

107TH CONGRESS  
1ST SESSION

# H. R. 2108

To amend the Internal Revenue Code of 1986 to provide tax incentives to encourage the production and use of efficient energy sources, and for other purposes.

---

## IN THE HOUSE OF REPRESENTATIVES

JUNE 7, 2001

Mr. MATSUI (for himself, Mr. BECERRA, Mr. POMEROY, Mr. CONDIT, Mr. SAWYER, Mr. THOMPSON of California, Mrs. CAPPES, Ms. LOFGREN, Mr. BENTSEN, Mr. CROWLEY, Mr. KANJORSKI, and Ms. JACKSON-LEE of Texas) introduced the following bill; which was referred to the Committee on Ways and Means

---

# A BILL

To amend the Internal Revenue Code of 1986 to provide tax incentives to encourage the production and use of efficient energy sources, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-  
2       tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE;**

4           **TABLE OF CONTENTS.**

5       (a) SHORT TITLE.—This Act may be cited as the  
6       “Energy Security and Tax Incentive Policy Act of 2001”.

7       (b) AMENDMENT OF 1986 CODE.—Except as other-  
8       wise expressly provided, whenever in this Act an amend-

Sec. 605. Gas pipelines treated as 7-year property.  
Sec. 606. Crude oil and natural gas development credit.  
Sec. 607. Credit for capture of coalmine methane gas.  
Sec. 608. Allocation of alcohol fuels credit to patrons of a cooperative.  
Sec. 609. Extension of credit for producing fuel from a nonconventional source.

## 1       **TITLE I—ENERGY-EFFICIENT** 2       **PROPERTY USED IN BUSINESS**

### 3       **SEC. 101. CREDIT FOR CERTAIN ENERGY-EFFICIENT PROP-** 4                   **ERTY USED IN BUSINESS.**

5       (a) IN GENERAL.—Subpart E of part IV of sub-  
6 chapter A of chapter 1 (relating to rules for computing  
7 investment credit) is amended by inserting after section  
8 48 the following:

#### 9       **“SEC. 48A. ENERGY CREDIT.**

10       “(a) IN GENERAL.—For purposes of section 46, the  
11 energy credit for any taxable year is the energy percentage  
12 of the basis of each energy property placed in service dur-  
13 ing such taxable year.

14       “(b) ENERGY PERCENTAGE.—

15       “(1) IN GENERAL.—The energy percentage is—  
16                   “(A) except as otherwise provided in this  
17 subparagraph, 10 percent,

18                   “(B) in the case of energy property de-  
19 scribed in clauses (i), (iii), and (vi) of sub-  
20 section (c)(1)(A), 20 percent,

21                   “(C) in the case of energy property de-  
22 scribed in subsection (c)(1)(A)(v), 15 percent,

1               “(D) in the case of energy property de-  
2               scribed in subsection (c)(1)(A)(ii) relating to a  
3               high risk geothermal well, 20 percent, and

4               “(E) in the case of energy property de-  
5               scribed in subsection (c)(1)(A)(vii), 30 percent.

6               “(2) COORDINATION WITH REHABILITATION.—

7               The energy percentage shall not apply to that por-  
8               tion of the basis of any property which is attrib-  
9               utable to qualified rehabilitation expenditures.

10               “(c) ENERGY PROPERTY DEFINED.—

11               “(1) IN GENERAL.—For purposes of this sub-  
12               part, the term ‘energy property’ means any  
13               property—

14               “(A) which is—

15               “(i) solar energy property,

16               “(ii) geothermal energy property,

17               “(iii) energy-efficient building prop-  
18               erty other than property described in  
19               clauses (iii)(I) and (v)(I) of subsection  
20               (d)(3)(A),

21               “(iv) combined heat and power system  
22               property,

23               “(v) low core loss distribution trans-  
24               former property,

1                         “(vi) qualified anaerobic digester  
2                         property, or

3                         “(vii) qualified wind energy systems  
4                         equipment property,

5                         “(B)(i) the construction, reconstruction, or  
6                         erection of which is completed by the taxpayer,  
7                         or

8                         “(ii) which is acquired by the taxpayer if  
9                         the original use of such property commences  
10                         with the taxpayer.

11                         “(C) which can reasonably be expected to  
12                         remain in operation for at least 5 years,

13                         “(D) with respect to which depreciation (or  
14                         amortization in lieu of depreciation) is allow-  
15                         able, and

16                         “(E) which meets the performance and  
17                         quality standards (if any) which—

18                         “(i) have been prescribed by the Sec-  
19                         retary by regulations (after consultation  
20                         with the Secretary of Energy), and

21                         “(ii) are in effect at the time of the  
22                         acquisition of the property.

23                         “(2) EXCEPTIONS.—

24                         “(A) PUBLIC UTILITY PROPERTY.—Such  
25                         term shall not include any property which is

1           public utility property (as defined in section  
2           46(f)(5) as in effect on the day before the date  
3           of the enactment of the Revenue Reconciliation  
4           Act of 1990), except for property described in  
5           paragraph (1)(A)(iv).

6           “(B) CERTAIN WIND EQUIPMENT.—Such  
7           term shall not include equipment described in  
8           paragraph (1)(A)(vii) which is taken into ac-  
9           count for purposes of section 45 for the taxable  
10           year.

11           “(d) DEFINITIONS RELATING TO TYPES OF ENERGY  
12           PROPERTY.—For purposes of this section—

13           “(1) SOLAR ENERGY PROPERTY.—

14           “(A) IN GENERAL.—The term ‘solar en-  
15           ergy property’ means equipment which uses  
16           solar energy to generate electricity, to heat or  
17           cool (or provide hot water for use in) a struc-  
18           ture, or to provide solar process heat.

19           “(B) SWIMMING POOLS, ETC. USED AS  
20           STORAGE MEDIUM.—The term ‘solar energy  
21           property’ shall not include property with respect  
22           to which expenditures are properly allocable to  
23           a swimming pool, hot tub, or any other energy  
24           storage medium which has a function other  
25           than the function of such storage.

1                   “(C) SOLAR PANELS.—No solar panel or  
2                   other property installed as a roof (or portion  
3                   thereof) shall fail to be treated as solar energy  
4                   property solely because it constitutes a struc-  
5                   tural component of the structure on which it is  
6                   installed.

7                   “(2) GEOTHERMAL ENERGY PROPERTY.—

8                   “(A) IN GENERAL.—The term ‘geothermal  
9                   energy property’ means equipment used to  
10                  produce, distribute, or use energy derived from  
11                  a geothermal deposit (within the meaning of  
12                  section 613(e)(2)), but only, in the case of elec-  
13                  tricity generated by geothermal power, up to  
14                  (but not including) the electrical transmission  
15                  stage.

16                  “(B) HIGH RISK GEOTHERMAL WELL.—  
17                  The term ‘high risk geothermal well’ means a  
18                  geothermal deposit (within the meaning of sec-  
19                  tion 613(e)(2)) which requires high risk drilling  
20                  techniques. Such deposit may not be located in  
21                  a State or national park or in an area in which  
22                  the relevant State park authority or the Na-  
23                  tional Park Service determines the development  
24                  of such a deposit will negatively impact on a  
25                  State or national park.

1           “(3) ENERGY-EFFICIENT BUILDING PROP-  
2       ERTY.—

3           “(A) IN GENERAL.—The term ‘energy-effi-  
4       cient building property’ means—

5           “(i) a fuel cell which—

6           “(I) generates electricity using  
7       an electrochemical process,

8           “(II) has an electricity-only gen-  
9       eration efficiency greater than 30 per-  
10       cent, and

11           “(III) has a minimum generating  
12       capacity of 2 kilowatts,

13           “(ii) an electric heat pump hot water  
14       heater which yields an energy factor of 1.7  
15       or greater under test procedures prescribed  
16       by the Secretary of Energy,

17           “(iii)(I) an electric heat pump which  
18       has a heating system performance factor  
19       (HSPF) of at least 8.5 but less than 9 and  
20       a cooling seasonal energy efficiency ratio  
21       (SEER) of at least 13.5 but less than 15,

22           “(II) an electric heat pump which has  
23       a heating system performance factor  
24       (HSPF) of 9 or greater and a cooling sea-

1 personal energy efficiency ratio (SEER) of 15  
2 or greater,

16 “(I) increases steady state effi-  
17 ciency and reduces standby and vent  
18 losses, and

19 “(II) has an energy factor of at  
20 least 0.65,

1                     “(viii) natural gas cooling equipment  
2                     which meets all applicable standards of the  
3                     American Society of Heating, Refriger-  
4                     ating, and Air Conditioning Engineers  
5                     and which—

6                     “(I) has a coefficient of perform-  
7                     ance of not less than .60, or

8                     “(II) uses desiccant technology  
9                     and has an efficiency rating of not  
10                    less than 50 percent.

11                    “(B) LIMITATIONS.—The credit under sub-  
12                    section (a) for the taxable year may not  
13                    exceed—

14                    “(i) \$500 in the case of property de-  
15                    scribed in subparagraph (A) other than  
16                    clauses (i), (iv), and (viii) thereof,

17                    “(ii) \$500 for each kilowatt of capac-  
18                    ity in the case of any fuel cell described in  
19                    subparagraph (A)(i),

20                    “(iii) \$1,000 in the case of any nat-  
21                    ural gas heat pump described in subpara-  
22                    graph (A)(iv), and

23                    “(iv) \$150 for each ton of capacity in  
24                    the case of any natural gas cooling equip-  
25                    ment described in subparagraph (A)(viii).

## 1           “(4) COMBINED HEAT AND POWER SYSTEM

## 2           PROPERTY.—

3           “(A) IN GENERAL.—The term ‘combined  
4           heat and power system property’ means  
5           property—6           “(i) comprising a system for the same  
7           energy source for the simultaneous or se-  
8           quential generation of electrical power, me-  
9           chanical shaft power, or both, in combina-  
10           tion with steam, heat, or other forms of  
11           useful energy,12           “(ii) which has an electrical capacity  
13           of more than 50 kilowatts or a mechanical  
14           energy capacity of more than 67 horse-  
15           power or an equivalent combination of elec-  
16           trical and mechanical energy capacities,

17           “(iii) which produces—

18           “(I) at least 20 percent of its  
19           total useful energy in the form of  
20           thermal energy, and21           “(II) at least 20 percent of its  
22           total useful energy in the form of elec-  
23           trical or mechanical power (or a com-  
24           bination thereof), and

1                     “(iv) the energy efficiency percentage  
2                     of which exceeds—

3                     “(I) 60 percent in the case of a  
4                     system with an electrical capacity of  
5                     less than 1 megawatt,

6                     “(II) 65 percent in the case of a  
7                     system with an electrical capacity of  
8                     not less than 1 megawatt and not in  
9                     excess of 50 megawatts, and

10                    “(III) 70 percent in the case of a  
11                    system with an electrical capacity in  
12                    excess of 50 megawatts.

13                    “(B) SPECIAL RULES.—

14                    “(i) ENERGY EFFICIENCY PERCENT-  
15                    AGE.—For purposes of subparagraph  
16                    (A)(iv), the energy efficiency percentage of  
17                    a system is the fraction—

18                    “(I) the numerator of which is  
19                    the total useful electrical, thermal,  
20                    and mechanical power produced by  
21                    the system at normal operating rates,  
22                    and

23                    “(II) the denominator of which is  
24                    the lower heating value of the primary  
25                    fuel source for the system.

1                     “(ii) DETERMINATIONS MADE ON BTU  
2                     BASIS.—The energy efficiency percentage  
3                     and the percentages under subparagraph  
4                     (A)(iii) shall be determined on a Btu basis.

5                     “(iii) INPUT AND OUTPUT PROPERTY  
6                     NOT INCLUDED.—The term ‘combined heat  
7                     and power system property’ does not in-  
8                     clude property used to transport the en-  
9                     ergy source to the facility or to distribute  
10                     energy produced by the facility.

11                     “(iv) ACCOUNTING RULE FOR PUBLIC  
12                     UTILITY PROPERTY.—If the combined heat  
13                     and power system property is public utility  
14                     property (as defined in section 46(f)(5) as  
15                     in effect on the day before the date of the  
16                     enactment of the Revenue Reconciliation  
17                     Act of 1990), the taxpayer may only claim  
18                     the credit under subsection (a)(1) if, with  
19                     respect to such property, the taxpayer uses  
20                     a normalization method of accounting.

21                     “(5) LOW CORE LOSS DISTRIBUTION TRANS-  
22                     FORMER PROPERTY.—The term ‘low core loss dis-  
23                     tribution transformer property’ means a distribution  
24                     transformer which has energy savings from a highly  
25                     efficient core of at least 20 percent more than the

1       average for power ratings reported by studies re-  
2       quired under section 124 of the Energy Policy Act  
3       of 1992.

4       “(6) QUALIFIED ANAEROBIC DIGESTER PROP-  
5       ERTY.—The term ‘qualified anaerobic digester prop-  
6       erty’ means an anaerobic digester for manure or  
7       crop waste which achieves at least 65 percent effi-  
8       ciency measured in terms of the fraction of energy  
9       input converted to electricity and useful thermal en-  
10      ergy.

11      “(7) QUALIFIED WIND ENERGY SYSTEMS  
12      EQUIPMENT PROPERTY.—The term ‘qualified wind  
13      energy systems equipment property’ means wind en-  
14      ergy systems equipment with a turbine size of not  
15      more than 75 kilowatts rated capacity.

16      “(e) SPECIAL RULES.—For purposes of this  
17      section—

18       “(1) SPECIAL RULE FOR PROPERTY FINANCED  
19       BY SUBSIDIZED ENERGY FINANCING OR INDUSTRIAL  
20       DEVELOPMENT BONDS.—

21       “(A) REDUCTION OF BASIS.—For purposes  
22       of applying the energy percentage to any prop-  
23       erty, if such property is financed in whole or in  
24       part by—

25       “(i) subsidized energy financing, or

1                             “(ii) the proceeds of a private activity  
2                             bond (within the meaning of section 141)  
3                             the interest on which is exempt from tax  
4                             under section 103, the amount taken into  
5                             account as the basis of such property shall  
6                             not exceed the amount which (but for this  
7                             subparagraph) would be so taken into ac-  
8                             count multiplied by the fraction deter-  
9                             mined under subparagraph (B).

10                             “(B) DETERMINATION OF FRACTION.—For  
11                             purposes of subparagraph (A), the fraction de-  
12                             termined under this subparagraph is 1 reduced  
13                             by a fraction—

14                             “(i) the numerator of which is that  
15                             portion of the basis of the property which  
16                             is allocable to such financing or proceeds,  
17                             and

18                             “(ii) the denominator of which is the  
19                             basis of the property.

20                             “(C) SUBSIDIZED ENERGY FINANCING.—  
21                             For purposes of subparagraph (A), the term  
22                             ‘subsidized energy financing’ means financing  
23                             provided under a Federal, State, or local pro-  
24                             gram a principal purpose of which is to provide

1           subsidized financing for projects designed to  
2           conserve or produce energy.

3           “(2) CERTAIN PROGRESS EXPENDITURE RULES  
4           MADE APPLICABLE.—Rules similar to the rules of  
5           subsections (c)(4) and (d) of section 46 (as in effect  
6           on the day before the date of the enactment of the  
7           Revenue Reconciliation Act of 1990) shall apply for  
8           purposes of this section.

9           “(f) APPLICATION OF SECTION.—

10           “(1) IN GENERAL.—Except as provided by  
11           paragraph (2), this section shall apply to property  
12           placed in service after December 31, 2001, and be-  
13           fore January 1, 2009.

14           “(2) EXCEPTIONS.—

15           “(A) SOLAR ENERGY AND GEOTHERMAL  
16           ENERGY PROPERTY.—Paragraph (1) shall not  
17           apply to solar energy property or geothermal  
18           energy property.

19           “(B) CERTAIN ELECTRIC HEAT PUMPS  
20           AND CENTRAL AIR CONDITIONERS.—In the case  
21           of property which is described in subsection  
22           (d)(3)(A)(iii)(I) or (d)(3)(A)(v)(I), this section  
23           shall apply to property placed in service after  
24           December 31, 2001, and before January 1,  
25           2006.”.

1 (b) CONFORMING AMENDMENTS.—

2 (1) Section 48 is amended to read as follows:

### 3 "SEC. 48. REFORESTATION CREDIT."

4       “(a) IN GENERAL.—For purposes of section 46, the  
5 reforestation credit for any taxable year is 20 percent of  
6 the portion of the amortizable basis of any qualified timber  
7 property which was acquired during such taxable year and  
8 which is taken into account under section 194 (after the  
9 application of section 194(b)(1)).

10        "(b) DEFINITIONS.—For purposes of this subpart,  
11 the terms 'amortizable basis' and 'qualified timber prop-  
12 erty' have the respective meanings given to such terms by  
13 section 194.".

16                   “(10) NO CARRYBACK OF ENERGY CREDIT BE-  
17                   FORE EFFECTIVE DATE.—No portion of the unused  
18                   business credit for any taxable year which is attrib-  
19                   utable to the energy credit determined under section  
20                   48A may be carried back to a taxable year ending  
21                   before January 1, 2002.”.

24        "(d) CREDIT FOR ENERGY PROPERTY EXPENSES.—

1           “(1) IN GENERAL.—No deduction shall be al-  
2       lowed for that portion of the expenses for energy  
3       property (as defined in section 48A(c)) otherwise al-  
4       lowable as a deduction for the taxable year which is  
5       equal to the amount of the credit determined for  
6       such taxable year under section 48A(a).

7           “(2) SIMILAR RULE WHERE TAXPAYER CAP-  
8       ITALIZES RATHER THAN DEDUCTS EXPENSES.—If—

9               “(A) the amount of the credit allowable for  
10       the taxable year under section 48A (determined  
11       without regard to section 38(c)), exceeds

12               “(B) the amount allowable as a deduction  
13       for the taxable year for expenses for energy  
14       property (determined without regard to para-  
15       graph (1)), the amount chargeable to capital  
16       account for the taxable year for such expenses  
17       shall be reduced by the amount of such excess.

18           “(3) CONTROLLED GROUPS.—Paragraph (3) of  
19       subsection (b) shall apply for purposes of this sub-  
20       section.”.

21           (4) Section 29(b)(3)(A)(i)(III) is amended by  
22       striking ‘section 48(a)(4)(C)’ and inserting ‘section  
23       48A(e)(1)(C)’.

24           (5) Section 50(a)(2)(E) is amended by striking  
25       ‘section 48(a)(5)’ and inserting ‘section 48A(e)(2)’.

1 (6) Section 168(e)(3)(B) is amended—

2 (A) by striking clause (vi)(I) and inserting  
3 the following:

11 (c) CLERICAL AMENDMENT.—The table of sections  
12 for subpart E of part IV of subchapter A of chapter 1  
13 is amended by striking the item relating to section 48 and  
14 inserting the following:

“Sec. 48. Reforestation credit.

**“Sec. 48A. Energy credit.”**

15 (d) EFFECTIVE DATE.—The amendments made by  
16 this section shall apply to property placed in service after  
17 December 31, 2001, under rules similar to the rules of  
18 section 48(m) of the Internal Revenue Code of 1986 (as  
19 in effect on the day before the date of the enactment of  
20 the Revenue Reconciliation Act of 1990).

21 SEC. 102. ENERGY-EFFICIENT COMMERCIAL BUILDING  
22 PROPERTY DEDUCTION.

23 (a) IN GENERAL.—Part VI of subchapter B of chap-  
24 ter 1 (relating to itemized deductions for individuals and

1 corporations) is amended by adding at the end the fol-  
2 lowing:

3 **SEC. 199. ENERGY-EFFICIENT COMMERCIAL BUILDING**  
4 **PROPERTY.**

5 “(a) IN GENERAL.—There shall be allowed as a de-  
6 duction for the taxable year an amount equal to the en-  
7 ergy-efficient commercial building property expenditures  
8 made by a taxpayer for the taxable year.

9 “(b) MAXIMUM AMOUNT OF DEDUCTION.—The  
10 amount of energy-efficient commercial building property  
11 expenditures taken into account under subsection (a) shall  
12 not exceed an amount equal to the product of—

13 “(1) \$2.25, and

14 “(2) the square footage of the building with re-  
15 spect to which the expenditures are made.

16 “(c) YEAR DEDUCTION ALLOWED.—The deduction  
17 under subsection (a) shall be allowed in the taxable year  
18 in which the construction of the building is completed.

19 “(d) ENERGY-EFFICIENT COMMERCIAL BUILDING  
20 PROPERTY EXPENDITURES.—For purposes of this  
21 section—

22 “(1) IN GENERAL.—The term ‘energy-efficient  
23 commercial building property expenditures’ means  
24 an amount paid or incurred for energy-efficient com-  
25 mercial building property installed on or in connec-

1       tion with new construction or reconstruction of  
2       property—

3               “(A) for which depreciation is allowable  
4       under section 167,

5               “(B) which is located in the United States,  
6       and

7               “(C) the construction or erection of which  
8       is completed by the taxpayer.

9       Such property includes all residential rental prop-  
10      erty, including low-rise multifamily structures and  
11      single family housing property which is not within  
12      the scope of Standard 90.1–1999 (described in para-  
13      graph (3)).

14               “(2) LABOR COSTS INCLUDED.—Such term in-  
15      cludes expenditures for labor costs properly allocable  
16      to the onsite preparation, assembly, or original in-  
17      stallation of the property.

18               “(3) ENERGY EXPENDITURES EXCLUDED.—  
19      Such term does not include any expenditures taken  
20      into account in determining any credit allowed under  
21      section 48A.

22               “(e) ENERGY-EFFICIENT COMMERCIAL BUILDING  
23 PROPERTY.—For purposes of subsection (d)—

24               “(1) IN GENERAL.—The term ‘energy-efficient  
25      commercial building property’ means any property

1       which reduces total annual energy and power costs  
2       with respect to the lighting, heating, cooling, ventilation,  
3       and hot water supply systems of the building  
4       by 50 percent or more in comparison to a reference  
5       building which meets the requirements of Standard  
6       90.1–1999 of the American Society of Heating, Re-  
7       frigerating, and Air Conditioning Engineers and the  
8       Illuminating Engineering Society of North America  
9       using methods of calculation under subparagraph  
10      (B) and certified by qualified professionals as pro-  
11      vided under paragraph (6).

12       “(2) METHODS OF CALCULATION.—The Sec-  
13       retary, in consultation with the Secretary of Energy,  
14       shall promulgate regulations which describe in detail  
15       methods for calculating and verifying energy and  
16       power consumption and cost, taking into consider-  
17       ation the provisions of the 1998 California Nonresi-  
18       dential ACM Manual. These procedures shall meet  
19       the following requirements:

20           “(A) In calculating tradeoffs and energy  
21        performance, the regulations shall prescribe the  
22        costs per unit of energy and power, such as kil-  
23        owatt hour, kilowatt, gallon of fuel oil, and  
24        cubic foot or Btu of natural gas, which may be  
25        dependent on time of usage.

1                   “(B) The calculational methodology shall  
2                   require that compliance be demonstrated for a  
3                   whole building. If some systems of the building,  
4                   such as lighting, are designed later than other  
5                   systems of the building, the method shall pro-  
6                   vide that either—

7                   “(i) the expenses taken into account  
8                   under paragraph (1) shall not occur until  
9                   the date designs for all energy-using sys-  
10                  tems of the building are completed, or

11                  “(ii) the expenses taken into account  
12                  under paragraph (1) shall be a fraction of  
13                  such expenses based on the performance of  
14                  less than all energy-using systems in ac-  
15                  cordance with subparagraph (C), and the  
16                  energy performance of all systems and  
17                  components not yet designed shall be as-  
18                  sumed to comply minimally with the re-  
19                  quirements of such Standard 90.1–1999.

20                  “(C) The expenditures in connection with  
21                  the design of subsystems in the building, such  
22                  as the envelope, the heating, ventilation, air  
23                  conditioning and water heating system, and the  
24                  lighting system shall be allocated to the appro-  
25                  priate building subsystem based on system-spe-

1           cific energy cost savings targets in regulations  
2           promulgated by the Secretary of Energy which  
3           are equivalent, using the calculation method-  
4           ology, to the whole building requirement of 50  
5           percent savings.

6           “(D) The calculational methods under this  
7           paragraph need not comply fully with section  
8           11 of such Standard 90.1–1999.

9           “(E) The calculational methods shall be  
10           fuel neutral, such that the same energy effi-  
11           ciency features shall qualify a building for the  
12           deduction under this section regardless of  
13           whether the heating source is a gas or oil fur-  
14           nace or an electric heat pump.

15           “(F) The calculational methods shall pro-  
16           vide appropriate calculated energy savings for  
17           design methods and technologies not otherwise  
18           credited in either such Standard 90.1–1999 or  
19           in the 1998 California Nonresidential ACM  
20           Manual, including the following:

21            “(i) Natural ventilation.

22            “(ii) Evaporative cooling.

23            “(iii) Automatic lighting controls such  
24            as occupancy sensors, photocells, and time-  
25            clocks.

1                     “(iv) Daylighting.

2                     “(v) Designs utilizing semi-condi-

3                     tioned spaces which maintain adequate

4                     comfort conditions without air conditioning

5                     or without heating.

6                     “(vi) Improved fan system efficiency,

7                     including reductions in static pressure.

8                     “(vii) Advanced unloading mecha-

9                     nisms for mechanical cooling, such as mul-

10                    tiple or variable speed compressors.

11                    “(viii) The calculational methods may

12                    take into account the extent of commis-

13                    sioning in the building, and allow the tax-

14                    payer to take into account measured per-

15                    formance which exceeds typical perform-

16                    ance.

17                    “(3) COMPUTER SOFTWARE.—

18                    “(A) IN GENERAL.—Any calculation under

19                    this subsection shall be prepared by qualified

20                    computer software.

21                    “(B) QUALIFIED COMPUTER SOFTWARE.—

22                    For purposes of this paragraph, the term

23                    ‘qualified computer software’ means software—

24                    “(i) for which the software designer

25                    has certified that the software meets all

1                   procedures and detailed methods for calcu-  
2                   lating energy and power consumption and  
3                   costs as required by the Secretary,

4                   “(ii) which provides such forms as re-  
5                   quired to be filed by the Secretary in con-  
6                   nection with energy efficiency of property  
7                   and the deduction allowed under this sec-  
8                   tion, and

9                   “(iii) which provides a notice form  
10                  which summarizes the energy efficiency  
11                  features of the building and its projected  
12                  annual energy costs.

13                  “(4) ALLOCATION OF DEDUCTION FOR PUBLIC  
14                  PROPERTY.—In the case of energy-efficient commer-  
15                  cial building property installed on or in public prop-  
16                  erty, the Secretary shall promulgate a regulation to  
17                  allow the allocation of the deduction to the person  
18                  primarily responsible for designing the property in  
19                  lieu of the public entity which is the owner of such  
20                  property. Such person shall be treated as the tax-  
21                  payer for purposes of this section.

22                  “(5) NOTICE TO OWNER.—The qualified indi-  
23                  vidual shall provide an explanation to the owner of  
24                  the building regarding the energy efficiency features  
25                  of the building and its projected annual energy costs

1 as provided in the notice under paragraph  
2 (3)(B)(iii).

3 “(6) CERTIFICATION.—

4 “(A) IN GENERAL.—Except as provided in  
5 this paragraph, the Secretary, in consultation  
6 with the Secretary of Energy, shall establish re-  
7 quirements for certification and compliance pro-  
8 cedures similar to the procedures under section  
9 45F(d).

10 “(B) QUALIFIED INDIVIDUALS.—Individuals  
11 qualified to determine compliance shall be only  
12 those individuals who are recognized by an or-  
13 ganization certified by the Secretary for such  
14 purposes.

15 “(C) PROFICIENCY OF QUALIFIED INDIVID-  
16 UALS.—The Secretary shall consult with non-  
17 profit organizations and State agencies with ex-  
18 pertise in energy efficiency calculations and in-  
19 spections to develop proficiency tests and train-  
20 ing programs to qualify individuals to determine  
21 compliance.

22 “(f) TERMINATION.—This section shall not apply  
23 with respect to any energy-efficient commercial building  
24 property expenditures in connection with property—

1           “(1) the plans for which are not certified under  
2        subsection (e)(6) on or before December 31, 2006,  
3        and

4           “(2) the construction of which is not completed  
5        on or before December 31, 2008.”.

6        (b) CONFORMING AMENDMENTS.—Section 1016(a) is  
7        amended by striking “and” at the end of paragraph (26),  
8        by striking the period at the end of paragraph (27) and  
9        inserting “, and”, and by inserting the following:

10           “(28) for amounts allowed as a deduction under  
11        section 199(a).”.

12        (c) CLERICAL AMENDMENT.—The table of sections  
13        for part VI of subchapter B of chapter 1 is amended by  
14        adding at the end the following:

“See. 199. Energy-efficient commercial building property.”.

15        (d) EFFECTIVE DATE.—The amendments made by  
16        this section shall apply to taxable years beginning after  
17        December 31, 2001.

18 **SEC. 103. CREDIT FOR ENERGY-EFFICIENT APPLIANCES.**

19        (a) IN GENERAL.—Subpart D of part IV of sub-  
20        chapter A of chapter 1 (relating to business-related cred-  
21        its) is amended by adding at the end the following:

22 **“SEC. 45E. ENERGY-EFFICIENT APPLIANCE CREDIT.**

23        “(a) GENERAL RULE.—For purposes of section 38,  
24        the energy-efficient appliance credit determined under this  
25        section for the taxable year is an amount equal to the ap-

1 pliable amount determined under subsection (b) with re-  
2 spect to qualified energy-efficient appliances produced by  
3 the taxpayer during the calendar year ending with or with-  
4 in the taxable year.

5       “(b) APPLICABLE AMOUNT.—For purposes of sub-  
6 section (a), the applicable amount determined under this  
7 subsection with respect to a taxpayer is the sum of—

8           “(1) in the case of an energy-efficient clothes  
9            washer described in subsection (d)(2)(A) or an en-  
10           ergy-efficient refrigerator described in subsection  
11           (d)(3)(B)(i), an amount equal to—

12           “(A) \$50, multiplied by  
13           “(B) the number of such washers and re-  
14           frigerators produced by the taxpayer during  
15           such calendar year, and

16           “(2) in the case of an energy-efficient clothes  
17            washer described in subsection (d)(2)(B) or an en-  
18           ergy-efficient refrigerator described in subsection  
19           (d)(3)(B)(ii), an amount equal to—

20           “(A) \$100, multiplied by  
21           “(B) the number of such washers and re-  
22           frigerators produced by the taxpayer during  
23           such calendar year.

24        “(c) LIMITATION ON MAXIMUM CREDIT.—

1           “(1) IN GENERAL.—The maximum amount of  
2        credit allowed under subsection (a) with respect to  
3        a taxpayer for all taxable years shall be—

4           “(A) \$30,000,000 with respect to the cred-  
5        it determined under subsection (b)(1), and

6           “(B) \$30,000,000 with respect to the cred-  
7        it determined under subsection (b)(2).

8           “(2) LIMITATION BASED ON GROSS RE-  
9        CEIPTS.—The credit allowed under subsection (a)  
10      with respect to a taxpayer for the taxable year shall  
11      not exceed an amount equal to 2 percent of the aver-  
12      age annual gross receipts of the taxpayer for the 3  
13      taxable years preceding the taxable year in which  
14      the credit is determined.

15           “(3) GROSS RECEIPTS.—For purposes of this  
16      subsection, the rules of paragraphs (2) and (3) of  
17      section 448(c) shall apply.

18           “(d) QUALIFIED ENERGY-EFFICIENT APPLIANCE.—

19      For purposes of this section—

20           “(1) IN GENERAL.—The term ‘qualified energy-  
21        efficient appliance’ means—

22           “(A) an energy-efficient clothes washer, or

23           “(B) an energy-efficient refrigerator.

24           “(2) ENERGY-EFFICIENT CLOTHES WASHER.—

25      The term ‘energy-efficient clothes washer’ means a

1       residential clothes washer, including a residential  
2       style coin operated washer, which is manufactured  
3       with—

4               “(A) a 1.26 Modified Energy Factor (re-  
5               ferred to in this paragraph as ‘MEF’) (as de-  
6               termined by the Secretary of Energy), or

7               “(B) a 1.42 MEF (as determined by the  
8               Secretary of Energy) (1.5 MEF for calendar  
9               years beginning after 2004).

10       “(3) ENERGY-EFFICIENT REFRIGERATOR.—The  
11       term ‘energy-efficient refrigerator’ means an auto-  
12       matic defrost refrigerator-freezer which—

13               “(A) has an internal volume of at least  
14               16.5 cubic feet, and

15               “(B) consumes—

16                       “(i) 10 percent less kWh per year  
17                       than the energy conservation standards  
18                       promulgated by the Department of Energy  
19                       for such refrigerator for 2001, or

20                       “(ii) 15 percent less kWh per year  
21                       than such energy conservation standards.

22       “(e) SPECIAL RULES.—

23       “(1) IN GENERAL.—Rules similar to the rules  
24       of subsections (c), (d), and (e) of section 52 shall  
25       apply for purposes of this section.

1           “(2) AGGREGATION RULES.—All persons treat-  
2       ed as a single employer under subsection (a) or (b)  
3       of section 52 or subsection (m) or (o) of section 414  
4       shall be treated as one person for purposes of sub-  
5       section (a).

6           “(f) VERIFICATION.—The taxpayer shall submit such  
7       information or certification as the Secretary, in consulta-  
8       tion with the Secretary of Energy, determines necessary  
9       to claim the credit amount under subsection (a).

10          “(g) TERMINATION.—This section shall not apply—  
11           “(1) with respect to energy-efficient refrig-  
12       erators described in subsection (d)(3)(B)(i) produced  
13       in calendar years beginning after 2005, and  
14           “(2) with respect to all other qualified energy-  
15       efficient appliances produced in calendar years be-  
16       ginning after 2007.”.

17          (b) LIMITATION ON CARRYBACK.—Section 39(d) (re-  
18 lating to transition rules), as amended by section  
19 101(b)(2), is amended by adding at the end the following:

20           “(11) NO CARRYBACK OF ENERGY-EFFICIENT  
21       APPLIANCE CREDIT BEFORE 2002.—No portion of  
22       the unused business credit for any taxable year  
23       which is attributable to the energy-efficient appli-  
24       ance credit determined under section 45E may be

1       carried to a taxable year beginning before January  
2       1, 2002.”.

3       (c) DENIAL OF DOUBLE BENEFIT.—Section 280C  
4       (relating to certain expenses for which credits are allow-  
5       able), as amended by section 102(b)(3), is amended by  
6       adding at the end the following:

7       “(e) CREDIT FOR ENERGY-EFFICIENT APPLIANCE  
8       EXPENSES.—No deduction shall be allowed for that por-  
9       tion of the expenses for qualified energy-efficient appli-  
10       ances (as defined in section 45E(d)) otherwise allowable  
11       as a deduction for the taxable year which is equal to the  
12       amount of the credit determined for such taxable year  
13       under section 45E(a).”.

14       (d) CONFORMING AMENDMENT.—Section 38(b) (re-  
15       lating to general business credit) is amended by striking  
16       “plus” at the end of paragraph (12), by striking the period  
17       at the end of paragraph (13) and inserting “, plus”, and  
18       by adding at the end the following:

19       “(14) the energy-efficient appliance credit de-  
20       termined under section 45E(a).”.

21       (e) CLERICAL AMENDMENT.—The table of sections  
22       for subpart D of part IV of subchapter A of chapter 1  
23       is amended by inserting after the item relating to section  
24       45D the following:

“Sec. 45E. Energy-efficient appliance credit.”.

1        (f) EFFECTIVE DATE.—The amendments made by  
2 this section shall apply to taxable years beginning after  
3 December 31, 2001.

4 **TITLE II—RESIDENTIAL ENERGY  
5 SYSTEMS**

6 **SEC. 201. CREDIT FOR CONSTRUCTION OF NEW ENERGY-EF-  
7 FICIENT HOME.**

8        (a) IN GENERAL.—Subpart D of part IV of sub-  
9 chapter A of chapter 1 (relating to business related cred-  
10 its), as amended by section 103(a), is amended by insert-  
11 ing after section 45E the following:

12 **“SEC. 45F. NEW ENERGY-EFFICIENT HOME CREDIT.**

13        “(a) IN GENERAL.—For purposes of section 38, in  
14 the case of an eligible contractor, the credit determined  
15 under this section for the taxable year is an amount equal  
16 to the aggregate adjusted bases of all energy-efficient  
17 property installed in a qualified new energy-efficient home  
18 during construction of such home.

19        “(b) LIMITATIONS.—

20        “(1) MAXIMUM CREDIT.—

21        “(A) IN GENERAL.—The credit allowed by  
22 this section with respect to a dwelling shall not  
23 exceed—

24                “(i) in the case of a dwelling described  
25 in subsection (c)(3)(D)(i), \$1,500, and

1                         “(ii) in the case of a dwelling de-  
2                         scribed in subsection (c)(3)(D)(ii), \$2,500.

3                         “(B) PRIOR CREDIT AMOUNTS ON SAME  
4                         DWELLING TAKEN INTO ACCOUNT.—If a credit  
5                         was allowed under subsection (a) with respect  
6                         to a dwelling in 1 or more prior taxable years,  
7                         the amount of the credit otherwise allowable for  
8                         the taxable year with respect to that dwelling  
9                         shall not exceed the amount under clause (i) or  
10                         (ii) (as the case may be), reduced by the sum  
11                         of the credits allowed under subsection (a) with  
12                         respect to the dwelling for all prior taxable  
13                         years.

14                         “(2) COORDINATION WITH REHABILITATION  
15                         AND ENERGY CREDITS.—For purposes of this  
16                         section—

17                         “(A) the basis of any property referred to  
18                         in subsection (a) shall be reduced by that por-  
19                         tion of the basis of any property which is attrib-  
20                         utable to qualified rehabilitation expenditures  
21                         (as defined in section 47(c)(2)) or to the energy  
22                         percentage of energy property (as determined  
23                         under section 48A(a)), and

1               “(B) expenditures taken into account  
2               under either section 47 or 48A(a) shall not be  
3               taken into account under this section.

4       “(c) DEFINITIONS.—For purposes of this section—  
5               “(1) ELIGIBLE CONTRACTOR.—The term ‘eligible  
6               contractor’ means the person who constructed  
7               the new energy-efficient home, or in the case of a  
8               manufactured home which conforms to Federal  
9               Manufactured Home Construction and Safety Stand-  
10               ards (24 C.F.R. 3280), the manufactured home pro-  
11               ducer of such home.

12               “(2) ENERGY-EFFICIENT PROPERTY.—The  
13               term ‘energy-efficient property’ means any energy-  
14               efficient building envelope component, and any en-  
15               ergy-efficient heating or cooling equipment which  
16               can, individually or in combination with other com-  
17               ponents, meet the requirements of this section.

18               “(3) QUALIFIED NEW ENERGY-EFFICIENT  
19               HOME.—The term ‘qualified new energy-efficient  
20               home’ means a dwelling—

21               “(A) located in the United States,  
22               “(B) the construction of which is substan-  
23               tially completed after December 31, 2000,  
24               “(C) the original use of which is as a prin-  
25               cipal residence (within the meaning of section

1                   121) which commences with the person who ac-  
2                   quires such dwelling from the eligible con-  
3                   tractor, and

4                   “(D) which is certified to have a projected  
5                   level of annual heating and cooling energy con-  
6                   sumption, measured in terms of average annual  
7                   energy cost to the homeowner which is at  
8                   least—

9                   “(i) 30 percent less than the annual  
10                   level of heating and cooling energy con-  
11                   sumption of a reference dwelling con-  
12                   structed in accordance with the standards  
13                   of chapter 4 of the 2000 International En-  
14                   ergy Conservation Code, or

15                   “(ii) 50 percent less than such annual  
16                   level of heating and cooling energy con-  
17                   sumption.

18                   “(4) CONSTRUCTION.—The term ‘construction’  
19                   includes reconstruction and rehabilitation.

20                   “(5) ACQUIRE.—The term ‘acquire’ includes  
21                   purchase and, in the case of reconstruction and re-  
22                   habilitation, such term includes a binding written  
23                   contract for such reconstruction or rehabilitation.

24                   “(6) BUILDING ENVELOPE COMPONENT.—The  
25                   term ‘building envelope component’ means—

1               “(A) insulation material or system which is  
2               specifically and primarily designed to reduce the  
3               heat loss or gain of a dwelling when installed in  
4               or on such dwelling, and  
5               “(B) exterior windows (including skylights)  
6               and doors.

7               “(7) MANUFACTURED HOME INCLUDED.—The  
8               term ‘dwelling’ includes a manufactured home con-  
9               forming to Federal Manufactured Home Construc-  
10               tion and Safety Standards (24 C.F.R. 3280).

11               “(d) CERTIFICATION.—

12               “(1) METHOD.—A certification described in  
13               subsection (c)(3)(D) shall be determined on the  
14               basis of 1 of the following methods:

15               “(A) A component-based method, using the  
16               applicable technical energy efficiency specifica-  
17               tions or ratings (including product labeling re-  
18               quirements) for the energy-efficient building en-  
19               velope component or energy-efficient heating or  
20               cooling equipment. The Secretary shall, in con-  
21               sultation with the Administrator of the Envi-  
22               ronmental Protection Agency, develop prescrip-  
23               tive component-based packages that are equiva-  
24               lent in energy performance to properties that  
25               qualify under subparagraph (B).

1                   “(B) An energy performance-based method  
2                   that calculates projected energy usage and cost  
3                   reductions in the dwelling in relation to a ref-  
4                   erence dwelling—

5                   “(i) heated by the same energy source  
6                   and heating system type, and

7                   “(ii) constructed in accordance with  
8                   the standards of chapter 4 of the 2000  
9                   International Energy Conservation Code.

10                  Computer software shall be used in support of an  
11                  energy performance-based method certification under  
12                  subparagraph (B). Such software shall meet proce-  
13                  dures and methods for calculating energy and cost  
14                  savings in regulations promulgated by the Secretary  
15                  of Energy. Such regulations on the specifications for  
16                  software and verification protocols shall be based on  
17                  the 1998 California Residential Alternative Calcula-  
18                  tion Method Approval Manual.

19                  “(2) PROVIDER.—Such certification shall be  
20                  provided by—

21                  “(A) in the case of a method described in  
22                  paragraph (1)(A), a local building regulatory  
23                  authority, a utility, a manufactured home pro-  
24                  duction inspection primary inspection agency

1 (IPIA), or a home energy rating organization,  
2 or

3 “(B) in the case of a method described in  
4 paragraph (1)(B), an individual recognized by  
5 an organization designated by the Secretary for  
6 such purposes.

7 “(3) FORM.—

8 “(A) IN GENERAL.—Such certification  
9 shall be made in writing in a manner that  
10 specifies in readily verifiable fashion the energy-  
11 efficient building envelope components and en-  
12 ergy-efficient heating or cooling equipment in-  
13 stalled and their respective rated energy effi-  
14 ciency performance, and in the case of a meth-  
15 od described in paragraph (1)(B), accompanied  
16 by written analysis documenting the proper ap-  
17 plication of a permissible energy performance  
18 calculation method to the specific circumstances  
19 of such dwelling.

20 “(B) FORM PROVIDED TO BUYER.—A form  
21 documenting the energy-efficient building enve-  
22 lope components and energy-efficient heating or  
23 cooling equipment installed and their rated en-  
24 ergy efficiency performance shall be provided to  
25 the buyer of the dwelling. The form shall in-

1       clude labeled R-value for insulation products,  
2       NFRC-labeled U-factor and Solar Heat Gain  
3       Coefficient for windows, skylights, and doors,  
4       labeled AFUE ratings for furnaces and boilers,  
5       labeled HSPF ratings for electric heat pumps,  
6       and labeled SEER ratings for air conditioners.

7               “(C) RATINGS LABEL AFFIXED IN DWELL-  
8       ING.—A permanent label documenting the rat-  
9       ings in subparagraph (B) shall be affixed to the  
10      front of the electrical distribution panel of the  
11      dwelling, or shall be otherwise permanently dis-  
12      played in a readily inspectable location in the  
13      dwelling.

14               “(4) REGULATIONS.—

15               “(A) IN GENERAL.—In prescribing regula-  
16      tions under this subsection for energy perform-  
17      ance-based certification methods, the Secretary,  
18      after examining the requirements for energy  
19      consultants and home energy ratings providers  
20      specified by the Mortgage Industry National  
21      Accreditation Procedures for Home Energy  
22      Rating Systems, shall prescribe procedures for  
23      calculating annual energy usage and cost reduc-  
24      tions for heating and cooling and for the report-  
25      ing of the results. Such regulations shall—

1                     “(i) provide that any calculation pro-  
2                     cedures be fuel neutral such that the same  
3                     energy efficiency measures allow a home to  
4                     qualify for the credit under this section re-  
5                     gardless of whether the dwelling uses a gas  
6                     or oil furnace or boiler or an electric heat  
7                     pump, and

8                     “(ii) require that any computer soft-  
9                     ware allow for the printing of the Federal  
10                    tax forms necessary for the credit under  
11                    this section and for the printing of forms  
12                    for disclosure to the homebuyer.

13                    “(B) PROVIDERS.—For purposes of para-  
14                    graph (2)(B), the Secretary shall establish re-  
15                    quirements for the designation of individuals  
16                    based on the requirements for energy consult-  
17                    ants and home energy raters specified by the  
18                    Mortgage Industry National Accreditation Pro-  
19                    cedures for Home Energy Rating Systems.

20                    “(e) BASIS ADJUSTMENT.—For purposes of this sub-  
21                    title, if a credit is allowed under this section for any ex-  
22                    penditure with respect to any property, the increase in the  
23                    basis of such property which would (but for this sub-  
24                    section) result from such expenditure shall be reduced by  
25                    the amount of the credit so allowed.

1       “(f) TERMINATION.—Subsection (a) shall apply to  
2 dwellings purchased during the period beginning on Janu-  
3 ary 1, 2001, and ending on December 31, 2005.”.

4       (b) CREDIT MADE PART OF GENERAL BUSINESS  
5 CREDIT.—Subsection (b) of section 38 (relating to current  
6 year business credit), as amended by section 103(d), is  
7 amended by striking “plus” at the end of paragraph (13),  
8 by striking the period at the end of paragraph (14) and  
9 inserting “, plus”, and by adding at the end the following:

10       “(15) the new energy-efficient home credit de-  
11 termined under section 45F.”.

12       (c) DENIAL OF DOUBLE BENEFIT.—Section 280C  
13 (relating to certain expenses for which credits are allow-  
14 able), as amended by section 103(c), is amended by adding  
15 at the end the following:

16       “(f) NEW ENERGY-EFFICIENT HOME EXPENSES.—  
17 No deduction shall be allowed for that portion of expenses  
18 for a new energy-efficient home otherwise allowable as a  
19 deduction for the taxable year which is equal to the  
20 amount of the credit determined for such taxable year  
21 under section 45F.”.

22       (d) CREDIT ALLOWED AGAINST REGULAR AND MIN-  
23 IMUM TAX.—

24       (1) IN GENERAL.—Subsection (c) of section 38  
25 (relating to limitation based on amount of tax) is

1       amended by redesignating paragraph (3) as para-  
2       graph (4) and by inserting after paragraph (2) the  
3       following new paragraph:

4               “(3) SPECIAL RULES FOR NEW ENERGY EFFI-  
5               CIENT HOME CREDIT.—

6               “(A) IN GENERAL.—In the case of the new  
7       energy efficient home credit—

8               “(i) this section and section 39 shall  
9       be applied separately with respect to the  
10      credit, and

11               “(ii) in applying paragraph (1) to the  
12      credit—

13               “(I) subparagraphs (A) and (B)  
14      thereof shall not apply, and

15               “(II) the limitation under para-  
16      graph (1) (as modified by subclause  
17      (I)) shall be reduced by the credit al-  
18      lowed under subsection (a) for the  
19      taxable year (other than the new en-  
20      ergy efficient home credit).

21               “(B) NEW ENERGY EFFICIENT HOME  
22      CREDIT.—For purposes of this subsection, the  
23      term ‘new energy efficient home credit’ means  
24      the credit allowable under subsection (a) by rea-  
25      son of section 45F.”.

5 (e) LIMITATION ON CARRYBACK.—Subsection (d) of  
6 section 39, as amended by section 103(b), is amended by  
7 adding at the end the following:

8                 “(12) NO CARRYBACK OF NEW ENERGY-EFFI-  
9                 CIENT HOME CREDIT BEFORE EFFECTIVE DATE.—  
10                 No portion of the unused business credit for any  
11                 taxable year which is attributable to the credit deter-  
12                 mined under section 45F may be carried back to any  
13                 taxable year ending before January 1, 2001.”.

14 (f) DEDUCTION FOR CERTAIN UNUSED BUSINESS  
15 CREDITS.—Subsection (c) of section 196 is amended by  
16 striking “and” at the end of paragraph (7), by striking  
17 the period at the end of paragraph (8) and inserting “,  
18 and”, and by adding after paragraph (8) the following:

19               “(9) the new energy-efficient home credit deter-  
20               mined under section 45F.”.

21 (g) CLERICAL AMENDMENT.—The table of sections  
22 for subpart D of part IV of subchapter A of chapter 1,  
23 as amended by section 103(d), is amended by inserting  
24 after the item relating to section 45E the following:

“Sec. 45F. New energy-efficient home credit.”.

1       (h) EFFECTIVE DATE.—The amendments made by  
2 this section shall apply to taxable years ending after De-  
3 cember 31, 2000.

4 SEC. 202. CREDIT FOR ENERGY EFFICIENCY IMPROVE-  
5 MENTS TO EXISTING HOMES.

6 (a) IN GENERAL.—Subpart A of part IV of sub-  
7 chapter A of chapter 1 (relating to nonrefundable personal  
8 credits) is amended by inserting after section 25A the fol-  
9 lowing new section:

10 "SEC. 25B. ENERGY EFFICIENCY IMPROVEMENTS TO EXIST-  
11 ING HOMES.

12        "(a) ALLOWANCE OF CREDIT.—In the case of an in-  
13 dividual, there shall be allowed as a credit against the tax  
14 imposed by this chapter for the taxable year an amount  
15 equal to 20 percent of the amount paid or incurred by  
16 the taxpayer for qualified energy efficiency improvements  
17 installed during such taxable year.

18        "(b) LIMITATIONS.—

19       “(1) MAXIMUM CREDIT.—The credit allowed by  
20       this section with respect to a dwelling shall not ex-  
21       ceed \$2,000.

22               “(2) PRIOR CREDIT AMOUNTS FOR TAXPAYER  
23               ON SAME DWELLING TAKEN INTO ACCOUNT.—If a  
24               credit was allowed to the taxpayer under subsection  
25               (a) with respect to a dwelling in 1 or more prior tax-

1       able years, the amount of the credit otherwise allow-  
2       able for the taxable year with respect to that dwell-  
3       ing shall not exceed the amount of \$2,000 reduced  
4       by the sum of the credits allowed under subsection  
5       (a) to the taxpayer with respect to the dwelling for  
6       all prior taxable years.

7       “(c) CARRYFORWARD OF UNUSED CREDIT.—If the  
8       credit allowable under subsection (a) exceeds the limita-  
9       tion imposed by section 26(a) for such taxable year re-  
10       duced by the sum of the credits allowable under subpart  
11       A of part IV of subchapter A (other than this section),  
12       such excess shall be carried to the succeeding taxable year  
13       and added to the credit allowable under subsection (a) for  
14       such taxable year.

15       “(d) QUALIFIED ENERGY EFFICIENCY IMPROVE-  
16       MENTS.—For purposes of this section, the term ‘qualified  
17       energy efficiency improvements’ means any energy effi-  
18       cient building envelope component which is certified to  
19       meet or exceed the prescriptive criteria for such compo-  
20       nent in the 2000 International Energy Conservation Code,  
21       or any combination of energy efficiency measures which  
22       achieves at least a 30 percent reduction in heating and  
23       cooling energy usage for the dwelling (as measured in  
24       terms of energy cost to the taxpayer), if—

1           “(1) such component or combinations of meas-  
2       ures is installed in or on a dwelling—

3               “(A) located in the United States, and

4               “(B) owned and used by the taxpayer as  
5       the taxpayer’s principal residence (within the  
6       meaning of section 121),

7           “(2) the original use of such component or com-  
8       bination of measures commences with the taxpayer,  
9       and

10           “(3) such component or combination of meas-  
11       ures reasonably can be expected to remain in use for  
12       at least 5 years.

13           “(e) CERTIFICATION.—The certification described in  
14       subsection (d) shall be—

15           “(1) in the case of any component described in  
16       subsection (d), determined on the basis of applicable  
17       energy efficiency ratings (including product labeling  
18       requirements) for affected building envelope compo-  
19       nents,

20           “(2) in the case of combinations of measures  
21       described in subsection (d), determined by the per-  
22       formance-based methods described in section  
23       45F(d),

24           “(3) provided by a third party, such as a local  
25       building regulatory authority, a utility, a manufac-

1 tured home production inspection primary inspection  
2 agency (IPIA), or a home energy rating organiza-  
3 tion, consistent with the requirements of section  
4 45F(d)(2), and

5 “(4) made in writing on forms which specify in  
6 readily inspectable fashion the energy-efficient com-  
7 ponents and other measures and their respective ef-  
8 ficiency ratings, and which shall include a perma-  
9 nent label affixed to the electrical distribution panel  
10 as described in section 45F(d)(3)(C).

11 “(f) DEFINITIONS AND SPECIAL RULES.—

12 “(1) DOLLAR AMOUNTS IN CASE OF JOINT OC-  
13 CUPANCY.—In the case of any dwelling unit which is  
14 jointly occupied and used during any calendar year  
15 as a residence by 2 or more individuals the following  
16 shall apply:

17 “(A) The amount of the credit allowable  
18 under subsection (a) by reason of expenditures  
19 for the qualified energy efficiency improvements  
20 made during such calendar year by any of such  
21 individuals with respect to such dwelling unit  
22 shall be determined by treating all of such indi-  
23 viduals as 1 taxpayer whose taxable year is  
24 such calendar year.

1                   “(B) There shall be allowable with respect  
2                   to such expenditures to each of such individ-  
3                   uals, a credit under subsection (a) for the tax-  
4                   able year in which such calendar year ends in  
5                   an amount which bears the same ratio to the  
6                   amount determined under subparagraph (A) as  
7                   the amount of such expenditures made by such  
8                   individual during such calendar year bears to  
9                   the aggregate of such expenditures made by all  
10                   of such individuals during such calendar year.

11                   “(2) TENANT-STOCKHOLDER IN COOPERATIVE  
12                   HOUSING CORPORATION.—In the case of an indi-  
13                   vidual who is a tenant-stockholder (as defined in sec-  
14                   tion 216) in a cooperative housing corporation (as  
15                   defined in such section), such individual shall be  
16                   treated as having paid his tenant-stockholder’s pro-  
17                   portionate share (as defined in section 216(b)(3)) of  
18                   the cost of qualified energy efficiency improvements  
19                   made by such corporation.

20                   “(3) CONDOMINIUMS.—

21                   “(A) IN GENERAL.—In the case of an indi-  
22                   vidual who is a member of a condominium man-  
23                   agement association with respect to a condo-  
24                   minium which he owns, such individual shall be  
25                   treated as having paid his proportionate share

1           of the cost of qualified energy efficiency im-  
2           provements made by such association.

3           “(B) CONDOMINIUM MANAGEMENT ASSO-  
4           CIATION.—For purposes of this paragraph, the  
5           term ‘condominium management association’  
6           means an organization which meets the require-  
7           ments of paragraph (1) of section 528(c) (other  
8           than subparagraph (E) thereof) with respect to  
9           a condominium project substantially all of the  
10           units of which are used as residences.

11           “(4) BUILDING ENVELOPE COMPONENT.—The  
12           term ‘building envelope component’ means—

13           “(A) insulation material or system which is  
14           specifically and primarily designed to reduce the  
15           heat loss or gain of a dwelling when installed  
16           in or on such dwelling, and

17           “(B) exterior windows (including skylights)  
18           and doors.

19           “(5) MANUFACTURED HOMES INCLUDED.—For  
20           purposes of this section, the term ‘dwelling’ includes  
21           a manufactured home which conforms to Federal  
22           Manufactured Home Construction and Safety Stand-  
23           ards (24 C.F.R. 3280).

24           “(g) BASIS ADJUSTMENT.—For purposes of this sub-  
25           title, if a credit is allowed under this section for any ex-

1 penditure with respect to any property, the increase in the  
2 basis of such property which would (but for this sub-  
3 section) result from such expenditure shall be reduced by  
4 the amount of the credit so allowed.

5       “(h) TERMINATION.—Subsection (a) shall apply to  
6 qualified energy efficiency improvements installed during  
7 the period beginning on the date of the enactment of this  
8 section and ending on December 31, 2005.”.

9       (b) CONFORMING AMENDMENTS.—

10       (1) Subsection (c) of section 23 is amended by  
11 inserting “, section 25B, and section 1400C” after  
12 “other than this section”.

13       (2) Subparagraph (C) of section 25(e)(1) is  
14 amended by striking “section 23” and inserting  
15 “sections 23, 25B, and 1400C”.

16       (3) Subsection (d) of section 1400C is amended  
17 by inserting “and section 25B” after “other than  
18 this section”.

19       (4) Subsection (a) of section 1016, as amended  
20 by section 102(b), is amended by striking “and” at  
21 the end of paragraph (27), by striking the period at  
22 the end of paragraph (28) and inserting “; and”,  
23 and by adding at the end the following:

1                   “(29) to the extent provided in section 25B(f),  
2                   in the case of amounts with respect to which a credit  
3                   has been allowed under section 25B.”.

“Sec. 25B. Energy efficiency improvements to existing homes.”.

8        (c) EFFECTIVE DATE.—The amendments made by  
9 this section shall apply to taxable years ending on or after  
10 the date of the enactment of this Act.

11 SEC. 203. CREDIT FOR RESIDENTIAL SOLAR, WIND, AND  
12 FUEL CELL ENERGY PROPERTY.

13 (a) IN GENERAL.—Subpart A of part IV of sub-  
14 chapter A of chapter 1 (relating to nonrefundable personal  
15 credits), as amended by section 201(a), is amended by in-  
16 serting after section 25B the following:

17 "SEC. 25C. RESIDENTIAL SOLAR, WIND, AND FUEL CELL EN-  
18 ERGY PROPERTY.

19        "(a) ALLOWANCE OF CREDIT.—In the case of an in-  
20 dividual, there shall be allowed as a credit against the tax  
21 imposed by this chapter for the taxable year an amount  
22 equal to the sum of—

23               “(1) 15 percent of the qualified photovoltaic  
24               property expenditures.

1           “(2) 15 percent of the qualified solar water  
2       heating property expenditures,

3           “(3) 30 percent of the qualified wind energy  
4       property expenditures, and

5           “(4) 20 percent for the qualified fuel cell prop-  
6       erty expenditures,

7       made by the taxpayer during the taxable year.

8       “(b) LIMITATIONS.—

9           “(1) MAXIMUM CREDIT.—The credit allowed  
10      under subsection (a)(2) shall not exceed \$2,000 for  
11      each system of solar energy property.

12           “(2) TYPE OF PROPERTY.—No expenditure may  
13      be taken into account under this section unless such  
14      expenditure is made by the taxpayer for property in-  
15      stalled on or in connection with a dwelling unit  
16      which is located in the United States and which is  
17      used as a residence.

18           “(3) SAFETY CERTIFICATIONS.—No credit shall  
19      be allowed under this section for an item of property  
20      unless—

21           “(A) in the case of solar water heating  
22      property, such property is certified for perform-  
23      ance and safety by the non-profit Solar Rating  
24      Certification Corporation or a comparable enti-

1           ty endorsed by the government of the State in  
2           which such property is installed, and

3           “(B) in the case of a photovoltaic, wind en-  
4           ergy, or fuel cell property, such property meets  
5           appropriate fire and electric code requirements.

6        “(c) DEFINITIONS.—For purposes of this section—

7           “(1) QUALIFIED SOLAR WATER HEATING PROP-  
8           ERTY EXPENDITURE.—The term ‘qualified solar  
9           water heating property expenditure’ means an ex-  
10           penditure for property which uses solar energy to  
11           heat water for use in a dwelling unit with respect to  
12           which a majority of the energy is derived from the  
13           sun.

14           “(2) QUALIFIED PHOTOVOLTAIC PROPERTY EX-  
15           PENDITURE.—The term ‘qualified photovoltaic prop-  
16           erty expenditure’ means an expenditure for property  
17           which uses solar energy to generate electricity for  
18           use in a dwelling unit.

19           “(3) SOLAR PANELS.—No expenditure relating  
20           to a solar panel or other property installed as a roof  
21           (or portion thereof) shall fail to be treated as prop-  
22           erty described in paragraph (1) or (2) solely because  
23           it constitutes a structural component of the struc-  
24           ture on which it is installed.

1           “(4) QUALIFIED WIND ENERGY PROPERTY EX-  
2 PENDITURE.—The term ‘qualified wind energy prop-  
3 erty expenditure’ means an expenditure for property  
4 which uses wind energy to generate electricity for  
5 use in a dwelling unit.

6           “(5) QUALIFIED FUEL CELL PROPERTY EX-  
7 PENDITURE.—The term ‘qualified fuel cell property  
8 expenditure’ means an expenditure for property  
9 which uses an electrochemical fuel cell system to  
10 generate electricity for use in a dwelling unit.

11           “(6) LABOR COSTS.—Expenditures for labor  
12 costs properly allocable to the onsite preparation, as-  
13 sembly, or original installation of the property de-  
14 scribed in paragraph (1), (2), (4), or (5) and for  
15 piping or wiring to interconnect such property to the  
16 dwelling unit shall be taken into account for pur-  
17 poses of this section.

18           “(7) ENERGY STORAGE MEDIUM.—Expendi-  
19 tures which are properly allocable to a swimming  
20 pool, hot tub, or any other energy storage medium  
21 which has a function other than the function of such  
22 storage shall not be taken into account for purposes  
23 of this section.

24           “(d) SPECIAL RULES.—For purposes of this  
25 section—

1           “(1) DOLLAR AMOUNTS IN CASE OF JOINT OC-  
2        CUPANCY.—In the case of any dwelling unit which is  
3        jointly occupied and used during any calendar year  
4        as a residence by 2 or more individuals the following  
5        shall apply:

6           “(A) The amount of the credit allowable  
7        under subsection (a) by reason of expenditures  
8        (as the case may be) made during such cal-  
9        endar year by any of such individuals with re-  
10       spect to such dwelling unit shall be determined  
11       by treating all of such individuals as 1 taxpayer  
12       whose taxable year is such calendar year.

13           “(B) There shall be allowable with respect  
14        to such expenditures to each of such individ-  
15        uals, a credit under subsection (a) for the tax-  
16       able year in which such calendar year ends in  
17        an amount which bears the same ratio to the  
18        amount determined under subparagraph (A) as  
19        the amount of such expenditures made by such  
20        individual during such calendar year bears to  
21        the aggregate of such expenditures made by all  
22        of such individuals during such calendar year.

23           “(2) TENANT-STOCKHOLDER IN COOPERATIVE  
24        HOUSING CORPORATION.—In the case of an indi-  
25        vidual who is a tenant-stockholder (as defined in sec-

1       tion 216) in a cooperative housing corporation (as  
2       defined in such section), such individual shall be  
3       treated as having made his tenant-stockholder's pro-  
4       portionate share (as defined in section 216(b)(3)) of  
5       any expenditures of such corporation.

6       “(3) CONDOMINIUMS.—

7           “(A) IN GENERAL.—In the case of an indi-  
8       vidual who is a member of a condominium man-  
9       agement association with respect to a condo-  
10       minium which such individual owns, such indi-  
11       vidual shall be treated as having made his pro-  
12       portionate share of any expenditures of such as-  
13       sociation.

14           “(B) CONDOMINIUM MANAGEMENT ASSO-  
15       CIATION.—For purposes of this paragraph, the  
16       term ‘condominium management association’  
17       means an organization which meets the require-  
18       ments of paragraph (1) of section 528(c) (other  
19       than subparagraph (E) thereof) with respect to  
20       a condominium project substantially all of the  
21       units of which are used as residences.

22       “(4) JOINT OWNERSHIP OF ITEMS OF SOLAR OR  
23       WIND ENERGY PROPERTY.—

24           “(A) IN GENERAL.—Any expenditure oth-  
25       erwise qualifying as an expenditure described in

1           paragraph (1), (2), or (4) of subsection (c) shall  
2           not be treated as failing to so qualify merely  
3           because such expenditure was made with re-  
4           spect to 2 or more dwelling units.

5           “(B) LIMITS APPLIED SEPARATELY.—In  
6           the case of any expenditure described in sub-  
7           paragraph (A), the amount of the credit allow-  
8           able under subsection (a) shall (subject to para-  
9           graph (1)) be computed separately with respect  
10           to the amount of the expenditure made for each  
11           dwelling unit.

12           “(5) ALLOCATION IN CERTAIN CASES.—If less  
13           than 80 percent of the use of an item is for nonbusi-  
14           ness residential purposes, only that portion of the  
15           expenditures for such item which is properly allo-  
16           cable to use for nonbusiness residential purposes  
17           shall be taken into account. For purposes of this  
18           paragraph, use for a swimming pool shall be treated  
19           as use which is not for residential purposes.

20           “(6) WHEN EXPENDITURE MADE; AMOUNT OF  
21           EXPENDITURE.—

22           “(A) IN GENERAL.—Except as provided in  
23           subparagraph (B), an expenditure with respect  
24           to an item shall be treated as made when the  
25           original installation of the item is completed.

1                   “(B) EXPENDITURES PART OF BUILDING  
2                   CONSTRUCTION.—In the case of an expenditure  
3                   in connection with the construction or recon-  
4                   struction of a structure, such expenditure shall  
5                   be treated as made when the original use of the  
6                   constructed or reconstructed structure by the  
7                   taxpayer begins.

8                   “(C) AMOUNT.—The amount of any ex-  
9                   penditure shall be the cost thereof.

10                  “(7) REDUCTION OF CREDIT FOR GRANTS, TAX-  
11                  EXEMPT BONDS, AND SUBSIDIZED ENERGY FINANC-  
12                  ING.—The rules of section 29(b)(3) shall apply for  
13                  purposes of this section.

14                  “(e) BASIS ADJUSTMENTS.—For purposes of this  
15                  subtitle, if a credit is allowed under this section for any  
16                  expenditure with respect to any property, the increase in  
17                  the basis of such property which would (but for this sub-  
18                  section) result from such expenditure shall be reduced by  
19                  the amount of the credit so allowed.

20                  “(f) TERMINATION.—The credit allowed under this  
21                  section shall not apply to taxable years beginning after  
22                  December 31, 2011.”.

23                  (b) CONFORMING AMENDMENTS.—

24                  (1) Subsection (a) of section 1016, as amended  
25                  by section 201(b)(4), is amended by striking “and”

1 at the end of paragraph (28), by striking the period  
2 at the end of paragraph (29) and inserting “; and”,  
3 and by adding at the end the following:

4 “(30) to the extent provided in section 25C(e),  
5 in the case of amounts with respect to which a credit  
6 has been allowed under section 25C.”.

7 (2) The table of sections for subpart A of part  
8 IV of subchapter A of chapter 1, as amended by sec-  
9 tion 201(b)(2), is amended by inserting after the  
10 item relating to section 25B the following:

“Sec. 25C. Residential solar, wind, and fuel cell energy prop-  
erty.”.

11 (c) EFFECTIVE DATE.—The amendments made by  
12 this section shall apply to expenditures made after the  
13 date of the enactment of this Act, in taxable years ending  
14 after such date.

## 15 **TITLE III—ELECTRICITY 16 FACILITIES AND PRODUCTION**

### 17 **SEC. 301. INCENTIVE FOR DISTRIBUTED GENERATION.**

18 (a) DEPRECIATION OF DISTRIBUTED POWER PROP-  
19 ERTY.—

20 (1) IN GENERAL.—Subparagraph (C) of section  
21 168(e)(3) (relating to 7-year property) is amended  
22 by redesignating clause (ii) as clause (iii) and by in-  
23 serting after clause (i) the following:

1                             “(ii) any distributed power property,  
2                             and”.

3                             (2) 10-YEAR CLASS LIFE.—The table contained  
4                             in section 168(g)(3)(B) is amended by inserting  
5                             after the item relating to subparagraph (C)(i) the  
6                             following:

“(C)(ii) ..... 10”.

7                             (b) DISTRIBUTED POWER PROPERTY.—Section  
8 168(i) is amended by adding at the end the following:

9                             “(15) DISTRIBUTED POWER PROPERTY.—The  
10 term ‘distributed power property’ means property—  
11                             “(A) which is used in the generation of  
12                             electricity for primary use—

13                             “(i) in nonresidential real or residential  
14                             rental property used in the taxpayer’s  
15                             trade or business, or

16                             “(ii) in the taxpayer’s industrial manufacturing  
17                             process or plant activity, with a  
18                             rated total capacity in excess of 500 kilo-  
19                             watts,

20                             “(B) which also may produce usable thermal  
21                             energy or mechanical power for use in a  
22                             heating or cooling application, as long as at  
23                             least 40 percent of the total useful energy pro-  
24                             duced consists of—

1                             “(i) with respect to assets described in  
2                             subparagraph (A)(i), electrical power  
3                             (whether sold or used by the taxpayer), or

4                             “(ii) with respect to assets described  
5                             in subparagraph (A)(ii), electrical power  
6                             (whether sold or used by the taxpayer) and  
7                             thermal or mechanical energy used in the  
8                             taxpayer’s industrial manufacturing process  
9                             or plant activity,

10                           “(C) which is not used to transport primary  
11                             fuel to the generating facility or to distribute  
12                             energy within or outside of the facility,  
13                             and

14                           “(D) where it is reasonably expected that  
15                             not more than 50 percent of the produced electricity  
16                             will be sold to, or used by, unrelated persons.

18                           For purposes of subparagraph (B), energy output is  
19                             determined on the basis of expected annual output  
20                             levels, measured in British thermal units (Btu),  
21                             using standard conversion factors established by the  
22                             Secretary.”.

23                           (c) EFFECTIVE DATE.—The amendments made by  
24                             this section shall apply to property placed in service after  
25                             the date of the enactment of this Act.

1 **SEC. 302. MODIFICATIONS TO CREDIT FOR ELECTRICITY**2 **PRODUCED FROM RENEWABLE AND WASTE**3 **PRODUCTS.**

## 4 (a) INCREASE IN CREDIT RATE.—

5 (1) IN GENERAL.—Section 45(a)(1) is amended  
6 by striking “1.5 cents” and inserting “1.8 cents”.

## 7 (2) CONFORMING AMENDMENTS.—

8 (A) Section 45(b)(2) is amended by strik-  
9 ing “1.5 cent” and inserting “1.8 cent”.

10 (B) Section 45(d)(2)(B) is amended by in-  
11 serting “(calendar year 2001 in the case of the  
12 1.8 cent amount in subsection (a))” after  
13 “1992”.

## 14 (b) EXPANSION OF QUALIFIED RESOURCES.—

15 (1) IN GENERAL.—Section 45(c)(1) (relating to  
16 qualified energy resources) is amended by striking  
17 “and” at the end of subparagraph (B), by striking  
18 the period at the end of subparagraph (C) and in-  
19 serting “, and”, and by adding at the end the fol-  
20 lowing:

21 “(D) alternative resources.”.

22 (2) DEFINITION OF ALTERNATIVE RE-  
23 SOURCES.—Section 45(c) (relating to definitions) is  
24 amended—

25 (A) by redesignating paragraph (3) as  
26 paragraph (5),

(B) by redesignating paragraph (4) as paragraph (3), and

3 (C) by inserting after paragraph (3), as re-  
4 designated by subparagraph (B), the following:

#### 5                   “(4) ALTERNATIVE RESOURCES.—

6                           “(A) IN GENERAL.—The term ‘alternative  
7                           resources’ means—

8 “(i) solar,

9 “(ii) biomass (other than closed loop  
10 biomass),

11 “(iii) municipal solid waste,

12 “(iv) incremental hydropower,

15 “(vii) steel cogeneration.

17 means any solid, nonhazardous, c

18 material or any organic carbohydrate matter,  
19 which is segregated from other waste materials,  
20 and which is derived from—

1                             “(ii) waste pallets, crates, dunnage,  
2                             untreated wood waste from construction or  
3                             manufacturing activities, and landscape or  
4                             right-of-way tree trimmings, but not in-  
5                             cluding unsegregated municipal solid waste  
6                             or post-consumer wastepaper, or

7                             “(iii) any of the following agriculture  
8                             sources: orchard tree crops, vineyard,  
9                             grain, legumes, sugar, and other crop by-  
10                             products or residues, including any pack-  
11                             aging and other materials which are  
12                             nontoxic and biodegradable and are associ-  
13                             ated with the processing, feeding, selling,  
14                             transporting, and disposal of such agricul-  
15                             tural materials.

16                             “(C) MUNICIPAL SOLID WASTE.—The term  
17                             ‘municipal solid waste’ has the same meaning  
18                             given the term ‘solid waste’ under section 2(27)  
19                             of the Solid Waste Utilization Act (42 U.S.C.  
20                             6903).

21                             “(D) INCREMENTAL HYDROPOWER.—The  
22                             term ‘incremental hydropower’ means additional  
23                             generating capacity achieved from—

24                             “(i) increased efficiency, or  
25                             “(ii) additions of new capacity,

1 at a licensed non-Federal hydroelectric project  
2 originally placed in service before the date of  
3 the enactment of this paragraph.

4 “(E) GEOTHERMAL.—The term ‘geo-  
5 thermal’ means energy derived from a geo-  
6 thermal deposit (within the meaning of section  
7 613(e)(2)), but only, in the case of electricity  
8 generated by geothermal power, up to (but not  
9 including) the electrical transmission stage.

10 “(F) LANDFILL GAS.—The term ‘landfill  
11 gas’ means gas generated from the decomposi-  
12 tion of any household solid waste, commercial  
13 solid waste, and industrial solid waste disposed  
14 of in a municipal solid waste landfill unit (as  
15 such terms are defined in regulations promul-  
16 gated under subtitle D of the Solid Waste Dis-  
17 posal Act (42 U.S.C. 6941 et seq.).

18 “(G) STEEL COGENERATION.—The term  
19 ‘steel cogeneration’ means the production of  
20 electricity and steam (or other form of thermal  
21 energy) from any or all waste sources defined  
22 in paragraphs (2) and (3) and subparagraphs  
23 (B) and (C) of this paragraph within an oper-  
24 ating facility which produces or integrates the  
25 production of coke, direct reduced iron ore,

1           iron, or steel provided that the cogeneration  
2        meets any regulatory energy-efficiency stand-  
3       ards established by the Secretary, and only to  
4       the extent that such energy is produced from—

17                   “(D) ALTERNATIVE RESOURCES FACIL-  
18                   ITY.—

ice after the date of the enactment of this subparagraph.

1                   efficiency or generation capability after  
2                   such date.

3                   “(v) SPECIAL RULES.—In the case of  
4                   a qualified facility described in this sub-  
5                   paragraph, the 10-year period referred to  
6                   in subsection (a) shall be treated as begin-  
7                   ning no earlier than the date of the enact-  
8                   ment of this subparagraph.”.

9                   (4) GOVERNMENT-OWNED FACILITY.—Section  
10                  45(d)(6) (relating to credit eligibility in the case of  
11                  government-owned facilities using poultry waste) is  
12                  amended—

13                  (A) by inserting “or alternative resources”  
14                  after “poultry waste”, and

15                  (B) by inserting “OR ALTERNATIVE RE-  
16                  SOURCES” after “POULTRY WASTE” in the  
17                  heading thereof.

18                  (5) QUALIFIED FACILITIES WITH CO-PRODUC-  
19                  TION.—Section 45(b) (relating to limitations and ad-  
20                  justments) is amended by adding at the end the fol-  
21                  lowing:

22                  “(4) INCREASED CREDIT FOR CO-PRODUCTION  
23                  FACILITIES.—

24                  “(A) IN GENERAL.—In the case of a qual-  
25                  fied facility described in subsection (c)(3)(D)(i)

which has a co-production facility or a qualified facility described in subparagraph (A), (B), or (C) of subsection (c)(3) which adds a co-production facility after the date of the enactment of this paragraph, the amount in effect under subsection (a)(1) for an eligible taxable year of a taxpayer shall (after adjustment under paragraph (2) and before adjustment under paragraphs (1) and (3)) be increased by .25 cents.

18 “(ii) produces such energy on a con-  
19 tinuous basis.

20                             “(C) ELIGIBLE TAXABLE YEAR.—For pur-  
21                             poses of subparagraph (A), the term ‘eligible  
22                             taxable year’ means any taxable year in which  
23                             the amount of gross receipts attributable to the  
24                             co-production facility of a qualified facility are  
25                             at least 10 percent of the amount of gross re-

1           ceipts attributable to electricity produced by  
2           such facility.”.

3           (6) QUALIFIED FACILITIES LOCATED WITHIN  
4           QUALIFIED INDIAN LANDS.—Section 45(b) (relating  
5           to limitations and adjustments), as amended by  
6           paragraph (5), is amended by adding at the end the  
7           following:

8           “(5) INCREASED CREDIT FOR QUALIFIED FA-  
9           CILITY LOCATED WITHIN QUALIFIED INDIAN  
10           LAND.—In the case of a qualified facility described  
11           in subsection (c)(3)(D) which—

12           “(A) is located within—

13                “(i) qualified Indian lands (as defined  
14                in section 7871(c)(3)), or

15                “(ii) lands which are held in trust by  
16                a Native Corporation (as defined in section  
17                3(m) of the Alaska Native Claims Settle-  
18                ment Act (43 U.S.C. 1602(m)) for Alaska  
19                Natives, and

20                “(B) is operated with the explicit written  
21                approval of the Indian tribal government or Na-  
22                tive Corporation (as so defined) having jurisdic-  
23                tion over such lands,

24           the amount in effect under subsection (a)(1) for a  
25           taxable year shall (after adjustment under para-

1 graphs (2) and (4) and before adjustment under  
2 paragraphs (1) and (3)) be increased by .25 cents.”.

3 (7) ELECTRICITY PRODUCED FROM CERTAIN  
4 RESOURCES CO-FIRED IN COAL PLANTS.—Section  
5 45(d) (relating to definitions and special rules) is  
6 amended by adding at the end the following:

7 “(8) SPECIAL RULE FOR ELECTRICITY PRO-  
8 DUCED FROM CERTAIN RESOURCES CO-FIRED IN  
9 COAL PLANTS.—In the case of electricity produced  
10 from biomass (including closed loop biomass), mu-  
11 nicipal solid waste, or animal waste, co-fired in a fa-  
12 cility which produces electricity from coal—

13 “(A) subsection (a)(1) shall be applied by  
14 substituting ‘1 cent’ for ‘1.8 cents’,

15 “(B) such facility shall be considered a  
16 qualified facility for purposes of this section,  
17 and

18 “(C) the 10-year period referred to in sub-  
19 section (a) shall be treated as beginning no ear-  
20 lier than the date of the enactment of this para-  
21 graph.”.

22 (8) CONFORMING AMENDMENTS.—

23 (A) The heading for section 45 is amended  
24 by inserting “**AND WASTE ENERGY**” after  
25 “**RENEWABLE**”.

1 (B) The item relating to section 45 in the  
2 table of sections subpart D of part IV of sub-  
3 chapter A of chapter 1 is amended by inserting  
4 “and waste energy” after “renewable”.

5 (c) ADDITIONAL MODIFICATIONS OF RENEWABLE  
6 AND WASTE ENERGY RESOURCE CREDIT.—

12           “(9) CREDITS FOR CERTAIN TAX EXEMPT OR-  
13           GANIZATIONS AND GOVERNMENTAL UNITS.—

14                     “(A) ALLOWANCE OF CREDIT.—Any credit  
15                     which would be allowable under subsection (a)  
16                     with respect to a qualified facility of an entity  
17                     if such entity were not exempt from tax under  
18                     this chapter shall be treated as a credit allow-  
19                     able under subpart C to such entity if such en-  
20                     tity is—

1                     “(iii) an entity the income of which is  
2                     excludable from gross income under section  
3                     115.

4                     “(B) USE OF CREDIT.—

5                     “(i) TRANSFER OF CREDIT.—An enti-  
6                     ty described in subparagraph (A) may as-  
7                     sign, trade, sell, or otherwise transfer any  
8                     credit allowable to such entity under sub-  
9                     paragraph (A) to any taxpayer.

10                    “(ii) USE OF CREDIT AS AN OFF-  
11                    SET.—Notwithstanding any other provision  
12                    of law, in the case of an entity described  
13                    in clause (i) or (ii) of subparagraph (A),  
14                    any credit allowable to such entity under  
15                    subparagraph (A) may be applied by such  
16                    entity, without penalty, as a prepayment of  
17                    any loan, debt, or other obligation the enti-  
18                    ty has incurred under subchapter I of  
19                    chapter 31 of title 7 of the Rural Elec-  
20                    trification Act of 1936 (7 U.S.C. 901 et  
21                    seq.).

22                    “(C) CREDIT NOT INCOME.—Neither a  
23                    transfer under clause (i) or a use under clause  
24                    (ii) of subparagraph (B) of any credit allowable

1       under subparagraph (A) shall result in income  
2       for purposes of section 501(c)(12).

3           “(D) TRANSFER PROCEEDS TREATED AS  
4           ARISING FROM ESSENTIAL GOVERNMENT FUNC-  
5           TION.—Any proceeds derived by an entity de-  
6           scribed in subparagraph (A)(iii) from the trans-  
7           fer of any credit under subparagraph (B)(i)  
8           shall be treated as arising from an essential  
9           government function.

10           “(E) CREDITS NOT REDUCED BY TAX-EX-  
11           EMPT BONDS OR CERTAIN OTHER SUBSIDIES.—  
12           Subsection (b)(3) shall not apply to reduce any  
13           credit allowable under subparagraph (A) with  
14           respect to—

15               “(i) proceeds described in subpara-  
16               graph (A)(ii) of such subsection, or

17               “(ii) any loan, debt, or other obliga-  
18               tion incurred under subchapter I of chap-  
19               ter 31 of title 7 of the Rural Electrification  
20               Act of 1936 (7 U.S.C. 901 et seq.),

21               used to provide financing for any qualified facil-  
22               ity.

23           “(F) TREATMENT OF UNRELATED PER-  
24           SONS.—For purposes of this paragraph, sales  
25           among and between entities described in sub-

1           paragraph (A) shall be treated as sales between  
2           unrelated parties.”.

3           (2) COORDINATION WITH OTHER CREDITS.—  
4           Section 45(d), as amended by paragraph (1), is  
5           amended by adding at the end the following:

6           “(10) COORDINATION WITH OTHER CREDITS.—  
7           This section shall not apply to any qualified facility  
8           with respect to which a credit under any other sec-  
9           tion is allowed for the taxable year unless the tax-  
10           payer elects to waive the application of such credit  
11           to such facility.”.

12           (3) EXPANSION TO INCLUDE ANIMAL WASTE.—  
13           Section 45 (relating to electricity produced from cer-  
14           tain renewable resources), as amended by para-  
15           graphs (2) and (4) of subsection (b), is amended—

16           (A) by striking “poultry” each place it ap-  
17           pears in subsection (c)(1)(C) and subsection  
18           (d)(6) and inserting “animal”,

19           (B) by striking “POULTRY” in the heading  
20           of paragraph (6) of subsection (d) and inserting  
21           “ANIMAL”,

22           (C) by striking paragraph (3) of subsection  
23           (c) and inserting the following:

1           “(3) ANIMAL WASTE.—The term ‘animal waste’  
2       means poultry manure and litter and other animal  
3       wastes, including—

4           “(A) wood shavings, straw, rice hulls, and  
5       other bedding material for the disposition of  
6       manure, and

7           “(B) byproducts, packaging, and other ma-  
8       terials which are nontoxic and biodegradable  
9       and are associated with the processing, feeding,  
10       selling, transporting, and disposal of such ani-  
11       mal wastes.”, and

12       (D) by striking subparagraph (C) of sub-  
13       section (c)(5) and inserting the following:

14           “(C) ANIMAL WASTE FACILITY.—

15           “(i) IN GENERAL.—Except as pro-  
16       vided in clause (ii), in the case of a facility  
17       using animal waste (other than poultry) to  
18       produce electricity, the term ‘qualified fa-  
19       cility’ means any facility of the taxpayer  
20       which is originally placed in service after  
21       the date of the enactment of this clause.

22           “(ii) POULTRY WASTE.—In the case  
23       of a facility using animal waste relating to  
24       poultry to produce electricity, the term  
25       ‘qualified facility’ means any facility of the

1                   taxpayer which is originally placed in serv-  
2                   ice after December 31, 1999.”.

3                   (4) TREATMENT OF QUALIFIED FACILITIES NOT  
4                   IN COMPLIANCE WITH POLLUTION LAWS.—Section  
5                   45(c)(5) (relating to qualified facilities), as amended  
6                   by paragraphs (2) and (3) of subsection (b), is  
7                   amended by adding at the end the following:

8                   “(E) NONCOMPLIANCE WITH POLLUTION  
9                   LAWS.—For purposes of this paragraph, a facil-  
10                  ity which is not in compliance with the applica-  
11                  ble State and Federal pollution prevention, con-  
12                  trol, and permit requirements for any period of  
13                  time shall not be considered to be a qualified  
14                  facility during such period.”.

15                  (5) PERMANENT EXTENSION OF QUALIFIED FA-  
16                  CILITY DATES.—Section 45(c)(5) (relating to quali-  
17                  fied facility), as redesignated by subsection (b)(2), is  
18                  amended by striking “, and before January 1, 2002”  
19                  in subparagraphs (A) and (B).

20                  (d) EFFECTIVE DATE.—The amendments made by  
21                  this section shall apply to electricity and other energy pro-  
22                  duced after the date of the enactment of this Act.

1 **SEC. 303. TREATMENT OF FACILITIES USING BAGASSE TO**  
2 **PRODUCE ENERGY AS SOLID WASTE DIS-**  
3 **POSAL FACILITIES ELIGIBLE FOR TAX-EX-**  
4 **EMPT FINANCING.**

5 (a) IN GENERAL.—Section 142 (relating to exempt  
6 facility bond) is amended by adding at the end the fol-  
7 lowing:

8 “(k) SOLID WASTE DISPOSAL FACILITIES.—For pur-  
9 poses of subsection (a)(6), the term ‘solid waste disposal  
10 facilities’ includes property located in Hawaii and used for  
11 the collection, storage, treatment, utilization, processing,  
12 or final disposal of bagasse in the manufacture of eth-  
13 anol.”.

14 (b) EFFECTIVE DATE.—The amendment made by  
15 this section shall apply to bonds issued after the date of  
16 the enactment of this Act.

17 **SEC. 304. DEPRECIATION OF PROPERTY USED IN THE**  
18 **TRANSMISSION OF ELECTRICITY.**

19 (a) DEPRECIATION OF PROPERTY USED IN THE  
20 TRANSMISSION OF ELECTRICITY.—

21 (1) IN GENERAL.—Subparagraph (C) of section  
22 168(e)(3) (relating to 7-year property), as amended  
23 by section 301(a)(1), is amended by striking “and”  
24 at the end of clause (ii), by redesignating clause (iii)  
25 as clause (iv), and by inserting after clause (ii) the  
26 following:

1                             “(iii) any property used in the trans-  
 2                             mission of electricity, and”.

3                             (2) 10-YEAR CLASS LIFE.—The table contained  
 4                             in section 168(g)(3)(B), as amended by section  
 5                             301(a)(2), is amended by inserting after the item re-  
 6                             lating to subparagraph (C)(ii) the following:

7                             “(C)(iii) ..... 10”.

8                             (b) DEFINITION OF PROPERTY USED IN THE TRANS-  
 9                             MISSION OF ELECTRICITY.—Section 168(i), as amended  
 10                             by section 301(b), is amended by adding at the end the  
 11                             following:

12                             “(16) PROPERTY USED IN THE TRANSMISSION  
 13                             OF ELECTRICITY.—The term ‘property used in the  
 14                             transmission of electricity’ means property used in  
 15                             the transmission of electricity for sale.”.

16                             (c) EFFECTIVE DATE.—The amendments made by  
 17                             this section shall apply to property placed in service after  
 18                             the date of the enactment of this Act.

19                             **TITLE IV—INCENTIVES FOR  
 20                             EARLY COMMERCIAL APPLI-  
 21                             CATIONS OF ADVANCED  
 22                             CLEAN COAL TECHNOLOGIES**

23                             **SEC. 401. CREDIT FOR INVESTMENT IN QUALIFYING AD-  
 24                             VANCED CLEAN COAL TECHNOLOGY.**

25                             (a) ALLOWANCE OF QUALIFYING ADVANCED CLEAN  
 26                             COAL TECHNOLOGY FACILITY CREDIT.—Section 46 (re-

1 lating to amount of credit) is amended by striking “and”  
2 at the end of paragraph (2), by striking the period at the  
3 end of paragraph (3) and inserting “, and”, and by adding  
4 at the end the following:

5 “(4) the qualifying advanced clean coal tech-  
6 nology facility credit.”.

7 (b) AMOUNT OF QUALIFYING ADVANCED CLEAN  
8 COAL TECHNOLOGY FACILITY CREDIT.—Subpart E of  
9 part IV of subchapter A of chapter 1 (relating to rules  
10 for computing investment credit), as amended by section  
11 101(a), is amended by inserting after section 48A the fol-  
12 lowing:

13 **“SEC. 48B. QUALIFYING ADVANCED CLEAN COAL TECH-  
14 NOLOGY FACILITY CREDIT.**

15 “(a) IN GENERAL.—For purposes of section 46, the  
16 qualifying advanced clean coal technology facility credit  
17 for any taxable year is an amount equal to 10 percent  
18 of the qualified investment in a qualifying advanced clean  
19 coal technology facility for such taxable year.

20 “(b) QUALIFYING ADVANCED CLEAN COAL TECH-  
21 NOLOGY FACILITY.—

22 “(1) IN GENERAL.—For purposes of subsection  
23 (a), the term ‘qualifying advanced clean coal tech-  
24 nology facility’ means a facility of the taxpayer  
25 which—

1               “(A)(I) replaces a conventional tech-  
2       nology facility of the taxpayer and the original  
3       use of which commences with the taxpayer, or

4               “(II) is a retrofitted or repowered conven-  
5       tional technology facility, the retrofitting or  
6       repowering of which is completed by the tax-  
7       payer (but only with respect to that portion of  
8       the basis which is properly attributable to such  
9       retrofitting or repowering), or

10               “(ii) is acquired through purchase (as de-  
11       fined by section 179(d)(2)),

12               “(B) is depreciable under section 167,

13               “(C) has a useful life of not less than 4  
14       years,

15               “(D) is located in the United States, and

16               “(E) uses qualifying advanced clean coal  
17       technology.

18               “(2) SPECIAL RULE FOR SALE-LEASEBACKS.—

19       For purposes of subparagraph (A) of paragraph (1),  
20       in the case of a facility which—

21               “(A) is originally placed in service by a  
22       person, and

23               “(B) is sold and leased back by such per-  
24       son, or is leased to such person, within 3  
25       months after the date such facility was origi-

1           nally placed in service, for a period of not less  
2           than 12 years,  
3           such facility shall be treated as originally placed in  
4           service not earlier than the date on which such prop-  
5           erty is used under the leaseback (or lease) referred  
6           to in subparagraph (B). The preceding sentence  
7           shall not apply to any property if the lessee and les-  
8           sor of such property make an election under this  
9           sentence. Such an election, once made, may be re-  
10           voked only with the consent of the Secretary.

11           “(3) QUALIFYING ADVANCED CLEAN COAL  
12           TECHNOLOGY.—For purposes of paragraph (1)—

13           “(A) IN GENERAL.—The term ‘qualifying  
14           advanced clean coal technology’ means, with re-  
15           spect to clean coal technology—

16           “(i) multiple applications, with a com-  
17           bined capacity of not more than 2,000  
18           megawatts, of advanced pulverized coal or  
19           atmospheric fluidized bed combustion  
20           technology—

21           “(I) installed as a new, retrofit,  
22           or repowering application,

23           “(II) operated between 2001 and  
24           2011, and

1                         “(III) with a design net heat rate  
2                         of not more than 9,500 Btu per kilo-  
3                         watt hour when the design coal has a  
4                         heat content of more than 8,000 Btu  
5                         per pound, or a design net heat rate  
6                         of not more than 9,900 Btu per kilo-  
7                         watt hour when the design coal has a  
8                         heat content of 8,000 Btu per pound  
9                         or less,

10                         “(ii) multiple applications, with a  
11                         combined capacity of not more than 1,000  
12                         megawatts, of pressurized fluidized bed  
13                         combustion technology—

14                         “(I) installed as a new, retrofit,  
15                         or repowering application,

16                         “(II) operated between 2001 and  
17                         2015, and

18                         “(III) with a design net heat rate  
19                         of not more than 8,400 Btu per kilo-  
20                         watt hour when the design coal has a  
21                         heat content of more than 8,000 Btu  
22                         per pound, or a design net heat rate  
23                         of not more than 9,900 Btu per kilo-  
24                         watt hour when the design coal has a

“(IV) with a net thermal efficiency on any fuel or chemical co-production of not less than 39 percent (higher heating value), and

1                             “(iv) multiple applications, with a  
2                             combined capacity of not more than 2,000  
3                             megawatts of technology for the production  
4                             of electricity—

5                             “(I) installed as a new, retrofit,  
6                             or repowering application,

7                             “(II) operated between 2001 and  
8                             2015, and

9                             “(III) with a carbon emission  
10                             rate which is not more than 85 per-  
11                             cent of conventional technology.

12                             “(B) EXCEPTIONS.—Such term shall not  
13                             include clean coal technology projects receiving  
14                             or scheduled to receive funding under the Clean  
15                             Coal Technology Program of the Department of  
16                             Energy.

17                             “(C) CLEAN COAL TECHNOLOGY.—The  
18                             term ‘clean coal technology’ means advanced  
19                             technology which uses coal to produce 75 per-  
20                             cent or more of its thermal output as electricity  
21                             including advanced pulverized coal or atmos-  
22                             pheric fluidized bed combustion, pressurized flu-  
23                             idized bed combustion, integrated gasification  
24                             combined cycle with or without fuel or chemical  
25                             co-production, and any other technology for the

1           production of electricity which exceeds the per-  
2           formance of conventional technology.

3           “(D) CONVENTIONAL TECHNOLOGY.—The  
4           term ‘conventional technology’ means—

5           “(i) coal-fired combustion technology  
6           with a design net heat rate of not less than  
7           9,500 Btu per kilowatt hour (HHV) and a  
8           carbon equivalents emission rate of not  
9           more than 0.54 pounds of carbon per kilo-  
10           watt hour when the design coal has a heat  
11           content of more than 8,000 Btu per  
12           pound,

13           “(ii) coal-fired combustion technology  
14           with a design net heat rate of not less than  
15           10,500 Btu per kilowatt hour (HHV) and  
16           a carbon equivalents emission rate of not  
17           more than 0.60 pounds of carbon per kilo-  
18           watt hour when the design coal has a heat  
19           content of 8,000 Btu per pound or less, or

20           “(iii) natural gas-fired combustion  
21           technology with a design net heat rate of  
22           not less than 7,500 Btu per kilowatt hour  
23           (HHV) and a carbon equivalents emission  
24           rate of not more than 0.24 pounds of car-  
25           bon per kilowatt hour.

1                         “(E) DESIGN NET HEAT RATE.—The de-  
2                         sign net heat rate shall be based on the design  
3                         annual heat input to and the design annual net  
4                         electrical output from the qualifying advanced  
5                         clean coal technology (determined without re-  
6                         gard to such technology’s co-generation of  
7                         steam).

8                         “(F) SELECTION CRITERIA.—Selection cri-  
9                         teria for clean coal technology facilities—

10                         “(i) shall be established by the Sec-  
11                         retary of Energy as part of a competitive  
12                         solicitation,

13                         “(ii) shall include primary criteria of  
14                         minimum design net heat rate, maximum  
15                         design thermal efficiency, and lowest cost  
16                         to the government, and

17                         “(iii) shall include supplemental cri-  
18                         teria as determined appropriate by the  
19                         Secretary of Energy.

20                         “(4) NONCOMPLIANCE WITH POLLUTION  
21                         LAWS.—For purposes of this subsection, a facility  
22                         which is not in compliance with the applicable State  
23                         and Federal pollution prevention, control, and per-  
24                         mit requirements for any period of time shall not be

1       considered to be a qualifying advanced clean coal  
2       technology facility during such period.

3       “(c) QUALIFIED INVESTMENT.—For purposes of sub-  
4       section (a), the term ‘qualified investment’ means, with  
5       respect to any taxable year, the basis of a qualifying ad-  
6       vanced clean coal technology facility placed in service by  
7       the taxpayer during such taxable year.

8       “(d) QUALIFIED PROGRESS EXPENDITURES.—

9           “(1) INCREASE IN QUALIFIED INVESTMENT.—  
10       In the case of a taxpayer who has made an election  
11       under paragraph (5), the amount of the qualified in-  
12       vestment of such taxpayer for the taxable year (de-  
13       termined under subsection (c) without regard to this  
14       section) shall be increased by an amount equal to  
15       the aggregate of each qualified progress expenditure  
16       for the taxable year with respect to progress expend-  
17       iture property.

18           “(2) PROGRESS EXPENDITURE PROPERTY DE-  
19       FINED.—For purposes of this subsection, the term  
20       ‘progress expenditure property’ means any property  
21       being constructed by or for the taxpayer and which  
22       it is reasonable to believe will qualify as a qualifying  
23       advanced clean coal technology facility which is  
24       being constructed by or for the taxpayer when it is  
25       placed in service.

1           “(3) QUALIFIED PROGRESS EXPENDITURES DE-  
2 FINED.—For purposes of this subsection—

3           “(A) SELF-CONSTRUCTED PROPERTY.—In  
4 the case of any self-constructed property, the  
5 term ‘qualified progress expenditures’ means  
6 the amount which, for purposes of this subpart,  
7 is properly chargeable (during such taxable  
8 year) to capital account with respect to such  
9 property.

10           “(B) NONSELF-CONSTRUCTED PROPERTY.—In the case of nonself-constructed prop-  
11 erty, the term ‘qualified progress expenditures’  
12 means the amount paid during the taxable year  
13 to another person for the construction of such  
14 property.

16           “(4) OTHER DEFINITIONS.—For purposes of  
17 this subsection—

18           “(A) SELF-CONSTRUCTED PROPERTY.—  
19 The term ‘self-constructed property’ means  
20 property for which it is reasonable to believe  
21 that more than half of the construction expendi-  
22 tures will be made directly by the taxpayer.

23           “(B) NONSELF-CONSTRUCTED PROPERTY.—The term ‘nonself-constructed property’

1 means property which is not self-constructed  
2 property.

3 “(C) CONSTRUCTION, ETC.—The term  
4 ‘construction’ includes reconstruction and erec-  
5 tion, and the term ‘constructed’ includes recon-  
6 structed and erected.

7 “(D) ONLY CONSTRUCTION OF QUALI-  
8 FYING ADVANCED CLEAN COAL TECHNOLOGY  
9 FACILITY TO BE TAKEN INTO ACCOUNT.—Con-  
10 struction shall be taken into account only if, for  
11 purposes of this subpart, expenditures therefor  
12 are properly chargeable to capital account with  
13 respect to the property.

14 “(5) ELECTION.—An election under this sub-  
15 section may be made at such time and in such man-  
16 ner as the Secretary may by regulations prescribe.  
17 Such an election shall apply to the taxable year for  
18 which made and to all subsequent taxable years.  
19 Such an election, once made, may not be revoked ex-  
20 cept with the consent of the Secretary.

21 “(e) CREDITS FOR CERTAIN TAX EXEMPT ORGANI-  
22 ZATIONS AND GOVERNMENTAL UNITS.—

23 “(1) ALLOWANCE OF CREDIT.—Any credit  
24 which would be allowable under subsection (a) with  
25 respect to a qualifying advanced clean coal tech-

1 nology facility of an entity if such entity were not  
2 exempt from tax under this chapter shall be treated  
3 as a credit allowable under subpart C to such entity  
4 if such entity is—

5 “(A) an organization described in section  
6 501(c)(12)(C) and exempt from tax under sec-  
7 tion 501(a),

8 “(B) an organization described in section  
9 1381(a)(2)(C),

10 “(C) an entity the income of which is ex-  
11 cludable from gross income under section 115,  
12 or

13 “(D) the Tennessee Valley Authority.

14 “(2) USE OF CREDIT.—

15 “(A) TRANSFER OF CREDIT.—An entity  
16 described in subparagraph (A), (B), or (C) of  
17 paragraph (1) may assign, trade, sell, or other-  
18 wise transfer any credit allowable to such entity  
19 under paragraph (1) to any taxpayer.

20 “(B) USE OF CREDIT AS AN OFFSET.—  
21 Notwithstanding any other provision of law, in  
22 the case of an entity described in subparagraph  
23 (A) or (B) of paragraph (1), any credit allow-  
24 able to such entity under paragraph (1) may be  
25 applied by such entity, without penalty, as a

1 prepayment of any loan, debt, or other obliga-  
2 tion the entity has incurred under subchapter I  
3 of chapter 31 of title 7 of the Rural Electrifica-  
4 tion Act of 1936 (7 U.S.C. 901 et seq.).

5       “(C) USE BY TVA.—

6           “(i) IN GENERAL.—Notwithstanding  
7           any other provision of law, in the case of  
8           an entity described in paragraph (1)(D),  
9           any credit allowable under paragraph (1)  
10          to such entity may be applied as a credit  
11          against the payments required to be made  
12          in any fiscal year under section 15d(e) of  
13          the Tennessee Valley Authority Act of  
14          1933 (16 U.S.C. 831n–4(e)) as an annual  
15          return on the appropriations investment  
16          and an annual repayment sum.

17           “(ii) TREATMENT OF CREDITS.—The  
18          aggregate amount of credits described in  
19          paragraph (1) shall be treated in the same  
20          manner and to the same extent as if such  
21          credits were a payment in cash and shall  
22          be applied first against the annual return  
23          on the appropriations investment.

24           “(iii) CREDIT CARRYOVER.—With re-  
25          spect to any fiscal year, if the aggregate

9       “(3) CREDIT NOT INCOME.—Neither a transfer  
10      under subparagraph (A) or a use under subparagraph  
11      (B) of paragraph (2) of any credit allowable  
12      under paragraph (1) shall result in income for pur-  
13      poses of section 501(c)(12).

14                 “(4) TRANSFER PROCEEDS TREATED AS ARIS-  
15                 ING FROM ESSENTIAL GOVERNMENT FUNCTION.—  
16                 Any proceeds derived by an entity described in para-  
17                 graph (1)(C) from the transfer of any credit under  
18                 paragraph (2)(A) shall be treated as arising from an  
19                 essential government function.

20       “(f) COORDINATION WITH OTHER CREDITS.—This  
21 section shall not apply to any property with respect to  
22 which the rehabilitation credit under section 47 or the en-  
23 ergy credit under section 48A is allowed unless the tax-  
24 payer elects to waive the application of such credit to such  
25 property.

1       “(g) TERMINATION.—This section shall not apply  
2 with respect to any qualified investment made more than  
3 10 years after the effective date of this section.”.

4       (c) RECAPTURE.—Section 50(a) (relating to other  
5 special rules) is amended by adding at the end the fol-  
6 lowing:

7           “(6) SPECIAL RULES RELATING TO QUALIFYING  
8 ADVANCED CLEAN COAL TECHNOLOGY FACILITY.—  
9 For purposes of applying this subsection in the case  
10 of any credit allowable by reason of section 48B, the  
11 following shall apply:

12           “(A) GENERAL RULE.—In lieu of the  
13 amount of the increase in tax under paragraph  
14 (1), the increase in tax shall be an amount  
15 equal to the investment tax credit allowed under  
16 section 38 for all prior taxable years with re-  
17 spect to a qualifying advanced clean coal tech-  
18 nology facility (as defined by section 48B(b)(1))  
19 multiplied by a fraction whose numerator is the  
20 number of years remaining to fully depreciate  
21 under this title the qualifying advanced clean  
22 coal technology facility disposed of, and whose  
23 denominator is the total number of years over  
24 which such facility would otherwise have been  
25 subject to depreciation. For purposes of the

1 preceding sentence, the year of disposition of  
2 the qualifying advanced clean coal technology  
3 facility property shall be treated as a year of re-  
4 maining depreciation.

5           “(B) PROPERTY CEASES TO QUALIFY FOR  
6 PROGRESS EXPENDITURES.—Rules similar to  
7 the rules of paragraph (2) shall apply in the  
8 case of qualified progress expenditures for a  
9 qualifying advanced clean coal technology facil-  
10 ity under section 48B, except that the amount  
11 of the increase in tax under subparagraph (A)  
12 of this paragraph shall be substituted in lieu of  
13 the amount described in such paragraph (2).

14           “(C) APPLICATION OF PARAGRAPH.—This  
15 paragraph shall be applied separately with re-  
16 spect to the credit allowed under section 38 re-  
17 garding a qualifying advanced clean coal tech-  
18 nology facility.”.

19           (d) TRANSITIONAL RULE.—Section 39(d) of the In-  
20 ternal Revenue Code of 1986 (relating to transitional  
21 rules), as amended by section 201(e), is amended by add-  
22 ing at the end the following:

23           “(13) NO CARRYBACK OF SECTION 48B CREDIT  
24 BEFORE EFFECTIVE DATE.—No portion of the un-  
25 used business credit for any taxable year which is

1 attributable to the qualifying advanced clean coal  
2 technology facility credit determined under section  
3 48B may be carried back to a taxable year ending  
4 before January 1, 2002.”.

5 (e) TECHNICAL AMENDMENTS.—

6 (1) Section 49(a)(1)(C) is amended by striking  
7 “and” at the end of clause (ii), by striking the pe-  
8 riod at the end of clause (iii) and inserting “, and”,  
9 and by adding at the end the following:

10 “(iv) the portion of the basis of any  
11 qualifying advanced clean coal technology  
12 facility attributable to any qualified invest-  
13 ment (as defined by section 48B(c)).”.

14 (2) Section 50(a)(4) is amended by striking  
15 “and (2)” and inserting “(2), and (6)”.

16 (3) Section 50(c) is amended by adding at the  
17 end the following:

18 “(6) NONAPPLICATION.—Paragraphs (1) and  
19 (2) shall not apply to any advanced clean coal tech-  
20 nology facility credit under section 48B.”.

21 (4) The table of sections for subpart E of part  
22 IV of subchapter A of chapter 1, as amended by sec-  
23 tion 101(c), is amended by inserting after the item  
24 relating to section 48A the following:

“Sec. 48B. Qualifying advanced clean coal technology facility credit.”.

1        (f) EFFECTIVE DATE.—The amendments made by  
2 this section shall apply to periods after December 31,  
3 2001, under rules similar to the rules of section 48(m)  
4 of the Internal Revenue Code of 1986 (as in effect on the  
5 day before the date of the enactment of the Revenue Re-  
6 conciliation Act of 1990).

7 SEC. 402. CREDIT FOR PRODUCTION FROM QUALIFYING  
8 ADVANCED CLEAN COAL TECHNOLOGY.

9 (a) CREDIT FOR PRODUCTION FROM QUALIFYING  
10 ADVANCED CLEAN COAL TECHNOLOGY.—Subpart D of  
11 part IV of subchapter A of chapter 1 of the Internal Rev-  
12 enue Code of 1986 (relating to business related credits),  
13 as amended by section 201(a), is amended by adding at  
14 the end the following:

15 "SEC. 45G. CREDIT FOR PRODUCTION FROM QUALIFYING  
16 ADVANCED CLEAN COAL TECHNOLOGY.

17       “(a) GENERAL RULE.—For purposes of section 38,  
18 the qualifying advanced clean coal technology production  
19 credit of any taxpayer for any taxable year is equal to—

20               “(1) the applicable amount of advanced clean  
21                coal technology production credit, multiplied by

22                   “(2) the sum of—

23                   “(A) the kilowatt hours of electricity, plus  
24                   “(B) each 3,413 Btu of fuels or chemicals

1       produced by the taxpayer during such taxable year  
 2       at a qualifying advanced clean coal technology facil-  
 3       ity during the 10-year period beginning on the date  
 4       the facility was originally placed in service.

5       “(b) APPLICABLE AMOUNT.—For purposes of this  
 6       section, the applicable amount of advanced clean coal tech-  
 7       nology production credit with respect to production from  
 8       a qualifying advanced clean coal technology facility shall  
 9       be determined as follows:

10           “(1) Where the design coal has a heat content  
 11       of more than 8,000 Btu per pound:

12           “(A) In the case of a facility originally  
 13       placed in service before 2008, if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 8,400 .....	\$0.0050	\$0.0030
More than 8,400 but not more than 8,550 .....	\$0.0010	\$0.0010
More than 8,550 but not more than 8,750 .....	\$0.0005	\$0.0005

14           “(B) In the case of a facility originally  
 15       placed in service after 2007 and before 2012,  
 16       if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 7,770 .....	\$0.0090	\$0.0075
More than 7,770 but not more than 8,125 .....	\$0.0070	\$0.0050
More than 8,125 but not more than 8,350 .....	\$0.0060	\$0.0040

1                   “(C) In the case of a facility originally  
 2                   placed in service after 2011 and before 2015,  
 3                   if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 7,380 .....	\$0.0120	\$0.0090
More than 7,380 but not more than 7,720 .....	\$0.0095	\$0.0070.

4                   “(2) Where the design coal has a heat content  
 5                   of not more than 8,000 Btu per pound:

6                   “(A) In the case of a facility originally  
 7                   placed in service before 2008, if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 8,500 .....	\$0.0050	\$0.0030
More than 8,500 but not more than 8,650 .....	\$0.0010	\$0.0010
More than 8,650 but not more than 8,750 .....	\$0.0005	\$0.0005.

8                   “(B) In the case of a facility originally  
 9                   placed in service after 2007 and before 2012,  
 10                  if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 8,000 .....	\$0.0090	\$0.0075
More than 8,000 but not more than 8,250 .....	\$0.0070	\$0.0050
More than 8,250 but not more than 8,400 .....	\$0.0060	\$0.0040.

11                  “(C) In the case of a facility originally  
 12                  placed in service after 2011 and before 2015,  
 13                  if—

“The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not more than 7,800 .....	\$0.0120	\$0.0090

"The facility design net heat rate, Btu/kWh (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
More than 7,800 but not more than 7,950 .....	\$0.0095	\$0.0070.

1               “(3) Where the clean coal technology facility is  
 2               producing fuel or chemicals:

3               “(A) In the case of a facility originally  
 4               placed in service before 2008, if—

"The facility design net thermal efficiency (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not less than 40.6 percent .....	\$0.0050	\$0.0030
Less than 40.6 but not less than 40 percent .....	\$0.0010	\$0.0010
Less than 40 but not less than 39 percent .....	\$0.0005	\$0.0005.

5               “(B) In the case of a facility originally  
 6               placed in service after 2007 and before 2012,  
 7               if—

"The facility design net thermal efficiency (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not less than 43.9 percent .....	\$0.0090	\$0.0075
Less than 43.9 but not less than 42 percent .....	\$0.0070	\$0.0050
Less than 42 but not less than 40.9 percent .....	\$0.0060	\$0.0040.

8               “(C) In the case of a facility originally  
 9               placed in service after 2011 and before 2015,  
 10               if—

"The facility design net thermal efficiency (HHV) is equal to:	The applicable amount is:	
	For 1st 5 years of such service	For 2d 5 years of such service
Not less than 44.2 percent .....	\$0.0120	\$0.0090
Less than 44.2 but not less than 43.6 percent .....	\$0.0095	\$0.0070.

11               “(c) INFLATION ADJUSTMENT FACTOR.—For cal-  
 12 endar years after 2001, each amount in paragraphs (1),

1 (2), and (3) shall be adjusted by multiplying such amount  
2 by the inflation adjustment factor for the calendar year  
3 in which the amount is applied. If any amount as in-  
4 creased under the preceding sentence is not a multiple of  
5 0.01 cent, such amount shall be rounded to the nearest  
6 multiple of 0.01 cent.

7       “(d) DEFINITIONS AND SPECIAL RULES.—For pur-  
8 poses of this section—

9           “(1) IN GENERAL.—Any term used in this sec-  
10          tion which is also used in section 48B shall have the  
11          meaning given such term in section 48B.

12           “(2) APPLICABLE RULES.—The rules of para-  
13          graphs (3), (4), and (5) of section 45(d) and section  
14          48B(e) shall apply.

15           “(3) INFLATION ADJUSTMENT FACTOR.—The  
16          term ‘inflation adjustment factor’ means, with re-  
17          spect to a calendar year, a fraction the numerator  
18          of which is the GDP implicit price deflator for the  
19          preceding calendar year and the denominator of  
20          which is the GDP implicit price deflator for the cal-  
21          endar year 2000.

22           “(4) GDP IMPLICIT PRICE DEFLATOR.—The  
23          term ‘GDP implicit price deflator’ means the most  
24          recent revision of the implicit price deflator for the  
25          gross domestic product as computed by the Depart-

1       ment of Commerce before March 15 of the calendar  
2       year.”.

3       (b) CREDIT TREATED AS BUSINESS CREDIT.—Sec-  
4       tion 38(b), as amended by section 201(b), is amended by  
5       striking “plus” at the end of paragraph (14), by striking  
6       the period at the end of paragraph (15) and inserting “;  
7       plus”, and by adding at the end the following:

8               “(16) the qualifying advanced clean coal tech-  
9       nology production credit determined under section  
10       45G(a).”.

11       (c) TRANSITIONAL RULE.—Section 39(d) (relating to  
12       transitional rules), as amended by section 401(d), is  
13       amended by adding at the end the following:

14               “(14) NO CARRYBACK OF SECTION 45G CREDIT  
15       BEFORE EFFECTIVE DATE.—No portion of the un-  
16       used business credit for any taxable year which is  
17       attributable to the qualifying advanced clean coal  
18       technology production credit determined under sec-  
19       tion 45G may be carried back to a taxable year end-  
20       ing before the date of the enactment of section  
21       45G.”.

22       (d) CLERICAL AMENDMENT.—The table of sections  
23       for subpart D of part IV of subchapter A of chapter 1,  
24       as amended by section 201(g), is amended by adding at  
25       the end the following:

“See. 45G. Credit for production from qualifying advanced clean coal technology.”.

1       (e) EFFECTIVE DATE.—The amendments made by  
2 this section shall apply to production after the date of the  
3 enactment of this Act.

4 **SEC. 403. RISK POOL FOR QUALIFYING ADVANCED CLEAN**  
5 **COAL TECHNOLOGY.**

6       (a) ESTABLISHMENT.—The Secretary of the Treas-  
7 ury shall establish a financial risk pool which shall be  
8 available to any United States owner of a qualifying ad-  
9 vanced clean coal technology which has qualified for an  
10 advanced clean coal technology production credit (as de-  
11 fined in section 45G of the Internal Revenue Code of  
12 1986, as added by section 402) to offset for the first 3  
13 years of the operation of such technology the costs (not  
14 to exceed 5 percent of the total cost of installation) for  
15 modifications resulting from the technology’s failure to  
16 achieve its design performance.

17       (b) AUTHORIZATION OF APPROPRIATIONS.—There is  
18 authorized to be appropriated such sums as are necessary  
19 to carry out the purposes of this section.

## 1    **TITLE V—HEATING FUELS AND**

## 2                    **STORAGE.**

3 SEC. 501. FULL EXPENSING OF HOME HEATING OIL AND  
4 PROPANE STORAGE FACILITIES.

5 (a) IN GENERAL.—Section 179(b) (relating to limita-  
6 tions) is amended by adding at the end the following:

7                   “(5) FULL EXPENSING OF HOME HEATING OIL  
8                   AND PROPANE STORAGE FACILITIES.—Paragraphs  
9                   (1) and (2) shall not apply to section 179 property  
10                  which is any storage facility (not including a build-  
11                  ing or its structural components) used in connection  
12                  with the distribution of home heating oil or liquefied  
13                  petroleum gas.”.

14 (b) EFFECTIVE DATE.—The amendment made by  
15 this section shall apply to property placed in service on  
16 or after the date of the enactment of this Act.

17 SEC. 502. ARBITRAGE RULES NOT TO APPLY TO PREPAY-  
18 MENTS FOR NATURAL GAS AND OTHER COM-  
19 MODITIES.

20 (a) IN GENERAL.—Subsection (b) of section 148 (defining higher yielding investments) is amended by adding  
21 at the end the following:

23                   “(4) INVESTMENT PROPERTY NOT TO INCLUDE  
24                   CERTAIN PREPAYMENTS TO ENSURE COMMODITY  
25                   SUPPLY.—The term ‘investment property’ shall not

1 include a prepayment entered into for the purpose of  
2 obtaining a supply of a commodity reasonably ex-  
3 pected to be used in a business of one or more utili-  
4 ties each of which is owned and operated by a State  
5 or local government, any political subdivision or in-  
6 strumentality thereof, or any governmental unit act-  
7 ing for or on behalf of such a utility.”.

8 (b) EFFECTIVE DATE.—The amendment made by  
9 this section shall apply to obligations issued after the date  
10 of the enactment of this Act.

11 SEC. 503. PRIVATE LOAN FINANCING TEST NOT TO APPLY  
12 TO PREPAYMENTS FOR NATURAL GAS AND  
13 OTHER COMMODITIES.

14 (a) IN GENERAL.—Section 141(c)(2) (providing ex-  
15 ceptions to the private loan financing test) is amended by  
16 striking “or” at the end of subparagraph (A), by striking  
17 the period at the end of subparagraph (B) and inserting  
18 “, or”, and by adding at the end the following:

19                   “(C) arises from a transaction described in  
20                   section 148(b)(4).”.

21 (b) EFFECTIVE DATE.—The amendments made by  
22 this section shall apply to obligations issued after the date  
23 of the enactment of this Act.

# **TITLE VI—OIL AND GAS PRODUCTION**

3 SEC. 601. CREDIT FOR PRODUCTION OF RE-REFINED LU-  
4 BRICATING OIL.

5 (a) IN GENERAL.—Subpart D of part IV of sub-  
6 chapter A of chapter 1 (relating to business related cred-  
7 its), as amended by section 402(a), is amended by adding  
8 at the end the following:

9 "SEC. 45H. CREDIT FOR PRODUCING RE-REFINED LUBRI-  
10 CATING OIL.

11       “(a) GENERAL RULE.—For purposes of section 38,  
12 the re-refined lubricating oil production credit of any tax-  
13 payer for any taxable year is equal to \$4.05 per barrel  
14 of qualified re-refined lubricating oil production which is  
15 attributable to the taxpayer (within the meaning of section  
16 29(d)(3)).

17        "(b) QUALIFIED RE-REFINED LUBRICATING OIL  
18 PRODUCTION.—For purposes of this section—

19       “(1) IN GENERAL.—The term ‘qualified re-re-  
20       fined lubricating oil production’ means a base oil  
21       manufactured from at least 95 percent used oil and  
22       not more than 2 percent of previously unused oil by  
23       a re-refining process at a qualified facility which ef-  
24       fectively removes physical and chemical impurities  
25       and spent and unspent additives to the extent that

1 such base oil meets industry standards for engine oil  
2 as defined by the American Petroleum Institute doc-  
3 ument API 1509 as in effect on the date of the en-  
4 actment of this section.

5       “(2) LIMITATION ON AMOUNT OF PRODUCTION  
6 WHICH MAY QUALIFY.—Re-refined lubricating oil  
7 produced during any taxable year shall not be treat-  
8 ed as qualified re-refined lubricating oil production  
9 but only to the extent average daily production dur-  
10 ing the taxable year exceeds 7,000 barrels.

11       “(3) BARREL.—The term ‘barrel’ has the  
12 meaning given such term by section 613A(e)(4).

13       “(4) NONCOMPLIANCE WITH POLLUTION  
14 LAWS.—For purposes of paragraph (1), a facility  
15 which is not in compliance with the applicable State  
16 and Federal pollution prevention, control, and per-  
17 mit requirements for any period of time shall not be  
18 considered to be a qualified facility during such pe-  
19 riod.

20       “(c) INFLATION ADJUSTMENT.—In the case of any  
21 taxable year beginning in a calendar year after 2001, the  
22 dollar amount contained in subsection (a) shall be in-  
23 creased to an amount equal to such dollar amount multi-  
24 plied by the inflation adjustment factor for such calendar

1 year (determined under section 29(d)(2)(B) by sub-  
2 stituting '2000' for '1979').".

3 (b) CREDIT TREATED AS BUSINESS CREDIT.—Sec-  
4 tion 38(b) (relating to current year business credit), as  
5 amended by section 402(b), is amended by striking 'plus'  
6 at the end of paragraph (15), by striking the period at  
7 the end of paragraph (16), and inserting ',', plus', and by  
8 adding at the end the following:

9 "(17) the re-refined lubricating oil production  
10 credit determined under section 45H(a).".

11 (c) CLERICAL AMENDMENT.—The table of sections  
12 for subpart D of part IV of subchapter A of chapter 1,  
13 as amended by section 402(d), is amended by adding at  
14 the end the following:

"See. 45H. Credit for producing re-refined lubricating oil.".

15 (d) EFFECTIVE DATE.—The amendments made by  
16 this section shall apply to production after the date of the  
17 enactment of this Act.

18 **SEC. 602. OIL AND GAS FROM MARGINAL WELLS.**

19 (a) IN GENERAL.—Subpart D of part IV of sub-  
20 chapter A of chapter 1 (relating to business credits), as  
21 amended by section 601(a), is amended by adding at the  
22 end the following:

1   **“SEC. 45I. CREDIT FOR PRODUCING OIL AND GAS FROM**  
2                   **MARGINAL WELLS.**

3       “(a) GENERAL RULE.—For purposes of section 38,  
4   the marginal well production credit for any taxable year  
5   is an amount equal to the product of—

6               “(1) the credit amount, and  
7               “(2) the qualified credit oil production and the  
8   qualified natural gas production which is attrib-  
9   utable to the taxpayer.

10     “(b) CREDIT AMOUNT.—For purposes of this  
11  section—

12               “(1) IN GENERAL.—The credit amount is—

13               “(A) \$3 per barrel of qualified crude oil  
14  production, and

15               “(B) 50 cents per 1,000 cubic feet of  
16  qualified natural gas production.

17               “(2) REDUCTION AS OIL AND GAS PRICES IN-  
18  CREASE.—

19               “(A) IN GENERAL.—The \$3 and 50 cents  
20  amounts under paragraph (1) shall each be re-  
21  duced (but not below zero) by an amount which  
22  bears the same ratio to such amount (deter-  
23  mined without regard to this paragraph) as—

24               “(i) the excess (if any) of the applica-  
25  ble reference price over \$14 (\$1.56 for  
26  qualified natural gas production), bears to

1                             “(ii) \$3 (\$0.33 for qualified natural  
2                             gas production).

3                             The applicable reference price for a taxable  
4                             year is the reference price of the calendar year  
5                             preceding the calendar year in which the tax-  
6                             able year begins.

7                             “(B) INFLATION ADJUSTMENT.—In the  
8                             case of any taxable year beginning in a calendar  
9                             year after 2001, each of the dollar amounts  
10                            contained in subparagraph (A) shall be in-  
11                            creased to an amount equal to such dollar  
12                            amount multiplied by the inflation adjustment  
13                            factor for such calendar year (determined under  
14                            section 43(b)(3)(B) by substituting ‘2000’ for  
15                            ‘1990’).

16                             “(C) REFERENCE PRICE.—For purposes of  
17                             this paragraph, the term ‘reference price’  
18                             means, with respect to any calendar year—

19                             “(i) in the case of qualified crude oil  
20                             production, the reference price determined  
21                             under section 29(d)(2)(C), and

22                             “(ii) in the case of qualified natural  
23                             gas production, the Secretary’s estimate of  
24                             the annual average wellhead price per

1                   1,000 cubic feet for all domestic natural  
2                   gas.

3                “(c) QUALIFIED CRUDE OIL AND NATURAL GAS  
4 PRODUCTION.—For purposes of this section—

5                “(1) IN GENERAL.—The terms ‘qualified crude  
6                oil production’ and ‘qualified natural gas production’  
7                mean domestic crude oil or natural gas which is pro-  
8                duced from a qualified marginal well.

9                “(2) LIMITATION ON AMOUNT OF PRODUCTION  
10                WHICH MAY QUALIFY.—

11                “(A) IN GENERAL.—Crude oil or natural  
12                gas produced during any taxable year from any  
13                well shall not be treated or qualified crude oil  
14                production or qualified natural gas production  
15                to the extent production from the well during  
16                the taxable year exceeds 1,095 barrels or barrel  
17                equivalents.

18                “(B) PROPORTIONATE REDUCTIONS.—

19                “(i) SHORT TAXABLE YEARS.—In the  
20                case of a short taxable year, the limitations  
21                under this paragraph shall be proportion-  
22                ately reduced to reflect the ratio which the  
23                number of days in such taxable year bears  
24                to 365.

1                     “(ii) WELLS NOT IN PRODUCTION EN-  
2                     TIRE YEAR.—In the case of a well which is  
3                     not capable of production during each day  
4                     of a taxable year, the limitations under  
5                     this paragraph applicable to the well shall  
6                     be proportionately reduced to reflect the  
7                     ratio which the number of days of produc-  
8                     tion bears to the total number of days in  
9                     the taxable year.

10                   “(3) DEFINITIONS.—

11                   “(A) QUALIFIED MARGINAL WELL.—The  
12                     term ‘qualified marginal well’ means a domestic  
13                     well—

14                     “(i) the production from which during  
15                     the taxable year is treated as marginal  
16                     production under section 613A(c)(6), or

17                     “(ii) which, during the taxable year—

18                         “(I) has average daily production  
19                     of not more than 25 barrel equiva-  
20                     lents, and

21                         “(II) produces water at a rate  
22                     not less than 95 percent of total well  
23                     effluent.

24                   “(B) CRUDE OIL, ETC.—The terms ‘crude  
25                     oil’, ‘natural gas’, ‘domestic’, and ‘barrel’ have

1           the meanings given such terms by section  
2           613A(e).

3           “(C) BARREL EQUIVALENT.—The term  
4           ‘barrel equivalent’ means, with respect to nat-  
5           ural gas, a conversation ratio of 6,000 cubic  
6           feet of natural gas to 1 barrel of crude oil.

7           “(d) OTHER RULES.—

8           “(1) PRODUCTION ATTRIBUTABLE TO THE TAX-  
9           PAYER.—In the case of a qualified marginal well in  
10          which there is more than one owner of operating in-  
11          terests in the well and the crude oil or natural gas  
12          production exceeds the limitation under subsection  
13          (c)(2), qualifying crude oil production or qualifying  
14          natural gas production attributable to the taxpayer  
15          shall be determined on the basis of the ratio which  
16          taxpayer’s revenue interest in the production bears  
17          to the aggregate of the revenue interests of all oper-  
18          ating interest owners in the production.

19           “(2) OPERATING INTEREST REQUIRED.—Any  
20          credit under this section may be claimed only on  
21          production which is attributable to the holder of an  
22          operating interest.

23           “(3) PRODUCTION FROM NONCONVENTIONAL  
24          SOURCES EXCLUDED.—In the case of production  
25          from a qualified marginal well which is eligible for

1       the credit allowed under section 29 for the taxable  
2       year, no credit shall be allowable under this section  
3       unless the taxpayer elects not to claim the credit  
4       under section 29 with respect to the well.

5               “(4) NONCOMPLIANCE WITH POLLUTION  
6       LAWS.—For purposes of subsection (e)(3)(A), a  
7       marginal well which is not in compliance with the  
8       applicable State and Federal pollution prevention,  
9       control, and permit requirements for any period of  
10      time shall not be considered to be a qualified mar-  
11      ginal well during such period.”.

12               (b) CREDIT TREATED AS BUSINESS CREDIT.—Sec-  
13      tion 38(b), as amended by section 601(b), is amended by  
14      striking ‘plus’ at the end of paragraph (16), by striking  
15      the period at the end of paragraph (17) and inserting “,  
16      plus”, and by adding at the end the following:

17               “(18) the marginal oil and gas well production  
18      credit determined under section 45I(a).”.

19               (c) CREDIT ALLOWED AGAINST REGULAR AND MIN-  
20      IMUM TAX.—

21               (1) IN GENERAL.—Subsection (c) of section 38  
22      (relating to limitation based on amount of tax), as  
23      amended by section 201(d)(1), is amended by redes-  
24      ignating paragraph (4) as paragraph (5) and by in-  
25      serting after paragraph (3) the following:

1                   “(4) SPECIAL RULES FOR MARGINAL OIL AND  
2                   GAS WELL PRODUCTION CREDIT.—

3                   “(A) IN GENERAL.—In the case of the  
4                   marginal oil and gas well production credit—

5                   “(i) this section and section 39 shall  
6                   be applied separately with respect to the  
7                   credit, and

8                   “(ii) in applying paragraph (1) to the  
9                   credit—

10                   “(I) subparagraphs (A) and (B)  
11                   thereof shall not apply, and

12                   “(II) the limitation under para-  
13                   graph (1) (as modified by subclause  
14                   (I)) shall be reduced by the credit al-  
15                   lowed under subsection (a) for the  
16                   taxable year (other than the marginal  
17                   oil and gas well production credit).

18                   “(B) MARGINAL OIL AND GAS WELL PRO-  
19                   DUCTION CREDIT.—For purposes of this sub-  
20                   section, the term ‘marginal oil and gas well pro-  
21                   duction credit’ means the credit allowable under  
22                   subsection (a) by reason of section 45I(a).”.

23                   (2) CONFORMING AMENDMENTS.—Subclause  
24                   (II) of section 38(c)(2)(A)(ii), as amended by section  
25                   201(d)(2), and subclause (II) of section

1       38(c)(3)(A)(ii), as added by section 201(d)(1), are  
2       each amended by inserting “or the marginal oil and  
3       gas well production credit” after “home credit”.

4       (d) CARRYBACK.—Subsection (a) of section 39 (relat-  
5       ing to carryback and carryforward of unused credits gen-  
6       erally) is amended by adding at the end the following:

7               “(3) 10-YEAR CARRYBACK FOR MARGINAL OIL  
8       AND GAS WELL PRODUCTION CREDIT.—In the case  
9       of the marginal oil and gas well production credit—

10               “(A) this section shall be applied sepa-  
11       rately from the business credit (other than the  
12       marginal oil and gas well production credit),

13               “(B) paragraph (1) shall be applied by  
14       substituting ‘10 taxable years’ for ‘1 taxable  
15       years’ in subparagraph (A) thereof, and

16               “(C) paragraph (2) shall be applied—

17               “(i) by substituting ‘31 taxable years’  
18       for ‘21 taxable years’ in subparagraph (A)  
19       thereof, and

20               “(ii) by substituting ‘30 taxable years’  
21       for ‘20 taxable years’ in subparagraph (A)  
22       thereof.”.

23       (e) COORDINATION WITH SECTION 29.—Section  
24       29(a) is amended by striking “There” and inserting “At  
25       the election of the taxpayer, there”.

1       (f) CLERICAL AMENDMENT.—The table of sections  
2 for subpart D of part IV of subchapter A of chapter I,  
3 as amended by section 601(c), is amended by adding at  
4 the end the following:

“Sec. 45I. Credit for producing oil and gas from marginal wells.”.

5       (g) EFFECTIVE DATE.—The amendments made by  
6 this section shall apply to production in taxable years be-  
7 ginning after December 31, 2001.

8 **SEC. 603. DEDUCTION FOR DELAY RENTAL PAYMENTS.**

9       (a) IN GENERAL.—Section 263 (relating to capital  
10 expenditures) is amended by adding at the end the fol-  
11 lowing:

12       “(j) DELAY RENTAL PAYMENTS FOR DOMESTIC OIL  
13 AND GAS WELLS.—

14           “(1) IN GENERAL.—Notwithstanding subsection  
15 (a), a taxpayer may elect to treat delay rental pay-  
16 ments incurred in connection with the development  
17 of oil or gas within the United States (as defined in  
18 section 638) as payments which are not chargeable  
19 to capital account. Any payments so treated shall be  
20 allowed as a deduction in the taxable year in which  
21 paid or incurred.

22           “(2) DELAY RENTAL PAYMENTS.—For purposes  
23 of paragraph (1), the term ‘delay rental payment’  
24 means an amount paid for the privilege of deferring

1 development of an oil or gas well under an oil or gas  
2 lease.”.

3 (b) CONFORMING AMENDMENT.—Section 263A(c)(3)  
4 is amended by inserting “263(j),” after ‘263(i),’.

5 (c) EFFECTIVE DATE.—The amendments made by  
6 this section shall apply to amounts paid or incurred in tax-  
7 able years beginning after December 31, 2001.

8 **SEC. 604. ELECTION TO EXPENSE GEOLOGICAL AND GEO-  
9 PHYSICAL EXPENDITURES.**

10 (a) IN GENERAL.—Section 263 (relating to capital  
11 expenditures), as amended by section 603(a), is amended  
12 by adding at the end the following:

13 “(k) GEOLOGICAL AND GEOPHYSICAL EXPENDI-  
14 TURES FOR DOMESTIC OIL AND GAS WELLS.—Notwith-  
15 standing subsection (a), a taxpayer may elect to treat geo-  
16 logical and geophysical expenses incurred in connection  
17 with the exploration for, or development of, oil or gas with-  
18 in the United States (as defined in section 638) as ex-  
19 penses which are not chargeable to capital account. Any  
20 expenses so treated shall be allowed as a deduction in the  
21 taxable year in which paid or incurred.”.

22 (b) CONFORMING AMENDMENT.—Section  
23 263A(c)(3), as amended by section 603(b), is amended by  
24 inserting “263(k),” after “263(j),”.

1       (c) EFFECTIVE DATE.—The amendments made by  
2 this section shall apply to costs paid or incurred in taxable  
3 years beginning after December 31, 2001.

4 **SEC. 605. GAS PIPELINES TREATED AS 7-YEAR PROPERTY.**

5       (a) IN GENERAL.—Subparagraph (C) of section  
6 168(e)(3) (relating to classification of certain property),  
7 as amended by section 304(a)(1), is amended by striking  
8 “and” at the end of clause (iii), by redesignating clause  
9 (iv) as clause (v), and by inserting after clause (iii) the  
10 following:

11                   “(iv) any gas pipeline, and”.

12       (b) GAS PIPELINE.—Subsection (i) of section 168, as  
13 amended by section 304(b), is amended by adding at the  
14 end the following:

15                   “(17) GAS PIPELINE.—The term ‘gas pipeline’  
16 means the pipe, storage facilities, equipment, dis-  
17 tribution infrastructure, and appurtenances used to  
18 deliver natural gas.”

19       (c) EFFECTIVE DATE.—

20       (1) IN GENERAL.—The amendments made by  
21 this section shall apply to property placed in service  
22 on or after the date of the enactment of this Act.

23       (2) ACCOUNTING RULE FOR PUBLIC UTILITY  
24 PROPERTY.—If any gas pipeline is public utility  
25 property (as defined in section 46(f)(5) of the Inter-

1       nal Revenue Code of 1986, as in effect on the day  
2       before the date of the enactment of the Revenue  
3       Reconciliation Act of 1990), the amendments made  
4       by this section shall only apply to such property if,  
5       with respect to such property, the taxpayer uses a  
6       normalization method of accounting.

7       **SEC. 606. CRUDE OIL AND NATURAL GAS DEVELOPMENT**

8                   **CREDIT.**

9       (a) IN GENERAL.—Subpart D of part IV of sub-  
10      chapter A of chapter 1 (relating to business related cred-  
11      its), as amended by section 602(a), is amended by adding  
12      at the end the following:

13      **“SEC. 45J. CRUDE OIL AND NATURAL GAS DEVELOPMENT**

14                   **CREDIT.**

15       “(a) IN GENERAL.—For purposes of section 38, the  
16      crude oil and natural gas development credit determined  
17      under this section for any taxable year shall be an amount  
18      equal to the taxpayer’s qualified investment for the taxable  
19      year.

20       “(b) REDUCTION AS OIL AND GAS PRICES IN-  
21      CREASE.—

22       “(1) IN GENERAL.—The amount which would  
23      (but for this subsection) be taken into account under  
24      subsection (a) for the taxable year shall be reduced  
25      (but not below zero) by an amount which bears the

1 same ratio to such amount (determined without re-  
2 gard to this subsection) as—

3 “(A) the excess (if any) of the applicable  
4 reference price over \$11, bears to

5 “(B) \$3.

6 The applicable reference price for a taxable  
7 year is the reference price of the calendar year  
8 preceding the calendar year in which the tax-  
9 able year begins.

10 “(2) INFLATION ADJUSTMENT.—In the case of  
11 any taxable year beginning in a calendar year after  
12 2001, each of the dollar amounts contained in para-  
13 graph (1) shall be increased to an amount equal to  
14 such dollar amount multiplied by the inflation ad-  
15 justment factor for such calendar year (determined  
16 under section 43(b)(3)(B) by substituting ‘2000’ for  
17 ‘1990’).

18 “(3) REFERENCE PRICE.—For purposes of this  
19 subsection, the term ‘reference price’ means, with re-  
20 spect to any calendar year, the reference price deter-  
21 mined under section 29(d)(2)(C).

22 “(c) QUALIFIED INVESTMENT.—For purposes of this  
23 section, the term ‘qualified investment’ means amounts  
24 paid or incurred—

1           “(1) for the purpose of drilling and equipping  
2        crude oil and natural gas wells (including pollution  
3        control equipment used in connection with such  
4        wells), or

5           “(2) for the purpose of performing secondary or  
6        tertiary recovery techniques,

7    on properties located within the United States (as defined  
8    in section 638), but only to the extent that the expenditure  
9    is not taken into account for purposes of a credit under  
10   any other section.

11       “(d) SPECIAL RULES.—For purposes of this  
12    section—

13           “(1) AGGREGATION OF QUALIFIED INVESTMENT  
14        EXPENSES.—

15           “(A) CONTROLLED GROUPS; COMMON CON-  
16        TROL.—In determining the amount of the cred-  
17        it under this section, all members of the same  
18        controlled group of corporations (within the  
19        meaning of section 52(a)) and all persons under  
20        common control (within the meaning of section  
21        52(b)) shall be treated as a single taxpayer for  
22        purposes of this section.

23           “(B) APPORTIONMENT OF CREDIT.—The  
24        credit (if any) allowable by this section to mem-  
25        bers of any group (or to any person) described

1           in subparagraph (A) shall be such member's or  
2           person's proportionate share of the qualified in-  
3           vestment expenses giving rise to the credit de-  
4           termined under regulations prescribed by the  
5           Secretary.

6           “(2) PARTNERSHIPS, S CORPORATIONS, ES-  
7           TATES AND TRUSTS.—

8           “(A) PARTNERSHIPS AND S CORPORA-  
9           TIONS.—In the case of a partnership, the credit  
10           shall be allocated among partners under regula-  
11           tions prescribed by the Secretary. A similar rule  
12           shall apply in the case of an S corporation and  
13           its shareholders.

14           “(B) PASS-THRU IN THE CASE OF ES-  
15           TATES AND TRUSTS.—Under regulations pre-  
16           scribed by the Secretary, rules similar to the  
17           rules of subsection (d) of section 52 shall apply.

18           “(3) ADJUSTMENTS FOR CERTAIN ACQUISI-  
19           TIONS AND DISPOSITIONS.—Under regulations pre-  
20           scribed by the Secretary, rules similar to the rules  
21           contained in section 41(f)(3) shall apply with respect  
22           to the acquisition or disposition of a taxpayer.

23           “(4) SHORT TAXABLE YEARS.—In the case of  
24           any short taxable year, qualified investment expenses  
25           shall be annualized in such circumstances and under

1 such methods as the Secretary may prescribe by reg-  
2 ulation.

3 “(5) DENIAL OF DOUBLE BENEFIT.—

4 “(A) DISALLOWANCE OF DEDUCTION.—

5 Any deduction allowable under this chapter for  
6 any costs taken into account in computing the  
7 amount of the credit determined under sub-  
8 section (a) shall be reduced by the amount of  
9 such credit attributable to such costs.

10 “(B) BASIS ADJUSTMENTS.—For purposes  
11 of this subtitle, if a credit is determined under  
12 this section for any expenditure with respect to  
13 any property, the increase in the basis of such  
14 property which would (but for this subsection)  
15 result from such expenditures shall be reduced  
16 by the amount of the credit so allowed.”.

17 (b) CREDIT TREATED AS BUSINESS CREDIT.—Sec-  
18 tion 38(b), as amended by section 602(b), is amended by  
19 striking “plus” at the end of paragraph (17), by striking  
20 the period at the end of paragraph (18) and inserting  
21 “, plus”, and by adding at the end the following:

22 “(19) the crude oil and natural gas develop-  
23 ment credit determined under section 45J(a).”.

1       (c) TRANSITIONAL RULE.—Section 39(d) (relating to  
2 transitional rules), as amended by section 402(c), is  
3 amended by adding at the end the following:

4               “(15) NO CARRYBACK OF SECTION 45J CREDIT  
5 BEFORE EFFECTIVE DATE.—No portion of the un-  
6 used business credit for any taxable year which is  
7 attributable to the crude oil and natural gas develop-  
8 ment credit determined under section 48J may be  
9 carried back to a taxable year ending before January  
10 1, 2002.”.

11       (d) CREDIT ALLOWED AGAINST REGULAR AND MIN-  
12 IMUM TAX.—

13               (1) IN GENERAL.—Subsection (c) of section 38  
14 (relating to limitation based on amount of tax), as  
15 amended by section 602(c)(1), is amended by redes-  
16 ignating paragraph (5) as paragraph (6) and by in-  
17 serting after paragraph (4) the following:

18               “(5) SPECIAL RULES FOR CRUDE OIL AND NAT-  
19 URAL GAS DEVELOPMENT CREDIT.—

20               “(A) IN GENERAL.—In the case of the  
21 crude oil and natural gas development credit—  
22               “(i) this section and section 39 shall  
23 be applied separately with respect to the  
24 credit, and

1                             “(ii) in applying paragraph (1) to the  
2                             credit—

3                             “(I) subparagraphs (A) and (B)  
4                             thereof shall not apply, and

5                             “(II) the limitation under para-  
6                             graph (1) (as modified by subclause  
7                             (I)) shall be reduced by the credit al-  
8                             lowed under subsection (a) for the  
9                             taxable year (other than the crude oil  
10                             and natural gas development credit).

11                             “(B) CRUDE OIL AND NATURAL GAS DE-  
12                             VELOPMENT CREDIT.—For purposes of this  
13                             subsection, the term ‘crude oil and natural gas  
14                             development credit’ means the credit allowable  
15                             under subsection (a) by reason of section  
16                             45J(a).”.

17                             (2) CONFORMING AMENDMENTS.—Subclause  
18                             (II) of section 38(c)(2)(A)(ii) and subclause (II) of  
19                             section 38(c)(3)(A)(ii), as amended by section  
20                             602(c)(2), and subclause (II) of section  
21                             38(c)(4)(A)(ii), as added by section 602(c)(1), are  
22                             each amended by inserting “or the crude oil and  
23                             natural gas development credit” after “well produc-  
24                             tion credit”.

1 (e) CLERICAL AMENDMENT.—The table of sections  
2 for subpart D of part IV of subchapter A of chapter 1,  
3 as amended by section 602(f), is amended by adding at  
4 the end the following:

“Sec. 45J. Crude oil and natural gas development credit.”.

5 (f) EFFECTIVE DATE.—The amendments made by  
6 this section shall apply to expenditures paid or incurred  
7 in taxable years beginning after December 31, 2001.

8 SEC. 607. CREDIT FOR CAPTURE OF COALMINE METHANE  
9 GAS.

10 (a) IN GENERAL.—Subpart D of part IV of sub-  
11 chapter A of chapter 1 (relating to business related cred-  
12 its), as amended by section 606(a), is amended by adding  
13 at the end the following:

#### 14 "SEC. 45K. CAPTURE OF COALMINE METHANE GAS.

15       “(a) IN GENERAL.—For purposes of section 38, the  
16 coalmine methane gas capture credit of any taxpayer for  
17 any taxable year is \$1.21 for 1,000,000 Btu of coalmine  
18 methane gas captured by the taxpayer and utilized as a  
19 fuel source or sold by or on behalf of the taxpayer to an  
20 unrelated person during such taxable year (within the  
21 meaning of section 45).

22        "(b) COALMINE METHANE GAS.—For purposes of  
23 this section, the term 'coalmine methane gas' means any  
24 methane gas which is being liberated, or would be liber-  
25 ated, during qualified coal mining operations or as a result

1 of past qualified coal mining operations, or which is ex-  
2 tracted up to 10 years in advance of qualified coal mining  
3 operations as part of specific plan to mine a coal deposit.

4       “(c) SPECIAL RULE FOR ADVANCED EXTRACTION.—  
5 In the case of coalmine methane gas which is captured  
6 in advance of qualified coal mining operations, the credit  
7 under subsection (a) shall be allowed only after the date  
8 the coal extraction occurs in the immediate area where the  
9 coalmine methane gas was removed.

10       “(d) NONCOMPLIANCE WITH POLLUTION LAWS.—For  
11 purposes of subsections (b) and (c), coal mining operations  
12 which are not in compliance with the applicable State and  
13 Federal pollution prevention, control, and permit require-  
14 ments for any period of time shall not be considered to  
15 be qualified coal mining operations during such period.

16       “(e) APPLICATION OF RULES.—For purposes of this  
17 section, rules similar to the rules of paragraphs (3), (4),  
18 and (5) of section 45(d) shall apply.”.

19       (b) CREDIT TREATED AS BUSINESS CREDIT.—Sec-  
20 tion 38(b), as amended by section 606(b), is amended by  
21 striking “plus” at the end of paragraph (18), by striking  
22 the period at the end of paragraph (19) and inserting  
23 “, plus”, and by adding at the end the following:

24       “(20) the coalmine methane gas capture credit  
25 determined under section 45K(a).”.

1 (c) CLERICAL AMENDMENT.—The table of sections  
2 for subpart D of part IV of subchapter A of chapter 1,  
3 as amended by section 606(c), is amended by adding at  
4 the end the following:

“Sec. 45K. Capture of coalmine methane gas.”.

5 (d) EFFECTIVE DATE.—The amendments made by  
6 this section shall apply to the capture of coalmine methane  
7 gas after the date of the enactment of this Act.

8 SEC. 608. ALLOCATION OF ALCOHOL FUELS CREDIT TO  
9 PATRONS OF A COOPERATIVE.

10 (a) IN GENERAL.—Section 40(d) (relating to alcohol  
11 used as fuel) is amended by adding at the end the fol-  
12 lowing:

15                         “(A) IN GENERAL.—In the case of a coop-  
16                         erative organization described in section  
17                         1381(a), any portion of the credit determined  
18                         under subsection (a)(3) for the taxable year  
19                         may, at the election of the organization made  
20                         on a timely filed return (including extensions)  
21                         for such year, be apportioned pro rata among  
22                         patrons of the organization on the basis of the  
23                         quantity or value of business done with or for  
24                         such patrons for the taxable year. Such an elec-

3                             “(B) TREATMENT OF ORGANIZATIONS AND  
4                             PATRONS.—The amount of the credit appor-  
5                             tioned to patrons pursuant to subparagraph  
6                             (A)—

1           taxable year shall be treated as an increase in  
2           tax imposed by this chapter on the organiza-  
3           tion. Any such increase shall not be treated as  
4           tax imposed by this chapter for purposes of de-  
5           termining the amount of any credit under this  
6           subpart or subpart A, B, E, or G of this part.”.

7           (b) TECHNICAL AMENDMENT.—Section 1388 (relat-  
8           ing to definitions and special rules for cooperative organi-  
9           zations) is amended by adding at the end the following:

10           “(k) CROSS REFERENCE.—For provisions relating to  
11           the apportionment of the alcohol fuels credit between coop-  
12           erative organizations and their patrons, see section  
13           40(d)(6).”.

14           (c) EFFECTIVE DATE.—The amendments made by  
15           this section shall apply to taxable years beginning after  
16           December 31, 2001.

17 **SEC. 609. EXTENSION OF CREDIT FOR PRODUCING FUEL**  
18 **FROM A NONCONVENTIONAL SOURCE.**

19           (a) INCLUSION OF ALASKA NATURAL GAS.—Section  
20           29(c)(1) (defining qualified fuels) is amended by striking  
21           “and” at the end of subparagraph (B)(ii), by striking the  
22           period at the end of subparagraph (C) and inserting “,  
23           and”, and by adding at the end the following:

24           “(D) Alaska natural gas.”.

1       (b) DEFINITION.—Section 29(c) is amended by add-  
2       ing at the end the following:

3               “(4) ALASKA NATURAL GAS.—The term ‘Alaska  
4       natural gas’ means gas produced in compliance with  
5       the applicable State and Federal pollution preven-  
6       tion, control, and permit requirements from the area  
7       generally known as the North Slope of Alaska (in-  
8       cluding the continental shelf thereof within the  
9       meaning of section 638(1)), determined without re-  
10      gard to the area of the Alaska National Wildlife Ref-  
11      uge (including the continental shelf thereof within  
12      the meaning of section 638(1)).”.

13       (c) AMOUNT OF CREDIT.—

14               (1) IN GENERAL.—Section 29(a)(1) (relating to  
15       allowance of credit) is amended by inserting “(\$1.45  
16       in the case of a qualified fuel described in subsection  
17       (c)(1)(D))” after “\$3”.

18               (2) CONFORMING AMENDMENTS.—

19               (A) Section 29(b)(2) is amended by strik-  
20       ing “The \$3 amount” and inserting “The \$3  
21       and \$1.45 amounts”.

22               (B) Section 29(d)(2)(B) is amended by in-  
23       serting “(calendar year 2001 in the case of the  
24       \$1.45 amount in subsection (a)(1))” after  
25       “1979”.

1       (d) EXTENSION OF CREDIT.—Section 29(g) (relating  
2 to extension for certain facilities) is amended by adding  
3 at the end the following:

4               “(3) SPECIAL RULE FOR ALASKA NATURAL GAS  
5               WELLS.—In the case of a well for producing quali-  
6               fied fuel described in subsection (c)(1)(D)—

7                       “(A) for purposes of subsection (f)(1)(A),  
8                       such well shall be treated as being placed in  
9                       service before January 1, 1993, if such well is  
10                       placed in service before January 1, 2009, and  
11                       “(B) subsection (f)(2) shall be applied with  
12                       respect to such well by substituting ‘after De-  
13                       cember 31, 2001, and before January 1, 2009’  
14                       for ‘before January 1, 2003’.”.

15       (e) EFFECTIVE DATE.—The amendments made by  
16 this section shall apply to taxable years ending after De-  
17 cember 31, 2001.
