

105TH CONGRESS
2D SESSION

H. R. 4585

To establish the Northwest Straits Advisory Commission.

IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 16, 1998

Mr. METCALF introduced the following bill; which was referred to the
Committee on Resources

A BILL

To establish the Northwest Straits Advisory Commission.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Northwest Straits Ma-
5 rine Conservation Initiative Act”.

6 **SEC. 2. FINDINGS AND PURPOSES.**

7 (a) The Congress hereby finds that—

8 (1) Puget Sound and the inland marine waters
9 of Washington State, and more specifically the ma-
10 rine waters and ecosystem of the Northwest Straits
11 as defined in this Act, represent a unique and un-
12 paralleled resource of enormous environmental and

1 economic value to the people of the region and the
2 Nation in this and future generations;

3 (2) despite considerable research and regulatory
4 efforts and financial investments, current efforts
5 have failed to protect natural habitats and fish and
6 wildlife populations adequately in these waters;

7 (3) as a result, species of fish, shellfish,
8 seabirds, mammals, and marine invertebrates have
9 undergone substantial declines in regional population
10 abundance in recent years, in part because the in-
11 ventory of nearshore habitats has reached critically
12 low levels, and existing restorative measures are
13 clearly inadequate to replace lost habitats;

14 (4) it is the scientific consensus that efforts
15 should focus on habitat preservation, on assessment
16 and conservation of stocks of fish, invertebrates,
17 birds, and marine mammals, on reducing waste dis-
18 posal and contaminated runoff, and on developing
19 compatible environmental regulations on both sides
20 of the international boundary with Canada; and

21 (5) by the year 2020, human population in this
22 region of the United States and Canada is projected
23 to increase by more than 50 percent, so that just to
24 maintain present quality of life and sustain present
25 economic activities that are dependent upon a

1 healthy marine ecosystem, and to keep marine wa-
2 ters and ecosystem from deteriorating further, re-
3 quires significantly reducing the collective environ-
4 mental burdens caused by shoreline development,
5 fish catch, and waste discharge that impact these
6 marine waters.

7 (b) The Congress finds and declares the purposes of
8 this Act to be—

9 (1) to develop and test innovative intergovern-
10 mental arrangements that may prove effective in
11 helping to reverse the degradation of the marine eco-
12 system of the Northwest Straits by encouraging and
13 supporting the concern, initiative, and capabilities of
14 the people who reside in this area and their local
15 governments, thus enhancing the collective efforts of
16 all levels of government; and

17 (2) to foster improved resource protection, the
18 preservation of commercial values and diverse ways
19 of life, full cooperation with Indian tribes, additional
20 research, education, and interpretation, maximum
21 cooperation by all Federal agencies with the State
22 and local governments and Indian tribes, and inter-
23 national cooperation with Canada, in order to en-
24 hance the protection and restoration of the natural
25 habitats and values of the Northwest Straits.

1 **SEC. 3. ESTABLISHMENT.**

2 There is established a commission to be known as the
3 Northwest Straits Advisory Commission.

4 **SEC. 4. DUTIES.**

5 The Commission shall coordinate with and com-
6 plement the activities of appropriate authorities at the
7 Federal, State, local, and tribal levels to work to achieve
8 the benchmarks set forth in section 9(b)(2) by—

9 (1) monitoring the overall health of the marine
10 ecosystem of the Northwest Straits;

11 (2) developing scientifically sound economic
12 measurements of the costs, both direct and indirect,
13 of ecosystem degradation and environmental protec-
14 tion with respect to the marine ecosystem of the
15 Northwest Straits;

16 (3) identifying trends and activities adversely
17 affecting, or preventing the restoration of, the health
18 of the marine ecosystem of the Northwest Straits;

19 (4) developing scientifically sound restoration
20 recommendations, informed by the economic meas-
21 urements, that address such matters for action by
22 the appropriate authorities;

23 (5) providing the restoration recommendations
24 and the economic measurements to the appropriate
25 authorities;

1 (6) helping facilitate the successful implementa-
2 tion of the recommendations by developing broad
3 support for the recommendations among the appro-
4 priate authorities, stakeholder groups, and the gen-
5 eral public;

6 (7) serving as a public forum for the discussion
7 of Federal, State, local, tribal, and Canadian policies
8 and actions with respect to the marine ecosystem of
9 the Northwest Straits;

10 (8) informing appropriate authorities and the
11 general public about the marine ecosystem of the
12 Northwest Straits and about issues relating to the
13 marine ecosystem of the Northwest Straits;

14 (9) consulting with all affected federally recog-
15 nized tribes in the region of the Northwest Straits
16 to ensure that the work of the Commission does not
17 violate tribal treaty rights; and
