

S. CON. RES. 93

CONCURRENT RESOLUTION

Whereas sudden cardiac arrest is a leading cause of death in the United States;

Whereas sudden cardiac arrest takes the lives of more than 250,000 people in the United States each year, according to the Heart Rhythm Society;

Whereas anyone can experience sudden cardiac arrest, including infants, high school athletes, and people in their 30s and 40s who have no sign of heart disease;

Whereas sudden cardiac arrest is extremely deadly, with the National Heart, Lung, and Blood Institute giving the disease a mortality rate of approximately 95 percent;

Whereas to have a chance of surviving an attack, the American Heart Association states that victims of sudden cardiac arrest must receive a lifesaving defibrillation within the first 4 to 6 minutes of an attack;

Whereas for every minute that passes without a shock from an automated external defibrillator, the chance of survival decreases by approximately 10 percent;

Whereas lifesaving treatments for sudden cardiac arrest are effective if administered in time;

Whereas according to joint research by the American College of Cardiology and the American Heart Association, implantable cardioverter defibrillators are 98 percent ef-

fective at protecting people at risk for sudden cardiac arrest;

Whereas according to the American Heart Association, cardiopulmonary resuscitation and early defibrillation with an automated external defibrillator more than double the chances that a victim will survive;

Whereas the Yale-New Haven Hospital and the New England Journal of Medicine state that women and African-Americans are at a higher risk than the general population for dying as a result of sudden cardiac arrest, yet this fact is not well known to people at risk;

Whereas there is a need for comprehensive educational efforts designed to increase awareness of sudden cardiac arrest and related therapies among medical professionals and the greater public in order to promote early detection and proper treatment of this disease and to improve quality of life; and

Whereas the Heart Rhythm Society and the Sudden Cardiac Arrest Coalition are preparing related public awareness and education campaigns on sudden cardiac arrest to be held each year during the month of October: Now, therefore, be it

1 *Resolved by the Senate (the House of Representatives*
2 *concurring)*, That Congress—

3 (1) supports the goals and ideals of “National
4 Sudden Cardiac Arrest Awareness Month”;

5 (2) supports efforts to educate people about
6 sudden cardiac arrest and to raise awareness about
7 the risk of sudden cardiac arrest, identifying warn-

1 ing signs, and the need to seek medical attention in
2 a timely manner;

3 (3) acknowledges the critical importance of sud-
4 den cardiac arrest awareness to improving national
5 cardiovascular health; and

6 (4) calls upon the people of the United States
7 to observe this month with appropriate programs
8 and activities.

 Passed the Senate September 22 (legislative day,
September 17), 2008.

Attest:

Secretary.

110TH CONGRESS
2D SESSION

S. CON. RES. 93

CONCURRENT RESOLUTION

Supporting the goals and ideals of “National
Sudden Cardiac Arrest Awareness Month”.
