1 *Be it enacted by the Senate and House of Representa-*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “California Wild Herit-
5 age Act of 2002”.

6 **SEC. 2. FINDINGS.**

7 (a) The Congress finds and declares that—

1 (1) the publically owned lands and rivers of
2 California are a wildland resource of extraordinary
3 value for this and future generations;

4 (2) increasing pressure from California's rap-
5 idly growing population threatens to irrevocably
6 harm these remaining wild areas and wild rivers;

7 (3) statutory protection is needed for these
8 areas to ensure that they remain a part of our nat-
9 ural heritage and continue to be a source of solitude
10 and inspiration for all Americans;

11 (4) continuation of military activities, including
12 overflights, military maneuvers, testing and evalua-
13 tion, and other activities without limit to frequency
14 is not incompatible with the protection and proper
15 management of the wilderness and wild and scenic
16 river resources designated by this Act;

17 (5) wildfire management activities necessary to
18 protect public health and safety and private property
19 are fully allowable in wilderness areas and the Sec-
20 retary may take any measures deemed necessary to
21 control or prevent fires; and

22 (6) these lands shall be included in the National
23 Wilderness Preservation System and the National
24 Wild and Scenic Rivers System, in order to—

1 (A) preserve the unique wild and natural
2 features of these landscapes;

3 (B) protect a diverse array of ecosystems,
4 plants, animals, geologic structures, and hydro-
5 logic features that represent the natural splen-
6 dor of California;

7 (C) protect and preserve historical and cul-
8 tural archaeological sites associated with an-
9 cient Indian cultures and the settlement of Cali-
10 fornia;

11 (D) protect and preserve areas that con-
12 tinue to be used by Indian Tribes for spiritual,
13 cultural, or subsistence practices;

14 (E) protect watersheds, including those
15 that play an essential role in providing munic-
16 ipal and agricultural water supplies;

17 (F) provide opportunities for compatible
18 outdoor recreation, including horseback riding
19 on saddle and pack stock, hunting and fishing,
20 hiking and camping, whitewater rafting, trail
21 running, and excursions led by commercial out-
22 fitters;

23 (G) retain and enhance opportunities for
24 scientific research in pristine ecosystems; and

1 (H) promote the recovery of threatened
2 and endangered species, including salmon and
3 steelhead.

6 rights, the wilderness areas designated by this Act
7 shall be administered by the Secretary of the Inte-
8 rior or the Secretary of Agriculture (hereinafter re-
9 ferred to as the “Secretary”), whichever has admin-
10 istrative jurisdiction over the area, in accordance
11 with the provisions of the Wilderness Act governing
12 areas designated by that Act as wilderness, except
13 that any reference in such provisions to the effective
14 date of the Wilderness Act (or any similar reference)
15 shall be deemed to be a reference to the date of en-
16 actment of this Act.

17 (b) MAP AND LEGAL DESCRIPTION.—As soon
18 as practicable, but not later than three years after
19 enactment of this Act, the Secretary shall file a map
20 and a legal description of each wilderness area des-
21 ignated in this title with the Committee on Energy
22 and Natural Resources of the United States Senate
23 and the Committee on Resources of the United
24 States House of Representatives. Such map and de-
25 scription shall have the same force and effect as if

1 included in this title, except that the correction of
2 clerical and typographical errors in such legal de-
3 scription may be made. Copies of such map and
4 legal description shall be on file and available for
5 public inspection in the Office of the Secretary with
6 jurisdiction over the relevant wilderness areas.

9 whether the authority to take whatever appropriate
10 actions are necessary for fire management shall be

3 installation and maintenance of hydrologic, meteorolo-
4 gic, or climatological devices or facilities and com-
5 munication equipment associated with such devices,
6 or any combination of the foregoing, or limited mo-
7 torized access to such facilities when non-motorized
8 access means are not reasonably available or when
9 time is of the essence, where such facilities or access
10 are essential to flood warning, flood control, water
11 supply forecasting, or reservoir operation purposes.

12 (h) MILITARY ACTIVITIES.—Nothing in this Act shall
13 preclude or restrict low level overflights of military aircraft
14 and air vehicles, testing and evaluation, the designation
15 of new units of special use airspace, or the use or estab-

2 recognition of the past use of wilderness areas designated
3 under this Act by Indian people for traditional cultural
4 and religious purposes, the Secretary shall ensure access
5 to such wilderness areas by Indian people for such tradi-
6 tional cultural and religious purposes. In implementing
7 this section, the Secretary, upon the request of an Indian
8 tribe or Indian religious community, shall temporarily
9 close to the general public use of one or more specific por-
10 tions of the wilderness area in order to protect the privacy
11 of traditional cultural and religious activities in such areas
12 by Indian people. Any such closure shall be made to affect
13 the smallest practicable area for the minimum period nec-

21 consistent with this Act and section 4(d)(5) of the Wilder-
22 ness Act.

23 (p) NO BUFFER ZONES.—The Congress does not in-
24 tend for the designation of wilderness areas in the State
25 of California pursuant to this Act to lead to the creation

1 of protective perimeters or buffer zones around any such
 2 wilderness areas. The fact that nonwilderness activities or
 3 uses can be seen or heard from areas within a wilderness
 4 shall not, of itself, preclude such activities or uses up to
 5 the boundary of the wilderness area.

6 (q) WATER RESOURCES PROJECTS.—Nothing in this
 7 Act shall preclude relicensing of, assistance to, or oper-
 8 ation and maintenance of, developments below or above
 9 a wilderness area or on any stream tributary thereto which
 10 will not invade the area or unreasonably diminish the ex-
 11 isting wilderness, scenic, recreational, and fish and wildlife
 12 values present in the area as of the date of enactment
 13 of this Act.

14 **SEC. 103. DESIGNATION OF SALMON RESTORATION AREAS.**

15 (a) FINDINGS.—The Congress finds and declares
 16 that—

17 (1) once magnificent salmon and steelhead runs
 18 throughout the State of California have generally ex-
 19 perienceed severe declines resulting in the listing of
 20 these runs as threatened and endangered under both
 21 State and Federal law;

22 (2) economically important commercial, rec-
 23 reational, and Tribal salmon and steelhead fisheries
 24 have collapsed in many parts of the State leading to

1 economic crises for many fishing-dependent commu-
2 nities;

3 (3) salmon and steelhead are essential to the
4 spiritual and cultural practices of many Tribes in
5 California and these Tribes have suffered as a result
6 of the decline in salmon and steelhead runs through-
7 out the State;

8 (4) habitat protection is an essential component
9 in the recovery of endangered salmon and steelhead
10 in sustainable, harvestable levels; and

11 (5) certain pristine areas in the State warrant
12 special protection because they offer vital, irreplace-
13 able habitat for salmon and steelhead.

14 (b) The following public lands in the State of Cali-
15 fornia are hereby designated Salmon Restoration Area:

16 (1) Certain lands in the Shasta-Trinity Na-

7 dated May 2002, and which shall be known as the
8 South Fork Trinity Salmon Restoration Area.

9 (c) MANAGEMENT.—The Salmon Restoration Areas
10 shall be reviewed by the Secretary as to their suitability
11 for designation as wilderness. Until Congress acts on the
12 suitability of these areas for wilderness, the Salmon Res-
13 toration Areas shall be managed to promote the restora-
14 tion of self-sustaining salmon and steelhead populations.
15 The Secretary shall submit the report and findings to the
16 President, and the President shall submit a recommenda-
17 tion to the United States Senate and United States House
18 of Representatives no later than three years from the date
19 of enactment of this Act. Subject to valid existing rights,
20 the Salmon Restoration Areas designated by this section
21 shall be administered by the Secretary so as to maintain
22 their presently existing wilderness character and potential
23 for inclusion in the National Wilderness Preservation Sys-
24 tem. The use of mechanized transport or motorized equip-
25 ment shall be based on the selection of the minimum tool

1 or administrative practice necessary to accomplish the
2 purpose of maximum salmon habitat protection with the
3 least amount of adverse impact on wilderness character
4 and resources.
