

106TH CONGRESS
1ST SESSION

S. 834

To withhold voluntary proportional assistance for programs and projects of the International Atomic Energy Agency relating to the development and completion of the Bushehr nuclear power plant in Iran, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 20, 1999

Mr. CAMPBELL (for himself and Mr. SESSIONS) introduced the following bill; which was read twice and referred to the Committee on Foreign Relations

A BILL

To withhold voluntary proportional assistance for programs and projects of the International Atomic Energy Agency relating to the development and completion of the Bushehr nuclear power plant in Iran, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Iran Nuclear Prolifera-
5 tion Prevention Act of 1999”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

1 (1) Iran remains the world's leading sponsor of
2 international terrorism and is on the Department of
3 State's list of countries that provide support for acts
4 of international terrorism.

5 (2) Iran has repeatedly called for the destruc-
6 tion of Israel and Iran supports organizations, such
7 as Hizballah, Hamas, and the Palestine Islamic
8 Jihad, which are responsible for terrorist attacks
9 against Israel.

10 (3) Iranian officials have stated their intent to
11 complete at least three nuclear power plants by 2015
12 and are currently working to complete the Bushehr
13 nuclear power plant located on the Persian Gulf
14 coast.

15 (4) The United States has publicly opposed the
16 completion of reactors at the Bushehr nuclear power
17 plant because the transfer of civilian nuclear tech-
18 nology and training could help to advance Iran's nu-
19 clear weapons program.

20 (5) In an April 1997 hearing before the Sub-
21 committee on Near Eastern and South Asian Affairs
22 of the Committee on Foreign Relations of the Sen-
23 ate, the former Director of the Central Intelligence
24 Agency, James Woolsey, stated that through the op-
25 eration of the nuclear power reactor at the Bushehr

1 nuclear power plant, Iran will develop substantial ex-
2 pertise relevant to the development of nuclear weap-
3 ons.

4 (6) Construction of the Bushehr nuclear power
5 plant was halted following the 1979 revolution in
6 Iran because the former West Germany refused to
7 assist in the completion the plant due to concerns
8 that completion of the plant could provide Iran with
9 expertise and technology which could advance Iran's
10 nuclear weapons program.

11 (7) In January 1995, Iran signed a
12 \$780,000,000 contract with the Russian Federation
13 for Atomic Energy (MINATOM) to complete a
14 VVER-1000 pressurized-light water reactor at the
15 Bushehr nuclear power plant and in November
16 1998, Iran and Russia signed a protocol to expedite
17 the construction of the nuclear reactor, setting a
18 new timeframe of 52 months for its completion.

19 (8) In November 1998, Iran asked Russia to
20 prepare a feasibility study to build 3 more nuclear
21 reactors at the Bushehr site.

22 (9) Iran is building up its offensive military ca-
23 pacity in other areas as evidenced by its recent test-
24 ing of engines for ballistic missiles capable of car-

1 rying 2,200 pound warheads more than 800 miles,
2 within range of strategic targets in Israel.

3 (10) Iran ranks tenth among the 105 nations
4 receiving assistance from the technical cooperation
5 program of the International Atomic Energy Agen-
6 cy.

7 (11) Between 1995 and 1999, the International
8 Atomic Energy Agency has provided and is expected
9 to provide a total of \$1,550,000 through its Tech-
10 nical Assistance and Cooperation Fund for the Ira-
11 nian nuclear power program, including reactors at
12 the Bushehr nuclear power plant.

13 (12) In 1999 the International Atomic Energy
14 Agency initiated a program to assist Iran in the area
15 of uranium exploration. At the same time it is be-
16 lieved that Iran is seeking to acquire the requisite
17 technology to enrich uranium to weapons-grade lev-
18 els.

19 (13) The United States provides annual con-
20 tributions to the International Atomic Energy Agen-
21 cy which total more than 25 percent of the annual
22 assessed budget of the Agency, and the United
23 States also provides annual voluntary contributions
24 to the Technical Assistance and Cooperation Fund
25 of the Agency which total approximately 32 percent

1 (\$18,250,000 in 1999) of the annual budget of the
2 program.

3 (14) The United States should not voluntarily
4 provide funding for the completion of nuclear power
5 reactors which could provide Iran with substantial
6 expertise to advance its nuclear weapons program
7 and potentially pose a threat to the United States or
8 its allies.

9 (15) Iran has no need for nuclear energy be-
10 cause of its immense oil and natural gas reserves
11 which are equivalent to 9.3 percent of the world's re-
12 serves, and Iran has 73,000,000,000 cubic feet of
13 natural gas, an amount second only to the natural
14 gas reserves of Russia.

15 **SEC. 3. WITHHOLDING OF VOLUNTARY CONTRIBUTIONS TO**
16 **THE INTERNATIONAL ATOMIC ENERGY AGEN-**
17 **CY FOR PROGRAMS AND PROJECTS IN IRAN.**

18 Section 307 of the Foreign Assistance Act of 1961
19 (22 U.S.C. 2227) is amended by adding at the end the
20 following:

21 “(d) Notwithstanding subsection (c), the limitations
22 of subsection (a) shall apply to programs and projects of
23 the International Atomic Energy Agency in Iran, unless
24 the Secretary of State determines, and reports in writing
25 to the Committee on International Relations of the House

1 of Representatives and the Committee on Foreign Rela-
 2 tions of the Senate, that such programs and projects are
 3 consistent with United States nuclear nonproliferation and
 4 safety goals, will not provide Iran with training or exper-
 5 tise relevant to the development of nuclear weapons, and
 6 are not being used as a cover for the acquisition of sen-
 7 sitive nuclear technology. A determination made by the
 8 Secretary of State under the preceding sentence shall be
 9 effective for the 1-year period beginning on the date of
 10 the determination.”.

11 **SEC. 4. ANNUAL REVIEW BY SECRETARY OF STATE OF PRO-**
 12 **GRAMS AND PROJECTS OF THE INTER-**
 13 **NATIONAL ATOMIC ENERGY AGENCY; UNITED**
 14 **STATES OPPOSITION TO PROGRAMS AND**
 15 **PROJECTS OF THE AGENCY IN IRAN.**

16 (a) ANNUAL REVIEW.—

17 (1) IN GENERAL.—The Secretary of State shall
 18 undertake a comprehensive annual review of all pro-
 19 grams and projects of the International Atomic En-
 20 ergy Agency in the countries described in section
 21 307(a) of the Foreign Assistance Act of 1961 (22
 22 U.S.C. 2227(a)) to determine if such programs and
 23 projects are consistent with United States nuclear
 24 nonproliferation and safety goals.

1 (2) REPORT.—Not later than 1 year after the
2 date of enactment of this Act and on an annual
3 basis thereafter for 5 years, the Secretary shall pre-
4 pare and submit to Congress a report containing the
5 results of the review under paragraph (1).

6 (b) OPPOSITION TO CERTAIN PROGRAMS AND
7 PROJECTS OF INTERNATIONAL ATOMIC ENERGY AGEN-
8 CY.—The Secretary of State shall direct the United States
9 representative to the International Atomic Energy Agency
10 to oppose programs of the Agency that are determined by
11 the Secretary pursuant to the review conducted under sub-
12 section (a)(1) to be inconsistent with nuclear nonprolifera-
13 tion and safety goals of the United States.

14 **SEC. 5. REPORTING REQUIREMENTS.**

15 (a) IN GENERAL.—Not later than 180 days after the
16 date of enactment of this Act and on an annual basis
17 thereafter for 5 years, the Secretary of State, in consulta-
18 tion with the United States representative to the Inter-
19 national Atomic Energy Agency, shall prepare and submit
20 to Congress a report that—

21 (1) describes the total amount of annual assist-
22 ance to Iran provided by the International Atomic
23 Energy Agency, a list of Iranian officials in leader-
24 ship positions at the Agency, the expected timeframe
25 for the completion of the nuclear power reactors at

1 the Bushehr nuclear power plant, and a summary of
2 the nuclear materials and technology transferred to
3 Iran from the Agency in the preceding year which
4 could assist in the development of Iran's nuclear
5 weapons program; and

6 (2) contains a description of all programs and
7 projects of the International Atomic Energy Agency
8 in each country described in section 307(a) of the
9 Foreign Assistance Act of 1961 (22 U.S.C. 2227(a))
10 and any inconsistencies between the technical co-
11 operation and assistance programs and projects of
12 the Agency and United States nuclear nonprolifera-
13 tion and safety goals in these countries.

14 (b) **ADDITIONAL REQUIREMENT.**—The report re-
15 quired to be submitted under subsection (a) shall be sub-
16 mitted in an unclassified form, to the extent appropriate,
17 but may include a classified annex.

18 **SEC. 7. SENSE OF CONGRESS.**

19 It is the sense of Congress that the United States
20 should pursue internal reforms at the International Atom-
21 ic Energy Agency that will ensure that all programs and
22 projects funded under the Technical Cooperation and As-
23 sistance Fund of the Agency are compatible with United

- 1 States nuclear nonproliferation policy and international
- 2 nuclear nonproliferation norms.
