TITLE III—AUTHORIZATION OF APPROPRIATIONS

Sec. 301. Authorization of appropriations.

1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) food insecurity and hunger are growing
 4 problems in the United States;

5 (2) in 2003, more than 36,000,000 people,
 6 13,000,000 of whom were children, lived in house-
 7 holds that were food insecure, representing an in-
 8 crease of 5,200,000 people in just 4 years;

9 (3) over 9,600,000 people lived in households in
 10 which at least 1 person experienced hunger;

11 (4)(A) at the 1996 World Food Summit, the
 12 United States, along with 185 other countries,
 13 pledged to reduce the number of undernourished
 14 people by half by 2015; and

15 (B) as a result of this pledge, the Department
 16 of Health and Human Services adopted the Healthy
 17 People 2010 goal to cut food insecurity in half by
 18 2010, and in doing so reduce hunger;

19 (5)(A) the Healthy People 2010 goal measures
 20 progress that has been made since the 1996 World

1 Food Summit and urges the Federal Government to
2 reduce food insecurity from the 1995 level of 12 per-
3 cent to 6 percent;

4 (B) in 1999, food insecurity decreased to 10.1
5 percent, and hunger decreased to 3 percent, but no
6 progress has been made since 1999; and

7 (C) in 2003, food insecurity increased to 11.2
8 percent and hunger increased to 3.5 percent, so that
9 the United States needs to reduce food insecurity by
10 approximately 5 percentage points in the next 5
11 years in order to reach the Healthy People 2010
12 goal;

13 (6) anti-hunger organizations in the United
14 States have encouraged Congress to achieve the
15 commitment of the United States to decrease food
16 insecurity and hunger in half by 2010 and elimi-
17 nating food insecurity and hunger by 2015;

18 (7) anti-hunger organizations in the United
19 States have identified strategies to cut food insecu-
20 rity and hunger in half by 2010 and to eliminate
21 food insecurity and hunger by 2015;

22 (8)(A) national nutrition programs are among
23 the fastest, most direct ways to efficiently and effec-
24 tively prevent hunger, reduce food insecurity, and

1 improve nutrition among the populations targeted by
2 a program; and

3 (B) the programs are responsible for the ab-
4 sence of widespread hunger and malnutrition among
5 the poorest people, especially children, in the United
6 States;

7 (9)(A) although national nutrition programs are
8 essential in the fight against hunger, the programs
9 fail to reach all of the people eligible and entitled to
10 their services;

11 (B) according to the Department of Agri-
12 culture, only approximately 56 percent of food-inse-
13 cure households receive assistance from at least 1 of
14 the 3 largest national nutrition programs, the food
15 stamp program, the special supplemental nutrition
16 program for women, infants, and children (WIC),
17 and the school lunch program;

18 (C) the food stamp program reaches only about
19 54 percent of the households that are eligible for
20 benefits; and

21 (D) free and reduced price school breakfasts
22 are served to about $\frac{1}{2}$ of the low-income children
23 who get free or reduced price lunches, and during
24 the summer months, less than 20 percent of the chil-

1 dren who receive free and reduced price school
2 lunches are served meals;

3 (10) in 2001, food banks, food pantries, soup
4 kitchens, and emergency shelters helped to feed
5 more than 23,000,000 low-income people;

6 (11) community-based organizations and char-
7 ities can help—

8 (A) play an important role in preventing
9 and reducing hunger;

10 (B) measure community food security;

11 (C) develop and implement plans for im-
12 proving food security;

13 (D) educate community leaders about the
14 problems of and solutions to hunger;

15 (E) ensure that local nutrition programs
16 are implemented effectively; and

17 (F) improve the connection of food inse-
18 cure people to anti-hunger programs;

19 (12) according to the Department of Agri-
20 culture, in 2003, hunger was 8 times as prevalent,
21 and food insecurity was nearly 6 times as prevalent,
22 in households with incomes below 185 percent of the
23 poverty line as in households with incomes at or
24 above 185 percent of the poverty line; and

1 (13) in order to achieve the goal of reducing
2 food insecurity and hunger by $\frac{1}{2}$ by 2010, the
3 United States needs to—

4 (A) ensure improved employment and in-
5 come opportunities, especially for less-skilled
6 workers and single mothers with children; and

7 (B) reduce the strain that rising housing
8 and health care costs place on families with lim-
9 ited or stagnant incomes.
