<sup>1</sup> This exhibit contains the Defendant's prison medical records. Although the public has a common law right of access to judicial proceedings and papers, matters relating to the daily details of the Defendant's medical treatment are not in the public interest. The Court finds the Government's interest in protecting the privacy of medical records of individuals in its custody—and the privacy interests of those individuals—outweighs any interest the public may have in these documents. *See Bertolotti v.
