4 the general population and a rapidly growing aging  
5 portion of the population.

6 (2) The calls for reduction in medical errors, in-  
7 creased patient safety, and quality of care have re-  
8 sulted in an amplified call for allied health profes-  
9 sionals to provide health care services.

10 (3) Several allied health professions are charac-  
11 terized by workforce shortages, declining enrollments  
12 in allied health education programs, or a combina-  
13 tion of both factors, and hospital officials have re-  
14 ported vacancy rates in positions occupied by allied  
15 health professionals.

17 facing significant economic pressure that could force  
18 their closure due to an insufficient number of stu-  
19 dents.

20 (b) PURPOSE.—It is the purpose of this Act to pro-  
21 vide incentives for individuals to seek and complete high  
22 quality allied health education and training and provide  
23 additional funding to ensure that such education and
