "lifesaving" devices. Doc. 10258 at 8.
- **Plaintiff's MIL 4 in Booker:** The Court permitted evidence and testimony  
that IVC filters, including Bard's filters, are within the standard of care for the  
medical treatment of pulmonary embolism. Doc. 10258 at 8-9. Defendants  
agreed to not characterize IVC filters as the "gold standard" for the treatment  
of pulmonary embolisms. *Id.* at 8.
- **Plaintiff's MIL 5 in Booker:** The Court denied as moot the motion to exclude  
evidence and argument relating to failure rates, complication rates,  
percentages, or comparative analysis of any injuries that were not produced to  
Plaintiffs during discovery, as all such information was produced. Doc. 10075  
at 4.

- 1 • **Plaintiff's MIL 7 in Booker:** The Court excluded evidence and argument  
2 relating to prior judicial opinions about Plaintiffs' experts, including the  
3 number of times their testimony has been precluded in other cases. *Id.*
- 4 • **Plaintiff's MIL 8 in Booker:** The Court excluded evidence and argument that  
5 a verdict against Defendants will have an adverse impact on the medical  
6 community, future medical device research or costs, and the availability of  
7 medical care. *Id.* at 4-5.
- 8 • **Plaintiff's MIL 9 in Booker:** The Court deferred ruling on the relevance of  
9 statements or lack of statements from medical societies, including the Society  
10 of Interventional Radiologists ("SIR"), until trial. Doc. 10258 at 14-18. The  
11 Court ultimately admitted this evidence in both the Booker and Jones  
12 bellwether trials.
- 13 • **Plaintiff's MIL 10 in Booker:** The Court excluded evidence and testimony  
14 that Bard needed FDA consent to add warnings to its labels, send warning  
15 letters to physicians and patients, or recall its filters. *Id.* at 18-19. The Court  
16 permitted evidence and argument explaining the reasons why Bard filters were  
17 not recalled, FDA's potential involvement in any recall effort, and the fact that  
18 warnings about failure rates and increased risks could not be based on MDR  
19 and MAUDE data alone. *Id.*
- 20 • **Plaintiff's MIL 11 in Booker:** The Court permitted evidence and argument  
21 relating to the informed consent form signed by Plaintiff prior to insertion of  
22 the IVC filter, even though the form is not specific to IVC filters or Bard  
23 filters. Doc. 10075 at 5-6.
- 24 • **Plaintiff's MIL 14 in Booker:** The Court reserved ruling until trial on  
25 evidence and argument relating to background information and personal traits  
26 of Bard employees and witnesses. *Id.* at 7.
- 27 • **Plaintiff's MIL 6 in Jones:** The Court permitted evidence and testimony  
28 concerning whether a party's expert had been retained by the same attorneys in  
other litigation. Doc. 10947 at 8-9.
- **Plaintiff's MIL 5 in Jones:** The Court excluded evidence and testimony that  
Bard employees or their relatives have received Bard IVC filter implants. *Id.*  
at 9-10.
- **Defendants' MIL 2 in Jones:** The Court excluded evidence and testimony of  
other lawsuits against Bard. *Id.* at 11.
- **Plaintiff's MILs 4 and 5 in Hyde:** The Court permitted evidence and  
testimony concerning Bard's Instructions for Use ("IFU") and SIR Guidelines.  
Doc. 12507.
- **Plaintiff's MIL 2 in Hyde:** The Court permitted evidence and testimony  
concerning "The Surgeon General's Call to Action to Prevent Deep Vein  
Thrombosis and Pulmonary Embolism." Doc. 12533 at 4-6.
- **Defendants' MIL 3 in Hyde:** The Court permitted evidence and testimony  
that Bard's SNF is a reasonable alternative design. *Id.* at 7.

- **Defendants' MIL 4 in Hyde:** The Court excluded testimony from Dr. Muehrcke about his personal feelings of betrayal and his moral and ethical issues with Bard's conduct. *Id.* at 7-8.
- **Defendants' MIL 6 in Hyde:** The Court permitted evidence and testimony regarding informed consent. *Id.* at 8-9.
- **Plaintiff's MIL 4 in Tinlin:** The Court reserved ruling until trial on evidence and argument relating to a chart created by Defendants from their internal TrackWise database regarding reporting rates of IVC filter complications. Doc. 17401 at 5.
- **Plaintiff's MIL 5 in Tinlin:** The Court permitted evidence and testimony concerning a chart comparing the sales of the permanent SNF with those of retrievable filters between 2002 and 2016. *Id.* at 5-6.
- **Defendants' MIL 3 in Tinlin:** The Court permitted evidence and testimony concerning the Recovery Filter Crisis Communications Plan that Bard had prepared in 2004 to help manage damaging media coverage about a Recovery migration death. *Id.* at 11-12.
- **Defendants' MIL 4 in Tinlin:** The Court excluded evidence and testimony concerning Dr. Muehrcke's untimely disclosed opinion that one of his patients died from cardiac tamponade caused by a fractured strut that had embolized to her heart. *Id.* at 12-13.

#### 6. Deposition Designation Rulings.

The Court has ruled on numerous objections to deposition designations for trial and refers the transferor courts to the following orders:<sup>6</sup>

| Deponent         | Depo. Date               | Doc. No(s).     |
|------------------|--------------------------|-----------------|
| Bill Altonaga    | 10/22/2013               | 10497, 10922    |
| Christine Brauer | 05/23/2014<br>08/02/2017 | 10922,<br>10922 |
| David Ciavarella | 11/12/2013               | 10403           |
| Gary Cohen       | 01/25/2017               | 10438           |

---

<sup>6</sup> In addition to the depositions identified in the table above, the Court ruled on numerous objections to case-specific deposition designations for trial.

| <b>Deponent</b>      | <b>Depo. Date</b>        | <b>Doc. No(s).</b> |
|----------------------|--------------------------|--------------------|
| Robert Cortelezzi    | 11/11/2016               | 10438, 11064       |
| Len DeCant           | 05/24/2016               | 10438, 11080       |

| Natalie Wong    | 10/18/2016 | 10403        |

### 7. Subject Matter Jurisdiction Ruling.

The parties identified cases in the MDL for which federal subject matter jurisdiction does not exist. Doc. 20210; *see also* Doc. 21410-7. No federal question jurisdiction exists under 28 U.S.C. § 1331 because the master complaint asserts no federal claim and the state law claims alleged in the complaint do not depend on the resolution of a federal law question. Doc. 364 ¶¶ 166-349. For purposes of diversity jurisdiction under 28 U.S.C. § 1332, Defendant C. R. Bard, Inc. is a citizen of New Jersey and Defendant Bard Peripheral Vascular, Inc. is a citizen of Arizona. *See id.* ¶¶ 11-12. Thus, complete diversity between the parties does not exist in any case where each Defendant is a named party and Plaintiff is a resident of either Arizona or New Jersey. *See* Doc. 20210-1.

Plaintiffs in most of the cases without subject matter jurisdiction agreed to a dismissal without prejudice. *See id.* Plaintiffs in other cases opposed dismissal, but provided no reason why the cases should not be dismissed. *See id.* The Court dismissed without prejudice multiple cases for lack of subject matter jurisdiction. *See* Docs. 20667, 21461. Some of these cases may be refiled in state court. *See* Doc. 20210-1.

**I. Further Proceedings in Remanded or Transferred Cases.**

**1. General Discovery.**

Because all general fact and expert discovery has been completed in this MDL, the courts receiving these cases need not be concerned with facilitating general expert, corporate, and third-party discovery. This observation is not meant to restrict the power of receiving courts for good cause or in the interest of justice to address issues that may be unique and relevant in a remanded or transferred case.

**2. Case-Specific Discovery and Trial Preparation.**

According to the parties, the status of the remaining discovery and other pretrial issues for the cases being remanded or transferred, and the estimated time needed to resolve such issues and make the cases ready for trial, will be determined on remand or transfer. Final trial preparation in the bellwether trials was governed by certain Court orders. *See* Docs. 8871, 10323, 10587, 11011, 11320, 11321, 11659, 11871, 12061, 12853, 12971.

**J. Documents to Be Sent to Receiving Courts.**

If the Panel agrees with the Court's suggestion of remand of the cases listed on Schedule A and issues a final remand order ("FRO"), the Clerk of the Court for this District will issue a letter to the transferor courts, via email, setting out the process for transferring the case. The letter and certified copy of the FRO will be sent to the transferor courts' email addresses.

The parties have submitted a stipulated designation of record for remanded cases. Doc. 19444-1; *see* J.P.M.L Rule 10.4(a). Upon receipt of the FRO, the Clerk of this District shall transmit to the transferor court the following: (1) a copy of the individual docket sheet for the remanded action, (2) a copy of the master docket sheet in this MDL, (3) the entire file for the remanded action, as originally received from the transferor district, and (4) the record on remand designated by the parties. *See* Doc. 19444-1; J.P.M.L Rule 10.4(b).

1 The Court has concluded that the cases listed on Schedule B should be transferred  
2 to appropriate districts pursuant to 28 U.S.C. § 1404(a). Upon receipt of this transfer  
3 order, the Clerk for this District shall follow the same procedures prescribed above for  
4 each of the individual cases listed on Schedule B.

5 If a party believes that the docket sheet for a particular case being remanded or  
6 transferred is not correct, a party to that case may, with notice to all other parties in the  
7 case, file with the receiving court a designation amending the record. Upon receiving  
8 such designation, the receiving court may make any needed changes to the docket. If the  
9 docket is revised to include additional documents, the parties should provide those  
10 documents to the receiving court.

11 **IV. Conclusion.**

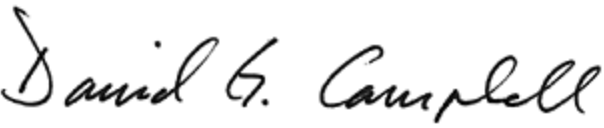

12 Pursuant to J.P.M.L. Rule 10.1(b)(i), the Court suggests that the Panel remand the  
13 cases listed on Schedule A to the transferor districts for further proceedings. The Clerk  
14 shall forward a certified copy of this order to the Panel.

15 Pursuant to 28 U.S.C. § 1404(a), the Clerk of this District is directed to transfer  
16 the cases listed on Schedule B to appropriate districts for further proceedings.

17 The Clerk of this District is directed to unconsolidate from the MDL the cases  
18 listed on Schedule C. These cases will remain in the District of Arizona and be assigned  
19 to the undersigned judge.

20 **IT IS SO ORDERED.**

21 Dated this 4th day of March, 2020.

22  
23 

24 David G. Campbell  
25 Senior United States District Judge  
26  
27
