

111TH CONGRESS
1ST SESSION

H. R. 4354

To recruit, support, and prepare principals to improve student academic achievement at high-need schools.

IN THE HOUSE OF REPRESENTATIVES

DECEMBER 16, 2009

Mrs. DAVIS of California (for herself and Mr. PLATTS) introduced the following bill; which was referred to the Committee on Education and Labor

A BILL

To recruit, support, and prepare principals to improve student academic achievement at high-need schools.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “School Principal Re-
5 cruitment and Training Act of 2009”.

6 **SEC. 2. PURPOSE.**

7 The purpose of this Act is to recruit, support, and
8 prepare principals to improve student academic achieve-
9 ment at high-need schools.

1 **SEC. 3. FINDINGS.**

2 Congress finds the following:

3 (1) Research shows that school leadership qual-
4 ity is second only to teacher quality among school-
5 related factors in its impact on student learning.

6 (2) While teacher quality has the greatest im-
7 pact on student learning, principal quality is a key
8 determinant of whether schools can attract and re-
9 tain effective teachers.

10 (3) Many districts have reported shortages of
11 qualified principals. In most areas of the country,
12 the problem is not a shortage of certified principals,
13 but rather a shortage of qualified principals who are
14 willing to take on the challenge of working in high-
15 need schools and underserved communities.

16 (4) The quality of preparation that principals
17 receive influences their willingness to take on the
18 challenge of leading high-need schools. It also influ-
19 ences their ability to succeed and their willingness to
20 remain in their positions. Investing in principal
21 preparation is therefore critical to satisfying the de-
22 mand for qualified principals in high-need schools,
23 and decreasing the turnover rate among principals
24 in those schools.

25 (5) The Stanford Educational Leadership Insti-
26 tute recently found that principals who participated

1 in high-quality pre- and in-service leadership devel-
2 opment programs feel significantly better prepared
3 for virtually every aspect of principal practice, are
4 more committed to staying in their jobs, spend more
5 time on instructionally focused work, and make de-
6 veloping and supporting their teachers a priority.

7 (6) Most high-need school districts lack ade-
8 quate strategies for identifying school staff who
9 demonstrate the potential to be effective principals,
10 preparing them to lead high-need schools, and sup-
11 porting them once they commence their work as
12 principals.

13 (7) Principals need both management and in-
14 structional leadership skills to be effective. Yet most
15 principal preparation programs fail to devote ade-
16 quate attention and resources to training principals
17 in instructional leadership.

18 (8) Without effective principals, struggling
19 schools will have difficulty using resources provided
20 under the Elementary and Secondary Education Act
21 of 1965 and other Federal laws to improve student
22 learning.

1 **SEC. 4. PROGRAM ESTABLISHMENT AND ACTIVITIES.**

2 Part A of title II of the Elementary and Secondary
3 Education Act of 1965 (20 U.S.C. 6601 et seq.) is amend-
4 ed by adding at the end the following:

5 **“Subpart 6—Principal Recruitment and Training**
6 **Grant Program**
