RESOLUTION

Designating October 16, 1998, as “National Mammography Day”.

Whereas according to the American Cancer Society, in 1998, 178,700 women will be diagnosed with breast cancer and 43,500 women will die from this disease;

Whereas in the decade of the 1990's, it is estimated that about 2,000,000 women will be diagnosed with breast cancer, resulting in nearly 500,000 deaths;

Whereas the risk of breast cancer increases with age, with a woman at age 70 having twice as much of a chance of developing the disease as a woman at age 50;

Whereas at least 80 percent of the women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at a certified facility, can provide a safe and quick diagnosis;

Whereas experts agree that mammography is the best method of early detection of breast cancer, and early detection is the key to saving lives;

Whereas mammograms can reveal the presence of small cancers up to 2 years or more before a regular clinical breast examination or breast self-examination (BSE), reducing mortality by more than 30 percent; and

Whereas 47 States and the District of Columbia have passed legislation requiring health insurance companies to cover mammograms in accordance with recognized screening guidelines: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) designates October 16, 1998, as “National
3 Mammography Day”; and

4 (2) requests that the President issue a procla-
5 mation calling upon the people of the United States
6 to observe such day with appropriate programs and
7 activities.
