

world's first coal-based, zero-emissions electricity and hydrogen powerplant. This project will be undertaken with international partners and power and advanced technology providers to dramatically reduce air pollution and capture and store emissions of greenhouse gases. We will work together on this important effort to meet the world's growing energy needs, while protecting the health of our people and our environment.

Secretaries Powell and Abraham will also initiate an international Carbon Sequestration Leadership Forum, to collaborate with international partners on advancing the research, development, and commercial deployment of carbon capture and storage technologies in the next decade.

Recently, my administration has proposed initiatives to accelerate research and development of hydrogen fuel cell vehicles to allow for commercialization by 2020, and fusion energy by the middle of this century. This demonstration project and the Carbon Sequestration Leadership Forum will build on these initiatives to provide the American people and the world with advanced technologies to meet the world's energy needs, while improving our global environment for future generations.

Statement on House of Representatives Action on Legislation To Prohibit Human Cloning

February 27, 2003

Today's resounding bipartisan vote in the House demonstrates concern for the profound moral and social issues posed by human cloning. Like most Americans, I believe human cloning is deeply troubling, and I strongly support efforts by Congress to ban all human cloning. We must advance the promise and cause of medical science, including through ethical stem cell research, yet we must do so in ways that respect human dignity and help build a culture of life. I urge the Senate to act quickly on legislation banning all human cloning.

Statement on Proposed Legislation To Implement the Jobs and Growth Package

February 27, 2003

I commend Senators Nickles and Miller and Chairman Thomas for their leadership in introducing my jobs and growth package, which will put money back into the hands of millions of Americans and increase investment and job opportunities.

Today's action demonstrates bipartisan commitment to promoting economic growth and creating jobs. The plan will cut taxes for everyone across the board, eliminate the unfair double taxation of dividends, increase small-business investment incentives, help families with children, and end the penalty paid by working couples.

I look forward to continuing to work with Chairman Thomas, Chairman Grassley, and members of both parties who share my vision for strengthening America's economic recovery and ensuring that every individual who wants a job is able to find one.

Notice—Continuation of the National Emergency Relating to Cuba and of the Emergency Authority Relating to the Regulation of the Anchorage and Movement of Vessels

February 27, 2003

On March 1, 1996, by Proclamation 6867, President Clinton declared a national emergency to address the disturbance or threatened disturbance of international relations caused by the February 24, 1996, destruction by the Government of Cuba of two unarmed U.S.-registered civilian aircraft in international airspace north of Cuba. In July 1996 and on subsequent occasions, the Government of Cuba stated its intent to forcefully defend its sovereignty against any U.S.-registered vessels or aircraft that might enter Cuban territorial waters or airspace while involved in a flotilla and peaceful protest. Since these events, the Government of Cuba has not demonstrated that it will refrain from the
