RULING ON ENTITLEMENT¹

On December 23, 2022, James Stanfield (“Petitioner”) filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered from Guillain-Barre Syndrome “GBS”) as a result of an influenza (“flu”) vaccine administered on October 1, 2021. Petition at 1. Petitioner further alleges that he suffered the residual effects of his injury for more than six months, that the vaccine was administered within the United States, and that there has been no prior award or settlement of a civil action on his behalf as a result of his injury. *Id.* at 1, 5. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 21, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report Recommending Compensation at 1. Specifically, Respondent has concluded that Petitioner's injury is consistent with GBS as defined by the Vaccine Injury table. *Id.* at 4-5.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
