

111TH CONGRESS  
1ST SESSION

# H. R. 980

To designate certain National Forest System lands and public lands under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes.

---

## IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 11, 2009

Mrs. MALONEY (for herself, Mr. GRIJALVA, Mr. BACA, Ms. BORDALLO, Mrs. CAPPS, Mr. CARNAHAN, Mr. CARSON of Indiana, Mr. CHANDLER, Mrs. CHRISTENSEN, Mr. COSTA, Mr. GUTIERREZ, Mr. HINCHEY, Ms. HIRONO, Mr. INSLEE, Mr. KUCINICH, Mr. LANGEVIN, Mrs. LOWEY, Mr. MARKEY of Massachusetts, Ms. MCCOLLUM, Mr. GEORGE MILLER of California, Mr. MOORE of Kansas, Mr. NADLER of New York, Mrs. NAPOLITANO, Mr. RAHALL, Mr. SCOTT of Georgia, Mr. SERRANO, Mr. WAXMAN, Mr. BERMAN, Ms. SCHWARTZ, Mr. JONES, Mr. MEEKS of New York, Mr. STARK, Ms. WATERS, Mr. SHERMAN, Mr. ACKERMAN, Ms. CORRINE BROWN of Florida, Mr. CLEAVER, Ms. DELAURO, Ms. LEE of California, Mr. CUMMINGS, and Mr. LANCE) introduced the following bill; which was referred to the Committee on Natural Resources

---

## A BILL

To designate certain National Forest System lands and public lands under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
 2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
 5 “Northern Rockies Ecosystem Protection Act”.

6 (b) TABLE OF CONTENTS.—The table of contents of  
 7 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings.
- Sec. 3. Purposes.
- Sec. 4. Definitions.

TITLE I—DESIGNATION OF WILDERNESS AREAS

- Sec. 101. Designation of certain National Forest System lands, National Park System lands, and Bureau of Land Management lands as wilderness.
- Sec. 102. Greater Glacier/Northern Continental Divide ecosystem.
- Sec. 103. Greater Yellowstone ecosystem.
- Sec. 104. Greater Salmon/Selway ecosystem.
- Sec. 105. Greater Cabinet/Yaak/Selkirk ecosystem.
- Sec. 106. Greater Hells Canyon ecosystem.
- Sec. 107. Islands in the Sky Wilderness.
- Sec. 108. Blackfoot Wilderness.
- Sec. 109. Administration.
- Sec. 110. Water.

TITLE II—BIOLOGICAL CONNECTING CORRIDORS

- Sec. 201. Findings.
- Sec. 202. Designation of biological connecting corridors.
- Sec. 203. Treatment of biological connecting corridors.
- Sec. 204. Applicability of title.
- Sec. 205. Cooperative agreements and land trades and acquisitions.
- Sec. 206. Exemption of certain roads and highways.

TITLE III—WILD AND SCENIC RIVERS DESIGNATIONS

- Sec. 301. Designation of wild and scenic rivers in Idaho, Montana, and Wyoming.

TITLE IV—NATIONAL WILDLAND RESTORATION AND RECOVERY SYSTEM

- Sec. 401. Findings.
- Sec. 402. Definitions.
- Sec. 403. National Wildland Restoration and Recovery System.
- Sec. 404. Management of Recovery System.
- Sec. 405. National Wildland Recovery Corps.

## TITLE V—IMPLEMENTATION AND MONITORING

- Sec. 501. Implementation report.
- Sec. 502. Interagency team.
- Sec. 503. Roadless lands evaluation.
- Sec. 504. Native American uses.

## TITLE VI—RULES OF CONSTRUCTION

- Sec. 601. Water rights.
- Sec. 602. Indian tribes.

**1 SEC. 2. FINDINGS.**

2 The Congress makes the following findings:

3 (1) Many areas of undeveloped National Forest  
4 System lands, National Park System lands, and  
5 public lands administered by the Bureau of Land  
6 Management in the States of Idaho, Montana, Or-  
7 egon, Washington, and Wyoming possess out-  
8 standing natural characteristics which give them  
9 high values as wilderness, parks, and wild and scenic  
10 rivers and will, if properly preserved, be an enduring  
11 resource of wilderness, wild land areas, and biodiver-  
12 sity for the benefit of the American people.

13 (2) The Northern Rockies Bioregion contains  
14 the most diverse array of wild lands remaining south  
15 of Canada, providing sanctuary for a host of species  
16 listed as threatened or endangered under section  
17 4(c) of the Endangered Species Act of 1973 (16  
18 U.S.C. 1533(c)). These national interest public lands  
19 are among the most popular wild lands in the  
20 United States, embracing greater ecosystems and

1 national treasures such as the Greater Yellowstone,  
2 Greater Glacier/Northern Continental Divide, Great-  
3 er Hells Canyon/Wallowa, Greater Salmon/Selway,  
4 and Greater Cabinet/Yaak/Selkirk ecosystems.

5 (3) The natural ecosystems in the Northern  
6 Rockies Bioregion are largely dependent on National  
7 Forest System lands, National Park System lands,  
8 and public lands administered by the Bureau of  
9 Land Management, and the ecological productivity  
10 and diversity of resources these Federal public lands  
11 provide. Conservation of roadless areas on these  
12 public lands, which produces clean water, protects  
13 native fisheries and native flora and fauna, and pro-  
14 vides scenic and recreational qualities, also preserves  
15 options for sustainable economics through activities  
16 such as hunting, fishing, and wilderness-based recre-  
17 ation.

18 (4) The headwaters of several major river sys-  
19 tems, including the Columbia, Snake, Green, Mis-  
20 souri and Saskatchewan Rivers, originate in the  
21 Northern Rockies Bioregion, and these rivers send  
22 their waters to three different oceans. These waters  
23 are of tremendous economic importance to farming  
24 and ranching operations, municipal water supplies,  
25 and water-based recreation, including fishing and

1 boating. Protection of this world class water re-  
2 source will enhance these uses, reduce costs for  
3 water treatment and irrigation, and increase native  
4 fish populations.

5 (5) The wildlife treasures of the Northern  
6 Rockies are of international significance and contain  
7 remarkably intact large mammalian fauna and rare  
8 and unique plant life. Wildlife habitat fragmentation  
9 due to roadbuilding, timber harvest, mining, oil and  
10 gas exploration, lack of interagency cooperation, and  
11 other activities has severe effects on the wildlife pop-  
12 ulations (including those listed as threatened or en-  
13 dangered under section 4(c) of the Endangered Spe-  
14 cies Act of 1973 (16 U.S.C. 1533(c))) and their  
15 habitat, the water quality, the ancient forests, and  
16 the greater ecosystems of the Northern Rockies Bio-  
17 region. The overemphasis on resource extraction  
18 from National Forest System lands and public lands  
19 administered by the Bureau of Land Management  
20 has compromised ecosystem integrity and detracted  
21 from economic diversification opportunities. Eco-  
22 nomic instability and high unemployment in rural,  
23 resource-dependent communities is a common result  
24 of overexploitation of these lands.

1           (6) Continued fragmentation and development  
2 of the remaining roadless and essentially roadless  
3 ecosystems and biological connectors of the Northern  
4 Rockies would cause a loss to the Nation of an en-  
5 tire wild land region and of the only remaining areas  
6 south of Canada still pristine enough to support  
7 populations of caribou, gray wolves, grizzly bears,  
8 anadromous fish, and numerous other rare and en-  
9 dangered plant and animal life all in one intact bio-  
10 region.

11           (7) Since the 1936 roadless area inventory com-  
12 pleted by Bob Marshall, millions of acres of roadless  
13 wild lands have been developed in the Northern  
14 Rockies. Extensive fragmentation of wild lands and  
15 wildlife habitat has resulted in the listing of several  
16 species as threatened or endangered and reduced the  
17 numbers and range of many others, including anad-  
18 romous fish.

19           (8) The natural ecosystems of the Northern  
20 Rockies Bioregion also serve as educational and re-  
21 search centers for on-site studies in biology, geology,  
22 astronomy and other sciences. The pristine nature of  
23 the National Forest System lands, National Park  
24 System lands, and public lands administered by the  
25 Bureau of Land Management in the Northern Rock-

1 ies Bioregion helps local communities attract new  
2 residents and businesses based on local quality of  
3 life.

4 (9) A review of the current situation in the  
5 Northern Rockies has revealed the urgent need for  
6 an ecological reserve system for the Northern Rock-  
7 ies Bioregion, which includes core ecosystem reserve  
8 areas and biological connecting corridors necessary  
9 to ensure wildlife movements and genetic inter-  
10 change between the core reserve areas. Wildlife free-  
11 dom of movement has always been essential to the  
12 survival of wildlife species, and an increasing num-  
13 ber of scientific studies have identified movement  
14 corridors as a necessity for wildlife conservation in  
15 a changing climate. Several foreign governments, in-  
16 cluding the governments of Australia and Scotland,  
17 have announced plans for corridors that would make  
18 wildlife movement possible as climate pressures in-  
19 crease. The concept of connective corridors for wild-  
20 life movement has been endorsed by governors of  
21 States in the western United States, and is now  
22 widely recognized by conservation and scientific or-  
23 ganizations. For example, freedom of movement for  
24 wildlife is basic to the emerging new science of  
25 “Movement Ecology” described in a December 2008

1 Proceedings of the National Academy of Sciences.  
2 This freedom of wildlife movement was a funda-  
3 mental reason for the Act's development and intro-  
4 duction, and has become an increasingly high profile  
5 issue in the climate and biological sciences

6 (10) The economic value to the Nation of most  
7 of these undeveloped areas, left in their natural  
8 state, greatly exceeds any potential return to the  
9 Treasury of the United States from timber harvest  
10 and development. If current Federal land manage-  
11 ment in the Northern Rockies continues to result in  
12 the development of roadless areas, the American  
13 public will be using its tax dollars to fund perma-  
14 nent reductions in wilderness, water quality, fish and  
15 wildlife habitat, and species and biological diversity.

16 (11) Instead, this Act provides opportunities for  
17 employment in outdoor trades by establishing reha-  
18 bilitation zones on specific tracts of damaged Fed-  
19 eral land where active restoration work will occur.  
20 This Act will provide contracts for local businesses  
21 and renew the intrinsic economic, social and cultural  
22 benefits that result from productive land. Federal  
23 land rehabilitation projects represent a direct benefit  
24 to the local economy and reduce the loss to Amer-

1        ican taxpayers caused by below-cost timber sales and  
2        other subsidized resource extraction.

3            (12) The congressional review of roadless areas  
4        within the National Forest System, National Park  
5        System, and public lands administered by the Bu-  
6        reau of Land Management in the States of Idaho,  
7        Montana, Oregon, Washington, and Wyoming has  
8        identified areas which, on the basis of their land  
9        form, ecosystem, associated fish and wildlife, eco-  
10       nomic value, and location will help to fulfill the role  
11       of the United States Forest Service, National Park  
12       Service, and Bureau of Land Management to ensure  
13       a quality National Wilderness Preservation System.  
14       The review has identified other areas which may  
15       have outstanding values as wild and scenic rivers.  
16       The review has also identified areas which may not  
17       possess outstanding wilderness attributes and should  
18       not now be designated as components of the Na-  
19       tional Wilderness Preservation System, but which  
20       should be studied to determine their role in main-  
21       taining biological diversity in the Northern Rockies.

22            (13) Many areas of National Forest System  
23        lands and public lands administered by the Bureau  
24        of Land Management have been damaged and their  
25        productivity reduced by unwise development prac-

1 tices, which have also impaired ecosystem function  
2 and biological diversity. The Island Park area adja-  
3 cent to Yellowstone National Park contains large  
4 clear-cut areas right up to the park boundary. Ef-  
5 forts should be made to return these areas to their  
6 former ecological health and native diversity by des-  
7 ignating them as components of a new National  
8 Wildland Restoration and Recovery System. These  
9 efforts should seek to ensure that vital ecosystem  
10 components are restored, especially in areas where  
11 wildlife travel corridors and native fish and wildlife  
12 populations have been damaged or eliminated. Res-  
13 toration efforts should seek to ensure and maintain  
14 genetic interchange, biological diversity, and restora-  
15 tion of native species diversity throughout the  
16 Northern Rockies Bioregion.

17 (14) Backcountry areas of the National Park  
18 System have been damaged by inappropriate man-  
19 agement, despite policies that require that rec-  
20 ommended wilderness be administered as wilderness.  
21 An emphasis on structures and motorized equip-  
22 ment, and in some instances developed  
23 “backcountry” campsites, have all detracted from  
24 and degraded the wilderness character of these  
25 backcountry areas.

1           (15) Federal agencies entrusted with managing  
2           the natural resources of the Northern Rockies Bio-  
3           region operate under contradictory congressional  
4           mandates, and thus are in dissension over manage-  
5           ment policies which involve common resources and  
6           greater ecosystems. Existing agency structures and  
7           regulatory mechanisms have proven unsatisfactory  
8           for responsible management of nationally important  
9           ecosystems on public lands. Existing laws and regu-  
10          lations have not been sufficient to establish and  
11          maintain agency accountability for public resources.

12           (16) This Act does not affect private existing  
13          rights.

14 **SEC. 3. PURPOSES.**

15          (a) IN GENERAL.—The purposes of this Act are—

16           (1) to designate certain National Forest System  
17           lands, certain National Park System lands, and cer-  
18           tain public lands administered by the Bureau of  
19           Land Management in the States of Idaho, Montana,  
20           Oregon, Washington, and Wyoming as components  
21           of the National Wilderness Preservation System;

22           (2) to designate certain National Forest System  
23           lands, public lands administered by the Bureau of  
24           Land Management, and watercourses on these lands  
25           in the States of Montana, Idaho, and Wyoming as

1 components of the National Wild and Scenic Rivers  
2 System;

3 (3) to establish a pilot system of National  
4 Wildland Restoration and Recovery Areas and a  
5 Wildlands Recovery Corps to help restore biological  
6 diversity and native species; and

7 (4) to establish a system of biological con-  
8 necting corridors between the core ecosystems in the  
9 Northern Rockies Bioregion.

10 (b) PURPOSE OF DESIGNATIONS.—The designations  
11 made by this Act are made in order to—

12 (1) promote, perpetuate, and preserve the wil-  
13 derness character of the area so designated;

14 (2) protect water quality, watersheds, and wild-  
15 life habitat, including that of species listed as threat-  
16 ened or endangered under section 4(c) of the Endan-  
17 gered Species Act of 1973 (16 U.S.C. 1533(c));

18 (3) protect the ecological integrity and con-  
19 tiguity of major wild land ecosystems and their  
20 interconnecting corridors identified by the United  
21 States Fish and Wildlife Service, and other sources;

22 (4) protect and maintain biological and native  
23 species diversity and dispersal throughout the  
24 Northern Rockies Bioregion;

1           (5) promote and ensure interagency cooperation  
2           in the implementation of integrated, holistic eco-  
3           system management and protection of the eco-  
4           systems and corridors covered by this Act based  
5           upon principles from conservation biology;

6           (6) preserve scenic, historic, and cultural re-  
7           sources;

8           (7) promote scientific research, primitive recre-  
9           ation, solitude, physical and mental challenge, and  
10          inspiration for the benefit of all of the American  
11          people;

12          (8) avoid the misinvestment of scarce capital in  
13          lands of marginal timber value; and

14          (9) promote ecologically and economically sus-  
15          tainable management in the Northern Rockies Bio-  
16          region.

17 **SEC. 4. DEFINITIONS.**

18          For purposes of this Act:

19           (1) DEVELOPMENT.—The term “development”  
20           means activities that eliminate the roadless and wil-  
21           derness characteristics of the land and includes ski  
22           resort facilities and such activities as roadbuilding,  
23           timber harvest, mining, and oil and gas drilling.

24           (2) GREATER ECOSYSTEM.—The term “greater  
25           ecosystem”, when used in conjunction with the spe-

1 cific ecosystems protected under this Act, means the  
2 ecological land units of sufficient scale to support  
3 and maintain populations of large vertebrate species  
4 and the other native plant and animal species of the  
5 units. These units are comprised of lands which are  
6 similar in regards to topography, climate, and plant  
7 and animal species. The ecosystems in the Northern  
8 Rockies are also defined in terms of the habitat of  
9 wildlife indicator species listed as threatened or en-  
10 dangered under section 4(c) of the Endangered Spe-  
11 cies Act of 1973 (16 U.S.C. 1533(c)), including griz-  
12 zly bear, gray wolf, bald eagle, and caribou, and  
13 have been depicted on maps published by Federal  
14 agencies.

15 (3) NORTHERN ROCKIES BIOREGION.—The  
16 term “Northern Rockies Bioregion” means the por-  
17 tion of the Northern Rocky Mountains in the States  
18 of Montana, Idaho, Wyoming, Oregon, and Wash-  
19 ington, so referred to on maps referred to in this  
20 Act.

1           **TITLE I—DESIGNATION OF**  
2                           **WILDERNESS**

3   **SEC. 101. DESIGNATION OF CERTAIN NATIONAL FOREST**  
4                           **SYSTEM LANDS, NATIONAL PARK SYSTEM**  
5                           **LANDS, AND BUREAU OF LAND MANAGEMENT**  
6                           **LANDS AS WILDERNESS.**

7           In furtherance of the purpose of the Wilderness Act  
8 (16 U.S.C. 1131 et seq.), certain National Forest System  
9 lands, National Park System lands, and public lands ad-  
10 ministered by the Bureau of Land Management, as de-  
11 scribed in this title, in the States of Idaho, Montana, Or-  
12 egon, Washington, and Wyoming are designated as wilder-  
13 ness and, therefore, as components of the National Wilder-  
14 ness Preservation System.

15   **SEC. 102. GREATER GLACIER/NORTHERN CONTINENTAL DI-**  
16                           **VIDE ECOSYSTEM.**

17           (a) FINDINGS.—The Congress makes the following  
18 findings:

19                   (1) The core of the Greater Glacier/Northern  
20           Continental Divide ecosystem region is Glacier Na-  
21           tional Park and the Bob Marshall Wilderness, which  
22           was the first wilderness designated in the United  
23           States.

24                   (2) This ecosystem includes unique lands, such  
25           as the Rocky Mountain Front, where grizzlies still

1 roam the prairies and America's largest herd of big-  
2 horn sheep scales the craggy peaks.

3 (3) The Swan and Mission mountain ranges  
4 contain some of Montana's largest old growth forests  
5 and pristine bull trout and westslope cutthroat trout  
6 spawning runs.

7 (4) The Rocky Mountain Gray Wolf is making  
8 a comeback in this ecosystem, and the ecosystem is  
9 home to one of only two relatively large grizzly popu-  
10 lations in the lower 48 States.

11 (b) DESIGNATION.—In order to protect the unique  
12 Greater Glacier/Northern Continental Divide ecosystem,  
13 the areas described in this section, which together com-  
14 prise approximately 2,034,000 acres, as generally depicted  
15 on maps with titles corresponding to each area and dated  
16 \_\_\_\_\_, are hereby designated as wilderness. The land  
17 designated as wilderness by this section shall be incor-  
18 porated into the wilderness indicated or, in the case of  
19 wilderness designated by subsection (h), shall be known  
20 by the name given the wilderness in that subsection. Each  
21 map shall be on file and available for public inspection  
22 in the Office of the Chief of the Forest Service, the Office  
23 of the Director of the Bureau of Land Management, or  
24 the Office of the Director of the National Park Service.

1 (c) BOB MARSHALL WILDERNESS ADDITIONS.—The  
2 following areas, consisting of a total of approximately  
3 547,000 acres, are incorporated into the Bob Marshall  
4 Wilderness:

5 (1) Choteau Mountain/Teton High Peaks/Deep  
6 Creek areas, consisting of approximately 106,000  
7 acres of land administered by the Lewis and Clark  
8 National Forest or the Bureau of Land Manage-  
9 ment.

10 (2) Renshaw area, consisting of approximately  
11 47,000 acres administered by the Lewis and Clark  
12 National Forest or the Bureau of Land Manage-  
13 ment.

14 (3) Swan Front area, consisting of approxi-  
15 mately 169,000 acres administered by the Flathead  
16 or Lolo National Forest.

17 (4) Swan Crest area, consisting of approxi-  
18 mately 89,000 acres administered by the Flathead  
19 National Forest.

20 (5) Limestone Caves/Lost Jack areas, con-  
21 sisting of approximately 36,000 acres administered  
22 by the Flathead National Forest.

23 (6) Monture Creek area, consisting of approxi-  
24 mately 99,000 acres administered by the Lolo Na-  
25 tional Forest.

1 (d) GREAT BEAR WILDERNESS ADDITIONS.—The  
2 following areas, consisting of a total of approximately  
3 61,000 acres, are incorporated into the Great Bear Wil-  
4 derness:

5 (1) Middle Fork area, consisting of approxi-  
6 mately 40,000 acres administered by the Flathead  
7 National Forest.

8 (2) South Fork area, consisting of approxi-  
9 mately 21,000 acres administered by the Flathead  
10 National Forest.

11 (e) SCAPEGOAT WILDERNESS ADDITIONS.—The fol-  
12 lowing areas, consisting of a total of approximately  
13 125,000 acres, are incorporated into the Scapegoat Wil-  
14 derness:

15 (1) Stonewall Mountain area, consisting of ap-  
16 proximately 55,000 acres administered by the Hel-  
17 ena National Forest.

18 (2) Silver King/Falls Creek areas, consisting of  
19 approximately 42,000 acres administered by the  
20 Lewis and Clark or Helena National Forest.

21 (3) Benchmark/Elk Creek areas, consisting of  
22 approximately 28,000 acres administered by the  
23 Lewis and Clark National Forest.

24 (f) MISSION MOUNTAINS WILDERNESS ADDI-  
25 TIONS.—The following areas, consisting of a total of ap-

1 proximately 16,000 acres, are incorporated into the Mis-  
2 sion Mountains Wilderness:

3 (1) Mission additions, consisting of approxi-  
4 mately 7,000 acres administered by the Flathead  
5 National Forest.

6 (2) Marshall Peak area, consisting of approxi-  
7 mately 9,000 acres administered by the Lolo Na-  
8 tional Forest.

9 (g) RATTLESNAKE WILDERNESS ADDITIONS.—The  
10 Rattlesnake additions consisting of approximately 4,000  
11 acres administered by the Lolo National Forest are incor-  
12 porated into the Rattlesnake Wilderness.

13 (h) NEW NATIONAL WILDERNESS PRESERVATION  
14 SYSTEM COMPONENTS.—The following areas are des-  
15 ignated as new components of the National Wilderness  
16 Preservation System:

17 (1) Glacier Wilderness, consisting of approxi-  
18 mately 925,000 acres administered by Glacier Na-  
19 tional Park.

20 (2) Sawtooth Ridge Wilderness, consisting of  
21 approximately 14,521 acres administered by the  
22 Lewis and Clark National Forest.

23 (3) Mt. Hefty/Tuchuck/Thompson-Seton Wil-  
24 derness, consisting of approximately 105,000 acres

1 administered by the Flathead or Kootenai National  
2 Forest.

3 (4) Le Beau Wilderness, consisting of approxi-  
4 mately 6,000 acres administered by the Flathead or  
5 Kootenai National Forest.

6 (5) Ten Lakes Wilderness, consisting of ap-  
7 proximately 48,000 acres administered by the  
8 Kootenai National Forest.

9 (6) Deadhorse Ridge Wilderness, consisting of  
10 approximately 24,000 acres administered by the  
11 Flathead National Forest.

12 (7) Standard Peak Wilderness, consisting of ap-  
13 proximately 7,770 acres administered by the Flat-  
14 head National Forest.

15 (8) Coal Ridge Wilderness, consisting of ap-  
16 proximately 16,000 acres administered by the Flat-  
17 head National Forest.

18 (9) Benchmark Wilderness, consisting of ap-  
19 proximately 6,000 acres administered by the Flat-  
20 head National Forest.

21 (10) Lincoln Gulch Wilderness, consisting of  
22 approximately 9,000 acres administered by the Hel-  
23 ena National Forest.

1           (11) Anaconda Hill Wilderness, consisting of  
2 approximately 20,000 acres administered by the  
3 Helena National Forest.

4           (12) Specimen Creek Wilderness, consisting of  
5 approximately 13,000 acres administered by the  
6 Helena National Forest.

7           (13) Crater Mountain Wilderness, consisting of  
8 approximately 10,000 acres administered by the  
9 Helena National Forest.

10           (14) Ogden Mountain Wilderness, consisting of  
11 approximately 12,000 acres administered by the  
12 Helena National Forest.

13           (15) Nevada Mountain Wilderness, consisting of  
14 approximately 54,000 acres administered by the  
15 Helena National Forest.

16 **SEC. 103. GREATER YELLOWSTONE ECOSYSTEM.**

17           (a) FINDINGS.—The Congress makes the following  
18 findings:

19           (1) The core of the greater Yellowstone region  
20 is Yellowstone National Park, the Nation's first na-  
21 tional park.

22           (2) This world-famous region of geyser basins,  
23 towering mountains, abundant wildlife, and vast for-  
24 ests contains the headwaters for many of the Na-  
25 tion's most famous blue-ribbon trout streams.

1           (3) Small glaciers and permanent snowfields  
2           cloak the rugged Teton and Beartooth mountains,  
3           which contain several peaks greater than 12,000  
4           feet.

5           (4) Diverse habitat in the region ranges from  
6           cactus desert lowlands to arctic tundra.

7           (5) Wildlife in the region includes the threat-  
8           ened grizzly bear, the Nation's last wild bison herd,  
9           trumpeter swans, and nearly 35,000 elk.

10          (b) DESIGNATION.—In order to protect the unique  
11          ecosystem of the greater Yellowstone region, the areas de-  
12          scribed in this section, which comprise approximately  
13          6,514,000 acres, as generally depicted on maps with titles  
14          corresponding to each area and dated \_\_\_\_\_, are  
15          hereby designated as wilderness. The land designated as  
16          wilderness by this section shall be incorporated into the  
17          wilderness indicated or, in the case of wilderness des-  
18          ignated by subsections (n) and (o), shall be known by the  
19          name given the wilderness in that subsection. Each map  
20          shall be on file and available for public inspection in the  
21          Office of the Chief of the Forest Service, the Office of  
22          the Director of the Bureau of Land Management, or the  
23          Office of the Director of the Park Service.

24          (c) ABSAROKA-BEARTOOTH WILDERNESS ADDI-  
25          TIONS.—The Absaroka-Beartooth additions consisting of

1 approximately 265,000 acres administered by the Gallatin,  
2 Custer, or Shoshone National Forest are incorporated into  
3 the Absaroka-Beartooth Wilderness.

4 (d) NORTH ABSAROKA WILDERNESS ADDITIONS.—  
5 The North Absaroka additions consisting of approximately  
6 173,000 acres administered by the Shoshone or Gallatin  
7 National Forest are incorporated into the North Absaroka  
8 Wilderness.

9 (e) WASHAKIE WILDERNESS ADDITIONS.—The  
10 Washakie additions consisting of approximately 339,000  
11 acres administered by the Shoshone National Forest or  
12 the Bureau of Land Management are incorporated into  
13 the Washakie Wilderness.

14 (f) FITZPATRICK WILDERNESS ADDITIONS.—The fol-  
15 lowing areas, consisting of a total of approximately 29,000  
16 acres, are incorporated into the Fitzpatrick Wilderness:

17 (1) Fitzpatrick additions consisting of approxi-  
18 mately 14,000 acres administered by the Shoshone  
19 National Forest or the Bureau of Land Manage-  
20 ment.

21 (2) Bench Mark/Warm Springs area consisting  
22 of approximately 15,000 acres administered by the  
23 Shoshone National Forest.

24 (g) TETON WILDERNESS ADDITIONS.—The Teton  
25 Corridor Trailheads additions consisting of approximately

1 24,000 acres administered by the Bridger-Teton National  
2 Forest are incorporated into the Teton Wilderness.

3 (h) GROS VENTRE WILDERNESS ADDITIONS.—The  
4 following areas, consisting of a total of approximately  
5 106,000 acres, are incorporated into the Gros Ventre Wil-  
6 derness:

7 (1) Shoal Creek area, consisting of approxi-  
8 mately 24,000 acres administered by the Bridger-  
9 Teton National Forest.

10 (2) Gros Ventre additions, consisting of ap-  
11 proximately 82,000 acres administered by the  
12 Bridger-Teton National Forest.

13 (i) BRIDGER WILDERNESS ADDITIONS.—The  
14 Bridger additions consisting of approximately 230,000  
15 acres administered by the Bridger-Teton National Forest  
16 or the Bureau of Land Management (Scab Creek) are in-  
17 corporated into the Bridger Wilderness.

18 (j) POPO AGIE WILDERNESS ADDITIONS.—The Popo  
19 Agie additions consisting of approximately 60,000 acres  
20 administered by the Shoshone National Forest or the Bu-  
21 reau of Land Management are incorporated into the Popo  
22 Agie Wilderness.

23 (k) WINEGAR HOLE WILDERNESS ADDITIONS.—The  
24 Winegar Hole additions consisting of approximately 5,000

1 acres administered by the Caribou-Targhee National For-  
2 est are incorporated into the Winegar Hole Wilderness.

3 (l) JEDEDIAH SMITH WILDERNESS ADDITIONS.—

4 The Jedediah Smith additions consisting of approximately  
5 51,000 acres administered by the Bridger-Teton or Car-  
6 ibou-Targhee National Forest are incorporated into the  
7 Jedediah Smith Wilderness.

8 (m) LEE METCALF WILDERNESS ADDITIONS.—The  
9 following areas, consisting of a total of approximately  
10 183,000 acres, are incorporated into the Lee Metcalf Wil-  
11 derness:

12 (1) Cowboys Heaven area, consisting of ap-  
13 proximately 40,000 acres administered by the Gal-  
14 latin or Beaverhead-Deerlodge National Forests.

15 (2) Lee Metcalf additions, consisting of approxi-  
16 mately 143,000 acres administered by the Gallatin  
17 or Beaverhead-Deerlodge National Forests.

18 (n) NEW NATIONAL WILDERNESS PRESERVATION  
19 SYSTEM COMPONENTS OF THE GRAVELLY MOUNTAINS  
20 WILDLANDS COMPLEX.—The following areas within the  
21 Gravelly Wildlands Complex are designated as new compo-  
22 nents of the National Wilderness Preservation System:

23 (1) Snowcrest Wilderness, consisting of approxi-  
24 mately 105,000 acres administered by the Beaver-

1 head-Deerlodge National Forest or the Bureau of  
2 Land Management.

3 (2) Antelope Basin Wilderness, consisting of  
4 approximately 70,000 acres administered by the  
5 Beaverhead-Deerlodge National Forest.

6 (3) Lone Butte Wilderness, consisting of ap-  
7 proximately 14,000 acres administered by the Bea-  
8 verhead-Deerlodge National Forest.

9 (4) Black Butte, consisting of approximately  
10 39,000 acres administered by the Beaverhead-  
11 Deerlodge National Forest.

12 (5) Big Horn Mountain Wilderness, consisting  
13 of approximately 53,000 acres administered by the  
14 Beaverhead-Deerlodge National Forest.

15 (6) Vigilante Wilderness, consisting of approxi-  
16 mately 16,000 acres administered by the Beaver-  
17 head-Deerlodge National Forest.

18 (7) Cherry Lakes Wilderness, consisting of ap-  
19 proximately 13,000 acres administered by the Bea-  
20 verhead-Deerlodge National Forest.

21 (8) Sheep Mountain/Axolotl Wilderness, con-  
22 sisting of approximately 35,000 acres administered  
23 by the Beaverhead-Deerlodge National Forest or the  
24 Bureau of Land Management.

1           (9) Crockett Lake Wilderness, consisting of ap-  
2           proximately 7,000 acres administered by the Beaver-  
3           head-Deerlodge National Forest.

4           (o) OTHER NEW NATIONAL WILDERNESS PRESER-  
5           VATION SYSTEM COMPONENTS.—The following areas are  
6           designated as new components of the National Wilderness  
7           Preservation System:

8           (1) Yellowstone Wilderness, consisting of ap-  
9           proximately 2,033,000 acres administered by Yellow-  
10          stone National Park.

11          (2) Grand Teton Wilderness, consisting of ap-  
12          proximately 123,000 acres administered by Grand  
13          Teton National Park.

14          (3) Gallatin Range Wilderness, consisting of ap-  
15          proximately 221,000 acres administered by the Gal-  
16          latin National Forest.

17          (4) Chico Peak Wilderness, consisting of ap-  
18          proximately 12,000 acres administered by the Gal-  
19          latin National Forest.

20          (5) Madison Wilderness, consisting of approxi-  
21          mately 15,000 acres administered by the Gallatin  
22          National Forest.

23          (6) Lionhead Wilderness, consisting of approxi-  
24          mately 48,000 acres administered by the Gallatin or  
25          Caribou-Targhee National Forests.

1           (7) Line Creek Plateau/Deep Lake Wilderness,  
2           consisting of approximately 90,000 acres adminis-  
3           tered by the Custer or Shoshone National Forests.

4           (8) Monument Ridge Wilderness, consisting of  
5           approximately 18,000 acres administered by the  
6           Bridger-Teton National Forest.

7           (9) Munger Mountain Wilderness, consisting of  
8           approximately 13,000 acres administered by the  
9           Bridger-Teton National Forest.

10          (10) Little Sheep Mountain Wilderness, con-  
11          sisting of approximately 15,000 acres administered  
12          by the Bridger-Teton National Forest.

13          (11) Palisades Wilderness, consisting of ap-  
14          proximately 224,000 acres administered by the  
15          Bridger-Teton or Caribou-Targhee National Forest.

16          (12) Mt. Leidy Highlands Wilderness, con-  
17          sisting of approximately 185,000 acres administered  
18          by the Bridger-Teton National Forest.

19          (13) Salt River Range Wilderness, consisting of  
20          approximately 239,000 acres administered by the  
21          Bridger-Teton National Forest.

22          (14) Grayback Ridge Wilderness, consisting of  
23          approximately 283,000 acres administered by the  
24          Bridger-Teton National Forest.

1           (15) Commissary Ridge Wilderness, consisting  
2 of approximately 178,000 acres administered by the  
3 Bridger-Teton National Forest.

4           (16) South Wyoming Range Wilderness, con-  
5 sisting of approximately 86,000 acres administered  
6 by the Bridger-Teton National Forest.

7           (17) Gannett Hills/Spring Creek/Raymond  
8 Mountain Wilderness, consisting of approximately  
9 135,000 acres administered by the Bridger-Teton or  
10 Caribout-Targhee National Forest or the Bureau of  
11 Land Management.

12           (18) Little Cottonwood Wilderness, consisting  
13 of approximately 5,000 acres administered by the  
14 Bridger-Teton National Forest.

15           (19) North Mountain Wilderness, consisting of  
16 approximately 1,000 acres administered by the  
17 Bridger-Teton National Forest.

18           (20) Grayback Ridge East Wilderness, con-  
19 sisting of approximately 18,000 acres administered  
20 by the Bridger-Teton National Forest.

21           (21) Lake Mountain Wilderness, consisting of  
22 approximately 17,000 acres administered by the  
23 Bridger-Teton National Forest or the Bureau of  
24 Land Management.

1           (22) Garns Mountain Wilderness, consisting of  
2 approximately 104,000 acres administered by the  
3 Caribou-Targhee National Forest.

4           (23) Bald Mountain Wilderness, consisting of  
5 approximately 17,000 acres administered by the  
6 Caribou-Targhee National Forest.

7           (24) Bear Creek Wilderness, consisting of ap-  
8 proximately 98,000 acres administered by the Car-  
9 ibou-Targhee National Forest.

10          (25) Stump Creek Wilderness, consisting of ap-  
11 proximately 97,000 acres administered by the Car-  
12 ibou-Targhee National Forest.

13          (26) Caribou-Targhee Wilderness, consisting of  
14 approximately 94,000 acres administered by the  
15 Caribou-Targhee National Forest.

16          (27) Poker Peak Wilderness, consisting of ap-  
17 proximately 20,000 acres administered by the Car-  
18 ibou-Targhee National Forest.

19          (28) Pole Creek Wilderness, consisting of ap-  
20 proximately 7,000 acres administered by the Car-  
21 ibou-Targhee National Forest.

22          (29) Schmid Peak Wilderness, consisting of ap-  
23 proximately 20,000 acres administered by the Car-  
24 ibou-Targhee National Forest.

1           (30) Sage Creek Wilderness, consisting of ap-  
2           proximately 13,000 acres administered by the Car-  
3           ibou-Targhee National Forest.

4           (31) Red Mountain Wilderness, consisting of  
5           approximately 14,000 acres administered by the  
6           Caribou-Targhee National Forest.

7           (32) Huckleberry Basin Wilderness, consisting  
8           of approximately 20,000 acres administered by the  
9           Caribou-Targhee National Forest.

10          (33) Dry Ridge Wilderness, consisting of ap-  
11          proximately 23,000 acres, administered by the Car-  
12          ibou-Targhee National Forest.

13          (34) Meade Peak Wilderness, consisting of ap-  
14          proximately 45,000 acres administered by the Car-  
15          ibou-Targhee National Forest.

16          (35) Hell Hole Wilderness, consisting of ap-  
17          proximately 5,132 acres administered by the Car-  
18          ibou-Targhee National Forest.

19          (36) Tobacco Root Mountains Wilderness, con-  
20          sisting of approximately 97,000 acres administered  
21          by the Beaverhead-Deerlodge National Forest or the  
22          Bureau of Land Management.

23          (37) Potosi Wilderness, consisting of approxi-  
24          mately 5,000 acres administered by the Beaverhead-  
25          Deerlodge National Forest.

1           (38) Madison Plateau Wilderness, consisting of  
2           approximately 5,000 acres administered by the Gal-  
3           latin National Forest.

4           (39) Pass Creek Wilderness, consisting of ap-  
5           proximately 9,000 acres administered by the Sho-  
6           shone National Forest.

7           (40) Bayer Mountain Wilderness, consisting of  
8           approximately 9,000 acres administered by the Sho-  
9           shone National Forest.

10           (41) Little Popo Agie Canyon Wilderness, con-  
11           sisting of approximately 9,000 acres administered by  
12           the Shoshone National Forest or the Bureau of  
13           Land Management.

14           (42) Clark Fork Wilderness, consisting of ap-  
15           proximately 42,000 acres administered by the Sho-  
16           shone National Forest.

17 **SEC. 104. GREATER SALMON/SELWAY ECOSYSTEM.**

18           (a) FINDINGS.—The Congress makes the following  
19 findings:

20           (1) The Greater Salmon/Selway region is one of  
21           the most rugged and wild areas in America, and one  
22           of the largest intact forest ecosystems in the tem-  
23           perate zones of the Earth.

1           (2) The core of the region is comprised of the  
2 Frank Church-River of No Return and Selway-Bit-  
3 terroot Wilderness areas.

4           (3) Swimming the Salmon and Clearwater river  
5 systems, several species of salmon and sea-going  
6 trout still make the 900 mile spawning journey from  
7 the Pacific Ocean to small tributaries in the high  
8 mountain country.

9           (4) Biological and landscape diversity in the re-  
10 gion is great, ranging from rocky, dry canyon coun-  
11 try to wet forests of ancient cedars many feet in di-  
12 ameter in the Mallard-Larkins and other areas.

13           (5) A wide array of forest dwelling species re-  
14 side in the region, and the gray wolf is making a  
15 comeback.

16       (b) DESIGNATION.—In order to protect the unique  
17 ecosystem of the Greater Salmon/Selway region, the areas  
18 described in this section, which comprise approximately  
19 6,253,000 acres, as generally depicted on the maps with  
20 titles corresponding to each area and dated  
21 \_\_\_\_\_, are hereby designated as wilderness. The  
22 land designated as wilderness by this section shall be in-  
23 corporated into the wilderness indicated or, in the case of  
24 wilderness designated by subsections (g), (h), and (i), shall  
25 be known by the name given the wilderness in that sub-

1 section. Each map shall be on file and available for public  
2 inspection in the Office of the Chief of the Forest Service  
3 and the Office of the Director of the Bureau of Land Man-  
4 agement.

5 (c) FRANK CHURCH-RIVER OF NO RETURN WILDER-  
6 NESS ADDITIONS.—The following areas, consisting of a  
7 total of approximately 754,000 acres, are incorporated  
8 into the Frank Church-River of No Return Wilderness:

9 (1) Bluejoint area, consisting of approximately  
10 70,000 acres administered by the Bitterroot or  
11 Salmon-Challis National Forest.

12 (2) Camas Creek area, consisting of approxi-  
13 mately 109,000 acres administered by the Salmon-  
14 Challis National Forest.

15 (3) Blue Bunch area, consisting of approxi-  
16 mately 11,653 acres administered by the Salmon  
17 Challis or Boise National Forest.

18 (4) Loon Creek area, consisting of approxi-  
19 mately 103,898 acres administered by the Challis or  
20 Sawtooth National Forest.

21 (5) Carey Creek area, consisting of approxi-  
22 mately 10,000 acres administered by the Payette  
23 National Forest or the Bureau of Land Manage-  
24 ment.

1           (6) Pinnacle Peak (Sugar Mountain) area, con-  
2           sisting of approximately 10,000 acres administered  
3           by the Payette National Forest.

4           (7) Placer Creek area, consisting of approxi-  
5           mately 7,000 acres administered by the Payette Na-  
6           tional Forest.

7           (8) Smith Creek area, consisting of approxi-  
8           mately 2,000 acres administered by the Payette Na-  
9           tional Forest.

10          (9) Cottontail Point-Pilot Creek area, consisting  
11          of approximately 93,000 acres administered by the  
12          Payette National Forest.

13          (10) Bernard area, consisting of approximately  
14          21,000 acres administered by the Boise National  
15          Forest.

16          (11) Burnt Log area, consisting of approxi-  
17          mately 24,000 acres administered by the Boise Na-  
18          tional Forest.

19          (12) Whiskey area, consisting of approximately  
20          5,000 acres administered by the Boise National For-  
21          est.

22          (13) Nameless Creek area, consisting of ap-  
23          proximately 2,000 acres administered by the Boise  
24          National Forest.

1           (14) Tennessee area, consisting of approxi-  
2           mately 1,000 acres administered by the Boise Na-  
3           tional Forest.

4           (15) Poker Meadows area, consisting of ap-  
5           proximately 1,000 acres administered by the Boise  
6           National Forest.

7           (16) Black Lake area, consisting of approxi-  
8           mately 5,000 acres administered by the Boise Na-  
9           tional Forest.

10          (17) Panther Creek area, consisting of approxi-  
11          mately 33,000 acres administered by the Salmon-  
12          Challis National Forest.

13          (18) McEleny area, consisting of approximately  
14          3,000 acres administered by the Salmon-Challis Na-  
15          tional Forest.

16          (19) Little Horse area, consisting of approxi-  
17          mately 7,000 acres administered by the Salmon-  
18          Challis National Forest.

19          (20) Oreana area, consisting of approximately  
20          8,000 acres administered by the Salmon-Challis Na-  
21          tional Forest.

22          (21) Duck Peak area, consisting of approxi-  
23          mately 48,000 acres administered by the Salmon-  
24          Challis National Forest.

1           (22) Long Tom area, consisting of approxi-  
2           mately 20,000 acres administered by the Salmon-  
3           Challis National Forest.

4           (23) Challis Creek area, consisting of approxi-  
5           mately 44,000 acres administered by the Salmon-  
6           Challis National Forest.

7           (24) Seafoam area, consisting of approximately  
8           31,000 acres administered by the Salmon-Challis  
9           National Forest.

10          (25) Jersey-Jack area, consisting of approxi-  
11          mately 64,000 acres administered by the Nez Perce  
12          National Forest.

13          (26) Mallard area, consisting of approximately  
14          20,000 acres administered by the Nez Perce Na-  
15          tional Forest.

16          (27) Marshall Mountain area, consisting of ap-  
17          proximately 4,000 acres administered by the Coeur  
18          d'Alene District of the Bureau of Land Manage-  
19          ment.

20          (d) GOSPEL HUMP WILDERNESS ADDITIONS.—The  
21          Gospel Hump additions consisting of approximately  
22          55,000 acres administered by the Nez Perce National For-  
23          est are incorporated into the Gospel Hump Wilderness.

24          (e) SELWAY-BITTERROOT WILDERNESS ADDI-  
25          TIONS.—The following areas, consisting of a total of ap-

1 proximately 582,000 acres, are incorporated into the  
2 Selway-Bitterroot Wilderness:

3 (1) Bitterroot additions, consisting of approxi-  
4 mately 123,000 acres administered by the Bitterroot  
5 or Nez Perce National Forest.

6 (2) Lochsa Face area, consisting of approxi-  
7 mately 76,000 acres administered by the Clearwater  
8 National Forest.

9 (3) Elk Summit/Sneakfoot/North Fork Spruce  
10 area, consisting of approximately 54,000 acres ad-  
11 ministered by the Clearwater National Forest.

12 (4) (East and West) Meadow Creek area, con-  
13 sisting of approximately 215,000 acres administered  
14 by the Nez Perce National Forest or the Bureau of  
15 Land Management.

16 (5) Lolo Creek area, consisting of approxi-  
17 mately 18,000 acres administered by the Lolo,  
18 Clearwater, or Bitterroot National Forest.

19 (6) Rackliff-Gedney area, consisting of approxi-  
20 mately 90,000 acres administered by the Clearwater  
21 or Nez Perce National Forest.

22 (f) SAWTOOTH WILDERNESS ADDITIONS.—The Han-  
23 sen Lakes, Huckleberry, Pettit, Smoky Mountains, Ten  
24 Mile, Black Warrior, South Boise, and Yuba additions  
25 consisting of approximately 540,000 acres administered by

1 the Boise, Sawtooth, or Salmon-Challis National Forest  
2 are incorporated into the Sawtooth Wilderness.

3 (g) NEW NATIONAL WILDERNESS PRESERVATION  
4 SYSTEM COMPONENTS OF THE GREAT BURN WILDLANDS  
5 COMPLEX.—The following areas within the Great Burn  
6 Wildlands Complex are designated as new components of  
7 the National Wilderness Preservation System:

8 (1) Great Burn (Hoodoo) area, consisting of  
9 approximately 255,000 acres administered by the  
10 Clearwater or Lolo National Forest.

11 (2) Meadow Creek/Upper North Fork/Rawhide  
12 area, consisting of approximately 62,000 acres ad-  
13 ministered by the Idaho Panhandle, Lolo, or Clear-  
14 water National Forest.

15 (3) Sheep Mountain/State Line area, consisting  
16 of approximately 68,000 acres administered by the  
17 Idaho Panhandle or Lolo National Forest.

18 (4) Mallard-Larkins area, consisting of approxi-  
19 mately 260,000 acres administered by the Clear-  
20 water or Idaho Panhandle National Forest.

21 (5) Bighorn-Weitas area, consisting of approxi-  
22 mately 260,000 acres administered by the Clear-  
23 water National Forest.

1           (6) Eldorado area, consisting of approximately  
2           7,000 acres administered by the Clearwater National  
3           Forest.

4           (7) Moose Mountain area, consisting of approxi-  
5           mately 22,000 acres administered by the Clearwater  
6           National Forest.

7           (8) North Lochsa Slope area, consisting of ap-  
8           proximately 118,000 acres administered by the  
9           Clearwater National Forest.

10          (9) Pot Mountain area, consisting of approxi-  
11          mately 51,000 acres administered by the Clearwater  
12          National Forest.

13          (10) Siwash area, consisting of approximately  
14          9,000 acres administered by the Clearwater National  
15          Forest.

16          (11) Weir-Post Office area, consisting of ap-  
17          proximately 22,000 acres administered by the Clear-  
18          water National Forest.

19          (12) Mosquito Fly area, consisting of approxi-  
20          mately 19,000 acres administered by the Idaho Pan-  
21          handle National Forest.

22          (13) Midget Peak area, consisting of approxi-  
23          mately 7,000 acres administered by the Idaho Pan-  
24          handle National Forest.

1           (14) Stark Mountain area, consisting of ap-  
2           proximately 13,000 acres administered by the Lolo  
3           National Forest.

4           (h) NEW NATIONAL WILDERNESS PRESERVATION  
5           SYSTEM COMPONENTS OF THE LITTLE SLATE CREEK  
6           WILDLANDS COMPLEX.—The following areas within the  
7           Little Slate Creek Wildlands Complex are designated as  
8           new components of the National Wilderness Preservation  
9           System:

10           (1) Little Slate Creek area, consisting of ap-  
11           proximately 12,000 acres administered by the Nez  
12           Perce National Forest.

13           (2) Little Slate Creek North area, consisting of  
14           approximately 6,000 acres administered by the Nez  
15           Perce National Forest.

16           (i) OTHER NEW NATIONAL WILDERNESS PRESERVA-  
17           TION SYSTEM COMPONENTS.—The following areas are  
18           designated as new components of the National Wilderness  
19           Preservation System:

20           (1) French Creek/Patrick Butte area, consisting  
21           of approximately 177,863 acres administered by the  
22           Payette National Forest.

23           (2) Crystal Mountain area, consisting of ap-  
24           proximately 13,000 acres administered by the  
25           Payette National Forest.

1           (3) Secesh area, consisting of approximately  
2           260,000 acres administered by the Payette National  
3           Forest.

4           (4) Needles area, consisting of approximately  
5           172,000 acres administered by the Payette or Boise  
6           National Forest.

7           (5) Caton Lake area, consisting of approxi-  
8           mately 85,000 acres administered by the Payette or  
9           Boise National Forest.

10          (6) Poison Creek area, consisting of approxi-  
11          mately 5,232 acres administered by the the Payette  
12          or Boise National Forest.

13          (7) Meadow Creek area, consisting of approxi-  
14          mately 30,000 acres administered by the Payette or  
15          Boise National Forest.

16          (8) Mount Heinen area, consisting of approxi-  
17          mately 13,000 acres administered by the Boise Na-  
18          tional Forest.

19          (9) Reeves Creek area, consisting of approxi-  
20          mately 11,000 acres administered by the Boise Na-  
21          tional Forest.

22          (10) Peace Rock area, consisting of approxi-  
23          mately 192,000 acres administered by the Boise Na-  
24          tional Forest.

1           (11) Deadwood area, consisting of approxi-  
2           mately 52,000 acres administered by the Boise Na-  
3           tional Forest.

4           (12) Whitehawk Mountain area, consisting of  
5           approximately 9,000 acres administered by the Boise  
6           National Forest.

7           (13) Stony Meadows area, consisting of ap-  
8           proximately 13,000 acres administered by the Boise  
9           National Forest.

10          (14) Bear Wallow area, consisting of approxi-  
11          mately 8,000 acres administered by the Boise Na-  
12          tional Forest.

13          (15) Grimes Pass area, consisting of approxi-  
14          mately 13,000 acres administered by the Boise Na-  
15          tional Forest.

16          (16) Bald Mountain area, consisting of approxi-  
17          mately 6,000 acres administered by the Boise Na-  
18          tional Forest.

19          (17) Hawley Mountain area, consisting of ap-  
20          proximately 8,000 acres administered by the Boise  
21          National Forest.

22          (18) Red Mountain area, consisting of approxi-  
23          mately 110,000 acres administered by the Boise Na-  
24          tional Forest.

1           (19) Breadwinner area, consisting of approxi-  
2           mately 20,000 acres administered by the Boise Na-  
3           tional Forest.

4           (20) Elk Creek area, consisting of approxi-  
5           mately 15,000 acres administered by the Boise Na-  
6           tional Forest.

7           (21) Steel Mountain area, consisting of approxi-  
8           mately 23,000 acres administered by the Boise Na-  
9           tional Forest.

10          (22) Rainbow area, consisting of approximately  
11          31,000 acres administered by the Boise National  
12          Forest.

13          (23) Grand Mountain area, consisting of ap-  
14          proximately 14,000 acres administered by the Boise  
15          National Forest.

16          (24) Sheep Creek area, consisting of approxi-  
17          mately 70,000 acres administered by the Boise Na-  
18          tional Forest.

19          (25) Snowbank area, consisting of approxi-  
20          mately 34,000 acres administered by the Boise Na-  
21          tional Forest.

22          (26) House Mountain area, consisting of ap-  
23          proximately 26,000 acres administered by the Boise  
24          National Forest.

1           (27) Danskin/South Fork Boise area, consisting  
2 of approximately 30,000 acres administered by the  
3 Boise National Forest.

4           (28) Cow Creek area, consisting of approxi-  
5 mately 15,000 acres administered by the Boise Na-  
6 tional Forest.

7           (29) Wilson Peak area, consisting of approxi-  
8 mately 8,000 acres administered by the Boise Na-  
9 tional Forest.

10          (30) Lost Man Creek area, consisting of ap-  
11 proximately 13,000 acres administered by the Boise  
12 National Forest.

13          (31) Whiskey Jack area, consisting of approxi-  
14 mately 7,000 acres administered by the Boise Na-  
15 tional Forest.

16          (32) Cathedral Rocks area, consisting of ap-  
17 proximately 8,000 acres administered by the Boise  
18 National Forest.

19          (33) Lime Creek area, consisting of approxi-  
20 mately 97,000 acres administered by the Boise or  
21 Sawtooth National Forest.

22          (34) O'Hara Falls Creek area, consisting of ap-  
23 proximately 33,000 acres administered by the Nez  
24 Perce National Forest.

1           (35) Lick Point area, consisting of approxi-  
2           mately 7,000 acres administered by the Nez Perce  
3           National Forest.

4           (36) Clear Creek area, consisting of approxi-  
5           mately 11,000 acres administered by the Nez Perce  
6           National Forest.

7           (37) Silver Creek-Pilot Knob area, consisting of  
8           approximately 21,000 acres administered by the Nez  
9           Perce National Forest.

10          (38) Dixie Summit-Nut Hill area, consisting of  
11          approximately 6,000 acres administered by the Nez  
12          Perce National Forest.

13          (39) North Fork Slate Creek area, consisting of  
14          approximately 11,000 acres administered by the Nez  
15          Perce National Forest.

16          (40) John Day area, consisting of approxi-  
17          mately 10,000 acres administered by the Nez Perce  
18          National Forest.

19          (41) Perreau Creek area, consisting of approxi-  
20          mately 8,000 acres administered by the Salmon-  
21          Challis National Forest.

22          (42) Napias area, consisting of approximately  
23          9,000 acres administered by the Salmon-Challis Na-  
24          tional Forest.

1           (43) Napoleon Ridge area, consisting of ap-  
2           proximately 51,000 acres administered by the Salm-  
3           on-Challis National Forest.

4           (44) Jesse Creek area, consisting of approxi-  
5           mately 14,000 acres administered by the Salmon-  
6           Challis National Forest.

7           (45) Haystack Mountain area, consisting of ap-  
8           proximately 12,000 acres administered by the Salm-  
9           on-Challis National Forest.

10          (46) Phelan area, consisting of approximately  
11          13,000 acres administered by the Salmon-Challis  
12          National Forest.

13          (47) Sheepeater area, consisting of approxi-  
14          mately 35,000 acres administered by the Salmon-  
15          Challis National Forest.

16          (48) South Fork Deep Creek area, consisting of  
17          approximately 13,000 acres administered by the  
18          Salmon-Challis National Forest.

19          (49) Deep Creek area, consisting of approxi-  
20          mately 7,000 acres administered by the Salmon-  
21          Challis National Forest.

22          (50) Jureano area, consisting of approximately  
23          25,000 acres administered by the Salmon-Challis  
24          National Forest.

1           (51) South Panther area, consisting of approxi-  
2           mately 6,000 acres administered by the Salmon-  
3           Challis National Forest.

4           (52) Musgrove area, consisting of approxi-  
5           mately 8,000 acres administered by the Salmon-  
6           Challis National Forest.

7           (53) Taylor Mountain area, consisting of ap-  
8           proximately 60,000 acres administered by the Salm-  
9           on-Challis National Forest.

10          (54) Martin Creek area, consisting of approxi-  
11          mately 99,000 acres administered by the Salmon-  
12          Challis National Forest.

13          (55) White Knob area, consisting of approxi-  
14          mately 65,000 acres administered by the Salmon-  
15          Challis National Forest.

16          (56) Porphyry Peak area, consisting of approxi-  
17          mately 57,000 acres administered by the Salmon-  
18          Challis National Forest.

19          (57) Greylock area, consisting of approximately  
20          12,000 acres administered by the Salmon-Challis  
21          National Forest.

22          (58) Copper Basin area, consisting of approxi-  
23          mately 11,000 acres administered by the Salmon-  
24          Challis National Forest.

1           (59) Cold Springs area, consisting of approxi-  
2           mately 9,000 acres administered by the Salmon-  
3           Challis National Forest.

4           (60) Pioneer Mountains area, consisting of ap-  
5           proximately 308,000 acres administered by the Saw-  
6           tooth or Salmon-Challis National Forest.

7           (61) Railroad Ridge area, consisting of approxi-  
8           mately 51,000 acres administered by the Sawtooth  
9           or Salmon-Challis National Forest.

10          (62) Boulder/White Clouds area, consisting of  
11          approximately 463,000 acres administered by the  
12          Sawtooth or Salmon-Challis National Forest or the  
13          Bureau of Land Management.

14          (63) Buttercup Mountain area, consisting of  
15          approximately 57,000 acres administered by the  
16          Sawtooth National Forest.

17          (64) Elk Ridge area, consisting of approxi-  
18          mately 9,000 acres administered by the Sawtooth  
19          National Forest.

20          (65) Grandmother Mountain area, consisting of  
21          approximately 35,000 acres administered by the  
22          Idaho Panhandle National Forest or the Bureau of  
23          Land Management.

24          (66) Pinchot Butte area, consisting of approxi-  
25          mately 9,000 acres administered by the Idaho Pan-

1 handle National Forest or the Bureau of Land Man-  
2 agement.

3 (67) Liberal Mountain area, consisting of ap-  
4 proximately 11,000 acres administered by the Saw-  
5 tooth National Forest.

6 (68) Black Horse Creek area, consisting of ap-  
7 proximately 10,969 acres administered by the Sho-  
8 shone District of the Bureau of Land Management.

9 (69) Horse Heaven area, consisting of approxi-  
10 mately 18,000 acres administered by the Payette or  
11 Boise National Forest.

12 (70) Chimney Rock area, consisting of approxi-  
13 mately 30,000 acres administered by the Payette  
14 Forest.

15 **SEC. 105. GREATER CABINET/YAAK/SELKIRK ECOSYSTEM.**

16 (a) FINDINGS.—The Congress makes the following  
17 findings:

18 (1) The wettest part of the Northern Rockies,  
19 the Greater Cabinet/Yaak/Selkirk ecosystem is a  
20 wild land region that contains the last major stands  
21 of low elevation ancient forests in the general region,  
22 including the Long Canyon area which contains the  
23 oldest living cedars in the Nation.

1           (2) The only caribou herd in the lower 48  
2 States roams these mountains, as do the grizzly and  
3 the gray wolf.

4           (3) Towering mountains in the ecosystem in-  
5 clude the Cabinet, Selkirk, and Purcell ranges.

6           (b) DESIGNATION.—In order to protect the unique,  
7 heavily fragmented, and endangered Greater Cabinet/  
8 Yaak/Selkirk ecosystem, the areas described in this sec-  
9 tion, which comprise approximately 1,038,000 acres, as  
10 generally depicted on maps with titles corresponding to  
11 each area and dated \_\_\_\_\_, are hereby designated  
12 as wilderness. The land designated as wilderness by this  
13 section shall be incorporated into the wilderness indicated  
14 or, in the case of wilderness designated by subsection (e),  
15 shall be known by the name given the wilderness in that  
16 subsection. Each map shall be on file and available for  
17 public inspection in the Office of the Chief of the Forest  
18 Service.

19           (c) CABINET MOUNTAINS WILDERNESS ADDI-  
20 TIONS.—The Cabinet additions consisting of approxi-  
21 mately 100,000 acres administered by the Kootenai Na-  
22 tional Forest are incorporated into the Cabinet Mountains  
23 Wilderness.

24           (d) SALMO-PRIEST WILDERNESS ADDITIONS.—The  
25 Salmo-Priest additions consisting of approximately 47,000

1 acres administered by the Colville or the Idaho Panhandle  
2 National Forest are incorporated into the Salmo-Priest  
3 Wilderness.

4 (e) NEW NATIONAL WILDERNESS PRESERVATION  
5 SYSTEM COMPONENTS.—The following areas are des-  
6 ignated as new components of the National Wilderness  
7 Preservation System:

8 (1) Saddle Mountain area, consisting of ap-  
9 proximately 15,000 acres administered by the  
10 Kootenai National Forest.

11 (2) Galena Creek area, consisting of approxi-  
12 mately 20,000 acres administered by the Kootenai  
13 National Forest.

14 (3) Berray Mountain area, consisting of ap-  
15 proximately 9,000 acres administered by the  
16 Kootenai National Forest.

17 (4) Lone Cliff-Smeads area, consisting of ap-  
18 proximately 10,000 acres administered by the  
19 Kootenai National Forest.

20 (5) McNeeley area, consisting of approximately  
21 7,000 acres administered by the Kootenai National  
22 Forest.

23 (6) Northwest Peaks area, consisting of ap-  
24 proximately 15,000 acres administered by the  
25 Kootenai National Forest.

1           (7) Roderick area, consisting of approximately  
2           30,000 acres administered by the Kootenai National  
3           Forest.

4           (8) Grizzly Peak area, consisting of approxi-  
5           mately 7,000 acres administered by the Kootenai  
6           National Forest.

7           (9) West Fork Yaak area, consisting of approxi-  
8           mately 9,000 acres administered by the Kootenai  
9           National Forest.

10          (10) Mt. Henry area, consisting of approxi-  
11          mately 14,000 acres administered by the Kootenai  
12          National Forest.

13          (11) Alexander Creek area, consisting of ap-  
14          proximately 7,000 acres administered by the  
15          Kootenai National Forest.

16          (12) Robinson Mountain area, consisting of ap-  
17          proximately 7,000 acres administered by the  
18          Kootenai National Forest.

19          (13) Devil's Gap area, consisting of approxi-  
20          mately 5,000 acres administered by the Kootenai  
21          National Forest.

22          (14) Lone Cliff West area, consisting of ap-  
23          proximately 5,000 acres administered by the  
24          Kootenai National Forest.

1           (15) Allen Peak area, consisting of approxi-  
2           mately 30,000 acres administered by the Kootenai  
3           National Forest.

4           (16) Huckleberry Mountain area, consisting of  
5           approximately 9,000 acres administered by the  
6           Kootenai National Forest.

7           (17) Cataract Peak area, consisting of approxi-  
8           mately 39,000 acres administered by the Kootenai  
9           or Lolo National Forest.

10          (18) Cube Iron-Silcox area, consisting of ap-  
11          proximately 39,000 acres administered by the  
12          Kootenai or Lolo National Forest.

13          (19) Sundance Ridge area, consisting of ap-  
14          proximately 8,000 acres administered by the Lolo  
15          National Forest.

16          (20) Teepee-Spring Creek area, consisting of  
17          approximately 14,000 acres administered by the  
18          Lolo National Forest.

19          (21) Baldy Mountain area, consisting of ap-  
20          proximately 6,000 acres administered by the Lolo  
21          National Forest.

22          (22) Scotchman's Peak area, consisting of ap-  
23          proximately 88,000 acres administered by the  
24          Kootenai or Idaho Panhandle National Forest.

1           (23) Buckhorn Ridge area, consisting of ap-  
2           proximately 36,000 acres administered by the  
3           Kootenai or Idaho Panhandle National Forest.

4           (24) Grassy Top/Hall Mountain area, consisting  
5           of approximately 24,000 acres administered by the  
6           Colville or Idaho Panhandle National Forest.

7           (25) Abercrombie-Hooknose area, consisting of  
8           approximately 40,000 acres administered by the  
9           Colville National Forest.

10          (26) Exposure area, consisting of approximately  
11          8,000 acres administered by the Colville National  
12          Forest.

13          (27) Harvey Creek/Bunchgrass area, consisting  
14          of approximately 11,000 acres administered by the  
15          Colville National Forest.

16          (28) South Fork Mountain area, consisting of  
17          approximately 6,000 acres administered by the  
18          Colville or Idaho Panhandle National Forests.

19          (29) Lost Creek area, consisting of approxi-  
20          mately 7,000 acres administered by the Colville Na-  
21          tional Forest.

22          (30) Quartzite area, consisting of approximately  
23          5,000 acres administered by the Colville National  
24          Forest.

1           (31) South Fork Hungry Mountain area, con-  
2           sisting of approximately 9,000 acres administered by  
3           the Idaho Panhandle or Colville National Forests.

4           (32) Continental Mountain area, consisting of  
5           approximately 8,000 acres administered by the  
6           Idaho Panhandle National Forest.

7           (33) Skitwish Ridge area, consisting of approxi-  
8           mately 5,000 acres administered by the Idaho Pan-  
9           handle National Forest.

10          (34) White Mountain area, consisting of ap-  
11          proximately 8,000 acres administered by the Idaho  
12          Panhandle National Forest.

13          (35) Shafer Peak area, consisting of approxi-  
14          mately 6,000 acres administered by the Idaho Pan-  
15          handle National Forest.

16          (36) Upper Priest Lake area, consisting of ap-  
17          proximately 13,000 acres administered by the Idaho  
18          Panhandle National Forest.

19          (37) Long Canyon/Selkirk Crest area, con-  
20          sisting of approximately 105,000 acres administered  
21          by the Idaho Panhandle National Forest or the Bu-  
22          reau of Land Management.

23          (38) Saddle Mountain area, consisting of ap-  
24          proximately 8,000 acres administered by the Idaho  
25          Panhandle National Forest.

1           (39) Mt. Willard/Lake Estelle Roberts area,  
2           consisting of approximately 79,000 acres adminis-  
3           tered by the Idaho Panhandle or Kootenai National  
4           Forests.

5           (40) Trestle Peak area, consisting of approxi-  
6           mately 7,000 acres administered by the Idaho Pan-  
7           handle or Kootenai National Forests.

8           (41) Beetop area, consisting of approximately  
9           12,000 acres administered by the Idaho Panhandle  
10          National Forest.

11          (42) Packsaddle area, consisting of approxi-  
12          mately 19,000 acres administered by the Idaho Pan-  
13          handle National Forest.

14          (43) Blacktail Mountain area, consisting of ap-  
15          proximately 5,000 acres administered by the Idaho  
16          Panhandle National Forest.

17          (44) Magee area, consisting of approximately  
18          35,000 acres administered by the Idaho Panhandle  
19          National Forest.

20          (45) Tepee Creek area, consisting of approxi-  
21          mately 5,000 acres administered by the Idaho Pan-  
22          handle National Forest.

23          (46) Trouble Creek area, consisting of approxi-  
24          mately 6,000 acres administered by the Idaho Pan-  
25          handle National Forest.

1           (47) Graham Coal area, consisting of approxi-  
2           mately 10,000 acres administered by the Idaho Pan-  
3           handle National Forest.

4           (48) Hellroaring area, consisting of approxi-  
5           mately 10,000 acres administered by the Idaho Pan-  
6           handle National Forest.

7           (49) Kootenai Peak area, consisting of approxi-  
8           mately 5,000 acres administered by the Idaho Pan-  
9           handle National Forest.

10          (50) Katka area, consisting of approximately  
11          10,000 acres administered by the Idaho Panhandle  
12          National Forest.

13 **SEC. 106. GREATER HELLS CANYON ECOSYSTEM.**

14          (a) FINDINGS.—The Congress makes the following  
15 findings:

16           (1) The ecological diversity of the Hells Can-  
17           yon/Wallowa Mountain Region is unique and its cen-  
18           tral proximity to other ecologically intact or rel-  
19           atively intact areas makes it a critical passageway  
20           for genetic interchange of native plants and animals  
21           throughout the northwestern United States.

22           (2) The deepest river-carved canyon in the  
23           world at over 8,000 feet deep, Hells Canyon of the  
24           Snake River forms the centerpiece of the rugged  
25           Greater Hells Canyon/Wallowa Mountain Region.

1           (3) The ancestral home of the Nez Perce Indi-  
2           ans and their famous leaders, Old Chief Joseph,  
3           Young Chief Joseph, and Ollokot, the region is his-  
4           torically significant and remains spiritually and cul-  
5           turally important to Indian tribes, whose treaty  
6           rights guarantee their sovereignty and continued use  
7           of the land.

8           (4) The region abounds in cultural and archae-  
9           ological sites, the remnants of the Nez Perce Tribe  
10          and other aboriginal cultures.

11          (5) Breathtaking scenery in the region includes  
12          the snowcapped peaks of the Wallowa and Seven  
13          Devils Mountains, ancient boreal forests composed of  
14          many tree species, semi-arid desert environments,  
15          rare, intact remnants of native Columbia Basin  
16          grasslands, and unique geology and numerous dra-  
17          matic rimrock canyons.

18          (6) Endangered Chinook salmon, rare or  
19          threatened species, such as goshawk, pine marten,  
20          and bighorn sheep, the largest free-roaming elk herd  
21          in the United States, and a variety of other wildlife  
22          species inhabit the region.

23          (b) DESIGNATION.—In order to protect the unique  
24          and endangered Greater Hells Canyon ecosystem, the  
25          areas described in this section, which comprise approxi-

1 mately 519,000 acres, as generally depicted on the maps  
2 with titles corresponding to each area and dated  
3 \_\_\_\_\_, are hereby designated as wilderness. The  
4 land designated as wilderness by this section shall be in-  
5 corporated into the wilderness indicated or, in the case of  
6 wilderness designated by subsection (e), shall be known  
7 by the name given the wilderness in that subsection. Each  
8 map shall be on file and available for public inspection  
9 in the Office of the Chief of the Forest Service.

10 (c) HELLS CANYON WILDERNESS ADDITIONS.—The  
11 following areas, consisting of a total of approximately  
12 394,000 acres, are incorporated into the Hells Canyon  
13 Wilderness:

14 (1) Rapid River area, consisting of approxi-  
15 mately 76,000 acres administered by the Payette or  
16 Nez Perce National Forest.

17 (2) Salmon Face area, consisting of approxi-  
18 mately 19,000 acres administered by the Nez Perce  
19 National Forest.

20 (3) Klopton Cree/Corral Creek area, consisting  
21 of approximately 21,000 acres administered by the  
22 Nez Perce National Forest.

23 (4) Big Canyon area, consisting of approxi-  
24 mately 14,000 acres administered by the Nez Perce  
25 National Forest.

1           (5) Other Hells Canyon additions, consisting of  
2           approximately 264,000 acres administered by the  
3           Wallowa-Whitman National Forest.

4           (d) EAGLE CAP WILDERNESS ADDITIONS.—The  
5           Eagle Cap additions consisting of approximately 100,000  
6           acres administered by the Wallowa-Whitman National  
7           Forest are incorporated into the Eagle Cap Wilderness.

8           (e) NEW NATIONAL WILDERNESS PRESERVATION  
9           SYSTEM COMPONENTS.—The following areas are des-  
10          ignated as new components of the National Wilderness  
11          Preservation System:

12           (1) Lake Fork, consisting of approximately  
13           12,000 acres administered by the Wallowa-Whitman  
14           National Forest.

15           (2) Castle Ridge, consisting of approximately  
16           7,000 acres administered by the Wallowa-Whitman  
17           National Forest.

18           (3) Homestead, consisting of approximately  
19           6,000 acres administered by the Wallowa-Whitman  
20           National Forest.

21 **SEC. 107. ISLANDS IN THE SKY WILDERNESS.**

22           (a) FINDINGS.—The Congress makes the following  
23          findings:

1           (1) There are several mountain ranges in the  
2 Northern Rockies Bioregion that are separated from  
3 other mountains by the intervening prairies.

4           (2) These mountain ranges, including the Big-  
5 horn, Big Snowy, Pryor, Elkhorn, and Caribou  
6 Mountains, are known as island mountain ranges.

7           (3) These wild and beautiful mountains are  
8 home to an abundant array of native wildlife and  
9 birds and are representative of a unique ecological  
10 complex.

11       (b) DESIGNATION.—In order to protect the unique  
12 and increasingly isolated ecological treasure of island  
13 mountain ranges in the Northern Rockies Bioregion, the  
14 areas described in this section, which comprise approxi-  
15 mately 2,614,000 acres, as generally depicted on the maps  
16 with titles corresponding to each area and dated  
17 \_\_\_\_\_, are hereby designated as wilderness.  
18 The land designated as wilderness by this section shall be  
19 incorporated into the wilderness indicated or, in the case  
20 of wilderness designated by subsections (f), (g), (h), and  
21 (i), shall be known by the name given the wildernss in  
22 that subsection. Each map shall be on file and available  
23 for public inspection in the Office of the Chief of the For-  
24 est Service and the Office of the Director of the Bureau  
25 of Land Management.

1 (c) WENAH-TUCANNON WILDERNESS ADDI-  
2 TIONS.—The following areas, consisting of a total of ap-  
3 proximately 20,000 acres, are incorporated into the  
4 Wenaha-Tucannon Wilderness:

5 (1) Upper Tucannon area, consisting of ap-  
6 proximately 13,000 acres administered by the  
7 Umatilla National Forest.

8 (2) W-T Three area, consisting of approxi-  
9 mately 22,000 acres administered by the Umatilla  
10 National Forest.

11 (3) Meadow Creek area, consisting of approxi-  
12 mately 5,000 acres administered by the Umatilla  
13 National Forest.

14 (d) NORTH FORK JOHN DAY WILDERNESS ADDI-  
15 TIONS.—The following areas, consisting of a total of ap-  
16 proximately 104,000 acres, are incorporated into the  
17 Wenaha-Tucannon Wilderness:

18 (1) Greenhorn Mountain area, consisting of ap-  
19 proximately 35,000 acres administered by the  
20 Umatilla, the Malheur, or the Wallowa-Whitman Na-  
21 tional Forest.

22 (2) Jumpoff Joe area, consisting of approxi-  
23 mately 10,000 acres administered by the Umatilla or  
24 the Malheur National Forest.

1           (3) Twin Mountain area, consisting of approxi-  
2           mately 59,000 acres administered by the Wallowa-  
3           Whitman National Forest.

4           (e) CLOUD PEAK WILDERNESS ADDITIONS.—The  
5           Cloud Peak additions, consisting of approximately  
6           203,000 acres administered by the Bighorn National For-  
7           est and the Bureau of Land Management (Paint Rock  
8           Creek Canyon), are incorporated into the Cloud Peak Wil-  
9           derness.

10          (f) NEW NATIONAL WILDERNESS PRESERVATION  
11          SYSTEM COMPONENTS IN THE KETTLE MOUNTAINS.—  
12          The following areas within the Kettle Mountains are des-  
13          ignated as new components of the National Wilderness  
14          Preservation System:

15               (1) Thirteen Mile area, consisting of approxi-  
16               mately 14,000 acres administered by the Colville  
17               National Forest.

18               (2) Bald Snow area, consisting of approxi-  
19               mately 12,000 acres administered by the Colville  
20               National Forest.

21               (3) Copper/Kettle area, consisting of approxi-  
22               mately 81,000 acres administered by the Colville  
23               National Forest.

1           (4) Huckleberry South area, consisting of ap-  
2           proximately 10,000 acres administered by the  
3           Colville National Forest.

4           (5) Cougar Mountain area, consisting of ap-  
5           proximately 6,000 acres administered by the Colville  
6           National Forest.

7           (6) Owl Mountain area, consisting of approxi-  
8           mately 15,000 acres administered by the Colville  
9           National Forest.

10          (7) Deer Creek area, consisting of approxi-  
11          mately 9,000 acres administered by the Colville Na-  
12          tional Forest.

13          (8) Jacknife area, consisting of approximately  
14          9,000 acres administered by the Colville National  
15          Forest.

16          (9) Paradise area, consisting of approximately  
17          9,000 acres administered by the Colville National  
18          Forest.

19          (10) Bulldog Mountain area, consisting of ap-  
20          proximately 7,000 acres administered by the Colville  
21          National Forest.

22          (g) NEW NATIONAL WILDERNESS PRESERVATION  
23          SYSTEM COMPONENTS IN THE BIG HORN MOUNTAINS.—  
24          The following areas within the Big Horn Mountains are

1 designated as new components of the National Wilderness  
2 Preservation System:

3 (1) Little Bighorn area, consisting of approxi-  
4 mately 120,000 acres administered by the Bighorn  
5 National Forest.

6 (2) Walker Prairie area, consisting of approxi-  
7 mately 51,000 acres administered by the Bighorn  
8 National Forest.

9 (3) Devil's Canyon area, consisting of approxi-  
10 mately 32,000 acres administered by the Bighorn  
11 National Forest.

12 (4) Hideout Creek area, consisting of approxi-  
13 mately 9,000 acres administered by the Bighorn Na-  
14 tional Forest.

15 (5) Bear Rocks area, consisting of approxi-  
16 mately 25,000 acres administered by the Bighorn  
17 National Forest.

18 (6) Horse Creek Mesa area, consisting of ap-  
19 proximately 42,000 acres administered by the Big-  
20 horn National Forest.

21 (7) Petes Hole area, consisting of approxi-  
22 mately 20,000 acres administered by the Bighorn  
23 National Forest.

1           (8) Grommund Creek area, consisting of ap-  
2           proximately 6,000 acres administered by the Big-  
3           horn National Forest.

4           (9) Hazelton Peaks area, consisting of approxi-  
5           mately 9,000 acres administered by the Bighorn Na-  
6           tional Forest.

7           (10) Leigh Creek area, consisting of approxi-  
8           mately 7,000 acres administered by the Bighorn Na-  
9           tional Forest.

10          (11) Medicine Lodge area, consisting of ap-  
11          proximately 23,000 acres administered by the Big-  
12          horn National Forest or the Bureau of Land Man-  
13          agement.

14          (12) Alkali Creek area, consisting of approxi-  
15          mately 17,000 acres administered by the Bureau of  
16          Land Management.

17          (13) Trapper Creek Canyon area, consisting of  
18          approximately 17,000 acres administered by the Bu-  
19          reau of Land Management.

20          (14) North Fork Powder River area, consisting  
21          of approximately 15,000 acres administered by the  
22          Bureau of Land Management.

23          (15) Garder Mountain area, consisting of ap-  
24          proximately 18,000 acres administered by the Bu-  
25          reau of Land Management.

1           (16) Honeycombs area, consisting of approxi-  
2           mately 53,000 acres administered by the Bureau of  
3           Land Management.

4           (17) Buffalo Creek area, consisting of approxi-  
5           mately 27,000 acres administered by the Bureau of  
6           Land Management.

7           (18) Lysite Mountain area, consisting of ap-  
8           proximately 10,000 acres administered by the Bu-  
9           reau of Land Management.

10          (h) NEW NATIONAL WILDERNESS PRESERVATION  
11          SYSTEM COMPONENTS IN THE PRYOR MOUNTAINS.—The  
12          following areas within the Pryor Mountains are designated  
13          as components of the National Wilderness Preservation  
14          System:

15               (1) Lost Water Canyon area, consisting of ap-  
16               proximately 63,000 acres administered by the Custer  
17               National Forest, Bighorn National Recreation Area,  
18               or the Bureau of Land Management.

19               (2) Big Pryor Mountain area, consisting of ap-  
20               proximately 39,000 acres administered by the Custer  
21               National Forest.

22          (i) OTHER NEW NATIONAL WILDERNESS PRESERVA-  
23          TION SYSTEM COMPONENTS.—The following areas are  
24          designated as new components of the National Wilderness  
25          Preservation System:

1           (1) Willow Springs area, consisting of approxi-  
2           mately 10,000 acres administered by the Umatilla  
3           National Forest.

4           (2) Asotin Creek area, consisting of approxi-  
5           mately 18,000 acres administered by the Umatilla  
6           National Forest.

7           (3) Spangler area, consisting of approximately  
8           6,000 acres administered by the Umatilla National  
9           Forest.

10          (4) Wenatchee Creek area, consisting of ap-  
11          proximately 15,000 acres administered by the  
12          Umatilla National Forest.

13          (5) Mill Creek area, consisting of approximately  
14          25,000 acres administered by the Umatilla National  
15          Forest.

16          (6) Walla Walla area, consisting of approxi-  
17          mately 34,000 acres administered by the Umatilla  
18          National Forest.

19          (7) Jassaud area, consisting of approximately  
20          6,000 acres administered by the Umatilla National  
21          Forest.

22          (8) Grande Ronde area, consisting of approxi-  
23          mately 21,000 acres administered by the Umatilla  
24          National Forest.

1           (9) Texas Butte area, consisting of approxi-  
2           mately 8,000 acres administered by the Umatilla  
3           National Forest.

4           (10) Skookum area, consisting of approximately  
5           8,000 acres administered by the Umatilla National  
6           Forest.

7           (11) Potamus area, consisting of approximately  
8           6,000 acres administered by the Umatilla National  
9           Forest.

10          (12) South Fork-Tower area, consisting of ap-  
11          proximately 17,000 acres administered by the  
12          Umatilla National Forest.

13          (13) East John Day area, consisting of approxi-  
14          mately 7,000 acres administered by the Umatilla  
15          National Forest.

16          (14) Horseshoe Ridge area, consisting of ap-  
17          proximately 6,000 acres administered by the  
18          Umatilla National Forest.

19          (15) Hellhole/Mount Emily area, consisting of  
20          approximately 69,000 acres administered by the  
21          Umatilla or Wallowa-Whitman National Forest.

22          (16) North Mount Emily area, consisting of ap-  
23          proximately 6,000 acres administered by the  
24          Umatilla or Wallowa-Whitman National Forest.

1           (17) Beaver Creek area, consisting of approxi-  
2           mately 13,000 acres administered by the Wallowa-  
3           Whitman National Forest.

4           (18) Upper Grande Ronde area, consisting of  
5           approximately 12,000 acres administered by the  
6           Wallowa-Whitman National Forest.

7           (19) Marble Point area, consisting of approxi-  
8           mately 7,000 acres administered by the Wallowa-  
9           Whitman National Forest.

10          (20) Joeseph Canyon area, consisting of ap-  
11          proximately 24,000 acres administered by the  
12          Wallowa-Whitman National Forest.

13          (21) Tope Creek area, consisting of approxi-  
14          mately 9,000 acres administered by the Wallowa-  
15          Whitman National Forest.

16          (22) Baldy Mountain area, consisting of ap-  
17          proximately 6,000 acres administered by the  
18          Malheur National Forest.

19          (23) Dixie Butte area, consisting of approxi-  
20          mately 13,000 acres administered by the Malheur  
21          National Forest.

22          (24) Murderers Creek area, consisting of ap-  
23          proximately 25,000 acres administered by the  
24          Malheur National Forest.

1           (25) Flag Creek area, consisting of approxi-  
2           mately 7,000 acres administered by the Malheur Na-  
3           tional Forest.

4           (26) Fox Creek area, consisting of approxi-  
5           mately 6,000 acres administered by the Malheur Na-  
6           tional Forest.

7           (27) Glacier Mountain area, consisting of ap-  
8           proximately 25,000 acres administered by the  
9           Malheur National Forest.

10          (28) Malheur River area, consisting of approxi-  
11          mately 13,000 acres administered by the Malheur  
12          National Forest.

13          (29) McClellan Mountain area, consisting of ap-  
14          proximately 22,000 acres administered by the  
15          Malheur National Forest.

16          (30) Myrtle-Silvies area, consisting of approxi-  
17          mately 11,000 acres administered by the Malheur  
18          National Forest.

19          (31) Nipple Butte area, consisting of approxi-  
20          mately 12,000 acres administered by the Malheur  
21          National Forest.

22          (32) North Fork Malheur River area, consisting  
23          of approximately 25,000 acres administered by the  
24          Malheur National Forest.

1           (33) Pine Creek area, consisting of approxi-  
2           mately 14,000 acres administered by the Malheur  
3           National Forest.

4           (34) Shaketable area, consisting of approxi-  
5           mately 7,000 acres administered by the Malheur Na-  
6           tional Forest.

7           (35) Utley Butte area, consisting of approxi-  
8           mately 11,000 acres administered by the Malheur  
9           National Forest.

10          (36) Monument Rock area, consisting of ap-  
11          proximately 5,000 acres administered by the  
12          Malheur National Forest.

13          (37) Flint Range/Dolus/Lost Creek area, con-  
14          sisting of approximately 73,000 acres administered  
15          by the Beaverhead-Deerlodge National Forest.

16          (38) Fred Burr area, consisting of approxi-  
17          mately 6,000 acres administered by the Beaverhead-  
18          Deerlodge National Forest.

19          (39) Elkhorn Mountains area, consisting of ap-  
20          proximately 88,000 acres administered by the Hel-  
21          ena National Forest.

22          (40) Cache Peak area, consisting of approxi-  
23          mately 27,000 acres administered by the Sawtooth  
24          National Forest.

1           (41) Sublett area, consisting of approximately  
2           7,000 acres administered by the Sawtooth National  
3           Forest.

4           (42) Burnt Basin/Black Pine area, consisting of  
5           approximately 44,000 acres administered by the  
6           Sawtooth National Forest.

7           (43) Mount Harrison area, consisting of ap-  
8           proximately 30,000 acres administered by the Saw-  
9           tooth National Forest.

10          (44) Fifth Fork Rock Creek area, consisting of  
11          approximately 17,000 acres administered by the  
12          Sawtooth National Forest.

13          (45) Third Fork Rock Creek area, consisting of  
14          approximately 14,000 acres administered by the  
15          Sawtooth National Forest.

16          (46) Cottonwood area, consisting of approxi-  
17          mately 11,000 acres administered by the Sawtooth  
18          National Forest.

19          (47) Mohogany Butte area, consisting of ap-  
20          proximately 21,000 acres administered by the Saw-  
21          tooth National Forest.

22          (48) Thorobred area, consisting of approxi-  
23          mately 6,000 acres administered by the Sawtooth  
24          National Forest.

1           (49) Mount Naomi area, consisting of approxi-  
2           mately 28,000 acres administered by the Caribou  
3           National Forest.

4           (50) Worm Creek area, consisting of approxi-  
5           mately 42,000 acres administered by the Caribou  
6           National Forest.

7           (51) Swan Creek Mountain area, consisting of  
8           approximately 7,000 acres administered by the Car-  
9           ibou National Forest.

10          (52) Gibson area, consisting of approximately  
11          8,000 acres administered by the Caribou National  
12          Forest.

13          (53) Paris Peak area, consisting of approxi-  
14          mately 9,000 acres administered by the Caribou-  
15          Targhee National Forest.

16          (54) Station Creek area, consisting of approxi-  
17          mately 9,000 acres administered by the Caribou-  
18          Targhee National Forest.

19          (55) Mink Creek area, consisting of approxi-  
20          mately 16,000 acres administered by the Caribou-  
21          Targhee National Forest.

22          (56) Liberty Creek area, consisting of approxi-  
23          mately 15,000 acres administered by the Caribou-  
24          Targhee National Forest.

1           (57) Williams Creek area, consisting of approxi-  
2           mately 10,000 acres administered by the Caribou-  
3           Targhee National Forest.

4           (58) Stauffer Creek area, consisting of approxi-  
5           mately 6,000 acres administered by the Caribou-  
6           Targhee National Forest.

7           (59) Sherman Peak area, consisting of approxi-  
8           mately 8,000 acres administered by the Caribou-  
9           Targhee National Forest.

10          (60) Soda Point area, consisting of approxi-  
11          mately 23,000 acres administered by the Caribou-  
12          Targhee National Forest.

13          (61) Clarkston Mountain area, consisting of ap-  
14          proximately 16,000 acres administered by the Car-  
15          ibou-Targhee National Forest.

16          (62) Deep Creek area, consisting of approxi-  
17          mately 7,000 acres administered by the Caribou-  
18          Targhee National Forest.

19          (63) Oxford Mountain area, consisting of ap-  
20          proximately 41,000 acres administered by the Car-  
21          ibou-Targhee National Forest.

22          (64) Elkhorn Mountain area, consisting of ap-  
23          proximately 42,000 acres administered by the Car-  
24          ibou-Targhee National Forest.

1           (65) Bonneville Peak area, consisting of ap-  
2           proximately 32,000 acres administered by the Car-  
3           ibou-Targhee National Forest.

4           (66) North Pebble area, consisting of approxi-  
5           mately 5,000 acres administered by the Caribou-  
6           Targhee National Forest.

7           (67) Toponce area, consisting of approximately  
8           18,000 acres administered by the Caribou-Targhee  
9           National Forest.

10          (68) Scout Mountain area, consisting of ap-  
11          proximately 25,000 acres administered by the Car-  
12          ibou-Targhee National Forest.

13          (69) West Mink area, consisting of approxi-  
14          mately 20,000 acres administered by the Caribou-  
15          Targhee National Forest.

16          (70) Cuddy Mountain area, consisting of ap-  
17          proximately 41,000 acres administered by the  
18          Payette National Forest.

19          (71) Council Mountain area, consisting of ap-  
20          proximately 17,000 acres administered by the  
21          Payette National Forest.

22          (72) McCullough Peaks area, consisting of ap-  
23          proximately 38,000 acres administered by the Bu-  
24          reau of Land Management.

1           (73) Sheep Mountain area, consisting of ap-  
2           proximately 25,000 acres administered by the Bu-  
3           reau of Land Management.

4           (74) Red Butte area, consisting of approxi-  
5           mately 24,000 acres administered by the Bureau of  
6           Land Management.

7           (75) Bobcat Draw Badlands area, consisting of  
8           approximately 30,000 acres administered by the Bu-  
9           reau of Land Management.

10          (76) Cedar Mountain area, consisting of ap-  
11          proximately 39,000 acres administered by the Bu-  
12          reau of Land Management.

13          (77) Copper Mountain area, consisting of ap-  
14          proximately 7,000 acres administered by the Wyo-  
15          ming Bureau of Land Management.

16          (78) Fuller Peak area, consisting of approxi-  
17          mately 10,000 acres administered by the Bureau of  
18          Land Management.

19          (79) Lysite Badlands area, consisting of ap-  
20          proximately 14,000 acres administered by the Bu-  
21          reau of Land Management.

22          (80) Hoodoo Mountain, consisting of approxi-  
23          mately 11,000 acres administered by the Missoula  
24          Field Office of the Bureau of Land Management.

1           (81) Wales, consisting of approximately 12,000  
2           acres administered by the Missoula Field Office of  
3           the Bureau of Land Management.

4 **SEC. 108. BLACKFEET WILDERNESS.**

5           (a) DESIGNATION.—In furtherance of the purposes of  
6 the Wilderness Act, the preservation of Blackfeet religious  
7 lands, and Blackfeet treaty rights, certain lands within the  
8 Lewis and Clark National Forest comprising approxi-  
9 mately 129,000 acres and known as the Badger-Two Med-  
10 icine Area, as depicted on the map dated January 2003,  
11 and entitled “Blackfeet Wilderness”, are hereby des-  
12 ignated as the Blackfeet Wilderness and therefore as a  
13 component of the National Wilderness Preservation Sys-  
14 tem.

15           (b) TREATY RIGHTS.—The Congress recognizes that  
16 the Blackfeet Nation retains treaty rights in the lands des-  
17 ignated as the Blackfeet Wilderness, as provided for in  
18 the 1896 treaty with the United States Government.

19           (c) REVIEW.—The Secretary of Agriculture shall con-  
20 duct a review of the Blackfeet Wilderness in accordance  
21 with the Wilderness Act. Not later than three years after  
22 the date of enactment of this Act, the Secretary shall sub-  
23 mit to Congress a report containing the results of the re-  
24 view.

25           (d) REVIEW COMMITTEE.—

1           (1) APPOINTMENT.—The Secretary shall estab-  
2           lish a committee composed of the following:

3                   (A) Representatives of the Blackfeet Tribal  
4           Business Council.

5                   (B) Blackfeet Tribal Traditionalists se-  
6           lected in a manner consistent with the historic  
7           Cultural Law of the Tribe, independently of the  
8           Business Council. The Secretary shall give care-  
9           ful consideration to the Blackfeet Language  
10          community and its views.

11                  (C) The National Park Service.

12                  (D) The State of Montana.

13                  (E) Representatives of the public who use  
14          the lands designated as wilderness by this sec-  
15          tion, including environmental groups previously  
16          appropriately involved in the area.

17           (2) ADVISORY ROLE.—The committee shall reg-  
18          ularly advise the Secretary during the preparation of  
19          the review required by subsection (c). The committee  
20          shall submit its findings to Congress concurrently  
21          with the submission of the report required by that  
22          subsection.

23          (e) MANAGEMENT PLAN.—The Secretary shall in-  
24          struct the committee to develop a wilderness management  
25          plan for the Blackfeet Wilderness that ensures that Black-

1 feet religious and treaty rights to lands in the wilderness  
2 are recognized and honored.

3 (f) CONSIDERATIONS.—In carrying out their duties  
4 under this section, the Secretary and the committee shall  
5 give special consideration to the religious, wilderness, and  
6 wildlife uses of the Blackfeet Wilderness, taking into ac-  
7 count treaties the United States has entered into with the  
8 Blackfeet Nation.

9 (g) WITHDRAWAL.—The Blackfeet Wilderness is  
10 hereby withdrawn from all forms of entry, appropriation,  
11 the disposal under the mining laws, and from disposition  
12 under the geothermal and mineral leasing laws.

13 **SEC. 109. ADMINISTRATION.**

14 (a) ADMINISTRATION.—Subject to valid existing  
15 rights, lands designated as wilderness by this title shall  
16 be administered in accordance with the provisions of the  
17 Wilderness Act (16 U.S.C. 1131 et seq.), except that, with  
18 respect to such lands, any reference to the effective date  
19 of the Wilderness Act or any similar reference shall be  
20 deemed to be a reference to the date of the enactment  
21 of this Act.

22 (b) MAP AND DESCRIPTION.—As soon as practicable  
23 after the date of the enactment of this Act, the Secretary  
24 of Agriculture, in the case of National Forest System  
25 lands designated as wilderness by this title, and the Sec-

1   retary of the Interior, in the case of National Park System  
2   and public lands administered by the Bureau of Land  
3   Management designated as wilderness by this title, shall  
4   file a map and legal description of such lands with the  
5   Committee on Energy and Natural Resources of the Sen-  
6   ate and the Committee on Natural Resources of the House  
7   of Representatives. Each map and legal description shall  
8   have the same force and effect as if included in this Act,  
9   except that the Secretary concerned may correct clerical  
10   and typographical errors in the maps and legal descrip-  
11   tions. Each map and legal description shall be on file and  
12   available for public inspection in the Office of the Chief  
13   of the Forest Service, the Office of the Director of the  
14   Bureau of Land Management, or the Office of the Direc-  
15   tor of the Park Service.

16   **SEC. 110. WATER.**

17       (a) **RESERVATION.**—With respect to the lands des-  
18   ignated as wilderness by this title, the Congress hereby  
19   reserves a quantity of water sufficient to fulfill the pur-  
20   poses for which the lands are designated as wilderness.  
21   The priority date of such reserved rights shall be the date  
22   of enactment of this Act.

23       (b) **IMPLEMENTATION.**—The Secretary of Agri-  
24   culture, the Secretary of the Interior, and all other officers  
25   of the United States shall take all steps necessary to pro-

1 tect the rights reserved by subsection (a), including the  
2 filing of claims for quantification of such rights in any  
3 present or future appropriate stream adjudication, in a  
4 court of the State of Idaho, Montana, Wyoming, Oregon,  
5 or Washington, in which the United States has been or  
6 is properly joined in accordance with section 208 of the  
7 Act of July 10, 1952 (43 U.S.C. 666; commonly referred  
8 to as the McCarran Amendment).

## 9 **TITLE II—BIOLOGICAL** 10 **CONNECTING CORRIDORS**

### 11 **SEC. 201. FINDINGS.**

12 The Congress makes the following findings:

13 (1) The most recent scientific information on  
14 ecological reserve design and function, including re-  
15 cent scientific information on species dispersal in re-  
16 sponse to a changing climate, points out the critical  
17 need for biological connecting corridors between the  
18 larger core ecosystem areas.

19 (2) While none of the remaining major wild  
20 land ecosystems of the Northern Rockies Bioregion  
21 appears to be of sufficient size to perpetuate the full  
22 complement of self-sustaining viable populations of  
23 native wildlife, biological diversity, and full range of  
24 ecological processes on its own, it appears that an  
25 effective reserve system can be achieved if biological

1 connecting corridors between the ecosystems are  
2 identified and protected.

3 (3) The wild land areas addressed by this title  
4 are located between the major core ecosystems of the  
5 region and are essential for wildlife and plant migra-  
6 tion and genetic interchange.

7 (4) These areas are some of the most beautiful  
8 and wild mountain ranges in the United States, in-  
9 cluding the Bitterroot, Sapphire, Lost River, Lemhi,  
10 and Bridger mountain ranges.

11 **SEC. 202. DESIGNATION OF BIOLOGICAL CONNECTING COR-**  
12 **RIDORS.**

13 (a) DESIGNATION.—To protect the life flow of the  
14 Northern Rockies Bioregion, the areas described in this  
15 section, which comprise approximately 7,791,000 acres as  
16 generally depicted on the maps with titles corresponding  
17 to each area and dated \_\_\_\_\_, are hereby des-  
18 ignated as biological connecting corridors. The designated  
19 biological connecting corridors are of two types, areas des-  
20 ignated as components of the National Wilderness Preser-  
21 vation System and areas subject to special corridor man-  
22 agement requirements under section 203. Each biological  
23 connecting corridor shall be known by the name given it  
24 in the subsection establishing it. Each map shall be on  
25 file and available for public inspection in the Office of the

1 Chief of the Forest Service and the Office of the Director  
2 of the Bureau of Land Management.

3 (b) SAPPHIRE MOUNTAINS/CONTINENTAL DIVIDE  
4 CORRIDORS.—The following areas, consisting of a total of  
5 approximately 599,000 acres, of which 479,000 acres are  
6 incorporated into the National Wilderness Preservation  
7 System and 120,000 acres are subject to the special cor-  
8 ridor management requirements under section 203, are  
9 designated as the Sapphire Mountains/Continental Divide  
10 Biological Connecting Corridors:

11 (1) Welcome Creek Addition area, consisting of  
12 approximately 1,000 acres administered by the Lolo  
13 National Forest.

14 (2) Anaconda Pintlar Additions area, consisting  
15 of—

16 (A) the original Anaconda Pintlar Addi-  
17 tions area of approximately 80,000 acres ad-  
18 ministered by the Bitterroot or Beaverhead-  
19 Deerlodge National Forest; and

20 (B) the Sapphire area of approximately  
21 114,000 acres administered by the Bitterroot or  
22 Beaverhead-Deerlodge National Forest.

23 (3) Stony Mountain area, consisting of approxi-  
24 mately 120,000 acres administered by the Lolo or  
25 Beaverhead-Deerlodge National Forest.

1           (4) Quigg Peak area, consisting of approxi-  
2           mately 77,000 acres administered by the Lolo or  
3           Beaverhead-Deerlodge National Forest.

4           (5) Silver King area, consisting of approxi-  
5           mately 50,000 acres administered by the Lolo or  
6           Beaverhead-Deerlodge National Forest.

7           (6) Emerine area, consisting of approximately  
8           15,000 acres administered by the Beaverhead-  
9           Deerlodge National Forest.

10          (7) Sleeping Child area, consisting of approxi-  
11          mately 21,000 acres administered by the Bitterroot  
12          National Forest.

13          (c) JOCKO MOUNTAINS/CABINET MOUNTAINS COR-  
14 RIDOR.—The following areas, consisting of a total of ap-  
15 proximately 274,000 acres, of which 145,000 acres are in-  
16 corporated into the National Wilderness Preservation Sys-  
17 tem and 129,000 acres are subject to the special corridor  
18 management requirements under section 203, are des-  
19 igned as the Jocko Mountains/Cabinet Mountains Bio-  
20 logical Connecting Corridors:

21           (1) Mount Bushnell area, consisting of approxi-  
22           mately 42,000 acres administered by the Lolo Na-  
23           tional Forest.

1           (2) Cherry Peak area, consisting of approxi-  
2           mately 38,000 acres administered by the Lolo Na-  
3           tional Forest.

4           (3) Patrick's Knob/North Cutoff area, con-  
5           sisting of approximately 17,000 acres administered  
6           by the Lolo National Forest.

7           (4) South Siegel/South Cutoff area, consisting  
8           of approximately 14,000 acres administered by the  
9           Lolo National Forest.

10          (5) North Siegel area, consisting of approxi-  
11          mately 9,000 acres administered by the Lolo Na-  
12          tional Forest.

13          (6) Reservation Divide area, consisting of ap-  
14          proximately 25,000 acres administered by the Lolo  
15          National Forest.

16          (d) NINE MILE/GREAT BURN CORRIDORS.—The fol-  
17          lowing areas, consisting of a total of approximately  
18          119,000 acres, of which 46,000 acres are incorporated  
19          into the National Wilderness Preservation System and  
20          73,000 acres are subject to the special corridor manage-  
21          ment requirements under section 203, are designated as  
22          the Nine Mile/Great Burn Corridor Biological Connecting  
23          Corridors:

1           (1) Burdette area, consisting of approximately  
2           16,000 acres administered by the Lolo National For-  
3           est.

4           (2) Petty Mountain area, consisting of approxi-  
5           mately 16,000 acres administered by the Lolo Na-  
6           tional Forest.

7           (3) Garden Point area, consisting of approxi-  
8           mately 6,000 acres administered by the Lolo Na-  
9           tional Forest.

10          (4) Deep Creek area, consisting of approxi-  
11          mately 8,000 acres administered by the Lolo Na-  
12          tional Forest.

13          (e) ANACONDA-PINTLAR-DIVIDE CORRIDORS.—The  
14          following areas, consisting of a total of approximately  
15          373,000 acres, of which 113,000 acres are incorporated  
16          into the National Wilderness Preservation System and  
17          260,000 acres are subject to the special corridor manage-  
18          ment requirements under section 203, are designated as  
19          the Anaconda-Pintlar-Divide Biological Connecting Cor-  
20          ridors:

21               (1) Fleecer area, consisting of approximately  
22               36,000 acres administered by the Beaverhead-  
23               Deerlodge National Forest.

1           (2) Highlands area, consisting of approximately  
2           21,000 acres administered by the Beaverhead-  
3           Deerlodge National Forest.

4           (3) Basin Creek area, consisting of approxi-  
5           mately 9,000 acres administered by the Beaverhead-  
6           Deerlodge National Forest.

7           (4) Granulated Mountains area, consisting of  
8           approximately 14,000 acres administered by the  
9           Beaverhead-Deerlodge National Forest.

10          (5) Lower Boulder area, consisting of approxi-  
11          mately 6,000 acres administered by the Bureau of  
12          Land Management.

13          (6) Ruby Range area, consisting of approxi-  
14          mately 27,000 acres administered by the Bureau of  
15          Land Management.

16          (7) Humbug Spires area, consisting of approxi-  
17          mately 12,000 acres administered by the Bureau of  
18          Land Management.

19          (8) Elevation Mountain area, consisting of ap-  
20          proximately 13,000 acres administered by the Bu-  
21          reau of Land Management.

22          (f) TEN LAKES/CABINET/YAAK CORRIDORS.—The  
23          following areas, consisting of a total of approximately  
24          349,000 acres, of which 39,000 acres are incorporated  
25          into the National Wilderness Preservation System and

1 310,000 acres are subject to the special corridor manage-  
2 ment requirements under section 203, are designated as  
3 the Ten Lakes/Cabinet/Yaak Biological Connecting Cor-  
4 ridors:

5 (1) Gold Hill area, consisting of approximately  
6 6,000 acres administered by the Kootenai National  
7 Forest.

8 (2) Gold Hill West area, consisting of approxi-  
9 mately 16,000 acres administered by the Kootenai  
10 National Forest.

11 (3) Zula Creek area, consisting of approxi-  
12 mately 10,000 acres administered by the Kootenai  
13 National Forest.

14 (4) Big Creek area, consisting of approximately  
15 8,000 acres administered by the Kootenai National  
16 Forest.

17 (g) CABINET/YAAK/GREAT BURN COMPLEX COR-  
18 RIDOR.—The following areas, consisting of a total of ap-  
19 proximately 531,000 acres, of which 326,000 acres are in-  
20 corporated into the National Wilderness Preservation Sys-  
21 tem and 205,000 acres are subject to the special corridor  
22 management requirements under section 203, are des-  
23 igned as the Cabinet/Yaak/Great Burn Complex Biologi-  
24 cal Connecting Corridors:

1           (1) Maple Peak area, consisting of approxi-  
2           mately 19,000 acres administered by the Lolo, Idaho  
3           Panhandle, or Kootenai National Forest.

4           (2) Storm Creek area, consisting of approxi-  
5           mately 8,000 acres administered by the Idaho Pan-  
6           handle National Forest.

7           (3) Hammond Creek area, consisting of ap-  
8           proximately 17,000 acres administered by the Idaho  
9           Panhandle National Forest.

10          (4) North Fork area, consisting of approxi-  
11          mately 31,000 acres administered by the Idaho Pan-  
12          handle National Forest.

13          (5) Big Creek area, consisting of approximately  
14          76,000 acres administered by the Idaho Panhandle  
15          National Forest.

16          (6) Kootenai Peak area, consisting of approxi-  
17          mately 10,000 acres administered by the Idaho Pan-  
18          handle National Forest.

19          (7) Lost Creek area, consisting of approxi-  
20          mately 11,537 acres administered by the Idaho Pan-  
21          handle National Forest.

22          (8) East Cathedral Peak area, consisting of ap-  
23          proximately 22,000 acres administered by the Idaho  
24          Panhandle National Forest.

1           (9) East Fork Elk, consisting of approximately  
2           7,000 acres administered by the Idaho Panhandle of  
3           Kootenai National Forest.

4           (10) West Fork Elk, consisting of approxi-  
5           mately 5,000 acres administered by the Idaho  
6           Kootenai National Forest.

7           (11) Spion Kop area, consisting of approxi-  
8           mately 22,000 acres administered by the Idaho Pan-  
9           handle National Forest.

10          (12) Roland Point area, consisting of approxi-  
11          mately 6,000 acres administered by the Idaho Pan-  
12          handle National Forest.

13          (13) Trout Creek area, consisting of approxi-  
14          mately 39,000 acres administered by the Idaho Pan-  
15          handle or Kootenai National Forest.

16          (14) Wonderful Peak area, consisting of ap-  
17          proximately 6,000 acres administered by the Idaho  
18          Panhandle or Lolo National Forest.

19          (15) Stevens Peak area, consisting of approxi-  
20          mately 5,000 acres administered by the Idaho Pan-  
21          handle or Lolo National Forest.

22          (16) Evans Gulch area, consisting of approxi-  
23          mately 8,000 acres administered by the Lolo Na-  
24          tional Forest.

1           (17) Gilt Edge-Silver Creek area, consisting of  
2           approximately 10,000 acres administered by the  
3           Lolo National Forest.

4           (18) Ward Eagle area, consisting of approxi-  
5           mately 9,000 acres administered by the Lolo Na-  
6           tional Forest.

7           (19) Marble Point area, consisting of approxi-  
8           mately 13,000 acres administered by the Lolo Na-  
9           tional Forest.

10          (20) Clear Creek area, consisting of approxi-  
11          mately 6,000 acres administered by the Lolo Na-  
12          tional Forest.

13          (h) CABINET/YAAK/SELKIRK CORRIDORS.—Lands  
14          consisting of approximately 96,000 acres administered by  
15          the Idaho Panhandle, Kootenai, or Colville National For-  
16          est are designated as the Cabinet/Yaak/Selkirk Biological  
17          Connecting Corridors and shall be subject to the special  
18          corridor management requirements under section 203.

19          (i) CABINET/YAAK/CANADA CORRIDORS.—Lands  
20          consisting of approximately 41,000 acres administered by  
21          the Idaho Panhandle or Kootenai National Forest are des-  
22          ignated as the Cabinet/Yaak/Canada Biological Con-  
23          necting Corridors and shall be subject to the special cor-  
24          ridor management requirements under section 203.

1           (j) ANACONDA-PINTLAR/BITTERROOT MOUNTAINS  
2 CORRIDORS.—The following areas, consisting of a total of  
3 approximately 556,000 acres, of which 409,000 acres are  
4 incorporated into the National Wilderness Preservation  
5 System and 147,000 acres are subject to the special cor-  
6 ridor management requirements under section 203, are  
7 designated as the Anaconda-Pintlar/Bitterroot Mountains  
8 Biological Connecting Corridors:

9           (1) West Pioneers area, consisting of approxi-  
10 mately 230,000 acres administered by the Beaver-  
11 head-Deerlodge National Forest.

12           (2) Cattle Gulch Ridge area, consisting of ap-  
13 proximately 19,000 acres administered by the Bea-  
14 verhead-Deerlodge National Forest.

15           (3) East Pioneers/Call Mountain area, con-  
16 sisting of approximately 160,000 acres administered  
17 by the Beaverhead-Deerlodge National Forest or the  
18 Bureau of Land Management.

19           (k) FRANK CHURCH/GREATER YELLOWSTONE COR-  
20 RIDORS.—The following areas, consisting of a total of ap-  
21 proximately 1,840,000 acres, of which 1,198,000 acres are  
22 incorporated into the National Wilderness Preservation  
23 System and 642,000 acres are subject to the special cor-  
24 ridor management requirements under section 203, are

1 designated as the Frank Church/Greater Yellowstone Bio-  
2 logical Connecting Corridors:

3 (1) Tolan Creek area, consisting of approxi-  
4 mately 7,000 acres administered by the Bitterroot  
5 National Forest.

6 (2) Allan Mountain area, consisting of approxi-  
7 mately 151,000 acres administered by the Bitterroot  
8 or Salmon-Challis National Forest.

9 (3) Anderson Mountain area, consisting of ap-  
10 proximately 49,000 acres administered by the Bea-  
11 verhead or Salmon-Challis National Forest.

12 (4) West Big Hole area, consisting of approxi-  
13 mately 21,000 acres administered by the Beaverhead  
14 or Salmon-Challis National Forest.

15 (5) Goat Mountain area, consisting of approxi-  
16 mately 45,000 acres administered by the Beaverhead  
17 or Salmon-Challis National Forest.

18 (6) Italian Peaks/Eighteen Mile/Maiden area,  
19 consisting of approximately 305,000 acres adminis-  
20 tered by the Beaverhead, Salmon, or Caribou-  
21 Targhee National Forest or the Bureau of Land  
22 Management.

23 (7) Garfield Mountain area, consisting of ap-  
24 proximately 92,000 acres administered by the Bea-  
25 verhead or Caribou-Targhee National Forest.

1           (8) Four Eyes Canyon area, consisting of ap-  
2           proximately 8,000 acres administered by the Beaver-  
3           head-Deerlodge National Forest.

4           (9) Tendoy Mountains area (Sourdough, Tim-  
5           ber Butte, McKenzie, Limekiln, and Hidden Pas-  
6           ture), consisting of approximately 83,000 acres ad-  
7           ministered by the Beaverhead-Deerlodge National  
8           Forest or the Bureau of Land Management.

9           (10) Henneberry Ridge area, consisting of ap-  
10          proximately 12,000 acres administered by the Bu-  
11          reau of Land Management.

12          (11) Black Tail Moutains area, consisting of  
13          approximately 15,000 acres administered by the Bu-  
14          reau of Land Management.

15          (12) Saginaw Creek area, consisting of approxi-  
16          mately 9,000 acres administered by the Beaverhead-  
17          Deerlodge National Forest.

18          (13) Tash Peak area, consisting of approxi-  
19          mately 53,000 acres administered by the Beaver-  
20          head-Deerlodge National Forest.

21          (14) Beaver Lakes area, consisting of approxi-  
22          mately 7,000 acres administered by the Beaverhead-  
23          Deerlodge National Forest.

1           (15) Agency Creek area, consisting of approxi-  
2           mately 6,000 acres administered by the Salmon-  
3           Challis National Forest.

4           (16) Freezeout/Raynolds Pass area, consisting  
5           of approximately 37,000 acres administered by the  
6           Caribou-Targhee National Forest.

7           (17) Two Top area, consisting of approximately  
8           7,000 acres administered by the Caribou-Targhee  
9           National Forest.

10          (18) Mount Jefferson/Centennials area, con-  
11          sisting of approximately 88,000 acres administered  
12          by the Caribou-Targhee or Beaverhead-Deerlodge  
13          National Forest or the Bureau of Land Manage-  
14          ment.

15          (19) Bear Creek area, consisting of approxi-  
16          mately 7,000 acres administered by the Beaverhead-  
17          Deerlodge National Forest.

18          (1) FRENCH CREEK/HELLS CANYON CORRIDORS.—  
19          Lands consisting of approximately 3,000 acres adminis-  
20          tered by the Payette or Nez Perce National Forest or the  
21          Bureau of Land Management are designated as the  
22          French Creek/Hells Canyon Biological Connecting Cor-  
23          ridors and shall be subject to the special corridor manage-  
24          ment requirements under section 203.

1 (m) LEMHI MOUNTAINS CORRIDORS.—The following  
2 areas, consisting of a total of approximately 604,000  
3 acres, of which 516,000 acres are incorporated into the  
4 National Wilderness Preservation System and 88,000  
5 acres are subject to the special corridor management re-  
6 quirements under section 203, are designated as the  
7 Lemhi Mountains Biological Connecting Corridors:

8 (1) North Lemhi Mountains area, consisting of  
9 approximately 309,000 acres administered by the  
10 Salmon-Challis National Forest.

11 (2) Diamond Peak/Black Canyon area, con-  
12 sisting of approximately 173,000 acres administered  
13 by the Salmon- Challis, or Caribou-Targhee National  
14 Forest or Idaho Falls District of the Bureau of  
15 Land Management.

16 (3) Warm Canyon area, consisting of approxi-  
17 mately 7,000 acres administered by the Salmon-  
18 Challis National Forest.

19 (4) Goldbug Ridge area, consisting of approxi-  
20 mately 13,000 acres administered by the Salmon-  
21 Challis National Forest.

22 (5) Sal Mountain area, consisting of approxi-  
23 mately 14,000 acres administered by the Salmon-  
24 Challis National Forest.

1           (n) LOST RIVER RANGE CORRIDORS.—The following  
2 areas, consisting of a total of approximately 464,000  
3 acres, of which 400,000 acres are incorporated into the  
4 National Wilderness Preservation System and 64,000  
5 acres are subject to the special corridor management re-  
6 quirements under section 203, are designated as the Lost  
7 River Range Biological Connecting Corridors:

8           (1) Borah Peak area, consisting of approxi-  
9 mately 155,000 acres administered by the Salmon-  
10 Challis National Forest or the Salmon District of  
11 the Bureau of Land Management.

12           (2) King Mountain area, consisting of approxi-  
13 mately 87,000 acres administered by the Salmon-  
14 Challis National Forest.

15           (3) Grouse Peak area, consisting of approxi-  
16 mately 9,000 acres administered by the Salmon-  
17 Challis National Forest.

18           (4) Red Hill area, consisting of approximately  
19 15,000 acres administered by the Salmon-Challis  
20 National Forest.

21           (5) Jumpoff Mountain area, consisting of ap-  
22 proximately 14,000 acres administered by the Salm-  
23 on-Challis National Forest.

1           (6) Wood Canyon area, consisting of approxi-  
2           mately 8,000 acres administered by the Salmon-  
3           Challis National Forest.

4           (7) Pahsimeroi area, consisting of approxi-  
5           mately 73,000 acres administered by the Salmon-  
6           Challis National Forest.

7           (8) Burnt Creek area, consisting of approxi-  
8           mately 22,000 acres administered by the Salmon or  
9           the Idaho Falls District of the Bureau of Land  
10          Management.

11          (9) Hawley Mountain area, consisting of ap-  
12          proximately 17,000 acres administered by the Idaho  
13          Falls District of the Bureau of Land Management.

14          (o) FRANK CHURCH COMPLEX/LEMHI RANGE COR-  
15          RIDORS.—Lands consisting of approximately 3,000 acres  
16          administered by the Salmon-Challis National Forest or the  
17          Bureau of Land Management are designated as the Frank  
18          Church Complex/Lemhi Range Biological Connecting Cor-  
19          ridors and shall be subject to the special corridor manage-  
20          ment requirements under section 203.

21          (p) BOULDER/WHITE CLOUDS/LOST RIVER RANGE  
22          CORRIDORS.—The following areas, consisting of a total of  
23          approximately 233,000 acres, of which 145,000 acres are  
24          incorporated into the National Wilderness Preservation  
25          System and 88,000 acres are subject to the special cor-

1 ridor management requirements under section 203, are  
2 designated as the Boulder/White Clouds/Lost River Range  
3 Biological Connecting Corridors:

4 (1) Jerry Peak area, consisting of approxi-  
5 mately 28,000 acres administered by the Salmon  
6 District of the Bureau of Land Management.

7 (2) Jerry Peak West area, consisting of ap-  
8 proximately 12,000 acres administered by the Salm-  
9 on District of the Bureau of Land Management.

10 (3) Corral-Horse Basin area, consisting of ap-  
11 proximately 69,000 acres administered by the Salm-  
12 on District of the Bureau of Land Management.

13 (4) Appendicitis Hill area, consisting of ap-  
14 proximately 26,000 acres administered by the Idaho  
15 Falls District of the Bureau of Land Management.

16 (5) White-Knob Mountains area, consisting of  
17 approximately 10,000 acres administered by the  
18 Idaho Falls District of the Bureau of Land Manage-  
19 ment.

20 (q) BITTERROOT/LEMHI CORRIDORS.—Lands con-  
21 sisting of approximately 20,000 acres administered by the  
22 Salmon-Challis National Forest or the Bureau of Land  
23 Management are designated as the Bitterroot/Lemhi Bio-  
24 logical Connecting Corridors and shall be subject to the

1 special corridor management requirements under section  
2 203.

3 (F) GREATER GLACIER/GREATER YELLOWSTONE  
4 CORRIDORS.—The following areas, consisting of a total of  
5 approximately 1,705,000 acres, of which 1,163,000 acres  
6 are incorporated into the National Wilderness Preserva-  
7 tion System and 542,000 acres are subject to the special  
8 corridor management requirements under section 203, are  
9 designated as the Greater Glacier/Greater Yellowstone Bi-  
10 ological Connecting Corridors:

11 (1) Tenderfoot/Deep Creek area, consisting of  
12 approximately 105,000 acres administered by the  
13 Lewis and Clark National Forest.

14 (2) Middle Fork Judith area, consisting of ap-  
15 proximately 84,000 acres administered by the Lewis  
16 and Clark National Forest.

17 (3) Pilgrim Creek area, consisting of approxi-  
18 mately 47,000 acres administered by the Lewis and  
19 Clark National Forest.

20 (4) Paine Gulch area, consisting of approxi-  
21 mately 8,000 acres administered by the Lewis and  
22 Clark National Forest.

23 (5) Sawmill Gulch area, consisting of approxi-  
24 mately 12,000 acres administered by the Lewis and  
25 Clark National Forest.

1           (6) Spring Creek area, consisting of approxi-  
2           mately 18,000 acres administered by the Lewis and  
3           Clark National Forest.

4           (7) TW Mountain area, consisting of approxi-  
5           mately 8,000 acres administered by the Lewis and  
6           Clark National Forest.

7           (8) Big Baldy area, consisting of approximately  
8           43,000 acres administered by the Lewis and Clark  
9           National Forest.

10          (9) Granite Mountain area, consisting of ap-  
11          proximately 10,000 acres administered by the Lewis  
12          and Clark National Forest.

13          (10) Tollgate-Sheep area, consisting of approxi-  
14          mately 25,000 acres administered by the Lewis and  
15          Clark National Forest.

16          (11) Mount High area, consisting of approxi-  
17          mately 33,000 acres administered by the Lewis and  
18          Clark National Forest.

19          (12) Bluff Mountain area, consisting of ap-  
20          proximately 37,000 acres administered by the Lewis  
21          and Clark National Forest.

22          (13) North Fork Smith area, consisting of ap-  
23          proximately 9,000 acres administered by the Lewis  
24          and Clark National Forest.

1           (14) Big Snowies area, consisting of approxi-  
2           mately 105,000 acres administered by the Lewis and  
3           Clark National Forest or Bureau of Land Manage-  
4           ment.

5           (15) Highwoods area, consisting of approxi-  
6           mately 25,000 acres administered by the Lewis and  
7           Clark National Forest.

8           (16) Highwood Baldy area, consisting of ap-  
9           proximately 16,000 acres administered by the Lewis  
10          and Clark National Forest.

11          (17) Calf Creek area, consisting of approxi-  
12          mately 10,000 acres administered by the Lewis and  
13          Clark National Forest.

14          (18) Eagle Creek area, consisting of approxi-  
15          mately 6,000 acres administered by the Lewis and  
16          Clark National Forest.

17          (19) Castle Mountains area, consisting of ap-  
18          proximately 28,000 acres administered by the Lewis  
19          and Clark National Forest.

20          (20) Box Canyon area, consisting of approxi-  
21          mately 15,000 acres administered by the Lewis and  
22          Clark National Forest.

23          (21) Crazy Mountains area, consisting of ap-  
24          proximately 159,000 acres administered by the  
25          Lewis and Clark or Gallatin National Forest.

1           (22) Gates of Mountains additions, consisting  
2 of approximately 20,000 acres administered by the  
3 Helena National Forest, which shall be incorporated  
4 into the Gates of the Mountain Wilderness.

5           (23) Lazyman Gulch area, consisting of ap-  
6 proximately 11,000 acres administered by the Hel-  
7 ena National Forest.

8           (24) Mt. Baldy area, consisting of approxi-  
9 mately 19,000 acres administered by the Helena Na-  
10 tional Forest.

11          (25) Camas Creek area, consisting of approxi-  
12 mately 27,000 acres administered by the Helena Na-  
13 tional Forest.

14          (26) Jericho Mountain area, consisting of ap-  
15 proximately 12,000 acres administered by the Hel-  
16 ena National Forest.

17          (27) Irish Gulch area, consisting of approxi-  
18 mately 7,000 acres administered by the Helena Na-  
19 tional Forest.

20          (28) Grassy Mountain area, consisting of ap-  
21 proximately 7,000 acres administered by the Helena  
22 National Forest.

23          (29) Middleman/Hedges Mountain area, con-  
24 sisting of approximately 34,000 acres administered  
25 by the Helena National Forest.

1           (30) Hellgate Gulch area, consisting of approxi-  
2           mately 17,000 acres administered by the Helena Na-  
3           tional Forest.

4           (31) Cayuse Mountain area, consisting of ap-  
5           proximately 22,000 acres administered by the Hel-  
6           ena National Forest.

7           (32) Electric Peak/Little Blackfoot Meadows  
8           area, consisting of approximately 53,000 acres ad-  
9           ministered by the Helena or Beaverhead-Deerlodge  
10          National Forest.

11          (33) Whitetail-Haystack area, consisting of ap-  
12          proximately 73,000 acres administered by the Bea-  
13          verhead-Deerlodge National Forest.

14          (34) O'Neil Creek area, consisting of approxi-  
15          mately 7,000 acres administered by the Beaverhead-  
16          Deerlodge National Forest.

17          (35) Bridger area, consisting of approximately  
18          51,000 acres administered by the Gallatin National  
19          Forest.

20          (s) MT. LEIDY HIGHLANDS/WIND RIVER RANGE  
21          CORRIDORS.—Lands consisting of a total of approxi-  
22          mately 69,000 acres are designated as the Mt. Leidy  
23          Highlands/Wind River Range Biological Connecting Cor-  
24          ridor, of which—

1           (1) approximately 7,000 acres known as the  
2 Fish Lake Mountain Wilderness are incorporated  
3 into the National Wilderness Preservation System;  
4 and

5           (2) approximately 62,000 acres are subject to  
6 the special corridor management requirements under  
7 section 203.

8 **SEC. 203. TREATMENT OF BIOLOGICAL CONNECTING COR-**  
9 **RIDORS.**

10       (a) ROADLESS LANDS DESIGNATED AS WILDER-  
11 NESS.—The roadless areas identified as part of a biologi-  
12 cal connecting corridor on the maps referred to by name  
13 in section 202 are hereby designated as wilderness and  
14 as components of the National Wilderness Preservation  
15 System.

16       (b) SPECIAL CORRIDOR MANAGEMENT AREAS.—  
17 Those portions of the biological connecting corridors des-  
18 ignated by section 202 that are not covered by subsection  
19 (a) are hereby designated as special corridor management  
20 areas and shall be managed according to the Multiple-Use  
21 Sustained-Yield Act of 1960 (16 U.S.C. 528 et seq.) and  
22 other applicable laws, and in the following manner:

23           (1) The practice of even-aged silvicultural man-  
24 agement and timber harvesting is prohibited within  
25 the special corridor management areas.

1           (2) Subject to valid existing rights, mining, oil,  
2           and gas exploration and development and new road  
3           construction or reconstruction is prohibited within  
4           the special corridor management areas.

5           (3) The Federal land management agency re-  
6           sponsible for the administration of a special corridor  
7           management area or portion thereof shall take im-  
8           mediate steps to ensure that road densities within  
9           the biological connecting corridor approach, as near-  
10          ly as possible, zero miles of road per square mile of  
11          land area. Such road density shall not exceed 0.25  
12          miles per square mile, using the method known as  
13          the “moving window” method.

14 **SEC. 204. APPLICABILITY OF TITLE.**

15          (a) FEDERAL LAND MANAGEMENT AGENCIES.—This  
16          title shall apply only to National Forest System lands and  
17          lands under the jurisdiction of the the Bureau of Land  
18          Management and the United States Fish and Wildlife  
19          Service.

20          (b) PRIVATE LAND AND LANDOWNERS.—Private  
21          lands are not affected by this title. No private landowner  
22          whose lands are adjacent to the designated connecting cor-  
23          ridors shall be compelled, under any circumstances, to  
24          comply with this title. However, private landowners may  
25          enter into cooperative agreements with the Federal Gov-

1 ernment on a willing participant or willing seller basis to  
2 include their land in a biological connecting corridor.

3 **SEC. 205. COOPERATIVE AGREEMENTS AND LAND TRADES**  
4 **AND ACQUISITIONS.**

5 (a) COOPERATIVE AGREEMENTS.—The Secretary of  
6 the Interior and the Secretary of Agriculture shall seek  
7 to enter into cooperative agreements with private, State,  
8 and corporate landowners and sovereign Indian tribes  
9 whose lands are adjacent to the designated connecting cor-  
10 ridors, when such agreements would benefit the ecological  
11 integrity and function of the designated corridor.

12 (b) LAND TRADES AND ACQUISITIONS.—The Sec-  
13 retary of Agriculture and the Secretary of the Interior  
14 may undertake land trades or acquisitions in order to ac-  
15 complish the purposes of this title when the Secretary con-  
16 cerned considers such action to be appropriate.

17 (c) REPORT.—As part of the report required by sec-  
18 tion 501, the Secretary of Agriculture and the Secretary  
19 of the Interior shall describe the progress of cooperative  
20 agreements, acquisitions, and proposed land exchanges  
21 sought pursuant to this section.

22 **SEC. 206. EXEMPTION OF CERTAIN ROADS AND HIGHWAYS.**

23 (a) EXEMPTION.—The roads and highways referred  
24 to in subsection (b) are expressly exempted from the provi-  
25 sions of this title. In the event that any county, State,

1 Federal, or private road has been mistakenly omitted from  
2 this list, it is deemed to be incorporated by reference.

3 (b) DESCRIPTION.—The roads and highways referred  
4 to in subsection (a) the following:

5 (1) United States Highways 2, 10, 12, 20, 89,  
6 91, 93, 95, and 287.

7 (2) Interstate Highways 15 and 90.

8 (3) Idaho State Highways 3, 28, 29, and 87.

9 (4) Montana State Highways 2, 37, 38, 41, 43,  
10 56, 58, 83, 87, 135, 200, 278, 287, 293, 294, 298,  
11 and 324.

12 (5) Montana Secondary Roads 92, 278, 279,  
13 294, 298, 324, 411, and 508.

14 (6) The Thompson Pass Road, Montana-Idaho.

15 (7) The Moyie Springs to East Port Road,  
16 Idaho.

17 (8) The Red Rock Pass Road, Montana.

18 (9) Boundary County, Idaho, Routes 3, 18, 34,  
19 and 47.

20 (10) Lolo National Forest Route 102.

21 (11) Gallatin National Forest Route 259.

22 (12) Kelly Canyon and Middle Fork Canyon  
23 Roads, Gallatin National Forest.

24 (13) Lewis and Clark County, Montana, Roads  
25 4, 164, 280, 287, and 291.

1           (14) The Beaverhead-Deerlodge to Basin Road,  
2           Montana.

3           (15) The Marysville to Avon Road, Montana.

4           (16) The Pahsimeroi Road, Butte County,  
5           Idaho.

6           **TITLE III—WILD AND SCENIC**  
7           **RIVERS DESIGNATIONS**

8           **SEC. 301. DESIGNATION OF WILD AND SCENIC RIVERS IN**  
9           **IDAHO, MONTANA, AND WYOMING.**

10          Section 3(a) of the Wild and Scenic Rivers Act (16  
11          U.S.C. 1274(a)) is amended by adding at the end the fol-  
12          lowing new paragraphs:

13          “(170) SOUTH FORK PAYETTE, IDAHO.—The seg-  
14          ment within the Boise and Sawtooth National Forests  
15          from the Sawtooth Wilderness Boundary downstream ap-  
16          proximately 54 miles to confluence with the Middle Fork  
17          and then downstream on the main stem to the confluence  
18          with the North Fork, as generally depicted on the bound-  
19          ary map entitled ‘South Fork Payette Wild River’ and  
20          dated January 2003, which shall be administered by the  
21          Secretary of Agriculture as a wild river.

22          “(171) MIDDLE FORK PAYETTE, IDAHO.—The seg-  
23          ment within the Boise National Forest from Railroad Pass  
24          downstream approximately 17.9 miles to Boiling Springs,  
25          as generally depicted on the boundary map entitled ‘Mid-

1 dle Fork Payette Wild and Recreational River’ and dated  
2 January 2003, which shall be administered by the Sec-  
3 retary of Agriculture as a wild river and the segment with-  
4 in the Boise National Forest from Boiling Springs down-  
5 stream approximately 14.7 miles to the national forest  
6 boundary, as generally depicted on such map, which shall  
7 be administered by the Secretary of Agriculture as a rec-  
8 reational river.

9 “(172) DEADWOOD, IDAHO.—The segment within  
10 the Boise National Forest comprising approximately 21.3  
11 miles as generally depicted on the boundary map entitled  
12 ‘Deadwood Wild and Scenic River’ and dated January  
13 2003, which shall be administered by the Secretary of Ag-  
14 riculture, the 12.8 mile segment from Threemile Creek to  
15 Julie Creek, as a wild river, and the 8.9 mile segment from  
16 Julie Creek to the South Fork of the Payette, as a scenic  
17 river.

18 “(173) UPPER PRIEST, IDAHO.—The segment within  
19 the Panhandle National Forest from the Canadian border  
20 downstream approximately 18.5 miles to Upper Priest  
21 Lake, as generally depicted on the boundary map entitled  
22 ‘Upper Priest Wild River’ and dated January 2003, which  
23 shall be administered by the Secretary of Agriculture as  
24 a wild river.

1       “(174) COEUR D’ALENE, IDAHO.—The segment  
2 within the Panhandle National Forest from the head-  
3 waters downstream approximately 110.4 miles as gen-  
4 erally depicted on the boundary map entitled ‘Coeur  
5 d’Alene Wild and Recreational River’ and dated January  
6 2003, which shall be administered by the Secretary of Ag-  
7 riculture, the 8.5 miles from the headwaters downstream  
8 to Beaver Creek as a recreational river, the 15.2 miles  
9 from Road No. 3099 to Teepee Creek as a wild river, the  
10 52 miles from the South Fork to Teepee Creek as a rec-  
11 reational river, the 7.7 miles from Mission Creek to the  
12 South Fork as a recreational river, and the 27 miles from  
13 Mission Creek to Lake Coeur d’Alene as a recreational  
14 river.

15       “(175) LITTLE NORTH FORK CLEARWATER,  
16 IDAHO.—The segments within the Panhandle National  
17 Forest and Coeur d’Alene Field Office BLM from the  
18 headwaters to Cedar Creek, as generally depicted on  
19 the boundary map entitled ‘Little North Fork Clearwater  
20 Wild and Scenic River’ and dated January 2003, which  
21 shall be administered by the Secretary of Agriculture, the  
22 segment from the headwaters to the 1925 road as a wild  
23 river, the segment from the 1925 road downstream to  
24 Adair Creek as a scenic river and the segment from Adair  
25 Creek downstream to Cedar Creek as a wild river.

1       “(176) KELLY CREEK, IDAHO.—The segment, in-  
2 cluding all tributaries, within the Clearwater National  
3 Forest from its headwaters downstream approximately 19  
4 miles to the forest service work station, as generally de-  
5 picted on the boundary map entitled ‘Kelly Creek Wild  
6 and Recreational River’ and dated January 2003, which  
7 shall be administered by the Secretary of Agriculture as  
8 a wild river and the 12-mile segment from USFS Road  
9 No. 581 to the North Fork of the Clearwater River to  
10 be administered by the Secretary of Agriculture as a rec-  
11 reational river.

12       “(177) CAYUSE CREEK, IDAHO.—The segment with-  
13 in the Clearwater National Forest from its headwaters  
14 downstream approximately 39 miles to its mouth, except  
15 to small segments where it crosses road 581, as generally  
16 depicted on the boundary map entitled ‘Cayuse Creek Wild  
17 and Scenic River’ and dated \_\_\_\_\_, which shall be ad-  
18 ministered by the Secretary of Agriculture as a wild river,  
19 the two segments where road 581 crosses and parallels  
20 the creek (including the landing meadow), as generally de-  
21 picted on the boundary map entitled ‘Cayuse Creek Wild  
22 and Scenic River’, which shall be administered by the Sec-  
23 retary of Agriculture as a scenic river.

24       “(178) BARGAMIN CREEK, IDAHO.—The segment  
25 within the Nez Perce National Forest comprising approxi-

1 mately 21 miles, as generally depicted on the boundary  
2 map entitled ‘Bargamin Creek Wild River’ and dated Jan-  
3 uary 2003, which shall be administered by the Secretary  
4 of Agriculture as a wild river.

5       “(179) LAKE CREEK, IDAHO.—The segment within  
6 the Nez Perce National Forest from the wilderness bound-  
7 ary downstream approximately 10 miles to Crooked Creek,  
8 as generally depicted on the boundary map entitled ‘Lake  
9 Creek Wild River’ and dated January 2003, which shall  
10 be administered by the Secretary of Agriculture as a wild  
11 river.

12       “(180) MEADOW CREEK, IDAHO.—The segment  
13 within the Nez Perce National Forest from its headwaters  
14 downstream approximately 34 miles to Selway River, as  
15 generally depicted on the boundary map entitled ‘Meadow  
16 Creek Recreational River’ and dated January 2003, which  
17 shall be administered by the Secretary of Agriculture as  
18 a wild river, except for the 1-mile segment above the con-  
19 fluence with the Selway River which shall be administered  
20 as a recreational river.

21       “(181) RUNNING CREEK, IDAHO.—The segment  
22 within the Nez Perce National Forest comprising approxi-  
23 mately 14 miles, as generally depicted on the boundary  
24 map entitled ‘Running Creek Scenic River’ and dated Jan-

1 uary 2003, which shall be administered by the Secretary  
2 of Agriculture as a wild river.

3 “(182) SALMON, IDAHO.—The segment within the  
4 Salmon and Sawtooth National Forests from its source  
5 downstream approximately 177 miles to North Fork,  
6 Idaho, excluding that part in the town of Salmon, and the  
7 segment from Vinegar Creek to the Little Salmon River,  
8 approximately 25 miles within the Nez Perce and Payette  
9 National Forests and other public lands, as generally de-  
10 picted on the boundary map entitled ‘Salmon Wild and  
11 Recreational River’ and dated \_\_\_\_\_, which shall be ad-  
12 ministered by the Secretary of Agriculture, as a rec-  
13 reational river, and the segment Hammer Creek, approxi-  
14 mately 45 miles downstream miles to its mouth within  
15 public lands managed by the Bureau of Land Manage-  
16 ment, as generally depicted on the boundary map entitled  
17 Salmon Wild and Scenic River and dated \_\_\_\_\_ shall be  
18 administered by the Secretary of Interior as a wild river.

19 “(183) EAST FORK SALMON, IDAHO.—The segment  
20 within the Salmon and Sawtooth National Forests from  
21 the Sawtooth NRA boundary downstream approximately  
22 20 miles to its confluence with the main stem, as generally  
23 depicted on the boundary map entitled ‘East Fork Salmon  
24 Recreational River’ and dated January 2003, which shall

1 be administered by the Secretary of Agriculture, as a rec-  
2 reational river.

3       “(184) NORTH FORK CLEARWATER, IDAHO.—The  
4 segment within the Clearwater National Forest from the  
5 headwaters approximately 70 miles to the slackwater in  
6 Dworshak Reservoir, as generally depicted on the bound-  
7 ary map entitled ‘North Fork Clearwater Scenic and Wild  
8 River’ and dated \_\_\_\_\_, which shall be administered by  
9 the Secretary of Agriculture, the segment from the head-  
10 waters downstream to the Route No. 250 Bridge as a wild  
11 river, the segment from Route No. 250 Bridge down-  
12 stream to the slackwater as a recreational river.

13       “(185) NORTH FORK COEUR D’ALENE, IDAHO.—  
14 The segment within the Panhandle National Forest from  
15 its headwaters south of Honey Mountain downstream ap-  
16 proximately 32.5 miles to its confluence with the Coeur  
17 d’Alene River, as generally depicted on the boundary map  
18 entitled ‘North Fork Coeur d’Alene Recreational River’  
19 and dated January 2003, which shall be administered by  
20 the Secretary of Agriculture as a recreational river.

21       “(186) PACK, IDAHO.—The segment within the Pan-  
22 handle National Forest from Harrison Lake downstream  
23 approximately 14 miles to the national forest boundary,  
24 as generally depicted on the boundary map entitled ‘Pack  
25 Recreational River’ and dated January 2003, which shall

1 be administered by the Secretary of Agriculture as a rec-  
2 reational river.

3       “(187) HENRY’S FORK, IDAHO.—The segment with-  
4 in the National Forest from Big Springs downstream ap-  
5 proximately 28 miles to the Osborne Bridge, except for  
6 Island Park Reservoir, as generally depicted on the bound-  
7 ary map entitled ‘Henry’s Fork Wild and Scenic River’  
8 and dated January 2003, which shall be administered by  
9 the Secretary of Agriculture as a scenic river, and the seg-  
10 ment from Osborne Bridge to the confluence of the Warm  
11 River, which shall be administered as a wild river.

12       “(188) FALLS RIVER, IDAHO.—The segment within  
13 the Caribou-Targhee National Forest from Yellowstone  
14 National Park downstream approximately 13 miles to the  
15 National Forest Boundary, as generally depicted on the  
16 boundary map entitled ‘Falls Wild River’ and dated Janu-  
17 ary 2003, which shall be administered by the Secretary  
18 of Agriculture as a wild river.

19       “(189) LOCHSA RIVER WATERSHED, IDAHO.—(A)  
20 The segment of the Lochsa River from its source (con-  
21 fluence of Colt Killed Creek and Crooked Fork) to the be-  
22 ginning of the Lochsa Recreational River, within the  
23 Clearwater National Forest, comprising approximatley 2  
24 miles, as generally depcited on the boundary map entitled  
25 ‘Lochsa Recreational River Addition’ and dated \_\_\_\_\_,

1 which shall be administered by the Secretary of Agri-  
2 culture as a Recreational River.

3       “(B) The segments of Colt Killed Creek, from its  
4 source to its confluence with Beaver Creek, within the  
5 Clearwater National Forest, excepting a short segment  
6 near Colt Killed Creek Cabin, comprising approximately  
7 20.3 miles, as generally depicted on the boundary map en-  
8 titled ‘Colt Killed Creek Wild, Scenic and Recreational  
9 River’ and dated \_\_\_\_\_, which shall be administered by  
10 the Secretary of Agriculture as a wild river, the segment  
11 of Colt Killed Creek near Colt Killed Cabin, comprising  
12 approximately .5 miles, as generally depicted on the  
13 boundary map entitled ‘Colt Killed Creek Wild, Scenic and  
14 Recreational River’ and dated \_\_\_\_\_, which shall be ad-  
15 ministered by the Secretary of Agriculture as a scenic  
16 river, and the segment of Colt Killed Creek, from its con-  
17 fluence with Beaver Creek to the confluence with Crooked  
18 Fork, within the Clearwater National Forest, comprising  
19 approximately .3 miles, as generally depicted on the  
20 boundary map entitled ‘Colt Killed Creek Wild, Scenic and  
21 Recreational River’ and dated \_\_\_\_\_, which shall be ad-  
22 ministered by the Secretary of Agriculture as a rec-  
23 reational river.

24       “(190) SELWAY RIVER WATERSHED, IDAHO.—(A)  
25 The segments of the Moose Creek complex, from its

1 sources to its confluence with the Selway River, within the  
2 Nez Perce National Forest, comprising approximately  
3 83.5 miles, as generally depicted on the boundary map en-  
4 titled ‘Moose Creek Segments Wild River’ and dated  
5 \_\_\_\_\_, which shall be administered by the Secretary of  
6 Agriculture as a wild river.

7 “(B) The segments of the Bear Creek complex, from  
8 its sources to its confluence with the Selway River, within  
9 the Nez Perce National Forest, comprising approximately  
10 70.6 miles, as generally depicted on the boundary map en-  
11 titled ‘Bear Creek Segments Wild River’ and dated  
12 \_\_\_\_\_, which shall be administered by the Secretary of  
13 Agriculture as a wild river.

14 “(C) The segments of the Three Links Creek com-  
15 plex, from its sources to its confluence with the Selway  
16 River, within the Nez Perce National Forest, comprising  
17 approximately 23.5 miles, as generally depicted on the  
18 boundary map entitled ‘Three Links Creek Segments Wild  
19 River’ and dated \_\_\_\_\_, which shall be administered by  
20 the Secretary of Agriculture as a wild river.

21 “(D) The segment of Gedney Creek/West Fork  
22 Gedney Creek, from its source to its entering the rec-  
23 reational river corridor on the Selway River, within the  
24 Nez Perce National Forest, comprising approximately  
25 14.5 miles, as generally depicted on the boundary map en-

1 titled ‘Gedney/West Fork Gedney Creek Wild River’ and  
2 dated \_\_\_\_\_, which shall be administered by the Sec-  
3 retary of Agriculture as a wild river.

4 “(191) SOUTH FORK CLEARWATER, IDAHO.—The  
5 segment within the Nez Perce National Forest from the  
6 confluence of the Red and American Rivers downstream  
7 to the Forest boundary, comprising approximately 40  
8 miles as generally depicted on the boundary map entitled  
9 ‘South Fork Clearwater River Recreational River’ and  
10 dated \_\_\_\_\_, which shall be administered by the Sec-  
11 retary of Agriculture as a recreational river.

12 “(192) JOHNS CREEK, IDAHO.—The segment within  
13 the Nez Perce National Forest from the source to its con-  
14 fluence with the South Fork Clearwater, as generally de-  
15 picted on the boundary map entitled ‘Johns Creek Wild  
16 River’ and dated \_\_\_\_\_, which shall be administered by  
17 the Secretary of Agriculture as a wild river.

18 “(193) SLATE CREEK, IDAHO.—The segment within  
19 the Nez Perce National Forest from the source to the Gos-  
20 pel Hump Wilderness Boundary, as generally depicted on  
21 the boundary map entitled ‘Slate Creek Recreational and  
22 Wild River’ and dated \_\_\_\_\_, comprising approximately  
23 5 miles, which shall be administered by the Secretary of  
24 Agriculture as a wild river, the segment within the Nez  
25 Perce National Forest, as generally depicted on the bound-

1 ary map entitled ‘Slate Creek Recreational and Wild  
2 River’ and dated \_\_\_\_\_, from the Gospel Hump Wilder-  
3 ness Boundary to the Forest Boundary, comprising  
4 approximately 10 miles, which shall be administered by  
5 the Secretary of Agriculture as a recreational river.

6       “(194) SOUTH FORK TWO MEDICINE RIVER, MON-  
7 TANA.—The segment within the Lewis and Clark National  
8 Forest from its headwaters downstream approximately 10  
9 miles to the Sawmill Flat Trailhead, as generally depicted  
10 on the boundary map entitled ‘South Fork Two Medicine  
11 Wild River’ and dated January 2003, which shall be ad-  
12 ministered by the Secretary of Agriculture, as a wild river.

13       “(195) BADGER CREEK, INCLUDING THE SOUTH  
14 AND NORTH FORKS, MONTANA.—The segment within the  
15 Lewis and Clark National Forest from its headwaters  
16 downstream to the national forest boundary, comprising  
17 approximately 23.8 miles, as generally depicted on the  
18 boundary map entitled ‘Badger Creek Wild River’ and  
19 dated January 2003, which shall be administered by the  
20 Secretary of Agriculture, as a wild river.

21       “(196) DEARBORN, MONTANA.—The segment within  
22 the Lewis and Clark National Forest downstream approxi-  
23 mately 18.1 miles to the national forest boundary, as gen-  
24 erally depicted on the boundary map entitled ‘Dearborn

1 Wild River’ and dated January 2003, which shall be ad-  
2 ministered by the Secretary of Agriculture, as a wild river.

3 “(197) NORTH FORK BIRCH CREEK, MONTANA.—

4 The segment within the Lewis and Clark National Forest  
5 from its headwaters downstream approximately 6.6 miles  
6 to the national forest boundary, as generally depicted on  
7 the boundary map entitled ‘North Fork Birch Creek Wild  
8 River’ and dated January 2003, which shall be adminis-  
9 tered by the Secretary of Agriculture, as a wild river.

10 “(198) SOUTH FORK SUN, MONTANA.—The segment

11 within the Lewis and Clark National Forest from its head-  
12 waters at Sun Lake downstream approximately 25.5 miles  
13 to its confluence with the North Fork, as generally de-  
14 picted on the boundary map entitled ‘South Fork Sun  
15 Wild River’ and dated January 2003, which shall be ad-  
16 ministered by the Secretary of Agriculture, as a wild river.

17 “(199) NORTH FORK SUN, MONTANA.—The segment

18 comprising approximately 26.7 miles within the Lewis and  
19 Clark National Forest from the confluence of Open Creek  
20 and Fool Creek downstream approximately 25.4 miles to  
21 the Bob Marshall Wilderness boundary, as generally de-  
22 picted on the boundary map entitled ‘North Fork Sun  
23 Wild and Recreational River’ and dated January 2003,  
24 which shall be administered by the Secretary of Agri-  
25 culture, as a wild river and the segment from the Bob

1 Marshall Wilderness boundary downstream approximately  
2 1.3 miles to its confluence with the South Fork, which  
3 shall be administered by the Secretary of Agriculture, as  
4 a recreational river.

5       “(200) TENDERFOOT CREEK, MONTANA.—The seg-  
6 ment within the Lewis and Clark National Forest from  
7 The Falls downstream approximately 4.6 miles to the  
8 Smith River, as generally depicted on the boundary map  
9 entitled ‘Tenderfoot Creek Wild River’ and dated January  
10 2003, which shall be administered by the Secretary of Ag-  
11 riculture, as a wild river.

12       “(201) GREEN FORK STRAIGHT CREEK, MON-  
13 TANA.—The segment within the Lewis and Clark National  
14 Forest from its headwaters downstream approximately 4.5  
15 miles to Straight Creek, as generally depicted on the  
16 boundary map entitled ‘Green Fork Straight Creek Wild  
17 River’ and dated January 2003, which shall be adminis-  
18 tered by the Secretary of Agriculture, as a wild river.

19       “(202) YAAK RIVER, MONTANA.—The segment with-  
20 in the Kootenai National Forest from the junction of the  
21 East and West Forks downstream 38 miles to the Yaak  
22 Falls, as generally depicted on the boundary map entitled  
23 ‘Yaak River Wild and Recreational River’ and dated Janu-  
24 ary 2003, which shall be administered by the Secretary  
25 of Agriculture as a recreational river and the segment

1 from the Yaak Falls downstream 8 miles to the mouth  
2 of the Yaak River at the junction of the Kootenai River,  
3 as a wild river.

4 “(203) KOOTENAI RIVER, MONTANA.—The segment  
5 within the Kootenai National Forest from the junction of  
6 the Fisher River (3 miles below Libby Dam) downstream  
7 for 46 miles to the State line, as generally depicted on  
8 the boundary map entitled ‘Kootenai River Recreational  
9 River’ and dated January 2003, which shall be adminis-  
10 tered by the Secretary of Agriculture as a recreational  
11 river.

12 “(204) BULL RIVER, MONTANA.—The segment with-  
13 in the Kootenai National Forest from the junction of the  
14 North and South Forks downstream 21 miles to the Cabi-  
15 net Gorge Reservoir, as generally depicted on the bound-  
16 ary map entitled ‘Bull River Recreational River’ and dated  
17 January 2003, which shall be administered by the Sec-  
18 retary of Agriculture as a recreational river.

19 “(205) VERMILLION RIVER, MONTANA.—The seg-  
20 ment within the Kootenai National Forest from the junc-  
21 tion of Willow Creek, downstream 12 miles to the Noxon  
22 Reservoir, as generally depicted on the boundary map enti-  
23 tled ‘Vermillion Recreational River’ and dated January  
24 2003, which shall be administered by the Secretary of Ag-  
25 riculture as a recreational river.

1           “(206) WEST FORK MADISON, MONTANA.—The seg-  
2 ment within the Beaverhead-Deerlodge National Forest  
3 from approximately the midpoint of Section 28, R. 2 W.,  
4 T. 12 S., downstream approximately 6 miles to Landon  
5 Camp, and from Section 32, R. 1 W., T. 12 S. down-  
6 stream approximately 5.2 miles to Shakelford Cow Camp,  
7 as generally depicted on the boundary map entitled ‘West  
8 Fork Madison Wild River’ and dated January 2003, which  
9 shall be administered by the Secretary of Agriculture, as  
10 a wild river and the segment from Miner Creek (Section  
11 30, R. 2 W., T. 12 S.) downstream approximately 2.5  
12 miles to the midpoint of Section 28, and the segment from  
13 Landon Camp downstream approximately 1.5 miles to the  
14 boundary of Sections 32 and 33, R. 1 W., T. 12 S. and  
15 from Shakelford Cow Camp downstream approximately  
16 1.5 miles to Sloan Cow Camp, and from Sloan Cow Camp  
17 downstream approximately .75 miles to Partridge Cow  
18 Camp, and from Partridge Cow Camp downstream ap-  
19 proximately 3.75 miles to the northeast corner of Section  
20 4, R. 1 E., T. 12 S., as generally depicted on the boundary  
21 map entitled ‘West Fork Madison Scenic River’ and dated  
22 January 2003, which shall be administered by the Sec-  
23 retary of Agriculture, as a scenic river and the segment  
24 from the northeast corner of Section 4, R. 1 E., T. 12  
25 S. downstream approximately 6.5 miles to the West Fork

1 Rest Area, as generally depicted on the boundary map en-  
2 titled ‘West Fork Madison Scenic River’ and dated Janu-  
3 ary 2003, which shall be administered by the Secretary  
4 of Agriculture as a scenic river.

5       “(207) ELK RIVER, MONTANA.—The segment within  
6 the Beaverhead-Deerlodge National Forest in the south-  
7 east corner of Section 16, R. 2 W., T. 11 S., downstream  
8 approximately 12.2 miles to the southeast corner of Sec-  
9 tion 3, R. 1 W., T. 12 S. including the headwaters  
10 (Barnett Creek and all other tributaries), as generally de-  
11 picted on the boundary map entitled ‘Elk Wild River’ and  
12 dated January 2003, which shall be administered by the  
13 Secretary of Agriculture, as a wild river; and the segment  
14 from the southeast corner of Section 3, R. 1 W., T. 12  
15 S., downstream approximately 5.2 miles to the confluence  
16 with the West Fork of the Madison River, as generally  
17 depicted on the boundary map entitled ‘Elk Scenic River’  
18 and dated January 2003, which shall be administered by  
19 the Secretary of Agriculture, as a scenic river.

20       “(208) BROWNS CREEK, MONTANA.—The segment  
21 within the Beaverhead-Deerlodge National Forest from  
22 the west central part of Section 1, R. 14 W., T. 8 S.,  
23 downstream approximately 4.3 miles to the forest bound-  
24 ary, as generally depicted on the boundary map entitled  
25 ‘Browns Creek Wild River’ and dated January 2003,

1 which shall be administered by the Secretary of Agri-  
2 culture as a wild river.

3       “(209) CANYON CREEK, MONTANA.—The segment  
4 within the Beaverhead-Deerlodge National Forest from  
5 Canyon Lake downstream approximately 4 miles to the  
6 Canyon Creek Campground, and the Lion Creek tributary  
7 (approximately 2.5 miles), as generally depicted on the  
8 boundary map entitled ‘Canyon Creek Wild River’ and  
9 dated January 2003, which shall be administered by the  
10 Secretary of Agriculture as a wild river.

11       “(210) DEADMAN CREEK, MONTANA.—The segment  
12 within the Beaverhead-Deerlodge National Forest from its  
13 source downstream approximately 10.2 miles to the forest  
14 boundary, as generally depicted on the boundary map enti-  
15 tled ‘Deadman Creek Wild River’ and dated January  
16 2003, which shall be administered by the Secretary of Ag-  
17 riculture as a wild river.

18       “(211) SMITH RIVER, MONTANA.—The segment  
19 within the Lewis and Clark National Forest from Tender-  
20 foot Creek downstream to Deep Creek, comprising ap-  
21 proximately 11.8 miles, as generally depicted on the  
22 boundary map entitled ‘Smith Wild River’ and dated Jan-  
23 uary 2003, which shall be administered by the Secretary  
24 of Agriculture as a wild river.

1           “(212) MIDDLE FORK JUDITH RIVER, MONTANA.—  
2 The segment within the Lewis and Clark National Forest  
3 from Arch Coulee Junction downstream to the national  
4 forest boundary, comprising approximately 4.8 miles, as  
5 generally depicted on the boundary map entitled ‘Middle  
6 Fork Judith Wild River’, and dated January 2003, which  
7 shall be administered by the Secretary of Agriculture as  
8 a wild river.

9           “(213) ROCK CREEK WATERSHED, MONTANA.—(A)  
10 The segment of the main fork of Rock Creek within the  
11 Lolo and Beaverhead-Deerlodge National Forests from  
12 the mouth of Juno Gulch downstream to the mouth of  
13 Rickard Gulch, comprising approximately 30 miles, as  
14 generally depicted on the boundary map entitled ‘Rock  
15 Creek Scenic River’ and dated January 2003, which shall  
16 be administered by the Secretary of Agriculture as a sce-  
17 nic river.

18           “(B) The segment of Ranch Creek, from its source  
19 to the boundary of the Lolo National Forest, within the  
20 Lolo National Forest, comprising approximately 5 miles,  
21 as generally depicted on the boundary map entitled ‘Ranch  
22 Creek Wild River’ and dated January 2003, which shall  
23 be administered by the Secretary of Agriculture as a wild  
24 river.

1           “(C) The entire segment of Welcome Creek, from its  
2 source to its confluence with the main fork of Rock Creek,  
3 within the Lolo National Forest, comprising approxi-  
4 mately 7 miles, as generally depicted on the boundary map  
5 entitled ‘Welcome Creek Wild River’ and dated January  
6 2003, which shall be administered by the Secretary of Ag-  
7 riculture as a wild river.

8           “(D) The entire segment of Alder Creek, from its  
9 source to its confluence with the main fork of Rock Creek,  
10 within the Lolo National Forest, comprising approxi-  
11 mately 5 miles, as generally depicted on the boundary map  
12 entitled ‘Alder Creek Wild River’ and dated January  
13 2003, which shall be administered by the Secretary of Ag-  
14 riculture as a wild river.

15           “(E) The entire segment of Hogback Creek, from its  
16 source to its confluence with the main fork of Rock Creek,  
17 within the Lolo National Forest, comprising approxi-  
18 mately 6 miles, as generally depicted on the boundary map  
19 entitled ‘Hogback Wild River’ and dated January 2003,  
20 which shall be administered by the Secretary of Agri-  
21 culture as a wild river.

22           “(F) The entire segment of Wyman Gulch, from its  
23 source to its confluence with the main fork of Rock Creek,  
24 within the Lolo National Forest, comprising approxi-  
25 mately 5 miles, as generally depicted on the boundary map

1 entitled ‘Wyman Gulch Wild River’ and dated January  
2 2003, which shall be administered by the Secretary of Ag-  
3 riculture as a wild river.

4       “(G) The segment of Stony Creek from its source at  
5 Stony Lake to the mouth of Little Stony Creek, within  
6 the Beaverhead-Deerlodge National Forest, comprising  
7 approximately 4 miles, as generally depicted on the bound-  
8 ary map entitled ‘Stony Creek Wild and Scenic River’ and  
9 dated January 2003, which shall be administered by the  
10 Secretary of Agriculture as a wild river; the segment of  
11 Stony Creek from the mouth of Little Stony Creek to its  
12 confluence with the main fork of Rock Creek, comprising  
13 approximately 6 miles, which shall be administered by the  
14 Secretary of Agriculture as a scenic river.

15       “(H) The segment of the West Fork of Rock Creek  
16 from its source to the Beaverhead-Deerlodge National  
17 Forest boundary, within the Beaverhead-Deerlodge Na-  
18 tional Forest, comprising approximately 15 miles, as gen-  
19 erally depicted on the boundary map as ‘West Fork of  
20 Rock Creek Scenic River’ and dated January 2003, which  
21 shall be administered by the Secretary of Agriculture as  
22 a scenic river.

23       “(I) The segment of the Ross Fork of Rock Creek,  
24 from its source to the mouth of Elk Creek, within the Bea-  
25 verhead-Deerlodge National Forest, comprising approxi-

1 mately 10 miles, as generally depicted on the boundary  
2 map entitled ‘Ross Fork Wild River’, which shall be ad-  
3 ministered by the Secretary of Agriculture as a wild river.

4 “(J) The segment of Copper Creek, from its source  
5 to the boundary of the mouth of Lutz Creek, within the  
6 Beaverhead-Deerlodge National Forest, comprising ap-  
7 proximately 9 miles, as generally depicted on the boundary  
8 map entitled ‘Copper Creek Wild and Scenic River’ and  
9 dated January 2003, which shall be administered by the  
10 Secretary of Agriculture as a wild river; the segment of  
11 Copper Creek from the mouth of Lutz Creek to its con-  
12 fluence with the Middle Fork of Rock Creek, comprising  
13 approximately 5 miles, which shall be administered by the  
14 Secretary of Agriculture as a scenic river.

15 “(K) The segment of the Middle Fork of Rock Creek,  
16 from its source to the mouth of Senate Creek, within the  
17 Beaverhead-Deerlodge National Forest, comprising ap-  
18 proximately 5 miles, as generally depicted on the boundary  
19 map entitled ‘Middle Fork Wild and Scenic River’ and  
20 dated January 2003, which shall be administered by the  
21 Secretary of Agriculture as a wild river; the segment of  
22 the Middle Fork of Rock Creek, from the mouth of Senate  
23 Creek to the confluence with Copper Creek, comprising  
24 approximately 6 miles, which shall be administered by the  
25 Secretary of Agriculture as a scenic river.

1       “(L) The segment of Carpp Creek, from its source  
2 to its confluence with the Middle Fork of Rock Creek,  
3 within the Beaverhead-Deerlodge National Forest, com-  
4 prising approximately 6 miles, as generally depicted on the  
5 boundary map entitled ‘Carpp Creek Wild River’ and  
6 dated January 2003, which shall be administered by the  
7 Secretary of Agriculture as a wild river.

8       “(M) The segment of the East Fork of Rock Creek,  
9 from its source to its confluence with the head of the East  
10 Fork Reservoir, within the Beaverhead-Deerlodge Na-  
11 tional Forest, comprising approximately 10 miles, as gen-  
12 erally depicted on the boundary map entitled ‘East Fork  
13 Wild River’ and dated January 2003, which shall be ad-  
14 ministered by the Secretary of Agriculture as a wild river.

15       “(214) SALT RIVER, WYOMING.—The segment with-  
16 in the Bridger-Teton National Forest from the source  
17 downstream approximately 12 miles to forest road 10072,  
18 as generally depicted on the boundary map entitled ‘Salt  
19 Wild River’ and dated January 2003, which shall be ad-  
20 ministered by the Secretary of Agriculture as a wild river.

21       “(215) SWIFT CREEK, WYOMING.—The segment  
22 within the Bridger-Teton National Forest from the source  
23 downstream approximately 8 miles to Periodic Spring, as  
24 generally depicted on the boundary map entitled ‘Swift  
25 Creek Wild River’ and dated January 2003, which shall

1 be administered by the Secretary of Agriculture as a wild  
2 river.

3       “(216) HOBACK RIVER, WYOMING.—The segment  
4 within the Bridger-Teton National Forest from the source  
5 downstream approximately 10 miles to the end of forest  
6 road 30710, as generally depicted on the boundary map  
7 entitled ‘Hoback Wild River’ and dated January 2003,  
8 which shall be administered by the Secretary of Agri-  
9 culture as a wild river.

10       “(217) WILLOW CREEK, WYOMING.—The segment  
11 within the Bridger-Teton National Forest from the source  
12 downstream approximately 20 miles to the confluence with  
13 the Hoback River, as generally depicted on the boundary  
14 map entitled ‘Willow Creek Wild River’ and dated January  
15 2003, which shall be administered by the Secretary of Ag-  
16 riculture as a wild river.

17       “(218) GROS VENTRE, WYOMING.—The segment  
18 within the Bridger-Teton National Forest from the source  
19 downstream approximately 12 miles to Horn Ranch, as  
20 generally depicted on the boundary map entitled ‘Gros  
21 Ventre Wild River’ and dated January 2003, which shall  
22 be administered by the Secretary of Agriculture as a wild  
23 river, and the segment from Horn Ranch downstream ap-  
24 proximately 28 miles to the forest boundary, as generally  
25 depicted on the boundary map entitled ‘Gros Ventre Sce-

1 nic River' and dated January 2003, which shall be admin-  
2 istered by the Secretary of Agriculture as a scenic river.

3       “(219) CRYSTAL CREEK, WYOMING.—The segment  
4 within the Bridger-Teton National Forest from the source  
5 downstream approximately 12 miles to the Gros Ventre  
6 Wilderness boundary, as generally depicted on the bound-  
7 ary map entitled ‘Crystal Creek Wild River’ and dated  
8 January 2003, which shall be administered by the Sec-  
9 retary of Agriculture as a wild river; and the segment from  
10 the end of the road downstream approximately 3 miles to  
11 the confluence with the Gros Ventre River, as generally  
12 depicted on the boundary map entitled ‘Crystal Creek Sce-  
13 nic River’ and dated January 2003, which shall be admin-  
14 istered by the Secretary of Agriculture as a scenic river.

15       “(220) PACIFIC CREEK, WYOMING.—The segment  
16 within the Bridger-Teton National Forest from the source  
17 downstream approximately 25 miles to the Teton Wilder-  
18 ness Boundary, as generally depicted on the boundary  
19 map entitled ‘Pacific Creek Wild River’ and dated January  
20 2003, which shall be administered by the Secretary of Ag-  
21 riculture as a wild river; and the segment from the wilder-  
22 ness boundary downstream approximately 8 miles to the  
23 confluence with the Snake River, as generally depicted on  
24 the boundary map entitled ‘Pacific Creek Scenic River’

1 and dated January 2003, which shall be administered by  
2 the Secretary of Agriculture as a scenic river.

3 “(221) BUFFALO FORK, WYOMING.—The segment  
4 within the Bridger-Teton National Forest upstream from  
5 Turpin Meadows for approximately 68 miles, as generally  
6 depicted on the boundary map entitled ‘Buffalo Fork Wild  
7 River’ and dated January 2003, which shall be adminis-  
8 tered by the Secretary of Agriculture as a wild river; and  
9 the segment from Turpin Meadows downstream approxi-  
10 mately 16 miles to the boundary of Grand Teton National  
11 Park, as generally depicted on the boundary map entitled  
12 ‘Buffalo Fork Scenic River’ and dated January 2003,  
13 which shall be administered by the Secretary of Agri-  
14 culture as a scenic river.

15 “(222) SNAKE, WYOMING.—The segment within the  
16 Bridger-Teton National Forest from the source down-  
17 stream approximately 7 miles to the boundary of Yellow-  
18 stone National Park, as generally depicted on the bound-  
19 ary map entitled ‘Snake Wild River’ and dated January  
20 2003, which shall be administered by the Secretary of Ag-  
21 riculture as a wild river.

22 “(223) THOROFARE, WYOMING.—The segment of the  
23 main stem within the Bridger-Teton National Forest from  
24 the source downstream approximately 25 miles to the con-  
25 fluence with the Yellowstone River, and the source of Open

1 Creek downstream 10 miles to the confluence with the  
2 main stem, as generally depicted on the boundary map en-  
3 titled ‘Thorofare Wild River’ and dated January 2003,  
4 which shall be administered by the Secretary of Agri-  
5 culture as a wild river.

6 “(224) ATLANTIC CREEK, WYOMING.—The segment  
7 within the Bridger-Teton National Forest from the Part-  
8 ing of the Waters downstream approximately 10 miles to  
9 the confluence with the Yellowstone River, as generally de-  
10 picted on the boundary map entitled ‘Atlantic Creek Wild  
11 River’ and dated January 2003, which shall be adminis-  
12 tered by the Secretary of Agriculture as a wild river.

13 “(225) YELLOWSTONE, WYOMING.—The segment  
14 within the Bridger-Teton National Forest from the source  
15 downstream approximately 28 miles to the boundary of  
16 Yellowstone National Park, as generally depicted on the  
17 boundary map entitled ‘Yellowstone Wild River’ and dated  
18 January 2003, which shall be administered by the Sec-  
19 retary of Agriculture as a wild river.

20 “(226) YELLOWSTONE RIVER, WYOMING AND MON-  
21 TANA.—The segment within the Gallatin National Forest  
22 and Yellowstone National Park from the southern bound-  
23 ary of Yellowstone National Park to the confluence with  
24 Yellowstone Lake, and from the Fishing Bridge down-  
25 stream to the mouth of Yankee Jim Canyon comprising

1 approximately 102 miles, as generally depicted on the  
2 boundary map entitled ‘Yellowstone Wild and Scenic  
3 River, and dated January 2003, which shall be adminis-  
4 tered by the Secretaries of the Interior and Agriculture  
5 as a wild river with the exception of the segment from  
6 the north boundary of Yellowstone National Park to the  
7 mouth of Yankee Jim Canyon, which shall be administered  
8 as a scenic river.’”.

9 **TITLE IV—NATIONAL WILDLAND**  
10 **RESTORATION AND RECOV-**  
11 **ERY SYSTEM**

12 **SEC. 401. FINDINGS.**

13 The Congress makes the following findings:

14 (1) Certain National Forest System lands and  
15 surrounding areas have been damaged by unwise re-  
16 source extraction and development activities and  
17 practices, and the productive potential of the lands  
18 and waters of these areas, including the potential for  
19 the dispersal of species in response to climate  
20 change, has been reduced by development activities.

21 (2) Recovery activities are required to reverse  
22 severe damage to native fish and wildlife populations  
23 and water quality in these areas and to facilitate the  
24 dispersal of species in response to climate change.

1           (3) Recovery work associated with these areas  
2 will create new job opportunities for local commu-  
3 nities, assist in the economic transition ongoing in  
4 the region, and contribute to the economic sustain-  
5 ability of these rural areas by restoring the produc-  
6 tive capability of the land.

7 **SEC. 402. DEFINITIONS.**

8 In this title:

9           (1) RECOVERY.—The term “recovery” means  
10 the restoration of lands damaged by land manage-  
11 ment activities to a natural untrammelled condition  
12 and the restoration of the undeveloped roadless  
13 character of such land.

14           (2) RECOVERY SYSTEM.—The term “Recovery  
15 System” means the National Wildland Restoration  
16 and Recovery System.

17 **SEC. 403. NATIONAL WILDLAND RESTORATION AND RECOV-  
18 ERY SYSTEM.**

19           (a) ESTABLISHMENT.—There is hereby established  
20 the National Wildland Restoration and Recovery System.

21           (b) COMPONENTS.—The following areas, consisting  
22 of a total of approximately 1,023,000 acres, as depicted  
23 on the maps dated January 2003 and entitled “National  
24 Wildland Restoration and Recovery Area”, are designated

1 as wildland recovery areas and components of the National  
2 Wildland Recovery and Restoration System:

3 (1) Skyland area, consisting of approximately  
4 10,000 acres administered by the Flathead National  
5 Forest.

6 (2) Hungry Horse area (except Hungry Horse  
7 Dam and Reservoir), consisting of approximately  
8 205,000 acres administered by the Flathead Na-  
9 tional Forest.

10 (3) Lolo Creek area, consisting of approxi-  
11 mately 59,000 acres administered by the Lolo or  
12 Clearwater National Forest.

13 (4) Yellowstone West area, consisting of ap-  
14 proximately 164,000 acres administered by the Car-  
15 ibou-Targhee National Forest.

16 (5) Mt. Leidy area, consisting of approximately  
17 70,000 acres administered by the Bridger-Teton Na-  
18 tional Forest.

19 (6) Cabinet/Yaak area, consisting of approxi-  
20 mately 100,000 acres administered by the Kootenai  
21 National Forest.

22 (7) Lightning Creek area, consisting of approxi-  
23 mately 31,000 acres administered by the Panhandle  
24 National Forest.

1           (8) Coeur d'Alene River area, consisting of ap-  
2           proximately 372,000 acres administered by the Pan-  
3           handle National Forest.

4           (9) Magruder Corridor area, consisting of ap-  
5           proximately 12,000 acres administered by the Nez  
6           Perce or Bitterroot National Forest.

7 **SEC. 404. MANAGEMENT OF RECOVERY SYSTEM.**

8           (a) MANAGEMENT DURING RECOVERY.—

9           (1) RESTORATION.—All lands within the Recov-  
10          ery System shall be managed so as to restore their  
11          native vegetative cover and reduce or eliminate  
12          invasive non-native species, facilitate native species  
13          diversity to the extent possible with climate change,  
14          stabilize slopes and soils to prevent or reduce further  
15          erosion, recontour slopes to their original contours,  
16          remove barriers to natural fish spawning runs, and  
17          generally restore such lands in their entirety to a  
18          natural roadless and wild condition.

19          (2) WATER QUALITY RESTORATION.—In the  
20          management of the Recovery System, special consid-  
21          eration shall be given to restoration of water quality  
22          in the Recovery System.

23          (3) MANAGEMENT METHODS.—Recovery Sys-  
24          tem lands shall be managed using methods such as  
25          road obliteration, planting of trees and other vegeta-

1       tion native to the lands, and removal of sediment  
2       from streambeds. Existing methods developed by the  
3       Forest Service, the National Park Service, and other  
4       persons shall be considered and, when appropriate,  
5       applied to the lands within the Recovery System. To  
6       the extent practicable, the Secretary of Agriculture  
7       shall carry out this section using existing, available  
8       equipment. When renting or leasing heavy equip-  
9       ment necessary for recovery efforts pursuant to this  
10      section, the Secretary shall use, to the extent prac-  
11      ticable, experienced or qualified local contractors.

12      (b) POST RECOVERY MANAGEMENT.—When recovery  
13      is achieved for a component of the Recovery System, the  
14      Forest Service shall evaluate the suitability of such compo-  
15      nent for inclusion in the National Wilderness Preservation  
16      System or for other uses consistent with the purposes of  
17      this Act. The Forest Service shall make a recommendation  
18      concerning the future management status of the compo-  
19      nent, and shall submit the recommendation and an evalua-  
20      tion to the Congress. The evaluation shall be conducted  
21      in the same manner as, and subject to the same require-  
22      ments that apply to, the preparation of an environmental  
23      impact statement under section 102(2)(C) of the National  
24      Environmental Policy Act of 1969 (42 U.S.C.  
25      4332(2)(C)). The evaluation shall include documentation

1 of the component's values as wilderness and as wildlife  
2 habitat, its role in maintaining water quality and native  
3 biodiversity, its role in the forest reserve system, a list of  
4 alternative designations for the component consistent with  
5 the purposes of this Act, and a roadless inventory for the  
6 component. No provision of this subsection shall be con-  
7 strued to diminish the responsibilities of the Secretary of  
8 Agriculture with respect to land and resource management  
9 plans under section 6 of the Forest and Rangeland Renew-  
10 able Resources Planning Act of 1974 (16 U.S.C. 1604).

11 **SEC. 405. NATIONAL WILDLAND RECOVERY CORPS.**

12 (a) ESTABLISHMENT.—There is hereby established a  
13 special unit of the Forest Service, to be known as the Na-  
14 tional Wildland Recovery Corps. The National Wildland  
15 Recovery Corps shall hire the necessary personnel and  
16 purchase the necessary equipment to carry out its land  
17 recovery responsibilities under this title.

18 (b) RECOVERY PLANS.—Not later than three years  
19 after the date of the enactment of this Act, the National  
20 Wildland Recovery Corps shall develop a wildland recovery  
21 plan for each area of the Recovery System. Each recovery  
22 plan shall detail necessary work and funding requirements  
23 needed to implement the management direction estab-  
24 lished under section 404. Each recovery plan shall take  
25 into account the specific conditions of an area in the Re-

1 recovery System, including soil type, slope, native species  
2 composition, road densities, forest cover, the number of  
3 road crossings and culverts, and when possible,  
4 predevelopment conditions. Each recovery plan shall set  
5 forth definite timelines for expected recovery of the area  
6 to which the plan applies, including a list of management  
7 activities planned each year, with projected dates for re-  
8 covery. Each recovery plan shall map out the portion,  
9 within the area of the Recovery System to which the plan  
10 applies, which will be recovered using active management  
11 efforts, as well as the portion of such area in which natural  
12 recovery will occur. Upon completion, a recovery plan shall  
13 become an amendment to the land and resource manage-  
14 ment plan for the unit of the National Forest System to  
15 which the plan applies.

16 (c) EVALUATION.—The National Wildland Recovery  
17 Corps shall use measurable criteria to judge the success  
18 of recovery efforts taken pursuant to this section. Such  
19 criteria shall include the results of sediment monitoring,  
20 reductions in open and total road densities, percent forest  
21 cover, increase in stream mileage available to native fish  
22 migrations, the results of hydrological measurements to  
23 determine water flow rates for key watersheds, and the  
24 abundance of management indicator species that are indic-  
25 ative of ecosystem health.

1           **TITLE V—IMPLEMENTATION**  
2                           **AND MONITORING**

3 **SEC. 501. IMPLEMENTATION REPORT.**

4           (a) **REPORT REQUIRED.**—Within three years after  
5 the date of the enactment of this Act, the Secretary of  
6 Agriculture and the Secretary of the Interior shall jointly  
7 submit to the Committee on Energy and Natural Re-  
8 sources of the Senate and the Committee on Natural Re-  
9 sources of the House of Representatives a report that de-  
10 tails the implementation of this Act. The report shall also  
11 detail any additional work and funding requirements nec-  
12 essary to achieve the purposes of this Act.

13           (b) **PREPARATION.**—The report shall be produced by  
14 a panel of independent scientists appointed by the Na-  
15 tional Academy of Sciences, in consultation with the Soci-  
16 ety for Conservation Biology.

17 **SEC. 502. INTERAGENCY TEAM.**

18           (a) **ESTABLISHMENT.**—The Secretary of Agriculture  
19 and Secretary of the Interior shall jointly establish an  
20 interagency team, containing equal numbers of partici-  
21 pants from the public and private sectors, to monitor,  
22 evaluate, and make recommendations to ensure long-term  
23 results required by this Act.

24           (b) **GEOGRAPHIC INFORMATION SYSTEM.**—

1           (1) DEVELOPMENT.—The interagency team  
2 shall develop a geographic information system for  
3 monitoring the Northern Rockies Bioregion. The ge-  
4 ographic information system shall be based on sat-  
5 ellite-gathered data and shall include comprehensive  
6 maps and databases to assist in the detection of  
7 changes in the Northern Rockies Bioregion.

8           (2) TYPES OF INFORMATION.—The maps and  
9 databases included in the geographic information  
10 system shall be updated periodically to record the  
11 following:

12                   (A) Vegetation cover (with species occur-  
13                   rence and densities).

14                   (B) Human impacts.

15                   (C) Water and air quality.

16                   (D) Activities that bear on forest hus-  
17                   bandry and restoration.

18           (3) STATUS REPORTS.—The geographic infor-  
19 mation system shall include status reports on the  
20 progress of ecosystem protection, corridor consolida-  
21 tion, and forest recovery efforts and reports on the  
22 status of threatened and endangered species which  
23 are primary indicators of ecosystem health.

24           (c) WILDLIFE MOVEMENTS.—The interagency team  
25 shall assess the potential for facilitating wildlife move-

1 ments across or under major highways and rail lines with-  
2 in the biological corridors established in title II. This as-  
3 sessment shall identify major crossing points and identify  
4 possible management actions to enhance the suitability of  
5 such crossing points as movement corridors, including  
6 underpasses, overpasses, and other methods for reducing  
7 the danger to native wildlife while facilitating movements  
8 within the Northern Rockies Bioregion.

9 **SEC. 503. ROADLESS LANDS EVALUATION.**

10 (a) EVALUATION REQUIRED.—Roadless lands great-  
11 er than 1,000 acres in size, that are located within the  
12 National Forest System in the Wild Rockies Bioregion in  
13 Idaho, Montana, Oregon, Washington, or Wyoming, and  
14 that are not designated as components of the National  
15 Wilderness Preservation System (under this Act or any  
16 other law) shall be identified and evaluated by the panel  
17 of independent scientists appointed under section 501. In  
18 identifying and evaluating these lands, the panel shall  
19 make use of existing satellite information and Geographic  
20 Information System data developed by the Forest Service,  
21 the Bureau of Land Management, and the United States  
22 Fish and Wildlife Service, in addition to other information  
23 sources. The panel shall study the role of such lands in  
24 maintaining biological diversity in the Northern Rockies  
25 and as part of the overall forest reserve system. The panel

1 shall make recommendations regarding the management  
2 of the lands, and shall include the recommendations in the  
3 report required by section 501.

4 (b) PROHIBITION.—After completion of the evalua-  
5 tion required by subsection (a), until Congress enacts a  
6 law based upon the recommendations included in the re-  
7 port required by section 501, no new road construction  
8 or reconstruction, or timber harvest (except firewood gath-  
9 ering) shall be allowed in the lands described in subsection  
10 (a). In addition, subject to valid existing rights, no oil or  
11 gas leasing, mining, or other development which impairs  
12 the natural and roadless qualities of these lands shall be  
13 allowed on the lands.

14 **SEC. 504. NATIVE AMERICAN USES.**

15 (a) DEFINITION.—For purposes of this section and  
16 section 505, the term “protected areas” means land des-  
17 ignated by this Act as wilderness, wildland recovery areas,  
18 wild and scenic rivers, and biological corridors.

19 (b) NONEXCLUSIVE ACCESS.—In recognition of the  
20 past use of portions of the protected areas by Native  
21 Americans for traditional cultural and religious purposes,  
22 the Secretary of Agriculture and the Secretary of the Inte-  
23 rior shall ensure nonexclusive access to these protected  
24 areas by native people for such traditional cultural and  
25 religious purposes. Such access shall be consistent with the

1 purpose and intent of Public Law 95–341 (42 U.S.C.  
2 1996; commonly known as the American Indian Religious  
3 Freedom Act), and, in the case of land designated as wil-  
4 derness by this Act, the Wilderness Act (16 U.S.C. 1121  
5 et seq.). The Secretaries, in accordance with such laws,  
6 upon request of an Indian tribe, may from time-to-time  
7 temporarily close to the general public use of one or more  
8 specific portions of these protected areas in order to pro-  
9 tect the privacy of religious activities and cultural uses in  
10 such portions by an Indian people. As part of the prepara-  
11 tion of general management plans for the protected areas,  
12 the Secretaries shall request that the chief executive offi-  
13 cers of appropriate Indian tribes make recommendations  
14 with respect to assuring access to important sites, enhanc-  
15 ing the privacy of traditional cultural and religious activi-  
16 ties, and protecting cultural and religious sites.

17 (c) COOPERATIVE AGREEMENT.—The Forest Service  
18 and Bureau of Land Management shall enter into coopera-  
19 tive management agreements with the appropriate Indian  
20 tribes to assure protection of religious, burial, and gath-  
21 ering sites in the protected areas, and shall work coopera-  
22 tively on the management of all uses in the protected areas  
23 that impact Indian lands and people.

1                   **TITLE VI—RULES OF**  
2                   **CONSTRUCTION**

3 **SEC. 601. WATER RIGHTS.**

4           Nothing in this Act may be construed as a relinquish-  
5 ment or reduction of any water rights reserved, appro-  
6 priated, or otherwise secured by the United States in the  
7 State of Idaho, Montana, Wyoming, Oregon, or Wash-  
8 ington on or before the date of enactment of this Act.

9 **SEC. 602. INDIAN TRIBES.**

10          Nothing in this Act may be construed to affect or  
11 modify any treaty or other right of an Indian tribe.
