

111TH CONGRESS
1ST SESSION

H. R. 3793

To establish the Council on Healthy Housing, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

OCTOBER 13, 2009

Mr. BRADY of Pennsylvania introduced the following bill; which was referred to the Committee on Financial Services

A BILL

To establish the Council on Healthy Housing, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Healthy Housing
5 Council Act of 2009”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) In the United States—

9 (A) 5,700,000 households live in homes
10 with moderate or severe physical hazards;

1 (B) 23,000,000 homes have significant
2 lead-based paint hazards;

3 (C) 8,700,000 homes have had leaks in the
4 last 12 months;

5 (D) 6,000,000 homes have had signs of
6 mice in the last 3 months; and

7 (E) 1 in 15 homes have dangerous levels of
8 radon.

9 (2) Residents of housing that is poorly de-
10 signed, constructed, or maintained are at risk for
11 cancer, carbon monoxide poisoning, burns, falls, ro-
12 dent bites, childhood lead poisoning, asthma, and
13 other illnesses and injuries. Vulnerable subpopula-
14 tions, such as children and the elderly, are at ele-
15 vated risk for housing-related illnesses and injuries.

16 (3) Because substandard housing typically
17 poses the greatest risks, the disparities in the dis-
18 tribution of housing-related health hazards are strik-
19 ing. One million two-hundred thousand housing
20 units with significant lead-based paint hazards house
21 low-income families with children under 6 years of
22 age.

23 (4) Housing-related illnesses, including asthma
24 and lead poisoning, disproportionately affect children
25 from lower-income families and from specific racial

1 and ethnic groups. In 2005, 13 percent of Black
2 children were reported to have asthma, as compared
3 with 9 percent of both Hispanic and White children.
4 Black children are twice as likely to die from resi-
5 dential injuries as White children, and 3 percent of
6 Black children and 2 percent of Mexican-American
7 children have elevated blood lead levels, as compared
8 to only 1.3 percent of White children.

9 (5) The annual costs for environmentally attrib-
10 utable childhood diseases in the United States, in-
11 cluding lead poisoning, asthma, and cancer, total
12 \$54,900,000,000. This amount is approximately 3
13 percent of total health care costs.

14 (6) Appropriate housing design, construction,
15 and maintenance, timely correction of deficiencies,
16 planning efforts, and low-cost preventative measures
17 can reduce the incidence of serious injury or death,
18 improve the ability of residents to survive in the
19 event of a major catastrophe, and contribute to over-
20 all well-being and mental health. Housing units that
21 are kept lead-safe are approximately 25 percent less
22 likely to have another child with elevated blood lead
23 levels. Properly installed and maintained smoke
24 alarms reduce the risk of fire deaths by 50 percent.

1 (7) Providing healthy housing to families and
2 individuals in the United States will help prevent an
3 estimated 240,000 elevated blood lead levels in
4 young children, 11,000 unintentional injury deaths,
5 12,000,000 nonfatal injuries, 3,000 deaths in house
6 fires, 14,000 burn injuries, and 21,000 radon-associ-
7 ated lung cancer deaths that occur in United States
8 housing each year, as well as 20,000,000 asthma
9 cases and 14,000,000 missed school days.

10 (8) While there are many programs in place to
11 address housing-related health hazards, these pro-
12 grams are fragmented and spread across many agen-
13 cies, making it difficult for at-risk families and indi-
14 viduals to access assistance or to receive comprehen-
15 sive information.

16 (9) Better coordination among Federal agencies
17 is needed, as is better coordination at State and
18 local levels, to ensure that families and individuals
19 can access government programs and services in an
20 effective and efficient manner.
