### 1 **SEC. 2. FINDINGS.**

2       The Congress finds the following:

3           (1) The use of tobacco products by the Nation's  
4       children is a pediatric disease of considerable pro-  
5       portions that results in new generations of tobacco-  
6       dependent children and adults.

7           (2) A consensus exists within the scientific and  
8       medical communities that tobacco products are in-  
9       herently dangerous and cause cancer, heart disease,  
10      and other serious adverse health effects.

11          (3) Nicotine is an addictive drug.

1           (4) Virtually all new users of tobacco products  
2           are under the minimum legal age to purchase such  
3           products.

4           (5) Tobacco advertising and marketing con-  
5           tribute significantly to the use of nicotine-containing  
6           tobacco products by adolescents.

7           (6) Because past efforts to restrict advertising  
8           and marketing of tobacco products have failed ade-  
9           quately to curb tobacco use by adolescents, com-  
10          prehensive restrictions on the sale, promotion, and  
11          distribution of such products are needed.

12          (7) Federal and State governments have lacked  
13          the legal and regulatory authority and resources  
14          they need to address comprehensively the public  
15          health and societal problems caused by the use of to-  
16          bacco products.

17          (8) Federal and State public health officials,  
18          the public health community, and the public at large  
19          recognize that the tobacco industry should be subject  
20          to ongoing oversight.

21          (9) Under article I, section 8 of the Constitu-  
22          tion, the Congress is vested with the responsibility  
23          for regulating interstate commerce and commerce  
24          with Indian tribes.

1           (10) The sale, distribution, marketing, adver-  
2           tising, and use of tobacco products are activities in  
3           and substantially affecting interstate commerce be-  
4           cause they are sold, marketed, advertised, and dis-  
5           tributed in interstate commerce on a nationwide  
6           basis, and have a substantial effect on the Nation's  
7           economy.

8           (11) The sale, distribution, marketing, adver-  
9           tising, and use of such products substantially affect  
10          interstate commerce through the health care and  
11          other costs attributable to the use of tobacco prod-  
12          ucts.

13          (12) It is in the public interest for Congress to  
14          enact legislation that provides the Food and Drug  
15          Administration with the authority to regulate to-  
16          bacco products and the advertising and promotion of  
17          such products. The benefits to the American people  
18          from enacting such legislation would be significant  
19          in human and economic terms.

20          (13) Tobacco use is the foremost preventable  
21          cause of premature death in America. It causes over  
22          400,000 deaths in the United States each year and  
23          approximately 8,600,000 Americans have chronic ill-  
24          nesses related to smoking.

1           (14) Reducing the use of tobacco by minors by  
2       50 percent would prevent well over 10,000,000 of to-  
3       day's children from becoming regular, daily smokers,  
4       saving over 3,000,000 of them from premature  
5       death due to tobacco induced disease. Such a reduc-  
6       tion in youth smoking would also result in approxi-  
7       mately \$75,000,000,000 in savings attributable to  
8       reduced health care costs.

9           (15) Advertising, marketing, and promotion of  
10      tobacco products have been especially directed to at-  
11      tract young persons to use tobacco products and  
12      these efforts have resulted in increased use of such  
13      products by youth. Past efforts to oversee these ac-  
14      tivities have not been successful in adequately pre-  
15      venting such increased use.

16          (16) In 2002, the tobacco industry spent more  
17      than \$12,466,000,000 to attract new users, retain  
18      current users, increase current consumption, and  
19      generate favorable long-term attitudes toward smok-  
20      ing and tobacco use.

21          (17) Tobacco product advertising often  
22      misleadingly portrays the use of tobacco as socially  
23      acceptable and healthful to minors.

24          (18) Tobacco product advertising is regularly  
25      seen by persons under the age of 18, and persons

1 under the age of 18 are regularly exposed to tobacco  
2 product promotional efforts.

3 (19) Through advertisements during and spon-  
4 sorship of sporting events, tobacco has become  
5 strongly associated with sports and has become por-  
6 trayed as an integral part of sports and the healthy  
7 lifestyle associated with rigorous sporting activity.

8 (20) Children are exposed to substantial and  
9 unavoidable tobacco advertising that leads to favor-  
10 able beliefs about tobacco use, plays a role in leading  
11 young people to overestimate the prevalence of to-  
12 bacco use, and increases the number of young people  
13 who begin to use tobacco.

14 (21) The use of tobacco products in motion pic-  
15 tures and other mass media glamorizes its use for  
16 young people and encourages them to use tobacco  
17 products.

18 (22) Tobacco advertising expands the size of  
19 the tobacco market by increasing consumption of to-  
20 bacco products including tobacco use by young peo-  
21 ple.

22 (23) Children are more influenced by tobacco  
23 advertising than adults, they smoke the most adver-  
24 tised brands.

1           (24) Tobacco company documents indicate that  
2           young people are an important and often crucial seg-  
3           ment of the tobacco market. Children, who tend to  
4           be more price-sensitive than adults, are influenced  
5           by advertising and promotion practices that result in  
6           drastically reduced cigarette prices.

7           (25) Comprehensive advertising restrictions will  
8           have a positive effect on the smoking rates of young  
9           people.

10          (26) Restrictions on advertising are necessary  
11          to prevent unrestricted tobacco advertising from un-  
12          dermining legislation prohibiting access to young  
13          people and providing for education about tobacco  
14          use.

15          (27) International experience shows that adver-  
16          tising regulations that are stringent and comprehen-  
17          sive have a greater impact on overall tobacco use  
18          and young people's use than weaker or less com-  
19          prehensive ones.

20          (28) Text only requirements, although not as  
21          stringent as a ban, will help reduce underage use of  
22          tobacco products while preserving the informational  
23          function of advertising.

1           (29) It is in the public interest for Congress to  
2       adopt legislation to address the public health crisis  
3       created by actions of the tobacco industry.

4           (30) The final regulations promulgated by the  
5       Secretary of Health and Human Services in the Au-  
6       gust 28, 1996, issue of the Federal Register (61  
7       Fed. Reg. 44615–44618) for inclusion as part 897  
8       of title 21, Code of Federal Regulations, are con-  
9       sistent with the First Amendment to the United  
10      States Constitution and with the standards set forth  
11      in the amendments made by this subtitle for the reg-  
12      ulation of tobacco products by the Food and Drug  
13      Administration and the restriction on the sale and  
14      distribution, including access to and the advertising  
15      and promotion of, tobacco products contained in  
16      such regulations are substantially related to accom-  
17      plishing the public health goals of this Act.

18          (31) The regulations described in paragraph  
19      (30) will directly and materially advance the Federal  
20      Government’s substantial interest in reducing the  
21      number of children and adolescents who use ciga-  
22      rettes and smokeless tobacco and in preventing the  
23      life-threatening health consequences associated with  
24      tobacco use. An overwhelming majority of Americans  
25      who use tobacco products begin using such products

1 while they are minors and become addicted to the  
2 nicotine in those products before reaching the age of  
3 18. Tobacco advertising and promotion plays a cru-  
4 cial role in the decision of these minors to begin  
5 using tobacco products. Less restrictive and less  
6 comprehensive approaches have not and will not be  
7 effective in reducing the problems addressed by such  
8 regulations. The reasonable restrictions on the ad-  
9 vertising and promotion of tobacco products con-  
10 tained in such regulations will lead to a significant  
11 decrease in the number of minors using and becom-  
12 ing addicted to those products.

13 (32) The regulations described in paragraph  
14 (30) impose no more extensive restrictions on com-  
15 munication by tobacco manufacturers and sellers  
16 than are necessary to reduce the number of children  
17 and adolescents who use cigarettes and smokeless to-  
18 bacco and to prevent the life-threatening health con-  
19 sequences associated with tobacco use. Such regula-  
20 tions are narrowly tailored to restrict those adver-  
21 tising and promotional practices which are most like-  
22 ly to be seen or heard by youth and most likely to  
23 entice them into tobacco use, while affording tobacco  
24 manufacturers and sellers ample opportunity to con-

1       vey information about their products to adult con-  
2       sumers.

3           (33) Tobacco dependence is a chronic disease,  
4       one that typically requires repeated interventions to  
5       achieve long-term or permanent abstinence.

6           (34) Because the only known safe alternative to  
7       smoking is cessation, interventions should target all  
8       smokers to help them quit completely.

9           (35) Tobacco products have been used to facili-  
10      tate and finance criminal activities both domestically  
11      and internationally. Illicit trade of tobacco products  
12      has been linked to organized crime and terrorist  
13      groups.

14          (36) It is essential that the Food and Drug Ad-  
15      ministration review products sold or distributed for  
16      use to reduce risks or exposures associated with to-  
17      bacco products and that it be empowered to review  
18      any advertising and labeling for such products. It is  
19      also essential that manufacturers, prior to marketing  
20      such products, be required to demonstrate that such  
21      products will meet a series of rigorous criteria, and  
22      will benefit the health of the population as a whole,  
23      taking into account both users of tobacco products  
24      and persons who do not currently use tobacco prod-  
25      ucts.

1           (37) Unless tobacco products that purport to  
2       reduce the risks to the public of tobacco use actually  
3       reduce such risks, those products can cause substan-  
4       tial harm to the public health to the extent that the  
5       individuals, who would otherwise not consume to-  
6       bacco products or would consume such products less,  
7       use tobacco products purporting to reduce risk.  
8       Those who use products sold or distributed as modi-  
9       fied risk products that do not in fact reduce risk,  
10      rather than quitting or reducing their use of tobacco  
11      products, have a substantially increased likelihood of  
12      suffering disability and premature death. The costs  
13      to society of the widespread use of products sold or  
14      distributed as modified risk products that do not in  
15      fact reduce risk or that increase risk include thou-  
16      sands of unnecessary deaths and injuries and huge  
17      costs to our health care system.

18           (38) As the National Cancer Institute has  
19      found, many smokers mistakenly believe that “low  
20      tar” and “light” cigarettes cause fewer health prob-  
21      lems than other cigarettes. As the National Cancer  
22      Institute has also found, mistaken beliefs about the  
23      health consequences of smoking “low tar” and  
24      “light” cigarettes can reduce the motivation to quit

1 smoking entirely and thereby lead to disease and  
2 death.

3 (39) Recent studies have demonstrated that  
4 there has been no reduction in risk on a population-  
5 wide basis from “low tar” and “light” cigarettes and  
6 such products may actually increase the risk of to-  
7 bacco use.

8 (40) The dangers of products sold or distrib-  
9 uted as modified risk tobacco products that do not  
10 in fact reduce risk are so high that there is a com-  
11 pelling governmental interest in insuring that state-  
12 ments about modified risk tobacco products are com-  
13 plete, accurate, and relate to the overall disease risk  
14 of the product.

15 (41) As the Federal Trade Commission has  
16 found, consumers have misinterpreted advertise-  
17 ments in which one product is claimed to be less  
18 harmful than a comparable product, even in the  
19 presence of disclosures and advisories intended to  
20 provide clarification.

21 (42) Permitting manufacturers to make unsub-  
22 substantiated statements concerning modified risk to-  
23 bacco products, whether express or implied, even if  
24 accompanied by disclaimers would be detrimental to  
25 the public health.

1           (43) The only way to effectively protect the  
2       public health from the dangers of unsubstantiated  
3       modified risk tobacco products is to empower the  
4       Food and Drug Administration to require that prod-  
5       ucts that tobacco manufacturers sold or distributed  
6       for risk reduction be approved in advance of mar-  
7       keting, and to require that the evidence relied on to  
8       support approval of these products is rigorous.

9   **SEC. 3. PURPOSE.**

10       The purposes of this Act are—

11           (1) to provide authority to the Food and Drug  
12       Administration to regulate tobacco products under  
13       the Federal Food, Drug, and Cosmetic Act (21  
14       U.S.C. 301 et seq.), by recognizing it as the primary  
15       Federal regulatory authority with respect to the  
16       manufacture, marketing, and distribution of tobacco  
17       products;

18           (2) to ensure that the Food and Drug Adminis-  
19       tration has the authority to address issues of par-  
20       ticular concern to public health officials, especially  
21       the use of tobacco by young people and dependence  
22       on tobacco;

23           (3) to authorize the Food and Drug Adminis-  
24       tration to set national standards controlling the  
25       manufacture of tobacco products and the identity,

1 public disclosure, and amount of ingredients used in  
2 such products;

3 (4) to provide new and flexible enforcement au-  
4 thority to ensure that there is effective oversight of  
5 the tobacco industry's efforts to develop, introduce,  
6 and promote less harmful tobacco products;

7 (5) to vest the Food and Drug Administration  
8 with the authority to regulate the levels of tar, nico-  
9 tine, and other harmful components of tobacco prod-  
10 ucts;

11 (6) in order to ensure that consumers are better  
12 informed, to require tobacco product manufacturers  
13 to disclose research which has not previously been  
14 made available, as well as research generated in the  
15 future, relating to the health and dependency effects  
16 or safety of tobacco products;

17 (7) to continue to permit the sale of tobacco  
18 products to adults in conjunction with measures to  
19 ensure that they are not sold or accessible to under-  
20 age purchasers;

21 (8) to impose appropriate regulatory controls on  
22 the tobacco industry;

23 (9) to promote cessation to reduce disease risk  
24 and the social costs associated with tobacco related  
25 diseases; and

1           (10) to strengthen legislation against illicit  
2       trade in tobacco products.

3 **SEC. 4. SCOPE AND EFFECT.**

4       (a) INTENDED EFFECT.—Nothing in this Act (or an  
5 amendment made by this Act) shall be construed to—

6           (1) establish a precedent with regard to any  
7       other industry, situation, circumstance, or legal ac-  
8       tion; or

9           (2) affect any action pending in Federal, State,  
10      or Tribal court, or any agreement, consent decree, or  
11      contract of any kind.

12      (b) AGRICULTURAL ACTIVITIES.—The provisions of  
13 this Act (or an amendment made by this Act) which au-  
14 thorize the Secretary to take certain actions with regard  
15 to tobacco and tobacco products shall not be construed to  
16 affect any authority of the Secretary of Agriculture under  
17 existing law regarding the growing, cultivation, or curing  
18 of raw tobacco.

19 **SEC. 5. SEVERABILITY.**

20      If any provision of this Act, the amendments made  
21 by this Act, or the application of any provision of this Act  
22 to any person or circumstance is held to be invalid, the  
23 remainder of this Act, the amendments made by this Act,  
24 and the application of the provisions of this Act to any

1 other person or circumstance shall not be affected and  
 2 shall continue to be enforced to the fullest extent possible.

# 3 **TITLE I—AUTHORITY OF THE** 4 **FOOD AND DRUG ADMINIS-** 5 **TRATION**

## 6 **SEC. 101. AMENDMENT OF FEDERAL FOOD, DRUG, AND** 7 **COSMETIC ACT.**

8 (a) DEFINITION OF TOBACCO PRODUCTS.—Section  
 9 201 of the Federal Food, Drug, and Cosmetic Act (21  
 10 U.S.C. 321) is amended by adding at the end the fol-  
 11 lowing:

12 “(nn)(1) The term ‘tobacco product’ means any prod-  
 13 uct made or derived from tobacco that is intended for  
 14 human consumption, including any component, part, or  
 15 accessory of a tobacco product (except for raw materials  
 16 other than tobacco used in manufacturing a component,  
 17 part, or accessory of a tobacco product).

18 “(2) The term ‘tobacco product’ does not mean—

19 “(A) a product in the form of conventional food  
 20 (including water and chewing gum), a product rep-  
 21 resented for use as or for use in a conventional food,  
 22 or a product that is intended for ingestion in cap-  
 23 sule, tablet, softgel, or liquid form; or

24 “(B) an article that is approved or is regulated  
 25 as a drug by the Food and Drug Administration.

1       “(3) The products described in paragraph (2)(A)  
 2 shall be subject to chapter IV or chapter V of this Act  
 3 and the articles described in paragraph (2)(B) shall be  
 4 subject to chapter V of this Act.

5       “(4) A tobacco product may not be marketed in com-  
 6 bination with any other article or product regulated under  
 7 this Act (including a drug, biologic, food, cosmetics, med-  
 8 ical device, or a dietary supplement).”.

9       (b) FDA AUTHORITY OVER TOBACCO PRODUCTS.—  
 10 The Federal Food, Drug, and Cosmetic Act (21 U.S.C.  
 11 301 et seq.) is amended—

12               (1) by redesignating chapter IX as chapter X;

13               (2) by redesignating sections 901 through 907  
 14 as sections 1001 through 1007; and

15               (3) by inserting after section 803 the following:

16               **“CHAPTER IX—TOBACCO**  
 17               **PRODUCTS**

18       **“SEC. 900. DEFINITIONS.**

19       “In this chapter:

20               “(1) ADDITIVE.—The term ‘additive’ means  
 21 any substance the intended use of which results or  
 22 may reasonably be expected to result, directly or in-  
 23 directly, in its becoming a component or otherwise  
 24 affecting the characteristic of any tobacco product  
 25 (including any substances intended for use as a fla-

1       voring, coloring or in producing, manufacturing,  
2       packing, processing, preparing, treating, packaging,  
3       transporting, or holding), except that such term does  
4       not include tobacco or a pesticide chemical residue  
5       in or on raw tobacco or a pesticide chemical.

6               “(2) BRAND.—The term ‘brand’ means a vari-  
7       ety of tobacco product distinguished by the tobacco  
8       used, tar content, nicotine content, flavoring used,  
9       size, filtration, or packaging, logo, registered trade-  
10      mark or brand name, identifiable pattern of colors,  
11      or any combination of such attributes.

12              “(3) CIGARETTE.—The term ‘cigarette’ has the  
13      meaning given that term by section 3(1) of the Fed-  
14      eral Cigarette Labeling and Advertising Act (15  
15      U.S.C. 1332(1)), but also includes tobacco, in any  
16      form, that is functional in the product, which, be-  
17      cause of its appearance, the type of tobacco used in  
18      the filler, or its packaging and labeling, is likely to  
19      be offered to, or purchased by, consumers as a ciga-  
20      rette or as roll-your-own tobacco.

21              “(4) CIGARETTE TOBACCO.—The term ‘ciga-  
22      rette tobacco’ means any product that consists of  
23      loose tobacco that is intended for use by consumers  
24      in a cigarette. Unless otherwise stated, the require-

1       ments for cigarettes shall also apply to cigarette to-  
2       bacco.

3               “(5) COMMERCE.—The term ‘commerce’ has  
4       the meaning given that term by section 3(2) of the  
5       Federal Cigarette Labeling and Advertising Act (15  
6       U.S.C. 1332(2)).

7               “(6) COUNTERFEIT TOBACCO PRODUCT.—The  
8       term ‘counterfeit tobacco product’ means a tobacco  
9       product (or the container or labeling of such a prod-  
10      uct) that, without authorization, bears the trade-  
11      mark, trade name, or other identifying mark, im-  
12      print or device, or any likeness thereof, of a tobacco  
13      product listed in a registration under section  
14      905(i)(1).

15              “(7) DISTRIBUTOR.—The term ‘distributor’ as  
16      regards a tobacco product means any person who  
17      furthers the distribution of a tobacco product,  
18      whether domestic or imported, at any point from the  
19      original place of manufacture to the person who sells  
20      or distributes the product to individuals for personal

 6           identity of such tobacco product by established  
 7           name, and other information required by para-

17                 “(1) IN GENERAL.—Each person who is re-  
 18           quired to register under this section and who pro-

 21           tribution of a tobacco product intended for human  
 22           use that was not commercially marketed (other than  
 23           for test marketing) in the United States as of June  
 24           1, 2003, shall, at least 90 days prior to making such  
 25           introduction or delivery, report to the Secretary (in

1 such form and manner as the Secretary shall pre-

 21 be submitted to the Secretary not later than 15  
 22 months after such date of enactment.

23 “(3) EXEMPTIONS.—

24 “(A) IN GENERAL.—The Secretary may by  
 25 regulation, exempt from the requirements of

1           this subsection tobacco products that are modi-  
 2           fied by adding or deleting a tobacco additive, or  
 3           increasing or decreasing the quantity of an ex-  
 4           isting tobacco additive, if the Secretary deter-  
 5           mines that—

6                   “(i) such modification would be a  
 7                   minor modification of a tobacco product  
 8                   authorized for sale under this Act;

9                   “(ii) a report under this subsection is  
 10                  not necessary to ensure that permitting the  
 11                  tobacco product to be marketed would be  
 12                  appropriate for protection of the public  
 13                  health; and

14                  “(iii) an exemption is otherwise appro-  
 15                  priate.

16           “(B) REGULATIONS.—Not later than 9  
 17           months after the date of enactment of the Fam-

21   **“SEC. 906. GENERAL PROVISIONS RESPECTING CONTROL**  
 22           **OF TOBACCO PRODUCTS.**

23           “(a) IN GENERAL.—Any requirement established by  
 24   or under section 902, 903, 905, or 909 applicable to a  
 25   tobacco product shall apply to such tobacco product until

1 the applicability of the requirement to the tobacco product  
 2 has been changed by action taken under section 907, sec-  
 3 tion 910, section 911, or subsection (d) of this section,  
 4 and any requirement established by or under section 902,  
 5 903, 905, or 909 which is inconsistent with a requirement  
 6 imposed on such tobacco product under section 907, sec-  
 7 tion 910, section 911, or subsection (d) of this section  
 8 shall not apply to such tobacco product.

9 “(b) INFORMATION ON PUBLIC ACCESS AND COM-  
 10 MENT.—Each notice of proposed rulemaking under section  
 11 907, 908, 909, 910, or 911 or under this section, any  
 12 other notice which is published in the Federal Register  
 13 with respect to any other action taken under any such sec-  
 14 tion and which states the reasons for such action, and  
 15 each publication of findings required to be made in con-  
 16 nection with rulemaking under any such section shall set  
 17 forth—

18 “(1) the manner in which interested persons  
 19 may examine data and other information on which  
 20 the notice or findings is based; and

21 “(2) the period within which interested persons  
 22 may present their comments on the notice or find-  
 23 ings (including the need therefore) orally or in writ-  
 24 ing, which period shall be at least 60 days but may  
 25 not exceed 90 days unless the time is extended by

1 the Secretary by a notice published in the Federal  
2 Register stating good cause therefore.

3 “(c) LIMITED CONFIDENTIALITY OF INFORMA-  
4 TION.—Any information reported to or otherwise obtained  
5 by the Secretary or the Secretary’s representative under  
6 section 903, 904, 907, 908, 909, 910, 911, or 704, or  
7 under subsection (e) or (f) of this section, which is exempt  
8 from disclosure under subsection (a) of section 552 of title  
9 5, United States Code, by reason of subsection (b)(4) of  
10 that section shall be considered confidential and shall not  
11 be disclosed, except that the information may be disclosed  
12 to other officers or employees concerned with carrying out  
13 this chapter, or when relevant in any proceeding under  
14 this chapter.

15 “(d) RESTRICTIONS.—

16 “(1) IN GENERAL.—The Secretary may by reg-  
17 ulation require restrictions on the sale and distribu-  
18 tion of a tobacco product, including restrictions on  
19 the access to, and the advertising and promotion of,  
20 the tobacco product, if the Secretary determines that  
21 such regulation would be appropriate for the protec-  
22 tion of the public health. The Secretary may by reg-  
23 ulation impose restrictions on the advertising and  
24 promotion of a tobacco product consistent with and  
25 to full extent permitted by the first amendment to

1 the Constitution. The finding as to whether such  
 2 regulation would be appropriate for the protection of  
 3 the public health shall be determined with respect to  
 4 the risks and benefits to the population as a whole,  
 5 including users and non-users of the tobacco prod-  
 6 uct, and taking into account—

7 “(A) the increased or decreased likelihood  
 8 that existing users of tobacco products will stop  
 9 using such products; and

10 “(B) the increased or decreased likelihood  
 11 that those who do not use tobacco products will  
 12 start using such products.

13 No such regulation may require that the sale or dis-  
 14 tribution of a tobacco product be limited to the writ-  
 15 ten or oral authorization of a practitioner licensed  
 16 by law to prescribe medical products.

17 “(2) LABEL STATEMENTS.—The label of a to-  
 18 bacco product shall bear such appropriate state-

 20 under subsection (a) as the Secretary may in such  
 21 regulation prescribe.

22 “(3) LIMITATIONS.—

23 “(A) IN GENERAL.—No restrictions under  
 24 paragraph (1) may—

1 “(i) prohibit the sale of any tobacco  
 2 product in face-to-face transactions by a  
 3 specific category of retail outlets; or

4 “(ii) establish a minimum age of sale  
 5 of tobacco products to any person older  
 6 than 18 years of age.

7 “(B) MATCHBOOKS.—For purposes of any  
 8 regulations issued by the Secretary, matchbooks  
 9 of conventional size containing not more than  
 10 20 paper matches, and which are customarily  
 11 given away for free with the purchase of to-  
 12 bacco products shall be considered as adult  
 13 written publications which shall be permitted to  
 14 contain advertising. Notwithstanding the pre-  
 15 ceding sentence, if the Secretary finds that such  
 16 treatment of matchbooks is not appropriate for  
 17 the protection of the public health, the Sec-  
 18 retary may determine by regulation that match-  
 19 books shall not be considered adult written pub-  
 20 lications.

21 “(e) GOOD MANUFACTURING PRACTICE REQUIRE-  
 22 MENTS.—

23 “(1) METHODS, FACILITIES, AND CONTROLS TO  
 24 CONFORM.—

1           “(A) IN GENERAL.—The Secretary may, in  
2           accordance with subparagraph (B), prescribe  
3           regulations (which may differ based on the type  
4           of tobacco product involved) requiring that the  
5           methods used in, and the facilities and controls  
6           used for, the manufacture, pre-production de-  
7           sign validation (including a process to assess  
8           the performance of a tobacco product), packing  
9           and storage of a tobacco product, conform to  
10          current good manufacturing practice, as pre-  
11          scribed in such regulations, to assure that the  
12          public health is protected and that the tobacco  
13          product is in compliance with this chapter.  
14          Good manufacturing practices may include the  
15          testing of raw tobacco for pesticide chemical  
16          residues regardless of whether a tolerance for  
17          such chemical residues has been established.

18          “(B) REQUIREMENTS.—The Secretary  
19          shall—

20                 “(i) before promulgating any regula-  
21                 tion under subparagraph (A), afford the  
22                 Tobacco Products Scientific Advisory Com-  
23                 mittee an opportunity to submit rec-  
24                 ommendations with respect to the regula-  
25                 tion proposed to be promulgated;

1 “(ii) before promulgating any regula-  
 2 tion under subparagraph (A), afford oppor-  
 3 tunity for an oral hearing;

4 “(iii) provide the advisory committee a  
 5 reasonable time to make its recommenda-  
 6 tion with respect to proposed regulations  
 7 under subparagraph (A); and

8 “(iv) in establishing the effective date  
 9 of a regulation promulgated under this  
 10 subsection, take into account the dif-  
 11 ferences in the manner in which the dif-  
 12 ferent types of tobacco products have his-  
 13 torically been produced, the financial re-  
 14 sources of the different tobacco product  
 15 manufacturers, and the state of their exist-  
 16 ing manufacturing facilities, and shall pro-  
 17 vide for a reasonable period of time for  
 18 such manufacturers to conform to good  
 19 manufacturing practices.

20 “(2) EXEMPTIONS; VARIANCES.—

21 “(A) PETITION.—Any person subject to  
 22 any requirement prescribed under paragraph  
 23 (1) may petition the Secretary for a permanent  
 24 or temporary exemption or variance from such  
 25 requirement. Such a petition shall be submitted

1 to the Secretary in such form and manner as  
 2 the Secretary shall prescribe and shall—

3 “(i) in the case of a petition for an ex-  
 4 emption from a requirement, set forth the  
 5 basis for the petitioner’s determination  
 6 that compliance with the requirement is  
 7 not required to assure that the tobacco  
 8 product will be in compliance with this  
 9 chapter;

10 “(ii) in the case of a petition for a  
 11 variance from a requirement, set forth the  
 12 methods proposed to be used in, and the  
 13 facilities and controls proposed to be used  
 14 for, the manufacture, packing, and storage  
 15 of the tobacco product in lieu of the meth-  
 16 ods, facilities, and controls prescribed by  
 17 the requirement; and

18 “(iii) contain such other information  
 19 as the Secretary shall prescribe.

20 “(B) REFERRAL TO THE TOBACCO PROD-  
 21 UCTS SCIENTIFIC ADVISORY COMMITTEE.—The  
 22 Secretary may refer to the Tobacco Products  
 23 Scientific Advisory Committee any petition sub-  
 24 mitted under subparagraph (A). The Tobacco  
 25 Products Scientific Advisory Committee shall

1 report its recommendations to the Secretary  
 2 with respect to a petition referred to it within  
 3 60 days after the date of the petition's referral.

4 Within 60 days after—

5 “(i) the date the petition was sub-  
 6 mitted to the Secretary under subpara-  
 7 graph (A); or

8 “(ii) the day after the petition was re-  
 9 ferred to the Tobacco Products Scientific  
 10 Advisory Committee,

11 whichever occurs later, the Secretary shall by  
 12 order either deny the petition or approve it.

13 “(C) APPROVAL.—The Secretary may ap-  
 14 prove—

15 “(i) a petition for an exemption for a  
 16 tobacco product from a requirement if the  
 17 Secretary determines that compliance with  
 18 such requirement is not required to assure  
 19 that the tobacco product will be in compli-  
 20 ance with this chapter; and

21 “(ii) a petition for a variance for a to-  
 22 bacco product from a requirement if the  
 23 Secretary determines that the methods to  
 24 be used in, and the facilities and controls  
 25 to be used for, the manufacture, packing,

1           and storage of the tobacco product in lieu  
2           of the methods, controls, and facilities pre-  
3           scribed by the requirement are sufficient to  
4           assure that the tobacco product will be in  
5           compliance with this chapter.

6           “(D) CONDITIONS.—An order of the Sec-  
7           retary approving a petition for a variance shall  
8           prescribe such conditions respecting the meth-  
9           ods used in, and the facilities and controls used  
10          for, the manufacture, packing, and storage of  
11          the tobacco product to be granted the variance  
12          under the petition as may be necessary to as-  
13          sure that the tobacco product will be in compli-  
14          ance with this chapter.

15          “(E) HEARING.—After the issuance of an  
16          order under subparagraph (B) respecting a pe-  
17          tition, the petitioner shall have an opportunity  
18          for an informal hearing on such order.

19          “(3) COMPLIANCE.—Compliance with require-  
20          ments under this subsection shall not be required be-  
21          fore the period ending 3 years after the date of en-  
22          actment of the Family Smoking Prevention and To-  
23          bacco Control Act.

24          “(f) RESEARCH AND DEVELOPMENT.—The Secretary  
25          may enter into contracts for research, testing, and dem-

1 onstrations respecting tobacco products and may obtain  
2 tobacco products for research, testing, and demonstration  
3 purposes without regard to section 3324(a) and (b) of title  
4 31, United States Code, and section 5 of title 41, United  
5 States Code.

10 tobacco, filter, or paper) shall not contain, as a con-  
11 stituent (including a smoke constituent) or additive,  
12 an artificial or natural flavor (other than tobacco or  
13 menthol) or an herb or spice, including strawberry,  
14 grape, orange, clove, cinnamon, pineapple, vanilla,  
15 coconut, licorice, cocoa, chocolate, cherry, or coffee,  
16 that is a characterizing flavor of the tobacco product  
17 or tobacco smoke. Nothing in this subparagraph  
18 shall be construed to limit the Secretary’s authority  
19 to take action under this section or other sections of  
20 this Act applicable to menthol or any artificial or  
21 natural flavor, herb, or spice not specified in this  
22 paragraph.

23 “(2) REVISION OF TOBACCO PRODUCT STAND-  
24 ARDS.—The Secretary may revise the tobacco prod-

1       uct standards in paragraph (1) in accordance with  
2       subsection (b).

3               “(3) TOBACCO PRODUCT STANDARDS.—The  
4       Secretary may adopt tobacco product standards in  
5       addition to those in paragraph (1) if the Secretary  
6       finds that a tobacco product standard is appropriate  
7       for the protection of the public health. This finding  
8       shall be determined with respect to the risks and  
9       benefits to the population as a whole, including  
10      users and non-users of the tobacco product, and tak-  
11      ing into account—

12              “(A) the increased or decreased likelihood  
13              that existing users of tobacco products will stop  
14              using such products; and

15              “(B) the increased or decreased likelihood  
16              that those who do not use tobacco products will  
17              start using such products.

18              “(4) CONTENT OF TOBACCO PRODUCT STAND-  
19              ARDS.—A tobacco product standard established  
20              under this section for a tobacco product—

21              “(A) shall include provisions that are ap-  
22              propriate for the protection of the public health,  
23              including provisions, where appropriate—

24                      “(i) for the reduction of nicotine  
25                      yields of the product;

1 “(ii) for the reduction or elimination  
2 of other constituents, including smoke con-  
3 stituents, or harmful components of the  
4 product; or

5 “(iii) relating to any other require-  
6 ment under (B);

7 “(B) shall, where appropriate for the pro-

12 stituents, and properties of the tobacco  
13 product;

14 “(ii) provisions for the testing (on a  
15 sample basis or, if necessary, on an indi-  
16 vidual basis) of the tobacco product;

17 “(iii) provisions for the measurement  
18 of the tobacco product characteristics of  
19 the tobacco product;

20 “(iv) provisions requiring that the re-  
21 sults of each or of certain of the tests of  
22 the tobacco product required to be made  
23 under clause (ii) show that the tobacco  
24 product is in conformity with the portions

1 of the standard for which the test or tests  
2 were required; and

3 “(v) a provision requiring that the  
4 sale and distribution of the tobacco prod-  
5 uct be restricted but only to the extent  
6 that the sale and distribution of a tobacco  
7 product may be restricted under a regula-  
8 tion under section 906(d); and

9 “(C) shall, where appropriate, require the  
10 use and prescribe the form and content of label-  
11 ing for the proper use of the tobacco product.

12 “(5) PERIODIC RE-EVALUATION OF TOBACCO  
13 PRODUCT STANDARDS.—The Secretary shall provide  
14 for periodic evaluation of tobacco product standards  
15 established under this section to determine whether  
16 such standards should be changed to reflect new  
17 medical, scientific, or other technological data. The  
18 Secretary may provide for testing under paragraph  
19 (4)(B) by any person.

20 “(6) INVOLVEMENT OF OTHER AGENCIES; IN-  
21 FORMED PERSONS.—In carrying out duties under  
22 this section, the Secretary shall endeavor to—

23 “(A) use personnel, facilities, and other

25 agencies;

1           “(B) consult with other Federal agencies  
 2           concerned with standard-setting and other na-

 4           setting entities; and

5           “(C) invite appropriate participation,  
 6           through joint or other conferences, workshops,  
 7           or other means, by informed persons represent-  
 8           ative of scientific, professional, industry, agri-  
 9           cultural, or consumer organizations who in the  
 10          Secretary’s judgment can make a significant  
 11          contribution.

12          “(b) ESTABLISHMENT OF STANDARDS.—

13          “(1) NOTICE.—

14               “(A) IN GENERAL.—The Secretary shall  
 15               publish in the Federal Register a notice of pro-  
 16               posed rulemaking for the establishment, amend-  
 17               ment, or revocation of any tobacco product  
 18               standard.

19               “(B) REQUIREMENTS OF NOTICE.—A no-  
 20               tice of proposed rulemaking for the establish-  
 21               ment or amendment of a tobacco product stand-  
 22               ard for a tobacco product shall—

23                       “(i) set forth a finding with sup-  
 24                       porting justification that the tobacco prod-

1           uct standard is appropriate for the protec-  
2           tion of the public health;

3           “(ii) set forth proposed findings with  
4           respect to the risk of illness or injury that  
5           the tobacco product standard is intended  
6           to reduce or eliminate; and

7           “(iii) invite interested persons to sub-  
8           mit an existing tobacco product standard  
9           for the tobacco product, including a draft  
10          or proposed tobacco product standard, for  
11          consideration by the Secretary.

12          “(C) STANDARD.—Upon a determination  
13          by the Secretary that an additive, constituent  
14          (including smoke constituent), or other compo-  
15          nent of the product that is the subject of the  
16          proposed tobacco product standard is harmful,  
17          it shall be the burden of any party challenging  
18          the proposed standard to prove that the pro-  
19          posed standard will not reduce or eliminate the  
20          risk of illness or injury.

21          “(D) FINDING.—A notice of proposed rule-  
22          making for the revocation of a tobacco product  
23          standard shall set forth a finding with sup-  
24          porting justification that the tobacco product

1 standard is no longer appropriate for the pro-  
 2 tection of the public health.

3 “(E) CONSIDERATION BY SECRETARY.—

4 The Secretary shall consider all information  
 5 submitted in connection with a proposed stand-  
 6 ard, including information concerning the coun-  
 7 tervailing effects of the tobacco product stand-  
 8 ard on the health of adolescent tobacco users,  
 9 adult tobacco users, or non-tobacco users, such  
 10 as the creation of a significant demand for con-  
 11 traband or other tobacco products that do not  
 12 meet the requirements of this chapter and the  
 13 significance of such demand, and shall issue the  
 14 standard if the Secretary determines that the  
 15 standard would be appropriate for the protec-  
 16 tion of the public health.

17 “(F) COMMENT.—The Secretary shall pro-

18 vide for a comment period of not less than 60  
 19 days.

20 “(2) PROMULGATION.—

21 “(A) IN GENERAL.—After the expiration of

22 the period for comment on a notice of proposed  
 23 rulemaking published under paragraph (1) re-  
 24 specting a tobacco product standard and after  
 25 consideration of such comments and any report

1 from the Tobacco Products Scientific Advisory  
2 Committee, the Secretary shall—

3 “(i) promulgate a regulation estab-  
4 lishing a tobacco product standard and  
5 publish in the Federal Register findings on  
6 the matters referred to in paragraph (1);  
7 or

8 “(ii) publish a notice terminating the  
9 proceeding for the development of the  
10 standard together with the reasons for  
11 such termination.

12 “(B) EFFECTIVE DATE.—A regulation es-  
13 tablishing a tobacco product standard shall set  
14 forth the date or dates upon which the standard  
15 shall take effect, but no such regulation may  
16 take effect before 1 year after the date of its  
17 publication unless the Secretary determines  
18 that an earlier effective date is necessary for  
19 the protection of the public health. Such date or  
20 dates shall be established so as to minimize,  
21 consistent with the public health, economic loss  
22 to, and disruption or dislocation of, domestic  
23 and international trade.

24 “(3) POWER RESERVED TO CONGRESS.—Be-  
25 cause of the importance of a decision of the Sec-

1       retary to issue a regulation establishing a tobacco  
2       product standard—

3               “(A) banning all cigarettes, all smokeless  
4       tobacco products, all little cigars, all cigars  
5       other than little cigars, all pipe tobacco, or all  
6       roll your own tobacco products; or

7               “(B) requiring the reduction of nicotine  
8       yields of a tobacco product to zero,  
9       Congress expressly reserves to itself such power.

10       “(4) AMENDMENT; REVOCATION.—

11               “(A) AUTHORITY.—The Secretary, upon  
12       the Secretary’s own initiative or upon petition  
13       of an interested person may by a regulation,  
14       promulgated in accordance with the require-  
15       ments of paragraphs (1) and (2)(B), amend or  
16       revoke a tobacco product standard.

17               “(B) EFFECTIVE DATE.—The Secretary  
18       may declare a proposed amendment of a to-  
19       bacco product standard to be effective on and  
20       after its publication in the Federal Register and  
21       until the effective date of any final action taken  
22       on such amendment if the Secretary determines  
23       that making it so effective is in the public inter-  
24       est.

1           “(5) REFERENCE TO ADVISORY COMMITTEE.—

2           The Secretary may—

3                   “(A) on the Secretary’s own initiative,  
4           refer a proposed regulation for the establish-  
5           ment, amendment, or revocation of a tobacco  
6           product standard; or

7                   “(B) upon the request of an interested per-  
8           son which demonstrates good cause for referral  
9           and which is made before the expiration of the  
10          period for submission of comments on such pro-  
11          posed regulation,

12 refer such proposed regulation to the Tobacco Products  
13 Scientific Advisory Committee, for a report and rec-  
14 ommendation with respect to any matter involved in the  
15 proposed regulation which requires the exercise of sci-  
16 entific judgment. If a proposed regulation is referred  
17 under this paragraph to the Tobacco Products Scientific  
18 Advisory Committee, the Secretary shall provide the advi-  
19 sory committee with the data and information on which  
20 such proposed regulation is based. The Tobacco Products  
21 Scientific Advisory Committee shall, within 60 days after  
22 the referral of a proposed regulation and after inde-  
23 pendent study of the data and information furnished to  
24 it by the Secretary and other data and information before  
25 it, submit to the Secretary a report and recommendation

1 respecting such regulation, together with all underlying  
2 data and information and a statement of the reason or  
3 basis for the recommendation. A copy of such report and  
4 recommendation shall be made public by the Secretary.

5 **“SEC. 908. NOTIFICATION AND OTHER REMEDIES.**

6 “(a) NOTIFICATION.—If the Secretary determines  
7 that—

8 “(1) a tobacco product which is introduced or  
9 delivered for introduction into interstate commerce  
10 for commercial distribution presents an unreasonable  
11 risk of substantial harm to the public health; and

12 “(2) notification under this subsection is nec-  
13 essary to eliminate the unreasonable risk of such  
14 harm and no more practicable means is available  
15 under the provisions of this chapter (other than this  
16 section) to eliminate such risk,

17 the Secretary may issue such order as may be necessary  
18 to assure that adequate notification is provided in an ap-  
19 propriate form, by the persons and means best suited  
20 under the circumstances involved, to all persons who  
21 should properly receive such notification in order to elimi-  
22 nate such risk. The Secretary may order notification by  
23 any appropriate means, including public service announce-  
24 ments. Before issuing an order under this subsection, the

1 Secretary shall consult with the persons who are to give  
2 notice under the order.

3 “(b) NO EXEMPTION FROM OTHER LIABILITY.—  
4 Compliance with an order issued under this section shall  
5 not relieve any person from liability under Federal or  
6 State law. In awarding damages for economic loss in an  
7 action brought for the enforcement of any such liability,  
8 the value to the plaintiff in such action of any remedy  
9 provided under such order shall be taken into account.

10 “(c) RECALL AUTHORITY.—

11 “(1) IN GENERAL.—If the Secretary finds that  
12 there is a reasonable probability that a tobacco prod-  
13 uct contains a manufacturing or other defect not or-  
14 dinarily contained in tobacco products on the market  
15 that would cause serious, adverse health con-  
16 sequences or death, the Secretary shall issue an  
17 order requiring the appropriate person (including  
18 the manufacturers, importers, distributors, or retail-  
19 ers of the tobacco product) to immediately cease dis-  
20 tribution of such tobacco product. The order shall  
21 provide the person subject to the order with an op-  
22 portunity for an informal hearing, to be held not  
23 later than 10 days after the date of the issuance of  
24 the order, on the actions required by the order and  
25 on whether the order should be amended to require

1 a recall of such tobacco product. If, after providing  
2 an opportunity for such a hearing, the Secretary de-  
3 termines that inadequate grounds exist to support  
4 the actions required by the order, the Secretary shall  
5 vacate the order.

6 “(2) AMENDMENT OF ORDER TO REQUIRE RE-  
7 CALL.—

8 “(A) IN GENERAL.—If, after providing an  
9 opportunity for an informal hearing under  
10 paragraph (1), the Secretary determines that  
11 the order should be amended to include a recall  
12 of the tobacco product with respect to which the  
13 order was issued, the Secretary shall, except as  
14 provided in subparagraph (B), amend the order  
15 to require a recall. The Secretary shall specify  
16 a timetable in which the tobacco product recall  
17 will occur and shall require periodic reports to  
18 the Secretary describing the progress of the re-  
19 call.

20 “(B) NOTICE.—An amended order under  
21 subparagraph (A)—

22 “(i) shall not include recall of a to-  
23 bacco product from individuals; and

1 “(ii) shall provide for notice to per-  
 2 sons subject to the risks associated with  
 3 the use of such tobacco product.

4 In providing the notice required by clause (ii),  
 5 the Secretary may use the assistance of retail-  
 6 ers and other persons who distributed such to-  
 7 bacco product. If a significant number of such  
 8 persons cannot be identified, the Secretary shall  
 9 notify such persons under section 705(b).

10 “(3) REMEDY NOT EXCLUSIVE.—The remedy  
 11 provided by this subsection shall be in addition to  
 12 remedies provided by subsection (a) of this section.

13 **“SEC. 909. RECORDS AND REPORTS ON TOBACCO PROD-**  
 14 **UCTS.**

15 “(a) IN GENERAL.—Every person who is a tobacco  
 16 product manufacturer or importer of a tobacco product  
 17 shall establish and maintain such records, make such re-  
 18 ports, and provide such information, as the Secretary may  
 19 by regulation reasonably require to assure that such to-  
 20 bacco product is not adulterated or misbranded and to  
 21 otherwise protect public health. Regulations prescribed  
 22 under the preceding sentence—

23 “(1) may require a tobacco product manufac-  
 24 turer or importer to report to the Secretary when-  
 25 ever the manufacturer or importer receives or other-

1 wise becomes aware of information that reasonably  
2 suggests that one of its marketed tobacco products  
3 may have caused or contributed to a serious unex-  
4 pected adverse experience associated with the use of  
5 the product or any significant increase in the fre-  
6 quency of a serious, expected adverse product experi-  
7 ence;

8 “(2) shall require reporting of other significant  
9 adverse tobacco product experiences as determined  
10 by the Secretary to be necessary to be reported;

11 “(3) shall not impose requirements unduly bur-  
12 densome to a tobacco product manufacturer or im-  
13 porter, taking into account the cost of complying  
14 with such requirements and the need for the protec-  
15 tion of the public health and the implementation of  
16 this chapter;

17 “(4) when prescribing the procedure for making  
18 requests for reports or information, shall require  
19 that each request made under such regulations for  
20 submission of a report or information to the Sec-  
21 retary state the reason or purpose for such request  
22 and identify to the fullest extent practicable such re-  
23 port or information;

24 “(5) when requiring submission of a report or  
25 information to the Secretary, shall state the reason

1 or purpose for the submission of such report or in-  
 2 formation and identify to the fullest extent prac-  
 3 ticable such report or information; and

4 “(6) may not require that the identity of any  
 5 patient or user be disclosed in records, reports, or  
 6 information required under this subsection unless re-  
 7 quired for the medical welfare of an individual, to  
 8 determine risks to public health of a tobacco prod-  
 9 uct, or to verify a record, report, or information sub-  
 10 mitted under this chapter.

11 In prescribing regulations under this subsection, the Sec-  
 12 retary shall have due regard for the professional ethics of  
 13 the medical profession and the interests of patients. The  
 14 prohibitions of paragraph (6) continue to apply to records,  
 15 reports, and information concerning any individual who  
 16 has been a patient, irrespective of whether or when he  
 17 ceases to be a patient.

18 “(b) REPORTS OF REMOVALS AND CORRECTIONS.—

19 “(1) IN GENERAL.—Except as provided in para-  
 20 graph (2), the Secretary shall by regulation require  
 21 a tobacco product manufacturer or importer of a to-  
 22 bacco product to report promptly to the Secretary  
 23 any corrective action taken or removal from the  
 24 market of a tobacco product undertaken by such

1 manufacturer or importer if the removal or correc-  
 2 tion was undertaken—

3 “(A) to reduce a risk to health posed by  
 4 the tobacco product; or

5 “(B) to remedy a violation of this chapter  
 6 caused by the tobacco product which may  
 7 present a risk to health.

8 A tobacco product manufacturer or importer of a to-  
 9 bacco product who undertakes a corrective action or  
 10 removal from the market of a tobacco product which  
 11 is not required to be reported under this subsection  
 12 shall keep a record of such correction or removal.

13 “(2) EXCEPTION.—No report of the corrective  
 14 action or removal of a tobacco product may be re-  
 15 quired under paragraph (1) if a report of the correc-  
 16 tive action or removal is required and has been sub-  
 17 mitted under subsection (a).

18 **“SEC. 910. APPLICATION FOR REVIEW OF CERTAIN TO-**  
 19 **BACCO PRODUCTS.**

20 “(a) IN GENERAL.—

21 “(1) NEW TOBACCO PRODUCT DEFINED.—For  
 22 purposes of this section the term ‘new tobacco prod-  
 23 uct’ means—

24 “(A) any tobacco product (including those  
 25 products in test markets) that was not commer-

1 cially marketed in the United States as of June  
2 1, 2003; or

3 “(B) any modification (including a change  
4 in design, any component, any part, or any con-  
5 stituent, including a smoke constituent, or in  
6 the content, delivery or form of nicotine, or any  
7 other additive or ingredient) of a tobacco prod-  
8 uct where the modified product was commer-  
9 cially marketed in the United States after June  
10 1, 2003.

11 “(2) PREMARKET APPROVAL REQUIRED.—

12 “(A) NEW PRODUCTS.—Approval under  
13 this section of an application for premarket ap-  
14 proval for any new tobacco product is required  
15 unless—

16 “(i) the manufacturer has submitted a  
17 report under section 905(j); and

18 “(ii) the Secretary has issued an order  
19 that the tobacco product—

20 “(I) is substantially equivalent to  
21 a tobacco product commercially mar-  
22 keted (other than for test marketing)  
23 in the United States as of June 1,  
24 2003; and

1 “(II)(aa) is in compliance with  
2 the requirements of this Act; or

3 “(bb) is exempt from the require-  
4 ments of section 905(j) pursuant to a  
5 regulation issued under section  
6 905(j)(3).

7 “(B) APPLICATION TO CERTAIN POST  
8 JUNE 1, 2003 PRODUCTS.—Subparagraph (A)  
9 shall not apply to a tobacco product—

10 “(i) that was first introduced or deliv-  
11 ered for introduction into interstate com-  
12 merce for commercial distribution in the  
13 United States after June 1, 2003, and  
14 prior to the date that is 15 months after  
15 the date of enactment of the Family Smok-  
16 ing Prevention and Tobacco Control Act;  
17 and

18 “(ii) for which a report was submitted  
19 under section 905(j) within such 15-month  
20 period, until the Secretary issues an order  
21 that the tobacco product is not substan-  
22 tially equivalent.

23 “(3) SUBSTANTIALLY EQUIVALENT DEFINED.—

24 “(A) IN GENERAL.—In this section and  
25 section 905(j), the terms ‘substantially equiva-

1           lent’ or ‘substantial equivalence’ mean, with re-  
2           spect to the tobacco product being compared to  
3           the predicate tobacco product, that the Sec-  
4           retary by order has found that the tobacco  
5           product—

6                   “(i) has the same characteristics as  
7                   the predicate tobacco product; or

8                   “(ii) has different characteristics and  
9                   the information submitted contains infor-  
10                  mation, including clinical data if deemed  
11                  necessary by the Secretary, that dem-  
12                  onstrates that it is not appropriate to reg-  
13                  ulate the product under this section be-  
14                  cause the product does not raise different  
15                  questions of public health.

16               “(B) CHARACTERISTICS.—In subpara-  
17               graph (A), the term ‘characteristics’ means the  
18               materials, ingredients, design, composition,  
19               heating source, or other features of a tobacco  
20               product.

21               “(C) LIMITATION.—A tobacco product may  
22               not be found to be substantially equivalent to a  
23               predicate tobacco product that has been re-  
24               moved from the market at the initiative of the

1 Secretary or that has been determined by a ju-  
 2 dicial order to be misbranded or adulterated.

3 “(4) HEALTH INFORMATION.—

4 “(A) SUMMARY.—As part of a submission  
 5 under section 905(j) respecting a tobacco prod-  
 6 uct, the person required to file a premarket no-  
 7 tification under such section shall provide an  
 8 adequate summary of any health information  
 9 related to the tobacco product or state that  
 10 such information will be made available upon  
 11 request by any person.

12 “(B) REQUIRED INFORMATION.—Any sum-  
 13 mary under subparagraph (A) respecting a to-  
 14 bacco product shall contain detailed information  
 15 regarding data concerning adverse health ef-  
 16 fects and shall be made available to the public  
 17 by the Secretary within 30 days of the issuance  
 18 of a determination that such tobacco product is  
 19 substantially equivalent to another tobacco  
 20 product.

21 “(b) APPLICATION.—

22 “(1) CONTENTS.—An application for premarket  
 23 approval shall contain—

24 “(A) full reports of all information, pub-  
 25 lished or known to, or which should reasonably

1 be known to, the applicant, concerning inves-  
2 tigations which have been made to show the  
3 health risks of such tobacco product and wheth-  
4 er such tobacco product presents less risk than  
5 other tobacco products;

6 “(B) a full statement of the components,  
7 ingredients, additives, and properties, and of  
8 the principle or principles of operation, of such  
9 tobacco product;

10 “(C) a full description of the methods used  
11 in, and the facilities and controls used for, the  
12 manufacture, processing, and, when relevant,  
13 packing and installation of, such tobacco prod-  
14 uct;

15 “(D) an identifying reference to any to-  
16 bacco product standard under section 907  
17 which would be applicable to any aspect of such  
18 tobacco product, and either adequate informa-  
19 tion to show that such aspect of such tobacco  
20 product fully meets such tobacco product stand-  
21 ard or adequate information to justify any devi-  
22 ation from such standard;

23 “(E) such samples of such tobacco product  
24 and of components thereof as the Secretary  
25 may reasonably require;

1                   “(F) specimens of the labeling proposed to  
2                   be used for such tobacco product; and

3                   “(G) such other information relevant to  
4                   the subject matter of the application as the Sec-  
5                   retary may require.

6                   “(2) REFERENCE TO TOBACCO PRODUCTS SCI-  
7                   ENTIFIC ADVISORY COMMITTEE.—Upon receipt of an  
8                   application meeting the requirements set forth in  
9                   paragraph (1), the Secretary—

10                   “(A) may, on the Secretary’s own initia-  
11                   tive; or

12                   “(B) may, upon the request of an appli-  
13                   cant,

14                   refer such application to the Tobacco Products Sci-  
15                   entific Advisory Committee for reference and for  
16                   submission (within such period as the Secretary may  
17                   establish) of a report and recommendation respect-  
18                   ing approval of the application, together with all un-  
19                   derlying data and the reasons or basis for the rec-  
20                   ommendation.

21                   “(c) ACTION ON APPLICATION.—

22                   “(1) DEADLINE.—

23                   “(A) IN GENERAL.—As promptly as pos-  
24                   sible, but in no event later than 180 days after  
25                   the receipt of an application under subsection

(b), the Secretary, after considering the report and recommendation submitted under paragraph (2) of such subsection, shall—

“(i) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) of this subsection applies; or

“(ii) deny approval of the application if the Secretary finds (and sets forth the basis for such finding as part of or accompanying such denial) that 1 or more grounds for denial specified in paragraph (2) of this subsection apply.

“(B) RESTRICTIONS ON SALE AND DISTRIBUTION.—An order approving an application for a tobacco product may require as a condition to such approval that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d).

“(2) DENIAL OF APPROVAL.—The Secretary shall deny approval of an application for a tobacco product if, upon the basis of the information sub-

1       mitted to the Secretary as part of the application  
2       and any other information before the Secretary with  
3       respect to such tobacco product, the Secretary finds  
4       that—

5               “(A) there is a lack of a showing that per-  
6       mitting such tobacco product to be marketed  
7       would be appropriate for the protection of the  
8       public health;

9               “(B) the methods used in, or the facilities  
10       or controls used for, the manufacture, proc-  
11       essing, or packing of such tobacco product do  
12       not conform to the requirements of section  
13       906(e);

14              “(C) based on a fair evaluation of all mate-  
15       rial facts, the proposed labeling is false or mis-  
16       leading in any particular; or

17              “(D) such tobacco product is not shown to  
18       conform in all respects to a tobacco product  
19       standard in effect under section 907, compli-  
20       ance with which is a condition to approval of  
21       the application, and there is a lack of adequate  
22       information to justify the deviation from such  
23       standard.

24              “(3) DENIAL INFORMATION.—Any denial of an  
25       application shall, insofar as the Secretary determines

1 to be practicable, be accompanied by a statement in-  
 2 forming the applicant of the measures required to  
 3 place such application in approvable form (which  
 4 measures may include further research by the appli-  
 5 cant in accordance with 1 or more protocols pre-  
 6 scribed by the Secretary).

7 “(4) BASIS FOR FINDING.—For purposes of  
 8 this section, the finding as to whether approval of a  
 9 tobacco product is appropriate for the protection of  
 10 the public health shall be determined with respect to  
 11 the risks and benefits to the population as a whole,  
 12 including users and nonusers of the tobacco product,  
 13 and taking into account—

14 “(A) the increased or decreased likelihood  
 15 that existing users of tobacco products will stop  
 16 using such products; and

17 “(B) the increased or decreased likelihood  
 18 that those who do not use tobacco products will  
 19 start using such products.

20 “(5) BASIS FOR ACTION.—

21 “(A) INVESTIGATIONS.—For purposes of  
 22 paragraph (2)(A), whether permitting a tobacco  
 23 product to be marketed would be appropriate  
 24 for the protection of the public health shall,  
 25 when appropriate, be determined on the basis of

1 well-controlled investigations, which may in-  
2 clude 1 or more clinical investigations by ex-  
3 perts qualified by training and experience to  
4 evaluate the tobacco product.

5 “(B) OTHER EVIDENCE.—If the Secretary  
6 determines that there exists valid scientific evi-  
7 dence (other than evidence derived from inves-  
8 tigations described in subparagraph (A)) which  
9 is sufficient to evaluate the tobacco product the  
10 Secretary may authorize that the determination  
11 for purposes of paragraph (2)(A) be made on  
12 the basis of such evidence.

13 “(d) WITHDRAWAL AND TEMPORARY SUSPENSION.—

14 “(1) IN GENERAL.—The Secretary shall, upon  
15 obtaining, where appropriate, advice on scientific  
16 matters from an advisory committee, and after due  
17 notice and opportunity for informal hearing to the  
18 holder of an approved application for a tobacco  
19 product, issue an order withdrawing approval of the  
20 application if the Secretary finds—

21 “(A) that the continued marketing of such  
22 tobacco product no longer is appropriate for the  
23 protection of the public health;

1 “(B) that the application contained or was  
2 accompanied by an untrue statement of a mate-  
3 rial fact;

4 “(C) that the applicant—

5 “(i) has failed to establish a system  
6 for maintaining records, or has repeatedly  
7 or deliberately failed to maintain records  
8 or to make reports, required by an applica-  
9 ble regulation under section 909;

10 “(ii) has refused to permit access to,  
11 or copying or verification of, such records  
12 as required by section 704; or

13 “(iii) has not complied with the re-  
14 quirements of section 905;

15 “(D) on the basis of new information be-  
16 fore the Secretary with respect to such tobacco  
17 product, evaluated together with the evidence  
18 before the Secretary when the application was  
19 approved, that the methods used in, or the fa-  
20 cilities and controls used for, the manufacture,  
21 processing, packing, or installation of such to-  
22 bacco product do not conform with the require-  
23 ments of section 906(e) and were not brought  
24 into conformity with such requirements within a

1 reasonable time after receipt of written notice  
2 from the Secretary of nonconformity;

3 “(E) on the basis of new information be-  
4 fore the Secretary, evaluated together with the  
5 evidence before the Secretary when the applica-  
6 tion was approved, that the labeling of such to-  
7 bacco product, based on a fair evaluation of all  
8 material facts, is false or misleading in any par-  
9 ticular and was not corrected within a reason-  
10 able time after receipt of written notice from  
11 the Secretary of such fact; or

12 “(F) on the basis of new information be-  
13 fore the Secretary, evaluated together with the  
14 evidence before the Secretary when the applica-  
15 tion was approved, that such tobacco product is  
16 not shown to conform in all respects to a to-  
17 bacco product standard which is in effect under  
18 section 907, compliance with which was a con-  
19 dition to approval of the application, and that  
20 there is a lack of adequate information to jus-  
21 tify the deviation from such standard.

22 “(2) APPEAL.—The holder of an application  
23 subject to an order issued under paragraph (1) with-  
24 drawing approval of the application may, by petition  
25 filed on or before the 30th day after the date upon

1       which such holder receives notice of such with-  
2       drawal, obtain review thereof in accordance with  
3       subsection (e).

4           “(3) TEMPORARY SUSPENSION.—If, after pro-  
5       viding an opportunity for an informal hearing, the  
6       Secretary determines there is reasonable probability  
7       that the continuation of distribution of a tobacco  
8       product under an approved application would cause  
9       serious, adverse health consequences or death, that  
10      is greater than ordinarily caused by tobacco prod-  
11      ucts on the market, the Secretary shall by order  
12      temporarily suspend the approval of the application  
13      approved under this section. If the Secretary issues  
14      such an order, the Secretary shall proceed expedi-  
15      tiously under paragraph (1) to withdraw such appli-  
16      cation.

17      “(e) SERVICE OF ORDER.—An order issued by the  
18      Secretary under this section shall be served—

19           “(1) in person by any officer or employee of the  
20      department designated by the Secretary; or

21           “(2) by mailing the order by registered mail or  
22      certified mail addressed to the applicant at the ap-  
23      plicant’s last known address in the records of the  
24      Secretary.

25      “(f) RECORDS.—

1           “(1) ADDITIONAL INFORMATION.—In the case  
2           of any tobacco product for which an approval of an  
3           application filed under subsection (b) is in effect, the  
4           applicant shall establish and maintain such records,  
5           and make such reports to the Secretary, as the Sec-  
6           retary may by regulation, or by order with respect  
7           to such application, prescribe on the basis of a find-  
8           ing that such records and reports are necessary in  
9           order to enable the Secretary to determine, or facili-  
10          tate a determination of, whether there is or may be  
11          grounds for withdrawing or temporarily suspending  
12          such approval.

13           “(2) ACCESS TO RECORDS.—Each person re-  
14          quired under this section to maintain records, and  
15          each person in charge or custody thereof, shall, upon  
16          request of an officer or employee designated by the  
17          Secretary, permit such officer or employee at all rea-  
18          sonable times to have access to and copy and verify  
19          such records.

20           “(g) INVESTIGATIONAL TOBACCO PRODUCT EXEMP-  
21          TION FOR INVESTIGATIONAL USE.—The Secretary may  
22          exempt tobacco products intended for investigational use  
23          from the provisions of this chapter under such conditions  
24          as the Secretary may by regulation prescribe.

1 **“SEC. 911. MODIFIED RISK TOBACCO PRODUCTS.**

2 “(a) IN GENERAL.—No person may introduce or de-  
3 liver for introduction into interstate commerce any modi-  
4 fied risk tobacco product unless approval of an application  
5 filed pursuant to subsection (d) is effective with respect  
6 to such product.

7 “(b) DEFINITIONS.—In this section:

8 “(1) MODIFIED RISK TOBACCO PRODUCT.—The  
9 term ‘modified risk tobacco product’ means any to-  
10 bacco product that is sold or distributed for use to  
11 reduce harm or the risk of tobacco-related disease  
12 associated with commercially marketed tobacco prod-  
13 ucts.

14 “(2) SOLD OR DISTRIBUTED.—

15 “(A) IN GENERAL.—With respect to a to-  
16 bacco product, the term ‘sold or distributed for  
17 use to reduce harm or the risk of tobacco-re-  
18 lated disease associated with commercially mar-  
19 keted tobacco products’ means a tobacco prod-  
20 uct—

21 “(i) the label, labeling, or advertising  
22 of which represents explicitly or implicitly  
23 that—

24 “(I) the tobacco product presents  
25 a lower risk of tobacco-related disease  
26 or is less harmful than one or more

1 other commercially marketed tobacco  
2 products;

3 “(II) the tobacco product or its  
4 smoke contains a reduced level of a  
5 substance or presents a reduced expo-  
6 sure to a substance; or

7 “(III) the tobacco product or its  
8 smoke does not contain or is free of a  
9 substance;

10 “(ii) the label, labeling, or advertising  
11 of which uses the descriptors ‘light’, ‘mild’,  
12 or ‘low’ or similar descriptors; or

13 “(iii) the tobacco product manufac-  
14 turer of which has taken any action di-  
15 rected to consumers through the media or  
16 otherwise, other than by means of the to-  
17 bacco product’s label, labeling or adver-  
18 tising, after the date of enactment of the  
19 Family Smoking Prevention and Tobacco  
20 Control Act, respecting the product that  
21 would be reasonably expected to result in  
22 consumers believing that the tobacco prod-  
23 uct or its smoke may present a lower risk  
24 of disease or is less harmful than one or  
25 more commercially marketed tobacco prod-

1                   ucts, or presents a reduced exposure to, or  
 2                   does not contain or is free of, a substance  
 3                   or substances.

4                   “(B) LIMITATION.—No tobacco product  
 5                   shall be considered to be ‘sold or distributed for  
 6                   use to reduce harm or the risk of tobacco-re-  
 7                   lated disease associated with commercially mar-  
 8                   keted tobacco products’, except as described in  
 9                   subparagraph (A).

10                  “(c) TOBACCO DEPENDENCE PRODUCTS.—A product  
 11                  that is intended to be used for the treatment of tobacco  
 12                  dependence, including smoking cessation, is not a modified  
 13                  risk tobacco product under this section and is subject to  
 14                  the requirements of chapter V.

15                  “(d) FILING.—Any person may file with the Sec-  
 16                  retary an application for a modified risk tobacco product.  
 17                  Such application shall include—

18                         “(1) a description of the proposed product and  
 19                         any proposed advertising and labeling;

20                         “(2) the conditions for using the product;

21                         “(3) the formulation of the product;

22                         “(4) sample product labels and labeling;

23                         “(5) all documents (including underlying sci-  
 24                         entific information) relating to research findings  
 25                         conducted, supported, or possessed by the tobacco

1 product manufacturer relating to the effect of the  
2 product on tobacco-related diseases and health-re-  
3 lated conditions, including information both favor-  
4 able and unfavorable to the ability of the product to  
5 reduce risk or exposure and relating to human  
6 health;

7 “(6) data and information on how consumers  
8 actually use the tobacco product; and

9 “(7) such other information as the Secretary  
10 may require.

11 “(e) PUBLIC AVAILABILITY.—The Secretary shall  
12 make the application described in subsection (d) publicly  
13 available (except matters in the application which are  
14 trade secrets or otherwise confidential, commercial infor-  
15 mation) and shall request comments by interested persons  
16 on the information contained in the application and on the  
17 label, labeling, and advertising accompanying such appli-  
18 cation.

19 “(f) ADVISORY COMMITTEE.—

20 “(1) IN GENERAL.—The Secretary shall refer to  
21 an advisory committee any application submitted  
22 under this subsection.

23 “(2) RECOMMENDATIONS.—Not later than 60  
24 days after the date an application is referred to an  
25 advisory committee under paragraph (1), the advi-

1       sory committee shall report its recommendations on  
2       the application to the Secretary.

3       “(g) APPROVAL.—

4               “(1) MODIFIED RISK PRODUCTS.—Except as  
5       provided in paragraph (2), the Secretary shall ap-  
6       prove an application for a modified risk tobacco  
7       product filed under this section only if the Secretary  
8       determines that the applicant has demonstrated that  
9       such product, as it is actually used by consumers,  
10      will—

11               “(A) significantly reduce harm and the  
12      risk of tobacco-related disease to individual to-  
13      bacco users; and

14               “(B) benefit the health of the population  
15      as a whole taking into account both users of to-  
16      bacco products and persons who do not cur-  
17      rently use tobacco products.

18      “(2) SPECIAL RULE FOR CERTAIN PRODUCTS.—

19               “(A) IN GENERAL.—The Secretary may  
20      approve an application for a tobacco product  
21      that has not been approved as a modified risk  
22      tobacco product pursuant to paragraph (1) if  
23      the Secretary makes the findings required  
24      under this paragraph and determines that the  
25      applicant has demonstrated that—

1 “(i) the approval of the application  
2 would be appropriate to promote the public  
3 health;

4 “(ii) any aspect of the label, labeling,  
5 and advertising for such product that  
6 would cause the tobacco product to be a  
7 modified risk tobacco product under sub-  
8 section (b)(2) is limited to an explicit or  
9 implicit representation that such tobacco  
10 product or its smoke contains or is free of  
11 a substance or contains a reduced level of  
12 a substance, or presents a reduced expo-  
13 sure to a substance in tobacco smoke;

14 “(iii) scientific evidence is not avail-  
15 able and, using the best available scientific  
16 methods, cannot be made available without  
17 conducting long-term epidemiological stud-  
18 ies for an application to meet the stand-  
19 ards set forth in paragraph (1); and

20 “(iv) the scientific evidence that is  
21 available without conducting long-term epi-  
22 demiological studies demonstrates that a  
23 measurable and substantial reduction in  
24 morbidity or mortality among individual

1 tobacco users is anticipated in subsequent  
2 studies.

3 “(B) ADDITIONAL FINDINGS REQUIRED.—

4 In order to approve an application under sub-  
5 paragraph (A) the Secretary must also find  
6 that the applicant has demonstrated that—

7 “(i) the magnitude of the overall re-  
8 ductions in exposure to the substance or  
9 substances which are the subject of the ap-  
10 plication is substantial, such substance or  
11 substances are harmful, and the product as  
12 actually used exposes consumers to the  
13 specified reduced level of the substance or  
14 substances;

15 “(ii) the product as actually used by  
16 consumers will not expose them to higher  
17 levels of other harmful substances com-  
18 pared to the similar types of tobacco prod-  
19 ucts then on the market unless such in-  
20 creases are minimal and the anticipated  
21 overall impact of use of the product re-  
22 mains a substantial and measurable reduc-  
23 tion in overall morbidity and mortality  
24 among individual tobacco users;

1 “(iii) testing of actual consumer per-  
 2 ception shows that, as the applicant pro-  
 3 poses to label and market the product, con-  
 4 sumers will not be misled into believing  
 5 that the product—

6 “(I) is or has been demonstrated  
 7 to be less harmful; or

8 “(II) presents or has been dem-  
 9 onstrated to present less of a risk of  
 10 disease than 1 or more other commer-  
 11 cially marketed tobacco products; and

12 “(iv) approval of the application is ex-  
 13 pected to benefit the health of the popu-  
 14 lation as a whole taking into account both  
 15 users of tobacco products and persons who  
 16 do not currently use tobacco products.

17 “(C) CONDITIONS OF APPROVAL.—

18 “(i) IN GENERAL.—Applications ap-  
 19 proved under this paragraph shall be lim-  
 20 ited to a term of not more than 5 years,  
 21 but may be renewed upon a finding by the  
 22 Secretary that the requirements of this  
 23 paragraph continue to be satisfied based  
 24 on the filing of a new application.

1 “(ii) AGREEMENTS BY APPLICANT.—

2 Applications approved under this para-  
 3 graph shall be conditioned on the appli-  
 4 cant’s agreement to conduct post-market  
 5 surveillance and studies and to submit to  
 6 the Secretary the results of such surveil-  
 7 lance and studies to determine the impact  
 8 of the application approval on consumer  
 9 perception, behavior, and health and to en-  
 10 able the Secretary to review the accuracy  
 11 of the determinations upon which the ap-  
 12 proval was based in accordance with a pro-  
 13 tocol approved by the Secretary.

14 “(iii) ANNUAL SUBMISSION.—The re-  
 15 sults of such post-market surveillance and  
 16 studies described in clause (ii) shall be  
 17 submitted annually.

18 “(3) BASIS.—The determinations under para-  
 19 graphs (1) and (2) shall be based on—

20 “(A) the scientific evidence submitted by  
 21 the applicant; and

22 “(B) scientific evidence and other informa-  
 23 tion that is available to the Secretary.

24 “(4) BENEFIT TO HEALTH OF INDIVIDUALS  
 25 AND OF POPULATION AS A WHOLE.—In making the

1       determinations under paragraphs (1) and (2), the  
2       Secretary shall take into account—

3               “(A) the relative health risks to individuals  
4               of the tobacco product that is the subject of the  
5               application;

6               “(B) the increased or decreased likelihood  
7               that existing users of tobacco products who  
8               would otherwise stop using such products will  
9               switch to the tobacco product that is the subject  
10              of the application;

11              “(C) the increased or decreased likelihood  
12              that persons who do not use tobacco products  
13              will start using the tobacco product that is the  
14              subject of the application;

15              “(D) the risks and benefits to persons  
16              from the use of the tobacco product that is the  
17              subject of the application as compared to the  
18              use of products for smoking cessation approved  
19              under chapter V to treat nicotine dependence;  
20              and

21              “(E) comments, data, and information  
22              submitted by interested persons.

23       “(h) ADDITIONAL CONDITIONS FOR APPROVAL.—

24              “(1) MODIFIED RISK PRODUCTS.—The Sec-  
25       retary shall require for the approval of an applica-

tion under this section that any advertising or labeling concerning modified risk products enable the public to comprehend the information concerning modified risk and to understand the relative significance of such information in the context of total health and in relation to all of the diseases and health-related conditions associated with the use of tobacco products.

“(2) COMPARATIVE CLAIMS.—

“(A) IN GENERAL.—The Secretary may require for the approval of an application under this subsection that a claim comparing a tobacco product to 1 or more other commercially marketed tobacco products shall compare the tobacco product to a commercially marketed tobacco product that is representative of that type of tobacco product on the market (for example the average value of the top 3 brands of an established regular tobacco product).

“(B) QUANTITATIVE COMPARISONS.—The Secretary may also require, for purposes of subparagraph (A), that the percent (or fraction) of change and identity of the reference tobacco product and a quantitative comparison of the amount of the substance claimed to be reduced

1           shall be stated in immediate proximity to the  
2           most prominent claim.

3           “(3) LABEL DISCLOSURE.—

4                 “(A) IN GENERAL.—The Secretary may re-  
5           quire the disclosure on the label of other sub-  
6           stances in the tobacco product, or substances  
7           that may be produced by the consumption of  
8           that tobacco product, that may affect a disease  
9           or health-related condition or may increase the  
10          risk of other diseases or health-related condi-  
11          tions associated with the use of tobacco prod-  
12          ucts.

13                “(B) CONDITIONS OF USE.—If the condi-  
14          tions of use of the tobacco product may affect  
15          the risk of the product to human health, the  
16          Secretary may require the labeling of conditions  
17          of use.

18                “(4) TIME.—The Secretary shall limit an ap-  
19          proval under subsection (g)(1) for a specified period  
20          of time.

21                “(5) ADVERTISING.—The Secretary may re-  
22          quire that an applicant, whose application has been  
23          approved under this subsection, comply with require-  
24          ments relating to advertising and promotion of the  
25          tobacco product.

1 “(i) POSTMARKET SURVEILLANCE AND STUDIES.—

2 “(1) IN GENERAL.—The Secretary shall require  
3 that an applicant under subsection (g)(1) conduct  
4 post market surveillance and studies for a tobacco  
5 product for which an application has been approved  
6 to determine the impact of the application approval  
7 on consumer perception, behavior, and health, to en-  
8 able the Secretary to review the accuracy of the de-  
9 terminations upon which the approval was based,  
10 and to provide information that the Secretary deter-  
11 mines is otherwise necessary regarding the use or  
12 health risks involving the tobacco product. The re-  
13 sults of post-market surveillance and studies shall be  
14 submitted to the Secretary on an annual basis.

15 “(2) SURVEILLANCE PROTOCOL.—Each appli-  
16 cant required to conduct a surveillance of a tobacco  
17 product under paragraph (1) shall, within 30 days  
18 after receiving notice that the applicant is required  
19 to conduct such surveillance, submit, for the ap-  
20 proval of the Secretary, a protocol for the required  
21 surveillance. The Secretary, within 60 days of the  
22 receipt of such protocol, shall determine if the prin-  
23 cipal investigator proposed to be used in the surveil-  
24 lance has sufficient qualifications and experience to  
25 conduct such surveillance and if such protocol will

1 result in collection of the data or other information  
2 designated by the Secretary as necessary to protect  
3 the public health.

4 “(j) WITHDRAWAL OF APPROVAL.—The Secretary,  
5 after an opportunity for an informal hearing, shall with-  
6 draw the approval of an application under this section if  
7 the Secretary determines that—

8 “(1) the applicant, based on new information,  
9 can no longer make the demonstrations required  
10 under subsection (g), or the Secretary can no longer  
11 make the determinations required under subsection  
12 (g);

13 “(2) the application failed to include material  
14 information or included any untrue statement of ma-  
15 terial fact;

16 “(3) any explicit or implicit representation that  
17 the product reduces risk or exposure is no longer  
18 valid, including if—

19 “(A) a tobacco product standard is estab-  
20 lished pursuant to section 907;

21 “(B) an action is taken that affects the  
22 risks presented by other commercially marketed  
23 tobacco products that were compared to the  
24 product that is the subject of the application; or

1           “(C) any postmarket surveillance or stud-  
 2           ies reveal that the approval of the application is  
 3           no longer consistent with the protection of the  
 4           public health;

5           “(4) the applicant failed to conduct or submit  
 6           the postmarket surveillance and studies required  
 7           under subsection (g)(2)(C)(ii) or (i); or

8           “(5) the applicant failed to meet a condition  
 9           imposed under subsection (h).

10          “(k) CHAPTER IV OR V.—A product approved in ac-  
 11          cordance with this section shall not be subject to chapter  
 12          IV or V.

13          “(l) IMPLEMENTING REGULATIONS OR GUIDANCE.—

14                 “(1) SCIENTIFIC EVIDENCE.—Not later than 2  
 15          years after the date of enactment of the Family  
 16          Smoking Prevention and Tobacco Control Act, the  
 17          Secretary shall issue regulations or guidance (or any  
 18          combination thereof) on the scientific evidence re-  
 19          quired for assessment and ongoing review of modi-  
 20          fied risk tobacco products. Such regulations or guid-  
 21          ance shall—

22                 “(A) establish minimum standards for sci-  
 23          entific studies needed prior to approval to show  
 24          that a substantial reduction in morbidity or

1 mortality among individual tobacco users is  
2 likely;

3 “(B) include validated biomarkers, inter-  
4 mediate clinical endpoints, and other feasible  
5 outcome measures, as appropriate;

6 “(C) establish minimum standards for post  
7 market studies, that shall include regular and  
8 long-term assessments of health outcomes and  
9 mortality, intermediate clinical endpoints, con-  
10 sumer perception of harm reduction, and the  
11 impact on quitting behavior and new use of to-  
12 bacco products, as appropriate;

13 “(D) establish minimum standards for re-  
14 quired postmarket surveillance, including ongo-  
15 ing assessments of consumer perception; and

16 “(E) require that data from the required  
17 studies and surveillance be made available to  
18 the Secretary prior to the decision on renewal  
19 of a modified risk tobacco product.

20 “(2) CONSULTATION.—The regulations or guid-  
21 ance issued under paragraph (1) shall be developed  
22 in consultation with the Institute of Medicine, and  
23 with the input of other appropriate scientific and  
24 medical experts, on the design and conduct of such  
25 studies and surveillance.

1           “(3) REVISION.—The regulations or guidance  
2           under paragraph (1) shall be revised on a regular  
3           basis as new scientific information becomes avail-  
4           able.

5           “(4) NEW TOBACCO PRODUCTS.—Not later  
6           than 2 years after the date of enactment of the  
7           Family Smoking Prevention and Tobacco Control  
8           Act, the Secretary shall issue a regulation or guid-  
9           ance that permits the filing of a single application  
10          for any tobacco product that is a new tobacco prod-  
11          uct under section 910 and for which the applicant  
12          seeks approval as a modified risk tobacco product  
13          under this section.

14          “(m) DISTRIBUTORS.—No distributor may take any  
15          action, after the date of enactment of the Family Smoking  
16          Prevention and Tobacco Control Act, with respect to a to-  
17          bacco product that would reasonably be expected to result  
18          in consumers believing that the tobacco product or its  
19          smoke may present a lower risk of disease or is less harm-  
20          ful than one or more commercially marketed tobacco prod-  
21          ucts, or presents a reduced exposure to, or does not con-  
22          tain or is free of, a substance or substances.

23       **“SEC. 912. JUDICIAL REVIEW.**

24          “(a) RIGHT TO REVIEW.—

1           “(1) IN GENERAL.—Not later than 30 days  
2 after—

3           “(A) the promulgation of a regulation  
4 under section 907 establishing, amending, or  
5 revoking a tobacco product standard; or

6           “(B) a denial of an application for ap-  
7 proval under section 910(c),  
8 any person adversely affected by such regulation or  
9 denial may file a petition for judicial review of such  
10 regulation or denial with the United States Court of  
11 Appeals for the District of Columbia or for the cir-  
12 cuit in which such person resides or has their prin-  
13 cipal place of business.

14           “(2) REQUIREMENTS.—
