Whereas 40 percent of those reporting an unwanted exposure to sexual material told a parent;

Whereas child predators victimize children over the Internet both by enticing them through online contact for the purpose of engaging them in sexual acts and by exploiting them for sexual tourism (travel with the intent to engage in sexual behavior) for commercial gain;

Whereas child predators also use the Internet to produce, manufacture, and distribute child pornography, to expose young people to child pornography, and to encourage them to exchange pornography;
