## 110TH CONGRESS 2D SESSION

## S. RES. 510

Supporting the goals and ideals of National Cystic Fibrosis Awareness Month.

## IN THE SENATE OF THE UNITED STATES

APRIL 10, 2008

Mrs. Murray (for herself, Mr. Inhofe, and Mr. Menendez) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions

APRIL 24, 2008
Committee discharged; considered and agreed to

## **RESOLUTION**

Supporting the goals and ideals of National Cystic Fibrosis Awareness Month.

- Whereas cystic fibrosis is one of the most common life-threatening genetic diseases in the United States and one for which there is no known cure;
- Whereas the average life expectancy of an individual with cystic fibrosis is 37 years, an improvement from a life expectancy in the 1960s where children did not live long enough to attend elementary school, but still unacceptably short;
- Whereas approximately 30,000 people in the United States have cystic fibrosis, more than half of them children;

- Whereas 1 of every 3,500 babies born in the United States is born with cystic fibrosis;
- Whereas more than 10,000,000 Americans are unknowing, symptom-free carriers of the cystic fibrosis gene;
- Whereas the Centers for Disease Control and Prevention recommend that all States consider newborn screening for cystic fibrosis;
- Whereas the Cystic Fibrosis Foundation urges all States to implement newborn screening for cystic fibrosis to facilitate early diagnosis and treatment which improves health and life expectancy;
- Whereas prompt, aggressive treatment of the symptoms of cystic fibrosis can extend the lives of people who have the disease;
- Whereas recent advances in cystic fibrosis research have produced promising leads in gene, protein, and drug therapies beneficial to people who have the disease;
- Whereas innovative research is progressing faster and is being conducted more aggressively than ever before, due, in part, to the Cystic Fibrosis Foundation's establishment of a model clinical trials network;
- Whereas, although the Cystic Fibrosis Foundation continues to fund a research pipeline for more than 30 potential therapies and funds a nationwide network of care centers that extend the length and quality of life for people with cystic fibrosis, lives continue to be lost to this disease every day;
- Whereas education of the public about cystic fibrosis, including the symptoms of the disease, increases knowledge and understanding of cystic fibrosis and promotes early diagnosis; and

Whereas the Cystic Fibrosis Foundation will conduct activities to honor National Cystic Fibrosis Awareness Month in May 2008: Now, therefore, be it

1 Resolved, That the Senate—

- (1) honors the goals and ideals of National Cystic Fibrosis Awareness Month;
- 4 (2) supports the promotion of further public 5 awareness and understanding of cystic fibrosis;
  - (3) encourages early diagnosis and access to quality care for people with cystic fibrosis to improve the quality of their lives; and
  - (4) supports research to find a cure for cystic fibrosis by fostering an enhanced research program through a strong Federal commitment and expanded public-private partnerships.
