

110TH CONGRESS
1ST SESSION

S. 1137

To authorize grants to carry out projects to provide education on preventing teen pregnancies, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 17, 2007

Mr. MENENDEZ (for himself, Mr. BAUCUS, and Ms. CANTWELL) introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To authorize grants to carry out projects to provide education on preventing teen pregnancies, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Teen Pregnancy Pre-
5 vention, Responsibility, and Opportunity Act of 2007”.

6 **SEC. 2. FINDINGS.**

7 Congress finds as follows:

8 (1) The United States has the highest teen-
9 pregnancy rate and teen birth rate in the western in-

1 industrialized world, costing the United States not less
2 than \$7,000,000,000 annually.

3 (2) About 1 out of 3 of all young women in the
4 United States becomes pregnant before she reaches
5 the age of 20.

6 (3) Teen pregnancy has serious consequences
7 for young women, their children, and communities
8 as a whole. Too-early childbearing increases the like-
9 lihood that a young woman will drop out of high
10 school and that she and her child will live in poverty.

11 (4) Statistically, the sons of teen mothers are
12 more likely to end up in prison. The daughters of
13 teen mothers are more likely to end up teen mothers
14 too.

15 (5) Teens that grow up in disadvantaged eco-
16 nomical, social, and familial circumstances are more
17 likely to engage in risky behavior and have a child
18 during adolescence.

19 (6) Teens with strong emotional attachments to
20 their parents are more likely to become sexually ac-
21 tive at a later age. 7 out of 10 teens say that they
22 are prepared to listen to things parents thought they
23 were not ready to hear.

24 (7) 78 percent of white and 70 percent of Afri-
25 can American teenagers report that lack of commu-

1 nication between a teenage girl and her parents is
2 frequently a reason a teenage girl has a baby.

3 (8) One study found that the likelihood of teens
4 having sex for the first time increased with the num-
5 ber of unsupervised hours teens have during a week.

6 (9) After-school programs reduce teen risky be-
7 havior by involving teens in activities that provide al-
8 ternatives to sex. Teenage girls who play sports, for
9 instance, are more likely to delay sex and have fewer
10 partners and less likely to become pregnant.

11 (10) After-school programs help prevent teen
12 pregnancy by advancing good decision-making skills
13 and providing teens health education and positive
14 role models in a supervised setting.

15 (11) 8 in 10 girls and 6 in 10 boys report that
16 they wish they had waited until they were older to
17 have sex.

18 **SEC. 3. EDUCATION PROGRAM FOR PREVENTING TEEN**
19 **PREGNANCIES.**
