5 and rivers to ensure that the areas and rivers re-
6 main a part of the natural heritage of the United
7 States and continue to be a source of solitude and
8 inspiration for all people of the United States;

9 (4) continuation of military activities (including
10 overflights, military rotary wing environmental train-

15 (5) wildfire management activities necessary to
16 protect public health and safety and private property
17 are fully allowable in wilderness areas, and the Sec-

19 determined necessary to control or prevent fires; and

20 (6) land and rivers are designated as part of

3 logic features that represent the natural splen-
4 dor of California;

6 tural archaeological sites associated with an-
7 cient Indian cultures and the settlement of Cali-
8 fornia;

9 (D) protect and preserve areas that con-
10 tinue to be used by Indian tribes for spiritual,
11 cultural, or subsistence practices;

12 (E) protect watersheds, including water-
13 sheds that play an essential role in providing
14 municipal and agricultural water and power
15 supplies;

16 (F) provide opportunities for compatible
17 outdoor recreation, including horseback riding
18 on saddle and other pack stock, hunting and
19 fishing, hiking and camping, whitewater rafting,
20 trail running, and excursions led by commercial
21 outfitters;

22 (G) retain and enhance opportunities for
23 scientific research in pristine ecosystems; and
