### Space Coordination Agreement

Space planning is defined as the leasing and management of physical office space including, but not limited to, space design, tenant improvements, and procurement of furniture (both conventional and modular), required office equipment, and the voice and data structure to operate an office.

The Office of the Receiver (responsible for medical care remedial infrastructure) needs to work in coordination with the California Department of Corrections and Rehabilitation (CDCR) and the Division of Correctional Health Care Services (DCHCS) (responsible for the mental health, dental, and the Americans with Disabilities Act remedial infrastructure) to achieve the respective missions, visions, and goals of the *Plata*, *Coleman*, *Perez*, and *Armstrong* class actions. Based on previously approved coordination agreements, the Receiver is responsible for Information Technology, Telemedicine, Construction including New Healthcare Facility Construction and Upgrade Construction, Chief Executive Officer Pilot Program, CIM-GACH, Contracts, Credentialing, Hiring, and Pharmacy. A coordinated office space agreement would ensure that the space related infrastructure required will be available to support these agreements.

Currently, office space planning is managed separately by the Receiver and DCHCS. It would be more practical and efficient for this process to be managed and handled by a single unit. The Court representatives in *Plata*, *Coleman*, *Perez*, and *Armstrong* propose that the Receiver's *Plata* Support Division Business Operations Unit assume responsibility, in coordination with DCHCS and subject to the oversight of the Court representatives in *Plata*, *Coleman*, *Perez*, and *Armstrong*, for all non-institutional office space statewide for the medical, mental health, and dental programs. Placing this responsibility under a single unit will ensure that the planning, acquisition, and management of necessary space would support both the Receiver's objectives and the requirements of the mental health and dental programs in a cost efficient manner.
