CONCURRENT RESOLUTION

- Expressing the sense of Congress in opposition to a "bit tax" on Internet data proposed in the Human Development Report 1999 published by the United Nations Development Programme.
- Whereas the Internet has rapidly become a highly valued tool for millions of people in the United States and across the

world and promises to become an ever-greater benefit to mankind;

- Whereas the Internet has spurred entirely new industries dominated by the United States and has become critical to the continued growth of our economy;
- Whereas emerging telecommunications technologies promise to extend the benefits of the Internet to ever-growing and far-flung populations;
- Whereas the Internet should remain tax-free;
- Whereas any global tax collected by the United Nations would present a threat to the sovereignty of the United States and would violate the United States Constitution;
- Whereas Americans are by far the greatest users of the Internet and would thus be disproportionately affected by any global Internet tax;
- Whereas the most effective and just way to spread technology and wealth is through the operation of a free market;
- Whereas the rapidly increasing sophistication and decreasing cost of telecommunications and computing products and services should not be disturbed; and
- Whereas the United Nations Development Programme's Human Development Report 1999 proposed that a socalled "bit tax" be levied on all data sent through the Internet: Now, therefore, be it
 - 1 Resolved by the House of Representatives (the Senate
 - 2 concurring), That Congress urges the Administration to
 - 3 protect United States sovereignty by aggressively opposing
 - 4 the global "bit tax" proposed in the Human Development

- 1 Report 1999 published by the United Nations Develop-
- 2 ment Programme.
