

108TH CONGRESS  
1ST SESSION

# H. R. 1743

To allow applications for the preferred provider organization (PPO)  
demonstration project under the Medicare+Choice program.

---

## IN THE HOUSE OF REPRESENTATIVES

APRIL 10, 2003

Mr. LEACH (for himself and Mr. LATHAM) introduced the following bill; which was referred to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

## A BILL

To allow applications for the preferred provider organization  
(PPO) demonstration project under the  
Medicare+Choice program.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Iowa Medicare PPO  
5 Demonstration Act of 2003”.

6 **SEC. 2. FINDINGS AND PURPOSE.**

7 (a) FINDINGS.—Congress finds the following:

1           (1) When the reimbursement system under the  
2 Medicare program, which evolved into the Prospec-  
3 tive Payment System, was created in 1965, Iowa  
4 had pioneered in cost containment techniques and  
5 therefore received lower initial reimbursement rates.  
6 As inflation adjustments occurred over the years, the  
7 differential between reimbursement rates in the var-  
8 ious states widened even though many medical costs  
9 are themselves similar.

10           (2) Despite the fact that Iowa ranks first  
11 among all states in percent of citizens over 85, and  
12 fourth in citizens over 65, Medicare beneficiaries in  
13 Iowa access the health care system less frequently  
14 and experience shorter hospitalizations than resi-  
15 dents of many other States.

16           (3) The inflation in general health care costs  
17 for which Iowa has been relatively undercom-  
18 pensated coupled with the unique problems of serv-  
19 ing a disproportionately aging population in a decen-  
20 tralized rural setting has created a crisis for Iowa's  
21 health care providers and the Medicare beneficiaries  
22 they serve.

23           (4) The inequity inherent in the Medicare reim-  
24 bursement differential is symbolized by the fact that  
25 Medicare reimbursements per beneficiary for Iowa is

1       \$3414, the lowest in the nation, while the figure for  
2       Louisiana, the highest, is \$8033, or about two and  
3       one half times as great.

4           (5) The average cost of living in the two states  
5       taken as a percent of that in the entire United  
6       States, by contrast, is almost the same, 92.5 for  
7       Iowa and 97.4 for Louisiana.

8           (6) If the inequity in Medicare reimbursements  
9       did not exist, the modest cost of living differential  
10      which exists between Iowa and states such as Lou-  
11      isiana would be even closer than indicated by the  
12      statistics described in paragraph (5) because health  
13      care spending represents approximately 12 percent  
14      of the Gross Domestic Product (GDP), and when an  
15      entitlement program of Federal government, such as  
16      the Medicare program, provides disproportionately  
17      more resources to individuals in one State over an-  
18      other State, generalized economic, and specific  
19      health care cost, differentials occur.

20          (7) Because of low Medicare rates, Iowa coun-  
21      ties, particularly but not exclusively the smaller  
22      ones, are experiencing shortages of doctors and  
23      other health care providers, which in the near future  
24      could cause a significant access to health care crisis  
25      for many Iowa citizens.

1           (8) All citizens pay into Social Security under  
2 a uniform set of national standards.

3           (9) Simple fairness and equity in the delivery of  
4 government services dictate that the differences in  
5 Medicare reimbursement received by each of the sev-  
6 eral States should not fall far below the differences  
7 in the cost of living therein.

8           (10) Low payment rates and a shortage of pro-  
9 viders discourage Medicare+Choice organizations  
10 from offering plans in rural areas, and this unavail-  
11 ability of a Medicare+Choice option in such areas is  
12 unfair to Medicare residents who would like to take  
13 advantage of the additional services and other bene-  
14 fits offered through Medicare+Choice plans.

15           (11) In order to encourage the establishment of  
16 Medicare+Choice plans in rural States, the Medi-  
17 care program needs to provide incentives to States,  
18 insurers, and other entities interested in sponsoring  
19 Medicare+Choice plans in such States. Given Iowa's  
20 low Medicare reimbursement rate, it is unlikely that  
21 any new health care delivery model can attract suffi-  
22 cient providers unless current Medicare fee-for-serv-  
23 ice payment rates for those providers are exceeded.

24           (12) Preferred provider organizations are  
25 uniquely positioned to provide improved care man-

1       agement and clinical outcomes in part due to the  
2       wide-ranging involvement of health care profes-  
3       sionals at each stage of a patient-oriented care proc-  
4       ess.

5               (13) State governments should be encouraged  
6       to support and, where appropriate, oversee the es-  
7       tablishment of organizations which make available  
8       health care services to individuals residing in under-  
9       served areas in the State.

10       (b) PURPOSE.—In order to insure that Iowa’s health  
11       care facilities and providers have access to the most inno-  
12       vative reimbursement options available under the Medi-  
13       care program, the Secretary of Health and Human Serv-  
14       ices may approve a demonstration project to test ways in  
15       which cooperative efforts among insurers, institutional  
16       providers of services, and health care professionals may  
17       provide better access to health care services for Medicare  
18       beneficiaries. The demonstration project would be de-  
19       signed to improve access to health care services through  
20       the Medicare+Choice program.

1 **SEC. 3. CONSIDERATION OF APPLICATIONS FOR THE PRE-**  
2 **FERRED PROVIDER ORGANIZATION (PPO)**  
3 **DEMONSTRATION PROJECT UNDER THE**  
4 **MEDICARE+CHOICE PROGRAM.**

5 (a) IN GENERAL.—The Secretary of Health and  
6 Human Services shall allow the receipt and approval of  
7 applications described in subsection (b) for a demonstra-  
8 tion project conducted under section 402 of the Social Se-  
9 curity Amendments of 1967 for participation of preferred  
10 provider organizations (PPOs) under the  
11 Medicare+Choice program under part C of title XVIII of  
12 the Social Security Act, with the understanding that the  
13 demonstration program could cause Medicare reimburse-  
14 ment in Iowa to rise to a level more in line with the aver-  
15 age national Medicare reimbursement rate.

16 (b) APPLICATION DESCRIBED.—

17 (1) IN GENERAL.—An application described in  
18 this subsection is an application by an appropriate  
19 insurer domiciled and licensed to sell health insur-  
20 ance or health benefits coverage in the State of Iowa  
21 (which for purposes of this project shall include the  
22 Illinois, as well as the Iowa, parts of the “Quad Cit-  
23 ies”) to offer a Medicare+Choice plan in that State  
24 that meets the requirements described in paragraph  
25 (2).

1           (2) ANNUAL PLAN REQUIREMENTS.—The re-  
2           quirements of a plan for each contract year for  
3           which an application is granted under paragraph (1)  
4           are as follows:

5                   (A) All licensed physicians, hospitals, and  
6                   practitioners (as defined in section  
7                   1842(b)(18)(C) of the Social Security Act) in  
8                   the State are eligible to be preferred providers  
9                   under the insurer’s network to ensure that the  
10                  health care needs of the Medicare beneficiaries  
11                  to be served by the network are met.

12                  (B) Appropriate adjustments are made to  
13                  the payment rates to hospitals for indirect med-  
14                  ical education costs and for being a dispropor-  
15                  tionate share hospital in manner similar to  
16                  which such payment adjustments are made  
17                  under subparagraphs (B) and (F), respectively,  
18                  of section 1886(d)(5) of the Social Security  
19                  Act.

20                  (C) As a preferred provider, a provider of  
21                  services, physician, and health care practitioner  
22                  shall be reimbursed for services furnished to  
23                  Medicare beneficiaries at a rate no less than  
24                  110 percent of the payment rate that would

1 otherwise apply for the service under part A or  
2 B, as the case may be.

3 (D) The Secretary provides partial under-  
4 writing of the financial risk under the plan.

5 (E) The insurer should provide for health  
6 care benefits in addition to those required  
7 under parts A and B of such title (such as cov-  
8 erage of the costs of some or all outpatient pre-  
9 scription drugs, hearing aids, or eye glasses or  
10 reduced cost-sharing), after taking into account  
11 costs of administration.

12 (3) ADDITIONAL PAYMENT FOR START UP  
13 COSTS.—In addition to payments made to the in-  
14 surer under paragraph (2), the Secretary may pro-  
15 vide for a payment during the initial phase of the  
16 project to reflect additional costs associated with the  
17 establishment of preferred provider organizations  
18 under the plan.

19 (c) PERIOD OF DEMONSTRATION PROJECT.—A dem-  
20 onstration project carried out under this section shall op-  
21 erate for a period of 5 years.

22 (d) ADVISORY BOARD.—

23 (1) ESTABLISHMENT.—As a part of the dem-  
24 onstration project conducted under this section, the  
25 insurer shall provide for an advisory board to review

1 payment rate changes by the insurer for services  
2 furnished by providers under the demonstration  
3 project before such rates or changes take effect.

4 (2) COMPOSITION.—The Board shall be com-  
5 posed of 7 members with expertise in the field of  
6 health care as follows:

7 (A) The Attorney General of Iowa.

8 (B) 2 members appointed by the insurer  
9 upon the recommendation of the Governor of  
10 Iowa.

11 (C) 2 members appointed by the insurer  
12 upon the recommendation of the Iowa Hospital  
13 Association.

14 (D) 2 members appointed by the insurer  
15 upon the recommendation of the Iowa Medical  
16 Society.

17 (3) TERMS OF APPOINTMENT.—The term of  
18 any appointment under paragraph (2) shall be 5  
19 years.

20 (4) MEETINGS.—The advisory board shall meet  
21 at the call of its chairman or a majority of its mem-  
22 bers.

23 (5) VACANCIES.—A vacancy on the advisory  
24 board shall be filled in the same manner in which  
25 the original appointment was made not later than 30

1 days after the advisory board is given notice of the  
2 vacancy and shall not affect the power of the re-  
3 maining members to execute the duties of the advi-  
4 sory board .

5 (6) COMPENSATION.—Members of the advisory  
6 board shall receive no additional pay, allowances, or  
7 benefits by reason of their service.

○
