## A BILL

To authorize the Secretary of Homeland Security to make grants to first responders, and for other purposes.

1        *Be it enacted by the Senate and House of Representa-*  
 2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4        (a) *SHORT TITLE.*—*This Act may be cited as the*  
 5 *“Faster and Smarter Funding for First Responders Act of*  
 6 *2004”.*

7        (b) *TABLE OF CONTENTS.*—*The table of contents for*  
 8 *this Act is as follows:*

*Sec. 1. Short title; table of contents.*

*Sec. 2. Findings.*

*Sec. 3. Faster and Smarter Funding for First Responders.*

*“TITLE XVIII—FUNDING FOR FIRST RESPONDERS*

*“1801. Faster and smarter funding for first responders.*

*“1802. Essential capabilities for first responders.*

*“1803. Task Force on Essential Capabilities for First Responders.*

*“1804. Covered grant eligibility and criteria.*

*“1805. Use of funds and accountability requirements.*

*“1806. National standards for first responder equipment and training.*

*“1807. Definitions.*

*Sec. 4. Modification of Homeland Security Advisory System.*

*“Sec. 203. Homeland Security Advisory System.*

*Sec. 5. Coordination of industry efforts.*

*Sec. 6. Superseded provision.*

*Sec. 7. Sense of Congress regarding interoperable communications.*

*Sec. 8. Sense of Congress regarding Citizen Corps councils.*

*Sec. 9. Study regarding nationwide emergency notification system.*

*Sec. 10. Authorization of appropriations.*

1 **SEC. 2. FINDINGS.**

2 *The Congress finds the following:*

3 (1) *In order to achieve its objective of mini-*  
4 *mizing the damage, and assisting in the recovery,*  
5 *from terrorist attacks, the Department of Homeland*  
6 *Security must play a leading role in assisting com-*  
7 *munities to reach the level of preparedness they need*  
8 *to respond to a terrorist attack.*

9 (2) *First responder funding is not reaching the*  
10 *men and women of our Nation's first response teams*  
11 *quickly enough, and sometimes not at all.*

12 (3) *To reform the current bureaucratic process so*  
13 *that homeland security dollars reach the first respond-*  
14 *ers who need it most, it is necessary to clarify and*  
15 *consolidate the authority and procedures of the De-*  
16 *partment of Homeland Security to support first re-*  
17 *sponders.*

18 (4) *Ensuring adequate resources for the new na-*  
19 *tional mission of homeland security requires a dis-*  
20 *crete and separate grant making process for homeland*  
21 *security funds for first response to terrorist acts, on*  
22 *the one hand, and for first responder programs de-*  
23 *signed to meet pre-9/11 priorities, on the other.*

24 (5) *Homeland security grants to first responders*  
25 *must be based on the best intelligence concerning the*  
26 *capabilities and intentions of our terrorist enemies,*

1        *and that intelligence must be used to target resources*  
2        *to the Nation's greatest risks, vulnerabilities, and con-*  
3        *sequences.*

4            *(6) The Nation's first response capabilities will*  
5        *be improved by sharing resources, training, planning,*  
6        *personnel, and equipment among neighboring juris-*  
7        *dictions through mutual aid agreements and regional*  
8        *cooperation. Such regional cooperation should be sup-*  
9        *ported, where appropriate, through direct grants from*  
10       *the Department of Homeland Security.*

11           *(7) An essential prerequisite to achieving the Na-*  
12       *tion's homeland security objectives for first responders*  
13       *is the establishment of well-defined national goals for*  
14       *terrorism preparedness. These goals should delineate*  
15       *the essential capabilities that every jurisdiction in the*  
16       *United States should possess or to which it should*  
17       *have access.*

18           *(8) A national determination of essential capa-*  
19       *bilities is needed to identify levels of State and local*  
20       *government terrorism preparedness, to determine the*  
21       *nature and extent of State and local first responder*  
22       *needs, to identify the human and financial resources*  
23       *required to fulfill them, and to direct funding to meet*  
24       *those needs and to measure preparedness levels on a*  
25       *national scale.*

1           (9) *To facilitate progress in attaining essential*  
2 *capabilities for State and local first responders, the*  
3 *Department of Homeland Security should seek to allo-*  
4 *cate homeland security funding for first responders to*  
5 *meet nationwide needs.*

6           (10) *Private sector resources and citizen volun-*  
7 *teers can perform critical functions in assisting in*  
8 *preventing and responding to terrorist attacks, and*  
9 *should be integrated into State and local planning ef-*  
10 *forts to ensure that their capabilities and roles are*  
11 *understood, so as to provide enhanced State and local*  
12 *operational capability and surge capacity.*

13           (11) *Public-private partnerships, such as the*  
14 *partnerships between the Business Executives for Na-*  
15 *tional Security and the States of New Jersey and*  
16 *Georgia, can be useful to identify and coordinate pri-*  
17 *vate sector support for State and local first respond-*  
18 *ers. Such models should be expanded to cover all*  
19 *States and territories.*

20           (12) *An important component of national stand-*  
21 *ards is measurability, so that it is possible to deter-*  
22 *mine how prepared a State or local government is*  
23 *now, and what additional steps it needs to take, in*  
24 *order to respond to acts of terrorism.*

1           (13) *The Department of Homeland Security*  
 2           *should establish, publish, and regularly update na-*  
 3           *tional voluntary consensus standards for both equip-*  
 4           *ment and training, in cooperation with both public*  
 5           *and private sector standard setting organizations, to*  
 6           *assist State and local governments in obtaining the*  
 7           *equipment and training to attain the essential capa-*  
 8           *bilities for first response to acts of terrorism, and to*  
 9           *ensure that first responder funds are spent wisely.*

10 **SEC. 3. FASTER AND SMARTER FUNDING FOR FIRST RE-**  
 11 **SPONDERS.**

12           (a) *IN GENERAL.*—*The Homeland Security Act of*  
 13 *2002 (Public Law 107–296; 6 U.S.C. 361 et seq.) is amend-*  
 14 *ed—*

15                   (1) *in section 1(b) in the table of contents by*  
 16 *adding at the end the following:*

“1801. *Faster and smarter funding for first responders.*

“1803. *Task Force on Essential Capabilities for First Responders.*

1 **SEC. 2. FINDINGS.**

2 *The Congress finds the following:*

3 *(1) In order to achieve its objective of*  
4 *minimizing the damage, and assisting in*  
5 *the recovery, from terrorist attacks, the*  
6 *Department of Homeland Security must*  
7 *play a leading role in assisting commu-*  
8 *nities to reach the level of preparedness*  
9 *they need to respond to a terrorist attack.*

10 *(2) First responder funding is not*  
11 *reaching the men and women of our Na-*  
12 *tion's first response teams quickly enough,*  
13 *and sometimes not at all.*

14 *(3) To reform the current bureau-*  
15 *cratic process so that homeland security*  
16 *dollars reach the first responders who*  
17 *need it most, it is necessary to clarify and*  
18 *consolidate the authority and procedures*  
19 *of the Department of Homeland Security*  
20 *to support first responders.*

21 *(4) Ensuring adequate resources for*  
22 *the new national mission of homeland se-*  
23 *curity requires a discrete and separate*

1 *grant making process for homeland secu-*  
2 *rity funds for first response to terrorist*  
3 *acts, on the one hand, and for first re-*  
4 *sponder programs designed to meet pre-9/*  
5 *11 priorities, on the other.*

6 (5) *Homeland security grants to first*  
7 *responders must be based on the best in-*  
8 *telligence concerning the capabilities and*  
9 *intentions of our terrorist enemies, and*  
10 *that intelligence must be used to target re-*  
11 *sources to the Nation's greatest risks,*  
12 *vulnerabilities, and consequences.*

13 (6) *The Nation's first response capa-*  
14 *bilities will be improved by sharing re-*  
15 *sources, training, planning, personnel,*  
16 *and equipment among neighboring juris-*  
17 *dictions through mutual aid agreements*  
18 *and regional cooperation. Such regional*  
19 *cooperation should be supported, where*  
20 *appropriate, through direct grants from*  
21 *the Department of Homeland Security.*

22 (7) *An essential prerequisite to achiev-*  
23 *ing the Nation's homeland security objec-*  
24 *tives for first responders is the establish-*  
25 *ment of well-defined national goals for*

1 *terrorism preparedness. These goals*  
2 *should delineate the essential capabilities*  
3 *that every jurisdiction in the United*  
4 *States should possess or to which it*  
5 *should have access.*

6 (8) *A national determination of essen-*  
7 *tial capabilities is needed to identify lev-*  
8 *els of State and local government ter-*  
9 *rorism preparedness, to determine the na-*  
10 *ture and extent of State and local first re-*  
11 *sponder needs, to identify the human and*  
12 *financial resources required to fulfill*  
13 *them, and to direct funding to meet those*  
14 *needs and to measure preparedness levels*  
15 *on a national scale.*

16 (9) *To facilitate progress in attaining*  
17 *essential capabilities for State and local*  
18 *first responders, the Department of Home-*  
19 *land Security should seek to allocate*  
20 *homeland security funding for first re-*  
21 *sponders to meet nationwide needs.*

22 (10) *Private sector resources and cit-*  
23 *izen volunteers can perform critical func-*  
24 *tions in assisting in preventing and re-*  
25 *sponding to terrorist attacks, and should*

1 *be integrated into State and local plan-*  
2 *ning efforts to ensure that their capabili-*  
3 *ties and roles are understood, so as to pro-*  
4 *vide enhanced State and local oper-*  
5 *ational capability and surge capacity.*

6 *(11) Public-private partnerships, such*  
7 *as the partnerships between the Business*  
8 *Executives for National Security and the*  
9 *States of New Jersey and Georgia, can be*  
10 *useful to identify and coordinate private*  
11 *sector support for State and local first re-*  
12 *sponders. Such models should be ex-*  
13 *panded to cover all States and territories.*

14 *(12) An important component of na-*  
15 *tional standards is measurability, so that*  
16 *it is possible to determine how prepared a*  
17 *State or local government is now, and*  
18 *what additional steps it needs to take, in*  
19 *order to respond to acts of terrorism.*

20 *(13) The Department of Homeland Se-*  
21 *curity should establish, publish, and regu-*  
22 *larly update national voluntary consensus*  
23 *standards for both equipment and train-*  
24 *ing, in cooperation with both public and*  
25 *private sector standard setting organiza-*

1 *responders to prevent, prepare for, respond to,*  
2 *or mitigate threatened or actual terrorist at-*  
3 *tacks, especially those involving weapons of*  
4 *mass destruction, and including any grant*  
5 *under the following:*

6           “(1) *STATE HOMELAND SECURITY GRANT*  
7 *PROGRAM.—The State Homeland Security*  
8 *Grant Program of the Department, or any*  
9 *successor to such grant program.*

10           “(2) *URBAN AREA SECURITY INITIATIVE.—*  
11 *The Urban Area Security Initiative of the*  
12 *Department, or any successor to such*  
13 *grant program.*

14           “(b) *EXCLUDED PROGRAMS.—This title does*  
15 *not apply to or otherwise affect the following*  
16 *Federal grant programs or any grant under*  
17 *such a program:*

18           “(1) *NONDEPARTMENT PROGRAMS.—Any*  
19 *Federal grant program that is not admin-*  
20 *istered by the Department.*

21           “(2) *FIRE GRANT PROGRAMS.—The fire*  
22 *grant programs authorized by sections 33*  
23 *and 34 of the Federal Fire Prevention and*  
24 *Control Act of 1974 (15 U.S.C. 2229,*  
25 *2229a).*

10 *“(1) SPECIFICITY.—The determination*

16 *in order to meet the Department’s goals*  
17 *for terrorism preparedness based upon—*

18 *“(A) the most current risk assess-*

3 SECTION 1. SHORT TITLE.

4 **This Act may be cited as the “Faster and**  
5 **Smarter Funding for First Responders Act of**  
6 **2004”.**

7 SEC. 2. FINDINGS.

8 **Congress finds the following:**

9 **(1) The first responsibility of govern-**  
10 **ments at all levels is to protect the lives**  
11 **and property of their citizens.**

12 **(2) In order to achieve its objective of**  
13 **minimizing the damage, and assisting in**  
14 **the recovery, from major disasters and**  
15 **emergencies, including those caused by**  
16 **terrorist attacks, the Department of**  
17 **Homeland Security must play a leading**  
18 **role in assisting communities to reach**  
19 **the level of preparedness they need to re-**  
20 **spond to a major disaster or emergency.**

21 **(3) An all-hazards preparedness pro-**  
22 **gram encourages governments at all lev-**  
23 **els to develop flexible and consistent**  
24 **plans to prevent, prepare for, mitigate**  
25 **against, respond to, and recover from**

1       **major disasters and emergencies, includ-**  
2       **ing those caused by terrorist attacks.**

3               **(4) Since 1979, the United States has**  
4       **developed a preparedness system that**  
5       **has enabled the Nation to effectively ad-**  
6       **dress all disasters it has thus far faced.**

7               **(5) The United States must build**  
8       **upon this foundation to better address**  
9       **acts of terrorism, particularly those in-**  
10       **volving weapons of mass destruction,**  
11       **without degrading the ability to face**  
12       **other types of disasters.**

13               **(6) The Nation's first response capa-**  
14       **bilities will be improved by sharing re-**  
15       **sources, training, planning, personnel,**  
16       **and equipment among neighboring juris-**  
17       **dictions through mutual aid agreements**  
18       **and regional cooperation.**

19               **(7) Securing Indian reservations and**  
20       **tribal lands is an important part of the**  
21       **overall goal of securing the American**  
22       **homeland. Tribal governments should be**  
23       **encouraged to meet the same national**  
24       **goals for preparedness as State and local**  
25       **governments, and should be fully in-**

1       **cluded in State and regional prepared-**  
2       **ness plans. In order to achieve this goal,**  
3       **Indian tribes should have an opportunity**  
4       **to work and coordinate with States for**  
5       **the purposes of preparedness and fund-**  
6       **ing.**

7           **(8) An essential prerequisite to**  
8       **achieving the Nation’s homeland security**  
9       **objectives for first responders is the es-**  
10       **tablishment of a well-defined national**  
11       **preparedness goal. This goal should de-**  
12       **lineate the essential capabilities that**  
13       **every jurisdiction in the United States**  
14       **should possess or to which it should have**  
15       **access.**

16           **(9) A national determination of essen-**  
17       **tial capabilities is needed to identify lev-**  
18       **els of State and local government pre-**  
19       **paredness, to determine the nature and**  
20       **extent of State and local first responder**  
21       **needs, to identify the human and finan-**  
22       **cial resources required to fulfill them,**  
23       **and to direct funding to meet those needs**  
24       **and to measure preparedness levels on a**  
25       **national scale.**

1           **(10) Terrorists by their nature are un-**  
2           **predictable, and therefore the Federal**  
3           **Government should support a strategy**  
4           **that provides a basic level of prepared-**  
5           **ness to all States.**

6           **(11) Private sector resources and cit-**  
7           **izen volunteers can perform critical func-**  
8           **tions in assisting in preventing and re-**  
9           **sponding to major disasters and emer-**  
10          **gencies, including those caused by ter-**  
11          **rorist attacks, and should be integrated**  
12          **into State and local planning efforts to**  
13          **ensure that their capabilities and roles**  
14          **are understood, so as to provide en-**  
15          **hanced State and local operational capa-**  
16          **bility and surge capacity.**

17          **(12) An important component of na-**  
18          **tional standards is measurability, so that**  
19          **it is possible to determine how prepared**  
20          **a State or local government is now, and**  
21          **what additional steps it needs to take, in**  
22          **order to respond to major disasters and**  
23          **emergencies, including those caused by**  
24          **terrorist attacks.**

1           **(13) The Department of Homeland Se-**  
2           **curity should establish, publish, and reg-**  
3           **ularly update national voluntary con-**  
4           **sensus standards for both equipment and**  
5           **training, in cooperation with both public**

9 SEC. 7. SENSE OF CONGRESS REGARDING INTEROPERABLE  
10 COMMUNICATIONS.

11 (a) FINDING.—The Congress finds that—

12           (1) many first responders working in  
13 the same jurisdiction or in different juris-  
14 dictions cannot effectively and efficiently  
15 communicate with one another; and

16           (2) their inability to do so threatens  
17 the public’s safety and may result in un-  
18 necessary loss of lives and property.

19 (b) SENSE OF CONGRESS.—It is the sense of  
20 the Congress that it is of national importance  
21 that interoperable emergency communica-  
22 tions systems that to the extent possible meet  
23 national voluntary consensus standards  
24 should be developed and promulgated as soon

1 as practicable for use by the first responder  
2 community.

3 SEC. 8. SENSE OF CONGRESS REGARDING CITIZEN CORPS  
4 COUNCILS.

5 (a) FINDING.—The Congress finds that Cit-  
6 izen Corps councils help to enhance local cit-  
7 izen participation in terrorism preparedness  
8 by coordinating multiple Citizen Corps pro-  
9 grams, developing community action plans,  
10 assessing possible threats, and identifying  
11 local resources.

12 (b) SENSE OF CONGRESS.—It is the sense of  
13 the Congress that individual Citizen Corps  
14 councils should seek to enhance the prepared-  
15 ness and response capabilities of all organiza-  
16 tions participating in the councils, including  
17 by providing funding to as many of their par-  
18 ticipating organizations as practicable to pro-  
19 mote local terrorism preparedness programs.

20 SEC. 9. STUDY REGARDING NATIONWIDE EMERGENCY NO-  
21 TIFICATION SYSTEM.

22 (a) STUDY.—The Secretary of Homeland  
23 Security, in consultation with the heads of  
24 other appropriate Federal agencies and rep-  
25 resentatives of providers and participants in

1 the telecommunications industry, shall con-  
2 duct a study to determine whether it is cost-  
3 effective, efficient, or feasible to establish and  
4 implement an emergency telephonic alert no-  
5 tification system that will—

6 (1) alert persons in the United States  
7 of imminent or current hazardous events  
8 caused by acts of terrorism; and

9 (2) provide information to individuals  
10 regarding appropriate measures that may  
11 be undertaken to alleviate or minimize  
12 threats to their safety and welfare posed  
13 by such events.

14 (b) TECHNOLOGIES TO CONSIDER.—In con-  
15 ducting the study, the Secretary shall con-  
16 sider the use of the telephone, wireless com-  
17 munications, and other existing communica-  
18 tions networks to provide such notification.

19 (c) REPORT.—Not later than 9 months after  
20 the date of the enactment of this Act, the Sec-  
21 retary shall submit to the Congress a report  
22 regarding the conclusions of the study.

23 SEC. 10. SENSE OF CONGRESS.

24 It is the sense of Congress that for pur-  
25 poses of emergency planning—

1           **(1) lack of sufficient bandwidth can**  
2           **have detrimental consequences for State**  
3           **and local governments during times of**  
4           **crisis;**

5           **(2) State and local governments**  
6           **should understand how communication**  
7           **networks will perform in emergencies by**  
8           **analyzing the experience of end users;**  
9           **and**

1 **[SEC. 2. FINDINGS.**

2 *[The Congress finds the following:*

3 *[(1) In order to achieve its objective of mini-*  
 4 *mizing the damage, and assisting in the recovery,*  
 5 *from terrorist attacks, the Department of Homeland*  
 6 *Security must play a leading role in assisting com-*  
 7 *munities to reach the level of preparedness they need*  
 8 *to respond to a terrorist attack.*

9 *[(2) First responder funding is not reaching the*  
 10 *men and women of our Nation’s first response teams*  
 11 *quickly enough, and sometimes not at all.*

12 *[(3) To reform the current bureaucratic process*  
 13 *so that homeland security dollars reach the first re-*  
 14 *sponders who need it most, it is necessary to clarify*  
 15 *and consolidate the authority and procedures of the*  
 16 *Department of Homeland Security to support first re-*  
 17 *sponders.*

1           *[(4) Ensuring adequate resources for the new na-*  
2           *tional mission of homeland security requires a dis-*  
3           *crete and separate grant making process for homeland*  
4           *security funds for first response to terrorist acts, on*  
5           *the one hand, and for first responder programs de-*  
6           *signed to meet pre-9/11 priorities, on the other.*

7           *[(5) Homeland security grants to first responders*  
8           *must be based on the best intelligence concerning the*  
9           *capabilities and intentions of our terrorist enemies,*  
10          *and that intelligence must be used to target resources*  
11          *to the Nation's greatest risks, vulnerabilities, and con-*  
12          *sequences.*

13          *[(6) The Nation's first response capabilities will*  
14          *be improved by sharing resources, training, planning,*  
15          *personnel, and equipment among neighboring juris-*  
16          *dictions through mutual aid agreements and regional*  
17          *cooperation. Such regional cooperation should be sup-*  
18          *ported, where appropriate, through direct grants from*  
19          *the Department of Homeland Security.*

20          *[(7) An essential prerequisite to achieving the*  
21          *Nation's homeland security objectives for first re-*  
22          *sponders is the establishment of well-defined national*  
23          *goals for terrorism preparedness. These goals should*  
24          *delineate the essential capabilities that every jurisdic-*

1        *tion in the United States should possess or to which*  
2        *it should have access.*

3            *[(8) A national determination of essential capa-*  
4        *bilities is needed to identify levels of State and local*  
5        *government terrorism preparedness, to determine the*  
6        *nature and extent of State and local first responder*  
7        *needs, to identify the human and financial resources*  
8        *required to fulfill them, and to direct funding to meet*  
9        *those needs and to measure preparedness levels on a*  
10       *national scale.*

11           *[(9) To facilitate progress in attaining essential*  
12        *capabilities for State and local first responders, the*  
13        *Department of Homeland Security should seek to allo-*  
14        *cate homeland security funding for first responders to*  
15        *meet nationwide needs.*

16           *[(10) Private sector resources and citizen volun-*  
17        *teers can perform critical functions in assisting in*  
18        *preventing and responding to terrorist attacks, and*  
19        *should be integrated into State and local planning ef-*  
20        *forts to ensure that their capabilities and roles are*  
21        *understood, so as to provide enhanced State and local*  
22        *operational capability and surge capacity.*

23           *[(11) Public-private partnerships, such as the*  
24        *partnerships between the Business Executives for Na-*  
25        *tional Security and the States of New Jersey and*

1 *Georgia, can be useful to identify and coordinate pri-*  
2 *vate sector support for State and local first respond-*  
3 *ers. Such models should be expanded to cover all*  
4 *States and territories.*

5 *[(12) An important component of national*  
6 *standards is measurability, so that it is possible to*  
7 *determine how prepared a State or local government*  
8 *is now, and what additional steps it needs to take, in*  
9 *order to respond to acts of terrorism.*

10 *[(13) The Department of Homeland Security*  
11 *should establish, publish, and regularly update na-*  
12 *tional voluntary consensus standards for both equip-*  
13 *ment and training, in cooperation with both public*  
14 *and private sector standard setting organizations, to*  
15 *assist State and local governments in obtaining the*  
16 *equipment and training to attain the essential capa-*  
17 *bilities for first response to acts of terrorism, and to*  
18 *ensure that first responder funds are spent wisely.*
