

108TH CONGRESS  
1ST SESSION

# S. RES. 109

Expressing the sense of the Senate with respect to polio.

---

IN THE SENATE OF THE UNITED STATES

APRIL 8, 2003

Mr. FEINGOLD (for himself and Mr. DODD) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions

---

## RESOLUTION

Expressing the sense of the Senate with respect to polio.

Whereas polio has caused millions of casualties through history, paralyzing millions and killing untold numbers of others;

Whereas polio remains a public health threat in today's world, despite being easily preventable by vaccination;

Whereas polio is now limited to 10 countries, with the distinct possibility that it can be once and forever extinguished as an affliction on mankind by ensuring the vaccination of all children in these countries under the age of 5;

Whereas a Global Polio Eradication Initiative exists that seeks to once and forever end polio as an illness, which

includes efforts underway by the Centers for Disease Control and Prevention; and

Whereas the United States has the capacity to act to speed the eradication of polio by assisting in the targeting of its few remaining reservoirs: Now, therefore, be it

1       *Resolved*, That the Senate—

2               (1) expresses serious concern about the con-  
3       tinuing menace posed by polio;

4               (2) implores the United Nations and its compo-  
5       nent agencies, the private sector, private voluntary  
6       organizations and non-governmental organizations,  
7       concerned States, and international financial institu-  
8       tions to act with haste and manifold dedication to  
9       eradicate polio as soon as possible; and

10              (3) calls upon the executive branch to provide  
11       the necessary human and material resources to end  
12       the scourge of polio once and for all, including close-  
13       ly monitoring laboratory stocks of the polio virus.
