2 For purposes of this Act:

3 (1) The term “contaminants” includes bacteria,
4 chemical contaminants, natural toxins, viruses,
5 parasites, and physical hazards that when found on
6 or in food can cause human illness or injury.

7 (2) The term “facility” includes any factory,
8 warehouse, establishment, or importer that handles
9 or processes food.

10 (3) The term “process” means the commercial
11 harvesting, preparation, manufacture, or transpor-
12 tation of food products.

13 (4) The term “Secretary” means the Secretary
14 of Health and Human Services.

1 **TITLE I—NATIONAL FOOD**
2 **SAFETY PROGRAM**

3 **SEC. 101. ADMINISTRATION OF NATIONAL PROGRAM.**

4 (a) IN GENERAL.—

5 (1) Persons who produce or process food for
6 human consumption have the responsibility to pre-
7 vent or minimize food safety hazards related to their
8 products. The Secretary shall administer a national
9 program for the purpose of protecting human health
10 by ensuring that the food industry has effective pro-
11 grams in place to assure the safety of food products
12 consumed in the United States.

13 (2) The program shall—

14 (A) be based on a comprehensive analysis
15 of the hazards associated with different food
16 products and with the harvesting, processing,
17 and handling of different food products, includ-
18 ing the identification and evaluation of—

19 (i) the severity of the potential health
20 risks;

21 (ii) the sources and specific points of
22 potential contamination that may render
23 food products unsafe for human consump-
24 tion; and

1 (iii) the potential for persistence, mul-
2 tiplication, or concentration of naturally
3 occurring or added contaminants in foods
4 and food products;

5 (B) take into consideration the distinctive
6 characteristics of food production and proc-
7 essing;

8 (C) establish inspection and oversight pro-
9 cedures to monitor that facilities are utilizing
10 preventive controls to minimize or eliminate
11 identifiable hazards; and

12 (D) require each food processing facility to
13 annually register with the Secretary.

14 (b) PROGRAM ELEMENTS.—The program shall pro-
15 vide for—

16 (1) implementation of a national system for the
17 registration and quarterly inspection of facilities and
18 importers. Quarterly inspections can be waived by
19 plants that meet the Secretary's standards for ex-
20 ceptional or negligible-risk facilities or importers;

21 (2) development of a program to oversee the
22 implementation of process controls in food proc-
23 essing facilities;

24 (3) the establishment and enforcement of
25 health-based standards for (A) substances which

1 may contaminate food and (B) safety and sanitation
2 in the processing and handling of food products;

3 (4) implementation of a sampling program to
4 ensure that industry programs to prevent food con-
5 tamination are effective and that food products meet
6 the standards established in paragraph (1);

7 (5) implementation of procedures and require-
8 ments to ensure the safety of imported food prod-
9 ucts;

10 (6) coordination with other Federal agencies or
11 State governments in carrying out inspection, en-
12 forcement, and monitoring;

13 (7) implementation of a national surveillance
14 system to assess the health risks associated with the
15 human consumption of food products, in cooperation
16 with the Secretary of Agriculture and the Centers
17 for Disease Control and Prevention;

18 (8) development of public education and advi-
19 sory programs; and

20 (9) implementation of a research program in
21 furtherance of the purposes of this Act.

1 **SEC. 102. PROCESS CONTROLS TO REDUCE THE ADULTERA-**
2 **TION OF FOOD PRODUCTS.**

3 (a) IN GENERAL.—The Secretary shall, upon the
4 basis of the best available scientific and technological data,
5 prescribe regulations to—

6 (1) limit the presence of human pathogens and
7 other potentially harmful substances in food prod-
8 ucts;

9 (2) ensure that all registered facilities imple-
10 ment appropriate measures to control and reduce
11 the presence and growth of human pathogens and
12 other potentially harmful substances on food prod-
13 ucts;

14 (3) ensure that all fully processed or ready-to-
15 eat food products are processed in a sanitary man-
16 ner, using reasonably available techniques and tech-
17 nologies to eliminate any human pathogens or other
18 potentially harmful substances likely to cause
19 foodborne illness; and

20 (4) ensure that food products intended for final
21 processing outside commercial establishments are la-
22 beled with instructions for handling and preparation
23 for consumption which, when adhered to, will de-
24 stroy any human pathogens or other potentially
25 harmful substance likely to cause foodborne illness.

1 (b) REGULATIONS.—The Secretary shall, within one
2 year of the enactment of this Act, issue regulations that
3 require all registered facilities to adopt processing controls
4 adequate to protect public health and to limit the presence
5 and growth of human pathogens and other potentially
6 harmful substances in food products prepared in any reg-
7 istered facility. Such regulations shall—

8 (1) set standards for sanitation;

9 (2) set tolerances for biological, chemical, and
10 physical hazards as appropriate;

11 (3) require process controls to assure that food
12 is safe and that relevant regulatory and safety
13 standards are met;

14 (4) require recordkeeping to monitor compli-
15 ance;

16 (5) require sampling to assure that processing
17 controls are effective and that regulatory standards
18 are being met; and

19 (6) provide for agency access to records kept by
20 official establishments and submission of copies of
21 such records to the Secretary as the Secretary
22 deems appropriate.

23 Public access to records that relate to the adequacy of
24 measures taken by official establishments to protect the
25 public health and to limit the presence and growth of

1 human pathogens and other potentially harmful sub-
2 stances shall be governed by 5 U.S.C. 552 et seq. The
3 Secretary may, as the Secretary deems necessary, require
4 any person, firm, or corporation with responsibility for or
5 control over food ingredients to adopt processing controls,
6 where such processing controls are needed to assure the
7 protection of public health.

8 **SEC. 103. INSPECTIONS OF PROCESSORS AND IMPORTERS.**

9 (a) NATURE OF INSPECTIONS.—

10 (1) The inspection system shall provide for fre-
11 quent unannounced inspections of food processing
12 and importing facilities to determine if such facilities
13 are operated in a sanitary manner and if food prod-
14 ucts are unsafe for human consumption, or adulter-
15 ated or misbranded under the Federal Food, Drug,
16 and Cosmetic Act (21 U.S.C. 301 et seq.). Inspec-
17 tions shall include review of processing records and
18 sampling of food products.

19 (2) Inspections shall be conducted at least quar-
20 terly, unless the Secretary determines that the facil-
21 ity is an exceptional or negligible-risk facility under
22 standards established by the Secretary.

23 (3) Standards for exceptional or negligible-risk
24 facilities shall consider the hazards associated with
25 the type of product being produced; and the facility's

1 history of compliance, food safety problems and such
2 other factors as the Secretary may deem appro-
3 priate. The Secretary shall specify an alternative in-
4 spection frequency for each facility which is deemed
5 exceptional or negligible-risk. Each inspection shall
6 include an examination of whether the facility con-
7 tinues to meet the standards for exceptional or neg-
8 ligible-risk facilities.

9 (b) CONDUCT OF INSPECTIONS.—

10 (1) An inspection under subsection (a) of any
11 domestic, foreign, or importing facility shall extend
12 to all things therein (including records required to
13 be maintained under subsection (e), processes, con-
14 trols, and premises) that bear on whether food prod-
15 ucts are in compliance with this Act or the Federal
16 Food, Drug, and Cosmetic Act (21 U.S.C. 301 et
17 seq.). Access to records may include the copying of
18 such records.

19 (2) In conducting such inspections, officers or
20 employees duly designated by the Secretary, upon
21 presenting appropriate credentials to the owner, op-
22 erator, or agent in charge, are authorized—

23 (A) to enter at reasonable times any facil-
24 ity in which persons are engaged in the food
25 processing or importing of food products, or to

1 enter any vehicle being used to transport or
2 hold such food products;

3 (B) to inspect in a reasonable manner such
4 facility or vehicle and all pertinent equipment,
5 finished and unfinished materials, containers,
6 labeling, processes, controls, and premises; and

7 (C) to collect and retain samples of food
8 products or ingredients or of any other items
9 found during an inspection that may contribute
10 to a finding of whether such food products are
11 unsafe for human consumption or adulterated
12 or misbranded under the Food, Drug, and Cos-
13 metic Act (21 U.S.C. 301 et seq.).

14 (3) Immediately after completion of inspection,
15 the officer or employee making the inspection shall
16 give to the owner, operator, or agent in charge a re-
17 port in writing setting forth any conditions or prac-
18 tices observed which indicate that either processing
19 controls are inadequate to prevent or minimize food
20 safety hazards or that any food from such facility is
21 unsafe for human consumption, or adulterated or
22 misbranded under the Federal Food, Drug, and Cos-
23 metic Act (21 U.S.C. 301 et seq.).

24 (c) PRODUCT DETENTION AND CONDEMNATION.—

1 (1) If, during an inspection conducted under
2 this section, an officer or employee making the in-
3 spection has reason to believe that a food product is
4 unsafe for human consumption, or adulterated or
5 misbranded under the Federal Food, Drug, and Cos-
6 metic Act (21 U.S.C. 301 et seq.), such officer or
7 employee may order the food product segregated,
8 impounded, and if objection is not made within 48
9 hours, condemned. If objection is made, such food
10 products that are in perishable form may be proc-
11 essed to the extent necessary to prevent spoilage,
12 and a hearing shall be commenced expeditiously.

13 (2) If the Secretary determines that, through
14 relabeling or other action, such food products can be
15 brought into compliance with this Act and the Fed-
16 eral Food, Drug, and Cosmetic Act (21 U.S.C. 301
17 et seq.), the food may be released following a deter-
18 mination by the Secretary that such relabeling or
19 other action as specified by the Secretary has been
20 performed.

21 (3) Any food product condemned without objec-
22 tion, or after hearing and judicial review, shall be
23 destroyed under supervision of the Secretary.

24 (d) OFFICIAL MARK.—The Secretary shall prescribe
25 by regulation the conditions under which any food product

1 shall display an official mark, when needed to facilitate
2 exports, that signifies that the food product has been proc-
3 essed in accordance with standards approved by the Sec-
4 retary. Such a mark may be subject to a fee.

5 (e) MAINTENANCE OF RECORDS.—Each facility or
6 person registered under this section shall maintain and
7 make available for inspection by the Secretary such
8 records as the Secretary may prescribe. Such records shall
9 be maintained for a reasonable period of time as deter-
10 mined by the Secretary. The records shall include, but are
11 not limited to, information concerning—

12 (1) the origin, receipt, delivery, sale, movement,
13 holding, and disposition of food products or ingredi-
14 ents; the identity and amount of ingredients used in
15 the food; the processing of the food; the results of
16 laboratory, sanitation, or other quality control tests
17 performed on the food or in the facility; consumer
18 complaints concerning the food or its packaging; and

19 (2) other matters reasonably related to whether
20 food products may be unsafe for human consump-
21 tion, or adulterated or misbranded under the Fed-
22 eral Food, Drug, and Cosmetic Act (21 U.S.C. 301
23 et seq.).

24 (f) OTHER INSPECTION RIGHTS AND DUTIES.—Sec-
25 tion 704 of the Federal Food, Drug, and Cosmetic Act

1 (21 U.S.C. 374) is amended by adding at the end the fol-
2 lowing new subsection:

3 “(h) The rights and duties under this section of duly
4 designated officers and employees and of other persons
5 shall apply to enforcement of the Consumer Food Safety
6 Act of 2005 to the same extent and in the same manner
7 as they apply to enforcement of this Act.”.

8 **SEC. 104. TOLERANCES FOR CONTAMINANTS IN FOOD.**

9 (a) TOLERANCES.—The Secretary shall establish tol-
10 erances limiting the quantity of contaminants, except for
11 pesticide residues regulated under section 408 or food ad-
12 ditives regulated under section 409 of the Federal Food,
13 Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), that,
14 when found in food products, may render such products
15 unsafe for human consumption. Contaminants include but
16 are not limited to bacteria, chemical contaminants, natural
17 toxins, viruses and parasites that when found on or in food
18 can cause human illness. Such tolerances may include in-
19 dicators (including indicator organisms) from which it
20 may reasonably be inferred that a contaminant is present
21 in a food product. In developing a tolerance, the Secretary
22 shall take into account the extent to which consumers may
23 be exposed to such contaminant from sources other than
24 food, and the extent to which such contaminant can be

1 avoided or minimized in the commercial handling and
2 processing of such food.

3 (b) REGULATIONS.—

4 (1) The Secretary, after notice and an oppor-
5 tunity for comment, shall promulgate regulations to
6 implement subsection (a) within 48 months after the
7 date of enactment of this Act. In promulgating such
8 regulations, the Secretary shall establish tolerances
9 for the contaminants that the Secretary determines
10 are having the greatest public health impact as early
11 as feasible after implementation of this Act.

12 (2) A tolerance established under this section
13 shall be based on—

14 (A) a scientific analysis of the health risks
15 attributable to the contaminant for which the
16 tolerance is established; and

17 (B) analysis of the risks for sensitive
18 groups, such as children, elderly, pregnant
19 women and the immune compromised.

20 (3) The Secretary shall, in a timely manner,
21 issue revisions to the regulations under paragraph
22 (1) which take into account new information. The
23 Secretary may contract with the National Academy
24 of Sciences to provide such data or assistance as the
25 Secretary deems necessary.

1 (c) REPORT.—The Secretary shall report to the Con-
2 gress on the progress of the Secretary in establishing tol-
3 erances under this section. The report shall include a de-
4 scription of the research that has been conducted with re-
5 spect to such tolerances and the research that must be
6 conducted before additional tolerances may be established,
7 the health significance of the lack of such additional toler-
8 ances, a timetable for the establishment of such toler-
9 ances, and the estimated costs, including costs of research,
10 associated with the establishment of such tolerances. The
11 report shall be transmitted on or about the end of the 18th
12 month after the date of enactment of this Act, and bienni-
13 ally thereafter during the 6-year period that begins on
14 such date of enactment.

15 **SEC. 105. STATE AND FEDERAL COOPERATION.**

16 (a) IN GENERAL.—The Secretary shall work with the
17 States in undertaking activities and programs that con-
18 tribute to the national food safety program so that State
19 and Federal programs function in a coordinated and cost-
20 effective manner. With the assistance provided in sub-
21 section (b), the Secretary shall encourage States to—

22 (1) continue, strengthen, or establish State food
23 safety programs, especially with respect to the regu-
24 lation of retail commercial food establishments,
25 transportation, harvesting, and fresh markets; and

1 (2) establish procedures and requirements for
2 ensuring that food products under the jurisdiction of
3 the State are not unsafe for human consumption.

4 (b) ASSISTANCE.—

5 (1) The Secretary may provide to a State, for
6 planning, developing, and implementing a food safe-
7 ty program—

8 (A) advisory assistance;

9 (B) technical and laboratory assistance
10 and training (including necessary materials and
11 equipment); and

12 (C) financial and other aid.

13 (c) SERVICE AGREEMENTS.—The Secretary may,
14 under agreements entered into with Federal, State, or
15 local agencies, use on a reimbursable basis or otherwise
16 the personnel, services, and facilities of such agencies in
17 carrying out their responsibilities under this Act. Such an
18 agreement shall provide that any compliance records, no-
19 tices, or reports issued in connection with activities under
20 the agreement and in the possession of the agency or gov-
21 ernment which entered into the agreement shall be made
22 available in accordance with section 552 of title 5, United
23 States Code. Agreements with a State under this sub-
24 section may provide for training of State employees.

1 **SEC. 106. IMPORTS.**

2 (a) **ROLE OF SECRETARY.**—Within 24 months after
3 the date of enactment of this Act, the Secretary shall es-
4 tablish and administer a comprehensive and efficient sys-
5 tem to ensure the safety of food imported into the United
6 States. The Secretary shall routinely inspect processing
7 facilities in exporting nations and imports at ports of entry
8 into the United States. The Secretary shall assure the ef-
9 fective operation through verification and other activities
10 as the Secretary considers necessary.

11 (b) **IMPORT REQUIREMENTS.**—

12 (1) No food product may enter the United
13 States, or be withdrawn from a warehouse, for con-
14 sumption in the United States if such food prod-
15 uct—

16 (A) appears unsafe for human consump-
17 tion, or adulterated or misbranded under the
18 Federal Food, Drug, and Cosmetic Act (21
19 U.S.C. 301 et seq.);

20 (B) is not marked or labeled as required
21 by regulations for domestic or imported articles;
22 or

23 (C) does not comply with the requirements
24 of this section.

25 (2) Upon entry for consumption in the United
26 States, food products that are not prohibited from

1 entry or from withdrawal from a warehouse under
2 paragraph (1) shall be deemed to be and treated as
3 domestic food products, except that all labeling of
4 such products shall clearly identify the country of
5 origin to facilitate the identification of products
6 linked to outbreaks of illness.

7 (c) INSPECTION OF IMPORTS.—

8 (1) Food products that are offered for importa-
9 tion, or withdrawn from a warehouse, for consump-
10 tion in the United States, shall be subject to exami-
11 nations inspections, sampling, and such other proce-
12 dures at the port of entry or in the exporting nation
13 by officers or employees duly designated by the Sec-
14 retary. Such procedures shall be conducted with
15 such frequency and in such manner as the Secretary
16 may prescribe by regulation.

17 (2) Food products from a nation that is cer-
18 tified for such food products under subsection (e)(3)
19 shall be subject to random examinations, inspections,
20 sampling, and other procedures. Food products from
21 a nation that is not certified for such food products
22 under subsection (e)(3) shall be subject to such in-
23 tensified examinations, inspections, sampling, and
24 other verification procedures, including inspection in

1 the country of origin, as the Secretary determines
2 are necessary to ensure compliance with this Act.

3 (d) DETENTION OF IMPORTED FOOD PRODUCT.—If
4 during an inspection or other verification procedure car-
5 ried out under this section, an officer or employee con-
6 ducting the procedure has reason to believe that a food
7 product is unsafe for human consumption, or adulterated
8 or misbranded under the Federal Food, Drug, and Cos-
9 metic Act (21 U.S.C. 301 et seq.), such officer or employee
10 may order the food product segregated, impounded, and
11 if objection is not made within 48 hours, condemned. If
12 objection is made, such food products that are in perish-
13 able form may be processed to the extent necessary to pre-
14 vent spoilage, and a hearing shall be commenced expedi-
15 tiously. The final condemnation or other disposition of
16 such food product shall be subject to the provisions of sec-
17 tion 103(c).

18 (e) AGREEMENTS WITH FOREIGN NATIONS.—

19 (1) The Secretary may enter into an agreement
20 with any nation desiring to export food products to
21 the United States. Prior to concluding such an
22 agreement, the Secretary shall evaluate the food
23 safety program of the foreign nation to determine if
24 such program provides at least the same level of pro-
25 tection, with respect to food products intended for

1 export to the United States, as domestic laws that
2 affect the safety of the food supply. In such evalua-
3 tion, the Secretary shall consider—

4 (A) the potential for health, sanitary, envi-
5 ronmental, or other conditions within the for-
6 eign nation to adversely affect the safety of
7 food products exported from such nation; and

8 (B) how well the food safety programs of
9 the foreign nation functions to minimize any
10 adverse effects on such safety.

11 (2) Any agreement under this subsection with a
12 nation desiring to export food products to the
13 United States shall—

14 (A) require that the exporting nation
15 shall—

16 (i) establish and maintain a food safe-
17 ty system that is adequate to ensure that
18 the food products intended for export to
19 the United States are safe for human con-
20 sumption, and not adulterated or mis-
21 branded under the Federal Food, Drug,
22 and Cosmetic Act (21 U.S.C. 301 et seq.);
23 and

24 (ii) promptly notify the Secretary of
25 any violations affecting the safety of food

1 products exported or intended for export to
2 the United States;

3 (B) provide for such activities (whether in
4 the exporting nation or at the port of entry dur-
5 ing importation) by the Secretary, including ex-
6 aminations, inspections, sampling, and testing,
7 at such stages in the growth or harvest of food,
8 or in the processing or handling of food prod-
9 ucts, as the Secretary considers appropriate to
10 ensure that the food safety program of the ex-
11 porting nation continues to provide at least the
12 same level of protection, with respect to food
13 products intended for export to the United
14 States, as domestic laws that affect the safety
15 of the food supply; and

16 (C) provide for reciprocity with respect to
17 the treatment of food imports and exports be-
18 tween the United States and the exporting na-
19 tion.

20 (3) If the Secretary determines that a nation
21 desiring to export food products to the United States
22 has a program that provides at least the saline level
23 of protection, with respect to food products intended
24 for export to the United States, as domestic laws
25 that affect the safety of the food supply, the Sec-

1 retary shall, upon entry into force of an agreement
2 under subsection (e)(1), certify the types of food
3 products for which the nation maintains such a pro-
4 gram.

5 (4)(A) The Secretary shall periodically or for
6 good cause, and not less than once every 3 years, re-
7 view certifications made under paragraph (3), and
8 shall revoke the certification of any nation that the
9 Secretary determines is not maintaining a food safe-
10 ty program that provides at least the same level of
11 protection, with respect to food products intended
12 for export to the United States, as domestic laws
13 that affect the safety of the food supply.

14 (B) The Secretary shall review and modify, as
15 needed, an agreement made under paragraph (1)
16 with any nation whose certification has been revoked
17 under subparagraph (A) of this paragraph.

18 **TITLE II—RESEARCH AND** 19 **EDUCATION**

20 **SEC. 201. PUBLIC HEALTH ASSESSMENT SYSTEM.**

21 (a) COOPERATION WITH THE CENTERS FOR DISEASE
22 CONTROL AND PREVENTION.—The Secretary shall work,
23 through the Centers for Disease Control and Prevention,
24 to include food in an active surveillance system, based on
25 a representative proportion of the population of the United

1 States, and to assess more accurately the frequency and
2 sources of human illness in the United States associated
3 with the consumption of food.

4 (b) PUBLIC HEALTH SAMPLING.—

5 (1) Within 12 months after the date of enact-
6 ment of this Act, the Secretary in cooperation with
7 the Secretary of Agriculture shall establish guide-
8 lines for a sampling system under which the Sec-
9 retary and the Secretary of Agriculture shall take
10 and analyze samples of food products to assist the
11 Secretary in carrying out this Act and the Federal
12 Food, Drug, and Cosmetic Act (21 U.S.C. 301 et
13 seq.), and to more accurately assess the nature, fre-
14 quency of occurrence, and amounts of contaminants
15 in food products.

16 (2) Such sampling system shall provide—

17 (A) statistically valid monitoring, including
18 market-basket studies, on the nature, frequency
19 of occurrence, and amounts of contaminants in
20 food products available to consumers; and

21 (B) at the request of the Secretary, such
22 other information, including analysis of moni-
23 toring and verification samples, as the Sec-
24 retary determines may be useful in assessing

1 the occurrence of contaminants in food prod-
2 ucts.

3 (c) ASSESSMENT OF HEALTH HAZARDS.—Through
4 the surveillance system referred to in subsection (a) and
5 the sampling system described in subsection (b), the Sec-
6 retary shall rank food categories based on their hazard
7 to human health and identify appropriate industry and
8 regulatory approaches to minimize hazards in the food
9 supply. Such analysis could include—

10 (1) the safety of commercial harvesting and
11 processing, as compared with the health hazards as-
12 sociated with food products that are harvested for
13 recreational or subsistence purposes and prepared
14 noncommercially;

15 (2) the safety of food products that are domes-
16 tically harvested and processed, as compared with
17 the health hazards associated with food products
18 that are harvested or processed outside the United
19 States; and

20 (3) contamination originating from handling
21 practices that occur prior to or after sale of food
22 products to consumers.
